APPENDIX K

Public Safety Letters

City of Santa Rosa
Police Department

M E M O R A N D U M

DATE: April 8, 2019

TO: Kristinae Toomians

FROM: Lt. Rick Kohut

SUBJECT: Caritas Village Project

The Santa Rosa Police Department is located at 965 Sonoma Avenue in Santa Rosa. We also have a substation downtown near the Transit Mall, and one on West Steele Lane. We employ 266.5 employees. Our mission is to make Santa Rosa a safe place to live, work, and play. Our primary function is to respond to calls for service generated by 911 calls and calls to our non-emergency lines. In patrol, the City is divided into nine "beats" and covered by eight patrol teams, plus traffic units and sergeants. We have general aid agreements – more of an MOU – with other agencies in the case of officer involved shootings or similar calls where our investigative services and experiences might be of use and to avoid the possible conflict of interest in having agencies investigate their own officer involved shootings.

Our calls are prioritized into three categories, Priority I, Priority II, and Priority III. In 2018 the average response time to Priority I calls was 6 minutes and 26 seconds. Priority II calls averaged a 12 minute 24 second response, and Priority III calls averaged 26 minutes and 16 seconds.

Our agency is also comprised of Investigative Units: Violent Crimes, Gangs, Domestic Violence and Sexual Assault, Narcotics, and Property Crimes. We also have a Professional Standards Section and a Training Section. The Communications Dispatch Center, Records Section, IT Section, and administrative staff round out the department. The department operates 24 hours per day, 365 days per year.

The department received 260,787 calls in 2018. Officers responded to or self-initiated 140,356 calls for service. 15% of all calls for service involve contact with individuals experiencing homelessness.

To forecast the impact the Caritas Village Project may have on the downtown area from a law enforcement prospective, the Santa Rosa Police Department looked at calls for service related to services and locations like the Caritas Village Project will provide.

Calls for service 2018

941 - Homeless Services Center located at 600 Morgan Street.

700 – Palms Inn located at 3345 Santa Rosa Ave.

419 – Santa Rosa Community Health Center located at 983 Sonoma.

The Caritas Village Project will combine housing, homeless servicers and a medical facility in one location within Beat 9, which encompasses most of the downtown area. It's difficult to predict the exact impact the project will have on the downtown area and police services, but the above numbers could provide some approximation on calls for service. The potential calls for service associated with the Caritas Village Project would have a considerable impact on the Santa Rosa Police Department. Geographically, Beat 9 is the smallest patrol beat but with a higher population density which generates the most calls for service in the city. The Caritas Village Project would add to the already high volume of calls for service.

I have attached several Excel files detailing the calls for service at each location.

2018 SCSD Calls for Service, By Call Type

Within a 200 Yard Radius of 3345 Santa Rosa Av

To: Stantec Consulting Services Inc. Elena Nuno

Date: March 11, 2019

From: Jason Jenkins Battalion Chief, Scott Moon Fire Marshal

Re: Caritas Village Project Stantec File 185704321

Elena,

The Santa Rosa Fire Department provides the following information as requested for the proposed Caritas Village Project.

1. Please provide a description of the Santa Rosa Fire Department. We would appreciate information about services provided, organization, stations, staffing, response times, and aid agreements.

   The Santa Rosa Fire Department has a staff of 146 employees serving a community population of over 181,000 residents. There are ten fire stations strategically located throughout the City covering 42 square miles. Each fire station has an engine company comprised of three personnel, fire station 1 and 2 have a ladder truck company comprised of 4 personnel. The SRFD responds to more than 27,000 calls for service per year specific to fire, emergency medical, rescue, and hazardous materials incidents. The department provides fire suppression, rescue, emergency medical services, operations-level hazardous materials response, and fire prevention. The Santa Rosa Fire Department has a contract in place to provide both emergency and non-emergency services to the Roseland Fire Protection District which was recently annexed into the City limits. Through automatic aid agreements the Department provides response to the County of Sonoma, and Rincon Valley, Kenwood and Bennett Valley Fire Protection Districts.
   For response times refer to the city of Santa Rosa Fire Department Standards of Coverage and Deployment Plan 2016.
   https://srcity.org/DocumentCenter/View/16288/Santa-Rosa-SOC-Final-7-2017

2. Please provide the number of calls for service the Fire Department responded to citywide in 2018. Please provide the number of calls for service the existing homeless services and family services operations has generated. If possible, please provide a breakdown of call type (medical emergencies, fires, false alarms, etc.)

   See Attached Santa Rosa Fire Department call for service spreadsheet for questions 2 and 3.

   2018 calls for service to 465 A St. and 600 Morgan= 157 annual calls for service by the fire department, these calls. These calls do not represent calls in the surrounding area related to homeless calls for service. Those calls are listed in the attached downtown homeless street listing document

   Please identify the number of calls for service that you anticipate the proposed project will generate, and, if possible, please provide a breakdown of call type (medical emergencies, fires, false alarms, etc.) Please indicate if the Fire Department would have adequate resources to accommodate this number of calls for service.

   Based on the information provided for the Caritas Village project, the Santa Rosa Fire Department is estimating the annual calls for service for the project to be approximately 350, an which is an increase of 193 calls per year. The most significant increase is based on the two Caritas housing units, which add approximately 222 people. The estimated calls for service for the two housing units is based on a comparison of similar housing projects of similar size within city.

   The estimated calls for service for Caritas are based on the current calls for service at the property, added programs, the two large housing units, as well as the night time calls for service at 983 Sonoma Ave. This property serves the Nightingale shelter, which will be moved to the proposed site. We anticipate an increase in calls for service from engine one which is located within close proximately of this shelter.

   The annual estimate of 350 calls for service is a conservative approximation based upon services currently being provided and does not include future development or expansion of homeless services.

3. Please describe any significant challenges the proposed project may present to the Fire Department, particularly as it relates to the 24-hour operation of the Caritas Center. This includes concerns related to response times, staffing, apparatus, fire stations, etc. For any significant concerns, please describe what measures you would recommend reducing the potential impact.

   The proposed project will mainly be a new construction project, except for a couple of the existing buildings. With that said there will be compliant aerial, engine and operational

personnel access to the project site, fire sprinklers and standpipes (three-story and taller buildings) for the buildings, fire alarm on/site and off-site monitoring for water flow, tampering of control valves, smoke, kitchen hood extinguishing system, manual pull device, air handling smoke detection devices, elevator recall. Elevators shall be appropriate size for emergency medical gurney.

The project is within the response area of fire engine one. Engine One is currently among the busiest engine companies in the country at nearly 5000 call per year, placing it in the top 25 in the nation. Adding additional workload to this engine will impact the response system. The increased work load and call increase by a single project is concerning, as Engine One is currently well above the unit work load hours suggested by NFPA. The unit workload performance is measured at the 90th percentile, unit hour utilization greater than 10 percent means that the response unit will not be able to provide on-time response to its 90 percent target even if response is its only activity. Currently Engine 1 and 11 are exceeding 10 percent unit hour utilization.

As the Engine one call volume continues to increase, the likely hood of a second responding engine to the facility will occur on occasion. The second unit may be a ladder truck, or Engine 11 from the Santa Rosa Junior College neighborhood area. When Engine 11 is assigned to a call out of their normal response area, a large void is left in the city. Engine 11 is also extremely busy and working above NPPA recommendations, responding to 4562 incidents in 2018

Adding an additional response unit to the fire department response system would be an ideal solution to address the increased workload. This could be done by adding a rescue squad, staffed with two firefighters. The rescue squad would greatly enhance the response system to the busy downtown core and beyond.

Placing an additional firefighter on Engine One could also be considered. Busy engines with similar call volume throughout the country, often staff an engine with four firefighters. This would increase scene productivity and reduce commitment time for the engine. Reducing scene time, means the engine becomes available for additional calls for service. This greatly helps with keeping engines in the appropriate coverage areas throughout the city.

4. Please feel free to provide any additional information you believe to be relevant to the proposed project.

Based on the square footage and total scope of the project, the fire department is concerned that any future services the facility provides, will increase calls for service, placing additional demand on the fire department. The fire department shall be consulted on all future facilities operating permit changes.
