LABORATORY REPORT

ENVIRONMENTAL BUSINESS SOLUTIONS, INC.
8799 BALBOA AVENUE, SUITE 290
SAN DIEGO, CA 92123

REPORT TO:	BARRY PULVER	GEOTEST PROJECT NO.:	961138-03
		CLIENT ID:	93E1163.2
PROJECT NAME:	LA MESA RV CENTER		
SITE LOCATION:	7601 ALVARADO ROAD LA MESA, CA		

GEOTEST is pleased to provide you with analytical data for your above referenced project. Samples were collected on 03/31/96 and received intact and cool on 04/03/96. In accordance with the chain of custody, the samples were analyzed for the following analytical parameters:

ANALYTICAL TEST	PAGE
Total Lead	2-3
MBTE	4-5

In addition, the analysis for flashpoint was subcontracted to an outside laboratory with results issued on a separate laboratory report.

REVIEWED AND APPROVED: Richard Villafania, Laboratory Manager

REPORT DATE: 4-8-96

This report pertains only to the samples investigated and does not necessarily apply to other apparently identical or similar materials. All samples are analyzed on an as received (wet weight) basis. Any results listed as "ND" are not detected above the indicated limit of detection. All method numbers referenced are EPA method numbers except where otherwise noted. This report is submitted for the exclusive use of the client to whom it is addressed and is only valid in its entirety. ELAP certification #1225.

RE: Report of Soil and Groundwater Assessment Activities Performed Pursuant to the Request of San Diego County Site Assessment and Mitigation Division (SAM) for the La Mesa R.V. Center at 7601 Alvarado Road, La Mesa, California (Site)

Dear Mr. Buckner:

Environmental Business Solutions, Inc. (EBS) is pleased to present this letter report (Report) which summarizes the results of a soil and groundwater assessment recently performed at the Site. The work described in this report was conducted in general accordance Exhibit "2" to the Consulting Agreement (Contract) between EBS and La Mesa R.V., Inc. (Client). The Contract was fully executed on February 3, 1994.

SITE INFORMATION

SITE LOCATION/DESCRIPTION

The Site is located in a commercial/retail portion of the City of La Mesa (Figure 1). Topographically, the Site is located along a relatively level terrace. Steep slopes are located along the southern portion of the Site.

At the time of the assessment, the Site was observed to be used for the sale and repair of recreational vehicles. Site improvements include offices, showrooms, service bays, and associated driveways and parking areas. The northern portion of the Site is generally used for showrooms, vehicle parking, and sales offices. The southern portion of the Site is used for the repair and servicing of vehicles. Four underground storage tanks (USTs) were formerly located in the southern portion of the Site.

SITE IDENTIFICATION

Site Name:	La Mesa R. V. Center
Site Location:	7601 Alvarado Road, La Mesa, California 92041
SAM Case Number:	HO2651-001, T0427

BACKGROUND

The following background information is from previously reported data and reports prepared by others and by EBS. Four USTs of various capacities were removed from the Site. The USTs stored new oil, used oil, and gasoline. The USTs were located immediately to the west and south of a service bay building at the Site (Figure 2). The four USTs consisted of one 550-gallon used oil UST, two 550-gallon new oil USTs, and one 2,000-gallon regular gasoline UST.

UST REMOVAL OF FEBRUARY 1988

The USTs were removed in February 1988 by Alm Services (Alm). The "Abandoned Underground Tank Report" prepared for the Site by the San Diego County Hazardous Materials Management Division (HMMD) inspector indicated that each of the USTs had holes ranging from pinhole size to three-quarters of an inch in diameter. Groundwater impact was not noted during the USTs' removal, although groundwater was observed at a depth of approximately 7 feet below grade in the excavation.

Correspondence from Alm to the HMMD in March 1988 indicated that six soil samples from the UST excavation were collected. Detectable concentrations of both total petroleum hydrocarbons (TPH) and total recoverable petroleum hydrocarbons (TRPH) were found in each of the samples collected. In May 1988, Alm was reported to have collected an additional three samples from the new and used oil area of the UST excavation. Detectable concentrations of TRPH were found in each of the three samples.

ASSESSMENT/REMEDIATION ACTIVITIES PERFORMED BY HALLIBURTON NUS IN MARCH 1992

In March 1992, subsequent to the submission and approval of a workplan, we understand that Halliburton NUS (Halliburton) conducted an exploratory excavation program at the Site. Approximately 400 cubic yards of soil was excavated from the vicinity of the former USTs. Numerous confirmation samples were collected during the excavation program (Tables 1 and 2, and Figure 2, 3). Confirmation samples indicated that soil with concentrations of both TPH and TRPH remained in the vicinity of the excavation.

WORKPLAN PREPARED BY EBS IN NOVEMBER 1993

In November 1993, EBS submitted a workplan to Mr. Lars Skinner of the SAM for review and approval. The workplan described an assessment which included the following:

- Drilling and sampling of seven soil borings and converting three of the soil borings to groundwater monitoring wells (wells);
- Monitoring, purging, and sampling the three wells; and
- Performing laboratory analysis on the collected soil and groundwater samples.

The workplan was approved by Mr. Skinner on December 9, 1993.

SOIL AND GROUNDWATER ASSESSMENT PERFORMED BY EBS IN FEBRUARY 1994

During this investigation, 11 soil borings (B-1, B-1A, B-2, B-3, B-4, B-4A, B-5, B-6, MW-1, MW-2, and MW-3) were drilled, three of which were converted to groundwater monitoring wells MW-1, MW-2, and MW-3 (Figure 2). Work performed during this investigation included the collection and analysis of soil and groundwater samples. A report[1] summarizing the assessment activities was prepared and submitted to the SAM in March 1994. Pertinent portions of the March 1994 report are presented as follows.

Site Geology

Geologic materials encountered during the assessment included fill soils, topsoil, and alluvium. A brief description of these units is presented below:

Fill

Fill soil was encountered in all of the soil borings. These deposits generally consisted of dark gray brown gravelly silty sand (SM), black silty gravelly sand

[1] *Report of Soil and Groundwater Investigation Pursuant to the Requirements of* the San Diego County Site Assessment and Mitigation Division (SAM) for La Mesa R. V. Center, Inc., Located at 7601 Alvarado Road, La Mesa, California (Site).

(SW), and yellow brown clayey sand (SC). Fill soil was observed to extend to a maximum depth of approximately 8 feet below grade.

Topsoil

Topsoil was encountered in soil borings and wells B-1, B-3, B-4, B-5, MW-1, and MW-2. Topsoil generally consisted of a dark brown silty sand/sandy silt (SM/ML). Topsoil was encountered to a maximum depth of approximately 12 feet below grade. It should be noted that the topsoil layer was observed to contain significant amounts of naturally occurring organic matter such as plant roots and other plant matter in varying degrees of decomposition. The topsoil layer was observed to be underlain by alluvium.

Alluvium

Alluvium was encountered in all soil borings and wells. These deposits generally consisted of red brown gravel/silty gravel (GW/GM), yellow brown gravelly clayey sand (SC), and a distinctive and cemented yellow brown gravelly clayey sand (SC). The cemented layer was generally encountered at a depth of approximately 10 feet below grade. It should be noted that the cemented layer was encountered in all soil borings and wells, and appeared to be dipping towards the west. The cemented layer was observed to have a thickness of approximately 10 feet.

Site Hydrogeology

As interpreted from maps prepared by the Regional Water Quality Control Board, San Diego Region (RWQCB) in the Comprehensive Water Quality Control Plan Report, dated 1979, the Site is located within the Chollas Hydrologic Subarea of the San Diego Mesa Hydrologic Area of the Pueblo San Diego Hydrologic Unit. As stated in RWQCB Resolution 91-79, this basin does not have any existing or potential municipal and industrial beneficial uses of groundwater.

The shallow groundwater at the Site is generally encountered at a depth of approximately 4 to 9 feet below grade. The shallow groundwater is interpreted to flow generally towards the west at a gradient of approximately 0.08 (8 feet of elevation difference for every 100 feet of horizontal distance).

The shallow groundwater is interpreted to be a perched water table. The cemented layer encountered at the Site is interpreted to be a confining layer on which the shallow groundwater is perched.

Soil Sample Analytical Results

All soil samples collected during the February 1994 assessment were tested for TPH and TRPH in general accordance with modified EPA Method 8015 (California Department of Health Services modified) and EPA Method 418.1, respectively. Laboratory test results are presented in Figure 3 and Table 3. TPH concentrations were reported to range from not detected to 271 milligrams per kilogram (mg/kg). TRPH concentrations were reported to range from not detected to 9,140 mg/kg.

In addition, the soil sample with the highest reported TRPH concentration (sample B1-10) was also analyzed for the following:

- Benzene, toluene, ethylbenzene, and total xylenes (BTEX) in general accordance with EPA Method 8020;
- Halogenated volatile organic compounds (HVOCs) in general accordance with EPA Method 8010;
- Polychlorinated biphenyls (PCBs) in general accordance with EPA Method 8080; and
- Organic lead in general accordance with EPA Method 6010.

Soil sample B1-10 was reported to have no detectable concentrations of BTEX, HVOCs, and PCBs. Soil sample B1-10 was reported to have an organic lead concentration of 1.5 mg/kg.

Groundwater Sample Test Results

All groundwater samples collected during this assessment were tested for TPH and BTEX in general accordance with modified EPA Method 8015 and EPA Method 8020, respectively. Laboratory test results are presented in Table 4. All samples were reported to have no detectable concentrations of TPH or BTEX.

Conclusions

Conclusions presented in the March 1994 report included:

- The horizontal extent of gasoline- and diesel-bearing soil is generally limited to the immediate vicinity of the former UST excavation. Gasoline and diesel-bearing soil extends to a maximum depth of approximately 15 feet below grade.

- The horizontal extent of TRPH-bearing soil (soil with TRPH concentrations greater than 1,000 mg/kg) has generally been assessed. Based on available data, the western, southern, and eastern limits of TRPH-bearing soil have been inferred. The maximum extent of TRPH-bearing soil has been inferred to extend approximately 30 feet in the interpreted downgradient direction, with respect to shallow groundwater flow, from the former oil USTs.

- There were no reported concentrations of TRPH, TPH, or BTEX in the groundwater samples collected from wells at the Site.

SAM LETTER OF FEBRUARY 7, 1995

On February 7, 1995, Mr. Lars Skinner issued a letter regarding his review of the assessment report prepared by EBS. Mr. Skinner requested that the following be performed:

- Provide additional assessment of petroleum hydrocarbon-bearing soil in the following areas:

  — West/northwest of soil sample GES-11 and well MW-1;

  — West of soil sample OES-11;

  — Southwest of soil samples OES-12 and OES-13; and

  — Vertically below soil borings B-1 and B-4.

- Provide an estimate of the volume of petroleum hydrocarbon-bearing soil remaining on Site, and the mean and maximum TPH and TRPH concentration of this soil.

- Provide a contour map of TPH and TRPH concentrations remaining in the soil.

- Clarify the distribution of TPH and TRPH in soil.

- Provide an explanation for the distribution of TRPH-bearing soil.

- Perform additional groundwater monitoring and sampling.

WORKPLAN AND QUARTERLY GROUNDWATER MONITORING REPORT PREPARED BY EBS

On May 1, 1995, EBS submitted a workplan and quarterly groundwater monitoring report[2] to the SAM. Prior to preparing the May 1995 report, the three wells were monitored, purged, and sampled. Laboratory test results are presented in Table 4. Groundwater monitoring data are presented in Table 5. All samples were analyzed for the following:

- TRPH in general accordance with EPA Method 418.1;
- TPH in general accordance with modified EPA Method 8015;
- BTEX in general accordance with EPA Method 8020;
- Methyl tertiary butyl ether (MTBE) in general accordance with EPA Method 8020; and
- Polynuclear aromatic hydrocarbons (PNA) in general accordance with EPA Method 8310.

All groundwater samples were reported to have no detectable concentrations of TPH, BTEX, MTBE, and PNA. TRPH concentrations ranged from 410 (sample MW-1) to 1,000 (sample MW-2) micrograms per liter (µg/*l*).

The workplan presented a scope of work intended to assess the shallow soil at the Site. This scope of work included the drilling, sampling, and logging of four soil borings; monitoring, purging and sampling of three wells; and laboratory analysis of collected soil and groundwater samples.

SAM WORKPLAN APPROVAL LETTER OF JUNE 19, 1995

On June 19, 1995, Ms. Carol Spangenberg of the SAM issued a workplan approval letter, which is included in the Appendix.

OBJECTIVES

The objectives of this scope of services were to:

---

[2] Quarterly Groundwater Monitoring Report for the First Quarter of 1995 and Workplan Describing Additional Site Assessment Activities Pursuant to the Request of San Diego County Site Assessment and Mitigation Division (SAM) for the La Mesa R. V. Center at 7601 Alvarado Road, La Mesa, California (Site).

- Further assess the extent of petroleum hydrocarbon-bearing soil in the vicinity of the former gasoline and new and used oil USTs at the Site.

- Assess shallow groundwater at the Site for flow direction, gradient, and concentration of dissolved petroleum hydrocarbons.

SCOPE OF SERVICES

The scope of services that were used to meet the objectives are as follows:

PREPARATION OF A SITE HEALTH AND SAFETY PLAN; PREPARATION OF SOIL BORING PERMIT APPLICATIONS; SUBCONTRACTOR MANAGEMENT AND SCHEDULING; AND UTILITY SEARCH AND MARK OUT

Preparation of a Site Health and Safety Plan

A health and safety plan for work conducted at the Site and workers within the "exclusion zone" is required pursuant to the regulations in 29 Code of Federal Regulations (CFR) Part 1910.120. Therefore, a health and safety plan was prepared which outlined the potential chemical and physical hazards that may be encountered during drilling and sampling activities. The appropriate personal protective equipment and emergency response procedures for the site-specific chemical and physical hazards were detailed in this plan. EBS and contracted personnel involved with the proposed field work were required to sign this document in order to encourage proper health and safety practices.

Preparation of Soil Boring Permit Applications

Because the soil borings were anticipated to intersect groundwater, soil boring permit applications were prepared. The permit applications were signed by the appropriately licensed professional and submitted to the SAM with the appropriate fee on August 29, 1995.

The permits were approved on September 5, 1995. Copies of the approved permits are included in the Appendix.

Subcontractor Management and Scheduling

Prior to mobilizing for field work, EBS notified and scheduled the appropriate subcontractors including, but not limited to, the laboratories (Transglobal Environmental Geochemistry [TEG] and Geotest), the drilling company (West HazMat Drilling Corp. [West Hazmat]), Underground Service Alert (USA), and the private utility search company (Cable Pipe Locators [CPL]).

Utility Search and Mark Out

As required by state law, EBS contacted USA prior to performing field work. USA issued ticket numbers 196-623 and 210-149. USA contacted Cox Cable, Mt. Helix Water District, Pacific Bell, San Diego Gas and Electric, the cities of La Mesa and San Diego, and the San Diego County water utility districts. In addition, before the soil borings were drilled, EBS retained the services of CPL to attempt to locate subsurface utilities and improvements at the Site to minimize the likelihood of drilling into an underground utility.

DRILLING, LOGGING, AND SAMPLING FOUR SOIL BORINGS TO MAXIMUM DEPTHS OF APPROXIMATELY 21 FEET BELOW GRADE; MONITORING, PURGING, AND SAMPLING THREE WELLS; AND LABORATORY ANALYSIS OF COLLECTED SOIL AND GROUNDWATER SAMPLES

Drilling, Sampling, and Logging Four Soil Borings to Maximum Depths of Approximately 21 Feet Below Grade

Drilling Procedures

In general accordance with the approved workplan, four soil borings (soil borings B-7, B-8, B-9[3], and B-10) were drilled, logged, and sampled to depths of approximately 21 feet below grade. Soil boring locations are shown in Figure 2. The soil borings were drilled in the vicinity of the western and southwestern perimeter of the former excavation at the Site. The proposed locations of the borings were intended to provide additional information about the possible migration of petroleum hydrocarbons west, northeast and southwest of the former USTs at the Site.

The soil borings were drilled by West Hazmat using a CME-75 drill rig equipped with an Odex casing advance drilling system. This system used a down-hole air percussion hammer to advance the boring. Casing is advanced as the borehole is deepened. This type of rig was used due to the difficult drilling conditions encountered previously at the Site (colluvium and alluvium with abundant gravel and cobble with caving soil).

---

[3] Attempts were made to collect soil samples from soil boring B-9 at depths of approximately 15 and 20 feet below grade. The sample collected at a depth of approximately 15 feet below grade was judged to be possibly not representative based on the blow counts and the visual condition of the sample. Soil boring B-9A was drilled in the vicinity of soil boring B-9 in an attempt to collect a sample from a depth of approximately 15 to 16 feet below grade.

Soil cuttings were placed in appropriate 55-gallon drums and left on the Site pending disposal. Upon completion of drilling and sampling the soil borings, the boreholes were backfilled with a bentonite slurry from the bottom of the borehole to approximately 1 foot below grade. The upper foot was backfilled with concrete.

Sampling Procedures

A California-registered geologist was on the Site to observe the drilling activity and describe collected soil samples in general accordance with the Unified Soil Classification System. Soil boring logs are presented in the Appendix. Soil samples were generally collected at 5-foot intervals, at interpreted significant geologic contacts, and at the field interpreted water table.

During the drilling of the soil borings, soil samples were collected with a split-spoon type or similar sampler. In order to attempt to maximize the quality of the soil sample, the sampler was driven as far as possible from the bottom of the borehole.[4] The materials encountered during drilling limited the depth that the sampler could be driven. The sampler was "set" by driving the sampler an initial 6 inches[5] prior to driving the sampler to collect the sample. The initial 6 inches of sample collected in the sampler was discarded.

Soil samples were either collected in brass tubes or transferred to laboratory-supplied jars. When tubes were used, the tubes were covered with Teflon™ sheeting, tightly closed with end caps, and labeled. When laboratory-supplied jars were used, the jars were capped and labeled. All samples were either placed in an ice-filled chest or delivered immediately to an on-site mobile laboratory. Chain-of-custody procedures were implemented for sample tracking.

Decontamination Procedures

As required by San Diego County guidelines, a steam cleaner was on-site to steam-clean the augers, casing, and percussion hammer and connecting rods between each soil boring. The soil sampler was cleaned between sampling events with a four-bucket wash: a Alconox-water solution, followed by two tap water rinses, and a final spray rinse with distilled water. Steam cleaner and sampler cleaning water were placed in appropriate drums, labeled, and left on the Site.

---

[4] This method was also followed in the previous soil sampling performed by EBS.

[5] The number of blow counts recorded in the soil boring logs reflects the blows after the initial drive to "set" the sampler.

Monitoring, Purging, and Sampling Three Wells

On November 27, 1995, three groundwater monitoring wells (MW-1, MW-2, and MW-3) were monitored, purged, and sampled. The wells were monitored with an electronic interface probe to measure depth to water and depth to product (if encountered). Monitoring data are shown in Table 5.

After the wells were monitored they were purged and sampled in general accordance with SAM guidelines. The wells were purged with a bailer. Purge water was placed in appropriate drums and left on-site. Approximately 1 borehole volume of water was purged from each well. After approximately 2 hours after purging, the wells did not recharge to at least 80 percent of the pre-purging water table. The wells were judged to be slow recharging and were sampled. Well purging logs are included in the Appendix.

Groundwater was sampled with a disposable bailer. The groundwater samples were decanted into laboratory-supplied vials, capped, labeled, and placed in an ice-filled chest or immediately delivered to an on-site mobile laboratory. Chain-of-custody procedures were implemented for sample tracking.

Laboratory Analysis of Collected Soil and Groundwater Samples

Soil Samples

All soil samples were delivered to an on-site mobile laboratory supplied by TEG and analyzed for the following:

- TPH[6] in general accordance with modified EPA Method 8015;
- TRPH in general accordance with EPA Method 418.1; and
- BTEX in general accordance with EPA Method 8020.[7]

In addition, the sample with the highest reported TRPH concentration (sample B9-10) was submitted to Geotest and analyzed for California Code of Regulations (CCR) Metals in general accordance with EPA Method 6010. This analysis was performed as required for soil disposal approval.

---

[6] "Full scan" includes gasoline and diesel ranges.

[7] BTEX analysis was performed on the sample, per soil boring, with the highest reported TPH concentration, or if there were no reported TPH concentrations, the sample with the highest reported TRPH concentration.

TPH, TRPH, and BTEX results are shown in Figure 4, and Tables 6 and 7. Laboratory test reports are provided in the Appendix.

Groundwater Samples

Groundwater samples were delivered to an on-site mobile laboratory supplied by TEG and analyzed for the following:

- TPH[8] in general accordance with modified EPA Method 8015;
- BTEX in general accordance with EPA Method 8020; and
- TRPH in general accordance with EPA Method 418.1.

In addition, a duplicate set of groundwater samples was submitted to Geotest and analyzed for the following:

- HVOCs in general accordance with EPA Method 8010/8020; and
- MTBE in general accordance with EPA Method 8020.

Groundwater laboratory test results (with the exceptions of HVOCs and PNAs) are shown in Table 4. Laboratory test reports are attached.

FINDINGS

SITE GEOLOGY AND HYDROGEOLOGY

Geologic materials encountered during the most recent drilling activity were similar to those from previous assessment activities, with the exception that fill soil was not interpreted to have been encountered. A brief description of two units encountered during this phase of work is presented below:

Topsoil

Topsoil generally consisted of a dark brown silty sand/sandy silt (SM/ML). Topsoil was encountered to a maximum depth of approximately 12 feet below grade. The topsoil was observed to contain significant amounts of naturally occurring organic matter and be underlain by alluvium.

---

[8] "Full scan" includes gasoline and diesel ranges.

Alluvium

Alluvium generally consisted of red brown gravel/silty gravel (GW/GM), yellow brown gravelly clayey sand (SC), and a distinctive and cemented yellow brown gravelly clayey sand (SC). The top of the cemented layer was generally encountered at a depth of approximately 10 feet below grade. It should be noted that the cemented layer appeared to dip to the west.

Hydrogeology

The shallow groundwater at the Site was generally encountered at a depth of approximately 4 to 9 feet below grade (Table 5). The shallow groundwater is interpreted to generally flow towards the west (Figure 5) at a gradient of approximately 0.08 (8 feet of elevation difference for every 100 feet of horizontal distance). The shallow groundwater at the Site is interpreted to be a perched along the top of the cemented layer.

SOIL SAMPLE ANALYTICAL RESULTS

Total Petroleum Hydrocarbons

Fifteen soil samples were collected and analyzed for TPH. Only one soil sample (sample B9-10) was reported to have detectable TPH concentrations. As shown in Table 6, sample B9-10 was reported to have TPH as gasoline and diesel concentrations of 25 and 63 mg/kg, respectively.

Total Recoverable Petroleum Hydrocarbons

Fifteen soil samples were tested for TRPH. As shown in Table 6, these soil samples were reported to have TRPH concentrations ranging from not detected to 4,550 mg/kg (sample B9-10). In general, the soil samples collected near the top of the cemented layer (samples B7-10, B8-10, B9-10, and B10-10) were reported to have the highest TRPH concentration per soil boring.

Benzene, Toluene, Ethylbenzene, and Xylenes

All soil samples were reported to have no detectable concentrations of benzene and ethylbenzene. With the exception of soil sample B9-10, all soil samples were reported to have no detectable concentrations of toluene and xylenes. As shown in Table 7, soil sample B8-12 was reported to have toluene and xylene concentrations of 0.110 and 0.066 mg/kg, respectively.

GROUNDWATER SAMPLES

Total Petroleum Hydrocarbons

All groundwater samples were reported to have no detectable TPH concentrations.

Total Recoverable Petroleum Hydrocarbons

All groundwater samples were reported to have no detectable TRPH concentrations.

Benzene, Toluene, Ethylbenzene, and Xylenes

All three groundwater samples were reported to have no detectable benzene concentrations. Only one sample (the sample collected from well MW-2) was reported to have detectable concentrations of toluene (32.9 µg/l), ethlybenzene (2.0 µg/l), and xylenes (12.5 µg/l).

Methyl Tertiary Butyl Ether

With the exception of the groundwater sample collected from well MW-2 (sample MW-2), all groundwater samples were reported to have no detectable concentrations of MTBE. As shown in Table 4, groundwater sample MW-2 was reported to have a MTBE concentration of 0.7 µg/l.

Halogenated Volatile Organic Compounds

All groundwater samples were reported to have no detectable concentrations of HVOCs.

DISCUSSION

DESCRIPTION OF RELEASE

Substance Released

As reported by Halliburton,[9] gasoline, diesel fuel, and new and used oil were released from the former USTs. Based on review of laboratory test results of soil samples collected by EBS, it is our professional opinion that the vast majority of petroleum hydrocarbons released to the shallow subsurface are typical of oil. The rationale for this opinion is as follows:

---

[9] Interim Report on Soil Assessment and Mitigation for La Mesa RV Center, 7601 Alvarado Road, San Diego [sic], California report dated August 1992.

- The interpreted extent of gasoline- and diesel-bearing soil is limited to the immediate vicinity of the former USTs; TRPH-bearing soil appears to encompass a larger area.[10]

- An analysis of the reported TPH and TRPH concentrations of soil samples collected by EBS was performed in general accordance with the request and procedure detailed by Mr. Lars Skinner in his February 7, 1995, letter. The procedure used was to calculate the percentage of TRPH relative to TPH[11] in order to evaluate the amount of gasoline and diesel in relation to oil.

  The basis for this analysis is that the TRPH analysis (EPA Method 418.1) and TPH analysis (modified EPA Method 8015) have a slight overlap. The TRPH analysis quantifies petroleum hydrocarbons with carbon chain lengths of C_5 to C_{40}. This range includes gasoline, diesel, and waste oil. The TPH analysis performed by TEG quantified petroleum hydrocarbons with carbon chain lengths of C_5 to C_{24}. This range includes gasoline and diesel fuel, but not oil.

  The concentration of petroleum hydrocarbons with carbon lengths of C_{25} to C_{40} may be estimated using the difference between the reported TRPH and TPH concentrations. This carbon chain range includes oils, but not gasoline or diesel.

  The results of this analysis, as shown in Figure 6 and Table 8, indicate that the vast majority of reported petroleum hydrocarbons have carbon chain lengths of C_{25} to C_{40}. This suggests that the released petroleum hydrocarbons are predominantly oil.

- Selected soil samples were analyzed for BTEX. BTEX is a commonly found additive to gasoline and its presence is frequently an indicator of gasoline. Only relatively minor concentrations of BTEX compounds were reported. This suggests that gasoline was not a significant component of the released petroleum hydrocarbons.

- Groundwater samples were analyzed for PNAs. This analysis was performed per the request of the SAM. It is our understanding that

---

[10] The interpreted extent of petroleum hydrocarbon-bearing soil is discussed in a following section.

[11] For this analysis TPH is the sum of the reported concentration of TPH as gasoline and as diesel. A value of zero was assigned to samples with "no detectable" concentrations.

naphthalene is a highly soluble component of diesel fuel and frequently used as an indicator of diesel fuel. The laboratory reported no detectable concentrations of PNAs. This suggests that diesel fuel was not a significant component of the released petroleum hydrocarbons.

- Groundwater samples have been analyzed for MTBE and for BTEX. These components are very soluble components of gasoline,[12] and their presence is frequently an indicator of gasoline. Only minor quantities of MTBE, toluene, ethlybenzene, and xylenes have been reported for the collected groundwater samples. This suggests that gasoline was not a significant component of the released petroleum hydrocarbons.

Mechanisms of Migration of Released Petroleum Hydrocarbons

Based on review of the laboratory test results and our understanding of the Site geology and hydrogeology, it appears that the released petroleum hydrocarbons migrated in two pathways as described below:

- Initially the petroleum hydrocarbons migrated vertically from the point of release[13] within the vadose zone.

- After the petroleum hydrocarbons migrated and intersected the cemented layer, the petroleum hydrocarbons generally migrated towards the west, either along the perched water table or along the top of the previously described cemented layer.

INTERPRETED EXTENT OF PETROLEUM HYDROCARBON-BEARING SOIL[14]

Interpreted Horizontal Extent of Petroleum Hydrocarbon-Bearing Soil

As shown in Figures 7 and 8, it is our interpretation that the horizontal extent of petroleum hydrocarbon-bearing soil has been assessed. The rationale for this interpretation is as follows:

---

[12] MTBE is a gasoline additive.

[13] The exact location and mechanisms of the release(s) are unknown. However, it is assumed that the release(s) occurred from the UST system. The former USTs are assumed to be considered, for this discussion, the point of release.

[14] For discussion purposes only, petroleum hydrocarbon-bearing soil is defined as soil with TRPH concentrations in excess of 100 mg/kg.

- The highest reported TRPH concentrations were from soil samples collected at depths of approximately 8 to 10 feet below grade. This is consistent with the migration pathway along the perched water table as discussed above. Therefore, soil samples collected from depths of approximately 8 to 10 feet below grade have been used to assess the horizontal extent of petroleum hydrocarbon-bearing soil. Soil samples used to assess the horizontal extent of petroleum hydrocarbon-bearing soil are as follows:

  — The northern extent of petroleum hydrocarbon-bearing soil is assessed by using analysis of soil samples GES-2, GES-3, GES-5 and B7-8.

  — The eastern extent of petroleum hydrocarbon-bearing soil is assessed by using analysis of soil samples GES-5, MW3-8, and MW3-10.

  — The southern extent of petroleum hydrocarbon-bearing soil is assessed by using analysis of soil sample B5-10.

  — The western extent of petroleum hydrocarbon-bearing soil is assessed by using analysis of soil samples B6-8, B7-10, and B10-10.

Interpreted Vertical Extent of Petroleum Hydrocarbon-Bearing Soil

As in the March 1994 report,[15] it is our opinion that petroleum hydrocarbon-bearing soil extends to a maximum depth of approximately 15 feet below grade. The rationale for this opinion is as follows:

- The cemented layer encountered at the Site has acted as a confining layer for the perched groundwater. This layer would minimize the vertical downward movement not only of water, but also of petroleum hydrocarbons.

- Laboratory test results indicate that there is a marked decrease in TRPH concentrations between soil samples collected from the same soil boring

[15] Report of Soil and Groundwater Investigation Pursuant to the Requirements of the San Diego County Site Assessment and Mitigation Division (SAM) for La Mesa R. V. Center, Inc., Located at 7601 Alvarado Road, La Mesa, California (Site)

at depths of approximately 10 feet below grade and soil samples collected at depths of approximately 15 feet below grade. For example[16]:

- Soil samples B3-10' and B3-15' with TRPH concentrations of 904 and 17 mg/kg, respectively.
- Soil samples B7-10 and B7-16 with TRPH concentrations of 108 and <10 mg/kg, respectively.
- Soil samples B9-10' and B9-15' with TRPH concentrations of 4,550 and 79 mg/kg, respectively.
- Soil samples B10-10' and B3-15' with TRPH concentrations of 117 and <10 mg/kg, respectively.

- All soil samples collected from a depth of approximately 20 feet below grade were reported to have TRPH concentrations of less than 60 mg/kg as shown below:
  - Soil sample B4A-20 with a reported TRPH concentration of 27 mg/kg.
  - Soil sample B10-20 with a reported TRPH concentration of 19 mg/kg.
  - Soil sample MW1-20 with a reported TRPH concentration of 59 mg/kg.

Distribution of Petroleum Hydrocarbon-Bearing Soil

As previously stated, initially the released petroleum hydrocarbons migrated vertically from the point of release, and then migrated horizontally along the cemented layer. The soil excavation activity performed by Halliburton removed the majority of the petroleum hydrocarbon-bearing soil in the immediate vicinity of the former USTs. The remaining petroleum hydrocarbon-bearing soil is located in an approximately 7-foot thick zone, extending from approximately 7 to 14 feet below grade, along the top of the cemented layer.

As shown in Figure 8, the concentration distribution of petroleum hydrocarbon-bearing soil is as expected given the Site geology and hydrogeology and the nature of the release. The highest concentrations are generally in the immediate

[16] The examples include data only from soil borings from which soil samples were collected from depths of approximately 10 and 15 feet below grade.

vicinity of the former USTs. The concentrations of petroleum hydrocarbons generally decrease with distance from the former USTs.

VOLUME OF PETROLEUM HYDROCARBON-BEARING SOIL

Based on the available data, the volume of petroleum hydrocarbon-bearing soil remaining in place was estimated to be 1,212 cubic yards. The assumptions used in making this estimate are as follows:

- The areal extent of petroleum hydrocarbon-bearing soil is assumed to be rectangular with dimensions of approximately 85 feet in length and 55 feet in width.

- Hydrocarbon-bearing soil is limited to a layer encountered between approximately 7 and 14 feet below grade.

Based on these assumptions, the volume of petroleum hydrocarbon-bearing soil is estimated as follows:

- 85 ft. x 55 ft. x 7 ft. = 32,725 cubic feet

- 32,725 cubic feet x (1 cubic yard/27 cubic feet) = 1,212 cubic yards

ASSESSMENT OF GROUNDWATER QUALITY AT THE SITE

It is our opinion that groundwater at the Site has not been impacted[17] by release(s) from the former USTs. In addition, because the vast majority of the petroleum hydrocarbons present in the shallow soil appears to be similar to oil, and the solubility of oil in water is extremely low, it is our opinion that there is a low likelihood that the petroleum hydrocarbon-bearing soil remaining in place will result in impact to the shallow groundwater.

There have been three groundwater monitoring events at this Site. As shown in Table 4, at no time has any concentration of BTEX been reported to exceed maximum contaminant levels[18] (MCLs) for drinking water. It should be stressed that all of the groundwater samples were reported to have no detectable benzene concentrations (Table 4).

---

[17] Impact to groundwater for the purposes of this report is defined as concentrations of petroleum hydrocarbons that exceed MCLs, as defined in CCR Title 22, or the presence of free product or groundwater.

[18] MCL as defined in California Code of Regulations, Title 23.

MTBE was only reported to be detectable in one sample collected. Groundwater sample MW-2, collected on November 28, 1995, was reported to have an MTBE concentration of 0.7 µg/l. It should be noted that the detection level for MTBE was 0.6 µg/l. It should be noted the State action level for MTBE is 35 µg/l

In addition to TPH, TRPH, BTEX, and MTBE, groundwater samples collected during this and previous groundwater sampling events have been analyzed for PNAs and HVOCs. There have been no reported detectable concentrations of PNAs or HVOCs.

Detectable concentrations of TRPH were reported in collected groundwater samples. However, it should be noted that there are no known action levels for dissolved concentrations of TRPH in groundwater.

There are various means to estimate the potential for impact to groundwater from the release(s) from the former USTs. These methods may include modeling the solubility and transportation of petroleum hydrocarbons to groundwater, or using laboratory test methods to mimic the potential for leaching. All of these methods are indirect methods and as such are limited by the assumptions incorporated into the methodology.

At this Site we have a direct method of estimating the potential impact to groundwater. The USTs were removed almost eight years ago, and at that time evidence of a release from the USTs was noted. It is reasonable to assume that the release(s) had occurred prior to the time of the UST removal. However, at a minimum, petroleum hydrocarbon-bearing soil has been in contact with groundwater for at least eight years, and to date, there has been no evidence to indicate that groundwater has been impacted. This is strong direct evidence to suggest that the potential for future impact to groundwater is very low.

POTENTIAL RISK OF THE PRESENCE OF PETROLEUM HYDROCARBON-BEARING SOIL AT THE SITE

Potential Risk to Human Health[19]

It is our judgment that there is a very low risk to human health due to the presence of petroleum hydrocarbon-bearing soil at the Site. Our reasons for this judgment are as follows:

- The remaining petroleum hydrocarbon-bearing soil is located at least 7 feet below grade. This 7-foot separation from the surface to the zone of petroleum hydrocarbon-bearing soil effectively prevents human contact

[19] Potential risks to human health are based on the current Site land use.

with the soil, and therefore the potential for ingestion or for dermal exposure.

- The vast majority of released petroleum hydrocarbons are typical of oil. Laboratory test reports indicate that there is a very low concentration of BTEX in the soil. Therefore, the potential for the migration of vapors with BTEX concentrations which may pose a threat to human health is very low to nonexistent.

Also no PNAs

Potential Risk to Groundwater

As previously stated, due to the nature of the petroleum hydrocarbons present in soil, there is a very low potential risk to the shallow groundwater.

CONCLUSIONS

Based on the data reviewed and obtained as part of this assessment, current regulatory guidelines, and our experience, in our professional judgement we have drawn the following conclusions:

- The vast majority of the petroleum hydrocarbons released from the former USTs are typical of oil.
- The interpreted horizontal and vertical extent of petroleum hydrocarbon-bearing soil has generally been assessed.
- Approximately 1,200 cubic yards of petroleum hydrocarbon-bearing soil is present in the immediate vicinity of the former USTs.
- There is a low likelihood that the shallow groundwater at the Site has been impacted from a release(s) from the former USTs.

RECOMMENDATIONS

- Because the remaining petroleum hydrocarbon-bearing soil is judged not to pose a risk to public health nor present a potential impact to groundwater, the SAM should consider issuing a "no further action" letter (site closure).
- After receiving site closure, the Client should consider properly destroying the existing three groundwater monitoring wells.

We have enjoyed working with you on the important project. If we may be of further assistance or you have any question, please feel free to contact the undersigned at 619-571-5500.

Report Usage and Future Site Conditions

This report is intended for the sole usage of La Mesa R.V. Center and its designated agents. Use of this report is subject to the provisions of the fully executed Consulting Agreement (Contract) between La Mesa R.V. Center and Environmental Business Solutions, Inc. Any third party usage of this report shall be subject to the provisions of the Contract and any unauthorized misuse of or reliance upon the report shall be without risk or liability to Environmental Business Solutions, Inc.

The conclusions of this report are judged to be relevant at the time the work described in this report was conducted. Future conditions may differ and this report should not be relied upon to represent future Site conditions unless a qualified consultant familiar with the practice of environmental assessments in San Diego County is consulted to assess the necessity of updating this report.

Although this assessment has attempted to assess the likelihood that the Site has been impacted by a hazardous material/waste release, potential sources of impact may have escaped detection for reasons which include, but are not limited to: 1) our reliance on inadequate or inaccurate information rightfully provided to us by third parties, such as public agencies and other outside sources; 2) the limited scope of this assessment; 3) the presence of undetected, unknown or unreported environmental releases; and 4) the heterogeneous and complex nature of subsurface materials.

12/05 -4 µg/l Benzene

Notes:

1. Samples were tested for total recoverable petroleum hydrocarbons (TRPH) in general accordance with EPA Method 418.1, total petroleum hydrocarbons as gasoline (TPH_g) and as diesel (TPH_d) in general accordance with modified EPA Method 8015, and for benzene (B), toluene (T) ,ethylbenzene (E), total xylenes (X), and methyl tertiary butyl ether (MTBE) in general accordance with EPA Method 8020.

2. --- = Sample not tested for corresponding constituent.

3. All sample results are reported in micrograms per liter (µg/l).

4. With the exception of the MTBE analysis, the groundwater samples collected in November 1995 were analyzed by TEG.

TABLE 5

GROUNDWATER MONITORING RESULTS

WELL NUMBER	DATE	DEPTH TO WATER	DEPTH TO PRODUCT	TOC-ELEV	ELEV-GW
MW-1	2/17/94	8.01	***	97.93	89.92
	3/28/95	7.65	***	97.93	90.28
	11/28/95	7.88	***	97.93	90.05

San Diego, CA 92101

Dear Mr. Buckner:

RE: UNAUTHORIZED RELEASE H02651-001
LA MESA RV CENTER, 7601 ALVARADO RD., LA MESA, CA 92041

This letter has been prepared in accordance with the requirements set forth in Title 23 (State Underground Storage Tank Regulations), Division 3, Chapter 16, Article 11, Section 2722. The purpose of this letter is to notify the Responsible Party of the status of the Quarterly Groundwater Monitoring Report for the First Quarter 1995 and Workplan Describing Additional Site Assessment Activities (Workplan) dated May 1, 1995.

The Workplan prepared by Environmental Business Solutions, Inc. proposes to drill four soil borings to provide additional information on the horizontal and vertical spread of petroleum hydrocarbon contamination.

The Workplan has been approved with the following changes or conditions:

The Workplan proposes to use a pre-existing boring (B4A) to provide confirmation of the vertical extent of contamination at B4. This is acceptable if the registered professional can demonstrate that the soil samples collected at B4A are representative, ie; soil classification at both locations is the same and soil sample collection protocol was appropriate for collecting the soil samples at B4A.

Please include EPA 8240 or EPA 8010 to the analyses required for the next groundwater monitoring. The 1995 SAM manual requires that the groundwater monitoring wells be screened, at least once, for the presence of volatile organic compounds.

Keep this letter for your records as it may be required for corrective action cost reimbursement under Senate Bill 2004 (California Health and Safety Code, Division 20, Chapter 6.75, Article 6).

The need for further site characterization and mitigation actions will be determined following evaluation of the written report and consultation with the San Diego Regional Water Quality Control Board (RWQCB) .

If you have any questions, please call me at (619) 338-2257.

Sincerely,

Carol Spangenberg

SUBJECT: DATA REPORT - LA MESA RV - 7601 ALVARADO, LA MESA, CA - EBS PROJECT #93E1163.2

TEG Project #951128W1 & 951129-11

Mr. Pulver:

Please find enclosed a data report for the above referenced project. All samples were analyzed on-site in TEG's DOHS certified mobile laboratory (CERT #1745).

Project Summary

The following analyses were conducted:

- 15 soils and 3 waters for total petroleum hydrocarbons (TPH) by DOHS Modified EPA Method 8015
- 4 soils and 3 waters for volatile aromatic hydrocarbons (BTEX) by Modified EPA Method 8020
- 15 soils and 3 waters for total recoverable petroleum hydrocarbons (TRPH) by EPA Method 418.1

Samples were received on-site in appropriate containers with appropriate labels, seals, and chain-of-custody documentation.

Dee 11/28 RPD

Project Narrative

The results for all analyses and required QA/QC analyses are summarized in the enclosed tables. All calibrations, blanks, surrogates, and spike recoveries fulfilled quality control criteria.

TEG appreciates the opportunity to provide analytical services to Environmental Business Solutions on this project. If you have any questions relating to these data or report, please do not hesitate to contact us.

Sincerely,

Blayne Hartman

LABORATORY REPORT

ENVIRONMENTAL BUSINESS SOLUTIONS, INC.
8799 BALBOA AVENUE, SUITE 290
SAN DIEGO, CA 92123

REPORT TO:	BARRY PULVER	GEOTEST PROJECT NO.:	961138-03
		CLIENT ID:	93E1163.2
PROJECT NAME:	LA MESA RV		
SITE LOCATION:	7601 ALVARADO ROAD LA MESA, CA		

GEOTEST is pleased to provide you with analytical data for your above referenced project. The sample was collected on 12/04/95 and received intact and cool on 12/06/95. In accordance with the chain of custody, the sample was analyzed for the following analytical parameters:

ANALYTICAL TEST	PAGE
CCR Metals	2-3

REVIEWED AND APPROVED: [signature]
FOR Dr. Louis Sangermano, Laboratory Director

REPORT DATE: 13DEC95

This report pertains only to the samples investigated and does not necessarily apply to other apparently identical or similar materials. All samples are analyzed on an as received (wet weight) basis. Any results listed as "ND" are not detected above the indicated limit of detection. All method numbers referenced are EPA method numbers except where otherwise noted. This report is submitted for the exclusive use of the client to whom it is addressed and is only valid in its entirety. ELAP certification #1225.

LABORATORY REPORT

ENVIRONMENTAL BUSINESS SOLUTIONS, INC.
8799 BALBOA AVENUE, SUITE 290
SAN DIEGO, CA 92123

REPORT TO: BARRY PULVER

GEOTEST PROJECT NO.: 961138-03
CLIENT ID: 93E1163.2

PROJECT NAME: LA MESA RV
SITE LOCATION: 7601 ALVARADO ROAD
LA MESA, CA

GEOTEST is pleased to provide you with analytical data for your above referenced project. Samples were collected on 11/28/95 and received intact and cool on 11/30/95. In accordance with the chain of custody, the samples were analyzed for the following analytical parameters:

ANALYTICAL TEST	PAGE
8010/8020	2-3
MTBE	4-5

REVIEWED AND APPROVED: Louis Sangermano
Dr. Louis Sangermano, Laboratory Director

REPORT DATE: 12/7/95

This report pertains only to the samples investigated and does not necessarily apply to other apparently identical or similar materials. All samples are analyzed on an as received (wet weight) basis. Any results listed as "ND" are not detected above the indicated limit of detection. All method numbers referenced are EPA method numbers except where otherwise noted. This report is submitted for the exclusive use of the client to whom it is addressed and is only valid in its entirety. ELAP certification #1225.

MONITORING WELL AND BORING CONSTRUCTION AND DESTRUCTION PERMIT

SITE NAME: CHEVRON

SITE ADDRESS: 7651 ALVARADO RD, LA MESA, CA

PERMIT FOR: 3 MONITORING WELLS

PERMIT APPROVAL DATE: 02/05/92

PERMIT EXPIRES ON: 06/03/92

PERMIT CONDITIONS:

1. All borings must be destroyed in accordance with Department of Water Resources Bulletin 74-81 and 74-90.

2. All wash water must be contained and disposed of properly.

3. Submit complete laboratory data for both soil and groundwater with the well logs.

4. Submit all the information specified in the SA/M Manual in:

   Section 1, C., 4., c).

5. All water and soil that is placed in drums must be labeled and stored as specified in the SA/M Manual in:

   Section 1, C., 5.

6. This office must be given 48 hour notice of any drilling activity on this site.

7. This office must be given advanced notification of drilling cancellation.

PERMIT APPLICATION SUPPLEMENT

GROUND WATER AND VADOSE MONITORING WELLS

1. Well design, logging and construction must be supervised by a geologist, Engineering Geologist or Civil Engineer who is registered or certified by the State of California.

2. Provide verification of a well Drilling C-57 license

3. Provide a plot plan giving location of existing improvements such as structures, underground tanks, underground utilities, underground piping, and the proposed monitoring and/or observation wells.

4. What is the purpose of the well? determine horizontal and lateral extent of hydrocarbons in groundwater.

5. What procedures will be used to prevent the well from providing an avenue to contamination during construction? depth of well will be at approved minimum possible below groundwater.

6. What field procedures will be utilized to determine if contamination exists? All samples will be field screened using visual and instrumental methods.

7. What procedures will be used to determine whether samples will be sent for laboratory testing or archiving? Testing or archiving of samples will be determined by field screening.

8. What constituents will be monitored and tested? BTEX; TPH as Gasoline (mod. 8015/8020)

9. How will samples be transported and preserved? Samples will be stored on ice, and transported with chain-of-custody to an approved laboratory.

10. What sampling methods will be used? Samples will be collected off the auger, placed into a glass jar, covered with Teflon, and sealed.

11. Are you proposing a variation from the methods and/or procedures presented in the Requirements for the construction of vadose and Ground Water Monitoring Wells (dated January 1992) If yes, specify these variations? No.

12. What procedures will be used to insure no contamination will be introduced by the drilling equipment? Prior to drilling, the drill rig will be inspected for oil leaks, and clean/repaired, if needed. Steel casing, rotary rods, bits and associated equipment will be steam cleaned between borings.

13. What methods will be used to clean sampling equipment? Equipment will be cleaned with TSP and three bucket wash between sampling episodes.

14. What cleaning method will be used to clean casing and screen prior to installation?

All screen and casing are prewashed by the manufacturer.

RE: **30-DAY REPORT**

SITE: **Former Chevron Service Station No. 9-3521**
7651 Alvarado Road, La Mesa, California 92041
APN No. 470-020-12
HMMD No. H12687; W92595

Dear Mr. Heaton:

On March 27, 1992, wells MW1, MW2, and MW3 were drilled and installed at the former Chevron La Mesa site (Fig. 1 and 2). The monitoring wells were installed to evaluate the shallow groundwater at the site. Well logs are attached. Groundwater was encountered between 6.5 to 11.5 feet below grade.

Soil samples were collected and analyzed for benzene, toluene, ethyl-benzene, and xylenes (BTEX) and total petroleum hydrocarbons as gasoline (TPH_g) by modified EPA method 8020/8015. Analytical results are included in the attached laboratory reports.

Groundwater samples were collected and analyzed for BTEX and TPH_g by modified EPA methods 602/8020/8015. Analytical results are included in the attached laboratory reports.

Should you have any questions concerning this letter, please contact the undersigned at (619) 453-8415.

Respectfully submitted,
Groundwater Technology, Inc.

QA Conformance Summary

Purgeable Aromatics and Total Petroleum Hydrocarbons
as Gasoline in Soil
EPA Method 8020/8015

GTEL Sample No. Range: 1A-6A Date of Analysis: 3/31/92-4/1/92

1.0 Blanks

0 of 4 target compounds were found in Reagent blank and gasoline was below detection limit as shown in Table 2.

2.0 *Independent QC Check Sample*

The control limits were met for 4 out of 4 QC check compounds as shown in Table 3.

3.0 Surrogate Compound Recoveries

Percent recovery limits were met for the surrogate compound (Bromofluorobenzene) for all samples as shown in Table 4.

4.0 Matrix Spike (MS) Accuracy

Percent recovery limits were met for 4 of 4 compounds in the MS as shown in Table 5.

5.0 Sample Duplicate Precision

Relative percent difference (RPD) criterion was met for 4 of 4 compounds and gasoline in the sample duplicate as shown in Table 6.

6.0 Sample Handling

6.1 Sample handling and holding time criteria were met for all samples.

6.2 There were no exceptional conditions requiring dilution of samples.

QA Conformance Summary

Purgeable Aromatics and Total Petroleum Hydrocarbons
as Gasoline in Soil
EPA Method 8020/8015

GTEL Sample No. Range: 1A-2A Date of Analysis: 4/8-9/92

1.0 Blanks

0 of 4 target compounds were found in Reagent blank and gasoline was below detection limit as shown in Table 2.

2.0 Independent QC Check Sample

The control limits were met for 4 out of 4 QC check compounds as shown in Table 3.

3.0 Surrogate Compound Recoveries

Percent recovery limits were met for the surrogate compound (Bromofluorobenzene) for all samples as shown in Table 4.

4.0 Matrix Spike (MS) Accuracy

Percent recovery limits were met for 4 of 4 compounds in the MS as shown in Table 5.

5.0 Sample Duplicate Precision

Relative percent difference (RPD) criterion was met for 4 of 4 compounds and gasoline in the sample duplicate as shown in Table 6.

6.0 Sample Handling

6.1 Sample handling and holding time criteria were met for all samples.

6.2 There were no exceptional conditions requiring dilution of samples.

Project Number: GTI76.CHV01
Contract Number: 6CSW23231X
Facility Number: 9-3521
Work Order Number: T204085
Report Issue Date: April 10, 1992

Mr. Bill Lines
Groundwater Technology Inc.
9940 Mesa Rim Rd, Suite B
San Diego, CA 92121

Dear Mr. Lines,

Enclosed please find the analytical results for the samples received by GTEL Environmental Laboratories, Inc. on 4-8-92.

A formal Quality Assurance/Quality Control (QA/QC) program is maintained by GTEL, which is designed to meet or exceed the EPA requirements. Analytical work for this project met QA/QC criteria unless otherwise stated in the footnotes.

GTEL is certified by the state of California under Certification #E723.

If you have any questions concerning this analysis or if we can be of further assistance, please call our Customer Service Representative.

Sincerely,

GTEL Environmental Laboratories, Inc.

Minsoon Song
Laboratory Director

SITE ASSESSMENT AND MITIGATION DIVISION

December 30, 1996

Mr. Mike Bauer
Chevron USA Products Company
P.O. Box 2833
La Habra, CA 90632-2833

Dear Mr. Bauer:

MONITORING WELL COMPLIANCE INSPECTION
7651 Alvarado Blvd.
A.P.N. [illegible] / 470-020-12 PERMIT #W93952 EST. #H12687

On December 23, 1996, staff of the Department of Environmental Health (DEH), Site Assessment and Mitigation Division (SAM) inspected the above-referenced site for compliance to monitoring well standards.

Although no significant violations were found, staff observed the following deficiencies:

1) The interior well cap on MW 4 is loose. The cap must be secured to prevent the entry of contaminants which may further degrade the quality of the groundwater below, and to avoid an Official Notice in the future.

2) The well cover of MW 3 has one frozen bolt. Well covers should be secured, but still accessible for inspection.

Poorly maintained wells are considered a nuisance as defined in San Diego County Code Section (SDCCS) 67.430 & 67.431.

NO VIOLATIONS WERE FOUND AT THIS TIME. Please retain a copy of the inspection form for your records.

Thank you for your cooperation. If I can be of further assistance, please feel free to contact me at (619) 338-2492.

Sincerely,

CLAY CLIFTON, Environmental Health Technician
Site Assessment and Mitigation Division

DEPARTMENT OF HEALTH SERVICES

HAZARDOUS MATERIALS MANAGEMENT DIVISION

MONITORING WELL AND BORING CONSTRUCTION AND DESTRUCTION PERMIT

SITE NAME: CHEVRON ALVARADO

SITE ADDRESS: 7651 ALVARADO ROAD, LA MESA, CA 92040

PERMIT FOR: 3 GROUND WATER MONITORING WELLS

PERMIT APPROVAL DATE: 12/22/93

PERMIT EXPIRES ON: 4/20/94

PERMIT CONDITIONS:

1. The wells shall be constructed with the well screen extending no deeper than 5 feet in the saturated zone.

2. All borings must be destroyed in accordance with Department of Water Resources Bulletin 74-81 and 74-90.

3. All wash water must be contained and disposed of properly.

4. Submit complete laboratory data for both soil and groundwater with the well logs.

5. Submit all the information specified in the SA/M Manual in:

   Section 1, C., 4., c).

6. All water and soil that is placed in drums must be labeled and stored as specified in the SA/M Manual in:

   Section 1, C., 5.

7. This office must be given 48 hour notice of any drilling activity on this site. Please contact Edward Sanko at (619)338-2339.

8. This office must be given advanced notification of drilling cancellation. Please contact Edward Sanko at (619)338-2339.

NOTE: This permit does not constitute approval of a workplan as defined in Section 2722 of Article 11 of C.C.R. Title 23. Workplans are required for all unauthorized release investigations in San Diego County.

CHEVRON/ALVARADO STATION NO. 9-3521
7651 ALVARADO ROAD, LA MESA, CA 92040
APN#470-020-12
Control# H12687

Dear Mr. Heaton:

Groundwater Technology, Inc. requests approval of the attached permit to drill and install three new groundwater monitoring wells, at the above site (Figures 1 and 2). The wells will be used to define the extent of shallow groundwater encountered in the wells. The wells will be completed as described in the permit application. The permit checks totaling $450.00 for the three wells are attached.

If you have any questions, please contact me at (619) 453-8415.

Respectfully submitted,

Groundwater Technology, Inc.

PERMIT APPLICATION SUPPLEMENT
GROUND WATER AND VADOSE MONITORING WELLS

1. Well design, logging and construction must be supervised by a Geologist, Engineering Geologist or Civil Engineer who is registered or certified by the State of California.

2. Provide verification of a well Drilling C-57 license.

3. Provide a plot plan giving location of existing improvements such as structures, underground tanks, underground utilities, underground piping, and the proposed monitoring and/or observation wells.

4. What is the proposed purpose of the well? Investigate the possible presseuce of hydrocarbons in the soil/groundwater.

5. What procedures will be used to prevent the well from providing an avenue to contamination during construction?
The well will be constructed by placing the casing through the hollow-stem auger during construction.

6. What field procedures will be utilized to determine if contamination exists?
Soil samples will be field-screened using a photoionization detector.

7. What procedures will be used to determine whether samples will be sent for laboratory testing or archiving?
Field screening of the soil samples using photoionization detector.

8. What constituents will be monitored and tested?
Total screening of the soil samples using photoionization detector.
Subsequent samples will be tested for BTEX and TPH as per SA/M Manual.

9. How will samples be transported and preserved? The samples will be placed on ice in an ice chest and transported with a chain of custody.

10. What sampling methods will be used?

HSA/Split spoon sampler.

11. Are you proposing a variation from the methods and/or procedures presented in the requirements for the construction of Vadose and Ground Water Monitoring Wells (dated January 1992). If yes, specify these variations.

No.

12. What procedures will be used to ensure no contamination will be introduced by the drilling equipment?

The augers will be steam-cleaned prior to initiating drilling.

13. What methods will be used to clean sampling equipment? The sample rings will be washed with a degreaser and watermix, rinsed in tap water, and rinsed in distilled water.

14. What cleaning method will be used to clean casing and screen prior to installation?

Only new, factory-sealed casing will be used for the wells.

7651 ALVARADO ROAD, LA MESA, CALIFORNIA 92041
APN #470-020-12
HMMD # H12687
PERMIT # W93952

Dear Mr. Heaton:

On December 28, 1993, wells MW4 and MW5 were drilled and installed at the above site (Figures 1 and 2). The monitoring wells were installed to evaluate the shallow groundwater downgradient from the site. Three wells were permitted; but due to drill refusal, only two wells were installed. Well and boring logs are attached.

Soil samples were collected and analyzed for total petroleum hydrocarbons as gasoline (TPH_g) and benzene, toluene, ethyl-benzene, and xylenes (BTEX) by EPA Modified Methods 8015 and 8020. Analytical results are included in the attached laboratory reports. Groundwater samples will be collected during the quarterly monitoring and sampling episode.

If you have any questions, please contact Jim Molesworth at (619) 453-8415.

Respectfully submitted,

Groundwater Technology, Inc.

MONITORING WELL AND BORING CONSTRUCTION AND DESTRUCTION PERMIT

SITE NAME: LA MESA RV CENTER

SITE ADDRESS: 7601 ALVARADO ROAD, LA MESA, CA 91941

PERMIT FOR: 3 GROUND WATER MONITORING WELLS & 4 BORINGS

PERMIT APPROVAL DATE: 2/3/94

PERMIT EXPIRES ON: 6/2/94

PERMIT CONDITIONS:

1. The surface cement seal shall be a minimum of 2 feet.

2. All borings must be destroyed in accordance with Department of Water Resources Bulletin 74-81 and 74-90.

3. All wash water must be contained and disposed of properly.

4. Submit complete laboratory data for both soil and groundwater with the well logs.

5. Submit all the information specified in the SA/M Manual in:

   Section 1, C., 4., c).

6. All water and soil that is placed in drums must be labeled and stored as specified in the SA/M Manual in:

   Section 1, C., 5.

7. This office must be given 48 hour notice of any drilling activity on this site. Please contact Edward Sanko at (619)338-2339.

8. This office must be given advanced notification of drilling cancellation. Please contact Edward Sanko at (619)338-2339.

NOTE: This permit does not constitute approval of a workplan as defined in Section 2722 of Article 11 of C.C.R. Title 23. Workplans are required for all unauthorized release investigations in San Diego County.

APPROVED BY: _____ DATE: 2/3/94

PERMIT APPLICATION SUPPLEMENT

GROUND WATER AND VADOSE MONITORING WELLS

1. Well design, logging and construction must be supervised by a Geologist, Engineering Geologist or Civil Engineer who is registered or certified by the State of California.

2. *Provide verification of a well Drilling C-57 license.*

3. Provide a plot plan giving location of existing improvements such as structures, underground tanks, underground utilities, underground piping, and the proposed monitoring and/or observation wells.

4. What is the proposed purpose of the well?

To assess the potential impact to groundwater in the vicinity of the former fuel USTs from releases of gasoline.

5. What procedures will be used to prevent the boring from providing an avenue to contamination during construction?

Hollow-stem augers will be used and will be left in the borehole until the borehole is backfilled with bentonite.

Only pre-cleaned hollow-stem augers will be used.

6. What field procedures will be utilized to determine if contamination exists?

Procedures will include screening with a PID and visual observations.

7. What procedures will be used to determine whether samples will be sent for laboratory testing or archiving?

It is anticipated that four soil samples will be submitted to the laboratory; the sample collected near the field interpreted saturated zone and the sample collected from approximately five feet below the top of the field interpreted saturated zone.

8. What constituents will be monitored and tested?

SOIL: TPH (modified EPA Method 8015), BTEX (EPA Method 8020)

WATER: TPH (modified EPA Method 8015), BTEX (EPA Method 8020).

9. How will samples be transported and preserved?

Under Chain-of-Custody procedures. Samples will be transported and preserved in tightly closed containers and stored in an ice filled chest.

10. What sampling methods will be used?

Soil samples will be collected using a split-spoon sampler lined with brass tubes. Disposable bailers will be used to collect groundwater samples.

11. Are you proposing a variation from the methods and/pr procedures presented in the requirements for the construction of Vadose and Ground Water Monitoring Wells (dated January 1992). If yes, specify these variations.

No.

12. What procedures will be used to ensure that no contamination will be introduced by the drilling equipment?

The drill rig will be inspected for oil leaks and cleaned if deemed necessary. Augers will either be steam cleaned prior to drilling or cleaned on site using a transportable steam cleaner.

13. What methods will be used to clean sampling equipment?

Down hole sampling equipment will be cleaned using a four bucket wash. A detergent solution will be used, followed by two tap water rinses. A final rinse using a spray of deionized water will be used.

14. What cleaning method will be used to clean casing and screen prior to installation?

Casing and screen will be delivered from the supplier in a pre-washed and plastic wrapped condition.

SUBJECT: DATA REPORT - LA MESA R.V. CENTER, 7601 ALVARADO RD., SAN DIEGO, CA - EBS PROJECT #93E1163.1

TEG Project #940210T3

Mr. Pulver:

Please find enclosed a data report for soil samples from the above referenced project for Environmental Business Solutions. The samples were analyzed in TEG's California DOHS certified mobile laboratories (CERT #1317). TEG personnel conducted the following analyses:

- 30 soils for total petroleum hydrocarbons (TPH) by DOHS Modified EPA Method 8015.
- 30 soils for total recoverable petroleum hydrocarbons (TRPH) by EPA Method 418.1

The results of the analyses are summarized in the attached tables. Applicable detection limits and QA/QC data are included on the tables.

TEG appreciates the opportunity to provide analytical services to Environmental Business Solutions for this project. If you have any questions relating to these data or report, please do not hesitate to contact us.

Sincerely,

Sheri W Hartman

ANALYTICAL PROCEDURES

SAMPLE PREPARATION

Waters

Separate water aliquots are extracted for TPH analysis (gasoline and diesel) by liquid-liquid extraction with freon 113 using a modified EPA Method 3510. For volatile aromatics and chlorinated hydrocarbons (EPA 601 & 602), water samples are purged of volatiles in a Tekmar LSC-2000 purge & trap following EPA Method 5030.

Soils

Soil samples are extracted with methanol for volatile chlorinated hydrocarbon compounds (EPA 8010) and with freon 113 for volatile aromatic hydrocarbon compounds (EPA 8020) and fuel compounds (DOHS approved EPA 8015m) by hand-shaking for 2 minutes and sonification for 10 minutes.

GAS CHROMATOGRAPHY

Volatile Chlorinated Hydrocarbons

Water samples and soil extracts are purged in a Tekmar LSC-2000 purge & trap, and backflushed into a Shimadzu 14A gas chromatograph equipped with megabore capillary columns and photoionization detector (PID) and Hall electrolytic detectors following EPA Methods 601/8010 and 602/8020.

Volatile Aromatic Hydrocarbons (BTEX) & Total Fuel Hydrocarbons (TPH)

An aliquot of the soil extract is injected on-column into a Shimadzu gas chromatograph equipped with megabore capillary columns, photoionization (PID) and flame ionization detectors (FID).

TOTAL RECOVERABLE HYDROCARBONS

Extracts are scrubbed with silica gel and measured on a BUCK 404 Infrared Analyzer following EPA 418.1 protocols.

DATA ACQUISITION & PROCESSING

Data from the gas chromatographs are integrated and plotted by Hewlett-Packard 3393A computing integrators. Separate chromatograms are printed for each detector. The resulting chromatograms are inspected at the end of each run and the data entered into an IBM-compatible computer for on-site processing and evaluation.

TEG Project #940217-8

Mr. Pulver:

Please find enclosed a data report for water samples from the above referenced site for Environmental Business Solutions. All samples were analyzed in TEG's California DOHS certified mobile laboratory (CERT #1839). TEG personnel conducted the following analyses:

- 3 waters for volatile aromatic hydrocarbons (BTEX) by EPA Method 8020.
- 3 waters for total petroleum hydrocarbons (TPH) by DOHS Modified EPA Method 8015.

The results of the analyses are summarized in the attached table. Applicable detection limits and QA/QC data are included on the table.

TEG appreciates the opportunity to provide analytical services to Environmental Business Solutions for this project. If you have any questions relating to these data or report, please do not hesitate to contact us.

Sincerely,

Sheri W Hartman

ENVIRONMENTAL BUSINESS SOLUTIONS
8799 BALBOA AVENUE, SUITE 290
SAN DIEGO, CA 92123

Project Name: LA MESA RV
Project # : 93E1165.1

Attention: BARRY PULVER

Analytical Technologies, Inc. has received the following sample(s):

Date Received	Quantity	Matrix
February 17, 1994	3	WATER

The sample(s) were analyzed with EPA methodology or equivalent methods as specified in the enclosed analytical schedule. The symbol for "less than" indicates a value below the reportable detection limit. Please note that the Sample Condition Upon Receipt Checklist is included at the end of this report.

The results of these analyses and the quality control data are enclosed.

	SAMPLE CONDITION UPON RECEIPT CHECKLIST (FOR RE-ACCESSIONS, COMPLETE #7 THRU #9)		
1	Does this project require special handling according to NEESA Levels C, D, AFOEHL or CLP protocols? If yes, complete a) thru c) a) Cooler temperature _____ b) pH sample aliquoted: yes / no / n/a c) LOT #'s: _____	YES	NO
2	Are custody seals present on cooler?	YES	NO
	If yes, are seals intact? (WA)	YES	NO
3	Are custody seals present on sample containers?	YES	NO
	If yes, are seals intact? (NA)	YES	NO
4	Is there a Chain-Of-Custody (COC)*?	YES	NO
5	Is the COC* complete? Relinquished: yes/no Requested analysis: yes/no	YES	NO
6	Is the COC* in agreement with the samples received? # Samples: yes/no Sample ID's: yes/no Date sampled: yes/no Matrix: yes/no # containers: yes/no	YES	NO
7	Are the samples preserved correctly?	YES	NO
8	Is there enough sample for all the requested analyses?	YES	NO
9	Are all samples within holding times for the requested analyses?	YES	NO
10	Cooler temperature: 6°C.		
11	Were all sample containers received intact (ie. not broken, leaking, etc.)?	YES	NO
12	Are samples requiring no headspace, headspace free? N/A	YES	NO
13	Are VOA 1st stickers required? QB 2/17/94	YES	NO
14	Are there special comments on the Chain of Custody which require client contact?	YES	N/A QB 2/17/94
15	If yes, was ATI Project Manager notified?	YES	NO

Describe "no" items: _____

Was client contacted? yes / no

If yes, Date: _____ Name of Person contacted: _____

Describe actions taken or client instructions: _____

*Or other representative documents, letters, and/or shipping memos

Major Soil Divisions			Group Symbol	Descriptions
Coarse Grained Soils (>50 % of material is larger than No. 200 sieve.)	GRAVELS (% gravel > % sand.)	Clean Gravels (<5 % fines)	GW	Well graded gravels, little or no fines.
			GP	Poorly graded gravels or gravel-sand mixtures, little or no fines.
		Gravel With Fines (>15 % fines)	GM	Silty gravels, gravel-sand-silt mixtures, non-plastic fines.
			GC	Clayey gravels, gravel-sand-clay mixtures, plastic fines.
	SANDS (% sand ≥ % gravel.)	Clean Sands (<5 % fines)	SW	Well graded sands or gravelly sands, little or no fines.
			SP	Poorly graded sands, little or no fines.
		Sands With Fines (>15 % fines)	SM	Silty sands, sand-silt mixtures, non-plastic fines.
			SC	Clayey sands, sand-clay mixtures, plastic fines.
Fine Grained Soils (> 50 % of material is smaller than No. 200 sieve.)	SILTS AND CLAYS (Liquid limit is <50 %)		ML	Inorganic silts and very fine sands, rock flour, silty or clayey fine sands or clayey silts with slight plasticity.
			CL	Inorganic clays of low to medium plasticity, gravelly clays, sandy clays, silty clays, lean clays.
			OL	Organic silts and organic silty clays of low plasticity.
	SILTS AND CLAYS (Liquid limit is >50 %)		MH	Inorganic silts, micaceous or diatomaceous fine sandy or silty soils, elastic silts.
			CH	Inorganic clays of high plasticity, fat clays.
			OH	Organic clays of medium to high plasticity, organic silts.
Highly Organic Soils			Pt	Peat and other highly organic soils.

SITE ASSESSMENT AND MITIGATION DIVISION

MONITORING WELL AND BORING CONSTRUCTION AND DESTRUCTION PERMIT

SITE NAME: CHEVRON USA PRODUCTS

SITE ADDRESS: 7651 ALVARADO BLVD., LA MESA, CA 91942

PERMIT FOR: DESTROY 3 GROUND WATER MONITORING WELLS

PERMIT APPROVAL DATE: 5/22/95

PERMIT EXPIRES ON: 9/18/95

PERMIT CONDITIONS:

1. All wells must be destroyed in accordance with Department of Water Resources Bulletin 74-81 and 74-90.

2. All wash water must be contained and disposed of properly.

3. Provide documentation of well destruction. This should include:

   a) A description of the method of destruction,
   b) A description of the type of sealing materials and quantity used and
   c) The date the work was started and the date the work was completed.

4. All water and soil that is placed in drums must be labeled and stored as specified in the SA/M Manual in:

   Section 1, C., 5.

5. This office must be given 48 hour notice of any drilling activity on this site. Please contact Helen Dennin at (619)338-2339.

6. This office must be given advanced notification of drilling cancellation. Please contact Helen Dennin at (619)338-2339.

NOTE: This permit does not constitute approval of a workplan as defined in Section 2722 of Article 11 of C.C.R. Title 23. Workplans are required for all unauthorized release investigations in San Diego County.

Dear Mr. Heaton:

On July 7, 1995, wells MW-1, MW-2, and MW-5 were destroyed. The well materials were removed by drilling using 10-inch hollow stem augers. The borings were then backfilled with hydrogel grout. Attached are well logs and a site plan.

If you have any questions concerning this letter, please contact the undersigned at (619) 4538415.

GTI Project 023400112

Dear Ms. Peters:

On July 7, 1995, wells MW1, MW2 and MW5 were drilled out and destroyed in accordance with the Department of Water Resources Bulletin 74-81 and 74-90 at the above site (Figures 1 and 2). All well materials were drilled out and placed in DOT-approved 55-gallon drums and stored on site pending proper disposal. The borings were backfilled with grout and capped with concrete. Soil samples were not collected.

Dear Mr. Marsh:

MONITORING WELL COMPLIANCE INSPECTION
LA MESA RV CENTER, 7601 ALVARADO, ROAD, LA MESA, CA 91941
A.P.N. 469-021-02 PERMIT #W95361 EST. #H02651

On March 27, 1996, staff of the Department of Environmental Health (DEH), Site Assessment and Mitigation Division (SAM) inspected the above-referenced site for compliance to monitoring well standards.

Poorly maintained wells are considered a nuisance as defined in San Diego County Code Section (SDCCS) 67.430 & 67.431.

NO VIOLATIONS WERE FOUND AT THIS TIME. Please retain a copy of the inspection form for your records.

Thank you for your cooperation. If I can be of further assistance, please feel free to contact me at (619) 338-2223.

Sincerely,

JAMES CLAY, Environmental Health Technician

PERMIT APPLICATION FOR
GROUND WATER AND VADOSE MONITORING WELLS
EXPLORATORY OR TEST BORINGS

1. Well design, logging and construction must be supervised by a Geologist, Engineering Geologist or Civil Engineer who is registered or certified by the State of California.

2. Provide verification of a Well Drilling C-57 License.

3. Provide a plot plan giving location of existing improvements such as structures, underground tanks, underground utilities, underground piping, and the proposed monitoring and/or observation wells.

4. If wells are to be destroyed, provide a description of method of destruction. N/A

5. What is the proposed purpose of the well/boring? To Assess extent of Petroleum Hydrocarbon-bearing soil

6. What procedures will be used to prevent the well/boring from providing an avenue to contamination during construction?
Augers will remain in place until bentonite is placed

7. What field procedures will be utilized to determine if contamination exists? Visual observations, PID readings, laboratory results

8. What procedures will be used to determine whether samples will be sent for laboratory testing or archiving?
All samples will be tested.

9. What constituents will be monitored and tested (Include EPA Laboratory Test Methods to be used)
TPH mod. EPA Method 8015 / BTEX EPA Method 8020
TRPH EPA METHOD 418.1

10. How will samples be transported and preserved? In ice filled chest

11. What sampling methods will be used? Split spoon sampler

12. Are you proposing a variation from the methods and/or procedures presented in the requirements for the construction of Vadose and Ground Water Monitoring Wells (Current SAM Manuel Requirements). If yes, specify these variations.

no

13. What procedures will be used to ensure no contamination will be introduced by the drilling equipment?

Augers/drilling rod will be steam cleaned between holes.

14. What methods will be used to clean sampling equipment? 4 bucket wash Soap/water, 2 tap water rinses, final spray rinse with DI water.

15. What cleaning method will be used to clean casing and screen prior to installation? _____

DRILLING SUMMARY

- Due to other commitments, Tri-County Drilling, Inc., the driller of record, was unable to perform the drilling activity. West Hazmat Corp. was able to perform the drilling. A copy of a new permit cover sheet is attached.

- Drilling activities were performed on November 28 and 29, 1995. The soil borings were backfilled with a bentonite slurry. A copy of the soil boring logs are attached.

- Soil samples were analyzed for total petroleum hydrocarbons, total recoverable petroleum hydrocarbons, and for benzene, toluene, ethylbenzene and xylenes. Laboratory test reports are attached.

- Other attachments include a site plan.

Major Soil Divisions			Group Symbol	Descriptions
Coarse Grained Soils (>50 % of material is larger than No. 200 sieve.)	GRAVELS (% gravel > % sand.)	Clean Gravels (<5 % fines)	GW	Well graded gravels, little or no fines.
			GP	Poorly graded gravels or gravel-sand mixtures, little or no fines.
		Gravel With Fines (>15 % fines)	GM	Silty gravels, gravel-sand-silt mixtures, non-plastic fines.
			GC	Clayey gravels, gravel-sand-clay mixtures, plastic fines.
	SANDS (% sand ≥ % gravel.)	Clean Sands (<5 % fines)	SW	Well graded sands or gravelly sands, little or no fines.
			SP	Poorly graded sands, little or no fines.
		Sands With Fines (>15 % fines)	SM	Silty sands, sand-silt mixtures, non-plastic fines.
			SC	Clayey sands, sand-clay mixtures, plastic fines.
Fine Grained Soils (> 50 % of material is smaller than No. 200 sieve.)	SILTS AND CLAYS (Liquid limit is <50 %)		ML	Inorganic silts and very fine sands, rock flour, silty or clayey fine sands or clayey silts with slight plasticity.
			CL	Inorganic clays of low to medium plasticity, gravelly clays, sandy clays, silty clays, lean clays.
			OL	Organic silts and organic silty clays of low plasticity.
	SILTS AND CLAYS (Liquid limit is >50 %)		MH	Inorganic silts, micaceous or diatomaceous fine sandy or silty soils, elastic silts.
			CH	Inorganic clays of high plasticity, fat clays.
			OH	Organic clays of medium to high plasticity, organic silts.
Highly Organic Soils			Pt	*Peat and other highly organic soils.*

SUBJECT: DATA REPORT - LA MESA RV - 7601 ALVARADO, LA MESA, CA - EBS PROJECT #93E1163.2

TEG Project #951128W1 & 951129-11

Mr. Pulver:

Please find enclosed a data report for the above referenced project. All samples were analyzed on-site in TEG's DOHS certified mobile laboratory (CERT #1745).

Project Summary

The following analyses were conducted:

- 15 soils and 3 waters for total petroleum hydrocarbons (TPH) by DOHS Modified EPA Method 8015
- 4 soils and 3 waters for volatile aromatic hydrocarbons (BTEX) by Modified EPA Method 8020
- 15 soils and 3 waters for total recoverable petroleum hydrocarbons (TRPH) by EPA Method 418.1

Samples were received on-site in appropriate containers with appropriate labels, seals, and chain-of-custody documentation.

Project Narrative

The results for all analyses and required QA/QC analyses are summarized in the enclosed tables. All calibrations, blanks, surrogates, and spike recoveries fulfilled quality control criteria.

TEG appreciates the opportunity to provide analytical services to Environmental Business Solutions on this project. If you have any questions relating to these data or report, please do not hesitate to contact us.

Sincerely,

Blayne Hartman

April 22, 1997

Mr. Barry S. Pulver
Environm'tal Business Solution
8799 Balboa Av #290
San Diego, CA 92123

Dear Mr. Pulver:

RE: EXPIRED WELL PERMIT -- W96161 APN: 469-021-02
7601 ALVARADO RD, LA MESA, CA

The well drilling permit issued on July 16, 1996 for the above referenced site has expired pursuant to Section 67.444 of the San Diego County Code. Our records indicate that complete well logs and accompanying information have not been submitted to this office.

Within fifteen (15) days of the date of this notice, you must submit to this office the information listed on the well log reporting list, attached. If no work has been done in regards to this permit you must notify this office in writing.

Failure to provide the information specified above is a violation of Section 67.447 of the San Diego County Code. Violation of this section is a misdemeanor (Section 67.448).

If you have any questions contact me at (619) 338-2339.

Sincerely,

MARISUE CRYSTAL, Well Permit Clerk
Site Assessment and Mitigation Division

MONITORING WELL AND BORING CONSTRUCTION AND DESTRUCTION PERMIT

SITE NAME: LA MESA RV

SITE ADDRESS: 7601 ALVARDO ROAD, LA MESA, CA 91941

PERMIT FOR: DESTROY 3 GROUND WATER MONITORING WELLS

PERMIT APPROVAL DATE: 7/16/96

PERMIT EXPIRES ON: 11/13/96

PERMIT CONDITIONS:

1. All wells must be destroyed in accordance with Department of Water Resources Bulletin 74-81 and 74-90.

2. All wash water must be contained and disposed of properly.

3. Provide documentation of well destruction. This should include:

   a) A description of the method of destruction,
   b) A description of the type of sealing materials and quantity used and
   c) The date the work was started and the date the work was completed.

4. All water and soil that is placed in drums must be labeled and stored as specified in the SA/M Manual in:

   Section 1, C., 5.

5. This office must be given 48 hour notice of any drilling activity on this site. Please contact Helen Dennin at (619)338-2339.

6. This office must be given advanced notification of drilling cancellation. Please contact Helen Dennin at (619)338-2339.

NOTE: This permit does not constitute approval of a workplan as defined in Section 2722 of Article 11 of C.C.R. Title 23. Workplans are required for all unauthorized release investigations in San Diego County.

PERMIT APPLICATION FOR
GROUND WATER AND VADOSE MONITORING WELLS
EXPLORATORY OR TEST BORINGS

1. Well design, logging and construction must be supervised by a Geologist, Engineering Geologist or Civil Engineer who is registered or certified by the State of California.

2. Provide verification of a Well Drilling C-57 License.

3. Provide a plot plan giving location of existing improvements such as structures, underground tanks, underground utilities, underground piping, and the proposed monitoring and/or observation wells.

4. If wells are to be destroyed, provide a description of method of destruction.

   The wells will be overdrilled using a hollow-stem auger to remove the sand pack and bentonite seal. The casing and screen will then be removed, and the borehole filled with a bentonite slurry.

5. What is proposed purpose of the well/boring?

   N/A

6. What procedures will be used to prevent the well/boring from providing an avenue to contamination during construction?

   N/A

7. What field procedures will be utilized to determine if contamination exists?

   N/A

8. What procedures will be used to determine whether samples will be sent for laboratory testing or archiving?

   N/A

9. What constituents will be monitored and tested (Include EPA Laboratory Test Methods to be used)

   N/A

10. How will samples be transported and preserved?

N/A

11. What sampling methods will be used?

N/A

12. Are you proposing a variation from the methods and/or procedures presented int he requirements for the construction of Vadose and Ground Water Monitoring Wells (Current SAM Manual Requirements). *If yes, specify these variations.*

N/A

13. What procedures will be used to ensure no contamination will be introduced by the drilling equipment?

N/A

14. *What methods will be used to clean sampling equipment?*

N/A

15. What cleaning method will be used to clean casing and screen prior to installation?

N/A

PERMIT NUMBER: W96161

DRILLING SUMMARY

- Well destruction activities were performed at the above referenced Site on July 31, 1996. Drilling activities were performed by West Hazmat Drilling Corp. and observed by Environmental Business Solutions, Inc.
- Wells MW-1, MW-2 and MW-3 were destroyed in general accordance with SAM guidelines and California Department of Water Resources Bulletins 74-81 and 74-90. The well casing was removed prior to overdrilling the borehole to remove all materials.
- The borehole of each well was sealed with bentonite from the bottom of the borehole to the ground surface. Approximately two bags of bentonite grout per hole were used. The surface was patched with concrete.
- Soil samples were not collected for analysis.

OFFICIAL NOTICE

January 31, 2001

Mr. Jim Hecht
Metropolitan Transit Development Board
1255 Imperial Avenue #1000
San Diego, CA 92101

Dear Mr. Hecht:

MONITORING WELL CONSTRUCTION DEFICIENCIES
MISSION VALLEY LRT PROJECT (CALTRANS RIGHT-OF-WAY)
ALVARADO RD. @ I-8, MURRAY BLVD TO BALTIMORE DR., SAN DIEGO, CA
A.P.N.470-031-02, et al PERMIT#W98307 ESTABLISHMENT#NONE

On January 26, 2001, staff of the Department of Environmental Health (DEH), Site Assessment and Mitigation Program (SAM) inspected the monitoring wells constructed for the above–referenced site for monitoring well compliance.

During this inspection the following violations were noted and need to be corrected:

- The well casing for (MW/L127) was submerged in 6 inches of water. Remove all water from the structure interior. Clean gasket area and tighten cover bolts to prevent water from entering in future.

- The perimeter seal around (MW/B208) does not drain away from the well. It must provide for positive surface drainage away from the security structure to prevent ponding around the well and to prevent surface water from entering the well. Reinstall perimeter seal so that it provides adequate drainage away from well.

- The water level of the interior vault of (MW/B208) was within ¼" from the top of the structure. Although a few pieces of concrete were found, no surface concrete seal is apparent. The interior appears to consist of nothing but water and bentonite. Install a 2-3 foot concrete seal in the interior of the well structure.

Please be advised that poorly maintained wells are considered a nuisance as defined in San Diego County Code Section (SDCCS) 67.430 and 67.431. The present condition of these wells is in violation of these and other state and local regulations.

If these monitoring wells are not currently being used, we urge you to consider properly destroying them. Per the California Well Standards Bulletin 74-90, "A monitoring well is considered "abandoned" or permanently inactive if it has not been used for one year, unless the owner demonstrates intention to use the well again". All well destructions must be permitted through the Department of Environmental Health, Site Assessment and Mitigation Program.

Please respond by February 14, 2001, either by phone or mail, detailing when the monitoring well deficiencies will be addressed. All well deficiencies must be corrected by March 14, 2001.

Should you have any questions, please contact me at (619) 338-2339.

Sincerely,

MARISUE CRYSTAL, Environmental Health Technician
Site Assessment and Mitigation Program

San Diego, California 92112-9261

Subject: Groundwater Permit Extension for
Permit No. W98307
Mission Valley East LRT Project
San Diego, California

Dear Ms. Crystal:

This letter presents our request to extend expired permit number W98307. To date, we have not completed the installation of the wells covered under the subject permit. As requested, we have enclosed is a new permit application for groundwater wells and $110 for technical review. Please transfer other fees from the unused fees in permit number W98307.

If you have any questions or need additional information, please call one of the undersigned in our San Diego office (858) 320-2000

Sincerely,

KLEINFELDER, INC.

Jason S. Forga, E.I.T.
Staff Engineer

JSF:mws

Enclosures: Permit Application
Review Fee

Because Cal Trans kept changing the locations of the wells, Kleinfelder was not able to do this work within the 120 days allowed by the permit. I agreed to extend their permit - waiving the extension fee but requiring new technical & clerical costs for reviewing.

MONITORING WELL AND BORING CONSTRUCTION AND DESTRUCTION PERMIT

SITE NAME: MISSION VALLEY LRT PROJECT (CAL TRANS RIGHT-OF WAY)

SITE ADDRESS: ALVARADO RD @ I-8, MURRAY BLVD TO BALTIMORE DR., SAN DIEGO, CA

PERMIT FOR: INSTALL 7 GROUNDWATER MONITORING WELLS

PERMIT APPROVAL DATE: JUNE 24, 1999

PERMIT EXPIRES ON: OCTOBER 22, 1999

PERMIT CONDITIONS:

1. **The surface seal thickness must be a minimum of 2 feet. The surface seal shall consist of concrete able to withstand the maximum anticipated load without cracking or deteriorating. The concrete should meet Class A specifications which meet a minimum 4000-pound compressive strength.**
2. All borings must be destroyed in accordance with Department of Water Resources Bulletin 74-81 and 74-90.
3. All wash water must be contained and disposed of properly.
4. Submit complete laboratory data for both soil and groundwater with the well logs.
5. Submit all the information specified in the SAM Manual in: Section 6, Page B-8, C., 2.
6. All water and soil that is placed in drums must be labeled and stored as specified in the SAM Manual in: Section 1, Page 12, (5).
7. This office must be given 48 hour notice of any drilling activity on this site. Please contact Marisue Crystal at (619) 338-2339
8. This office must be given advanced notification of drilling cancellation. Please contact Marisue Crystal at (619) 338-2339.

NOTE: This permit does not constitute approval of a workplan as defined in Section 2722 of Article 11 of C.C.R., Title 23. Workplans are required for all unauthorized release investigations in San Diego County.

PERMIT APPLICATION FOR
GROUND WATER AND VADOSE MONITORING WELLS
EXPLORATORY OR TEST BORINGS

- $ For well destruction, complete only #1 below.
- $ Well design, logging and construction must be supervised by a Geologist, Engineering Geologist or Civil Engineer who is registered or certified by the State of California.
- $ Well driller must have an active C-57 License and current $2,500 bond with the County.
- $ Provide a plot plan giving location of property lines, existing improvements such as structures, underground tanks, underground utilities, underground piping, and the proposed monitoring and/or observation wells.
- $ If applicable, provide a signed copy of the Property Owner Responsibility form for each property listed in Section "F".
- • Provide encroachment/excavation permit and/or traffic control permit for work to be done in street or public right of way.

1. If wells are to be destroyed, provide a description of method of destruction. Wells will be destroyed in accordance with the SAM Manual

2. What is the proposed purpose of the well/boring? To monitor groundwater levels at various locations along the Mission Valley East LRT Alignment.

3. What procedures will be used to prevent the well/boring from providing an avenue to contamination during construction?

The well will have a locking well cap and will be encased in concrete. The concrete will be underlain by a varying amount of bentomite grout or cement slurry.

4. What field procedures will be utilized to determine if contamination exists? Samples will be taken every 5 to 10 feet, and observed for color and oder which may indicate possible contamination.

5. What procedures will be used to determine whether samples will be sent for laboratory testing or archiving?

The purpose of our study is for geotechnical use, not hazardous waste evaluation. Therefore we do not know of any contamination on-site or have any suspected reason to encounter it. However, if contaminted soils are encountered, drilling will be terminated and the owner notified.

6. What constituents will be monitored and tested (Include EPA Laboratory Test Methods to be used)?

We do not anticipate testing for any hazardous materials (see item 5)

7. How will samples be transported and preserved? We will not be collecting samples for hazardous materials testing. Soil samples for our geotechnical study will be sealed in bags or tubes and taken to our laboratory.

8. What sampling methods will be used? Some bulk samples will be taken from the auger cuttings, and drive samples will be obtained using a 2.5-inch I.D. California Sampler or SPT sampler

9. Are you proposing a variation from the methods and/or procedures presented in the requirements for the construction of Vadose and Ground Water Monitoring Wells (Current SAM Manual Requirements). If yes, specify these variations.

No

10. What procedures will be used to ensure no contamination will be introduced by the drilling equipment?

The drilling equipment will be steam cleaned prior to the start of drilling. Drilling will be terminated, and the equipment will be steam cleaned if contaminated soils are encountered.

11. What methods will be used to clean sampling equipment? Samplers will be washed in a TSP solution and rinsed with distilled water before drilling. Sampling/drilling will be stopped and samplers washed in TSP if contaminated soils are encountered.

12. What cleaning method will be used to clean casing and screen prior to installation?

Factory cleaned and shipped to site in a plastic container

OFFICIAL NOTICE

JULY 14, 2000

KLEINFELDER, INC.
Attn: KEVIN CRENNAN
5015 SHOREHAM PL
SAN DIEGO, CA 92122

Dear Mr. CRENNAN :

EXPIRED WELL PERMIT
MISSION VALLEY E. LRT PROJECT, ALVARADO RD @I-8 MURRAY BLVD TO BALTIMORE DR, SAN DIEGO, CA,
A.P.N. 463-600-08 PERMIT #W98307 EST. #HNONE

As of JULY 14, 2000, the Department of Environmental Health (DEH), Site Assessment & Mitigation Program (SAM) has not received information regarding the above-referenced permit issued on DECEMBER 22, 1999 for the drilling of wells and/or borings.

Within 30 days, please submit the following information:

1. Provide a detailed site plan giving accurate locations of all wells and borings. The site plan should be drawn to scale.

2. Provide complete well logs, which include well construction details, lithologic log, static water level including date of measurement, and, if available, the surveyed casing elevation.

3. Provide all laboratory analysis data if there was/is no site assessment case.

A failure to provide information regarding this permit is a misdemeanor violation of Section 67.447 of the San Diego County Code, which will result in further action, including, but not limited to, an Administrative Office Hearing and a complaint being filed by this department with the State Contractors Licensing Board. Thank you for your cooperation. Should you have any questions, please contact me at (619) 338-2339.

Sincerely,

Marisue Crystal, Monitoring Well Permit Clerk
Site Assessment and Mitigation Program (SAM)

Subject: Monitoring Well Construction Deficiencies
Mission Valley East LRT Project
San Diego, California

Reference: "Monitoring Well Construction Deficiencies, Mission Valley LRT Project (Caltrans Right-of Way), Alvarado Rd. @ I-8, Murray Blvd. To Baltimore Dr. San Diego, Ca, A.P.N. 470-031-02, et al, Permit #W98307" prepared by County of San Diego Department of Environmental Health, dated January 31, 2001.

Dear Mr. Hecht:

This letter is in response to the referenced Notice of Monitoring Well Deficiencies prepared by the County of San Diego Department of Environmental Health. The Notice documents three violations that were observed during inspection of the five monitoring wells installed for the La Mesa Segment of the MVELRT project. We understand that wells will be utilized during future construction of the project and will be properly abondoned at that time. In accordance with the County request, Kleinfelder will correct the deficiencies in accordance with the standards of the Site Assessment and Mitigation Program prior to March 9, 2001.

Very truly yours,

KLEINFELDER, INC.

Subject: Well Boring Information
Mission Valley East, LRT
San Diego, California
Well Permit #98307

Dear Ms. Crystal:

In response to your letter dated July 14, 2000, and the requirements of County of San Diego Well Permit #98307, we have enclosed our boring well information for the Mission Valley East, LRT project located in San Diego, California. The following information has been provided:

- A site plan of the boring/well locations; and
- Logs of boring/wells showing the static water level and a description of the well construction.

The boring/wells were constructed to monitor groundwater elevations for geotechnical purposes only. Analytical laboratory testing was not performed on any soil or water for these boring/well locations.

We trust that this provides you with the information needed at this time. Please call our San Diego office (858) 320-2000 if you have any questions.

Sincerely,

KLEINFELDER, INC.

OFFICIAL NOTICE

~~March 5, 2002~~

DRAFT

Earth Tech
Attn: Gregory Delson, R.G.
9675 Business Park Avenue
San Diego, CA 92131

SID'S AUTO BODY, 7255 ALVARADO RD, LA MESA, CA 91941
WELL PERMIT #W99755 APN: 469-020-34 ESTABLISHMENT #H22376

Dear Mr.Delson:

On ~~this date~~ 3/5/02 DEH staff reviewed the Drilling Report and Well Logs submitted by Earth Tech and dated 09/07/01. The permit application proposed ~~4~~foot concrete surface seals, and the permit issued to Earth Tech was based on those proposed construction details. The well completion data provided in the logs for MW-1 and MW-2 states that only a 1-foot seal was installed in these 2 wells.

In reviewing the construction diagrams, it was not evident that it was necessary to install surface seals that did not meet a minimum depth of at least ~~2 feet~~ 3ft for mw-1 & 2 ft for mw2. Therefore, please reinstall the seals for MW-1 and MW-2 ensuring that they meet a minimum 2-foot depth and are able to withstand the maximum anticipated load without cracking or deteriorating. The concrete should meet Class A specifications, which meets or exceeds the structural loads anticipated for the site. [SAM Manual Appendix B, Page B-16]

Please **respond by March 19** either by phone or mail, detailing when the ell construction deficiencies will be addressed. The deficiencies must be **remedied by April 2, 2002**.

Sincerely,

Marisue Crystal, Environmental Health Technician

MONITORING WELL AND BORING CONSTRUCTION AND DESTRUCTION PERMIT

SITE NAME: SID'S AUTO BODY

SITE ADDRESS: 7255 ALVARADO ROAD, LA MESA, CA 91941

PERMIT FOR: **INSTALL 3 GROUNDWATER MONITORING WELLS**

PERMIT APPROVAL DATE: MAY 1, 2001

PERMIT EXPIRES ON: AUGUST 29, 2001

PERMIT CONDITIONS:

1. All borings must be destroyed in accordance with Department of Water Resources Bulletin 74-81 and 74-90.
2. All wash water must be contained and disposed of properly.
3. Submit complete laboratory data for both soil and groundwater with the well logs.
4. Submit all the information specified in the 2000 SAM Manual in:

   Section 5, Page 3 (1)

5. All water and soil placed in drums must be labeled and stored as specified in the 2000 SAM Manual in:

   Section 5, Page 7, (5)

6. This office must be given 48 hour notice of any drilling activity on this site. Please contact the Well Permit Desk at (619) 338-2339.
7. This office must be given advanced notification of drilling cancellation. Please contact the Well Permit Desk at (619) 338-2339.

NOTE: **This permit does not constitute approval of a workplan as defined in Section 2722 of Article 11 of C.C.R., Title 23. Workplans are required for all unauthorized release - investigations in San Diego County.**

II.

PERMIT APPLICATION FOR
GROUND WATER AND VADOSE MONITORING WELLS
EXPLORATORY OR TEST BORINGS

- For well destruction, complete only #1 below.
- Well design, logging and construction must be supervised by a Geologist, Engineering Geologist or Civil Engineer who is registered or certified by the State of California.
- Well driller must have an active C-57 License and current $2,500 bond with the County.
- Provide a plot plan giving location of property lines, existing improvements such as structures, underground tanks, underground utilities, underground piping, and the proposed monitoring and/or observation wells.
- If applicable, provide a signed copy of the Property Owner Responsibility form for each property listed in Section "F".
- Provide encroachment/excavation permit and/or traffic control permit for work to be done in street or public right of way.

1. If wells are to be destroyed, provide a description of method of destruction. NA

2. What is the proposed purpose of the well/boring? SOIL AND GROUNDWATER ASSESSMENT

3. What procedures will be used to prevent the well/boring from providing an avenue to contamination during construction?

   ALL DRILLING AND SAMPLING EQUIPMENT WILL BE DECONTAMINATED PRIOR TO DRILLING EACH BORING.

4. What field procedures will be utilized to determine if contamination exists? A PHOTO IONIZATION DETECTOR (PID) WILL BE USED TO MEASURE HEADSPACE IN EACH OF THE SOIL SAMPLES COLLECTED AND CUTTINGS GENERATED DURING DRILLING ACTIVITIES.

5. What procedures will be used to determine whether samples will be sent for laboratory testing or archiving?

   SOIL SAMPLES WILL BE COLLECTED IN EACH BORING AT 5 FEET INTERVALS. SUBSURFACE SOIL SAMPLES WILL BE SUBMITTED TO A CALIFORNIA-CERTIFIED LABORATORY FOR ANALYSES FOR SAMPLES UP TO 20 FEET BELOW GRADE.

6. What constituents will be monitored and tested (Include EPA Laboratory Test Methods to be used)?
TPH-GASOLINE (EPA 8015 M); TPH-DIESEL/OIL (EPA 8015 M); VOCs INCLUDING MTBE (EPA 8260B); AND SVOCs (EPA 8270C)

7. How will samples be transported and preserved? SAMPLES WILL BE STORED IN A COOLER WITH ICE AND TRANSPORTED DIRECTLY TO THE LABORATORY. ALL SAMPLES WILL BE ACCOMPANIED BY APPROPRIATE CHAIN-OF-CUSTODY DOCUMENTATION.

8. What sampling methods will be used? CALIFORNIA SPLIT-SPOON SAMPLER

9. Are you proposing a variation from the methods and/or procedures presented in the requirements for the construction of Vadose and Ground Water Monitoring Wells (Current SAM Manual Requirements). If yes, specify these variations.
No

10. What procedures will be used to ensure no contamination will be introduced by the drilling equipment?
ALL DRILLING EQUIPMENT WILL BE DECONTAMINATED PRIOR TO AND AFTER EACH USE.

11. What methods will be used to clean sampling equipment? STEAM CLEANER/PRESSURE WASH WILL BE USED TO CLEAN ALL DRILLING EQUIPMENT. DETERGENT WASH (ALCONOX), POTABLE WATER RINSE AND FINAL DEIONIZED RINSE WILL BE USED TO CLEAN ALL SAMPLING EQUIPMENT

12. What cleaning method will be used to clean casing and screen prior to installation?
FACTORY-CLEANED NEW CASING AND SCREEN WILL BE USED IN EACH WELL. CASING AND SCREEN WILL NOT BE REMOVED FROM THE FACTORY WRAPPING UNTIL INSTALLED.

PROPERTY OWNER RESPONSIBILITY AGREEMENT

Proposed Location of Well(s): ALL 3 MONITORING WELLS WILL BE INSTALLED WITHIN PROPERTY BOUNDARIES. SEE ATTACHED MAP FOR SPECIFIC LOCATIONS

Property Address: SID'S AUTO BODY
7241-7255 ALVARADO CANYON ROAD
SAN DIEGO, CA 91941

Dear Property Owner:

This letter is to inform you of the responsibilities for the proposed drilling activities on your property. The scope of work covered by this letter will expire one year from the date you sign this form. Any proposed drilling activities beyond this expiration date will require a new Property Owner Responsibility Agreement.

Please place a check mark next to the activity which applies to your property:

- [X] Install one or more monitoring wells
- [ ] Destroy one or more monitoring wells
- [ ] Drill one or more soil borings

The person who causes to have a monitoring well installed or an existing well destroyed on your property is defined as the "Responsible Party." Section 67.424 of San Diego County Code states that: "Monitoring wells shall be maintained to meet construction or destruction standards. If a monitoring well does not meet construction or destruction standards the Responsible Party must repair, reconstruct or destroy the monitoring well so it meets the standards. The property owner, if different than the Responsible Party, must take the necessary actions to repair, reconstruct or destroy the monitoring well so it meets the standards if the Responsible Party does not complete the necessary actions."

A soil boring is used specifically to sample soil and, because there are construction and destruction standards, is included in the definition of a monitoring well even though no maintenance is required. These standards are outlined in the County of San Diego SAM Manual and the State of California Well Standards Bulletin 74-90.

If you have any questions or would like additional information, please contact the Monitoring Well Program at (619) 338-2339.

I understand the maintenance and construction/destruction responsibilities for monitoring wells and borings under the San Diego County Code.

DATA QUALIFIERS AND DEFINITIONS

M-CP	No results were reported for the MS and/or MSD due to a clogged autosampler port. Batch was accepted based on Blank Spike (LCS) recoveries.
M-NR	No results were reported for the MS/MSD. The sample used for the MS/MSD required dilution due to the sample matrix. Because of this, the spike compounds were diluted below the detection limit.
M1	The MS and/or MSD were above the acceptance limits due to sample matrix interference. See Blank Spike (LCS).
M2	The MS and/or MSD were below the acceptance limits due to sample matrix interference. See Blank Spike (LCS).
QD	Quantitated against a diesel fuel standard.
QG	Carbon range C6-C12 quantitated against a gasoline standard.
R3	The RPD exceeded the method control limit due to sample matrix effects.
RL-1	Reporting limit raised due to sample matrix interference.
RL-3	Reporting limit raised due to high concentrations of non-target analytes.
Z2	Surrogate recovery was above the acceptance limits. Data not impacted.
ZX	Due to sample matrix effects, the surrogate recovery was outside the acceptance limits.
ND	Analyte NOT DETECTED at or above the reporting limit or MDL, if MDL is specified.
NR	Not reported.
RPD	Relative Percent Difference

Well Permitting Clerk
County of San Diego
Department of Environmental Health
Site Assessment and Mitigation Division
1255 Imperial Avenue, Suite 300
San Diego, CA 92101

September 7, 2001

Subject: **Letter Drilling Report for Well Permit Number W99755, Sid's Auto Body, 7255 Alvarado Canyon Road, La Mesa, California.**

Dear Well Permitting Clerk:

In accordance with the requirements of the well permit referenced above, Earth Tech is pleased to submit this letter report for your records. Soil borings MW1, MW2, and MW3 were drilled at the subject site on May 19, June 2, and June 3, 2001. The borings were advanced to approximately 20 to 25 feet below ground surface (bgs) and splitspoon soil samples were collected at 5-foot intervals where recovery permitted. Soil samples were submitted for laboratory analysis as indicated on the boring/well construction logs. Upon completing the sampling, the borings were converted to groundwater wells constructed as indicated on the boring/well construction logs. Groundwater was encountered at about 5 to 10 feet below ground surface.

Telephone
858.536.5610
Facsimile
858.536.5620

Following this cover letter are a Site Location Map and a Well Location Map (Figures 1 and 2, respectively). Soil boring/well construction logs, soil sample analytical results, groundwater analytical results, and a copy of the permit.

All soil cuttings and rinsate water generated during the drilling activities, were placed into United Nations/Department of Transportation-rated 55-gallon drums, labeled, and disposed of properly as non-hazardous waste on August 10, 2001.

If you have any questions, please call me at (858) 536-5610.

Very truly yours,
Earth Tech, Inc.

DATA QUALIFIERS AND DEFINITIONS

M2	The MS and/or MSD were below the acceptance limits due to sample matrix interference. See Blank Spike (LCS).
QD	Quantitated against a diesel fuel standard.
RL-1	Reporting limit raised due to sample matrix interference.
RL-2	Reporting limit raised due to high concentrations of hydrocarbons.
ZX	Due to sample matrix effects, the surrogate recovery was outside acceptance limits.
ND	Analyte NOT DETECTED at or above the reporting limit or MDL, if MDL is specified.
NR	Not reported.
RPD	Relative Percent Difference

Received: 06/04/01

CASE NARRATIVE

LABORATORY NUMBER	SAMPLE DESCRIPTION	SAMPLE MATRIX	ANALYSES
IKF0095-15	Sids-SS7-D	Soil	EPA 6010B EPA 7471A EPA 8015B MOD. EPA 8270C
IKF0095-16	Sids-SS6-D	Soil	EPA 6010B EPA 7471A EPA 8015B EPA 8015B MOD. EPA 8260B EPA 8270C

SAMPLE RECEIPT: Samples were received intact, on ice at 2°C and with chain of custody documentation. Soil samples were received in Encore samplers and were frozen upon receipt to -14°C.

HOLDING TIMES: *Holding times were met with one exception noted under Additional Case Narrative Details section. The hold time of Encore samplers frozen to -14°C is 7 days.*

PRESERVATION: Samples requiring preservation were verified prior to sample analysis.

QA/QC CRITERIA: All analyses met method criteria with the exceptions noted under Additional Case Narrative Details.

OBSERVATIONS: No significant observations were made.

SUBCONTRACTED: No analyses were subcontracted to an outside laboratory.

Additional Case Narrative Details:

Report Number: IKF0095

Sampled: 06/02/01-06/03/01
Received: 06/04/01

EPA 8260B results for sample IKF0095-06 (MW-3-B-05) were not reported per client request due to missed hold time. Frozen Encore samplers have a 7 day hold time which had been exceeded by two days due to analyst oversight. The sample had been loaded onto the purge and trap autosampler within hold time, but the purge vessel clogged and sample was not analyzed. The sample was not marked for re-analysis due to analyst oversight which was not discovered until the hold time had passed.

Selected samples for EPA 8015B-Extractable Fuel Hydrocarbons had surrogate recoveries outside acceptance limits due to sample matrix interference. Afftected surrogate recoveries were "ZX" flagged.

EPA 8260B QC batches I1F0823 and I1F1127 did not have MS/MSD results reported due to clogged autosampler ports for the MS/MSD samples. The Method Blank and LCS results were reported for the affected batches.

EPA 8270C QC batch I1F0546 did not have MS/MSD results reported due to required dilution needed for the native sample matrix. The dilution caused the spiked compound concentrations to fall below detectable levels. The Method Blank and LCS results were reported for the affected batch.

Selected samples for EPA 8270C analysis were reported from dilutions due to sample matrix interference. The dilutions caused elevated reporting limits so sample results were "RL-1" flagged.

EPA 8270C surrogate Terphenyl-d14 had recovery above acceptance limits due to sample matrix interference for sample IKF0095-08. Surrogate result was "ZX" flagged.

Antimony and Vanadium MS/MSD recoveries were outside of acceptance limits due to sample matrix interference in QC batch I1F0534. Please see LCS recoveries for the batch.

EPA 6010B Metals results were reported from a dilution due to relatively high concentrations of non-target compounds in sample IKF0095-04. The dilution caused elevated reporting limits so the sample results were "RL-3" flagged.

Subject: Well Maintenance for Sid's Auto Body Wells Under Permit W99755

Dear Ms. Crystal,

As requested per your monitoring well inspection report received on March 18, 2002, waters encountered in wells MW-1 and MW-2 at Sid's Auto Body have been completely removed. The caps on both wells were locked indicating that the water was not introduced into the well. Based on visual observation of sediments accumulated in the surface area around MW-2, the liquid encountered in this well was the result of site run-off since the well cover bolts were loose. The well lids and boxes were brushed clean, and the well lids were tightly bolted down to prevent similar problems in the future. I have attached pictures of all three wells to show the condition of the well heads after removing the water. I hope this satisfies your request. If you have any questions feel free to give me a call at (858) 536-5610.

Respectfully,

Gregory W. Delson
Project Manager

DATA QUALIFIERS AND DEFINITIONS

M-NR1	There was no MS/MSD analyzed with this batch due to insufficient sample volume. See Blank Spike/Blank Spike Duplicate.
QD	Quantitated against a diesel fuel standard.
QG	Carbon range C6-C12 quantitated against a gasoline standard.
R7	LFB/LFBD RPD exceeded the method control limit. Recovery met acceptance criteria.
ND	Analyte NOT DETECTED at or above the reporting limit or MDL, if MDL is specified.
NR	Not reported.
RPD	Relative Percent Difference

ADDITIONAL COMMENTS

For 8260 analyses:

Due to the high water solubility of alcohols and ketones, the calibration criteria for these compounds is <30% RSD. The average % RSD of all compounds in the calibration is 15%, in accordance with EPA methods.

Sampled: 07/11/01-07/13/01
Received: 07/13/01

DATA QUALIFIERS AND DEFINITIONS

QD	Quantitated against a diesel fuel standard.
QG	Carbon range C6-C12 quantitated against a gasoline standard.
R7	LFB/LFBD RPD exceeded the method control limit. Recovery met acceptance criteria.
ND	Analyte NOT DETECTED at or above the reporting limit or MDL, if MDL is specified.
NR	Not reported.
RPD	Relative Percent Difference

ADDITIONAL COMMENTS

For 8260 analyses:

Due to the high water solubility of alcohols and ketones, the calibration criteria for these compounds is <30% RSD. The average % RSD of all compounds in the calibration is 15%, in accordance with EPA methods.

Douglas F. Roff
Earth Tech
9675 Business Park Ave.
San Diego, Ca 92131

Dear Mr. Roff,

WELL PERMIT #W99875 APN: 469-021-01
MISSION VALLEY LRT PROJECT, ADJACENT TO 7601 ALVARADO RD., LA MESA, CA

The Site Assessment and Mitigation Division received well logs for the above referenced site. Please submit with the following items that were not included with your report:

___ 1. Submit $ ___ for the installation of __ additional boring.

_X_ 2. Submit written documentation indicating the type of sealing materials, quantities used, and the date the work was started and date it was completed for all well/boring (s).

___ 3. Submit a site plan indicating the actual location of the monitoring well /boring (s).

___ 4. Submit all soil and/or groundwater sample analytical results.

_X_ 5. Submit a letter of explanation stating why the surface construction was not completed according to standards.

___ 6. Submit monitoring well/boring log (s) and cover letter with official stamp and signature of Registered Geologist, Registered Civil Engineer or Certified Engineering Geologist responsible for the accuracy and completeness of the logs and accompanying data.

___ 7. Submit a detailed "as built" well construction diagram with the type of casing, screened interval, screen slot size, type of filter pack, location and type of seals, and quantities of materials used.

Please submit the above requested information to this department within fourteen (14) working days by mail, fax (619) 338-2377, or e-mail vtavizeh@co.san-diego.ca.us. If you have any questions regarding this letter, please contact me at (619) 338-2223.

Sincerely,

VERONICA TAVIZON, Environmental Health Technician
Site Assessment and Mitigation Program

DEPARTMENT OF ENVIRONMENTAL HEALTH
LAND AND WATER QUALITY DIVISION

MONITORING WELL AND BORING CONSTRUCTION AND DESTRUCTION PERMIT

SITE NAME: MISSION VALLEY LRT PROJECT

SITE ADDRESS: ON STREET ADJACENT TO 7601 ALVARADO ROAD, LA MESA, CA

PERMIT FOR: **INSTALL 1 GROUNDWATER MONITORING WELL**

PERMIT APPROVAL DATE: JUNE 26, 2001

PERMIT EXPIRES ON: OCTOBER 24, 2001

PERMIT CONDITIONS:

1. All borings must be destroyed in accordance with Department of Water Resources Bulletin 74-81 and 74-90.
2. All wash water must be contained and disposed of properly.
3. Submit complete laboratory data for both soil and groundwater with the well logs.
4. Submit all the information specified in the 2000 SAM Manual in:

   Section 5, Page 3 (1)

5. All water and soil placed in drums must be labeled and stored as specified in the 2000 SAM Manual in:

   Section 5, Page 7 (5)

6. This office must be given 48 hour notice of any drilling activity on this site. Please contact Marisue Crystal at (619) 338-2339.
7. This office must be given advanced notification of drilling cancellation. Please contact Marisue Crystal at (619) 338-2339.

NOTE: **This permit does not constitute approval of a workplan as defined in Section 2722 of Article 11 of C.C.R., Title 23. Workplans are required for all unauthorized release - investigations in San Diego County.**

APPROVED BY: **Robert Rapista** DATE: 06/26/01

PERMIT APPLICATION FOR
GROUND WATER AND VADOSE MONITORING WELLS
EXPLORATORY OR TEST BORINGS

- For well destruction, complete only #1 below.
- Well design, logging and construction must be supervised by a Geologist, Engineering Geologist or Civil Engineer who is registered or certified by the State of California.
- Well driller must have an active C-57 License and current $2,500 bond with the County.
- Provide a plot plan giving location of property lines, existing improvements such as structures, underground tanks, underground utilities, underground piping, and the proposed monitoring and/or observation wells.
- If applicable, provide a signed copy of the Property Owner Responsibility form for each property listed in Section "F".
- Provide encroachment/excavation permit and/or traffic control permit for work to be done in street or public right of way.

1. If wells are to be destroyed, provide a description of method of destruction. N/A

2. What is the proposed purpose of the well/boring? Groundwater sampling and evaluation of aquifer characteristics in support of the Mission Valley ~~East~~ Light Rail Transit construction project.

3. What procedures will be used to prevent the well/boring from providing an avenue to contamination during construction?
All drilling and sampling equipment will be decontaminated prior to drilling each well boring.

4. What field procedures will be utilized to determine if contamination exists? A PID will be used to measure headspace on all soil samples collected.

5. What procedures will be used to determine whether samples will be sent for laboratory testing or archiving?
A PID will be used to screen samples. At a minimum, one soil sample from each well boring will be submitted to a California-certified laboratory for testing.

6. What constituents will be monitored and tested (Include EPA Laboratory Test Methods to be used)?
Samples will be analyzed for constituents listed in Section B.4 of Order 96-41 of the RWQCB's General Waste ~~Discharge~~ Permit Requirements

7. How will samples be transported and preserved? Samples will be placed in an ice-filled cooler until analyzed.

8. What sampling methods will be used? Split-spoon samplers.

9. Are you proposing a variation from the methods and/or procedures presented in the requirements for the construction of Vadose and Ground Water Monitoring Wells (Current SAM Manual Requirements). If yes, specify these variations.
No.

10. What procedures will be used to ensure no contamination will be introduced by the drilling equipment?
All drilling and sampling equipment will be decontaminated prior to and after each well boring.

11. What methods will be used to clean sampling equipment? A steam cleaner/pressure wash will be used to clean all drilling equipment. A four-stage wash/rinse ~~proc~~ procedure including a final rinse with DI water will be used to clean all sampling equipment.

12. What cleaning method will be used to clean casing and screen prior to installation? New casing will be used in each well and will not be removed from the factory wrapping until installed.

COMMUNITY DEVELOPMENT DEPARTMENT
ENGINEERING DIVISION

City of La Mesa, California
Engineering Division
8130 Allison Ave.
P.O. Box 937
La Mesa, Ca 91944-0937
(619) 667-1166

APPLICANT'S NAME: MTDB *PHONE NO.*
MAILING ADDRESS: 1255 Imperial Ave. Ste. 1090 San Diego CA 92101
JOB ADDRESS: Comanche Rd.

Under the provisions of Chapter 18.16 of the Municipal Code as amended, the city of La Mesa California. I/We hereby request permission to excavate, install public improvements or otherwise work in the public right of way or easement described as follows:
Drawing No./Sketch: One 2 inch groundwater monitoring well to a depth up to 80 feet. The well will be installed in accordance with the County Environmental Health Department permit attached

*In consideration of the granting of this application the Permittee agrees to, and by this instrument does hold the city of La Mesa, its elective a appointive boards, officers, agents and employees harmless from any liability or claims for work done and material furnished upon the propert covered by this permit. Said, permittee further agrees to hold and save harmless the City of La Mesa, its elective and appointive boards, officers, agents and employees harmless from any claim, cause of action, liability or responsibility for any accident, loss or damage to person property caused by the negligence of the Permittee, or happening, arising out of the work undertaken pursuant to this permit, or any other permits that may be granted pursuant thereto.

*It is further agreed that if any part of this installation interferes with the future use of the highway by the general public, it must be removed c relocated as designated by the City Engineer at the expense of the permittee or his successor in interest.

DATE OF PERMIT APPLICATION:	PROPOSED PERMIT EXPIRATION DATE:		
8-18-99		X [signature]	SENIOR TRANSPORTATION ENGINEER
PERMIT AUTHORIZING WORK:		APPLICANT (SIGN)	TITLE

Pursuant to Chapter 18.16 Municipal Code as amended, permission is hereby granted to construct in the public right of way or easement of the Ci of La Mesa as per application and attached sketch/drawing.

NOTICE
* Permittee is to apply for inspection of installation 24 hours in advance of back fill or concrete pour and otherwise as required by the C Engineer (call 667-1166).
* Before excavating Permittee Shall check with utilities for location of existing sub-structures. Call Underground Service Alert at 1-800-4133. Notify two (2) working days (min) before any kind of digging or excavation begins
* All back fill shall be D.G., class 2 material, or as shown on plans.
* Notify the Engineering Division at 667-1166 , 48 hours prior to commencement of any construction operations.

Special Conditions: Work to be done to the City of La Mesa standard dwgs. and specifications, regional standard drawings, A.P.W.A. green book to the satisfaction of the City Engineer.

Traffic Control plan required prior to commencement of construction. (YES) ~~NO~~

REQUIREMENTS: *

1. The contractor is responsible for restoring the road back to satisfactory condition which will include, but is not limited to, paving, striping, markings, signing, and loop detection.

2. The agency reserves the right to observe these traffic control plans in operation and to make changes as field conditions warrant.

3. Trench will be backfilled or steel-plated during non-working hours. Steel plates shall have asphaltic ramp on all edges. All dirt, dust, and debris shall be removed from street at end of each day and at the end of the job. The street shall be in drivable condition at all times.

4. Any work that creates an undue safety risk or creates severe congestion will be shut down by the Agency.

5. A copy of all traffic requirements and traffic control plans issued by the Agency must be kept on the job site.

6. Approval of this plan does not constitute an official Permit. Contact the Agency for information on obtaining a permit.

7. All travel lanes will typically be a minimum of 12 feet wide unless otherwise specifically approved by the local jurisdiction.

8. Flashing arrow boards shall be used when required by the local jurisdiction. Steady burn warning lights shall be used to channelize traffic, to separate opposing traffic, and to delineate the path that traffic is to follow.

9. Warning (W) series signs used in work zones shall be black on orange.

10. Cones and pylons shall have yellow reflectorized sleeves along centerline, white reflectorized sleeves along outside shoulder.

THIS TRAFFIC CONTROL PLAN IS NOT VALID UNLESS AN APPLICABLE PERMIT IS ATTACHED

Mr. Don Palmer
City of La Mesa
Engineering Department
8130 Allison Avenue
La Mesa, California 91941

Dear Mr. Palmer:

Subject: MISSION VALLEY EAST (MVE) LIGHT RAIL TRANSIT (LRT) PROJECT - MODIFICATION OF ENCROACHMENT PERMIT NO. 99-141 GROUNDWATER MONITORING, WELL INSTALLATION, AND PUMP TEST

MTDB requests the modification of the above-mentioned permit to include the installation and pump testing of a groundwater monitoring well near the shoulder of Comanche Drive. MTDB's current Encroachment Permit No. 99-141 (expiration date August 18, 2002) is on file with the City of La Mesa for a previous well installation in the subject area. MTDB wishes to amend the current permit to include the proposed work, as described herein.

The groundwater assessment is being conducted in support of MTDB's MVE LRT construction project. Groundwater sampling and aquifer pump test data are required in order to obtain Regional Water Quality Control Board authorization to discharge groundwater from this area during construction. Earth Tech, Inc. will perform the well installation and pump test on behalf of MTDB. (A description of the proposed work is attached. The well location is shown on Figure 1.) The well will be destroyed, according to County of San Diego Department of Health Services requirements, immediately following completion of the LRT construction project.

Prior to beginning work, Earth Tech, Inc. must submit a well permit application to the County of San Diego, which requires a signed *Property Owner Responsibility Agreement*. The signed agreement authorizes the installation of the monitoring well at the subject property. We respectfully request the rapid return of this agreement, along with a copy of the amended encroachment permit, so that Earth Tech, Inc. may expedite its application for a County of San Diego well permit. Please complete and sign the agreement and return all documents to the attention of Gregory Delson, RG, at Earth Tech, Inc., 9675 Businesspark Avenue, San Diego, California 92131. If you have any questions, please call Mr. Delson at (858) 536-5610.

Sincerely,

James Hecht
Senior Transportation Engineer

Contact:	**Gregory W. Delson** **Project Geologist**
Estimated Start Date:	**June 25, 2001**
Estimated Completion Date:	**July 23, 2001**

WORK DESCRIPTION

Work will consist of:

- Conducting an underground utility search in proposed drilling area
- Installing 1 groundwater monitoring well
- Conducting an aquifer pump test at the well
- Storing pump test discharge water onsite for a period of approximately three weeks, pending sanitary sewer disposal permit approval.

Prior to mobilizing for fieldwork, Underground Service Alert (USA) will be notified. Prior to drilling, the contractor will screen for underground utility lines using a private utility locator.

An approximate 8-inch soil boring will be drilled and sampled and a groundwater monitoring well (MVE-7) will be installed and sampled to assess groundwater quality. Prior to drilling MVE-7, asphalt will be sawcut and removed. The drilling will be conducted using an air rotary drill rig. The groundwater monitoring well will be installed to a depth of approximately 82 feet below ground surface and be constructed with 4-inch PVC pipe. The well will be completed at grade with a flush-mounted well box set in a concrete apron.

Following installation, the well will be pump tested over a maximum of 12 hours, followed by a 12-hour recovery test. Water from MVE-7 will be pumped to an adjacent 21,000-gallon water storage tank. The tank will be placed on the bare, unpaved boulevard area located immediately west of the well location. It is anticipated that approval for discharge of the stored water to the sanitary sewer

can be obtained within three to four weeks upon submitting the discharge permit application. Upon obtaining approval from the Municipal Wastewater Department, the contractor will discharge the water in the temporary storage tank into the sanitary sewer and transport the tank offsite.

A state-certified Engineering Geologist will oversee the work conducted at the site.

TRAFFIC CONTROL

A traffic control plan will be developed and implemented as required by the City of La Mesa. Street encroachment requiring traffic control will be for approximately two to three days between 7:00 a.m. and 6:00 p.m.

WORKER SAFETY

Work will be performed by the contractor's field geologist who has read, and retains on site, a copy of *Safe Work Procedure Groundwater, Surface Water and Aquifer Testing, Mission Valley East Light Rail Transit Construction Areas, San Diego and La Mesa, California*. The safe work procedure was prepared by the contractor's certified Health and Safety Manager. All onsite personnel will be informed of the safety concerns and procedures contained in the document. To protect against high-speed vehicle hazards, personnel will wear traffic safety vests at all times, as well as hard hats and safety-toed boots. The geologist will be equipped with a cellular telephone.

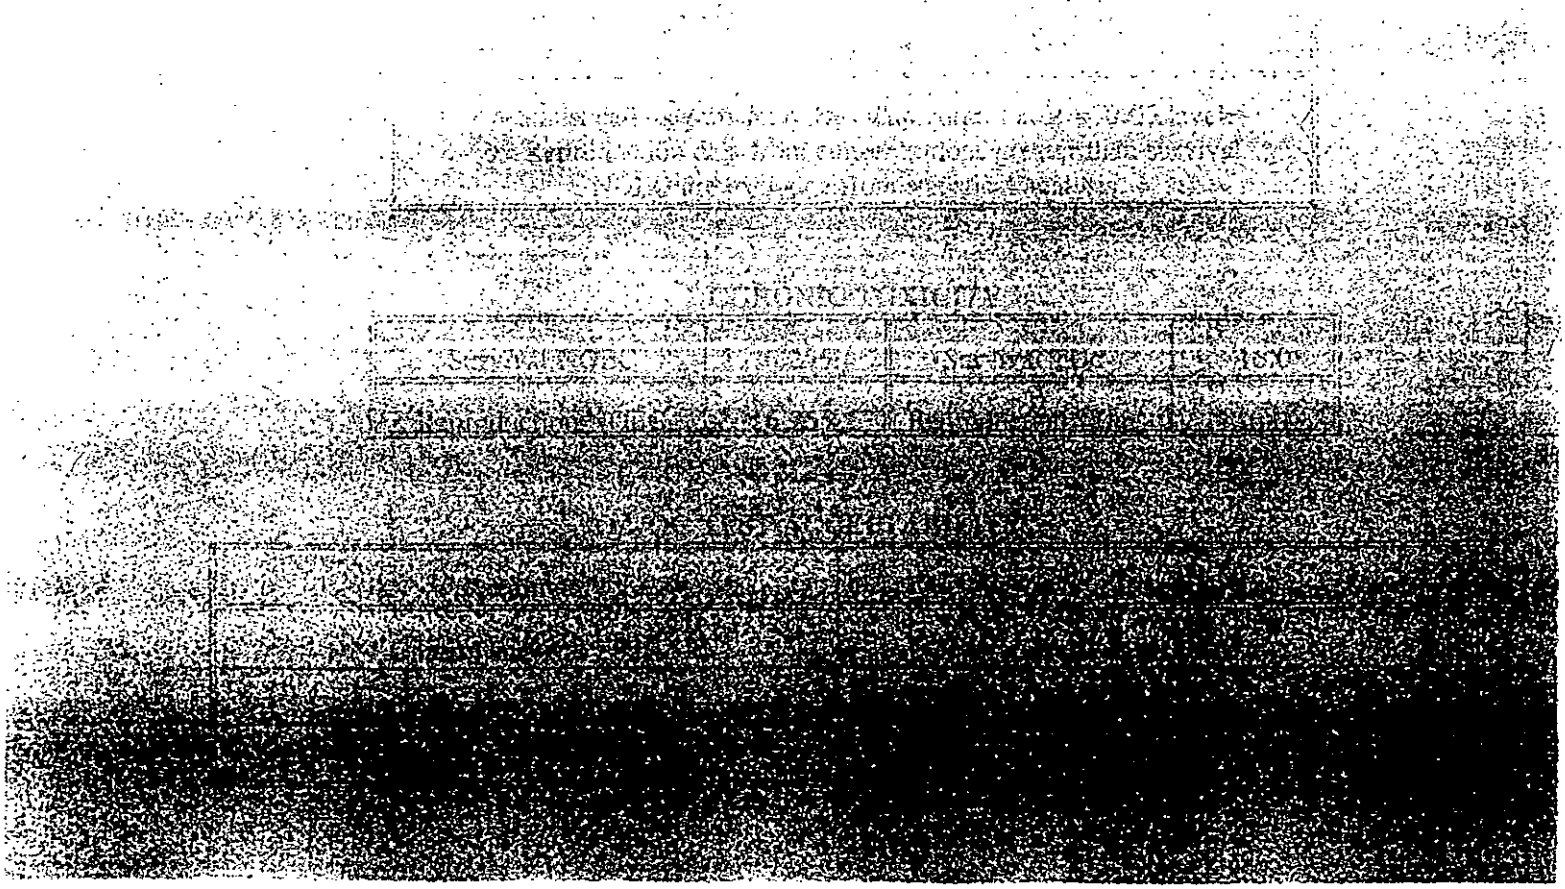
CERIODAPHNIA SURVIVAL AND REPRODUCTION TEST

- *Test and Result Summary*
- *Data Summary and Statistical Analysis*
- *Raw Test Data: Water Quality & Test Organism Measurements*



CERIODAPHNIA CHRONIC BIOASSAY
EPA METHOD 1002.0

Lab No.: A-01072708-001
Client/ID: Del Mar IKG0960-01

Date Tested: 07/27/01 to 08/03/01

TEST SUMMARY

Test type: Daily static-renewal.
Species: *Ceriodaphnia dubia.*
Age: < 24 hrs; all released within 4 hrs.
Test vessel size: 30 ml.
Number of test organisms per vessel: 1.
Temperature: 25 +/- 1°C.
Dilution water: Mod. hard reconstituted (MHRW).
QA/QC Batch No.: RT-010727.

Endpoints: Survival and Reproduction.
Source: In-laboratory culture.
Food: .1 ml YTC, algae per day.
Test solution volume: 15 ml.
Number of replicates: 10.
Photoperiod: 16/8 hrs. light/dark cycle.
Test duration: 7 days.
Statistics: ToxCalc computer program.

RESULTS SUMMARY

Sample Concentration	Percent Survival	Mean Number of Young Per Female
Control	100%	33.4
6.25%	100%	26.5 *
12.5%	40% *	3.1 **
25%	0% *	0.0 **
50%	0% *	0.0 **
100%	0% *	0.0 **

* Statistically significantly less than control at P = 0.05 level.
** Reproduction data from concentrations greater than survival NOEC are excluded from statistical analysis.

CHRONIC TOXICITY

Survival NOEC	6.25%	Survival TUc	16.0
Reproduction NOEC	<6.25%	Reproduction TUc	>16.0

QA/QC TEST ACCEPTABILITY

Parameter	Result
Control survival ≥80%	Yes (100%)
≥15 young per surviving control female	Yes (33.4 young)
≥60% surviving controls had 3 broods	Yes (100%)

SELENASTRUM ALGAL GROWTH TOXICITY TEST
EPA METHOD 1003

Lab No.: A-01072708-001
Client I.D.: Del Mar IKG0960-01

Date tested: 07/27/01 - 07/31/01

TEST SUMMARY

Species: *Selenastrum capricornutum*.
Test type: Static.
Test chamber: 125 ml Erlenmeyer flasks.
Initial cell density: 10,000 cells/ml.
Environment: Incubator.
Photoperiod: Continuous.
Measurement: Direct cell count.
QA/QC Batch No.: RT-010727.

Source: In-lab culture.
Endpoints: Growth after 96 hrs.
Test solution volume: 50 ml.
Number of replicates: 4.
Temp.: 25 +/- 1°C.
Shaking rate: Twice daily.
Instrument: Hemacytometer.
Statistics: ToxCalc computer program.

RESULTS SUMMARY

SAMPLE CONCENTRATION	ALGAL CELL COUNTS / ML	
Control	1,148,000	
6.25%	1,278,000	
12.5%	1,492,000	
25%	548 ,000	*
50%	145,000	*
100%	48,000	*

Cell counts determined by direct count using an Improved Neubauer Phase Bright-Line hemacytometer under an Olympus IMT-2 Phase-Contrast Inverted Microscope at 100X.

* Statistically significantly less than control at P = 0.05 level

JUVENILE FATHEAD MINNOW
REFERENCE TOXICANT BIOASSAY

QA/QC Batch No.: RT-010706

TEST SUMMARY

Species: Pimephales promelas.
Fish length (mm): av: 11 ; min: 10 ; max: 13 .
Fish weight (gm): av: .02 ; min: .01 ; max: .03 .
Test Protocol: EPA 600/4-85/013.
Temperature: 20 +/- 2°C.
Test chamber: 1 liter glass beaker.
Aeration: none unless DO drops below 4.0 mg/l.
Reference toxicant: SDS (sodium dodecylsulfate).
Photoperiod: 16/8 hrs light/dark.

Source: In-lab culture.
Age: 21 days (1-90).
Test type: static.
Endpoints: LC50 at 96 hrs.
Test solutions volume: 1 liter.
Number of replicates: 1.
Number of fish per chamber: 10.
Acclimation/dilution water: MHSF.
Light intensity: ambient lab levels.

EPA METHOD 1000.0
REFERENCE TOXICANT - SDS

QA/QC Batch No.: RT-010727
Date Tested: 07/27/01 - 08/03/01

TEST SUMMARY

Species: *Pimephales promelas*.
Test type: Static renewal (90% daily).
Age: < 24 hrs.
Test chamber size: 600 ml.
Number of larvae per chamber: 10.
Dilution water: Mod.hard reconstituted (MHRW).
Temperature: 25 +/- 1°C.
Statistics: ToxCalc computer program.

Source: In-lab culture.
Endpoints: Survival and Growth.
Food:.15ml brine shrimp nauplii 2X daily.
Test solution volume: 250 ml.
Number of replicates: 3.
Test duration: 7 days.
Photoperiod: 16/8 hrs. light/dark cycle.
Ref. Tox.: Sodium dodecyl sulfate.

RESULTS SUMMARY

Sample Concentration	Percent Survival		Mean Weight of Larvae (Biomass in mg)	
Control	90%		0.347	
1.0 mg/l	82.5%		0.346	
2.0 mg/l	52.5%	*	0.263	**
4.0 mg/l	52.5%	*	0.250	**
8.0 mg/l	0%	*	0	**

* Statistically significantly less than control at P = 0.05 level.
** Concentrations with significantly less than control survival rates are not used in ANOVA comparisons.

CERIODAPHNIA CHRONIC BIOASSAY
EPA METHOD 1002.0
REFERENCE TOXICANT - NaCl

QA/QC Batch No.: RT-010727
Date Tested: 07/27/01 to 08/03/01

TEST SUMMARY

Test type: Daily static-renewal.
Species: *Ceriodaphnia dubia*.
Age: < 24 hrs; all released within 8 hrs.
Test vessel size: 30 ml.
Number of test organisms per vessel: 1.
Temperature: 25 +/- 1°C.
Dilution water: Mod. hard reconstituted (MHRW).
Reference Toxicant: Sodium chloride (NaCl).

Endpoints: Survival and Reproduction.
Source: In-laboratory culture.
Food: .1 ml YTC, algae per day.
Test solution volume: 20 ml.
Number of replicates: 10.
Photoperiod: 16/8 hrs. light/dark cycle.
Test duration: 7 days.
Statistics: ToxCalc computer program.

RESULTS SUMMARY

Sample Concentration	Percent Survival		Mean Number of Young Per Female	
Control	100%		35.6	
0.5 g/l	100%		32.3	
1.0 g/l	100%		14.1	*
2.0 g/l	80%		5.1	*
4.0 g/l	0%	*	0	**

* Statistically significantly less than control at P = 0.05 level
** Reproduction data from concentrations greater than survival NOEC are excluded from statistical analysis.

CHRONIC TOXICITY

Survival LC50	2.5 g/l
Reproduction IC25	0.65 g/l

QA/QC TEST ACCEPTABILITY

Parameter	Result
Control survival ≥80%	Pass (100%)
≥15 young per surviving control female	Pass (35.6 young)
≥60% surviving controls had 3 broods	Pass (100%)

QA/QC Batch No.: RT-010727
Date tested: 07/27/01 - 07/31/01

TEST SUMMARY

Species: *Selenastrum capricornutum*.
Test type: Static.
Test chamber: 125 ml Erlenmeyer flasks.
Initial cell density: 10,000 cells/ml.
Environment: Incubator.
Photoperiod: Continuous.
Measurement: Direct cell count.
Reference toxicant: Copper chloride.

Source: In-lab culture.
Endpoints: Growth after 96 hrs.
Test solution volume: 50 ml.
Number of replicates: 4.
Temp.: 25 +/- 1°C.
Shaking rate: Twice daily.
Instrument: Hemacytometer.
Statistics: ToxCalc computer program.

RESULTS SUMMARY

SAMPLE CONCENTRATION	ALGAL CELL COUNTS / ML	
Control	1,148,000

Subject: **Supplemental Information for 30-Day Reports for Well Permits W99794, W99795, W99869, W99875, and W99876**

Dear Ms. Tavizon:

As requested in the letters dated January 29, 2002, the information included herein is intended to supplement the 30-day reports for the subject well permits. A copy of each letter is enclosed for your reference. The required information per Well Permit number is provided below. Please note that the "date started" and "date finished" information is already provided in all well construction logs. Also note that well abandonment for these wells is anticipated to be conducted under permit within approximately two years.

Telephone
858.536.5610
Facsimile
858.536.5620

W99794

1) Submit written documentation indicating the type of sealing materials, quantities used, and the date work was started and date it was completed for all well borings.

The three monitoring wells covered under this permit were terminated using the following sealing materials:

- Filter Pack Material - Number 3 Sand
  - MVE-2A – 10 Bags (100lbs)
  - MVE-2B – 12 Bags (100 lbs)
  - MVE-4 – 10 Bags (100 lbs)
- Bentonite Seal – Bentonite Chips
  - MVE-2A – 1 Bag (50 lbs)
  - MVE-2B – 1 Bag (50 lbs)
  - MVE-4 – 1-1/2 Bag (50 lbs)
- Well Head Material – Concrete Seal
  - MVE-2A – 12 Bags (98 lbs)
  - MVE-2B – 14 Bags (98 lbs)
  - MVE-4 – 12 Bags (98 lbs)

W99795

1) Submit written documentation indicating the type of sealing materials, quantities used, and the date work was started and date it was completed for all well borings.

The two monitoring wells covered under this permit were terminated using the following sealing materials:

- Filter Pack Material - Number 3 Sand
  - MVE-1A – 4 Bags (100lbs)
  - MVE-1B – 7 Bags (100 lbs)

- Bentonite Seal – Bentonite Chips
  - MVE-1A – 2 Bag (50 lbs)
  - MVE-1B – 1 Bag (50 lbs)

- Well Head Material – Concrete Seal
  - MVE-1A – 12 Bags
  - MVE-1B –12 Bags

2) Submit a letter of explanation stating why surface construction was not completed according to standards.

Given the water table depth (approximately 13 feet below grade) and the anticipated fluctuation in water levels in the area, the screen interval (20 feet total length) was maximized above the water table. To ensure a good seal, 3 feet of bentonite grout was placed above the filter pack. Because both wells are situated within parking lanes with minimal traffic flow, the potential for damaging the well is minimal.

W99869

1) Submit written documentation indicating the type of sealing materials, quantities used, and the date work was started and date it was completed for all well borings.

The two monitoring wells covered under this permit were terminated using the following sealing materials:

- Filter Pack Material - Number 3 Sand
  - MVE-3A – 6 Bags (100lbs)
  - MVE-3B – 11 Bags (100 lbs)

- Bentonite Seal – Bentonite Chips
  - MVE-3A – 1 Bag (50 lbs)
  - MVE-3B – 1 Bag (50 lbs)

- Well Head Material – Concrete Seal
  - MVE-3A – 6 Bags (98 lbs)
  - MVE-3B – 6 Bags (98 lbs)

W99875

1) Submit written documentation indicating the type of sealing materials, quantities used, and the date work was started and date it was completed for all well borings.

The monitoring well covered under this permit was terminated using the following sealing materials:

- Filter Pack Material – Number 3 Sand
  - MVE-7 – 18 Bags (100lbs)
- Bentonite Seal – Bentonite Chips
  - MVE-7 – 2 Bag (50 lbs)
- Well Head Material – Concrete Seal
  - MVE-7 – 12 Bags (98 lbs)

2) Submit a letter of explanation stating why surface construction was not completed according to standards.

During drilling, various moist soils were encountered that had the potential to be perched zones. Inflow from perched zones were a concern because of their potential to affect pumping rates for future dewatering efforts for our client's construction project. The objective of our investigation at this well site was to determine groundwater flow rates from surface to 48 feet bgs. To achieve this, 45 feet of screen was required to be installed to allow inflows from the saturated zone and from perched zones between the surface and the water table at 23 feet bgs. Well screens are only available in 5 and 10 foot lengths so to maximize the amount of screened interval over the depths under investigation, the screen needed to extend from 3 feet bgs to 48 feet bgs. Because surface completion includes the installation of traffic posts, the potential for damaging the well is minimal. Furthermore, the well is anticipated to be abandoned under permit within approximately two years.

W99876

1) Submit written documentation indicating the type of sealing materials, quantities used, and the date work was started and date it was completed for all well borings.

The two monitoring wells covered under this permit were terminated using the following sealing materials:

- Filter Pack Material - Number 3 Sand
  - MVE-6A – 8 Bags (100lbs)
  - MVE-6B – 8 Bags (100 lbs)
- Bentonite Seal – Bentonite Chips
  - MVE-6A – 1 Bag (50 lbs)
  - MVE-6B – 1 Bag (50 lbs)
- Well Head Material – Concrete Seal
  - MVE-6A – 12 Bags (98 lbs)
  - MVE-6B – 8 Bags (98 lbs)

If you have any questions, please call me at (858) 536-5610.

Very truly yours,

Well Permitting Clerk
County of San Diego
Department of Environmental Health
Site Assessment and Mitigation Division
1255 Imperial Avenue, Suite 300
San Diego, CA 92101

Subject: **Thirty-Day Drilling Report for Well Permit Number W99875, On Street Adjacent to 7601 Alvarado Road, La Mesa, California 91941**

Well Monitoring Clerk:

In accordance with the well permit referenced above, one soil boring was drilled at the site on July 5, 2001. A groundwater monitoring well was constructed in the soil boring. In accordance with the requirements of the well permit, Earth Tech is pleased to submit this thirty-day report for your records.

Following this cover letter are a Site Location Map, Site Map, and a Well Location Map (Figures 1, 2, and 9 respectively). Soil boring and groundwater monitoring well construction logs, soil and groundwater sample analytical results, and monitoring well permit are also included.

All soil cuttings and rinsate water generated during the drilling activities, as was well purge water generated during the groundwater sampling activities (July 26, 2001) were placed into UN/DOT-rated 55-gallon drums, labeled, and left on-site pending approval for appropriate disposal. We anticipate that the drummed soil, rinsate water, and purged groundwater will be transported off-site to an appropriate disposal or recycling facility within approximately one week.

If you have any questions, please call the undersigned at (858) 536-5610.

Very truly yours,
Earth Tech, Inc.

Borehole/Well Constuction Log

Project Name: MTDB MVE LRT Dewatering		Project Number: 44102	Borehole Number: MVE-7
Borehole Location: Comanche Dr. and Saranac Pl.	*Northing:* 1861697.17	*Easting:* 6321033.02	Sheet 1 of 2
Drilling Agency: Tri County Drilling		Driller: Dennis Judkins	
Drilling Equipment: Canterra Drill Rig		Date Started: 7/5/01	Total Depth (feet): 50.0
Drilling Method: ODEX	Number of Samples: 0	Date Finished: 7/5/01	Depth to Bedrock (feet): NA
Drilling Fluid: none	Borehole Diameter (in): 8	Depth to Water (feet): *Drilling:* 15.00	*Static:* 23.05
Completion Information: 4" Sched. 40 0.02" slot PVC screen placed from 48 to 3 ft. Blank casing placed from 3 to 0 ft. #3 sand filter pack placed from 50 to 2 ft. Bentonite seal placed from 2 to 1 ft. Concrete seal placed from 1 to 0 ft.		Elevation (feet MSL): *Ground:* 449.80 *Top of Casing:* 449.80	
		Logged By: Greg Delson	Checked By: Adrianne Saboya

Depth (feet)	Samples: Number	Type	Blow Count	Percent Recovery	Time	Field Analyses: FID (ppm) Sample/Background	PID (ppm) Sample/Background	Additional Tests	Log: Graphic	USCS or Rock Type	Lithologic Description	Well Construction Diagram	Remarks
0											Asphaltic concrete		
										SM	STADIUM CONGLOMERATE. Very dense, light olive brown (2.5Y5/4) silty SAND, some fine-grained gravel, some clay, well-graded sand grains, dry, angular, no hydrocarbon odor.		
5			50/3	0%			0.0/0.0			SM	STADIUM CONGLOMERATE. Very dense, light olive brown (2.5Y5/4) silty SAND, some fine-grained gravel, some clay, well-graded sand grains, dry, angular, no hydrocarbon odor.		
10													
15			50/5	0%			0.0/0.0			GW	STADIUM CONGLOMERATE. Very dense, light olive brown (2.5Y5/4) GRAVEL, well graded, some sand, some silt, moist, no hydrocarbon odor.		Slightly moist soil encountered at 15 feet below ground surface.
20													
25			50/1	0%			0.0/0.0			GW	STADIUM CONGLOMERATE. Very dense, light olive brown (2.5Y5/4) GRAVEL, well graded, some sand, some silt, moist, no hydrocarbon odor.

DATA QUALIFIERS AND DEFINITIONS

L2	Laboratory Control Sample recovery was below method control limits. See Corrective Action Report.
M-HA	Due to high levels of analyte in the sample, the MS/MSD calculation does not provide useful spike recovery information. See Blank Spike (LCS).
M-NR1	There was no MS/MSD analyzed with this batch due to insufficient sample volume. See Blank Spike/Blank Spike Duplicate.
QD	Quantitated against a diesel fuel standard.
QG	Carbon range C6-C12 quantitated against a gasoline standard.
R-7	*LFB/LFBD RPD exceeded the method control limit. Recovery met acceptance criteria.*
RL-1	Reporting limit raised due to sample matrix effects.
ND	Analyte NOT DETECTED at or above the reporting limit or MDL, if MDL is specified.
NR	Not reported.
RPD	Relative Percent Difference

ADDITIONAL COMMENTS

For 8260 analyses:

Due to the high water solubility of alcohols and ketones, the calibration criteria for these compounds is <30% RSD. The average % RSD of all compounds in the calibration is 15%, in accordance with EPA methods.

Dear Mr. Delson:

Aquatic Testing Laboratories performed the Fathead Minnow Acute 96hr LC50 Bioassay (EPA 600/4-85/013), Fathead Minnow Larval Survival and Growth Test (EPA Method 1000), Ceriodaphnia Survival and Reproduction Test (EPA Method 1002), and Selenastrum Algal Growth Toxicity Test (EPA Method 1003) analyses requested for the project referenced above. Please use the following table when reviewing your results.

Client ID	Del Mar ID	Aquatic Testing Lab ID
MVE-7	IKG0960-01	A-01072708-001

Attached are the final reports from Aquatic Testing Lab. If you have any questions or require further assistance, please contact me at (949) 261-1022, extension 213.

Sincerely yours,

DEL MAR ANALYTICAL

Patty Mata
Project Manager

2852 Alton Ave.
Irvine, CA 92606
Attn: Patty Mata

Laboratory No.: A-01072708-001
Sample I.D.: IKG0960-01

Sample Control: The sample was received by ATL with the chain of custody record attached.

Date Sampled: 07/26/01
Date Received: 07/27/01
Date Tested: 07/27/01 to 08/03/01

Sample Analysis: The following analyses were performed on your sample:

Fathead Minnow Acute 96hr LC50 Bioassay (EPA 600/4-85/013),
Fathead Minnow Larval Survival and Growth Test (EPA Method 1000),
Ceriodaphnia Survival and Reproduction Test (EPA Method 1002),
Selenastrum Algal Growth Toxicity Test (EPA Method 1003).

Result Summary:

Acute:	LC50	TUa
Fathead Minnow:	>100%	0.0
Chronic:	NOEC	TUc
Fathead Minnow Survival:	100%	1.0
Fathead Minnow Growth:	100%	1.0
Ceriodaphnia Survival:	6.25%	16.0
Ceriodaphnia Reproduction:	<6.25%	>16.0
Selenastrum Algae Growth:	12.5%	8.0

Quality Control: Reviewed and approved by:

FATHEAD MINNOW ACUTE NPDES TOXICITY TEST

Lab No.: A-01072708-001 Client/ID: Dm1KG0960-01

TEST SUMMARY

Species: Pimephales promelas.
Test type: Static.
Test chamber volume: 800 ml.
Test chamber: 1000 ml beakers.
Number of replicates: 2.
Mean fish length: 11 mm.

Source: In-Lab Culture.
Endpoint: LC50 at 96 hrs.
Temperature: 20 +/- 2°C.
Number of fish per chamber: 10.
Photoperiod: 16/8 hrs light/dark.
Mean fish weight: 0.02 gm.

Age: 24 days (1-90).
Test Protocol: EPA/600/4-85/013.
Feeding: none.
Aeration: None, unless DO drops below 4.0 mg/l.
Dilution water: Mod. hard reconstituted water.
QA/QC Batch No.: QT-010706.

PART I: FIRE DEPARTMENT - HAZARDOUS MATERIALS MANAGEMENT DIVISION: OCCUPANCY CLASSIFICATION

Indicate by circling the item, whether your business will use, process, or store any of the following hazardous materials. If any of the items are circled, applicant must contact the Fire Protection Agency with jurisdiction prior to plan submittal.

1. Explosive or Blasting Agents
2. Compressed Gases
3. Flammable or Combustible Liquids
4. Flammable Solids
5. Organic Peroxides
6. Oxidizers
7. Pyrophorics
8. Unstable Reactives
9. Water Reactives
10. Cryogenics
11. Highly Toxic or Toxic Materials
12. Radioactives
13. Corrosives
14. Other Health Hazards

PART II: COUNTY OF SAN DIEGO HEALTH DEPARTMENT - HAZARDOUS MATERIALS MANAGEMENT DIVISION: CONTINGENCY PLAN REVIEW:

If the answer to any of the questions is yes, applicant must contact the County of San Diego Hazardous Materials Management Division, 1255 Imperial Avenue, 3rd Floor, San Diego, CA 92186-5261. Telephone (619) 338-2222 prior to the issuance of a building permit.

FEES MAY BE REQUIRED

12/1/96, Openning

	Yes	No	
1.	X		Is your business listed on the reverse side of this form?
2.	X		Will your business dispose of Hazardous Substances or Medical Waste in any amount?
3.	X		Will your business store or handle Hazardous Substances in quantities equal to or greater than 55 gallons, 500 pounds, 200 cubic feet or carcinogens/reproductive toxins in any quantity?
4.		X	Will your business use an existing or install an underground storage tank?
5.		X	Will your business store or handle Acutely Hazardous Materials?

SECTION A - HAZARDOUS WASTE GENERATION

NOTE: If you know that your business generates, stores or handles hazardous wastes, please continue with Section B of the questionnaire. All others must complete #1 through #6 that follows.

1. Does your business or service generate, store or handle any of the by-products or wastes listed in the box below? YES ☐ NO ☐ Circle the letters of the categories found at your business.

A.	Solvents a. Halogenated - chloroform, methyl chloride. b. Oxygenated - acetone, butanol, ethyl acetate. c. Hydrocarbons - benzene, hexane, stoddard. d. Unspecified solvent mixtures.
B.	Sludges - Alum, paint, degreasing, caustic, paper, tetraethyl lead, lime, tank bottom waste and metal sludge.
C.	Waste Oil/Mixed Oil - Waste motor oil, fuel tank cleaning residue, oil separation waste, lube oil processing waste.
D.	Pesticides and Pesticide Rinse Water - Parathion, Malathion, Diazinon, and other pesticides; pesticide residue from container rinsing.
E.	PCB - Mineral oil contaminated-electrical capacitors, ballasts, and electrical transformers.
F.	Monomer/Polymeric Resin Waste - Plastic coating and laminating waste, resin coating, metal binding and coating resin rinse waters.
G.	Biological Waste - Infectious hospital waste, laboratory and pharmaceutical research waste exceeding 100 kg/month.
H.	Organic Liquid/Solids - Polymer extrusion waste, PVC coating residue, adhesive waste, organic stripper from semi-conductor processing waste.
I.	Contaminated Aqueous Solutions: a. With reactive anions - azide, bromate, chlorate, cyanide, fluoride, hypochlorate, nitrite, perchlorate, sulfide anions, plating rinse solutions, metal coatings and metal parts cleaning solutions. b. With heavy metals - including antimony, arsenic, barium, beryllium, cadmium, chromium, cobalt, copper, lead, mercury, molybdenum, nickel, selenium, silver, thallium, vanadium and zinc. c. With organic residues - including degreasing and metal cleaning solutions, equipment cleaning, dry cleaning, anticorrosion and coolant solution wastes.
J.	Acid Solutions - Wastes battery acid, plating waste, printed circuit etching residue, silicon wafer reclamation and cleaning wastes, galvanizing wastes, other acidic solution wastes with pH≤ 2.
K.	Alkaline Solutions - Wastes from metal plating, anodizing and etching, containing sodium or calcium hydroxide, and other solutions with pH≥ 12.5.
L.	Asbestos - Insulation products, old pipe lagging.
M.	Metal Sludges and Dusts - Metal machining coolant sludges, metal pickling sludges, metal machining dusts.
N.	Miscellaneous - Chemical toilet waste, photochemical processing waste, laboratory chemical wastes, drilling mud, soap and detergent production wastes.

2. Do you dispose of any items in #1 by discharging them into the sewer system including down sinks, floor drains, toilets, etc.?
YES ☐ NO ☑ If yes, which category(ies) of by-product or wastes?

3. Do you dispose of any items listed in #1 in a way other than disposal into the sewer system (for example, trash cans, dumpster, storm drain, on the ground, evaporation ponds, land fills, etc)? YES ☐ NO ☑ If yes, which category(ies) of by-products or wastes? _____

SECTION A - HAZARDOUS WASTE GENERATION (continued)

4. Do you recycle any of the items listed in #1 through another company/contractor or by yourself? YES ☑ NO ☐ If yes, which category(ies) of by-products or wastes? ALL AUTOMOTIVE FLUIDS AND SOLVANTS ARE DISPOSED OF BY LICENSED TRANSPORTERS, TREATMENT CO. ☑

5. Do you manifest (prepare the required transportation document for hazardous wastes) any items listed in #1? YES ☑ NO ☐

6. If you answered "yes" to <u>any</u> of the questions (1, 3, 4, or 5) your business or service <u>does</u> generate hazardous waste and a permit from the San Diego County Department of Environmental Health is required. Continue with Section B of the questionnaire.

PLEASE RETURN THIS SECTION

SECTION B - INVENTORY OF HAZARDOUS MATERIALS

A "hazardous substance" is a chemical compound, or product for which a manufacturer or producer is required by law to prepare a Material Safety Data Sheet (MSDS) for that substance. An MSDS is a document (usually 2 or 3 pages) which contains chemical composition information, fire and explosive data, health hazard data, reactivity data, spill or leak procedures, special protection information and special precaution information. An MSDS for a hazardous substance can be obtained from the supplier of that substance. Hazardous substances also include materials requiring placard warnings during transportation.

1. Does your establishment use or handle hazardous, substances in quantities equal to or greater than 55 gallons, 500 pounds, or 200 cubic feet of compressed gas at any one time?

   Yes ☑ No ☐

2. Review the health hazards data or health and safety section of the Material Safety Data Sheets (MSDS) to see if any chemicals or substances you use are designated as a cancer-causing substance (carcinogen) or substance which may cause birth defects, miscarriages, or damage to the human reproductive system (reproductive toxin). Does your establishment use or handle carcinogens or reproductive toxins?

   Yes ☐ No ☑

3. Does your establishment use or handle gases with Threshold Limit Values (TLV) or Time Weighted Average (TWA) of 10 parts per million or less? Yes ☐ No ☑

If you have answered "Yes" to any of the above questions (1, 2, or 3), you do use or handle hazardous materials that are subject to inventory requirements and a permit from the San Diego County Department of Environmental Health is required. Continue with Section C of the questionnaire.

SECTION C - UNDERGROUND STORAGE TANKS

An "underground storage tank" is a tank, including piping, which holds hazardous wastes (as defined in Section A) or [illegible]zdous substances (as defined in Section B, regardless of volume) and has 10% or more of the total volume located below grade.

Does your business have underground storage tanks as defined above?

Yes ☐ No ☑

If you answered "yes" a permit from the San Diego County Department of Environmental Health is required.

Underground storage tanks may not be installed, removed, destroyed, repaired or operated without permits from this Department.

Continue with the Hazardous Materials Summary on page 4.

PLEASE RETURN THIS SECTION

HAZARDOUS MATERIALS SUMMARY

Complete the following information regarding the handling of hazardous materials at your business or service. Check one statement.

☑ This business or service does generate hazardous waste, handles hazardous materials subject to the inventory requirements and/or has underground storage tanks that requires a permit from the San Diego County Department of Environmental Health.

☐ I have determined that this business or service does not generate hazardous waste, handle hazardous materials subject to the inventory requirements or has underground storage tanks requiring permits from the San Diego County Department of Environmental Health.

I declare under penalty of perjury that to the best of my knowledge and belief the statements made herein are correct and true. I consent to all necessary inspections allowed by law and incidental to the issuance of required permit(s) and the operation of this business.

UNDERGROUND STORAGE TANK CLEANUP FUND, CLAIM NO. 006287, FOR SITE ADDRESS: 7601 ALVARADO RD, LA MESA

The State Water Resources Control Board (State Board) is able to issue, pursuant to applicable regulations, the enclosed Letter of Commitment (LOC) in an amount not to exceed **$85,000**. This LOC is based upon our review of the corrective action costs you reported to have incurred to date. The LOC may be modified by the State Board.

It is very important that you read the terms and conditions listed in the enclosed LOC. Claims filed with the Underground Storage Tank Cleanup Fund far exceed the funding available and it is very important that you make use of the funding that has been committed to your cleanup in a timely manner.

Consequently, if you do not submit your first reimbursement request for corrective action costs which you have incurred within ninety (90) calendar days from the date of this letter, your funds will automatically be deobligated. Once deobligated, any future funds for this site will be obligated subject to availability of funds at such time when we receive your reimbursement request.

You are reminded that you must comply with all regulatory agency time schedules and requirements and you must obtain three bids for any required corrective action. Only corrective action costs *required* by the regulatory agency to protect human health, safety and the environment can be claimed for reimbursement. **Unless waived in writing, you are required to obtain *preapproval of costs* for all future corrective action work (form enclosed).** If you have any questions on obtaining preapproval of your costs or the three bid requirement, please call Brian Kelley, our engineer assigned to claims in your Region, at (916) 227-2783. Failure to obtain preapproval of your future costs may result in the costs not being reimbursed.

MAY 12 1997

The following documents needed to submit your reimbursement request are enclosed:

- ☐ "Reimbursement Request Instructions" package. **Retain this package for future reimbursement requests**. These instructions must be followed when seeking reimbursement for corrective action costs incurred after January 1, 1988. Included in the instruction package are samples of completed reimbursement request forms and spreadsheets.
- ☐ "Bid Summary Sheet" to list information on bids received which **must be completed and returned**.
- ☐ "Certification of Non-Recovery From Other Sources" which **must be returned before any reimbursements can be made.**
- ☐ "Reimbursement Request" forms which you **must use to request reimbursement of costs incurred**.
- ☐ "Spreadsheet" forms which you **must use in conjunction with your reimbursement request**.
- ☐ "Claimant Data Record" (Std. Form 204) which **must be completed and returned with your first reimbursement request.**

We continuously review the status of all active claims. If you do not submit a reimbursement request or fail to proceed with due diligence with the cleanup, we will take steps to withdraw your LOC.

If you have any questions regarding the enclosed documents, please contact Anna Torres at (916) 227-4388.

Sincerely,

Doug Wilson

Dave Deaner, Manager for
UST Cleanup Fund Program

VIOLATION REPORT: The items checked below refer to specific section numbers of Titles 19/22/23 of the California Code of Regulations (CCR), Chapters 6.5, 6.7, 6.95 of the Health and Safety Code (HSC), and/or the San Diego County Code (SDCC).

I HAZARDOUS WASTE REQUIREMENTS:

RECORD KEEPING

- [ ] Health Permit not obtained SDCC 68.905 — V0108 W____
- [ ] No EPA Identification Number 66262.12 — OK — V0105 W____
- [ ] Waste Manifests/Receipts not on-site for 3 years 66262.40 — V0118 W____
- [ ] Manifest not properly completed 66262.23 — V0120 W____
- [ ] Manifest copy not sent to DTSC 66262.23 — V0115 W____
- [ ] TSDF signed-manifest not on-site 66262.40 — V0121 W____
- [ ] Biennial report not sent to DTSC 66262.41 — V0122 W____
- [ ] LDR Documentation not available 66268.7 — V0123 W____
- [ ] Exception Rpt. not filed with DTSC 66262.42 — V0116 W____
- [ ] Operating TSDF without authorization 25201 — V0124 W____

STORAGE AND HANDLING

- [ ] Waste stored longer than 90, 180, or 270 days 66262.34 — V0221 W____
- [ ] Failure to clean up hazwaste off of floor surface 66262.10b — V0313 W____
- [ ] Waste container missing/improperly labeled 66262.34 — V0222 W____
- [ ] Haz Materials not properly labeled 25124 — V0223 W____
- [ ] Waste container not kept closed 66265.173 — V0202 W____
- [ ] Waste container in poor condition 66265.171 — V0205 W____
- [ ] Waste container(s) not properly managed 66265.173 — V0210 W____
- [ ] Damaged container not repackaged 66265.171 — V0226 W____
- [ ] Container incompatible with waste 66265.172 — V0207 W____
- [ ] Incompatibles in the same container 66265.177 — V0224 W____
- [ ] Incompatibles not stored separately 66265.177 — V0213 W____
- [ ] Ignitible Waste less than 50 feet 66265.176 — V0214 W____
- [ ] Ignitible Waste not grounded 66265.31 — V0215 W____
- [ ] Storage area not inspected weekly 66265.174 — V0216 W____

DISPOSAL AND TRANSPORTATION

- [ ] Unauth. disposal of waste to _____ 25189.5 — V0313 W____
- [ ] Waste determination not made 66262.11 — V0319 W____
- [ ] Unlawful transport of haz. waste 25163 — V0315 W____
- [ ] Waste transported without manifest 66262.20 — V0316 W____
- [ ] Extremely Haz Waste Permit not obtained 25205.7 — V0317 W____

TRAINING, CONTINGENCY PLAN & EMERGENCY PROCEDURES

- [ ] Training records unavailable 66265.16 — V0405 W____
- [ ] Training program not adequate 66265.16 — V0406 W____
- [ ] Facility not designed to minimize release 66265.31 — V0501 W____
- [ ] Spill control equip not available 66265.32 — V0508 W____
- [ ] Aisle space is obstructed 66265.35 — V0509 W____
- [ ] Contingency plan not prepared and/or on file 66265.51, 66265.53 — V0609 W____

MISCELLANEOUS

- [ ] Waste oil contaminated 25250.7 — V0225 W____
- [ ] Used oil filters improperly managed 66266.130 — Open — V0701 W____
- [ ] Damaged batteries improperly managed 66266.81 — V0702 W____
- [ ] Facility has failed to notify local CUPA and DTSC of onsite treatment of hazardous waste (tiered permitting) — V0125 W____
- [ ] Onsite treatment of waste without authorization 25201 — V0125 W____

II UNDERGROUND STORAGE TANK (UST) REQUIREMENTS:

GENERAL UST REQUIREMENTS

- [ ] Health Permit not obtained 68.1005, 25284 — V3002 T____
- [ ] Repair/modify/close permit not obtained 68.1005 — V3007 T____
- [ ] UST Permit Application not submitted 25286(a) — V3010 T____
- [ ] Operating permit conditions violated 2712 — V3011 T____
- [ ] Failed to notify HMMD of changes 25284 — V3012 T____
- [ ] No owner/operator agreement 25284 — V3005 T____
- [ ] No records of financial coverage 25292.2 — V3013 T____
- [ ] No maint/monit/calib records available 2712(b), 2641(j) — V3001 T____
- [ ] Monitoring Equip. not tested annually 2630, 2641 — V3003 T____

MONITORING REQUIREMENTS (SINGLE WALL)

- [ ] Leak Detection Method does not meet performance standards 2643 — V3014 T____
- [ ] Integrity test not conducted 25292 — V3015 T____
- [ ] Copy of tank test not submitted to HMMD within 30 days 2643 — V3016 T____
- [ ] Manual tank gauging (<2000 gal) 2645 not done properly — V3017 T____
- [ ] Reconciliation not done properly 2646 — V3018 T____
- [ ] Reconciliation not approved for facility 2646 — V3019 T____
- [ ] Dispenser meter(s) not calib annually 2646 — V3020 T____
- [ ] Improper liquid measurements 2646 — V3021 T____
- [ ] Stick in poor condition 2646 — V3022 T____
- [ ] Improper monthly reconciliation 2646 — V3023 T____
- [ ] Failed to report excessive variation 2646 — V3024 T____
- [ ] Pressurized Product Piping Leak Device not tested annually 25292 — V3025 T____
- [ ] No written monitoring procedure 2641 — V3027 T____
- [ ] No written emergency response plan 2641 — V3027 T____
- [ ] SIR reporting incorrectly done 2646.1 — V3004 T____

MONITORING REQUIREMENTS (DOUBLE WALL)

- [ ] Monitoring system not functional 2632 — V3026 T____
- [ ] No written monitoring procedure 2632 — V3027 T____
- [ ] Written emergency response plan not available 2632 — V3028 T____
- [ ] Spill/Overfill equip not maintained or installed 2635 — V3029 T____

RELEASE REPORTING

- [ ] Failure to report an unauthorized release 25295 — V3009 T____
- [ ] Release record log not available 2651, 2650 — V3030 T____
- [ ] No leak report/investigation/action 2652 — V3031 T____

CLOSURE

- [ ] Temporary closure req. not completed 2671 — V3006 T____
- [ ] Unused tank not properly closed 25298 — V3032 T____
- [ ] Permanent closure req. not completed 2672 — V3033 T____
- [ ] Failed to apply for temporary closure 25298 — V3008 T____

III HAZARDOUS MATERIALS BUSINESS PLAN REQUIREMENTS:

RECORD KEEPING

- [ ] Health Permit not obtained SDCC 68.1105 — V2001 W____

VIOLATION REPORT: The items checked below refer to specific section numbers of Titles 19/22/23 of the California Code of Regulations (CCR), Chapters 6.5, 6.7, 6.95 of the Health and Safety Code (HSC), and/or the San Diego County Code (SDCC).

I HAZARDOUS WASTE REQUIREMENTS:

RECORD KEEPING

- [ ] Health Permit not obtained SDCC 68.905 — V0108 W
- [ ] No EPA Identification Number 66262.12 — V0105 W
- [ ] Waste Manifests/Receipts not on-site for 3 years 66262.40 — V0118 W
- [ ] Manifest not properly completed 66262.23 — V0120 W
- [ ] Manifest copy not sent to DTSC 66262.23 — V0115 W
- [x] TSDF signed-manifest not on-site 66262.40 — V0121 W
- [ ] Biennial report not sent to DTSC 66262.41 — V0122 W
- [ ] LDR Documentation not available 66268.7 — V0123 W
- [ ] Exception Rpt. not filed with DTSC 66262.42 — V0116 W
- [ ] Operating TSDF without authorization 25201 — V0124 W

STORAGE AND HANDLING

- [ ] Waste stored longer than 90, 180, or 270 days 66262.34 — V0221 W
- [ ] Failure to clean up hazwaste off of floor surface 66262.10b — V0313 W
- [x] Waste container missing/improperly labeled 66262.34 — V0222 W
- [ ] Haz Materials not properly labeled 25124 — V0223 W
- [x] Waste container not kept closed 66265.173 — V0202 W
- [ ] Waste container in poor condition 66265.171 — V0205 W
- [ ] Waste container(s) not properly managed 66265.173 — V0210 W
- [ ] Damaged container not repackaged 66265.171 — V0226 W
- [ ] Container incompatible with waste 66265.172 — V0207 W
- [ ] Incompatibles in the same container 66265.177 — V0224 W
- [ ] Incompatibles not stored separately 66265.177 — V0213 W
- [ ] Ignitible Waste less than 50 feet 66265.176 — V0214 W
- [ ] Ignitible Waste not grounded 66265.31 — V0215 W
- [ ] Storage area not inspected weekly 66265.174 — V0216 W

DISPOSAL AND TRANSPORTATION

- [ ] Unauth. disposal of waste to _____ 25189.5 — V0313 W
- [ ] Waste determination not made 66262.11 — V0319 W
- [ ] Unlawful transport of haz. waste 25163 — V0315 W
- [ ] Waste transported without manifest 66262.20 — V0316 W
- [ ] Extremely Haz Waste Permit not obtained 25205.7 — V0317 W

TRAINING, CONTINGENCY PLAN & EMERGENCY PROCEDURES

- [x] Training records unavailable 66265.16 — V0405 W
- [ ] Training program not adequate 66265.16 — V0406 W
- [ ] Facility not designed to minimize release 66265.31 — V0501 W
- [ ] Spill control equip not available 66265.32 — V0508 W
- [ ] Aisle space is obstructed 66265.35 — V0509 W
- [ ] Contingency plan not prepared and/or on file 66265.51, 66265.53 — V0609 W

MISCELLANEOUS

- [x] Waste oil contaminated 25250.7 — V0225 W
- [x] Used oil filters improperly managed 66266.130 — V0701 W
- [ ] Damaged batteries improperly managed 66266.81 — V0702 W
- [ ] Facility has failed to notify local CUPA and DTSC of onsite treatment of hazardous waste (tiered pemitting) — V0125 W
- [ ] Onsite treatment of waste without authorization 25201 — V0125 W

II UNDERGROUND STORAGE TANK (UST) REQUIREMENTS:

GENERAL UST REQUIREMENTS

- [ ] Health Permit not obtained 68.1005, 25284 — V3002 T
- [ ] Repair/modify/close permit not obtained 68.1005 — V3007 T
- [ ] UST Permit Application not submitted 25286(a) — V3010 T
- [ ] Operating permit conditions violated 2712 — V3011 T
- [ ] Failed to notify HMMD of changes 25284 — V3012 T
- [ ] No owner/operator agreement 25284 — V3005 T
- [ ] No records of financial coverage 25292.2 — V3013 T
- [ ] No maint/monit/calib records available 2712(b), 2641(j) — V3001 T
- [ ] Monitoring Equip. not tested annually 2630, 2641 — V3003 T

MONITORING REQUIREMENTS (SINGLE WALL)

- [ ] Leak Detection Method does not meet performance standards 2643 — V3014 T
- [ ] Integrity test not conducted 25292 — V3015 T
- [ ] Copy of tank test not submitted to HMMD within 30 days 2643 — V3016 T
- [ ] Manual tank gauging (<2000 gal) 2645 not done properly — V3017 T
- [ ] Reconciliation not done properly 2646 — V3018 T
- [ ] Reconciliation not approved for facility 2646 — V3019 T
- [ ] Dispenser meter(s) not calib annually 2646 — V3020 T
- [ ] Improper liquid measurements 2646 — V3021 T
- [ ] Stick in poor condition 2646 — V3022 T
- [ ] Improper monthly reconciliation 2646 — V3023 T
- [ ] Failed to report excessive variation 2646 — V3024 T
- [ ] Pressurized Product Piping Leak Device not tested annually 25292 — V3025 T
- [ ] No written monitoring procedure 2641 — V3027 T
- [ ] No written emergency response plan 2641 — V3027 T
- [ ] SIR reporting incorrectly done 2646.1 — V3004 T

MONITORING REQUIREMENTS (DOUBLE WALL)

- [ ] Monitoring system not functional 2632 — V3026 T
- [ ] No written monitoring procedure 2632 — V3027 T
- [ ] Written emergency response plan not available 2632 — V3028 T
- [ ] Spill/Overfill equip. not maintained or installed 2635 — V3029 T

RELEASE REPORTING

- [ ] Failure to report an unauthorized release 25295 — V3009 T
- [ ] Release record log not available 2651, 2650 — V3030 T
- [ ] No leak report/investigation/action 2652 — V3031 T

CLOSURE

- [ ] Temporary closure req. not completed 2671 — V3006 T
- [ ] Unused tank not properly closed 25298 — V3032 T
- [ ] Permanent closure req. not completed 2672 — V3033 T
- [ ] Failed to apply for temporary closure 25298 — V3008 T

III HAZARDOUS MATERIALS BUSINESS PLAN REQUIREMENTS:

RECORD KEEPING

- [ ] Health Permit not obtained SDCC 68.1105 — V2001 W
- [ ] Business Plan not established/implemented 25503.5 — V2002 W
- [ ] Business Plan not submitted to HMMD 25505 — V2007 W
- [ ] Business Plan not amended 25505 — V2003 W
- [x] Personnel Training Records not available 19 CCR 2732 — V2302 W

RELEASE REPORTING

- [ ] Failure to report a release/threatened release 25507 — V2008 W

BUSINESS PLAN ELEMENTS

- [ ] Emergency Response Plan inadequate 25504 — V2201 W
- [ ] Emergency Contacts not provided/current 25509 — V2203 W
- [x] Personnel Training Program inadequate 25504 — V2301 W
- [ ] Inventory is incomplete 25504 — V2005 W
- [x] Site Map is not sufficient 25509 — V2202 W
- [ ] Acutely Haz. Mat. not registered 25533 — V2009 W

ALL VIOLATIONS MUST BE CORRECTED. PLEASE CALL (619) 338-2222 OR YOUR INSPECTOR IF YOU HAVE ANY QUESTIONS.

COMPLIANCE INSPECTION REPORT

BUSINESS NAME Bob Stall Chevrolet
ADDRESS 7607 Alvarado Rd.
CITY/ZIP La Mesa 91941

On the above date an inspection of your business/facility was conducted in order to determine compliance with the California Health and Safety Code (H&S) Chapters 6.5, 6.7, 6.95; Titles 19, 22 and 23 of the California Code of Regulations (CCR); and the San Diego County Code (SDCC). The following remarks are intended to provide guidance to correct the violations noted on the attached violation report.

Office Use Only

Routine Inspection JUN 30 1999 FILE 7-1-99

On this date a routine inspection was completed. The following was observed.

- Auto Body Shop -

1) The 55 gallon drum used to store waste paint thinner is missing the hazardous waste label information. The labe must be readable with praper information.

- Corrective Action: Properly label the hazardous waste container (55 gallon drum) with a waste label and complete all necessary information.

2) Three 5 gallon containers located in the paint mixing room, adjacent to the spray booth, have paint thinner used for cleaning/rinsing equipment. The containers are unlabeled without any identifying information describing the contents of the containers.

Corrective Action: All containers storing a hazardous material or waste must be labeled identifying the contents. Label these containers within 10 days or handle as a hazardous waste.

Office Use Only

BUSINESS ADDRESS: 7601 Alvarado Rd. La Mesa ZIP CODE: 91941

3) Compressed cylinder bottles must be secured at all times to prevent bottles from being tipped over, broken valves and possible projectiles.

Corrective Action: Helium bottles must be secured so they will not have the potential for being knocked over. Secure chain tighter around bottles.

- Automotive Repair - Mechanical -

4) Spills of antifreeze and oil were observed on the shop floor. Engine fluids (hazardous waste) must be cleaned up when spilled.

Corrective Action: Clean up engine fluids that spill onto the floor surface as soon as possible.

5) Drained used oil filters are stacked over the rim of the storage container. Store filters in containers that the lid can be closed.

Corrective action: make use of all containers for used oil filters so that filters are not stacked above containers rim.

(Autobody cont.)

6) The Lid on the waste thinner drum will not close tight as it is covered with dried paint.

Corrective Action: Either clean off old dried paint or replace top so that the Lid will close tight. (Lid must remain closed unless adding or removing waste from container.

7) Sanding dust and dried paint over spray was washed into the drain (attached to clarifier) This material must be swept up as much as possible and not washed out of work area.

* Appears to have well developed IIPP program along with employee training documentation.

CITY/ZIP La Mesa, CA 91941

☐ I certify that the above ground used oil/waste antifreeze tank meets the requirements of the California Code of Regulation (CCR) for exemption from the Professional Engineering Assessment [reference Title 22 CCR section 66265.192(j)]. The Local Fire Marshal installation, usage, and design approval is attached. *

Owner/Operator Signature Thomas Stall Print Name Thomas Stall Date 2-2-2001

The Hazardous Materials Division (HMD) conditionally approves the installation of the used oil/waste antifreeze above ground storage tank as long *as you comply with the following terms and conditions*:

TERMS AND CONDITIONS

1. The aboveground tank, installed after July 1, 1991, must contain **used oil or waste antifreeze** only **(a non-RCRA waste)** as defined in HSC section 25250.1 and has no connected piping.
2. The local Fire Marshall approved and/or permitted the installation, usage, and design per municipal codes and the tank operator maintains documentation supporting this requirement.
3. The primary tank is surrounded with greater than 100% secondary containment.
4. If the tank system is exposed to precipitation, the secondary containment must, in addition to the requirement of item 3 above, be able to handle a 25 year, 24 hour rainfall event, with no intrusion or flooding problems. The HMD strongly advises that the tank system be completely covered to prevent such problems, following all local building and zoning requirements.
5. The facility must have a written leak detection program and **daily** inspection logs onsite as required in 22 CCR sections 66265.194-195 for review by HMD inspectors. Ensure that appropriate controls and practices are in-place at all times to prevent spills, leaks, or overflows from occurring. The secondary containment should be kept empty and dry, except when there is a leak or spill, at which time the secondary containment must be thoroughly cleaned out within 24 hours. The cause of a leak or spill would need to be determined and corrective actions taken (refer. 22 CCR section 66265.196).
6. The tank must be installed and maintained on a non-permeable surface, i.e. concrete (in good repair) or sealed asphalt (in good condition).
7. The operator needs to revise their Business Plan site map, if applicable.
8. The facility should maintain a photocopy of this notification onsite to show to an inspector during facility inspections.

Provided you do not change the configuration of the tank, this exemption is good for 3 years from the date of request for exemption above. In the future, if you make any changes or modifications to the tank system, submit a description of the proposed changes in writing to the HMD 30 days before making the changes to ensure compliance with applicable regulations. Attached is a fact sheet developed by the HMD for your information regarding the regulation of hazardous waste tank systems.

This approval does not exempt your facility from compliance with additional requirements that may be enforced by other local, State, or Federal agencies with regards to storage of hazardous materials in a tank system.

Re: Inspection of Shop & Waste Oil Tank

This letter is to follow-up my inspection of your shop facility today and concerns regarding your waste oil tank. Based on my inspection and examination of the waste oil tank, it doesn't appear to have a leak.

Upon my inspection there was a light sheen of oil and about a ½ " of water present in the secondary containment reservoir. Although I did not conduct a pressure test of the tank it is not likely that the tank has a leak. The tank appeared to be in good condition. There was no evidence of any damage to the exterior of the tank or area surrounding the tank. In looking through our inspection files in the office, overspill into the secondary containment reservoir is common. It has been my experience that this has occurred at several other locations in the City as well. Secondary containment is designed to prevent release of the material onto the ground in the event of a leak or "spillage". Based on these facts I do not believe there is a leak in your tank. Please have the water and oil present in the secondary containment reservoir drained and disposed of in the proper method.

According to my records you are due for annual fire inspection. I will have Bob contact you for an appointment upon his return to work toward the end of the month. If you would like the inspection prior to that time, please contact me and I will conduct the inspection myself. Additionally, if you would like me to forward a copy of this letter to the County inspector for file I would be happy to do so.

Thank you for your efforts to maintain a safe, hazard free shop environment.

Sincerely,

Bruce Kerl

On the above date, an inspection of your business/facility was conducted in order to determine compliance with the California Health and Safety Code (H&S) Chapters 6.5, 6.7, 6.95; Titles 19, 22 and 23 of the California Code of Regulations (CCR); and the San Diego County Code (SDCC). The following remarks are intended to provide guidance to correct the violations noted on the attached violation report.

Office Use Only

JAN 19 2001

Routine Inspection:

Violations:

① Secondary containment for above ground used oil tank contains >10 gallons of used oil and other debris including oily rags.
-Corrective action: Within 5 ~~30~~ days, pump out liquid from secondary containment & dispose of properly. Secondary containment should be maintained dry & free of debris.

② Faded, deteriorated waste labels observed on various drums and above ground waste tank including paint waste barrel, waste antifreeze drum, paint can drum, spray gun solvent containers, used antifreeze container on recycler, used fuel filter drum.
-Corrective action: within 5 days, properly label all containers

③ Tank standards: no daily inspection log of tank is done, possible leak - observed used oil in secondary containment, no P.E. certification observed or exemption.
-Corrective action: as stated previously (#1) remove liquid & debris from secondary containment.

PAGE 2 OF 3

Office Use Only

BUSINESS ADDRESS: 7601 Alvarado #La Mesa ZIP CODE: 91941

document a training session covering topic #1 listed in the hazardous materials business plan and submit to the Dept of Environmental Health.
4. Observed used batteries in a secondary containment box with about 2-5 gallons of battery acid in the bottom. Observed waste oil, approximately 1 gallon in secondary containment lined of waste oil tank.
Corrective action: By 7/16/02 containerize hazardous waste in secondary containment areas. Dispose of wastes using a registered hazardous waste hauler and submit documentation to Dept. of Environmental Health.
5. Observed a hazardous materials drum in car detail area without a label.
Corrective action: By 7/12/02 label all hazardous materials as to there contents.
Remarks:
- Dispose of aerosol cans ~~(empty cans)~~ as hazardous waste if cans still have hazardous materials in them

PERMIT NO. 10265
DATE 11-11-04
TANK CAPACITY
CONTENTS Used oil
SECONDARY CONTAINMENT TYPE cinder block
YEAR INSTALLED 1992
U/L APPROVED (Y/N) N
TANK ID (if applicable) N/A
SPECIALIST Fitzmaurice
DATE OF REQUEST 6-24-04

BUSINESS NAME Bob Stall Chevrolet
ADDRESS 7001 Alvarado Road
CITY/ZIP La Mesa CA 91941

I certify that the aboveground used oil/waste antifreeze tank meets the requirements of the California Code of Regulation (CCR) for exemption from the Professional Engineering Assessment [reference Title 22 CCR section 66265.192(j)].

Owner/Operator Signature [signature] Print Name JOHN STALL Date

The Local Fire Marshal installation, usage, and design approval are attached, OR The Local Fire Marshal has reviewed this aboveground tank for conformance with applicable regulations.

Fire Marshal Approval Signature: [signature] Print Name
Date 6/24/04

The Hazardous Materials Division (HMD) conditionally approves the installation of the used oil/waste antifreeze aboveground storage tank as long *as you comply with the following terms and conditions*:

TERMS AND CONDITIONS

1. The aboveground tank, installed after July 1, 1991, must contain **used oil or waste antifreeze** only **(a non-RCRA waste)** as defined in HSC section 25250.1 and has no connected piping.
2. The local Fire Marshal approved and/or permitted the installation, usage, and design per municipal codes and the tank operator maintains documentation supporting this requirement.
3. The primary tank is surrounded with greater than 100% secondary containment.
4. If the tank system is exposed to precipitation, the secondary containment must, in addition to the requirement of item 3 above, be able to handle a 25 year, 24 hour rainfall event, with no intrusion or flooding problems. The HMD strongly advises that the tank system be completely covered to prevent such problems, following all local building and zoning requirements.
5. The facility must have a written leak detection program and **daily** inspection logs onsite as required in 22 CCR sections 66265.194-195 for review by HMD inspectors. Ensure that appropriate controls and practices are in-place at all times to prevent spills, leaks, or overflows from occurring. The secondary containment should be kept empty and dry, except when there is a leak or spill, at which time the secondary containment must be thoroughly cleaned out within 24 hours. The cause of a leak or spill would need to be determined and corrective actions taken (refer. 22 CCR section 66265.196).
6. The tank must be installed and maintained on a non-permeable surface, i.e. concrete (in good repair) or sealed asphalt (in good condition).
7. The operator needs to revise their Business Plan site map, if applicable.
8. The facility should maintain a photocopy of this notification onsite to show to an inspector during facility inspections.

Provided you do not change the configuration of the tank, this exemption is good for 3 years from the date of request for exemption above. In the future, if you make any changes or modifications to the tank system, submit a description of the proposed changes in writing to the HMD 30 days before making the changes to ensure compliance with applicable regulations. Attached is a fact sheet developed by the HMD for your information regarding the regulation of hazardous waste tank systems.

This approval does not exempt your facility from compliance with additional requirements that may be enforced by other local, State, or Federal agencies with regards to storage of hazardous materials in a tank system.

On the above date, an inspection of your business/facility was conducted in order to determine compliance with the California Health and Safety Code (HSC) Chapters 6.5, 6.7, 6.95; Titles 19, 22 and 23 of the California Code of Regulations (CCR); and the San Diego County Code (SDCC). The following remarks are intended to provide guidance to correct the violations noted on the attached violation report.

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

Y	N/A		Y	N/A	
☑	☐	Unified Program Facility Permit current and available		☐	Permit Expires on: 12/31/04
☑	☐	Employee Training is adequate	☑	☐	Employee Training records available
☑	☐	Waste disposal records available for review	☑	☐	Waste containers kept closed
☑	☐	Emergency contacts current & Updated today	☑	☐	Waste containers kept labeled
☑	☐	Chemical inventory current & Updated today	☑	☐	Waste containers in good condition

☐ All violations noted on this compliance inspection report were corrected during this inspection.

Routine Inspection

Inspection conducted with assistance from John Hoskins. JUN 10 2004

Violations & Corrective Actions:

1. Waste (used) oil is stored in an Above Ground Storage Tank (AST) set in a cinder-block secondary container. The AST does not have a Professional Engineer Certification, or an exemption from the Certification requirements.
Corrective Action: Within 30 days submit to address below either:
a) Professional Engineer Certification for the AST
or b) valid/current Exemption Form

2. AST is not inspected for leaks and overfills on a daily basis.
Corrective Action: Immediately inspect AST daily for leaks/spills and general tank condition, and log results of the inspections.

☑ This is an annual certification that the Hazardous Materials Business Plan (inventory, emergency contacts, emergency response plan, and employee training plan) is current and includes all the information required in the H&SC and is maintained at the site where hazardous materials are stored

ADDRESS 7601 Alvarado Rd
CITY/ZIP La Mesa 91941

On the above date, an inspection of your business/facility was conducted in order to determine compliance with the California Health and Safety Code (HSC) Chapters 6.5, 6.7, 6.95; Titles 19, 22 and 23 of the California Code of Regulations (CCR); and the San Diego County Code (SDCC). The following remarks are intended to provide guidance to correct the violations noted on the attached violation report.

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

Y	N/A		Y	N/A	
☑	☐	Unified Program Facility Permit current and available			Permit Expires on: 12/31/05
☑	☐	Hazardous Materials Business Plan available	☑	☐	Contingency Plan available
☑	☐	Employee Training is adequate	☑	☐	Employee Training records available
☑	☐	Waste disposal records available for review	☑	☐	Waste containers kept closed
☑	☐	Emergency contacts current ☐ Updated today	☐	☐	Waste containers kept labeled
☑	☐	Chemical inventory current ☐ Updated today	☐	☐	Waste containers in good condition

☐ All violations noted on this compliance inspection report were corrected during this inspection.

Routine Inspection. RECEIVED DEC 13 2005

Inspection conducted with assistance from John Hoskins (shop foreman).

Violations & Corrective Actions:

1. Business is a large quantity generator of hazardous waste (≥ 1,000 kg/month). Business does not conduct daily inspections of the above-ground storage tank (AST) containing up to 500 gallons of used oil. The AST is secondarily contained and was issued an exemption from the AST Certification & Engineering Assessment on 11-15-04. This exemption is good for 3 years.

Corrective Action: Immediately implement your written AST monitoring program to include the daily inspection of the AST used to store used oil. Log results of inspections to include condition of primary and secondary tank walls, over-fill prevention system, and labeling of the AST.

☑ This is an annual certification that the Hazardous Materials Business Plan (inventory, emergency contacts, emergency response plan, and employee training plan) is current and includes all the information required in the H&SC and is maintained at the site where hazardous materials are stored. | Initials of Business Representative

PAGE: 2 OF 3

Office Use Only

BUSINESS ADDRESS: 7601 Alvarado Rd La Mesa ZIP CODE: 91941

2. Secondary containment of the used oil AST is not kept clean and dry.
Corrective Action: Maintain secondary containment of the AST free of used oil and debris.

3. Containers storing hazardous materials are not clearly labeled as to contents.
Corrective Action: Within 10 days clearly label ASTs containing new motor oil as to contents.

4. Hazardous waste labels on containers storing hazardous wastes do not list accumulation start dates. Observed two containers storing waste brake fluid, and one container storing used fuel filters that did not list accumulation start dates.
Corrective Action: Include business name, address & telephone number, physical state and hazardous properties, name of the hazardous waste, and accumulation start date on Hazardous Waste labels.

5. Business states that used filters from paint booths are non-hazardous and can therefor be disposed of to landfill. Business has not provided supporting documentation showing that the filters are non-hazardous to this office.
Corrective Action: Within 15 days provide to this office supporting documentation for the determination that used filters are not hazardous waste. Discontinue disposing of used filters to landfill until documentation has been submitted.

COMPLIANCE INSPECTION REPORT

PERMIT # 102651
DATE 10/28/05
PAGE 3 OF 3

BUSINESS ADDRESS: 7601 Alvarado Rd La Mesa ZIP: 91941

VIOLATION REPORT: The items checked below refer to specific section numbers of Titles 19 & 22 of the California Code of Regulations (CCR), Chapters 6.5, 6.95 of the Health and Safety Code (HSC), and/or the San Diego County Code (SDCC).
All violations must be corrected. Submit documentation of return to compliance to your Specialist. You may use the Corrective Action Form to document your return to compliance. Your Specialist can provide these forms. Please call (619) 338-2222 or your Specialist if you have any questions.

HAZARDOUS WASTE REQUIREMENTS

RECORDKEEPING

Viol #		VIOL	VIOLATION DESCRIPTION
	☐	V0131	UPF Permit not obtained SDCC. 68.905
	☐	V0132	No EPA Identification Number. 66262.12
	☐	V0133	Manifest copy not sent to DTSC. 66262.23
	☐	V0134	Exception Rpt. not filed with DTSC. 66262.42
	☐	V0135	Waste Manifests/Receipts not on-site for 3 years. 66262.40
	☐	V0136	No records of battery disposal. 66262.81
	☐	V0137	Manifest not properly completed. 66262.23
	☐	V0138	TSDF signed-manifest not on-site. 66262.40
	☐	V0139	Biennial report not sent to DTSC. 66262.41
	☐	V0140	LDR Documentation not available. 66268.7
	☐	V0141	Operating TSDF without authorization. 25201
	☐	V0142	Failed to notify local CUPA of onsite treatment of hazardous waste. 25201
	☐	V0143	Tiered Permitting notification has incomplete or incorrect information. 25201
	☐	V0144	SB14 compliance doc. not available. 25244.19
	☐	V0145	Excluded recyclable materials report not submitted to HMD. 25143.10

STORAGE AND HANDLING

	☐	V0201	Waste container not kept closed. 66265.173
4.	☑	V0202	Waste container missing/improperly labeled. 66262.34, 25143.9

San Diego, CA 92112-9261

Dear Mr. Fitzmaurice,

Please see the following:

1. V1605 Correction:	Daily Tank Inspection/Inspect Log will be done daily. Inspection Log posted in Shop Foreman's office.
2. V1604 Correction:	Secondary containment will be inspected and kept clean daily.
3. V0216 Correction:	Hazardous containers will be properly labeled as to contents or empty.
4. V0202 Correction:	Hazardous waste labels will be filled out in full name, address, telephone, physical state of hazardous properties, name of hazardous waste and accumulation start date.
5. V0304 Correction:	Waste determination not made. Enclosed are copies. of the results of the analysis of the paint booth filters.

Sincerely,

John Hoskins

I certify that the aboveground used oil/waste antifreeze tank meets the requirements of the California Code of Regulation (CCR) for exemption from the Professional Engineering Assessment [reference Title 22 CCR section 66265.192(j)].

Owner/Operator Signature _____ Print Name RICHARD LARSON (G.M.) Date 11/14/05

The Local Fire Marshal installation, usage, and design approval are attached, OR The Local Fire Marshal has reviewed this aboveground tank for conformance with applicable regulations.

Fire Marshal Approval Signature: _____ Print Name ROBERT SCOTT Date 11/14/05

The Hazardous Materials Division (HMD) conditionally approves the installation of the used oil/waste antifreeze aboveground storage tank as long *as you comply with the following terms and conditions*:

TERMS AND CONDITIONS

1. The aboveground tank, installed after July 1, 1991, must contain **used oil or waste antifreeze** only **(a non-RCRA waste)** as defined in HSC section 25250.1 and has no connected piping.
2. The local Fire Marshal approved and/or permitted the installation, usage, and design per municipal codes and the tank operator maintains documentation supporting this requirement.
3. The primary tank is surrounded with greater than 100% secondary containment.
4. If the tank system is exposed to precipitation, the secondary containment must, in addition to the requirement of item 3 above, be able to handle a 25 year, 24 hour rainfall event, with no intrusion or flooding problems. The HMD strongly advises that the tank system be completely covered to prevent such problems, following all local building and zoning requirements.
5. The facility must have a written leak detection program and **daily** inspection logs onsite as required in 22 CCR sections 66265.194-195 for review by HMD inspectors. Ensure that appropriate controls and practices are in-place at all times to prevent spills, leaks, or overflows from occurring. The secondary containment should be kept empty and dry, except when there is a leak or spill, at which time the secondary containment must be thoroughly cleaned out within 24 hours. The cause of a leak or spill would need to be determined and corrective actions taken (refer. 22 CCR section 66265.196).
6. The tank must be installed and maintained on a non-permeable surface, i.e. concrete (in good repair) or sealed asphalt (in good condition).
7. The operator needs to revise their Business Plan site map, if applicable.
8. The facility should maintain a photocopy of this notification onsite to show to an inspector during facility inspections.

Provided you do not change the configuration of the tank, this exemption is good for 3 years from the date of request for exemption above. In the future, if you make any changes or modifications to the tank system, submit a description of the proposed changes in writing to the HMD 30 days before making the changes to ensure compliance with applicable regulations. Attached is a fact sheet developed by the HMD for your information regarding the regulation of hazardous waste tank systems.

This approval does not exempt your facility from compliance with additional requirements that may be enforced by other local, State, or Federal agencies with regards to storage of hazardous materials in a tank system.

Re: Waste Determination for used paint booth filters.

Dear Mr. Hoskins:

The Hazardous Materials Division (HMD) is in receipt of your correspondence dated January 24th, 2006 regarding your waste determination for used paint booth filter waste.

Pursuant to State law and regulation, the generator of a waste is responsible for determining if the waste is hazardous.[1] The characteristic of a waste material may vary significantly depending on the chemicals used, the concentration of hazardous components in the waste, and/or the process generating the waste. Waste that exhibits a hazardous characteristic or is listed as a hazardous waste in State regulations must be managed as hazardous waste unless exempted or excluded by State law or regulation.[2]

HMD is not authorized under State regulation to give concurrence with your determination that the used paint booth filters are non-hazardous. However, the State of California Department of Toxic Substances Control (DTSC) is authorized to provide a concurrence, although the process is subject to regulation (CCR §66260.200) and DTSC typically charges a fee to review and evaluate the waste determination data. If you wish to obtain their concurrence, contact the DTSC Information Officer for information about this process at 800-728-6942.

When samples of used paint booth filters are to be analyzed, it is prudent to collect truly representative samples of the filters, and have the samples analyzed at a State-accredited laboratory. This is particularly important for a waste which is not homogeneous. More than one sample may be needed to collect representative samples of the waste. One sample of the used paint booth filters may not be sufficient to show the waste to be non-hazardous. Before samples are collected, a sampling plan should be developed to ensure that a sufficient number of samples are collected, and

that the samples are truly representative of the used filters. Waste analytical results must be maintained on site for review by HMD staff.

You have provided HMD with analytical results, dated 1-12-04, for one sample of a used paint booth filter generated at this facility. The results show that toxic metals were present in the sample but at concentrations below levels at which the filters would be considered hazardous waste. As the generator of the waste, you can make the determination of a waste being hazardous or not based on analytical data and/or knowledge of the waste generating process. Be advised, a waste generator who incorrectly determines that a hazardous waste is non-hazardous and fails to manage and dispose of the waste as hazardous waste is violation of State hazardous waste laws and regulations and may be subject to enforcement action.

If you have any questions, please contact me at 858-495-5828.

Sincerely,

Mark Fitzmaurice

Mark Fitzmaurice, Environmental Health Specialist

Enclosure: HAZARDOUS WASTE in Auto Body and Paint Shops

CERTIFIED MAIL/RRR

---

[1] See Title 22 California Code of Regulations § 66262.11, Hazardous Waste Determination.
A person who generates a waste, as defined in section 66261.2, shall determine if that waste is a hazardous waste using the following method:
(a) the generator shall first determine if the waste is excluded from regulation under section 66261.4 or section 25143.2 of the Health and Safety Code;
(b) the generator shall then determine if the waste is listed as a hazardous waste in articles 4 or 4.1 of chapter 11 or in Appendix X of chapter 11 of this division. If the waste is listed in Appendix X and is not listed in articles 4 or 4.1 of chapter 11, the generator may determine that the waste from his particular facility or operation is not a hazardous waste by either:
(1) testing the waste according to the methods set forth in article 3 of chapter 11 of this division, or according to an equivalent method approved by the Department pursuant to section 66260.21; or
(2) applying knowledge of the hazard characteristic of the waste in light of the materials or the processes used and the characteristics set forth in article 3 of chapter 11 of this division.

[2] See Title 22 California Code of Regulations beginning with § 66261.20 et.al. Waste that is toxic, ignitable, reactive, or corrosive is hazardous. Waste which contains a *listed* chemical substance based on its source or prior use (for example, a spent solvent used in cleaning or degreasing) is hazardous.

3-22-07: Complainant inspection conducted.
Did not observe evidence of disposal of hazardous waste (antifreeze) to the ground surface. Waste antifreeze was stored in two 55-gallon capacity metal drums, and most recent waste antifreeze disposal receipt was dated 2-23-07.
Aqueduct appears to be green due to algae.
CIR issued.

3-23-07: Fitzmaurice left telephone message, stating actions taken and desk telephone number, for complainant.

Complaint / Routine Inspection

- Complaint regarding the possible illegal disposal of hazardous waste (anti-freeze) to an unauthorized location (storm-water conveyance system.

- At the time of this inspection, no evidence of illegal disposal of hazardous waste to storm-water system was observed. Rain occurred the previous day and a concrete lined stormwater channel had a slight green color, possibly mistaken for antifreeze, was observed at west end of property. Pictures were taken of channel (permission granted by Greg White (Asst. Mgr).

- Containers storing hazardous waste (used oil, antifreeze, oil filters, brake fluid, paint) observed to be properly labeled and managed.

- Waste gasoline is disposed of immediately after generation, so none is stored on site for extended time periods.

- Waste disposal receipts/manifests reviewed.

RECEIVED APR 17 2007

☑ This is an annual certification that the Hazardous Materials Business Plan (inventory, emergency contacts, emergency response plan, and employee training plan) is current and includes all the information required in the H&SC and is maintained at the site where hazardous materials are stored.

HAZARDOUS MATERIALS BUSINESS PLAN CERTIFICATION

The California Health & Safety Code (H&SC), Division 20, Chapter 6.95, Section 25505 provides for the following:

The San Diego County, Department of Environmental Health, Hazardous Materials Division (HMD), as the administering agency, requires a business that handles hazardous materials to submit the hazardous materials inventory, a list of emergency contacts, and a site plan, **in lieu of a complete Hazardous Materials Business Plan (HMBP),** only after the initial submittal of a complete HMBP. The business must certify that a complete HMBP has been prepared and is maintained at the site where the hazardous materials are stored. A complete HMBP includes the items to be submitted to the HMD and an Emergency Response Plan and Employee Training Plan, as established in H&SC Section 25504. The business must also annually certify that the HMBP is current and maintained on site. See Back for instructions and further clarification.

II. CERTIFICATION STATEMENT

☐ **CARCINOGEN/REPRODUCTIVE TOXIN ANNUAL RENEWAL WITHOUT CHANGES: This is an annual renewal to certify that the list of carcinogens and/or reproductive toxins last provided is a current list as specified in the San Diego County Code of Regulatory Ordinances Section 68.1113.**

Check only one of the following boxes:

☐ **INITIAL CERTIFICATION: This is to certify (H&SC Section 25505(e)(1)) that a complete HMBP, which includes the hazardous materials inventory, a list of emergency contacts, a site plan, emergency response plan, and employee training plan, has been prepared and is maintained at the site where the hazardous materials are stored.**

☒ **ANNUAL CERTIFICATION WITHOUT CHANGES: This is an annual certification (H&SC Section 25505(d)&(e)(2)) that the HMBP, which includes the hazardous materials inventory, a list of emergency contacts, a site plan, emergency response plan, and employee training plan, is current and includes all the information required in H&SC Section 25504, and 25509, and is maintained at the site where the hazardous materials are stored.**

☐ **CERTIFICATION OF CHANGES/REVISIONS: This is to certify that the HMBP has been reviewed (H&SC Section 25505(c) & 25510) and all necessary changes/revisions have been made. The HMBP is current and is maintained at the site where the hazardous materials are stored. Attached are changes to the hazardous materials inventory and/or list of emergency contacts. For site map revisions, submit only the pages that have a change or revision and attach to this certification. This submittal satisfies annual certification requirements specified in H&SC Section 25505(d)&(e)(2).**

As an Authorized Representative, I certify under the penalty of law, that I have personally examined and am familiar with the information submitted and believe the information is true, accurate, and complete. By checking any of the boxes above I also certify that : a)The information contained in the hazardous materials inventory most recently submitted to the CUPA or Administrative Agency is complete, accurate, and up to date; b) There has been no change in the quantity of hazardous materials reported in the most recently submitted inventory; and c) All hazardous materials subject to inventory requirements are listed on the most recently submitted inventory.

On the above date, an inspection of your business/facility was conducted in order to determine compliance with the California Health and Safety Code (HSC) Chapters 6.5, 6.7, 6.95; Titles 19, 22 and 23 of the California Code of Regulations (CCR); and the San Diego County Code (SDCC). The following remarks are intended to provide guidance to correct the violations noted on the attached violation report.

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

Y	N/A		Y	N/A	
☑	☐	Unified Program Facility Permit current and available			Permit Expires on: 12/31/08
☑	☐	Hazardous Materials Business Plan available	☑	☐	Contingency Plan available
☑	☐	Employee Training is adequate	☑	☐	Employee Training records available
☑	☐	Waste disposal records available for review	☑	☐	Waste containers kept closed
☑	☐	Emergency contacts current ☐ Updated today	☑	☐	Waste containers kept labeled
☑	☐	Chemical inventory current ☐ Updated today	☑	☐	Waste containers in good condition

Routine Inspection
Permission to conduct inspection granted by John Hoskins
Notice to comply: Violations & Corrective Actions:
1. Business operator failed to have the Above-ground Storage Tank (AST) containing used oil Tested and Certified by a Professional Engineer
Corrective Action: Within 30 days have the AST Certified by a Professional Engineer or complete and submit to address below an AST Certification & Engineering Assessment Exemption Notification. Be advised that the notification requires this business to comply with Terms and Conditions listed on the form.

RECEIVED DEC 0 3 2008

Remarks:
- AST containing used oil is inspected daily with results of inspections logged.
- Business is a large quantity generator of hazardous wastes, generating > 1,000 kilograms per month.
- Business is a large automobile dealership.

☑ **This is an annual certification that the Hazardous Materials Business Plan (inventory, emergency contacts, emergency response plan, and employee training plan) is current and includes all the information required in the H&SC and is maintained at the site where hazardous materials are stored.**

COMPLIANCE INSPECTION REPORT
Large Quantity Generators of Hazardous Waste

BUSINESS ADDRESS: 7601 Alvarado Rd **ZIP:** 91941

VIOLATION REPORT: The items checked below refer to specific section numbers of Title 22 of the California Code of Regulations and Chapter 6.5 of the California Health and Safety Code. Large Hazardous Waste Quantity Generator=(LQG).

All violations must be corrected. Submit documentation of return to compliance to your Specialist. You may use the Corrective Action Form (HM-926) to document your return to compliance. Your Specialist can provide this form. Please call (619) 338-2222 or your Specialist if you have any questions.

HAZARDOUS WASTE REQUIREMENTS

RECORDKEEPING

Viol #	V	VIOLATION DESCRIPTION
	☐ 0144	Failed to have SB14 compliance documentation for review. 25244.21, 25244.19, & 67100.3(a), 67100.2(a)
	☐ 0150	Failed to complete Biennial Report (RCRA LQG only). 66262.41(b) {keep copy per 66262.40(b)}

STORAGE AND HANDLING -Pursuant to 66262.34(a)

	☐ V0201	Failed to keep container closed. 66265.173(a)
	☐ V0202	Failed to properly label and/or date hazardous waste container and/or tank. 66262.34(a)(2); 66262.34(a)(3) and 66262.34(f)
	☐ V0205	Failed to transfer hazardous waste from a container that leaked or was in poor condition to another container in good condition. 66265.171
	☐ V0206	Failed to keep ignitable or reactive waste 50 feet from property line. 66265.176
	☐ V0207	Did not maintain &/or operate facility to minimize possibility of release or fire. 66265.31
	☐ V0208	Failed to conduct weekly inspections. 66265.174
	☐ V0209	Accumulated hazardous waste more than 90 days. 25201(a) and 66262.34(a)&(c)
	☐ V0212	Failed to properly separate incompatible wastes. 66265.177
	☐ V0213	Failed to use a lined/compatible container. 66265.172
	☐ V0235	Did not accumulate waste in container or tank. 66262.34(a)(1)

TRAINING, EMERGENCY CONTINGENCY PLAN & EMERGENCY PROCEDURES
Pursuant to 66262.34(a)(1)(A)

	☐ V0401	Failed to maintain training records. 66265.16(d) & (e)
	☐ V0402	Employee training program not adequate. 66265.16(a) & (b)
	☐ V0404	Spill or fire control equipment not available. 66265.32(c), (d)
	☐ V0405	Failed to maintain aisle space. 66265.35
	☐ V0406	Emergency contingency plan not prepared and/or kept onsite. 66265.51(a), 66265.53(a) & (b)
	☐ V0413	Failed to have an adequate emergency contingency plan. 66265.52
	☐ V0414	Failed to train employees annually. 66265.16(c)

HAZARDOUS WASTE REQUIREMENTS

TRAINING, EMERGENCY CONTINGENCY PLAN & EMERGENCY PROCEDURES
Pursuant to 66262.34(a)(1)(A)

Viol #	V	VIOLATION DESCRIPTION
	☐ V0415	Failed to equip facility with internal emergency communications or alarm system. 66265.32(a)
	☐ V0416	Failed to carry out contingency plan during an emergency. 66265.51(b)
	☐ V0417	Failed to have an emergency coordinator on call or available during emergency. 66265.55

HAZARDOUS WASTE TANK REQUIREMENTS
Pursuant to 66262.34(a)(1)(A)

(	☑ V1601	Failed to obtain a PE assessment for hazardous waste (HW) tank system. 66265.191(a) or 66265.192(a)
	☐ V1602	Failed to provide adequate PE assessment report for a HW tank system. 66265.191(g) or 66265.192(k)
	☐ V1603	Failed to provide proper secondary containment and/or leak detection for HW tank system. 66265.193(a)
	☐ V1604	Failed to maintain secondary containment empty. 66265.196(b) & (c), 66265.194(c)
	☐ V1605	Failed to inspect and/or document daily HW tank system inspections. 66265.195(c)
	☐ V1606	Failed to use proper spill/overfill prevention controls and practices. 66265.194(a) & (b)
	☐ V1607	Failed to adequately design or maintain corrosion protection. 66265.191(b)(3) or 66265.192(a)&(f)
	☐ V1608	Failed to complete annual integrity assessment for HW tank system without secondary containment. 66265.191(a) & (e)
	☐ V1609	Failed to remove unfit HW tank system from service. 66265.196
	☐ V1611	Failed to properly complete and/or document closure for a HW tank system. 67383.3 & 66265.197(a)&(b)
	☐ V1619	Failed to install safety measures for HW tank system holding ignitable or reactive waste. 66265.198(a)
	☐ V1620	Failed to immediately remove from service a HW tank system that leaked or failed. 66265.196(b) & (c)
	☐ V1621	Failed to notify DTSC when a release to environment occurred from HW tank system. 66265.196(e)(1)or(3)
	☐ V1622	Failed to meet air emission standards for HW tank system with VOC waste. 66265.202 & 66265.1082 (a)(b) or (c)
	☐ V1623	Failed to develop written plan & schedule to perform VOC emissions monitoring. 66265.1089(b)
	☐ V1624	Failed to comply with the 3 year record keeping requirement for tank accumulating VOC waste. 66265.1090(a)
	☐ V1625	Failed to properly control air pollutant emissions for tank accumulating VOC waste. 66265.202, 66265.1083(b) & 66265.1085(b)

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). **This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6.** This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

THIS BUSINESS SELLS NEW & USED CARS AND SERVICES SAME.

THE HMD IS IN RECEIPT OF A WASTE PROFILE (WASTE DETERMINATION) OF THE PAINT BOOTH FILTERS USED AT THIS LOCATION. THE RESULTS OF THE ANALYSIS OF THIS ONE SAMPLE SHOWS THAT CALIFORNIA HEAVY METALS ARE BELOW REGULATORY LEVELS. THE ADDITIONAL SOLUBILITY TEST WAS REQUIRED TO BE DONE ON BARIUM. THE RESULTS WERE BELOW REGULATORY LEVELS. FISH BIOASSAY RESULTS WERE ABOVE REGULATORY LEVELS. ABOVE REGULATORY LEVELS IS NON-HAZARDOUS FOR FISH BIOASSAY RESULTS.

RECEIVED JUL 13 2010

IT IS SOLELY THE WASTE GENERATOR'S RESPONSIBILITY TO KNOW IF A WASTE GENERATED ON SITE IS HAZARDOUS. FEDERAL EPA REQUIRES 4 SEPARATE WASTE DETERMINATION BE CONDUCTED ON A WASTE STREAM TO DETERMINE IF IT IS HAZARDOUS OR NON-HAZARDOUS. A SINGLE ANALYSIS ONLY SHOWS THAT THE ONE SAMPLE IS HAZ OR NON-HAZ. THE WASTE DETERMINATION PROCESS IS DONE BY 2 METHODS (1) LAB ANALYSIS (2) KNOWLEDGE OF PROCESS.

LAB ANALYSIS IS AS IT STATES & MUST BE DONE BY A CALIFORNIA CERTIFIED LAB. KNOWLEDGE OF PROCESS CONSISTS OF COMPILING INFORMATION FROM

☒ This is an annual certification that the Hazardous Materials Business Plan (inventory & site map, emergency contacts, emergency response plan, and employee training plan) is current and includes all the information required in the H&SC and is maintained at the site where hazardous materials are stored.

Client: Bob Stall - chev Project: _____
Date Received: 5-10-10 Sampler's Name: Yes No
Sample(s) received in cooler: ~~Yes~~ ME No (Skip Section 2)
Shipping Information: _____

Section 2
Was the cooler packed with: ME X Ice ____ Ice Packs ___ Bubble Wrap ___ Styrofoam
____ Paper ____None ___ Other _____
Cooler or box temperature: _____

(Acceptance range is 2 to 6 Deg. C.)

Section 3	YES	NO	N/A
Was a COC received?	X		
Is it properly completed? (IDs, sampling date and time, signature, test)	X		
Were custody seals present?			X
If Yes – were they intact?			X
Were all samples sealed in plastic bags?	X		
Did all samples arrive intact? If no, indicate below.	X		
Did all bottle labels agree with COC? (ID, dates and times)	X		
Were correct containers used for the tests required?	X		
Was a sufficient amount of sample sent for tests indicated?	X		
Was there headspace in VOA vials?			X
Were the containers labeled with correct preservatives?			X
Was total residual chlorine measured (Fish Bioassay samples only)? *			X

*: If the answer is no, please inform Fish Bioassay Dept. immediately.

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). **This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6.** This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

Routine Inspection

Business is a new and used car dealership. Auto repair & maintenance is conducted on site, as is auto paint & body work. Business is a large quantity generator of hazardous waste, generating greater than 1,000 kilograms (270 gallons) per month.

- Paint booth filters have been determined to be non-hazardous, based on lab analytical data, as per John Hoskins. Data is in HMD file. Business is currently using water-based color-coat paint for auto paint & body shop.

- Aboveground Storage Tank (AST) containing used oil is inspected daily with results of inspections logged. The AST was granted an exemption from being Certified on 11-6-08.

1. Business operator improperly disposed of hazardous waste. As per John Hoskins, waste brake fluid was disposed of with used oil. No brake fluid observed on site during this inspection.

Corrective Action: Immediately discontinue disposing of waste brake fluid with used oil. Store the fluid in a separate container with tight fitting lid. Label with a Hazardous Waste label. Used oil is only motor oil, transmission fluid, and other

☑ This is an annual certification that the Hazardous Materials Business Plan (inventory & site map, emergency contacts, emergency response plan, and employee training plan) is current and includes all the information required in the H&SC and is maintained at the site where hazardous materials are stored.

VIOLATION REPORT: The items checked below refer to specific section numbers of Titles 19, 22 & 27 of the California Code of Regulations (CCR), Chapters 6.5, 6.67 & 6.95 of the Health and Safety Code, and/or the San Diego County Code (SDCC). Small Quantity Hazardous Waste Generator=(SQG); Large Hazardous Waste Quantity Generator=(LQG); Code 40 of Federal Regulations=(CFR).
All violations must be corrected. Submit documentation of return to compliance to your Specialist. You may use the Corrective Action Form (HM-926) to document your return to compliance. Your Specialist can provide this form. Please call (858) 505-6880 or your Specialist if you have any questions.

HAZARDOUS MATERIALS REQUIREMENTS

Viol #	V		VIOLATION DESCRIPTION
	☐	1001	UPF permit not obtained for hazardous materials. SDCC 68.905
	☐	1002	Hazardous Materials Business Plan (HMBP) not established/ implemented. 25503.5(a)
	☐	1004	HMBP not submitted to the CUPA. 25505(a)
	☐	1005	Emergency contact not provided or current. 25509(a)(7)
	☐	1007	Highly toxic gas (TLV≤10 ppm) not disclosed. 68.1113(b)
	☐	1008	Did not submit annual carcinogen/reproductive toxin list. 68.1113(c)
	☐	1009	Site map is not sufficient or complete. 25509(a)(5) & 25505(a)(2)
	☐	1010	Did not report release or threatened release. 25507(a), 19 CCR 2703
	☐	1012	SPCC Plan not prepared. 25270.3 & 25270.4.5(a)
	☐	1013	Copy of HMBP not onsite for inspector's review. 25505(e)
	☐	1014	HMBP is incomplete/inadequate/not amended to reflect changes. 25504, 25505(a)(2) &/or 25509(a); 25505(b); 19 CCR 2729
	☐	1015	Did not have adequate employee training program 2732 &/or 25504(c)
	☐	1016	Failed to have an adequate emergency response plan 25504(b); 2731
	☐	1017	Business Plan not certified annually. 25505(d) & (e)(2)
	☐	1018	Inventory not amended for 100% increase of hazardous material onsite or inventory is incomplete. 25509, 25510
	☐	1019	SPCC Plan amendment not prepared within 6 months of change. 25270.4.5(a) [ref. CFR 112.1(b) & CFR 112.5]
	☐	1020	Failed to submit Unified Program Consolidated Form(s) to the CUPA for regulated activity or change of information. 27 CCR 15400.1(b) &/or SDCC 68.906; 68.909; &/or 68.908.2

CONSENT TO CONDUCT INSPECTION GRANTED BY: Alan Dobbins TITLE: Parts Manager

INTRODUCTION:
Facility is a large quantity hazardous waste generator (>1000 kg per month) that requires a Hazardous Materials Business Plan.

VIOLATION # 1
1010004 Chemical inventory incomplete or not submitted in CERS. HSC 25505(a)(1); 25506; 25507; and 25508(a)(1)(A)

Classification: Minor

Observations:
A full 55 gallon drum of "windshield wiper fluid" was located at the facility (also an empty drum). The drum label was marked with a "flammable" hazard label. This material was not included in the hazardous materials inventory.

Corrective Action Due By:11/20/2015
Update hazardous materials inventory to include windshield wiper fluid and submit to CERS (California Environmental Reporting System) as soon as possible but within 30 days.

INSPECTION REMARKS:
Minor violations corrected during inspection:
Hazardous waste & product storage cage aisle space was obstructed by tools and lifting equipment. Alan Dobbins, parts manager, moved items to an acceptable aisle space. Alan Dobbins stated that he will rearrange the area to keep the aisle space to the drums clear.
Five unlabeled empty drums were found during the inspection. Alan Dobbins marked the empty drums with date emptied.

COMPLIANCE INSPECTION REPORT

Handlers of Hazardous Materials and Small and Large Quantity Generators of Hazardous Waste

FACILITY NAME: ***BOB STALL CHEVROLET**

ADDRESS: * **7601 ALVARADO RD** CITY/ZIP: ***LA MESA** **91941**

Each violation checked below is for the section(s) of the California Health and Safety Code (HSC), California Code of Regulations (CCR), or the San Diego County Code (SDCC) indicated in italics. Incorporated provisions of Title 40 of the Code of Federal regulations (CFR) are noted for reference. All violations must be corrected. Submit documentation of return to compliance to your Specialist. You may use the Corrective Action Form (HM-926) to document your return to compliance. Please call (858) 505-6880 or your Specialist if you have any questions. HMBP = Hazardous Materials Business Plan; CUPA = Certified Unified Program Agency; CERS = California Environmental Reporting System; SQG = Small Quantity Hazardous Waste Generator; LQG = Large Quantity Hazardous Waste Generator

Hazardous Materials Requirements

#		VIOLATION DESCRIPTION
	☐	1010001 HMBP not established/ implemented. HSC 25505(a) and 25507(a)
	☐	1010002 HMBP not submitted to the CUPA in CERS. HSC 25508(a)(1)(A); HSC 25404(e)(4); 27 CCR 15188(a), (d)
	☐	1010003 Business Activities and/or Business Owner/Operator Identification not completed in CERS. 19 CCR 2729.2(a)(1); HSC 25404(e)(4)
1	☒	1010004 Chemical inventory incomplete or not submitted in CERS. HSC 25505(a)(1); 25506; 25507; and 25508(a)(1)(A)
	☐	1010005 Site map not submitted in CERS or not sufficient. HSC 25505(a)(2) and 25508(a)(1)(A)
	☐	1010006 HMBP not updated to reflect inventory changes or facility information. HSC 25508.1(a-e)
	☐	1010007 HMBP not updated to reflect substantial change to the handler's operations. HSC 25508.1(f)
	☐	1010008 HMBP not certified annually as complete and accurate in CERS. HSC 25508.2
	☐	1010010 Emergency response procedures to mitigate a release or threatened release not adequate, not established or not submitted in CERS. HSC 25505(a)(3) and 25508(a)(1)(A)
	☐	1010011 Failure to notify property owner in writing that the business is subject to the HMBP program. HSC 25505.1
	☐	1010012 Failure to provide a copy of HMBP to the property owner within five working days upon request from property owner. HSC 25505.1
	☐	1010014 Failure to submit emergency response plan in CERS, when not meeting agricultural handler exemption. HSC 25507.1(a) and 25508(a)(1)(A)
	☐	1010015 Failure to submit employee training plan in CERS, when not meeting agricultural handler exemption. HSC 25507.1(a) and 25508(a)(1)(A)
	☐	1010016 HMBP not established or submitted in CERS, when not meeting the remote site exemption. HSC 25507.2 and 25508(a)(1)(A)
	☐	1020001 Employee training plan for hazardous materials management not adequate, not established or not submitted in CERS. HSC 25505(a)(4) and 25508(a)(1)(A)
	☐	1020002 Initial and/or annual employee training not conducted for hazardous materials management and/or employee training records not available or not maintained for 3 years. HSC 25505(a)(4)
	☐	1040001 Hazardous materials release or threatened release not reported to the CUPA and OES immediately upon discovery. HSC 25510(a)
	☐	4010001 Failed to prepare and implement a written Spill Prevention Control and Countermeasures (SPCC) Plan in accordance with 40 CFR 112 (sec. 112.3). HSC 25270.4.5(a)
	☐	HMD 1001 Unified Program Facility permit not obtained for hazardous materials. SDCC 68.905
	☐	HMD 1005 Emergency contact not provided or current. HSC 25508.1(f)
	☐	HMD 1007 Highly toxic gas (TLV<10 ppm) not disclosed. SDCC 68.1113(b)
	☐	HMD 1008 Annual carcinogen/reproductive toxin list not submitted. SDCC 68.1113(c)
	☐	HMD 1013 HMBP not readily available for review. HSC 25505(c)

Hazardous Waste Requirements for SQGs ONLY

	☐	HMD 0219 Failed to properly segregate used oil &/or fuel drained from filters. HSC 25250.22(b)(4); 22 CCR 66266.130(c)(6)
	☐	HMD 0226 Did not accumulate waste in a container or tank. (40 CFR 262.34(d)(2).) 22 CCR 66262.34(d)(2)
	☐	HMD 0412 Failed to have an emergency coordinator on call or available during an emergency. (40 CFR 262.34(d)(5)(i).) 22 CCR 66262.34(d)(2)

Hazardous Waste Requirements for SQGs ONLY (continued)

#		VIOLATION DESCRIPTION
	☐	3030007 Failed to properly label/date hazardous waste container and/or tank. 22 CCR 66262.34(f)
	☐	3030010 Accumulated waste too long (>180 or 270 days) (>90 days for an acutely hazardous waste). (40 CFR 262.34(e) and (f).) HSC 25201(a); 22 CCR 66262.34(d)
	☐	3030013 Failed to accumulate hazardous waste in a container that is in good condition. (40 CFR 262.34(d)(2); 265.171.) 22 CCR 66262.34(d)(2)
	☐	3030015 Failed to accumulate or store hazardous waste in a lined/compatible container. (40 CFR 262.34(d)(2); 265.172) 22 CCR 66262.34(d)(2)
	☐	3030017 Failed to properly close hazardous waste container(s). (40 CFR 262.34(d)(2); 265.173.) 22 CCR 66262.34(d)(2)
	☐	3030019 Failed to inspect hazardous waste storage area at least weekly. (40 CFR 262.34(d)(2); 265.174.) 22 CCR 66262.34(d)(2)
	☐	3030022 Failed to properly separate incompatible waste. (40 CFR 262.34(d)(2); 265.177.) 22 CCR 66262.34(d)(2)
	☐	3030030 Failed to maintain and/or operate the facility to minimize the possibility of a fire, explosion, or any unplanned sudden or non-sudden release of hazardous waste or hazardous waste constituents. (40 CFR 262.34(d)(4), 265.31.) 22 CCR 66262.34(d)(2)
	☐	3030036 Failed to maintain adequate aisle space. (40 CFR 262.34(d)(4); 265.35.) 22 CCR 66262.34(d)(2)
	☐	3010022 Failed to post, next to the telephone, emergency information containing the location of emergency equipment, contact names, and numbers. (40 CFR 262.34(d)(5)(ii).) 22 CCR 66262.34(d)(2)
	☐	3020001 Failed to ensure employees are trained for hazardous waste handling, compliance with regulations, and emergency response procedures. (40 CFR 262.34(d)(5)(iii).) 22 CCR 66262.34(d)(2)
	☐	3030032 Failed to maintain or have emergency equipment, supplies, or equivalents. 1) An internal communication or alarm system; 2) A device, such as a telephone; 3) Portable fire extinguishers, fire control equipment, spill control equipment, and decontamination equipment; and 4) Water at adequate volume and pressure (40 CFR 262.34(d)(4); 265.32) 22 CCR 66262.34(d)(2)
	☐	3030039 Failed to implement contingency plan during an emergency, spill/ release. (40 CFR 262.34(d)(5)(iv).) 22 CCR 66262.34(d)(2)

Hazardous Waste Tank Systems for SQGs ONLY

	☐	3030024 Failed to maintain sufficient freeboard of 2 ft in uncovered tanks to prevent overtopping unless the tank is equipped with a containment structure, a drainage control system or a diversion structure with a capacity that equals or exceeds the volume of the top 2 ft of the tank. (40 CFR 62.34(d)(3); 265.201(b)(c).) 22 CCR 66262.34(d)(2)
	☐	3030025 Failed to provide an overfill protection device on continuously fed hazardous waste tank. (40 CFR 262.34(d)(3); 265.201(b)(4).) 22 CCR 66262.34(d)(2)
	☐	3030027 Failed to conduct daily tank inspection of the discharge system, monitoring equipment, and tank level. (40 CFR 265.201(c)(1), 265.201(c)(2), 265.201(c)(3), 262.34(d)(3).) 22 CCR 66262.34(d)(2)
	☐	3030028 Failed to conduct weekly inspections of the construction materials, fixtures, and surrounding areas of the hazardous waste tank. (40 CFR 265.201(c)(4); 265.201(c)(5); 262.34(d)(3).) 22 CCR 66262.34(d)(2)
	☐	3050007 Failed to properly decontaminate and document closure of a hazardous waste tank system. (40 CFR 265.201(f).) 22 CCR 67383.3
	☐	HMD 1612 Hazardous waste improperly stored in a tank system causing leaks, corrosion, or failure. (40 CFR 265.201(b).) 22 CCR 66262.34(d)
	☐	HMD 1614 Failed to pre-notify the CUPA in writing prior to closing a hazardous waste tank system. 22 CCR 67383.3(a)(1)
	☐	HMD 1615 Failed to properly accumulate ignitable or reactive waste in a tank system. (40 CFR 265.201(g).) 22 CCR 66262.34(d)(2)

Hazardous Waste Requirements for SQGs and LQGs
RECORD KEEPING/OPERATIONAL REQUIREMENTS

#	VIOLATION DESCRIPTION
☐	3010001 Unified Program Facility (UPF) permit not obtained for the generation of hazardous waste. HSC 25404.1; SDCC 68.905
☐	3010029 The facility has not submitted complete and accurate facility information in CERS. HSC 25404(e)(4); 27 CCR 15188(b)
☐	3010002 Failed to obtain and/or maintain an active EPA ID. 22 CCR 66262.12
☐	3010008 Failed to properly complete a uniform hazardous waste manifest. 22 CCR 66262.23(a)
☐	3010009 Failed to complete the hazardous waste manifest Exception Requirement. 22 CCR 66262.42
☐	3010010 Failed to maintain uniform hazardous waste manifest, consolidated manifest, or bills of lading copies for 3 years. HSC 25160.2(b)(3), 25185(a)(4); 22 CCR 66262.40(a)
☐	3010011 Failed to send hazardous waste manifest copies to the Department of Toxic Substances Control (DTSC). 22 CCR 66262.23(a)(4)
☐	3010013 Failed to meet the consolidated manifesting requirements for waste shipment. HSC 25160.2; 22 CCR 66262.40(a)
☐	3010014 Failed to retain disposal records of spent lead batteries for 3 years. 22 CCR 66266.81(a)(4)(B)
☐	3030006 Failed to determine if a hazardous waste is restricted or prohibited from land disposal. 22 CCR 66268.7(a)
☐	3010016 Failure of recycler who recycles more than 100 kilograms per month of recyclable material under a claim that the material qualifies for exclusion or exemption to provide and submit in CERS the required information. HSC 25143.10(a), (c), and/or (d)
☐	HMD 0149 Failed to keep disposal receipts for drained used oil filters and/or drained fuel filters for 3 years. HSC 25250.22; 22 CCR 66266.130
☐	HMD 0148 Failed to have copies of analytical records, waste analysis records, and/or waste determination results for 3 years. 22 CCR 66262.40(c)
☐	HMD 0140 Failed to have Land Disposal Restriction documentation onsite for 3 years. 22 CCR 66268.7(a)(8)
☐	3250005 Failed to obtain a Treatment, Storage and Disposal Facility (TSDF) permit or authorization to store/treat/dispose of hazardous waste. HSC 25201(a)
☐	3050005 Failed to have adequate records demonstrating claim of exemption for Excluded Recyclable Materials. HSC 25143.2(f); 22 CCR 66261.2(g)
☐	3210001 Failed to notify the CUPA in CERS for onsite hazardous waste treatment/tiered permitting. HSC 25201(a)
☐	HMD 0138 Manifest signed by the TSDF not available for inspection. 22 CCR 66262.40(a)

Hazardous Waste Requirements for SQGs and LQGs
DISPOSAL AND TRANSPORTATION

☐	3010007 Failed to prepare a hazardous waste manifest for the transport of a waste for off-site transfer, treatment, storage, or disposal. HSC 25160(b)(1) or (2), 25160.2(b)(9); 22 CCR 66262.20(a)
☐	3030005 Failed to make a proper waste determination. 22 CCR 66262.11, 66262.40(c)
☐	3050001 Failed to use a California registered hazardous waste transporter to transport hazardous waste. HSC 25163(a); 22 CCR 66263.41
☐	3050002 Failed to properly dispose of hazardous waste at an authorized facility. HSC 25189.5(a); 25189(c),(d); 25189.2(c)
☐	3130002 Impermissible dilution of hazardous waste. 22 CCR 66268.3(a)
☐	HMD 0305 Disposed of used oil illegally. HSC 25250.5(a); 25189.5(a); 25189(c),(d); 25189.2(c)
☐	HMD 0306 Disposed of hazardous waste latex paint improperly. HSC 25217.1

Hazardous Waste Requirements for SQGs and LQGs
STORAGE AND HANDLING

#	VIOLATION DESCRIPTION
☐	3030001 Failed to meet requirements, when handling, and storing spent lead acid batteries. 22 CCR 66266.81(a)(1)
☐	3030003 Failed to properly manage 'damaged' spent lead acid batteries. 22 CCR 66266.81(b)
☐	3030004 Failed to properly manage, store, label, and/or recycle used oil filters and/or used fuel filters. HSC 25250.22; 22 CCR 66266.130
☐	3050004 Failed to properly manage contaminated used oil as a hazardous waste. HSC 25250.7(a), (c)
☐	HMD 0222 Failed to properly label Excluded Recyclable Materials (ERM). HSC 25143.9(a).
☐	HMD 0216 Failed to label hazardous material container within 10 days after the container was discovered to be mislabeled or inadequately labeled. HSC 25124(b)(3)(A); 22 CCR 66262.34(f)
☐	HMD 0217 Failed to repackage damaged/deteriorated hazardous material container within 96 hours. HSC 25124(b)(3)(B); 22 CCR 66262.34(f)
☐	HMD 0221 Failed to comply with hazardous waste satellite container regulation. 22 CCR 66262.34(e)
☐	HMD 0223 Failed to properly empty container, failed to manage non-empty container, or inner liner removed from a container. 22 CCR 66261.7(b), (d) and/or (r); 66262.34(f)
☐	HMD 0224 Failed to mark date on empty container larger than 5 gallons and/or manage it within one year. 22 CCR 66261.7(e),(f)

Universal Waste Handler Requirements

☐	3010004 Failed to obtain an EPA ID number from DTSC or US EPA prior to storing 5,000 kg or more of universal waste. 22 CCR 66273.32(a),(b)
☐	3020002 Failed to maintain universal waste handler training records for 3 years. 22 CCR 66273.36(c),(d)
☐	3020003 Failed to properly train handlers of universal waste in universal waste management and response procedures. 22 CCR 66273.36(a),(b)
☐	3030008 Failed to properly label or mark a universal waste (non-Conditionally Exempt Small Quantity Universal Waste Generator). 22 CCR 66273.34
☐	3030011 Failed to properly dispose of universal waste within one year. 22 CCR 66273.35(a) and/or (b)
☐	3030046 Failed to keep records of offsite universal waste (UW) shipment(s) available for inspection for 3 years. HSC 25185(a); 22 CCR 66273.39(c), (d)(2)
☐	3030051 Failed to meet the accumulation standards for universal waste aerosol containers and waste handling. HSC 25201.16(f)
☐	3040004 Failed to manage universal waste in a manner to prevent release(s) to the environment. 22 CCR 66273.33; 66273.33.5
☐	3050003 Disposal of universal waste (UW) to an unauthorized point. HSC 25189.5(a), 25189(c),(d); 25189.2(c); 22 CCR 66273.31(a)

Each violation checked below is for the section(s) of the California Health and Safety Code (HSC) or San Diego County Code ("SDCC") indicated in italics. Incorporated provisions of Title 40 of the Code of Federal Regulations (CFR) are noted for reference. All violations must be corrected. Submit documentation of return to compliance to your Specialist. You may use a DEH Corrective Action Form (HM-926) or other correspondence to document your return to compliance. Please call (858) 505-6880 or your Specialist if you have any questions.

GENERAL APSA FACILITY REQUIREMENT
(Chapters 6.67 and 6.11 of Division 20 of the HSC)

VIOLATION DESCRIPTION

- ☐ 4010001 Failed to prepare and implement a written spill prevention control and countermeasures (SPCC) Plan in accordance with 40 CFR Part 112 (sec. 112.3). HSC 25270.4.5(a)
- ☐ 4010013 Plan does not conform to and/or facility is not fully implementing, the latest version of the regulations in 40 CFR Part 112. HSC 25270.4.5(a) (see detail below)
- ☐ 4010032 Failed to submit a tank facility statement or update/certify business plan annually. HSC 25270.6(a)(1) or (a)(2)
- ☐ 4010033 Failed to pay the APSA program fee or obtain Unified Program Facility Permit. HSC 25270.6(b), SDCC 68.905
- ☐ 4040001 Failed to immediately, upon discovery, report a one-barrel (42 gallons) or greater release of petroleum. HSC 25270.8
- ☐ 4010038 Failed to report required program data electronically. HSC 25404(e)(4), HSC 25270.6(b), SDCC 68.905
- ☐ 4010037 Failed to meet provisions of APSA exemption for oil-filled electrical equipment including containment and visual inspection. HSC 25270.2(a)(4)

REQUIREMENTS BASED ON 40 CFR 112.1-112.6

- ☐ 4010035 Failed to meet the conditions of a Qualified Facility. (40 CFR 112.3(a)(1), 112.3(g), 112.6.) HSC 25270.4.5(a)
- ☐ 4010003 Failed to have a professional engineer certify and review the SPCC Plan. (40 CFR 112.3(d).) HSC 25270.4.5(a)
- ☐ 4010008 Failed to maintain a copy of the Plan on site (applies if facility is manned at least 4 hours/day). (40 CFR 112.3(e)(1).) HSC 25270.4.5(a)
- ☐ 4010010 Failed to make SPCC plan technical amendment(s) when the facility has had a change in: design, construction, operation, or maintenance which affects the facility's discharge potential. (40 CFR 112.5(a).) HSC 25270.4.5(a)
- ☐ 4010009 Failed to perform a 5-year review of the SPCC Plan. (40 CFR 112.5(b).) HSC 25270.4.5(a)
- ☐ 4010011 Failed to have a professional engineer certify technical amendments. (40 CFR 112.5(c). HSC 25270.4.5(a)

GENERAL SPCC REQUIREMENTS
BASED UPON 40 CFR 112.7

- ☐ 4010012 Failed to prepare a SPCC plan that follows the sequence of rule and/or to cross-reference; failed to prepare plan in writing; failed to prepare a plan that addresses additional procedures/methods/equipment not fully operational. (40 CFR 112.7 and 112.7(a)(1).) HSC 25270.4.5(a)
- ☐ 4010002 Failed to obtain facility management approval to commit resources to fully implement the SPCC Plan. (40 CFR 112.7.) HSC 25270.4.5(a)
- ☐ 4010014 Failed to discuss alternative environmental protection to SPCC requirements within SPCC Plan. (40 CFR 112.7(a)(2).) HSC 25270.4.5(a)
- ☐ 4010015 Failed to have an adequate facility diagram, including location of oil storage/transfer areas and connecting pipes, or no facility diagram included in SPCC plan. (40 CFR 112.7(a)(3).) HSC 25270.4.5(a)
- ☐ 4010016 Failed to adequately describe the physical layout of facility, including location of oil storage/transfer areas/connecting pipes or no description of physical layout included in SPCC Plan. (40 CFR 112.7(a)(3), 112.7(a)(3)(i-vi).) HSC 25270.4.5(a)

GENERAL SPCC REQUIREMENTS
BASED UPON 40 CFR 112.7 (continued)

VIOLATION DESCRIPTION

- ☐ 4010017 Plan does not contain procedures for reporting a discharge if facility has no Facility Response Plan. (40 CFR 112.7(a)(4).) HSC 25270.4.5(a)
- ☐ 4010018 Discharge procedures are not adequately addressed if facility has no Facility Response Plan. (40 CFR 112.7(a)(5).) HSC 25270.4.5(a)
- ☐ 4010019 Failed to include prediction of the direction, rate of flow, and total quantity of oil which could be discharged from facility as a result of each type of equipment failure in the SPCC Plan. (40 CFR 112.7(b).) HSC 25270.4.5(a)
- ☐ 4010020 General Containment: Failed to provide, or discuss within the plan, appropriate containment/diversionary structures/equipment designed to address the typical failure, so that any discharge will not escape containment before cleanup occurs. (40 CFR 112.7(c).) HSC 25270.4.5(a)
- ☐ 4010004 Failed to have a professional engineer clearly denote and demonstrate the impracticability of appropriate containment/diversionary structures. (40 CFR 112.7(d).) HSC 25270.4.5(a)
- ☐ 4010005 Failed to prepare an Oil Spill Contingency Plan following the provisions of 40 CFR Part 109 for impracticability claim. This is not required if facility has a Facility Response Plan. (40 CFR 112.7(d)(1).) HSC 25270.4.5(a)
- ☐ 4010006 Failed to provide a written commitment of manpower, equipment, materials for impracticability claim. (40 CFR 112.7(d)(2).) HSC 25270.4.5(a)
- ☐ 4010021 Failed to address in SPCC plan/maintain complete records of: inspections, tests/procedures for 3 years. (40 CFR 112.7(e), 112.8(c)(6).) HSC 25270.4.5(a)
- ☐ 4020001 Failed to train oil-handling personnel on operation/maintenance of equipment to prevent discharges; discharge procedure protocols; applicable laws, rules, and regulations; general facility operations; AND the contents of the SPCC Plan. (40 CFR 112.7(f)(1).) HSC 25270.4.5(a)
- ☐ 4010022 Failed to designate person accountable for discharge prevention who reports to facility management. (40 CFR 112.7(f)(2).) HSC 25270.4.5(a)
- ☐ 4010023 Failed to conduct annual discharge prevention briefings to ensure understanding of SPCC plan. (40 CFR 112.7(f)(3).) HSC 25270.4.5(a)
- ☐ 4030001 Failed to address security of oil handling areas/valves, prevent unauthorized access to starter controls, cap/blank flange connections not in service and provide appropriate lighting to prevent vandalism and assist in discovery of discharges. (40 CFR 112.7(g).) HSC 25270.4.5(a)
- ☐ 4030002 Failure of the secondary containment, and/or rack drainage to flow to a catchment basin, treatment system, or quick drainage system and hold at least the maximum capacity of the largest single compartment of any tank car or tank truck. (40 CFR 112.7(h)(1).) HSC 25270.4.5(a)
- ☐ 4030003 Failed to provide system to prevent vehicular departure before disconnect from transfer lines. (40 CFR 112.7(h)(2).) HSC 25270.4.5(a)
- ☐ 4030004 Failed to inspect lowermost drains and outlets prior to filling and departure of tank car or tank truck. (40 CFR 112.7(h)(3).) HSC 25270.4.5(a)
- ☐ 4030016 Failed to evaluate field-constructed storage tank for brittle fracture and take appropriate action. (40 CFR 112.7(i).) HSC 25270.4.5(a)
- ☐ 4010007 Failed to include discussion of conformance with requirements listed in 40 CFR Part 112. (40 CFR 112.7(j).) HSC 25270.4.5(a)

SPCC REQUIREMENTS BASED UPON 40 CFR 112.8

Refer to APSA (HSC Chapter 6.67) for definition of "storage tank"

#	VIOLATION DESCRIPTION
☐	4010027 Failure to restrain drainage from diked storage areas by valves to prevent discharge. (40 CFR 112.8(b)(1).) HSC 25270.4.5(a)
☐	4030005 Failure to use valves of manual, open and closed design, for drainage of diked areas. (40 CFR 112.8(b)(2).) HSC 25270.4.5(a)
☐	4030008 Facility drainage system from undiked areas not designed/equipped to retain oil or return to facility and/or failed to ensure catchment basin not in an area subject to flooding. (40 CFR 112.8(b)(3), 112.8(b)(4).) HSC 25270.4.5(a)
☐	4030009 Failed to provide at least two lift pumps and permanently install one pump where drainage waters are treated in more than one treatment unit and such treatment is continuous. (40 CFR 112.8(b)(5).) HSC 25270.4.5(a)
☐	4030012 Storage tanks not compatible with materials stored or conditions such as pressure/temperature. (40 CFR 112.8(c)(1).) HSC 25270.4.5(a)
☐	4030010 (Sized Containment) Secondary containment not sized to contain the entire capacity of the largest single storage tank plus freeboard for precipitation. (40 CFR 112.8(c)(2).) HSC 25270.4.5(a)
☐	4030013 Failure to ensure diked areas are sufficiently impervious to contain discharged oil. (40 CFR 112.8(c)(2).) HSC 25270.4.5(a)
☐	4030011 Failed to keep containment bypass valves closed when not draining rainwater. (40 CFR 112.8(c)(3)(i).) HSC 25270.4.5(a)
☐	4030006 Failed to inspect retained rainwater prior to discharge. (40 CFR 112.8(c)(3)(ii).) HSC 25270.4.5(a)
☐	4030007 Failed to open and close bypass valve to drain rainwater under responsible supervision. (40 CFR 112.8(c)(3)(iii).) HSC 25270.4.5(a)
☐	4010026 Failed to maintain adequate records (or NPDES permit records) of drainage from diked areas. (40 CFR 112.8(c)(3)(iv).) HSC 25270.4.5(a)
☐	4030017 Failed to provide corrosion protection for partially buried storage tanks. (40 CFR 112.8(c)(5).) HSC 25270.4.5(a)
☐	4030015 Failed to test or inspect each storage tank for integrity, in accordance with industry standards that take into account size, configuration, and design, on a regular schedule or after material repairs. (40 CFR 112.8(c)(6).) HSC 25270.4.5(a)
☐	4030014 Failed to perform scheduled storage tank tests and inspections by appropriately qualified personnel. (40 CFR 112.8(c)(6).) HSC 25270.4.5(a)
☐	4010028 Failed to frequently inspect the outside of each storage tank for signs of deterioration, discharges, accumulation of oil in diked areas, including supports/foundations; failed to keep records of inspections, tests and comparison records. (40 CFR 112.8(c)(6).) HSC 25270.4.5(a)
☐	4030018 Failure of steam return/exhaust of internal heating coils, which discharge into an open water course, to be monitored, passed through a settling tank, skimmer, or other separation system. (40 CFR 112.8(c)(7).) HSC25270.4.5(a)
☐	4030019 Failed to provide each storage tank with a high level monitoring device, or implement procedures to prevent discharges caused by overfills, in compliance with 40 CFR Part 112. (40 CFR 112.8(c)(8)(i-iv).) HSC 25270.4.5(a)
☐	4030022 Failed to regularly test liquid level sensing devices to ensure proper operation. (40 CFR 112.8(c)(8)(v).) HSC 25270.4.5(a)
☐	4030023 Failure to frequently observe effluent treatment facilities, which discharge directly to navigable waters, to detect oil spills. (40 CFR 112.8(c)(9).) HSC 25270.4.5(a)
☐	4030021 Failed to promptly correct visible discharges and/or remove accumulations of oil in diked areas. (40 CFR 112.8(c)(10).) HSC 25270.4.5(a)
☐	4030024 (For mobile or portable storage tanks AND mobile refuelers) Failed to locate mobile or portable containers to prevent discharge. (40 CFR 112.8(c)(11).) HSC 25270.4.5(a)
☐	4030020 (For mobile or portable storage tanks EXCEPT mobile refuelers) Failed to provide secondary containment sufficient to contain the capacity of the largest single compartment or container with sufficient freeboard for precipitation. (40 CFR 112.8(c)(11).) HSC 25270.4.5(a)

SPCC REQUIREMENTS BASED UPON 40 CFR 112.8 (continued)

Refer to APSA (HSC Chapter 6.67) for definition of "storage tank"

#	VIOLATION DESCRIPTION
☐	4030025 Failed to inspect buried piping when exposed for any reason; failed to do additional examination or take corrective action if corrosion damage is identified. (40 CFR 112.8(d)(1).) HSC 25270.4.5(a)
☐	4030027 Failed to provide corrosion protection for buried piping. (40 CFR 112.8(d)(1).) HSC 25270.4.5(a)
☐	4030028 Failed to cap/blank-flange piping connection at transfer point and mark its origin if not in service. (40 CFR 112.8(d)(2).) HSC 25270.4.5(a)
☐	4030029 Failed to design pipe supports to minimize abrasion/corrosion and to allow for expansion/contraction. (40 CFR 112.8(d)(3).) HSC 25270.4.5(a)
☐	4030026 Failed to regularly inspect aboveground valves, piping, and appurtenances. (40 CFR 112.8(d)(4).) HSC 25270.4.5(a)
☐	4030030 Failed to conduct integrity and leak test on buried piping at installation, modification, construction, relocation or replacement. (40 CFR 112.8(d)(4).) HSC 25270.4.5(a)
☐	4030031 Failed to adequately warn vehicles entering facility to protect piping and other transfer operations. (40 CFR 112.8(d)(5).) HSC 25270.4.5(a)

COUNTY OF SAN DIEGO

COMPLIANCE INSPECTION REPORT

Large Quantity Generators (LQG) of Hazardous Waste

Each violation checked below is for the section(s) of the California Health and Safety Code (HSC), California Code of Regulations (CCR), or the San Diego County Code (SDCC) indicated in italics. . All violations must be corrected. Submit documentation of return to compliance to your Specialist. You may use the Corrective Action Form (HM-926) to document your return to compliance. Please call (858) 505-6880 or your Specialist if you have any questions. DTSC = Department of Toxic Substances Control; RCRA = Resource Conservation and Recovery Act; LQG = Large Quantity Hazardous Waste Generator; VOC = Volatile Organic Compound

Hazardous Waste Requirements for LQGs ONLY

RECORDKEEPING/OPERATIONAL REQUIREMENTS

#	VIOLATION DESCRIPTION
☐ 3010018	Failed to prepare a hazardous waste management performance report every 4 years. 22 CCR 67100.7, 67100.8
☐ 3010019	Failed to prepare a summary progress report (4 year req.) and/or keep onsite available for review. 22 CCR 67100.9, 67100.3
☐ 3010021	Failed to adequately complete a source reduction report and maintain for review. HSC 25244.19, 25244.21; 22 CCR 67100.3, 67100.4, 67100.5
☐ 3110007	(RCRA LQG) Failed to complete the Biennial Report by March 1st on even numbered year and maintain it onsite for 3 years. 22 CCR 66262.40(b), 66262.41(b)

STORAGE AND HANDLING

☐ 3130003	Failed to properly label/date hazardous waste container or tank. 22 CCR 66262.34(f), 66262.34(a)(2), 66262.34(a)(3)
☐ 3130004	Accumulated hazardous waste more than 90 days without a DTSC storage permit. HSC 25201(a); 22 CCR 66262.34(a) and (c)
☐ 3130005	Failed to transfer waste from a container that is in poor condition to another container that is in a good condition. 22 CCR 66265.171
☐ 3130006	Failed to accumulate hazardous waste in a lined or compatible container. 22 CCR 66265.17
☐ 3130007	Failed to keep a hazardous waste container closed. 22 CCR 66265.173(a)
☐ 3130008	Failed to inspect hazardous waste storage area(s) at least weekly. 22 CCR 66265.174
☐ 3130009	Failed to keep reactive and/or ignitable waste at least 50 ft. from the property line. 22 CCR 66265.176
☐ 3130010	Failed to properly separate incompatible waste. 22 CCR 66265.17(b), 66265.177
☐ 3130013	Failed to maintain or operate the facility to minimize the possibility of a fire, explosion, or release of hazardous waste or its constituents to the air, soil, or water. 22 CCR 66265.31
☐ HMD 0235	Did not accumulate hazardous waste in a container or tank. 22 CCR 66262.34(a)(1)(A)

TRAINING, CONTINGENCY PLAN & ER PROCEDURES

☐ 3110011	Failed to prepare a written Contingency Plan to minimize human hazards or threat to the environment. 22 CCR 66265.51(a)
☐ 3110012	Failed to maintain onsite a copy of the Contingency Plan and all its revisions and submit a copy to the local emergency agencies that may be called upon to provide emergency services. 22 CCR 66265.53
☐ 3120001	Failed to maintain training records. 22 CCR 66265.16(d) and (e)
☐ 3130015	Failed to test and maintain all communications or alarm systems, fire protection equipment, spill control equipment, and decontamination equipment. 22 CCR 66265.33
☐ 3130016	Failed to maintain aisle space to allow the unobstructed movement of personnel, fire protection, spill-control equipment, etc. to any area of facility operation in an emergency. 22 CCR 66265.35
☐ 3130017	Failed to take precautions to prevent accidental ignition or reaction of ignitable or reactive waste, including the posting of a "No Smoking" sign(s). 22 CCR 66265.17(a)
☐ 3130018	Failed to immediately implement the facility Contingency Plan during an emergency. 22 CCR 66265.51(b)
☐ HMD 0402	Employee training program not adequate. 22 CCR 66265.16(a) and/or (b)
☐ HMD 0413	Contingency plan content is missing information and/or listing of required actions or descriptions. 22 CCR 66265.52
☐ HMD 0414	Failed to train employees at least annually. 22 CCR 66265.16(c)
☐ HMD 0415	Failed to equip facility with required emergency equipment, internal communication system, and/or spill response equipment. 22 CCR 66265.32
☐ HMD 0417	Failed to have an emergency coordinator on call or available during emergency. 22 CCR 66265.55

Hazardous Waste Tank System for LQGs ONLY

#	VIOLATION DESCRIPTION
☐ 3110013	Failed to obtain and maintain a written assessment certified by an independent, qualified, registered professional engineer for the hazardous waste tank system. 22 CCR 66265.192(a), 66265.192(h), or 66265.191(a)
☐ 3110014	Hazardous waste tank system assessment documentation failed to include all required information. 22 CCR 66265.192(k)
☐ 3110015	Failed to obtain CUPA approval prior to the replacement of equipment for a tank system. 22 CCR 66265.192(l), 66265.192(m)
☐ 3130011	Failed to maintain tank operating requirements: 1) Spill prevention control; 2) Overfill prevention control, and/or; 3) maintenance of sufficient freeboard in uncovered tanks. 22 CCR 66265.194(a),(b)
☐ 3130012	Failed to conduct daily inspections and/or maintain the inspection records for hazardous waste tank system. 22 CCR 66265.195(a)(c)
☐ 3130019	Failed to provide proper secondary containment and/or leak detection for hazardous waste tank system. 22 CCR 66265.193(a)
☐ 3130020	Failed to inspect and document the cathodic protection system within six months after initial installation, and annually thereafter, and to inspect all sources of impressed current at least bimonthly. 22 CCR 66265.195(b)
☐ 3140001	Failed to properly respond to a tank system spill/leak, follow emergency procedures as required and/or keep secondary containment empty. 22 CCR 66265.56, 66265.196, 66265.194(c)
☐ 3150002	Failed to properly close a hazardous waste tank system ensuring the minimization of further maintenance and requirements are met. 22 CCR 66265.111, 66265.114, 66265.197, 67383.3
☐ HMD 1604	Failed to maintain secondary containment empty. 22 CCR 66265.196(b) and (c); 66265.194(c)
☐ HMD 1607	Failed to adequately design or maintain corrosion protection. 22 CCR 66265.191(b)(3) or 66265.192(a) and (f)
☐ HMD 1608	Failed to complete annual integrity assessment for existing hazardous waste tank system without secondary containment. 22 66265.191(a)(e)
☐ HMD 1609	Failed to remove unfit hazardous waste tank system from service. 22 CCR 66265.196
☐ HMD 1611	Failed to properly complete and/or document closure of a hazardous waste tank system. 22 CCR 67383.3, 66265.197(a), (b)
☐ HMD 1619	Failed to have required safety measures for hazardous waste tank system holding ignitable or reactive waste. 22 CCR 66265.198(a)(b)
☐ HMD 1620	Failed to immediately remove from service a hazardous waste tank system that leaked or failed. 22 CCR 66265.196(b),(c)
☐ HMD 1621	Failed to notify DTSC when a release to environment occurred from a hazardous waste tank system. 22 CCR 66265.196(e)(1)or(3)
☐ HMD 1622	Failed to meet air emission standards for HW tank system with VOC waste. 22 CCR 66265.202 and 66265.1082 (a)(b) or (c)
☐ HMD 1623	Failed to develop written plan and schedule to perform VOC emissions monitoring. 22 CCR 66265.1089(b)
☐ HMD 1624	Failed to comply with the 3 year record keeping requirement for tank accumulating VOC waste. 22 CCR 66265.1090(a)
☐ HMD 1625	Failed to properly control air pollutant emissions for tank accumulating VOC waste. 22 CCR 66265.202, 66265.1083(b) and 66265.1085(b)

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). **This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6.** This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

CONSENT TO CONDUCT INSPECTION GRANTED BY: Alan Dobbins TITLE: Parts Manager

INTRODUCTION:
The Hazardous Materials Division (HMD) is the Certified Unified Program Agency (CUPA) for the County of San Diego, regulating businesses that manage hazardous waste, hazardous materials, aboveground petroleum storage tanks, and underground storage tanks. The HMD also acts as the local enforcement agency for the Medical Waste Management Act (MWMA).

Routine compliance inspection for hazardous waste generation, Hazardous Materials Business Plan (HMBP) and Above Ground Petroleum Storage Act. Bob Stall Chevrolet is a dealership that has vehicle repair/maintenance and auto body shops on site.

Facility is a large quantity hazardous waste generator that generates per year:
Waste Oil ~10,000 gal., Waste Coolant ~1200 gal., Waste Fuel ~220 gal., Waste Brake Fluid ~ 30 gal. Waste Solvents ~300 gal., Waste Absorbent/Non-metal Filters 500 lbs., Waste Paint Related Materials ~115 gal., and Waste Sanding Dust ~200 lbs.
EPA# CAR000015479 is active at time of inspection per the DTSC on-line database.

On site at the time of this inspection in reportable quantities:
New Oil 1595 gal. (1 x 360, 1 x 220 gal.,8 x 120 gal. tanks and 1 x 55 gal. drum), Waste Oil 1 x 480 gal. tank, Soaps and Cleaners 220 gal. (4 x 55 gal. drums), Waste Antifreeze 165 gal. (3 x 55 gal. drums), Waste Solvent 1 x 55 gal., Windshield Washer Fluid 110 gal. (2 x 55), Paint Thinner (1 x 55 gal.), Waste Oily Absorbent /Non-Metal Filters 2 x 55 gal. drums ~300 lbs., Sanding Dust/ Waste 1x 55 gal.,and1 x 55 gal. drum Paint Related Waste.

On site but at below reportable quantities:
Helium 2 x 300 cu ft., Argon/CO2 mix 2 x 100 cu ft., and Argon 1 x 60 cu ft.

SPCC Plan on site and up to date, next five year review required 07/21/2019. Inspections records on site for monthly inspections of all tanks & drums and daily inspections of hazardous waste oil tank.

VIOLATION # 1
1010004 Chemical inventory incomplete or not submitted in CERS. HSC 25505(a)(1); 25507(a); 25508(a)(1)(A); 25508.1(a-b); 19 CCR 2654 (a) or (d)

Classification: Minor

Observations:
Inaccurate information in CERS: largest container for new oil is 360 gal., not 840 gal. as listed; Waste code for non-metal used oil filters is missing (223, or 352 normally)

Corrective Action Due By:10/25/2017
Log into CERS on-line database, make required changes, and resubmit in CERS. Complete the Corrective Action Form attached and send to donelle.griffin@sdcounty.ca.gov or FAX to her attention @ 858-505-6786.

COUNTY OF SAN DIEGO

COMPLIANCE INSPECTION REPORT

Handlers of Hazardous Materials and Small and Large Quantity Generators of Hazardous Waste

FACILITY NAME: *BOB STALL CHEVROLET

ADDRESS: * 7601 ALVARADO RD CITY/ZIP: *LA MESA 91941

Each violation checked below is for the section(s) of the California Health and Safety Code (HSC), California Code of Regulations (CCR), or the San Diego County Code (SDCC) indicated in italics. Incorporated provisions of Title 40 of the Code of Federal regulations (CFR) are noted for reference. All violations must be corrected. Submit documentation of return to compliance to your Specialist. You may use the Corrective Action Form (HM-926) to document your return to compliance. Please call (858) 505-6880 or your Specialist if you have any questions. HMBP = Hazardous Materials Business Plan; CUPA = Certified Unified Program Agency; CERS = California Environmental Reporting System; SQG = Small Quantity Hazardous Waste Generator; LQG = Large Quantity Hazardous Waste Generator

HAZARDOUS MATERIALS REQUIREMENTS

#		VIOLATION DESCRIPTION
	☐ 1010001	HMBP not established/ implemented. HSC 25505(a) and 25507(a)
	☐ 1010002	HMBP not submitted to the CUPA in CERS. HSC 25508(a)(1)(A); HSC 25404(e)(4); 27 CCR 15188(a),(b),(d)
	☐ 1010003	Business Activities &/or Business Owner/Operator page not completed in CERS. 19 CCR 2652(a)(1); HSC 25404(e)(4); SDCC 68.904(b)
1	☒ 1010004	Chemical inventory incomplete or not submitted in CERS. HSC 25505(a)(1); 25507(a); 25508(a)(1)(A); 25508.1(a-b); 19 CCR 2654 (a) or (d)
	☐ 1010005	Site map not submitted in CERS or not sufficient. HSC 25505(a)(2); 25508(a)(1)(A); 25508.1(f); 19 CCR 2652(a)(3)
	☐ 1010006	Failed to update HMBP in CERS within 30 days of a substantial change to any portion of the HMBP, including inventory changes or facility information. HSC 25508.1(a-f); 19 CCR 2654(d); SDCC 68.904(c)(6)
	☐ 1010008	HMBP not certified annually as complete and accurate in CERS. HSC 25508(a)(1)(A), 25508.2, 19 CCR 2654(b)
	☐ 1010010	Emergency response procedures to mitigate a release or threatened release not adequate, not established or not submitted in CERS. HSC 25505(a)(3), 25508(a)(1)(A); 19 CCR 2658
	☐ 1010011	Failure to notify property owner in writing that the business is subject to the HMBP program. HSC 25505.1
	☐ 1010012	Failure to provide a copy of HMBP to the property owner within five working days upon request from property owner. HSC 25505.1
	☐ 1010014	Failure to submit emergency response plan in CERS, when not meeting agricultural handler exemption. HSC 25507.1(a) and 25508(a)(1)(A)
	☐ 1010015	Failure to submit employee training plan in CERS, when not meeting agricultural handler exemption. HSC 25507.1(a) and 25508(a)(1)(A)
	☐ 1010016	HMBP not established or submitted in CERS, when not meeting the remote site exemption. HSC 25507.2 and 25508(a)(1)(A)
	☐ 1020001	Employee training plan for hazardous materials management not adequate, not established or not submitted in CERS. HSC 25505(a)(4) and 25508(a)(1)(A); 19 CCR 2659(a)
	☐ 1020002	Initial &/or annual employee training not conducted for hazardous materials management &/or employee training records not available or not maintained for 3 years. HSC 25505(a)(4); 19 CCR 2659(b)
	☐ 1040001	Hazardous materials release or threatened release not reported to the CUPA and OES immediately upon discovery. HSC 25510(a); 19 CCR 2631(a)
	☐ HMD1001	Unified Program Facility permit not obtained for hazardous materials. SDCC 68.905; 68.906, 68.907
	☐ HMD1005	Emergency contact not provided or current in CERS. HSC 25508.1(f); SDCC 68.904(b)
	☐ HMD1007	Highly toxic gas (TLV<10 ppm) not disclosed. SDCC 68.1113(b)
	☐ HMD1008	Annual carcinogen/reproductive toxin list not submitted. SDCC 68.1113(c)
	☐ 1010017	HMBP not readily available to facility personnel or the CUPA. HSC 25505(c)

HAZARDOUS WASTE REQUIREMENTS FOR SQGS ONLY

#		VIOLATION DESCRIPTION
	☐ HMD0226	Did not accumulate waste in a container or tank. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(2)
	☐ 3030007	Failed to properly label/date hazardous waste container &/or tank. 22 CCR 66262.34(f)
	☐ 3030010	Accumulated waste too long (>180 or 270 days) or (>90 days). HSC 25201(a); 22 CCR 66262.34(d); 40 CFR 262.34(e) and (f)
	☐ 3030013	Failed to accumulate hazardous waste in a container that is in good condition. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(2), 265.171
	☐ 3030015	Failed to accumulate or store hazardous waste in a lined &/or compatible container. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(2), 265.172
	☐ 3030017	Failed to properly close hazardous waste container(s). 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(2), 265.173
	☐ 3030019	Failed to inspect hazardous waste storage area at least weekly. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(2), 265.174
	☐ 3030022	Failed to properly separate incompatible waste. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(2), 265.177
	☐ 3030030	Failed to maintain &/or operate facility to minimize the possibility of a fire, explosion, or any unplanned sudden or non-sudden release of hazardous waste or hazardous waste constituents. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(4), 265.31
	☐ 3030036	Failed to maintain adequate aisle space. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(4); 265.35
	☐ 3010022	Failed to post, next to the telephone, emergency information containing the location of emergency equipment, contact names and phone numbers. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(5)(ii)
	☐ 3020001	Failure to ensure employees are trained on hazardous waste regulations related to proper waste handling and emergency response procedures. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(5)(iii)
	☐ 3030032	Failed to maintain the following emergency response equipment or equivalent: 1) An internal communication or alarm system; 2) A communication device, such as a telephone; 3) Portable fire extinguishers, fire/spill control equipment and decontamination equipment; and 4) Water at adequate volume and pressure. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(4); 265.32
	☐ 3030039	Failed to have an emergency coordinator on call or available during an emergency. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(5)(i)
	☐ HMD0412	Failed to implement contingency plan during an emergency, spill/release. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(5)(iv)

HAZARDOUS WASTE TANK SYSTEMS FOR SQGS ONLY

#		VIOLATION DESCRIPTION
	☐ 3030024	Failed to operate uncovered tanks to ensure at least 2 ft. of freeboard to prevent overtopping, unless the tank is equipped with a containment structure, a drainage control system, or a diversion structure with a capacity that equals or exceeds the volume of the top 2 ft. of the tank. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(3), 265.201(b)(c)
	☐ 3030025	Failed to provide an overfill protection device on continuously fed hazardous waste tank(s). 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(3); 265.201(b)(4)

☐ 3030027	Failed to conduct daily tank inspection of discharge control system, monitoring equipment and waste level. 22 CCR 66262.34(d)(2); 40 CFR 265.201(c)(1-3), 262.34(d)(3)
☐ 3030028	Failed to conduct weekly hazardous waste tank inspection to ensure that the construction materials, fixtures and surrounding areas of the tank are in good condition. 22 CCR 66262.34(d)(2); 40 CFR 265.201(c)(4-5), 262.34(d)(3)
☐ 3050007	Failed to properly decontaminate and document closure of a hazardous waste tank system. 22 CCR 67383.3; 40 CFR 262.34(d)(3), 265.201(f)
☐ HMD1612	Hazardous waste improperly stored in a tank system causing leaks, corrosion, or failure. 22 CCR 66262.34(d)(2); 40 CFR 265.201(b)
☐ HMD1614	Failed to pre-notify the CUPA in writing prior to closing a hazardous waste tank system. 22 CCR 67383.3(a)(1)
☐ HMD1615	Failed to properly accumulate ignitable or reactive waste in a tank system. 22 CCR 66262.34(d)(2); 40 CFR 265.201(g)

HAZARDOUS WASTE REQUIREMENTS FOR SQGS AND LQGS

RECORD KEEPING/OPERATIONAL REQUIREMENTS

#	VIOLATION DESCRIPTION
☐ HMD0131	Unified Program Facility Permit not obtained &/or maintained for the generation of hazardous waste. HSC 25404.1; SDCC 68.905
☐ HMD0150	Failed to submit complete and accurate Facility Information in CERS. HSC 25404(e)(4); 27 CCR 15188(b-c); SDCC 68.904(b)
☐ 3030053	Failed to maintain waste analysis records, analytical records &/or waste determination results for at least 3 years. 22 CCR 66262.40(c)
☐ 3010002	Failed to obtain &/or maintain an active EPA ID Number. 22 CCR 66262.12(a)
☐ 3010008	Failed to properly complete a uniform hazardous waste manifest. 22 CCR 66262.23(a)
☐ 3010009	Failed to submit an Exception Report to DTSC for hazardous waste manifest. HSC 25123.3(h)(2); 22 CCR 66262.42
☐ 3010010	Failed to maintain copies of Uniform Hazardous Waste Manifest, consolidated manifest, or Bills of Lading for 3 years. HSC 25160.2(b)(3), 25185(a)(4); 22 CCR 66262.40(a), 66262.23(a)(3)
☐ 3010011	Failed to send copy of the uniform hazardous waste manifest to DTSC within 30 days of shipment. 22 CCR 66262.23(a)(4)
☐ 3010013	Failed to meet the consolidated manifesting requirements for waste shipment. HSC 25160.2; 22 CCR 66262.40(a)
☐ 3010014	Failed to retain disposal records of spent lead-acid batteries for 3 years. 22 CCR 66266.81(a)(4)(B)
☐ 3030006	Failed to determine if a hazardous waste is restricted or prohibited from land disposal. 22 CCR 66268.7(a)
☐ 3010016	Failure of recycler who recycles more than 100 kilograms per month of a recyclable material to submit the biennial Recyclable Materials Report (RMR) in CERS when claiming exclusion or exemption. HSC 25143.10(a), (c) &/or (d)
☐ HMD0149	Failed to keep disposal receipts for drained used oil filters and/or drained fuel filters for 3 years. HSC 25250.22; 22 CCR 66266.130
☐ HMD0152	Failed to submit/report in CERS chemical inventory information for hazardous waste and/or medical waste, and keep up to date. SDCC 68.904(a)(2)
☐ HMD0140	Failed to have Land Disposal Restriction documentation onsite for 3 years. 22 CCR 66268.7(a)(8)
☐ 3250005	Failed to obtain a Treatment, Storage and Disposal Facility (TSDF) permit or authorization to store/treat/dispose of hazardous waste. HSC 25201(a)
☐ 3050005	Failed to have adequate records demonstrating claim of exemption or exclusion for recyclable materials. HSC 25143.2(f); 22 CCR 66261.2(g)
☐ HMD0142	Failed to notify the CUPA in CERS for onsite hazardous waste treatment/tiered permitting. HSC 25201(a)
☐ HMD0138	Manifest signed by the TSDF not available for inspection. 22 CCR 66262.40(a)

DISPOSAL AND TRANSPORTATION

#	VIOLATION DESCRIPTION
☐ 3010007	Failed to prepare a hazardous waste manifest for the transport of a waste for off-site transfer, treatment, storage, or disposal. HSC 25160(b)(1) or (2), 25160.2(b)(9); 22 CCR 66262.20(a)
☐ 3030005	Failed to make a proper waste determination. 22 CCR 66262.11, 66262.40(c)
☐ 3050001	Failed to use a DTSC registered hazardous waste transporter to transport hazardous waste. HSC 25163(a); 22 CCR 66263.41
☐ 3050002	Failed to properly dispose of hazardous waste at an authorized facility. HSC 25189.5(a); 25189(c),(d); 25189.2(c)
☐ HMD0308	Impermissible dilution of hazardous waste. 22 CCR 66268.3(a)
☐ HMD0305	Disposed of used oil illegally. HSC 25250.5(a); 25189.5(a); 25189(c),(d); 25189.2(c)
☐ HMD0306	Failed to properly dispose of hazardous waste latex paint. HSC 25217.1

STORAGE AND HANDLING

#	VIOLATION DESCRIPTION
☐ 3030001	3030001 Failed to meet the management requirements when handling or storing spent lead-acid batteries. 22 CCR 66266.81(a)
☐ 3030003	Failed to properly manage 'damaged' spent lead acid batteries. 22 CCR 66266.81(b)
☐ 3030004	Failed to properly manage, store, label &/or recycle used oil filters &/or used fuel filters. HSC 25250.22; 22 CCR 66266.130
☐ 3050004	Generator intentionally contaminated used oil with another hazardous waste other than minimal amounts of fuel. HSC 25250.7(a), (c)
☐ HMD0222	Failed to properly label Excluded Recyclable Materials (ERM) accumulated in a container or tank. HSC 25143.9(a)
☐ HMD0216	Failed to label hazardous material container within 10 days after the container was discovered to be mislabeled or inadequately labeled. HSC 25124(b)(3)(A); 22 CCR 66262.34(f)
☐ HMD0217	Failed to repackage damaged/deteriorated hazardous material container within 96 hours. HSC 25124(b)(3)(B); 22 CCR 66262.34(f)
☐ HMD0219	Failed to properly segregate used oil &/or fuel drained from filters. HSC 25250.22(b)(4); 22 CCR 66266.130(c)(6)
☐ 3030057	Failed to comply with hazardous waste satellite container regulation. 22 CCR 66262.34(e)
☐ HMD0023	Failed to properly empty container, failed to manage non-empty container, or inner liner removed from a container. 22 CCR 66261.7(b-e) &/or (r)
☐ 3030058	Failed to mark date on empty container larger than 5 gallons &/or manage it within one year. 22 CCR 66261.7(f)

UNIVERSAL WASTE HANDLER REQUIREMENTS

#	VIOLATION DESCRIPTION
☐ 3010004	Failed to obtain a California ID Number from DTSC or federal ID Number from USEPA prior to accumulating 5,000 kgs or more of Universal Waste. 22 CCR 66273.32(a-b)

☐	HMD0151	Failed to maintain universal waste handler training records for 3 years. 22 CCR 66273.36(c),(d)
☐	3020003	Failed to properly train handlers of universal waste in universal waste management and response procedures. 22 CCR 66273.36(a),(b)
☐	3030008	Failed to properly label or mark Universal Waste container (excluding CESQUWG) 22 CCR 66273.34
☐	3030011	Failed to properly dispose of Universal Waste within one year. 22 CCR 66273.35(a) &/or (b)
☐	HMD0147	Failed to keep records of offsite Universal Waste shipment(s) available for inspection for 3 years. 22 CCR 66273.39(c),(d)(2)
☐	3030051	Failed to meet accumulation &/or containment standards for Universal Waste aerosol containers. HSC 25201.16(f)
☐	3040004	Failed to manage universal waste in a manner to prevent release(s) to the environment. 22 CCR 66273.33; 66273.33.5
☐	HMD0307	Disposal of universal waste (UW) to an unauthorized point. HSC 25189.5(a), 25189(c),(d); 25189.2(c); 22 CCR 66273.31(a), 66273.8(b)
☐	3010005	Failure of a universal handler of electronic devices or CRTs from an offsite source to notify DTSC 30 days prior to acceptance. 22 CCR 66273.32(c)

Each violation checked below is for the section(s) of the California Health and Safety Code (HSC), California Code of Regulations (CCR), or the San Diego County Code (SDCC) indicated in italics. Incorporated provisions of Title 40 of the Code of Federal regulations (CFR) are noted for reference. All violations must be corrected. Submit documentation of return to compliance to your Specialist. You may use the Corrective Action Form (HM-926) to document your return to compliance. Please call (858) 505-6880 or your Specialist if you have any questions. HMBP = Hazardous Materials Business Plan; CUPA = Certified Unified Program Agency; CERS = California Environmental Reporting System; SQG = Small Quantity Hazardous Waste Generator; LQG = Large Quantity Hazardous Waste Generator

HAZARDOUS WASTE REQUIREMENTS FOR LQGS ONLY

RECORDKEEPING/OPERATIONAL REQUIREMENTS

#	VIOLATION DESCRIPTION
☐ 3110008	Failed to prepare a source reduction evaluation review and plan. 22 CCR 67100.4(a), HSC 25244.19(a)
☐ 3110009	Failed to prepare a summary progress report. 22 CCR 67100.9(a)
☐ 3110010	Failed to complete a hazwaste management performance report and maintain for review. HSC 25244.20(a), 25244.21(a)
☐ 3110007	(RCRA LQG) Failed to complete the Biennial Report by March 1st on even numbered year and maintain it onsite for 3 years. 22 CCR 66262.40(b), 66262.41(b)

STORAGE AND HANDLING

#	VIOLATION DESCRIPTION
☐ 3130003	Failed to properly label/date hazardous waste container or portable tank. 22 CCR 66262.34(f), 66262.34(a)(2), 66262.34(a)(3)
☐ 3130004	Accumulated hazardous waste more than 90 days without a DTSC storage permit. HSC 25201(a); 22 CCR 66262.34(a) and (c)
☐ 3130005	Failed to transfer waste from a container that is in poor condition to another container that is in a good condition. 22 CCR 66265.171
☐ 3130006	Failed to accumulate hazardous waste in a lined or compatible container. 22 CCR 66265.17
☐ 3130007	Failed to keep a hazardous waste container or portable tank closed. 22 CCR 66265.173(a)
☐ 3130008	Failed to inspect hazardous waste storage area(s) at least weekly. 22 CCR 66265.174
☐ 3130009	Failed to keep reactive and/or ignitable waste at least 50 ft. from the property line. 22 CCR 66265.176
☐ 3130010	Failed to properly separate incompatible waste. 22 CCR 66265.17(b), 66265.177
☐ 3130013	Failed to maintain or operate the facility to minimize the possibility of a fire, explosion, or release of hazardous waste or its constituents to the air, soil, or water. 22 CCR 66265.31
☐ HMD0235	Did not accumulate hazardous waste in a container or tank. 22 CCR 66262.34(a)(1)(A)

TRAINING, CONTINGENCY PLAN & ER PROCEDURES

#	VIOLATION DESCRIPTION
☐ 3110011	Failed to prepare a written Contingency Plan to minimize human hazards or threat to the environment. 22 CCR 66265.51(a)
☐ 3110012	Failed to maintain onsite a copy of the Contingency Plan and all its revisions and submit a copy to the local emergency agencies that may be called upon to provide emergency services. 22 CCR 66265.53
☐ 3120001	Failed to maintain training records. 22 CCR 66265.16(d-e)
☐ 3130015	Failed to test and maintain all communications or alarm systems, fire protection equipment, spill control equipment, and decontamination equipment. 22 CCR 66265.33
☐ 3130016	Failed to maintain aisle space to allow the unobstructed movement of personnel, fire protection, spill-control equipment, etc. to any area of facility operation in an emergency. 22 CCR 66265.35
☐ HMD0418	Failed to take precautions to prevent accidental ignition or reaction of ignitable or reactive waste, including the posting of a "No Smoking" sign(s). 22 CCR 66265.17(a)
☐ 3130018	Failed to immediately implement the facility Contingency Plan during an emergency or when a release occurs. 22 CCR 66265.51(b)
☐ HMD0402	Employee training program not adequate. 22 CCR 66265.16(a) and/or (b)
☐ HMD0413	Contingency plan content is missing information and/or listing of required actions or descriptions. 22 CCR 66265.52
☐ HMD0414	Failed to train employees at least annually. 22 CCR 66265.16(c)
☐ 3130014	Failed to equip facility with required emergency equipment, internal communication system, &/or spill response equipment. 22 CCR 66265.32
☐ HMD0417	Failed to have an emergency coordinator on call or available during emergency or when a release occurs. 22 CCR 66265.55

HAZARDOUS WASTE TANK SYSTEM FOR LQGS ONLY

#	VIOLATION DESCRIPTION
☐ 3110013	Failed to obtain and maintain a written assessment certified by an independent, qualified, registered professional engineer for the hazardous waste tank system. 22 CCR 66265.192(a), 66265.192(h), or 66265.191(a)
☐ 3110014	Hazardous waste tank system assessment documentation failed to include all required information. 22 CCR 66265.192(k)
☐ 3110015	Failed to obtain CUPA approval prior to the replacement of equipment for a tank system. 22 CCR 66265.192(l), 66265.192(m)
☐ 3130011	Failed to maintain tank operating requirements: 1) Spill prevention control; 2) Overfill prevention control, and/or; 3) maintenance of sufficient freeboard in uncovered tanks. 22 CCR 66265.194(a),(b)
☐ 3130012	Failed to conduct daily inspections and/or maintain the inspection records for hazardous waste tank system. 22 CCR 66265.195(a)(c)
☐ 3130019	Failed to provide proper secondary containment and/or leak detection for hazardous waste tank system. 22 CCR 66265.193(a)
☐ 3130020	Failed to inspect and document the cathodic protection system within six months after initial installation, and annually thereafter, and to inspect all sources of impressed current at least bimonthly. 22 CCR 66265.195(b)
☐ 3140001	Failed to properly respond to a tank system spill/leak, follow emergency procedures as required and/or keep secondary containment empty. 22 CCR 66265.56, 66265.196, 66265.194(c)
☐ 3150002	Failed to properly close a hazardous waste tank system ensuring the minimization of further maintenance and requirements are met. 22 CCR 66265.111, 66265.114, 66265.197, 67383.3
☐ HMD1604	Failed to maintain secondary containment empty. 22 CCR 66265.196(b) and (c); 66265.194(c)
☐ HMD1607	Failed to adequately design or maintain corrosion protection. 22 CCR 66265.191(b)(3) or 66265.192(a) and (f)
☐ HMD1608	Failed to complete annual integrity assessment for existing hazardous waste tank system without secondary containment. 22 66265.191(a) (e)

☐	HMD1609	Failed to remove unfit hazardous waste tank system from service. 22 CCR 66265.196
☐	HMD1611	Failed to properly complete and/or document closure of a hazardous waste tank system. 22 CCR 67383.3, 66265.197(a), (b)
☐	HMD1619	Failed to have required safety measures for hazardous waste tank system holding ignitable or reactive waste. 22 CCR 66265.198(a)(b)
☐	HMD1620	Failed to immediately remove from service a hazardous waste tank system that leaked or failed. 22 CCR 66265.196(b),(c)
☐	HMD1621	Failed to notify DTSC when a release to environment occurred from a hazardous waste tank system. 22 CCR 66265.196(e)(1)or(3)
☐	HMD1623	Failed to develop written plan and schedule to perform VOC emissions monitoring. 22 CCR 66265.1089(b)
☐	HMD1624	Failed to comply with the 3 year record keeping requirement for tank accumulating VOC waste. 22 CCR 66265.1090(a)
☐	HMD1625	Failed to properly control air pollutant emissions for tank accumulating VOC waste. 22 CCR 66265.202, 66265.1083(b) and 66265.1085(b)
☐	3130026	Failed to meet emissions control standards for HW tank system with VOC waste. 22 CCR 66265.202 and 66265.1082 (a)(b) or (c)
☐	3130022	Failed to label stationary hazardous waste tank as hazardous waste and mark with accumulation start date. 22 CCR 66262.34(f)(2-3)
☐	3130025	Failure to comply with VOC emission requirements for containers and/or a portable tank. 22 CCR 12 66262.34(a)(1); 66265.178
☐	HMD1626	Failed to implement emergency procedures for a hazwaste tank system or secondary containment from which there has been a leak or spill. 22 CCR 66265.196(a)

E. APPLICATION SUBMITTAL, PLAN APPROVAL, PERMIT ISSUANCE, AND REQUIRED INSPECTIONS:

Submit three (3) copies of this application package, including plan drawings, with the required fee to the Department of Health Services, Hazardous Materials Management Unit, Room 311, 1700 Pacific Highway, San Diego, CA 92101. Checks should be made payable to the County of San Diego.

A permit will be issued by the Department of Health Services (DHS) upon review and approval of the application and plans. The required fees must be submitted with the application package. Information in addition to that presented in this application package may be needed in order to obtain final approval. No work is to begin on the proposed project until a permit has been issued. The required inspections cannot be scheduled until a permit has been issued.

Once the permit has been issued, it is the permittee's responsibility to notify the DHS at least two (2) working days in advance to schedule each required inspection.

Construction stages at which inspections are required are indicated in each subpart of this application form (i.e., Part II, III and IV).

F. Indicate the Company/Person you wish to have our plan check comments directed to by circling the appropriate section letter above or if different enter below.

John Michaud

UNDERGROUND HAZARDOUS MATERIALS STORAGE TANK FACILITY

PART III

APPLICATION FOR PERMIT TO ABANDON

Complete all sections of Part III. If information is not known or applicable please indicate on application.

A. Total number of tanks to be abandoned 1

B. Tank Information - Complete the following information for each tank to be abandoned. Attach additional sheets as necessary.

Tank Number (Label tanks on plot plan to correspond to application)		1	2	3	4
Tank Capacity (gallons)		?	?	?	2K
Date Tank Installed		?	?	?	?
Tank Composition (Steel, Fiberglass, Fiberglass Coated Steel, Concrete, etc.)		STEEL	STEEL	STEEL	STEEL
Tank Manufacturer		?	?	?	?
Tank Presently in Use? (Yes-No)		YES	YES	YES	NO
Materials Stored in Tank	Material: dates:	OIL to	OIL to	OIL to	Ø to
	Material: dates:	to	to	to	to
Has Tank System Leaked? (Yes, No, Not Known)	Tank	NO	NO	NO	NO
	Piping	NOT KNOWN	NOT KNOWN	NOT KNOWN	NOT KNOWN
Basis of determination (Inventory records, tank system testing/monitoring, environmental monitoring)					
Is any part of the system cathodically protected? (Yes-No-Not Known)					
	Tank	?	?	?	?
	Piping Lines	?	?	?	?
Piping materials					

C. PREVIOUS OWNERS AND OPERATORS OF THE TANK(S):

Dates	Owner/Operator

D. Approximate depth to groundwater: NOT KNOWN

Basis of Determination: _____

E. Proposed method of abandonment: |☑| Removal |☐| Destruction in place

NOTE: Removal of the tank(s) is the preferred method of abandonment. Destruction of the tank in place, for example, by filling with an inert substance, will only be considered in special cases upon submittal of additional information to determine the risks and hazards of contamination. Additional information required includes recent tank testing results, soils data, special site characteristics and approval from the local Fire Department.

F. Future use/disposal site of tank: _____

G. ATTACH A PLOT PLAN ON 8-1/2" x 11" paper showing the following:

1. Property Lines, Site Address, Scale, North Arrow
2. Location of 100 year flood plain, if applicable
3. Location of all existing and proposed structures
4. Location of all existing and proposed underground storage tank facilities
5. Location of underground tank(s) to be abandoned (number tanks to correspond to application)
6. Location of underground utility lines and vaults

H. REQUIRED INSPECTION - PERMIT TO ABANDON

A representative of the Department of Health Services (DHS) must be on site at the time the tank(s) is removed from the ground to evaluate the condition of the tank and the surrounding soil and/or groundwater. Any evidence of an unauthorized release of a hazardous material from the tank will require the submittal of additional information by the permittee to the DHS.

When a permit has been issued by the DHS to destroy a tank in place, the DHS will inspect to verify that the tank has been properly emptied and purged of all hazardous materials immediately prior to filling with an approved inert substance.

I. I declare that to the best of my knowledge and belief the statements and information provided are correct and true. I understand that information in addition to that provided above may be needed in order to obtain final approval by the Department of Health Services.

I understand that tests and procedures that may be required by other departments and agencies to demonstrate adequate site safety or suitability for future development (e.g., soil compaction testing) are in addition to the requirements of the Department of Health Services.

I will notify the Department of Health Services at least two working days (48 hours) before work is to begin in order to schedule the required inspections. I understand that site and worker safety are solely the responsibility of the property owner or his agent and that this responsibility is not shared nor assumed by the County of San Diego.

NOTICE: You are hereby notified that on 2/22/88, DOUG LIDERA, Hazardous Materials Specialist of County Department of Health Services, conducted an inspection for the removal and/or abandonment of underground storage tanks of hazardous substances. A summary of conditions found is noted as follows: FOUR

[ ] No indication of soil or groundwater contamination apparent this date. Excavation may be backfilled.

[X] The conditions noted below must be reported and corrected in accordance with Chapters 6.5 and 6.7 of the California Health and Safety Code and Chapters 9 and 10 of the San Diego County Code.

[ ] Hazardous substance/waste is ponded in the excavation. Immediately take steps to remove the ponded hazardous liquid from the excavation. This liquid is a hazardous waste that shall be properly transported, under manifest, by a licensed hazardous waste hauler to a licensed recycling or disposal facility.

[X] Contaminated soil and/or contaminated groundwater is suspected in the excavation. Determining the extent and impact of this contamination and completing any required clean-up is the responsibility of the tank owner/operator. Within 5 work days, the tank owner/operator or his agent must submit a written UNAUTHORIZED RELEASE REPORT to the Department of Health Services including all of the following information that is known at the time of filing the report:

a. Describe the type, quantity and concentration of the hazardous substance released.
b. Provide the results of all investigations completed at this time to determine the extent of soil, groundwater, or surface water contamination due to the release.
c. Describe the method of cleanup implemented to date, proposed cleanup actions, and approximate costs of actions taken to date.
d. Indicate the method and location of disposal of the released hazardous substance and any contaminated soils or groundwater or surface water. (If any contaminated soil/water is hauled off-site, include copies of the hazard waste manifests).
e. Include the tank operator's name and telephone number, the name and telephone number of any consultants retained, and a projection of proposed activity schedule.

Subsequent mitigation actions will be discussed upon review of the submitted Report and consultation with other appropriate agencies.

E. APPLICATION SUBMITTAL, PLAN APPROVAL, PERMIT ISSUANCE, AND REQUIRED INSPECTIONS

Submit three (3) copies of this application package, including plan drawings, with the required fee to the Department of Health Services, Hazardous Materials Management Division, 1255 Imperial Ave., San Diego, CA or mail to P.O. Box 85261, San Diego, CA 92138-5261. Checks should be made payable to the County of San Diego.

A permit will be issued by the HMMD upon review and approval of the application and plans. The required fees must be submitted with the application package. Information in addition to that presented in the application package may be needed in order to obtain final approval. No work is to begin on the proposed project until a permit has been issued. The required inspections cannot be scheduled until a permit is issued.

Once the permit has been issued, it is the responsibility of the permittee to notify the HMMD at least two (2) working days in advance to schedule each required inspection.

Construction stages at which inspections are required are indicated in each subpart of this application form (i.e., Part II,III IV, and V).

IMPORTANT: CONTACT THE DEPT. OF HEALTH SERVICES AT 338-2214 AT LEAST TWO WORKING DAYS BEFORE STARTING CONSTRUCTION TO SCHEDULE THE FIRST REQUIRED FIELD INSPECTION.

F. PROJECT WORK TO BE COMPLETED: Check Applicable Box	COMPLETE APPLICATION PARTS	FEE CODE TABLE G.
☐ Installation/Construction of new tank(s) only (without closing any existing tanks)	I & II	1
☐ Closure of existing tank(s) with installation of new tanks (tank replacement)	I, II & III	1 & 2
☒ Closure of existing tank(s) with no new tank installation	I & III	2
☐ Interior coating/repair of an existing underground storage tank	I & IV	3
☐ Repipe/pipe-repair of an existing underground storage tank facility	I & V	4

G. FEES: The fees shown below cover plan review, plan re-review and approval, the required field inspections and the first year's operating permit fees. Use the appropriate Fee Code as determined in Section F above.

FEE CODE		
1	Installation fee for first tank $446	Fee: $
	Installation fee for each additional tank No.____ x $122	Fee: $
	Establishment Base Fee $150 (Applies to establishments not currently under permit with HMMD)	Fee: $
	Operating Permit Fee per tank No.____ x $112 (Does not apply to replacement tanks if the existing tank to be replaced has paid current operating permit fees)	Fee: $
	State Surcharge per tank No.____ x $56	Fee: $
	Plan Re-Review $108	Fee: $
2	Closure fee for first tank $265	Fee: $ 265
	Closure fee for each additional tank No.____ x $134	Fee: $ 402
	Plan Re-Review $60	Fee: $
3	Repair/Interior coating fee for first tank $446	Fee: $
	Repair/Interior coating fee for each additional tank No.____ x $122	Fee: $
	Plan Re-Review $108	Fee: $
4	Repipe/Pipe-repair of an existing tank facility $374	Fee: $
	Plan Re-Review $78	Fee: $
	TOTAL FEE: $ 667	

I. PERMITS REQUIRED BY OTHER AGENCIES

FIRE DEPT. _____ APCD _____ BLDG DEPT. _____ OTHER _____

COUNTY OF SAN DIEGO

HAZARDOUS MATERIALS MANAGEMENT DIVISION

PART III

APPLICATION FOR PERMIT TO CLOSE UNDERGROUND STORAGE TANKS

A. TOTAL NUMBER OF TANKS TO BE CLOSED 4

B. DESCRIPTION OF TANKS TO BE CLOSED:

TANK NO.	CAPACITY	DATE INSTALLED	TANK COMPOSITION	TANK PRESENTLY IN USE?	MATERIALS STORED IN TANK
1	1,000	unknown	steel	NO	waste oil
2	10,000	"	steel	NO	GAS
3	10,000	"	steel	NO	GAS
4	5,000	"	steel	NO	GAS

C. HAS THE TANK SYSTEM EVER FAILED OR LEAKED? YES ☒ NO ☐

#4 T 0772
CASE CLOSED 10/6/88

D. REASON FOR TANKS TO BE CLOSED:

☐ Meet current state/federal requirements

☐ Replacement of existing tanks

☐ Tank system failure, briefly describe _____

☒ Other, briefly describe Demolition of site

E. PREVIOUS OWNERS AND OPERATORS OF THE TANKS:

	unknown		unknown
DATES		OWNER/OPERATOR	

F. PROPOSED METHOD OF CLOSURE: [X] REMOVAL [ ] CLOSURE IN PLACE

SAMPLING PROTOCOL Tank owner/authorized representative responsible for all sampling analyses and associated costs.

- for tank systems that are to be removed. The excavation shall be exposed prior to the scheduled inspection and sampling points identified by the HMMD inspector. Sampling is required for both tank and piping. The tank must remain in the excavation until the HMMD inspector approves the removal.

- tank systems to be closed in place. Submit an alternate plan which must include soil sampling, reason for closing the tank system in place and type of material to be used to fill the tank.. Soil sampling and/or hydrostatic testing is also required for piping closures. Tank system closure in place will only be considered after evaluating the risks and hazards if the tank system were removed.

G. DISPOSAL SITE OF TANK: Pacific Steel 1700 Cleveland ave. National City Calif

Note: You must inform the HMMD of the address of where the tank is to be disposed . Plans will be disapproved without this information.

H. ATTACH THREE COPIES OF PLANS SHOWING THE FOLLOWING:

1. Property lines, site address, scale, north arrow.
2. Location of all existing structures.
3. Location of all existing underground storage tank facilities.
4. Location of underground storage tanks and piping to be closed.
5. Location of underground utility lines and vaults.

I. REQUIRED INSPECTION-PERMIT TO CLOSE

A representative from the HMMD must be on site at the time the tank(s) are closed.

1. TANK SYSTEM CLOSURE BY REMOVAL:

- excavation shall be exposed prior to the scheduled inspection. The tank owner/authorized representative on site must submit a uniform hazardous waste manifest demonstrating that the tank has been properly decontaminated. A combustible gas instrument and soil sampling equipment must be on site. The HMMD inspector will identify sampling points. The tank must remain in the excavation until the HMMD approves the removal.

2. TANK SYSTEM CLOSURE IN PLACE:

- after approval of the alternate plan, the tank owner/authorized representative on site shall submit a uniform hazardous waste manifest demonstrating that the tank has been properly decontaminated. The HMMD inspector shall verify that the tank system has been properly emptied and will witness the filling with an approved inert substance. Piping approved to be closed in place by hydrostatic testing shall also be witnessed by the HMMD.

J. DECLARATION

I declare that to the best of my knowledge and belief the statements and information provided are correct and true. I understand that information in addition to that provided above may be needed in order to obtain final approval by the Hazardous Materials Management Division.

I understand that tests and procedures that may be required by other departments and agencies to demonstrate adequate site safety or suitability for further development (e.g. soil compaction testing) are in addition to the requirements of the Hazardous Materials Management Division.

I will notify the Hazardous Materials Management Division at least two working days (48 hours) before work is to begin in order to schedule the required inspections. I understand that site and worker safety are solely the responsibility of the property owner or his agent and that this responsibility is not shared or assumed by the County of San Diego.

PERMIT

For Keeping Storage, Use, Manufacture, Handling, Transportation, or other Disposition of Highly Inflammable, Combustible, or Explosive Materials, as stated below:

No. 4391A Date April 3, 1991

TO WHOM IT MAY CONCERN:

By virtue of the provisions of the Fire Prevention Regulations of the City of La Mesa, (Name of Concern) C.R.J No. 612 Street, Arizona, Chula Vista conducting a Tank Pull (Business) having made application in due form, and as the conditions, surroundings, and arrangements are, in my opinion, such that the intent of the Regulations can be observed, authority is hereby given and this PERMIT is GRANTED for Removal of underground fuel storage tanks at Cheveron station... Alvarado @ Commanche

This permit does not take the place of any License required by law and is not transferable. Any change in the use or occupancy of premises shall require a new permit.

This PERMIT is issued and accepted on condition that all Regulations now adopted, or that may hereafter be adopted, shall be complied with.

Bruce McKerl Fire Marshal
Chief of Fire Department

THIS PERMIT MUST AT ALL TIMES BE POSTED ON THE PREMISES MENTIONED ABOVE

TANK TEST CERTIFICATION

This report is to certify that the following listed tank systems were tested by Hallmark Petroleum on the date(s) shown. Those indicated as "TIGHT" meet the criteria established by the National Fire Protection Association pamphlet #329.

A certified PETRO-TITE trained technician supervised the test.
See attached detail reports.

Address of Testing Location:

COMPANY Chevron
STATION # 93521
ADDRESS 7651 Alvarado Rd.
La Mesa, CA 92041
DATE 7/24/89

QUANTITY	DESCRIPTION	READING	COMMENT
1000 gal.	Waste Oil	+.040	Tank is tight.

The Petro-Tite tank testing system requires that all AIR be eliminated from a tank and system. However, due to the design or installation of some tanks, an air pocket or bubble may be trapped in the tank. In some cases there are no openings in the tank or system to vent the air pocket or bubble. This condition could result in an INCONCLUSIVE test or cause the test to indicate that the system is NOT TIGHT. Hallmark Petroleum will do everything possible to eliminate all air pockets or bubbles, but accepts NO RESPONSIBILITY on systems that can not be property bled free of air. Hallmark Petroleum will report to the customer on those systems that indicates that air may be a contributing factor.

DEAR SIR:

SUBJECT: UNAUTHORIZED RELEASE NO.H12687-001
7651 ALVARADO RD, LA MESA

THIS LETTER IS TO INFORM YOU OF A CHANGE IN OUR BILLING PROCEDURE FOR THE UNAUTHORIZED RELEASE (LEAK) INVESTIGATION AT THE ABOVE REFERENCED UNDERGROUND STORAGE TANK SITE. THE COUNTY OF SAN DIEGO HAS RECENTLY ENTERED INTO A CONTRACT WITH THE STATE WATER RESOURCES CONTROL BOARD (SWRCB) TO OVERSEE THE INVESTIGATION AND REMEDIATION OF LEAKY TANK SITES. AS OF APRIL 20, 1988, ALL COSTS INCURRED ON THIS CASE BY THE HAZARDOUS MATERIAL MANAGEMENT DIVISION (HMMD) ARE BEING INVOICED TO THE SWRCB, WHO WILL BE BILLING YOU IN THE FUTURE. SAN DIEGO COUNTY WILL BE INVOICING YOU PER OUR NORMAL ANNUAL BILLING PROCEDURE FOR COSTS GENERATED PRIOR TO APRIL 20, 1988. WITH REGARD TO THE CONTRACT, THE SWRCB REQUIRES THAT THE HMMD NOTIFY YOU OF THE FOLLOWING:

> WHEREAS THE LEGISLATURE HAS APPROPRIATED FUNDS FROM THE CALIFORNIA HAZARDOUS SUBSTANCE CLEANUP FUND TO PAY THE LOCAL AND STATE AGENCY ADMINISTRATIVE AND OVERSIGHT COSTS ASSOCIATED WITH THE CLEANUP OF RELEASES FROM UNDERGROUND STORAGE TANKS; AND WHEREAS THE DIRECT AND INDIRECT COSTS OF OVERSEEING REMOVAL OR REMEDIAL ACTION AT THE ABOVE SITE ARE FUNDED, IN WHOLE OR IN PART, FROM THE HAZARDOUS SUBSTANCE CLEANUP FUND; AND WHEREAS THE ABOVE INDIVIDUAL(S) OR ENTITY(IES) HAVE BEEN IDENTIFIED AS THE PARTY OR PARTIES RESPONSIBLE FOR INVESTIGATION AND CLEANUP OF THE ABOVE SITE; YOU ARE HEREBY NOTIFIED THAT PURSUANT TO SECTION 25360 OF THE HEALTH AND SAFETY CODE, THE ABOVE RESPONSIBLE PARTY OR PARTIES SHALL REIMBURSE THE STATE WATER RESOURCES CONTROL BOARD FOR ALL DIRECT AND INDIRECT COSTS INCURRED BY ANY AND ALL STATE AND LOCAL AGENCIES WHILE OVERSEEING THE CLEANUP OF THE ABOVE UNDERGROUND STORAGE TANK SITE, AND THE ABOVE RESPONSIBLE PARTY OR PARTIES SHALL MAKE FULL PAYMENT OF SUCH COSTS WITHIN 30 DAYS OF RECEIPT OF A DETAILED INVOICE FROM THE STATE WATER RESOURCES CONTROL BOARD.

YOU WILL BE NOTIFIED IN THE FUTURE OF ANY ADMINISTRATIVE OR REPORTING CHANGES REQUIRED PURSUANT TO THE CONTRACT. PLEASE CONTACT ME AT (619) 236-2222 IF YOU HAVE ANY QUESTIONS.

SINCERELY,

Daniel J. Avera

Marianne Ruckle
Environmental Health Services
Hazardous Materials Management Division
1700 Pacific Highway
San Diego, California 92101-2417

Dear Ms. Ruckle:

Attached please find a list of 123 files. All files are listed by H# (ie the fist listing of /G00309-001 is actually H00309-001) followed by the T#. All files are case status-9, case type-4. Information was compiled from your unauthorized release listing dated June 21, 1988.

As discussed the information needed from the files is regarding the source of the failed precision test. In some instances I will request files involving tank removals. On the notifications to the California Water Resources Control Board that I reviewed I have noticed that the onsite inspector usually filled out a field report. This field report, if available, would probably indicate the source of leak, if known, involved with the tank removal. If the field report is not available please notify me so we can discuss other available information.

Please let me know the time frame involved in pulling and copying the information required so that I can coordinate picking up the information and dropping off additional lists of files.

Should you need additional information please contact me as soon as possible.

Sincerely:
MJA Consulting

Michael Anselmo
Project Engineer

Tank #1 UL 10,000
#2 SUL 5,000
#3 REG 10,000
#4 DIESEL N/A

Present: C.R.J. INC.,

On June 9,12 1987 the above tank systems were precision tested using the Petro Tite Precision tank testing equipment. This method complies with the NFPA #329 guidelines for precision testing and section 2643 of the California Underground Storage Tank Regulations. These guidelines require 0.05 gallons per hour leak rate accuracy.

We have found from precise liquid level measurement, product circulation and temperature correction analysis combined that the above tank system meets the above criteria. This concludes our test and findings on this date. We found a loose union on the vent line, made necessary repairs and then retested. The Regular leaded tank then met the above criteria.

Sincerely,

Robert W. Jackson, President

Gentlemen:

On March 24, 1988, we precision tested the 1,000 gallon waste oil tank, which was filled with diesel fuel, using the "Petro-Tite" system.

The tank had a leak rate of -.037 gallons per hour. This leak rate is within the NFPA criteria of 0.05 gallons per hour; therefore, this tank and attached piping can be considered liquid tight at this time.

The test results are attached.

Please call if you have any questions.

Very truly yours,

SCOTT-BROADWAY SERVICE

Loren W. Guinn

RE: UNAUTHORIZED RELEASE #TO772/H12687
7651 ALVARADO RD., LA MESA, CA

Dear Ms. Wolff:

Your written supplemental report to update the Unauthorized Release Report for the site referenced above is PAST DUE. You are required to submit this report every four weeks weeks to update the progress of activities at that site, in accordance with the provisions of the California Administrative Code, Title 23, Chapter 3, Subchapter 16, Article 5, Section 2652. The report was due 11/02/87.

Please submit your written supplemental report to update the Unauthorized Release Report to this Department within five work days of receipt of this Notice.

If you have any questions on this matter, please contact me at (619) 236-2222.

Sincerely,

MIKE VERNETTI
Hazardous Materials Specialist

MEMORANDUM FOR: California Regional Water Quality Control Board, San Diego Region

FROM: Hazardous Materials Management Unit (HMMU)

SUBJECT: UNAUTHORIZED RELEASE OF HAZARDOUS MATERIAL FROM AN UNDERGROUND STORAGE TANK T# 0772

Evidence of an unauthorized release of a hazardous material has been noted by HMMU staff at the site described below:

Site Address: 7651 ALVARADO RD (Street) | LA MESA (City) | 92041 (Zip Code)

Property Owner: CHEVRON USA (Name)

1201 S. BEACH BLVD (Street) | CA HABRA (City) | 90631 (Zip Code)

Telephone: _____

Tank Operator: CHEVRON (Name) | 462-2860 (Telephone)

The following information is provided for your consideration and action in accordance with the authority and responsibilities of the Regional Board.

Suspected Source(s): TANK

Amount Released: UNK (Gallons) UNK (Time Period)

Release Detected By:

- ✓ Routine Tank Testing
- ___ Test of Piping
- ___ Inventory Audit
- ___ Monitoring Device/Well
- ___ Evidence of Soil Contamination Detected During Tank Removal
- ___ Evidence of Leaky Tank Detected During Tank Removal
- ___ Other

Description of underground tank systems on property (number, type, age, capacity, material stored, evidence of leakage). REGULAR TANK FAILED PRESSION TEST.

Date Release Reported to or Detected by HMMU 10/2/87

Contact With Other Agencies _____

Additional Comments:

Please call the HMMU at 236-2222 if you have questions or comments regarding the above.

N.D. WOLFF

RE: UNAUTHORIZED RELEASE #T 0772
7651 ALVARADO RD LA MESA 92041 # 93521

Dear N.D. WOLFF :

Information provided to this Department by REGULAR TANK FAILED PRECISION TEST indicates that the underground hazardous substance storage facility at the location rererenced above has experienced an Unauthorized Release (leak).

The conditions created by the Unauthorized Release must be reported and corrected in accordance with Sections 25295 and 25297 of Chapter 6.7 of the California Health and Safety Code (H&SC) and Section 2652, Subchapter 16, Chapter 3, Title 23 of the California Administrative Code (CAC), and Chapter 6.5 of the H&SC and Title 22 of the CAC.

As the owner/operator of the underground storage tank, it is your responsibility to:

1. Take immediate action to prevent further unauthorized release;
2. Determine the extent and impact of the unauthorized release;
3. Submit a written Unauthorized Release Report to this Department within five workdays of receipt of this Notice;
4. Complete and distribute within five workdays the enclosed State Water Resources Control Board's "Underground Storage Tank Unauthorized Release(Leak)/Contamination Site Report";
5. Submit supplemental report as required to update the initial report; and,
6. Complete any site mitigation (cleanup) required.

The Unauthorized Release Reports must address all six Elements listed on the reverse side of this Official Notice, to the extent of the best information known at this time. Additional information and responsibilities are also listed. Please note Item G concerning responsibility for payment for staff time expended on the investigation.

Subsequent site characterization and mitigation actions will be determined upon evaluation of the written report and consultation with the Regional Water Quality Control Board and other appropriate regulatory agencies.

Please call me at (619) 236-2222 if you have any questions regarding this Official Notice.

Sincerely,

MIKE VOTINETTI

ATTN: Tim Cunningham

SUBJECT: HORNER EZY-CHEK TANK INTEGRITY TEST

LOCATION: Same as above

TANK NUMBER 1 - 225 GALLON WASTE OIL

PRESENT: Western Pump, Inc.: Barry Sanborn

On August 24, 1990 the above tank system was integrity tested using the Horner Ezy-Chek leak detector system. This method complies with the NFPA #329 guidelines for precision testing and Section #2643 of the California Underground Storage Tank Regulations. These guidelines require 0.05 gallon per hour leak rate accuracy.

We have found from precise liquid level measurement and temperature analysis combined that the above tank system meets the regulation requirements. This concludes our test and findings on this date.

Sincerely,

D. D. Rethmeier

IMPORTANT: CONTACT THE DEPT. OF HEALTH SERVICES AT 338-2214 AT LEAST TWO WORKING DAYS BEFORE STARTING CONSTRUCTION TO SCHEDULE THE FIRST REQUIRED FIELD INSPECTION.

E. APPLICATION SUBMITTAL, PLAN APPROVAL, PERMIT ISSUANCE, AND REQUIRED INSPECTIONS

Submit three (3) copies of this application package, including plan drawings, with the required fee to the Department of Health Services, Hazardous Materials Management Division, 1255 Imperial Ave., San Diego, CA or mail to P.O. Box 85261, San Diego, CA 92138-5261. Checks should be made payable to the County of San Diego.

A permit will be issued by the HMMD upon review and approval of the application and plans. The required fees must be submitted with the application package. Information in addition to that presented in the application package may be needed in order to obtain final approval. No work is to begin on the proposed project until a permit has been issued. The required inspections cannot be scheduled until a permit is issued.

Once the permit has been issued, it is the responsibility of the permittee to notify the HMMD at least two (2) working days in advance to schedule each required inspection.

Construction stages at which inspections are required are indicated in each subpart of this application form (i.e., Part II,III IV, and V).

F. PROJECT WORK TO BE COMPLETED: Check Applicable Box	COMPLETE APPLICATION PARTS	FEE CODE TABLE G.

	Plan Re-Review $200.00	Fee: $
5	Consultation fee (e.g. vaulted tank: minimum 2 hours) ____ Hours x $80.00	Fee: $
		TOTAL FEE: $ 375.00

I. PERMITS REQUIRED BY OTHER AGENCIES

FIRE DEPT. ✓ APCD _____ BLDG DEPT. _____ OTHER _____

Provide copies of approved applications from these departments and others if needed.

COUNTY OF SAN DIEGO

HAZARDOUS MATERIALS MANAGEMENT DIVISION

PART III

APPLICATION FOR PERMIT TO CLOSE UNDERGROUND STORAGE TANKS

A. TOTAL NUMBER OF TANKS TO BE CLOSED 1 EA.

B. DESCRIPTION OF TANKS TO BE CLOSED:

TANK NO.	CAPACITY	DATE INSTALLED	TANK COMPOSITION	TANK PRESENTLY IN USE?	MATERIALS STORED IN TANK
	250gal.	1984	Steel	No	None
		Pressure Tested		8/29/90	

C. HAS THE TANK SYSTEM EVER FAILED OR LEAKED? YES ☐ NO ☑

D. REASON FOR TANKS TO BE CLOSED:

☐ Meet current state/federal requirements

☐ Replacement of existing tanks

☐ Tank system failure, briefly describe _____

☑ Other, briefly describe Tank Permitte no longer leases property

E. PREVIOUS OWNERS AND OPERATORS OF THE TANKS:

DATES	OWNER/OPERATOR
1984	Tim Cunningham

F. PROPOSED METHOD OF CLOSURE: ☐ REMOVAL ☐ CLOSURE IN PLACE

SAMPLING PROTOCOL Tank owner/authorized representative responsible for all sampling analyses and associated costs.

- for tank systems that are to be removed. The excavation shall be exposed prior to the scheduled inspection and sampling points identified by the HMMD inspector. Sampling is required for both tank and piping. The tank must remain in the excavation until the HMMD inspector approves the removal.

- tank systems to be closed in place. Submit an alternate plan which must include soil sampling, reason for closing the tank system in place and type of material to be used to fill the tank., Soil sampling and/or hydrostatic testing is also required for piping closures. Tank system closure in place will only be considered after evaluating the risks and hazards if the tank system were removed.

G. DISPOSAL SITE OF TANK: VERA INDUSTRIAL CLEANING CORP. 2675 "A" FAIRE ST, C.V. CA, 91911

Note: You must inform the HMMD of the address of where the tank is to be disposed Plans will be disapproved without this information.

H. ATTACH THREE COPIES OF PLANS SHOWING THE FOLLOWING:

1. Property lines, site address, scale, north arrow.
2. Location of all existing structures.
3. Location of all existing underground storage tank facilities.
4. Location of underground storage tanks and piping to be closed.
5. Location of underground utility lines and vaults.

I. REQUIRED INSPECTION-PERMIT TO CLOSE

A representative from the HMMD must be on site at the time the tank(s) are closed.

1. TANK SYSTEM CLOSURE BY REMOVAL:

- excavation shall be exposed prior to the scheduled inspection. The tank owner/authorized representative on site must submit a uniform hazardous waste manifest demonstrating that the tank has been properly decontaminated. A combustible gas instrument and soil sampling equipment must be on site. The HMMD inspector will identify sampling points. The tank must remain in the excavation until the HMMD approves the removal.

2. TANK SYSTEM CLOSURE IN PLACE:

- after approval of the alternate plan, the tank owner/authorized representative on site shall submit a uniform hazardous waste manifest demonstrating that the tank has been properly decontaminated. The HMMD inspector shall verify that the tank system has been properly emptied and will witness the filling with an approved inert substance. Piping approved to be closed in place by hydrostatic testing shall also be witnessed by the HMMD.

J. DECLARATION

I declare that to the best of my knowledge and belief the statements and information provided are correct and true. I understand that information in addition to that provided above may be needed in order to obtain final approval by the Hazardous Materials Management Division.

I understand that tests and procedures that may be required by other departments and agencies to demonstrate adequate site safety or suitability for further development (e.g. soil compaction testing) are in addition to the requirements of the Hazardous Materials Management Division.

I will notify the Hazardous Materials Management Division at least two working days (48 hours) before work is to begin in order to schedule the required inspections. I understand that site and worker safety are solely the responsibility of the property owner or his agent and that this responsibility is not shared or assumed by the County of San Diego.

E. APPLICATION SUBMITTAL, PLAN APPROVAL, PERMIT ISSUANCE, AND REQUIRED INSPECTIONS

Submit three (3) copies of this application package, including plan drawings, with the required fee to the Department of Health Services, Hazardous Materials Management Division, 1255 Imperial Ave., San Diego, CA or mail to P.O. Box 85261, San Diego, CA 92138-5261. Checks should be made payable to the County of San Diego.

A permit will be issued by the HMMD upon review and approval of the application and plans. The required fees must be submitted with the application package. Information in addition to that presented in the application package may be needed in order to obtain final approval. No work is to begin on the proposed project until a permit has been issued. The required inspections cannot be scheduled until a permit is issued.

Once the permit has been issued, it is the responsibility of the permittee to notify the HMMD at least two (2) working days in advance to schedule each required inspection.

Construction stages at which inspections are required are indicated in each subpart of this application form (i.e., Part II,III IV, and V).

COMPLIANCE INSPECTION REPORT

BUSINESS NAME Advantage Auto Center
ADDRESS 7191 Alvarado Rd
CITY/ZIP La Mesa 91941

On the above date an inspection of your business/facility was conducted in order to determine compliance with the California Health and Safety Code (H&S) Chapters 6.5, 6.7, 6.95; Titles 19, 22 and 23 of the California Code of Regulations (CCR); and the San Diego County Code (SDCC). The following remarks are intended to provide guidance to correct the violations noted on the attached violation report.

OCT 02 1997

Processed 10/9/97 JC File

Office Use Only

1) Health permit Application rec'd by HMMD dtd 7/18/97 - Facility began operation 8/15/97. When HMMD Inspection Report is processed Facility will be billed for permit fees and when fees are paid a health permit will be mailed to site.
2) Facility went thru AB 3205. A Business plan dtd 7/17/97 was rec'd by HMMD 7/24/97.
3) Facility recycles anti-freeze on site. (55 gal container of each)
4) Facility generates used oil, Solvent Sludge, Used oil Filters & used car batteries.
5) Assure that an EPA Id Number has been obtained from CAL EPA for this site (EPA Numbers are site specific) prior to disposal of hazardous waste.
6) Hazardous waste labels need to be on all used oil containers in use that all completely filled out.
7) Emergency contact info was submitted to HMMD
8) Facility stores 110 gals maximum of product motor oil 10W-30 wt.
9) Keep all hazardous waste disposal receipts for 3 years - on site.

II UNDERGROUND STORAGE TANK (UST) REQUIREMENTS:

GENERAL UST REQUIREMENTS

- [ ] Health Permit not obtained 68.1005, 25284 — V3002 T____
- [ ] Repair/modify/close permit not obtained 68.1005 — V3007 T____
- [ ] UST Permit Application not submitted 25286(a) — V3010 T____
- [ ] Operating permit conditions violated 2712 — V3011 T____
- [ ] Failed to notify HMMD of changes 25284 — V3012 T____
- [ ] No owner/operator agreement 25284 — V3005 T____
- [ ] No records of financial coverage 25292.2 — V3013 T____
- [ ] No maint/monit/calib records available 2712(b), 2641(j) — V3001 T____
- [ ] Monitoring Equip. not tested annually 2630, 2641 — V3003 T____

MONITORING REQUIREMENTS (SINGLE WALL)

- [ ] Leak Detection Method does not meet performance standards 2643 — V3014 T____
- [ ] Integrity test not conducted 25292 — V3015 T____
- [ ] Copy of tank test not submitted to HMMD within 30 days 2643 — V3016 T____
- [ ] Manual tank gauging (<2000 gal) 2645 not done properly — V3017 T____
- [ ] Reconciliation not done properly 2646 — V3018 T____
- [ ] Reconciliation not approved for facility 2646 — V3019 T____
- [ ] Dispenser meter(s) not calib annually 2646 — V3020 T____
- [ ] Improper liquid measurements 2646 — V3021 T____
- [ ] Stick in poor condition 2646 — V3022 T____
- [ ] Improper monthly reconciliation 2646 — V3023 T____
- [ ] Failed to report excessive variation 2646 — V3024 T____
- [ ] Pressurized Product Piping Leak Device not tested annually 25292 — V3025 T____
- [ ] No written monitoring procedure 2641 — V3027 T____
- [ ] No written emergency response plan 2641 — V3027 T____
- [ ] SIR reporting incorrectly done 2646.1 — V3004 T____

MONITORING REQUIREMENTS (DOUBLE WALL)

- [ ] Monitoring system not functional 2632 — V3026 T____
- [ ] No written monitoring procedure 2632 — V3027 T____
- [ ] Written emergency response plan not available 2632 — V3028 T____
- [ ] Spill/Overfill equip. not maintained or installed 2635 — V3029 T____

RELEASE REPORTING

- [ ] Failure to report an unauthorized release 25295 — V3009 T____
- [ ] Release record log not available 2651, 2650 — V3030 T____
- [ ] No leak report/investigation/action 2652 — V3031 T____

CLOSURE

- [ ] Temporary closure req. not completed 2671 — V3006 T____
- [ ] Unused tank not properly closed 25298 — V3032 T____
- [ ] Permanent closure req. not completed 2672 — V3033 T____
- [ ] Failed to apply for temporary closure 25298 — V3008 T____

III HAZARDOUS MATERIALS BUSINESS PLAN REQUIREMENTS:

RECORD KEEPING

- [ ] Health Permit not obtained SDCC 68.1105 OK — V2001 W____
- [ ] Business Plan not established/implemented 25503.5 OK — V2002 W____
- [ ] Business Plan not submitted to HMMD 25505 — V2007 W____

Additional notes —
Handout of regulations for construction, operation and regulation of Hazardous Waste tanks - Left with Mr. Bowen.
— As discussed, the proposed plan to install two single wall polyethylene 225 gallon (¼" thick) containers and construct a cement Secondary Containment wall around them — would convert the containers to NON-portable tank status, and be governed by these regulations.
"New tank systems and components must have been or be designed, installed and have Independent ENGINEERING Assessment on file before placing a new tank system/component IN Service ..." (See handout for additional Management Standards — page 1 of handout — including - Design & INSTALLation of new tank & Components
- Containment & detection of releases, spills, Leaks
- General operating standards
- Tank inspection protocols (daily)
- Response to leaks or spills and tanks unfit for use
- Tank System - closure condition
- Ignitable or reactive waste
- INCompatible Waste - special requirements -

HAZARDOUS MATERIALS MANAGEMENT DIVISION

RICHARD HAAS
ASSISTANT DIRECTOR

Dear Business Owner/Operator:

The County of San Diego regulates establishments which use hazardous materials, dispose of hazardous wastes and/or have underground storage tanks. The primary purpose for these regulations is to protect the health and safety of San Diego County citizens and emergency response personnel.

Your business has been identified as a potential user of hazardous materials or producer of hazardous waste.

The attached questionnaire will be useful in determining if your business is subject to the hazardous materials requirements. Three separate sections of this questionnaire define different ways hazardous materials may be handled at your business.

Complete each section of the questionnaire and the hazardous materials summary on Page 4. The San Diego County Code requires all business owners/operators who receive this questionnaire to return it within 30 days to the Department of Environmental Health, Hazardous Materials Management Division. Please use the enclosed return envelope.

If you have any questions, regarding the completion of this questionnaire please contact the Hazardous Materials Management Division at (619) 338-2222.

Thank you for assisting us in our efforts to improve the health and safety of San Diego County residents.

Enclosures

SECTION A - HAZARDOUS WASTE GENERATION

NOTE: If you know that your business generates, stores or handles hazardous wastes, please continue with Section B of the questionnaire. All others must complete #1 through #6 that follows.

1. Does your business or service generate, store or handle any of the by-products or wastes listed in the box below?

YES ☒ NO ☐

Circle the letters of the categories found at your business.

A. Solvents
   a. Halogenated - chloroform, methyl chloride.
   b. Oxygenated - acetone, butanol, ethyl acetate.
   c. Hydrocarbons - benzene, hexane, stoddard.
   d. Unspecified solvent mixtures.

B. Sludges - Alum, paint, degreasing, caustic, paper, tetraethyl lead, lime, tank bottom waste and metal sludge.

C. Waste Oil/Mixed Oil - Waste motor oil, fuel tank cleaning residue, oil separation waste, lube oil processing waste.

D. Pesticides and Pesticide Rinse Water - Parathion, Malathion, Diazinon, and other pesticides; pesticide residue from container rinsing.

E. PCB - Mineral oil contaminated-electrical capacitors, ballasts, and electrical transformers.

F. Monomer/Polymeric Resin Waste - Plastic coating and laminating waste, resin coating, metal binding and coating resin rinse waters.

G. Biological Waste - Infectious hospital waste, laboratory and pharmaceutical research waste exceeding 100 kg/month.

H. Organic Liquid/Solids - Polymer extrusion waste, PVC coating residue, adhesive waste, organic stripper from semi-conductor processing waste.

I. Contaminated Aqueous Solutions:
   a. With reactive anions - azide, bromate, chlorate, cyanide, fluoride, hypochlorate, nitrite, perchlorate, sulfide anions, plating rinse solutions, metal coatings and metal parts cleaning solutions.
   b. With heavy metals - including antimony, arsenic, barium, beryllium, cadmium, chromium, cobalt, copper, lead, mercury, molybdenum, nickel, selenium, silver, thallium, vanadium and zinc.
   c. With organic residues - including degreasing and metal cleaning solutions, equipment cleaning, dry cleaning, anticorrosion and coolant solution wastes.

J. Acid Solutions - Wastes battery acid, plating waste, printed circuit etching residue, silicon wafer reclamation and cleaning wastes, galvanizing wastes, other acidic solution wastes with $pH \leq 2$.

K. Alkaline Solutions - Wastes from metal plating, anodizing and etching, containing sodium or calcium hydroxide, and other solutions with $pH \geq 12.5$.

L. Asbestos - Insulation products, old pipe laging.

M. Metal Sludges and Dusts - Metal machining coolant sludges, metal pickling sludges, metal machining dusts.

N. Miscellaneous - Chemical toilet waste, photochemical processing waste, laboratory chemical wastes, drilling mud, soap and detergent production wastes.

2. Do you dispose of any items in #1 by discharging them into the sewer system including down sinks, floor drains, toilets, etc.?

YES ☐ NO ☒ If yes, which category(ies) of by-product or wastes?

3. Do you dispose of any items listed in #1 in a way other than disposal into the sewer system (for example, trash cans, dumpster, storm drain, on the ground, evaporation ponds, land fills, etc)? YES ☐ NO ☒

If yes, which category(ies) of by-products or wastes? _____

4. Do you recycle any of the items listed in #1 through another company/contractor or by yourself? YES ☒ NO ☐

If yes, which category(ies) of by-products or wastes? WASTE OIL AND USED ANTIFREEZE

5. Do you manifest (prepare the required transportation document for hazardous wastes) any items listed in #1? YES ☒ NO ☐

6. If you answered "yes" to any of the questions (1, 3, 4, or 5) your business or service does generate hazardous waste and a permit from the San Diego County Department of Environmental Health is required. Continue with Section B of the questionnaire.

PLEASE RETURN THIS SECTION

SECTION B - INVENTORY OF HAZARDOUS MATERIALS

A "hazardous substance" is a chemical compound, or product for which a manufacturer or producer is required by law to prepare a Material Safety Data Sheet (MSDS) for that substance. An MSDS is a document (usually 2 or 3 pages) which contains chemical composition information, fire and explosive data, health hazard data, reactivity data, spill or leak procedures, special protection information and special precaution information. An MSDS for a hazardous substance can be obtained from the supplier of that substance. Hazardous substances also include materials requiring placard warnings during transportation.

1. Does your establishment use or handle hazardous, substances in quantities equal to or greater than 55 gallons, 500 pounds, or 200 cubic feet of compressed gas at any one time?

   Yes ☐ No ☑

2. Review the health hazards data or health and safety section of the Material Safety Data Sheets (MSDS) to see if any chemicals or substances you use are designated as a cancer-causing substance (carcinogen) or substance which may cause birth defects, miscarriages, or damage to the human reproductive system (reproductive toxin). Does your establishment use or handle carcinogens or reproductive toxins?

   Yes ☐ No ☑

3. Does your establishment use or handle gases with Threshold Limit Values (TLV) or Time Weighted Average (TWA) of 10 parts per million or less?

   Yes ☐ No ☑

If you have answered "Yes" to any of the above questions (1, 2, or 3), you do use or handle hazardous materials that are subject to inventory requirements and a permit from the San Diego County Department of Environmental Health is required. Continue with Section C of the questionnaire.

SECTION C - UNDERGROUND STORAGE TANKS

An "underground storage tank" is a tank, including piping, which holds hazardous wastes (as defined in Section A) or hazardous substances (as defined in Section B, regardless of volume) and has 10% or more of the total volume located below grade.

Does your business have underground storage tanks as defined above?

Yes ☐ No ☑

If you answered "yes", a permit from the San Diego County Department of Environmental Health is required.

Underground storage tanks may not be installed, removed, destroyed, repaired or operated without permits from this Department.

Continue with the Hazardous Materials Summary on page 4.

PLEASE RETURN THIS SECTION

HAZARDOUS MATERIALS SUMMARY

Complete the following information regarding the handling of hazardous materials at your business or service. Check one statement.

☑ This business or service does generate hazardous waste, handles hazardous materials subject to the inventory requirements and/or has underground storage tanks that requires a permit from the San Diego County Department of Environmental Health.

☐ I have determined that this business or service does not generate hazardous waste, handle hazardous materials subject to the inventory requirements or has underground storage tanks requiring permits from the San Diego County Department of Environmental Health.

I declare under penalty of perjury that to the best of my knowledge and belief the statements made herein are correct and true. I consent to all necessary inspections allowed by law and incidental to the issuance of required permit(s) and the operation of this business.

BUSINESS ADDRESS: 7191 Alvarado Rd. La Mesa 91941

VIOLATION REPORT: The items checked below refer to specific section numbers of Titles 19/22/23 of the California Code of Regulations (CCR), Chapters 6.5, 6.7, 6.95 of the Health and Safety Code (HSC), and/or the San Diego County Code (SDCC).

I HAZARDOUS WASTE REQUIREMENTS:

RECORD KEEPING

- [ ] Health Permit not obtained SDCC 68.905 — V0108 W____
- [ ] No EPA Identification Number 66262.12 — V0105 W____
- [ ] Waste Manifests/Receipts not on-site for 3 years 66262.40 — V0118 W____
- [ ] Manifest not properly completed 66262.23 — V0120 W____
- [ ] Manifest copy not sent to DTSC 66262.23 — V0115 W____
- [ ] TSDF signed-manifest not on-site 66262.40 — V0121 W____
- [ ] Biennial report not sent to DTSC 66262.41 — V0122 W____
- [ ] LDR Documentation not available 66268.7 — V0123 W____
- [ ] Exception Rpt. not filed with DTSC 66262.42 — V0116 W____
- [ ] Operating TSDF without authorization 25201 — V0124 W____

STORAGE AND HANDLING

- [ ] Waste stored longer than 90, 180, or 270 days 66262.34 — V0221 W____
- [ ] Failure to clean up hazwaste off of floor surface 66262.10b — V0313 W____
- [ ] Waste container missing/improperly labeled 66262.34 — V0222 W____
- [ ] Haz Materials not properly labeled 25124 — V0223 W____
- [ ] Waste container not kept closed 66265.173 — V0202 W____
- [ ] Waste container in poor condition 66265.171 — V0205 W____
- [ ] Waste container(s) not properly managed 66265.173 — V0210 W____
- [ ] Damaged container not repackaged 66265.171 — V0226 W____
- [ ] Container incompatible with waste 66265.172 — V0207 W____
- [ ] Incompatibles in the same container 66265.177 — V0224 W____
- [ ] Incompatibles not stored separately 66265.177 — V0213 W____
- [ ] Ignitible Waste less than 50 feet 66265.176 — V0214 W____
- [ ] Ignitible Waste not grounded 66265.31 — V0215 W____
- [ ] Storage area not inspected weekly 66265.174 — V0216 W____

DISPOSAL AND TRANSPORTATION

- [ ] Unauth. disposal of waste to _____ 25189.5 — V0313 W____
- [ ] Waste determination not made 66262.11 — V0319 W____
- [ ] Unlawful transport of haz. waste 25163 — V0315 W____
- [ ] Waste transported without manifest 66262.20 — V0316 W____
- [ ] Extremely Haz Waste Permit not obtained 25205.7 — V0317 W____

TRAINING, CONTINGENCY PLAN & EMERGENCY PROCEDURES

- [ ] Training records unavailable 66265.16 — V0405 W____
- [ ] Training program not adequate 66265.16 — V0406 W____
- [ ] Facility not designed to minimize release 66265.31 — V0501 W____
- [ ] Spill control equip not available 66265.32 — V0508 W____
- [ ] Aisle space is obstructed 66265.35 — V0509 W____
- [ ] Contingency plan not prepared and/or on file 66265.51, 66265.53 — V0609 W____

MISCELLANEOUS

- [ ] Waste oil contaminated 25250.7 — V0225 W____
- [ ] Used oil filters improperly managed 66266.130 — V0701 W____
- [ ] Damaged batteries improperly managed 66266.81 — V0702 W____
- [ ] Facility has failed to notify local CUPA and DTSC of onsite treatment of hazardous waste (tiered pemitting) — V0125 W____
- [ ] Onsite treatment of waste without authorization 25201 — V0125 W____

II UNDERGROUND STORAGE TANK (UST) REQUIREMENTS:

GENERAL UST REQUIREMENTS

- [ ] Health Permit not obtained 68.1005, 25284 — V3002 T____
- [ ] Repair/modify/close permit not obtained 68.1005 — V3007 T____
- [ ] UST Permit Application not submitted 25286(a) — V3010 T____
- [ ] Operating permit conditions violated 2712 — V3011 T____
- [ ] Failed to notify HMMD of changes 25284 — V3012 T____
- [ ] No owner/operator agreement 25284 — V3005 T____
- [ ] No records of financial coverage 25292.2 — V3013 T____
- [ ] No maint/monit/calib records available 2712(b), 2641(j) — V3001 T____
- [ ] Monitoring Equip. not tested annually 2630, 2641 — V3003 T____

MONITORING REQUIREMENTS (SINGLE WALL)

- [ ] Leak Detection Method does not meet performance standards 2643 — V3014 T____
- [ ] Integrity test not conducted 25292 — V3015 T____
- [ ] Copy of tank test not submitted to HMMD within 30 days 2643 — V3016 T____
- [ ] Manual tank gauging (<2000 gal) 2645 not done properly — V3017 T____
- [ ] Reconciliation not done properly 2646 — V3018 T____
- [ ] Reconciliation not approved for facility 2646 — V3019 T____
- [ ] Dispenser meter(s) not calib annually 2646 — V3020 T____
- [ ] Improper liquid measurements 2646 — V3021 T____
- [ ] Stick in poor condition 2646 — V3022 T____
- [ ] Improper monthly reconciliation 2646 — V3023 T____
- [ ] Failed to report excessive variation 2646 — V3024 T____
- [ ] Pressurized Product Piping Leak Device not tested annually 25292 — V3025 T____
- [ ] No written monitoring procedure 2641 — V3027 T____
- [ ] No written emergency response plan 2641 — V3027 T____
- [ ] SIR reporting incorrectly done 2646.1 — V3004 T____

MONITORING REQUIREMENTS (DOUBLE WALL)

- [ ] Monitoring system not functional 2632 — V3026 T____
- [ ] No written monitoring procedure 2632 — V3027 T____
- [ ] Written emergency response plan not available 2632 — V3028 T____
- [ ] Spill/Overfill equip. not maintained or installed 2635 — V3029 T____

RELEASE REPORTING

- [ ] Failure to report an unauthorized release 25295 — V3009 T____
- [ ] Release record log not available 2651, 2650 — V3030 T____
- [ ] No leak report/investigation/action 2652 — V3031 T____

CLOSURE

- [ ] Temporary closure req. not completed 2671 — V3006 T____
- [ ] Unused tank not properly closed 25298 — V3032 T____
- [ ] Permanent closure req. not completed 2672 — V3033 T____
- [ ] Failed to apply for temporary closure 25298 — V3008 T____

III HAZARDOUS MATERIALS BUSINESS PLAN REQUIREMENTS:

RECORD KEEPING

- [ ] Health Permit not obtained SDCC 68.1105 — V2001 W____
- [ ] Business Plan not established/implemented 25503.5 — V2002 W____
- [ ] Business Plan not submitted to HMMD 25505 — V2007 W____

COMPLIANCE INSPECTION REPORT

DATE 5/23/01

PAGE 2 OF 2

BUSINESS ADDRESS: 7191 Alvarado Rd La Mesa 91941

VIOLATION REPORT: The items checked below refer to specific section numbers of Titles 19/22/23 of the California Code of Regulations (CCR), Chapters 6.5, 6.7, 6.95 of the Health and Safety Code (HSC), and/or the San Diego County Code (SDCC).

I HAZARDOUS WASTE REQUIREMENTS:

RECORD KEEPING

- [ ] Health Permit not obtained SDCC 68.905 — V0108 W____
- [ ] No EPA Identification Number 66262.12 — V0105 W____
- [ ] Waste Manifests/Receipts not on-site for 3 years 66262.40 — V0118 W____
- [ ] Manifest not properly completed 66262.23 — V0120 W____
- [ ] Manifest copy not sent to DTSC 66262.23 — V0115 W____
- [ ] TSDF signed-manifest not on-site 66262.40 — V0121 W____
- [ ] Biennial report not sent to DTSC 66262.41 — V0122 W____
- [ ] LDR Documentation not available 66268.7 — V0123 W____
- [ ] Exception Rpt. not filed with DTSC 66262.42 — V0116 W____
- [ ] Operating TSDF without authorization 25201 — V0124 W____

STORAGE AND HANDLING

- [ ] Waste stored longer than 90, 180, or 270 days 66262.34 — V0221 W____
- [ ] Failure to clean up hazwaste off of floor surface 66262.10b — V0313 W____
- [ ] Waste container missing/improperly labeled 66262.34 — V0222 W____
- [ ] Haz Materials not properly labeled 25124 — V0223 W____
- [ ] Waste container not kept closed 66265.173 — V0202 W____
- [ ] Waste container in poor condition 66265.171 — V0205 W____
- [ ] Waste container(s) not properly managed 66265.173 — V0210 W____
- [ ] Damaged container not repackaged 66265.171 — V0226 W____
- [ ] Container incompatible with waste 66265.172 — V0207 W____
- [ ] Incompatibles in the same container 66265.177 — V0224 W____
- [ ] Incompatibles not stored separately 66265.177 — V0213 W____
- [ ] Ignitible Waste less than 50 feet 66265.176 — V0214 W____
- [ ] Ignitible Waste not grounded 66265.31 — V0215 W____
- [ ] Storage area not inspected weekly 66265.174 — V0216 W____

DISPOSAL AND TRANSPORTATION

- [ ] Unauth. disposal of waste to _____ 25189.5 — V0313 W____
- [ ] Waste determination not made 66262.11 — V0319 W____
- [ ] Unlawful transport of haz. waste 25163 — V0315 W____
- [ ] Waste transported without manifest 66262.20 — V0316 W____
- [ ] Extremely Haz Waste Permit not obtained 25205.7 — V0317 W____

TRAINING, CONTINGENCY PLAN & EMERGENCY PROCEDURES

- [X] Training records unavailable 66265.16 — V0405 W1
- [ ] Training program not adequate 66265.16 — V0406 W____
- [ ] Facility not designed to minimize release 66265.31 — V0501 W____
- [ ] Spill control equip not available 66265.32 — V0508 W____
- [ ] Aisle space is obstructed 66265.35 — V0509 W____
- [ ] Contingency plan not prepared and/or on file 66265.51, 66265.53 — V0609 W____

MISCELLANEOUS

- [ ] Waste oil contaminated 25250.7 — V0225 W____
- [ ] Used oil filters improperly managed 66266.130 — V0701 W____
- [ ] Damaged batteries improperly managed 66266.81 — V0702 W____
- [ ] Facility has failed to notify local CUPA and DTSC of onsite treatment of hazardous waste (tiered pemitting) — V0125 W____
- [ ] Onsite treatment of waste without authorization 25201 — V0125 W____

II UNDERGROUND STORAGE TANK (UST) REQUIREMENTS:

GENERAL UST REQUIREMENTS

- [ ] Health Permit not obtained 68.1005, 25284 — V3002 T____
- [ ] Repair/modify/close permit not obtained 68.1005 — V3007 T____
- [ ] UST Permit Application not submitted 25286(a) — V3010 T____
- [ ] Operating permit conditions violated 2712 — V3011 T____
- [ ] Failed to notify HMMD of changes 25284 — V3012 T____
- [ ] No owner/operator agreement 25284 — V3005 T____
- [ ] No records of financial coverage 25292.2 — V3013 T____
- [ ] No maint/monit/calib records available 2712(b), 2641(j) — V3001 T____
- [ ] Monitoring Equip. not tested annually 2630, 2641 — V3003 T____

MONITORING REQUIREMENTS (SINGLE WALL)

- [ ] Leak Detection Method does not meet performance standards 2643 — V3014 T____
- [ ] Integrity test not conducted 25292 — V3015 T____
- [ ] Copy of tank test not submitted to HMMD within 30 days 2643 — V3016 T____
- [ ] Manual tank gauging (<2000 gal) 2645 not done properly — V3017 T____
- [ ] Reconciliation not done properly 2646 — V3018 T____
- [ ] Reconciliation not approved for facility 2646 — V3019 T____
- [ ] Dispenser meter(s) not calib annually 2646 — V3020 T____
- [ ] Improper liquid measurements 2646 — V3021 T____
- [ ] Stick in poor condition 2646 — V3022 T____
- [ ] Improper monthly reconciliation 2646 — V3023 T____
- [ ] Failed to report excessive variation 2646 — V3024 T____
- [ ] Pressurized Product Piping Leak Device not tested annually 25292 — V3025 T____
- [ ] No written monitoring procedure 2641 — V3027 T____
- [ ] No written emergency response plan 2641 — V3027 T____
- [ ] SIR reporting incorrectly done 2646.1 — V3004 T____

MONITORING REQUIREMENTS (DOUBLE WALL)

- [ ] Monitoring system not functional 2632 — V3026 T____
- [ ] No written monitoring procedure 2632 — V3027 T____
- [ ] Written emergency response plan not available 2632 — V3028 T____
- [ ] Spill/Overfill equip. not maintained or installed 2635 — V3029 T____

RELEASE REPORTING

- [ ] Failure to report an unauthorized release 25295 — V3009 T____
- [ ] Release record log not available 2651, 2650 — V3030 T____
- [ ] No leak report/investigation/action 2652 — V3031 T____

CLOSURE

- [ ] Temporary closure req. not completed 2671 — V3006 T____
- [ ] Unused tank not properly closed 25298 — V3032 T____
- [ ] Permanent closure req. not completed 2672 — V3033 T____
- [ ] Failed to apply for temporary closure 25298 — V3008 T____

III HAZARDOUS MATERIALS BUSINESS PLAN REQUIREMENTS:

RECORD KEEPING

- [ ] Health Permit not obtained SDCC 68.1105 — V2001 W____
- [ ] Business Plan not established/implemented 25503.5 — V2002 W____
- [ ] Business Plan not submitted to HMMD 25505 — V2007 W____
- [ ] Business Plan not amended 25505 — V2003 W____
- [ ] Personnel Training Records not available 19 CCR 2732 — V2302 W____

RELEASE REPORTING

- [ ] Failure to report a release/threatened release 25507 — V2008 W____

BUSINESS PLAN ELEMENTS

- [ ] Emergency Response Plan inadequate 25504 — V2201 W____
- [ ] Emergency Contacts not provided/current 25509 — V2203 W____
- [ ] Personnel Training Program inadequate 25504 — V2301 W____
- [ ] Inventory is incomplete 25504 — V2005 W____
- [ ] Site Map is not sufficient 25509 — V2202 W____
- [ ] Acutely Haz. Mat. not registered 25533 — V2009 W____

ALL VIOLATIONS MUST BE CORRECTED. PLEASE CALL (619) 338-2222 OR YOUR INSPECTOR IF YOU HAVE ANY QUESTIONS.

Routine inspection!

JAN 17 2003

- Violations / Notice to comply -

1. Unified Program facility permit expired on 11/30/02. Manager has stated this arrived mid November. Corrective action: Please pay all applicable fees to bring permit by 12/7/02.

2. Unable to review training documentation this day. Corrective action: By 12/16/02 conduct and document a training session covering the (4) topics listed in the hazardous materials business plan. Fax or mail documentation to the hazardous materials division.

Remarks:

- Observed (2) brake washing units onsite.
- Observed (4) 55-gallon containers of antifreeze. 2 are product and (2) are waste antifreeze that is recycled by interfluid.
- Observed (2) above ground storage tank of product oil approximately 110 gal each.

☒ This is an annual certification that the Hazardous Materials Business Plan (inventory, emergency contacts, emergency response plan, and employee training plan) is current and includes all the information required in the H&SC and is maintained at the site where hazardous materials are stored.

☐ All violations noted on this compliance inspection report were corrected during this inspection.

Routine Inspection

SEP 17 2004

- Observed one 5-gallon capacity metal bucket containing Berryman's carb-dip containing methylene chloride. Be advised that chlorinated automotive products, such as methylene chloride, have been banned from use at auto repair shops since 12-31-02.

- Containers storing hazardous waste (oil, oil filters, anti-freeze) observed to be properly managed and labeled.

- Hazardous waste disposal receipts/manifests reviewed.

- Hazardous Materials Business Plan observed to be current

- Business provided with Chlorinated Automotive Product Use handout

☑ This is an annual certification that the Hazardous Materials Business Plan (inventory, emergency contacts, emergency response plan, and employee training plan) is current and includes all the information required in the H&SC and is maintained at the site where hazardous materials are stored.

☐ All violations noted on this compliance inspection report were corrected during this inspection.

Routine Inspection

RECEIVED MAR 0 8 2006

- Hazardous waste disposal receipts reviewed on site.
- Containers storing hazardous waste (used oil, oil filters, antifreeze) observed to be properly managed/covered and labeled.
- Observed one 5-gallon capacity metal bucket containing 'Berryman' carburetor cleaner with methylene chloride.
- Hazardous Materials Business Plan (site map, employee training description, emergency response plan) observed to be current.

☑ This is an annual certification that the Hazardous Materials Business Plan (inventory, emergency contacts, emergency response plan, and employee training plan) is current and includes all the information required in the H&SC and is maintained at the site where hazardous materials are stored.

On the above date, the County inspected your business under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). **This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6.** This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

Ninyo & Moore
Geotechnical and Environmental Sciences Consultants

2003 OCT 17 AM 11:11

October 14, 2003
Project No. 104804004

Mr. Stephen K. Smith
Berryman & Henigar
1255 Imperial Avenue, Suite 1000
San Diego, California 92101-7490

Subject: Underground Storage Tank Removal and Closure
Mission Valley East Light Rail Transit Corridor
La Mesa, California

Reference: Permit for Underground Storage Tank Construction/Closure, Bob Bowen Auto Service, 7191 Alvarado Road, La Mesa, California, 91941, prepared by County of San Diego Department of Environmental Health, dated August 18, 2003

Dear Mr. Smith:

In accordance with your request, Ninyo & Moore completed the underground storage tank (UST) removal activities at the subject site. Ninyo & Moore prepared and submitted an UST removal permit application, conducted the removal of the UST, and collected and analyzed soil samples from beneath the UST at the subject site (Figure 1). The services were performed under the General Engineering Services Contract between Berryman & Henigar and Ninyo & Moore dated December 20, 2002.

PURPOSE AND SCOPE OF WORK

The purpose of this project was to provide environmental consulting services associated with removal of a fuel oil UST at Bob Bowen's Auto Service, 7191 Alvarado Road, La Mesa, California, in accordance with the County of San Diego Department of Environmental Health (DEH) and the La Mesa Fire Department requirements. The scope of work included:

- preparing and submitting the applicable DEH and City of La Mesa Fire Department UST removal permit applications and fees,
- preparing and submitting the applicable DEH Post Tank Removal Work Plan,
- excavating to the top of the UST and cutting an access hole in the top UST,
- excavating soil around the UST,

- removing the UST in the presence of the DEH and City of La Mesa Fire Department,
- collecting soil samples from beneath the UST for laboratory analysis,
- backfilling of the excavation and site cleanup, and
- preparing this report.

PERMITTING AND PROJECT COORDINATION

On August 14, 2003, Ninyo & Moore personnel prepared and submitted an Application For Permit to Close Underground Storage Tank System, and a Work Plan For Underground Storage Tank Closure to the County of San Diego DEH for review and approval (attached). Both the permit and work plan were approved by the DEH on August 18, 2003. Ninyo & Moore proceeded with coordinating the UST cleaning and removal efforts with the hazardous waste subcontractor and the City of La Mesa Fire Department.

FIELD ACTIVITIES

On August 19, 2003, Ninyo & Moore supervised the uncovering of the UST by Ace Excavating and Environmental Services using a backhoe. The top of the UST was opened to facilitate cleaning of the UST. Upon visual inspection of the UST, the interior was empty and petroleum hydrocarbon vapors were not detected. On August 20, 2003, Ninyo & Moore personnel, the DEH project specialist, Mr. Kent Huth, and a City of La Mesa Fire Department inspector, Mr. Robert Scott, observed the removal of the UST. The DEH project specialist inspected the UST and observed rust on the tank and multiple holes on the bottom and sides of the UST. The UST system closure report prepared by the DEH is attached. The backfill and native soil did not contain petroleum hydrocarbon odors or visible staining with the exception of minor rust staining. Two soil samples were collected from beneath the UST at the direction of the DEH, one from under the west end of the UST (T1-W-8') and one from under the east end of the UST (T1-E-8') (Figure 2). The soil samples were collected at a depth of two feet below the UST base (8 feet below ground surface) using a backhoe. Ninyo & Moore personnel immediately placed the soil into new, labeled, laboratory-supplied glass jars with screw-top lids and placed the jars in a chilled

cooler for transport to HP Laboratories facility in Solana Beach, California, for analytical testing. A copy of the chain-of-custody documentation and laboratory report are attached.

The soil samples were analyzed for total petroleum hydrocarbons in the extended range (C5 through C36) by the United States Environmental Protection Agency (USEPA) Department of Health Services Leaking Underground Fuel Tank test method 8015M, and total recoverable petroleum hydrocarbons (TRPH) by USEPA test method 418.1. The soil sample with the highest concentration of TRPH was also analyzed for volatile organic compounds and fuel oxygenates by USEPA test method 8260B.

FINDINGS

A summary of the soil analytical results is presented on the following table:

Table 1 – Soil Analytical Results

Sample ID	TRPH	TPH	VOCs/Oxygenates
T1-W-8'	11	ND	ND
T1-E-8'	ND	ND	NA

Notes:
TRPH - Total recoverable petroleum hydrocarbons, reported in milligrams per kilogram
TPH - Total petroleum hydrocarbons (C5 through C36), reported in milligrams per kilogram
VOCs-Volatile organic compounds, reported in micrograms per kilogram
Oxygenates - Methyl tert-butyl ether, di-isopropyl ether, ethyl tert-butyl ether, tert-amyl methyl ether, reported in micrograms per kilogram
ND - Not detected
NA - Not analyzed

CONCLUSION

The analytical results indicate that total recoverable petroleum hydrocarbons were detected in the soil beneath the west end of the former UST. The typical level for additional assessment is 500 milligrams per kilogram for fuel oil. Therefore, Ninyo & Moore recommends no further action regarding site assessment or mitigation activities with respect to the subject UST system.

A copy of this report should be submitted to the following agency for their review and comment:

County of San Diego
Department of Environmental Health
Land and Water Quality Division

1255 Imperial Avenue, Third Floor
San Diego, California 92101
Attention: Mr. Kent Huth

It should be noted that soil containing detectable concentrations of contaminants above background levels may be considered a waste. Therefore, soil generated by future excavation in this area may be subject to Regional Water Quality Control Board waste discharge requirements upon reuse, export, or disposal. Anyone performing subsurface work in this area should be alerted to the potential for encountering volatile organic compounds including fuel oxygenates, and appropriate health and safety training and soil management plans should be prepared and followed.

LIMITATIONS

The environmental services described in this report have been conducted in general accordance with current regulatory guidelines and the standard-of-care exercised by environmental consultants performing similar work in the project area. No warranty, expressed or implied, is made regarding the professional opinions presented in this report. Variations in site conditions may exist and conditions not observed or described in this report may be encountered during subsequent activities. Please also note that this study did not include an evaluation of geotechnical conditions or potential geologic hazards.

Ninyo & Moore's opinions and recommendations regarding environmental conditions, as presented in this report, are based on limited subsurface assessment and chemical analysis. Further assessment of potential adverse environmental impacts from past on-site and/or nearby use of hazardous materials may be accomplished by a more comprehensive assessment. The samples collected and used for testing, and the observations made, are believed to be representative of the area(s) evaluated; however, conditions can vary significantly between sampling locations. Variations in soil and/or groundwater conditions will exist beyond the points explored in this evaluation.

The environmental interpretations and opinions contained in this report are based on the results of laboratory tests and analyses intended to detect the presence and concentration of specific

chemical or physical constituents in samples collected from the subject site. The testing and analyses have been conducted by an independent laboratory which is certified by the State of California to conduct such tests. Ninyo & Moore has no involvement in, or control over, such testing and analysis. Ninyo & Moore, therefore, disclaims responsibility for any inaccuracy in such laboratory results.

Our conclusions, recommendations, and opinions are based on an analysis of the observed site conditions. It should be understood that the conditions of a site could change with time as a result of natural processes or the activities of man at the subject site or nearby sites. In addition, changes to the applicable laws, regulations, codes, and standards of practice may occur due to government action or the broadening of knowledge. The findings of this report may, therefore, be invalidated over time, in part or in whole, by changes over which Ninyo & Moore has no control.

This document is intended to be used only in its entirety. No portion of the document, by itself, is designed to completely represent any aspect of the project described herein. Ninyo & Moore should be contacted if the reader requires any additional information, or has questions regarding content, interpretations presented, or completeness of this document.

This report is intended exclusively for use by the client. Any use or reuse of the findings, conclusions, and/or recommendations of this report by parties other than the client is undertaken at said parties' sole risk.

We appreciate the opportunity to be of continued service to you on this project. If you have any questions regarding this submittal, please contact the undersigned at 858/576-1000.

Sincerely,
NINYO & MOORE

Sean O. McGoey, R.E.A.
Senior Project Environmental Geologist

W. Scott Snyder, R.G., HG.

E. APPLICATION SUBMITTAL, PLAN APPROVAL, PERMIT ISSUANCE, AND REQUIRED INSPECTIONS

Submit one (1) original and two (2) copies of this application package, including plan drawings with the required fee to the Department of Environmental Health (DEH), Hazardous Materials Division, 1255 Imperial Avenue, San Diego, CA 92101; or mail to P.O. Box129261, San Diego, CA 92112-9261. **Checks should be made payable to the County of San Diego.**

A permit will be issued by DEH upon review and approval of the application and plans. The required fees must be submitted with the application package. Information in addition to that presented in the application package may be needed in order to obtain final approval. No work is to begin on the proposed project until a permit has been issued. The required inspections cannot be scheduled until a permit is issued. Once the permit has been issued, it is the responsibility of the permittee to notify DEH at least two (2) working days in advance to schedule each required inspection.
Construction stages at which inspections are required are indicated in each subpart of this application form (i.e., Part II, III, IV, & V).

F. PROJECT WORK TO BE COMPLETED: Check Applicable Box	COMPLETE APPLICATION PARTS	FEE CODE TABLE G
☐ Installation/Construction of new tank(s) systems only (without closing any existing tanks)	I & II	1
☐ Closure of existing tank(s) systems with installation of new tanks (tank replacement)	I, II & III	1 & 2
☒ Closure of existing tank(s) systems with no new tank installation	I & III	2
☐ Interior coating/repair of an existing underground storage tank	I & IV	1
☐ Repipe/pipe-repair piping upgrade of an existing underground storage tank facility	I & V	3
☐ Installation/Construction of vaulted tanks	VI	4

G. **FEES:** The fees shown below cover plan review and the required field inspections. Use the appropriate Fee Code as determined in Section F above.

FEE CODE		
	Installation fee for first tanks $985.00 **(fee will apply to all tank installations, tank repairs, interior lining and bladder installations)**	Fee: $
1	Installation fee for each additional tank No. _____ X $100.00	Fee: $
	Establishment Base Fee $190.00 (Applies to establishments not currently under permit with DEH)	Fee: $
	Operating Permit Fee per tank No. _____ X $285.00 (Does not apply to replacement tanks if the existing tank to be replaced has paid current operating permit fees)	Fee: $
2	Closure fee for first tank $565.00	Fee: $ 565.00
	Closure fee for each additional tank No. _____ X $95.00	Fee: $
3	**NOTE: Upgrades / Repair shall include but not limited to pipe repairs, repipes, and new monitoring system installations**	
	Upgrade /Repair – 2 inspections (including soil sampling) $835.00	Fee: $
	Upgrade /Repair – 1 inspection and no soil sampling $590.00	Fee: $
4	Consultation fee (e.g. vaulted tank: minimum 2 hours) _____ Hours X $100.00	Fee: $
5	Re-inspection fee $330.00	Fee: $
	Plan Re-Review $220.00	Fee: $
	TOTAL FEE: $	565.00

H. **PERMITS REQUIRED BY OTHER AGENCIES:**

FIRE DEPARTMENT X APCD _____ BUILDING DEPARTMENT _____ OTHER _____

Provide copies of approved applications from these departments and others if needed.

↳ City of La Mesa Fire Dept.

PERMIT APPLICATION
PART III
APPLICATION FOR PERMIT TO CLOSE UNDERGROUND STORAGE TANK SYSTEM

A. **TOTAL NUMBER OF TANK SYSTEMS TO BE CLOSED:** 1
NOTE: UST SYSTEMS INCLUDE TANK AND ALL ASSOCIATED PIPING.

B. **DESCRIPTION OF TANKS TO BE CLOSED:**

TANK NO.	CAPACITY	DATE INSTALLED	TANK COMPOSITION	TANK PRESENTLY IN USE?	MATERIALS STORED IN TANK
1	1000	unknown	Steel	No	Unknown

C. **HAS THE TANK SYSTEM EVER FAILED OR LEAKED?** YES ☐ NO ☐ UNKNOWN ☒

D. **REASON FOR TANKS TO BE CLOSED:**

☐ Meet current state/federal requirements

☐ Replacement of existing tanks

☐ Tank system failure, briefly describe

☒ No longer in use Other, briefly describe

DEH USE ONLY:
Project Manager:
Type:

E. **PREVIOUS OWNERS AND OPERATORS OF THE TANKS:**

Dates	Owner/Operator
unknown	

F. PROPOSED METHOD OF CLOSURE: [X] REMOVAL ☐ CLOSURE IN PLACE

SAMPLING PROTOCOL Tank owner/authorized representative responsible for all sampling analyses and associated costs.

_ For tank systems that are to be removed. The excavation shall be exposed prior to the scheduled inspection and sampling points identified by the Department of Environmental Health (DEH) inspector. Sampling is required for both tank and piping. **The tank and piping must remain in the excavation until the DEH Inspector approves the removal.**

_ Tank systems to be closed in place. Submit an alternate plan which must include soil sampling, reason for closing the tank system in place and type of material to be used to fill the tank. Soil sampling and/or hydrostatic testing is also required for piping closures. Tank system closure in place will only be considered after evaluating the risks and hazards if the tank system

G. DISPOSAL SITE OF TANK: Pacific Steel Recycling, National City

Note: You must inform DEH of the address of where the tank and piping is to be disposed. **Plans will be disapproved without this information.**

H. ATTACH THREE COPIES OF PLANS SHOWING THE FOLLOWING:

1. Property lines, site address, scale, north arrow.
2. Location of all existing structures.
3. Location of all existing underground storage tank facilities.
4. Location of underground storage tanks and piping to be closed.
5. Location of underground utility lines and vaults.

I. REQUIRED INSPECTION-PERMIT TO CLOSE

A representative from DEH must be on site at the time the tank(s) are closed.

1. [X] **TANK SYSTEM CLOSURE BY REMOVAL:**

The excavation shall be exposed prior to the scheduled inspection. The tank owner/authorized representative on site must submit a uniform hazardous waste manifest demonstrating that the tank has been properly decontaminated. A combustible gas instrument and soil sampling equipment must be on site. The DEH Inspector will identify sampling points. The tank and piping must remain in the excavation until DEH approves the removal.

2. **TANK SYSTEM CLOSURE IN PLACE:**

_ Soil sampling for tank(s) and piping.

_ After approval of the alternate plan, the tank owner/authorized representative on site shall submit a uniform hazardous waste manifest demonstrating that the tank has been properly decontaminated. The DEH Inspector shall verify that the tank system has been properly emptied and will witness the filling with an approved inert substance. Piping must be closed at the same time as the tank.

J. DECLARATION

I declare that to the best of my knowledge and belief, the statements and information provided are correct and true. I understand that information in addition to that provided above may be needed in order to obtain final approval by the Department of Environmental Health (DEH).

I understand that tests and procedures that may be required by other departments and agencies to demonstrate adequate site safety or suitability for further development (e.g. soil compaction testing) are in addition to the requirements of the Department of Environmental Health (DEH).

I will notify the Department of Environmental Health (DEH) at least two working days (48 hours) before work is to begin in order to schedule the required inspections. I understand that site and worker safety are solely the responsibility of the property owner or his agent and that this responsibility is not shared or assumed by the County of San Diego.

Re: Storage Tank

CITY OF LA MESA

La Mesa Fire Department
8034 Allison Avenue
May 1, 1986

Mr. Bob Sheppard
P.O. Box 602
Escondido, CA 92125

Subject: Underground Storage Tank Removal

Dear Mr. Sheppard:

This letter is to confirm our conversation of April 28, 1986 regarding the underground storage tank at 7191 Alvarado Road, La Mesa, CA 92041.

The existence of the underground storage tank at 7191 Alvarado Road is in violation of the 1982 Uniform Fire Code that requires tanks placed out of service for one year must be removed and the hole properly filled or abandoned in place and safe-guarded in a manner and filled with a material approved by the Chief. It is the policy of the La Mesa Fire Department to remove tanks.

Your cooperation and immediate attention to this matter will be appreciated.

Sincerely,

Mike Madrigal

PLAN CHECK # _____

WORKPLAN
FOR
UNDERGROUND STORAGE TANK CLOSURE

1. Site Name Bob ~~Bogus~~ Bowen's (4) Auto Service
2. Site Address 7191 Alvardo Road, San Diego, CA.

3. Describe the existing land use in the surrounding area (residential, commercial, schools). Describe the locations of nearest receptors and the prevailing wind.

   The UST is located in a dirt median next to Alvardo Road.

   The surrounding area is commercial with auto repair.

4. Explain how the excavation will be secured. Describe fencing/site security and other methods that ensure public safety.

   The excavation is secured by barrier tape and traffic barricades.

   THE SITE IS MONITORED BY SITE STAFF.

5. If soil is to be stockpiled, describe the location on the Plan Check map. Describe method of soil containment (berming/covers, run-off control).

   The top of the UST is already exposed, minimal dirt will be

   stockpiled. Any soil that is stockpiled will be set on plastic

   sheeting and covered at the end of the day. The soil will be bermed.

   to prevent runoff.

6. Do you plan to conduct site assessment or remedial work beyond what is necessary to remove the underground storage tank(s) and perform the mandory soil sampling required by the Site Assessment and Mitigation Program (SAM) of the Department of Environmental Health?

   ☒ Yes, if contamination is present. ☐ No

If Yes, a Workplan for Post-Tank Removal Investigation must be completed under the direction of a registered professional.

DEH Inspector

WORKPLAN FOR POST-TANK REMOVAL INVESTIGATION

Complete this Workplan only if you intend to utilize a backhoe to investigate the extent of hydrocarbon contamination within 72 hours of the removal of an underground storage tank (UST). This site investigation work must be implemented in accordance with the DEH-SAM Manual and under the direction of an appropriately Registered Geologist (RG), Certified Engineering Geologist (CEG) or Registered Civil Engineer (RCE). A complete site assessment report, signed by the above referenced registered professional, must be submitted to DEH within 60 days of the date of the field investigation. This workplan must be signed by the above referenced registered professional.

1. Establishment Name/Address

   Bob Bowen's Auto Service

   7191 Alvardo Road, La Mesa, CA 91941

2. Contractor, Contact & Phone No.

   Ace Excavating and Environmental Services 619.441.4900

   Environmental Consultant, Contact & Phone No.

   Ninyo & Moore, 858.576-1000

   Registered Professional (defined above) & Phone No.

   Peter Clark 858-576-1000, 1268

3. Describe how the backhoe will be utilized to conduct the site investigation (ie. potholing, trenching, etc.) and estimate the maximum quantity of soil to be excavated.

   A backhoe will be used to delineate soil contamination if present

   No more than 50 cubic yards of contaminated soil will be excavated.

4. Describe the soil sample collection methods and laboratory to be used (reference Section 5.III of the SAM Manual). Soil analysis must be performed by a California DTSC Certified Laboratory.

Soil samples will be collected off the teeth of the backhoe and transfered into laboratory supplied jars for delivery to a state certified laboratory for analysis. HP Laboratories will be utilized for the analysis., located in Solana Beach, CA.

5. Attach a site drawing (to scale) which includes at a minimum: site structures, subsurface utility lines and fuel lines, UST(s) location, site investigation area, stockpiled soil area, prevailing wind direction, adjacent street and property uses, surface water and wells.

Attached

6. Describe methods to monitor and control hydrocarbon vapor emissions at the excavation site.

Aphotoionization detector (PID) will be used to screen soil samples and hydrocabon vapor emissions. If contaminated soils are encountered they will be covered with plastic sheeting and secured with sand bags.

7. Describe the procedures for the management of excavated soil, i.e. soil, segregation, engineering controls for the stockpile soil (reference Section 7.VI of the SAM Manual), soil characterization, on-site soil management, off-site disposal, on-site treatment, etc. Describe the Best Management Practices (BMPs) to be used in the event of rainfall to control erosion from stockpiled soil.

Excavated soils will be placed on plastic sheeting and coveredwith plastic sheeting at the end of the work day activities. Contaminated soils, if detected, will be segregated and managed onsite pending offsite disposal.

8. A Public Notification Program must be implemented prior to commencing the site investigation. Attach a copy of the public notice and provide a written description of the program (reference Section 4.IV of the SAM Manual). Identify the targeted population and the method of public notice distribution.

The UST is empty and has been cleaned prior to removal. It is not anticipated that there has been a significate release ofpetroleum hydrocarbons from the UST. The UST was probably used for fuel oil storage, very small volatile fraction. However, the site will be barricaded with caution tape and signs will be posted notifiying the public of the contaminates of concern. Work will be completed within 72 hours.

Please Note:

- The investigation trench or excavation must be logged under the direction of a RG, CEG or RCE and include a complete description of the subsurface soil and/or rock.
- All contaminated soil should either be removed from the site or be treated on-site (with agency approval) within 45 days of site excavation.
- The site excavation must be secured with fencing, site security and other methods as required to ensure public safety. DEH recommends backfilling the excavation site for safety reasons within 72 hours of the post-tank removal investigation.

SUBJECT: DATA REPORT – BOB BOWENS AUTO SERVICE – 7191 ALVARADO ROAD – LA MESA, CA – NINYO & MOORE PROJECT #137324-4945

HP Labs Project # NM082003-10

Mr. McGoey:

Please find enclosed a data report for the above referenced location. Soil samples were analyzed in DOHS certified mobile laboratories (CERT #1839).

Project Summary

The following analyses were conducted:

- 2 soils for total petroleum hydrocarbons (TPH) by DHS LUFT/8015M Method
- 2 soils for total recoverable petroleum hydrocarbons (TRPH) by EPA 418.1 Method

The samples were received chilled in appropriate containers with appropriate labels, seals, and chain-of-custody documentation.

Project Narrative

The results for all analyses and required QA/QC analyses are summarized in the enclosed tables. All calibrations, blanks, surrogates, and spike recoveries fulfill quality control criteria. No data qualifiers (flags) apply to any of the reported data.

HP Labs appreciates the opportunity to provide analytical services to Ninyo & Moore on this project. If you have any questions relating to this data or report, please do not hesitate to contact us.

Sincerely,

Blayne Hartman

Tank ID No.	T001				REMARKS
Capacity	1200				Tank going to Pacific Steel
Tank Construction	SW Steel				
Materials stored	Fuel Oil (?)				
% L.E.L.	0%				
Dry ice/other (amt.)	20 lb				
Tank condition	Rusty w/ holes on top; riddled w/ holes on bottom of tank				
Backfill soil type	Light brown SAND (fine to coarse)				
Backfill condition	Clean @ top; Some rust staining @ bottom				
Native soil type	Green/Blue clay w/ cobbles/boulders				
Native condition	Good; Some minor rust staining				
Excavation odors?	No				
Stockpile odors?	No				
Water present?	No				
Ponded product?	No				
Piping removed?	None				

REINSPECTION REQUIRED YES NO If yes, explain

NOTICE: You are hereby notified that on 8/20/03, an Environmental Health Specialist conducted an inspection for the closure of 1 hazardous substance underground storage tank(s). A summary of the conditions follows:

☐ An **unauthorized release** of a hazardous substance has been observed by the Environmental Health Specialist. You are hereby required to initiate **Corrective Action** measures (See Page 4 for details).

☒ A determination of this site's status is pending the Site Assessment and Mitigation (SAM) Program's receipt and review of analytical results for the samples taken from the tank and/or piping closure site. A laboratory report must be submitted to SAM within 30 days. Please request that the laboratory send a copy of the analytical report directly to Kent Huth at the address provided below.

The SAM Program has completed its review of the analytical results for samples collected at the tank closure site and has determined the following:

☒ **TANK CLOSURE COMPLETE - NO FURTHER ACTION REQUIRED**

☐ **INITIATE CORRECTIVE ACTION MEASURES (See enclosed information)**

Reviewed by: Kent Huth **Date Reviewed:** 9/30/03 **Supervisor (initial):** MV

Type(s) of hazardous substance(s) released (mark all that apply):

☐ Gasoline ☐ Diesel ☐ Waste Oil ☒ Other _____

Is hazardous material ponded? ☐ Yes* ☒ No Estimated amount? _____

Estimated depth to groundwater below this site: _____ feet Beneficial use? ☒ Yes ☐ No

SOIL CONDITIONS (Odors, Staining, Volume):

Describe backfill and its condition: Light brown SAND (fine to coarse); some rust staining.

Describe native soil and its condition: Green / Blue Clay w/ cobbles + boulders

How was hazardous substance released? N/A

Tank condition (holes, corrosion, wrapping, seams, evidence or overfill) Rusty; many holes; extensive corrosion.

Estimated length of piping removed? N/A feet Date tanks last used? _____

Nearby water wells or surface waters? ☒ Yes* ☐ None noted

*Describe Alvarado Canyon Creek; just to south

Any known sensitive receptors, i.e., underground vaults, utilities or basements nearby? ☒ Yes* ☒ None noted

*Describe ~~Alvarado Canyon Creek - just to south~~

INITIAL RF - AVERAGE RESPONSE FACTOR FROM MULTIPOINT CALIBRATION CURVE
% RSD - LINEARITY OF MULTIPOINT CALIBRATION CURVE (+/- 20% ACCEPTABLE LIMITS)
AREA - AREA COUNTS FROM DAILY CALIBRATION STANDARD
RF - DETECTOR RESPONSE FACTOR FROM MID-POINT CALIBRATION STANDARD
% DIFF - DIFFERENCE, IN PERCENT, BETWEEN THE AVERAGE RF AND THE OPENING OR CLOSING RF
OPENING - MID-POINT CALIBRATION STANDARD ANALYZED BEFORE SAMPLE ANALYSES BEGIN
CLOSING - MID-POINT CALIBRATION STANDARD ANALYZED AFTER SAMPLES ANALYSES ARE COMPLETE

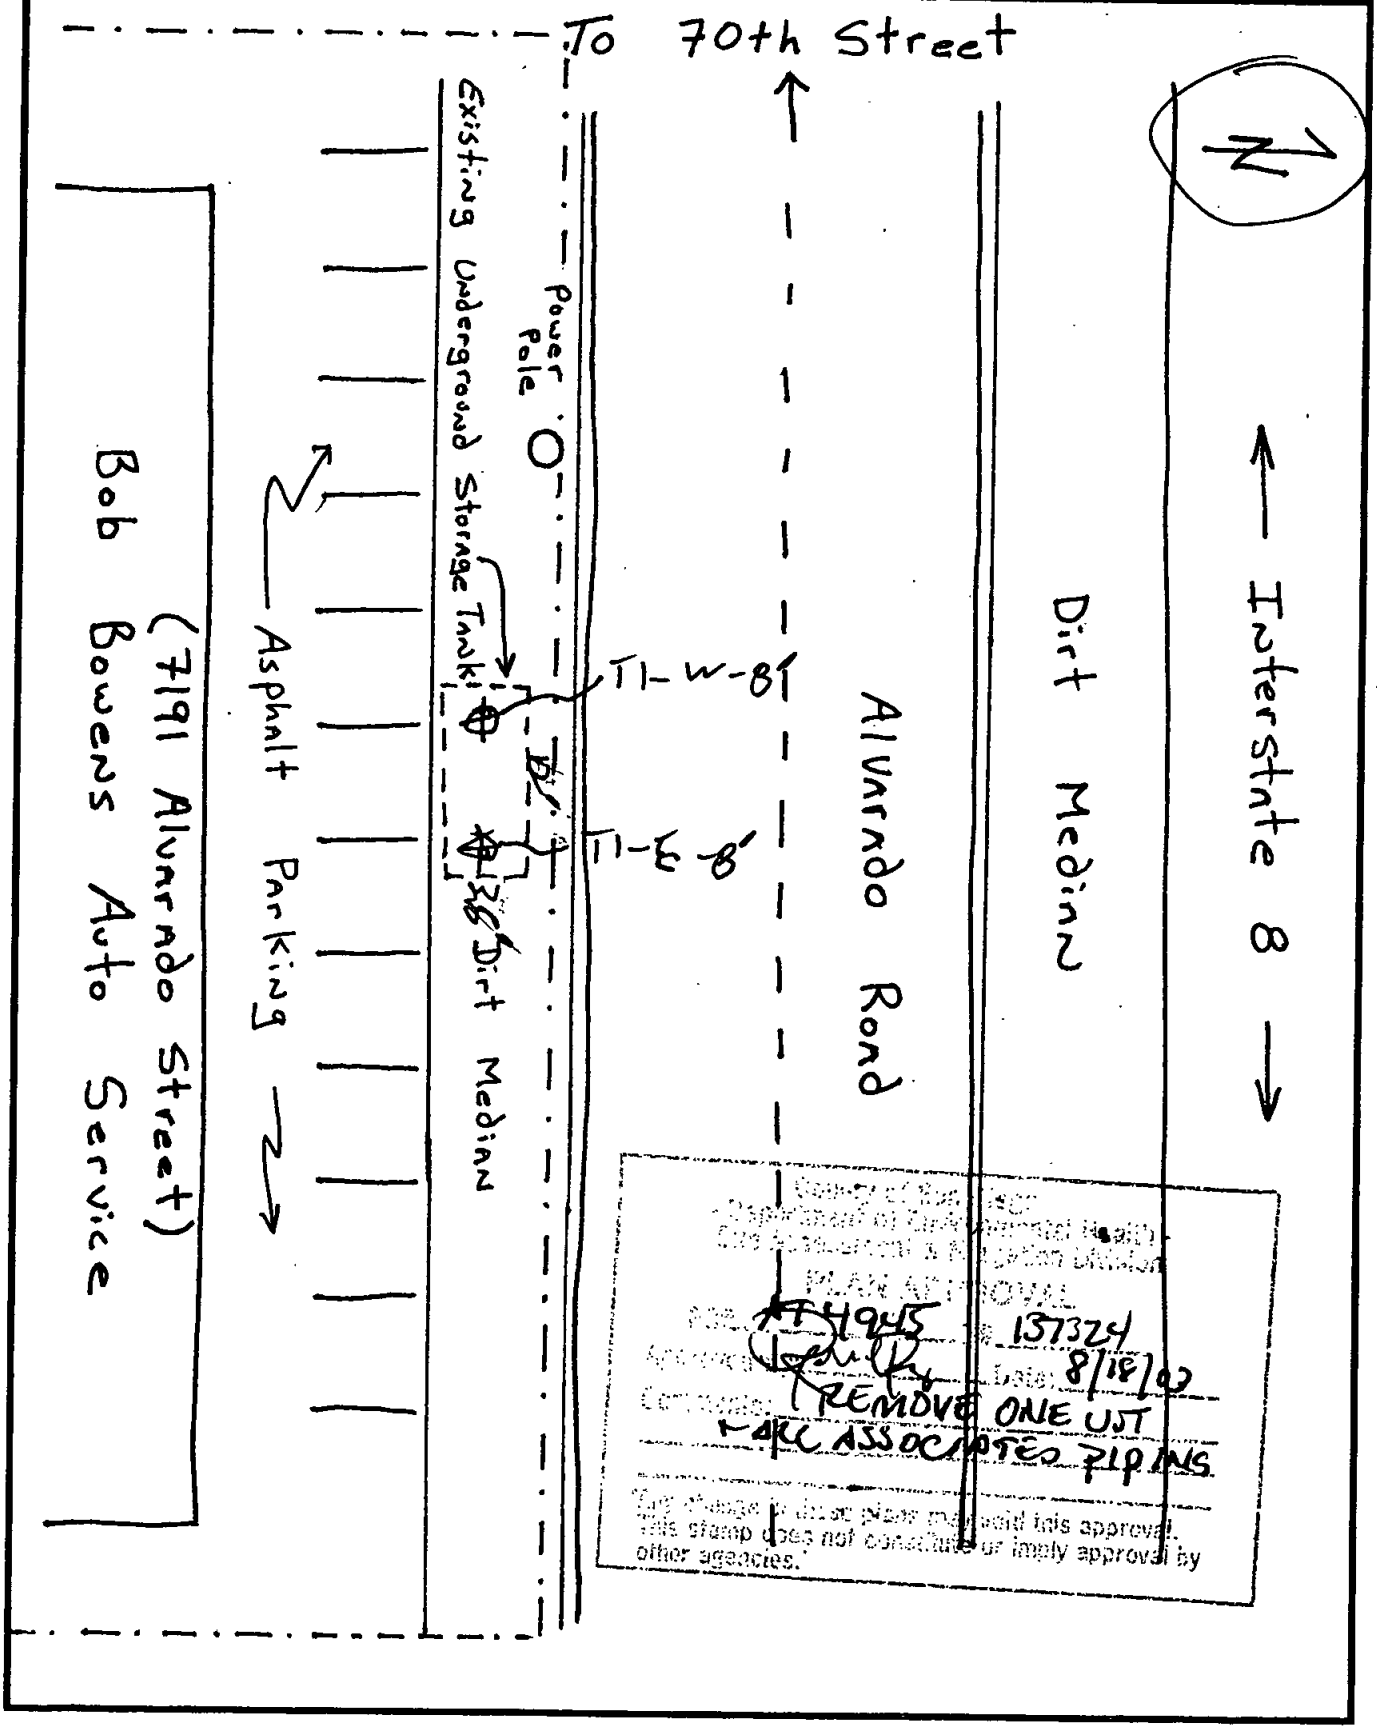
Scale Sheet of



UST Removal Field Notes (Page 2)

H 37324

All Drawings should include the following:

1. Disposal site for tank and piping
2. Approximate length, width, depth of excavation and overburden
3. Distance of the UST excavation and piping with reference to significant structures such as buildings, railroad tracks, waterways, wells etc.
4. Note rivers, lakes, streams, wells etc.

ACTIVITY CODE 428T23

Permit # AT4945
Establishment # 137324
Date: August 18, 2003
Expiration Date: August 18, 2004

Permit for Underground Storage Tank Construction/Closure

SITE NAME: **Bob Bowen Auto Service**
SITE ADDRESS: **7191 Alvarado Road, La Mesa, CA 91941**
OWNER NAME: **MTDB**
OWNER ADDRESS: **1255 Imperial Avenue, San Diego, CA 92101**

DESCRIPTION OF PROPOSED WORK: **Remove one underground storage tank and all associated piping**

In accordance with SDCC Ordinance Title 6, Chapter 10, Section 68.1004 (b), USTs must be removed within 180 days of permit approval. The deadline to remove USTs is February 18, 2004.

PERMIT CONDITIONS: For tank systems that are to be removed, the excavation shall be exposed prior to the scheduled inspection and sampling points identified by the DEH inspector. Sampling is required for both tank(s) and piping. The tank(s) and piping must remain in the excavation until the DEH inspector approves the removal.

1) All piping and underground storage tanks must be removed at the same time. Failure to do so will result in a re-inspection and $350.00 re-inspection fee.

2) A least one sample must be analyzed for MTBE and related oxygenates (DIPE, TAME, ETBE, TBA) using EPA Method 8260B

3) Certificate of Disposal/manifests required for tank

Please be advised:

All underground storage tanks that are to be removed **must be cleaned** and properly inerted prior to the removal

1) The tanks are visually free from all product, sludge, rinsate and debris. Residual staining caused by soil and waste consisting of light shadows, slight streaks, or minor discolorations, and soil and waste in cracks, crevices and pits may be present.

2) Tanks that held a Hazardous material or hazardous waste that had the potential to generate flammable vapors, must be properly inerted. A combustible gas indicator (CGI), which is properly calibrated, shall be used to measure the concentration of flammable vapor at the top, center and bottom of the underground storage tank. The concentration of flammable vapor must be below twenty percent of the Lower Explosive Limit (LEL) for the material that was contained in the tank(s) and the oxygen concentration shall be the same as that of ambient air, approximately 20.8%. The underground storage tank(s) must inerted with dry ice using a minimum of 15 pounds for every 1000 gallons of tank capacity.

3) Failure to have the tank properly cleaned prior to the time of the removal will result in the cancellation of the removal and will require a re-inspection and $350.00 re-inspection fee.

This office must be given at least 48 hours notice for all required Underground Storage Tank Activity.

Please call at (619) 338-2214 to schedule an appointment. For cancellations, please call (619) 237- 8451.

E. APPLICATION SUBMITTAL, PLAN APPROVAL, PERMIT ISSUANCE, AND REQUIRED INSPECTIONS

Submit one (1) original and two (2) copies of this application package, including plan drawings with the required fee to the Department of Environmental Health (DEH), Hazardous Materials Division, 1255 Imperial Avenue, San Diego, CA 92101; or mail to P.O. Box129261, San Diego, CA 92112-9261. **Checks should be made payable to the County of San Diego.**

A permit will be issued by DEH upon review and approval of the application and plans. The required fees must be submitted with the application package. Information in addition to that presented in the application package may be needed in order to obtain final approval. No work is to begin on the proposed project until a permit has been issued. The required inspections cannot be scheduled until a permit is issued. Once the permit has been issued, it is the responsibility of the permittee to notify DEH at least two (2) working days in advance to schedule each required inspection.

Construction stages at which inspections are required are indicated in each subpart of this application form (i.e., Part II, III, IV, & V).

F. **PROJECT WORK TO BE COMPLETED:** Check Applicable Box	COMPLETE APPLICATION PARTS	FEE CODE TABLE G
☐ Installation/Construction of new tank(s) systems only (without closing any existing tanks)	I & II	1
☐ Closure of existing tank(s) systems with installation of new tanks (tank replacement)	I, II & III	1 & 2
☒ Closure of existing tank(s) systems with no new tank installation	I & III	2
☐ Interior coating/repair of an existing underground storage tank	I & IV	1
☐ Repipe/pipe-repair piping upgrade of an existing underground storage tank facility	I & V	3
☐ Installation/Construction of vaulted tanks	VI	4

G. **FEES:** The fees shown below cover plan review and the required field inspections. Use the appropriate Fee Code as determined in Section F above.

FEE CODE		
	Installation fee for first tanks $985.00 **(fee will apply to all tank installations, tank repairs, interior lining and bladder installations)**	Fee: $
1	Installation fee for each additional tank No. _____ X $100.00	Fee: $
	Establishment Base Fee $190.00 (Applies to establishments not currently under permit with DEH)	Fee: $
	Operating Permit Fee per tank No. _____ X $285.00 (Does not apply to replacement tanks if the existing tank to be replaced has paid current operating permit fees)	Fee: $
2	Closure fee for first tank $565.00	Fee: $ 565.00
	Closure fee for each additional tank No. _____ X $95.00	Fee: $
3	**NOTE: Upgrades / Repair shall include but not limited to pipe repairs, repipes, and new monitoring system installations**	
	Upgrade /Repair – 2 inspections (including soil sampling) $835.00	Fee: $
	Upgrade /Repair – 1 inspection and no soil sampling $590.00	Fee: $
4	Consultation fee (e.g. vaulted tank: minimum 2 hours) _____ Hours X $100.00	Fee: $
5	Re-inspection fee $330.00	Fee: $
	Plan Re-Review $220.00	Fee: $
	TOTAL FEE: $	565.00

H. **PERMITS REQUIRED BY OTHER AGENCIES:**

FIRE DEPARTMENT X APCD _____ BUILDING DEPARTMENT _____ OTHER _____

Provide copies of approved applications from these departments and others if needed.

↳ City of La Mesa Fire Dept.

PERMIT APPLICATION
PART III
APPLICATION FOR PERMIT TO CLOSE UNDERGROUND STORAGE TANK SYSTEM

A. TOTAL NUMBER OF TANK SYSTEMS TO BE CLOSED: 1
NOTE: UST SYSTEMS INCLUDE TANK AND ALL ASSOCIATED PIPING.

B. DESCRIPTION OF TANKS TO BE CLOSED:

TANK NO.	CAPACITY	DATE INSTALLED	TANK COMPOSITION	TANK PRESENTLY IN USE?	MATERIALS STORED IN TANK
1	1000	unknown	Steel	No	Unknown

C. HAS THE TANK SYSTEM EVER FAILED OR LEAKED? YES ☐ NO ☐ UNKNOWN ☒

D. REASON FOR TANKS TO BE CLOSED:

DEH USE ONLY:
Project Manager:
Type:

☐ Meet current state/federal requirements

☐ Replacement of existing tanks

☐ Tank system failure, briefly describe

☒ No longer in use Other, briefly describe

E. PREVIOUS OWNERS AND OPERATORS OF THE TANKS:

Dates	Owner/Operator
unKnown	

F. **PROPOSED METHOD OF CLOSURE:** [X] **REMOVAL** ☐ **CLOSURE IN PLACE**

SAMPLING PROTOCOL Tank owner/authorized representative responsible for all sampling analyses and associated costs.

- _ For tank systems that are to be removed. The excavation shall be exposed prior to the scheduled inspection and sampling points identified by the Department of Environmental Health (DEH) inspector. Sampling is required for both tank and piping. **The tank and piping must remain in the excavation until the DEH Inspector approves the removal.**
- _ Tank systems to be closed in place. Submit an alternate plan which must include soil sampling, reason for closing the tank system in place and type of material to be used to fill the tank. Soil sampling and/or hydrostatic testing is also required for piping closures. Tank system closure in place will only be considered after evaluating the risks and hazards if the tank system

G. **DISPOSAL SITE OF TANK:** Pacific Steel Recycling, National City

Note: You must inform DEH of the address of where the tank and piping is to be disposed. **Plans will be disapproved without this information.**

H. **ATTACH THREE COPIES OF PLANS SHOWING THE FOLLOWING:**

1. Property lines, site address, scale, north arrow.
2. Location of all existing structures.
3. Location of all existing underground storage tank facilities.
4. Location of underground storage tanks and piping to be closed.
5. Location of underground utility lines and vaults.

I. **REQUIRED INSPECTION-PERMIT TO CLOSE**

A representative from DEH must be on site at the time the tank(s) are closed.

1. [X] **TANK SYSTEM CLOSURE BY REMOVAL:**
The excavation shall be exposed prior to the scheduled inspection. The tank owner/authorized representative on site must submit a uniform hazardous waste manifest demonstrating that the tank has been properly decontaminated. A combustible gas instrument and soil sampling equipment must be on site. The DEH Inspector will identify sampling points. The tank and piping must remain in the excavation until DEH approves the removal.

2. **TANK SYSTEM CLOSURE IN PLACE:**
   - _ Soil sampling for tank(s) and piping.
   - _ After approval of the alternate plan, the tank owner/authorized representative on site shall submit a uniform hazardous waste manifest demonstrating that the tank has been properly decontaminated. The DEH Inspector shall verify that the tank system has been properly emptied and will witness the filling with an approved inert substance. Piping must be closed at the same time as the tank.

J. **DECLARATION**

I declare that to the best of my knowledge and belief, the statements and information provided are correct and true. I understand that information in addition to that provided above may be needed in order to obtain final approval by the Department of Environmental Health (DEH).

I understand that tests and procedures that may be required by other departments and agencies to demonstrate adequate site safety or suitability for further development (e.g. soil compaction testing) are in addition to the requirements of the Department of Environmental Health (DEH).

I will notify the Department of Environmental Health (DEH) at least two working days (48 hours) before work is to begin in order to schedule the required inspections. I understand that site and worker safety are solely the responsibility of the property owner or his agent and that this responsibility is not shared or assumed by the County of San Diego.

re: Storage tank

Copy to Kelly 5/19/86

CITY OF LA MESA

La Mesa Fire Department
8034 Allison Avenue
May 1, 1986

Mr. Bob Sheppard
P.O. Box 602
Escondido, CA 92125

Subject: Underground Storage Tank Removal

Dear Mr. Sheppard:

This letter is to confirm our conversation of April 28, 1986 regarding the underground storage tank at 7191 Alvarado Road, La Mesa, CA 92041.

The existence of the underground storage tank at 7191 Alvarado Road is in violation of the 1982 Uniform Fire Code that requires tanks placed out of service for one year must be removed and the hole properly filled or abandoned in place and safe-guarded in a manner and filled with a material approved by the Chief. It is the policy of the La Mesa Fire Department to remove tanks.

Your cooperation and immediate attention to this matter will be appreciated.

Sincerely,

Mike Madrigal

PLAN CHECK #_____

WORKPLAN
FOR
UNDERGROUND STORAGE TANK CLOSURE

1. Site Name: Bob ~~Bowers~~ Bowen's Auto Service @
2. Site Address: 7191 Alvardo Road, San Diego, CA.

3. Describe the existing land use in the surrounding area (residential, commercial, schools). Describe the locations of nearest receptors and the prevailing wind.

   The UST is located in a dirt median next to Alvardo Road.

   The surrounding area is commercial with auto repair.

4. Explain how the excavation will be secured. Describe fencing/site security and other methods that ensure public safety.

   The excavation is secured by barrier tape and traffic barricades.

   THE SITE IS MONITORED BY SITE STAFF. How?

5. If soil is to be stockpiled, describe the location on the Plan Check map. Describe method of soil containment (berming/covers, run-off control).

   The top of the UST is already exposed, minimal dirt will be stockpiled. Any soil that is stockpiled will be set on plastic sheeting and covered at the end of the day. The soil will be bermed to prevent runoff.

6. Do you plan to conduct site assessment or remedial work beyond what is necessary to remove the underground storage tank(s) and perform the mandory soil sampling required by the Site Assessment and Mitigation Program (SAM) of the Department of Environmental Health?

   [XXX] Yes, if contaminationiis present. [ ] No

If Yes, a Workplan for Post-Tank Removal Investigation must be completed under the direction of a registered professional.

DEH Inspector

WORKPLAN FOR POST-TANK REMOVAL INVESTIGATION

Complete this Workplan only if you intend to utilize a backhoe to investigate the extent of hydrocarbon contamination within 72 hours of the removal of an underground storage tank (UST). This site investigation work must be implemented in accordance with the DEH-SAM Manual and under the direction of an appropriately Registered Geologist (RG), Certified Engineering Geologist (CEG) or Registered Civil Engineer (RCE). A complete site assessment report, signed by the above referenced registered professional, must be submitted to DEH within 60 days of the date of the field investigation. This workplan must be signed by the above referenced registered professional.

1. Establishment Name/Address

   Bob Bowen's Auto Service

   7191 Alvardo Road, La Mesa, CA 91941

2. Contractor, Contact & Phone No.

   Ace Excavating and Environmental Services 619.441.4900

   Environmental Consultant, Contact & Phone No.

   Ninyo & Moore, 858.576-1000

   Registered Professional (defined above) & Phone No.

   Peter Clark 858-576-1000, 1268

3. Describe how the backhoe will be utilized to conduct the site investigation (ie. potholing, trenching, etc.) and estimate the maximum quantity of soil to be excavated.

   A backhoe will be used to delineate soil contamination if present

   No more than 50 cubic yards of contaminated soil will be excavated.

4. Describe the soil sample collection methods and laboratory to be used (reference Section 5.III of the SAM Manual). Soil analysis must be performed by a California DTSC Certified Laboratory.

Soil samples will be collected off the teeth of the backhoe and transfered into laboratory supplied jars for delivery to a state certified laboratory for analysis. HP Laboratories will be utilized for the analysis., located in Solana Beach, CA.

What analysis? TPH BTEX MTBE ANALYSES WILL INCLUDED TPH-EXTENDED, VOCs, BTEX, MTBE AND TITLE 22 METALS.

5. Attach a site drawing (to scale) which includes at a minimum: site structures, subsurface utility lines and fuel lines, UST(s) location, site investigation area, stockpiled soil area, prevailing wind direction, adjacent street and property uses, surface water and wells.

Attached

6. Describe methods to monitor and control hydrocarbon vapor emissions at the excavation site.

Aphotoionization detector (PID) will be used to screen soil samples and hydrocabon vapor emissions. If contaminated soils are encountered they will be covered with plastic sheeting and secured with sand bags.

7. Describe the procedures for the management of excavated soil, i.e. soil, segregation, engineering controls for the stockpile soil (reference Section 7.VI of the SAM Manual), soil characterization, on-site soil management, off-site disposal, on-site treatment, etc. Describe the Best Management Practices (BMPs) to be used in the event of rainfall to control erosion from stockpiled soil.

Excavated soils will be placed on plastic sheeting and coveredwith plastic sheeting at the end of the work day activities. Contaminated soils, if detected, will be segregated and managed onsite pending offsite disposal. within 30 days.

are stockpiles - 'clean' or contaminated must be properly managed.

8. A Public Notification Program must be implemented prior to commencing the site investigation. Attach a copy of the public notice and provide a written description of the program (reference Section 4.IV of the SAM Manual). Identify the targeted population and the method of public notice distribution.

The UST is empty and has been cleaned prior to removal, It is not anticipated that there has been a significate release ofpetroleum hydrocarbons from the UST. The UST was probably used for fuel oil storage, very small volatile fraction. However, the site will be barricaded with caution tape and signs will be posted notifiying the public of the contaminates of concern. Work will be completed within 72 hours.

Please Note:

- The investigation trench or excavation must be logged under the direction of a RG, CEG or RCE and include a complete description of the subsurface soil and/or rock.
- All contaminated soil should either be removed from the site or be treated on-site (with agency approval) within 45 days of site excavation.
- The site excavation must be secured with fencing, site security and other methods as required to ensure public safety. DEH recommends backfilling the excavation site for safety reasons within 72 hours of the post-tank removal investigation.

Hi Robert,
Hope all is well. Attached is a UST removal permit (with Fees) and Post UST Removal Workplan. The UST is in the rights-of-way for the new Mission Valley trolley project. The project is being run by the MTDB. If the permit can be expedited it would be excellent. I'm not sure about the workplan though, at least we got it in the paper chase. Thank you very much for your time in this matter. Questions?, please call me at 858-576-1000, ext. 1267 or my cell phone 858-245-4798.

Respectfully Submitted,

Sean McGoey

To Whom It May Concern:

Re: Haz Mat Protocol for Full Circle Acupuncture Clinic, Needle Disposal

As per section 40191 of Public Health ordinance, item 'C', Steam Sterilization.

Pre-disposal sterilization of acupuncture needles shall be:

1) for a minimum of 30 minutes at 250 degrees Fahrenheit or greater.

2) each sharps container shall be sealed with heat sensitive autoclave tape.

3) each sharps container shall be labeled with our address and name.

4) each sharps container shall be recorded by date of sterilization and disposal as well as person responsible for sterilization prior to disposal.

5) once per month (as needed for disposal of sharps) the biological bacillus stearothermophilus (or other adequate indicator) shall be placed at the center of a load to confirm adequate sterilization.

6) once per year autoclave shall be inspected and calibrated.

7) records shall be retained for a minimum of 3 years.

8) procedures shall be monitored, performed and recorded by Norma J. Rawlins,L.Ac.

Thank you and if you have any questions, please call me at the above number.

Sincerely,

Norma J. Rawlins, L.Ac.

5. If you answered yes to any of the above questions (1, 2, 3, or 4), your business or service does generate medical waste and a permit from the San Diego County Department of Environmental Health is required. Continue with Section B of the questionnaire.

SECTION B - CURRENT PERMIT INFORMATION

1. Is your business or facility currently permitted by this Department for hazardous or medical waste handling?

   Yes ☐ No ☒

   If yes, what is the permit number (ex: H00001) and the name of the permitted establishment?

   _____

2. Are you responsible for the management of hazardous or medical waste generated at this facility?

   Yes ☒ No ☐

   If no, please provide information listing the party responsible for medical waste management at your facility:

   Name NORMA J. RAWLINS

   Address 7200 PARKWAY DR #101, LA MESA, CA
   (City) (Zip)

   Phone # 619-469-2027

Please complete the attached medical Waste Summary.

NOTE: **If you do not generate medical waste, you are still required to return this form.**

A representative of the San Diego County Department of Environmental Health may contact you to verify the information provided on this questionnaire.

Please complete the following questionnaire:

SECTION A - MEDICAL WASTE GENERATION

1. Does your business or service generate, store, or handle any of the by-products or wastes listed in the box below?

   Yes ☒ No ☐

   Circle the letters of the categories found at your business.

A.	Laboratory Wastes - specimen or microbiologic cultures, stocks of infectious agents, live and attenuated vaccines, culture dishes, and devices used to transfer, inoculate, and mix cultures.
B.	Blood or Body Fluids - liquid blood elements or regulated body fluids (cerebrospinal, synovial, pleural, peritoneal, pericardial, and amniotic fluids), or articles contaminated with blood or body fluids.
(C)	Sharps - syringes, blades, slides or needles.
D.	Contaminated Animals - animal carcasses, body parts, or bedding materials suspected of being contaminated with a disease communicable to humans.
E.	Surgical Specimens - human or animal parts or tissues removed surgically or by autopsy.
F.	Miscellaneous - any waste generated from the diagnosis, treatment, or immunization of humans or animals, or research pertaining there to.

2. Do you dispose of any items in #1 by discharging them into the sewer system, including down sinks, floor drains, toilets, etc.?

   Yes ☐ No ☒

   If yes, which category(ies) of by-products or wastes? _____

3. Do you decontaminate any of the items listed in #1 by steam sterilization (autoclaving) before disposal to trash can or dumpster?

   Yes ☒ No ☐

   If yes, which category(ies) of by-products or wastes? ACUPUNCTURE NEEDLES

4. Do you dispose of any of the items listed in #1 through a registered medical waste hauler?

   Yes ☐ No ☒

   If yes, which category(ies) of by-products or wastes? _____

MEDICAL WASTE SUMMARY

Complete the following information regarding the handling of hazardous wastes at your business or service based upon your answers to SECTION A. Check one statement.

☒ This business or facility does generate medical waste that requires a permit from the San Diego County Department of Environmental Health.

☐ I have determined that this business or service does not generate medical waste requiring permits from the San Diego County Department of Environmental Health?

I declare under penalty of perjury that to the best of my knowledge and belief the statements made herein are correct and true. I consent to all necessary inspections allowed by law and incidental to the issuance of required permit(s) and the operation of this business.

Office Use Only

Routine Inspection

JAN 10 2001

Violations & Corrective Actions:

1) Sharps containers are labeled with business name, address and Telephone# only after containers are autoclaved.
Corrective Action: Label sharps containers with generator information prior to placing containers in use.

2) Recording Thermometer for autoclave has not been calibrated within past year as required.
Corrective Action: Within 30 days calibrate the recording thermometer. Recalibrate the thermometer at least once a year thereafter.

Remarks:

- Be advised that medical solid waste, such as autoclaved sharps containers, must be stored in an area that is secured as to deny access to unauthorized persons. (ie. locked Trash bin).
- Autoclave standard operating procedure, monthly spore Test results, and autoclave log reviewed during inspection.
- Autoclave Tape is used on sharps containers that are autoclaved.
- Health Permit and Medical Waste Management Plan on site.

MEDICAL WASTE GENERATOR REQUIREMENTS

BUSINESS ADDRESS: 7200 Parkway Drive, La Mesa ZIP: 91942

VIOLATION REPORT: *The items checked below refer to specific section numbers of the California Health and Safety Code Sections 25100 and 117600 et. al.; the San Diego County Code of Regulatory Ordinances Sections 68.1201 et. al.; and the California Code of Regulations, Title 22 Sections 65600 et. al. and 66262.10 et. al.* **All violations must be corrected. Please call (619) 338-2222 or your Inspector if you have any questions.**

GENERAL REQUIREMENTS:

- [ ] An Environmental Health Permit as a medical waste generator has not been obtained. 68.1203, 68.1204, and 117705 ..... V4101 W___
- [ ] Unlawful disposal of untreated medical waste to an unauthorized point. 118340 ..... V4102 W___
- [ ] Improper treatment of medical waste using an unapproved method or procedure. 118215 ..... V4103 W___
- [ ] Medical SOLID WASTE is not stored in a locked trash receptacle or enclosure so as to deny access to unauthorized persons. 68.1202 ..... V4104 W___
- [ ] Improper clipping or cutting of sharps waste at the point of generation. 68.1205 ..... V4105 W___
- [ ] Medical waste was not separated from other waste at the point of origin. 118275 ..... V4106 W___
- [ ] Generator has not maintained reusable containers/bins for medical waste storage in a clean and sanitary manner. 118295 and 118305 ..... V4107 W___
- [ ] Storage time exceeded for frozen medical waste, e.g. greater than 90 days. 118280 ..... V4108 W___
- [ ] Generator did not clean-up a leak or spill of medical waste in an approved manner. 118300 ..... V4109 W___
- [ ] Generator has not secured the enclosure or designated accumulation area for medical waste containers so as to deny access to unauthorized persons. 118310 ..... V4110 W___
- [ ] Operator did not post an approved and legible biohazardous waste "warning sign" in English and Spanish at the waste storage area(s). 118310 ..... V4111 W___
- [ ] Generator did not store medical waste in approved and properly marked red bags (non-sharps). 118275 ..... V4112 W___
- 1 [P] Did not place a label with the generator's name, address, and phone number on the outside of the red bag and/or sharps container. 68.1201 and 68.1205 ..... V4113 W ✓
- [ ] Generator did not store sharps waste in approved and properly marked sharps container. 118275 ..... V4114 W___
- [ ] Transportation of medical waste without State Hauler Registration or without a limited-quantity hauling exemption from County HMMD. 118025 ..... V4115 W___
- [ ] Generator did not have standardized written operating procedures for a steam sterilizer available onsite. 118215 ..... V4116 W___
- 2 [P] Did not have recording thermometer checked for calibration annually. 118215 ..... V4117 W ✓
- [ ] Generator did not maintain records of thermometer calibration checks for at least 3 years. 118215 ..... V4118 W___
- [ ] Operator did not use heat-sensitive tape or other approved method for each load of medical waste treated onsite. 118215 . V4119 W___
- [ ] Need to use a biological indicator or other approved method at least once a month to confirm proper disinfection conditions. 118215 ..... V4120 W___
- [ ] Must tie-off red bags to prevent leakage or expulsion of contents during handling and storage. 118280 ..... V4121 W___
- [ ] Did not containerize and place red bags in rigid, leak resistant, and covered containers or bins. 118280 ..... V4122 W___
- [ ] Must have waste container/bin labeled on the lid and side so as to be clearly visible. 118280 ..... V4123 W___
- [ ] Did not tape closed or tightly-lid a full sharps container ready for disposal, to preclude loss of contents. 118285 ..... V4124 W___

SMALL QUANTITY GENERATOR REQUIREMENTS:
(<200 pounds per month of waste)

- [ ] Medical Waste Management Plan has not been submitted to County HMMD (Annual Requirement) 68.1206 and 117935 .. V4025 W___
- [ ] Must maintain and show proof of "onsite" medical waste treatment records for 3 years. 118215 and 117943 ..... V4026 W___
- [ ] Generator did not retain on file disposal receipts and/or tracking documents for waste shipped offsite for at least 2 years. 117945 ..... V4027 W___
- [ ] Need to apply for and receive a limited-quantity hauling exemption for "self-hauled" medical waste (<20 pounds of waste per week). 118030 and 118025 ..... V4028 W___
- [ ] Did not renew a limited-quantity hauling exemption annually. 118030 ..... V4029 W___
- [ ] Storage time exceeded for full sharps container(s), e.g. greater than 7 days at room temperatures (for >20 pounds/month generator). 118285 ..... V4030 W___
- [ ] Storage time exceeded for red bag waste, e.g..more than 7 days at room temperature (>20 pounds/month generator). 118280 . V4031 W___
- [ ] Very small quantity generator (e.g.. <20 pounds per month) improperly storing waste for greater than 30 days onsite at room temperature. 118280 ..... V4032 W___
- [ ] Maximum holding time exceeded for non-putrescible medical waste, e.g. greater than 180 days. 68.1203 ..... V4033 W___

LARGE QUANTITY WASTE GENERATORS:
(≥ 200 pounds of waste in a month)

- [ ] Medical Waste Management Plan has not been submitted to County HMMD (Annual Requirement) . 117960 and 68.1206 . V4034 W___
- [ ] Must maintain and show proof of "onsite" medical waste treatment records for 3 years. 118215 and 117975 ..... V4035 W___
- [ ] Generator did not retain on file disposal receipts and/or tracking documents for waste shipped offsite for at least 3 years. 117975 ..... V4036 W___
- [ ] Storage time exceeded for full sharps container(s), e.g. greater than 7 days at room temperature. 118285 ..... V4037 W___
- [ ] Storage time exceeded for red bag waste, e.g. more than 7 days at room temperature. 118280 ..... V4038 W___

PATHOLOGY WASTE AND CHEMOTHERAPY WASTE HANDLING:

- [ ] Did not segregate chemotherapy waste from other medical waste. 118275 ..... V4039 W___
- [ ] Generator did not label container holding chemotherapy waste with the words "chemotherapy waste" or other approved markings on the lid and sides. 118275 ..... V4040 W___
- [ ] Did not segregate pathology waste from other medical waste. 118275 ..... V4041 W___
- [ ] Generator did not label container holding pathology waste with the words "pathology waste" or other approved markings on the lid and side. 118275 ..... V4042 W___
- [ ] Unlawful disposal of pathology waste or chemotherapy waste to an unauthorized point. 118340 ..... V4043 W___

PHARMACEUTICAL WASTE HANDLING:

- [ ] Generator did not segregate pharmaceutical waste from other medical waste. 118275g ..... V4044 W___
- [ ] Generator did not label container holding pharmaceutical waste with the words "incineration only" or other approved markings on the lid and side. 118275g ..... V4045 W___
- [ ] Storage time exceeded for pharmaceutical waste, e.g. more than 90 days. (≥ 10 pounds per calendar year generated) 118280e . V4046 W___
- [ ] Very small quantity generator of pharmaceutical waste (e.g. <10 pounds waste /calendar year) improperly storing waste for longer than one year. 118280e ..... V4047 W___
- [ ] Unlawful disposal of pharmaceutical waste to an unauthorized point. 118340 and 118222 ..... V4048 W___

ON-SITE MEDICAL WASTE TREATMENT FACILITY REQUIREMENTS:

- [ ] Operator has not obtained an onsite medical waste treatment permit from the County. 117950, 118130, 118155, and CCR 65620 ..... V4049 W___
- [ ] Must maintain an updated and complete copy of the medical waste treatment permit onsite and available for review. CCR 65621(f), 65623, 118165, and 118180 ..... V4050 W___
- [ ] Did not comply with a condition of the medical waste treatment permit issued by the County. CCR 65623 ..... V4051 W___

PHOTOCHEMICAL and HAZARDOUS WASTE MGMT. AND DISPOSAL:

- [ ] Illegal disposal of photoprocessing/ hazardous waste to the sewer, trash, etc. 25189.5 ..... V4052 W___
- [ ] Generator has not maintained waste disposal records. e.g. manifests/milk-run receipts..onsite for 3 years. 66262.40 .... V4053 W___
- [ ] Generator has not obtained an EPA Identification Number from the State DTSC for hazardous waste generation. e.g. photoprocessing/hazardous waste. 66262.12 ..... V4054 W___
- [ ] Generator did not properly label the container holding hazardous waste. 66262.34 ..... V4055 W___
- [ ] Generator did not maintain the container holding hazardous waste tightly closed except when adding or removing waste. 66265.173 ..... V4056 W___
- [ ] Generator did not submit a notification to the County prior to treating photochemical waste onsite (e.g. >10 gallons/month: tiered permitting). 25201.5 ..... V4057 W___

On the above date, an inspection of your business/facility was conducted in order to determine compliance with the California Health and Safety Code (HSC) Chapters 6.5, 6.7, 6.95; Titles 19, 22 and 23 of the California Code of Regulations (CCR); and the San Diego County Code (SDCC). The following remarks are intended to provide guidance to correct the violations noted on the attached violation report.

Y	N/A		Y	N/A	
☐	☑	Unified Program Facility Permit current and available			Permit Expires on: 12/31/03.
☐	☑	Hazardous Materials Business Plan available	☐	☑	Contingency Plan available
☐	☐	Employee Training is adequate	☑	☐	Employee Training records available
☐	☑	Waste disposal records available for review	☑	☐	Waste containers kept closed
☑	☐	Emergency contacts current ☐ Updated today	☑	☐	Waste containers kept labeled
☐	☑	Chemical inventory current ☐ Updated today	☑	☐	Waste containers in good condition

OBSERVATIONS JAN 24 2003

- REVIEWED AUTOCLAVE LOG RECORD.
- MEDICAL WASTE MANAGEMENT PLAN OBSERVED ONSITE IS DATED 1998.

UPDATE AND MAINTAIN ONSITE MWMP. NOTE! REQUIRED ANNUALLY.

☐ This is an annual certification that the Hazardous Materials Business Plan (inventory, emergency contacts, emergency response plan, and employee training plan) is current and includes all the information required in the H&SC and is maintained at the site where hazardous materials are stored.

BUSINESS ADDRESS: 7200 PARKWAY DR #101 LM ZIP: 91942

VIOLATION REPORT: *The items checked below refer to specific section numbers of the California Health and Safety Code Sections 25100 and 117600 et. al.; the San Diego County Code of Regulatory Ordinances Sections 68.1201 et. al.; and the California Code of Regulations, Title 22 Sections 65600 et. al.*

All violations must be corrected. Submit documentation of return to compliance to your Specialist. You may use the Corrective Action Form to document your return to compliance. Your Specialist can provide these forms. Please call (619) 338-2222 or your Specialist if you have any questions.

STORAGE AND LABELING

Viol #		VIOL	VIOLATION DESCRIPTION
	☐	V4201	UPF Permit not obtained. 117705, 68.905
	☐	V4202	Medical Waste (MW) not separated from other waste at point of origin. 118275
	☐	V4203	Enclosure or designated accumulation area for MW containers not secured. 118310
	☐	V4204	MW storage area not posted with an approved and legible biohazardous waste "warning sign" in English and Spanish. 118310
	☐	V4205	Medical SOLID WASTE not secured to deny access to unauthorized persons. 68.1211
	☐	V4206	Spill of MW not properly cleaned up. 118300
	☐	V4207	Sharps not stored in approved and properly marked sharps container. 118275
	☐	V4208	Full sharps container not taped closed or tightly-lidded to preclude loss of contents. 118285
	☐	V4209	Red bags/sharps container not labeled with generator's name, address, and phone number. 68.1205, 68.1206
	☐	V4210	MW not stored in approved and properly marked red bags. 118275
	☐	V4211	Red bags not tied off to prevent leakage/expulsion of contents during handling and storage. 118280
	☐	V4212	Red bags not containerized in rigid, leak resistant, and covered containers or bins. 118280
	☐	V4213	Waste container/bin not labeled on the lid and side so as to be clearly visible. 118280
	☐	V4214	Reusable containers/bins for MW storage not kept clean/sanitary. 118295, 118305
	☐	V4215	Frozen MW stored >90 days. 118280

TREATMENT AND DISPOSAL

	☐	V4251	MW treated by unapproved method/procedure. 118215
	☐	V4252	Standardized written operating procedures for steam sterilization not available. 118215
	☐	V4253	Recording thermometer not calibrated annually. 118215
	☐	V4254	No records of thermometer calibration checks for at least 3 years. 118215
	☐	V4255	Heat-sensitive tape/other approved method not used for each load treated onsite. 118215
	☐	V4256	Monthly biological indicator or other approved method not used to confirm proper disinfection. 118215
	☐	V4257	Onsite Steam Sterilization did not reach 121°C/250 °F for ≥ 30 minutes. 118215
	☐	V4258	Treatment records/logs of dates, time and temperature not available for ≥ 3 yrs. 118215
	☐	V4259	Disposal of untreated MW to an unauthorized point. 118340
	☐	V4260	Transportation of MW without State Hauler Registration or a Limited Quantity Hauler Exemption (LQHE) from HMD. 118025

SMALL QTY. GENERATOR REQUIREMENTS (<200 lbs/mo MW)

Viol #		VIOL	VIOLATION DESCRIPTION
	☐	V4301	Medical Waste Mgmt. Plan (MWMP) not submitted to HMD (initial/updates if onsite treatment). 117935
	☐	V4302	Did not maintain and show proof of "onsite" medical waste treatment records for ≥3 years. 118215, 117943
	☐	V4303	Did not retain on file disposal receipts/tracking documents for waste shipped offsite for ≥2 yrs. 117945
	☐	V4304	No LQHE for "self-hauled" MW (<20 pounds of waste/wk). 118030, 118025
	☐	V4305	LQHE not renewed annually as required. 118030
	☐	V4306	Full sharps container stored >7 days at room temperature (for generators of >20lbs/month). 118285
	☐	V4307	Red bag waste stored > 7 days at room temperature (for generators of >20lbs/month). 118280
	☐	V4308	Very small quantity generator (VSQG)(<20 lbs/mo.) storing MW for >30 days at room temperature. 118280
	☒	V4309	MWMP or equivalent information not onsite. 117945
	☐	V4310	Red bag waste stored >90 days at 0°C/32°F. 118280

LARGE QUANTITY GENERATOR REQUIREMENTS

(≥ 200 pounds of waste generated per month)

	☐	V4351	MWMP not submitted to HMD (initial/updates). 117950, 117960, 117970
	☐	V4352	Records of MW treatment not available for ≥3 years. 118215, 117975
	☐	V4353	Not disposal receipts/tracking documents for waste shipped offsite for at least 3 years. 117975
	☐	V4354	Full sharps container stored >7 days at room temp.118285
	☐	V4355	Red bag waste stored >7 days at room temp. 118280

PATHOLOGY, CHEMOTHERAPY, PHARMAC. & HAZ. WASTE

	☐	V4401	Chemo waste not segregated from other MW. 118275
	☐	V4402	Chemo waste container not properly labeled. 118275
	☐	V4403	Illegal disposal of chemo waste. 118340
	☐	V4411	Pathology waste not segregated from other MW. 118275
	☐	V4412	Pathology waste container not properly labeled. 118275
	☐	V4413	Illegal disposal of pathology waste. 118340
	☐	V4421	Pharmwaste not segregated from other MW. 118275g
	☐	V4422	Pharmwaste not properly labeled. 118275(g)
	☐	V4423	Pharmwaste stored >90 days. (≥ 10 lbs/yr) 118280(e)
	☐	V4431	VSQG of pharmwaste (<10 lb/yr) stored >1yr. 118280(e)
	☐	V4432	Illegal disposal of pharmaceutical waste. 118340, 118222
	☐	V4441	Illegal disposal of photo/hazwaste to sewer/trash. 25189.5

ONSITE MW TREATMENT FACILITY REQUIREMENTS

	☐	V4501	Onsite MW treatment permit not obtained. 117950, 118130, 118155, 65620
	☐	V4502	Current copy of the MW treatment permit not available. 65621(f), 65623, 118165, 118180
	☐	V4503	Condition(s) of the MW treatmt. permit violated. 65623

X	☐	Emergency contacts current ☐ Updated today	X	☐	Waste containers kept labeled
☐	X	Chemical inventory current ☐ Updated today	X	☐	Waste containers in good condition

☐ All violations noted on this compliance inspection report were corrected during this inspection.

Routine Inspection

JAN 28 2005

- Biohazardous Waste is Treated on site,
  - Recording thermometer is calibrated annually, Last done on 2-04.
  - Monthly spore test conducted. Test results reviewed on site,
  - Standard Operating Procedure for autoclave reviewed.
- Containers storing biohazardous waste (sharps containers) observed to be properly labeled and managed.
- Medical Waste Management Plan observed to be current,
- Medical Solid Waste disposed of to a trash bin that is kept closed/covered and locked except when adding or removing waste.

☐ This is an annual certification that the Hazardous Materials Business Plan (inventory, emergency contacts, emergency response plan, and employee training plan) is current and includes all the information required in the H&SC and is maintained at the site where hazardous materials are stored.

Does your facility...	If Yes, please complete these pages of the UPCF....	
A. HAZARDOUS MATERIALS Have on site (for any purpose) hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	☐ YES ☒ NO 4	HAZARDOUS MATERIALS INVENTORY - CHEMICAL DESCRIPTION (OES 2731)
B. UNDERGROUND STORAGE TANKS (USTs)		UST FACILITY (Formerly SWRCB Form A)
▪ Own or operate underground storage tanks?	☐ YES ☒ NO 5	UST TANK (one page per tank) (Formerly Form B)
▪ Intend to upgrade existing or install new USTs?	☐ YES ☒ NO 6	UST FACILITY UST TANK (one per tank) UST INSTALLATION - CERTIFICATE OF COMPLIANCE (one page per tank) (Formerly Form C)
▪ Need to report closing a UST?	☐ YES ☒ NO 7	UST TANK (closure portion -one page per tank)
C. ABOVE GROUND PETROLEUM STORAGE TANKS (ASTs) Own or operate ASTs above these thresholds: ---any tank capacity is greater than 660 gallons, or ---the total capacity for the facility is greater than 1,320 gallons?	☐ YES ☒ NO 8	NO FORM REQUIRED TO CUPAs
D. HAZARDOUS WASTE		
▪ Generate hazardous waste?	☐ YES ☒ NO 9	EPA ID NUMBER – provide at the top of this page
▪ Recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	☐ YES ☒ NO 10	RECYCLABLE MATERIALS REPORT (one per recycler)
▪ Treat hazardous waste on site?	☐ YES ☒ NO 11	ONSITE HAZARDOUS WASTE TREATMENT – FACILITY (Formerly DTSC Forms 1772) ONSITE HAZARDOUS WASTE TREATMENT – UNIT (one page per unit) (Formerly DTSC Forms 1772 A,B,C,D and L)
▪ Treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	☐ YES ☒ NO 12	CERTIFICATION OF FINANCIAL ASSURANCE (Formerly DTSC Form 1232)
▪ Consolidate hazardous waste generated at a remote site?	☐ YES ☒ NO 13	REMOTE WASTE / CONSOLIDATION SITE ANNUAL NOTIFICATION (Formerly DTSC Form 1196)
▪ Need to report the closure/removal of a tank that was classified as hazardous waste and cleaned onsite?	☐ YES ☒ NO 14	HAZARDOUS WASTE TANK CLOSURE CERTIFICATION (Formerly DTSC Form 1249)

E. LOCAL REQUIREMENTS 15

- MEDICAL WASTE
  - Generate < 200 lbs/month of Medical/Biohazardous Waste? ☒ YES ☐ NO
  - Generate ≥ 200 lbs/month of Medical/Biohazardous Waste? ☐ YES ☒ NO
  - Generate ≥ 200 lbs/month of Medical/Biohazardous Waste and treat any amount of medical waste? ☐ YES ☒ NO
- Handle Toxic gases with threshold limit concentration (TLV) ≤ 10 ppm in any quantity? ☐ YES ☒ NO

Business Activities

Submit the Business Activities page and the Business Owner/Operator Identification page (OES Form 2730), for all submissions. NOTE: The numbering of the instructions follows the data element numbers that are on this form. These data element numbers are used for electronic submission and are the same as the numbering used in 27 CCR, Appendix C, the Business Section of the Unified Program Data Dictionary. Please number all pages of your submittal. This helps the San Diego County, Department of Environmental Health (DEH), Hazardous Materials Division (HMD) identify whether the submittal is complete and if any pages are separated.

1. FACILITY ID NUMBER - Enter your 5 digit Establishment Number (H#) on your Health Permit. If you do not have a health permit, leave this blank.
2. EPA ID NUMBER - Enter your facility's 12-character U.S. EPA ID #. If you do not have a number, contact the Department of Toxic Substances Control (DTSC) at (800) - 61-TOXIC or (800) 618-6942, to obtain one.
3. BUSINESS NAME - Enter the full legal name of the business. This is the same as the terms "Facility Name" or "DBA" - Doing Business As.
4. HAZARDOUS MATERIALS ONSITE - Check the appropriate box to indicate whether you have a hazardous material onsite in the quantities listed in section A of this form. If "Yes", then you must then complete the Business Owner/Operator Identification page (OES Form 2730) and the Hazardous Materials Inventory - Chemical Description page (OES Form 2731), as well as a complete Hazardous Materials Business Plan (see HMD form DEH:HM952).
5. OWN OR OPERATE UNDERGROUND STORAGE TANK (UST) - Check the appropriate box to indicate whether you own or operate USTs containing hazardous substances as defined in Health and Safety Code (HSC) Section 25316. If "YES," then you must complete one UST Facility page and UST Tank pages for each tank. You must also submit a monitoring program plan (See HMD handout DEH:HM9222).
6. UPGRADE/INSTALL UST - Check the appropriate box to indicate whether you intend to install or upgrade USTs containing hazardous substances as defined in HSC Section 25316. If "YES," then you must complete the UST Installation - Certificate of Compliance page in addition to UST Facility and Tank pages, plot plan and monitoring program plan and the DEH installation, upgrade permit applications. Contact the HMD at (800)253-9933.
7. UST CLOSURE - Check the appropriate box if you are closing an UST and complete the closure portion of the UST Tank pages for each tank. Submit a DEH closure application.
8. OWN OR OPERATE ABOVEGROUND PETROLEUM STORAGE TANK (AST) - Check the appropriate box to indicate whether there are ASTs onsite which exceed the regulatory thresholds. This program applies to all facilities storing petroleum in aboveground tanks. Petroleum means crude oil, or any fraction thereof, which is liquid at 60 degrees Fahrenheit temperature and 14.7 pounds per square inch absolute pressure (HSC Section 25270.2 (g)).
9. HAZARDOUS WASTE GENERATOR - Check the appropriate box to indicate whether your facility generates hazardous waste. A generator is the person or business whose acts or processes produce a hazardous waste or who causes a hazardous substance or waste to become subject to State hazardous waste law. Hazardous waste means a waste that meets any of the criteria for the identification of a hazardous waste adopted by DTSC pursuant to HSC 25141. "Hazardous waste" includes, but is not limited to, federally regulated hazardous waste. Federal hazardous waste law is known as the Resource Conservation and Recovery Act (RCRA). Unless explicitly stated otherwise, the term "hazardous waste" also includes extremely hazardous waste and acutely hazardous waste.
10. RECYCLE - Check the appropriate box to indicate whether your facility recycles more than 100 kilograms per month of recyclable material under a claim that the material is excluded or exempt per HSC Section 25143.2. Check "YES" and complete the Recyclable Materials Report pages, if you either recycled onsite or recycled excluded recyclable materials which were generated offsite. Check "NO" if you only send recyclable materials to an offsite recycler. You do not need to report.
11. ONSITE HAZARDOUS WASTE TREATMENT - Check the appropriate box to indicate whether your facility engages in onsite treatment of hazardous waste. "Treatment" means any method, technique, or process which is designed to change the physical, chemical, or biological character or composition of any hazardous waste or any material contained therein, or removes or reduces its harmful properties or characteristics for any purpose. Please contact the HMD to determine if any exemptions apply to your facility. If your facility engages in onsite treatment of hazardous waste then complete the Onsite Hazardous Waste Treatment Notification - Facility page and one set of Onsite Hazardous Waste Treatment Notification - Unit pages with waste and treatment process information for each unit.
12. FINANCIAL ASSURANCE - Check the appropriate box to indicate whether your facility is subject to financial assurance requirements for closure of an onsite treatment unit. Unless they are exempt, Permit by Rule (PBR) and Conditionally Authorized (CA) operations are required to provide financial assurance for closure costs (per 22 CCR Section 67450.13 (b) and HSC Section 25245.4). If your facility is subject to financial assurance requirements or claiming an exemption, then complete the Certification of Financial Assurance page.
13. REMOTE WASTE CONSOLIDATION SITE - Check the appropriate box to indicate whether your facility consolidates hazardous waste generated at a remote site. Answer "YES" if you are a hazardous waste generator that collects hazardous waste initially at remote sites and subsequently transports the hazardous waste to a consolidation site you also operate. You must be eligible pursuant to the conditions in HSC Section 25110.10. If your facility consolidates hazardous waste generated at a remote site, then complete the Remote Waste Consolidation Site Annual Notification page.
14. HAZARDOUS WASTE TANK CLOSURE - Check the appropriate box to indicate whether the tank being closed would be classified as hazardous waste after its contents are removed. Classification could be based on:
    - Your knowledge of the tank and its contents
    - Testing of the tank
    - The mixture rule
    - The listed wastes in 40 CFR 261.31 or 40 CFR 261.32.
    - Inability to remove hazardous materials stored in the tank.

    If the tank being closed would be classified as hazardous waste after its contents are removed, then you must complete the Hazardous Waste Tank Closure Certification page.
15. LOCAL REQUIREMENTS - If you generate Medical Waste you are required to obtain a Health Permit and submit a Biomedical Waste Management Plan. In addition to this, if you generate ≥200 lbs on medical waste per month and treat any amount of medical waste on site you may be required to apply for a medical waste treatment permit with the HMD. TOXIC GASES: If you handle toxic gases with threshold limit concentration (TLV) ≤10 ppm in any quantity, you are required to obtain a Health Permit and submit an HMD Hazardous Materials Business Plan.

UNIFIED PROGRAM FACILITY/HEALTH PERMIT APPLICATION

Yes

☒ This business or service is required to obtain a Unified Program Facility/Health Permit from the San Diego County Department of Environmental Health. I answered "yes" to one or more of the questions on the "Business Activities" form.

☐ I have determined that this business or service does not require a Unified Program Facility/Health Permit from the San Diego County Department of Environmental Health.

I declare under penalty of perjury that to the best of my knowledge and belief the statements made herein are correct and true. I consent to all necessary inspections allowed by law and incidental to the issuance of required permit(s) and the operation of this business.

Signature: _____ Title: Owner

Printed Name: Paul H Van Horne Date: 7/18/2001

Phone: 619 4635883 Type of Business: Dental Office

Please complete the business information on the following page and return this application to the San Diego County Department of Environmental Health at:

SAN DIEGO COUNTY
DEPARTMENT OF ENVIRONMENTAL HEALTH
HAZARDOUS MATERIALS DIVISION
P.O. BOX 129261
SAN DIEGO CA 92112-9261

If a San Diego County Unified Program Facility/Health Permit is required for your business or service a representative of this Department will contact your business. Permit fees will be determined from the contact and a billing statement will be mailed.

NOTE: If you do not use hazardous materials, generate hazardous waste, or have underground storage tanks you are still required to return this form.

A representative of the San Diego County Department of Environmental Health may contact you to verify the information provided on this application.

Business Owner/Operator Identification

Please submit the Business Activities page, the Business Owner/Operator Identification page (OES Form 2730), and Hazardous Materials - Chemical Description pages (OES Form 2731) for all hazardous materials inventory submissions. For the inventory to be considered complete this page must be signed by the appropriate individual.
(Note: the numbering of the instructions follows the data element numbers that are on the UPCF pages. These data element numbers are used for electronic submission and are the same as the numbering used in 27 CCR, Appendix C, the Business Section of the Unified Program Data Dictionary.) Please number all pages of your submittal. This helps your CUPA or AA identify whether the submittal is complete and if any pages are separated.

ALWAYS SUBMIT A COPY OF THIS COMPLETED PAGE WITH SUBMITTAL OF ANY OTHER UNIFIED PROGRAM CONSOLIDATED FORM.

1. FACILITY ID NUMBER - Enter your 5 digit Establishment Number (H#) on your Health Permit. If you do not have a health permit, leave this blank.
3. BUSINESS NAME - Enter the full legal name of the business. This is the same as the terms "Facility Name" or "DBA" - Doing Business As.
100. BEGINNING DATE - Enter the beginning year and date (YYYYMMDD) of the inventory report, recyclable materials report, or on-site tiered permitting report for PBR sites.
101. ENDING DATE - Enter the ending year and date (YYYYMMDD) of the reports identified in #100.
102. BUSINESS PHONE - Enter the phone number, area code first, and any extension.
103. BUSINESS SITE ADDRESS - Enter the street address where the facility is located. No post office box numbers are allowed. This information must provide a means to geographically locate the facility. If the mailing address is different, complete #113- #116.
104. CITY - Enter the city or unincorporated area in which business site is located.
105. ZIP CODE - Enter the zip code of business site. The extra 4 digit zip may also be added.
106. DUN & BRADSTREET - Enter the Dun & Bradstreet number for the facility. The Dun & Bradstreet number may be obtained by calling (610) 882-7748 or by Internet.
107. SIC CODE - Enter the primary Standard Industrial Classification Code number for primary business activity. NOTE: If code is more than 4 digits, report only the first four.
108. COUNTY - Enter the county in which the business site is located.
109. BUSINESS OPERATOR NAME - Enter the name of the business operator which is the name used for mailing correspondence.
110. BUSINESS OPERATOR PHONE - Enter business operator phone number, if different from business phone, area code first, and any extension.
111. OWNER NAME - Enter name of business owner, if different from business operator.
112. OWNER PHONE - Enter the business owner's phone number if different from business phone, area code first, and any extension.
113. OWNER MAILING ADDRESS - Enter the owner's mailing address where business related correspondence should be sent, if different from business site address.
114. OWNER CITY - Enter the name of the city for the owner's mailing address.
115. OWNER STATE - Enter the 2 character state abbreviation for the owner's mailing address.
116. OWNER ZIP CODE - Enter the zip code for the owner's address. The extra 4 digit zip may also be added.
117. ENVIRONMENTAL CONTACT NAME - Enter the name of the person, if different from the Business Owner or Operator, who will respond to enforcement activity.
118. CONTACT PHONE - Enter the phone number, if different from Owner or Operator, at which the environmental contact can be contacted.
119. CONTACT MAILING ADDRESS - Enter the mailing address where all environmental contact correspondence should be sent.
120. CITY - Enter the name of the city for the environmental contact's mailing address.
121. STATE - Enter the 2 character state abbreviation for the environmental contact's mailing address.
122. ZIP CODE - Enter the zip code for the environmental contact's mailing address. The extra 4 digit zip may also be added.
123. PRIMARY EMERGENCY CONTACT NAME - Enter the name of a representative that can be contacted in case of an emergency involving hazardous materials at the business site. The contact shall have FULL facility access, site familiarity, and authority to make decisions for the business regarding incident mitigation.
124. TITLE - Enter the title of the primary emergency contact.
125. BUSINESS PHONE - Enter the business number for the primary emergency contact, area code first, and any extensions.
126. 24-HOUR PHONE - Enter a 24-hour phone number for the primary emergency contact. The 24-hour phone number must be one which is answered 24 hours a day. If it is not the contact's home phone number, then the service answering the phone must be able to immediately contact the individual stated above.
127. PAGER NUMBER - Enter the pager number for the primary emergency contact, if available.
128. SECONDARY EMERGENCY CONTACT NAME - Enter the name of a secondary representative that can be contacted in the event that the primary emergency contact is not available. The contact shall have FULL facility access, site familiarity, and authority to make decisions for the business regarding incident mitigation.
129. TITLE - Enter the title of the secondary emergency contact.
130. BUSINESS PHONE - Enter the business telephone number for the secondary emergency contact, area code first, and any extension.
131. 24-HOUR PHONE - Enter a 24-hour phone number for the secondary emergency contact. The 24-hour phone number must be one that is answered 24 hours a day. If it is not the contact's home phone number, then the service answering the phone must be able to immediately contact the individual stated above.
132. PAGER NUMBER - Enter the pager number for the secondary emergency contact, if available.
133. ADDITIONAL LOCALLY COLLECTED INFORMATION - This space may be used for CUPAs or AAs to collect any additional information necessary to meet the requirements of their individual programs. Contact your local agency for guidance.
134. DATE - Enter the date that the document was signed. (YYYYMMDD)
135. NAME OF DOCUMENT PREPARER - Enter the full name of the person who prepared the inventory submittal information.
136. NAME OF SIGNER - Enter the full printed name of the person signing the page. The signer certifies to a familiarity with the information submitted and that based on the signer's inquiry of those individuals responsible for obtaining the information, all the information submitted is true, accurate and complete.

SIGNATURE OF OWNER/ OPERATOR OR DESIGNATED REPRESENTATIVE - The Business Owner/Operator, or officially designated representative of the Owner/Operator, shall sign in the space provided. This signature certifies that the signer is familiar with the information submitted and that based on the signer's inquiry of those individuals responsible for obtaining the information it is the Signer's belief that the submitted information is true, accurate and complete.

137. TITLE OF SIGNER - Enter the title of the person signing the page.

On the above date, an inspection of your business/facility was conducted in order to determine compliance with the California Health and Safety Code (H&S) Chapters 6.5, 6.7, 6.95; Titles 19, 22 and 23 of the California Code of Regulations (CCR); and the San Diego County Code (SDCC). The following remarks are intended to provide guidance to correct the violations noted on the attached violation report.

Office Use Only	
R	B

New Business Inspection

- Within 30 days complete and submit to address below all forms in the Health Permit Application packet.
- Sharps containers observed to be properly managed and labeled.
- Biomedical waste has yet to be disposed of.
- Medical Waste Management Plan completed at time of inspection.
- Emergency contact information obtained.
- A 2.5% gluteraldehyde solution is used as a sterilant.
- Waste X-ray developing chemicals (fixer) observed to be properly managed and labeled.
- (1) Business provided with Waste Pharmaceuticals handout and Storage of Haz. Waste factsheet, 7-17-01 (FitZ)
- Medical Solid waste is stored in a locked trash bin.

MEDICAL WASTE GENERATOR REQUIREMENTS

BUSINESS ADDRESS: 7200 Parkway Drive, Ste. 115 ZIP: 91942

VIOLATION REPORT: *The items checked below refer to specific section numbers of the California Health and Safety Code Sections 25100 and 117600 et. al.; the San Diego County Code of Regulatory Ordinances Sections 68.1201 et. al.; and the California Code of Regulations, Title 22 Sections 65600 et. al. and 66262.10 et. al.* **All violations must be corrected. Please call (619) 338-2222 or your Inspector if you have any questions.**

GENERAL REQUIREMENTS:

- [ ] An Environmental Health Permit as a medical waste generator has not been obtained. 68.1203, 68.1204, and 117705 . . . . . V4101 W____
- [ ] Unlawful disposal of untreated medical waste to an unauthorized point. 118340 . . . . . V4102 W____
- [ ] Improper treatment of medical waste using an unapproved method or procedure. 118215 . . . . . V4103 W____
- [ ] Medical SOLID WASTE is not stored in a locked trash receptacle or enclosure so as to deny access to unauthorized persons. 68.1202 . . . . . V4104 W____
- [ ] Improper clipping or cutting of sharps waste at the point of generation. 68.1205 . . . . . V4105 W____
- [ ] Medical waste was not separated from other waste at the point of origin. 118275 . . . . . V4106 W____
- [ ] Generator has not maintained reusable containers/bins for medical waste storage in a clean and sanitary manner. 118295 and 118305 . . . . . V4107 W____
- [ ] Storage time exceeded for frozen medical waste, e.g. greater than 90 days. 118280 . . . . . V4108 W____
- [ ] Generator did not clean-up a leak or spill of medical waste in an approved manner. 118300 . . . . . V4109 W____
- [ ] Generator has not secured the enclosure or designated accumulation area for medical waste containers so as to deny access to unauthorized persons. 118310 . . . . . V4110 W____
- [ ] Operator did not post an approved and legible biohazardous waste "warning sign" in English and Spanish at the waste storage area(s). 118310 . . . . . V4111 W____
- [ ] Generator did not store medical waste in approved and properly marked red bags (non-sharps). 118275 . . . . . V4112 W____
- [ ] Did not place a label with the generator's name, address, and phone number on the outside of the red bag and/or sharps container. 68.1201 and 68.1205 . . . . . V4113 W____
- [ ] Generator did not store sharps waste in approved and properly marked sharps container. 118275 . . . . . V4114 W____
- [ ] Transportation of medical waste without State Hauler Registration or without a limited-quantity hauling exemption from County HMMD. 118025 . . . . . V4115 W____
- [ ] Generator did not have standardized written operating procedures for a steam sterilizer available onsite. 118215 . . . . . V4116 W____
- [ ] Did not have recording thermometer checked for calibration annually. 118215 . . . . . V4117 W____
- [ ] Generator did not maintain records of thermometer calibration checks for at least 3 years. 118215 . . . . . V4118 W____
- [ ] Operator did not use heat-sensitive tape or other approved method for each load of medical waste treated onsite. 118215 . V4119 W____
- [ ] Need to use a biological indicator or other approved method at least once a month to confirm proper disinfection conditions. 118215 . . . . . V4120 W____
- [ ] Must tie-off red bags to prevent leakage or expulsion of contents during handling and storage. 118280 . . . . . V4121 W____
- [ ] Did not containerize and place red bags in rigid, leak resistant, and covered containers or bins. 118280 . . . . . V4122 W____
- [ ] Must have waste container/bin labeled on the lid and side so as to be clearly visible. 118280 . . . . . V4123 W____
- [ ] Did not tape closed or tightly-lid a full sharps container ready for disposal, to preclude loss of contents. 118285 . . . . . V4124 W____

SMALL QUANTITY GENERATOR REQUIREMENTS:
(< 200 pounds per month of waste)

- [ ] Medical Waste Management Plan has not been submitted to County HMMD (Annual Requirement) 68.1206 and 117935 . . V4025 W____
- [ ] Must maintain and show proof of "onsite" medical waste treatment records for 3 years. 118215 and 117943 . . . . . V4026 W____
- [ ] Generator did not retain on file disposal receipts and/or tracking documents for waste shipped offsite for at least 2 years. 117945 . . . . . V4027 W____
- [ ] Need to apply for and receive a limited-quantity hauling exemption for "self-hauled" medical waste (< 20 pounds of waste per week). 118030 and 118025 . . . . . V4028 W____
- [ ] Did not renew a limited-quantity hauling exemption annually. 118030 . . . . . V4029 W____
- [ ] Storage time exceeded for full sharps container(s), e.g. greater than 7 days at room temperatures (for > 20 pounds/month generator). 118285 . . . . . V4030 W____
- [ ] Storage time exceeded for red bag waste, e.g..more than 7 days at room temperature (> 20 pounds/month generator). 118280 . V4031 W____
- [ ] Very small quantity generator (e.g..< 20 pounds per month) improperly storing waste for greater than 30 days onsite at room temperature. 118280 . . . . . V4032 W____
- [ ] Maximum holding time exceeded for non-putrescible medical waste, e.g. greater than 180 days. 68.1203 . . . . . V4033 W____

LARGE QUANTITY WASTE GENERATORS:
(≥ 200 pounds of waste in a month)

- [ ] Medical Waste Management Plan has not been submitted to County HMMD (Annual Requirement) . 117960 and 68.1206 . V4034 W____
- [ ] Must maintain and show proof of "onsite" medical waste treatment records for 3 years. 118215 and 117975 . . . . . V4035 W____
- [ ] Generator did not retain on file disposal receipts and/or tracking documents for waste shipped offsite for at least 3 years. 117975 . . . . . V4036 W____
- [ ] Storage time exceeded for full sharps container(s), e.g. greater than 7 days at room temperature. 118285 . . . . . V4037 W____
- [ ] Storage time exceeded for red bag waste, e.g. more than 7 days at room temperature. 118280 . . . . . V4038 W____

PATHOLOGY WASTE AND CHEMOTHERAPY WASTE HANDLING:

- [ ] Did not segregate chemotherapy waste from other medical waste. 118275 . . . . . V4039 W____
- [ ] Generator did not label container holding chemotherapy waste with the words "chemotherapy waste" or other approved markings on the lid and sides. 118275 . . . . . V4040 W____
- [ ] Did not segregate pathology waste from other medical waste. 118275 . . . . . V4041 W____
- [ ] Generator did not label container holding pathology waste with the words "pathology waste" or other approved markings on the lid and side. 118275 . . . . . V4042 W____
- [ ] Unlawful disposal of pathology waste or chemotherapy waste to an unauthorized point. 118340 . . . . . V4043 W____

PHARMACEUTICAL WASTE HANDLING:

- [ ] Generator did not segregate pharmaceutical waste from other medical waste. 118275g . . . . . V4044 W____
- [ ] Generator did not label container holding pharmaceutical waste with the words "incineration only" or other approved markings on the lid and side. 118275g . . . . . V4045 W____
- [ ] Storage time exceeded for pharmaceutical waste, e.g. more than 90 days. (≥ 10 pounds per calendar year generated) 118280e . V4046 W____
- [ ] Very small quantity generator of pharmaceutical waste (e.g. < 10 pounds waste /calendar year) improperly storing waste for longer than one year. 118280e . . . . . V4047 W____
- [ ] Unlawful disposal of pharmaceutical waste to an unauthorized point. 118340 and 118222 . . . . . V4048 W____

ON-SITE MEDICAL WASTE TREATMENT FACILITY REQUIREMENTS:

- [ ] Operator has not obtained an onsite medical waste treatment permit from the County. 117950, 118130, 118155, and CCR 65620 . . . . . V4049 W____
- [ ] Must maintain an updated and complete copy of the medical waste treatment permit onsite and available for review. CCR 65621(f), 65623, 118165, and 118180 . . . . . V4050 W____
- [ ] Did not comply with a condition of the medical waste treatment permit issued by the County. CCR 65623 . . . . . V4051 W____

PHOTOCHEMICAL and HAZARDOUS WASTE MGMT. AND DISPOSAL:

- [ ] Illegal disposal of photoprocessing/ hazardous waste to the sewer, trash, etc. 25189.5 . . . . . V4052 W____
- [ ] Generator has not maintained waste disposal records. e.g. manifests/milk-run receipts..onsite for 3 years. 66262.40 . . . . V4053 W____
- [ ] Generator has not obtained an EPA Identification Number from the State DTSC for hazardous waste generation. e.g. photoprocessing/hazardous waste. 66262.12 . . . . . V4054 W____
- [ ] Generator did not properly label the container holding hazardous waste. 66262.34 . . . . . V4055 W____
- [ ] Generator did not maintain the container holding hazardous waste tightly closed except when adding or removing waste. 66265.173 . . . . . V4056 W____
- [ ] Generator did not submit a notification to the County prior to treating photochemical waste onsite (e.g. > 10 gallons/month: tiered permitting). 25201.5 . . . . . V4057 W____

CITY/ZIP La Mesa, 91942

On the above date, an inspection of your business/facility was conducted in order to determine compliance with the California Health and Safety Code (HSC) Chapters 6.5, 6.7, 6.95; Titles 19, 22 and 23 of the California Code of Regulations (CCR); and the San Diego County Code (SDCC). The following remarks are intended to provide guidance to correct the violations noted on the attached violation report.

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

Y	N/A		Y	N/A	
☑	☐	Unified Program Facility Permit current and available			Permit Expires on: 11/30/04
☐	☑	Hazardous Materials Business Plan available	☐	☑	Contingency Plan available
☐	☐	Employee Training is adequate	☐	☐	Employee Training records available
☐	☐	Waste disposal records available for review	☐	☐	Waste containers kept closed
☐	☐	Emergency contacts current ☐ Updated today	☐	☐	Waste containers kept labeled
☐	☐	Chemical inventory current ☐ Updated today	☐	☐	Waste containers in good condition

☐ All violations noted on this compliance inspection report were corrected during this inspection.

SEP 17 2004

Routine Inspection/Notice to Comply

1. Waste Pharmaceuticals are not segregated from other medical waste, is not properly labeled, and is not properly disposed of.
Corrective Action: Segregate waste pharmaceuticals from other medical waste, and place in a separate container labeled with the business name, address and Telephone number, and the words Incinerate Only on the lid and sides. Properly dispose of to a facility for incineration.
Refer to Waste Pharmaceuticals handout provided.

2. Medical Solid Waste (surgical gloves & other materials which are not biohazardous but medical looking in nature) is not stored in a manner as to deny access to unauthorized persons.
Corrective Action: Store medical solid waste in a closed locked Trashbin That is only open when adding or removing waste.

☐ This is an annual certification that the Hazardous Materials Business Plan (inventory, emergency contacts, emergency response plan, and employee training plan) is current and includes all the information required in the H&SC and is maintained at the site where hazardous materials are stored.

PERMIT # 154837
DATE 9/3/04
PAGE 3 OF 3

BUSINESS ADDRESS: Paul H. VanHoorne ZIP: 91942

VIOLATION REPORT: *The items checked below refer to specific section numbers of the California Health and Safety Code Sections 25100 and 117600 et. al.; the San Diego County Code of Regulatory Ordinances Sections 68.1201 et. al.; and the California Code of Regulations, Title 22 Sections 65600 et. al.*

All violations must be corrected. Submit documentation of return to compliance to your Specialist. You may use the Corrective Action Form to document your return to compliance. Your Specialist can provide these forms. Please call (619) 338-2222 or your Specialist if you have any questions.

STORAGE AND LABELING

Viol #		VIOL	VIOLATION DESCRIPTION
	☐	V4201	UPF Permit not obtained. 117705, 68.905
	☐	V4202	Medical Waste (**MW**) not separated from other waste at point of origin. 118275
	☐	V4203	Enclosure or designated accumulation area for **MW** containers not secured. 118310
	☐	V4204	**MW** storage area not posted with an approved and legible biohazardous waste "warning sign" in English and Spanish. 118310
2	☑	V4205	Medical SOLID WASTE not secured to deny access to unauthorized persons. 68.1211
	☐	V4206	Spill of **MW** not properly cleaned up. 118300
	☐	V4207	Sharps not stored in approved and properly marked sharps container. 118275
	☐	V4208	Full sharps container not taped closed or tightly-lidded to preclude loss of contents. 118285
	☐	V4209	Red bags/sharps container not labeled with generator's name, address, and phone number. 68.1205, 68.1206
	☐	V4210	**MW** not stored in approved and properly marked red bags. 118275
	☐	V4211	Red bags not tied off to prevent leakage/expulsion of contents during handling and storage. 118280
	☐	V4212	Red bags not containerized in rigid, leak resistant, and covered containers or bins. 118280
	☐	V4213	Waste container/bin not labeled on the lid and side so as to be clearly visible. 118280
	☐	V4214	Reusable containers/bins for **MW** storage not kept clean/sanitary. 118295, 118305
	☐	V4215	Frozen (0C/32 F) **MW** stored >90 days. 118280
	☐	V4306	Full sharps container stored >7 days at room temp 118285
	☐	V4307	Red bag waste stored >7 days at room temperature (for generators of >20lbs/month). 118280
	☐	V4308	Red bag waste stored >30 days at room temperature (for generators of <20 lbs/month). 118280

TREATMENT AND DISPOSAL

	☐	V4251	**MW** treated by unapproved method/procedure. 118215
	☐	V4252	Standardized written operating procedures for steam sterilization not available. 118215
	☐	V4253	Recording thermometer not calibrated annually. 118215
	☐	V4254	No records of thermometer calibration checks onsite for at least the past 3 years. 118215
	☐	V4255	Heat-sensitive tape/other approved method not used for each load treated onsite. 118215
	☐	V4256	Monthly biological indicator or other approved method not used to confirm proper disinfection. 118215
	☐	V4257	Onsite Steam Sterilization did not reach 121°C/250 °F for 30 minutes. 118215
	☐	V4258	Treatment records/logs of dates, time and temperature not available for 3 yrs. 118215
	☐	V4259	Disposal of untreated **MW** to an unauthorized point. 118340

TRANSPORTATION REQUIREMENTS

Viol #		VIOL	VIOLATION DESCRIPTION
	☐	V4260	Transportation of **MW** without State Hauler Registration or a (LQHE) from HMD. 118025
	☐	V4304	No LQHE for "self-hauled" **MW** (<20 pounds of waste/wk). 118030, 118025
	☐	V4305	LQHE not renewed annually as required. 118030
	☐	V4311	Medical Waste tracking documents not in vehicle transporting MW. 118040
	☐	V4312	MW tracking documents/logs not maintained for 3years for LQHE. 118040

SMALL QTY. GENERATORS ONLY (<200 lbs/mo) MW)

	☐	V4301	Medical Waste Mgmt. Plan (MWMP) not submitted to HMD (initial/updates if onsite treatment). 117935
	☐	V4302	Did not maintain and show proof of "onsite" medical waste treatment records for 3 years. 118215, 117943
	☐	V4303	Did not retain on file disposal receipts/tracking documents for waste shipped offsite for 2 yrs. 117945
	☐	V4309	MWMP or equivalent information not onsite. 117945

REQUIREMENTS FOR LARGE QUANTITY GENERATORS ONLY

(≥ 200 pounds of waste generated per month)

	☐	V4351	**MWMP** not submitted to HMD (initial/updates). 117950, 117960, 117970
	☐	V4352	Records of **MW** treatment not available for 3 years. 118215, 117975
	☐	V4353	Did not retain on file disposal receipts/tracking documents for at least 3 yrs. for waste shipped offsite. 117975

PATHOLOGY, CHEMOTHERAPY, PHARMAC. & HAZ. WASTE

	☐	V4401	Chemo waste not segregated from other **MW**. 118275
	☐	V4402	Chemo waste container not properly labeled. 118275
	☐	V4403	Illegal disposal of chemo waste. 118340
	☐	V4411	Pathology waste not segregated from other **MW**. 118275
	☐	V4412	Pathology waste container not properly labeled. 118275
	☐	V4413	Illegal disposal of pathology waste. 118340
1	☑	V4421	Pharmwaste not segregated from other **MW**. 118275g
	☐	V4422	Pharmwaste not properly labeled. 118275(g)
	☐	V4423	Pharmwaste stored >90 days. (≥ 10 lbs/yr) 118280(e)
	☐	V4431	VSQG of pharmwaste (<10 lb/yr) stored >1yr. 118280(e)
	☐	V4432	Illegal disposal of pharmaceutical waste. 118340, 118222
	☐	V4441	Illegal disposal of photo/hazwaste to sewer/trash. 25189.5

ONSITE MW TREATMENT FACILITY REQUIREMENTS

	☐	V4501	Onsite **MW** treatment permit not obtained/renewed. 117950, 118130, 118155, 65620/65623.
	☐	V4502	Current copy of the **MW** treatment permit not available. 65621(f), 65623, 118165, 118180
	☐	V4503	Condition(s) of the **MW** treatmt. permit violated. 65623

☑	☐	Unified Program Facility Permit current and available			Permit Expires on: 11/30/07
☐	☑	Hazardous Materials Business Plan available	☐	☑	Contingency Plan available
☑	☐	Employee Training is adequate	☐	☑	Employee Training records available
☑	☐	Waste disposal records available for review	☑	☐	Waste containers kept closed
☑	☐	Emergency contacts current ☐ Updated today	☑	☐	Waste containers kept labeled
☑	☐	Chemical inventory current ☐ Updated today	☑	☐	Waste containers in good condition

Routine Inspection

- Medical Waste Management Plan completed during inspection. Maintain a current copy on site.
- Medical waste (sharps) containers observed to be properly labeled and managed.
- Medical Solid Waste disposed of to a locked Trash-bin.
- A 2.5% gluteraldehyde solution is used as a cold sterilant.
- Documentation showing disposal of waste amalgam, lead foil, and waste X-ray developing chemicals reviewed.
- Disposal receipts for biohazardous waste reviewed.

RECEIVED OCT 16 2007

☐ This is an annual certification that the Hazardous Materials Business Plan (inventory, emergency contacts, emergency response plan, and employee training plan) is current and includes all the information required in the H&SC and is maintained at the site where hazardous materials are stored.

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). **This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6.** This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

CONSENT TO CONDUCT INSPECTION GRANTED BY: PAUL VANHORNE DDS TITLE: Owner

INTRODUCTION:
Facility is a small quantity medical waste generator that generates ~12 lbs of sharps waste and 2 lbs of pharmaceutical waste per year.

VIOLATION # 1
HMD4423 Pharm waste stored >90 days when container full, or stored longer than one year (maximum allowable time).
HSC 118280(f)

Classification: Minor

Observations:
Waste container not marked with date started and there are no disposal records available for review in the past 3 years.

Corrective Action Due By:03/10/2016
Dispose of outdated/off-spec pharmaceuticals within the next 30 days and provide documentation of their disposal to donelle.griffin@sdcounty.ca.gov. Guidance on Dental waste was provided at the time of this inspection.

INSPECTION REMARKS:

CERS updated during inspection.

Each violation checked below is for the section(s) of the California health and Safety Code (HSC), California Code of Regulation (CCR), or the San Diego County Code (SDCC) indicated in italics. All violations must be corrected. Submit documentation of return to compliance to your Specialist. You may use the Corrective Action Form (HM-926) to document your return to compliance. Please call (858) 505-6880 or your Specialist if you have any questions. UPF = Unified Program Facility; MW = Medical Waste; USPS = United States Postal Service; DOT = Department of Transportation

STORAGE AND LABELING

#	HMD	VIOLATION DESCRIPTION
☐	4201	UPF Permit not obtained. HSC 117705; SDCC 68.905
☐	4202	Medical waste (MW) not separated from other waste at the point of origin. HSC 118275
☐	4203	Enclosure or designated accumulation area for MW containers not secured. HSC 118307, 118310
☐	4204	MW designated accumulation area not posted with an approved, legible biohazardous waste "warning sign" in English & Spanish which can be read from 25 ft. HSC 118310
☐	4205	Medical SOLID WASTE not secured to deny access to unauthorized persons. SDCC 68.1211
☐	4206	Spill of MW not properly cleaned up. HSC 118300
☐	4207	Sharps not stored in approved and properly marked sharps container. HSC 118285(a) & (d)
☐	4208	Full sharps container not taped closed or tightly-lidded to preclude loss of contents. HSC 118285(b)
☐	4209	Primary containers accumulating MW not labeled with generator's name, address, and phone number. SDCC 68.1205
☐	4210	Medical waste not stored in approved and properly marked biohazard bags. HSC 118275(a)
☐	4211	Biohazard bags not tied off to prevent leakage/expulsion of contents during handling and storage. HSC 118280(a)
☐	4212	Biohazard bags not containerized in rigid, leak resistant, and covered containers or bins when placed for storage, handling, or transport. HSC 118280(b)
☐	4213	Waste container/bin not labeled with the words "Biohazardous Waste" or with the international biohazard symbol and the word "BIOHAZARD" on the lid and sides. HSC 118280(c)
☐	4214	Reusable containers/bins for MW storage not kept clean and sanitary. HSC 118295, 118305
☐	4215	Frozen (0°C/32°F) biohazardous waste stored >90 days. HSC 118280(e)(2)
☐	4306	Full sharps container stored >30 days at >0°C. HSC 118285(c)
☐	4307	Biohazard bag waste stored >7 days at >0°C (for generators of >20lbs/month). HSC 118280(e)(1)(A)
☐	4308	Biohazard bag waste stored >30 days at >0°C (for generators of <20lbs/month). HSC 118280(e)(1)(B)
☐	4219	MW interim storage area not marked with warning sign or biohazard symbol legible from 5 ft. HSC 118307, 118310
☐	4220	MW interim storage area not properly secured. HSC 118307

TREATMENT AND DISPOSAL

☐	4251	MW treated by unapproved method/procedure. HSC 118215
☐	4252	Standardized written operating procedures for steam sterilization not available. HSC 118215(a)(2)(A)
☐	4253	Recording thermometer not calibrated annually. HSC 118215(a)(2)(B)
☐	4254	No records of annual thermometer calibration checks onsite for at least the past 2 years. HSC 118215(a)(2)(B)
☐	4255	Heat-sensitive tape/other approved method not used for each load treated onsite. HSC 118215(a)(2)(C)
☐	4256	Monthly biological indicator or other approved method not used to confirm proper disinfection. HSC 118215(a)(2)(D)
☐	4257	Onsite steam sterilization did not reach 121°C/250°F for 30 minutes. HSC 118215(a)(2)(B)
☐	4258	Treatment records/logs of dates, time, and temperature not available for 2 years. HSC 118215(a)(2)(E)
☐	4259	Disposal of untreated MW to an unauthorized point. HSC 118340

TRANSPORTATION REQUIREMENTS

#	HMD	VIOLATION DESCRIPTION
☐	4260	Transportation of MW without State Hauler Registration, USPS or requirements of the DOT "Materials of Trade Exceptions." HSC 118025
☐	4311	Medical waste tracking documents/logs not in vehicle transporting medical waste. HSC 118040

SMALL QUANTITY GENERATORS ONLY
(<200 pounds of medical waste generated per month)

☐	4301	Medical Waste Management Plan (MWMP) not submitted to HMD (initial/updates), if onsite treatment. HSC 117935
☐	4302	Did not maintain and show proof of "onsite" medical waste treatment records for 3 years. HSC 117943
☐	4303	Did not retain on file disposal receipts, tracking/shipping documents for medical waste shipped offsite for 3 years. HSC 117945
☐	4309	MWMP or equivalent information not onsite (only for SQG doing onsite treatment or comply with pharmaceutical waste hauling exemption). HSC 117935, 118032

LARGE QUANTITY GENERATORS ONLY
(≥ 200 pounds of medical waste generated per month)

☐	4351	MWMP not submitted to HMD (initial/updates). HSC 117960, 117970
☐	4352	Records of medical waste treatment not available for 2 years. HSC 117975, 118215(a)(2)(E)
☐	4353	Did not make available disposal receipts, tracking/shipping documents for at least 2 years for medical waste shipped offsite. HSC 117975

CHEMOTHERAPY, PATHOLOGY, PHARMACEUTICAL HAZARDOUS & UNIVERSAL WASTES

☐	4401	Trace Chemo waste not segregated from other MW. HSC 118275(a)(4)
☐	4402	Trace Chemo waste container not labeled "Chemotherapy Waste" or "CHEMO" on the lid and the sides. HSC 118275(a)(4)
☐	4403	Illegal disposal of chemo waste. HSC 118340
☐	4411	Pathology waste not segregated from other MW. HSC 118275(a)(5)
☐	4412	Pathology waste container not labeled "Pathology Waste" or "PATH" on the lid and the sides. HSC 118275(a)(5)
☐	4413	Illegal disposal of pathology waste. HSC 118340
☐	4421	Pharm waste not segregated from other MW. HSC 118275(a)(6)
☐	4422	Pharm waste not labeled "Incineration Only or HIGH HEAT" on the lid and the sides. HSC 118275(a)(6)
1	☒ 4423	Pharm waste stored >90 days when container full, or stored longer than one year (maximum allowable time). HSC 118280(f)
☐	4432	Illegal disposal of pharm waste. HSC 118340, 118222(b)
☐	4441	Disposal of photo/hazwaste to an unauthorized point. HSC 25189.5
☐	3030046	Failed to keep records of offsite universal waste shipment(s) available for inspection for 3 years. HSC 25185(a)(4); 22 CCR 66273.39(c),(d)(2)
☐	3050003	Disposed of universal waste to an unauthorized point. HSC 25189.5(a); 25189(c),(d); 25189.2(c); 22 CCR 66273.31(a)

LQG MW ONSITE TREATMENT FACILITY
(≥ 200 pounds of medical waste generated per month)

☐	4501	Onsite MW treatment permit not obtained/renewed. HSC 117950, 118130, 65620, 65623
☐	4502	Current copy of the MW treatment permit not available. HSC 65621(f), 65623, 118165, 118180
☐	4503	Condition(s) of the MW treatment permit violated. HSC 65623

OFFICIAL NOTICE

February 25, 2002

Chevron Products Co.
Attn: Jerry Bogaczyk
SAR Project Manager
P.O. Box 2292
Brea, CA 92822-2292

Dear Mr. Bogaczyk:

MONITORING WELL CONSTRUCTION DEFICIENCIES
Former Chevron Station #9-3521, 7651 Alvarado Rd., La Mesa, CA 91941
APN: 470-020-12 PERMIT #W92595/W93952 ESTABLISHMENT#H12687-002

The site assessment case for this establishment was closed in July 2001. As part of the conditions for closure, the two remaining wells at this site, MW-3 and MW-4, were to be destroyed within 90 days of closure.

On February 15, 2002, staff of the Department of Environmental Health (DEH), Site Assessment and Mitigation Program (SAM) inspected this site for compliance with the closure document. MW-3 is still in place and MW-4 could not be found, although no permit was ever issued to destroy that well.

Abandoned and poorly maintained wells are considered a nuisance as defined in San Diego County Code Section (SDCCS) 67.430 and 67.431. A well destruction permit must be submitted to DEH **by March 11th, 2002.**

Sincerely,

MCrystal

MONITORING WELL AND BORING CONSTRUCTION AND DESTRUCTION PERMIT

SITE NAME: FORMER CHEVRON STATION #9-3521

SITE ADDRESS: 7651 ALVARADO ROAD, LA MESA 91941

PERMIT FOR: **DESTROY 2 GROUNDWATER MONITORING WELLS**

PERMIT APPROVAL DATE: MARCH 29, 2002

PERMIT EXPIRES ON: JULY 27, 2002

PERMIT CONDITIONS:

1. **All material within the original borehole, which includes the casing, filter pack and annular seal must be removed. The borehole must be completely filled with an approved sealing material as specified in Department of Water Resources Bulletin 74-90.**

2. All wash water must be contained and disposed of properly.

3. All water and soil that is placed in drums must be labeled and stored as specified in the SAM Manual in: Section 5, page 7, (5).

4. Within 60 days of completing work, submit a well construction report, including all well and/or boring logs and laboratory data to the Well Permit Desk. This report must include all items required by the SAM Manual, Section 5, Pages 6 & 7.

5. This office must be given 48 hour notice of any drilling activity on this site and advanced notification of drilling cancellation. Please contact Well Permit Desk at (619) 338-2339.

NOTE: **This permit does not constitute approval of a work plan as defined in Section 2722 of Article 11 of C.C.R., Title 23. Work plans are required for all unauthorized release investigations in San Diego County.**

H. **APPLICATION SUBMITTAL, PLAN APPROVAL, PERMIT ISSUANCE, AND REQUIRED INSPECTIONS**

Submit one (1) original and two (2) copies of this application package, including plan drawings with the required fee to the Monitoring Well Permit Desk, Department of Environmental Health, Site Assessment and Mitigation Program (SAM). 1255 Imperial Avenue, San Diego, CA *92101. Or mail to P. O. Box 129261, San Diego, CA 92112-9261.* **Checks should be made payable to the County of San Diego.**

A permit will be issued by SAM upon review and approval of the application and plans. The required fees must be submitted with the application package. Information in addition to that presented in the application package may be needed in order to obtain final approval. No work is to begin on the proposed project until a permit has been issued. The required inspections cannot be scheduled until a permit is issued.

Once the permit has been issued, it is the responsibility of the permittee to notify SAM at least two (2) working days in advance to schedule each required inspection.

USE ONE APPLICATION PACKAGE FOR A SINGLE SITE PROJECT. A SINGLE PERMIT WILL BE ISSUED FOR A SINGLE SITE PROJECT, EVEN IF WELLS/BORINGS ARE COMPLETED ON MORE THAN ONE PROPERTY. FOR MULTIPLE SITE PROJECT'S, USE SEPARATE APPLICATIONS.

PERMIT APPLICATION FOR
GROUND WATER AND VADOSE MONITORING WELLS
EXPLORATORY OR TEST BORINGS

- For well destruction, complete only #1 below.
- Well design, logging and construction must be supervised by a Geologist, Engineering Geologist or Civil Engineer who is registered or certified by the State of California.
- Well driller must have an active C-57 License and current $2,500 bond with the County.
- Provide a plot plan giving location of property lines, existing improvements such as structures, underground tanks, underground utilities, underground piping, and the proposed monitoring and/or observation wells.
- If applicable, provide a signed copy of the Property Owner Responsibility form for each property listed in Section "F".
- If applicable, provide a signed copy of the Property Owner Responsibility form for each property listed in Section "F".Provide encroachment/excavation permit and/or traffic control permit for work to be done in street or public right of way.

1. If wells are to be destroyed, provide a description of method of destruction. The wells will be overdrilled using a hollow stem auger drill rig and backfilled w/ bentonite grout using the tremie method.
2. What is the proposed purpose of the well/boring?
3. What procedures will be used to prevent the well/boring from providing an avenue to contamination during construction?
4. What field procedures will be utilized to determine if contamination exists?
5. What procedures will be used to determine whether samples will be sent for laboratory testing or archiving?

6. What constituents will be monitored and tested (Include EPA Laboratory Test Methods to be used)?

7. How will samples be transported and preserved? _____

8. What sampling methods will be used? _____

9. Are you proposing a variation from the methods and/or procedures presented in the requirements for the construction of Vadose and Ground Water Monitoring Wells (Current SAM Manual Requirements). If yes, specify these variations.

10. What procedures will be used to ensure no contamination will be introduced by the drilling equipment?

11. What methods will be used to clean sampling equipment? _____

12. What cleaning method will be used to clean casing and screen prior to installation? _____

PROPERTY OWNER RESPONSIBILITY AGREEMENT

Proposed Location of Well(s): Destruction
MW-3 @ 7651 Alvarado
MW-4 @ 7631 Alvarado

Property Address: 7631 and 7651 Alvarado
La Mesa, California

Dear Property Owner:

This letter is to inform you of the responsibilities for the proposed drilling activities on your property. The scope of work covered by this letter will expire one year from the date you sign this form. Any proposed drilling activities beyond this expiration date will require a new Property Owner Responsibility Agreement.

Please place a check mark next to the activity which applies to your property:

- ☐ Install one or more monitoring wells
- ☒ Destroy one or more monitoring wells
- ☐ Drill one or more soil borings

The person who causes to have a monitoring well installed or an existing well destroyed on your property is defined as the "Responsible Party." Section 67.424 of San Diego County Code states that: "Monitoring wells shall be maintained to meet construction or destruction standards. If a monitoring well does not meet construction or destruction standards the Responsible Party must repair, reconstruct or destroy the monitoring well so it meets the standards. The property owner, if different than the Responsible Party, must take the necessary actions to repair, reconstruct or destroy the monitoring well so it meets the standards if the Responsible Party does not complete the necessary actions."

A soil boring is used specifically to sample soil and, because there are construction and destruction standards, is included in the definition of a monitoring well even though no maintenance is required. These standards are outlined in the County of San Diego SA/M Manual and the State of California Well Standards Bulletin 74-90.

If you have any questions or would like additional information, please contact the Monitoring Well Program at (619) 338-2339.

I understand the maintenance and construction/destruction responsibilities for monitoring wells and borings under the San Diego County Code.

Re: **Well Destruction Report**
Former Chevron Service Station No. 9-3521
7651 Alvarado Road
La Mesa, California
Establishment No. H12687-002
Permit No. W100439

Dear Ms. Crystal:

On April 25, 2002, SECOR International Incorporated (SECOR), on behalf of Chevron Products Company (Chevron), supervised the destruction two groundwater monitoring wells associated with the property referenced above (Figure 1 and Figure 2).

Field Activities

Prior to commencement of field activities, SECOR obtained a Monitoring Well Destruction Permit (Permit No. W100439) from the County of San Diego Department of Environmental Health Land and Water Quality Division (SAM). The well permit cover sheet is included for reference (Attachment 1).

Field activities were conducted in accordance with the 2002 SAM Manual guidelines and conditions of SAM permit No. W100439, issued on March 29, 2002. West Hazmat Drilling (West Hazmat) conducted well destruction activities using a CME 75 drill rig equipped with 10-inch diameter hollow-stem augers.

On April 25, 2002, the well casings of the two wells (MW-3 and MW-4), were over-drilled to approximately 2 feet below the total depth of the wells to remove the annular seal and filter pack materials used in the construction of the wells. Well MW-3, located in the along the northern property line, was originally installed to approximately 15 feet below ground surface (bgs) and well MW-4, located immediately northwest of well MW-3 on the adjacent property, was installed to 12 feet bgs. The original well completion logs are included for reference (Attachment 2). The well casings were removed and disposed of by West Hazmat. Each borehole was backfilled with approximately 100

gallons of bentonite grout. The bentonite grout mixture was comprised of approximately 1.5 50-pound bags of grout powder per 45 gallons of water. The augers were slowly removed and the bentonite grout was allowed to settle. The top 2 feet of each borehole was sealed with concrete. The exterior concrete seals around the former well boxes were removed using a jackhammer and a flush concrete patch was installed.

Non-Hazardous Waste Disposal

The non-hazardous soil cuttings generated from the well destruction activities were placed in labeled 55-gallon drums and temporarily stored onsite prior to disposal. TPS Technologies is scheduled to remove the drums from the site and recycle the soil.

If you have any questions regarding the foregoing, please contact Melissa R. Wendt at (714) 379-3366.

Respectfully Submitted,
SECOR International Incorporated

MONITORING WELL AND BORING CONSTRUCTION AND DESTRUCTION PERMIT

SITE NAME: FORMER CHEVRON STATION #9-3521

SITE ADDRESS: 7651 ALVARADO ROAD, LA MESA 91941

PERMIT FOR: **DESTROY 2 GROUNDWATER MONITORING WELLS**

PERMIT APPROVAL DATE: MARCH 29, 2002

PERMIT EXPIRES ON: JULY 27, 2002

PERMIT CONDITIONS:

1. **All material within the original borehole, which includes the casing, filter pack and annular seal must be removed. The borehole must be completely filled with an approved sealing material as specified in Department of Water Resources Bulletin 74-90.**

2. All wash water must be contained and disposed of properly.

3. All water and soil that is placed in drums must be labeled and stored as specified in the SAM Manual in: Section 5, page 7, (5).

4. Within 60 days of completing work, submit a well construction report, including all well and/or boring logs and laboratory data to the Well Permit Desk. This report must include all items required by the SAM Manual, Section 5, Pages 6 & 7.

5. This office must be given 48 hour notice of any drilling activity on this site and advanced notification of drilling cancellation. Please contact Well Permit Desk at (619) 338-2339.

NOTE: **This permit does not constitute approval of a work plan as defined in Section 2722 of Article 11 of C.C.R., Title 23. Work plans are required for all unauthorized release investigations in San Diego County.**

WELL PERMIT #W101037	ESTAB. # 22376-001	A.P.N. 469-020-34

SID'S AUTO BODY, 7241-7255 ALVARADO CYN RD, LA MESA, CA 91941

The Monitoring Well Program (MWP) has not received the well/boring log report due sixty days after completion of the work covered under the permit referenced above. This letter constitutes a second notice reminding you that the well/boring log report had not yet been received.

Failure to submit a properly completed well/boring log report is a violation of the San Diego County Code, Section 67.447. The San Diego County Code also states that permits may be denied *if the applicant is delinquent with submitting well drilling logs to the MWP* in Section 67.441

In order to prevent denials or delays in receiving future monitoring well program permits, please contact the Monitoring Well Permit Desk by phone at (619) 338-2339 or email DEH.MonitoringWells@sdcounty.ca.gov within five business days of receipt of this letter to indicate when you will submit the well/boring log report.

A copy of this letter is also being sent to the driller of record and the party legally responsible for the permit referenced above. Thank you for your cooperation.

Sincerely,

Marisue Crystal, Environmental Health Technician

PRESIDENT / CEO
EARTH TECH (S.D.)
9675 BUSINESS PARK AV
SAN DIEGO, CA 92131-1644

OUTSTANDING WELL PERMITS ISSUED - PRIOR TO JULY 1, 2003

The Department of Environmental Health (DEH), Monitoring Well Program has reviewed its records regarding well permits that have been issued to you prior to July 1, 2003. The permits listed on the attached table are permits that this office has no record of receiving a written report for work completed as required by San Diego County Code, Section 67.447.

A condition on all permits issued by this office is to have a complete and accurate well/boring report submitted within sixty days of completing the work covered by the permit. All of the permits on the attached list expired more that one hundred and eighty days ago. Therefore all of these permits are out of compliance with the conditions of the permit.

Please note that the Monitoring Well Program documents the receipt of all boring reports sent to us. When you review the attached list, you may find that your own records indicate that the report was already mailed to us. Since we do not have a record of receiving it, we ask that you submit a duplicate copy so that we can close the permit in our records. Please keep in mind that the boring/well report sent to the Monitoring Well Program is separate from any copy you may have sent in to the Site Assessment and Mitigation Program. Please submit the well/boring report to the Well Permit Desk at the address shown above by **February 15, 2004**.

We thank you in advance for your cooperation in completing the records for these permits. Please note that delinquent submittals of boring/well reports is listed in the San Diego County Code of Regulatory Ordinances (Title 6, Division 7, Chapter 4, Article 5, Section 67.441 D#5) as a condition to refuse issuances of future permits.

Please call me at (619) 338-2257 if you wish to discuss this letter.

Thank you for your cooperation.

Sincerely,

Carol Spangenberg, Environmental Specialist III

MONITORING WELL AND BORING CONSTRUCTION AND DESTRUCTION PERMIT

SITE NAME: SID'S AUTO BODY

SITE ADDRESS: 7241-7255 ALVARADO CANYON ROAD, LA MESA CA 91941

PERMIT FOR: **INSTALL 1 GROUNDWATER MONITORING WELL**

PERMIT APPROVAL DATE: January 23, 2003

PERMIT EXPIRES ON: May 23, 2003

PERMIT CONDITIONS:

1. **The proposed well construction has been modified as follows: concrete surface seal from 0-3'; 03-9' cement and bentonite; 09-12' bentonite.**

2. The surface seal shall consist of concrete able to withstand the maximum anticipated load without cracking or deteriorating. The concrete should meet Class A specifications of a minimum 4000 pound compressive strength.

3. All wash water must be contained and disposed of properly.

4. All water and soil that is placed in drums must be labeled and stored as specified in the SAM Manual in: Section 5, page 7, (5).

5. Within 60 days of completing work, submit a well construction report, including all well and/or boring logs and laboratory data to the Well Permit Desk. This report must include all items required by the SAM Manual, Section 5, Pages 6 & 7.

6. **This office must be given 48 hour notice of any drilling activity on this site and advanced notification of drilling cancellation. Please contact Well Permit Desk at (619) 338-2339.**

NOTE: **This permit does not constitute approval of a work plan as defined in Section 2722 of Article 11 of C.C.R., Title 23. Work plans are required for all unauthorized release investigations in San Diego County.**

H. APPLICATION SUBMITTAL, PLAN APPROVAL, PERMIT ISSUANCE, AND REQUIRED INSPECTIONS

Submit one (1) original and two (2) copies of this application package, including plan drawings with the required fee to the Monitoring Well Permit Desk, Department of Environmental Health, Site Assessment and Mitigation Program (SAM). 1255 Imperial Avenue, San Diego, CA 92101. Or mail to P. O. Box 129261, San Diego, CA 92112-9261. **Checks should be made payable to the County of San Diego.**

A permit will be issued by SAM upon review and approval of the application and plans. The required fees must be submitted with the application package. Information in addition to that presented in the application package may be needed in order to obtain final approval. No work is to begin on the proposed project until a permit has been issued. The required inspections cannot be scheduled until a permit is issued.

Once the permit has been issued, it is the responsibility of the permittee to notify SAM at least two (2) working days in advance to schedule each required inspection.

USE ONE APPLICATION PACKAGE FOR A SINGLE SITE PROJECT. A SINGLE PERMIT WILL BE ISSUED FOR A SINGLE SITE PROJECT, EVEN IF WELLS/BORINGS ARE COMPLETED ON MORE THAN ONE PROPERTY. PLEASE USE SEPARATE APPLICATIONS FOR MULTIPLE SITE PROJECTS.

PERMIT APPLICATION FOR
GROUND WATER AND VADOSE MONITORING WELLS
EXPLORATORY OR TEST BORINGS

- For well destruction, complete only #1 below.
- Well design, logging and construction must be supervised by a Geologist, Engineering Geologist or Civil Engineer who is registered or certified by the State of California.
- Well driller must have an active C-57 License and current $7,500 bond with the County.
- Provide a plot plan giving location of property lines, existing improvements such as structures, underground tanks, underground utilities, underground piping, and the proposed monitoring and/or observation wells.
- If applicable, provide a signed copy of the Property Owner Responsibility form for each property listed in Section "F."
- If applicable, provide a signed copy of the Property Owner Responsibility form for each property listed in Section "F." Provide encroachment/excavation permit and/or traffic control permit for work to be done in street or public right of way.

1. If wells are to be destroyed, provide a description of method of destruction. N/A

2. What is the proposed purpose of the well/boring? Soil and groundwater assessment.

3. What procedures will be used to prevent the well/boring from providing an avenue to contamination during construction?

   All drilling and sampling equipment will be decontaminated prior to drilling the boring.

4. What field procedures will be utilized to determine if contamination exists?

   Soil and groundwater samples will be collected for chemical analysis. A PID and LEL will be used to screen soil cuttings during drilling.

5. What procedures will be used to determine whether samples will be sent for laboratory testing or archiving?

   Soil samples will be collected at 5-foot intervals and submitted to a Lab for chemical analysis. Groundwater samples will be collected after well installation and development.

6. What constituents will be monitored and tested (Include EPA Laboratory Test Methods to be used)?

TPH-G (EPA 8015M), TPH-D (EPA 8015M), VOCs to include MTBE, (EPA 8260B), SVOCs (EPA 8270C), and lead (EPA 6010).

7. How will samples be transported and preserved? Samples will be stored in a cooler with ice and transported directly to the lab. Appropriate chain-of-Custody protocol will be followed.

8. What sampling methods will be used? Soil samples will be collected using a California split spoon sampler. Groundwater samples will be collected using the low flow method.

9. Are you proposing a variation from the methods and/or procedures presented in the requirements for the construction of Vadose and Ground Water Monitoring Wells (Current SAM Manual Requirements). If yes, specify these variations.

No

10. What procedures will be used to ensure no contamination will be introduced by the drilling equipment?

All drilling equipment will be decontaminated prior to drilling the borehole.

11. What methods will be used to clean sampling equipment? All down-hole drilling equipment will be steam cleaned. All sampling equipment will be washed in solution of Alconox and double rinsed with deionized water.

12. What cleaning method will be used to clean casing and screen prior to installation? Only new, Factory slotted screen and casing will be used to construct the well. Casing and screen will remain wrapped until just before installation.

Subject: FW: Well Permit #W101037, work associated with permit was never executed by Earth Tech

Hi Marisue,

Below is some information we provided the well permit department on this well that we permitted but were never given access by the client to drill.

Let me know what we need to do in order to cancel this permit.

Thanks,

Greg

>
> Dear Ms. Crystal,
>
> This email is in response to your letter dated June 9, 2005 regarding well permit W101037, Estab. # 22376-001, A.P.N. 469-020-34. This permit is for work that was never completed by Earth Tech. Earth Tech was authorized to do the work but access to the site was never granted because of construction activities. By the time the construction activity could provide us access, Earth Tech lost its contract with MTDB. Because we lost our contract, we did not do the field work. No field activities associated with this permit were conducted by Earth Tech.
>
> I hope this clarifies the issues with this permit. If you have any questions, please feel free to give me a call at (858) 536-5610.
>
> Thanks,
>

MONITORING WELL COMPLIANCE INSPECTION REPORT

APN: 469-021-03, -09
PERMIT# LMON101909
EST.# NONE
INSPECTION DATE: 11/02/2006

RESPONSIBLE PARTY: MTDB
ATTN: JIM HECHT
1255 IMPERIAL AV, SUITE 100
SAN DIEGO, CA 92101

SITE NAME: MTDB MISSION VLY DEV PROJECT
SITE ADDRESS: COMMANCHE DR NEAR BACK OF 7601 & 7621 ALVARADO RD
SAN DIEGO, CA 91941

CONSULTANT: NINYO & MOORE

DRILLER: BAJA EXPLORATION

NUMBER OF WELLS DESTROYEDED UNDER THIS PERMIT: 1 (BV-202)

NUMBER OF BORINGS DRILLED/PROPERLY DESTROYED UNDER THIS PERMIT: N/A

COMMENTS:

Although Monitoring Well Program staff were not present at the time of the well destruction, the 60-day well destruction report states the well was destroyed in compliance with the permit requirements. No deficiencies were observed at the time of this inspection.

The permit was issued for 3 well destructions, but wells MVE7 and BV208 could not be located. Location of destroyed well BV-202 was found in the street on Comanche Dr. near the back property line between 7601 & 7627 Alvarado Rd.

MONITORING WELL AND BORING CONSTRUCTION AND DESTRUCTION PERMIT

SITE NAME: MTDB MISSION VALLEY DEVELOPMENT PROJECT

SITE ADDRESS: 0N STREET ADJACENT TO 7601 & 7621 ALVARADO RD., AND INTERSECTION @ FLETCHER & COMANCHE DR., LA MESA, CA 91941

PERMIT FOR: **DESTROY 3 GROUNDWATER MONITORING WELLS**

PERMIT APPROVAL DATE: JANUARY 8, 2004

PERMIT EXPIRES ON: MAY 4, 2004

PERMIT CONDITIONS:

1. **All material within the original borehole, which includes the casing, filter pack and annular seal, must be removed. The borehole must be completely filled with an approved sealing material as specified in Department of Water Resources Bulletin 74-90.**

2. Placement of any sealing material at a depth greater than 30 feet must be done using the tremie method.

3. All water and soil resulting from the activities covered by this permit must be managed, stored and disposed of as specified in the SAM Manual in Section 5, E- 4. (**http://www.sdcounty.ca.gov/deh/lwq/sam/manual_guidelines.html**). In addition, drill cuttings must be properly handled and disposed in compliance with the Stormwater Best Management Practices of the local jurisdiction.

4. Within 60 days of completing work, submit a well construction report, including all well and/or boring logs and laboratory data to the Well Permit Desk. This report must include all items required by the SAM Manual, Section 5, Pages 6 & 7.

5. This office must be given 48-hour notice of any drilling activity on this site and advanced notification of drilling cancellation. Please contact the Well Permit Desk at 338-2339.

	TOTAL COST OF PERMIT	$ 385.00

H. APPLICATION SUBMITTAL, PLAN APPROVAL, PERMIT ISSUANCE, AND REQUIRED INSPECTIONS

Submit one (1) original and two (2) copies of this application package, including plan drawings with the required fee to the Monitoring Well Permit Desk, Department of Environmental Health, Site Assessment and Mitigation Program (SAM). 1255 Imperial Avenue, San Diego, CA 92101. Or mail to P. O. Box 129261, San Diego, CA 92112-9261. Information in addition to that presented in the application package may be needed in order to obtain final approval. **Checks should be made payable to the County of San Diego.**

A permit will be issued by SAM upon review and approval of the application and plans. The required fees must be submitted with the application package. No work is to begin on the proposed project until a permit has been issued. The required inspections cannot be scheduled until a permit is issued.

Once the permit has been issued, it is the responsibility of the permittee to notify SAM at least two (2) working days in advance to schedule each required inspection.

USE ONE APPLICATION PACKAGE FOR A SINGLE SITE PROJECT. A SINGLE PERMIT WILL BE ISSUED FOR A SINGLE SITE PROJECT, EVEN IF WELLS/BORINGS ARE COMPLETED ON MORE THAN ONE PROPERTY. PLEASE USE SEPARATE APPLICATIONS FOR MULTIPLE SITE PROJECTS.

PERMIT APPLICATION FOR
GROUND WATER AND VADOSE MONITORING WELLS
EXPLORATORY OR TEST BORINGS

- For well destruction, complete only #1 below.
- Well design, logging and construction must be supervised by a Geologist, Engineering Geologist or Civil Engineer who is registered or certified by the State of California.
- Well driller must have an active C-57 License and current $7,500 bond with the County.
- Provide a plot plan giving location of property lines, existing improvements such as structures, underground tanks, underground utilities, underground piping, and the proposed monitoring and/or observation wells.
- If applicable, provide a signed copy of the Property Owner Responsibility form for each property listed in Section "F." Provide encroachment/excavation permit and/or traffic control permit for work to be done in street or public right of way.

1. If wells are to be destroyed, provide a description of method of destruction. Wells will be destroyed by overdrilling to total depth of borehole, removing casing, filterpack and sealing materials and backfilling with bentonite grout by the tremie method to near surface and capped with a concrete surface seal, or native soil if in vegetated areas.

2. What is the purpose of the well/boring investigation? _____

3. What procedures will be used to prevent the well/boring from providing an avenue to contamination during construction?

4. What field procedures will be utilized to determine if contamination exists?

5. What procedures will be used to determine whether samples will be sent for laboratory testing or archiving?

6. What constituents will be monitored and tested (Include EPA Laboratory Test Methods to be used)?

7. How will samples be transported and preserved? _____

8. What sampling methods will be used? _____

9. Are you proposing a variation from the methods and/or procedures presented in the requirements for the construction of Vadose and Ground Water Monitoring Wells (Current SAM Manual Requirements). If yes, specify these variations.

10. What procedures will be used to ensure no contamination will be introduced by the drilling equipment?

    Drilling equipment will be steam cleaned and high pressure washed prior to advancement of augers and abandonment of wells

11. What methods will be used to clean sampling equipment? _____

12. What cleaning method will be used to clean casing and screen prior to installation? _____

REQUIREMENTS: *

1. The contractor is responsible for restoring the road back to satisfactory condition which will include, but is not limited to, paving, striping, markings, signing, and loop detection.

2. The agency reserves the right to observe these traffic control plans in operation and to make changes as field conditions warrant.

3. Trench will be backfilled or steel-plated during non-working hours. Steel plates shall have asphaltic ramp on all edges. All dirt, dust, and debris shall be removed from street at end of each day and at the end of the job. The street shall be in drivable condition at all times.

4. Any work that creates an undue safety risk or creates severe congestion will be shut down by the Agency.

5. A copy of all traffic requirements and traffic control plans issued by the Agency must be kept on the job site.

6. Approval of this plan does not constitute an official Permit. Contact the Agency for information on obtaining a permit.

7. All travel lanes will typically be a minimum of 12 feet wide unless otherwise specifically approved by the local jurisdiction.

8. Flashing arrow boards shall be used when required by the local jurisdiction. Steady burn warning lights shall be used to channelize traffic, to separate opposing traffic, and to delineate the path that traffic is to follow.

9. Warning (W) series signs used in work zones shall be black on orange.

10. Cones and pylons shall have yellow reflectorized sleeves along centerline, white reflectorized sleeves along outside shoulder.

* SUBJECT TO LOCAL AGENCY REQUIREMENTS

THIS TRAFFIC CONTROL PLAN IS NOT VALID UNLESS AN APPLICABLE PERMIT IS ATTACHED

Property Address: 7621 ALVARADO RD LA MESA, CA. MTDB RIGHT OF WAY EASEMENT

Dear Property Owner:

This letter is to inform you of the responsibilities for the proposed drilling activities on your property. The scope of work covered by this letter will expire one year from the date you sign this form. Any proposed drilling activities beyond this expiration date will require a new Property Owner Responsibility Agreement.

Please place a check mark next to the activity which applies to your property:

- ☐ Install one or more monitoring wells
- ☒ Destroy one or more monitoring wells
- ☐ Drill one or more soil borings

The person who causes to have a monitoring well installed or an existing well destroyed on your property is defined as the "Responsible Party." Section 67.424 of San Diego County Code states that: "Monitoring wells shall be maintained to meet construction or destruction standards. If a monitoring well does not meet construction or destruction standards the Responsible Party must repair, reconstruct or destroy the monitoring well so it meets the standards. The property owner, if different than the Responsible Party, must take the necessary actions to repair, reconstruct or destroy the monitoring well so it meets the standards if the Responsible Party does not complete the necessary actions."

A soil boring is used specifically to sample soil and, because there are construction and destruction standards, is included in the definition of a monitoring well even though no maintenance is required. These standards are outlined in the County of San Diego SA/M Manual and the State of California Well Standards Bulletin 74-90.

If you have any questions or would like additional information, please contact the Monitoring Well Program at (619) 338-2339.

I understand the maintenance and construction/destruction responsibilities for monitoring wells and borings under the San Diego County Code.

EST # None
MTDB Trolley Alvarado Corridor
On Street adjacent to 7601 & 7621 Alvarado Rd., and intersection Fletcher & Comanche Drive
La Mesa, California 91941

Dear Well Permit Clerk:

Ninyo & Moore is submitting the attached documents in fulfillment of the conditions of boring permit number LMON101909 issued on January 8, 2004, for the following project:

Property Owner:	Metropolitan Transit Dev. Board
Site Address:	On Street adjacent to 7601 & 7621 Alvarado Rd., and intersection Fletcher & Comanche Drive
Property Representative:	Jim Hecht - MTDB
Address:	1255 Imperial Ave, Ste 100 San Diego, California 92101
Assessor's Parcel No.:	469-021-03:09

On April 8, 2004, Ninyo & Moore observed Baja Exploration (C57 license # 804318) abandon groundwater monitoring well BV-202, in accordance with the current Department of Water Resources and Site Assessment and Mitigation Division guidelines at the site which was originally permitted for 3 well destructions. Prior to well destruction activities Ninyo & Moore conducted site

reconnaissance utilizing survey coordinates, geophysical investigation and limited soil excavation in an attempt to locate wells MVE-7 and BV-208. Monitoring wells MVE-7 and BV208 were not located and therefore could not be destroyed per SAM Guidelines. Wells MVE-7 and BV-208 were possibly destroyed during construction activities along the Trolley corridor. Materials, volumes and methods of well destructions are documented on the attached Well Destruction Field Logs for well BV-202.

The attached documents include a copy of the approved boring permit, Ninyo & Moore Well Destruction Field Logs documenting methods and quantities, and site maps. If you have any questions regarding this permit, please contact the undersigned.

Respectfully submitted,

NINYO & MOORE

Well Destruction Field Log

Project #: 104804003

Well ID: BV-202 Permit No.: LMON101909

Date of Well Destruction: 4.8.2004

Drilling Contractor: BAJA EXPLORATION

Method of Destruction: **Overdrill and remove all materials and backfill by tremie method with bentonite grout to near surface**

Over Drill with 8 (inch) diameter hollow stem auger: TO TOTAL DEPTH

Diameter of well casing and screen: (2 inch) 4 inch 6 inch

Total feet of casing and screen removed: ≅ 70 FEET

Total depth of over-drill: 72 ft

Total soil cuttings drums generated: 2 DRUMS

Total decon drums generated: NONE - PRECLEANED AUGERS

Method of borehole backfill: BOTTOM UP tremie method w/ GROUT

Backfill material: bentonite chips (bentonite grout) T.D. TO 5 ft BGS

Total depth to 5 ft. (bgs) backfilled with BENTONITE GROUT

Volume of backfill material: BENTONITE GROUT 185 → (gallons) cubic feet BENTONITE HYDRATED CHIPS 5ft to 3 ft 1.5 ft3

Surface completion material: 3 ft BGS to SURFACE 4000 PSI CONCRETE

Volume of surface seal backfill material: 1.5 ft3 4000 PSI CONCRETE

On the above date, an inspection of your business/facility was conducted in order to determine compliance with the California Health and Safety Code (HSC) Chapters 6.5, 6.7, 6.95; Titles 19, 22 and 23 of the California Code of Regulations (CCR); and the San Diego County Code (SDCC). The following remarks are intended to provide guidance to correct the violations noted on the attached violation report.

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

Y	N/A		Y	N/A	
☐	☐	Unified Program Facility Permit current and available			Permit Expires on: / /
☐	☐	Hazardous Materials Business Plan available	☐	☐	Contingency Plan available

New Business Inspection

- Business sells medical related equipment such as wheel-chairs. Business also has a pharmacy which generates waste medications/pharmaceuticals. Waste pharmaceuticals are stored in a card-board box and periodically mailed to Reverse Distributors, Inc where the unwanted unusable or outdated pharmaceutical products are processed and returned to the manufacturer or manufacturer's agent.

RECEIVED JAN 30 2007

- Be advised that pharmaceuticals determined at this location to be "waste pharmaceuticals", as defined in Hazardous Waste Determination Guidance (provided) must be stored in a leak resistant container and labeled with the words "Incineration Only" on the containers lid and all sides.

- Business provided with Management of Regulated Wastes handout.

ENTERED FEB 14 2007

☐ This is an annual certification that the Hazardous Materials Business Plan (inventory, emergency contacts, emergency response plan, and employee training plan) is current and includes all the information required in the H&SC and is maintained at the site where hazardous materials are stored.

MEDICAL WASTE REQUIREMENTS COMPLIANCE INSPECTION REPORT

Business Address 7200 Parkway Drive Zip Code 91942

VIOLATION REPORT: *The items checked below refer to specific section numbers of the California Health and Safety Code Sections 25100 and 117600 et. al.; County Code of Regulatory Ordinances Sections 68.1201 et. al.; and California Code of Regulations, Title 22 Sections 65600 et. al.*
All violations must be corrected. Submit documentation of return to compliance to your Specialist. You may use the Corrective Action Form to document your return to compliance. Your Specialist can provide these forms. Please call (619) 338-2222 or your Specialist if you have any questions.

Storage And Labeling

Violation	Violation Description
☐ V4201	UPF Permit not obtained. 117705, 68.905
☐ V4202	Medical Waste (MW) not separated from other waste at point of origin. 118275
☐ V4203	Enclosure or designated accumulation area for MW containers not secured. 118310
☐ V4204	MW storage area not posted with an approved and legible biohazardous waste "warning sign" in English and Spanish. 118310
☐ V4205	Medical SOLID WASTE not secured to deny access to unauthorized persons. 68.1211
☐ V4206	Spill of MW not properly cleaned up. 118300
☐ V4207	Sharps not stored in approved and properly marked sharps container. 118275
☐ V4208	Full sharps container not taped, closed or tightly lidded to preclude loss of contents. 118285
☐ V4209	Red bags/sharps container not labeled with generator's name, address and phone number. 68.1205, 68.1206
☐ V4210	MW not stored in approved and properly marked red bags. 118275
☐ V4211	Red bags not tied off to prevent leakage/expulsion of contents during handling and storage. 118280
☐ V4212	Red bags not containerized in rigid, leak resistant and covered containers or bins. 118280
☐ V4213	Waste container/bin not labeled on the lid and side so as to be clearly visible. 118280
☐ V4214	Reusable containers/bins for MW storage not kept clean/sanitary. 118295, 118305
☐ V4215	Frozen (0C/32°F) MW stored > 90 days. 118280
☐ V4306	Full sharps container stored > 7 days at room temp. 118285
☐ V4307	Red bag waste stored > 7 days at room temperature (for generators of > 20 lbs/month). 118280
☐ V4308	Red bag waste stored > 30 days at room temperature (for generators of < 20 lbs/month). 118280

Treatment and Disposal

☐ V4251	MW treated by unapproved method/procedure. 118215
☐ V4252	Standardized written operating procedures for steam sterilization not available. 118215
☐ V4253	Recording thermometer not calibrated annually. 118215
☐ V4254	No records of thermometer calibration checks onsite for at least the past 3 years. 118215
☐ V4255	Heat-sensitive tape/other approved method not used for each load treated onsite. 118215
☐ V4256	Monthly biological indicator or other approved method not used to confirm proper disinfection. 118215
☐ V4257	Onsite Steam Sterilization did not reach 121° C/250° F for 30 minutes. 118215
☐ V4258	Treatment records/logs of dates, time and temperature not available for 3 years. 118215
☐ V4259	Disposal of untreated MW to an unauthorized point. 118340

Transportation Requirements

☐ V4260	Transportation of MW without State Hauler Registration or a (LQHE) from HMD. 118025
☐ V4304	No LQHE for "self-hauled" MW (<20 pounds of waste/wk). 118030. 118025
☐ V4305	LQHE not renewed annually as required. 118030
☐ V4311	Medical Waste tracking documents not in vehicle transporting MW. 118040
☐ V4312	MW tracking documents/logs not maintained for 3 years for LQHE. 118040

Small Quantity Generators Only (<200 lbs/mo MW)

☐ V4301	Medical Waste Mgmt. Plan (MWMP) not submitted to HMD (initial/updates if onsite treatment). 117935
☐ V4302	Did not maintain or show proof of "onsite" medical waste treatment records for 3 years. 118215, 117943
☐ V4303	Did not retain on file disposal receipts/tracking documents for waste shipped offsite for 2 years. 117945
☐ V4309	MWMP or equivalent information not onsite. 117945

Large Quantity Generators Only (>=200 lbs/mo MW)

☐ V4351	MWMP not submitted to HMD (initial/updates). 117950, 117960, 117970
☐ V4352	Records of MW treatment not available for 3 years. 118215, 117975
☐ V4353	Did not retain on file disposal receipts/tracking documents for at least 3 years for waste shipped offsite. 117975

Pathology, Chemotherapy, Pharmac & Hazardous Waste

☐ V4401	Chemo waste not segregated from other MW. 118275
☐ V4402	Chemo waste container not properly labeled. 118275
☐ V4403	Illegal disposal of chemo waste. 118340
☐ V4411	Pathology waste not segregated from other MW. 118275
☐ V4412	Pathology waste container not properly labeled. 118275
☐ V4413	Illegal disposal of pathology waste. 118340
☐ V4421	Pharmwaste not segregated from other MW. 118275 (g)
☐ V4422	Pharmwaste not properly labeled. 118275(g)
☐ V4423	Pharmwaste stored > 90 days. (>= 10 lbs/yr). 118280(e)
☐ V4431	VSQG of pharmwaste (<10 lb/yr) stored > 1 yr. 118280(e)
☐ V4432	Illegal disposal of pharmaceutical waste. 118340, 118222
☐ V4441	Illegal disposal of photo/hazwaste to sewer/trash. 25189.5

Onsite MW Treatment Facility Requirements

☐ V4501	Onsite MW treatment to permit not obtained/renewed. 117950, 118130. 118115. 65620/65623
☐ V4502	Current copy of the MW treatment permit not available. 65621(f), 65623, 118165, 118180
☐ V4503	Condition(s) of the MW treatment permit violated. 65623

II. ACTIVITIES DECLARATION

NOTE: If you check YES to any part of this list, please submit the Business Owner/Operator Identification page (OES Form 2730).

Does your facility...		If Yes, please complete these pages of the UPCF.
A. HAZARDOUS MATERIALS Have on site (for any purpose) hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	☐ YES ☒ NO 4	HAZARDOUS MATERIALS INVENTORY – CHEMICAL DESCRIPTION (OES 2731)
B. UNDERGROUND STORAGE TANKS (USTs) ▪ Own or operate underground storage tanks?	☐ YES ☒ NO 5	UST FACILITY (Formerly SWRCB Form A) UST TANK (one page per tank) (Formerly Form B)
▪ Intend to upgrade existing or install new USTs?	☐ YES ☒ NO 6	UST FACILITY UST TANK (one per tank) UST INSTALLATION - CERTIFICATE OF COMPLIANCE (one page per tank) (Formerly Form C)
▪ Need to report closing a UST?	☐ YES ☒ NO 7	UST TANK (closure portion –one page per tank)
C. ABOVE GROUND PETROLEUM STORAGE TANKS (ASTs) Own or operate ASTs above these thresholds: —any tank capacity is greater than 660 gallons, or —the total capacity for the facility is greater than 1,320 gallons?	☐ YES ☒ NO 8	NO FORM REQUIRED TO CUPAs
D. HAZARDOUS WASTE ▪ Generate hazardous waste?	☐ YES ☒ NO 9	EPA ID NUMBER – provide at the top of this page
▪ Recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	☐ YES ☒ NO 10	RECYCLABLE MATERIALS REPORT (one per recycler)
▪ Treat hazardous waste on site?	☐ YES ☒ NO 11	ONSITE HAZARDOUS WASTE TREATMENT – FACILITY (Formerly DTSC Forms 1772) ONSITE HAZARDOUS WASTE TREATMENT – UNIT (one page per unit) (Formerly DTSC Forms 1772 A, B, C, D and L)
▪ Treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	☐ YES ☒ NO 12	CERTIFICATION OF FINANCIAL ASSURANCE (Formerly DTSC Form 1232)
▪ Consolidate hazardous waste generated at a remote site?	☐ YES ☒ NO 13	REMOTE WASTE / CONSOLIDATION SITE ANNUAL NOTIFICATION (Formerly DTSC Form 1196)
▪ Need to report the closure/removal of a tank that was classified as hazardous waste and cleaned onsite?	☐ YES ☒ NO 14	HAZARDOUS WASTE TANK CLOSURE CERTIFICATION (Formerly DTSC Form 1249)

E. LOCAL REQUIREMENTS 15

- MEDICAL WASTE
  - Generate <200 lbs/month of Medical/Biohazardous Waste? ☒ YES ☐ NO
  - Generate ≥200 lbs/month of Medical/Biohazardous Waste? ☐ YES ☒ NO
  - Generate ≥200 lbs/month of Medical/Biohazardous Waste and treat any amount of medical waste ☐ YES ☒ NO
- Handle Toxic gases with threshold limit concentration (TLV) # 10 ppm in any quantity? ☐ YES ☒ NO

Business Activities

Submit the Business Activities page and the Business Owner/Operator Identification page (OES Form 2730), for all submissions. NOTE: The numbering of the instructions follows the data element numbers that are on this form. These data element numbers are used for electronic submission and are the same as the numbering used in 27 CCR, Appendix C, and the Business Section of the Unified Program Data Dictionary. Please number all pages of your submittal. This helps the San Diego County, Department of Environmental Health (DEH), Hazardous Materials Division (HMD) identify whether the submittal is complete and if any pages are separated.

1. FACILITY ID NUMBER - Enter the 6 character Permit # on your Unified Program Facility Permit (UPFP). If you do not have a Unified Program Facility Permit, leave this blank.
2. EPA ID NUMBER - Enter your facility's 12-character U.S. EPA ID #. If you do not have a number, contact the Department of Toxic Substances Control (DTSC) at (800) - 61-TOXIC or (800) 618-6942, to obtain one.
3. BUSINESS NAME - Enter the full legal name of the business. This is the same as the terms "Facility Name" or "DBA" - Doing Business As.
4. HAZARDOUS MATERIALS ONSITE - Check the appropriate box to indicate whether you have a hazardous material onsite in the quantities listed in section A of this form. If "Yes", then you must then complete the Business Owner/Operator Identification page (OES Form 2730) and the Hazardous Materials Inventory - Chemical Description page (OES Form 2731), as well as a complete Hazardous Materials Business Plan (see HMD form DEH:HM952).
5. OWN OR OPERATE UNDERGROUND STORAGE TANK (UST) - Check the appropriate box to indicate whether you own or operate USTs containing hazardous substances as defined in Health and Safety Code (HSC) Section 25316. If "YES," then you must complete one UST Facility page and UST Tank pages for each tank. You must also submit a monitoring program plan (See HMD handout DEH:HM9222).
6. UPGRADE/INSTALL UST - Check the appropriate box to indicate whether you intend to install or upgrade USTs containing hazardous substances as defined in HSC Section 25316. If "YES," then you must complete the UST Installation - Certificate of Compliance page in addition to UST Facility and Tank pages, plot plan and monitoring program plan and the DEH installation, upgrade permit applications. Contact the HMD at (800) 253-9933.
7. UST CLOSURE - Check the appropriate box if you are closing an UST and complete the closure portion of the UST Tank pages for each tank. Submit a DEH closure application.
8. OWN OR OPERATE ABOVEGROUND PETROLEUM STORAGE TANK (AST) - Check the appropriate box to indicate whether there are ASTs onsite which exceed the regulatory thresholds. This program applies to all facilities storing petroleum in aboveground tanks. Petroleum means crude oil, or any fraction thereof, which is liquid at 60 degrees Fahrenheit temperature and 14.7 pounds per square inch absolute pressure (HSC Section 25270.2 (g)).
9. HAZARDOUS WASTE GENERATOR - Check the appropriate box to indicate whether your facility generates hazardous waste. A generator is the person or business whose acts or processes produce a hazardous waste or who causes a hazardous substance or waste to become subject to State hazardous waste law. Hazardous waste means a waste that meets any of the criteria for the identification of a hazardous waste adopted by DTSC pursuant to HSC §25141. "Hazardous waste" includes, but is not limited to, federally regulated hazardous waste. Federal hazardous waste law is known as the Resource Conservation and Recovery Act (RCRA). Unless explicitly stated otherwise, the term "hazardous waste" also includes extremely hazardous waste and acutely hazardous waste.
10. RECYCLE - Check the appropriate box to indicate whether your facility recycles more than 100 kilograms per month of recyclable material under a claim that the material is excluded or exempt per HSC Section 25143.2. Check "YES" and complete the Recyclable Materials Report pages, if you either recycled onsite or recycled excluded recyclable materials which were generated offsite. Check "NO" if you only send recyclable materials to an offsite recycler. You do not need to report.
11. ONSITE HAZARDOUS WASTE TREATMENT - Check the appropriate box to indicate whether your facility engages in onsite treatment of hazardous waste. "Treatment" means any method, technique, or process which is designed to change the physical, chemical, or biological character or composition of any hazardous waste or any material contained therein, or removes or reduces its harmful properties or characteristics for any purpose. Please contact the HMD to determine if any exemptions apply to your facility. If your facility engages in onsite treatment of hazardous waste then complete the Onsite Hazardous Waste Treatment Notification - Facility page and one set of Onsite Hazardous Waste Treatment Notification - Unit pages with waste and treatment process information for each unit.
12. FINANCIAL ASSURANCE - Check the appropriate box to indicate whether your facility is subject to financial assurance requirements for closure of an onsite treatment unit. Unless they are exempt, Permit by Rule (PBR) and Conditionally Authorized (CA) operations are required to provide financial assurance for closure costs (per 22 CCR Section 67450.13 (b) and HSC Section 25245.4). If your facility is subject to financial assurance requirements or claiming an exemption, then complete the Certification of Financial Assurance page.
13. REMOTE WASTE CONSOLIDATION SITE - Check the appropriate box to indicate whether your facility consolidates hazardous waste generated at a remote site. Answer "YES" if you are a hazardous waste generator that collects hazardous waste initially at remote sites and subsequently transports the hazardous waste to a consolidation site you also operate. You must be eligible pursuant to the conditions in HSC Section 25110.10. If your facility consolidates hazardous waste generated at a remote site, then complete the Remote Waste Consolidation Site Annual Notification page.
14. HAZARDOUS WASTE TANK CLOSURE - Check the appropriate box to indicate whether the tank being closed would be classified as hazardous waste after its contents are removed. Classification could be based on:
    - –Your knowledge of the tank and its contents
    - –Testing of the tank
    - –Inability to remove hazardous materials stored in the tank.
    - –The mixture rule
    - –The listed wastes in 40 CFR 261.31 or 40 CFR 261.32.

    If the tank being closed would be classified as hazardous waste after its contents are removed, then you must complete the Hazardous Waste Tank Closure Certification page.
15. LOCAL REQUIREMENTS - If you generate Medical Waste you are required to obtain a Health Permit and submit a Biomedical Waste Management Plan. In addition to this, if you generate ≥200 lbs on medical waste per month and treat any amount of medical waste on site you may be required to apply for a medical waste treatment permit with the HMD. TOXIC GASES: If you handle toxic gases with threshold limit concentration (TLV) ≤10 ppm in any quantity, you are required to obtain a Health Permit and submit an HMD Hazardous Materials Business Plan.

UPF Permit#: 203564

DATE INSPECTED: 12/27/06

UNIFIED PROGRAM FACILITY PERMIT APPLICATION

☒ This business or service is required to obtain a Unified Program Facility Permit from the San Diego County Department of Environmental Health. I answered "yes" to one or more of the questions on the "Business Activities" form.
Date assumed business ownership at this location: 2/1/06

This permit does not excuse any owner or operator from complying with all applicable federal, state, county or local laws, ordinances or regulations. The owner or operator is required to determine if another permit or approval from any other agency or department is necessary. The County, by issuing this permit, does not relinquish its right to enforce any violation of law.

☐ I have determined that this business or service does not require a Unified Program Facility Permit from the San Diego County Department of Environmental Health.

I declare under penalty of perjury that to the best of my knowledge and belief the statements made herein are correct and true. I consent to all necessary inspections allowed by law and incidental to the issuance of required permit(s) and the operation of this business.

Signature: _____ Title: Manager

Printed Name: Stephen Griswold Date: 9/5/06

Type of Business: medical Equipment/ Pharmacy Phone #: (619) 644-2170

Please complete the business information on the following page and return this application to the San Diego County Department of Environmental Health at:

SAN DIEGO COUNTY
DEPARTMENT OF ENVIRONMENTAL HEALTH
HAZARDOUS MATERIALS DIVISION
P.O. BOX 129261
SAN DIEGO CA 92112-9261

If a San Diego County Unified Program Facility Permit is required for your business or service a representative of this Department will contact your business. Permit fees will be determined from the contact and a billing statement will be mailed.

NOTE: If you do not use hazardous materials, generate hazardous waste, or have underground storage tanks you are still required to return this form.

A representative of the San Diego County Department of Environmental Health may contact you to verify the information provided on this application.

Business Owner/Operator Identification

Please submit the Business Activities page, the Business Owner/Operator Identification page (OES Form 2730), and Hazardous Materials - Chemical Description pages (OES Form 2731) for all hazardous materials inventory submissions. For the inventory to be considered complete this page must be signed by the appropriate individual.
(Note: the numbering of the instructions follows the data element numbers that are on the UPCF pages. These data element numbers are used for electronic submission and are the same as the numbering used in 27 CCR, Appendix C, the Business Section of the Unified Program Data Dictionary.)
Please number all pages of your submittal. This helps your CUPA or AA identify whether the submittal is complete and if any pages are separated.

ALWAYS SUBMIT A COPY OF THIS COMPLETED PAGE WITH SUBMITTAL OF ANY OTHER UNIFIED PROGRAM CONSOLIDATED FORM.

1. FACILITY ID NUMBER - Enter your 6 character Permit # on your Unified Program Facility Permit (UPFP If you do not have a Unified Program Facility Permit, leave this blank.
3. BUSINESS NAME - Enter the full legal name of the business. This is the same as the terms "Facility Name" or "DBA" - Doing Business As.
100. BEGINNING DATE - Enter the beginning year and date (YYYYMMDD) of the inventory report, recyclable materials report, or on-site tiered permitting report for PBR sites.
101. ENDING DATE - Enter the ending year and date (YYYYMMDD) of the reports identified in #100.
102. BUSINESS PHONE - Enter the phone number, area code first, and any extension.
103. BUSINESS SITE ADDRESS - Enter the street address where the facility is located. No post office box numbers are allowed. This information must provide a means to geographically locate the facility. If the mailing address is different, complete #113- #116.
104. CITY - Enter the city or unincorporated area in which business site is located.
105. ZIP CODE - Enter the zip code of business site. The extra 4-digit zip may also be added.
106. DUN & BRADSTREET - Enter the Dun & Bradstreet number for the facility. If you do not have one, leave this field blank.
107. SIC CODE - Enter the primary Standard Industrial Classification Code number for primary business activity. NOTE: If code is more than 4 digits, report only the first four.
108. COUNTY - Enter the county in which the business site is located.
109. BUSINESS OPERATOR NAME - Enter the name of the business operator which is the name used for mailing correspondence.
110. BUSINESS OPERATOR PHONE - Enter business operator phone number, if different from business phone, area code first, and any extension.
111. OWNER NAME - Enter name of business owner, if different from business operator.
112. OWNER PHONE - Enter the business owner's phone number if different from business phone, area code first, and any extension.
113. OWNER MAILING ADDRESS - Enter the owner's mailing address where business related correspondence should be sent, if different from business site address.
114. OWNER CITY - Enter the name of the city for the owner's mailing address.
115. OWNER STATE - Enter the 2 character state abbreviation for the owner's mailing address.
116. OWNER ZIP CODE - Enter the zip code for the owner's address. The extra 4-digit zip may also be added.
117. ENVIRONMENTAL CONTACT NAME - Enter the name of the person, if different from the Business Owner or Operator, who will respond to enforcement activity.
118. CONTACT PHONE - Enter the phone number, if different from Owner or Operator, at which the environmental contact can be contacted.
119. CONTACT MAILING ADDRESS - Enter the mailing address where all environmental contact correspondence should be sent.
120. CITY - Enter the name of the city for the environmental contact's mailing address.
121. STATE - Enter the 2 character state abbreviation for the environmental contact's mailing address.
122. ZIP CODE - Enter the zip code for the environmental contact's mailing address. The extra 4-digit zip may also be added.
123. PRIMARY EMERGENCY CONTACT NAME - Enter the name of a representative that can be contacted in case of an emergency involving hazardous materials at the business site. The contact shall have FULL facility access, site familiarity, and authority to make decisions for the business regarding incident mitigation.
124. TITLE - Enter the title of the primary emergency contact.
125. BUSINESS PHONE - Enter the business number for the primary emergency contact, area code first, and any extensions.
126. 24-HOUR PHONE - Enter a 24-hour phone number for the primary emergency contact. The 24-hour phone number must be one which is answered 24 hours a day. If it is not the contact's home phone number, then the service answering the phone must be able to immediately contact the individual stated above.
127. PAGER NUMBER - Enter the pager number for the primary emergency contact, if available.
128. SECONDARY EMERGENCY CONTACT NAME - Enter the name of a secondary representative that can be contacted in the event that the primary emergency contact is not available. The contact shall have FULL facility access, site familiarity, and authority to make decisions for the business regarding incident mitigation.
129. TITLE - Enter the title of the secondary emergency contact.
130. BUSINESS PHONE - Enter the business telephone number for the secondary emergency contact, area code first, and any extension.
131. 24-HOUR PHONE - Enter a 24-hour phone number for the secondary emergency contact. The 24-hour phone number must be one that is answered 24 hours a day. If it is not the contact's home phone number, then the service answering the phone must be able to immediately contact the individual stated above.
132. PAGER NUMBER - Enter the pager number for the secondary emergency contact, if available.
133. ADDITIONAL LOCALLY COLLECTED INFORMATION - This space may be used for CUPAs or AAs to collect any additional information necessary to meet the requirements of their individual programs. Contact your local agency for guidance.
134. DATE - Enter the date that the document was signed. (YYYYMMDD)
135. NAME OF DOCUMENT PREPARER - Enter the full name of the person who prepared the inventory submittal information.
136. NAME OF SIGNER - Enter the full printed name of the person signing the page. The signer certifies to a familiarity with the information submitted and that based on the signer's inquiry of those individuals responsible for obtaining the information, all the information submitted is true, accurate and complete.

SIGNATURE OF OWNER/ OPERATOR OR DESIGNATED REPRESENTATIVE - The Business Owner/Operator, or officially designated representative of the Owner/Operator, shall sign in the space provided. This signature certifies that the signer is familiar with the information submitted and that based on the signer's inquiry of those individuals responsible for obtaining the information it is the Signer's belief that the submitted information is true, accurate and complete.

137. TITLE OF SIGNER - Enter the title of the person signing the page.

UNIFIED PROGRAM FACILITY PERMIT APPLICATION

☒ This business or service is required to obtain a Unified Program Facility Permit from the San Diego County Department of Environmental Health. I answered "yes" to one or more of the questions on the "Business Activities" form.
Date assumed business ownership at this location: 9/18/05

☐ I have determined that this business or service does not require a Unified Program Facility Permit from the San Diego County Department of Environmental Health.

I declare under penalty of perjury that to the best of my knowledge and belief the statements made herein are correct and true. I consent to all necessary inspections allowed by law and incidental to the issuance of required permit(s) and the operation of this business.

Signature: Deborah Barry Title: Licensed Acupuncturist

Printed Name: Deborah Barry Date: 8/23/05

Type of Business: Acupuncture Phone #: (619) 469-2027
Area Code

Please complete the business information on the following page and return this application to the San Diego County Department of Environmental Health at:

SAN DIEGO COUNTY
DEPARTMENT OF ENVIRONMENTAL HEALTH
HAZARDOUS MATERIALS DIVISION
P.O. BOX 129261
SAN DIEGO CA 92112-9261

If a San Diego County Unified Program Facility Permit is required for your business or service a representative of this Department will contact your business. Permit fees will be determined from the contact and a billing statement will be mailed.

NOTE: If you do not use hazardous materials, generate hazardous waste, or have underground storage tanks you are still required to return this form.

A representative of the San Diego County Department of Environmental Health may contact you to verify the information provided on this application.

To Whom It May Concern:

Re: Haz Mat for Full Circle Acupuncture Clinic, Needle Disposal

As per section 40191 of Public Health Ordinance, item 'C', Steam Sterilization.

Pre-disposal sterilization of acupuncture needles shall be:

1) For a minimum of 30 minutes at 250 degrees Fahrenheit or greater.
2) Each sharps container shall be sealed with heat sensitive autoclave tape.
3) Each sharps container shall be labeled with our address and name.
4) Each sharps container shall be recorded and labeled by date of sterilization and disposal as well as person responsible for sterilization prior to disposal.
5) Once per month (as needed for disposal of sharps) the biological bacillus stearothermophilus (or other adequate indicator) shall be placed at the center of the load to confirm adequate sterilization.
6) Once per year autoclave shall be inspected and calibrated.
7) Records shall be retained for a minimum of 3 years.
8) Procedures shall be monitored, performed and recorded by Adam Mindell, L.Ac. or Deborah J. Barry, L.Ac.

Thank you and if you have any questions, please call me at the above number.

Sincerely,

Deborah Barry L.Ac.

Adam Mindell, L.Ac.

MEDICAL WASTE REQUIREMENTS COMPLIANCE INSPECTION REPORT

Business Address 7200 Parkway Dr. #116 Zip Code 91942

VIOLATION REPORT: *The items checked below refer to specific section numbers of the California Health and Safety Code Sections 25100 and 117600 et. al.; County Code of Regulatory Ordinances Sections 68.1201 et. al.; and California Code of Regulations, Title 22 Sections 65600 et. al.*

All violations must be corrected. Submit documentation of return to compliance to your Specialist. You may use the Corrective Action Form to document your return to compliance. Your Specialist can provide these forms. Please call (619) 338-2222 or your Specialist if you have any questions.

Storage And Labeling

	Violation	Violation Description
☐	V4201	UPF Permit not obtained. 117705, 68.905
☐	V4202	Medical Waste (MW) not separated from other waste at point of origin. 118275
☐	V4203	Enclosure or designated accumulation area for MW containers not secured. 118310
☐	V4204	MW storage area not posted with an approved and legible biohazardous waste "warning sign" in English and Spanish. 118310
☒	V4205	Medical SOLID WASTE not secured to deny access to unauthorized persons. 68.1211
☐	V4206	Spill of MW not properly cleaned up. 118300
☐	V4207	Sharps not stored in approved and properly marked sharps container. 118275
☐	V4208	Full sharps container not taped, closed or tightly lidded to preclude loss of contents. 118285
☐	V4209	Red bags/sharps container not labeled with generator's name, address and phone number. 68.1205, 68.1206
☐	V4210	MW not stored in approved and properly marked red bags. 118275
☐	V4211	Red bags not tied off to prevent leakage/expulsion of contents during handling and storage. 118280
☐	V4212	Red bags not containerized in rigid, leak resistant and covered containers or bins. 118280
☐	V4213	Waste container/bin not labeled on the lid and side so as to be clearly visible. 118280
☐	V4214	Reusable containers/bins for MW storage not kept clean/sanitary. 118295, 118305
☐	V4215	Frozen (0C/32°F) MW stored > 90 days. 118280
☐	V4306	Full sharps container stored > 7 days at room temp. 118285
☐	V4307	Red bag waste stored > 7 days at room temperature (for generators of > 20 lbs/month). 118280
☐	V4308	Red bag waste stored > 30 days at room temperature (for generators of < 20 lbs/month). 118280

Treatment and Disposal

☐	V4251	MW treated by unapproved method/procedure. 118215
☐	V4252	Standardized written operating procedures for steam sterilization not available. 118215
☐	V4253	Recording thermometer not calibrated annually. 118215
☐	V4254	No records of thermometer calibration checks onsite for at least the past 3 years. 118215
☐	V4255	Heat-sensitive tape/other approved method not used for each load treated onsite. 118215
☐	V4256	Monthly biological indicator or other approved method not used to confirm proper disinfection. 118215
☐	V4257	Onsite Steam Sterilization did not reach 121° C/250° F for 30 minutes. 118215
☐	V4258	Treatment records/logs of dates, time and temperature not available for 3 years. 118215
☐	V4259	Disposal of untreated MW to an unauthorized point. 118340

Transportation Requirements

	Violation	Violation Description
☐	V4260	Transportation of MW without State Hauler Registration or a (LQHE) from HMD. 118025
☐	V4304	No LQHE for "self-hauled" MW (<20 pounds of waste/wk). 118030. 118025
☐	V4305	LQHE not renewed annually as required. 118030
☐	V4311	Medical Waste tracking documents not in vehicle transporting MW. 118040
☐	V4312	MW tracking documents/logs not maintained for 3 years for LQHE. 118040

Small Quantity Generators Only (<200 lbs/mo MW)

☐	V4301	Medical Waste Mgmt. Plan (MWMP) not submitted to HMD (initial/updates if onsite treatment). 117935
☐	V4302	Did not maintain or show proof of "onsite" medical waste treatment records for 3 years. 118215, 117943
☐	V4303	Did not retain on file disposal receipts/tracking documents for waste shipped offsite for 2 years. 117945
☐	V4309	MWMP or equivalent information not onsite. 117945

Large Quantity Generators Only (>=200 lbs/mo MW)

☐	V4351	MWMP not submitted to HMD (initial/updates). 117950, 117960, 117970
☐	V4352	Records of MW treatment not available for 3 years. 118215, 117975
☐	V4353	Did not retain on file disposal receipts/tracking documents for at least 3 years for waste shipped offsite. 117975

Pathology, Chemotherapy, Pharmac & Hazardous Waste

☐	V4401	Chemo waste not segregated from other MW. 118275
☐	V4402	Chemo waste container not properly labeled. 118275
☐	V4403	Illegal disposal of chemo waste. 118340
☐	V4411	Pathology waste not segregated from other MW. 118275
☐	V4412	Pathology waste container not properly labeled. 118275
☐	V4413	Illegal disposal of pathology waste. 118340
☐	V4421	Pharmwaste not segregated from other MW. 118275 (g)
☐	V4422	Pharmwaste not properly labeled. 118275(g)

UNIFIED PROGRAM FACILITY PERMIT APPLICATION

☒ This business or service is required to obtain a Unified Program Facility Permit from the San Diego County Department of Environmental Health. I answered "yes" to one or more of the questions on the "Business Activities" form.
Date assumed business ownership at this location:

This permit does not excuse any owner or operator from complying with all applicable federal, state, county or local laws, ordinances or regulations. The owner or operator is required to determine if another permit or approval from any other agency or department is necessary. The County, by issuing this permit, does not relinquish its right to enforce any violation of law.

☐ I have determined that this business or service does not require a Unified Program Facility Permit from the San Diego County Department of Environmental Health.

I declare under penalty of perjury that to the best of my knowledge and belief the statements made herein are correct and true. I consent to all necessary inspections allowed by law and incidental to the issuance of required permit(s) and the operation of this business.

Signature: _____ Title: CEO

Printed Name: Steve Kenney Date: Sept.21, 2006

Type of Business: Research Phone #: (619) 955-5202 x

Please complete the business information on the following page and return this application to the San Diego County Department of Environmental Health at:

SAN DIEGO COUNTY
DEPARTMENT OF ENVIRONMENTAL HEALTH
HAZARDOUS MATERIALS DIVISION
P.O. BOX 129261
SAN DIEGO CA 92112-9261

If a San Diego County Unified Program Facility Permit is required for your business or service a representative of this Department will contact your business. Permit fees will be determined from the contact and a billing statement will be mailed.

NOTE: If you do not use hazardous materials, generate hazardous waste, or have underground storage tanks you are still required to return this form.

A representative of the San Diego County Department of Environmental Health may contact you to verify the information provided on this application.

On the above date, the County inspected your business under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). **This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6.** This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

▪ Handle Toxic gases with threshold limit concentration (TLV) # 10 ppm in any quantity?	☐ YES ☒ NO

Business Activities

Submit the Business Activities page and the Business Owner/Operator Identification page for all submissions. NOTE: The numbering of the instructions follows the data element numbers that are on this form. These data element numbers are used for electronic submission and are the same as the numbering used in Division 3, Electronic Submittal of Information and the Business Section of the Unified Program Data Dictionary. Please number all pages of your submittal. This helps the San Diego County, Department of Environmental Health (DEH), Hazardous Materials Division (HMD) identify whether the submittal is complete and if any pages are separated.

1. FACILITY ID NUMBER- Enter the 6 character Permit # on your Unified Program Facility Permit (UPFP). If you do not have a Unified Program Facility Permit leave this blank.
2. EPA ID NUMBER- Enter your facility's 12-character U.S. EPA ID #. If you do not have a number, contact the Department of Toxic Substances Control (DTSC) at (800) - 61-TOXIC or (800) 618-6942, to obtain one.
3. BUSINESS NAME- Enter the full legal name of the business. This is the same as the terms "Facility Name" or "DBA" Doing Business As.

103. BUSINESS SITE ADDRESS- Enter the street address where the facility is located. No post office box numbers are allowed. This information must provide a means to geographically locate the facility.

104. BUSINESS SITE CITY- Enter the city or unincorporated area in which business site is located.

105. ZIP CODE- Enter the zip code of business site. Zip +4 may also be added.

4. HAZARDOUS MATERIALS ONSITE- Check the appropriate box to indicate whether you have a hazardous material onsite in the quantities listed in section A of this form. If "Yes", then you must then complete the Business Owner/Operator Identification page (DEH:HM-9702) and the Hazardous Materials Inventory - Chemical Description page (DEH:HM-9703), as well as a complete Hazardous Materials Business Plan (DEH:HM-952) and Hazardous Materials Business Plan Certification Statement (DEH:HM953).

4a. REGULATED SUBSTANCES– Refer to www.oes.ca.gov, hazardous materials, CalARP guidance documents for regulated substances required by 19 CCR 2770.5. Check the box to indicate whether your facility has CalARP regulated substances stored onsite.

5. OWN OR OPERATE UNDERGROUND STORAGE TANK (UST)- Check the appropriate box to indicate whether you own or operate (or plan to install or upgrade) USTs containing hazardous substances as defined in Health and Safety Code (HSC) Section 25316. If "YES," then you must complete one UST Facility page and UST Tank pages for each tank. You must also submit a monitoring program plan (See HMD handout DEH:HM-9222). If you are installing USTs, then you must complete the UST Installation- Certificate of Compliance page in addition to UST Facility and Tank pages, plot plan and monitoring program plan and the DEH instalation, upgrade permit applications. If you are closing an UST, complete the closure portion of the UST Tank pages for each tank. Submit a DEH closure application. Contact the HMD at (800) 253-9933.

8. OWN OR OPERATE ABOVEGROUND PETROLEUM STORAGE TANKS OR CONTAINERS- Check the appropriate box to indicate whether there is petroleum stored onsite which exceed the regulatory thresholds. Petroleum means crude oil, or any fraction thereof, which is liquid at 60 degrees Fahrenheit temperature and 14.7 pounds per square inch absolute pressure (HSC Section 25270.2 (g)).The facility must have a cumulative storage capacity greater than 1,320 gallons for all ASTs. NOT Subject to the Act (exemptions):
   An aboveground petroleum storage tank (AST) facility with one or more of the following (see HSC 25270.2 (k)) is not subject to this act and is exempt:
   - A pressure vessel or boiler which is subject to Division 5 of the Labor Code,
   - A storage tank containing hazardous waste if a hazardous waste facility permit has been issued for the storage tank by DTSC,
   - An aboveground oil production tank which is regulated by the Division of Oil and Gas,
   - Certain oil-filled electrical equipment including but not limited to transformers, circuit breakers, or capacitors.
9. HAZARDOUS WASTE GENERATOR- Check the appropriate box to indicate whether your facility generates hazardous waste. A generator is the person or business whose acts or processes produce a hazardous waste or who causes a hazardous substance or waste to become subject to state hazardous waste law. Hazardous waste means a waste that meets any of the criteria for the identification of a hazardous waste adopted by DTSC pursuant to HSC 25141. "Hazardous waste" includes, but is not limited to, federally regulated hazardous waste. Federal hazardous waste law is known as the Resource Conservation and Recovery Act (RCRA). Unless explicitly stated otherwise, the term "hazardous waste" also includes extremely hazardous waste and acutely hazardous waste.
10. RECYCLE - Check the appropriate box to indicate whether your facility recycles more than 100 kilograms per month of recyclable material under a claim that the material is excluded or exempt per HSC Section 25143.2. Check "YES" and complete the Recyclable Materials Report pages, if you either recycled onsite or recycled excluded recyclable materials which were generated offsite. Check "NO" if you only send recyclable materials to an offsite recycler. You do not need to report.
11. ONSITE HAZARDOUS WASTE TREATMENT- Check the appropriate box to indicate whether your facility engages in onsite treatment of hazardous waste. "Treatment" means any method, technique, or process which is designed to change the physical, chemical, or biological character or composition of an hazardous waste or any material contained therein, or removes or reduces its harmful properties or characteristics for any purpose. Please contact the HMD to determine if any exemptions apply to your facility. If your facility engages in onsite treatment of hazardous waste then complete the Onsite Hazardous Waste Treatment Notification- Facility page and one set of Onsite Hazardous Waste Treatment Notification- Unit pages with waste and treatment process information for each unit.
12. FINANCIAL ASSURANCE- Check the appropriate box to indicate whether your facility is subject to financial assurance requirements for closure of an onsite treatment unit. Unless they are exempt, Permit by Rule (PBR) and Conditionally Authorized (CA) operations are required to provide financial assurance for closure costs (per 22 CCR Section 67450.13 (b) and HSC Section 25245.4). If your facility is subject to financial assurance requirements or claiming an exemption, then complete the Certification of Financial Assurance page.
13. REMOTE WASTE CONSOLIDATION SITE- Check the appropriate box to indicate whether your facility consolidates hazardous waste generated at a remote site. Answer "YES" if you are a hazardous waste generator that collects hazardous waste initially at remote sites and subsequently transports the hazardous waste to a consolidation site you also operate. You must be eligible pursuant to the conditions in HSC Section 25110.10. If your facility consolidates hazardous waste generated at a remote site, then complete the Remote Waste Consolidation Site Annual Notification page.
14. HAZARDOUS WASTE TANK CLOSURE- Check the appropriate box to indicate whether the tank being closed would be classified as hazardous waste after its contents are removed. Classification could be based on:
   –Your knowledge of the tank and its contents
   –Testing of the tank
   –Inability to remove hazardous materials stored in the tank.
   –The mixture rule
   –The listed wastes in 40 CFR 261.31 or 40 CFR 261.32.

   If the tank being closed would be classified as hazardous waste after its contents are removed, then you must complete the Hazardous Waste Tank Closure Certification page.

14a. RCRA LQG - Check the appropriate box to indicate whether your facility is a Large Quantity Generator. If YES, you must have obtain a US EPA ID Number.

14b. HOUSEHOLD HAZARDOUS WASTE COLLECTION- Check the appropriate box to indicate whether your facility is a HHW Collection site.

15. LOCAL REQUIREMENTS- If you generate ≥200 lbs on medical waste per month and treat any amount of medical waste on site you may be required to apply for a medical waste treatment permit with the HMD. TOXIC GASES: If you handle toxic gases with threshold limit concentration (TLV) ≤10 ppm in any quantity, you are required to obtain a Health Permit and submit an HMD Hazardous Materials Business Plan

UPF Permit#: 217875

DATE INSPECTED: 10 / 13 / 10

UNIFIED PROGRAM FACILITY PERMIT APPLICATION

☑ This business or service is required to obtain a Unified Program Facility Permit from the San Diego County Department of Environmental Health. I answered "yes" to one or more of the questions on the "Business Activities" form.

Date assumed business ownership at this location: 09 / 01 / 10

This permit does not excuse any owner or operator from complying with all applicable federal, state, county or local laws, ordinances or regulations. The owner or operator is required to determine if another permit or approval from any other agency or department is necessary. The County, by issuing this permit, does not relinquish its right to enforce any violation of law.

☐ I have determined that this business or service does not require a Unified Program Facility Permit from the San Diego County Department of Environmental Health.

I declare under penalty of perjury that to the best of my knowledge and belief the statements made herein are correct and true. I consent to all necessary inspections allowed by law and incidental to the issuance of required permit(s) and the operation of this business.

Business Owner/Operator Identification

Please submit the Business Activities page, the Business Owner/Operator Identification page, and Hazardous Materials - Chemical Description pages for all hazardous materials inventory submissions. For the inventory to be considered complete this page must be signed by the appropriate individual. (Note: the numbering of the instructions follows the data element numbers that are on the Unified Program Consolidated Form (UPCF) pages. These data element numbers are used for electronic submission and are the same as the numbering used in Division 3, Electronic Submittal of Information.) Please number all pages of your submittal. This helps your CUPA or AA identify whether the submittal is complete and if any pages are separated.

ALWAYS SUBMIT A COPY OF THIS COMPLETED PAGE WITH SUBMITTAL OF ANY OTHER UNIFIED PROGRAM CONSOLIDATED FORM.

1. FACILITY ID NUMBER - Enter your 6 character Permit # on your Unified Program Facility Permit (UPFP). If you do not have a Unified Program Facility Permit, leave this blank.
3. BUSINESS NAME - Enter the full legal name of the business. This is the same as the terms "Facility Name" or "DBA" - Doing Business As.
100. BEGINNING DATE - Enter the beginning year and date (YYYYMMDD) of the inventory report, recyclable materials report, or on-site tiered permitting report for PBR sites.
101. ENDING DATE - Enter the ending year and date (YYYYMMDD) of the reports identified in #100.
102. BUSINESS PHONE - Enter the phone number, area code first, and any extension.
102a. BUSINESS FAX – Enter the business fax number, area code first.
103. BUSINESS SITE ADDRESS - Enter the street address where the facility is located. No post office box numbers are allowed. This information must provide a means to geographically locate the facility If the mailing address is different, complete #108a- #108d.
104. CITY - Enter the city or unincorporated area in which business site is located.
105. ZIP CODE - Enter the zip code of business site. The zip + 4 may also be added.
106. DUN & BRADSTREET - Enter the Dun & Bradstreet number for the facility If you do not have one, leave this field blank.
107. PRIMARY SIC NUMBER - Enter the primary Standard Industrial Classification system number for primary business activity. Required for EPCRA. NOTE: If code is more than 4 digits, report only the first four
107a. PRIMARY NAICS NUMBER - Enter the primary North American Industrial Classification System number
108. COUNTY - Enter the county in which the business site is located.
108a. BUSINESS MAILING ADDRESS – Enter the mailing address to be used for all oficial business correspondence. This mailing address must be filled in.
108b. BUSINESS MAILING CITY - Enter the name of the city for the business mailing address.
108c. STATE - Enter the two character abbreviation of the state for the business mailing address.
108d. ZIP CODE - Enter the zip code for the business mailing address. The zip + 4 may also be added.
109. BUSINESS OPERATOR NAME - Enter the name of the business operator which is the name used for mailing correspondence.
110. BUSINESS OPERATOR PHONE - Enter business operator phone number, if different from business phone, area code first, and any extension.
111. BUSINESS OWNER NAME - Enter name of business owner, if different from business operator.
112. BUSINESS OWNER PHONE - Enter the business owner's phone number if diferent from business phone, area code first, and any extension.
113. BUSINESS OWNER MAILING ADDRESS - Enter the owner's mailing address where business related correspondence should be sent, if different from business site address.
114. BUSINESS OWNER CITY - Enter the name of the city for the owner's mailing address.
115. BUSINESS OWNER STATE - Enter the 2 character state abbreviation for the owner's mailing address.
116. BUSINESS OWNER ZIP CODE - Enter the zip code for the owner's address. The zip + 4 may also be added.
117. ENVIRONMENTAL CONTACT NAME - Enter the name of the person who receives all environmental correspondence.
118. CONTACT PHONE - Enter the phone number at which the environmental contact area code first, and any extension.
119. CONTACT MAILING ADDRESS - Enter the mailing address where all environmental contact correspondence should be sent.
119a. CONTACT EMAIL – Enter the email address of the environmental contact in 117, if the contact has one.
120. CONTACT MAILING CITY - Enter the name of the city for the environmental contact's mailing address.
121. STATE - Enter the 2 character state abbreviation for the environmental contact's mailing address.
122. ZIP CODE - Enter the zip code for the environmental contact's mailing address. The zip + 4 may also be added.
123. PRIMARY EMERGENCY CONTACT NAME - Enter the name of a representative that can be contacted in case of an emergency involving hazardous materials at the business site. The contact shall have FULL facility access, site familiarity and authority to make decisions for the business regarding incident mitigation.
124. TITLE - Enter the title of the primary emergency contact.
125. BUSINESS PHONE - Enter the business number for the primary emergency contact, area code first, and any extension.
126. 24-HOUR PHONE - Enter a 24-hour phone number for the primary emergency contact. The 24-hour phone number must be one which is answered 24 hours a day. If it is not the contact's home phone number, then the service answering the phone must be able to immediately contact the individual stated above.
127. PAGER NUMBER - Enter the pager number for the primary emergency contact, if available.
128. SECONDARY EMERGENCY CONTACT NAME - Enter the name of a secondary representative that can be contacted in the event that the primary emergency contact is not available. The contact shall have FULL facility access, site familiarity, and authority to make decisions for the business regarding incident mitigation.
129. TITLE - Enter the title of the secondary emergency contact.
130. BUSINESS PHONE - Enter the business telephone number for the secondary emergency contact, area code first, and any extension.
131. 24-HOUR PHONE - Enter a 24-hour phone number for the secondary emergency contact. The 24-hour phone number must be one that is answered 24 hours a day. If it is not the contact's home phone number, then the service answering the phone must be able to immediately contact the individual stated above.
132. PAGER NUMBER - Enter the pager number for the secondary emergency contact, if available.
133. ADDITIONAL LOCALLY COLLECTED INFORMATION - This space may be used for CUPAs or AAs to collect any additional information necessary to meet the requirements of their individual programs. Contact your local agency for guidance.
134. DATE - Enter the date that the document was signed. (YYYYMMDD)
135. NAME OF DOCUMENT PREPARER - Enter the full name of the person who prepared the inventory submittal information.
136. NAME OF SIGNER - Enter the full printed name of the person signing the page. The signer certifies to a familiarity with the information submitted and that based on the signer's inquiry of those individuals responsible for obtaining the information, all the information submitted is true, accurate and complete.

SIGNATURE OF OWNER/ OPERATOR OR DESIGNATED REPRESENTATIVE - The Business Owner/Operator, or officially designated representative of the Owner/Operator, shall sign in the space provided. This signature certifies that the signer is familiar with the information submitted and that based on the signer's inquiry of those individuals responsible for obtaining the information it is the Signer's belief that the submitted information is true, accurate and complete.

137. TITLE OF SIGNER - Enter the title of the person signing the page.

HAZARDOUS MATERIALS BUSINESS PLAN CERTIFICATION

The California Health & Safety Code (H&SC), Division 20, Chapter 6.95, Section 25505 provides for the following:
The County of San Diego, Department of Environmental Health, Hazardous Materials Division (HMD), as the administering agency, requires a business that handles hazardous materials to submit the hazardous materials inventory, a list of emergency contacts, and a site plan, **in lieu of a complete Hazardous Materials Business Plan (HMBP),** only after the initial submittal of a complete HMBP. A complete HMBP includes the items to be submitted to the HMD and an Emergency Response Plan and Employee Training Plan, as established in H&SC Section 25504. The business must annually certify that a complete HMBP has been prepared, is current and is maintained at the site where the hazardous materials are stored. See *Back* for instructions and further clarification

II. CERTIFICATION STATEMENT

☐ **CARCINOGEN/REPRODUCTIVE TOXIN ANNUAL RENEWAL WITHOUT CHANGES: This is an annual renewal to certify that the list of carcinogens and/or reproductive toxins last provided is a current list as specified in the San Diego County Code of Regulatory Ordinances Section 68.1113.**

Check only ONE of the following boxes:

☐ **INITIAL CERTIFICATION: This is to certify (H&SC Section 25505(e)(1)) that a complete HMBP, which includes the hazardous materials inventory, a list of emergency contacts, a site plan, emergency response plan, and employee training plan, has been prepared and is maintained at the site where the hazardous materials are stored.**

☒ **ANNUAL CERTIFICATION WITHOUT CHANGES: This is an annual certification (H&SC Section 25505(d) & (e)(2)) that the HMBP, which includes the hazardous materials inventory, a list of emergency contacts, a site plan, emergency response plan, and employee training plan, is current and includes all the information required in H&SC Section 25504, and 25509, and is maintained at the site where the hazardous materials are stored.**

☐ **CERTIFICATION OF CHANGES/REVISIONS: This is to certify that the HMBP has been reviewed (H&SC Section 25505(c) & 25510) and all necessary changes/revisions have been made. The HMBP is current and is maintained at the site where the hazardous materials are stored. Attached are changes to the hazardous materials inventory and/or list of emergency contacts. For site map revisions, submit only the pages that have a change or revision and attach to this certification. This submittal satisfies annual certification requirements specified in H&SC Section 25505(d) & (e)(2).**

As an Authorized Representative, I certify, under the penalty of law, that I have personally examined and am familiar with the information submitted and believe the information is true, accurate, and complete. By checking any of the boxes above I also certify that: a) The information contained in the hazardous materials inventory most recently submitted to the CUPA or Administering Agency is complete, accurate, and up to date; b) There has been no change in the quantity of hazardous materials reported in the most recently submitted inventory; and c) All hazardous materials subject to inventory requirements are listed on the most recently submitted inventory.

FACILITY NAME Bob Bowen's Auto Service
ADDRESS 7191 Alvarado Rd.
CITY/ZIP La Mesa 91941

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). **This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6.** This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

DEH 2010 - HUPFP - 212875

COUNTY OF SAN DIEGO CUPA
DEPARTMENT OF ENVIRONMENTAL HEALTH
HAZARDOUS MATERIALS DIVISION
P.O. BOX 129261, SAN DIEGO, CA 92112-9261
PHONE: (858) 505-6700; FAX: (858) 505-6848; Email: hmdutyeh@sdcounty.ca.gov

CERS ACCESS/I.D. REQUEST FORM

All Certified Unified Program Agency (CUPA) regulated businesses are required by law (Assembly Bill 2286) to submit business information electronically through the California Environmental Reporting System (CERS). This includes information related to your:

- Unified Program Facility Permit
- Hazardous Materials Business Plan
- Hazardous Waste
- Hazardous Waste Onsite Treatment
- Hazardous Waste Tank Closures
- Remote Waste Consolidation
- Recyclable Materials Reports
- Underground Storage Tanks
- Aboveground petroleum storage over 1,320 gallons
- Medical Waste**

A CERS I.D. is required in order to obtain or maintain a valid Unified Program Facility Permit. Please send your completed form to the County of San Diego Hazardous Materials Division (address above). When your CERS account is established, your designated lead users will receive an email with directions to begin electronic reporting.

** In San Diego County, Medical Waste Generators are required to report in CERS in order to receive a valid permit.

I. IDENTIFICATION

- ☐ **Change of Owner**: a business is sold to a new owner.
- ☐ **Relocation**: a business moves to a new address and owner remains the same.
- ☐ **New Business**: a business opens in a vacant or newly constructed building.
- ☒ **CERS Assistance Requested**: none of the above are applicable. I need access to my CERS account.

PERMIT/RECORD NUMBER: 37-000-212875

COMPLIANCE INSPECTION REPORT
Small and Large Quantity Generators of Hazardous Waste
Handlers of Hazardous Materials

RECORD ID # 212875
DATE 4 / 29 / 15
PAGE 6 OF 6

FACILITY ADDRESS: 7191 Alvarado Rd **ZIP:** 91942

VIOLATION REPORT: The items checked below refer to specific section numbers of Titles 19, 22 & 27 of the California Code of Regulations (CCR), Chapters 6.5, 6.67 & 6.95 of the Health and Safety Code, and/or the San Diego County Code (SDCC). Small Quantity Hazardous Waste Generator=(SQG); Large Hazardous Waste Quantity Generator=(LQG); Code 40 of Federal Regulations=(CFR).
All violations must be corrected. Submit documentation of return to compliance to your Specialist. You may use the Corrective Action Form (HM-926) to document your return to compliance. Your Specialist can provide this form. Please call (858) 505-6880 or your Specialist if you have any questions.

HAZARDOUS MATERIALS REQUIREMENTS

Viol #	V		VIOLATION DESCRIPTION
	☐	1001	UPF permit not obtained for hazardous materials. SDCC 68.905
	☐	1002	Hazardous Materials Business Plan (HMBP) not established/ implemented in CERS. 25507
11	☐	1004	HMBP not submitted to the CUPA in CERS. 25508
	☐	1005	Emergency contact not provided or current. 25506(a)(7) &/or 25508.1(f)
	☐	1007	Highly toxic gas (TLV≤10 ppm) not disclosed. 68.1113(b)
	☐	1008	Did not submit annual carcinogen/reproductive toxin list. 68.1113(c)
	☐	1009	Site map is not sufficient or complete. 25505(a)(2)
	☐	1010	Did not report release or threatened release. 25510, 19 CCR 2703
	☐	1012	SPCC Plan not prepared. 25270.3 & 25270.4.5(a)
	☐	1014	HMBP is incomplete/inadequate/not amended to reflect changes. 25505, 25506, 25508, 25508.1 &/or 19 CCR 2729 & 2729.1
9	☐	1015	Did not have adequate employee training program 2732 &/or 25505(a)(4)
	☐	1016	Failed to have an adequate emergency response plan 25505(a)(3); 2731
10	☐	1017	Business Plan not certified in CERS at least once every 12 months. 25508.2
	☐	1018	Inventory not amended for 100% increase of hazardous material onsite or inventory is incomplete. 25508.1
	☐	1019	SPCC Plan amendment not prepared within 6 months of change. 25270.4.5(a) [ref. CFR 112.1(b) & CFR 112.5]
	☐	1020	Failed to submit Unified Program Facility information in CERS to the CUPA for regulated activity or change of information. HSC 25508(a)(1), 25508.1 &/or SDCC 68.906; 68.909; &/or 68.908.2

HAZWASTE REQUIREMENTS FOR LQGs & SQGs

RECORDKEEPING

	☐	0131	Unified Program Facility (UPF) permit not obtained. SDCC 68.905
	☐	0132	Failed to obtain & maintain a valid EPA ID Number. 66262.12(a)
	☐	0133	Failed to send manifest copy to DTSC. 66262.23(a)(4)
	☐	0134	Failed to file Exception Report with DTSC. 66262.42
	☐	0135	Failed to keep hazardous waste manifests/receipts for 3 years available for inspection. 66262.40(a) & 25160.2(b)(3), 25185(a)(4)
	☐	0136	Did not have records of battery disposal. 66266.81(a)(4)(B)
	☐	0137	Failed to complete manifest properly. 66262.23(a)
	☐	0138	Manifest signed by the TSDF not available for inspection. 66262.40(a)
	☐	0140	Failed to have LDR documentation onsite. 66268.7(a)(8)
	☐	0141	Failed to obtain approval for TSDF. 25201(a)
	☐	0142	Failed to notify CUPA for eligible onsite treatment. 25201(a)
	☐	0145	ERM reporting not submitted biennially &/or available. 25143.10
	☐	0146	Failed to have adequate records demonstrating claim of exemption for Excluded Recyclable Material (ERM). 25143.2(f) & 66261.2(g)
	☐	0147	Failed to keep records of offsite universal waste (UW) shipment(s) available for inspection for 3 years. 66273.39(c) & (d)(2); 25185(a)(4)
	☐	0148	Failed to keep copies of analytical results, waste analysis records, or waste determination results. (3 years) 66262.40(c)
	☐	0149	Failed to keep disposal receipts (3 years) for drained used oil filters &/or drained fuel filters. 25250.22 & 66266.130(c)(5)

DISPOSAL AND TRANSPORTATION

1	☐	0301	Unauthorized disposal of hazardous waste. 25189.5(a) or 25189(c) or (d) or 25189.2(c)
	☐	0302	Unlawful transportation of hazardous waste (HW). 25163(a)
	☐	0303	Did not use HW manifest for disposal. 66262.20(a); 25160(b)(1) or (2), 25160.2(b)(9)
2	☐	0304	Failed to make a proper waste determination. 66262.11 & 66260.200(c)
	☐	0305	Disposed of used oil illegally. 25250.5(a) & 25189.5(a) or 25189(c) or (d) or 25189.2(c)
	☐	0306	Disposed of latex paint illegally. 25217.1
	☐	0307	Disposed of UW to an unauthorized point. 25189.5(a) or 25189(c) or (d) or 25189.2(c); 66273.31(a)
	☐	0308	Impermissible dilution of hazardous waste. 66268.3(a)

HAZWASTE REQUIREMENTS FOR LQGs & SQGs

Viol #	V		VIOLATION DESCRIPTION
STORAGE AND HANDLING			
	☐	0214	Used oil intentionally contaminated with HW. 25250.7(a)
	☐	0215	Used oil filters improperly managed. 66266.130
	☐	0216	Failed to label hazardous materials within 10 days or less. 25124(b)(3)(A) & 66262.34(f)
	☐	0217	Failed to repackage damaged/deteriorated hazardous material container within 96 hours. 25124(b)(3)(B) & 66262.34(f)
4	☐	0218	Failed to label &/or close drained ☐ used oil filters &/or ☐ used fuel filters. 25250.22 & 66266.130(c)(3)
	☐	0219	Failed to properly segregate used oil &/or fuel drained from filters. 66266.130(c)(6) or 25250.22(b)(4)
	☐	0220	Spent lead acid batteries not properly managed. 66266.81
	☐	0221	Failed to comply with satellite regulations. 66262.34(e)
	☐	0222	Failed to properly label ERM. 25143.9(a)
	☐	0223	Failed to properly manage non-empty container or inner liner removed from a container. 66261.7(b), (d) &/or (r)
	☐	0224	Failed to mark date on empty container larger than 5 gallons &/or manage it within one year. 66261.7(e) & (f)
	☐	0237	Failed to properly dispose of UW within one year. 66273.35(a) &/or (b)
	☐	0238	Failed to manage UW in a manner to prevent release(s) to the environment. 66273.33 & 66273.33.5
	☐	0239	Failed to properly label or mark UW (non-CESQUWG). 66273.34

HAZWASTE REQUIREMENTS FOR SQGs ONLY

STORAGE AND HANDLING Pursuant to 66262.34(d)

	☐	0225	Accumulated waste too long (>180 or 270 days). 66262.34(d), CFR 262.34(e) & (f), &/or 25201(a) [>90 days for an AHW waste]
3	☐	0226	Did not accumulate waste in container or tank. 66262.34(d)(2)
6	☐	0227	Failed to properly label/date hazardous waste container &/or tank. 66262.34(f)
5	☐	0228	Failed to keep container closed. CFR 265.173
7	☐	0229	Failed to conduct weekly inspections. CFR 265.174
	☐	0230	Failed to maintain aisle space. CFR 265.35
	☐	0231	Failed to properly separate incompatible wastes. CFR 265.177
	☐	0232	Waste accumulated in a container in poor condition. CFR 265.171
	☐	0233	Failed to use a lined/compatible container. CFR 265.172
8	☐	0234	Did not maintain &/or operate facility to prevent release or fire. CFR 265.31

TRAINING, CONTINGENCY PLAN & ER PROCEDURES Pursuant to 66262.34(d)(2)

	☐	0407	Employee training program not adequate. CFR 262.34(d)(5)(iii)
	☐	0408	Failed to post ER plan by phone. CFR 262.34(d)(5)(ii)
	☐	0409	Spill/fire control equip not available. CFR 265.32(c)
	☐	0410	Failed to equip facility with internal communication or alarm. CFR 265.32(a) & (b)
	☐	0411	Failed to carry out contingency plan during an emergency. CFR 262.34(d)(5)(iv)
	☐	0412	Failed to have an emergency coordinator on call or available during emergency. CFR 262.34(d)(5)(i)

HAZARDOUS WASTE TANK SYSTEMS Pursuant to 66262.34(d)(2)

	☐	1612	Hazardous waste improperly stored in a tank system causing ☐ leaks, ☐ corrosion, or ☐ failure. CFR 265.201(b)(2)
	☐	1613	Failed to comply with tank standards which include: two (2) feet of freeboard (where applicable), shut off for waste feed line, and daily and weekly inspections. CFR 265.201(b) & (c)
	☐	1614	Failed to properly complete &/or document closure for a hazardous waste tank. CFR 265.201(d) & 67383.3
	☐	1615	Failed to safely accumulate ignitable or reactive waste in a tank. CFR 265.201(e)
	☐	1616	Failed to safely manage incompatible waste in a tank. CFR 265.201(f)

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). **The following statements describe significant violations. This notice requires a formal written response and corrective action within the times specified.**

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

Consent to inspect granted by: ☒ **Inspection Contact** ☒ **Other:** Rob Rowsell, Owner

Request for service pertaining to complaint DEH2015-ACOM-017184 regarding disposal of used oil, transmission fluid, and bad gasoline to a drain located at the west end of the building. Report also stated that engine/parts degreasing activities are conducted at the drain.

Also present during the inspection:
Rob Rowsell, ~~Owner~~ District Manager, Bob Bowen's Auto Service
Claudia Rowsell, Corporate Secretary, Bob Bowen's Auto Service
Manon Maschue, EHS, County of San Diego Hazardous Incident Response Team
Brian Philbin, Engineering Technician I, City of La Mesa
Joe Kuhn, Stormwater Program Manager, City of La Mesa

Business is an automotive repair facility. The following wastes were observed during this investigation: used oil, used antifreeze, used oil filters, used brake fluid, spent parts washer fluid, used batteries, oily rags, waste mop water, and used aerosols. Wastes are collected in containers in the shop area and accumulated in a designated hazardous waste (HW) storage area outside the west wall of the building. The HW accumulation area features a secured enclosure with rain cover and approximately four inch tall concrete berm. (See photos 5 through 15).

The asphalt surface adjacent to the HW accumulation area slopes down to a square drain opening located within approximately fifteen feet of the HW accumulation area. (See photos 5 through 7 and 16 through 19.) Gary Romano stated he did "not know where the drain goes", and "we never put anything down that drain", and "we know better than that". Mechanic Bryan Walsh stated he had been employed for three years, thought the drain "might lead to a sump" but "was not certain", and had never himself poured or ever observed anyone pour anything down that drain.

‹ Specialist should verify the identification of facility representative using a standard form of ID (e.g., CDL#, CA ID# or DOB). ›

You must submit a written response within 30 days (or as specified) addressing all violations noted. The written response must demonstrate all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. The County may initiate formal enforcement action including the imposition of substantial penalties for any significant violations addressed in this notice. Any violations that are not promptly corrected will result in liability for additional days in violation and additional penalties. Any failure to provide the information requested will also be a factor in determining penalties. For these purposes, "significant violations" include violations that represent a significant threat to human health or safety or the environment, chronic violations, violations committed by a recalcitrant violator and Class I hazardous waste violations (CCR 66260.10 and H&SC 25110.8.5).

Rob Rowsell stated he did "not know where the drain goes" and Claudia Rowsell stated "this was all in place when we bought the business".

The drain featured a sump approximately three feet deep and one foot square with underground pipe openings to the north and south. (See photos 16 and 17.) Joe Kuhn and Brian Philbin inspected the drain and confirmed by running water from a hose into the drain that it discharges directly to the street through underground pipes that terminate with openings in the curbside. (See photos 24 through 26.)

Liquid accumulated in the bottom of the sump was a light pink color and with a thin yellow layer of what appeared to be emulsified oils on the surface. (See photos 17 and 20.) The liquid in the sump was approximately 11 pH as measured using pH test strips. (See photo 20.) Manon Maschue obtained samples of the sump liquid and I provided a split sample to Bob Rowsell.

I observed a bucket containing mop water at the west end of the building. The mop bucket water was light pink in color and was approximately 12 pH as measured with pH test strips. (See photos 21 and 22.) The cleaning powder used to mop the shop floors is called "Concrete Cleaner" manufactured by Western Tire Equipment and Supply Company. (See photo 23.) The product is a light pink powder containing sodium metasilicate (CAS# 6834-92-0) and has a 12.5 pH when mixed at a rate of 10 grams per liter per the Material Safety Data Sheet (MSDS).

Be advised that if the liquid in the sump is hazardous you will be in violation of HSC 25189.5(a) and/or HSC 25189(c) and/or 25189.2(c) for unauthorized disposal of hazardous waste; and CCR 66262.11 and/or 66260.200(c) for failure to make a proper waste determination.

---

1) **Violation 0301:** **Unauthorized disposal of hazardous waste.**
2) **Violation 0304:** **Failed to make a proper waste determination.**

Observations: I observed least three non-empty aerosol cans containing engine degreaser in a trash bin (see photo 4.) , and a non-empty can containing brake cleaning fluid in the dumpster. Both the trash bin and dumpster were at the west end of the building. Gary Romano stated that "employees had been told not to do that".

Corrective Action: Immediately cease disposal of non-empty aerosol cans to solid waste. Implement a program to ensure aerosol cans are "California empty" prior to disposal to solid waste and/or manage non-empty aerosol cans as hazardous waste in a proper hazardous waste container. Immediately implement a method to properly manage oily solid hazardous waste such as oily absorbent or spent absorbent socks generated by the facility. Advise HMD of these actions within 30 days.

Comments: If waste fuels such as bad gasoline/diesel or oily solids are generated by the facility a proper waste determination must be conducted and if characterized as hazardous must be managed properly as hazardous waste. No hazardous waste drum for oily solids was observed onsite and this waste is generated in the form of oily socks used at the hazardous waste accumulation area. Note that oily rags may be sent for commercial laundry if they are not saturated with used oil and do not exhibit hazardous characteristics.

Claudia J Rowsell — SIGNATURE OF FACILITY REPRESENTATIVE

5/4/15 — DATE SIGNED

Secretary — TITLE OF FACILITY REPRESENTATIVE

FACILITY ADDRESS: 7191 Alvarado Road ZIP CODE: 91942

3) Violation 0226: Did not accumulate waste in a container or a tank.

Observations: At least three inches depth of used oil had accumulated in the secondary containment of the HW accumulation area filling it to within one inch of the top of the containment berm. (See photos 9 through 13.) No water was observed in the containment area. (See photos 12 and 13.)

Corrective Action: Immediately containerize the used oil in a proper hazardous waste container. This action was taken during the inspection and at least 10 gallons of used oil and sludge were removed and containerized. Hazardous waste container labels were provided to the facility.

---

4) Violation 0218: Failed to close drained oil/fuel filters container.

Observations: Two 55 gallon drums contained drained used oil/filters and both were observed with no lids. (See photos 3 and 8.) Gary Romano closed the containers and secured their lids during the inspection. This is a repeat violation previously documented during the 2012 inspection

Corrective Action: Immediately close all drained used/oil filter containers and maintain closed when not in active use. This corrective action was taken during the inspection.

5) Violation 0228: Failed to keep hazardous waste container closed.

Observations: All hazardous waste containers observed onsite during the inspection were open including a 16ga drum of waste brake fluid, 2 x 55ga drums of waste antifreeze, and 7 x 55ga drums of used oil. (See photos 1 through 3 and 8.) This is a repeat violation previously documented during the 2012 inspection.

Corrective Action: Immediately close all hazardous waste containers and maintain closed when not in active use. This corrective action was taken during the inspection.

Comments: Regarding violations number (4) and (5) the facility was advised in 2012 during an inspection by HMD Inspector Mike Smith that waste containers must be maintained securely closed. Gary Romano stated he was never told that waste containers must be kept closed when not in active use and that he routinely closes all waste containers at the end of each business day. Only one lid was available near the waste containers in the shop. Gary Romano needed to find and take lids off other non-waste containers in order to close each of the hazardous waste containers in the shop area. Container lids were readily available for all but two of the eight drums in the outdoor waste accumulation area.

Linda L Rinaldi 5/4/15 Secretary

SIGNATURE OF FACILITY REPRESENTATIVE | DATE SIGNED | TITLE OF FACILITY REPRESENTATIVE

FACILITY ADDRESS: 7191 Alvarado Road ZIP CODE: 91942

6) Violation 0227: Failed to properly label/date hazardous waste container/tank.

Observations: Seven 55 ga drums of used oil in the hazardous waste accumulation area were unlabeled. (See photo 8.) One hazardous label was posted on the inside of the storage enclosure door. Each container must be labeled per 66262.34(f) because containers are portable and may be moved in an emergency or other event.

Corrective Action: Immediately label all hazardous waste containers with required information and maintain containers labeled in the future. Four labels were provided to the facility. Advise HMD of this action within 30 days.

---

7) Violation 0229: Failed to conduct weekly inspection.

Observations: Gary Romano stated that an employee looks at the hazardous waste collection area "about every two to three weeks when they unlock it for pickups". Containers must be inspected weekly for condition. The secondary containment was 75% full of used oil indicating a potentially container leak. (See photos 9 through 13.)

Corrective Action: Immediately implement a program of weekly inspections of all hazardous waste containers and storage areas. Advise HMD of this action within 30 days.

Comments: Weekly inspection logs are not required to be kept but may be used to ensure inspections are being conducted. Three different weekly inspection log examples were provided to the facility.

---

8) Violation 0234: Failed to maintain facility to prevent release or fire.

Observations: The secondary containment in the hazardous waste accumulation area was 75% full of used oil. Two absorbent socks were positioned on the west containment berm and were oily. Oil accumulated on top of the northwest corner of the berm, oil stains on the top and outsides of the berm, oil stains on the asphalt immediately in front of the berm and low areas tracing to a nearby storm drain downslope of the hazardous waste accumulation area, and a rainbow sheen on liquid exiting the drain discharge pipe at the street indicate that discharges have occurred and risk of future discharge is evident. (See photos 9 through 13, 16 through 17, and 24 through 26.)

Corrective Action: Immediately take action to prevent the release of hazardous waste to air, soil, or surface water and advise HMD of this action within 7 days.

Claudia A Kowell 5/4/15 Secretary

SIGNATURE OF FACILITY REPRESENTATIVE | DATE SIGNED | TITLE OF FACILITY REPRESENTATIVE

FACILITY ADDRESS: 7191 Alvarado Road ZIP CODE: 91942

9) Violation 1015: Employee training program not adequate.

Observations: Facility failed to have documentation of new employee and annual employee training for three years available for review. This violation was previously cited on March 6, 2015 and the facility has failed to return to compliance.

Corrective Action: Immediately train employees in safety procedures including familiarity with the facility's emergency response plan and mitigation procedures for releases or threatened releases of a hazardous material/waste, document this training and maintain a minimum of three years documentation showing employees have been trained within the past year.

---

10) Violation 1017: Hazardous Material Business Plan (HMBP) not certified at least annually.
11) Violation 1004: HMBP not submitted in CERS.

Observations: No submittals have been made to the California Environmental Reporting System (CERS) Facility last certified their HMBP on April 2, 2012. This violation was previously cited on March 6, 2015 and the facility has failed to return to compliance.

Corrective Action: Immediately submit all required information accurately in CERS; this action will also certify the HMBP. Continue to certify the HMBP by making a submittal at least annually in CERS. Notify HMD of this action within 30 days. Help making a CERS submission may be obtained at 858-505-6657.

Remarks:

Referral made to City of La Mesa regarding storm water management

Photographs taken during inspection provided to Rob Rowsell electronically by email.

Three split samples taken during inspection provided to Rob Rowsell:

- Liquid from bottom of drain at west end of building
- Liquid from secondary containment in HW collection area
- Liquid from mop water bucket

Guidance documents provided to facility:

- DTSC Fact Sheet on aerosol can management
- Weekly inspection log (three versions)
- Automotive repair environmental self-compliance checklist
- Automotive repair pollution prevention self-audit checklist

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). **This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6.** This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

Request for service pertaining to complaint DEH2015-ACOM-017184 regarding lack of waste disposal receipts for 2014 and 2015.

Observations: - Waste receipts were found for oil and AF (anti-freeze) for the years 2013-2015 with oil being picked up by Ashbury every month or more often, AF less often but several times each year. (Ashbury Environmental Services)
- Waste receipts were provided via Safety-Kleen's El Cajon office showing servicing done every 3 months aprx. from 11/3/2011 to 04/09/2015, for Safety-Kleen Parts Washer.
- No receipts for oily mop water were available as drum for this waste stream started 04/29/2015 and is not yet full.
- Large parts washer next to Safety Kleen uses a soapy water which is disposed of in the oily water drum as needed.
- No D-coded/federally regulated hazardous waste were found at the time of this visit or waste streams that would be disposed of as federally regulated hazardous waste.
- Waste area was clean and drums were closed start dates were within 180 days but had not been updated to reflect

The Hazardous Materials Business Plan (inventory & site map, emergency contacts, emergency response plan, and employee training plan) is required by law to be certified online through the California Environmental Reporting System (CERS). SUPPLEMENTAL COMPLIANCE INSPECTION REPORT

PERMIT # 212875
DATE 6/23/15
PAGE 2 OF ____

FACILITY ADDRESS: 7191 Alvarado Road ZIP CODE: 91941

Observations (cont.) last pick up.

- Storm drain was covered with a metal plate which was beveled and fitted to the opening to prevent anything from entering; a handle was welded on so the lid could be removed for inspection (only with pry bar) Per Gary Romano it was designed and installed to cover opening at the request of Stormwater Inspector. on 5/2/2015

- Training was conducted and recorded that covered all items addressed during inspection on 4/29/15.

- Floor to shop was clean and dry. No new stains outside

Minor Violations addressed during inspection:

- labeling doesn't reflect last date started on drums but they are labeled waste oil, liquid, toxic w/ address and dates of pick-up are listed on the inside of the door to the covered waste storage and be they states all oil removed, then date. Gary Romano is requesting guidance.

- Records from Safety-Kleen were not available from 2013-2015. Safety-Kleen was contacted and e-mailed records during inspection.

Routine Inspection

Business repairs and conducts routine maintenance on automobiles.

Business generates Hazardous Wastes (HWs): used oil, antifreeze, used oil filters, aqueous parts washing solution, hot tank waste, & brake fluid.
Hazardous Materials (HM) include: new oil, antifreeze.
Violations & Corrective Actions:

1. **Observation:**
The facility has not submitted Unified Program Facility information through the California Environmental Reporting System (CERS).

Violation:
Unified Program Facilities are required to submit facility information through CERS per section 25404(e)(4) of the California Health and Safety Code. Failure to correct violations could result in an enforcement action and significant penalties.

Corrective action: Within 30 days:
- Submit your facility information electronically at https://cersbusiness.calepa.ca.gov within the time specified on this report.

OR
- Contact the HMD at 858-505-6990 within 10 days of this inspection for assistance in submitting your facility information electronically.

2. Business operator failed to maintain on site available for review documentation showing that employees have received Training in HM/HW management and emergency preparedness, including spill & fire response, within the past 12 months.

The Hazardous Materials Business Plan (inventory & site map, emergency contacts, emergency response plan, and employee training plan) is required by law to be certified online through the California Environmental Reporting System (CERS). For additional information about hazardous materials business plans and CERS, go to: http://www.sdcounty.ca.gov/deh/hazmat/hmd-cers-info.html

DATE 3/6/15
PAGE 2 OF 3

FACILITY ADDRESS: 7191 Alvarado Rd. ZIP CODE: 91942

Corrective Action: Within 30 days document Training which occurred during the past 12 months.
Training must be conducted at least every 12 months with documentation to include names of Trainers & Trainees, content of Training, and date on which Training occurred.

3. Business operator intentionally contaminated used oil with HW (brake fluid). Used oil is only motor oil, transmission fluid, gearbox & differential oils.
Corrective Action: Immediately discontinue disposing of brake fluid in used oil containers. Store in a separate container which is kept closed/covered, and labeled as HW. A completed HW label was provided to business during this inspection.

Remarks:
Within 30 days submit a completed Corrective Action Form to address below indicating how the above listed violations were corrected.

Business provided with handouts:
- Used Oil Generator Requirements
- Generators of Empty or Contaminated Containers
