---

Good evening,

After reviewing the proposed project, it appears Alternative B of the plan would extend Byron Highway to I-205 within the boundaries of the Tracy Area. This would necessitate the construction of on and off ramps to and from I-205 in both directions. As an alternate route from the Brentwood area and SR-4 to the Central Valley, this alternative would increase traffic flow through the area. Additionally, commercial traffic would most likely use this roadway as an alternative route to the warehouses in the Tracy Area. Byron Highway runs along the north boundary of the Mountain House community. As this community grows and builds north of Byron Highway, this proposed change would create a major thoroughfare running through a residential community. This alternative would create increased vehicular traffic in the area and on I-205, adding to the congestion on I-205 as well as arterial roadways. Should you have any questions, please contact me at (209) 835-8920.

Thank you,

David Wharry, Lieutenant
Tracy Area Commander
Office: (209) 835-8920

Dave,

Can you take a look and provide a response as directed? Please CC me on the response. The deadline is 2/4/2022. Thank you.

Jeremy

Subject: Environmental Document Review – SCH # 2021120436 – Due to Special Projects Section by 02/04/2022

Good afternoon,

Special Projects Section (SPS) recently received the referenced Notice of Environmental Impact document from the State Clearinghouse (SCH) outlined in the following Web site:

State Route 239 Project (ca.gov)

Please note, there will also be an online public scoping meeting on Thursday, January 20, 2022, at 1730 hours. Additional information about the project and meeting can be found here: State Route 239 Project – Online Open House (sr239project.net).

Due to the project's geographical proximity, please use the attached checklist to assess its potential impact to local operations and public safety. If impact is determined, responses should be e-mailed to directly to SPS at EIR@chp.ca.gov, with CC to myself. Special Projects Section will then coordinate the responses from both Valley Division and Golden Gate Division and provide them to the Lead Agency and SCH.

Please feel free to e-mail me if you have any questions.

Thank you,

Kristen Lange, Staff Services Analyst
