Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

SCH #: _____

Project Title: Humboldt Transit Authority Hydrogen Fueling Station

Lead Agency: City of Eureka

Contact Name: Chris Lohoefener

Email: clohoefener@eurekaca.gov Phone Number: (707) 441-4160

Project Location: Eureka (*City*) Humboldt (*County*)

Project Description (Proposed actions, location, and/or consequences).

Humboldt Transit Authority (HTA) is transitioning its bus fleet from diesel and gasoline to hydrogen fuel to comply with the Innovative Clean Transit Regulation established by the California Air Resources Board in December 2018. To support this switch, HTA proposes to construct a hydrogen fueling station at its existing Operations and Maintenance Facility (Facility or Project Site). The proposed project includes installation of a liquid hydrogen storage tank and compression gas system capable of providing hydrogen fuel to various types of vehicles at different fueling pressures. The project also involves demolition of an existing office building located at the Project Site, use of a temporary hydrogen fueling station during construction, construction of a permanent storage and fueling system, retrofit of the existing fleet maintenance bays, and construction of a building addition to the existing administration and maintenance building. The fueling system will also be available to the public. In accordance with CEQA Guidelines Section 15072(g)(5), it is noted that the Project Site previously contained a leaking underground storage tank, which has since been fully remediated to the satisfaction of the appropriate regulatory agencies.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

There are no known significant or potentially significant effects associated with the project .

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

There are no known areas of controversy associated with this project.

Provide a list of the responsible or trustee agencies for the project.

Public agencies whose approval is , or may be required, include:
City of Eureka
Humboldt Transit Authority
Humboldt County Department of Environmental Health
California Department of Transportation (Caltrans District 1)
California Coastal Commission
State Historic Preservation Officer
Regional Water Quality Control Board
Department of Toxic Substances
North Coast Unified Air Quality Management District
Division of Occupational Safety and Health
