Memorandum

Nov. 4, 2025

To: Land Use & Climate Innovation State Clearinghouse
From: Scott Donnell, Senior Planner

Re: **SCH Number 2025100975 - City of Carlsbad El Camino Real Widening Project, Arenal Road to La Costa Avenue**

Included with this memo is a corrected Initial Study/Mitigated Negative Declaration file for the above project. Please replace the current IS/MND file on CEQAnet with it.

The city proposes no extension of the review period for or recirculation of the IS/MND. This is because the city's website has had a complete IS/MND for public review since October 24, the start of the project's public review period. Any inquiry the city has received in response to the project posting on CEQAnet has been referred to the city's website.

Additionally, the notice of intent posted on the city's website and CEQAnet, published in the newspaper, and mailed to various agencies, tribes and organizations includes a city website link, https://www.carlsbadca.gov/departments/community-development/planning/agendas-minutes-notices, to the complete IS/MND.

If any questions, you may reach me at scott.donnell@carlsbadca.gov.

Thank you.
