PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map
Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.
Source: FEMA
Telephone: 877-336-2627
Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory
Source: Department of Fish and Wildlife
Telephone: 916-445-0411

HYDROGEOLOGIC INFORMATION

AQUIFLOW^{R} Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

OTHER STATE DATABASE INFORMATION

Groundwater Ambient Monitoring & Assessment Program
State Water Resources Control Board
Telephone: 916-341-5577
The GAMA Program is Californias comprehensive groundwater quality monitoring program. GAMA collects data by testing the untreated, raw water in different types of wells for naturally-occurring and man-made chemicals. The GAMA data includes Domestic, Monitoring and Municipal well types from the following sources, Department of Water Resources, Department of Heath Services, EDF, Agricultural Lands, Lawrence Livermore National Laboratory, Department of Pesticide Regulation, United States Geological Survey, Groundwater Ambient Monitoring and Assessment Program and Local Groundwater Projects.

Water Well Database
Source: Department of Water Resources
Telephone: 916-651-9648

California Drinking Water Quality Database
Source: Department of Public Health
Telephone: 916-324-2319
The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

California Oil and Gas Well Locations
Source: Dept of Conservation, Geologic Energy Management Division
Telephone: 916-323-1779
Oil and Gas well locations in the state.

California Earthquake Fault Lines
Source: California Division of Mines and Geology
The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

RADON

State Database: CA Radon
Source: Department of Public Health
Telephone: 916-210-8558
Radon Database for California

PHYSICAL SETTING SOURCE RECORDS SEARCHED

Area Radon Information
Source: USGS
Telephone: 703-356-4020
The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones
Source: EPA
Telephone: 703-356-4020
Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

OTHER

Airport Landing Facilities: Private and public use landing facilities
Source: Federal Aviation Administration, 800-457-6656

Epicenters: World earthquake epicenters, Richter 5 or greater
Source: Department of Commerce, National Oceanic and Atmospheric Administration

California Earthquake Fault Lines: The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines, prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

SECTION 2: DATABASES AND UPDATE DATES

To maintain currency of the following federal, state and local databases, EDR contacts the appropriate government agency on a monthly or quarterly basis as required.

Elapsed ASTM days: Provides confirmation that this report meets or exceeds the 90-day updating requirement of the ASTM standard.

DATABASES FOUND IN THIS REPORT

CA HWTS: Hazardous Waste Tracking System
Source: Department of Toxic Substances Control
Telephone: 916-324-2444
DTSC maintains the Hazardous Waste Tracking System that stores ID number information since the early 1980s and manifest data since 1993. The system collects both manifest copies from the generator and destination facility.

Date of Government Version: 10/13/2020
Database Release Frequency: Varies
Date of Last EDR Contact: 04/05/2021
Date of Next Scheduled Update: 07/19/2021

CA HAZNET: Facility and Manifest Data
Source: California Environmental Protection Agency
Telephone: 916-255-1136
Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

Date of Government Version: 12/31/2019
Database Release Frequency: Annually
Date of Last EDR Contact: 04/09/2021
Date of Next Scheduled Update: 07/19/2021

TABLE OF CONTENTS

The EDR-Site Report™ is a comprehensive presentation of government filings on a facility identified in a search of federal, state and local environmental databases.

Section 1: Facility Detail Reports . . . . . Page 3

All available detailed information from databases where sites are identified.

Section 2: Databases and Update Information. . . . . Page 63

Name, source, update dates, contact phone number and description of each of the databases for this report.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

SECTION 2: DATABASES AND UPDATE DATES

To maintain currency of the following federal, state and local databases, EDR contacts the appropriate government agency on a monthly or quarterly basis as required.

Elapsed ASTM days: Provides confirmation that this report meets or exceeds the 90-day updating requirement of the ASTM standard.

DATABASES FOUND IN THIS REPORT

CA HWTS: Hazardous Waste Tracking System
Source: Department of Toxic Substances Control
Telephone: 916-324-2444
DTSC maintains the Hazardous Waste Tracking System that stores ID number information since the early 1980s and manifest data since 1993. The system collects both manifest copies from the generator and destination facility.

Date of Government Version: 04/08/2021
Database Release Frequency: Varies
Date of Last EDR Contact: 04/05/2021
Date of Next Scheduled Update: 07/19/2021

CA HAZNET: Facility and Manifest Data
Source: California Environmental Protection Agency
Telephone: 916-255-1136
Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

Date of Government Version: 12/31/2019
Database Release Frequency: Annually
Date of Last EDR Contact: 04/09/2021
Date of Next Scheduled Update: 07/19/2021

TABLE OF CONTENTS

The EDR-Site Report™ is a comprehensive presentation of government filings on a facility identified in a search of federal, state and local environmental databases.

Section 1: Facility Detail Reports . . . . . Page 3

All available detailed information from databases where sites are identified.

Section 2: Databases and Update Information. . . . . Page 10

Name, source, update dates, contact phone number and description of each of the databases for this report.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

SECTION 2: DATABASES AND UPDATE DATES

To maintain currency of the following federal, state and local databases, EDR contacts the appropriate government agency on a monthly or quarterly basis as required.

Elapsed ASTM days: Provides confirmation that this report meets or exceeds the 90-day updating requirement of the ASTM standard.

DATABASES FOUND IN THIS REPORT

RCRA NonGen / NLR: RCRA - Non Generators / No Longer Regulated
Source: Environmental Protection Agency
Telephone: 202-272-0167
RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

Date of Government Version: 12/14/2020
Database Release Frequency: Quarterly
Date of Last EDR Contact: 03/23/2021
Date of Next Scheduled Update: 07/05/2021

CA HWTS: Hazardous Waste Tracking System
Source: Department of Toxic Substances Control
Telephone: 916-324-2444
DTSC maintains the Hazardous Waste Tracking System that stores ID number information since the early 1980s and manifest data since 1993. The system collects both manifest copies from the generator and destination facility.

Date of Government Version: 10/13/2020
Database Release Frequency: Varies
Date of Last EDR Contact: 04/05/2021
Date of Next Scheduled Update: 07/19/2021

CA HAZNET: Facility and Manifest Data
Source: California Environmental Protection Agency
Telephone: 916-255-1136
Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

Date of Government Version: 12/31/2019
Database Release Frequency: Annually
Date of Last EDR Contact: 04/09/2021
Date of Next Scheduled Update: 07/19/2021

TABLE OF CONTENTS

The EDR-Site Report™ is a comprehensive presentation of government filings on a facility identified in a search of federal, state and local environmental databases.

Section 1: Facility Detail Reports . . . . . Page 3

All available detailed information from databases where sites are identified.

Section 2: Databases and Update Information. . . . . Page 25

Name, source, update dates, contact phone number and description of each of the databases for this report.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

SECTION 2: DATABASES AND UPDATE DATES

To maintain currency of the following federal, state and local databases, EDR contacts the appropriate government agency on a monthly or quarterly basis as required.

Elapsed ASTM days: Provides confirmation that this report meets or exceeds the 90-day updating requirement of the ASTM standard.

DATABASES FOUND IN THIS REPORT

CA HWTS: Hazardous Waste Tracking System
Source: Department of Toxic Substances Control
Telephone: 916-324-2444
DTSC maintains the Hazardous Waste Tracking System that stores ID number information since the early 1980s and manifest data since 1993. The system collects both manifest copies from the generator and destination facility.

Date of Government Version: 10/13/2020
Database Release Frequency: Varies
Date of Last EDR Contact: 04/05/2021
Date of Next Scheduled Update: 07/19/2021

CA SAN JOSE HAZMAT: Hazardous Material Facilities
Source: City of San Jose Fire Department
Telephone: 408-535-7694
Hazardous material facilities, including underground storage tank sites.

Date of Government Version: 11/03/2020
Database Release Frequency: Annually
Date of Last EDR Contact: 04/01/2021
Date of Next Scheduled Update: 05/17/2021

CA CUPA: CUPA Resources List
Source: Please see county level database for agency information.
Telephone: Not reported
A listing of sites included in the county's Certified Unified Program Agency database. California's Secretary for Environmental Protection established the unified hazardous materials and hazardous waste regulatory program as required by chapter 6.11 of the California Health and Safety Code. The Unified Program consolidates the administration, permits, inspections, and enforcement activities.

Date of Government Version: Not reported
Database Release Frequency: Varies
Date of Last EDR Contact: Not reported
Date of Next Scheduled Update: Not reported

CA CUPA SANTA CLARA: Cupa Facility List
Source: Department of Environmental Health
Telephone: 408-918-1973
Cupa facility list

Date of Government Version: 11/20/2020
Database Release Frequency: Varies
Date of Last EDR Contact: 02/16/2021
Date of Next Scheduled Update: 05/31/2021

CA HAZNET: Facility and Manifest Data
Source: California Environmental Protection Agency
Telephone: 916-255-1136
Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

Date of Government Version: 12/31/2019
Database Release Frequency: Annually
Date of Last EDR Contact: 04/09/2021
Date of Next Scheduled Update: 07/19/2021

TABLE OF CONTENTS

The EDR-Site Report™ is a comprehensive presentation of government filings on a facility identified in a search of federal, state and local environmental databases.

Section 1: Facility Detail Reports . . . . . Page 3

All available detailed information from databases where sites are identified.

Section 2: Databases and Update Information. . . . . Page 127

Name, source, update dates, contact phone number and description of each of the databases for this report.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

SECTION 2: DATABASES AND UPDATE DATES

To maintain currency of the following federal, state and local databases, EDR contacts the appropriate government agency on a monthly or quarterly basis as required.

Elapsed ASTM days: Provides confirmation that this report meets or exceeds the 90-day updating requirement of the ASTM standard.

DATABASES FOUND IN THIS REPORT

RCRA-SQG: RCRA - Small Quantity Generators
Source: Environmental Protection Agency
Telephone: 703-308-8895
RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

Date of Government Version: 12/14/2020 — Date of Last EDR Contact: 03/23/2021
Database Release Frequency: Quarterly — Date of Next Scheduled Update: 07/05/2021

CA NPDES: NPDES Permits Listing
Source: State Water Resources Control Board
Telephone: 916-445-9379
A listing of NPDES permits, including stormwater.

Date of Government Version: 11/09/2020 — Date of Last EDR Contact: 02/09/2021
Database Release Frequency: Quarterly — Date of Next Scheduled Update: 05/24/2021

FINDS: Facility Index System/Facility Registry System
Source: EPA
Telephone: Not reported
Facility Index System. FINDS contains both facility information and 'pointers' to other sources that contain more detail. EDR includes the following FINDS databases in this report: PCS (Permit Compliance System), AIRS (Aerometric Information Retrieval System), DOCKET (Enforcement Docket used to manage and track information on civil judicial enforcement cases for all environmental statutes), FURS (Federal Underground Injection Control), C-DOCKET (Criminal Docket System used to track criminal enforcement actions for all environmental statutes), FFIS (Federal Facilities Information System), STATE (State Environmental Laws and Statutes), and PADS (PCB Activity Data System).

Date of Government Version: 02/03/2021 — Date of Last EDR Contact: 03/03/2021
Database Release Frequency: Quarterly — Date of Next Scheduled Update: 06/14/2021

CA HWTS: Hazardous Waste Tracking System
Source: Department of Toxic Substances Control
Telephone: 916-324-2444
DTSC maintains the Hazardous Waste Tracking System that stores ID number information since the early 1980s and manifest data since 1993. The system collects both manifest copies from the generator and destination facility.

Date of Government Version: 04/08/2021 — Date of Last EDR Contact: 04/05/2021
Database Release Frequency: Varies — Date of Next Scheduled Update: 07/19/2021

CA CERS: CERS
Source: California Environmental Protection Agency
Telephone: 916-323-2514
The CalEPA Regulated Site Portal database combines data about environmentally regulated sites and facilities in California into a single database. It combines data from a variety of state and federal databases, and provides an overview of regulated activities across the spectrum of environmental programs for any given location in California. These activities include hazardous materials and waste, state and federal cleanups, impacted ground and surface waters, and toxic materials

Date of Government Version: 01/20/2021 — Date of Last EDR Contact: 04/20/2021
Database Release Frequency: Varies — Date of Next Scheduled Update: 08/02/2021

CA CUPA: CUPA Resources List
Source: Please see county level database for agency information.
Telephone: Not reported
A listing of sites included in the county's Certified Unified Program Agency database. California's Secretary for Environmental Protection established the unified hazardous materials and hazardous waste regulatory program as required by chapter 6.11 of the California Health and Safety Code. The Unified Program consolidates the administration, permits, inspections, and enforcement activities.

CA CIWQS: California Integrated Water Quality System
Source: State Water Resources Control Board
Telephone: 866-794-4977
The California Integrated Water Quality System (CIWQS) is a computer system used by the State and Regional Water Quality Control Boards to track information about places of environmental interest, manage permits and other orders, track inspections, and manage violations and enforcement activities.

Date of Government Version: 11/30/2020
Database Release Frequency: Varies
Date of Last EDR Contact: 03/03/2021
Date of Next Scheduled Update: 06/14/2021

CA EMI: Emissions Inventory Data
Source: California Air Resources Board
Telephone: 916-322-2990
Toxics and criteria pollutant emissions data collected by the ARB and local air pollution agencies.

Date of Government Version: 12/31/2018
Database Release Frequency: Varies
Date of Last EDR Contact: 03/19/2021
Date of Next Scheduled Update: 06/28/2021

CA HAZNET: Facility and Manifest Data
Source: California Environmental Protection Agency
Telephone: 916-255-1136
Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

Date of Government Version: 12/31/2019
Database Release Frequency: Annually
Date of Last EDR Contact: 04/09/2021
Date of Next Scheduled Update: 07/19/2021

Facility ID: FA0207933
Facility Name: BD BIOSCIENCES
Site Address: 2350 QUME DR, SAN JOSE, CA 95131
Inspection Date: 06/05/2015

HW Generator Type: <1000 KG/MO.
Consent to Inspect Granted By: DINA CRAW, HEALTH & SAFETY SPECIALIST III

☐ **RCRA LQG**
☐ **Pictures Taken**
☐ **Samples Taken**

Summary of Violations & Notice to Comply

Program: PR0313235 - RCRA LQG - LQ06
Inspection Type: ROUTINE INSPECTION-COMPLETED

VC	Class	Violation	Corrective Actions Taken
G446	M	**RECORDS: UNIVERSAL WASTE** Facility failed to keep adequate records of the shipment or receipt of Universal Waste for at least 3 years. _____ ***No shipment records or receipts could be provided for 1 x trailer of electronic waste.*** _____ Keep a record of Universal Waste shipments sent off-site or received on-site for at least 3 years from the shipment/receipt date. The record may take the form of a log, invoice, manifest, bill of lading or other shipping document. It must contain the name and address of the originating facility, name and address of the destination facility, quantity (weight or unit count) and type of waste sent, and date of shipment/receipt. [CCR 66273.39]	
G452	M	**NOTIFICATION: HANDLER OF UNIVERSAL WASTE** Facility failed to notify the U.S. EPA Regional Administrator prior to accumulating 5,000 kg or more of federally-regulated Universal Waste at any time. _____ ***Facility handles more than 5000kg of universal waste in 1 x trailer but has not completed or submitted EPA form 8700-12.*** _____ Notify the Regional Administrator by submitting EPA FORM 8700-12 to the U.S. Environmental Protection Agency. The form is available at www.dtsc.ca.gov. [CCR 66273.32(a)(1)]	

Comments: On-site conduct a hazardous waste inspection. Conducted a facility walk-through with Dina Craw (EH&S) and Bobby Potts (facilities). This facility, 2350 Qume Dr., is Building #1 of the BD Biosciences campus. This facility does primarily R&D and Reagent/Instrument manufacturing. Hazardous waste is accumulated under point of generation rules in labs on-site. Once per week, third party vendor, Ingenium, transports waste to hazardous waste storage shed located on north end of facility. Ingenium also collects waste batteries and compact fluorescent lamps and transports waste to hazardous waste storage shed. Hazardous waste shipments take place every 90 days or sooner as needed. Labs clean-outs occur 1-2 per year with larger than usual hazardous waste shipments occurring on those dates.

At northeast exterior of facility, the following was observed:
-1 x 30 yd bin of scrap metal.
-1 x trailer of electronic waste. This waste stream consists primarily of instruments from the facility and those returned by customers. Trailer is shipped-off app. every 3 months by Sims Recycling.

Hazardous waste manifest review showed that all manifests are accounted for with Land Disposal Restriction documentation attached to each manifest. Copies of manifests are submitted to DTSC via certified-mail.

Summary of Violations & Notice to Comply

The following violations were corrected on-site at the time of this inspection:
-G312 (Contingency plan Amendment): Contingency plan was updated and uploaded to CERS during time of this inspection.
-G402 (Marking of contaminated containers): Labels were affixed to containers in hazardous waste storage shed during time of this inspection.

NOTES:
-EPA ID: CAD982519936
-Facility is a non-RCRA large quantity generator.
-Hazardous waste from Buildings #2 & 3 are also stored at Building #1 hazardous waste storage shed until hazardous waste shipment takes place (contiguous facility).
-Facility has generated app. 3.3 tons of hazardous waste in 2012, app. 3 tons of hazardous waste in 2013, app. and 3.35 tons of hazardous waste in 2014. Facility's hazardous waste permit will be downgraded to a LQ05 to reflect quantities currently generated.
-Hazardous waste training records are maintained via an internal database called C2C.
-Facilities oversees change-out of fluorescent tubes and contacts vendor for pick-up when boxes become full.

Program: PR0396503 - HAZARDOUS MATERIALS BUSINESS PLAN - BP03
Inspection Type: ROUTINE INSPECTION-COMPLETED

VC	Class	Violation	Corrective Actions Taken
B106	**M**	**HMBP INVENTORY INFORMATION MISSING / INCOMPLETE [1010004]** Facility failed to submit accurate and complete Hazardous Materials Inventory information for all hazardous materials on-site that are required to be reported in the facility's Hazardous Materials Business Plan (HMBP). _____ ***Locations of compressed gas cylinders did not match information uploaded on the hazardous materials inventory. Revise inventory to show correct locations and upload to CERS.*** _____ Within 30 days, submit complete Hazardous Materials Inventory information via the California Environmental Reporting System (CERS) website at http://cers.calepa.ca.gov. See www.sccgov.org/sites/deh/hmcd/hazmat/pages/electronic_reporting.aspx for more details on electronic reporting. [HSC 25505(a)(1); 25506; 25508(a)(1)]	
B107	**M**	**HMBP SITE MAP MISSING / INCOMPLETE [1010005]** Facility operator failed to submit and/or maintain an accurate and complete Site Map with the facility's Hazardous Materials Business Plan (HMBP). _____ ***Site map on CERS does not include the following required elements: Emergency shut-offs, evacuation staging areas, emergency response equipment locations, hazardous materials handling and storage areas. Revise map and upload to CERS.*** _____ Within 30 days, electronically submit the Site Map(s) via the California Environmental Reporting System (CERS) website at http://cers.calepa.ca.gov. The map must contain north orientation, loading areas, internal roads, adjacent streets, storm and sewer drains, access and exit points, emergency shutoffs, evacuation staging areas, hazardous material handling and storage areas, and emergency response equipment. [HSC 25505(a)(2), 25508(a)(1)]	

Comments: On-site to conduct a hazardous materials business plan (HMBP) inspection. Conducted a facility walk-through with Dina Craw (EH&S) and Bobby Potts (facilities). Observed the following hazardous materials at or above HMBP reporting thresholds:
-Nitrogen cylinders: "E", "F", "C" labs
-Liquid Nitrogen dewars: "E" & "C" labs
-Argon cylinders: "F" labs
-CO2 cylinders: "E", "F", "C" labs
-Helium cylinders: "C" labs
-Nitrous Oxide cylinders: "F" labs
-Oxygen cylinders: "F" labs

Summary of Violations & Notice to Comply

-Diesel: 1 x app. 1,789 gallon aboveground emergency generator and 1 x app. 250 gallon aboveground diesel tank in fire pump house
-Waste Acetone/Methanol: 1 x 55 gallon drum in hazardous waste storage shed
-Electronic waste: 1 x trailer

The following violations were corrected on-site during the time of this inspections:
-B108 (Emergency response plan inaccurate): Emergency response plan was updated and uploaded to CERS during time of this inspection.

NOTES:
-Facility stores more than 1,320 gallons of petroleum (diesel) aboveground and will be issued an Aboveground Petroleum Storage Act permit from our department. A compliance inspection (and review of SPCC plan) will follow at a later date.

Immediately correct any violation designated as a Class I or Class II violation. Correct all other violations no later than 07/05/2015, unless otherwise noted by the inspector.

Using the space provided, write a brief description of the actions taken by the facility to correct each violation. Attach additional pages if more space is needed. Within 5 days of achieving compliance or within 35 days of the inspection date, whichever comes first, sign the certification statement below and return a copy of this report to HMCD. Time granted for correction of violations does not preclude any enforcement action by HMCD or other agencies. This facility may be subject to reinspection at any time. [Authority: HSC 25185(c), 25187.8, 25404.1.2(c)]

Received By: Dina Craw
Health & Safety Specialist III

Inspected By: EE0010253 - ALBERT WOLFF

Certification of Compliance

I certify under penalty of perjury that this facility has complied with directives specified in this Notice to Comply.

Signature of Owner/Operator | **Date**

Printed Name of Owner/Operator | **Title**

REVIEWED
By Mickey at 12:09 pm, Jun 22, 2015

OFFICIAL NOTICE OF INSPECTION - SUPPLEMENTAL INFORMATION

This Official Notice of Inspection (NOI) documents the results of an inspection by HMCD, including a list of alleged violations, evidence in support of the alleged violations, corrective actions that must be taken by the facility, and general observations.

What am I supposed to do upon receiving a NOI?

- Correct the violations within 30 days of the inspection date, unless otherwise noted.
- In the "Corrective Actions Taken" column, write a brief description of the actions taken by the facility to correct each violation. Attach additional pages if more space is needed.
- Certify that the facility has returned to compliance by signing and dating the certification statement at the end of the report.
- Make a photocopy of the NOI and any attachments for your records.
- Within 5 days of achieving compliance or 35 days of the inspection date, whichever comes first, return the original copy of the report and any attachments to HMCD at 1555 Berger Drive, Suite 300, San Jose, CA 95112-2716.

What if there are violations that cannot be corrected within 30 days?

For each violation that cannot be corrected within 30 days, submit a written Compliance Plan describing the corrective actions you propose to take and the date by which the actions will be completed. State law grants up to 30 days to correct minor violations without penalty. Minor violations that are uncorrected after 30 days, and class I and II violations may be subject to enforcement action. To lessen the possibility of enforcement action, correct all violations as soon as possible.

What if I disagree with a violation on the NOI?

If you disagree with any violation listed in this NOI, you must submit a written Notice of Disagreement to HMCD within 30 days of the inspection date. Address such notices to the attention of the inspector who cited the violation. In your Notice of Disagreement, explain in detail why you believe the alleged violation was incorrectly cited.

What about photographs or samples taken during the inspection?

A co-located sample will be given to you upon request if adequate sample volume is available. Photographs and sample analytical results will not generally be available until after the inspection has been concluded. A copy of photographs and/or analytical results will be provided to you upon written request. Photographs and sample analytical results may be withheld in the event of a criminal investigation or other ongoing investigation.

Key to Acronyms and Regulatory Terms

XX CCR	California Code of Regulations, Title XX
XX CFR	Code of Federal Regulations, Title XX
Class	Violation classification: I = Class I violation, II = Class II violation, M = Minor violation, C = Corrected minor violation [HSC §25110.8.5, HSC §25117.6, CCR §66260.10]
DTSC	California Department of Toxic Substances Control
EPA	U.S. Environmental Protection Agency
HMCD	County of Santa Clara, Department of Environmental Health, Hazardous Materials Compliance Division
HSC	California Health and Safety Code
RCRA	Resource Conservation and Recovery Act
SCCO	Santa Clara County Ordinance Code
TSDF	Hazardous waste treatment, storage or disposal facility UPCF
Unified Program Consolidated Form	
UST	Underground storage tank
VC	HMCD violation code

Warning:

- It is a violation of State law to make a false statement that a facility has returned to compliance [HSC §25404.1.2(c)(2)].
- Making a false statement regarding a hazardous waste violation is punishable by a fine of not less than $2,000 or more than $25,000 and/or imprisonment in the county jail for up to one year [HSC §25191(b)].
- Making a false statement regarding an underground storage tank violation is punishable by a fine of not less than $500 or more than $5,000 [HSC § §25299(a)(8), 25299(b)(7)].
- HMCD has the right to require the submittal of reasonable and necessary documentation in support of any claim of compliance made by your facility [HSC §25187.8(i)].

HAZARDOUS MATERIALS BUSINESS PLAN CERTIFICATION FORM

For Use by Unidocs Member Agencies or where approved by your Local Jurisdiction

Authority Cited: Health and Safety Code §25503.3(c); 19 CCR §2729.5(c)

To: Agency Name: **County of Santa Clara - Department of Environmental Health, HMCD**

Agency Mailing Address: **1555 Berger Drive, Suite 300**

San Jose, Ca, 95112

Pursuant to Section 25503.3(c) of California Health and Safety Code (HSC), the Hazardous Materials Business Plan (HMBP) certification described below is hereby submitted for the following facility:

Facility Name: **BD Biosciences**

Facility Street Address: **2350 Qume Drive** City: **San Jose**

Date of Current HMBP: **2/23/2011**

I certify that: *(Check the appropriate box.)*

☑ I have personally reviewed the Hazardous Materials Business Plan currently on file with your agency and certify that the HMBP is complete and accurate. *(See bottom of page for details.)* If this facility is subject to Federal Emergency Planning and Community Right to Know Act (EPCRA) reporting requirements, I have submitted the following documents with this Certification Form: Unified Program Consolidated Form (UPCF) Business Activities page; UPCF Business Owner/Operator Identification page with current signature and date; Hazardous Materials Inventory Statement page(s) with an original signature, photocopy of an original signature, or signature stamp on each page for all Extremely Hazardous Substances (EHS) handled at or above their Federal Threshold Planning Quantity (TPQ) or 500 pounds, whichever is less.

or

☐ Revisions to the Hazardous Materials Business Plan are necessary. The HMBP as revised is complete and accurate and is being implemented. A copy of the revisions has been electronically submitted or is enclosed with this Certification along with a signed UPCF Business Owner/Operator Identification page and UPCF Business Activities page if the HMBP revision include changes to the Hazardous Materials Inventory Statement.

OWNER/OPERATOR CERTIFICATION: I hereby certify under penalty of law that, based upon my inquiry of those individuals responsible for obtaining the information reported above, I believe that the submitted information is true, accurate, and complete. I understand that a revised HMBP must be submitted within 30 days of any change in this facility's storage or handling of hazardous materials that would require updating of the HMBP.

Name of Owner/Operator *(Print)*: **George Paganini** Title: **Director, Facilities & EH&S**

Phone: **408-954-2642** Signature: _____ Date: 2-27-12

By checking the upper box on this form, you are certifying that:

- The information contained in the HMBP most recently submitted is complete, accurate, and up-to-date; **and**
- There has been no change in the quantity of any hazardous material as reported in the most recently submitted Hazardous Materials Inventory forms; **and**
- The facility has not begun handling any hazardous material in a HMBP reportable quantity that is not currently listed in the Hazardous Materials Inventory; **and**
- The most recently submitted HMBP contains the information required by Section 11022 of Title 42 of the United States Code; **and**
- There have been no substantial changes in the facility's operations that would require revision of the current HMBP.

II. ACTIVITIES DECLARATION

NOTE: If you check YES to any part of this list, please submit the Business Owner/Operator Identification page.

Does your facility...	If Yes, please complete these pages of the UPCF...	
A. HAZARDOUS MATERIALS Have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	☒ YES ☐ NO 4.	HAZARDOUS MATERIALS INVENTORY – CHEMICAL DESCRIPTION
B. REGULATED SUBSTANCES Have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release Prevention Program (CalARP)?	☐ YES ☒ NO 4a.	Coordinate with your local agency responsible for CalARP.
C. UNDERGROUND STORAGE TANKS (USTs) Own or operate underground storage tanks?	☐ YES ☒ NO 5.	UST OPERATING PERMIT APPLICATION – FACILITY INFORMATION UST OPERATING PERMIT APPLICATION – TANK INFORMATION
D. ABOVE GROUND PETROLEUM STORAGE Own or operate ASTs above these thresholds: Store greater than 1,320 gallons of petroleum products (new or used) in aboveground tanks or containers?	☒ YES ☐ NO 8.	No form required to CUPAs
E. HAZARDOUS WASTE Generate hazardous waste?	☒ YES ☐ NO 9.	EPA ID NUMBER – provide at top of this page
Recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC §25143.2)?	☐ YES ☒ NO 10.	RECYCLABLE MATERIALS REPORT (one per recycler)
Treat hazardous waste onsite?	☐ YES ☒ NO 11.	ONSITE HAZARDOUS WASTE TREATMENT NOTIFICATION – FACILITY PAGE ONSITE HAZARDOUS WASTE TREATMENT NOTIFICATION – UNIT PAGE (one page per unit)
Perform treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	☐ YES ☒ NO 12.	CERTIFICATION OF FINANCIAL ASSURANCE
Consolidate hazardous waste generated at a remote site?	☐ YES ☒ NO 13.	REMOTE WASTE CONSOLIDATION SITE ANNUAL NOTIFICATION
Need to report the closure/removal of a tank that was classified as hazardous waste and cleaned onsite?	☐ YES ☒ NO 14.	HAZARDOUS WASTE TANK CLOSURE CERTIFICATION
Generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month, or accumulate at any time, 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate or accumulate at any time more then 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste?	☐ YES ☒ NO 14a.	Obtain federal EPA ID Number, file Biennial Report (EPA Form 8700-13A/B), and satisfy requirements for RCRA Large Quantity Generator.
Serve as a Household Hazardous Waste (HHW) Collection site?	☐ YES ☒ NO 14b.	See CUPA for required forms.

F. LOCAL REQUIREMENTS (You may also be required to provide additional information by your CUPA or local agency.) 15.

_____

HAZARDOUS WASTE

Chemical Waste

BD Biosciences produces less than 5 tons of chemical waste from laboratory operations each year. Satellite hazardous waste pick-up points are designated throughout the building; each week, a trained Facilities Technician inspects chemical storage areas and performs hazardous waste pick-ups. (See attached examples of forms used in this process).

Chemical waste is stored in the Chemical Waste Room (C1L-045) or in the Chemical Shed (north side of building near Shipping Dock). Clean Harbors Environmental Services picks up waste on a quarterly basis. All chemical waste is shipped out of state for incineration. EH&S maintains copies of hazardous waste manifests.

Biological Waste

Biological waste is produced under permit and is collected twice weekly for disposal by InEnTec. In 2006, BD Biosciences produced approximately 1.51 tons of biological waste. Biological waste, including pathology waste from the research vivarium is sent to InEnTec's Chowchilla facility for incineration. EH&S maintains copies of biological waste tracking documents.

Radioactive Waste

BD Biosciences maintains Radioactive Materials License #3404-43 with the State of California. The license permits BD Biosciences to hold radioactive materials with a physical half-life of less than 90 days for decay in storage before disposal in ordinary trash, provided the materials are held for decay in storage for at least 10 half-lives and the confirmatory radioactive waste survey confirms radioactivity is no greater than background. Isotopes in current use all have physical half-lives of less than 90 days.

The radioisotope program is very small, limited to R&D, with active researchers currently numbering three. Experiments with radioisotopes are presently very infrequent. There were none conducted in 2010.

_____

INSTRUCTIONS SUPPLIED TO ASSOCIATES:

Emergency
Dial 8500

Medical, Fire, Earthquake, Evacuation, Chemical Spills

EMERGENCY

DIAL 8500, give the following information:

1. Your name.
2. Your location.
3. Nature of the emergency
4. Answer all questions asked by Security.

This 24-hour, 7 day per week phone number connects you with the Security desk.

Do NOT call 911. Security will call.

MEDICAL EMERGENCY

Dial 8500. Provide information listed above.
Emergency medical response will be called by Security.

FIRE

In case of a fire, activate a "fire" alarm pull box station or Dial 8500. IF IN DOUBT, EVACUATE.

Familiarize yourself with the exit routes, fire extinguisher locations and "fire" alarm pull box stations.

EARTHQUAKE

In an earthquake, get under a desk or counter, stand against a non-glass wall and wait until the tremor subsides.
Be Ready For Aftershocks. Report injuries by dialing 8500.

NO EVACUATION:
It is not necessary to evacuate unless you are directed to do so either by an announcement over the Public Address System or by Security or ERT.

EVACUATION:
Follow evacuation instructions. Report injuries to ERT at First Aid Reporting Sign. The sign will be located near the associate assembly area. Evacuations will be ordered when there are multiple injuries and/or significant building damage.

EMERGENCY EXITS

If the fire alarm is activated, doors can be opened with push.
If the fire alarm is not activated push until alarm sounds.
Door can be opened in 15 seconds.

Emergency
Dial 8500

Medical, Fire, Earthquake, Evacuation, Chemical Spills (*Continued*)

EVACUATION PROCESS

Without compromising your own safety, turn off or shut down any equipment or process which might create a hazard if left unattended.

Proceed in an orderly manner to the pre-designated evacuation assembly area in the employee parking lot. **Smoking is prohibited.**

Prior to an emergency, familiarize yourself with exit routes from your work area.

ASSEMBLY AREAS

Regular Associates: After evacuating the building, assemble in the employee parking lot. Your department has been pre-assigned to one of these three color-coded areas - - Yellow, Blue or Pink. Check posted evacuation maps and/or confirm your evacuation assembly color with your supervisor.

Actions to Take: Remain with your department. Do not smoke. Do not leave the parking lot until you have been accounted for by the area roll call monitor.

FIRE ALARM

If you hear the Fire Alarm and/or see the strobe lights, evacuate immediately. Be alert and listen for instructions via the Public Address (P.A.) System, Emergency Response Team (ERT) or Security while exiting the building.

EMERGENCY P.A. SYSTEM

The Public Address (P.A.) system is used solely for emergencies. If the P.A. system is activated, listen carefully and do as instructed. Please listen. Your life may depend on it.

CHEMICAL INCIDENT

If the spilled substance is unknown, you should consider it a "Chemical Spill" and report it to the ERT. (Dial 8500). Do not attempt to clean up a spill of an unknown substance.

Minor Spill: Spill is less than 15 ml or 15 grams. An associate working with the substance may clean it up. If in doubt, dial 8500 (ERT).

Major Spill: Spill is greater than 15 ml or 15 grams or is any substance that threatens your safety or the environment. Dial 8500 (ERT).

Spills and Other Emergencies:

Spills: DO NOT ATTEMPT TO CLEAN UP A SPILL OF AN UNKNOWN SUBSTANCE. DIAL 8500.

For known chemicals, consider both the chemical's physical properties and whether you know the appropriate spill clean-up techniques and waste disposal requirements. Some substances are unsafe to handle even in small quantities.

Small quantities of spilled chemicals may be cleaned up without calling in the Emergency Response Team (ERT), so long as there is no question that the spill can be cleaned up safely.
Note: Mercury spills are always an 8500 call.

Small spills of blood, solutions containing blood, or other potentially Infectious material may be cleaned up using Universal Precautions and a 10% bleach solution.

However, if you have any doubt whatsoever about cleaning up a spill, please call ERT. ERT is always willing to do clean ups and ensure that waste is disposed of properly.

Larger quantity spills or those which present respiratory hazards (e.g., volatile chemicals, irritant powders) require action by the ERT. Please dial extension 8500.

ANY OTHER EMERGENCY: DIAL 8500.

Emergency Actions for Temporary Associates, Contractors, and Vendors

Leave the building whenever you see or hear the following:

- Strobe Lights
- Fire Alarms
- Emergency Announcement on Public Address System

Evacuation Procedure:

1. Without compromising you own safety, turn off or shut down any equipment or process which might create a hazard if left unattended

2. Proceed to the nearest emergency or other exit. Follow other employees to the employee parking lot on the south side of the building

3. Proceed to the assembly area where you BD sponsor or designated group is located in.

4. Roll call monitors will take a roll call from lists supplied to them by Security

5. After you have been accounted for by the area Roll Call monitor, wait for further instructions from the Incident Commander/ERT or from the Fire Department.

A. *ERT INVENTORY SUPPLY LIST*

ERT Knaack Box

- Clipboards containing position checklists
- Bin containing ERT vests
- Bin containing Sweep Team maps
- Bin containing ERT fanny packs of first-aid supplies
- 2 green duffel bags containing hard hats
- Bullhorns (3)
- 1 Medical bag
- First Aid sign
- 1 large flashlight
- 2 boxes of nitrile gloves
- Laminated bldg maps (1st & 2nd floor)
- Emergency blankets
- Heavy-duty gloves
- Roll of "caution" tape
- Can of Expo cleaning towelettes

ERT Closet

- Wheelchair
- 2 Oxygen tanks (wheeled tank and tank in backpack)
- 2 fire extinguishers
- 2 emergency stretchers (one wooden)
- 7 flashlights (2 large, 5 small)
- Hard hats
- Hazardous Chemical Desk Reference (1)
- Pocket guides - Hazardous materials (10+) Emergency Response Guidebook (2) Niosh Chemical Hazard book (1)
- Nitrile gloves, 1 box each size: S, M, L, XL
- ERT vests
- Blankets (2)
- Stiff neck collars
- Scissors/pens
- Paper towels/Lysol spray
- Germicidal disposable wipes
- Full-face air purifying respiratories (plus universal cartridges & dust filters)
- Mini spill-kit A (Acid and base neutralizer, several absorbent dikes/socks & wipes,
- Waste bag, dust pan
- Mini spill-kit B (vermiculite)
- LpHse germicidal detergent
- Snap Light light sticks (5 boxes)
- Other forms (?)
- Roll of "caution" tape
- Stair Chair
- Back board
- 2 Hand-held brooms with dust pans

- 8 full-face respirators
- 3 boxes of multi-contaminant cartridges
- 1 box of XL nitrile gloves
- Small plastic scoops
- 3 pairs of Barrier gloves

ERT Cabinets (2) in Mezzanine

1. ERT CPR Training Supplies
   - Annies and baby mannequins
   - Pocket masks & supplies

2. ERT Supplies
   - Gauze sponges
   - Standard First Aid training packet
   - ERT fanny packs (empty)
   - 1 Medical bag
   - 1 blue bin (triangular bandages, surgical cone masks, gauze pads, eye pads, elastic bandages, Patient Info. Field notepads)
   - Hg Absorb jar (check)
   - Mercury Simulation Moulage Kit (check)
   - Jar theatrical blood (check)
   - Moulage Kit (check)

ERT SHED

- 4 Orange Medical Bags (inside each bag: 3 acrylic blankets, cardboard splints, **and** 3 boxes labeled A, B, and C)

Box A 4x4 gauze pads, bandages, tape, antiseptic towelettes, eye dressing, penlight w/ batteries, scissors, tongue depressors

Box B Multi trauma dressing, abdominal pad dressing, gauze bandages, elastic bandages, triangular bandages

Box C Flashlight batteries, normal saline, thermal blankets, cold packs, information tags, paper w/ pen, plastic bags w/ ties, tissues, cardboard splints

- 9 boxes of acrylic blankets (8 per box)	- Food supply: (MRE's: 12 meals/box)
- 2 bags of emergency blankets	- 12 boxes of MRE
- Tarps	- 2 cases of energy bars
- 2 Spill Kit (Red barrel on wheels):	- 10 boxes of water in foil bags (64 per box)
(Dikes/socks and waste wipes, heavy duty	
Neoprene gloves/latex gloves, Haz-Mat booklets	(1 kit missing some items used for training
Clean-up material, Clorox solution, Epson salt -	
Hydrothoric acids, Formaldehyde spill control	
Agent, acid neutralizer, activated charcoal,	
pH paper, baking soda.	

ERT Shed (cont.)

- Level B suits (1 Medium, 2 Large)
- Decontamination barrel
- Water pump
- 1 bag silver shield gloves
- 2 squeegees
- Gloves
- Shovels
- 2 pairs of sweatpants
- 1 sweatshirt
- Duct tape
- Absorbent pads (bag opened)
- Haz-Mat bags (small yellow)
- Formaldehyde spill control bucket
- 8 cold packs
- 1 bucket absorbent
- 9 19 lb. bags Vermiculite
- 1 box acid neutralizer w/scoop
- 1 box caustic neutralizer w/scoop
- 4 Disposable obstetrical kits
- 5 boxes light sticks
- 2 Coleman stoves
- 2 Coleman lanterns
- 2 (5 gal) gas cans
- Napkins, paper towels, paper plates, forks, knifes
- 3 Angle sweep brooms with dust pans

ASSOCIATE TRAINING PLAN
In Support of
Hazardous Materials Business Plan
BD Biosciences

A. ASSOCIATE TRAINING:

1. EH&S Site Safety Orientation

- All new regular, temporary and contract associates attend the Environmental Health & Safety Site Safety Orientation during their first week of employment at the BDB San Jose site. During this orientation new associates are introduced to site evacuation, re-entry procedures, assembly point locations, and the fact evacuation drills are conducted twice per year.

- The 'Associates Handbook for EH&S' is available on the BD intranet.

- Associates are also instructed regarding internal alarms and site-wide emergency notification.

- Emergency incidents are reported by dialing "8500" (the site emergency phone number) which connects with Security (on site 24 hours per day).

Each telephone on the site is labeled as follows:

"EMERGENCY Dial 8500
Answer Questions Asked by Security"

2. Departmental Safety Orientation

- Following Site Safety Orientation, all new associates undergo a Departmental Safety Orientation in their respective work areas. This training is conducted by the area Safety Representative and includes orientation to evacuation routes from the associate's work area, location of alarms, fire extinguishers, personal protective equipment, safety showers and eyewashes, etc.

3. Training for Associates Who Handle Chemicals

- New associates who handle chemicals are required to review such documents as the Chemical Hygiene Plan, Code of Safe Practices for Laboratories, Spill Procedures, Chemical and Biological Waste Handling Procedures. All these documents are published on the EH&S intranet website.

- All associates who work with chemicals undergo Hazard Communication training, which includes discussion of chemical hazard classification, routes of entry of chemicals into the body, emergencies, including first aid, review of material safety data sheets, secondary labeling requirements, and explanation of Proposition 65 warnings.

4. Emergency Response Team Members Training

- Please refer to Emergency Response Team Purpose and Activities attached elsewhere to this Plan.

- Members train monthly in all aspects of emergency response appropriate for non-professionals at this site.

Emergency Response/Contingency Plan

(Hazardous Materials Business Plan Module)

Authority Cited: HSC§ 25504(b); 19 CCR §2731; 22 CCR §66262.34(a)(4)

All facilities that handle hazardous materials in HMBP quantities must have a written emergency response plan. In addition, facilities that generate 1,000 kilograms or more of hazardous waste (or more than 1 kilogram of acutely hazardous waste or 100 kilograms of debris resulting from the spill of an acutely hazardous waste) per month, or accumulate more than 6,000 kilograms of hazardous waste on-site at any one time, must prepare a hazardous waste contingency plan. Because the requirements are similar, they have been combined in a single document, provided below, for your convenience. This plan is a required module of the Hazardous Materials Business Plan (HMBP). **If you already have a plan that meets these requirements, you should not complete the blank plan, below, but you must include a copy of your existing plan as part of your HMBP.**

This site-specific Emergency Response/Contingency Plan is the facility's plan for dealing with emergencies and shall be implemented immediately whenever there is a fire, explosion, or release of hazardous materials that could threaten human health and/or the environment. **At least one copy of the plan shall be maintained at the facility for use in the event of an emergency and for inspection by the local agency.** A copy of the plan and any revisions must be provided to any contractor, hospital, or agency with whom special (i.e., contractual) emergency services arrangements have been made *(see section 3, below)*.

1. Evacuation Plan:

a. The following alarm signal(s) will be used to begin evacuation of the facility *(check all that apply)*:

☐ Bells; ☒ Horns/Sirens; ☒ Verbal *(i.e., shouting)*; ☒ Other *(specify* Public Address System

b. ☒ Evacuation map is prominently displayed throughout the facility.

Note: A properly completed HMBP Site Plan satisfies contingency plan map requirements. This drawing (or any other drawing that shows primary and alternate evacuation routes, emergency exits, and primary and alternate staging areas) must be prominently posted throughout the facility in locations where it will be visible to employees and visitors.

2. a. Emergency Contacts*:

Fire/Police/Ambulance ---------- Phone No.: **911**

State Office of Emergency Services ---------- Phone No.: **(800) 852-7550**

b. Post-Incident Contacts*:

Certified Unified Program Agency (CUPA) ---------- Phone No.: **(408) 852-7550**

Local Hazardous Materials Program ---------- Phone No.: **(408) 918-3400**

California EPA Department of Toxic Substances Control ---------- Phone No.: **(510) 540-3739**

Cal-OSHA Division of Occupational Safety and Health ---------- Phone No.: **(408) 452-7288**

Air Quality Management District ---------- Phone No.: **(415) 771-6000**

Regional Water Quality Control Board ---------- Phone No.: **(510) 622-2300**

*** Phone numbers for agencies in Unidocs Member Agency geographic jurisdictions are available at www.unidocs.org.**

c. Emergency Resources:

Poison Control Center* ---------- Phone No.: **(800) 876-4766**

Nearest Hospital: Name: **Regional Medical Center** Phone No.: **(729) 2848**

Address: **225 North Jackson Ave.** City: **San Jose**

3. Arrangements With Emergency Responders:

If you have made special (i.e., contractual) arrangements with any police department, fire department, hospital, contractor, or State or local emergency response team to coordinate emergency services, describe those arrangements below:

Record Keeping

(Hazardous Materials Business Plan Module)

All facilities that handle hazardous materials must maintain records associated with their management. A summary of your recordkeeping procedures is a required module of the Hazardous Materials Business Plan (HMBP). A blank summary has been provided below for you to complete and submit if you do not already have such a document. **If you already have a brief written description of your hazardous materials recordkeeping systems that addresses all subjects covered below, you are not required to complete this page, but you must include a copy of your existing document as part of your HMBP.**

Check all boxes that apply. The following records are maintained at the facility. *[Note: Items marked with an asterisk (*) are required.]*:

☒	Current employees' training records *(to be retained until closure of the facility)* *
☒	Former employees' training records *(to be retained at least three years after termination of employment)* *
☒	Training Program(s) *(i.e. written description of introductory and continuing training)* *
☒	Current copy of this Emergency Response/Contingency Plan *
☒	Record of recordable/reportable hazardous material/waste releases *
☒	Record of hazardous material/waste storage area inspections *
☐	Record of hazardous waste tank daily inspections *
☒	Description and documentation of facility emergency response drills

Note: The above list of records does not necessarily identify every type of record required to be maintained by the facility.

A copy of the Inspection Check Sheet(s) or Log(s) used in conjunction with required routine self-spections of your facility must be submitted with your HMBP. *(Exception: Available from your local agency is a Hazardous Materials/Waste Storage Area Inspection Form that you may use if you do not already have your own form. If you use the example provided, you do not need to attach a copy.)*

Check the appropriate box:

☐	We will use the Unidocs "Hazardous Materials/Waste Storage Area Inspection Form" to document inspections.
☒	We will use our own documents to record inspections. ***(A blank copy of each document used must be attached to this HMBP.)***

FIRE PREVENTION PLAN
BD BIOSCIENCES IMMUNOCYTOMETRY SYSTEMS

Purpose: Minimize damage to facility and business, due to fire.

Objective: Identify hazards, resources/safeguards and assurance processes used in this effort.

Potential Hazards

- Combustible materials
- Flammable Liquids
- Oxidizers
- Compressed Gas Cylinders (O2)
- Faulty wiring
- Equipment improperly installed or maintained
- Smoking
- Welding or Cutting
- Unapproved electrical appliances (heaters, hot plates, fans)
- Gas-fired equipment

Best Practices

- Housekeeping
- Separation of incompatible chemicals
- Maintain flammable storage
- Restriction of volume of chemicals

Suppression Systems

• FM200	Computer Room suppression systems
• Deluge Sprinklers	Deluge sprinkler systems, served by five risers
• Fire Extinguishers	Primarily dry chemical agent
• Pond	Alternate suppression source, 300,000 gallons
• CO2	Chemical Storage shed suppression systems

Detection Systems

- Smoke detectors
- Fire alarm
- Patrols

Policies/Procedures

- Hot Work Permits
- Fire System Impairment Permits
- Non-smoking facility policy
- Personal appliances policy

License/Permits

- Kitchen Hood
- Gas Fired Vessels (Boilers)
- Hazardous Materials storage permit

Inspections

Resource	Inspection frequency	Inspecting unit
Fire Panel condition	Every 8 hours	Security
Fire Extinguishers	Monthly	Security
Strobes & Audibles	Monthly	Facilities
Smoke Detectors	annually	Siemens
PIVs	Monthly	EH&S
Building Evacuation	Semi-annually	EH&S
ERT Training	Monthly	EH&S
Riser Pressures	Every 4 hours	Security
Welding Fire Watch	Post 4 hours	Security
8500 Line	Daily	Security
CO2 Systems	Annual	FireMaster
FM200	Annual	Facilities
Pond	Annual	Facilities
Fire Panel	Semi-annual	Siemens
Kitchen Hood	Annual	Firemaster
Pull Stations	Annual	Facilities

Training

ERT Evacuation Drills	Semi-annual	EH&S

Codes

CERS ID#: 10350094

Re: Reminder to Electronically Submit a Hazardous Materials Business Plan (HMBP) for BD BIOSCIENCES, 2350 QUME DR, SAN JOSE 95131

Dear Dina Craw,

Our records indicate that you have a Hazardous Materials Business Plan (HMBP) permit with our office because your facility handles hazardous materials above State reporting thresholds. Your business is now due to recertify your facility's HMBP electronically, as required by California Health and Safety Code section 25508(a)(1)(A). You must recertify your HMBP annually by resubmitting your Facility Information, Hazardous Materials Inventory, and Emergency Response and Training Plans using the California Environmental Reporting System (CERS) located at http://cers.calepa.ca.gov.

Please click on the website highlighted above, and follow these steps to review and certify your HMBP:

1) Click on "Business Portal Sign In", and log in by entering your Username and Password.
2) Click the "Start/ Edit Submittal" button next to the facility noted above.
   >Note: If you are a user associated with multiple businesses, select the appropriate business first.
3) Click the "Start" button located on the gray *Facility Information* ribbon. In the next window that appears, select the option that allows you to start the submittal based upon your last submission.
4) Make any necessary updates and revisions to the items listed below it (i.e. Business Activities and Business Owner/ Operator Identification). Then, press Save.
5) Repeat Steps 3 & 4 with the *Hazardous Materials Inventory* and *Emergency Response & Training Plans* ribbons. When finished, click "Submit" in any of the three ribbons, and then "Submit Selected Elements".

To learn more about Hazardous Materials Business Plan requirements and electronic reporting, visit our website at www.ehinfo.org/hazmat, and select "Hazardous Materials Business Plans" from the Programs and Services menu. If you require assistance, please contact Myra Reichardt by phone at (408) 918-1984, or via e-mail at hmcd.cers@cep.sccgov.org.

Thank you for your prompt attention to this matter.

Sincerely,
Richard Owens

NAME OF ADDITIONAL AUTHORIZED LEAD USER	TITLE
Stacey Vargas	EH&S Specialist
EMAIL ADDRESS*	**PHONE NUMBER**
Stacey_Vargas@bd.com	408-954-2129

Santa Clara County CUPA recommends that businesses have at least two Lead Users. If you want more Lead Users, have one of the above Lead Users approve the additional Lead User access requests.

* Provide the e-mail address exactly as shown on the user's CERS account record. If the user does not have a CERS account, they may obtain one at https://cersbusiness.calepa.ca.gov/Account/Register. Providing a different e-mail address, or the address of a user who does not have a CERS account, may delay that user's access to CERS facility records.

If multiple facilities are listed, please check one:

☐ We would like the ability to manage users and user privileges for each facility separately. Please do not transfer the following facilities to a common CERS Business/Organization record.

☑ We would like the ability to manage a single common list of users and user privilege for all facilities. If separate, please transfer all of the following facilities to the following CERS Business/Organization record:

BUSINESS/ORGANIZATION NAME (as shown in CERS): _____

HEADQUARTERS (City, State): _____

Provide the information below or check the following box and attach a list of sites included in this authorization. ☐ List of sites attached

CERS ID	FACILITY NAME	SITE ADDRESS	CITY
	BD Biosciences	2350 Qume Dr.	San Jose
	BD Biosciences	2222 Qume Dr.	San Jose
	BD Biosciences	2150 Commerce Dr.	San Jose

If you already have an active Lead User, do not submit this form. Your Lead Users should approve or deny CERS access requests by your employees, contractors, and consultants; and remove access in a timely manner for such persons who are no longer authorized to manage or submit data on your behalf.

Ric Gatdula, Jr.
Hazardous Materials Specialist
County of Santa Clara, Dept. of Environmental Health
Hzardous Materials Compliance Division (HMCD)
1555 Berger Drive, Suite 300
San Jose, CA, 951 12

To Ricardo Gatdula, Jr.:

As a result of the Hazaadous Waste Inspection conducted on April 26, 2007, I am happy to inform you that BD Biosciences is taking every step necessary to correct the violations that were issued.

Violation Code # 2216 – Materials in the chem shed that was obstructing aisleway clearance has been moved and relocated. A picture is provided below in attachment 1.

Violation Code # 2220 – The copies of the missing TSDF manifest (001171262, 00393150, and 00570664) are included with this letter and are in attachment 2.

Violation Code # 2201 – The EH&S department along with BD Biosciences upper management will institute a company policy and provide training to each affected associate about proper segregation techniques and management of hazardous waste in the laboratories. If necessary, all current containers being used as vessels for disposing of lab waste will be eliminated and replaced with approriate compatible containers suitable for various types of hazardous waste. Once completed, the BD Biosciences' EH&S department will provide the County of Santa Clara's Department of Environmental Health (HMCD division) a copy of our company policy and training records of each affected employee.

If you have any concerns or questions regarding the corrective actions BD Biosciences has taken please feel free to contact me any time at (408) 432-6455 or by email at mark_nool@bd.com.

Sincerely,

Mark Nool, EH&S Specialist

THE OFFICIAL NOTICE OF INSPECTION EXPLAINED

This Official Notice of Inspection (NOI) describes the findings made during the inspection, including all violations and any actions that must be taken by the facility to correct the violations. All violations must be corrected within 30 days of the inspection date unless noted otherwise by the inspector.

Within five working days of achieving compliance, or within 35 days of the inspection, whichever comes first, you must submit a written response which describes the corrective actions you have taken or — for those violations which are impossible to correct within 30 days — propose to take in order to bring your facility into compliance. Where proposed corrective actions are described, you must specify a date by which you expect each violation to be corrected. After you have addressed each violation, complete the certification box located at the bottom of page 1 of the NOI. **Your description of corrective actions taken, along with your signed certification of the NOI and any required supporting documents, will serve as your written response to this Notice to Comply.** Your response must be mailed to Santa Clara County Hazardous Materials Compliance Division (HMCD) at 1555 Berger Drive, Suite 300, San Jose, CA 95112-2716. The effective date of the certification that any violation has been corrected is the date that it is postmarked.

What Does the Information in Each Column Mean?

Violation Code: Codes listed in this column identify specific violations of laws, regulations, or codes which were observed during this inspection. Definitions of Violation Codes are listed on the attached Violation Codes document(s).

Summary of Violations, Notice to Comply, Observations, and Required Corrective Actions: Information noted in this column describes the circumstances of any violations noted in the first column and describes how the violations may be corrected. Additionally, the inspector may use this space to note any additional observations resulting from the inspection.

Corrective Actions Taken: This column on the NOI has been provided so that you can note how you have corrected or propose to correct each violation. Where proposed corrective actions are described, you must specify a date by which you expect each violation to be corrected. If more space is needed, attach additional pages.

Why Were Two Copies of the Notice of Inspection Given to Me?

You have been given two copies so you will have a copy for your own records after you submit your written response to HMCD. **Do not separate the copies until you have described all of your corrective actions and signed the certification box on page 1. The yellow copy of each page must be returned to HMCD. The pink copy is for your records.**

What if I Disagree With a Violation Noted on the Notice of Inspection?

If you disagree with any violation listed in this NOI, you must submit a written Notice of Disagreement to HMCD within 30 days of the inspection date. Address such notices to the attention of the inspector who cited the violation. In your Notice of Disagreement, you must explain in detail why you believe the violation does not exist. If there is sufficient space, you may use the "Corrective Actions Taken" column of this NOI to dispute violations.

What About Photographs or Samples Taken During the Inspection?

If samples were taken, split samples will be given to you upon request. Since this NOI was prepared and given to you at the end of the inspection, any photographs and sampling or laboratory results associated with the inspection were not yet available. A copy of any photographs and/or analytical results from sampling taken during this inspection will be provided to you upon written request. Other pertinent information derived from the inspection is attached to this NOI. Photographs and sample results may be withheld in the event of a criminal investigation or other ongoing investigation.

****

- **Per HSC §§25187.8(b) and 25404.1.2(c), failure to sign the certification on this Notice to Comply and return it to HMCD is a violation of State law.**
- **Per HSC §25404.1.2(c)(2), a false statement that compliance has been achieved is a misdemeanor.**
- **Per HSC §25191(b), a false statement that hazardous waste compliance has been achieved is a violation of State law punishable by a fine of not less than $2,000 or more than $25,000 and/or imprisonment in the county jail for up to one year.**
- **Per HSC §§25299(a)(8) and (b)(7), a false statement that underground storage tank compliance has been achieved is a violation of State law punishable by a fine of not less than $500 or more than $5,000.**
- **Per HSC §§25187.8(i), HMCD has the right to require the submittal of reasonable and necessary documentation in support of any claim of compliance made by your facility.**

OFFICIAL NOTICE OF INSPECTION

Facility Name:	Becton Dickinson, Imm.	Inspection Date:	3/11/99
Site Address:	2350 Qume Dr. SJ	Work Area:	606
Contact Person(s):	Bryan Woodhouse	Employee No.:	4760
Inspection Type:	☐ Hazardous Materials ☒ Hazardous Waste ☐ Toxic Gas ☐ Cal-Accidental Release Prevention Program ☐ Medical Waste Storage/Treatment ☐ Medical Waste Generator	Samples Taken? / Photographs Taken?	☐ Yes; ☒ No. / ☐ Yes; ☒ No.

VIOLATIONS: Codes noted below in the "Violation Code" column represent specific violations of State law and/or local Ordinance. These codes are defined in the attached Violation Codes document(s). Time granted for correction of violations does not preclude any enforcement action by this Department or other agencies. This facility may be subject to reinspection at any time.

Violation Codes	Summary of Violations, Notice to Comply, Observations, and Required Corrective Actions	Corrective Actions Taken
—	All manifests from 3/99 thru last inspection date ~~2/16/97~~ 6/5/97 are OK.	
—	Waste inspection OK weekly -	
—	all waste labeling OK	
—	monthly safety equip insp. OK	
—	No waste violations at this time. No response required - your facility is in compliance.	

All violations must be corrected within 30 days of the inspection date unless noted otherwise, above. Section 25187.8 of the State Health and Safety Code (H&SC) requires that you write a brief description of the corrective actions you have taken to bring this facility into compliance and submit it to this Department within 5 days of achieving compliance, or within 35 days of the inspection date, whichever comes first. ***(Note: Detailed instructions on actions you must take are printed on the reverse side of this page.)***

Received by: X Bryan Woodhouse 3/11/99 Inspected by: Davidson Entered by: _____

Certification: I certify under penalty of perjury that this facility has complied with directives specified in this Notice to Comply.

Signature of Owner/Operator: _____ Title: _____ Date: ___/___/___

FACILITY SENDS YELLOW COPY TO AGENCY, KEEPS PINK COPY.

THE OFFICIAL NOTICE OF INSPECTION EXPLAINED

This Official Notice of Inspection (Notice of Inspection) describes the findings made during the inspection, including all violations and any actions that must be taken by the facility to correct the violations. All violations must be corrected within 30 days of the inspection date unless noted otherwise by the inspector.

Within five working days of achieving compliance, or within 35 days of the inspection, whichever comes first, you must submit a written response which describes the corrective actions you have taken or - for those violations which are impossible to correct within 30 days - propose to take in order to bring your facility into compliance. Where proposed corrective actions are described, you must specify a date by which you expect each violation to be corrected. After you have addressed each violation, complete the certification box located at the bottom of page 1 of the Notice of Inspection. Your description of corrective actions taken, along with your signed certification of the Notice of Inspection and any required supporting documents, will serve as your written response to the inspection. Your response must be mailed to the Santa Clara County Hazardous Materials Compliance Division (HMCD) at P.O. Box 28070, San Jose, CA 95159-8070.

What Does the Information in Each Column Mean?

Violation Code: Codes listed in this column identify specific violations of laws, regulations, or codes which were observed during this inspection. Definitions of Violation Codes are listed on the attached Violation Codes document(s).

Summary of Violations, Notice to Comply, Observations, and Required Corrective Actions: Information noted in this column describes the circumstances of any violations noted in the first column and describes how the violations may be corrected. Additionally, the inspector may use this space to note any additional observations resulting from the inspection.

Corrective Actions Taken: This column on the Notice of Inspection has been provided so that you can note how you have corrected or propose to correct each violation. Where proposed corrective actions are described, you must specify a date by which you expect each violation to be corrected. If more space is needed, attach additional pages.

Why Were Two Copies of the Notice of Inspection Given to Me?

You have been given two copies so you will have a copy for your own records after you submit your written response to HMCD. Do not separate the copies until you have described all of your corrective actions and signed the certification box on page 1. The yellow copy of each page must be submitted to HMCD. The pink copy is for your records.

What if I Disagree With a Violation Noted on the Notice of Inspection?

If you disagree with any violation listed in this Notice of Inspection, you must submit a written Notice of Disagreement, within 35 days of the inspection date, to the inspector who cited the violation. In your Notice of Disagreement, you must explain in detail why the violation does not exist. If there is sufficient space, you may use the "Corrective Actions Taken" column of this Notice of Inspection to dispute violations.

What About Photographs or Samples Taken During the Inspection?

Since this Notice of Inspection was prepared and given to you at the end of the inspection, any photographs and sampling or laboratory results associated with the inspection were not yet available. A copy of any photographs and/or analytical results from sampling taken during this inspection will be provided to you upon written request. Other pertinent information derived from the inspection is attached to this Notice of Inspection. Photographs and sample results may be withheld in the event of a criminal investigation or other ongoing investigation.

****

Hazardous Waste Violations

- **Per H&SC, Section 25187.8(g)(1), failure to sign the certification on this Notice of Inspection and return it to this Department is a violation of State law.**
- **Per H&SC, Section 25191, a false statement that compliance has been achieved is a violation of State law punishable by a fine of not less than $2,000 or more than $25,000 and/or imprisonment in the county jail for up to one year.**
- **Per H&SC, Section 25187.8(j), this Department has the right to acquire the submittal of reasonable and necessary documentation in support of any claim of compliance made by your facility.**

VIOLATIONS: Item(s) checked below represent a violation of referenced sections of Title 22 of Calif. Code of Regulations, and/or Chapter 6.5 of the Health & Safety Code for which there are civil and criminal penalties in addition to fines ranging from $2,000 to $250,000 per day per violation. Time granted for correction of violations does not preclude any enforcement action by this department or other agencies.

(01) HAZARDOUS WASTE DETERMINATION
- ☐ 66262.11 Hazardous waste determination not made

(02) DISPOSAL
- ☐ 25189.5 Disposal of hazardous waste and/or extremely hazardous waste to trash/dumpster/ground
- ☐ 25189.5 Disposal of hazardous waste and/or extremely hazardous waste to storm drain
- ☐ 25189.5 Disposal of hazardous waste and/or extremely hazardous waste to sewer/septic system without permit
- ☐ 25189.5 Disposal of hazardous waste and/or extremely hazardous waste to an unpermitted facility

(03) EPA NUMBER/PERMITS
- ☐ 66262.12 Waste generator operating without EPA ID No.
- ☐ 66270.1 On-site waste treatment/disposal without permit
- ☐ 67430.1 Handling/disposal of extremely hazardous waste without permit

(04) ACCUMULATION TIME AND MANAGEMENT OF CONTAINERS/TANKS
- ☐ 66262.34(c) Waste accumulated on site greater than 90 days without an extension from Dept. of Health Services
- ☒ 66262.34(f) Accumulation start date on waste container not marked/legible
- ☐ 66262.34(f) Description of contents/hazardous property of waste/generator name and address not marked on container
- ☐ 66265.171 Hazardous waste container not in good condition
- ☐ 66265.172 Waste incompatible with container
- ☐ 66265.173 Waste containers not closed/sealed during storage.
- ☐ 66265.177(c) Waste containers not handled/stored/segregated to minimize waste release/reaction
- ☐ 66265.174 Container storage area not inspected weekly
- ☐ 66266.130 Improper management of used oil filters

- ☐ 66262.34(f) "HAZARDOUS WASTE" not clearly marked on containers/tank
- ☐ 66262.34(d) Tank greater than 5000 gallons of hazardous waste without permit
- ☐ 66256.194(3) Open tank less than 2 ft. freeboard without double containment
- ☐ 66265.199 Incompatibles in same tank
- ☐ 66265.195 Tank and tank equipment not inspected daily/not documented in operating record of the facility

(05) RECORDKEEPING AND REPORTING
- ☐ 66262.11 Waste analysis/test records not kept for at least 3 years
- ☐ 66262.41 Biennial Report not sent to Dept. of Health Services
- ☐ 66262.41 Biennial Report incomplete/incorrect
- ☐ 66262.40 Biennial Report copy/Exception Report not retained

(06) TRAINING
- ☐ 66265.16 Training Program not provided
- ☐ 66265.16(b) Personnel untrained and unsupervised
- ☐ 66265.16(b) Hazardous waste personnel not trained within 6 months of hire date
- ☐ 66265.16(d) Training records not kept on site
- ☐ 66265.16(1) Training records missing job title/names of hazardous waste employees
- ☐ 66265.16(2) Training records missing description of position
- ☐ 66265.16(e) Training records not maintained until closure of facility or at least 3 years (for former employees)

(07) CONTINGENCY PLAN/BUSINESS PLAN
- ☐ 66265.53(b) Contingency/Business Plan not submitted/made
- ☐ 66265.52(a) Plan does not describe personnel response in emergencies
- ☐ 66265.52(b) Plan missing agreements with local emergency response agencies/hospitals
- ☐ 66265.52(d) Plan missing names/addresses/phone numbers of emergency coordinators
- ☐ 66265.52(e) Plan missing list of emergency equipment/locations
- ☐ 66265.52(f) Plan does not contain evacuation procedures/routes
- ☐ 66265.53 Copy of Plan not maintained on site
- ☐ 66265.54 Plan not amended as necessary
- ☐ 66265.55 Emergency coordinator not familiar with facility/Contingency Plan

(08) PREPAREDNESS AND PREVENTION
- ☐ 66265.32(a) Internal communications or alarm system not provided
- ☐ 66265.32 A device capable of calling outside emergency help not provided
- ☐ 66265.34 No access to communication/alarm system during waste handling
- ☐ 66265.32(c) No fire/spill control or decontamination system
- ☐ 66265.33 Emergency equipment not tested/maintained
- ☐ 66265.35 Required aisle space not maintained

(09) MANIFEST/RECEIPTS
- ☐ 66262.20 Waste shipped without a manifest
- ☐ 66263.42 Modified manifest/receipt not kept/not available/incomplete
- ☐ 25250.8 Waste oil modified manifest/receipt not kept/not available/incomplete
- ☐ 66262.23 Manifest copies not sent to DOHS within 30 days
- ☐ 66262.23 Applicable sections of manifest not properly filed out
- ☐ 66262.23 Manifest missing GENERATOR information
- ☐ 66262.20 Manifest missing TRANSPORTER information
- ☐ 66262.23 Manifest missing TSDF information
- ☐ 66262.23 Manifest missing waste description/quantity
- ☐ 66262.23 Manifest unsigned/undated by GENERATOR
- ☐ 66262.23 Manifest unsigned/undated by TRANSPORTER
- ☐ 66262.42 No attempt to determine status of waste when no TSDF manifest copy received within 35 days of shipment
- ☐ 66262.42 Exception Report not sent to DOHS within 45 days
- ☐ 66262.40 Manifest copy not kept for 3 years from shipment

(10) TRANSPORT
- ☐ 66262.12 Waste offered to transporter without EPA ID No.
- ☐ 66262.12 Waste offered to TSD facility without EPA ID No.
- ☐ 66263.17 Waste transported by unregistered hauler

(11) EMERGENCY PROCEDURES
- ☐ 66265.56 Character/source/extent of emergency not determined
- ☐ 66265.56 Proper agencies not notified of health/environmental hazards
- ☐ 66265.56 Emergency data not logged/submitted to DTSC and Santa Clara County within 15 days of accident
- ☐ 66265.56 Released waste/contaminated equipment improperly treated, handled, stored, or disposed

CERTIFICATION OF COMPLIANCE

BUSINESS NAME: Becton Dickinson-BDIS

INSPECTOR Thomas Paulson

COUNTY I.D. NO. Inv. ID#502425AB From Permit

DATE OF INSP. 6-5-97

SITE ADDRESS: 2350 Qume Dr. San Jose 95131

I certify under penalty of law that:

This Business has corrected all violations marked on the official notice of inspection.

I have personally examined any documentation attached to this certification to establish that the violations have been corrected.

Based on my examination of the attached documentation and inquiry of the individuals who prepared or obtained it, I believe that the information is true, accurate, and complete.

I am authorized to file this certification for the Business.

I am aware that there are significant penalties for submitting false information.

Signed: Bryan S. Woodhouse

Dear Thomas:

I have corrected the violation noted in today's inspection by re-issuing my memo you saw posted throughout the labs on exactly how to fill out and use our hazardous waste labels. I also admonished the lab in question on being sure they adhere to this rule and date all labels as they go on the vessel prior to filling. I will also be advising all our lab safety reps to be sure to bring this issue up at their lab meetings coming up this month and next month and to stress that everyone follow the labeling rules on all waste.

Please call me with any and all questions at 408-954-2312.

Sincerely,

Bryan S. Woodhouse

Emergency Response Training

All Personnel

All employees are trained in the following procedures:

__x__ Internal/alarm notification.
__x__ External emergency response organization notification.
__x__ Locations and content of emergency response plan.
__x__ Evacuation procedures.
__x__ Spill procedures. - Call ERT - Dail 85 (See Emergency Instructions Attached)

Chemical Handlers

Chemical handlers are additionally trained in the following:

__x__ Safe method for handling and storage of hazardous materials.
__x__ Proper use of personal protection equipment. - Gloves
__x__ Locations and proper use of fire and spill control equipment.
__x__ Specific hazards of each chemical to which they may be exposed, including the pathways of exposure (i.e. skin absorption, inhalation, ingestion).

Emergency Response Team

Emergency response team members are additionally trained in the following procedures and will act as liaison to the Fire Department:

__x__ Personnel rescue procedures.
__x__ Shutdown of operations. - Facilities Members of ERT
__x__ Use, maintenance, and replacement of emergency response equipment.
__x__ Emergency response drills, which are held Semi-annually (frequency).
__x__ Refresher training is provided at least annually.

Emergency Response Documents

The following training records are maintained for each employee:

__x__ Verification of date that training was completed.
__x__ Description of introductory and continuing training.
__x__ Employee's training records are retained at least three years.
__x__ Description and documentation of facility emergency response drills.

Your Emergency Response Training Plan and training records must be on site and available for review by the Fire Department.

Evacuation Information

Evacuation Notification
__x__ Verbal (i.e. shouting)
__x__ Horns
__x__ Alarms

Evacuation Procedures
The evacuation plan and routes must be submitted with the HMMP and shalll include:
__x__ Defined evacuation routes and procedures.
__x__ Preplanned assembly areas.
__x__ Evacuation route maps prominently displayed throughout facility.
__x__ Re-entry procedures.

Other Evacuation Planning Information
__x__ NFPA placarding which complies with San Jose Fire Department guidelines
Priority Inspection Sites (The following mechanical, piping, or other systems will have priority inspection followng an earthquake):
__n/a__ Toxic gas(es) distribution/control
__x__ Natural gas system
__x__ Electrical
__x__ Other (list) Other Hazardous Material Storage Areas as per maps

SAN JOSE BUILDING
EMERGENCY PROCEDURES

August 9, 1990

GENERAL: In any emergency situation you encounter, pick up any phone - dial 85, give the information as instructed on the emergency label on the phone and answer the dispatcher's questions. This is a 24 hour-a-day, 7 day a week number for all emergencies. DO NOT CALL 911 YOURSELF. The emergency dispatcher will handle all further dispatching.

FIRE ALARM: If you hear the Fire Alarm and/or see the strobe lights, begin evacuation. Be alert, and listen for further instructions over the emergency paging system or from the ERT/Security team while exiting the building. If you are an ERT member, report at once to the ERT staging area at the employee entrance.

EARTHQUAKE: In an earthquake, get under a desk or counter or stand against a non-glass wall and wait until the tremor subsides - be ready for after-shocks. Report injuries on 85. Help your fellow workers close to you. It is not necessary to evacuate until instructions are given by an ERT member or Security Guard. If you are an ERT member, report to the ERT staging area at the employees entrance when safe.

EVACUATION: Familiarize yourself with exit routes, fire extinguisher locations and alarm pull locations. Call 85 after using an alarm pull. Proceed to the appropriate assembly area in the employee parking lot in an orderly manner when the fire alarm sounds or when instructed to do so by an ERT member or Security Guard.

EMERGENCY P.A. SYSTEM: The P.A. System at 2350 is for emergencies only. When it comes on, listen carefully and do as instructed. Do not ignore it.

kt:7/8/90

LABELING OF HAZARDOUS CHEMICAL WASTE VESSELS

ALL vessels containing hazardous wastes at satellite accumulation sites in laboratories must have a yellow HAZARDOUS WASTE IDENTIFICATION label filled out, including date, and attached prior to beginning to fill. This includes bottles, bags, drums or any other container holding chemical waste.

These labels must be filled out as follows:

(1) Composition--List the specific chemicals and the best estimate of concentrations. Be sure of compatibility per container. For tubes, wipers, plastic ware, etc. with chemical residue only, state "lab waste...contaminated with trace amounts of...(chemical or chemicals)".

(2) Accum. Start Date--The date you put it out to begin to fill. NOTE*** This date MUST be on all labels.

(3) Generating Org.--The lab room number from the door jam is best.

(4) State and Hazard class--Check appropriate box.

VIOLATIONS: Item(s) checked below represent a violation of referenced sections of Title 22 of Calif. Code of Regulations, and/or Chapter 6.5 of the Health & Safety Code for which there are civil and criminal penalties in addition to fines ranging from $2,000 to $25,000 per day per violation. Time granted by this department for correction of violations does not preclude possible prosecution by other agencies.

(01) HAZARDOUS WASTE DETERMINATION
- ☐ 66471 Hazardous waste determination not made

(02) PERMIT(S)
- ☐ 66371 On-site waste treatment/disposal without permit
- ☐ 66371 Disposal of hazardous waste to trash/dumpster/ground
- ☐ 66371 Disposal of hazardous material to storm drain
- ☐ 66371 Disposal of hazardous waste to sewer/septic system without permit
- ☐ 66371 Disposal to ambient air without permit (BAAQMD)
- ☐ 66371 Acceptance of off-site waste without permit
- ☐ 25163 Waste transported by unregistered hauler

(03) EPA ID NUMBER
- ☐ 66472 Waste generator operating without EPA ID No
- ☐ 66472 Waste offered to transporter without EPA ID No
- ☐ 66472 Waste offered to TSD facility without EPA ID No.

(04) EXTREMELY HAZARDOUS WASTE
- ☐ 66570 Handling/disposal of extremely hazardous waste without permit
- ☐ 66570 Improper handling/disposal of extremely hazardous waste

(05) RECORDKEEPING AND REPORTING
- ☐ 66492 Waste analysis/test records not kept for at least 3 years
- ☐ 66493 Biennial Report not sent to Dept. of Health Services
- ☐ 66493 Biennial Report incomplete/ incorrect
- ☐ 66492 Biennial Report copy/Exception Report not retained
- ☐ 25342 Annual Tax Report not sent to Board of Equalization

(06) MANIFEST
- ☐ 66480 Waste shipped without a manifest
- ☐ 66328 Modified manifest/receipt not available/not kept
- ☐ 66484 Manifest copies not sent to DOHS within 30 days
- ☐ 66481 Applicable sections of manifest not properly filled out
- ☐ 66482 Manifest missing GENERATOR information
- ☐ 66482 Manifest missing TRANSPORTER information
- ☐ 66482 Manifest missing TSDF information
- ☐ 66482 Manifest missing waste description/quantity
- ☐ 66482 Manifest unsigned/undated by GENERATOR
- ☐ 66482 Manifest unsigned/undated by TRANSPORTER
- ☐ 66482 TSDF copy of manifest unsigned/ undated by TSDF
- ☐ 66484 No attempt to determine status of waste when no TSDF manifest copy received within 35 days of shipment
- ☐ 66484 Exception Report not sent to DOHS within 45 days
- ☐ 66484 Manifest copy not kept for 3 years from shipment

(07) CONTINGENCY PLAN (or Business Plan)
- ☐ 67140 Contingency/BUSINESS plan not submitted/made
- ☐ 67141 Plan missing agreements with local emergency response agencies/hospitals
- ☐ 67141 Plan does not describe personnel response in emergencies
- ☒ 67141 Plan missing names/addresses/ phone numbers of emergency coordinators
- ☒ 67141 Plan missing list of emergency equipment/locations
- ☐ 67141 Plan does not contain evacuation procedures/routes
- ☐ 67142 Copy of Plan not maintained on site
- ☐ 67144 Emergency coordinator not familiar with facility/Contingency Plan
- ☒ 67143 Plan not amended as necessary

(08) EMERGENCY PROCEDURES (If emergency has occured)
- ☐ 67145 State or local agencies not notified of emergency
- ☐ 67145 Character/source/extent of emergency not determined
- ☐ 67145 Proper agencies not notified of health/environmental hazards
- ☐ 67145 Steps not taken to prevent spreading/reoccurrance of hazard
- ☐ 67145 Affected equipment not monitored for leaks/pressure/ damage
- ☐ 67145 Released waste/contaminated equipment improperly treated, handled, stored, or disposed
- ☐ 67145 DOHS not notified when site again in compliance
- ☐ 67145 Emergency data not logged/submitted to DOHS & Santa Clara County Toxics within 15 days of accident

(09) TRAINING (Hazardous Waste Personnel)
- ☐ 67105 Training program not provided
- ☐ 67105 Personnel untrained and unsupervised
- ☐ 67105 Hazardous waste personnel not trained within 6 months of hire date
- ☐ 67105 Training records not kept on site
- ☒ 67105 Training records missing job title/names of hazardous waste employees
- ☒ 67105 Training records missing description of position
- ☐ 67105 No documentation that training requirements have been met
- ☐ 67105 Training records not maintained until closure of facility or at least 3 years (for former employees)

(10) PREPAREDNESS AND PREVENTION
- ☐ 67121 Communications or alarm system not provided
- ☐ 67121 No fire/spill control or decontamination system
- ☒ 67121 Emergency equipment not tested/maintained

(11) USE/MANAGEMENT OF CONTAINERS
- ☒ 67124 Inadequate aisle space between waste containers
- ☐ 67243 Waste containers not closed/sealed during storage
- ☐ 67120 Waste containers not handled/stored/segregated to minimize waste release/reaction

(12) PRE-TRANSPORT
- ☐ 66504 Hazardous waste not packaged/ labeled according to CFR 40, CFR 49, and DOT regulations prior to transport

(13) ACCUMULATION TIME AND LABELING
- ☐ 66508 Waste accumulated on site greater than 90 days without an extension from Dept. of Health Services
- ☒ 66508 Accumulation start date on waste container not marked/ legible
- ☒ 66508 "HAZARDOUS WASTE" not clearly marked on container/tank
- ☒ 66508 Label missing description of contents/hazardous property of waste/generator name and address

(14) TANKS
- ☐ 25123.3 Tank greater than 5000 gallons of hazardous waste without permit
- ☐ 67257 Open tank less than 2 ft freeboard without double-containment
- ☐ 67242 Waste incompatible with container
- ☐ 67247 Incompatibles in same tank
- ☐ 67259 Tank & tank equipment not inspected

(15) MONITORING
- ☐ 67244 No record of weekly monitoring of storage area

Submittal Status

Submitted on 2/5/2020 by *robert Capossela* of BD BIOSCIENCES (SAN JOSE, CA)
Submittal was ***Accepted***; Processed on 2/5/2020 by *Karl Etulle* for Santa Clara County Environmental Health
Comments by regulator: Accepted as administratively complete. A technical review may be conducted subsequently as part of your next facility inspection.

Hazardous Materials

Does your facility have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or is regulated under more restrictive inventory local reporting requirements (shown below if present); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	**Yes**

Underground Storage Tank(s) (UST)

Does your facility own or operate underground storage tanks?	**No**

Hazardous Waste

Is your facility a Hazardous Waste Generator?	**No**
Does your facility treat hazardous waste on-site?	**No**
Is your facility's treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	**No**
Does your facility consolidate hazardous waste generated at a remote site?	**No**
Does your facility need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	**No**
Does your facility generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month greater than 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	**No**
Is your facility a Household Hazardous Waste (HHW) Collection site?	**No**

Excluded and/or Exempted Materials

Does your facility recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	**No**
Does your facility own or operate ASTs above these thresholds? Store greater than 1,320 gallons of petroleum products (new or used) in aboveground tanks or containers.	**No**
Does your facility have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	**No**

Additional Information

No additional comments provided.

CALIFORNIA ENVIRONMENTAL REPORTING SYSTEM (CERS)

CONSOLIDATED EMERGENCY RESPONSE / CONTINGENCY PLAN

Prior to completing this Plan, please refer to the INSTRUCTIONS FOR COMPLETING A CONSOLIDATED CONTINGENCY PLAN

A. FACILITY IDENTIFICATION AND OPERATIONS OVERVIEW

FACILITY ID #	1. CERS ID	A1. DATE OF PLAN PREPARATION/REVISION A2.
	10594909	6/5/2015

BUSINESS NAME *(Same as Facility Name or DBA - Doing Business As)* 3.
BD Biosciences

BUSINESS SITE ADDRESS 103.
2150 Commerce Dr

BUSINESS SITE CITY 104.		ZIP CODE 105.
San Jose	CA	95131

TYPE OF BUSINESS (e.g., Painting Contractor) A3.	INCIDENTAL OPERATIONS (e.g., Fleet Maintenance) A4.
R&D, Reagent and Instrument Manufacturing	

THIS PLAN COVERS CHEMICAL SPILLS, FIRES, AND EARTHQUAKES INVOLVING: (Check all that apply) A5.
☒ 1. HAZARDOUS MATERIALS; ☐ 2. HAZARDOUS WASTES

B. INTERNAL RESPONSE

INTERNAL FACILITY EMERGENCY RESPONSE WILL OCCUR VIA: (Check all that apply) B1.
☒ 1. CALLING PUBLIC EMERGENCY RESPONDERS (i.e., 9-1-1)
☒ 2. CALLING HAZARDOUS WASTE CONTRACTOR
☒ 3. ACTIVATING IN-HOUSE EMERGENCY RESPONSE TEAM

C. EMERGENCY COMMUNICATIONS, PHONE NUMBERS AND NOTIFICATIONS

Whenever there is an imminent or actual emergency situation such as an explosion, fire, or release, the Emergency Coordinator (or his/her designee when the Emergency Coordinator is on call) shall:
1. Activate internal facility alarms or communications systems, where applicable, to notify all facility personnel.
2. Notify appropriate local authorities (i.e., call 9-1-1).
3. Notify the California Emergency Management Agency at (800) 852-7550.

Before facility operations are resumed in areas of the facility affected by the incident, the emergency coordinator shall notify the California Department of Toxic Substances Control (DTSC), the local Unified Program Agency (UPA), and the local fire department's hazardous materials program that the facility is in compliance with requirements to:
1. Provide for proper storage and disposal of recovered waste, contaminated soil or surface water, or any other material that results from an explosion, fire, or release at the facility; and
2. Ensure that no material that is incompatible with the released material is transferred, stored, or disposed of in areas of the facility affected by the incident until cleanup procedures are completed.

INTERNAL FACILITY EMERGENCY COMMUNICATIONS OR ALARM NOTIFICATION WILL OCCUR VIA: (Check all that apply) C1.

☐ 1. VERBAL WARNINGS;	☐ 2. PUBLIC ADDRESS OR INTERCOM SYSTEM;	☐ 3. TELEPHONE;
☐ 4. PAGERS;	☒ 5. ALARM SYSTEM;	☒ 6. PORTABLE RADIO

NOTIFICATIONS TO NEIGHBORING FACILITIES THAT MAY BE AFFECTED BY AN OFF-SITE RELEASE WILL OCCUR BY: (Check all that apply) C2.

☐ 1. VERBAL WARNINGS;	☐ 2. PUBLIC ADDRESS OR INTERCOM SYSTEM;	☒ 3. TELEPHONE;
☐ 4. PAGERS;	☐ 5. ALARM SYSTEM;	☐ 6. PORTABLE RADIO

EMERGENCY RESPONSE PHONE NUMBERS:		
	AMBULANCE, FIRE, POLICE AND CHP	9-1-1
	CALIFORNIA EMERGENCY MANAGEMENT AGENCY (CAL/EMA)	(800) 852-7550
	NATIONAL RESPONSE CENTER (NRC)	(800) 424-8802
	POISON CONTROL CENTER	(800) 222-1222
	LOCAL UNIFIED PROGRAM AGENCY (UPA/CUPA)	(408) 918-3400 C3.
	OTHER (Specify): C4.	C5.
NEAREST MEDICAL FACILITY / HOSPITAL NAME:	Region Medical Center C6.	(408) 259-5000 C7.
AGENCY NOTIFICATION PHONE NUMBERS:	CALIFORNIA DEPT. OF TOXIC SUBSTANCES CONTROL (DTSC)	(916) 255-3545
	REGIONAL WATER QUALITY CONTROL BOARD	(510) 622-2300 C8.
	U.S. ENVIRONMENTAL PROTECTION AGENCY (US EPA)	(800) 300-2193
	CALIFORNIA DEPT OF FISH AND GAME (DFG)	(916) 358-2900
	U.S. COAST GUARD	(202) 267-2180
	CAL/OSHA	(916) 263-2800
	STATE FIRE MARSHAL	(916) 445-8200
	OTHER (Specify): C9.	C10.
	OTHER (Specify): C11.	C12.

D. EMERGENCY CONTAINMENT AND CLEANUP PROCEDURES

SPILL PREVENTION, CONTAINMENT, AND CLEANUP PROCEDURES: (Check all boxes that apply to indicate your procedures for containing spills, releases, fires or explosions; and, preventing and mitigating associated harm to persons, property, and the environment.) D1.

- ☒ 1. MONITOR FOR LEAKS, RUPTURES, PRESSURE BUILD-UP, ETC.;
- ☒ 2. PROVIDE STRUCTURAL PHYSICAL BARRIERS (e.g., Portable spill containment walls);
- ☒ 3. PROVIDE ABSORBENT PHYSICAL BARRIERS (e.g., Pads, pigs, pillows);
- ☒ 4. COVER OR BLOCK FLOOR AND/ OR STORM DRAINS;
- ☒ 5. BUILT-IN BERM IN WORK / STORAGE AREA;
- ☒ 6. AUTOMATIC FIRE SUPPRESSION SYSTEM;
- ☒ 7. ELIMINATE SOURCES OF IGNITION FOR FLAMMABLE HAZARDS (e.g. Flammable liquids, Propane);
- ☒ 8. STOP PROCESSES AND/OR OPERATIONS;
- ☐ 9. AUTOMATIC / ELECTRONIC EQUIPMENT SHUT-OFF SYSTEM;
- ☒ 10. SHUT-OFF WATER, GAS, ELECTRICAL UTILITIES AS APPROPRIATE;
- ☒ 11. CALL 9-1-1 FOR PUBLIC EMERGENCY RESPONDER ASSISTANCE / MEDICAL AID;
- ☒ 12. NOTIFY AND EVACUATE PERSONS IN ALL THREATENED AREAS;
- ☒ 13. ACCOUNT FOR EVACUATED PERSONS IMMEDIATELY AFTER EVACUATION CALL;
- ☒ 14. PROVIDE PROTECTIVE EQUIPMENT FOR ON-SITE RESPONSE TEAM;
- ☒ 15. REMOVE OR ISOLATE CONTAINERS / AREA AS APPROPRIATE;
- ☒ 16. HIRE LICENSED HAZARDOUS WASTE CONTRACTOR;
- ☒ 17. USE ABSORBENT MATERIAL FOR SPILLS WITH SUBSEQUENT PROPER LABELING, STORAGE, AND HAZARDOUS WASTE DISPOSAL AS APPROPRIATE;
- ☐ 18. SUCTION USING SHOP VACUUM WITH SUBSEQUENT PROPER LABELING, STORAGE, AND HAZARDOUS WASTE DISPOSAL AS APPROPRIATE;
- ☒ 19. WASH / DECONTAMINATE EQUIPMENT W/ CONTAINMENT and DISPOSAL OF EFFLUENT / RINSATE AS HAZARDOUS WASTE;
- ☒ 20. PROVIDE SAFE TEMPORARY STORAGE OF EMERGENCY-GENERATED WASTES;
- ☐ 21. OTHER (Specify): D2.

E. FACILITY EVACUATION

THE FOLLOWING ALARM SIGNAL(S) WILL BE USED TO BEGIN EVACUATION OF THE FACILITY (CHECK ALL THAT APPLY): E1.

- ☐ 1. BELLS;
- ☒ 2. HORNS/SIRENS;
- ☐ 3. VERBAL (I.E., SHOUTING);
- ☐ 4. OTHER (Specify): E2.

THE FOLLOWING LOCATION(S) IS/ARE EVACUEE EMERGENCY ASSEMBLY AREA(S) (i.e., Front parking lot, specific street corner, etc.) E3.

Employee Parking Lot East

Note: The Emergency Coordinator must account for all on site employees and/or site visitors after evacuation.

☒ EVACUATION ROUTE MAP(S) POSTED AS REQUIRED E4.

Note: The map(s) must show primary and alternate evacuation routes, emergency exits, and primary and alternate staging areas, and must be prominently posted throughout the facility in locations where it will be visible to employees and visitors.

F. ARRANGEMENTS FOR EMERGENCY SERVICES

Explanation of Requirement: Advance arrangements with local fire and police departments, hospitals, and/or emergency services contractors should be made as appropriate for your facility. You may determine that such arrangements are not necessary.

ADVANCE ARRANGEMENTS FOR LOCAL EMERGENCY SERVICES (Check one of the following) F1.

- ☒ 1. HAVE BEEN DETERMINED NOT NECESSARY; *or*
- ☒ 2. THE FOLLOWING ARRANGEMENTS HAVE BEEN MADE (Specify): F2.

Ingenium has been contracted to assist in large spill clean-ups. (Beyond the ERT spill response capabilities)

Ingenium 800-805-6236

G. EMERGENCY EQUIPMENT

Check all boxes that apply to list emergency response equipment available at the facility and identify the location(s) where the equipment is kept and the equipment's capability, if applicable. [e.g., ☒ CHEMICAL PROTECTIVE GLOVES | Spill response kit | One time use, Oil & solvent resistant only.]

TYPE	EQUIPMENT AVAILABLE	G1.	LOCATION	CAPABILITY *(If applicable)*
Safety and First Aid	1. ☒ CHEMICAL PROTECTIVE SUITS, APRONS, OR VESTS	G2. ERT Closet, Building 1	G3. Tyvek suits, single use, splash hazard protection only
	2. ☒ CHEMICAL PROTECTIVE GLOVES	G4. ERT Closet, Building 1	G5. Nitrile gloves, single use, splash hazard protection only
	3. ☒ CHEMICAL PROTECTIVE BOOTS	G6. ERT Closet, Building 1	G7. single use, splash hazard protection only
	4. ☒ SAFETY GLASSES / GOGGLES / SHIELDS	G8. ERT Closet, Building 1	G9.
	5. ☐ HARD HATS	G10.	G11.
	6. ☒ CARTRIDGE RESPIRATORS	G12. ERT Closet, Building 1	G13. Reusable, cartridge exposure limit
	7. ☐ SELF-CONTAINED BREATHING APPARATUS (SCBA)	G14.	G15.
	8. ☒ FIRST AID KITS / STATIONS	G16. Employee entrance desk	G17. Advanced first aid supplies
	9. ☒ PLUMBED EYEWASH FOUNTAIN / SHOWER	G18. FSE Training Labs and Repair Center Labs	G19.
	10. ☐ PORTABLE EYEWASH KITS	G20.	G21.
	11. ☐ OTHER	G22.	G23.
	12. ☐ OTHER	G24.	G25.
Fire Fighting	13. ☒ PORTABLE FIRE EXTINGUISHERS	G26. Throughout building	G27.
	14. ☒ FIXED FIRE SYSTEMS / SPRINKLERS / FIRE HOSES	G28. Throughout building	G29.
	15. ☒ FIRE ALARM BOXES OR STATIONS	G30. Throughout building	G31.
	16. ☐ OTHER	G32.	G33.
Spill Control and Clean-Up	17. ☒ ALL-IN-ONE SPILL KIT	G34. Emergency generator	G35. Emergency generator 15 gallon spill kit
	18. ☒ ABSORBENT MATERIAL	G36. ERT Closet, Dooms day shed (building 1)	G37.
	19. ☒ CONTAINER FOR USED ABSORBENT	G38. Dooms day shed (building 1)	G39. Empty 55 gallon poly containers
	20. ☐ BERMING / DIKING EQUIPMENT	G40.	G41.
	21. ☒ BROOM	G42. Dooms day shed (building 1)	G43.
	22. ☒ SHOVEL	G44. Dooms day shed (building 1)	G45.
	23. ☐ SHOP VAC	G46.	G47.
	24. ☐ EXHAUST HOOD	G48.	G49.
	25. ☐ EMERGENCY SUMP / HOLDING TANK	G50.	G51.
	26. ☒ CHEMICAL NEUTRALIZERS	G52. ERT Closet (building 1)	G53. Acid/Base spill kits
	27. ☐ GAS CYLINDER LEAK REPAIR KIT	G54.	G55.
	28. ☐ SPILL OVERPACK DRUMS	G56.	G57.
	29. ☐ OTHER	G58.	G59.
Communi-cations and Alarm Systems	30. ☒ TELEPHONES (Includes cellular)	G60. Throughout building	G61.
	31. ☐ INTERCOM / PA SYSTEM	G62.	G63.
	32. ☒ PORTABLE RADIOS	G64. ERT Team	G65.
	33. ☐ AUTOMATIC ALARM CHEMICAL MONITORING EQUIPMENT	G66.	G67.
Other	34. ☐ OTHER	G68.	G69.
	35. ☐ OTHER	G70.	G71.

H. EARTHQUAKE VULNERABILITY

Identify areas of the facility that are vulnerable to hazardous materials releases / spills due to earthquake-related motion. These areas require immediate isolation and inspection.

VULNERABLE AREAS: (Check all that apply) H1.	LOCATIONS (e.g., shop, outdoor shed, forensic lab)
☐ 1. HAZARDOUS MATERIALS / WASTE STORAGE AREA	H2.
☐ 2. PROCESS LINES / PIPING	H3.
☐ 3. LABORATORY	H4.
☐ 4. WASTE TREATMENT AREA	H5.

Identify mechanical systems vulnerable to releases / spills due to earthquake-related motion. These systems require immediate isolation and inspection.

VULNERABLE SYSTEMS: (Check all that apply) H6.	LOCATIONS
☐ 1. SHELVES, CABINETS AND RACKS	H7.
☐ 2. TANKS (EMERGENCY SHUTOFF)	H8.
☐ 3. PORTABLE GAS CYLINDERS	H9.
☒ 4. EMERGENCY SHUTOFF AND/OR UTILITY VALVES	North side of building and southwest side of building H10.
☐ 5. SPRINKLER SYSTEMS	H11.
☐ 6. STATIONARY PRESSURIZED CONTAINERS (e.g., Propane dispensing tank)	H12.

I. EMPLOYEE TRAINING

Explanation of Requirement: Employee training is required for all employees handling hazardous materials and hazardous wastes in day-to-day or clean-up operations including volunteers and/or contractors. Training must be:

- Provided within 6 months for new hires;
- Amended as necessary prior to change in process or work assignment;
- Given upon modification to the Emergency Response / Contingency Plan, and updated/refreshed annually for all employees.

Required content includes all of the following:

- Material Safety Data Sheets;
- Hazard communication related to health and safety;
- Methods for safe handling of hazardous substances;
- Fire hazards of materials / processes;
- Conditions likely to worsen emergencies;
- Coordination of emergency response;
- Notification procedures;
- Applicable laws and regulations;
- Communication and alarm systems;
- Personal protective equipment;
- Use of emergency response equipment (e.g. Fire extinguishers, respirators, etc.);
- Decontamination procedures;
- Evacuation procedures;
- Control and containment procedures;
- UST monitoring system equipment and procedures (if applicable).

INDICATE HOW EMPLOYEE TRAINING PROGRAM IS ADMINISTERED (Check all that apply) I1.

☒ 1. FORMAL CLASSROOM; ☐ 2. VIDEOS; ☐ 3. SAFETY / TAILGATE MEETINGS;

☐ 4. STUDY GUIDES / MANUALS (Specify): _____ I2.

☐ 5. OTHER (Specify): _____ I3.

☐ 6. NOT APPLICABLE BECAUSE FACILITY HAS NO EMPLOYEES

Large Quantity Generator (LQG) Training Records: Large quantity hazardous waste generators (i.e., who generate more than 270 gallons/1,000 kilograms of hazardous waste per month) must retain written documentation of employee hazardous waste management training sessions which includes:

- A written outline/agenda of the type and amount of both introductory and continuing training that will be given to persons filling each job position having responsibility for the management of hazardous waste (e.g., labeling, manifesting, compliance with accumulation time limits, etc.).
- The name, job title, and date of training for each hazardous waste management training session given to an employee filling such a job position; and
- A written job description for each of the above job positions that describes job duties and the skills, education, or other qualifications required of personnel assigned to the position.
- Current employee training records must be retained until closure of the facility.
- Former employee training records must be retained at least three years after termination of employment.

J. LIST OF ATTACHMENTS

(Check one of the following) J1.

☒ 1. NO ATTACHMENTS ARE REQUIRED; *or*

☐ 2. THE FOLLOWING DOCUMENTS ARE ATTACHED: J2.

K. SIGNATURE / CERTIFICATION

Certification: Based on my inquiry of those individuals responsible for obtaining the information, I certify under penalty of law that I have personally examined and am familiar with the information submitted and believe the information is true, accurate, and complete, and that a copy is available on site.

SIGNATURE OF OWNER/OPERATOR	DATE SIGNED K1.
Dina Craw	6/9/2015
NAME OF SIGNER (print) K2.	TITLE OF SIGNER K3.
Dina Craw	Health and Safety Specialist III

HAZARDOUS MATERIALS BUSINESS PLAN

III. EMPLOYEE TRAINING DESCRIPTION

Date: **10/16/2014** UPFP #: _____

The following describes the employee training provided for all employees that handle hazardous substances.

1. **Training Topic – General safety training:**
   Persons Trained: all employees
   Training Time: 1-2 hr **Refresher Frequency**: annual **Refresher Time:** 1-2 hr
   Training Content:
   - Injury and Illness Prevention Program
   - Emergency equipment, phone numbers , medical care
   - Proper response in the face of a fire, earthquake, spills,
   - Ergonomic safety, proper lab work practices
   - Hazards to health, physical hazards, safety diamond, exposure control
   - Chemical storage, waste labeling/disposal

2. **Training Topic - Emergency Response Plan implementation:**
   Persons Trained: all employees
   Training Time: 30 m **Refresher Frequency**: annual **Refresher Time:** 30m
   Training Content:
   - Proper response in case of emergency evacuation
   - Staging areas in case of evacuation
   -

A drill encompassing safety and spill equipment operation procedures is used by some employers to train employees and improve their emergency response skills.

Hazardous Materials

Does your facility have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or is regulated under more restrictive inventory local reporting requirements (shown below if present); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	**Yes**

Underground Storage Tank(s) (UST)

Does your facility own or operate underground storage tanks?	**No**

Hazardous Waste

Is your facility a Hazardous Waste Generator?	**No**
Does your facility treat hazardous waste on-site?	**No**
Is your facility's treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	**No**
Does your facility consolidate hazardous waste generated at a remote site?	**No**
Does your facility need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	**No**
Does your facility generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month greater than 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	**No**
Is your facility a Household Hazardous Waste (HHW) Collection site?	**No**

Excluded and/or Exempted Materials

Does your facility recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	**No**
Does your facility own or operate ASTs above these thresholds? Store greater than 1,320 gallons of petroleum products (new or used) in aboveground tanks or containers.	**No**
Does your facility have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	**No**

Additional Information

No additional comments provided.

BUSINESS SITE CITY 104.		ZIP CODE 105.
San Jose	CA	95131

TYPE OF BUSINESS (e.g., Painting Contractor) A3.	INCIDENTAL OPERATIONS (e.g., Fleet Maintenance) A4.
Telecommunications- Cell site.	

THIS PLAN COVERS CHEMICAL SPILLS, FIRES, AND EARTHQUAKES INVOLVING: (Check all that apply) A5.

☒ 1. HAZARDOUS MATERIALS; ☐ 2. HAZARDOUS WASTES

B. INTERNAL RESPONSE

INTERNAL FACILITY EMERGENCY RESPONSE WILL OCCUR VIA: (Check all that apply) B1.

☒ 1. CALLING PUBLIC EMERGENCY RESPONDERS (i.e., 9-1-1)
☒ 2. CALLING HAZARDOUS WASTE CONTRACTOR
☒ 3. ACTIVATING IN-HOUSE EMERGENCY RESPONSE TEAM

C. EMERGENCY COMMUNICATIONS, PHONE NUMBERS AND NOTIFICATIONS

Whenever there is an imminent or actual emergency situation such as an explosion, fire, or release, the Emergency Coordinator (or his/her designee when the Emergency Coordinator is on call) shall:

1. Activate internal facility alarms or communications systems, where applicable, to notify all facility personnel.
2. Notify appropriate local authorities (i.e., call 9-1-1).
3. Notify the California Emergency Management Agency at (800) 852-7550.

Before facility operations are resumed in areas of the facility affected by the incident, the emergency coordinator shall notify the California Department of Toxic Substances Control (DTSC), the local Unified Program Agency (UPA), and the local fire department's hazardous materials program that the facility is in compliance with requirements to:

1. Provide for proper storage and disposal of recovered waste, contaminated soil or surface water, or any other material that results from an explosion, fire, or release at the facility; and
2. Ensure that no material that is incompatible with the released material is transferred, stored, or disposed of in areas of the facility affected by the incident until cleanup procedures are completed.

INTERNAL FACILITY EMERGENCY COMMUNICATIONS OR ALARM NOTIFICATION WILL OCCUR VIA: (Check all that apply) C1.

☒ 1. VERBAL WARNINGS;	☐ 2. PUBLIC ADDRESS OR INTERCOM SYSTEM;	☒ 3. TELEPHONE;
☐ 4. PAGERS;	☐ 5. ALARM SYSTEM;	☐ 6. PORTABLE RADIO

NOTIFICATIONS TO NEIGHBORING FACILITIES THAT MAY BE AFFECTED BY AN OFF-SITE RELEASE WILL OCCUR BY: (Check all that apply) C2.

☒ 1. VERBAL WARNINGS;	☐ 2. PUBLIC ADDRESS OR INTERCOM SYSTEM;	☐ 3. TELEPHONE;
☐ 4. PAGERS;	☐ 5. ALARM SYSTEM;	☐ 6. PORTABLE RADIO

EMERGENCY RESPONSE PHONE NUMBERS:

D. EMERGENCY CONTAINMENT AND CLEANUP PROCEDURES

SPILL PREVENTION, CONTAINMENT, AND CLEANUP PROCEDURES: (Check all boxes that apply to indicate your procedures for containing spills, releases, fires or explosions; and. preventing and mitigating associated harm to persons, property, and the environment.)

D1.

- ☒ 1. MONITOR FOR LEAKS, RUPTURES, PRESSURE BUILD-UP, ETC.;
- ☐ 2. PROVIDE STRUCTURAL PHYSICAL BARRIERS (e.g., Portable spill containment walls);
- ☒ 3. PROVIDE ABSORBENT PHYSICAL BARRIERS (e.g., Pads, pigs, pillows);
- ☒ 4. COVER OR BLOCK FLOOR AND/ OR STORM DRAINS;
- ☐ 5. BUILT-IN BERM IN WORK / STORAGE AREA;
- ☒ 6. AUTOMATIC FIRE SUPPRESSION SYSTEM;
- ☒ 7. ELIMINATE SOURCES OF IGNITION FOR FLAMMABLE HAZARDS (e.g. Flammable liquids, Propane);
- ☒ 8. STOP PROCESSES AND/OR OPERATIONS;
- ☐ 9. AUTOMATIC / ELECTRONIC EQUIPMENT SHUT-OFF SYSTEM;
- ☒ 10. SHUT-OFF WATER, GAS, ELECTRICAL UTILITIES AS APPROPRIATE;
- ☒ 11. CALL 9-1-1 FOR PUBLIC EMERGENCY RESPONDER ASSISTANCE / MEDICAL AID;
- ☒ 12. NOTIFY AND EVACUATE PERSONS IN ALL THREATENED AREAS;
- ☒ 13. ACCOUNT FOR EVACUATED PERSONS IMMEDIATELY AFTER EVACUATION CALL;
- ☐ 14. PROVIDE PROTECTIVE EQUIPMENT FOR ON-SITE RESPONSE TEAM;
- ☒ 15. REMOVE OR ISOLATE CONTAINERS / AREA AS APPROPRIATE;
- ☒ 16. HIRE LICENSED HAZARDOUS WASTE CONTRACTOR;
- ☒ 17. USE ABSORBENT MATERIAL FOR SPILLS WITH SUBSEQUENT PROPER LABELING, STORAGE, AND HAZARDOUS WASTE DISPOSAL AS APPROPRIATE;
- ☐ 18. SUCTION USING SHOP VACUUM WITH SUBSEQUENT PROPER LABELING, STORAGE, AND HAZARDOUS WASTE DISPOSAL AS APPROPRIATE;
- ☐ 19. WASH / DECONTAMINATE EQUIPMENT W/ CONTAINMENT and DISPOSAL OF EFFLUENT / RINSATE AS HAZARDOUS WASTE;
- ☒ 20. PROVIDE SAFE TEMPORARY STORAGE OF EMERGENCY-GENERATED WASTES;
- ☐ 21. OTHER (Specify):

D2.

E. FACILITY EVACUATION

THE FOLLOWING ALARM SIGNAL(S) WILL BE USED TO BEGIN EVACUATION OF THE FACILITY (CHECK ALL THAT APPLY): E1.

- ☐ 1. BELLS;
- ☐ 2. HORNS/SIRENS;
- ☒ 3. VERBAL (I.E., SHOUTING);
- ☐ 4. OTHER (Specify): E2.

THE FOLLOWING LOCATION(S) IS/ARE EVACUEE EMERGENCY ASSEMBLY AREA(S) (i.e., Front parking lot, specific street corner, etc.) E3.

Toward main street away from cell site.

Note: The Emergency Coordinator must account for all on site employees and/or site visitors after evacuation.

☒ EVACUATION ROUTE MAP(S) POSTED AS REQUIRED E4.

Note: The map(s) must show primary and alternate evacuation routes, emergency exits, and primary and alternate staging areas, and must be prominently posted throughout the facility in locations where it will be visible to employees and visitors.

F. ARRANGEMENTS FOR EMERGENCY SERVICES

Explanation of Requirement: Advance arrangements with local fire and police departments, hospitals, and/or emergency services contractors should be made as appropriate for your facility. You may determine that such arrangements are not necessary.

ADVANCE ARRANGEMENTS FOR LOCAL EMERGENCY SERVICES (Check one of the following) F1.

- ☒ 1. HAVE BEEN DETERMINED NOT NECESSARY; *or*
- ☐ 2. THE FOLLOWING ARRANGEMENTS HAVE BEEN MADE (Specify):

F2.

G. EMERGENCY EQUIPMENT

Check all boxes that apply to list emergency response equipment available at the facility and identify the location(s) where the equipment is kept and the equipment's capability, if applicable. [e.g., ☒ CHEMICAL PROTECTIVE GLOVES | Spill response kit | One time use, Oil & solvent resistant only.]

TYPE	EQUIPMENT AVAILABLE G1.	LOCATION	CAPABILITY *(If applicable)*
Safety and First Aid	1. ☐ CHEMICAL PROTECTIVE SUITS, APRONS, OR VESTS	G2.	G3.
	2. ☒ CHEMICAL PROTECTIVE GLOVES	G4. On Tech Truck	G5. Rubber gloves
	3. ☐ CHEMICAL PROTECTIVE BOOTS	G6.	G7.
	4. ☒ SAFETY GLASSES / GOGGLES / SHIELDS	G8. On Tech Truck	G9. Chemical Mask
	5. ☐ HARD HATS	G10.	G11.
	6. ☐ CARTRIDGE RESPIRATORS	G12.	G13.
	7. ☐ SELF-CONTAINED BREATHING APPARATUS (SCBA)	G14.	G15.
	8. ☒ FIRST AID KITS / STATIONS	G16. On Tech Truck	G17. Standard kit
	9. ☐ PLUMBED EYEWASH FOUNTAIN / SHOWER	G18.	G19.
	10. ☒ PORTABLE EYEWASH KITS	G20. On Tech Truck	G21. Bottle type
	11. ☐ OTHER	G22.	G23.
	12. ☐ OTHER	G24.	G25.
Fire Fighting	13. ☒ PORTABLE FIRE EXTINGUISHERS	G26. On Tech Truck	G27. Common fire extinguisher
	14. ☒ FIXED FIRE SYSTEMS / SPRINKLERS / FIRE HOSES	G28. Throughout facility	G29. Halon System
	15. ☐ FIRE ALARM BOXES OR STATIONS	G30.	G31.
	16. ☐ OTHER	G32.	G33.
Spill Control and Clean-Up	17. ☒ ALL-IN-ONE SPILL KIT	G34. On Tech Truck	G35. Universal spill kit
	18. ☐ ABSORBENT MATERIAL	G36.	G37.
	19. ☒ CONTAINER FOR USED ABSORBENT	G38. On Tech Truck	G39. Plastic bucket
	20. ☐ BERMING / DIKING EQUIPMENT	G40.	G41.
	21. ☐ BROOM	G42.	G43.
	22. ☐ SHOVEL	G44.	G45.
	23. ☐ SHOP VAC	G46.	G47.
	24. ☐ EXHAUST HOOD	G48.	G49.
	25. ☐ EMERGENCY SUMP / HOLDING TANK	G50.	G51.
	26. ☒ CHEMICAL NEUTRALIZERS	G52. On Tech Truck	G53. Battery neutralizer
	27. ☐ GAS CYLINDER LEAK REPAIR KIT	G54.	G55.
	28. ☐ SPILL OVERPACK DRUMS	G56.	G57.
	29. ☐ OTHER	G58.	G59.
Communi-cations and Alarm Systems	30. ☒ TELEPHONES (Includes cellular)	G60. On Tech Truck	G61. Cellular phones
	31. ☐ INTERCOM / PA SYSTEM	G62.	G63.
	32. ☐ PORTABLE RADIOS	G64.	G65.
	33. ☐ AUTOMATIC ALARM CHEMICAL MONITORING EQUIPMENT	G66.	G67.
Other	34. ☐ OTHER	G68.	G69.
	35. ☐ OTHER	G70.	G71.

H. EARTHQUAKE VULNERABILITY

Identify areas of the facility that are vulnerable to hazardous materials releases / spills due to earthquake-related motion. These areas require immediate isolation and inspection.

VULNERABLE AREAS: (Check all that apply)	H1.	LOCATIONS (e.g., shop, outdoor shed, forensic lab)	
☒ 1. HAZARDOUS MATERIALS / WASTE STORAGE AREA		Battery storage area.	H2.
☐ 2. PROCESS LINES / PIPING			H3.
☐ 3. LABORATORY			H4.
☐ 4. WASTE TREATMENT AREA			H5.

Identify mechanical systems vulnerable to releases / spills due to earthquake-related motion. These systems require immediate isolation and inspection.

VULNERABLE SYSTEMS: (Check all that apply)	H6.	LOCATIONS	
☒ 1. SHELVES, CABINETS AND RACKS		Battery racks inside cell site.	H7.
☐ 2. TANKS (EMERGENCY SHUTOFF)			H8.
☐ 3. PORTABLE GAS CYLINDERS			H9.
☒ 4. EMERGENCY SHUTOFF AND/OR UTILITY VALVES		Inside entrance/cabinet.	H10.
☐ 5. SPRINKLER SYSTEMS			H11.
☒ 6. STATIONARY PRESSURIZED CONTAINERS (e.g., Propane dispensing tank)		Halon cylinder inside cell site	H12.

I. EMPLOYEE TRAINING

Explanation of Requirement: Employee training is required for all employees handling hazardous materials and hazardous wastes in day-to-day or clean-up operations including volunteers and/or contractors. Training must be:

- Provided within 6 months for new hires;
- Amended as necessary prior to change in process or work assignment;
- Given upon modification to the Emergency Response / Contingency Plan, and updated/refreshed annually for all employees.

Required content includes all of the following:

- Material Safety Data Sheets;
- Hazard communication related to health and safety;
- Methods for safe handling of hazardous substances;
- Fire hazards of materials / processes;
- Conditions likely to worsen emergencies;
- Coordination of emergency response;
- Notification procedures;
- Applicable laws and regulations;
- Communication and alarm systems;
- Personal protective equipment;
- Use of emergency response equipment (e.g. Fire extinguishers, respirators, etc.);
- Decontamination procedures;
- Evacuation procedures;
- Control and containment procedures;
- UST monitoring system equipment and procedures (if applicable).

INDICATE HOW EMPLOYEE TRAINING PROGRAM IS ADMINISTERED (Check all that apply) I1.

☐ 1. FORMAL CLASSROOM; ☐ 2. VIDEOS; ☒ 3. SAFETY / TAILGATE MEETINGS;

☐ 4. STUDY GUIDES / MANUALS (Specify): _____ I2.

☒ 5. OTHER (Specify): All site technicians are trained to handle on site emergencies through the AT&T online program. I3.

☐ 6. NOT APPLICABLE BECAUSE FACILITY HAS NO EMPLOYEES

Large Quantity Generator (LQG) Training Records: Large quantity hazardous waste generators (i.e., who generate more than 270 gallons/1,000 kilograms of hazardous waste per month) must retain written documentation of employee hazardous waste management training sessions which includes:

- A written outline/agenda of the type and amount of both introductory and continuing training that will be given to persons filling each job position having responsibility for the management of hazardous waste (e.g., labeling, manifesting, compliance with accumulation time limits, etc.).
- The name, job title, and date of training for each hazardous waste management training session given to an employee filling such a job position; and
- A written job description for each of the above job positions that describes job duties and the skills, education, or other qualifications required of personnel assigned to the position.
- Current employee training records must be retained until closure of the facility.
- Former employee training records must be retained at least three years after termination of employment.

J. LIST OF ATTACHMENTS

(Check one of the following) J1.

☒ 1. NO ATTACHMENTS ARE REQUIRED; *or*

☐ 2. THE FOLLOWING DOCUMENTS ARE ATTACHED: J2.

K. SIGNATURE / CERTIFICATION

Certification: Based on my inquiry of those individuals responsible for obtaining the information, I certify under penalty of law that I have personally examined and am familiar with the information submitted and believe the information is true, accurate, and complete, and that a copy is available on site.

SIGNATURE OF OWNER/OPERATOR		DATE SIGNED K1.

Submittal was ***Accepted***; Processed on 2/26/2020 by *Myra Reichardt* for Santa Clara County Environmental Health
Comments by regulator: Accepted as administratively complete. A technical review may be conducted subsequently as part of your next facility inspection.

Hazardous Materials

Does your facility have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or is regulated under more restrictive inventory local reporting requirements (shown below if present); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	**Yes**

Underground Storage Tank(s) (UST)

Does your facility own or operate underground storage tanks?	**No**

Hazardous Waste

Is your facility a Hazardous Waste Generator?	**Yes**
Does your facility treat hazardous waste on-site?	**No**
Is your facility's treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	**No**
Does your facility consolidate hazardous waste generated at a remote site?	**No**
Does your facility need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	**No**
Does your facility generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month greater than 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	**No**
Is your facility a Household Hazardous Waste (HHW) Collection site?	**No**

Excluded and/or Exempted Materials

Does your facility recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	**No**
Does your facility own or operate ASTs above these thresholds? Store greater than 1,320 gallons of petroleum products (new or used) in aboveground tanks or containers.	**No**
Does your facility have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	**No**

Additional Information

Note: No hazardous waste is shipped from this site. All hazardous waste is shipped from the 2350 Qume drive facility which maintains the EPA ID#.(CAD982519936) Site has a contiguous permit.

D. EMERGENCY CONTAINMENT AND CLEANUP PROCEDURES

SPILL PREVENTION, CONTAINMENT, AND CLEANUP PROCEDURES: (Check all boxes that apply to indicate your procedures for containing spills, releases, fires or explosions; and, preventing and mitigating associated harm to persons, property, and the environment.) D1.

- ☒ 1. MONITOR FOR LEAKS, RUPTURES, PRESSURE BUILD-UP, ETC.;
- ☒ 2. PROVIDE STRUCTURAL PHYSICAL BARRIERS (e.g., Portable spill containment walls);
- ☒ 3. PROVIDE ABSORBENT PHYSICAL BARRIERS (e.g., Pads, pigs, pillows);
- ☒ 4. COVER OR BLOCK FLOOR AND/ OR STORM DRAINS;
- ☒ 5. BUILT-IN BERM IN WORK / STORAGE AREA;
- ☒ 6. AUTOMATIC FIRE SUPPRESSION SYSTEM;
- ☒ 7. ELIMINATE SOURCES OF IGNITION FOR FLAMMABLE HAZARDS (e.g. Flammable liquids, Propane);
- ☒ 8. STOP PROCESSES AND/OR OPERATIONS;
- ☐ 9. AUTOMATIC / ELECTRONIC EQUIPMENT SHUT-OFF SYSTEM;
- ☒ 10. SHUT-OFF WATER, GAS, ELECTRICAL UTILITIES AS APPROPRIATE;
- ☒ 11. CALL 9-1-1 FOR PUBLIC EMERGENCY RESPONDER ASSISTANCE / MEDICAL AID;
- ☒ 12. NOTIFY AND EVACUATE PERSONS IN ALL THREATENED AREAS;
- ☒ 13. ACCOUNT FOR EVACUATED PERSONS IMMEDIATELY AFTER EVACUATION CALL;
- ☒ 14. PROVIDE PROTECTIVE EQUIPMENT FOR ON-SITE RESPONSE TEAM;
- ☒ 15. REMOVE OR ISOLATE CONTAINERS / AREA AS APPROPRIATE;
- ☒ 16. HIRE LICENSED HAZARDOUS WASTE CONTRACTOR;
- ☒ 17. USE ABSORBENT MATERIAL FOR SPILLS WITH SUBSEQUENT PROPER LABELING, STORAGE, AND HAZARDOUS WASTE DISPOSAL AS APPROPRIATE;
- ☐ 18. SUCTION USING SHOP VACUUM WITH SUBSEQUENT PROPER LABELING, STORAGE, AND HAZARDOUS WASTE DISPOSAL AS APPROPRIATE;
- ☒ 19. WASH / DECONTAMINATE EQUIPMENT W/ CONTAINMENT and DISPOSAL OF EFFLUENT / RINSATE AS HAZARDOUS WASTE;
- ☒ 20. PROVIDE SAFE TEMPORARY STORAGE OF EMERGENCY-GENERATED WASTES;
- ☐ 21. OTHER (Specify): D2.

E. FACILITY EVACUATION

THE FOLLOWING ALARM SIGNAL(S) WILL BE USED TO BEGIN EVACUATION OF THE FACILITY (CHECK ALL THAT APPLY): E1.

- ☐ 1. BELLS;
- ☒ 2. HORNS/SIRENS;
- ☐ 3. VERBAL (I.E., SHOUTING);
- ☐ 4. OTHER (Specify): E2.

THE FOLLOWING LOCATION(S) IS/ARE EVACUEE EMERGENCY ASSEMBLY AREA(S) (i.e., Front parking lot, specific street corner, etc.) E3.

Employee parking lot B section

Note: The Emergency Coordinator must account for all on site employees and/or site visitors after evacuation.

☒ EVACUATION ROUTE MAP(S) POSTED AS REQUIRED E4.

Note: The map(s) must show primary and alternate evacuation routes, emergency exits, and primary and alternate staging areas, and must be prominently posted throughout the facility in locations where it will be visible to employees and visitors.

F. ARRANGEMENTS FOR EMERGENCY SERVICES

Explanation of Requirement: Advance arrangements with local fire and police departments, hospitals, and/or emergency services contractors should be made as appropriate for your facility. You may determine that such arrangements are not necessary.

ADVANCE ARRANGEMENTS FOR LOCAL EMERGENCY SERVICES (Check one of the following) F1.

- ☒ 1. HAVE BEEN DETERMINED NOT NECESSARY; *or*
- ☒ 2. THE FOLLOWING ARRANGEMENTS HAVE BEEN MADE (Specify): F2.

Ingenium has been contracted to assist in large spill clean-ups. (Beyond the ERT spill response capabilities)

Ingenium 800-805-6236

G. EMERGENCY EQUIPMENT

Check all boxes that apply to list emergency response equipment available at the facility and identify the location(s) where the equipment is kept and the equipment's capability, if applicable. [e.g., ☒ CHEMICAL PROTECTIVE GLOVES | Spill response kit | One time use, Oil & solvent resistant only.]

TYPE	EQUIPMENT AVAILABLE G1.	LOCATION	CAPABILITY *(If applicable)*
Safety and First Aid	1. ☒ CHEMICAL PROTECTIVE SUITS, APRONS, OR VESTS	G2. ERT Closet, Building 1	G3. Tyvek suits, single use, splash hazard protection only
	2. ☒ CHEMICAL PROTECTIVE GLOVES	G4. ERT Closet, Building 1	G5. Nitrile gloves, single use, splash hazard protection only
	3. ☒ CHEMICAL PROTECTIVE BOOTS	G6. ERT Closet, Building 1	G7. single use, splash hazard protection only
	4. ☒ SAFETY GLASSES / GOGGLES / SHIELDS	G8. ERT Closet, Building 1	G9.

H. EARTHQUAKE VULNERABILITY

Identify areas of the facility that are vulnerable to hazardous materials releases / spills due to earthquake-related motion. These areas require immediate isolation and inspection.

VULNERABLE AREAS: (Check all that apply)		LOCATIONS (e.g., shop, outdoor shed, forensic lab)	
☐ 1. HAZARDOUS MATERIALS / WASTE STORAGE AREA	H1.		H2.
☐ 2. PROCESS LINES / PIPING			H3.
☒ 3. LABORATORY		Customer Training sample prep lab (2-L-1411)	H4.
☐ 4. WASTE TREATMENT AREA			H5.

Identify mechanical systems vulnerable to releases / spills due to earthquake-related motion. These systems require immediate isolation and inspection.

VULNERABLE SYSTEMS: (Check all that apply)		LOCATIONS	
☐ 1. SHELVES, CABINETS AND RACKS	H6.		H7.
☐ 2. TANKS (EMERGENCY SHUTOFF)			H8.
☒ 3. PORTABLE GAS CYLINDERS		Customer Training sample prep lab (2-L-1411)	H9.
☒ 4. EMERGENCY SHUTOFF AND/OR UTILITY VALVES		Southeast side of building and southwest side of building	H10.
☐ 5. SPRINKLER SYSTEMS			H11.
☐ 6. STATIONARY PRESSURIZED CONTAINERS (e.g., Propane dispensing tank)			H12.

I. EMPLOYEE TRAINING

Explanation of Requirement: Employee training is required for all employees handling hazardous materials and hazardous wastes in day-to-day or clean-up operations including volunteers and/or contractors. Training must be:

- Provided within 6 months for new hires;
- Amended as necessary prior to change in process or work assignment;
- Given upon modification to the Emergency Response / Contingency Plan, and updated/refreshed annually for all employees.

Required content includes all of the following:

- Material Safety Data Sheets;
- Hazard communication related to health and safety;
- Methods for safe handling of hazardous substances;
- Fire hazards of materials / processes;
- Conditions likely to worsen emergencies;
- Coordination of emergency response;
- Notification procedures;
- Applicable laws and regulations;
- Communication and alarm systems;
- Personal protective equipment;
- Use of emergency response equipment (e.g. Fire extinguishers, respirators, etc.);
- Decontamination procedures;
- Evacuation procedures;
- Control and containment procedures;
- UST monitoring system equipment and procedures (if applicable).

INDICATE HOW EMPLOYEE TRAINING PROGRAM IS ADMINISTERED (Check all that apply) I1.

☒ 1. FORMAL CLASSROOM; ☐ 2. VIDEOS; ☐ 3. SAFETY / TAILGATE MEETINGS;

☐ 4. STUDY GUIDES / MANUALS (Specify): _____ I2.

☐ 5. OTHER (Specify): _____ I3.

☐ 6. NOT APPLICABLE BECAUSE FACILITY HAS NO EMPLOYEES

Large Quantity Generator (LQG) Training Records: Large quantity hazardous waste generators (i.e., who generate more than 270 gallons/1,000 kilograms of hazardous waste per month) must retain written documentation of employee hazardous waste management training sessions which includes:

- A written outline/agenda of the type and amount of both introductory and continuing training that will be given to persons filling each job position having responsibility for the management of hazardous waste (e.g., labeling, manifesting, compliance with accumulation time limits, etc.).
- The name, job title, and date of training for each hazardous waste management training session given to an employee filling such a job position; and
- A written job description for each of the above job positions that describes job duties and the skills, education, or other qualifications required of personnel assigned to the position.
- Current employee training records must be retained until closure of the facility.
- Former employee training records must be retained at least three years after termination of employment.

J. LIST OF ATTACHMENTS

(Check one of the following) J1.

☒ 1. NO ATTACHMENTS ARE REQUIRED; *or*

☐ 2. THE FOLLOWING DOCUMENTS ARE ATTACHED: J2.

K. SIGNATURE / CERTIFICATION

Certification: Based on my inquiry of those individuals responsible for obtaining the information, I certify under penalty of law that I have personally examined and am familiar with the information submitted and believe the information is true, accurate, and complete, and that a copy is available on site.

HAZARDOUS MATERIALS BUSINESS PLAN

III. EMPLOYEE TRAINING DESCRIPTION

Date: **10/16/2014** UPFP #: _____

The following describes the employee training provided for all employees that handle hazardous substances.

1. **Training Topic – General safety training:**
   Persons Trained: all employees
   Training Time: 1-2 hr **Refresher Frequency**: annual **Refresher Time:** 1-2 hr
   Training Content:
   - Injury and Illness Prevention Program
   - Emergency equipment, phone numbers , medical care
   - Proper response in the face of a fire, earthquake, spills,
   - Ergonomic safety, proper lab work practices
   - Hazards to health, physical hazards, safety diamond, exposure control
   - Chemical storage, waste labeling/disposal

2. **Training Topic - Emergency Response Plan implementation:**
   Persons Trained: all employees
   Training Time: 30 m **Refresher Frequency**: annual **Refresher Time:** 30m
   Training Content:
   - Proper response in case of emergency evacuation
   - Staging areas in case of evacuation
   -

A drill encompassing safety and spill equipment operation procedures is used by some employers to train employees and improve their emergency response skills.

Hazardous Materials

Does your facility have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or is regulated under more restrictive inventory local reporting requirements (shown below if present); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	**Yes**

Underground Storage Tank(s) (UST)

Does your facility own or operate underground storage tanks?	**No**

Hazardous Waste

Is your facility a Hazardous Waste Generator?	**No**
Does your facility treat hazardous waste on-site?	**No**
Is your facility's treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	**No**
Does your facility consolidate hazardous waste generated at a remote site?	**No**
Does your facility need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	**No**
Does your facility generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month greater than 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	**No**
Is your facility a Household Hazardous Waste (HHW) Collection site?	**No**

Excluded and/or Exempted Materials

Does your facility recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	**No**
Does your facility own or operate ASTs above these thresholds? Store greater than 1,320 gallons of petroleum products (new or used) in aboveground tanks or containers.	**No**
Does your facility have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	**No**

Additional Information

No additional comments provided.

CONSOLIDATED EMERGENCY RESPONSE / CONTINGENCY PLAN

Prior to completing this Plan, please refer to the INSTRUCTIONS FOR COMPLETING A CONSOLIDATED CONTINGENCY PLAN

A. FACILITY IDENTIFICATION AND OPERATIONS OVERVIEW

FACILITY ID # A1.	CERS ID # A2.	DATE OF PLAN PREPARATION/REVISION (MM/DD/YYYY) A3.

BUSINESS NAME *(Same as Facility Name or DBA - Doing Business As)* A4.
Verizon Wireless - Lundy Brokaw

BUSINESS SITE ADDRESS A5.
2222 Qume Drive

BUSINESS SITE CITY A6.		ZIP CODE A7.
San Jose	CA	95131

TYPE OF BUSINESS (e.g., Painting Contractor) A8.	INCIDENTAL OPERATIONS (e.g., Fleet Maintenance) A9.
Wireless Telecommunications	

THIS PLAN COVERS CHEMICAL SPILLS, FIRES, AND EARTHQUAKES INVOLVING (Check all that apply): A10.

☒ 1. HAZARDOUS MATERIALS; ☐ 2. HAZARDOUS WASTES

B. INTERNAL RESPONSE

INTERNAL FACILITY EMERGENCY RESPONSE WILL OCCUR BY (Check all that apply): B1.

☒ 1. CALLING PUBLIC EMERGENCY RESPONDERS (e.g., 9-1-1)
☒ 2. CALLING HAZARDOUS WASTE CONTRACTOR
☐ 3. ACTIVATING IN-HOUSE EMERGENCY RESPONSE TEAM

C. EMERGENCY COMMUNICATIONS, PHONE NUMBERS AND NOTIFICATIONS

In the event of an emergency involving hazardous materials and/or hazardous waste, all facilities must IMMEDIATELY:
1. Notify facility personnel and evacuate if necessary in accordance with the Emergency Action Plan (Title 8 California Code of Regulations §3220);
2. Notify local emergency responders by calling 9-1-1;
3. Notify the local Unified Program Agency (UPA) at the phone number below; and
4. Notify the State Warning Center at (800) 852-7550.

Facilities that generate, treat, store or dispose of hazardous waste have additional responsibilities to notify and coordinate with other response agencies. Whenever there is an imminent or actual emergency situation such as an explosion, fire, or release, the Emergency Coordinator must follow the appropriate requirements for the category of facility and type of release involved:
1. Title 22 California Code of Regulations §66265.56. Emergency Procedures for generators of 1,000 kilograms or more of hazardous waste in any calendar month.
2. Title 22 California Code of Regulations §66265.196. Response to Leaks or Spills and Disposition of Leaking or Unfit-for-Use Tank Systems.
3. Title 40 Code of Federal Regulations §302.6. Notification requirements for a release of a hazardous substance equal to or greater than the reportable quantity.
4. Title 22 California Code of Regulations §66262.34(d)(2) and Title 40 Code of Federal Regulations §262.34(d)(5)(ii) for generators of less than 1000 kilograms of hazardous waste in any calendar month.

Following notification and before facility operations are resumed in areas of the facility affected by the incident, the Emergency Coordinator shall notify the local UPA and the local fire department's hazardous materials program, if necessary, that the facility is in compliance with requirements to:
1. Provide for proper storage and disposal of recovered waste, contaminated soil or surface water, or any other material that results from an explosion, fire, or release at the facility; and
2. Ensure that no material that is incompatible with the released material is transferred, stored, or disposed of in areas of the facility affected by the incident until cleanup procedures are completed.

- [ ] 6. PORTABLE RADIO

NOTIFICATIONS TO NEIGHBORING FACILITIES THAT MAY BE AFFECTED BY AN OFF-SITE RELEASE WILL OCCUR BY (Check all that apply): C12.

- [x] 1. VERBAL WARNINGS;
- [ ] 2. PUBLIC ADDRESS OR INTERCOM SYSTEM;
- [x] 3. TELEPHONE;
- [ ] 4. PAGERS;
- [ ] 5. ALARM SYSTEM;
- [ ] 6. PORTABLE RADIO

EMERGENCY COORDINATOR CONTACT INFORMATION: Network Operations Control Center C13.

PRIMARY EMERGENCY COORDINATOR NAME: NOCC PHONE NO.: (800) 264-6620 PHONE NO.: (800) 264-6620

ALTERNATE EMERGENCY COORDINATOR NAME: NOCC PHONE NO.: (800) 264-6620 PHONE NO.: (800) 264-6620

- [ ] Check if additional Emergency Coordinator contact and address information is available onsite or by calling PHONE NO.:

Note: If more than one alternate emergency coordinator is designated, attach a list in order of responsibility.

D. EMERGENCY CONTAINMENT AND CLEANUP PROCEDURES

Check the applicable boxes to indicate your facility's procedures for containing spills and preventing and mitigating releases, fires and/or explosions.

D1.

- [x] 1. MONITOR FOR LEAKS, RUPTURES, PRESSURE BUILD-UP, ETC.;
- [x] 2. PROVIDE STRUCTURAL PHYSICAL BARRIERS (e.g., Portable spill containment walls, built-in berms);
- [x] 3. PROVIDE ABSORBENT PHYSICAL BARRIERS (e.g., Pads, spill pigs, spill pillows);
- [ ] 4. COVER OR BLOCK FLOOR AND/OR STORM DRAINS;
- [ ] 5. LINED TRENCH DRAINS AND/OR SUMPS;
- [ ] 6. AUTOMATIC FIRE SUPPRESSION SYSTEM;
- [ ] 7. ELIMINATE SOURCES OF IGNITION FOR FLAMMABLE HAZARDS;
- [ ] 8. STOP PROCESSES AND/OR OPERATIONS;
- [ ] 9. AUTOMATIC / ELECTRONIC EQUIPMENT SHUT-OFF SYSTEM;
- [ ] 10. SHUT OFF WATER, GAS, ELECTRICAL UTILITIES;
- [x] 11. CALL 9-1-1 FOR PUBLIC EMERGENCY RESPONDER ASSISTANCE AND/OR MEDICAL AID;
- [ ] 12. NOTIFY AND EVACUATE PERSONS IN ALL THREATENED AND/OR IMPACTED AREAS;
- [ ] 13. ACCOUNT FOR EVACUATED PERSONS IMMEDIATELY AFTER EVACUATION;
- [ ] 14. PROVIDE PROTECTIVE EQUIPMENT FOR ON-SITE EMERGENCY RESPONSE TEAM;
- [ ] 15. REMOVE CONTAINERS AND/OR ISOLATE AREAS;
- [x] 16. HIRE LICENSED HAZARDOUS WASTE CONTRACTOR;
- [x] 17. USE ABSORBENT MATERIAL FOR SPILL CONTAINMENT;
- [ ] 18. VACUUM SUCTION USING APPROPRIATE VACUUM (e.g., Intrinsically safe) FOR SPILL CONTROL AND/OR CLEANUP;
- [ ] 19. DECONTAMINATE PERSONNEL AND EQUIPMENT WITHIN DESIGNATED AREA AND DISPOSE OF WASTEWATER AS HAZARDOUS WASTE;
- [ ] 20. PROVIDE SAFE TEMPORARY STORAGE OF HAZARDOUS WASTE GENERATED DURING EMERGENCY ACTIONS;
- [ ] 21. OTHER (Specify): D2.

E. FACILITY EVACUATION

THE FOLLOWING ALARM SIGNAL(S) WILL BE USED TO BEGIN EVACUATION OF THE FACILITY (Check all that apply): E1.

E2.

- [ ] 1. BELLS;
- [ ] 2. HORNS/SIRENS;
- [x] 3. VERBAL (i.e., Shouting);
- [ ] 4. OTHER (Specify):

THE FOLLOWING LOCATION(S) WILL BE USED FOR AN EMERGENCY ASSEMBLY AREA(S) (e.g., Parking lot, street corner): E3.

Tech Vehicle location

Note: The Emergency Coordinator must account for all onsite employees and visitors after evacuation.

EVACUATION ROUTE S AND ALTERNATE EVACUATION ROUTES ARE DESCRIBED AS FOLLOWS: E4.

- [ ] 1. WRITTEN PROCEDURES DESCRIBING ROUTES, EXITS, AND ASSEMBLY AREAS;
- [ ] 2. EVACUATION MAP(S) DEPICTING ROUTES, EXITS, AND ASSEMBLY AREAS;
- [x] 3. OTHER (Specify): Following exisiting buildings evac information or tech vehicle for outdoor locations E5.

Note: Evacuation procedures and/or maps should be posted in visible facility locations and must be included in the Contingency Plan.

F. ARRANGEMENTS FOR EMERGENCY SERVICES

ADVANCE ARRANGEMENTS FOR LOCAL EMERGENCY SERVICES (Check one of the following): F1.

- [x] 1. HAVE BEEN DETERMINED NOT NECESSARY;
- [ ] 2. THE FOLLOWING ARRANGEMENTS HAVE BEEN MADE (Specify): F2.

Note: Advance arrangements with local fire and police departments, hospitals, state and local emergency response teams, and/or emergency services contractors should be made for your facility, if necessary. Large Quantity Generators must describe arrangements in the Contingency Plan.

G. EMERGENCY EQUIPMENT

Check the applicable boxes to list emergency response equipment available at the facility, identify the location(s) where the equipment is kept, and indicate the equipment's capability, if applicable.

TYPE	EQUIPMENT AVAILABLE G1.	LOCATION G2.	CAPABILITY G3.
EXAMPLE	☒ *CHEMICAL PROTECTIVE GLOVES*	*SPILL RESPONSE KIT*	*SINGLE USE, OIL RESISTANT ONLY*
Safety and First Aid	1. ☐ CHEMICAL PROTECTIVE SUITS, APRONS, AND/OR VESTS		
	2. ☒ CHEMICAL PROTECTIVE GLOVES	On site Spill Kit or Tech Vehicle	
	3. ☐ CHEMICAL PROTECTIVE BOOTS		
	4. ☒ SAFETY GLASSES, GOGGLES, AND FACE SHIELDS	On site Spill Kit or Tech Vehicle	
	5. ☐ HARD HATS		
	6. ☐ AIR-PURIFYING RESPIRATORS		
	7. ☐ SELF-CONTAINED BREATHING APPARATUS (SCBA)		
	8. ☒ FIRST AID KITS	On site Spill Kit or Tech Vehicle	
	9. ☐ PLUMBED EYEWASH FOUNTAIN AND/OR SHOWER		
	10. ☒ PORTABLE EYEWASH KITS AND/OR STATION	On site Spill Kit or Tech Vehicle	
	11. ☐ OTHER		
Fire Fighting	12. ☒ PORTABLE FIRE EXTINGUISHERS	On site or Tech Vehicle	
	13. ☐ FIXED FIRE SUPPRESSION SYSTEMS AND/ OR SPRINKLERS		
	14. ☐ FIRE ALARM BOXES		
	15. ☐ OTHER		
Spill Control and Clean-Up	16. ☒ ALL-IN-ONE SPILL KIT	On site Spill Kit or Tech Vehicle

	34. ☐ OTHER		

H. EARTHQUAKE VULNERABILITY

Identify areas of the facility that are vulnerable to hazardous materials releases due to seismic motion. These areas require immediate isolation and inspection.

VULNERABLE AREAS (Check all that apply): H1.

- [x] 1. HAZARDOUS MATERIALS AND/OR WASTE STORAGE AREAS
- [ ] 2. PROCESS LINES AND PIPING
- [ ] 3. LABORATORY
- [ ] 4. WASTE TREATMENT AREA

LOCATIONS (e.g., Shop, outdoor shed, lab): H2.

Inside Shelter/or Equipment Room/or Outdoor Equipment cabinets

Identify mechanical systems vulnerable to releases / spills due to earthquake-related motion. These systems require immediate isolation and inspection.

VULNERABLE SYSTEMS AND/OR EQUIPMENT (Check all that apply): H3.

- [x] 1. SHELVES, CABINETS AND/OR RACKS
- [x] 2. TANKS AND SHUT-OFF VALVES
- [ ] 3. PORTABLE GAS CYLINDERS
- [ ] 4. EMERGENCY SHUT-OFF AND/OR UTILITY VALVES
- [ ] 5. SPRINKLER SYSTEMS
- [ ] 6. STATIONARY PRESSURIZED CONTAINERS (e.g., Propane tank)

LOCATIONS: H4.

Inside Shelter/or Equipment Room/or Outdoor Equipment cabinets
Fuel tank if site is equipped with a stationary generator

I. EMPLOYEE TRAINING

Employee training is required for all employees and/or contractors handling hazardous materials and/or hazardous wastes during normal and/or emergency operations. Most facilities will need to submit a separate Training Plan. However, your CUPA may accept this section as the Training Plan for some small facilities.
Employee training plans may include the following content:

- Applicable laws and regulations;
- Emergency response plans and procedures;
- Safety Data Sheets;
- Hazard communication related to health and safety;
- Methods for safe handling of hazardous substances;
- Hazards of materials and processes (e.g., fire, explosion, asphyxiation);
- Hazard mitigation, prevention and abatement procedures;
- Coordination of emergency response actions;
- Notification procedures for local emergency responders, CUPA, Cal OES, and onsite personnel;
- Communication and alarm systems;
- Personal protective equipment;
- Use and maintenance of emergency response equipment and supplies (e.g. Fire extinguishers, respirators, spill control materials);
- Decontamination procedures;
- Evacuation procedures and evacuation staging locations;
- Identification of facility areas, equipment, and systems vulnerable to earthquakes and other natural disasters.
- OTHER (Specify):

Check the applicable boxes below to indicate how the employee training program is administered.

- [x] 1. FORMAL CLASSROOM
- [x] 2. VIDEOS
- [ ] 3. SAFETY MEETINGS
- [ ] 4. STUDY GUIDES / MANUALS I1.
- [ ] 5. OTHER (Specify): I2.
- [ ] 6. NOT APPLICABLE SINCE FACILITY HAS NO EMPLOYEES
- [x] 7. CHECK IF A SEPARATE EMPLOYEE TRAINING PLAN IS USED AND UPLOADED TO CERS AS A PDF DOCUMENT I3.
- [ ] 8. CHECK IF EMPLOYEE TRAINING IS COVERED BY THE ABOVE REFERENCED CONTENT AND OTHER DOCUMENTS ONSITE I4.

EMPLOYEE TRAINING FREQUENCY AND RECORDKEEPING TRAINING MUST BE:

- Provided initially for new employees as soon as possible following the date of hire. New employees should not work in an unsupervised position that involves hazardous materials handling and/or hazardous waste management without proper training;
- Provided within six months from the date of hire for new employees at a large quantity generator;
- Ongoing and provided at least annually;
- Amended prior to a change in process or work assignment;
- Given upon modification to the Emergency Response/Contingency Plan.

Large Quantity Generator Training: Large quantity generators (1,000 kg or more) must retain written plan and documentation of employee training which includes:

- A written description of the type and amount of both initial and ongoing training that will be given to persons filling each job position having responsibility for hazardous waste management and/or emergency response.
- The name, job title and job description for each position at the facility related to hazardous waste management.
- Current employee training records must be retained until closure of the facility and former employee training records must be retained for at least three years after termination of employment.

Small Quantity Generator Training: Small quantity generators (less than 1,000 kg) must include basic hazardous waste management and emergency response procedures but a written employee training plan and training records are not required. In order to show that the facility has met the small quantity generator employee training requirement, an employee training plan and training records may be made available.

Hazardous Materials Business Plan Training: Businesses must provide initial and annual employee training that includes the content referenced above. The training may be based on the job position and training records must be made available for a period of at least three years.

J. LIST OF ATTACHMENTS

Check one of the following: J1.

- [x] 1. NO ATTACHMENTS ARE REQUIRED; or
- [ ] 2. THE FOLLOWING DOCUMENTS ARE ATTACHED: J2.

Training Plan:

Training for Verizon Wireless (Verizon) personnel is conducted at the time of employment and on an annual basis thereafter. Personnel are made aware of the hazardous materials at the facility and their Safety Data Sheets

Training topics include, but are not limited to:

- Familiarity with the characteristics and hazards of each hazardous material stored on-site.
- Measures employees can take to protect themselves from chemical hazards.
- Procedures for coordination with local emergency response organizations.
- Personal protective equipment requirements for applicable containment activities.
- Release prevention and defensive response measures for potential releases
- Who and how to call for immediate assistance in the event of an accident involving hazardous materials.

In accordance with California Health and Safety Code §25510 and Title 19, §2631 of the California Code of Regulations, in the event of a spill, release, or threatened release of a hazardous material, unless Verizon has a reasonable belief that the release or threatened release poses no significant present or potential hazard to human health and safety, property, or the environment, Verizon will provide an immediate, verbal report to the Unified Program Agency and California Office of Emergency Services as soon as:

1. Verizon has knowledge of the release or threatened release;
2. Notification can be provided without impeding immediate control of the release or threatened release; and
3. Notification can be provided without impeding immediate emergency medical measures.

In order to ensure Verizon satisfies its reporting obligation, Verizon personnel shall immediately report any spill, release, or threatened release (regardless of size) to the Verizon Environmental Compliance Hotline as soon as they become aware of it. In the event Verizon personnel do not learn of a spill, release, or threatened release firsthand, but rather from another party, Verizon personnel shall not wait for confirmation of the details of a release to contact the Hotline.

Verizon Environmental Compliance personnel familiar with release reporting will then determine if the spill, release, or threatened release is reportable. If it is determined to be reportable, Verizon Environmental Compliance personnel shall immediately report the release or spill to the appropriate agencies.

Verizon personnel will not mitigate any release of hazardous materials requiring emergency response, as defined by Title 8, §5192 of the California Code of Regulations. They are instructed to: 1) report any release of hazardous materials to the Verizon Environmental Health & Safety Hotline and Network Operations Center immediately; 2) exit and secure the facility, if necessary; and 3) wait for responding emergency personnel.

For reportable releases, personnel shall contact the cleanup contractor Clean Harbors Environmental Services at (800) 483-3718 to manage the release.

Please note that Verizon historically used three separate digital training courses to satisfy the annual training requirements set forth by Health and Safety Code §25505. The content of these courses was consolidated into a single course, which, beginning in 2020, will appear on training records as “Spill Prevention and Response”.

ENVIRONMENTAL COMPLIANCE
VERIZON WIRELESS LUNDY BROKAW
255 PARKSHORE DRIVE
FOLSOM CA 95630
CERS ID#: 10144167

RE: REMINDER TO ELECTRONICALLY SUBMIT A HAZARDOUS MATERIALS BUSINESS PLAN (HMBP) FOR VERIZON WIRELESS LUNDY BROKAW LOCATED AT 2222 QUME DR SAN JOSE 95131.

Dear ENVIRONMENTAL COMPLIANCE,

Our records indicate that you have a Hazardous Materials Business Plan (HMBP) permit with our office because your facility handles hazardous materials above State reporting thresholds. Your business is now due to recertify your facility's HMBP electronically, as required by California Health and Safety Code section 25508(a)(1)(A). You must recertify your HMBP annually by resubmitting your Facility Information, Hazardous Materials Inventory, and Emergency Response and Training Plans using the California Environmental Reporting System (CERS) located at http://cers.calepa.ca.gov.

Please click on the website highlighted above, and follow these steps to review and certify your HMBP:

1) Click on "Business Portal Sign In", and log in by entering your Username and Password.
2) Click the "Start/ Edit Submittal" button next to the facility noted above.
   >Note: If you are a user associated with multiple businesses, select the appropriate business first.
3) Click the "Start" button located on the gray *Facility Information* ribbon. In the next window that appears, select the option that allows you to start the submittal based upon your last submission.
4) Make any necessary updates and revisions to the items listed below it (i.e. Business Activities and Business Owner/ Operator Identification). Then, press Save.
5) Repeat Steps 3 & 4 with the *Hazardous Materials Inventory* and *Emergency Response & Training Plans* ribbons. When finished, click "Submit" in any of the three ribbons, and then "Submit Selected Elements".

To learn more about Hazardous Materials Business Plan requirements and electronic reporting, visit our website at www.ehinfo.org/hazmat, and select "Hazardous Materials Business Plans" from the Programs and Services menu. If you require assistance, please contact Myra Reichardt by phone at (408) 918-1984, or via e-mail at hmcd.cers@cep.sccgov.org.

Thank you for your prompt attention to this matter.

Sincerely,
Richard Owens
Senior Hazardous Materials Specialist

Board of Supervisors: Mike Wasserman, Cindy Chavez, Dave Cortese, Ken Yeager, S. Joseph Simitian

Summary of Violations & Notice to Comply

Program: PR0401242 - HAZARDOUS MATERIALS BUSINESS PLAN - BP01
Inspection Type: ROUTINE INSPECTION

VC	Class	Violation	Corrective Actions Taken
		No violations were observed during this inspection.	

Comments: Submittal of Hazardous Materials Business Plan (HMBP) information via California Environmental Reporting System (CERS) website on 10/5/2016 was reviewed and has been accepted.

Notes:
1. Facility is located inside San Jose city limits.
2. Site currently has 24 x GNB Absolyte batteries.

Immediately correct any violation designated as a Class I or Class II violation. Correct all other violations no later than 11/18/2016, unless otherwise noted by the inspector.

Using the space provided, write a brief description of the actions taken by the facility to correct each violation. Attach additional pages if more space is needed. Within 5 days of achieving compliance or within 35 days of the inspection date, whichever comes first, sign the certification statement below and return a copy of this report to HMCD. Time granted for correction of violations does not preclude any enforcement action by HMCD or other agencies. This facility may be subject to reinspection at any time. CALIFORNIA ENVIRONMENTAL REPORTING SYSTEM (CERS)

CONSOLIDATED EMERGENCY RESPONSE / CONTINGENCY PLAN

Prior to completing this Plan, please refer to the INSTRUCTIONS FOR COMPLETING A CONSOLIDATED CONTINGENCY PLAN

A. FACILITY IDENTIFICATION AND OPERATIONS OVERVIEW

FACILITY ID # [ ][ ][ ]—[ ][ ][ ][ ]—[ ][ ][ ][ ][ ][ ][ ] 1.

CERS ID A1.

DATE OF PLAN PREPARATION/REVISION A2.
November 1, 2011

BUSINESS NAME *(Same as Facility Name or DBA - Doing Business As)* 3.
AT&T Mobility - I-680 - HOSTETTER (13120)

BUSINESS SITE ADDRESS 103
2222 QUME DRIVE

BUSINESS SITE CITY 104.
SAN JOSE

CA

ZIP CODE 105.
95131

TYPE OF BUSINESS (e.g., Painting Contractor) A3.
Telecommunications- Cell Site

INCIDENTAL OPERATIONS (e.g., Fleet Maintenance) A4

THIS PLAN COVERS CHEMICAL SPILLS, FIRES, AND EARTHQUAKES INVOLVING: (Check all that apply) A5.

☒ 1. HAZARDOUS MATERIALS; ☐ 2. HAZARDOUS WASTES

B. INTERNAL RESPONSE

INTERNAL FACILITY EMERGENCY RESPONSE WILL OCCUR VIA: (Check all that apply) B1.

☒ 1. CALLING PUBLIC EMERGENCY RESPONDERS (i.e., 9-1-1)
☒ 2. CALLING HAZARDOUS WASTE CONTRACTOR
☐ 3. ACTIVATING IN-HOUSE EMERGENCY RESPONSE TEAM

C. EMERGENCY COMMUNICATIONS, PHONE NUMBERS AND NOTIFICATIONS

Whenever there is an imminent or actual emergency situation such as an explosion, fire, or release, the Emergency Coordinator (or his/her designee when the Emergency Coordinator is on call) shall:

1. Activate internal facility alarms or communications systems, where applicable, to notify all facility personnel.
2. Notify appropriate local authorities (i.e., call 9-1-1).
3. Notify the California Emergency Management Agency at (800) 852-7550.

Before facility operations are resumed in areas of the facility affected by the incident, the emergency coordinator shall notify the California Department of Toxic Substances Control (DTSC), the local Unified Program Agency (UPA), and the local fire department's hazardous materials program that the facility is in compliance with requirements to:

1. Provide for proper storage and disposal of recovered waste, contaminated soil or surface water, or any other material that results from an explosion, fire, or release at the facility; and
2. Ensure that no material that is incompatible with the released material is transferred, stored, or disposed of in areas of the facility affected by the incident until cleanup procedures are completed.

INTERNAL FACILITY EMERGENCY COMMUNICATIONS OR ALARM NOTIFICATION WILL OCCUR VIA: (Check all that apply) C1.

☒ 1. VERBAL WARNINGS; ☐ 2. PUBLIC ADDRESS OR INTERCOM SYSTEM; ☒ 3. TELEPHONE;
☐ 4. PAGERS; ☐ 5. ALARM SYSTEM; ☐ 6. PORTABLE RADIO

NOTIFICATIONS TO NEIGHBORING FACILITIES THAT MAY BE AFFECTED BY AN OFF-SITE RELEASE WILL OCCUR BY: (Check all that apply) C2.

☒ 1. VERBAL WARNINGS; ☐ 2. PUBLIC ADDRESS OR INTERCOM SYSTEM; ☐ 3. TELEPHONE;
☐ 4. PAGERS; ☐ 5. ALARM SYSTEM; ☐ 6. PORTABLE RADIO

EMERGENCY RESPONSE PHONE NUMBERS:

AMBULANCE, FIRE, POLICE AND CHP	9-1-1
CALIFORNIA EMERGENCY MANAGEMENT AGENCY (CAL/EMA)	(800) 852-7550
NATIONAL RESPONSE CENTER (NRC)	(800) 424-8802
POISON CONTROL CENTER	(800) 222-1222
LOCAL UNIFIED PROGRAM AGENCY (UPA/CUPA)	408-918-3400 C3.
OTHER (Specify): C4.	( ) C5.

NEAREST MEDICAL FACILITY / HOSPITAL NAME: Regional Medical Center of San Jose C6. (408-259-5000 C7.

AGENCY NOTIFICATION PHONE NUMBERS:

CALIFORNIA DEPT. OF TOXIC SUBSTANCES CONTROL (DTSC)	(916) 255-3545
REGIONAL WATER QUALITY CONTROL BOARD	(510) 622-2300 C8.
U.S. ENVIRONMENTAL PROTECTION AGENCY (US EPA)	(800) 300-2193
CALIFORNIA DEPT OF FISH AND GAME (DFG)	(916) 358-2900
U.S. COAST GUARD	(202) 267-2180
CAL/OSHA	(916) 263-2800
STATE FIRE MARSHAL	(916) 445-8200
OTHER (Specify): AT&T Wireless Network Control Center C9.	(800) 638-2822 C10.
OTHER (Specify): AT&T Environment Health & Safety C11.	(800) 566-9347 C12.

D. EMERGENCY CONTAINMENT AND CLEANUP PROCEDURES

SPILL PREVENTION, CONTAINMENT, AND CLEANUP PROCEDURES: (Check all boxes that apply to indicate your procedures for containing spills, releases, fires or explosions; and. preventing and mitigating associated harm to persons, property, and the environment.) D1.

- ☒ 1. MONITOR FOR LEAKS, RUPTURES, PRESSURE BUILD-UP, ETC.;
- ☐ 2. PROVIDE STRUCTURAL PHYSICAL BARRIERS (e.g., Portable spill containment walls);
- ☒ 3. PROVIDE ABSORBENT PHYSICAL BARRIERS (e.g., Pads, pigs, pillows);
- ☒ 4. COVER OR BLOCK FLOOR AND/ OR STORM DRAINS;
- ☐ 5. BUILT-IN BERM IN WORK / STORAGE AREA;
- ☐ 6. AUTOMATIC FIRE SUPPRESSION SYSTEM;
- ☒ 7. ELIMINATE SOURCES OF IGNITION FOR FLAMMABLE HAZARDS (e.g. Flammable liquids, Propane);
- ☒ 8. STOP PROCESSES AND/OR OPERATIONS;
- ☐ 9. AUTOMATIC / ELECTRONIC EQUIPMENT SHUT-OFF SYSTEM;
- ☒ 10. SHUT-OFF WATER, GAS, ELECTRICAL UTILITIES AS APPROPRIATE;
- ☒ 11. CALL 9-1-1 FOR PUBLIC EMERGENCY RESPONDER ASSISTANCE / MEDICAL AID;
- ☒ 12. NOTIFY AND EVACUATE PERSONS IN ALL THREATENED AREAS;
- ☒ 13. ACCOUNT FOR EVACUATED PERSONS IMMEDIATELY AFTER EVACUATION CALL;
- ☐ 14. PROVIDE PROTECTIVE EQUIPMENT FOR ON-SITE RESPONSE TEAM;
- ☒ 15. REMOVE OR ISOLATE CONTAINERS / AREA AS APPROPRIATE;
- ☒ 16. HIRE LICENSED HAZARDOUS WASTE CONTRACTOR;
- ☒ 17. USE ABSORBENT MATERIAL FOR SPILLS WITH SUBSEQUENT PROPER LABELING, STORAGE, AND HAZARDOUS WASTE DISPOSAL AS APPROPRIATE;
- ☐ 18. SUCTION USING SHOP VACUUM WITH SUBSEQUENT PROPER LABELING, STORAGE, AND HAZARDOUS WASTE DISPOSAL AS APPROPRIATE;
- ☐ 19. WASH / DECONTAMINATE EQUIPMENT W/ CONTAINMENT and DISPOSAL OF EFFLUENT / RINSATE AS HAZARDOUS WASTE;
- ☒ 20. PROVIDE SAFE TEMPORARY STORAGE OF EMERGENCY-GENERATED WASTES;
- ☐ 21. OTHER (Specify): D2

E. FACILITY EVACUATION

THE FOLLOWING ALARM SIGNAL(S) WILL BE USED TO BEGIN EVACUATION OF THE FACILITY (CHECK ALL THAT APPLY): E1.

- ☐ 1. BELLS;
- ☐ 2. HORNS/SIRENS;
- ☒ 3. VERBAL (i.e., SHOUTING);
- ☐ 4. OTHER (Specify): E2

THE FOLLOWING LOCATION(S) IS/ARE EVACUEE EMERGENCY ASSEMBLY AREA(S) (i.e., Front parking lot, specific street corner, etc.) E3

Toward main street away from the cell site.

Note: The Emergency Coordinator must account for all on site employees and/or site visitors after evacuation.

☒ EVACUATION ROUTE MAP(S) POSTED AS REQUIRED E4.

Note: The map(s) must show primary and alternate evacuation routes, emergency exits, and primary and alternate staging areas, and must be prominently posted throughout the facility in locations where it will be visible to employees and visitors.

F. ARRANGEMENTS FOR EMERGENCY SERVICES

Explanation of Requirement: Advance arrangements with local fire and police departments, hospitals, and/or emergency services contractors should be made as appropriate for your facility. You may determine that such arrangements are not necessary.

ADVANCE ARRANGEMENTS FOR LOCAL EMERGENCY SERVICES (Check one of the following) F1.

- ☒ 1. HAVE BEEN DETERMINED NOT NECESSARY; *or*
- ☐ 2. THE FOLLOWING ARRANGEMENTS HAVE BEEN MADE (Specify): F2

G. EMERGENCY EQUIPMENT

Check all boxes that apply to list emergency response equipment available at the facility and identify the location(s) where the equipment is kept and the equipment's capability, if applicable. [e.g., ☒ CHEMICAL PROTECTIVE GLOVES | Spill response kit | One time use, Oil & solvent resistant only.]

TYPE	EQUIPMENT AVAILABLE G1.	LOCATION	CAPABILITY *(If applicable)*
Safety and First Aid	1. ☐ CHEMICAL PROTECTIVE SUITS, APRONS, OR VESTS	G2.	G3.
	2. ☒ CHEMICAL PROTECTIVE GLOVES	G4. On Tech Truck	G5. Rubber Gloves
	3. ☐ CHEMICAL PROTECTIVE BOOTS	G6.	G7.
	4. ☒ SAFETY GLASSES / GOGGLES / SHIELDS	G8. On Tech Truck	G9. Chemical mask
	5. ☐ HARD HATS	G10.	G11.
	6. ☐ CARTRIDGE RESPIRATORS	G12.	G13.
	7. ☐ SELF-CONTAINED BREATHING APPARATUS (SCBA)	G14.	G15.
	8. ☒ FIRST AID KITS / STATIONS	G16. On Tech Truck	G17. Standard kit
	9. ☐ PLUMBED EYEWASH FOUNTAIN / SHOWER	G18	G19
	10. ☒ PORTABLE EYEWASH KITS	G20. On Tech Truck	G21. Bottle type
	11. ☐ OTHER	G22.	G23.
	12. ☐ OTHER	G24.	G25.
Fire Fighting	13. ☒ PORTABLE FIRE EXTINGUISHERS	G26. On Tech Truck	G27. Common fire extinguisher
	14. ☐ FIXED FIRE SYSTEMS / SPRINKLERS / FIRE HOSES	G28.	G29.
	15. ☐ FIRE ALARM BOXES OR STATIONS	G30.	G31.
	16. ☐ OTHER	G32.	G33.
Spill Control and Clean-Up	17. ☒ ALL-IN-ONE SPILL KIT	G34. On Tech Truck	G35. Universal spill kit
	18. ☐ ABSORBENT MATERIAL	G36.	G37.
	19. ☒ CONTAINER FOR USED ABSORBENT	G38. On Tech Truck	G39. Plastic bucket
	20. ☐ BERMING / DIKING EQUIPMENT	G40.	G41.
	21. ☐ BROOM	G42.	G43.
	22. ☐ SHOVEL	G44.	G45.
	23. ☐ SHOP VAC	G46.	G47.
	24. ☐ EXHAUST HOOD	G48.	G49.
	25. ☐ EMERGENCY SUMP / HOLDING TANK	G50.	G51.
	26. ☒ CHEMICAL NEUTRALIZERS	G52. On Tech Truck	G53. Battery neutralizer
	27. ☐ GAS CYLINDER LEAK REPAIR KIT	G54.	G55.
	28. ☐ SPILL OVERPACK DRUMS	G56.	G57.
	29. ☐ OTHER	G58.	G59.
Communi-cations and Alarm Systems	30. ☒ TELEPHONES (Includes cellular)	G60. On Tech Truck	G61. Telephones & Cellular phones
	31. ☐ INTERCOM / PA SYSTEM	G62.	G63.
	32. ☐ PORTABLE RADIOS	G64.	G65.
	33. ☐ AUTOMATIC ALARM CHEMICAL MONITORING EQUIPMENT	G66.	G67.
Other	34. ☐ OTHER	G68.	G69.
	35. ☐ OTHER	G70.	G71.

H. EARTHQUAKE VULNERABILITY

Identify areas of the facility that are vulnerable to hazardous materials releases / spills due to earthquake-related motion. These areas require immediate isolation and inspection.

VULNERABLE AREAS: (Check all that apply) H1.	LOCATIONS (e.g., shop, outdoor shed, forensic lab)
☒ 1. HAZARDOUS MATERIALS / WASTE STORAGE AREA	Battery storage area H2.
☐ 2. PROCESS LINES / PIPING	H3.
☐ 3. LABORATORY	H4.
☐ 4. WASTE TREATMENT AREA	H5.

Identify mechanical systems vulnerable to releases / spills due to earthquake-related motion. These systems require immediate isolation and inspection.

VULNERABLE SYSTEMS: (Check all that apply) H6.	LOCATIONS
☒ 1. SHELVES, CABINETS AND RACKS	Battery racks inside cell site H7.
☐ 2. TANKS (EMERGENCY SHUTOFF)	H8.
☐ 3. PORTABLE GAS CYLINDERS	H9.
☒ 4. EMERGENCY SHUTOFF AND/OR UTILITY VALVES	Inside entrance/cabinet H10.
☐ 5. SPRINKLER SYSTEMS	H11.
☐ 6. STATIONARY PRESSURIZED CONTAINERS (e.g., Propane dispensing tank)	H12.

I. EMPLOYEE TRAINING

Explanation of Requirement: Employee training is required for all employees handling hazardous materials and hazardous wastes in day-to-day or clean-up operations including volunteers and/or contractors. Training must be:

- Provided within 6 months for new hires;
- Amended as necessary prior to change in process or work assignment;
- Given upon modification to the Emergency Response / Contingency Plan, and updated/refreshed annually for all employees.

Required content includes all of the following:

- Material Safety Data Sheets;
- Hazard communication related to health and safety;
- Methods for safe handling of hazardous substances;
- Fire hazards of materials / processes;
- Conditions likely to worsen emergencies;
- Coordination of emergency response;
- Notification procedures;
- Applicable laws and regulations;
- Communication and alarm systems;
- Personal protective equipment;
- Use of emergency response equipment (e.g. Fire extinguishers, respirators, etc.);
- Decontamination procedures;
- Evacuation procedures;
- Control and containment procedures;
- UST monitoring system equipment and procedures (if applicable).

INDICATE HOW EMPLOYEE TRAINING PROGRAM IS ADMINISTERED (Check all that apply) I1.

☐ 1. FORMAL CLASSROOM; ☐ 2. VIDEOS; ☒ 3. SAFETY / TAILGATE MEETINGS;

☐ 4. STUDY GUIDES / MANUALS (Specify): _____ I2.

☒ 5. OTHER (Specify): All site technicians are trained to handle onsite emergencies through the AT&T online program. I3.

☒ 6. NOT APPLICABLE BECAUSE FACILITY HAS NO EMPLOYEES

Large Quantity Generator (LQG) Training Records: Large quantity hazardous waste generators (i.e., who generate more than 270 gallons/1,000 kilograms of hazardous waste per month) must retain written documentation of employee hazardous waste management training sessions which includes:

- A written outline/agenda of the type and amount of both introductory and continuing training that will be given to persons filling each job position having responsibility for the management of hazardous waste (e.g., labeling, manifesting, compliance with accumulation time limits, etc.).
- The name, job title, and date of training for each hazardous waste management training session given to an employee filling such a job position; and
- A written job description for each of the above job positions that describes job duties and the skills, education, or other qualifications required of personnel assigned to the position.
- Current employee training records must be retained until closure of the facility.
- Former employee training records must be retained at least three years after termination of employment.

J. LIST OF ATTACHMENTS

(Check one of the following) J1.

☐ 1. NO ATTACHMENTS ARE REQUIRED; *or*

☒ 2. THE FOLLOWING DOCUMENTS ARE ATTACHED: J2.

- AT&T Description of Employee Training
- AT&T Emergency Response Procedures

K. SIGNATURE / CERTIFICATION

Certification: Based on my inquiry of those individuals responsible for obtaining the information, I certify under penalty of law that I have personally examined and am familiar with the information submitted and believe the information is true, accurate, and complete, and that a copy is available on site.

SIGNATURE OF OWNER/OPERATOR	DATE SIGNED K1.
	November 1, 2011
NAME OF SIGNER (print) K2.	TITLE OF SIGNER K3.
Steve Skanderson	Associate

EMERGENCY RESPONSE PROCEDURES

1. **PREVENTION**

Describe the kinds of hazards associated with the materials present at your business. Provide information on the steps taken at your business, or the policies or procedures now in place, to **help prevent** an accidental release of a hazardous material. Issues for discussion may include safety, storage, and containment procedures. Please be specific for each type of Hazardous Material at your facility.

Battery systems are inspected monthly by technician upon entry to the facility. Batteries are checked for cracks or signs of leakage. Cables are checked for cracks or signs of fraying. Racks are designed for this purpose and are anchored to prevent tripping or falling of cells. Cells are firmly attached to racks. Battery Electrolyte: Electrolyte is contained in batteries with explosion proof cases and batteries are secured in specially designed reinforced battery racks which work in conjunction with earthquake bracing.

2. **MITIGATION**

Describe the procedures to be followed to **reduce the severity** of a release or threatened release of a hazardous material at your business. The procedures should detail the actions to be taken by employees to stop a release, contain a release, or to reduce the problems associated with a release. What is your immediate response to a spill, fire, explosion or airborne release at your business? Do not write procedures that exceed the capabilities of employees or equipment at your business or that violate any worker's safety laws.

The person discovering the spill will contact the AT&T emergency call center at 800-KNOW EHS, (800-566-9347) keep others out of the area by using available materials (i.e. hazard tape, signs, chairs, cones, etc.), attempt to stop the flow of the leak, wear applicable personnel protective equipment (PPE) (goggles with shields, chemical resistant gloves, apron, shoe covers, etc.), and use the appropriate contents of the spill kit for the type of spill (i.e. acid/alkaline/or other Waste) and absorbent materials (i.e. acid neutralizing absorber, alkaline neutralizing absorber, baking soda, dirt, or other absorbent material, as applicable) to absorb the leak; All ignition sources will be extinguished. All shut-off valves and ventilation systems will be shut down where safe and appropriate. Every attempt will be made to keep materials from entering floor or storm drains. If a spill enters a floor or storm drain, local utilities should be notified immediately. For small spills, all Waste materials and used absorbents will be contained in a clearly marked, clean container (i.e. drum, barrel, sturdy bag); If the used Waste and clean up supplies are generated from a acid spill or alkaline spill (for battery spills segregate acids from alkaline Waste), the container should be labeled "Used Clean-Up Supplies and Absorbent Materials from Lead Acid Spill" OR "Used Clean-UP Supplies and Absorbent Materials from Alkaline Battery Spill", as applicable (place a completed Hazardous Waste Label on the container and indicate if the Waste is Acid Battery Waste or Alkaline Battery Waste). If the leak/release is beyond the persons capabilities, they will call 9-1-1 immediately. In the event of a fire, attempt to contain and extinguish with the hand held fire extinguisher and call 9-1-1 immediately for assistance.

3. ABATEMENT

Describe what you would do to **stop** and **remove** each hazard. How do you handle the complete process of stopping a release, cleaning up, and disposing of released materials at your business? What aspects of the response are beyond your ability and need to be handled by others? Who would you call to handle the release?

Visual inspection of all affected areas or equipment will occur immediately. Any leaking containers or equipment will be isolated and appropriate mitigation procedures will be implemented. Contain materials as appropriate by arranging physical barriers, use of absorbents (i.e., acid neutralizing absorber, alkaline neutralizing absorber, baking soda, dirt, or other absorbent material as applicable). Area will be isolated using hazard tape, signs, cones, rope, etc. Once the area is secured and the release has been contained, clean up procedures will be initiated and all released Waste materials will be placed in a properly marked and sealable container (i.e. drum, barrel, sturdy bag, etc.) on a pallet (as applicable) for proper disposal: If the used Waste materials are associated with a acid spill or alkaline spill (for battery spills segregate acids Waste from alkaline Waste), the container should be labeled "Used Clean-Up Supplies and Absorbent Materials from Lead Acid Spill" OR "Used Clean-Up Supplies from Alkaline Battery Spill"; as applicable (place a completed Hazardous Waste Label on the container and indicate if the Waste is Acid Battery Waste or Alkaline Battery Waste). Any spill that has entered a storm drain becomes a reportable spill to external agencies. The external agency should be contacted immediately by the appropriate environmental department personnel. For disposal activities, the person should call the AT&T emergency call center to dispatch a designated vendor for disposal of the used material. The vendor will provide containment (as appropriate) of the Waste materials, including appropriate wrapping and packaging (for example; tape/caps on battery terminal posts and plug/seal batteries to prevent splashing or leakage of electrolyte, etc.) the Waste materials. The vendor will create and provide AT&T on-site personnel the appropriate shipping/transporting documents (Bill-of-Lading, Uniform Waste Manifest) prior to transporting material. A copy of the documents shall also be maintained onsite.

4. EVACUATION

Describe the procedures to be followed for immediate notification and evacuation of your facility.

This is an unmanned facility. In the event personnel are present, verbal notification will be made. Evacuate away from the facility to the prescribed Evacuation Area where a personnel count can be made.
Depending on the magnitude of the emergency it may be necessary to alert people in the surrounding area. This should be done verbally by going door-to-door. On-site personnel should call the 1-800 KNOW EHS emergency number and if necessary (especially in a fire situation) dial the 911 from an available telephone (when calling 911, calmly and distinctly give the exact location). Notify management immediately when safe to do so, evacuate/relocate anyone (as applicable) as needed for safety or as directed by an Emergency Coordinator, assist anyone in need leaving the area/building/enclosure/etc. and proceed to a predetermined assembly area, include a head-count (if applicable). Once it is safe to do so, follow-up with immediate supervisor for further instructions.

5. EARTHQUAKES

Identify the areas and equipment in your business, which would require **immediate inspection or isolation** due to their vulnerability to earthquake related ground motion. Check for equipment such as gas cylinders, piping, drums, etc., that may need to be secured or spillage that may require mitigation or abatement.

After an earthquake the battery area and fuel tank will be inspected.
EARTHQUAKE VULNERABILITY: [19 CCR § 2731(e)]: Earthquake resistant construction is employed in the building construction of the cell sites. Electrical transmission and telecommunication systems are designed and built to be earthquake resistant.
Remedial Measures are standardized bracing systems using vibration resistant equipment. Standby power supplies in the form of gel batteries are located in cabinets and are tied down to prevent movement.
For sites with a generator and fuel tank, AT&T engages a structural engineer to design seismic bracing requirements according to the engine size & the site conditions.

Description of Employee Training

AT&T Environmental, Health, and Safety (AT&T-EHS) is dedicated to ensuring safe, healthy, and environmentally friendly work environment. The ATT-EHS website provides employees a resource of work-related environmental, health, and safety information, policies, job aids, training, and general information.

The supervising manager is responsible for ensuring direct reporting employees satisfactorily complete the training necessary to perform their assigned job duties in a safe, healthy, and environmentally responsible manner; and as required by federal, state and local regulation. Employees at all levels are responsible for actively participating in required training as scheduled, for learning the appropriate procedures and their application, and for seeking additional information if the covered material is not understood.

The training program includes internal job aids and practices to ensure training development, certification, tracking, and record keeping are appropriately managed.

AT&T web-based training courses are available on Learning Solutions (LSO), Learning Management Center (LMC), or Learning Edge systems. The learning systems are available to all AT&T Employee's during normal operating hours. The Learning Solutions (LSO) is AT&T Mobility's main learning management system for related training requirements AT&T employees can view the catalog of available training opportunities, enroll in instructor-led courses, take online courses, and view and update their transcripts. Most courses are online self-directed courses and interactive courses that can be completed anytime. Employees are able to access these systems using their internal User ID and password and appropriately review and complete the training course(s). Upon the employee completing a course, the learning system will automatically date stamp the completion of the course for record-keeping purposes and future retrieval. Records are kept on-line.

Training for various types of work activity are specified on training matrices found on the AT&T-EH&S web page. Each training matrix represents a different type of work activity, and specifies the training required for exposures the employee may encounter while performing work.

Established training matrices list courses required for employees depending on their job function. If an employee has multiple job responsibilities, he/she may be required to take training from more than one matrix. Example training matrices fall under administrative & office, construction & operations, supply logistics & warehouse, and vehicle maintenance & repair work. Each training matrix has multiple tabs and lists required courses, training frequency (i.e. initial, annual, every 3-years, etc.), permissible equivalent training methods, and other specifics for course completion.

Typical training courses required for AT&T Mobility Network Operations field technicians conducting work at AT&T Mobility cellular sites include: Hazard Recognition AND Communication (i.e. for all employees who may be exposed to hazardous chemicals, MSDS, etc.), Electrical hazards, Small Chemical Spill Clean-up, Emergency Preparedness, Fire Extinguisher Safety, Lifting, Lock-Out-Out-Tag Out, Personal Protective Equipment, Hazard Materials Safety, Preventing Heat and Cold Stress, and Work Place Safety. Also, for AT&T-EHS related emergencies, field staff is trained to call the AT&T-EHS hotline @ 1-800-KNOW-EHS for appropriate direction.

Comments: On-site to conduct a Hazardous Materials Business Plan (HMBP) inspection. Conducted a facility walk-through with Dina Craw. This facility (Bldg. 2) is primarily office space with 1 x customer training/sample/preparation lab. The following hazardous materials were observed at or above HMBP reporting thresholds:
-Diesel: 1 x 250 gallon emergency generator

NOTES:
-Observed 2 x 50 lt CO2 compressed cylinders stored at below the HMBP reporting threshold of 1000 cu ft.
-Customer training/sample/preparation lab generates small quantities of contaminated lab waste and is managed as hazardous waste. Ingenium (contractor) transports hazardous waste to Bldg. 1 (2350 Qume) for storage and shipment. Since 2350 Qume dr, 2222 Qume Dr, and 2150 Commerce Dr are a contiguous facility, a PE 2299 (hazardous waste contiguous facility) permit will assigned to this facility.
-1 x fiber drum of fluorescent lamps was observed on-site and when full is transported to Bldg. 1.
-All fire extinguishers and eye washes were observed as annually maintained.

Immediately correct any violation designated as a Class I or Class II violation. Correct all other violations no later than 07/12/2015, unless otherwise noted by the inspector.

Using the space provided, write a brief description of the actions taken by the facility to correct each violation. Attach additional pages if more space is needed. Within 5 days of achieving compliance or within 35 days of the inspection date, whichever comes first, sign the certification statement below and return a copy of this report to HMCD. Time granted for correction of violations does not preclude any enforcement action by HMCD or other agencies. This facility may be subject to reinspection at any time. Facility ID: FA0269278
Facility Name: BD BIOSCIENCES
Site Address: 2222 QUME DR, SAN JOSE, CA 95131

Inspection Date: 09/27/2018

HW Generator Type: <100 KG/MO.
Consent to Inspect Granted By: DINA CRAW, EH&S MANAGER

☐ **RCRA LQG**
☐ **Pictures Taken**
☐ **Samples Taken**

Summary of Violations & Notice to Comply

Program: PR0420552 - HAZARDOUS WASTE GENERATOR - 2299
Inspection Type: ROUTINE INSPECTION

VC	Class	Violation	Corrective Actions Taken

Comments: On-site to conduct a routine hazardous waste inspection. Consent to inspect was granted by Dina Craw. Facility is contiguous to 2350 Qume Drive, San Jose and periodically generates very small quantities of hazardous waste in the form of off-spec of discarded lab chemicals (in demonstration labs). Any hazardous waste generated is moved by the facility's hazardous waste contractor to 2350 Qume Drive for consolidation.

NOTES:
-Fire extinguishers were observed as annually maintained.
-Weekly inspections are performed by the facility's hazardous waste contractor.

Program: PR0400473 - HAZARDOUS MATERIALS BUSINESS PLAN - BP01
Inspection Type: ROUTINE INSPECTION

VC	Class	Violation	Corrective Actions Taken

Comments: Observed the following hazardous materials handled at or above reportable thresholds:
-Diesel: 1 x generator located outside of building

NOTES:
-CERS ID: 10349605
-A HMBP was submitted on 1/25/18 and was reviewed.

Immediately correct any violation designated as a Class I or Class II violation. Correct all other violations no later than 10/27/2018, unless otherwise noted by the inspector.

Using the space provided, write a brief description of the actions taken by the facility to correct each violation. Attach additional pages if more space is needed. Within 5 days of achieving compliance or within 35 days of the inspection date, whichever comes first, sign the certification statement below and return a copy of this report to HMCD. Time granted for correction of violations does not preclude any enforcement action by HMCD or other agencies. This facility may be subject to reinspection at any time. OFFICIAL NOTICE OF INSPECTION - SUPPLEMENTAL INFORMATION

This Official Notice of Inspection (NOI) documents the results of an inspection by HMCD, including a list of alleged violations, evidence in support of the alleged violations, corrective actions that must be taken by the facility, and general observations.

What am I supposed to do upon receiving a NOI?

- Correct the violations within 30 days of the inspection date, unless otherwise noted.
- In the "Corrective Actions Taken" column, write a brief description of the actions taken by the facility to correct each violation. Attach additional pages if more space is needed.
- Certify that the facility has returned to compliance by signing and dating the certification statement at the end of the report.
- Make a photocopy of the NOI and any attachments for your records.
- Within 5 days of achieving compliance or 35 days of the inspection date, whichever comes first, return the original copy of the report and any attachments to HMCD at 1555 Berger Drive, Suite 300, San Jose, CA 95112-2716 or via e-mail to the inspector noted on the "Inspected By" line of the report.

What if there are violations that cannot be corrected within 30 days?

For each violation that cannot be corrected within 30 days, submit a written Compliance Plan describing the corrective actions you propose to take and the date by which the actions will be completed. State law grants up to 30 days to correct minor violations without penalty. Minor violations that are uncorrected after 30 days, and class I and II violations may be subject to enforcement action. To lessen the possibility of enforcement action, correct all violations as soon as possible.

What if I disagree with a violation on the NOI?

If you disagree with any violation listed in this NOI, you must submit a written Notice of Disagreement to HMCD within 30 days of the inspection date. Address such notices to the attention of the inspector who cited the violation. In your Notice of Disagreement, explain in detail why you believe the alleged violation was incorrectly cited.

What about photographs or samples taken during the inspection?

A co-located sample will be given to you upon request if adequate sample volume is available. Photographs and sample analytical results will not generally be available until after the inspection has been concluded. A copy of photographs and/or analytical results will be provided to you upon written request. Photographs and sample analytical results may be withheld in the event of a criminal investigation or other ongoing investigation.

Summary of Violations & Notice to Comply

Program: PR0400473 - HAZARDOUS MATERIALS BUSINESS PLAN - BP01
Inspection Type: ROUTINE INSPECTION-COMPLETED

VC	Class	Violation	Corrective Actions Taken
B107	M	**HMBP SITE MAP MISSING / INCOMPLETE [1010005]** Facility operator failed to submit and/or maintain an accurate and complete Site Map with the facility's Hazardous Materials Business Plan (HMBP). _____ ***Site map on CERS does not contain all required elements. The following was missing from site map:*** ***Handling/Storage location of hazardous materials, emergency shut-offs, evacuation routes.*** _____ Within 30 days, electronically submit the Site Map(s) via the California Environmental Reporting System (CERS) website at http://cers.calepa.ca.gov. The map must contain north orientation, loading areas, internal roads, adjacent streets, storm and sewer drains, access and exit points, emergency shutoffs, evacuation staging areas, hazardous material handling and storage areas, and emergency response equipment. [HSC 25505(a)(2), 25508(a)(1)]	

Comments: On-site to conduct a Hazardous Materials Business Plan (HMBP) inspection. Conducted a facility walk-through with Dina Craw. This facility (Bldg. 2) is primarily office space with 1 x customer training/sample/preparation lab. The following hazardous materials were observed at or above HMBP reporting thresholds:
-Diesel: 1 x 250 gallon emergency generator

NOTES:
-Observed 2 x 50 lt CO2 compressed cylinders stored at below the HMBP reporting threshold of 1000 cu ft.
-Customer training/sample/preparation lab generates small quantities of contaminated lab waste and is managed as hazardous waste. Ingenium (contractor) transports hazardous waste to Bldg. 1 (2350 Qume) for storage and shipment. Since 2350 Qume dr, 2222 Qume Dr, and 2150 Commerce Dr are a contiguous facility, a PE 2299 (hazardous waste contiguous facility) permit will assigned to this facility.
-1 x fiber drum of fluorescent lamps was observed on-site and when full is transported to Bldg. 1.
-All fire extinguishers and eye washes were observed as annually maintained.

Immediately correct any violation designated as a Class I or Class II violation. Correct all other violations no later than 07/12/2015, unless otherwise noted by the inspector.

Using the space provided, write a brief description of the actions taken by the facility to correct each violation. Attach additional pages if more space is needed. Within 5 days of achieving compliance or within 35 days of the inspection date, whichever comes first, sign the certification statement below and return a copy of this report to HMCD. Time granted for correction of violations does not preclude any enforcement action by HMCD or other agencies. This facility may be subject to reinspection at any time. HAZARDOUS MATERIALS BUSINESS PLAN CERTIFICATION FORM

For Use by Unidocs Member Agencies or where approved by your Local Jurisdiction

Authority Cited: Health and Safety Code §25503.3(c); 19 CCR §2729.5(c)

2012 FEB 29 PM 1:15

To: Agency Name: **County of Santa Clara - Department of Environmental Health, HMCD**

Agency Mailing Address: **1555 Berger Drive, Suite 300**

San Jose, Ca, 95112

Pursuant to Section 25503.3(c) of California Health and Safety Code (HSC), the Hazardous Materials Business Plan (HMBP) certification described below is hereby submitted for the following facility:

Facility Name: **BD Biosciences**

Facility Street Address: **2222 Qume Drive** City: **San Jose**

Date of Current HMBP: **2/23/2011**

I certify that: *(Check the appropriate box.)*

☑ I have personally reviewed the Hazardous Materials Business Plan currently on file with your agency and certify that the HMBP is complete and accurate. *(See bottom of page for details.)* If this facility is subject to Federal Emergency Planning and Community Right to Know Act (EPCRA) reporting requirements, I have submitted the following documents with this Certification Form: Unified Program Consolidated Form (UPCF) Business Activities page; UPCF Business Owner/Operator Identification page with current signature and date; Hazardous Materials Inventory Statement page(s) with an original signature, photocopy of an original signature, or signature stamp on each page for all Extremely Hazardous Substances (EHS) handled at or above their Federal Threshold Planning Quantity (TPQ) or 500 pounds, whichever is less.

or

☐ Revisions to the Hazardous Materials Business Plan are necessary. The HMBP as revised is complete and accurate and is being implemented. A copy of the revisions has been electronically submitted or is enclosed with this Certification along with a signed UPCF Business Owner/Operator Identification page and UPCF Business Activities page if the HMBP revision include changes to the Hazardous Materials Inventory Statement.

OWNER/OPERATOR CERTIFICATION: I hereby certify under penalty of law that, based upon my inquiry of those individuals responsible for obtaining the information reported above, I believe that the submitted information is true, accurate, and complete. I understand that a revised HMBP must be submitted within 30 days of any change in this facility's storage or handling of hazardous materials that would require updating of the HMBP.

Name of Owner/Operator *(Print)*: **George Paganini** Title: **Director, Facilities & EH&S**

Phone: **408-954-2642** Signature: _____ Date: 2-27-12

By checking the upper box on this form, you are certifying that:

- The information contained in the HMBP most recently submitted is complete, accurate, and up-to-date; **and**
- There has been no change in the quantity of any hazardous material as reported in the most recently submitted Hazardous Materials Inventory forms; **and**
- The facility has not begun handling any hazardous material in a HMBP reportable quantity that is not currently listed in the Hazardous Materials Inventory; **and**
- The most recently submitted HMBP contains the information required by Section 11022 of Title 42 of the United States Code; **and**
- There have been no substantial changes in the facility's operations that would require revision of the current HMBP.

If EPCRA, sign below:

INSTRUCTIONS SUPPLIED TO ASSOCIATES:

Emergency
Dial 8500

Medical, Fire, Earthquake, Evacuation, Chemical Spills

EMERGENCY

DIAL 8500, give the following information:

1. Your name.
2. Your location.
3. Nature of the emergency
4. Answer all questions asked by Security.

This 24-hour, 7 day per week phone number connects you with the Security desk.

Do NOT call 911. Security will call.

MEDICAL EMERGENCY

Dial 8500. Provide information listed above.
Emergency medical response will be called by Security.

FIRE

In case of a fire, activate a "fire" alarm pull box station or Dial 8500. IF IN DOUBT, EVACUATE.

Familiarize yourself with the exit routes, fire extinguisher locations and "fire" alarm pull box stations.

EARTHQUAKE

In an earthquake, get under a desk or counter, stand against a non-glass wall and wait until the tremor subsides.
Be Ready For Aftershocks. Report injuries by dialing 8500.

NO EVACUATION:
It is not necessary to evacuate unless you are directed to do so either by an announcement over the Public Address System or by Security or ERT.

EVACUATION:
Follow evacuation instructions. Report injuries to ERT at First Aid Reporting Sign. The sign will be located near the associate assembly area. Evacuations will be ordered when there are multiple injuries and/or significant building damage.

EMERGENCY EXITS

If the fire alarm is activated, doors can be opened with push.
If the fire alarm is not activated push until alarm sounds.
Door can be opened in 15 seconds.

Emergency
Dial 8500

Medical, Fire, Earthquake, Evacuation, Chemical Spills (*Continued*)

EVACUATION PROCESS

Without compromising your own safety, turn off or shut down any equipment or process which might create a hazard if left unattended.

Proceed in an orderly manner to the pre-designated evacuation assembly area in the employee parking lot. **Smoking is prohibited.**

Prior to an emergency, familiarize yourself with exit routes from your work area.

ASSEMBLY AREAS

Regular Associates: After evacuating the building, assemble in the employee parking lot. Your department has been pre-assigned to one of these three color-coded areas - - Yellow, Blue or Pink. Check posted evacuation maps and/or confirm your evacuation assembly color with your supervisor.

Actions to Take: Remain with your department. Do not smoke. Do not leave the parking lot until you have been accounted for by the area roll call monitor.

FIRE ALARM

If you hear the Fire Alarm and/or see the strobe lights, evacuate immediately. Be alert and listen for instructions via the Public Address (P.A.) System, Emergency Response Team (ERT) or Security while exiting the building.

EMERGENCY P.A. SYSTEM

The Public Address (P.A.) system is used solely for emergencies. If the P.A. system is activated, listen carefully and do as instructed. Please listen. Your life may depend on it.

CHEMICAL INCIDENT

If the spilled substance is unknown, you should consider it a "Chemical Spill" and report it to the ERT. (Dial 8500). Do not attempt to clean up a spill of an unknown substance.

Minor Spill: Spill is less than 15 ml or 15 grams. An associate working with the substance may clean it up. If in doubt, dial 8500 (ERT).

Major Spill: Spill is greater than 15 ml or 15 grams or is any substance that threatens your safety or the environment. Dial 8500 (ERT).

Spills and Other Emergencies:

Spills: DO NOT ATTEMPT TO CLEAN UP A SPILL OF AN UNKNOWN SUBSTANCE. DIAL 8500.

For known chemicals, consider both the chemical's physical properties and whether you know the appropriate spill clean-up techniques and waste disposal requirements. Some substances are unsafe to handle even in small quantities.

Small quantities of spilled chemicals may be cleaned up without calling in the Emergency Response Team (ERT), so long as there is no question that the spill can be cleaned up safely.
Note: Mercury spills are always an 8500 call.

Small spills of blood, solutions containing blood, or other potentially Infectious material may be cleaned up using Universal Precautions and a 10% bleach solution.

However, if you have any doubt whatsoever about cleaning up a spill, please call ERT. ERT is always willing to do clean ups and ensure that waste is disposed of properly.

Larger quantity spills or those which present respiratory hazards (e.g., volatile chemicals, irritant powders) require action by the ERT. Please dial extension 8500.

ANY OTHER EMERGENCY: DIAL 8500.

Emergency Actions for Temporary Associates, Contractors, and Vendors

Leave the building whenever you see or hear the following:

- Strobe Lights
- Fire Alarms
- Emergency Announcement on Public Address System

Evacuation Procedure:

1. Without compromising you own safety, turn off or shut down any equipment or process which might create a hazard if left unattended

2. Proceed to the nearest emergency or other exit. Follow other employees to the employee parking lot on the south side of the building

3. Proceed to the assembly area where you BD sponsor or designated group is located in.

4. Roll call monitors will take a roll call from lists supplied to them by Security

5. After you have been accounted for by the area Roll Call monitor, wait for further instructions from the Incident Commander/ERT or from the Fire Department.

Emergency Response Plan
BD Biosciences

Emergency escape procedures and route assignments are posted on evacuation maps located throughout BD Biosciences. Each map shows the location of the closest safe exit and alternate routes, fire extinguishers, first aid stations and other safety features and procedures. Emergency information is also included in the EH&S Associate Handbook, which is provided to every resident associate.

Security guards and Emergency Response Team (ERT) members are the only personnel authorized to remain in the building to operate critical plan procedures before they evacuate. They are trained in the use of proper protective equipment and safety protocols for their particular assignment(s).

Associates are instructed to assemble outside the building at the pre-designated meeting place. Roll call is taken by each department at the assembly area. Further instructions are provided by the ERT if applicable.

Emergency Response Team members and the Occupational Health Nurse provide medical aid to injured persons. The ERT Incident Commander will determine where the first aid station will be set up.

The ERT is prepared to feed and shelter the typical building population, as necessary, for approximately 72 hours.

There are at least two methods for reporting fires. The methods are: (1) Dial 8500 and/or (2) activate the fire alarm by pulling the lever on the "FIRE" pull box station.

If there are any questions regarding emergency procedures, they should be directed to the EH&S Department Manager.

BD Biosciences holds two building evacuation drills per year. The Emergency Response Team has received the appropriate training to fulfill the functions they are assigned.

The Emergency Action Plan is available for review at any time. Should changes be made which alter the responsibilities or response, training will be offered to all affected personnel.

EMERGENCY RESPONSE TEAM
BDB San Jose Facility

I. INTRODUCTION

A. Purpose of Emergency Response Team (ERT)

The purpose of the ERT is to provide immediate emergency action and response in the event of incidental chemical release, medical emergency, fire or natural disaster.

B. Definitions

Incidental Chemical Release: A release that does not pose a significant safety or health hazard to associates in the area or those cleaning up the spill because of various mitigating factors, e.g. type of chemical, quantity spilled, ventilation, knowledge of responders, personal protective equipment available, and pre-established standard operating procedures for responding to releases.

Quantity limit for an Incidental Release: In general, chemical spills in excess of one (1) gallon will be considered to be an emergency spill under 29 CFR 1910.120 and will require management by designated responders from outside the company. The ERT Incident Commander may also declare any quantity of release to be an emergency if he or she believes the release poses a serious threat to the response team.

C. Activities

The ERT consists of volunteer members who are trained in CPR/First Aid, use of fire extinguishers, and response to chemical spills, employee evacuation, and other emergencies. Monthly Steering Committee meetings, training sessions, and drills are conducted to ensure preparedness.

D. Authority and Response

The ERT is a key part of the overall site response to emergencies. The members of the ERT serve primarily as "first responders" to medical emergencies and lab incidents.

The ERT Incident Commander (IC) reports to the BDB Site Commander, who is most likely to be the Site Manager or member of the Site Leadership Team if the Site Manager is not available. The ERT IC will keep the Site Commander informed of details of the ERT response and in turn be guided by the Site Commander relative to issues like re-entering the building following an earthquake, explosion or fire to search for victims. The Site Commander will coordinate company resources (e.g., Facilities, ERT, HR, PR, and Security) as the leader of the site Crisis Management Team.

In the case of medical emergencies, the ERT will serve as first responders. If treatment exceeds first aid, the ERT, through the IC will initiate a 911 call. The ERT will guide the responders onto the site and standby to support, as needed, until released by the IC.

In the case of chemical spills, the ERT will perform complete clean-up under normal circumstances. Where the seriousness of a spill is judged to be beyond the capacity of the ERT, (see definition re: Incidental Chemical Release and Quality Limit), the Environmental Health & Safety Department and the IC will determine if the San Jose Fire Department, the County HazMat Team or other outside resource should handle the incident. The ERT will standby to support the outside agency or consultant, as needed, until released by the IC.

E. Current Membership

A current volunteer member list is updated and posted annually as needed.

There is no designated time period or term for membership on the ERT, but participation is encouraged at a minimum of one year. Mastery of response techniques and familiarity with equipment and the facility takes time to develop. Members are encouraged to remain on the ERT for as long as they have time and interest. The membership list will be updated in January/February of each year as needed or whenever major changes occur during the year by the Occupational Health Nurse (OHN).

II. MEMBER TRAINING

A. General

Members are trained in all aspects associated with response to chemical spills and medical emergencies that may occur at the BDB San Jose facility. Periodic practice drills are also scheduled as part of the training. All ERT members must read and understand the ERT Procedures and ERT Checklists.

Training and informational meetings are held monthly with the year's schedule published beforehand, allowing members to schedule ERT activities in advance. Active members should attend 9 or more training sessions per year to remain in good standing.

An annual training schedule will be developed by the ERT Steering Committee, Environmental Health & Safety, and contract training services, if any.

ERT training is provided by contracted training companies and/or developed by the Steering Committee. CPR, First Aid, BBP and Defibrillator Training sessions are mandatory.

B. Training Topics

The following is a partial list of subjects that each member will address on an initial basis with periodic updates:

- Cardiopulmonary Resuscitation (CPR) (Mandatory)
- Standard First Aid (Mandatory)
- Bloodborne Pathogens for Emergency Responders (Mandatory)
- AED Training (Mandatory)
- Fire Extinguisher Usage
- Chemical Incident Response
- Proper Use of Personal Protective Equipment
- Understanding and Interpreting Material Safety Data Sheets (MSDS)
- Familiarity with Building
- Evacuation Procedures
- Incident Command System

C. Information on Special Hazards

Steering Committee members or the Incident Commander will inform the ERT of special hazards which may exist at the facility during training sessions or through correspondence, as needed.

D. Incident Commander

Every ERT member should be prepared to take on the responsibilities of Incident Commander (IC) during an ERT response. This is because any ERT response is necessarily limited to ERT members on site when a call is received. To increase confidence among Team members, IC practice is an on-going part of ERT training.

E. Respiratory Protection Equipment

ERT volunteers who are fit-tested for full-face organic cartridge respirators with HEPA filters receive a personal respirator for use in training exercises and also in the event of a hazardous material spill where use of respiratory protection is prudent. Prior to fit-testing, annual medical questionnaire and physical exam must be completed with the Occupational Health Nurse and Physician.

III. INCIDENT COMMAND SYSTEM

A. Introduction

The IC (Incident Commander) is directly responsible for the overall incident activities. He or she establishes a chain of command, designating key personnel and their functions.

The Incident Command System is automatically activated when an incident occurs. The first arriving ERT member is the Incident Commander and remains the IC throughout the incident unless that duty is relinquished by the IC to another ERT member or to the senior member of the responding public agency (e.g. Fire Dept).

When an ERT call/page is received, all Team members should report immediately to the Security Desk. Members who are off-site should NOT call in to Security, because to do so will tie up phone lines and personnel. The Emergency Response Team Response Structure is shown on page 8.

B. Key Personnel and Their Functions

Incident Commander: Directly responsible for the overall incident activities. Determines manpower and other resources needed. In the event of a chemical spill, determines whether or not it is an "incidental release". Develops strategy for controlling the incident. Has clearly defined responsibility to manage and direct all response operations.

Scribe: Maintains official record of the incident and writes incident report for review by Incident Commander and Safety Officer. A copy of the report is retained by the Occupational Health Nurse and filed in ERT Incident Binder.

Safety Officer: Advises the Incident Commander on all matters related to the health and safety of those in site operation i.e., in a lab incident response, inspection of entry team prior to entry. Must stop the response if he/she determines the response is unsafe.

Security Officer: Manages the sites physical security. Controls site access.

Medical Officer: Provides medical support (can be substituted by OHN).

EMS Transport Coordinator: Responsible for coordinating Team members to direct the paramedics and ambulance from Qume Drive to victim's location within BDB.

Investigation Team: Will provide reconnaissance of Incident scene to the Incident Commander.

C. Implementing Response Operations

Although each incident establishes its own operational requirements, there is a general sequence of operations common to all responses.

Planning and implementing a response, as a minimum, requires the responders to:

Organize: Establish an organization. Select key personnel. Assign responsibilities. Modify as operations proceed.

Evaluate the Situation: Based on available information, make preliminary hazard evaluation. Determine impact of incident with or without intervention.

Develop a Plan of Action: Develop preliminary operations plan for collecting information, implementing immediate countermeasures and rescue operations and instituting emergency actions. Continually re-evaluate the situation as supplemental information becomes available.

Make Initial On-Site Reconnaissance: Collect data to determine or verify hazardous conditions and make an overall assessment of the incident. Modify initial entry safety procedures as more data is obtained. Determine Levels of Protection for initial entry team(s) and subsequent operations. Plan and implement site control and decontamination procedures.

Modify Original Plan of Action: Modify or adapt original plan based on additional information obtained during initial entries. Revise immediate emergency measures.

IV. NOTIFICATION OF AN INCIDENT

All ERT members are issued a radio that they will carry with them during normal business hours. In the event of an emergency, Security will notify the ERT via the radio. Members will then respond to the Employee (Security) Entrance. Members will be notified of emergencies or team events with the following codes:

BLUE:	Medical
RED:	Fire
YELLOW:	Chemical

In the event of an earthquake or fire alarm, all members will respond to the pre-designated assembly area (Knaack Box) for further instruction when safe to do so.

Replacement batteries will be available from EH&S. It is the responsibility of each member to ensure proper working order of his/her radio. Repairs or replacement will be handled through EH&S,

Radios are available from the EH&S Specialist. Radios will be issued to new ERT members at the first regular ERT meeting following CRP, AED and First Aid training.

THE SAFETY AND HEALTH OF THE RESPONDERS IS OF PARAMOUNT IMPORTANCE

Emergency Equipment:

22 CCR §66265.52(e) [as referenced by 22 CCR §66262.34(a)(4)] requires that emergency equipment at the facility be listed. Completion of the following Emergency Equipment Inventory Table meets this requirement.

EMERGENCY EQUIPMENT INVENTORY TABLE

1. Equipment Category	2. Equipment Type	3. Locations *	4. Description**
Personal Protective Equipment, Safety Equipment, and First Aid Equipment	☒ Cartridge Respirators	ERT Closet	
	☐ Chemical Monitoring Equipment *(describe)*		
	☒ Chemical Protective Aprons/Coats	Shed	
	☒ Chemical Protective Boots	Shed	
	☒ Chemical Protective Gloves	Shed/closet	
	☒ Chemical Protective Suits *(describe)*	Shed

** *Describe the equipment and its capabilities. If applicable, specify any testing/maintenance procedures/intervals. Attach additional pages, numbered appropriately, if needed.*

A. *ERT INVENTORY SUPPLY LIST*

ERT Knaack Box

- Clipboards containing position checklists
- Bin containing ERT vests
- Bin containing Sweep Team maps
- Bin containing ERT fanny packs of first-aid supplies
- 2 green duffel bags containing hard hats
- Bullhorns (3)
- 1 Medical bag
- First Aid sign
- 1 large flashlight
- 2 boxes of nitrile gloves
- Laminated bldg maps (1st & 2nd floor)
- Emergency blankets
- Heavy-duty gloves
- Roll of "caution" tape
- Can of Expo cleaning towelettes

ERT Closet

- Wheelchair
- 2 Oxygen tanks (wheeled tank and tank in backpack)
- 2 fire extinguishers
- 2 emergency stretchers (one wooden)
- 7 flashlights (2 large, 5 small)
- Hard hats
- Hazardous Chemical Desk Reference (1)
- Pocket guides - Hazardous materials (10+) Emergency Response Guidebook (2) Niosh Chemical Hazard book (1)
- Nitrile gloves, 1 box each size: S, M, L, XL
- ERT vests
- Blankets (2)
- Stiff neck collars
- Scissors/pens
- Paper towels/Lysol spray
- Germicidal disposable wipes
- Full-face air purifying respiratories (plus universal cartridges & dust filters)
- Mini spill-kit A (Acid and base neutralizer, several absorbent dikes/socks & wipes,
- Waste bag, dust pan
- Mini spill-kit B (vermiculite)
- LpHse germicidal detergent
- Snap Light light sticks (5 boxes)
- Other forms (?)
- Roll of "caution" tape
- Stair Chair
- Back board
- 2 Hand-held brooms with dust pans

- 8 full-face respirators
- 3 boxes of multi-contaminant cartridges
- 1 box of XL nitrile gloves
- Small plastic scoops
- 3 pairs of Barrier gloves

ERT Cabinets (2) in Mezzanine

1. ERT CPR Training Supplies
   - Annies and baby mannequins
   - Pocket masks & supplies

2. ERT Supplies
   - Gauze sponges
   - Standard First Aid training packet
   - ERT fanny packs (empty)
   - 1 Medical bag
   - 1 blue bin (triangular bandages, surgical cone masks, gauze pads, eye pads, elastic bandages, Patient Info. Field notepads)
   - Hg Absorb jar (check)
   - Mercury Simulation Moulage Kit (check)
   - Jar theatrical blood (check)
   - Moulage Kit (check)

ERT SHED

- 4 Orange Medical Bags (inside each bag: 3 acrylic blankets, cardboard splints, **and** 3 boxes labeled A, B, and C)

Box A 4x4 gauze pads, bandages, tape, antiseptic towelettes, eye dressing, penlight w/ batteries, scissors, tongue depressors

Box B Multi trauma dressing, abdominal pad dressing, gauze bandages, elastic bandages, triangular bandages

Box C Flashlight batteries, normal saline, thermal blankets, cold packs, information tags, paper w/ pen, plastic bags w/ ties, tissues, cardboard splints

- 9 boxes of acrylic blankets (8 per box)	- Food supply: (MRE's: 12 meals/box)
- 2 bags of emergency blankets	- 12 boxes of MRE
- Tarps	- 2 cases of energy bars
- 2 Spill Kit (Red barrel on wheels):	- 10 boxes of water in foil bags (64 per box)
(Dikes/socks and waste wipes, heavy duty	
Neoprene gloves/latex gloves, Haz-Mat booklets	(1 kit missing some items used for training
Clean-up material, Clorox solution, Epson salt -	
Hydrothoric acids, Formaldehyde spill control	
Agent, acid neutralizer, activated charcoal,	
pH paper, baking soda.	

ERT Shed (cont.)

- Level B suits (1 Medium, 2 Large)
- Decontamination barrel
- Water pump
- 1 bag silver shield gloves
- 2 squeegees
- Gloves
- Shovels
- 2 pairs of sweatpants
- 1 sweatshirt
- Duct tape
- Absorbent pads (bag opened)
- Haz-Mat bags (small yellow)
- Formaldehyde spill control bucket
- 8 cold packs
- 1 bucket absorbent
- 9 19 lb. bags Vermiculite
- 1 box acid neutralizer w/scoop
- 1 box caustic neutralizer w/scoop
- 4 Disposable obstetrical kits
- 5 boxes light sticks
- 2 Coleman stoves
- 2 Coleman lanterns
- 2 (5 gal) gas cans
- Napkins, paper towels, paper plates, forks, knifes
- 3 Angle sweep brooms with dust pans

ASSOCIATE TRAINING PLAN
In Support of
Hazardous Materials Business Plan
BD Biosciences

A. ASSOCIATE TRAINING:

1. EH&S Site Safety Orientation

- All new regular, temporary and contract associates attend the Environmental Health & Safety Site Safety Orientation during their first week of employment at the BDB San Jose site. During this orientation new associates are introduced to site evacuation, re-entry procedures, assembly point locations, and the fact evacuation drills are conducted twice per year.

- The 'Associates Handbook for EH&S' is available on the BD intranet.

- Associates are also instructed regarding internal alarms and site-wide emergency notification.

- Emergency incidents are reported by dialing "8500" (the site emergency phone number) which connects with Security (on site 24 hours per day).

Each telephone on the site is labeled as follows:

"EMERGENCY Dial 8500
Answer Questions Asked by Security"

2. Departmental Safety Orientation

- Following Site Safety Orientation, all new associates undergo a Departmental Safety Orientation in their respective work areas. This training is conducted by the area Safety Representative and includes orientation to evacuation routes from the associate's work area, location of alarms, fire extinguishers, personal protective equipment, safety showers and eyewashes, etc.

3. Training for Associates Who Handle Chemicals

- New associates who handle chemicals are required to review such documents as the Chemical Hygiene Plan, Code of Safe Practices for Laboratories, Spill Procedures, Chemical and Biological Waste Handling Procedures. All these documents are published on the EH&S intranet website.

- All associates who work with chemicals undergo Hazard Communication training, which includes discussion of chemical hazard classification, routes of entry of chemicals into the body, emergencies, including first aid, review of material safety data sheets, secondary labeling requirements, and explanation of Proposition 65 warnings.

4. Emergency Response Team Members Training

- Please refer to Emergency Response Team Purpose and Activities attached elsewhere to this Plan.

- Members train monthly in all aspects of emergency response appropriate for non-professionals at this site.

Emergency Response/Contingency Plan

(Hazardous Materials Business Plan Module)

Authority Cited: HSC§ 25504(b); 19 CCR §2731; 22 CCR §66262.34(a)(4)

All facilities that handle hazardous materials in HMBP quantities must have a written emergency response plan. In addition, facilities that generate 1,000 kilograms or more of hazardous waste (or more than 1 kilogram of acutely hazardous waste or 100 kilograms of debris resulting from the spill of an acutely hazardous waste) per month, or accumulate more than 6,000 kilograms of hazardous waste on-site at any one time, must prepare a hazardous waste contingency plan. Because the requirements are similar, they have been combined in a single document, provided below, for your convenience. This plan is a required module of the Hazardous Materials Business Plan (HMBP). **If you already have a plan that meets these requirements, you should not complete the blank plan, below, but you must include a copy of your existing plan as part of your HMBP.**

This site-specific Emergency Response/Contingency Plan is the facility's plan for dealing with emergencies and shall be implemented immediately whenever there is a fire, explosion, or release of hazardous materials that could threaten human health and/or the environment. **At least one copy of the plan shall be maintained at the facility for use in the event of an emergency and for inspection by the local agency.** A copy of the plan and any revisions must be provided to any contractor, hospital, or agency with whom special (i.e., contractual) emergency services arrangements have been made *(see section 3, below)*.

1. Evacuation Plan:

a. The following alarm signal(s) will be used to begin evacuation of the facility *(check all that apply)*:

☐ Bells; ☒ Horns/Sirens; ☒ Verbal *(i.e., shouting)*; ☒ Other *(specify* Public Address System

b. ☒ Evacuation map is prominently displayed throughout the facility.

Note: A properly completed HMBP Site Plan satisfies contingency plan map requirements. This drawing (or any other drawing that shows primary and alternate evacuation routes, emergency exits, and primary and alternate staging areas) must be prominently posted throughout the facility in locations where it will be visible to employees and visitors.

2. a. Emergency Contacts*:

Fire/Police/Ambulance ---------- Phone No.: **911**

State Office of Emergency Services ---------- Phone No.: **(800) 852-7550**

b. Post-Incident Contacts*:

Certified Unified Program Agency (CUPA) ---------- Phone No.: **(408) 852-7550**

Local Hazardous Materials Program ---------- Phone No.: **(408) 918-3400**

California EPA Department of Toxic Substances Control ---------- Phone No.: **(510) 540-3739**

Cal-OSHA Division of Occupational Safety and Health ---------- Phone No.: **(408) 452-7288**

Air Quality Management District ---------- Phone No.: **(415) 771-6000**

Regional Water Quality Control Board ---------- Phone No.: **(510) 622-2300**

*** Phone numbers for agencies in Unidocs Member Agency geographic jurisdictions are available at www.unidocs.org.**

c. Emergency Resources:

Poison Control Center* ---------- Phone No.: **(800) 876-4766**

Nearest Hospital: Name: **Regional Medical Center** Phone No.: **(729) 2848**

Address: **225 North Jackson Ave.** City: **San Jose**

3. Arrangements With Emergency Responders:

If you have made special (i.e., contractual) arrangements with any police department, fire department, hospital, contractor, or State or local emergency response team to coordinate emergency services, describe those arrangements below:

Record Keeping
(Hazardous Materials Business Plan Module)

All facilities that handle hazardous materials must maintain records associated with their management. A summary of your recordkeeping procedures is a required module of the Hazardous Materials Business Plan (HMBP). A blank summary has been provided below for you to complete and submit if you do not already have such a document. **If you already have a brief written description of your hazardous materials recordkeeping systems that addresses all subjects covered below, you are not required to complete this page, but you must include a copy of your existing document as part of your HMBP.**

Check all boxes that apply. The following records are maintained at the facility. *[Note: Items marked with an asterisk (*) are required.]*:

☒	Current employees' training records *(to be retained until closure of the facility)* *
☒	Former employees' training records *(to be retained at least three years after termination of employment)* *
☒	Training Program(s) *(i.e. written description of introductory and continuing training)* *
☒	Current copy of this Emergency Response/Contingency Plan *
☒	Record of recordable/reportable hazardous material/waste releases *
☒	Record of hazardous material/waste storage area inspections *
☐	Record of hazardous waste tank daily inspections *
☒	Description and documentation of facility emergency response drills

Note: The above list of records does not necessarily identify every type of record required to be maintained by the facility.

A copy of the Inspection Check Sheet(s) or Log(s) used in conjunction with required routine self-spections of your facility must be submitted with your HMBP. *(Exception: Available from your local agency is a Hazardous Materials/Waste Storage Area Inspection Form that you may use if you do not already have your own form. If you use the example provided, you do not need to attach a copy.)*

Check the appropriate box:

☐	We will use the Unidocs "Hazardous Materials/Waste Storage Area Inspection Form" to document inspections.
☒	We will use our own documents to record inspections. ***(A blank copy of each document used must be attached to this HMBP.)***

Re: Reminder to Electronically Submit a Hazardous Materials Business Plan (HMBP) for BD BIOSCIENCES, 2222 QUME DR, SAN JOSE 95131

Dear Dina Craw,

Our records indicate that you have a Hazardous Materials Business Plan (HMBP) permit with our office because your facility handles hazardous materials above State reporting thresholds. Your business is now due to recertify your facility's HMBP electronically, as required by California Health and Safety Code section 25508(a)(1)(A). You must recertify your HMBP annually by resubmitting your Facility Information, Hazardous Materials Inventory, and Emergency Response and Training Plans using the California Environmental Reporting System (CERS) located at http://cers.calepa.ca.gov.

Please click on the website highlighted above, and follow these steps to review and certify your HMBP:

1) Click on "Business Portal Sign In", and log in by entering your Username and Password.
2) Click the "Start/ Edit Submittal" button next to the facility noted above.
   >Note: If you are a user associated with multiple businesses, select the appropriate business first.
3) Click the "Start" button located on the gray *Facility Information* ribbon. In the next window that appears, select the option that allows you to start the submittal based upon your last submission.
4) Make any necessary updates and revisions to the items listed below it (i.e. Business Activities and Business Owner/ Operator Identification). Then, press Save.
5) Repeat Steps 3 & 4 with the *Hazardous Materials Inventory* and *Emergency Response & Training Plans* ribbons. When finished, click "Submit" in any of the three ribbons, and then "Submit Selected Elements".

To learn more about Hazardous Materials Business Plan requirements and electronic reporting, visit our website at www.ehinfo.org/hazmat, and select "Hazardous Materials Business Plans" from the Programs and Services menu. If you require assistance, please contact Myra Reichardt by phone at (408) 918-1984, or via e-mail at hmcd.cers@cep.sccgov.org.

Thank you for your prompt attention to this matter.

Sincerely,
Richard Owens
Senior Hazardous Materials Specialist

CERS BUSINESS LEAD USER AUTHORIZATION FORM

CERS Central http://cers.calepa.ca.gov

For Use in All Areas of Santa Clara County Other Than in the Cities of Gilroy, Santa Clara, and Sunnyvale

FACILITY OWNER NAME [Legal name of individual(s),partnership, corporation, LLC, or LLP]			OWNER PHONE
Becton Dickinson			408-954-2500
OWNER MAILING ADDRESS	**CITY**	**STATE**	**ZIP CODE**
1 Becton Drive	Franklin Lakes	NJ	07417

Read the following and initial each of the boxes:

Initial

SV **I am either the owner of the business that operates the facilities listed on this form, or an in-house person authorized by the owner's senior corporate or agency management to certify electronic data submittals via the California Environmental Reporting System (CERS).**

☐ **I am aware that Lead Users have the ability to add or remove the CERS access rights of other users in my organization, including me, and I understand that Santa Clara County CUPA recommends that contractors and consultants be given CERS Editor rights, not Approver or Lead User rights.**

SIGNATURE	NAME OF SIGNER (print)	DATE SIGNED
Stacey Vargas	Stacey Vargas	5/10/13
TITLE OF SIGNER	**PHONE NUMBER OF SIGNER**	**E-MAIL ADDRESS OF SIGNER***
EH&S Specialist	408-954-2129	Stacey_Vargas@bd.com

In addition to me, the following persons are hereby authorized to be CERS Business Lead Users for the facilities identified on the following page. These Lead Users will be responsible for approving other authorized users, and will have access to create, edit, and submit CERS compliance data on my behalf.

NAME OF AUTHORIZED LEAD USER	TITLE
Gloria Busch	EH&S Specialist
EMAIL ADDRESS*	**PHONE NUMBER**
gbusch@protechecs.com	(858) 220-2206

NAME OF ADDITIONAL AUTHORIZED LEAD USER	TITLE
Stacey Vargas	EH&S Specialist
EMAIL ADDRESS*	**PHONE NUMBER**
Stacey_Vargas@bd.com	408-954-2129

Santa Clara County CUPA recommends that businesses have at least two Lead Users. If you want more Lead Users, have one of the above Lead Users approve the additional Lead User access requests.

* Provide the e-mail address exactly as shown on the user's CERS account record. If the user does not have a CERS account, they may obtain one at https://cersbusiness.calepa.ca.gov/Account/Register. Providing a different e-mail address, or the address of a user who does not have a CERS account, may delay that user's access to CERS facility records.

If multiple facilities are listed, please check one:

☐ We would like the ability to manage users and user privileges for each facility separately. Please do not transfer the following facilities to a common CERS Business/Organization record.

☑ We would like the ability to manage a single common list of users and user privilege for all facilities. If separate, please transfer all of the following facilities to the following CERS Business/Organization record:

BUSINESS/ORGANIZATION NAME (as shown in CERS): _____

HEADQUARTERS (City, State): _____

Provide the information below or check the following box and attach a list of sites included in this authorization. ☐ List of sites attached

CERS ID	FACILITY NAME	SITE ADDRESS	CITY
	BD Biosciences	2350 Qume Dr.	San Jose
	BD Biosciences	2222 Qume Dr.	San Jose
	BD Biosciences	2150 Commerce Dr.	San Jose

If you already have an active Lead User, do not submit this form. Your Lead Users should approve or deny CERS access requests by your employees, contractors, and consultants; and remove access in a timely manner for such persons who are no longer authorized to manage or submit data on your behalf.

Subject: BD Bioscience Inspection Conducted on September 27, 2018 (2350 Qume Dr, 2222 Qume Dr, and 2150 Commerce Dr)

Please find enclosed the following corrective actions to the above referenced inspection:

2350 Qume Drive (Building 1)

- "Soldering Debris Management" – Soldering scrap at the soldering stations are managed as scrap metal and are stored at a collection area located at the machine shop.
- "Hazardous waste Marking" – All hazardous waste containers are labeled in the hazardous waste storage shed. All chemicals were sent for disposal and new trays are put in place. Once chemicals are accumulated, new trays will be labeled accordingly. **(Attached picture 1, 2, and 3)**
- "Manifest correction for RQ" –See letter sent to DTSC for manifest correction. **(Attached Document 1- letter to DTSC)**
- "HMBP update for CO2" – Physical state of CO2 was updated and resubmitted on CERs.
- "Ultrasonic Cleaner IPA/Water" – Ultrasonic Cleaner has 2 compartments. Compartments are labeled with contents, DI water and Isopropanol Alcohol (IPA). Spent IPA is transferred back into original container and disposed of as hazardous waste. Ultrasonic bath which compartments float in is filled with DI water. This bath is plumbed to drain directly to sink. **(Attached picture 4 and 5)**
- "Chemical Tray Waste Determination" All chemicals on the tray was lab-packed and shipped out by hazardous waste vendor. **(Attached Document 2 - manifest)**

- "Hazardous Waste Marking for Oil Waste" – Oil waste container was affixed with a hazardous waste label. **(Attached picture 6, 7)**
- "Hazardous Waste Marking in buffer lab" – The hazardous waste label was affixed on the red container inside the fume hood. **(Attached Picture 9)** The hexane container was removed during the hazardous waste pickup. **(Attached Document 2- Manifest)**
- "Container marking for used oil filters" – Oil Filters container was affixed with a hazardous waste label. **(See Picture 8)**
- "Explanation of 2-part epoxy usage" –Associates are instructed to dispose the 2-part epoxy as hazardous waste when no longer in use. The 2-part epoxy containers could be empty or could have residual material left in the containers.
- "Training information for Bloom Box system" –
    - Requesting 30-day extension until 12/3/18**

2222 Qume Drive (Building 2) – *No findings noted*

2150 Commerce Drive (Building 3)

- Finding "HMBP Annual Certification" – HMBP was annually certified on 10/08/18 on CERs.

SPECIAL CONDITIONS:

A. Waste Requiring No Further Treatment
B. Lab Pack Waste Qualifying for Alternative Treatment und 40 CFR 268.40
C. Hazardous Waste Debris subject to standard treatment requirements, 40 CFR 268.40
D. Hazardous Waste Debris subject to alternative standards in 40 CFR 268 (list contaminants)
E. Waste Qualifying for Exemption and not subject to Land Disposal Restriction (Explain)
F. Characteristic waste that are subject to the treatment standards in 268.40 (other than those expressed as a required method of treatment) that are reasonably expected to contain underlying hazardous constituents as defined in 268.2(i); are treated on-site to remove hazardous characteristic; and are sent off-site for treatment underlying hazardous constituents (list constituents)
G. Characteristic wastes that contain underlying hazardous constituents as defined 268.2(i) that are treated on-site to remove the hazardous characteristic and the underlying hazardous constituents to levels in 268.48 Universal Treatment Standards.
H. For Chemical Manufacturers, Petroleum Refineries, Coke By-Product Facilities and RCRA TSDF handling wastes subject to 40 CFR 61 subpart FF ONLY. This waste is "Controlled Benzene Waste" which is subject to the notification requirements of 40 CFR subpart FF.
I. Certification for contaminated soil indicating the presence or absence of characteristic and / or listed hazardous wastes.
J. Certification for contaminated soil treated in accordance with 40 CFR 268.49

Waste analysis is attached where available; otherwise the information contained herin is based upon my thorough knowledge of the waste(s).

I hereby certify that I believe that the information I have submitted is true, accurate and complete.

LAND DISPOSAL RESTRICTION NOTIFICATION FORM FOR WASTES SUBJECT TO THE TREATMENT STANDARDS FOUND IN 40 CFR 268

WASTE STREAMS IDENTIFIED BY SPECIAL CONDITION A

I certify under penalty of law that I personally have examined and am familiar with the waste through analysis and testing or through knowledge of the waste to support this certification that the waste complies with the treatment standards specified in 40 CFR part 268 subpart D and all applicable prohibitions set forth in 40 CFR 268 32 or RCRA section 3004(d) I believe that the information I have submitted is true, accurate and complete I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment

WASTE STREAMS IDENTIFIED BY SPECIAL CONDITION B

I certify under penalty of law that I personally have examined and am familiar with the waste and that lab pack contains only wastes which have not been excluded under appendix iv to 40 CFR 268. I am aware that there are significant penalties for submitting a false certification, including fine and imprisonment

WASTE STREAMS IDENTIFIED BY SPECIAL CONDITION F

I certify under penalty of law that the waste has been treated in accordance with the requirements of 40 CFR 286 40 to remove the hazardous characteristic This decharacterized waste contains underlying hazardous constituents that require further treatment to meet universal treatment standards I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment

WASTE STREAMS IDENTIFIED BY SPECIAL CONDITION G

I certify under penalty of law that the waste has been treated in accordance with the requirements of 40 CFR 286 40 to remove the hazardous characteristic, and that the underlying hazardous constituents, as defined in 268 2 have been treated on site to the 268 48 Universal Treatment Standards I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment

WASTE STREAMS IDENTIFIED BY SPECIAL CONDITION I

I certify under penalty of law that I personally have examined this contaminated soil and it [DOES/DOES NOT] contain listed hazardous waste and [DOES/DOES NOT] exhibit a characteristic of hazardous waste and requires treatment to meet the soil treatment standards as provided by 268 49(c)

WASTE STREAMS IDENTIFIED BY SPECIAL CONDITION J

I certify under penalty of law that I have personally examined and am familiar with the treatment technology and operation of the treatment process used to support this certification and believe that it has been maintained and operated properly so as to comply with treatment standards specified in 40 CFR 268 49 without impermissible dilution of the prohibited wastes I am aware there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment

LAND DISPOSAL RESTRICTION NOTIFICATION FORM FOR WASTES SUBJECT TO THE TREATMENT STANDARDS FOUND IN 40 CFR 268

Line	TSD Approval #	Waste Code(s)	Subcategory	UHC'S	NWW or WW	Special Conditions
18	ACT89000 / ACT89000	551 D001				

Line	TSD Approval #	Waste Code(s)	Subcategory	UHC'S	NWW or WW	Special Conditions
19	ACT89000 / ACT89000	551 D001				

SPECIAL CONDITIONS:

A. Waste Requiring No Further Treatment
B. Lab Pack Waste Qualifying for Alternative Treatment und 40 CFR 268.40
C. Hazardous Waste Debris subject to standard treatment requirements, 40 CFR 268.40
D. Hazardous Waste Debris subject to alternative standards in 40 CFR 268 (list contaminants)
E. Waste Qualifying for Exemption and not subject to Land Disposal Restriction (Explain)
F. Characteristic waste that are subject to the treatment standards in 268.40 (other than those expressed as a required method of treatment) that are reasonably expected to contain underlying hazardous constituents as defined in 268.2(i); are treated on-site to remove hazardous characteristic; and are sent off-site for treatment underlying hazardous constituents (list constituents)
G. Characteristic wastes that contain underlying hazardous constituents as defined 268.2(i) that are treated on-site to remove the hazardous characteristic and the underlying hazardous constituents to levels in 268.48 Universal Treatment Standards.
H. For Chemical Manufacturers, Petroleum Refineries, Coke By-Product Facilities and RCRA TSDF handling wastes subject to 40 CFR 61 subpart FF ONLY. This waste is "Controlled Benzene Waste" which is subject to the notification requirements of 40 CFR subpart FF.
I. Certification for contaminated soil indicating the presence or absence of characteristic and / or listed hazardous wastes.
J. Certification for contaminated soil treated in accordance with 40 CFR 268.49

Waste analysis is attached where available; otherwise the information contained herin is based upon my thorough knowledge of the waste(s).

I hereby certify that I believe that the information I have submitted is true, accurate and complete.

SIGNATURE	TITLE	DATE
Dena Crow	EHS Manager	24-Oct-2018

WASTE STREAMS IDENTIFIED BY SPECIAL CONDITION A

I certify under penalty of law that I personally have examined and am familiar with the waste through analysis and testing or through knowledge of the waste to support this certification that the waste complies with the treatment standards specified in 40 CFR part 268 subpart D and all applicable prohibitions set forth in 40 CFR 268.32 or RCRA section 3004(d). I believe that the information I have submitted is true, accurate and complete. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment.

WASTE STREAMS IDENTIFIED BY SPECIAL CONDITION B

I certify under penalty of law that I personally have examined and am familiar with the waste and that lab pack contains only wastes which have not been excluded under appendix iv to 40 CFR 268. I am aware that there are significant penalties for submitting a false certification, including fine and imprisonment.

WASTE STREAMS IDENTIFIED BY SPECIAL CONDITION F

I certify under penalty of law that the waste has been treated in accordance with the requirements of 40 CFR 286.40 to remove the hazardous characteristic. This decharacterized waste contains underlying hazardous constituents that require further treatment to meet universal treatment standards. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment.

WASTE STREAMS IDENTIFIED BY SPECIAL CONDITION G

I certify under penalty of law that the waste has been treated in accordance with the requirements of 40 CFR 286.40 to remove the hazardous characteristic, and that the underlying hazardous constituents, as defined in 268.2 have been treated on site to the 268.48 Universal Treatment Standards. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment.

WASTE STREAMS IDENTIFIED BY SPECIAL CONDITION I

I certify under penalty of law that I personally have examined this contaminated soil and it [DOES/DOES NOT] contain listed hazardous waste and [DOES/DOES NOT] exhibit a characteristic of hazardous waste and requires treatment to meet the soil treatment standards as provided by 268.49(c).

WASTE STREAMS IDENTIFIED BY SPECIAL CONDITION J

I certify under penalty of law that I have personally examined and am familiar with the treatment technology and operation of the treatment process used to support this certification and believe that it has been maintained and operated properly so as to comply with treatment standards specified in 40 CFR 268.49 without impermissible dilution of the prohibited wastes. I am aware there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment.

B107	M	**HMBP SITE MAP MISSING / INCOMPLETE [1010005]** Facility operator failed to submit and/or maintain an accurate and complete Site Map with the facility's Hazardous Materials Business Plan (HMBP). ***Site map on CERS does not contain all required elements. The following was missing from site map:*** ***Handling/Storage location of hazardous materials, emergency shut-offs, evacuation routes.*** Within 30 days, electronically submit the Site Map(s) via the California Environmental Reporting System (CERS) website at http://cers.calepa.ca.gov. The map must contain north orientation, loading areas, internal roads, adjacent streets, storm and sewer drains, access and exit points, emergency shutoffs, evacuation staging areas, hazardous material handling and storage areas, and emergency response equipment. [HSC 25505(a)(2), 25508(a)(1)]	See Inspection Response Letter Sent to HMCD on 7-15-2015. DMC

Comments: On-site to conduct a Hazardous Materials Business Plan (HMBP) inspection. Conducted a facility walk-through with Dina Craw. This facility (Bldg. 3) is primarily office space with 1 x instrument repair lab. The following hazardous materials were observed at or above HMBP reporting thresholds:
-Diesel: 1 x 250 gallon emergency generator

NOTES:
-Observed 2 x app. 250 cft nitrogen compressed cylinders stored at below the HMBP reporting threshold of 1000 cu ft.
-Instrument repair lab utilizes light application of IPA to periodically spot clean instruments. Per internal hazardous waste training, technicians are instructed that if wipes are wet/soaked, they are to managed as hazardous waste. At time of this inspection, facility does not generate hazardous waste and no permit is required. Contact our agency at (408) 918-3400 if this changes in the future.
-1 x fiber drum of fluorescent lamps was observed on-site and when full is transported to Bldg. 1.
-All fire extinguishers and eye washes were observed as annually maintained.

Immediately correct any violation designated as a Class I or Class II violation. Correct all other violations no later than 07/12/2015, unless otherwise noted by the inspector.

Using the space provided, write a brief description of the actions taken by the facility to correct each violation. Attach additional pages if more space is needed. Within 5 days of achieving compliance or within 35 days of the inspection date, whichever comes first, sign the certification statement below and return a copy of this report to HMCD. Time granted for correction of violations does not preclude any enforcement action by HMCD or other agencies. This facility may be subject to reinspection at any time. Summary of Violations & Notice to Comply

Program: SREZNAF9Q - HAZARDOUS WASTE GENERATOR - 2299
Inspection Type: ROUTINE INSPECTION

VC	Class	Violation	Corrective Actions Taken

Comments: On-site to conduct a routine hazardous waste inspection. Consent to inspect was granted by Dina Craw. Facility is contiguous to 2350 Qume Drive, San Jose and periodically generates very small quantities of hazardous waste in the form of off-spec or discarded lab chemicals and contaminated lab trash (in repair lab). Any hazardous waste generated is moved by the facility's hazardous waste contractor to 2350 Qume Drive for consolidation.

FOLLOW-UP REQUIRED:
-Our agency will contact you regarding more information on usage, handling, and management of Instapak A & B products (observed 2 x approximately 10 gallon plastic containers of each during time of inspection).

NOTES:
-Fire extinguishers were observed as annually maintained.
-Weekly inspections are performed by the facility's hazardous waste contractor.

Program: PR0381521 - HAZARDOUS MATERIALS BUSINESS PLAN - BP01
Inspection Type: ROUTINE INSPECTION

VC	Class	Violation	Corrective Actions Taken

OFFICIAL NOTICE OF INSPECTION - SUPPLEMENTAL INFORMATION

This Official Notice of Inspection (NOI) documents the results of an inspection by HMCD, including a list of alleged violations, evidence in support of the alleged violations, corrective actions that must be taken by the facility, and general observations.

What am I supposed to do upon receiving a NOI?

- Correct the violations within 30 days of the inspection date, unless otherwise noted.
- In the "Corrective Actions Taken" column, write a brief description of the actions taken by the facility to correct each violation. Attach additional pages if more space is needed.
- Certify that the facility has returned to compliance by signing and dating the certification statement at the end of the report.
- Make a photocopy of the NOI and any attachments for your records.
- Within 5 days of achieving compliance or 35 days of the inspection date, whichever comes first, return the original copy of the report and any attachments to HMCD at 1555 Berger Drive, Suite 300, San Jose, CA 95112-2716 or via e-mail to the inspector noted on the "Inspected By" line of the report.

What if there are violations that cannot be corrected within 30 days?

For each violation that cannot be corrected within 30 days, submit a written Compliance Plan describing the corrective actions you propose to take and the date by which the actions will be completed. State law grants up to 30 days to correct minor violations without penalty. Minor violations that are uncorrected after 30 days, and class I and II violations may be subject to enforcement action. To lessen the possibility of enforcement action, correct all violations as soon as possible.

What if I disagree with a violation on the NOI?

If you disagree with any violation listed in this NOI, you must submit a written Notice of Disagreement to HMCD within 30 days of the inspection date. Address such notices to the attention of the inspector who cited the violation. In your Notice of Disagreement, explain in detail why you believe the alleged violation was incorrectly cited.

What about photographs or samples taken during the inspection?

A co-located sample will be given to you upon request if adequate sample volume is available. Photographs and sample analytical results will not generally be available until after the inspection has been concluded. A copy of photographs and/or analytical results will be provided to you upon written request. Photographs and sample analytical results may be withheld in the event of a criminal investigation or other ongoing investigation.

Re: Reminder to Electronically Submit a Hazardous Materials Business Plan (HMBP) for BD BIOSCIENCES, 2150 Commerce drive, San Jose 95131

Dear Dina Craw,

Our records indicate that you have a Hazardous Materials Business Plan (HMBP) permit with our office because your facility handles hazardous materials above State reporting thresholds. Your business is now due to recertify your facility's HMBP electronically, as required by California Health and Safety Code section 25508(a)(1)(A). You must recertify your HMBP annually by resubmitting your Facility Information, Hazardous Materials Inventory, and Emergency Response and Training Plans using the California Environmental Reporting System (CERS) located at http://cers.calepa.ca.gov.

Please click on the website highlighted above, and follow these steps to review and certify your HMBP:

1) Click on "Business Portal Sign In", and log in by entering your Username and Password.
2) Click the "Start/ Edit Submittal" button next to the facility noted above.
   >Note: If you are a user associated with multiple businesses, select the appropriate business first.
3) Click the "Start" button located on the gray *Facility Information* ribbon. In the next window that appears, select the option that allows you to start the submittal based upon your last submission.
4) Make any necessary updates and revisions to the items listed below it (i.e. Business Activities and Business Owner/ Operator Identification). Then, press Save.
5) Repeat Steps 3 & 4 with the *Hazardous Materials Inventory* and *Emergency Response & Training Plans* ribbons. When finished, click "Submit" in any of the three ribbons, and then "Submit Selected Elements".

To learn more about Hazardous Materials Business Plan requirements and electronic reporting, visit our website at www.ehinfo.org/hazmat, and select "Hazardous Materials Business Plans" from the Programs and Services menu. If you require assistance, please contact Myra Reichardt by phone at (408) 918-1984, or via e-mail at hmcd.cers@cep.sccgov.org.

Thank you for your prompt attention to this matter.

Sincerely,
Richard Owens
Senior Hazardous Materials Specialist

VIOLATIONS: Codes noted below in the "Violation Codes" column represent specific violations of State law and/or local Ordinance. These codes are defined in the attached Violation Codes document(s). Time granted for correction of violations does not preclude any enforcement action by this Department or other agencies.
This facility may be subject to reinspection at any time. Consent to Inspect Given By: Victor Mercado

Violation Codes	Summary of Violations, Notice to Comply, Observations, and Required Corrective Actions	Corrective Actions Taken
C01C	- Observed gloves on the garbage adjacent to the hand free wave machine. Observed Q tip's in the garbage that were used to wipe lead dust off the circuit boards.	-ALL GLOVES, FINGER COTS, AND Q-TIPS USED IN ASSEMBLY ARE CONSIDERED HAZARDOUS WASTE AND ARE TREATED ACCORDINGLY BY DISCARDING AFTER USE IN THE RED HAZARDOUS WASTE CONTAINER LOCATED ON THE PRODUCTION FLOOR.
	- Observed a Styrofoam float on used to vacuum the Chip Shooter machine.	
	Corrective Action: - Determine if the gloves and wipes are contaminated with lead that classifies them as a hazardous waste. Discontinue placing these items in the garbage until a hazardous waste determination has been made. If gloves are hazardous waste, manage accordingly.	-ALL EMPLOYEES IN PRODUCTION HAVE NOW BEEN TRAINED IN PROPER DISPOSAL OF HAZARDOUS WASTE MATERIAL.
	- Determine if the vacuumed material contains lead from the Chip Shooter is hazardous waste.	
	* This is a Class II violation	

All violations must be corrected within 30 days of the inspection date unless noted otherwise, above. Section 25404.1.2(c)(1) of California Health and Safety Code (HSC) requires that you write a brief description of the corrective actions you have taken to bring this facility into compliance and submit it to HMCD within 5 days of achieving compliance, or within 35 days of the inspection date, whichever comes first. ***(Note: Detailed instructions on actions you must take are printed on the reverse side of this page.)***

THE OFFICIAL NOTICE OF INSPECTION EXPLAINED

This Official Notice of Inspection (NOI) describes the findings made during the inspection, including all violations and any actions that must be taken by the facility to correct the violations. All violations must be corrected within 30 days of the inspection date unless noted otherwise by the inspector.

Within five working days of achieving compliance, or within 35 days of the inspection, whichever comes first, you must submit a written response which describes the corrective actions you have taken or — for those violations which are impossible to correct within 30 days — propose to take in order to bring your facility into compliance. Where proposed corrective actions are described, you must specify a date by which you expect each violation to be corrected. After you have addressed each violation, complete the certification box located at the bottom of page 1 of the NOI. **Your description of corrective actions taken, along with your signed certification of the NOI and any required supporting documents, will serve as your written response to this Notice to Comply.** Your response must be mailed to Santa Clara County Hazardous Materials Compliance Division (HMCD) at 1555 Berger Drive, Suite 300, San Jose, CA 95112-2716. The effective date of the certification that any violation has been corrected is the date that it is postmarked.

What Does the Information in Each Column Mean?

Violation Code: Codes listed in this column identify specific violations of laws, regulations, or codes which were observed during this inspection. Definitions of Violation Codes are listed on the attached Violation Codes document(s).

Summary of Violations, Notice to Comply, Observations, and Required Corrective Actions: Information noted in this column describes the circumstances of any violations noted in the first column and describes how the violations may be corrected. Additionally, the inspector may use this space to note any additional observations resulting from the inspection.

Corrective Actions Taken: This column on the NOI has been provided so that you can note how you have corrected or propose to correct each violation. Where proposed corrective actions are described, you must specify a date by which you expect each violation to be corrected. If more space is needed, attach additional pages.

Why Were Two Copies of the Notice of Inspection Given to Me?

You have been given two copies so you will have a copy for your own records after you submit your written response to HMCD. **Do not separate the copies until you have described all of your corrective actions and signed the certification box on page 1. The yellow copy of each page must be returned to HMCD. The pink copy is for your records.**

What if I Disagree With a Violation Noted on the Notice of Inspection?

If you disagree with any violation listed in this NOI, you must submit a written Notice of Disagreement to HMCD within 30 days of the inspection date. Address such notices to the attention of the inspector who cited the violation. In your Notice of Disagreement, you must explain in detail why you believe the violation does not exist. If there is sufficient space, you may use the "Corrective Actions Taken" column of this NOI to dispute violations.

What About Photographs or Samples Taken During the Inspection?

If samples were taken, split samples will be given to you upon request. Since this NOI was prepared and given to you at the end of the inspection, any photographs and sampling or laboratory results associated with the inspection were not yet available. A copy of any photographs and/or analytical results from sampling taken during this inspection will be provided to you upon written request. Other pertinent information derived from the inspection is attached to this NOI. Photographs and sample results may be withheld in the event of a criminal investigation or other ongoing investigation.

****

- **Per HSC §§25187.8(b) and 25404.1.2(c), failure to sign the certification on this Notice to Comply and return it to HMCD is a violation of State law.**
- **Per HSC §25404.1.2(c)(2), a false statement that compliance has been achieved is a misdemeanor.**
- **Per HSC §25191(b), a false statement that hazardous waste compliance has been achieved is a violation of State law punishable by a fine of not less than $2,000 or more than $25,000 and/or imprisonment in the county jail for up to one year.**
- **Per HSC §§25299(a)(8) and (b)(7), a false statement that underground storage tank compliance has been achieved is a violation of State law punishable by a fine of not less than $500 or more than $5,000.**
- **Per HSC §§25187.8(i), HMCD has the right to require the submittal of reasonable and necessary documentation in support of any claim of compliance made by your facility.**

VIOLATIONS: Codes noted below in the "Violation Codes" column represent specific violations of State law and/or local Ordinance. These codes are defined in the attached Violation Codes document(s). Time granted for correction of violations does not preclude any enforcement action by this Department or other agencies.

This facility may be subject to reinspection at any time. Consent to Inspect Given By: Victor Mercado

Violation Codes	Summary of Violations, Notice to Comply, Observations, and Required Corrective Actions	Corrective Actions Taken
G01D	-Observed gloves in the garbage adjacent to the lead free wave machine. Observed Q-tips in the garbage that were used to wipe lead dust off the circuit boards.	
	-Observed a vacuum that is used to vacuum the Chip Shooter machine.	
	Corrective Action: -Determine if the Q-tips and gloves are contaminated with lead that classifies them as a hazardous waste. Discontinue placing these items in the garbage until a hazardous waste determination has been made. If Q-tips & gloves are hazardous waste; manage accordingly.	
	-Determine if the vacuumed material coming out of the Chip Shooter is a hazardous waste.	
	* This is a Class II violation	

All violations must be corrected within 30 days of the inspection date unless noted otherwise, above. Section 25404.1.2(c)(1) of California Health and Safety Code (HSC) requires that you write a brief description of the corrective actions you have taken to bring this facility into compliance and submit it to HMCD within 5 days of achieving compliance, or within 35 days of the inspection date, whichever comes first. ***(Note: Detailed instructions on actions you must take are printed on the reverse side of this page.)***

Signature of Owner/Operator: _____ Title: _____ Date: ___/___/___

FACILITY SENDS YELLOW COPY TO AGENCY, KEEPS PINK COPY.

THE OFFICIAL NOTICE OF INSPECTION EXPLAINED

This Official Notice of Inspection (NOI) describes the findings made during the inspection, including all violations and any actions that must be taken by the facility to correct the violations. All violations must be corrected within 30 days of the inspection date unless noted otherwise by the inspector.

Within five working days of achieving compliance, or within 35 days of the inspection, whichever comes first, you must submit a written response which describes the corrective actions you have taken or — for those violations which are impossible to correct within 30 days — propose to take in order to bring your facility into compliance. Where proposed corrective actions are described, you must specify a date by which you expect each violation to be corrected. After you have addressed each violation, complete the certification box located at the bottom of page 1 of the NOI. **Your description of corrective actions taken, along with your signed certification of the NOI and any required supporting documents, will serve as your written response to this Notice to Comply.** Your response must be mailed to Santa Clara County Hazardous Materials Compliance Division (HMCD) at 1555 Berger Drive, Suite 300, San Jose, CA 95112-2716. The effective date of the certification that any violation has been corrected is the date that it is postmarked.

What Does the Information in Each Column Mean?

Violation Code: Codes listed in this column identify specific violations of laws, regulations, or codes which were observed during this inspection. Definitions of Violation Codes are listed on the attached Violation Codes document(s).

Summary of Violations, Notice to Comply, Observations, and Required Corrective Actions: Information noted in this column describes the circumstances of any violations noted in the first column and describes how the violations may be corrected. Additionally, the inspector may use this space to note any additional observations resulting from the inspection.

Corrective Actions Taken: This column on the NOI has been provided so that you can note how you have corrected or propose to correct each violation. Where proposed corrective actions are described, you must specify a date by which you expect each violation to be corrected. If more space is needed, attach additional pages.

Why Were Two Copies of the Notice of Inspection Given to Me?

You have been given two copies so you will have a copy for your own records after you submit your written response to HMCD. **Do not separate the copies until you have described all of your corrective actions and signed the certification box on page 1. The yellow copy of each page must be returned to HMCD. The pink copy is for your records.**

What if I Disagree With a Violation Noted on the Notice of Inspection?

If you disagree with any violation listed in this NOI, you must submit a written Notice of Disagreement to HMCD within 30 days of the inspection date. Address such notices to the attention of the inspector who cited the violation. In your Notice of Disagreement, you must explain in detail why you believe the violation does not exist. If there is sufficient space, you may use the "Corrective Actions Taken" column of this NOI to dispute violations.

What About Photographs or Samples Taken During the Inspection?

If samples were taken, split samples will be given to you upon request. Since this NOI was prepared and given to you at the end of the inspection, any photographs and sampling or laboratory results associated with the inspection were not yet available. A copy of any photographs and/or analytical results from sampling taken during this inspection will be provided to you upon written request. Other pertinent information derived from the inspection is attached to this NOI. Photographs and sample results may be withheld in the event of a criminal investigation or other ongoing investigation.

****

- **Per HSC §§25187.8(b) and 25404.1.2(c), failure to sign the certification on this Notice to Comply and return it to HMCD is a violation of State law.**
- **Per HSC §25404.1.2(c)(2), a false statement that compliance has been achieved is a misdemeanor.**
- **Per HSC §25191(b), a false statement that hazardous waste compliance has been achieved is a violation of State law punishable by a fine of not less than $2,000 or more than $25,000 and/or imprisonment in the county jail for up to one year.**
- **Per HSC §§25299(a)(8) and (b)(7), a false statement that underground storage tank compliance has been achieved is a violation of State law punishable by a fine of not less than $500 or more than $5,000.**
- **Per HSC §§25187.8(i), HMCD has the right to require the submittal of reasonable and necessary documentation in support of any claim of compliance made by your facility.**

The undersigned hereby applies for a hazardous waste generator permit from the County of Santa Clara. I hereby certify that the submitted information is true, accurate, and complete. I understand that a new application will be required if this facility changes ownership, moves, or begins generating hazardous wastes which are not listed on this application.

Signature of Owner/Operator: Victor Mercado Title: FACILITIES SUPERVISOR Date: 10/26/2006

Definitions of Treatment/Disposal Methods

Recycled on-site: The facility takes the waste or any constituent of the waste, treated or not, and reuses it on-site or ships it off-site as an Excluded Recyclable Material.

Treated on-site: The facility employs any method, technique, or process which changes or is designed to change the physical, chemical, or biological character or composition of the hazardous waste or any material contained therein, or removes or reduces its harmful properties or characteristics for any purpose including, but not limited to, energy recovery, material recovery, or reduction in volume *(e.g. pH adjustment, evaporation, precipitation, filtration, distillation, compacting, etc.)*. If, after treatment, the material is reused at the facility, the "Recycled on-site" box in the waste inventory table should be checked.

Shipped off-site for recycling/treatment/disposal: The facility sends the waste, or any hazardous treatment residual, to an off-site permitted treatment, storage, or disposal facility (TSDF).

Note: Depending on how a waste or its constituents are recycled and/or treated, more than one treatment/disposal category may apply. All applicable boxes in column 2 of the waste inventory table should be checked.
Note to medical facilities: Do not list medical (i.e. red bag) wastes on this form.

THE OFFICIAL NOTICE OF INSPECTION EXPLAINED

This Official Notice of Inspection (NOI) describes the findings made during the inspection, including all violations and any actions that must be taken by the facility to correct the violations. All violations must be corrected within 30 days of the inspection date unless noted otherwise by the inspector.

Within five working days of achieving compliance, or within 35 days of the inspection, whichever comes first, you must submit a written response which describes the corrective actions you have taken or — for those violations which are impossible to correct within 30 days — propose to take in order to bring your facility into compliance. Where proposed corrective actions are described, you must specify a date by which you expect each violation to be corrected. After you have addressed each violation, complete the certification box located at the bottom of page 1 of the NOI. **Your description of corrective actions taken, along with your signed certification of the NOI and any required supporting documents, will serve as your written response to this Notice to Comply.** Your response must be mailed to Santa Clara County Hazardous Materials Compliance Division (HMCD) at 1555 Berger Drive, Suite 300, San Jose, CA 95112-2716. The effective date of the certification that any violation has been corrected is the date that it is postmarked.

What Does the Information in Each Column Mean?

Violation Code: Codes listed in this column identify specific violations of laws, regulations, or codes which were observed during this inspection. Definitions of Violation Codes are listed on the attached Violation Codes document(s).

Summary of Violations, Notice to Comply, Observations, and Required Corrective Actions: Information noted in this column describes the circumstances of any violations noted in the first column and describes how the violations may be corrected. Additionally, the inspector may use this space to note any additional observations resulting from the inspection.

Corrective Actions Taken: This column on the NOI has been provided so that you can note how you have corrected or propose to correct each violation. Where proposed corrective actions are described, you must specify a date by which you expect each violation to be corrected. If more space is needed, attach additional pages.

Why Were Two Copies of the Notice of Inspection Given to Me?

You have been given two copies so you will have a copy for your own records after you submit your written response to HMCD. **Do not separate the copies until you have described all of your corrective actions and signed the certification box on page 1. The yellow copy of each page must be returned to HMCD. The pink copy is for your records.**

What if I Disagree With a Violation Noted on the Notice of Inspection?

If you disagree with any violation listed in this NOI, you must submit a written Notice of Disagreement to HMCD within 30 days of the inspection date. Address such notices to the attention of the inspector who cited the violation. In your Notice of Disagreement, you must explain in detail why you believe the violation does not exist. If there is sufficient space, you may use the "Corrective Actions Taken" column of this NOI to dispute violations.

What About Photographs or Samples Taken During the Inspection?

If samples were taken, split samples will be given to you upon request. Since this NOI was prepared and given to you at the end of the inspection, any photographs and sampling or laboratory results associated with the inspection were not yet available. A copy of any photographs and/or analytical results from sampling taken during this inspection will be provided to you upon written request. Other pertinent information derived from the inspection is attached to this NOI. Photographs and sample results may be withheld in the event of a criminal investigation or other ongoing investigation.

Facility Name:	Dynamic Details Inc	Inspection Date:	12/10/03
Site Address:	2150 Commerce Dr. San Jose 95131	Employee No.:	4681
Contact Person(s):	Tuan Luu (408) 847-6620	Samples Taken? ☐ Yes; ☒ No. Photographs Taken? ☐ Yes; ☒ No.	
Inspection Type:	☐ Hazardous Materials ☑ Hazardous Waste ☐ Tiered Permit ☐ Toxic Gas ☐ Cal-Accidental Release Prevention Program ☐ Other	Hazardous Waste Generator Type: ☐ < 1,000 Kg./mo. ☐ ≥ 1,000 Kg./mo. ☐ CESQG ☐ Satellite Only	

VIOLATIONS: Codes noted below in the "Violation Code" column represent specific violations of State law and/or local Ordinance. These codes are defined in the attached Violation Codes document(s). Time granted for correction of violations does not preclude any enforcement action by this Department or other agencies. This facility may be subject to reinspection at any time.

Violation Codes	Summary of Violations, Notice to Comply, Observations, and Required Corrective Actions	Corrective Actions Taken
2223	No response to the previous inspection dated July 24, 2003, was submitted to the Department with the explanation of the Corrective actions taken. A written response to the previous inspection dated July 24, 2003 must be submitted to the Department within 30 days of inspection date.	

All violations must be corrected within 30 days of the inspection date unless noted otherwise, above. Section 25187.8 of the State Health and Safety Code (H&SC) requires that you write a brief description of the corrective actions you have taken to bring this facility into compliance and submit it to this Department within 5 days of achieving compliance, or within 35 days of the inspection date, whichever comes first. ***(Note: Detailed instructions on actions you must take are printed on the reverse side of this page.)***

Certification: I certify under penalty of perjury that this facility has complied with directives specified in this Notice to Comply.

Signature of Owner/Operator: _____ Title: _____ Date: ___/___/___

FACILITY SENDS YELLOW COPY TO AGENCY, KEEPS PINK COPY.

THE OFFICIAL NOTICE OF INSPECTION EXPLAINED

This Official Notice of Inspection (Notice of Inspection) describes the findings made during the inspection, including all violations and any actions that must be taken by the facility to correct the violations. All violations must be corrected within 30 days of the inspection date unless noted otherwise by the inspector.

Within five working days of achieving compliance, or within 35 days of the inspection, whichever comes first, you must submit a written response which describes the corrective actions you have taken or - for those violations which are impossible to correct within 30 days - propose to take in order to bring your facility into compliance. Where proposed corrective actions are described, you must specify a date by which you expect each violation to be corrected. After you have addressed each violation, complete the certification box located at the bottom of page 1 of the Notice of Inspection. Your description of corrective actions taken, along with your signed certification of the Notice of Inspection and any required supporting documents, will serve as your written response to the inspection. Your response must be mailed to the Santa Clara County Hazardous Materials Compliance Division (HMCD) at 1555 Berger Drive, Suite 300, San Jose, CA 95112-2716.

What Does the Information in Each Column Mean?

Violation Code: Codes listed in this column identify specific violations of laws, regulations, or codes which were observed during this inspection. Definitions of Violation Codes are listed on the attached Violation Codes document(s).

Summary of Violations, Notice to Comply, Observations, and Required Corrective Actions: Information noted in this column describes the circumstances of any violations noted in the first column and describes how the violations may be corrected. Additionally, the inspector may use this space to note any additional observations resulting from the inspection.

Corrective Actions Taken: This column on the Notice of Inspection has been provided so that you can note how you have corrected or propose to correct each violation. Where proposed corrective actions are described, you must specify a date by which you expect each violation to be corrected. If more space is needed, attach additional pages.

Why Were Two Copies of the Notice of Inspection Given to Me?

You have been given two copies so you will have a copy for your own records after you submit your written response to HMCD. Do not separate the copies until you have described all of your corrective actions and signed the certification box on page 1. The yellow copy of each page must be submitted to HMCD. The pink copy is for your records.

What if I Disagree With a Violation Noted on the Notice of Inspection?

If you disagree with any violation listed in this Notice of Inspection, you must submit a written Notice of Disagreement, within 35 days of the inspection date, to the inspector who cited the violation. In your Notice of Disagreement, you must explain in detail why the violation does not exist. If there is sufficient space, you may use the "Corrective Actions Taken" column of this Notice of Inspection to dispute violations.

What About Photographs or Samples Taken During the Inspection?

Since this Notice of Inspection was prepared and given to you at the end of the inspection, any photographs and sampling or laboratory results associated with the inspection were not yet available. A copy of any photographs and/or analytical results from sampling taken during this inspection will be provided to you upon written request. Other pertinent information derived from the inspection is attached to this Notice of Inspection. Photographs and sample results may be withheld in the event of a criminal investigation or other ongoing investigation.

****

Hazardous Waste Violations

- **Per H&SC §25187.8(g)(1), failure to sign the certification on this Notice of Inspection and return it to this Department is a violation of State law.**
- **Per H&SC §25191, a false statement that compliance has been achieved is a violation of State law punishable by a fine of not less than $2,000 or more than $25,000 and/or imprisonment in the county jail for up to one year.**
- **Per H&SC §25187.8(j), this Department has the right to acquire the submittal of reasonable and necessary documentation in support of any claim of compliance made by your facility.**

Dynamic Details L.P.
"The global time to market solution"

Company: Dynamic Details Inc.,

EPA ID: CAL000239908

From: James LIOW, Director of Engineering

Date: DEC 11, 2003

RE: County Inspection – July 24, 2003

Dear Sir,

With regards to the violations pointed to Mike Coleman during the July 24, 2003 visit, please accept the corrective actions taken as below (quoted by violation code):

2201: Water test result obtained showed that content of lead, metal and Ni are low enough to be considered non-hazardous.

2206: Containers for hazardous material storage have been labeled with content (solder dross, solder wipes, PCB, etc.), as pointed to the county officer today. Also, accumulation start date has been stated to ensure it is not kept for more than 90 days.

2210: Weekly inspection has been instituted using the recommended form UN-023 since August 01, 2003.

2219: EPA ID on manifest has been corrected recently and a copy has been mailed to DTSC for record.

2212: Oil had been made separated from water through a separator and would not be drained to reservoir.

2255: Marino Finley is back from sick leave and there is not a need for change of emergency response coordinates.

Let me know if you need further details.

Yours truly,

(James LIOW)

THE OF CIAL NOTICE OF INSPECTION PLAINED

This Official Notice of Inspection (Notice of Inspection) describes the findings made during the inspection, including all violations and any actions that must be taken by the facility to correct the violations. All violations must be corrected within 30 days of the inspection date unless noted otherwise by the inspector.

Within five working days of achieving compliance, or within 35 days of the inspection, whichever comes first, you must submit a written response which describes the corrective actions you have taken or - for those violations which are impossible to correct within 30 days - propose to take in order to bring your facility into compliance. Where proposed corrective actions are described, you must specify a date by which you expect each violation to be corrected. After you have addressed each violation, complete the certification box located at the bottom of page 1 of the Notice of Inspection. Your description of corrective actions taken, along with your signed certification of the Notice of Inspection and any required supporting documents, will serve as your written response to the inspection. Your response must be mailed to the Santa Clara County Hazardous Materials Compliance Division (HMCD) at 1555 Berger Drive, Suite 300, San Jose, CA 95112-2716.

What Does the Information in Each Column Mean?

Violation Code: Codes listed in this column identify specific violations of laws, regulations, or codes which were observed during this inspection. Definitions of Violation Codes are listed on the attached Violation Codes document(s).

Summary of Violations, Notice to Comply, Observations, and Required Corrective Actions: Information noted in this column describes the circumstances of any violations noted in the first column and describes how the violations may be corrected. Additionally, the inspector may use this space to note any additional observations resulting from the inspection.

Corrective Actions Taken: This column on the Notice of Inspection has been provided so that you can note how you have corrected or propose to correct each violation. Where proposed corrective actions are described, you must specify a date by which you expect each violation to be corrected. If more space is needed, attach additional pages.

Why Were Two Copies of the Notice of Inspection Given to Me?

You have been given two copies so you will have a copy for your own records after you submit your written response to HMCD. Do not separate the copies until you have described all of your corrective actions and signed the certification box on page 1. The yellow copy of each page must be submitted to HMCD. The pink copy is for your records.

What if I Disagree With a Violation Noted on the Notice of Inspection?

If you disagree with any violation listed in this Notice of Inspection, you must submit a written Notice of Disagreement, within 35 days of the inspection date, to the inspector who cited the violation. In your Notice of Disagreement, you must explain in detail why the violation does not exist. If there is sufficient space, you may use the "Corrective Actions Taken" column of this Notice of Inspection to dispute violations.

What About Photographs or Samples Taken During the Inspection?

Since this Notice of Inspection was prepared and given to you at the end of the inspection, any photographs and sampling or laboratory results associated with the inspection were not yet available. A copy of any photographs and/or analytical results from sampling taken during this inspection will be provided to you upon written request. Other pertinent information derived from the inspection is attached to this Notice of Inspection. Photographs and sample results may be withheld in the event of a criminal investigation or other ongoing investigation.

****

Hazardous Waste Violations

- **Per H&SC §25187.8(g)(1), failure to sign the certification on this Notice of Inspection and return it to this Department is a violation of State law.**
- **Per H&SC §25191, a false statement that compliance has been achieved is a violation of State law punishable by a fine of not less than $2,000 or more than $25,000 and/or imprisonment in the county jail for up to one year.**
- **Per H&SC §25187.8(j), this Department has the right to acquire the submittal of reasonable and necessary documentation in support of any claim of compliance made by your facility.**

Contact Person(s):	Michael Coleman	Samples Taken? ☐ Yes; ☒ No. Photographs Taken? ☐ Yes; ☒ No.	
Inspection Type:	☐ Hazardous Materials ☒ Hazardous Waste ☐ Tiered Permit ☐ Toxic Gas ☐ Cal-Accidental Release Prevention Program ☐ Other	Hazardous Waste Generator Type: ☐ < 1,000 Kg./mo. ☒ ≥ 1,000 Kg./mo. ☐ CESQG ☐ Satellite Only	

VIOLATIONS: Codes noted below in the "Violation Code" column represent specific violations of State law and/or local Ordinance. These codes are defined in the attached Violation Codes document(s). Time granted for correction of violations does not preclude any enforcement action by this Department or other agencies. This facility may be subject to reinspection at any time.

Violation Codes	Summary of Violations, Notice to Comply, Observations, and Required Corrective Actions	Corrective Actions Taken
2201	Business generates waste water from the Aqueous cleaning operation (PC Board cleaning). Business failed to determine if waste water is hazardous waste. Waste water being recycled on-site by filtration. Make a hazardous waste determination of the waste water before treatment/recycling and analyze for TOXIC metals and fish Bio-Assay. Sampling must be witness by this Department.	
2206	Observed 3 yellow metal containers accumulating waste solids, contaminated with lead unlabeled. Label containers as Hazardous waste to include all information required in Title 22.	

All violations must be corrected within 30 days of the inspection date unless noted otherwise, above. Section 25187.8 of the State Health and Safety Code (H&SC) requires that you write a brief description of the corrective actions you have taken to bring this facility into compliance and submit it to this Department within 5 days of achieving compliance, or within 35 days of the inspection date, whichever comes first. ***(Note: Detailed instructions on actions you must take are printed on the reverse side of this page.)***

FACILITY SENDS YELLOW COPY TO AGENCY, KEEPS PINK COPY.

THE OF IAL NOTICE OF INSPECTION E LAINED

This Official Notice of Inspection (Notice of Inspection) describes the findings made during the inspection, including all violations and any actions that must be taken by the facility to correct the violations. All violations must be corrected within 30 days of the inspection date unless noted otherwise by the inspector.

Within five working days of achieving compliance, or within 35 days of the inspection, whichever comes first, you must submit a written response which describes the corrective actions you have taken or - for those violations which are impossible to correct within 30 days - propose to take in order to bring your facility into compliance. Where proposed corrective actions are described, you must specify a date by which you expect each violation to be corrected. After you have addressed each violation, complete the certification box located at the bottom of page 1 of the Notice of Inspection. Your description of corrective actions taken, along with your signed certification of the Notice of Inspection and any required supporting documents, will serve as your written response to the inspection. Your response must be mailed to the Santa Clara County Hazardous Materials Compliance Division (HMCD) at 1555 Berger Drive, Suite 300, San Jose, CA 95112-2716.

What Does the Information in Each Column Mean?

Violation Code: Codes listed in this column identify specific violations of laws, regulations, or codes which were observed during this inspection. Definitions of Violation Codes are listed on the attached Violation Codes document(s).

Summary of Violations, Notice to Comply, Observations, and Required Corrective Actions: Information noted in this column describes the circumstances of any violations noted in the first column and describes how the violations may be corrected. Additionally, the inspector may use this space to note any additional observations resulting from the inspection.

Corrective Actions Taken: This column on the Notice of Inspection has been provided so that you can note how you have corrected or propose to correct each violation. Where proposed corrective actions are described, you must specify a date by which you expect each violation to be corrected. If more space is needed, attach additional pages.

Why Were Two Copies of the Notice of Inspection Given to Me?

You have been given two copies so you will have a copy for your own records after you submit your written response to HMCD. Do not separate the copies until you have described all of your corrective actions and signed the certification box on page 1. The yellow copy of each page must be submitted to HMCD. The pink copy is for your records.

What if I Disagree With a Violation Noted on the Notice of Inspection?

If you disagree with any violation listed in this Notice of Inspection, you must submit a written Notice of Disagreement, within 35 days of the inspection date, to the inspector who cited the violation. In your Notice of Disagreement, you must explain in detail why the violation does not exist. If there is sufficient space, you may use the "Corrective Actions Taken" column of this Notice of Inspection to dispute violations.

What About Photographs or Samples Taken During the Inspection?

Since this Notice of Inspection was prepared and given to you at the end of the inspection, any photographs and sampling or laboratory results associated with the inspection were not yet available. A copy of any photographs and/or analytical results from sampling taken during this inspection will be provided to you upon written request. Other pertinent information derived from the inspection is attached to this Notice of Inspection. Photographs and sample results may be withheld in the event of a criminal investigation or other ongoing investigation.

****

Hazardous Waste Violations

- **Per H&SC §25187.8(g)(1), failure to sign the certification on this Notice of Inspection and return it to this Department is a violation of State law.**
- **Per H&SC §25191, a false statement that compliance has been achieved is a violation of State law punishable by a fine of not less than $2,000 or more than $25,000 and/or imprisonment in the county jail for up to one year.**
- **Per H&SC §25187.8(j), this Department has the right to acquire the submittal of reasonable and necessary documentation in support of any claim of compliance made by your facility.**

	☐ Recycled on-site. ☐ Treated on-site. ☐ Shipped off-site for recycling/treatment/disposal.	☐ gal. ☐ lbs.

* *Solids must be reported in pounds. Liquids may be reported in either pounds or gallons.*

The undersigned hereby applies for a hazardous waste generator permit from the County of Santa Clara. I hereby certify that the submitted information is true, accurate, and complete. I understand that a new application will be required if this facility changes ownership, moves, or begins generating hazardous wastes which are not listed on this application.

Signature of Owner/Operator: _____ Title: Vice President Date: 7/24/03

Definitions of Treatment/Disposal Methods

Recycled on-site: The facility takes the waste or any constituent of the waste, treated or not, and reuses it on-site or ships it off-site as an Excluded Recyclable Material.

Treated on-site: The facility employs any method, technique, or process which changes or is designed to change the physical, chemical, or biological character or composition of the hazardous waste or any material contained therein, or removes or reduces its harmful properties or characteristics for any purpose including, but not limited to, energy recovery, material recovery, or reduction in volume *(e.g. pH adjustment, evaporation, precipitation, filtration, distillation, compacting, etc.)*. If, after treatment, the material is reused at the facility, the "Recycled on-site" box in the waste inventory table should be checked.

Shipped off-site for recycling/treatment/disposal: The facility sends the waste, or any hazardous treatment residual, to an off-site permitted treatment, storage, or disposal facility (TSDF).

Note: Depending on how a waste or its constituents are recycled and/or treated, more than one treatment/disposal category may apply. All applicable boxes in column 2 of the waste inventory table should be checked.
Note to medical facilities: Do not list medical (i.e. red bag) wastes on this form.

FACILITY SENDS YELLOW COPY TO AGENCY, KEEPS PINK COPY.

THE OFF. AL NOTICE OF INSPECTION EX AINED

This Official Notice of Inspection (Notice of Inspection) describes the findings made during the inspection, including all violations and any actions that must be taken by the facility to correct the violations. All violations must be corrected within 30 days of the inspection date unless noted otherwise by the inspector.

Within five working days of achieving compliance, or within 35 days of the inspection, whichever comes first, you must submit a written response which describes the corrective actions you have taken or - for those violations which are impossible to correct within 30 days - propose to take in order to bring your facility into compliance. Where proposed corrective actions are described, you must specify a date by which you expect each violation to be corrected. After you have addressed each violation, complete the certification box located at the bottom of page 1 of the Notice of Inspection. Your description of corrective actions taken, along with your signed certification of the Notice of Inspection and any required supporting documents, will serve as your written response to the inspection. Your response must be mailed to the Santa Clara County Hazardous Materials Compliance Division (HMCD) at P.O. Box 28070, San Jose, CA 95159-8070.

What Does the Information in Each Column Mean?

Violation Code: Codes listed in this column identify specific violations of laws, regulations, or codes which were observed during this inspection. Definitions of Violation Codes are listed on the attached Violation Codes document(s).

Summary of Violations, Notice to Comply, Observations, and Required Corrective Actions: Information noted in this column describes the circumstances of any violations noted in the first column and describes how the violations may be corrected. Additionally, the inspector may use this space to note any additional observations resulting from the inspection.

Corrective Actions Taken: This column on the Notice of Inspection has been provided so that you can note how you have corrected or propose to correct each violation. Where proposed corrective actions are described, you must specify a date by which you expect each violation to be corrected. If more space is needed, attach additional pages.

Why Were Two Copies of the Notice of Inspection Given to Me?

You have been given two copies so you will have a copy for your own records after you submit your written response to HMCD. Do not separate the copies until you have described all of your corrective actions and signed the certification box on page 1. The yellow copy of each page must be submitted to HMCD. The pink copy is for your records.

What if I Disagree With a Violation Noted on the Notice of Inspection?

If you disagree with any violation listed in this Notice of Inspection, you must submit a written Notice of Disagreement, within 35 days of the inspection date, to the inspector who cited the violation. In your Notice of Disagreement, you must explain in detail why the violation does not exist. If there is sufficient space, you may use the "Corrective Actions Taken" column of this Notice of Inspection to dispute violations.

What About Photographs or Samples Taken During the Inspection?

Since this Notice of Inspection was prepared and given to you at the end of the inspection, any photographs and sampling or laboratory results associated with the inspection were not yet available. A copy of any photographs and/or analytical results from sampling taken during this inspection will be provided to you upon written request. Other pertinent information derived from the inspection is attached to this Notice of Inspection. Photographs and sample results may be withheld in the event of a criminal investigation or other ongoing investigation.

	☐ Recycled on-site. ☐ Treated on-site. ☐ Shipped off-site for recycling/treatment/disposal.	☐ gal. ☐ lbs.

* *Solids must be reported in pounds. Liquids may be reported in either pounds or gallons.*

The undersigned hereby applies for a hazardous waste generator permit from the County of Santa Clara. I hereby certify that the submitted information is true, accurate, and complete. I understand that a new application will be required if this facility changes ownership, moves, or begins generating hazardous wastes which are not listed on this application.

Signature of Owner/Operator: Edward A Johnson Title: President Date: 11/6/01

Definitions of Treatment/Disposal Methods

Recycled on-site: The facility takes the waste or any constituent of the waste, treated or not, and reuses it on-site or ships it off-site as an Excluded Recyclable Material.

Treated on-site: The facility employs any method, technique, or process which changes or is designed to change the physical, chemical, or biological character or composition of the hazardous waste or any material contained therein, or removes or reduces its harmful properties or characteristics for any purpose including, but not limited to, energy recovery, material recovery, or reduction in volume *(e.g. pH adjustment, evaporation, precipitation, filtration, distillation, compacting, etc.)*. If, after treatment, the material is reused at the facility, the "Recycled on-site" box in the waste inventory table should be checked.

Shipped off-site for recycling/treatment/disposal: The facility sends the waste, or any hazardous treatment residual, to an off-site permitted treatment, storage, or disposal facility (TSDF).

Note: Depending on how a waste or its constituents are recycled and/or treated, more than one treatment/disposal category may apply. All applicable boxes in column 2 of the waste inventory table should be checked.
Note to medical facilities: Do not list medical (i.e. red bag) wastes on this form.

OFFICIAL NOTICE OF INSPECTION

Facility Name:	DYNAMIC DETAILS	Inspection Date:	NOV. 13, 2001
Site Address:	2150 Commerce Dr. San Jose, CA	Work Area:	
Contact Person(s):	Marino Finley / Env. Manager	Employee No.:	4677
Inspection Type:	☐ Hazardous Materials ☑ Hazardous Waste ☐ Toxic Gas ☐ Cal-Accidental Release Prevention Program ☐ Medical Waste Storage/Treatment ☐ Medical Waste Generator	Samples Taken? / Photographs Taken?	☐ Yes; ☑ No. / ☐ Yes; ☑ No.

VIOLATIONS: Codes noted below in the "Violation Code" column represent specific violations of State law and/or local Ordinance. These codes are defined in the attached Violation Codes document(s). Time granted for correction of violations does not preclude any enforcement action by this Department or other agencies. This facility may be subject to reinspection at any time.

Violation Codes	Summary of Violations, Notice to Comply, Observations, and Required Corrective Actions	Corrective Actions Taken
2206	Observed Yellow containers accumulating Waste Solder Paste solids in the Manufacturing Area without Hazardous Waste labels. Label all containers holding Waste Solder Paste Solids to include all information required in Title 22.	
	- One 55 gallon drum of Waste Solder Paste Solids stored in the Shipping Area without hazardous waste label.	
2210	Implement a weekly inspection of the Waste storage Area to include all satellite accumulation areas.	

All violations must be corrected within 30 days of the inspection date unless noted otherwise, above. Section 25187.8 of the State Health and Safety Code (H&SC) requires that you write a brief description of the corrective actions you have taken to bring this facility into compliance and submit it to this Department within 5 days of achieving compliance, or within 35 days of the inspection date, whichever comes first. *(Note: Detailed instructions on actions you must take are printed on the reverse side of this page.)*

Received by: _____ Inspected by: _____ Entered by: _____

Certification: I certify under penalty of perjury that this facility has complied with directives specified in this Notice to Comply.

Signature of Owner/Operator: _____ Title: _____ Date: ___/___/___

FACILITY SENDS YELLOW COPY TO AGENCY, KEEPS PINK COPY.

THE [redacted]CIAL NOTICE OF INSPECTION [redacted]PLAINED

This Official Notice of Inspection (Notice of Inspection) describes the findings made during the inspection, including all violations and any actions that must be taken by the facility to correct the violations. All violations must be corrected within 30 days of the inspection date unless noted otherwise by the inspector.

Within five working days of achieving compliance, or within 35 days of the inspection, whichever comes first, you must submit a written response which describes the corrective actions you have taken or - for those violations which are impossible to correct within 30 days - propose to take in order to bring your facility into compliance. Where proposed corrective actions are described, you must specify a date by which you expect each violation to be corrected. After you have addressed each violation, complete the certification box located at the bottom of page 1 of the Notice of Inspection. Your description of corrective actions taken, along with your signed certification of the Notice of Inspection and any required supporting documents, will serve as your written response to the inspection. Your response must be mailed to the Santa Clara County Hazardous Materials Compliance Division (HMCD) at P.O. Box 28070, San Jose, CA 95159-8070.

What Does the Information in Each Column Mean?

Violation Code: Codes listed in this column identify specific violations of laws, regulations, or codes which were observed during this inspection. Definitions of Violation Codes are listed on the attached Violation Codes document(s).

Summary of Violations, Notice to Comply, Observations, and Required Corrective Actions: Information noted in this column describes the circumstances of any violations noted in the first column and describes how the violations may be corrected. Additionally, the inspector may use this space to note any additional observations resulting from the inspection.

Corrective Actions Taken: This column on the Notice of Inspection has been provided so that you can note how you have corrected or propose to correct each violation. Where proposed corrective actions are described, you must specify a date by which you expect each violation to be corrected. If more space is needed, attach additional pages.

Why Were Two Copies of the Notice of Inspection Given to Me?

You have been given two copies so you will have a copy for your own records after you submit your written response to HMCD. Do not separate the copies until you have described all of your corrective actions and signed the certification box on page 1. The yellow copy of each page must be submitted to HMCD. The pink copy is for your records.

What if I Disagree With a Violation Noted on the Notice of Inspection?

If you disagree with any violation listed in this Notice of Inspection, you must submit a written Notice of Disagreement, within 35 days of the inspection date, to the inspector who cited the violation. In your Notice of Disagreement, you must explain in detail why the violation does not exist. If there is sufficient space, you may use the "Corrective Actions Taken" column of this Notice of Inspection to dispute violations.

What About Photographs or Samples Taken During the Inspection?

Since this Notice of Inspection was prepared and given to you at the end of the inspection, any photographs and sampling or laboratory results associated with the inspection were not yet available. A copy of any photographs and/or analytical results from sampling taken during this inspection will be provided to you upon written request. Other pertinent information derived from the inspection is attached to this Notice of Inspection. Photographs and sample results may be withheld in the event of a criminal investigation or other ongoing investigation.

****

Hazardous Waste Violations

- **Per H&SC, Section 25187.8(g)(1), failure to sign the certification on this Notice of Inspection and return it to this Department is a violation of State law.**
- **Per H&SC, Section 25191, a false statement that compliance has been achieved is a violation of State law punishable by a fine of not less than $2,000 or more than $25,000 and/or imprisonment in the county jail for up to one year.**
- **Per H&SC, Section 25187.8(j), this Department has the right to acquire the submittal of reasonable and necessary documentation in support of any claim of compliance made by your facility.**

Re: BD Biosciences 2350 Qume Dr. Inspection Conducted March 7, 2017 and March 21, 2017

Please find enclosed the following corrective actions to the above referenced inspections:

1. Finding "Secondary Containment: Fixed Storage"
    a. The fuel tank in the fire pump house is scheduled to be replaced by September 2017. In the interim a spill blocker dike will be installed at the entrance of the fire pump house to mitigate the missing concrete barrier.
2. Finding "SPCC Plan Content: Annual Briefings"
    a. Attached is the training record for the SPCC plan conducted March 13, 2017.
3. Finding "Inspections & Testing: Recordkeeping: General"
    a. As noted in an email dated March 14, 2017 the Facilities associate that managed inspections and records for the SPCC plan left the company January 2017 and the Facilities group recently identified a resource had not been reassigned this responsibility. Since the March 7, 2017 inspection Facilities has assigned a resource to the SPCC plan who understands the inspection and record keeping requirements.
    b. Please find attached the following records
        i. Monthly SPCC inspection checklist dated March 31, 2016
        ii. Annual generator service report for March 31, 2017
        iii. Quarterly generator service report for December 22, 2016
        iv. Quarterly generator service report for June 10, 2016
        v. Annual generator service report for March 1, 2016

MONTHLY INSPECTION CHECKLIST

General Inspection Information:

Inspection Date	3/31/17	Retain Until Date *(36 months from inspection date)*	3/31/20
Prior Inspection Date		Inspector Name	Marco Torres
Equipment Inspected	Stand by Generator, Fire pump		

Inspection Guidance:

- The monthly inspection is intended for monitoring the external condition of the equipment and its containment structure. This visual inspection does not require a certified inspector. It shall be performed by an owner's inspector who is familiar with the site and can identify changes and developing problems.
- Upon discovery of water in the primary tank, secondary containment area, interstice, or spill container, remove promptly or take other corrective action. Before discharge to the environment, inspect the liquid for regulated products or other contaminants and disposed of it properly.
- Non-conforming items important to tank or containment integrity require evaluation by an engineer experienced in AST design, a certified inspector, or a tank manufacturer who will determine the corrective action. Note the non-conformance and corresponding corrective action in the comment section.
- In the event of severe weather (snow, ice, wind storms) or maintenance (such as painting) that could affect the operation of critical components (normal and emergency vents, valves), an inspection of these components is required immediately following the event.

Item	Status		Comments
Storage tanks			
Tank surfaces show signs of leakage	Yes	(No)	
Tank (both primary and secondary) in good condition?	(Yes)	No	
Tank is damaged, rusted or deteriorated	Yes	(No)	
Bolts, rivets, or seams are damaged	Yes	(No)	
Tank supports are deteriorated or buckled	Yes	(No)	
Tank foundations have eroded or settled	Yes	(No)	
Level gauges or alarms are inoperative	Yes	(No)	

Attachment 3.1 – Inspection Log and Schedule

Item	Status		Comments
Vents are obstructed	Yes	No	
Secondary containment is damaged or stained	Yes	No	
Water/product in interstice of double-walled tank	Yes	No	
Piping			
Valve seals, gaskets, or other appurtenances are leaking	Yes	No	
Pipelines or supports are damaged or deteriorated	Yes	No	
Joints, valves and other appurtenances are leaking	Yes	No	
Leak Detection			
Visible signs of leakage around the tank, concrete pad, containment, ringwall or ground?	Yes	No	
Oil-Filled Electrical Equipment			
Equipment surfaces checked for signs of deterioration or leakage?	Yes	No	
Ground or foundation surfaces checked for signs of leakage?	Yes	No	
Equipment is in good condition?	Yes	No	
Security			
Fencing, gates, or lighting is non-functional	Yes	No	
Pumps and valves are locked if not in use	Yes	No	no pumps in Valve
Response Equipment			
Response equipment inventory is complete	Yes	No	
Other Conditions			
Are there other conditions that should be addressed for continued safe operation or that may affect the site SPCC plan?	Yes	No

Repair Process Comments	PERFORMED A COMPLETE QUARTERLY INSPECTION OF THE UNIT. CHECKED THE ENGINE OIL, COOLANT AND BATTERY LEVELS. CHECKED THE OIL AND THE FUEL PRESSURE. CHECKED THAT ALL SWITCHES WERE IN PROPER POSITION FOR AUTOMATIC START. INSPECTED THE UNIT FOR CLEANLINESS AND WIPED IT DOWN AS NEEDED. TEST RAN THE UNIT TO ENSURE PROPER OPERATION AND TO CHECK FOR ANY LEAKS. THE UNIT TESTED NORMAL AND NO LEAKS WERE FOUND. PLEASE SEE THE TECHNICAL ANALYSIS SECTION OF THE REPORT FOR A DETAILED CHECK LIST.

Re: BD Biosciences 2350 Qume Dr. Inspection Conducted June 5, 2015

Please review the corrective actions summarized below to the inspection findings from your visit June 5, 2015:

1. Records: Universal waste.
    a. Corrective Action: The site Facilities Department shall forward all e-waste shipping documentation and recycler summary reports to the EH&S Department.
2. Notification: Handler of Universal Waste
    a. Corrective Action: According to 40 CFR Part 273, Subpart C a site accumulating more than 5,000kg of universal waste which already has an EPA ID number does not need to submit EPA Form 8700-12. See attached EPA Form 8700-12 submitted by the site in 1989 and acknowledgement notification.
3. HMBP Inventory Information Missing / Incomplete
    a. Corrective Action: Site inventory has been updated in CERS July 8, 2015.
4. HMBP Site Map Missing / Incomplete
    a. Corrective Action: Site maps have been updated in CERS July 8, 2015.

Please contact me if you need any additional information to close out the inspection findings.

Thank you,

Dina Craw

EPA

ACKNOWLEDGEMENT OF NOTIFICATION OF HAZARDOUS WASTE ACTIVITY

This is to acknowledge that you have filed a Notification of Hazardous Waste Activity for the installation located at the address shown in the box below to comply with Section 3010 of the Resource Conservation and Recovery Act *(RCRA)*. Your EPA Identification Number for that installation appears in the box below. The EPA Identification Number must be included on all shipping manifests for transporting hazardous wastes; on all Annual Reports that generators of hazardous waste, and owners and operators of hazardous waste treatment, storage and disposal facilities must file with EPA; on all applications for a Federal Hazardous Waste Permit; and other hazardous waste management reports and documents required under Subtitle C of RCRA.

Summary of Violations & Notice to Comply

Program: PR0313235 - HAZARDOUS WASTE GENERATOR - 2205
Inspection Type: ROUTINE INSPECTION

VC	Class	Violation	Corrective Actions Taken
G010	II	**HAZARDOUS WASTE DETERMINATION [3030005]** Facility failed to determine whether a waste is a hazardous waste. ***Observed 1 x ultrasonic cleaner in old instrument manufacturing area that was labeled IPA/water. Ultrasonic cleaner is plumbed with a release tube leading into neighboring sink. Make a hazardous waste determination on any spent IPA/water solution, and if found to be hazardous, begin managing it as a hazardous waste.*** ***Observed 1 x tray of chemical containers ranging in size from approximately 1 pint to 4 liters in the hallway outside of room C1L-016. Make a hazardous waste determination on these chemical containers, and if found to be hazardous, begin managing them as a hazardous waste.*** ***Observed hand solder stations utilizing lead-containing solder in the tech lab, instrument manufacturing area, and the old instrument manufacturing area. It could not be determined how solder scrap or spent sponges were being managed. Make a hazardous waste determination on solder scrap and spent sponges, and if found to be hazardous, begin managing them as a hazardous waste. Alternatively, note that solder scrap could qualify as a scrap metal, and therefore be disposed of through a metal recycler (versus being managed as a hazardous waste).*** Determine whether the waste is hazardous using generator knowledge, or by having the waste analyzed by a state-certified environmental laboratory. Submit the results of your determination, including any laboratory reports, to HMCD. A list of state-certified laboratories is available at www.waterboards.ca.gov/drinking_water/certlic/labs/documents/elap_certified_hazardous_waste_labs.pdf . Cease any disposal of the waste as non-hazardous waste until the determination is complete. Keep all hazardous waste determination documents for at least 3 years from the date the waste was last shipped. [CCR 66262.11]	

OFFICIAL NOTICE OF INSPECTION

Facility ID: FA0207933
Facility Name: BD BIOSCIENCES
Site Address: 2350 QUME DR, SAN JOSE, CA 95131
Inspection Date: 09/27/2018

Summary of Violations & Notice to Comply

VC	Class	Violation	Corrective Actions Taken
G020	M	**MARKING OF HAZARDOUS WASTE [3030007]** Facility failed to properly mark a hazardous waste tank and/or container. ***Observed 1 x 30 gallon drum and 1 x 5 gallon container of used oil as well as 1 x bag of oil-contaminated debris in the chlorine tablet storage area without the required hazardous waste markings.*** ***Observed 1 x approximately 1 gallon red container in fume hood in buffer prep laboratory without the required hazardous waste markings. In this same fume hood, observed 1 x approximately 1 pint container with a hazardous waste label stating "hexane" with no accumulation start date.*** ***Observed multiple chemical storage trays in hazardous waste storage shed without the required hazardous waste markings.*** Mark all hazardous waste tanks with the words "HAZARDOUS WASTE" and the accumulation start date. Mark all hazardous waste containers and portable tanks with the words "HAZARDOUS WASTE;" the accumulation start date; the name and address of the generator; and the composition, physical state, and hazardous properties of the waste. Additionally, mark used oil containers, aboveground tanks, and fill pipes for underground tanks with the words "USED OIL." [CCR 66262.34(f), 66279.21(b)]	
G041	M	**MANIFEST PROPERLY COMPLETED [3010008]** Facility failed to properly complete a Uniform Hazardous Waste Manifest in accordance with manifest instructions. ***Manifests 01043120FLE (shipped on 4/5/17) and 01043302FLE (shipped on 4/20/17) shipped-off a wastestream in line #1 that was identified as "UN2209, Waste Formaldehyde solutions, 8, PGIII". Manifests do not have the reportable quantity (RQ) identified on the manifest despite the RQ for a D002 characteristic waste is 100 pounds. Additionally, Formaldehyde has a RQ of 100 pounds. Per 49 CFR 172.203(c)(2), the letters "RQ" must be entered on the shipping papers either before or after the basic description or alternatively, the letters "RQ" may be placed in the 9a (HM) box.*** Submit a manifest correction letter to: DTSC, Generator Information Services Section, P.O. Box 806, Sacramento, CA 95812-0806, Attn: Manifest Corrections. Instructions on how to submit a manifest correction letter are available upon request. [CCR 66262.23]	
G412	M	**CONTAINER MARKING: USED OIL/FUEL FILTERS [3030004]** Facility failed to properly mark a container of drained used oil/fuel filters. ***Observed 1 x 5 gallon container of used oil filters in the chlorine tablet storage area without the required markings (label).*** Mark the initial date of accumulation on the container. If the container holds any gasoline filters, mark it with the words "DRAINED USED OIL AND GASOLINE FILTERS". Otherwise mark the container with the words "DRAINED USED OIL FILTERS". [CCR 66266.130(c)(3), HSC 25250.22]	

Comments: On-site to conduct a routine hazardous waste inspection. Consent to inspect was granted by Dina Craw. Facility performs research and development, testing, and manufacturing of medical devices. Hazardous waste is generated in laboratories, and is managed under point of generation (satellite accumulation) rules. The facility's hazardous waste contractor consolidates hazardous waste weekly and moves it to the hazardous waste storage shed located in the northwestern part of the property. Hazardous waste is stored there until a pick-up occur.

FOLLOW-UP REQUIRED:
1) Provide a written explanation of how facility personnel is trained to use 2-part epoxy, and how any used or spent applicators are managed.

OFFICIAL NOTICE OF INSPECTION

Facility ID: FA0207933 **Inspection Date:** 09/27/2018
Facility Name: BD BIOSCIENCES
Site Address: 2350 QUME DR, SAN JOSE, CA 95131

Summary of Violations & Notice to Comply

NOTES:
-When cleaning equipment, facility generates a waste (BD Facsflow Sheath fluid-201) that according to the safety data sheet is non-hazardous.
-Monthly safety checks are performed in labs to identify off-spec chemicals. Any off-spec chemicals are then managed as a hazardous waste.
-Glassware is washed in some labs, however training provided states that any residual chemicals left in containers must be collected prior to wash and managed as a hazardous waste.
-CAD982519936 is ACTIVE.
-Fire extinguishers, eye washes, and fume hoods were viewed as annually maintained.
-Spill kits are maintained on-site.
-Weekly inspections are performed by the facility's hazardous waste contractor.
-Hazardous waste management training is provided by the facility's hazardous waste contractor and is provided upon hire and every 3 years. Training records are retained via an electronic database.
-Bills of lading and hazardous waste manifests were reviewed.
-Facility abides by large quantity generator accumulation time limits despite being a small quantity generator since early 2016.

Program: PR0396503 - HAZARDOUS MATERIALS BUSINESS PLAN - BP04
Inspection Type: ROUTINE INSPECTION

VC	Class	Violation	Corrective Actions Taken
B106	**M**	**HMBP INVENTORY INFORMATION MISSING / INCOMPLETE [1010004]** Facility operator failed to electronically submit accurate and complete Hazardous Materials Inventory information for all hazardous materials on-site that are required to be reported in the facility's Hazardous Materials Business Plan (HMBP). ***Observed Carbon Dioxide disclosed on the HMBP as a gas, however dewars observed on-site contain refrigerated liquids. Revise the physical state for this chemical and resubmit.*** Within 30 days, electronically submit a HMBP, including an accurate Hazardous Materials Inventory, through either the Santa Clara County CUPA electronic reporting portal (http://FrontCounter.sccgov.org) or the California Environmental Reporting System (http://cers.calepa.ca.gov). Be sure to submit all of the elements that comprise a complete HMBP (i.e., Facility Information, Hazardous Materials Inventory, and Emergency Response and Training Plans). See www.sccgov.org/sites/hazmat/programs/Pages/ereporting.aspx for more details on electronic reporting. [HSC 6.95 25505(a)(1), 25506, 25508(a)(1)]	
B109	**M**	**HMBP EMPLOYEE TRAINING PROGRAM MISSING / INCOMPLETE [1020001]** Facility operator failed to electronically submit a Training Plan, as part of the facility's Hazardous Materials Business Plan (HMBP), that details emergency response and safety procedures that are reasonable and appropriate for the size of the facility and the nature of the hazardous materials handled. ***Facility utilizes 1 x "Bloom box" system for emergency power, however facility does not have any information or training regarding emergency response.*** Within 30 days, electronically submit a complete HMBP, including a Training Plan, through either the Santa Clara County CUPA electronic reporting portal (http://FrontCounter.sccgov.org) or the California Environmental Reporting System (http://cers.calepa.ca.gov). Be sure to submit all of the elements that comprise a complete HMBP (i.e., Facility Information, Hazardous Materials Inventory, and Emergency Response and Training Plans). See www.sccgov.org/sites/hazmat/programs/Pages/ereporting.aspx for more details on electronic reporting. [HSC 6.95 25505(a)(4), 25508(a)(1)]	

Comments: Observed the following hazardous materials handled on-site at or above HMBP-reporting thresholds:

OFFICIAL NOTICE OF INSPECTION

Facility ID: FA0207933
Facility Name: BD BIOSCIENCES
Site Address: 2350 QUME DR, SAN JOSE, CA 95131
Inspection Date: 09/27/2018

Summary of Violations & Notice to Comply

-Diesel, emergency generator located alongside north side of building
-Copper catalyst, in "Bloom box" located on northwest side of property
-Ethylene Glycol, in chiller room located on northeast side of property
-Nitrogen (cryogenic), Dewars located throughout building and in external gas storage area
-Nitrogen (gas), Compressed cylinders throughout building and in external gas storage area
-Carbon Dioxide (cryogenic), Dewars located throughout building and in external gas storage area
-Oxygen: Compressed cylinders throughout building and in external gas storage area
-Argon: Compressed cylinders throughout building and in external gas storage area
-Waste flammable liquids: 1 x 55 gallon drum in hazardous waste storage shed

NOTES:
-CERS ID: 10350094.
-Emergency response training records were spot-checked and are available for review.
-A HMBP was submitted electronically on 2/28/18 and was reviewed.

Immediately correct any violation designated as a Class I or Class II violation. Correct all other violations no later than 10/27/2018, unless otherwise noted by the inspector.

Using the space provided, write a brief description of the actions taken by the facility to correct each violation. Attach additional pages if more space is needed. Within 5 days of achieving compliance or within 35 days of the inspection date, whichever comes first, sign the certification statement below and return a copy of this report to HMCD. Time granted for correction of violations does not preclude any enforcement action by HMCD or other agencies. This facility may be subject to reinspection at any time. [Authority: HSC 25185(c), 25187.8, 25404.1.2(c)]

OFFICIAL NOTICE OF INSPECTION - SUPPLEMENTAL INFORMATION

This Official Notice of Inspection (NOI) documents the results of an inspection by HMCD, including a list of alleged violations, evidence in support of the alleged violations, corrective actions that must be taken by the facility, and general observations.

What am I supposed to do upon receiving a NOI?

- Correct the violations within 30 days of the inspection date, unless otherwise noted.
- In the "Corrective Actions Taken" column, write a brief description of the actions taken by the facility to correct each violation. Attach additional pages if more space is needed.
- Certify that the facility has returned to compliance by signing and dating the certification statement at the end of the report.
- Make a photocopy of the NOI and any attachments for your records.
- Within 5 days of achieving compliance or 35 days of the inspection date, whichever comes first, return the original copy of the report and any attachments to HMCD at 1555 Berger Drive, Suite 300, San Jose, CA 95112-2716 or via e-mail to the inspector noted on the "Inspected By" line of the report.

What if there are violations that cannot be corrected within 30 days?

For each violation that cannot be corrected within 30 days, submit a written Compliance Plan describing the corrective actions you propose to take and the date by which the actions will be completed. State law grants up to 30 days to correct minor violations without penalty. Minor violations that are uncorrected after 30 days, and class I and II violations may be subject to enforcement action. To lessen the possibility of enforcement action, correct all violations as soon as possible.

What if I disagree with a violation on the NOI?

If you disagree with any violation listed in this NOI, you must submit a written Notice of Disagreement to HMCD within 30 days of the inspection date. Address such notices to the attention of the inspector who cited the violation. In your Notice of Disagreement, explain in detail why you believe the alleged violation was incorrectly cited.

What about photographs or samples taken during the inspection?

A co-located sample will be given to you upon request if adequate sample volume is available. Photographs and sample analytical results will not generally be available until after the inspection has been concluded. A copy of photographs and/or analytical results will be provided to you upon written request. Photographs and sample analytical results may be withheld in the event of a criminal investigation or other ongoing investigation.

Summary of Violations & Notice to Comply

Program: PR0420556 - ABOVEGROUND PETROLEUM STORAGE ACT - 2011
Inspection Type: ROUTINE INSPECTION

VC	Class	Violation	Corrective Actions Taken
A315	II	**SECONDARY CONTAINMENT: FIXED STORAGE [4030010]** Facility has not provided appropriate secondary containment for fixed oil storage tanks and/or container storage areas. ***Secondary containment for the 250 gallon fuel tank in the fire pump house is not sized appropriately (will not contain 100 % of the tank).*** Within 30 days, submit a written work plan stating how you will correct this violation and committing to a date by which you will return to compliance with SPCC Plan requirements. Provide secondary containment. A permit may be required for substantial facility modifications and repairs. Local codes require secondary containment capacity greater than that specified in the Federal SPPC regulations, which merely require the ability to contain 100% of the capacity of the largest single container or compartment plus freeboard for precipitation. Contact the local authority having jurisdiction for hazardous materials storage regarding plan check, permit, and capacity requirements. Agency contact and jurisdiction information is available at www.unidocs.org/members/whoregulateswhat.html. [40 CFR 112.7(c), 112.8(c)(2); HSC 25270.4.5(a)]	
A510	M	**SPCC PLAN CONTENT: ANNUAL BRIEFINGS [4010023]** SPCC Plan does not address annual discharge prevention briefings and/or records of briefings are not maintained. ***Annual briefings for 2016 were not conducted or recorded.*** Conduct and document a discharge prevention briefing for all oil-handling personnel to assure adequate understanding of the SPCC Plan. Schedule and conduct such briefings annually. Briefings must highlight and describe known discharges or failures, malfunctioning components, and any recently developed precautionary measures. frequency and content of briefings must be discussed within SPCC Plan. Within 30 days, submit a written response stating how and when this violation was corrected. [40 CFR 112.7(f)(3); HSC 25270.4.5(a)]	

Comments: Onsite to conduct walkthrough inspection to confirm aspects of SPCC Plan.
Facility utilizes the SPCC Tier I template forms. No single tank noted >5000 gallons and aggregate volume does not exceed 10,000. Eligibility confirmed.
Plan provided electronically was not signed or dated. Copy maintained onsite is both signed and dated.
-- Plan date 3/29/12 with revisions 9/30/15. revisions logged in plan and account for addition of new emergency generator.
Inspections of oil storage areas is being conducted at frequency and on forms provided with the plan.
Training logged in 2015 utilized plan provided log.
All containment areas were noted as being clean and free of spills and leaks.
-- Should be noted that area exterior to the fire pump storage tank did show staining on the cement, but that impacted areas are within covered building/shed and not accessible to rain washing or conveyance to storm drains/navigable waters. STRONGLY RECOMMEND ROUTINE CLEANING OF THIS AREA, REGARDLESS.
-- Additionally, noted curled laminate tiles/flooring squares at one of the elevator reservoir rooms, but no staining or other visual cues indicating leakage from reservoir.

OFFICIAL NOTICE OF INSPECTION

Facility ID: FA0207933
Facility Name: BD BIOSCIENCES
Site Address: 2350 QUME DR, SAN JOSE, CA 95131

Inspection Date: 03/07/2017

Summary of Violations & Notice to Comply

The plan indicates (page 8, table G-10, first statement) that diked storage areas are fitted with valves for the control of drainage in accordance with 40CFR112.8(b)(1). Diked areas observed during walkthough (at transformers and in fuel pump house) were not noted as having valves for drainage. Please examine if this question is better answered "N/A" and revise plan accordingly

INFORMATION REQUEST:
By Monday March 13, COB, provide the most recent three months "monthly inspection logs" as well as documentation demonstrating that the monitoring devices at the emergency generator were serviced during the 6/10/16 and 12/22/16 "Quarterly service" by Peterson or other vendor.

Immediately correct any violation designated as a Class I or Class II violation. Correct all other violations no later than 04/06/2017, unless otherwise noted by the inspector.

Using the space provided, write a brief description of the actions taken by the facility to correct each violation. Attach additional pages if more space is needed. Within 5 days of achieving compliance or within 35 days of the inspection date, whichever comes first, sign the certification statement below and return a copy of this report to HMCD. Time granted for correction of violations does not preclude any enforcement action by HMCD or other agencies. This facility may be subject to reinspection at any time. Public Records Request Number: 1-033021-04
Location(s): 2150 Commerce Drive, San Jose CA
2222 Qume Drive, San Jose CA
2350 Qume Drive, San Jose CA

Dear Requestor:

On March 30, 2021 the Department of Toxic Substances Control (DTSC) received your email of the same date requesting records under the Public Records Act. After a thorough review of our files, no site records were found pertaining to the sites/facilities referenced above.

Your request has been forwarded to our office in Berkeley as they may have records. The phone number for the Berkeley office is 510-540-3800 and the e-mail address is Berkeleyfileroom@dtsc.ca.gov.

DTSC's Hazardous Waste Tracking System (HWTS) may have records that pertain to this request. This unit tracks toxic waste generators, transporters (manifests), and disposal facilities. If you are interested in this type of information, it can be identified by accessing the HWTS database at http://hwts.dtsc.ca.gov/report_search.cfm?id=5. If you are interested in retrieving detailed reports, additional charges may apply. Please contact the HWTS unit by email at hwtsreports@dtsc.ca.gov or by phone at (800) 618-6942 for further information. For copies of manifests, please send an email to mcr@dtsc.ca.gov.

DTSC's E-Waste unit may have records that pertain to this request for **2222 Qume Drive**. "E-Waste" refers to any unwanted electronic device or Cathode Ray Tube (CRT) and is classified as universal waste. E-Waste frequently contains hazardous materials, predominantly lead and mercury, and is produced by households, businesses, governments, and industries. I have forwarded your Public Records Act request to that unit for further processing. Please contact them by email at electronicwaste@dtsc.ca.gov if you are interested in this information.

A large number of our records are available on EnviroStor, an online database that provides non-confidential, public access to DTSCs data management system. It tracks our cleanup,

permitting, enforcement, and investigation efforts at hazardous waste facilities and sites with known or suspected contamination issues. EnviroStor is available 24/7, 365 days a year. The data reflects the latest updates as they are entered in the system. Access it from your computer or smartphone, the local library – anywhere Internet access is available. Just go to www.envirostor.dtsc.ca.gov. You'll find a step-by-step tour of EnviroStor under the "How to Use EnviroStor" menu on the website.

If you have any questions or would like further information regarding your request, please contact me at 916-255-4159 or via email at PubReqAct@dtsc.ca.gov.

Sincerely,
Choua Her

Public Records Request Number: 2-040221-02

Location(s): 2222 + 2350 Qume St., San Jose, CA (no files 2150 Commerce St.)

Dear T. Annoor:

On April 2nd, 2021, the Department of Toxic Substances Control (DTSC) received your e-mail requesting records under the Public Records Act. The DTSC Berkeley Regional Office has identified site records responsive to your request for 2222 and 2350 Qume St., San Jose, CA and is in the process of gathering said records (please see the following paragraph pertaining to these records). DTSC Berkeley did not find records for the remaining site addresses.

Please contact us to schedule an appointment to review the available records. DTSC will notify you if any of the records will be withheld from disclosure under the Act.1 We recommend you bring a copier or arrange for a bonded copying service to make copies of the records. *Due to restrictions implemented by the State of California because of Covid-19, in-house public review appointments are not available at this time. An arrangement with a bonded copier service is still an option to obtain access to approved files. Please respond to the e-mail attached to this letter for more information at Berkeleyfileroom@dtsc.a.gov.*

In addition, the DTSC provides access to public records online via EnviroStor; a data management system that tracks our efforts in cleanup, permitting, enforcement, and investigation of known/suspected hazardous waste sites and facilities. The available data is updated in realtime. You can access Envirostor online at www.envirostor.dtsc.ca.gov. Navigate the website easily by clicking the "How to Use EnviroStor" tab, then selecting the option “Take a Tour”.

For information regarding public reports on hazardous waste shipments of generators, transporters, and TSDFs, you can access our Hazardous Waste Tracking System (HWTS) online at: https://hwts.dtsc.ca.gov/. Select the “Reports” tab for search options. If you are interested in retrieving detailed reports, please contact the HWTS unit via e-mail: Hwtsreports@dtsc.ca.govor phone: 1-800-618-6942. Customized reports may require a fee. For copies of manifests, please send an e-mail to mcr@dtsc.ca.gov.

If you have any questions or would like further information regarding your request, please contact me via phone: 510-540-3800 or e-mail: Berkeleyfileroom@dtsc.a.gov.

Sincerely,

Carl Rose

Regional Records Coordinator

1Some of the records may be exempt from disclosure under the Public Records Act because they may be identified as follows: (1) preliminary drafts or notes (Government Code sections 6254(a)); (2) records pertaining to pending litigation (Government Code section 6254(b)); (3) personnel, medical, personal or private information (Government Code sections 6254(c), 6254(k), 6254.3; Civil Code section 1798, et seq.); (4) records pertaining to complaints or investigations or identification of confidential informant(Government Code section 6254(f)); (5) records covered by the attorney-client privilege (Government Code section 6254(k); Evidence Code section 954); (6) records covered by the attorney work product privilege (Government Code section 6254(k); Code of Civil Procedure section 2018.030); (7) records covered by the deliberative process privilege (Government Code sections 6254(k), 6255; Times Mirror Company v. Superior Court (1991) 53 Cal. 3d 1325); (8) records covered by the official information privilege (Government Code section 6254(k); Evidence Code section1040); and/or (9) records containing confidential business information or trade secrets (Government Code· section 6254(k); California Code of Regulations, title 22, section 66260.2; Evidence Code section 1060; Health and Safety Code sections 25173, 25185(d), 25358.2). (10) records containing geological and geophysical information (Government Code section 6254 (e)). This is not an exhaustive list and other exemptions may prevent disclosure of records.

San Jose, CA 95113-2005

HAZARDOUS MATERIAL PLAN CHECK COMMENTS

Date: September 13, 2004

Installation Location: 2350 Qume Drive
Facility Name: BD Biosciences
Plan Date: August 10, 2004
Installation Contractor: South Bay Construction
Type of Work/Construction: Bulk Cry N_2-Indoor, Liquid CO_2, He Systems

The aboveground storage installation plans have been reviewed, and the following conditions apply to this project:

CRYOGENIC SYSTEMS

GENERAL REQUIREMENTS:

1. Persons responsible for the operation of areas where hazardous materials are stored or dispensed shall be familiar with the chemical nature of the materials and the appropriate mitigating actions necessary in the event of fire, leak or spill. (2002 SJFC Section 8001.11.1.1)

2. Electrical installation and equipment shall be in accordance with the electrical code (2002 SJFC Section 7501.10.1).

3. Portable containers shall be secured to prevent shifting or upset. (2002 SJFC Section 7501.8.3).

4. This permit and a copy of this plan check shall be kept on the premises and shall be posted in a conspicuous location or in a location approved by the chief. (2002 SJFC Section 105.5)

5. Contact the Inspector identified below at least 48 hours in advance to schedule an installation inspection.

STORAGE CONTAINER REQUIREMENTS:

1. Storage container shall be provided with substantial concrete or masonry foundation (2002 SJFC Section 7501.4.4).

Permit No.2004-122218 File No. 405214 HazMat Log No P-8046

San Jose Hazardous Materials Program
170 West San Carlos Street
San Jose, CA 95113-2005

HAZARDOUS MATERIAL PLAN CHECK COMMENTS

PIPING REQUIREMENTS: cryogenic, paperwork for other inerts

1. Primary piping shall pass either a pressure leak test or a hydrostatic test. The piping shall be pneumatically tested to 110 percent of the maximum anticipated pressure of the system or hydrostatically tested to 150 percent of the maximum anticipated pressure. This testing shall be witnessed by the San Jose Fire Department prior to being placed into service. (2002 SJFC Section 7503.1.3.7).

2. Piping and materials such as gaskets, valves, accessory equipment and thread compound shall be suitable for the intended use through the full range of pressure and temperature to which they will be subjected.
(2002 SJFC Section 7503.1.3.2, 7503.1.3.4).

3. Piping system shall be designed and constructed to provide adequate allowance for expansion, contraction, vibration, settlement and fire exposure
(2002 SJFC Section 7503.1.3.2)

4. When bulk inert gas systems are installed in a building of other than Type I or II construction, an approved, supervised smoke-detection system shall be provided in the room or area in which the system is installed. Activation of the smoke-detection system shall initiate a local alarm and transmit a signal to a constantly attended control station. (2002 SJFC Standard 80-4 Section 5.2.1.2)

indoor required.

MARKINGS/LABELING: — indoor

1. Warning signs shall be posted at each entrance to the room or enclosure where the bulk inert gas system is installed. Wording for such signs shall include, as a minimum, the following:
Warning (Name of Gas)
High concentration of gas may occur in this area and may cause asphyxiation. Verify that oxygen concentration is above 19.5% before entering and during activity in this area. (2002 SJFC Standard 80-4 Section 5.2.1.3)

2. Approved NFPA labels must be posted on the container and at entrances to locations where containers are stored. (SJFC Section 8001.7).

3. Emergency shutoff valves shall be identified and the location shall be clearly visible and indicated by means of a sign (SJFC Section 7501.7.7).

4. All piping must be labeled every 20 feet, at each turn and where it passes through a wall with Cryogenic Nitrogen and direction of flow. (2002 SJFC Section 7501.7.6).

Permit No.2004-122218 File No. 405214 HazMat Log No P-8046

San Jose Hazardous Materials Program
170 West San Carlos Street
San Jose, CA 95113-2005

HAZARDOUS MATERIAL PLAN CHECK COMMENTS

VALVING REQUIREMENTS:

1. Pressure relief devices shall be installed in any part of the system in which liquid or cold vapor could be trapped. If liquefied inert gas may become trapped in any valve cavity, means of venting must be provided.
(2002 SJFC Standard 80-4 Section 7.1.2)

2.
3. Pressure-relief devices shall be located such that they are readily accessible for inspection and repair. (2002 SJFC Section 7501.5.5)
4. Pressure-relief devices shall be arranged to discharge unobstructed to the air in such a manner as to prevent impingement of escaping gas on personnel, containers, equipment and adjacent structures or to enter enclosed spaces.
(2002 SJFC Section 7501.5.6)

5. Shutoff valves shall not be installed between pressure-relief devices and containers.
(2002 SJFC Section 7501.5.7)

6. Shutoff valves shall be installed in liquid piping as needed to limit the volume of liquid discharge in the event of piping or equipment failure. Relief valves shall be installed between shutoff valves in pipes (2002 SJFC Section 7503.1.3.4.2).

— label indoor

7. System shall be provided with approved emergency shutoff systems that can be activated from each point of use and at each source. A readily accessible shutoff valve is acceptable at the source. (SJFC Sections 7503.2.2.3)

DISPENSING:

1. Indoor areas where cryogenic fluids are dispenses shall be ventilated in accordance with the requirements of section 8004.2.2.2 and 8004.2.3.3 and the Mechanical Code. (2002 SJFC Section 7503.3.2.1)

2. When gases having a hazard ranking of 3 are dispensed or used, mechanical exhaust ventilation shall be provided at the point of generation.
(2002 SJFC Section 8004.2.2.2)

INERT COMPRESSED GAS SYSTEMS

Markings:

1. Markings used for piping systems shall consist of the content's name and include a direction of flow arrow. Markings shall be provided at each valve; at wall, floor or ceiling penetrations; at each change of direction; and at a minimum of every 20 feet or fraction thereof throughout the piping run. (2002 SJFC Section 7401.5.3)

Permit No.2004-122218 File No. 405214 HazMat Log No P-8046

HAZARDOUS MATERIAL PLAN CHECK COMMENTS

Security and Storage

1. Compressed gas containers, cylinders and tanks shall be secured to prevent falling due to contact, vibration or seismic activity. Securing of compressed gas containers, cylinders, and tanks shall be by one of the following methods: (2002 SJFC Section 7401.6.4)
   a. Securing containers, cylinders, and tanks to a fixed object with one or more non-combustible restraints.
   b. Securing of compressed gas containers, cylinders, and tanks to or within a rack, framework, cabinet or similar assembly designed for such use.

needed indoor

2. Compressed gas containers, cylinders, tanks and systems are to be secured from unauthorized access. (2002 SJFC Section 7401.6.1)

3. Compressed gas container, cylinder, and tank valves shall be protected from physical damage by means of protective caps, collars, or similar devices. (2002 SJFC Section 7401.7.1)

4. Compressed gas containers, cylinders, and tanks shall be separated from each other based on the hazard class of their contents. (2002 SJFC Section 7401.8.2)

5. Containers shall not be placed in areas where they are likely to be damaged by falling objects. (2002 SJFC Section 7401.8.6)

6. Compressed gas containers, cylinders, tanks, except those designed for horizontal use, are to be stored in an upright position. (2002 SJFC Section 7402.1.2)

7. Compressed gas containers, cylinders, and tanks designed for protective caps, collars or other protective devices shall have caps or devices in place except when the containers, cylinders or tanks are in use or are being serviced or filled. (2002 SJFC Section 7401.7.2)

Separation:

1. Combustible waste and similar materials shall be kept a minimum of 10 feet from compressed gas containers, cylinders, tanks, and systems. (2002 SJFC Section 7401.8.3)

2. Compressed gas containers, cylinders, and tanks are to be separated from materials and conditions that present a hazard. (2002 SJFC Section 7401.8.1)

GARY J. SCHOENNAUER
DIRECTOR OF PLANNING

May 11, 1995

UNUM Life Insurance Company of America
c/o Mr. Steven Doctors
The Cmt Corporation
3620 Mount Diablo Blvd
Lafayette CA 94549

Dear Mr. Doctors:

RE: **Site Development Permit, File No. H 95-02-014, Junction of Commerce and Qume Drives, opposite Automation Parkway (2222 Qume Drive)**

The enclosed is your copy of the Planning Director's action on the application for a Site Development Permit. To accept the permit and conditions, the following requirements must be fulfilled.

- **Have your signature notarized on the Acceptance Form (attached) and return the form before 5:00 p.m., July 11, 1995.** Failure to return the Acceptance Form, properly signed, to the Department of Planning, Building and Code Enforcement by this deadline will cause this permit to automatically expire regardless of any other expiration date contained in this permit.

- **Enclose a check or money order for $10, payable to the Santa Clara Recorder, with your Acceptance Form.** For the permit to be effective, Section 20.44.220 of the City of San José's Zoning Ordinance requires that a Certificate of Permit be recorded with the County Recorder's Office.

The Planning Director's action taken on this permit or any of the conditions of this permit may be appealed by the applicant to the Planning Commission by filing a Notice of Appeal and a $50 fee. The appeal must be submitted in person and presented on the Notice of Appeal form available from the Department of Planning, Building and Code Enforcement on or before 5:00 p.m., May 22, 1995.

If you have any questions, please feel free to contact me or your Project Manager.

Sincerely,

Carol Anne Painter
Principal Planner

CITY OF SAN JOSÉ
DEPARTMENT OF CITY PLANNING
SITE DEVELOPMENT PERMIT

FILE NO.	H 95-02-014
LOCATION OF PROPERTY	Junction of Commerce and Qume Drives, opposite Automation Parkway (2222 Qume Drive)
ZONING DISTRICT	I-Industrial
GENERAL PLAN DESIGNATION	Industrial Park
PROPOSED USE	Cellular telephone facility consisting of a 75-foot monopole and a 240-square-foot equipment storage building
ENVIRONMENTAL STATUS	Negative Declaration
OWNER	UNUM Life Insurance Company of America c/o Steven Doctors
ADDRESS	The Cm+ Corporation 3620 Mt. Diablo Blvd. Lafayette CA 94549

FINDINGS

1. The interrelationship between the orientation, location and elevations of the proposed building(s) and structure(s) and other uses on-site are mutually compatible and aesthetically harmonious in that:

   a. Sufficient open space separates all structure(s) and uses.

   b. Sufficient maneuvering room will be provided on site to allow smooth circulation and minimize interference with other uses.

2. The orientation, location and elevation of the proposed building(s) and structure(s) and other uses on the site are compatible with and are aesthetically harmonious with adjacent development or the character of the neighborhood in that:

   a. The use of the site will not interfere with the use of adjacent properties since sufficient buffering between uses will be provided.

3. The environmental impacts of the project will not have an unacceptable negative effect on adjacent property or properties in that:

   a. A Negative Declaration has been circulated for this project which indicates there is no substantial evidence that the project will have a significant effect on the environment.

   b. The proposed project will not individually or cumulatively have an adverse effect on wildlife resources, as defined in Section 711.2 of the California Department of Fish and Game Code.

4. Landscaping, irrigation systems, walls and fences, features to conceal outdoor activities, exterior heating, ventilating, plumbing, utility and trash facilities are sufficient to maintain or upgrade the appearance of the neighborhood in that:

   a. Substantial landscaping and an adequate automatic irrigation system to support this landscaping are existing on the site.

   b. Existing fences will be repaired or reconstructed, or a new fence added, to separate the site from adjacent uses and provide screening.

5. Traffic access, pedestrian access and parking are adequate in that:

   a. Sufficient driveway curb cuts and driveways are existing on site to provide access to the site without interfering with off-site circulation.

6. This site has a designation of Industrial Park on the adopted San José 2020 General Plan Land Use/Transportation Diagram and this application is consistent with this designation.

APPROVED SUBJECT TO THE FOLLOWING CONDITIONS:

1. **Sewage Treatment Demand.** Chapter 15.12 of Title 15 of the San José Municipal Code requires that all land development approvals and applications for such approvals in the City of San José shall provide notice to the applicant for, or recipient of, such approval that no vested right to a Building Permit shall accrue as the result of the granting of such approval when and if the City Manager makes a determination that the cumulative sewage treatment demand of the San José-Santa Clara Water Pollution Control Plant represented by approved land uses in the area served by said Plant will cause the total sewage treatment demand to meet or exceed the capacity of San José-Santa Clara Water Pollution Control Plant to treat such sewage adequately and within the discharge standards imposed on the City by the State of California Regional Water Quality Control Board for the San Francisco Bay Region. Substantive conditions designed to decrease sanitary sewage associated with any land use approval may be imposed by the approval authority.

2. **Building Permit.** Obtainment of a Building Permit is evidence of acceptance of all conditions specified in this document and the applicant's intent to fully comply with said conditions.

3. **Exterior Alterations.** No exterior alterations to the structure may be implemented unless and until this Site Development Permit is released to the Building Division.

4. **Conformance with Plans.** Construction and development shall conform to approved Site Development plans entitled, "Cellular One Cell Site No. 178 - 680/Hostetter," dated April 19, 1995, on file with the Department of City Planning and Building and to the San José Building Code (San José Municipal Code, Title 17, Chapter 17.04).

5. **Deadline for Commencing Construction.** This Site Development Permit shall automatically expire two years from and after the date of issuance hereof by said Director if within such two-year period construction of buildings has not commenced, pursuant to and in accordance with the provisions of this Site Development Permit. The date of issuance is the date this Permit is approved by the Director of Planning. However, the Director of Planning may approve a Permit Adjustment to extend the validity of this Permit for a period of up to two years. The Permit Adjustment must be approved prior to the expiration of this Permit.

6. **Revocation.** This Site Development Permit is subject to revocation for violation of any of its provisions or conditions.

7. **Conformance with Municipal Code.** No part of this approval shall be construed to permit a violation of any part of the San José Municipal Code.

8. **Acceptance.** The "Acceptance of Permit and Conditions" form shall be ***signed, notarized, and returned*** to the Department of City Planning and Building within ***60 days*** from the date of issuance of permit. *Failure to do so will result in this permit automatically expiring regardless of any other expiration date contained in this permit.*

9. **Colors and Materials.** All building colors and materials are to be those specified on the approved plan set.

10. **Hazardous Materials.** Any hazardous materials regulated by Chapter 17.68 of the San José Municipal Code on the site must be used and stored in full compliance with the City's Hazardous Material Ordinance and the Hazardous Materials Management Plan for the site approved by the San José Fire Prevention Bureau.

11. **Public Works Clearance.** A Development Clearance shall be obtained from the Public Works Department, Room 308, (408) 277-5161, and is subject to the following requirements to the satisfaction of the Director of Public Works:

a. *Storm Drainage, Sewer Fees.* Storm drainage area fees, sanitary sewer connection fees and sewage treatment plant fees are due, less previous credits.

12. **Building Clearance for Issuing Permits.** Prior to the issuance of a Building Permit, the following requirements must be met to the satisfaction of the Chief Building Official:

a. *Construction Plans.* The permit file number, H 95-02-014, shall be printed on all construction plans submitted to the Building Division.

APPROVED and issued this 12th day of May, 1995.

SITE DEVELOPMENT PERMIT/AMENDMENT

AFFIDAVIT OF OWNERSHIP

THE UNDERSIGNED HEREBY DECLARE THAT THE FOLLOWING IS TRUE AND CORRECT:

1. The undersigned are all the owners of all the property described in Exhibit A - Legal Description of Subject Property, or tenants of the entire subject site with a recorded lease and a term remaining of at least five years.

2. The development plans a part of this application show the exact location, size, and use of all easements on the subject site and all easement on surrounding properties benefiting the subject property.

3. If there are any existing active or deactivated water wells on your property, they must be shown on your plans.
The property which is the subject of this application:
_____does contain existing active or deactivated water wells and they are shown on the plans accompanying this application
__X__does not contain existing active or deactivated water wells.

4. In conformance with Section 65962.5 of the California Government Code, and as owner(s) of the property referenced below, I(we) hereby certify that I(we) have reviewed the list of Hazardous Waste and Substance Sites within the City of San Jose, as compiled by the State Office of Planning and Research.
The property which is the subject of the above-referenced application is_____ is not__X__included on said list.
If included on the List, the listed item reads as follows:

_____

_____

_____

THE UNDERSIGNED HEREBY DECLARE THAT THEY UNDERSTAND THE FOLLOWING APPLIES TO THEIR PROJECT:

5. **Notice to Applicants regarding effect of Wastewater treatment capacity on land development approvals.** Part 2.75 of Chapter 15.12 of the San Jose Municipal Codes requires that an applicant acknowledge the effect of Wastewater treatment capacity on Land development approvals at the time of application. As owner (s) of the property subject to this development application, I(we) hereby acknowledge the requirements of the Municipal Code, as stated below, and understand that these requirements will apply to the development permit for which I(we) am(are) applying.

Pursuant to Part 2.75 of Chapter 15.12 of the San Jose Municipal Code, no vested right to a building permit shall accrue as the result of the granting of any land development approvals and applications when and if the City Manager makes a determination that the cumulative sewage treatment demand on the San Jose-Santa Clara Water Pollution Control Plant represented by approved land uses in the area served by said Plant will cause the total sewage treatment demand to meet or exceed the capacity of the San Jose-Santa Clara Water Pollution Control to treat such sewage adequately and within the discharge standards imposed on the City by the State of California Regional Water Quality Control Board for the San Francisco Bay Region. Substantive conditions designed to decrease sanitary sewage associated with any land use approval may be imposed by the approving authority.

FORM SR-106 REV 1/90

CITY OF SAN JOSÉ, CALIFORNIA

DEPARTMENT OF CITY PLANNING AND BUILDING
801 NORTH FIRST STREET
SAN JOSE CA 95110-1795

GARY J. SCHOENNAUER
DIRECTOR OF PLANNING

March 16, 1995

Mr. Brian Mah
WHL Architects
226 Airport Parkway, Ste. 595
San José CA 95110

Dear Mr. Mah:

RE: **FILE NO. H 95-02-014**

Your application, referenced above, for development at the junction of Commerce and Qume Drives, opposite Automation Parkway in the City of San José has undergone a preliminary review. The purpose of this review is to provide you with information as early as possible so you can appropriately respond to the issues identified below. While I am continuing to work on your application, your timely response will further expedite the process. Please understand that this is a preliminary review and additional comments may be made at a later time. If more than one application is listed above, the information below pertains to all of them.

COMPLETENESS OF YOUR APPLICATION

Permit Streamlining Act: Pursuant to the Permit Streamlining Act (Government Code Chapter 4.5 of Title 7), your application is not complete. Prior to a determination that the project application is complete, the following issues must be addressed.

PROJECT DESIGN COMMENTS

As proposed, your project design raises some concerns. I would like to work with you to resolve the following issues so that I can ultimately recommend that your project be approved.

Please modify plans as follows:

1. ***Environmental Review:*** Review of your request for an Exemption is on-going. You will be notified if further information is required.

2. ***Fencing:*** Add a note that barb wire top to fencing is to be removed. Note that vinyl clad slotting is to be added to enclosure.

3. ***Other:*** Note power source connection and back-up option (lithium batteries, propane, etc.). Comments from other departments, if any, will be sent to you as soon as they are received.

Thank you for submitting supplemental materials on location criteria.

In order for the project to be scheduled for public hearing on March 29, 1995, four sets of revised plans and information must be resubmitted to me by March 24, 1995. Use March 24, 1995, as your plan submittal date.

If you have any questions regarding the information contained in this letter, please feel free to give me a call at (408) 277-4576.

Sincerely,

Jim Prandi
Project Manager

RE: Proposed Cellular One Facility ("Cell Site #178")
at 2222 Qume Dr., APN 244-15-004

Dear Mr. Prandi:

I would like to supplement Site Development Permit Application #H95-02-014 with additional information regarding Cellular One's choice of the location at 2222 Qume Drive for the placement of a new cellular transmitting facility.

Currently, there is an area of poor cellular coverage between I-680 and I-880, south of the Montague Expressway and north of Berryessa Road. Cellular One's objectives for Site #178 are to improve the quality of cellular coverage and increase the number of calls the system can handle in that area.

I have attached two computerized plots of signal strength along major roads in the problem area. These plots are compiled with a computer modeling program utilizing real field test data. Levels of signal strength are represented with different colors. One plot illustrates current signal strength in the identified problem area, and the other illustrates projected signal strength with the additional coverage provided by Cell Site 178. Because the underlying map is difficult to read with the signal strength superimposed on it, I have also included a blank copy of the map to aid you in distinguishing the roads that were tested.

The threshold value at which Cellular One needs to operate to provide high quality portable phone coverage is -75 dbm and is represented in blue. A weaker signal results in interference during cellular phone calls and dropped calls. Note that the signal strength in the area surrounding the Hostetter Rd./Lundy Ave. intersection is currently as low as -85 dbm (shown in red). With the exception of several very small spots, the addition of the site at 2222 Qume Drive will result in excellent cellular coverage in the target area.

Cellular One chose the location at 2222 Qume Drive for several reasons. The location fulfills Cellular One's coverage objective in the target area. The property is zoned Industrial and a cellular facility is compatible with the existing use of surrounding property. Also, Cellular One approached several other property owners in the target area

651 Gateway Blvd., Suite 1500, So. San Francisco, CA 94080 • (415) 871-9500

and either because there was no available space for our facility or because the property owner was not interested, these other properties were not feasible. We believe 2222 Qume Drive is a quality location where construction of the facility will have a minimal impact on existing and future development of the surrounding area.

As a cellular telephone carrier, Cellular one is a duly certified public utility, licensed by the Federal Communications Commission (FCC) and the California Public Utilities Commission (CPUC) to provide cellular telephone service to the public in the greater San Francisco-Oakland-San Jose area. Because cellular technology handles so many calls efficiently and because the system remains operational during emergency situations when the landline telephone system often does not, cellular phones are frequently used by emergency service providers. Cellular technology serves the national interest and directly or indirectly benefits all members of the public.

Please contact me at (415) 827-5586 if you have any questions about the enclosed information. I look forward to working with you on this Site Development Permit Application.

Very truly yours,

Judy Boyle

CITY OF SAN JOSE - MEMORANDUM

TO	DIRECTOR OF PLANNING	FROM	LOUIS A. COBARRUVIAZ CHIEF OF POLICE
SUBJECT	DEVELOPMENT PERMIT REPORT	DATE	MARCH 10, 1995
APPROVED		DATE	3-10-95

Planning Department File Number: H 95-02-014

Location: 2222 Qume Drive

Description: Allow 75 ft. monopole and cellular antennae and 240 sq. ft. equipment shelter.

The Chief of Police requests that the following conditions be appended to the subject application.

X 1. Adequate security hardware, e.g. locks, bullet proof glass, flash plates, emergency notification devices, etc.

a) Silent or audible alarm system on equipment shelter.

__ 2. Adequate lighting, e.g. interior and/or exterior.

X 3. Adequate visibility, e.g. obstacles, location of vulnerable areas, line of sight.

a) Exterior wal-pac lights on a minimum of two walls of equipment shelter, minimum 100 watt LPS type, or a pole lamp light, minimum 150 watt LPS type located within the fenced area of equipment shelter.

__ 4. Other problems unique to this project.

PUBLIC HEARING NOTICE

The Director of Planning of the City of San José will hold a Public Hearing on Wednesday, March 29, 1995. This Public Hearing will be held in accordance with Title 20 of the San José Municipal Code.

The Public Hearing is to be in the City Council Chambers, on the second floor of City Hall, at 801 North First Street, San José, California, at 10:00 a.m. or as soon thereafter as this item can be heard. You are welcome to attend and to speak on this issue. If you choose to challenge this land use decision in court, you may be limited to only those issues you, or someone else, raised and discussed at the Public Hearing or in written correspondence delivered to the City at or prior to the Public Hearing.

The decision of the Director may be appealed to the Planning Commission in accordance with the requirements of the San José Municipal Code. Instructions for filing a Permit Appeal are available from the Department of City Planning.

The project being considered is:

H 95-02-014 SITE DEVELOPMENT Permit for a project located at the junction of Commerce and Qume Drives, opposite Automation Parkway on a 5.33-gross-acre site in the I-Industrial Zoning District for a cellular telephone facility consisting of a 75-foot monopole and a 240-square-foot equipment storage building (UNUM Life Insurance Company, Owner; Cellular One, Developer.) Council District 4. CEQA: Exempt.

Reports, drawings, and documents for this project are on file and available for review 9:00 a.m. to 5:00 p.m., Monday through Friday at:

Department of City Planning and Building
801 North First Street, Room 400
San José, CA 95110
(408) 277-4576

A permit and recommendations will be available for your review during the week of the Public Hearing at the Department of City Planning and Building.

Comments and questions are welcome, and should be referred to **Jim Prandi** of the Department of City Planning and Building. Please refer to the above file number for further information on this project. For your convenience, contact Mary Taylor at the above telephone number the week of the Public Hearing to verify that this item will be heard and is not scheduled for deferral to a later date.

PROJECT LOCATION

The junction of Commerce and Qume Drives, opposite Automation Parkway.

E0033 94

PROJECT DESCRIPTION

Site Development Permit for a cellular telephone facility consisting of a 75 foot monopole and a 240 square foot equipment storage building on a 5.33 acre site in the I-Industrial Zoning District.

This is to advise you that the Director of Planning of the City of San José approved the above-described project and made the following determinations regarding such project:

1. The project will not have a significant effect on the environment.

2. A Negative Declaration was prepared for this project pursuant to the provisions of CEQA.

The Negative Declaration and record of project approval may be examined at the City of San José, Department of City Planning and Building, City Hall Room 400, 801 North First Street, San José, California 95110-1795. This notice is in compliance with Section 21108 and 21152 of the Public Resources Code.

The above-described project was approved and issued on the 12th day of May, 1995.

Project Description

Site Development Permit for a cellular telephone facility consisting of a 75 foot monopole and a 240 square foot equipment storage building on a 5.33 acre site in the I-Industrial Zoning District.

Findings of Exemption

The proposed project will not individually or cumulatively have an adverse effect on Wildlife resources, as defined in Section 711.2 of the California Department of Fish and Game Code.

Certification

I hereby certify that the lead agency has made the above findings of fact and that based upon the Initial Study and hearing record the project will not individually or cumulatively have an adverse effect on wildlife resources, as defined in Section 711.2 of the California Department of Fish and Game Code.

DEPARTMENT OF CITY PLANNING

NEGATIVE DECLARATION

FILE NUMBER H 95-02-014 **Council District Number** 4

The Initial Study on which this Negative Declaration is based was prepared by the Director of Planning and is on file in the Office of the Department of City Planning and Building, 801 North First Street, San José, California.

PROJECT LOCATION **County Assessor's Parcel Number** 244-15-004

The junction of Commerce and Qume Drives, opposite Automation Parkway.

PROJECT DESCRIPTION

Site Development Permit for a cellular telephone facility consisting of a 75 foot monopole and a 240 square foot equipment storage building on a 5.33 acre site in the I-Industrial Zoning District.

CERTIFICATION

The Director of Planning certifies that the above project will not have a significant effect on the environment. This finding is based on the following considerations:

1. The project is consistent with the General Plan environmental goals and policies and with the General Plan Land Use/Transportation Diagram.

2. No rare, threatened, endangered or special status species of flora or fauna are known to inhabit the site.

3. The project will have no significant impact on fish and wildlife resources and will meet all objectives of Section 711.2 of the State Fish and Game Code (exempt from fish and game fees).

4. The project site is not within the 100-year flood plain.

5. The proposal will not have any impact on known historical or cultural resources.

6. The proposed uses are compatible with, and will not adversely affect, existing local uses.

7. Based on a radio frequency radiation analysis completed for the proposed project, the projected power density levels to be emitted from the antennas are not considered significant.

PROTEST OF A NEGATIVE DECLARATION

The Negative Declaration may be protested in writing by any person prior to 5:00 p.m. on **April 26, 1995**. Such protest shall be filed in the Department of City Planning and Building, Room 400, 801 North First Street, San José, upon payment of the $50 filing fee and shall include a statement specifying those anticipated environmental effects which may be significant. A protest of a Negative Declaration will be heard by the Planning Commission at the earliest date.

PUBLIC NOTICE
OF A DRAFT NEGATIVE DECLARATION
CITY OF SAN JOSÉ, CALIFORNIA

FILED
APR 12 11 12 AM '95
ST. CO. SAN T.
BY _____ DEPUTY

FILE NUMBER H 95-02-014

PROJECT LOCATION
The junction of Commerce and Qume Drives, opposite Automation Parkway.

PROJECT DESCRIPTION
Site Development Permit for a cellular telephone facility consisting of a 75 foot monopole and a 240 square foot equipment storage building on a 5.33 acre site in the I-Industrial Zoning District.

The City of San José is required by California State Law to conduct environmental review for all projects pending before it. The purpose of this review is to examine the nature and extent of any potentially significant adverse effects on the environment that may occur if the project is approved. If the review revealed that a proposed project would have a significant adverse impact on the environment, the Director of Planning would required that an Environmental Impact Report be prepared.

The purpose of this notice is to inform you that the Initial Study prepared on this project concludes that the project described in the Negative Declaration will not have a significant adverse impact on the environment. This notice is being sent to all owners and occupants of property within 300 feet of the proposed project to inform them of the preparation of this Negative Declaration and to provide the opportunity for public participation and input into the environmental review process.

If the Director of Planning determines, based on a review of comments received on the Negative Declaration, that there is no substantial evidence that the project would result in a significant environmental impact and no formal protest of the Negative Declaration is filed, the draft Negative Declaration will be adopted on **April 26, 1995**. Comments on or a formal protest of the Negative Declaration must be submitted in writing to the Department of City Planning and Building, Room 400, 801 North First Street, San José, California, no later than 5:00 p.m. on this date. All formal protests must be accompanied by a $50 fee. Such protests will be heard by the City Planning Commission.

It should be noted that adoption of a Negative Declaration does not constitute approval of the project under consideration. The decision to approve or deny the project will be made separately as required by City Ordinance.

The Draft Negative Declaration is available for inspection by interested persons at the Department of City Planning and Building. For further information, please call **Jim Prandi** at (408) 277-4576.

BY: JMH
CITY OF S
PLANNING DEPARTMENT

SECTION I: DESCRIPTION OF PROJECT

A. GENERAL INFORMATION

1. Name of applicant; address; phone number: Judy Peyla for Cellular One 651 Gateway Blvd Suite 1300 So San Francisco CA 94080
2. Name of Project: Cell Site 173 CASC/Hostetter
3. Location of Project: 3222 Cienega Dr, San Jose
4. Detailed Description of Project: Cellular telephone facility consisting of a 12'x20' prefabricated equipment shelter and a 75' monopole supporting 12 4'3" long cellular antennae at monopole top.
5. County Assessor's Parcel Number: 249-15-004

B. LEGAL DESCRIPTION, MAPS and LIST OF PROPERTY OWNERS

RECEIVED
1995

The applicant should include the following required information with the Application for Environmental Clearance:

Legal Description of the property, either (1) metes and bounds description or (2) recorded map data.

Vicinity Map (8 1/2 x 11). A major thoroughfare/zoning map (as a base map) showing the relationship of the site to surrounding properties, on a scale of 1" = 500' (if the size is of such scale that little of the surrounding properties would be shown on a 500 scale map, a scale of 1" = 1000' may be substituted).

Aerial Photos. One copy of a recent aerial photo which clearly shows the subject project site and adjacent land uses, (scale 1" = 200'; with date of aerial photo and north arrow).

Noticing the Neighborhood. Using the latest Santa Clara County Assessor's Parcel Maps, list all of the Assessor's Parcel Numbers (APN's) for the parcel, or parts of parcels within **300 feet** of any part of the property on which your proposal is located. The list should be prepared on the mailing list provided in the application using both the current Santa Clara County Assessor's Parcel Maps and Assessor's Roll. It should contain the addresses, including apartments and suites, for each of the APN's within **300 feet** of the subject property. One (1) notice will be sent to each property owner. If a property owner resides at a different address from the address of their property, a notice must also be sent to the "Occupant" of the address.

Stamped Envelopes. A set of business-size, stamped envelopes (4 1/8" x 9 1/2") addressed to each owner and each "Occupant" on the mailing list. A return address should not be used on the envelopes. Metered postage will not be accepted because of U.S. Postal regulations which require that metered envelopes contain the purchaser's return address.

APPLICATION FOR ENVIRONMENTAL CLEARANCE

APPLICATION FOR ENVIRONMENTAL CLEARANCE

****

Section I: DESCRIPTION OF PROJECT

A. General Information: See cover sheet.

B. Legal Description, Vicinity Map, Aerial Photos and Noticing Materials attached.

C. Project Information

1. Site or Project Size: Size of leased parcel is approximately 1,275 sq. ft. Proposed prefabricated building is 240 sq. ft.

2. Number of floors of building: 1

3. Amount of off-street parking provided: No off-street parking is required because the proposed facility is an unmanned cellular transmitting/receiving facility. A service vehicle will visit the site approximately once each month. There is sufficient parking in the existing parking lot at 2222 Qume Drive. Also, there is enough room for one vehicle in the paved driveway connecting the facility to the parking lot.

4. How much or what percent of site to be occupied by buildings, landscaping, parking areas and streets: The 1,275 sq. ft. leased parcel will be occupied by a 240 sq. ft. prefabricated equipment shelter and 75 ft. monopole. The facility will be fenced. There is a 12 ft. wide, 36 ft. long driveway connecting the facility to the existing parking lot. No parking area or streets are proposed. Several shrubs are proposed along-side the driveway.

5. Plans attached as requested.

6. Industrial: One 240 sq. ft. unmanned cellular telephone equipment shelter and a 75 ft. monopole tower with 12 antennae mounted atop the monopole. No special energy or resource requirements.

7. Physical and engineering aspects of the project: Building is a prefabricated concrete shelter set on a concrete foundation. The monopole will be set on a concrete pier foundation approximately 25 ft. deep. The foundation will be properly engineered to fit the specifications of the tower and the soil type. In order to bring power to the facility from the street, a 600 ft. trench under the existing parking lot is proposed. No grading is proposed.

8. Availability of utilities: No water, sewer, or natural gas is required. Power is required and is available from the street. A trench is required to bring power back to the facility from the street (see above).

9. Public improvements necessary: None required.

10. Reservation of land for public facilities: None.

11. Project Objectives: To improve area of poor cellular coverage between I-680 and I-880, south of the Montague Expressway and north of Berryessa Road. The proposed location fulfills Cellular One's coverage objective in the target area, and the zoning classification (Industrial) is compatible with Cellular One's proposed use. See letter dated March 14, 1995 to Mr. Jim Prandi, describing Cellular One's service coverage objectives in more detail.

SECTION II: DESCRIPTION OF ENVIRONMENTAL SETTING

A. Project Site Data

The proposed project site is at 2222 Qume Drive, APN 244-15-004, a 5.33 acre parcel. The parcel is located in an Industrial zoned district. Cellular One is leasing approximately 1,275 sq. ft. in the northeast corner of the parcel. The project site is situated in the corner of the parcel in such a way as to accommodate a 15 ft. wide City of San Jose sanitary sewer easement to the south and a 30 ft. wide Southern Pacific Railroad easement to the north.

The parcel is occupied by and primarily used as a one story office/R&D building. Surrounding parcels on Qume Drive and Commerce Drive are occupied by similar buildings with similar uses. The area in which the project site is located has been an industrial/office park since at least 1990, as evidenced by the attached 1990 aerial photo. The property directly to the northwest and behind the project site is occupied by a series of greenhouse facilities.

The geological characteristics of the site are as follows: According to the 1974 San Jose Geotechnical Investigation, the soil type is Alluvium, composed of gravel, sand and clay. It is in a "Zone 6" ground response area with respect to earthquake ground movement. It was also rated "Least" susceptible to landslides. The site contains no waterways and should not be subject to flooding.

The plants currently growing on the property consist of bushes, weeds and grasses and one approximately 80 ft. tall oak tree. The oak tree will remain and Cellular One will take protective measures to ensure that no damage occurs to the tree during construction.

To the best of Cellular One's knowledge, this site has no historical, archeological or cultural significance.

In the event there are concerns regarding the Radio Frequency Fields ("RF Fields") emitted by the facility at 2222 Qume Drive, I have attached a report prepared by Hammett & Edison, Inc., Consulting Engineers, which evaluates such emissions at a similar facility installed in Cupertino. Please note that a "worst case scenario" reading of the RF Fields, taken when all transmitters at the facility were turned on at once, measured 0.63% of the most restrictive safety standard as defined in the study.

SITE PHOTOGRAPHS

Exar Corporation building located at 2222 Qume Drive. Proposed Cellular One project location is on left side of photograph, at rear of parking lot, next to tree in background.

Proposed Cellular One project location viewed from parking lot. Oak tree and basketball hoop to remain. Site specifically located to left of and behind oak tree.

SITE PHOTOGRAPHS

View from project site of greenhouse facilities located on property directly east of site.

Looking west from project site at Exar Corporation building located at 2222 Qume Drive.

SECTION III: POTENTIAL ENVIRONMENTAL IMPACTS

A. Impacts

Please check those items applicable to the project and/or its relationship to its surroundings:

Yes	No		
___	✓	1.	Substantial change to existing general contours, water courses, tidelands.
___	✓	2.	Site on filled land or on slope of 10 percent or more.
___	✓	3.	Change in bay, stream, or ground water quality or quantity, or alterations of existing drainage patterns.
___	✓	4.	Will effect flora and/or fauna on the property, including any mature trees.
✓	___	5.	Change in scenic view or vistas from existing residential areas or public lands or roads.
___	✓	6.	Subject property contains known or potential historical and/or archaeological resources.
___	✓	7.	Change in pattern, scale or character of general area of project.
___	✓	8.	Significant amounts of solid waste or litter.
___	✓	9.	Change in dust, ash, smoke, fumes or odors in vicinity.
___	✓	10.	Substantial increases in traffic related congestion, air pollution, noise in the vicinity.
___	✓	11.	Substantial change in existing glare, noise or vibration levels in the vicinity.
___	✓	12.	Use, storage, or disposal of potentially hazardous materials such as toxic substances, flammables or explosives.
___	✓	13.	Substantially increased fossil fuel consumption (electricity, oil, natural gas, etc.).
___	✓	14.	Substantial change in demand for municipal or other public services (police, fire, water, sewage, schools, etc.).
___	✓	15.	Relationship to a larger project or series of projects.
___	✓	16.	Expose people or structures to geologic hazards.

B. Mitigation or Avoidance of Impacts

Discuss mitigation measures which avoid or reduce any adverse environmental effects of the proposal marked "Yes" on the check list above. (This discussion should be on attached additional pages.)

The monopole will be visible from some points on the roads that service this industrial area. Cellular One has attempted to mitigate visual impact by placing the facility behind an approximately 80' high oak tree which offers some visual screening.

SECTION IV: CERTIFICATION AND DISCLOSURE STATEMENT FOR APPLICATION FOR ENVIRONMENTAL CLEARANCE OR PROPOSED DRAFT E.I.R.

Applicant's Statement:

The attached application for Environmental Clearance or proposed draft E.I.R. File No. #95-023-EIA, has been prepared by Bay Area Cellular Telephone Company dba Cellular One doing business as (indicate the legal name appropriate for dba designation, such as "individual", "a partnership", "a corporation", etc.).

The above-named, now has or will have the following direct or indirect economic interest or interests in the development of, or, after its completion, the operation of the project for which the attached application for Environmental Clearance or proposed draft E.I.R. has been submitted. _____

I/We declare, under penalty of perjury, that the statements furnished above pertaining to the environmental effects of a proposed project and to my/our economic interest or interests in that project are complete, true and correct to the best of my/our knowledge and belief.

Executed on March 30, 1995 at San Francisco, California

Judy Boyle
Site Acquisition Coordinator
Cellular One

Applicant's Signature(s)

In order to achieve maximum objectivity in the Environmental review process, the City requires persons, including individuals, firms, associations, partnerships, trusts, corporations, or companies, who submit to the City applications for Environmental Clearance, or who submit to the City a proposed draft E.I.R., to disclose any economic interest in the project which they have derived or will or might derive from the development of, or, after its completion, the operation of the project. This application shall apply to consultants and subcontracted consultants who prepare all, or portions of, the Environmental Clearance document or the proposed draft E.I.R. Each proponent, consultant, and subcontracted consultant shall prepare a disclosure statement as presented in this application.

You have an indirect economic interest in the project if your spouse or dependent child or agent acting on behalf owns or otherwise has an economic interest in the site upon which the project is to be developed or if your spouse or dependent child or agent acting on your behalf has a present or future economic interest in the development of, or, after its completion, operation of the project. Briefly but specifically describe each of your direct and indirect economic interests in the project. You need but disclose the nature of your economic interest in the project, not the amount of said interest. If you have no such interest, simply write "none" in the space provided.

SAN FRANCISCO

Bay Area Cellular Telephone Company • Cupertino, California

Statement of Robert D. Weller, Consulting Engineer

The firm of Hammett & Edison, Inc., Consulting Engineers, has been retained on behalf of the Bay Area Cellular Telephone Company ("Cellular One") to evaluate the new cellular telephone base station installed at 10655 Mary Avenue, Cupertino, California, for compliance with appropriate guidelines for limiting human exposure to radio frequency electromagnetic fields. The site has been designated by Cellular One as "West Sunnyvale, No. 427."

Prevailing Exposure Standards

In General Docket 79-144, the Federal Communications Commission adopted the radio frequency protection guide of the American National Standards Institute Standard C95.1-1982, "Safety Levels with Respect to Human Exposure to Radio Frequency Electromagnetic Fields, 300 kHz to 100 GHz." The effective date for applying this standard to FCC licensees was January 1, 1986, and a summary of the limits of the ANSI Standard is shown in Figure 1A. The most restrictive limit applies at frequencies between 30 and 300 MHz, where FM broadcast and VHF television stations operate; the limit is higher at UHF and cellular frequencies, as shown. The exposures are to be averaged over a six-minute interval of time, as it is the rate of absorption of radio frequency ("RF") energy that ANSI is limiting, rather than the peak exposure at any one moment.

In 1992, the American National Standards Institute ("ANSI") published ANSI/IEEE Standard C95.1-1992, a summary of which is shown in Figure 1B. This revision of C95.1-1982 defines "controlled" and "uncontrolled" environments, setting for the latter more restrictive exposure limits but longer periods for time averaging. Although there are a number of changes from the 1982 Standard, the controlled (*i.e.*, occupational) limits are approximately the same, while uncontrolled (*i.e.*, public) limits are generally five times more restrictive. Any facility complying with the 1992 Standard would also comply with the 1982 Standard. All of the calculations and measurements mentioned in this report are with respect to the most restrictive limit of either Standard.

Although the FCC has not yet acted on its expected adoption of the revised standard, the most restrictive criteria of either standard are used in this report to evaluate the exposure conditions at the cellular site. The limit for continuous exposure to RF energy at 869 MHz, the lowest frequency assigned for cellular base station use, is 2.90 mW/cm^2 (milliwatts per square centimeter) for occupational exposure situations and 0.579 mW/cm^2 (equal to 579 $\mu W/cm^2$, microwatts per square centimeter) for public exposure situations.

Bay Area Cellular Telephone Company • Cupertino, California

Site and Facility Description

The new cellular facility is located in the southwest corner of an existing self-storage facility at the foot of Mary Avenue in Cupertino, near the intersection of Highways 280 and 85. The facility consists of 32 cellular transmitters and nine antennas, as well as ancillary equipment. The antennas are arranged in three sectors of three antennas each, with one antenna of each sector used for transmission and two for diversity reception. The antennas are located near the top of a monopole; access to the base of the monopole is restricted by cyclone fencing topped with barbed wire. The transmitters, power supplies, and other equipment are located in a locked shelter next to the monopole. Data for the cellular antenna height, antenna type, and effective radiated powers have been supplied by Cellular One and are summarized in Figure 2A.

In addition to the self-storage facility, a residence is maintained on the property near the Mary Avenue gate, located approximately 650 feet to the east of the site. There is a tall skeletal tower, supporting PG&E electrical transmission lines about 35 feet away. There is also another existing cellular base station, operated by GTE Mobilnet, located approximately 575 feet to the north.

Cellular Facility Requirements

Because of the short wavelength of the frequencies assigned for cellular use, the antennas require line-of-sight paths for their signals to propagate. Therefore, they are mounted above nearby buildings, terrain, and vegetation; the energy directed toward any accessible location nearby is limited by the narrow beamwidth of the antenna elevation pattern, as shown in Figure 2B.

The radiated power of cellular facilities is generally low, in order not to create interference between adjacent cells, which often re-use the same frequencies. Because of the low power and the elevation of the antennas above ground, it is not possible for exposure conditions to approach the ANSI limits without being physically very near the antennas.

Measurement Procedure

Measurements of the RF fields near the Mary Avenue site were made by me on January 20, 1994, under two conditions: 1) with all of the Cellular One transmitters turned off (*i.e.*, measurement of the ambient fields at the site), and 2) with all of Cellular One transmitters turned on and operating at full power (*i.e.*, measurement of the maximum fields near the site). It should be noted that this second condition represents a worst case; in normal operation, the total actual power radiated by the antennas will be less, since only the number of transmitters will be operating that corresponds to the actual number of calls in progress.

The instrument used to measure the electromagnetic fields was a Holaday Industries, Inc. Model HI-3004 Isotropic Broadband Field Strength Meter, Serial No. 39822, with the HSE electric field probe, Serial No. 390. The instrument and probe were last calibrated by the manufacturer on May 1, 1992. This combination detects all electric fields in the frequency range from 0.5 to 3,000 MHz and indicates in units of electric field strength (volts per meter, or V/m). Conversion between the indicated units and the units of power density (mW/cm^2) specified in the Standard is accomplished by the following equation:

$$S = E^2 / 3770$$

where S is the power density and E is the indicated field strength. The meter and probe are capable of measuring field strength levels between 0.1 and 31 V/m, corresponding to power density levels between 0.00000265 and 0.254 mW/cm^2 (that is, between 0.00046% and 44% of the most restrictive limit specified in ANSI/IEEE C95.1-1992.)

Measurements were made throughout the vicinity of the Cellular One facility, at locations representing typical areas of uncontrolled access. At each measurement location, readings were taken from ground level up to approximately 7 feet above ground, and the highest reading at any height was recorded for that location. Measurement locations did not include the interior of any building; the fields inside a building will be less that those measured, since the building roof and walls will attenuate the cellular signals to some degree. No measurements were made in the vicinity of the existing GTE Mobilnet site, since the operating parameters of that site were not known.

Measurement Results

With all of the Cellular One transmitters turned off, the highest reading at any accessible location within 200 feet of the site was 3.1 V/m; this level is 0.0025 mW/cm^2, or 0.44% of the most restrictive Standard. The energy contributing to this ambient level is probably from the nearby GTE Mobilnet facility and extraneous readings from overhead power lines and gas-discharge lamps on the property. With all of the Cellular One transmitters turned on, the highest reading at any accessible location within 200 feet of the site increased to 3.7 V/m; this level is 0.0036 mW/cm^2, or 0.63% of the most restrictive Standard. At accessible locations beyond 200 feet from the site, the radio frequency energy levels from the Cellular One facility will be less than the highest level measured.

Other Locations

As previously discussed, the ground-level energy from the cellular site is limited by the type of antenna utilized, so that it is not possible to approach the limit of even the most restrictive Standard. If one were to approach closely the antennas themselves or to remain at a height above ground similar to that of the antennas, it might be possible to exceed that limit. There were two structures at the site tall enough that persons climbing them could possibly enter areas exceeding that limit: the monopole itself and the PG&E transmission tower. Since access to the Cellular One monopole is restricted to Cellular One employees and contractors, and since occupational access restrictions are not within the scope of this project, that structure was not analyzed.

The FCC has provided direction to the telecommunications industry on determining compliance with the ANSI Standard in its Office of Science and Technology Bulletin No. 65, "Evaluating Compliance With FCC-Specified Guidelines for Human Exposure to Radiofrequency Radiation," dated October 1985. Using the formulas given in that Bulletin, I have determined that the highest *possible* power density from the Cellular One facility on the PG&E transmission tower is 0.175 mW/cm^2, or 30.2% of the most restrictive Standard.

Conclusion

Based on the information and analysis above, it is my professional opinion that the Cellular One West Sunnyvale cellular telephone facility complies with the prevailing standards for limiting human exposure to radio frequency energy and, for this reason, does not cause a significant impact on the environment. This finding is consistent with measurements of exposure conditions taken at other cell sites, where power density levels are typically less than 1% of the prevailing standards.

List of Figures

In carrying out these engineering studies, the following attached figures were prepared by me or under my direct supervision:

1. Summary of ANSI C95.1-1982 and C95.1-1992 Standards
2. Technical specifications of proposed operation.

Affidavit

State of California
County of San Mateo | ss:

Robert D. Weller, being first duly sworn upon oath, deposes and says:

1. That he is a qualified Registered Professional Engineer, holds California Registration No. E-12627 which expires September 30, 1995, and is employed by the firm of Hammett & Edison, Inc., Consulting Engineers, with offices located near the city of San Francisco, California,

2. That he graduated from The University of California, Berkeley, in 1984, with a Bachelor of Science degree in Electrical Engineering and Computer Science, was an electronics engineer with the Federal Communications Commission from 1984 to 1993, with specialization in the areas of FM and television broadcast stations, cable television systems and satellite systems, and has been associated with the firm of Hammett & Edison, Inc., since June 1993,

3. That the firm of Hammett & Edison, Inc., Consulting Engineers, has been retained on behalf of the Bay Area Cellular Telephone Company to evaluate the new cellular telephone base station installed at 10655 Mary Avenue, Cupertino, California, for compliance with appropriate guidelines for limiting human exposure to radio frequency electromagnetic fields,

4. That he has carried out such engineering work and that the results thereof are attached hereto and form a part of this affidavit, and

5. That the foregoing statement and the report regarding the aforementioned engineering work are true and correct of his own knowledge except such statements made therein on information and belief and, as to such statements, he believes them to be true.

/s/ ROBERT D. WELLER
Robert D. Weller, P.E.

Important Note:

- This permit application or approved permit will expire after 180 days of inactivity.
- **Plans submitted with this application must be approved by the Fire Department before work can begin.**
- A final inspection approving the project must be conducted before the system may be placed into service, or considered closed.
- **Call the Hazardous Materials Division at least 48 hours in advance to schedule an inspection.**

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct and that, to the best of my knowledge, the license(s) listed above are those required for the work to be performed and are in full force and effect, or if exempt, that the exemptions meet the requirements of the Contractor's State license Law as contained in the business and Professions Code, Division 3, Chapter 9. If there is any change, which would materially affect the above information or plans submitted, I will notify the Bureau of Fire Prevention.

HAZARDOUS MATERIAL PLAN CHECK

Date: **July 7, 2004**

Project Location:	**2150 Commerce Dr.**
Facility Name:	**Dynamic Details, Inc.**
Application Date:	**May 20, 2004 (revised June 18, 2004)**
Project Contractor:	**Wesco Gas**
Type of Work/Construction:	**liquid nitrogen installation**

PLAN IS APPROVED WITH THE FOLLOWING REQUIREMENTS.

PERMITS:

1. Submit plans to the Building Division for review and approval prior to final completion of the Hazardous Materials installation. The Planning Division has already reviewed the plans per Intradepartmental Referral from Dipa Chundar dated June 10, 2004.

2. Provide copies of valid City of San Jose Business License and State of California Contractor's License for Wesco Gas prior to beginning work. (2001 CFC 105.3)

INSPECTION REQUIREMENTS:

1. A copy of the Plan Check and permit must be on site and displayed when requested. (2001 CFC 105.5)

2. Piping, tubing, pressure regulators, valves and other apparatus shall be kept gas and liquid tight to prevent leakage. As such, piping shall pass a pressure test prior to use. Pneumatic testing shall be to 110 percent of the maximum working pressure of the system, but no less than 5 PSI at the highest point of the system. Tests shall be maintained for 30 minutes and witnessed by a Hazardous Materials Inspector. (2001 CFC 7503.1.3.7)

3. Prior to using the system the installation is subject to inspection and approval including:
   - Pressure testing of the piping.
   - Proper placards, labels and signs.
   - Functional operation of low oxygen detection and alarm systems.

Project: **P-7866** Plan Check: **2004-113875-HZ**

SAN JOSE FIRE DEPARTMENT HAZARDOUS MATERI

San Jose, CA 95113-1305

HAZARDOUS MATERIAL PLAN CHECK (cont.)

- Compliance with all applicable requirements of the 2001 California Fire Code with 2002 City of San Jose amendments.
- Verification of compliance with plan check comments

STRUCTURAL & PROTECTION:

1. Containers shall be provided with substantial concrete or masonry foundations designed to withstand the low-temperature effects of cryogenic fluid spillage. (2001 CFC 7501.4.4, 7501.4.4.1)

2. Stationary containers shall be secured to foundations in accordance with the Building Code. (2001 CFC 7501.8.3)

3. The Building Department must approve all foundations and container anchoring.

4. Containers and piping shall be protected against physical damage. (2001 CFC 7501.8.5)

GAS DETECTION

1. Indoor storage areas shall be provided with a continuous gas-detection system which monitors for an oxygen-deficient atmosphere. The gas-detection systems shall initiate a local visual and audible alarm both inside and outside the storage area. A signal shall be transmitted to a constantly attended location. (1997 UFC Standard 80-4 Section 5.2.1.5)

LABELING & MARKING:

1. Warning signs shall be posted at each entrance to the room where the liquid nitrogen is utilized. Such signs shall read as follows:

WARNING – NITROGEN
HIGH CONCENTRATION OF GAS MAY OCCUR IN THIS AREA AND MAY CAUSE ASPHYXIATION. VERIFY THAT OXYGEN CONCENTRATION IS ABOVE 19.5% BEFORE ENTERING AND DURING ACTIVITY IN THIS AREA.

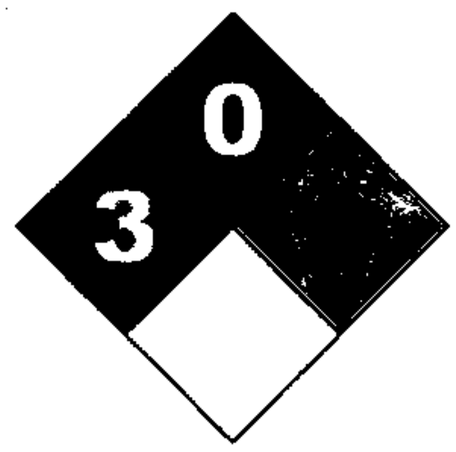
Project: **P-7866** Plan Check: **2004-113875-HZ**

SAN JOSE FIRE DEPARTMENT HAZARDOUS MATERI
4 North Second St., Suite 1100
San Jose, CA 95113-1305

HAZARDOUS MATERIAL PLAN CHECK (cont.)

2. Entry doors to the room where liquefied nitrogen is used and the enclosure gate shall be labeled and placard as follows. All such labeling shall be durable and indelible. Placards should measure not less than 7½ " x 7½" square with 3" high lettering and conform to NFPA 704 guidelines. (2001 CFC 7501.7)

Health (blue background)=**3**
Flammability (red background)=**0**
Reactivity (yellow background)=**0**
Special (white background)=**{blank}**



NITROGEN, LIQUEDFIED

3. Piping conveying cryogenic fluids shall be marked to indicate contents, concentration and direction of flow. Markings shall be provided at each valve, wall/floor/ceiling penetration, change of direction and every 20 feet or fraction thereof. Markings shall conform to ANSI A13.1 guidelines. (2001 CFC 7501.7.6, 9003.a.2.1)

Per ANSI: [redacted]

PRESSURE-RELIEF DEVICES:

1. Pressure-relief devices shall be arranged to discharge unobstructed to open air. (2001 CFC 7501.5.6)

2. Piping containing cryogenic fluids shall be equipped with pressure-relief devices when liquid can be trapped between valves in the piping system. Such pressure-relief devices shall discharge to the exterior of the building through pressure-relief vent piping. (2001 CFC 7503.1.3.4.2)

3. Pressure-relief vent piping shall be arranged so that escaping gas will discharge unobstructed to the open air. Vent lines shall be installed to exclude or remove moisture and condensation and prevent malfunction of the pressure-relief device due to freezing or ice accumulation. (2001 CFC 7501.6.3)

About the Right to Access Records: The public's right to access information concerning the conduct of the people's business is a fundamental and necessary right. A record shall not be withheld from disclosure unless it is clearly exempt under applicable laws, or unless the public interest served by not making the record public clearly outweighs the public interest served by disclosure of the record.

An email address is required so that we may respond to your request.

Records Requested

Other: Building permits, hazardous materials storage and/or use, AST and/or UST records, clarifier records.

Records Requested

All properties are adjacent to each other: 2150 Commerce Drive, San Jose CA; 2222 Qume Drive, San Jose CA; 2350 Qume Drive, San Jose CA.

Requests must be focused and reasonably describe the record(s) being sought. Try to be as clear as possible when requesting records and put date limits on your request. Offer any search clues you can and if you are informed that the records you are requesting do not exist, discuss alternatives with the City staff to whom you are making the request.

Preferred Method of Delivery

Email

Thank you,
City of San Jose

APPENDIX G

RESUMES

RESUME OF PAUL A. ROBERTS
Principal Geologist

EDUCATION

Bachelor of Science, Geology, 1987, California State University, Fullerton, California

REGISTRATION AND CERTIFICATIONS

Professional Geologist, California PG 6897
Registered Geologist, Arizona RG 42445
Ventura County Well Inspector
OSHA 40-Hour Health and Safety Training (with annual updates)
OSHA 8-Hour Health and Safety Supervisor Training

EMPLOYMENT HISTORY

1986-1996 – Applied Geosciences Inc. (environmental consulting)
1996-1998 – ATC Associates (environmental consulting)
1998-2007 – Ninyo & Moore (environmental consulting)
2007-present – Ardent Environmental Group, Inc. (environmental consulting)

PROFESSIONAL EXPERIENCE AND RESPONSIBILITIES

As a Principal Geologist for Ardent Environmental Group, Inc., Mr. Roberts conducts and coordinates high-profile hydrogeologic and geologic field evaluations. Mr. Roberts also supervises staff- and project-level geologists, engineers, and scientists to complete the installation of groundwater monitoring wells and soil and groundwater remediation systems, as well as completing pilot tests and feasibility studies for remedial system design. Mr. Roberts is very familiar with mud- and air-rotary, sonic, direct-push, and hollow stem auger drilling techniques, and interprets geophysical data and soil physical analyses to design water well construction. As part of these tasks, Mr. Roberts interacts with clients, attorneys, and agency representatives. The following presents a partial list of projects supervised and/or completed by Mr. Roberts.

- **Water Replenishment District of Southern California (District), Santa Fe Springs:** California Professional Geologist retained to log and sample deep borings in preparation to install nested groundwater monitoring wells as part of the Central Basin Groundwater Contamination Study. The work was completed to assist the United States Geological Survey (USGS) and the District to find mergence zones or pathways where known volatile organic compound (VOC)-impacted shallow groundwater could be migrating into deeper water supply aquifers. The work included drilling pilot borings using mud-rotary drilling methods to depths of approximately 518 feet below the ground surface (bgs). During drilling activities, Mr. Roberts monitored drilling conditions, logged cuttings and collected soil samples for lithological interpretation. Following drilling activities, downhole geophysical equipment, including suspension velocity measurements, resistivity, spontaneous potential and natural gamma logging, and caliper and natural gamma logging, was used to further assess lithological conditions. Based on these data, Mr. Roberts assisted representatives from the USGS and District to design and oversee installation of 10 groundwater monitoring wells. Following installation, the wells were developed and sampled.

- **Former Ashland Chemical Plant, Santa Fe Springs:** Principal Geologist retained to log and sample deep borings for the installation of groundwater monitoring, extraction, and injection wells used to characterize and remediate VOC impacted groundwater associated with a former chemical plant. Sonic, mud-rotary, and hollow stem auger drilling methods were used to drill pilot borings to depths of up to 407 feet bgs. Hydropunch sampling results and soil physical analyses were used to design deep nested groundwater monitoring and remediation wells. Well development and sampling were also completed.

- **Former Optical Lens Manufacturing Facility, Costa Mesa:** Mr. Roberts is the Project Coordinator for an on-going VOC soil and groundwater investigation/remediation effort associated with a former optical lens manufacturing facility. The investigations are being completed under the direction and oversight of the Department of Toxic Substances Control (DTSC) as part of the regional Costa Mesa Site Discovery Project. Investigations have included the installation and sampling of groundwater monitoring wells, soil investigations and characterization, indoor air monitoring, and remedial design of a soil vapor extraction system (VES).

- **Former CENCO Refinery Properties, Santa Fe Springs**: Mr. Roberts supervised and coordinated the environmental activities associated with the acquisition and redevelopment of two properties formerly occupied by the CENCO Refinery. These properties, located immediately east and southeast of the main refinery, were used by CENCO and others for product storage and oil recycling. Oil field production and oil well drilling waste disposal was also historically associated with this land. Mr. Roberts worked with the City of Santa Fe Springs Fire Department and DTSC to investigate historical environmental issues; mitigate petroleum hydrocarbon and polychlorinated biphenyl (PCB)-impacted soil through on-site management by the installation of an impermeable cap (referred to as the “PCB-Capped Area”) or by excavation; removal of underground storage tanks (USTs); methane gas assessment, mitigation design and implementation, and monitoring; groundwater well video logging and abandonment; and oil well abandonment. Currently, Mr. Roberts completes annual inspections and 5-year reviews of the PCB-Capped Area and supervises the annual monitoring of methane gas beneath the buildings.

- **Former Nissan North America Corporate Headquarters, Carson:** Project Geologist to oversee the characterization of petroleum hydrocarbon-impacted soil and groundwater associated with a release from a fuel UST. Mr. Roberts oversaw the installation of 15 groundwater monitoring wells and four vapor extraction wells. Following completion of a soil vapor extraction pilot test, Mr. Roberts designed and implemented a VES which successfully remediated the impacted soil. Groundwater remediation was completed using in-situ air stripping techniques.

- **Northwest Pipe Company Property, Jurupa Valley; Commerce Casino, Commerce; Rock-Lomita Property, Torrance; Former Ball Glass Plant, Torrance; and BMW of Riverside, Riverside:** Principal Geologist managing and coordinating environmental characterization of petroleum hydrocarbon or VOC-impacted soil associated with releases from historical manufacturing activities or USTs at a number of properties throughout Southern California. Tasks included the installation of soil remediation systems, completion of pilot studies, and the design and implementation of full-scale SVE systems. These systems were operated until effluent soil vapor concentrations and/or the results of confirmation soil samples met residential or commercial standards. During these operations,

Mr. Roberts interacted with lead regulatory agencies including the Regional Water Quality Control Board, DTSC, or local fire departments. Most of these facilities also included the installation and monitoring of groundwater monitoring wells. Some of these systems are on-going.

- **Port of Los Angeles:** Project Geologist managing several environmental projects for the Port of Los Angeles (POLA) under an on-call contract. Project Geologist interacting with POLA personnel regarding environmental issues associated with land purchases, tenant audits, and on-call remediation. Projects have involved removal of underground storage tanks at the Yang Ming Terminal and continued groundwater monitoring, and the implementation of a corrosion study at a potential automobile storage yard in the Port of Los Angeles.

- **Alameda Corridor Transportation Authority:** Project Geologist managing numerous environmental projects under an on-call remediation services contract. Projects have involved remediation of petroleum pipelines and impacted soil discovered during construction activities of the Alameda Corridor. One project involved dredging metal-impacted soil from the Port of Los Angeles, where Mr. Roberts acted as the liaison between POLA and ACTA representatives.

- **Riverside County Transportation Commission (RCTC):** Project Manager for several projects for RCTC. On one occasion, RCTC discovered impacted soil and a groundwater well during redevelopment of a property in Corona. As not to delay grading activities, Mr. Roberts successfully obtained an expedited groundwater well destruction permit with Riverside County, profiled the soil for excavation and disposal, and abandoned the well. The property was subsequently developed with a Metrolink station with minimal delays.

- **Jack in the Box and Qdoba Restaurants:** Since 1991, Mr. Roberts has acted as Project Geologist managing numerous Phase I Environmental Site Assessments and other environmental issues regarding real estate transactions for Jack in the Box Inc. Since most of the properties are corner parcels which contained historical gasoline stations, Mr. Roberts would subsequently manage and conduct Phase II Subsurface Investigations to assess whether impacted soil and/or groundwater exists at the site and, if present, characterize the extent of the contaminants. In June 2012, Jack in the Box Inc. and Qdoba Restaurants (owned by Jack in the Box Inc.) awarded Ardent Environmental Group, Inc. an on-call environmental management contract for all Jack in the Box and Qdoba properties throughout the United States. Mr. Roberts is the Project Manager for this contract which includes completing Preliminary Environmental Reviews of possible property acquisitions, completing and managing Phase I and Phase II Environmental Site Assessments and asbestos surveys, and on-call consultation regarding environmental issues and concerns.

RESUME OF TAHSIN ANNOOR
Staff Geologist

EDUCATION

Bachelor of Science, Geology, 2018, California State Polytechnic University, Pomona

REGISTRATIONS AND CERTIFICATIONS

SCAQMD Rule 403 South Coast Air Basin Fugitive Dust Control
LA County Department of Public Health Lead-Related Construction Certificate
EPA/AHERA Building Inspector, and Contractor/Supervisor
HAZWOPER 40-Hour Training (with annual updates)

EMPLOYMENT HISTORY

2018-2019 – National Engineering and Consulting Group, Inc. (environmental consulting)
2019-2021 – Panacea, Inc. (environmental consulting)
2021-present – Ardent Environmental Group, Inc. (environmental consulting)

PROFESSIONAL EXPERIENCE AND RESPONSIBILITIES

Ms. Annoor has a strong background in geology, geochemistry, environmental science, and industrial hygiene. As a Staff Geologist, her experience has included air monitoring, air quality analysis, lead-based paint surveys, soil sampling, and overseeing various subcontractors for projects relating to construction, soil excavation for contaminated media, and remediation projects. Her tasks also include coordinating environmental research, reviewing historical documents, data evaluation, and technical report preparation. Ms. Annoor's project experience includes:

- **Phase I Environmental Site Assessment:** Report preparation includes site reconnaissance, research and review of regulatory and historical land use records, and identification of potential environmental concerns and/or impacts to the site.
- **Lead-Based Paint Surveys:** Conduct surveys of commercial buildings to identify lead-based paint using handheld x-ray fluorescence (XRF) analyzers and sampling paint chips from various media for detail analysis.
- **Asbestos Sampling:** Conduct surveys of schools and commercial buildings to identify and collect samples of suspect asbestos-containing materials (ACM) and sampling of suspect materials for asbestos analysis. Support air sampling to assess asbestos fibers in air to evaluate general building conditions and for monitoring and clearance of asbestos abatement.
- **Soil Remediation:** Ms. Annoor has completed a long-term soil remediation project under the direction of the California Department of Toxic Substances Control (DTSC) that included the excavation of lead-contaminated soil from residential properties, schools, parks, and daycare centers.
