Subject: **Phase I Environmental Site Assessment**
2150 Commerce Drive, and
2222 and 2350 Qume Drive
San Jose, California

Dear Ms. Noah:

Ardent Environmental Group, Inc. (Ardent) has performed a Phase I Environmental Site Assessment (ESA) of the property located at 2150 Commerce Drive, and 2222 and 2350 Qume Drive in the city of San Jose, California (site). Work was conducted in general accordance with the proposal dated March 22, 2021 between Qume and Commerce, L.P. and Ardent, and the Invesco CMI Investments, L.P.'s Scope of Work dated January 2018. The attached report presents our methodology, findings, opinions, and conclusions regarding the environmental conditions at the site. We appreciate the opportunity to be of service to you on this project. If there are any questions, please feel free to call the undersigned at your convenience.

Sincerely,

Ardent Environmental Group, Inc.

Tahsin Annoor
Staff Geologist

EXECUTIVE SUMMARY

Ardent Environmental Group, Inc. (Ardent) was retained by Qume and Commerce, L.P. (client) to perform a Phase I Environmental Site Assessment (ESA) of the property located at 2150 Commerce Drive, and 2222 and 2350 Qume Drive in the city of San Jose, California (site). The property is currently occupied by Becton, Dickinson and Company (BD) for use as office, educational, research and development (R&D), and as a manufacturing/assembling facility. Qume and Commerce, L.P. is considering purchasing the site and leasing the property to BD for continued use until 2025, after which Qume and Commerce, L.P. will redevelop the site for commercial purposes. Site assessment activities for this Phase I ESA were conducted from March 23, 2021 to May 17, 2021. In summary, the following findings and conclusions were noted:

- The site comprises a 32-acre campus containing three commercial buildings located at 2350 Qume Drive (referred to as “Building 1”), 2222 Qume Drive (referred to as “Building 2”), and 2150 Commerce Drive (referred to as “Building 3”).
- From at least 1939 through 1974, the site was used for agricultural purposes. Building 1 was constructed in 1974; Building 3 was constructed in 1982; and Building 2 was constructed in 1984. Since 1986, BD has owned the site and used the property for office, educational, R&D, and manufacturing/assembling activities. In general, Building 1 has been used for office, R&D, manufacturing/assembling purposes; Building 2 has been used for office and educational purposes; and Building 3 has been used for manufacturing/assembling activities. Regulatory records indicate a number of other companies occupying the site since development, although it appears that most of the businesses were subsidiaries or affiliated with BD and possibly completed the same operations.
- Groundwater has been reported in the site vicinity at a depth of approximately 15 feet below the ground surface (bgs) and anticipated to flow in a northwesterly direction following surface topography and towards the San Francisco Bay.
- BD assembles medical devices such as cell sorters and analyzers (CSAs), manufactures biopharmaceutical reagents used with the CSA machines, conducts R&D to improve and/or design new products, and educates its customers in the use of the CSA machines. Tabletop manufacturing/assembling, and R&D activities are completed using small containers (pint-size) of chemicals. Some soldering is also completed during circuit board and/or motherboard assembly or repair. These activities are completed in Building 1, which has been reported on a number of regulatory databases for the use, storage, and handling of chemicals and wastes, including halogenated hydrocarbons (i.e., chlorinated solvents).
- Some small quantities of chemical uses were noted at Building 2 in the classroom settings. These activities included using small quantities of chemicals or reagents (pint-size) during educational and/or training activities. Building 2 is also listed on regulatory databases for the use, storage, and handling of chemicals and wastes. Although there was no indication in regulatory files suggesting the use of halogenated hydrocarbons (i.e., chlorinated solvents), air quality permits at Building 2 indicated the use of degreasers, which commonly use chlorinated solvents. During a site inspection by the City of San Jose Fire Department, the inspection report indicated that chemical wastes generated at Building 2 were transported and stored at Building 1 pending disposal.

- Building 3 has been reportedly used for office purpose, repair, and historically for manufacturing. Some small quantities of halogenated hydrocarbons were reportedly generated as wastes in Building 3.
- As noted above, halogenated hydrocarbons (i.e., chlorinated solvents) and degreasers have been reportedly generated/used at Buildings 1, 2, and 3. Chlorinated solvents are toxic chemicals which are highly regulated, and therefore, the use of chlorinated solvents at Buildings 1, 2, and 3 would be considered a recognized environmental condition (REC). Although other chemical wastes including metals and non-halogenated hydrocarbons have also been reportedly generated, these chemicals are less toxic. In addition, due to the small quantities used, good housekeeping practices, and good condition of the concrete flooring, there is a low likelihood that these chemicals have adversely impacted the site.
- A former occupant of the site (Exel Microelectronics, Inc. and Mage Power, formerly Rohm Corporation) was issued a Tiered Permit in Building 3 by the California Department of Toxic Substances Control (DTSC). A Tiered Permit allows a non-Resource Conservation and Recovery Act (RCRA) hazardous waste generating business to treat eligible waste streams on-site. According to DTSC, the permit was closed in 2001 under the direction of the Santa Clara County Department of Environmental Health (SCCDEH). Laboratory results of soil samples collected during the closure operations indicted low concentrations of chloromethane (at 6.3 micrograms per kilogram [ug/kg]). According to a DTSC database, a report has not been provided to the DTSC, and therefore, the current status of the permit is “inactive – needs evaluation.”
- A 12,000-gallon diesel underground storage tank (UST) was reportedly located northwest of Building 1 and was removed in 1990 under the direction and oversight of the SCVWD. Laboratory results of confirmation soil samples indicated no detectable concentrations of total petroleum hydrocarbons as diesel fuel (TPHd) and benzene, toluene, ethylbenzene, and xylenes (BTEX) beneath the UST. Laboratory results also indicated no detectable concentrations of TPHd and no detectable to low concentrations of toluene, at 0.009 parts per million (ppm) in one sample collected at 3 feet below the ground surface (bgs) below a piping run. Groundwater depth was reported to be 15 feet bgs, which was measured in an on-site groundwater monitoring well. Based on these results, it was concluded that groundwater was not threatened by the reported release of toluene from the piping run. Based on these results, the SCVWD issued a case closure letter dated February 5, 1992. Ardent has reviewed these data and concurs with the SCVWD that no further work is needed.
- Based on the age of Building 1 (1974) and Building 3 (1982), asbestos-containing building materials (ACMs) and lead-based paint (LBP) are likely present. Based on the age of Building 2 (1984), friable ACMs are not likely present, although, non-friable ACMs such as roofing materials and mastics may still be present. LBP is not likely present in Building 2. Suspect ACMs appeared in good condition and no peeling paint was observed during site reconnaissance. Based on this information, no immediate asbestos or LBP abatement is needed.
- No other on- or off-site environmental concerns were noted.

CONCLUSIONS

Ardent has performed this Phase I ESA in general conformance with the scope and limitations of the American Society for Testing and Materials (ASTM) Practice E 1527-13, ASTM Practice E

2600-15, and the Environmental Protection Agency (EPA) Standards and Practices for All Appropriate Inquiry (AAI), Final Rule (40 CFR, Part 312), for the property located at 2150 Commerce Drive, and 2222 and 2350 Qume Drive in the city of San Jose, California. Any limitations or exceptions encountered during completion of this report are stated in Section 2.4. Based on this Phase I ESA, no evidence or indication of RECs, historical-RECs (HRECs), controlled-RECs (CRECs), or conditions indicative of releases or threatened releases of hazardous substances on, at, in, or to the site has been revealed, except for the following:

RECs

- The reported use of halogenated hydrocarbons and degreaser at Buildings 1, 2 and 3.

HRECs

- No HRECs were identified during completion of this Phase I ESA.

CRECs

- No CRECs were identified during completion of this Phase I ESA.

De-Minimis Conditions

- Although not considered an environmental concern to the site, ACMs and LBP are likely present.
- Tiered Permit needing further evaluation associated with Building 3.

RECOMMENDATIONS

Based on the information obtained during this assessment, Ardent has the following recommendations:

- A subsurface investigation should be completed in the vicinity of Buildings 1, 2, and 3 as part of a screening technique to assess whether elevated concentrations of halogenated hydrocarbons are present due to the on-site use, storage, or handling of these chemicals.
- For precautionary measures, a subsurface investigation should be completed in the vicinity of Building 3 as a screening technique to assure that residual contaminants are not present associated with the Tiered Permit. The Tiered Permit closure document reportedly completed in 2001 should be obtained from the SCCDEH and provided to the DTSC for state closure.
- Prior to major renovations or demolition activities, a comprehensive asbestos and LBP survey should be completed. If present, these materials should be removed (ACMs) or stabilized (LBP) by a state-licensed abatement contractor prior to renovation or demolition activities. If the property is leased, an Operation and Maintenance (O&M) Plan should be prepared and implemented.

1 SUMMARY

Environmental Assessment Overview/Summary								
Property Name:								
Address: 2150 Commerce Drive, and 2222 and 2350 Qume Drive, San Jose, California								
Assessment Section	Acceptable (Y or N)	Acceptable Requires O&M	Additional Research or Receipt of FOIA Request Req'd	Phase II Req'd	Abatement Required	HREC	CREC	Estimated Cost
Historical Review	Y							
Regulatory Review	Y

Notes:

(1) Prior to major renovations or demolition activities, a comprehensive asbestos and LBP survey should be completed. If present, these materials should be removed (ACMs) or stabilized (LBP) by a state-licensed abatement contractor prior to renovation or demolition activities.
(2) A subsurface investigation should be completed in the vicinity of Buildings 1, 2, and 3 as part of a screening technique to assess whether elevated concentrations of halogenated hydrocarbons are present due to the on-site use, storage, or handling of these chemicals.
(3) For precautionary measures, a subsurface investigation should be completed in the vicinity of Building 3 as a screening technique to assure that residual containments are not present associated with the Tiered Permit. The Tiered permit closure document reportedly completed in 2001 should be obtained from the SCCDEH and provided to the DTSC for state closure

2 INTRODUCTION

Ardent Environmental Group, Inc. (Ardent) was retained by Qume and Commerce, L.P. (client) to perform a Phase I Environmental Site Assessment (ESA) of the property located at 2150 Commerce Drive, and 2222 and 2350 Qume Drive in the city of San Jose, California (site; Figure 1). Work was conducted in general accordance with the proposal dated March 22, 2021 between Qume and Commerce, L.P. and Ardent, and the Invesco CMI Investments, L.P.'s Scope of Work dated January 2018 (referred to herein as "Invesco's Scope of Work"). The property is currently occupied by Becton, Dickinson and Company (BD) for use as office, educational, research and development (R&D), and as a manufacturing/assembling facility. Qume and Commerce, L.P. is considering purchasing the site and leasing the property to BD for continued use until 2025, after which Qume and Commerce, L.P. will redevelop the site for commercial purposes. The following sections identify the purpose, the involved parties, the scope of work, and the limitations and exceptions associated with the Phase I ESA.

2.1 Purpose of Phase I ESA

In accordance with the American Society for Testing and Materials (ASTM) E 1527-13 Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process (ASTM Standard E 1527-13), the objective of the Phase I ESA was to identify, to the extent feasible pursuant to ASTM Standard E 1527-13, recognized environmental conditions (RECs), historical-RECs (HRECs), controlled-RECs (CRECs), or conditions indicative of releases or threatened releases of hazardous substances on, at, in, or to the subject property.

ASTM defines RECs as "…the presence or likely presence of any hazardous substance or petroleum products in, on, or at a property: (1) due to any release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment." ASTM defines HRECs as "…a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls)." ASTM defines CRECs as a REC "…resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority

(for example, as evidenced by the issuance of a no further action letter or equivalent, or meeting risk-based criteria established by regulatory authority), with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls)."

Other environmental considerations include Site features or conditions that may have an environmental component of interest, but which do not meet the ASTM definition of a REC, CREC, or HREC. ASTM does not necessarily require any actions to address the presence or condition, but such conditions are identified for the sake of thoroughness and completeness.

The United States Environmental Protection Agency ("USEPA" or "EPA") has stated that ASTM Standard E 1527-13, is consistent with the Standards and Practices for All Appropriate Inquires (AAI), Final Rule (40 Code of Federal Regulations [CFR], Part 312) and is compliant with the statutory criteria for all appropriate inquires. All appropriate inquires, as defined in the AAI Final Rule, must be conducted by persons seeking the landowner liability protections under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) prior to acquiring a property or seeking or receiving federal Brownfields grants under the authorities of CERCLA. The purpose of AAI, as defined in the AAI Final Rule, was to identify releases and threatened releases of hazardous substances which cause or threaten to cause the incurrence of response costs.

As part of this Phase I ESA, Ardent also assessed whether a vapor encroachment condition (VEC) exists at the site. The VEC assessment was completed following the ASTM E 2600-15 Standard Guide for Vapor Encroachment Screening on Property Involved in Real Estate Transactions (ASTM Standard E 2600-15). The objective of this work was to evaluate whether possible contaminants (e.g., volatile organic compounds [VOCs]) are present in soil and/or groundwater in the site vicinity which might pose a possible vapor intrusion into existing or future buildings at the site.

2.2 Involved Parties

Ms. Tahsin Annoor of Ardent conducted the historical research, regulatory inquiries, site reconnaissance, and document review. Mr. Paul Roberts, who meets the definition of an *environmental professional* as set forth in the AAI Final Rule, completed oversight and review.

2.3 Scope of Work

Ardent's scope of work for this Phase I ESA is consistent with ASTM Standard E1527-13, E-2600-15, and Invesco's Scope of Work, and included the activities listed below.

- **Review of User Provided Information** – Review of information regarding title and judicial records for environmental liens or activity and use limitations, recorded environmental liens, actual or specialized knowledge or commonly known information regarding environmental conditions at the site, the relationship of the purchase price of the property to the fair market value, readily available maps, environmental reports, and other environmental documents pertaining to the site, as available and obtained from the user/client.
- **Records Review** – Acquisition and review of records, including federal, state, tribal, and local regulatory agency databases, for the site and for properties located within a specified radius of the site; local regulatory agency files for the site and selected nearby properties of potential environmental concern; physical setting sources, including topographic maps, geologic maps, and geologic and hydrogeologic reference documents; and historic land use information including aerial photographs, historical fire insurance rate maps, building department records, and city directories, as necessary, that are reasonably ascertainable, publicly available, can be obtained within reasonable time and cost, and are practically reviewable.
- **Vapor Encroachment Condition (VEC)** – Review available regulatory and client provided data to assess Tier 1 non-numeric screening for the site. Ardent evaluated whether contaminants were present in soil and/or groundwater in the site vicinity which might pose a VEC at the site.
- **Site Reconnaissance** – Performance of a site reconnaissance to visually observe the site and any structure(s) located on the site to the extent not obstructed by bodies of water, adjacent buildings, or other obstacles. The purpose of the site reconnaissance is to obtain information indicating the likelihood of identifying RECs in connection with the site, including the general site setting, site usage, use and storage of hazardous materials and petroleum products, disposal of waste products and materials, sources of polychlorinated biphenyls (PCBs), and evidence of releases and possible risks of contamination from activities at adjacent properties.
- **Interviews** – Interviews with site representatives, including owners, occupants, and site managers, regarding the environmental condition of the site to the extent necessary and such persons are available. Interviews with state and/or local government officials as necessary.
- **Report** – Evaluation of the information and data obtained by the Phase I ESA process outlined above and preparation of this Phase I ESA report documenting findings and providing opinions and conclusions regarding possible environmental impacts and RECs at the site.

2.4 Limitations and Exceptions

The environmental services described in this report have been conducted in general accordance with current regulatory guidelines and the standard-of-care exercised by

environmental consultants performing similar work in the project area. No warranty, expressed or implied, is made regarding the professional opinions presented in this report.

This document is intended to be used only in its entirety. No portion of the document, by itself, is designed to completely represent any aspect of the project described herein. Ardent should be contacted if the reader requires any additional information or has questions regarding the content, interpretations presented, or completeness of this document.

The findings, opinions, and conclusions are based on an analysis of the observed site conditions and the referenced literature. It should be understood that the conditions of a site could change with time as a result of natural processes or the activities of man at the site or nearby properties. In addition, changes to the applicable laws, regulations, codes, and standards of practice may occur due to government action or the broadening of knowledge. The findings of this report may, therefore, be invalidated over time, in part or in whole, by changes over which Ardent has no control. Ardent cannot warrant or guarantee that not finding indicators of any particular hazardous material means that this particular hazardous material or any other hazardous materials do not exist on the site. Additional research, including invasive testing, can reduce the uncertainty, but no techniques now commonly employed can eliminate the uncertainty altogether.

2.5 Special Terms and Conditions

As indicated in Section 13.1.5 of ASTM Standard E 1527-13, the following, which is not intended to be all inclusive, represents out-of-scope items with respect to a Phase I ESA: asbestos-containing materials (ACMs), radon, lead-based paint (LBP), lead in drinking water, wetlands, regulatory compliance, cultural and historic risk, industrial hygiene, health and safety, ecological resources, endangered species, indoor air quality unrelated to releases of hazardous substances or petroleum products into the environment, biological agents, and mold. As part of Invesco's Scope of Work, Ardent evaluated other possible concerns including ACMs, radon, LBP, lead in drinking water, wetlands, regulatory compliance, indoor air quality, and mold. In addition, ASTM Standard E 2600-15 supplements the ASTM Standard E 1527-13 to include evaluation of VEC using Tier 1 screening.

This study did not include an evaluation of geotechnical conditions or potential geologic hazards. In addition, Ardent did not address interpretations of zoning regulations, building code requirements, or property title issues.

2.6 User Reliance

This report is addressed to Invesco CMI Investments, L.P., a Delaware limited partnership (Invesco), and such other persons as may be designated by Invesco and their respective successors and assigns. Special Conditions include (i) the Report may be relied upon by Invesco in determining whether to make a loan evidenced by a note ("the Property Note") secured by the Subject Property, (ii) the Report may be relied upon by any purchaser in determining whether to purchase the Property Note from Invesco and any nationally recognized statistical rating organization rating or performing a ratings analysis on securities backed by or representing an interest in the Property Note, (iii) the Report may be referred to in and included with materials offering for sale the Property Note or an interest in the Property Note, (iv) persons who acquire the Property Note or an interest in the Property Note may rely on the Report, (v) the Report speaks only as of its date in the absence of a specific written update of the Report.

This report is for the use and benefit of, and may be relied upon by, Invesco and any of their respective affiliates, agents and advisors, the initial and subsequent holders from time to time of any debt (or any portion thereof) and/or debt securities secured, directly and indirectly, by the property which is the subject of this report, by any participation interest in any such debt (or any portion thereof), and indenture trustee, servicer or other agent acting on behalf of such holders of such debt (or any portion thereof) and/or debt securities; any rating agencies; and the institutional provider(s) from time to time of any liquidity facility or credit support for such financings, and their respective successors and assigns.

In addition, this report or a reference to this report, may be included or quoted in any offering circular, registration statement, private placement memorandum, prospectus or sales brochure (in either electronic or hard copy format) in connection with a securitization or transaction involving such debt (or any portion thereof) and or debt securities.

2.7 Physical Limitations

No physical limitations were encountered during the completion of this Phase I ESA report.

2.8 Data Gaps

No significant data gaps were noted during the preparation of this Phase I ESA report.

3 GENERAL SITE CHARACTERISTICS

The following sections describe the location and the current uses of the site and adjacent properties. A site location map is presented as Figure 1, a site vicinity map is presented as Figure 2, and site plans of each of the three buildings located on-site are presented on Figures 3 through 5. Selected photographs of the site and surrounding properties are provided in Appendix A.

3.1 Location and Legal Description

The site comprises a 32-acre campus containing three commercial buildings addressed at 2350 Qume Drive, 2222 Qume Drive, and 2150 Commerce Drive in the city of San Jose, California (Figure 2). The site comprises three parcels and has been assigned the Santa Clara County Tax Assessor's Parcel Numbers (APNs) of 244-15-026, 244-15-020, and 244-15-003. The legal description of the parcels and each of the three buildings located on-site is provided on the Preliminary Title Reports included in Appendix B.

The site is bounded as shown on Figure 2. Site boundary information was obtained during the site reconnaissance and from information provided by the client.

3.2 Site Description and Current Site Uses/Operations

The following paragraphs present a description of the site, the activities being conducted on-site, the heating and cooling systems utilized in the site building, the sewage disposal system, and the potable water provider for the site, if any.

3.2.1 Site Description

The site is an irregular-shaped property that comprises of approximately 32-acre campus containing three commercial buildings. Building 1 is a two-story building and has been used as office, R&D, and for manufacturing/assembling purposes, Building 2 is a single-story building and has been used as office, classroom and for educational purposes, and Building 3 is also a single-story building and has been used as office and manufacturing/assembling purposes.

3.2.2 Occupants

At the time of this assessment, BD occupied the site. BD assembles medical devices such as cell sorters and analyzers (CSAs), manufactures biopharmaceutical reagents used with the CSA machines, conducts R&D to improve and/or design new products, and educates its customers in the use of the

CSA machines. Tabletop manufacturing/assembling, and R&D activities use small quantities of chemicals. Some soldering is also completed during circuit board and/or motherboard assembly or repair.

3.2.3 Heating and Cooling Systems

General heating and cooling systems for the on-site buildings use electricity and natural gas obtained from local utility providers.

3.2.4 Sewage Disposal/Septic Systems

On-site sewage disposal, such as septic tanks or leach fields, were not observed or historically reported for the site. The site is currently connected to the municipal sewer system.

3.2.5 Potable Water

Potable water is supplied by the local water purveyor.

3.3 Adjacent Properties

In general, the site vicinity comprises residential and commercial/industrial properties (Figure 2). A large residential area consisting of single and multi-family homes is located east of the site, beyond the Bay Area Rapid Transit (BART) system. Frito-Lay San Jose Distribution Center and an unnamed warehouse building are immediately east and adjacent to the site. Beyond these buildings is ASML HMI (a semiconductor manufacturer). A U.S. Postal Service Transportation Yard and Lumentum (an optical communications network and manufacturer) are located southeast of the site. Immediately north of the site are five multi-tenant commercial and retail buildings. L&T Precision Engineering (a machine manufacturing/assembling shop) is located immediately northwest of the site. ACCO Engineered Systems (HVAC contractors), Lundy Plaza (multi-tenant commercial and fast-food buildings), and IPG Photonics Corporation (a fiber laser manufacturer) are located west of the site. North East Medical Services and CeeNee Inc. (an electrical supply store) are located immediately south-southwest and adjacent to Building 3.

No above ground storage tanks (ASTs), evidence of underground storage tanks (USTs), or large quantities of possible hazardous materials or wastes were noted being stored by off-site facilities along the site property line.

4 USER PROVIDED INFORMATION

The following sections summarize information provided by the user to assist the environmental professional in identifying the possibility of RECs in connection with the site, and to fulfill the user's responsibilities in accordance with Section 6 of ASTM Standard E 1527-13. A copy of the user questionnaire is presented in Appendix B. The questionnaire was completed by Ms. Angela Noah of Qume and Commerce, L.P.

4.1 Current Title Information

Qume and Commerce, L.P. provided Ardent with three Preliminary Title Reports (PTRs) corresponding to each of the buildings located on-site for review. The PTRs are prepared by Fidelity National Title Company and are dated November 30, 2020 for Building 3 (2150 Commerce Drive), December 10, 2020 for Building 2 (2222 Qume Drive), and December 12, 2020 for Building 1 (2350 Qume Drive). According to the PTRs, the current owner of the site is "Becton, Dickinson and Company, a New Jersey corporation." Copies of the PTRs are provided in Appendix B.

4.2 Environmental Liens or Activity and Use Limitations

No environmental liens or activity and use limitations (AULs) associated with the site were noted in the PTRs, and Ms. Noah was not aware of any environmental liens or AULs against the site that are filed or recorded under federal, state, or local law.

4.3 Specialized Knowledge

Ms. Noah has indicated that she has no specialized knowledge or experience pertaining to the site or the adjacent properties that are material to RECs in connection with the site.

4.4 Commonly Known or Reasonably Ascertainable Information

Ms. Noah is not aware of commonly known or reasonably ascertainable information pertaining to the site.

4.5 Valuation Reduction for Environmental Issues

In a transaction involving the purchase of a parcel of commercial real estate, the user shall consider the relationship of the purchase price of the property to fair market value of the property if the property was not affected by hazardous substances or petroleum products. Ms. Noah indicated that the purchase price reflects fair market value.

4.6 Reason for Performing Phase I ESA

Ardent was retained by Qume and Commerce, L.P. to perform the Phase I ESA as part of its real estate due diligence activities for acquisition of the site.

4.7 Other User Provided Information

The client provided two Phase I ESA reports for Building 3 at 2150 Commerce Drive. The first Phase I ESA was completed by E_2C, Inc. in 2000 (referred to herein as the "2000 Phase I ESA") and the second Phase I ESA was completed by ERM dated 2010 (referred to herein as the "2010 Phase I ESA"). Copies of the Phase I ESA reports are provided in Appendix C.

Both reports indicated that Building 3 was currently and historically used for office space, although the 2010 Phase I ESA also indicated that manufacturing activities were completed at this property. Little to no chemical uses were noted in regulatory files and databases, and during the site visits. No suspect environmental concerns were noted by both consultants. The 2000 Phase I ESA recommended no further work, although the 2010 Phase I ESA did not include recommendations.

The 2010 Phase I ESA indicated that a former site operator, Exel Microelectronics, was listed on a regulatory database as having had a "waste" tank installed in 1983, with the capacity of the tank listed as 60,600 (units not specified) and reads "6 inches" under the tank construction field. Since no additional information was available regarding the size, material, location, use or fate of the UST, ERM concluded that the UST identified at the Building 3 property was most likely a mistake and possibly associated with another property.

It should be noted that the Building 3 address has served as the site administrative address for the BD campus, and therefore, may have been used as its mailing address for permits and other documents. As noted herein, a historical 12,000-gallon diesel UST was located northwest of Building 1 (2350 Qume Drive). The historical UST was removed in 1990 under the direction and oversight of the Santa Clara Valley Water District (SCVWD). Laboratory results of confirmation soil samples indicated no detectable concentrations of total petroleum hydrocarbons as diesel fuel (TPHd) and benzene, toluene, ethylbenzene, and xylenes (BTEX) beneath the UST. Laboratory results also indicated no detectable concentrations of TPHd and no detectable to low concentrations of toluene, at 0.009 parts per million (ppm) in one sample collected at 3 feet below the ground surface (bgs) below a piping run. Groundwater depth was reported to be 15 feet bgs, which was measured in an on-site groundwater monitoring well.

Based on these results, it was concluded that groundwater was not threatened by the reported release of toluene from the piping run. Based on these results, the SCVWD issued a case closure letter dated February 5, 1992. Ardent has reviewed these data and concurs with the SCVWD that no further work is needed. Since this UST was listed on a number of regulatory databases for Building 1, Ardent concurs with ERM that the listing of a UST at Building 3 is likely a mistake. A copy of the regulatory closure letter is provided in Appendix C.

5 PHYSICAL SETTING

The following sections include discussions of topographic, geologic, and hydrogeologic conditions in the vicinity of the site, based upon our document review and our visual reconnaissance of the site and adjacent areas.

5.1 Site Topography

Based on the review of the United States Geological Survey (USGS) 7.5 Minute Series, Milpitas, Calaveras Reservoir, San Jose East, and San Jose West, California, Topographic Quadrangle Map dated 1980, the site has an elevation of approximately 65 feet above mean sea level (msl) and slopes to the west.

5.2 Geology

The site is located within the central portion of the Coast Ranges. The city of San Jose is bounded by the San Andrea Fault to the west and the Calaveras Fault to the east. The site is underlain by alluvium deposits of Quaternary age. The alluvium consists of gravel, sand, sandy silt, silt, and clay with shale pebbles.

5.3 Soil Types

As requested in Invesco's Scope of Work, Ardent reviewed the United States Department of Agriculture (USDA) Natural Resources Conservation Service's (NRCS) Web Soil Survey (WSS) website. Based on our review, the site is mapped as underlain by 70 percent urban land. In general, the soil is profiled as consisting sandy loam, silty clay loam, very gravelly sand, and loam, with strongly contrasting textural stratification at depths of 16 to 40 inches bgs. The soil is also identified to have a "well drained" drainage class.

5.4 Oil and Gas Maps

Based on a review of the California Department of Conservation, Geologic Energy Management Division (CalGEM) on-line well finder, the site does not lie within an active oil field.

5.5 Site Hydrology

The following sections discuss the site hydrology in terms of both surface waters and groundwater.

5.5.1 Surface Waters

No natural water bodies are located on or adjacent to the site.

5.5.2 Groundwater

Groundwater information was obtained from the Case Closure Letter associated with the historical UST removal previously discussed in Section 4.7. According to the information in the case closure letter, a temporary groundwater monitoring well was installed at the site and groundwater was measured at a depth of approximately 15 feet bgs. Groundwater is anticipated to flow to the northwest, generally following surface topography towards the San Francisco Bay. The groundwater well was abandoned and is no longer present. Although the site vicinity has been used for industrial/manufacturing purposes, no significant impacted groundwater has been reported.

6 HISTORICAL LAND USE

Ardent conducted a historical land use record search for both the site and surrounding areas. This included a review of one or more of the following sources that were found to be both reasonably ascertainable and useful for the purposes of this Phase I ESA: historical aerial photographs, historical fire insurance maps, historical city directories, building permits and plans, topographic maps, property tax records, zoning/land use records, and a review of a prior environmental assessment report regarding the site. Copies of historical data are provided in Appendix D.

6.1 Summary of Historical Land Use of the Property

From at least 1939 through 1974, the site was used for agricultural purposes. Building 1 was constructed in 1974; Building 3 was constructed in 1982; and Building 2 was constructed in 1984. Since 1986, BD has owned the site and used the property for office, educational, R&D,

and manufacturing/assembling activities. In general, Building 1 has been used for office, R&D, manufacturing/assembling purposes; Building 2 has been used for office and educational purposes; and Building 3 has been used for manufacturing/assembling activities. Regulatory records indicate a number of other companies occupying the site since development, although it appears that most of the businesses were subsidiaries or affiliated with BD and possibly completed the same operations.

6.2 Summary of Historical Land Use of Adjoining Properties

The site vicinity was used for agricultural purposes from at least 1939 through 1974. By 1979, portions of the site vicinity were redeveloped with commercial and/or industrial buildings. By 1982, the southern adjacent properties were redeveloped with commercial and/or industrial buildings. By 1993, the site vicinity was further redeveloped for commercial and/or industrial use, and by 2006, no more agricultural areas or vacant land were visible.

6.3 Fire Insurance Rate Maps

Historical Sanborn Fire Insurance Rate Maps (Sanborn maps) were requested from Environmental Data Resources Inc. (EDR) of Milford, Connecticut. According to EDR, no Sanborn Maps were available for the site and/or the site vicinity.

6.4 Historical Aerial Photographs

Historical aerial photographs for selected years between 1939 and 2016 were provided by EDR. The following presents a summary of our review.

- **1939, 1940, 1948, 1950, 1956, 1963, and 1968** – The site and the site vicinity were used for agricultural purposes or were vacant land. No significant urban development noted except for sporadic development of small structures, possibly used for residential or farming purposes in the general site vicinity. Based on the historical topographic maps, by at least 1953, the railway adjacent to the northeastern part of the site was developed.
- **1974** – By at least 1974, the site continued to be used for agricultural purposes; however, major developments with large structures possibly associated with farming and agriculture is observed in the site vicinity, and large residential growth west and southwest of the site beyond the railroad is also observed.
- **1979, 1982, 1993, 1998, 2006, 2009, 2012 and 2016** – Between 1979, 1982, and 1993, the site is redeveloped with the three existing buildings in its current configuration. The site vicinity shows significant urban development with industrial and commercial buildings around the site, and significant residential development east of the site beyond the railroad. By at least 2006, the site and the site vicinity appear in similar configuration as observed during the site reconnaissance.

6.5 Planning and Building Department

Building permits are issued and maintained by the City of San Jose Planning, Building, and Code Enforcement Division (SJPBCED) for the site and surrounding properties. These records are available for online review at the SJPBCED website. Based on our review, the Planning and Code Enforcement Division did not have records pertaining to the site. The Building Department contained records for review.

The available records included permits for tenant improvements, roof repairs, fire engineering and additions/alterations. Permits that may be of importance for the purposes of this report include permits for the installation of carbon-dioxide (2004) and cryogenic system tanks (2006), installation of the large 1,979-gallon diesel AST for an emergency generator (2012) and a 168-gallon diesel AST for an emergency generator associated with the fire suppression system (2020) for Building 1; a permit and a site plan to develop the existing cell tower (1995) for Building 2; installation permit for compressed gas tanks (2004) and the original building permit (1982) for Building 3. No records of environmental concern or violations were noted for the site.

6.6 City Directories

Ardent reviewed city directories obtained from EDR for the site and surrounding site vicinity for selected years between 1922 and 2017. Based on a review of the historical listings, commercial and/or industrial businesses have been the primary occupants of the site since at least 1985. In 1957, the site vicinity was listed as residential use, possibly relating to agriculture, or farming. By the mid-1980s, commercial and/or industrial businesses were noted as the primary occupants of the site vicinity. No records were available for the site prior to 1985 and no records were available for the site vicinity prior to 1957. The following is a summary of the directory listings for the site:

Building 1 (2350 Qume Drive)

BMI and Clontech Lab, Inc. (2004), Guckenheimer Enterprises, Inc. (2004–2009), Genpharm International (1999–2000), Matrix Pharmaceutical, Inc. (1994), Fluor Daniel, Inc. (1991), Becton Dickinson & Company (BD Biosciences, and etc.) (1991–2017), ITT Information Systems Headquarters (1986), Qume Corporation: A Subsidiary of ITT Corporation (1985–1986)

Building 2 (2222 Qume Drive)

T Nguyen (2004), I M S International Manufacturing (1999–2000), Sierra Semiconductor Corporation (1996), and E X A R Corp Marketing (1994).

Building 3 (2150 Commerce Drive)

Becton Dickinson & Company (2014–2017), Dynamic Details, Inc. and VMS LLC (2009), Unknown Occupant (2004), Magepower Semiconductor Corporation (1999–2000), Rohm Corporation (1996–2004), Ueda Kelzo (1991), and Excel Microelectronics, Inc. (1985–2000)

6.7 Historical Topographic Maps

Historical topographic maps for the site were obtained from EDR. The maps provided for the site were dated 1889, 1897, 1899, 1953, 1961, 1968, 1973, 1980, and 2012. Maps dated 1889, 1897, 1899 and 2012 show the site location relative to its surrounding topography, elevation, and road development. Maps dated 1953, 1961, 1968, and 1973 show the site and the site vicinity used for agricultural purposes with increasing urban development in the site vicinity. By at least 1980, Building 1 located at 2350 Qume Drive is noted on site, and the site vicinity is comprised of developed urban area. The topographic maps were large scale and did provide any additional pertinent details regarding the site.

6.8 Interviews

Interviews were conducted by Ardent with key site personnel (e.g., past, and present owners, operators, and/or occupants) with the objective of obtaining information indicating RECs in connection with the site. The following are the site personnel interviewed for purposes of this assessment.

6.8.1 Interview with Owner

The owner was not available.

6.8.2 Interview with Site Manager

No site manager was available to interview.

6.8.3 Interviews with Occupant

BD occupied the site. Ardent interviewed Ms. Dina Craw, Senior Manager of Environmental Health & Safety for BD. The information obtained from this interview is presented throughout this report.

6.8.4 Interviews with Local Government Officials

Representatives of local regulatory agencies were interviewed during the completion of this report. The information obtained is presented throughout this report.

6.8.5 Interviews with Others

No other interviews were conducted during this Phase I ESA.

6.9 Previous Reports and Documents

As summarized in Section 4.7, the client provided Ardent two Phase I ESAs completed for Building 3. No other information was provided.

7 SITE RECONNAISSANCE

The site and site vicinity reconnaissance were performed by Ardent on April 8, 2021. The site reconnaissance involved a walking tour of the site and visual observations of adjoining properties. Ardent toured the site with Ms. Craw, Senior Manager of Environmental Health & Safety of BD. There were no weather-related obstructions at the time of the site reconnaissance. Selected photographs taken during these activities are included in Appendix A.

At the time of the site reconnaissance, the three buildings located on-site were occupied by BD. In general, Building 1 was used for office, R&D, and manufacturing/assembling purposes; Building 2 was used for office and educational purposes; and Building 3 was used for manufacturing/assembling activities (Figure 2).

BD assembles medical devices such as CSAs, manufactures biopharmaceutical reagents used with the CSA machines, conducts R&D to improve and/or design new products, and educates its customers in the use of the CSA machines. Tabletop manufacturing/assembling, and R&D activities are completed using small containers (pint-size) of chemicals. Some soldering is also completed during circuit board and/or motherboard assembly or repair.

The CSAs are approximately the size of a large microwave that sorts various cells in blood, urine, etc. based on the sorting specifications set by the user (i.e., cancer cells, etc.). Different reagents

are manufactured for use with the CSAs depending on user specific criterion. These reagents are a proprietary mixture of liquid chemicals. Individual parts of the CSA machines, such as the exterior plastic body, and any interior circuit/motherboards, wires, metals, and/or optical components are delivered to the site, where they are manually assembled in tabletop settings in the warehouse-assembly area. Prior to assembly, small soldering adjustments are made to the circuit/motherboards for use in the CSA machines. Manufacturing of the biopharmaceutical reagents and R&D activities are completed by individual personnel in tabletop laboratory settings. The final manufactured/assembled products (reagents and CSAs) are packaged and stocked on-site until they are sold and distributed to various academic and government institutions, hospitals, clinics, etc. Quality assurance and quality control of final products is also completed at the site.

The following presents a summary of activities completed at each of the three buildings.

Building 1

R&D, product assembly, and reagent manufacturing activities take place in Building 1 (Figure 3). A large pond is located immediately southeast of the building and is used for emergency fire suppressant. An emergency generator with a 250-gallon diesel AST is used to power the electric pump used for this emergency system. A larger emergency generator with a 1,979-gallon diesel AST is located in the northern portion of the building and is used for emergency operation throughout the building. Chemicals used during reagent manufacturing and the assembly process are in small quantities (pint-size); however, chemical wastes are generated throughout the day. Hazardous materials and wastes are stored in a small Hazardous Waste Storage Area west of the building (Figure 3). This covered area is raised, has no sumps or floor drains, and is secondary contained. Two pad mounted electrical transformers are also located west of the site (Figure 3). A cooling tower is located northeast of the building, with a few drums containing acids used for descaling the cooling towers (Figure 3). A Bloom Energy Server Module (high efficiency power generator) is located west of the building (Figure 3). Compressed gas canisters and carbon-dioxide canisters are stored west of the building (Figure 3). A stormwater sampling pit and two effluent wastewater sampling points were also noted on-site. BD reportedly samples effluent wastewater for pH and adjusts these materials as needed.

Building 2

Building 2 is used as an office and for educational purposes to teach customers and employees how to use the machines and reagents (Figure 4). Small quantities of chemicals (pint-size) are

used in the classrooms. Wastes generated are transported to and stored at Building 1. The northeast corner of this parcel is leased to a cellular company for use as a cell-tower (Figure 4). The cell tower maintains an emergency generator with a 190-gallon diesel AST. Another emergency generator with a 385-gallon diesel AST is located southeast of the building (Figure 4). One pad mounted electrical transformer is located south of the building (Figure 4). This transformer is the property of Pacific Gas and Electric Company (PG&E) as noted by the placard mounted to its exterior.

Building 3

Building 3 is used as an office, and as a small repair shop where customers send defective CSAs for troubleshooting or repair. The repair shop area includes minor soldering activities of circuit/motherboards (Figure 5). One emergency generator with a 227-gallon diesel AST is located southwest of the building (Figure 5).

The following presents a summary of the site reconnaissance.

7.1 Use and Storage of Hazardous Substances and Petroleum Products

Eight 55-gallon drums of acid were observed near the cooling towers by Building 1 for descaling activities. The drums appeared, clean, labeled and in good condition, with no stains or other evidence of leakage. Two 96 cubic feet carbon-dioxide canisters, and several smaller compressed gas (CO2, nitrogen, etc.) canisters were also noted by Building 1 (Figure 3). The area around the compressed gas canisters appeared, clean, and in good condition. No other use or storage of hazardous substances or petroleum products were observed during the site reconnaissance. Based on this information, these materials would not be an environmental concern to the site.

7.2 Storage and Disposal of Hazardous Wastes

One small Hazardous Waste Storage Area was observed west of Building 1 (Figure 3). The wastes were stored in 55-gallon drums and/or one-gallon plastic containers, adequately labeled and kept separate in three compartments based on the types of wastes stored, (i.e., corrosives, flammables, etc.). The wastes are stored within secondary containment. The waste containers appear to be in good condition, with no stains or other evidence of leakage; therefore, would not be an environmental concern to the site.

7.3 Unidentified Substance Containers

No unidentified substance containers were observed site during the site reconnaissance.

7.4 Aboveground Storage Tanks (ASTs) and Underground Storage Tanks (USTs)

Five emergency generators with diesel fuel ASTs are noted on site (Figures 3 through Figure 5). In general, the ASTs appeared to be in good condition, with no stains or other evidence of leakage. Based on this information, these features would not be considered an environmental concern to the site. No evidence of USTs (e.g., fill pipelines, manhole covers, etc.) were noted on site.

7.5 Evidence of Releases

Evidence of chemical releases on the site, such as odors, stressed vegetation, stains, leaks, pools of liquids, and spills, was not observed during the site reconnaissance.

7.6 Polychlorinated Biphenyls (PCBs)

Historically, PCBs (a group of hazardous substances and suspected human carcinogens) were widely used as an additive in cooling oils for electrical components. Typical sources of PCBs can include electrical transformers. Three pad-mounted electrical transformers were noted on site (Figure 2 and Figure 4). These transformers were located on concrete pads and appeared to be in good condition, with no stains or other evidence of leakage. Based on labeling noted on one of these features located adjacent to Building 2, the transformer is owned by PG&E. The remaining transformers appear to be owned by BD. Based on this information, these features would not be considered an environmental concern to the site.

7.7 Suspect Asbestos-Containing Building Materials (ACM)

The manufacture of most ACM was phased out in the 1970s, ending in 1980. Previously manufactured ACM that were in stock continued to be used through approximately 1981. Some non-friable ACM are still manufactured. In general, buildings constructed after 1981 have a negligible potential to contain friable ACM and a low potential for most non-friable ACM. Based on the age of Building 1 (1974) and Building 3 (1982), friable ACMs are likely present. Based on the age of Building 2 (1984), friable ACMs are not likely present, although, non-friable ACMs such as roofing materials and mastics, may still be present. Suspect ACMs appeared in good condition during site reconnaissance.

7.8 Lead Based Paint (LBP)

The manufacture of LBP was phased out in approximately 1978. Based on the age of Building 1 (1974) and Building 3 (1982), LBP is likely present. Based on the age of Building 2 (1984), LBP is not likely present. No peeling paint was observed during site reconnaissance.

7.9 Indications of Water Damage or Mold Growth

No visual indications of water damage or visible mold growth were noted.

7.10 Wastewater Systems

Two effluent wastewater sampling points were noted on the Building 1 parcel (Figure 3). These features are used to collect samples of wastewater being generated and discharged to the municipal sewer. If necessary, wastewater is treated to lower the pH. No stains or evidence of dumping was noted around the sampling points. No other active wastewater systems, such as sumps or clarifiers, were noted during the site reconnaissance.

7.11 Stormwater Systems

In general, numerous stormwater drains are located throughout the parking areas for the site. A stormwater sampling pit located northeast of Building 1 was noted (Figure 3). BD reportedly samples effluent stormwater runoff. No stains or evidence of dumping was noted around the stormwater drains and sampling point. Based on this information, these features would not be considered an environmental concern to the site.

7.12 Wells

No wells (e.g., groundwater monitoring, production, or agricultural) were noted on site during the site reconnaissance.

7.13 Other Subsurface Structures

A cooling tower is observed northeast of Building 1 (Figure 3). This structure appeared to be in good condition with no stains or other evidence of leakage, and therefore, this structure would not be considered an environmental concern to the site.

A Bloom Energy Server Module is noted west of Building 1 (Figure 3). The Bloom Energy Server Module is a solid oxide fuel cell (SOFC) power generator that takes a variety of input fuels, including liquid or gaseous organic hydrocarbons, to produce electricity for Building 1. A “solid oxide” is a substance that produces an electrically conducting solution when dissolved in steam/water, and because the SOFCs operate at high temperatures inside the

Energy Server, ambient air entering the server is turned into steam, which reacts with the SOFC and fuel (liquid or gaseous organic hydrocarbons) in an electrochemical reaction to produce electricity. This reaction recycles the fuel within the Server Module, reducing the need to re-supply fuel to the Energy Servers. No stains or other evidence of leakage were observed and based on the limited amounts of fuel needed to operate the Bloom Energy Server Modules, this structure would not be considered an environmental concern to the site.

7.14 Other Issues

No other on- or off-site issues of environmental concern were noted.

8 ENVIRONMENTAL DATABASE SEARCH

A computerized environmental information database search was performed by EDR for this Phase I ESA on March 31, 2021. The database search included federal, state, local, and tribal databases. A summary of the environmental databases searched, their corresponding search radii, and number of noted facilities of environmental concern is presented in Appendix E. In addition, a description of the assumptions and approach to the database search is also provided in Appendix E. The review was conducted to evaluate whether the site or properties within the vicinity of the site have been reported as having experienced significant unauthorized releases of hazardous substances or other events with potentially adverse environmental effects. No unmapped properties, due to poor or inadequate address information, were identified in the database report.

The following paragraphs describe the databases that contain noted properties of environmental concern and include a discussion of the regulatory status of the facilities and potential environmental impact to the site.

8.1 Federal National Priorities List (NPL): Distance Searched – 1 mile

The NPL is the USEPA's database of uncontrolled or abandoned hazardous waste properties identified for priority remedial actions under the Superfund program. This database includes proposed NPL listings.

Neither the site nor properties within a 1-mile radius are listed on this database.

8.2 Federal Delisted NPL: Distance Searched – 0.5 mile

This database contains delisted NPL properties under the Superfund program. The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that

the USEPA uses to delete properties from the NPL. In accordance with 40 Code of Federal Regulations (CFR) 300.425. (e), properties may be deleted from the NPL where no further response is appropriate.

Neither the site nor properties within a 0.5-mile radius are listed on this database.

8.3 Federal Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) List: Distance Searched – 0.5 mile

The CERCLIS database has been replaced by the Superfund Enterprise Management System (SEMS) database, which tracks hazardous waste sites and remedial activities performed in support of the EPA's Superfund Program. This database also includes properties listed on the SEMS-ARCHIVE database for facilities with statuses of No Further Remedial Action Planned (NFRAP).

Building 1 with the address of 2350 Qume Drive is listed on the SEMS-ARCHIVE database with the regulatory status of NFRAP. No violations were noted for the site. K&H Finishing, addressed at 2302 Trade Zone Boulevard, located approximately 0.27-mile north of and possibly crossgradient from the site, is listed on the SEMS-ARCHIVE database with the regulatory status of NFRAP. No violations were noted for this facility. Based on the regulatory status and/or the direction of groundwater flow, these facilities would not be considered an environmental concern.

8.4 Federal Corrective Action Report (CORRACTS): Distance Searched – 1 mile

The USEPA maintains this database of Resource Conservation and Recovery Act (RCRA) facilities that are undergoing corrective action. A corrective action order is issued when there has been a release of hazardous waste or constituents into the environment from a RCRA facility.

Neither the site nor properties within a 1-mile radius are listed on this database.

8.5 Federal Resource Conservation and Recovery Act (RCRA) Treatment, Storage, and Disposal (TSD) Facilities List: Distance Searched – 0.5 mile

The RCRA TSD database (non-CORRACTS) is a compilation by the EPA of facilities that report generation, storage, transportation, treatment, or disposal of hazardous waste.

The site is not listed on this database. Micrel Semiconductor, Inc., addressed 1849 Fortune Drive, located approximately 0.42-mile northwest of and potentially downgradient from the

site is listed as a large quantity generator (LQG) for treatment, storage, or disposal of oxygenated solvents, unspecified solvent mixtures, laboratory waste chemicals, nonhalogenated solvents, and other hazardous wastes. Five notices of violation and dates of return to compliance are recorded for this facility. No records of a release were noted. Based on the distance and direction of groundwater flow, this facility would not be considered an environmental concern to the site.

8.6 Federal RCRA Generators List: Distance Searched – Site and Adjoining Properties

This list identifies sites that generate hazardous waste as defined by RCRA. Inclusion on this list is for permitting and tracking purposes and is not indicative of a release.

Building 1 with the address of 2350 Qume Drive is listed on the database as a LQG of hazardous materials such as Ignitable waste, corrosive waste, reactive waste, mercury, methyl ethyl ketone (MEK, aka 2-butanone), pyridine, spent halogenated solvents such as 1,1,1-trichloroethane (1,1,1-TCA), tetrachloroethylene (PCE), trichloroethylene (TCE), methylene chloride, to name a few, and spent nonhalogenated solvents. No violations were noted for this site address, and no adjoining properties are listed in this database as an LQG.

EXAR Corporation with the site address of 2222 Qume Drive is listed on the database as a small quantity generator (SQG). No violations were noted for the site, and no additional information pertaining to the site was available. Three adjoining facilities, Tulin Corporation located north-northwest and addressed 2393 Qume Drive; Microlinear Corporation located west-northwest and addressed 2092 concourse Drive; and S&R Precision located southwest and addressed 1870 Lundy Avenue are listed on this database as an SQG. No violations were noted with the exception of Microlinear Corporation, where four notices of violation and dates of return to compliance were recorded for this facility.

8.7 Federal Institutional Control/Engineering Control Registries: Distance Searched – Site

These lists identify properties with engineering and/or institutional controls. Engineering controls include various forms of caps, building foundations, liners, and treatment methods to create pathway elimination for regulated substances to enter environmental media or affect human health. Institutional controls include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care

requirements intended to prevent exposure to contaminants remaining on the site. Deed restrictions are generally required as part of the institutional controls.

The site is not listed on this database.

8.8 Federal Emergency Response Notification System (ERNS) List: Distance Searched – Site

The ERNS database, maintained by the USEPA, contains information on reported releases of oil and hazardous substances.

The site is not listed on this database.

8.9 Federal Brownfield List: Distance Searched – 0.5 mile

The USEPA Brownfield database, entitled Targeted Brownfield's Assessments (TBA), lists properties for which the USEPA is providing funding and/or technical support for environmental assessments and investigations. The objective of the TBA is to promote cleanup and redevelopment of undesirable properties with environmental issues.

Neither the site nor properties within a 0.5-mile radius are listed on this database.

8.10 EnviroStor Database (EnviroStor) or State-Equivalent CERCLIS: Distance Searched – 1 mile

The EnviroStor database, also known as the State-equivalent CERCLIS, is maintained by the Cal-EPA DTSC. This database contains information on AWP, and both known and potentially contaminated properties. Two-thirds of these properties have been classified, based on available information, as needing no further action (NFA) by the DTSC. The remaining properties are in various stages of review and remediation to determine if a problem exists. These properties are presented by EDR on the EnviroStor database.

Exel Microelectronics, Inc., a former occupant of Building 3 with the address of 2150 Commerce Drive is listed on the database with an "Inactive – Needs Evaluation" status due to its Tiered Permit application. A Tiered Permit allows a non-RCRA hazardous waste generating business to treat eligible waste streams on-site. According to DTSC, the permit was closed in 2001 under the direction of the SCCDEH. Laboratory results of soil samples collected during the closure operations indicted low concentrations of chloromethane (at 6.3 micrograms per kilogram [ug/kg]). According to EnviroStor, a report has not been provided to the DTSC, and therefore, the current status of the permit is "inactive – needs evaluation."

Thirty-seven facilities are listed on this database within a 1-mile radius. Mabel Mattos Elementary School (MMES) addressed at 1750 McCandless Drive, Milpitas, located approximately 0.78-mile northwest of and downgradient from the site. Although remediation activities have concluded for the facility, the regulatory status remains "Active" pending DTSC's review and approval of the completion reports. Based on the distance and direction of groundwater flow, this facility would not be considered an environmental concern to the site.

Microlinear Corporation, addressed 2092 Concourse Drive, located west, adjacent, and downgradient to the site is listed on the database with an "Inactive – Needs Evaluation" status also due to its Tiered Permit application. Three facilities have a regulatory status of "Refer to Other Agency" or "RWQCB," and are in the process of being either assessed and/or evaluated by different agencies. The closest of these three facilities is located approximately 0.42-mile south and potentially crossgradient to the site, and the other two facilities are approximately 0.76-mile or greater, located north-northwest and potentially down- to crossgradient from the site. No other information was provided regarding these facilities.

Twenty-two facilities are listed with an "Inactive – Needs Evaluation" and/or an "Inactive – Withdrawn" status, where five facilities are located at least 0.28-mile or greater, and potentially up- to crossgradient from the site; and the remaining seventeen facilities are located at least 0.42-mile or greater, and potentially down- to crossgradient from the site. Of the fourteen remaining facilities, six facilities located at least 0.41-mile or greater, and potentially crossgradient from the site are listed as either needing NFA or "No Action Required" as their regulatory status, and four facilities located at least 0.87-mile or greater, and potentially down- to crossgradient from the site have "Certified" as their regulatory status. Based on the distance, direction to groundwater flow, and/or regulatory status, these facilities would not be considered an environmental concern to the site.

8.11 State Solid Waste Landfill Sites (SWLF): Distance Searched – 0.5 mile

The SWLF database consists of open and closed solid waste disposal facilities and transfer stations. The data comes from the Integrated Waste Management Board's Solid Waste Information System (SWIS) and the SWRCB Waste Management Unit Database (WMUD) database.

Neither the site nor properties within a 0.5-mile radius are listed on this database.

8.12 State Leaking Underground Storage Tank (LUST) Lists: Distance Searched – 0.5 mile

The LUST information system is obtained from by the SWRCB and the Regional Water Quality Control Board (RWQCB).

Building 1 with the address of 2350 Qume Drive is listed on the database twice with a "Completed" or "Case Closed" status since 1992 and are associated with the removal of the 12,000-gallon historical UST. The closure letter associated with the removal is discussed in section 4.7, and a copy of the closure letter is presented in Appendix C. Based on this information, this former UST would not be considered an environmental concern to the site.

Ten facilities located within the 0.5-mile radius is listed on the database. S&R Precision Company, addressed at 1870 Lundy Avenue, located approximately 0.06-mile southwest, and adjacent to Building 1 (2150 Commerce Drive) is listed on the database with a closure date, but no listed regulatory status. EXXON, addressed at 1898 North Capitol Avenue, located approximately 0.38-mile north-northeast, and potentially crossgradient from the site is listed on the database twice, with one case listed with a "Completed – Case Closed" regulatory status, and the other case listed with a "Pollution Characterization" regulatory status. No violations were noted for EXXON, and no additional information was provided by the database for this listing.

Of the eight remaining facilities, one facility is located approximately 0.27-mile and potentially upgradient from the site. The seven remaining facilities are all located approximately 0.27-mile or greater and potentially down- to crossgradient from the site. With the exception of the one EXXON and S&R Precision Company, all other facilities listed on this database are noted with a "Completed – Case Closed" regulatory status. Based on the distance, direction, and/or regulatory status, these facilities would not be considered an environmental concern to the site.

8.13 State Underground Storage Tank (UST) and Aboveground Storage Tank (AST) Registration List: Distance Searched – Site and Adjoining Properties

UST and AST databases are provided by the SWRCB. Inclusion on these lists is for permitting purposes and is not indicative of a release.

Former occupant, Excel Microelectronics, Inc., of Building 3 with the address of 2150 Commerce Drive is listed on the historical UST database for a waste tank with a capacity of

60,600 and no specified unit. No other information was obtained from the database regarding the historical UST. It should be noted that the Building 3 address of 2150 Commerce Drive has served as the overall site administrative address for BD and does not necessarily indicate the installation of a UST at, or near Building 3. Building 1 with the address of 2350 Qume Drive is also listed on the historical UST database. As previously discussed in Section 4.7, the historical 12,000-gallon diesel UST was removed and closed in 1990. A copy of the closure letter is presented in Appendix C.

An adjacent facility, Microlinear Corporation (a semiconductor manufacturer) addressed 2092 Concourse Drive, located immediately west of the site is listed on the historical UST database. The database notes the tank was used for waste, with a capacity of "1,000" with no specified units. No violations or additional information was obtained for this UST.

Building 3 is also listed on this database for an as having an AST that is used as an aboveground petroleum storage. No additional information was obtained from this database. No ASTs were noted for adjoining properties.

8.14 State Voluntary Cleanup Programs (VCPs): Distance Searched – 0.5 mile

The State VCP database lists low threat level properties with either confirmed or unconfirmed releases. Project proponents have requested that the DTSC oversee investigation and/or cleanup activities and have agreed to provide coverage for DTSC's costs.

The site is not listed on the database. PG&E Pipeline Retire, located approximately 0.28-mile south-southwest of and potentially crossgradient from the site is listed on the database for its historical use and storage of pesticides, insecticides, and rodenticides. According to the database, contaminated soil has been excavated, and the facility is noted with an "Inactive – Needs Evaluation" regulatory status. Based on the distance, direction of groundwater flow, and the regulatory status, this facility would not be considered an environmental concern to the site.

8.15 Indian Reservations: Distance Searched – 1 mile

This list depicts Indian administered lands of the United States that have an area equal to or greater than 640-acres. No Indian Reservations were listed within a 1-mile radius from the site. Due to the lack of Indian Reservations within 1-mile of the site, other tribal database listings required by ASTM and AAI were deemed not applicable. These listings would include

tribal-equivalent NPL, CERCLIS, Landfill and/or Solid Waste Disposal, LUST, UST and AST Registrations, Institutional Control/Engineering Control Registries, VCPs, and Brownfields.

8.16 Other Non-ASTM and AAI Database: Distance Searched – Site

The site was listed on a number of other databases that are included in the EDR report but are not required by ASTM or AAI. These databases include Cal-EPA Environmental Regulated Site (CERS), California Hazardous Material Incident Report System (CHMIRS), California Integrated Water Quality System (CIWQS), Hazardous Waste & Substances Sites (CORTESE), Certified Unified Program Agencies (CUPA), Enforcement & Compliance History Information (ECHO), Facility Index System Identification Program Summary Report (FINDS), San Jose Hazmat Facilities (HAZMAT), Hazardous Waste Information System (HAZNET), Hazardous Waste Tracking System (HWTS), National Pollutant Discharge Elimination System (NPDES), California Spills 90, and Waste Discharge System (WDS).

As required by Invesco's Scope of Work, Ardent reviewed regulatory databases which represent a release at the site. According to EDR, the site was listed on the CHMIRS and California Spills 90 database.

Building 2 is listed on the CHMIRS database for an accidental spill incident dated June 23, 1999. According to the OES incident report, approximately 50-gallons of "alcohol, solvent/flux" which were stored in a storage shed spilled in the rear parking lot. No additional information pertaining to this incident was available on this database. Based on the quantality and the type of substance reported, this incident would not be considered an environmental concern to the site.

Building 3 is listed on the Spills 90 database for a LUST dated June 15, 1982 with a "Closed" status. As discussed in Sections 4.7, 8.12, and 8.13 this LUST is associated with the removal of a 12,000-gallon historical UST. A copy of the closure letter associated with the removal is presented in Appendix C. Based on this information, this former UST and the LUST case would not be considered an environmental concern to the site.

Ardent also reviewed the HAZNET database, which contains information regarding hazardous waste manifests received each year by the DTSC. Inclusion on this database is for permitting and/or tracking purposes and is not indicative of a release. The following is a summary of the HAZNET findings:

Building 1 is noted for generating unspecified aqueous solutions, organic & inorganic solids, oxygenated solvents (acetone, butane, ethyl acetate, etc.), waste oil and mixing oil, etc. from 1996 to 2019 in quantities below 1-ton. Building 1 is also noted for generating wastes containing halogenated solvents (chloroforms, methyl chloride, perchloroethylene [PCE], etc.). With the exception of 1984, halogenated hydrocarbons were generated as wastes equaling less than one-ton in 1983, 1988, 1999, 2000, 2002, 2005, and 2006. In 1984, halogenated hydrocarbons were generated in quantities of 1.5-tons. The following presents the reported quantity of halogenated hydrocarbons generated as waste per year.

1983 = 0.4587-ton, equivalent to approximately two 55-gallon drums.
1984 = 1.5012-tons, equivalent to approximately six and one-half 55-gallon drums.
1988 = 0.2085-ton, equivalent to approximately one 55-gallon drum.
1999 = 0.2502-ton, equivalent to approximately one 55-gallon drum.
2000 = 0.1042-ton, equivalent to approximately one-half 55-gallon drum.
2002 = 0.10425-ton, equivalent to approximately one-half 55-gallon drum.
2005 = 0.0935-ton, equivalent to approximately one-half 55-gallon drum.
2006 = 0.37-ton, equivalent to approximately one and one-half 55-gallon drums

Building 2 is noted for generating large quantities (over 10 tons) of unspecified aqueous solutions, aqueous solution with metals, other laboratory waste chemicals, detergent and soap. Less than one-ton of non-halogenated solvents (i.e., benzene, hexane, Stoddard, etc.) is also noted for Building 2. Although halogenated hydrocarbons were not reportedly generated at this property, as noted in Section 11.3, a vapor degreaser was reportedly used at this building, which commonly use chlorinated solvents. During a site inspection by the City of San Jose Fire Department, the inspection report indicated that chemical wastes generated at Building 2 were transported and stored at Building 1 pending disposal.

Building 3 with the address of 2150 Commerce Drive is only noted for generating unspecified aqueous solutions, organic/inorganic solids and for metal recycling. With the exception of small quantities of halogenated hydrocarbons noted in 1991 and 1992 (0.0125-tons and 0.417-tons, respectively). No additional wastes containing halogenated solvents were noted for Building 3. It should be noted that Building 3 has recently been used for office purposes and was also used as the mailing address for the BD Campus. Based on this information, it is unlikely that significant quantities of wastes were actually generated at this building.

9 VAPOR ENCROACHMENT CONDITION (VEC)

Ardent completed a VEC study for the site using Tier 1 criteria as recommended by ASTM E 2600-15. The Tier 1 screening identifies surrounding facilities that pose a possible vapor intrusion source to the site based on the results of the Phase I ESA investigations and certain criteria outlined by ASTM. These criteria include a certain distance from the target site (referred to by ASTM as within the "area of concern"); the types of chemicals used (referred to by ASTM as the "chemicals of concern"); and a plume test to determine if the plume associated with a source of contamination is close enough to the site to impact indoor air quality. Based on our review of regulatory records, files, databases, client furnished data, and site reconnaissance activities, a possible vapor intrusion issue is not present at the site.

10 OTHER INFORMATION REQUESTED BY INVESCO

Based on Invesco's Scope of Work, additional information was requested, beyond that of ASTM and AAI Standards. The following presents these requests.

10.1 Dry Cleaning Facility Environmental Screening

Based on our review of regulatory records, files, databases, client furnished data, and site reconnaissance activities, no dry-cleaning facilities were noted on or adjacent to the site.

10.2 Flood Plains

Ardent reviewed data from the Federal Emergency Management Agency (FEMA) which incorporates Flood Insurance Rate Map (FIRM). Based on our review, the site is located in an area of undetermined flood hazard.

10.3 Wetlands

Ardent reviewed data from the National Wetlands Inventory (NWI) maintained by the U.S. Fish and Wildlife Services. Based on our review the site is not located on or adjacent to wetlands.

10.4 Radon

Radon is a naturally occurring colorless, odorless, tasteless radioactive gas resulting from the natural decay of uranium- and thorium-bearing minerals in rocks and soil. Persons living in a building with elevated radon concentrations may have an increased risk of contracting lunch cancer over a period of years. Elevated radon concentrations may be cumulative due to a lack of proper ventilation in the lowest levels of a building.

Cal-EPA and the EPA conducted a California Statewide Radon Survey (survey) in 2010. Radon concentrations at or above 4.0 pico curies per liter (pCi/L) are considered to be of environmental concern to EPA. Based on the radon survey, the Santa Clara County is located in Zone 2. Data collected from twenty-one homes in the site area (95131) showed none of the home indoor radon measurements were likely to exceed the EPA recommended action level of 4.0 pCi/L. Based on this information, it is unlikely that the site is expected to be in an area of high radon concentration.

10.5 Indoor Air Quality

Based on our review of regulatory records, files, databases, client furnished data, and site reconnaissance activities, no concern for indoor air quality is present at the site.

10.6 Lead in Drinking Water

According to the City of San Jose Municipal Water System 2019 Water Quality Report, lead sampling conducted in 2018 indicated no detection of lead in drinking water, and therefore, the water meets federal drinking water quality standards. Based on this information, no drinking water samples were collected or analyzed.

10.7 Contaminated Public Wells

Based on our review of regulatory records, files, databases, client furnished data, and site reconnaissance activities, no contaminated public wells were noted on or adjacent to the site.

10.8 Regulatory Compliance

The following information presents the regulatory compliance at the site.

10.8.1 Current and Past Uses

No regulatory compliance issues were noted regarding historical or current site uses.

10.8.2 Proposed Uses

The property is planned to be leased to BD for continued use until 2025, after which Qume and Commerce, L.P. will redevelop the site for commercial purposes.

10.8.3 Non-Compliance

No information regarding active or open non-compliance was discovered during this Phase I ESA.

10.8.4 Violations Investigations, Claims, Actions, Notifications and Litigation

No violations, investigations, claims, actions, notifications, or litigations were noted at the time of this report.

10.8.5 Potential Liabilities from Current or Previous Activities

As noted in Section 8.10, a former occupant of the site (Exel Microelectronics, Inc. and Mage Power, formerly Rohm Corporation) was issued a Tiered Permit in Building 3 by the DTSC. A Tiered Permit allows a non-RCRA hazardous waste generating business to treat eligible waste streams on-site. According to DTSC, the permit was closed in 2001 under the direction of the SCCDEH. Laboratory results of soil samples collected during the closure operations indicted low concentrations of chloromethane (at 6.3 ug/kg). According to a DTSC database, a report has not been provided to the DTSC, and therefore, the current status of the permit is "inactive – needs evaluation." The Tiered Permit closure document reportedly completed in 2001 should be obtained from the SCCDEH and provided to the DTSC for state closure. No other potential liabilities from current or previous activities were noted during this assessment.

11 REGULATORY RECORDS REVIEW

The DTSC, SFRWQCB, Bay Area Air Quality Management District (BAAQMD), Santa Clara County Department of Environmental Health (SCCDEH), and SJFD are the lead regulatory agencies for permitting and regulating USTs, ASTs, LUST cases, and/or facilities that use, store, or generate hazardous waste or hazardous materials. Ardent requested file information for the site using the site addresses. Copies of agency files are provided in Appendix F.

11.1 Department of Toxic Substances Control (DTSC)

Ardent reviewed information on the DTSC EnviroStor website. No information regarding Buildings 1 and 2 were available on the website. Building 3 (2150 Qume Drive) has been issued a Tiered Permit with an "Inactive – Needs Evaluation" regulatory status by DTSC for Mage Power Semiconductor Corporation, a former occupant of the site. According to EnviroStor, a letter provided to DTSC from the "Santa Clara County" (assuming to be the SCCDEH) dated July 25, 2001 indicated that the treatment unit had been closed. The final closure report had not been sent to the DTSC, and therefore, the regulatory status is listed as needing evaluation. No additional information was provided. According to the DTSC, no files exist for Building 3.

11.2 California Regional Water Quality Control Board, San Francisco Bay Region (SFRWQCB)

Ardent reviewed information on the SWRCB GeoTracker website. According to the information on the website, records regarding the historic UST removal is noted for Building 1. No additional records were available for the site.

11.3 Bay Area Air Quality Management District (BAAQMD)

Ardent requested records for the site through the BAAQMD website. According to the BAAQMD, BD maintains a permit for Building 1 for emitting diesel engine exhaust particulate matter since 2020. Celestica maintained a permit for Building 2 for a new wave soldering facility in 1999 and Exar Corp maintained a permit for a vapor degreaser in 1988. Exar Corporation also maintained a permit for generating organic emissions from 1995 to 1996 in Building 2.

Magepower Semiconductor Corporation maintained a permit for Building 3 for emitting toxic pollutants such as isopropyl alcohol, chloroform, and sulfuric acid mist pollutants from 1997 to 1999. Veritek Manufacturing Services, also located in Building 3, maintained a permit for the installation of wave solders and ovens in 2007, and BD maintains a permit for standby power generator sets on site since 2013. No significant releases or violations were noted.

11.4 Santa Clara County Department of Environmental Health (SCCDEH)

The SCCDEH maintains USTs, ASTs, hazardous wastes, and hazardous materials inventory information. The SCCDEH provided records of hazardous materials inventory inspections and changes of ownership from 1990 to the present for BD, and various occupants. Several occupants, including BD, were cited for administrative violations including failure to submit hazardous materials business plans. No significant violations were noted that would present an environmental concern to the site.

The electronic copies of the SCCDEH files provided to Ardent consisted of site inspection reports. There was no indication of the closure document dated July 25, 2001 as noted on EnviroStor. Ardent attempted to visit the SCCDEH, although due to Covid, was not allowed on the premises. Further evaluation and inquiries to obtain copies of the closure document are being completed by Ardent.

11.5 City of San Jose Fire Department (SJFD)

The SJFD maintains inspection records for hazardous materials use facilities and hazardous

waste handlers/generators. Files were requested using the current addresses via email. To-date, no response has been obtained. Based on information obtained from other sources during completion of this Phase I ESA, there is a low likelihood that SJFD records, if any, would change the conclusions and recommendations of this report. Based on this information, the lack of files from the SJFD would not be considered a data gap in accordance with ASTM Standards and our professional opinion.

12 FINDINGS, OPINIONS AND CONCLUSIONS

Based upon the results of this Phase I ESA the following findings, opinions and conclusions are provided.

12.1 Findings and Opinions

The following presents a summary of the findings and opinions associated with this Phase I ESA performed for the site, including known or suspect RECs, HRECs, CRECs, and de minimis environmental conditions (i.e., conditions that generally do not present a material risk of harm to public health or the environment).

- The site comprises a 32-acre campus containing three commercial buildings located at 2350 Qume Drive (referred to as “Building 1”), 2222 Qume Drive (referred to as “Building 2”), and 2150 Commerce Drive (referred to as “Building 3”).
- From at least 1939 through 1974, the site was used for agricultural purposes. Building 1 was constructed in 1974; Building 3 was constructed in 1982; and Building 2 was constructed in 1984. Since 1986, BD has owned the site and used the property for office, educational, R&D, and manufacturing/assembling activities. In general, Building 1 has been used for office, R&D, manufacturing/assembling purposes; Building 2 has been used for office and educational purposes; and Building 3 has been used for manufacturing/assembling activities. Regulatory records indicate a number of other companies occupying the site since development, although it appears that most of the businesses were subsidiaries or affiliated with BD and possibly completed the same operations.
- Groundwater has been reported in the site vicinity at a depth of approximately 15 feet bgs and anticipated to flow in a northwesterly direction following surface topography and towards the San Francisco Bay.
- BD assembles medical devices such as CSAs, manufactures biopharmaceutical reagents used with the CSA machines, conducts R&D to improve and/or design new products, and educates its customers in the use of the CSA machines. Tabletop manufacturing/assembling, and R&D activities are completed using small containers (pint-size) of chemicals. Some soldering is also completed during circuit board and/or motherboard assembly or repair. These activities are completed in Building 1, which has been reported on a number of regulatory databases for the use, storage, and handling of chemicals and wastes, including halogenated hydrocarbons (i.e., chlorinated solvents).

- Some small quantities of chemical uses were noted at Building 2 in the classroom settings. These activities included using small quantities of chemicals or reagents (pint-size) during educational and/or training activities. Building 2 is also listed on regulatory databases for the use, storage, and handling of chemicals and wastes. Although there was no indication in regulatory files suggesting the use of halogenated hydrocarbons (i.e., chlorinated solvents), air quality permits at Building 2 indicated the use of degreasers, which commonly use chlorinated solvents. During a site inspection by the City of San Jose Fire Department, the inspection report indicated that chemical wastes generated at Building 2 were transported and stored at Building 1 pending disposal.
- Building 3 has been reportedly used for office purpose, repair, and historically for manufacturing. Some small quantities of halogenated hydrocarbons were reportedly generated as wastes in Building 3.
- As noted above, halogenated hydrocarbons (i.e., chlorinated solvents) and degreasers have been reportedly generated/used at Buildings 1, 2, and 3. Chlorinated solvents are toxic chemicals which are highly regulated, and therefore, the use of chlorinated solvents at Buildings 1, 2, and 3 would be considered an REC. Although other chemical wastes including metals and non-halogenated hydrocarbons have also been reportedly generated, these chemicals are less toxic. In addition, due to the small quantities used, good housekeeping practices, and good condition of the concrete flooring, there is a low likelihood that these chemicals have adversely impacted the site.
- A former occupant of the site (Exel Microelectronics, Inc. and Mage Power, formerly Rohm Corporation) was issued a Tiered Permit in Building 3 by the DTSC. A Tiered Permit allows a non-RCRA hazardous waste generating business to treat eligible waste streams on-site. According to DTSC, the permit was closed in 2001 under the direction of the SCCDEH. Laboratory results of soil samples collected during the closure operations indicted low concentrations of chloromethane (at 6.3 ug/kg). According to a DTSC database, a report has not been provided to the DTSC, and therefore, the current status of the permit is “inactive – needs evaluation.”
- A 12,000-gallon diesel UST was reportedly located northwest of Building 1 and was removed in 1990 under the direction and oversight of the SCVWD. Laboratory results of confirmation soil samples indicated no detectable concentrations of TPHd and BTEX beneath the UST. Laboratory results also indicated no detectable concentrations of TPHd and no detectable to low concentrations of toluene, at 0.009 ppm in one sample collected at 3 feet bgs below a piping run. Groundwater depth was reported to be 15 feet bgs, which was measured in an on-site groundwater monitoring well. Based on these results, it was concluded that groundwater was not threatened by the reported release of toluene from the piping run. Based on these results, the SCVWD issued a case closure letter dated February 5, 1992. Ardent has reviewed these data and concurs with the SCVWD that no further work is needed.
- Based on the age of Building 1 (1974) and Building 3 (1982), ACMs and LBP are likely present. Based on the age of Building 2 (1984), friable ACMs are not likely present, although, non-friable ACMs such as roofing materials and mastics may still be present. LBP is not likely present in Building 2. Suspect ACMs appeared in good condition and no peeling paint was observed during site reconnaissance. Based on this information, no immediate asbestos or LBP abatement is needed.
- No other on- or off-site environmental concerns were noted.

12.2 Conclusions

Ardent has performed this Phase I ESA in general conformance with the scope and limitations of the ASTM Practice E 1527-13, ASTM Practice E 2600-15, and the EPA Standards and Practices for AAI, Final Rule (40 CFR, Part 312), for the property located at 2150 Commerce Drive, and 2222 and 2350 Qume Drive in the city of San Jose, California. Any limitations or exceptions encountered during completion of this report are stated in Section 2.4. Based on this Phase I ESA, no evidence or indication of RECs, HRECs, CRECs, or conditions indicative of releases or threatened releases of hazardous substances on, at, in, or to the site has been revealed, except for the following:

RECs

- The reported use of halogenated hydrocarbons and degreaser at Buildings 1, 2, and 3.

HRECs

- No HRECs were identified during completion of this Phase I ESA.

CRECs

- No CRECs were identified during completion of this Phase I ESA.

De-Minimis Conditions

- Although not considered an environmental concern to the site, ACMs and LBP are likely present.
- Tiered Permit needing further evaluation associated with Building 3.

13 RECOMMENDATIONS

Based on the information obtained during this assessment, Ardent has the following recommendations:

- A subsurface investigation should be completed in the vicinity of Buildings 1, 2, and 3 as part of a screening technique to assess whether elevated concentrations of halogenated hydrocarbons are present due to the on-site use, storage, or handling of these chemicals.
- For precautionary measures, a subsurface investigation should be completed in the vicinity of Building 3 as a screening technique to assure that residual contaminants are not present associated with the Tiered Permit. The Tiered Permit closure document reportedly completed in 2001 should be obtained from the SCCDEH and provided to the DTSC for state closure.
- Prior to major renovations or demolition activities, a comprehensive asbestos and LBP survey should be completed. If present, these materials should be removed (ACMs) or stabilized (LBP) by a state-licensed abatement contractor prior to renovation or demolition activities. If the property is leased, an Operation and Maintenance (O&M) Plan should be prepared and implemented.

Craw, Dina, 2021, Senior Manager of Environmental Health & Safety for BD: Verbal Communication.

15 QUALIFICATIONS STATEMENT AND SIGNATURE OF ENVIRONMENTAL PROFESSIONAL

Mr. Paul Roberts states that the Phase I ESA was performed under his direct supervision, and that he has reviewed and approved the report, and the methods and procedures employed in the development of the report conform to the minimum industry standards. Mr. Roberts certifies that Ardent project personnel and subcontractors are properly licensed and/or certified to do the work described herein.

Pursuant to Paragraph 12.13 of the ASTM Standard E1527-13:

I declare that, to the best of my professional knowledge and belief, I meet the definition of *Environmental professional* as defined in §312.10 of 40 CFR 312. I have the specific qualifications based on education, training, and experience to assess a *property* of the nature, history, and setting of the site. I have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

Paul Roberts

USER PROVIDED INFORMATION

ITEMS CORRESPONDING TO SCHEDULE B-II

2222 QUME DRIVE (SHEET 3 OF 4)
FIDELITY NATIONAL TITLE COMPANY ORDER NO.: 991-30058463-KD9

7. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:

(7)

Granted to: The City of San Jose, a Municipal corporation
Purpose: Public utilities easement
Recording Date: August 11, 1975
Recording No: 5071958, Book B552, Page 508, of Official Records
Affects: Westerly 10 feet

THIS ITEM IS PLOTTED AND SHOWN HEREON.

8. Covenants, conditions and restrictions but omitting any covenants or restrictions, if any, including but not imited to those based upon race, color, religion, sex, gender, gender identity, gender expression, sexual orientation, marital status, national origin, ancestry, familial status, source of income, disability, veteran or military status, genetic information, medical condition, citizenship, primary language, and immigration status, as set forth in applicable state or federal laws, except to the extent that said covenant or restriction is permitted by applicable law, as set forth in the document

(8)

Recording Date: July 26, 1977
Recording No: 5731645, Book D22, Page 651, of Official Records

BUILDING AND PARKING SETBACKS DESCRIBED IN THIS ITEM ARE PLOTTED AND SHOWN HEREON.

9. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:

(9)

Granted to: The City of San Jose
Purpose: Sanitary sewer purposes
Recording Date: March 13, 1981
Recording No: 7004331, Book F959, Page 388, of Official Records
Affects: As described in the document herein referred to

THIS ITEM IS PLOTTED AND SHOWN HEREON.

12. Matters contained in that certain document

Entitled: Certificate of Permit
Dated: August 29, 2008
Executed by: City of San Jose, Department of Planning, Building and Code Enforcement
Recording Date: November 17, 2008
Recording No: 20046833, of Official Records

Reference is hereby made to said document for full particulars.

THIS ITEM REFERS TO THE SURVEYED PROPERTY BUT CONTAINS NO PLOTTABLE SURVEY ITEMS.

13. Matters contained in that certain document

Entitled: Certificate of Permit
Dated: December 15, 2010
Executed by: City of San Jose, Department of Planning, Building and Code Enforcement
Recording Date: March 1, 2011
Recording No: 21097147, of Official Records

Reference is hereby made to said document for full particulars.

THIS ITEM REFERS TO THE SURVEYED PROPERTY BUT CONTAINS NO PLOTTABLE SURVEY ITEMS.

2350 QUME DRIVE (SHEET 4 OF 4)
FIDELITY NATIONAL TITLE COMPANY ORDER NO.: 991-30058465-KD9

6. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:

[6]

Granted to: City of San Jose, a municipal corporation
Purpose: Public utilities
Recording Date: August 11, 1975
Recording No: Book B552, Page 508, of Official Records
Affects: Portion of said land

Reference is hereby made to said document for full particulars.

THIS ITEM IS PLOTTED AND SHOWN HEREON.

7. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:

[7]

Granted to: City of San Jose, a municipal corporation
Purpose: Public utilities
Recording Date: November 21, 1975
Recording No: Book B732, Page 349, of Official Records
Affects: Portion of said land

Reference is hereby made to said document for full particulars.

THIS ITEM IS PLOTTED AND SHOWN HEREON.

8. Covenants, conditions and restrictions but omitting any covenants or restrictions, if any, including but not limited to those based upon race, color, religion, sex, gender, gender identity, gender expression, sexual orientation, marital status, national origin, ancestry, familial status, source of income, disability, veteran or military status, genetic information, medical condition, citizenship, primary language, and immigration status, as set forth in applicable state or federal laws, except to the extent that said covenant or restriction is permitted by applicable law, as set forth in the document

[8]

Recording Date: July 26, 1977
Recording No: Book D22, Page 651, of Official Records

Said covenants, conditions and restrictions provide that a violation thereof shall not defeat the lien of any mortgage or deed of trust made in good faith and for value.

BUILDING AND PARKING SETBACKS DESCRIBED IN THIS ITEM ARE PLOTTED AND SHOWN HEREON.

9. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:

[9]

Granted to: City of San Jose, a municipal corporation
Purpose: Sanitary sewer
Recording Date: May 31, 1978
Recording No: Book D706, Page 341, of Official Records
Affects: Portion of said land

Reference is hereby made to said document for full particulars.

THIS ITEM IS PLOTTED AND SHOWN HEREON.

10. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:

[10]

Granted to: City of San Jose, a municipal corporation
Purpose: Sanitary sewer
Recording Date: September 3, 1980
Recording No: Book F548, Page 475, of Official Records
Affects: Portion of said land

Reference is hereby made to said document for full particulars.

THIS ITEM ABUTS THE SURVEYED PROPERTY AND IS PLOTTED AND SHOWN HEREON FOR REFERENCE.

11. Matters contained in that certain document

Entitled: Certificate of Permit (File No. HA97-01-090)
Dated: March 23, 2001
Executed by: City of San Jose
Recording Date: April 20, 2001
Recording No: 15645592, of Official Records

Reference is hereby made to said document for full particulars.

THIS ITEM REFERS TO THE SURVEYED PROPERTY BUT CONTAINS NO PLOTTABLE SURVEY ITEMS.

ITEMS CORRESPONDING TO SCHEDULE B-II

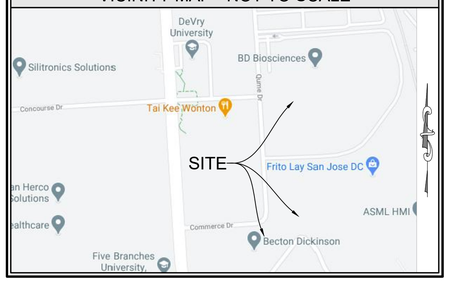
◇6

Granted to: City of San Jose
Purpose: Sanitary sewer pipeline
Recording Date: March 13, 1981
Recording No: Book F959, Page 385, of Official Records
Affects: As described therein

THIS ITEM IS PLOTTED AND SHOWN HEREON.

VICINITY MAP - NOT TO SCALE



ZONING INFORMATION

THE SURVEYOR WAS NOT PROVIDED WITH ZONING INFORMATION BY THE CLIENT PURSUANT TO TABLE A ITEM 6a & 6b.

MISCELLANEOUS NOTES

(MN1) SOME FEATURES SHOWN ON THIS PLAT MAY BE SHOWN OUT OF SCALE FOR CLARITY. ALL DIMENSIONS SHOWN ARE IN FEET AND DECIMALS THEREOF.

(MN2) BEARINGS SHOWN HEREON ARE BASED ON THE CENTERLINE OF QUME DRIVE (FORMERLY TRADE DRIVE), SANTA CLARA COUNTY, CALIFORNIA, SHOWN ON 388 M 16, HAVING A BEARING OF S3°23'31"E.

(MN3) AT THE TIME OF SURVEY, THERE WAS NO OBSERVABLE EVIDENCE OF EARTH MOVING WORK, BUILDING CONSTRUCTION, BUILDING ADDITIONS.

(MN4) AT THE TIME OF SURVEY, NO INFORMATION REGARDING CHANGES IN STREET RIGHT OF WAY LINES WAS MADE AVAILABLE TO THE SURVEYOR FROM THE CONTROLLING JURISDICTION, NOR WAS THERE OBSERVABLE EVIDENCE OF STREET OR SIDEWALK REPAIRS.

(MN5) AT THE TIME OF SURVEY, THERE WAS NO OBSERVABLE EVIDENCE OF SITE USE AS A BURIAL GROUND OR CEMETERY, NOR ANY SUBSTANTIAL AREAS OF REFUSE.

(MN6) THE LOCATION OF UTILITIES SHOWN HEREON IS FROM OBSERVED SURFACE AND ABOVE GROUND APPURTENANCES IN ORDER TO DEPICT UNDERGROUND UTILITIES, IF POSSIBLE. UTILITY PLANS OR GROUND MARKINGS WERE NOT ABLE TO BE OBTAINED FOR THIS SURVEY

(MN7) SURVEYOR IS NOT LIABLE FOR UTILITIES OBSTRUCTED OR COVERED FROM VIEW.

(MN8) ONLY SURFACE AND ABOVE GROUND STRUCTURES WERE LOCATED. NO UNDERGROUND IMPROVEMENTS, SUCH AS FOUNDATION FOOTINGS, WERE LOCATED.

(MN9) LOT 51 WITH TRANSFER AREA A, 388 M 16 OF THE SURVEYED PROPERTY CONTAINS AN AREA OF 5.841 ACRES (254,456 SQUARE FEET), MORE OR LESS. LOT 52, 388 M 16 OF THE SURVEYED PROPERTY CONTAINS AN AREA OF 3.777 ACRES (164,539 SQUARE FEET), MORE OR LESS. LOTS A & B, 400 M 25 WITH TRANSFER AREA B OF THE SURVEYED PROPERTY CONTAINS AN AREA OF 23.183 ACRES (1,009,834 SQUARE FEET), MORE OR LESS.

(MN10) THE SURVEYED PROPERTY CREATES A MATHEMATICALLY CLOSED FIGURE, WITH NO GAPS, GORES, OVERLAPS OR HIATUS INHERENT TO THE SURVEYED PROPERTY BASED ON THE FIELD SURVEY PERFORMED AND THE TITLE COMMITMENTS PROVIDED. ALL PARCELS OF THE SURVEYED PROPERTY AS DESCRIBED HEREON ARE CONTIGUOUS.

(MN11) THERE ARE 1,497 STRIPED REGULAR PARKING SPACES AND 31 STRIPED HANDICAPPED PARKING SPACES FOR A TOTAL OF 1,528 STRIPED PARKING SPACES ON THE SURVEYED PROPERTY. THERE ARE ALSO 8 DOCK HEIGHT SPACES ON THE SURVEYED PROPERTIES.

(MN12) THE SUBJECT PROPERTY HAS DIRECT ACCESS TO AND FROM COMMERCE DRIVE AND TRADE DRIVE, BEING 80 FOOT WIDE DEDICATED AND ACCEPTED PUBLIC RIGHT OF WAYS, AS SHOWN HEREON.

(MN13) ADDRESSES OF 2222 & 2350 QUME DRIVE AND 2150 COMMERCE DRIVE WERE POSTED ON THE SURVEYED PROPERTY.

(MN14) ADJOINING OWNERSHIP INFORMATION SHOWN HEREON WAS OBTAINED FROM AVAILABLE PUBLIC RECORDS.

(MN15) FENCE OWNERSHIP, IF ANY, WAS NOT DETERMINED UNDER THE SCOPE OF THIS SURVEY.

(MN16) THIS SURVEY IS NOT INTENDED FOR CONSTRUCTION OR CONSTRUCTION DESIGN PURPOSES.

(MN17) BUILDING SQUARE FOOTAGE WAS CALCULATED FROM THE OBSERVED APPARENT FOOTPRINT OF EACH BUILDING AT GROUND LEVEL.

(MN18) SURVEY PERFORMED BY:
BOCK & CLARK CORPORATION, AN NV5 COMPANY
1015 27TH STREET
SACRAMENTO, CA 95816
PHONE: 800-787-8393, EMAIL: JAKE.KROEKER@NV5.COM

(MN19) THE SURVEYOR WAS NOT PROVIDED ANY DOCUMENTATION, WAS NOT MADE AWARE AND DID NOT OBSERVE ANY GROUND MARKINGS ON THE SURVEYED PROPERTY WITH REGARDS TO WETLANDS ON THE SURVEYED PROPERTY. NO ENVIRONMENTAL ASSESSMENT OR AUDIT WAS PERFORMED ON THE SURVEYED PROPERTY BY THE SURVEYOR.

RECORD DESCRIPTION

2222 QUME DRIVE

THE LAND REFERRED TO HEREIN BELOW IS SITUATED IN THE CITY OF SAN JOSE, IN THE COUNTY OF SANTA CLARA, STATE OF CALIFORNIA, AND IS DESCRIBED AS FOLLOWS:

Being all of Parcel 51 as shown on that certain Parcel Map filed for a record on January 28, 1977 in Book 388 of Maps at Pages 16 through 27, Santa Clara County Records;

And, in addition thereto, the following area:

TRANSFER AREA A

All that certain real property lying within the City of San Jose, County of Santa Clara, State of California and being a portion of Parcel 2 as shown on that certain Parcel Map filed for record on December 23, 1997 in Book 698 of Maps at Pages 1 and 2, Santa Clara County Records more particularly described as follows:

Beginning at a point on a Westerly line of said Parcel 2 at the Northwest corner of Parcel 51 as shown on that certain Parcel Map filed for record on January 28, 1977 in Book 388 of Maps at Pages 16 through 27, Santa Clara County Records;
Thence along said Westerly line North 3°23'31" West, 30.00 feet to a point on the Northerly line of said Parcel 2;
Thence leaving said Westerly line North 86°16'29" East 521.71 feet along said Northerly line;
Thence continuing Northeasterly along said Northerly line on the arc of a curve to the left, having a radius of 367.00 feet, through a central angle of 48°43'52" for an arc distance of 312.14 feet to a point of cusp;
Thence South 37°52'37" West, 151.40 feet along the prolongation of the Southeasterly line of said Parcel 51 and the beginning of a non-tangent curve to the right, to which point a radial line bears South 29°42'19" East;
Thence Southwesterly along the Northerly line of said Parcel 51 and said non-tangent curve to the right, having a radius of 397.00 feet, through a central angle of 26°18'48" for an arc distance of 182.32 feet;
Thence continuing along said Northerly line South 86°36'29" West, 521.71 feet to the Point of Beginning.

Also designated as Parcel E pursuant to the Lot Line Adjustment, recorded August 13, 2008, Instrument No. 19953160, of Official Records.

Excepting Therefrom, the following reservation set forth in that certain Grant Deed Recorded February 18, 1992 in Book M 049 Page 1348, Official Records from SF Pacific Properties, Inc., as Grantor to Sani Kalman, Trustee, "All right, title and interest in and to all coal, hydrocarbons, geothermal resources, precious metals ores, base metals ores, industrial-grade silicates and carbonates, fissionable minerals, sand, gravel, aggregates, and all other minerals of every kind and character, metallic or otherwise, whether or not presently known to science or industry, now known to exist or hereafter discovered upon, within or underlying the surface of said land regardless of the depth below the surface at which any such substance may be found; however, Grantor or its successors and assigns, shall not have the right for any purpose whatsoever to enter upon, Into or through the surface or the first 500 feet of the subsurface".

RECORD DESCRIPTION

THE LAND REFERRED TO HEREIN BELOW IS SITUATED IN THE CITY OF SAN JOSE IN THE COUNTY OF SANTA CLARA, STATE OF CALIFORNIA, AND IS DESCRIBED AS FOLLOWS:

Being all of Parcel A and Parcel B as shown on that certain Parcel Map filed for record on July 13, 1977, in Book 400 of Maps at Pages 25, 26 and 27, Santa Clara County Records; and, in addition thereto, the following area:

All that certain real property lying within the City of San Jose, County of Santa Clara, State of California and being a portion of Parcel 2 as shown on that certain Parcel Map filed for record on December 23, 1997 in Book 698 of Maps, Pages 1 and 2, Santa Clara County Records being more particularly described as follows:

Transfer Area B

Beginning at the Northeast corner of Parcel B as shown on that certain Parcel Map filed for record on July 13, 1977 in Book 400 of Maps at Pages 25 through 27, Santa Clara County Records, said point also being on the Westerly line of said Parcel 2 and the beginning of a non-tangent curve to the left, to which point a radial line bears North 72° 22' 01" East;
Thence Northwesterly along Westerly line of Parcel 2, along said non-tangent curve to the left having a radius of 5669.65 feet, through a central angle of 3° 29' 30" for an arc distance of 345.51 feet;
Thence North 68° 52' 31" West, 30.00 feet to a point on the Easterly line of said Parcel 2 and the beginning of a non-tangent curve to the right, to which point radial line bears North 68° 52' 31" East;
Thence Southeasterly with said Easterly line of Parcel 2, along a non-tangent curve to the right having a radius of 5699.65 feet, through a central angle of 6° 16' 01" for an arc distance of 623.42 feet;
Thence continuing along said Easterly line of Parcel 2, South 14° 51' 58" East, 198.12 feet;
Thence leaving said Easterly line of Parcel 2, South 37° 52' 37" West, 219.62 feet to a point of cusp and being on the Westerly line of said Parcel 2, said point also being the beginning of a non-tangent curve to the left, to which point radial line bears South 52° 07' 23" East;
Thence Northerly along said Westerly line of Parcel 2, along said non-tangent curve to the left, having a radius of 367.00 feet, through a central angle of 52° 44' 05" for an arc distance of 337.78 feet;
Thence North 14° 51' 28" West, 39.03 feet to the beginning of a tangent curve to the left, to which point radial line bears North 75° 08' 32" East;
Thence Northwesterly along said Westerly line of Parcel 2, along said tangent curve to the left, having a radius of 5669.65 feet, through a central angle of 02° 46' 31" for an arc distance of 274.63 feet to the point of beginning.

Being pursuant to that certain Lot Line Adjustment Permit recorded August 13, 2008, as Instrument No. 19953160, of Official Records.

Excepting therefrom the following reservation set forth in the Grant Deed recorded February 18, 1992, in Book M049, Page 1348, Official Records, from SF Pacific Properties, Inc., as Grantor and Sani Kalman, Trustee:

"All right, title and interest in and to all coal, hydrocarbons, geothermal resources, precious metals ores, base metal ores, industrial-grade silicates and carbonates, fissionable minerals, sand, gravel, aggregates, and all otherminerals of every kind and character, metallic or otherwise, whether or not presently known to science or industry, now known to exist or hereafter discovered upon, within or underlying the surface of said land regardless of the depth below the surface at which any such substance may be found; however, Grantor or its successors and assigns, shall not have the right for any purpose whatsoever to enter upon, into or through the surface or the first 500 feet of the subsurface."

SURVEY • ZONING • ENVIRONMENTAL • ASSESSMENT

PHASE I ENVIRONMENTAL SITE ASSESSMENT (ESA)
USER QUESTIONNAIRE

In order to qualify for one of the *Landowner Liability Protections (LLPs)* offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the "*Brownfields Amendments*"), the *user of the Phase I ESA* must provide the following information (if available) to the *environmental professional*. Failure to provide this information could result in a determination that "*all appropriate inquiry*" is not complete.

Project Information	
Facility Name and Address:	2150 Commerce Dr., San Jose, CA; 2222 Qume Dr., San Jose, CA 2350 Qume Dr., San Jose, CA
Reason for the Phase I ESA:	Aquisition
Type of Property:	Office/R&D/ Advanced Manufacturing
Site Owner and Contact Information:	Becton Dickinson Lauren Goldrick lauren.goldrick@bd.com
Site Contact Name and Contact Information:	Ken Connors ken.conners@bd.com 619-954-8817 Dina Crew dina.crew@bd.com 408-205-6778
Tax Assessors Parcel Number (APN):	244-15-003; 244-15-020; 244-15-026

	Yes	No
1. Are you aware of any environmental cleanup liens against the subject property that are filed or recorded under federal, state, or local law?		x
2. Are you aware of any activity use limitations, such as engineering controls (engineered caps, liners, treatment methods, etc.), land use restrictions, or institutional controls (administrative measures restricting groundwater use, construction, or property use, etc.) that are in place at the site and/or have been filed or recorded in a registry under federal, tribal, state, or local law?		x
3. Do you have any specialized knowledge or experience related to the subject property or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the subject property so that you would have specialized knowledge of the chemicals or processes used by this type of business?		x
4a. Does the purchase price being paid for the subject property reasonably reflect the fair market value of the subject property?	x	
4b. If you conclude that there is a difference in fair market price, have you considered whether the lower purchase price is because contamination is known or believed to be present at the property?		
5. Are you aware of any commonly known or reasonably ascertainable information about the subject property that would help the environmental professional to identify conditions indicative of releases or threatened releases? For example, as a user,		
5 (a) Do you know of the past uses of the property?		x
5 (b) Do you know of any specific chemicals that are present or were once present on the subject property?		x
5 (c) Do you know of spills or other chemical releases that have taken place at the subject property?		x

5 (d) Do you know of any environmental cleanups that have taken place at the subject property?		x
6. As the user of this ESA, based on your knowledge and experience related to the subject property, are there any obvious indicators that point to the presence or likely presence of contamination at the subject property?		x

If you answered "yes" to any of the questions (except 4a) above, please provide more detail below, or attach additional information to this document:

PRELIMINARY REPORT

In response to the application for a policy of title insurance referenced herein, ***Fidelity National Title Company*** *hereby reports that it is prepared to issue, or cause to be issued, as of the date hereof, a policy or policies of title insurance describing the land and the estate or interest therein hereinafter set forth, insuring against loss which may be sustained by reason of any defect, lien or encumbrance not shown or referred to as an exception herein or not excluded from coverage pursuant to the printed Schedules, Conditions and Stipulations or Conditions of said policy forms.*

The printed Exceptions and Exclusions from the coverage and Limitations on Covered Risks of said policy or policies are set forth in Attachment One. The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than that set forth in the arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties. Limitations on Covered Risks applicable to the CLTA and ALTA Homeowner's Policies of Title Insurance which establish a Deductible Amount and a Maximum Dollar Limit of Liability for certain coverages are also set forth in Attachment One. Copies of the policy forms should be read. They are available from the office which issued this report.

This report (and any supplements or amendments hereto) is issued solely for the purpose of facilitating the issuance of a policy of title insurance and no liability is assumed hereby. If it is desired that liability be assumed prior to the issuance of a policy of title insurance, a Binder or Commitment should be requested.

The policy(s) of title insurance to be issued hereunder will be policy(s) of Fidelity National Title Insurance Company, a Florida Corporation.

Please read the exceptions shown or referred to herein and the exceptions and exclusions set forth in Attachment One of this report carefully. The exceptions and exclusions are meant to provide you with notice of matters which are not covered under the terms of the title insurance policy and should be carefully considered.

It is important to note that this preliminary report is not a written representation as to the condition of title and may not list all liens, defects and encumbrances affecting title to the land.

minerals of every kind and character, metallic or otherwise, whether or not presently known to science or industry, now known to exist or hereafter discovered upon, within or underlying the surface of said land regardless of the depth below the surface at which any such substance may be found; however, Grantor or its successors and assigns, shall not have the right for any purpose whatsoever to enter upon, into or through the surface or the first 500 feet of the subsurface."

APN: **244-15-026**

EXCEPTIONS

AT THE DATE HEREOF, ITEMS TO BE CONSIDERED AND EXCEPTIONS TO COVERAGE IN ADDITION TO THE PRINTED EXCEPTIONS AND EXCLUSIONS IN SAID POLICY FORM WOULD BE AS FOLLOWS:

1. Property taxes, including any personal property taxes and any assessments collected with taxes are as follows:

Code Area:	017-072
Tax Identification No.:	244-15-026
Fiscal Year:	2020-2021
1st Installment:	$506,396.85, Paid
2nd Installment:	$506,396.85, Open
Exemption:	$0.00
Land:	$15,715,007.00
Improvements:	$24,950,804.00
Personal Property:	$37,434,868.00
Bill No.:	244-15-026-00

2. Prior to close of escrow, please contact the Tax Collector's Office to confirm all amounts owing, including current fiscal year taxes, supplemental taxes, escaped assessments and any delinquencies.

3. Any liens or other assessments, bonds, or special district liens including without limitation, Community Facility Districts, that arise by reason of any local, City, Municipal or County Project or Special District.

4. The lien of supplemental or escaped assessments of property taxes, if any, made pursuant to the provisions of Chapter 3.5 (commencing with Section 75) or Part 2, Chapter 3, Articles 3 and 4, respectively, of the Revenue and Taxation Code of the State of California as a result of the transfer of title to the vestee named in Schedule A or as a result of changes in ownership or new construction occurring prior to Date of Policy.

5. Water rights, claims or title to water, whether or not disclosed by the public records.

6. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:

Granted to:	City of San Jose, a municipal corporation
Purpose:	Public utilities
Recording Date:	August 11, 1975
Recording No:	Book B552, Page 508, of Official Records
Affects:	Portion of said land

   Reference is hereby made to said document for full particulars.

7. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:

Granted to:	City of San Jose, a municipal corporation
Purpose:	Public utilities
Recording Date:	November 21, 1975
Recording No:	Book B732, Page 349, of Official Records
Affects:	Portion of said land

   Reference is hereby made to said document for full particulars.

EXCEPTIONS
(Continued)

8. Covenants, conditions and restrictions but omitting any covenants or restrictions, if any, including but not limited to those based upon race, color, religion, sex, gender, gender identity, gender expression, sexual orientation, marital status, national origin, ancestry, familial status, source of income, disability, veteran or military status, genetic information, medical condition, citizenship, primary language, and immigration status, as set forth in applicable state or federal laws, except to the extent that said covenant or restriction is permitted by applicable law, as set forth in the document

   Recording Date: July 26, 1977
   Recording No: Book D22, Page 651, of Official Records

   Said covenants, conditions and restrictions provide that a violation thereof shall not defeat the lien of any mortgage or deed of trust made in good faith and for value.

9. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:

   Granted to: City of San Jose, a municipal corporation
   Purpose: Sanitary sewer
   Recording Date: May 31, 1978
   Recording No: Book D706, Page 341, of Official Records
   Affects: Portion of said land

   Reference is hereby made to said document for full particulars.

10. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:

   Granted to: City of San Jose, a municipal corporation
   Purpose: Sanitary sewer
   Recording Date: September 3, 1980
   Recording No: Book F548, Page 475, of Official Records
   Affects: Portion of said land

   Reference is hereby made to said document for full particulars.

11. Matters contained in that certain document

   Entitled: Certificate of Permit (File No. HA97-01-090)
   Dated: March 23, 2001
   Executed by: City of San Jose
   Recording Date: April 20, 2001
   Recording No: 15645592, of Official Records

   Reference is hereby made to said document for full particulars.

12. Any rights of the parties in possession of a portion of, or all of, said Land, which rights are not disclosed by the public records.

   The Company will require, for review, a full and complete copy of any unrecorded agreement, contract, license and/or lease, together with all supplements, assignments and amendments thereto, before issuing any policy of title insurance without excepting this item from coverage.

   The Company reserves the right to except additional items and/or make additional requirements after reviewing said documents.

EXCEPTIONS
(Continued)

13. The Company will require an ALTA/NSPS LAND TITLE SURVEY. If the owner of the Land that is the subject of this transaction is in possession of a current ALTA/NSPS LAND TITLE SURVEY, the Company will require that said survey be submitted for review and approval; otherwise, a new survey, satisfactory to the Company, must be prepared by a licensed land surveyor and supplied to the Company prior to the close of escrow.

    The Company reserves the right to add additional items or make further requirements after review of the requested documentation.

14. Any lien or right to a lien for services, labor or material heretofore or hereafter furnished, imposed by law and not shown by the Public Records.

15. The Company will require the following documents for review prior to the issuance of any title insurance predicated upon a conveyance or encumbrance by the corporation named below:

    Name of Corporation: Becton, Dickinson and Company, a New Jersey corporation

    a) A Copy of the corporation By-laws and Articles of Incorporation

    b) An original or certified copy of a resolution authorizing the transaction contemplated herein

    c) If the Articles and/or By-laws require approval by a 'parent' organization, a copy of the Articles and By-laws of the parent

    The Company reserves the right to add additional items or make further requirements after review of the requested documentation.

16. The Company will require that an Owner's Affidavit be completed by the party(s) named below before the issuance of any policy of title insurance.

    Party(s): Becton, Dickinson and Company, a New Jersey corporation

    The Company reserves the right to add additional items or make further requirements after review of the requested Affidavit.

17. The search did not disclose any open mortgages or deeds of trust of record, therefore the Company reserves the right to require further evidence to confirm that the property is unencumbered, and further reserves the right to make additional requirements or add additional items or exceptions upon receipt of the requested evidence.

18. The requirement that the complete and correct name(s) of the buyer(s) in this transaction be submitted to the Title Department at least 5 days prior to the close of Escrow.

19. This transaction requires high liability approval prior to close of escrow together with an inspection of the subject property.

    Please advise title department with an estimated date that your transaction will close so we can schedule the necessary approvals and inspections.

20. Prior to the close of escrow and the issuance of an ALTA Coverage Policy, an inspection of the property will be required.

EXCEPTIONS
(Continued)

21. The transaction contemplated in connection with this Report is subject to the review and approval of the Company's Corporate Underwriting Department. The Company reserves the right to add additional items or make further requirements after such review.

END OF EXCEPTIONS

NOTES

1. None of the items shown in this report will cause the Company to decline to attach CLTA Endorsement Form 100 to an Extended Coverage Loan Policy, when issued.

2. Note: The Company is not aware of any matters which would cause it to decline to attach CLTA Endorsement Form 116 indicating that there is located on said Land a Commercial Property, known as 2350 Qume Drive, San Jose, CA, to an Extended Coverage Loan Policy.

3. Note: The name(s) of the proposed insured(s) furnished with this application for title insurance is/are:

   No names were furnished with the application. Please provide the name(s) of the buyers as soon as possible.

4. Note: There are NO conveyances affecting said Land recorded within 24 months of the date of this report.

5. Note: The charge for a policy of title insurance, when issued through this title order, will be based on the Basic Title Insurance Rate.

6. Note: Under Measure E, effective July 1, 2020 the City of San Jose will impose a transfer tax based on the full value of the property at the time a deed or other transfer over $2,000,000.00 is recorded. This is in addition to the $3.30 per thousand transfer tax the City already imposes. Transfers would be taxed at the following rates:

Property Value:	Tax Rate:
Less than $2,000,000	Exempt from tax
$2,000,000.00 to $5,000,000.00	0.75%
$5,000,000.01 to $10,000,000.00	1.0%
$10,000,000.01 and higher	1.5%

   Contact the City of San Jose Finance Department at (408)535-7055 for further information.

7. The application for title insurance was placed by reference to only a street address or tax identification number. The proposed Insured must confirm that the legal description in this report covers the parcel(s) of Land requested to be insured. If the legal description is incorrect, the proposed Insured must notify the Company and/or the settlement company in order to prevent errors and to be certain that the legal description for the intended parcel(s) of Land will appear on any documents to be recorded in connection with this transaction and on the policy of title insurance.

8. Note: If a county recorder, title insurance company, escrow company, real estate broker, real estate agent or association provides a copy of a declaration, governing document or deed to any person, California law requires that the document provided shall include a statement regarding any unlawful restrictions. Said statement is to be in at least 14-point bold face type and may be stamped on the first page of any document provided or included as a cover page attached to the requested document. Should a party to this transaction request a copy of any document reported herein that fits this category, the statement is to be included in the manner described.

9. Note: Any documents being executed in conjunction with this transaction must be signed in the presence of an authorized Company employee, an authorized employee of a Company agent, an authorized employee of the insured lender, or by using Bancserv or other Company-approved third-party service. If the above requirement cannot be met, please call the Company at the number provided in this report.

NOTES
(Continued)

10. Note: The policy of title insurance will include an arbitration provision. The Company or the insured may demand arbitration. Arbitrable matters may include, but are not limited to, any controversy or claim between the Company and the insured arising out of or relating to this policy, any service of the Company in connection with its issuance or the breach of a policy provision or other obligation. Please ask your escrow or title officer for a sample copy of the policy to be issued if you wish to review the arbitration provisions and any other provisions pertaining to your Title Insurance coverage.

11. Notice: Please be aware that due to the conflict between federal and state laws concerning the cultivation, distribution, manufacture or sale of marijuana, the Company is not able to close or insure any transaction involving Land that is associated with these activities.

12. Pursuant to Government Code Section 27388.1, as amended and effective as of 1-1-2018, a Documentary Transfer Tax (DTT) Affidavit may be required to be completed and submitted with each document when DTT is being paid or when an exemption is being claimed from paying the tax. If a governmental agency is a party to the document, the form will not be required. DTT Affidavits may be available at a Tax Assessor-County Clerk-Recorder.

13. Due to the special requirements of SB 50 (California Public Resources Code Section 8560 et seq.), any transaction that includes the conveyance of title by an agency of the United States must be approved in advance by the Company's State Counsel, Regional Counsel, or one of their designees.

END OF NOTES

Kevin Davis/ad1

Wire Fraud Alert

This Notice is not intended to provide legal or professional advice. If you have any questions, please consult with a lawyer.

All parties to a real estate transaction are targets for wire fraud and many have lost hundreds of thousands of dollars because they simply relied on the wire instructions received via email, without further verification. **If funds are to be wired in conjunction with this real estate transaction, we strongly recommend verbal verification of wire instructions through a known, trusted phone number prior to sending funds.**

In addition, the following non-exclusive self-protection strategies are recommended to minimize exposure to possible wire fraud.

- **NEVER RELY** on emails purporting to change wire instructions. Parties to a transaction rarely change wire instructions in the course of a transaction.
- **ALWAYS VERIFY** wire instructions, specifically the ABA routing number and account number, by calling the party who sent the instructions to you. DO NOT use the phone number provided in the email containing the instructions, use phone numbers you have called before or can otherwise verify. **Obtain the phone number of relevant parties to the transaction as soon as an escrow account is opened**. DO NOT send an email to verify as the email address may be incorrect or the email may be intercepted by the fraudster.
- **USE COMPLEX EMAIL PASSWORDS** that employ a combination of mixed case, numbers, and symbols. Make your passwords greater than eight (8) characters. Also, change your password often and do NOT reuse the same password for other online accounts.
- **USE MULTI-FACTOR AUTHENTICATION** for email accounts. Your email provider or IT staff may have specific instructions on how to implement this feature.

For more information on wire-fraud scams or to report an incident, please refer to the following links:

Notice of Available Discounts

Pursuant to Section 2355.3 in Title 10 of the California Code of Regulations Fidelity National Financial, Inc. and its subsidiaries ("FNF") must deliver a notice of each discount available under our current rate filing along with the delivery of escrow instructions, a preliminary report or commitment. Please be aware that the provision of this notice does not constitute a waiver of the consumer's right to be charged the filed rate. As such, your transaction may not qualify for the below discounts.

You are encouraged to discuss the applicability of one or more of the below discounts with a Company representative. These discounts are generally described below; consult the rate manual for a full description of the terms, conditions and requirements for such discount. These discounts only apply to transactions involving services rendered by the FNF Family of Companies. This notice only applies to transactions involving property improved with a one-to-four family residential dwelling.

Not all discounts are offered by every FNF Company. The discount will only be applicable to the FNF Company as indicated by the named discount.

FIDELITY NATIONAL FINANCIAL, INC.
PRIVACY NOTICE

Effective April 9, 2020

Fidelity National Financial, Inc. and its majority-owned subsidiary companies (collectively, "FNF," "our," or "we") respect and are committed to protecting your privacy. This Privacy Notice explains how we collect, use, and protect personal information, when and to whom we disclose such information, and the choices you have about the use and disclosure of that information.

A limited number of FNF subsidiaries have their own privacy notices. If a subsidiary has its own privacy notice, the privacy notice will be available on the subsidiary's website and this Privacy Notice does not apply.

Collection of Personal Information

FNF may collect the following categories of Personal Information:

- contact information (*e.g.*, name, address, phone number, email address);
- demographic information (*e.g.*, date of birth, gender, marital status);
- identity information (*e.g.* Social Security Number, driver's license, passport, or other government ID number);
- financial account information (*e.g.* loan or bank account information); and
- other personal information necessary to provide products or services to you.

We may collect Personal Information about you from:

- information we receive from you or your agent;
- information about your transactions with FNF, our affiliates, or others; and
- information we receive from consumer reporting agencies and/or governmental entities, either directly from these entities or through others.

Collection of Browsing Information

FNF automatically collects the following types of Browsing Information when you access an FNF website, online service, or application (each an "FNF Website") from your Internet browser, computer, and/or device:

- Internet Protocol (IP) address and operating system;
- browser version, language, and type;
- domain name system requests; and
- browsing history on the FNF Website, such as date and time of your visit to the FNF Website and visits to the pages within the FNF Website.

Like most websites, our servers automatically log each visitor to the FNF Website and may collect the Browsing Information described above. We use Browsing Information for system administration, troubleshooting, fraud investigation, and to improve our websites. Browsing Information generally does not reveal anything personal about you, though if you have created a user account for an FNF Website and are logged into that account, the FNF Website may be able to link certain browsing activity to your user account.

Other Online Specifics

Cookies. When you visit an FNF Website, a "cookie" may be sent to your computer. A cookie is a small piece of data that is sent to your Internet browser from a web server and stored on your computer's hard drive. Information gathered using cookies helps us improve your user experience. For example, a cookie can help the website load properly or can customize the display page based on your browser type and user preferences. You can choose whether or not to accept cookies by changing your Internet browser settings. Be aware that doing so may impair or limit some functionality of the FNF Website.

Web Beacons. We use web beacons to determine when and how many times a page has been viewed. This information is used to improve our websites.

Do Not Track. Currently our FNF Websites do not respond to "Do Not Track" features enabled through your browser.

Links to Other Sites. FNF Websites may contain links to unaffiliated third-party websites. FNF is not responsible for the privacy practices or content of those websites. We recommend that you read the privacy policy of every website you visit.

Use of Personal Information

FNF uses Personal Information for three main purposes:

- To provide products and services to you or in connection with a transaction involving you.
- To improve our products and services.
- To communicate with you about our, our affiliates', and others' products and services, jointly or independently.

When Information Is Disclosed

We may disclose your Personal Information and Browsing Information in the following circumstances:

- to enable us to detect or prevent criminal activity, fraud, material misrepresentation, or nondisclosure;

Copyright © 2020. Fidelity National Financial, Inc. All Rights Reserved

- to nonaffiliated service providers who provide or perform services or functions on our behalf and who agree to use the information only to provide such services or functions;
- to nonaffiliated third party service providers with whom we perform joint marketing, pursuant to an agreement with them to jointly market financial products or services to you;
- to law enforcement or authorities in connection with an investigation, or in response to a subpoena or court order; or
- in the good-faith belief that such disclosure is necessary to comply with legal process or applicable laws, or to protect the rights, property, or safety of FNF, its customers, or the public.

The law does not require your prior authorization and does not allow you to restrict the disclosures described above. Additionally, we may disclose your information to third parties for whom you have given us authorization or consent to make such disclosure. We do not otherwise share your Personal Information or Browsing Information with nonaffiliated third parties, except as required or permitted by law. We may share your Personal Information with affiliates (other companies owned by FNF) to directly market to you. Please see "Choices with Your Information" to learn how to restrict that sharing.

We reserve the right to transfer your Personal Information, Browsing Information, and any other information, in connection with the sale or other disposition of all or part of the FNF business and/or assets, or in the event of bankruptcy, reorganization, insolvency, receivership, or an assignment for the benefit of creditors. By submitting Personal Information and/or Browsing Information to FNF, you expressly agree and consent to the use and/or transfer of the foregoing information in connection with any of the above described proceedings.

Security of Your Information
We maintain physical, electronic, and procedural safeguards to protect your Personal Information.

Choices With Your Information
If you do not want FNF to share your information among our affiliates to directly market to you, you may send an "opt out" request by email, phone, or physical mail as directed at the end of this Privacy Notice. We do not share your Personal Information with nonaffiliates for their use to direct market to you without your consent.

Whether you submit Personal Information or Browsing Information to FNF is entirely up to you. If you decide not to submit Personal Information or Browsing Information, FNF may not be able to provide certain services or products to you.

For California Residents: We will not share your Personal Information or Browsing Information with nonaffiliated third parties, except as permitted by California law. For additional information about your California privacy rights, please visit the "California Privacy" link on our website (https://fnf.com/pages/californiaprivacy.aspx) or call (888) 413-1748.

For Nevada Residents: You may be placed on our internal Do Not Call List by calling (888) 934-3354 or by contacting us via the information set forth at the end of this Privacy Notice. Nevada law requires that we also provide you with the following contact information: Bureau of Consumer Protection, Office of the Nevada Attorney General, 555 E. Washington St., Suite 3900, Las Vegas, NV 89101; Phone number: (702) 486-3132; email: BCPINFO@ag.state.nv.us.
For Oregon Residents: We will not share your Personal Information or Browsing Information with nonaffiliated third parties for marketing purposes, except after you have been informed by us of such sharing and had an opportunity to indicate that you do not want a disclosure made for marketing purposes.

For Vermont Residents: We will not disclose information about your creditworthiness to our affiliates and will not disclose your personal information, financial information, credit report, or health information to nonaffiliated third parties to market to you, other than as permitted by Vermont law, unless you authorize us to make those disclosures.

Information From Children
The FNF Websites are not intended or designed to attract persons under the age of eighteen (18).We do not collect Personal Information from any person that we know to be under the age of thirteen (13) without permission from a parent or guardian.

International Users
FNF's headquarters is located within the United States. If you reside outside the United States and choose to provide Personal Information or Browsing Information to us, please note that we may transfer that information outside of your country of residence. By providing FNF with your Personal Information and/or Browsing Information, you consent to our collection, transfer, and use of such information in accordance with this Privacy Notice.

FNF Website Services for Mortgage Loans
Certain FNF companies provide services to mortgage loan servicers, including hosting websites that collect customer information on behalf of mortgage loan servicers (the "Service Websites"). The Service Websites may contain links to both this Privacy Notice and the mortgage loan servicer or lender's privacy notice. The sections of this Privacy Notice titled When Information is Disclosed, Choices with Your Information, and Accessing and Correcting Information do not apply to the Service Websites. The mortgage loan servicer or lender's privacy notice governs use, disclosure, and access to your Personal Information. FNF does not share Personal Information collected through the Service Websites, except as required or authorized by contract with the mortgage loan servicer or lender, or as required by law or in the good-faith belief that such disclosure is necessary: to comply with a legal process or applicable law, to enforce this Privacy Notice, or to protect the rights, property, or safety of FNF or the public.

Your Consent To This Privacy Notice; Notice Changes; Use of Comments or Feedback

By submitting Personal Information and/or Browsing Information to FNF, you consent to the collection and use of the information in accordance with this Privacy Notice. We may change this Privacy Notice at any time. The Privacy Notice's effective date will show the last date changes were made. If you provide information to us following any change of the Privacy Notice, that signifies your assent to and acceptance of the changes to the Privacy Notice. We may use comments or feedback that you submit to us in any manner without notice or compensation to you.

Accessing and Correcting Information; Contact Us

If you have questions, would like to correct your Personal Information, or want to opt-out of information sharing for affiliate marketing, send your requests to privacy@fnf.com, by phone to (888) 934-3354, or by mail to:

ATTACHMENT ONE (Revised 05-06-16)

CALIFORNIA LAND TITLE ASSOCIATION
STANDARD COVERAGE POLICY – 1990

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

1. (a) Any law, ordinance or governmental regulation (including but not limited to building or zoning laws, ordinances, or regulations) restricting, regulating, prohibiting or relating (i) the occupancy, use, or enjoyment of the land; (ii) the character, dimensions or location of any improvement now or hereafter erected on the land; (iii) a separation in ownership or a change in the dimensions or area of the land or any parcel of which the land is or was a part; or (iv) environmental protection, or the effect of any violation of these laws, ordinances or governmental regulations, except to the extent that a notice of the enforcement thereof or a notice of a defect, lien, or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
   (b) Any governmental police power not excluded by (a) above, except to the extent that a notice of the exercise thereof or notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
2. Rights of eminent domain unless notice of the exercise thereof has been recorded in the public records at Date of Policy, but not excluding from coverage any taking which has occurred prior to Date of Policy which would be binding on the rights of a purchaser for value without knowledge.
3. Defects, liens, encumbrances, adverse claims or other matters:
   (a) whether or not recorded in the public records at Date of Policy, but created, suffered, assumed or agreed to by the insured claimant;
   (b) not known to the Company, not recorded in the public records at Date of Policy, but known to the insured claimant and not disclosed in writing to the Company by the insured claimant prior to the date the insured claimant became an insured under this policy;
   (c) resulting in no loss or damage to the insured claimant;
   (d) attaching or created subsequent to Date of Policy; or
   (e) resulting in loss or damage which would not have been sustained if the insured claimant had paid value for the insured mortgage or for the estate or interest insured by this policy.
4. Unenforceability of the lien of the insured mortgage because of the inability or failure of the insured at Date of Policy, or the inability or failure of any subsequent owner of the indebtedness, to comply with the applicable doing business laws of the state in which the land is situated.
5. Invalidity or unenforceability of the lien of the insured mortgage, or claim thereof, which arises out of the transaction evidenced by the insured mortgage and is based upon usury or any consumer credit protection or truth in lending law.
6. Any claim, which arises out of the transaction vesting in the insured the estate of interest insured by this policy or the transaction creating the interest of the insured lender, by reason of the operation of federal bankruptcy, state insolvency or similar creditors' rights laws.

EXCEPTIONS FROM COVERAGE - SCHEDULE B, PART I

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) which arise by reason of:

1. Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the public records.
   Proceedings by a public agency which may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the public records.
2. Any facts, rights, interests, or claims which are not shown by the public records but which could be ascertained by an inspection of the land or which may be asserted by persons in possession thereof.
3. Easements, liens or encumbrances, or claims thereof, not shown by the public records.
4. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other facts which a correct survey would disclose, and which are not shown by the public records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b) or (c) are shown by the public records.
6. Any lien or right to a lien for services, labor or material not shown by the public records.

CLTA HOMEOWNER'S POLICY OF TITLE INSURANCE (12-02-13)
ALTA HOMEOWNER'S POLICY OF TITLE INSURANCE

EXCLUSIONS

In addition to the Exceptions in Schedule B, You are not insured against loss, costs, attorneys' fees, and expenses resulting from:

1. Governmental police power, and the existence or violation of those portions of any law or government regulation concerning:
   a. building;
   b. zoning;
   c. land use;
   d. improvements on the Land;
   e. land division; and
   f. environmental protection.
   This Exclusion does not limit the coverage described in Covered Risk 8.a., 14, 15, 16, 18, 19, 20, 23 or 27.
2. The failure of Your existing structures, or any part of them, to be constructed in accordance with applicable building codes. This Exclusion does not limit the coverage described in Covered Risk 14 or 15.
3. The right to take the Land by condemning it. This Exclusion does not limit the coverage described in Covered Risk 17.
4. Risks:
   a. that are created, allowed, or agreed to by You, whether or not they are recorded in the Public Records;
   b. that are Known to You at the Policy Date, but not to Us, unless they are recorded in the Public Records at the Policy Date;
   c. that result in no loss to You; or
   d. that first occur after the Policy Date - this does not limit the coverage described in Covered Risk 7, 8.e., 25, 26, 27 or 28.
5. Failure to pay value for Your Title.
6. Lack of a right:

a. to any land outside the area specifically described and referred to in paragraph 3 of Schedule A; and
b. in streets, alleys, or waterways that touch the Land.
This Exclusion does not limit the coverage described in Covered Risk 11 or 21.

7. The transfer of the Title to You is invalid as a preferential transfer or as a fraudulent transfer or conveyance under federal bankruptcy, state insolvency, or similar creditors' rights laws.
8. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake, or subsidence.
9. Negligence by a person or an Entity exercising a right to extract or develop minerals, water, or any other substances.

LIMITATIONS ON COVERED RISKS

Your insurance for the following Covered Risks is limited on the Owner's Coverage Statement as follows:

- For Covered Risk 16, 18, 19, and 21 Your Deductible Amount and Our Maximum Dollar Limit of Liability shown in Schedule A.

The deductible amounts and maximum dollar limits shown on Schedule A are as follows:

	Your Deductible Amount	Our Maximum Dollar Limit of Liability
Covered Risk 16:	1.00% of Policy Amount Shown in Schedule A or $2,500.00 (whichever is less)	$ 10,000.00
Covered Risk 18:	1.00% of Policy Amount Shown in Schedule A or $5,000.00 (whichever is less)	$ 25,000.00
Covered Risk 19:	1.00% of Policy Amount Shown in Schedule A or $5,000.00 (whichever is less)	$ 25,000.00
Covered Risk 21:	1.00% of Policy Amount Shown in Schedule A or $2,500.00 (whichever is less)	$ 5,000.00

2006 ALTA LOAN POLICY (06-17-06)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (i) the occupancy, use, or enjoyment of the Land;
   (ii) the character, dimensions, or location of any improvement erected on the Land;
   (iii) the subdivision of land; or
   (iv) environmental protection;
   or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
   (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
   (a) created, suffered, assumed, or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss or damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 13 or 14); or
   (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury or any consumer credit protection or truth-in-lending law.
6. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
   (a) a fraudulent conveyance or fraudulent transfer, or
   (b) a preferential transfer for any reason not stated in Covered Risk 13(b) of this policy.
7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the Insured Mortgage in the Public Records. This Exclusion does not modify or limit the coverage provided under Covered Risk 11(b).

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

{Except as provided in Schedule B - Part II,{ t{or T}his policy does not insure against loss or damage, and the Company will not pay costs, attorneys' fees or expenses, that arise by reason of:

{PART I

{The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.

4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor or material not shown by the Public Records.}

PART II

In addition to the matters set forth in Part I of this Schedule, the Title is subject to the following matters, and the Company insures against loss or damage sustained in the event that they are not subordinate to the lien of the Insured Mortgage:}

2006 ALTA OWNER'S POLICY (06-17-06)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (i) the occupancy, use, or enjoyment of the Land;
   (ii) the character, dimensions, or location of any improvement erected on the Land;
   (iii) the subdivision of land; or
   (iv) environmental protection;
   or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
   (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
   (a) created, suffered, assumed, or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss or damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 9 and 10); or
   (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Title.
4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction vesting the Title as shown in Schedule A, is
   (a) a fraudulent conveyance or fraudulent transfer; or
   (b) a preferential transfer for any reason not stated in Covered Risk 9 of this policy.
5. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage, and the Company will not pay costs, attorneys' fees or expenses, that arise by reason of:
{The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown in the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.

5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor or material not shown by the Public Records. }
7. {Variable exceptions such as taxes, easements, CC&R's, etc. shown here.}

ALTA EXPANDED COVERAGE RESIDENTIAL LOAN POLICY – ASSESSMENTS PRIORITY (04-02-15)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (i) the occupancy, use, or enjoyment of the Land;
   (ii) the character, dimensions, or location of any improvement erected on the Land;
   (iii) the subdivision of land; or
   (iv) environmental protection;

or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.

(b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.

2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
   (a) created, suffered, assumed, or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss or damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 16, 17, 18, 19, 20, 21, 22, 23, 24, 27 or 28); or
   (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury, or any consumer credit protection or truth-in-lending law. This Exclusion does not modify or limit the coverage provided in Covered Risk 26.
6. Any claim of invalidity, unenforceability or lack of priority of the lien of the Insured Mortgage as to Advances or modifications made after the Insured has Knowledge that the vestee shown in Schedule A is no longer the owner of the estate or interest covered by this policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11.
7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching subsequent to Date of Policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11(b) or 25.
8. The failure of the residential structure, or any portion of it, to have been constructed before, on or after Date of Policy in accordance with applicable building codes. This Exclusion does not modify or limit the coverage provided in Covered Risk 5 or 6.
9. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
   (a) a fraudulent conveyance or fraudulent transfer, or
   (b) a preferential transfer for any reason not stated in Covered Risk 27(b) of this policy.
10. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake, or subsidence.
11. Negligence by a person or an Entity exercising a right to extract or develop minerals, water, or any other substances.

Issuing Policies of Fidelity National Title Insurance Company

Title Officer: Kevin Davis
Escrow Officer: Major Accounts OAC

Order No.: 991-**30058464**-KD9

TO:

Fidelity National Title
4400 MacArthur Blvd, Suite 200
Newport Beach, CA 92660

ATTN: **Trent Cornell**
YOUR REFERENCE: **30058422**

PROPERTY ADDRESS: **2150 Commerce Drive, San Jose, CA**

PRELIMINARY REPORT

In response to the application for a policy of title insurance referenced herein, ***Fidelity National Title Company*** *hereby reports that it is prepared to issue, or cause to be issued, as of the date hereof, a policy or policies of title insurance describing the land and the estate or interest therein hereinafter set forth, insuring against loss which may be sustained by reason of any defect, lien or encumbrance not shown or referred to as an exception herein or not excluded from coverage pursuant to the printed Schedules, Conditions and Stipulations or Conditions of said policy forms.*

The printed Exceptions and Exclusions from the coverage and Limitations on Covered Risks of said policy or policies are set forth in Attachment One. The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than that set forth in the arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties. Limitations on Covered Risks applicable to the CLTA and ALTA Homeowner's Policies of Title Insurance which establish a Deductible Amount and a Maximum Dollar Limit of Liability for certain coverages are also set forth in Attachment One. Copies of the policy forms should be read. They are available from the office which issued this report.

This report (and any supplements or amendments hereto) is issued solely for the purpose of facilitating the issuance of a policy of title insurance and no liability is assumed hereby. If it is desired that liability be assumed prior to the issuance of a policy of title insurance, a Binder or Commitment should be requested.

The policy(s) of title insurance to be issued hereunder will be policy(s) of Fidelity National Title Insurance Company, a Florida Corporation.

Please read the exceptions shown or referred to herein and the exceptions and exclusions set forth in Attachment One of this report carefully. The exceptions and exclusions are meant to provide you with notice of matters which are not covered under the terms of the title insurance policy and should be carefully considered.

It is important to note that this preliminary report is not a written representation as to the condition of title and may not list all liens, defects and encumbrances affecting title to the land.

APN: **244-15-003**

EXCEPTIONS

AT THE DATE HEREOF, ITEMS TO BE CONSIDERED AND EXCEPTIONS TO COVERAGE IN ADDITION TO THE PRINTED EXCEPTIONS AND EXCLUSIONS IN SAID POLICY FORM WOULD BE AS FOLLOWS:

1. Property taxes, including any personal property taxes and any assessments collected with taxes are as follows:

Code Area:	017-072
Tax Identification No.:	244-15-003
Fiscal Year:	2020-2021
1st Installment:	$115,726.01, Open
2nd Installment:	$115,726.01, Open
Land:	$4,131,031.00
Improvements:	$9,492,624.00
Personal Property:	$4,486,180.00
Bill No.:	244-15-003-00

2. Prior to close of escrow, please contact the Tax Collector's Office to confirm all amounts owing, including current fiscal year taxes, supplemental taxes, escaped assessments and any delinquencies.

3. The lien of supplemental or escaped assessments of property taxes, if any, made pursuant to the provisions of Chapter 3.5 (commencing with Section 75) or Part 2, Chapter 3, Articles 3 and 4, respectively, of the Revenue and Taxation Code of the State of California as a result of the transfer of title to the vestee named in Schedule A or as a result of changes in ownership or new construction occurring prior to Date of Policy.

4. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:

Granted to:	City of San Jose
Purpose:	Public utilities
Recording Date:	August 11, 1975
Recording No:	Book B552, Page 508, of Official Records
Affects:	The Northerly 10 feet of said land

5. Covenants, conditions and restrictions but omitting any covenants or restrictions, if any, including but not limited to those based upon race, color, religion, sex, gender, gender identity, gender expression, sexual orientation, marital status, national origin, ancestry, familial status, source of income, disability, veteran or military status, genetic information, medical condition, citizenship, primary language, and immigration status, as set forth in applicable state or federal laws, except to the extent that said covenant or restriction is permitted by applicable law, as set forth in the document

Recording Date:	July 26, 1977
Recording No:	Book D22, Page 651, of Official Records

6. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:

Granted to:	City of San Jose
Purpose:	Sanitary sewer pipeline
Recording Date:	March 13, 1981
Recording No:	Book F959, Page 385, of Official Records
Affects:	As described therein

EXCEPTIONS
(Continued)

7. The search did not disclose any open mortgages or deeds of trust of record, therefore the Company reserves the right to require further evidence to confirm that the property is unencumbered, and further reserves the right to make additional requirements or add additional items or exceptions upon receipt of the requested evidence.

8. The Company will require the following documents for review prior to the issuance of any title insurance predicated upon a conveyance or encumbrance by the corporation named below:

   Name of Corporation: Becton, Dickinson and Company, a New Jersey corporation

   a) A Copy of the corporation By-laws and Articles of Incorporation

   b) An original or certified copy of a resolution authorizing the transaction contemplated herein

   c) If the Articles and/or By-laws require approval by a 'parent' organization, a copy of the Articles and By-laws of the parent

   The Company reserves the right to add additional items or make further requirements after review of the requested documentation.

9. The Company will require that an Owner's Affidavit be completed by the party(s) named below before the issuance of any policy of title insurance.

   Party(s): Becton, Dickinson and Company, a New Jersey corporation

   The Company reserves the right to add additional items or make further requirements after review of the requested Affidavit.

10. Any rights of the parties in possession of a portion of, or all of, said Land, which rights are not disclosed by the public records.

    The Company will require, for review, a full and complete copy of any unrecorded agreement, contract, license and/or lease, together with all supplements, assignments and amendments thereto, before issuing any policy of title insurance without excepting this item from coverage.

    The Company reserves the right to except additional items and/or make additional requirements after reviewing said documents.

11. The transaction contemplated in connection with this Report is subject to the review and approval of the Company's Corporate Underwriting Department. The Company reserves the right to add additional items or make further requirements after such review.

END OF EXCEPTIONS

NOTES

1. None of the items shown in this report will cause the Company to decline to attach CLTA Endorsement Form 100 to an Extended Coverage Loan Policy, when issued.

2. Note: The Company is not aware of any matters which would cause it to decline to attach CLTA Endorsement Form 116 indicating that there is located on said Land a Commercial Property, known as 2150 Commerce Drive, San Jose, CA, to an Extended Coverage Loan Policy.

3. Note: The name(s) of the proposed insured(s) furnished with this application for title insurance is/are:

   No names were furnished with the application. Please provide the name(s) of the buyers as soon as possible.

4. Note: There are NO conveyances affecting said Land recorded within 24 months of the date of this report.

5. Note: The charge for a policy of title insurance, when issued through this title order, will be based on the Basic Title Insurance Rate.

6. Note: Under Measure E, effective July 1, 2020 the City of San Jose will impose a transfer tax based on the full value of the property at the time a deed or other transfer over $2,000,000.00 is recorded. This is in addition to the $3.30 per thousand transfer tax the City already imposes. Transfers would be taxed at the following rates:

Property Value:	Tax Rate:
Less than $2,000,000	Exempt from tax
$2,000,000.00 to $5,000,000.00	0.75%
$5,000,000.01 to $10,000,000.00	1.0%
$10,000,000.01 and higher	1.5%

   Contact the City of San Jose Finance Department at (408)535-7055 for further information.

7. The application for title insurance was placed by reference to only a street address or tax identification number. The proposed Insured must confirm that the legal description in this report covers the parcel(s) of Land requested to be insured. If the legal description is incorrect, the proposed Insured must notify the Company and/or the settlement company in order to prevent errors and to be certain that the legal description for the intended parcel(s) of Land will appear on any documents to be recorded in connection with this transaction and on the policy of title insurance.

8. Note: If a county recorder, title insurance company, escrow company, real estate broker, real estate agent or association provides a copy of a declaration, governing document or deed to any person, California law requires that the document provided shall include a statement regarding any unlawful restrictions. Said statement is to be in at least 14-point bold face type and may be stamped on the first page of any document provided or included as a cover page attached to the requested document. Should a party to this transaction request a copy of any document reported herein that fits this category, the statement is to be included in the manner described.

9. Note: Any documents being executed in conjunction with this transaction must be signed in the presence of an authorized Company employee, an authorized employee of a Company agent, an authorized employee of the insured lender, or by using Bancserv or other Company-approved third-party service. If the above requirement cannot be met, please call the Company at the number provided in this report.

NOTES
(Continued)

10. Note: The policy of title insurance will include an arbitration provision. The Company or the insured may demand arbitration. Arbitrable matters may include, but are not limited to, any controversy or claim between the Company and the insured arising out of or relating to this policy, any service of the Company in connection with its issuance or the breach of a policy provision or other obligation. Please ask your escrow or title officer for a sample copy of the policy to be issued if you wish to review the arbitration provisions and any other provisions pertaining to your Title Insurance coverage.

11. Notice: Please be aware that due to the conflict between federal and state laws concerning the cultivation, distribution, manufacture or sale of marijuana, the Company is not able to close or insure any transaction involving Land that is associated with these activities.

12. Pursuant to Government Code Section 27388.1, as amended and effective as of 1-1-2018, a Documentary Transfer Tax (DTT) Affidavit may be required to be completed and submitted with each document when DTT is being paid or when an exemption is being claimed from paying the tax. If a governmental agency is a party to the document, the form will not be required. DTT Affidavits may be available at a Tax Assessor-County Clerk-Recorder.

13. Due to the special requirements of SB 50 (California Public Resources Code Section 8560 et seq.), any transaction that includes the conveyance of title by an agency of the United States must be approved in advance by the Company's State Counsel, Regional Counsel, or one of their designees.

END OF NOTES

Kevin Davis/jf1

Wire Fraud Alert

This Notice is not intended to provide legal or professional advice. If you have any questions, please consult with a lawyer.

All parties to a real estate transaction are targets for wire fraud and many have lost hundreds of thousands of dollars because they simply relied on the wire instructions received via email, without further verification. **If funds are to be wired in conjunction with this real estate transaction, we strongly recommend verbal verification of wire instructions through a known, trusted phone number prior to sending funds.**

In addition, the following non-exclusive self-protection strategies are recommended to minimize exposure to possible wire fraud.

- **NEVER RELY** on emails purporting to change wire instructions. Parties to a transaction rarely change wire instructions in the course of a transaction.
- **ALWAYS VERIFY** wire instructions, specifically the ABA routing number and account number, by calling the party who sent the instructions to you. DO NOT use the phone number provided in the email containing the instructions, use phone numbers you have called before or can otherwise verify. **Obtain the phone number of relevant parties to the transaction as soon as an escrow account is opened**. DO NOT send an email to verify as the email address may be incorrect or the email may be intercepted by the fraudster.
- **USE COMPLEX EMAIL PASSWORDS** that employ a combination of mixed case, numbers, and symbols. Make your passwords greater than eight (8) characters. Also, change your password often and do NOT reuse the same password for other online accounts.
- **USE MULTI-FACTOR AUTHENTICATION** for email accounts. Your email provider or IT staff may have specific instructions on how to implement this feature.

For more information on wire-fraud scams or to report an incident, please refer to the following links:

Notice of Available Discounts

Pursuant to Section 2355.3 in Title 10 of the California Code of Regulations Fidelity National Financial, Inc. and its subsidiaries ("FNF") must deliver a notice of each discount available under our current rate filing along with the delivery of escrow instructions, a preliminary report or commitment. Please be aware that the provision of this notice does not constitute a waiver of the consumer's right to be charged the filed rate. As such, your transaction may not qualify for the below discounts.

You are encouraged to discuss the applicability of one or more of the below discounts with a Company representative. These discounts are generally described below; consult the rate manual for a full description of the terms, conditions and requirements for such discount. These discounts only apply to transactions involving services rendered by the FNF Family of Companies. This notice only applies to transactions involving property improved with a one-to-four family residential dwelling.

Not all discounts are offered by every FNF Company. The discount will only be applicable to the FNF Company as indicated by the named discount.

Available Discounts

DISASTER LOANS (CTIC, CLTIC, FNTIC)

The charge for a Lender's Policy (Standard or Extended coverage) covering the financing or refinancing by an owner of record, within twenty-four (24) months of the date of a declaration of a disaster area by the government of the United States or the State of California on any land located in said area, which was partially or totally destroyed in the disaster, will be fifty percent (50%) of the appropriate title insurance rate.

CHURCHES OR CHARITABLE NON-PROFIT ORGANIZATIONS (CTIC, FNTIC)

On properties used as a church or for charitable purposes within the scope of the normal activities of such entities, provided said charge is normally the church's obligation the charge for an owner's policy shall be fifty percent (50%) to seventy percent (70%) of the appropriate title insurance rate, depending on the type of coverage selected. The charge for a lender's policy shall be forty (40%) to fifty percent (50%) of the appropriate title insurance rate, depending on the type of coverage selected.

FIDELITY NATIONAL FINANCIAL, INC.
PRIVACY NOTICE

Effective April 9, 2020

Fidelity National Financial, Inc. and its majority-owned subsidiary companies (collectively, "FNF," "our," or "we") respect and are committed to protecting your privacy. This Privacy Notice explains how we collect, use, and protect personal information, when and to whom we disclose such information, and the choices you have about the use and disclosure of that information.

A limited number of FNF subsidiaries have their own privacy notices. If a subsidiary has its own privacy notice, the privacy notice will be available on the subsidiary's website and this Privacy Notice does not apply.

Collection of Personal Information

FNF may collect the following categories of Personal Information:

- contact information (*e.g.*, name, address, phone number, email address);
- demographic information (*e.g.*, date of birth, gender, marital status);
- identity information (*e.g.* Social Security Number, driver's license, passport, or other government ID number);
- financial account information (*e.g.* loan or bank account information); and
- other personal information necessary to provide products or services to you.

We may collect Personal Information about you from:

- information we receive from you or your agent;
- information about your transactions with FNF, our affiliates, or others; and
- information we receive from consumer reporting agencies and/or governmental entities, either directly from these entities or through others.

Collection of Browsing Information

FNF automatically collects the following types of Browsing Information when you access an FNF website, online service, or application (each an "FNF Website") from your Internet browser, computer, and/or device:

- Internet Protocol (IP) address and operating system;
- browser version, language, and type;
- domain name system requests; and
- browsing history on the FNF Website, such as date and time of your visit to the FNF Website and visits to the pages within the FNF Website.

Like most websites, our servers automatically log each visitor to the FNF Website and may collect the Browsing Information described above. We use Browsing Information for system administration, troubleshooting, fraud investigation, and to improve our websites. Browsing Information generally does not reveal anything personal about you, though if you have created a user account for an FNF Website and are logged into that account, the FNF Website may be able to link certain browsing activity to your user account.

Other Online Specifics

Cookies. When you visit an FNF Website, a "cookie" may be sent to your computer. A cookie is a small piece of data that is sent to your Internet browser from a web server and stored on your computer's hard drive. Information gathered using cookies helps us improve your user experience. For example, a cookie can help the website load properly or can customize the display page based on your browser type and user preferences. You can choose whether or not to accept cookies by changing your Internet browser settings. Be aware that doing so may impair or limit some functionality of the FNF Website.

Web Beacons. We use web beacons to determine when and how many times a page has been viewed. This information is used to improve our websites.

Do Not Track. Currently our FNF Websites do not respond to "Do Not Track" features enabled through your browser.

Links to Other Sites. FNF Websites may contain links to unaffiliated third-party websites. FNF is not responsible for the privacy practices or content of those websites. We recommend that you read the privacy policy of every website you visit.

Use of Personal Information

FNF uses Personal Information for three main purposes:

- To provide products and services to you or in connection with a transaction involving you.
- To improve our products and services.
- To communicate with you about our, our affiliates', and others' products and services, jointly or independently.

When Information Is Disclosed

We may disclose your Personal Information and Browsing Information in the following circumstances:

- to enable us to detect or prevent criminal activity, fraud, material misrepresentation, or nondisclosure;

Copyright © 2020. Fidelity National Financial, Inc. All Rights Reserved

- to nonaffiliated service providers who provide or perform services or functions on our behalf and who agree to use the information only to provide such services or functions;
- to nonaffiliated third party service providers with whom we perform joint marketing, pursuant to an agreement with them to jointly market financial products or services to you;
- to law enforcement or authorities in connection with an investigation, or in response to a subpoena or court order; or
- in the good-faith belief that such disclosure is necessary to comply with legal process or applicable laws, or to protect the rights, property, or safety of FNF, its customers, or the public.

The law does not require your prior authorization and does not allow you to restrict the disclosures described above. Additionally, we may disclose your information to third parties for whom you have given us authorization or consent to make such disclosure. We do not otherwise share your Personal Information or Browsing Information with nonaffiliated third parties, except as required or permitted by law. We may share your Personal Information with affiliates (other companies owned by FNF) to directly market to you. Please see "Choices with Your Information" to learn how to restrict that sharing.

We reserve the right to transfer your Personal Information, Browsing Information, and any other information, in connection with the sale or other disposition of all or part of the FNF business and/or assets, or in the event of bankruptcy, reorganization, insolvency, receivership, or an assignment for the benefit of creditors. By submitting Personal Information and/or Browsing Information to FNF, you expressly agree and consent to the use and/or transfer of the foregoing information in connection with any of the above described proceedings.

Security of Your Information
We maintain physical, electronic, and procedural safeguards to protect your Personal Information.

Choices With Your Information
If you do not want FNF to share your information among our affiliates to directly market to you, you may send an "opt out" request by email, phone, or physical mail as directed at the end of this Privacy Notice. We do not share your Personal Information with nonaffiliates for their use to direct market to you without your consent.

Whether you submit Personal Information or Browsing Information to FNF is entirely up to you. If you decide not to submit Personal Information or Browsing Information, FNF may not be able to provide certain services or products to you.

For California Residents: We will not share your Personal Information or Browsing Information with nonaffiliated third parties, except as permitted by California law. For additional information about your California privacy rights, please visit the "California Privacy" link on our website (https://fnf.com/pages/californiaprivacy.aspx) or call (888) 413-1748.

For Nevada Residents: You may be placed on our internal Do Not Call List by calling (888) 934-3354 or by contacting us via the information set forth at the end of this Privacy Notice. Nevada law requires that we also provide you with the following contact information: Bureau of Consumer Protection, Office of the Nevada Attorney General, 555 E. Washington St., Suite 3900, Las Vegas, NV 89101; Phone number: (702) 486-3132; email: BCPINFO@ag.state.nv.us.
For Oregon Residents: We will not share your Personal Information or Browsing Information with nonaffiliated third parties for marketing purposes, except after you have been informed by us of such sharing and had an opportunity to indicate that you do not want a disclosure made for marketing purposes.

For Vermont Residents: We will not disclose information about your creditworthiness to our affiliates and will not disclose your personal information, financial information, credit report, or health information to nonaffiliated third parties to market to you, other than as permitted by Vermont law, unless you authorize us to make those disclosures.

Information From Children
The FNF Websites are not intended or designed to attract persons under the age of eighteen (18).We do not collect Personal Information from any person that we know to be under the age of thirteen (13) without permission from a parent or guardian.

International Users
FNF's headquarters is located within the United States. If you reside outside the United States and choose to provide Personal Information or Browsing Information to us, please note that we may transfer that information outside of your country of residence. By providing FNF with your Personal Information and/or Browsing Information, you consent to our collection, transfer, and use of such information in accordance with this Privacy Notice.

FNF Website Services for Mortgage Loans
Certain FNF companies provide services to mortgage loan servicers, including hosting websites that collect customer information on behalf of mortgage loan servicers (the "Service Websites"). The Service Websites may contain links to both this Privacy Notice and the mortgage loan servicer or lender's privacy notice. The sections of this Privacy Notice titled When Information is Disclosed, Choices with Your Information, and Accessing and Correcting Information do not apply to the Service Websites. The mortgage loan servicer or lender's privacy notice governs use, disclosure, and access to your Personal Information. FNF does not share Personal Information collected through the Service Websites, except as required or authorized by contract with the mortgage loan servicer or lender, or as required by law or in the good-faith belief that such disclosure is necessary: to comply with a legal process or applicable law, to enforce this Privacy Notice, or to protect the rights, property, or safety of FNF or the public.

ATTACHMENT ONE (Revised 05-06-16)

CALIFORNIA LAND TITLE ASSOCIATION
STANDARD COVERAGE POLICY – 1990

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

1. (a) Any law, ordinance or governmental regulation (including but not limited to building or zoning laws, ordinances, or regulations) restricting, regulating, prohibiting or relating (i) the occupancy, use, or enjoyment of the land; (ii) the character, dimensions or location of any improvement now or hereafter erected on the land; (iii) a separation in ownership or a change in the dimensions or area of the land or any parcel of which the land is or was a part; or (iv) environmental protection, or the effect of any violation of these laws, ordinances or governmental regulations, except to the extent that a notice of the enforcement thereof or a notice of a defect, lien, or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
   (b) Any governmental police power not excluded by (a) above, except to the extent that a notice of the exercise thereof or notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
2. Rights of eminent domain unless notice of the exercise thereof has been recorded in the public records at Date of Policy, but not excluding from coverage any taking which has occurred prior to Date of Policy which would be binding on the rights of a purchaser for value without knowledge.
3. Defects, liens, encumbrances, adverse claims or other matters:
   (a) whether or not recorded in the public records at Date of Policy, but created, suffered, assumed or agreed to by the insured claimant;
   (b) not known to the Company, not recorded in the public records at Date of Policy, but known to the insured claimant and not disclosed in writing to the Company by the insured claimant prior to the date the insured claimant became an insured under this policy;
   (c) resulting in no loss or damage to the insured claimant;
   (d) attaching or created subsequent to Date of Policy; or
   (e) resulting in loss or damage which would not have been sustained if the insured claimant had paid value for the insured mortgage or for the estate or interest insured by this policy.
4. Unenforceability of the lien of the insured mortgage because of the inability or failure of the insured at Date of Policy, or the inability or failure of any subsequent owner of the indebtedness, to comply with the applicable doing business laws of the state in which the land is situated.
5. Invalidity or unenforceability of the lien of the insured mortgage, or claim thereof, which arises out of the transaction evidenced by the insured mortgage and is based upon usury or any consumer credit protection or truth in lending law.
6. Any claim, which arises out of the transaction vesting in the insured the estate of interest insured by this policy or the transaction creating the interest of the insured lender, by reason of the operation of federal bankruptcy, state insolvency or similar creditors' rights laws.

EXCEPTIONS FROM COVERAGE - SCHEDULE B, PART I

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) which arise by reason of:

1. Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the public records.
   Proceedings by a public agency which may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the public records.
2. Any facts, rights, interests, or claims which are not shown by the public records but which could be ascertained by an inspection of the land or which may be asserted by persons in possession thereof.
3. Easements, liens or encumbrances, or claims thereof, not shown by the public records.
4. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other facts which a correct survey would disclose, and which are not shown by the public records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b) or (c) are shown by the public records.
6. Any lien or right to a lien for services, labor or material not shown by the public records.

CLTA HOMEOWNER'S POLICY OF TITLE INSURANCE (12-02-13)
ALTA HOMEOWNER'S POLICY OF TITLE INSURANCE

EXCLUSIONS

In addition to the Exceptions in Schedule B, You are not insured against loss, costs, attorneys' fees, and expenses resulting from:

1. Governmental police power, and the existence or violation of those portions of any law or government regulation concerning:
   a. building;
   b. zoning;
   c. land use;
   d. improvements on the Land;
   e. land division; and
   f. environmental protection.
   This Exclusion does not limit the coverage described in Covered Risk 8.a., 14, 15, 16, 18, 19, 20, 23 or 27.
2. The failure of Your existing structures, or any part of them, to be constructed in accordance with applicable building codes. This Exclusion does not limit the coverage described in Covered Risk 14 or 15.
3. The right to take the Land by condemning it. This Exclusion does not limit the coverage described in Covered Risk 17.
4. Risks:
   a. that are created, allowed, or agreed to by You, whether or not they are recorded in the Public Records;

© California Land Title Association. All rights reserved.
The use of this Form is restricted to CLTA subscribers in good standing as of the date of use. All other uses are prohibited. Reprinted under license or express permission from the California Land Title Association.

b. that are Known to You at the Policy Date, but not to Us, unless they are recorded in the Public Records at the Policy Date;
c. that result in no loss to You; or
d. that first occur after the Policy Date - this does not limit the coverage described in Covered Risk 7, 8.e., 25, 26, 27 or 28.

5. Failure to pay value for Your Title.
6. Lack of a right:
   a. to any land outside the area specifically described and referred to in paragraph 3 of Schedule A; and
   b. in streets, alleys, or waterways that touch the Land.
   This Exclusion does not limit the coverage described in Covered Risk 11 or 21.
7. The transfer of the Title to You is invalid as a preferential transfer or as a fraudulent transfer or conveyance under federal bankruptcy, state insolvency, or similar creditors' rights laws.
8. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake, or subsidence.
9. Negligence by a person or an Entity exercising a right to extract or develop minerals, water, or any other substances.

LIMITATIONS ON COVERED RISKS

Your insurance for the following Covered Risks is limited on the Owner's Coverage Statement as follows:

- For Covered Risk 16, 18, 19, and 21 Your Deductible Amount and Our Maximum Dollar Limit of Liability shown in Schedule A.

The deductible amounts and maximum dollar limits shown on Schedule A are as follows:

	Your Deductible Amount	Our Maximum Dollar Limit of Liability
Covered Risk 16:	1.00% of Policy Amount Shown in Schedule A or $2,500.00 (whichever is less)	$ 10,000.00
Covered Risk 18:	1.00% of Policy Amount Shown in Schedule A or $5,000.00 (whichever is less)	$ 25,000.00
Covered Risk 19:	1.00% of Policy Amount Shown in Schedule A or $5,000.00 (whichever is less)	$ 25,000.00
Covered Risk 21:	1.00% of Policy Amount Shown in Schedule A or $2,500.00 (whichever is less)	$ 5,000.00

2006 ALTA LOAN POLICY (06-17-06)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (i) the occupancy, use, or enjoyment of the Land;
   (ii) the character, dimensions, or location of any improvement erected on the Land;
   (iii) the subdivision of land; or
   (iv) environmental protection;
   or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
   (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
   (a) created, suffered, assumed, or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss or damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 13 or 14); or
   (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury or any consumer credit protection or truth-in-lending law.
6. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
   (a) a fraudulent conveyance or fraudulent transfer, or
   (b) a preferential transfer for any reason not stated in Covered Risk 13(b) of this policy.
7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the Insured Mortgage in the Public Records. This Exclusion does not modify or limit the coverage provided under Covered Risk 11(b).

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

{Except as provided in Schedule B - Part II,{ t{or T}his policy does not insure against loss or damage, and the Company will not pay costs, attorneys' fees or expenses, that arise by reason of:

© California Land Title Association. All rights reserved.
The use of this Form is restricted to CLTA subscribers in good standing as of the date of use. All other uses are prohibited. Reprinted under license or express permission from the California Land Title Association.

{PART I

{The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor or material not shown by the Public Records.}

PART II

In addition to the matters set forth in Part I of this Schedule, the Title is subject to the following matters, and the Company insures against loss or damage sustained in the event that they are not subordinate to the lien of the Insured Mortgage:}

2006 ALTA OWNER'S POLICY (06-17-06)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (i) the occupancy, use, or enjoyment of the Land;
   (ii) the character, dimensions, or location of any improvement erected on the Land;
   (iii) the subdivision of land; or
   (iv) environmental protection;
   or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
   (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
   (a) created, suffered, assumed, or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss or damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 9 and 10); or
   (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Title.
4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction vesting the Title as shown in Schedule A, is
   (a) a fraudulent conveyance or fraudulent transfer; or
   (b) a preferential transfer for any reason not stated in Covered Risk 9 of this policy.
5. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage, and the Company will not pay costs, attorneys' fees or expenses, that arise by reason of:
{The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

ALTA EXPANDED COVERAGE RESIDENTIAL LOAN POLICY – ASSESSMENTS PRIORITY (04-02-15)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (i) the occupancy, use, or enjoyment of the Land;
   (ii) the character, dimensions, or location of any improvement erected on the Land;
   (iii) the subdivision of land; or
   (iv) environmental protection;
   or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.
   (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
   (a) created, suffered, assumed, or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss or damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 16, 17, 18, 19, 20, 21, 22, 23, 24, 27 or 28); or
   (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury, or any consumer credit protection or truth-in-lending law. This Exclusion does not modify or limit the coverage provided in Covered Risk 26.
6. Any claim of invalidity, unenforceability or lack of priority of the lien of the Insured Mortgage as to Advances or modifications made after the Insured has Knowledge that the vestee shown in Schedule A is no longer the owner of the estate or interest covered by this policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11.
7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching subsequent to Date of Policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11(b) or 25.
8. The failure of the residential structure, or any portion of it, to have been constructed before, on or after Date of Policy in accordance with applicable building codes. This Exclusion does not modify or limit the coverage provided in Covered Risk 5 or 6.
9. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
   (a) a fraudulent conveyance or fraudulent transfer, or
   (b) a preferential transfer for any reason not stated in Covered Risk 27(b) of this policy.
10. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake, or subsidence.
11. Negligence by a person or an Entity exercising a right to extract or develop minerals, water, or any other substances.

ATTN: **Trent Cornell**
YOUR REFERENCE: **30058410**

PROPERTY ADDRESS: 2222 Qume Drive, San Jose, CA

PRELIMINARY REPORT

In response to the application for a policy of title insurance referenced herein, ***Fidelity National Title Company*** *hereby reports that it is prepared to issue, or cause to be issued, as of the date hereof, a policy or policies of title insurance describing the land and the estate or interest therein hereinafter set forth, insuring against loss which may be sustained by reason of any defect, lien or encumbrance not shown or referred to as an exception herein or not excluded from coverage pursuant to the printed Schedules, Conditions and Stipulations or Conditions of said policy forms.*

The printed Exceptions and Exclusions from the coverage and Limitations on Covered Risks of said policy or policies are set forth in Attachment One. The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than that set forth in the arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties. Limitations on Covered Risks applicable to the CLTA and ALTA Homeowner's Policies of Title Insurance which establish a Deductible Amount and a Maximum Dollar Limit of Liability for certain coverages are also set forth in Attachment One. Copies of the policy forms should be read. They are available from the office which issued this report.

This report (and any supplements or amendments hereto) is issued solely for the purpose of facilitating the issuance of a policy of title insurance and no liability is assumed hereby. If it is desired that liability be assumed prior to the issuance of a policy of title insurance, a Binder or Commitment should be requested.

The policy(s) of title insurance to be issued hereunder will be policy(s) of Fidelity National Title Insurance Company, a Florida Corporation.

Please read the exceptions shown or referred to herein and the exceptions and exclusions set forth in Attachment One of this report carefully. The exceptions and exclusions are meant to provide you with notice of matters which are not covered under the terms of the title insurance policy and should be carefully considered.

It is important to note that this preliminary report is not a written representation as to the condition of title and may not list all liens, defects and encumbrances affecting title to the land.

EXCEPTIONS
(Continued)

12. Matters contained in that certain document

Entitled:	Certificate of Permit
Dated:	August 29, 2008
Executed by:	City of San Jose, Department of Planning, Building and Code Enforcement
Recording Date:	November 17, 2008
Recording No:	20046833, of Official Records

Reference is hereby made to said document for full particulars.

13. Matters contained in that certain document

Entitled:	Certificate of Permit
Dated:	December 15, 2010
Executed by:	City of San Jose, Department of Planning, Building and Code Enforcement
Recording Date:	March 1, 2011
Recording No:	21097147, of Official Records

Reference is hereby made to said document for full particulars.

14. The search did not disclose any open mortgages or deeds of trust of record, therefore the Company reserves the right to require further evidence to confirm that the property is unencumbered, and further reserves the right to make additional requirements or add additional items or exceptions upon receipt of the requested evidence.

15. Any rights of the parties in possession of a portion of, or all of, said Land, which rights are not disclosed by the public records.

The Company will require, for review, a full and complete copy of any unrecorded agreement, contract, license and/or lease, together with all supplements, assignments and amendments thereto, before issuing any policy of title insurance without excepting this item from coverage.

The Company reserves the right to except additional items and/or make additional requirements after reviewing said documents.

16. Matters which may be disclosed by an inspection and/or by a correct ALTA/NSPS Land Title Survey of said Land that is satisfactory to the Company, and/or by inquiry of the parties in possession thereof.

EXCEPTIONS
(Continued)

17. The Company will require the following documents for review prior to the issuance of any title insurance predicated upon a conveyance or encumbrance by the corporation named below:

    Name of Corporation: Becton, Dickinson and Company, a New Jersey corporation

    a) A Copy of the corporation By-laws and Articles of Incorporation

    b) An original or certified copy of a resolution authorizing the transaction contemplated herein

    c) If the Articles and/or By-laws require approval by a 'parent' organization, a copy of the Articles and By-laws of the parent

    The Company reserves the right to add additional items or make further requirements after review of the requested documentation.

18. The Company will require that an Owner's Affidavit be completed by the party(s) named below before the issuance of any policy of title insurance.

    Party(s): Becton, Dickinson and Company, a New Jersey corporation

    The Company reserves the right to add additional items or make further requirements after review of the requested Affidavit.

19. The requirement that the complete and correct name(s) of the buyer(s) in this transaction be submitted to the Title Department at least 5 days prior to the close of Escrow.

20. This transaction requires high liability approval prior to close of escrow together with an inspection of the subject property.

    Please advise title department with an estimated date that your transaction will close so we can schedule the necessary approvals and inspections.

21. Prior to the close of escrow and the issuance of an ALTA Coverage Policy, an inspection of the property will be required.

22. The transaction contemplated in connection with this Report is subject to the review and approval of the Company's Corporate Underwriting Department. The Company reserves the right to add additional items or make further requirements after such review.

END OF EXCEPTIONS

NOTES

1. Note: The Company is not aware of any matters which would cause it to decline to attach CLTA Endorsement Form 116 indicating that there is located on said Land a Commercial Property, known as 2222 Qume Drive, San Jose, CA, to an Extended Coverage Loan Policy.

2. Note: The name(s) of the proposed insured(s) furnished with this application for title insurance is/are:

   No names were furnished with the application. Please provide the name(s) of the buyers as soon as possible.

3. Note: There are NO conveyances affecting said Land recorded within 24 months of the date of this report.

4. Note: The charge for a policy of title insurance, when issued through this title order, will be based on the Basic Title Insurance Rate.

5. Note: Under Measure E, effective July 1, 2020 the City of San Jose will impose a transfer tax based on the full value of the property at the time a deed or other transfer over $2,000,000.00 is recorded. This is in addition to the $3.30 per thousand transfer tax the City already imposes. Transfers would be taxed at the following rates:

Property Value:	Tax Rate:
Less than $2,000,000	Exempt from tax
$2,000,000.00 to $5,000,000.00	0.75%
$5,000,000.01 to $10,000,000.00	1.0%
$10,000,000.01 and higher	1.5%

   Contact the City of San Jose Finance Department at (408)535-7055 for further information.

6. Notice: Please be aware that due to the conflict between federal and state laws concerning the cultivation, distribution, manufacture or sale of marijuana, the Company is not able to close or insure any transaction involving Land that is associated with these activities.

7. The application for title insurance was placed by reference to only a street address or tax identification number. The proposed Insured must confirm that the legal description in this report covers the parcel(s) of Land requested to be insured. If the legal description is incorrect, the proposed Insured must notify the Company and/or the settlement company in order to prevent errors and to be certain that the legal description for the intended parcel(s) of Land will appear on any documents to be recorded in connection with this transaction and on the policy of title insurance.

8. Note: If a county recorder, title insurance company, escrow company, real estate broker, real estate agent or association provides a copy of a declaration, governing document or deed to any person, California law requires that the document provided shall include a statement regarding any unlawful restrictions. Said statement is to be in at least 14-point bold face type and may be stamped on the first page of any document provided or included as a cover page attached to the requested document. Should a party to this transaction request a copy of any document reported herein that fits this category, the statement is to be included in the manner described.

9. Note: Any documents being executed in conjunction with this transaction must be signed in the presence of an authorized Company employee, an authorized employee of a Company agent, an authorized employee of the insured lender, or by using Bancserv or other Company-approved third-party service. If the above requirement cannot be met, please call the Company at the number provided in this report.

NOTES
(Continued)

10. Pursuant to Government Code Section 27388.1, as amended and effective as of 1-1-2018, a Documentary Transfer Tax (DTT) Affidavit may be required to be completed and submitted with each document when DTT is being paid or when an exemption is being claimed from paying the tax. If a governmental agency is a party to the document, the form will not be required. DTT Affidavits may be available at a Tax Assessor-County Clerk-Recorder.

11. Note: The policy of title insurance will include an arbitration provision. The Company or the insured may demand arbitration. Arbitrable matters may include, but are not limited to, any controversy or claim between the Company and the insured arising out of or relating to this policy, any service of the Company in connection with its issuance or the breach of a policy provision or other obligation. Please ask your escrow or title officer for a sample copy of the policy to be issued if you wish to review the arbitration provisions and any other provisions pertaining to your Title Insurance coverage.

12. Due to the special requirements of SB 50 (California Public Resources Code Section 8560 et seq.), any transaction that includes the conveyance of title by an agency of the United States must be approved in advance by the Company's State Counsel, Regional Counsel, or one of their designees.

END OF NOTES

Kevin Davis/892

Wire Fraud Alert

This Notice is not intended to provide legal or professional advice. If you have any questions, please consult with a lawyer.

All parties to a real estate transaction are targets for wire fraud and many have lost hundreds of thousands of dollars because they simply relied on the wire instructions received via email, without further verification. **If funds are to be wired in conjunction with this real estate transaction, we strongly recommend verbal verification of wire instructions through a known, trusted phone number prior to sending funds.**

In addition, the following non-exclusive self-protection strategies are recommended to minimize exposure to possible wire fraud.

- **NEVER RELY** on emails purporting to change wire instructions. Parties to a transaction rarely change wire instructions in the course of a transaction.
- **ALWAYS VERIFY** wire instructions, specifically the ABA routing number and account number, by calling the party who sent the instructions to you. DO NOT use the phone number provided in the email containing the instructions, use phone numbers you have called before or can otherwise verify. **Obtain the phone number of relevant parties to the transaction as soon as an escrow account is opened**. DO NOT send an email to verify as the email address may be incorrect or the email may be intercepted by the fraudster.
- **USE COMPLEX EMAIL PASSWORDS** that employ a combination of mixed case, numbers, and symbols. Make your passwords greater than eight (8) characters. Also, change your password often and do NOT reuse the same password for other online accounts.
- **USE MULTI-FACTOR AUTHENTICATION** for email accounts. Your email provider or IT staff may have specific instructions on how to implement this feature.

For more information on wire-fraud scams or to report an incident, please refer to the following links:

Notice of Available Discounts

Pursuant to Section 2355.3 in Title 10 of the California Code of Regulations Fidelity National Financial, Inc. and its subsidiaries ("FNF") must deliver a notice of each discount available under our current rate filing along with the delivery of escrow instructions, a preliminary report or commitment. Please be aware that the provision of this notice does not constitute a waiver of the consumer's right to be charged the filed rate. As such, your transaction may not qualify for the below discounts.

You are encouraged to discuss the applicability of one or more of the below discounts with a Company representative. These discounts are generally described below; consult the rate manual for a full description of the terms, conditions and requirements for such discount. These discounts only apply to transactions involving services rendered by the FNF Family of Companies. This notice only applies to transactions involving property improved with a one-to-four family residential dwelling.

Not all discounts are offered by every FNF Company. The discount will only be applicable to the FNF Company as indicated by the named discount.

Available Discounts

DISASTER LOANS (CTIC, CLTIC, FNTIC)
The charge for a Lender's Policy (Standard or Extended coverage) covering the financing or refinancing by an owner of record, within twenty-four (24) months of the date of a declaration of a disaster area by the government of the United States or the State of California on any land located in said area, which was partially or totally destroyed in the disaster, will be fifty percent (50%) of the appropriate title insurance rate.

CHURCHES OR CHARITABLE NON-PROFIT ORGANIZATIONS (CTIC, FNTIC)
On properties used as a church or for charitable purposes within the scope of the normal activities of such entities, provided said charge is normally the church's obligation the charge for an owner's policy shall be fifty percent (50%) to seventy percent (70%) of the appropriate title insurance rate, depending on the type of coverage selected. The charge for a lender's policy shall be forty (40%) to fifty percent (50%) of the appropriate title insurance rate, depending on the type of coverage selected.

FIDELITY NATIONAL FINANCIAL, INC.
PRIVACY NOTICE

Effective April 9, 2020

Fidelity National Financial, Inc. and its majority-owned subsidiary companies (collectively, "FNF," "our," or "we") respect and are committed to protecting your privacy. This Privacy Notice explains how we collect, use, and protect personal information, when and to whom we disclose such information, and the choices you have about the use and disclosure of that information.

A limited number of FNF subsidiaries have their own privacy notices. If a subsidiary has its own privacy notice, the privacy notice will be available on the subsidiary's website and this Privacy Notice does not apply.

Collection of Personal Information

FNF may collect the following categories of Personal Information:

- contact information (*e.g.*, name, address, phone number, email address);
- demographic information (*e.g.*, date of birth, gender, marital status);
- identity information (*e.g.* Social Security Number, driver's license, passport, or other government ID number);
- financial account information (*e.g.* loan or bank account information); and
- other personal information necessary to provide products or services to you.

We may collect Personal Information about you from:

- information we receive from you or your agent;
- information about your transactions with FNF, our affiliates, or others; and
- information we receive from consumer reporting agencies and/or governmental entities, either directly from these entities or through others.

Collection of Browsing Information

FNF automatically collects the following types of Browsing Information when you access an FNF website, online service, or application (each an "FNF Website") from your Internet browser, computer, and/or device:

- Internet Protocol (IP) address and operating system;
- browser version, language, and type;
- domain name system requests; and
- browsing history on the FNF Website, such as date and time of your visit to the FNF Website and visits to the pages within the FNF Website.

Like most websites, our servers automatically log each visitor to the FNF Website and may collect the Browsing Information described above. We use Browsing Information for system administration, troubleshooting, fraud investigation, and to improve our websites. Browsing Information generally does not reveal anything personal about you, though if you have created a user account for an FNF Website and are logged into that account, the FNF Website may be able to link certain browsing activity to your user account.

Other Online Specifics

Cookies. When you visit an FNF Website, a "cookie" may be sent to your computer. A cookie is a small piece of data that is sent to your Internet browser from a web server and stored on your computer's hard drive. Information gathered using cookies helps us improve your user experience. For example, a cookie can help the website load properly or can customize the display page based on your browser type and user preferences. You can choose whether or not to accept cookies by changing your Internet browser settings. Be aware that doing so may impair or limit some functionality of the FNF Website.

Web Beacons. We use web beacons to determine when and how many times a page has been viewed. This information is used to improve our websites.

Do Not Track. Currently our FNF Websites do not respond to "Do Not Track" features enabled through your browser.

Links to Other Sites. FNF Websites may contain links to unaffiliated third-party websites. FNF is not responsible for the privacy practices or content of those websites. We recommend that you read the privacy policy of every website you visit.

Use of Personal Information

FNF uses Personal Information for three main purposes:

- To provide products and services to you or in connection with a transaction involving you.
- To improve our products and services.
- To communicate with you about our, our affiliates', and others' products and services, jointly or independently.

When Information Is Disclosed

We may disclose your Personal Information and Browsing Information in the following circumstances:

- to enable us to detect or prevent criminal activity, fraud, material misrepresentation, or nondisclosure;
- to nonaffiliated service providers who provide or perform services or functions on our behalf and who agree to use the information only to provide such services or functions;

Copyright © 2020. Fidelity National Financial, Inc. All Rights Reserved

- to nonaffiliated third party service providers with whom we perform joint marketing, pursuant to an agreement with them to jointly market financial products or services to you;
- to law enforcement or authorities in connection with an investigation, or in response to a subpoena or court order; or
- in the good-faith belief that such disclosure is necessary to comply with legal process or applicable laws, or to protect the rights, property, or safety of FNF, its customers, or the public.

The law does not require your prior authorization and does not allow you to restrict the disclosures described above. Additionally, we may disclose your information to third parties for whom you have given us authorization or consent to make such disclosure. We do not otherwise share your Personal Information or Browsing Information with nonaffiliated third parties, except as required or permitted by law. We may share your Personal Information with affiliates (other companies owned by FNF) to directly market to you. Please see "Choices with Your Information" to learn how to restrict that sharing.

We reserve the right to transfer your Personal Information, Browsing Information, and any other information, in connection with the sale or other disposition of all or part of the FNF business and/or assets, or in the event of bankruptcy, reorganization, insolvency, receivership, or an assignment for the benefit of creditors. By submitting Personal Information and/or Browsing Information to FNF, you expressly agree and consent to the use and/or transfer of the foregoing information in connection with any of the above described proceedings.

Security of Your Information
We maintain physical, electronic, and procedural safeguards to protect your Personal Information.

Choices With Your Information
If you do not want FNF to share your information among our affiliates to directly market to you, you may send an "opt out" request by email, phone, or physical mail as directed at the end of this Privacy Notice. We do not share your Personal Information with nonaffiliates for their use to direct market to you without your consent.

Whether you submit Personal Information or Browsing Information to FNF is entirely up to you. If you decide not to submit Personal Information or Browsing Information, FNF may not be able to provide certain services or products to you.

For California Residents: We will not share your Personal Information or Browsing Information with nonaffiliated third parties, except as permitted by California law. For additional information about your California privacy rights, please visit the "California Privacy" link on our website (https://fnf.com/pages/californiaprivacy.aspx) or call (888) 413-1748.

For Nevada Residents: You may be placed on our internal Do Not Call List by calling (888) 934-3354 or by contacting us via the information set forth at the end of this Privacy Notice. Nevada law requires that we also provide you with the following contact information: Bureau of Consumer Protection, Office of the Nevada Attorney General, 555 E. Washington St., Suite 3900, Las Vegas, NV 89101; Phone number: (702) 486-3132; email: BCPINFO@ag.state.nv.us.
For Oregon Residents: We will not share your Personal Information or Browsing Information with nonaffiliated third parties for marketing purposes, except after you have been informed by us of such sharing and had an opportunity to indicate that you do not want a disclosure made for marketing purposes.

For Vermont Residents: We will not disclose information about your creditworthiness to our affiliates and will not disclose your personal information, financial information, credit report, or health information to nonaffiliated third parties to market to you, other than as permitted by Vermont law, unless you authorize us to make those disclosures.

Information From Children
The FNF Websites are not intended or designed to attract persons under the age of eighteen (18).We do not collect Personal Information from any person that we know to be under the age of thirteen (13) without permission from a parent or guardian.

International Users
FNF's headquarters is located within the United States. If you reside outside the United States and choose to provide Personal Information or Browsing Information to us, please note that we may transfer that information outside of your country of residence. By providing FNF with your Personal Information and/or Browsing Information, you consent to our collection, transfer, and use of such information in accordance with this Privacy Notice.

FNF Website Services for Mortgage Loans
Certain FNF companies provide services to mortgage loan servicers, including hosting websites that collect customer information on behalf of mortgage loan servicers (the "Service Websites"). The Service Websites may contain links to both this Privacy Notice and the mortgage loan servicer or lender's privacy notice. The sections of this Privacy Notice titled When Information is Disclosed, Choices with Your Information, and Accessing and Correcting Information do not apply to the Service Websites. The mortgage loan servicer or lender's privacy notice governs use, disclosure, and access to your Personal Information. FNF does not share Personal Information collected through the Service Websites, except as required or authorized by contract with the mortgage loan servicer or lender, or as required by law or in the good-faith belief that such disclosure is necessary: to comply with a legal process or applicable law, to enforce this Privacy Notice, or to protect the rights, property, or safety of FNF or the public.

Copyright © 2020. Fidelity National Financial, Inc. All Rights Reserved

Your Consent To This Privacy Notice; Notice Changes; Use of Comments or Feedback

By submitting Personal Information and/or Browsing Information to FNF, you consent to the collection and use of the information in accordance with this Privacy Notice. We may change this Privacy Notice at any time. The Privacy Notice's effective date will show the last date changes were made. If you provide information to us following any change of the Privacy Notice, that signifies your assent to and acceptance of the changes to the Privacy Notice. We may use comments or feedback that you submit to us in any manner without notice or compensation to you.

Accessing and Correcting Information; Contact Us

If you have questions, would like to correct your Personal Information, or want to opt-out of information sharing for affiliate marketing, send your requests to privacy@fnf.com, by phone to (888) 934-3354, or by mail to:

ATTACHMENT ONE (Revised 05-06-16)

CALIFORNIA LAND TITLE ASSOCIATION
STANDARD COVERAGE POLICY – 1990

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

1. (a) Any law, ordinance or governmental regulation (including but not limited to building or zoning laws, ordinances, or regulations) restricting, regulating, prohibiting or relating (i) the occupancy, use, or enjoyment of the land; (ii) the character, dimensions or location of any improvement now or hereafter erected on the land; (iii) a separation in ownership or a change in the dimensions or area of the land or any parcel of which the land is or was a part; or (iv) environmental protection, or the effect of any violation of these laws, ordinances or governmental regulations, except to the extent that a notice of the enforcement thereof or a notice of a defect, lien, or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
   (b) Any governmental police power not excluded by (a) above, except to the extent that a notice of the exercise thereof or notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
2. Rights of eminent domain unless notice of the exercise thereof has been recorded in the public records at Date of Policy, but not excluding from coverage any taking which has occurred prior to Date of Policy which would be binding on the rights of a purchaser for value without knowledge.
3. Defects, liens, encumbrances, adverse claims or other matters:
   (a) whether or not recorded in the public records at Date of Policy, but created, suffered, assumed or agreed to by the insured claimant;
   (b) not known to the Company, not recorded in the public records at Date of Policy, but known to the insured claimant and not disclosed in writing to the Company by the insured claimant prior to the date the insured claimant became an insured under this policy;
   (c) resulting in no loss or damage to the insured claimant;
   (d) attaching or created subsequent to Date of Policy; or
   (e) resulting in loss or damage which would not have been sustained if the insured claimant had paid value for the insured mortgage or for the estate or interest insured by this policy.
4. Unenforceability of the lien of the insured mortgage because of the inability or failure of the insured at Date of Policy, or the inability or failure of any subsequent owner of the indebtedness, to comply with the applicable doing business laws of the state in which the land is situated.
5. Invalidity or unenforceability of the lien of the insured mortgage, or claim thereof, which arises out of the transaction evidenced by the insured mortgage and is based upon usury or any consumer credit protection or truth in lending law.
6. Any claim, which arises out of the transaction vesting in the insured the estate of interest insured by this policy or the transaction creating the interest of the insured lender, by reason of the operation of federal bankruptcy, state insolvency or similar creditors' rights laws.

EXCEPTIONS FROM COVERAGE - SCHEDULE B, PART I

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) which arise by reason of:

1. Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the public records.
   Proceedings by a public agency which may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the public records.
2. Any facts, rights, interests, or claims which are not shown by the public records but which could be ascertained by an inspection of the land or which may be asserted by persons in possession thereof.
3. Easements, liens or encumbrances, or claims thereof, not shown by the public records.
4. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other facts which a correct survey would disclose, and which are not shown by the public records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b) or (c) are shown by the public records.
6. Any lien or right to a lien for services, labor or material not shown by the public records.

CLTA HOMEOWNER'S POLICY OF TITLE INSURANCE (12-02-13)
ALTA HOMEOWNER'S POLICY OF TITLE INSURANCE

EXCLUSIONS

In addition to the Exceptions in Schedule B, You are not insured against loss, costs, attorneys' fees, and expenses resulting from:

1. Governmental police power, and the existence or violation of those portions of any law or government regulation concerning:
   a. building;
   b. zoning;
   c. land use;
   d. improvements on the Land;
   e. land division; and
   f. environmental protection.
   This Exclusion does not limit the coverage described in Covered Risk 8.a., 14, 15, 16, 18, 19, 20, 23 or 27.
2. The failure of Your existing structures, or any part of them, to be constructed in accordance with applicable building codes. This Exclusion does not limit the coverage described in Covered Risk 14 or 15.
3. The right to take the Land by condemning it. This Exclusion does not limit the coverage described in Covered Risk 17.
4. Risks:
   a. that are created, allowed, or agreed to by You, whether or not they are recorded in the Public Records;
   b. that are Known to You at the Policy Date, but not to Us, unless they are recorded in the Public Records at the Policy Date;

© California Land Title Association. All rights reserved.
The use of this Form is restricted to CLTA subscribers in good standing as of the date of use. All other uses are prohibited. Reprinted under license or express permission from the California Land Title Association.

c. that result in no loss to You; or
d. that first occur after the Policy Date - this does not limit the coverage described in Covered Risk 7, 8.e., 25, 26, 27 or 28.

5. Failure to pay value for Your Title.
6. Lack of a right:
   a. to any land outside the area specifically described and referred to in paragraph 3 of Schedule A; and
   b. in streets, alleys, or waterways that touch the Land.
   This Exclusion does not limit the coverage described in Covered Risk 11 or 21.
7. The transfer of the Title to You is invalid as a preferential transfer or as a fraudulent transfer or conveyance under federal bankruptcy, state insolvency, or similar creditors' rights laws.
8. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake, or subsidence.
9. Negligence by a person or an Entity exercising a right to extract or develop minerals, water, or any other substances.

LIMITATIONS ON COVERED RISKS

Your insurance for the following Covered Risks is limited on the Owner's Coverage Statement as follows:

- For Covered Risk 16, 18, 19, and 21 Your Deductible Amount and Our Maximum Dollar Limit of Liability shown in Schedule A.

The deductible amounts and maximum dollar limits shown on Schedule A are as follows:

	Your Deductible Amount	Our Maximum Dollar Limit of Liability
Covered Risk 16:	1.00% of Policy Amount Shown in Schedule A or $2,500.00 (whichever is less)	$ 10,000.00
Covered Risk 18:	1.00% of Policy Amount Shown in Schedule A or $5,000.00 (whichever is less)	$ 25,000.00
Covered Risk 19:	1.00% of Policy Amount Shown in Schedule A or $5,000.00 (whichever is less)	$ 25,000.00
Covered Risk 21:	1.00% of Policy Amount Shown in Schedule A or $2,500.00 (whichever is less)	$ 5,000.00

2006 ALTA LOAN POLICY (06-17-06)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (i) the occupancy, use, or enjoyment of the Land;
   (ii) the character, dimensions, or location of any improvement erected on the Land;
   (iii) the subdivision of land; or
   (iv) environmental protection;
   or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
   (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
   (a) created, suffered, assumed, or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss or damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 13 or 14); or
   (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury or any consumer credit protection or truth-in-lending law.
6. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
   (a) a fraudulent conveyance or fraudulent transfer, or
   (b) a preferential transfer for any reason not stated in Covered Risk 13(b) of this policy.
7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the Insured Mortgage in the Public Records. This Exclusion does not modify or limit the coverage provided under Covered Risk 11(b).

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

{Except as provided in Schedule B - Part II,{ t{or T}his policy does not insure against loss or damage, and the Company will not pay costs, attorneys' fees or expenses, that arise by reason of:

© California Land Title Association. All rights reserved.
The use of this Form is restricted to CLTA subscribers in good standing as of the date of use. All other uses are prohibited. Reprinted under license or express permission from the California Land Title Association.

{PART I

{The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor or material not shown by the Public Records.}

PART II

In addition to the matters set forth in Part I of this Schedule, the Title is subject to the following matters, and the Company insures against loss or damage sustained in the event that they are not subordinate to the lien of the Insured Mortgage:}

2006 ALTA OWNER'S POLICY (06-17-06)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (i) the occupancy, use, or enjoyment of the Land;
   (ii) the character, dimensions, or location of any improvement erected on the Land;
   (iii) the subdivision of land; or
   (iv) environmental protection;
   or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
   (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
   (a) created, suffered, assumed, or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss or damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 9 and 10); or
   (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Title.
4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction vesting the Title as shown in Schedule A, is
   (a) a fraudulent conveyance or fraudulent transfer; or
   (b) a preferential transfer for any reason not stated in Covered Risk 9 of this policy.
5. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage, and the Company will not pay costs, attorneys' fees or expenses, that arise by reason of:
{The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

ALTA EXPANDED COVERAGE RESIDENTIAL LOAN POLICY – ASSESSMENTS PRIORITY (04-02-15)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (i) the occupancy, use, or enjoyment of the Land;
   (ii) the character, dimensions, or location of any improvement erected on the Land;
   (iii) the subdivision of land; or
   (iv) environmental protection;
   or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.
   (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
   (a) created, suffered, assumed, or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss or damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 16, 17, 18, 19, 20, 21, 22, 23, 24, 27 or 28); or
   (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury, or any consumer credit protection or truth-in-lending law. This Exclusion does not modify or limit the coverage provided in Covered Risk 26.
6. Any claim of invalidity, unenforceability or lack of priority of the lien of the Insured Mortgage as to Advances or modifications made after the Insured has Knowledge that the vestee shown in Schedule A is no longer the owner of the estate or interest covered by this policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11.
7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching subsequent to Date of Policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11(b) or 25.
8. The failure of the residential structure, or any portion of it, to have been constructed before, on or after Date of Policy in accordance with applicable building codes. This Exclusion does not modify or limit the coverage provided in Covered Risk 5 or 6.
9. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
   (a) a fraudulent conveyance or fraudulent transfer, or
   (b) a preferential transfer for any reason not stated in Covered Risk 27(b) of this policy.
10. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake, or subsidence.
11. Negligence by a person or an Entity exercising a right to extract or develop minerals, water, or any other substances.

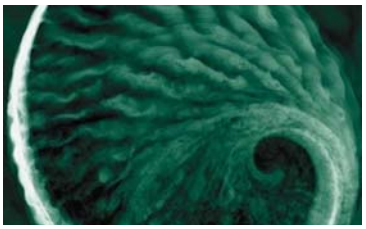
Executive Summary



Environmental Resources Management, Inc. (ERM) conducted a Phase I Environmental Site Assessment (ESA) of the facility located at 2150 Commerce Drive, San Jose, California (the "Site" or "site"). The Phase I ESA was conducted for Becton Dickinson and Company (BD) in accordance with the scope and limitations of *ASTM Standard E 1527-05 Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process*.

Mr. Teke Taylor of ERM conducted the Site visit on 18 February 2010. The property was vacant at the time of the Site visit. The most recent tenant was OnCore Manufacturing, who took over assembly of printed circuit boards operations from Dynamic Details Inc. (DDI) in 2007[1].

The Site consists of a 3.7 acre parcel improved by a single level industrial building. The building footprint is approximately 61,940 square feet, including roughly 15,000 square feet of office space, a 21,200 square foot manufacturing area, three (3) warehouse areas (totaling 16,600 square feet), and various locker, break and bath rooms. The floors in the manufacturing and warehouse areas are painted concrete, with no staining observed. The building is surrounded by paved parking areas and landscaped areas. The Site is situated in an area of mixed commercial, industrial and residential use.

With the exception of an air compressor system and diesel generator located on the west side of the Site building, there was no legacy equipment or chemical storage observed on the Site.

Based on information and data obtained during this assessment, ERM evaluated the Site for areas with the potential for adverse environmental impact. Areas with such potential are considered recognized environmental conditions (RECs) and are described as having "the presence or likely presence of hazardous substances or petroleum products on a property under conditions that indicate an existing release, a past release, or a material threat of a release of hazardous substances or petroleum products into structures on the property or into the ground, groundwater, or surface water of the property, excluding *de minimis* conditions that generally do not present a material risk of harm to public health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies."

Based on the data obtained during the Site visit, the environmental database review, and interviews with persons familiar with the Site and its history, the environmental conditions listed below were identified at the Site.

Recognized Environmental Conditions (REC)

No RECs or historical RECs were identified during the course of this Phase I ESA.

De Minimis or Other Potential Issues

The identified de minimis and/or other potential issues are as follows:

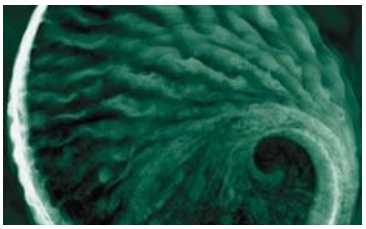
- The EDR report listed a former Site operator, Exel Microelectronics, in the "HIST UST" database for a "waste" tank installed in 1983. The database entry lists

[1] DDI/Oncore Manufacturing operated at the Site from 2002-2009, however operated as OnCore Manufacturing from 2007-2009.

the capacity of the tank as 60,600 (units not specified), and reads “6 inches” under the tank construction field. No additional information is available regarding the size, material, location, use or fate of the UST. None of the historical documentation, database reviews, or agency reviews provided any reference to a historical UST at the subject Site. No evidence of current or historical USTs were observed during the Site visit, however a past tenant of the Site recalled observing a fill port in the loading dock area of the building. The former Site occupant did not recall any use of a UST during their tenure at the Site (OnCore Manufacturing).

- According to a previous Phase I report (E_2C, 2000), a former chemical storage area, which once contained several ASTs, was located outside the south side of the Site building (reference to the quantity, size, or content of the ASTs was not provided in this report). The former chemical storage area reportedly included a neutralization area, HF treatment area, cooling water and deionized water treatment. The presence of a chemical storage area adjacent to the south side of the building was confirmed during an interview with a former Site occupant employee. According to the former Site occupant, three (3) liquid nitrogen AST’s were removed in 2005 and no evidence of storage tanks or containers were observed at the facility at the time of the Site visit. The former Site occupant further acknowledged that he recalled this area being used as a “Waste Area” where they kept sodder wipes and scrub PCB scraps. According to the Hulberg & Associates (2002) report the tank farm in the rear of the building was removed during renovations in 2000/2001, during which the parking lot was resurfaced. It should be noted that no indication of historical spills or other incidents in this area were identified as part of this assessment.

1. Introduction and Background



1.1 Purpose and Auditors

Environmental Resources Management, Inc. (ERM) conducted a Phase I Environmental Site Assessment (ESA) of a vacant facility, located at 2150 Commerce Drive (the "Site" or "Facility") in San Jose, CA. The purpose of this ESA is to provide an independent review of environmental risks associated with past operations in anticipation of a potential acquisition. The Site visit was performed on 18 February 2010 by Mr. Teke Taylor of ERM's Walnut Creek office. ERM was unaccompanied during the Site visit.

1.2 Scope Of Work

This Phase I ESA was conducted in conformance with the requirements of *American Society for Testing and Materials (ASTM) Standard E 1527-05; Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process* and the standards for conducting all appropriate inquiries set forth by the *United States Environmental Protection Agency* (*USEPA*) at *40 Code of Federal Regulations (CFR) Part 312*.

The assessment was conducted to evaluate and identify conditions indicative of releases and threatened releases of hazardous substances and petroleum products on, at, in, or in the vicinity of the Site. ERM's Phase I ESA sought to gather information regarding: (1) current and past property users and occupancies; (2) current and past users of hazardous substances and petroleum products; (3) waste management and disposal activities that could have caused a release or threatened release of hazardous substances; (4) current and past corrective actions and response activities to address past and on-going releases of hazardous substances at the Site; (5) engineering controls at the Site; (6) institutional controls at the Site; and (7) properties adjoining or located near the Site that have environmental conditions that could have resulted in conditions indicative of releases or threatened releases of hazardous substances to the Site.

ERM's Phase I ESA included:

- An on-Site inspection of the Site to evaluate current conditions and identify areas of potential concern;
- A review of property history through aerial photographs, city directories, ownership records, historical mapping, and interviews;
- Observation of adjacent properties and the local area to evaluate the potential for adverse environmental impact to the Site;
- Research of local city/county, tribal, state, and federal records, including contracting of *Environmental Data Resources, Inc*. (*EDR*) to identify sites of concern as required in the regulatory records review section of the ASTM standards for a Phase I ESA, where available; and
- A preliminary Site building asbestos assessment that included visible observations of readily accessible building areas, though no sampling.

Photographs of the Site and surrounding areas were taken to document current conditions and are included in Appendix A. Historical documents obtained during the assessment are attached in Appendix B. Copies of *Sanborn* fire insurance maps, aerial photographs, topographic maps, and city directory search, as available, are presented in Appendix C. The EDR database search results are included in Appendix D. A copy of a questionnaire completed by the client ("user" of this report as defined by *ASTM E 1527-05*) is presented in Appendix E.

1.3 Limiting and Special Conditions

1.3.1 Limiting Conditions during the Site Visit

ERM did not have access to the building roof during the Site visit. No other limiting conditions were encountered.

1.3.2 Significant Assumptions

No significant assumptions have been made.

1.3.3 Special Terms and Conditions

This Phase I assessment was conducted in conformance with the general terms and conditions of the 2 February 2010 proposal.

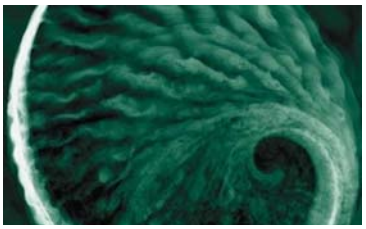
1.3.4 User Reliance

This report was prepared for Becton Dickinson and Company (herein known as the "Client" and/or "User") for their sole use and reliance. Reliance on this report by any other person(s) or entity (ies) is strictly at their own risk, and ERM makes no warranties to person(s) or entity (ies) other than the Client who will use the information provided in this report. If other person(s) or entity (ies) wish to rely upon this report (i.e. lenders, mortgagers, insurance companies, or other parties to a transaction), ERM will require that such parties agree to our contract terms in writing.

1.3.5 Deviations

There are no significant deviations from the *ASTM E 1527-05* standard.

2. Site Setting



2.1 Location

The Site is located at 2150 Commerce Drive, within a light industrial area in the City of San Jose, California (Figure 1). The Site's APN is 244-15-003. The Site consists of a 3.7 acre parcel improved by a single level industrial building, which is currently vacant. The Site building is located in the middle of the parcel and is surrounded by asphalt paved parking areas and landscaped grounds.

2.2 Neighboring Properties

Properties in the vicinity of the Site include industrial facilities. The abutting properties and nearby land use include:

- North: A label making company, *Bay Area Labels* (BAL), is located just north of the Site, across Commerce Drive. North of BAL is the Lundy Plaza, which contains commercial businesses and small offices. To the northeast of the Site, on Qume Drive, is the *BD* office building.
- South: A large *USPS* facility is located south of the Site, across MacKay Drive.
- East: Across MacKay Drive to the east and southeast of the Site is a grassed open space that appears to be part of the *USPS* complex. Further east is an office/light industrial complex.
- West: To the west, adjacent to the Site, is *TV36*, a local news outfit. There is a vacant office/light industrial building adjacent to the Site to the southwest.

A newly developed residential area, located approximately 850 feet to the southwest of the Site, is the nearest residential area to the Site. No visual evidence of environmental concerns was observed on immediately surrounding properties.

2.3 Topography and Hydrology

The Site is located at an elevation of approximately 69 feet above mean sea level and the general topographic gradient of the property is relatively flat. The overall topographic trend of the area immediately surrounding the Site is to the west.

The nearest surface water body to the Site is the Coyote Creek, approximately 1.25 miles to the west.

According to the EDR report, the Site is not located within the 100-year or 500-year flood plain. However, there is a 100-year flood zone approximately 0.5 miles north of the Site, and a 500-year flood zone approximately 0.25 miles to the east. These flood zones are believed to be down gradient and cross gradient, respectively, as groundwater is believed to flow northwest in the area.

2.4 Geology and Hydrogeology

ERM obtained soil information from the EDR Report, which draws its information from the National Cooperative Soil Survey (NCSS), lead by the U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS), as well as the USGS soil maps for Santa Clara County. The dominant soil class on the Site and adjacent industrial properties is identified as 'Botella', which is described as loams with Class B (Moderate infiltration rates) characteristics. The soils are also described as moderately well to well drained. According to the EDR report surface soils (0-9 inches) are clay loams, overlying a silty clay loam which extends to a depth of approximately 76 inches below ground surface (bgs). The depth to bedrock is not reported for the Site.

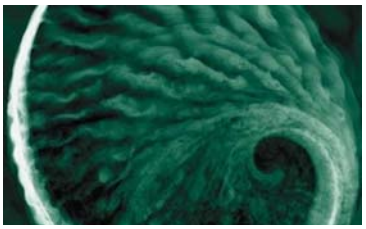
Information from soil investigations on neighboring properties was consistent with the EDR report. Borehole logs from USPS (TRC, 2008/9) and Spartan Gas (WellTest, 2002), located south of the Site both indicated a silty clay to

clay layer starting 10-15 feet bgs. Some boring logs showed gravel as deep as 20 feet bgs; however it is unclear if this was believed to be fill material.

Depth to the water table has not been recorded at the Site. No water wells were reported within one mile of the Site. Based on groundwater investigations at nearby facilities, depth to groundwater is expected to be between 27 and 58 feet bgs (TRC, 2006; Blaes, 2003; and SCC, 2007). Fluctuation in groundwater elevation has been observed at nearby facilities (Blaes, 2003). Groundwater flow direction reported at nearby sites is typically north or northwest. However, groundwater flow at the USPS facility is reported to be south.

There are no registered Federal or State water wells within one mile of the Site. The closest water supply well is believed to be approximately 1.15 miles southwest of the Site (SCC, 2007).

3. Site and Operations Information



3.1 General Site Description

The Site consists of a 3.7 acre parcel improved by a single level industrial building, which is currently vacant. The Site building is located in the middle of the parcel, with a footprint of approximately 61,940 square feet, including roughly 15,000 square feet of office space, a 21,200 square foot manufacturing area, three (3) warehouse areas (totaling 16,600 square feet), and various locker, break and bath rooms (Figure 2). With the exception of an air compressor and diesel generator located on the west side of the Site building, there were no legacy equipment or chemicals observed on-Site.

A former chemical storage area, which once contained several ASTs (E2C, 2000), is located outside the south side of the Site building. The former chemical storage area included a neutralization area, HF treatment area, cooling water and deionized water (E2C, 2000). No staining was observed on the asphalt in the former chemical storage area. Additionally, no staining was observed on the floors of the manufacturing or warehouse areas. The floors in these areas are painted concrete.

Numerous holes were observed in the floor of the warehouse area on the south side of the Site building. It is not clear what caused these holes, but most appear to be from the removal of bolts. It is possible that these holes are the result of the removal of support structures for former plant and equipment. None of the observed holes appeared to penetrate through the concrete.

The Site building is surrounded by paved parking areas and landscaped areas. The Site is situated in an area of mixed commercial, industrial and residential use.

Site photographs are presented in Appendix A.

3.2 Utilities

The facility is provided with water, gas, electricity, garbage, sanitary sewer and storm sewer services. The City of San Jose provides the sewer services, and is presumed to provide water and garbage. It is also presumed that Pacific Gas and Electric provides the electricity and gas. The providers of these services could not be confirmed. The gas line was observed to come on-Site from the south. Electricity comes on-Site from the west, at the large transformer located west of the Site building. During the Site visit ERM could not locate where the water comes on-Site, but it is presumed that it enters the property from Commerce Drive to the north. Sanitary sewer was observed to connect to the property from the south.

Additionally, ERM observed a diesel generator (Cummins Onan, 250 kW) located to the west of the Site building. However, at the time of the Site visit the generator was not operational as the batteries were reportedly dead and the cables had been cut.

3.3 Processes and Material Use

3.3.1 Current Operations

The facility is currently vacant.

3.3.2 Discontinued Operations

Historical aerial photography indicated that the Site was previously used as an orchard from at least 1939 until sometime between 1975 and 1982.

Previous reports indicate that the Site building was constructed in 1983 (Hulberg & Associates, 2002). It appears that operations at the Site have always been associated with the manufacturing of semi-conductors or other similar electrical products. Specific information

regarding previous Site operations is discussed in the subsequent sections.

3.4 Chemical Use and Storage

During the time of the Site visit there were no chemicals used or stored at the Site. Prior operations involved a chemical storage area that included an acid neutralization area, HF treatment area, cooling tower and deionized water unit located outside and adjacent to the south side of the Site building (E_2C, 2000). However, during the Site visit there were no storage tanks or containers remaining at the facility.

ERM was able to contact representatives of prior occupants of the Site, Jesus Rojas, a technician with DDI and Mr. Victor Mercado a Facility Maintenance Technician of OnCore Manufacturing, hereafter referred to as, "Site representatives". Site representatives indicated that the chemical storage/waste area was a fenced-in area on the south side of the Site building, covered by an awning that stored sodder wipes and scrub PCB scraps. Neither the fence nor the awning was observed during the Site visit (Appendix A).

It is not known specifically what chemicals were stored on-Site by prior occupants. Site representatives indicated that the only chemical containers DDI maintained on-Site were solder glass drum containers and that the largest quantity of chemical they stored at the Site were in 5 gallon pails. Hazardous Waste Disposal Permits in the Santa Clara County Environmental Health Department (SCC) files only identified solder related materials. However, the 2000 Phase I report (E_2C, 2000; Appendix B) for the Site identified a chemical storage area, including ASTs, but did not identify which chemicals were stored and in what quantities. Additionally, a 1983 building permit application for an add-on to be used for "chemical storage & vault" was included in the San Jose Fire Department (SJFD) file (Appendix B). Additional details (e.g., structural plans) were not readily available for review.

The 2000 Phase I report (E_2C, 2000) identifies the chemical storage area as being located outside and adjacent to the south side of the building. Site representatives confirmed that a fenced chemical storage area was located in this location during DDI's occupancy of the Site. No evidence of the chemical storage area was apparent during the Site visit. No staining or other signs of chemical spills were observed on the south side of the building during the Site visit.

3.4.1 Underground Storage Tanks (USTs)

The EDR report lists Exel Microelectronics in the "HIST UST" database for a "waste" tank installed in 1983. The database entry specifies the use as waste, lists the capacity of the tank as 60,600 (units not specified), and reads "6 inches" under the tank construction field. No additional information is available regarding the size, material, location, use or fate of the UST. Neither the Regional Water Quality Control Board (RWQCB) or the California Department of Toxic Substances Control (DTSC), San Jose Fire Department (SJFD), nor SCC Environmental Health Department files included any reference to a historical UST at the subject Site.

No evidence of current or historical USTs were observed during the Site visit, however a Site representative recalled observing a fill port in the loading dock area of the building. The former Site occupant did not recall any use of a UST during their tenure at the Site (OnCore Manufacturing).

3.4.2 Aboveground Tanks (ASTs)

During the Site visit there were no ASTs at the Site other than the 75 gallon tank associated with the currently inoperable diesel generator and the air separator tank associated with the air compressor. The diesel generator AST is mounted on top of the generator and no signs of leakage were apparent.

Site representatives indicated that there was an oil water separator, associated with the air compressor, located on the west side of the building in a cage. Although no cage was observed during the Site visit, the air compressor and oil water separator were still present. The compressed air system is comprised of a LeRoi rotary screw compressor (445 CFM @ 125 psi), an air filter, a 350 gallon air receiver, a coalescing filter, a Kaeser refrigerated air dryer, and a Zander oil and condensate collection system.

The previous Phase I investigation at the Site (E_2C, 2000) mentioned ASTs in the chemical storage area, but did not specify the quantity, size, or content of any ASTs. According to the Hulberg & Associates (2002) report, the tank farm in the rear of the building was removed during renovations in 2000/2001, during which the parking lot was restriped and resurfaced.

ERM reviewed the County of Santa Clara Department of Environmental Health and the San Jose Fire Department record for the Site for records of ASTs at the facility. These records included a permit application to replace one (1) 1,000 gallon tank with three (3) 260 gallon stainless steel tanks to store liquid nitrogen on the south side of the building in 2004, in the approximate location that the chemical storage area was reported to be (Appendix B). According to a Site representative, three (3) liquid nitrogen AST's were removed in 2005 and no evidence of storage tanks or containers were observed at the facility at the time of the Site visit.

3.5 Waste Management

There was no waste being generated at the Site during the time of the Site visit.

3.5.1 Hazardous Waste

MagePower Semiconductor Corp was registered as a large quantity generator from 1992 to 1996. From 1997 to 1999 their classification changed to small quantity generator. The nature of the MagePower's waste is not known; however, no violation records were reported.

Santa Clara County Environmental Health Department inspection reports for the Oncore Manufacturing operation cited solid wastes such as used gloves, lead solder, and other materials that weren't being treated as hazardous wastes. Records show that Oncore later changed to manage these materials as hazardous waste.

Additionally, Hazardous Waste Generator Permits in the Santa Clara County Environmental Health Department file indicate as much as 9,000 lbs of solder dross waste, 200 lbs of solder paste and 5 gallons of solder flux generated annually for DDI.

3.5.2 Non-Hazardous Waste

A general waste area was observed along the fence line on the southern boundary of the Site. The general waste area was fenced and appeared clean. There was no evidence of improper disposal of non-hazardous waste observed during the Site visit.

3.5.3 Off-Site Liability

No records listing violations for any of the known prior occupants at the Site due to improper off-Site disposal practices were identified during this investigation.

3.6 Water, Wastewater and Storm Water

3.6.1 Water

ERM was unable to identify where the water comes onto the Site property. It is assumed that water is provided by the City of San Jose. On the west side of the building, inside a fenced area, there is a US Filter de-ionized water system that historically provided de-ionized water to process equipment. It is estimated to be able to deliver 10 gallons of water per minute (gpm).

There are no records of water supply wells on the Site, and none were observed by ERM at the time of the Site visit.

3.6.2 Wastewater

There were no floor drains observed in the manufacturing, warehouse, or office areas during the Site visit. The only floor drains observed at the Site were in the bathrooms and the janitorial closets. A wastewater sump was observed near the air compressor outside the building. The sump collected storm water from the bermed area surrounding the air compressor as well as wastewater from the air compressor oil-water separator. The discharge pipe from this sump entered the building, but couldn't be tracked because it runs within the wall. However, a contractor on Site at the time of the Site visit indicated that the sump discharges to the sanitary sewer.

3.6.3 Storm Water

The diesel generator and associated AST are exposed to precipitation and are not in a bermed area. Site storm water is directed to a number of storm water drains that connect to the municipal storm sewer system, which ultimately leads to the San Francisco Bay. No staining or other evidence of impacted storm water discharges were noted during the Site visit.

Storm water discharge permits/records of violation for past tenants were not available. However, no citations were noted during the Santa Clara County of Environmental Health Department inspections.

3.7 Air Emissions

With the exception of the diesel generator and the air compressor, there are no records of equipment operated that the subject facility that would have been subject to air permitting. At the time of the Site visit, there were no air emission sources, other than those mentioned, observed.

3.8 Polychlorinated Biphenyls (PCBs)

During the Site visit, ERM observed two (2) electrical transformers, one located along the west boundary of the Site Building and one on the south side. The transformer on the west side of the building was pad-mounted and the south side of the building is below ground. The above ground transformer appeared to be in good condition with no signs of release (i.e., staining or spills) observed on the concrete pad. In addition, the concrete pad appeared to be in good condition (i.e., no pitting or cracking). ERM was able to identify the location of the below ground transformer, but was not able to view the transformer itself during the Site visit. No additional information regarding ownership, age, or condition of the transformers was available.

Before EPA banned the manufacture of PCBs in 1978, PCBs were commonly incorporated in the manufacture of fluorescent light ballasts. The facility is lighted with fluorescent lighting and the associated ballasts have the potential to contain PCBs. However, given the construction year of the building (1982), it is considered unlikely that PCBs will be present.

3.9 Visual Indications of On-Site Impacts

ERM identified no sources of potential soil and/or groundwater contamination from existing on-Site activities at the time of the Site visit.

According to the County Department of Health and Fire Department records there have been no explosions or large chemical releases at the Site. No visual indications of on-Site impacts were noted by ERM during the Site inspection.

No visual indications of impacts on adjoining properties were noted by ERM during the Site inspection.

3.10 Asbestos-Containing materials

Asbestos was banned in most friable building materials (sprayed applied surfacing materials and thermal system insulation) in 1978, but the Occupational Safety and Health Administration deems spray applied surfacing materials, and thermal system insulation materials, as presumed Asbestos Containing Materials (PACMs) if they are present in pre-1981 buildings.

Based on the age of the Site building (1983), ACM presence is considered unlikely.

3.11 Radon

Radon is a colorless, odorless gas that exists naturally in some geologic formations. Radon levels are generally highest in basements and ground floor rooms in contact with the earth. Building products, especially cinder blocks made from material high in uranium and other alpha-emitting radionuclides, may release radon gas.

No radioactive sources are suspected at the Facility and none were observed during the Site visit. Information supplied by Environmental Data Resources that was obtained from the U.S. Environmental Protection Agency (USEPA), indicates that the Site is located in Zone 2, where the predicted average indoor radon level is greater than 2 Pico curies per liter (pCi/L) but less than 4 pCi/L. Typically, radon mitigation measures are recommended by the USEPA when concentrations of radon exceed 4 pCi/L in residential exposure scenarios. No records of Site-specific sampling to evaluate the concentrations of radon within the building at the Site were available.

3.12 Lead Based Paint

In 1978, the Consumer Products Safety Commission banned paint and other surfacing coating materials which are considered “lead containing paint” (i.e., paints containing greater than 0.06 percent lead by dry weight). Since the Site Building was constructed in 1982, it is not likely that lead-based paint or materials was used in its construction. All painted surfaces were observed to be in good condition.

3.13 Potential Soil and Groundwater Contamination

The potential for soil or groundwater contamination is considered low. With the exception of the bathrooms and janitorial closets there are no floor drains in the building, thus reducing the possibility of chemicals making their way into a leaking sewer system and subsequently into the soil and/or groundwater. Additionally, the majority of the Site

not within the footprint of the building is covered by asphalt paving. This surface is relatively impermeable and would direct chemical spills to the storm water drains rather than penetrating into the subsurface.

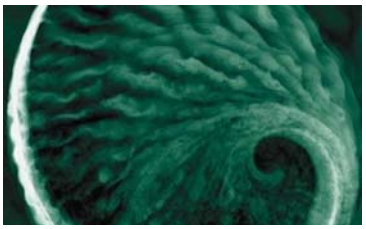
The most likely area for a chemical spill is suspected to be the former chemical storage area. This area has no floor drains and no staining was observed on the asphalt in the area; however it is noted that the area was resurfaced in 2000/2001 timeframe, when use as chemical storage in this area discontinued. Regardless, no records indicating past chemical spills occurring at the Site were found during the public records search. A Site representative indicated that there were no major spills during OnCore manufacturing's operations at facility.

ERM also conducted a search of records of environmental impacts from nearby properties. The only adjacent property with recorded environmental impacts is petroleum impacted groundwater from USTs at the USPS facility southeast of the Site. Although groundwater flow direction at other nearby sites would suggest that the USPS facility is up gradient of the Site, the groundwater flow direction reported during the groundwater monitoring program was in the opposite direction (i.e., south). Additionally, groundwater monitoring reports showed a reduction in concentration to non-detectable limits and site closure was issued in April of 2009 (SCC, 2009).

There is also a record of the nearby BD site receiving case closure for the removal of a diesel UST in 1992; however, there is no indication that groundwater contamination occurred.

Several additional properties in the vicinity of the Site have open cases. These sites are either in a down gradient direction or a sufficient distance away and are therefore not likely to impact the Site.

4. Assessment of Past Land Use and Operations



4.1 General Information

The first tenant/owner was Exel Microelectronics (Exel), who operated at the Site until sometime between 1996 and 1998, changing their name to Rohm Manufacturing sometime between 1991 and 1996. Exel/Rohm is believed to have manufactured semiconductors at the facility.

The EDR report and County of Santa Clara Department of Environmental Health records indicate that MagePower Corporation operated at the Site from 1992 to 1999; however, MagePower may have operated at the Site until as late as 2001. MagePower also manufactured semiconductors. Permit applications with the San Jose Fire Department from 1998 and 1999 name MagePower as the Site occupant. It is not clear what portion of the Site was occupied by MagePower during that time.

A Hazardous Waste Generator permit filed with the Santa Clara County Environmental Health Department in 2001 named Dynamic Details Inc (DDI) as the Site occupant. This information is supported by a building permit filed with the San Jose Fire Department during the same year. Mr. Rojas indicated that DDI assembled and tested printed circuit boards at the facility. DDI also operated under the name Veritek Manufacturing.

Oncore Manufacturing (Oncore) took over operations from DDI / Veritek in 2007, continuing to assemble printed circuit boards until 2009. According to Greg Galasso, with Colliers International, the Site has been vacant for approximately 12 months.

4.2 Previous Environmental Reports

ERM was provided with and reviewed the following reports regarding the Site:

Phase I Environmental Site Assessment: 2150 Commerce Drive, San Jose, CA prepared by E_2C, Inc., 21 June 2000.

The E_2C assessment did not identify any potential compliance issues or RECs.

4.3 Evaluation Of Historical Information Sources

To determine past uses of the Site and surrounding properties, ERM reviewed historical sources of information as outlined below. Copies of historical Sanborn Fire Insurance Maps, topographic maps and aerial photographs, and a City Directory Search report are presented in Appendix C.

Table 1 – Summary of Historical Records Reviewed

	Years Reviewed	
Source of Information	***Site***	***Adjacent Properties***
Interview(s) with current occupant and/or owner	NA	Contact information not readily available
Interview(s) with past owners/ occupants, (if appropriate)	Jesus Rojas, Victor Mercado	Technician, Dynamic Details, Inc. & Facility Maintenance Technician of OnCore Manufacturing
Interview(s) with owner/ occupants of neighboring and nearby properties (in cases of abandoned Site)	Not Applicable	Not Applicable

50-year Chain-of-Title	Reviewed	Not reviewed

4.3.1 Site

Based on information obtained from prior reports (E_2C, 2000), government records and aerial photographs, the Site building was built in 1982. Prior to current Site building construction, the Site was an orchard.

Table 2 – Chronology of Site and Surrounding Land Uses	
Date	Description
1939-1965	According to aerial photographs the Site was part of an orchard.
1965-1975	According to aerial photographs Commerce Drive and Qume Drive were constructed and the surrounding orchard began to thin.
1982	The current building was constructed
1982-1996	Exel Microelectronics, later to become Rohm corporation, occupies the facility. The area continues to develop. Most of the buildings in the area present today were constructed by 1992.
1998-1999	MagePower is believed to occupy the Site.
2001-2007	DDI operated at the facility.
2007-2009	Oncore Manufacturing takes over DDI operations.
2009-present	The Site is vacant.

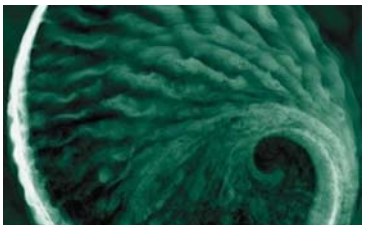
4.3.2 Adjacent Properties and Surrounding Area

According to the historical aerial photograph and topographic map review, the area south of the Site was developed 5 to 10 years prior to the construction of the Site building. By 1993 most of the developments near the Site had been completed.

4.3.3 Non-Regulatory Interviews

ERM interviewed Jesus Rojas, a technician with Dynamic Details, Inc. who occupied the Site from 2001 to 2007 and Victor Mercado a Facility Maintenance Technician of OnCore Manufacturing (formerly known as Dynamic Details, Inc. (2007-2009)). Prior occupant information was also provided by Greg Galasso, with Colliers International. Relevant information from these interviews is contained in the appropriate sections of this report.

5. Database and Government Records Review



5.1 Government Records Review/Interviews

ERM requested information from regulatory agencies that were expected to have useful records relating to the Site. ERM requested information from the following sources:

- United States Environmental Protection Agency (USEPA);
- California Department of Toxic Substances Control (DTSC);
- Regional Water Quality Control Board (RWQCB);
- Santa Clara County Department of Environmental Health; and
- City of San Jose fire Department.

Information obtained from these agencies is summarized below. The Site is not located on tribal lands or within tribal jurisdiction.

5.1.1 USEPA

ERM performed a search of the USEPA online database. The USEPA website contains general information regarding past investigation and remediation activities associated with the Site.

No additional pertinent information was found regarding the Site.

5.1.2 DTSC

ERM queried the DTSC online database to review any pertinent files regarding sites with environmental violations that are Superfund sites or require voluntary remedial action, including sites neighboring the Site. The DTSC had no records on file regarding environmental violations associated with the Site or its immediate neighbors.

5.1.3 RWQCB

ERM queried the RWQCB online database to review any pertinent files regarding sites with environmental issues including the Site and those neighboring the Site.

The RWQCB had no records on file regarding environmental issues associated with the Site. Two past environmental issues at properties immediately adjacent to the Site were included in the RWQCB database. Case closure has been issued for both of these properties. These records include a UST removal at the BD facility located at 2350 Qume Drive, northeast of the Site. The BD tank was removed and case closure was issued in 1982.

The second RWQCB database entry regarded contaminated groundwater from six (6) fuel and waste oil USTs at the USPS facility, south of the Site. In May 2005, USPS removed two (2) 12,000 gallon diesel tanks, one (1) 12,000 gallon gasoline tank, two (2) 2,000 gallon new oil tanks and one (1) 2,000 gallon waste oil tank. After 3 years of groundwater monitoring, case closure was issued in 2009. Groundwater was reported as flowing south at the USPS facility (Appendix B).

Neither the BD, nor the USPS cases are considered likely to have adversely affected the Site.

Additional files were reviewed for properties in the area of the Site. Based on distance from the Site, direction, and case status, none were deemed likely to adversely impact the Site.

5.1.4 Santa Clara County

ERM conducted a file review of the Santa Clara County Department of Environmental Health records for the Site. The file included several hazardous materials compliance inspection reports and hazardous waste generator permit applications.

There were no significant violations identified in the inspection reports. Minor citations, typically regarding improper waste classification were noted in the inspection reports. Each citation was addressed to the satisfaction of the regulatory agency. All of the cited issues are considered *de-minimus*.

5.1.5 City of San Jose Fire Department

ERM reviewed the City of San Jose Fire Department file on the Site for information about past incidents, USTs, building permits, and known contamination at the Site. The file includes references to permits regarding ASTs, but the documentation for these permits was not included in the file. The file also included a permit to build three (3) 260 gallon stainless steel ASTs for liquid nitrogen in 2004. The most recent inspection report, conducted on 29 April 2009, requested a site closure report from Oncore. This report is not in the SJFD file.

The SJFD file did not contain records of any major spills or fires at the Site.

5.2 Environmental Database Search

ERM contracted EDR to conduct a database search for agency records. The database report, presented in Appendix D, defines and summarizes the ASTM databases reviewed in the EDR report and notes if any sites (including the Site) were identified within the specified radius. The locations of the sites identified in the EDR report were evaluated to determine which sites were located within the ASTM-specified search distance from the Site boundary. Only those sites within the ASTM-specified distances are discussed below.

It should be noted that the computerized geocoding technology used in the database search is based on available census data and is only accurate to approximately ±300 feet. The EDR report provides a list of unmapped sites for which inadequate location information was provided. ERM has reviewed the list of unmapped or "orphan" sites to determine if these sites are within the study radius. Two (2) sites, the Murphy/Lundy Development (at the intersection of Murphy Ave and Lundy Ave) and Verizon Wireless (2222 Qume Drive) sites were identified by ERM to be within the ASTM-specified radius of study and/or to be of potential environmental concern at the Site.

Sites identified within the study radius were evaluated to determine if they are considered likely to have adversely impacted the Site. The criteria used to evaluate the potential for adverse impact to the Site include:

- Distance from the Site,
- Expected depth and direction of groundwater and surface water flow,
- Expected storm water flow direction, and
- The presence/absence of documented contaminant releases at the identified sites that have not been remedied to the satisfaction of regulators.

5.2.1 Site

The Site is listed in the EDR report as *Exel Microelectronics, Dynamic Details Inc, MagePower Semiconductor Corp., Veritek Manufacturing and Rohm Manufacturing,* which all operated at the Site in the past (see Section 4.1). The Site as listed is included on the following databases:

- Hazardous Substance Storage Container Database (HIST UST);
- Facility and Manifest Data (HAZNET);
- San Jose Hazmat Facilities (San Jose HAZMAT);
- Emissions Inventory Data (EMI);
- RCRA Small Quantity Generator (RCRA-SQG); and
- Facility Index System/Facility Registry System (FINDS).

Aside from the information provided in Section 3.4.1, no further details were available regarding the UST listed in the HIST UST database, under the Exel Microelectronics record. The location, use and fate of this UST are not clear from ERM's research. This is identified as a data gap in Section 6.

The HAZNET, HAZMAT, RCRA-SQG and FINDs entries are presumed to be from the small quantities of hazardous waste generated by the semi-conductor manufacturing and circuit board assembly operations.

ERM also had EDR conduct an Environmental Cleanup Lien search for the Site. The EDR Environmental Lien Search Report provides results from a search of available current land title records for environmental cleanup liens and other activity and use limitations, such as engineering

controls and institutional controls. According to the EDR report there are no liens on the Site.

5.2.2 Surrounding Properties

There are several listings in the EDR report for off-Site facilities within applicable ASTM search radii. A number of facilities appear on data bases indicating potential contamination concerns, including one (1) Compensation, and Liability Information System- No Further Remediation Action Planned (CERCLIS-NFRAP), four (4) RCRA-Large Quantity Generators (LQG), eight (8) RCRA-Small Quantity Generators (SQG), one (1) State Response Sites (RESPONSE), five (5) Envirostor Database (ENVIROSTOR), five (5) leaking underground storage tanks (LUSTs), three (3) Historic LUSTs, one (1) Voluntary Cleanup Program Properties (VCP), two (2) Historic USTs (HIST UST), and one (1) Statewide Environmental Evaluation and Planning System UST Listings (SWEEPS). These are discussed below:

CERCLIS NFRAP: ITT, who previously occupied 2350 Qume Drive, located 0.3 miles northeast and down gradient of the Site is identified on the CERCLA-NFRAP database. ITT was listed in May 1986 and was archived in December 1987. In addition, this facility is not on the NPL database. Based on the distance from the Site, the down gradient location, and its regulatory closure status, this listing is not considered likely to represent an environmental concern to the Site.

RCRA: There are four (4) LQG and eight (8) SQG, sites within the specified ASTM radii, including a former Site occupant, MagePower, listed as one of the SQG's. These listings by themselves are not necessarily indicative of an environmental concern to the Site. Based on the database entries presented in the EDR, it is not considered likely that activities at any of the identified LQG or SQG sites within the ASTM radius have adversely affected the Site.

RESPONSE: No further action status was granted to the Ringwood/Mackay site located at the intersection of Ringwood Ave and McKay Drive, approximately 0.45 miles southwest of the Site in 1994. For this reason and the distance from the Site, it is not considered likely to have adversely affected the Site.

ENVIROSTOR: There are five (5) listings in the ENVIROSTOR database within the ASTM radius of the Site. Three (3) of the ENVIROSTOR database entries have received no further action status. The remaining two (2) sites, Industrial Building site located at 1831 Tarob Court, and the Brokaw Road site located on East Brokaw Road, are both approximately 0.9 miles from the Site. The Tarob Court location is down gradient from the Site, while the Brokaw Road site is between cross and up gradient from the Site. Given their distance from the Site, neither of these sites are considered likely to have adversely affected the Site.

LUST: The five (5) LUST sites have been issued case closure status and are considered unlikely to be of environmental concern to the Site.

HIST LUST: The three (3) HIST LUSTs within 0.5 miles of the Site were issued case closure status in the mid-1990s. Two (2) of the three (3) are located southwest of the Site, which appears to be cross gradient. These listings are unlikely to represent an environmental concern to the Site.

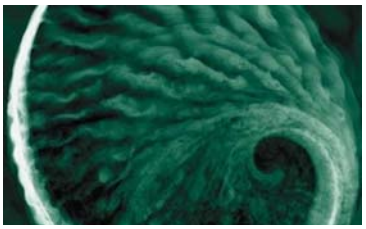
VCP: The one (1) VCP listing is located approximately 0.25 miles southwest of the Site. DTSC records indicate that this cleanup is in response to possible contaminants from a chemical shed mixing area associated with the orchard that once operated there. Although it appears to be up gradient from the subject property, the VCP site is unlikely to represent an environmental concern to the Site, as DTSC records indicate that soil is the contaminated media, not groundwater.

The HIST UST and the SWEEPS entries both pertain to the former UST at 2350 Qume Drive. It is considered unlikely that these listings currently represent environmental concern to the Site, as the site has been granted case closure. The other HIST UST entry is not likely to represent an environmental concern to the Site, as it is believed to be down gradient from the Site.

5.3 Title Search

The Chicago Title Company was contracted to perform a title search on the Site. No specific issues of concern were identified as they relate to the scope of this assessment. Relevant Site information obtained from review of the title search is incorporated throughout this report.

6. Data Gaps

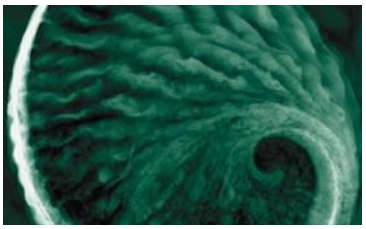


The following table summarizes the data gaps identified during the Site assessment. The significance of the data gaps with respect to the conclusions of this assessment is presented in the table below.

Table 3 – Data Gap Summary	
Data Gap	***Sources Consulted to Address Data Gap***
ERM was unable to confirm Site operations, particularly hazardous materials handling, by former occupants.	Interviews with the some prior property owners yielded some information, in addition to review of SJFD and Environmental Health Department files. Medium.
ERM could not confirm the location, use and fate of UST cited in HIST UST database.	Review of regulatory agency files and Site inspection. Medium.

[1] Significance of data gaps to identify conditions indicative of releases or threatened releases to the Site are rated from low to high. Low significance indicate that additional information to fill the data gaps is likely to have no impact on the conclusions reached in this report. Medium ratings indicate that additional information may prove valuable, but may not significantly alter the conclusions of this report. High significance indicate that it is the consultant's opinion that additional investigation (either from reports or field sampling) is required to address the data gap.

7. User Provided Information

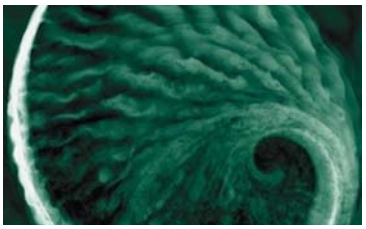


ERM contacted the client (“user”) with respect to the following information:

- An evaluation of the presence of Environmental Cleanup Liens for the Site;
- Activity and Use Limitations such as engineering controls (e.g., slurry walls, caps) and land use restrictions or institutional controls (e.g., deed restrictions, covenants) that may be in place for the Site;
- Specialized Knowledge that includes personal knowledge or experience related to the Site or nearby properties based on professional experience or knowledge of the Site;
- Fair Market Value to evaluate whether a purchase price is significantly below Fair Market Value;
- Obvious Indicators that involve past or present spills, stains, releases, cleanups on or near the Site; and
- Common Knowledge about specific chemicals, possible contamination, or past use of the Site and surrounding area.

The user questionnaire is attached in Appendix E.

8. Conclusions



ERM conducted a Phase I ESA at the Site. Our conclusions and opinions are based on a scope of work that followed the requirements set forth in ASTM Standard E 1527-05 and 40 CFR 312.

8.1 Recognized Environmental Conditions

No recognized environmental conditions or historical recognized environmental conditions were identified during the course of this Phase I ESA.

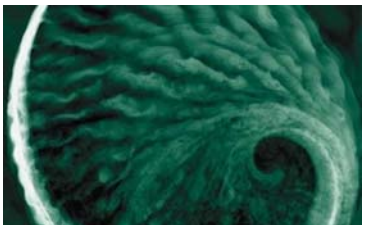
8.2 De Minimis or Other Potential Issues

The identified de minimis or other potential issues are as follows:

- The EDR report listed a former Site operator, Exel Microelectronics, in the "HIST UST" database for a "waste" tank installed in 1983. The database entry lists the capacity of the tank as 60,600 (units not specified), and reads "6 inches" under the tank construction field. No additional information is available regarding the size, material, location, use or fate of the UST. None of the historical documentation, database reviews, or agency reviews provided any reference to a historical UST at the subject Site. No evidence of current or historical USTs were observed during the Site visit, however a past tenant of the Site recalled observing a fill port in the loading dock area of the building. The former Site occupant did not recall any use of a UST during their tenure at the Site (OnCore Manufacturing).

- According to a previous Phase I report (E_2C, 2000), a former chemical storage area, which once contained several ASTs, was located outside the south side of the Site building (reference to the quantity, size, or content of the ASTs was not provided in this report). The former chemical storage area reportedly included a neutralization area, HF treatment area, cooling water and deionized water treatment. The presence of a chemical storage area adjacent to the south side of the building was confirmed during an interview with a former Site occupant employee. According to the former Site occupant, three (3) liquid nitrogen AST's were removed in 2005 and no evidence of storage tanks or containers were observed at the facility at the time of the Site visit. The former Site occupant further acknowledged that he recalled this area being used as a "Waste Area" where they kept sodder wipes and scrub PCB scraps. According to the Hulberg & Associates (2002) report the tank farm in the rear of the building was removed during renovations in 2000/2001, during which the parking lot was resurfaced. It should be noted that no indication of historical spills or other incidents in this area were identified as part of this assessment.

9. Qualifications of Environmental Professional Conducting this Assessment

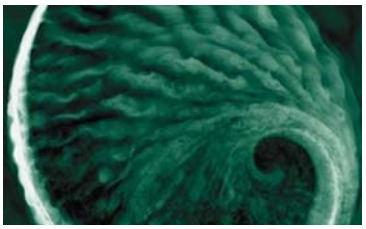


This assessment was conducted by Teke Taylor of ERM. Peter Baty and Nicole Repetti of ERM reviewed the contents of this report. The professional qualifications for Teke Taylor, Peter Baty and Nicole Repetti are included in Appendix E.

Teke Taylor and Nicole Repetti meet the definition of an *Environmental Professional* and prepared the following declaration.

- We declare that, to the best of our professional knowledge and belief, we meet the definition of Environmental Professional as defined in §312.10 of 40 CFR 312.
- We have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the Site. [I, We] have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

10. Limitations



The innocent landowner, contiguous owner, and prospective purchaser defenses to liability under *CERCLA* require that a person acquiring property conduct an all appropriate inquiry with respect to the Site. *ERM* has conducted this environmental assessment in accordance with the standards for conducting an all appropriate inquiry set forth at *40 CFR, Part 312*. Those standards require the application of scientific principles and professional judgment to certain facts with resultant subjective interpretations and exercise of discretion.

Professional judgments expressed herein are based on the facts currently available within the limits of the existing data, and data gaps identified herein, scope of work, budget, and schedule. Those standards also require that the client undertake certain additional inquiries. In addition, the liability defenses under *CERCLA* require, among several other things, that the client after the acquisition stop any continuing releases, prevent any future threatened releases and prevent or limit human, environmental or natural resource exposure to any hazardous substance released at the Site. Therefore, *ERM* makes no warranties, expressed or implied, including, without limitation, warranties as to merchantability or fitness for a particular purpose, including any warranty that this Phase I assessment will in fact qualify client for the innocent landowner, contiguous property owner or prospective purchaser defense to liability under CERCLA. *ERM*'s assessment is limited strictly to identifying recognized environmental conditions associated with the Site. Results of this assessment are based upon the visual Site inspection of readily accessible areas of the Site conducted by *ERM* personnel, information from interviews with knowledgeable persons regarding the Site, information reviewed regarding historical uses, information provided by contacted regulatory agencies, and review of publicly available and practically reviewable information identifying current and historical uses of the property and surrounding properties. All conclusions and recommendations regarding the Site represent the professional opinions of the *ERM* personnel involved with the project, and the results of this report should not be considered a legal interpretation of existing environmental regulations. *ERM* assumes no responsibility or liability for errors in the public data utilized, statements from sources outside of *ERM*, or developments resulting from situations outside the scope of this project. We make no warranties, expressed or implied, including, without limitation, warranties as to merchantability or fitness for a particular purpose.

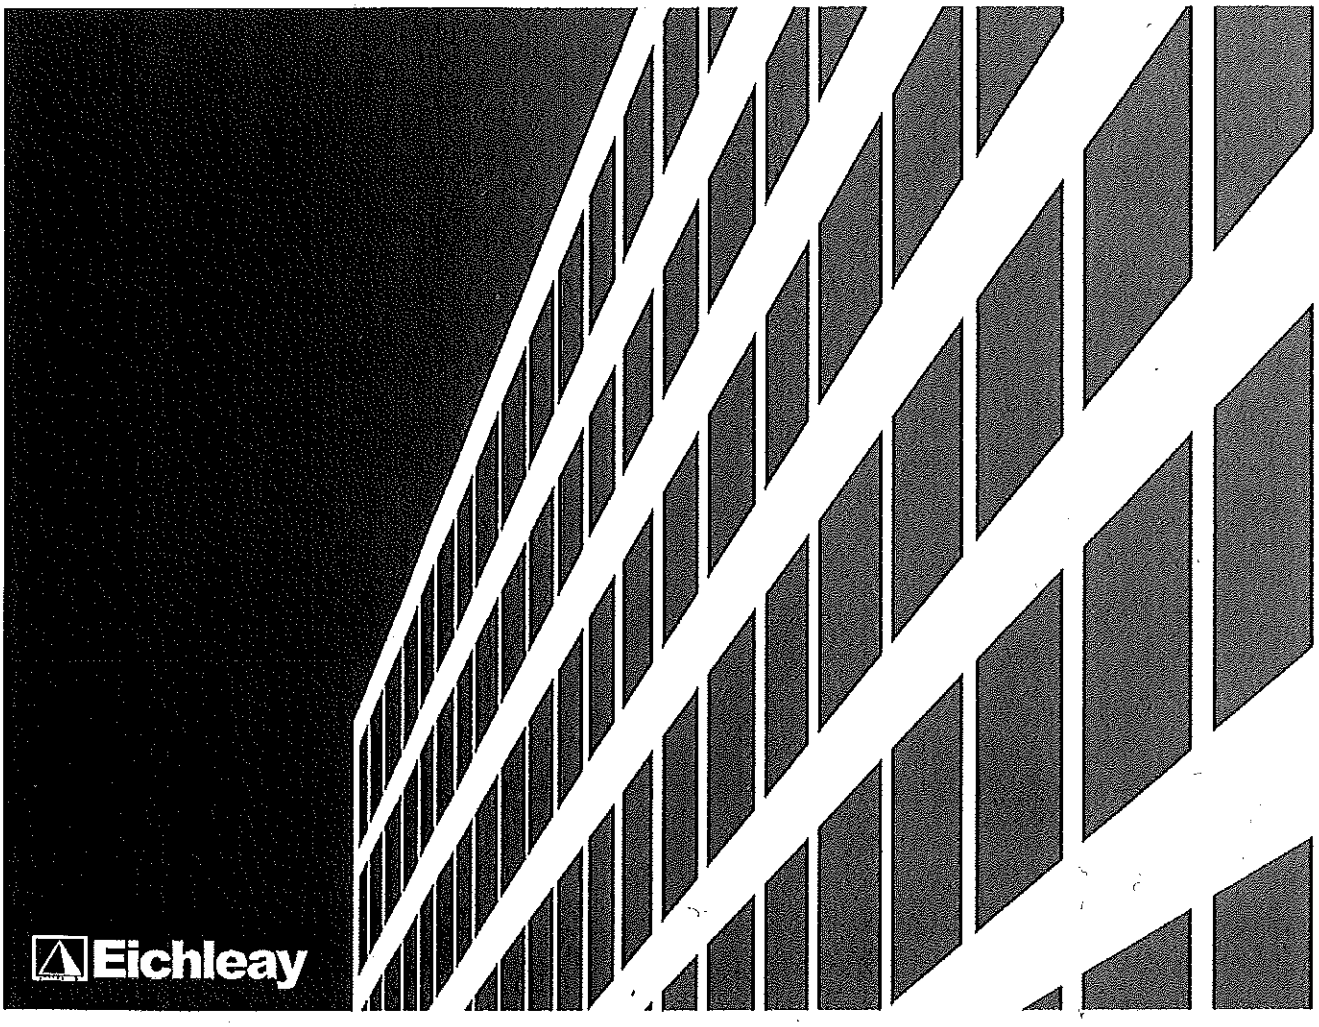
Building Assessment

2150 Commerce Drive



Eichleay Project No. 4100019
February 9, 2009

TABLE OF CONTENTS

1.0 Architectural Assessment

2.0 Structural Assessment

3.0 Mechanical Assessment

4.0 Electrical Assessment

1.0 Architectural Assessment

The following is an architectural assessment of the building at 2150 Commerce Drive.

- **Building Data**
  - Date of Original Construction: Unknown, estimated circa 1980.
  - Type of Construction: Type V-N per drawings by McLarney Construction, dated 5/10/01. Per current code, this equates to Type V-B construction.
  - Overall Bldg Area: Approximately 61,940 sq. ft.
  - Height: 1-story, approximately 20-feet in height
  - Fire Sprinklers: Yes
  - Exterior Wall Construction: Tilt-up Concrete, moderate condition.
  - Roof Deck Construction: Plywood deck over framed 2x joists and glu-lam beams
  - Roof Membrane Type: Multi-ply built-up roof with white granular cap sheet
  - Number of Tenants: 1
  - Occupancies: B, S-1 and F-1

- **Required Separations**
  Occupancy separations not required between B, S-1, and F-1 occupancies.

- **Fire Ratings for Building Elements**
  No ratings required for floor and roof construction, and interior bearing and non-bearing walls. No rating is required for exterior bearing and non-bearing walls due to the fire separation distance.

- **Exiting**
  Number of exits required from building: 3. Actual number of exits: 6.

- **Roofing**
  The existing roof membrane is in moderate condition, with several years left in most areas. Some areas have deterioration due to chemical exhaust, weather exposure, and build-up of organic matter at low spots at the parapet. The roof access hatch requires fall protection at the roof edge.

- **Handicap Accessibility**
  The site and building components are mainly compliant, however some minor modifications are necessary in the restrooms and to outdoor parking stalls, to bring the facility into compliance.

- **Energy Efficiency**
  - The inside face of the exterior concrete walls are not insulated, and new work will trigger the requirement for new R-11 insulation.
  - Insulation was observed at the underside of the roof deck, however the R-value is unknown. Unless the project modifies the roof deck construction, the existing insulation can remain, as it exists.
  - Glazing at exterior windows is single pane. Modifications to the exterior windows will trigger the requirement for double pane windows; otherwise the existing windows can remain in operation, unless a voluntary replacement is desired.

2.0 Structural Assessment

The following is an assessment of the Structural elements of the building and components at 2150 Commerce Drive.

- **Building Structural System and Components**
  - This assessment is based on visual observations and a review of available documentation. Structural calculations have not been performed to affirm the adequacy of the items observed.
  - Items noted as not having anchorage, or anchorage not visible, are of concern and should be adequately assessed by a detailed structural assessment to include anchorage details. Items noted as having anchorage should be assessed to determine if the anchorage is structurally adequate.
  - Structural drawings for the facility were not available for review, but the observed structural elements for this facility are typical of one-story, tilt-up structures built during the 1970s and 1980s. Unless upgraded to meet the building codes after 2000, they typically exhibit poor performance during earthquakes. Typical failures occur in the roof diaphragm and exterior wall connections. The building structure should have a detailed structural assessment.
  - Not all structural elements were visible during the assessment, i.e. footings, structural elements hidden by walls and ceilings, and some equipment anchorage.
  - The building is a 1-story tilt-up structure with precast exterior walls and a panelized wood framed roof system.
  - The lateral load resisting system for the structure is the plywood roof diaphragm, exterior precast shear walls, and shear wall footings.
  - The east side of the building has columns supporting overhanging precast wall panels. The wall element may have insufficient lateral seismic bracing. The entrance foyer has a glass skylight outside the building which appears to be connected to the shear walls. The connections need to be assessed.
  - The vertical load carrying system for the roof consists of glulam beams supporting 4x purlins with 2x joists at 24" on center. Roof sheathing is plywood. Interior columns are 6" and 8" Steel Tubes. The building roof diaphragm is connected to the shear wall with tie rods and connector plates.
  - Exterior foundation system for this type of structure is typically a continuous spread footing. Interior columns are typically supported by spread footings. Floor slab is slab on grade.

- **Observable Cracks In Concrete**

  Most of the exterior shear walls appear to be in good condition, but there is minor cracking. These are typical of shear walls and usually are not a structural issue. There are vertical cracks that exist at some of the joints of the concrete tilt-up panels. These

are apparently in the joint sealant, and not the concrete wall. Therefore, they may not be a seismic issue.

- **Roof Mounted Crane**
  A roof mounted Crane above the rear loading dock is anchored by straps to a potion of the shear wall that protrudes above the roof diaphragm. There is no evidence of through bolts.

- **Air Tank Enclosure**
  At the rear of the building a wooden fence encloses a large Air Tank. The Air Tank has 4 - ¾ " Dia. Anchor Bolts. Six other small tanks are connected to pressure regulators against the wall of the building. There is no apparent anchorage for these six (6) tanks.

- **Warehouse Storage Racks**
  Storage racks are anchored by bolts at the base into the concrete slab. Racks have vertical transverse bracing, but not longitudinal bracing. Products stored on the rack are not restrained.

- **Roof Mounted HVAC Equipment**
  The roof-mounted HVAC units are connected to skids by sheet metal angle clips and machine screws. The method of attaching the skids the roof framing and plywood was not visible.

- **Interior Electrical Room**
  Fifteen (15) electrical conduits are supported on a unistrut channel beam. The extent of conduit was not visible because of a partition wall.

- **Recommendations**
  Perform a detailed structural seismic assessment of the building structure and all equipment with recommended upgrades for all equipment noted to verify adequate anchorage.

  This includes:
  - Roof-mounted HVAC Units
  - Roof Mounted Crane
  - Electrical Room Conduit
  - Air Tanks and other Tanks
  - Warehouse Storage Racks
  - Building Seismic Assessment

3.0 Mechanical Assessment

The following is an assessment of the mechanical equipment and systems within the 2150 Commerce Drive property.

- **HVAC**
  The building HVAC is comprised of 18 air-cooled gas pack air conditioners and 5 mushroom type exhaust fans. All equipment appeared to be built in 2000-2001, is in good operating condition, and well maintained.

- **Fire Protection**
  The building is protected by a wet-pipe sprinkler system. Riser size is 6" with 165°F. sprinkler heads. The last 5-year riser inspection was conducted in Nov. 2008. The building utilizes a Fire-Lite Alarms, Inc. MS-9200 addressable fire control panel.

- **Domestic Cold/Hot Water**
  The building is served by a 2" Neptune T-10 water meter (#60329664). The domestic cold water system delivers water to rest rooms, break rooms, and the de-ionized water system. There are two hot water heaters that serve lavatories, break rooms, and a shower. One is 20-gallon electric water heater and the other is a 50-gallon electric water heater.

- **Natural Gas System**
  The building is served by a 4" Elster American Gas meter (PG&E # 36894748). This meter is capable of delivering 2,300 CFH of natural gas at ½" differential pressure. The natural gas system serves only HVAC needs.

- **Sanitary Sewer System**
  The building sanitary sewer system receives wastewater from the restrooms, break rooms, and a shower. There were no drawings available to confirm the size of the system. However, based on engineering judgment and the number of sanitary fixtures, it is expected that the building is served by a 4" sanitary waste system.

- **De-ionized Water System**
  A US Filter de-ionized water system provides de-ionized water to process equipment. The system capacity could not be determined but judging by the size of the loop pump it is estimated to be able to deliver 10 gpm. Water quality is unknown.

- **Compressed Air System**
  The compressed air system is comprised of a LeRoi rotary screw compressor (445 CFM @ 125 psi), an air filter, a 350 gallon air receiver, a coalescing filter a Kaeser refrigerated air dryer and a Zander oil and condensate collection system. This system

delivers compressed air through a 2" discharge pipe to process users only. The system is approximately 9 years old and looks in good condition.

- **Vacuum System**
  A single Busch vacuum pump rated at 41 CFM at 15 torr (-1/3 psi) pulls a vacuum on a single process tool. Parts were lying on the side so the condition of this pump is questionable.

4.0 Electrical Assessment

The following is an assessment of the electrical equipment and systems within the 2150 Commerce Drive property.

- **Normal Power**

  The following equipment is located in the utility yard at the northwest corner of the building:

  - PG&E service and metering compartment
  - PG&E load interrupter switch – 600A, 20.8 kV, 3 phase, 3 wire
  - Oil-filled pad mount transformer – Rating not available
  - Secondary bus duct – Rating not available
  - Main switchboard – 4000A, 480Y/277V, 3 phase, 4 wire

  The main switchboard was installed when the building was constructed (estimated around 1980). Power is distributed from the main switchboard to various distribution transformers and panelboards located throughout the building and on the roof. It appears that the building interior was upgraded in 2001 and the majority of the electrical distribution equipment located within the building is dated 2001 or later and is in excellent condition.

- **Emergency Power**

  Building emergency loads are provided with back-up power via an existing Cummins Onan generator rated 250 kW, 480Y/277V, 3 phase, 4 wire. The automatic transfer switch and emergency panel are both rated 100A, limiting the capacity of the emergency distribution system. Emergency power is provided to exit and emergency lights, the server room air conditioning unit, and the server room UPS outlet.

- **Uninterruptible Power**

  There is no centralized UPS. A small point-of-use UPS is located in the server room and plugs into an emergency power outlet.

- **Interior Lighting**

  Interior lighting fixtures appear to be in excellent condition and consist of the following:

  - 2' x 4', 3-lamp recessed parabolic fixtures in the office areas
  - High pressure sodium low bay industrial fixtures in the production area and the warehouse
  - Compact fluorescent downlights, wall sconces and architectural pendants in the lobby
  - Illuminated exit signs located along the egress route

There is an existing Lithonia Lighting control system that provides automatic shut-off for interior lighting. This system is currently not working and building personnel reported that replacement parts were on order.

- **Exterior Lighting**
  Exterior lighting consists of pole mounted shoebox-type fixtures in the parking lot and 4' long fluorescent wall sconces mounted on the building.

- **Voice/Data**
  Existing telephone service is provided via 4" underground conduit and cable to the Telephone room, which is located on the south side of the building adjacent to the Sprinkler Room. The room is equipped with a plywood backboard with voice equipment mounted to it. Existing data equipment is located in the Server Room, which is located on the west side of the building adjacent to the Break Room.

- **Fire Alarm**
  The fire alarm system consists of a Fire-Lite Alarms Inc. MS-9200 addressable fire alarm control panel located at the northwest corner of the building. There is also a Fire-Lite Alarms Inc. annunciator panel located in the lobby at the northeast corner of the building. There appeared to be adequate manual pull stations and horn/strobe devices.

- **Security**
  The security system consists of interior CCTV cameras mounted at building entrances and card readers at select doors. There were no exterior CCTV cameras observed.

- **Special Systems**
  The existing occupants utilize an ADP Handpunch 4000 biometric reader for their payroll processing.

APPRAISAL REPORT

R&D BUILDING

2150 Commerce Drive
San Jose, California

Palo Alto, CA 94301

Re: 2150 Commerce Drive, San Jose, California;
APN: 244-15-003

Dear Mr. Mays:

At your request, we have appraised the existing R&D building located at 2150 Commerce Drive in San Jose, California. The site is identified as Santa Clara County Assessor's Parcel Number 244-15-003. The property is improved with a single-story, concrete tilt-up R&D building constructed in 1983 and completely renovated in 2000. The building contains 61,940 square feet and is located on a 3.78-acre site. The building is currently 100 percent leased to a single-tenant. The tenant, Dynamic Details, Inc., moved in and started paying rent on August 1, 2001.

The purpose of the appraisal is to estimate the market value of the subject property. The scope of the appraisal includes the value of the property in its "as is" condition as of our inspection date. The property rights appraised are those of the leased fee interest (i.e., all of the legal property rights of ownership subject to the existing lease). The property is appraised free and clear of liens and encumbrances, such as mortgages and/or assessments outstanding.

The development of this appraisal is that of a complete appraisal in accordance with Uniform Standards of Professional Practice (USPAP), Standard Rule 1. The report format is that of a "self-contained" appraisal as outlined in USPAP Standards Rule 2-2(a).

SUMMARY OF SALIENT FACTS

Property Type:	R&D Building
Property Location:	2150 Commerce Drive San Jose, California 95131
APN:	244-15-003
Thomas Brothers Map:	55-A1
Census Tract:	5043.10
Zoning:	"I" – Industrial
General Plan:	Industrial Park
Land Area:	3.78 acres, or approximately 164,656 square feet.
Existing Improvements:	The existing improvements consist of a one-story, Class "C", R&D building. The building was built in 1983 with approximately $1,000,000 spent in building renovations in 2000/2001. Renovation consisted of removing the wafer fab production area and bringing it to a "warm" shell condition, removal of the tank farm to the rear of the building, re-roofing the building, painting the building exterior, resurfacing and re-striping the parking lot, improving the entryway, etc. Since the renovations, approximately $40.00 per square foot has been spent on tenant improvements.
Improvement Area:	61,940 gross and rentable square feet.
Floor Area Ratio:	37.6%
On-site Parking:	223 stalls, or 3.6 per 1,000 s.f., of building area.
Occupancy Status:	100% leased (August 1, 2001)
Flood Zone:	Flood Zone "D," areas of undetermined, but possible flood hazard.
Earthquake Issues:	Not within an Alquist-Priolo Special Study Zone.

SUMMARY OF SALIENT FACTS
(Continued)

Environmental Issues:	None identified.
Property Rights Appraised:	Leased Fee
Effective Valuation Date:	April 8, 2002

Value Conclusions

"As Is" as of April 8, 2002:	**$12,090,000**
Estimated Exposure Period:	8 Months

COMPETENCY STATEMENT

We have appraised many R&D buildings in the Bay Area during the past five years. Because of our experience in the area and with the subject property type, we believe we are competent to perform this appraisal.

PROPERTY IDENTIFICATION

The subject property is located on the south side of Commerce Drive, just east of the point where it becomes Qume Drive and turns north.

The property is further identified by Santa Clara County Assessor's Parcel Number 244-15-003. The mailing address of the property is 2150 Commerce Drive, San Jose, California 95131.

OWNERSHIP AND SALES HISTORY

Title to the subject property is currently vested in:

Manuel Del Arroz

Manuel Del Arroz acquired title to the property on July 7, 2000, from General Bank. The property was purchased for $8,200,000, or $132.39.

This was an REO sale. The property was not listed on the open market and the bank was extremely motivated to sell the property. Further, the property was vacant at the time of sale. As a result, the purchase price was below market levels.

After the purchase of the subject property, the buyer spent approximately $1 million in building renovations in 2000 and 2001. After renovations, the buyer then leased the entire building to a single-tenant on April 2, 2001. Part of the lease agreement was for the landlord to install a tenant improvement allowance of $25.00 per square foot. In addition to the landlord-provided tenant improvements, the tenant spent an additional $15.00 per square foot for their specific build-out requirements. Overall, the tenant improvements in the building totaled $40.00 per square foot.

Recently, a purchase agreement was signed on February 12, 2002, between Manual Del Arroz (Seller) and Andy Lewis (Buyer). The purchase price for the property is $12,000,000. We believe the purchase price is well within the market range and between two knowledgeable buyers and sellers. The close of escrow shall occur on or before April 12, 2002.

APPENDIX A	SITE PHOTOGRAPHS
APPENDIX B	VISTA DATABASE REPORT

EXECUTIVE SUMMARY

E_2C, Inc. (E_2C) has completed a Phase I Environmental Site Assessment (ESA) of the property at 2150 Commerce Drive in San Jose, California (referred to hereinafter as the Site). This Site assessment was prepared for Manuel & Juanita Del Arroz and/or their agents in June of 2000.

This assessment included the visual survey of the Site, "curb-side" inspection of immediately adjacent properties, review of historical documentation, review of local agency files specific to the Site, and a review of regulatory databases that identify nearby sites of potential environmental concern. The purpose of this assessment was to evaluate the Site for real and potential environmental impairments, or risks of impairments, that may represent existing or potential financial and legal liabilities to Manuel & Juanita Del Arroz and/or their agents.

Historical Review

Review of available building department records, city directories, and historical aerial photographs revealed that the Site was originally developed prior to 1954 as farmland, and remained in agricultural use until 1982 when it was converted to light industrial use. The Site building was originally constructed in 1982 for Exel Microelectronics, Inc., continuously occupied by Exel until this year. Currently the Site consists of one vacant single-level building and surrounding parking lots. Since at least 1995, ROHM Corporation co-occupied the building space with Exel, and since at least 1999, Magepower Semiconductor Corporation became a third co-occupant.

Current Conditions

At the time of the site visit, the Site consisted of a 3.78-acre developed parcel of land occupied by a single-level industrial building and associated asphalt paved parking areas. The building was vacant and all chemical storage tanks were empty. No obvious environmental hazards were observed.

The following conditions were assessed during our inspection and did not appear to be of significant environmental concern based on either their absence or non-applicability to the Site:

- hazardous materials/waste storage, use, and/or disposal
- radon gas
- existing aboveground or underground storage tanks
- wetlands
- solid waste
- Polychlorinated Biphenyls
- wells

Off-Site Sources of Environmental Concern

E_2C contracted with VISTA Information Solutions, Inc. (VISTA) of San Diego, California for the preparation of a computerized geographical database search to identify agency-listed sites of potential environmental concern located within a one-mile radius of the Site. Based on the available data, E_2C concludes that the subject Site has likely not been environmentally impacted by any of the agency-listed sites.

Conclusions and Recommendations

Based on the data obtained during the preparation of this ESA, it is our professional opinion that the potential for the subject Site to have been adversely impacted by past or present on-site activities or by the migration of contamination from listed off-site sources is not likely.

As a result of the on-site reconnaissance, records research, historical investigation, and review of Federal, State, and local reported environmental information, this assessment has revealed no obvious evidence of recognized environmental conditions that could potentially impact the subject Property. No further investigation is recommended at this time.

1.0 PURPOSE AND SCOPE

This report presents the results, conclusions, and recommendations from the Phase I Environmental Site Assessment (ESA) for the property located on 2150 Commerce Drive in the City of San Jose, California (hereinafter referred to as the "Site").

1.1 Purpose

The purpose of this investigation was to conduct an environmental assessment that would address real and potential environmental impairments, or risks of impairments, that may represent existing or potential financial and legal liabilities to Manuel & Juanita Del Arroz and/or their agents.

1.2 Scope of Services

The Scope of Services for the performance of this Phase I ESA included the following tasks:

- Research and review of available geologic and hydrogeologic information concerning the vicinity of the Site.
- Review of available historical documentation of the property to determine what activities have occurred at the Site and immediately adjacent sites since the Site's first developed use or since 1940 (whichever is earlier).
- General survey of current uses of immediately adjacent properties.
- Inspection of the Site to determine current on-Site activities and past uses.
- Review of available local regulatory files concerning chemical use and storage at the Site.
- Acquisition of a computerized review of federal publications to identify National Priority List (NPL) sites. Resource Conservation and Recovery Act (RCRA) corrective action sites; United States Environmental Protection Agency (EPA), Region 9, Comprehensive Environmental Response, Compensation, and Liability Information System (CERCLIS) sites. RCRA Treatment, Storage and Disposal (TSD) facilities; and Emergency Response Notification System (ERNS) sites located within close proximity to the subject site as well as landfills, Leaking Underground Storage Tanks (LUST) sites and registered underground storage tank (UST) sites.
- Review of reports concerning on-going investigations at nearby agency-listed sites.
- Preparation of this report in general accordance with the document entitled *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessments Process* (The American Society for Testing and Materials [ASTM], E 1527-97).

1.3 Limitations

The conclusions of this report are based solely on the Scope of Services outlined above, and on the sources of information referenced in this report. Any additional information that becomes available concerning this Site should be submitted to E_2C, Inc. so that our conclusions may be reviewed and modified, if necessary. No soil, groundwater, or building material samples were collected or analyzed as part of this study.

The accompanying report presents a description of the work performed by E_2C, Inc. and was prepared using guidelines presented in the document entitled, *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process (The American Society for Testing and Materials [ASTM], E1527-97).* It should be noted that this report has been prepared to generally accepted industry standards and may need to be modified to meet specific lender requirements.

2.0 SITE LOCATION AND DESCRIPTION

The Site consisted of a 3.7-acre parcel of land, occupied by a single-level, vacant industrial building, located at 2150 Commerce Drive in the City of San Jose, California. The Site was legally described as Assessor's Parcel Number 244-15-003. A Topographic Map (Figure 1) and Site Vicinity Map (Figure 2) are provided in the *Figures* section of this report.

Review of the United States Geologic Survey (USGS) Milpitas Quadrangle, California, 7.5-Minute Series Topographic Map indicates that the Site and general vicinity lie at an elevation of approximately 65 feet above mean sea level with a slight topographic gradient downward in a northwesterly direction (USGS, 1961, photo-revised 1980).

The Site is located in the northern side of San Jose, east of Interstate 880. The area is developed primarily with commercial, manufacturing, light industrial, and residential properties.

3.0 SITE CONDITIONS

3.1 Regional Geology

The Site is located in the Santa Clara Valley, a northwest-southeast trending structural basin bound on the southwest by the San Andreas Fault Zone and the Santa Cruz Coastal Mountains, and on the northeast by the Hayward Fault, Calaveras Fault, and the Diablo Range. During the Cenozoic Era (the last 65 million years), the region has been subject to complex tectonic evolution as the ancestral California continental margin underwent transition from a convergent to a transform plate margin (Atwater, 1970). The Bay Area continues to experience forces associated with the continental margin and the San Andreas Fault System. Crustal blocks that now form the San Francisco Bay Area were broken and uplifted to form highland areas. Sand, clay, and gravel were eroded from these upland areas and deposited on alluvial fans or beneath the sea in the subsided structural basins. The positions of these basins and uplands shifted from time to time, and basins of sediment accumulation were uplifted (Helley & Lajoie, 1979).

3.2 Soil Conditions

Surface soils found in the Site area are classified as Sorento clay loam. Soils of the Sorento series occur on well-drained, very gently sloping alluvial fans where recent deposits have been left by creeks headed mainly in sandstone and shale formations. The surface soil of the Sorento clay loam is typically a brown or pale-brown, friable, noncalcareous clay loam to depths of 8 to 15 inches. When moist, the surface soil is dark brown or graysih-brown. If the soil is worked too moist, however, it puddles and, on drying, develops firm hard clots that are difficult to break into smaller aggregates. The upper subsoil is a clay loam of slightly basic reaction. At depths of 36 to 50 inches it grades into a friable, moderately permeable, pale-brown lower subsoil that is slightly or moderately calcareous and generally of clay loam or silty clay loam texture. Lime is disseminated throughout the lower subsoil and also segregated along small tubular pores or root holes. In general the soil is only very slightly stratified and is relatively uniform to depths of six or more feet (USDA Soil Conservation Service/Natural Resources Conservation Service, 1958).

3.3 Hydrogeologic Conditions

The Site lies within the Santa Clara Groundwater area. Groundwater generally exists in the permeable sand and gravel alluvial fans deposited by west-flowing streams descending from the mountains of the Diablo Range. Specific groundwater information was not available for the Site. Based on topography of the Site, groundwater is estimated to flow in a northwesterly direction towards the San Francisco Bay.

4.0 LAND USE HISTORY

A review of readily available, standard historical sources (as defined in ASTM E 1527-97) was performed to assist in establishing any significant past uses of the Site and immediately adjacent properties. The review attempted (to the extent of readily available sources) to encompass the years since the first obvious developed use of the Site, or since 1940, whichever is earlier. The following subsections present a summary of E_2C's findings and the results of our review of each source.

4.1 Review of Aerial Photographs

Historical aerial photographs were reviewed to help evaluate past land uses on the Site and surrounding properties. In addition, the photographs were reviewed for evidence of hazardous materials and features that may have impacted the Site and general vicinity. These features included, but were not limited to, landfills, ponds, pits, staining or distressed vegetation, aboveground storage tanks, lagoons, exterior storage of hazardous materials, and general land use practices.

Aerial photographs taken in 1954, 1963, 1971, 1974, 1982, 1988, and 1994 were reviewed. Close examination of these photographs revealed no obvious signs of environmental impairment to the Site or adjacent properties. The altitude at which the photographs were taken, however, may prevent the clear identification of all Site features. Aerial photographs taken before 1954 and after 1994 were not reasonably obtainable.

Summary of Aerial Photograph Review

Year	Site Use	Site and Adjacent Property Observation
1954	Agricultural	The Site and all adjoining properties appear to be agricultural use properties. The Site itself appears developed with an orchard. There are no structures visible on the Site.
1963	Agricultural	The Site and all adjoining properties appear similar to the 1954 aerial photograph.
1971	Agricultural	The Site appears to be an orchard, as it did in the previous photographs. The surrounding area also looks similar to the previous photographs, except more residences are visible in the nearby areas.
1974	Agricultural	The Site appears as it did in 1971. The neighboring properties are also the same, but more factory/industrial buildings appear in the nearby area.
1982	Under Construction	Commerce, Qume, and McKay Roads have been constructed and appear as they did at the time of the site visit. The Site itself appears to be under construction. The "shell" of the building has been constructed. The corresponding parking lot does not appear paved. The neighboring properties to the west are developed and appear as they did at the time of the site visit. All other neighboring properties are undeveloped.
1988	Industrial	The subject Site and all surrounding properties appear completely developed with parking lots and landscaping. Several large storage tanks are visible on the southeast side of the building.
1994	Industrial	The subject Site and all adjoining properties appear similar to the 1988 aerial photograph.

4.2 Building Permits

E_2C, Inc., contacted the City of San Jose Building Department to review Site permits. Information on file for the Site included the original 1982 construction permit. Permits on file also included several installation and repair permits. Those that may be of environmental concern included permits to

- Install a chemical storage vault in 1983
- Add to and alter the interior of the gas bunker, sand-blast, and clean room in 1987
- Alter the interior of the ion implanter room and semiconductor room in 1988

4.3 City Directories

City Directories have been published for major cities and towns across the United States since the 19th century. City Directories published in the 20th century also included a street index for each street address during a given year. City Directories are a valuable source of historical information with regard to site tenancy and use. Directories for rural areas were not often published.

Reasonably obtainable City Directories, dated 1975 through 2000, were reviewed at the San Jose City Library for the subject Site under the address of 2150 Commerce Drive, San Jose, California. A summary of City Directory information is presented in the table below.

Summary of City Directory Review

YEAR	OWNER/OCCUPANT
1975	No Address
1981	No Address
1985	Exel Microelectronics
1989	Exel Microelectronics
1990-1991	Exel Microelectronics
1995-1996	Exel Microelectronics and ROHM Corporation
1999-2000	Exel Microelectronics, ROHM Corp., and Magepower Semiconductor Corp.

4.4 Historic Fire Insurance Maps

Maps produced by the Sanborn Fire Insurance Company for major cities and towns depict structures, building materials, uses, USTs, gas lines, etc. These maps were typically produced at the turn of the century and were often updated into the 1950s. These maps are valuable sources of information in determining prior usage, provided the Site's location is within city limits as they were defined in the early to mid-1900s. During the historical research portion of this report, no historical maps for the Site area were reviewed, because the area was not developed until the 1970s.

4.5 Previous Investigations

E_2C, Inc. completed a shallow soil sampling investigation for the Site at 2150 Commerce Drive, in May of 2000 for R&S Technology. Seven shallow soil samples were collected and analyzed to determine the pH, fluoride and VOC content. These samples were taken because staining was observed in and around the troughs that held pipes containing potentially hazardous chemicals. The results revealed no evidence that the Site had been impacted by the release of acids or VOCs.

5.0 SITE SURVEY

Mr. Forrest Cook of E_2C, Inc. conducted a Site inspection on June 12, 2000. Site Photographs, taken on that date, are presented in *Appendix A*.

In general, the Site included a 3.78-acre developed parcel of land. Site improvements included a single-level, now vacant industrial building, associated asphalt-paved parking areas, and landscaped areas. The building occupied 61,940 square feet, and was located in the middle of the parcel, surrounded on the east and west sides by the parking lot. The entire inside of the building had been gutted and was vacant at the time of the Site visit. Historically the Site was used as a semiconductor manufacturer. A chemical storage area that included an acid neutralization area, HF treatment area, cooling tower, and deionized water unit was located outside, and adjacent to the south side of the building. At the time of the Site visit, all of the chemical storage tanks were empty and visually clean.

R&S Technology was contracted to complete the facility closure, which included the removal of all hazardous chemicals and materials from the Site. Mr. Rudy Gonzales of R&S, during a phone conversation on June 20, 2000, informed E_2C that the closure was complete and the results of the post cleanup soil and wipe sampling analysis revealed no evidence that the

Site has been environmentally impacted. The post closure report will be submitted to the San Jose City Fire Department in the near future

The following observations were also made during the Site inspection:

- No evidence of existing USTs was observed on the Site or on the accessible areas of the immediately adjoining sites during the Site inspection.
- The vegetation on the Site showed no obvious signs of abnormal biological stress, a common indicator of subsurface contamination.
- Surface runoff on the Site is expected to flow into storm water drains located on the Site, or on Commerce Drive.
- No pits, ponds, or lagoons were observed on the Site.
- No indications of air quality distortion (e.g., discernible odors) were observed at the Site.
- No suspect pools of liquid were observed on the Site.

5.1 Underground/Aboveground Storage Tanks (USTs/ASTs)

No visual or physical evidence of other existing underground storage tanks USTs was observed during the on-site investigation. Physical evidence searched for included fill pipes, vent pipes, areas of abnormal or nearby staining, manways, manholes, access covers, concrete pads not homogeneous with surrounding surfaces, concrete built-up areas potentially indicating pump islands, abandoned pumping equipment, or gasoline pumps. Several ASTs were observed on the Site. However, all were empty and visually clean and none indicated any signs of leakage or other signs of environmental concern.

5.2 Hazardous Materials

At the time of the site inspection, a vacant industrial building occupied the Site. During E_2C, Inc.'s Site inspection no chemicals were found on Site. Historically, many chemicals were stored on Site for use in the semiconductor manufacturing process, including but not limited to

- liquid oxygen
- liquid hydrogen
- hydrofluoric acid
- liquid nitrogen
- hydrochloric acid
- phosphine

5.3 Asbestos-Containing Building Materials (ACBMs)

Based on the date of construction of the structure on the subject Property (circa 1982), it is possible, but unlikely, that asbestos-containing building materials (ACBMs) were utilized in construction. Prior to any demolition, renovation, or any other activity that may disturb these materials, either an AHERA Accredited Building Inspector should perform an inspection, or the materials should be handled as asbestos-containing.

5.4 Polychlorinated Biphenyls (PCBs)

Underground utility/transformer vaults were observed on the sidewalks adjoining the Site, and pad mounted transformers were observed on the Site. No evidence of past or present leakage was observed. The vaults are owned and maintained by P.G. & E. According to John Wharton of P.G. & E., a statewide transformer program was completed in the late 1970s and early 1980s by which approximately 95% of PCB containing transformers units were converted to non-PCB containing units. If the property owner requests, P.G. & E. will sample the units for a nominal fee. If the units are found to be PCB containing, the fee will be reimbursed. The units should be inspected periodically for leakage, and if leakage is observed, P.G. & E. should be contacted and notified.

Incandescent and fluorescent light fixtures were observed in the structure on the Site. Based on the age of the structure on the subject Property (circa 1981), it is possible the ballasts inside the light fixtures contain polychlorinated biphenyls (PCBs). If the ballasts are found to be leaking, require replacement, or are subject to disposal, it would be prudent to identify their chemical content. Any fixtures with ballasts not labeled as being non-PCB containing could contain PCBs.

5.5 Herbicides/Pesticides

No current usage of pesticides, including herbicides, was observed during the Site inspection.

The use of DDT and certain other toxic chemicals was banned in 1972. However, the Site was used historically for agricultural purposes prior to development, which may have involved the use of pesticides, including herbicides. Any residual pesticides, including herbicides, or similar chemicals that may have been present in the soils surface horizon of the Site, are likely to have been significantly reduced, or eliminated, during grading operations for Site development. E_2C believes that the potential residual chemicals related to the past agricultural use do not represent an environmental concern to the Site.

5.6 Radon

Radon is a radioactive gas that is found in certain geologic environments and is formed by the natural breakdown of radium, a common element in the earth's crust. Local conditions, however, do not warrant a radon survey was as part of this investigation. The U.S. Environmental Protection Agency (EPA) conducts radon surveys in designated geographic areas. According to the EPA radon survey that covers Santa Clara County, the radon zone level for the county is 2 and radon concentrations within this geographical region are predicted to have an average indoor radon screening potential between 2 pico Curies per

Liter (pCi/L) and 4 pCi/L. The EPA has set the safety standard for radon gas in homes to be 4 pCi/L. This level is below the EPA action level of 4.0 pCi/l. Therefore, based upon the reported subsurface characteristics of the area, the Site exhibits a low potential for radon contamination.

5.7 Railroad Rights-of-Way

There are several potential environmental risks associated with railroad right-of-ways, including the usage of pesticides, including herbicides, to maintain the tracks and the potential spillage of hazardous materials.

No railroad rights-of-way, spurs, or track-related equipment were observed on or immediately adjoining the Site at the time of the site inspection. Therefore, based on observations during the site visit, it is unlikely the Site has been environmentally impacted by railway uses.

5.8 Survey of Adjacent Properties

E_2C, Inc., performed a limited visual inspection of immediately adjacent properties to evaluate their potential environmental significance to the Site. The properties immediately surrounding the Site included the following:

- Immediately north and northeast, across Commerce Drive, were the offices of BAL. No ASTs or USTs were observed on the properties.
- Adjoining the Site to the east, at 2102 Commerce Drive, were the television studios of KICU. No ASTs or USTs were observed on this site.
- Adjoining the Site to the northwest, at 2222 Qume Drive, were the offices of Celestica, an electronic manufacturing services company. No ASTs or USTs were observed on this site.

No evidence of potential environmental concern to the Site was observed on these immediately adjacent properties.

5.9 Environmental Liens

The Site was not included on the Federal Superfund Liens list.

6.0 RECORDS REVIEW

To further evaluate potential sources of contamination originating from on and/or off-site sources, a review of published agency documents, agency files, and other pertinent documents were performed. Generally, information regarding potential off-site sources is obtained from federal and state agency listings, while local agencies offer more site-specific information.

6.1 Federal and State Records Sources

E_2C, Inc., contracted with VISTA Information Solutions, Inc. (VISTA), for the performance of a computerized geographical database search to identify agency-listed sites of potential environmental significance located within a one-mile radius of the Site. The VISTA database identifies sites that fall under the following categories:

NPL:	National Priority List
CORRACTS:	EPA Corrective action facilities
SPL:	State-equivelant Priority List (SPL) Annual Work Plan sites (formerly Bond Expenditure Plan [BEP])
SCL:	State-equivelant CERCLIS List Cal-EPA Sites (formerly Abandoned Sites Program Information Sys.)
CERCLIS:	EPA State Superfund Sites
TSD:	RCRA permitted treatment, storage, and disposal facilities
LUST:	Sites with Leaking Underground Storage Tanks
SWLF:	Permitted solid waste landfills, incinerators, or transfer stations
DEED RSTR:	Deed restriction sites
CORTESE:	Hazardous Waste Substance Sites
TOXIC Pits:	Toxic pits cleanup facilities
Water Wells:	Ground Water Site Inventory List
RCRA Viol:	RCRA Violations/enforcement actions
TRIS:	Toxic Release Inventory System
UST/AST:	Registered Underground or Aboveground Storage Tank Sites
ERNS:	Emergency Response Notification System Sites
RCRA GEN:	Small and large quantity generators of hazardous waste

The Vista report is presented in *Appendix B.*

6.2 Contamination Migration

Fuel Leak Attenuation

In fuel leak cases, research conducted at the Lawrence Livermore National Laboratory (LLNL) indicates that attenuation and degradation play major roles in reducing hydrocarbon contamination in groundwater to non-detectable levels within several hundred feet of the contaminant source. Moreover, this research indicates that in over 90% of the petroleum hydrocarbon contamination cases, groundwater contaminant plumes do not extend more than 250-feet from the source; however, the mobility of a gasoline additive called Methyl Tertiary Butyl Ether (MTBE) is currently being researched. Preliminary findings indicate that MTBE is highly soluble in water and moves easily through soil particles and into groundwater where it may spread over a distance greater than 250 feet. MTBE will transfer to groundwater from gasoline leaking from USTs, pipelines, car emissions into the atmosphere, and other components of gasoline vapor distribution. MTBE has been an additive to gasoline since approximately 1985.

Microbial Degradation of Hydrocarbons

As part of LLNL's recommendations for remediation of fuel-leak sites, they encouraged the use of passive bioremediation (biological degradation), a process wherein naturally occurring, ubiquitous, subsurface microbes ultimately metabolize hydrocarbons into benign products such as carbon dioxide and water. Passive bioremediation is increasingly becoming acknowledged as a method for remediation of low impact and low risk level fuel-leak sites.

Toxic-Leak Attenuation

In the case of toxic substances in the groundwater, namely the more mobile Volatile Organic Compounds (VOCs), detectable levels may extend several thousand feet from the source. In most VOC groundwater plume cases, however, attenuation will act to reduce the contamination to non-detectable levels within one-half mile of the source.

Groundwater Flow

Although there are sites within a one-mile radius of the subject Site where chemical use and/or chemical spill incidents have been documented an impact to the subject Site from identified chemical- or petroleum-release sites is possible only if the released substances migrate via groundwater. Therefore, only those release sites located up-gradient to the Site in terms of regional groundwater flow represent a potential environmental threat to the subject Site. Conversely, chemical release sites located down-gradient of the subject Site are considered not to have a potential for impacting the subject Site. Release sites located cross-gradient are, in general, considered to have no potential to impact the subject Site, unless they are located in very close proximity to the subject Site. In which case, a limited degree of lateral migration may result in an impact to the subject Site.

As discussed in Subsection 3.3, site-specific groundwater information was not available. Based on the topographic gradient, however, groundwater is expected to flow in a northwesterly direction toward the San Francisco Bay. Specific groundwater data was not on file with the Santa Clara County Water District. Site-specific groundwater flow can be determined only through the installation of at least three on-Site wells.

6.3 Off-Site Sources of Environmental Concern

Review of Databases searched to one mile:

National Priority List (NPL) of Superfund Sites

The NPL is the EPA's database of uncontrolled or abandoned hazardous waste sites identified for priority remedial actions under the Superfund program. A site must meet or surpass a predetermined hazard ranking system score, be chosen as a state's top priority site, or meet three specific criteria set jointly by the US Department of Health and Human Services and the US EPA in order to become an NPL site.

- A search of the January 2000 NPL list identified no sites within the database search range of the subject Site.

RCRA Corrective Action (CORRACTS) Sites

The EPA maintains this database of RCRA facilities, which are undergoing "corrective action." A "corrective action order" is issued pursuant to RCRA Section 3008 (h) when there has been a release of hazardous waste or constituents into the environment from a RCRA facility. Corrective actions may be required beyond the facility's boundary and can be required regardless of when the release occurred, even if it pre-dates RCRA.

- A search of the December 1999 CORRACTS list identified no sites within the database search range of the subject Site.

State-equivalent Priority List (SPL)

The State database contains information on properties (or "sites") in California where hazardous substances have been released, or where the potential for such a release exists. This database is used primarily by the Department of Toxic Substances Control to evaluate and track activities at sites that may have been affected by the release of hazardous substances. Also see SPL/CL: Annual Work Plan (AWP) sites are classified as SPL and all the other sites are classified as SCL.

- A search of the October 1999 SPL list identified no sites within the database search range of the subject Site.

Review of Databases searched to one-half mile:

State Equivalent Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) List (SCL)

The State database includes both known and potential sites. Two-thirds of these sites have been classified, based on available information, as needing "No Further Action" (NFA) by the Department of Toxic Substances Control. The remaining sites are in various stages of review and remediation to determine if a problem exists at the site. Several hundred sites have been reemitted and are considered certified. Some of these sites may be in long operation and maintenance.

- A search of the October 1999 SCL list identified three sites within the database search range of the subject Site. None of these sites is identified as the subject Site or adjoining properties. Based on the location, distance from the subject Site, and/or inferred groundwater flow direction, it is unlikely these listed sites have environmentally impacted the subject Site.

Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) List/No Further Remedial Action Planned (NFRAP)

The CERCLIS List contains sites, which are either proposed to be or are on the NPL and sites, which are in the screening and assessment phase for possible inclusion on the NPL.

The information on each site includes a history of all pre-remedial, remedial, removal and community relation's activities or events at the site, financial funding information for the events and unrestricted enforcement activities or events at the site. NFRAP sites may be sites where, following initial investigation, no contamination was found, contamination was removed quickly, or the contamination was not serious enough to require Federal Superfund action or NPL consideration.

- A search of the October 1999 CERCLIS list identified two sites within the database search range of the subject Site. Based on the location, distance from the subject Site, and/or inferred groundwater flow direction, it is unlikely these listed sites have environmentally impacted the subject Site.

Resource Conservation and Recovery Act (RCRA) Treatment, Storage and Disposal (TSD) Facilities:

The EPA's RCRA Program identifies and tracks hazardous waste from the point of generation to the point of disposal. The RCRA-TSD facilities database is a compilation by the EPA of facilities that report generation, storage, transportation, treatment, or disposal of hazardous waste. Identification on this list does not indicate that a site has impacted the environment.

- A search of the December 1999 RCRA-TSD facilities database identified no RCRA-TSD sites within the database search range of the subject Property.

Leaking Underground Storage Tanks (LUST)

The RWQCB maintains a list of LUST sites.

A search of the January 2000 LUST list identified four sites within the database search range of the subject Site. None of these sites is identified as the subject Site or adjoining properties. Based on the location, distance from the subject Site, and/or inferred groundwater flow direction, it is unlikely the remaining listed sites have environmentally impacted the subject Site.

Solid Waste Facilities and Landfills (SWLF)

The State Solid Waste Information System database consists of both open as well as closed and inactive solid waste disposal facilities and transfer stations pursuant to the Solid Waste Management and Resource recovery Act of 1972, Government Code Section 2.66790(b). Generally, the State integrated Waste Management Board learns of locations of disposal facilities through permit applications and from local enforcement agencies.

- A search of the November 1999 SWLF database identified no sites within the database search range of the subject Site.

Deed Restrictions

The Department of Health Services-Land Use and Air Assessment provides this database. These are voluntary deed restriction agreements with owners of property who propose

building residences, schools, hospitals, or day care centers on property that is "on or within 2,000 feet of a significant disposal of hazardous waste."

California has statutory and administrative procedure under which the California Department of Health Services (DHS) may designate real property as either a "Hazardous Waste Property" or a "Border Zone Property" pursuant to California Health and Safety Code Sections 25220-25241. Hazardous Waste Property is land at which hazardous waste has been depositing, creating a significant existing or potential hazard to public health and safety. A Border Zone Property is one within 2,000 feet of a hazardous waste deposit. Property within either category is restricted in use, unless a written variance is obtained from DHS. Hazardous Waste Property designation results in a prohibition of new use, other than a modification or expansion of an industrial or manufacturing facility on land previously owned by the facility prior to January 1, 1981. A Border Zone Property designation results in prohibition of a variety of uses involving human habitation, hospitals, schools, and day care center.

- A search of the April 1994 Deed Restrictions database identified no sites within the database search range of the subject Site.

South Bay Toxic List (South Bay)

This South Bay Site Management System database is provided by the California Regional Water Quality Control Board-San Francisco Bay Region.

- A search of the April 1994 South Bay list identified one site within the database search range of the subject Site. Based on the location, distance from the subject Site, and/or inferred groundwater flow direction, it is unlikely the remaining listed site has environmentally impacted the subject Site.

Cortese Database

The California Governor's Office of Planning and Research annually publishes a listing of potential and confirmed hazardous waste sites throughout the State of California under Government Code Section 65962.5. This database is based on input from the following: (1) CALSITES-Department of Toxic Substances Control, Abandoned Sites Program Information Systems; (2) SARA Title III Toxic Chemicals Inventory for 1987, 1988, 1989, and 1990; (3) FINDS (Facility Index System Database); (4) HWIS – Department of Toxic Substances Control, Hazardous Waste Information System. Vista does not include one-time generator facilities from Cortese in the database; (5) SWRCB-State Water Resources Control Board; (6) SWIS-Integrated Waste Management Control Board (solid waste facilities); (7) AGT25-Air Resources Board, dischargers of greater than 25 tons/year of criteria pollutants to the air; (8) A1025-Air Resources board, dischargers of greater than 10 and less than 25 tons/year of criteria pollutants to the air; (9) LTANK-SWRCB Leaking Underground Storage Tanks; (10) UTANK-SWRCB Underground Storage Tanks reported to the SWEEPS systems; (11) IUP-Inventory Update Rule (Chemical Manufacturers); (12) WB-LF-Waste Board –Leaking Facility, site has known migration; (13) WDSE-Waste Discharge System – Enforcement Action; (14) DTSCD-Department of Toxic Substance Control Docket.

- A search of the April 1998 Cortese list identified one site within the database search range of the subject Site. Based on the location, distance from the subject Site, and/or inferred groundwater flow direction, it is unlikely the remaining listed site has environmentally impacted the subject Site.

Toxic Pits Cleanup Facilities (Toxic Pits)

The Water Quality Control Board, Division of Loans and Grants provide this data.

- A search of the February 1995 Toxic Pits database identified no sites within the database search range of the subject Site.

Water Wells

The Ground Water Site Inventory (GWSI) database was provided by USGS. The database contains information for over 1,000,000 wells nationwide and other sources of groundwater which the USGS has studied, used, or otherwise had reasons to document through the course of research.

- A search of the March 1998 GWSI database identified no sites within the database search range of the subject Site

Review of Databases searched to one-quarter mile

Resource Conservation and Recovery Act – Violations/Enforcement Actions (RCRA-Viol)

The EPA's RCRA Program identifies and tracks hazardous waste from the point of generation to the point of disposal. The RCRA Facilities database is a compilation by the EPA of facilities, which report generation, storage, transportation, treatment, or disposal of hazardous waste. RCRA Violators are facilities that have been cited for RCRA violations at least once since 1980. RCRA Enforcements are enforcement actions taken against RCRA Violators.

- A search of the December 1999 RCRA-Viol list identified one site within the database search range of the subject Site. Based on the location, distance from the subject Site, and/or inferred groundwater flow direction, it is unlikely the remaining listed site has environmentally impacted the subject Site.

Toxic Release Inventory System (TRIS)

Section 313 of the Emergency Planning and Community Right-to-Know Act (also known as SARA Title III) of 1986 requires the EPA to establish and inventory of Toxic Chemicals emissions from certain facilities (Toxic Release Inventory System). Facilities subject to this reporting are required to complete a Toxic Chemical Release Form (Form R) for specific chemicals.

- A search of the January 1998 TRIS list identified one site within the database search range of the subject Site. This site was identified as the subject Site. The TRIS report indicated that a "Not Reported" quantity of sulfuric acid was released.

No date or actions were specified for this release. John Bracket, of Wayne Macia and the key site representative for the Site, had no knowledge of this incident. Furthermore, no files were on record with the San Jose City Fire Department or Santa Clara County Water District regarding this spill.

Underground Storage Tanks/ Aboveground Storage Tanks (USTs/ASTs)

USTs are regulated under Subtitle I of the RCRA and must be registered with the California Water Resources Control Board's Underground Storage Tank Program. These are registered USTs only and identification on this list does not indicate that the site has impacted the environment. While the existence of USTs on nearby properties should be of some concern, it should be noted that the appearance of a site on this list does not necessarily indicate a leaking tank. Leaking tanks which have been reported to the California Regional Water Quality Control Board appear on the Leaking Underground Storage Tank (LUST) list described above.

- A search of the December 1998 /December 1999 UST/AST databases identified one site within the search range of the subject Site. Based on the location, distance from the subject Site, and/or inferred groundwater flow direction, it is unlikely the remaining listed site has environmentally impacted the subject Site.

Review of Database searched to one-eighth mile:

Emergency Response Notification System (ERNS)

The ERNS database is a national database containing records from October 1986 to the release date above and is used to collect information for reported releases of oil and hazardous substances. The database contains information from spill reports made to federal authorities including the EPA, the US Coast Guard, the National Response Center, and the Department of Transportation.

- A search of the August 1999 ERNS list identified no sites within the database search range of the subject Site

Resource Conservation and Recovery Act – Generators (GNRTR)

The EPA's RCRA Program identifies and tracks hazardous waste from the point of generation to the point of disposal. The RCRA Facilities database is a compilation by the EPA of facilities that report generation, storage, transportation, treatment, or disposal of hazardous waste. RCRA Large generators are facilities that generate at least 1,000 kg/month of nonacutely hazardous waste (or 1 kg/month of acutely hazardous waste). RCRA Small and Very Small generators are facilities that generate less than 1,000 kg/month of nonacutely hazardous waste. Identification on this list does not indicate that a site has impacted the environment.

- A search of the December 1999 GNRTR list identified six sites within the database search range of the subject Site. One of these sites is identified as the subject Site and two are identified as adjoining sites. All three of these generators produce 100

kg/month but less than 1000 kg/month of non-acutley hazardous waste. It should be noted that identification on this list does not indicate that a site has impacted the environment.

Unmapped Federal and State Sites

Unmapped sites are a compilation of properties with insufficient address information such that they can be identified only as being within the same zip code, city, or county as the subject Property. Unmapped sites cannot be accurately identified within the radius search parameters requested.

- None of the sites listed in the VISTA database as unmapped is near the subject Site.

6.4 Oil and Gas Fields

According to the California Department of Conservation, Division of Oil and Gas Map, W3-10 (Regional Wildcat Map), there are no oil or gas well fields located within a one-mile radius of the Site.

6.5 Summary of Records Review

During the review of standard environmental records, E_2C, Inc. used the following information sources:

- California Regional Water Quality Control Board – San Francisco Bay Region
- Bay Area Air Quality Management District
- Santa Clara County Water District
- Santa Clara County Department of Environmental Health
- City of San Jose Fire Department
- City of San Jose Building Department
- City of San Jose Library

Synopses of records reviewed for the Site at the following agencies are presented below:

California Regional Water Quality Control Board – San Francisco Bay Region (RWQCB-SFB)

E_2C, Inc., contacted the RWQCB-SFB for additional information regarding LUSTs and hazardous materials spills or any recognized environmental conditions or groundwater issues affecting the subject Site address. There were no files for the Site address.

Bay Area Air Quality Management District (BAAQMD)

E_2C, Inc., contacted the BAAQMD regarding records for the Site. There were no files for the Site address

Santa Clara County Water District (SCCWD)

E_2C, Inc., contacted the SCCWD for additional information regarding LUSTs and hazardous materials spills or any recognized environmental conditions or groundwater issues affecting the subject Site address. There were no files for the Site address.

Santa Clara County Department of Environmental Health (SCCDEH)

E_2C, Inc., contacted the SCCDEH regarding records for the Site relating to hazardous materials storage/use and USTs. There were no files for the Site address.

City of San Jose Fire Department (SJFD)

E_2C, Inc., contacted the SJFD regarding records for the Site relating to hazardous materials storage/use and USTs. There were several files on record including:

- Two hazardous materials inspection records dated September 1999 and April 1999. Neither indicated any misuse or improper storage of chemicals or other items of environmental concern.
- Several different Hazardous Materials Management Plans (HMMPs) were on file from several different years.
- A hazardous materials permit fee was on file.

No other items on file with the San Jose Fire Department indicated any items of environmental concern.

City of San Jose Building Department (SJBD)

E_2C, Inc. contacted the SJBD regarding permits issued for the Site address. No permits were found that would indicate the installation or operation of an UST. Other items on file that may be of environmental concern included permits to

- Install a chemical storage vault in 1983
- Add to and alter the interior of the gas bunker, sand-blast, and clean room in 1987
- Alter the interior of the ion implanter room and semiconductor room in 1988

See Subsection 4.2 for further discussion.

City of San Jose Library (SJL)

The SJL was visited to review City Directories for the subject Site address. See Subsection 4.3 for further discussion of City Directory information.

7.0 CONCLUSIONS AND RECOMMENDATIONS

E_2C, Inc. has conducted a Phase I ESA of the property identified as 2150 Commerce Drive in the City of San Jose, California, in accordance with the document entitled *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessments Process* (The

American Society for Testing and Materials [ASTM], E 1527-97). Any exceptions to, or deletions from, this practice are described in Subsection 1.3 of this report.

Based on the data obtained during the preparation of our ESA, it is our professional opinion that the potential for the subject Site to have been adversely impacted by past or present on-site activities or by the migration of contamination from listed off-site sources is not likely.

Based on the date of construction of the structure on the subject Property (circa 1982), it is possible, but unlikely, that asbestos-containing building materials (ACBMs) were utilized in construction. Prior to any demolition, renovation, or any other activity that may disturb these materials, either an AHERA Accredited Building Inspector should perform an inspection, or the materials should be handled as asbestos-containing. Similarly, Incandescent and fluorescent light fixtures were observed in the structure on the Site, it is possible the ballasts inside the light fixtures contain polychlorinated biphenyls (PCBs). If the ballasts are found to be leaking, require replacement, or are subject for disposal, it would be prudent to identify their chemical content.

As a result of the on-site reconnaissance, records research, historical investigation, and review of Federal, State, and local reported environmental information, this assessment has revealed no obvious evidence of recognized environmental conditions that could potentially impact the subject Property. No further investigation is recommended at this time.

8.0 SIGNATURES OF ENVIRONMENTAL PROFESSIONALS

The conclusions of this report are based solely on the Scope of Services outlined and the referenced sources of information. Any additional information that becomes available concerning this report should be submitted to E_2C, Inc. so that our conclusions may be reviewed and modified, if necessary. No soil, groundwater, or building material samples were collected or analyzed as part of this investigation. This report was prepared in June of 2000 for the sole use of Manuel & Juanita Del Arroz and/or their agents.

SITE ASSESSMENT PLUS REPORT

DESCRIPTION OF DATABASES SEARCHED

A) DATABASES SEARCHED TO 1 MILE

NPL
SRC#: 19

VISTA conducts a database search to identify all sites within 1 mile of your property.
The agency release date for National Priorities List was January, 2000.

The NPL Report is the US EPA's registry of the nation's worst uncontrolled or abandoned hazardous waste sites. NPL sites are targeted for possible long-term remedial action under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980.

SPL
SRC#: 113

VISTA conducts a database search to identify all sites within 1 mile of your property.
The agency release date for CalSites Database was October, 1999.

This database is provided by the Cal. Environmental Protection Agency, Dept. of Toxic Substances Control. The agency may be contacted at: 916-323-3400.

CORRACTS
SRC#: 14

VISTA conducts a database search to identify all sites within 1 mile of your property.
The agency release date for RCRIS Corrective Action Sites was December, 1999.

The CORRACTS database contains information concerning RCRA facilities that have conducted, or are currently conducting a corrective action. A Corrective Action Order is issued pursuant to RCRA Section 3008 (h) when there has been a release of hazardous waste or constituents into the environment from a RCRA facility. Corrective actions may also be imposed as a requirement of receiving and maintaining a TSDF permit.

RCRIS-TSDC
SRC#: 556

VISTA conducts a database search to identify all sites within 1 mile of your property.
The agency release date for RCRIS TSDs Subject to Corrective Action was December, 1999.

The EPA's Resource Conservation and Recovery Act (RCRA) Program identifies and tracks hazardous waste from the point of generation to the point of disposal. The RCRA Facilities database is a compilation by the EPA of facilities which report generation, storage, transportation, treatment or disposal of hazardous waste. RCRA TSDCs are treatment, storage and/or disposal facilities that are subject to corrective action under RCRA.

B) DATABASES SEARCHED TO 1/2 MILE

CERCLIS
SRC#: 17

VISTA conducts a database search to identify all sites within 1/2 mile of your property.
The agency release date for Comprehensive Environmental Response, Compensation and Liability Information Sys was January, 2000.

The CERCLIS database is a comprehensive listing of known or suspected uncontrolled or abandoned hazardous waste sites. These sites have either been investigated, or are currently under investigation by the U.S. EPA for the release, or threatened release of hazardous substances. Once a site is placed in CERCLIS, it may be subjected to several levels of review and evaluation, and ultimately placed on the National Priorities List (NPL).

NFRAP
SRC#: 18

VISTA conducts a database search to identify all sites within 1/2 mile of your property.
The agency release date for No Further Remedial Action Planned was December, 1999.

The No Further Remedial Action Planned Report (NFRAP), also known as the CERCLIS Archive, contains information pertaining to sites which have been removed from the U.S. EPA's CERCLIS database. NFRAP sites may be sites where, following an initial investigation, either no contamination was found, contamination was removed quickly without need for the site to be placed on the NPL, or the contamination was not serious enough to require federal Superfund action or NPL consideration.

SCL
SRC#: 112

VISTA conducts a database search to identify all sites within 1/2 mile of your property.
The agency release date for CalSites Database was October, 1999.

This database is provided by the Department of Toxic Substances Control. Two- thirds of these sites have been classified, based on available information, as needing "No Further Action" (NFA) by the Department of Toxic Substances Control. The remaining sites are in various stages of review and remediation to determine if a problem exists at the site. Several hundred sites have been remediated and are considered certified. Some of these sites may be in long term operation and maintenance.

The CalSites database includes both known and potential sites. Two- thirds of these sites have been classified, based on available information, as needing "No Further Action" (NFA) by the Department of Toxic Substances Control. The remaining sites are in various stages of review and remediation to determine if a problem exists at the site. Several hundred sites have been remediated and are considered certified. Some of these sites may be in long term operation and maintenance.

RCRIS-TSD
SRC#: 12

VISTA conducts a database search to identify all sites within 1/2 mile of your property.
The agency release date for RCRIS Treatment, Storage and Disposal Facilities was December, 1999.

The EPA's Resource Conservation and Recovery Act (RCRA) Program identifies and tracks hazardous waste from the point of generation to the point of disposal. The RCRA Facilities database is a compilation by the EPA of facilities which report generation, storage, transportation, treatment or disposal of hazardous waste. RCRA TSDs are facilities which treat, store and/or dispose of hazardous waste.

SWLF
SRC#: 163

VISTA conducts a database search to identify all sites within 1/2 mile of your property. **The agency release date for Solid Waste Inventory System was November, 1999.**

This database is provided by the Integrated Waste Management Board. The agency may be contacted at: 916-255-4021.

The California Solid Waste Information System (SWIS) database consists of both open as well as closed and inactive solid waste disposal facilities and transfer stations pursuant to the Solid Waste Management and Resource Recovery Act of 1972, Government Code Section 2.66790(b). Generally, the California Integrated Waste Management Board learns of locations of disposal facilities through permit applications and from local enforcement agencies.

SWLF-CO
SRC#: 70

VISTA conducts a database search to identify all sites within 1/2 mile of your property. **The agency release date for City of Los Angeles Landfills Transfer Stations was April, 1999.**

This database is provided by the City of Los Angeles, Environmental Affais Department. The agency may be contacted at: 213-580-1070.

WMUDS
SRC#: 68

VISTA conducts a database search to identify all sites within 1/2 mile of your property. **The agency release date for Waste Management Unit Data System was February, 1999.**

This database is provided by the State Water Resources Control Board. The agency may be contacted at: 916-892-0323. This is used for program tracking and inventory of waste management units. This system contains information from: Facility, Waste Management Unit, SWAT Program and Report Summary Information, Chapter 15 (formerly Subchapter 15), TPCA and RCRA Program Information, Closure Information; also some information from the WDS (Waste Discharge System).

The WMUDS system also accesses information from the following databases from the Waste Discharger System (WDS): Inspections, Violations, and Enforcements. The sites contained in these databases are subject to the California Code of Regulations - Title 23. Waters.

LUST
SRC#: 164

VISTA conducts a database search to identify all sites within 1/2 mile of your property. **The agency release date for Leaking Underground Storage Tank Information System was January, 2000.**

This database is provided by the California Environmental Protection Agency. The agency may be contacted at: 916-445-6532.

LUST-REG
SRC#: 74

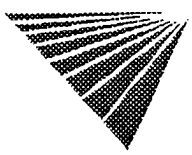
VISTA conducts a database search to identify all sites within 1/2 mile of your property. **The agency release date for Region 3 Leaking Underground Storage Tanks was June, 1999.**

This database is provided by the Regional Water Quality Control Board, Region #3. The agency may be contacted at: 805-542-4695.

LUST-REG
SRC#: 108

VISTA conducts a database search to identify all sites within 1/2 mile of your property. **The agency release date for Region 6 Leaking Underground Storage Tanks was August, 1999.**

This database is provided by the Lahontan Region Six South Lake Tahoe. The agency may be contacted at: 530-542-5400.



LUST-REG
SRC#: 853

VISTA conducts a database search to identify all sites within 1/2 mile of your property.
The agency release date for Region 2 Fuel Leak List was January, 2000.

This database is provided by the Regional Water Quality Control Board, Region #2. The agency may be contacted at: 510-286-1269.

CORTESE
SRC#: 53

VISTA conducts a database search to identify all sites within 1/2 mile of your property.
The agency release date for Cortese List - Hazardous Waste Substance Site List was April, 1998.

This database is provided by the Office of Environmental Protection, Office of Hazardous Materials. The agency may be contacted at: 916-445-6532. The California Governor's Office of Planning and Research annually publishes a listing of potential and confirmed hazardous waste sites throughout the State of California under Government Code Section 65962.5. This database (CORTESE) is based on input from the following: (1)CALSITES-Department of Toxic Substances Control, Abandoned Sites Program Information Systems; (2)SARA Title III Section III Toxic Chemicals Release Inventory for 1987, 1988, 198

The California Governor's Office of Planning and Research annually publishes a listing of potential and confirmed hazardous waste sites throughout the State of California under Government Code Section 65962.5. This database (CORTESE) is based on input from the following: (1)CALSITES-Department of Toxic Substances Control, Abandoned Sites Program Information Systems; (2)SARA Title III Section III Toxic Chemicals Release Inventory for 1987, 1988, 1989, and 1990; (3)FINDS; (4)HWIS-Department of Toxic Substances Control, Hazardous Waste Information System. Vista has not included one time generator facilities from Cortese in our database.; (5)SWRCB-State Water Resources Control Board; (6)SWIS-Integrated Waste Management Control Board (solid waste facilities); (7)AGT25-Air Resources Board, dischargers of greater than 25 tons of criteria pollutants to the air; (8)A1025-Air Resources Board, dischargers of greater than 10 and less than 25 tons of criteria pollutants to the air; (9)LTANK-SWRCB Leaking Underground Storage Tanks; (10)UTANK-SWRCB Underground tanks reported to the SWEEPS systems; (11)IUR-Inventory Update Rule (Chemical Manufacturers); (12)WB-LF- Waste Board - Leaking Facility, site has known migration; (13)WDSE-Waste Discharge System - Enforcement Action; (14)DTSCD-Department of Toxic Substance Control Docket.

BORDER-ZON
SRC#: 46

VISTA conducts a database search to identify all sites within 1/2 mile of your property.
The agency release date for Deed Restriction Properties Report was April, 1994.

The Deeds Restrictions list, also known as the Border Zone Property List, contains information concerning voluntary deed restriction. These agreements are made with owners of property who propose building residences, schools, hospitals, or day care centers on property that is on or within 2,000 feet of potentially hazardous waste site.

California has a statutory and administrative procedure under which the California Department of Health Services (DHS) may designate real property as either a "Hazardous Waste Property" or a "Border Zone Property" pursuant to California Health Safety Code Sections 25220-25241. Hazardous Waste Property is land at which hazardous waste has been deposited, creating a significant existing or potential hazard to public health and safety. A Border Zone Property is one within 2,000 feet of a hazardous waste deposit. Property within either category is restricted in use, unless a written variance is obtained from DHS. A Hazardous Waste Property designation results in a prohibition of new uses, other than a modification or expansion of an industrial or manufacturing facility on land previously owned by the facility prior to January 1, 1981. A Border Zone Property designation results in prohibition of a variety of uses involving human habitation, hospitals, schools and day care center.

TOXICPITS
SRC#: 49

VISTA conducts a database search to identify all sites within 1/2 mile of your property.
The agency release date for Toxic Pits was February, 1995.

This database is provided by the Water Quality Control Board, Division of Loans Grants. The agency may be contacted at: 916-227-4396.

SOUTHBAY
SRC#: 48

VISTA conducts a database search to identify all sites within 1/2 mile of your property.
The agency release date for South Bay was April, 1994.

This database is provided by the San Francisco Bay Region.

USGS-WELLS
SRC#: 3

VISTA conducts a database search to identify all sites within 1/2 mile of your property.
The agency release date for USGS Water Wells was March, 1998.

The Ground Water Site Inventory (GWSI) database was provided by the United States Geological Survey (USGS). The database contains information for over 1,000,000 wells and other sources of groundwater which the USGS has studied, used or documented during research.

C) DATABASES SEARCHED TO 1/4 MILE

RCRIS-VIOL
SRC#: 11

VISTA conducts a database search to identify all sites within 1/4 mile of your property.
The agency release date for RCRIS Facilities with Violations was December, 1999.

The EPA's Resource Conservation and Recovery Act (RCRA) Program identifies and tracks hazardous waste from the point of generation to the point of disposal. The RCRA Facilities database is a compilation by the EPA of facilities which report generation, storage, transportation, treatment or disposal of hazardous waste. The RCRIS Other report contains information concerning facilities that are "unclassified" within the RCRIS database (not classified as a Large Quantity Generator, Transporter, etc.).

UST
SRC#: 45

VISTA conducts a database search to identify all sites within 1/4 mile of your property. **The agency release date for Underground Storage Tanks was January, 1994.**

This database is provided by the State Water Resources Control Board, Office of Underground Storage Tanks. The agency may be contacted at: 916-227-4364. Be advised that some states do not require registration of heating oil tanks, especially those used for residential purposes.

UST-MV
SRC#: 58

VISTA conducts a database search to identify all sites within 1/4 mile of your property. **The agency release date for City of Mountain View Underground Storage Tanks was December, 1998.**

This database is provided by the Mountain View Fire Department. The agency may be contacted at: 650-903-6378. Be advised: Many states do not require registration of heating oil tanks, especially those used for residential purposes.

UST_SUNN
SRC#: 71

VISTA conducts a database search to identify all sites within 1/4 mile of your property. **The agency release date for City of Sunnyvale Underground Storage Tanks was January, 1999.**

This database is provided by the City of Sunnyvale Department of Public Safety. The agency may be contacted at: 408-730-7212. Be advised: Many states do not require registration of heating oil tanks, especially those used for residential purposes.

UST-SJ
SRC#: 78

VISTA conducts a database search to identify all sites within 1/4 mile of your property. **The agency release date for City of San Jose Underground Storage Tanks was April, 1999.**

This database is provided by the City of San Jose Fire Department. The agency may be contacted at: 408-277-4659. Be advised: Many states do not require registration of heating oil tanks, especially those used for residential purposes.

UST-PALO
SRC#: 93

VISTA conducts a database search to identify all sites within 1/4 mile of your property. **The agency release date for City of Palo Alto Underground Storage Tanks was January, 2000.**

This database is provided by the City of Palo Alto Fire Department. The agency may be contacted at: 650-329-2184. Be advised: Many states do not require registration of heating oil tanks, especially those used for residential purposes.

UST-CO-SCL
SRC#: 95

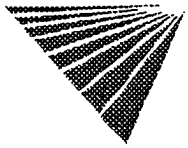
VISTA conducts a database search to identify all sites within 1/4 mile of your property. **The agency release date for Santa Clara County Underground Storage Tanks was July, 1999.**

This database is provided by the Santa Clara County Fire Department. The agency may be contacted at: 408-378-4010. Be advised: Many states do not require registration of heating oil tanks, especially those used for residential purposes.

UST-MILP
SRC#: 150

VISTA conducts a database search to identify all sites within 1/4 mile of your property. **The agency release date for City of Milpitas Underground Storage Tanks was October, 1999.**

This database is provided by the City of Milpitas Fire Department. The agency may be contacted at: 408-942-3265. Be advised: Many states do not require registration of heating oil tanks, especially those used for residential purposes.



UST-SC
SRC#: 154

VISTA conducts a database search to identify all sites within 1/4 mile of your property. **The agency release date for City of Santa Clara Underground Storage Tanks was November, 1999.**

This database is provided by the City of Santa Clara, Fire Department. The agency may be contacted at: 408-984-4109. Be advised: Many states do not require registration of heating oil tanks, especially those used for residential purposes.

AST
SRC#: 60

VISTA conducts a database search to identify all sites within 1/4 mile of your property. **The agency release date for Aboveground Storage Tanks was December, 1999.**

This database is provided by the State Water Resources Control Board. The agency may be contacted at: 916-227-4364.

TRIS
SRC#: 2

VISTA conducts a database search to identify all sites within 1/4 mile of your property. **The agency release date for Toxic Release Inventory System was January, 1998.**

All facilities that manufacture, process, or import toxic chemicals in quantities in excess of 25,000 pounds per year are required to register with the EPA under Section 313 of the Superfund Amendments and Reauthorization Act (SARA Title III) of 1986. Data contained in the TRIS system covers approximately 20,000 sites and 75,000 chemical releases.

D) DATABASES SEARCHED TO 1/8 MILE

ERNS
SRC#: 8

VISTA conducts a database search to identify all sites within 1/8 mile of your property. **The agency release date for Emergency Response Notification System was August, 1999.**

ERNS is a national computer database system that is used to store information on the sudden and/or accidental release of hazardous substances, including petroleum, into the environment. The ERNS reporting system contains preliminary information on specific releases, including the spill location, the substance released, and the responsible party.

RCRA-LQG
SRC#: 16

VISTA conducts a database search to identify all sites within 1/8 mile of your property. **The agency release date for RCRIS Large Quantity Generators was December, 1999.**

The EPA's Resource Conservation and Recovery Act (RCRA) Program identifies and tracks hazardous waste from the point of generation to the point of disposal. The RCRA Facilities database is a compilation by the EPA of facilities which report generation, storage, transportation, treatment or disposal of hazardous waste. RCRA Large Generators are facilities which generate at least 1000 kg./month of non-acutely hazardous waste (or 1 kg./month of acutely hazardous waste).

End of Report

CHICAGO TITLE COMPANY

PRELIMINARY REPORT

In response to the application for a policy of title insurance referenced herein, ***Chicago Title Company*** *hereby reports that it is prepared to issue, or cause to be issued, as of the date hereof, a policy or policies of title insurance describing the land and the estate or interest therein hereinafter set forth, insuring against loss which may be sustained by reason of any defect, lien or encumbrance not shown or referred to as an exception herein or not excluded from coverage pursuant to the printed Schedules, Conditions and Stipulations or Conditions of said policy forms.*

The printed Exceptions and Exclusions from the coverage and Limitations on Covered Risks of said policy or policies are set forth in Attachment One. The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than that set forth in the arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties. Limitations on Covered Risks applicable to the CLTA and ALTA Homeowner's Policies of Title Insurance which establish a Deductible Amount and a Maximum Dollar Limit of Liability for certain coverages are also set forth in Attachment One. Copies of the policy forms should be read. They are available from the office which issued this report.

This report (and any supplements or amendments hereto) is issued solely for the purpose of facilitating the issuance of a policy of title insurance and no liability is assumed hereby. If it is desired that liability be assumed prior to the issuance of a policy of title insurance, a Binder or Commitment should be requested.

The policy(s) of title insurance to be issued hereunder will be policy(s) of Chicago Title Insurance Company, a Nebraska corporation.

Please read the exceptions shown or referred to herein and the exceptions and exclusions set forth in Attachment One of this report carefully. The exceptions and exclusions are meant to provide you with notice of matters which are not covered under the terms of the title insurance policy and should be carefully considered.

It is important to note that this preliminary report is not a written representation as to the condition of title and may not list all liens, defects and encumbrances affecting title to the land.

Amount:	$523.24
Recorded:	November 6, 2009, Instrument No. 20493266, of Official Records

13. **Before issuing its policy of title insurance**, this Company will require for review, the following documents from the Limited Liability Company named below.

Limited Liability Company: 2150 Commerce Drive LLC

(a) A copy of its operating agreement and any and all amendments, supplements and/or modifications thereto, certified by the appropriate manager or member.

(b) Confirmation that its Articles of Organization (LLC-1), and Certificate of Amendment (LLC-2), any restated Articles of Organization (LLC-10) and/or Certificate of Correction (LLC-11) have been filed with the Secretary of State.

(c) If the Limited Liability Company is member-managed a full and complete current list of members certified by the appropriate manager or member.

(d) If the Limited Liability Company was formed in a foreign jurisdiction, evidence satisfactory to the Company, that it was validly formed, is in good standing and authorized to do business in the state of origin.

(e) If the Limited Liability Company was formed in a foreign jurisdiction, evidence satisfactory to the Company, that it has complied with California "doing business" laws, if applicable.

After review of the requested documents, the Company reserves the right to add additional items or make additional requirements prior to the issuance of any policy of title insurance.

14. **Any rights of the parties in possession** of a portion of, or all of, said land, which rights are not disclosed by the public record.

This Company will require, for review, a full and complete copy of any unrecorded agreement, contract, license and/or lease, together with all supplements, assignments and amendments thereto, before issuing any policy of title insurance without excepting this item from coverage. The Company reserves the right to except additional items and/or make additional requirements after reviewing said documents.

15. **Any easements** not disclosed by those public records which impart constructive notice as to matters affecting title to real property and which are not visible and apparent from an inspection of the surface of said land.

16. **Any facts, rights, interests or claims** which a correct survey would disclose and which are not disclosed by the public records.

17. "If an Alta Policy is requested, this Company will require an Inspection prior to the Close of Escrow."

END OF ITEMS

Note 1. There are NO deeds affecting said land, recorded within six (6) months of the date of this report.

Note 2. **The application** for title insurance was placed by reference to only a street address or tax identification number.

Based on our records, we believe that the description in this report covers the parcel requested, however, if the legal description is incorrect a new report must be prepared.

If the legal description is incorrect, in order to prevent delays, the seller/buyer/borrower must provide the Company and/or the settlement agent with the correct legal description intended to be the subject of this transaction.

Note 3. If a 1970 ALTA Owner's or Lender's or 1975 ALTA Leasehold Owner's or Lender's policy form has been requested, the policy, when approved for issuance, will be endorsed to add the following to the Exclusions From Coverage contained therein:

Loan Policy Exclusion:

Any claim, which arises out of the transaction creating the interest of the mortgage insured by this policy, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that is based on:

(i) the transaction creating the interest of the insured mortgagee being deemed a fraudulent conveyance or fraudulent transfer; or

(ii) the subordination of the interest of the insured mortgagee as a result of the application of the doctrine of equitable subordination; or

(iii) the transaction creating the interest of the insured mortgagee being deemed a preferential transfer except where the preferential transfer results from the failure:

(a) to timely record the instrument of transfer; or

(b) of such recordation to impart notice to a purchaser for value or a judgment or lien creditor.

Owners Policy Exclusion:

Any claim, which arises out of the transaction vesting in the insured, the estate or interest insured by this policy, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that is based on:

(i) the transaction creating the estate or interest by this policy being deemed a fraudulent conveyance or fraudulent transfer; or

(ii) the transaction creating the estate or interest insured by this policy being deemed a preferential transfer except where the preferential transfer results from the failure:

(a) to timely record the instrument of transfer; or

(b) of such recordation to impart notice to a purchaser for value or a judgment or lien creditor.

Note 4. If a county recorder, title insurance company, escrow company, real estate broker, real estate agent or association provides a copy of a declaration, governing document or deed to any person, California law requires that the document provided shall include a statement regarding any unlawful restrictions. Said statement is to be in at least 14-point bold face type and may be stamped on the first page of any document provided or included as a cover page attached to the requested document. Should a party to this transaction request a copy of any document reported herein that fits this category, the statement is to be included in the manner described.

Note 5. Wiring instructions for Chicago Title Company, San Jose, CA, are as follows:

Receiving Bank:	Bank of America 275 Valencia Blvd, 2nd Floor Brea, CA 92823-6340
ABA Routing No.:	026009593
Credit Account Name:	Chicago Title Company - San Jose Commercial 675 N. 1st Street, Suite 300, San Jose, CA 95112
Credit Account No.:	12353-81969
Escrow No.:	10-**98205477**-TW

These wiring instructions are for this specific transaction involving the Title Department of the San Jose office of Chicago Title Company. These instructions therefore should not be used in other transactions without first verifying the information with our accounting department. It is imperative that the wire text be exactly as indicated. Any extraneous information may cause unnecessary delays in confirming the receipt of funds.

Note 6. Any documents being executed in conjunction with this transaction must be signed in the presence of an authorized Company employee, an authorized employee of an agent, an authorized employee of the insured lender, or by using Bancserv or other approved third-party service. If the above requirements cannot be met, please call the company at the number provided in this report.

AMERICAN LAND TITLE ASSOCIATION
RESIDENTIAL TITLE INSURANCE POLICY (6-1-87) EXCLUSIONS

In addition to the Exceptions in Schedule B, you are not insured against loss, costs, attorneys' fees, and expenses resulting from:

1. Governmental police power, and the existence or violation of any law or government regulation. This includes building and zoning ordinances and also laws and regulations concerning:
   - land use
   - improvements on the land
   - land division
   - environmental protection

   This exclusion does not apply to violations or the enforcement of these matters which appear in the public records at policy date.
   This exclusion does not limit the zoning coverage described in Items 12 and 13 of Covered Title Risks.
2. The right to take the land by condemning it, unless:
   - a notice of exercising the right appears in the public records on the Policy Date
   - the taking happened prior to the Policy Date and is binding on you if you bought the land without knowledge of the taking
3. Title Risks:
   - that are created, allowed, or agreed to by you
   - that are known to you, but not to us, on the Policy Date- unless they appeared in the public records
   - that result in no loss to you
   - that first affect your title after the Policy Date - this does not limit the labor and material lien coverage in Item 8 of Covered Title Risks
4. Failure to pay value for your title.
5. Lack of a right:
   - to any land outside the area specifically described and referred to in Item 3 of Schedule A
     or
   - in streets, alleys, or waterways that touch your land

   This exclusion does not limit the access coverage in Item 5 of Covered Title Risks.

In addition to the Exclusions, you are not insured against loss, costs, attorneys' fees, and the expenses resulting from:

1. Any rights, interests, or claims of parties in possession of the land not shown by the public records.
2. Any easements or liens not shown by the public records. This does not limit the lien coverage in Item 8 of Covered Title Risks.
3. Any facts about the land which a correct survey would disclose and which are not shown by the public records. This does not limit the forced removal coverage in Item 12 of Covered Title Risks.
4. Any water rights or claims or title to water in or under the land, whether or not shown by the public records.

CALIFORNIA LAND TITLE ASSOCIATION STANDARD COVERAGE POLICY - 1990
EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

1. (a) Any law, ordinance or governmental regulation (including but not limited to building and zoning laws, ordinances, or regulations) restricting, regulating, prohibiting or relating (i) the occupancy, use, or enjoyment of the land; (ii) the character, dimensions or location of any improvement now or hereafter erected on the land; (iii) a separation in ownership or a change in the dimensions or area of the land or any parcel of which the land is or was a part; or (iv) environmental protection, or the effect of any violation of these laws, ordinances or governmental regulations, except to the extent that a notice of the enforcement thereof or a notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
   (b) Any governmental police power not excluded by (a) above, except to the extent that a notice of the exercise thereof or a notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
2. Rights of eminent domain unless notice of the exercise thereof has been recorded in the public records at Date of Policy, but not excluding from coverage any taking which has occurred prior to Date of Policy which would be binding on the rights of a purchaser for value without knowledge.
3. Defects, liens, encumbrances, adverse claims, or other matters:
   (a) whether or not recorded in the public records at Date of Policy, but created, suffered, assumed or agreed to by the insured claimant;
   (b) not known to the Company, not recorded in the public records at Date of Policy, but known to the insured claimant and not disclosed in writing to the Company by the insured claimant prior to the date the insured claimant became an insured under this policy;
   (c) resulting in no loss or damage to the insured claimant;
   (d) attaching or created subsequent to Date of Policy; or
   (e) resulting in loss or damage which would not have been sustained if the insured claimant had paid value for the insured mortgage or for the estate or interest insured by this policy.
4. Unenforceability of the lien of the insured mortgage because of the inability or failure of the insured at Date of Policy, or the inability or failure of any subsequent owner of the indebtedness, to comply with the applicable doing business laws of the state in which the land is situated.
5. Invalidity or unenforceability of the lien of the insured mortgage, or claim thereof, which arises out of the transaction evidenced by the insured mortgage and is based upon usury or any consumer credit protection or truth in lending law.
6. Any claim, which arises out of the transaction vesting in the insured the estate or interest insured by this policy or the transaction creating the interest of the insured lender, by reason of the operation of federal bankruptcy, state insolvency or similar creditors' rights laws.

SCHEDULE B, PART I
EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) which arise by reason of:

PART I

1. Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the public records. Proceedings by a public agency which may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the public records.
2. Any facts, rights, interests or claims which are not shown by the public records but which could be ascertained by an inspection of the land or which may be asserted by persons in possession thereof.
3. Easements, liens or encumbrances, or claims thereof, not shown by the public records.
4. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other facts which a correct survey would disclose, and which are not shown by the public records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the public records.

FORMERLY AMERICAN LAND TITLE ASSOCIATION LOAN POLICY (10-17-92)
WITH A.L.T.A. ENDORSEMENT-FORM 1 COVERAGE
EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

1. (a) Any law, ordinance or governmental regulation (including but not limited to building and zoning laws, ordinances, or regulations) restricting, regulating, prohibiting or relating to (i) the occupancy, use, or enjoyment of the land; (ii) the character, dimensions or location of any improvement now or hereafter erected on the land; (iii) a separation in ownership or a change in the dimensions or area of the land or any parcel of which the land is or was a part; or (iv) environmental protection, or the effect of any violation of these laws, ordinances or governmental regulations, except to the extent that a notice of the enforcement thereof or a notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
   (b) Any governmental police power not excluded by (a) above, except to the extent that a notice of the exercise thereof or a notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
2. Rights of eminent domain unless notice of the exercise thereof has been recorded in the public records at Date of Policy, but not excluding from coverage any taking which has occurred prior to Date of Policy which would be binding on the rights of a purchaser for value without knowledge.
3. Defects, liens, encumbrances, adverse claims, or other matters:
   (a) created, suffered, assumed or agreed to by the insured claimant;
   (b) not known to the Company, not recorded in the public records at Date of Policy, but known to the insured claimant and not disclosed in writing to the Company by the insured claimant prior to the date the insured claimant became an insured under this policy;
   (c) resulting in no loss or damage to the insured claimant;
   (d) attaching or created subsequent to Date of Policy (except to the extent that this policy insures the priority of the lien of the insured mortgage over any statutory lien for services, labor or material or to the extent insurance is afforded herein as to assessments for street improvements under construction or completed at Date of Policy); or
   (e) resulting in loss or damage which would not have been sustained if the insured claimant had paid value for the insured mortgage.
4. Unenforceability of the lien of the insured mortgage because of the inability or failure of the insured at Date of Policy, or the inability or failure of any subsequent owner of the indebtedness, to comply with applicable doing business laws of the state in which the land is situated.
5. Invalidity or unenforceability of the lien of the insured mortgage, or claim thereof, which arises out of the transaction evidenced by the insured mortgage and is based upon usury or any consumer credit protection or truth in lending law.
6. Any statutory lien for services, labor or materials (or the claim of priority of any statutory lien for services, labor or materials over the lien of the insured mortgage) arising from an improvement or work related to the land which is contracted for and commenced subsequent to Date of Policy and is not financed in whole or in part by proceeds of the indebtedness secured by the insured mortgage which at Date of Policy the insured has advanced or is obligated to advance.
7. Any claim, which arises out of the transaction creating the interest of the mortgagee insured by this policy, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that is based on:
   (i) the transaction creating the interest of the insured mortgagee being deemed a fraudulent conveyance or fraudulent transfer; or
   (ii) the subordination of the interest of the insured mortgagee as a result of the application of the doctrine of equitable subordination; or
   (iii) the transaction creating the interest of the insured mortgagee being deemed a preferential transfer except where the preferential transfer results from the failure:
      (a) to timely record the instrument of transfer; or
      (b) of such recordation to impart notice to a purchaser for value or a judgement or lien creditor.

The above policy form may be issued to afford either Standard Coverage or Extended Coverage.
In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) which arise by reason of:

1. Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the public records. Proceedings by a public agency which may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the public records.
2. Any facts, rights, interests or claims which are not shown by the public records but which could be ascertained by an inspection of the land or which may be asserted by persons in possession thereof.
3. Easements, liens or encumbrances, or claims thereof, not shown by the public records.
4. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other facts which a correct survey would disclose, and which are not shown by the public records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b) or (c) are shown by the public records.

ATTACHMENT ONE

2006 AMERICAN LAND TITLE ASSOCIATION LOAN POLICY (06-17-06)
EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (i) the occupancy, use, or enjoyment of the Land;
   (ii) the character, dimensions, or location of any improvement erected on the Land;
   (iii) the subdivision of land; or
   (iv) environmental protection;
   or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
   (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
   (a) created, suffered, assumed, or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss or damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 13, or 14); or
   (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury or any consumer credit protection or truth-in-lending law.
6. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
   (a) a fraudulent conveyance or fraudulent transfer, or
   (b) a preferential transfer for any reason not stated in Covered Risk 13(b) of this policy.
7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the Insured Mortgage in the Public Records. This Exclusion does not modify or limit the coverage provided under Covered Risk 11(b).

The above policy form may be issued to afford either Standard Coverage or Extended Coverage.
In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) that arise by reason of:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.

FORMERLY AMERICAN LAND TITLE ASSOCIATION OWNER'S POLICY (10-17-92)
EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

1. (a) Any law, ordinance or governmental regulation (including but not limited to building and zoning laws, ordinances, or regulations) restricting, regulating, prohibiting or relating to (i) the occupancy, use, or enjoyment of the land; (ii) the character, dimensions or location of any improvement now or hereafter erected on the land; (iii) a separation in ownership or a change in the dimensions or area of the land or any parcel of which the land is or was a part; or (iv) environmental protection, or the effect of any violation of these laws, ordinances or governmental regulations, except to the extent that a notice of the enforcement thereof or a notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
   (b) Any governmental police power not excluded by (a) above, except to the extent that a notice of the exercise thereof or a notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
2. Rights of eminent domain unless notice of the exercise thereof has been recorded in the public records at Date of Policy, but not excluding from coverage any taking which has occurred prior to Date of Policy which would be binding on the rights of a purchaser for value without knowledge.
3. Defects, liens, encumbrances, adverse claims, or other matters:
   (a) created, suffered, assumed or agreed to by the insured claimant;
   (b) not known to the Company, not recorded in the public records at Date of Policy, but known to the insured claimant and not disclosed in writing to the Company by the insured claimant prior to the date the insured claimant became an insured under this policy;
   (c) resulting in no loss or damage to the insured claimant;
   (d) attaching or created subsequent to Date of Policy, or
   (e) resulting in loss or damage which would not have been sustained if the insured claimant had paid value for the estate or interest insured by this policy.
4. Any claim, which arises out of the transaction vesting in the insured the estate or interest insured by this policy, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that is based on:
   (i) the transaction creating the estate or interest insured by this policy being deemed a fraudulent conveyance or fraudulent transfer; or
   (ii) the transaction creating the estate or interest insured by this policy being deemed a preferential transfer except where the preferential transfer results from the failure:
      (a) to timely record the instrument of transfer; or
      (b) of such recordation to impart notice to a purchaser for value or a judgement or lien creditor.

The above policy form may be issued to afford either Standard Coverage or Extended Coverage.
In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) which arise by reason of:

1. Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the public records. Proceedings by a public agency which may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the public records.
2. Any facts, rights, interests or claims which are not shown by the public records but which could be ascertained by an inspection of the land or which may be asserted by persons in possession thereof.
3. Easements, liens or encumbrances, or claims thereof, not shown by the public records.
4. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other facts which a correct survey would disclose, and which are not shown by the public records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b) or (c) are shown by the public records.

2006 AMERICAN LAND TITLE ASSOCIATION OWNER'S POLICY (06-17-06)
EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (i) the occupancy, use, or enjoyment of the Land;
   (ii) the character, dimensions, or location of any improvement erected on the Land;
   (iii) the subdivision of land; or
   (iv) environmental protection;
   or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
   (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters (a) created, suffered, assumed, or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss or damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 9 and 10); or
   (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Title.
4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction vesting the Title as shown in Schedule A, is
   (a) a fraudulent conveyance or fraudulent transfer; or
   (b) a preferential transfer for any reason not stated in Covered Risk 9 of this policy.
5. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

The above policy form may be issued to afford either Standard Coverage or Extended Coverage.
In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) that arise by reason of:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.

CLTA HOMEOWNER'S POLICY OF TITLE INSURANCE (10-22-03)
ALTA HOMEOWNER'S POLICY OF TITLE INSURANCE (10-22-03)
EXCLUSIONS

In addition to the Exceptions in Schedule B, You are not insured against loss, costs, attorneys' fees, and expenses resulting from:

1. Governmental police power, and the existence or violation of any law or government regulation. This includes ordinances, laws and regulations concerning:
   a. building
   b. zoning
   c. Land use
   d. improvements on Land
   e. Land division
   f. environmental protection

This Exclusion does not apply to violations or the enforcement of these matters if notice of the violation or enforcement appears in the Public Records at the Policy Date.
This Exclusion does not limit the coverage described in Covered Risk 14, 15, 16, 17 or 24.

2. The failure of Your existing structures, or any part of them, to be constructed in accordance with applicable building codes. This Exclusion does not apply to violations of building codes if notice of the violation appears in the Public Records at the Policy Date.
3. The right to take the Land by condemning it, unless:
   a. notice of exercising the right appears in the Public Records at the Policy Date; or
   b. the taking happened before the Policy Date and is binding on You if You bought the Land without Knowing of the taking.
4. Risks:
   a. that are created, allowed, or agreed to by You, whether or not they appear in the Public Records;
   b. that are Known to You at the Policy Date, but not to Us, unless they appear in the Public Records at the Policy Date;
   c. that result in no loss to You; or
   d. that first occur after the Policy Date - this does not limit the coverage described in Covered Risk 7, 8.d, 22, 23, 24 or 25.
5. Failure to pay value for Your Title.
6. Lack of a right:
   a. to any Land outside the area specifically described and referred to in paragraph 3 of Schedule A; and
   b. in streets, alleys, or waterways that touch the Land.

This Exclusion does not limit the coverage described in Covered Risk 11 or 18.

LIMITATIONS ON COVERED RISKS

Your insurance for the following Covered Risks is limited on the Owner's Coverage Statement as follows:

- For Covered Risk 14, 15, 16 and 18, Your Deductible Amount and Our Maximum Dollar Limit of Liability shown in Schedule A.

The deductible amounts and maximum dollar limits shown on Schedule A are as follows:

	Your Deductible Amount	Our Maximum Dollar Limit of Liability
Covered Risk 14:	1.00% of Policy Amount or $ 2,500.00 (whichever is less)	$ 10,000.00
Covered Risk 15:	1.00% of Policy Amount or $ 5,000.00 (whichever is less)	$ 25,000.00
Covered Risk 16:	1.00% of Policy Amount or $ 5,000.00 (whichever is less)	$ 25,000.00
Covered Risk 18:	1.00% of Policy Amount or $ 2,500.00 (whichever is less)	$ 5,000.00

CLTA HOMEOWNER'S POLICY OF TITLE INSURANCE (01-01-08)
ALTA HOMEOWNER'S POLICY OF TITLE INSURANCE (01-01-08)
EXCLUSIONS

In addition to the Exceptions in Schedule B, You are not insured against loss, costs, attorneys' fees, and expenses resulting from:

1. Governmental police power, and the existence or violation of those portions of any law or government regulation concerning:
   a. building;
   b. zoning;
   c. land use;
   d. improvements on the Land;
   e. land division; and
   f. environmental protection.

This Exclusion does not limit the coverage described in Covered Risk 8.a., 14, 15, 16, 18, 19, 20, 23 or 27.

2. The failure of Your existing structures, or any part of them, to be constructed in accordance with applicable building codes. This Exclusion does not limit the coverage described in Covered Risk 14 or 15.
3. The right to take the Land by condemning it. This Exclusion does not limit the coverage described in Covered Risk 17.
4. Risks:
   a. that are created, allowed, or agreed to by You, whether or not they are recorded in the Public Records;
   b. that are Known to You at the Policy Date, but not to Us, unless they are recorded in the Public Records at the Policy Date;
   c. that result in no loss to You; or
   d. that first occur after the Policy Date - this does not limit the coverage described in Covered Risk 7, 8.e., 25, 26, 27 or 28.
5. Failure to pay value for Your Title.
6. Lack of a right:
   a. to any land outside the area specifically described and referred to in paragraph 3 of Schedule A; and
   b. in streets, alleys, or waterways that touch the Land.

This Exclusion does not limit the coverage described in Covered Risk 11 or 21.

LIMITATIONS ON COVERED RISKS

Your insurance for the following Covered Risks is limited on the Owner's Coverage Statement as follows:

- For Covered Risk 16, 18, 19 and 21, Your Deductible Amount and Our Maximum Dollar Limit of Liability shown in Schedule A.

The deductible amounts and maximum dollar limits shown on Schedule A are as follows:

	Your Deductible Amount	Our Maximum Dollar Limit of Liability
Covered Risk 16:	1.00% of Policy Amount Shown in Schedule A or $ 2,500.00 (whichever is less)	$ 10,000.00
Covered Risk 18:	1.00% of Policy Amount Shown in Schedule A or $ 5,000.00 (whichever is less)	$ 25,000.00
Covered Risk 19:	1.00% of Policy Amount Shown in Schedule A or $ 5,000.00 (whichever is less)	$ 25,000.00
Covered Risk 21:	1.00% of Policy Amount Shown in Schedule A or $ 2,500.00 (whichever is less)	$ 5,000.00

ALTA EXPANDED COVERAGE RESIDENTIAL LOAN POLICY (10/13/01)
EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

1. (a) Any law, ordinance or governmental regulation (including but not limited to zoning laws, ordinances, or regulations) restricting, regulating, prohibiting or relating to (i) the occupancy, use, or enjoyment of the Land; (ii) the character, dimensions or location of any improvements now or hereafter erected on the Land; (iii) a separation in ownership or a change in the dimensions or areas of the Land or any parcel of which the Land is or was a part; or (iv) environmental protection, or the effect of any violation of these laws, ordinances or governmental regulations, except to the extent that a notice of the enforcement thereof or a notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the Land has been recorded in the Public Records at Date of Policy. This exclusion does not limit the coverage provided under Covered Risks 12, 13, 14, and 16 of this policy.
   (b) Any governmental police power not excluded by (a) above, except to the extent that a notice of the exercise thereof or a notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the Land has been recorded in the Public Records at Date of Policy. This exclusion does not limit the coverage provided under Covered Risks 12, 13, 14, and 16 of this policy.
2. Rights of eminent domain unless notice of the exercise thereof has been recorded in the Public Records at Date of Policy, but not excluding from coverage any taking which has occurred prior to Date of Policy which would be binding on the rights of a purchaser for value without Knowledge.
3. Defects, liens, encumbrances, adverse claims or other matters:
   (a) created, suffered, assumed or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (this paragraph does not limit the coverage provided under Covered Risks 8, 16, 18, 19, 20, 21, 22, 23, 24, 25 and 26); or
   (e) resulting in loss or damage which would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of the Insured at Date of Policy, or the inability or failure of any subsequent owner of the indebtedness, to comply with applicable doing business laws of the state in which the Land is situated.
5. Invalidity or unenforceability of the lien of the Insured Mortgage, or claim thereof, which arises out of the transaction evidenced by the Insured Mortgage and is based upon usury, except as provided in Covered Risk 27, or any consumer credit protection or truth in lending law.
6. Real property taxes or assessments of any governmental authority which become a lien on the Land subsequent to Date of Policy. This exclusion does not limit the coverage provided under Covered Risks 7, 8(e) and 26.
7. Any claim of invalidity, unenforceability or lack of priority of the lien of the Insured Mortgage as to advances or modifications made after the Insured has Knowledge that the vestee shown in Schedule A is no longer the owner of the estate or interest covered by this policy. This exclusion does not limit the coverage provided in Covered Risk 8.
8. Lack of priority of the lien of the Insured Mortgage as to each and every advance made after Date of Policy, and all interest charged thereon, over liens, encumbrances and other matters affecting the title, the existence of which are Known to the Insured at:
   (a) The time of the advance; or
   (b) The time a modification is made to the terms of the Insured Mortgage which changes the rate of interest charged, if the rate of interest is greater as a result of the modification than it would have been before the modification. This exclusion does not limit the coverage provided in Covered Risk 8.
9. The failure of the residential structure, or any portion thereof to have been constructed before, on or after Date of Policy in accordance with applicable building codes. This exclusion does not apply to violations of building codes if notice of the violation appears in the Public Records at Date of Policy.

ALTA EXPANDED COVERAGE RESIDENTIAL LOAN POLICY (01/01/08)
EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (i) the occupancy, use, or enjoyment of the Land;
   (ii) the character, dimensions, or location of any improvement erected on the Land;
   (iii) the subdivision of land; or
   (iv) environmental protection;
   or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.
   (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
   (a) created, suffered, assumed, or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss or damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 16, 17, 18, 19, 20, 21, 22, 23, 24, 27 or 28); or
   (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury, or any consumer credit protection or truth-in-lending law. This Exclusion does not modify or limit the coverage provided in Covered Risk 26.
6. Any claim of invalidity, unenforceability or lack of priority of the lien of the Insured Mortgage as to Advances or modifications made after the Insured has Knowledge that the vestee shown in Schedule A is no longer the owner of the estate or interest covered by this policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11.
7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching subsequent to Date of Policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11(b) or 25.
8. The failure of the residential structure, or any portion of it, to have been constructed before, on or after Date of Policy in accordance with applicable building codes. This Exclusion does not modify or limit the coverage provided in Covered Risk 5 or 6.

Notice

You may be entitled to receive a $20.00 discount on escrow services if you purchased, sold or refinanced residential property in California between May 19, 1995 and November 1, 2002. If you had more than one qualifying transaction, you may be entitled to multiple discounts.

If your previous transaction involved the same property that is the subject of your current transaction, you do not have to do anything; the Company will provide the discount, provided you are paying for escrow or title services in this transaction.

If your previous transaction involved property different from the property that is subject of your current transaction, you must - prior to the close of the current transaction - inform the Company of the earlier transaction, provide the address of the property involved in the previous transaction, and the date or approximate date that the escrow closed to be eligible for the discount.

Unless you inform the Company of the prior transaction on property that is not the subject of this transaction, the Company has no obligation to conduct an investigation to determine if you qualify for a discount. If you provide the Company information concerning a prior transaction, the Company is required to determine if you qualify for a discount which is subject to other terms and conditions.

Effective Date: 5/1/2008

Fidelity National Financial, Inc.
Privacy Statement

Fidelity National Financial, Inc. and its subsidiaries ("FNF") respect the privacy and security of your non-public personal information ("Personal Information") and protecting your Personal Information is one of our top priorities. This Privacy Statement explains FNF's privacy practices, including how we use the Personal Information we receive from you and from other specified sources, and to whom it may be disclosed. FNF follows the privacy practices described in this Privacy Statement and, depending on the business performed, FNF companies may share information as described herein.

Personal Information Collected

We may collect Personal Information about you from the following sources:

- Information we receive from you on applications or other forms, such as your name, address, social security number, tax identification number, asset information, and income information;
- Information we receive from you through our Internet websites, such as your name, address, email address, Internet Protocol address, the website links you used to get to our websites, and your activity while using or reviewing our websites;
- Information about your transactions with or services performed by us, our affiliates, or others, such as information concerning your policy, premiums, payment history, information about your home or other real property, information from lenders and other third parties involved in such transaction, account balances, and credit card information; and
- Information we receive from consumer or other reporting agencies and publicly recorded documents.

Disclosure of Personal Information

We may provide your Personal Information (excluding information we receive from consumer or other credit reporting agencies) to various individuals and companies, as permitted by law, without obtaining your prior authorization. Such laws do not allow consumers to restrict these disclosures. Disclosures may include, without limitation, the following:

- To insurance agents, brokers, representatives, support organizations, or others to provide you with services you have requested, and to enable us to detect or prevent criminal activity, fraud, material misrepresentation, or nondisclosure in connection with an insurance transaction;
- To third-party contractors or service providers for the purpose of determining your eligibility for an insurance benefit or payment and/or providing you with services you have requested;
- To an insurance regulatory authority, or a law enforcement or other governmental authority, in a civil action, in connection with a subpoena or a governmental investigation;
- To companies that perform marketing services on our behalf or to other financial institutions with which we have joint marketing agreements and/or
- To lenders, lien holders, judgment creditors, or other parties claiming an encumbrance or an interest in title whose claim or interest must be determined, settled, paid or released prior to a title or escrow closing.

We may also disclose your Personal Information to others when we believe, in good faith, that such disclosure is reasonably necessary to comply with the law or to protect the safety of our customers, employees, or property and/or to comply with a judicial proceeding, court order or legal process.

Effective Date: 5/1/2008

Disclosure to Affiliated Companies - We are permitted by law to share your name, address and facts about your transaction with other FNF companies, such as insurance companies, agents, and other real estate service providers to provide you with services you have requested, for marketing or product development research, or to market products or services to you. We do not, however, disclose information we collect from consumer or credit reporting agencies with our affiliates or others without your consent, in conformity with applicable law, unless such disclosure is otherwise permitted by law.

Disclosure to Nonaffiliated Third Parties - We do not disclose Personal Information about our customers or former customers to nonaffiliated third parties, except as outlined herein or as otherwise permitted by law.

Confidentiality and Security of Personal Information

We restrict access to Personal Information about you to those employees who need to know that information to provide products or services to you. We maintain physical, electronic, and procedural safeguards that comply with federal regulations to guard Personal Information.

Access To Personal Information/
Requests for Correction, Amendment, or Deletion of Personal Information

As required by applicable law, we will afford you the right to access your Personal Information, under certain circumstances to find out to whom your Personal Information has been disclosed, and request correction or deletion of your Personal Information. However, FNF's current policy is to maintain customers' Personal Information for no less than your state's required record retention requirements for the purpose of handling future coverage claims.

For your protection, all requests made under this section must be in writing and must include your notarized signature to establish your identity. Where permitted by law, we may charge a reasonable fee to cover the costs incurred in responding to such requests. Please send requests to:

Chief Privacy Officer
Fidelity National Financial, Inc.
601 Riverside Avenue
Jacksonville, FL 32204

Changes to this Privacy Statement

This Privacy Statement may be amended from time to time consistent with applicable privacy laws. When we amend this Privacy Statement, we will post a notice of such changes on our website. The effective date of this Privacy Statement, as stated above, indicates the last time this Privacy Statement was revised or materially changed.

Notice of Available Discounts

Pursuant to Section 2355.3 in Title 10 of the California Code of Regulations Fidelity National Financial, Inc. and its subsidiaries ("FNF") must deliver a notice of each discount available under our current rate filing along with the delivery of escrow instructions, a preliminary report or commitment. Please be aware that the provision of this notice does not constitute a waiver of the consumer's right to be charged the filed rate. As such, your transaction may not qualify for the below discounts.

You are encouraged to discuss the applicability of one or more of the below discounts with a Company representative. These discounts are generally described below; consult the rate manual for a full description of the terms, conditions and requirements for such discount. These discounts only apply to transactions involving services rendered by the FNF Family of Companies. This notice only applies to transactions involving property improved with a one-to-four family residential dwelling.

FNF Underwritten Title Company
CTC – Chicago Title Company

FNF Underwriter
CTIC – Chicago Title Insurance Co.

Available Discounts

CREDIT FOR PRELIMINARY REPORTS AND/OR COMMITMENTS ON SUBSEQUENT POLICIES (CTIC)
Where no major change in the title has occurred since the issuance of the original report or commitment, the order may be reopened within 35 months and all or a portion of the charge previously paid for the report or commitment may be credited on a subsequent policy charge within the following time period from the date of the report.

FEE REDUCTION SETTLEMENT PROGRAM (CTC and CTIC)
Eligible customers shall receive a $20.00 reduction in their title and/or escrow fees charged by the Company for each eligible transaction in accordance with the terms of the Final Judgments entered in The People of the State of California.

DISASTER LOANS (CTIC)
The charge for a Lender's Policy (Standard or Extended coverage) covering the financing or refinancing by an owner of record, within 24 months of the date of a declaration of a disaster area by the government of the United States or the State of California on any land located in said area, which was partially or totally destroyed in the disaster, will be 50% of the appropriate title insurance rate.

CHURCHES OR CHARITABLE NON-PROFIT ORGANIZATIONS (CTIC)
On properties used as a church or for charitable purposes within the scope of the normal activities of such entities, provided said charge is normally the church's obligation the charge for an owner's policy shall be 50% to 63% of the appropriate title insurance rate, depending on the type of coverage selected. The charge for a lender's policy shall be 32% to 40% of the appropriate title insurance rate, depending on the type of coverage selected.

SHORT TERM RATE (CTIC)
The Short Term Rate is a reduction of the charges shown in the Insurance Tables which is allowable only when the current order is placed within sixty (60) months from the date of issuance of a prior CLTA or ALTA Form of Policy of any qualified title insurer and provided further that the grantor, borrower, lender, lessor or assignor is insured by or under the terms of a prior policy, or is the vested owner of the interest insured by said policy. The Short Term Rate is 64% to 92% of the appropriate title insurance rate depending on the type of coverage selected.

EMPLOYEE RATE (CTC and CTIC)
No charge shall be made to employees (including employees on approved retirement) of the Company or its underwritten, subsidiary or affiliated title companies for policies or escrow services in connection with financing, refinancing, sale or purchase of the employees' bona fide home property. Waiver of such charges is authorized only in connection with those costs which the employee would be obligated to pay, by established custom, as a party to the transaction.

VIOLATIONS: Codes noted below in the "Violation Codes" column represent specific violations of State law and/or local Ordinance. These codes are defined in the attached Violation Codes document(s). Time granted for correction of violations does not preclude any enforcement action by this Department or other agencies.

This facility may be subject to reinspection at any time. Consent to Inspect Given By: Victor Mercado

Violation Codes	Summary of Violations, Notice to Comply, Observations, and Required Corrective Actions	Corrective Actions Taken
G010	Observed gloves on the garbage adjacent to the lead free wave machine. Observed Q-tips on the garbage that were used to wipe lead dust off the circuit boards. Observed a vacuum that is used to vacuum the Chip Shooter machine.	-ALL GLOVES, FINGER COTS, AND Q-TIPS USED IN ASSEMBLY ARE CONSIDERED HAZARDOUS WASTE AND ARE TREATED ACCORDINGLY BY DISCARDING AFTER USE IN THE RED HAZARDOUS WASTE CONTAINER LOCATED ON THE PRODUCTION FLOOR. -ALL EMPLOYEES IN PRODUCTION HAVE NOW BEEN TRAINED IN PROPER DISPOSAL OF HAZARDOUS WASTE MATERIAL.
	Corrective Action: Determine if the Q-tips and gloves are contaminated with lead that classifies them as a hazardous waste. Discontinue placing these items in the garbage until a hazardous waste determination has been made. If Q-tips & gloves are hazardous waste, manage accordingly. Determine if the vacuumed material coming out of the Chip Shooter is a hazardous waste.	
	* This is a Class II violation	

All violations must be corrected within 30 days of the inspection date unless noted otherwise, above. Section 25404.1.2(c)(1) of California Health and Safety Code (HSC) requires that you write a brief description of the corrective actions you have taken to bring this facility into compliance and submit it to HMCD within 5 days of achieving compliance, or within 35 days of the inspection date, whichever comes first. ***(Note: Detailed instructions on actions you must take are printed on the reverse side of this page.)***

Dynamic Details L.P.
"The global time to market solution"

Company: Dynamic Details Inc.,

EPA ID: CAL000239908

From: James LIOW, Director of Engineering

Date: DEC 11, 2003

RE: County Inspection – July 24, 2003

Dear Sir,

With regards to the violations pointed to Mike Coleman during the July 24, 2003 visit, please accept the corrective actions taken as below (quoted by violation code):

2201: Water test result obtained showed that content of lead, metal and Ni are low enough to be considered non-hazardous.

2206: Containers for hazardous material storage have been labeled with content (solder dross, solder wipes, PCB, etc.), as pointed to the county officer today. Also, accumulation start date has been stated to ensure it is not kept for more than 90 days.

2210: Weekly inspection has been instituted using the recommended form UN-023 since August 01, 2003.

2219: EPA ID on manifest has been corrected recently and a copy has been mailed to DTSC for record.

2212: Oil had been made separated from water through a separator and would not be drained to reservoir.

2255: Marino Finley is back from sick leave and there is not a need for change of emergency response coordinates.

Let me know if you need further details.

Yours truly,

(James LIOW)

OFFICIAL NOTICE OF INSPECTION

Facility Name:	Dynamic Details Inc	Inspection Date:	12/11/03
Site Address:	2150 Commerce Dr. San Jose 95133	Employee No.:	4681
Contact Person(s):	Jamo Loow (408) 857-6630	Samples Taken? ☐ Yes; ☒ No. Photographs Taken? ☐ Yes; ☒ No.	
Inspection Type:	☐ Hazardous Materials ☒ Hazardous Waste ☐ Tiered Permit ☐ Toxic Gas ☐ Cal-Accidental Release Prevention Program ☐ Other	Hazardous Waste Generator Type: ☐ < 1,000 Kg./mo. ☐ ≥ 1,000 Kg./mo. ☐ CESQG ☐ Satellite Only	

VIOLATIONS: Codes noted below in the "Violation Code" column represent specific violations of State law and/or local Ordinance. These codes are defined in the attached Violation Codes document(s). Time granted for correction of violations does not preclude any enforcement action by this Department or other agencies. This facility may be subject to reinspection at any time.

Violation Codes	Summary of Violations, Notice to Comply, Observations, and Required Corrective Actions	Corrective Actions Taken
2223	No response to the previous inspection dated July 24, 2003, was submitted to this Department with the explanation of the Corrective action taken. A written response to the previous inspection dated July 24, 2003 must be submitted to this Department within 30 days of inspection date.	

All violations must be corrected within 30 days of the inspection date unless noted otherwise, above. Section 25187.8 of the State Health and Safety Code (H&SC) requires that you write a brief description of the corrective actions you have taken to bring this facility into compliance and submit it to this Department within 5 days of achieving compliance, or within 35 days of the inspection date, whichever comes first. ***(Note: Detailed instructions on actions you must take are printed on the reverse side of this page.)***

Received by: _____ Inspected by: Cenyue Entered by: 17004 12-26-03

Certification: I certify under penalty of perjury that this facility has complied with directives specified in this Notice to Comply.

Signature of Owner/Operator: _____ Title: _____ Date: ___/___/___

FACILITY SENDS YELLOW COPY TO AGENCY, KEEPS PINK COPY.

16. GENERATOR'S CERTIFICATION: I hereby declare that the contents of this consignment are fully and accurately described above by proper shipping name and are classified, packed, marked, and labeled, and are in all respects in proper condition for transport by highway according to applicable international and national government regulations.

If I am a large quantity generator, I certify that I have a program in place to reduce the volume and toxicity of waste generated to the degree I have determined to be economically practicable and that I have selected the practicable method of treatment, storage, or disposal currently available to me which minimizes the present and future threat to human health and the environment; OR, if I am a small quantity generator, I have made a good faith effort to minimize my waste generation and select the best waste management method that is available to me and that I can afford.

OFFICIAL NOTICE OF INSPECTION

Facility Name:	DYNAMIC DETAILS	Inspection Date:	NOV. 13, 2001
Site Address:	2150 Commerce Dr. San Jose, CA	Work Area:	
Contact Person(s):	Marina Finley / Env. Manager	Employee No.:	4677
Inspection Type:	☐ Hazardous Materials ☑ Hazardous Waste ☐ Toxic Gas ☐ Cal-Accidental Release Prevention Program ☐ Medical Waste Storage/Treatment ☐ Medical Waste Generator	Samples Taken? ☐ Yes; ☑ No. Photographs Taken? ☐ Yes; ☑ No.	

VIOLATIONS: Codes noted below in the "Violation Code" column represent specific violations of State law and/or local Ordinance. These codes are defined in the attached Violation Codes document(s). Time granted for correction of violations does not preclude any enforcement action by this Department or other agencies. This facility may be subject to reinspection at any time.

Violation Codes	Summary of Violations, Notice to Comply, Observations, and Required Corrective Actions	Corrective Actions Taken
3306	Observed Yellow containers accumulating Waste Solder Paste solids in the Manufacturing Area without Hazardous Waste Labels. Label all containers holding Waste Solder Paste Solids to include all information required in Title 22.	
	- One 55 gallon drum of Waste Solder Paste Solids stored in the shipping Area without hazardous waste label.	
3310	Implement a weekly inspection of the Waste storage Area to include all satellite accumulation areas.	

All violations must be corrected within 30 days of the inspection date unless noted otherwise, above. Section 25187.8 of the State Health and Safety Code (H&SC) requires that you write a brief description of the corrective actions you have taken to bring this facility into compliance and submit it to this Department within 5 days of achieving compliance, or within 35 days of the inspection date, whichever comes first. *(Note: Detailed instructions on actions you must take are printed on the reverse side of this page.)*

Received by: _____ Inspected by: _____ Entered by: 10/29

Certification: I certify under penalty of perjury that this facility has complied with directives specified in this Notice to Comply.

Signature of Owner/Operator: _____ Title: _____ Date: ___/___/___

Important Note:

- This permit application or approved permit will expire after 180 days of inactivity.
- Plans submitted with this application must be approved by the Fire Department before work can begin.
- A final inspection approving the project must be conducted before the system may be placed into service, or considered closed.
- Call the Hazardous Materials Division at least 48 hours in advance to schedule an inspection.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct and that, to the best of my knowledge, the license(s) listed above are those required for the work to be performed and are in full force and effect, or if exempt, that the exemptions meet the requirements of the Contractor's State license Law as contained in the business and Professions Code, Division 3, Chapter 9. If there is any change, which would materially affect the above information or plans submitted, I will notify the Bureau of Fire Prevention.

San Jose, CA 95113-2005

HAZARDOUS MATERIAL PLAN CHECK

Date: **July 7, 2004**

Project Location:	**2150 Commerce Dr.**
Facility Name:	**Dynamic Details, Inc.**
Application Date:	**May 20, 2004 (revised June 18, 2004)**
Project Contractor:	**Wesco Gas**
Type of Work/Construction:	**liquid nitrogen installation**

PLAN IS APPROVED WITH THE FOLLOWING REQUIREMENTS.

PERMITS:

1. Submit plans to the Building Division for review and approval prior to final completion of the Hazardous Materials installation. The Planning Division has already reviewed the plans per Intradepartmental Referral from Dipa Chundar dated June 10, 2004.

2. Provide copies of valid City of San Jose Business License and State of California Contractor's License for Wesco Gas prior to beginning work. (2001 CFC 105.3)

INSPECTION REQUIREMENTS:

1. A copy of the Plan Check and permit must be on site and displayed when requested. (2001 CFC 105.5)

2. Piping, tubing, pressure regulators, valves and other apparatus shall be kept gas and liquid tight to prevent leakage. As such, piping shall pass a pressure test prior to use. Pneumatic testing shall be to 110 percent of the maximum working pressure of the system, but no less than 5 PSI at the highest point of the system. Tests shall be maintained for 30 minutes and witnessed by a Hazardous Materials Inspector. (2001 CFC 7503.1.3.7)

3. Prior to using the system the installation is subject to inspection and approval including:
   - Pressure testing of the piping.
   - Proper placards, labels and signs.
   - Functional operation of low oxygen detection and alarm systems.

SAN JOSE FIRE DEPARTMENT HAZARDOUS MATERI

San Jose, CA 95113-1305

HAZARDOUS MATERIAL PLAN CHECK (cont.)

- Compliance with all applicable requirements of the 2001 California Fire Code with 2002 City of San Jose amendments.
- Verification of compliance with plan check comments

STRUCTURAL & PROTECTION:

1. Containers shall be provided with substantial concrete or masonry foundations designed to withstand the low-temperature effects of cryogenic fluid spillage. (2001 CFC 7501.4.4, 7501.4.4.1)

2. Stationary containers shall be secured to foundations in accordance with the Building Code. (2001 CFC 7501.8.3)

3. The Building Department must approve all foundations and container anchoring.

4. Containers and piping shall be protected against physical damage. (2001 CFC 7501.8.5)

GAS DETECTION

1. Indoor storage areas shall be provided with a continuous gas-detection system which monitors for an oxygen-deficient atmosphere. The gas-detection systems shall initiate a local visual and audible alarm both inside and outside the storage area. A signal shall be transmitted to a constantly attended location. (1997 UFC Standard 80-4 Section 5.2.1.5)

LABELING & MARKING:

1. Warning signs shall be posted at each entrance to the room where the liquid nitrogen is utilized. Such signs shall read as follows:

WARNING – NITROGEN
HIGH CONCENTRATION OF GAS MAY OCCUR IN THIS AREA AND MAY CAUSE ASPHYXIATION. VERIFY THAT OXYGEN CONCENTRATION IS ABOVE 19.5% BEFORE ENTERING AND DURING ACTIVITY IN THIS AREA.

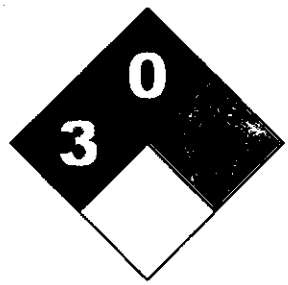
Project: **P-7866** Plan Check: **2004-113875-HZ**

SAN JOSE FIRE DEPARTMENT HAZARDOUS MATERI
4 North Second St., Suite 1100
San Jose, CA 95113-1305

HAZARDOUS MATERIAL PLAN CHECK (cont.)

2. Entry doors to the room where liquefied nitrogen is used and the enclosure gate shall be labeled and placard as follows. All such labeling shall be durable and indelible. Placards should measure not less than 7½ " x 7½" square with 3" high lettering and conform to NFPA 704 guidelines. (2001 CFC 7501.7)

   Health (blue background)=**3**
   Flammability (red background)=**0**
   Reactivity (yellow background)=**0**
   Special (white background)=**{blank}**



NITROGEN, LIQUEDFIED

3. Piping conveying cryogenic fluids shall be marked to indicate contents, concentration and direction of flow. Markings shall be provided at each valve, wall/floor/ceiling penetration, change of direction and every 20 feet or fraction thereof. Markings shall conform to ANSI A13.1 guidelines. (2001 CFC 7501.7.6, 9003.a.2.1)

   Per ANSI:

PRESSURE-RELIEF DEVICES:

1. Pressure-relief devices shall be arranged to discharge unobstructed to open air. (2001 CFC 7501.5.6)

2. Piping containing cryogenic fluids shall be equipped with pressure-relief devices when liquid can be trapped between valves in the piping system. Such pressure-relief devices shall discharge to the exterior of the building through pressure-relief vent piping. (2001 CFC 7503.1.3.4.2)

3. Pressure-relief vent piping shall be arranged so that escaping gas will discharge unobstructed to the open air. Vent lines shall be installed to exclude or remove moisture and condensation and prevent malfunction of the pressure-relief device due to freezing or ice accumulation. (2001 CFC 7501.6.3)

Subject: Fuel Leak Site Case Closure US Main Post Office, 1750 Lundy Avenue, San Jose, CA; Case No. 14-736, SCVWDID No. 06S1E20P01f

Dear Ms. Andrews and Mr. Hurada:

This letter transmits the enclosed underground storage tank (UST) case closure letter for the subject case in accordance with Chapter 6.75 (Section 25296.10 [g]). The State Water Resources Control Board adopted this letter on February 20, 1997. As of March 1, 1997, all Local Oversight Programs (LOP) in the State are required to use this case closure letter for UST leak sites. The Santa Clara Valley Water District began transferring the LOP and all cases to the County of Santa Clara Department of Environmental Health on July 1, 2004. The County of Santa Clara is responsible for the issuance of the attached closure letter. The case closure summary is also enclosed. These documents confirm the completion of the investigation and cleanup of the reported release at the subject site. The subject fuel leak case is closed.

Please note the following conditions still remain at the site: residual contamination remains in soil of 190 parts per million (ppm) Total Petroleum Hydrocarbons as Diesel (TPHd), 1,000 ppm Total Oil and Grease (TOG), and 6.7 ppm Lead.

Residual contamination in soil remains at the site that could pose an unacceptable risk under certain site development activities such as site grading, excavation, or the installation of water wells. The County and the appropriate planning and building department shall be notified prior to any changes in land use, grading activities, excavation, and installation of water wells. This notification shall include a statement that residual contamination exists on the property and list all mitigation actions, if any, necessary to ensure compliance with this site management requirement. The levels of residual contamination and any associated site risk are expected to reduce with time.

Board of Supervisors: Donald F. Gage, George M. Shirakawa, Dave Cortese, Ken Yeager, Liz Kniss
Acting County Executive: Gary A. Graves

If you have any questions regarding the enclosed case closure form, please call Ms. Lani Lee of the Local Oversight Program at (408) 918-1977. Thank you.

Sincerely,

Nicole Pullman

Subject: Fuel Leak Site Case Closure US Main Post Office, 1750 Lundy Avenue, San Jose, CA; Case No. 14-736, SCVWDID No. 06S1E20P01f

Dear Ms. Andrews and Mr. Hurada:

This letter confirms the completion of a site investigation and remedial action for the underground storage tank(s) formerly located at the above-described location. Thank you for your cooperation throughout this investigation. Your willingness and promptness in responding to our inquiries concerning the former underground storage tank(s) are greatly appreciated.

Based on information in the above-referenced file and with the provision that the information provided to this agency was accurate and representative of site conditions, this agency finds that the site investigation and corrective action carried out at your underground storage tank(s) site is in compliance with the requirements of subdivisions (a) and (b) of Section 25296.10 of the Health and Safety Code and with corrective action regulations adopted pursuant to Section 25299.3 of the Health and Safety Code and that no further action related to the petroleum release(s) at the site is required.

This notice is issued pursuant to subdivision (g) of Section 25296.10 of the Health and Safety Code.

Please contact our office if you have any questions regarding this matter.

Sincerely,

Ben Gale, Director

III. RELEASE AND SITE CHARACTERIZATION INFORMATION

Cause and Type of Release: Unknown		
Site characterization complete? Yes	Date Approved by Oversight Agency: 2/9/09	
Monitoring wells installed? Yes	Number: 3	Proper screened interval? Yes
Highest GW Depth Below Ground Surface: 7.91'	Lowest Depth: 12.20'	Flow Direction: Southeast
Most Sensitive Current Use: Potential Drinking Water		
Summary of Production Wells in Vicinity: there are two active water supply wells and 1 standby water supply well located within a ¼-mile radius of the site. These wells are located either upgradient or cross-gradient from the site. Based on the low concentrations and locations of these wells, it is unlikely that the release from this site will impact these wells.		
Are drinking water wells affected? No	Aquifer Name: Santa Clara Valley Basin	
Is surface water affected? No	Nearest SW Name: Coyote Creek, ~5,356 ft southwest	

Off-site Beneficial Use Impacts (Addresses/Locations): None.			
Reports on file? Yes		Where are reports filed? County of Santa Clara, Dept. of Environmental Health	
TREATMENT AND DISPOSAL OF AFFECTED MATERIAL

Description of Interim Remediation Activities: soil removal and groundwater removal.

NA – Not Analyzed

Notes:

1. All soil samples collected and analyzed for these constituents were not reported to have concentrations above the laboratory reporting limits.
2. Soil sample DP-3 collected at 3 feet below the ground surface (ft bgs) below the diesel dispenser on 5/20/05.
3. Soil sample TP-4-1 collected beneath an oil tank at 9.5 ft bgs on 5/20/05.
4. Soil sample PI-2 collected beneath the piping at 5.5 ft bgs on 5/19/05. Reported concentration is for Lead.
5. Confirmation soil samples were not collected except in one area of over-excavation.
6. Soil sample DP-3-D collected at 3.5-4 ft bgs below the diesel dispenser on 6/10/05 following excavation of soil.
7. All groundwater samples collected at the site from the excavation and onsite wells analyzed for these constituents were not reported to have concentrations above the laboratory reporting limits.
8. Grab groundwater sample GW-1 collected from the underground storage tank excavation on 5/20/05.
9. Groundwater sample collected from well MW1 on 6/1/06.
10. All groundwater samples collected on 3/28/08, which was the last sampling event that included analysis for TPHg and MtBE.
11. Groundwater samples collected from wells MW1 and MW2 on 12/2/08; the last groundwater sampling event.
12. All groundwater samples collected on 12/2/08; the last groundwater sampling event.

IV. CLOSURE

Does completed corrective action protect existing beneficial uses per the Regional Board Basin Plan? Yes

Does completed corrective action protect potential beneficial uses per the Regional Board Basin Plan? Yes		
Does corrective action protect public health for current land use? Environmental Health Department staff does not make specific determinations concerning public health risk. However, it does not appear that the release would present a risk to human health.		
Site Management Requirements: Residual contamination both in soil and groundwater remains at the site that could pose an unacceptable risk under certain site development activities such as site grading, excavation, or the installation of water wells. Therefore, the impact of the disturbance of any residual contamination or the installation of water well(s) in the vicinity of the residual contamination shall be assessed and appropriate action taken so that there is no significant impact to human health, safety, or the environment. This could necessitate additional sampling, health risk assessment, and mitigation measures. DEH and the appropriate planning and building department shall be notified prior to any changes in land use, grading activities, excavation, and installation of water wells. This notification shall include a statement that residual contamination exists on the property and list all mitigation actions, if any, necessary to ensure compliance with this site management requirement. The levels of residual contamination and any associated site risk are expected to reduce with time.		
Should corrective action be reviewed if land use changes? No.		
Number of Wells Commissioned: 3	Number of Wells Decommissioned: 0	Number of Wells Retained: 3*
List Enforcement Actions Taken: None.		
List Enforcement Actions Rescinded: None.		

* All monitoring wells will be properly destroyed prior to issuance of the closure letter and documents.

V. ADDITIONAL COMMENTS, DATA, ETC.

Site History:

2005 – In May, 6 underground storage tanks (USTs) were removed from the site along with associated piping and dispensers. 10 soil samples in total were collected from the excavation at 9-9.5 feet below the ground surface (ft bgs) above the ponded groundwater in the excavation. The 7 soil samples collected by the Gasoline and Diesel USTs were not reported to have concentrations of Total Petroleum Hydrocarbons as Gasoline (TPHg), TPH as Diesel (TPHd), Benzene, Toluene, Ethylbenzene, Xylenes (BTEX), Fuel Oxygenates (FO), Ethylene Dibromide (EDB), or 1,2-Dichloroethane (DCA). Soil sample TP-3-1 was also analyzed for Total Oil and Grease (TOG), metals, Polychlorinated Biphenyls (PCBs), Semi Volatile Organic Compounds (Semi-VOCs; by EPA Method No. 8270), and Volatile Organic Compounds (VOCs; by EPA Method No. 8260B.

3 soil samples were collected by the new oil and waste oil USTs and reported to contain maximum concentrations of 170 ppm TPHd and 1,000 ppm TOG. All other analytes were not reported to be present above the laboratory reporting limits.

3 soil samples (DP1 through DP3) were collected beneath the dispensers at 3 ft bgs and reported to contain maximum concentrations of 440 ppm TPHd.

3 soil samples (VPI1 through VPI3) were collected beneath the vent piping and vent stack at 2.5-4 ft bgs and reported to contain maximum concentrations of 4 ppm TPHd.

13 soil samples (PI1 through PI13) were collected beneath the piping for the new and waste oil at 3 to 6 ft bgs and reported to contain maximum concentrations of 88 ppm TOG, 1.3 ppm Cadmium, 40 ppm Chromium, 6.7 ppm Lead, 47 ppm Nickel, and 67 ppm Zinc.

Groundwater was present in the excavation at a depth of 9.5 ft bgs. A grab sample (GW1) of the groundwater in the excavation was collected and reported to contain 28,000 ppb TPHd, 3,300 ppb TOG and 2.4 ppb Xylenes. TPHg, BTE, FO, EDB, DCA, and SVOCs were not reported to be present above the laboratory reporting limits. Approximately 25,200 gallons of groundwater was removed from the excavation prior to backfilling.

Additional excavation was conducted in the area of sample DP3. Approximately 3 cubic yards of soil was removed below the dispenser. 2 confirmation soil samples were collected at 3.5-4 ft bgs (DP3-D) and 6.5 ft bgs (DP3-B). TPHd was reported in the shallow sample at 190 ppm, but was not reported in the deeper sample above the laboratory reporting limit. Other Constituents of Concern (COCs) were not reported to be present above the laboratory reporting limits for these samples.

2006 – In May, 3 wells (MW1 through MW3) and 1 soil boring (EB1) were advanced onsite to 14.5-21 ft bgs. 8 soil samples were collected and were only reported to have detectable concentrations of TPHd at a maximum concentration of 180 ppm in MW2 at 13.5-14 ft bgs.

Groundwater was encountered during this investigation between 8-13.5 ft bgs. A grab groundwater sample was collected from boring EB1 and was not reported to have detectable concentrations of COCs.

In June, the monitoring wells were initially sampled. Maximum concentrations of 1,700 ppb TPHd and 0.54 ppb Toluene were reported. All other constituents were not reported to be present above the laboratory reporting limits.

2008 – In December, the final groundwater monitoring event was conducted. The samples collected from the 3 wells were not reported to have concentrations of the Constituents of Concern (COCs) above the laboratory reporting limits.

Considerations and/or Variances:
Following UST removal, approximately 25,000 gallons of groundwater were extracted from the excavation prior to backfilling and approximately 3 cubic yards of soil were removed from the site. Following soil excavation, the residual concentration remaining in soil is 190 ppm TPHd, 1,000 ppm TOG and 6.7 ppm Lead. Following removal of groundwater and 4 quarters of monitoring, Constituents of Concern were no longer reported to be present above the laboratory reporting limits.

Conclusion:
The Department of Environmental Health believes that the residual soil and groundwater contamination at the site does not pose a continuing, significant threat to groundwater resources, human health, or the environment. Regional Water Quality Control Board objectives have not been compromised. The investigation was performed in accordance with state and local guidelines. The Department of Environmental Health recommends that this site be closed.

VI. LOCAL AGENCY REPRESENTATIVE DATA

Prepared by: Lani Lee	Title: Hazardous Materials Specialist II
Signature:	Date: February 9, 2009
Approved by: Nicole Pullman	Title: Program Manager
Signature: Nicole Pullman	Date: 2/10/09

This closure approval is based upon the available information and with the provision that the information provided to this agency was accurate and representative of site conditions.

US Main Post Office
1750 Lundy Ave., San Jose

2.4 Ponded Water Sampling

To evaluate the quality of ponded water in the excavation, one water sample was collected from the tank excavation and submitted for analysis. A discussion of sampling protocol is included in Appendix A.

2.4.1 Laboratory Analyses

The ground water sample was analyzed using the same methods as used for the soil samples collected near the waste oil tank. Copies of the laboratory reports are attached in Appendix B. Analytical results are presented in Tables 2A, 2B and 2C.

Analysis of the ground water from the tank excavation (GW-1) detected TPH as diesel (28,000 ppb) and oil and grease (3,300 ppb) above ESL and MCL concentrations. Xylenes also were detected but did not exceed the MCLs or ESLs. Fuel oxygenates were not detected and LUFT metal concentrations were below ESLs and MCLs.

for TPHd and BTEX. No TPHd or BTEX was detected in samples DP-3-D or DP-3-B other than 190 ppm TPHd in sample DP-3-D. A copy of the laboratory report is attached in Appendix B.

Due to the presence of the subsurface concrete slab additional over-excavation was not possible since the structural integrity of the fuel island and the overhead canopy would have been compromised.

The overexcavated soil was disposed at an appropriate off-site facility by Pacific States Environmental Contractors, Inc. A disposal certificate for this material is included in Appendix A.

confirmation 55 DP3

* Environmental Screening Level-SF-CRWQCB, February 2005, Table A
NE Not established

2.6 Excavation Backfilling

Since only low concentrations (up to 18 ppm) of TPHd were detected in the excavated soil from the UST excavations, this material was used to backfill the tank excavations with the approval of the SCCEHD. Additional soil was imported, as needed.

Prior to backfilling approximately 25,200-gallons of ponded water was pumped from the tank pit and disposed at an appropriate off-site facility by Pacific States Environmental Contractors, Inc. A copy of the permit to dispose the waste water at EBMUD's Oakland facility is included in Appendix A.

Compaction testing was performed through the contractor. Twenty-two tests were performed at various depths at the tank pit and piping trench using a nuclear density gauge. The test results indicate that the material tested was compacted to a relative compaction between 95 and 100 percent.

3.0 CONCLUSIONS AND RECOMMENDATIONS

Upon removal, the three 12,000-gallon fuel tanks appeared to be in good condition. No holes, deteriorated areas, or other signs of leakage were observed. The three 2,000-gallon oil tanks also generally appeared to be in good condition. Analysis of UST excavation soil verification samples, including samples collected adjacent to the oil tanks did not detect petroleum hydrocarbons, PCBs, or VOCs other than 1,000

2.2 Soil Sample Collection and Analyses

To evaluate soil quality, soil samples were collected from just above the shallow water-bearing zone from each boring and at major lithological changes. A total of eight soil samples were selected for submittal to a state-certified analytical laboratory.

Eight soil samples were analyzed for total petroleum hydrocarbons as gasoline (TPHg), diesel (TPHd), benzene, toluene, ethylbenzene, and xylenes (BTEX) (EPA Test Methods 8015/8260) and fuel oxygenates methyl-tert-butyl ether (MTBE), tert-amyl methyl ether (TAME), ethyl-tert butyl ether (ETBE), tert-butyl alcohol (TBA), di-isopropyl ether (DIPE), 1,2-dichloroethane (1,2-DCA), and dibromoethane (EDB) (EPA Test Methods 8015/8260). These analyses were selected to help evaluate the presence of hydrocarbons in the vicinity of the former UST site.

Analytical results are presented in Table 1. Copies of the analytical reports and chain of custody documentation are presented in Appendix B.

2.3 Ground Water Flow Direction

Ground water depths were measured in on-site wells on June 1, 2006. The ground water depth, ground water elevation, top of casing elevation data, and flow directions are shown in Table 2 and on Figure 2. Monitoring well surveying protocal is discussed in Appendix C.

Table 2. Ground Water Elevations in On-Site Wells

* Benchmark located on top of manhole 85.118 southeast sidewalk along Brokaw Road at an elevation of 71.25 feet above Mean Sea Level
** Measured from the top of the casing

2.4 Ground Water Sample Collection and Analyses

On May 24, 2006 one ground water grab sample was collected from boring EB-1. Boring EB-1 was completed as a supplemental cross-gradient exploratory boring and was not converted into a ground water monitoring well. On June 1, 2006, ground water samples were collected from on-site ground water monitoring wells MW-1, MW-2, and MW-3. Copies of the well sampling logs and a discussion of sampling protocol are included in Appendix B.

The ground water samples were analyzed for total petroleum hydrocarbons as TPHd, TPHg, BTEX, and fuel oxygenates MTBE, TAME, ETBE, TBA, DIPE, 1,2-DCA, and EDB

3.0 CONCLUSIONS AND RECOMMENDATIONS

3.1 Soil Quality

Laboratory analysis of soil samples collected from the four borings did not detect gasoline range hydrocarbons, BTEX, or fuel oxygenates MTBE, TAME, ETBE, TBA, DIPE, 1,2-DCA, and EDB. Diesel-range hydrocarbons were detected in the MW-2 soil samples at 13 ppm near the ground water/soil interface at a depth of 8½ to 9 feet below ground surface, and at 180 ppm within the ground water zone at a depth of 13½ to 14 feet below surface. Based on the low concentrations detected, it appears that the significantly impacted soil was removed during the excavation of the UST pit area. Since the UST/source has been removed, the remaining residual petroleum hydrocarbon concentrations would be expected to naturally degrade over time.

2.5 Over-excavation and Verification Soil Sampling

As requested by the SCCDEH inspector and because analysis of soil sample DP-3 detected diesel concentrations of 440 ppm, approximately 3-cubic yards of soil was excavated on June 10, 2005 from below the dispenser. Two soil verification samples were collected at depths of approximately 3½ to 4 feet (DP-3-D) and 6 ½ feet (DP-3-B) at the bottom of the dispenser excavation. Due to the presence of a subsurface concrete slab near the dispenser island, sample DP-3-B was collected approximately 3 feet northeast of the dispenser well within the piping trench leading from the fuel tank to the dispenser. Both soil verification samples were analyzed

UNMAPPED PROPERTY

This report certifies that the complete holdings of the Sanborn Library, LLC collection have been searched based on client supplied target property information, and fire insurance maps covering the target property were not found.

The Sanborn Library includes more than 1.2 million Sanborn fire insurance maps, which track historical property usage in approximately 12,000 American cities and towns. Collections searched:

- ☑ Library of Congress
- ☑ University Publications of America
- ☑ EDR Private Collection

Limited Permission To Make Copies

ERM - West, Inc. (the client) is permitted to make up to THREE photocopies of this Sanborn Map transmittal and each fire insurance map accompanying this report solely for the limited use of its customer. No one other than the client is authorized to make copies. Upon request made directly to an EDR Account Executive, the client may be permitted to make a limited number of additional photocopies. This permission is conditioned upon compliance by the client, its customer and their agents with EDR's copyright policy; a copy of which is available upon request.

2009 Enhancements to EDR City Directory Abstract

New for 2009, the EDR City Directory Abstract has been enhanced with additional information and features. These enhancements will make your city directory research process more efficient, flexible, and insightful than ever before. The enhancements will improve the options for selecting adjoining properties, and will speed up your review of the report.

City Directory Report. Three important enhancements have been made to the EDR City Directory Abstract:

1. *Executive Summary.* The report begins with an Executive Summary that lists the sources consulted in the preparation of the report. Where available, a parcel map is also provided within the report, showing the locations of properties researched.

2. *Page Images.* Where available, the actual page source images will be included in the Appendix, so that you can review them for information that may provide additional insight. EDR has copyright permission to include these images.

3. *Findings Listed by Location.* Another useful enhancement is that findings are now grouped by address. This will significantly reduce the time you need to review your abstracts. Findings are provided under each property address, listed in reverse chronological order and referencing the source for each entry.

Options for Selecting Adjoining Properties. Ensuring that the right adjoining property addresses are searched is one of the biggest challenges that environmental professionals face when conducting city directory historical research. EDR's new enhancements make it easier for you to meet this challenge. Now, when you place an order for the EDR City Directory Abstract, you have the following choices for determining which addresses should be researched.

1. *You Select Addresses and EDR Selects Addresses.* Use the "Add Another Address" feature to specify the addresses you want researched. Your selections will be supplemented by addresses selected by EDR researchers using our established research methods. Where available, a digital map will be shown, indicating property lines overlaid on a color aerial photo and their corresponding addresses. Simply use the address list below the map to check off which properties shown on the map you want to include. You may also select other addresses using the "Add Another Address" feature at the bottom of the list.

2. *EDR Selects Addresses.* Choose this method if you want EDR's researchers to select the addresses to be researched for you, using our established research methods.

3. *You Select Addresses.* Use this method for research based solely on the addresses you select or enter into the system.

4. *Hold City Directory Research Option.* If you choose to select your own adjoining addresses, you may pause production of your EDR City Directory Abstract report until you have had a chance to look at your other EDR reports and sources. Sources for property addresses include: your Certified Sanborn Map Report may show you the location of property addresses; the new EDR Property Tax Map Report may show the location of property addresses; and your field research can supplement these sources with additional address information. To use this capability, simply click "Hold City Directory research" box under "Other Options" at the bottom of the page. Once you have determined what addresses you want researched, go to your EDR Order Status page, select the EDR City Directory Abstract, and enter the addresses and submit for production.

Questions? Contact your EDR representative at 800-352-0050. For more information about all of EDR's 2009 report and service enhancements, visit www.edrnet.com/2009enhancements

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1922 through 2006. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

A summary of the information obtained is provided in the text of this report.

The EDR Environmental LienSearch™ Report

Environmental Data Resources Inc

440 Wheelers Farms Road
Milford, CT 06461
800.352.0050
www.edrnet.com

The EDR Environmental LienSearch™ Report

The EDR Environmental LienSearch Report provides results from a search of available current land title records for environmental cleanup liens and other activity and use limitations, such as engineering controls and institutional controls.

A network of professional, trained researchers, following established procedures, uses client supplied address information to:

- search for parcel information and/or legal description;
- search for ownership information;
- research official land title documents recorded at jurisdictional agencies such as recorders' offices, registries of deeds, county clerks' offices, etc.;
- access a copy of the deed;
- search for environmental encumbering instrument(s) associated with the deed;
- provide a copy of any environmental encumbrance(s) based upon a review of key words in the instrument(s) (title, parties involved, and description); and
- provide a copy of the deed or cite documents reviewed.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

EASEMENT

MARSHALL B. GOLDMAN and
CATHERINE S. GOLDMAN,

hereinafter called first party, hereby grants to PACIFIC GAS AND ELECTRIC COMPANY, a California corporation, hereinafter called second party, the right from time to time to construct, reconstruct, install, inspect, maintain, replace, remove, and use facilities of the type hereinafter specified together with a right of way therefor, within a strip or parcel of land or along a route as hereinafter set forth, and also ingress thereto and egress therefrom, over and across the lands situate in the County of Santa Clara, State of California, described as follows:

(APN 205-41-007)

The parcel of land described in the deed from Harry Goldman to Marshall B. Goldman and Catherine S. Goldman dated February 5, 1998 and recorded as Document No. 14071305 of Official Records in Santa Clara County Records .

Said facilities shall consist of:

Such underground conduits, pipes, manholes, service boxes, wires, cables, and electrical conductors; aboveground marker posts, risers, and service pedestals; underground and aboveground switches, fuses, terminals, and transformers with associated concrete pads; and fixtures and appurtenances necessary to any and all thereof, as second party deems necessary located within the strips of land as shown upon the print of second party's Drawing No. SJL-14066 (EXHIBIT A) attached hereto and made a part hereof.

"The legal description herein, or the map attached hereto, defining the location of this utility distribution easement, was prepared by Pacific Gas and Electric Company pursuant to Section 8730 (c) of the Business and Professions Code."

PG&E
COPY

First party shall not erect or construct any building or other structure or drill or operate any well under or within said strips of land.

First party further grants to second party the right to assign to another public utility as defined in Section 216 of the California Public Utilities Code the right to install, inspect, maintain, replace, remove and use communication facilities within said strips (including ingress thereto and egress therefrom).

The provisions hereof shall inure to the benefit of and bind the successors and assigns of the respective parties hereto.

Dated March 27, 2000.

MAIL STATEMENTS AS DIRECTED ABOVE

EXHIBIT "A"

A reciprocal easement for ingress and egress beginning at a point on the Southeasterly line of Commercial Street (60.00 feet in width) as said street was established in the Deed from Hamilton Realty and Investment Company to the City of Sunnyvale, dated August 9, 1955, recorded August 29, 1955 in Book 3266 Official Records, Page 147, Santa Clara County Records, distant thereon South 10°29' West 351.56 feet from the Western most corner of Lot 19, as said Lot is shown upon that certain Map entitled "Tract No. 1025 Industrial Acres Unit No. 1", which map was filed for record in the Office of the Recorder of the County of Santa Clara, State of California, on August 18, 1952 in Book 40 of Maps, at Page 11; said of beginning being also distant along the said Southeasterly line of Commercial Street, South 10°29' West 110.00 feet from the westernmost corner of that certain tract of land described in the Deed from Dwight O. Johnson, Sr., et ux, to Hamilton Realty and Investment Company, a Corporation, dated December 12, 1955, recorded December 29, 1955 in Book 3373, Official Records, Page 219, Santa Clara County Records.

Thence, from said point of beginning South 10°29' West along the said Southeasterly line of Commercial Street, 7.00 feet;

Thence at right angles South 79°31' East and parallel with the Southwesterly line of land so described in the Deed to said Hamilton Realty and Investment Company, 260.00 feet;

Thence at right angles North 10°29' East once parallel with the said Southeasterly line of Commercial, 14.00 feet;

Thence at right angles North 79°31' West and parallel with the said Southwesterly line of land so described in the Deed to said Hamilton Realty and Investment Company 260.00 feet;

Thence, at right angles South 10°29' West along the said Southeasterly line of Commercial Street, 7.00 feet to the point of beginning;

And containing 3640 square feet of land, more or less.

Excepting therefrom any portion of said described easement that falls beneath or within any existing structure on said lands of Goldman.

Also excepting therefrom any portion thereof lying within Parcel One.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-05) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Federal CERCLIS NFRAP site List

CERC-NFRAP: Archived sites are sites that have been removed and archived from the inventory of CERCLIS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

A review of the CERC-NFRAP list, as provided by EDR, and dated 06/23/2009 has revealed that there is 1 CERC-NFRAP site within approximately 0.5 miles of the target property.

Lower Elevation	Address	Direction / Distance	Map ID	Page
QUME DIV OF ITT	2350 QUME DR	N 1/8 - 1/4 (0.193 mi.)	E23	44

Federal RCRA generators list

RCRA-LQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or

dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

A review of the RCRA-LQG list, as provided by EDR, and dated 12/11/2009 has revealed that there are 4 RCRA-LQG sites within approximately 0.25 miles of the target property.

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 12/11/2009 has revealed that there are 8 RCRA-SQG sites within approximately 0.25 miles of the target property.

State- and tribal - equivalent NPL

RESPONSE: Identifies confirmed release sites where DTSC is involved in remediation, either in a lead or oversight capacity. These confirmed release sites are generally high-priority and high potential risk.

A review of the RESPONSE list, as provided by EDR, and dated 11/09/2009 has revealed that there is 1 RESPONSE site within approximately 1 mile of the target property.

EXECUTIVE SUMMARY

State- and tribal - equivalent CERCLIS

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 11/09/2009 has revealed that there are 5 ENVIROSTOR sites within approximately 1 mile of the target property.

State and tribal leaking storage tank lists

LUST: The Leaking Underground Storage Tank Incident Reports contain an inventory of reported leaking underground storage tank incidents. The data come from the State Water Resources Control Board Leaking Underground Storage Tank Information System.

A review of the LUST list, as provided by EDR, and dated 12/21/2009 has revealed that there are 5 LUST sites within approximately 0.5 miles of the target property.

HIST LUST: A listing of open and closed leaking underground storage tanks. This listing is no longer updated by the county. Leaking underground storage tanks are now handled by the Department of Environmental Health.

A review of the HIST LUST list, as provided by EDR, and dated 03/29/2005 has revealed that there are 3 HIST LUST sites within approximately 0.5 miles of the target property.

State and tribal voluntary cleanup sites

VCP: Contains low threat level properties with either confirmed or unconfirmed releases and the project proponents have request that DTSC oversee investigation and/or cleanup activities and have agreed to provide coverage for DTSC's costs.

A review of the VCP list, as provided by EDR, and dated 11/09/2009 has revealed that there is 1 VCP site within approximately 0.5 miles of the target property.

SWEEPS UST: Statewide Environmental Evaluation and Planning System. This underground storage tank listing was updated and maintained by a company contacted by the SWRCB in the early 1990's. The listing is no longer updated or maintained. The local agency is the contact for more information on a site on the SWEEPS list.

A review of the SWEEPS UST list, as provided by EDR, and dated 06/01/1994 has revealed that there is 1 SWEEPS UST site within approximately 0.25 miles of the target property.

Other Ascertainable Records

RCRA-NonGen: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA-NonGen list, as provided by EDR, and dated 12/11/2009 has revealed that there are 3 RCRA-NonGen sites within approximately 0.25 miles of the target property.

Environmental Interest/Information System

US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Hazardous Waste Summary:
Waste code: D001
Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE

ENOVATION GRAPHIC SYSTEMS, INC. (Continued) **1010313225**

FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

Waste code: D002
Waste name: A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH, IS OFTEN USED BY INDUSTRIES TO CLEAN OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE DISPOSED, THE WASTE WOULD BE A CORROSIVE HAZARDOUS WASTE.

Environmental Interest/Information System

The NEI (National Emissions Inventory) database contains information on stationary and mobile sources that emit criteria air pollutants and their precursors, as well as hazardous air pollutants (HAPs).

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Treat To Water:	Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity:	Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Hazardous Waste Summary:
Waste code: D001

BDIS BECTON DICKINSON IMMUNOCY (Continued) **1000373920**

Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

Waste code: D002
Waste name: A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH, IS OFTEN USED BY INDUSTRIES TO CLEAN OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE DISPOSED, THE WASTE WOULD BE A CORROSIVE HAZARDOUS WASTE.

Waste code: D003
Waste name: A MATERIAL IS CONSIDERED TO BE A REACTIVE HAZARDOUS WASTE IF IT IS NORMALLY UNSTABLE, REACTS VIOLENTLY WITH WATER, GENERATES TOXIC GASES WHEN EXPOSED TO WATER OR CORROSIVE MATERIALS, OR IF IT IS CAPABLE OF DETONATION OR EXPLOSION WHEN EXPOSED TO HEAT OR A FLAME. ONE EXAMPLE OF SUCH WASTE WOULD BY WASTE GUNPOWDER.

Waste code: D009
Waste name: MERCURY

Waste code: D035
Waste name: METHYL ETHYL KETONE

Waste code: D038
Waste name: PYRIDINE

Waste code: F002
Waste name: THE FOLLOWING SPENT HALOGENATED SOLVENTS: TETRACHLOROETHYLENE, METHYLENE CHLORIDE, TRICHLOROETHYLENE, 1,1,1-TRICHLOROETHANE, CHLOROBENZENE, 1,1,2-TRICHLORO-1,2,2-TRIFLUOROETHANE, ORTHO-DICHLOROBENZENE, TRICHLOROFLUOROMETHANE, AND 1,1,2-TRICHLOROETHANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE LISTED IN F001, F004, OR F005, AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste code: F003
Waste name: THE FOLLOWING SPENT NON-HALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NON-HALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NON-HALOGENATED SOLVENTS, AND, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005, AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste code: F005

BDIS BECTON DICKINSON IMMUNOCY (Continued) **1000373920**

Waste name: THE FOLLOWING SPENT NON-HALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NON-HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Biennial Reports:

Last Biennial Reporting Year: 2007

Annual Waste Handled:

Waste code: D001
Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.
Amount (Lbs): 10765

Waste code: D002
Waste name: A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH, IS OFTEN USED BY INDUSTRIES TO CLEAN OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE DISPOSED, THE WASTE WOULD BE A CORROSIVE HAZARDOUS WASTE.
Amount (Lbs): 10765

Waste code: D003
Waste name: A MATERIAL IS CONSIDERED TO BE A REACTIVE HAZARDOUS WASTE IF IT IS NORMALLY UNSTABLE, REACTS VIOLENTLY WITH WATER, GENERATES TOXIC GASES WHEN EXPOSED TO WATER OR CORROSIVE MATERIALS, OR IF IT IS CAPABLE OF DETONATION OR EXPLOSION WHEN EXPOSED TO HEAT OR A FLAME. ONE EXAMPLE OF SUCH WASTE WOULD BY WASTE GUNPOWDER.
Amount (Lbs): 10765

Waste code: D009
Waste name: MERCURY
Amount (Lbs): 10765

Waste code: D035
Waste name: METHYL ETHYL KETONE
Amount (Lbs): 10765

Waste code: F002
Waste name: THE FOLLOWING SPENT HALOGENATED SOLVENTS: TETRACHLOROETHYLENE, METHYLENE CHLORIDE, TRICHLOROETHYLENE, 1,1,1-TRICHLOROETHANE, CHLOROBENZENE, 1,1,2-TRICHLORO-1,2,2-TRIFLUOROETHANE, ORTHO-DICHLOROBENZENE, TRICHLOROFLUOROMETHANE, AND 1,1,2-TRICHLOROETHANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE LISTED IN F001, F004, OR F005, AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND

Environmental Interest/Information System

The NEI (National Emissions Inventory) database contains information on stationary and mobile sources that emit criteria air pollutants and their precursors, as well as hazardous air pollutants (HAPs).

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Hazardous Waste Summary:

Waste code: D001
Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

Waste code: D002
Waste name: A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH, IS OFTEN USED BY INDUSTRIES TO CLEAN OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE DISPOSED, THE WASTE WOULD BE A CORROSIVE HAZARDOUS WASTE.

Waste code: D005
Waste name: BARIUM

Environmental Interest/Information System

The NEI (National Emissions Inventory) database contains information on stationary and mobile sources that emit criteria air pollutants and their precursors, as well as hazardous air pollutants (HAPs).

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Treat To Water:	Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity:	Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 11/01/2009
Date Data Arrived at EDR: 11/13/2009
Date Made Active in Reports: 01/11/2010
Number of Days to Update: 59

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 11/01/2009
Date Data Arrived at EDR: 11/13/2009
Date Made Active in Reports: 01/11/2010
Number of Days to Update: 59

Source: EPA
Telephone: N/A
Last EDR Contact: 01/14/2010
Next Scheduled EDR Contact: 04/26/2010
Data Release Frequency: Quarterly

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Date of Government Version: 10/15/1991
Date Data Arrived at EDR: 02/02/1994
Date Made Active in Reports: 03/30/1994

Next Scheduled EDR Contact: 11/16/2009
Data Release Frequency: No Update Planned

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Federal Delisted NPL site list

DELISTED NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 11/01/2009
Date Data Arrived at EDR: 11/13/2009
Date Made Active in Reports: 01/11/2010
Number of Days to Update: 59

Telephone: N/A
Last EDR Contact: 01/14/2010
Next Scheduled EDR Contact: 04/26/2010
Data Release Frequency: Quarterly

Federal CERCLIS list

CERCLIS: Comprehensive Environmental Response, Compensation, and Liability Information System

CERCLIS contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). CERCLIS contains sites which are either proposed to or on the National Priorities List (NPL) and sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 06/30/2009
Date Data Arrived at EDR: 08/11/2009
Date Made Active in Reports: 09/21/2009

Telephone: 703-603-8704
Last EDR Contact: 01/15/2010
Next Scheduled EDR Contact: 04/26/2010
Data Release Frequency: Varies

Federal CERCLIS NFRAP site List

CERCLIS-NFRAP: CERCLIS No Further Remedial Action Planned

Archived sites are sites that have been removed and archived from the inventory of CERCLIS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

Date of Government Version: 06/23/2009

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Federal RCRA generators list

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

Date of Government Version: 12/11/2009

State- and tribal - equivalent CERCLIS

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites
Included in the listing are brownfields properties addresses by Cooperative Agreement Recipients and brownfields properties addressed by Targeted Brownfields Assessments. Targeted Brownfields Assessments-EPA's Targeted Brownfields Assessments (TBA) program is designed to help states, tribes, and municipalities--especially those without EPA Brownfields Assessment Demonstration Pilots--minimize the uncertainties of contamination often associated with brownfields. Under the TBA program, EPA provides funding and/or technical assistance for environmental assessments at brownfields sites throughout the country. Targeted Brownfields Assessments supplement and work with other efforts under EPA's Brownfields Initiative to promote cleanup and redevelopment of brownfields. Cooperative Agreement Recipients-States, political subdivisions, territories, and Indian tribes become Brownfields Cleanup Revolving Loan Fund (BCRLF) cooperative agreement recipients when they enter into BCRLF cooperative agreements with the U.S. EPA. EPA selects BCRLF cooperative agreement recipients based on a proposal and application process. BCRLF cooperative agreement recipients must use EPA funds provided through BCRLF cooperative agreement for specified brownfields-related cleanup activities.

Local Lists of Hazardous waste / Contaminated Sites

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

Date of Government Version: 08/19/2009

DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

Data Release Frequency: Annually

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

Date of Government Version: 01/05/2009

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006

Data Release Frequency: Quarterly

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

Date of Government Version: 04/17/1995

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method.

EDR PROPRIETARY RECORDS

EDR Proprietary Records

Manufactured Gas Plants: EDR Proprietary Manufactured Gas Plants
The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Historical Cleaners: EDR Proprietary Historic Dry Cleaners
EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Oil/Gas Pipelines: This data was obtained by EDR from the USGS in 1994. It is referred to by USGS as GeoData Digital Line Graphs from 1:100,000-Scale Maps. It was extracted from the transportation category including some oil, but primarily gas pipelines.

Electric Power Transmission Line Data
Source: PennWell Corporation
Telephone: (800) 823-6277
This map includes information copyrighted by PennWell Corporation. This information is provided on a best effort basis and PennWell Corporation does not guarantee its accuracy nor warrant its fitness for any particular purpose. Such information has been reprinted with the permission of PennWell.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:
Source: American Hospital Association, Inc.
Telephone: 312-280-5991
The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing
Source: Centers for Medicare & Medicaid Services
Telephone: 410-786-3000
A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes
Source: National Institutes of Health
Telephone: 301-594-6248
Information on Medicare and Medicaid certified nursing homes in the United States.

Public Schools
Source: National Center for Education Statistics
Telephone: 202-502-7300
The National Center for Education Statistics' primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

Private Schools
Source: National Center for Education Statistics
Telephone: 202-502-7300
The National Center for Education Statistics' primary database on private school locations in the United States.

Daycare Centers: Licensed Facilities
Source: Department of Social Services
Telephone: 916-657-4041

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 2003 & 2009 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002 and 2005 from the U.S. Fish and Wildlife Service.

Scanned Digital USGS 7.5' Topographic Map (DRG)
Source: United States Geologic Survey
A digital raster graphic (DRG) is a scanned image of a U.S. Geological Survey topographic map. The map images are made by scanning published paper maps on high-resolution scanners. The raster image is georeferenced and fit to the Universal Transverse Mercator (UTM) projection.

Most Recent Revision:	1980
East Map:	37121-D7 CALAVERAS RESERVOIR, CA
Most Recent Revision:	1980

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

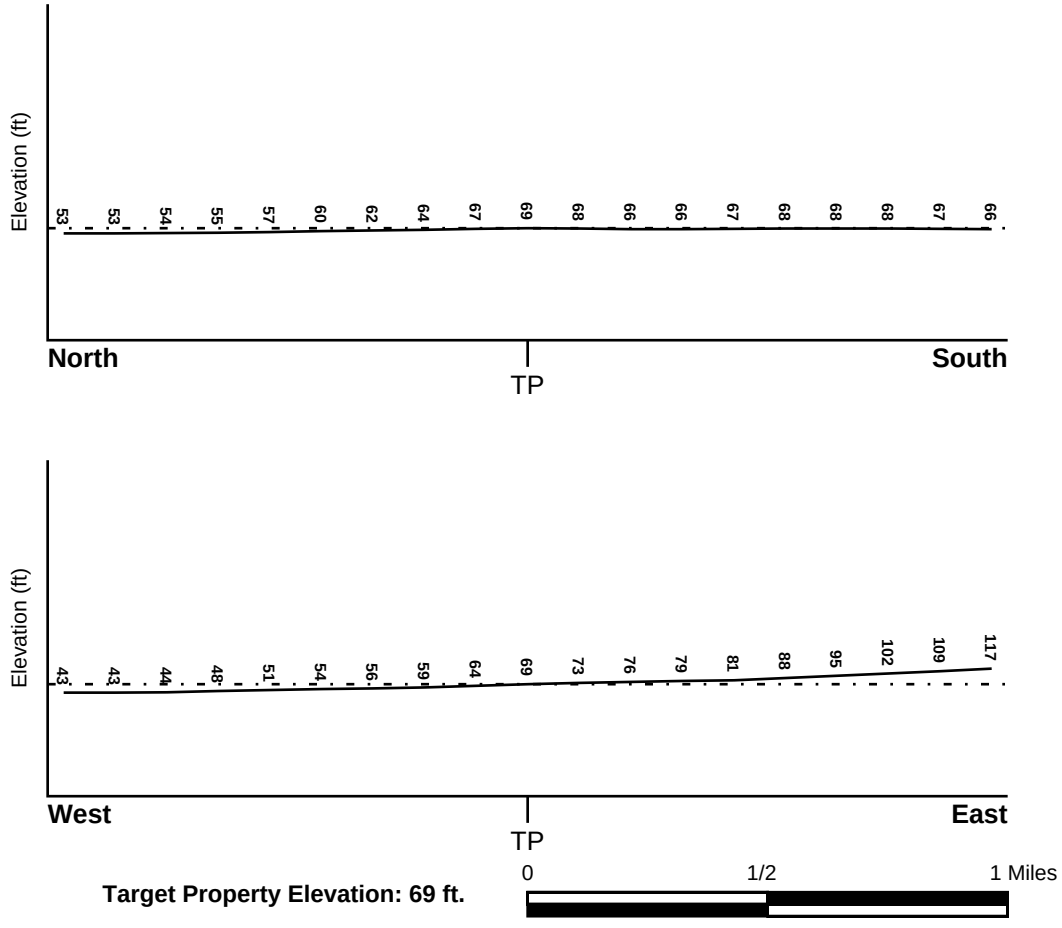
TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General West

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES



Target Property Elevation: 69 ft.

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

Target Property County	FEMA Flood Electronic Data
SANTA CLARA, CA	YES - refer to the Overview Map and Detail Map

Flood Plain Panel at Target Property: 06085C - FEMA DFIRM Flood data

Additional Panels in search area: Not Reported

NATIONAL WETLAND INVENTORY

NWI Quad at Target Property	NWI Electronic Data Coverage
MILPITAS	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Location Relative to TP:	1 - 2 Miles North
Site Name:	North American Transformer
Site EPA ID Number:	CAD044867604
Groundwater Flow Direction:	NOT AVAILABLE.
Measured Depth to Water:	4 feet to 16 feet.
Hydraulic Connection:	An aquitard that separates the upper and lower aquifers at the site is absent within one mile of the site.
Sole Source Aquifer:	No information about a sole source aquifer is available
Data Quality:	Information based on site-specific subsurface investigations is documented in the CERCLIS investigation report(s)

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

MAP ID	LOCATION FROM TP	GENERAL DIRECTION GROUNDWATER FLOW
Not Reported		

* ©1996 Site--specific hydrogeological data gathered by CERCLIS Alerts, Inc., Bainbridge Island, WA. All rights reserved. All of the information and opinions presented are those of the cited EPA report(s), which were completed under a Comprehensive Environmental Response Compensation and Liability Information System (CERCLIS) investigation.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

ROCK STRATIGRAPHIC UNIT

Era:	Cenozoic
System:	Quaternary
Series:	Quaternary
Code:	Q *(decoded above as Era, System & Series)*

GEOLOGIC AGE IDENTIFICATION

Category: Stratifed Sequence

Geologic Age and Rock Stratigraphic Unit Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - a digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps. The following information is based on Soil Conservation Service STATSGO data.

Soil Component Name:	BOTELLA
Soil Surface Texture:	clay loam
Hydrologic Group:	Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.
Soil Drainage Class:	Not reported

Hydric Status: Soil does not meet the requirements for a hydric soil.

Corrosion Potential - Uncoated Steel:	MODERATE
Depth to Bedrock Min:	> 60 inches
Depth to Bedrock Max:	> 60 inches

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Layer Information							
	Boundary			Classification			
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil	Permeability Rate (in/hr)	Soil Reaction (pH)
1	0 inches	9 inches	clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 0.60 Min: 0.20	Max: 7.30 Min: 5.60
2	9 inches	41 inches	silty clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 0.60 Min: 0.20	Max: 7.80 Min: 5.60
3	41 inches	76 inches	sandy clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	COARSE-GRAINED SOILS, Sands, Sands with fines, Clayey sand.	Max: 0.60 Min: 0.20	Max: 7.80 Min: 5.60

OTHER SOIL TYPES IN AREA

Based on Soil Conservation Service STATSGO data, the following additional subordinant soil types may appear within the general area of target property.

Soil Surface Textures: No Other Soil Types

Surficial Soil Types: No Other Soil Types

Shallow Soil Types: No Other Soil Types

Deeper Soil Types: No Other Soil Types

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Scanned Digital USGS 7.5' Topographic Map (DRG)
Source: United States Geologic Survey
A digital raster graphic (DRG) is a scanned image of a U.S. Geological Survey topographic map. The map images are made by scanning published paper maps on high-resolution scanners. The raster image is georeferenced and fit to the Universal Transverse Mercator (UTM) projection.

HYDROLOGIC INFORMATION

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 2003 & 2009 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002 and 2005 from the U.S. Fish and Wildlife Service.

HYDROGEOLOGIC INFORMATION

AQUIFLOW^{R} Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Services
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Services (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Services, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

STATE RECORDS

Water Well Database
Source: Department of Water Resources
Telephone: 916-651-9648

California Drinking Water Quality Database
Source: Department of Health Services
Telephone: 916-324-2319
The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

OTHER STATE DATABASE INFORMATION

California Oil and Gas Well Locations
Source: Department of Conservation
Telephone: 916-323-1779
Oil and Gas well locations in the state.

RADON

State Database: CA Radon
Source: Department of Health Services
Telephone: 916-324-2208
Radon Database for California

Area Radon Information
Source: USGS
Telephone: 703-356-4020
The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones
Source: EPA
Telephone: 703-356-4020
Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

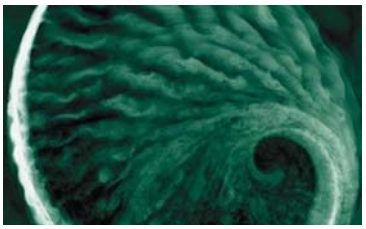
Appendix E



URGENT and CONFIDENTIAL FAX BACK TO **631-756-8901**

USER QUESTIONNAIRE for PHASE ONES

AS REQUIRED by ASTM Standard E1527-05

To:	Nicole Repetti	From:	Karen DeMarinis
At:	ERM	At:	BD, Franklin Lakes, NJ
Fax:	631-756-8901	Pages:	1
Phone:	631-756-8957	Date:	March 8, 2009

Site Name: BD Bioscience

Address: 2150 Commerce Drive, San Jose, CA

The person who will use the Phase One should provide the following information. Please fill in this form to the best of your ability, explaining any Yes answers on a separate sheet of paper. Without these answers, our report would have to note that the Phase One is incomplete, and your Landowner Liability Protections could be at risk. We need these answers before we conduct the site visit.

1. **Environmental Cleanup Liens.** ASTM requires the User to check for environmental liens that may be filed or recorded against the subject property under federal, tribal, state or local law. Such liens might be listed in the "exceptions to coverage" in the property's title insurance commitment or policy. Failure to check for these liens could put your Landowner Liability Protections at risk.

   Have you checked for these environmental cleanup liens? ☐ Yes X No
   Are you aware of any such liens against the subject property? ☐ Yes ☒ No

2. **Activity and Use Limitations (AULs).** These include engineering controls (e.g., slurry walls, caps) and land use restrictions or institutional controls (e.g., deed restrictions, covenants) that may be in place at the site or filed under federal, tribal, state or local law. The title commitment or policy might also list AULs.

   Are you aware of any possible AULs involving the subject site? ☐ Yes ☒ No

3. **Specialized Knowledge.** This involves personal knowledge or experience related to the subject property or nearby properties. For example, if you are involved in the same line of business as the current or former occupants of the property or an adjoining property, you would probably know of any chemicals, oil, degreasers, gasoline, or other hazardous substances commonly used in that type of business.

   Do you have any specialized knowledge that might indicate the past or present use or release of such substances on the subject or nearby properties? ☐ Yes ☒ No

4. **Fair Market Value (FMV).** A purchase price significantly below FMV may indicate an environmental problem. Please note that this question does not require an appraisal of the property. If the price is significantly below FMV, the User should consider whether it might be because contamination may be present at the property.

   Is the purchase price significantly below fair market value? ☐ Yes ☒ No

5. **Obvious Indicators.** This involves past or present spills, stains, releases, cleanups, etc. on or near the site.

   Do you know of any obvious indicators of possible contamination on or near the site? ☐ Yes ☒ No

6. **Common Knowledge.** Please use a separate sheet if necessary.

   a. Describe the past uses of the property: Semi conductor manufacturing and printed circuit board assembly. Previous tenant was Dynamic Details, now known as Oncore manufacturing. A contact at Oncore is Sajjad Halik, Sr. VP at 408 228 5462.

   b. Describe any specific chemicals that may have been present at the property: No information

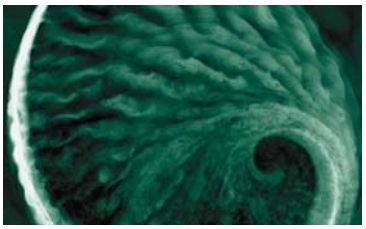
   c. Describe any other information that may help us identify possible contamination: None

Karen DeMarinis 3/8/10

Your Signature **Date**

# of separate sheets attached: —
Explain Yes answers on a separate sheet.

Appendix F



Peter Baty

Program Director

Peter is a Program Director based in ERM's Walnut Creek, California office. Peter has over 13 years of experience in the environmental consulting/ engineering field with expertise in environmental due diligence and liability assessment; environmental, health and safety (EHS) compliance assurance; and corporate social responsibility advisory services.

Peter advises clients on a wide range of transaction types, encompassing mergers, acquisitions and divestitures. He is often involved in the quantification of financial liabilities associated with site contamination and operational EHS issues. He also advises clients during contract negotiation and the development/ implementation of mitigation plans. In addition, he works with industrial clients to develop strategies to ensure EHS compliance.

Peter provides consulting services to a wide variety of multi-national private and public sectors including banking & finance, food & drink, manufacturing, defence, chemicals, utilities, pharmaceutical, and transportation.

In addition to working in North America, Peter spent four years working in Asia Pacific, based in ERM's Sydney, Australia office. Peter has an in-depth understanding of the global landscape, with projects conducted and/or managed in locations throughout Europe, Asia, North America, and South America.

Peter is an active member of the ERM Foundation, a unique non-profit employer/employee partnership that provides financial and human resource support to community and grass roots environmental and social efforts around the globe. He served on the North America Board of Directors 2001 to 2005 and established and managed the ERM Foundation in Australia from 2005 to 2007.

Professional Affiliations and Registration

- Registered Environmental Assessor (REA) California (07813)
- Engineer-in-Training (#017-0002310)

Due Diligence

Peter has managed and performed transactional due diligence efforts at hundreds of sites throughout North America, Europe, Australia/New Zealand, and Asia to support mergers, divestitures, acquisitions, real property transfers, lease evaluations, foreclosures, and financing. Summaries for several recent example projects are provided below:

Phase I Environmental Site Assessments (ESAs) – Performed or managed hundreds of Phase I ESAs in North America to the ASTM E 1527-05 and -00 Standards and the standards for conducting all appropriate inquiries (AAI) set forth by the USEPA at 40 CFR Part 312.

Environment and Social Due Diligence and Compliance Assessment - Palm Oil Plantation and Mill Facility, Papua New Guinea: Managed a team of three auditors to perform a comprehensive environmental assessment, including preliminary Phase II sampling. The assessment was commissioned to address significant environmental and human health impact claims made by the local community and international NGOs.

EHS&S Due Diligence Assessment – British Petroleum in Jilin, China: Assessment for a potential ethanol facility acquisition in Jilin, China. Audit included assessment of material environmental, OHS, and social issues/liabilities. Key areas of concern were identified and presented to the BP acquisitions team.

Environmental Liability Assessment – Non Operational Mining Sites (Confidential Client), Montana, USA: Developed comprehensive environmental liability estimates for several inactive mining sites in preparation for bankruptcy proceedings.

Environmental Due Diligence – Burke Industries Facility, San Jose, California: Assessment for a proposed acquisition by Mannington Mills Inc. Based upon the initial assessment, a Phase II subsurface investigation was performed. Additional services provided included interactions with insurance brokers & providers, regulators, and financial providers; assistance with contract negotiations; and assistance with regulatory disclosure documentation.

Environmental Vendor Due Diligence and Compliance Assessment – United Airlines Aircraft Maintenance Facility, Oakland, USA: Performed environmental assessment required for the closure of a large United Airlines manufacturing and maintenance facility in Oakland, California.

Environmental Due Diligence – Paine & Partners, 11-Site Manufacturing Facility Portfolio, Global: Managed a global team to assess environmental liabilities at eleven (11) facilities, each located in a different country over five continents.

EHS Acquisition Due Diligence Assessments – 30+ Pulp & Paper Facilities (Confidential Client), Australia and China: Managed a team of eight auditors to perform EHS liability assessments for a potential acquisition.

Phase I and II EHS Vendor Due Diligence Liability Assessments – Battery Manufacturing Facilities (Confidential Client), New Zealand and Australia: Managed a team of three auditors to perform Phase I and II divestiture assessments on four battery manufacturing facilities in (2) New Zealand and (2) Australia.

Environmental Acquisition Due Diligence Assessments and Compliance Audits – Drill Rig Manufacturing and Maintenance Facilities (Confidential Client), New Zealand, Australia, and Indonesia: Managed a team of five auditors to perform Phase I due diligence liability assessments and compliance audits on five facilities.

EHS Due Diligence Liability Assessments – Water Tank Manufacturing Facilities, Mexico City and Toluca, Mexico: Performed EHS audits at two manufacturing facilities in Mexico City and Toluca, Mexico. Audits were performed to evaluate compliance with internationally recognised standards (World Health Organisation and the World Bank), as well as Mexican federal, state, and local requirements. Audits were performed for the Overseas Private Investment Company (OPIC) to fulfil due diligence requirements prior to international investment.

EHS Due Diligence Liability and Compliance Assessments, New South Wales and Victoria, Australia: Managed a team of three auditors to perform EHS compliance and acquisition due diligence liability assessments on two plastics manufacturing facilities.

In addition to the projects described above, Peter has provided due diligence services to the following clients:

- CVC
- TPG
- KKR
- HP
- BP
- Intel
- Merck
- J&J
- ANZ Bank
- Koch Industries
- Honeywell
- Procter & Gamble
- Dow Chemical
- Cisco Systems
- United Airlines
- Arch Chemicals
- Citigroup
- Mitsui
- Virgin
- Alcoa
- Rio Tinto
- Greif
- Goodrich
- Covidien

Compliance Assurance

Peter has managed and performed EHS compliance audits at over 150 sites throughout North America, Europe, Australia/New Zealand, and Asia to support mergers, divestitures, acquisitions, real property transfers, lease evaluations, foreclosures, and financing. Summaries for several recent example projects are provided below:

EHS Compliance Assurance Management System Development – Chevron, Richmond, CA: Managed the development of a comprehensive EHS compliance assurance management system for the Richmond Refinery.

Environmental Compliance Audit Program (Multi Site) – Koppers Asia Pacific: Managed the implementation of Koppers' Asia Pacific environmental compliance audit program. 14 heavy industrial and chemical sites located in Australia, New Zealand, China, South Africa, Malaysia, and Fiji.

EHS Compliance Audits – Cadbury Schweppes Facilities in Dunedin and Auckland, New Zealand: EHS program audit and regulatory review against Cadbury internal and external regulatory standards). Potentially significant compliance and liability issues were highlighted.

Environmental Compliance – United Airlines, Western United States: Served as the temporary western-region compliance coordinator for United Airlines (9-month period). Helped develop, implement, and audit a comprehensive compliance program to ensure environmental compliance at over 20 stations and maintenance facilities.

EHS Compliance Audits – Penford Facilities in Auckland, New Zealand and Sydney, Australia: EHS compliance audits (against Penford Corporate and regulatory standards) of three facilities manufacturing food-grade starches, proteins, and other wheat or maize derived products.

EHS Compliance Audits – Goodrich Maintenance Facilities, New Zealand and Australia: Managed a team of three auditors to perform EHS audits on two Goodrich aircraft parts maintenance facilities.

EHS Compliance Audits – Beauty Products Manufacturing Facilities, Los Angeles, USA and Sydney, Australia: Works included site reconnaissance, site history review, regulatory authority's liaison, and report preparation. Potentially significant compliance and liability issues were highlighted.

Compliance Assurance and Pollution Prevention Assessments – United States Air National Guard, Western United States: Developed Compliance Assurance and Pollution Prevention Management Action Plans for 20 Air National Guard Bases across the western United States. Plans were developed to implement cost-effective strategies for compliance with existing or new environmental requirements, while minimising or eliminating potential hazards to human health and the environment. Program resulted in significant reductions in raw materials use, hazardous and solid waste generation, air and wastewater emissions, and storm water pollutants, and in increase in amount of materials recycled. Program has also provided significant cost savings to client.

Storm Water Management Program – Caltrain, San Jose to San Francisco, USA: Developed storm water management program for Caltrain, a Northern California commuter railway (including stations, maintenance facilities, and rights-of-way). Developed SPCC plans and obtained industrial NPDES wastewater and storm water discharge permits at various locations.

Storm Water Management – Greif Inc., Various Locations, USA: Developed SWPPPs for multiple Greif Inc. metals fabrication and packaging sites in eight western states. Included program management, facility storm water and hazardous waste management assessment, employee training, and reporting. Assisted in development of online deliverable database, providing facility managers and program managers easy access to each facility's various environmental plans (including SWPPPs, ACM surveys, SPCCs).

In addition to the projects described above, Peter has performed EHS compliance audits to the following clients:

- Koppers
- PPG
- BP
- Intel
- ProLogis
- Penford
- LSI
- Honeywell
- Procter & Gamble
- Dow Chemical
- Cisco Systems
- United Airlines
- Bluescope Steel
- Arch Chemicals
- Virgin
- Alcoa
- Rio Tinto
- Greif
- Goodrich
- Nyrstar
- Lennox

Corporate Advisory Services

Social Responsibility Policy Development – South East Asian Investment Fund (Confidential Client): Developed an investment-level CSR policy for a newly established South East Asian industrial investment fund. The project included workshops with key decision-makers, a benchmarking assessment of peer investment groups, and the development of a policy focusing primarily on the fund's ability to influence the environmental and social performance of its investment companies (i.e., the fund's external impacts).

EHS Compliance Management System Development - Global Oil & Gas Company (Confidential Client), California: Developed an environmental, health & safety regulatory compliance management system for a large oil refinery, on behalf of a global oil & gas company. This project was part of an early adopter program in anticipation of a global roll-out to all facilities globally (roughly 150 facilities).

Partnership Risk Review, Major International Conservation Organisation and a Major Australian Bank: Performed an environmental, social and human rights risk review of the partnership between a large conservation NGO and a "big four" Australian bank. Included detailed assessments to identify potential reputation risks as well as presentation of methods to minimise these risks for each organisation or the partnership.

Waste Treatment Industry /Market Analysis - Confidential financial investment client, USA, UK, and Canada: , ERM prepared a high-level, but comprehensive report, to allow the client to better understand the waste treatment sector and the potential drivers, incentives, and barriers associated with operating in the US, UK, and Canada (federal and state/province/territory). Assessments addressed key market drivers/barriers, industry trends, consumer sentiment, government incentives, and profiles of key global players. Further in-depth assessments performed on the following types of waste/waste treatment: electronic waste (e-waste), automotive shredder residue (ASR), and waste to energy (WTE) technologies.

Global Product Risks and Opportunities Assessment – BlueScope Steel: ERM performed a product risks and opportunities assessment in all areas across the globe where BlueScope products are sold. Assessments addressed specific existing and pending legislation that could encourage or inhibit the sale of BlueScope products, market and consumer sentiment trends analyses, and other potential risks or opportunities for BlueScope products globally.

Sustainability Reporting Data Verification – Zinifex (now Nyrstar), South Australia and Tennessee: Audited sustainability reporting data for the world's largest lead smelter in South Australia and a large zinc smelter in Tennessee.

Waste Classification and Management Assessment - Aluminium Processing, NSW, Australia: Managed a team of experts in assessing the hazardous characteristics (including human and ecological toxicity) of aluminium waste and determining the options for management (including shipment overseas for recycling under the auspices of Basel Convention).

Greenhouse Gas Abatement Scheme Audit, NSW Australia: Contracted by IPART to conduct a positive assurance audit of NSW Greenhouse Gas Abatement Certificates (NGACs) by Commonwealth Bank of Australia (CBA) under the NSW Greenhouse Gas Abatement Scheme (Project Manager and Lead Auditor).

Greenhouse Gas Management – Semiconductor Manufacturing, San Francisco, USA: Developed a comprehensive greenhouse gas (GHG) emissions management presentation for Seagate Technologies. Included current and anticipated GHG reduction treaties, regulations, voluntary programs, and consumer demand trends in the United States and abroad. Presented strategies and recommendations for measuring, reporting, and reducing the company's direct and indirect GHG emissions.

Solid Waste Management - Semiconductor Manufacturing, San Francisco, USA: Developed a software program as a self-assessment tool for manufacturing facilities world-wide to assess current waste streams and to assist with identifying and strategically targeting specific waste streams for recycling or reduction opportunities.

Environmental Reporting – Semiconductor Manufacturing, San Francisco, USA: Evaluation of current environmental management and reporting trends among the world's largest semiconductor and electronics manufacturers. Areas evaluated included energy usage, greenhouse gas emission, lead-free manufacturing, environmental sustainability, and corporate responsibility and product stewardship.

Nicole M. Repetti

Ms. Repetti has over eight years of diverse experience in the environmental consulting industry and providing paralegal services to a prestigious environmental law firm. Ms. Repetti has provided assistance on various environmental site assessment projects as well as regulatory compliance reporting assignments, and has provided investigation and remediation support activities including: groundwater evaluations both in the field and on paper through contour/plume mapping and on-site sampling; groundwater, soil, soil vapor and air sampling, monitoring and soil boring logging during subsurface investigations; groundwater and soil vapor recovery/treatment plant operations; and Phase 1 (Due Diligence) environmental assessments.

Ms. Repetti has also assisted in the development and implementation of work plans and subsequent investigatory findings reports submitted to state and federal agencies for review and approval. Most recently, auditing as per the Federal Accounting Standards Board (FASB) Regulations for asset retirement obligations has been added to this repertoire of skills.

Key Projects

Project Manager for a Remedial Action/Redevelopment project involving a Site accepted into the New York State Brownfield Clean-up Program (BCP). The Site was formerly a lead works facility located in Brooklyn, NY and the subsurface shows exceedences of lead in soil and volatile organic compounds(VOCs) in the groundwater and sub-slab soil vapor. ERM and Ms. Repetti have been involved in the scoping of the remedial action and implementation of the supplemental design.

Project Manager for a Site Investigation project involving a Site accepted into the New York State Voluntary Clean-up Program (VCP), the precursory program to the BCP. The Site is an active manufacturer of small metal parts using processes that include metal stamping, deburring and washing. On-Site and off-Site investigations showed exceedences of SVOCs in on-site drainage structures and VOCs in off-site groundwater and sub-slab soil vapor and indoor air. An SVE system was designed and implemented at the Site and shallow excavations will be initiated to remediate the surficial SVOC issues. A comprehensive Site Investigation and Remedial Design Report is currently being drafted and will be submitted to the NYSDEC Case Manager upon its completion.

Team member for several auditing projects prompted by the March 2005 Federal Accounting Standards Board (FASB), Financial Accounting Standard 143 (FASB Interpretation NO. 47 (FIN 47)). Projects consisted of performing site visits at several Multi-national companies to determine which of their tangible assests, upon retirement, would be subject to environmental regulatory closure requirements. A questionnaire linked to US federal and/or EU environmental regulations was developed to assist in these audits. Upon determination of the assets to include, each company set aside a reserve fund to capture these costs if they were to ever retire these assets. Annual review of these asset lists will be required.

Conduct site specific regulatory applicability analysis for international oil company. Project consists of reviewing federal, state and local regulations for portfolios of sites and determing whether they are applicable to that portfolio. If found to be applicable, action tasks are written for various individuals to maintain compliance at the facilities in each portfolio. ERM has developed a database system to organize this project, which will later be melded into the clients own compliance tracking system. ERM and myself were responsible for training users of the system during the deployment of the compliance management system.

Project Team Leader for a Soil Vapor Intrusion Study in Jamaica, NY. Activities included outdoor and sub-slab soil vapor and indoor air sampling of multiple residences to assess the off-site impacts of a former drycleaning supply warehouse. Responsible for work plan development, project implementation and continued public relations within the neighborhood. Ultimate goal of this project is to install passive venting systems in residences where sampling results exceeded regulatory guidelines. Have since participated in several other studies of the same type in multiple locations.

Participated in a Flourescent Dye Tracing Test conducted in Glen Cove, NY. Assisted in the data acquisition which led to the selection of the dye injection points, preparation of monitoring points via permanent glass bailers and continuously monitor the site for signs of the dye in down/cross gradient monitoring locations.

Provided consulting services to a confidential client regarding the drafting of their Deed Notice to accompany the property Deed on File. Former operations at the site included the manufacture of various medical apparatus (i.e. syringes, thermometers, etc.). Services included review of applicable state environmental guidelines and ensuring future implementation of these guidelines at the site via engineering controls and redevelopment restrictions.

Developed and submitted an application to the New Jersey Department of Environmental Protection (NJDEP) for Wetlands Permit. This permit would allow our client to conduct remedial measures in multiple zones of their property that the NJDEP has classified as a protected New Jersey wetland. These measures included the installation of several monitoring wells and the excavation of impacted soils in another location.

Provided Contractor-Field Oversite for the New York State Department of Environmental Conservation (NYSDEC) for a major former Manufactured Gas Plant (MGP) Remediation in Westchester, NY. The site work was conducted by a third party environmental consultant, unionized construction contractor, and various unionized labor parties (i.e. teamsters, welders, concrete/rebar specialists, heavy equipment operators, and laborer union members). Specifically provided on-site support for the NYSDEC regarding scope of work execution, liason for change order submittals, restoration oversight of highly sensitive areas along the coastline and in the Hudson River, and provided support at weekly contractor meetings.

Project Team Member for a Phase I Investigation conducted for a hotel chain with 101 locations across the United States. Played an integral role in reviewing/reporting pertainent EDR Report information, coordinating site visit information from auditors, and the Final Phase I Investigation Reports for each location.

Conducted Quarterly Groundwater Monitoring activities for various petroleum impacted sites in the 5 boroughs of New York City, Long Island and New Jersey.

On-site coordinator of subcontractors conducting product extraction with vacuum trucks and conducted air monitoring for this remedial action.

Provided support to on-site field managers on various remedial investigations and well installations providing soil boring logging and soil/groundwater sampling.

Project support for Phase I/Phase II, Remedial Investigation Reports, and Due Diligence Document reviews.

Conducted Annual and Semi-annual Compliance/Monitoring audits and subsequent reporting for New York State Department of Environmental Conservation Title V Air Facility Permit holders.

Developed and submitted SARA Title III (tier I & tier II) reports for a major contract packaging company.

Provided marketing and field support for an Environmental Construction Firm focused primarily on Wastewater Treatment Facilities. Daily activities included treatment plant effluent sampling to assure compliance with various discharge permits in place, carbon system change out documentation and waste handling procedures, and proposal and SOQ development.

Paralegal responsible for research, document production and coordination, and correspondence with NY/NJ court officials.

Arthur Taylor

Arthur (Teke) Taylor is a Project Engineer at ERM, based in Walnut Creek, California. Since joining ERM, Teke has worked on several due diligence and site investigation and remediation (SIR) projects in the chemical, petrochemical, transportation and manufacturing industries. During this time Teke has performed several Phase I and Phase II environmental site assessments (ESA).

Phase I ESAs have included extensive record (data room) reviews to determine site history and identify potential environmental concerns; review of aerial photographs, historical maps, building permits, city directories, on-site records, and regulatory documents from federal, state, and local authorities, inspection of the property and surrounding properties, and interviews with facility employees.

Duringhis work on Phase II ESAs and remediation projects Teke has gained valuable skills in contaminant plume delineation, groundwater modeling, numerous ex and in-situ remediation techniques, soil-water-vapor partitioning, natural attenuation evaluation, corrective action plan development, and waste characterization and disposal.

Teke has also conducted desktop environmental risk assessments of real estate portfolios and commercial petroleum sites. For these projects, Teke used Monte Carlo modelling to estimate the probable costs associated with potential environmental contamination for these assets.

Teke is proficient in Surfer 8, Winlogs 3.12, and Arcview 8 and has developed an Excel-based program for the Tier 1 screening of chemical results.

Key Projects

Phase I ESA of 2 Metal Forging Plants, California, 2007
Review available records pertaining to site history, use and potential environmental impacts. Investigation of regulatory requirements. Site visit to assess potential areas of environmental impact, including emissions. Review site permits and regulatory documents. Health and safety audit. Audit of waste handling and disposal practices.

Probabilistic Cost Risk Analysis of Real Estate Portfolio, Confidential Client, Germany, 2007
Performed Monte Carlo analysis to estimate probable costs associated with environmental issues for over 1200 assets of various usages, from residential to industrial, throughout Germany. Developed a Monte Carlo model, using the Excel plug-in, Crystal Ball, to estimate the potential costs associated with remediation of soil and ground water contamination, as well as asbestos and PCBs in building materials. Provided technical assistance in drafting final report.

Phase I ESA of Food Processing Plants, California, 2007
Review available records pertaining to site history, use and potential environmental impacts. Site visit to assess potential areas of environmental impact. Assessed compliance of wastewater treatment system, furnaces and other processes onsite.

NPDES Permitting and Compliance, Mirant, California, 2006-2007
Provides technical support for NPDES self-monitoring program, analytical data, and sampling plans for Mirant's gas powered power plants in Potrero, California. Assisted in development of Intake Credit determination protocol to be used to evaluate non-contact cooling water effluent at the plant. Performed statistical analysis of existing data and quantification of factors contributing to data variability.

Compliance Audit, General Electric, California, 2006
Performed compliance audit of waste water treatment system. Identified compliance issues and assisted client in meeting identified compliance issues.

Corrective Action Plan, Aegis, California, 2006
Helped to develop a corrective action plan to remediate TPH-contaminated soil and ground water. Performed technical review of existing data to develop model of water-soil-vapor partitioning of contaminant. Evaluated the feasibility, cost effectiveness, and estimated time to achieve cleanup goals of several remedial options.

Monitored Natural Attenuation Evaluation, BNSF Railway California, 2006
Evaluated effectiveness of Monitored Natural Attenuation as a remedial strategy at an HVOC-contaminated site. Performed geology and hydrology review, literature review on reductive dehaolgenation of HVOCs, analysis of existing data, identification indicators of natural attenuation occurring, and calculations of degredation rates. Produced technical portions of final report.

Commercial Petroleum Sites Asset Divestiture Program, Shell, South Africa 2004-2005
Compiled available environmental data and developed a model for characterizing environmental vulnerability and sensitivity of each site. Developed Monte Carlo model to determine most-likely and reasonable worst-case scenario costs associated with potential soil and ground water contamination at these sites. Assisted with fieldwork and reporting for soil vapor survey of 25 of the UST systems in the portfolio.

Phase II Soil and Ground Water Investigation, Johnson Diversey, South Africa, 2004-2005
Project Consultant involved in the installation and sampling of 20 monitoring wells and the investigation of VOCs, SVOCs, TPH, and metals in the soil and groundwater at a chemical manufacturing company.

Soil and Ground Water Investigation, General Electric, South Africa, 2004
Provided engineering support for soil and ground water investigation at an electronics manufacturing site as part of an acquisition. Assisted in installation and sampling of 10 monitoring wells. Performed on-site analysis of soil vapor VOCs using photo ionisation detector. Compiled field notes and laboratory results for reporting purposes.

Waste Audit, Woolworths, South Africa, 2004
Complied audit results and analyzed data for statistical purposes.

EIA for Proposed Development in Cape Town, South Africa, 2004
Developed a website as part of the Environmental Impact Assessment requirement to make information available to the public.

APPENDIX A	SITE PHOTOGRAPHS
APPENDIX B	VISTA DATABASE REPORT

EXECUTIVE SUMMARY

E_2C, Inc. (E_2C) has completed a Phase I Environmental Site Assessment (ESA) of the property at 2150 Commerce Drive in San Jose, California (referred to hereinafter as the Site). This Site assessment was prepared for Manuel & Juanita Del Arroz and/or their agents in June of 2000.

This assessment included the visual survey of the Site, "curb-side" inspection of immediately adjacent properties, review of historical documentation, review of local agency files specific to the Site, and a review of regulatory databases that identify nearby sites of potential environmental concern. The purpose of this assessment was to evaluate the Site for real and potential environmental impairments, or risks of impairments, that may represent existing or potential financial and legal liabilities to Manuel & Juanita Del Arroz and/or their agents.

Historical Review

Review of available building department records, city directories, and historical aerial photographs revealed that the Site was originally developed prior to 1954 as farmland, and remained in agricultural use until 1982 when it was converted to light industrial use. The Site building was originally constructed in 1982 for Exel Microelectronics, Inc., continuously occupied by Exel until this year. Currently the Site consists of one vacant single-level building and surrounding parking lots. Since at least 1995, ROHM Corporation co-occupied the building space with Exel, and since at least 1999, Magepower Semiconductor Corporation became a third co-occupant.

Current Conditions

At the time of the site visit, the Site consisted of a 3.78-acre developed parcel of land occupied by a single-level industrial building and associated asphalt paved parking areas. The building was vacant and all chemical storage tanks were empty. No obvious environmental hazards were observed.

The following conditions were assessed during our inspection and did not appear to be of significant environmental concern based on either their absence or non-applicability to the Site:

- hazardous materials/waste storage, use, and/or disposal
- radon gas
- existing aboveground or underground storage tanks
- wetlands
- solid waste
- Polychlorinated Biphenyls
- wells

Off-Site Sources of Environmental Concern

E_2C contracted with VISTA Information Solutions, Inc. (VISTA) of San Diego, California for the preparation of a computerized geographical database search to identify agency-listed sites of potential environmental concern located within a one-mile radius of the Site. Based on the available data, E_2C concludes that the subject Site has likely not been environmentally impacted by any of the agency-listed sites.

Conclusions and Recommendations

Based on the data obtained during the preparation of this ESA, it is our professional opinion that the potential for the subject Site to have been adversely impacted by past or present on-site activities or by the migration of contamination from listed off-site sources is not likely.

As a result of the on-site reconnaissance, records research, historical investigation, and review of Federal, State, and local reported environmental information, this assessment has revealed no obvious evidence of recognized environmental conditions that could potentially impact the subject Property. No further investigation is recommended at this time.

1.0 PURPOSE AND SCOPE

This report presents the results, conclusions, and recommendations from the Phase I Environmental Site Assessment (ESA) for the property located on 2150 Commerce Drive in the City of San Jose, California (hereinafter referred to as the "Site").

1.1 Purpose

The purpose of this investigation was to conduct an environmental assessment that would address real and potential environmental impairments, or risks of impairments, that may represent existing or potential financial and legal liabilities to Manuel & Juanita Del Arroz and/or their agents.

1.2 Scope of Services

The Scope of Services for the performance of this Phase I ESA included the following tasks:

- Research and review of available geologic and hydrogeologic information concerning the vicinity of the Site.
- Review of available historical documentation of the property to determine what activities have occurred at the Site and immediately adjacent sites since the Site's first developed use or since 1940 (whichever is earlier).
- General survey of current uses of immediately adjacent properties.
- Inspection of the Site to determine current on-Site activities and past uses.
- Review of available local regulatory files concerning chemical use and storage at the Site.
- Acquisition of a computerized review of federal publications to identify National Priority List (NPL) sites. Resource Conservation and Recovery Act (RCRA) corrective action sites; United States Environmental Protection Agency (EPA), Region 9, Comprehensive Environmental Response, Compensation, and Liability Information System (CERCLIS) sites. RCRA Treatment, Storage and Disposal (TSD) facilities; and Emergency Response Notification System (ERNS) sites located within close proximity to the subject site as well as landfills, Leaking Underground Storage Tanks (LUST) sites and registered underground storage tank (UST) sites.
- Review of reports concerning on-going investigations at nearby agency-listed sites.
- Preparation of this report in general accordance with the document entitled *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessments Process* (The American Society for Testing and Materials [ASTM], E 1527-97).

1.3 Limitations

The conclusions of this report are based solely on the Scope of Services outlined above, and on the sources of information referenced in this report. Any additional information that becomes available concerning this Site should be submitted to E_2C, Inc. so that our conclusions may be reviewed and modified, if necessary. No soil, groundwater, or building material samples were collected or analyzed as part of this study.

The accompanying report presents a description of the work performed by E_2C, Inc. and was prepared using guidelines presented in the document entitled, *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process (The American Society for Testing and Materials [ASTM], E1527-97).* It should be noted that this report has been prepared to generally accepted industry standards and may need to be modified to meet specific lender requirements.

2.0 SITE LOCATION AND DESCRIPTION

The Site consisted of a 3.7-acre parcel of land, occupied by a single-level, vacant industrial building, located at 2150 Commerce Drive in the City of San Jose, California. The Site was legally described as Assessor's Parcel Number 244-15-003. A Topographic Map (Figure 1) and Site Vicinity Map (Figure 2) are provided in the *Figures* section of this report.

Review of the United States Geologic Survey (USGS) Milpitas Quadrangle, California, 7.5-Minute Series Topographic Map indicates that the Site and general vicinity lie at an elevation of approximately 65 feet above mean sea level with a slight topographic gradient downward in a northwesterly direction (USGS, 1961, photo-revised 1980).

The Site is located in the northern side of San Jose, east of Interstate 880. The area is developed primarily with commercial, manufacturing, light industrial, and residential properties.

3.0 SITE CONDITIONS

3.1 Regional Geology

The Site is located in the Santa Clara Valley, a northwest-southeast trending structural basin bound on the southwest by the San Andreas Fault Zone and the Santa Cruz Coastal Mountains, and on the northeast by the Hayward Fault, Calaveras Fault, and the Diablo Range. During the Cenozoic Era (the last 65 million years), the region has been subject to complex tectonic evolution as the ancestral California continental margin underwent transition from a convergent to a transform plate margin (Atwater, 1970). The Bay Area continues to experience forces associated with the continental margin and the San Andreas Fault System. Crustal blocks that now form the San Francisco Bay Area were broken and uplifted to form highland areas. Sand, clay, and gravel were eroded from these upland areas and deposited on alluvial fans or beneath the sea in the subsided structural basins. The positions of these basins and uplands shifted from time to time, and basins of sediment accumulation were uplifted (Helley & Lajoie, 1979).

3.2 Soil Conditions

Surface soils found in the Site area are classified as Sorento clay loam. Soils of the Sorento series occur on well-drained, very gently sloping alluvial fans where recent deposits have been left by creeks headed mainly in sandstone and shale formations. The surface soil of the Sorento clay loam is typically a brown or pale-brown, friable, noncalcareous clay loam to depths of 8 to 15 inches. When moist, the surface soil is dark brown or graysih-brown. If the soil is worked too moist, however, it puddles and, on drying, develops firm hard clots that are difficult to break into smaller aggregates. The upper subsoil is a clay loam of slightly basic reaction. At depths of 36 to 50 inches it grades into a friable, moderately permeable, pale-brown lower subsoil that is slightly or moderately calcareous and generally of clay loam or silty clay loam texture. Lime is disseminated throughout the lower subsoil and also segregated along small tubular pores or root holes. In general the soil is only very slightly stratified and is relatively uniform to depths of six or more feet (USDA Soil Conservation Service/Natural Resources Conservation Service, 1958).

3.3 Hydrogeologic Conditions

The Site lies within the Santa Clara Groundwater area. Groundwater generally exists in the permeable sand and gravel alluvial fans deposited by west-flowing streams descending from the mountains of the Diablo Range. Specific groundwater information was not available for the Site. Based on topography of the Site, groundwater is estimated to flow in a northwesterly direction towards the San Francisco Bay.

4.0 LAND USE HISTORY

A review of readily available, standard historical sources (as defined in ASTM E 1527-97) was performed to assist in establishing any significant past uses of the Site and immediately adjacent properties. The review attempted (to the extent of readily available sources) to encompass the years since the first obvious developed use of the Site, or since 1940, whichever is earlier. The following subsections present a summary of E_2C's findings and the results of our review of each source.

4.1 Review of Aerial Photographs

Historical aerial photographs were reviewed to help evaluate past land uses on the Site and surrounding properties. In addition, the photographs were reviewed for evidence of hazardous materials and features that may have impacted the Site and general vicinity. These features included, but were not limited to, landfills, ponds, pits, staining or distressed vegetation, aboveground storage tanks, lagoons, exterior storage of hazardous materials, and general land use practices.

Aerial photographs taken in 1954, 1963, 1971, 1974, 1982, 1988, and 1994 were reviewed. Close examination of these photographs revealed no obvious signs of environmental impairment to the Site or adjacent properties. The altitude at which the photographs were taken, however, may prevent the clear identification of all Site features. Aerial photographs taken before 1954 and after 1994 were not reasonably obtainable.

Summary of Aerial Photograph Review

Year	Site Use	Site and Adjacent Property Observation
1954	Agricultural	The Site and all adjoining properties appear to be agricultural use properties. The Site itself appears developed with an orchard. There are no structures visible on the Site.
1963	Agricultural	The Site and all adjoining properties appear similar to the 1954 aerial photograph.
1971	Agricultural	The Site appears to be an orchard, as it did in the previous photographs. The surrounding area also looks similar to the previous photographs, except more residences are visible in the nearby areas.
1974	Agricultural	The Site appears as it did in 1971. The neighboring properties are also the same, but more factory/industrial buildings appear in the nearby area.
1982	Under Construction	Commerce, Qume, and McKay Roads have been constructed and appear as they did at the time of the site visit. The Site itself appears to be under construction. The "shell" of the building has been constructed. The corresponding parking lot does not appear paved. The neighboring properties to the west are developed and appear as they did at the time of the site visit. All other neighboring properties are undeveloped.
1988	Industrial	The subject Site and all surrounding properties appear completely developed with parking lots and landscaping. Several large storage tanks are visible on the southeast side of the building.
1994	Industrial	The subject Site and all adjoining properties appear similar to the 1988 aerial photograph.

4.2 Building Permits

E_2C, Inc., contacted the City of San Jose Building Department to review Site permits. Information on file for the Site included the original 1982 construction permit. Permits on file also included several installation and repair permits. Those that may be of environmental concern included permits to

- Install a chemical storage vault in 1983
- Add to and alter the interior of the gas bunker, sand-blast, and clean room in 1987
- Alter the interior of the ion implanter room and semiconductor room in 1988

4.3 City Directories

City Directories have been published for major cities and towns across the United States since the 19th century. City Directories published in the 20th century also included a street index for each street address during a given year. City Directories are a valuable source of historical information with regard to site tenancy and use. Directories for rural areas were not often published.

Reasonably obtainable City Directories, dated 1975 through 2000, were reviewed at the San Jose City Library for the subject Site under the address of 2150 Commerce Drive, San Jose, California. A summary of City Directory information is presented in the table below.

Summary of City Directory Review

YEAR	OWNER/OCCUPANT
1975	No Address
1981	No Address
1985	Exel Microelectronics
1989	Exel Microelectronics
1990-1991	Exel Microelectronics
1995-1996	Exel Microelectronics and ROHM Corporation
1999-2000	Exel Microelectronics, ROHM Corp., and Magepower Semiconductor Corp.

4.4 Historic Fire Insurance Maps

Maps produced by the Sanborn Fire Insurance Company for major cities and towns depict structures, building materials, uses, USTs, gas lines, etc. These maps were typically produced at the turn of the century and were often updated into the 1950s. These maps are valuable sources of information in determining prior usage, provided the Site's location is within city limits as they were defined in the early to mid-1900s. During the historical research portion of this report, no historical maps for the Site area were reviewed, because the area was not developed until the 1970s.

4.5 Previous Investigations

E_2C, Inc. completed a shallow soil sampling investigation for the Site at 2150 Commerce Drive, in May of 2000 for R&S Technology. Seven shallow soil samples were collected and analyzed to determine the pH, fluoride and VOC content. These samples were taken because staining was observed in and around the troughs that held pipes containing potentially hazardous chemicals. The results revealed no evidence that the Site had been impacted by the release of acids or VOCs.

5.0 SITE SURVEY

Mr. Forrest Cook of E_2C, Inc. conducted a Site inspection on June 12, 2000. Site Photographs, taken on that date, are presented in *Appendix A*.

In general, the Site included a 3.78-acre developed parcel of land. Site improvements included a single-level, now vacant industrial building, associated asphalt-paved parking areas, and landscaped areas. The building occupied 61,940 square feet, and was located in the middle of the parcel, surrounded on the east and west sides by the parking lot. The entire inside of the building had been gutted and was vacant at the time of the Site visit. Historically the Site was used as a semiconductor manufacturer. A chemical storage area that included an acid neutralization area, HF treatment area, cooling tower, and deionized water unit was located outside, and adjacent to the south side of the building. At the time of the Site visit, all of the chemical storage tanks were empty and visually clean.

R&S Technology was contracted to complete the facility closure, which included the removal of all hazardous chemicals and materials from the Site. Mr. Rudy Gonzales of R&S, during a phone conversation on June 20, 2000, informed E_2C that the closure was complete and the results of the post cleanup soil and wipe sampling analysis revealed no evidence that the

Site has been environmentally impacted. The post closure report will be submitted to the San Jose City Fire Department in the near future

The following observations were also made during the Site inspection:

- No evidence of existing USTs was observed on the Site or on the accessible areas of the immediately adjoining sites during the Site inspection.
- The vegetation on the Site showed no obvious signs of abnormal biological stress, a common indicator of subsurface contamination.
- Surface runoff on the Site is expected to flow into storm water drains located on the Site, or on Commerce Drive.
- No pits, ponds, or lagoons were observed on the Site.
- No indications of air quality distortion (e.g., discernible odors) were observed at the Site.
- No suspect pools of liquid were observed on the Site.

5.1 Underground/Aboveground Storage Tanks (USTs/ASTs)

No visual or physical evidence of other existing underground storage tanks USTs was observed during the on-site investigation. Physical evidence searched for included fill pipes, vent pipes, areas of abnormal or nearby staining, manways, manholes, access covers, concrete pads not homogeneous with surrounding surfaces, concrete built-up areas potentially indicating pump islands, abandoned pumping equipment, or gasoline pumps. Several ASTs were observed on the Site. However, all were empty and visually clean and none indicated any signs of leakage or other signs of environmental concern.

5.2 Hazardous Materials

At the time of the site inspection, a vacant industrial building occupied the Site. During E_2C, Inc.'s Site inspection no chemicals were found on Site. Historically, many chemicals were stored on Site for use in the semiconductor manufacturing process, including but not limited to

- liquid oxygen
- liquid hydrogen
- hydrofluoric acid
- liquid nitrogen
- hydrochloric acid
- phosphine

5.3 Asbestos-Containing Building Materials (ACBMs)

Based on the date of construction of the structure on the subject Property (circa 1982), it is possible, but unlikely, that asbestos-containing building materials (ACBMs) were utilized in construction. Prior to any demolition, renovation, or any other activity that may disturb these materials, either an AHERA Accredited Building Inspector should perform an inspection, or the materials should be handled as asbestos-containing.

5.4 Polychlorinated Biphenyls (PCBs)

Underground utility/transformer vaults were observed on the sidewalks adjoining the Site, and pad mounted transformers were observed on the Site. No evidence of past or present leakage was observed. The vaults are owned and maintained by P.G. & E. According to John Wharton of P.G. & E., a statewide transformer program was completed in the late 1970s and early 1980s by which approximately 95% of PCB containing transformers units were converted to non-PCB containing units. If the property owner requests, P.G. & E. will sample the units for a nominal fee. If the units are found to be PCB containing, the fee will be reimbursed. The units should be inspected periodically for leakage, and if leakage is observed, P.G. & E. should be contacted and notified.

Incandescent and fluorescent light fixtures were observed in the structure on the Site. Based on the age of the structure on the subject Property (circa 1981), it is possible the ballasts inside the light fixtures contain polychlorinated biphenyls (PCBs). If the ballasts are found to be leaking, require replacement, or are subject to disposal, it would be prudent to identify their chemical content. Any fixtures with ballasts not labeled as being non-PCB containing could contain PCBs.

5.5 Herbicides/Pesticides

No current usage of pesticides, including herbicides, was observed during the Site inspection.

The use of DDT and certain other toxic chemicals was banned in 1972. However, the Site was used historically for agricultural purposes prior to development, which may have involved the use of pesticides, including herbicides. Any residual pesticides, including herbicides, or similar chemicals that may have been present in the soils surface horizon of the Site, are likely to have been significantly reduced, or eliminated, during grading operations for Site development. E_2C believes that the potential residual chemicals related to the past agricultural use do not represent an environmental concern to the Site.

5.6 Radon

Radon is a radioactive gas that is found in certain geologic environments and is formed by the natural breakdown of radium, a common element in the earth's crust. Local conditions, however, do not warrant a radon survey was as part of this investigation. The U.S. Environmental Protection Agency (EPA) conducts radon surveys in designated geographic areas. According to the EPA radon survey that covers Santa Clara County, the radon zone level for the county is 2 and radon concentrations within this geographical region are predicted to have an average indoor radon screening potential between 2 pico Curies per

Liter (pCi/L) and 4 pCi/L. The EPA has set the safety standard for radon gas in homes to be 4 pCi/L. This level is below the EPA action level of 4.0 pCi/l. Therefore, based upon the reported subsurface characteristics of the area, the Site exhibits a low potential for radon contamination.

5.7 Railroad Rights-of-Way

There are several potential environmental risks associated with railroad right-of-ways, including the usage of pesticides, including herbicides, to maintain the tracks and the potential spillage of hazardous materials.

No railroad rights-of-way, spurs, or track-related equipment were observed on or immediately adjoining the Site at the time of the site inspection. Therefore, based on observations during the site visit, it is unlikely the Site has been environmentally impacted by railway uses.

5.8 Survey of Adjacent Properties

E_2C, Inc., performed a limited visual inspection of immediately adjacent properties to evaluate their potential environmental significance to the Site. The properties immediately surrounding the Site included the following:

- Immediately north and northeast, across Commerce Drive, were the offices of BAL. No ASTs or USTs were observed on the properties.
- Adjoining the Site to the east, at 2102 Commerce Drive, were the television studios of KICU. No ASTs or USTs were observed on this site.
- Adjoining the Site to the northwest, at 2222 Qume Drive, were the offices of Celestica, an electronic manufacturing services company. No ASTs or USTs were observed on this site.

No evidence of potential environmental concern to the Site was observed on these immediately adjacent properties.

5.9 Environmental Liens

The Site was not included on the Federal Superfund Liens list.

6.0 RECORDS REVIEW

To further evaluate potential sources of contamination originating from on and/or off-site sources, a review of published agency documents, agency files, and other pertinent documents were performed. Generally, information regarding potential off-site sources is obtained from federal and state agency listings, while local agencies offer more site-specific information.

6.1 Federal and State Records Sources

E_2C, Inc., contracted with VISTA Information Solutions, Inc. (VISTA), for the performance of a computerized geographical database search to identify agency-listed sites of potential environmental significance located within a one-mile radius of the Site. The VISTA database identifies sites that fall under the following categories:

NPL:	National Priority List
CORRACTS:	EPA Corrective action facilities
SPL:	State-equivelant Priority List (SPL) Annual Work Plan sites (formerly Bond Expenditure Plan [BEP])
SCL:	State-equivelant CERCLIS List Cal-EPA Sites (formerly Abandoned Sites Program Information Sys.)
CERCLIS:	EPA State Superfund Sites
TSD:	RCRA permitted treatment, storage, and disposal facilities
LUST:	Sites with Leaking Underground Storage Tanks
SWLF:	Permitted solid waste landfills, incinerators, or transfer stations
DEED RSTR:	Deed restriction sites
CORTESE:	Hazardous Waste Substance Sites
TOXIC Pits:	Toxic pits cleanup facilities
Water Wells:	Ground Water Site Inventory List
RCRA Viol:	RCRA Violations/enforcement actions
TRIS:	Toxic Release Inventory System
UST/AST:	Registered Underground or Aboveground Storage Tank Sites
ERNS:	Emergency Response Notification System Sites
RCRA GEN:	Small and large quantity generators of hazardous waste

The Vista report is presented in *Appendix B.*

6.2 Contamination Migration

Fuel Leak Attenuation

In fuel leak cases, research conducted at the Lawrence Livermore National Laboratory (LLNL) indicates that attenuation and degradation play major roles in reducing hydrocarbon contamination in groundwater to non-detectable levels within several hundred feet of the contaminant source. Moreover, this research indicates that in over 90% of the petroleum hydrocarbon contamination cases, groundwater contaminant plumes do not extend more than 250-feet from the source; however, the mobility of a gasoline additive called Methyl Tertiary Butyl Ether (MTBE) is currently being researched. Preliminary findings indicate that MTBE is highly soluble in water and moves easily through soil particles and into groundwater where it may spread over a distance greater than 250 feet. MTBE will transfer to groundwater from gasoline leaking from USTs, pipelines, car emissions into the atmosphere, and other components of gasoline vapor distribution. MTBE has been an additive to gasoline since approximately 1985.

Microbial Degradation of Hydrocarbons

As part of LLNL's recommendations for remediation of fuel-leak sites, they encouraged the use of passive bioremediation (biological degradation), a process wherein naturally occurring, ubiquitous, subsurface microbes ultimately metabolize hydrocarbons into benign products such as carbon dioxide and water. Passive bioremediation is increasingly becoming acknowledged as a method for remediation of low impact and low risk level fuel-leak sites.

Toxic-Leak Attenuation

In the case of toxic substances in the groundwater, namely the more mobile Volatile Organic Compounds (VOCs), detectable levels may extend several thousand feet from the source. In most VOC groundwater plume cases, however, attenuation will act to reduce the contamination to non-detectable levels within one-half mile of the source.

Groundwater Flow

Although there are sites within a one-mile radius of the subject Site where chemical use and/or chemical spill incidents have been documented an impact to the subject Site from identified chemical- or petroleum-release sites is possible only if the released substances migrate via groundwater. Therefore, only those release sites located up-gradient to the Site in terms of regional groundwater flow represent a potential environmental threat to the subject Site. Conversely, chemical release sites located down-gradient of the subject Site are considered not to have a potential for impacting the subject Site. Release sites located cross-gradient are, in general, considered to have no potential to impact the subject Site, unless they are located in very close proximity to the subject Site. In which case, a limited degree of lateral migration may result in an impact to the subject Site.

As discussed in Subsection 3.3, site-specific groundwater information was not available. Based on the topographic gradient, however, groundwater is expected to flow in a northwesterly direction toward the San Francisco Bay. Specific groundwater data was not on file with the Santa Clara County Water District. Site-specific groundwater flow can be determined only through the installation of at least three on-Site wells.

6.3 Off-Site Sources of Environmental Concern

Review of Databases searched to one mile:

National Priority List (NPL) of Superfund Sites

The NPL is the EPA's database of uncontrolled or abandoned hazardous waste sites identified for priority remedial actions under the Superfund program. A site must meet or surpass a predetermined hazard ranking system score, be chosen as a state's top priority site, or meet three specific criteria set jointly by the US Department of Health and Human Services and the US EPA in order to become an NPL site.

- A search of the January 2000 NPL list identified no sites within the database search range of the subject Site.

RCRA Corrective Action (CORRACTS) Sites

The EPA maintains this database of RCRA facilities, which are undergoing "corrective action." A "corrective action order" is issued pursuant to RCRA Section 3008 (h) when there has been a release of hazardous waste or constituents into the environment from a RCRA facility. Corrective actions may be required beyond the facility's boundary and can be required regardless of when the release occurred, even if it pre-dates RCRA.

- A search of the December 1999 CORRACTS list identified no sites within the database search range of the subject Site.

State-equivalent Priority List (SPL)

The State database contains information on properties (or "sites") in California where hazardous substances have been released, or where the potential for such a release exists. This database is used primarily by the Department of Toxic Substances Control to evaluate and track activities at sites that may have been affected by the release of hazardous substances. Also see SPL/CL: Annual Work Plan (AWP) sites are classified as SPL and all the other sites are classified as SCL.

- A search of the October 1999 SPL list identified no sites within the database search range of the subject Site.

Review of Databases searched to one-half mile:

State Equivalent Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) List (SCL)

The State database includes both known and potential sites. Two-thirds of these sites have been classified, based on available information, as needing "No Further Action" (NFA) by the Department of Toxic Substances Control. The remaining sites are in various stages of review and remediation to determine if a problem exists at the site. Several hundred sites have been reemitted and are considered certified. Some of these sites may be in long operation and maintenance.

- A search of the October 1999 SCL list identified three sites within the database search range of the subject Site. None of these sites is identified as the subject Site or adjoining properties. Based on the location, distance from the subject Site, and/or inferred groundwater flow direction, it is unlikely these listed sites have environmentally impacted the subject Site.

Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) List/No Further Remedial Action Planned (NFRAP)

The CERCLIS List contains sites, which are either proposed to be or are on the NPL and sites, which are in the screening and assessment phase for possible inclusion on the NPL.

The information on each site includes a history of all pre-remedial, remedial, removal and community relation's activities or events at the site, financial funding information for the events and unrestricted enforcement activities or events at the site. NFRAP sites may be sites where, following initial investigation, no contamination was found, contamination was removed quickly, or the contamination was not serious enough to require Federal Superfund action or NPL consideration.

- A search of the October 1999 CERCLIS list identified two sites within the database search range of the subject Site. Based on the location, distance from the subject Site, and/or inferred groundwater flow direction, it is unlikely these listed sites have environmentally impacted the subject Site.

Resource Conservation and Recovery Act (RCRA) Treatment, Storage and Disposal (TSD) Facilities:

The EPA's RCRA Program identifies and tracks hazardous waste from the point of generation to the point of disposal. The RCRA-TSD facilities database is a compilation by the EPA of facilities that report generation, storage, transportation, treatment, or disposal of hazardous waste. Identification on this list does not indicate that a site has impacted the environment.

- A search of the December 1999 RCRA-TSD facilities database identified no RCRA-TSD sites within the database search range of the subject Property.

Leaking Underground Storage Tanks (LUST)

The RWQCB maintains a list of LUST sites.

A search of the January 2000 LUST list identified four sites within the database search range of the subject Site. None of these sites is identified as the subject Site or adjoining properties. Based on the location, distance from the subject Site, and/or inferred groundwater flow direction, it is unlikely the remaining listed sites have environmentally impacted the subject Site.

Solid Waste Facilities and Landfills (SWLF)

The State Solid Waste Information System database consists of both open as well as closed and inactive solid waste disposal facilities and transfer stations pursuant to the Solid Waste Management and Resource recovery Act of 1972, Government Code Section 2.66790(b). Generally, the State integrated Waste Management Board learns of locations of disposal facilities through permit applications and from local enforcement agencies.

- A search of the November 1999 SWLF database identified no sites within the database search range of the subject Site.

Deed Restrictions

The Department of Health Services-Land Use and Air Assessment provides this database. These are voluntary deed restriction agreements with owners of property who propose

building residences, schools, hospitals, or day care centers on property that is "on or within 2,000 feet of a significant disposal of hazardous waste."

California has statutory and administrative procedure under which the California Department of Health Services (DHS) may designate real property as either a "Hazardous Waste Property" or a "Border Zone Property" pursuant to California Health and Safety Code Sections 25220-25241. Hazardous Waste Property is land at which hazardous waste has been depositing, creating a significant existing or potential hazard to public health and safety. A Border Zone Property is one within 2,000 feet of a hazardous waste deposit. Property within either category is restricted in use, unless a written variance is obtained from DHS. Hazardous Waste Property designation results in a prohibition of new use, other than a modification or expansion of an industrial or manufacturing facility on land previously owned by the facility prior to January 1, 1981. A Border Zone Property designation results in prohibition of a variety of uses involving human habitation, hospitals, schools, and day care center.

- A search of the April 1994 Deed Restrictions database identified no sites within the database search range of the subject Site.

South Bay Toxic List (South Bay)

This South Bay Site Management System database is provided by the California Regional Water Quality Control Board-San Francisco Bay Region.

- A search of the April 1994 South Bay list identified one site within the database search range of the subject Site. Based on the location, distance from the subject Site, and/or inferred groundwater flow direction, it is unlikely the remaining listed site has environmentally impacted the subject Site.

Cortese Database

The California Governor's Office of Planning and Research annually publishes a listing of potential and confirmed hazardous waste sites throughout the State of California under Government Code Section 65962.5. This database is based on input from the following: (1) CALSITES-Department of Toxic Substances Control, Abandoned Sites Program Information Systems; (2) SARA Title III Toxic Chemicals Inventory for 1987, 1988, 1989, and 1990; (3) FINDS (Facility Index System Database); (4) HWIS – Department of Toxic Substances Control, Hazardous Waste Information System. Vista does not include one-time generator facilities from Cortese in the database; (5) SWRCB-State Water Resources Control Board; (6) SWIS-Integrated Waste Management Control Board (solid waste facilities); (7) AGT25-Air Resources Board, dischargers of greater than 25 tons/year of criteria pollutants to the air; (8) A1025-Air Resources board, dischargers of greater than 10 and less than 25 tons/year of criteria pollutants to the air; (9) LTANK-SWRCB Leaking Underground Storage Tanks; (10) UTANK-SWRCB Underground Storage Tanks reported to the SWEEPS systems; (11) IUP-Inventory Update Rule (Chemical Manufacturers); (12) WB-LF-Waste Board –Leaking Facility, site has known migration; (13) WDSE-Waste Discharge System – Enforcement Action; (14) DTSCD-Department of Toxic Substance Control Docket.

- A search of the April 1998 Cortese list identified one site within the database search range of the subject Site. Based on the location, distance from the subject Site, and/or inferred groundwater flow direction, it is unlikely the remaining listed site has environmentally impacted the subject Site.

Toxic Pits Cleanup Facilities (Toxic Pits)

The Water Quality Control Board, Division of Loans and Grants provide this data.

- A search of the February 1995 Toxic Pits database identified no sites within the database search range of the subject Site.

Water Wells

The Ground Water Site Inventory (GWSI) database was provided by USGS. The database contains information for over 1,000,000 wells nationwide and other sources of groundwater which the USGS has studied, used, or otherwise had reasons to document through the course of research.

- A search of the March 1998 GWSI database identified no sites within the database search range of the subject Site

Review of Databases searched to one-quarter mile

Resource Conservation and Recovery Act – Violations/Enforcement Actions (RCRA-Viol)

The EPA's RCRA Program identifies and tracks hazardous waste from the point of generation to the point of disposal. The RCRA Facilities database is a compilation by the EPA of facilities, which report generation, storage, transportation, treatment, or disposal of hazardous waste. RCRA Violators are facilities that have been cited for RCRA violations at least once since 1980. RCRA Enforcements are enforcement actions taken against RCRA Violators.

- A search of the December 1999 RCRA-Viol list identified one site within the database search range of the subject Site. Based on the location, distance from the subject Site, and/or inferred groundwater flow direction, it is unlikely the remaining listed site has environmentally impacted the subject Site.

Toxic Release Inventory System (TRIS)

Section 313 of the Emergency Planning and Community Right-to-Know Act (also known as SARA Title III) of 1986 requires the EPA to establish and inventory of Toxic Chemicals emissions from certain facilities (Toxic Release Inventory System). Facilities subject to this reporting are required to complete a Toxic Chemical Release Form (Form R) for specific chemicals.

- A search of the January 1998 TRIS list identified one site within the database search range of the subject Site. This site was identified as the subject Site. The TRIS report indicated that a "Not Reported" quantity of sulfuric acid was released.

No date or actions were specified for this release. John Bracket, of Wayne Macia and the key site representative for the Site, had no knowledge of this incident. Furthermore, no files were on record with the San Jose City Fire Department or Santa Clara County Water District regarding this spill.

Underground Storage Tanks/ Aboveground Storage Tanks (USTs/ASTs)

USTs are regulated under Subtitle I of the RCRA and must be registered with the California Water Resources Control Board's Underground Storage Tank Program. These are registered USTs only and identification on this list does not indicate that the site has impacted the environment. While the existence of USTs on nearby properties should be of some concern, it should be noted that the appearance of a site on this list does not necessarily indicate a leaking tank. Leaking tanks which have been reported to the California Regional Water Quality Control Board appear on the Leaking Underground Storage Tank (LUST) list described above.

- A search of the December 1998 /December 1999 UST/AST databases identified one site within the search range of the subject Site. Based on the location, distance from the subject Site, and/or inferred groundwater flow direction, it is unlikely the remaining listed site has environmentally impacted the subject Site.

Review of Database searched to one-eighth mile:

Emergency Response Notification System (ERNS)

The ERNS database is a national database containing records from October 1986 to the release date above and is used to collect information for reported releases of oil and hazardous substances. The database contains information from spill reports made to federal authorities including the EPA, the US Coast Guard, the National Response Center, and the Department of Transportation.

- A search of the August 1999 ERNS list identified no sites within the database search range of the subject Site

Resource Conservation and Recovery Act – Generators (GNRTR)

The EPA's RCRA Program identifies and tracks hazardous waste from the point of generation to the point of disposal. The RCRA Facilities database is a compilation by the EPA of facilities that report generation, storage, transportation, treatment, or disposal of hazardous waste. RCRA Large generators are facilities that generate at least 1,000 kg/month of nonacutely hazardous waste (or 1 kg/month of acutely hazardous waste). RCRA Small and Very Small generators are facilities that generate less than 1,000 kg/month of nonacutely hazardous waste. Identification on this list does not indicate that a site has impacted the environment.

- A search of the December 1999 GNRTR list identified six sites within the database search range of the subject Site. One of these sites is identified as the subject Site and two are identified as adjoining sites. All three of these generators produce 100

kg/month but less than 1000 kg/month of non-acutley hazardous waste. It should be noted that identification on this list does not indicate that a site has impacted the environment.

Unmapped Federal and State Sites

Unmapped sites are a compilation of properties with insufficient address information such that they can be identified only as being within the same zip code, city, or county as the subject Property. Unmapped sites cannot be accurately identified within the radius search parameters requested.

- None of the sites listed in the VISTA database as unmapped is near the subject Site.

6.4 Oil and Gas Fields

According to the California Department of Conservation, Division of Oil and Gas Map, W3-10 (Regional Wildcat Map), there are no oil or gas well fields located within a one-mile radius of the Site.

6.5 Summary of Records Review

During the review of standard environmental records, E_2C, Inc. used the following information sources:

- California Regional Water Quality Control Board – San Francisco Bay Region
- Bay Area Air Quality Management District
- Santa Clara County Water District
- Santa Clara County Department of Environmental Health
- City of San Jose Fire Department
- City of San Jose Building Department
- City of San Jose Library

Synopses of records reviewed for the Site at the following agencies are presented below:

California Regional Water Quality Control Board – San Francisco Bay Region (RWQCB-SFB)

E_2C, Inc., contacted the RWQCB-SFB for additional information regarding LUSTs and hazardous materials spills or any recognized environmental conditions or groundwater issues affecting the subject Site address. There were no files for the Site address.

Bay Area Air Quality Management District (BAAQMD)

E_2C, Inc., contacted the BAAQMD regarding records for the Site. There were no files for the Site address

Santa Clara County Water District (SCCWD)

E_2C, Inc., contacted the SCCWD for additional information regarding LUSTs and hazardous materials spills or any recognized environmental conditions or groundwater issues affecting the subject Site address. There were no files for the Site address.

Santa Clara County Department of Environmental Health (SCCDEH)

E_2C, Inc., contacted the SCCDEH regarding records for the Site relating to hazardous materials storage/use and USTs. There were no files for the Site address.

City of San Jose Fire Department (SJFD)

E_2C, Inc., contacted the SJFD regarding records for the Site relating to hazardous materials storage/use and USTs. There were several files on record including:

- Two hazardous materials inspection records dated September 1999 and April 1999. Neither indicated any misuse or improper storage of chemicals or other items of environmental concern.
- Several different Hazardous Materials Management Plans (HMMPs) were on file from several different years.
- A hazardous materials permit fee was on file.

No other items on file with the San Jose Fire Department indicated any items of environmental concern.

City of San Jose Building Department (SJBD)

E_2C, Inc. contacted the SJBD regarding permits issued for the Site address. No permits were found that would indicate the installation or operation of an UST. Other items on file that may be of environmental concern included permits to

- Install a chemical storage vault in 1983
- Add to and alter the interior of the gas bunker, sand-blast, and clean room in 1987
- Alter the interior of the ion implanter room and semiconductor room in 1988

See Subsection 4.2 for further discussion.

City of San Jose Library (SJL)

The SJL was visited to review City Directories for the subject Site address. See Subsection 4.3 for further discussion of City Directory information.

7.0 CONCLUSIONS AND RECOMMENDATIONS

E_2C, Inc. has conducted a Phase I ESA of the property identified as 2150 Commerce Drive in the City of San Jose, California, in accordance with the document entitled *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessments Process* (The

American Society for Testing and Materials [ASTM], E 1527-97). Any exceptions to, or deletions from, this practice are described in Subsection 1.3 of this report.

Based on the data obtained during the preparation of our ESA, it is our professional opinion that the potential for the subject Site to have been adversely impacted by past or present on-site activities or by the migration of contamination from listed off-site sources is not likely.

Based on the date of construction of the structure on the subject Property (circa 1982), it is possible, but unlikely, that asbestos-containing building materials (ACBMs) were utilized in construction. Prior to any demolition, renovation, or any other activity that may disturb these materials, either an AHERA Accredited Building Inspector should perform an inspection, or the materials should be handled as asbestos-containing. Similarly, Incandescent and fluorescent light fixtures were observed in the structure on the Site, it is possible the ballasts inside the light fixtures contain polychlorinated biphenyls (PCBs). If the ballasts are found to be leaking, require replacement, or are subject for disposal, it would be prudent to identify their chemical content.

As a result of the on-site reconnaissance, records research, historical investigation, and review of Federal, State, and local reported environmental information, this assessment has revealed no obvious evidence of recognized environmental conditions that could potentially impact the subject Property. No further investigation is recommended at this time.

8.0 SIGNATURES OF ENVIRONMENTAL PROFESSIONALS

The conclusions of this report are based solely on the Scope of Services outlined and the referenced sources of information. Any additional information that becomes available concerning this report should be submitted to E_2C, Inc. so that our conclusions may be reviewed and modified, if necessary. No soil, groundwater, or building material samples were collected or analyzed as part of this investigation. This report was prepared in June of 2000 for the sole use of Manuel & Juanita Del Arroz and/or their agents.

SITE ASSESSMENT PLUS REPORT

DESCRIPTION OF DATABASES SEARCHED

A) DATABASES SEARCHED TO 1 MILE

NPL
SRC#: 19

VISTA conducts a database search to identify all sites within 1 mile of your property.
The agency release date for National Priorities List was January, 2000.

The NPL Report is the US EPA's registry of the nation's worst uncontrolled or abandoned hazardous waste sites. NPL sites are targeted for possible long-term remedial action under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980.

SPL
SRC#: 113

VISTA conducts a database search to identify all sites within 1 mile of your property.
The agency release date for CalSites Database was October, 1999.

This database is provided by the Cal. Environmental Protection Agency, Dept. of Toxic Substances Control. The agency may be contacted at: 916-323-3400.

CORRACTS
SRC#: 14

VISTA conducts a database search to identify all sites within 1 mile of your property.
The agency release date for RCRIS Corrective Action Sites was December, 1999.

The CORRACTS database contains information concerning RCRA facilities that have conducted, or are currently conducting a corrective action. A Corrective Action Order is issued pursuant to RCRA Section 3008 (h) when there has been a release of hazardous waste or constituents into the environment from a RCRA facility. Corrective actions may also be imposed as a requirement of receiving and maintaining a TSDF permit.

RCRIS-TSDC
SRC#: 556

VISTA conducts a database search to identify all sites within 1 mile of your property.
The agency release date for RCRIS TSDs Subject to Corrective Action was December, 1999.

The EPA's Resource Conservation and Recovery Act (RCRA) Program identifies and tracks hazardous waste from the point of generation to the point of disposal. The RCRA Facilities database is a compilation by the EPA of facilities which report generation, storage, transportation, treatment or disposal of hazardous waste. RCRA TSDCs are treatment, storage and/or disposal facilities that are subject to corrective action under RCRA.

B) DATABASES SEARCHED TO 1/2 MILE

CERCLIS
SRC#: 17

VISTA conducts a database search to identify all sites within 1/2 mile of your property.
The agency release date for Comprehensive Environmental Response, Compensation and Liability Information Sys was January, 2000.

The CERCLIS database is a comprehensive listing of known or suspected uncontrolled or abandoned hazardous waste sites. These sites have either been investigated, or are currently under investigation by the U.S. EPA for the release, or threatened release of hazardous substances. Once a site is placed in CERCLIS, it may be subjected to several levels of review and evaluation, and ultimately placed on the National Priorities List (NPL).

NFRAP
SRC#: 18

VISTA conducts a database search to identify all sites within 1/2 mile of your property.
The agency release date for No Further Remedial Action Planned was December, 1999.

The No Further Remedial Action Planned Report (NFRAP), also known as the CERCLIS Archive, contains information pertaining to sites which have been removed from the U.S. EPA's CERCLIS database. NFRAP sites may be sites where, following an initial investigation, either no contamination was found, contamination was removed quickly without need for the site to be placed on the NPL, or the contamination was not serious enough to require federal Superfund action or NPL consideration.

SCL
SRC#: 112

VISTA conducts a database search to identify all sites within 1/2 mile of your property.
The agency release date for CalSites Database was October, 1999.

This database is provided by the Department of Toxic Substances Control. Two- thirds of these sites have been classified, based on available information, as needing "No Further Action" (NFA) by the Department of Toxic Substances Control. The remaining sites are in various stages of review and remediation to determine if a problem exists at the site. Several hundred sites have been remediated and are considered certified. Some of these sites may be in long term operation and maintenance.

The CalSites database includes both known and potential sites. Two- thirds of these sites have been classified, based on available information, as needing "No Further Action" (NFA) by the Department of Toxic Substances Control. The remaining sites are in various stages of review and remediation to determine if a problem exists at the site. Several hundred sites have been remediated and are considered certified. Some of these sites may be in long term operation and maintenance.

RCRIS-TSD
SRC#: 12

VISTA conducts a database search to identify all sites within 1/2 mile of your property.
The agency release date for RCRIS Treatment, Storage and Disposal Facilities was December, 1999.

The EPA's Resource Conservation and Recovery Act (RCRA) Program identifies and tracks hazardous waste from the point of generation to the point of disposal. The RCRA Facilities database is a compilation by the EPA of facilities which report generation, storage, transportation, treatment or disposal of hazardous waste. RCRA TSDs are facilities which treat, store and/or dispose of hazardous waste.

SWLF
SRC#: 163

VISTA conducts a database search to identify all sites within 1/2 mile of your property. **The agency release date for Solid Waste Inventory System was November, 1999.**

This database is provided by the Integrated Waste Management Board. The agency may be contacted at: 916-255-4021.

The California Solid Waste Information System (SWIS) database consists of both open as well as closed and inactive solid waste disposal facilities and transfer stations pursuant to the Solid Waste Management and Resource Recovery Act of 1972, Government Code Section 2.66790(b). Generally, the California Integrated Waste Management Board learns of locations of disposal facilities through permit applications and from local enforcement agencies.

SWLF-CO
SRC#: 70

VISTA conducts a database search to identify all sites within 1/2 mile of your property. **The agency release date for City of Los Angeles Landfills Transfer Stations was April, 1999.**

This database is provided by the City of Los Angeles, Environmental Affais Department. The agency may be contacted at: 213-580-1070.

WMUDS
SRC#: 68

VISTA conducts a database search to identify all sites within 1/2 mile of your property. **The agency release date for Waste Management Unit Data System was February, 1999.**

This database is provided by the State Water Resources Control Board. The agency may be contacted at: 916-892-0323. This is used for program tracking and inventory of waste management units. This system contains information from: Facility, Waste Management Unit, SWAT Program and Report Summary Information, Chapter 15 (formerly Subchapter 15), TPCA and RCRA Program Information, Closure Information; also some information from the WDS (Waste Discharge System).

The WMUDS system also accesses information from the following databases from the Waste Discharger System (WDS): Inspections, Violations, and Enforcements. The sites contained in these databases are subject to the California Code of Regulations - Title 23. Waters.

LUST
SRC#: 164

VISTA conducts a database search to identify all sites within 1/2 mile of your property. **The agency release date for Leaking Underground Storage Tank Information System was January, 2000.**

This database is provided by the California Environmental Protection Agency. The agency may be contacted at: 916-445-6532.

LUST-REG
SRC#: 74

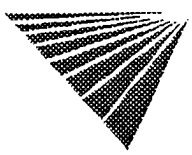
VISTA conducts a database search to identify all sites within 1/2 mile of your property. **The agency release date for Region 3 Leaking Underground Storage Tanks was June, 1999.**

This database is provided by the Regional Water Quality Control Board, Region #3. The agency may be contacted at: 805-542-4695.

LUST-REG
SRC#: 108

VISTA conducts a database search to identify all sites within 1/2 mile of your property. **The agency release date for Region 6 Leaking Underground Storage Tanks was August, 1999.**

This database is provided by the Lahontan Region Six South Lake Tahoe. The agency may be contacted at: 530-542-5400.



LUST-REG
SRC#: 853

VISTA conducts a database search to identify all sites within 1/2 mile of your property.
The agency release date for Region 2 Fuel Leak List was January, 2000.

This database is provided by the Regional Water Quality Control Board, Region #2. The agency may be contacted at: 510-286-1269.

CORTESE
SRC#: 53

VISTA conducts a database search to identify all sites within 1/2 mile of your property.
The agency release date for Cortese List - Hazardous Waste Substance Site List was April, 1998.

This database is provided by the Office of Environmental Protection, Office of Hazardous Materials. The agency may be contacted at: 916-445-6532. The California Governor's Office of Planning and Research annually publishes a listing of potential and confirmed hazardous waste sites throughout the State of California under Government Code Section 65962.5. This database (CORTESE) is based on input from the following: (1)CALSITES-Department of Toxic Substances Control, Abandoned Sites Program Information Systems; (2)SARA Title III Section III Toxic Chemicals Release Inventory for 1987, 1988, 198

The California Governor's Office of Planning and Research annually publishes a listing of potential and confirmed hazardous waste sites throughout the State of California under Government Code Section 65962.5. This database (CORTESE) is based on input from the following: (1)CALSITES-Department of Toxic Substances Control, Abandoned Sites Program Information Systems; (2)SARA Title III Section III Toxic Chemicals Release Inventory for 1987, 1988, 1989, and 1990; (3)FINDS; (4)HWIS-Department of Toxic Substances Control, Hazardous Waste Information System. Vista has not included one time generator facilities from Cortese in our database.; (5)SWRCB-State Water Resources Control Board; (6)SWIS-Integrated Waste Management Control Board (solid waste facilities); (7)AGT25-Air Resources Board, dischargers of greater than 25 tons of criteria pollutants to the air; (8)A1025-Air Resources Board, dischargers of greater than 10 and less than 25 tons of criteria pollutants to the air; (9)LTANK-SWRCB Leaking Underground Storage Tanks; (10)UTANK-SWRCB Underground tanks reported to the SWEEPS systems; (11)IUR-Inventory Update Rule (Chemical Manufacturers); (12)WB-LF- Waste Board - Leaking Facility, site has known migration; (13)WDSE-Waste Discharge System - Enforcement Action; (14)DTSCD-Department of Toxic Substance Control Docket.

BORDER-ZON
SRC#: 46

VISTA conducts a database search to identify all sites within 1/2 mile of your property.
The agency release date for Deed Restriction Properties Report was April, 1994.

The Deeds Restrictions list, also known as the Border Zone Property List, contains information concerning voluntary deed restriction. These agreements are made with owners of property who propose building residences, schools, hospitals, or day care centers on property that is on or within 2,000 feet of potentially hazardous waste site.

California has a statutory and administrative procedure under which the California Department of Health Services (DHS) may designate real property as either a "Hazardous Waste Property" or a "Border Zone Property" pursuant to California Health Safety Code Sections 25220-25241. Hazardous Waste Property is land at which hazardous waste has been deposited, creating a significant existing or potential hazard to public health and safety. A Border Zone Property is one within 2,000 feet of a hazardous waste deposit. Property within either category is restricted in use, unless a written variance is obtained from DHS. A Hazardous Waste Property designation results in a prohibition of new uses, other than a modification or expansion of an industrial or manufacturing facility on land previously owned by the facility prior to January 1, 1981. A Border Zone Property designation results in prohibition of a variety of uses involving human habitation, hospitals, schools and day care center.

TOXICPITS
SRC#: 49

VISTA conducts a database search to identify all sites within 1/2 mile of your property.
The agency release date for Toxic Pits was February, 1995.

This database is provided by the Water Quality Control Board, Division of Loans Grants. The agency may be contacted at: 916-227-4396.

SOUTHBAY
SRC#: 48

VISTA conducts a database search to identify all sites within 1/2 mile of your property.
The agency release date for South Bay was April, 1994.

This database is provided by the San Francisco Bay Region.

USGS-WELLS
SRC#: 3

VISTA conducts a database search to identify all sites within 1/2 mile of your property.
The agency release date for USGS Water Wells was March, 1998.

The Ground Water Site Inventory (GWSI) database was provided by the United States Geological Survey (USGS). The database contains information for over 1,000,000 wells and other sources of groundwater which the USGS has studied, used or documented during research.

C) DATABASES SEARCHED TO 1/4 MILE

RCRIS-VIOL
SRC#: 11

VISTA conducts a database search to identify all sites within 1/4 mile of your property.
The agency release date for RCRIS Facilities with Violations was December, 1999.

The EPA's Resource Conservation and Recovery Act (RCRA) Program identifies and tracks hazardous waste from the point of generation to the point of disposal. The RCRA Facilities database is a compilation by the EPA of facilities which report generation, storage, transportation, treatment or disposal of hazardous waste. The RCRIS Other report contains information concerning facilities that are "unclassified" within the RCRIS database (not classified as a Large Quantity Generator, Transporter, etc.).

UST
SRC#: 45

VISTA conducts a database search to identify all sites within 1/4 mile of your property. **The agency release date for Underground Storage Tanks was January, 1994.**

This database is provided by the State Water Resources Control Board, Office of Underground Storage Tanks. The agency may be contacted at: 916-227-4364. Be advised that some states do not require registration of heating oil tanks, especially those used for residential purposes.

UST-MV
SRC#: 58

VISTA conducts a database search to identify all sites within 1/4 mile of your property. **The agency release date for City of Mountain View Underground Storage Tanks was December, 1998.**

This database is provided by the Mountain View Fire Department. The agency may be contacted at: 650-903-6378. Be advised: Many states do not require registration of heating oil tanks, especially those used for residential purposes.

UST_SUNN
SRC#: 71

VISTA conducts a database search to identify all sites within 1/4 mile of your property. **The agency release date for City of Sunnyvale Underground Storage Tanks was January, 1999.**

This database is provided by the City of Sunnyvale Department of Public Safety. The agency may be contacted at: 408-730-7212. Be advised: Many states do not require registration of heating oil tanks, especially those used for residential purposes.

UST-SJ
SRC#: 78

VISTA conducts a database search to identify all sites within 1/4 mile of your property. **The agency release date for City of San Jose Underground Storage Tanks was April, 1999.**

This database is provided by the City of San Jose Fire Department. The agency may be contacted at: 408-277-4659. Be advised: Many states do not require registration of heating oil tanks, especially those used for residential purposes.

UST-PALO
SRC#: 93

VISTA conducts a database search to identify all sites within 1/4 mile of your property. **The agency release date for City of Palo Alto Underground Storage Tanks was January, 2000.**

This database is provided by the City of Palo Alto Fire Department. The agency may be contacted at: 650-329-2184. Be advised: Many states do not require registration of heating oil tanks, especially those used for residential purposes.

UST-CO-SCL
SRC#: 95

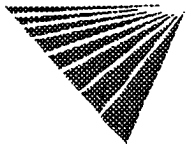
VISTA conducts a database search to identify all sites within 1/4 mile of your property. **The agency release date for Santa Clara County Underground Storage Tanks was July, 1999.**

This database is provided by the Santa Clara County Fire Department. The agency may be contacted at: 408-378-4010. Be advised: Many states do not require registration of heating oil tanks, especially those used for residential purposes.

UST-MILP
SRC#: 150

VISTA conducts a database search to identify all sites within 1/4 mile of your property. **The agency release date for City of Milpitas Underground Storage Tanks was October, 1999.**

This database is provided by the City of Milpitas Fire Department. The agency may be contacted at: 408-942-3265. Be advised: Many states do not require registration of heating oil tanks, especially those used for residential purposes.



UST-SC
SRC#: 154

VISTA conducts a database search to identify all sites within 1/4 mile of your property. **The agency release date for City of Santa Clara Underground Storage Tanks was November, 1999.**

This database is provided by the City of Santa Clara, Fire Department. The agency may be contacted at: 408-984-4109. Be advised: Many states do not require registration of heating oil tanks, especially those used for residential purposes.

AST
SRC#: 60

VISTA conducts a database search to identify all sites within 1/4 mile of your property. **The agency release date for Aboveground Storage Tanks was December, 1999.**

This database is provided by the State Water Resources Control Board. The agency may be contacted at: 916-227-4364.

TRIS
SRC#: 2

VISTA conducts a database search to identify all sites within 1/4 mile of your property. **The agency release date for Toxic Release Inventory System was January, 1998.**

All facilities that manufacture, process, or import toxic chemicals in quantities in excess of 25,000 pounds per year are required to register with the EPA under Section 313 of the Superfund Amendments and Reauthorization Act (SARA Title III) of 1986. Data contained in the TRIS system covers approximately 20,000 sites and 75,000 chemical releases.

D) DATABASES SEARCHED TO 1/8 MILE

ERNS
SRC#: 8

VISTA conducts a database search to identify all sites within 1/8 mile of your property. **The agency release date for Emergency Response Notification System was August, 1999.**

ERNS is a national computer database system that is used to store information on the sudden and/or accidental release of hazardous substances, including petroleum, into the environment. The ERNS reporting system contains preliminary information on specific releases, including the spill location, the substance released, and the responsible party.

RCRA-LQG
SRC#: 16

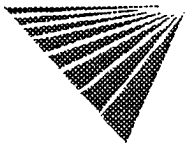
VISTA conducts a database search to identify all sites within 1/8 mile of your property. **The agency release date for RCRIS Large Quantity Generators was December, 1999.**

The EPA's Resource Conservation and Recovery Act (RCRA) Program identifies and tracks hazardous waste from the point of generation to the point of disposal. The RCRA Facilities database is a compilation by the EPA of facilities which report generation, storage, transportation, treatment or disposal of hazardous waste. RCRA Large Generators are facilities which generate at least 1000 kg./month of non-acutely hazardous waste (or 1 kg./month of acutely hazardous waste).

RCRIS-SQG
SRC#: 15

VISTA conducts a database search to identify all sites within 1/8 mile of your property. **The agency release date for RCRIS Small Quantity Generators was December, 1999.**

The EPA's Resource Conservation and Recovery Act (RCRA) Program identifies and tracks hazardous waste from the point of generation to the point of disposal. The RCRA Facilities database is a compilation by the EPA of facilities which report generation, storage, transportation, treatment or disposal of hazardous waste. RCRA Small Quantity Generators are facilities which generate less than 1000 kg./month of non-acutely hazardous waste.



SPILLS
SRC#: 79

VISTA conducts a database search to identify all sites within 1/8 mile of your property.
The agency release date for Region 3 SLIC Site List was July, 1999.

This database is provided by the Regional Water Quality Control Board, Region #3. The agency may be contacted at: 805-542-3399.

SPILLS
SRC#: 106

VISTA conducts a database search to identify all sites within 1/8 mile of your property.
The agency release date for Region 2 SLIC Site List was October, 1999.

This database is provided by the Regional Water Quality Control Board, Region #2. The agency may be contacted at: 510-286-1269.

SPILLS
SRC#: 275

VISTA conducts a database search to identify all sites within 1/8 mile of your property.
The agency release date for Spills was December, 1999.

This database is provided by the Department of Health and Environment. The agency may be contacted at: 913-291-3121.

End of Report

February 5, 1992

Mr. Bryan Woodhouse
Becton-Dickinson
2350 Qume Drive
San Jose, CA 95131

Dear Mr. Woodhouse:

Subject: Case Closure for Becton-Dickinson, 2350 Qume Drive, San Jose, CA— Site Code No. 38H

Santa Clara Valley Water District (District) staff have reviewed the file concerning the fuel leak investigation conducted at the subject site. This letter notifies you that the District has, under authority of the District contract with the State Water Resources Control Board, determined that this case does not appear to pose a threat to groundwater.

By copy of this letter, we are transmitting a Case Closure Report to the Regional Water Quality Control Board (RWQCB). The RWQCB has granted the District the authority to provide closure for cases where groundwater has not been impacted.

Based on the information provided by you, District staff have determined that groundwater is not threatened by the reported release of petroleum hydrocarbons from underground storage tanks at the subject site. District staff have also determined that soil impacted by the reported release does not appear to pose a threat to groundwater quality at the subject site. Therefore, additional investigation and clean up of pollution related to the reported release is not required. Further work could be required if conditions change or a water quality threat is discovered at the site.

Please contact Belinda Allen at (408) 927-0710, extension 644 if you require additional information.

Sincerely,

ORIGINAL SIGNED BY

Regional Water Quality Control Board
2101 Webster Street, Suite 500
Oakland, CA 94612

Dear Mr. Dalke:

Subject: Case Closure for Site No. 38H—Becton-Dickinson, 2350 Qume Drive, San Jose

I am pleased to submit to you the District's case closure recommendation for Becton-Dickinson. Based on available information, the District believes this site does not appear to pose a threat to groundwater.

Please contact me with any questions or concerns as you proceed with the resolution of this case.

Sincerely,

SANTA CLARA VALLEY WATER DISTRICT
FUEL LEAK CASE CLOSURE RECOMMENDATION

INTRODUCTION

The purpose of this report is to provide a basis of the Santa Clara Valley Water District (District) staff recommendation for case closure for the site listed below. It includes information regarding the site's history, site investigation methods, and source removal.

SITE INFORMATION

Site Name:	Becton-Dickinson		
Contact:	Bryan Woodhouse	**Telephone:**	(408) 954-2312
Site Address:	2350 Qume Drive San Jose, CA 95131		
Site Location:			

Type of Former or Current Business/Activity at Site

☐ Residential ☐ Commercial Gas Station ☐ Fuel Storage/Transfer Facility
☒ Other: Medical equipment manufacturing

Surrounding Land Use

☐ Residential ☐ Commercial ☒ Industrial
☐ Other:

Tank Information

Underground Tank at Site:

Number	Size (Gallons)	Type	Contents	Date Removed	Age of Tank (Years)
1	12,000	fiberglass	diesel	9-17-90	unknown

Piping:

Date Removed: 10-23-90 Age: unknown

Description and Dates of Known or Suspected Releases: Minor contamination was discovered in a soil sample during the piping removal activities.

Tank:

Removed:	☒ Yes ☐ No	Slurry filled:	☐ Yes ☒ No	Existing:	☐ Yes ☒ No

Reason for Tank Removal: Unknown

Description of Tank Conditions When Removed: The tank was reported to be in good condition with no holes or cracks by the San Jose Fire Department.

List Any Leak Detection Monitoring or Inventory Results: None

Was tank tested for tightness? ☐ Yes ☒ No Result:

Tank Contents Used For:

☒ Business Use ☐ Personal Use ☐ Commercial Sale ☐ Waste Oil Disposal
☐ Other:

Responsible Party and Cost Recovery Information

The following responsible party has been notified that District oversight costs are provided under contract with the State Water Resources Control Board and that oversight charges will be recovered from the responsible party by the State Board.

Company Name:	Becton-Dickinson, Inc.		
Contact:	Bryan Woodhouse	**Telephone:**	(408) 954-2312
Address:	2350 Qume Drive San Jose, CA 95131		
Owned Site/Operated Tanks From:	1987	**To:**	1990
Date of Cost Recovery Letter:	August 16, 1991		

Agency Involvement

Date of Fire Department/County Health URF: 12-10-90
Date of First District Letter to RP: August 16, 1991
Date of District Site Inspection:

Investigative Methods

Activity	Appropriate	Inappropriate
Soil Sample Locations		X
Soil Sample Collection Methods	X	
Soil Sample Preservation	X	
Groundwater Sample Collection Methods	N/A	
Groundwater Sample Preservation	N/A	
Chain of Custody	X	
Certified Laboratory	X	
Laboratory Analyses	X	
Monitoring Well Design	N/A	
Monitoring Well Location	N/A	
Description of Inappropriate Methods, if any Noted Above: Only two samples were collected beneath the 12,000 gallon tank. Three samples are required for a 12,000 gallon tank.		

Local and Regional Hydrogeology

Highest Seasonal Depth to Groundwater: 15 feet based on Well No. 85W0028 located at the site.

Soil Types at Site:

Depth In Feet	Major Soil Type
0-5.5	Silty clay
5.5-24	Sandy, silty clay
24-32	Silty clay

See attached boring log for additional information.

Groundwater Sensitivity (on a 1 to 4 scale, with 4 as the most sensitive):

☐ 1 ☐ 2 ☐ 3 ☒ 4

Number of water supply and monitoring wells within a 0.25 mile radius of the site:

Wells	Active	Destroyed
Domestic	0	1
Municipal	0	0
Agricultural	1	0
Industrial	0	0
Monitoring	17	1

Surface Waters

Name of Creek, Reservoir, Bay, Etc.	Distance to Site
Coyote Creek	1½ miles

Extent of Soil Contamination

The soil pollution extends less than 14 feet vertically beneath the ground surface.

Sample Depth Ft.	Sample Location	TPHG	TPHD	O&G	B	T	E	X	Other
14	Tank Pit Fill End		ND		ND	ND	ND	ND	
14	Tank Pit Fill End		ND		ND	ND	ND	ND	
3	Piping run		ND		ND	.009	ND	ND	
3	Piping run		ND		ND	ND	ND	ND	
3	Piping run		ND		ND	ND	ND	ND	
Detection Limit			10		.005	.005	.005	.005	

All results in PPM.

Laboratory Certified by State: ☒ Yes ☐ No

Extent of Groundwater Contamination: Not applicable

Beneficial Uses

The present and future beneficial uses of the groundwater aquifers underlying and adjacent to the site, as defined in the Regional Water Quality Control Board's (RWQCB) 1986 report, "Water Quality Control Plan—San Francisco Bay Region," include water supply for domestic, municipal, agricultural, and industrial uses.

Tank and Immediate Soil Removal or Remediation

On September 17, 1990, KTW and Associates removed the 12,000 gallon diesel tank under the supervision of the San Jose Fire Department. No odor or staining was noted in the backfill or native soils. The piping was removed on October 23, 1990. Again, no odor or staining was observed in the soil along the piping run.

Verification Monitoring: Not required

STAFF RECOMMENDATIONS

This site should be considered for case closure. The tank was removed and reported to be in good condition. The piping was also reported to be in good condition. The .009 ppm toluene remaining in the soil at the site is low and located only 3 feet below ground surface (bgs). Native soils consist of silty clays and groundwater is located at 15 feet bgs. Therefore, this site does not appear to pose a threat to groundwater.

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

EDR Topographic Map Library has been searched by EDR and maps covering the target property location as provided by Ardent Environmental Group were identified for the years listed below. EDR's Historical Topo Map Report is designed to assist professionals in evaluating potential liability on a target property resulting from past activities. EDRs Historical Topo Map Report includes a search of a collection of public and private color historical topographic maps, dating back to the late 1800s.

San Jose, CA 95131
EDR Inquiry # 6427872.3

Client Name:

Ardent Environmental Group
1827 Capital Street
Corona, CA 92880
Contact: Tahsin Annoor

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Ardent Environmental Group were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

Certified Sanborn Results:

Certification # 0B34-429B-B80C

PO # 101233001

Project NA

UNMAPPED PROPERTY

This report certifies that the complete holdings of the Sanborn Library, LLC collection have been searched based on client supplied target property information, and fire insurance maps covering the target property were not found.

Sanborn® Library search results

Certification #: 0B34-429B-B80C

The Sanborn Library includes more than 1.2 million fire insurance maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow and others which track historical property usage in approximately 12,000 American cities and towns. Collections searched:

- ☑ Library of Congress
- ☑ University Publications of America
- ☑ EDR Private Collection

The Sanborn Library LLC Since 1866™

Limited Permission To Make Copies

Ardent Environmental Group (the client) is permitted to make up to FIVE photocopies of this Sanborn Map transmittal and each fire insurance map accompanying this report solely for the limited use of its customer. No one other than the client is authorized to make copies. Upon request made directly to an EDR Account Executive, the client may be permitted to make a limited number of additional photocopies. This permission is conditioned upon compliance by the client, its customer and their agents with EDR's copyright policy; a copy of which is available upon request.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1922 through 2017. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

A summary of the information obtained is provided in the text of this report.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

TABLE OF CONTENTS

The EDR-Site Report™ is a comprehensive presentation of government filings on a facility identified in a search of federal, state and local environmental databases.

Section 1: Facility Detail Reports . . . . . Page 3

All available detailed information from databases where sites are identified.

Section 2: Databases and Update Information. . . . . Page 288

Name, source, update dates, contact phone number and description of each of the databases for this report.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

Year:	2019
Gepaid:	CAD982519936
TSD EPA ID:	NVT330010000
CA Waste Code:	135 - Unspecified aqueous solution
Disposal Method:	H039 - Other Recovery Of Reclamation For Reuse Including Acid Regeneration, Organics Recovery Ect
Tons:	0.21750
Year:	2019

Gepaid: CAD982519936
TSD EPA ID: CAD008302903
CA Waste Code: 352 - Other organic solids
Disposal Method: H141 - Storage, Bulking, And/Or Transfer Off Site--No Treatment/Reovery (H010-H129) Or (H131-H135)
Tons: 0.75300

Year: 2019
Gepaid: CAD982519936
TSD EPA ID: CAD008302903
CA Waste Code: 181 - Other inorganic solid waste
Disposal Method: H141 - Storage, Bulking, And/Or Transfer Off Site--No Treatment/Reovery (H010-H129) Or (H131-H135)
Tons: 0.01600

Year: 2019
Gepaid: CAD982519936
TSD EPA ID: UTD981552177
CA Waste Code: 343 - Unspecified organic liquid mixture
Disposal Method: H040 - Incineration--Thermal Destruction Other Than Use As A Fuel
Tons: 0.12250

Year: 2019
Gepaid: CAD982519936
TSD EPA ID: CAD008302903
CA Waste Code: 212 - Oxygenated solvents (acetone, butanol, ethyl acetate, etc.)
Disposal Method: H141 - Storage, Bulking, And/Or Transfer Off Site--No Treatment/Reovery (H010-H129) Or (H131-H135)
Tons: 0.01800

Year: 2019
Gepaid: CAD982519936

CA Waste Code: 135 - Unspecified aqueous solution
Disposal Method: H141 - Storage, Bulking, And/Or Transfer Off Site--No Treatment/Reovery (H010-H129) Or (H131-H135)
Tons: 0.27050

Year: 2019
Gepaid: CAD982519936
TSD EPA ID: CAD008302903
CA Waste Code: 214 - Unspecified solvent mixture
Disposal Method: H141 - Storage, Bulking, And/Or Transfer Off Site--No Treatment/Reovery (H010-H129) Or (H131-H135)
Tons: 0.42450

Year: 2019
Gepaid: CAD982519936
TSD EPA ID: CAT080013352
CA Waste Code: 221 - Waste oil and mixed oil
Disposal Method: H039 - Other Recovery Of Reclamation For Reuse Including Acid Regeneration, Organics Recovery Ect
Tons: 0.45100

Year: 2019
Gepaid: CAD982519936
TSD EPA ID: CAD008302903
CA Waste Code: 551 - Laboratory waste chemicals
Disposal Method: H141 - Storage, Bulking, And/Or Transfer Off Site--No Treatment/Reovery (H010-H129) Or (H131-H135)
Tons: 0.37900

Year: 2019
Gepaid: CAD982519936
TSD EPA ID: CAD008302903
CA Waste Code: 511 - Empty pesticide containers 30 gallons or more
Disposal Method: H141 - Storage, Bulking, And/Or Transfer Off Site--No Treatment/Reovery (H010-H129) Or (H131-H135)
Tons: 0.03250

Year: 2019
Gepaid: CAD982519936
TSD EPA ID: CAD008302903
CA Waste Code: 331 - Off-specification, aged or surplus organics
Disposal Method: H141 - Storage, Bulking, And/Or Transfer Off Site--No Treatment/Reovery (H010-H129) Or (H131-H135)
Tons: 0.61600

Year: 2019
Gepaid: CAD982519936
TSD EPA ID: CAD008302903
CA Waste Code: 122 - Alkaline solution without metals pH >= 12.5
Disposal Method: H141 - Storage, Bulking, And/Or Transfer Off Site--No Treatment/Reovery (H010-H129) Or (H131-H135)
Tons: 0.45250

Year: 2019
Gepaid: CAD982519936
TSD EPA ID: NMD002208627
CA Waste Code: 352 - Other organic solids
Disposal Method: H141 - Storage, Bulking, And/Or Transfer Off Site--No Treatment/Reovery (H010-H129) Or (H131-H135)
Tons: 0.79200

Year: 2018
Gepaid: CAD982519936
TSD EPA ID: NMD002208627
CA Waste Code: 352 - Other organic solids
Disposal Method: H141 - Storage, Bulking, And/Or Transfer Off Site--No Treatment/Reovery (H010-H129) Or (H131-H135)
Tons: 0.37500

Year: 2018
