Subject: Request for Extension / Alteration of Review Period

Project: Flaherty Conditional Use Permit Initial Study

SCH Number: 2026020802

The Nevada County Planning Department respectfully requests an extension / alteration of the State Clearinghouse review period for the Flaherty Conditional Use Permit Initial Study (SCH No. 2026020802).

The current review period start date of February 20, 2026 is requested to be revised to February 25, 2026.

This adjustment is necessary to align the State Clearinghouse review period with the County's local review timeline. Due to publication scheduling requirements, the soonest available date for posting the notice in the local newspapers is February 25, 2026.

This requested modification ensures procedural consistency between State and local noticing requirements and allows adequate time for public review.

Thank you for your consideration of this request. Please contact our office if additional information is needed.
