Re: CITADEL Project No. 2264.1006.0
Phase I Environmental Site Assessment Report
525 South Virgil Avenue
Los Angeles, California 90020

Dear Sir or Madam:

Enclosed please find Citadel EHS's Phase I Environmental Site Assessment Report for the above-referenced location.

The Phase I Environmental Site Assessment Report was conducted for Shatto Emet QOZB LP, in accordance with Citadel's Proposal 2264.1006.P, dated May 6, 2025, and a mutually agreed upon scope of work.

If after your review, you have any questions or require additional information, please do not hesitate to telephone me at the Citadel Office at (818) 246-2707.

Sincerely,
CITADEL EHS

Mark Drollinger, M.Eng., CSP, CHMM
Principal, Engineering and Environmental Sciences

Citadel EHS (Citadel) was contracted by Shatto Emet QOZB LP (Client) to perform a Phase I Environmental Site Assessment (Phase I ESA) of the property located at 525 South Virgil Avenue, in the City of Los Angeles, Los Angeles County, California; hereinafter referred to as the "Site."

[1] Such surveys and sampling are recommended to ensure proper handling and disposal and to allow for measures to protect both worker and building occupant safety during routine building maintenance, renovation or demolition.

Current Site Conditions

The Site consists of one four-story multi-tenant office structure of approximately 56,072 square feet (SF) and asphalt paved parking areas. Access to the Site parking areas is from Westmoreland Avenue to the west. At the time of the Site reconnaissance, the Site was unoccupied.

Stationary equipment at the Site includes cable-traction elevator equipment. In general, the Site appeared to be well maintained.

Site History

A review of historical sources showed that the Site was undeveloped land as early as 1894. Five single-family residential structures were constructed on the Site between 1880 and 1911. The structures were demolished in 1957 and 1961 as portion of the Site were developed with a surface parking lot. The current commercial office building was built in 1965. Historical occupants include various professional office tenants since 1965. The Site has been solely occupied by the California Association of Realtors since 1990.

Previous Environmental Reports

Citadel reviewed the following previous environmental reports for the Site:

- California Environmental (CE) performed a Phase I ESA at the Site in April 2018. At the time of the report, the Site was developed with the current commercial structure and surface parking lot. The report identified the Sites location within a Methane Hazard Zone and the presence of an abandoned oil well. The report concluded that the location within the Methane Hazard Zone represented an environmental concern and recommended a soil gas screening survey to evaluate the presence of methane in the shallow subsurface as well as locating the oil well and abandoning to current standards. CE also identified an auto repair facility on a southwest adjoining property as an environmental concern and recommended sampling along the southern Site boundary.

- CE performed a Phase II Testing Report at the Site in September 2018. The investigation involved the advancement of five exterior borings to 15 feet below ground surface (bgs) and one interior boring to five feet bgs. The borings were placed primarily along the southern boundary of the Site near the auto repair facility. The interior boring was placed in the approximate location of the former oil well. The oil well could not be definitively located as reinforced concrete and electrical equipment produced high levels of interference during the geophysical survey.

  Ten soil samples were collected from five and 15 feet bgs and analyzed for volatile organic compounds (VOCs) and total petroleum hydrocarbons (TPH). No contaminants of concern were reported above their respective reporting limits in any soil sample.

  A total of 11 soil gas probes were installed across the 6 borings to a maximum depth of 15 feet bgs. Soil gas samples were analyzed for VOCs. Laboratory analysis of soil gas found concentrations of trichloroethene (TCE) in one five-foot sample and one 15-foot sample at r concentrations of 0.74 micrograms per liter (µg/l) and 0.39 µg/l, respectively. CE evaluated their results against an attenuation factor (AF) for a future commercial property (0.0005) resulting in predictive TCE concentration below the DTSC regulatory screening level (SL) of 3.0 µg/m^3 for ambient air inside a future

commercial use building. At the time of the report, the Site was planned for redevelopment with a mixed-use building with ground floor commercial tenants.

The report concluded that there was no evidence of a significant release of TPH or VOCs. The low concentrations of TCE in soil gas were considered by CE to be de minimis and did not require a remedial response or agency notification. CE recommended that a geophysical survey would be required to locate the buried oil well and a methane survey would need to be conducted prior to the demolition of the current on-site structure.

While the previous report concluded that the reported TCE concentrations were de minimis, based on current regulatory standards, these TCE concentrations are considered an environmental concern. These concentrations convert to 740 micrograms per cubic meter (µg/m^3) and 390 µg/m^3, exceeding the current screening threshold of 100 µg/m^3. Based on current regulatory standards, the reported TCE concentrations are expected to represent a significant environmental concern.

Environmental Databases

The Site was identified on the E MANIFEST for the generation of 0.12 pounds of regulated medical waste in 2021. The waste generator was identified as the Los Angeles Bureau of Sanitation Livability Servies Division. This division operates programs including a city wide receptacle collection program for helping to clean homeless encampments. It is likely that any waste removed from the property was not generated on-site. The presence of the Site on this database indicates proper disposal of hazardous waste. Based on the lack of reported spills or leaks, type of waste, and proper disposal, this listing is not expected to represent a significant environmental concern.

Vapor Encroachment Condition

Citadel reviewed information provided by Environmental Data Resources (EDR) regarding nearby properties to evaluate for potential on-Site vapor encroachment concerns from off-site sources. According to EDR, no historical releases of petroleum products from a leaking underground storage tank (LUST) occurred within 0.25-mile and upgradient of the Site.

The southwest and southeast adjoining properties were identified on the Historical Gas Station database:

- The property located at 534 South Westmoreland Avenue was occupied as an auto repair and service station in 1929 and an auto repair shop in 1937. The property is currently developed with a multi-tenant commercial structure including an auto body shop. A previous subsurface investigation conducted at the Site in 2018 did not identify contaminants of concern commonly associated with auto repair and gasoline service station activities in soil or soil gas samples. Based on the lack of reported contaminants and downgradient location of the auto repair shop, this listing is not likely to have adversely affected the Site.
- The property located at 3003 West 6th Street, was occupied as a gasoline service station from 1969 to 1979. Additional historical resources indicate that the property was developed with various generations of service stations from 1950 to 1977. The service station was demolished by 1979 and the current commercial structure was developed by 1981. The former service station was located approximately 100 feet south of the Site boundary. A previous subsurface investigation conducted at the Site in 2018 did not identify contaminants of concern commonly associated with auto repair and gasoline

service station activities in soil or soil gas samples. Based on the redevelopment of the property, downgradient location, distance from the service station to the Site, and lack of contaminants reported in soil samples collected along the southern property boundary, this listing is not likely to have adversely affected the Site.

The southwest adjoining property was identified on the Historical Dry Cleaner database:

- The property located at 3033 West 6th Street was occupied as a drycleaning facility from 2001 to 2008. This property was developed with the current multi-tenant commercial retail structure by 1928 and the drycleaning facility likely occupied one of the tenant spaces. A previous subsurface investigation completed for the Site in 2018 reported elevated concentrations of TCE in soil gas samples. During the previous on-site investigation, samples collected along the Site southern boundary with the former cleaners facility did not report elevated concentrations tetrachloroethene (PCE) or TCE. However, soil vapor samples collected from sample locations along the western boundary of the Site building reported elevated concentrations of TCE. It could not be determined if the former dry cleaner was the likely source of contamination on-site, however no other potential sources were identified within the vicinity of the Site. Based on documented on-site TCE contamination in soil vapor, this listing is likely to have adversely affected the Site.

Regulatory Agencies

Citadel reviewed information available on-line through the South Coast Air Quality Management District's Facility Information Detail (FIND) database

The Site was identified on the database for the following:

- California Association of Realtors (Facility ID No. 85510)
  - No additional information or permits were available

While the Site is identified on the FIND database, there is no evidence of equipment operation at the Site. Therefore, the Site's presence on this database does not represent a significant environmental concern.

RECOGNIZED ENVIRONMENTAL CONDITIONS

According to American Society for Testing and Materials (ASTM) Standard of Practice E1527-21, recognized environmental conditions (REC) fall under three specific categories when evaluating a site or properties within the site vicinity. These categories are defined below.

A recognized environmental condition, or REC, means the (1) presence of any hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to a release or likely release to the environment; or (3) the presence of hazardous substances or petroleum products in, on, or at the subject property under conditions that pose a material threat of a future release to the environment. De minimis conditions are not recognized environmental conditions.

A controlled recognized environmental condition, or CREC, is a recognized environmental condition affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities with hazardous substances or petroleum products allowed to remain in place subject to implementation of required controls (for example, activity and use limitations or other property use limitations).

An historical recognized environmental condition, or HREC, is a previous release of hazardous substances or petroleum products affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities and meeting unrestricted use criteria established by the applicable regulatory authority or authorities without subjecting the subject property to any controls (for example, activity and use limitations or other property use limitations).

According to ASTM E2600-15, the goal of conducting a vapor encroachment screening on a parcel of property is to identify a vapor encroachment condition (VEC), which is the presence or likely presence of chemicals of concern vapors in the subsurface of the target property caused by the release of vapors from contaminated soil or groundwater or both either on or near the target property as identified by Tier 1 or Tier 2 procedures. The purpose of Tier 1 is to conduct a screen using Phase I ESA-type information to determine if a VEC exists at the target property. If the Tier 1 screen cannot rule out the possibility of a VEC existing at the target property, then a Tier 2 screen can be conducted. Tier 2 applies numeric screening criteria to existing or newly collected soil, soil gas, and/or groundwater testing results to evaluate whether a VEC can be ruled out. Tier 2 has two data collective components: non-invasive and invasive.

Based on a review of historical and present records, and Site reconnaissance, Citadel believes that sufficient information was collected and evaluated for the Site to determine if a REC, HREC, CREC, or a de minimis condition exists. Based on our review, reported release incidents that would represent RECs in connection with the Site or a source of a release that would be likely to contribute to a VEC was not identified. Citadel identified the following environmental concerns:

- Records reviewed indicate that a former oil well is located at the Site. Additional information regarding the well was not available. The former on-Site oil well represents an environmental concern due to unknown handling and disposal of soil during the construction of oil well. The potential for methane and potential dumping of drilling muds is considered a REC.
- A previous Phase II Investigation completed for the Site in 2018 identified elevated concentrations of TCE in soil vapor. TCE was reported at 0.74 µg/l and 0.39 µg/l from two locations along the western boundary of the Site building. These concentrations require additional investigation based on current regulatory guidelines and are considered a REC.

No evidence for designating the Site as a HREC or CREC from reviews of historical documents and present Site conditions was found.

NON-ASTM SCOPE CONSIDERATIONS

The current Site building was constructed prior to bans using asbestos-containing building materials (ACBMs), lead-based paint (LBP), and polychlorinated biphenyls (PCBs) in electrical equipment came into effect in 1989, 1978, and 1978, respectively. No testing is known to have been performed to evaluate the presence of ACBMs, LBP, or PCBs at the Site.

The Site is located within the City of Los Angeles Methane Zone recognized by the Los Angeles Department of Building and Safety. For sites within the Methane or Methane Buffer Zone, the Los Angeles Department of Building and Safety through Chapter 71 of the Los Angeles Building Code requires that subsurface soil vapor sampling for methane be conducted prior to any development.

The California Bureau of Mines and Geology and California Department of Public Health (CADPH) participated in the United States Environmental Protection Agency's (EPA's) State Radon Survey, a Federal survey to measure levels of indoor radon in all states. Based on the results of this survey, CADPH predicted that approximately 0.5% of homes in Region 9 would have radon concentrations over the EPA action level of 4.0 picoCuries per liter (pCi/L).

The Federal EPA Radon Zone for Los Angeles County is Zone 2, which indicates an average indoor concentration greater than or equal to 2.0 pCi/L of air and less than or equal to 4.0 pCi/L. In a survey, 10 tests were performed within the 90057 zip code for the presence of radon. Of these, one test was found to contain radon in excess of 4.0 pCi/L. Site-specific radon values were not available and were not a part of this ASTM Phase I ESA.

A potable well was not observed on-Site and the Site does not lie within a known or potential flood zone or wetlands.

ESA SHELF LIFE

Date of ESA Report: June 12, 2025

Date of Site Inspection: May 20, 2025

Date Interview was performed: May 20, 2025

Date Records Review was performed: May 21, 2025

Date Lien Search was performed: May 15, 2025

1.0 INTRODUCTION

Citadel EHS (Citadel) was contracted by Shatto Emet QOZB LP (Client) to perform a Phase I Environmental Site Assessment (Phase I ESA) of the property located at 525 South Virgil Avenue, in the City of Los Angeles, Los Angeles County, California; hereinafter referred to as the "Site."

1.1 PURPOSE

The purpose of the Phase I ESA was to review past and present land use practices and to evaluate the presence, or likely presence, of any hazardous substances or petroleum products that have been discharged into the property's structure, ground, groundwater, or surface water. This qualitative assessment was accomplished by reviewing current and readily available information regarding past and current land use for indications of the manufacture, generation, use, storage and/or disposal of hazardous substances at the Site. A Site visit was also conducted to observe existing Site conditions. This report provides the results of the Phase I ESA performed.

1.2 INVOLVED PARTIES

The involved party(s) in this study, to the best of our knowledge, is Shatto Emet QOZB LP.

Citadel understands that this Phase I ESA is being requested in conjunction with due diligence activities by Shatto Emet QOZB LP. Citadel recognizes that this report is to be used exclusively by Shatto Emet QOZB LP. and its successors, lenders, and assigns. It is a report upon which Shatto Emet QOZB LP and its successors, lenders, and assigns, can rely.

This assessment and report were prepared on behalf of and for the exclusive use of Shatto Emet QOZB LP, their lenders and assigns solely for its use and reliance, subject to the terms and conditions agreed upon between Citadel and the Client.

1.3 SCOPE OF SERVICES

This Phase I ESA was conducted in accordance with the American Society for Testing and Materials (ASTM) Standard of Practice E1527-21 and the standards of care and diligence normally practiced by recognized consulting firms in performing services of a similar nature.

The scope of services for this assessment consisted of the following:

- Performed a Site inspection to verify current Site conditions and check for visible evidence of previously disposed and/or currently present hazardous waste, surface contamination, underground and above ground storage tanks (USTs/ASTs), suspect polychlorinated biphenyls (PCBs), and other potential environmental hazards.

- Conducted a visual survey of the adjacent properties and the immediate vicinity to determine if any nearby sites posed a significant environmental threat to the Site.

- Reviewed currently and readily available documents, including maps, aerial photographs, governmental databases of known hazardous waste sites and underground tanks, other consultant reports (if any), fire insurance maps, and other accessible records.

- Reviewed results from a search of available current land title records for environmental cleanup liens and other activity and use limitations, such as engineering controls and institutional controls.

- Consulted with appropriate governmental agencies having jurisdiction relative to past history of the property, complaints or incidents in the immediate area, and permits that may have been issued.

- Prepared a Phase I report, inclusive of our findings and recommendations, with applicable illustrations and documentation.

The scope of services outlined above is generally considered sufficient to properly assess the Site based on the data search, reasonably ascertainable documents, and Site inspection.

2.0 GENERAL SITE CHARACTERISTICS

2.1 LOCATION

The irregular-shaped Site is located approximately 0.9 miles south of the CA-101 Freeway, locally referred to as the Hollywood Freeway. The Site is bounded by a multi-tenant commercial office structure and multi-tenant residential structure to the north; Virgil Avenue to the east; a restaurant and multi-tenant commercial retail structure to the south; and Westmoreland Avenue to the west. The general Site vicinity is occupied by residential and commercial properties.

According to the U.S. Geological Survey (USGS) Hollywood Quadrangle (7.5 Minute Series), dated 2022, the Site is at an elevation of approximately 269 feet above mean sea level (AMSL) and appears to slope to the south. The Site is located at approximate coordinates of 34° 3’ 52.15” North Latitude and 118° 17’ 15.54” West Longitude.

A Site Location Map identified as Figure 1 is included in Appendix A.

2.2 SITE DESCRIPTION

According to the County of Los Angeles’ Assessor’s Parcel Maps, the Site is comprised of one parcel legally identified as Assessor’s Parcel Number (APN) 5077-004-030. The Site encompasses approximately 0.97 acres of land.

The Site consists of one four-story multi-tenant office structure of approximately 56,072 square feet (SF) and asphalt paved parking areas. Access to the Site parking areas is from Westmoreland Avenue to the west. At the time of the Site reconnaissance, the Site was unoccupied.

Stationary equipment at the Site includes cable-traction elevator equipment. In general, the Site appeared to be well maintained.

A Site Plan is included as Figure 2 in Appendix A. Select photographs of the Site and vicinity is included as Appendix B.

2.3 ADJACENT PROPERTIES

The immediately surrounding properties of the Site consist of the following:

Direction from Site	Address – Tenant/Use
North	505 South Virgil Avenue – Multi-tenant medical offices 500 Westmoreland Avenue – Multi-family residential building
East	520 South Virgil Avenue – Multi-tenant commercial building, tenants include medical offices and commercial offices
South	3005 West 6th Street – Carl's Jr. Restaurant 534 Westmoreland Avenue – Olympic Auto Body Shop 3033 West 6th Street – Multi-tenant retail stores, tenants include various restaurants
West	523 Westmoreland Avenue – Westmore Manor Apartments

2.4 UTILITIES

Electrical service is supplied to the Site by the Los Angeles Department of Water and Power. Southern California Gas Co. General rubbish (non-hazardous) is removed from the Site on a regular basis by a contracted waste hauler.

3.0 ENVIRONMENTAL SETTING

3.1 PHYSICAL SITE CHARACTERISTICS

Based upon the North American Datum (NAD) of 1983, the Site is at an elevation of approximately 269 feet AMSL.

The Site is identified on the geologic map of Hollywood and Burbank south half quadrangles, California (Dibblee and Ehrenspeck, 1991) as being Holocene aged older surficial sediments (Qae). The older surficial sediments are described as unconsolidated to weakly consolidated clay, sand, and gravel of minor stream channels. The United States Department of Agriculture (USDA) Natural Resources Conservation Service (NRCS) National Cooperative Soil Survey identifies the Site soils as Urban land-Montebello complex. The Montebello soils are described as well drained fine sandy loam, clay loam, and sandy clay loam with low runoff and the Urban Land soil described as soils with very high runoff.

USGS Topographic Map	Hollywood Quadrangle
Groundwater Basin	Coastal Plains of Los Angeles Groundwater Basin – Central Subbasin
Nearest Surface Water to Site	MacArthur Park Lake, approximately 0.6 miles southeast of the Site
Gradient Direction (Source)	South (Topographic maps)
Estimated Depth to Groundwater (Source)	15.63 feet below ground surface (bgs), approximately 250 feet southeast of the Site (GeoTracker/Arcadis, 2010)
Nearest Wetland to Site (Source)	MacArthur Park Lake, approximately 0.6 miles southeast of the Site (National Wetlands Inventory)
Nearest 100 or 500-year Flood Zone	100-year flood zone approximately 900 feet southeast of the Site (Federal Emergency Management Agency)

4.0 SITE RECONNAISSANCE

Citadel representative Mr. Kyle Johnston conducted the Phase I ESA reconnaissance on May 20, 2025. Mr. Johnston was accompanied by Mr. Casey Lins. The Site reconnaissance consisted of

an inspection of the Site and a perimeter survey of the surrounding properties. Findings from the Site inspection, research and perimeter survey are presented below.

4.1 SITE RECONNAISSANCE FINDINGS

Yes	No	Observation
	X	Aboveground Storage Tanks (ASTs) and Underground Storage Tanks (USTs)
X		Identified Hazardous Materials
	X	Polychlorinated Biphenyls (PCBs) – Electric or Mechanical Equipment Likely to Contain Fluids
X		Radioactive Man-Made Materials
	X	Pits, Ponds, and Lagoons
	X	Septic Tanks and Cesspools
X		Wells, Cisterns, Sumps, and Drains
	X	Wastewater or Grease Interceptors
	X	Interior Stains or Corrosion
	X	Strong, Pungent, or Noxious Odors
	X	Pools of Liquid
	X	Stained Soil or Pavement
	X	Stressed Vegetation
X		Other

The above-identified observed items are further discussed below.

IDENTIFIED HAZARDOUS MATERIALS

Routine janitorial and maintenance supplies were observed in containers sized for commercial use and properly stored with no signs of staining or leaking. The hazardous materials observed are not expected to represent a significant environmental concern.

RADIOACTIVE MAN-MADE MATERIALS

Many public and private office buildings in the United States have self-luminescent tritium exit signs that contain radioactive materials. While these do not constitute a recognized environmental condition, the exit signs must be properly identified to ensure proper handling and disposal practices.

WELLS, CISTERNS, SUMPS, AND DRAINS

Storm drains were observed in the parking area of the Site. No hazardous substances or petroleum products were noted in the vicinity of the drains. Based on the use of the drains solely for water runoff, the presence of the drains is not expected to represent a significant environmental concern.

OTHER

Asphalt patching of two boreholes was observed in the parking area. The boreholes were advanced as part of a Geotechnical study completed for the Site and are not expected to represent a significant environmental concern.

4.2 NON-ASTM SERVICES

ASBESTOS CONTAINING MATERIALS

The EPA issued a final rule under Section 6 of Toxic Substances Control Act (TSCA) banning most asbestos-containing building materials (ACBMs) in 1989. The ban on ACBMs was vacated in 1991 allowing some building materials to continue to contain asbestos. The applicability of the EPA's National Emission Standards for Hazardous Air Pollutants (NESHAP, 40 CFR Chapter 61, Subpart M) apply to the owner or operator of a facility where an inspection for the presence of asbestos-containing materials (ACM), including Category I (asbestos containing packings, gaskets, resilient floor coverings and asphalt roofing products), and Category II (all remaining types of non-friable asbestos containing material not included in Category I that when dry, cannot be crumbled, pulverized or reduced to powder by hand pressure), non-friable ACM must occur prior to the commencement of demolition or renovation activities.

Building materials, coatings, and/or finishes containing asbestos may be present in any structure regardless of the date of construction. In accordance with NESHAPS and local air pollution control district regulations, all suspect materials, finishes, and coatings that will be impacted by renovation or demolition regardless of the date of construction are required to be surveyed for the presence of asbestos by State-licensed asbestos consultants.

A survey for asbestos-containing materials was not requested or conducted as part of this Phase I ESA.

LEAD-BASED/LEAD-CONTAINING PAINTS

Lead-based paint (LBP) is defined as any paint, varnish, stain, or other applied coating that has greater than or equal to one milligram per square centimeter (mg/cm^2) (5,000 microgram per gram (µg/g) or 5,000 parts per million (ppm)) of lead by federal guidelines; state and local definitions may differ from the federal definitions in amounts ranging from 0.5 mg/cm^2 to 2.0 mg/cm^2. In 2009, the US Consumer Product Safety Commission (16 Code of Federal Regulations CFR 1303) banned paint containing more than 0.009% (90 ppm) lead for residential use. Buildings built before 1978 are much more likely to have LBP; however, all commercial structures regardless of the date of construction likely contain lead-based or lead-containing glazings, varnishes, stains, coatings, paints, and primers. Such materials that will be impacted by renovation, repair, or demolition should be tested beforehand and the results disclosed to trades or staff that will be doing such work. All associated waste streams should be accurately characterized for proper disposal requirements.

A survey for lead containing materials was not requested or conducted as part of this Phase I ESA.

POLYCHLORINATED BIPHENYLS

Polychlorinated biphenyls (PCBs) were an ingredient added to a variety of building materials during manufacture, most notably, but not limited to, caulking, putty, and glazing, particularly around windows, door frames, and building joints. Building materials containing PCBs were used in many buildings in the 1950s through the 1970s, and potentially before the 1950s. There are

significant regulations regarding the removal of these materials during demolition and/or renovation, both from an environmental protection standpoint as well as an occupational health and safety standpoint. In addition, under the Toxic Substances Control Act (TSCA), building materials that contain PCBs at or above 50 ppm are considered an "unauthorized use" of PCBs, and removal can be compelled under TSCA. The presence of PCBs may have the potential to impact a property's future land use. Based on the construction date for the Site building, building materials containing PCBs may have been used in the construction of the Site building.

A survey for PCBs is beyond the required scope of ASTM E1527-21 and was not specifically requested or conducted as part of this Phase I ESA.

DRINKING WATER

The Site is supplied with municipal drinking water by the LADWP. An assessment of lead in drinking water was not requested or conducted as part of this Phase I ESA.

RADON

The California Bureau of Mines and Geology and California Department of Public Health (CADPH) participated in the United States Environmental Protection Agency's (EPA's) State Radon Survey, a Federal survey to measure levels of indoor radon in all states. Based on the results of this survey, CADPH predicted that approximately 0.5% of homes in Region 9 would have radon concentrations over the EPA action level of 4.0 picoCuries per liter (pCi/L).

The Federal EPA Radon Zone for Los Angeles County is Zone 2, which indicates an average indoor concentration greater than or equal to 2.0 pCi/L of air and less than or equal to 4.0 pCi/L. In a survey, 16 tests were performed within the 90020 zip code for the presence of radon. Of these, no tests were found to contain radon in excess of 4.0 pCi/L. Site-specific radon values were not available and were not a part of this ASTM Phase I ESA.

METHANE

In March 2004, Ordinance Number 175790 was adopted into the Los Angeles Municipal Code (Section 91.106.4.1 and Division 71, Chapter IX) to establish citywide methane mitigation requirements, and included updated construction standards to control methane intrusion into buildings. This ordinance established defined geographic areas as Methane Zones and Methane Buffer Zones, which relate to specific assessment and mitigation requirements per area, and set forth a standard of assessment and mitigation in the planning stages of all new construction in these areas.

The Site is located within the City of Los Angeles Methane Zone recognized by the Los Angeles Department of Building and Safety.

5.0 SITE HISTORY

The purpose of the records review is to obtain and review reasonably ascertainable/standard sources that will help identify recognized environmental conditions in connection with the property. Reasonably ascertainable records from standard sources are (1) information that is publicly available, (2) information that is obtainable from its source within reasonable time and cost constraints, and (3) information that is practically reviewable.

Reasonable time and cost means that the information will be provided by the source within 20 calendar days of receiving a written, telephone, or in-person request at no more than a nominal cost intended to cover the source's cost of retrieving and duplicating the information. Information that can only be reviewed by a visit to the source is reasonably ascertainable if the visit is permitted by the source within 20 days of request.

To investigate the history of the Site, Citadel reviewed select historic aerial photographs, building permits, city directories, and Sanborn Fire Insurance Maps provided by Environmental Data Resources Inc. (EDR). In addition, Citadel reviewed client-supplied information, and oil and gas maps, and Citadel interviewed selected individuals regarding historic Site use. Citadel's reviews of these reports and interviews are discussed below.

5.1 HISTORICAL AERIAL PHOTOGRAPHS

Historical aerial photographs of the Site and vicinity were obtained from EDR to ascertain historical land uses and to identify any evidence of hazardous material generation or storage. Below are brief descriptions of observations made from the aerial photographs of the Site and vicinity.

Dates(s)	Site Description	Surrounding Area Descriptions
1923	Five single-family residential structures and associated private garages appear to be developed	**North:** Two single-family residential structures appear to be developed **East:** Virgil Avenue appears to be developed with two single-family residential structures developed further east **South:** Two single-family residential structures appear to be developed **West:** Westmoreland Avenue appears to be developed with two single-family residential structures developed further west
1928, 1938, 1948, 1952, 1954	Relatively unchanged	**North:** Relatively unchanged **East:** A third single-family residential structure appears to be developed **South:** Relatively unchanged **West:** One of the previously identified single-family residential structures appears to have been demolished and replaced with a multi-family residential structure
1964	Four of the previously identified residential structures appear to have been demolished and replaced with a surface parking lot	**North:** The previously identified structures appear to have been demolished and replaced with the current multi-tenant commercial office and multi-tenant residential structures **East:** The previously identified structures appear to have been demolished and replaced with the current commercial structure and surface parking lot **South:** The previously identified structures appear to have been demolished and replaced with the current commercial structure; a gasoline service station appears to be developed to the northwest of the intersection of Virgil Avenue and 6th Street **West:** Relatively unchanged

Dates(s)	Site Description	Surrounding Area Descriptions
1977	The remaining residential structure appears to have been demolished and the current commercial structure appears to be developed	**North:** Relatively unchanged **East:** Relatively unchanged **South:** The previously identified service station appears to have been redeveloped into a new configuration **West:** Relatively unchanged
1979	Relatively unchanged	**North:** Relatively unchanged **East:** Relatively unchanged **South:** The previously identified service station appears to have been demolished and the area appears to be graded **West:** Relatively unchanged
1981	Relatively unchanged	**North:** Relatively unchanged **East:** Relatively unchanged **South:** The current commercial structure appears to be developed **West:** Relatively unchanged
1989, 1994, 2002, 2005, 2009, 2012, 2016, 2020	Relatively unchanged	**North:** Relatively unchanged **East:** Relatively unchanged **South:** Relatively unchanged **West:** The remaining single-family residential structure appears to have been demolished and replaced with the current multi-family residential structure

Copies of the Aerial Photographs provided by EDR can be found in Appendix C.

5.2 HISTORIC BUILDING PERMITS

EDR provides a listing of building permits for the Site and adjoining properties, if available. In addition, Citadel reviewed building permits with the City of Los Angeles Building Department. Building permits for the construction of dwellings and garages were available from 1909 to 1911. Demolition permits for the dwellings were issued in 1957 and 1958. Permits to construct a surface parking lot were issued in 1958 and the permit for the construction of the current commercial structure was issued in 1965.

A copy of the EDR Building Permit Report is included as Appendix D.

5.3 HISTORICAL FIRE INSURANCE MAPS

Citadel requested that EDR review its collection of Sanborn Fire Insurance Maps for potential coverage of the Site and vicinity. Below are brief descriptions of observations made from the Sanborn Maps of the Site and vicinity.

Dates(s)	Site Description	Surrounding Area Descriptions
1907	Undeveloped land	**North:** Undeveloped land **East:** South Virgil Avenue is shown with undeveloped land depicted further east **South:** Undeveloped land with dwellings depicted further south **West:** The current road is shown as Miami Avenue with a dwelling depicted further west

Dates(s)	Site Description	Surrounding Area Descriptions
1921	Five dwellings and private auto garages are shown	**North:** Two dwellings and private garages are shown **East:** Two dwellings are shown **South:** Two multi-family residential structures are shown **West:** Miami Avenue is now shown as South Westmoreland Avenue; the previously identified dwelling is shown as being replaced with two new dwellings
1950, 1954	Relatively unchanged	**North:** One of the previously identified dwellings is no longer shown and the current commercial structure is depicted further north **East:** A third dwelling is shown **South:** A gasoline service station and parking garage are depicted further south of the previously identified residential structures **West:** One of the previously identified dwelling is now shown as a multi-family residential structure
1955	Relatively unchanged	**North:** Relatively unchanged **East:** One of the previously identified dwellings is now shown as a surface parking lot **South:** Relatively unchanged **West:** Relatively unchanged
1961	The dwellings in the eastern portion of the Site are now shown as a surface parking lot	**North:** Relatively unchanged **East:** The remaining dwellings are not shown as the current commercial structure occupied by offices **South:** Relatively unchanged **West:** Relatively unchanged
1968, 1970	The remaining dwellings are now shown as a surface parking lot; the current commercial structure is depicted and occupied by offices	**North:** The remaining dwelling is shown being replaced by the current commercial structure occupied by offices **East:** Relatively unchanged **South:** The previously identified residential structures are no longer shown; the previously identified service station is depicted in a new configuration **West:** Relatively unchanged

A copy of the EDR Sanborn Map Report is included as Appendix E.

5.4 CITY PARCEL PROFILE REPORT

Citadel reviewed the on-line parcel profile report from the City of Los Angeles interactive database, NavigateLA. Alias addresses identified for the Site include:

- 515, 517, 525 and 531 South Virgil Avenue
- 518, 526 and 530 South Westmoreland Avenue

5.5 HISTORICAL CITY DIRECTORIES

City directories were researched by EDR in order to identify previous Site tenants and/or neighboring properties with a potential for hazardous materials generation and/or storage. EDR

researched city directory listings from 1920 through 2020 (non-inclusive) and provided their search results to Citadel for review. The following table summarizes information provided by the city directory search.

Dates(s)	Occupant Listed
525 SOUTH VIRGIL AVENUE	
1970, 1975, 1976, 1981, 1986	Various commercial office tenants
1990, 2000, 2006, 2010, 2014, 2020	California Association of Realtors

The following table identifies occupants of surrounding properties:

Dates(s)	Occupant Listed
520 SOUTH VIRGIL AVENUE (NORTH ADJOINING PROPERTY)	
1992, 1995, 2000, 2005	Various commercial office tenants
2010, 2014, 2020	Various medical office tenants
500 SOUTH WESTMORELAND AVENUE (NORTH ADJOINING PROPERTY)	
1992, 1995, 2000, 2010, 2014, 2020	Residences
520 SOUTH VIRGIL AVENUE (NORTH ADJACENT PROPERTY)	
1992, 1995, 2000, 2005	Various commercial office tenants
2010	Various medical office tenants
3005 WEST 6th STREET (SOUTH ADJOINING PROPERTY)	
1924, 1929, 1933, 1937, 1942	Residence
1981, 1986, 1990, 1995, 2000, 2010, 2014, 2020	Carl's Jr Restaurant
3003 WEST 6th STREET (SOUTH ADJOINING PROPERTY – HISTORICAL ADDRESS)	
1951, 1958, 1967	Richfield Service Station
1976	Jose ARCO Service Station
534 SOUTH WESTMORELAND AVENUE (SOUTH ADJOINING PROPERTY)	
1933	Westmoreland Garage
1937	Dorothy Auto Repair
1942	Fusco Frank Auto Renting
1995, 2000, 2005, 2010, 2014, 2020	Olympic Autobody Shop
523 SOUTH WESTMORELAND AVENUE (WEST ADJACENT PROPERTY)	
1924, 1929, 1933, 1937, 1942, 1951, 1958, 1962, 1967, 1971, 1976, 1981, 1992, 1995, 2000, 2005, 2010, 2014, 2020	Residences

A copy of the EDR City Directory Abstract is included as Appendix F.

5.6 CLIENT-SUPPLIED ENVIRONMENTAL INFORMATION

Citadel reviewed the *Environmental Site Assessment – Phase I,* prepared by California Environmental, dated April 2018.

> California Environmental (CE) performed a Phase I ESA at the Site in April 2018. At the time of the report, the Site was developed with the current commercial structure and surface parking lot. The report identified the Sites location within a Methane Hazard Zone and the presence of an abandoned oil well. The report concluded that the location within the Methane Hazard Zone represented an environmental concern and recommended a soil gas screening survey to evaluate the presence of methane in the shallow subsurface as well as locating the oil well and abandoning to current standards. CE also identified an auto repair facility on a southwest adjoining property as an environmental concern and recommended sampling along the southern Site boundary.

Citadel reviewed the *Phase II Testing Report,* prepared by California Environmental, dated September 26, 2018.

> CE performed a Phase II Testing Report at the Site in September 2018. The investigation involved the advancement of five exterior borings to 15 feet bgs and one interior boring to five feet bgs. The borings were placed primarily along the southern boundary of the Site near the auto repair facility. The interior boring was placed in the approximate location of the former oil well. The oil well could not be definitively located as reinforced concrete and electrical equipment produced high levels of interference during the geophysical survey.
>
> Ten soil samples were collected from five and 15 feet bgs and analyzed for VOCs and TPH. No contaminants of concern were reported above their respective reporting limits in any soil sample.
>
> A total of 11 soil gas probes were installed across the 6 borings to a maximum depth of 15 feet bgs. Soil gas samples were analyzed for VOCs. Laboratory analysis of soil gas found concentrations of TCE in one five-foot sample and one 15-foot sample at r concentrations of 0.74 µg/l and 0.39 µg/l, respectively. CE evaluated their results against an attenuation factor (AF) for a future commercial property (0.0005) resulting in predictive TCE concentration below the DTSC regulatory screening level (SL) of 3.0 µg/m^3 for ambient air inside a future commercial use building. At the time of the report, the Site was planned for redevelopment with a mixed-use building with ground floor commercial tenants.
>
> The report concluded that there was no evidence of a significant release of TPH or VOCs. The low concentrations of TCE in soil gas were considered by CE to be de minimis and did not require a remedial response or agency notification. CE recommended that a geophysical survey would be required to locate the buried oil well and a methane survey would need to be conducted prior to the demolition of the current on-site structure.
>
> While the previous report concluded that the reported TCE concentrations were de minimis, based on current regulatory standards, these TCE concentrations are considered an environmental concern. These concentrations convert to 740 micrograms per cubic meter (µg/m^3) and 390 µg/m^3, exceeding the current screening threshold of 100 µg/m^3. Based on current regulatory standards, the

reported TCE concentrations are expected to represent a significant environmental concern.

A copy of the reviewed report can be found in Appendix G.

5.7 HISTORICAL TOPOGRAPHIC MAPS

Historical topographic maps were provided by EDR in order to identify natural features and changes in development over a long period of time. The topographic maps provides the user with a regional view of changes to the Site and vicinity that other historical databases such as aerial photographs may not provide. Below are brief descriptions of observations made from the topographic maps of the Site and vicinity.

Dates(s)	Site Description	Surrounding Area Descriptions
1894, 1896, 1898, 1900, 1902	Undeveloped land	**North:** Undeveloped land **East:** Virgil Avenue appears to be developed with undeveloped land further east **South:** Undeveloped land **West:** Westmoreland Avenue appears to be developed with undeveloped land further west
1920, 1921	Relatively unchanged	**North:** Small structures appear to be developed **East:** Small structures appear to be developed **South:** Small structures appear to be developed **West:** Small structures appear to be developed
1926	Several structures appear to be developed	**North:** Relatively unchanged **East:** Relatively unchanged **South:** Relatively unchanged **West:** Relatively unchanged
1953, 1966, 1972, 1981, 1991	Shading indicative of urban development	**North:** Shading indicative of urban development **East:** Shading indicative of urban development **South:** Shading indicative of urban development **West:** Shading indicative of urban development
2012, 2015, 2018, 2022	Structures are not depicted on this map	Structures are not depicted on this map

Copies of the historical topographic maps provided by EDR are included as Appendix H.

5.8 HISTORIC OIL AND GAS MAPS

Citadel reviewed information available on-line through the California Department of Conservation's website. The Geological Energy Management Division (CalGEM) Online Mapping System (COMS) shows that there is an oil well located at the Site. The oil well is identified by API 0403726259. According to COMS, the well operator for the well is listed as Wilson Oil Co. and the status for the well is idle. Additional information from well documents was not available.

The presence of a former on-site oil well represents a significant environmental concern.

5.9 INTERVIEWS

Citadel interviewed Mr. Casey Lins during the Site reconnaissance. Mr. Lins was not aware of any historic or current environmental concerns or hazards at the Site. Citadel also submitted a User Questionnaire to the Client.

The completed User Questionnaire was not provided to Citadel at the time of this report. A copy of Citadel's User Questionnaire can be found in Appendix I.

5.10 ENVIRONMENTAL LIEN

Citadel contracted with EDR to perform an Environmental Lien Search for the Site. The Environmental Lien Search report reviewed did not identify any current environmental liens or other activity and use limitations (AUL) for the Site. A deed dated August 14, 2024, was included in the report. The deed granted the title from California Association of Realtors, Inc. to Real Estate Business Technologies.

A copy of the environmental lien and AUL search can be found in Appendix J.

5.11 SUMMARY OF SITE HISTORY

A review of historical sources showed that the Site was undeveloped land as early as 1894. Five single-family residential structures were constructed on the Site between 1880 and 1911. The structures were demolished in 1957 and 1961 as portion of the Site were developed with a surface parking lot. The current commercial office building was built in 1965. Historical occupants include various professional office tenants since 1965. The Site was solely occupied by the California Association of Realtors since 1990.

The following provides a brief history of nearby properties:

- The property to the north of the Site appeared to be undeveloped land as early as 1894. Two single-family residential structures were built in 1921. The structures were demolished by 1964 and replaced with the current commercial office structure and apartment structure. Historical occupants of the commercial structure include various office tenants from 1992 to 2005 and various medical office tenants since 2010.
- South Virgil Avenue appeared to be developed to the east of the Site by 1894 with undeveloped land further east. Two single-family residential structures appeared to be developed by 1921. A third single-family residential structure appeared to be developed by 1928. All previously identified structures appeared to have been demolished and replaced with the current commercial office structure and surface parking lot by 1964. Historical occupants include residences from 1921 to 1964 and various office tenants since 1964.
- The property to the south of the Site appeared to be undeveloped land as early as 1894. Two multi-family residential structures appeared to be developed by 1921. The structures appeared to have been demolished and replaced with the current commercial structure and a gasoline service station. The service station appeared to have been demolished by 1979 and the current commercial structure appeared to have been developed by 1981.
- Westmoreland Avenue appeared to be developed to the west of the Site as early as 1894. A single-family residential structure appeared to be developed by 1907. The structure appeared to have been demolished and replaced by two single-family residential structures by 1921. One of the residential structures was demolished and

replaced with a multi-family residential structure by 1950. The remaining single-family residential structure appeared to have been demolished and replaced with the current multi-family residential structure by 1989. Historical occupants include residences.

6.0 REGULATORY AGENCY REVIEW

6.1 DATABASE REVIEW

As part of the Phase I ESA, Citadel utilized EDR of Milford, Connecticut, as an information source for regulatory agency database records.

The following summary of the database information is divided into five columns. The first column identifies the environmental database researched; the second column indicates the distance from the Site that was used for the research; the third column indicates if the Site was identified in the specified database; the fourth column lists the number of listings identified on the database within the specified distance of the Site; and the fifth column indicates if the sites identified are potential environmental concerns to the Site.

Although locations of the orphan sites are frequently unknown, Citadel attempts to evaluate the potential adverse environmental impact that these facilities may have on the Site. This evaluation consists of reviewing street names in an effort to learn whether the street on which the Site is located lies within the search distance of the subject property, a drive-by view of surrounding properties during the Site visit, and evaluating the Site type and information provided by government agencies. The orphan sites included in the following table are those Citadel identified as potentially located within the identified search distance.

Database	Radius	Site Identified	No. of Listings Identified	Potential Environmental Concern to the Site
National Priorities List	1 mile	No	0	
RCRA Corrective Action Treatment/Storage/Disposal (TSD) Facilities (CORRACTS)	1 mile	No	0	
Delisted National Priorities List	1 mile	No	0	
CERCLIS Sites	½ mile	No	0	
CERCLIS No Further Remedial Action Planned (NFRAP) Sites	½ mile	No	1	No
RCRA Non-Corrective Action TSD Facilities	½ mile	No	0	
State/Tribal Voluntary Cleanup Sites	½ mile	No	1	No
State/Tribal Leaking Registered Storage Tank Sites	½ mile	No	34	No, see discussion below
State/Tribal Brownfield Sites/CERCLIS Equivalent	1 mile	No	0	
Historic CORTESE List	½ mile	No	18	No, see discussion below
State/Tribal Solid Waste Landfill Sites/Facilities	½ mile	No	0	
Federal/State/Tribal Engineering Controls Registries	½ mile	No	0	

Database	Radius	Site Identified	No. of Listings Identified	Potential Environmental Concern to the Site
Federal/State/Tribal Institutional Controls Registries	½ mile	No	0	
RCRA Large Quantity Generators	¼ mile	No	4	No, see discussion below
RCRA Small Quantity Generators	¼ mile	No	9	No, see discussion below
RCRA Non Generators	¼ mile	No	41	No, see discussion below
State/Tribal Registered Storage Tank Sites	¼ mile	No	28	No, see discussion below
HIST UST	¼ mile	No	7	No, see discussion below
CA FID UST	¼ mile	No	14	No, see discussion below
SWEEPS UST	¼ mile	No	14	No, see discussion below
Facility Index System (FINDS)	Site	No	0	
HAZNET	Site	No	0	
Orphan	N/A	No	2	No

A brief discussion of select facilities and their database listings are included following the table. The full report provided by EDR and reviewed by Citadel can be found in Appendix K.

Site Name	LSD City of Los Angeles Bureau of Sanitation
Database(s)	E MANIFEST
Address	525 South Virgil Avenue
Distance/Direction	Target Property
Comments	The Site was identified on the E MANIFEST for the generation of 0.12 pounds of regulated medical waste in 2021. The waste generator was identified as the Los Angeles Bureau of Sanitation Livability Servies Division. This division operates programs including a city wide receptacle collection program for helping to clean homeless encampments. It is likely that any waste removed from the property was not generated on-site. The presence of the Site on this database indicates proper disposal of hazardous waste. Based on the lack of reported spills or leaks, type of waste, and proper disposal, this listing is not expected to represent a significant environmental concern.

Site Name	Lasan Livability Services Division
Database(s)	E MANIFEST
Address	539 South Virgil Avenue
Distance/Direction	South adjoining property and downgradient of the Site
Comments	This property was identified on the E MANIFEST database for the generation of 0.005 pounds of regulated medical waste. Based on the lack of reported spills or leaks and type of waste generated, this listing is not expected to represent a significant environmental concern.

Site Name	LSD City of Los Angeles Bureau of Sanitation

Database(s)	E MANIFEST
Address	505 South Virgil Avenue
Distance/Direction	North adjoining property and upgradient of the Site
Comments	The Site was identified on the E MANIFEST for the generation of 0.007 pounds of regulated medical waste in 2021. Based on the lack of reported spills or leaks, type of waste, and proper disposal, this listing is not expected to represent a significant environmental concern.

Site Name	Carpenters Trust
Database(s)	CA LUST, CA CORTESE, CA HIST CORTESE, CA CERS
Address	2951 West 6th Street
Distance/Direction	275 feet southwest and downgradient of the Site
Comments	This property was identified as a leaking underground storage tank (LUST) cleanup Site. An unauthorized release of gasoline impacting groundwater was discovered during the removal of three 10,000-gallon gasoline USTs and one 500-gallon waste oil UST in 1989. Initial sampling reported elevated concentrations of total petroleum hydrocarbons as gasoline (TPH-g) and benzene in soil. Site remediation involved the extraction of approximately 2,100 pounds of vapor phase hydrocarbons, over-excavation of approximately 576 cubic yards of contaminated soil, and pumping out approximately 71,750 gallons of contaminated groundwater. The final groundwater monitoring report completed in 2010, delineated contaminant plume to be within the property boundaries. The Los Angeles Regional Water Quality Control Board (LARWQCB) provided regulatory oversight and issued case closure on April 11, 2011. Based on case closure under regulatory oversight, downgradient location, distance, and delineated contaminant plumes, this former release is not expected to represent a significant environmental concern.

Maps showing the location of these facilities and additional information are provided in the Government Records Report in Appendix K.

6.2 VAPOR ENCROACHMENT CONDITION

According to ASTM E2600-22, the goal of conducting a vapor encroachment screening on a parcel of property is to identify a vapor encroachment condition (VEC), which is the presence or likely presence of chemicals of concern vapors in the subsurface of the target property (TP) caused by the release of vapors from contaminated soil or groundwater or both either on or near the target property as identified by Tier 1 or Tier 2 procedures. The purpose of Tier 1 is to conduct a screen using Phase I ESA-type information to determine if a VEC exists at the target property. If the Tier 1 screen cannot rule out the possibility of a VEC existing at the target property, then a Tier 2 screen can be conducted. Tier 2 applies numeric screening criteria to existing or newly collected soil, soil gas, and/or groundwater testing results to evaluate whether or not a VEC can be ruled out. Tier 2 has two data collective components: non-invasive and invasive.

Tier 1 screening begins with the default area of concern (AOC) defined by the approximate minimum search distances adjusted as appropriate for local conditions, and then determining if known or suspected contaminated properties with contaminants of concern (COCs) exist within the established AOC. The default AOC is one third of a mile around the TP for COCs and one-

tenth of a mile for petroleum hydrocarbon COCs. The AOC is measured from the TP boundary to a contaminated property with known or suspected COC contamination of soil or groundwater or both. The default AOC may be expanded or reduced by the environmental professional (adjusted AOC) using experience and professional judgment, based on factors like groundwater flow direction, subsurface characteristics, surficial features and man-made features.

If groundwater flow direction is known or can be inferred from the Phase I ESA investigation of the TP, the default AOC in the down-gradient direction may be reduced to the area within the critical distance of 100 feet. The AOC in the cross-gradient direction may also be reduced, depending upon the critical distance and the width of the COC-contaminated plume associated with a known or likely COC-contaminated property located in a cross-gradient direction from the TP. The critical distance is the lineal distance in any direction between the nearest edge of the contaminated plume and the nearest TP boundary and is equal to 100 feet for COCs or 30 feet for dissolved petroleum hydrocarbon COCs.

For a COC-contaminated property identified in Tier 1 located down-gradient from the TP, it is not necessary to have information on migrating groundwater contaminated plume dimensions as the critical distance is measured from the nearest TP boundary to the source of contamination at the off-site down-gradient property. In this case, the AOC may be reduced to the area within the critical distance.

For a contaminated property identified in Tier 1 located crossgradient from the TP, the AOC will be the area within the critical distance plus one half of a reasonable estimation of the contaminated plume width (at the point nearest the closest TP boundary) that might be associated with the nearby known or suspected COC-contaminated property (that is, the COC-contaminated property where the groundwater contamination originated). The environmental professional's judgment and experience can be used to estimate the width of the COC-contaminated plume that might be associated with the nearby known or suspected COC-contaminated property. If it is not possible to estimate the contaminated plume width, then the AOC cannot be reduced in the cross-gradient direction.

Citadel reviewed information provided by EDR regarding nearby properties to evaluate for potential on-Site vapor encroachment concerns from off-site sources. According to EDR, no historical releases of petroleum products from a leaking underground storage tank (LUST) occurred within 0.25-mile and upgradient of the Site.

EDR also provided the following listings on the Historical Gas Station and Dry Cleaners databases as within 0.125-mile and upgradient, 365 feet and cross-gradient, or 100 feet and downgradient of the Site.

Historical Gas Stations	
Site Name	Saxman Ray
Address	534 South Westmoreland Avenue
Distance/Direction	60 feet south and downgradient of the Site
Comments	According to EDR, the property located at 534 South Westmoreland Avenue was occupied as an auto repair and service station in 1929 and an auto repair shop in 1937. The property is currently developed with a multi-tenant commercial structure including an auto body shop. A previous subsurface investigation conducted at the Site in 2018 did not identify contaminants of concern commonly associated with auto repair and gasoline service station activities in soil or soil gas samples. Based on the lack of reported contaminants and downgradient location of the

Historical Gas Stations	
	auto repair shop, this listing is not likely to have adversely affected the Site.
Site Name	Tapias Jose P
Address	3003 West 6th Street
Distance/Direction	South adjoining property and downgradient of the Site
Comments	According to EDR, The property located at 3003 West 6th Street, was occupied as a gasoline service station from 1969 to 1979. Additional historical resources indicate that the property was developed with various generations of service stations from 1950 to 1977. The service station was demolished by 1979 and the current commercial structure was developed by 1981. The former service station was located approximately 100 feet south of the Site boundary. A previous subsurface investigation conducted at the Site in 2018 did not identify contaminants of concern commonly associated with auto repair and gasoline service station activities in soil or soil gas samples. Based on the redevelopment of the property, downgradient location, distance from the service station to the Site, and lack of contaminants reported in soil samples collected along the southern property boundary, this listing is not likely to have adversely affected the Site.
Site Name	Fusco Frank
Address	3029 to 3033 West 6th Street
Distance/Direction	South adjoining property and downgradient of the Site
Comments	According to EDR, this property was occupied as a gasoline service station from 1969 to 1975. Additional historical references indicate that the property was developed with a service station as early as 1950. The service station appeared to have been redeveloped into a new configuration by 1979. The service station was demolished and replaced with the current multi-tenant retail structure by 1989. The service station structure was likely located approximately 150 feet south of the Site boundary. Based on the redevelopment of the property, downgradient location, distance from the service station to the Site, and lack of contaminants reported in soil samples collected along the southern property boundary, this listing is not likely to have adversely affected the Site.

Historical Dry Cleaners	
Site Name	Kays Cleaners
Address	3033 West 6th Street
Distance/Direction	Approximately 50 feet south and downgradient of the Site
Comments	According to EDR, the property located at 3033 West 6th Street was occupied as a drycleaning facility from 2001 to 2008. This property was developed with the current multi-tenant commercial retail structure by 1928 and the drycleaning facility likely occupied one of the tenant spaces. A previous subsurface investigation completed for the Site in 2018 reported elevated concentrations of TCE in soil gas samples. During the previous on-site investigation, samples collected along the Site southern boundary with the former cleaners facility did not report elevated concentrations tetrachloroethene (PCE) or TCE. However, soil vapor samples collected from sample locations along the western boundary of the Site building reported elevated concentrations of TCE. It could not be determined if the former dry cleaner was the likely source of contamination on-site, however no other potential sources were identified within the vicinity of the Site. Based on documented on-site TCE contamination in soil vapor, this listing is likely to have adversely affected the Site.

Additional properties on the Historical Gas Stations and Dry Cleaners databases are located greater than 235 feet and 318 feet from the Site, respectively. Additional information on these properties can be reviewed in the vapor encroachment screen provided by EDR, which is included as Appendix L.

6.3 REGULATORY AGENCIES

Local and state agencies, such as environmental health departments, fire prevention bureaus, and building and planning departments are contacted to identify any current or previous reports of hazardous materials use, storage, and/or unauthorized releases that may have impacted the Site.

BUILDING DEPARTMENT

Citadel contacted the City of Los Angeles Building Department for information regarding the Site in order to identify historical tenants and property use. Please see Section 5.2 for further discussion.

FIRE DEPARTMENT

The City of Los Angeles Fire Department (LAFD) has recently issued Current Hazardous Materials Inventory (HMI), Current UST Inventory, and Historical UST Inventory Lists of May 1, 2025. The Site was not identified on these lists.

CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY

The California EPA (CalEPA) Regulated Site Portal combines data of environmentally regulated sites and facilities in California into a single, searchable database. The portal provides an overview of regulated activities across the spectrum of environmental programs for any given location in California. These activities include hazardous materials and waste, state and federal cleanups, impacted ground and surface waters, and toxic materials. Citadel reviewed the Site Portal Profile for the Site addresses 525 South Virgil Avenue. The Site was not identified in the database.

AIR QUALITY MANAGEMENT DISTRICT

Citadel reviewed information available on-line through the South Coast Air Quality Management District's Facility Information Detail (FIND) database

The Site was identified on the database for the following:

- California Association of Realtors (Facility ID No. 85510)
  - No additional information or permits were available

While the Site is identified on the FIND database, there is no evidence of equipment operation at the Site. Therefore, the Site's presence on this database does not represent a significant environmental concern.

REGIONAL WATER QUALITY CONTROL BOARD

The GeoTracker Database is the California State Water Resources Control Board's (SWRCB) Internet-accessible database system used by the SWRCB, regional boards, and local agencies

to track and archive compliance data from authorized or unauthorized discharges of waste to land, or unauthorized releases of hazardous substances from underground storage tanks. According to GeoTracker, Carpenters Trust, located at 2951 West 6th Street, approximately 275 feet southeast and downgradient of the Site, is listed as a LUST Cleanup Site. According to information provided by GeoTracker, a gasoline leak was reported in 1989 during tank removal activities. The case was completed and closed by the LARWQCB on April 11, 2011. Based on the distance and closure status, this property is not a significant environmental concern.

7.0 DATA GAPS

A data gap is a lack of or inability to obtain information despite good faith efforts to gather such information. A data failure is a failure to achieve the historical research objectives even after reviewing the standard historical sources that are reasonably ascertainable and likely to be useful.

The following data gaps have been identified during the course of this investigation:

- Additional governmental agencies that are not included in the Government Records report may maintain information regarding environmental conditions at the Site and nearby facilities.

With regard to these data gaps, Citadel believes that the most significant potential sources for on-site contamination have been identified during the current investigation and the Phase I ESA was performed in compliance with all appropriate inquiry, published in 40 CFR 312.

8.0 FINDINGS

Citadel was contracted by Shatto Emet QOZB LP (Client) to perform a Phase I ESA of the property located at 525 South Virgil Avenue, in the City of Los Angeles, Los Angeles County, California; hereinafter referred to as the "Site."

Current Site Conditions

The Site consists of one four-story multi-tenant office structure of approximately 56,072 square feet (SF) and asphalt paved parking areas. Access to the Site parking areas is from Westmoreland Avenue to the west. At the time of the Site reconnaissance, the Site was unoccupied.

Stationary equipment at the Site includes cable-traction elevator equipment. In general, the Site appeared to be well maintained.

Site History

A review of historical sources showed that the Site was undeveloped land as early as 1894. Five single-family residential structures were built between 1880 and 1911. The structures were demolished in 1957 and 1961 as portion of the Site were developed with a surface parking lot. The current commercial office building was built in 1965. Historical occupants include various professional office tenants since 1965. The Site was solely occupied by the California Association of Realtors since 1990.

Previous Environmental Reports

Citadel reviewed the following previous environmental reports for the Site:

- California Environmental (CE) performed a Phase I ESA at the Site in April 2018. At the time of the report, the Site was developed with the current commercial structure and surface parking lot. The report identified the Sites location within a Methane Hazard Zone and the presence of an abandoned oil well. The report concluded that the location within the Methane Hazard Zone represented an environmental concern and recommended a soil gas screening survey to evaluate for the presence of methane in the shallow subsurface as well as locating the oil well and abandoning to current standards. CE also identified an auto repair facility on a southwest adjoining property as an environmental concern and recommended sampling along the southern Site boundary.

- CE performed a Phase II Testing Report at the Site in September 2018. The investigation involved the advancement of five exterior borings to 15 feet below ground surface (bgs) and one interior boring to five feet bgs. The borings were placed primarily along the southern boundary of the Site near the auto repair facility. The interior boring was placed in the approximate location of the former oil well. The oil well could not be definitively located as reinforced concrete and electrical equipment produced high levels of interference during the geophysical survey.

  Ten soil samples were collected from five and 15 feet bgs and analyzed for volatile organic compounds (VOCs) and total petroleum hydrocarbons (TPH). No contaminants of concern were reported above their respective reporting limits in any soil sample.

  A total of 11 soil gas probes were installed across the 6 borings to a maximum depth of 15 feet bgs. Soil gas samples were analyzed for VOCs. Laboratory analysis of soil gas found concentrations of trichloroethene (TCE) in one five-foot sample and one 15-foot sample at r concentrations of 0.74 micrograms per liter (µg/l) and 0.39 µg/l, respectively. CE evaluated their results against an attenuation factor (AF) for a future commercial property (0.0005) resulting in predictive TCE concentration below the DTSC regulatory screening level (SL) of 3.0 µg/m^3 for ambient air inside a future commercial use building. At the time of the report, the Site was planned for redevelopment with a mixed-use building with ground floor commercial tenants.

  The report concluded that there was no evidence of a significant release of TPH or VOCs. The low concentrations of TCE in soil gas were considered by CE to be de minimis and did not require a remedial response or agency notification. CE recommended that a geophysical survey would be required to locate the buried oil well and a methane survey would need to be conducted prior to the demolition of the current on-site structure.

  While the previous report concluded that the reported TCE concentrations were de minimis, based on current regulatory standards, these TCE concentrations are considered an environmental concern. These concentrations convert to 740 micrograms per cubic meter (µg/m^3) and 390 µg/m^3, exceeding the current screening threshold of 100 µg/m^3. Based on current regulatory standards, the reported TCE concentrations are expected to represent a significant environmental concern.

Environmental Databases

The Site was identified on the E MANIFEST for the generation of 0.12 pounds of regulated medical waste in 2021. The waste generator was identified as the Los Angeles Bureau of Sanitation Livability Servies Division. This division operates programs including a city wide receptacle collection program for helping to clean homeless encampments. It is likely that any waste removed from the property was not generated on-site. The presence of the Site on this database indicates proper disposal of hazardous waste. Based on the lack of reported spills or leaks, type of waste, and proper disposal, this listing is not expected to represent a significant environmental concern.

Vapor Encroachment Condition

Citadel reviewed information provided by Environmental Data Resources (EDR) regarding nearby properties to evaluate for potential on-Site vapor encroachment concerns from off-site sources. According to EDR, no historical releases of petroleum products from a leaking underground storage tank (LUST) occurred within 0.25-mile and upgradient of the Site.

The southwest and southeast adjoining properties were identified on the Historical Gas Station database:

- The property located at 534 South Westmoreland Avenue was occupied as an auto repair and service station in 1929 and an auto repair shop in 1937. The property is currently developed with a multi-tenant commercial structure including an auto body shop. A previous subsurface investigation conducted at the Site in 2018 did not identify contaminants of concern commonly associated with auto repair and gasoline service station activities in soil or soil gas samples. Based on the lack of reported contaminants and downgradient location of the auto repair shop, this listing is not likely to have adversely affected the Site.
- The property located at 3003 West 6th Street, was occupied as a gasoline service station from 1969 to 1979. Additional historical resources indicate that the property was developed with various generations of service stations from 1950 to 1977. The service station was demolished by 1979 and the current commercial structure was developed by 1981. The former service station was located approximately 100 feet south of the Site boundary. A previous subsurface investigation conducted at the Site in 2018 did not identify contaminants of concern commonly associated with auto repair and gasoline service station activities in soil or soil gas samples. Based on the redevelopment of the property, downgradient location, distance from the service station to the Site, and lack of contaminants reported in soil samples collected along the southern property boundary, this listing is not likely to have adversely affected the Site.

The southwest adjoining property was identified on the Historical Dry Cleaner database:

- The property located at 3033 West 6th Street was occupied as a drycleaning facility from 2001 to 2008. This property was developed with the current multi-tenant commercial retail structure by 1928 and the drycleaning facility likely occupied one of the tenant spaces. A previous subsurface investigation completed for the Site in 2018 reported elevated concentrations of TCE in soil gas samples. During the previous on-site investigation, samples collected along the Site southern boundary with the former cleaners facility did not report elevated concentrations of PCE or TCE. However, soil vapor samples collected from sample locations along the western boundary of the Site

building reported elevated concentrations of TCE. It could not be determined if the former dry cleaner was the likely source of contamination on-site, however no other potential sources were identified within the vicinity of the Site. Based on documented on-site TCE contamination in soil vapor, this listing is likely to have adversely affected the Site.

Regulatory Agencies

Citadel reviewed information available on-line through the South Coast Air Quality Management District's Facility Information Detail (FIND) database

The Site was identified on the database for the following:

- California Association of Realtors (Facility ID No. 85510)
  - No additional information or permits were available

While the Site is identified on the FIND database, there is no evidence of equipment operation at the Site. Therefore, the Site's presence on this database does not represent a significant environmental concern.

9.0 CONCLUSIONS AND RECOMMENDATIONS

According to ASTM Standard of Practice E1527-21, recognized environmental conditions (REC) fall under three specific categories when evaluating a site or properties within the site vicinity. These categories are defined below.

A recognized environmental condition, or REC, means the (1) presence of any hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to a release or likely release to the environment; or (3) the presence of hazardous substances or petroleum products in, on, or at the subject property under conditions that pose a material threat of a future release to the environment. De minimis conditions are not recognized environmental conditions.

A controlled recognized environmental condition, or CREC, is a recognized environmental condition affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities with hazardous substances or petroleum products allowed to remain in place subject to implementation of required controls (for example, activity and use limitations or other property use limitations).

An historical recognized environmental condition, or HREC, is a previous release of hazardous substances or petroleum products affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities and meeting unrestricted use criteria established by the applicable regulatory authority or authorities without subjecting the subject property to any controls (for example, activity and use limitations or other property use limitations).

According to ASTM E2600-22, the goal of conducting a vapor encroachment screening on a parcel of property is to identify a vapor encroachment condition (VEC), which is the presence or likely presence of chemicals of concern vapors in the subsurface of the target property caused by the release of vapors from contaminated soil or groundwater or both either on or near the

target property as identified by Tier 1 or Tier 2 procedures. The purpose of Tier 1 is to conduct a screen using Phase I ESA-type information to determine if a VEC exists at the target property. If the Tier 1 screen cannot rule out the possibility of a VEC existing at the target property, then a Tier 2 screen can be conducted. Tier 2 applies numeric screening criteria to existing or newly collected soil, soil gas, and/or groundwater testing results to evaluate whether a VEC can be rules out. Tier 2 has two data collective components: non-invasive and invasive.

Based on a review of historical and present records, and Site reconnaissance, Citadel believes that sufficient information was collected and evaluated for the Site to determine if a REC, HREC, CREC, or a de minimis condition exists. Based on our review, reported release incidents that would represent RECs in connection with the Site or a source of a release that would be likely to contribute to a VEC was not identified. Citadel identified the following environmental concerns:

- Records reviewed indicate that a former oil well is located at the Site. Additional information regarding the well was not available. The former on-Site oil well represents an environmental concern due to unknown handling and disposal of soil during the construction of oil well. The potential for methane and potential dumping of drilling muds is considered a REC.
- A previous Phase II Investigation completed for the Site in 2018 identified elevated concentrations of TCE in soil vapor. TCE was reported at of 0.74 µg/l and 0.39 µg/l from two locations along the western boundary of the Site building. These concentrations require additional investigation based on current regulatory guidelines and are considered a REC.

No evidence for designating the Site as an HREC or CREC from reviews of historical documents and present Site conditions was found. Citadel recommends conducting additional investigation into the former Site use as a gasoline service station and dry cleaning facility. If the Site is redeveloped, the former oil well will need to be re-abandoned to current CalGEM standards. Due to the presence of TCE in the subsurface soil vapor, Citadel recommends conducting a Phase II Subsurface investigation to evaluate the current soil vapor conditions of the previously identified TCE contamination in soil vapor.

The Site is located within the City of Los Angeles Methane Zone recognized by the Los Angeles Department of Building and Safety. For sites within the Methane Zone, the Los Angeles Department of Building and Safety through Chapter 71 of the Los Angeles Building Code requires that subsurface soil vapor sampling for methane be conducted prior to any development.

The current Site building was constructed prior to bans using ACBMs, LBP, and PCBs in electrical equipment came into effect in 1989, 1978, and 1978, respectively. No testing is known to have been performed to evaluate for the presence of ACBMs, LBP, or PCBs at the Site.

Prior to renovation or demolition of building components, particularly roofing materials, Citadel recommends that the Client perform a survey for ACBMs, LBP, and PCBs. Such surveys should be performed to identify if ACBMs, LBP, or PCBs are present and to ensure proper handling and disposal and to allow for measures to protect both worker and building occupant safety during routine building maintenance, renovation or demolition.

10.0 LIMITATIONS

The information and opinions rendered in this report are exclusively for use by the Client. Citadel will not distribute this report without the Client's written consent, except as may be required by law or court order. The recommendations expressed in this report took into consideration the purpose and scope of this limited assignment. We accept responsibility for the competent performance of our duties in executing the assignment and preparing this report in accordance with the normal standards of our profession but disclaim any responsibility for consequential damages resulting from inaccuracies in information provided by the Client, federal, state, county, or local regulatory agencies.

11.0 DISCLAIMER

The services performed by Citadel Environmental Services, Inc. ("Citadel"), d.b.a. Citadel EHS, in connection with this Report were performed in accordance with generally and currently accepted engineering practices and principles; provided, however, Citadel completed such services as directed by the Client and the recommendations described in this Report are therefore limited in purpose and scope. The procedures and methodologies used by Citadel in its performance of services, and the recommendations contained herein, are not intended to meet the requirements under any specific laws or regulatory guidelines unless expressly set forth in the Proposal.

The recommendations and conclusions set forth in this Report are based on information and data available to Citadel during the course of its performance of the services. Citadel relied on the information and data provided by or on behalf of Client, including, if applicable, historical and present operations, conditions and test data, and Citadel assumed all such information and data was correct and complete. Citadel shall not be liable for any damages or losses resulting from inaccuracies of, or omissions from, information or data provided by or on behalf of the Client, any interested third-parties, or any federal, state, county, or local governmental authority, or otherwise available in the public domain.

The information contained in this Report and conclusions resulting therefrom are based solely on information available to Citadel at the time of its performance of services, and from observations and perceived conditions and materials existing on the date of Citadel's limited survey of the site, if applicable. Citadel disclaims any inaccuracy in the Report as a result of any part or parcel of property to which Citadel was not provided access, or which was concealed, including, but not limited to, wall cavities/chases, ceiling plenums, below floor finishes, crawlspaces, below grade, beneath existing structures, or behind electrical panels.

The findings and recommendations presented in this Report are based upon observations of present conditions and may not necessarily indicate future conditions. No conclusions should be construed or inferred other than those expressly stated in this Report. EXCEPT FOR ANY WARRANTIES EXPRESSLY SET FORTH IN THE PROPOSAL OR OTHER WRITTEN AGREEMENT BETWEEN CITADEL AND CLIENT, CITADEL MAKES NO WARRANTIES HEREUNDER WITH RESPECT TO ANY INFORMATION CONTAINED IN THIS REPORT, EXPRESS OR IMPLIED, AND CITADEL HEREBY DISCLAIMS ALL OTHER WARRANTIES.

All testing and remediation methods have reliability limitations and no method nor number of sampling locations can guarantee that a hazard will be discovered if contamination or other evidence of the hazard is not encountered within the performance of the services as authorized. Reliability of testing or remediation varies according to the sampling frequency and other service

variables that were selected by Client. Citadel shall not be at fault or liable for any such limitations.

The information and opinions rendered in this report are exclusively for use and reliance by the Client. The information contained herein may not be used, disclosed, or copied without written permission of the Client and may not be relied upon without the written permission of Citadel.

13.0 PROFESSIONAL CERTIFICATION

Citadel has completed a Phase I ESA of the property located at 525 South Virgil Avenue, in the City of Los Angeles, Los Angeles County, California. The Phase I ESA was performed at the Clients request in accordance with the American Society for Testing and Materials (ASTM) Standard of Practice E1527-21 and the standards of care and diligence normally practiced by recognized consulting firms in performing services of a similar nature.

The independent conclusions represent our professional judgment based on information and data available to Citadel during the course of this project. Information regarding historical and present operations, conditions and test data provided by the Client or their representative, is assumed to be correct and complete. The conclusions presented by this Phase I ESA are based on information provided to Citadel and from observations and perceived conditions existing on the date of the site reconnaissance.

In expressing the opinions stated in this report, Citadel has exercised the degree of skill and care ordinarily exercised by a reasonable prudent environmental professional. Documentation provided by the Client, Client-designated representatives, interested third-parties, or from the public domain, and referenced in preparation of the Phase I ESA report, have been assimilated with the understanding that Citadel assumes no responsibility or liability for their accuracy.

I declare that to the best of my professional knowledge and belief, I meet the definition of Environmental Professional as defined by the final All Appropriate Inquiry (AAI) Rule published in 40 CFR Part 312.10 (December 15, 2022). I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting described in this Phase I ESA. I have developed and performed the AAI in conformance with the standard and care of this Rule.

EDR BUILDING PERMIT REPORT

About This Report

The EDR Building Permit Report provides a practical and efficient method to search building department records for indications of environmental conditions. Generated via a search of municipal building permit records gathered from more than 1,600 cities nationwide, this report will assist you in meeting the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E1527 - 21), or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

Building permit data can be used to identify current and/or former operations and structures/features of environmental concern. The data can provide information on a target property and adjoining properties such as the presence of underground storage tanks, pump islands, sumps, drywells, etc., as well as information regarding water, sewer, natural gas, electrical connection dates, and current/former septic tanks.

Methodology

EDR has developed the EDR Building Permit Report through our partnership with BuildFax, the nation's largest repository of building department records. BuildFax collects, updates, and manages building department records from local municipal governments. The database now includes 30 million permits, on more than 10 million properties across 1,600 cities in the United States.

The EDR Building Permit Report comprises local municipal building permit records, gathered directly from local jurisdictions, including both target property and adjoining properties. Years of coverage vary by municipality. Data reported includes (where available): date of permit, permit type, permit number, status, valuation, contractor company, contractor name, and description.

Incoming permit data is checked at seven stages in a regimented quality control process, from initial data source interview, to data preparation, through final auditing. To ensure the building department is accurate, each of the seven quality control stages contains, on average, 15 additional quality checks, resulting in a process of approximately 105 quality control "touch points."

For more information about the EDR Building Permit Report, please contact your EDR Account Executive at (800) 352-0050.

EXECUTIVE SUMMARY: SEARCH DOCUMENTATION

A search of building department records was conducted by Environmental Data Resources, Inc (EDR) on behalf of Citadel EHS on May 15, 2025.

TARGET PROPERTY

525 South Virgil Avenue
Los Angeles, CA 90020

SEARCH METHODS

EDR searches available lists for both the Target Property and Surrounding Properties.

RESEARCH SUMMARY

Building permits identified: **YES**

The following research sources were consulted in the preparation of this report. An "X" indicates where information was identified in the source and provided in this report.

GLOSSARY

General Building Department concepts

- **ICC:** The International Code Council. The governing body for the building/development codes used by all jurisdictions who've adopted the ICC guidelines. MOST of the US has done this. Canada, Mexico, and other countries use ICC codes books and guides as well. There are a few states who have added guidelines to the ICC codes to better fit their needs. For example, California has added seismic retrofit requirements for most commercial structures.
- **Building Department (Permitting Authority, Building Codes, Inspections Department, Building and Inspections):** This is the department in a jurisdiction where an owner or contractor goes to obtain permits and inspections for building, tearing down, remodeling, adding to, re-roofing, moving or otherwise making changes to any structure, Residential or Commercial.
- **Jurisdiction:** This is the geographic area representing the properties over which a Permitting Authority has responsibility.
- **GC:** General Contractor. Usually the primary contractor hired for any Residential or Commercial construction work.
- **Sub:** Subordinate contracting companies or subcontractors. Usually a "trades" contractor working for the GC. These contractors generally have an area of expertise in which they are licensed like Plumbing, Electrical, Heating and Air systems, Gas Systems, Pools etc. (called "trades").
- **Journeymen:** Sub contractors who have their own personal licenses in one or more trades and work for different contracting companies, wherever they are needed or there is work.
- **HVAC (Mechanical, Heating & Air companies):** HVAC = Heating, Ventilation, and Air Conditioning.
- **ELEC (Electrical, TempPole, TPole, TPower, Temporary Power, Panel, AMP Change, Power Release):** Electrical permits can be pulled for many reasons. The most common reason is to increase the AMPs of power in an electrical power panel. This requires a permit in almost every jurisdiction. Other commons reason for Electrical permits is to insert a temporary power pole at a new construction site. Construction requires electricity, and in a new development, power has yet to be run to the lot. The temporary power pole is usually the very first permit pulled for new development. The power is released to the home owner when construction is complete and this sometimes takes the form of a Power Release permit or inspection.
- **"Pull" a permit:** To obtain and pay for a building permit.
- **CBO:** Chief Building Official
- **Planning Department:** The department in the development process where the building /structural plans are reviewed for their completeness and compliance with building codes
- **Zoning Department:** The department in the development process where the site plans are reviewed for their compliance with the regulations associated with the zoning district in which they are situated.
- **Zoning District:** A pre-determined geographic boundary within a jurisdiction where certain types of structures are permitted / prohibited. Examples are Residential structure, Commercial/Retail structures, Industrial/Manufacturing structures etc. Each zoning district has regulations associated with it like the sizes of the lots, the density of the structures on the lots, the number of parking spaces required for certain types of structures on the lots etc.
- **PIN (TMS, GIS ID, Parcel#):** Property Identification Number and Tax Map System number.
- **State Card (Business license):** A license card issued to a contractor to conduct business.
- **Building Inspector (Inspector):** The inspector is a building department employee that inspects building construction for compliance to codes.
- **C.O.:** Certificate of Occupancy. This is the end of the construction process and designates that the owners now have permission to occupy a structure after its building is complete. Sometimes also referred to as a Certificate of Compliance.

GLOSSARY

Permit Content Definitions

- Permit Number: The alphanumerical designation assigned to a permit for tracking within the building department system. Sometimes the permit number gives clues to its role, e.g. a "PL" prefix may designate a plumbing permit.
- Description: A field on the permit form that allows the building department to give a brief description of the work being done. More often than not, this is the most important field for EP's to find clues to the prior use (s) of the property.
- Permit Type: Generally a brief designation of the type of job being done. For example BLDG-RES, BLDG-COM, ELEC, MECH etc.

Sample Building Permit Data

Date: Nov 09, 2000
Permit Type: Bldg -
New Permit Number: 101000000405
Status: Valuation: $1,000,000.00
Contractor Company: OWNER-BUILDER
Contractor Name:

Description: New one store retail (SAV-ON) with drive-thru pharmacy. Certificate of Occupancy.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Citadel EHS were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at approximately five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1920 through current. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

Summary information obtained is provided in the text of this report.

RECORD SOURCES

The EDR City Directory Report accesses a variety of business directory sources, including Haines, InfoUSA, Polk, Cole, Bresser, and Stewart. Listings marked as EDR Digital Archive access Cole and InfoUSA records. The various directory sources enhance and complement each other to provide a more thorough and accurate report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer.

RESEARCH SUMMARY

1.0 EXECUTIVE SUMMARY

An Environmental Site Assessment - Phase I was prepared for the subject property located at 518 and 526 South Westmoreland Avenue and 515, 517, 525 and 531 South Virgil Avenue, Los Angeles, California 90020. The scope of work for the Phase I meets ASTM E 1527-13 *Standard Practice for Environmental Site Assessments*. The purpose of the Phase I report is to provide information regarding the potential for hazardous material impacts to the soil and groundwater beneath the subject property. Such threats or material threats are identified in this report as Recognized Environmental Conditions (RECs). The presence of Historical Recognized Environmental Conditions (HRECs) and Controlled Recognized Environmental Conditions (CRECs) was also evaluated. The extent of this evaluation in conjunction with owner/client-supplied data is intended to satisfy the requirements of all appropriate inquiry into the previous ownership and uses of the property. The scope of the work included a site reconnaissance, research of land use records and other sources for preliminary indications of hazardous material use, storage, or disposal at the property and/or on contiguous parcels. It is proposed to redevelop the property with a new mixed-use structure with subterranean parking levels.

The subject property consists of one (1) rectangular-shaped parcel of land that encompasses approximately 42,160 square feet. The property is currently developed with one (1) three-story structure situated along South Virgil Avenue. The structure was constructed in 1965 and is currently occupied by California Association of Realtors. The remainder of the property consists of an asphalt paved parking lot accessed from South Westmoreland Avenue.

Historical site utilization research indicates that the subject property was undeveloped prior to 1911. Sanborn Fire Insurance Map research indicates the parcel was developed with residential dwellings from at least 1921 through 1961. A certificate of occupancy indicates that construction of the current onsite structure was completed by 1966.

The subject property is not identified on the standard environmental government sources researched in this report. However, the property is located within a Methane Hazard Zone as identified by the City of Los Angeles. Additionally, The DOGGR Well Finder database indicates a buried oil well, formerly operated by Wilson Oil Company, is located beneath the subject building. No additional information was available on the Well Finder database. Based on historical research the well was likely drilled and buried prior to 1911.

Certified Asbestos Management Consultants (CAMC) prepared asbestos inspection reports for the subject building dated January 20, 1989. Asbestos containing materials (ACM) were found in piping insulation, acoustical ceiling, floor tiles, and fireproofing material. On January 26, 1989, California Association of Realtors issued a memorandum indicating ACM was removed from the first floor; including floor tiles, ceiling tiles, and piping. The memo also indicates that removal of all ACM from the subject building was contemplated. However, no further documentation of ACM inspections or removal was provided to CE for review.

The nearest listed contaminated site to the subject property is located at 2951 West 6th Street approximately 330 feet to the southeast. This offsite property was formerly occupied by a Unocal service station. In 1989, one (1) 500-gallon waste-oil and three (3) 10,000-gallon gasoline USTs were removed from the site. Following removal of the tanks, ten (10) groundwater monitoring wells were installed and soil samples were collected from four (4) soil borings. Concentrations of TPH as gasoline were found up to 1,012 mg/kg. Follow-up investigations found concentrations of TPH as gasoline up to 3,915 mg/kg. Site remediation consisting of multi-

phase extraction and excavation took place between 2002 and 2003. This offsite property received case closed status from the RWQCB on April 11, 2011. Based on the distance from the subject site and a southern groundwater gradient, it is considered unlikely that this offsite release has impacted the subject property.

California Environmental has prepared an Environmental Site Assessment - Phase I in conformance with the scope and limitations of ASTM 1527-13 for the property located at 518 and 526 South Westmoreland Avenue and 515, 517, 525 and 531 South Virgil Avenue, Los Angeles, California 90020. One data failure was encountered during the preparation of this report. The RWQCB has not responded to the request for records. This data failure does not alter the conclusions or recommendations made in this report. A Preliminary Title Report prepared by Commonwealth Land Title Company dated February 7, 2018 for the subject property was reviewed by CE. No environmental liens or environmental activity use limitations (AULs) were identified in the document.

The property is located within a Methane Hazard Zone as identified by the City of Los Angeles and a buried oil well is located beneath the subject building, which constitute Recognized Environmental Conditions (RECs). CE recommends a soil gas screening survey to evaluate methane concentrations in the shallow subsurface. Additionally, the historical auto repair activities conducted on the adjacent property to the south (534 S. Westmoreland Avenue) is considered an environmental concern. CE recommends soil and soil vapor sampling along the property boundary nearest this offsite facility to assess possible impacts to the subject property subsurface. Due to the date of construction of the subject building in 1965, it is recommended that an asbestos and lead survey be conducted by a certified lead consultant prior to renovation or demolition of the subject building. Lastly, the DOGGR Well Finder database indicates a buried oil well, formerly operated by Wilson Oil Company, is located beneath the subject building. CE recommends a post-demolition geophysical survey to locate and determine the condition of the buried well. It is probable the old oil well will require abandonment to modern DOGGR standards. Construction over the abandoned oil well will require conformance to the current *DOGGR Construction Site Well Review Program*. No evidence of historical recognized environmental conditions (HRECs) or controlled recognized environmental conditions (CRECs) was identified in connection with the subject property.

2.0 INTRODUCTION

The following report presents the findings of the Environmental Site Assessment - Phase I prepared for the subject property located at 518 and 526 South Westmoreland Avenue and 515, 517, 525 and 531 South Virgil Avenue, Los Angeles, California 90020. The scope of the Phase I study meets ASTM E 1527-13 *Standard Practice for Environmental Site Assessments* and included research of available land use records and other sources for preliminary indications of hazardous material use, storage or disposal at the property. The findings of this study are intended to provide information to the client regarding potential hazardous material impacts to the soil and groundwater beneath the site.

The scope of the investigation was conducted in general accordance with ASTM Standard Practice for Environmental Site Assessments – Phase I, Environmental Site Assessment Process ASTM E 1527-13. The steps outlined in this process are intended to permit a user (client) to satisfy one of the requirements to qualify for the innocent landowner, contiguous property owner, or bona fide purchaser limitations on CERCLA liability. Specifically, this report along with certain obligations of the client, constitutes All Appropriate Inquiry (AAI) into the previous ownership and uses of the property consistent with the standard of care as practiced in this area by environmental professionals. A main component of the assessment is to identify recognized environmental conditions, controlled recognized environmental conditions, and historical recognized environmental conditions, as they may affect the subject property. As defined by ASTM E 1527-13, a recognized environmental condition (REC) means *"the presence or likely presence of any hazardous substances or petroleum products on a property under conditions that indicate an existing release, past release, or a material threat of a release of any hazardous substances or petroleum products into structures on the property or into the ground, groundwater, or surface water of the property."* A controlled recognized environmental condition (C-REC) is defined *as "a recognized environmental condition resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (for example, as evidenced by the issuance of a no further action letter or equivalent, or meeting risk-based criteria established by regulatory authority), with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required*

controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls).” An historical recognized environmental condition (HREC) is defined as *“a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls).”*

An important component of complying with the ASTM E 1527-13 Standard is information to be obtained or in the possession of the client and/or seller of the property. Such information includes obtaining and review of a recent title report, any specialized information regarding the site or surrounding area which may give rise to identification of a recognized environmental condition, and/or reasons given by the seller should the purchase price be significantly lower than what would be reasonably expected for a property of similar size and value. Often a real estate appraiser is commissioned to evaluate the purchase or sale price of a property. Such an appraisal is outside the scope of this Phase I Assessment report.

The independent conclusions represent California Environmental’s (CE) professional judgment based on the conditions that existed and the information and data available during the course of the study. Factual information regarding operations, conditions, and test data provided by the client, the owner or their representatives have been assumed to be correct and complete. This report includes **CONCLUSIONS AND RECOMMENDATIONS**, which together with the remainder of this report are subject to the **NOTICE** at the end of the report. **This report was prepared for the sole use and reliance by the client as identified on the title page of this report. Use of this report by other entities is expressly forbidden unless the client and CE grant permission.**

The scope of work included:

- A walkover of the site.
- Review of client/owner supplied information.
- Review of building and grading permits on file with the City of Los Angeles Department of Building and Safety.
- A review of underground storage tank files and industrial waste records maintained by the City of Los Angeles Fire Department Underground Storage Tank and Hazardous Materials Divisions.
- Review of historical USGS topographic maps and historical aerial photographs maintained by EDR Company.
- Research of historical Sanborn Fire Insurance Maps maintained by EDR Company.
- Contact with the California Environmental Protection Agency, Department of Toxic Substances Control to review their files.
- Contact with the California Environmental Protection Agency, Regional Water Quality Control Board to review their files.
- Contact with the Los Angeles County Fire Department to review their files.
- Contact with the South Coast Air Quality Management District to review their files.
- Review of oil well records maintained by the State of California Division of Oil, Gas, and Geothermal Resources.
- Review of the City of Los Angeles – Zone Information and Map Access System (ZIMAS) database.
- Review of Los Angeles County Landfill Maps.
- Review of the following lists and maps of suspect or known contaminated sites; a complete listing of these sources is contained within **APPENDIX V**.
    - California Regional Water Quality Control Board, (RWQCB) - *Computer Case Listing of Reported Underground Tank Leaks*, covering Los Angeles County.
    - California Department of Health Services - *Hazardous Waste and Substance Sites - Cortese List and Contaminated Wells List, which includes the Bond Expenditure Plan* (BEP) sites.
    - California Environmental Protection Agency, Facility and Manifest Data, HAZNET.

- Historical California Environmental Protection Agency, Department of Toxic Substances Control - *CalSites List*.
- California Department of Health Services, *Hazardous Waste Information System* (HWIS) and Tanner Report.
- California Integrated Waste Management Board, *Solid Waste Information System* - (SWIS) List.
- State Water Resources Control Board, *Toxic Pits Clean-up Act (Toxic Pits).*
- State Water Resources Control Board, *Hazardous Substance Storage Container Database* (UST, LUST, SLIC, and WDS).
- U.S. Environmental Protection Agency - *National Priorities List* (NPL).
- U.S. Environmental Protection Agency - *Comprehensive Environmental Response, Compensation, and Liability Information System* (CERCLIS).
- U.S. Environmental Protection Agency, *Toxic Release Inventory System* (TRIS).
- U.S. Environmental Protection Agency, *Resource Conservation and Recovery Information, System Treatment, Storage and Disposal Facilities*, (RCRA-TSDF).
- U.S. Environmental Protection Agency, *Resource Conservation and Recovery Information System, Large Quantity Generators*, (RCRA-LQG).
- U.S. Environmental Protection Agency, Resource *Conservation and Recovery Information System, Small Quantity Generators*, (RCRA-SQG).
- U.S. Environmental Protection Agency - *Superfund Amendment and Reauthorization Act, Title III*, (SARA Title III).
- U.S. Environmental Protection Agency, *Emergency Response Notification System* (ERNS).
- U.S. Environmental Protection Agency, *Facility Index System* (FINDS).
- U.S. Environmental Protection Agency, *Civil Enforcement Docket* (DOCKET).

- A review of government records databases of suspect or known contaminated sites and historical city directories research was performed by EDR Company. The results of the search are summarized in this report. The EDR reports are enclosed in **APPENDICES II** and **V**.
- Review of previous asbestos inspection reports prepared by Certified Asbestos Management Consultants.
- Preparation of this report.

3.0 SITE DESCRIPTION

3.1 LOCATION AND LEGAL DESCRIPTION

The subject property is located between the west side of South Virgil Avenue and the east side of South Westmoreland Avenue, in the City of Los Angeles, California, see **FIGURE 1 - VICINITY MAP**. The current street addresses for the property are 518 and 526 South Westmoreland Avenue and 515, 517, 525, and 531 South Virgil Avenue. According to the Los Angeles County Tax Assessor's office, the Number (APN) for the subject property is 5077-004-030.

3.2 DESCRIPTION OF PROPERTY / PROPOSED PROJECT

The subject property consists of one (1) rectangular-shaped parcel of land that encompasses approximately 42,160 square feet. The property is currently developed with one (1) three-story structure situated along South Virgil Avenue. The structure was constructed in 1965 and is currently occupied by California Association of Realtors. The remainder of the property consists of an asphalt paved parking lot accessed from South Westmoreland Avenue. It is proposed to redevelop the property with a new mixed-use structure with subterranean parking levels.

3.3 GEOLOGY AND HYDROGEOLOGY

The subject property is located approximately 3 miles south of the Santa Monica Mountains and 3.5 miles southwest of the Elysian Hills within the La Brea Plain of the Los Angeles Basin. The La Brea Plain is bounded by the Newport-Inglewood belt of hills to the west and the Elysian Hills to the east. The La Brea Plain consists of alluvial sediments from the Santa Monica Mountains and Elysian Hills.

The site is located within the Central Subbasin of the Coastal Plain of Los Angeles Groundwater Basin. The Central Groundwater Basin is bounded on the north by the La Brea high, on the northeast and east by the Elysian, Repetto, Merced and Puente Hills, on the southeast roughly by Coyote Creek, and on the west by the Newport-Inglewood Fault and the Baldwin, Rosecrans, and Dominguez Hills. Regional groundwater level data obtained from the RWQCB GeoTracker database suggest the depth to first groundwater in the vicinity of the subject property ranges from 10 to 30 feet below ground surface (bgs). A southerly groundwater flow direction was determined from the regional groundwater elevation data.

4.0 BACKGROUND INFORMATION

4.1 PREVIOUS WORK

Certified Asbestos Management Consultants (CAMC) prepared an asbestos inspection report for the subject property dated January 20, 1989. The primary purpose of the inspection was to determine whether asbestos containing materials (ACM) were present in the first floor area, which was to be remodeled. The inspection was carried out on September 9, 1988. CAMC also conducted a limited ACM survey of the rest of the structure. ACM was found in piping insulation, acoustical ceiling, and fireproofing material. Roofing and flooring materials were not sampled. CAMC recommended consultant oversight during ACM removal activities prior to the remodel.

Certified Asbestos Management Consultants prepared an asbestos inspection report of floor tiles for the subject property dated January 20, 1989. Twenty (20) samples of floor tile, mastic, and other suspected ACM were taken on January 6, 1988 from the first floor. ACM was found in floor tile, mastic, and insulation from a fire door.

On January 26, 1989, California Association of Realtors, the building tenant, issued a memorandum indicating ACM was removed from the first floor including floor tiles, ceiling tiles, and piping. The

memo also indicates that removal of all ACM from the subject building was contemplated. However, no further documentation of ACM inspections or removal was provided to CE for review.

4.2 SITE UTILIZATION HISTORY

4.2.1 Historical City Directories

EDR Company was contacted to research historical city directories for the subject property and adjacent sites. The city directories were reviewed at approximately five year intervals spanning from 1924-2014. A summary of city directories reviewed for the subject property is included in **TABLE I**. The EDR City Directory is attached in **APPENDIX II**.

TABLE I
Historical City Directories

4.2.2 Historical Aerial Photographs

Historical aerial photographs were reviewed as part of this study. The photographs are part of the aerial photograph collection maintained by the EDR Company. Sixteen (16) photographs were reviewed for the subject property. The photographs are summarized below in **TABLE II**. The aerial photographs are attached in **APPENDIX II** of this report.

TABLE II
Historical Aerial Photographs

Date	Source	Description
1923	FAIR	The subject property appears developed with multiple residential structures. The subject property appears located in an area of dense residential development.
1928	USGS	No significant changes have occurred to the subject property or neighboring properties. Multiple large structures have been developed to the north and south.
1938	USDA	No significant changes have occurred to the subject property or the surrounding area.
1948	USGS	No significant changes have occurred to the subject property or the surrounding area.
1952	USGS	No significant changes have occurred to the subject property. The properties to the south and southwest have been developed with commercial structures that include what appears to be a gas station to the southeast.
1954	USDA	No significant changes have occurred to the subject property or the surrounding area.
1964	USGA	The eastern portion of the subject property has been redeveloped as a parking lot. The subject property's western portion appears to have no significant changes. The neighboring properties to the north have been developed into their current configuration. The neighboring properties to the south appear to have no significant changes.
1970	EDR PBP	The subject property has been developed into its current configuration. No significant changes have occurred to the surrounding area.
1977	EDR PBP	No significant changes have occurred to the subject property or the surrounding area.
1983	EDR PBP	No significant changes have occurred to the subject property. The previous pump station to the south, southeast has been redeveloped into the current structure.
1989	USDA	No significant changes have occurred to the subject property or the surrounding area.
1994	USGS/DOQQ	No significant changes have occurred to the subject property or the surrounding area.
2002	USDA	No significant changes have occurred to the subject property or the surrounding area.
2005	USDA/NAIP	No significant changes have occurred to the subject property or the surrounding area.
2010	USDA/NAIP	No significant changes have occurred to the subject property or the surrounding area.
2012	USDA/NAIP	No significant changes have occurred to the subject property or the surrounding area.

4.2.3 Historical Fire Insurance Maps

The EDR Company was contacted to review historical fire insurance maps for the subject property. Maps covering the subject property for eight (8) time periods between 1907 and 1970 were found. The map descriptions are summarized below in **TABLE III.** Copies of the fire insurance maps are attached in **APPENDIX II** of this report.

TABLE III
Historical Fire Insurance Maps

Date	Description
1907	The subject property is undeveloped. The surrounding area is developed with dwellings.
1921	The subject property is developed with five (5) dwellings, each with an associated detached garage. The neighboring properties to the north and south have been developed with dwellings and flats.
1950	The subject property appears similar to the previous Sanborn map. An apartment has been developed directly to the north. Two gas stations and an auto repair garage can be seen directly to the south of the subject property.
1954	The subject property and surrounding area appear similar to the previous Sanborn Map.
1955	The subject property and surrounding area appear similar to the previous Sanborn Map.
1961	The eastern portion of the subject property has been redeveloped as a parking lot. The western portion of the subject property appears similar to the previous Sanborn Map.
1968	The subject property appears in its current configuration. On the adjacent property to the north, the current office structure has been developed. Directly to the south, the gas station has been reconfigured.
1970	The subject property and surrounding appear similar to the previous Sanborn Map.

4.2.4 Historical Topographic Maps

Historical USGS topographic maps were provided by EDR Company and from online database sources. Maps covering the subject property for fifteen (15) time periods were found. The topographic maps indicate that the subject property was in an area of sparse development from at least 1894 through 1902 and in an area of dense urban development since at least 1920.

4.3 RECORDS REVIEW INFORMATION

4.3.1 Building Information

The City of Los Angeles Department of Building and Safety was contacted for the purpose of researching building permits and Certificates of Occupancies for the property. Building permits for the construction of new residential structures were issued 1911, 1913, and 1948. A permit for the development of a parking lot was issued in 1957 and a permit for construction of the current onsite structure was issued in 1965. Certificates of Occupancies indicate 515 South Virgil Avenue was utilized

as a parking lot in 1958 and 525 South Virgil Avenue was utilized as an office building in 1966. Additional permits reviewed include mechanical, maintenance, electrical and building alteration permits. Copies of the permits are included in **APPENDIX III**.

4.3.2 Underground Storage Tank & Hazardous Materials Research

The City of Los Angeles Fire Department (LAFD) publishes lists of records for active and inactive underground storage tanks (USTs) and hazardous materials inventories within the city of Los Angeles. CE's review of the lists released by the LAFD indicates that no files are maintained for the subject property addresses.

4.3.3 State Regulatory Agency File Review

Inquiry letters were sent to the State of California Department of Toxic Substances Control (DTSC) and the California Regional Water Quality Control Board – Los Angeles Region (RWQCB). A response from the DTSC indicates that no files are maintained for the subject property addresses. The RWQCB has not yet responded to the request for records. The RWQCB response letter will be forwarded once received should a file exist for the property. The agency inquiries and DTSC response letter are included in **APPENDIX IV**. CalEPA DTSC and RWQCB online databases were also reviewed. The subject property is not listed on the databases researched for this report.

4.3.3 LACFD-HHMD and SCAQMD File Review

An online request for records was made with the Los Angeles County Fire Department – Health Hazardous Materials Division (LACFD-HHMD) for any information they may have regarding soil, water or air contamination at the subject property. Responses from the LACFD-HHMD indicate that no files are maintained for the subject property addresses. The agency responses are included in **APPENDIX IV.**

The SCAQMD online FIND database was researched for any active or inactive records related to the subject property. A review of the SCAQMD Facility Information Detail (FIND) database indicates that 525 South Virgil Avenue, occupied by California Association of Realtors, is listed as an active facility.

However, there is no equipment listed or facility details. No violations or notices to comply are noted on the database.

4.4 SITE DRIVE-BY

A drive-by of the area within one-quarter mile of the property was conducted to help identify nearby sites that possibly use, store, or generate hazardous materials. The area surrounding the subject property consists of residential and commercial properties. No service stations are located on the properties adjacent to the subject property. A list of selected environmental risk sites identified within a one-quarter mile radius of the subject property is included in the **STANDARD ENVIRONMENTAL RECORDS SOURCES** section of this report.

5.0 SITE RECONNAISSANCE

The site conditions were observed during a reconnaissance conducted by Ryan Bzoskie of California Environmental on March 28, 2018. California Environmental completed a Field Reconnaissance Checklist during the site reconnaissance. An Environmental Owner Questionnaire was completed by Rick Shumacher of California Association of Realtors, who answered in good faith and to the extent of his knowledge. An Environmental User Questionnaire was completed by Wendy Sov of Thomas Safran and Associates, who answered in good faith and to the extent of her knowledge. The Environmental Field Reconnaissance Checklist and Environmental Owner and User Questionnaires are included in **APPENDIX I**. The features described below are shown on the enclosed **FIGURE 2 - PLOT PLAN**. Photographs of the subject property are attached in the **ILLUSTRATIONS** section of this report.

5.1 DESCRIPTION OF PROPERTY/PROPOSED PROJECT

The subject property consists of one (1) rectangular-shaped parcel of land that encompasses approximately 42,160 square feet. The property is currently developed with one (1) three-story structure situated along South Virgil Avenue. The structure was constructed in 1965 and is currently occupied by California Association of Realtors. The remainder of the property consists of an asphalt paved parking lot accessed from South Westmoreland Avenue. It is proposed to redevelop the property with a new mixed-use structure with subterranean parking levels.

5.2 ADJACENT PROPERTIES

The subject property is bound to the north by a commercial property utilized as medical offices and a multi-family residential property, to the east by South Virgil Avenue with commercial properties beyond, to the south by a Carl's Jr and an asphalt paved lot associated with an auto repair facility, and to the west by South Westmoreland Avenue with multi-family residential properties beyond.

5.3 TOPOGRAPHY AND DRAINAGE

The subject property has a gentle slope towards the south. The topographic elevation of the subject property is approximately 270 feet above mean sea level. Drainage from the site is by sheetflow towards the adjacent city streets and a concrete swale to a surface drain near the southern end of the subject building. No evidence of catch basins, sumps, or standing water was observed on the subject property at the time of the site reconnaissance.

5.4 PAST USES OF THE PROPERTY

No evidence of the past use, treatment, storage, disposal or generation of hazardous substances was observed on the subject property at the time of the site reconnaissance.

5.5 USE OF HAZARDOUS SUBSTANCES

No evidence of significant hazardous substance use was observed on the subject property at the time of the site reconnaissance.

5.6 STORAGE TANKS

No evidence of existing aboveground or underground storage tanks, clarifiers, sumps, or grease interceptors was observed on the subject property at the time of the site reconnaissance.

5.7 CONTAINERS OF HAZARDOUS OR UNIDENTIFIED SUBSTANCES

Standard cleaning supplies were observed in closet space and in a maintenance room. No other evidence of containers of hazardous or unidentified substances was observed on the subject property at the time of the site reconnaissance.

5.8 SOILID WASTE DISPOSAL

Three (3) trash bins were observed near the northern end of the subject building. No evidence of spills or staining was observed on the pavement beneath the bins.

5.9 POLY-CHLORINATED BIPHENYL'S (PCBs)

No evidence of PCB containing transformers or equipment was observed on the subject property at the time of the site reconnaissance. Older (pre-1970s) hydraulic systems such as elevator fluids and dielectric fluids in older transformers may contain PCBs.

5.10 HEATING/COOLING EQUIPMENT

Heating and cooling equipment was observed on the roof of the structure at the time of the site reconnaissance. Gas and electricity are the power sources for the heating and cooling equipment.

5.11 ASBESTOS CONTAINING MATERIALS (ACM)

Sampling of suspect ACM was not included in the scope of work for this study. Certified Asbestos Management Consultants (CAMC) prepared asbestos inspection reports for the subject property dated January 20, 1989 (see **SECTION 4.1 – PREVIOUS WORK** for a summary of the asbestos inspections). On January 26, 1989, California Association of Realtors issued a memorandum indicating ACM was removed from the first floor including floor tiles, ceiling tiles, and piping. The memo also indicates that removal of all ACM from the subject building was contemplated. However, no further documentation of ACM inspections or removal was provided to CE for review. Therefore, it is recommended that an asbestos survey be conducted by a certified asbestos consultant prior to renovation or demolition of the subject building.

5.12 WASTEWATER TREATMENT AND DISPOSAL SYSTEMS

No evidence of wastewater treatment or disposal systems was observed on the subject property at the time of the site reconnaissance.

5.13 RADON

Radon hazard assessment was not included in the scope of this study. However, the EDR research report indicates the levels of radon at zero (0) of sixteen (16) sites located within the 90020 zip code in Los Angeles County exceeded four picoCurie per Liter (4 pCi/L), the Federal Action level.

5.14 LEAD

Sampling of suspect lead in paint was not included in the scope of work for this project. Lead content in paint was significantly reduced in 1977. Due to the date of construction of the subject building in 1965, it is likely that lead based paint was utilized onsite. The paint coating of the structure appeared in good condition at the time of the site reconnaissance. It is recommended that a lead survey be conducted by a certified lead consultant prior to renovation or demolition of the subject building.

5.15 WELLS

No evidence of dry wells, irrigation wells, injection wells, abandoned wells, monitoring wells or other wells was observed on the subject property at the time of the site reconnaissance.

5.16 ODOR

No evidence of strong, pungent or noxious odors was noted on the subject property at the time of the site reconnaissance.

5.17 STRESSED VEGETATION

No evidence of stressed vegetation was observed on the subject property at the time of the site reconnaissance.

5.18 STAINING OR RESIDUE

No evidence of significant staining or residue was observed on the subject property at the time of the site reconnaissance.

5.19 PITS, PONDS, OR LAGOONS

No evidence of pits, ponds, and/or lagoons was observed on the subject property at the time of the site reconnaissance.

5.20 POTABLE WATER SUPPLY

Water is supplied to the subject property by City of Los Angeles Department of Water and Power.

5.21 SEWAGE DISPOSAL SYSTEM

The subject property is connected to the public sewage disposal system.

5.22 OTHER CONDITIONS OF CONCERN

No other conditions of environmental concern regarding potential sources for soil and groundwater contamination were observed on the subject property at the time of the site reconnaissance.

6.0 NEARBY CONTAMINATED SITES

6.1 LANDFILLS

The Major Waste System maps for Los Angeles County, the Solid Waste Information Systems (SWIS), and the Waste Management Unit Database (WMUD) were reviewed to identify landfills and transfer stations located near the property. Map no. 114-197 and the EDR database report indicate that there are no landfills or transfer stations located within a 2,000-foot radius of the subject property. No active hazardous waste landfills are located within Los Angeles County.

6.2 OIL FIELD MAPS/METHANE HAZARD ZONES

The State of California Division of Oil, Gas and Geothermal Resources (DOGGR) online mapping system (DOGGR Well Finder) was researched to determine if oil production occurred on or near the subject property. The DOGGR Well Finder database indicates the subject property is located within the Los Angeles City Oil Field. The database also indicates a buried well formerly operated by Wilson Oil Company is located beneath the subject building. No additional information was available on the Well Finder database. However, based on historical research the old oil well was likely drilled and buried

prior to 1911. The approximate location of the well is shown on the attached **PLOT PLAN**. Numerous wells are located within a 2,000-foot radius of the subject property. CE has requested DOGGR provide well records for the property. Re-abandonment of the onsite well will be required during site re-development.

The property is located within a Methane Hazard Zone as identified on the City of Los Angeles website (ZIMAS – Zone Information and Map Access System). Methane testing and implementation of methane mitigation measures will be required upon redevelopment of the property.

6.3 STANDARD ENVIRONMENTAL RECORD SOURCES

In addition to the above records, agency database lists were reviewed for known or suspected contaminated sites and for sites, which store, generate or use hazardous materials near the subject property. The subject property is not identified on the standard environmental government sources researched in this report.

The nearest listed contaminated site to the subject property is located at 2951 West 6th Street approximately 330 feet to the southeast. This offsite property was formerly occupied by a Unocal service station. In 1989, one (1) 500-gallon waste-oil and three (3) 10,000-gallon gasoline USTs were removed from the site. Following removal of the tanks, ten (10) groundwater monitoring wells were installed and soil samples were collected from four (4) soil borings. Concentrations of TPH as gasoline were found up to 1,012 mg/kg. Follow-up investigations found concentrations of TPH as gasoline up to 3,915 mg/kg. Site remediation consisting of multi-phase extraction and excavation took place between 2002 and 2003. This offsite property received case closed status from the RWQCB on April 11, 2011. Based on the distance from the subject site and a southern groundwater gradient, it is considered unlikely that this offsite release has impacted the subject property.

The number of environmental sites listed on the databases researched for this report located within a one-half mile radius of the subject property are presented in **TABLE IV**.

TABLE IV
Standard Environmental Record Sources

Database	Number of Sites		
	<1/8 Mile	1/8 – 1/4 Mile	1/4 to 1/2 Mile

	Totals		
	21	**50**	**43**

Note: A search of public information databases may omit some nearby contaminated sites due to missing or inaccurate information in the public record.

Selected environmental risk sites found to exist within one-quarter mile radius of the property are listed below:

- **Olympic Auto Body Shop** (Historical Auto Repair) – 534 S. Westmoreland Avenue (Adjacent SW) Listed on EDR Hist Auto database. This offsite property has operated as an automotive repair or

automotive body shop since at least 1929. No known releases have occurred at this offsite property. However, based on the close proximity to the subject site and extended use as an automotive repair and/or body shop, this offsite property is considered an environmental concern.

- **Carpenters Pension Trust Building** – 2951 W. 6th Street (330 feet SE)
  Listed on CA SWEEPS UST, CA FID UST, and GeoTracker databases. This offsite property was formerly occupied by a Unocal service station. In 1989, one (1) 500-gallon waste-oil and three (3) 10,000-gallon gasoline USTs were removed from the site. Following removal of the tanks, ten (10) groundwater monitoring wells were installed and soil samples were collected from four (4) soil borings. Concentrations of TPH as gasoline were found up to 1,012 mg/kg. Follow-up investigations found concentrations of TPH as gasoline up to 3,915 mg/kg. Site remediation consisting of multi-phase extraction and excavation took place between 2002 and 2003. This offsite property received case closed status from the RWQCB on April 11, 2011. Based on the distance from the subject site and a southern groundwater gradient, it is considered unlikely that this offsite release has impacted the subject property.

- **Shatto Investment Company** – 3151 W. 6th Street (630 feet SW)
  Listed on CA SWEEPS UST, CA FID UST, and GeoTracker databases. This offsite property is occupied by an automobile repair shop. In 1989, three (3) USTs of unknown size and contents were removed from the site. There are no records of soil sampling following removal of the USTs. Between 1990 and 1997, subsurface investigations found concentrations of TPH as gasoline, benzene, and MTBE up to 5,400 mg/kg. Dual phase extraction was implemented at this offsite property between December 2001 and May 2002. In April 2006, six (6) ozone sparge wells were installed, which were utilized through April 2007. This offsite property received case closed status from the RWQCB on April 24, 2009. Based on the distance from the subject site and a southern groundwater gradient, it is considered unlikely that this offsite release has impacted the subject property.

6.4 POTENTIAL VAPOR ENCROACHMENT CONDITION (p-VEC)

The State of California has adopted Indoor Air Quality Guidelines (CHHSLs) issued by CALEPA in 2005/2010. Potential sources for vapor intrusion to indoor air include degassing of solvents and other compounds from contaminated soil and contaminated groundwater. The property is located within a Methane Hazard Zone as identified on the City of Los Angeles website (ZIMAS – Zone Information and Map Access System). CE recommends a soil gas screening survey to evaluate methane/VOC concentrations in the subsurface.

7.0 APPARENT PROBLEM

- The property is located within a Methane Hazard Zone as identified by the City of Los Angeles and an old oil well is located beneath the current structure, these constitute a Recognized Environmental Condition (REC). CE recommends a soil gas screening survey to evaluate methane concentrations in the subsurface. The condition of the oil well will dictate future costs for abandonment which could range from $75,000.00-$150,000.00 or more.

- The historical auto repair activities conducted on the adjacent property to the south (534 S. Westmoreland Avenue) is considered an environmental concern. This offsite property has operated as an automotive repair or automotive body shop since at least 1929. No known releases have occurred at this offsite property. However, based on the proximity to the subject site and the extended use as an automotive repair/body shop, CE recommends soil and soil vapor sampling along the property boundary nearest this offsite facility to assess possible impacts to the subject property subsurface.

- The DOGGR Well Finder database indicates a buried oil well, formerly operated by Wilson Oil Company, is located beneath the subject building. No additional information was available on the Well Finder database. However, based on historical research the well was likely drilled and buried prior to 1911. CE recommends a post-demolition geophysical survey and excavation work to locate, expose and determine the condition of the buried well.

- On January 26, 1989, California Association of Realtors issued a memorandum indicating ACM was removed from the first floor including floor tiles, ceiling tiles, and piping. The memo also indicates that removal of all ACM from the subject building was contemplated. However, no further documentation of ACM inspections or removal was provided to CE for review. Therefore, it is recommended that an asbestos survey be conducted by a certified asbestos consultant prior to renovation or demolition of the subject building.

- Due to the date of construction of the subject building in 1965, it is likely that lead based paint was utilized onsite. The paint coating of the structure appeared in good condition at the time of the site reconnaissance. It is recommended that a lead survey be conducted by a certified lead consultant prior to renovation or demolition of the subject building.

8.0 CONCLUSIONS AND RECOMMENDATIONS

California Environmental has prepared an Environmental Site Assessment - Phase I in conformance with the scope and limitations of ASTM 1527-13 for the property located at 518 and 526 South Westmoreland Avenue and 515, 517, 525 and 531 South Virgil Avenue, Los Angeles, California 90020. One data failure was encountered during the preparation of this report. The RWQCB has not responded to the request for records. This data failure does not alter the conclusions or recommendations made in this report. A Preliminary Title Report prepared by Commonwealth Land Title Company dated February 7, 2018 for the subject property was reviewed by CE. No environmental liens or environmental activity use limitations (AULs) were identified in the document.

The property is located within a Methane Hazard Zone as identified by the City of Los Angeles, which constitutes a Recognized Environmental Condition (REC). CE recommends a soil gas screening survey to evaluate methane concentrations in the shallow subsurface. Additionally, the historical auto repair activities conducted on the adjacent property to the south (534 S. Westmoreland Avenue) is considered an environmental concern. CE recommends soil and soil vapor sampling along the property boundary nearest this offsite facility to assess possible impacts to the subject property subsurface. Due to the date of construction of the subject building in 1965, it is recommended that an asbestos and lead survey be conducted by a certified lead consultant prior to renovation or demolition of the subject building. Lastly, the DOGGR Well Finder database indicates a buried oil well, formerly operated by Wilson Oil Company, is located beneath the subject building. CE recommends a post-demolition geophysical survey to locate and determine the condition of the buried well. It is probable the old oil

well will require abandonment to modern DOGGR standards. Construction over the abandoned oil well will require conformance to the current *DOGGR Construction Site Well Review Program*. No evidence of historical recognized environmental conditions (HRECs) or controlled recognized environmental conditions (CRECs) was identified in connection with the subject property.

This report is subject to the following **NOTICE**:

9.0 OPINION OF ENVIRONMENTAL PROFESSIONAL

All properties are subject to some element of environmental risk and the risk cannot be eliminated. Industrial and commercial properties developed prior to modern environmental laws are especially risk prone to environmental hazards which include, but are not limited to, wastes which may be toxic, ignitable, corrosive or reactive. The potential for these environmental hazards to impact the use of the property can be reduced by the identification and mitigation of the hazards prior to development or redevelopment of the property. Due to the difficulty in locating underground wastes, in some cases it is not always possible to ascertain that hazardous wastes are present on the property prior to development.

A Phase I environmental site assessment does not utilize subsurface exploration to check for the presence of hazardous wastes on the property. The experience of the assessor, along with the research of available reports, aerial photographs and land use records are used to evaluate the potential for hazardous wastes to occur on the site. Based on the information gained from the historical research, subsurface exploration may be recommended to check for the presence of hazardous wastes. Preexisting environmental problems such as the presence of hazardous wastes in the soil or groundwater, can be concealed by grading activities and site improvements. If such wastes are present these wastes cannot be observed.

The undersigned, Charles I. Buckley declares that, to the best of my professional knowledge and belief, I meet the definition of Environmental Professional as defined in Section 312.10 of 40 CFR 312 and I have the specific education, training, and experience necessary to exercise professional judgment to develop opinions and conclusions regarding conditions indicative of releases or threatened releases on, at, in, or to a property, sufficient to meet the objectives and performance factors in §312.20.

This report was prepared with the skill and competence as commonly used by environmental professionals in this area. No warranty, expressed or implied, of any kind is made or intended in connection with this report, or by the fact you are being furnished this report, or by any other oral or written statement.

Should you have any questions or desire any additional information, please contact the undersigned.

Respectfully submitted,

Charles I. Buckley

PROFESSIONAL EXPERIENCE:

Jan 88-Present CALIFORNIA ENVIRONMENTAL
CEO - Principal Hydrogeologist

- Founded California Environmental in January of 1988. Clients include Fortune 500 Corporations, County Government, Municipal Agencies, Financial Institutions, Land Developers, and Consultants. Principal Investigator for groundwater supply and groundwater contamination investigations. Project leader for groundwater remediation at a State of California Superfund Sites. Principal hydrogeologist for design and implementation of a groundwater-monitoring network for an existing Sanitary Landfill. Lead investigator to delineate structure of a California Groundwater Basin; Pioneered use of a cost effective soil/gas vapor technique used to track groundwater plumes. Conducted over 3,400 Phase I Environmental Investigations in California. These investigations included the use and interpretation of historic topographic maps, Sanborn Insurance Maps, aerial photography, and other historic data sources. Successfully completed remedial clean-up on 500+ sites in southern California; including impacts associated with fuels, PCBs, metals, asbestos and chlorinated solvents. Expert consultant for environmental impairment of soil and groundwater: Expert for the Port of Los Angeles, L.A. County Counsel, L.A. City Recreation and Parks and private attorneys.

30423 Canwood Street, Suite 208
Agoura Hills, California 91301

PROFESSIONAL EXPERIENCE: (continued)

Mar 84-Dec 87 KOVACS-BYER AND ASSOCIATES
Manager Environmental Services Group

- Spearheaded the development into the groundwater and environmental segments of consulting market. Ascended from project geologist status to manager of Environmental Services Group. Responsible for all aspects of project management including; organization and staffing, developing technical requirements needed to complete projects, client and agency liaison.

- Provided technical leadership for groundwater testing including design and analysis of aquifer pump tests. Lead Geotechnical Investigator for remedial repair of complex landslide terrains. Prepared Seismic Analysis for critical facilities. Recommended specialized drainage systems for abatement of groundwater problems. Project Consultant for award winning projects on which severe geotechnical problems were overcome.

Mar 80-Mar 84 GEOTECHNICAL SERVICES GROUP
BUREAU OF ENGINEERING
CITY OF LOS ANGELES
Assistant Engineering Geologist

- Performed geologic mapping in hillside areas of the City of Los Angeles. Reviewed Geotechnical Reports submitted to the City of Los Angeles for private development. Directed landslide investigations. Prepared Expert Opinion documents regarding groundwater and geologic issues for the City Engineer and City Attorney. Conducted field monitoring of known landslides within the City of Los Angeles.

Aug 79-Mar 80 UNITED STATES GEOLOGICAL SURVEY
Field Assistant

- Assisted in geological mapping for a uranium resource development project sponsored by the Department of Energy and the United States Geological Survey.

APPENDIX I

Environmental Field Reconnaissance Checklist and Field Interview, and User Questionnaire

ENVIRONMENTAL FIELD
RECONNAISSANCE CHECKLIST (PART A)

Completed By: Ryan Bzoskie Title: Field Technician

Property Address: 525 South Virgil Avenue, Los Angeles, CA 90020 Date: March 28, 2018

USES OF THE PROPERTY	
1. Name of present occupants of the property (include business names and addresses or unit numbers):	C.A.R. Reality Group
2. Describe the present use(s) of the property:	Offices
3. Describe the present of adjacent properties:	North; Parking lot and medical building, East; South Virgil, South; Carls Jr & Auto Body Shop, West; South Westmoreland Ave
4. Is the property used for an industrial use?	No
5. Is any adjoining property used for an industrial use?	No
6. Is the property used as a gasoline station, auto repair facility, commercial printing facility, dry cleaners, photo developing laboratory, or junkyard? If so, identify which and give the name of the business(es):	No
7. Is the property used as a landfill or a waste treatment, storage, processing, recycling, or disposal facility?	No
8. Is any adjoining property used as a gasoline station, auto repair facility, commercial printing facility, dry cleaners, photo developing laboratory, or junkyard? If so, identify which and give the name of the business(es):	Yes, auto repair facility located to the south
9. Is any adjoining property used as a landfill or a waste treatment, storage, processing, recycling, or disposal facility?	No
10. Is the property used for agricultural purposes?	No
PROPERTY CONDITIONS	
11. Are there or have there been any damaged or discarded industrial or automotive batteries on the property?	No
12. Are there currently any solvents, paints, fuels, pesticides, herbicides, or other chemicals, in individual containers larger than 5 gallons or totaling more than 50 gallons, used on or stored at the property?	No
13. Are there currently any industrial drums (typically 55 gallons) or sacks of chemicals located on the property?	No
14. Is there any visible evidence fill dirt has been brought onto the property from a contaminated site?	No
15. Is there any visible evidence fill dirt has been brought onto the property from an unknown site?	No
16. Are there any waste treatment or waste disposal ponds, pits or lagoons on the property?	No
17. Is there any stained soil, or soil emitting unusual odors, on the property?	No

18. Are there any flooring, drains, or walls in the facility that are stained by substances other than water or have emitted unusual odors?	No
19. Is there heating and cooling equipment onsite?	Yes
20. What is the fuel source for any onsite heating and cooling equipment?	Electric / gas
21. Is there any visible evidence of storage tanks (underground or aboveground) at the property?	No
22. Are there currently or have there been any vent pipes, fill pipes, fill ports, or surface covers indicating possible fill ports on the property or adjacent to any building located on the property?	No
23. Is there visible evidence of geotechnical and/or environmental subsurface assessments such as patched borings or groundwater monitoring well covers?	Yes, three (3) Geotech Borings located in the parking lot of the subject property
24. Are there any oil wells, drilling sumps, mud pits, or oil pipelines on or adjacent to the property?	No
25. Are there any pipelines on, beneath, or adjacent to the property, other than water, sewer, and natural gas utilities serving the property?	No
26. Is the property known to be located in a methane hazard area due to oil fields, natural seepage, or landfill gas?	No
27. Does the property or any facility at the property produce wastewater other than domestic sewage and storm water runoff?	No
28. Are there any waste water treatment systems (clarifiers, oil/water separators, grease traps, filtration systems, etc.) at the property?	No
29. How is waste water from the property disposed of? Sanitary sewer. Septic system. Surface water. Pond, pit, sump, or well. Other (describe).	Sanitary sewer
30. Does the property or any facility at the property produce solid waste other than domestic trash and greenwaste?	No
31. How is solid waste from the property disposed of? Municipal or private trash service. Recycling. Onsite dumping or burial. Other (describe).	Private trash services
32. How is solid waste stored at the property?	Bins
33. Does the property or any facility at the property generate hazardous or special waste in the course of normal operation? Examples include spent solvents, photo processing waste, waste oil, used filters, etc. Provide copies of generator notification or waste manifests.	No
34. If hazardous or special wastes are generated at the property, how are they stored?	Not Applicable

35. Are pesticides or herbicides stored, mixed, or disposed of on the property?	No
36. Are there any transformers, capacitors, or hydraulic equipment on the property that are known or suspected of containing PCBs?	No
37. Are there any building materials on the property known or suspected to contain asbestos? Please describe:	
ENVIRONMENTAL COMPLIANCE	
38. Does the property or any occupant of or facility on the property have any licenses, permits, registrations, or notifications for tanks, pipelines, industrial waste, wastewater treatment, wastewater discharge, stormwater discharge, waste disposal, waste storage or treatment, air emissions, chemical use, or chemical storage?	No
39. Is there visible evidence of any spills, leaks, or other releases or threatened releases of any hazardous substances or petroleum products from the property to soil, groundwater, or surface water?	No
40. Is there visible evidence of any release or threatened release of any hazardous substances or petroleum products from another location to soil, groundwater, or surface water at the property?	No
41. Is there visible evidence of the current or past existence of environmental violations on the property or in any facility located on the property?	No
42. Does the property discharge waste water, other than storm water runoff, into a storm drain or onto adjacent properties or streets?	No
43. Does the property discharge waste water, other than storm water, into a sanitary sewer system?	No
44. Is there visible evidence that hazardous substances, petroleum products, unidentified waste materials, tires, batteries, or any other waste materials have been dumped, buried, or burned on the property?	No

ENVIRONMENTAL FIELD INTERVIEW QUESTIONNAIRE (PART B)

Site Address: 525 S. Virgil Avenue, Los Angeles, CA 90020

California Environmental (CE) is asking the property owner, key site manager, and/or current user(s) of the subject property if any of the following helpful documents exist and, if so, CE requests a copy of such documents prior to the site walk. Please answer all questions on this 8 page questionnaire.

	Yes	No
• Environmental site assessment reports	☐	☑
• Environmental compliance audit reports	☐	☑
• Environmental permits	☐	☑
• Registrations for underground and aboveground storage tanks	☐	☑
• Registrations for underground injection systems	☐	☑
• Material safety data sheets	☑	☐
• Community right-to-know plan	☐	☑
• Safety plans	☐	☑
• Reports regarding hydrogeologic conditions on the subject property or surrounding area.	☐	☑
• Notices or other correspondence from any government agency relating to past or current violations of environmental laws with respect to the subject property or relating to environmental liens encumbering the subject property	☐	☑
• Hazardous waste generator notices or reports	☐	☑
• Geotechnical studies	☐	☑
• Risk assessments	☐	☑
• Recorded Activity and Use Limitations (AULs), such as a deed restriction or environmental liens.	☐	☑

California Environmental is asking the property owner, key site manger, and/or current user(s) of the subject property if they have any knowledge of the following:

• Any pending, threatened, or past litigation relevant to hazardous substances or petroleum products in, on, or from the subject property.	☐	☑
• Any pending, threatened, or past administrative proceedings relevant to hazardous substances or petroleum products in, on, or from the subject property.	☐	☑
• Any notices from any governmental entity regarding possible violations of environmental laws or possible liability relating to hazardous substances or petroleum products.	☐	☑

ENVIRONMENTAL FIELD INTERVIEW QUESTIONNAIRE (PART B)

For Property Owner or Occupant

Completed By: Rick Shumacher Title: Senior V.P.

Property Address: 525 S. Virgil Ave., Los Angeles, CA 90020 Date: March 21, 2018

USES OF THE PROPERTY	
1. Name of present owner of the property:	CALIFORNIA ASSOCIATION OF REALTORS(R)
2. Name of present occupants of the property (include business names and addresses or unit numbers):	Owner Occupied
3. Describe the present use(s) of the property. Describe any manufacturing/industrial processes.	General Office Use
4. Describe the past use(s) of the property:	General Office Use
5. Provide description and initial date of construction for subject building(s). Dates of major renovations.	Constructed in 1965 poured concrete frame with concrete block and wood components; seismic renovations in 1994
6. Describe the present and past use(s) of adjacent properties.	Restaurant, Office, Surface Parking, Body Shop, Retail
7. Provide the company names for utilities (water, gas and electric).	LADWP, Southern California Gas
8. Is the property used for an industrial use? If yes, please explain.	No
9. Is any adjoining property used for an industrial use?	No
10. Do you have any knowledge that the property or any adjoining property has been used for an industrial use in the past? If yes, please explain.	No
11. Is the property used as a gasoline station, auto repair facility, commercial printing facility, dry cleaners, photo developing laboratory, or junkyard? If so, identify which and give the name of the business(es):	No
12. Is the property used as a landfill or a waste treatment, storage, processing, recycling, or disposal facility? If yes, please explain.	No
13. Is any adjoining property used as a gasoline station, auto repair facility, commercial printing facility, dry cleaners, photo developing laboratory, or junkyard? If so, identify which and give the name of the business(es):	Yes Olympic Body Shop

14. Is any adjoining property used as a landfill or a waste treatment, storage, processing, recycling, or disposal facility?	No
15. Do you have any knowledge that the property has been used as a gasoline station, auto repair facility, commercial printing facility, dry cleaners, photo developing laboratory, or junkyard in the past? If so, identify which and give the name of the business(es):	No
16. Do you have any knowledge that the property has been used as a landfill or a waste treatment, storage, processing, recycling, or disposal facility in the past? If yes, please explain.	No
17. Do you have any knowledge that any adjoining property has been used as a gasoline station, auto repair facility, commercial printing facility, dry cleaners, photo developing laboratory, or junkyard in the past? If so, identify which and give the name of the business(es):	Yes Olympic Body Shop
18. Do you have any knowledge that any adjoining property has been used as a landfill or a waste treatment, storage, processing, recycling, or disposal facility in the past?	No
19. Is the property used for agricultural purposes, or has it been used for agricultural purposes in the past? Provide MSDS's and/or list of agricultural chemicals applied to property.	No
PROPERTY CONDITIONS	
20. Do you have any knowledge of a backup generator? What is the fuel source for the backup generator?	Yes Natural gas from local utility
21. Are there or have there been any damaged or discarded industrial or automotive batteries on the property? If yes, please explain.	No
22. Are there currently any solvents, paints, fuels, pesticides, herbicides, or other chemicals, in individual containers larger than 5 gallons or totaling more than 50 gallons, used on or stored at the property? If yes, please explain.	No

23. Do you have any knowledge that there have been any solvents, paints, fuels, pesticides, herbicides, or other chemicals, in individual containers larger than 5 gallons or totaling more than 50 gallons, used on or stored at the property in the past? If yes, please explain.	No
24. Are there currently any industrial drums (typically 55 gallons) or sacks of chemicals located on the property? Provide Disposal Manifests, MSDS's and/or list with quantities. If yes, please explain.	No
25. Do you have any knowledge that there have been any industrial drums (typically 55 gallons) or sacks of chemicals located on the property in the past? If yes, please explain.	No
26. What is the current topography (level, sloped, uneven, hill, valley, etc.) of the property?	Level
27. Do you have any knowledge that fill dirt has been brought onto the property from a contaminated site? If yes, please explain.	No
28. Do you have any knowledge that fill dirt has been brought onto the property from an unknown site? If yes, please explain.	No
29. Are there currently or have there been any waste treatment or waste disposal ponds, pits or lagoons on the property? If yes, please explain.	No
30. Is there currently or has there been any stained soil, or soil emitting unusual odors, on the property? If yes, please explain.	No
31. Are there, or have there been in the past, any flooring, drains, or walls in the facility that are stained by substances other than water or have emitted unusual odors? If yes, please explain.	No
32. Are there any heating and cooling equipment on the property? If yes, please explain.	Yes HVAC system for general office use
33. What is the fuel source (heating oil, gas, electric, etc.) for any onsite heating and cooling equipment?	Gas, Electric

34. Are there currently or have there been any registered or unregistered storage tanks (underground or aboveground) at the property? List size and/or quantity.	No
35. What year was underground or aboveground storage tank installed and/or removed?	N/A
36. Are there currently or have there been any vent pipes, fill pipes, fill ports, or surface covers indicating possible fill ports on the property or adjacent to any building located on the property?	No
37. Are there currently or have there been any oil wells, drilling sumps, mud pits, or oil pipelines on or adjacent to the property? If yes, please explain.	No
38. Are there currently or have there been any pipelines on, beneath, or adjacent to the property, other than water, sewer, and natural gas utilities serving the property?	Unknown There is a LADWP underground vault on the property
39. Is the property known to be located in a methane hazard area due to oil fields, natural seepage, or landfill gas?	Unknown
40. Does the property or any facility at the property produce wastewater other than domestic sewage and storm water runoff?	No
41. Are there any wastewater treatment systems (clarifiers, oil/water separators, grease traps, filtration systems, etc.) at the property?	No
42. How is wastewater from the property disposed of? Sanitary sewer. Septic system. Surface water. Pond, pit, sump, or well. Other (describe).	City sewer system
43. Does the property or any facility at the property produce solid waste other than domestic trash and greenwaste?	No
44. How is solid waste from the property disposed? Municipal or private trash service, recycling, onsite dumping or burial. List service company. Other (describe).	Private trash service, private recycling service
45. How is solid waste stored at the property?	N/A

46. Does the property or any facility at the property generate hazardous or special waste in the course of normal operation? Examples include spent solvents, photo processing waste, waste oil, used filters, etc. Provide copies of generator notification or waste manifests.	No
47. Has the property or any facility at the property generated hazardous or special waste due to occasional or one-time events such as asbestos abatement, soil or groundwater cleanup, or accidental events such as spills? Provide copies of waste manifests.	Asbestos abatement circa 1989
48. If hazardous or special wastes are generated at the property, how are they stored?	N/A
49. Have pesticides or herbicides been stored, mixed, or disposed of on the property?	No
50. Are there any transformers, capacitors, or hydraulic equipment on the property that are known or suspected of containing PCBs?	Unknown
51. Are there any building materials on the property known or suspected to contain asbestos? Please describe:	Yes Mastic under tile in utility closets
52. Have any asbestos surveys been performed at the property? Please provide copies of survey reports.	Unknown
53. Have any asbestos removal or other abatement projects taken place at the property? Please describe and provide documentation.	Yes
54. Is there any known or suspected lead-based paint in buildings located at the property? Please provide copies of survey reports.	Unknown
55. Has radon testing ever been conducted at the property? Please provide test reports.	Unknown

ENVIRONMENTAL COMPLIANCE	
56. Has the property ever been the subject of an environmental site assessment or environmental audit, with respect to soil, groundwater, surface water, air, or site facilities and processes? Has any environmental site assessment of the property indicated the presence of hazardous substances or petroleum products on, or contamination of, the property or recommended further assessment of the property? Please provide a copy of such reports and describe the manner in which any recognized environmental conditions have been addressed.	Unknown
57. Does the property or any occupant of or facility on the property have any licenses, permits, registrations, or notifications for tanks, pipelines, industrial waste, wastewater treatment, wastewater discharge, stormwater discharge, waste disposal, waste storage or treatment, air emissions, chemical use, or chemical storage? Please provide copies of such documents.	No
58. Have you been informed of the current or past existence of hazardous substances or petroleum products on the property or in any facility located on the property?	No
59. Do you have knowledge of any spills, leaks, or other releases or threatened releases of any hazardous substances or petroleum products from the property to soil, groundwater, or surface water?	No
60. Do you have knowledge of any release or threatened release of any hazardous substances or petroleum products from another location to soil, groundwater, or surface water at the property?	No
61. Have you been informed of the current or past existence of environmental violations on the property or in any facility located on the property?	No

62. Do you have any knowledge of environmental liens or governmental notifications relating to violations of environmental laws with respect to the property or any facility located on the property?	No
63. Do you have knowledge of any past, threatened, or pending lawsuits, enforcement actions, or administrative proceedings concerning the property.	No
64. If the property is served by a private well or a non-public water system, do you have any knowledge that contaminants exceeding applicable guidelines have been identified in the well or water system, or has the well or system been designated as contaminated by any governmental agency?	N/A
65. Does the property discharge waste water, other than storm water runoff, into a storm drain or onto adjacent properties or streets?	No
66. Does the property discharge waste water, other than storm water, into a sanitary sewer system?	Yes
67. Do you have any knowledge that hazardous substances, petroleum products, unidentified waste materials, tires, batteries, or any other waste materials have been dumped, buried, or burned on the property?	No

USER QUESTIONNAIRE (PART C)

In order to qualify for one of the *Landowner Liability Protections (LLPs)* offered by the Small Business Liability Relief and Brownfields Revitalization Action of 2001 (the "*Brownfields Amendments*"), the *user* must provide the following information (if available) to the *environmental professional*. Failure to provide this information could result in a determination that "*all appropriate inquiry*" is not complete.

The purpose of this section, defined in ASTM E1527-13, Section 6.1 *Users Responsibilities*, is to describe tasks to be performed by the user that will help identify the possibility of *recognized environmental conditions* in connection with the property. These tasks do not require the technical expertise of an *environmental professional* and are generally not performed by *environmental professionals* performing a *Phase I Environmental Site Assessment*. The purpose of this *User Questionnaire is* to assist the *environmental professional* in gathering information from the *user* that may be material to *identifying recognized environmental conditions*.

Completed By: Wendy Sov Title: Project Assistant
Property Address: 525 South Virgil Ave, Los Angeles, CA 90020 Date: March 28, 2018

1. Are you aware of any environmental cleanup liens against the *property* that are filed or recorded under federal, tribal, sate or local law?	No
2. Are you aware of any AULs, such as *engineering controls*, land use restrictions or *institutional controls* that are in place at the site and/or have been filed or recorded is a registry under federal, tribal, state or local law?	No
3. As the *user* of this ESA do you have any specialized knowledge or experience related to the *property* or nearby properties? For example, are you involved in the same line of business as the current or former *occupants* of the *property* or an adjoining *property* so that you would have specialized knowledge of the chemicals and processes used by this type of business?	No
4. Does the purchase price being paid for this *property* reasonably reflect the fair market value of the *property*? If you concluded that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the *property*?	Unsure
5. Are you aware of commonly known or *reasonably ascertainable* information about the *property* that would help the *environmental professional* to identify conditions indicative of releases or threatened releases? For example, as *user*,	No
a. Do you know the past uses of the *property*?	No
b. Do you know of specific chemicals that are present or once were present at the *property*?	No
c. Do you know of spills or other chemical releases that have taken place at the *property*?	No
6. Do you know of any environmental cleanups that have taken place at the property?	No
7. As the user of this ESA, based on your knowledge and experience related to the *property*, are there any obvious indicators that point to the presence or likely presence of contamination at the *property*?	No

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1920 through 2014. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 332 feet of the target property.

A summary of the information obtained is provided in the text of this report.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by California Environmental were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

Sanborn® Library search results

Certification #: 77AA-47B3-B35A

The Sanborn Library includes more than 1.2 million fire insurance maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow and others which track historical property usage in approximately 12,000 American cities and towns. Collections searched:

- ✓ Library of Congress
- ✓ University Publications of America
- ✓ EDR Private Collection

The Sanborn Library LLC Since 1866™

Limited Permission To Make Copies

California Environmental (the client) is permitted to make up to FIVE photocopies of this Sanborn Map transmittal and each fire insurance map accompanying this report solely for the limited use of its customer. No one other than the client is authorized to make copies. Upon request made directly to an EDR Account Executive, the client may be permitted to make a limited number of additional photocopies. This permission is conditioned upon compliance by the client, its customer and their agents with EDR's copyright policy; a copy of which is available upon request.

Disclaimer - Copyright and Trademark Notice

This Report contains certain information obtained from a variety of public and other sources reasonably available to Environmental Data Resources, Inc. It cannot be concluded from this Report that coverage information for the target and surrounding properties does not exist from other sources. NO WARRANTY EXPRESSED OR IMPLIED, IS MADE WHATSOEVER IN CONNECTION WITH THIS REPORT. ENVIRONMENTAL DATA RESOURCES, INC. SPECIFICALLY DISCLAIMS THE MAKING OF ANY SUCH WARRANTIES, INCLUDING WITHOUT LIMITATION, MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE OR PURPOSE. ALL RISK IS ASSUMED BY THE USER. IN NO EVENT SHALL ENVIRONMENTAL DATA RESOURCES, INC. BE LIABLE TO ANYONE, WHETHER ARISING OUT OF ERRORS OR OMISSIONS, NEGLIGENCE, ACCIDENT OR ANY OTHER CAUSE, FOR ANY LOSS OF DAMAGE, INCLUDING, WITHOUT LIMITATION, SPECIAL, INCIDENTAL, CONSEQUENTIAL, OR EXEMPLARY DAMAGES. ANY LIABILITY ON THE PART OF ENVIRONMENTAL DATA RESOURCES, INC. IS STRICTLY LIMITED TO A REFUND OF THE AMOUNT PAID FOR THIS REPORT. Purchaser accepts this Report "AS IS". Any analyses, estimates, ratings, environmental risk levels or risk codes provided in this Report are provided for illustrative purposes only, and are not intended to provide, nor should they be interpreted as providing any facts regarding, or prediction or forecast of, any environmental risk for any property. Only a Phase I Environmental Site Assessment performed by an environmental professional can provide information regarding the environmental risk for any property. Additionally, the information provided in this Report is not to be construed as legal advice.

EDR Topographic Map Library has been searched by EDR and maps covering the target property location as provided by California Environmental were identified for the years listed below. EDR's Historical Topo Map Report is designed to assist professionals in evaluating potential liability on a target property resulting from past activities. EDRs Historical Topo Map Report includes a search of a collection of public and private color historical topographic maps, dating back to the late 1800s.

(C) 2h Construction Inc	4101 Long Beach Blvd,	Long Beach, CA 908075059	B	741856	562-424-5578

PERMIT EXPIRATION/REFUNDS: This permit expires two years after the date of the permit issuance. This permit will also expire if no construction work is performed for a continuous period of 180 days (Sec. 98.0602 LAMC). Claims for refund of fees paid must be filed within one year from the date of expiration for permits granted by LADBS (Sec. 22.12 & 22.13 LAMC). The permittee may be entitled to reimbursement of permit fees if the Department fails to conduct an inspection within 60 days of receiving a request for final inspection (HS 17951).

17. LICENSED CONTRACTOR'S DECLARATION

I hereby affirm under penalty of perjury that I am licensed under the provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect. The following applies to B contractors only: I understand the limitations of Section 7057 of the Business and Professional Code related to my ability to take prime contracts or subcontracts involving specialty trades.

License Class: B Lic. No.: 741856 Contractor: 2H CONSTRUCTION INC

18. WORKERS' COMPENSATION DECLARATION

I hereby affirm, under penalty of perjury, one of the following declarations:

(__) I have and will maintain a certificate of consent to self insure for workers' compensation, as provided for by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued.

(X) I have and will maintain workers' compensation insurance, as required by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number are:

Carrier: ~~Contractors state license board~~ STATE COMP. INSURANCE FUND Policy Number: 7745319-2004

(__) I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California, and agree that if I should become subject to the workers' compensation provisions of Section 3700 of the Labor Code, I shall forthwith comply with those provisions.

WARNING: FAILURE TO SECURE WORKERS' COMPENSATION COVERAGE IS UNLAWFUL, AND SHALL SUBJECT AN EMPLOYER TO CRIMINAL PENALTIES AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS ($100,000), IN ADDITION TO THE COST OF COMPENSATION, DAMAGES AS PROVIDED FOR IN SECTION 3706 OF THE LABOR CODE, INTEREST, AND ATTORNEY'S FEES.

19. ASBESTOS REMOVAL DECLARATION / LEAD HAZARD WARNING

I certify that notification of asbestos removal is either not applicable or was sent to the AQMD or EPA as per section 19827.5 of the Health and Safety Code. Due to the possible presence of lead-based paint, lead safe work practices are required on all repairs in pre-1979 buildings that disturb paint. Failure to do so could create lead hazards that violate California Health and Safety Code Section 17920.10 and Section 105256 and may be subject to a $1000 fine or criminal prosecution. For more information call LA County's Department of Health Services at (800)524-5323. In order to locate a Lead Certified Professional and obtain additional information, call California DHS at (800)597-5323 or go to the DHS Website at http://www.dhs.ca.gov/childlead/html/GENclist.html.

20. CONSTRUCTION LENDING AGENCY DECLARATION

I hereby affirm under penalty of perjury that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Civil Code).
Lender's name (if any):_____ Lender's address:_____

21. FINAL DECLARATION

I certify that I have read this application **INCLUDING THE ABOVE DECLARATIONS** and state that the above information **INCLUDING THE ABOVE DECLARATIONS** is correct. I agree to comply with all city and county ordinances and state laws relating to building construction, and hereby authorize representatives of this city to enter upon the above-mentioned property for inspection purposes. I realize that this permit is an application for inspection and that it does not approve or authorize the work specified herein, and it does not authorize or permit any violation or failure to comply with any applicable law. Furthermore, neither the City of Los Angeles nor any board, department officer, or employee thereof, make any warranty, nor shall be responsible for the performance or results of any work described herein, nor the condition of the property nor the soil upon which such work is performed. I further affirm under penalty of perjury, that the proposed work will not destroy or unreasonably interfere with any access or utility easement belonging to others and located on my property, but in the event such work does destroy or unreasonably interfere with such easement, a substitute easement(s) satisfactory to the holder(s) of the easement will be provided (Sec. 91.0106.4.3.4 LAMC).

By signing below, I certify that:

(1) I accept all the declarations above namely the Licensed Contractor's Declaration, Workers' Compensation Declaration, Asbestos Removal Declaration / Lead Hazard Warning, Construction Lending Agency Declaration and Final Declaration; and
(2) This permit is being obtained with the consent of the legal owner of the property.

I realize that this permit is an application for inspection and that it does not approve or authorize the work specified herein, and it does not authorize or permit any violation or failure to comply with any applicable law. Furthermore, neither the City of Los Angeles nor any board, department officer, or employee thereof, make any warranty, nor shall be responsible for the performance or results of any work described herein, nor the condition of the property nor the soil upon which such work is performed. I further affirm under penalty of perjury, that the proposed work will not destroy or unreasonably interfere with any access or utility easement belonging to others and located on my property, but in the event such work does destroy or unreasonably interfere with such easement, a substitute easement(s) satisfactory to the holder(s) of the easement will be provided (Sec. 91.0106.4.3.4 LAMC).

By signing below, I certify that:

(1) I accept all the declarations above namely the Licensed Contractor's Declaration, Workers' Compensation Declaration, Asbestos Removal Declaration / Lead Hazard Warning, Construction Lending Agency Declaration and Final Declaration; and
(2) This permit is being obtained with the consent of the legal owner of the property.

PERMIT EXPIRATION/REFUNDS: This permit expires two years after the date of the permit issuance. This permit will also expire if no construction work is performed for a continuous period of 180 days (Sec. 98.0602 LAMC). Claims for refund of fees paid must be filed within one year from the date of expiration for permits granted by LADBS (Sec. 22.12 & 22.13 LAMC). The permittee may be entitled to reimbursement of permit fees if the Department fails to conduct an inspection within 60 days of receiving a request for final inspection (HS 17951).

11. LICENSED CONTRACTOR'S DECLARATION

I hereby affirm under penalty of perjury that I am licensed under the provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect. The following applies to B contractors only: I understand the limitations of Section 7057 of the Business and Professional Code related to my ability to take prime contracts or subcontracts involving specialty trades.

License Class: **C20** Lic. No.: **840838** Contractor: **ALLIANCE HEATING AND AIR CONDITIONING INC.**

12. WORKERS' COMPENSATION DECLARATION

I hereby affirm, under penalty of perjury, one of the following declarations:

(__) I have and will maintain a certificate of consent to self insure for workers' compensation, as provided for by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued.

(**X**) I have and will maintain workers' compensation insurance, as required by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number are:

Carrier: **STATE COMPENSATION INSURANCE F** Policy Number: **1789682**

(__) I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California, and agree that if I should become subject to the workers' compensation provisions of Section 3700 of the Labor Code, I shall forthwith comply with those provisions.

WARNING: FAILURE TO SECURE WORKERS' COMPENSATION COVERAGE IS UNLAWFUL, AND SHALL SUBJECT AN EMPLOYER TO CRIMINAL PENALTIES AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS ($100,000), IN ADDITION TO THE COST OF COMPENSATION, DAMAGES AS PROVIDED FOR IN SECTION 3706 OF THE LABOR CODE, INTEREST, AND ATTORNEY'S FEES.

13. ASBESTOS REMOVAL DECLARATION / LEAD HAZARD WARNING

I certify that notification of asbestos removal is either not applicable or was sent to the AQMD or EPA as per section 19827.5 of the Health and Safety Code. Due to the possible presence of lead-based paint, lead safe work practices are required on all repairs in pre-1979 buildings that disturb paint. Failure to do so could create lead hazards that violate California Health and Safety Code Section 17920.10 and 105256 and may be subject to a $1000 fine or criminal prosecution. For more information call LA County's Department of Health Services at (800)524-5323. In order to locate a Lead Certified Professional and obtain additional information, call California DHS at (800)597-5323 or go to the DHS Website at http://www.dhs.ca.gov/childlead/html/GENclist.html.

14. CONSTRUCTION LENDING AGENCY DECLARATION

I hereby affirm under penalty of perjury that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Civil Code).

Lender's name (if any):_____ Lender's address:_____

15. FINAL DECLARATION

I certify that I have read this application **INCLUDING THE ABOVE DECLARATIONS** and state that the above information **INCLUDING THE ABOVE DECLARATIONS** is correct. I agree to comply with all city and county ordinances and state laws relating to building construction, and hereby authorize representatives of this city to enter upon the above-mentioned property for inspection purposes. I realize that this permit is an application for inspection and that it does not approve or authorize the work specified herein, and it does not authorize or permit any violation or failure to comply with any applicable law. Furthermore, neither the City of Los Angeles nor any board, department officer, or employee thereof, make any warranty, nor shall be responsible for the performance or results of any work described herein, nor the condition of the property nor the soil upon which such work is performed. I further affirm under penalty of perjury, that the proposed work will not destroy or unreasonably interfere with any access or utility easement belonging to others and located on my property, but in the event such work does destroy or unreasonably interfere with such easement, a substitute easement(s) satisfactory to the holder(s) of the easement will be provided (Sec. 91.0106.4.3.4 LAMC).

By signing below, I certify that:

(1) I accept all the declarations above namely the Licensed Contractor's Declaration, Workers' Compensation Declaration, Asbestos Removal Declaration / Lead Hazard Warning, Construction Lending Agency Declaration and Final Declaration; and

(2) This permit is being obtained with the consent of the legal owner of the property.

16. CONTRACTOR, ARCHITECT, & ENGINEER NAME	ADDRESS		CLASS	LICENSE#	PHONE #
(C) 2h Construction Inc	4101 Long Beach Blvd,	Long Beach, CA 908075059	B	741856	562-424-5567

PERMIT EXPIRATION/REFUNDS: This permit expires two years after the date of the permit issuance. This permit will also expire if no construction work is performed for a continuous period of 180 days (Sec. 98.0602 LAMC). Claims for refund of fees paid must be filed within one year from the date of expiration for permits granted by LADBS (Sec. 22.12 & 22.13 LAMC). The permittee may be entitled to reimbursement of permit fees if the Department fails to conduct an inspection within 60 days of receiving a request for final inspection (HS 17951).

17. LICENSED CONTRACTOR'S DECLARATION

I hereby affirm under penalty of perjury that I am licensed under the provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect. The following applies to B contractors only: I understand the limitations of Section 7057 of the Business and Professional Code related to my ability to take prime contracts or subcontracts involving specialty trades.

License Class: A&B Lic. No.: 741856 Contractor: 2H Construction

18. WORKERS' COMPENSATION DECLARATION

I hereby affirm, under penalty of perjury, one of the following declarations:

(__) I have and will maintain a certificate of consent to self insure for workers' compensation, as provided for by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued.

(✓) I have and will maintain workers' compensation insurance, as required by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number are:

Carrier: State Compensation Ins. fund Policy Number: 1745319-2005

(__) I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California, and agree that if I should become subject to the workers' compensation provisions of Section 3700 of the Labor Code, I shall forthwith comply with those provisions.

WARNING: FAILURE TO SECURE WORKERS' COMPENSATION COVERAGE IS UNLAWFUL, AND SHALL SUBJECT AN EMPLOYER TO CRIMINAL PENALTIES AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS ($100,000), IN ADDITION TO THE COST OF COMPENSATION, DAMAGES AS PROVIDED FOR IN SECTION 3706 OF THE LABOR CODE, INTEREST, AND ATTORNEY'S FEES.

19. ASBESTOS REMOVAL DECLARATION / LEAD HAZARD WARNING

I certify that notification of asbestos removal is either not applicable or was sent to the AQMD or EPA as per section 19827.5 of the Health and Safety Code. Due to the possible presence of lead-based paint, lead safe work practices are required on all repairs in pre-1979 buildings that disturb paint. Failure to do so could create lead hazards that violate California Health and Safety Code Section 17920.10 and Section 105256 and may be subject to a $1000 fine or criminal prosecution. For more information call LA County's Department of Health Services at (800)524-5323. In order to locate a Lead Certified Professional and obtain additional information, call California DHS at (800)597-5323 or go to the DHS Website at http://www.dhs.ca.gov/childlead/html/GENclist.html.

20. CONSTRUCTION LENDING AGENCY DECLARATION

I hereby affirm under penalty of perjury that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Civil Code).

Lender's name (if any):_____ Lender's address:_____

21. FINAL DECLARATION

I certify that I have read this application **INCLUDING THE ABOVE DECLARATIONS** and state that the above information **INCLUDING THE ABOVE DECLARATIONS** is correct. I agree to comply with all city and county ordinances and state laws relating to building construction, and hereby authorize representatives of this city to enter upon the above-mentioned property for inspection purposes. I realize that this permit is an application for inspection and that it does not approve or authorize the work specified herein, and it does not authorize or permit any violation or failure to comply with any applicable law. Furthermore, neither the City of Los Angeles nor any board, department officer, or employee thereof, make any warranty, nor shall be responsible for the performance or results of any work described herein, nor the condition of the property nor the soil upon which such work is performed. I further affirm under penalty of perjury, that the proposed work will not destroy or unreasonably interfere with any access or utility easement belonging to others and located on my property, but in the event such work does destroy or unreasonably interfere with such easement, a substitute easement(s) satisfactory to the holder(s) of the easement will be provided (Sec. 91.0106.4.3.4 LAMC).

By signing below, I certify that:

(1) I accept all the declarations above namely the Licensed Contractor's Declaration, Workers' Compensation Declaration, Asbestos Removal Declaration / Lead Hazard Warning, Construction Lending Agency Declaration and Final Declaration; and

(2) This permit is being obtained with the consent of the legal owner of the property.

Claims for refund of fees paid must be filed within one year from the date of expiration for permits granted by LADBS (Sec. 22.12 & 22.13 LAMC). The permittee may be entitled to reimbursement of permit fees if the Department fails to conduct an inspection within 60 days of receiving a request for final inspection (HS 17951).

11. LICENSED CONTRACTOR'S DECLARATION

I hereby affirm under penalty of perjury that I am licensed under the provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect. The following applies to B contractors only: I understand the limitations of Section 7057 of the Business and Professional Code related to my ability to take prime contracts or subcontracts involving specialty trades.

License Class: **C36** Lic. No.: **456590** Contractor: **NEPUTNE PLUMBING CO.**

12. WORKERS' COMPENSATION DECLARATION

I hereby affirm, under penalty of perjury, one of the following declarations:

(__) I have and will maintain a certificate of consent to self insure for workers' compensation, as provided for by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued.

(**X**) I have and will maintain workers' compensation insurance, as required by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number are:

Carrier: **STATE FUND COMPENSATION** Policy Number: **1680057-02**

(__) I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California, and agree that if I should become subject to the workers' compensation provisions of Section 3700 of the Labor Code, I shall forthwith comply with those provisions.

WARNING: FAILURE TO SECURE WORKERS' COMPENSATION COVERAGE IS UNLAWFUL, AND SHALL SUBJECT AN EMPLOYER TO CRIMINAL PENALTIES AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS ($100,000), IN ADDITION TO THE COST OF COMPENSATION, DAMAGES AS PROVIDED FOR IN SECTION 3706 OF THE LABOR CODE, INTEREST, AND ATTORNEY'S FEES.

13. ASBESTOS REMOVAL DECLARATION / LEAD HAZARD WARNING

I certify that notification of asbestos removal is either not applicable or was sent to the AQMD or EPA as per section 19827.5 of the Health and Safety Code. Due to the possible presence of lead-based paint, lead safe work practices are required on all repairs in pre-1979 buildings that disturb paint. Failure to do so could create lead hazards that violate California Health and Safety Code Section 17920.10 and 105256 and may be subject to a $1000 fine or criminal prosecution. For more information call LA County's Department of Health Services at (800)524-5323. In order to locate a Lead Certified Professional and obtain additional information, call California DHS at (800)597-5323 or go to the DHS Website at http://www.dhs.ca.gov/childlead/html/GENclist.html.

14. CONSTRUCTION LENDING AGENCY DECLARATION

I hereby affirm under penalty of perjury that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Civil Code).

Lender's name (if any):_____ Lender's address:_____

15. FINAL DECLARATION

I certify that I have read this application **INCLUDING THE ABOVE DECLARATIONS** and state that the above information **INCLUDING THE ABOVE DECLARATIONS** is correct. I agree to comply with all city and county ordinances and state laws relating to building construction, and hereby authorize representatives of this city to enter upon the above-mentioned property for inspection purposes. I realize that this permit is an application for inspection and that it does not approve or authorize the work specified herein, and it does not authorize or permit any violation or failure to comply with any applicable law. Furthermore, neither the City of Los Angeles nor any board, department officer, or employee thereof, make any warranty, nor shall be responsible for the performance or results of any work described herein, nor the condition of the property nor the soil upon which such work is performed. I further affirm under penalty of perjury, that the proposed work will not destroy or unreasonably interfere with any access or utility easement belonging to others and located on my property, but in the event such work does destroy or unreasonably interfere with such easement, a substitute easement(s) satisfactory to the holder(s) of the easement will be provided (Sec. 91.0106.4.3.4 LAMC).

By signing below, I certify that:

(1) I accept all the declarations above namely the Licensed Contractor's Declaration, Workers' Compensation Declaration, Asbestos Removal Declaration / Lead Hazard Warning, Construction Lending Agency Declaration and Final Declaration; and

(2) This permit is being obtained with the consent of the legal owner of the property.

PERMIT EXPIRATION/REFUNDS: This permit expires two years after the date of the permit issuance. This permit will also expire if no construction work is performed for a continuous period of 180 days (Sec. 98.0602 LAMC). Claims for refund of fees paid must be filed within one year from the date of expiration for permits granted by LADBS (Sec. 22.12 & 22.13 LAMC). The permittee may be entitled to reimbursement of permit fees if the Department fails to conduct an inspection within 60 days of receiving a request for final inspection (HS 17951).

17. LICENSED CONTRACTOR'S DECLARATION

I hereby affirm under penalty of perjury that I am licensed under the provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect. The following applies to B contractors only: I understand the limitations of Section 7057 of the Business and Professional Code related to my ability to take prime contracts or subcontracts involving specialty trades.

License Class: C39 Lic. No.: 475568 Contractor: HOWARD ROOFING COMPANY INCORPORATED

18. WORKERS' COMPENSATION DECLARATION

I hereby affirm, under penalty of perjury, one of the following declarations:

(__) I have and will maintain a certificate of consent to self insure for workers' compensation, as provided for by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued.

(X) I have and will maintain workers' compensation insurance, as required by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number are:

Carrier: State Comp. Ins. Fund Policy Number: 639-0000128

(__) I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California, and agree that if I should become subject to the workers' compensation provisions of Section 3700 of the Labor Code, I shall forthwith comply with those provisions.

WARNING: FAILURE TO SECURE WORKERS' COMPENSATION COVERAGE IS UNLAWFUL, AND SHALL SUBJECT AN EMPLOYER TO CRIMINAL PENALTIES AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS ($100,000), IN ADDITION TO THE COST OF COMPENSATION, DAMAGES AS PROVIDED FOR IN SECTION 3706 OF THE LABOR CODE, INTEREST, AND ATTORNEY'S FEES.

19. ASBESTOS REMOVAL DECLARATION / LEAD HAZARD WARNING

I certify that notification of asbestos removal is either not applicable or was sent to the AQMD or EPA as per section 19827.5 of the Health and Safety Code. Due to the possible presence of lead-based paint, lead safe work practices are required on all repairs in pre-1979 buildings that disturb paint. Failure to do so could create lead hazards that violate California Health and Safety Code Section 17920.10 and Section 105256 and may be subject to a $1000 fine or criminal prosecution. For more information call LA County's Department of Health Services at (800)524-5323. In order to locate a Lead Certified Professional and obtain additional information, call California DHS at (800)597-5323 or go to the DHS Website at http://www.dhs.ca.gov/childlead/html/GENclist.html.

I hereby affirm under penalty of perjury that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Civil Code).
Lender's name (if any): _____ Lender's address: _____

21. FINAL DECLARATION

I certify that I have read this application **INCLUDING THE ABOVE DECLARATIONS** and state that the above information **INCLUDING THE ABOVE DECLARATIONS** is correct. I agree to comply with all city and county ordinances and state laws relating to building construction, and hereby authorize representatives of this city to enter upon the above-mentioned property for inspection purposes. I realize that this permit is an application for inspection and that it does not approve or authorize the work specified herein, and it does not authorize or permit any violation or failure to comply with any applicable law. Furthermore, neither the City of Los Angeles nor any board, department officer, or employee thereof, make any warranty, nor shall be responsible for the performance or results of any work described herein, nor the condition of the property nor the soil upon which such work is performed. I further affirm under penalty of perjury, that the proposed work will not destroy or unreasonably interfere with any access or utility easement belonging to others and located on my property, but in the event such work does destroy or unreasonably interfere with such easement, a substitute easement(s) satisfactory to the holder(s) of the easement will be provided (Sec. 91.0106.4.3.4 LAMC).

By signing below, I certify that:

(1) I accept all the declarations above namely the Licensed Contractor's Declaration, Workers' Compensation Declaration, Asbestos Removal Declaration / Lead Hazard Warning, Construction Lending Agency Declaration and Final Declaration; and
(2) This permit is being obtained with the consent of the legal owner of the property.

PERMIT EXPIRATION/REFUNDS: This permit expires two years after the date of the permit issuance. This permit will also expire if no construction work is performed for a continuous period of 180 days (Sec. 98.0602 LAMC). Claims for refund of fees paid must be filed within one year from the date of expiration for permits granted by LADBS (Sec. 22.12 & 22.13 LAMC). The permittee may be entitled to reimbursement of permit fees if the Department fails to conduct an inspection within 60 days of receiving a request for final inspection (HS 17951).

17. LICENSED CONTRACTOR'S DECLARATION

I hereby affirm under penalty of perjury that I am licensed under the provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect. The following applies to B contractors only: I understand the limitations of Section 7057 of the Business and Professional Code related to my ability to take prime contracts or subcontracts involving specialty trades.

License Class: B Lic. No.: 842124 Contractor: WEBKER CONSTRUCTION INC

18. WORKERS' COMPENSATION DECLARATION

I hereby affirm, under penalty of perjury, one of the following declarations:

(_) I have and will maintain a certificate of consent to self insure for workers' compensation, as provided for by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued.

(_) I have and will maintain workers' compensation insurance, as required by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number are:

Carrier: State Comp. Ins. Fund Policy Number: 1660615

(_) I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California, and agree that if I should become subject to the workers' compensation provisions of Section 3700 of the Labor Code, I shall forthwith comply with those provisions.

WARNING: FAILURE TO SECURE WORKERS' COMPENSATION COVERAGE IS UNLAWFUL, AND SHALL SUBJECT AN EMPLOYER TO CRIMINAL PENALTIES AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS ($100,000), IN ADDITION TO THE COST OF COMPENSATION, DAMAGES AS PROVIDED FOR IN SECTION 3706 OF THE LABOR CODE, INTEREST, AND ATTORNEY'S FEES.

19. ASBESTOS REMOVAL DECLARATION / LEAD HAZARD WARNING

I certify that notification of asbestos removal is either not applicable or has been submitted to the AQMD or EPA as per section 19827.5 of the Health and Safety Code. Information is available at (909) 396-2336 and the notification form at www.aqmd.gov. Lead safe construction practices are required when doing repairs that disturb paint in pre-1978 buildings due to the presence of lead per section 6716 and 6717 of the Labor Code. Information is avaiable at Health Services for LA County at (800) 524-5323 or the State of California at (800) 597-5323 or www.dhs.ca.gov/childlead.

20. CONSTRUCTION LENDING AGENCY DECLARATION

I hereby affirm under penalty of perjury that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Civil Code).
Lender's name (if any): _____ Lender's address: _____

21. FINAL DECLARATION

I certify that I have read this application **INCLUDING THE ABOVE DECLARATIONS** and state that the above information **INCLUDING THE ABOVE DECLARATIONS** is correct. I agree to comply with all city and county ordinances and state laws relating to building construction, and hereby authorize representatives of this city to enter upon the above-mentioned property for inspection purposes. I realize that this permit is an application for inspection and that it does not approve or authorize the work specified herein, and it does not authorize or permit any violation or failure to comply with any applicable law. Furthermore, neither the City of Los Angeles nor any board, department officer, or employee thereof, make any warranty, nor shall be responsible for the performance or results of any work described herein, nor the condition of the property nor the soil upon which such work is performed. I further affirm under penalty of perjury, that the proposed work will not destroy or unreasonably interfere with any access or utility easement belonging to others and located on my property, but in the event such work does destroy or unreasonably interfere with such easement, a substitute easement(s) satisfactory to the holder(s) of the easement will be provided (Sec. 91.0106.4.3.4 LAMC).

By signing below, I certify that:

(1) I accept all the declarations above namely the Licensed Contractor's Declaration, Workers' Compensation Declaration, Asbestos Removal Declaration / Lead Hazard Warning, Construction Lending Agency Declaration and Final Declaration; and
(2) This permit is being obtained with the consent of the legal owner of the property.

SUPPLEMENTAL NOTES:

IMPORTANT NOTICE

* **Prior to the start of any construction work adjacent to any public way, pedestrian protection shall be provided (Sec. 91.3303 L.A.M.C.).**
* Inspection(s) may be requested anytime via the internet or touch tone phone. To request an inspection via the internet, go to www.ladbs.org and click on "Request an Inspection" under Online Services. To request an inspection via touch tone phone, call toll free (888) LA4BUILD (888-524-2845) and select option 1 for Automated Request System. To request an inspection via the Customer Call Center, call 3-1-1 within the City of Los Angeles or (213) 473-3231 outside the City of Los Angeles between 7:00 a.m. and 10:00 p.m.. When requesting an inspection, the following are required: (1) The job address, (2) Type of inspection, (3) Use of building, (4) Permit number, (5) Phone number of a contact person should the department need to reach someone.
* Inspection requests received before 4:00 p.m. Monday through Friday (excluding holidays) will normally be made the next business day. Requests received after 4:00 p.m. will be made following the next business day. The Automated Inspection Call Back System (AICBS) will attempt to telephone the contact phone number to confirm the inspection.
* Permit fees provide for a limited number of inspections. A reinspection fee may be assessed when the work for which an inspection was requested is not complete, when the inspection record or plans are not available, or when there is failure to provide site access to department staff.
* No person shall perform any construction or repair work between the hours of 9:00 p.m. (6:00 p.m. grading) and 7:00 a.m. the following day which results in loud noises to the disturbance of persons occupying sleeping quarters in any dwelling, hotel, motel, apartment, or other place of residence (Sec. 41.40 L.A.M.C.).
* No person, other than an individual homeowner engaged in the repair or construction of his/her single-family dwelling, shall perform any construction or repair work of any kind upon any building or structure located on land developed with residential buildings or perform work within 500 feet of land so occupied, before 8:00 a.m. or after 6:00 p.m. on any Saturday or at any time on Sunday (Sec. 41.40 L.A.M.C.).
* Dust control measures to prevent dust from being blown or deposited over or upon any private property in any residential area must be implemented during any excavation or earth-moving phase of construction, sand blasting, or demolition.
* A separate permit from the State of California Division of Industrial Safety is required prior to starting certain work involving substantial risk to workers such as: construction or demolition exceeding 3 stories or 36 feet in height, or excavations or trenches over 5 feet in depth involving entry by workers.
* Building permits are valid for two years or expire on the 180th day from the date of issuance if the work permitted has not commenced. The department reserves the right to expire any permit where work has been suspended for a period of 180 days or more.
* Inspection services will not be provided when there is an unleashed dog on the premises.

Dear Mr. Bzoskie:

We have received your Public Records Act Request for records from the Department of Toxic Substances Control.

After a thorough review of our files we have found that no such records exist at this office pertaining to the sites/facilities referenced above.

We would also like to inform you about EnviroStor, a database that provides information and documents on over 5,000 DTSC cleanup sites. EnviroStor can be accessed at: http://www.envirostor.dtsc.ca.gov/public. Also, a computer is available in the Central Files of each DTSC Regional Office for use by community members to view EnviroStor.

If you have any questions or would like further information regarding your request, please contact me at (818) 717-6522.

Sincerely,

Glenn Castillo/aa
Regional Records Coordinator

Subject: Re: (515, 517, 525, 531 S VIRGIL AVE LOS ANGELES 90020)
From: "Rodriguez, Francisco" <Francisco.Rodriguez@fire.lacounty.gov>
Date: 4/5/18, 3:16 PM
To: "ryan.bzoskie@calenviro.com" <ryan.bzoskie@calenviro.com>

The Los Angeles County Fire Department, Health Hazardous Materials Division, being the custodian or keeper of records, certify that a thorough search for the records you requested has been carried out.

Re: ***(515, 517, 525, 531 S VIRGIL AVE LOS ANGELES 90020)***

This search revealed that no records were found for the above noted address(es).

It should be understood that this does not mean that the records you requested do not exist. It is possible that such records may be misfiled; exist under another spelling, another name, or may have been destoyed based on this Department's Record Retention Policy. However, with the information furnished to our office, and to the best of our knowledge, no records were located.

If you have any questions regarding your request, please contact our office at *310-348-1781*.

Subject: Re: (518, 526 S WESTMORELAND AVE LOS ANGELES 90020)
From: "Rodriguez, Francisco" <Francisco.Rodriguez@fire.lacounty.gov>
Date: 4/5/18, 3:16 PM
To: "ryan.bzoskie@calenviro.com" <ryan.bzoskie@calenviro.com>

The Los Angeles County Fire Department, Health Hazardous Materials Division, being the custodian or keeper of records, certify that a thorough search for the records you requested has been carried out.

Re: ***(518, 526 S WESTMORELAND AVE LOS ANGELES 90020)***

This search revealed that no records were found for the above noted address(es).

It should be understood that this does not mean that the records you requested do not exist. It is possible that such records may be misfiled; exist under another spelling, another name, or may have been destoyed based on this Department's Record Retention Policy. However, with the information furnished to our office, and to the best of our knowledge, no records were located.

If you have any questions regarding your request, please contact our office at *310-348-1781.*

Re: File Review for

515, 517, 525, 531 South Virgil Avenue & 518, 526 South Westmoreland Street,
Los Angeles, CA 90020

I am requesting to review any UST, Site Clean-up Program (former SLIC) Unit, and SLIC 2 (former WIP) files you may have for the above referenced site. At your earliest convenience, please contact the undersigned and advise when an appointment to review the files is possible. If no file is found, please provide a written statement to ryan.bzoskie@calenviro.com or via fax 818-991-1544.

Thank you for your assistance,

Ryan Bzoskie

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E 2247-16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E 1528-14) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

A review of the SEMS-ARCHIVE list, as provided by EDR, and dated 12/11/2017 has revealed that there is 1 SEMS-ARCHIVE site within approximately 0.5 miles of the target property.

EXECUTIVE SUMMARY

Federal RCRA generators list

RCRA-LQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

A review of the RCRA-LQG list, as provided by EDR, and dated 12/11/2017 has revealed that there are 2 RCRA-LQG sites within approximately 0.25 miles of the target property.

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 12/11/2017 has revealed that there are 7 RCRA-SQG sites within approximately 0.25 miles of the target property.

RCRA-CESQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

A review of the RCRA-CESQG list, as provided by EDR, and dated 12/11/2017 has revealed that there is 1 RCRA-CESQG site within approximately 0.25 miles of the target property.

State- and tribal - equivalent CERCLIS

CA ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the CA ENVIROSTOR list, as provided by EDR, and dated 01/30/2018 has revealed that there are 28 CA ENVIROSTOR sites within approximately 1 mile of the target property.

State and tribal leaking storage tank lists

CA LUST: Leaking Underground Storage Tank (LUST) Sites included in GeoTracker. GeoTracker is the Water Boards data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

A review of the CA LUST list, as provided by EDR, has revealed that there are 26 CA LUST sites within approximately 0.5 miles of the target property.

Facility Status: Remediation

State and tribal registered storage tank lists

CA UST: The Underground Storage Tank database contains registered USTs. USTs are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The data come from the State Water Resources Control Board's Hazardous Substance Storage Container Database.

A review of the CA UST list, as provided by EDR, has revealed that there are 3 CA UST sites within approximately 0.25 miles of the target property.

Local Lists of Registered Storage Tanks

CA SWEEPS UST: Statewide Environmental Evaluation and Planning System. This underground storage tank listing was updated and maintained by a company contacted by the SWRCB in the early 1990's. The listing is no longer updated or maintained. The local agency is the contact for more information on a site on the SWEEPS list.

A review of the CA SWEEPS UST list, as provided by EDR, and dated 06/01/1994 has revealed that there are 13 CA SWEEPS UST sites within approximately 0.25 miles of the target property.

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 12/11/2017 has revealed that there is 1 RCRA NonGen / NLR site within approximately 0.25 miles of the target property.

EXECUTIVE SUMMARY

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there are 10 EDR Hist Auto sites within approximately 0.125 miles of the target property.

EDR Hist Cleaner: EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Cleaner list, as provided by EDR, has revealed that there are 2 EDR Hist Cleaner sites within approximately 0.125 miles of the target property.

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System

NCDB (National Compliance Data Base) supports implementation of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Toxic Substances Control Act (TSCA). The system tracks inspections in regions and states with cooperative agreements, enforcement actions, and settlements.

TSCA SUBMITTER

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

US EPA RACT/BACT/LAER Clearinghouse (RBLC) database contains case-specific information on the "Best Available" air pollution technologies that have been required to reduce the emission of air pollutants from stationary sources (e.g., power plants, steel mills, chemical plants, etc.). RACT, or Reasonably Available Control Technology, is required on existing sources in areas that are not meeting national ambient air quality standards. BACT, or Best Available Control Technology, is required on major new or modified sources in clean areas. LAER, or Lowest Achievable Emission Rate, is required on major new or modified sources in non-attainment areas.

Biennial Reports:

Last Biennial Reporting Year: 2017

Annual Waste Handled:
Waste code: D001
Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.
Amount (Lbs): 602

Waste code: D002
Waste name: A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH, IS OFTEN USED BY INDUSTRIES TO CLEAN

WALGREENS #5879 (Continued) **1016954313**

OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE DISPOSED, THE WASTE WOULD BE A CORROSIVE HAZARDOUS WASTE.

Amount (Lbs): 217

Waste code: D007
Waste name: CHROMIUM

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Completed Sub Area Name: Not reported
Completed Document Type: Operations and Maintenance Report
Completed Date: 05/28/2009
Comments: DTSC reviewed the Operation and Maintenance report and noted that certain activities be incorporated in future O&M reports.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Operations and Maintenance Report
Completed Date: 05/28/2009
Comments: DTSC reviewed the Operation and Maintenance report and noted that certain activities be incorporated in future O&M reports.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Operations and Maintenance Report
Completed Date: 09/01/2009
Comments: DTSC reviewed the Operation and Maintenance report and requested that its comments be addressed by 09/15/2009.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Operations and Maintenance Report
Completed Date: 09/21/2009
Comments: DTSC reviewed the Operation and Maintenance Report and noted that an action should be taken prior to the next monitoring event. In addition, DTSC noted it had not received a response to comments on the previous O&M report and requested a response by September 24, 2009.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Operations and Maintenance Report
Completed Date: 12/10/2009
Comments: DTSC concurred with the recommendations of the Operation and Maintenance Report and requested a response to one comment by December 31, 2009.

COMMONWEALTH ELEMENTARY SCHOOL ADDITION (Continued) **S113012696**

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Operations and Maintenance Report
Completed Date: 03/01/2010
Comments: DTSC concurred with the recommendations of the Operation and Maintenance Report and requested a response to four comments by March 15, 2010.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Public Participation Plan / Community Relations Plan
Completed Date: 05/01/2002
Comments: DTSC approved the Public Participation Plan, dated May 2002.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Operations and Maintenance Report
Completed Date: 06/15/2010
Comments: DTSC concurred with the recommendations of the Operation and Maintenance Report and noted discrepancies between the paper and electronic copies of the Report. DTSC pointed out that the paper copy and the electronic copy of all submittals provided to DTSC be accurate and consistent with each other.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Operations and Maintenance Report
Completed Date: 11/17/2010
Comments: DTSC concurred with the recommendations of the Operation and Maintenance Report.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: 5 Year Review Reports
Completed Date: 06/15/2011
Comments: DTSC provided two comments on the Report that should be addressed in future reports. DTSC also concurred with the recommendations to reduce O&M activities to an annual basis and to remove soil vapor probe MW-1-28 from routine monitoring activities; however, monitoring should continue at soil vapor probe MW-4-15.

FINDS:

Registry ID: 110012247899

Environmental Interest/Information System

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.
