Attention: Brian Bencz

Subject: ASTM Phase I Environmental Site Assessment
Polaris Place
1-5 Polaris Way
Aliso Viejo, California

Dear Mr. Bencz:

The enclosed report presents the results of a Phase I Environmental Site Assessment (Phase I) conducted at the above-referenced property, located at 1-5 Polaris Way, in Aliso Viejo, CA (herein referred to as the "subject property"). This work was performed by Haley & Aldrich, Inc. (Haley & Aldrich), in accordance with a request from Lennar Homes of California, LLC on February 9, 2025 ("Agreement"). This Phase I was conducted in conformance with the scope and limitations of the ASTM International (ASTM) E1527-21 Standard Practice for Environmental Site Assessments.[1]

The objective of a Phase I is to assess whether known and/or suspect recognized environmental conditions (RECs), controlled RECs (CRECs), or historical RECs (HRECs) are associated with the subject property, as defined in the ASTM E1527-21 Standard.

This Phase I has revealed no evidence of RECs associated with the subject property. Thank you for the opportunity to perform these services for you. Please do not hesitate to contact us if you have any questions or comments.

Sincerely yours,
HALEY & ALDRICH, INC.

David E. Rother
Project Geoscientist

Kelly Hoggan, P.G. 9026 (CA)
Program Manager

[1] The ASTM Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process (ASTM E1527-21 Standard) as referenced in Code of Federal Regulations Title 40 Part 312 (the All Appropriate Inquiries Rule).

Executive Summary

Haley & Aldrich, Inc. (Haley & Aldrich) erformed a Phase I Environmental Site Assessment (Phase I) of the property located at 1-5 Polaris Way in Aliso Viejo, California (herein referred to as the "subject property"). This Phase I was performed for Lennar Homes of California, LLC to support the potential purchase and redevelopment of the subject property. This Phase I was performed in conformance with the scope and limitations of the ASTM International (ASTM) E1527-21 Standard and All Appropriate Inquiries (AAI) Rule.

SUBJECT PROPERTY DESCRIPTION

The subject property comprises five adjoining Accessor's Parcel Numbers, including 623-481-49, 623-481-50, 623-481-51, 623-481-52, and 623-481-53, totaling 21.64 acres. The subject property is currently developed as an office park with five buildings. In addition to the five structures, there are asphalt-paved parking lots and landscaped areas. The subject property is located to the northeast of California State Route 73 and south of Aliso Viejo Parkway.

OBJECTIVE

The objective of a Phase I is to assess whether recognized environmental conditions (RECs), controlled RECs (CRECs), or historical RECs (HRECs) are associated with the subject property. Our conclusions are intended to help the user evaluate the business environmental risk associated with the subject property. Our opinion regarding a REC's potential impact on the subject property is based on the scope of our work, the information obtained during the course of our work, the conditions prevailing at the time our work was performed, the applicable regulatory requirements in effect at the time our work was performed, our experience evaluating similar sites, and on our understanding of the client's intention to provide environmental due diligence consulting services to support the redevelopment of the subject property.

SIGNIFICANT DATA GAPS

Our ability to identify and evaluate RECs at the subject property is conditioned upon significant data gaps identified as part of this Phase I. The ASTM E1527-21 Standard defines a significant data gap as a data gap that affects the ability of the Environmental Professional to identify a REC.

No significant data gaps were identified during the performance of this Phase I. Thus, it is our opinion that sufficient information was obtained to identify subject property conditions indicative of releases or threatened releases of hazardous substances and petroleum hydrocarbons. Our opinion is limited by the conditions prevailing at the time our work is performed and the applicable regulatory requirements in effect.

RECOGNIZED ENVIRONMENTAL CONDITIONS

The ASTM E1527-21 Standard defines a REC as: (1) the presence of hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to a release or likely release to the environment; or (3) the presence of hazardous substances or petroleum products in, on,

or at the subject property under conditions that pose a material threat of a future release to the environment.

RECs were not identified in connection with the subject property.

CONTROLLED RECOGNIZED ENVIRONMENTAL CONDITIONS

The ASTM E1527-21 Standard defines a CREC as a REC resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority or authorities with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls.

CRECs were not identified in connection with the subject property.

HISTORICAL RECOGNIZED ENVIRONMENTAL CONDITIONS

The ASTM E1527-21 Standard defines an HREC as a previous release of hazardous substances or petroleum products affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities and meeting unrestricted use criteria established by the applicable regulatory authority or authorities without subjecting the subject property to any controls. A historical recognized environmental condition is not a recognized environmental condition.

HRECs were not identified in connection with the subject property.

DE MINIMIS CONDITIONS

The ASTM E1527-21 Standard defines a *de minimis* condition as a condition related to a release that generally does not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. The ASTM E1527-21 Standard notes that conditions determined to be *de minimis* are not recognized environmental conditions.

The *de minimis* condition listed below was identified in connection with the subject property:

- **De Minimis #1:** Staining was observed beneath the hydraulic hose line attached to the trash bailer. According to subject property personnel, the staining occurred from removal of the hose during routine servicing of the trash bailer. Due to the age of the building, polychlorinated biphenyls are not anticipated to be present in the hydraulic equipment.

SUMMARY AND RECOMMENDATIONS

We did not identify RECs, CRECs, or HRECs during this Phase I.

The remainder of this report contains additional information regarding the Phase I, the resulting findings summarized above, and limitations affecting this report.

Continued Viability of Environmental Site Assessment

In accordance with the ASTM E1527-21 Standard, the following components of the Phase I Report must be conducted or updated within 180 days prior to the date of acquisition or prior to the date of the transaction:

1. Interviews with owners, operators, and occupants. Completed on: April 17, 2026.
2. Searches for recorded environmental cleanup liens (a user responsibility). Completed on: February 10, 2026.
3. Reviews of federal, tribal, state, and local government records. Completed on: February 10, 2026.
4. Visual inspections of the subject property and of adjoining properties. Completed on: April 17, 2026.
5. The declaration by the Environmental Professional responsible for the assessment or update (refer to Section 9). Completed on May 1, 2026.

1. Introduction

This report presents the results of an ASTM International (ASTM) Phase I Environmental Site Assessment (Phase I) conducted at 1-5 Polaris Way located in Aliso Viejo, California (herein referred to as the "subject property"). The approximately 21.64-acre subject property is developed with five structures, asphalt-paved parking lots, and landscaped areas, as shown in Figures 1 and 2. This Phase I was conducted to support Lennar Homes of California, LLC (Lennar) with the proposed purchase and redevelopment of the subject property.

1.1 OBJECTIVE

The objective of a Phase I is to assess whether recognized environmental conditions (RECs), controlled RECs (CRECs), or historical RECs (HRECs) are associated with the subject property by evaluating site history, interviews, existing observable conditions, current site use, and current and former uses of adjoining properties, as well as potential releases at surrounding properties that may impact the subject property. Our conclusions are intended to help the user evaluate the business environmental risk associated with the subject property.

The ASTM E1527-21 Standard defines a REC as: (1) the presence of hazardous substances[2] or petroleum products in, on, or at the subject property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to a release or likely release to the environment; or (3) the presence of hazardous substances or petroleum products in, on, or at the subject property under conditions that pose a material threat of a future release to the environment. The definitions of RECs, CRECs, and HRECs are included in the Glossary section of this report.

1.2 SCOPE OF SERVICES

This Phase I was performed by Haley & Aldrich, Inc. (Haley & Aldrich) in conformance with the scope and limitations of the ASTM E1527-21 Standard and All Appropriate Inquiries (AAI) Rule[3] and in accordance with a request from Lennar on February 9, 2026 ("Agreement"). The Phase I limitations are attached hereto as Appendix A.

As part of this Phase I, Haley & Aldrich conducted visual observations of site conditions and of abutting property use, and interviewed a key site manager and applicable tenant representatives (subject property reconnaissance); reviewed federal, state, tribal, and local environmental database information, federal and state environmental files, previous reports (if identified and provided), and site historical use records; and formulated conclusions regarding the potential presence and impact of RECs.

[2] Hazardous substances as defined by the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) include Clean Water Act (CWA) hazardous substances, CWA toxic pollutants, Clean Air Act hazardous air pollutants, Resource Conservation and Recovery Act (RCRA) hazardous wastes, and other contaminants. As of April 19, 2024, CERCLA-defined hazardous substances include per- and polyfluoroalkyl substances (PFAS).

[3] ASTM International (ASTM) E1527-21 Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process as referenced in 40 Code of Federal Regulations (CFR) Part 312 (the All Appropriate Inquiries [AAI] Rule) ("ASTM E1527-21 Standard"). Specified terms as are used in ASTM E1527-21 Standard are highlighted in blue in this report and defined in the Glossary at the end of the report text.

1.3 NON-SCOPE CONSIDERATIONS

The ASTM E1527-21 Standard includes the following list of "additional issues" that are non-scope considerations outside of the scope of the ASTM Phase I practice: asbestos-containing materials, biological agents, cultural and historic resources, ecological resources, endangered species, health and safety, indoor air quality related to release of hazardous substances or petroleum products into the environment, industrial hygiene, lead-based paint unrelated to releases into the environment, lead in drinking water, mold or microbial growth conditions, polychlorinated biphenyl (PCB)-containing materials, naturally occurring radon, regulatory compliance, substances not defined as hazardous substances, and wetlands. These items were not included in this Phase I of the subject property.

The assessment of the presence of PCBs is limited to those potential sources specified in the ASTM E1527-21 Standard as "electrical or hydraulic equipment known or likely to contain PCBs…to the extent visually and or physically observed or identified from the interview or records review."

1.4 LIMITING CONDITIONS/DEVIATIONS

Haley & Aldrich completed this Phase I in substantial conformance with the ASTM E1527-21 Standard. In our opinion, no additions were made to, or deviations or deletions made from, the ASTM work scope in completing this Phase I.

1.5 USER RESPONSIBILITIES

The completion of this Phase I is only one component of the process required to satisfy the AAI Rule. In addition, the user must adhere to a set of user responsibilities as defined by the ASTM E1527-21 Standard and the AAI Rule. User responsibilities are discussed in Section 6.6 of this report. A user seeking protection from Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) liability as an innocent landowner, bona fide prospective purchaser, or contiguous property owner must complete all components of the AAI process in addition to meeting ongoing obligations. AAI components, CERCLA liability relief, and ongoing obligations are discussed in the AAI Rule and in Appendix X1 of the ASTM E1527-21 Standard.

2. Site Description

A description of the subject property is detailed in the sections below. Refer to Figure 1 for a Project Locus and Figure 2 for a Site Plan showing relevant subject property features and adjacent properties.

2.1 SITE OWNERSHIP, LOCATION, AND VICINITY DESCRIPTION

Site Description		
Owner	1 Polaris Way: BPM Investments LLC 2 and 3 Polaris Way: TR Polaris LLC 4 Polaris Way: Drawbridge 4 Polaris Way LLC 5 Polaris Way: Drawbridge 5 Polaris Way LLC	
Occupant	Occupants of 1 Polaris Way include Marsh & McLennan Agency and NC Orange County (NCWest) Occupants of 2 Polaris Way include Fluor Corporation Occupants of 3 Polaris Way include Capstone Federal Credit Union and Acrisure Aliso Viejo, California (The LBL Group) Buildings located at 4 and 5 Polaris Way are currently vacant.	
Current Subject Property Use	The subject property is currently a commercial office park.	
Size	21.64 acres	
USGS 7.5-Minute Topographic Map	San Juan Capistrano, 2022	
Site County	Orange County	
Zoning	Commercial	
Parcel Information	1 Polaris Way: 623-481-49 2 Polaris Way: 623-481-50 3 Polaris Way: 623-481-51 4 Polaris Way: 623-481-53 5 Polaris Way: 623-481-52	
Utilities	Water:	Moulton Niguel Water District
	Sewerage:	Moulton Niguel Water District
	Electricity:	Southern California Edison (SCE)
	Gas/Oil/LPG:	Southern California Gas
Heating/Cooling System	Roof-mounted air handlers	

Site Vicinity Description		
General Area Description	The subject property is currently developed and occupied by Quest Software, UST Global, Inc., Capstone Federal Credit Union, Fluor Corporation, and Marsh & McLennan Agency. The surrounding area is developed with commercial, industrial, and residential properties. The subject property is located to the east of California State Route 73 and south of Aliso Viejo Parkway.	
Adjoining Property Description	North:	Aliso Viejo Parkway, followed by commercial and industrial properties.
	East:	Residential properties
	South:	California State Route 73, followed by commercial properties.
	West:	Aliso Viejo Parkway and California State Route 73, followed by commercial properties.

2.2 PHYSICAL SETTING

Subsurface explorations and/or hydrogeologic investigations were not performed for this Phase I. Subject property geology and hydrology were evaluated on the basis of readily available public information or references, and/or based upon our experience and understanding of subsurface conditions in the vicinity of the subject property. It is unknown to what extent localized variations in groundwater depth and flow occur on the subject property.

Physical Setting		Source(s)
Topography Summary	The subject property is generally flat.	1, 2
Subject Property Elevation (El.)	Approximate El. 489 feet above sea level	1
Overburden Soils	According to the United States Department of Agriculture – Soil Conservation Series, soils found on the subject property are Calleguas clay loam. The Calleguas series loams have very slow infiltration rates, have a high water table, or are shallow to an impervious layer. They are well-drained with a very high runoff class.	1, 3
Depth to Groundwater	There are no known measurements of groundwater depth in the area. Depth is likely greater than 35 feet below ground surface based on reports from a nearby site to the south.	4
Surface Water Flow Direction	Surface water appears to flow toward the south based on the observed surface topography.	1
Regional Groundwater Flow Direction	Regional groundwater flow appears to flow to the south-southeast based on nearby surface water bodies.	1
Nearest Surface Water Body	Aliso Creek is located approximately 0.58 miles to the east of the subject property.	5

3. Previous Reports

The previously prepared reports and documents listed below were reviewed as part of this Phase I. Pertinent issues identified in those reports are summarized below and are included in Appendix B.

3.1 PHASE I ENVIRONMENTAL SITE ASSESSMENT (PHASE I ESA), SEPTEMBER 2025, PREPARED BY HALEY & ALDRICH, INC., PREPARED FOR LENNAR HOMES OF CALIFORNIA

Haley & Aldrich, Inc. performed a Phase I Environmental Site Assessment for the entire subject property in September 2025 (including 1-5 Polaris Way), in accordance with the ASTM E1527-13 and E1527-21 Standard Practice for Environmental Site Assessments. Haley & Aldrich did not discover any evidence of RECs, HRECs, or CRECs in connection with any of the parcels located at the subject property.

4. Subject Property History

Haley & Aldrich assessed past usage of the subject property and adjoining properties through a review of:

- Topographic Maps dated 1902, 1942, 1948, 1949, 1965, 1968, 1974, 1981, 2012, 2015, 2018, and 2022;
- Aerial Photographs dated 1938, 1946, 1952, 1963, 1967, 1972, 1974, 1981, 1989, 1994, 2002, 2005, 2009, 2012, 2016, 2020, and 2024;
- City Directories dated 1970, 1980, 1986, 1991, 1995, 1997, 2000, 2002, 2005, 2010, 2014, and 2022; and
- Building Permits.

Sanborn fire insurance maps did not provide coverage of the subject property area. Copies of information obtained from historical references reviewed are included in Appendix B. Unless otherwise noted below, per the ASTM standard, sources were reviewed dating back to 1940 or first developed use, whichever is earlier, and at five-year intervals if the use of the property has changed within the time period.

4.1 SUBJECT PROPERTY

The table below provides a detailed summary of pertinent information from the historical sources reviewed.

Dates	Description of Subject Property	Sources
1938 to 1989	The subject property appears vacant and undeveloped.	Aerial Photographs Topographic Maps
1994	The subject property appears to be divided into parcels, and a large access road has been built with ingress and egress on the northern side.	Aerial Photographs Topographic Maps
1998	Construction for the current commercial buildings on the subject property began.	Building Permits
2002 to Present	The previous roadway is no longer present, and the subject property appears in its current configuration, with five commercial office buildings and their associated parking lots and landscaped areas. The subject property was occupied by various commercial businesses between 2005 and the present, including Marsh & McLennan Agency, NCSoft Corporation at 1 Polaris Way, Fluor Corporation at 2 Polaris Way, Capstone Federal Credit Union and Acrisure Aliso Viejo at 3 Polaris Way, Quest Software at 4 Polaris Way, and Quest Software and UST Global Inc. at 5 Polaris Way.	Aerial Photographs Topographic Maps City Directory

4.2 ADJOINING PROPERTIES

The table below provides a summary of pertinent information from the historical sources reviewed regarding adjacent properties:

Dates	Description of Adjacent Properties	Sources
1938 to 1981	North: Undeveloped land South: Undeveloped land East: Undeveloped land West: Undeveloped land	Aerial Photographs
1989	North: Development of Aliso Viejo Parkway as a major road, followed by mixed commercial and industrial structures. South: Undeveloped land East: Undeveloped land West: Undeveloped land	Aerial Photographs
1994 to 2002	North: Development of Aliso Viejo Parkway as a major road, followed by mixed commercial and industrial structures. South: Development of California State Route 73, followed by commercial structures. East: Development of residential neighborhoods. West: Development of California State Route 73, followed by vacant lots.	Aerial Photographs
2005 to Present	North: Aliso Viejo Parkway, followed by mixed commercial and industrial structures. South: California State Route 73, followed by commercial structures. East: Residential properties West: California State Route 73, followed by commercial structures.	Aerial Photographs

5. Environmental Records Review

5.1 ENVIRONMENTAL DATABASE RECORDS SEARCH

Haley & Aldrich used an electronic database service[4], to complete the environmental records review. The database search was used to identify properties that may be listed in the referenced agency records, located within the ASTM-specified approximate minimum search distances as shown in the table below. A description of each database searched is provided in Section 11.2 of this report. The complete environmental database report is provided in Appendix C. Pertinent information obtained from the database is summarized in Section 5.3.

Database Searched	Approximate Minimum Search Distance	Subject Property Listed?	Number of Sites within Search Distance[1]
1. NPL Sites	1 mile	No	0
2. Delisted NPL Sites	0.5 miles	No	0
3. CERCLIS/SEMs[2] Sites	0.5 miles	No	0
4. CERCLIS-NFRAP/SEMs[2] Sites	0.5 miles	No	0
5. Federal ERNS	Site only	No	Not Applicable
6. RCRA non-CORRACTS TSD Facilities	0.5 miles	No	0
7. RCRA CORRACTS TSD Facilities	1 mile	No	0
8. RCRA Generators	Site & Adjoining	No	12
9. Federal Institutional/Engineering Controls	Site Only	No	Not Applicable
10. State/Tribal Equivalent NPL Sites	1 mile	No	0
11. Lists of state and tribal hazardous waste facilities[2]	0.5 miles	No	0
12. State/Tribal Registered Storage Tanks	Site & Adjoining	Yes	4
13. State/Tribal Landfills and Solid Waste Disposal Sites	0.5 miles	No	0
14. State/Tribal Leaking Storage Tanks	0.5 miles	No	3
15. State/Tribal Institutional Controls/Engineering Controls	Site Only	No	Not Applicable
16. State/Tribal Voluntary Cleanup Sites	0.5 miles	No	0
17. State/Tribal Brownfield Sites	0.5 miles	No	0
18. Orphan Site List[3]	Site & Adjoining	No	0
19. CERS[4]	Site Only	Yes	Not Applicable

Notes:

1. *Some sites may be included on multiple databases.*
2. *Formerly the Comprehensive Environmental Response, Compensation, and Liability Information System (CERCLIS) database.*
3. *Haley & Aldrich also searched the Orphan Site List provided in the database report for the subject property and sites adjoining the subject property. Orphan sites are those that, due to incorrect or incomplete addresses, could not be mapped.*
4. *If applicable, other relevant databases, not specifically required by ASTM were included in the database review.*

[4] Examples of electronic database services are EDR/Lightbox and ERIS.

5.2 ADDITIONAL ENVIRONMENTAL RECORDS OR FILE REVIEW

To supplement the environmental record search, we contacted the following state and local government agencies and searched applicable online databases. If copies of the documents reviewed were obtained, pertinent material is included in Appendix C. Relevant information obtained is included in the appropriate sections of the report and/or discussed in Section 5.3. Adjacent properties were also included in requests for additional information if a significant incident or release was identified. Those adjacent properties reviewed for this assessment include:

Agency	Request Sent or Files Searched		Files Exist and are Available for Review	Files Reviewed
	Subject Property	Adjoining Properties		
South Coast Air Quality Management District[1]	Yes	No	Yes	Yes

10. *The USEPA Analytic Tool database provides information on PFAS manufacture, release, and occurrence in the environment, as well as facilities handling PFAS.*

5.3 DETAILED DESCRIPTION OF RELEVANT INFORMATION

5.3.1 Subject Property

The subject property was listed in two databases in the database report, including: AST and CERS.

Listing	Description	Potential Impact
AST	The subject property was listed at 4 Polaris Way and the name was not reported. The subject property was listed in the aboveground storage tank (AST) database for a 1,320 gallon AST, registered to the owner, Quest Software. The contents of the AST were not reported.	There are no known historical documented releases associated with this listing. Therefore, it is unlikely to adversely affect the subject property and is not considered a REC.
CERS	The subject property is listed as Fluor located at 3 Polaris Way. The subject property is listed in the CERS database as a Chemical Storage Facility. Two violations have been found during compliance evaluation inspections. The first violation was found in November 2016, when hazardous materials exceeding the required disclosure quantities were found. The facility was required to electronically submit hazardous chemical inventory forms within 30 days; however, there is no indication of return to compliance. The second violation is from March 2025 when diesel (emergency generator) and propane (forklifts) were found on site at reportable quantities. However, there is a note that states hazardous materials disclosed in CERS match what is reported on site.	There are no known historical documented releases associated with this listing. Therefore, it is unlikely to adversely affect the subject property and is not considered a REC.

5.3.2 Nearby Sites

Several sites were listed in the database report within the applicable search radii or identified in regulatory records reviews. Due to their location with respect to the subject property (on the opposite side of a hydrogeologic barrier, distance from the site, location of the site relative to inferred groundwater flow, subsurface utilities and building levels, etc.), or their status (closed-out release, etc.), several of the sites are not likely to adversely affect the subject property and are not discussed herein. Only those sites adjacent to the subject property and sites with a potential to have impacted the subject property are discussed below. The complete database report and relevant records review information is included in Appendix C.

Property Name & Location	Database/ Record Identified	Description	Potential Impact to Subject Property
RXSight 75C, Zettler Systems, Microvention 75 Columbia Adjacent to the north and hydraulically upgradient of the subject property.	CERS HAZ WASTE CERS RCRA-SQG RCRA-LQG FINDS RCRA NonGen/NLR E MANIFEST	Listed in the CERS HAZ WASTE, RCRA-SQG, RCRA-LQG, FINDS, and E MANIFEST databases as a hazardous waste generator. Listed in the CERS database as a chemical storage facility. The property was evaluated eight times and no violations were found.	No spills or violations were found. This adjacent property is unlikely to adversely affect the subject property and is not considered a REC.
American Discount Cleaners 37 Pappagallo PT Approximately 468 feet to the east and hydraulically cross-gradient of the subject property.	EDR Hist Cleaner	Listed in the EDR Hist Cleaner database as a dry-cleaning plant from 2007 to 2012.	No spills or violations were found. This nearby property is unlikely to adversely affect the subject property and is not considered a REC.
Tesla Collision, Aliso Viejo Body Shop 41 Columbia Approximately 522 feet north and hydraulically upgradient of the subject property.	CERS HAZ WASTE CERS RCRA-SQG E MANIFEST	Listed in the CERS HAZ WASTE, RCRA-SQG, and E MANIFEST database as a hazardous waste generator. Listed in the CERS database as a chemical storage facility. The property was evaluated four times and no violations were found.	No spills or violations were found. This nearby property is unlikely to adversely affect the subject property and is not considered a REC.

Property Name & Location	Database/ Record Identified	Description	Potential Impact to Subject Property
RXSight, Inc. 100 Columbia Approximately 543 feet north and hydraulically upgradient of the subject property.	CERS HAZ WASTE HWTS CERS RCRA-SQG E MANIFEST ECHO PFAS ECHO	Listed in the CERS HAZ WASTE database as a hazardous waste generator. Listed in the HWTS database in 2018 but no additional information was provided. Listed in the CERS database as a chemical storage facility. The property was evaluated 14 times and no violations were found. Listed in the RCRA-SQG database as a small quantity generator (SQG) for waste descriptions that include, ignitable, corrosive, and reactive waste, chloroform, and halogenated and non-halogenated solvents. No violations were found. Listed in the PFAS ECHO database as a metal machinery manufacturer with no violations.	No spills or violations were found. This nearby property is unlikely to adversely affect the subject property and is not considered a REC.
Prestige Cleaners DBA Laurie's Laundry 23411 Aliso Viejo Parkway Approximately 633 feet to the northeast and hydraulically cross-gradient of the subject property.	CERS HAZ WASTE DRYCLEANERS HAZNET CERS	Listed in the CERS HAZ WASTE database as a hazardous waste generator. Listed in the DRYCLEANERS database in 1991 and 2011. Listed in the HAZNET database for California Waste Code 213 for hydrocarbon solvents (benzene, hexane, Stoddard, etc.). Listed in the CERS database as a chemical storage facility. The property was evaluated 15 times and three violations were found for not remaining in compliance with annual certification requirements and the presence of materials on site in reportable quantities without disclosure.	No spills or major violations were found. This nearby property is unlikely to adversely affect the subject property and is not considered a REC.

Property Name & Location	Database/ Record Identified	Description	Potential Impact to Subject Property
Exxon Mobil Oil Corporation 23431 Laguna Hills Approximately 675 feet to the east and hydraulically cross-gradient of the subject property.	UST FINDER RELEASE RCRA-SQG SWEEPS UST CA FID UST LUST CORTESE CERS UST GeoTracker	Listed in GeoTracker as a LUST Cleanup Site with case closure in 2001. The potential contaminants and media of concern were gasoline and soil, respectively. Listed in the RCRA-SQG database and no violations were found. Listed in the SWEEPS UST database for four 10,000 underground storage tanks (USTs) housing diesel and regular unleaded fuels. Listed in the CORTESE database as a LUST Cleanup Site with a status of case closed. Listed in the CERS database as a leaking UST cleanup site.	Due to the closure status and the cross-gradient location of this property, it is unlikely to adversely impact the subject property and is not considered a REC.
Neogenomics Laboratory 31 Columbia Approximately 841 feet north northwest and hydraulically upgradient of the subject property.	CERS HAZ WASTE CERS TANKS CERS RCRA-LQG E MANIFEST	Listed in the CERS HAZ WASTE database as a hazardous waste generator. Listed in the CERS TANKS database as an aboveground petroleum storage site. Listed in the CERS database as a chemical storage facility. The property was evaluated 61 times and three violations were found. Listed in the RCRA-LQG database for hazardous waste, including ignitable, corrosive, and reactive waste, mercury, benzene, methyl ethyl ketone, lab packs, spent non-halogenated solvents, sodium azide, formaldehyde, 2-propanone, methanol, and benzene. A violation was received in January 2025 with a description of “Significant Non-Complier,” the specific violation(s) were not reported.	Due to the distance from the subject property, this nearby property is unlikely to adversely affect the subject property and is not considered a REC.

Property Name & Location	Database/ Record Identified	Description	Potential Impact to Subject Property
Circle K Stores Inc. 23431 Aliso Viejo Parkway Approximately 863 feet east northeast and hydraulically cross-gradient of the subject property.	UST FINDER RCRA-NonGen / NLR E MANIFEST UST CERS HAZ WASTE CERS TANKS HWTS HAZNET CERS	Listed in the UST FINDER database for four 10,000-gallon diesel and gasoline tanks. Listed in the RCRA NonGen/NLR database but no violations were found. Listed in the CERS HAZ WASTE database as a hazardous waste generator. Listed in the CERS TANKS database for a UST. Listed in HWTS database in 2011 with a facility status of active. Listed in the HAZNET database 16 times for CA Waste Codes, including aqueous solution with total organic residues less than 10 percent and other organic solids. Listed in the CERS database as a chemical storage facility. The property was evaluated 73 times and eight violations were found. The property returned to compliance within a few months for each violation.	No spills or major violations were found. This nearby property is unlikely to adversely affect the subject property and is not considered a REC.

5.4 VAPOR MIGRATION

The ASTM E1527-21 Standard states that "for the purposes of this practice, “migrate” and “migration” refer to the movement of hazardous substances or petroleum products in any form, including, for example, solid and liquid at the surface or subsurface, and vapor in the subsurface." Thus, this section specifies whether or not we perceive a risk of vapor migration to the subject property.

To assess a vapor migration risk, Haley & Aldrich conducted a detailed review and analysis of the site-specific environmental database report and/or other reasonably ascertainable records to assess whether:

1. Off-site properties have documented chlorinated volatile organic compound (VOC) contamination located, specifically, the edge of the contamination plume, within 100 feet of the subject property boundary; or
2. Off-site properties have a documented volatile petroleum hydrocarbon (VPH) contamination plume within 30 feet of the subject property boundary.

Based on our records review, it is unlikely that a potential source of vapor migration currently exists beneath the subject property.

6. Subject Property Reconnaissance and Key Personnel Interview(s)

A site visit to observe subject property conditions was conducted by Karlo Peralta of Haley & Aldrich on April 17, 2026. Access to the subject property was provided by property managers Pierre Masson, Sophia Nguyen, and Christina Bowren.

Haley & Aldrich personnel observed accessible interior areas of the subject property building(s), including common areas, basement areas, mechanical spaces, and tenant spaces. Haley & Aldrich also observed the exterior portions of the subject property, including the property boundaries, and observed adjoining property conditions from the subject property boundaries and/or public thoroughfares. No weather-related conditions or other conditions that would limit our ability to observe the subject property or adjoining properties occurred during our site visit.

An interview with Pierre Masson of BPM Investments, LLC, Sophia Nguyen of LCP West, Inc., and Christina Bowren of Drawbridge 4 and 5 Polaris Way, LLC, the key site managers, were performed in conjunction with the site visit. Tenants were not available for interview during the time of the site assessment. Per the ASTM Standard, past owners, operators, and occupants of the subject property who are likely to have material information regarding the potential for contamination at the subject property shall be contacted to the extent that they can be identified and that the information likely to be obtained is not duplicative of information already obtained from other sources. Haley & Aldrich was not provided with contact information to interview past owners and/or operators at the subject property. Based upon historical data collected from other sources, this potential data gap is not expected to adversely impact the results of this assessment.

The findings of the site visit and interviews are discussed below. Subject property photographs are included in Appendix D.

ASTM E1527-21 Standard Section 10.8 requires that, prior to the site visit, the current subject property owner or key site manager and user, if different from the current owner or key site manager, be asked if there are any helpful documents that can be made available for review. Documents were not provided.

6.1 CURRENT USE OF THE SUBJECT PROPERTY

The subject property is currently occupied for commercial office use. The buildings at 4 and 5 Polaris Way are currently vacant. Typical on-site operations include general office and administrative activities and routine property storage and landscaping activities. Light maintenance on mechanical functions of the buildings are performed in the basement of 3 Polaris Way. There did not appear to be any chemical storage or use of any hazardous materials pertaining to the maintenance operations.

The 3 Polaris Way building was previously equipped with a full-size kitchen on the ground floor. This kitchen is in the process of being removed and renovated for additional general office space.

6.2 GENERAL DESCRIPTION OF STRUCTURES

The subject property is currently developed with three four-story commercial office buildings and two three-story commercial office buildings, including a basement level within the 3 Polaris Way building. The subject property is improved with asphalt-paved parking areas, concrete flatwork, and landscaped common areas.

6.3 USE, STORAGE, AND DISPOSAL OF PETROLEUM PRODUCTS AND HAZARDOUS MATERIALS

Petroleum products and/or hazardous materials were observed or reported to be used, stored, and/or disposed of at the subject property as described below:

A backup diesel generator is located on the eastern side of 3 Polaris Way. The backup generator is equipped with a 1,000-gallon capacity diesel belly tank. According to the on-site personnel, the generator is serviced quarterly and is tested once per month. No signs of stains, leaks, or releases were observed in the vicinity of the backup generator.

A storage cabinet was observed in the exterior mechanical area of 3 Polaris Way, containing six 10-gallon gasoline safety canisters and multiple retail-sized containers of motor oil. The gas canisters and motor oil appeared to be stored in good condition with no signs of leaks, stains, or releases.

Universal waste, such as electronic waste, was observed in the exterior mechanical area of 3 Polaris Way.

Multiple 1-gallon and 5-gallon containers of paint and other maintenance supplies were observed to the east of the 3 Polaris Way building. These materials did not appear to be stored in secondary containment; however, no signs of stains, leaks, or releases were observed in the vicinity.

Multiple 5-gallon buckets of gear oil were observed within the elevator equipment rooms of each of the on-site buildings. No signs of leaks, stains, or releases were observed in the vicinity of the gear oil.

6.4 OTHER SUBJECT PROPERTY OBSERVATIONS

The table below summarizes items that were observed and/or reported at the subject property during the site visit other than those items related to use, storage, and/or disposal of petroleum or hazardous materials (described in Section 6.3 above). If items were observed or reported, they are further described either in the table or below.

Description	Observed or Reported at Time of Site Visit	Observations/Comments
Potable Water Supply	Yes	The subject property is connected to the municipal water supply, Moulton Niguel Water District.
Nearest Drinking Water Source	No	
Sewage Disposal System	Yes	The subject property is connected to the municipal sewer system, Moulton Niguel Water District.
Septic System	No	
Unidentified Storage Containers	No	
Wastewater Discharge	No	Two former grease interceptors were observed.
Stormwater Discharge	No	
Odors	No	

Description	Observed or Reported at Time of Site Visit	Observations/Comments
PCBs Associated with Electrical or Hydraulic Equipment	No	A trash bailer and cardboard compactor are present on the subject property; however, due to the age of the buildings, PCBs are not anticipated to be present in the materials.
Elevators (Traction or Hydraulic)	Yes	A rooftop pulley system for elevator equipment (i.e., for traction) was observed.
Vehicle Maintenance Lifts	No	
Emergency Generators	Yes	Backup generator was observed to the east of 3 Polaris Way.
Sprinkler System Pumps	Yes	
Heating System	Yes	Heating, ventilation, and air conditioning (HVAC) units are mounted on the roof.
Cooling System	Yes	HVAC units are mounted on the roof.
Stains or Corrosion on Floors, Walls, or Ceilings	Yes	A trash bailer and cardboard compactor were observed to the east of 3 Polaris Way. A small 2-foot by 2-foot area of concrete appeared to be stained beneath the hydraulic hose line attached to the trash bailer. According to subject property personnel, the staining occurred from removal of the hose during routine servicing of the trash bailer.
Floor Drains	Yes	Plugged floor drains were observed within the former kitchen.
Sumps	Yes	
Catch Basins	No	
Pits, Ponds, Lagoons, and Pools of Liquid	No	
Stained Soil or Pavement	No	
Stressed Vegetation	No	
Solid Waste and Evidence of Waste Filling	No	
Dry Wells	No	
Monitoring Wells	No	
Water Supply Wells	No	
Irrigation Wells	No	
Injection Wells	No	
Abandoned Wells	No	

Two grease interceptors were observed to the east of 3 Polaris Way. According to subject property personnel, the interceptors were formerly used to service the grease waste associated with the former kitchen. The interceptors have been decommissioned and out of service for at least five to six years.

6.5 ADJOINING PROPERTY OBSERVATIONS

The subject property is adjoined by multiple commercial office and multi-family residential properties. No environmental concerns associated with the adjoining properties were observed during the time of the site assessment.

6.6 USER RESPONSIBILITIES

The AAI Rule requires that the user of the report consider the following:

- Whether the user has specialized knowledge about previous ownership or uses of the subject property that may be material to identifying RECs;
- Whether the user has determined that the subject property's title contains environmental liens or other information related to the environmental condition of the property, including engineering and institutional controls and Activity and Use Limitations (AULs), as defined by ASTM;
- Whether the user is aware of commonly known or reasonably ascertainable information about the subject property including whether or not the presence of contamination is likely on the subject property and to what degree it can be detected; and
- Whether the user has prior knowledge that the price of the subject property has been reduced for environmentally related reasons.

While such information is not required to be provided by the Environmental Professional(s), the information can assist the Environmental Professional in identifying RECs. The AAI Final Rule (Code of Federal Regulations Title 40 [40 CFR] Part 312) requires that these tasks be performed by or on behalf of a party seeking to qualify for one of the Landowner Liability Protections (LLPs) to CERCLA liability.

Haley & Aldrich was not provided with a completed user responsibilities questionnaire; this potential data gap is not expected to adversely impact the results of this assessment.

7. Findings and Opinions

7.1 SIGNIFICANT DATA GAPS

Our ability to identify and evaluate RECs at the subject property is conditioned upon significant data gaps identified as part of this Phase I. The ASTM E1527-21 Standard defines a significant data gap as a data gap that affects the ability of the Environmental Professional to identify a REC.

No significant data gaps were identified during the performance of this Phase I. Thus, it is our opinion that sufficient information was obtained to identify subject property conditions indicative of releases or threatened releases of hazardous substances and petroleum hydrocarbons. Our opinion is limited by the conditions prevailing at the time our work is performed and the applicable regulatory requirements in effect.

7.2 RECOGNIZED ENVIRONMENTAL CONDITIONS

The ASTM E1527-21 Standard defines a REC as: (1) the presence of hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to a release or likely release to the environment; or (3) the presence of hazardous substances or petroleum products in, on, or at the subject property under conditions that pose a material threat of a future release to the environment.

Our opinion regarding a REC's potential impact on the subject property is based on the scope of our work, the information obtained during the course of our work, the conditions prevailing at the time our work was performed, the applicable regulatory requirements in effect at the time our work was performed, our experience evaluating similar sites, and on our understanding of the client's intended use for the subject property.

RECs were not identified in connection with the subject property.

7.3 CONTROLLED RECOGNIZED ENVIRONMENTAL CONDITIONS

The ASTM E1527-21 Standard defines a CREC as a REC resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority or authorities with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls.

CRECs were not identified in connection with the subject property.

7.4 HISTORICAL RECOGNIZED ENVIRONMENTAL CONDITIONS

The ASTM E1527-21 Standard defines an HREC as “a previous release of hazardous substances or petroleum products affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities and meeting unrestricted use criteria established by the applicable regulatory authority or authorities without subjecting the subject property to any controls. A historical recognized environmental condition is not a recognized environmental condition.

HRECs were not identified in connection with the subject property.

7.5 DE MINIMIS CONDITIONS

The ASTM E1527-21 Standard defines a *de minimis* condition as a condition related to a release that generally does not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. The ASTM E1527-21 Standard notes that conditions determined to be *de minimis* are not recognized environmental conditions.

The *de minimis* condition listed below was identified in connection with the subject property:

- **De Minimis #1:** Staining was observed beneath the hydraulic hose line attached to the trash bailer. According to subject property personnel, the staining occurred from removal of the hose during routine servicing of the trash bailer. Due to the age of the building, PCBs are not anticipated to be present in the hydraulic equipment.

8. Conclusions

We have performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of the ASTM Practice E1527 of 1, 2, 3, 4, and 5 Polaris Way, the subject property. Any exceptions to or deletions from this practice are described in Section 1.4 of this report.

This assessment has revealed no evidence of RECs in connection with the subject property. We do not recommend additional assessment at this time.

9. Environmental Professional Certification

The undersigned declare the following:

I declare that, to the best of my professional knowledge and belief, I meet the definition of Environmental Professional as defined in §312.10 of 40 CFR Part 312; and

I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. I have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

Kelly Hoggan, P.G. 9026 (CA)
Program Manager

10. Credentials

This Phase I report was prepared by David Rother, under the direct supervision of Kelly Hoggan, who served as the Environmental Professional(s) for this project. Qualification information for the project personnel is provided below.

DAVID ROTHER, Ph.D.
Project Geologist
This report was prepared by David Rother. Dr. Rother has approximately one year of experience in Phase I Environmental Site Assessments for due diligence purposes. The ESAs were performed for vacant properties, commercial, and industrial properties. As a geoscientist in the Resilience Group, he primarily is involved in evaluating and preparing climate vulnerability assessments, water audit reports, and energy security risk assessments.

KELLY HOGGAN, P.G. 9026 (CA)
Program Manager
Ms. Hoggan is a professional geologist with the state of California with more than 20 years of experience in combined consulting and environmental investigation experience. As a geologist and project manager in the Manufacturing Group, Ms. Hoggan is involved in a variety of projects, including long-term environmental projects at large industrial sites from the investigation phase to implementing cleanup action and closure reports. Her responsibilities have included soil, soil vapor, and groundwater investigation activities; planning, oversight, and coordination of subcontractors and site activities; data interpretation and report preparation; and interaction with clients, offsite property owners, permitting agencies, and regulators.

11. Glossary and Other Descriptions

11.1 GLOSSARY

All Appropriate Inquiry (AAI) — that inquiry constituting "all appropriate inquiry into the previous ownership and uses of the property consistent with good commercial or customary practice" as defined in CERCLA, 42 U.S.C. §9601(35)(B), that will qualify a party to a commercial real estate transaction for one of threshold criteria for satisfying the LLPs to CERCLA liability (42 U.S.C. §9601(35)(A) & (B), §9607(b)(3), §9607(q); and §9607(r)), assuming compliance with other elements of the defense.

Business Environmental Risk — a risk which can have a material environmental or environmentally-driven impact on the business associated with the current or planned use of a parcel of commercial real estate, not necessarily limited to those environmental issues required to be investigated in this practice. Consideration of business environmental risk issues may involve addressing one or more non-scope considerations.

Controlled Recognized Environmental Condition (CREC) — a recognized environmental condition resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority or authorities with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls.

Significant Data Gap — a data gap that affects the ability of the Environmental Professional to identify a recognized environmental condition.

De Minimis Conditions — a condition related to a release that generally does not present those conditions which "do not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies." The ASTM E1527-21 Standard notes that conditions determined to be *de minimis* are not recognized environmental conditions.

Environmental Professional — a person meeting the education, training, and experience requirements as set forth in 40 CFR §312.10(b).

Historical Recognized Environmental Condition (HREC) — a previous release of hazardous substances or petroleum products affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities and meeting unrestricted use criteria established by the applicable regulatory authority or authorities without subjecting the subject property to any controls. A historical recognized environmental condition is not a recognized environmental condition.

Key Site Manager — the person identified by the owner or operator of a subject property as having good knowledge of the uses and physical characteristics of the subject property.

Material Threat — an obvious threat which is likely to lead to a release and that, in the opinion of the Environmental Professional, would likely result in impact to public health or the environment.

Orphan Site — (not ASTM E1527-21 definition) — sites that could not be mapped due to poor or inadequate address information.

Recognized Environmental Condition (REC) — (1) the presence of hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to a release or likely release to the environment; or (3) the presence of hazardous substances or petroleum products in, on, or at the subject property under conditions that pose a material threat of a future release to the environment. *De minimis* conditions are not RECs.

11.2 DESCRIPTIONS OF DATABASES SEARCHED

Numerous regulatory databases were searched during this Phase I. Each database reviewed is described in the database report presented in Appendix D. Those databases required by the E1527-21 Standard are identified below.

1. **NPL Sites:** The National Priorities List (NPL) is a list of contaminated sites that are considered the highest priority for cleanup by the U.S. Environmental Protection Agency (USEPA).
2. **Delisted NPL Sites:** The Delisted NPL is a list of formal NPL sites formerly considered the highest priority for cleanup by the USEPA that met the criteria of the National Oil and Hazardous Substances Pollution Contingency Plan (NCP) for deletion from the NPL because a no further response was appropriate.
3. **CERCLIS Sites:** The Comprehensive Environmental Response, Compensation, and Liability Act Information System (CERCLIS) list identifies sites which are suspected to have contamination and require additional investigation to assess whether they should be considered for inclusion on the NPL.
4. **CERCLIS-NFRAP Sites:** CERCLIS-NFRAP status indicates that a site was once on the CERCLIS List but has No Further Response Actions Planned (NFRAP). Sites on the CERCLIS-NFRAP List were removed from the CERCLIS List in February 1995 because, after an initial investigation was performed, no contamination was found, contamination was removed quickly, or the contamination was not significant enough to warrant NPL status.
5. **Federal ERNS:** The Federal Emergency Response Notification System (ERNS) list tracks information on reported releases of oil and hazardous materials.
6. **RCRA non-CORRACTS TSD facilities:** The Resource Conservation and Recovery Act (RCRA) non-CORRACTS TSD Facilities List tracks facilities which treat, store, or dispose of hazardous waste and are not associated with corrective action activity.
7. **RCRA CORRACTS TSD facilities:** The RCRA CORRACTS TSD Facilities list catalogues facilities that treat, store, or dispose of hazardous waste and have been associated with corrective action activity.
8. **RCRA Generators:** The RCRA Generator list is maintained by the USEPA to track facilities that generate hazardous waste.
9. **Federal Institutional Controls/Engineering Controls:** The Federal Institutional Control list and Engineering Control list are maintained by the USEPA. Some Institutional Control and Engineering Control information may not be made publicly available and therefore will not be included on this registry.

10. **State and Tribal Equivalent NPL/CERCLIS Sites:** The ASTM E1527-21 Standard requires searching "State and Tribal Equivalent NPL Sites." In California, the equivalent NPL is the Response, which is maintained by the Department of Toxic Substances Control (DTSC).
11. **State and Tribal Equivalent CERCLIS Sites:** The ASTM E1527-21 Standard requires searching "State and Tribal Equivalent CERCLIS Sites." In California, the equivalent CERCLIS is the ENVIROSTOR which is maintained by the DTSC.
12. **State and Tribal Registered Storage Tanks:** The RWQCB maintains a list of aboveground and underground storage tanks registered with the RWQCB.
13. **State and Tribal Landfills and Solid Waste Disposal Sites:** DTSC maintains a list of regulated waste disposal sites.
14. **State and Tribal Leaking Storage Tanks:** RWQCB maintains a list of Leaking Storage Tanks (LUST/LAST). The LUST/LAST lists are a listing of release sites that have an Underground or Aboveground Storage Tank listed as the source.
15. **State and Tribal Institutional Controls/Engineering Controls:** DTSC maintains a list of sites with Institutional or Engineering controls in place.
16. **State and Tribal Voluntary Cleanup Sites:** DTSC maintains a list of Voluntary Cleanup sites.
17. **State and Tribal Brownfield Sites:** DTSC maintains a list of Brownfield sites which includes properties where redevelopment or reuse may be compromised by the presence or presumed presence of hazardous materials or petroleum.
18. Other site-specific relevant databases searched:
    - **AST** – A listing of aboveground storage tank petroleum storage tank locations.
    - **CERS -** The CalEPA Regulated Site Portal database combines data about environmentally regulated sites and facilities in California into a single database. It combines data from a variety of state and federal databases and provides an overview of regulated activities across the spectrum of environmental programs for any given location in California. These activities include hazardous materials and waste, state and federal cleanups, impacted ground and surface waters, and toxic materials.

APPENDIX A
Phase I Environmental Site Assessment Limitations

APPENDIX A

Haley & Aldrich, Inc. Limitations

Environmental site assessment (Phase I Environmental Site Assessment) reports prepared by Haley & Aldrich are for the sole and exclusive use of its Client. Haley & Aldrich represents that the Phase I Environmental Site Assessment was prepared in accordance with the ASTM International (ASTM) Standard E1527-21 entitled "Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process" (ASTM E1527-21). The findings, opinions, conclusions, and information contained in the ASTM E1527-21 Phase I Environmental Site Assessment are limited to, and solely based upon, information reasonably ascertainable by Haley & Aldrich at the time the ASTM E1527-21 Phase I Environmental Site Assessment was completed.

All users of this E1527-21 Phase I Environmental Site Assessment are bound to the terms and conditions and limitations contained in the accompanying Proposal, Terms and Conditions, and Limitations for this ASTM E1527-21 Phase I Environmental Site Assessment. The findings, opinions, conclusions, and information contained in this report are based solely on the Scope of Services provided pursuant to the Proposal and its attachments and the information reasonably ascertainable by Haley & Aldrich at the time the ASTM E1527-21 Phase I Environmental Site Assessment was completed. Haley & Aldrich has not performed any additional observations, investigations, studies, or other testing not specified in the Scope of Services. Haley & Aldrich shall not be liable for the existence of any condition the discovery of which would have required the performance of services not authorized under the Scope of Services.

This ASTM E1527-21 Phase I Environmental Site Assessment is prepared for the exclusive use of Haley & Aldrich's client in connection with the subject property for the purpose of assessing the potential or existing environmental contamination liabilities associated with the subject property. There are no intended beneficiaries other than Haley & Aldrich's client. Haley & Aldrich shall owe no duty whatsoever to any other person or entity by issuing the ASTM E1527-21 Phase I Environmental Site Assessment. Use of this ASTM E1527-21 Phase I Environmental Site Assessment by any person or entity, including by Haley & Aldrich's client, for a purpose other than for the purpose of assessing the potential or existing environmental contamination liabilities associated with the subject property is expressly prohibited unless such person or entity obtains written authorization from Haley & Aldrich indicating that the ASTM E1527-21 Phase I Environmental Site Assessment is adequate for such other use. Use of this ASTM E1527-21 Phase I Environmental Site Assessment by any person or entity for such other purpose without written authorization by Haley & Aldrich shall be at such person's or entity's sole risk and shall be without legal exposure or liability to Haley & Aldrich.

Haley & Aldrich may authorize third-party reliance on the ASTM E1527-21 Phase I Environmental Site Assessment by providing reliance letters to third party(ies) provided that the third party(ies) agree: (1) to use the ASTM E1527-21 Phase I Environmental Site Assessment only for the purpose of assessing the potential or existing environmental contamination liabilities associated with real property; (2) to be bound by the terms and conditions and limitations contained in the ASTM E1527-21 Phase I Environmental Site Assessment report and the proposal and its Attachments, Terms and Conditions, and Limitations; (3) to accept the form and substance of Haley & Aldrich's reliance letter; and (4) to deliver to Haley & Aldrich a signed copy of a reliance letter by an authorized representative of the relying party, within thirty (30) days after said reliance letter is provided to the relying party, signifying the relying party's acceptance of the aforementioned conditions. Upon Haley & Aldrich's receipt of the signed reliance letter by the relying party(ies), the relying party(ies) will be authorized to rely on Haley &

Aldrich's ASTM E1527-21 Phase I Environmental Site Assessment for the limited purpose of identifying potential or existing environmental contamination liabilities associated with the subject property. The relying party(ies) agree(s) to bind each of its respective successors and assigns to the aforementioned Terms and Conditions.

This ASTM E1527-21 Phase I Environmental Site Assessment reflects subject property conditions observed and described by records available to Haley & Aldrich as of the date of ASTM E1527-21 Phase I Environmental Site Assessment preparation. The passage of time may result in significant changes in subject property conditions, technology, or economic conditions, which could alter the findings and/or recommendations of the ASTM E1527-21 Phase I Environmental Site Assessment. Accordingly, Haley & Aldrich's client and any other party to whom the ASTM E1527-21 Phase I Environmental Site Assessment is provided recognize and agree that Haley & Aldrich shall bear no liability for deviations from observed conditions or available records after the time of ASTM E1527-21 Phase I Environmental Site Assessment preparation. Haley & Aldrich makes no express or implied representation that the information contained in the E1527-21 Phase I Environmental Site Assessment has continued viability after 180 days of the ASTM E1527-21 Phase I Environmental Site Assessment's completion date, and any use or reliance on the ASTM E1527-21 Phase I Environmental Site Assessment after 180 days of the ASTM E1527-21 Phase I Environmental Site Assessment's completion date by Haley & Aldrich's client or any other authorized person or entity will be at that party's sole risk and without liability to Haley & Aldrich.

Notwithstanding anything contained herein, Haley & Aldrich shall not be liable for any claim or damage arising from environmental contamination liabilities that occurred on the subject property after the effective date of the ASTM E1527-21 Phase I Environmental Site Assessment. Likewise, Haley & Aldrich shall not be liable for any existing or future property owner's failure to satisfy any continuing obligation for CERCLA liability protection or under the Federal Environmental Protection Agency's All Appropriate Inquiries rule.

Subject: ASTM Phase I Environmental Site Assessment
Polaris Place
1-5 Polaris Way
Aliso Viejo, California

Ladies and Gentlemen:

The enclosed report presents the results of a Phase I Environmental Site Assessment (Phase I) conducted at the above-referenced property, located at 1-5 Polaris Way, in Aliso Viejo, CA (herein referred to as the "subject property"). This work was performed by Haley & Aldrich, Inc. (Haley & Aldrich), in accordance with a request from Lennar Homes of California, LLC on August 11, 2025 ("Agreement"). This Phase I was conducted in conformance with the scope and limitations of the ASTM International (ASTM) E1527-21 Standard Practice for Environmental Site Assessments.[1]

The objective of a Phase I is to assess whether known and/or suspect recognized environmental conditions (RECs), controlled RECs (CRECs), or historical RECs (HRECs) are associated with the subject property, as defined in the ASTM E1527-21 Standard.

This Phase I has revealed no evidence of RECs associated with the subject property. Thank you for the opportunity to perform these services for you. Please do not hesitate to contact us if you have any questions or comments.

Sincerely yours,
HALEY & ALDRICH, INC.

David E. Rother

[1] The ASTM Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process (ASTM E1527-21 Standard) as referenced in Code of Federal Regulations Title 40 Part 312 (the All Appropriate Inquiries Rule).

Executive Summary

Haley & Aldrich, Inc. (Haley & Aldrich) has performed a Phase I Environmental Site Assessment (Phase I) of the property located at 1-5 Polaris Way in Aliso Viejo, California (herein referred to as the "subject property"). This Phase I was performed for Lennar Homes of California, LLC to support the potential purchase and redevelopment of the subject property. This Phase I was performed in conformance with the scope and limitations of the ASTM International (ASTM) E1527-21 Standard and All Appropriate Inquiries (AAI) Rule.

SUBJECT PROPERTY DESCRIPTION

The subject property comprises five adjoining Accessor's Parcel Numbers, including 623-481-49, 623-481-50, 623-481-51, 623-481-52, and 623-481-53, totaling 21.64 acres. The subject property is currently developed as an office park with five buildings. In addition to the five structures, there are asphalt-paved parking lots and landscaped areas. The subject property is located to the northeast of California State Route 73 and south of Aliso Viejo Parkway.

OBJECTIVE

The objective of a Phase I is to assess whether recognized environmental conditions (RECs), controlled RECs (CRECs), or historical RECs (HRECs) are associated with the subject property. Our conclusions are intended to help the user evaluate the business environmental risk associated with the subject property. Our opinion regarding a REC's potential impact on the subject property is based on the scope of our work, the information obtained during the course of our work, the conditions prevailing at the time our work was performed, the applicable regulatory requirements in effect at the time our work was performed, our experience evaluating similar sites, and on our understanding of the client's intention to provide environmental due diligence consulting services to support the redevelopment of the subject property.

SIGNIFICANT DATA GAPS

Our ability to identify and evaluate RECs at the subject property is conditioned upon significant data gaps identified as part of this Phase I. The ASTM E1527-21 Standard defines a significant data gap as a data gap that affects the ability of the Environmental Professional to identify a REC.

No significant data gaps were identified during the performance of this Phase I. Thus, it is our opinion that sufficient information was obtained to identify subject property conditions indicative of releases or threatened releases of hazardous substances and petroleum hydrocarbons. Our opinion is limited by the conditions prevailing at the time our work is performed and the applicable regulatory requirements in effect.

RECOGNIZED ENVIRONMENTAL CONDITIONS

The ASTM E1527-21 Standard defines a REC as: (1) the presence of hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to a release or likely release to the environment; or (3) the presence of hazardous substances or petroleum products in, on,

or at the subject property under conditions that pose a material threat of a future release to the environment.

RECs were not identified in connection with the subject property.

CONTROLLED RECOGNIZED ENVIRONMENTAL CONDITIONS

The ASTM E1527-21 Standard defines a CREC as a REC resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority or authorities with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls.

CRECs were not identified in connection with the subject property.

HISTORICAL RECOGNIZED ENVIRONMENTAL CONDITIONS

The ASTM E1527-21 Standard defines an HREC as a previous release of hazardous substances or petroleum products affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities and meeting unrestricted use criteria established by the applicable regulatory authority or authorities without subjecting the subject property to any controls. A historical recognized environmental condition is not a recognized environmental condition.

HRECs were not identified in connection with the subject property.

DE MINIMIS CONDITIONS

The ASTM E1527-21 Standard defines a *de minimis* condition as a condition related to a release that generally does not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. The ASTM E1527-21 Standard notes that conditions determined to be *de minimis* are not recognized environmental conditions.

The *de minimis* condition listed below was identified in connection with the subject property:

- **De Minimis #1:** Staining was observed beneath the hydraulic hose line attached to the trash bailer. According to subject property personnel, the staining occurred from removal of the hose during routine servicing of the trash bailer. Due to the age of the building, polychlorinated biphenyls are not anticipated to be present in the hydraulic equipment.

SUMMARY AND RECOMMENDATIONS

We did not identify RECs, CRECs, or HRECs during this Phase I.

The remainder of this report contains additional information regarding the Phase I, the resulting findings summarized above, and limitations affecting this report.

Continued Viability of Environmental Site Assessment

In accordance with the ASTM E1527-21 Standard, the following components of the Phase I Report must be conducted or updated within 180 days prior to the date of acquisition or prior to the date of the transaction:

1. Interviews with owners, operators, and occupants. Completed on: September 12, 2025.
2. Searches for recorded environmental cleanup liens (a user responsibility). Completed on: August 13, 2025.
3. Reviews of federal, tribal, state, and local government records. Completed on: August 14, 2025.
4. Visual inspections of the subject property and of adjoining properties. Completed on: September 12, 2025.
5. The declaration by the Environmental Professional responsible for the assessment or update (refer to Section 9). Completed on September 23, 2025.

1. Introduction

This report presents the results of an ASTM International (ASTM) Phase I Environmental Site Assessment (Phase I) conducted at 1-5 Polaris Way located in Aliso Viejo, California (herein referred to as the "subject property"). The approximately 21.64-acre subject property is developed with five structures, asphalt-paved parking lots, and landscaped areas, as shown in Figures 1 and 2. This Phase I was conducted to support Lennar Homes of California, LLC (Lennar) with the proposed purchase and redevelopment of the subject property.

1.1 OBJECTIVE

The objective of a Phase I is to assess whether recognized environmental conditions (RECs), controlled RECs (CRECs), or historical RECs (HRECs) are associated with the subject property by evaluating site history, interviews, existing observable conditions, current site use, and current and former uses of adjoining properties, as well as potential releases at surrounding properties that may impact the subject property. Our conclusions are intended to help the user evaluate the business environmental risk associated with the subject property.

The ASTM E1527-21 Standard defines a REC as: (1) the presence of hazardous substances[2] or petroleum products in, on, or at the subject property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to a release or likely release to the environment; or (3) the presence of hazardous substances or petroleum products in, on, or at the subject property under conditions that pose a material threat of a future release to the environment. The definitions of RECs, CRECs, and HRECs are included in the Glossary section of this report.

1.2 SCOPE OF SERVICES

This Phase I was performed by Haley & Aldrich, Inc. (Haley & Aldrich) in conformance with the scope and limitations of the ASTM E1527-21 Standard and All Appropriate Inquiries (AAI) Rule[3] and in accordance with a request from Lennar on August 11, 2025 ("Agreement"). The Phase I limitations are attached hereto as Appendix A.

As part of this Phase I, Haley & Aldrich conducted visual observations of site conditions and of abutting property use, and interviewed a key site manager and applicable tenant representatives (subject property reconnaissance); reviewed federal, state, tribal, and local environmental database information, federal and state environmental files, previous reports (if identified and provided), and site historical use records; and formulated conclusions regarding the potential presence and impact of RECs.

[2] Hazardous substances as defined by the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) include Clean Water Act (CWA) hazardous substances, CWA toxic pollutants, Clean Air Act hazardous air pollutants, Resource Conservation and Recovery Act (RCRA) hazardous wastes, and other contaminants. As of April 19, 2024, CERCLA-defined hazardous substances include per- and polyfluoroalkyl substances (PFAS).

[3] ASTM International (ASTM) E1527-21 Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process as referenced in 40 Code of Federal Regulations (CFR) Part 312 (the All Appropriate Inquiries [AAI] Rule) ("ASTM E1527-21 Standard"). Specified terms as are used in ASTM E1527-21 Standard are highlighted in blue in this report and defined in the Glossary at the end of the report text.

1.3 NON-SCOPE CONSIDERATIONS

The ASTM E1527-21 Standard includes the following list of "additional issues" that are non-scope considerations outside of the scope of the ASTM Phase I practice: asbestos-containing materials, biological agents, cultural and historic resources, ecological resources, endangered species, health and safety, indoor air quality related to release of hazardous substances or petroleum products into the environment, industrial hygiene, lead-based paint unrelated to releases into the environment, lead in drinking water, mold or microbial growth conditions, polychlorinated biphenyl (PCB)-containing materials, naturally occurring radon, regulatory compliance, substances not defined as hazardous substances, and wetlands. These items were not included in this Phase I of the subject property.

The assessment of the presence of PCBs is limited to those potential sources specified in the ASTM E1527-21 Standard as "electrical or hydraulic equipment known or likely to contain PCBs…to the extent visually and or physically observed or identified from the interview or records review."

1.4 LIMITING CONDITIONS/DEVIATIONS

Haley & Aldrich completed this Phase I in substantial conformance with the ASTM E1527-21 Standard. In our opinion, no additions were made to, or deviations or deletions made from, the ASTM work scope in completing this Phase I.

1.5 USER RESPONSIBILITIES

The completion of this Phase I is only one component of the process required to satisfy the AAI Rule. In addition, the user must adhere to a set of user responsibilities as defined by the ASTM E1527-21 Standard and the AAI Rule. User responsibilities are discussed in Section 6.6 of this report. A user seeking protection from Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) liability as an innocent landowner, bona fide prospective purchaser, or contiguous property owner must complete all components of the AAI process in addition to meeting ongoing obligations. AAI components, CERCLA liability relief, and ongoing obligations are discussed in the AAI Rule and in Appendix X1 of the ASTM E1527-21 Standard.

2. Site Description

A description of the subject property is detailed in the sections below. Refer to Figure 1 for a Project Locus and Figure 2 for a Site Plan showing relevant subject property features and adjacent properties.

2.1 SITE OWNERSHIP, LOCATION, AND VICINITY DESCRIPTION

Site Description		
Owner	1 Polaris Way: BPM Investments LLC 2 and 3 Polaris Way: TR Polaris LLC 4 Polaris Way: Drawbridge 4 Polaris Way LLC 5 Polaris Way: Drawbridge 5 Polaris Way LLC	
Occupant	Occupants of 1 Polaris Way include Marsh & McLennan Agency and NC Orange County (NCWest) Occupants of 2 Polaris Way include Fluor Corporation Occupants of 3 Polaris Way include Capstone Federal Credit Union and Acrisure Aliso Viejo, California (The LBL Group) Occupants of 4 Polaris Way include Quest Software Occupants of 5 Polaris Way include NeoGenomics and UST Global Inc.	
Current Subject Property Use	The subject property is currently a commercial office park.	
Size	21.64 acres	
USGS 7.5-Minute Topographic Map	San Juan Capistrano, 2022	
Site County	Orange County	
Zoning	Commercial	
Parcel Information	1 Polaris Way: 623-481-49 2 Polaris Way: 623-481-50 3 Polaris Way: 623-481-51 4 Polaris Way: 623-481-53 5 Polaris Way: 623-481-52	
Utilities	Water:	Moulton Niguel Water District
	Sewerage:	Moulton Niguel Water District
	Electricity:	Southern California Edison (SCE)
	Gas/Oil/LPG:	Southern California Gas
Heating/Cooling System	Roof-mounted air handlers	

Site Vicinity Description		
General Area Description	The subject property is currently developed and occupied by Quest Software, UST Global, Inc., NeoGenomics, Capstone Federal Credit Union, Fluor Corporation, and Marsh & McLennan Agency. The surrounding area is developed with commercial, industrial, and residential properties. The subject property is located to the east of California State Route 73 and south of Aliso Viejo Parkway.	
Adjoining Property Description	North:	Aliso Viejo Parkway, followed by commercial and industrial properties.
	East:	Residential properties
	South:	California State Route 73, followed by commercial properties.
	West:	Aliso Viejo Parkway and California State Route 73, followed by commercial properties.

2.2 PHYSICAL SETTING

Subsurface explorations and/or hydrogeologic investigations were not performed for this Phase I. Subject property geology and hydrology were evaluated on the basis of readily available public information or references, and/or based upon our experience and understanding of subsurface conditions in the vicinity of the subject property. It is unknown to what extent localized variations in groundwater depth and flow occur on the subject property.

Physical Setting		Source(s)
Topography Summary	The subject property is generally flat.	1, 2
Subject Property Elevation (El.)	Approximate El. 489 feet above sea level	1
Overburden Soils	According to the United States Department of Agriculture – Soil Conservation Series, soils found on the subject property are Calleguas clay loam. The Calleguas series loams have very slow infiltration rates, have a high water table, or are shallow to an impervious layer. They are well-drained with a very high runoff class.	1, 3
Depth to Groundwater	There are no known measurements of groundwater depth in the area. Depth is likely greater than 35 feet below ground surface based on reports from a nearby site to the south.	4
Surface Water Flow Direction	Surface water appears to flow toward the south based on the observed surface topography.	1
Regional Groundwater Flow Direction	Regional groundwater flow appears to flow to the south-southeast based on nearby surface water bodies.	1
Nearest Surface Water Body	Aliso Creek is located approximately 0.73 miles to the southeast of the subject property.	5

3. Previous Reports

Previously prepared reports for the subject property were not identified or provided as part of this assessment.

4. Subject Property History

Haley & Aldrich assessed past usage of the subject property and adjoining properties through a review of:

- Topographic Maps dated 1902, 1942, 1948, 1949, 1965, 1968, 1974, 1981, 2012, 2015, 2018, and 2022;
- Aerial Photographs dated 1938, 1946, 1952, 1963, 1967, 1972, 1974, 1981, 1989, 1994, 2002, 2005, 2010, 2014, 2018, and 2022;
- City Directories dated 2010 and 2022; and
- Building Permits.

Sanborn fire insurance maps did not provide coverage of the subject property area. Copies of information obtained from historical references reviewed are included in Appendix B. Unless otherwise noted below, per the ASTM standard, sources were reviewed dating back to 1940 or first developed use, whichever is earlier, and at five-year intervals if the use of the property has changed within the time period.

4.1 SUBJECT PROPERTY

The table below provides a detailed summary of pertinent information from the historical sources reviewed.

Dates	Description of Subject Property	Sources
1938 to 1989	The subject property appears vacant and undeveloped.	Aerial Photographs Topographic Maps
1994	The subject property appears to be divided into parcels, and a large access road has been built with ingress and egress on the northern side.	Aerial Photographs Topographic Maps
1998	Construction for the current commercial buildings on the subject property began.	Building Permits
2002 to Present	The previous roadway is no longer present, and the subject property appears in its current configuration, with five commercial office buildings and their associated parking lots and landscaped areas. The subject property was occupied by various commercial businesses between 2005 and the present, including Marsh & McLennan Agency, NC Orange County (NCWest) at 1 Polaris Way, Fluor Corporation at 2 Polaris Way, Capstone Federal Credit Union and Acrisure Aliso Viejo at 3 Polaris Way, Quest Software at 4 Polaris Way, and NeoGenomics and UST Global Inc. at 5 Polaris Way.	Aerial Photographs Topographic Maps City Directory

4.2 ADJOINING PROPERTIES

The table below provides a summary of pertinent information from the historical sources reviewed regarding adjacent properties:

Dates	Description of Adjacent Properties	Sources
1938 to 1981	North: Undeveloped land South: Undeveloped land East: Undeveloped land West: Undeveloped land	Aerial Photographs
1989	North: Development of Aliso Viejo Parkway as a major road, followed by mixed commercial and industrial structures. South: Undeveloped land East: Undeveloped land West: Undeveloped land	Aerial Photographs
1994 to 2002	North: Development of Aliso Viejo Parkway as a major road, followed by mixed commercial and industrial structures. South: Development of California State Route 73, followed by commercial structures. East: Development of residential neighborhoods. West: Development of California State Route 73, followed by vacant lots.	Aerial Photographs
2005 to Present	North: Aliso Viejo Parkway, followed by mixed commercial and industrial structures. South: California State Route 73, followed by commercial structures. East: Residential properties West: California State Route 73, followed by commercial structures.	Aerial Photographs

5. Environmental Records Review

5.1 ENVIRONMENTAL DATABASE RECORDS SEARCH

Haley & Aldrich used an electronic database service[4], to complete the environmental records review. The database search was used to identify properties that may be listed in the referenced agency records, located within the ASTM-specified approximate minimum search distances as shown in the table below. A description of each database searched is provided in Section 11.2 of this report. The complete environmental database report is provided in Appendix C. Pertinent information obtained from the database is summarized in Section 5.3.

Database Searched	Approximate Minimum Search Distance	Subject Property Listed?	Number of Sites within Search Distance[1]
1. NPL Sites	1 mile	No	0
2. Delisted NPL Sites	0.5 miles	No	0
3. CERCLIS/SEMs[2] Sites	0.5 miles	No	0
4. CERCLIS-NFRAP/SEMs[2] Sites	0.5 miles	No	0
5. Federal ERNS	Site only	No	Not Applicable
6. RCRA non-CORRACTS TSD Facilities	0.5 miles	No	0
7. RCRA CORRACTS TSD Facilities	1 mile	No	0
8. RCRA Generators	Site & Adjoining	No	11
9. Federal Institutional/Engineering Controls	Site Only	No	Not Applicable
10. State/Tribal Equivalent NPL Sites	1 mile	No	0
11. Lists of state and tribal hazardous waste facilities[2]	0.5 miles	No	0
12. State/Tribal Registered Storage Tanks	Site & Adjoining	No	6
13. State/Tribal Landfills and Solid Waste Disposal Sites	0.5 miles	No	0
14. State/Tribal Leaking Storage Tanks	0.5 miles	No	3
15. State/Tribal Institutional Controls/Engineering Controls	Site Only	No	Not Applicable
16. State/Tribal Voluntary Cleanup Sites	0.5 miles	No	0
17. State/Tribal Brownfield Sites	0.5 miles	No	0
18. Orphan Site List[3]	Site & Adjoining	No	0

***Notes**:*

1. *Some sites may be included on multiple databases.*
2. *Formerly the Comprehensive Environmental Response, Compensation, and Liability Information System (CERCLIS) database.*
3. *Haley & Aldrich also searched the Orphan Site List provided in the database report for the subject property and sites adjoining the subject property. Orphan sites are those that, due to incorrect or incomplete addresses, could not be mapped.*

[4] Examples of electronic database services are EDR/Lightbox and ERIS.

5.2 ADDITIONAL ENVIRONMENTAL RECORDS OR FILE REVIEW

To supplement the environmental record search, we contacted the following state and local government agencies and searched applicable online databases. If copies of the documents reviewed were obtained, pertinent material is included in Appendix C. Relevant information obtained is included in the appropriate sections of the report and/or discussed in Section 5.3. Adjacent properties were also included in requests for additional information if a significant incident or release was identified. Those adjacent properties reviewed for this assessment include:

Agency	Request Sent or Files Searched		Files Exist and are Available for Review	Files Reviewed
	Subject Property	Adjoining Properties		
South Coast Air Quality Management District[1]	Yes	No	Yes	Yes
San Diego Regional Water Quality Control Board (SDRWQCB)[2]	Yes	No	No	N/A
Department of Toxic Substances Control (DTSC)[3]	Yes	No	No	N/A
Orange County Environmental Health[4]	Yes	No	Yes	Yes
Orange County Fire Authority[5]	Yes	No	Yes	Yes
California Governor's Office of Emergency Services (CalOES)[6]	Yes	No	No	N/A
City of Aliso Viejo[7]	Yes	No	Yes	Yes
California Department of Conservation Geologic Energy Management Division (CalGEM), Well Finder Online Mapping System[8]	Yes	Yes	Yes	Yes
Environmental Working Group (EWG)[9]	Yes	Yes	The EWG's PFAS Contamination in the U.S. Map was accessed. No records pertaining to the subject property or adjoining properties were found.	N/A
United States Environmental Protection Agency (USEPA)[10]	Yes	Yes	The USEPA's PFAS Analytic Tool was accessed. No records pertaining to the subject property or adjoining properties were found.	N/A

Agency	Request Sent or Files Searched		Files Exist and are Available for Review	Files Reviewed
	Subject Property	Adjoining Properties		

***Notes**:*

1. *The SCAQMD maintains information related to air permits and violations.*
2. *The SDRWQCB maintains information regarding environmental concerns, as well as soil and water contamination issues. The State Water Resources Control Board's (SWRCB's) website, GeoTracker, was also accessed.*
3. *The DTSC maintains information regarding hazardous substance storage and storage tank use.*
4. *The Orange County Environmental Health Agency maintains information regarding hazardous substance storage and storage tank use.*
5. *The Orange County Fire Authority maintains information regarding hazardous substances storage and storage tank use.*
6. *The CalOES database maintains information regarding hazardous material spill reports and other reporting documents.*
7. *The City of Aliso Viejo maintains information regarding building safety and construction permitting.*
8. *CalGEM database maintains information on oil wells and other facilities throughout the state of California.*
9. *The EWG interactive map displays approximate locations of PFAS contamination in water systems in the U.S. as of March 2025.*
10. *The USEPA Analytic Tool database provides information on PFAS manufacture, release, and occurrence in the environment, as well as facilities handling PFAS.*

5.3 DETAILED DESCRIPTION OF RELEVANT INFORMATION

5.3.1 Subject Property

The subject property was listed in the AST database.

Listing	Description	Potential Impact
AST	The subject property was listed at 4 Polaris Way and the name was not reported. The subject property was listed in the aboveground storage tank (AST) database for a 1,320 gallonAST, registered to the owner, Quest Software. The contents of the AST were not reported.	There are no known historical documented releases associated with this listing. Therefore, it is unlikely to adversely affect the subject property and is not considered a REC.

5.3.2 Nearby Sites

Several sites were listed in the database report within the applicable search radii or identified in regulatory records reviews. Due to their location with respect to the subject property (on the opposite side of a hydrogeologic barrier, distance from the site, location of the site relative to inferred groundwater flow, subsurface utilities and building levels, etc.), or their status (closed-out release, etc.), several of the sites are not likely to adversely affect the subject property and are not discussed herein. Only those sites adjacent to the subject property and sites with a potential to have impacted the subject property are discussed below. The complete database report and relevant records review information is included in Appendix C.

Property Name & Location	Database/ Record Identified	Description	Potential Impact to Subject Property
RXSight 75C, Zettler Systems, Microvention 75 Columbia Adjacent to the north and hydraulically upgradient of the subject property.	CERS HAZ WASTE CERS RCRA-SQG RCRA-LQG FINDS RCRA NonGen/NLR E MANIFEST	Listed in the CERS HAZ WASTE, RCRA-SQG, RCRA-LQG, FINDS, and E MANIFEST databases as a hazardous waste generator. Listed in the CERS database as a chemical storage facility. The property was evaluated eight times and no violations were found.	No spills or violations were found. This adjacent property is unlikely to adversely affect the subject property and is not considered a REC.
American Discount Cleaners 37 Pappagallo PT Approximately 468 feet to the east and hydraulically cross-gradient of the subject property.	EDR Hist Cleaner	Listed in the EDR Hist Cleaner database as a dry-cleaning plant from 2007 to 2012.	No spills or violations were found. This nearby property is unlikely to adversely affect the subject property and is not considered a REC.
Tesla Collision, Aliso Viejo Body Shop 41 Columbia Approximately 522 feet north and hydraulically upgradient of the subject property.	CERS HAZ WASTE CERS RCRA-LQG E MANIFEST	Listed in the CERS HAZ WASTE, RCRA-LQG, and E MANIFEST database as a hazardous waste generator. Listed in the CERS database as a chemical storage facility. The property was evaluated four times and no violations were found.	No spills or violations were found. This nearby property is unlikely to adversely affect the subject property and is not considered a REC.
RXSight, Inc. 100 Columbia Approximately 543 feet north and hydraulically upgradient of the subject property.	CERS HAZ WASTE HWTS CERS RCRA-SQG E MANIFEST ECHO PFAS ECHO	Listed in the CERS HAZ WASTE database as a hazardous waste generator. Listed in the HWTS database in 2018 but no additional information was provided. Listed in the CERS database as a chemical storage facility. The property was evaluated 14 times and no violations were found. Listed in the RCRA-SQG database as a small quantity generator (SQG) for waste descriptions that include, ignitable, corrosive, and reactive waste, chloroform, and halogenated and non-halogenated solvents. No violations were found. Listed in the PFAS ECHO database as a metal machinery manufacturer with no violations.	No spills or violations were found. This nearby property is unlikely to adversely affect the subject property and is not considered a REC.

Property Name & Location	Database/ Record Identified	Description	Potential Impact to Subject Property
Prestige Cleaners DBA Laurie's Laundry 23411 Aliso Viejo Parkway Approximately 633 feet to the northeast and hydraulically cross-gradient of the subject property.	CERS HAZ WASTE DRYCLEANERS HAZNET CERS	Listed in the CERS HAZ WASTE database as a hazardous waste generator. Listed in the DRYCLEANERS database in 1991 and 2011. Listed in the HAZNET database for California Waste Code 213 for hydrocarbon solvents (benzene, hexane, Stoddard, etc.). Listed in the CERS database as a chemical storage facility. The property was evaluated 15 times and three violations were found for not remaining in compliance with annual certification requirements and the presence of materials on site in reportable quantities without disclosure.	No spills or major violations were found. This nearby property is unlikely to adversely affect the subject property and is not considered a REC.
Exxon Mobil Oil Corporation 23431 Laguna Hills Approximately 675 feet to the east and hydraulically cross-gradient of the subject property.	UST FINDER RELEASE RCRA-SQG SWEEPS UST CA FID UST LUST CORTESE CERS UST GeoTracker	Listed in GeoTracker as a LUST Cleanup Site with case closure in 2001. The potential contaminants and media of concern were gasoline and soil, respectively. Listed in the RCRA-SQG database and no violations were found. Listed in the SWEEPS UST database for four 10,000 underground storage tanks (USTs) housing diesel and regular unleaded fuels. Listed in the CORTESE database as a LUST Cleanup Site with a status of case closed. Listed in the CERS database as a leaking UST cleanup site.	Due to the closure status and the cross-gradient location of this property, it is unlikely to adversely impact the subject property and is not considered a REC.

Property Name & Location	Database/ Record Identified	Description	Potential Impact to Subject Property
Neogenomics Laboratory 31 Columbia Approximately 841 feet north northwest and hydraulically upgradient of the subject property.	CERS HAZ WASTE CERS TANKS CERS RCRA-LQG E MANIFEST	Listed in the CERS HAZ WASTE database as a hazardous waste generator. Listed in the CERS TANKS database as an aboveground petroleum storage site. Listed in the CERS database as a chemical storage facility. The property was evaluated 61 times and three violations were found. Listed in the RCRA-LQG database for hazardous waste, including ignitable, corrosive, and reactive waste, mercury, benzene, methyl ethyl ketone, lab packs, spent non-halogenated solvents, sodium azide, formaldehyde, 2-propanone, methanol, and benzene. A violation was received in January 2025 with a description of "Significant Non-Complier," the specific violation(s) were not reported.	Due to the distance from the subject property, this nearby property is unlikely to adversely affect the subject property and is not considered a REC.
Circle K Stores Inc. 23431 Aliso Viejo Parkway Approximately 863 feet east northeast and hydraulically cross-gradient of the subject property.	UST FINDER RCRA-NonGen / NLR E MANIFEST UST CERS HAZ WASTE CERS TANKS HWTS HAZNET CERS	Listed in the UST FINDER database for four 10,000-gallon diesel and gasoline tanks. Listed in the RCRA NonGen/NLR database but no violations were found. Listed in the CERS HAZ WASTE database as a hazardous waste generator. Listed in the CERS TANKS database for a UST. Listed in HWTS database in 2011 with a facility status of active. Listed in the HAZNET database 16 times for CA Waste Codes, including aqueous solution with total organic residues less than 10 percent and other organic solids. Listed in the CERS database as a chemical storage facility. The property was evaluated 73 times and eight violations were found. The property returned to compliance within a few months for each violation.	No spills or major violations were found. This nearby property is unlikely to adversely affect the subject property and is not considered a REC.

5.4 VAPOR MIGRATION

The ASTM E1527-21 Standard states that "for the purposes of this practice, "migrate" and "migration" refer to the movement of hazardous substances or petroleum products in any form, including, for

example, solid and liquid at the surface or subsurface, and vapor in the subsurface." Thus, this section specifies whether or not we perceive a risk of vapor migration to the subject property.

To assess a vapor migration risk, Haley & Aldrich conducted a detailed review and analysis of the site-specific environmental database report and/or other reasonably ascertainable records to assess whether:

1. Off-site properties have documented chlorinated volatile organic compound (VOC) contamination located, specifically, the edge of the contamination plume, within 100 feet of the subject property boundary; or
2. Off-site properties have a documented volatile petroleum hydrocarbon (VPH) contamination plume within 30 feet of the subject property boundary.

Based on our records review, it is unlikely that a potential source of vapor migration currently exists beneath the subject property.

6. Subject Property Reconnaissance and Key Personnel Interview(s)

A site visit to observe subject property conditions was conducted by Zachary Oretsky of Haley & Aldrich on September 12, 2025. Access to the subject property was provided by property managers Liz Komatsu, Sophia Nguyen, and Christina Bowren.

Haley & Aldrich personnel observed accessible interior areas of the subject property building(s), including common areas, basement areas, mechanical spaces, and tenant spaces. The interior spaces of 4 Polaris Way could not be accessed during the time of the site assessment. Haley & Aldrich also observed the exterior portions of the subject property, including the property boundaries, and observed adjoining property conditions from the subject property boundaries and/or public thoroughfares. No weather-related conditions or other conditions that would limit our ability to observe the subject property or adjoining properties occurred during our site visit.

An interview with Liz Komatsu of BPM Investments, LLC, Sophia Nguyen of LCP West, Inc., and Christina Bowren of Drawbridge 5 Polaris Way, LLC, the key site managers, was performed in conjunction with the site visit. Tenants were not available for interview during the time of the site assessment. Per the ASTM Standard, past owners, operators, and occupants of the subject property who are likely to have material information regarding the potential for contamination at the subject property shall be contacted to the extent that they can be identified and that the information likely to be obtained is not duplicative of information already obtained from other sources. Haley & Aldrich was not provided with contact information to interview past owners and/or operators at the subject property. Based upon historical data collected from other sources, this potential data gap is not expected to adversely impact the results of this assessment.

The findings of the site visit and interviews are discussed below. Subject property photographs are included in Appendix D.

ASTM E1527-21 Standard Section 10.8 requires that, prior to the site visit, the current subject property owner or key site manager and user, if different from the current owner or key site manager, be asked if there are any helpful documents that can be made available for review. Documents were not provided.

6.1 CURRENT USE OF THE SUBJECT PROPERTY

The subject property is currently occupied for commercial office use. The building at 4 Polaris Way is currently vacant. Typical on-site operations include general office and administrative activities and routine property storage and landscaping activities. Light maintenance on mechanical functions of the buildings are performed in the basement of 3 Polaris Way. There did not appear to be any chemical storage or use of any hazardous materials pertaining to the maintenance operations.

The 3 Polaris Way building was previously equipped with a full-size kitchen on the ground floor. This kitchen is in the process of being removed and renovated for additional general office space.

6.2 GENERAL DESCRIPTION OF STRUCTURES

The subject property is currently developed with three four-story commercial office buildings and two three-story commercial office buildings, including a basement level within the 3 Polaris Way building.

The subject property is improved with asphalt-paved parking areas, concrete flatwork, and landscaped common areas.

6.3 USE, STORAGE, AND DISPOSAL OF PETROLEUM PRODUCTS AND HAZARDOUS MATERIALS

Petroleum products and/or hazardous materials were observed or reported to be used, stored, and/or disposed of at the subject property as described below:

A backup diesel generator is located on the eastern side of 3 Polaris Way. The backup generator is equipped with a 1,000-gallon capacity diesel belly tank. According to the on-site personnel, the generator is serviced quarterly and is tested once per month. No signs of stains, leaks, or releases were observed in the vicinity of the backup generator.

A storage cabinet was observed in the exterior mechanical area of 3 Polaris Way, containing six 10-gallon gasoline safety canisters and multiple retail-sized containers of motor oil. The gas canisters and motor oil appeared to be stored in good condition with no signs of leaks, stains, or releases.

Universal waste, such as electronic waste, was observed to be stored in plastic 5-gallon buckets with lids and properly labeled as “Universal Waste” in the exterior mechanical area of 3 Polaris Way.

Multiple 1-gallon and 5-gallon containers of paint and other maintenance supplies were observed to the east of the 3 Polaris Way Building. These materials did not appear to be stored in secondary containment; however, no signs of stains, leaks, or releases were observed in the vicinity.

Multiple 5-gallon buckets of gear oil were observed within the elevator equipment rooms of each of the on-site buildings. No signs of leaks, stains, or releases were observed in the vicinity of the gear oil.

6.4 OTHER SUBJECT PROPERTY OBSERVATIONS

The table below summarizes items that were observed and/or reported at the subject property during the site visit other than those items related to use, storage, and/or disposal of petroleum or hazardous materials (described in Section 6.3 above). If items were observed or reported, they are further described either in the table or below.

Description	Observed or Reported at Time of Site Visit	Observations/Comments
Potable Water Supply	Yes	The subject property is connected to the municipal water supply, Moulton Niguel Water District.
Nearest Drinking Water Source	No	
Sewage Disposal System	Yes	The subject property is connected to the municipal sewer system, Moulton Niguel Water District.
Septic System	No	
Unidentified Storage Containers	No	
Wastewater Discharge	No	Two former grease interceptors were observed.
Stormwater Discharge	No	
Odors	No	

Description	Observed or Reported at Time of Site Visit	Observations/Comments
PCBs Associated with Electrical or Hydraulic Equipment	No	A trash bailer and cardboard compactor are present on the subject property; however, due to the age of the buildings, PCBs are not anticipated to be present in the materials.
Elevators (Traction or Hydraulic)	Yes	A rooftop pulley system for elevator equipment (i.e., for traction) was observed.
Vehicle Maintenance Lifts	No	
Emergency Generators	Yes	Backup generator was observed to the east of 3 Polaris Way.
Sprinkler System Pumps	Yes	
Heating System	Yes	Heating, ventilation, and air conditioning (HVAC) units are mounted on the roof.
Cooling System	Yes	HVAC units are mounted on the roof.
Stains or Corrosion on Floors, Walls, or Ceilings	No	
Floor Drains	Yes	Plugged floor drains were observed within the former kitchen.
Sumps	No	
Catch Basins	No	
Pits, Ponds, Lagoons, and Pools of Liquid	No	
Stained Soil or Pavement	No	
Stressed Vegetation	No	
Solid Waste and Evidence of Waste Filling	No	
Dry Wells	No	
Monitoring Wells	No	
Water Supply Wells	No	
Irrigation Wells	No	
Injection Wells	No	
Abandoned Wells	No	

One trash bailer and cardboard compactor was observed to the east of 3 Polaris Way. A small 2-foot by 2-foot area of concrete appeared to be stained beneath the hydraulic hose line attached to the trash bailer. According to subject property personnel, the staining occurred from removal of the hose during routine servicing of the trash bailer.

Two grease interceptors were observed to the east of 3 Polaris Way. According to subject property personnel, the interceptors were formerly used to service the grease waste associated with the former kitchen. The interceptors have been decommissioned and out of service for at least five to six years.

6.5 ADJOINING PROPERTY OBSERVATIONS

The subject property is adjoined by multiple commercial office and multi-family residential properties. No environmental concerns associated with the adjoining properties were observed during the time of the site assessment.

6.6 USER RESPONSIBILITIES

The AAI Rule requires that the user of the report consider the following:

- Whether the user has specialized knowledge about previous ownership or uses of the subject property that may be material to identifying RECs;
- Whether the user has determined that the subject property's title contains environmental liens or other information related to the environmental condition of the property, including engineering and institutional controls and Activity and Use Limitations (AULs), as defined by ASTM;
- Whether the user is aware of commonly known or reasonably ascertainable information about the subject property including whether or not the presence of contamination is likely on the subject property and to what degree it can be detected; and
- Whether the user has prior knowledge that the price of the subject property has been reduced for environmentally related reasons.

While such information is not required to be provided by the Environmental Professional(s), the information can assist the Environmental Professional in identifying RECs. The AAI Final Rule (Code of Federal Regulations Title 40 [40 CFR] Part 312) requires that these tasks be performed by or on behalf of a party seeking to qualify for one of the Landowner Liability Protections (LLPs) to CERCLA liability.

Haley & Aldrich was not provided with a completed user responsibilities questionnaire; this potential data gap is not expected to adversely impact the results of this assessment.

7. Findings and Opinions

7.1 SIGNIFICANT DATA GAPS

Our ability to identify and evaluate RECs at the subject property is conditioned upon significant data gaps identified as part of this Phase I. The ASTM E1527-21 Standard defines a significant data gap as a data gap that affects the ability of the Environmental Professional to identify a REC.

No significant data gaps were identified during the performance of this Phase I. Thus, it is our opinion that sufficient information was obtained to identify subject property conditions indicative of releases or threatened releases of hazardous substances and petroleum hydrocarbons. Our opinion is limited by the conditions prevailing at the time our work is performed and the applicable regulatory requirements in effect.

7.2 RECOGNIZED ENVIRONMENTAL CONDITIONS

The ASTM E1527-21 Standard defines a REC as: (1) the presence of hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to a release or likely release to the environment; or (3) the presence of hazardous substances or petroleum products in, on, or at the subject property under conditions that pose a material threat of a future release to the environment.

Our opinion regarding a REC's potential impact on the subject property is based on the scope of our work, the information obtained during the course of our work, the conditions prevailing at the time our work was performed, the applicable regulatory requirements in effect at the time our work was performed, our experience evaluating similar sites, and on our understanding of the client's intended use for the subject property.

RECs were not identified in connection with the subject property.

7.3 CONTROLLED RECOGNIZED ENVIRONMENTAL CONDITIONS

The ASTM E1527-21 Standard defines a CREC as a REC resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority or authorities with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls.

CRECs were not identified in connection with the subject property.

7.4 HISTORICAL RECOGNIZED ENVIRONMENTAL CONDITIONS

The ASTM E1527-21 Standard defines an HREC as “a previous release of hazardous substances or petroleum products affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities and meeting unrestricted use criteria established by the applicable regulatory authority or authorities without subjecting the subject property to any controls. A historical recognized environmental condition is not a recognized environmental condition.

HRECs were not identified in connection with the subject property.

7.5 DE MINIMIS CONDITIONS

The ASTM E1527-21 Standard defines a *de minimis* condition as a condition related to a release that generally does not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. The ASTM E1527-21 Standard notes that conditions determined to be *de minimis* are not recognized environmental conditions.

The *de minimis* condition listed below was identified in connection with the subject property:

- **De Minimis #1:** Staining was observed beneath the hydraulic hose line attached to the trash bailer. According to subject property personnel, the staining occurred from removal of the hose during routine servicing of the trash bailer. Due to the age of the building, PCBs are not anticipated to be present in the hydraulic equipment.

8. Conclusions

We have performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of the ASTM Practice E1527 of 1, 2, 3, 4, and 5 Polaris Way, the subject property. Any exceptions to or deletions from this practice are described in Section 1.4 of this report.

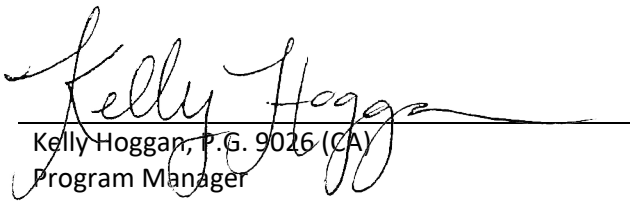
This assessment has revealed no evidence of RECs in connection with the subject property. We do not recommend additional assessment at this time.

9. Environmental Professional Certification

The undersigned declare the following:

I declare that, to the best of my professional knowledge and belief, I meet the definition of Environmental Professional as defined in §312.10 of 40 CFR Part 312; and

I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. I have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.



Kelly Hoggan, P.G. 9026 (CA)
Program Manager

10. Credentials

This Phase I report was prepared by David Rother, under the direct supervision of Kelly Hoggan, who served as the Environmental Professional(s) for this project. Qualification information for the project personnel is provided below.

DAVID ROTHER, Ph.D.
Project Geologist
This report was prepared by David Rother. Dr. Rother has approximately one year of experience in Phase I Environmental Site Assessments for due diligence purposes. The ESAs were performed for vacant properties, commercial, and industrial properties. As a geoscientist in the Resilience Group, he primarily is involved in evaluating and preparing climate vulnerability assessments, water audit reports, and energy security risk assessments.

KELLY HOGGAN, P.G. 9026 (CA)
Program Manager
Ms. Hoggan is a professional geologist with the state of California with more than 19 years of experience in combined consulting and environmental investigation experience. As a geologist and project manager in the Manufacturing Group, Ms. Hoggan is involved in a variety of projects, including long-term environmental projects at large industrial sites from the investigation phase to implementing cleanup action and closure reports. Her responsibilities have included soil, soil vapor, and groundwater investigation activities; planning, oversight, and coordination of subcontractors and site activities; data interpretation and report preparation; and interaction with clients, offsite property owners, permitting agencies, and regulators.

11. Glossary and Other Descriptions

11.1 GLOSSARY

All Appropriate Inquiry (AAI) — that inquiry constituting "all appropriate inquiry into the previous ownership and uses of the property consistent with good commercial or customary practice" as defined in CERCLA, 42 U.S.C. §9601(35)(B), that will qualify a party to a commercial real estate transaction for one of threshold criteria for satisfying the LLPs to CERCLA liability (42 U.S.C. §9601(35)(A) & (B), §9607(b)(3), §9607(q); and §9607(r)), assuming compliance with other elements of the defense.

Business Environmental Risk — a risk which can have a material environmental or environmentally-driven impact on the business associated with the current or planned use of a parcel of commercial real estate, not necessarily limited to those environmental issues required to be investigated in this practice. Consideration of business environmental risk issues may involve addressing one or more non-scope considerations.

Controlled Recognized Environmental Condition (CREC) — a recognized environmental condition resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority or authorities with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls.

Significant Data Gap — a data gap that affects the ability of the Environmental Professional to identify a recognized environmental condition.

De Minimis Conditions — a condition related to a release that generally does not present those conditions which "do not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies." The ASTM E1527-21 Standard notes that conditions determined to be *de minimis* are not recognized environmental conditions.

Environmental Professional — a person meeting the education, training, and experience requirements as set forth in 40 CFR §312.10(b).

Historical Recognized Environmental Condition (HREC) — a previous release of hazardous substances or petroleum products affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities and meeting unrestricted use criteria established by the applicable regulatory authority or authorities without subjecting the subject property to any controls. A historical recognized environmental condition is not a recognized environmental condition.

Key Site Manager — the person identified by the owner or operator of a subject property as having good knowledge of the uses and physical characteristics of the subject property.

Material Threat — an obvious threat which is likely to lead to a release and that, in the opinion of the Environmental Professional, would likely result in impact to public health or the environment.

Orphan Site — (not ASTM E1527-21 definition) — sites that could not be mapped due to poor or inadequate address information.

Recognized Environmental Condition (REC) — (1) the presence of hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to a release or likely release to the environment; or (3) the presence of hazardous substances or petroleum products in, on, or at the subject property under conditions that pose a material threat of a future release to the environment. *De minimis* conditions are not RECs.

11.2 DESCRIPTIONS OF DATABASES SEARCHED

Numerous regulatory databases were searched during this Phase I. Each database reviewed is described in the database report presented in Appendix D. Those databases required by the E1527-21 Standard are identified below.

1. **NPL Sites:** The National Priorities List (NPL) is a list of contaminated sites that are considered the highest priority for cleanup by the U.S. Environmental Protection Agency (USEPA).
2. **Delisted NPL Sites:** The Delisted NPL is a list of formal NPL sites formerly considered the highest priority for cleanup by the USEPA that met the criteria of the National Oil and Hazardous Substances Pollution Contingency Plan (NCP) for deletion from the NPL because a no further response was appropriate.
3. **CERCLIS Sites:** The Comprehensive Environmental Response, Compensation, and Liability Act Information System (CERCLIS) list identifies sites which are suspected to have contamination and require additional investigation to assess whether they should be considered for inclusion on the NPL.
4. **CERCLIS-NFRAP Sites:** CERCLIS-NFRAP status indicates that a site was once on the CERCLIS List but has No Further Response Actions Planned (NFRAP). Sites on the CERCLIS-NFRAP List were removed from the CERCLIS List in February 1995 because, after an initial investigation was performed, no contamination was found, contamination was removed quickly, or the contamination was not significant enough to warrant NPL status.
5. **Federal ERNS:** The Federal Emergency Response Notification System (ERNS) list tracks information on reported releases of oil and hazardous materials.
6. **RCRA non-CORRACTS TSD facilities:** The Resource Conservation and Recovery Act (RCRA) non-CORRACTS TSD Facilities List tracks facilities which treat, store, or dispose of hazardous waste and are not associated with corrective action activity.
7. **RCRA CORRACTS TSD facilities:** The RCRA CORRACTS TSD Facilities list catalogues facilities that treat, store, or dispose of hazardous waste and have been associated with corrective action activity.
8. **RCRA Generators:** The RCRA Generator list is maintained by the USEPA to track facilities that generate hazardous waste.
9. **Federal Institutional Controls/Engineering Controls:** The Federal Institutional Control list and Engineering Control list are maintained by the USEPA. Some Institutional Control and Engineering Control information may not be made publicly available and therefore will not be included on this registry.

10. **State and Tribal Equivalent NPL/CERCLIS Sites:** The ASTM E1527-21 Standard requires searching "State and Tribal Equivalent NPL Sites." In California, the equivalent NPL is the Response, which is maintained by the Department of Toxic Substances Control (DTSC).
11. **State and Tribal Equivalent CERCLIS Sites:** The ASTM E1527-21 Standard requires searching "State and Tribal Equivalent CERCLIS Sites." In California, the equivalent CERCLIS is the ENVIROSTOR which is maintained by the DTSC.
12. **State and Tribal Registered Storage Tanks:** The RWQCB maintains a list of aboveground and underground storage tanks registered with the RWQCB.
13. **State and Tribal Landfills and Solid Waste Disposal Sites:** DTSC maintains a list of regulated waste disposal sites.
14. **State and Tribal Leaking Storage Tanks:** RWQCB maintains a list of Leaking Storage Tanks (LUST/LAST). The LUST/LAST lists are a listing of release sites that have an Underground or Aboveground Storage Tank listed as the source.
15. **State and Tribal Institutional Controls/Engineering Controls:** DTSC maintains a list of sites with Institutional or Engineering controls in place.
16. **State and Tribal Voluntary Cleanup Sites:** DTSC maintains a list of Voluntary Cleanup sites.
17. **State and Tribal Brownfield Sites:** DTSC maintains a list of Brownfield sites which includes properties where redevelopment or reuse may be compromised by the presence or presumed presence of hazardous materials or petroleum.
18. Other site-specific relevant databases searched:
    - **AST** – A listing of aboveground storage tank petroleum storage tank locations.

APPENDIX A
Phase I Environmental Site Assessment Limitations

APPENDIX A

Haley & Aldrich, Inc. Limitations

Environmental site assessment (Phase I Environmental Site Assessment) reports prepared by Haley & Aldrich are for the sole and exclusive use of its Client. Haley & Aldrich represents that the Phase I Environmental Site Assessment was prepared in accordance with the ASTM International (ASTM) Standard E1527-21 entitled "Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process" (ASTM E1527-21). The findings, opinions, conclusions, and information contained in the ASTM E1527-21 Phase I Environmental Site Assessment are limited to, and solely based upon, information reasonably ascertainable by Haley & Aldrich at the time the ASTM E1527-21 Phase I Environmental Site Assessment was completed.

All users of this E1527-21 Phase I Environmental Site Assessment are bound to the terms and conditions and limitations contained in the accompanying Proposal, Terms and Conditions, and Limitations for this ASTM E1527-21 Phase I Environmental Site Assessment. The findings, opinions, conclusions, and information contained in this report are based solely on the Scope of Services provided pursuant to the Proposal and its attachments and the information reasonably ascertainable by Haley & Aldrich at the time the ASTM E1527-21 Phase I Environmental Site Assessment was completed. Haley & Aldrich has not performed any additional observations, investigations, studies, or other testing not specified in the Scope of Services. Haley & Aldrich shall not be liable for the existence of any condition the discovery of which would have required the performance of services not authorized under the Scope of Services.

This ASTM E1527-21 Phase I Environmental Site Assessment is prepared for the exclusive use of Haley & Aldrich's client in connection with the subject property for the purpose of assessing the potential or existing environmental contamination liabilities associated with the subject property. There are no intended beneficiaries other than Haley & Aldrich's client. Haley & Aldrich shall owe no duty whatsoever to any other person or entity by issuing the ASTM E1527-21 Phase I Environmental Site Assessment. Use of this ASTM E1527-21 Phase I Environmental Site Assessment by any person or entity, including by Haley & Aldrich's client, for a purpose other than for the purpose of assessing the potential or existing environmental contamination liabilities associated with the subject property is expressly prohibited unless such person or entity obtains written authorization from Haley & Aldrich indicating that the ASTM E1527-21 Phase I Environmental Site Assessment is adequate for such other use. Use of this ASTM E1527-21 Phase I Environmental Site Assessment by any person or entity for such other purpose without written authorization by Haley & Aldrich shall be at such person's or entity's sole risk and shall be without legal exposure or liability to Haley & Aldrich.

Haley & Aldrich may authorize third-party reliance on the ASTM E1527-21 Phase I Environmental Site Assessment by providing reliance letters to third party(ies) provided that the third party(ies) agree: (1) to use the ASTM E1527-21 Phase I Environmental Site Assessment only for the purpose of assessing the potential or existing environmental contamination liabilities associated with real property; (2) to be bound by the terms and conditions and limitations contained in the ASTM E1527-21 Phase I Environmental Site Assessment report and the proposal and its Attachments, Terms and Conditions, and Limitations; (3) to accept the form and substance of Haley & Aldrich's reliance letter; and (4) to deliver to Haley & Aldrich a signed copy of a reliance letter by an authorized representative of the relying party, within thirty (30) days after said reliance letter is provided to the relying party, signifying the relying party's acceptance of the aforementioned conditions. Upon Haley & Aldrich's receipt of the signed reliance letter by the relying party(ies), the relying party(ies) will be authorized to rely on Haley &

Aldrich's ASTM E1527-21 Phase I Environmental Site Assessment for the limited purpose of identifying potential or existing environmental contamination liabilities associated with the subject property. The relying party(ies) agree(s) to bind each of its respective successors and assigns to the aforementioned Terms and Conditions.

This ASTM E1527-21 Phase I Environmental Site Assessment reflects subject property conditions observed and described by records available to Haley & Aldrich as of the date of ASTM E1527-21 Phase I Environmental Site Assessment preparation. The passage of time may result in significant changes in subject property conditions, technology, or economic conditions, which could alter the findings and/or recommendations of the ASTM E1527-21 Phase I Environmental Site Assessment. Accordingly, Haley & Aldrich's client and any other party to whom the ASTM E1527-21 Phase I Environmental Site Assessment is provided recognize and agree that Haley & Aldrich shall bear no liability for deviations from observed conditions or available records after the time of ASTM E1527-21 Phase I Environmental Site Assessment preparation. Haley & Aldrich makes no express or implied representation that the information contained in the E1527-21 Phase I Environmental Site Assessment has continued viability after 180 days of the ASTM E1527-21 Phase I Environmental Site Assessment's completion date, and any use or reliance on the ASTM E1527-21 Phase I Environmental Site Assessment after 180 days of the ASTM E1527-21 Phase I Environmental Site Assessment's completion date by Haley & Aldrich's client or any other authorized person or entity will be at that party's sole risk and without liability to Haley & Aldrich.

Notwithstanding anything contained herein, Haley & Aldrich shall not be liable for any claim or damage arising from environmental contamination liabilities that occurred on the subject property after the effective date of the ASTM E1527-21 Phase I Environmental Site Assessment. Likewise, Haley & Aldrich shall not be liable for any existing or future property owner's failure to satisfy any continuing obligation for CERCLA liability protection or under the Federal Environmental Protection Agency's All Appropriate Inquiries rule.

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at approximately five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1920 through current. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

Summary information obtained is provided in the text of this report.

RECORD SOURCES

The EDR City Directory Report accesses a variety of business directory sources, including Haines, InfoUSA, Polk, Cole, Bresser, and Stewart. Listings marked as EDR Digital Archive access Cole and InfoUSA records. The various directory sources enhance and complement each other to provide a more thorough and accurate report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer.

Site Name:	Client Name:
5 Polaris Way	Haley & Aldrich
5 Polaris Way	9040 Friars Rd.
Aliso Viejo, CA 92656	San Diego, CA 92108
EDR Inquiry # 8076828.4	Contact: David Rother

EDR Topographic Map Library has been searched by EDR and maps covering the target property location as provided by Haley & Aldrich were identified for the years listed below. EDR's Historical Topo Map Report is designed to assist professionals in evaluating potential liability on a target property resulting from past activities. EDRs Historical Topo Map Report includes a search of a collection of public and private color historical topographic maps, dating back to the late 1800s.

Search Results:		*Coordinates:*	
P.O.#	NA	**Latitude:**	33.585202 33° 35' 7" North

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Haley & Aldrich were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

Certified Sanborn Results:

Certification # D9DA-48D2-8473

Project Aliso Viejo - Polaris Place

UNMAPPED PROPERTY

This report certifies that the complete holdings of the Sanborn Library, LLC collection have been searched based on client supplied target property information, and fire insurance maps covering the target property were not found.

Sanborn® Library search results

Certification #: D9DA-48D2-8473

The Sanborn Library includes more than 1.2 million fire insurance maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow and others which track historical property usage in approximately 12,000 American cities and towns. Collections searched:

- ☑ Library of Congress
- ☑ University Publications of America
- ☑ EDR Private Collection

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal RCRA generators

RCRA-LQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

A review of the RCRA-LQG list, as provided by EDR, and dated 06/02/2025 has revealed that there are 4 RCRA-LQG sites within approximately 0.25 miles of the target property.

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 06/02/2025 has revealed that there are 7 RCRA-SQG sites within approximately 0.25 miles of the target property.

Local Lists of Registered Storage Tanks

SWEEPS UST: Statewide Environmental Evaluation and Planning System. This underground storage tank listing was updated and maintained by a company contacted by the SWRCB in the early 1990's. The listing is no longer updated or maintained. The local agency is the contact for more information on a site on the SWEEPS list.

A review of the SWEEPS UST list, as provided by EDR, and dated 06/01/1994 has revealed that there is

1 SWEEPS UST site within approximately 0.25 miles of the target property.

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 06/02/2025 has revealed that there are 12 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

PFAS ECHO: Regulators and the public have expressed interest in knowing which regulated entities may be using PFAS. EPA has developed a dataset from various sources that show which industries may be handling PFAS. Approximately 120,000 facilities subject to federal environmental programs have operated or currently operate in industry sectors with processes that may involve handling and/or release of PFAS.

A review of the PFAS ECHO list, as provided by EDR, and dated 03/24/2025 has revealed that there are 4 PFAS ECHO sites within approximately 0.25 miles of the target property.

UST FINDER RELEASE: US EPA's UST Finder data is a national composite of leaking underground storage tanks. This data contains information about, and locations of, leaking underground storage tanks. Data was collected from state sources and standardized into a national profile by EPA's Office of Underground Storage Tanks, Office of Research and Development, and the Association of State and Territorial Solid Waste Management Officials.

A review of the UST FINDER RELEASE list, as provided by EDR, and dated 06/08/2023 has revealed that

there are 2 UST FINDER RELEASE sites within approximately 0.5 miles of the target property.

UST FINDER: EPA developed UST Finder, a web map application containing a comprehensive, state-sourced national map of underground storage tank (UST) and leaking UST (LUST) data. It provides the attributes and locations of active and closed USTs, UST facilities, and LUST sites from states and from Tribal lands and US territories . UST Finder contains information about proximity of UST facilities and LUST sites to: surface and groundwater public drinking water protection areas; estimated number of private domestic wells and number of people living nearby; and flooding and wildfires.

A review of the UST FINDER list, as provided by EDR, and dated 06/08/2023 has revealed that there is 1 UST FINDER site within approximately 0.25 miles of the target property.

E MANIFEST: EPA established a national system for tracking hazardous waste shipments electronically. This system, known as ?e-Manifest,? will modernize the nation?s cradle-to-grave hazardous waste tracking process while saving valuable time, resources, and dollars for industry and states.

A review of the E MANIFEST list, as provided by EDR, and dated 02/17/2025 has revealed that there are 18 E MANIFEST sites within approximately 0.25 miles of the target property.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR Hist Cleaner: EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories

reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Cleaner list, as provided by EDR, has revealed that there is 1 EDR Hist Cleaner site within approximately 0.125 miles of the target property.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the

ZETTLER SYSTEMS (Continued) **1000360756**

Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
California's Hazardous Waste Tracking System Data Mart (HWTS-DATAMART) provides information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

Eval General Type: Compliance Evaluation Inspection
Eval Date: 08-10-2022
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: On site for routine hazardous materials and business emergency plan (HMBP) . Allen Faass, Associate Director of Facilities and EH&S provided consent to inspect. Observed the following materials on site at reportable quantities: - liquid nitrogen - isopropanol Hazardous Materials disclosed in CERS 10770487 match what is reported on site. Training is reported to be conducted and records are kept online. Per California Health & Safety Code Ch. 6.95, businesses that store and handle hazardous materials at or over reportable quantities(55 gal of a liquid, 500 lbs of a solid, 200 cubic ft of a compressed gas) must prepare and implement an HMBP. The facility is responsible for identifying all hazardous materials, including hazardous wastes, which are at or above disclosure thresholds. If there is a change in the type of amount of chemicals that are maintained on site, please submit revised documents (electronically though CERS) within 30 days of change. The HMBP must be submitted online th

Waste Code: D003
Waste Description: Reactive Waste

Waste Code: D018
Waste Description: Benzene

Waste Code: D035
Waste Description: Methyl Ethyl Ketone

Waste Code: F003
Waste Description: The Following Spent Nonhalogenated Solvents: Xylene, Acetone, Ethyl Acetate, Ethyl Benzene, Ethyl Ether, Methyl Isobutyl Ketone, N-Butyl Alcohol, Cyclohexanone, And Methanol; All Spent Solvent Mixtures/Blends Containing, Before Use, Only The Above Spent Nonhalogenated Solvents; And All Spent Solvent Mixtures/Blends Containing, Before Use, One Or More Of The Above Nonhalogenated Solvents, And A Total Of Ten Percent Or More (By Volume) Of One Or More Of Those Solvents Listed In F001, F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F005
Waste Description: The Following Spent Nonhalogenated Solvents: Toluene, Methyl Ethyl Ketone, Carbon Disulfide, Isobutanol, Pyridine, Benzene, 2-Ethoxyethanol, And 2-Nitropropane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Nonhalogenated Solvents Or Those Solvents Listed In F001, F002, Or F004; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

CERS Description: Chemical Storage Facilities

Evaluation:
Eval General Type: Compliance Evaluation Inspection
Eval Date: 03-15-2024
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: On site to conduct a routine hazardous waste inspection. Manny Gonzalez, Technician 3, provided consent to inspect. This facility is a auto body/collision shop that works only on Tesla vehicles. The facility generates the following hazardous wastes: used safety devices (airbags), waste antifreeze, contaminated waste debris, universal waste (aerosol cans), used lead acid batteries, waste brake fluid, waste lubricant oil, waste flammable liquid/solids (from painting activities). A perimeter walk was conducted. Municipal dumpster does not appear to contain any hazardous waste. Pallets, scrap plastic, scrap auto glass, scrap metal are collected and picked up by ZARC Recycler. A log was available and reviewed. Manifest from Safety Kleen were available and reviewed. Emergency response information is posted near the front desk phone. Employees are reported to be trained. No hazardous waste violations were observed on this date. Inspection report emailed to manngonzalez@tesla.coml mailto:

Hazardous Waste Summary:

Waste Code:	D001
Waste Description:	Ignitable Waste

RXSIGHT, INC. (Continued) **1024876772**

Waste Code: D002
Waste Description: Corrosive Waste

Waste Code: D003
Waste Description: Reactive Waste

Waste Code: D022
Waste Description: Chloroform

Waste Code: F002
Waste Description: The Following Spent Halogenated Solvents: Tetrachloroethylene, Methylene Chloride, Trichloroethylene, 1,1,1-Trichloroethane, Chlorobenzene, 1,1,2-Trichloro-1,2,2-Trifluoroethane, Ortho-Dichlorobenzene, Trichlorofluoromethane, And 1,1,2, Trichloroethane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Halogenated Solvents Or Those Solvents Listed In F001, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F003
Waste Description: The Following Spent Nonhalogenated Solvents: Xylene, Acetone, Ethyl Acetate, Ethyl Benzene, Ethyl Ether, Methyl Isobutyl Ketone, N-Butyl Alcohol, Cyclohexanone, And Methanol; All Spent Solvent Mixtures/Blends Containing, Before Use, Only The Above Spent Nonhalogenated Solvents; And All Spent Solvent Mixtures/Blends Containing, Before Use, One Or More Of The Above Nonhalogenated Solvents, And A Total Of Ten Percent Or More (By Volume) Of One Or More Of Those Solvents Listed In F001, F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F005
Waste Description: The Following Spent Nonhalogenated Solvents: Toluene, Methyl Ethyl Ketone, Carbon Disulfide, Isobutanol, Pyridine, Benzene, 2-Ethoxyethanol, And 2-Nitropropane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Nonhalogenated Solvents Or Those Solvents Listed In F001, F002, Or F004; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Violation Date: 05-02-2024
Citation: HSC 6.95 25508.2 - California Health and Safety Code, Chapter 6.95, Section(s) 25508.2
Violation Description: Failure to annually review and electronically certify that the business plan is complete and accurate on or before the annual due date.
Violation Notes: OBSERVATION: The Hazardous Materials Business Plan (HMBP) was not reviewed and electronically certified by the annual due date of March 1 that it is complete, accurate, and in compliance with EPCRA.
Violation Division: Orange County Environmental Health
Violation Program: HMRRP
Violation Source: CERS,

Site ID: 412095
Site Name: PRESTIGE CLEANERS
Violation Date: 03-16-2022
Citation: HSC 6.95 25508.2 - California Health and Safety Code, Chapter 6.95, Section(s) 25508.2
Violation Description: Failure to annually review and electronically certify that the business plan is complete and accurate on or before the annual due date.
Violation Notes: Returned to compliance on 06/12/2024. OBSERVATION: The business failed to electronically submit and certify that the business plan is complete, accurate, and in compliance with EPCRA on or before the annual due date (March 1) CORRECTIVE ACTION: Electronically submit and certify that the business plan is complete, accurate, and in compliance with EPCRA within 30 days. On an ongoing basis, electronically submit and certify the business plan annually on or before the annual due date. Business changed ownership October 2023. Inspection conducted 6/12/2024. New owner has 30 days to report in CERS
Violation Division: Orange County Environmental Health
Violation Program: HMRRP

Site ID: 412095
Site Name: PRESTIGE CLEANERS
Violation Date: 10-11-2018
Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Description: Failure to complete and electronically submit a site map with all required content.
Violation Notes: OBSERVATION: The electronic submission of the Annotated Site Map is

PRESTIGE CLEANERS DBA LAURIE'S LAUNDRY (Continued) **S109430431**

not accurate and complete. The following inconsistencies were observed: 1. The street Aliso Creek Road was mislabeled as Aliso Creek Parkway. Change all Aliso Creek Parkway labels to Aliso Creek Road. 2. Relabel the emergency shut-off: a. The emergency gas and electric shut-offs located outside of the facility were observed to be on the side of the building and not behind it. b. The water shut-off inside of the facility could not be located by the inspector. c. Please verify the location of the emergency water shut-off located on the outside of the facility. The shut off, as noted on the map, could not be located by inspector. Indicate the correct locations for the emergency shut-offs on the map. CORRECTIVE ACTION: The site map must be updated to correctly identify all the required elements and reflect the current layout of the hazardous materials storage on site. Business must update and [Truncated]

Site ID: 412095
Site Name: PRESTIGE CLEANERS
Violation Date: 10-11-2018
Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Description: Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.
Violation Notes: OBSERVATION: The electronic submission of the Hazardous Materials Chemical Inventory is not accurate and complete. The following inconsistencies were observed: 1. The waste siloxane-green earth Average Daily appears to be incorrect. The Average Daily is intended to be the average amount of the waste siloxane-green earth in the metal drum during the 365 days of the year. Change the Average Daily to 25 gallons. 2. The siloxane-green earth Average Daily appears to be incorrect. The Average Daily is intended to be the average amount of siloxane-green earth in the dry cleaning machines plus any back up containers. Change the Average Daily to 80 gallons. CORRECTIVE ACTION: The business must update and re-submit the HMBEP to this Agency via the California Electronic Reporting System http://cers.calepa.ca.gov/. The violation must be corrected and documents must be submitted to this Agency within 30 days. The violation will not be abated until all sections are accepted in [Truncated]

Eval General Type: Other/Unknown
Eval Date: 05-02-2024
Violations Found: Yes
Eval Type: Other, not routine, done by local agency
Eval Notes: According to the CERS database, your business remains out of compliance with the annual certification requirement and a violation is being cited. Businesses are required to annually review and certify that their information in the California Electronic Reporting System (CERS) is complete, accurate and in compliance by March 1st. Your business was notified via email on March 27, 2024 that your facility was out of compliance with this requirement. Please note the following important details: 1) Complete submittal includes the HazMat Inventory AND the Emergency Plan / Training sections. Both sections must be submitted. 2) If your business qualifies (see below) you may submit 2024 via the Certify option available on CERS. You must be logged in to use. HMBP Certify: A business may use the Certify option button located on their forms page if: 1) A previous, complete submittal was made the prior year, and 2) The business is not subject to the Federal EPCRA reporting requirements, and 3)

Eval Type: Routine done by local agency
Eval Notes: On site for inspection. Walked facility with the latest disclosed site map. Locations for the required items appear to be accurate. No additional hazardous materials stored at or above disclosure threshold observed. Reviewed the latest submitted disclosure in e submit. The maximum daily amount for the hydrocarbon product (cleaning solvent in the reservoir below the cleaning machine) should be listed as 170 gallons. largest container should be listed as 80 gallons. Please make these modifications in the e submit portal.

Eval Source: CERS,

Eval General Type: Compliance Evaluation Inspection
Eval Date: 03-16-2022
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: On site to conduct a routine hazardous waste inspection. Kevin Peralta provided consent to inspect. Walked throughout the facility and observed the facility's Hazardous Waste storage area (located next to the dry cleaning machine). The hazardous waste drum is properly labeled and stored closed. A perimeter walk was conducted. Municipal dumpster does not appear to contain any hazardous waste. Hazardous waste is picked up by Safety Kleen. Emergency response information is posted and employees are reported to be trained. Inspection report emailed to LauriePrestige@gmail.com

Violation Description:	Failure to maintain a complete copy of the SPCC Plan at the facility if the facility is normally attended at least four hours per day, or at the nearest field office if the facility is not so attended.
Violation Notes:	Returned to compliance on 02/06/2018. A current SPCC plan was not available for review. You must prepare a written SPCC plan and ensure that it is available for review. Your facility qualifies as a Tier 1 facility and may self-certify a SPCC Plan using the federal template. The complete SPCC must be onsite. Facilities that are a qualified Tier I facility (less than 10,000 gallons and no single container greater than 5,000 gallons) can create their own SPCC Plan using the federal template. OCHCA has a website with information regarding the APST program as well as the SPCC Plan requirements: http://occupainfo.com/programs/apst

Violation Description:	Failure to provide employees with hazardous waste training program of class room instructions or on-the-job training within the first six months after the date of their employment or assignment to a facility, or to a new position at a facility and annually thereafter. Training records on current personnel shall be kept until closure of the facility and for former employees the record shall be kept for at least three years from the date the employee last worked at the facility. The records shall include the following: the job title for each position at the facility related to hazardous waste management, and the name of the employee filling each job; a written job description for each position, duties of facility personnel assigned to each position, and a written description of the type and amount of both introductory and continuing training that will be given to each person filling a position.
Violation Notes:	Returned to compliance on 08/06/2018. OBSERVATION: NO training records for pertinent HW handlers were available. Personnel who handle hazardous waste shall be trained within six months of assignment and take part in an annual review of the initial training received. At a minimum, the training program shall be designed to ensure that

NEOGENOMICS LABORATORIES INC. (Continued) **S123504649**

facility personnel are able to respond effectively to emergencies by familiarizing them with emergency procedures, emergency equipment, and emergency systems. The owner or operator shall maintain the following documents and records at the facility: 1) the job title for each position at the facility related to hazardous waste management, and the name of each employee filling each job; 2) written job description for each position listed above; 3) written description of the type and amount of both introductory and continuing training that will be given to each person filing positions listed above; 4) records that document that the training has been given to and completed by facility [Truncated]

Eval Notes: NEOGENOMICS LABORATORIES, INC. 31 COLUMBIA ALISO VIEJO, CA 92656 On site for a recycler inspection with Bhavika Lodhia. This facility currently recycles the following solvents: alcohol and xylene. The recycling process yields a container of recycled solvent and a container of waste solvent. The recycling activity is authorized by H&SC 25143.2(c). Used solvent for recycling and waste containers were labeled with hazardous waste labels. Recycled xylene solvent was labeled as Recycled Xylene Observed Recycling Log recording how much solvent is recycled per month. If recycling more than 100 kg/mo or ~30 gallons per month, report on the California Environmental Reporting System (CERS) and complete the Recyclable Materials Report. The Recyclable Materials Report is due every even year on July 1. The report will be based on the last 2 calendar years, or since the change of ownership occurred in March 2017. Eval Notes: On site for an initial APST inspection. Toured facility with Marielle Bullock. Currently there are three ASTs on site [3500 gallon (empty), 400 gallon (diesel) & 940 gallon (transformer oil)]. Per Marielle Bullock, the 400 gallon tank will be removed and the 3500 gallon tank will contain the diesel for the generator by the end of January 2014. At that time the SPCC plan will be updated and PE stamped. Monthly tank inspections and annual training performed. Received CUPA forms dated 11-18-13 (business activities, owner/operator ID and APST). * Notify Health Care Agency when plan is updated. Provide copy of PE stamped page to Health Care Agency.

Hazardous Waste Summary:
Waste Code: D001
Waste Description: Ignitable Waste

Waste Code: D002
Waste Description: Corrosive Waste

Waste Code: D003
Waste Description: Reactive Waste

Waste Code: D009
Waste Description: Mercury

Waste Code: D018
Waste Description: Benzene

Waste Code: D035
Waste Description: Methyl Ethyl Ketone

Waste Code: F003
Waste Description: The Following Spent Nonhalogenated Solvents: Xylene, Acetone, Ethyl Acetate, Ethyl Benzene, Ethyl Ether, Methyl Isobutyl Ketone, N-Butyl Alcohol, Cyclohexanone, And Methanol; All Spent Solvent Mixtures/Blends Containing, Before Use, Only The Above Spent Nonhalogenated Solvents; And All Spent Solvent Mixtures/Blends Containing, Before Use, One Or More Of The Above Nonhalogenated

NEOGENOMICS LABORATORIES, INC. (Continued) **1010314275**

Solvents, And A Total Of Ten Percent Or More (By Volume) Of One Or More Of Those Solvents Listed In F001, F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: LABP
Waste Description: Lab Pack

Waste Code: P105
Waste Description: Sodium Azide

Waste Code: U002
Waste Description: 2-Propanone (I) (Or) Acetone (I)

Waste Code: U122
Waste Description: Formaldehyde

Waste Code: U154
Waste Description: Methanol (I) (Or) Methyl Alcohol (I)

Waste Code: U239
Waste Description: Benzene, Dimethyl- (I,T) (Or) Xylene (I)

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Violation Date: 05-02-2024
Citation: HSC 6.95 25508.2 - California Health and Safety Code, Chapter 6.95, Section(s) 25508.2
Violation Description: Failure to annually review and electronically certify that the business plan is complete and accurate on or before the annual due date.
Violation Notes: OBSERVATION: The Hazardous Materials Business Plan (HMBP) was not reviewed and electronically certified by the annual due date of March 1 that it is complete, accurate, and in compliance with EPCRA.
Violation Division: Orange County Environmental Health
Violation Program: HMRRP
Violation Source: CERS,

Evaluation:
Eval General Type: Compliance Evaluation Inspection
Eval Date: 02-27-2025
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: The SPCC is being prepared for the emergency fuel generator.
Eval Division: Orange County Environmental Health
Eval Program: APSA
Eval Source: CERS,

Eval General Type: Compliance Evaluation Inspection
Eval Date: 11-12-2020
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: On site for an aboveground petroleum storage tank (APST) inspection.

MICROVENTION INC / TERUMO MEDICAL CORPORATION (Continued) **S123519337**

Access to this facility was provided by Todd Kulzer. Facility contains: - 2 Diesel APST (backup generators) Facility is regulated under the Aboveground Storage Tank Act (APSA). This facility has between 1,320 and 9,999 gallons of regulated petroleum products (Tier 1 facility). Facility has the following: - Periodic checklist is available for tanks (weekly) - Appropriate secondary containment or diversionary structures A copy of this report will be emailed to: TODD.KULZER@PACIFICLIFE.COM

Eval Division: Orange County Environmental Health

Eval Source: CERS,

Eval General Type: Compliance Evaluation Inspection
Eval Date: 02-27-2025
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: On site for routine hazard us materials and business emergency plan (HMBP) . John McGarringle, Sr EHS Manager provided consent to inspect. The following materials on site at reportable quantities: - diesel fuel - CHEM Aqua (for chiller) Hazardous Materials disclosed in CERS 10737703 match what is reported on site. Training is reported to be conducted and records are kept online. This building is used for office/administrative purposes Inspection report emailed to john.mcgarrigle@microventi

Eval Division: Orange County Environmental Health
Eval Program: HMRRP
Eval Source: CERS,

Eval General Type: Other/Unknown
Eval Date: 05-02-2024
Violations Found: Yes
Eval Type: Other, not routine, done by local agency
Eval Notes: According to the CERS database, your business remains out of compliance with the annual certification requirement and a violation is being cited. Businesses are required to annually review and certify that their information in the California Electronic Reporting System (CERS) is complete, accurate and in compliance by March 1st. Your business was notified via email on March 27, 2024 that your facility was out of compliance with this requirement. Please note the following important details: 1) Complete submittal includes the HazMat Inventory AND the Emergency Plan / Training sections. Both sections must be submitted. 2) If your business qualifies (see below) you may submit 2024 via the Certify option available on CERS. You must be logged in to use. HMBP Certify: A business may use the Certify option button located on their forms page if: 1) A previous, complete submittal was made the prior year, and 2) The business is not subject to the Federal EPCRA reporting requirements, and 3)

Eval Notes: An onsite hazardous materials inspection of this facility was conducted this date. Access to the facility was provided by Todd

MICROVENTION INC / TERUMO MEDICAL CORPORATION (Continued) **S123519337**

Kulzer. This facility should be re-classified to a lower program element. The following materials were observed in amounts that meet or exceed the minimum volumes required for disclosure: - Diesel fuel - Propane - Lead acid batteries - Refrigerant A copy of this inspection report will be emailed to: TODD.KULZER@PACIFICLIFE.COM

Eval Division: Orange County Environmental Health
Eval Program: HMRRP
Eval Source: CERS,

Eval General Type: Other/Unknown
Eval Date: 12-01-2020
Violations Found: No
Eval Type: Other, not routine, done by local agency
Eval Notes: A follow-up inspection was conducted this date (12/1/20). The violations noted below are in reference to a visit or review of your facility conducted on 11/12/20. OUTSTANDING VIOLATIONS - 12/1/20 NONE CORRECTED VIOLATIONS - 12/1/20 I085 - The operator has submitted a newly developed SPCC plan (review date 11/18/2020). Inspection logs viewed onsite match the frequency specified in the the plan. An inspection report is to be emailed to: TODD.KULZER@PACIFICLIFE.COM

Eval Division: Orange County Environmental Health
Eval Program: APSA
Eval Source: CERS,

Eval General Type: Compliance Evaluation Inspection
Eval Date: 04-14-2023
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: On site for routine hazardous materials and business emergency plan inspection. Spoke with the security guard on duty and the building is currently vacant as the tenants moved to their Newport Beach location while renovations were being completed. Spoke on the phone with Mr. Robert Coffman, facility manager, and he verified that the building is currently vacant and the company is making a decision on whether to retain or sell the property. CERS 10737703 indicates the facility has the following hazardous materials above disclosure amount: refrigerant, lead acid batteries, propane, and diesel fuel. The hazardous materials could not be verified on the day of this inspection due to it being under renovation.

Environmental Interest/Information System:
All generators and treatment, storage, and disposal (TSD) facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years. The data collected is used to create the National Biennial Resource Conservation and Recovery Act (RCRA) Hazardous Waste Report. This data is processed within the RCRA Information (RCRAInfo) database
THE EMISSION INVENTORY SYSTEM (EIS) MAINTAINS AN INVENTORY OF LARGE STATIONARY SOURCES AND VOLUNTARILY-REPORTED SMALLER SOURCES OF AIR POINT POLLUTANT EMITTERS. IT CONTAINS INFORMATION ABOUT FACILITY SITES AND THEIR PHYSICAL LOCATION, EMISSIONS UNITS, EMISSIONS PROCESSES, RELEASE POINTS, CONTROL APPROACHES, AND REGULATIONS. FACILITY INVENTORY DATA ARE KEPT SEPARATE FROM THE EMISSIONS DATA AND HAVE STABLE IDENTIFIERS TO IMPROVE CONTINUITY FROM YEAR TO YEAR AND TO HELP IDENTIFY DUPLICATE OR MISSING FACILITIES
The Resource Conservation and Recovery Act Information System

MICROVENTION, INC. (Continued) **1023710068**

(RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
The Department of Labor, Occupational Safety and Health Administration information system consists of inspection case detail for approximately 100,000 OSHA inspections conducted annually. The FRS dataset includes facilities that had inspections within the last 7 years within the mining, oil and gas, utilities, and manufacturing sectors.

Hazardous Waste Summary:
Waste Code: D001
Waste Description: Ignitable Waste

Waste Code: D002
Waste Description: Corrosive Waste

Waste Code: D005
Waste Description: Barium

Waste Code: D006
Waste Description: Cadmium

Waste Code: D007
Waste Description: Chromium

Waste Code: D008
Waste Description: Lead

Waste Code: D009
Waste Description: Mercury

Waste Code: D010
Waste Description: Selenium

Waste Code: D022
Waste Description: Chloroform

Waste Code: F001
Waste Description: The Following Spent Halogenated Solvents Used In Degreasing: Tetrachloroethylene, Trichlorethylene, Methylene Chloride, 1,1,1-Trichloroethane, Carbon Tetrachloride And Chlorinated Fluorocarbons; All Spent Solvent Mixtures/Blends Used In Degreasing Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Halogenated Solvents Or Those Solvents Listed In F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F002
Waste Description: The Following Spent Halogenated Solvents: Tetrachloroethylene, Methylene Chloride, Trichloroethylene, 1,1,1-Trichloroethane, Chlorobenzene, 1,1,2-Trichloro-1,2,2-Trifluoroethane,

MICROVENTION INC (Continued) **1023675286**

Ortho-Dichlorobenzene, Trichlorofluoromethane, And 1,1,2, Trichloroethane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Halogenated Solvents Or Those Solvents Listed In F001, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F003
Waste Description: The Following Spent Nonhalogenated Solvents: Xylene, Acetone, Ethyl Acetate, Ethyl Benzene, Ethyl Ether, Methyl Isobutyl Ketone, N-Butyl Alcohol, Cyclohexanone, And Methanol; All Spent Solvent Mixtures/Blends Containing, Before Use, Only The Above Spent Nonhalogenated Solvents; And All Spent Solvent Mixtures/Blends Containing, Before Use, One Or More Of The Above Nonhalogenated Solvents, And A Total Of Ten Percent Or More (By Volume) Of One Or More Of Those Solvents Listed In F001, F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F005
Waste Description: The Following Spent Nonhalogenated Solvents: Toluene, Methyl Ethyl Ketone, Carbon Disulfide, Isobutanol, Pyridine, Benzene, 2-Ethoxyethanol, And 2-Nitropropane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Nonhalogenated Solvents Or Those Solvents Listed In F001, F002, Or F004; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F006
Waste Description: Wastewater Treatment Sludges From Electroplating Operations, Except From The Following Processes: (1) Sulfuric Acid Anodizing Of Aluminum; (2) Tin Plating On Carbon Steel; (3) Zinc Plating (Segregated Basis) On Carbon Steel; (4) Aluminum Or Zinc-Aluminum Plating On Carbon Steel; (5) Cleaning/Stripping Associated With Tin, Zinc, And Aluminum Plating On Carbon Steel; And (6) Chemical Etching And Milling Of Aluminum.

TSD EPA ID:	UTD981552177
CA Waste Code:	135 - Unspecified aqueous solution
Disposal Method:	H040 - Incineration--Thermal Destruction Other Than Use As A Fuel
Tons:	1.3425

Year:	2021
Gepaid:	CAR000273185
TSD EPA ID:	UTD981552177
CA Waste Code:	791 - Liquids with pH <= 2
Disposal Method:	H040 - Incineration--Thermal Destruction Other Than Use As A Fuel
Tons:	0.35

Year:	2021
Gepaid:	CAR000273185
TSD EPA ID:	CAD044429835
CA Waste Code:	551 - Laboratory waste chemicals
Disposal Method:	H141 - Storage, Bulking, And/Or Transfer Off Site--No Treatment/Reovery (H010-H129) Or (H131-H135)
Tons:	0.0255

Year:	2021
Gepaid:	CAR000273185
TSD EPA ID:	UTD981552177
CA Waste Code:	792 - Liquids with pH <= 2 with metals
Disposal Method:	H040 - Incineration--Thermal Destruction Other Than Use As A Fuel
Tons:	0.0075

Year:	2021
Gepaid:	CAR000273185
TSD EPA ID:	ARD069748192
CA Waste Code:	551 - Laboratory waste chemicals
Disposal Method:	H040 - Incineration--Thermal Destruction Other Than Use As A Fuel
Tons:	0.1267

Violation Date:	03-07-2018
Citation:	22 CCR 15 66265.51 - California Code of Regulations, Title 22, Chapter 15, Section(s) 66265.51
Violation Description:	Failure to prepare and implement a written Contingency Plan to minimize hazards to human health or the environment from fires, explosions, or any unplanned sudden or non-sudden release of hazardous waste or hazardous waste constituents to air, soil, or surface water.

MICROVENTION INC (Continued) **S123079766**

Violation Notes:	Returned to compliance on 06/06/2018. OBSERVATION: Facility failed to prepare a contingency plan. The owner or operator shall prepare a contingency plan designed to minimize hazards to human health or the environment from fires, explosions, or any unplanned release of hazardous waste to air, soil, or surface water. CORRECTIVE ACTION: Prepare a contingency plan and submit a copy to the CUPA within 60 days.

Citation:	HSC 6.95 25505(a)(4) - California Health and Safety Code, Chapter 6.95, Section(s) 25505(a)(4)
Violation Description:	Failure to provide initial and annual training to all employees in safety procedures in the event of a release or threatened release of a hazardous material or failure to document and maintain training records for a minimum of three years.
Violation Notes:	Returned to compliance on 06/05/2018. OBSERVATION: training documentation for all applicable employees was not available. CORRECTIVE ACTION: Submit documentation to the CUPA demonstrating that all employees have received training on safe handling of hazardous materials and the Emergency Response Plan. Submit a copy of the training documentation showing all employees were trained and what was included in the training within 30 days to abate the violation. The log should include info on the training contents of Emergency Response Training and hazardous materials training for spills, location of emergency equipment etc.

MICROVENTION INC (Continued) **S123079766**

	the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.
Violation Notes:	Returned to compliance on 06/06/2018. OBSERVATION: All hazardous waste except that located in the final storage area are not completely labeled. All hazardous waste containers shall be marked with the following information: 1) the words Hazardous Waste ; 2) name and address of generator; 3) hazardous properties; 4) physical state; 5) composition (contents); 6) accumulation start date. The containers in the labs/clean rooms/ other generation areas as well as the transport containers must be labeled at all times and include all of the above info at all times. In addition, your use of letters to denote waste streams is fine only if the complete info is also included on the container. CORRECTIVE ACTION: Immediately label these containers and ensure that all hazardous waste containers are marked with all the required information. A follow up inspection will be done to verify that all containers are completely labeled.

Violation Description:	Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.
Violation Notes:	Returned to compliance on 06/05/2018. The facility has submitted in CERS, in general as discussed during the inspection, over disclosure is discouraged. Only disclose hazardous materials that are stored in total amounts in excess of; 55 gallons liquid, 500 pounds solid and 200 cubic feet of gas (inert gas at 1000 cubic feet). On the inspection, it appears that the following chemicals need further assessment. Compressed Argon gas- check amounts throughout building and disclose if 1000 cubic feet or over (separate disclosure than liquid/cryogenic). Add oxygen gas at 2650 cubic feet (check the rest of the building for additional cylinders-we found 8 cylinders). Check the amount of methanol and ammonium hydroxide for disclosure. Also check the amount of MTBE. Waste C appears to be stored in gallons up to 110 gallons. Review the chemicals and submit all disclosable items.

Site Name:	Tesla Service - Aliso Viejo
Violation Date:	12-11-2015
Citation:	HSC 6.67 25270.4.5(a) - California Health and Safety Code, Chapter 6.67, Section(s) 25270.4.5(a)
Violation Description:	Failure to comply with all of the following requirements: 1. Failure to conduct inspections and tests in accordance with written procedures that you or a certifying engineer have developed for the facility. 2. Failure to sign written procedures and/or a record of inspections and/or customary business records by the appropriate supervisor or inspector. 3. Failure to keep written procedures and/or a record of inspections and/or customary business records with the plan. AND 4. Failure to maintain written procedures and/or a record of inspections and/or customary business records for three years.
Violation Notes:	Returned to compliance on 02/17/2016. Tank inspections currently not being performed. All tank systems covered in the SPCC plan must be inspected. Frequency of the inspections must be done as per the plan or at minimum on a monthly basis. Lowe’s plan requires weekly inspections. Document the inspections. Keep inspection log available for review during the past three years.

Eval Notes: Onsite inspection this date in regards to the backup generator located onsite. The facility is in the process of closing at this time, and the site will be maintained and monitored with APST inspections per the current SPCC plan until the site is transferred back to the property owner when the lease is up. I walked the site with Keith Williams of Hillco, a subcontractor in the process of removing racking. The double wall tank is in the back and securely locked. Discussion with CERS site environmental contact Laurie Litman. Discussed APST requirements. She will obtain information in regards to when the lease ends, as well as who the property owner/manager that will then be required to implement the SPCC plan. She states that she will notify me with this information as well as update CERS with property owner information to ensure smooth transition of SPCC requirements. Emailed report to Laurie Litman

Eval Date: 01-14-2016
Violations Found: No
Eval Type: Other, not routine, done by local agency
Eval Notes: On site for a follow up inspection. Met with Abdullah Abdallat (assistant manager). One inspection was performed but no inspection log has been completed. The SPCC plan indicates that weekly inspections are to be performed and recorded. Make sure the inspections are performed at that frequency. Keep a log for these inspections on site and available for review. Employee training for the SPCC plan still needs to be provided. Immediately schedule the training to all "diesel handling personnel". Document the training and keep records available for review. A follow up inspection will be performed in 30 days.

Eval General Type: Compliance Evaluation Inspection
Eval Date: 01-17-2019
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: Emailed report to Laurie Litman Onsite inspection this date in regards to Hazardous Materials disclosure. The facility is in the process of closing at this time, and the site has disposed of all hazardous waste, and the only hazardous materials left onsite are propane and diesel in the backup generator. I walked the site with Keith Williams of Hillco, a subcontractor in the process of removing racking. Discussion with CERS site environmental contact Laurie Litman. Discussed hazardous materials disclosure requirements. She will obtain information in regards to when the lease ends, as well as who the property owner/manager that will then be required to implement the SPCC plan. She states that she will notify me with this information as well as update CERS with property owner information to ensure smooth transition of haz mat disclosure requirements.

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
All generators and treatment, storage, and disposal (TSD) facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years. The data collected is used to create the National Biennial Resource Conservation and Recovery Act (RCRA) Hazardous Waste Report. This data is processed within the RCRA Information (RCRAInfo) database
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS),EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), andToxic Release Inventory (TRI).
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
California's Hazardous Waste Tracking System Data Mart (HWTS-DATAMART) provides information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

Violation Date: 01-07-2019
Citation: 23 CCR 16 2665(b) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2665(b)
Violation Description: "Failure to submit a copy of the overfill prevention equipment inspection results on the Overfill Prevention Equipment Inspection Report Form to the UPA within 30 days after the inspection. "
Violation Notes: Returned to compliance on 02/05/2019. OBSERVATION: Owner/operator failed to submit a copy of the overfill prevention equipment inspection results on the Overfill Prevention Equipment Inspection Report Form to the UPA within 30 days after the inspection. CORRECTIVE ACTION: Submit a copy of the overfill prevention equipment inspection results on the Overfill Prevention Equipment Inspection Report Form to the UPA within 30 days. Allan Painter states that the overfill inspection was done in September of 2018, he does not have a copy of the results, and they have not been submitted to this Agency. Find and submit a copy of the overfill testing results within 30 days to abate this violation.

Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Description: Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.
Violation Notes: Returned to compliance on 02/14/2018. OBSERVATION: The facility has not accurately submitted the Hazardous Materials Inventory Chemical Description pages make the following changes and resubmit to the CUPA. 1. On the chemical disclosures for solids (which most are as you solidify most waste), change the units for solids to pounds, and delete all chemical disclosures that do not exceed 500 pounds for solids. In the case of the wastes from spills, review of your manifests show that the poundages for: waste flammable solids, waste oxidizing solids, waste organic peroxides, waste corrosive solids and waste other regulated solids are all well under the 500 pounds at all times. Review to verify then remove disclosures for these wastes as well as drain oil filters, drained paper filters, possibly the grease if max daily is less than 500 pounds, remove spent brake fluid, and possibly petroleum contaminated solid if less than 500 pounds stored onsite. 2. research the waste generated in April 2017, listed as 3 drums [Truncated]

Citation:	23 CCR 16 2712(b)(1)(G) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2712(b)(1)(G)
Violation Description:	Failure to comply with one or more of the following overfill prevention equipment requirements: Alert the transfer operator when the tank is 90 percent full by restricting the flow into the tank or triggering an audible and visual alarm; or Restrict delivery of flow to the tank at least 30 minutes before the tank overfills, provided the restriction occurs when the tank is filled to no more than 95 percent of capacity; and activate an audible alarm at least five minutes before the tank overfills; or Provide positive shut-off of flow to the tank when the tank is filled to no more than 95 percent of capacity; or Provide positive shut-off of flow to the tank so that none of the fittings located on the top of the tank are exposed to product due to overfilling. Install/retrofit overfill prevention equipment that does not use flow restrictors on vent piping to meet overfill prevention equipment requirements when the overfill prevention equipment is installed, repaired, or replaced on and after October 1, 2018. For USTs installed before October 1, 2018, perform an inspection by October 13, 2018 and every 36 months thereafter. For USTs installed on and after October 1, 2018, perform an inspection at installation and every 36 months thereafter. Inspected within 30 days after a repair to the overfill prevention equipment. Inspected using an applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer. Inspected by a certified UST service technician. Maintain records of overfill prevention equipment inspection for 36 months.
Violation Notes:	Returned to compliance on 12/13/2021. The Shut-Off Valve in New Oil tank (T4) is broken and waste oil tank's overfill prevention equipment was not tested due to broken/disconnected probe wiring. Overfill prevention equipment for both new oil and waste oil tanks must replaced/repaired and retested within 30 day of this inspection report.

Eval Notes: I received and reviewed Secondary Containment Testing Report Form (3 year SB989) for activities conducted on 7/22/21. All components passed test, except for the following: - Diesel West - Product Line - New Oil - Product Line - Waste Oil Line - UDCs 2 and 8 South Investigation to determine all secondary containment failures must be conducted and if necessary, plans for repair/replacement must be submitted to this Agency within 30 days of this report. In addition, this facility is currently operating underground tanks without a permit since this agency has not received any correspondence or notifications regarding removing and/or replacing gasoline tank that had a primary containment failure in 9/2020. Failure in gasoline tank must be addressed within 30 days of this inspection report to prevent further enforcement action.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 06/26/2025

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 06/26/2025

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Lists of Federal Delisted NPL sites

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

Lists of Federal RCRA TSD facilities

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Lists of state- and tribal hazardous waste facilities

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites
Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

EPA WATCH LIST: EPA Watch List

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

SSTS: Section 7 Tracking Systems

Section 7 of the Federal Insecticide, Fungicide and Rodenticide Act, as amended (92 Stat. 829) requires all registered pesticide-producing establishments to submit a report to the Environmental Protection Agency by March 1st each year. Each establishment must report the types and amounts of pesticides, active ingredients and devices being produced, and those having been produced and sold or distributed in the past year.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing
A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

PFAS TRIS: List of PFAS Added to the TRI

Section 7321 of the National Defense Authorization Act for Fiscal Year 2020 (NDAA) immediately added certain per- and polyfluoroalkyl substances (PFAS) to the list of chemicals covered by the Toxics Release Inventory (TRI) under Section 313 of the Emergency Planning and Community Right-to-Know Act (EPCRA) and provided a framework for additional PFAS to be added to TRI on an annual basis.

PFAS RCRA MANIFEST: PFAS Transfers Identified In the RCRA Database Listing

To work around the lack of PFAS waste codes in the RCRA database, EPA developed the PFAS Transfers dataset by mining e-Manifest records containing at least one of these common PFAS keywords: PFAS, PFOA, PFOS, PERFL, AFFF, GENX, GEN-X (plus the VT waste codes). These keywords were searched for in the following text fields: Manifest handling instructions (MANIFEST_HANDLING_INSTR), Non-hazardous waste description (NON_HAZ_WASTE_DESCRIPTION), DOT printed information (DOT_PRINTED_INFORMATION), Waste line handling instructions (WASTE_LINE_HANDLING_INSTR), Waste residue comments (WASTE_RESIDUE_COMMENTS).

PFAS ATSDR: PFAS Contamination Site Location Listing

PFAS contamination site locations from the Department of Health & Human Services, Center for Disease Control & Prevention. ATSDR is involved at a number of PFAS-related sites, either directly or through assisting state and federal partners. As of now, most sites are related to drinking water contamination connected with PFAS production facilities or fire training areas where aqueous film-forming firefighting foam (AFFF) was regularly used.

PFAS WQP: Ambient Environmental Sampling for PFAS

The Water Quality Portal (WQP) is a part of a modernized repository storing ambient sampling data for all environmental media and tissue samples. A wide range of federal, state, tribal and local governments, academic and non-governmental organizations and individuals submit project details and sampling results to this public repository. The information is commonly used for research and assessments of environmental quality.

PFAS NPDES: Clean Water Act Discharge Monitoring Information

Any discharger of pollutants to waters of the United States from a point source must have a National Pollutant Discharge Elimination System (NPDES) permit. The process for obtaining limits involves the regulated entity (permittee) disclosing releases in a NPDES permit application and the permitting authority (typically the state but sometimes EPA) deciding whether to require monitoring or monitoring with limits. Caveats and Limitations: Less than half of states have required PFAS monitoring for at least one of their permittees and fewer states have established PFAS effluent limits for permittees. New rulemakings have been initiated that may increase the number of facilities monitoring for PFAS in the future.

PFAS ECHO: Facilities in Industries that May Be Handling PFAS Listing

Regulators and the public have expressed interest in knowing which regulated entities may be using PFAS. EPA has developed a dataset from various sources that show which industries may be handling PFAS. Approximately 120,000 facilities subject to federal environmental programs have operated or currently operate in industry sectors with processes that may involve handling and/or release of PFAS.

PFAS ECHO FIRE TRAIN: Facilities in Industries that May Be Handling PFAS Listing

A list of fire training sites was added to the Industry Sectors dataset using a keyword search on the permitted facilitys name to identify sites where fire-fighting foam may have been used in training exercises. Additionally, you may view an example spreadsheet of the subset of fire training facility data, as well as the keywords used in selecting or deselecting a facility for the subset. as well as the keywords used in selecting or deselecting a facility for the subset. These keywords were tested to maximize accuracy in selecting facilities that may use fire-fighting foam in training exercises, however, due to the lack of a required reporting field in the data systems for designating fire training sites, this methodology may not identify all fire training sites or may potentially misidentify them.

PFAS PT 139 AIRPORT: All Certified Part 139 Airports PFAS Information Listing

Since July 1, 2006, all certified part 139 airports are required to have fire-fighting foam onsite that meet military specifications (MIL-F-24385) (14 CFR 139.317). To date, these military specification fire-fighting foams are fluorinated and have been historically used for training and extinguishing. The 2018 FAA Reauthorization Act has a provision stating that no later than October 2021, FAA shall not require the use of fluorinated AFFF. This provision does not prohibit the use of fluorinated AFFF at Part 139 civilian airports; it only prohibits FAA from mandating its use. The Federal Aviation Administration?s document AC 150/5210-6D - Aircraft Fire Extinguishing Agents provides guidance on Aircraft Fire Extinguishing Agents, which includes Aqueous Film Forming Foam (AFFF).

AQUEOUS FOAM NRC: Aqueous Foam Related Incidents Listing

The National Response Center (NRC) serves as an emergency call center that fields initial reports for pollution and railroad incidents and forwards that information to appropriate federal/state agencies for response. The spreadsheets posted to the NRC website contain initial incident data that has not been validated or investigated by a federal/state response agency. Response center calls from 1990 to the most recent complete calendar year where there was indication of Aqueous Film Forming Foam (AFFF) usage are included in this dataset. NRC calls may reference AFFF usage in the ?Material Involved? or ?Incident Description? fields.

UST FINDER: UST Finder Database

EPA developed UST Finder, a web map application containing a comprehensive, state-sourced national map of underground storage tank (UST) and leaking UST (LUST) data. It provides the attributes and locations of active and closed USTs, UST facilities, and LUST sites from states and from Tribal lands and US territories . UST Finder contains information about proximity of UST facilities and LUST sites to: surface and groundwater public drinking water protection areas; estimated number of private domestic wells and number of people living nearby; and flooding and wildfires.

Data Release Frequency: Varies

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

WASTEWATER PITS: Oil Wastewater Pits Listing
Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water boards review found that more than one-third of the region's active disposal pits are operating without permission.

WDR: Waste Discharge Requirements Listing
In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants
The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

EDR Hist Cleaner: EDR Exclusive Historical Cleaners

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:
Source: American Hospital Association, Inc.
Telephone: 312-280-5991
The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing

UTM Y (Meters):	3716208.0
Elevation:	489 ft. above sea level

USGS TOPOGRAPHIC MAP

Target Property Map:	50006201 SAN JUAN CAPISTRANO, CA
Version Date:	2022

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

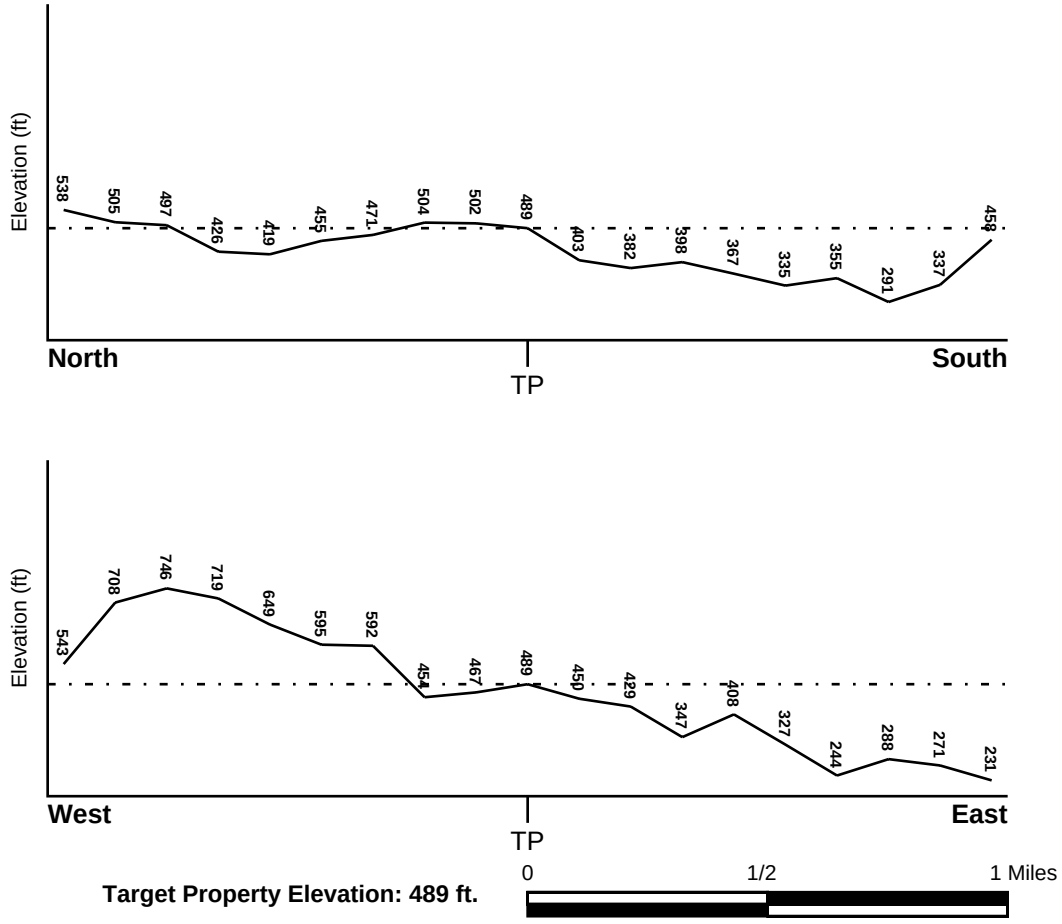
TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General SE

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES



Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

NATIONAL WETLAND INVENTORY

NWI Quad at Target Property	NWI Electronic Data Coverage
SAN JUAN CAPISTRANO	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Status:	Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

All of the information and opinions presented are those of the cited EPA report(s), which were completed under a Comprehensive Environmental Response Compensation and Liability Information System (CERCLIS) investigation.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: BALCOM

Soil Surface Texture: clay loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	0 inches	29 inches	clay loam	Not reported	Not reported	Max: Min:	Max: Min:
2	29 inches	33 inches	weathered bedrock	Not reported	Not reported	Max: Min:	Max: Min:

Soil Map ID: 2

Soil Component Name: CALLEGUAS

Soil Surface Texture: clay loam

Hydrologic Group: Class D - Very slow infiltration rates. Soils are clayey, have a high water table, or are shallow to an impervious layer.

Soil Drainage Class: Well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	0 inches	14 inches	clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	Not reported	Max: 1.4 Min: 0	Max: Min:
2	14 inches	18 inches	weathered bedrock	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	Not reported	Max: 1.4 Min: 0	Max: Min:

Soil Map ID: 3

Soil Component Name: BALCOM

Soil Surface Texture: clay loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

HYDROGEOLOGIC INFORMATION

AQUIFLOW^{R} Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

OTHER STATE DATABASE INFORMATION

Groundwater Ambient Monitoring & Assessment Program
State Water Resources Control Board
Telephone: 916-341-5577
The GAMA Program is Californias comprehensive groundwater quality monitoring program. GAMA collects data by testing the untreated, raw water in different types of wells for naturally-occurring and man-made chemicals. The GAMA data includes Domestic, Monitoring and Municipal well types from the following sources, Department of Water Resources, Department of Heath Services, EDF, Agricultural Lands, Lawrence Livermore National Laboratory, Department of Pesticide Regulation, United States Geological Survey, Groundwater Ambient Monitoring and Assessment Program and Local Groundwater Projects.

Water Well Database
Source: Department of Water Resources
Telephone: 916-651-9648

California Drinking Water Quality Database
Source: Department of Public Health
Telephone: 916-324-2319
The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

Geothermal Wells Listing
Department of Conservation
Telephone: 916-445-9686
Geothermal well means a well constructed to extract or return water to the ground after it has been used for heating or cooling purposes. Geothermal wells in California (except for wells on federal leases which are administered by the Bureau of Land Management) are permitted, drilled, operated, and permanently sealed and closed (plugged and abandoned) under requirements and procedures administered by the Geothermal Section of the Department of Conservations Geologic Energy Management Division (CalGEM, formerly DOGGR).

California Oil and Gas Well Locations
Source: Dept of Conservation, Geologic Energy Management Division
Telephone: 916-323-1779
Oil and Gas well locations in the state.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

California Earthquake Fault Lines
Source: California Division of Mines and Geology
The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

RADON

State Database: CA Radon
Source: Department of Public Health
Telephone: 916-210-8558
Radon Database for California

Area Radon Information
Source: USGS
Telephone: 703-356-4020
The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones
Source: EPA
Telephone: 703-356-4020
Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

OTHER

Airport Landing Facilities: Private and public use landing facilities
Source: Federal Aviation Administration, 800-457-6656

Epicenters: World earthquake epicenters, Richter 5 or greater
Source: Department of Commerce, National Oceanic and Atmospheric Administration

California Earthquake Fault Lines: The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines, prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

PERMIT TO OPERATE

This initial permit must be renewed ANNUALLY unless the equipment is moved, or changes ownership.
If the billing for the annual renewal fee (Rule 301.f) is not received by the expiration date, contact the District.

ID 117478

Legal Owner
or Operator:

FLUOR DANIEL, INC.
3 FLUOR DANIEL DR
ALISO VIEJO, CA 92656

Equipment Location: 3 FLUOR DANIEL DR, ALISO VIEJO, CA 92656

Equipment Description :

INTERNAL COMBUSTION ENGINE, DETROIT DIESEL, 16 CYLINDERS, TURBOCHARGED, AFTERCOOLED, MODEL NO. 8163-7406 (16V92TA), 1170 BHP, DIESEL-FUELED, DRIVING AN EMERGENCY ELECTRICAL GENERATOR.

Conditions :

1. OPERATION OF THIS EQUIPMENT SHALL BE CONDUCTED IN ACCORDANCE WITH ALL DATA AND SPECIFICATIONS SUBMITTED WITH THE APPLICATION UNDER WHICH THIS PERMIT IS ISSUED UNLESS OTHERWISE NOTED BELOW.

2. THIS EQUIPMENT SHALL BE PROPERLY MAINTAINED AND KEPT IN GOOD OPERATING CONDITION AT ALL TIMES.

3. THIS ENGINE SHALL NOT OPERATE MORE THAN 200 HOURS IN ANY ONE YEAR, WHICH INCLUDES NO MORE THAN 20 HOURS IN ANY ONE YEAR FOR MAINTENANCE AND TESTING PURPOSES.

4. AN OPERATIONAL NON-RESETTABLE TOTALIZING TIME METER SHALL BE INSTALLED AND MAINTAINED TO INDICATE THE ENGINE ELAPSED OPERATING TIME.

5. THE OPERATION OF THE ENGINE BEYOND THE 20 HOURS PER YEAR ALLOTTED FOR ENGINE MAINTENANCE AND TESTING SHALL BE ALLOWED ONLY IN THE EVENT OF A LOSS OF GRID POWER OR UP TO 30 MINUTES PRIOR TO A ROTATING OUTAGE, PROVIDED THAT THE ELECTRICAL GRID OPERATOR OR ELECTRIC UTILITY HAS ORDERED ROTATING OUTAGES IN THE CONTROL AREA WHERE THE ENGINE IS LOCATED OR HAS INDICATED THAT IT EXPECTS TO ISSUE SUCH AN ORDER AT A CERTAIN TIME, AND THE ENGINE IS LOCATED IN A UTILITY SERVICE BLOCK THAT IS SUBJECT TO THE ROTATING OUTAGE. ENGINE OPERATION SHALL BE TERMINATED IMMEDIATELY AFTER THE UTILITY DISTRIBUTION COMPANY ADVISES THAT A ROTATING OUTAGE IS NO LONGER IMMINENT OR IN EFFECT.

6. THIS ENGINE SHALL NOT BE USED AS PART OF A DEMAND RESPONSE PROGRAM USING INTERRUPTIBLE SERVICE CONTRACT IN WHICH A FACILITY RECEIVES A PAYMENT OR REDUCED RATES IN RETURN FOR REDUCING ITS ELECTRIC LOAD ON THE GRID WHEN REQUESTED TO SO BY THE UTILITY OR THE GRID OPERATOR.

FILE COPY

PERMIT TO OPERATE

7. AN ENGINE OPERATING LOG SHALL BE MAINTAINED WHICH ON A MONTHLY BASIS SHALL LIST ALL ENGINE OPERATIONS IN EACH OF THE FOLLOWING AREAS:
   A. EMERGENCY USE HOURS OF OPERATION
   B. MAINTENANCE AND TESTING HOURS
   C. OTHER OPERATING HOURS (DESCRIBE THE REASON FOR OPERATION)
   IN ADDITION, EACH TIME THE ENGINE IS STARTED MANUALLY, THE LOG SHALL INCLUDE THE DATE OF OPERATION AND THE TIMER READING IN HOURS AT THE BEGINNING AND END OF OPERATION THE LOG SHALL BE KEPT FOR A MINIMUM OF THREE CALENDAR YEARS PRIOR TO THE CURRENT YEAR AND MADE AVAILABLE TO DISTRICT PERSONNEL UPON REQUEST. THE TOTAL HOURS OF OPERATION FOR THE PREVIOUS CALENDAR YEAR SHALL BE RECORDED SOMETIME DURING THE FIRST 15 DAYS OF JANUARY OF EACH YEAR.

8. THE OPERATOR SHALL COMPLY WITH ALL APPLICABLE REQUIREMENTS OF RULES 431.2 AND 1470.

9. THE FUEL INJECTION TIMING OF THIS ENGINE SHALL BE MAINTAINED AT 4 DEGREES RETARDED RELATIVE TO STANDARD TIMING.

THIS PERMIT TO OPERATE R-F16406 SUPERSEDES PERMIT TO OPERATE F16406 ISSUED 10/13/1998

NOTICE

IN ACCORDANCE WITH RULE 206, THIS PERMIT TO OPERATE OR COPY SHALL BE POSTED ON OR WITHIN 8 METERS OF THE EQUIPMENT.

THIS PERMIT DOES NOT AUTHORIZE THE EMISSION OF AIR CONTAMINANTS IN EXCESS OF THOSE ALLOWED BY DIVISION 26 OF THE HEALTH AND SAFETY CODE OF THE STATE OF CALIFORNIA OR THE RULES OF THE AIR QUALITY MANAGEMENT DISTRICT. THIS PERMIT CANNOT BE CONSIDERED AS PERMISSION TO VIOLATE EXISTING LAWS, ORDINANCES, REGULATIONS OR STATUTES OF OTHER GOVERNMENT AGENCIES.

SOUTH COAST AIR QUALITY MANAGEMENT DISTRICT
21865 East Copley Drive, Diamond Bar, CA 91765

PERMIT TO CONSTRUCT/OPERATE

Permit No.
F75639
A/N 443838
Page 1

This initial permit must be renewed ANNUALLY unless the equipment is moved, or changes ownership.
If the billing for annual renewal fee (Rule 301.f) is not received by the expiration date, contact the District.

Legal Owner or Operator:
QUEST SOFTWARE
5 POLARIS WAY
ALISO VIEJO, CA 92656

ID 144537

Equipment Location: 5 POLARIS WAY , ALISO VIEJO, CA 92656

Equipment Description:

INTERNAL COMBUSTION ENGINE, CATERPILLAR, 12 CYLINDER, "TURBOCHARGED, AFTERCOOLED", MODEL 3412 DISTA (750 KW), 1114 BHP, DIESEL FUEL FUELED, DRIVING AN EMERGENCY ELECTRICAL GENERATOR.

Conditions:

1) OPERATION OF THIS EQUIPMENT SHALL BE CONDUCTED IN ACCORDANCE WITH ALL DATA AND SPECIFICATIONS SUBMITTED WITH THIS APPLICATION UNDER WHICH A PERMIT IS ISSUED UNLESS OTHERWISE NOTED BELOW.

2) THIS EQUIPMENT SHALL BE PROPERLY MAINTAINED AND KEPT IN GOOD OPERATING CONDITION AT ALL TIMES.

3) A NON-RESETTABLE TOTALIZING TIMER SHALL BE INSTALLED AND MAINTAINED TO INDICATED THE ENGINE ELAPSED OPERATING TIME.

4) AN ENGINE OPERATING LOG SHALL BE KEPT AND MAINTAINED ON FILE TO RECORD WHEN THIS ENGINE IS STARTED MANUALLY. THE LOG SHALL LIST THE DATE OF OPERATION, THE TIMER READING IN HOURS AT THE BEGINNING AND END OF OPERATION, AND THE REASON FOR OPERATION FOR A MINIMUM OF THREE YEARS FROM THE DATE OF ENTRY AND MADE AVAILABLE TO DISTRICT PERSONNEL UPON REQUEST. THE TOTAL HOURS OF OPERATION (INCLUDING HOURS FOR MANUAL AND AUTOMATIC OPERATION) SHALL BE RECORDED SOMETIME DURING THE FIRST 15 DAYS OF JANUARY OF EACH YEAR.

5) THIS ENGINE SHALL NOT OPERATE MORE THAN 200 HOURS IN ANY ONE YEAR, WHICH INCLUDES NO MORE THAN 50 HOURS IN ANY ONE YEAR FOR MAINTENANCE AND TESTING PURPOSES.

6) THE OPERATOR SHALL NOT PURCHASE ANY DIESEL FUEL UNLESS THE FUEL IS LOW SULFUR DIESEL FOR WHICH THE SULFUR CONTENT DOES NOT EXCEED 15 PPM BY WEIGHT. AS OF JANUARY 1, 2006, THE OPERATOR SHALL ONLY USE DIESEL FUEL WITH SULFUR CONTENT THAT DOES NOT EXCEED 15 PPM BY WEIGHT, UNLESS THE OPERATOR DEMONSTRATES IN WRITING TO THE EXECUTIVE OFFICER THAT SPECIFIC ADDITIONAL TIME IS NECESSARY. (THIS CONDITION DOES NOT APPLY TO NATURAL GAS OR LPG FUELED ENGINES).

FILE COPY

CONTINUATION OF PERMIT TO CONSTRUCT/OPERATE

7) OPERATION BEYOND THE 50 HOURS PER YEAR ALLOTTED FOR ENGINE MAINTENANCE AND TESTING SHALL BE ALLOWED ONLY IN THE EVENT OF A LOSS OF GRID POWER OR UP TO 30 MINUTES PRIOR TO A ROTATING OUTAGE, PROVIDED THAT: (A) THE UTILITY DISTRIBUTION COMPANY HAS ORDERED ROTATING OUTAGES IN THE CONTROL AREA WHERE THE ENGINE IS LOCATED OR HAS INDICATED THAT IT EXPECTS TO ISSUE SUCH AN ORDER AT A CERTAIN TIME; AND (B) THE ENGINE IS LOCATED IN A UTILITY SERVICE BLOCK THAT IS SUBJECT TO THE ROTATING OUTAGE. ENGINE OPERATION SHALL BE TERMINATED IMMEDIATELY AFTER THE UTILITY DISTRIBUTION COMPANY ADVISES THAT A ROTATING OUTAGE IS NO LONGER IMMINENT OR IN EFFECT.

PERMIT TO CONSTRUCT/OPERATE

CONTINUATION OF PERMIT TO CONSTRUCT/OPERATE

NOTICE

IN ACCORDANCE WITH RULE 206, THIS PERMIT TO OPERATE OR COPY SHALL BE POSTED ON OR WITHIN 8 METERS OF THE EQUIPMENT.

THIS PERMIT DOES NOT AUTHORIZE THE EMISSION OF AIR CONTAMINANTS IN EXCESS OF THOSE ALLOWED BY DIVISION 26 OF THE HEALTH AND SAFETY CODE OF THE STATE OF CALIFORNIA OR THE RULES OF THE AIR QUALITY MANAGEMENT DISTRICT. THIS PERMIT CANNOT BE CONSIDERED AS PERMISSION TO VIOLATE EXISTING LAWS, ORDINANCES, REGULATIONS OR STATUTES OF OTHER GOVERNMENT AGENCIES.

Subject: California Public Records Act Requests - 1096

Dear David Rother:

This letter responds to your California Public Records Act requests, received by the California Governor's Office of Emergency Services (Cal OES) on August 13, 2025. You requested the following:

> 1 Polaris Way, Aliso Viejo, CA 92656 [APN: 623-481-49]
> 2 Polaris Way, Aliso Viejo, CA 92656 [APN: 623-481-50]
> 3 Polaris Way, Aliso Viejo, CA 92656 [APN: 623-481-51]
> 4 Polaris Way, Aliso Viejo, CA 92656 [APN: 623-481-53]
> 5 Polaris Way, Aliso Viejo, CA 92656 [APN: 623-481-52]
>
> We are interested in any environmental files you may have for this property, such as notices of violation, permits to operate, environmental site assessments, etc.

Cal OES has searched its records and files and is not in possession of records responsive to your request. This concludes Cal OES's response to this request.

If you have any questions related to this request, please contact me via email at javier.gonzalez@caloes.ca.gov.

Sincerely,

Javier Gonzalez

The **California Public Records Act** ("PRA") is a state law found in California Government Code, Section 6250 et seq., concerning the disclosure of public records. The PRA is based upon the principle that access to information concerning the public's business is a fundamental and necessary right. Under the PRA, records maintained by the City are subject to inspection by the public upon request unless specifically exempted from disclosure under the law.

Public records are accessible during regular office hours and can be reviewed at no charge. Copies may be provided at a cost based on the City's current fee schedule. Fees for copies of records that are sent to a copying service would be the actual cost. All fees are due and payable in full before copies are made available.

Public Records Request Number: 1-081325-02
Location(s): 1, 2, 3, 4 and 5 Polaris Way, Aliso Viejo, California 92656

Dear Requestor:

On August 13, 2025, the Department of Toxic Substances Control (DTSC) received your email of August 13, 2025 requesting records under the Public Records Act. After a thorough review of our files, no site records were found pertaining to the sites/facilities referenced above.

DTSC's E-Waste unit may have records that pertain to this request for **3 Polaris Way**. "E-Waste" refers to any unwanted electronic device or Cathode Ray Tube (CRT) and is classified as universal waste. E-Waste frequently contains hazardous materials, predominantly lead and mercury, and is produced by households, businesses, governments, and industries. I have forwarded your Public Records Act request to that unit for further processing. Please contact them by email at electronicwaste@dtsc.ca.gov if you are interested in this information.

A large number of our records are available on EnviroStor, an online database that provides non-confidential, public access to DTSCs data management system. It tracks our cleanup, permitting, enforcement, and investigation efforts at hazardous waste facilities and sites with known or suspected contamination issues. EnviroStor is available 24/7, 365 days a year. The data reflects the latest updates as they are entered in the system. Access it from your computer or smartphone, the local library – anywhere

Internet access is available. Just go to www.envirostor.dtsc.ca.gov. You'll find a step-by-step tour of EnviroStor under the "How to Use EnviroStor" menu on the website.

If you have any questions or would like further information regarding your request, please contact me at 916-255-6449 or via email at pubreqact@dtsc.ca.gov.

Sincerely,

Juan Acosta

PUBLIC RECORDS REQUEST FORM

Your request will be processed in compliance with the Public Records Act California Government Code § 6253.

Please complete form in its entirety. The more specific you are with the information you are requesting, including dates, address etc. the more responsive we may be to your request. Requestor will be notified in writing if additional time will be necessary. All document duplication fees are due and payable in full prior to release and are based on the Agency's current fee resolution. We will notify you of actual amount due and payment options once record(s) is identified.

In submitting your form, if you are using Internet Explorer as your web browser, you may email completed form by clicking here.
All other web browsers, please complete form, save as a PDF file and email to address noted above.

Hazardous Materials

Does your facility have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or is regulated under more restrictive inventory local reporting requirements (shown below if present); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	**Yes**

Underground Storage Tank(s) (UST)

Does your facility own or operate underground storage tanks?	**No**

Hazardous Waste

Is your facility a Hazardous Waste Generator?	**No**
Does your facility treat hazardous waste on-site?	**No**
Is your facility's treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	**No**
Does your facility consolidate hazardous waste generated at a remote site?	**No**
Does your facility need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	**No**
Does your facility generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month greater than 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	**No**
Is your facility a Household Hazardous Waste (HHW) Collection site?	**No**

Excluded and/or Exempted Materials

Does your facility recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	**No**

Aboveground Petroleum Storage

Does your facility own or operate aboveground petroleum storage tanks or containers AND: * have a total aboveground petroleum storage capacity of 1,320 gallons or more, OR * have one or more petroleum tanks in an underground area?	**Yes**

Regulated Substances

Does your facility have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	**No**

Additional Information

We have a 1500 gal. above ground diesel fuel tank for our on-site 750 KW generator.

Dell Aliso Viejo Campus

EMERGENCY ACTION PLAN

- ## Executive Summary

  Dell Aliso Viejo Campus Operations and Facility Management want to communicate to everyone the importance of being prepared for an emergency. This document will cover types of emergencies, key personnel, and proper operational procedures to protect everyone, including our customers.

- ## What Is an Emergency?

  An emergency is any unplanned event that can cause deaths or significant injuries to employees, customers or the general public; or that can shut down your business, disrupt operations, cause physical or environmental damage, or threaten the facility's financial standing or public image. Obviously, numerous events can be "emergencies". This Emergency Action Plan will encompass the following potential emergencies which could be anticipated at the Aliso Viejo Campus facility.

  1. Medical
  2. Fire
  3. Hazardous materials incident
  4. Earthquake
  5. Terrorism (Bomb / Bio-chemical)
  6. Civil disturbance
  7. Severe Weather

- ## Direction and Control

  Presently, Facilities Management will be the emergency response leader if available otherwise the senior management person on site will assume these duties. If circumstances cooperate, the control center will be the guard station at the truck entrance of the Aliso Viejo Campus facility. The control center will communicate through the assigned managers who will be responsible for the following:

	Primary	Backup
Contact Fire / EMS services:	Security	Control Room
Contact Corporate Risk Management:	Security	EHS
Account for DELL / temp Employees:	Senior Shift Mgr.	Supervisors
Account for Visitors Log Book:	Adm.	Security

- ## Management Staff

  Facility Manager:

  Operations Managers:

  EHS Manager

Dell Internal Use - Confidential

- **Communications**

  Drills for ALISO VIEJO CAMPUS DELL associate / Temporary should take place periodically.

  Emergency Agency Phone Numbers:

  Emergency

  Emergency Phone Numbers:

  Police / Fire EMS (Ambulance) 911

  Computer communication, if applicable, will be handled through available laptops. Multiple employees will have access through remote locations or cellular technology, keeping ALISO VIEJO CAMPUS DELL up and running.

- **Life Safety**

  Evacuation plans are posted throughout the building. Employees will be familiarized with the emergency exits. Assembly areas for each work group will be communicated to the employees by their respective supervisor. Each supervisor is accountable for a headcount and insuring that everyone on their team knows where their respective assembly area is.

- **Assembly Areas**

  All personnel will assemble in the parking lot according to the posted evacuation plan map.
  We should all be prepared to expect "false" alarms in order to train and prepare ourselves for an emergency. Important items to remember:

  1. Find the nearest exit and **DO NOT PANIC**.
  2. Leave items behind. You are the most important thing!
  3. Never go back into the building.

MEDICAL EMERGENCIES

1. When a medical emergency is recognized or when you first realize something is "wrong" do a 10-second survey. In the survey, look for three (3) things:

   a) Hazards that can be dangerous to you, the injured person(s), or bystanders.
   b) Identifying and controlling (if possible) the mechanism or cause of the injury or injuries.
   c) The number of injured persons.

2. Render first aid if you are qualified.

3. If there is heavy bleeding, possible heart attack, difficulty or no breathing, choking, altered mental state, poisoning, attempted suicide, seizure, paralysis, spinal injury, imminent childbirth or any doubt concerning the possible emergency, call the emergency medical service (EMS) using Emergency Telephone Numbers posted near the office and warehouse telephones.

4. Explain the findings of the 10-second survey to the EMS operator and do not hang up until the operator instructs you to do so.

5. If you send someone else to call, tell the person to report back to you so you can be sure the call was made

6. Do not attempt to crowd or move the injured person.

7. Refer to Work-Related Injury Reporting Procedures in the Work-Related Injury section of the EHS Website.

Dell Internal Use - Confidential

8. If blood or other potentially infectious material is present, refer to Bloodborne Pathogen Procedures in the Bloodborne Pathogens section of the Safety and Health Policy Manual.

FIRE EMERGENCIES

Before the Fire

1. Site Facilities will assure that fire extinguishers and automatic sprinkler systems (if any) are serviced annually.

2. Operations Managers will conduct annual fire drills.

3. Operations Managers will assure fire extinguishers are inspected monthly

4. Operations Managers will train all station employees in the proper use of fire extinguishers and fire prevention.

5. All employees should report fire hazards, such as smoking near propane storage facilities, and fires, no matter how small.

During the Fire

1. Use trained personnel with fire extinguishers to quench small fires such as a fire in a waste paper basket.

2. If the fire is too large, call 8-5555 and tell the dispatcher there is a fire emergency at the station. Do not try to flood the dispatcher with information. Briefly answer questions asked by the dispatcher.

3. Managers should use the intercom/telephone paging system, if available, to:

    i. Alert employees that there is a fire in the building.
    ii. Direct employees to two (2) or more evacuation exits away from the fire.
    iii. Order immediate evacuation.

4. Employees should stay low and evacuate the building through the nearest safe exit. A wet cloth may be used if safely available to cover the mouth and nose to prevent smoke inhalation.

5. Employees will proceed to designated evacuation staging areas.

6. Alert local management.

7. Operations Managers will perform a head count in the staging area to insure all employees and visitors are accounted for.

8. Alert the fire department if employees are missing from the head count. Do not enter a burning building! Let the firemen perform rescues.

After the Fire

1. Wait for the fire department to grant permission to enter the station.

2. Operations Managers should cautiously assess physical damage and video tape the loss as soon as possible.

3. Building repairs should be completed before employees are allowed to enter fire-damaged areas.

4. Facility Logistics Director will report the incident to Corporate Risk Management

HAZARDOUS CHEMICAL SPILLS

1. Isolate the immediate vicinity of the spill. Keep people out of the area.

Internal Use - Confidential

2. Identify the source of the spill and call the emergency response contractor listed on the shipping paper. Request assistance from the shipper in cleanup and disposal of the spilled material. Review the MSDS for the material.

3. If you have questions concerning hazardous material containment and removal, call the shipper's 24-hour emergency response telephone number.

4. Do not take chances. Contain and cleanup the spill based on shipper instructions if possible. **Use the authorized Emergency Response contractor designated by Corporate for cleanup, disposal and waste transportation.**

5. Report the incident to Risk Management / EHS.

If the Spill is Acutely Hazardous

1. Managers should:

    i. Alert employees that there is a hazardous spill.
    ii. Direct employees to two (2) or more evacuation exits away from the spill.
    iii. Evacuate immediately.

2. Call the local fire department (911). Tell the dispatcher "There is a hazardous chemical spill in the building and we need a hazardous response team immediately!"

3. Take head count in staging area.

4. Alert fire department if employees are missing from the head count. Only trained rescue team members from the fire department are allowed to enter an area where potentially hazardous chemicals have been released!

5. Ask Hazardous Response Team to provide documentation of the incident, including chemical disposal information. Document should be filed where it can be easily retrieved if necessary.

6. Report the incident to Corporate Risk Mgmt. as soon as possible and follow-up with an e-mail incident report.

Note: Only trained personnel, HAZMAT technicians from the fire department, or emergency responders handle hazardous material. There are no exceptions.

STEPS

1 Isolate the Area
-Announce there is a spill
-Do not touch the spilled material or handle a leaking container
-Isolate a minimum of 25 feet
-Look for injuries

2 Identify the Hazards
-Observe the labels and markings
-Secure the shipping document
-Obtain the MSDS

3 Contact
-Shipper's 24 our emergency contact phone number
-Corporate Risk Management
-Fire Department in emergency situations
-US DOT if required

External Use - Confidential

4 Containment
-Only as instructed by shipper
-By Fire Department or Emergency Response Contractor

5 Disposal
-Corporate Emergency Response Contractor will handle
-Shipper may have input

6 Document and Report
-Keep complete details of the incident
-Send incident report to Corporate Risk Management

Note: Do not touch the spilled material. Never try to identify the material or the sources of the leak by smell.

TERRORISM

Terrorists often choose targets that offer little danger to themselves and areas with little relatively easy public access.

Foreign terrorists look for visible targets where they can avoid detection before and after an attack such as large cities, major international events, resorts, and high-profile landmarks.

Terrorist's weapons may include guns, explosives, kidnapping, hijacking, arson, and verbal threats.

ANTHRAX Threats

If you receive a suspicious parcel in the mail:

- Handle with care; don't shake or bump.
- Don't open, smell or taste.
- Do not move the package. Cover the package with plastic or other available material.
- Close doors leading to the area.
- Evacuate the immediate area.
- Treat it as suspect.
- Notify building security and tell them to shut off the air handling system.
- Call 911.
- Anyone handling the material should immediately wash their hands with soap and water. Do not use bleach or other disinfectants on your hands.
- Make a list of all persons who were present in the area. Provide this list to the authorities as soon as possible.

If an actual exposure to anthrax does occur, this is a federal crime and its location becomes a crime scene. Handling of the scene will be under the direction of the Federal Government. Clean-up should not be attempted by the affected station without consulting with federal and local authorities.
Some typical characteristics Postal Inspectors have detected over the years, which ought to trigger suspicion, include parcels that:

- Are unexpected or from someone unfamiliar to you.
- Are addressed to someone no longer with your organization or are otherwise outdated.
- Have no return address, or have one that can't be verified as legitimate.
- Are of unusual weight, given their size, or are lopsided or oddly shaped.
- Are marked with restrictive endorsements, such as "Personal" or "Confidential."
- Have protruding wires, strange odors or stains.
- Show a city or state in the postmark that doesn't match the return address.

BOMB THREATS/EXPLOSIONS

For Internal Use - Confidential

During a Bomb Threat

1. Keep the caller on the telephone, and ask an employee near by to call the police and have the call traced.
2. Get as much information from the caller as possible. Write down everything that is said.
3. Notify the Operations Manager.
4. Do not touch any suspicious packages. Clear the area around suspicious packages.
5. Operations Managers should use the intercom telephone paging system to alert employees that there has been a bomb threat to the facility and to evacuate the facility to the staging area until the threat subsides.
6. Operations Mangers take head count.
7. Guard reports incident to Local Police and Facility Logistics Director reports the incident to Corporate Risk Management.
8. Facility Logistics Director reports the incident using ALISO VIEJO CAMPUS DELLnet incident report.

Explosions

1. Evacuate the facility immediately. Use the intercom telephone paging system to alert employees of the safest exit(s) to use.
2. If debris is falling, get under a sturdy table or desk.
3. When debris stops falling, evacuate area avoiding unstable building structures. You may have to stay low and use a wet cloth to cover your mouth and nose in case of fire. See Fire Emergencies in this section.

After the Explosion

1. If you are trapped in debris, use a flashlight to signal rescuers. Cover your mouth with a handkerchief and stay in the area and try not to kick up dust.
2. Do not shout as you can inhale dangerous amounts of dust. Wait for rescue personnel.
3. Only trained responders participate in rescue. There are no exceptions!

EARTHQUAKE

During a Major Earthquake

During a major earthquake, the ground may start out gently shaking for a second or two, then grows violent and knocks you to your feet, or you may be jarred first by a violent jolt as though a truck hit the building, and a second or two later, you feel shaking, and find it difficult (if not impossible) to move from one area to another.

1. If you are indoors, stay there, as practiced in your drills. Duck, cover, and hold using sturdy furniture such as a table or desk for protection against falling objects and collapsing structures. If there is no sturdy furniture where you are working, a doorway may provide protection until the quake has stopped. Stay away from windows, shelving, or other items that could fall on you.
2. If you are outdoors, stay away from buildings, trees, walls, and power lines.
3. If you are in a motor vehicle, pull to the side of the road, stop the vehicle, and stay in the vehicle until the earthquake is over. Avoid parking under overpasses, buildings, trees, walls, and power lines. Do not attempt to drive over overpasses or bridge of any kind until it has been inspected by a structural engineer and approved for vehicular traffic.

Personal Use - Confidential

4. If you're in a crowded place, do not rush for the doorway, since most people are going to have the same idea. Move under a heavy piece of furniture and duck, cover, and hold.

5. Do not be surprised if the electricity goes out and the fire alarm and sprinkler systems activate.

When the Ground Shaking Stops

1. Check for injuries in the immediate area and administer first aid you are qualified to give. Do not attempt to move injured persons.

2. Do not use the telephone.

3. If possible put out small fires. The most immediate cause of fire after earthquakes is broken gas lines. If you smell gas, shut off the gas at the meter. **Note:** Never attempt to shut off a gas valve near a gas leak! Sparks or heat generated from friction can become a source of ignition and possible explosion.

4. Do not touch electrical sources or equipment.

5. Evacuate the building to designated staging areas.

6. Operations Managers perform head count.

7. Call the local fire department if employees are missing from the head count. Do not attempt rescue.

8. Secure building.

9. Call structural engineer for building and utility inspection.

Once the Building is Cleared for Re-Entry

1. After engineer inspects building structures, loose fixtures, and damaged utilities are repaired, re-enter building and resume operation.

2. Monitor seismic activity on the internet address http://quake.wr.usgs.gov/recenteqs/

3. Facility Logistics Director reports findings and incident to Regional Management.

4. Facility Logistics Director reports the incident using ALISO VIEJO CAMPUS DELLnet incident report.

CIVIL DISTURBANCES

1. Use the intercom/telephone paging system to alert employees that there is a threat outside of the facility and employees are to remain indoors until further notice.

2. Call Local Police on Emergency Numbers listed by the telephone.

3. When Police arrive, and disturbance is cleared, announce that it is been determined by local police that it is safe to go outdoors.

WEATHER EMERGENCIES - Thunderstorms, Lightning, Flooding, and Power Failure

Before the Storm

Personal Use - Confidential

1. Check weather forecasts before leaving for extended periods outdoors. WATCH means conditions are favorable. A WARNING means severe weather in the area is dangerous to life and property in the path of the storm.

2. Watch and listen for signs of approaching storms, such as increasing wind, flashes of lightning, sound of thunder, static on the radio.

3. If a storm is approaching, listen to a radio or TV, and postpone activities if thunderstorms are in the areas. This is the best way to stay out of a dangerous situation.

When Storms Approach

1. REMEMBER: If you can hear thunder, you are close enough to the storm to be struck by lightning. Go to safe shelter immediately!

2. Move to a sturdy building or vehicle. Do not take shelter in small sheds, under trees, or in convertible automobiles.

3. If lighting is occurring and a sturdy shelter is not available, get inside a hard top vehicle and keep the windows up. The paging system will be used to announce a severe weather situation. When instructed move to the designated severe weather assembly area.

4. Keep away from all indoor and outdoor water sources.

5. Telephone lines and metal pipes conduct electricity. Close computer programs that you are currently working on and avoid using telephones or equipment unless it is an emergency. Unplug equipment.

6. Turn off air conditioners. Power surges from lighting can overload and damage compressors.

7. Move to higher ground immediately if flash flooding or flooding is possible. Once flooding begins, vehicles may have to be abandoned for the safety of the driver. *Most flash flooding deaths occur in automobiles.*

If Caught Outdoors and No Shelter Is Nearby

1. Find a low spot, not subject to flooding, and away from trees, fences, and poles.

2. If near trees, take shelter near shorter trees.

3. If you feel your skin tingle or hair stand on end, squat low to the ground on the balls of your feet. Place your hands on your knees with your head between them. Make sure you are the smallest target possible and minimize your contact with t he ground.

4. Stay away from water!

After the Storm

1. Stay in a protected area until it is announced on the radio or TV that dangerous weather has passed your station.

2. If your station has structural damage, do not enter damaged areas until it is checked by officials.

3. Assist injured or trapped persons and render first aid you are qualified to give. Call 911 or emergency telephone number for seriously injured persons.

External Use - Confidential

4. Be aware of outdoor hazards such as, downed power lines, ants, poisonous snakes, injured or frightened animals, weakened bridges, washed out roads, weakened tree limbs, and/or damaged over-hanging structures.

5. Use precautions when opening damaged doors, walking on wet floors, and reaching into concealed areas.

6. Restore all office, computer, and communication systems and check for data loss, hardware failure, etc.

WEATHER EMERGENCIES - Winter Storms

Before the Storm

1. The paging system will be used to announce a severe weather situation. When instructed move to the designated severe weather assembly area.

2. Listen to NOAA or National Weather Service bulletins and local radio and TV stations for updated storm information. Like other weather emergencies, a WATCH means a winter storm is possible in your area, a WARNING means severe cold weather is in your area and can be dangerous to life and property.

When a WATCH is Issued

3. Listen to NOAA, National Weather Service, and State Weather Service bulletins to determine if your station is in the path of the storm.

4. Be alert to icy weather conditions and snow accumulations near your station.

5. Avoid unnecessary travel.

6. Wrap exposed water pipes.

7. Check antifreeze levels in vehicle and sprinkler systems.

When a WARNING is Issued

1. Stay indoors during squalls (brief, intense snow storms with gusty winds), blowing snow (wind-driven snow that reduces visibility and causes drifting), and blizzard (winds over 35 mph with snow reducing visibility to zero).

2. If you must go outside, make it brief and wear several layers of lightweight clothing, gloves or mittens, water-proof shoes, a hat, and cover your mouth to protect your lungs. Since wind can make your body feel colder than the actual temperature would indicate, and can carry heat away from the body, be sure to cover exposed skin in windy conditions.

3. Wear shoes with good tread on the soles and be careful walking on snowy, icy areas such as stairs and sidewalks.

4. After the storm, if you decide to shovel snow, be extremely careful. Wear loose clothing, take frequent breaks, and avoid over exertion.

If You Must Travel in a Vehicle

1. Take your winter storm kit and extra food, clothing, and blankets.

2. Make sure the fuel tank is full.

3. Alert the Operations Manager of your route, destination, and when you expect to arrive.

HAZARDOUS MATERIAL RELEASE RESPONSE PLAN (HMRRP) INSPECTION REPORT

FACILITY NAME QUEST SOFTWARE INC		FACILITY ADDRESS 4 POLARIS WAY, ALISO VIEJO, CA 92656	
MAILING ADDRESS 4 POLARIS WAY, ALISO VIEJO CA 92656		CERS ID / EPA ID 10585732 N/A	
C/O - OWNER QUEST SOFTWARE INC		INSPECTOR BRIAN CARROLL	
FACILITY ID FA0065895	RELATED ID PR0096287	SERVICE: A01 - ROUTINE INSPECTION	INSPECTION DATE 6/11/2020
PROGRAM DESCRIPTION 5801 - HAZ MAT DISCLOSURE 1-4 CHEMICALS			REINSPECTION DATE: NEXT ROUTINE / UNITS 1

Consent to enter, inspect, and take photos of the facility was given by: WALLY BACKUS

The following items have been inspected. If there were violations, this document constitutes a Summary of Violations and Notice to Comply and the Violation Degree column is marked Minor, Class I, or Class II. A violation that is corrected at the time of inspection is marked COS. Failure to correct the listed violation(s) prior to the designated compliance date may necessitate a reinspection at an additional fee.

Overall Inspection Comments:

An onsite hazardous materials inspection of this facility was conducted this date. Access to the facility was provided by Wally Backus and Brad. NOTE: The required electronic submittals noted below exist as part of the previous owner's CERS record and are in the midst of being transferred to the Quest CERS record.

Businesses who handle or store hazardous materials in quantities equal to or exceeding 55 gallons of liquid, 500 pounds of solid, or 200 cubic feet of a gas are required to develop the following items and submit them electronically into the state's portal CERS website (http://cers.calepa.ca.gov). Complete the electronic submittal within 30 days of receipt of this report.

HAZARDOUS MATERIALS INVENTORY
Your inventory should include the following at a minimum:
- Diesel fuel (backup generator): 1500 gallons
NOTE: Battery arrays were observed in the Emergency Power Inverter Room and the Data Center. The batteries may contain hazardous materials in excess of the thresholds noted above and may need to be included in your inventory. Assess the amount of of those items and include them in your inventory if needed.

HAZARDOUS MATERIALS BUSINESS EMERGENCY PLAN
- Complete an Emergency Response Plan and submit it electronically in CERS.

SITE MAP
In your CERS record, electronically submit a site map with the following details included:
- North orientation
- Loading areas
- Internal roads
- Adjacent streets
- Storm and sewer drains
- Access and exit points
- Emergency shutoffs
- Evacuation staging areas
- Hazardous materials handling and storage areas
- Emergency response equipment

A copy of this inspection report will be emailed to:

No violations were noted. Orange County Environmental Health greatly appreciates your efforts to comply with all health, safety, and environmental laws and regulations applicable to your facility.

(714) 559-0106
bcarroll@ochca.com

ADDITIONAL FEES:
Uncorrected violations may lead to follow-up actions, which may incur additional fees. The purpose of these fees is to shift costs away from compliant operators and impose fees on those facilities that fail to readily comply with the applicable laws and regulations. The amount of the fee is to cover all of the cost associated with the service. For the most current fees, please refer to http://ochealthinfo.com/eh/home/fees or call (714) 433-6000.

Hazardous Materials

Does your facility have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or is regulated under more restrictive inventory local reporting requirements (shown below if present); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	**Yes**

Underground Storage Tank(s) (UST)

Does your facility own or operate underground storage tanks?	**No**

Hazardous Waste

Is your facility a Hazardous Waste Generator?	**No**
Does your facility treat hazardous waste on-site?	**No**
Is your facility's treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	**No**
Does your facility consolidate hazardous waste generated at a remote site?	**No**
Does your facility need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	**No**
Does your facility generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month greater than 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	**No**
Is your facility a Household Hazardous Waste (HHW) Collection site?	**No**

Excluded and/or Exempted Materials

Does your facility recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	**No**

Aboveground Petroleum Storage

Does your facility own or operate aboveground petroleum storage tanks or containers AND: * have a total aboveground petroleum storage capacity of 1,320 gallons or more, OR * have one or more petroleum tanks in an underground area?	**No**

Regulated Substances

Does your facility have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	**No**

Additional Information

No additional comments provided.

Engineer	Emergency back power for buildings and server room

THIS PLAN COVERS CHEMICAL SPILLS, FIRES, AND EARTHQUAKES INVOLVING (Check all that apply): (A10.)

☐ 1. HAZARDOUS MATERIALS; ☒ 2. HAZARDOUS WASTES

INTERNAL FACILITY EMERGENCY RESPONSE WILL OCCUR BY (Check all that apply): (B1.)

☒ 1. CALLING PUBLIC EMERGENCY RESPONDERS (e.g., 9-1-1)
☒ 2. CALLING HAZARDOUS WASTE CONTRACTOR
☒ 3. ACTIVATING IN-HOUSE EMERGENCY RESPONSE TEAM

In the event of an emergency involving hazardous materials and/or hazardous waste, all facilities must IMMEDIATELY:
1. Notify facility personnel and evacuate if necessary in accordance with the Emergency Action Plan (Title 8 California Code of Regulations §3220);
2. Notify local emergency responders by calling 9-1-1;
3. Notify the local Unified Program Agency (UPA) at the phone number below; and
4. Notify the State Warning Center at (800) 852-7550.

Facilities that generate, treat, store or dispose of hazardous waste have additional responsibilities to notify and coordinate with other response agencies. Whenever there is an imminent or actual emergency situation such as an explosion, fire, or release, the Emergency Coordinator must follow the appropriate requirements for the category of facility and type of release involved:
1. Title 22 California Code of Regulations §66265.56. Emergency Procedures for generators of 1,000 kilograms or more of hazardous waste in any calendar month.
2. Title 22 California Code of Regulations §66265.196. Response to Leaks or Spills and Disposition of Leaking or Unfit-for-Use Tank Systems.
3. Title 40 Code of Federal Regulations §302.6. Notification requirements for a release of a hazardous substance equal to or greater than the reportable quantity.
4. Title 22 California Code of Regulations §66262.34(d)(2) and Title 40 Code of Federal Regulations §262.34(d)(5)(ii) for generators of less than 1000 kilograms of hazardous waste in any calendar month.

Following notification and before facility operations are resumed in areas of the facility affected by the incident, the Emergency Coordinator shall notify the local UPA and the local fire department's hazardous materials program, if necessary, that the facility is in compliance with requirements to:
1. Provide for proper storage and disposal of recovered waste, contaminated soil or surface water, or any other material that results from an explosion, fire, or release at the facility; and
2. Ensure that no material that is incompatible with the released material is transferred, stored, or disposed of in areas of the facility affected by the incident until cleanup procedures are completed.

Note: If more than one alternate emergency coordinator is designated, attach a list in order of responsibility.

D. EMERGENCY CONTAINMENT AND CLEANUP PROCEDURES

Check the applicable boxes to indicate your facility's procedures for containing spills and preventing and mitigating releases, fires and/or explosions.

D1.

- [ ] 1. MONITOR FOR LEAKS, RUPTURES, PRESSURE BUILD-UP, ETC.;
- [x] 2. PROVIDE STRUCTURAL PHYSICAL BARRIERS (e.g., Portable spill containment walls, built-in berms);
- [ ] 3. PROVIDE ABSORBENT PHYSICAL BARRIERS (e.g., Pads, spill pigs, spill pillows);
- [x] 4. COVER OR BLOCK FLOOR AND/OR STORM DRAINS;
- [ ] 5. LINED TRENCH DRAINS AND/OR SUMPS;
- [ ] 6. AUTOMATIC FIRE SUPPRESSION SYSTEM;
- [ ] 7. ELIMINATE SOURCES OF IGNITION FOR FLAMMABLE HAZARDS;
- [x] 8. STOP PROCESSES AND/OR OPERATIONS;
- [ ] 9. AUTOMATIC / ELECTRONIC EQUIPMENT SHUT-OFF SYSTEM;
- [x] 10. SHUT OFF WATER, GAS, ELECTRICAL UTILITIES;
- [x] 11. CALL 9-1-1 FOR PUBLIC EMERGENCY RESPONDER ASSISTANCE AND/OR MEDICAL AID;
- [x] 12. NOTIFY AND EVACUATE PERSONS IN ALL THREATENED AND/OR IMPACTED AREAS;
- [x] 13. ACCOUNT FOR EVACUATED PERSONS IMMEDIATELY AFTER EVACUATION;
- [x] 14. PROVIDE PROTECTIVE EQUIPMENT FOR ON-SITE EMERGENCY RESPONSE TEAM;
- [ ] 15. REMOVE CONTAINERS AND/OR ISOLATE AREAS;
- [x] 16. HIRE LICENSED HAZARDOUS WASTE CONTRACTOR;
- [x] 17. USE ABSORBENT MATERIAL FOR SPILL CONTAINMENT;
- [ ] 18. VACUUM SUCTION USING APPROPRIATE VACUUM (e.g., Intrinsically safe) FOR SPILL CONTROL AND/OR CLEANUP;
- [ ] 19. DECONTAMINATE PERSONNEL AND EQUIPMENT WITHIN DESIGNATED AREA AND DISPOSE OF WASTEWATER AS HAZARDOUS WASTE;
- [ ] 20. PROVIDE SAFE TEMPORARY STORAGE OF HAZARDOUS WASTE GENERATED DURING EMERGENCY ACTIONS;
- [ ] 21. OTHER (Specify):

D2.

E. FACILITY EVACUATION

THE FOLLOWING ALARM SIGNAL(S) WILL BE USED TO BEGIN EVACUATION OF THE FACILITY (Check all that apply): E1.

E2.

- [ ] 1. BELLS;
- [x] 2. HORNS/SIRENS;
- [x] 3. VERBAL (i.e., Shouting);
- [x] 4. OTHER (Specify): Public Address System

THE FOLLOWING LOCATION(S) WILL BE USED FOR AN EMERGENCY ASSEMBLY AREA(S) (e.g., Parking lot, street corner): E3.

Pre-designed assembly areas in the parking lot

Note: The Emergency Coordinator must account for all onsite employees and visitors after evacuation.

EVACUATION ROUTE S AND ALTERNATE EVACUATION ROUTES ARE DESCRIBED AS FOLLOWS: E4.

- [x] 1. WRITTEN PROCEDURES DESCRIBING ROUTES, EXITS, AND ASSEMBLY AREAS;
- [x] 2. EVACUATION MAP(S) DEPICTING ROUTES, EXITS, AND ASSEMBLY AREAS;
- [ ] 3. OTHER (Specify):

E5.

Note: Evacuation procedures and/or maps should be posted in visible facility locations and must be included in the Contingency Plan.

F. ARRANGEMENTS FOR EMERGENCY SERVICES

ADVANCE ARRANGEMENTS FOR LOCAL EMERGENCY SERVICES (Check one of the following): F1.

- [ ] 1. HAVE BEEN DETERMINED NOT NECESSARY;
- [x] 2. THE FOLLOWING ARRANGEMENTS HAVE BEEN MADE (Specify): Contacted a hazardous waster removal company to improve the contingency plan. F2.

Note: Advance arrangements with local fire and police departments, hospitals, state and local emergency response teams, and/or emergency services contractors should be made for your facility, if necessary. Large Quantity Generators must describe arrangements in the Contingency Plan.

G. EMERGENCY EQUIPMENT

Check the applicable boxes to list emergency response equipment available at the facility, identify the location(s) where the equipment is kept, and indicate the equipment's capability, if applicable.

H. EARTHQUAKE VULNERABILITY

Identify areas of the facility that are vulnerable to hazardous materials releases due to seismic motion. These areas require immediate isolation and inspection.

VULNERABLE AREAS (Check all that apply): H1.

- ☐ 1. HAZARDOUS MATERIALS AND/OR WASTE STORAGE AREAS
- ☐ 2. PROCESS LINES AND PIPING
- ☐ 3. LABORATORY
- ☐ 4. WASTE TREATMENT AREA

LOCATIONS (e.g., Shop, outdoor shed, lab): H2.

Identify mechanical systems vulnerable to releases / spills due to earthquake-related motion. These systems require immediate isolation and inspection.

VULNERABLE SYSTEMS AND/OR EQUIPMENT (Check all that apply): H3.

- ☐ 1. SHELVES, CABINETS AND/OR RACKS
- ☑ 2. TANKS AND SHUT-OFF VALVES
- ☐ 3. PORTABLE GAS CYLINDERS
- ☐ 4. EMERGENCY SHUT-OFF AND/OR UTILITY VALVES
- ☐ 5. SPRINKLER SYSTEMS
- ☐ 6. STATIONARY PRESSURIZED CONTAINERS (e.g., Propane tank)

LOCATIONS: H4.

Diesel fuel generator in the Loading dock area

I. EMPLOYEE TRAINING

Employee training is required for all employees and/or contractors handling hazardous materials and/or hazardous wastes during normal and/or emergency operations. Most facilities will need to submit a separate Training Plan. However, your CUPA may accept this section as the Training Plan for some small facilities.
Employee training plans may include the following content:

- Applicable laws and regulations;
- Emergency response plans and procedures;
- Safety Data Sheets;
- Hazard communication related to health and safety;
- Methods for safe handling of hazardous substances;
- Hazards of materials and processes (e.g., fire, explosion, asphyxiation);
- Hazard mitigation, prevention and abatement procedures;
- Coordination of emergency response actions;
- Notification procedures for local emergency responders, CUPA, Cal OES, and onsite personnel;
- Communication and alarm systems;
- Personal protective equipment;
- Use and maintenance of emergency response equipment and supplies (e.g. Fire extinguishers, respirators, spill control materials);
- Decontamination procedures;
- Evacuation procedures and evacuation staging locations;
- Identification of facility areas, equipment, and systems vulnerable to earthquakes and other natural disasters.
- OTHER (Specify):

Check the applicable boxes below to indicate how the employee training program is administered.

☑ 1. FORMAL CLASSROOM ☐ 2. VIDEOS ☑ 3. SAFETY MEETINGS ☐ 4. STUDY GUIDES / MANUALS I1.

☐ 5. OTHER (Specify): I2.

☐ 6. NOT APPLICABLE SINCE FACILITY HAS NO EMPLOYEES

☐ 7. CHECK IF A SEPARATE EMPLOYEE TRAINING PLAN IS USED AND UPLOADED TO CERS AS A PDF DOCUMENT I3.

☐ 8. CHECK IF EMPLOYEE TRAINING IS COVERED BY THE ABOVE REFERENCED CONTENT AND OTHER DOCUMENTS ONSITE I4.

EMPLOYEE TRAINING FREQUENCY AND RECORDKEEPING TRAINING MUST BE:

- Provided initially for new employees as soon as possible following the date of hire. New employees should not work in an unsupervised position that involves hazardous materials handling and/or hazardous waste management without proper training;
- Provided within six months from the date of hire for new employees at a large quantity generator;
- Ongoing and provided at least annually;
- Amended prior to a change in process or work assignment;
- Given upon modification to the Emergency Response/Contingency Plan.

Large Quantity Generator Training: Large quantity generators (1,000 kg or more) must retain written plan and documentation of employee training which includes:

- A written description of the type and amount of both initial and ongoing training that will be given to persons filling each job position having responsibility for hazardous waste management and/or emergency response.
- The name, job title and job description for each position at the facility related to hazardous waste management.
- Current employee training records must be retained until closure of the facility and former employee training records must be retained for at least three years after termination of employment.

Small Quantity Generator Training: Small quantity generators (less than 1,000 kg) must include basic hazardous waste management and emergency response procedures but a written employee training plan and training records are not required. In order to show that the facility has met the small quantity generator employee training requirement, an employee training plan and training records may be made available.

Hazardous Materials Business Plan Training: Businesses must provide initial and annual employee training that includes the content referenced above. The training may be based on the job position and training records must be made available for a period of at least three years.

J. LIST OF ATTACHMENTS

Check one of the following: J1.

- ☐ 1. NO ATTACHMENTS ARE REQUIRED; or

GENERAL COMMENTS

APSA Program

The facility is no longer occupying this space. Met with Brad Gustavsen, building engineer for Quest, who indicated that the Backup Generator will be dismantled and removed from the site.

Business Plan Program

On site for a routine Hazardous Materials Business Plan Inspection. Met with Brad Gustavsen, building engineer. The facility has moved to a smaller location and all manufacturing has been moved out of state. The diesel emergency generator will be dismantled by April.

Removed the reporting requirement in CERS for this facility and will send a task to inactive the HMBP and APSA for this facility.

On site to conduct aboveground petroleum storage tank (APST) inspection, consent to enter, inspect and take photographs was given by - Wally Backus, Facilities Sup.

Change in ownership as of 10/30/2016 from Dell Software to Quest Software Inc.

Facility is regulated under the Aboveground Storage Tank Act (APSA). Facility has between 1,320 and 9,999 gallons of regulated petroleum products .

Facility has the Following:
1) On site SPCC Prepared and implemented - update the name/owner to Quest Software
a. Facilities that are a qualified Tier 1 facility (store less than 10,000 gallons, with no single tank/container having a volume greater than 5,000 gallons) can create their own SPCC Plan using a federal template.
b. Plan is required to be reviewed every 5 years. Ensure that new corporate staff sign the SPCC plan when you update the plan
2) Periodic checklist of inspection activities is available for tanks.
3) Appropriate secondary containment or diversionary structures
4) Training on SPCC plan for appropriate staff- training was done 4/20/16

Orange County Environmental Health has created a website that contains information regarding the APST program and its requirements. The APST website is located at http://www.occupainfo.com/ast.htm. For information regarding the SPCC Plan, please visit http://www.occupainfo.com/downloads/Ttier1-Qualified-Facility-SPCC-Plan.doc .

C/O - OWNER QUEST SOFTWARE INC		INSPECTOR BRIAN CARROLL		
FACILITY ID FA0065895	RELATED ID PR0097647	SERVICE: A01 - ROUTINE INSPECTION	INSPECTION DATE 6/11/2020	
PROGRAM DESCRIPTION 7112 - ABOVE GROUND STORAGE TANK 1320 - 9999 GAL			REINSPECTION DATE: NEXT ROUTINE	UNITS **1 GAL.**

Consent to enter, inspect, and take photos of the facility was given by: WALLY BACKUS

The following items have been inspected. If there were violations, this document constitutes a Summary of Violations and Notice to Comply and the Violation Degree column is marked Minor, Class I, or Class II. A violation that is corrected at the time of inspection is marked COS. Failure to correct the listed violation(s) prior to the designated compliance date may necessitate a reinspection at an additional fee.

Overall Inspection Comments:

On site for an aboveground petroleum storage tank (APST) inspection. Access to this facility was provided by Wally Backus and Brad.

Facility contains:

- 1 Diesel APST (1500 gallons)

Facility is regulated under the Aboveground Storage Tank Act (APSA). This facility has between 1,320 and 9,999 gallons of regulated petroleum products (Tier 1 facility).

Facility has the following:
- On-site Spill Prevention Controls and Countermeasures (SPCC) plan prepared and implemented. SPCC must be evaluated every 5 years)
- Training (last conducted 1/1/2020)
- Periodic checklist is available for tanks (per SPCC inspections are conducted monthly)
- Appropriate secondary containment or diversionary structures

No violations were noted. Orange County Environmental Health greatly appreciates your efforts to comply with all health, safety, and environmental laws and regulations applicable to your facility.

ADDITIONAL FEES:

Uncorrected violations may lead to follow-up actions, which may incur additional fees. The purpose of these fees is to shift costs away from compliant operators and impose fees on those facilities that fail to readily comply with the applicable laws and regulations. The amount of the fee is to cover all of the cost associated with the service. For the most current fees, please refer to http://ochealthinfo.com/eh/home/fees or call (714) 433-6000.

PROGRAM DESCRIPTION 5801 - HAZ MAT DISCLOSURE 1-4 CHEMICALS			REINSPECTION DATE: NEXT ROUTINE

Consent to enter, inspect, and take photos of the facility was given by: SONNY VU

The following items have been inspected. If there were violations, this document constitutes a Summary of Violations and Notice to Comply and the Violation Degree column is marked Minor, Class I, or Class II. A violation that is corrected at the time of inspection is marked COS. Failure to correct the listed violation(s) prior to the designated compliance date may necessitate a reinspection at an additional fee.

Overall Inspection Comments:

An onsite hazardous materials inspection of this facility was conducted this date. Access to the facility was provided by Sonny Vu.

The following materials were observed in amounts that meet or exceed the minimum volumes required for disclosure:

- Diesel fuel

NOTE: Only one LPG cylinder (for the facility's forklift) was observed. The volume of LPG is normally under the threshold by which facilities are required to report.
ALSO NOTE: There is a server room in the interior of this facility. The server room's UPS may contain battery arrays that exceed the threshold to report. Determine if this facility exceeds the following thresholds:

55 gallons liquid
500 pounds solid
200 cubic feet compressed gas

A copy of this inspection report will be emailed to: sonny.vu@fluor.com

No violations were noted. Orange County Environmental Health greatly appreciates your efforts to comply with all health, safety, and environmental laws and regulations applicable to your facility.

CAUTION: External Email

Good morning,

The San Diego Water Board received your California Public Records Act request. In reviewing your request, I searched the following databases: the Board's Electronic Content Management (ECM) filing system, California Integrated Water Quality System (CIWQS), Stormwater Multiple Application and Report Tracking System (SMARTS), and GeoTracker.

Based on the information you provided, my search did not return any records related to your request. Feel free to email me back if you have any further questions.

Sincerely,

CALIFORNIA Water Boards

Hello,

Haley & Aldrich is an environmental engineering company conducting a Phase I Environmental Site Assessment of the property located at the following addresses/APN:

1 Polaris Way, Aliso Viejo, CA 92656 [APN: 623-481-49]
2 Polaris Way, Aliso Viejo, CA 92656 [APN: 623-481-50]
3 Polaris Way, Aliso Viejo, CA 92656 [APN: 623-481-51]
4 Polaris Way, Aliso Viejo, CA 92656 [APN: 623-481-53]
5 Polaris Way, Aliso Viejo, CA 92656 [APN: 623-481-52]

We are interested in any environmental files you may have for this property, such notices of violation, permits to operate, environmental site assessments, etc.

Thank you

David Rother

EDR Historical Topo Map Report

02/10/26

Site Name:

Aliso Viejo - Polaris
5 Polaris Way
Aliso Viejo, CA 92656
EDR Inquiry # 8247690.4

Client Name:

Haley & Aldrich
9040 Friars Rd.
San Diego, CA 92108
Contact: David Rother

EDR Topographic Map Library has been searched by EDR and maps covering the target property location as provided by Haley & Aldrich were identified for the years listed below. EDR's Historical Topo Map Report is designed to assist professionals in evaluating potential liability on a target property resulting from past activities. EDRs Historical Topo Map Report includes a search of a collection of public and private color historical topographic maps, dating back to the late 1800s.

Search Results:

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at approximately five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1920 through current. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

Summary information obtained is provided in the text of this report.

RECORD SOURCES

The EDR City Directory Report accesses a variety of business directory sources, including Haines, InfoUSA, Polk, Cole, Bresser, and Stewart. Listings marked as EDR Digital Archive access Cole and InfoUSA records. The various directory sources enhance and complement each other to provide a more thorough and accurate report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer.

Certified Sanborn® Map Report

02/10/26

Site Name:

Aliso Viejo - Polaris
5 Polaris Way
Aliso Viejo, CA 92656
EDR Inquiry # 8247690.3

Client Name:

Haley & Aldrich
9040 Friars Rd.
San Diego, CA 92108
Contact: David Rother

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Haley & Aldrich were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

Certified Sanborn Results:

Certification # 3E7B-4B37-8179

Project Aliso Viejo - Polaris

UNMAPPED PROPERTY

This report certifies that the complete holdings of the Sanborn Library, LLC collection have been searched based on client supplied target property information, and fire insurance maps covering the target property were not found.

Sanborn® Library search results

Certification #: 3E7B-4B37-8179

The Sanborn Library includes more than 1.2 million fire insurance maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow and others which track historical property usage in approximately 12,000 American cities and towns. Collections searched:

- ☑ Library of Congress
- ☑ University Publications of America
- ☑ EDR Private Collection

The Sanborn Library LLC Since 1866™

Limited Permission To Make Copies

Haley & Aldrich (the client) is permitted to make up to FIVE photocopies of this Sanborn Map transmittal and each fire insurance map accompanying this report solely for the limited use of its customer. No one other than the client is authorized to make copies. Upon request made directly to an EDR Account Executive, the client may be permitted to make a limited number of additional photocopies. This permission is conditioned upon compliance by the client, its customer and their agents with EDR's copyright policy; a copy of which is available upon request.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E1527 - 21), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E2247 - 23), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E1528 - 22) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal RCRA generators

RCRA-LQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

A review of the RCRA-LQG list, as provided by EDR, and dated 11/30/2025 has revealed that there are 3

EXECUTIVE SUMMARY

RCRA-LQG sites within approximately 0.25 miles of the target property.

Equal/Higher Elevation	Address	Direction / Distance	Map ID	Page
MICROVENTION EPA ID:: CAR000178483	75A COLUMBIA	N 0 - 1/8 (0.059 mi.)	B3	15
MICROVENTION INC EPA ID:: CAR000273185	***35 ENTERPRISE***	***WSW 1/8 - 1/4 (0.220 mi.)***	***J52***	***329***

NEOGENOMICS LABORATO EPA ID:: CAR000184259	***31 COLUMBIA***	***NNW 1/8 - 1/4 (0.134 mi.)***	***G35***	***199***

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 11/30/2025 has revealed that there are 9 RCRA-SQG sites within approximately 0.25 miles of the target property.

Lists of state and tribal registered storage tanks

UST: The Underground Storage Tank database contains registered USTs. USTs are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The data come from the State Water Resources Control Board's Hazardous Substance Storage Container Database.

A review of the UST list, as provided by EDR, has revealed that there are 3 UST sites within

approximately 0.25 miles of the target property.

Local Lists of Registered Storage Tanks

SWEEPS UST: Statewide Environmental Evaluation and Planning System. This underground storage tank listing was updated and maintained by a company contacted by the SWRCB in the early 1990's. The listing is no longer updated or maintained. The local agency is the contact for more information on a site on the SWEEPS list.

A review of the SWEEPS UST list, as provided by EDR, and dated 06/01/1994 has revealed that there is 1 SWEEPS UST site within approximately 0.25 miles of the target property.

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 11/30/2025 has revealed that there are 13 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

PFAS ECHO: Regulators and the public have expressed interest in knowing which regulated entities may be using PFAS. EPA has developed a dataset from various sources that show which industries may be handling PFAS. Approximately 120,000 facilities subject to federal environmental programs have operated or currently operate in industry sectors with processes that may involve handling and/or release of PFAS.

A review of the PFAS ECHO list, as provided by EDR, and dated 12/17/2025 has revealed that there are 4 PFAS ECHO sites within approximately 0.25 miles of the target property.

UST FINDER: EPA developed UST Finder, a web map application containing a comprehensive, state-sourced national map of underground storage tank (UST) and leaking UST (LUST) data. It provides the attributes and locations of active and closed USTs, UST facilities, and LUST sites from states and from Tribal lands and US territories . UST Finder contains information about proximity of UST facilities and LUST sites to: surface and groundwater public drinking water protection areas; estimated number of private domestic wells and number of people living nearby; and flooding and wildfires.

A review of the UST FINDER list, as provided by EDR, and dated 06/08/2023 has revealed that there is 1 UST FINDER site within approximately 0.25 miles of the target property.

EXECUTIVE SUMMARY

UST FINDER RELEASE: US EPA's UST Finder data is a national composite of leaking underground storage tanks. This data contains information about, and locations of, leaking underground storage tanks. Data was collected from state sources and standardized into a national profile by EPA's Office of Underground Storage Tanks, Office of Research and Development, and the Association of State and Territorial Solid Waste Management Officials.

A review of the UST FINDER RELEASE list, as provided by EDR, and dated 06/08/2023 has revealed that there are 2 UST FINDER RELEASE sites within approximately 0.5 miles of the target property.

E MANIFEST: EPA established a national system for tracking hazardous waste shipments electronically. This system, known as ?e-Manifest,? will modernize the nation?s cradle-to-grave hazardous waste tracking process while saving valuable time, resources, and dollars for industry and states.

A review of the E MANIFEST list, as provided by EDR, and dated 11/30/2025 has revealed that there are 23 E MANIFEST sites within approximately 0.25 miles of the target property.

EXECUTIVE SUMMARY

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there is 1 EDR Hist Auto site within approximately 0.125 miles of the target property.

EDR Hist Cleaner: EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Cleaner list, as provided by EDR, has revealed that there is 1 EDR Hist Cleaner site within approximately 0.125 miles of the target property.

	quantities.
Violation Notes:	According to the CERS database, your business remains out of compliance with the 2025 annual certification requirement and a violation is being cited. Businesses are required to annually review and certify that their information in the California Electronic Reporting System (CERS) is complete, accurate and in compliance by March 1st. Last submittal was on 2/22/24
Violation Division:	Orange County Environmental Health
Violation Program:	HMRRP
Violation Source:	CERS,
Site ID:	412908
Site Name:	Fluor
Violation Date:	11-22-2016
Citation:	HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Description:	Failure to complete and electronically submit a business plan when storing/handling a hazardous material at or above reportable quantities.
Violation Notes:	Returned to compliance on 05/09/2017. OBSERVATION: A business plan has not been received by the CUPA. The facility was previously sent a notice/request from the CUPA for the submittal of a business plan within 30 days. CORRECTIVE ACTION: Submit the business plan electronically in the California Environmental Reporting System (CERS) and implement immediately.
Violation Division:	Orange County Environmental Health
Violation Program:	HMRRP
Violation Source:	CERS,
Site ID:	412908
Site Name:	Fluor
Violation Date:	11-22-2016
Citation:	HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Description:	Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.
Violation Notes:	Returned to compliance on 05/09/2017. OBSERVATION: The facility has not submitted the Hazardous Materials Inventory Chemical Description page for diesel and propane as listed below, to the CUPA. CORRECTIVE ACTION: Complete and submit the Hazardous Materials Inventory Chemical Description page for all materials listed above electronically in the California Environmental Reporting System (CERS) within 30 days to abate this violation.
Violation Division:	Orange County Environmental Health
Violation Program:	HMRRP
Violation Source:	CERS,
Site ID:	412908
Site Name:	Fluor
Violation Date:	11-22-2016
Citation:	HSC 6.95 25505(a)(4) - California Health and Safety Code, Chapter 6.95, Section(s) 25505(a)(4)
Violation Description:	Failure to provide initial and annual training to all employees in safety procedures in the event of a release or threatened release of a hazardous material or failure to document and maintain training records for a minimum of three years.

FLUOR (Continued) **S123517685**

Violation Notes: Returned to compliance on 05/09/2017. OBSERVATION: Annual training documentation for all applicable employees was not available. CORRECTIVE ACTION: Submit documentation to the CUPA demonstrating that employees have received training on safe handling of hazardous materials and the Emergency Response Plan within 30 days to abate the violation.

Hazardous Waste Summary:
Waste Code: D001
Waste Description: Ignitable Waste

Waste Code: D002
Waste Description: Corrosive Waste

Waste Code: F003
Waste Description: The Following Spent Nonhalogenated Solvents: Xylene, Acetone, Ethyl Acetate, Ethyl Benzene, Ethyl Ether, Methyl Isobutyl Ketone, N-Butyl Alcohol, Cyclohexanone, And Methanol; All Spent Solvent Mixtures/Blends Containing, Before Use, Only The Above Spent Nonhalogenated Solvents; And All Spent Solvent Mixtures/Blends Containing, Before Use, One Or More Of The Above Nonhalogenated Solvents, And A Total Of Ten Percent Or More (By Volume) Of One Or More Of Those Solvents Listed In F001, F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F005
Waste Description: The Following Spent Nonhalogenated Solvents: Toluene, Methyl Ethyl Ketone, Carbon Disulfide, Isobutanol, Pyridine, Benzene, 2-Ethoxyethanol, And 2-Nitropropane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Nonhalogenated Solvents Or Those Solvents Listed In F001, F002, Or F004; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
California's Hazardous Waste Tracking System Data Mart (HWTS-DATAMART) provides information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Eval General Type: Compliance Evaluation Inspection
Eval Date: 03-15-2024
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: On site to conduct a routine hazardous waste inspection. Manny Gonzalez, Technician 3, provided consent to inspect. This facility is a auto body/collision shop that works only on Tesla vehicles. The facility generates the following hazardous wastes: used safety devices (airbags), waste antifreeze, contaminated waste debris, universal waste (aerosol cans), used lead acid batteries, waste brake fluid, waste lubricant oil, waste flammable liquid/solids (from painting activities). A perimeter walk was conducted. Municipal dumpster does not appear to contain any hazardous waste. Pallets, scrap plastic, scrap auto glass, scrap metal are collected and picked up by ZARC Recycler. A log was available and reviewed. Manifest from Safety Kleen were available and reviewed. Emergency response information is posted near the front desk phone. Employees are reported to be trained. No hazardous waste violations were observed on this date. Inspection report emailed to manngonzalez@tesla.coml mailto:
