Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

SCH #: 1999012033

Project Title: Modesto Irrigation District Electrical System Improvement (ESI) Program 2026-2033

Lead Agency: Modesto Irrigation District

Contact Name: Subbaiah Pasupulati

Email: subbaiah.pasupulati@mid.org Phone Number: 209-526-7435

Project Location: Modesto (*City*) Stanislaus (*County*)

Project Description (Proposed actions, location, and/or consequences).

The Modesto Irrigation District (MID) is authorized by the California Water Code and other relevant law to provide electrical service to an area of approximately 568 square miles in portions of San Joaquin, Stanislaus, and Tuolumne counties. MID is required to provide electrical service within its “traditional service area” of approximately 160 square miles, all within Stanislaus County, and within the City of Mountain House, approximately eight square miles, within San Joaquin County. It may also provide service to customers in a 400-square mile “joint electric distribution service area” in San Joaquin and Stanislaus counties, where MID may compete with other utilities. This Updated PEIR is intended to provide CEQA environmental review for ESI Program activities during the 2025 – 2032 planning period.

Identify the project’s significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

AES-2: Scenic Resources (See Table 2-1)
AES-3: Visual Character (See Table 2-1)
AG-2: Williamson Act Contract Lands (See Table 2-1)
AIR-1: Air Quality Plans and Standards (See Table 2-1)
AIR-3: Exposure of Sensitive Receptors to Pollutants (See Table 2-1)
BIO-2: Sensitive Vegetation Communities (See Table 2-1)
BIO-3: Waters of the U.S. and Wetlands (See Table 2-1)
BIO-4: Sensitive Wildlife Habitats (See Table 2-1)
BIO-5: Wildlife Migration (See Table 2-1)
CULT-1: Historical and Archaeological Resources (See Table 2-1)
CULT-2: Paleontological Resources (See Table 2-1)
GEO-3: Soil Erosion (See Table 2-1)
GEO-4: Geological Instability and Expansive Soils (See Table 2-1)
HAZ-3: Wildlife Hazards (See Table 2-1)
HAZ-7: Electromagnetic Fields (See Table 2-1)
LU-1: Private Land Use Conflicts and Division of Communities (See Table 2-1)
LU-2: Land Use Plans and Policy Considerations (See Table 2-1)
LU-3: Public Land Use Conflicts (See Table 2-1)
NOISE-1: Exposure to Noise Levels in Excess of Standards and Permanent Noise Level Increases (See Table 2-1)
NOISE-2: Temporary Increases in Noise Levels (See Table 2-1)
TRANS-1: Traffic Volumes and Flow (See Table 2-1)
TRANS-5: Non-Motor Vehicle Transportation (See Table 2-1)
SERV-1: General Utility Impacts (See Table 2-1)

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

None

Provide a list of the responsible or trustee agencies for the project.
