APPENDIX 3.10-A: POTENTIAL ENVIRONMENTAL CONCERN SITES AND FIGURES

Table 3.10-A1 Hazardous Waste Properties Within and Adjoining Areas of the High-Speed Rail Project Alternative Limits of Disturbance

Map ID	Properties as Identified by EDR, GeoTracker, EnviroStor, or Sanborn Maps												Site Reconnaissance		Category
	Site or Business Name	Historical Site Use	Site Address			Distance/ Direction from PEC Sites RSA (based on footprint w/stations (Feb 2025)	Contaminants of Concern	Groundwater			Extent of Soil, Groundwater, or Soil Vapor Effects	Status of Case or Site	Observations	Date of Visit	
			Street Number	Street	City			Depth	Flow Direction	Affected					
1	Union Station within RSA	--	800	N Alameda St	Los Angeles	Within RSA	Soil: TPH	--	--	No	Soil affected with TPH, maximum concentration of 4,000 ppm, was used for soil reuse at the property under RWQCB's approval in 1990.	SLIC – Case closed. NFA dated 8/16/1996.	Active train station and apartments.	08-16-2016	B
2	Wirichaga Francisco, Xeplates Nicholas	Dry Cleaners	115 1/2 and 111 1/2	E Commercial St	Los Angeles	--	--	--	--	--	No documented releases	No documented releases	Address not observed.	08-16-2016	C
3	SoCal Gas/Aliso Sector C, Block G	Manufactured Gas Plant	--	NW corner of Commercial St and Center St	Los Angeles	Within RSA	Soil/Groundwater: PAHs, BTEX, TPH, VOCs, Metals. Soil Vapor: TCE, PCE, 1,1-DCA, acetone, methylene chloride, toluene, hydrogen sulfide, methane	--	--	Yes	--	Land use restrictions (draft) for commercial/ industrial use. Groundwater remediation to be determined.	Address and sign not observed. Property appears to be gravel lot with utility equipment, tanks, and vehicles.	08-16-2016	A
4	PBR Realty, LLC	--	531	E Commercial St	Los Angeles	Within RSA	Groundwater: hydrocarbons (free product), other solvents and non-petroleum hydrocarbons	--	--	Yes	--	Ongoing post remedial action groundwater monitoring. Open-Inactive as of 2/2/2015.	Address and sign not observed. Property appears to be an undeveloped lot adjacent to freeway on-ramp.	08-16-2016	A
5	Caltrans – Commercial Street Property	Brewery, wire and metal works shop, truck storage, auto painting facility, parking lot, beer bottling and warehouse facility	501	E Commercial St	Los Angeles	Within RSA	Soil and groundwater: benzene, heating oil/fuel oil, other chlorinated hydrocarbons, other petroleum, vinyl chloride, waste oil/ motor/ hydraulic/ lubricating, xylene	32–40 feet bgs	South-Southwest	Yes	Under investigation	Open site assessment as of 5/21/2014.	Address and sign not observed. Property appears to be a paved lot occupied by homeless encampment. No buildings were observed.	08-16-2016	A

Map ID	Properties as Identified by EDR, GeoTracker, EnviroStor, or Sanborn Maps												Site Reconnaissance		Category
	Site or Business Name	Historical Site Use	Site Address			Distance/ Direction from PEC Sites RSA (based on footprint w/stations (Feb 2025)	Contaminants of Concern	Groundwater			Extent of Soil, Groundwater, or Soil Vapor Effects	Status of Case or Site	Observations	Date of Visit	
			Street Number	Street	City			Depth	Flow Direction	Affected					
6	SoCal Gas	Manufactured Gas Plant	Northeast corner	Ducommon St and Center St	Los Angeles	Within RSA	Soil: petroleum hydrocarbons, BTEX, PAHs, chlorinated solvents, MTBE, dicyclopentadiene, butadiene, and metals	--	--	No	--	Removal action completion report dated 11/24/2009. NFA issued. Land use restriction due date 2/28/16.	Address shows 500 Center St. A wall surrounds property. Power structures and buildings observed inside wall.	08-16-2016	B
7	Los Angeles Co. MTA, The Greenwald Co.	Manufactured Gas Plant	410	Center St	Los Angeles	Within RSA	Soil: benzene, PAHs. Groundwater: BTEX, 1,2,4-trimethylbenzene, vinyl chloride, naphthalene, SVOCs. Soil vapor: dicyclopentadiene, PCE, TCA, TCE, BTEX, MTBE	--	--	Yes	--	Land use restrictions dated 11/13/2013 for industrial use including parking lot, vehicle storage, training for bus driver. 5-year reviews (last report was submitted 8/24/2012). Site remains affected by PCE in soil vapor. This concern will be addressed through additional remediation or land use covenant.	Address observed but no sign. Property is surrounded by brick wall. Buildings and utility poles observed inside wall.	08-16-2016	A
8	Los Angeles Co. MTA, Manley Oil Company	Manufactured Gas Plant, oil refining	410	Center St	Los Angeles	Within RSA	Soil, groundwater, soil vapor: benzene, lead, PAHs, TPH-diesel/gas, 1,3-butadiene, hexachlorobutadiene, styrene, toluene, xylenes, zinc, PCE, naphthalene	--	--	--	--	Land use restrictions (12/06/2013). Last 5-year review report dated 9/12/2012.	Same address/observations as above.	08-16-2016	A

Map ID	Properties as Identified by EDR, GeoTracker, EnviroStor, or Sanborn Maps												Site Reconnaissance		
	Site or Business Name	Historical Site Use	Site Address			Distance/ Direction from PEC Sites RSA (based on footprint w/stations (Feb 2025)	Contaminants of Concern	Groundwater			Extent of Soil, Groundwater, or Soil Vapor Effects	Status of Case or Site	Observations	Date of Visit	Category
			Street Number	Street	City			Depth	Flow Direction	Affected					
9	Aliso Sector C	Manufactured Gas Plant	820	E Commercial St	Los Angeles	Within RSA	Soil and groundwater: PAHs and VOCs	--	--	Yes	--	Active as of 4/1/2013. Remedial investigation performed in 2013. Land use covenant prepared. The owner notified DTSC that they are considering changing zoning from commercial to residential.	Address and sign were not observed. Property appears to be active yard with utilities, tanks, and vehicles.	08-16-2016	A
10	Unocal, Conoco, Tosco Refining	Oil Refining	501	Center St	Los Angeles	Within RSA	VOCs, PAHs, petroleum (media information not available)	--	--	Yes	--	Open – Inactive as of 1/16/1997.	Address and sign were not observed. Occupied by large commercial building with paved parking.	08-16-2016	A
11	Butterfield (Sun Chemical Corp.)	Paint manufacturing	590 and 601	S Santa Fe Ave	Los Angeles	60 feet west	Soil and groundwater: VOCs, TPH	--	--	Yes	--	Open – Inactive as of 2/2/2015; Voluntary cleanup agreement.	590 S Santa Fe is surrounded by fencing and appears to be under construction. 601 S Santa Fe was occupied by an old building and old tow truck, and was surrounded by chain link fence. Appeared to be inactive.	08-16-2016	A
12	Los Angeles Street Maintenance Storage	--	1451	E Sixth St	Los Angeles	430 feet west	Soil: “aviation,” petroleum fuel products such as gasoline and diesel	--	--	--	--	Case completed – closed as of 1/9/2001.	Could not access because of construction project. From distance, appears to be occupied by a building.	08-16-2016	B
13	Alfred Grant Company	Manufacturing, other, residential	2144	E Seventh St	Los Angeles	Within RSA	Soil: lead	--	--	No	--	NFA dated 1996.	Address not observed. Property appears to be occupied by building and yard (possibly manufacturing).	08-16-2016	B

Map ID	Properties as Identified by EDR, GeoTracker, EnviroStor, or Sanborn Maps												Site Reconnaissance		Category
	Site or Business Name	Historical Site Use	Site Address			Distance/ Direction from PEC Sites RSA (based on footprint w/stations (Feb 2025)	Contaminants of Concern	Groundwater			Extent of Soil, Groundwater, or Soil Vapor Effects	Status of Case or Site	Observations	Date of Visit	
			Street Number	Street	City			Depth	Flow Direction	Affected					
14	City Warehouse Corp./Los Angeles Bureau of Street Services	--	2222	E Seventh St	Los Angeles	Within RSA	Soil and soil vapor: TPH-diesel, VOCs	--	--	--	Soil effects to 10 feet bgs	LUST – Completed. NFA dated 1/13/2015. Remediation involved SVE system.	Address and sign observed. Observed building and paved parking. Property appears inactive. Surrounded by fence. Sign reads “City Warehouse Corp., Los Angeles.”	08-16-2016	B
15	Los Angeles City Fire, Angelus Western Paper Stock	--	2474	Porter St	Los Angeles		Groundwater: gasoline	--	--	Yes	--	LUST – Completed. Case closed as of 2/13/1995.	Address observed but no sign. Occupied by a building. Site appears active.	08-16-2016	B
16	So. Cal. Gas/Olympic Base MGP	Historical Auto Station	2424	E Olympic Blvd	Los Angeles	450 feet west	Soil, groundwater, soil vapor: PNAs, PAHs, metals, VOCs	90 feet bgs	--	--	Soil effects from 2–12 feet bgs	Active as of 10/4/2013. Land use restrictions.	Address observed but no sign. Observed buildings, paved driveways, and fuel island.	08-16-2016	A
17	Asphalt Plant Number 1	--	2484	E Olympic Blvd	Los Angeles	Within RSA	Soil: TPH, BTEX	123 to 160 feet bgs	--	--	--	Completed – Case closed. NFA dated 2/12/2010.	Address/property not observed.	08-16-2016	B
18	Amtrak Redondo Junction Facility	Railroad Maintenance Yard	2435	E Washington Blvd	Los Angeles	Within RSA	Soil, groundwater, soil vapor: TPH, BTEX, TCA, PCE, TCE, VOCs, PAHs.	--	--	Yes	--	Active as of 1/20/03.	Address not observed. Appears to be railroad track.	08-16-2016	A
19	Crown Coach/Redondo Junction/Clean Tech Manufacturing	Railroad Maintenance and right-of-way	2425 and 2455	E Washington Blvd	Los Angeles		Soil: lead, arsenic, TPH. Soil vapor: PCE, TCE, 1,1-DCE, chloroform	--	--	--	Soil vapor effects to 82 feet bgs	LUST – Open-Site Assessment as of 12/9/2014.	Address not observed. Appears to be railroad track.	08-16-2016	A
20	Alameda Corridor North End (ACTA Parcel)	--	2426	E Washington Blvd	Los Angeles	75 feet northwest	Soil: TPH, lead	--	--	--	--	Completed – Case closed. NFA dated 6/20/2003.	Address and sign observed. Property occupied by Star Industries, Inc. Observed a large commercial building and storage/loading yard.	08-16-2016	B
21	Alameda Corridor North End	Auto shop, auto services, electrical services, cloth printing	2520	E Washington Blvd	Los Angeles	Within RSA	Soil: copper	230 feet bgs	--	--	--	NFA dated 8/29/2002.	Address and sign observed: Ambiance. The property is occupied by a commercial building and paved parking.	08-16-2016	B

Map ID	Properties as Identified by EDR, GeoTracker, EnviroStor, or Sanborn Maps												Site Reconnaissance		
	Site or Business Name	Historical Site Use	Site Address			Distance/ Direction from PEC Sites RSA (based on footprint w/stations (Feb 2025)	Contaminants of Concern	Groundwater			Extent of Soil, Groundwater, or Soil Vapor Effects	Status of Case or Site	Observations	Date of Visit	Category
			Street Number	Street	City			Depth	Flow Direction	Affected					
22	ACTA North – LA City DWP	Trash bin repair, cleaning, painting facility	2630	E Washington Blvd	Los Angeles	--	None (one soil boring was sampled – TPH and VOCs were not detected above laboratory reporting limits; heavy metal concentrations at the site were considered to be consistent with natural occurring background levels)	230 feet bgs	--	--	--	SLIC – NFA dated 8/23/2002.	Address/property not observed.	08-16-2016	B
23	Alameda Corridor North End (ACTA North)	Fertilizer storage, screw manufacturing	2650	E Washington Blvd	Los Angeles	Within RSA	Soil: TPH, lead.	230 feet bgs	--	--	--	SLIC – NFA dated 8/23/2002.	Address and sign were observed: Produce Distribution, Greenhouse Farm Distribution Property is occupied by a building with multiple units/roll up doors and paved parking with parked trucks.	08-16-2016	B
24	Alameda Corridor North End (ACTA North)	used site for stables and trucks, mainly refuse vehicles and storage since the 1920s; fertilizer storage/packing/shipping, screw manufacturing during the 1920s	2607	E Washington Blvd	Los Angeles	90 feet west	Soil: TPH, 1,2-dichlorobenzene, lead	230 feet bgs	--	--	--	SLIC – NFA dated 9/24/2002.	Address and sign were not observed. Property appears to be occupied by waste trucks, buildings, and storage yard containing miscellaneous equipment/parts.	08-16-2016	B
25	Vulcan Materials	--	2715	E Washington Blvd	Los Angeles	Within RSA	Soil: diesel	--	--	--	--	LUST – Completed-case closed as of 9/25/2006.	Address and sign observed: Vulcan Materials. Observed building material stockpiles, conveyors, trucks loading, and buildings.	08-16-2016	B

Map ID	Properties as Identified by EDR, GeoTracker, EnviroStor, or Sanborn Maps												Site Reconnaissance		Category
	Site or Business Name	Historical Site Use	Site Address			Distance/ Direction from PEC Sites RSA (based on footprint w/stations (Feb 2025)	Contaminants of Concern	Groundwater			Extent of Soil, Groundwater, or Soil Vapor Effects	Status of Case or Site	Observations	Date of Visit	
			Street Number	Street	City			Depth	Flow Direction	Affected					
26	Ekco	Scrap metals, battery reclamation	1700	Perrino Pl	Los Angeles	250 feet west	Soil: Lead	>50 feet bgs	--	No	Soil effects <10 feet bgs	Active as of 8/13/2014. Land Use Covenant dated 6/5/2001. 10/30/2014, Open – Inactive, LUC in place, soil with lead >1,000 milligrams per kilograms was excavated	Address and sign observed. Occupied by Ekco Metal Recyclers. Observed buildings and yard with metal scraps and trucks loading/unloading.	08-16-2016	A
27	Cal-Doran	--	2830	E Washington Blvd	Los Angeles	120 feet north	Soil, groundwater, soil vapor, 1,1,1-TCA, PCE, TCE, lead, petroleum	230 feet bgs	Northwest	Yes	Soil effects to 230 feet bgs. Groundwater and soil vapor effects.	Open – Assessment and Interim remedial action as of 5/10/2010. Ongoing soil vapor extraction and groundwater monitoring.	Address was not observed. Property appears to be an undeveloped lot. A large sediment stockpile was observed on the property.	08-16-2016	A
28	Erb & Gray Scientific	--	3101	E 26th St	Vernon	340 feet southwest	Soil: cyanogen bromide, cyanogen chloride, phosphoric acid	--	--	--	--	Certified as remediated per DTSC in 1984.	Address and sign were observed: Shamrod. Observed a large building and a parked truck.	08-16-2016	B
29	Dutch Boy, Sherwin Williams	--	3113	E 26th St	Vernon	Within RSA	Soil: TPH, lead	--	--	--	--	1/25/1993 – NFA and deed restriction.	Address and sign were observed: Sewing Collection Inc. Observed a large building and trucks parked behind building.	08-16-2016	B
30	Stauffer Chemical	Manufacturing fertilizer, pesticides, insecticides, sulfuric acid, other chemicals	3200	E 26th St	Vernon	--	Soil: VOCs, TPH, BTEX, Pesticides. Groundwater: TCE. Soil vapor: VOCs.	194 to 220 feet bgs	North-Northeast	Yes	Effects on groundwater related to area-wide groundwater plume	Ongoing groundwater monitoring.	Address and property were not observed.	08-16-2016	A
31	Tulip Corporation, Western Strategic Materials, Automotive Battery Products	--	3211	E 26th St	Los Angeles	60 feet southwest	Soil: gasoline	--	--	--	--	LUST – Case completed. Closed in 1987.	Address and sign were observed: Strategic Materials Inc. Observed a building and building materials being loaded onto trucks.	08-16-2016	B

Map ID	Properties as Identified by EDR, GeoTracker, EnviroStor, or Sanborn Maps												Site Reconnaissance		
	Site or Business Name	Historical Site Use	Site Address			Distance/ Direction from PEC Sites RSA (based on footprint w/stations (Feb 2025)	Contaminants of Concern	Groundwater			Extent of Soil, Groundwater, or Soil Vapor Effects	Status of Case or Site	Observations	Date of Visit	Category
			Street Number	Street	City			Depth	Flow Direction	Affected					
32	Preferred Freezer	Formic Acid	3200	E Washington Blvd	Los Angeles	450 feet southwest	Soil and groundwater: formic acid	50 feet bgs	--	Yes	Soil contamination to 40 feet. Groundwater contamination is suspected.	Remedial actions are planned for the site.	Address and sign were observed: Preferred Freezer. Observed large building and paved parking.	08-16-2016	A
33	ACTA-North	--	3451	E 26th St	Los Angeles	--	--	--	--	--	--	Completed – case closed with NFA dated 8/7/2002.	Address and property were not observed.	08-16-2016	B
34	Former Soco-Lynch Corporation	Former USTs and acid packing plant	3270	E Washington Blvd	Los Angeles	Within RSA	Soil, groundwater, soil vapor: chlorinated VOCs (PCE, TCE)	45 feet bgs (perched)	--	Yes	--	Ongoing remediation, soil vapor extraction, groundwater monitoring, soil excavation, as of 11/25/2015.	Address and sign were not observed. Property appears to be an undeveloped lot. Stockpiled soil and one liquid tote was observed.	08-16-2016	A
35	Record Transport, Inc.	--	1799	Industrial Way	Vernon	Within RSA	--	--	--	--	--	LUST – Completed. Case closed as of 8/9/1989.	Address and sign were observed: Hostler Facility, BNSF Railway. Observed paved lot with buildings.	08-16-2016	B
36	--	Auto Station	1798, 1799	Industrial Way	Los Angeles	Within RSA	--	--	--	--	--	LUST – Completed. Case closed as of 1989.	1798 Industrial Way was not observed. 1799 Industrial Way is same as above.	08-16-2016	B
37	Filtrol	--	3305	Bandini Blvd	Los Angeles	50 feet southwest	Soil: Acid or corrosive	--	--	--	--	Open – Site assessment, 1988.	Address and sign were observed: Nature's Produce. Large commercial building with numerous UPS trucks parked in paved lot.	08-16-2016	A
38	Chem Tech., Vulcan Materials, DK Environmental	Hazardous waste treatment	3650	E 26th St	Vernon	Within RSA	Soil: lead	--	--	--	--	Affected soil excavated, concrete cap in place, NFA.	Address and sign were observed: DK Environmental. Observed buildings, and chemicals, tanks, equipment in yard.	08-17-2016	B

Map ID	Properties as Identified by EDR, GeoTracker, EnviroStor, or Sanborn Maps												Site Reconnaissance		Category
	Site or Business Name	Historical Site Use	Site Address			Distance/ Direction from PEC Sites RSA (based on footprint w/stations (Feb 2025)	Contaminants of Concern	Groundwater			Extent of Soil, Groundwater, or Soil Vapor Effects	Status of Case or Site	Observations	Date of Visit	
			Street Number	Street	City			Depth	Flow Direction	Affected					
39	Burlington Northern Santa Fe	Vehicle maintenance	3677	Bandini Blvd	Los Angeles	Within RSA	Soil: lead, metals, PCBs, chromium, asbestos	--	--	--	--	Land use restriction in place (dated 1998, 2014)	Address and sign were observed: BNSF Los Angeles Intermodal Facility. Observed freight container parking.	08-17-2016	B
40	Ferro Union/Burlington Northern Santa Fe	--	3691-2695	Bandini Blvd	Los Angeles	Within RSA	Soil: lead, PAHs, PCE, metals	--	--	--	--	NFA	Address was not observed. Appears to be railroad tracks.	08-17-2016	B
41	Santa Fe-Hobart Yard	--	3770	E Washington Blvd	Vernon	Within RSA	--	--	--	--	--	LUST – Completed. Case closed 12/1/1991.	Address was not observed. Appears to be railroad tracks.	08-17-2016	B
42	Laidlaw Waste Systems, Inc., Allied Waste Systems	Paint manufacturing, solid waste transfer station	3960	E Washington Blvd	Los Angeles	Within RSA	Soil, groundwater: acetone, alcohols, benzene, gasoline, toluene, xylene, carbon tetrachloride, chloroform	55 to 65 feet bgs (perched)	--	Yes	--	Open – Assessment and Interim remedial action as of 5/1/2015.	Address was not observed. Property appears to be railyard.	08-17-2016	A
43	Southland Scaffold and Equipment	--	4050	E Washington Blvd	Los Angeles	Within RSA	Soil: gasoline	--	--	--	--	LUST – 1994. Completed – case closed.	Address was not observed. Street access was denied because of gate. Property appears to be occupied by yard and building.	08-17-2016	B
44	Blackhawk Chemical, AMVAC Chemical Corporation	Agricultural chemical manufacturing	4100	E Washington Blvd	Commerce	Within RSA	Soil: pesticides	--	--	--	--	Active as of 4/14/2015. Deed restriction, ongoing soil investigation.	Address was observed, but no sign. Observed chemical storage and manufacturing facility.	08-17-2016	A
45	United Industries Corporation dba Spectrum Brands	Pesticide Manufacturing	4060	E 26th St	Vernon	Within RSA	Soil, groundwater, soil vapor: pesticides, TPH, heavy metals, VOCs	135 feet bgs	Westerly	Yes	--	Active, under investigation, as of 12/1/2011.	Address was observed, but no sign. Observed buildings; property appears inactive. Two groundwater well covers were observed in street on north side of building.	08-17-2016	A
46	GNB Batteries, Exide Technologies	Hazardous waste disposal site	2700	Indiana St	Vernon	Within RSA	Soil: metals, unspecified sludge waste, baghouse waste, arsenic, lead	--	--	--	--	Open – Inactive. Undergoing closure. Hazardous Waste - RCRA as of 3/22/1996.	Address and sign were not observed: Exide. Observed buildings and yard.	08-17-2016	A

55	Union Pacific Railroad	--	4341	E Washington Blvd	Commerce	Within RSA	Soil: diesel	--	--	--	--	Completed – Case closed as of 3/21/1997.	Address and sign were observed: Union Pacific Railroad East Los Angeles Facility.	08-17-2016	B
56	Western Specialty Coatings	--	4400	E Washington Blvd	Commerce	Within RSA	Soil: petroleum, VOCs. Groundwater: solvents	--	--	Yes	--	Open – inactive as of 6/2014. LUST – Completed. Case closed as of 12/16/1996.	Address and sign were observed: Transportation Fleet Service Co. Observed buildings, paved parking, and trucks.	08-17-2016	A
57	Premier Plating Property, Chemplate Corporation	Metal Plating	4355	Sheila St	Los Angeles	Within RSA	Soil, groundwater, soil vapor: solvents, nickel	61 feet bgs	--	Yes	--	Inactive – action required as of 7/18/2002. NFA was issued for soil in 1998; however, PCE was subsequently found in perched groundwater at 61 feet bgs.	Address was not observed. Property appears to be occupied by parked freight trucks.	08-17-2016	A
58	On Target Laundry, International Iron Works	Dry cleaners	2713	S Bonnie Beach Pl	Vernon	Within RSA	No documented releases	--	--	--	No documented releases	No documented releases	Address was not observed.	08-17-2016	C
59	Penreco	Oil storage, blending, distribution	4460	Pacific Way	Los Angeles	Within RSA	--	--	--	--	--	DTSC received an "SB 1248 Notification" for a local oversight and site assessment by the LA County Fire Department – Site Mitigation Unit of an inactive former oil storage, blending, and distribution facility. Local oversight as of 1/12/2006.	Address and sign were observed: Black Bros. Chemical sign posted. Observed buildings and storage/equipment yard.	08-17-2016	B
60	Weld-It Company	--	4477	Sheila St	Los Angeles	Within RSA	Soil, soil vapor, and groundwater: TPH, VOCs	113 feet bgs	South	Yes	--	LUST – Open. Site assessment as of 9/19/2008.	Address and sign were observed: Weld-It. Observed buildings, yard with trucks and parts.	08-17-2016	A

340	Witco-Allied-Kelite/Richardson Chem Company	--	1250	N Main St	Los Angeles	400 feet northwest	--	--	--	--	--	This site is approximately 400 feet northwest of the Shared Passenger Track Alternatives and is listed in the VCP, EnviroStor, and SLIC databases. The EDR report indicates that from 1978-1994, the 2.5-acre site was used for the blending and formulation of liquid and solid chemical compounds used in metal finishing and cleaning. The SLIC case status is reported as “open” as of 1965. No additional information was available on the GeoTracker database. The site was referred to DTSC in October of 1994. The VCP and EnviroStor databases list the site status as “no further action” as of 1995 (EnviroStor, Accessed June 28, 2016).	--	--	Medium Risk

355	So Cal Gas/Aliso Sector C, Blocks Q&R/Los Angeles Police Department Motor Transport/Piper Technical Center/Aliso Mgp	--	555	Ramirez Street	Los Angeles	900 feet south	--	--	--	--	--	Potential contaminants include PAHs, VOCs, TPH-diesel, and TPH-gas. Under LUST, the site is considered a Cleanup site. Soil contamination was previously confirmed on site. A case was opened on 03/23/1993. Leak was discovered on 03/23/1993 and stopped on 03/25/1993. Case remains open and a quarterly groundwater monitoring program has been established. Under DTSC, So Cal Gas and DTSC entered into a voluntary cleanup program. Past use of the site consisted of a manufacturing gas plant. On 10/01/2000, USTs were removed from the site.	--	--	High Risk

[1] Map identification numbers 93 and 99 are outside the scale of the figures in this appendix (0.7 and 0.9 mile from the project).
Table presents a preliminary review of the EDR data and most recent documents available on GeoTracker and EnviroStor. Orphan property addresses or locations have not been field verified.
Category A = Properties identified by EDR, GeoTracker, or EnviroStor where a release of hazardous materials and wastes was reported within or adjoining areas of potential disturbance and an active assessment or remediation program is in progress, land use restrictions are in place, or a "no further action" designation has not been granted by regulatory agencies (High Priority).
Category B = Properties identified by EDR, GeoTracker, or EnviroStor where a release of hazardous materials and wastes was reported within or adjoining areas of potential disturbance and a "no further action" designation has been granted by regulatory agencies or where known/existing dry cleaner facilities are within or adjoining the RSA (Medium Priority).
Category C = Potential hazardous waste properties identified by EDR where a release of hazardous materials and wastes was not reported. Dry cleaners are a well known and common source of contamination to the subsurface. As such, there is a possibility that affected soil, soil vapor, or groundwater may be encountered at this location (Low Priority).
For Map identification numbers 352, and 354 through 357 (taken from Burbank-LAUS HazMat Technical Report, 2021):

- Category High Risk – These properties will likely result in impacts on the Shared Passenger Track Alternatives because the review indicates that contamination is present and likely to be encountered during construction, or abatement of building materials may be required prior to construction.
- Category Medium Risk – These properties may result in impacts on the Shared Passenger Track Alternatives because the review indicates that contamination is or may be present but is not likely to be encountered during excavation.
- Category Low Risk – These properties may conceivably result in impacts on the Shared Passenger Track Alternatives because the review indicates that there is no contamination, and abatement of building materials would not be required.

-- = Information not available; because of restrictions on the current scope of work (i.e., site access not granted and file reviews were not completed) or no information was found in EDR/online resources.
Not observed is used to describe site addresses that could not be observed because of access restrictions, addresses could not be found to exist in the field, or addresses were not posted/plainly visible from public right of way.
Within RSA is used to describe sites that lie within the resource study area, based on address location.
RGA LUST = The EDR Recovered Government Archive Leaking Underground Storage Tank database provides a list of LUST incidents derived from historical databases and includes many records that no longer appear in current government lists. Compiled from Records formerly available from the State Water Resources Control Board in California.
O-01 = Orphan site ("O"), followed by orphan site number ("-XX"), as shown on Figures 2 through 25.
Distance and direction from RSA are approximations based on addresses on Google Earth online map. The closest RSA to the given address was used to derive distance/direction. "Could not locate" identifies addresses that were not available on Google Earth map; "Within RSA" identifies addresses that appear to be within the RSA.
Map ID No. 168 inadvertently listed as a PEC site. This specific listing has been removed from Table 3 and the report figure. The map ID numbers for subsequent facilities below Map ID No. 168 remain unchanged.
1,1,1-TCA = 1,1,1-trichloroethane; 1,1,2-TCA = 1,1,2-trichloroethane; 1,1-DCA = 1,1-dichloroethane; 1,1-DCE = 1,1-dichloroethene; 1,2-DCA = 1,2-dichloroethane; ACM = asbestos-containing materials; APN = Assessor's Parcel Number; bgs = below ground surface; BNSF = BNSF Railway; BTEX = benzene, toluene, ethylbenzene, and xylenes; cis-1,2-DCE = cis-1,2-dichloroethylene; DTSC = California Department of Toxic Substances Control; EDR = Environmental Data Resources; USEPA = United States Environmental Protection Agency; HAZNET = hazardous waste manifest information; LUC = Land Use Covenant; LUST = leaking underground storage tank; MTA = Metropolitan Transportation Authority; MTBE = methyl tert-butyl ether; NFA = No Further Action; NPL = National Priorities List; PA/SI = preliminary assessment/site inspection; PAHs = polycyclic aromatic hydrocarbons; PCBs = polychlorinated biphenyls; PCE = Tetrachloroethylene; PEC = potential environmental concern; PEPD = Preliminary Engineering for Project Definition; PNAs = polynuclear aromatics; ppm = parts per million; RCRA = Resource Conservation and Recovery Act; RSA = resource study area; RWQCB = Regional Water Quality Control Board; SLIC = Spills, Leaks, Investigation and Cleanup site; SVE = soil vapor extraction; SVOCs = semivolatile organic compounds; SWRCB = State Water Resources Control Board; TBA = tert-butyl alcohol; TCA = trichloroethane; TCE = trichloroethylene; TPH = total petroleum hydrocarbons; UST = underground storage tank; VOCs = volatile organic compounds; LAUS = Los Angeles Union Station; N/A = not applicable
