**Project Description:** *(please use a separate page if necessary)*

The proposed project modifies the original project that was evaluated in the Van Sickle CA/NV Bi-State Park Initial Study/Negative Declaration/Initial Environmental Checklist in 2009. The proposed project, as phase three, proposes to construct several new Park elements within the California side of the Park, including approximately 0.4 miles of Class 1 paved trail, up to 0.5 miles of unpaved hiking trail, a new entrance plaza, two picnic areas with amenities, and improvements to several existing park features, such as the restrooms and the unpaved parking lot at the California day-use area, which would be paved and upgraded with snow storage, and stormwater facilities for future potential winter operations.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.
