**Project Title:** California High Speed Train Project: Merced to Fresno Major Amendment No. 21  
 (California Endangered Species Act Incidental Take Permit No. 2081-2013-025-04 (ITP))

**Project Location:** The Project includes the California High Speed Train (HST) alignment beginning at the intersection of Avenue 19 and the Burlington Northern Santa Fe (BNSF) Railway, in the City of Madera, Madera County, California. From this intersection, the Merced to Fresno HST alignment continues south along the west side of the BNSF Railway until south of Avenue 15, where the alignment transitions westward toward the Union Pacific Railroad (UPRR). Near Avenue 9, the alignment follows along the east side of the UPRR, before crossing the San Joaquin River and entering the City of Fresno, Fresno County, California. The Project ends south of State Route (SR) 41, adjacent to Los Angeles Street in the City of Fresno.

**Project Description:** The Project includes construction and operation of the Merced to Fresno segment of the HST. The Project is expected to result in impacts to California tiger salamander (*Ambystoma californiense*, CTS), Swainson's hawk (*Buteo swainsoni*, SWHA), San Joaquin kit fox (*Vulpes macrotis mutica*, SJKF), and hairy Orcutt grass (*Orcuttia pilosa*, HaOrGr) (collectively, the Covered Species). CTS, SWHA, and SJKF are species designated as threatened and HaOrGr is designated as endangered under CESA. Major Amendment No. 21 updates three species specific ITP measures for CTS.
