**SUBJECT: *Filing of Notice of Determination pursuant to Public Resources Code section 21108***

**State Clearinghouse Number:** 2011012035

**Project Title:** Bond Road Upsizing (Streambed Alteration Agreement EPIMS Notification No. SAC-35847-R2)

**Project Location (include county):** The project is located at Laguna Creek, in the County of Sacramento, State of California; Latitude 38.423358, Longitude -121.374486 (WGS 84 datum, decimal degrees), nearest cross streets: Bond Road/Trout Way, Elk Grove, CA, 95624; Assessor's Parcel Number 116-0100-085-0000.

**Project Description:** The California Department of Fish and Wildlife (CDFW) has executed Streambed Alteration Agreement EPIMS Notification Number SAC-35847-R2, pursuant to section 1602 of the Fish and Game Code to the project Applicant, City of Elk Grove.

The project is limited to the replacement of an existing storm drain system beneath approximately 4,000 feet of Bond Road to increase system capacity. The project will utilize the existing storm drain trunkline in conjunction with a new parallel system. Additionally, the project will replace the upstream pipe segment of the existing system with a 30-inch diameter pipe to provide consistent sizing with the Elliot Springs connection.

To support the larger diameter storm drain outfall pipe, the existing headwall and pipe outfall discharging into Laguna Creek will be replaced with a new, larger, cast-in-place outfall structure. Class II rock slope protection (RSP) will be placed near the headwall as it flows into Laguna Creek to reduce erosion near the outfall structure.

Construction of the outfall structure will require local dewatering and will likely consist of a temporary bladder dam or coffer dam that will be removed following the completion of construction activities.

This is to advise that CDFW, acting as a Responsible Agency, executed the above Streambed Alteration Agreement on the date signed below and has made the following determinations regarding the project pursuant to California Code of Regulations section 15096, subdivision (i):

1. The project  will /  will not have a significant effect on the environment. This determination is limited to effects within CDFW's permitting jurisdiction as a Responsible Agency.
2. CDFW considered the environmental impact report prepared by the Lead Agency for this project pursuant to California Code of Regulations section 15096, subdivision (f).
3. Mitigation measures  were /  were not made a condition of CDFW's approval of the project.
4. A mitigation reporting or monitoring plan  was /  was not adopted by CDFW for this project.
5. A statement of overriding considerations  was /  was not adopted by CDFW for this project.
6. Findings  were /  were not made by CDFW pursuant to California Code of Regulations section 15091.

**Notice of Determination**

The final environmental impact report prepared for the project is available to the general public at the office location listed above for the Lead Agency. CDFW's record of execution of the above Lake and Streambed Alteration Agreement as Responsible Agency is available at CDFW's regional office.
