Notice is Hereby Given: The Groveland Community Services District (Groveland CSD) is the Lead Agency on the below-described project and has prepared an Addendum to the previously adopted Mitigated Negative Declaration (State Clearinghouse #2019059053) on the proposed Groveland CSD Downtown Groveland and Big Oak Flat Sewer Collection System Improvements Project (Project). The complete Project description, location and the potential environmental effects are contained in the Addendum and the original Mitigated Negative Declaration. The Addendum has concluded that no significant environmental impacts will occur as a result of the minor modifications to the Project as described below.

Project Title: Addendum to the Mitigated Negative Declaration for the Groveland CSD Downtown Groveland and Big Oak Flat Sewer Collection System Improvements

Project Location: The proposed Project will take place in three adjacent communities; Big Oak Flat, Groveland, and White Gulch, in western Tuolumne County. The additional improvements analyzed in the Addendum will occur within the general vicinity of the original Project.

Project Description: The Project involves installing or replacing approximately 5,000 linear feet of sewer pipes, constructing manholes, performing spot repairs, and related improvements to the existing sewer system within the three communities. After filing the original Notice Of Determination, minor changes were made to the Project which included adding some additional improvements (pipelines, manholes, staging areas, and other related components). These additional improvements will take place in the general vicinity of the original improvements. Existing sewer service will not be significantly impacted during construction.
