Project Description: *(please use a separate page if necessary)*

The project sponsor, SFO, is proposing to implement the Recommended Airport Development Plan (RADP), which involves a long-range plan to guide the Airport's development. The RADP serves as a framework for future development at SFO and identifies various projects, including the improvement and development of terminal facilities, modification of certain non-movement areas of the airfield, and improvements to landside facilities to accommodate long-term aircraft operations and passenger activity levels at the Airport, forecast to reach approximately 506,000 annual aircraft operations and 71.1 million annual passengers considering the forecast passenger aircraft fleet mix, which is the estimated annual practical capacity of the existing runways regardless of whether the RADP is implemented.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with and "**X**".
If you have already sent your document to the agency please denote that with an "**S**".
