Project Description: The California Department of Transportation (Caltrans) proposes to modify nine intersections on State Route 68 and improve wildlife connectivity at five locations from Josselyn Canyon Road (Post Mile 4.8) to San Benancio Road (Post Mile 13.7) to improve intersection operations to reduce vehicle delay throughout the project corridor, and to reduce the rate and severity of collisions between vehicles and between vehicles and wildlife. The selected preferred alternative for the project would convert the existing signal-controlled intersections to roundabout configurations.

This is to advise you that a Finding of No Significant Impact (FONSI) has been made for this project by the California Department of Transportation as assigned by the Federal Highway Administration pursuant to 23 USC 327. A copy of the FONSI and the attached Environmental Assessment can be obtained from the California Department of Transportation office located at the above address and online at:
