Tables	vi
Figures	vii
Chapter 1 Introduction and Approach to Responses to Comments	1-1
1.1 Public Participation and Comments Received	1-1
1.2 CEQA Requirements.....	1-2
1.3 Approach.....	1-3
1.4 Organization of Volume 2	1-6
1.5 Modifications Contained in Volume 1	1-7
1.5.1 Modifications Made Related to Responses to Comments	1-7
1.5.2 Other Modifications.....	1-9
1.6 References Cited	1-10
1.6.1 Printed References.....	1-10
Chapter 2 Indices of Commenters and Index of Primary Forms	2-1
Index 1 Federal Agencies, Federal Elected Officials, and Tribal Governments	2-1
Index 2 State Agencies and Elected Officials.....	2-3
Index 3 Local/Regional Agencies and Elected Officials.....	2-4
Index 4 Nongovernmental Organizations, Businesses, Conservation Groups, Unidentified Organizations, Etc.	2-9
Index 5 Individuals	2-15
Index 6 Form Letter Submissions and Petition Signatories.....	2-28
Chapter 3 Common Responses	3-1
Common Response 1: CEQA Process, General Approach to Analysis, and Other Environmental Review Issues	2
Overview	2
Comments in Support of or Opposition to the Delta Conveyance Project.....	2
CEQA Environmental Baseline	3
Appropriate Scope of Project Objectives and Agency Discretion	11
Scope of Analysis.....	18
Cumulative Impact Assessment	33
Significant and Unavoidable Impacts.....	36
Recirculation	41
Length and Complexity of the EIR.....	44
Use of Best Available Tools and Science	45
U.S. Army Corps of Engineers and NEPA Process	48
References Cited	50

Common Response 2: Public Outreach Activities	2
Overview	2
Public Outreach Requirements	2
Duration of Public Review and Comment Period and Requests for Extension	4
Public Meetings.....	5
Information Request Responses	6
References Cited	6
Common Response 3: Alternatives Development and Description	2
Overview	2
CEQA and the Scope of Alternatives.....	2
DWR Accountability	13
Approach to Describing the Project and Alternatives	14
Upstream Reservoir Operations and Storage	36
Water Rights, Contracts, and Use of Water.....	37
Water Transfers	38
Dry Conditions and Temporary Urgency Change Petitions	38
References Cited	40
Common Response 4: No Project Alternative Description and Analysis	2
Overview	2
Location of the No Project Alternative Analysis in the EIR	2
CEQA Requirements.....	3
Purpose of the No Project Alternative Analysis.....	4
Description of the No Project Alternative	8
Commenter Preference for the No Project Alternative.....	9
Effects of Implementing the No Project Alternative	10
References Cited	12
Common Response 5: Public Water Agencies' Water Management Practices	2
Overview	2
Background	2
Examples of Public Water Agencies' Management Practices.....	6
References Cited	15
Common Response 6: Climate Resilience and Adaptation	2
Overview	2
Climate Change Analyses in the EIR.....	3
Future Changes in Temperature, Precipitation, and Salinity.....	7
Climate Change and Water Supply Reliability	9
References Cited	11

Common Response 7: Implementation Considerations.....	2
Overview	2
Project Costs and Funding Sources.....	2
Economic and Financial Feasibility	4
Socioeconomic Analysis Approach Used in the EIR	5
Effects on Property Tax Revenue.....	6
Financial Effects on Special Districts.....	6
Community Engagement during Project Implementation.....	7
Commitment to Equitable Contracting.....	8
Coordination with Property Owners.....	9
References Cited	9
Common Response 8: Relationship to Other Plans, Projects, Policies, and Programs	2
Overview	2
State-Level Planning Efforts.....	2
State Water Resources Control Board Authorities and Responsibilities	19
Department of Water Resources Delta Efforts.....	27
References Cited	28
Common Response 9: Hydrologic Modeling and Approach.....	2
Overview	2
CalSim 3, Best Available Tool for Hydrologic Analysis	2
CalSim 3 Assumptions, Uncertainties, and Limitations	4
Appropriate Use of CalSim 3 Simulation Results	7
Modeled Representation of CEQA Baseline Existing Conditions.....	8
Modeled Representation of No Project Alternative Under the 2040 Scenario.....	11
Modeled Representation of Proposed Project and Project Alternatives	17
References Cited	19
Common Response 10: Surface Water Quality and Groundwater Resources	2
Overview	2
Surface Water Quality Impact Analysis.....	2
Groundwater Approach and Groundwater Quality.....	13
Use of the DeltaGW Groundwater Model for Analysis of Groundwater Resources	14
Analysis of Groundwater Quality, Construction, and Sea Level Rise.....	22
References Cited	28
Common Response 11: Terrestrial Biological Resources and Compensatory Mitigation Plan	2
Overview	2
General Comments on Natural Communities, Terrestrial Species, and Wetland Resources.....	3

Methods and Approach for Evaluation of Impacts	4
Adequacy of Analysis and Avoidance and Minimization Mitigation Measures.....	7
Compensatory Mitigation Plan	12
References Cited	18
Common Response 12: Agricultural Resources.....	2
Overview	2
Crop Choices in the Delta.....	2
Land Reclamation.....	3
Specific Location of Temporary and Permanent Conversion of Farmland within the Delta	4
Crop Salinity Tolerances.....	4
Feasibility or Effectiveness of Agricultural Resources Mitigation.....	6
References Cited	9
Common Response 13: Recreation and Recreational Opportunities	2
Overview	2
Evaluation of Recreational Opportunities	2
Surveys and the Recreation Analysis	3
References Cited	4
Common Response 14: Transportation.....	2
Overview	2
Methodology and Approach to Impact Analysis.....	2
Road Rehabilitation and Chapter 3.....	5
References Cited	6
Common Response 15: Air Quality and Greenhouse Gases	2
Overview	2
Compliance with Air Quality Regulations and Permits	2
Disclosure of Supporting Air Quality Documentation.....	2
Technical Methods for the Estimation of Criteria Pollutants	3
Technical Methods for the Estimation of Greenhouse Gas Emissions from Electricity Use	7
Consideration of Lifecycle and Embodied Emissions.....	9
Feasibility or Effectiveness of Air Quality Environmental Commitments and Mitigation	10
References Cited	13
Common Response 16: Tribal Cultural Resources.....	2
Overview	2
Consistency with Current State Policies Regarding Indigenous People in California	3
Role of Meaningful Tribal Consultation in DWR's Identification and Evaluation of Tribal Cultural Resources	5
Tribal Cultural Landscape Boundary	9

Impact Analysis	9
Adequacy of Mitigation Measures.....	11
Consideration of Tribal Cultural Resources in Other Resource Chapters	12
References Cited	13
Common Response 17: Public Trust.....	2
Overview	2
General Overview of Public Trust Law	2
References Cited	10
Chapter 4 Response to Comments Tables	4-1
4.1 Chapter 4 Organization	4-1
4.2 Chapter 4 References Cited	4-2

Tables

	Page
1-1 Summary of Indices.....	1-6
2-1 Summary of Indices and Location in Volume 2, Chapter 4.....	2-1
2-2 Index of Primary Forms.....	2-28
3-1 Summary of Common Responses	3-1
CR1-1 Summary of Activities since December 2018 Related to Lower San Joaquin River Flows/Southern Delta Salinity Water Quality Objectives	9
CR4-1 Summary of Key Activities of No Project Alternative as Compared to Existing Conditions	6
CR8-1 Status of Groundwater Sustainability Plans in DeltaGW Model Domain	10
CR10-1 Crosswalk of Thresholds of Significance in CEQA Guidelines Appendix G and Chapter 9, <i>Water Quality</i>	3
4-1 Federal Agencies, Federal Elected Officials, and Tribal Governments	1
4-2 State Agencies and Elected Officials	1
4-3 Local/Regional Agencies and Elected Officials.....	1
4-4 Nongovernmental Organizations, Businesses, Conservation Groups, Unidentified Organizations, Etc.	1
4-5 Individuals	1

Figures

	Page
CR3-1 Bethany Complex Reconfiguration	22
CR3-2 1991 – Critical Water Year Type and Operations of North Delta Diversions	28
CR3-3 1932 – Critical Water Year Type and Operations of North Delta Diversions	28
CR3-4 1977 – Critical Water Year Type and Operations of North Delta Diversions	29
CR3-5 1978 – Wet Water Year Type and Operations of North Delta Diversions	30
CR8-1 Map of Groundwater Subbasins with GSP Due Dates in DeltaGW Model Domain	11
