MEMORANDUM

September 28, 2023

From: Pietro Cambiaso

To: State Clearinghouse

Subj: Chino Basin Watermaster Optimum Basin Management Program Update

The above referenced project (SCH #2020020183) was originally posted with the State Clearinghouse for review beginning on September 27, 2023 (45-day review period). I was just made aware that the posting of the Notice of Availability for the Recirculated Draft SEIR, had a typo in the title; it should read "Chino Basin Watermaster Optimum Basin Management Program Update," not "Chino Basin Wastewater Optimum Basin Management Program Update." Also, there was a typo in both Volume 1 and Volume 2 covers; error was in title; it should read "Recirculated Draft Subsequent Environmental Impact Report," not "Recirculated Draft Subsequent Environmental Impact Reort."

We would like to submit the corrected Notice of Availability and revised ***covers only*** for both Volume 1 – RDSEIR and Volume 2 – Technical Appendices to be posted with the State Clearinghouse.

Do not hesitate to give me a call if you have any questions.

Pietro Cambiaso, P.E.

Manager of Compliance and Sustainability

INLAND EMPIRE UTILITIES AGENCY

Attachment – corrected Notice of Availability
