EXECUTIVE SUMMARY

EFI Global, Inc. has performed a Phase I Environmental Site Assessment Update (Phase I Update) for 39 South, LLC (Client or Property Owner) for a commercial property located at 1000 and 1006 Seward Street, 6565 Romaine Street, and 1003, 1007, and 1013 North Hudson Avenue, in Los Angeles County, and the City of Los Angeles, California, Assessor's Parcel Numbers (APNs): 5533-012-011, 5533-012-012, 5533-012-013, and 5533-012-025. The research conducted for this study and the report prepared are in conformance with the United States Environmental Protection Agency (USEPA) All Appropriate Inquiry (AAI) standard and the American Society for Testing and Materials (ASTM) E 1527-13 scope of work.

SITE DESCRIPTION

According to our research and information provided by the Client, the following addresses have been found to be associated with the subject property: 1000 and 1006 Seward Street, 6551, 6561, 6565, and 6575 Romaine Street, and 1003, 1007, and 1013 North Hudson Avenue, Los Angeles, California. The subject property is located to the north of Romaine Street, between Seward Street to the west and North Hudson Avenue to the east, in the City of Los Angeles. The subject property is consists of four contiguous parcels, which are approximately 0.78 acre in total size. The western parcel (5533-012-025) is developed with three attached one-story commercial structures, which are approximately 10,953 square feet in total size. It should be noted that according to the Los Angeles County Assessor Portal, the two office structures described in this report are classified as one combined structure. The buildings are occupied by Rao's Italian Restaurant (1006 Seward Street), post-production and editing offices for the Ozark television show (1000 Seward Street), and an additional film production office space with two units (6565 Romaine Street). The remaining portions of the property consist of asphalt-paved parking areas to the south of the office located at 6565 Romaine Street and on the eastern parcels (5533-012-011, 5533-012-012, and 5533-012-013). Additionally, a concrete-paved outdoor seating area was located to the east of Rao's Italian Restaurant. The surrounding area is used for commercial and residential purposes. Groundwater is estimated to be less than 20 feet below ground surface in the area of the site and is assumed to flow towards the south-southwest.

- No significant hazardous material storage or recognized environmental conditions were observed at the site. Those interviewed, as persons familiar with the site were not aware of any negative environmental conditions associated with the property.

HISTORICAL LAND USE

According to EFI Global, Inc.'s interpretation of the historical research data, the subject property underwent separate courses of development as described below:

Parcel-11 (1013 North Hudson Avenue) – The northeast portion of the subject property was undeveloped in 1919. A single-family residence and private garage were constructed in 1921 and 1929, respectively. In 1957, the residence was converted into a 3-family apartment building. *Parcel-11* remained in this configuration through 1982, when the structures were demolished. By 1985, *Parcel-11* was developed into a parking lot, as it remains today.

Parcel-12 (1007 North Hudson Avenue) – The east portion of the subject property was developed with a residential structure by 1919. A private garage was constructed in 1927. *Parcel-12* remained in this configuration through 1959, when the structures were demolished and the parcel was redeveloped into a parking lot, as it remains today.

Parcel-13 (1003 North Hudson Avenue; 6551-6561 Romaine Street) – The southeast portion of the subject property was undeveloped in 1919. In 1920, a private garage was constructed in the north portion of the parcel. By 1950, two residential structures had been developed in the east and west portions of the parcel, respectively. *Parcel-13* remained in this configuration through 1986, when the structures were demolished and the parcel was redeveloped into a parking lot, as it remains today.

Parcel-25 (1000 and 1006 Seward Street; 6565-6575 Romaine Street) – The western half of the subject property was undeveloped in 1919. In 1920, a residential structure was developed in the north portion of the parcel. In 1937, the existing restaurant structure (1006 Seward) was developed to the west of the residential structure and the existing attached southwest commercial building (1000 Seward) was developed for use as a radio equipment warehouse. By 1951, the subject property was utilized solely for commercial purposes. The existing attached northeast structure (6565 Romaine) was developed in 1960 as a radio equipment repair shop.

Previous tenants for 1000 Seward include: World Broadcasting Corp. (1942); The Langevin Co. Inc. (1942-1951); General Radio Co. (1942-1967); B&W Editorial Services (1976); and offices for film production purposes (1990-present).

Previous tenants for 1006 Seward include: residential tenants (1920 through at least 1942); Seward Melville Café/Melville Café (1951-1958); Lillian Apfel Café (1962); The Studio Café (1967); The Studio Coffee Shop (1971-1990); Hollywood Canteen (1991-2011); and Rao's Italian (2015-present).

Previous tenants for 6565 Romaine include: a radio equipment repair shop (1960-1969); Telescopics (1962-1976); The Langevin Co. Inc. (1962-1981); Telecine Tech Inc. (1990); The Arena US LLC (2008); Lurssen Mastering (2015); and an office for film production purposes (present).

- The earliest historical resource obtained during this investigation was a Sanborn map from 1919 which indicated development of the subject property for residential uses. The lack of historical data sources for the subject property dating back to first developed uses represents historical data source failure. However, it is assumed that prior to 1919, the subject property would have been developed for residential land use, if not undeveloped. Based on this notion, this limitation is not expected to significantly alter the findings of this investigation.

ENVIRONMENTAL DATA SEARCH

- **It's A Laugh Productions "Sydney, Max, and Max" SEA (6565 Romaine Street)** - The subject property is listed on the Resource Conservation and Recovery Act - Non Generator / No Longer Regulated (RCRA NonGen / NLR) database. According to the listing, this facility registered as a handler of unspecified hazardous waste in July 2018. No violations were found. Based on the lack of evidence of hazardous waste generation, this information is not expected to represent a significant environmental concern for the subject property.

- In our opinion, none of the other sites listed on the regulatory database report pose a significant threat to the subject property as there is no indication of a release at the respective sites, a release has occurred but groundwater has not been impacted, a release has occurred but the case is closed, or the sites are located cross or down gradient of the subject property and in excess of 1/10 mile from the subject property.

The Los Angeles Regional Water Quality Control Board (LARWQCB), Department of Toxic Substances Control (DTSC), South Coast Air Quality Management District (SCAQMD), Los Angeles County Fire Department Health Hazardous Materials Division (LACFD HHMD), and the City of Los Angeles Bureau of Sanitation (LABS) were contacted regarding air emission permits, site investigation files, and hazardous materials, underground storage tank, and industrial waste discharge records for the subject property. Additionally, the State Water Resources Control Board (SWRCB) GeoTracker, DTSC Hazardous Waste Tracking System (HWTS) and EnviroStor, SCAQMD Facility Information Detail (FIND), City of Los Angeles Fire Department (LAFD) Certified Unified Program Agency (CUPA) online databases which include Active and Inactive Aboveground Storage Tanks (AST), Underground Storage Tanks (UST), and Hazardous Materials Inventory and UST Historical Files databases and the LACFD HHMD Active CUPA Program Records, Inactive CUPA Program Records, Site Mitigation Unit (SMU) Case Records, and California Accidental Release Program (CalARP) online databases were reviewed for information pertaining to the subject property.

- According to the responses to our requests from the LARWQCB, DTSC, SCAQMD, and LACFD HHMD, there are no files for the subject property. Furthermore, the subject property is not listed on the GeoTracker, EnviroStor, FIND, LAFD CUPA, or LACFD HHMD online databases.

- According to information available on the HWTS online database, five USEPA Identification Numbers (IDs) were issued to It's a Laugh Productions at 6565 Romaine Street. The following USEPA IDs are currently inactive and did not have any hazardous wastes manifests associated with them: CAC002800407 (active from January 2015 to April 2015), CAC002971894 (active from July 2018 to October 2018), and CAC003003118 (active from February 2019 to May 2019). The following USEPA IDs were active from January 2015 to April 2015 and have hazardous wastes manifests associated with them: CAC002800401 and CAC002800406. According to the hazardous waste manifests for both USEPA IDs, a total of 0.375 ton of latex waste was generated by this tenant in 2015. Based on the minor quantities and type of waste generated, the operations by this tenant are not expected to represent a significant environmental concern for the subject property.

- According to a response to our request from the LABS, there are several records for businesses located at 1006 North Seward Street. The Studio Coffee Shop was issued an industrial waste (IW) permit, which was valid from February 1968 through November 1969. The permit stated that soap and detergent from floor and equipment washing were discharged to the sewer. Hollywood Canteen was issued two IW permits, which were valid from January 2003 through February 2005 and from October 2005 though June 2011. Wastewater was generated from various cooking, food preparation, and washing operations. Rao's Restaurant was issued an IW permit in January 2016, which remains active through the present. Wastewater is generated from various cooking, food preparation, and washing operations and is discharged to a 1,500-gallon grease interceptor. Based on the nature of the businesses, the IW generated by the former and current tenants is not expected to represent a significant environmental concern for the subject property.

- No significant data gaps were encountered during our agency file reviews.

- The California Department of Conservation, Geologic Energy Management Division (CalGEM) online mapping application Well Finder Online Mapping System was reviewed for information pertaining to oil and gas exploration on or nearby the subject property. No oil wells were identified within 500 feet of the subject property.

- The City of Los Angeles NavigateLA Online Mapping System was reviewed to obtain substructure maps for the subject property. According to a review of the substructure maps for the subject property, no USTs or other substructure features were identified in the area of the subject property.

- 39 South, LLC did not provide EFI Global any information either verbally or in writing (i.e. Title Report) regarding environmental cleanup liens or activity and use limitations encumbering the subject property. An environmental lien search was not requested by the User; however, based on our review of the DTSC EnviroStor Database, no environmental liens enforced by the DTSC were identified.

ADDITIONAL ISSUES

- Based on the age of the onsite structures, there is a potential for asbestos-containing building materials at the subject property; however, no testing was completed as part of this report. Suspect asbestos-containing materials (ACMs) were observed in the form of drop ceiling panels, drywall partitions, ceramic tile, and associated mastics. All building materials appeared in good condition at the time of site reconnaissance. Individual suspect materials would need to be tested as part of an asbestos survey prior to any renovation or demolition in order to confirm the presence or non-presence of asbestos.

- Based on the age of the onsite structures, there is a potential for lead-based paint at the site. All painted surfaces appeared in good condition at the time of site reconnaissance. Individual suspect materials would need to be tested as part of a lead-based paint survey prior to any renovation or demolition in order to confirm the presence or non-presence of lead-based paint.

- The potential for radon at the subject property is considered to be low.

- EFI Global, Inc. did not observe visible or olfactory indications of the presence of mold, nor did EFI Global, Inc. observe obvious indications of significant water damage. No sampling was conducted as part of this assessment.

- The City of Los Angeles Department of Building and Safety methane zone data was reviewed to determine if the subject property is located in a methane or methane buffer zone. According to the information reviewed, the subject property is located within a methane buffer zone. According to the *Hazardous Gas Assessment* for the subject property, dated November 25, 2019, methane concentrations in all soil gas samples collected were less than 500 parts per million by volume (ppmv). As the concentration of methane detected onsite is significantly below the Lower Explosive Limit (LEL) of 50,000 ppmv, mitigation is not required for the site development, even though this site is located within a methane buffer zone.

CONCLUSIONS

EFI Global, Inc. has performed a Phase I Environmental Site Assessment Update in conformance with the scope and limitations of ASTM Practice 1527-13, at 1000 and 1006 Seward Street, 6565 Romaine Street, and 1003, 1007, and 1013 North Hudson Avenue, Los Angeles, California, the subject property. Any exceptions to or deletions from this practice are described in the individual sections of this report. This assessment has revealed no evidence of recognized environmental conditions or *de minimis* conditions in connection with the subject property.

RECOGNIZED ENVIRONMENTAL CONDITIONS (REC)

In our opinion, no RECs were identified during the course of this assessment.

HISTORICAL RECOGNIZED ENVIRONMENTAL CONDITIONS (HREC)

In our opinion, no HRECs were identified during the course of this assessment.

CONTROLLED RECOGNIZED ENVIRONMENTAL CONDITIONS (CREC)

In our opinion, no CRECs were identified during the course of this assessment.

DE MINIMIS CONDITIONS

In our opinion, no *de minimis* conditions were identified during the course of this assessment.

RECOMMENDATIONS

Based on the foregoing, no additional investigation is recommended at this time.

1.0 INTRODUCTION

EFI Global, Inc. has performed a Phase I Environmental Site Assessment Update (Phase I Update) for the property located at 1000 and 1006 Seward Street, 6565 Romaine Street, and 1003, 1007, and 1013 North Hudson Avenue, in Los Angeles County, and the City of Los Angeles, California (Subject Property). This report has been prepared for the sole use of 39 South, LLC.

The research conducted for this study and the report prepared are in general conformance with the EPA "All Appropriate Inquiries" standard and the ASTM 1527-13 "Standard Practices for Environmental Site Assessments: Phase I Environmental Site Assessment Process". The primary purpose for performing a Phase I ESA is to "...permit a user to satisfy one of the requirements to qualify for the innocent landowner, contiguous property owner, or bona fide prospective purchaser limitations (commonly known as landowner liability protections) on Comprehensive Environmental Response Compensation and Liability Act (CERCLA) liability." (ASTM, 2013) An environmental site assessment meeting or exceeding this practice and completed less than 180 days prior to the date of acquisition is presumed to be valid under this standard. In order to maintain landowner liability protections, the User also has a "continuing obligation to not interfere with activity and use limitations associated with the property," must take "reasonable steps to prevent releases" and must "comply with legal release reporting obligations." (ASTM, 2013) Further, it is the goal of this study to identify business risks related to the property associated with environmental conditions. This investigation is not an environmental compliance audit and is not designed to determine if the operations of an existing facility are in compliance with applicable environmental laws and regulations.

The goal of this process is to identify any (1) recognized environmental conditions (RECs), (2) historic recognized environmental conditions (HRECs), (3) controlled recognized environmental conditions (CRECs), and/or (4) *de minimis* conditions associated with the subject property.

- A **recognized environmental condition** is defined as "...the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to any release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment." This definition does not include de minimis conditions defined as "a condition that generally does not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies" (ASTM, 2013).

- A **historical recognized environmental condition** is defined as "a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls)." (ASTM, 2013). The HREC designation requires the comparison of residual contamination concentrations, if any, to current regulatory standards.

- A **controlled recognized environmental condition** is defined as "a recognized environmental condition resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (for example, as evidenced by the issuance of a no further action letter or

equivalent, or meeting risk-based criteria established by regulatory authority), with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls)" (ASTM, 2013).

- A ***de minimis condition*** is defined as "a condition that generally does not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. Conditions determined to be *de minimis* conditions are not recognized environmental conditions nor controlled recognized environmental conditions" (ASTM, 2013).

In order to identify environmental conditions at the site, the Phase I ESA includes a site inspection, interviews with parties familiar with the property, historical research into the past uses of the property, and an environmental records search with regard to the subject property, adjoining and immediately surrounding properties, and the surrounding area. In addition, EFI Global, Inc. provides an opinion regarding the potential for asbestos containing materials, lead-based paints, mold, radon, oil and gas exploration, and methane as they relate to the subject property. Reviewing those documents that are publicly available, reasonably ascertainable, and practically reviewable controls the completeness of this assessment. The inability to review documents which do not exist or are not publicly available, reasonably ascertainable, or practically reviewable may result in a data gap.

1.1 Significant Assumptions

While this report provides an overview of potential environmental concerns, both past and present, the environmental assessment is limited by the availability of information at the time of the assessment. It is possible that unreported disposal of waste or illegal activities impairing the environmental status of the property may have occurred which could not be identified. The conclusions and recommendations regarding environmental conditions that are presented in this report are based on a scope of work authorized by the Client. Note, however, that virtually no scope of work, no matter how exhaustive, can identify all contaminants or all conditions above and below ground.

1.2 Limitations and Exceptions

This report has been prepared in accordance with generally accepted environmental methodologies referred to in ASTM 1527-2013, and contains all of the limitations inherent in these methodologies. No other warranties, expressed or implied, are made as to the professional services provided under the terms of our contract and included in this report. The conclusions of this report are based in part, on the information provided by others. The possibility remains that unexpected environmental conditions may be encountered at the site in locations not specifically investigated. The services performed and outlined in this report were based, in part, upon visual observations of the site and attendant structures. Our opinion cannot be extended to portions of the site that were unavailable for direct observation, reasonably beyond the control of EFI Global, Inc. The objective of this report was to assess environmental conditions at the site, within the context of our contract and existing environmental regulations within the applicable jurisdiction. Evaluating compliance of past or future owners with applicable local, provincial, and federal government laws and regulations was not included in our contract for services. Our observations relating to the condition of environmental media at the site are described in this report. It should be noted that compounds or materials other than those described could be present in the site environment.

1.3 Reliance

This report has been prepared for the sole use of the 39 South, LLC. The contents should not be relied upon by any other parties without the express written consent of 39 South, LLC and EFI Global, Inc.

1.4 User Responsibilities

The United States Environmental Protection Agency (USEPA) All Appropriate Inquiry (AAI) and ASTM E 1527-13 Phase I Standards require that the User conduct independent research and consider certain information before purchasing a property:

- Obtain a recent (less than 180 days old) title report prepared for the subject property. The report should be reviewed to obtain information regarding environmental clean-up liens or activity and use limitations (AULs) with regard to the subject property. If environmental cleanup liens or AULs encumbering the subject property or in connection with the subject property are identified, the User should provide that information to the Environmental Professional (EFI Global, Inc.). If the User has actual knowledge of environmental cleanup liens or AULs encumbering the subject property or in connection with the subject property, the User should provide that information to the Environmental Professional (EFI Global, Inc.).

- The User should provide the Environmental Professional (EFI Global, Inc.) with any specialized knowledge the User has with regard to recognized environmental conditions in connection with the property.

- If the User is aware of any commonly known information in the community about the subject property with respect to recognized environmental conditions, the User should provide the information to the Environmental Professional (EFI Global, Inc.).

- If this Phase I ESA was prepared as due diligence for a property transaction, it is the responsibility of the User to consider the relationship of the purchase price to the fair market value of the property. If the purchase price is significantly lower than the fair market value, the User should identify the alternate reason for the low purchase price if the lower purchase price is not related to the property being affected by hazardous substances or petroleum products.

2.0 SITE DESCRIPTION

EFI Global, Inc. has performed a Phase I Update for a commercial property located at 1000 and 1006 Seward Street, 6565 Romaine Street, and 1003, 1007, and 1013 North Hudson Avenue, in Los Angeles County, and the City of Los Angeles, California. The subject property is located to the north of Romaine Street, between Seward Street to the west and North Hudson Avenue to the east, in the City of Los Angeles. The subject property is consists of four contiguous parcels, which are approximately 0.78 acre in total size. The western parcel (5533-012-025) is developed with three attached one-story commercial structures, which are approximately 10,953 square feet in total size. It should be noted that according to the Los Angeles County Assessor Portal, the two office structures described in this report are classified as one combined structure. The buildings are occupied by Rao's Italian Restaurant (1006 Seward Street), post-production and editing offices for the Ozark television show (1000 Seward Street), and an additional film production office space with two units (6565 Romaine Street). The remaining portions of the property consist of asphalt-paved parking areas to the south of the office located at 6565 Romaine Street and on the eastern parcels (5533-012-011, 5533-012-012, and 5533-012-013). Additionally, a concrete-paved outdoor seating area was located to the east of Rao's Italian Restaurant. The surrounding area is used for commercial and residential purposes.

Natural gas is provided to the subject property by the Southern California Gas Company. Potable water and electrical services are provided by the Los Angeles Department of Water and Power. Sewer services are provided by the Los Angeles Bureau of Sanitation.

2.1 Current and Historical Addresses

According to our research and information provided by the Client, the following addresses have been found to be associated with the subject property: 1000 and 1006 Seward Street, 6551, 6561, 6565, and 6575 Romaine Street, and 1003, 1007, and 1013 North Hudson Avenue, Los Angeles, California.

2.2 Legal Description

According to the Los Angeles County Assessor's Office, the subject property is located in the City of Los Angeles, and is described by the Assessor's Parcel Numbers: 5533-012-011, 5533-012-012, 5533-012-013, and 5533-012-025.

2.3 Physical Setting

The elevation of the subject property is approximately 295 feet above sea level (United States Geological Survey Hollywood, California 7.5 minute topographic quadrangle). Based on our review of the GeoCheck Section of the Environmental Data Resources, Inc. (EDR) Radius report, the subject property is not situated within a 100-year Federal Environmental Management Agency (FEMA) Flood Zone. No wetlands were identified at the property or adjoining/immediately surrounding properties. Based on our review of groundwater data presented in the State Water Resources Control Board (SWRCB) GeoTracker website, groundwater was detected at a leaking underground storage tank site (959 Seward Street) approximately 85 feet southwest of the subject property at less than 20 feet below ground surface. Based on regional groundwater data, regional groundwater flow direction is estimated to be towards the south-southwest; however, local groundwater flow direction may vary.

3.0 SITE RECONNAISSANCE/INTERVIEWS

3.1 Site Reconnaissance

On May 12, 2020, Ms. Susana Corletto of EFI Global, Inc. conducted a site reconnaissance of the subject property. The site inspection was conducted to attempt to identify current site use(s), current hazardous materials storage, and evidence of past site uses and hazardous material storage and to identify evidence of other recognized environmental conditions. The following table summarizes our Site Reconnaissance observations:

Yes	No	Observed Feature(s)
	✔	Hazardous Substances and Petroleum Products Containers
	✔	Underground and/or Aboveground Storage Tanks
✔		Drains/Sumps/Clarifiers/Sewer Interceptors/Septic Systems
	✔	Stained or Corroded Surfaces/Stained Soil or Stressed Vegetation
	✔	Pits/Ponds/Lagoons/Wetlands
	✔	Electrical Equipment with the Potential to contain Fluids
	✔	Production or Monitoring Wells
	✔	Evidence of Solid Waste Disposal/Dumping/Fill Areas

3.1.1 Exterior Observations

The exterior portions of the site primarily consist of asphalt paved parking areas on the eastern parcels (5533-012-011, 5533-012-012, and 5533-012-013). Three additional parking spaces were observed to the south of the easternmost office structure (6565 Romaine Street). The paved surfaces appeared to be in moderate condition with some visible cracking due to regular vehicular use and vegetation growth. One trash bin and a recycling bin were located on the northwest portion of the 80-space parking lot. No hazardous materials disposal or storage was observed in the vicinity of the bins.

A concrete-paved outdoor seating area was observed to the east of Rao's Italian Restaurant (1006 Seward Street). The concrete surfaces appeared to be in good condition. Additionally, two trash bins and a three-stage grease interceptor were observed on the northwest portion of the subject property. No hazardous materials disposal or storage was observed in the vicinity of the bins. For further discussion of the grease interceptor, refer to Section 6.2. No pole or pad mounted transformers or poly-chlorinated biphenyls (PCB) containing equipment were observed on-site.

No recognized environmental conditions were observed in the exterior portions of the subject property.

3.1.2 Interior Observations

The subject property contains three attached single-story commercial structures. It should be noted that according to the Los Angeles County Assessor Portal, the two office structures described in this report are classified as one combined structure. The structures are of brick construction, with concrete slab-on-grade foundations, and flat wood panelized roofs. Building

materials observed included hardwood flooring, wood and drywall partitions, glossy concrete flooring, carpeting, ceramic tile, and drop ceiling panels. The concrete floors appeared to be in good condition.

The northwestern structure is occupied by Rao's Italian Restaurant (1006 Seward Street). This structure consists of indoor dining areas, restrooms, and food preparation and kitchen areas. Floor drains were observed within the restrooms. Additionally, floor drains and sinks, which are connected to the exterior grease interceptor, were observed within the kitchen areas. No staining or hazardous materials were observed in the vicinity of the floor drains or sinks. Cleaning supplies, in quantities less than 5-gallons each, were stored within the restrooms. Based on the nature of the materials for cleaning purposes only, the presence of these supplies are not expected to represent a significant environmental concern for the subject property.

The southwestern structure is utilized for post-production and editing offices for the Ozark television show (1000 Seward Street). The structure consisted of several personal offices, editing bays, conference rooms, restrooms, a kitchen area without a stove, and a lounge area.

The easternmost structure is occupied by a film production office space with two units (6565 Romaine Street). The southern unit consists of four offices and a restroom. The northern unit consists of office spaces, a kitchen area without a stove, restrooms, and storage closets on the ground level and additional office spaces on the mezzanine level. Four one-gallon containers of paint were observed within this unit. No stains or spills were observed in the vicinity of the paint containers.

No significant hazardous material storage or recognized environmental conditions were observed in the interior portions of the subject property.

3.1.3 Reconnaissance Limitations

No significant limitations were encountered during our reconnaissance of the subject property.

3.2 Adjoining and Immediately Surrounding Properties

The adjoining and immediately surrounding properties (within 100-feet of the subject property boundary) were visually and physically observed from public right-of ways and the subject property in an attempt to identify recognized environmental conditions. Our observations are summarized in the following table:

Location	Address(es)	Uses/Observations
North	1010 Seward Street 1017 North Hudson Avenue	Sunset Las Palmas Studios Multi-family residences
South	956 Seward Street	Avon Studio Transportation and Vehicle Rental
Southeast	956 North Hudson Avenue	Single-family residence
Southwest	959 Seward Street	Office structure
East	1002-1012 (even) North Hudson Avenue	Multi-family residences
West	6601 Romaine Street	Office structure under construction

- The adjoining/immediately surrounding properties to the south, southwest, and west were listed on the regulatory database report and are further discussed in Section 5.2 below.

3.3 Surrounding Area Observations

3.3.1 Surrounding Property Uses

The surrounding area is mostly developed with commercial and residential structures.

3.3.2 Surrounding Geography

The surrounding area is mostly flat with a slight topographic slope to the south. No nearby hills or bedrock outcroppings were observed in the area of the site. No lakes, ponds, rivers or streams were observed in the surrounding area.

3.4 Interviews

3.4.1 Property Owner

Mr. Winston Whitmarsh, the office manager with The Post Group, was interviewed during the course of the site reconnaissance conducted on May 12, 2020. In addition, Mr. Whitmarsh completed the Survey Questionnaire for the purposes of this report on May 14, 2020. Mr. Whitmarsh was unaware of any environmental conditions associated with the property.

3.4.2 Key Site Manager

A key site manager was not available for an interview during the completion of this report.

3.4.3 Property Occupants

No occupants were available for interview during the completion of this report.

3.4.4 Past Owners, Operators and Occupants

Past owners, operators and occupants were not able to be identified for an interview for this report.

3.4.5 Prospective Purchaser

As the User of this report is the owner of the property performing due diligence on the subject property for financing purposes, there is no prospective purchaser included in the transaction.

3.4.6 Neighboring Property Owners/Tenants

Per ASTM, an attempt to interview neighboring property owners/tenants should be conducted when the subject property is vacant and unsecured land.

As the subject property is currently developed and utilized for restaurant, office, and parking purposes, no neighboring property owners/tenants were interviewed during this assessment.

3.5 User Provided Information

The United States Environmental Protection Agency (USEPA) All Appropriate Inquiry (AAI) and ASTM 1527-13 Phase I Standards require that the Report User conduct independent research and consider certain information before purchasing a property. EFI Global, Inc. recommends that the User documents completion of the following items:

3.5.1 Lien Search

The User is required to obtain a recent (less than 180 days old) title report prepared for the subject property. The report should be reviewed to obtain information regarding environmental clean-up liens or activity and use limitations with regard to the subject property. If environmental cleanup liens or activity and use limitations encumbering the subject property or in connection with the subject property are identified, the User should provide that information to the Environmental Professional (EFI Global, Inc.). If the User has actual knowledge of environmental cleanup liens or activity and use limitations encumbering the subject property or in connection with the subject property, the User should provide that information to the Environmental Professional (EFI Global, Inc.).

- The User did not provide EFI Global any information either verbally or in writing (i.e. Title Report) regarding environmental cleanup liens or activity and use limitations encumbering the subject property. An environmental lien search was not requested by the User; however, based on our review of the DTSC EnviroStor Database, no environmental liens enforced by the DTSC were identified.

3.5.2 Specialized Knowledge

The User should provide the Environmental Professional (EFI Global, Inc.) with any specialized knowledge the User has with regard to recognized environmental conditions in connection with the property.

- The User has no specialized knowledge with respect to recognized environmental conditions in connection with the property.

3.5.3 Commonly Known or Reasonably Ascertainable Information

If the User is aware of any commonly known information in the community about the subject property with respect to recognized environmental conditions, the User should provide the information to the Environmental Professional (EFI Global, Inc.).

- The User is not aware of any commonly known information in the community about the subject property with respect to recognized environmental conditions.

3.5.4 Property Valuation

If this Phase I ESA was prepared as due diligence for a property transaction, it is the responsibility of the User to consider the relationship of the purchase price to the fair market value of the property. If the purchase price is significantly lower than the fair market value, the User should identify the alternate reason for the low purchase price if the lower purchase price is not related to the property being affected by hazardous substances or petroleum products.

- As the User of this report is the owner of the property performing due diligence on the subject property in contemplation of a future sale or refinance, there is no prospective purchaser included in the transaction.

3.5.5 Purpose of Performing Phase I ESA

According to the User, the User is the owner of the property performing due diligence on the subject property in contemplation of a future sale.

3.6 User Provided Documents

Andersen Environmental (currently operating as EFI Global, Inc.) prepared a *Phase I Environmental Site Assessment Report* for the subject property, dated July 28, 2015. The report was prepared in conformance with the United States Environmental Protection Agency (USEPA) All Appropriate Inquiry (AAI) standard and the American Society for Testing and Materials (ASTM) E 1527-13 scope of work. At the time of Andersen Environmental's assessment, the subject property was developed with an asphalt-paved parking area on the eastern portion and three single-story commercial structures on the western portion. The structures were occupied by Rao's Italian restaurant, a production space utilized by a television show, and by Lurssen Mastering, a mastering studio. Historical research indicated that subject property was utilized for residential purposes since 1919 through 1986 and for commercial purposes from 1937 through the present. No tenants of concern were identified. One grease interceptor was observed on the northwest portion of the subject property. No recognized environmental conditions (RECs) were revealed during the course of the assessment. Andersen Environmental recommended no additional investigation. Based on the historical research performed, review of regulatory databases and agencies, and site reconnaissance performed by EFI Global Inc. for this report, EFI Global Inc. concurs with the findings of the Phase I report provided.

GeoScience Analytical, Inc. prepared a *Hazardous Gas Assessment* for the subject property, dated November 25, 2019. This assessment was conducted as the subject property was slated for mixed-use commercial development. Four soil probes were advanced to a depth of 4 feet below ground surface (bgs) and three deeper soil borings were advanced to depths of approximately 17 feet bgs. Groundwater was not encountered to the maximum depth explored. Soil gas samples were collected from each soil boring at depths of 5, 10, and 17 feet. Methane concentrations in all soil gas samples were less than 500 parts per million by volume (ppmv). As the concentration of methane detected onsite is significantly below the Lower Explosive Limit (LEL) of 50,000 ppmv, mitigation is not required for the site development, even though this site is located within a methane buffer zone. For further discussion, refer to Section 7.6.

These documents were provided by the User and were reviewed by EFI Global, Inc. in good faith. EFI Global, Inc. relies on the information in these documents to be true information for the subject property.

4.0 HISTORICAL LAND USE

A review of historical data derived from standard historical resources is provided in this section. The objective of consulting historical sources is to develop a history of the previous uses of the property and surrounding area, in order to help identify the likelihood of past uses having led to recognized environmental conditions in connection with the property. During our historical review, acute attention is paid to the subject property. Data relating to the adjoining and immediately surrounding properties (within 100-feet of the subject property boundary) and the surrounding area is reviewed to the extent that it is revealed in the course of researching the property itself.

4.1 Aerial Photography Review

Aerial Photography of many portions of the United States dates back to the 1920's. Items searched for in each photograph included, but were not limited to: evidence of tanks, gas stations, industrial site usage, water drainage pathways, areas which show evidence of drums or excessive debris, discolored or stained soils, areas of distressed vegetation, et cetera.

Aerial Photograph Coverage was available from EDR for the years: 1928, 1938, 1948, 1952, 1954, 1964, 1970, 1977, 1983, 1989, 1994, 2002, 2005, 2009, 2012, and 2016. A summary of our observations is presented in the following table.

Year	Subject Property	Notable Adjoining Property Observations	Notable Observations of the Surrounding Area
1928	Parcel-11, -12, & -13: Appears to be developed with residential structures. Parcel-25: Appears to be developed in the northwest portion with a residential structure. The remainder appears to be unimproved.	North: Residential South: Residential beyond Romaine Street Southeast: Residential beyond intersection of North Hudson Avenue and Romaine Street Southwest: Vacant land beyond intersection of Seward Street and Romaine Street East: Residential beyond North Hudson Avenue West: Vacant land beyond Seward Street	Appears to be developed for residential and commercial purposes.

Year	Subject Property	Notable Adjoining Property Observations	Notable Observations of the Surrounding Area
1938, 1948, 1952, and 1954	Parcel-11, -12, & -13: Appears to be developed with residential structures. Parcel-25: Appears to be developed with two of the existing commercial structures in the northwest and southwest portions, respectively.	North: Residential South: Residential beyond Romaine Street Southeast: Residential beyond intersection of North Hudson Avenue and Romaine Street Southwest: Light industrial beyond intersection of Seward Street and Romaine Street East: Residential beyond North Hudson Avenue West: Light industrial beyond Seward Street	Appears to be developed for residential and commercial purposes.
1964, 1970, and 1977	Parcel-11 & -13: Appears to be developed with residential structures. Parcel-12: Appears to be developed as a parking lot. Parcel-25: Developed with the existing three commercial structures in the northwest, northeast, and southwest portions, respectively.	North: Residential and commercial South: Light industrial and parking lot (1964 only) beyond Romaine Street Southeast: Residential beyond intersection of North Hudson Avenue and Romaine Street Southwest: Light industrial beyond intersection of Seward Street and Romaine Street East: Residential beyond North Hudson Avenue West: Light industrial beyond Seward Street	Appears to be developed for residential and commercial purposes.
1983	Parcel-13: Appears to be developed with residential structures. Parcel-11 & 12: Appears to be developed as a parking lot. Parcel-25: Developed with the existing three commercial structures in the northwest, northeast, and southwest portions, respectively.	North: Residential and commercial South: Light industrial beyond Romaine Street Southeast: Residential beyond intersection of North Hudson Avenue and Romaine Street Southwest: Light industrial beyond intersection of Seward Street and Romaine Street East: Residential beyond North Hudson Avenue West: Light industrial beyond Seward Street	Appears to be developed for residential and commercial purposes.

Year	Subject Property	Notable Adjoining Property Observations	Notable Observations of the Surrounding Area
1989, 1994, 2002, 2005, 2009, 2012, and 2016	Parcel-11, -12, & -13: Appears to be collectively developed as a parking lot. Parcel-25: Developed with the existing three commercial structures in the northwest, northeast, and southwest portions, respectively.	North: Residential and commercial South: Light industrial beyond Romaine Street; Parking lot by 2016 Southeast: Residential beyond intersection of North Hudson Avenue and Romaine Street Southwest: Light industrial beyond intersection of Seward Street and Romaine Street; Undergoing demolition in 2005; Vacant land by 2009; Commercial by 2016 East: Residential beyond North Hudson Avenue West: Light industrial beyond Seward Street	Appears to be developed for residential and commercial purposes.

4.2 Building Department Records Review

The addresses identified as current and historical addresses for the subject property were researched at the City of Los Angeles Department of Building and Safety. Items considered in the course of the building permit review are previous site usage, previous ownership, and the construction or demolition of any structures that may have had a negative environmental impact on the property. The following table summarizes relevant building permits obtained and reviewed:

1000 Seward Street		
Date	**Owner/Occupant**	**Purpose**
09/01/1937	C.C. Langevin Company	Construct an office building
10/25/1957	Mr. Moore	Not listed
08/31/1959	C.C. Langevin	Addition of interior partitions and ceilings not supported by truss
10/02/1959	C.C. Langevin	Ceiling support and new exit door
11/17/1993	Douglas M. Langevin	Re-roof 4-ply built up roof

1006 Seward Street		
Date	**Owner/Occupant**	**Purpose**
12/17/1920	S.B. Brodlead	Construct a residential structure
06/09/1937	Dick King	Add café building in front of existing residence
01/16/1991	Hollywood Canteen Inc.	Repair stucco, paint

1006 Seward Street		
Date	**Owner/Occupant**	**Purpose**
09/25/1996	Chin L. Kim	Remodel existing bar
07/26/2000	Agnes Langevin	Install new counter/cabinet in restaurant
11/26/2012	Barbara J. Rodney	Demolition of built-in mill work, plumbing fixtures, interior finishes, and non-bearing partitions of existing 806 square-feet restaurant
03/13/2013	Barbara J. Rodney Trust	Remodel existing restaurant, kitchen and bathroom expansion, open outdoor dining area

1003 North Hudson Avenue		
Date	**Owner/Occupant**	**Purpose**
10/05/1920	Mr. and Mrs. C. Fuller	Construct a private garage
07/29/1986	Mr. and Mrs. C. Fuller	Demolish existing structure
09/05/1986	Agnes Languvin	Change use of land to parking lot
10/10/1986	Agnes Languvin	Certificate of Occupancy: parking lot
03/13/2013	Barbara J. Rodney Trust	Re-stripe one standard stall to create one handicap stall within existing parking lot

1007 North Hudson Avenue		
Date	**Owner/Occupant**	**Purpose**
03/09/1922	Fred Conn	Addition of screen porch and breakfast room to existing single family residence
04/11/1927	Sophie Marx	Construction of garage for residential property
03/13/1959	C.C. Langevin	Demolish dwelling (no basement)
04/01/1959	Carl Langevin	Redevelop property into a parking lot
06/08/1959	Not listed	Certificate of Occupancy: parking lot

1013 North Hudson Avenue		
Date	**Owner/Occupant**	**Purpose**
Illegible	Bill Gordan	Extend existing “accessory living” structure
03/07/1921	Mrs. Lizzie Brunty	Construct a single family residence
01/21/1929	John F. Brunty	Construct private garage for residential property
02/14/1949	Bill Gordan	Certificate of Occupancy: accessory living quarters

1013 North Hudson Avenue		
Date	**Owner/Occupant**	**Purpose**
06/21/1957	William Gordan	Alter existing single family residence to 3-family apartment building
02/04/1959	Not listed	Certificate of Occupancy: convert a single family residence to a 3-family apartment
09/24/1982	Agnes Langevin	Demolish existing structure/clear lot
07/30/1985	Langevin	Develop parking lot
09/19/1985	Langevin	Certificate of Occupancy: Use of Land Parking Lot

- The remaining permits obtained and reviewed were for minor tenant improvements, sign permits, or other permits which are not significant and did not contain information about the historical site use or the potential for recognized environmental conditions.

4.3 City Directory Review

City directories have been published since the 1800's and provide detailed occupant information for the property and its surrounding area at five-year intervals. The purpose of the City Directory research is to attempt to determine the businesses that historically occupied the subject property. Historical City Directories provided by EDR and reviewed by EFI Global, Inc. are listed below.

1000 Seward Street	
Date	**Listing**
1942	World Broadcasting Corp.; The Langevin Co. Inc.; General Radio Co.
1951	Langevin Co. Inc.; General Radio Co.
1967	General Radio Co.
1976	B&W Editorial Services
1990	HBO Laguna Heat
1994	Lucas Arts Theater Alignment

1006 Seward Street	
Date	**Listing**
1924, 1929, 1933, 1937, and 1942	Residential
1951	Seward Melville Cafe
1958	Melville Cafe
1962	Lillian Apfel Café
1967	The Studio Café
1971, 1976, 1981, 1986, and 1990	The Studio Coffee Shop
1994, 1999, 2000, 2004, and 2006	Hollywood Canteen
2014	Rao's Restaurant

6561 Romaine Street	
Date	**Listing**
1951 and 1958	Residential

6565 Romaine Street	
Date	**Listing**
1962, 1967, 1971, and 1976	The Langevin Co. Inc.; Telescopics
1981	Langevin Co. Inc.
1990	Telecine Tech Inc.
2008	The Arena US LLC
2009	Phluent Inc.

1003 North Hudson Avenue	
Date	**Listing**
1929, 1933, 1937, 1958, 1976, and 1981	Residential

1007 North Hudson Avenue	
Date	**Listing**
1929, 1933, 1937, and 1942	Residential

1013 North Hudson Avenue	
Date	**Listing**
1929, 1933, and1942	Residential
1962, 1967, 1971, and 1976	Langevin Co. Inc. and Telescopics
1981	Antonio Ruben and Langevin Co. Inc.
1990	Telecine Tech Inc.

- There were no city directory listings identified for the other current or historical site addresses.

- The adjoining/immediately surrounding property to the southwest (Consolidated Film Industries) was listed on the regulatory database report and is further discussed in Section 5.2.

4.4 Sanborn Map Review

Originally compiled by the Sanborn Map Company of Pelham, New York for fire insurance companies to assess fire risks related to building materials and hazardous materials storage, today Sanborn Maps are an invaluable tool for Environmental Professionals in determining historical site use and the potential for environmental conditions. Sanborn Map Coverage is available from as early as 1867 in some cities. Although Sanborn maps were created for approximately twelve thousand cities and towns in the United States, Canada, and Mexico, Sanborn Map Coverage is not available in newer

and more rural communities. Sanborn Map Coverage was available from EDR for the years: 1919, 1950, 1955, 1956, 1957, 1959, 1960, 1961, 1966, 1968, and 1969. A summary of our observations is presented in the following table.

Year	Subject Property	Notable Adjoining Property Observations	Notable Observations of the Surrounding Area
1919	Parcel-12: Depicted as developed with a residential structure in the east portion. Parcel-11, -13, and -25: Depicted as undeveloped.	North: Residential South: Residential beyond Romaine Street Southeast: Residential beyond intersection of North Hudson Avenue and Romaine Street Southwest: Vacant land beyond intersection of Seward Street and Romaine Street East: Residential beyond North Hudson Avenue West: Vacant land beyond Seward Street	Depicted as either undeveloped or developed for commercial or residential purposes.

Year	Subject Property	Notable Adjoining Property Observations	Notable Observations of the Surrounding Area
1950, 1955, 1956, 1957, and 1959	Parcel-11: Developed with two dwellings in the east and west portions, respectively. Parcel-12: Developed with a dwelling in the east portion and garage in the northwest corner. Parcel-13: Developed with two dwellings in the east and west portions, respectively and a garage in the north central portion. Parcel-25: Developed with a restaurant northwest portion and a radio equipment warehouse/laboratory in the southwest portion.	North: Residential; Commercial and residential by 1955 South: Residential and nursery beyond; Light industrial and residential by 1955 Romaine Street Southeast: Residential beyond intersection of North Hudson Avenue and Romaine Street Southwest: Consolidated Film Industries beyond intersection of Seward Street and Romaine Street (Not depicted in 1955, 1956, 1957, and 1959) East: Residential beyond North Hudson Avenue West: Electric Research Products beyond Seward Street (Not depicted in 1955, 1956, 1957, and 1959)	Depicted as developed for commercial and residential purposes.

Year	Subject Property	Notable Adjoining Property Observations	Notable Observations of the Surrounding Area
1960, 1961, 1966, 1968, and 1969	Parcel-11: Developed with two dwellings in the east and west portions, respectively. Parcel-12: Developed as a parking lot. Parcel-13: Developed with two dwellings in the east and west portions, respectively and a garage in the north central portion. Parcel-25: Developed with a restaurant northwest portion, a Radio Equipment Repair shop in the northeast portion (store by 1968), and a radio equipment warehouse/ laboratory in the southwest portion.	North: Commercial and residential South: Light industrial and vacant land Romaine Street; Light industrial only by 1968 Southeast: Residential beyond intersection of North Hudson Avenue and Romaine Street Southwest: Consolidated Film Industries beyond intersection of Seward Street and Romaine Street (Not depicted in 1960, 1961, 1966, and 1968) East: Residential beyond North Hudson Avenue West: Cascade Pictures of California Inc. beyond Seward Street (Not depicted in 1960, 1961, 1966, and 1968)	Depicted as developed for commercial and residential purposes.

- Sanborn maps indicated the following historical street addresses associated with the subject property: 1000 and 1006 Seward Street; 6551, 6561, 6565, and 6575 Romaine Street; and 1003, 1007, and 1013 North Hudson Avenue. These addresses were researched during the completion of this report.

- The adjoining/immediately surrounding property to the southwest (Consolidated Film Industries) was listed on the regulatory database report and is further discussed in Section 5.2.

4.5 Historical Summary

4.5.1 Subject Property

According to EFI Global, Inc.'s interpretation of the historical research data, the subject property underwent separate courses of development as described below:

Parcel-11 (1013 North Hudson Avenue) – The northeast portion of the subject property was undeveloped in 1919. A single-family residence and private garage were constructed in 1921 and 1929, respectively. In 1957, the residence was converted into a 3-family apartment building. *Parcel-11* remained in this configuration through 1982, when the structures were demolished. By 1985, *Parcel-11* was developed into a parking lot, as it remains today.

Parcel-12 (1007 North Hudson Avenue) – The east portion of the subject property was developed with a residential structure by 1919. A private garage was constructed in 1927. *Parcel-12* remained in this configuration through 1959, when the structures were demolished and the parcel was redeveloped into a parking lot, as it remains today.

Parcel-13 (1003 North Hudson Avenue; 6551-6561 Romaine Street) – The southeast portion of the subject property was undeveloped in 1919. In 1920, a private garage was constructed in the north portion of the parcel. By 1950, two residential structures had been developed in the east and west portions of the parcel, respectively. *Parcel-13* remained in this configuration through 1986, when the structures were demolished and the parcel was redeveloped into a parking lot, as it remains today.

Parcel-25 (1000 and 1006 Seward Street; 6565-6575 Romaine Street) – The western half of the subject property was undeveloped in 1919. In 1920, a residential structure was developed in the north portion of the parcel. In 1937, the existing restaurant structure (1006 Seward) was developed to the west of the residential structure and the existing attached southwest commercial building (1000 Seward) was developed for use as a radio equipment warehouse. By 1951, the subject property was utilized solely for commercial purposes. The existing attached northeast structure (6565 Romaine) was developed in 1960 as a radio equipment repair shop.

Previous tenants for 1000 Seward include: World Broadcasting Corp. (1942); The Langevin Co. Inc. (1942-1951); General Radio Co. (1942-1967); B&W Editorial Services (1976); and offices for film production purposes (1990-present).

Previous tenants for 1006 Seward include: residential tenants (1920 through at least 1942); Seward Melville Café/Melville Café (1951-1958); Lillian Apfel Café (1962); The Studio Café (1967); The Studio Coffee Shop (1971-1990); Hollywood Canteen (1991-2011); and Rao's Italian (2015-present).

Previous tenants for 6565 Romaine include: a radio equipment repair shop (1960-1969); Telescopics (1962-1976); The Langevin Co. Inc. (1962-1981); Telecine Tech Inc. (1990); The Arena US LLC (2008); Lurssen Mastering (2015); and an office for film production purposes (present).

4.6 Historical Data Gaps

The earliest historical resource obtained during this investigation was a Sanborn map from 1919 which indicated development of the subject property for residential uses. The lack of historical data sources for the subject property dating back to first developed uses represents historical data source failure. However, it is assumed that prior to 1919, the subject property would have been developed for residential land use, if not undeveloped. Based on this notion, this limitation is not expected to significantly alter the findings of this investigation.

5.0 REGULATORY DATABASE REPORT

A radial database search was conducted in accordance with the specifications defined in ASTM E 1527-13 which sets the radial search distances for each regulatory database. The radial database search was conducted by EDR on April 29, 2020. A copy of the database report is presented in Appendix II of this report. The following table summarizes required databases reviewed, the approximate search distances, and indicates if the subject site, adjoining/immediately surrounding properties or surrounding sites are listed on the respective database.

Following the table are summaries of the information found in the relevant database listings and our opinion regarding the potential for the subject property to be impacted. Our opinion is based on the information found in the database listings, through other historical and regulatory resources, "Standard Guide for Vapor Encroachment Screening on Property Involved in Real Estate Transactions" (ASTM E2600-15), and assumed groundwater flow direction. As discussed in Section 2.3, groundwater is estimated to be less than 20 feet below ground surface (bgs) in the area of the site and is assumed to flow towards the south-southwest.

DATABASE	Search Distance (Miles)	Subject Site (Yes/No)	Adjacent Site (Yes/No)	Total Listings (#)
Federal National Priorities List (NPL)	1.0	No	No	0
Federal De-listed NPL	1.0	No	No	0
Federal CERCLIS	0.5	No	No	0
Federal CERCLIS NFRAP	0.5	No	No	0
Federal RCRA CORRACTS	1.0	No	No	0
Federal RCRA non-CORRACTS TSD	0.5	No	No	0
Federal RCRA Generators	0.25	No	Yes	21
Federal Institutional/Engineering Controls	0.5	No	No	0
Federal ERNS	Property	No	No	0
State/Tribal Equivalent NPL	1.0	No	No	0
State/Tribal Equivalent CERCLIS	1.0	No	No	21
State/Tribal Landfill	0.5	No	No	1
State/Tribal Underground Storage Tank (UST)	0.25	No	Yes	70
State/Tribal Leaking Underground Storage Tank (LUST/ SLIC)	0.5	No	Yes	55
State/Tribal Institutional/Engineering Controls	0.5	No	No	0
State/Tribal Voluntary Clean-up Sites	0.5	No	No	0
State/Tribal Brownfield Sites	0.5	No	No	3

5.1 Subject Property

It's A Laugh Productions "Sydney, Max, and Max" SEA (6565 Romaine Street) - The subject property is listed on the Resource Conservation and Recovery Act - Non Generator / No Longer Regulated (RCRA NonGen / NLR) database. According to the listing, this facility registered as a handler of unspecified hazardous waste in July 2018. No violations were found. Based on the lack of evidence of hazardous waste generation, this information is not expected to represent a significant environmental concern for the subject property.

5.2 Adjoining and Immediately Surrounding Properties

Rossin Steel Inc. (1001 Seward Street) - The adjacent property located approximately 60 feet west of the subject property (hydrologically cross-gradient) is listed on the RCRA NonGen/NLR database. According to the listing, this facility registered as a handler of unspecified hazardous waste in February 2019. No violations were found. Based on the lack of evidence of hazardous waste generation, this information is not expected to represent a significant environmental concern for the subject property.

E.S. Logie/ Avon Rent A Car/Truck/Van (956 Seward Street) - The adjacent property located approximately 60 feet south of the subject property (hydrologically down-gradient) across Romaine Street is listed on the EDR Historical Auto Station (EDR Hist Auto) and RCRA NonGen/NLR databases. According to the EDR Hist Auto listing, E.S. Logie operated an automobile repairing facility in 1924. According to the RCRA NonGen/NLR listing, Avon Rent A Car/Truck/Van registered as a handler of unspecified hazardous waste in November 2018. No violations were found. Based on the lack of evidence of a documented release, the former automobile repairing facility and vehicle rental facility is not expected to represent a significant environmental concern for the subject property.

Consolidated Film Industries LLC (959 Seward Street) - The adjacent property located approximately 85 feet southwest of the subject property (hydrologically down-gradient) across the intersection of Seward Street and Romaine Street is listed on the California Hazardous Materials Information Reporting System (CHMIRS), Los Angeles Fire Department Hazardous Materials Division (LAFD HazMat), Leaking Underground Storage Tank (LUST), Resource Conservation and Recovery Act - Large Quantity Generator (RCRA-LQG), Facility Inventory Database (CA FID UST), Integrated Compliance Information System (ICIS), Hazardous Waste & Substance Site List (HIST CORTESE), Aerometric Information Retrieval System Facility Subsystem (US AIRS), Cleanup Program Sites - Spills, Leaks, Investigations and Cleanup (CPS-SLIC), Facility and Manifest Data (HAZNET), Waste Discharge Requirements Listing (WDR), California Integrated Water Quality System (CIWQS), California Environmental Reporting System (CERS), Hazardous Waste Tracking System (HWTS), Cleaner Facilities (DRYCLEANERS), and Emissions Inventory Data (EMI) databases. According to the HAZMAT listing, this facility was regulated by the LAFD and has an inactive status as of June 1, 2019. According to the RCRA-LQG listing, this facility registered as a large quantity generator of hazardous wastes, in the form of ignitable waste, corrosive waste, lead, and spent halogenated and chlorinated solvents, from 1992 through 2006. No violations were found. According to the CA FID UST listing, this facility maintained at least one unspecified UST. According to the ICIS and US AIRS listings, this facility was issued some violations and enforcement orders related to ambient air quality standards. According to the CERS and EMI listings, this facility was listed on the USEPA Air Emission Inventory System (EIS) and emitted minor quantities (one ton or less) of total organic hydrocarbon gases, reactive organic gases, carbon monoxide emissions, oxides of nitrogen, oxides of sulphur, particulate matter, and particulate matter 10 micrometers or smaller per year from 2002 through 2005. Additionally, this facility was also issued CERS ID under the Cleanup Program Site, LUST Cleanup Site, and WDR. According to the DRYCLEANERS listing, this facility maintained equipment utilized for plastics & resins cleaning. According to the HWTS and HAZNET listings, this facility was issued EPA ID CAD088378245 in July 1982, which remained active through June 2008. Under this EPA ID, this facility disposed of large quantities of the following hazardous wastes: halogenated solvents, off-specification, aged or surplus inorganics, asbestos containing waste, contaminated soil from site clean-up, waste oil and mixed oil, liquids with halogenated organic compounds greater than or equal to 1,000 micrograms per liter (µg/L), unspecified solvent mixture, unspecified organic liquid mixture, other empty containers 30 gallons or more, photochemicals/photoprocessing waste, oxygenated

solvents, unspecified aqueous solution, tank bottom waste, unspecified oil-containing waste, organic solids with halogens, liquids with pH less than or equal to 2, other inorganic solid waste, oil/water separation sludge, other organic solids, laboratory waste chemicals, off-specification, aged or surplus organics, and metal dust. The disposal methods varied. According to the CHMIRS listing, a spill of an unspecified substance occurred in September 1988. No further details pertaining to the spill were provided. According to the WDR and CIWQS listings, this facility is actively regulated for storm water since November 2013 and was issued 10 violations related to storm water within the last five years.

According to the LUST and CPS-SLIC listings and information from the State Water Resources Control Board (SWRCB) GeoTracker online database, this site was utilized for film processing activities from 1926 through 2002. Chemicals used for film processing included isopropyl alcohol, acetone, 1,1,1-Trichloroethane (1,1,1-TCA), Perchloroethlylene (PCE), ammonium thiosulfate, and proprietary development solutions. In May 1986, an unauthorized release of solvents that impacted groundwater was initially reported. Remedial activities were not specified. On September 30, 1996, the Los Angeles Regional Water Quality Control Board (LARWQCB) issued case closure.

The buildings associated with this facility were demolished in 2005. During demolition, remediation activities consisted of soil excavation, removal, and offsite disposal of areas below the basements utilized to store the chemicals. Approximately 3,200 cubic yards of contaminated soil and impacted concrete were removed offsite. Due to possible cross-contamination of backfill material with contaminated soil, the backfill material also required soil remediation using chemical oxidation in 2006. In 2007, the LARWQCB issued a No Further Action (NFA) Letter for soil only.

Since the late 1980s, the LARWQCB requested that the property owner assess the origin and extent of the chlorinated hydrocarbons at the site. Groundwater sampling frequency was modified in 2004 and 2014. According to the most recent Groundwater Monitoring Report, dated December 10, 2019, PCE was detected in eight monitoring wells at a maximum concentration of 38.2 μg/L, TCE was detected in four monitoring wells at a maximum of 76.2 μg/L, cis-1,2-Dichloroethene (cis-1,2-DCE) was detected in three monitoring wells at a maximum concentration of 33.6 μg/L, and 1,1-Dichloroethane (1,1-DCA) was detected in three monitoring wells at a maximum concentration of 8.71 μg/L. The detected concentrations of PCE, TCE, cis-1,2-DCE, and 1,1-DCA exceeded the Maximum Contaminant Level (MCL) of 5 μg/L in groundwater for these chemicals. In addition, vinyl chloride was detected in two monitoring wells at a maximum concentration of 29.4 μg/L, which exceeds its respective MCL of 0.5 μg/L.1,1-Dichloroethene (1,1-DCE) and trans-1,2-DCE were also detected in groundwater samples at concentrations below their MCLs of 130 μg/L and 10 μg/L, respectively. The closest active monitoring well to the subject property is MW-4R, which appears to be located approximately 125 feet southwest of the subject property. During the latest monitoring event, conducted in November 19, 2019, all volatile organic compounds (VOCs) were non-detect in MW-4R. Based on the down-gradient location of this facility and non-detect concentrations at MW-4R, it appears that groundwater impacts from this release are not migrating towards the subject property. Therefore, this ongoing release case is not expected to represent a significant environmental concern for the subject property.

No other adjoining/immediately surrounding properties (within 100-feet) were listed on any of the regulatory databases researched or the listings were not associated with the storage or disposal of hazardous wastes including aboveground or underground storage tanks, did not indicate a known chemical release, and did not indicate a property use where the use of hazardous chemicals would be expected.

5.3 Surrounding Area

In our opinion, none of the other sites listed on the regulatory database report pose a significant threat to the subject property as there is no indication of a release at the respective sites, a release has occurred but groundwater has not been impacted, a release has occurred but the case is closed, or the sites are located cross or down gradient of the subject property and in excess of 1/10 mile from the subject property.

5.4 Orphan Sites

Orphan sites are unmappable sites which appear in a list form in the Radius Map Report rather than on the standard Radius Map. One orphan site was identified in the Radius Map Report prepared for this site. The site was manually mapped to determine the location of the site relative to the subject property and groundwater gradient. The following conclusion was made:

In our opinion, the orphan site listed does not pose a significant threat to the subject property as the site is located cross or down gradient of the subject property and in excess of 1/10 mile from the subject property.

6.0 AGENCY FILE REVIEWS

6.1 State Agencies

The Los Angeles Regional Water Quality Control Board (LARWQCB), Department of Toxic Substances Control (DTSC), and South Coast Air Quality Management District (SCAQMD) were contacted regarding air emission permits and site investigation files for the subject property. Additionally, the State Water Resources Control Board (SWRCB) GeoTracker, DTSC Hazardous Waste Tracking System (HWTS) and EnviroStor, and SCAQMD Facility Information Detail (FIND) online databases were reviewed for information pertaining to the subject property.

- According to the responses to our requests from the LARWQCB, DTSC, and SCAQMD, there are no files for the subject property. Furthermore, the subject property is not listed on the GeoTracker, EnviroStor, or FIND online databases.

- According to information available on the HWTS online database, five USEPA Identification Numbers (IDs) were issued to It's a Laugh Productions at 6565 Romaine Street. The following USEPA IDs are currently inactive and did not have any hazardous wastes manifests associated with them: CAC002800407 (active from January 2015 to April 2015), CAC002971894 (active from July 2018 to October 2018), and CAC003003118 (active from February 2019 to May 2019). The following USEPA IDs were active from January 2015 to April 2015 and have hazardous wastes manifests associated with them: CAC002800401 and CAC002800406. According to the hazardous waste manifests for both USEPA IDs, a total of 0.375 ton of latex waste was generated by this tenant in 2015. Based on the minor quantities and type of wastes generated, the operations by this tenant are not expected to represent a significant environmental concern for the subject property.

The California Department of Conservation, Geologic Energy Management Division (CalGEM) online mapping application Well Finder was reviewed for information pertaining to oil and gas exploration on or nearby the subject property.

- No oil wells were identified within 500 feet of the subject property.

6.2 City/County Agencies

The Los Angeles County Fire Department Health Hazardous Materials Division (LACFD HHMD) and the City of Los Angeles Bureau of Sanitation (LABS) were contacted regarding hazardous materials, underground storage tank, and industrial waste discharge records for the subject property. In addition, the City of Los Angeles Fire Department (LAFD) Certified Unified Program Agency (CUPA) online databases which include Active and Inactive Aboveground Storage Tanks (AST), Underground Storage Tanks (UST), and Hazardous Materials Inventory and UST Historical Files databases and the LACFD HHMD Active CUPA Program Records, Inactive CUPA Program Records, Site Mitigation Unit (SMU) Case Records, and California Accidental Release Program (CalARP) online databases were reviewed for additional information pertaining to the subject property.

- According to the responses to our requests from the LACFD HHMD and review of the aforementioned online databases, there are no records on file for the subject property addresses.

- According to a response to our request from the LABS, there are several records for businesses located at 1006 North Seward Street. The Studio Coffee Shop was issued an industrial waste (IW) permit, which was valid from February 1968 through November 1969. The permit stated that soap and detergent from floor and equipment washing were discharged to the sewer. Hollywood Canteen was issued two IW permits, which were valid from January 2003 through February 2005 and from October 2005 though June 2011. Wastewater was generated from various cooking, food preparation, and washing operations. Rao's Restaurant was issued an IW permit in January 2016, which remains active through the present. Wastewater is generated from various cooking, food preparation, and washing operations and is discharged to a 1,500-gallon grease interceptor. Based on the nature of the businesses, the IW generated by the former and current tenants is not expected to represent a significant environmental concern for the subject property.

The City of Los Angeles NavigateLA Online Mapping System was reviewed to obtain substructure maps for the subject property.

- According to a review of the substructure maps for the subject property, no USTs or other substructure features were identified in the area of the subject property.

6.3 Agency File Review Limitations

No significant data gaps were encountered during our agency file reviews.

7.0 NON-SCOPE ENVIRONMENTAL RISKS

ASTM Standard E1527-13 identifies additional conditions which, should they exist at the subject property, may create a human health risk to the occupants of the site. These risks may also create additional costs to the property owner in the form of identification, operations & maintenance, and cleanup or remediation.

7.1 Asbestos Containing Building Materials

Asbestos is a group of naturally occurring minerals used in many products, including building materials vehicle brakes, insulation and other products that require resistance to heat and corrosion. Asbestos includes: chrysotile, amosite, crocidolite, tremolite asbestos, anthophyllite asbestos, actinolite asbestos, and any of these materials that have been chemically treated and/or altered.

The inhalation of asbestos fibers by workers can cause cancer and other serious diseases of the lungs and other organs that may not appear until years after the exposure has occurred. For instance, asbestosis can cause a buildup of scar-like tissue in the lungs and result in loss of lung function. Asbestos fibers associated with these health risks are too small to be seen with the naked eye, and smokers are at higher risk of developing some asbestos-related diseases.

Asbestos-containing materials (ACM) do not always pose a hazard to occupants and workers in buildings that contain these materials. Intact, undisturbed ACMs generally do not pose a health risk. ACMs may become hazardous and pose an inhalation risk when they are damaged, disturbed in some manner, or deteriorate over time and asbestos fibers are released into building air.

ACM can be found in a multitude of building products which include decorative and acoustical plaster texture, fire-proofing (Monokote), joint compound, attic and wall insulation, resilient floor covering, mastic, recessed lighting fixtures, wiring, elevator brakes, fire doors, pipe insulation, pipe gaskets, duct insulation, duct tape, siding and roofing materials (tar/shingles), textured paint, stucco, concrete, asphalt underlayment (Petromat) and plaster.

Local jurisdictions have specific laws and regulations regarding asbestos and actions including building renovations and building demolition.

- Based on the age of the onsite structures, there is a potential for asbestos-containing building materials at the subject property; however, no testing was completed as part of this report. Suspect asbestos-containing materials (ACMs) were observed in the form of drop ceiling panels, drywall partitions, ceramic tile, and associated mastics. All building materials appeared in good condition at the time of site reconnaissance. Individual suspect materials would need to be tested as part of an asbestos survey prior to any renovation or demolition in order to confirm the presence or non-presence of asbestos.

7.2 Lead-Based Paint

Although the use of lead-based paint in residential structures has been prohibited since 1978, it may still be used in commercial and industrial buildings. It is approximated that 80 percent of buildings built prior to 1978 contain lead paint. Even at low levels, lead poisoning can cause IQ deficiencies, reading and learning disabilities, impaired hearing, reduced attention spans, hyperactivity and other behavior problems with children under 6 years old being most at risk.

Lead is a highly toxic metal that was used for many years in products found in and around our homes and commercial buildings. Lead can be found in dust from friction surfaces of windows and doors that are painted with lead-based paint and from building components coated with lead-based paint that has begun peeling, flaking and chalking. There is also the potential for soil to have elevated lead levels due to leaching from lead based paint on nearby structures and deposition of airborne lead when leaded fuel was in use prior to the 1976 ban and phase out.

Since the 1980's, lead has been phased out in gasoline, reduced in drinking water, reduced in industrial air pollution, and banned or has been limited in use in consumer products.

Between the local, State and Federal agencies, including the Environmental Protection Agency (EPA), Department of Housing and Urban Development (HUD), Occupational Safety & Health Administration (OSHA) and the California Department of Public Health (CDPH), each state has various action limits that have been enacted with the intent to prevent human exposure and contamination of the surrounding environment.

- Based on the age of the onsite structures, there is a potential for lead-based paint at the site. All painted surfaces appeared in good condition at the time of site reconnaissance. Individual suspect materials would need to be tested as part of a lead-based paint survey prior to any renovation or demolition in order to confirm the presence or non-presence of lead-based paint.

7.3 Radon

Radon is a radioactive gas that has been found in structures all over the United States. Radon is produced from the natural breakdown of uranium in soil, rock, and water. Radon typically moves up through the ground and into structures through cracks and other holes in the foundation. Movement of radon through the earth is strongly influenced by moisture content and permeability of soil, porosity, and degree of fracturing in rocks, as well as surface meteorological conditions. High levels of radon have been discovered in every state.

Radon cannot be seen, smelled, or tasted. Breathing air-containing radon may increase the risk of getting lung cancer. The Surgeon General of the United States has warned that radon is the second leading cause of lung cancer in the United States today after smoking.

Testing for the presence of radon is fairly inexpensive, simple and is the only way to be certain of the on-site concentrations. Various types of sampling methods exist to determine the concentration. On-site radon sampling was not performed during the completion of this assessment.

- Based on our research at the United States Environmental Protection Agency (USEPA), the average radon concentrations for Los Angeles County are between 2.0 picocuries per liter (pCi/L) and 4.0 pCi/L, below the 4.0 pCi/L action level set by the USEPA. Further, the California Geological Survey *Radon Potential Radon Zone Map for Southern California*, dated January 2005, shows low concentrations of radon in the vicinity of the subject property. Site specific radon levels vary greatly within the EPA radon zones and on-site radon measurements would need to be collected in order to determine the radon levels at the subject property.

7.4 Wetlands

According to the Clean Water Act, a wetland is "those areas that are inundated or saturated by surface or groundwater at a frequency and duration sufficient to support, and that under normal circumstances do support, a prevalence of vegetation typically adapted for life in saturated soil conditions." Wetland areas have been identified as ecologically diverse and sensitive areas and are generally subject to more stringent development, re-development, and building regulations.

- The U.S. Fish and Wildlife Service (USFWS) National Wetlands Inventory was reviewed to determine if the subject property is situated within an identified wetland. According to the USFWS, the subject property is not located within a wetland area.

7.5 Mold

Mold and mildew are simple, microscopic organisms in the Fungi kingdom that can grow virtually anywhere if they have adequate moisture, nutrients, air and appropriate temperatures. Depending on the particular mold or fungus, growing colonies can be almost any color. Most household molds and fungi (mildews) are white, black, grey, or brown colored. Spores of dozens of kinds of mold and fungus (mildew) are present at all times in indoor and outdoor air. These spores can settle, germinate and grow wherever good growth conditions are found. They can grow on soil, plants, dead plant materials, foods, fabrics, paper, wood and many other materials found within buildings. Many molds are not harmful and actually have a beneficial role in the environment and in living systems. In soil, molds play a crucial part in decomposition of organic matter and in making nutrients available to plants.

When mold and fungi (mildews) growth occurs in buildings, it can be very destructive to the materials on which they grow and cause high levels of airborne mold spores and volatile organic compounds associated with the characteristic musty / moldy odor. They cause staining, decomposition (rotting of materials) and objectionable, musty odors. Where colonies are extensive they can also produce enough spores, and by-products to be harmful to health. Many of the by-products of mold and fungus (mildew) are irritating to skin, eyes and respiratory tracts. Some molds produce true allergic sensitization and allergic reactions in susceptible people. Some molds produce toxic by-products that could be harmful to skin, and poisonous if ingested or inhaled in quantity. Persons with compromised immune systems may even experience systemic fungal infections of the respiratory tract.

EFI Global, Inc. observed a limited amount of interior areas of the subject buildings in order to identify the significant, visible presence of mold. This activity was not intended to discover all areas which may be affected by mold growth at the subject property. Potential areas of mold not observed as part of this limited assessment, include but are not limited to, pipe chases, HVAC systems and within enclosed wall and ceiling cavities that may be present in the subject property. A complete mold assessment, which may include various types of sampling, would be required to determine if mold levels within the subject buildings are at levels acceptable by industry standards.

- EFI Global, Inc. did not observe visible or olfactory indications of the presence of mold, nor did EFI Global, Inc. observe obvious indications of significant water damage. No sampling was conducted as part of this assessment.

7.6 Methane Gas

In response to growing concern regarding methane intrusion into buildings and to the potential for methane build-up underneath buildings, certain municipalities have established methane requirements for structures based on the proximity to oil wells and landfills. If a subject property is located in the proximity of active or abandoned oil wells or landfills, methane mitigation devices installed prior to construction activities at a subject property may be necessary.

- The City of Los Angeles Department of Building and Safety methane zone data was reviewed to determine if the subject property is located in a methane or methane buffer zone. According to the information reviewed, the subject property is located within a methane buffer zone. According to the *Hazardous Gas Assessment* for the subject property, dated November 25, 2019, methane concentrations in all soil gas samples collected were less than 500 parts per million by volume (ppmv). As the concentration of methane detected onsite is significantly below the Lower Explosive Limit (LEL) of 50,000 ppmv, mitigation is not required for the site development, even though this site is located within a methane buffer zone.

8.0 FINDINGS

EFI Global, Inc. has performed a Phase I Environmental Site Assessment Update (Phase I Update) for 39 South, LLC (Client) for a commercial property located at 1000 and 1006 Seward Street, 6565 Romaine Street, and 1003, 1007, and 1013 North Hudson Avenue, in Los Angeles County, and the City of Los Angeles, California, Assessor's Parcel Numbers: 5533-012-011, 5533-012-012, 5533-012-013, and 5533-012-025. The research conducted for this study and the report prepared are in conformance with the United States Environmental Protection Agency (USEPA) All Appropriate Inquiry (AAI) standard and the American Society for Testing and Materials (ASTM) E 1527-13 scope of work.

8.1 CONCLUSIONS

EFI Global, Inc. has performed a Phase I Environmental Site Assessment Update in conformance with the scope and limitations of ASTM Practice 1527-13, at 1000 and 1006 Seward Street, 6565 Romaine Street, and 1003, 1007, and 1013 North Hudson Avenue, Los Angeles, California, the subject property. Any exceptions to or deletions from this practice are described in the individual sections of this report. This assessment has revealed no evidence of recognized environmental conditions or *de minimis* conditions in connection with the subject property.

Recognized Environmental Condition (REC)

In our opinion, no RECs were identified during the course of this assessment.

Historical Recognized Environmental Condition (HREC)

In our opinion, no HRECs were identified during the course of this assessment.

Controlled Recognized Environmental Condition (CREC)

In our opinion, no CRECs were identified during the course of this assessment.

De Minimis Condition

In our opinion, no *de minimis* conditions were identified during the course of this assessment.

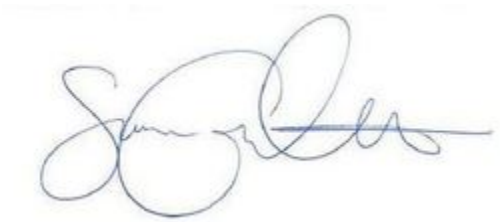

8.2 RECOMMENDATIONS

Based on the foregoing, no additional investigation is recommended at this time.

9.0 SIGNATURES

I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. I have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

Prepared By: Date: June 2, 2020

Susana Corletto
Project Manager

I declare that, to the best of my professional knowledge and belief, I meet the definition of Environmental Professional as defined in § 312.10 of 40 CFR 312. I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. I have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E 2247-16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E 1528-14) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

TARGET PROPERTY INFORMATION

ADDRESS

1013 N HUDSON AVE
LOS ANGELES, CA 90038

COORDINATES

Latitude (North):	34.0891380 - 34° 5' 20.89''
Longitude (West):	118.3326050 - 118° 19' 57.37''

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Federal RCRA generators list

RCRA-LQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

A review of the RCRA-LQG list, as provided by EDR, and dated 12/16/2019 has revealed that there are 2 RCRA-LQG sites within approximately 0.25 miles of the target property.

EXECUTIVE SUMMARY

EPA ID:: CAD099462681

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 12/16/2019 has revealed that there are 19 RCRA-SQG sites within approximately 0.25 miles of the target property.

State- and tribal - equivalent CERCLIS

CA ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the CA ENVIROSTOR list, as provided by EDR, and dated 01/27/2020 has revealed that there are 21 CA ENVIROSTOR sites within approximately 1 mile of the target property.

State and tribal landfill and/or solid waste disposal site lists

CA SWF/LF: The Solid Waste Facilities/Landfill Sites records typically contain an inventory of solid waste disposal facilities or landfills in a particular state. The data come from the Integrated Waste Management Board's Solid Waste Information System (SWIS) database.

A review of the CA SWF/LF list, as provided by EDR, has revealed that there is 1 CA SWF/LF site within approximately 0.5 miles of the target property.

State and tribal leaking storage tank lists

CA LUST: Leaking Underground Storage Tank (LUST) Sites included in GeoTracker. GeoTracker is the Water Boards data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

A review of the CA LUST list, as provided by EDR, has revealed that there are 42 CA LUST sites within approximately 0.5 miles of the target property.

State and tribal registered storage tank lists

CA UST: The Underground Storage Tank database contains registered USTs. USTs are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The data come from the State Water Resources Control Board's Hazardous Substance Storage Container Database.

A review of the CA UST list, as provided by EDR, has revealed that there are 27 CA UST sites within approximately 0.25 miles of the target property.

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 12/16/2019 has revealed that there are 34 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste.

Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

A review of the EDR MGP list, as provided by EDR, has revealed that there is 1 EDR MGP site within approximately 1 mile of the target property.

Lower Elevation	Address	Direction / Distance	Map ID	Page
LOS ANGELES GAS AND	N FORMOSE AVE BTWN R	W 1/2 - 1 (0.738 mi.)	238	698

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there are 7 EDR Hist Auto sites within approximately 0.125 miles of the target property.

EDR Hist Cleaner: EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Cleaner list, as provided by EDR, has revealed that there are 4 EDR Hist Cleaner sites within approximately 0.125 miles of the target property.

Case Type:	Cleanup Program Site
Case Worker:	RO
Local Agency:	Not reported
RB Case Number:	1131
File Location:	Regional Board
Potential Media Affected:	Aquifer used for drinking water supply, Other Groundwater (uses other than drinking water)
Potential Contaminants of Concern:	1,1,1-Trichloroethane (TCA), Acetone, Tetrachloroethylene (PCE), Trichloroethylene (TCE)
Site History:	The site, located at the northwest corner of Seward Street and Barton Avenue in Hollywood, was formerly used for film processing activities from 1926 until 2002. The site was occupied by approximately eleven structures (Buildings 1 through 11), parking lots, and an interior courtyard. Film processing and associated activities were conducted in three main buildings; Buildings 1, 2 and 3. The majority of the chemicals that had been used in film processing were stored in the basement of Buildings 2 and 3. Historically, the chemicals used for film processing included isopropyl alcohol, acetone, 1,1,1-Trichloroethane (1,1,1-TCA), Perchloroethlylene (PCE), ammonium thiosulfate, and proprietary development solutions. The remaining buildings were used as offices and for other purposes, such as general storage, a maintenance shop, an electrical shop, and for archiving films. Buildings 1 through 11 were demolished between April and August of 2005. The site is presently vacant and awaiting commercial redevelopment.

Evaluation:

Eval General Type:	Compliance Evaluation Inspection
Eval Date:	04-26-2016

HOLLYWOOD WELDING WORKS (Continued) **S123543535**

Violations Found:	Yes
Eval Type:	Routine done by local agency
Eval Notes:	On site for routine hazardous materials and business emergency plan inspection. Consent to enter and inspect was given by JOSE RAMOS - Owner. Contact Information: hollywoodwelding@yahoo.com Observed the facility and inspected hazardous materials storage. Annual employee safety training records were not maintained. Facility has also not electronically disclosed the onsite hazardous materials inventory or submitted a business emergency plan in California Environmental Reporting System (CERS). Please go to https://cersbusiness2.calepa.ca.gov to complete a chemical inventory disclosure and business emergency plan. The facility is responsible for identifying all hazardous materials, to include hazardous wastes, which are above disclosure thresholds. If there is a change in the type or amount of chemicals that are maintained on site, please submit revised documents (electronically) within 30 days of the change.

Environmental Interest/Information System:
California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Evaluation:
Eval General Type: Compliance Evaluation Inspection
Eval Date: 04-27-2016
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: INSPECTOR DAVID TU on site for routine hazardous materials and business emergency plan inspection. Consent to enter and inspect was given by GENERAL MANAGER DAVE SLOANE. Observed the facility and inspected hazardous materials storage. Annual employee safety training records were not maintained. Facility has also not electronically disclosed the on site hazardous materials inventory or submitted a business emergency plan in California Environmental Reporting System (CERS). Please go to https://cersbusiness2.calepa.ca.gov to complete a chemical inventory disclosure and business emergency plan. The facility is responsible for identifying all hazardous materials, to include hazardous wastes, which are above disclosure thresholds. If there is a change in the type or amount of chemicals that are maintained on site, please submit revised documents (electronically) within 30 days of the chang

Eval Date:	06-27-2018
Violations Found:	Yes
Eval Type:	Routine done by local agency
Eval Notes:	Inspection Report Consent to enter, inspect and take photographs was given by: Martin Rodriguez Documents uploaded to CERS were reviewed and field verified. The following is a list items that need to be corrected: 1. Update your facility information through CERS fort the current year (2018). 2. CERS submittals are due annually between January 1st and March 1st NOTE: The LAMC, Sections (L.A.M.C. SECTIONS 57.105.1.4; 57.120.3; 57.121.2 and 57.121.2.1.) requires business that store, uses or handle hazardous materials in the City of Los Angeles to obtain a Consolidated Permit from the Los Angeles Fire Department CUPA. To receive a Consolidated Permit you must satisfy the following requirement: **** Annual submission of a hazardous materials business plan to CERS by March 1 of every year. Please remember that any change in inventory of greater than 100 percent will require new submission within 30 days of that change. For new CERS users, please follow the [Truncated]

Facility URL: http://ofmpub.epa.gov/enviro/fii_query_detail.disp_program_facility?p_registry_id=110002613690

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Violation Date: 08-28-2018
Citation: 22 CCR 15 66265.16 - California Code of Regulations, Title 22, Chapter 15, Section(s) 66265.16
Violation Description: Failure to provide employees with hazardous waste training program of class room instructions or on-the-job training within the first six months after the date of their employment or assignment to a facility, or to a new position at a facility and annually thereafter. Training records on current personnel shall be kept until closure of the facility and for former employees the record shall be kept for at least three years from the date the employee last worked at the facility. The records shall include the following: the job title for each position at the facility related to hazardous waste management, and the name of the employee filling each job; a written job description for each position, duties of facility personnel assigned to each position, and a written description of the type and amount of both introductory and continuing training that will be given to each person filling a position.
Violation Notes: Returned to compliance on 10/08/2018. OBSERVATION: Documented training of personnel was not available at the time of inspection. Manifest indicated monthly pick up of approximately 1000 gallons of used oil. CORRECTIVE ACTION: Locate training documentation or conduct training with applicable personnel and document it. Submit a copy of the training documentation via email to the CUPA by 9/20/2018.

HONDA OF HOLLYWOOD (Continued) **U001561484**

Violation Description:	Failure of generator to obtain assessment or reassessment every five (5) years or the remaining service life of the tank system, as stated in the engineer's assessment, whichever is less. This assessment applies to onground or aboveground tank systems containing only non-RCRA hazardous wastes generated onsite, or for a small quantity generator onground or aboveground tank systems containing RCRA hazardous wastes generated onsite.
Violation Notes:	Returned to compliance on 10/18/2018. OBSERVATION: A hazardous waste tank assessment/reassessment has not been conducted for the used oil tank system within 5 years of the previous tank system assessment or within the remaining service life of the tank system as stated in the engineer's report, whichever is less. Observed a 1000 gallon used oil AST at the service area. Service Manager stated they are in the process to get this completed with their consultant. CORRECTIVE ACTION: Obtain a written hazardous waste tank system reassessment for the used oil tank system in accordance with 22 CCR 15 66265.192 and submit a copy to the CUPA via email

Facility URL: http://ofmpub.epa.gov/enviro/fii_query_detail.disp_program_facility?p_registry_id=110002788957

Environmental Interest/Information System:
California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:
California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

STABILE AUTOMOTIVE (Continued) **1004677226**

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Violation Date: 03-14-2019
Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Description: Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.
Violation Notes: Returned to compliance on 04/15/2019. "NOT ACCEPTED: Effective December 28, 2017, CalEPA has replaced the previously existing five federal hazard categories in CERS with twenty-four new federal hazard categories. The following federal hazard categories are now obsolete G fire, reactive, pressure release, acute health, chronic health. A review of your submittal has determined that you still have the previous federal categories selected and/or have NOT selected any of the NEW federal hazard categories for your chemical inventory. Please review your hazardous material inventory and complete the following steps: 1) Deselect all of the five obsolete federal hazard categories for all chemical inventory listed under your facility. 2) Update your hazardous material inventory and select all applicable federal hazard categories from the 24 newly listed categories for all chemical inventory stored at your facility. You may refer to Section 2 of a current Safety Data Sheets (SDS) (previously called an MSDS) to determine [Truncated]

FINDS:
Registry ID: 110002670057
Facility URL: http://ofmpub.epa.gov/enviro/fii_query_detail.disp_program_facility?p_registry_id=110002670057

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Facility URL: http://ofmpub.epa.gov/enviro/fii_query_detail.disp_program_facility?p_registry_id=110002726097

Environmental Interest/Information System:
California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Evaluation:
Eval General Type: Compliance Evaluation Inspection
Eval Date: 06-27-2016
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: On site for routine hazardous materials and business emergency plan inspection. Consent to enter and inspect was given by MICHAEL FINKELSTEIN - OWNER. Observed the facility and inspected hazardous materials storage. Annual employee safety training records were not maintained. Facility has also not electronically disclosed the onsite hazardous materials inventory or submitted a business emergency plan in California Environmental Reporting System (CERS). Please go to https://cersbusiness2.calepa.ca.gov to complete a chemical inventory disclosure and business emergency plan. The facility is responsible for identifying all hazardous materials, to include hazardous wastes, which are above disclosure thresholds. If there is a change in the type or amount of chemicals that are maintained on site, please submit revised documents (electronically)within 30 days of the change.

GOLDEN STATE ENTERPRISES #256886 (Continued) **S123514850**

Violation Description: Failure to comply with one or more of the following: Failure to install or maintain a liquid-tight spill bucket. Have a minimum capacity of five gallons. Have a functional drain valve or other method for the removal of liquid from the spill bucket/spill container. Be resistant to galvanic corrosion.
Violation Notes: Returned to compliance on 04/25/2019. OBSERVATION: Owner/Operator did not install or maintain spill bucket which is liquid-tight, has a minimum capacity of five gallons, has a functional drain valve or other method for the removal of liquid from the spill bucket/spill container, or is resistant to galvanic corrosion. Diesel Spill bucket didn't pass annual certification. CORRECTIVE ACTION: Install or repair spill bucket so that it is liquid-tight, has a minimum capacity of five gallons, has a functional drain valve or other method for the removal of liquid from the spill bucket/spill container, and is resistant to galvanic corrosion. Permit required, can be done with like for like permit, must be witnessed by LAFD. Submit verification.

Citation: HSC 6.7 25290.1(c)(3), 25290.2(c)(3) - California Health and Safety Code, Chapter 6.7, Section(s) 25290.1(c)(3), 25290.2(c)(3)
Violation Description: Failure to keep water out of the secondary containment of UST systems installed on or after July 1, 2003 and before July 1, 2004, or on or after July 1, 2004.
Violation Notes: Returned to compliance on 04/26/2017. OBSERVATION: Liquid was observed in the 87 Fill sump(~1 qt), 89 fill sump (~2 gallons), 89 turbine sump (~1 qt.), 91 fill sump(~1 gallon), diesel fill sump(~1 qt.) & UDC 7/8(~1 cup). If water could enter into the secondary containment by precipitation or infiltration, it must be removed and disposed of properly. CORRECTIVE ACTION: Ensure that the 87 Fill sump, 89 fill sump , 89 turbine sump, 91 fill sump, diesel fill sump & UDC 7/8 are maintained free of liquid.

Violation Description: Failure to comply with one or more of the following overfill prevention equipment requirements: Alert the transfer operator when the tank is 90 percent full by restricting the flow into the tank or triggering an audible and visual alarm; or Restrict delivery of flow to the tank at least 30 minutes before the tank overfills, provided the restriction occurs when the tank is filled to no more than 95 percent of capacity; and activate an audible alarm at least five minutes before the tank overfills; or Provide positive shut-off of flow to the tank when the tank is filled to no more than 95 percent of capacity; or Provide positive shut-off of flow to the tank so that none of the fittings located on the top of the tank are exposed to product due to overfilling. Install/retrofit overfill prevention equipment that does not use flow restrictors on vent piping to meet overfill prevention equipment requirements when the overfill prevention equipment is installed, repaired, or replaced on and after October 1,- 2018. For USTs installed before October 1, 2018, perform an inspection by October 13, 2018 and every 36 months thereafter. For USTs installed on and after October- 1,- 2018, perform an inspection at installation and every 36 months thereafter. Inspected within 30 days after a repair to the overfill prevention equipment. Inspected using an applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer. Inspected by a certified UST service technician. Maintain records of overfill prevention equipment inspection for 36 months.
Violation Notes: Returned to compliance on 04/25/2019. OBSERVATION: Owner/Operator failed to meet one or more of the requirements applicable to overfill prevention equipment. CORRECTIVE ACTION: Maintain overfill prevention system to comply with the deficiencies noted above. Submit verification. *** Ms. Thompson, the Overfill Prevention Equipment Testing was due as of 10-13-2018. Please have your primary means of

Facility URL: http://ofmpub.epa.gov/enviro/fii_query_detail.disp_program_facility?p_registry_id=110012225519

Environmental Interest/Information System:
California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Latitude:	34.086356
Longitude:	-118.333152
Case Type:	Cleanup Program Site
Case Worker:	BA
Local Agency:	Not reported
RB Case Number:	1135
File Location:	Regional Board
Potential Media Affected:	Aquifer used for drinking water supply, Soil, Soil Vapor
Potential Contaminants of Concern:	Benzene, Tetrachloroethylene (PCE), Toluene, Trichloroethylene (TCE), Xylene, Cyanide, Nitrate, Arsenic, Chromium, Diesel
Site History:	The site is owned by Laser-Pacific Media Corporation, a subsidiary of Eastman Kodak Company, and is located on the western side of the 800 block of North Seward Street in Los Angeles, California. The approximately 39,000 sq. ft. site includes three parcels. The northernmost parcel is developed with two buildings located at 823 - 835 North Seward Street. The southern two parcels are used as a parking area but one of the parcels is not owned by Laser-Pacific. The two buildings house a sound editing facility and a motion picture film developing and finishing facility, respectively. The properties and two buildings were developed as a one-story building by Technicolor in 1927 for use as a film laboratory. Use of photofinishing and other chemicals, including halogenated solvents, has been documented for the site. The use of tetrachloroethene (PCE) in a wet-gate printer located at 835 North Seward Street has been documented. According to site investigation reports submitted to the Regional Board, subsurface site investigations have been conducted since 2002. However, a Phase I environmental site assessment (ESA) was reportedly conducted in 1992. The site investigations involved soil gas survey, soil and groundwater sampling and groundwater monitoring well installation and indicated that the soil and groundwater beneath the site are contaminated with PCE, trichloroethene (TCE) and other volatile organic compounds (VOCs), heavy metals, aromatic hydrocarbons such as xylenes, diesel range petroleum hydrocarbons and inorganic anions such as nitrate, cyanide and sulfate. The concentrations of most of the contaminants in the soil matrix are below the Regional Board's soil screening levels. Groundwater monitoring has also been conducted at the site since 2005 and has shown that the concentrations of contaminants are decreasing. The site has been closed with a deed restriction to limit future land use on the property to commercial/industrial.

Eval Date:	05-25-2016
Violations Found:	No
Eval Type:	Routine done by local agency
Eval Notes:	On site for routine hazardous materials and business emergency plan inspection. Consent to enter and inspect was given by (SERGIO RUIZ - PLANT MGR). EMAIL:SXR8728@LAUSD.NET HAZMATS VERIFIED THROUGH CERS WHICH WAS SUBMITTED ON (3/11/2016). INSPECTION DONE AS PER INSTRUCTED BY SUPERVISOR AND CUPA MANAGER Observed the facility and inspected hazardous materials storage. Annual employee safety training records were maintained. The facility is responsible for identifying all hazardous materials, to include hazardous wastes, which are above disclosure thresholds. If there is a change in the type or amount of chemicals that are maintained on site, please submit revised documents (electronically) within 30 days of the change.
Eval Division:	Los Angeles City Fire Department
Eval Program:	HMRRP
Eval Source:	CERS
Eval General Type:	Other/Unknown
Eval Date:	05-06-2019
Violations Found:	Yes
Eval Type:	Other, not routine, done by local agency
Eval Notes:	"Second Notice of Violation Inspection Report Documents uploaded to CERS were reviewed. Indicated previously in this report are violations, originally issued on 4/4/19 that have not been resolved by the original COMPLY BY date. These violations have been re-issued and the violation class upgraded. Review and correct all violations indicated in this report, on or before the new COMPLY BY date associated with each violation. Failure to resolve these violations will result in this facility being subject to formal enforcement. NOTE: The LAMC, Sections (L.A.M.C. SECTIONS 57.105.1.4; 57.120.3; 57.121.2 and 57.121.2.1.) requires businesses that store, use or handle hazardous materials in the City of Los Angeles to obtain a Consolidated Permit from the Los Angeles Fire Department CUPA **** Annual submission of a Hazardous Materials Business Plan into CERS is required between January 1 and March 1 of every year. Please remember

Environmental Interest/Information System:
AIR EMISSIONS CLASSIFICATION UNKNOWN
California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA

ANDERSON PRINTING (Continued) **1000857144**

program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Facility URL: http://ofmpub.epa.gov/enviro/fii_query_detail.disp_program_facility?p_registry_id=110002896493

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Site ID: 145804
CERS ID: 10259425
CERS Description: Hazardous Waste Generator

Violations:
Site ID: 145804
Site Name: QUIXOTE
Violation Date: 09-28-2015
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Description: Failure to properly label hazardous waste accumulation containers with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.
Violation Notes: Returned to compliance on 10/09/2015. OBSERVATION: Three 55 gallon drums with used oil and two 55 gallon drums with unknown waste material are not labeled. All hazardous waste containers shall be marked with the following information: 1) the words G Hazardous WasteG ; 2) name and address of generator; 3) hazardous properties; 4) physical state; 5) composition (contents); 6) accumulation start date. CORRECTIVE ACTION: Immediately label these containers and ensure that all hazardous waste containers are marked with all the required information.

Violations Found:	Yes
Eval Type:	Routine done by local agency
Eval Notes:	INSPECTOR DAVID TU on site for routine hazardous materials and business emergency plan inspection. Consent to enter and inspect was given by NEW OWNER ROBERT KOBRAMAUSIHI. Observed the facility and inspected hazardous materials storage. Annual employee safety training records were not maintained. Facility has also not electronically disclosed the on site hazardous materials inventory or submitted a business emergency plan in California Environmental Reporting System (CERS). Please go to https://cersbusiness2.calepa.ca.gov to complete a chemical inventory disclosure and business emergency plan. The facility is responsible for identifying all hazardous materials, to include hazardous wastes, which are above disclosure thresholds. If there is a change in the type or amount of chemicals that are maintained on site, please submit revised documents (electronically) within 30 days of the chang

Environmental Interest/Information System:
California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

FORMER PACIFIC TITLE AND ART STUDIO (PTAS) (Continued) **S118504513**

Facility Status:	**Open - Eligible for Closure**
Status Date:	11/16/2015
Global Id:	SL0603786691
Lead Agency:	LOS ANGELES RWQCB (REGION 4)
Lead Agency Case Number:	Not reported
Latitude:	34.090493
Longitude:	-118.328047
Case Type:	Cleanup Program Site
Case Worker:	NLA
Local Agency:	Not reported
RB Case Number:	1224
File Location:	Regional Board
Potential Media Affected:	Indoor Air, Other Groundwater (uses other than drinking water), Soil, Soil Vapor
Potential Contaminants of Concern:	* Chlorinated Hydrocarbons, Tetrachloroethylene (PCE)
Site History:	The Site was occupied by a motion picture post-production facility where titles, visual effects and special effects were applied onto motion picture film. The former Pacific Title and Art Studio (PTAS) was a post-production motion picture facility that operated from approximately 1946 to 2009. Operations in the main building included internal film developing and associated film cleaning and optical printing to support post-production processes. The main building housed office space, film developing, printing and film cleaning process units, studios and film viewing theaters. The garage-like structure in the southwest portion of the subject property was used for storage of equipment, paints, janitorial chemicals and other materials. In 2009, the Amidi Group acquired ownership of the property from PTAS for re- development of the main building into an executive office complex. The redevelopment was completed in June 2013.

Name:	FOUNTAIN-VINE PLAZA
Address:	1253 NORTH VINE STREET
City,State,Zip:	HOLLYWOOD, CA 90038
Region:	STATE
Facility Status:	**Completed - Case Closed**
Status Date:	02/08/2016
Global Id:	SL0603734628
Lead Agency:	LOS ANGELES RWQCB (REGION 4)
Lead Agency Case Number:	Not reported
Latitude:	34.0941657505915
Longitude:	-118.327099084854
Case Type:	Cleanup Program Site
Case Worker:	MZ
Local Agency:	Not reported
RB Case Number:	1196
File Location:	Regional Board
Potential Media Affected:	Aquifer used for drinking water supply
Potential Contaminants of Concern:	Tetrachloroethylene (PCE), Trichloroethylene (TCE), Gasoline
Site History:	The southwest corner of the intersection of Fountain Ave and Vine Street contained a former dry cleaning facility and a former gasoline station. The RP has not yet complied with Regional Board requirements to conduct additional soil and groundwater investigations in the northeastern portion of the site..

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.
HAZARDOUS WASTE BIENNIAL REPORTER

PARAGON CLEANERS (Continued) **S107473167**

Potential Media Affected: Aquifer used for drinking water supply, Other Groundwater (uses other than drinking water), Soil, Soil Vapor, Under Investigation
Potential Contaminants of Concern: Tetrachloroethylene (PCE), Trichloroethylene (TCE), Benzene
Site History: Paragon cleaners is located on the northeast corner of the intersection of Vine Street and Fountain Avenue. Ground water has been impacted by the contaminant PCE due to operations at the dry cleaners. The dry cleaner has been in operation since 1961, and in 2006, switched to "green" chemicals. The site owner has been issued a Cleanup and Abatement Order (CAO) from the state for assessment and cleanup.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 01/30/2020

Data Release Frequency: Quarterly

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Date of Government Version: 10/15/1991

Federal Delisted NPL site list

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Federal CERCLIS list

FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 04/03/2019

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Federal RCRA generators list

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

Date of Government Version: 12/16/2019

RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

RCRA-VSQG: RCRA - Very Small Quantity Generators (Formerly Conditionally Exempt Small Quantity Generators)

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

US INST CONTROLS: Institutional Controls Sites List

A listing of sites with institutional controls in place. Institutional controls include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Deed restrictions are generally required as part of the institutional controls.

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

SCRD DRYCLEANERS: State Coalition for Remediation of Drycleaners Listing

The State Coalition for Remediation of Drycleaners was established in 1998, with support from the U.S. EPA Office of Superfund Remediation and Technology Innovation. It is comprised of representatives of states with established drycleaner remediation programs. Currently the member states are Alabama, Connecticut, Florida, Illinois, Kansas, Minnesota, Missouri, North Carolina, Oregon, South Carolina, Tennessee, Texas, and Wisconsin.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing
A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

Data Release Frequency: Varies

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

WASTEWATER PITS: Oil Wastewater Pits Listing
Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water boards review found that more than one-third of the region's active disposal pits are operating without permission.

WDR: Waste Discharge Requirements Listing

In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants
The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

EDR Hist Cleaner: EDR Exclusive Historical Cleaners

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

045.03427 SEWARD, ROMAINE AND HUDSON
1013 N HUDSON AVE
LOS ANGELES, CA 90038

TARGET PROPERTY COORDINATES

Latitude (North):	34.089138 - 34° 5' 20.90''
Longitude (West):	118.332605 - 118° 19' 57.38''
Universal Tranverse Mercator:	Zone 11
UTM X (Meters):	377058.6
UTM Y (Meters):	3772646.2
Elevation:	293 ft. above sea level

USGS TOPOGRAPHIC MAP

Target Property Map:	5630741 HOLLYWOOD, CA
Version Date:	2012

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

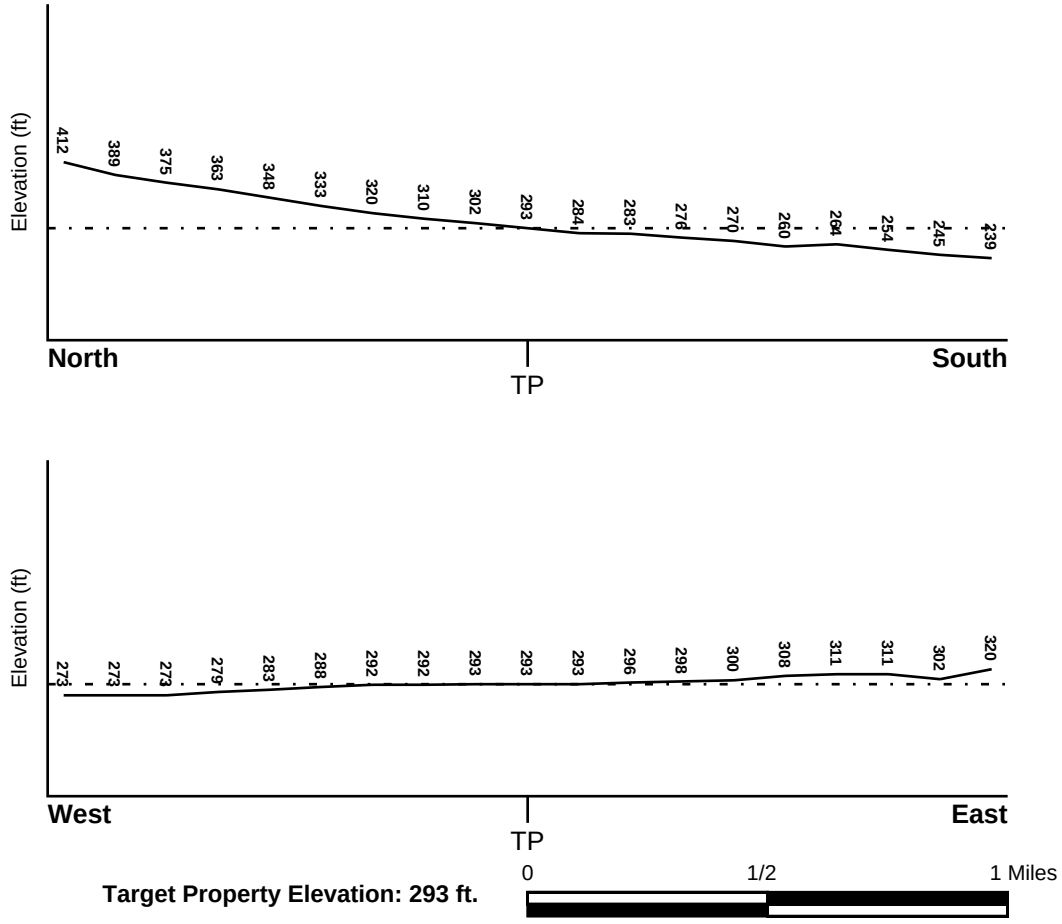

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General South

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

Flood Plain Panel at Target Property	FEMA Source Type
06037C1605F	FEMA FIRM Flood data

Additional Panels in search area:	FEMA Source Type
Not Reported	

NATIONAL WETLAND INVENTORY

NWI Quad at Target Property	NWI Electronic Data Coverage
HOLLYWOOD	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Status:	Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

MAP ID	LOCATION FROM TP	GENERAL DIRECTION GROUNDWATER FLOW
1	0 - 1/8 Mile SW	SW
1G	0 - 1/8 Mile SW	SW

For additional site information, refer to Physical Setting Source Map Findings.

* ©1996 Site−specific hydrogeological data gathered by CERCLIS Alerts, Inc., Bainbridge Island, WA. All rights reserved. All of the information and opinions presented are those of the cited EPA report(s), which were completed under a Comprehensive Environmental Response Compensation and Liability Information System (CERCLIS) investigation.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

ROCK STRATIGRAPHIC UNIT

Era:	Cenozoic
System:	Quaternary
Series:	Quaternary
Code:	Q *(decoded above as Era, System & Series)*

GEOLOGIC AGE IDENTIFICATION

Category: Stratifed Sequence

Geologic Age and Rock Stratigraphic Unit Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - a digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps. The following information is based on Soil Conservation Service STATSGO data.

Soil Component Name: URBAN LAND

Soil Surface Texture: variable

Hydrologic Group: Not reported

Soil Drainage Class: Not reported

Hydric Status: Soil does not meet the requirements for a hydric soil.

Corrosion Potential - Uncoated Steel: Not Reported

Depth to Bedrock Min: > 10 inches

Depth to Bedrock Max: > 10 inches

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Layer Information							
	Boundary			Classification			
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil	Permeability Rate (in/hr)	Soil Reaction (pH)
1	0 inches	6 inches	variable	Not reported	Not reported	Max: 0.00 Min: 0.00	Max: 0.00 Min: 0.00

OTHER SOIL TYPES IN AREA

Based on Soil Conservation Service STATSGO data, the following additional subordinant soil types may appear within the general area of target property.

Soil Surface Textures:
sandy loam
gravelly - sandy loam
silt loam
clay
fine sand
gravelly - sand
sand
fine sandy loam

Surficial Soil Types:
sandy loam
gravelly - sandy loam
silt loam
clay
fine sand
gravelly - sand
sand
fine sandy loam

Shallow Soil Types:
fine sandy loam
gravelly - loam
sandy clay
sandy clay loam
clay
silty clay
sand

Deeper Soil Types:
gravelly - sandy loam
sandy loam
very gravelly - sandy loam
stratified
very fine sandy loam
weathered bedrock
sand
gravelly - fine sandy loam
silty clay loam
clay loam

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map
Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.
Source: FEMA
Telephone: 877-336-2627
Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory
Source: Department of Fish and Wildlife
Telephone: 916-445-0411

HYDROGEOLOGIC INFORMATION

AQUIFLOW^{R} Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

STATE RECORDS

Water Well Database
Source: Department of Water Resources
Telephone: 916-651-9648

California Drinking Water Quality Database
Source: Department of Public Health
Telephone: 916-324-2319
The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

OTHER STATE DATABASE INFORMATION

California Oil and Gas Well Locations
Source: Dept of Conservation, Geologic Energy Management Division
Telephone: 916-323-1779
Oil and Gas well locations in the state.

California Earthquake Fault Lines
Source: California Division of Mines and Geology
The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

RADON

State Database: CA Radon
Source: Department of Public Health
Telephone: 916-210-8558
Radon Database for California

Area Radon Information
Source: USGS
Telephone: 703-356-4020
The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

EPA Radon Zones
Source: EPA
Telephone: 703-356-4020
Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

OTHER

Airport Landing Facilities: Private and public use landing facilities
Source: Federal Aviation Administration, 800-457-6656

Epicenters: World earthquake epicenters, Richter 5 or greater
Source: Department of Commerce, National Oceanic and Atmospheric Administration

California Earthquake Fault Lines: The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines, prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

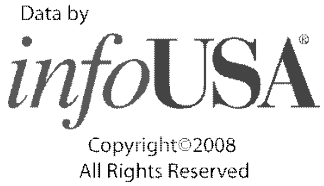

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1920 through 2014. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

A summary of the information obtained is provided in the text of this report.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

EDR Inquiry # 4348706.3

Contact: Lauren Sagun

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Andersen Environmental were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

PermitReport™

PERMIT DEFINITIONS

Building Permit

A permit is required to build, remodel, repair, demolish, remove or move any building or structure. A separate permit is required for each separate building or structure. Examples of work that requires a permit: roofing, stucco, window, and door change-out, drywall replacement, installation of security bars, fire damage repairs, chimney repairs, and anchor bolting/bracing foundation (Los Angeles Municipal Code Section 91.106).

Certificate of Occupancy

A Certificate of Occupancy is issued pursuant to a building permit for new construction, additions, and changes of occupancy after all the necessary construction has been approved by the inspector. It is evidence that the Department of Building and Safety has determined that the construction was done according to the requirements of the code for the given occupancy to be housed in the building. Not all construction work receives a C of O, only when square footage is being added. For new construction, the C of O is automatically issued following the final inspection. For older construction, a C of O may not be on file and would require special attention (http://www.ladbs.org/faq/faq.htm).

Prior to 1930

Certificates were NOT issued for any structure or building

In 1930

The Department started issuing Certificates of Compliance for all theatres, hospital, schools, and garages.

In 1943

The Municipal Code was changed so as to require that a Certificates of Occupancy be issued for all categories with the exception of dwellings.

In 1946

In compliance with zoning regulations, the code was again changed to require all new buildings and existing buildings with new occupancy designation, except R-1 Occupancies & accessory buildings

www.thepermitreport.com

PermitReport™

Mechanical (HVAC) Permit*
An HVAC permit is required to install, alter, repair, relocate, replace or add any heating, ventilating, or air-conditioning equipment. A permit shall be obtained for all heating, ventilating, air-conditioning or refrigeration equipment or other miscellaneous heat-producing appliances moved with, or installed in, a relocated building in the City (Los Angeles Municipal Code Section 95.0112).

Electrical Permit*
An electrical permit is required for electrical wiring. No person shall install, alter, reconstruct or repair any electrical wiring unless a permit has been obtained from the Department except as provided by your local city code (Los Angeles Municipal Code Section 93.0201).

Plumbing Permit*
A plumbing permit is required to add, alter, construct, install, move, relocate, remove, reconstruct, repair, or replace any plumbing, rainwater piping, subsurface drainage piping, swimming pool piping, reclaimed, water piping, or greywater piping. A permit shall be required where the Department has determined that the gas piping shall be retested for the following:

1. The system has been out of service for a period of one year
2. Where the Department had determined there is system leakage creating an immediate hazard to persons or property (Los Angeles Municipal Code Section 94.103.1).

Sewer Permit
Sewer Permits are issued to private individuals or contractors to connect to an existing house connection sewer or to facilitate the construction of a house connection sewer.

There are two types of sewer connection:

1. Property Line Connection: (requires Building & Safety inspection). This may be a new connection or reconnection to a house connection sewer located at the property line.
2. Main Line Connection: (requires Public Works inspection). This type of connection is required when the house connection sewer extending to the property line does not exist. To extend a sewer line from the property line to the City's main sewer, a bonded sewer contractor must perform the work (Los Angeles City - Department of Public Works - Bureau of Engineering).

www.thepermitreport.com

PermitReport™

Grading Permit
A grading permit is required to import or export any earth material to or from any grading site. A grading permit is also required to perform any grading within areas designated "hillside" (Los Angeles Municipal Code Section 91.106).

Plot Plans
A plot plan is a scale drawing of your property that shows the size and configuration of your property and the size and location of manmade features (building, driveways, and sidewalks) on the property. Plot plans show what currently exists on your property as well as physical changes you wish to make.

Who Governs Construction Standards?
The International Conference of Building Officials publishes a set of uniform codes to help assure that the buildings in which we live and work are built appropriately. These codes establish minimum standards to help safeguard life, limb, health and public welfare by regulating and controlling the design, construction, materials and location of buildings.

The previous sections contain some general background information on certain subjects that can help you better comprehend the process involved. Because the permit process varies among jurisdictions, the information provided is generalized and not specific to a particular situation.

PermitReport™

Potential Limitations of Permits

There are hundreds of county and city level jurisdictions in California. Each tends to use slightly different methods of requiring, processing, storing, and making permits available. Jurisdictional records may be incomplete because permits were not obtained, are filed in a different department, were lost, misplaced or even discarded. Therefore, the absence of a building permit does not necessarily mean that construction was done without a permit. The mere presence of a building permit does not necessarily mean that construction took place or was properly accomplished either.

If permits are found, they must be examined and analyzed. It's not uncommon for property owners to obtain permits and then simply not build. Such permits may give the impression that remodeling or changes were made to property that was never done. Sometimes permits are obtained and owners do not have proper inspections. In some cases, permits are not "sign-offs". Sometimes a passing final inspection may be recorded on the back of the permit. When the permit is microfilmed for storage, the back of the permit may not be included. In those cases, we have no information as to whether the permit was finalized or not.

When analyzing a permit, remember that older homes may not "conform" to current codes and building requirements, but this does not necessarily mean that the home is in "non-compliance". Minimum building and construction standards are revised and changed over time as new information, materials, and methods of construction are developed. An older home, addition, or remodel may have been built in compliance with an older set of building standards. In this case, the home is said to be "non-conforming". It does not necessarily mean there is anything wrong with the quality of the home. If a construction project or home is said to be in "non-compliance", it means the work was not done according to the minimum code that was current when the work was undertaken.

PermitReport™

Terms, Conditions and Limitations of Liability

The Permit Report ("Report") was prepared by The Permit Report, LLC., a California limited liability company solely for and may be used only in connection with the transaction presently contemplated between this buyer and this seller relating to the property address ("Property") and assessor's parcel number ("APN") furnished to The Permit Report as shown on page 1 of the Report. This Report is subject to these terms, conditions and limitations of liability. The Seller or seller's agent is responsible for verifying the accuracy of the property address and APN within five (5) days of receipt of this Report. Upon notification of an inaccurate address or APN within said 5-day period, The Permit Report will issue a replacement report. The information contained in this Report is based on those documents available on the date shown on page 1 of this Report and is valid only as of the date shown on page 1 of this Report. The Permit Report will not be liable for documents which are not contained in the governmental or public files and records for the Property on the date of the Report.

GOVERNMENTAL OR PUBLIC FILES MAY NOT CONTAIN ALL PERMITS PERTAINING TO THAT SUBJECT PROPERTY AT THE TIME OF THE SEARCH, THEREFOR THE PERMIT REPORT, INC. IS NOT RESPONSIBLE OR LIABLE FOR ANY PERMIT THAT CAN NOT BE FOUND AT THE TIME OF THE PERMIT SEARCH.

This Report is for the exclusive use and reliance of the buyer, seller, listing agent/broker and selling agent/broker, if any, involved in the current transaction. This Report is not intended to be and may not be used for any other purposes, including but not limited to appraisal or valuation of the Property or a certificate that the Property complies with current laws, statutes, regulations and codes. This Report may not be used by or relied upon by any other parties, including but not limited to lenders or subsequent buyers of the Property. There shall be no third party beneficiaries to this Report regardless of their relationship with or to the buyer, the seller, the listing agent/broker, the selling agent/broker or the Property. The Permit Report makes no representations, promises or covenants as to the Report's effect on the value of the Property as a result of the various items contained in this Report.

The information provided in this Report is time-sensitive and may be considered accurate only as of the date shown on page 1 of this Report. Governmental actions occurring after the date shown on page 1 of this Report are not disclosed. Additional items, including but not limited to permits, applications, violations and/or city approved changes, not available from governmental agencies or public records as of the date shown on page 1 of this Report are not disclosed. The Permit Report shall have no duty or obligation to inform the buyer, the seller or their respective agents/brokers of any changes or governmental actions pertaining to or affecting the Property which become effective after the date shown on page 1 of this Report.

The Permit Report has relied solely upon records, statutes and information specifically referred to in this Report for preparation of this Report. The records and information were supplied by various governmental or public agencies. The Permit Report has assumed that the records and information supplied by various governmental and public agencies are complete and accurate. Consequently, The Permit Report shall not be responsible for any inaccuracies or omissions in governmental or public records or in information reported by various governmental or public agencies. No physical inspection of the Property has been made for purposes of preparing this Report.

Under no circumstances will The Permit Report be responsible for errors in the data obtained from governmental or public agencies. The Permit Report recommends that if any party to this transaction has any concerns or questions regarding information contained in this Report, they contact the appropriate governmental, public, local or state agencies.

ACCEPTANCE OR USE OF THIS REPORT, OR EXECUTION BY THE BUYER, SELLER, OR THEIR RESPECTIVE AGENTS, CONSTITUTES APPROVAL AND ACCEPTANCE OF THE TERMS, CONDITIONS, AND LIMITATIONS STATED HEREIN. The Permit Report SHALL NOT BE LIABLE FOR LOST PROFITS, DIMINUTION IN PROPERTY VALUE OR ANY INDIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES IN CONNECTION WITH, OR ARISING OUT OF, THE PREPARATION, ISSUANCE, OR USE OF THIS REPORT.

DEPARTMENT OF BUILDING AND SAFETY

Application for the Erection of Frame Buildings

CLASS "D"

To the Board of Building and Safety Commissioners of the City of Los Angeles:

Application is hereby made to the Board of Building and Safety Commissioners of the City of Los Angeles, through the office of the Superintendent of Building, for a building permit in accordance with the description and for the purpose hereinafter set forth. This application is made subject to the following conditions, which are hereby agreed to by the undersigned applicant and which shall be deemed conditions entering into the exercise of the permit:

First: That the permit does not grant any right or privilege to erect any building or other structure therein described, or any portion thereof, upon any street, alley, or other public place or portion thereof.

Second: That the permit does not grant any right or privilege to use any building or other structure therein described, or any portion thereof, for any purpose that is, or may hereafter be prohibited by ordinance of the City of Los Angeles.

Third: That the granting of the permit does not affect or prejudice any claim of title to, or right of possession in, the property described in such permit.

DEPARTMENT OF BUILDINGS

Application for the Erection of Frame Buildings

CLASS "D"

To the Board of Public Works of the City of Los Angeles:

Application is hereby made to the Board of Public Works of the City of Los Angeles, through the office of the Chief Inspector of Buildings, for a building permit in accordance with the description and for the purpose hereinafter set forth. This application is made subject to the following conditions, which are hereby agreed to by the undersigned applicant and which shall be deemed conditions entering into the exercise of the permit:

First That the permit does not grant any right or privilege to erect any building or other structure therein described, or any portion thereof, upon any street, alley, or other public place or portion thereof.

Second That the permit does not grant any right or privilege to use any building or other structure therein described, or any portion thereof, for any purpose that is or may hereafter be prohibited by ordinance of the City of Los Angeles.

Third That the granting of the permit does not affect or prejudice any claim of title to, or right of possession in, the property described in such permit.

PermitReport™

PERMIT DEFINITIONS

Building Permit

A permit is required to build, remodel, repair, demolish, remove or move any building or structure. A separate permit is required for each separate building or structure. Examples of work that requires a permit: roofing, stucco, window, and door change-out, drywall replacement, installation of security bars, fire damage repairs, chimney repairs, and anchor bolting/bracing foundation (Los Angeles Municipal Code Section 91.106).

Certificate of Occupancy

A Certificate of Occupancy is issued pursuant to a building permit for new construction, additions, and changes of occupancy after all the necessary construction has been approved by the inspector. It is evidence that the Department of Building and Safety has determined that the construction was done according to the requirements of the code for the given occupancy to be housed in the building. Not all construction work receives a C of O, only when square footage is being added. For new construction, the C of O is automatically issued following the final inspection. For older construction, a C of O may not be on file and would require special attention (http://www.ladbs.org/faq/faq.htm).

Prior to 1930

Certificates were NOT issued for any structure or building

In 1930

The Department started issuing Certificates of Compliance for all theatres, hospital, schools, and garages.

In 1943

The Municipal Code was changed so as to require that a Certificates of Occupancy be issued for all categories with the exception of dwellings.

In 1946

In compliance with zoning regulations, the code was again changed to require all new buildings and existing buildings with new occupancy designation, except R-1 Occupancies & accessory buildings

PermitReport™

Mechanical (HVAC) Permit*
An HVAC permit is required to install, alter, repair, relocate, replace or add any heating, ventilating, or air-conditioning equipment. A permit shall be obtained for all heating, ventilating, air-conditioning or refrigeration equipment or other miscellaneous heat-producing appliances moved with, or installed in, a relocated building in the City (Los Angeles Municipal Code Section 95.0112).

Electrical Permit*
An electrical permit is required for electrical wiring. No person shall install, alter, reconstruct or repair any electrical wiring unless a permit has been obtained from the Department except as provided by your local city code (Los Angeles Municipal Code Section 93.0201).

Plumbing Permit*
A plumbing permit is required to add, alter, construct, install, move, relocate, remove, reconstruct, repair, or replace any plumbing, rainwater piping, subsurface drainage piping, swimming pool piping, reclaimed, water piping, or greywater piping. A permit shall be required where the Department has determined that the gas piping shall be retested for the following:

1. The system has been out of service for a period of one year
2. Where the Department had determined there is system leakage creating an immediate hazard to persons or property (Los Angeles Municipal Code Section 94.103.1).

Sewer Permit
Sewer Permits are issued to private individuals or contractors to connect to an existing house connection sewer or to facilitate the construction of a house connection sewer.

There are two types of sewer connection:

1. Property Line Connection: (requires Building & Safety inspection). This may be a new connection or reconnection to a house connection sewer located at the property line.
2. Main Line Connection: (requires Public Works inspection). This type of connection is required when the house connection sewer extending to the property line does not exist. To extend a sewer line from the property line to the City's main sewer, a bonded sewer contractor must perform the work (Los Angeles City - Department of Public Works - Bureau of Engineering).

www.thepermitreport.com

PermitReport™

Grading Permit
A grading permit is required to import or export any earth material to or from any grading site. A grading permit is also required to perform any grading within areas designated "hillside" (Los Angeles Municipal Code Section 91.106).

Plot Plans
A plot plan is a scale drawing of your property that shows the size and configuration of your property and the size and location of manmade features (building, driveways, and sidewalks) on the property. Plot plans show what currently exists on your property as well as physical changes you wish to make.

Who Governs Construction Standards?
The International Conference of Building Officials publishes a set of uniform codes to help assure that the buildings in which we live and work are built appropriately. These codes establish minimum standards to help safeguard life, limb, health and public welfare by regulating and controlling the design, construction, materials and location of buildings.

The previous sections contain some general background information on certain subjects that can help you better comprehend the process involved. Because the permit process varies among jurisdictions, the information provided is generalized and not specific to a particular situation.

PermitReport™

Potential Limitations of Permits

There are hundreds of county and city level jurisdictions in California. Each tends to use slightly different methods of requiring, processing, storing, and making permits available. Jurisdictional records may be incomplete because permits were not obtained, are filed in a different department, were lost, misplaced or even discarded. Therefore, the absence of a building permit does not necessarily mean that construction was done without a permit. The mere presence of a building permit does not necessarily mean that construction took place or was properly accomplished either.

If permits are found, they must be examined and analyzed. It's not uncommon for property owners to obtain permits and then simply not build. Such permits may give the impression that remodeling or changes were made to property that was never done. Sometimes permits are obtained and owners do not have proper inspections. In some cases, permits are not "sign-offs". Sometimes a passing final inspection may be recorded on the back of the permit. When the permit is microfilmed for storage, the back of the permit may not be included. In those cases, we have no information as to whether the permit was finalized or not.

When analyzing a permit, remember that older homes may not "conform" to current codes and building requirements, but this does not necessarily mean that the home is in "non-compliance". Minimum building and construction standards are revised and changed over time as new information, materials, and methods of construction are developed. An older home, addition, or remodel may have been built in compliance with an older set of building standards. In this case, the home is said to be "non-conforming". It does not necessarily mean there is anything wrong with the quality of the home. If a construction project or home is said to be in "non-compliance", it means the work was not done according to the minimum code that was current when the work was undertaken.

PermitReport™

Terms, Conditions and Limitations of Liability

The Permit Report ("Report") was prepared by The Permit Report, LLC., a California limited liability company solely for and may be used only in connection with the transaction presently contemplated between this buyer and this seller relating to the property address ("Property") and assessor's parcel number ("APN") furnished to The Permit Report as shown on page 1 of the Report. This Report is subject to these terms, conditions and limitations of liability. The Seller or seller's agent is responsible for verifying the accuracy of the property address and APN within five (5) days of receipt of this Report. Upon notification of an inaccurate address or APN within said 5-day period, The Permit Report will issue a replacement report. The information contained in this Report is based on those documents available on the date shown on page 1 of this Report and is valid only as of the date shown on page 1 of this Report. The Permit Report will not be liable for documents which are not contained in the governmental or public files and records for the Property on the date of the Report.

GOVERNMENTAL OR PUBLIC FILES MAY NOT CONTAIN ALL PERMITS PERTAINING TO THAT SUBJECT PROPERTY AT THE TIME OF THE SEARCH, THEREFOR THE PERMIT REPORT, INC. IS NOT RESPONSIBLE OR LIABLE FOR ANY PERMIT THAT CAN NOT BE FOUND AT THE TIME OF THE PERMIT SEARCH.

This Report is for the exclusive use and reliance of the buyer, seller, listing agent/broker and selling agent/broker, if any, involved in the current transaction. This Report is not intended to be and may not be used for any other purposes, including but not limited to appraisal or valuation of the Property or a certificate that the Property complies with current laws, statutes, regulations and codes. This Report may not be used by or relied upon by any other parties, including but not limited to lenders or subsequent buyers of the Property. There shall be no third party beneficiaries to this Report regardless of their relationship with or to the buyer, the seller, the listing agent/broker, the selling agent/broker or the Property. The Permit Report makes no representations, promises or covenants as to the Report's effect on the value of the Property as a result of the various items contained in this Report.

The information provided in this Report is time-sensitive and may be considered accurate only as of the date shown on page 1 of this Report. Governmental actions occurring after the date shown on page 1 of this Report are not disclosed. Additional items, including but not limited to permits, applications, violations and/or city approved changes, not available from governmental agencies or public records as of the date shown on page 1 of this Report are not disclosed. The Permit Report shall have no duty or obligation to inform the buyer, the seller or their respective agents/brokers of any changes or governmental actions pertaining to or affecting the Property which become effective after the date shown on page 1 of this Report.

The Permit Report has relied solely upon records, statutes and information specifically referred to in this Report for preparation of this Report. The records and information were supplied by various governmental or public agencies. The Permit Report has assumed that the records and information supplied by various governmental and public agencies are complete and accurate. Consequently, The Permit Report shall not be responsible for any inaccuracies or omissions in governmental or public records or in information reported by various governmental or public agencies. No physical inspection of the Property has been made for purposes of preparing this Report.

Under no circumstances will The Permit Report be responsible for errors in the data obtained from governmental or public agencies. The Permit Report recommends that if any party to this transaction has any concerns or questions regarding information contained in this Report, they contact the appropriate governmental, public, local or state agencies.

ACCEPTANCE OR USE OF THIS REPORT, OR EXECUTION BY THE BUYER, SELLER, OR THEIR RESPECTIVE AGENTS, CONSTITUTES APPROVAL AND ACCEPTANCE OF THE TERMS, CONDITIONS, AND LIMITATIONS STATED HEREIN. The Permit Report SHALL NOT BE LIABLE FOR LOST PROFITS, DIMINUTION IN PROPERTY VALUE OR ANY INDIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES IN CONNECTION WITH, OR ARISING OUT OF, THE PREPARATION, ISSUANCE, OR USE OF THIS REPORT.

REMARKS

The building referred to in this application will be more than 100 feet from [illegible] Blvd Street

Owner or Authorized Agent

Thomas Mack

PermitReport™

PERMIT DEFINITIONS

Building Permit

A permit is required to build, remodel, repair, demolish, remove or move any building or structure. A separate permit is required for each separate building or structure. Examples of work that requires a permit: roofing, stucco, window, and door change-out, drywall replacement, installation of security bars, fire damage repairs, chimney repairs, and anchor bolting/bracing foundation (Los Angeles Municipal Code Section 91.106).

Certificate of Occupancy

A Certificate of Occupancy is issued pursuant to a building permit for new construction, additions, and changes of occupancy after all the necessary construction has been approved by the inspector. It is evidence that the Department of Building and Safety has determined that the construction was done according to the requirements of the code for the given occupancy to be housed in the building. Not all construction work receives a C of O, only when square footage is being added. For new construction, the C of O is automatically issued following the final inspection. For older construction, a C of O may not be on file and would require special attention (http://www.ladbs.org/faq/faq.htm).

Prior to 1930

Certificates were NOT issued for any structure or building

In 1930

The Department started issuing Certificates of Compliance for all theatres, hospital, schools, and garages.

In 1943

The Municipal Code was changed so as to require that a Certificates of Occupancy be issued for all categories with the exception of dwellings.

In 1946

In compliance with zoning regulations, the code was again changed to require all new buildings and existing buildings with new occupancy designation, except R-1 Occupancies & accessory buildings

PermitReport™

Mechanical (HVAC) Permit*
An HVAC permit is required to install, alter, repair, relocate, replace or add any heating, ventilating, or air-conditioning equipment. A permit shall be obtained for all heating, ventilating, air-conditioning or refrigeration equipment or other miscellaneous heat-producing appliances moved with, or installed in, a relocated building in the City (Los Angeles Municipal Code Section 95.0112).

Electrical Permit*
An electrical permit is required for electrical wiring. No person shall install, alter, reconstruct or repair any electrical wiring unless a permit has been obtained from the Department except as provided by your local city code (Los Angeles Municipal Code Section 93.0201).

Plumbing Permit*
A plumbing permit is required to add, alter, construct, install, move, relocate, remove, reconstruct, repair, or replace any plumbing, rainwater piping, subsurface drainage piping, swimming pool piping, reclaimed, water piping, or greywater piping. A permit shall be required where the Department has determined that the gas piping shall be retested for the following:

1. The system has been out of service for a period of one year
2. Where the Department had determined there is system leakage creating an immediate hazard to persons or property (Los Angeles Municipal Code Section 94.103.1).

Sewer Permit
Sewer Permits are issued to private individuals or contractors to connect to an existing house connection sewer or to facilitate the construction of a house connection sewer.

There are two types of sewer connection:

1. Property Line Connection: (requires Building & Safety inspection). This may be a new connection or reconnection to a house connection sewer located at the property line.
2. Main Line Connection: (requires Public Works inspection). This type of connection is required when the house connection sewer extending to the property line does not exist. To extend a sewer line from the property line to the City's main sewer, a bonded sewer contractor must perform the work (Los Angeles City - Department of Public Works - Bureau of Engineering).

www.thepermitreport.com

PermitReport™

Grading Permit
A grading permit is required to import or export any earth material to or from any grading site. A grading permit is also required to perform any grading within areas designated "hillside" (Los Angeles Municipal Code Section 91.106).

Plot Plans
A plot plan is a scale drawing of your property that shows the size and configuration of your property and the size and location of manmade features (building, driveways, and sidewalks) on the property. Plot plans show what currently exists on your property as well as physical changes you wish to make.

Who Governs Construction Standards?
The International Conference of Building Officials publishes a set of uniform codes to help assure that the buildings in which we live and work are built appropriately. These codes establish minimum standards to help safeguard life, limb, health and public welfare by regulating and controlling the design, construction, materials and location of buildings.

The previous sections contain some general background information on certain subjects that can help you better comprehend the process involved. Because the permit process varies among jurisdictions, the information provided is generalized and not specific to a particular situation.

PermitReport™

Potential Limitations of Permits

There are hundreds of county and city level jurisdictions in California. Each tends to use slightly different methods of requiring, processing, storing, and making permits available. Jurisdictional records may be incomplete because permits were not obtained, are filed in a different department, were lost, misplaced or even discarded. Therefore, the absence of a building permit does not necessarily mean that construction was done without a permit. The mere presence of a building permit does not necessarily mean that construction took place or was properly accomplished either.

If permits are found, they must be examined and analyzed. It's not uncommon for property owners to obtain permits and then simply not build. Such permits may give the impression that remodeling or changes were made to property that was never done. Sometimes permits are obtained and owners do not have proper inspections. In some cases, permits are not "sign-offs". Sometimes a passing final inspection may be recorded on the back of the permit. When the permit is microfilmed for storage, the back of the permit may not be included. In those cases, we have no information as to whether the permit was finalized or not.

When analyzing a permit, remember that older homes may not "conform" to current codes and building requirements, but this does not necessarily mean that the home is in "non-compliance". Minimum building and construction standards are revised and changed over time as new information, materials, and methods of construction are developed. An older home, addition, or remodel may have been built in compliance with an older set of building standards. In this case, the home is said to be "non-conforming". It does not necessarily mean there is anything wrong with the quality of the home. If a construction project or home is said to be in "non-compliance", it means the work was not done according to the minimum code that was current when the work was undertaken.

PermitReport™

Terms, Conditions and Limitations of Liability

The Permit Report ("Report") was prepared by The Permit Report, LLC., a California limited liability company solely for and may be used only in connection with the transaction presently contemplated between this buyer and this seller relating to the property address ("Property") and assessor's parcel number ("APN") furnished to The Permit Report as shown on page 1 of the Report. This Report is subject to these terms, conditions and limitations of liability. The Seller or seller's agent is responsible for verifying the accuracy of the property address and APN within five (5) days of receipt of this Report. Upon notification of an inaccurate address or APN within said 5-day period, The Permit Report will issue a replacement report. The information contained in this Report is based on those documents available on the date shown on page 1 of this Report and is valid only as of the date shown on page 1 of this Report. The Permit Report will not be liable for documents which are not contained in the governmental or public files and records for the Property on the date of the Report.

GOVERNMENTAL OR PUBLIC FILES MAY NOT CONTAIN ALL PERMITS PERTAINING TO THAT SUBJECT PROPERTY AT THE TIME OF THE SEARCH, THEREFOR THE PERMIT REPORT, INC. IS NOT RESPONSIBLE OR LIABLE FOR ANY PERMIT THAT CAN NOT BE FOUND AT THE TIME OF THE PERMIT SEARCH.

This Report is for the exclusive use and reliance of the buyer, seller, listing agent/broker and selling agent/broker, if any, involved in the current transaction. This Report is not intended to be and may not be used for any other purposes, including but not limited to appraisal or valuation of the Property or a certificate that the Property complies with current laws, statutes, regulations and codes. This Report may not be used by or relied upon by any other parties, including but not limited to lenders or subsequent buyers of the Property. There shall be no third party beneficiaries to this Report regardless of their relationship with or to the buyer, the seller, the listing agent/broker, the selling agent/broker or the Property. The Permit Report makes no representations, promises or covenants as to the Report's effect on the value of the Property as a result of the various items contained in this Report.

The information provided in this Report is time-sensitive and may be considered accurate only as of the date shown on page 1 of this Report. Governmental actions occurring after the date shown on page 1 of this Report are not disclosed. Additional items, including but not limited to permits, applications, violations and/or city approved changes, not available from governmental agencies or public records as of the date shown on page 1 of this Report are not disclosed. The Permit Report shall have no duty or obligation to inform the buyer, the seller or their respective agents/brokers of any changes or governmental actions pertaining to or affecting the Property which become effective after the date shown on page 1 of this Report.

The Permit Report has relied solely upon records, statutes and information specifically referred to in this Report for preparation of this Report. The records and information were supplied by various governmental or public agencies. The Permit Report has assumed that the records and information supplied by various governmental and public agencies are complete and accurate. Consequently, The Permit Report shall not be responsible for any inaccuracies or omissions in governmental or public records or in information reported by various governmental or public agencies. No physical inspection of the Property has been made for purposes of preparing this Report.

Under no circumstances will The Permit Report be responsible for errors in the data obtained from governmental or public agencies. The Permit Report recommends that if any party to this transaction has any concerns or questions regarding information contained in this Report, they contact the appropriate governmental, public, local or state agencies.

ACCEPTANCE OR USE OF THIS REPORT, OR EXECUTION BY THE BUYER, SELLER, OR THEIR RESPECTIVE AGENTS, CONSTITUTES APPROVAL AND ACCEPTANCE OF THE TERMS, CONDITIONS, AND LIMITATIONS STATED HEREIN. The Permit Report SHALL NOT BE LIABLE FOR LOST PROFITS, DIMINUTION IN PROPERTY VALUE OR ANY INDIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES IN CONNECTION WITH, OR ARISING OUT OF, THE PREPARATION, ISSUANCE, OR USE OF THIS REPORT.

(X) I have and will maintain workers' compensation insurance, as required by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number are:

Carrier: STATE COMP. INS. FUND Policy Number: 9040181

( ) I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California, and agree that if I should become subject to the workers' compensation provisions of Section 3700 of the Labor Code, I shall forthwith comply with those provisions.

WARNING: FAILURE TO SECURE WORKERS' COMPENSATION COVERAGE IS UNLAWFUL, AND SHALL SUBJECT AN EMPLOYER TO CRIMINAL PENALTIES AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS ($100,000), IN ADDITION TO THE COST OF COMPENSATION, DAMAGES AS PROVIDED FOR IN SECTION 3706 OF THE LABOR CODE, INTEREST, AND ATTORNEY'S FEES.

19. ASBESTOS REMOVAL DECLARATION / LEAD HAZARD WARNING

I certify that notification of asbestos removal is either not applicable or has been submitted to the AQMD or EPA as per section 19827.5 of the Health and Safety Code. Information is available at (909) 396-2336 and the notification form at www.aqmd.gov. Lead safe construction practices are required when doing repairs that disturb paint in pre-1978 buildings due to the presence of lead per section 6716 and 6717 of the Labor Code. Information is available at Health Services for LA County at (800) 524-5323 or the State of California at (800) 597-5323 or www.dhs.ca.gov/childlead.

20. CONSTRUCTION LENDING AGENCY DECLARATION

I hereby affirm under penalty of perjury that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Civil Code).

Lender's Name (If Any): _____ Lender's Address: _____

21. FINAL DECLARATION

I certify that I have read this application **INCLUDING THE ABOVE DECLARATIONS** and state that the above information **INCLUDING THE ABOVE DECLARATIONS** is correct. I agree to comply with all city and county ordinances and state laws relating to building construction, and hereby authorize representatives of this city to enter upon the above-mentioned property for inspection purposes. I realize that this permit is an application for inspection and that it does not approve or authorize the work specified herein, and it does not authorize or permit any violation or failure to comply with any applicable law. Furthermore, neither the City of Los Angeles nor any board, department officer, or employee thereof, make any warranty, nor shall be responsible for the performance or results of any work described herein, nor the condition of the property nor the soil upon which such work is performed. I further affirm under penalty of perjury, that the proposed work will not destroy or unreasonably interfere with any access or utility easement belonging to others and located on my property, but in the event such work does destroy or unreasonably interfere with such easement, a substitute easement(s) satisfactory to the holder(s) of the easement will be provided (Sec. 91.0106.4.3.4 LAMC).

By signing below, I certify that:

(1) I accept all the declarations above namely the Licensed Contractor's Declaration, Workers' Compensation Declaration, Asbestos Removal Declaration / Lead Hazard Warning, Construction Lending Agency Declaration, and Final Declaration; and

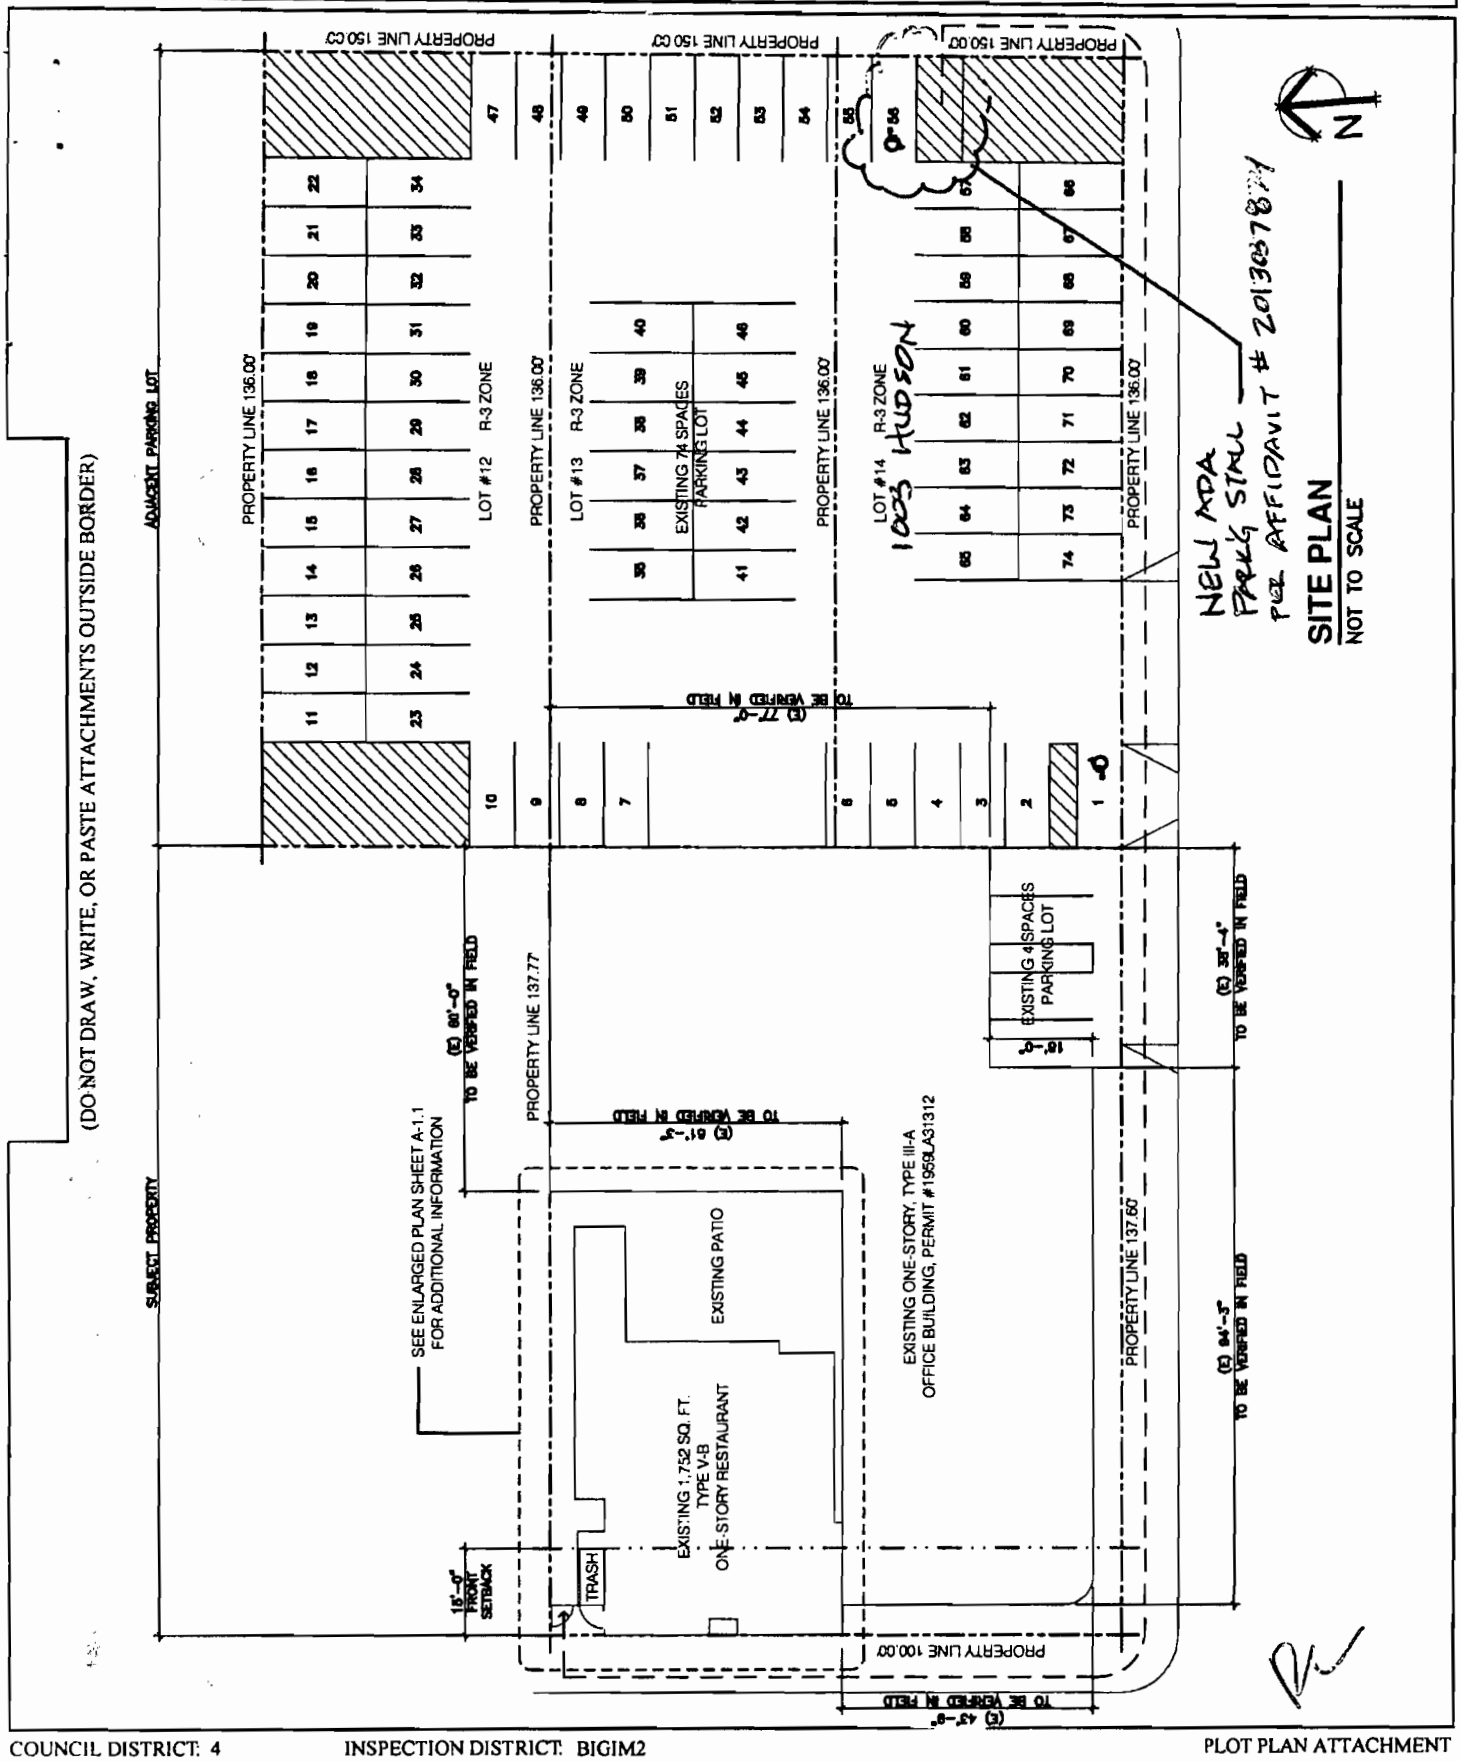

(2) This permit is being obtained with the consent of the legal owner of the property.

BOARD OF PUBLIC WORKS

DEPARTMENT OF BUILDINGS

Application for the Erection of Frame Buildings

CLASS "D"

To the Board of Public Works of the City of Los Angeles:

Application is hereby made to the Board of Public Works of the City of Los Angeles, through the office of the Chief Inspector of Buildings, for a building permit in accordance with the description and for the purpose hereinafter set forth. This application is made subject to the following conditions, which are hereby agreed to by the undersigned applicant and which shall be deemed conditions entering into the exercise of the permit:

First: That the permit does not grant any right or privilege to erect any building or other structure therein described, or any portion thereof, upon any street, alley, or other public place or portion thereof.

Second: That the permit does not grant any right or privilege to use any building or other structure therein described, or any portion thereof, for any purpose that is or may hereafter be prohibited by ordinance of the City of Los Angeles.

Third: That the granting of the permit does not affect or prejudice any claim of title to, or right of possession in, the property described in such permit.

PERMIT DEFINITIONS

Building Permit

A permit is required to build, remodel, repair, demolish, remove or move any building or structure. A separate permit is required for each separate building or structure. Examples of work that requires a permit: roofing, stucco, window, and door change-out, drywall replacement, installation of security bars, fire damage repairs, chimney repairs, and anchor bolting/bracing foundation (Los Angeles Municipal Code Section 91.106).

Certificate of Occupancy

A Certificate of Occupancy is issued pursuant to a building permit for new construction, additions, and changes of occupancy after all the necessary construction has been approved by the inspector. It is evidence that the Department of Building and Safety has determined that the construction was done according to the requirements of the code for the given occupancy to be housed in the building. Not all construction work receives a C of O, only when square footage is being added. For new construction, the C of O is automatically issued following the final inspection. For older construction, a C of O may not be on file and would require special attention (http://www.ladbs.org/faq/faq.htm).

Prior to 1930

Certificates were NOT issued for any structure or building

In 1930

The Department started issuing Certificates of Compliance for all theatres, hospital, schools, and garages.

In 1943

The Municipal Code was changed so as to require that a Certificates of Occupancy be issued for all categories with the exception of dwellings.

In 1946

In compliance with zoning regulations, the code was again changed to require all new buildings and existing buildings with new occupancy designation, except R-1 Occupancies & accessory buildings

PermitReport™

Mechanical (HVAC) Permit*
An HVAC permit is required to install, alter, repair, relocate, replace or add any heating, ventilating, or air-conditioning equipment. A permit shall be obtained for all heating, ventilating, air-conditioning or refrigeration equipment or other miscellaneous heat-producing appliances moved with, or installed in, a relocated building in the City (Los Angeles Municipal Code Section 95.0112).

Electrical Permit*
An electrical permit is required for electrical wiring. No person shall install, alter, reconstruct or repair any electrical wiring unless a permit has been obtained from the Department except as provided by your local city code (Los Angeles Municipal Code Section 93.0201).

Plumbing Permit*
A plumbing permit is required to add, alter, construct, install, move, relocate, remove, reconstruct, repair, or replace any plumbing, rainwater piping, subsurface drainage piping, swimming pool piping, reclaimed, water piping, or greywater piping. A permit shall be required where the Department has determined that the gas piping shall be retested for the following:

1. The system has been out of service for a period of one year
2. Where the Department had determined there is system leakage creating an immediate hazard to persons or property (Los Angeles Municipal Code Section 94.103.1).

Sewer Permit
Sewer Permits are issued to private individuals or contractors to connect to an existing house connection sewer or to facilitate the construction of a house connection sewer.

There are two types of sewer connection:

1. Property Line Connection: (requires Building & Safety inspection). This may be a new connection or reconnection to a house connection sewer located at the property line.
2. Main Line Connection: (requires Public Works inspection). This type of connection is required when the house connection sewer extending to the property line does not exist. To extend a sewer line from the property line to the City's main sewer, a bonded sewer contractor must perform the work (Los Angeles City - Department of Public Works - Bureau of Engineering).

www.thepermitreport.com

PermitReport™

Grading Permit
A grading permit is required to import or export any earth material to or from any grading site. A grading permit is also required to perform any grading within areas designated "hillside" (Los Angeles Municipal Code Section 91.106).

Plot Plans
A plot plan is a scale drawing of your property that shows the size and configuration of your property and the size and location of manmade features (building, driveways, and sidewalks) on the property. Plot plans show what currently exists on your property as well as physical changes you wish to make.

Who Governs Construction Standards?
The International Conference of Building Officials publishes a set of uniform codes to help assure that the buildings in which we live and work are built appropriately. These codes establish minimum standards to help safeguard life, limb, health and public welfare by regulating and controlling the design, construction, materials and location of buildings.

The previous sections contain some general background information on certain subjects that can help you better comprehend the process involved. Because the permit process varies among jurisdictions, the information provided is generalized and not specific to a particular situation.

PermitReport™

Potential Limitations of Permits

There are hundreds of county and city level jurisdictions in California. Each tends to use slightly different methods of requiring, processing, storing, and making permits available. Jurisdictional records may be incomplete because permits were not obtained, are filed in a different department, were lost, misplaced or even discarded. Therefore, the absence of a building permit does not necessarily mean that construction was done without a permit. The mere presence of a building permit does not necessarily mean that construction took place or was properly accomplished either.

If permits are found, they must be examined and analyzed. It's not uncommon for property owners to obtain permits and then simply not build. Such permits may give the impression that remodeling or changes were made to property that was never done. Sometimes permits are obtained and owners do not have proper inspections. In some cases, permits are not "sign-offs". Sometimes a passing final inspection may be recorded on the back of the permit. When the permit is microfilmed for storage, the back of the permit may not be included. In those cases, we have no information as to whether the permit was finalized or not.

When analyzing a permit, remember that older homes may not "conform" to current codes and building requirements, but this does not necessarily mean that the home is in "non-compliance". Minimum building and construction standards are revised and changed over time as new information, materials, and methods of construction are developed. An older home, addition, or remodel may have been built in compliance with an older set of building standards. In this case, the home is said to be "non-conforming". It does not necessarily mean there is anything wrong with the quality of the home. If a construction project or home is said to be in "non-compliance", it means the work was not done according to the minimum code that was current when the work was undertaken.

PermitReport™

Terms, Conditions and Limitations of Liability

The Permit Report ("Report") was prepared by The Permit Report, LLC., a California limited liability company solely for and may be used only in connection with the transaction presently contemplated between this buyer and this seller relating to the property address ("Property") and assessor's parcel number ("APN") furnished to The Permit Report as shown on page 1 of the Report. This Report is subject to these terms, conditions and limitations of liability. The Seller or seller's agent is responsible for verifying the accuracy of the property address and APN within five (5) days of receipt of this Report. Upon notification of an inaccurate address or APN within said 5-day period, The Permit Report will issue a replacement report. The information contained in this Report is based on those documents available on the date shown on page 1 of this Report and is valid only as of the date shown on page 1 of this Report. The Permit Report will not be liable for documents which are not contained in the governmental or public files and records for the Property on the date of the Report.

GOVERNMENTAL OR PUBLIC FILES MAY NOT CONTAIN ALL PERMITS PERTAINING TO THAT SUBJECT PROPERTY AT THE TIME OF THE SEARCH, THEREFOR THE PERMIT REPORT, INC. IS NOT RESPONSIBLE OR LIABLE FOR ANY PERMIT THAT CAN NOT BE FOUND AT THE TIME OF THE PERMIT SEARCH.

This Report is for the exclusive use and reliance of the buyer, seller, listing agent/broker and selling agent/broker, if any, involved in the current transaction. This Report is not intended to be and may not be used for any other purposes, including but not limited to appraisal or valuation of the Property or a certificate that the Property complies with current laws, statutes, regulations and codes. This Report may not be used by or relied upon by any other parties, including but not limited to lenders or subsequent buyers of the Property. There shall be no third party beneficiaries to this Report regardless of their relationship with or to the buyer, the seller, the listing agent/broker, the selling agent/broker or the Property. The Permit Report makes no representations, promises or covenants as to the Report's effect on the value of the Property as a result of the various items contained in this Report.

The information provided in this Report is time-sensitive and may be considered accurate only as of the date shown on page 1 of this Report. Governmental actions occurring after the date shown on page 1 of this Report are not disclosed. Additional items, including but not limited to permits, applications, violations and/or city approved changes, not available from governmental agencies or public records as of the date shown on page 1 of this Report are not disclosed. The Permit Report shall have no duty or obligation to inform the buyer, the seller or their respective agents/brokers of any changes or governmental actions pertaining to or affecting the Property which become effective after the date shown on page 1 of this Report.

The Permit Report has relied solely upon records, statutes and information specifically referred to in this Report for preparation of this Report. The records and information were supplied by various governmental or public agencies. The Permit Report has assumed that the records and information supplied by various governmental and public agencies are complete and accurate. Consequently, The Permit Report shall not be responsible for any inaccuracies or omissions in governmental or public records or in information reported by various governmental or public agencies. No physical inspection of the Property has been made for purposes of preparing this Report.

Under no circumstances will The Permit Report be responsible for errors in the data obtained from governmental or public agencies. The Permit Report recommends that if any party to this transaction has any concerns or questions regarding information contained in this Report, they contact the appropriate governmental, public, local or state agencies.

ACCEPTANCE OR USE OF THIS REPORT, OR EXECUTION BY THE BUYER, SELLER, OR THEIR RESPECTIVE AGENTS, CONSTITUTES APPROVAL AND ACCEPTANCE OF THE TERMS, CONDITIONS, AND LIMITATIONS STATED HEREIN. The Permit Report SHALL NOT BE LIABLE FOR LOST PROFITS, DIMINUTION IN PROPERTY VALUE OR ANY INDIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES IN CONNECTION WITH, OR ARISING OUT OF, THE PREPARATION, ISSUANCE, OR USE OF THIS REPORT.

PERMIT EXPIRATION/REFUNDS: This permit expires two years after the date of the permit issuance. This permit will also expire if no construction work is performed for a continuous period of 180 days (Sec. 98.0602 LAMC). Claims for refund of fees paid must be filed within one year from the date of expiration for permits granted by LADBS (Sec. 22.12 & 22.13 LAMC). The permittee may be entitled to reimbursement of permit fees if the Department fails to conduct an inspection within 60 days of receiving a request for final inspection (HS 17951).

17. LICENSED CONTRACTOR'S DECLARATION

I hereby affirm under penalty of perjury that I am licensed under the provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect. The following applies to B contractors only: I understand the limitations of Section 7057 of the Business and Professional Code related to my ability to take prime contracts or subcontracts involving specialty trades.

License Class: B License No.: 761179 Contractor: RAMLAND CONSTRUCTION COMPANY

18. WORKERS' COMPENSATION DECLARATION

I hereby affirm, under penalty of perjury, one of the following declarations :

( ) I have and will maintain a certificate of consent to self insure for workers' compensation, as provided for by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued.

(X) I have and will maintain workers' compensation insurance, as required by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number are:

Carrier: STATE COMP. INS. FUND Policy Number: 9040181

( ) I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California, and agree that if I should become subject to the workers' compensation provisions of Section 3700 of the Labor Code, I shall forthwith comply with those provisions.

WARNING: FAILURE TO SECURE WORKERS' COMPENSATION COVERAGE IS UNLAWFUL, AND SHALL SUBJECT AN EMPLOYER TO CRIMINAL PENALTIES AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS ($100,000), IN ADDITION TO THE COST OF COMPENSATION, DAMAGES AS PROVIDED FOR IN SECTION 3706 OF THE LABOR CODE, INTEREST, AND ATTORNEY'S FEES.

19. ASBESTOS REMOVAL DECLARATION / LEAD HAZARD WARNING

I certify that notification of asbestos removal is either not applicable or has been submitted to the AQMD or EPA as per section 19827.5 of the Health and Safety Code. Information is available at (909) 396-2336 and the notification form at www.aqmd.gov. Lead safe construction practices are required when doing repairs that disturb paint in pre-1978 buildings due to the presence of lead per section 6716 and 6717 of the Labor Code. Information is available at Health Services for LA County at (800) 524-5323 or the State of California at (800) 597-5323 or www.dhs.ca.gov/childlead

20. CONSTRUCTION LENDING AGENCY DECLARATION

I hereby affirm under penalty of perjury that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Civil Code).

Lender's Name (If Any): Lender's Address :

21. FINAL DECLARATION

I certify that I have read this application INCLUDING THE ABOVE DECLARATIONS and state that the above information INCLUDING THE ABOVE DECLARATIONS is correct. I agree to comply with all city and county ordinances and state laws relating to building construction, and hereby authorize representatives of this city to enter upon the above-mentioned property for inspection purposes. I realize that this permit is an application for inspection and that it does not approve or authorize the work specified herein, and it does not authorize or permit any violation or failure to comply with any applicable law. Furthermore, neither the City of Los Angeles nor any board, department officer, or employee thereof, make any warranty, nor shall be responsible for the performance or results of any work described herein, nor the condition of the property nor the soil upon which such work is performed. I further affirm under penalty of perjury, that the proposed work will not destroy or unreasonably interfere with any access or utility easement belonging to others and located on my property, but in the event such work does destroy or unreasonably interfere with such easement, a substitute easement(s) satisfactory to the holder(s) of the easement will be provided (Sec. 91.0106.4.3.4 LAMC).

By signing below, I certify that:

(1) I accept all the declarations above namely the Licensed Contractor's Declaration, Workers' Compensation Declaration, Asbestos Removal Declaration / Lead Hazard Warning, Construction Lending Agency Declaration, and Final Declaration; and

(2) This permit is being obtained with the consent of the legal owner of the property.

DEPARTMENT OF BUILDINGS

Application for the Erection of Frame Buildings

CLASS "D"

To the Board of Public Works of the City of Los Angeles:

Application is hereby made to the Board of Public Works of the City of Los Angeles, through the office of the Chief Inspector of Buildings, for a building permit in accordance with the description and for the purpose hereinafter set forth. This application is made subject to the following conditions, which are hereby agreed to by the undersigned applicant and which shall be deemed conditions entering into the exercise of the permit:

First: That the permit does not grant any right or privilege to erect any building or other structure therein described, or any portion thereof, upon any street, alley, or other public place or portion thereof.

Second: That the permit does not grant any right or privilege to use any building or other structure therein described, or any portion thereof, for any purpose that is, or may hereafter be prohibited by ordinance of the City of Los Angeles.

Third: That the granting of the permit does not affect or prejudice any claim of title to, or right of possession in, the property described in such permit.

CERTIFICATE OF EXEMPTION FROM WORKERS' COMPENSATION INSURANCE

19. I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the Workers' Compensation Laws of California.

Date 1-16-91 Applicant's Signature [signature]

NOTICE TO APPLICANT: If, after making this Certificate of Exemption, you should become subject to the Workers' Compensation provisions of the Labor Code, you must forthwith comply with such provisions or this permit shall be deemed revoked.

CONSTRUCTION LENDING AGENCY

20. I hereby affirm that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Civ. C.).

Lender's Name _____ Lender's Address _____

21. I certify that I have read this application and state that the above information is correct. I agree to comply with all city and county ordinances and state laws relating to building construction, and hereby authorize representatives of this city to enter upon the above-mentioned property for inspection purposes.

I realize that this permit is an application for inspection, that it does not approve or authorize the work specified herein, that it does not authorize or permit any violation or failure to comply with any applicable law, that neither the city of Los Angeles nor any board, department, officer or employee thereof make any warranty or shall be responsible for the performance or results of any work described herein or the condition of the property or soil upon which such work is performed. (See Sec. 91.0202 LAMC)

DECLARATIONS AND CERTIFICATIONS

LICENSED CONTRACTORS DECLARATION

16. I hereby affirm that I am licensed under the provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect.

Date: 11-17-93 License Class: C39 Number: 461710 Contractor: Nora Marquez (Signature)

OWNER-BUILDER DECLARATION

17. I hereby affirm that I am exempt from the Contractor's License Law for the following reason (Sec. 7031.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he is licensed pursuant to the provisions of the Contractors' License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subject to the issuance thereof by such city or county, is punishable by a fine of not more than five hundred dollars ($500).

☐ I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or through his own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale).

☐ I, as owner of the property, am exempt from the Contractor's License Law for the following reason: I am not in the business of building, and I am not holding myself out as a contractor. I am not licensed pursuant to the Contractor's License Law.

☐ I am exempt under Sec. _____ B. & P. C. for this reason: _____

Date: _____ Owner's Signature: _____

Unless a shorter period of time has been established by an official action, plan check approval expires one and a half years after the plan check fee has been paid. This permit expires two years after the building permit fee has been paid or 180 days after the fee has been paid and construction has not commenced or if work is suspended, discontinued or abandoned for a continuous period of 180 days (Sec. 98.0602 LAMC). Claims for refund of fees paid must be filed within one year from the date of expiration for permits granted by the Dept. of Building & Safety (Sec. 22.12 & 22.13 LAMC).

17. LICENSED CONTRACTOR'S DECLARATION

I hereby affirm under penalty of perjury that I am licensed under the provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect. If doing work on a residential property, I certify that I hold a valid certification as a Home Improvement contractor per B&P Code, Section 7150.2c. The following applies to B contractors only: I understand the limitations of Section 7057 related to my ability to take prime contracts or subcontracts involving specialty trades.

License Class _____ Lic No. _____ Print _____ Sign _____

18. WORKERS' COMPENSATION DECLARATION

I hereby affirm, under penalty of perjury, one of the following declarations:

☐ I have and will maintain a certificate of consent to self insure for workers' compensation, as provided for by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued.

☐ I have and will maintain workers's compensation insurance, as required by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number are:

Carrier _____ Policy Number: _____

☒ I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California, and agree that if I should become subject to the workers' compensation provisions of Section 3700 of the Labor Code, I shall forthwith comply with those provisions.

Sign _____ Date: 07/26/00 ☐ Contractor ☒ Authorized Agent ☐ Owner

WARNING: FAILURE TO SECURE WORKERS' COMPENSATION COVERAGE IS UNLAWFUL, AND SHALL SUBJECT AN EMPLOYER TO CRIMINAL PENALTIES AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS ($100,000), IN ADDITION TO THE COST OF COMPENSATION, DAMAGES AS PROVIDED FOR IN SECTION 3706 OF THE LABOR CODE, INTEREST, AND ATTORNEY'S FEES.

19. CONSTRUCTION LENDING AGENCY

I hereby affirm under penalty of perjury that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Civil Code).

Lender's name _____ Lender's address: _____

20. ASBESTOS REMOVAL

Notification of asbestos removal ☒ is not applicable ☐ Letter was sent to the AQMD or EPA Sign: _____ Date: 07/26/00

21. OWNER-BUILDER DECLARATION

I hereby affirm under penalty of perjury that I am exempt from the Contractors License Law for the following reason (Section 7031.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he or she is licensed pursuant to the provisions of the Contractors License Law (Chapter 9 commencing with Sec. 7000 of Division 3 of the Business and Professions Code) or that he or she is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500).):

☒ I, as the owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business & Professions Code: The Contractors License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or herself or through his or her own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year from completion, the owner-builder will have the burden of proving that he or she did not build or improve for the purpose of sale).

☐ I, as the owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business & Professions Code: The Contractors License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractors License Law.)

☐ I am exempt under Sec. _____ Bus. & Prof. Code for the following reason: _____

22. FINAL DECLARATION

I certify that I have read this application and state that the above information is correct. I agree to comply with all city and county ordinances and state laws relating to building construction, and hereby authorize representatives of this city to enter upon the above-mentioned property for inspection purposes. I realize that this permit is an application for inspection and that it does not approve or authorize the work specified herein. Also that it does not authorize or permit any violation or failure to comply with any applicable law. Furthermore, that neither the City of Los Angeles nor any board, department officer, or employee thereof, make any warranty, nor shall be responsible for the performance or results of any work described herein, nor the condition of the property nor the soil upon which such work is performed. I further affirm under penalty of perjury, that the proposed work will not destroy or unreasonably interfere with any access or utility easement belonging to others and located on my property, but in the event such work does destroy or unreasonably interfere with such easement, a substitute easement(s) satisfactory to the holder(s) of the easement will be provided (Sec. 91.0106.4.3.4 LAMC).

CITY OF LOS ANGELES

DEPARTMENT OF BUILDING AND SAFETY

BUILDING DIVISION

Application to Alter, Repair, Move or Demolish

To the Board of Building and Safety Commissioners of the City of Los Angeles:

Application is hereby made to the Board of Building and Safety Commissioners of the City of Los Angeles, through the office of the Superintendent of Building, for a building permit in accordance with the description and for the purpose hereinafter set forth. This application is made subject to the following conditions, which are hereby agreed to by the undersigned applicant and which shall be deemed conditions entering into the issuance of the permit:

First: That the permit does not grant any right or privilege to erect any building or other structure therein described, or any portion thereof, upon any street, alley or other public place or portion thereof.

Second: That the permit does not grant any right or privilege to use any building or other structure therein described, or any portion thereof, for any purpose that is, or may hereafter be prohibited by ordinance of the City of Los Angeles.

Third: That the granting of the permit does not affect or prejudice any claim of title to, or right of possession in, the property described in the permit.

Non California Manifest Total Tonnage

No Records Found

The Department of Toxics Substances Control (DTSC) takes every precaution to ensure the accuracy of data in the Hazardous Waste Tracking System (HWTS). However, because of the large number of manifests handled, inaccuracies in the submitted data, limitations of the manifest system and the technical limitations of the database, DTSC cannot guarantee that the data accurately reflect what was actually transported or produced.

Public Records Request Number: PR3-042820-03
Location(s): 1000-1006 (even) Seward Street, 6551 & 6561-6575 (odd) Romaine Street, 1003-1013 (odd) N Hudson Avenue, Los Angeles, CA 90038

Dear Requestor:

We have received your Public Records Act Request for records from the Department of Toxic Substances Control (DTSC). After a thorough review of our files, no site records were found pertaining to the sites/facilities referenced above.

DTSC's Hazardous Waste Tracking System (HWTS) may have records that pertain to this request. This unit tracks toxic waste generators, transporters (manifests), and disposal facilities. If you are interested in this type of information, it can be identified by accessing the HWTS database at http://hwts.dtsc.ca.gov/report_search.cfm?id=5. If you are interested in retrieving detailed reports, additional charges may apply. Please contact the HWTS unit by email at hwtsreports@dtsc.ca.gov or by phone at (800) 618-6942 for further information. For copies of manifests, please send an email to mcr@dtsc.ca.gov.

A large number of our records are available on EnviroStor, an online database that provides non-confidential, public access to DTSCs data management system. It tracks our cleanup, permitting, enforcement, and investigation efforts at hazardous waste facilities and sites with known or suspected contamination issues. EnviroStor is available 24/7, 365 days a year. The data reflects the latest updates as they are entered in the system. Access it from your computer or smartphone, the local library – anywhere Internet access is available. Just go to www.envirostor.dtsc.ca.gov. You'll

find a step-by-step tour of EnviroStor under the "How to Use EnviroStor" menu on the website.

If you have any questions or would like further information regarding your request, please contact me via email at ChatsworthFileRoom@dtsc.ca.gov.

Sincerely,
Glenn Castillo
Regional Records Coordinator

INSTRUCTIONS FOR REQUESTING RECORDS

(California Public Records Act, Govt. Code Sections 6250-6276.48)

1. In order to expedite your request, please fill out the form completely. Requests may also be submitted by phone at (909) 396-3700, by facsimile to (909) 396-3330, or by email to PublicRecordsRequests@aqmd.gov.

2. Requests must be for records prepared, owned, used, or retained by the District (Gov. Code Sec. 6252(e)). Requests should be for clearly identifiable records. The District is not required to create a new record in response to a request. The District will assist the requestor in making a request that describes reasonably identifiable records (Gov. Code Sec. 6253.1). Documents will not be provided if disclosure would infringe upon a copyright, trade secret, or is otherwise exempt in accordance with state law.

3. A search for facility records can only be conducted by one or all of the following:

-- a) Facility Name, Address, or Identification Number

-- b) Facility Application Number, or Permit to Operate Number; or

-- c) Facility Notice of Violation/Notice to Comply Number.

4. You will be notified within ten (10) days whether your request seeks copies of disclosable public records prepared, owned, used, or retained by this agency. In some cases, the District may need an additional 14 days to respond. If so, you will be notified in writing. You will also be provided an estimated date of when the records will be made available.

5. Communications regarding your request, and any records, will be provided by email, unless specified otherwise.

6. If the search for records finds the records voluminous, you will be notified of the approximate number of pages and/or length of time it will take to process your request.

7. If the records you requested have been marked confidential by the source of the record, you will be notified and given the option of continuing with the District's Trade Secret process.

8. If your request is to review records, rather than receive copies, the District will notify you once the records are gathered, and arrangements will be made for your review.

9. The charge for the direct cost of duplication is as follows: Paper Copies, $0.15/page each over 10 pages (first 10 pages are free); Copied CD's or flash drives, no charge; and Copied Audio Tapes, $5.00 each. After a preliminary estimate, advance payment may be required.

10. If the request is for information in an electronic format, the requestor shall bear the cost of producing a copy of the record, including the cost to construct the record and the cost of programming and computer services necessary to produce a copy of the record, when either of the following applies: (1) the District would be required to produce a copy of an electronic record and the record is one that is produced only at otherwise regularly scheduled intervals, or (2) the request would require data compilation, extraction, or programming to produce the record. (Gov. Code Sec. 6253.9(b)). The transfer of gathered electronic records onto CD, DVD or flash drive typically costs $10.00 each. An invoice will accompany your records when completed.

Note: For further information, please refer to the District's Guidelines for Implementing the California Public Records Act. The Guidelines are available in the lobby of the District Headquarters or on the District's web site at www.aqmd.gov.

Note: If you have questions pertaining to the submittal of a Public Records Act request, you may contact the Public Records Unit, (909) 396-3700, Tuesday through Friday, 7:00 a.m. to 5:30 p.m. Our Fax number is (909) 396-3330. Our email address is PublicRecordsRequests@aqmd.gov.

Requestor Zip Code
90045

Type of Requested Record(s).

REQUESTED RECORDS. **Please be as specific as possible in describing the records you are seeking.** The more specific you are, the easier it will be to determine if such records exist in District files. Please contact the Public Records Unit if you need assistance in identifying District records.

Note: Permits to Operate, Equipment Lists, Notices of Violation, Notices to Comply, and Emissions Summaries are available through SCAQMD's FIND page at http://www3.aqmd.gov/webappl/fim/prog/search.aspx (you need to copy and paste this link into your browser).

Please Enter a description of the records you are requesting here: *
We are requesting any information from your departments pertaining to air emissions, including permits to operate, equipment lists and notices of violation on the property.

Time Period of Documents Requested

Start Date *
1/1/1900

End Date *
4/28/2020

Note: Please use the above button for attaching an Authorization Letter from the facility to release confidential information for your public records request.

Supplemental Attachments

Supplemental Documents

Note: Please use the above button for attaching additional documents that will help define your public records request.

INSTRUCTIONS FOR REQUESTING RECORDS

(California Public Records Act, Govt. Code Sections 6250-6276.48)

1. In order to expedite your request, please fill out the form completely. Requests may also be submitted by phone at (909) 396-3700, by facsimile to (909) 396-3330, or by email to PublicRecordsRequests@aqmd.gov.

2. Requests must be for records prepared, owned, used, or retained by the District (Gov. Code Sec. 6252(e)). Requests should be for clearly identifiable records. The District is not required to create a new record in response to a request. The District will assist the requestor in making a request that describes reasonably identifiable records (Gov. Code Sec. 6253.1). Documents will not be provided if disclosure would infringe upon a copyright, trade secret, or is otherwise exempt in accordance with state law.

3. A search for facility records can only be conducted by one or all of the following:

-- a) Facility Name, Address, or Identification Number

-- b) Facility Application Number, or Permit to Operate Number; or

-- c) Facility Notice of Violation/Notice to Comply Number.

4. You will be notified within ten (10) days whether your request seeks copies of disclosable public records prepared, owned, used, or retained by this agency. In some cases, the District may need an additional 14 days to respond. If so, you will be notified in writing. You will also be provided an estimated date of when the records will be made available.

5. Communications regarding your request, and any records, will be provided by email, unless specified otherwise.

6. If the search for records finds the records voluminous, you will be notified of the approximate number of pages and/or length of time it will take to process your request.

7. If the records you requested have been marked confidential by the source of the record, you will be notified and given the option of continuing with the District's Trade Secret process.

8. If your request is to review records, rather than receive copies, the District will notify you once the records are gathered, and arrangements will be made for your review.

9. The charge for the direct cost of duplication is as follows: Paper Copies, $0.15/page each over 10 pages (first 10 pages are free); Copied CD's or flash drives, no charge; and Copied Audio Tapes, $5.00 each. After a preliminary estimate, advance payment may be required.

10. If the request is for information in an electronic format, the requestor shall bear the cost of producing a copy of the record, including the cost to construct the record and the cost of programming and computer services necessary to produce a copy of the record, when either of the following applies: (1) the District would be required to produce a copy of an electronic record and the record is one that is produced only at otherwise regularly scheduled intervals, or (2) the request would require data compilation, extraction, or programming to produce the record. (Gov. Code Sec. 6253.9(b)). The transfer of gathered electronic records onto CD, DVD or flash drive typically costs $10.00 each. An invoice will accompany your records when completed.

Note: For further information, please refer to the District's Guidelines for Implementing the California Public Records Act. The Guidelines are available in the lobby of the District Headquarters or on the District's web site at www.aqmd.gov.

Note: If you have questions pertaining to the submittal of a Public Records Act request, you may contact the Public Records Unit, (909) 396-3700, Tuesday through Friday, 7:00 a.m. to 5:30 p.m. Our Fax number is (909) 396-3330. Our email address is PublicRecordsRequests@aqmd.gov.

Penado, Natalie

To: Mia.Kang@lacity.org
Subject: Public Records Request

Hello,

This firm is performing a Phase I Environmental Site Assessment for the property with the following addresses:

1000-1006 (even) Seward Street, Los Angeles, CA 90038
6551, 6561-6575 (odd) Romaine Street, Los Angeles, CA 90038
1003-1013 (odd) N Hudson Avenue, Los Angeles, CA 90038

We are requesting any information from your department pertaining to industrial wastewater discharge, clarifiers, storm water, or industrial waste water, including permits to operate and notices of violation on the property.

Please feel free to contact Susana Corletto with any questions or concerns at 310-854-6300 or Susana.Corletto@efiglobal.com

Thank you,

Natalie Penado | Environmental Specialist, Phase I Department

Survey Questionnaire – Please Return to Fax Number Below

A. GENERAL

1. Subject Property Address 1000 + 1006 SENARD ST LA 90038
+ 1003, 1007, 1013 N. HUDSON AVE LA, 90038

2. Name of business(es) occupying the subject property
THE POST GROUP / RAO'S RESTAURANT

3. Person completing this questionnaire:

WINSTON WHITMARSH	323-822-4446
Name	Telephone Number
OFFICE MANAGER (TPG)	5-14-20
Title	Date
PROPERTY MANAGER	5 YEARS
Relationship to Property	How Long?

4. If you are the person who has ordered this report, what is the purpose of this report?
Purchase ☐ Sale ☐ Refinance ☐

B. PROPERTY DESCRIPTION

1. **Land**

A. What is the approximate square footage of the land? 34,184 SF

B. Were there any buildings or other improvements on the property prior to the existing improvements?
Yes ☐ No ☐ DK ☒

If yes, what were the buildings used for?

C. Is or has there been a well on the subject property? Yes ☐ No ☐ DK ☒

If yes, what type of well is it?: ☐ Drinking Water, ☐ Irrigation, ☐ Monitoring, ☐ Dry Well

D. Is or has there been a septic system on the subject property? Yes ☐ No ☐ DK ☒

E. Has fill of unknown origin been imported onto the subject property?
Yes ☐ No ☐ DK ☒

2. **Improvements (Buildings) - This includes all buildings**

5261 West Imperial Highway, Los Angeles, California 90045
Toll Free: 888-705-6300 Phone: 310-854-6300 Fax: 310-854-0199 Web: https://www.efiglobal.com/our-services/environmental/

A. What is the approximate square footage of the onsite structure? 10,595 SF

B. What year was the onsite structure built? 1937

C. Is there a heating system at the site? Yes ☒ No ☐ DK ☐

If yes, what is it fueled by?: ☐ Natural Gas, ☐ Fuel Oil, ☐ Electricity, ☐ Solar
3 BUILDINGS HAVE HVAC BY ELECTRICITY
B28 BUILDING IS HEATED BY GAS

D. Is there a boiler at the site? Yes ☐ No ☐ DK ☐

THERE IS A WATER HEATER →

If yes, what is it fueled by?: ☐ Natural Gas, ☐ Fuel Oil, ☒ Electricity, ☐ Solar

E. Do you have copies of the Subject Property's construction, site, and/or "as-built" drawings and building specifications? Yes ☐ No ☒ If so, please provide copies of same.

C. STORAGE TANKS

1. Are there any registered or unregistered (active or inactive) Underground Storage Tanks ("UST") or Aboveground Storage Tanks ("AST") located on the premises? Yes ☐ No ☐ DK ☒

NO ASTs, NOT SURE ABOUT USTs, but pretty sure "NO"

2. Do you have any knowledge of USTs or ASTs that once existed on the Subject Property and whether such tanks were removed or abandoned? Yes ☐ No ☐ DK ☒

D. HAZARDOUS MATERIALS

1. Are any regulated hazardous materials, chemicals, or waste stored/used on-site? Yes ☐ No ☐ DK ☐

If "yes" please provide a copy of the chemical inventory.

2. To the best of your knowledge, do any of the following operations take place on the Subject Property or have ever taken place on the Subject Property:

Dry Cleaning:	Yes ☐ No ☒	Battery Storage/Sales:	Yes ☐ No ☒
Paint Storage/Sales:	Yes ☐ No ☒	Petroleum Storage/Sales:	Yes ☐ No ☒
Landfill/Dumping:	Yes ☐ No ☒	Junkyard:	Yes ☐ No ☒
Photo or X-Ray Finishing:	Yes ☐ No ☒	Electric Equip Manufacturing:	Yes ☐ No ☒
Solvent Storage or Sales:	Yes ☐ No ☒	Chemical Manufacture/Sales:	Yes ☐ No ☒
Automobile Storage or Repair:	Yes ☐ No ☒	Agriculture:	Yes ☐ No ☒
Metals Machining:	Yes ☐ No ☒	Metals Heat Treating:	Yes ☐ No ☒

Any other commercial or industrial process which may have included the use of chemicals: Yes ☐ No ☒

If yes, Please specify: _____

5261 West Imperial Highway, Los Angeles, California 90045

Toll Free: 888-705-6300 Phone: 310-854-6300 Fax: 310-854-0199 Web: https://www.efiglobal.com/our-services/environmental/

E. REGULATORY ACTION

1. Has the subject property ever been subject to any environmental enforcement action by the local government, federal, or state entities? Yes ☐ No ☐ DK ☒

2. Do you have any knowledge of pending or proposed environmental actions against the subject property or neighboring properties? Yes ☐ No ☐ DK ☒

3. Have there been any formal or informal citizen or tenant complaints regarding environmental or health matters in connection with the Subject Property? Yes ☐ No ☒ DK ☐

4. Are you aware of any releases of hazardous materials on the Subject Property? Yes ☐ No ☒ DK ☐

F. ADDITIONAL INFORMATION

1. Do you have knowledge of any previous environmental reports conducted for the site such as Phase I ESA, Phase II ESA, Site Characterization, Removal or Remediation, Geotechnical Reports, Lead Based Paint or Asbestos Survey or Removal, or other relevant material? There was a Phase I done by ANDERSEN IN July 2015. YOU SHOULD HAVE A RECORD/COPY OF IT.

   Yes ☒ No ☐ If yes, please provide a copy.

2. Do you have a recent Title Report for the subject property?

   Yes ☐ No ☐ If yes, please provide a copy. NOT SURE.

3. Can you provide the contact information of the former owner/occupant of the property? Yes ☐ No ☐
   If yes, please provide contact information below.

HAZARDOUS GAS ASSESSMENT 1003-1013 HUDSON, 6565 ROMAIN & 1006 SEWARD (LOT 12-16 OF WHITE & NEWBY'S HOLLYWOOD TRACT) LOS ANGELES, CA

Prepared for:

39S LLC

Attention: Collin LaPorte

November 25, 2019

Project No. 5891

Louis J. Pandolfi
President

Prepared by

GEOSCIENCE ANALYTICAL, INC.
Geochemical, Environmental & Litigation Consultants
Established March 1981

HAZARDOUS GAS ASSESSMENT

The subject investigation has been limited to that property known as 1003-1013 Hudson, 6565 Romain and 1006 Seward, Los Angeles, CA. A site plan is attached (Figure 1). The parcel is slated for a residential development.

mixed-use commercial

Under the current investigation four (4) soil probes were advanced to depths of 4.0' (bg) between November 18 and 21, 2019. Three (3) deeper soil borings were advanced to depths of approximately 17' (bg) between November 18 and 21, 2019 at locations throughout the parcel (Figure 1). Soil gas samples were recovered from depths of 5.0', 10.0' and approximately 17.0' in each soil boring between November 18 and 22. Soil boring locations were established to provide adequate coverage of the small parcel. Sampling methodologies were similar to those described by Exploration Technologies, Inc. (ETI) and summarized in a report prepared by Camp Dresser & McKee Inc. dated November 9, 2000 entitled "Report of Sampling and Analysis of Soil Gas for Methane in Tracts 49104-01, -03, -05, and –06 Playa Vista, Area D" and more specifically described in "Methane Mitigation Standards" of the City of Los Angeles dated 4/20/04.

Samples of soil gas were analyzed for methane. Methane concentrations were <500.0 ppmv in the soil probes (Table 1). Methane concentrations were <500.0 ppmv in the soil Borings (Table 1).

Soil gas pressures were measured at each of the sampling intervals in the soil borings. Pressures were <0.05 in. H_2O above atmospheric pressure in each case. Additionally, gaseous flow was below the limits of detection of 0.01 cu.ft./min. Barometric pressures for the four (4) sampling intervals were 29.9, 29.8, 29.9 and 30.0 in.Hg, respectively.

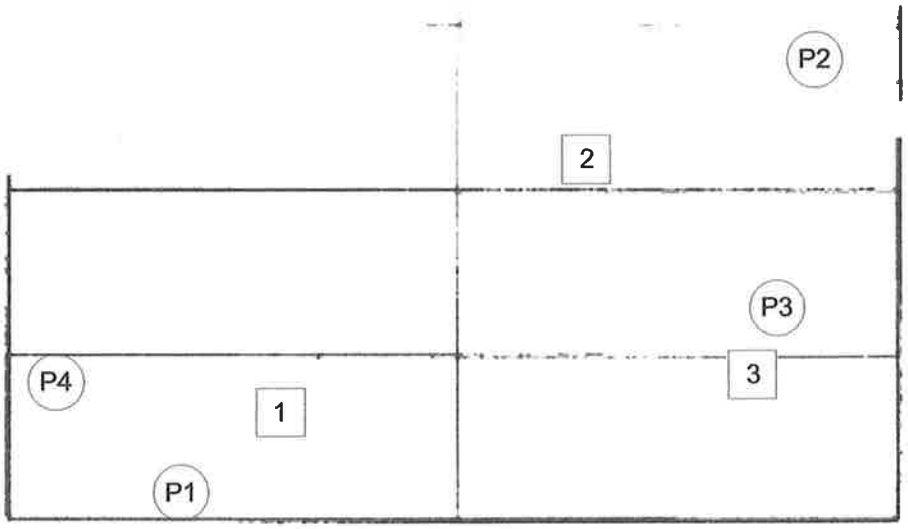

According to field observations, there is no groundwater present in the surficial soil lithology at depths to 17'. This depth should not potentially pose a negative impact

on the functioning of a subslab gas mitigation system without dewatering. A separate geotechnical investigation was not available.

The subject site contains methane significantly below the Lower Explosive Limit (50,000 ppm v/v) and more typical of background levels. Mitigation is not required for site development since the project is included within a Methane Buffer Zone at a Site Design Level of II and a pressure of <2.0 in H_2O.

The subject parcel is located within a Methane Buffer Zone as defined by the City of Los Angeles' Methane Mitigation Standard. In accordance with the proximity of the subject site to abandoned oil/gas well or other methane source, the applicant is required to provide a methane soil gas site survey for the building site. The purpose of the building site survey is to determine, to the satisfaction of the Department of Building and Safety, the applicability of methane prevention and monitoring systems requirements in connection with the construction of buildings on the site. The intent of the current investigation was therefore to determine the hazardous gas potential of the subject property utilizing sufficient deep borings to provide statistically significant baseline geochemical data necessary and sufficient to provide site classification as to the required level of mitigation. Based on all available analytical data, the site does not contain appreciably elevated concentrations of methane or other light hydrocarbons and therefore mitigation shall be limited to mandatory minimum levels. No variances are being requested. No mitigation is required.

CERTIFICATE OF COMPLIANCE FOR METHANE TEST DATA

Part 1: Certification Sheet

Site Address: 1003-1013 Hudson, et.al, Los Angeles, CA

Legal Description: Lots: 12-16 Tract: White & Newby's Hollywood

Building Use: residential

Architect's, Engineers's or Geologist's Stamp:

REGISTERED PROFESSIONAL ENGINEER
M. RUSSELL NESTER
No. 26324
CIVIL
STATE OF CALIFORNIA

Name: GeoScience Analytical, Inc.
Mailing Address: 608 Hailey Court
Simi Valley, CA 93065
Telephone: (805) 526-6532
Name of Testing Laboratory: GeoScience Analytical, Inc.
Telephone: (805) 526-6532

I hereby certify that I have tested the above site for the purpose of methane mitigation and that all procedures were conducted in conformity with the requirements of the LADBS Methane Mitigation Standard. Where the inspection and testing of all or part of the work above is delegated, full responsibility shall be assumed by the licensed engineer or geologist whose signature is affixed thereon:

Signed: [signature] Date: 11/25/19

Required Data

- Depth of ground water: >17 feet below the impervious membrane
- Design Methane Concentration: <500 parts per million in volume (ppmv)
- Design Methane Pressure: <0.05 inches of water column
- Design Level: II (Methane Buffer Zone)

De-watering:

De-watering (is not) required

- Pump discharge rate n/a cubic feet per minute
- Reference geology or soil report: _____ dated _____

Additional Invesigation:

- Additional investigation (was not) conducted.

Latest Grading on Site:

- Date of last grading on site was none
- See Attached explanation of the effect on soil as survey results by grading operations: _____

APPENDIX I

SAMPLE COLLECTION METHODOLOGY

Soil gas measurements were made using an Organic Vapor Analyzer (OVA). The OVA was calibrated at the beginning and end of each day.

Analyses was carried out by a Deputy Building Inspector/Chemist with over thirty (30) years of experience in completing combustible gas assessments throughout Southern California under the supervision of a Registered Professional Civil Engineer with experience in the design of soil gas mitigation and site assessment. Sample collection took place over a period of five (5) days.

APPENDIX II

ANALYTICAL PROTOCOL

Detection was by means of an Organic Vapor Analyzer. The output signal is quantified and reported as parts-per-million. Gas standards were manufactured by Scott Specialty Gases with an accuracy of ±2.0%.

EXECUTIVE SUMMARY

FINDINGS

Andersen Environmental has performed a Phase I Environmental Site Assessment (Phase I) for The Post Group (Client) for a commercial property located at 1000 and 1006 Seward Street, 6565 Romaine Street, and 1003, 1007, & 1013 North Hudson Avenue, in Los Angeles County in the Hollywood neighborhood of the City of Los Angeles, California, Assessor's Parcel Numbers: 5533-012-011, 5533-012-012, 5533-012-013, and 5533-012-025. The research conducted for this study and the report prepared are in conformance with the United States Environmental Protection Agency (USEPA) All Appropriate Inquiry (AAI) standard and the American Society for Testing and Materials (ASTM) E 1527-13 scope of work.

Site Description

According to our research and information provided by the Client, the following addresses have been found to be associated with the subject property: 1000 and 1006 Seward Street; 6551, 6561, 6565, and 6575 Romaine Street; and 1003, 1007, and 1013 North Hudson Avenue, Los Angeles, California. The subject property is bounded to the north by commercial developments, to the east by North Hudson Avenue, to the west by Seward Street, and to the south by Romaine Street, in the Hollywood neighborhood of the City of Los Angeles. The subject property consists of four contiguous parcels which are approximately 0.78 acre in total size. The eastern half of the subject property consists of Parcels 5533-012-011 (*Parcel-11*), 5533-012-012 (*Parcel-12*), and 5533-012-013 (*Parcel-13*), which are collectively developed as an asphalt paved parking lot. The western half of the subject property consists of Parcel 5533-012-025 (*Parcel-25*), which is developed with three single-story commercial structures: an approximately 2,511 square-foot restaurant structure in the northwest portion (1006 Seward Street), currently occupied by Rao's Italian; an approximately 3,960 square-foot production space in the southwest portion (1000 Seward Street), currently utilized by the television show "Orange is the New Black"; and an approximately 4,482 square-foot mastering studio in the northeast portion (6565 Romaine Street), currently occupied by Lurssen Mastering. The surrounding area is mostly used for commercial and residential purposes. Groundwater is estimated to be approximately 15- to 20-feet below ground surface in the area of the site.

No significant hazardous material storage or recognized environmental conditions were observed at the site. Those interviewed, as persons familiar with the site were not aware of any negative environmental conditions associated with the property.

Historical Land Use

According to Andersen Environmental's interpretation of the historical research data, the subject property underwent separate courses of development as described below:

Parcel-11 (1013 North Hudson Avenue) – The northeast portion of the subject property was undeveloped in 1919. A single family residence and private garage were constructed in 1921 and 1929, respectively. In 1957, the residence was converted into a 3-family apartment building. *Parcel-11* remained in this configuration through 1982, when the structures were demolished. By 1985, *Parcel-11* was developed into a parking lot, as it remains today.

Parcel-12 (1007 North Hudson Avenue) – The east portion of the subject property was developed with a residential structure by 1919. A private garage was constructed in 1927. *Parcel-12* remained in this configuration through 1959, when the structures were demolished and the parcel was redeveloped into a parking lot, as it remains today.

Parcel-13 (1003 North Hudson Avenue; 6551-6561 Romaine Street) – The southeast portion of the subject property was undeveloped in 1919. In 1920, a private garage was constructed in the north portion of the parcel. By 1950, two residential structures had been developed in the east and west portions of the parcel, respectively. *Parcel-13* remained in this configuration through 1986, when the structures were demolished and the parcel was redeveloped into a parking lot, as it remains today.

Parcel-25 (1000 and 1006 Seward Street; 6565-6575 Romaine Street) – The western half of the subject property was undeveloped in 1919. In 1920, a residential structure was developed in the north portion of the parcel. In 1937, the existing restaurant (1006 Seward) was developed to the west of the residential structure and the existing southwest portion commercial building (1000 Seward) was developed for use as a radio equipment warehouse. By 1951, the subject property was utilized solely for commercial purposes. The existing northeast portion structure (6565 Romaine) was developed in 1960 as a radio equipment repair shop. Previous tenants for 1000 Seward include: World Broadcasting Corp. (1942); The Langevin Co. Inc. (1942-1951); General Radio Co. (1942-1967); B&W Editorial Services (1976); HBO Laguna Heat (1990); and television show "Orange is the New Black" (current tenant). Previous tenants for 1006 Seward include: residential tenants (1920 through at least 1942); Seward Melville Café/Melville Café (1951-1958); Lillian Apfel Café (1962); The Studio Café (1967); The Studio Coffee Shop (1971-1990); Hollywood Canteen (1991-2006); and Rao's Italian (current tenant). Previous tenants for 6565 Romaine include: a radio equipment repair shop (1960-1969); Telescopics (1962-1976); The Langevin Co. Inc. (1962-1981); Telecine Tech Inc. (1990); The Arena US LLC (2008); and Lurssen Mastering (current tenant).

- The earliest historical resource obtained during this investigation was a Sanborn map from 1919 which indicated development of portions of the subject property for residential uses. The lack of historical data sources for the subject property dating back to first developed uses represents historical data source failure. However, it is assumed that prior to 1919 the subject property would have been developed for residential uses, if not undeveloped. Based on this notion, this limitation is not expected to significantly alter the findings of this investigation.

Environmental Data Search

- The subject property is not listed on any of the regulatory databases researched.
- In our opinion, none of the other sites listed on the regulatory database report pose a significant threat to the subject property as there is no indication of a release at the respective sites, a release has occurred but groundwater has not been impacted, a release has occurred but the case is closed, or the sites are located cross or down gradient of the subject property and in excess of 1/10 mile from the subject property.
- The Los Angeles Regional Water Quality Control Board (LARWQCB), Department of Toxic Substances Control (DTSC), South Coast Air Quality Management District (SCAQMD), Los Angeles County Department of Public Health Public Health Investigation (LAC DHS PHI), Los Angeles Fire Department (LAFD) Underground Storage Tank (UST), Hazardous Materials (HAZMAT), and Central Industrial (CI) Divisions, and Los Angeles Bureau of Sanitation (LABS) were contacted regarding permits and site investigation files, hazardous materials, underground storage tank, and industrial waste discharge records for the subject property. Additionally, the State Water Resources Control Board (SWRCB) GeoTracker, DTSC EnviroStor and Hazardous Waste Tracking System (HWTS), and SCAQMD Facility Information Detail (FIND) databases were reviewed. According to responses to our requests and the online databases, there are no files for the subject property with the exception of the following:

  According to LABS records provided for 1006 Seward Street (*Parcel-25*), a permit to discharge soap and detergent from floor and equipment washing was issued to The Studio Coffee Shop in 1968. The

permit was subsequently cancelled on an unspecified date. Permits to discharge wastewater from restaurant activities were issued to Hollywood Canteen from at least 2002 through 2005. No citations have been issued to the subject property for the past 5 years and no evidence of hazardous material use/disposal or industrial operations was identified. Based on regulatory oversight, lack of evidence of hazardous material use, and type of wastewater being discharged (from restaurant activities only), the information provided by LABS is not expected to represent a significant environmental concern for the subject property.

At the time this report was issued, no responses have been received from the DTSC, LAFD UST, and LAFD HAZMAT. Should relevant information be obtained from these agencies subsequent to issuing this report, an addendum will be prepared and provided to the Client.

- The City of Los Angeles NavigateLA Online Mapping System was reviewed to obtain substructure maps for the subject property. According to a review of the substructure maps for the subject property, no USTs or other substructure features were identified in the area of the subject property.
- The Division of Oil, Gas, and Geothermal Resources (DOGGR) Online Mapping System was reviewed for information pertaining to oil and gas exploration on or nearby the subject property. No oil wells were identified within 500 feet of the subject property.
- The user did not provide Andersen Environmental any information either verbally or in writing (i.e. Title Report) regarding environmental cleanup liens or activity and use limitations encumbering the subject property. An environmental lien search was not requested by the user; however, based on our review of the Department of Toxic Substances Control (DTSC) EnviroStor Database, no environmental liens enforced by the DTSC were identified.

Additional Issues

- Based on the age of the onsite structures (pre-1970), there is a potential for asbestos-containing building materials (ACMs) and lead-based paint at the site. Potential ACMs observed include drywall partitions. All current building materials and observable painted surfaces appear to be in good condition; however, no testing was performed as part of this assessment.
- According to our research, radon potential at the subject property is considered low.
- Andersen Environmental did not observe visible or olfactory indications of the presence of mold, nor did Andersen Environmental observe obvious indications of significant water damage.
- The City of Los Angeles Methane Zone map was reviewed to determine if the subject property is located in a methane or methane buffer zone. According to the map reviewed, the subject property is located within a methane buffer zone. Due to the potential risks associated with construction in Methane Zones, the property owner may be required to conduct a methane assessment prior to the redevelopment of the subject property and methane mitigation systems may be required (Division 71 of the Los Angeles Building Code).

CONCLUSIONS

Andersen Environmental has performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Practice 1527-13, at 1000 and 1006 Seward Street, 6565 Romaine Street, 1003, 1007, & 1013 North Hudson Avenue, Los Angeles, California, the subject property. Any exceptions to or deletions from this practice are described in the individual sections of this report. This assessment has revealed no evidence of recognized environmental conditions in connection with the subject property.

Recognized Environmental Conditions (REC)
In our opinion, no RECs were revealed during the course of our assessment.

Historical Recognized Environmental Condition (HREC)
In our opinion, no HRECs were revealed during the course of our assessment.

Controlled Recognized Environmental Condition (CREC)
In our opinion, no CRECs were revealed during the course of our assessment.

RECOMMENDATIONS

Based on the foregoing, no additional investigation is recommended at this time.

1.0 INTRODUCTION

Andersen Environmental has performed a Phase I Environmental Site Assessment (Phase I) for the property located at 1000 and 1006 Seward Street, 6565 Romaine Street, 1003, 1007, & 1013 North Hudson Avenue, in Los Angeles County in the Hollywood neighborhood of the City of Los Angeles, California (Subject Property). This report has been prepared for the sole use of The Post Group (Client).

The research conducted for this study and the report prepared are in general conformance with the EPA "All Appropriate Inquiries" standard and the ASTM 1527-13 "Standard Practices for Environmental Site Assessments: Phase I Environmental Site Assessment Process". The primary purpose for performing a Phase I ESA is to "…permit a user to satisfy one of the requirements to qualify for the innocent landowner, contiguous property owner, or bona fide prospective purchaser limitations (commonly known as landowner liability protections) on Comprehensive Emergency Response Compensation and Liability Act (CERCLA) liability." (ASTM, 2013) An environmental site assessment meeting or exceeding this practice and completed less than 180 days prior to the date of acquisition is presumed to be valid under this standard. In order to maintain landowner liability protections, the user also has a "continuing obligation to not interfere with activity and use limitations associated with the property," must take "reasonable steps to prevent releases" and must "comply with legal release reporting obligations." (ASTM, 2013) Further, it is the goal of this study to identify business risks related to the property associated with environmental conditions. This investigation is not an environmental compliance audit and is not designed to determine if the operations of an existing facility are in compliance with applicable environmental laws and regulations.

The goal of this process is to identify any (1) recognized environmental conditions (RECs), (2) historical recognized environmental conditions (HRECs), and/or (3) controlled recognized environmental conditions (CRECs) associated with the subject property.

1. A **recognized environmental condition** is defined as "…the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to any release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment." This definition does not include *de minimis* conditions defined as "a condition that generally does not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies" (ASTM, 2013).

2. A **historical recognized environmental condition** is defined as "a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls)." (ASTM, 2013). The HREC designation requires the comparison of residual contamination concentrations, if any, to currently regulatory standards.

3. A **controlled recognized environmental condition** is defined as "a recognized environmental condition resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (for example, as evidenced by the issuance of a no further action letter or equivalent, or meeting risk-based criteria established by regulatory authority), with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls)" (ASTM, 2013).

In order to identify environmental conditions at the site, the Phase I ESA includes a site inspection, interviews with parties familiar with the property, historical research into the past uses of the property, and an environmental records search with regard to the subject property, adjoining and immediately surrounding properties, and the surrounding area. In addition, Andersen Environmental provides an opinion regarding the potential for asbestos containing materials, lead-based paints, mold, radon, oil and gas exploration, and methane as they relate to the subject property. Reviewing those documents that are publicly available, reasonably ascertainable, and practically reviewable controls the completeness of this assessment. The inability to review documents which do not exist or are not publicly available, reasonably ascertainable, or practically reviewable may result in a data gap.

1.1 SIGNIFICANT ASSUMPTIONS

While this report provides an overview of potential environmental concerns, both past and present, the environmental assessment is limited by the availability of information at the time of the assessment. It is possible that unreported disposal of waste or illegal activities impairing the environmental status of the property may have occurred which could not be identified. The conclusions and recommendations regarding environmental conditions that are presented in this report are based on a scope of work authorized by the Client. Note, however, that virtually no scope of work, no matter how exhaustive, can identify all contaminants or all conditions above and below ground.

1.2 LIMITATIONS AND EXCEPTIONS

This report has been prepared in accordance with generally accepted environmental methodologies referred to in ASTM 1527-2013, and contains all of the limitations inherent in these methodologies. No other warranties, expressed or implied, are made as to the professional services provided under the terms of our contract and included in this report. The conclusions of this report are based in part, on the information provided by others. The possibility remains that unexpected environmental conditions may be encountered at the site in locations not specifically investigated. The services performed and outlined in this report were based, in part, upon visual observations of the site and attendant structures. Our opinion cannot be extended to portions of the site that were unavailable for direct observation, reasonably beyond the control of Andersen Environmental. The objective of this report was to assess environmental conditions at the site, within the context of our contract and existing environmental regulations within the applicable jurisdiction. Evaluating compliance of past or future owners with applicable local, provincial, and federal government laws and regulations was not included in our contract for services. Our observations relating to the condition of environmental media at the site are described in this report. It should be noted that compounds or materials other than those described could be present in the site environment.

1.3 RELIANCE

This report has been prepared for the sole use of The Post Group. The contents should not be relied upon by any other parties without the express written consent of The Post Group and Andersen Environmental.

1.4 USER RESPONSIBILITIES

The United States Environmental Protection Agency (USEPA) All Appropriate Inquiry (AAI) and ASTM E 1527-13 Phase I Standards require that the user conduct independent research and consider certain information before purchasing a property:

- Obtain a recent (less than 180 days old) title report prepared for the subject property. The report should be reviewed to obtain information regarding environmental clean-up liens or activity and use

limitations (AULs) with regard to the subject property. If environmental cleanup liens or AULs encumbering the subject property or in connection with the subject property are identified, the user should provide that information to the Environmental Professional (Andersen Environmental). If the user has actual knowledge of environmental cleanup liens or AULs encumbering the subject property or in connection with the subject property, the user should provide that information to the Environmental Professional (Andersen Environmental).

- The user should provide the Environmental Professional (Andersen Environmental) with any specialized knowledge the user has with regard to recognized environmental conditions in connection with the property.

- If the user is aware of any commonly known information in the community about the subject property with respect to recognized environmental conditions, the user should provide the information to the Environmental Professional (Andersen Environmental).

- If this Phase I ESA was prepared as due diligence for a property transaction, it is the responsibility of the user to consider the relationship of the purchase price to the fair market value of the property. If the purchase price is significantly lower than the fair market value, the user should identify the alternate reason for the low purchase price if the lower purchase price is not related to the property being affected by hazardous substances or petroleum products.

2.0 SITE DESCRIPTION

Andersen Environmental has performed a Phase I for a commercial property located at 1000 and 1006 Seward Street, 6565 Romaine Street, 1003, 1007, & 1013 North Hudson Avenue, in Los Angeles County in the Hollywood neighborhood of the City of Los Angeles, California. The subject property is bounded to the north by commercial developments, to the east by North Hudson Avenue, to the west by Seward Street, and to the south by Romaine Street, in the Hollywood neighborhood of the City of Los Angeles. The subject property consists of four contiguous parcels which are approximately 0.78 acre in total size. The eastern half of the subject property consists of Parcels 5533-012-011 (*Parcel-11*), 5533-012-012 (*Parcel-12*), and 5533-012-013 (*Parcel-13*), which are collectively developed as an asphalt paved parking lot. The western half of the subject property consists of Parcel 5533-012-025 (*Parcel-25*), which is developed with three single-story commercial structures: an approximately 2,511 square-foot restaurant structure in the northwest portion (1006 Seward Street), currently occupied by Rao's Italian; an approximately 3,960 square-foot production space in the southwest portion (1000 Seward Street), currently utilized by the television show "Orange is the New Black"; and an approximately 4,482 square-foot mastering studio in the northeast portion (6565 Romaine Street), currently occupied by Lurssen Mastering. The surrounding area is mostly used for commercial and residential purposes.

Natural gas is provided to the subject property by Southern California Gas Company. Electrical services, potable water and sewer services are provided by City of Los Angeles Department of Water and Power.

2.1 CURRENT AND HISTORICAL ADDRESSES

According to our research and information provided by the Client, the following addresses have been found to be associated with the subject property: 1000 and 1006 Seward Street; 6551, 6561, 6565, and 6575 Romaine Street; and 1003, 1007, and 1013 North Hudson Avenue, Los Angeles, California.

2.2 LEGAL DESCRIPTION

According to the Los Angeles County Assessor's Office, the subject property is located in the Hollywood neighborhood of the City of Los Angeles, and is described by the Assessor's Parcel Numbers: 5533-012-011, 5533-012-012, 5533-012-013, and 5533-012-025.

2.3 PHYSICAL SETTING

The elevation of the subject property is approximately 293 feet above sea level (USGS Hollywood, CA 7.5 minute topographic quadrangle). Based on our review of the GeoCheck Section of the EDR Radius report, the subject property is not situated within a 100-year FEMA Flood Zone. No wetlands were identified at the property or adjoining/immediately surrounding properties. Based on our review of groundwater data presented in the State Water Resources Control Board (SWRCB) GeoTracker website, groundwater was detected at an immediately surrounding leaking underground storage tank site (959 Seward Street) approximately 70 feet to the southwest of the subject property at approximately 15- to 20-feet below ground surface. Based on regional groundwater data, regional groundwater flow direction is estimated to be to the south-southwest; however local groundwater flow direction may vary.

3.0 SITE RECONNAISSANCE / INTERVIEWS

3.1 SITE RECONNAISSANCE

On July 15, 2015, George Pallo conducted a site reconnaissance of the subject property. The site inspection was conducted to attempt to identify current site use(s), current hazardous materials storage, and evidence of past site uses and hazardous material storage and to identify evidence of other recognized environmental conditions. The following table summarizes our Site Reconnaissance observations:

Yes	No	Observed Feature(s)
☐	☒	Hazardous Substances and Petroleum Products Containers
☐	☒	Underground and/or Aboveground Storage Tanks
☒	☐	Drains/Sumps/Clarifiers/Sewer Interceptors/Septic Systems
☐	☒	Stained or Corroded Surfaces/Stained Soil or Stressed Vegetation
☐	☒	Pits/Ponds/Lagoons/Wetlands
☐	☒	Electrical Equipment with the Potential to contain Fluids
☒	☐	Production or Monitoring Wells
☐	☒	Evidence of Solid Waste Disposal/Dumping/Fill Areas

3.1.1 EXTERIOR OBSERVATIONS

The subject property consists of four contiguous parcels which are approximately 0.78 acre in total size. The eastern half of the subject property consists of *Parcels-11, -12,* and *-13*, which are collectively developed as an asphalt paved parking lot. The western half of the subject property consists of *Parcel-25*, which is developed with three single-story commercial structures. The asphalt appeared to be in good condition with slight surficial staining observed from regular vehicular movement. A grease interceptor was observed to the north of the on-site restaurant (northwest portion). Based on the materials entering the interceptor (food waste only), this feature is not expected to represent a significant environmental concern for the subject property. No recognized environmental conditions were observed in this portion of the site.

3.1.2 INTERIOR OBSERVATIONS

The western half of the subject property consists of Parcel 5533-012-025 (*Parcel-25*), which is developed with three single-story commercial structures: an approximately 2,511 square-foot restaurant structure in the northwest portion (1006 Seward Street), currently occupied by Rao's Italian; an approximately 3,960 square-foot production space in the southwest portion (1000 Seward Street), currently utilized by the television show "Orange is the New Black"; and an approximately 4,482 square-foot mastering studio in the northeast portion (6565 Romaine Street), currently occupied by Lurssen Mastering. Combined, the

buildings provide approximately 10,953 square-feet of gross building space. The structures are of concrete masonry unit (block) construction, with concrete foundations, and wood panelized roofs. Building materials observed included drywall partitions, carpeting, ceramic tile, and 2' by 4' drop ceiling panels. It is possible that lathe and plaster portions of the interior walls are still present. Floor drains were observed with the kitchen areas of the on-site restaurant. No staining or hazardous materials were observed in the vicinity of the floor drains. HVAC systems were observed on the roofs which consists of multiple and 5-ton electric package and split system units. According to the City of Los Angeles, the buildings are connected to the city's sewer and water supplies.

3.1.3 RECONNAISSANCE LIMITATIONS

No significant limitations were encountered during our reconnaissance of the subject property.

3.2 ADJOINING AND IMMEDIATELY SURROUNDING PROPERTIES

The adjoining and immediately surrounding properties (within 100-feet of the subject property boundary) were visually and physically observed from public right-of ways and the subject property in an attempt to identify recognized environmental conditions. Our observations are summarized in the following table:

Location	Address(es)	Uses/Observations
North	1010-1012 Seward Street 1017 North Hudson Avenue	Hollywood Center Studios Storage Vaults Residential
Northeast	1016 North Hudson Avenue	Residential
Northwest	1013 Seward Street	Commercial – offices
South	956-962 Seward Street 957-959 North Hudson Avenue	Parking lot
Southeast	956 North Hudson Avenue 6514-6520 Romaine Street	Residential
Southwest	6624 Romaine Street 959 Seward Street	Commercial
East	1002-1016 North Hudson Avenue 6515 Romaine Street	Residential
West	1007 Seward Street 6601 Romaine Street	Commercial – offices

The adjoining/immediately surrounding properties to the south and southwest were listed on the regulatory database report and are further discussed in Section 5.2.

3.3 SURROUNDING AREA OBSERVATIONS

3.3.1 SURROUNDING PROPERTY USES

The surrounding area is mostly developed with commercial and residential structures. A monitoring well was observed on the southwest corner of Seward Street and Romaine Street, approximately 70 feet southwest of the subject property. The monitoring well is associated with an immediately surrounding Spills, Leaks, Investigations, and Cleanup (SLIC) case investigation at 959 Seward Street, which is further discussed in Section 5.2.

3.3.2 SURROUNDING GEOGRAPHY

The surrounding area is mostly flat with a slight topographic slope to the south. No nearby hills or bedrock outcroppings were observed in the area of the site. No lakes, ponds, rivers or streams were observed in the surrounding area.

3.4 INTERVIEWS

3.4.1 Property Owner – The property owner, Ms. Barbara Rodney, completed an environmental questionnaire for the purpose of this assessment dated July 10, 2015. According to Ms. Rodney, the subject property is currently occupied by the following tenants: Lurssen Mastering, "Orange is the New Black" Production Space, and Rao's Italian. Ms. Rodney was not aware of any environmental conditions at the subject property.

3.4.2 Key Site Manager – Andersen Environmental was granted access to the subject property by Mr. Paul Brehme, the owner's broker. Mr. Brehme was not aware of any environmental conditions at the subject property.

3.4.3 Property Occupants – No occupants were available for interview during the completion of this report.

3.4.4 Past Owners, Operators and Occupants – Past owners, operators and occupants were not able to be identified for an interview for this report.

3.4.5 Prospective Purchaser – Mr. Matthew Cooper, the prospective purchaser, completed an environmental questionnaire for the purpose of this report, dated July 27, 2015. Mr. Cooper was unaware of any recognized environmental conditions such as underground storage tanks or any generated hazardous materials associated with the property.

3.5 USER PROVIDED INFORMATION

The United States Environmental Protection Agency (USEPA) All Appropriate Inquiry (AAI) and ASTM 1527-13 Phase I Standards require that the Report User conduct independent research and consider certain information before purchasing a property. Andersen Environmental recommends that the User documents completion of the following items:

3.5.1 LIEN SEARCH

The User is required to obtain a recent (less than 180 days old) title report prepared for the subject property. The report should be reviewed to obtain information regarding environmental clean-up liens or activity and use limitations with regard to the subject property. If environmental cleanup liens or activity and use limitations encumbering the subject property or in connection with the subject property are identified, the User should provide that information to the Environmental Professional (Andersen Environmental). If the User has actual knowledge of environmental cleanup liens or activity and use limitations encumbering the

subject property or in connection with the subject property, the User should provide that information to the Environmental Professional (Andersen Environmental).

- The user did not provide Andersen Environmental any information either verbally or in writing (i.e. Title Report) regarding environmental cleanup liens or activity and use limitations encumbering the subject property. An environmental lien search was not requested by the user; however, based on our review of the Department of Toxic Substances Control (DTSC) EnviroStor Database, no environmental liens enforced by the DTSC were identified.

3.5.2 SPECIALIZED KNOWLEDGE

The User should provide the Environmental Professional (Andersen Environmental) with any specialized knowledge the User has with regard to recognized environmental conditions in connection with the property.

- The User has no specialized knowledge with respect to recognized environmental conditions in connection with the property.

3.5.3 COMMONLY KNOWN OR REASONABLY ASCERTAINABLE INFORMATION

If the User is aware of any commonly known information in the community about the subject property with respect to recognized environmental conditions, the User should provide the information to the Environmental Professional (Andersen Environmental).

- The User is not aware of any commonly known information in the community about the subject property with respect to recognized environmental conditions.

3.5.4 PROPERTY VALUATION

If this Phase I ESA was prepared as due diligence for a property transaction, it is the responsibility of the User to consider the relationship of the purchase price to the fair market value of the property. If the purchase price is significantly lower than the fair market value, the User should identify the alternate reason for the low purchase price if the lower purchase price is not related to the property being affected by hazardous substances or petroleum products.

- According to the User, the purchase price generally reflects the fair market value of the property.

3.5.5 PURPOSE OF PERFORMING PHASE I ESA

According to the User, the user is a prospective purchaser of the subject property and the Phase I is being performed to qualify for landowner liability protections under CERCLA as well as identify business risks related to the property associated with environmental conditions.

3.6 USER PROVIDED DOCUMENTS

No documents were provided to Andersen Environmental by the Report User.

4.0 HISTORICAL LAND USE

A review of historical data derived from standard historical resources is provided in this section. The objective of consulting historical sources is to develop a history of the previous uses of the property and surrounding area, in order to help identify the likelihood of past uses having led to recognized environmental conditions in connection with the property. During our historical review, acute attention is paid to the subject property. Data relating to the adjoining and immediately surrounding properties (within 100-feet of the subject property boundary) and the surrounding area is reviewed to the extent that it is revealed in the course of researching the property itself.

4.1 AERIAL PHOTOGRAPHY REVIEW

Aerial Photography of many portions of the United States dates back to the 1920's. Items searched for in each photograph included, but were not limited to: evidence of tanks, gas stations, industrial site usage, water drainage pathways, areas which show evidence of drums or excessive debris, discolored or stained soils, areas of distressed vegetation, et cetera. Aerial Photograph Coverage was available from Environmental Data Resources (EDR) and the Nationwide Environmental Title Research (NETR) Historic Aerials online database for the years: 1928, 1938, 1947, 1948, 1952, 1954, 1956, 1964, 1965, 1972, 1976, 1980, 1989, 1994, 2002, 2003, 2004, 2005, and 2012. A summary of our observations is presented in the following table.

1928			
Subject Property	**Adjoining and Notable Immediately Surrounding Property Observations**		**Notable Observations of the Surrounding Area**
	Direction	**Observation**	
Parcel-11, -12, & -13: Appear to be developed with residential structures. *Parcel-25*: Appears to be developed in the northwest portion with a residential structure. The remainder appears to be unimproved.	North	Residential	Appears to be developed for residential or commercial purposes.
	Northeast		
	Northwest	Vacant	
	South	Residential	
	Southeast		
	Southwest	Commercial	
	East	Residential	
	West	Vacant	
1938, 1947, 1948, 1952, 1954, and 1956			
Subject Property	**Adjoining and Notable Immediately Surrounding Property Observations**		**Notable Observations of the Surrounding Area**
	Direction	**Observation**	
Parcel-11, -12, & -13: Appear to be developed with residential structures. *Parcel-25*: Appears to be developed with two of the existing commercial structures in the northwest and southwest portions, respectively.	North	Residential	Appears to be developed for residential or commercial purposes.
	Northeast		
	Northwest	Commercial	
	South	Residential/Commercial	
	Southeast	Residential	
	Southwest	Commercial	
	East	Residential	
	West	Commercial	

1964, 1965, 1972, 1976, and 1980			
Subject Property	**Adjoining and Notable Immediately Surrounding Property Observations**		**Notable Observations of the Surrounding Area**
	Direction	**Observation**	
Parcel-11 & -13: Appear to be developed with residential structures. *Parcel-12:* Appears to be developed as a parking lot. *Parcel-25:* Developed with the existing three commercial structures in the northwest, northeast, and southwest portions, respectively.	North	Commercial/Residential	Appears to be developed for residential or commercial purposes.
	Northeast	Residential	
	Northwest	Commercial	
	South		
	Southeast	Residential	
	Southwest	Commercial	
	East	Residential	
	West	Commercial	
1989, 1994, 2002, 2003, 2004, 2005, and 2012			
Subject Property	**Adjoining and Notable Immediately Surrounding Property Observations**		**Notable Observations of the Surrounding Area**
	Direction	**Observation**	
Parcel-11, -12, & -13: Appear to be collectively developed as a parking lot. *Parcel-25:* Developed with the existing three commercial structures in the northwest, northeast, and southwest portions, respectively.	North	Commercial/Residential	Appears to be developed for residential or commercial purposes.
	Northeast	Residential	
	Northwest	Commercial	
	South		
	Southeast	Residential	
	Southwest	Commercial	
	East	Residential	
	West	Commercial	

4.2 BUILDING DEPARTMENT RECORDS REVIEW

The addresses identified as current and historical addresses for the subject property were researched at the City of Los Angeles Building Division. Items considered in the course of the building permit review are previous site usage, previous ownership, and the construction or demolition of any structures that may have had a negative environmental impact on the property. The following table summarizes relevant building permits obtained and reviewed:

Parcel 5533-012-011

Address	Date	Owner/Occupant	Purpose
1013 North Hudson Avenue	Illegible	Bill Gordan	Extend existing "accessory living" structure
	03/07/1921	Mrs. Lizzie Brunty	Construct a single family residence
	01/21/1929	John F. Brunty	Construct private garage for residential property
	02/14/1949	Bill Gordan	Certificate of Occupancy: accessory living quarters
	06/21/1957	William Gordan	Alter existing single family residence to 3-family apartment building

Parcel 5533-012-011 (continued)

Address	Date	Owner/Occupant	Purpose
1013 North Hudson Avenue	02/04/1959	Not listed	Certificate of Occupancy: convert a single family residence to a 3-family apartment
	09/24/1982	Agnes Langevin	Demolish existing structure/clear lot
	07/30/1985	Langevin	Develop parking lot
	09/19/1985	Langevin	Certificate of Occupancy: Use of Land Parking Lot

Parcel 5533-012-012

Address	Date	Owner/Occupant	Purpose
1007 North Hudson Avenue	03/09/1922	Fred Conn	Addition of screen porch and breakfast room to existing single family residence
	04/11/1927	Sophie Marx	Construction of garage for residential property
	03/13/1959	C.C. Langevin	Demolish dwelling (no basement)
	04/01/1959	Carl Langevin	Redevelop property into a parking lot
	06/08/1959	Not listed	Certificate of Occupancy: parking lot

Parcel 5533-012-013

Address	Date	Owner/Occupant	Purpose
1003 North Hudson Avenue	10/05/1920	Mr. and Mrs. C. Fuller	Construct a private garage
	07/29/1986	Mr. and Mrs. C. Fuller	Demolish existing structure
	09/05/1986	Agnes Languvin	Change use of land to parking lot
	10/10/1986	Agnes Languvin	Certificate of Occupancy: parking lot
	03/13/2013	Barbara J. Rodney Trust	Re-stripe one standard stall to create one handicap stall within existing parking lot

Parcel 5533-012-025

Address	Date	Owner/Occupant	Purpose
1000 Seward Street	09/01/1937	C.C. Langevin Company	Construct an office building
	10/25/1957	Mr. Moore	Not listed
	08/31/1959	C.C. Langevin	Addition of interior partitions and ceilings not supported by truss
	10/02/1959	C.C. Langevin	Ceiling support and new exit door
	11/17/1993	Douglas M. Langevin	Re-roof 4-ply built up roof
1006 Seward Street	12/17/1920	S.B. Brodlead	Construct a residential structure
	06/09/1937	Dick King	Add café building in front of existing residence
	01/16/1991	Hollywood Canteen Inc.	Repair stucco, paint
	09/25/1996	Chin L. Kim	Remodel existing bar
	07/26/2000	Agnes Langevin	Install new counter/cabinet in restaurant

Parcel 5533-012-025 (continued)

Address	Date	Owner/Occupant	Purpose
1006 Seward Street (continued)	11/26/2012	Barbara J. Rodney	Demolition of built-in mill work, plumbing fixtures, interior finishes, and non-bearing partitions of existing 806 square-feet restaurant
	03/13/2013	Barbara J. Rodney Trust	Remodel existing restaurant, kitchen and bathroom expansion, open outdoor dining area

- There were no building permits identified for the other current or historical site addresses.

4.3 CITY DIRECTORY REVIEW

City directories have been published since the 1800's and provide detailed occupant information for the property and its surrounding area at five-year intervals. The purpose of the City Directory research is to attempt to determine the businesses that historically occupied the subject property. Historical City Directories provided by EDR and reviewed by Andersen Environmental are listed below.

1000 Seward Street

Date	Listing
1942	World Broadcasting Corp.; The Langevin Co. Inc.; General Radio Co.
1951	Langevin Co. Inc.; General Radio Co.
1967	General Radio Co.
1976	B&W Editorial Services
1990	HBO Laguna Heat

1006 Seward Street

Date	Listing
1924-1942	Residential
1951	Seward Melville Cafe
1958	Melville Cafe
1962	Lillian Apfel Café
1967	The Studio Café
1971-1990	The Studio Coffee Shop
2000-2006	Hollywood Canteen

6561 Romaine Street

Date	Listing
1924-1971	Residential

6565 Romaine Street

Date	Listing
1962-1976	The Langevin Co. Inc.; Telescopics
1981	Langevin Co. Inc.
1990	Telecine Tech Inc.
2008	The Arena US LLC

1003 North Hudson Avenue

Date	Listing
1929-1976	Residential

1007 North Hudson Avenue

Date	Listing
1929-1958	Residential

1013 North Hudson Avenue

Date	Listing
1929-1942	Residential

- There were no city directory listings identified for the other current or historical site addresses.
- The adjoining/immediately surrounding property to the southwest (Consolidated Film Industries) was listed on the regulatory database report and is further discussed in Section 5.2.

4.4 SANBORN MAP REVIEW

Originally compiled by the Sanborn Map Company of Pelham, New York for fire insurance companies to assess fire risks related to building materials and hazardous materials storage, today Sanborn Maps are an invaluable tool for Environmental Professionals in determining historical site use and the potential for environmental conditions. Sanborn Map Coverage is available from as early as 1867 in some cities. Although Sanborn maps were created for approximately twelve thousand cities and towns in the United States, Canada, and Mexico, Sanborn Map Coverage is not available in newer and more rural communities. Sanborn Map Coverage was available from EDR for the years: 1919, 1950, 1955, 1956, 1957, 1959, 1960, 1961, 1966, 1968, and 1969. A summary of our observations is presented in the following table.

1919			
Subject Property	**Adjoining and Notable Immediately Surrounding Property Observations**		**Notable Observations of the Surrounding Area**
	Direction	**Observation**	
Parcel-12: Depicted as developed with a residential structure in the east portion. *Parcel-11, -13, and -25*: Depicted as undeveloped.	All	Residential or undeveloped	Depicted as either undeveloped or developed for commercial or residential purposes.

1950, 1955, 1956, 1957, and 1959			
Subject Property	**Adjoining and Notable Immediately Surrounding Property Observations**		**Notable Observations of the Surrounding Area**
	Direction	**Observation**	
Parcel-11: Developed with two dwellings in the east and west portions, respectively. *Parcel-12:* Developed with a dwelling in the east portion and garage in the northwest corner. *Parcel-13*: Developed with two dwellings in the east and west portions, respectively and a garage in the north central portion. *Parcel-25*: Developed with a restaurant northwest portion and a radio equipment warehouse/laboratory in the southwest portion.	North	Residential, Film Vaults by 1955	Depicted as developed for commercial and residential purposes.
	Northeast	Residential	
	Northwest	Electric Research Products – Garage (not depicted 1955-1959)	
	South	Residential/Day Nursery, office and storage by 1955	
	Southeast	Residential	
	Southwest	Consolidated Film Industries – film cutting, coloring, and developing (not depicted 1955-1959)	
	East	Residential	
	West	Electric Research Products – Office, Warehouse, Laboratory (not depicted 1955-1959)	
1960, 1961, 1966, and 1968			
Subject Property	**Adjoining and Notable Immediately Surrounding Property Observations**		**Notable Observations of the Surrounding Area**
	Direction	**Observation**	
Parcel-11: Developed with two dwellings in the east and west portions, respectively. *Parcel-12:* Developed as a parking lot. *Parcel-13*: Developed with two dwellings in the east and west portions, respectively and a garage in the north central portion. *Parcel-25*: Developed with a restaurant northwest portion, a Radio Equipment Repair shop in the northeast portion (store by 1968), and a radio equipment warehouse/laboratory in the southwest portion.	North	Residential and Film Vaults	Depicted as developed for commercial and residential purposes.
	Northeast	Residential	
	Northwest	Not depicted	
	South	Offices, Television and Movie Supply Storage	
	Southeast	Residential	
	Southwest	Not depicted	
	East	Residential	
	West	Not depicted	

1969			
Subject Property	**Adjoining and Notable Immediately Surrounding Property Observations**		**Notable Observations of the Surrounding Area**
	Direction	**Observation**	
Same configuration as the 1968 Sanborn Map.	North	Residential and Film Vaults	Depicted as developed for commercial and residential purposes.
	Northeast	Residential	
	Northwest	Cascade Pictures of California, Inc. – receiving and recording studios	
	South	Offices, Television and Movie Supply Storage	
	Southeast	Residential	
	Southwest	Consolidated Film Industries – film developing and printing	
	East	Residential	
	West	Cascade Pictures of California, Inc. – movies and animated cartoons studio	

- Sanborn maps indicated the following historical street addresses associated with the subject property: 1000 and 1006 Seward Street; 6551, 6561, 6565, and 6575 Romaine Street; and 1003, 1007, and 1013 North Hudson Avenue. These addresses were researched during the completion of this report.
- The adjoining/immediately surrounding property to the southwest (Consolidated Film Industries) was listed on the regulatory database report and is further discussed in Section 5.2.

4.5 HISTORICAL SUMMARY

4.5.1 SUBJECT PROPERTY

According to Andersen Environmental's interpretation of the historical research data, the subject property underwent separate courses of development as described below:

Parcel-11 (1013 North Hudson Avenue) – The northeast portion of the subject property was undeveloped in 1919. A single family residence and private garage were constructed in 1921 and 1929, respectively. In 1957, the residence was converted into a 3-family apartment building. *Parcel-11* remained in this configuration through 1982, when the structures were demolished. By 1985, *Parcel-11* was developed into a parking lot, as it remains today.

Parcel-12 (1007 North Hudson Avenue) – The east portion of the subject property was developed with a residential structure by 1919. A private garage was constructed in 1927. *Parcel-12* remained in this configuration through 1959, when the structures were demolished and the parcel was redeveloped into a parking lot, as it remains today.

Parcel-13 (1003 North Hudson Avenue; 6551-6561 Romaine Street) – The southeast portion of the subject property was undeveloped in 1919. In 1920, a private garage was constructed in the north portion of the parcel. By 1950, two residential structures had been developed in the east and west portions of the parcel,

respectively. *Parcel-13* remained in this configuration through 1986, when the structures were demolished and the parcel was redeveloped into a parking lot, as it remains today.

Parcel-25 (1000 and 1006 Seward Street; 6565-6575 Romaine Street) – The western half of the subject property was undeveloped in 1919. In 1920, a residential structure was developed in the north portion of the parcel. In 1937, the existing restaurant (1006 Seward) was developed to the west of the residential structure and the existing southwest portion commercial building (1000 Seward) was developed for use as a radio equipment warehouse. By 1951, the subject property was utilized solely for commercial purposes. The existing northeast portion structure (6565 Romaine) was developed in 1960 as a radio equipment repair shop. Previous tenants for 1000 Seward include: World Broadcasting Corp. (1942); The Langevin Co. Inc. (1942-1951); General Radio Co. (1942-1967); B&W Editorial Services (1976); HBO Laguna Heat (1990); and television show "Orange is the New Black" (current tenant). Previous tenants for 1006 Seward include: residential tenants (1920 through at least 1942); Seward Melville Café/Melville Café (1951-1958); Lillian Apfel Café (1962); The Studio Café (1967); The Studio Coffee Shop (1971-1990); Hollywood Canteen (1991-2006); and Rao's Italian (current tenant). Previous tenants for 6565 Romaine include: a radio equipment repair shop (1960-1969); Telescopics (1962-1976); The Langevin Co. Inc. (1962-1981); Telecine Tech Inc. (1990); The Arena US LLC (2008); and Lurssen Mastering (current tenant).

4.5.2 ADJOINING AND IMMEDIATELY SURROUNDING PROPERTIES

According to Andersen Environmental's interpretation of the historical research data, the adjoining and immediately surrounding properties were developed for residential and commercial purposes sometime prior to the early 1920s, as it remains today.

- The adjoining/immediately surrounding property to the southwest (Consolidated Film Industries) was listed on the regulatory database report and is further discussed in Section 5.2.

4.5.3 SURROUNDING AREA

According to Andersen Environmental's interpretation of the historical research data, the surrounding area was developed for residential and commercial purposes sometime prior to the early 1920s, as it remains today.

4.6 HISTORICAL DATA GAPS

The earliest historical resource obtained during this investigation was a Sanborn map from 1919 which indicated development of portions of the subject property for residential uses. The lack of historical data sources for the subject property dating back to first developed uses represents historical data source failure. However, it is assumed that prior to 1919 the subject property would have been developed for residential uses, if not undeveloped. Based on this notion, this limitation is not expected to significantly alter the findings of this investigation.

5.0 REGULATORY DATABASE REPORT

A radial database search was conducted in accordance with the specifications defined in ASTM E 1527-13 which sets the radial search distances for each regulatory database. The radial database search was conducted by EDR on July 8, 2015. A copy of the database report is presented in Appendix II of this report. The following table summarizes required databases reviewed, the approximate search distances, and indicates if the subject site, adjoining/immediately surrounding properties or surrounding sites are listed on the respective database.

Following the table are summaries of the information found in the relevant database listings and our opinion regarding the potential for the subject property to be impacted. Our opinion is based on the information found in the database listings, through other historical and regulatory resources, "Standard Guide for Vapor Encroachment Screening on Property Involved in Real Estate Transactions" (ASTM E2600-10), and assumed groundwater flow direction. As discussed in Section 2.3, groundwater in the vicinity of the subject property is assumed to flow to the south-southwest.

DATABASE	Search Distance (Miles)	Subject Site (Yes/No)	Adjacent Site (Yes/No)	Total Listings (#)
Federal National Priorities List (NPL)	1.0	NO	NO	0
Federal De-listed NPL	1.0	NO	NO	0
Federal CERCLIS	0.5	NO	NO	0
Federal CERCLIS NFRAP	0.5	NO	NO	0
Federal RCRA CORRACTS	1.0	NO	NO	0
Federal RCRA non-CORRACTS TSD	0.5	NO	NO	0
Federal RCRA Generators	0.25	NO	NO	21
Federal Institutional/Engineering Controls	0.5	NO	NO	0
Federal ERNS	Property	NO	NO	0
State/Tribal Equivalent NPL	1.0	NO	NO	0
State/Tribal Equivalent CERCLIS	1.0	NO	NO	15
State/Tribal Landfill	0.5	NO	NO	2
State/Tribal Underground Storage Tank (UST)	0.25	NO	NO	39
State/Tribal Leaking Underground Storage Tank (LUST/SLIC)	0.5	NO	**YES**	40/14
State/Tribal Institutional/Engineering Controls	0.5	NO	NO	0
State/Tribal Voluntary Clean-up Sites	0.5	NO	NO	3
State/Tribal Brownfield Sites	0.5	NO	NO	0

5.1 SUBJECT PROPERTY

The subject property is not listed on any of the regulatory databases researched.

5.2 ADJOINING AND IMMEDIATELY SURROUNDING PROPERTIES

Logie E S (956 Seward Street) – The adjoining property to the south (hydrologically down-gradient) of the subject property (across Seward Street) is listed on the EDR US Historical Auto Station (EDR US Hist Auto Stat) database. According to the regulatory database report, this site was occupied by "Logie E S", an auto repair tenant, in 1924. No additional information was provided. Based on the lack of evidence of unauthorized release, this listing is not expected to represent a significant environmental concern for the subject property.

Consolidated Film Industries (959 Seward Street) – The immediately surrounding property located approximately 70 feet to the southwest (hydrologically down-gradient) of the subject property is listed on the California Leaking Underground Storage Tank (CA LUST), Resource Conservation and Recovery Act Large Quantity Generator (RCRA-LQG), Historical Hazardous Waste & Substance Site List (HIST CORTSE), Facility Inventory Database (CA FID UST), Aerometric Information Retrieval System (US AIRS), and CA Spills, Leaks, Investigations, and Cleanup (CA SLIC) databases. According to the regulatory database report and the State Water Resources Control Board (SWRCB) GeoTracker database, the site was utilized for film processing from 1926 through 2002. An unauthorized release of Trichloroethane (TCA), Tetrachloroethene (PCE), and Trichloroethylene (TCE) which impacted soil and groundwater was reported to the Los Angeles Regional Water Quality Control Board (LARWQCB) on December 2, 2005. Remedial actions initially included excavation of 3,166 cubic yards of contaminated soil and impacted concrete. Residual PCE concentrations were limited to backfill materials and a No Further Action Letter for Soil was granted by the LARWQCB in October 2007. The SLIC case is currently open and groundwater monitoring is ongoing. A monitoring well (MW-4) was observed on the southwest corner of Seward Street and Romaine Street, approximately 70 feet southwest of the subject property. According to the most recent groundwater monitoring analytical results (May 2015), a groundwater sample collected from MW-4 was analyzed for acetone, benzene, toluene, xylenes, chloro-form, 1,1-dichloroethane (1,1,-DCA), 1,1-dichloroethene (1,1-DCE), cis 1,2-Dichloroethene (cis 1,2-DCE), trans-1,2-DCE, PCE, 1,1,1-Trichloroethane (1,1,1-TCA), TCE, Vinyl Chloride, and 1,1,2-Trichloroethane (1,1,2-TCA). Laboratory analytical results indicated non-detect concentrations of all contaminants of concern with the exception of 1.83 micrograms per liter (µg/L) of PCE, which is below the established U.S. EPA Maximum Contaminant Level (MCL) of 5.0 µg/L for PCE. Based on the presence of volatile organic compound (VOCs) within the critical distance of 100 feet, the former release at the southwest immediately surrounding property represents a vapor encroachment condition (VEC). However, in our opinion the following conditions render a Vapor Intrusion Condition (VIC) unlikely at the subject property buildings:

- Remedial actions conducted at the immediately surrounding site under the oversight of LARWQCB.
- Removal of the source of contamination through excavation.
- Non-detect or below MCL concentrations of any contaminants of concern.

Based on regulatory oversight, remedial actions, non-detect or below MCL concentrations of contaminants of concern, and direction of groundwater flow away from the subject property, the open SLIC case at the southwest immediately surrounding property is not expected to represent a significant environmental concern for the subject property.

No other adjoining/immediately surrounding properties (within 100-feet) were listed on any of the regulatory databases researched or the listings were not associated with the storage or disposal of hazardous wastes including aboveground or underground storage tanks, did not indicate a known chemical release, and did not indicate a property use where the use of hazardous chemicals would be expected.

5.3 SURROUNDING AREA

Hollywood Street Maintenance Yard (6640 Romaine Street) – The property located approximately 404 feet to the west (hydrologically cross-gradient) of the subject property is listed on the CA Solid Waste Facilities/Landfill Sites (CA SWF/LF), CA FID UST, Resource Conservation and Recovery Act Small Quantity Generator (RCRA-SQG), Facility Index System (FINDS), CA HIST CORTESE, CA LUST, CA UST, California Historic Underground Storage Tank (CA HIST UST), and CA SWEEPS UST (CA SWEEPS UST) databases. According to the regulatory database report and the SWRCB GeoTracker database, an unauthorized release of diesel, which impacted an aquifer used for drinking water supply, was reported to the LARWQCB on January 15, 1992. The responsible party was identified as the City of Los Angeles. Remedial actions included excavation of impacted soil and the implementation of a soil vapor

extraction system. The site was granted closure in December 2009. Based on regulatory oversight, relative distance, direction of groundwater flow, remedial actions, identification of the responsible party, and case closure, the former release at this site is not expected to represent a significant environmental concern for the subject property.

Hollywood Underground Transmission and Hollywood Center Studios (6650 Romaine Street) – The property located approximately 500 feet to the west (hydrologically cross-gradient) of the subject property is listed on the CA HIST CORTESE, CA LUST, RCRA-SQG, FINDS, CA LUST, CA FID Underground Storage Tank, CA HIST UST, and CA SWEEPS UST databases. According to the regulatory database report and the SWRCB GeoTracker database, an unauthorized release of gasoline, which impacted an aquifer used for drinking water supply, was reported to the LARWQCB on April 27, 1990. No additional information is provided and the case was granted closure under regulatory oversight in October 1996. Based on regulatory oversight, relative distance, direction of groundwater flow, and case closure, the former release at this site is not expected to represent a significant environmental concern for the subject property.

Lighting Strikes Inc. (6601 Santa Monica Boulevard) – The property located approximately 500 feet to the north-northwest (hydrologically cross-gradient) of the subject property is listed on the CA HIST CORTESE and CA LUST databases. According to the regulatory database report and the SWRCB GeoTracker database, an unauthorized release of gasoline, which impacted an aquifer used for drinking water supply, was reported to the LARWQCB on June 17, 1985. No additional information is provided and the case was granted closure under regulatory oversight in May 1999. Based on regulatory oversight, relative distance, direction of groundwater flow, and case closure, the former release at this site is not expected to represent a significant environmental concern for the subject property.

Fountain-Vine Plaza (1253 North Vine Street) – The property located approximately 2,317 feet to the northeast (hydrologically up-gradient) of the subject property is listed on the CA SLIC database. According to the regulatory database report and the SWRCB GeoTracker database, an unauthorized release of PCE, TCE, and gasoline which impacted an aquifer used for drinking water supply was reported to the LARWQCB on January 23, 2006. The SLIC case is currently open and undergoing assessment under regulatory oversight. Based on regulatory oversight and relative distance, the former release at this site is not expected to represent a significant environmental concern for the subject property.

Paragon Cleaners (1310 Vine Street) – The property located approximately 2,558 feet to the northeast (hydrologically up-gradient) of the subject property is listed on the CA SLIC database. According to the regulatory database report and the SWRCB GeoTracker database, an unauthorized release of PCE, TCE, and benzene which impacted an aquifer used for drinking water supply, other groundwater, soil, and soil vapor was reported to the LARWQCB on October 14, 2005. The SLIC case is currently open and undergoing assessment under regulatory oversight. Based on regulatory oversight and relative distance, the former release at this site is not expected to represent a significant environmental concern for the subject property.

In our opinion, none of the other sites listed on the regulatory database report pose a significant threat to the subject property as there is no indication of a release at the respective sites, a release has occurred but groundwater has not been impacted, a release has occurred but the case is closed, or the sites are located cross or down gradient of the subject property and in excess of 1/10 mile from the subject property.

5.4 ORPHAN SITES

Orphan sites are unmappable sites which appear in a list form in the Radius Map Report rather than on the standard Radius Map. Two (2) orphan sites were identified in the Radius Map Report prepared for this site. The sites were manually mapped to determine the location of the site relative to the subject property and groundwater gradient. The following conclusions were made:

In our opinion, none of the orphan sites listed pose a significant threat to the subject property as there is no indication of a release at the respective sites, a release has occurred but groundwater has not been impacted, a release has occurred but the case is closed, or the sites are located cross or down gradient of the subject property and in excess of 1/10 mile from the subject property.

6.0 AGENCY FILE REVIEWS

6.1 STATE AGENCIES

The Los Angeles Regional Water Quality Control Board (LARWQCB), Department of Toxic Substances Control (DTSC), and South Coast Air Quality Management District (SCAQMD) were contacted regarding permits and site investigation files for the subject property. Additionally, the State Water Resources Control Board (SWRCB) GeoTracker, DTSC EnviroStor and Hazardous Waste Tracking System (HWTS), and SCAQMD Facility Information Detail (FIND) databases were reviewed.

- According to responses to our requests from the LARWQCB and SCAQMD, as well as a review of the GeoTracker, and FIND databases, there are no files for the subject property.
- At the time this report was issued, no response has been received from the DTSC. However, none of the subject property addresses are listed on EnviroStor or HWTS.

The Division of Oil, Gas, and Geothermal Resources (DOGGR) Online Mapping System was reviewed for information pertaining to oil and gas exploration on or nearby the subject property.

- No oil wells were identified within 500 feet of the subject property.

6.2 CITY/COUNTY AGENCIES

The Los Angeles County Department of Public Health Public Health Investigation (LAC DHS PHI), Los Angeles Fire Department (LAFD) Underground Storage Tank (UST), Hazardous Materials (HAZMAT), and Central Industrial (CI) Divisions, and Los Angeles Bureau of Sanitation (LABS) were contacted regarding hazardous materials, underground storage tank, and industrial waste discharge records for the subject property. Additionally, the City of Los Angeles NavigateLA database was reviewed.

- According to responses to our requests from the LAC DHS PHI and LAFD CI, there are no files for the subject property.
- According to LABS records provided for 1006 Seward Street (*Parcel-25*), a permit to discharge soap and detergent from floor and equipment washing was issued to The Studio Coffee Shop in 1968. The permit was subsequently cancelled on an unspecified date. Permits to discharge wastewater from restaurant activities were issued to Hollywood Canteen from at least 2002 through 2005. No citations have been issued to the subject property for the past 5 years and no evidence of hazardous material use/disposal or industrial operations was identified. Based on regulatory oversight, lack of evidence of hazardous material use, and type of wastewater being discharged (from restaurant activities only), the information provided by LABS is not expected to represent a significant environmental concern for the subject property.
- At the time this report was issued, no response has been received from LAFD UST and LAFD HAZMAT.

6.3 AGENCY FILE REVIEW LIMITATIONS

At the time this report was issued, no responses have been received from the DTSC, LAFD UST, and LAFD HAZMAT. Should relevant information be obtained from these agencies subsequent to issuing this report, an addendum will be prepared and provided to the Client.

7.0 NON-SCOPE ENVIRONMENTAL RISKS

ASTM Standard E1527-13 identifies additional conditions which, should they exist at the subject property, may create a human health risk to the occupants of the site. These risks may also create additional costs to the property owner in the form of identification, operations & maintenance, and cleanup or remediation.

7.1 ASBESTOS CONTAINING BUILDING MATERIALS

Asbestos is a group of naturally occurring minerals used in certain products, such as building materials and vehicle brakes, to resist heat and corrosion. Asbestos includes: chrysotile, amosite, crocidolite, tremolite asbestos, anthophyllite asbestos, actinolite asbestos, and any of these materials that have been chemically treated and/or altered.

The inhalation of asbestos fibers by workers can cause serious diseases of the lungs and other organs that may not appear until years after the exposure has occurred. For instance, asbestosis can cause a buildup of scar-like tissue in the lungs and result in loss of lung function. Asbestos fibers associated with these health risks are too small to be seen with the naked eye, and smokers are at higher risk of developing some asbestos-related diseases.

Asbestos-containing materials (ACM) do not always pose a hazard to occupants and workers in buildings that contain these materials. Intact, undisturbed ACMs generally do not pose a health risk. ACMs may become hazardous and pose an inhalation risk when they are damaged, disturbed in some manner, or deteriorate over time and asbestos fibers are released into building air.

ACM can be found in a multitude of building products which include acoustical texture, fire-proofing, joint compound, attic and wall insulation, resilient flooring, mastic, recessed lighting fixtures, wiring, elevator brakes, fire doors, piping insulation, piping joints, duct insulation, duct tape, siding and roofing materials (tar/shingles), textured paint, stucco, concrete, and swimming pool plaster.

Local jurisdictions have specific laws and regulations regarding asbestos and actions including building renovations and building demolition.

- Based on the age of the onsite structures (pre-1970), there is a potential for asbestos-containing building materials at the site, however, no testing was completed as part of this report. Potential ACMs include drywall partitions. All of the observed building materials appeared to be in good condition. An asbestos survey is recommended should the onsite structure be demolished or significantly renovated.

7.2 LEAD-BASED PAINT

Although lead-based paint has been taken off the market, it is approximated that 80 percent of buildings built prior to 1978 contain lead paint. Even at low levels, lead poisoning can cause IQ deficiencies, reading and learning disabilities, impaired hearing, reduced attention spans, hyperactivity and other behavior problems with children under 6 years old being most at risk.

Lead is a highly toxic metal that was used for many years in products found in and around our homes and commercial buildings. Lead can be found in dust from moving parts of windows and doors that are painted with lead-based paint, wood trim, walls, cabinets in kitchens and bathrooms, porches, stairs, railings, fire escapes, lamp posts, and soil.

Since the 1980's, lead has been phased out in gasoline, reduced in drinking water, reduced in industrial air pollution, and banned or has been limited in use in consumer products.

Between the Environmental Protection Agency (EPA), Department of Housing and Urban Development (HUD), Occupational Safety & Health Administration (OSHA), California Department of Public Health

(CDPH), each state has various action limits have been placed with the overall objective being an attempt to prevent human exposure and contamination of the surrounding environment.

- Based on the age of the onsite structures (pre-1970), there is a potential for lead-based paint at the site. No testing was completed as part of this report, however, all observable painted surfaces appeared to be in good condition. A lead-based paint survey is recommended should the onsite structure be demolished or significantly renovated.

7.3 RADON

Radon is a radioactive gas that has been found in structures all over the United States. Radon is produced from the natural breakdown of uranium in soil, rock, and water. Radon typically moves up through the ground to the air above and into structures through cracks and other holes in the foundation. Movement of radon through the earth is strongly influenced by moisture content and permeability of soil, porosity, and degree of fracturing in rocks, as well as surface meteorological conditions. High levels of radon have been discovered in every state.

Radon cannot be seen, smelled, or tasted. Breathing air-containing radon may increase the risk of getting lung cancer. The Surgeon General of the United States has warned that radon is the second leading cause of lung cancer in the United States today.

Testing for the presence of radon is fairly inexpensive, simple and the only way to be certain of the on-site concentration. Various types of sampling methods exist to determine the concentration. On-site radon sampling was not performed during the completion of this assessment.

- Based on our research at the United States Environmental Protection Agency (USEPA), the average radon concentrations for Los Angeles County are between 2.0 picoCuries per liter (pCi/L) and 4.0 pCi/L, below the 4.0 pCi/L action level set by the USEPA. However, site specific radon levels vary greatly within the EPA radon zones and on-site radon measurements would need to be collected in order to determine the subject property radon levels.

7.4 WETLANDS

According to the Clean Water Act, a wetland is "those areas that are inundated or saturated by surface or groundwater at a frequency and duration sufficient to support, and that under normal circumstances do support, a prevalence of vegetation typically adapted for life in saturated soil conditions." Wetland areas have been identified as ecologically diverse and sensitive areas and are generally subject to more stringent development, re-development, and building regulations.

- The U.S. Fish and Wildlife Service National Wetlands Inventory was reviewed to determine if the subject property is situated within an identified wetland. According to the USFWS, the subject property is not located within a wetland area.

7.5 MOLD

Mold and mildew are simple, microscopic organisms that can grow virtually anywhere if they have adequate moisture, nutrients and appropriate temperatures. Depending on the particular mold or fungus (mildew), growing colonies can be almost any color from white to black. Most household molds and fungi (mildews) are black, grey, or charcoal colored. Spores of dozens of kinds of mold and fungus (mildew) are present at all times in indoor and outdoor air. These spores can settle, germinate and grow wherever good growth conditions are found. They can grow on soil, plants, dead plant materials, foods, fabrics, paper, wood and many other materials. Most molds are not harmful. In fact, molds have important roles in the

environment and in living systems. In soil molds play a crucial part in decomposition of organic matter and in making nutrients available to plants.

Molds and fungi (mildews) however, can be very destructive to materials on which they grow, and are usually unwelcome and unhelpful in homes. They cause staining, decomposition (rotting of materials) and objectionable, musty odors. Where colonies are extensive they can also produce enough spores, and by-products to be harmful to health. Many of the by-products of mold and fungus (mildew) are irritating to skin, eyes and respiratory tracts. Some molds produce true allergic sensitization and allergic reactions in susceptible people. Some molds produce toxic by-products that could be harmful to skin, and poisonous if ingested or inhaled in quantity. Persons with compromised immune systems may even experience systemic fungal infections of the respiratory tract.

Andersen Environmental observed a limited amount of interior areas of the subject buildings in order to identify the significant, visible presence of mold. This activity was not intended to discover all areas which may be affected by mold growth at the subject property. Potential areas of mold not observed as part of this limited assessment, include but are not limited to, possibly in pipe chases, HVAC systems and behind enclosed walls and ceilings, may be present on the subject property. A complete mold assessment, which may include various types of sampling, would be required to determine if mold levels within the subject buildings are at levels acceptable by industry standards.

- Andersen Environmental did not observe visible or olfactory indications of the presence of mold, nor did Andersen Environmental observe obvious indications of significant water damage. No sampling was conducted as part of this assessment.

7.6 METHANE GAS

In response to growing concern regarding methane intrusion into buildings and to the potential for methane build-up underneath buildings, certain municipalities have established methane requirements for structures based on the proximity to oil wells and landfills. If a subject property is located in the proximity of active or abandoned oil wells or landfills, methane mitigation devices installed prior to construction activities at a subject property may be necessary.

- The City of Los Angeles Methane Zone map was reviewed to determine if the subject property is located in a methane or methane buffer zone. According to the map reviewed, the subject property is located within a methane buffer zone. Due to the potential risks associated with construction in Methane Zones, the property owner may be required to conduct a methane assessment prior to the redevelopment of the subject property and methane mitigation systems may be required (Division 71 of the Los Angeles Building Code).

8.0 FINDINGS

Andersen Environmental has performed a Phase I Environmental Site Assessment (Phase I) for The Post Group (Client) for a commercial property located at 1000 and 1006 Seward Street, 6565 Romaine Street, and 1003, 1007, & 1013 North Hudson Avenue, in Los Angeles County in the Hollywood neighborhood of the City of Los Angeles, California, Assessor's Parcel Numbers: 5533-012-011, 5533-012-012, 5533-012-013, and 5533-012-025. The research conducted for this study and the report prepared are in conformance with the United States Environmental Protection Agency (USEPA) All Appropriate Inquiry (AAI) standard and the American Society for Testing and Materials (ASTM) E 1527-13 scope of work.

Site Description

According to our research and information provided by the Client, the following addresses have been found to be associated with the subject property: 1000 and 1006 Seward Street; 6551, 6561, 6565, and 6575 Romaine Street; and 1003, 1007, and 1013 North Hudson Avenue, Los Angeles, California. The subject property is bounded to the north by commercial developments, to the east by North Hudson Avenue, to the west by Seward Street, and to the south by Romaine Street, in the Hollywood neighborhood of the City of Los Angeles. The subject property consists of four contiguous parcels which are approximately 0.78 acre in total size. The eastern half of the subject property consists of Parcels 5533-012-011 (*Parcel-11*), 5533-012-012 (*Parcel-12*), and 5533-012-013 (*Parcel-13*), which are collectively developed as an asphalt paved parking lot. The western half of the subject property consists of Parcel 5533-012-025 (*Parcel-25*), which is developed with three single-story commercial structures: an approximately 2,511 square-foot restaurant structure in the northwest portion (1006 Seward Street), currently occupied by Rao's Italian; an approximately 3,960 square-foot production space in the southwest portion (1000 Seward Street), currently utilized by the television show "Orange is the New Black"; and an approximately 4,482 square-foot mastering studio in the northeast portion (6565 Romaine Street), currently occupied by Lurssen Mastering. The surrounding area is mostly used for commercial and residential purposes. Groundwater is estimated to be approximately 15- to 20-feet below ground surface in the area of the site.

No significant hazardous material storage or recognized environmental conditions were observed at the site. Those interviewed, as persons familiar with the site were not aware of any negative environmental conditions associated with the property.

Historical Land Use

According to Andersen Environmental's interpretation of the historical research data, the subject property underwent separate courses of development as described below:

Parcel-11 (1013 North Hudson Avenue) – The northeast portion of the subject property was undeveloped in 1919. A single family residence and private garage were constructed in 1921 and 1929, respectively. In 1957, the residence was converted into a 3-family apartment building. *Parcel-11* remained in this configuration through 1982, when the structures were demolished. By 1985, *Parcel-11* was developed into a parking lot, as it remains today.

Parcel-12 (1007 North Hudson Avenue) – The east portion of the subject property was developed with a residential structure by 1919. A private garage was constructed in 1927. *Parcel-12* remained in this configuration through 1959, when the structures were demolished and the parcel was redeveloped into a parking lot, as it remains today.

Parcel-13 (1003 North Hudson Avenue; 6551-6561 Romaine Street) – The southeast portion of the subject property was undeveloped in 1919. In 1920, a private garage was constructed in the north portion of the parcel. By 1950, two residential structures had been developed in the east and west portions of the parcel,

respectively. *Parcel-13* remained in this configuration through 1986, when the structures were demolished and the parcel was redeveloped into a parking lot, as it remains today.

Parcel-25 (1000 and 1006 Seward Street; 6565-6575 Romaine Street) – The western half of the subject property was undeveloped in 1919. In 1920, a residential structure was developed in the north portion of the parcel. In 1937, the existing restaurant (1006 Seward) was developed to the west of the residential structure and the existing southwest portion commercial building (1000 Seward) was developed for use as a radio equipment warehouse. By 1951, the subject property was utilized solely for commercial purposes. The existing northeast portion structure (6565 Romaine) was developed in 1960 as a radio equipment repair shop. Previous tenants for 1000 Seward include: World Broadcasting Corp. (1942); The Langevin Co. Inc. (1942-1951); General Radio Co. (1942-1967); B&W Editorial Services (1976); HBO Laguna Heat (1990); and television show "Orange is the New Black" (current tenant). Previous tenants for 1006 Seward include: residential tenants (1920 through at least 1942); Seward Melville Café/Melville Café (1951-1958); Lillian Apfel Café (1962); The Studio Café (1967); The Studio Coffee Shop (1971-1990); Hollywood Canteen (1991-2006); and Rao's Italian (current tenant). Previous tenants for 6565 Romaine include: a radio equipment repair shop (1960-1969); Telescopics (1962-1976); The Langevin Co. Inc. (1962-1981); Telecine Tech Inc. (1990); The Arena US LLC (2008); and Lurssen Mastering (current tenant).

- The earliest historical resource obtained during this investigation was a Sanborn map from 1919 which indicated development of portions of the subject property for residential uses. The lack of historical data sources for the subject property dating back to first developed uses represents historical data source failure. However, it is assumed that prior to 1919 the subject property would have been developed for residential uses, if not undeveloped. Based on this notion, this limitation is not expected to significantly alter the findings of this investigation.

Environmental Data Search

- The subject property is not listed on any of the regulatory databases researched.
- In our opinion, none of the other sites listed on the regulatory database report pose a significant threat to the subject property as there is no indication of a release at the respective sites, a release has occurred but groundwater has not been impacted, a release has occurred but the case is closed, or the sites are located cross or down gradient of the subject property and in excess of 1/10 mile from the subject property.
- The Los Angeles Regional Water Quality Control Board (LARWQCB), Department of Toxic Substances Control (DTSC), South Coast Air Quality Management District (SCAQMD), Los Angeles County Department of Public Health Public Health Investigation (LAC DHS PHI), Los Angeles Fire Department (LAFD) Underground Storage Tank (UST), Hazardous Materials (HAZMAT), and Central Industrial (CI) Divisions, and Los Angeles Bureau of Sanitation (LABS) were contacted regarding permits and site investigation files, hazardous materials, underground storage tank, and industrial waste discharge records for the subject property. Additionally, the State Water Resources Control Board (SWRCB) GeoTracker, DTSC EnviroStor and Hazardous Waste Tracking System (HWTS), and SCAQMD Facility Information Detail (FIND) databases were reviewed. According to responses to our requests and the online databases, there are no files for the subject property with the exception of the following:

  According to LABS records provided for 1006 Seward Street (*Parcel-25*), a permit to discharge soap and detergent from floor and equipment washing was issued to The Studio Coffee Shop in 1968. The permit was subsequently cancelled on an unspecified date. Permits to discharge wastewater from restaurant activities were issued to Hollywood Canteen from at least 2002 through 2005. No citations have been issued to the subject property for the past 5 years and no evidence of hazardous material

use/disposal or industrial operations was identified. Based on regulatory oversight, lack of evidence of hazardous material use, and type of wastewater being discharged (from restaurant activities only), the information provided by LABS is not expected to represent a significant environmental concern for the subject property.

At the time this report was issued, no responses have been received from the DTSC, LAFD UST, and LAFD HAZMAT. Should relevant information be obtained from these agencies subsequent to issuing this report, an addendum will be prepared and provided to the Client.

- The City of Los Angeles NavigateLA Online Mapping System was reviewed to obtain substructure maps for the subject property. According to a review of the substructure maps for the subject property, no USTs or other substructure features were identified in the area of the subject property.
- The Division of Oil, Gas, and Geothermal Resources (DOGGR) Online Mapping System was reviewed for information pertaining to oil and gas exploration on or nearby the subject property. No oil wells were identified within 500 feet of the subject property.
- The user did not provide Andersen Environmental any information either verbally or in writing (i.e. Title Report) regarding environmental cleanup liens or activity and use limitations encumbering the subject property. An environmental lien search was not requested by the user; however, based on our review of the Department of Toxic Substances Control (DTSC) EnviroStor Database, no environmental liens enforced by the DTSC were identified.

Additional Issues

- Based on the age of the onsite structures (pre-1970), there is a potential for asbestos-containing building materials (ACMs) and lead-based paint at the site. Potential ACMs observed include drywall partitions. All current building materials and observable painted surfaces appear to be in good condition; however, no testing was performed as part of this assessment.
- According to our research, radon potential at the subject property is considered low.
- Andersen Environmental did not observe visible or olfactory indications of the presence of mold, nor did Andersen Environmental observe obvious indications of significant water damage.
- The City of Los Angeles Methane Zone map was reviewed to determine if the subject property is located in a methane or methane buffer zone. According to the map reviewed, the subject property is located within a methane buffer zone. Due to the potential risks associated with construction in Methane Zones, the property owner may be required to conduct a methane assessment prior to the redevelopment of the subject property and methane mitigation systems may be required (Division 71 of the Los Angeles Building Code).

CONCLUSIONS

Andersen Environmental has performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Practice 1527-13, at 1000 and 1006 Seward Street, 6565 Romaine Street, 1003, 1007, & 1013 North Hudson Avenue, Los Angeles, California, the subject property. Any exceptions to or deletions from this practice are described in the individual sections of this report. This assessment has revealed no evidence of recognized environmental conditions in connection with the subject property.

Recognized Environmental Conditions (REC)
In our opinion, no RECs were revealed during the course of our assessment.

Historical Recognized Environmental Condition (HREC)
In our opinion, no HRECs were revealed during the course of our assessment.

Controlled Recognized Environmental Condition (CREC)
In our opinion, no CRECs were revealed during the course of our assessment.

RECOMMENDATIONS

Based on the foregoing, no additional investigation is recommended at this time.

SIGNATURES

I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. I have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

Prepared by: Date: July 28, 2015

Lauren Sagun
Project Manager

I declare that, to the best of my professional knowledge and belief, I meet the definition of Environmental Professional as defined in § 312.10 of 40 CFR 312. I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. I have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

Susana Corletto | Project Manager

5261 West Imperial Highway, Los Angeles, CA, 90045 *310-854-6300 ext. 236*
susana.corletto@efiglobal.com

Professional Summary:

Ms. Corletto has been working professionally in the environmental industry since March 2017 as an Assistant Manager overseeing the Exide Project. Her initial responsibilities with Exide involved doing quality assurance and quality control (QA/QC) of field data and laboratory results as well as report and figures preparation. Today, Ms. Corletto is working as a Project Manager in the Phase I Environmental Site Assessment (ESA) department. She is has been trained in conducting file reviews and site inspections, and performing historical research and regulatory database reviews for commercial and industrial sites.

Licenses and Certifications:

OSHA 40-Hour Hazardous Waste Operations Certified, Safety Unlimited Inc, CA, #1709061209065

Project Experience:

Department of Toxic Substances Control (DTSC) – Exide Aerially-Deposited Lead, Soil and Lead-based Paint Sampling, and Cleanup
The California DTSC has initiated a large-scale clean-up effort to address the lead contamination caused by the Exide battery recycling facility in Vernon, California. The Exide plant is accused of releasing over seven million pounds of lead into the atmosphere over 30 years. EFI Global was contracted by the DTSC to sample soil and paint for lead concentrations, at residential properties for evidence of lead contamination. Since mid-2016, EFI Global certified lead technicians have sampled over 2,660 properties in various neighborhoods surrounding the Exide plant. Ms. Corletto has been an Assistant Manager overseeing all office work for this project; coordinating team sampling schedules, laboratory analysis, and reporting. Ms. Corletto's experience includes field investigation scheduling management, laboratory liaison and sample control, field data quality control, and investigation reporting.

Affordable Housing Projects, Throughout California
Ms. Corletto conducted all research, investigation, interviews, agency communications, and final reports for dozens of affordable housing projects throughout California. Various government agencies including the Regional Water Quality Control Board (RWQCB) and DTSC were contacted regarding information pertaining to site history. Historical research including review of city directories and aerials photographs was conducted to identify any potential operations of concern at the sites.

Gas Station Projects, Throughout California
Ms. Corletto conducted all research, investigation, interviews, agency communications, and final reports for several former and existing gasoline service station properties throughout the state of California for lenders and private entities. Special challenges involved with specific projects included obtaining and reviewing tank fitness testing reports to comply with lender requirements and reviewing technical documents relating to prior underground storage tank removals,

©2018 EFI Global, Inc.

environmental sampling, remediation, and closure proceedings. The RWQCB, DTSC, and local certified unified program agencies (CUPA) were contacted for documentation pertaining to the gasoline station operations.

Release Case (LUST/SLIC) Projects, Throughout California
Ms. Corletto conducted all research, investigation, interviews, agency communications, and final reports for several properties with unauthorized releases throughout the state of California for lenders and private entities. Special challenges involved with these projects include determining the source and responsible party of the contamination. Sampling results need to be reviewed to determine whether contamination exists below an acceptable threshold limit. The RWQCB, DTSC, and local certified unified program agencies (CUPA) are contacted for monitoring and inspection reports, as well as copies of any former assessments conducted on the properties.

Christopher Rude| Senior Project Manager

5261 West Imperial Highway, Los Angeles, California *310-854-6300*
Christopher.rude@efiglobal.com

Professional Summary:

Mr. Christopher Rude is an Environmental Professional with approximately twenty-seven years of experience in hazardous materials, lab packing of hazardous wastes, Phase I Environmental Site Assessments, and Phase II Environmental Site Assessments throughout the country. Mr. Rude has worked directly with clients and regulatory agencies' to determine and assess environmental impacts, develop plans by which mitigate such conditions, and carry out the planned approach for closure. Mr. Rude's experience includes all aspects of environmental projects including Phase I Environmental Site Assessments, soil, soil vapor and groundwater sampling - Phase II Subsurface Site Assessments, site characterization, removal of Underground Storage Tanks (USTs) and multi-stage clarifiers, and remedial cleanups of properties impacted by arsenic, organochlorine pesticides, chlorinated solvents, and fuel hydrocarbons. Mr. Rude has successfully obtained closure for numerous Brownfield sites on behalf of clients from DTSC, Los Angeles Regional Water Quality Control Board, Los Angeles County, Los Angeles City, and Ventura County Environmental Health. Mr. Rude has conducted numerous soot sampling assessments for insurance companies associated with the wildfires in Southern California.

- Environmental Consulting
- Environmental Compliance
- Management of all stages of environmental projects including Phase I/II environmental site assessments

Licenses and Certifications:

OSHA 40-Hour Hazardous Waste Operations Certified
OSHA 8-Hour Hazardous Waste Operations and Emergency Response Certified – Supervisor Refresher Training, CA, #150110572348
Asbestos Building Inspector (AHERA), California ABIR0607180007N15492
Asbestos Contractor/Supervisor (AHERA), California ASR0608180009N15494
Lead Sampling Technician (California Department of Public Health)
Environmental Professional, per the CFR Title 40, Chapter I, Subchapter J, Part 312, Subpart C, Section 312.21

Project Experience:

Current responsibilities as Senior Project Manager include the preparation of Phase I and Phase II Environmental Site Assessments within Los Angeles, Ventura, Santa Barbara, San Luis Obispo, Tulare, Kern, Fresno, and Kings Counties. Additional responsibilities include managing, mentoring and training Project Managers in all aspects of Phase I Environmental Site Assessments, marketing, and client relations, business development and project management.

Sunflower Valley Farms LLC, Multiple Locations in Kings and Kerns Counties, CA
Phase I Environmental Site Assessment
Senior Project Manager of a Phase I Environmental Site Assessment for a 12,685 acre ranch developed with agricultural land, 120 active or abandoned oil wells, active oil sumps, hazardous materials, pesticide storage areas, and aboveground storage tanks. Phase II recommendations were made for active oil wells and oil sumps.

©2018 EFI Global, Inc.

Primestor Development, Inc.
Phase I Environmental Site Assessment
Served as the Senior Project Manager of a Phase I ESA and Asbestos/Lead Based Paint Survey of a 31-acre retail-commercial mall developed with twelve retail structures and medical clinic totaling approximately 383,000 square feet. The retail mall had undergone numerous subsurface assessments and remedial cleanup associated with a Leaking Underground Storage Tank (LUST) and Spills, Leaks, Investigations, and Cleanups (SLIC) cases associated with a former gasoline service station and former dry cleaning facilities. Case closure was issued by the overseeing regulatory agency for the LUST case. Review of available documentation indicated that the SLIC case was to be issued case closure for soil and groundwater.

LS Realty Group, Los Angeles, CA
Phase I / II Environmental Site Assessment
Served as the Senior Project Manager of a Phase I Environmental Site Assessment report which was completed concurrently with a Phase II Environmental Site Assessment. The site was assessed due to the former underground storage tanks and long-term auto repair use of the property by multiple tenants. Results of the soil and soil vapor sampling assessment indicated that the former/current uses did not represent an unacceptable risk to human health for commercial use.

Has performed and provided project management on numerous Phase II Subsurface Site Assessments on properties impacted by chlorinated solvents, fuel hydrocarbons, agricultural pesticides, and heavy metals. Assessment activities also included oversight of geophysical surveys, sampling of soil, soil vapor, and groundwater using Geoprobe, hollow stem augers, and/or dual percussion air rotary rigs. Assessments also included monitoring for vapor intrusion and fixed gases. Conducted and prepared quarterly groundwater monitoring reports.

Professional Experience:

EFI Global Inc., Los Angeles, CA, Senior Project Manager, 2012 - Present
California Environmental, Agoura Hills, CA, Environmental Scientist, 1997 – 2012
MSE Environmental, Camarillo, CA, Environmental Specialist, 1992 – 1996

Specialized Education:

Assessment of LNAPL Volume, Mobility, and Recoverability for Recovery Systems;
Design and Risk-Based Corrective Action
National Groundwater Association, Houston Texas – November 2007

Seminar on National Pollutant Discharge Elimination Systems (NPDES)
Law Offices of Burke Williams & Sorensen LLP
Riverside, California – 2004

Education:

Bachelors of Art, Environmental Studies and Planning, Sonoma State University,
Rohnert Park, California, 1992
