SUBJECT: Filing of Notice of Determination pursuant to Public Resources Code section 21108

State Clearinghouse Number: 2021030186

Project Title: City of Sacramento Pump Outfall Replacement Project: Sump 089 (Streambed Alteration Agreement EPIMS Notification No. SAC-25169-R2)

Project Location (include county): The project is located at an existing pump outfall located along Morrison Creek, within the City of Sacramento, in Sacramento County, State of California; 38.458480°, -121.47840°; APN: 119-0090-004-0000.

Project Description: The California Department of Fish and Wildlife (CDFW) has executed Streambed Alteration Agreement EPIMS Notification Number SAC-25169-R2, pursuant to section 1602 of the Fish and Game Code to the project Applicant, the City of Sacramento.

At Sump 089 on the north side of Morrison Creek, the area around the portion of the pipe to be replaced will be excavated and the pipes will be cored out through the headwall on the waterside of the levee. Approximately 235 feet of three (3) 42-inch welded steel pipes (WSP) and 105 feet of one (1) 18-inch WSP near the pump discharge and outfall structure locations will be replaced. Replacement of the headwall and baffles, level sensor conduit, and 260 feet of the existing floodwall will occur. Replacement of the headwall will include a new 1000 square feet apron and rock slope protection will be added to the existing apron downslope. A positive closure vault will be installed at the hinge point of the levee. Two (2) northern California black walnut (*Juglans hindsii*) trees will be removed prior to excavation and minor vegetation trimming may be required.

This is to advise that CDFW, acting as a Responsible Agency, executed the above Streambed Alteration Agreement on the date signed below and has made the following determinations regarding the project pursuant to California Code of Regulations section 15096, subdivision (i):

1. The project will not have a significant effect on the environment. This determination is limited to effects within CDFW's permitting jurisdiction as a Responsible Agency.

Notice of Determination

2. CDFW considered the mitigated negative declaration prepared by the Lead Agency for this project pursuant to California Code of Regulations section 15096, subdivision (f).
3. Mitigation measures were made a condition of CDFW's approval of the project.
4. A mitigation reporting or monitoring plan was not adopted by CDFW for this project.
5. A statement of overriding considerations was not adopted by CDFW for this project.
6. Findings were not made by CDFW pursuant to California Code of Regulations section 15091.

The mitigated negative declaration prepared for the project is available to the general public at the office location listed above for the Lead Agency. CDFW's record of execution of the above Streambed Alteration Agreement as Responsible Agency is available at CDFW's regional office.
