Rancho Cucamonga, CA**

To whom it may concern:

You are hereby advised that **TTM 20334** is located within the service area of the Cucamonga Valley Water District.

We anticipate that the District has an adequate supply of water available to meet minimum fire flow requirements as established by the Rancho Cucamonga Fire District. Also, the District anticipates the existing sewer system and sewage treatment plant capacity to be adequate for this development.

Following the receipt of appropriate application, arrangements can be made for the installation of facilities required to meet the needs of the development and furnish public water and sewer utility service to the development in accordance with the District's policies, rules, regulations, and rate ordinances.

If you have any questions or need further information, please contact me.
