Present Land Use/Zoning/General Plan Designation:

Transportation

Project Description: *(please use a separate page if necessary)*

The California Department of Transportation (Caltrans) District 7, as assigned by the Federal Highway Administration (FHWA) in coordination with the Los Angeles County Metropolitan Transportation Authority (LA Metro), are proposing to improve traffic conditions on the I-405 starting in the south at the I-10 and terminating in the north at the US-101 (Post Miles 28.4 to 41.4). Caltrans and LA Metro propose the following improvements to reduce congestion, encourage carpooling and transit, improve trip reliability, reduce degradation of the carpool and general-purpose lanes, increase person throughput, apply technology to help manage traffic, support safer travel, and help motorists travel more efficiently throughout the project corridor. The range of improvements under consideration includes converting the existing high-occupancy vehicle (HOV) lane, also known as carpool lane, to a high-occupancy toll (HOT) lane, also known as an Expresslane; converting the HOV lane to an Expresslane and adding a second ExpressLane; or maintaining the existing HOV lane and adding a second HOV lane in each direction. Additionally, the No Build Alternative is under consideration.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with and "**X**".
If you have already sent your document to the agency please denote that with an "**S**".

X	Air Resources Board	X	Office of Historic Preservation
	Boating & Waterways, Department of		Office of Public School Construction
