Irvine, California 92618

Re: Phase I Environmental Site Assessment Update 2021
Cypress Avenue, Boyle Avenue, Oleander Avenue, and Slover Avenue
Fontana, California
Apex Project No. 093-DUKE-050

Dear Mr. Weber,

Apex Companies, LLC ("Apex") is pleased to present this report summarizing the results of its 2021 Phase I Environmental Site Assessment (2021 Phase I ESA) Update for Duke Realty (Duke) for the above-referenced property (Subject Property).

1.0 BACKGROUND AND PRIOR REPORTS

Apex previously completed a 2019 Phase I ESA Report dated February 11, 2019 for a subset of the Subject Property and performed a 2019 Phase I ESA Update on November 27, 2019. The subset of the Subject Property at the time was comprised of 5 lots identified as San Bernardino County (SBC) Assessor's Parcel Numbers (APNs) 025-116-410, 025-116-403, 025-116-404, 025-116-423 and 025-116-425 and encompassed approximately 9.7 acres. During the 2019 Phase I ESA, the subset of the Subject Property was located on the northwest corner of Cypress Avenue and Slover Avenue in Fontana, California, in a mixed light industrial/residential area (**Figure 1**). The subset of the Subject Property was zoned as Industrial General (IG). All structures on the subset of the Subject Property were demolished and previously were developed as two residential lots, two vacant land lots, and one industrial lot. The subset of the Subject Property is bordered by Boyle Avenue to the north, Cypress Avenue to the east, Slover Avenue to the south, and residential properties to the west. The 2019 Phase I ESA and the 2019 Phase I ESA Update revealed no recognized environmental conditions (RECs) in connection with the subset of the Subject Property and no further action was recommended.

Apex completed a 2020 Phase I ESA Update dated September 4, 2020 for the same APNs as the 2019 Phase I ESA Report and 2019 Phase I ESA Update. Several listings in the Environmental Data Resources, Inc. (EDR) package were identified in databases indicating potential contamination concerns (e.g., ENVIROSTOR, California Leaking Underground Storage Tank [LUST]; Spills, Leaks, Investigation, and Cleanup [SLIC], and California Department of Toxic Substances Control [DTSC]

Dry Cleaners [CA DRYCLEANERS]), however, the listings were all greater than 2,300 feet from the subset of the Subject Property. The 2020 Phase I ESA Update revealed no RECs in connection with the subset of the Subject Property and no further action was recommended.

On December 2, 2020, Apex performed a 2020 Phase I ESA which encompassed seven lots identified as SBC APNs 025-116-308, 025-116-309, 025-116-310, 025-116-313, 025-116-411, 025-116-415, and 025-116-420, encompassing approximately 12.57 acres. The seven lots were located in a mixed light industrial/residential area, zoned as IG, and consisted of six properties (**Figure 2**). The lots are primarily used for transportation (truck and trailer staging, maintenance and repair), various commercial uses including construction operations, and residential uses. The lots are bordered by San Bernardino Freeway to the north, Cypress Avenue and residential/industrial properties to the east, Slover Avenue to the south, and residential properties to the west. The assessment revealed the following:

- Multiple 5-gallon oil buckets, one 200-gallon tote and one 300-gallon aboveground storage tank (AST) were observed onsite, in addition to poor housekeeping and areas of staining near equipment or trucks. In addition, odors were noted coming from a storage shed where oil or fuel containers were stored. Apex considered these conditions a Business Environmental Risk;
- Most buildings onsite were inaccessible during the site reconnaissance, including residences and buildings occupied by light industrial businesses (construction- and transportation-oriented businesses. The inability to inspect interior portions of the site was considered a significant data gap; and
- Interviews were not conducted with any owner of the site. The inability to interview previous or current owner(s) or occupants at the site was considered a data gap.

Copies of the previous Phase I ESA's are included as Attachment D. Duke is currently assessing 11 additional SBC parcels located north of Slover Avenue and east of Cypress Avenue, comprising a total of 8.33 acres, which, combined with the all previous SBC APNs, constitute the Subject Property.

2.0 CURRENT SITE ASSESSMENT

The Subject Property was inspected on July 19, 2021 by Apex representative Jennifer Woods, under the supervision of Paisha Jorgensen, a qualified environmental professional. Weather conditions at the time of the inspection were clear and temperatures of approximately 90 degrees Fahrenheit. During the site reconnaissance, Ms. Woods was unaccompanied on the Subject Property. The site reconnaissance consisted of a walk-through of the Subject Property. The interior of the residential buildings on the Subject Property were not accessible during the site reconnaissance; however, all exterior portions and the interior of sheds and garages could be observed. Detailed information on the Site Reconnaissance can be found in **Attachment A,** which contains photographs taken during the site walk. This section summarizes significant findings of the site inspection of the Subject Property.

At the time of the site reconnaissance, the Subject Property consisted of 22 parcels at the following addresses: 16470 and 16376 Slover Avenue; 10467, 10475, 10375, 10367, and 10349 Oleander Avenue; and 16321, 16326, 16345, 16346, 16351, 16368, 16395, 16398, 16409, 16434, and 16464 Boyle Avenue. The majority of the Subject Property was developed with occupied and vacant single-family residences and vacant land. The property at 16398 Boyle Avenue is currently utilized by Ohno Construction as a storage yard and vehicle repair shop. The tenant at 16464 Boyle Avenue was in the process of vacating the property and a storage yard for soils with small-scale auto repair was observed at the 10349 Oleander Avenue property.

1.1 Hazardous Substances and Petroleum Products

At 10349 Oleander Avenue, two plastic AST totes containing an unknown substance was observed outside of the garage. Various retail-sized containers of petroleum products and cleaners were observed throughout the garage, shed, and exterior of the property. All containers were observed in good condition with no evidence of leaks or staining.

At 16398 Boyle Avenue (Ohno Construction), three 55-gallon drums of engine oil, one 55-gallon drum of grease, one 55-gallon drum of waste oil filters, one 55-gallon drum of hydraulic oil, one 55-gallon drum of waste oil, one 55-gallon drum of antifreeze, several five-gallon containers of gasoline, and five oxygen cylinders were observed within the garage. Minor concrete staining was observed in the vicinity of these containers; however, the concrete was observed to be in good condition. Additionally, two 55-gallon drums of engine oil, one 55-gallon drum of waste oil, propane cylinders, and one plastic AST totes containing an unknown petroleum products were observed outside of the garage. Minor concrete staining was observed in the vicinity of the drums; however, the concrete was observed to be in good condition.

Apex also observed various retail-sized containers of petroleum products and cleaners within the residential garages and sheds throughout the Subject Property. All containers were observed to be in good condition with no evidence of leaks or staining.

1.2 Waste Generation, Storage, and Disposal

Waste is in the form of general refuse/household items and is disposed of by Burrtec. Hazardous wastes from the 16398 Boyle Avenue property is disposed of on an as need basis. It should also be noted that large amounts of scattered general refuse were observed at the vacant parcels on the Subject Property. Apex did not observe any hazardous materials amongst the scattered debris.

1.3 Underground Storage Tanks & Aboveground Storage Tanks

ASTs observed onsite are summarized above in Section 1.1. No USTs were observed onsite.

1.4 Polychlorinated Biphenyls (PCBs) and Oil-Containing Equipment

Polychlorinated biphenyls (PCBs) are known to be a component in fluids used in electrical and hydraulic equipment, lubricating oils, paints and coatings manufactured prior to 1979. In the event of a leak or release of fluid or oil-containing equipment, the owner is responsible for remediation. Pole-mounted transformers were observed along Boyle Avenue. All transformers were observed in good condition with no evidence of leaks or staining.

Apex did not find evidence of unusual odors, wells, stressed vegetations, ponds, or lagoons on the Subject Property. Septic tanks were observed at the 16326, 16398, 16434, and 16464 Boyle Avenue properties. Details regarding the septic tanks was not available.

Apex did observe minor staining throughout the 16398 Boyle Avenue property from maintenance activities and hazardous materials storage onsite. Concrete staining was also observed at the 16434 and 16464 Boyle Avenue properties from former truck storage activities. All staining is considered de-minimis.

1.5 Other Observations

Apex did not find evidence of unusual odors, wells, stressed vegetations, ponds, or lagoons on the Subject Property. Septic tanks were observed at the 16326, 16398, 16434, and 16464 Boyle Avenue properties. Details regarding the septic tanks were not available.

Apex did observe minor staining throughout the 16398 Boyle Avenue property from maintenance activities and hazardous materials storage onsite. Concrete staining was also observed at the 16434 and 16464 Boyle Avenue properties from former truck storage activities. All staining is considered de-minimis.

1.6 Findings from the Site Reconnaissance

Apex did not identify recognized environmental conditions associated with the Subject Property during the site reconnaissance. The following de minimis condition was identified in connection with the Subject Property:

- Minor concrete staining was observed on the 16398-16464 Boyle Avenue properties due to maintenance activities, hazardous materials storage, and former truck storage activities. Concrete in the areas of the staining was found to be in generally good condition.

3.0 ADJOINING AND SURROUNDING PROPERTIES

The Subject Property is located in a light industrial and residential land use area as shown on the Site Plan, provided as **Figure 3**. Properties surrounding the Subject Property to the west, east, and south are primarily residential and vacant lots, while the properties to the north are train tracks and the San Bernardino Highway (Highway 10), followed by residential properties. Adjoining properties observed during this 2021 Phase I ESA Update were consistent with those identified during the prior Phase I ESAs and Phase I ESA Updates and are described in the following table. Apex's visual and record review of adjoining and surrounding properties did not identify any current uses that are considered to be a REC with respect to the Subject Property.

Adjacent and Surrounding Properties	
Direction	**Description**
North	Train tracks and the San Bernardino Highway (Highway 10), followed by residential properties.
East	Residential properties and vacant land.

Adjacent and Surrounding Properties	
Direction	**Description**
(beyond Cypress Avenue)	
South (beyond Slover Avenue)	Residential properties and vacant land.
West (beyond Oleander Avenue)	Residential properties and vacant land.

4.0 REGULATORY RECORDS REVIEW

Apex reviewed information gathered from environmental databases through EDR to evaluate whether activities on or near the Subject Property would potentially threaten the environmental integrity of the Subject Property. Additionally, Apex reviewed records associated with the Subject Property and adjacent properties listings on the California State Water Resources Control Board GeoTracker database at http://geotracker.waterboards.ca.gov/. No documents for the Site or adjacent properties were found on the GeoTracker database. Apex reviewed reasonably ascertainable records documenting the history of the use and/or ownership of the Subject Property and adjoining/surrounding properties. The EDR database search report is provided in **Attachment B**.

The Subject Property was listed in the following databases in the EDR report:

- SBC Permits;
- CA California Integrated Water Quality System Project (CIWQS);
- Resource Conservation and Recovery Act (RCRA) NonGEN / No Longer Regulated (NLR);
- Facility Index System (FINDS);
- Enforcement and Compliance History Online (ECHO);
- EDR Hist Auto;
- HAZNET;
- Hazardous Waste Tracking System (HWTS);
- RCRA-Large Quantity Generator (LQG);
- California Environmental Reporting System (CERS) Hazardous Waste Sites (HAZ WASTE); and
- CERS.

South Coast Recycling, addressed as 16470 Slover Avenue and located on the southern portion of the Subject Property, was identified in the SBC permits database with permit numbers PT0022353 and PT0022354. These permits were identified as special handler and special generator permits, respectively. Both of these permits expired on October 31, 2010. The CIWQS listing was in relationship to a stormwater construction system that operated under National Pollution Discharge Elimination System Number CAS000002. The system was terminated on July 19, 2012. Given that South Coast Recycling was not identified on other environmental databases, Apex does not consider the Subject Property listing on the CA CIWQS and SBC Permits a REC.

Duke Realty Limited Partnership, addressed as 16470 Slover Avenue and located on the southern portion of the Subject Property, was identified in the RCRA NonGen/NLR, FINDS, and ECHO databases. The database listings indicate that the facility currently does not generate federal waste, is not a large quantity handler of universal waste, is registered with FINDS identification number 110070855464, and registered with ECHO identification number 106554767. Given that Duke Realty Limited Partnership was not identified on other environmental databases, Apex does not consider the Subject Property listing on the RCRA NonGen/NLR, FINDS, and ECHO databases a REC.

Trade Solutions LLC, addressed as 16470 Slover Avenue and located on the southern portion of the Subject Property, was identified in the HAZNET and HWTS databases. Trade Solutions LLC operated under United States Environmental Protection Agency (USEPA) identification number CAC002648491 in 2009 and 2010 for waste oil and mixed oil, and recovery of reclamation of reuse including acid regeneration and organics recovery. No incidents were reported. Given that Trade Solutions LLC was not identified on other environmental databases, Apex does not consider the Subject Property listing on the HAZNET and HWTS databases a REC.

16470 Slover Residence, addressed as 16470 Slover Avenue and located on the southern portion of the Subject Property, was identified in the RCRA NonGen/NLR, FINDS, and ECHO databases. These listings appear to be associated with the Duke Realty Limited Partnership in 2020 and do not constitute a REC.

B&D Transport Inc, addressed as 16368 Boyle Avenue and located on the central northern portion of the Subject Property, was identified in the FINDS and SCB Permits databases. The database listings indicate that the facility was registered with FINDS identification number 110065726263 in 2016 and operated under SBC permit for large quantity generation of hazardous materials in 2015. Given that B&D Transport Inc was not identified on other environmental databases, Apex does not consider the Subject Property listing on the FINDS and SBC Permits databases a REC.

Hill Line Inc., addressed as 16357 Boyle Avenue and located on the central portion of the Subject Property, was identified as an inactive conditionally exempt small quantity generator with a San Bernardino County permit (Permit number: PT0003606). The permit expired on 11/30/2002.

Cabreras Truck and Trailer Repair, addressed as 16434 Boyle Avenue and located on the northeastern portion of the Subject Property, was identified as an inactive special generator with a San Bernardino County permit (Permit number: PT0020080). The permit expired on 03/31/2011.

OHNO Construction Company is addressed as 16398 Boyle Avenue and located on the northern portion of the Subject Property. OHNO Construction Company was identified in the RCRA

NONGEN/NLR database. The database listing indicates that the facility currently does not generate federal waste, is not a large quantity handler of universal waste, and formerly operated under NAICS Code 56299. Given that the Subject Property was not identified on other environmental databases, Apex does not consider the Subject Property listing on the NONGEN / NLR a REC.

Reported spills of hazardous substances were not identified in the database reports. There are several listings in the EDR report for off-site facilities within applicable ASTM search radii. Several of these listings (i.e., small quantity hazardous waste generators, registered and historical USTs, solid waste disposal sites, permitted hazardous waste facilities), by themselves, are not indicative of a contamination concern and, therefore, are not discussed herein and were not further evaluated for purposes of this assessment. A number of facilities appear on databases indicating potential contamination concerns (e.g., ENVIROSTOR, California Leaking Underground Storage Tank [CA LUST]; Spills, Leaks, Investigation, and Cleanup [SLIC], California DTSC Dry Cleaners (CA DRYCLEANERS)). Of the listings in the EDR report for off-site facilities within applicable ASTM search radii, no listings on databases indicating potential contamination concerns to the Subject Property are located within 2,300 feet to the Subject Property. Specifically, High School No. 5 (AKA Galleano) is listed in the ENVIROSTOR and SCH databases for arsenic contamination in soil; remediation was completed in August 2008. Three listings appear at 16111 Valley Boulevard as Arco Station 166, Quik Stop #1, and Calabasas Prop/Nugent Prop for LUST, HIST UST, CHMIRS, CERS, SWEEPS UST, CA FID UST, and HIST CORTESE cases in 1998 and a leaking pump in 2000; the cases were closed in 1998 and 2000, respectively. Two listings appear at 16081 Valley Boulevard as Gasco #595 and Gasco Service Station 595 for LUST, Cortese, HIST UST, and CERS cases in 1998; a LUST was discovered in 1998 and the case was closed in January 2004. Two listings appear at 16880 Slover Avenue as Circle K Store #5233 for LUST, SBC Permits, CERS, SWEETPS UST, HIST UST, CA FID UST, Cortese, and HIST CORTESE in relation to a LUST cleanup site where gasoline, methyl tertiary butyl ether (MTBE), tertiary butyl alcohol (TBA), and other fuel oxygenates were released to the subsurface; the case was closed in October 2011. In addition to the listings mentioned above, no open cases are located within a half-mile of the Subject Property. Given the locations of these listings and the closed case status, Apex does not consider adjacent and surrounding properties of the Subject Property a REC.

5.0 ENVIRONMENTAL LIEN SEARCH

Apex performed an environmental lien search to search for environmental encumbering instruments associated with the deeds at the Subject Property. Based on the EDR Environmental Lien Search, there are no environmental liens in association with the Subject Property. The EDR Environmental Lien Search is included as **Attachment C**.

6.0 CONCLUSIONS AND RECOMMENDATIONS

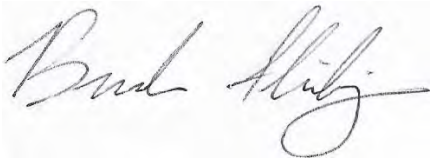

Apex performed this 2021 Phase I ESA Update in accordance with the U.S. Environmental Protection Agency's 40 CFR, Part 312 Standards and Practices for All Appropriate Inquiries (AAI) and ATSM E1527-13: "Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process" and Apex's proposal dated July 7, 2021. Any exceptions to, or deletions from, this practice are described in Section 1.0 of this report.

This assessment has revealed no RECs in connection with the Subject Property, and no further action is recommended.

7.0 LIMITATIONS AND RELIANCE

Apex's 2019 Phase I ESA Report, referenced in **Section 1.0**, was prepared for Duke. Apex permits Duke, its successors and/or assigns to use and rely on these reports, as well as this 2021 Phase I ESA Update. The opinions and conclusions expressed in this study have been based strictly on the results of these contracted services. The scope of this 2021 Phase I ESA Update is intended to aid in the evaluation of RECs that may impact the Subject Property. The services provided by Apex should not be construed as a warranty or guarantee that no RECs exist at the Subject Property, or that all RECs have been uncovered. This document is not intended for purposes other than those expressly set forth herein, or for use by parties other than those identified above in this paragraph. This report is based only on information that became available over the period of study. Other parties' use of this document is at their own risk.

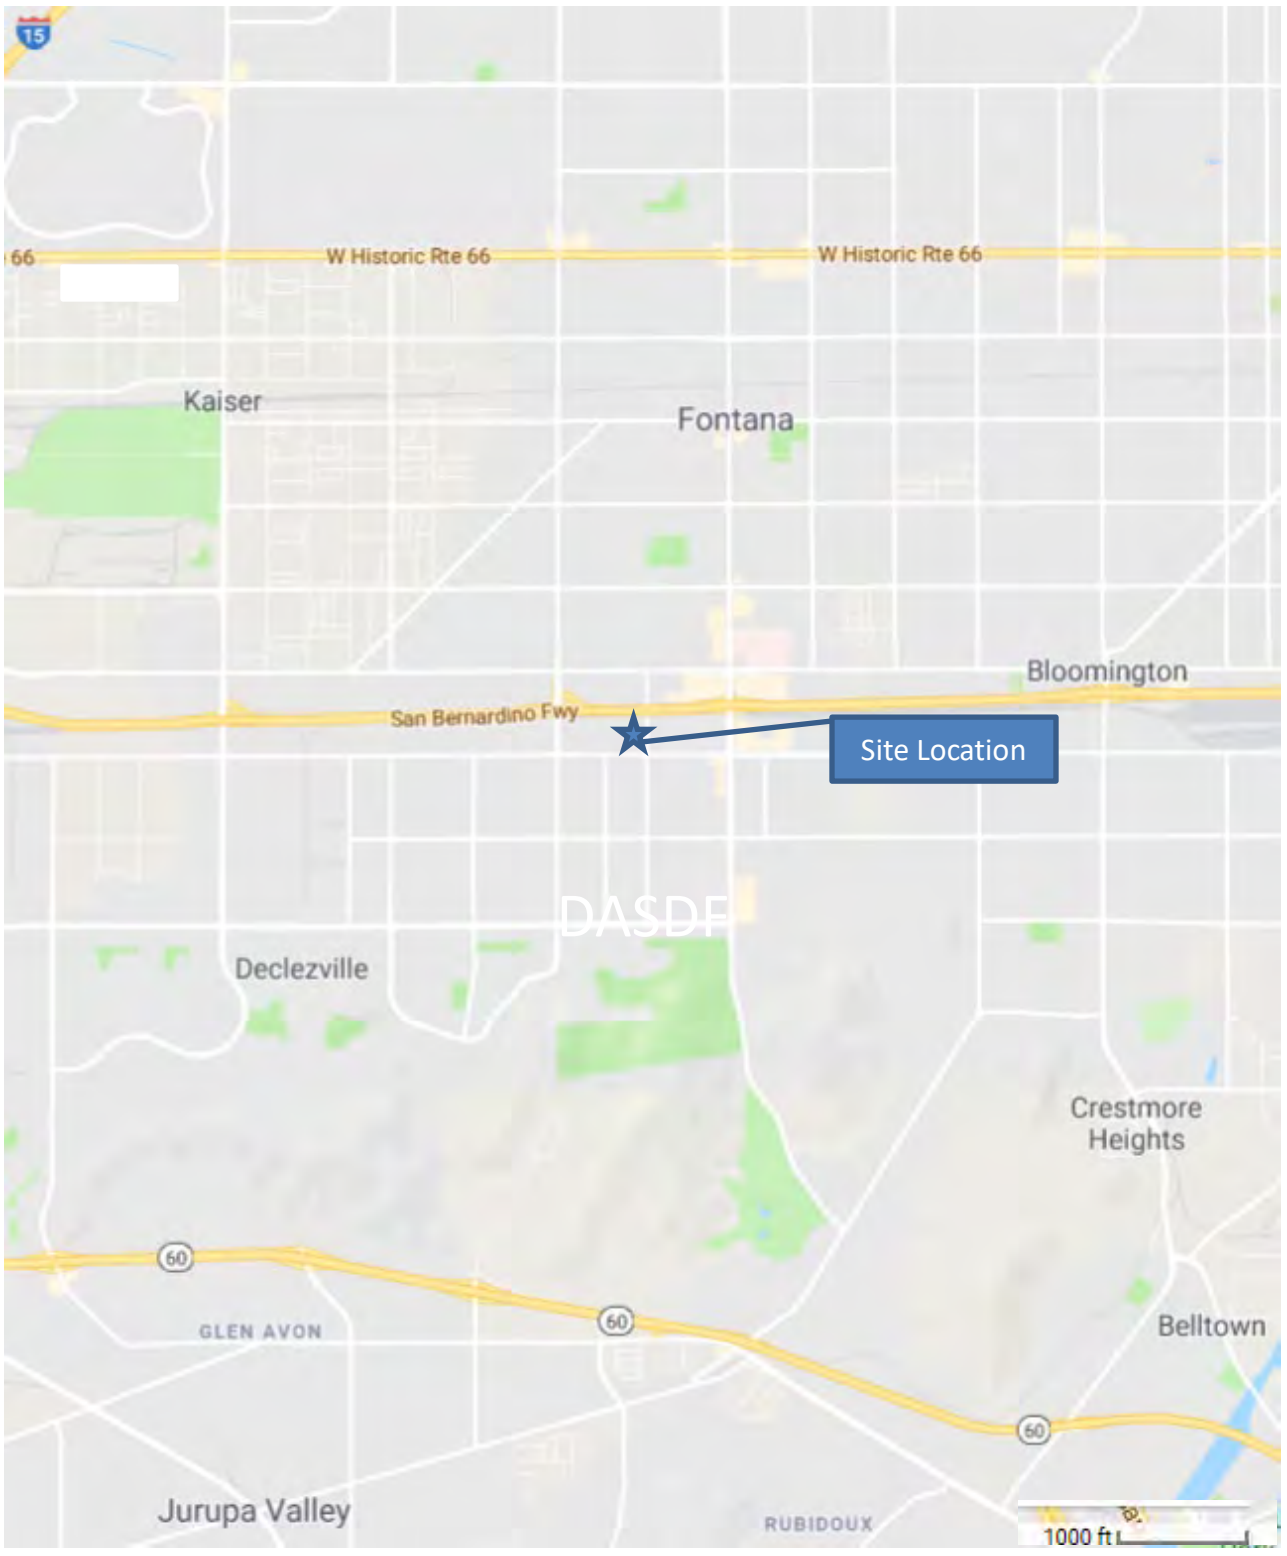

Sincerely,
Apex Companies, LLC

Brandon Flickinger, P.G., C.Hg.
Senior Geologist

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E 2247-16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E 1528-14) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Federal RCRA generators list

RCRA-LQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

A review of the RCRA-LQG list, as provided by EDR, and dated 03/22/2021 has revealed that there is 1

RCRA-LQG site within approximately 0.25 miles of the target property.

METAL RESOURCES INC EPA ID:: CAR000256115	16477 SLOVER AVE	SE 0 - 1/8 (0.027 mi.)	14	24

State- and tribal - equivalent NPL

RESPONSE: Identifies confirmed release sites where DTSC is involved in remediation, either in a lead or oversight capacity. These confirmed release sites are generally high-priority and high potential risk.

A review of the RESPONSE list, as provided by EDR, has revealed that there is 1 RESPONSE site within approximately 1 mile of the target property.

Lower Elevation	Address	Direction / Distance	Map ID	Page

State- and tribal - equivalent CERCLIS

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 01/25/2021 has revealed that there are 13 ENVIROSTOR sites within approximately 1 mile of the target property.

State and tribal leaking storage tank lists

LUST: Leaking Underground Storage Tank (LUST) Sites included in GeoTracker. GeoTracker is the Water Boards data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

A review of the LUST list, as provided by EDR, has revealed that there are 6 LUST sites within approximately 0.5 miles of the target property.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Lists of Hazardous waste / Contaminated Sites

HIST Cal-Sites: Formerly known as ASPIS, this database contains both known and potential hazardous substance sites. The source is the California Department of Toxic Substance Control. No longer updated by the state agency. It has been replaced by ENVIROSTOR.

A review of the HIST Cal-Sites list, as provided by EDR, and dated 08/08/2005 has revealed that there is 1 HIST Cal-Sites site within approximately 1 mile of the target property.

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 03/22/2021 has revealed that there are 23 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there are 2 EDR Hist Auto sites within approximately 0.125 miles of the target property.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Citation:	HSC 6.7 25290.1(e)2 - California Health and Safety Code, Chapter 6.7, Section(s) 25290.1(e)2
Violation Description:	Failure to maintain the interstitial space such that a breach in the primary or secondary containment is detected before the liquid or vapor phase of the hazardous substance stored in the UST tank is released into the environment, i.e., vapor, pressure, hydrostatic (VPH) monitoring.
Violation Notes:	Returned to compliance on 05/27/2020. OBSERVATION: Brine was observed to be leaking inside the transition sump sensors. Secondary lines were not holding vacuum. INCON system has been in alarm. Alarms documented on DO reports. Al vacuum sensors in high and low vacuum alarm. CORRECTIVE ACTION: Immediately investigate the leaks and submit plans to this Agency for repairs within thirty (30) days. NOTE: At the time of this inspection, initial plans have been submitted to this Agency and will be reviewed.

CA BOND EXP. PLAN:

Reponsible Party:	DETAILED SITE EXPENDITURE PLAN
Project Revenue Source Company:	Not reported
Project Revenue Source Addr:	Not reported
Project Revenue Source City,St,Zip:	Not reported
Project Revenue Source Desc:	The RP's have been found to be in noncompliance with an order issued by the Department. Therefore, it will be necessary to utilize Bond funds to remediate this site. DHS will undertake appropriate cost recovery actions. This site has not been identified as an NPL site, nor does it appear to be likely NPL candidate in the future. However, federal funds were made available for the interim measures completed in 1986.
Site Description:	This facility formerly recovered precious metals from photographic film using a cyanide and acid leaching process.
Hazardous Waste Desc:	Hazardous substances were stored in various decomposing containers and tanks that resulted in soil contamination. The contaminants include cyanide solids and liquids, acids, metallic materials and volatile organic compounds.
Threat To Public Health & Env:	There is threat of human exposure to toxic air emissions and contact with surface water runoff. There is a potential for contamination of the ground water which is used extensively as a domestic supply in the area. There is no known exposure at thistime.
Site Activity Status:	Extensive soil contamination at the facility was discovered in 1985. In 1986, DHS and EPA initiated interim remedial measures consisting of drum repacking and provision of guard service. DHS directed Western States Refining to mitigate the contamination in an October, 1987 order. The company refused and filed for bankruptcy. DHS found Western States Refining in noncompliance with the order in December, 1987. DHS initiated RI/FS activities in October, 1988.

Completed Document Type: Land Use Restriction
Completed Date: 12/10/1997
Comments: Not reported

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Certification
Completed Date: 06/30/1993
Comments: Approximately 65k gal of cyanide solution treated. Removed approximately 14 110-barrel vacuum trucks of cyanide rinsate. Western States Refining (WSR) was a former precious metals recovery facility in Fontana, San Bernardino, CA. A two story warehouse exists in the northwest quadrant of the site. The warehouse included several tanks and vats which formerly contained cyanide, several storage sheds and a former drum staging area. Currently the site is abandoned. The Veta Grande Companies, filed for bankruptcy and have reorganized under the name "Forum Regroup. WSR began a silver and gold recovery operation primarily from x-ray film, with a small recovery percentage coming from electronic circuit boards. In the process, cyanide solution was used to strip gold and silver from x-ray film. Hazardous substances previously stored, handled and disposed at the site include cyanide, oxidizers, heavy metals, flammable liquids, ammonium hydroxide and organic solvents.

Background Info:

Western States Refining (WSR) was a metal recovery facility that operated from 1979 to 1984. Historical information concerning previous operations at the site are incomplete. WSR recovered precious metals from x-ray film and electronic circuit boards. A cyanide solution, among other chemicals, was used to strip the metals.

In 1985, the Department and the San Bernardino County Department of Health conducted a joint inspection of the site and identified hundreds of drums and containers in deteriorated condition. These drums and containers contained cyanide, sulfides, heavy metals, caustics, and acids. Six large storage tanks containing cyanides and heavy metals were observed leaking onto the cracked berm area and into a nearby trench. Extensive soil contamination was also discovered.

In 1986, EPA and the U.S. Coast Guard completed an emergency removal of the containers and residual cyanide contamination. Approximately 600 drums and containers were removed. The six leaking storage tanks were removed and two other 35,000 gallon storage tanks were emptied but not removed.

In 1987, DHS issued a remedial action order to WSR directing them to cleanup the facility. The company refused and filed for bankruptcy. DHS found WSR in noncompliance with the order and initiated legal action. A settlement agreement was reached in 1989. Under the settlement, the RPs will pay up to $750,000

WESTERN STATES REFINING (Continued) **1000403001**

towards cleanup costs. Any other costs incurred by the Department will be recovered from the proceeds of the sale of the property once the property is certified.
Phase I and Phase II RIs have been completed. Phase I confirm-
em cyanide, asbestos, and low level heavy metal contamination.

Environmental Interest/Information System:

California Department of Toxic Substances Control EnviroStor System (DTSC-EnviroStor) is an online search and Geographic Information System (GIS) tool for identifying sites that have known contamination or sites for which there may be reasons to investigate further. The EnviroStor database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites.
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.
ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 04/27/2021

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Federal Delisted NPL site list

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 04/27/2021

Federal CERCLIS list

FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 02/22/2021

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Federal RCRA generators list

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

RCRA-VSQG: RCRA - Very Small Quantity Generators (Formerly Conditionally Exempt Small Quantity Generators)

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites
Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing
A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006
Date Data Arrived at EDR: 03/01/2007
Date Made Active in Reports: 04/10/2007

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

HAZNET: Facility and Manifest Data
Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

WASTEWATER PITS: Oil Wastewater Pits Listing

Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water boards review found that more than one-third of the region's active disposal pits are operating without permission.

WDR: Waste Discharge Requirements Listing

In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

LOS ANGELES CO LF METHANE: Methane Producing Landfills

This data was created on April 30, 2012 to represent known disposal sites in Los Angeles County that may produce and emanate methane gas. The shapefile contains disposal sites within Los Angeles County that once accepted degradable refuse material. Information used to create this data was extracted from a landfill survey performed by County Engineers (Major Waste System Map, 1973) as well as historical records from CalRecycle, Regional Water Quality Control Board, and Los Angeles County Department of Public Health

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data
Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:
Source: American Hospital Association, Inc.
Telephone: 312-280-5991
The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

UTM X (Meters):	458761.5
UTM Y (Meters):	3769192.0
Elevation:	1087 ft. above sea level

USGS TOPOGRAPHIC MAP

Target Property Map:	5619058 FONTANA, CA
Version Date:	2012

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

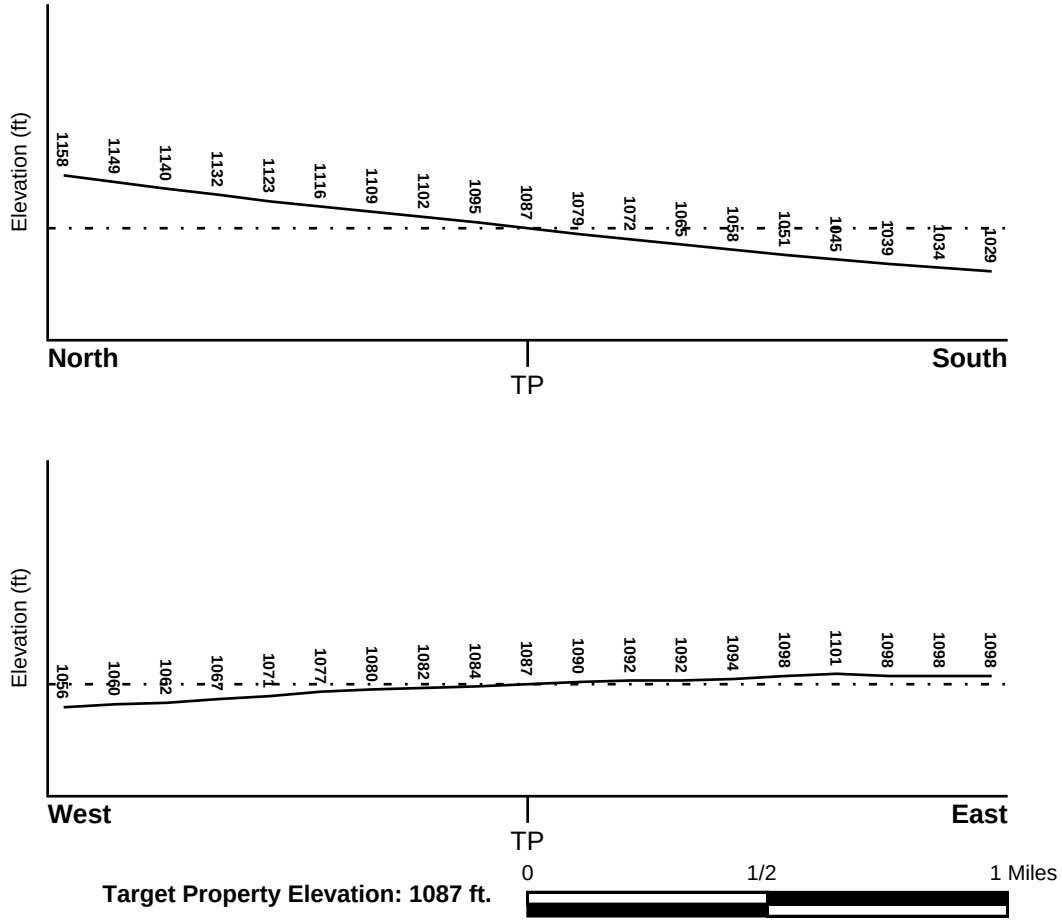

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General SSW

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

Flood Plain Panel at Target Property	FEMA Source Type
06071C8654H	FEMA FIRM Flood data

Additional Panels in search area:	FEMA Source Type
06071C8658H	FEMA FIRM Flood data
06071C8665H	FEMA FIRM Flood data
06071C8666H	FEMA FIRM Flood data

NATIONAL WETLAND INVENTORY

NWI Quad at Target Property	NWI Electronic Data Coverage
FONTANA	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Status:	Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

MAP ID	LOCATION FROM TP	GENERAL DIRECTION GROUNDWATER FLOW
Not Reported		

* ©1996 Site−specific hydrogeological data gathered by CERCLIS Alerts, Inc., Bainbridge Island, WA. All rights reserved. All of the information and opinions presented are those of the cited EPA report(s), which were completed under a Comprehensive Environmental Response Compensation and Liability Information System (CERCLIS) investigation.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: TUJUNGA

Soil Surface Texture: gravelly loamy sand

Hydrologic Group: Class A - High infiltration rates. Soils are deep, well drained to excessively drained sands and gravels.

Soil Drainage Class: Somewhat excessively drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	0 inches	18 inches	gravelly loamy sand	Granular materials (35 pct. or less passing No. 200), Stone Fragments, Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 141 Min: 42	Max: 7.8 Min: 6.1
2	18 inches	59 inches	loamy sand	Granular materials (35 pct. or less passing No. 200), Stone Fragments, Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 141 Min: 42	Max: 7.8 Min: 6.1

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map
Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.
Source: FEMA
Telephone: 877-336-2627
Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory
Source: Department of Fish and Wildlife
Telephone: 916-445-0411

HYDROGEOLOGIC INFORMATION

AQUIFLOW^{R} Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

OTHER STATE DATABASE INFORMATION

Groundwater Ambient Monitoring & Assessment Program
State Water Resources Control Board
Telephone: 916-341-5577
The GAMA Program is Californias comprehensive groundwater quality monitoring program. GAMA collects data by testing the untreated, raw water in different types of wells for naturally-occurring and man-made chemicals. The GAMA data includes Domestic, Monitoring and Municipal well types from the following sources, Department of Water Resources, Department of Heath Services, EDF, Agricultural Lands, Lawrence Livermore National Laboratory, Department of Pesticide Regulation, United States Geological Survey, Groundwater Ambient Monitoring and Assessment Program and Local Groundwater Projects.

Water Well Database
Source: Department of Water Resources
Telephone: 916-651-9648

California Drinking Water Quality Database
Source: Department of Public Health
Telephone: 916-324-2319
The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

California Oil and Gas Well Locations
Source: Dept of Conservation, Geologic Energy Management Division
Telephone: 916-323-1779
Oil and Gas well locations in the state.

California Earthquake Fault Lines
Source: California Division of Mines and Geology
The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

RADON

State Database: CA Radon
Source: Department of Public Health
Telephone: 916-210-8558
Radon Database for California

PHYSICAL SETTING SOURCE RECORDS SEARCHED

Area Radon Information
Source: USGS
Telephone: 703-356-4020
The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones
Source: EPA
Telephone: 703-356-4020
Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

EDR Environmental Lien and AUL Search

The EDR Environmental Lien Search Report provides results from a search of available current land title records for environmental cleanup liens and other activity and use limitations, such as engineering controls and institutional controls.

A network of professional, trained researchers, following established procedures, uses client supplied address information to:

- search for parcel information and/or legal description;
- search for ownership information;
- research official land title documents recorded at jurisdictional agencies such as recorders' offices, registries of deeds, county clerks' offices, etc.;
- access a copy of the deed;
- search for environmental encumbering instrument(s) associated with the deed;
- provide a copy of any environmental encumbrance(s) based upon a review of key words in the instrument(s) (title, parties involved, and description); and
- provide a copy of the deed or cite documents reviewed.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

EDR Environmental Lien and AUL Search

The EDR Environmental Lien Search Report provides results from a search of available current land title records for environmental cleanup liens and other activity and use limitations, such as engineering controls and institutional controls.

A network of professional, trained researchers, following established procedures, uses client supplied address information to:

- search for parcel information and/or legal description;
- search for ownership information;
- research official land title documents recorded at jurisdictional agencies such as recorders' offices, registries of deeds, county clerks' offices, etc.;
- access a copy of the deed;
- search for environmental encumbering instrument(s) associated with the deed;
- provide a copy of any environmental encumbrance(s) based upon a review of key words in the instrument(s) (title, parties involved, and description); and
- provide a copy of the deed or cite documents reviewed.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

EXHIBIT "A"
LEGAL DESCRIPTION

The Land referred to herein below is situated in the City of Fontana, County of San Bernardino, State of California, and is described as follows:

THE WEST 2.41 ACRES OF THE EAST 13.46 ACRES OF FARM LOT 739, ACCORDING TO MAP SHOWING SUBDIVISION OF LANDS BELONGING TO THE SEMI-TROPIC LAND AND WATER COMPANY, IN THE COUNTY OF SAN BERNARDINO, STATE OF CALIFORNIA, AS PER PLAT RECORDED IN BOOK 11 OF MAPS, PAGE 12, RECORDS OF SAID COUNTY.

EXCEPT THE SOUTH 34 FEET RESERVED FOR ROADS.

NOTE: THE MAP OF THE ABOVE DESCRIBED SUBDIVISION SHOWS THAT THE AREA AND DISTANCES OF SAID LOT ARE COMPUTED TO STREET CENTERS.

For conveyancing purposes only: APN 0251-163-06-0-000

EXHIBIT "B"

PERMITTED EXCEPTIONS

1. General and special taxes and assessments for the fiscal year 2019-2020, a lien not yet due or payable.

2. The lien of supplemental taxes, if any, assessed pursuant to Chapter 3.5 commencing with Section 75 of the California Revenue and Taxation Code.

3. Water rights, claims or title to water, whether or not shown by the public records.

4. Rights of tenants, as tenants only, under unrecorded leases.

5. Covenants, conditions, restrictions and easements in the document recorded January 10, 1925 in Book 877 of Deeds, Page 316, which provide that a violation thereof shall not defeat or render invalid the lien of any first mortgage or deed of trust made in good faith and for value, but deleting any covenant, condition, or restriction, if any, indicating a preference, limitation, or discrimination based on race, color, religion, sex, gender, gender identity, gender expression, sexual orientation, familial status, marital status, disability, handicap, veteran or military status, genetic information, national origin, source of income as defined in subdivision (p) of Section 12955, or ancestry, to the extent that such covenants, conditions or restrictions violate applicable state or federal laws. Lawful restrictions under state and federal law on the age of occupants in senior housing or housing for older persons shall not be construed as restrictions based on familial status.

6. An easement for public utilities and incidental purposes in the document recorded May 01, 1926 as Book 95, Page 113 of Official Records.

7. Covenants, conditions, restrictions and easements in the document recorded April 05, 1935 as Book 1051, Page 113 of Official Records, which provide that a violation thereof shall not defeat or render invalid the lien of any first mortgage or deed of trust made in good faith and for value, but deleting any covenant, condition, or restriction, if any, indicating a preference, limitation, or discrimination based on race, color, religion, sex, gender, gender identity, gender expression, sexual orientation, familial status, marital status, disability, handicap, veteran or military status, genetic information, national origin, source of income as defined in subdivision (p) of Section 12955, or ancestry, to the extent that such covenants, conditions or restrictions violate applicable state or federal laws. Lawful restrictions under state and federal law on the age of occupants in senior housing or housing for older persons shall not be construed as restrictions based on familial status.

8. The fact that the land lies within the boundaries of the Southwest Industrial Park Redevelopment Project Area, as disclosed by the document recorded July 25, 1977 as Book 9226, Page 982 of Official Records.

9. The fact that the land lies within the boundaries of the Agua Mansa Redevelopment Project Area, as disclosed by the document recorded July 21, 1988 as Instrument No. 88-237223 of Official Records.

10. The effect of a map purporting to show the land and other property, filed Book 169, Page 54 of Record of Surveys.

EDR Environmental Lien and AUL Search

The EDR Environmental Lien Search Report provides results from a search of available current land title records for environmental cleanup liens and other activity and use limitations, such as engineering controls and institutional controls.

A network of professional, trained researchers, following established procedures, uses client supplied address information to:

- search for parcel information and/or legal description;
- search for ownership information;
- research official land title documents recorded at jurisdictional agencies such as recorders' offices, registries of deeds, county clerks' offices, etc.;
- access a copy of the deed;
- search for environmental encumbering instrument(s) associated with the deed;
- provide a copy of any environmental encumbrance(s) based upon a review of key words in the instrument(s) (title, parties involved, and description); and
- provide a copy of the deed or cite documents reviewed.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

EDR Environmental Lien and AUL Search

The EDR Environmental Lien Search Report provides results from a search of available current land title records for environmental cleanup liens and other activity and use limitations, such as engineering controls and institutional controls.

A network of professional, trained researchers, following established procedures, uses client supplied address information to:

- search for parcel information and/or legal description;
- search for ownership information;
- research official land title documents recorded at jurisdictional agencies such as recorders' offices, registries of deeds, county clerks' offices, etc.;
- access a copy of the deed;
- search for environmental encumbering instrument(s) associated with the deed;
- provide a copy of any environmental encumbrance(s) based upon a review of key words in the instrument(s) (title, parties involved, and description); and
- provide a copy of the deed or cite documents reviewed.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

EDR Environmental Lien and AUL Search

The EDR Environmental Lien Search Report provides results from a search of available current land title records for environmental cleanup liens and other activity and use limitations, such as engineering controls and institutional controls.

A network of professional, trained researchers, following established procedures, uses client supplied address information to:

- search for parcel information and/or legal description;
- search for ownership information;
- research official land title documents recorded at jurisdictional agencies such as recorders' offices, registries of deeds, county clerks' offices, etc.;
- access a copy of the deed;
- search for environmental encumbering instrument(s) associated with the deed;
- provide a copy of any environmental encumbrance(s) based upon a review of key words in the instrument(s) (title, parties involved, and description); and
- provide a copy of the deed or cite documents reviewed.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

Grant Deed

Title of Document

Pursuant to Senate Bill 2 – Building Homes and Jobs Act (GC Code Section 27388.1), effective January 1, 2018, a fee of seventy-five dollars ($75.00) shall be paid at the time of recording of every real estate instrument, paper, or notice required or permitted by law to be recorded, except those expressly exempted from payment of recording fees, per each single transaction per parcel of real property. The fee imposed by this section shall not exceed two hundred twenty-five dollars ($225.00).

Reason for Exemption:

■ Exempt from fee per GC 27388.1, recorded in connection with a transfer subject to the imposition of documentary transfer tax (DTT), or

Exempt from fee per GC 27388.1, recorded in connection with a transfer of real property that is a residential dwelling to an owner-occupier, or

Exempt from fee per GC 27388.1, recorded in connection with a transfer that was subject to documentary transfer tax which was paid on document recorded previously on _____(date) as document number _____of Official Records. (Cap. $225.00)

Exempt from fee per GC 27388.1, fee cap of $225.00 reached, and/or

Exempt from fee per GC 27388.1, not related to real property

Failure to include an exemption reason will result in the imposition of the $75.00 Building Homes and Jobs Act fee. Fees collected are deposited to the State and may not be available for refund.

EXHIBIT "A"
LEGAL DESCRIPTION

That certain real property located in San Bernardino County, California, and more particularly described as follows:

THE NORTH 1/2 OF THE EAST 1/2 OF FARM LOT 742, ACCORDING TO MAP OF SUBDIVISION OF LANDS, BELONGING TO THE SEMI-TROPIC LAND AND WATER COMPANY, AS PER PLAT RECORDED IN BOOK 11 OF MAPS, PAGE 12, RECORDS OF SAID COUNTY.

EXCEPTING THEREFROM THE NORTH 6 FEET, AND EXCEPTING THEREFROM THE WEST 120 FEET.

AREA AND DISTANCES COMPUTED TO STREET CENTERS.

EXCEPTING THEREFROM THAT PORTION OF LAND CONVEYED TO CITY OF FONTANA, A CALIFORNIA MUNICIPAL CORPORATION, AS DESCRIBED IN GRANT DEED RECORDED MARCH 07, 2008 AS INSTRUMENT NO. 2008-0102579, OF OFFICIAL RECORDS.

APN: 0251-164-23-0-000 (Affects Portion of said land) and 0251-164-04-0-000 (Affects Portion of said land)

EXHIBIT "B"

PERMITTED EXCEPTIONS

1. General and special taxes and assessments for the fiscal year 2019-2020, a lien not yet due or payable.

2. The lien of supplemental taxes, if any, assessed pursuant to Chapter 3.5 commencing with Section 75 of the California Revenue and Taxation Code.

3. Water rights, claims or title to water, whether or not shown by the public records.

4. Building restriction contained in document recorded in Book 1051, Page 107, Official Records of San Bernardino County, California.

5. Building restriction contained in document recorded in Book 2079, Page 214, Official Records of San Bernardino County, California.

EDR Environmental Lien and AUL Search

The EDR Environmental Lien Search Report provides results from a search of available current land title records for environmental cleanup liens and other activity and use limitations, such as engineering controls and institutional controls.

A network of professional, trained researchers, following established procedures, uses client supplied address information to:

- search for parcel information and/or legal description;
- search for ownership information;
- research official land title documents recorded at jurisdictional agencies such as recorders' offices, registries of deeds, county clerks' offices, etc.;
- access a copy of the deed;
- search for environmental encumbering instrument(s) associated with the deed;
- provide a copy of any environmental encumbrance(s) based upon a review of key words in the instrument(s) (title, parties involved, and description); and
- provide a copy of the deed or cite documents reviewed.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

EXECUTIVE SUMMARY

Apex Companies, LLC (Apex) performed a Phase I Environmental Site Assessment (Phase I ESA) of the property located on the northwestern corner of the intersection of Cypress Avenue and Slover Avenue, Fontana, California, (Subject Property) on behalf of Duke Realty (Duke). The Subject Property is comprised of 5 lots identified as San Bernardino County Assessor's Parcel Number (APN) 025-116-410, 025-116-403, 025-116-404, 025-116-423 and 025-116-425 and encompasses approximately 9.7 acres. The Subject Property is located on the northwest corner of Cypress Avenue and Slover Avenue in Fontana, California, in a mixed light industrial/residential area. The Subject Property is zoned as Industrial General (IG) and consists of two residential lots, two vacant land lots, and one industrial lot. The Subject Property is bordered by Boyle Avenue to the north, Cypress Avenue to the east, Slover Avenue to the south, and residential properties to the west. The Subject Property is shown on a Site Location Map that is provided as **Figure 1** and a Site Plan which is provided as **Figure 2**.

Apex performed this ESA in accordance with the proposal dated October 23, 2018 and the American Society and Testing Materials (ASTM) E1527-13 and the U.S. Environmental Protection Agency's Standards and Practices for All Appropriate Inquiries, 40 Code of Federal Regulations (CFR) 312. The findings, opinions and conclusions of this ESA are for the confidential and exclusive use of Duke, its affiliates, employees, agents, successors, and assigns. Reliance on this report for any use by parties other than specifically stated is prohibited without the express written consent of Apex and Duke, and such use is at the sole risk of the User. Any exceptions to, or deletions from, this practice are described in Section 1.0 of this report.

This assessment has revealed no RECs in connection with the Subject Property and no further action is recommended.

TERMINOLOGY

This section contains definitions for technical terms used in the report. Italicized terms are defined in the American Society and Testing Materials (ASTM) Standard Practice E 1527-13 and provided below for easy reference.

Recognized Environmental Condition (REC): "The presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to any release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment. De minimis conditions are not recognized environmental conditions."

Historical Recognized Environmental Condition (HREC): "A past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls). Before calling the past release a HREC, the environmental professional (EP) must determine whether the past release is a REC at the time the Phase I Environmental Site Assessment (ESA) is conducted (for example, if there has been a change in regulatory criteria). If the EP considers the past release to be a REC at the time the Phase I ESA is conducted, the condition shall be included in the conclusions section of the report as a REC."

Controlled Recognized Environmental Condition (CREC): "A REC resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (for example, as evidenced by the issuance of a no further action letter or equivalent, or meeting risk-based criteria established by the regulatory authority), with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls). A condition considered by the EP to be a CREC shall be listed in the findings section of the Phase I ESA report, and as a REC in the conclusions section of the Phase I ESA report."

De minimis condition: "A condition that generally does not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. Conditions determined to be de minimis conditions are not RECs nor controlled recognized environmental conditions."

Business Environmental Risk: "A risk which can have a material environmental or environmentally-driven impact on the business associated with the current or planned use of a parcel of commercial real estate, not necessarily limited to those environmental issues required to be investigated in this practice. Consideration of business environmental risk issues may involve addressing one or more non-scope considerations."

Data Gap: "A lack of or inability to obtain information required by this practice despite good faith efforts by the EP to gather such information. Data gaps may result from incompleteness in any of the activities required by this practice, including, but not limited to site reconnaissance (for example, an inability to conduct the site visit), and interviews (for example, an inability to interview the key site manager, regulatory officials, etc.)".

1.0 INTRODUCTION

1.1 Purpose

Apex Companies, LLC has prepared this Phase I Environmental Site Assessment (ESA) at the request of the Duke Realty (Duke) to identify *recognized environmental conditions (RECs)* that may pose potential environmental risks associated with the Subject Property located at the northwest corner of Cypress Avenue and Slover Avenue in Fontana, California.

1.2 Scope of Services

This ESA was conducted in good commercial and customary practice by utilizing the American Society and Testing Materials (ASTM) E1527-13 "Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process" and the U.S. Environmental Protection Agency's (EPA) Standards and Practices for All Appropriate Inquiries (AAI), 40 Code of Federal Regulations (CFR), Part 312. The scope of services performed were in accordance with the proposal dated October 23, 2018 and included evaluation of the following:

- Review of environmental databases to obtain information concerning the current and historical usage, storage, treatment, and disposal of hazardous substances on and in the vicinity of the Subject Property;
- Review available files, as appropriate, from the California Regional Water Quality Control Board, California Department of Toxic Substances Control, California Department of Conservation Division of Oil, Gas, & Geothermal Resources, San Bernardino County, and City of Fontana;
- Review of historical aerial photographs, topographic maps, fire insurance maps, and city directories;
- An on-site survey of the Subject Property and visual evaluation of surrounding properties;
- Conduct interviews with representatives of regulatory agency(s), current property owner/operator, and/or consultants for owner/operator; and
- Prepare draft Phase I ESA Report documenting findings for review by Duke prior to finalizing.

1.3 Significant Assumptions

Apex has performed the historical and environmental record searches in accordance with current ASTM and industry practice. The data, findings, and conclusions presented in this ESA are based upon a detailed search, review, and analysis of the documents and interviews as well as observations made during the site reconnaissance. Conclusions reached regarding the conditions of the Subject Property do not represent a warranty that all areas within the Subject Property are of a similar quality as may be inferred from observable conditions and available history of the Subject Property. As stated in the ASTM Standard, no ESA can wholly eliminate uncertainty regarding the potential for environmental liability in connection with the Subject Property. Apex's evaluation and

analysis are intended to reduce, not eliminate, the potential for conditions that result in liability for the User of this ESA.

1.4 Limitations and Exceptions

This report was prepared as a result of a contractual agreement that defined the approach and scope of services to be employed during the course of the investigation. The opinions and conclusions expressed in this study have been based strictly on the results of these contracted services. The scope of this ESA is intended to aid in the evaluation of RECs. The services provided by Apex should not be construed as a warranty or guarantee that no RECs exist at the Subject Property or that all RECs have been uncovered. No conclusions are stated or implied concerning the suitability of the Subject Property for its eventual use. This document is not intended for purposes other than those expressly set forth herein or for use by parties other than for whom it has been prepared.

As outlined in the ASTM Standard for ESAs and Apex's scope of work, this project was non-intrusive in nature and did not include any sampling or testing of soils, groundwater, surface water, or other materials. Additionally, unless specifically described in this report, Apex's scope of work explicitly excluded issues that are outside the scope of ASTM E1527-13 which would constitute a business environmental risk as defined by ASTM. The ASTM Standard Practice E1527-13 recognizes, but not limited to, the following inherent limitations for this ESA:

- Uncertainty is Not Eliminated - No ESA can wholly eliminate uncertainty regarding the potential for RECs in connection with a property. Performance of this practice is intended to reduce, but not eliminate, uncertainty regarding the potential for RECs, and this practice recognizes reasonable limits of time and cost.
- Not Exhaustive - All Appropriate Inquiry does not mean an exhaustive assessment of a property. There is a point at which the cost of information obtained, or the time required to gather it outweighs the usefulness of the information and, in fact, may be a material detriment to the orderly completion of transactions.
- Level of Inquiry Is Variable - Not every property will warrant the same level of assessment. Consistent with good commercial or customary practice, the appropriate level of environmental site assessment will be guided by the type of property, the expertise and risk tolerance of the user, and the information developed in the course of the inquiry.

In general, the EPA does not regulate indoor air quality except to the extent that indoor air impacts are caused by releases of hazardous substances into subsurface soil or groundwater (vapor intrusion). ASTM E1527-13 defines "migrate" and "migration" as referring to the movement of hazardous substances or petroleum products in any form, including solid and liquid at the surface or subsurface, and vapor in the subsurface. Vapor migration in the subsurface is described in Guide E2600 – Guide for Vapor Encroachment Screening on Property Involved in Real Estate Transactions; however, nothing in ASTM E1527-13 requires application of the Guide E2600 to achieve compliance with all appropriate inquiries.

An ESA completed less than 180 days prior to the date of acquisition of the property or (for transactions not involving an acquisition) the date of the intended transaction, is presumed to be valid. An ESA meeting or exceeding this practice and for which the information was collected or updated within one year prior to the date of the intended transaction, may be used provided that the following components of the ESA were conducted or updated within 180 days of the date of purchase or the date of the intended transaction:

- interviews with owners, operators, and occupants;
- searches for recorded environmental cleanup liens;
- reviews of federal, tribal, state, and local government records;
- visual inspections of the property and of adjoining properties, and;
- the declaration by the environmental professional responsible for the assessment or update.

1.5 Special Terms and Conditions

This project was performed in accordance with the scope of work, terms and conditions and limitations stated in the proposal dated October 23, 2018, and as stated in this report. There are no other special terms or conditions concerning this project.

1.6 User Reliance

This report documents the ESA of the Subject Property performed by Apex in accordance with the proposal and in accordance with ASTM E1527-13 and the U.S. EPA Standards and Practices for All Appropriate Inquiries, 40 CFR 312. The findings, opinions and conclusions of this Phase I ESA are for the confidential and exclusive use of Duke, its affiliates, employees, agents, successors, and assigns. Reliance on this report for any use by parties other than specifically stated is prohibited without the express written consent of Apex and Duke, and such use is at the sole risk of the user.

1.7 Data Gaps

Available historical information enabled Apex to identify the first developed use of the property and at approximately 10-year intervals to the present, such that significant data gaps were not encountered.

2.0 SITE DESCRIPTION

2.1 Site Location and Ownership

The Subject Property is located at the northwest corner of Cypress Avenue and Slover Avenue in Fontana, California and is identified as San Bernardino County Assessor's Parcel Numbers (APN) 025-116-410, 025-116-403, 025-116-404, 025-116-423 and 025-116-425 that together encompass approximately 9.7 acres. According to information provided on the Environmental Data Resources, Inc. (EDR) Environmental Lien and AUL Search, lot 025-116-410 is addressed as 16395 Boyle Avenue and owned by Bonnie M. Romero; lot 025-116-403 is addressed as 16409 Boyle Avenue and owned by Baldomero Trujillo; lots 025-116-404 and 025-116-423 are owned by Vicki Lynn Wong Trustee; and lot 025-116-425 is addressed as 16470 Slover Avenue and owned by Trade Solutions, LLC. The Subject Property is zoned as Industrial General (IG) and is located in a mixed light industrial and residential use area. The Subject Property is shown on a Site Location Map that is provided as **Figure 1** and a Site Plan which is provided as **Figure 2**.

2.2 Current Uses and Improvements of Subject Property

The Site is occupied by three residences, two trailers, one barn, and one industrial building (Material Trade Solutions). Material Trade Solutions occupies the southern portion of the Site and has operated as a recycling facility since 2004. Multiple shipping containers and other storage units are located on the Material Trade Solutions portion of the Subject Property. Residences are located on the northwestern, northern, and southeastern portion of the Site, while vacant land is located on the northeastern portion.

2.3 Current Land Uses of Adjoining and Surrounding Properties

The Subject Property is located in a light industrial and residential land use area as shown on the Site Plan, provided as **Figure 2**. Properties surrounding the Subject Property to the west, east, and south are primarily residential, while the properties to the north are light industrial. (**Table 2-1**). Apex's visual and record review of adjoining and surrounding properties did not identify any current uses that are considered to be a REC with respect to the Subject Property.

TABLE 2-1: Adjacent and Surrounding Properties

Direction	Description
North (beyond Boyle Avenue)	Vacant light industrial property addressed as 16368 Boyle Avenue, OHNO Construction addressed as 16346 Boyle Avenue, and Jacob Transport addressed as 16434 Boyle Avenue.
East	Two residential properties and vacant land.

TABLE 2-1: Adjacent and Surrounding Properties	
Direction	**Description**
(beyond Cypress Avenue)	
South (beyond Slover Avenue)	Residences and vacant land
West	Vacant and residential.

3.0 USER PROVIDED INFORMATION

This section summarizes the information provided by the User, Duke Realty (Duke), for this Phase I ESA. A User Questionnaire was prepared and sent to Duke to help retrieve the needed information and assist in gathering appropriate information that may help identify potential RECs on the property. At the time this report was prepared, the User Questionnaire had not been returned to Apex. A copy of the uncompleted questionnaire is provided in **Appendix A**. Information provided is summarized in **Table 3-1** and elsewhere in this report.

TABLE 3-1: User Provided Information

Data Type	Information Provided
Environmental Liens, AUL, Title Records	The Subject Property does not have any Environmental Liens. No AULs were included on the EDR search report.
Specialized User Knowledge	The User did not have specialized knowledge of the Subject Property.
Commonly Known or Reasonably Ascertainable Information	No commonly known document impacting the Subject Site are available.
Valuation Reduction for Environmental Issues	The User is responsible to perform the additional inquiries regarding purchase price to the fair market value of the Site.
Reason for Performing Phase I ESA	This Phase I ESA was performed at the request of Duke in anticipation of an acquisition involving the Subject Property, for the User to qualify for defenses to CERCLA liability, and as part of Duke's Due Diligence for the acquisition loan requirements.
Other User Provided Information	No additional user information was provided regarding the Subject Property.

4.0 RECORDS REVIEW

This section summarizes all records obtained by Environmental Data Resources, Inc. (EDR) and reviewed by Apex to help identify RECs in connection with the Subject Property. The first section discusses the physical setting sources that will provide an understanding of the physical characteristics of the Subject Property and surrounding area. This important information will help determine likelihood of potential of contaminants migrating onto the Subject Property from surrounding properties with environmental contaminants. The next section reviews current and historical environmental records associated with the Subject Property and surrounding properties. Relevant listings will be discussed and reviewed for potential RECs. The section for historical use record review will follow to develop a history of the previous uses of the Subject Property and surrounding area to help identify RECs from past uses followed by a findings section where identified RECs and information is summarized. The EDR Radius Map Report can be found in **Appendix B**.

4.1 Physical Setting Sources

Although the ASTM E1527-13 Standards only require a current U.S. Geological Survey (USGS) 7.5-Minute Topographic Map for analysis, that is not enough information to fully characterize the physical setting of the Subject Property. Apex utilized several sources to understand the physical properties of the Subject Property and surrounding area, as shown in **Table 4-1**. This information will determine the likelihood of hazardous substances and/or petroleum contaminants migrating from surrounding areas through the soil and groundwater onto the Subject Property. More importantly, it will also identify significant environmental record listings in the following sections that are upgradient of groundwater flow where the contaminants could migrate onto the Subject Property.

TABLE 4-1: Physical Setting Sources

Data Type	Data Source
Topography	United States Geological Survey (USGS) 7.5-minute topographic maps provided by EDR
Floodplain	Federal Emergency Management Agency (FEMA), Flood Insurance Rate Map
Wetlands	Fish and Wildlife Service (FWS) National Wetlands Inventory (http://www.fws.gov/wetlands/data/mapper.html)
Soils	United States Department of Agriculture (USDA) – Natural Resources Conservation Service (NRCS) Web Soil Survey (WSS) (http://websoilsurvey.nrcs.usda.gov/app/)
Geology	Geologic Age and Rock Stratigraphic Unit Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - a digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994)

4.1.1 Topography

Based on site observations and a USGS topographic map of the area, the Subject Property is relatively flat. Based on the United States Geological Survey (USGS) 7.5-Minute Topographic Map Series, Fontana, California, Quadrangle Topographic Map, 2012, the property is located approximately 1,090 feet above mean sea level (MSL) and has a sloping topography towards the south-southwest.

4.1.2 Geology and Soils

The site is located in the northeastern portion of the Peninsular Ranges Geomorphic Province. Quaternary alluvial fan deposits derived from the neighboring mountains underlie the site. The nearest active faults include the Rialto-Colton fault, located approximately 4 miles to the northeast and the San Jacinto fault zone located approximately 7 miles to the northeast.

Based on a review of the US Department of Agriculture's (USDA) Soil Conservation Service (SCS) maps, the Subject Property is primarily underlain by the Tujunga loam sand series. The Tujunga soil series consist of very deep, somewhat excessively drained soils that formed in alluvium from granitic sources.

4.1.3 Hydrology and Hydrogeology

The Subject Property, located within the Upper Santa Ana Valley groundwater sub-basin, does not have surface water bodies on the property or in the immediate vicinity. However, the nearest bodies of water are the San Jacinto River located approximately 5.3 miles southeast of the Subject Property and Lake Mathews located approximately 14 miles south of the Subject Property. The radius map within the EDR Report (**Appendix B**) contains layers from the Federal Emergency Management Agency's (FEMA) Flood Insurance Rate Map (FIRM) and the FWS National Wetlands Inventory Map. This figure shows that the Subject Property is not located on a national or state wetland or within a 100-year or 500-year flood zone.

Groundwater flow beneath the Subject Property was estimated using several sources on the California Water Resources Control Board's GeoTracker Database. The closest site with groundwater data is the Circle K Store closed cleanup project located at 16880 Slover Avenue, Fontana located approximately 2,500 feet east of the Subject Property. According to a Case Closure Summary dated October 21, 2011, the depth to groundwater was estimated at greater than 330 feet below ground surface (bgs).

4.2 Environmental Record Review

The purpose of the environmental record review is to identify any records that are currently or historically associated with the Subject Property or adjacent/surrounding properties. This information will help identify any RECs in connection with the Subject Property and whether the listed sites with environmental records have current or former releases of hazardous substances and/or petroleum products that may have the potential to migrate onto the Subject Property.

4.2.1 Standard and Additional Environmental Record Sources

Consistent with ASTM E1527-13, a search of federal, state, and tribal environmental record sources within the established minimum search distances was conducted for the Subject Property by EDR and provided to Apex for review. The records search is used to identify adjoining or surrounding properties within the minimum search distance that may have a REC, HREC, CREC, or a de minimis condition that may exist at the Subject Property in connection with the searched listing. Apex reviewed the listings provided in the EDR report and summarized significant listings below. A full list of databases searched for this review can be found in the EDR Radius Map report in **Appendix B**.

Environmental record sources required by the ASTM standard are listed below in Table 4-2 along with the additional database sources that were searched and produced a record result. Pertinent findings from the record review are discussed at the end of this section while significant findings as they pertain to RECs are discussed in Section 4.4 and referenced in Section 8.0, Conclusions and Recommendations.

TABLE 4-2: Summary of Environmental Database Information

Environmental Record	Search Distance (Miles)	Listings within Search Distance	Subject Property Listed?
Standard Environmental Records Sources Required by ASTM E1527-13			
Federal National Priorities Sites List (NPL)	1.0	0	No
Federal Delisted NPL Sites	1.0	0	No
Federal SEMS Sites (Former CERCLIS)	0.5	0	No
Federal SEMS Archive Sites (Former CERCLIS NFRAP)	0.5	0	No
Federal RCRA CORRACTS Facilities	1.0	0	No
Federal RCRA Non-CORRACTS TSD Facilities List	0.5	0	No
Federal RCRA Generators List	0.25	0	No
Federal Institutional Control / Engineering Control Registries (IC/EC)	0.5	0	No
Federal Emergency Response Notification System (ERNS) List	Site	0	No
State / Tribal-Equivalent NPL Sites	1.0	1	No
State / Tribal-Equivalent CERCLIS Sites	1.0	13	No
State / Tribal-Equivalent Landfill and Solid Waste Disposal Sites	0.5	0	No
State / Tribal-Equivalent Leaking Storage Tank (LUST) Sites	0.5	2	No
State / Tribal Registered Storage Tank List	0.25	0	No

TABLE 4-2: Summary of Environmental Database Information			
Environmental Record	**Search Distance (Miles)**	**Listings within Search Distance**	**Subject Property Listed?**
State / Tribal Voluntary Cleanup Sites (VCP)	0.5	0	No
State / Tribal Brownfields Sites	0.5	0	No
Additional State and Federal Record Sources			
U. S. Brownfields	0.50	0	No
Local Lists of Landfill / Solid Waste Disposal Sites	0.50	0	No
Local Lists of Hazardous Waste / Contaminated Sites	1.0	1	No
Local Lists of Registered Storage Tanks	0.25	0	No
Local Land Records	0.50	0	No
Records of Emergency Release Reports	Site	0	No
RCRA NonGen / NLR	0.25	0	No
ICIS	Site	0	No
FINDS	Site	0	No
ECHO	Site	0	No
California Dry Cleaners	0.25	0	No
California EMI	Site	0	No
California HAZNET	Site	0	No
California Historic CORTESE	0.50	1	No
San Bernardino County Permits	0.25	7	Yes
HWP	1.0	1	No
CA NPDES	Site	1	Yes
CA CIWQS	Site	1	Yes
CA CERS	Site	0	No
EDR Historical Auto Station	0.125	2	No

4.2.2 Subject Property Environmental Record Results

The Subject Property was listed in the following databases in the EDR report:

- CA National Pollutant Discharge Elimination System (NPDES);
- CA California Integrated Water Quality System Project (CIWQS); and
- San Bernardino County Permits

South Coast Recycling, addressed as 16470 Slover Avenue and located on the southern portion of the Subject Property, was identified on the CA NPDES database with NPDES number CAS000002. According to the database report, a NPDES permit was terminated at this property on January 20, 2016. Two San Bernardino County permits identified as PT0022353 and PT0022354 were identified as special handler and special generator permits, respectively. Both of these permits expired on October 31, 2010. Given that South Coast Recycling was not identified on other environmental databases, Apex does not consider the Subject Property listing on the CA NPDES, CA CIWQS, and San Bernardino County Permits a REC.

4.2.3 Adjacent and Surrounding Properties' Environmental Record Results

There are several listings in the EDR report for off-site facilities within applicable ASTM search radii. Several of these listings (i.e., small quantity hazardous waste generators, registered and historical underground storage tanks [USTs], solid waste disposal sites, permitted hazardous waste facilities), by themselves, are not indicative of a contamination concern and, therefore, are not discussed herein and were not further evaluated for purposes of this assessment. A number of facilities appear on databases indicating potential contamination concerns (e.g., ENVIROSTOR, California Leaking Underground Storage Tank [CA LUST]; Spills, Leaks, Investigation, and Cleanup [SLIC], California DTSC Dry Cleaners (CA DRYCLEANERS)). Of the listings in the EDR report for off-site facilities within applicable ASTM search radii, no listings on databases indicating potential contamination concerns are located within 2,300 feet to the Subject Property. In addition, no open cases are located within a half-mile of the Subject Property. Given the locations of these listings and the closed case status, Apex does not consider adjacent and surrounding properties of the Subject Property a REC.

4.3 Environmental Liens Search

Environmental liens and Activity/Use Limitations (AULs) can commonly be found within recorded land title records (e.g., County Recorder/Registry of Deeds). The types of title reports that may disclose environmental liens and AULs include Preliminary Title Reports, Title Commitments, Condition of Title, and Title Abstracts. Chain-of-title reports will not normally disclose environmental liens or AULs. Environmental liens and AULs that are imposed by judicial authorities may be recorded or filed in judicial records only. An environmental lien report was obtained from EDR for review.

No Environmental Liens or AULs were included on the EDR search report. The Environmental Lien and AUL Search Report is included in **Appendix C**.

4.4 Historical Use Records

Apex reviewed reasonably ascertainable records documenting the history of the use and/or ownership of the Subject Property and adjoining/surrounding properties. **Table 4-3** below summaries this historical use information. Further significant details of displayed uses in **Table 4-3** are summarized in this section by the source from which the information was obtained.

TABLE 4-3: Historical Use Summary

Period	Source	Description
1890s	Topographic Map	The Subject Property is undeveloped.
1900s	Topographic Map	The Subject Property is undeveloped.
1930s	Aerial Photograph	The Subject Property is depicted as undeveloped, agricultural land. Residential properties and farmland are depicted in all directions of the Subject Property. Boyle Avenue is depicted to the north, Cypress Avenue is depicted to the east, and Slover Avenue is depicted to the south.
1940s	Aerial Photograph Topographic Map	The Subject Property and surrounding properties in all directions are depicted essentially unchanged from the 1930s.
1950s	Aerial Photograph Topographic Map City Directory	In the 1959 aerial photograph, the Subject Property is depicted developed with two residential buildings on the northwestern portion of the Site, and four commercial chicken houses on the southern portion. Vacant land is depicted on the northeastern portion of the Site. Zenz Ludwig is identified as the occupant of the 16470 Slover Avenue portion of the Site in the 1955 city directory. Surrounding properties in all directions are depicted as residential and farmland.
1960s	Aerial Photograph Topographic Map City Directory	In the 1966 aerial photograph, the Subject Property is depicted essentially unchanged from the 1959 aerial photograph, except for the addition of four commercial chicken houses on the southern portion. Occupants of the Subject Property identified on the 1960s city directories include James H Fobian (16470 Slover Avenue), David D. Cunningham (16395 Boyle Avenue), and Chapa Salome Esther (16409 Boyle Avenue). Surrounding properties in all directions are depicted essentially unchanged from the 1950s.
1970s	Aerial Photograph Topographic Map City Directory	In the 1975 aerial photograph, the Subject Property and surrounding properties in all directions are depicted essentially unchanged from the 1966 aerial photograph. Occupants of the 16395 Boyle Avenue portion include Frank Hubka in 1970 and Anthony O'Neal in 1975.
1980s	Aerial Photograph Topographic Map	The Subject Property and the surrounding areas appear relatively unchanged from the previous aerial photographs and topographic map
1990s	Aerial Photograph	The Subject Property and the surrounding areas appear relatively unchanged from the previous aerial photographs.

TABLE 4-3: Historical Use Summary		
Period	**Source**	**Description**
2000s	Aerial Photograph City Directory	The Subject Property is depicted developed in its current configuration with two residential properties on the northwestern portion, vacant land on the northeastern portion, a residential property on the southeastern portion, and a light industrial/commercial property on the southern portion. According to city directories, occupants of 16470 Slover Avenue include Filiberto Tapia in 2002, Herbert Clotts in 2003, Dealer Trade Solutions, Inc., Elisco Navarro, and Pac Auto Transport in 2008. In addition, Baldomero Trujillo is identified as the occupant of 16409 Boyle Avenue in the 2003 and 2008 city directories. Light industrial properties are located beyond Boyle Avenue to the north, and residential properties are depicted to the west, beyond Cypress Avenue to the east, and beyond Slover Avenue to the south.
2010s	Aerial Photograph Topographic Map City Directory	The Subject Property and surrounding areas appear relatively unchanged from the previous aerial photographs. According to city directories, occupants of 16470 Slover Avenue include EZ Registration Services, Inc., Pacific Auto Transport, Sealed Bid Auctions, Inc., and South Coast Recycling in 2010, and Sealed Bid Auctions, Inc. and South Coast Recycling in 2014.

4.4.1 Aerial Photographs

Digital aerial photographs dated 1938, 1948, 1953, 1959, 1966, 1975, 1985, 1990, 1994, 2006, 2009, 2012, and 2016 provided by EDR were reviewed by Apex. Copies of aerial photographs can be found in **Appendix D**.

4.4.2 Topographic Maps

EDR provided historic topographic maps with coverage of the Subject Property dated 1896, 1898, 1901, 1942, 1943, 1953, 1954, 1967, 1973, 1975, 1980, and 2012. Because they show many man-made features not evident in photographs, historical topographic maps are useful in documenting the history of developments and land use features on many properties, particularly those in rural, unincorporated areas. From 1896 to 1943, the property is depicted as undeveloped land, while structures are located on the surrounding areas in all directions. From 1953 to 1967, two unlabeled structures are depicted on the northwestern portion, one unlabeled structures are depicted on the southern portion, and undeveloped land is depicted on the northeastern portion. Surrounding properties are depicted essentially unchanged. From 1973 to 1980, the Subject Property is depicted essentially unchanged, except for the addition of a large structure on the southeastern portion. Surrounding properties in all directions are depicted essentially unchanged except for the addition of barn structures to the east and south. The 2012 map does not depict individual structures at the property or the surrounding areas. The review of historical USGS Topographic Maps did not identify

specific past uses indicating recognized environmental conditions in, on, or at the property or surrounding area. Copies of these maps are included in **Appendix E**.

4.4.3 City Directories

EDR provided historic city directories for the years 2005, 2010, and 2014. Historical city directories, listed by street address, are frequently useful in documenting the historical occupancy of properties in urban or otherwise incorporated areas that have a significant history of developed commercial use. A copy of the City Directories Results is included as **Appendix F**.

4.4.4 Fire Insurance Maps

The Subject Property is an unmapped property on the EDR fire insurance maps. The certified Sanborn search results are included in **Appendix G**.

4.4.5 Building Permit Records

Building permit records can be used to identify structures and/or features of previous or current properties on the Subject Property and adjacent/surrounding properties. This information can be used to determine potential environmental concerns through the presence of USTs, sump pumps, septic tanks and connection dates to sewer, electrical, water, and natural gas.

Mechanical and electrical permits were found for the portion of the Subject Property addressed as 16470 Slover Avenue, as well as business licenses for an automobile auction/wholesale dealer and miscellaneous personal services (Dealer Trade Solutions), office management services (Pacific Auto Transport), and automobile services (EZ Registration Services) in 2007 and 2008. New commercial building licenses for recycling centers are listed at 16470 Slover Avenue in 2011 and 2013. A copy of the building permits report for the Subject Property and surrounding properties is included as **Appendix H**.

4.4.6 Property Tax Map Report

The EDR Property Tax Map Report indicated that the Subject Property is identified as APN 025-116-410, 025-116-403, 025-116-404, 025-116-423 and 025-116-425 and encompasses 9.7 acres. A copy of the Property Tax Map Report is included as **Appendix I**.

4.5 Record Review Findings

Apex reviewed the available environmental and historical records for the Subject Property according to ASTM E1527-13 Standards.

The California State Water Resources Control Board GeoTracker website does not contains any documents regarding the Subject Property.

5.0 SITE RECONNAISSANCE

The Subject Property was inspected on November 1, 2018 by Apex representative Stephanie Lapeyre-Montrose, under the supervision of Paisha Jorgensen, a qualified environmental professional. Weather conditions at the time of the inspection were sunny, clear, and windy, with temperatures of approximately 60 degrees Fahrenheit. During site reconnaissance, Apex representatives were accompanied by Mr. John Carlo, owner of Material Trade Solutions, and one of the owners of the Subject Property. Site reconnaissance consisted of a walk-through of the Subject Property. The residential properties of the Subject Property were not accessible during the Site reconnaissance and were viewed from the southern and northeastern portions. Detailed information on the Site Reconnaissance can be found in **Appendix J**, which contains photographs taken during the site walk and the field form used with detailed information on what was seen on the Subject Property. This section summarizes significant findings observed during the site inspection of the Subject Property.

5.1 Hazardous Substances and Petroleum Products

Apex observed a drum repair area on the recycling center on the southern portion of the Subject Property. During the Site reconnaissance, Apex observed multiple empty 55-gallon drums and 200-gallon totes located in the drum repair area. According to Mr. John Carlo, the drums are all empty, with possible residual chemicals on walls. Material Trade Solutions cut up the empty drums and send them offsite for cleaning. No drum cleaning is reportedly conducted on Site.

Four 5-gallon buckets of engine oil were observed on the asphalt pavement of recycling center portion of the Site. No leaks were observed in the vicinity of these buckets.

5.2 Waste Generation, Storage, and Disposal

According to Mr. Carlo, hazardous or regulated waste is not generated, stored, or disposed of at the Subject Property.

5.3 Underground Storage Tanks & Aboveground Storage Tanks

Apex did not observe any evidence of existing USTs at the Subject Property.

5.4 Polychlorinated Biphenyls (PCBs) and Oil-Containing Equipment

Polychlorinated biphenyls (PCBs) are known to be a component in fluids used in electrical and hydraulic equipment, lubricating oils, paints and coatings manufactured prior to 1979. In the event of a leak or release of fluid or oil-containing equipment, the owner is responsible for remediation. No transformers were observed on the Subject Property.

5.5 Other Observations

Apex did not find evidence of unusual odors, wells, stressed vegetation, ponds, or lagoons on the Subject Property. A septic system was reported at the residential property on the southeastern portion of the Subject Property; however, Apex was not provided access to the residential property at the time of the Site reconnaissance.

5.6 Findings from the Site Reconnaissance

Apex did not identify RECs associated with the Subject Property during the Site reconnaissance.

6.0 INTERVIEWS

On November 1, 2018, Apex interviewed Mr. John Carlo, owner of Material Trade Solutions and one of the current owners of the Subject Property, regarding the history of the Site. Mr. Carlo reported the he purchased his portion of the Subject Property in 2004, and that the southern portion of the Subject Property was historically operated as a chicken farm. Mr. Carlo reported that no chemicals are stored on the Material Trade Solutions portion of the Site and that all drums stored on Site are empty. Additional information provided by Mr. Carlo are discussed in Section 5.

7.0 CONDITIONS OUTSIDE THE SCOPE OF ASTM E1527-13

According to the ASTM E1527-13 Standards, Duke Realty may conduct additional investigations to assess other environmental conditions in connection with the commercial real estate. No conditions outside the scope of ASTM E1527-13 were part of the scope of work for this project.

8.0 CONCLUSIONS AND RECOMMENDATIONS

Apex performed this Phase I ESA in accordance with the U.S. Environmental Protection Agency's 40 CFR, Part 312 Standards and Practices for All Appropriate Inquiries (AAI) and ATSM E1527-13: "Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process" and the work order from Duke Realty to Apex dated October 23, 2018. Any exceptions to, or deletions from, this practice are described in Section 1.0 of this report.

This assessment has revealed no RECs in connection with the Subject Property, and no further action is recommended.

9.0 ENVIRONMENTAL PROFESSIONALS

9.1 Signatures of Responsible Environmental Professionals

We declare that, to the best of our professional knowledge and belief, we meet the definition of Environmental Professional as defined in § 312.10 of 40 CFR Part 312, and we have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the Subject Property. We have developed and performed all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

Dan Hisey
Project Scientist

Paisha Jorgensen
Principal Geologist

9.2 Qualifications of Responsible Environmental Professionals

Mr. Dan Hisey was the environmental professional who performed this environmental site assessment. Mr. Hisey has a Bachelor of Science Degree in Environmental Science, has been performing environmental assessments of commercial real estate for over fifteen years, and is an environmental professional as defined in § 312.10 of 40 CFR Part 312.

Mr. Jorgensen has a Bachelor of Science Degree in Geological Sciences and has over 18 years of professional experience in the environmental consulting field. Mr. Jorgensen is an environmental professional as defined in § 312.10 of 40 CFR Part 312.

APPENDIX A

USER QUESTIONNAIRE

INTRODUCTION

In order to qualify for one of the Landowner Liability Protections ("LLPs") offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the "Brownfields Amendments"), the user must provide the following information (if available) to the environmental professional. Failure to provide this information could result in a determination that "all appropriate inquiry" is not complete. The respondent is welcome to provide supporting documentation as attachments.

QUESTIONS

1.	**Environmental cleanup liens that are filed or recorded against the site (40 CFR 312.25).**		
1A Was the title reviewed for environmental cleanup liens against the property?		Yes	
		No	
1B. Are you aware of any environmental cleanup liens against the property that are filed or recorded under federal, tribal, state or local law? If yes, please provide details and copies of supporting documents.			
Yes			
No			

2.	**Activity and land use limitations that are in place on the site or that have been filed or recorded in a registry (40 CFR 312.26).**		
2A. Was the title reviewed for Activity & Use Limitations for the property?		Yes	
		No	
2B. Are you aware of any Activity & Use Limitations such as engineering controls, land use restrictions or institutional controls that are in place at the site and/or have been filed or recorded in a registry under federal, tribal, state or local law? If yes, please provide details and copies of supporting documents.			
Yes			
No			

3.	**Specialized knowledge or experience of the person seeking to qualify for the LLP (40 CFR 312.28).**

As the user of this ESA do you have any specialized knowledge or experience related to the property or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the property or an adjoining property so that you would have specialized knowledge of the chemicals and processes used by this type of business? If yes, please provide details and copies of supporting documents.

Yes	
No	

4.	**Relationship of the purchase price to the fair market value of the property if it were not contaminated (40 CFR 312.29).**

Does the purchase price being paid for this property reasonably reflect the fair market value of the property?

If you conclude that the value is lower than the fair market price, have you considered whether the lower purchase price is because contamination is known or believed to be present at the property? If you determined that contamination is believed to be the reason for the low purchase price, please provide details and copies of supporting documents.

Yes	
No	

5.	**Commonly known or reasonably ascertainable information about the property (40 CFR 312.30).**	
Are you aware of commonly known or reasonably ascertainable information about the property that would help the environmental professional to identify conditions indicative of releases or threatened releases? For example, as user, (a) Do you know the past uses of the property? If yes, please provide details.		
Yes		
No		
(b) Do you know of specific chemicals that are present or once were present at the property? If yes, please provide details.		
Yes		
No		
(c) Do you know of spills or other chemical releases that have taken place at the property? If yes, please provide details.		
Yes		
No		
(d) Do you know of any environmental cleanups that have taken place at the property? If yes, please provide details.		
Yes		
No		

6.	**The degree of obviousness of the presence of likely presence of contamination at the property, and the ability to detect the contamination by appropriate investigation (40 CFR 312.31).**
As the user of this ESA, based on your knowledge and experience related to the property are there any obvious indicators that point to the presence or likely presence of contamination at the property? If yes, please provide details and copies of supporting documents.	
Yes	
No	

7.	**Why is a Phase I ESA required?**

8.	**Please identify the type of property, type of property transaction (for example, sale, purchase, exchange), and use of property following transaction (for example, same as current, demolition, rehabilitation).**

9.	**Please provide a complete and correct address for the property (a map or other documentation showing property location and boundaries is helpful). Is a site location map attached?**
Yes	
No	

10.	**What services are required?**	
Please Check All That Apply		**Comments**
ASTM 1527-05 (Former Standard)		
ASTM 1527-13 (All Appropriate Inquiry – Current)	**X**	
Asbestos Containing Materials		
Lead Based Paint		
Lead in Drinking Water

11.	**Please list the full name and address for each party that will rely upon the Phase I ESA Report.**

12.	**Please identify one or more site contacts and how each can best be reached.**

13.	**Please list any special terms and conditions, which must be agreed upon by the environmental professional.**

14.	**Please provide any other knowledge or experience with the property that may be pertinent to the environmental professional (for example, copies of any available prior environmental site assessment reports, documents, correspondence, etc., concerning the property and its environmental condition).**

To the best of your knowledge:

1) Was the property used for industrial purposes in the past?	Yes	No	Unknown
2) Was the property used as gas station, for motor repair, printing, plating, dry cleaning, laboratory, junkyard, landfill, recycling, or waste treatment? If yes, have there been any unauthorized release(s) of chemicals associated with such past use?	Yes	No	Unknown
3) Are there or have there been any discarded automobiles, batteries, pesticides, paints, or other chemicals over 5 gallons on the property?	Yes	No	Unknown
4) Are there or were there any industrial 55 gallon drums or sacks of chemicals at facility in the past?	Yes	No	Unknown
5) Has fill dirt been brought in?	Yes	No	Unknown
6) Are there or have there been pits, ponds, or lagoons used for waste treatment?	Yes	No	Unknown
7) Are there or have there been any above or below ground storage tanks?	Yes	No	Unknown
8) Is there a well on the property? If yes, do you have test results?	Yes	No	Unknown
9) Does or has the property discharge waste water (not including sanitary or storm sewer) onto or adjacent to the property?	Yes	No	Unknown
10) Do you have knowledge that any hazardous substance or petroleum product, unidentified waste, tires, automotive or industrial batteries, or any other waste materials have been dumped above grade on the property?	Yes	No	Unknown
11) Is there a transformer, capacitor, or hydraulic equipment for which there are any records indicating the presence of PCBs?	Yes	No	Unknown
12) Are there lead- or asbestos-containing materials on the property?	Yes	No	Unknown

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E 2247-16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E 1528-14) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

EXECUTIVE SUMMARY

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

State- and tribal - equivalent NPL

RESPONSE: Identifies confirmed release sites where DTSC is involved in remediation, either in a lead or oversight capacity. These confirmed release sites are generally high-priority and high potential risk.

A review of the RESPONSE list, as provided by EDR, has revealed that there is 1 RESPONSE site within approximately 1 mile of the target property.

Database: RESPONSE, Date of Government Version: 07/30/2018 Status: Certified O&M - Land Use Restrictions Only Facility Id: 36290065				

State- and tribal - equivalent CERCLIS

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 07/30/2018 has revealed that there are 13 ENVIROSTOR sites within approximately 1 mile of the target property.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Lists of Hazardous waste / Contaminated Sites

HIST Cal-Sites: Formerly known as ASPIS, this database contains both known and potential hazardous substance sites. The source is the California Department of Toxic Substance Control. No longer updated by the state agency. It has been replaced by ENVIROSTOR.

A review of the HIST Cal-Sites list, as provided by EDR, and dated 08/08/2005 has revealed that there is 1 HIST Cal-Sites site within approximately 1 mile of the target property.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there are 2 EDR Hist Auto sites within approximately 0.125 miles of the target property.

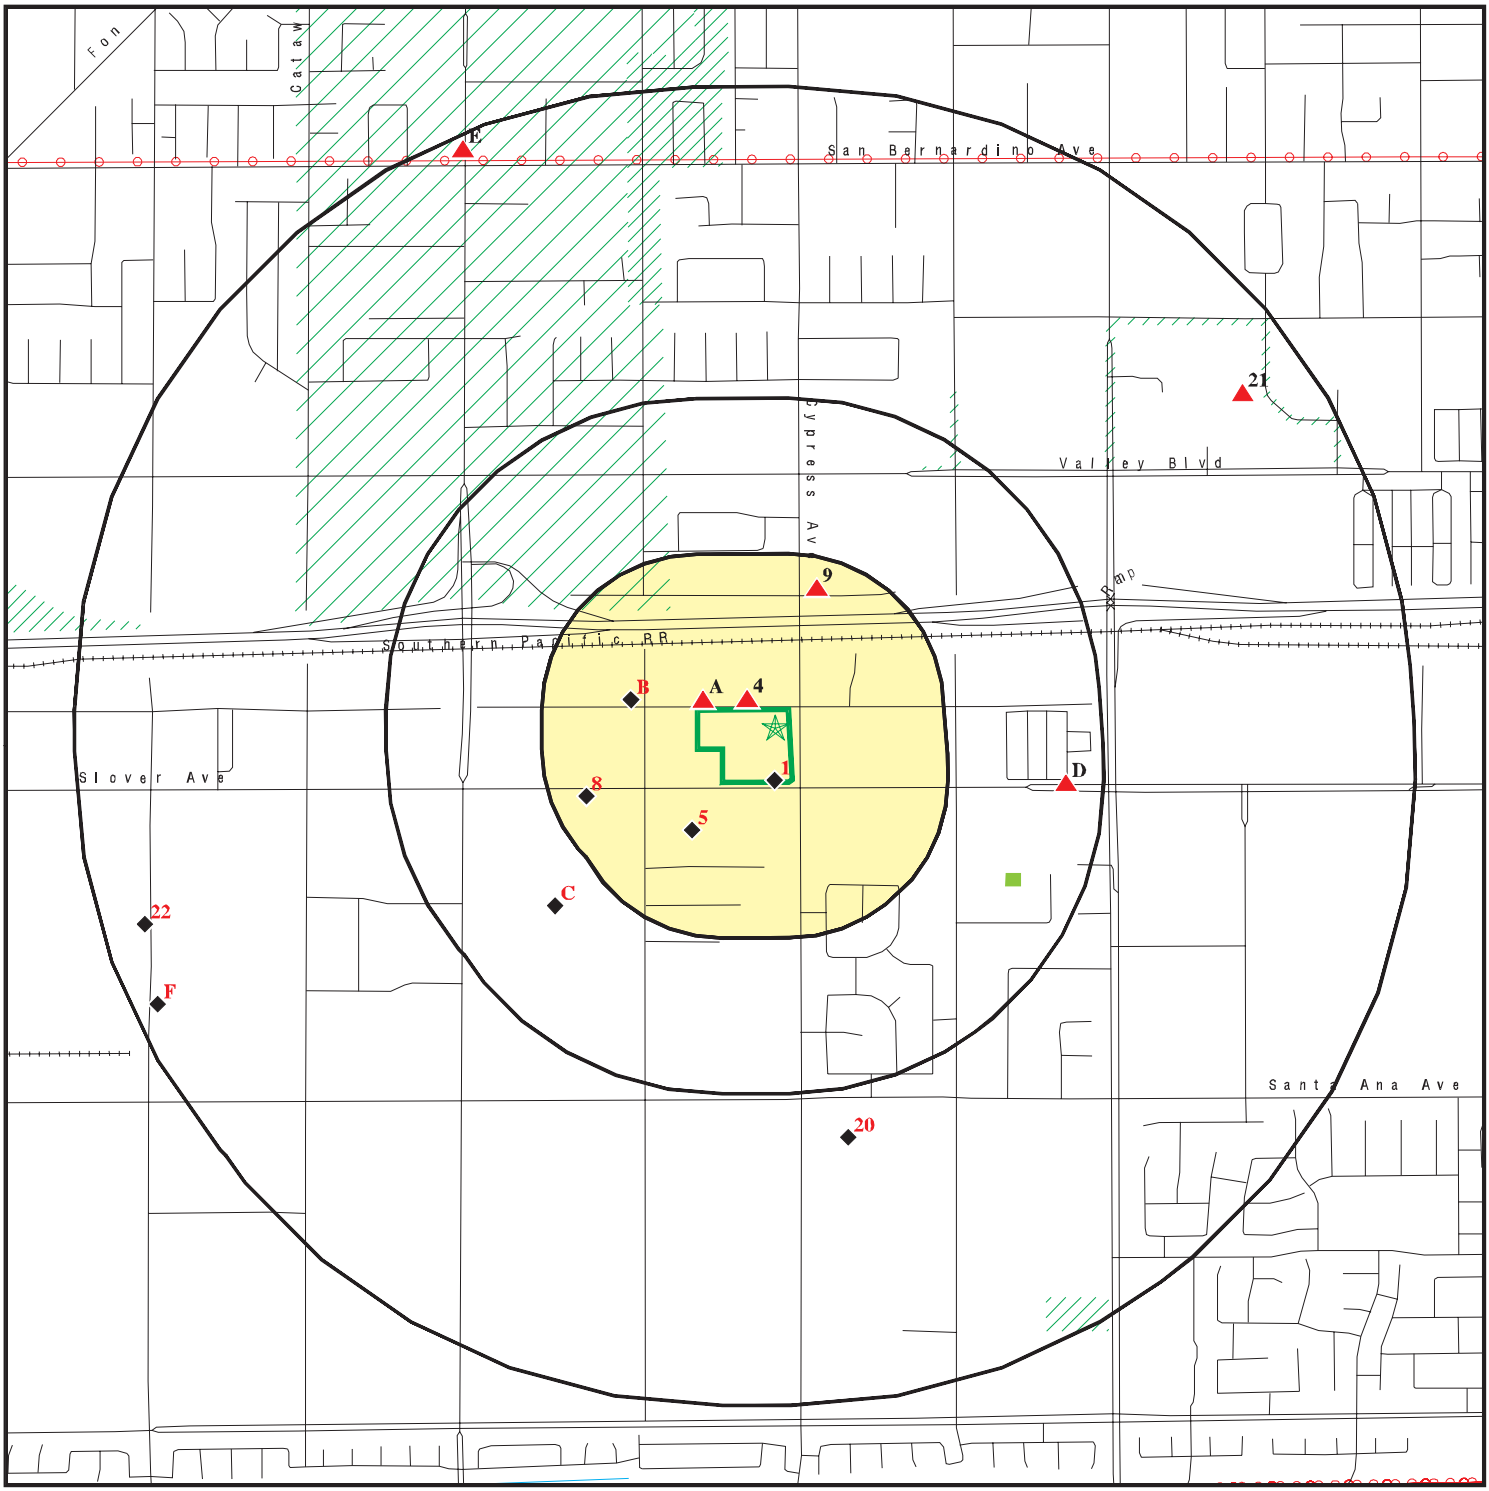

Lower Elevation	Address	Direction / Distance	Map ID	Page
DMD ROAD ASSISTANCE	16355 SLOVER AVE	SW 0 - 1/8 (0.091 mi.)	5	16
DX GRAPHIX	10424 OLEANDER AVE	W 0 - 1/8 (0.098 mi.)	B6	16

EXECUTIVE SUMMARY

Due to poor or inadequate address information, the following sites were not mapped. Count: 3 records.

Site Name	Database(s)
	CDL
	CDL
	CDL

OVERVIEW MAP - 5467024.2S

0 1/4 1/2 1 Miles

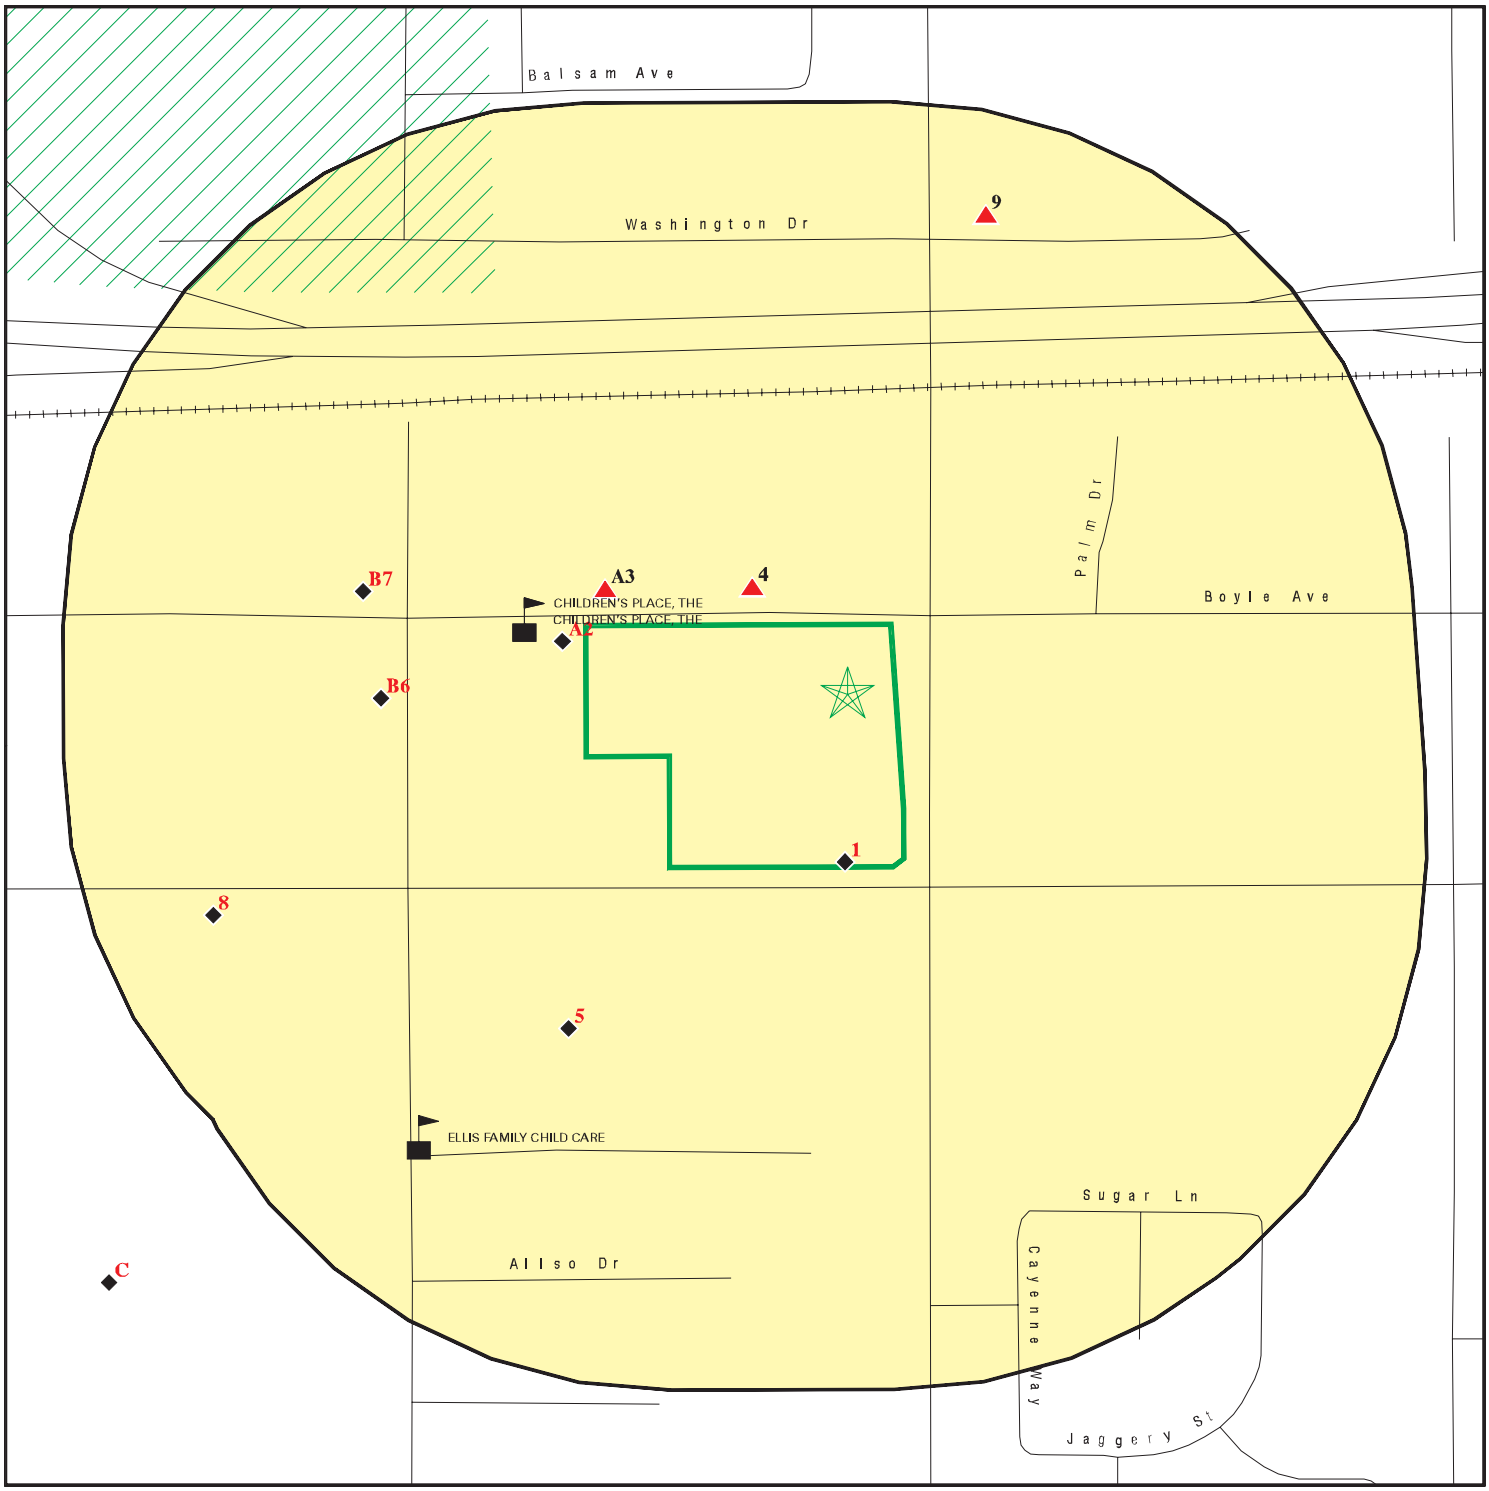

- Target Property
- Sites at elevations higher than or equal to the target property
- Sites at elevations lower than the target property
- Manufactured Gas Plants
- National Priority List Sites
- Dept. Defense Sites
- Indian Reservations BIA
- Power transmission lines
- 100-year flood zone
- 500-year flood zone
- National Wetland Inventory
- State Wetlands
- Areas of Concern

Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.

Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Comments:	Approximately 65k gal of cyanide solution treated. Removed approximately 14 110-barrel vacuum trucks of cyanide rinsate. Western States Refining (WSR) was a former precious metals recovery facility in Fontana, San Bernardino, CA. A two story warehouse exists in the northwest quadrant of the site. The warehouse included several tanks and vats which formerly contained cyanide, several storage sheds and

WESTERN STATES REFINING (Continued) **1000403001**

a former drum staging area. Currently the site is abandoned. The Veta Grande Companies, filed for bankruptcy and have reorganized under the name "Forum Regroup. WSR began a silver and gold recovery operation primarily from x-ray film, with a small recovery percentage coming from electronic circuit boards. In the process, cyanide solution was used to strip gold and silver from x-ray film. Hazardous substances previously stored, handled and disposed at the site include cyanide, oxidizers, heavy metals, flammable liquids, ammonium hydroxide and organic solvents.

Background Info:

Western States Refining (WSR) was a metal recovery facility that operated from 1979 to 1984. Historical information concerning previous operations at the site are incomplete. WSR recovered precious metals from x-ray film and electronic circuit boards. A cyanide solution, among other chemicals, was used to strip the metals.

In 1985, the Department and the San Bernardino County Department of Health conducted a joint inspection of the site and identified hundreds of drums and containers in deteriorated condition. These drums and containers contained cyanide, sulfides, heavy metals, caustics, and acids. Six large storage tanks containing cyanides and heavy metals were observed leaking onto the cracked berm area and into a nearby trench. Extensive soil contamination was also discovered.

In 1986, EPA and the U.S. Coast Guard completed an emergency removal of the containers and residual cyanide contamination. Approximately 600 drums and containers were removed. The six leaking storage tanks were removed and two other 35,000 gallon storage tanks were emptied but not removed.

In 1987, DHS issued a remedial action order to WSR directing them to cleanup the facility. The company refused and filed for bankruptcy. DHS found WSR in noncompliance with the order and initiated legal action. A settlement agreement was reached in

WESTERN STATES REFINING (Continued) **1000403001**

1989. Under the settlement, the RPs will pay up to $750,000 towards cleanup costs. Any other costs incurred by the Department will be recovered from the proceeds of the sale of the property once the property is certified.
Phase I and Phase II RIs have been completed. Phase I confirmem cyanide, asbestos, and low level heavy metal contamination.

Environmental Interest/Information System
California Department of Toxic Substances Control EnviroStor System

WESTERN STATES REFINING (Continued) **1000403001**

(DTSC-EnviroStor) is an online search and Geographic Information System (GIS) tool for identifying sites that have known contamination or sites for which there may be reasons to investigate further. The EnviroStor database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

CA BOND EXP. PLAN:

Reponsible Party:	DETAILED SITE EXPENDITURE PLAN
Project Revenue Source Company:	Not reported
Project Revenue Source Addr:	Not reported
Project Revenue Source City,St,Zip:	Not reported
Project Revenue Source Desc:	The RP's have been found to be in noncompliance with an order issued by the Department. Therefore, it will be necessary to utilize Bond funds to remediate this site. DHS will undertake appropriate cost recovery actions. This site has not been identified as an NPL site, nor does it appear to be likely NPL candidate in the future. However, federal funds were made available for the interim measures completed in 1986.
Site Description:	This facility formerly recovered precious metals from photographic film using a cyanide and acid leaching process.
Hazardous Waste Desc:	Hazardous substances were stored in various decomposing containers and tanks that resulted in soil contamination. The contaminants include cyanide solids and liquids, acids, metallic materials and volatile organic compounds.
Threat To Public Health & Env:	There is threat of human exposure to toxic air emissions and contact with surface water runoff. There is a potential for contamination of the ground water which is used extensively as a domestic supply in the area. There is no known exposure at thistime.
Site Activity Status:	Extensive soil contamination at the facility was discovered in 1985. In 1986, DHS and EPA initiated interim remedial measures consisting of drum repacking and provision of guard service. DHS directed Western States Refining to mitigate the contamination in an October, 1987 order. The company refused and filed for bankruptcy. DHS found Western States Refining in noncompliance with the order in December, 1987. DHS initiated RI/FS activities in October, 1988.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 07/17/2018

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Federal Delisted NPL site list

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Federal RCRA generators list

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

Date of Government Version: 03/01/2018
Date Data Arrived at EDR: 03/28/2018

RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

Date of Government Version: 03/01/2018
Date Data Arrived at EDR: 03/28/2018
Date Made Active in Reports: 06/22/2018
Number of Days to Update: 86

Data Release Frequency: Quarterly

RCRA-CESQG: RCRA - Conditionally Exempt Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

Date of Government Version: 03/01/2018

State- and tribal - equivalent CERCLIS

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

UST CLOSURE: Proposed Closure of Underground Storage Tank (UST) Cases

UST cases that are being considered for closure by either the State Water Resources Control Board or the Executive Director have been posted for a 60-day public comment period. UST Case Closures being proposed for consideration by the State Water Resources Control Board. These are primarily UST cases that meet closure criteria under the decisional framework in State Water Board Resolution No. 92-49 and other Board orders. UST Case Closures proposed for consideration by the Executive Director pursuant to State Water Board Resolution No. 2012-0061. These are cases that meet the criteria of the Low-Threat UST Case Closure Policy. UST Case Closure Review Denials and Approved Orders.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

Other Ascertainable Records

RCRA NonGen / NLR: RCRA - Non Generators / No Longer Regulated
RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing
A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

WDR: Waste Discharge Requirements Listing
In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

EDR Hist Cleaner: EDR Exclusive Historical Cleaners

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data
Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:
Source: American Hospital Association, Inc.
Telephone: 312-280-5991
The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing
Source: Centers for Medicare & Medicaid Services
Telephone: 410-786-3000
A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes
Source: National Institutes of Health
Telephone: 301-594-6248
Information on Medicare and Medicaid certified nursing homes in the United States.

Public Schools
Source: National Center for Education Statistics
Telephone: 202-502-7300
The National Center for Education Statistics' primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

Private Schools
Source: National Center for Education Statistics
Telephone: 202-502-7300

UTM X (Meters):	458931.6
UTM Y (Meters):	3769190.8
Elevation:	1090 ft. above sea level

USGS TOPOGRAPHIC MAP

Target Property Map:	5619058 FONTANA, CA
Version Date:	2012

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

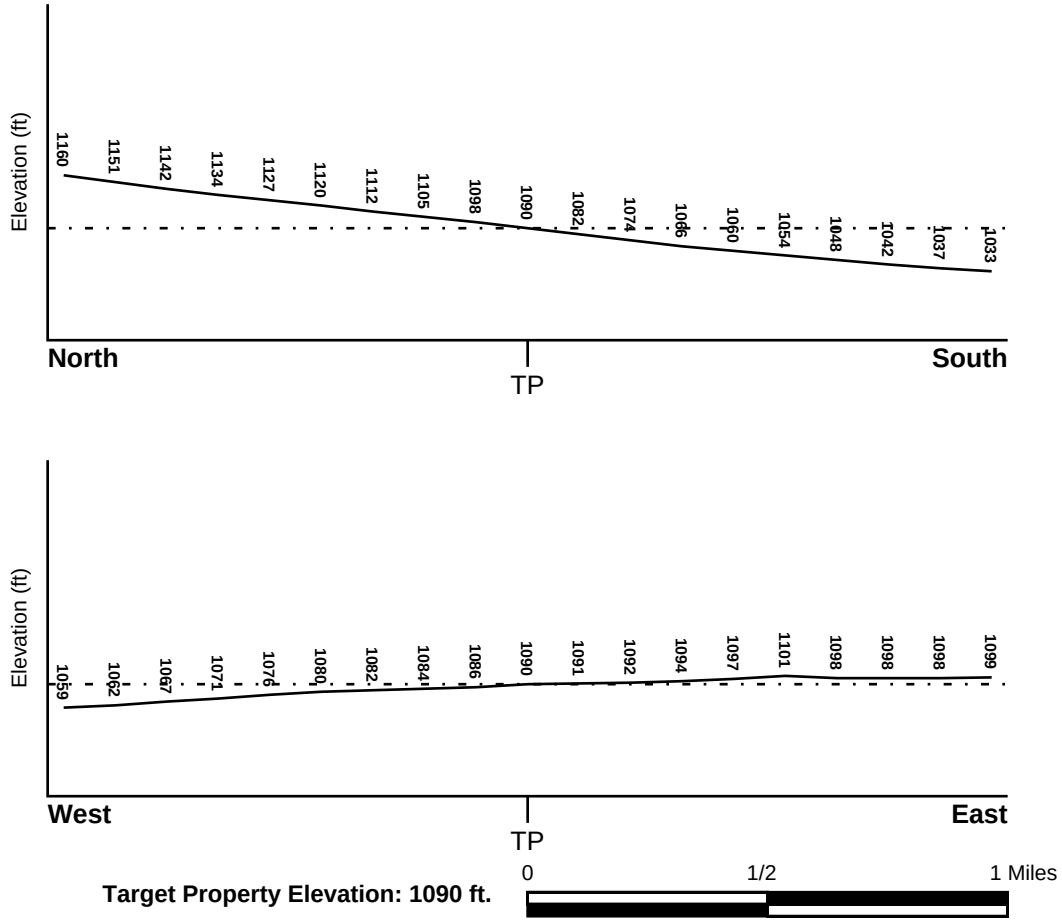

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General SSW

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

FONTANA	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Status:	Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

All of the information and opinions presented are those of the cited EPA report(s), which were completed under a Comprehensive Environmental Response Compensation and Liability Information System (CERCLIS) investigation.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: TUJUNGA

Soil Surface Texture: gravelly loamy sand

Hydrologic Group: Class A - High infiltration rates. Soils are deep, well drained to excessively drained sands and gravels.

Soil Drainage Class: Somewhat excessively drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	0 inches	18 inches	gravelly loamy sand	Granular materials (35 pct. or less passing No. 200), Stone Fragments, Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 141 Min: 42	Max: 7.8 Min: 6.1
2	18 inches	59 inches	loamy sand	Granular materials (35 pct. or less passing No. 200), Stone Fragments, Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 141 Min: 42	Max: 7.8 Min: 6.1

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map
Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.
Source: FEMA
Telephone: 877-336-2627
Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory
Source: Department of Fish and Wildlife
Telephone: 916-445-0411

HYDROGEOLOGIC INFORMATION

AQUIFLOW^{R} Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

EDR Environmental Lien and AUL Search

The EDR Environmental Lien and AUL Search Report provides results from a search of available current land title records for environmental cleanup liens and other activity and use limitations, such as engineering controls and institutional controls.

A network of professional, trained researchers, following established procedures, uses client supplied address information to:

- search for parcel information and/or legal description;
- search for ownership information;
- research official land title documents recorded at jurisdictional agencies such as recorders' offices, registries of deeds, county clerks' offices, etc.;
- access a copy of the deed;
- search for environmental encumbering instrument(s) associated with the deed;
- provide a copy of any environmental encumbrance(s) based upon a review of key words in the instrument(s) (title, parties involved, and description); and
- provide a copy of the deed or cite documents reviewed.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

Grant Deed

Title of Document

Pursuant to Senate Bill 2 – Building Homes and Jobs Act (GC Code Section 27388.1), effective January 1, 2018, a fee of seventy-five dollars ($75.00) shall be paid at the time of recording of every real estate instrument, paper, or notice required or permitted by law to be recorded, except those expressly exempted from payment of recording fees, per each single transaction per parcel of real property. The fee imposed by this section shall not exceed two hundred twenty-five dollars ($225.00).

Reason for Exemption:

- ☐ Exempt from fee per GC 27388.1, recorded in connection with a transfer subject to the imposition of documentary transfer tax (DTT), or
- ☒ Exempt from fee per GC 27388.1, recorded in connection with a transfer of real property that is a residential dwelling to an owner-occupier, or
- ☐ Exempt from fee per GC 27388.1, recorded in connection with a transfer that was subject to documentary transfer tax which was paid on document recorded previously on _____(date) as document number _____of Official Records. (Cap. $225.00)
- ☐ Exempt from fee per GC 27388.1, fee cap of $225.00 reached, and/or
- ☐ Exempt from fee per GC 27388.1, not related to real property

Failure to include an exemption reason will result in the imposition of the $75.00 Building Homes and Jobs Act fee. Fees collected are deposited to the State and may not be available for refund.

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1922 through 2014. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

A summary of the information obtained is provided in the text of this report.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by APEX Companies LLC were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

EDR BUILDING PERMIT REPORT

About This Report

The EDR Building Permit Report provides a practical and efficient method to search building department records for indications of environmental conditions. Generated via a search of municipal building permit records gathered from more than 1,600 cities nationwide, this report will assist you in meeting the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13), or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

Building permit data can be used to identify current and/or former operations and structures/features of environmental concern. The data can provide information on a target property and adjoining properties such as the presence of underground storage tanks, pump islands, sumps, drywells, etc., as well as information regarding water, sewer, natural gas, electrical connection dates, and current/former septic tanks.

ASTM and EPA Requirements

ASTM E 1527-13 lists building department records as a "standard historical source," as detailed in § 8.3.4.7: "Building Department Records - The term building department records means those records of the local government in which the property is located indicating permission of the local government to construct, alter, or demolish improvements on the property." ASTM also states that "Uses in the area surrounding the property shall be identified in the report, but this task is required only to the extent that this information is revealed in the course of researching the property itself."

EPA's Standards and Practices for All Appropriate Inquires (AAI) states: "§312.24: Reviews of historical sources of information. (a) Historical documents and records must be reviewed for the purposes of achieving the objectives and performance factors of §312.20(e) and (f). Historical documents and records may include, but are not limited to, aerial photographs, fire insurance maps, building department records, chain of title documents, and land use records."

Methodology

EDR has developed the EDR Building Permit Report through our partnership with BuildFax, the nation's largest repository of building department records. BuildFax collects, updates, and manages building department records from local municipal governments. The database now includes 30 million permits, on more than 10 million properties across 1,600 cities in the United States.

The EDR Building Permit Report comprises local municipal building permit records, gathered directly from local jurisdictions, including both target property and adjoining properties. Years of coverage vary by municipality. Data reported includes (where available): date of permit, permit type, permit number, status, valuation, contractor company, contractor name, and description.

Incoming permit data is checked at seven stages in a regimented quality control process, from initial data source interview, to data preparation, through final auditing. To ensure the building department is accurate, each of the seven quality control stages contains, on average, 15 additional quality checks, resulting in a process of approximately 105 quality control "touch points."

For more information about the EDR Building Permit Report, please contact your EDR Account Executive at (800) 352-0050.

EDR® Environmental Data Resources Inc

BUILD FAX PROPERTY HISTORY

EXECUTIVE SUMMARY: SEARCH DOCUMENTATION

A search of building department records was conducted by Environmental Data Resources, Inc (EDR) on behalf of APEX Companies LLC on Oct 29, 2018.

TARGET PROPERTY

Cypress Avenue and Slover Avenue
Fontana, CA 92337

SEARCH METHODS

EDR searches available lists for both the Target Property and Surrounding Properties.

RESEARCH SUMMARY

Building permits identified: **YES**

The following research sources were consulted in the preparation of this report. An "X" indicates where information was identified in the source and provided in this report.

GLOSSARY

General Building Department concepts

- **ICC:** The International Code Council. The governing body for the building/development codes used by all jurisdictions who've adopted the ICC guidelines. MOST of the US has done this. Canada, Mexico, and other countries use ICC codes books and guides as well. There are a few states who have added guidelines to the ICC codes to better fit their needs. For example, California has added seismic retrofit requirements for most commercial structures.
- **Building Department (Permitting Authority, Building Codes, Inspections Department, Building and Inspections):** This is the department in a jurisdiction where an owner or contractor goes to obtain permits and inspections for building, tearing down, remodeling, adding to, re-roofing, moving or otherwise making changes to any structure, Residential or Commercial.
- **Jurisdiction:** This is the geographic area representing the properties over which a Permitting Authority has responsibility.
- **GC:** General Contractor. Usually the primary contractor hired for any Residential or Commercial construction work.
- **Sub:** Subordinate contracting companies or subcontractors. Usually a "trades" contractor working for the GC. These contractors generally have an area of expertise in which they are licensed like Plumbing, Electrical, Heating and Air systems, Gas Systems, Pools etc. (called "trades").
- **Journeymen:** Sub contractors who have their own personal licenses in one or more trades and work for different contracting companies, wherever they are needed or there is work.
- **HVAC (Mechanical, Heating & Air companies):** HVAC = Heating, Ventilation, and Air Conditioning.
- **ELEC (Electrical, TempPole, TPole, TPower, Temporary Power, Panel, AMP Change, Power Release):** Electrical permits can be pulled for many reasons. The most common reason is to increase the AMPs of power in an electrical power panel. This requires a permit in almost every jurisdiction. Other commons reason for Electrical permits is to insert a temporary power pole at a new construction site. Construction requires electricity, and in a new development, power has yet to be run to the lot. The temporary power pole is usually the very first permit pulled for new development. The power is released to the home owner when construction is complete and this sometimes takes the form of a Power Release permit or inspection.
- **"Pull" a permit:** To obtain and pay for a building permit.
- **CBO:** Chief Building Official
- **Planning Department:** The department in the development process where the building /structural plans are reviewed for their completeness and compliance with building codes
- **Zoning Department:** The department in the development process where the site plans are reviewed for their compliance with the regulations associated with the zoning district in which they are situated.
- **Zoning District:** A pre-determined geographic boundary within a jurisdiction where certain types of structures are permitted / prohibited. Examples are Residential structure, Commercial/Retail structures, Industrial/Manufacturing structures etc. Each zoning district has regulations associated with it like the sizes of the lots, the density of the structures on the lots, the number of parking spaces required for certain types of structures on the lots etc.
- **PIN (TMS, GIS ID, Parcel#):** Property Identification Number and Tax Map System number.
- **State Card (Business license):** A license card issued to a contractor to conduct business.
- **Building Inspector (Inspector):** The inspector is a building department employee that inspects building construction for compliance to codes.
- **C.O.:** Certificate of Occupancy. This is the end of the construction process and designates that the owners now have permission to occupy a structure after its building is complete. Sometimes also referred to as a Certificate of Compliance.

GLOSSARY

Permit Content Definitions

- Permit Number: The alphanumerical designation assigned to a permit for tracking within the building department system. Sometimes the permit number gives clues to its role, e.g. a "PL" prefix may designate a plumbing permit.
- Description: A field on the permit form that allows the building department to give a brief description of the work being done. More often than not, this is the most important field for EP's to find clues to the prior use(s) of the property.
- Permit Type: Generally a brief designation of the type of job being done. For example BLDG-RES, BLDG-COM, ELEC, MECH etc.

Sample Building Permit Data

Date: Nov 09, 2000
Permit Type: Bldg -
New Permit Number: 101000000405
Status: Valuation: $1,000,000.00
Contractor Company: OWNER-BUILDER
Contractor Name:

Description: New one store retail (SAV-ON) with drive-thru pharmacy. Certificate of Occupancy.

APPENDIX J

SITE RECONNAISSANCE PHOTOGRAPHS AND FIELD FORM

APEX

PHASE I ENVIRONMENTAL ASSESSMENT
Site Reconnaissance Form

Site Name: 9.7-Acre Property **Site Address:** NEC of Cypress Ave./Slover A
Date: 11/1/18 Fontana, CA
Business Name/Client: Duke **Business Address:** Same
Field **Personnel:** S. Legaye Norton

Objective of the Reconnaissance:
The objective of the site reconnaissance is to obtain information indicating the likelihood of identifying recognized environmental conditions in connection with the property.

Section 1: General Site Settings

Property Uses
Current Site Uses of Property: (3) (2) Residential properties + ~~guntland~~ recycling facility @ + open/vacant lot
(1 residential has septic tank)
[Note: 1 residential - NW → orig. owner after farming, 2nd residential adj. west of vacant lot = rental, 3rd residential South next to recycling facility]
Past Site Uses of the Property: Chicken Farm

General Description of Structures:

	Y	N	Description
Number of Buildings/Stories:	X		3-5 houses (Single story) - I think 2 were trailers? Several trailers, 2 Sheds / sole house
Approximate Age of Buildings:			Description: unknown
Ancillary Structures:			Description:
Unoccupied Occupant Spaces?			Description:
Evidence of Former Structures:			Description:
Above ground storage tanks:		X	Content:
			Location:
			Capacity: Age:
Underground storage tanks:		X	Content:
			Location:
			Capacity: Age:
Vent pipes or fill pipes:		X	Description:
Odors:		X	Description:

see notes / drawing - #5

Roads:

Names of adjoining roads: Slover Ave. & Cypress Ave.

Location of adjoining roads: SE corner of site

Roads or paths with no apparent outlet: Y ☐ N ☒ Description: _____

Parking facilities on the property: Y ☒ N ☐ Description: A lot of open space for large truck parking

Additional observations: _____

Utilities: – City of Fontana lists cuts utilities on website

Potable Water Supply Source: Fontana Water Company

Sewage Disposal System: 1 property has septic tank, rest is city

Approximate Age of Sewage Disposal System: unknown

Electrical Source: So Cal Edison

Gas (piped natural vs propane): So Cal Gas

Additional observations: phone - AT&T

Geologic, Hyrogeologic, and Topographical Conditions:

Visual and/or physical observations: Relatively flat space, unconsolidated sediments. Fontana in general is terrace deposits. Portions of site is covered in asphalt.

PHASE I ENVIRONMENTAL ASSESSMENT
Site Reconnaissance Form

Section 2: Exterior Observations

	Y	N		
Pools of Liquid:	☐	☒	Description:	
Drums:	☒	☐	Content:	glycerine or empty (some empty - residual 0.5 glycerin) [See pictures]
			Leaking:	Y (N)
5-gallon Buckets:	☒	☐	Content:	Car/truck oil (Chevron + Shell 15W-40)
			Leaking:	Y (N)
Odors:	☐	☐	Description:	trash odor at recycling facility, Otherwise no odors
Unidentified Substance Containers:	☐	☒	Description:	
			Leaking:	Y N
PCBs in Lighting or Hydraulic Equipment:	☐	☒	Description:	~~not observed~~ (3)
Pits, Pools, or Lagoons:	☐	☒	Description:	
Stained Soil or Pavement:	☐	☐	Description:	asphalt had typical discoloring from passing. No evidence of stained soil
Stressed Vegetation:	☐	☒	Description:	
Solid Waste Disposal:	☐	☐	Description:	golden colored substance - told it was silica from water treatment
Waste Water Discharge Points (septic, sewer, ditches):	☐	☐	Description:	sewer off property Septic tank on south residential property
Wells (dry, irrigation, injection, and abandoned wells)	☐	☒	Description:	
Septic Systems:	☒	☐	Description:	informed by Tom Cuco - on residential property to south
Retention Basin:	☐	☒	Description:	
			Source:	
			Location:	
			Receive off-site drainage?	Y (N)
Filled or re-graded areas:	☐	☐	Description:	concrete patch - looked like from previous assessment

Additional observations: See field notes. / Did not have access to residential properties. / Vacant lot did have trash, especially under tree.

Section 3: Interior Observations

Heating/Cooling System: 1 window air cond. unit at recycl., otherwise none on recycling fac. / unknown on residential

Stains or Corrosion: unknown

Drains or Sumps: none on recycling facility

	Y	N	
Maintenance, repair, or boiler rooms present:	☐	☒	Description:
Unoccupied Occupant Spaces:	☐	☒	Description:
Odors:	☐	☒	Description:
Pools of Liquid:	☐	☒	Description:

Drums: not inside recycl. buildings Content: ____ Leaking: Y ☐ N ☐

5-gallon Buckets: same as above Content: ____ Leaking: Y ☐ N ☐

Unidentified Substance Containers: NA Description: ____ Leaking: Y ☐ N ☐

PCBs in Lighting or Hydraulic Equipment: ☐ ☒ Description: unknown for residential

Basement or slab foundation: ☐ ☐ Description: concrete & asphalt on recycling fac. - decent condition

Cracks: Y ☐ N ☐

Additional observations: ____

Section 4: Adjacent & Surrounding Properties

Adjoining Property Observations:

Current Uses of Adjoining Property:

North: residential, 1 construction business

West
~~East~~: vacant residential building & site under construction (previously residential)

South: large lot under early stages of construction (surrounded by green fencing). previously residential.

East
~~West~~: residential

Past Uses of Adjoining Property: Farming / residential

	Y	N	
Pits, Pools, or Lagoons:	☐	☒	Description:
Waste Water (e.g. drains, ditches, streams):	☐	☒	Description:

Additional observations:

Surrounding Area Observations:

General Use of Surrounding Area (e.g. residential, commercial, industrial): Residential & commercial; however, currently going through zoning changes, and several properties are undergoing construction.

Additional observations: See drawing

ASTM E1527-13 KEY SITE MANAGER QUESTIONNAIRE

Site Name: Trade Solutions LLC

Site Address: 16470 Slover Ave

Respondent Name: John Carlo

Respondent Title: Owner

Date: 11/1/18

Interviewer: _____

The purpose of this questionnaire is to assist us in compiling the information required by ASTM 1527-13, the standard for conducting Phase I Environmental Site Assessments. The first group of questions are related to the environmental compliance history of the subject property, and the second group of questions provide some specific information with regard to historic and current operations at the subject property.

Environmental Compliance

1. How long have you been familiar with the property?
   Please explain Purchased in ± 2004 14 years
2. How long have you been involved with the property
   Please explain 14 years owner
3. How long have you owned or leased the property?
   Please explain 14 years.
4. Are you aware of any pending, threatened or past litigation relevant to hazardous substances or petroleum products in, on, or from the subject property?
   ☐ Yes ☒ No If Yes, please explain _____
5. Are you aware of any pending, threatened or past administrative proceedings relevant to hazardous substances or petroleum products in, on, or from the subject property?
   ☐ Yes ☒ No If Yes, please explain _____
6. Are you aware of notices from any governmental entity regarding any possible violation of environmental laws or possible facility liability relating to hazardous substances or petroleum products in, on, or from the subject property?
   ☐ Yes ☒ No If Yes, please explain _____
7. Do you know of any spills, releases, or gross permit violations that have occurred on the property?
   ☐ Yes ☒ No If Yes, please explain _____
8. Do you know of any environmental cleanup actions that have taken place on the property?
   ☐ Yes ☒ No If Yes, please explain _____
9. Do you know there to be any indicators that contamination is present at the property?
   ☐ Yes ☒ No If Yes, please explain _____

ASTM E1527-13 KEY SITE MANAGER QUESTIONNAIRE (CON'T)

Historic and Current Operations

Please answer questions to the best of you ability. If an answer can not be provided, write "Unknown."

Question	Key Site Manager Comments
1. How long has the current owner owned/occupied the *property*?	14 years.
2. What is the approximate age of the building(s) (if applicable)?	105 years
3. Has the *property* had any extensive remodeling? (*If yes, what was done and when did it occur)*	NO
4. What was the past use of the property and any adjacent properties?	Farm
5. Have there been other tenants? If yes, what is the nature of the other tenants' operations?	NO
6. Do you have any documentation of any past environmental work that was conducted at the property?	NO
7. Is the *property*, or *any adjoining property*, used for an industrial use, and has it been used for industrial use in the past? *(if yes, please provide brief explanation)*	NO
8. Is the *property*, or *any adjoining property*, currently used for any of the following activities: Gas station; motor repair; commercial printing; dry cleaners; photo-developing; junkyard or landfill; waste treatment, storage, disposal, processing, or recycling? *(if yes, please provide brief explanation)*	No
9. Has the *property* or *any adjoining property* been used for any of the above listed activities in the past? *(if yes, please provide brief explanation)*	NO
10. Are there currently, or have there been previously, any industrial drums or sacks of chemicals located on the *property*? *(if yes, please provide brief explanation)*	Empty Drums No Storage of Chemicals

Photograph 1 Description: Overview of the southern end of the Subject Property (looking west along Slover Avenue).	
Photograph 2 Description: Overview of the southern end of the Subject Property (looking north from Slover Avenue.	
Photograph 3 Description: Empty drums and buckets in drum repair area of the on-site recycling facility.	

Photograph 4 Description: Another photo of the empty drums located in the drum repair area of the on-site recycling facility.	
Photograph 5 Description: Empty drums and totes located in the drum repair area of the on-site recycling facility.	
Photograph 6 Description: Empty drums and recycled materials located in the drum repair area of the on-site recycling facility.	

Photograph 7 Description: Residence located on the southeastern portion of the Subject Property.	
Photograph 8 Description: Barn structure located on the southeastern portion of the Subject Property.	
Photograph 9 Description: Residential property, addressed as 16409 Boyle Avenue, located on the northern portion of the Subject Property.	

Photograph 10 Description: Residential property, addressed as 16395 Boyle Avenue, located on the northwestern portion of the Subject Property.	
Photograph 11 Description: Parking area located to the north of the residential property on the southeastern corner of the Subject Property.	
Photograph 12 Description: Vacant lot located on the northeastern portion of the Subject Property (looking west from Cypress Avenue).	

Photograph 13

Description: Vacant lot located on the northeastern portion of the Subject Property (looking east towards Cypress Avenue).

Photograph 14

Description: Five-gallon buckets of engine oil located on the recycling center portion of the Site.

Photograph 15

Description: Overview of the recycling center portion of the Subject Property.

Photograph 16 Description: Recycled materials located on the southern portion of the Subject Property.	
Photograph 17 Description: Another photo of recycled materials located on the southern portion of the Subject Property.	
Photograph 18 Description: Scale located in the recycling center portion of the Site.	

Photograph 19 Description: Property under construction beyond Slover Avenue to the south of the Subject Property.	
Photograph 20 Description: Vacant commercial structure located beyond Boyle Avenue to the north.	
Photograph 21 Description: Ohno Construction located beyond Boyle Avenue to the north of the Subject Property.	

Photograph 22 Description: Residential property located beyond Cypress Avenue to the east.	
Photograph 23 Description: Intersection of Cypress Avenue and Slover Avenue to the southeast of the Subject Property.	

ASTM E1527-13 KEY SITE MANAGER QUESTIONNAIRE (CON'T)

Question	Key Site Manager Comments
11. Are there currently, or have there been previously, any pits, ponds, lagoons, cisterns, cesspools, or septic systems located on the *property* in connection with waste treatment, waste disposal, or are likely to contain hazardous substances or petroleum products? *(if yes, please provide when and where pits, lagoons, or ponds were located on property)*	No
12. Is there currently, or has there been previously, any stained soil or significantly stained paved areas on the *property*? *(if yes, please provide location and source of staining)*	Nothing Significant
13. Are there currently, or have there been previously, any registered or unregistered storage tanks (aboveground or underground) located on the *property*?	No
14. Are there currently, or have there been previously, any vent pipes, fill pipes, or access ways indicating a fill pipe protruding from the ground on the *property* or *adjacent* to any *structure* located on the *property*?	No
15. Are there currently, or have there been previously, any flooring, drains, or walls on the *property* or within the *facility* that are stained by substances other than water or that are emitting foul odors?	No
16a. Is the property served by a private well or non-public water system? *(if yes, go to 16b)*	No
16b. If yes to 16a: Have contaminants been identified in the well or system that exceed guidelines, or has the well been designated as contaminated?	N/A
17. Are there any dry wells, irrigation wells, injection wells, abandoned wells, monitoring wells, supply wells or other wells located on the subject property?	No

ASTM E1527-13 KEY SITE MANAGER QUESTIONNAIRE (CON'T)

Question	Key Site Manager Comments
18. Do you know of any environmental site assessment of the property or facility that indicated the presence of hazardous substances or petroleum products on, or contamination of, the *property* or that recommended further assessment of the *property*? *(if yes, please provide brief explanation)*	No
19. Does the *property* discharge wastewater on or adjacent to the *property*, other than storm water, into a sanitary sewer system? *(if yes, please indicate what is discharged and where it is discharged)*	No
20. Have any of the following been dumped above grade, buried, or burned on the property? Hazardous substances or petroleum products, unidentified waste materials, tires, automotive or industrial batteries or any other waste materials *(if yes, please indicate what was dumped, where it was dumped, when it was dumped, and how much was dumped)*	No
21a. Is there a transformer, capacitor, or any hydraulic equipment on the *property*?	No
21b. If yes, are there records indicating the presence of polychlorinated biphenyls (PCBs)	N/A
22. Are there any areas of stressed vegetation located on the subject property	NO

Please use space below to provide additional explanation of any your responses above:
