Date Received for filing at OPR:

Sycamore & San Joaquin Improvements Project

Supplemental Information

Categorical Exemption – Section 15301 and 15302

Introduction and Background

The proposed project will include the following improvements along King Avenue between 'O' Street and Cherry Street; along Sycamore Avenue between Cherry Street and Blackstone Street; along San Joaquin Avenue between 'O' Street and Blackstone; along Madden Street between Tulare Avenue (SR-137) and King Street; along Delwood Street between Sycamore and San Joaquin; and along north Highland Street between Tulare Avenue and Sycamore Avenue:

- Pavement repair
- Install ADA improvements where necessary – includes replacement of all ramps that do not meet current ADA standards, replacement of non-ADA compliant driveway and alley approaches.
- Within the roadway, replace various components of water, sewer, and surface water facilities.

Categorical Exemption, Section 15301 Existing Facilities

The project meets the conditions for the Existing Facilities Exemption described in Section 15301 of the State CEQA Guidelines as explained below.

Section 15301 consists of repair, maintenance or minor alterations to existing public facilities. This includes: (c) Existing highways and streets, sidewalks, gutters, bicycle and pedestrian trails and similar facilities. The proposed project will make improvements to existing streets, sidewalks and gutters by repairing deficient pavement, modifying sidewalks to comply with ADA requirements and by making improvements to existing in-street infrastructure. The project does not involve an expansion of an existing use.

Categorical Exemption, Section 15302 Replacement or Reconstruction

The project meets the conditions for the Replacement/Reconstruction Exemption described in Section 15302 of the State CEQA Guidelines as explained below.

Section 15302 consists of replacement or reconstruction of existing structures and facilities where the new structure will be located on the same site as the structure replaced and will have substantially the same purpose and capacity as the structure replaced. This includes: (c) Replacement or reconstruction of existing utility systems and/or facilities involving negligible or no expansion of capacity. The proposed project will make improvements to the existing sewer and water facilities within the street. The project does not involve a significant expansion of services.

Environmental Impacts

Pursuant to Section 15300.2 of the CEQA Guidelines, the City has determined there are no exceptions that preclude the use of the CEQA Exemptions:

1. Cumulative Impacts – the project involves replacement and minor improvements to the existing streets, sidewalks and infrastructure described herein. No new or expanded facilities are proposed and there are no other associated or nearby projects that, when combined with the proposed project, would result in a significant cumulative impact.
2. Significant Effect – the project will result in minimal impacts, as the site is heavily disturbed and will be returned to pre-construction conditions once the project is complete. No significant effects will result from the project.
3. Scenic highways – there are no scenic highways on or near the project sites.
4. Hazardous Waste Sites – there are no hazardous waste sites associated with the project.
5. Historical Resources – the project involves improvements to streets, sidewalks and infrastructure. There are no components of the project that would impact a historical resource. The project is located in what has previously been found to be a National Register-eligible historic district, the East Side Historic District. The proposed project would not affect any of the residential lots, nor would it affect the historic landscaping made up of Sycamore street trees along Sycamore Avenue. These trees would be protected in place.

Other information

Standard best management practices related to water quality (SWPPP), construction noise, traffic control and other regulations will be implemented as required.

RESOLUTION NO. 5406

FILE COPY

A RESOLUTION OF THE CITY OF TULARE PLANNING COMMISSION
APPROVING A CEQA EXEMPTION FOR THE
SYCAMORE & SAN JOAQUIN IMPROVEMENTS PROJECT

WHEREAS, the proposed project is required in order to make needed improvements to the pavement, to install ADA-compliant infrastructure, to make needed repairs and replacement of in-street water, sewer, and surface water facilities, along King Avenue between 'O' Street and Cherry Street; along Sycamore Avenue between Cherry Street and Blackstone Street; along San Joaquin Avenue between 'O' Street and Blackstone; along Madden Street between Tulare Avenue (SR-137) and King Street; along Delwood Street between Sycamore and San Joaquin; and along north Highland Street between Tulare Avenue and Sycamore Avenue; and

WHEREAS, the proposed project is exempt from Environmental Review under the California Environmental Quality Act (CEQA), pursuant to Sections 15301(b) (c) and 15302(c).

NOW, THEREFORE, BE IT RESOLVED, by the City of Tulare Planning Commission that by this Resolution, an Exemption pursuant to CEQA Sections 15301(b) (c) and 15302(c) is approved for the Sycamore & San Joaquin Improvements Project.

PASSED, APPROVED AND ADOPTED this twenty-eighth day of February, 2022 by the following recorded vote:
