RE: Operational Statement for the Planning Submittal  
Of Building 31 Trailer Storage Lot  
Application No.: P21-03293

**Project Description:**

The Building 31 Trailer Storage Lot Project is being submitted by Yamabe & Horn Engineering, Inc. on behalf of G4 Enterprises, LTD., and pertains to approximately 15.1 acres of property located at the northeast corner of S. East Avenue and E. Central Avenue in Fresno, CA 93725, APN: 330-021-31. The site is currently zoned for Heavy Industrial use with a similar planned use. The proposed development will provide truck trailer storage for the user of Building 31, located to the north of the project site. Having this storage lot located adjacent to Building 31 will provide operational efficiency for that industrial user. The proposed development consists of the construction of approximately 494,328 square feet of Asphalt Concrete (AC) pavement, 314 truck trailer parking stalls, site drainage, site pole lighting, 7-foot high security fencing, and 2 security buildings. Other improvements also include curb, gutter, and sidewalk improvements along the project frontage on S. East Avenue and E. Central Avenue.

We have provided 10-12’x55’ electric truck trailer parking stalls and 304-12’x55’ truck trailer parking stalls. The proposed parking spaces and drive aisles will be constructed of asphalt concrete (AC) pavement.

The site will have pole lighting to illuminate the parking area. There will also be site drain inlets and piping facilities to drain onsite rainfall to existing storm drain facilities. The project is proposing to construct a 7-foot high security fence along the perimeter of the proposed site with vehicle access gates and security buildings at points of ingress and egress. There will be one point of ingress off of S. East Avenue, and two points of egress at S. East Avenue and E. Central Avenue. The proposed site will not produce excessive noise, glare, dust, or odor.

Operational times will be 24 hours a day, seven days a week. Traffic utilizing the parking lot will include trucks making deliveries to Building 31 (currently under construction) and minimal employee trips. The parking lot is intended to supplement activities occurring at Building 31, and all truck trips utilizing the parking lot were considered when Building 31 was approved. New employees generated by the project will be limited to approximately six new employees at the new guard shacks.
