

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

SCH #: 2022040504

Project Title: Strategy to Advance Flood Protection, Ecosystems, and Recreation along San Francisco Bay Project

Lead Agency: San Francisquito Creek Joint Powers Authority

Contact Name: Tess Byler

Email: tbyler@sfcjpa.org

Phone Number: (650) 643-1454

Project Location: Cities of East Palo Alto, Menlo Park and Redwood City, San Mateo County

City

County

Project Description (Proposed actions, location, and/or consequences).

The overall purpose of the Project is to reduce risks to people, property, and infrastructure from current tidal flooding and projected sea level rise through engineered and natural features that enhance shoreline ecosystems and improve recreational opportunities. The Project includes construction of shoreline protect features, recreational features, and habitat improvements. Refer to Chapter 2 of the EIR for a full description of the Project.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Significant unavoidable impacts:

Impact AES-1 re: impacts on visual character or the quality of public views (no feasible mitigation).

Impacts NOI-1, C-NOI-1 re: exceedance of noise standards during Project construction (MM NOI-1, Construction Noise Plan)

Less than significant with mitigation: Refer to Table S-2 in Summary and resource sections in Chapter 3 for list of impacts that would be reduced to a less-than-significant level with mitigation and the mitigation measures that would be implemented.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

Project development process, alternatives to the Project, effects on public access/recreation, adverse effects on biological resources, adverse effects on aesthetics resources, and effects on local hydrology.

Provide a list of the responsible or trustee agencies for the project.

U.S. Army Corps of Engineers
U.S. Fish and Wildlife Service
National Oceanic and Atmospheric Administration, National Marine Fisheries Services
State Historic Preservation Office
State Lands Commission
California Department of Fish and Wildlife
California Department of Transportation
Regional Water Quality Control Board
Bay Conservation and Development Commission
