Non-Time Critical Removal Action Work Plan, IR Site 10 Shoreline Slag Area
Negative Declaration/SCH# 2022050139

Mr. Daniel Cordero
Senior Hazardous Substance Engineer
Department of Toxic Substance Control
5796 Corporate Avenue
Cypress, CA 90630

Dear Mr. Daniel Cordero:

Thank you for including the California Department of Transportation (Caltrans) in the environmental review process for the Negative Declaration (ND) for the Non-Time Critical Removal Action Work Plan, IR Site 10 Shoreline Slag Area Plan located near State Route 282 (SR-282). The mission of Caltrans is to provide a safe and reliable transportation network that serves all people and respects the environment. The Local Development Review (LDR) Program reviews land use projects and plans to ensure consistency with our mission and state planning priorities.

Caltrans has the following comments:

Traffic Control Plan/Hauling

Caltrans has discretionary authority with respect to highways under its jurisdiction and may, upon application and if good cause appears, issue a special permit to operate or move a vehicle or combination of vehicles or special mobile equipment of a size or weight of vehicle or load exceeding the maximum limitations specified in the California Vehicle Code. The Caltrans Transportation Permits Issuance Branch is responsible for the issuance of these special transportation permits for oversize/overweight vehicles on the State Highway network. Additional information is provided online at: <http://www.dot.ca.gov/trafficops/permits/index.html>

Transport of Hazardous Waste

The project's environmental document (ND) discusses the materials to be moved show elevated detections of Radium-226 (Ra-226). The Navy (through Naval Facilities Engineering Systems Command Southwest) would be responsible for cleanup, costs, and mitigations resulting from any material spillage or radiation related impacts due to the transport of these materials on State facilities.

Right-of-Way

- Per Business and Profession Code 8771, perpetuation of survey monuments by a licensed land surveyor is required, if they are being destroyed by any construction.
- Any work performed within Caltrans' Right-of-Way (R/W) will require discretionary review and approval by Caltrans and an encroachment permit will be required for any work within the Caltrans' R/W prior to construction.

Additional information regarding encroachment permits may be obtained by contacting the Caltrans Permits Office at (619) 688-6158 or emailing D11.Permits@dot.ca.gov or by visiting the website at <https://dot.ca.gov/programs/traffic-operations/ep>. Early coordination with Caltrans is strongly advised for all encroachment permits.

If you have any questions or concerns, please contact Charlie Lecourtois, LDR Coordinator, at (619) 985-4766 or by e-mail sent to Charlie.Lecourtois@dot.ca.gov.

Sincerely,

Maurice A. Eaton
