State Clearinghouse No. 2022060346

The County of Los Angeles would like to submit the following extension of the public review period for the Trails at Lyons Canyon Environmental Impact Report (SCH No. 2022060346). The County of Los Angeles is extending the public review period of the previously posted Notice of Availability in light of the recent Hughes Fire in Los Angeles County. The Hughes Fire presented "unusual circumstances," displacing many people from their homes and thereby potentially making it more difficult for some members of the public to timely submit comments during the original 60-day public review period which was from December 10, 2024, to February 7, 2025 (State CEQA Guidelines, Section 15105). The formal public review period for the Draft EIR will be extended for an additional 31 days (for a total of 91 days) to **Monday, March 10, 2025.**

Please place this Updated Notice of Availability of the Draft Environmental Impact Report for the above referenced project on the State Clearinghouse website. These documents need to remain available for public review from **Friday, February 7, 2025,** to **Monday, March 10, 2025**.
