Notice of Determination  
MOD 25-0032  
January 15, 2025

It has been determined that MOD 25-0032 is consistent with Program EIR 91-03 (SCH 92011007), which was prepared for the Lockheed Plant 10 Specific Plan (SP90-03) expansion project certified under Resolution No. CC 92-168 on September 10, 1992, in compliance with the provisions of the California Environmental Quality Act. The review was conducted to determine whether the project triggered any of the conditions described in Sections 15162, 15163, or 15164 of CEQA Guidelines, which require the preparation of a subsequent or supplemental EIR, or an addendum to the EIR. Staff has concluded that the project is consistent with EIR 91-03 because the addition of the structures is minor in nature and does not alter the site's use. As such, no further documentation is required.

This is to certify that the final environmental document with comments and responses and record of project approval, or the Negative Declaration, is available to the General Public at: City of Palmdale Planning Division, 38250 Sierra Highway, Palmdale, CA 93550.
