***SUBJECT: Filing of Notice of Determination pursuant to Public Resources Code section 21108***

**State Clearinghouse Number:** 2022110167

**Project Title:** Placerville Drive Bicycle and Pedestrian Facilities Project (Streambed Alteration Agreement EPIMS Notification No. ELD-57948-R2)

**Project Location:** The project is located at an unnamed tributary to Hangtown Creek, at the southwest corner of Debbie Lane and Green Valley Road, in the City of Placerville, County of El Dorado, State of California; Latitude 38.727637, Longitude -120.838284 (WGS 84 datum, decimal degrees).

**Project Description:** The California Department of Fish and Wildlife (CDFW) has executed Streambed Alteration Agreement EPIMS Notification Number ELD-57948-R2, pursuant to section 1602 of the Fish and Game Code to the project Applicant, the City of Placerville.

The project is limited to culverting an open section of intermittent stream at the southwest corner of the Green Valley Road and Debbie Lane intersection. This section of stream is currently culverted upstream and downstream from this open section. The existing downstream double barrel culvert under Green Valley Road will be removed. Then a new 48-inch diameter, approximately 60-foot-long culvert will be installed. This new culvert will connect to the existing upstream culvert and extend to the eastern side of Green Valley Road, where it will be tied into the existing downstream culvert system. A sidewalk will then be constructed over the culverted stream. No trees will be removed, however, Himalayan blackberry shrubs and other herbaceous vegetation within the open stream section will be permanently impacted. This is part of a larger project constructing bicycle and pedestrian facilities along Placerville Drive west of the US 50 undercrossing to Armory Road, and Green Valley Road from Placerville Drive to Mallard Lane.

This is to advise that CDFW, acting as a Responsible Agency, executed the above-described Lake and Streambed Alteration Agreement on the date signed below and has made the following determinations regarding the project pursuant to California Code of Regulations section 15096, subdivision (i):

**Notice of Determination**

1. The project will not have a significant effect on the environment. This determination is limited to effects within CDFW's permitting jurisdiction as a Responsible Agency.
2. CDFW considered the mitigated negative declaration prepared by the Lead Agency for this project pursuant to California Code of Regulations section 15096, subdivision (f).
3. Mitigation measures were made a condition of CDFW's approval of the project.
4. A mitigation reporting or monitoring plan was not adopted by CDFW for this project.
5. A statement of overriding considerations was not adopted by CDFW for this project.
6. Findings were not made by CDFW pursuant to California Code of Regulations section 15091.

The mitigated negative declaration prepared for the project is available to the general public at the office location listed above for the Lead Agency. CDFW's record of execution of the above Streambed Alteration Agreement as Responsible Agency is available at CDFW's regional office.
