CITY OF
AGOURA HILLS

"Gateway to the Santa Monica Mountains National Recreation Area"

December 1, 2021

Barbareno/Ventureno Band of Mission Indians
Attn: Julie Tumamait-Stenslie
365 North Poli Avenue
Ojai, CA 93023

SUBJECT: AB 52 CONSULTATION WITH NATIVE AMERICAN TRIBES

Dear Ms. Temamai-Stensilie:

The City of Agoura Hills (City) is writing to you pursuant to AB 52's requirement for consultation with Native American tribes. Please let me know within 30 days of the receipt of this letter if you wish to initiate consultation pursuant to AB 52 and California Public Resource Code Section 21080.3.1(a) and 65352.4 regarding the following project. If you would like to schedule a consultation with the City, please confirm if you would be your tribe's lead contact person, or kindly provide the name and contact information for another lead tribal representative with whom we should coordinate.

<u>The Kanan Road/Agoura Road Ultimate Intersection Improvements Project</u>

The project consists of improvements to the existing signalized intersection at Kanan Road/Agoura Road. The City is regarded as the "Gateway to the Santa Monica Mountains," and the Kanan Road/Agoura Road Intersection will provide a unique focal point for motorists traveling to, from and along the City's southerly limits. The project will provide for improved flow of traffic, pedestrian safety, potential decrease in the number of accidents and also provide for aesthetic enhancements. The project is bordered at the northwest and northeast corners of the intersection by fully improved and built-out commercial developments. Additionally, the Kanan-101 Freeway interchange is located approximately 600-ft north of the intersection. These constraints, coupled with the high use and visibility of the intersection, make the project a challenging and sensitive priority for the City.

The project is located in the Agoura Village Specific Plan (AVSP) area. A Program Environmental Impact Report (EIR) was adopted by the City Council in 2008 for the AVSP as a whole. One of the components of the AVSP was a proposed roundabout at the intersection of Kanan Road and Agoura Road. In September 2014, the City Council voted not to proceed with the roundabout, and instead authorized the design of a widened intersection with a traffic signal as the ultimate configuration of the Kanan Road/ Agoura

30001 Ladyface Court, Agoura Hills, CA 91301-2583 • Telephone (818) 597-7300 • Fax (818) 597-7352
email: agourahillscity.org

Road intersection. The City has determined that a Supplemental EIR is the appropriate document to be prepared for the project, pursuant to the California Environmental Quality Act (CEQA), which will amend the AVSP's EIR to change the design from a roundabout to a standard signalized intersection with an aesthetic plan. Attached is a written project description, along with exhibits.

If you have any questions, or need further information, please contact me directly at (818) 597-7360 or cyambao@agourahillscity.org.

Sincerely,

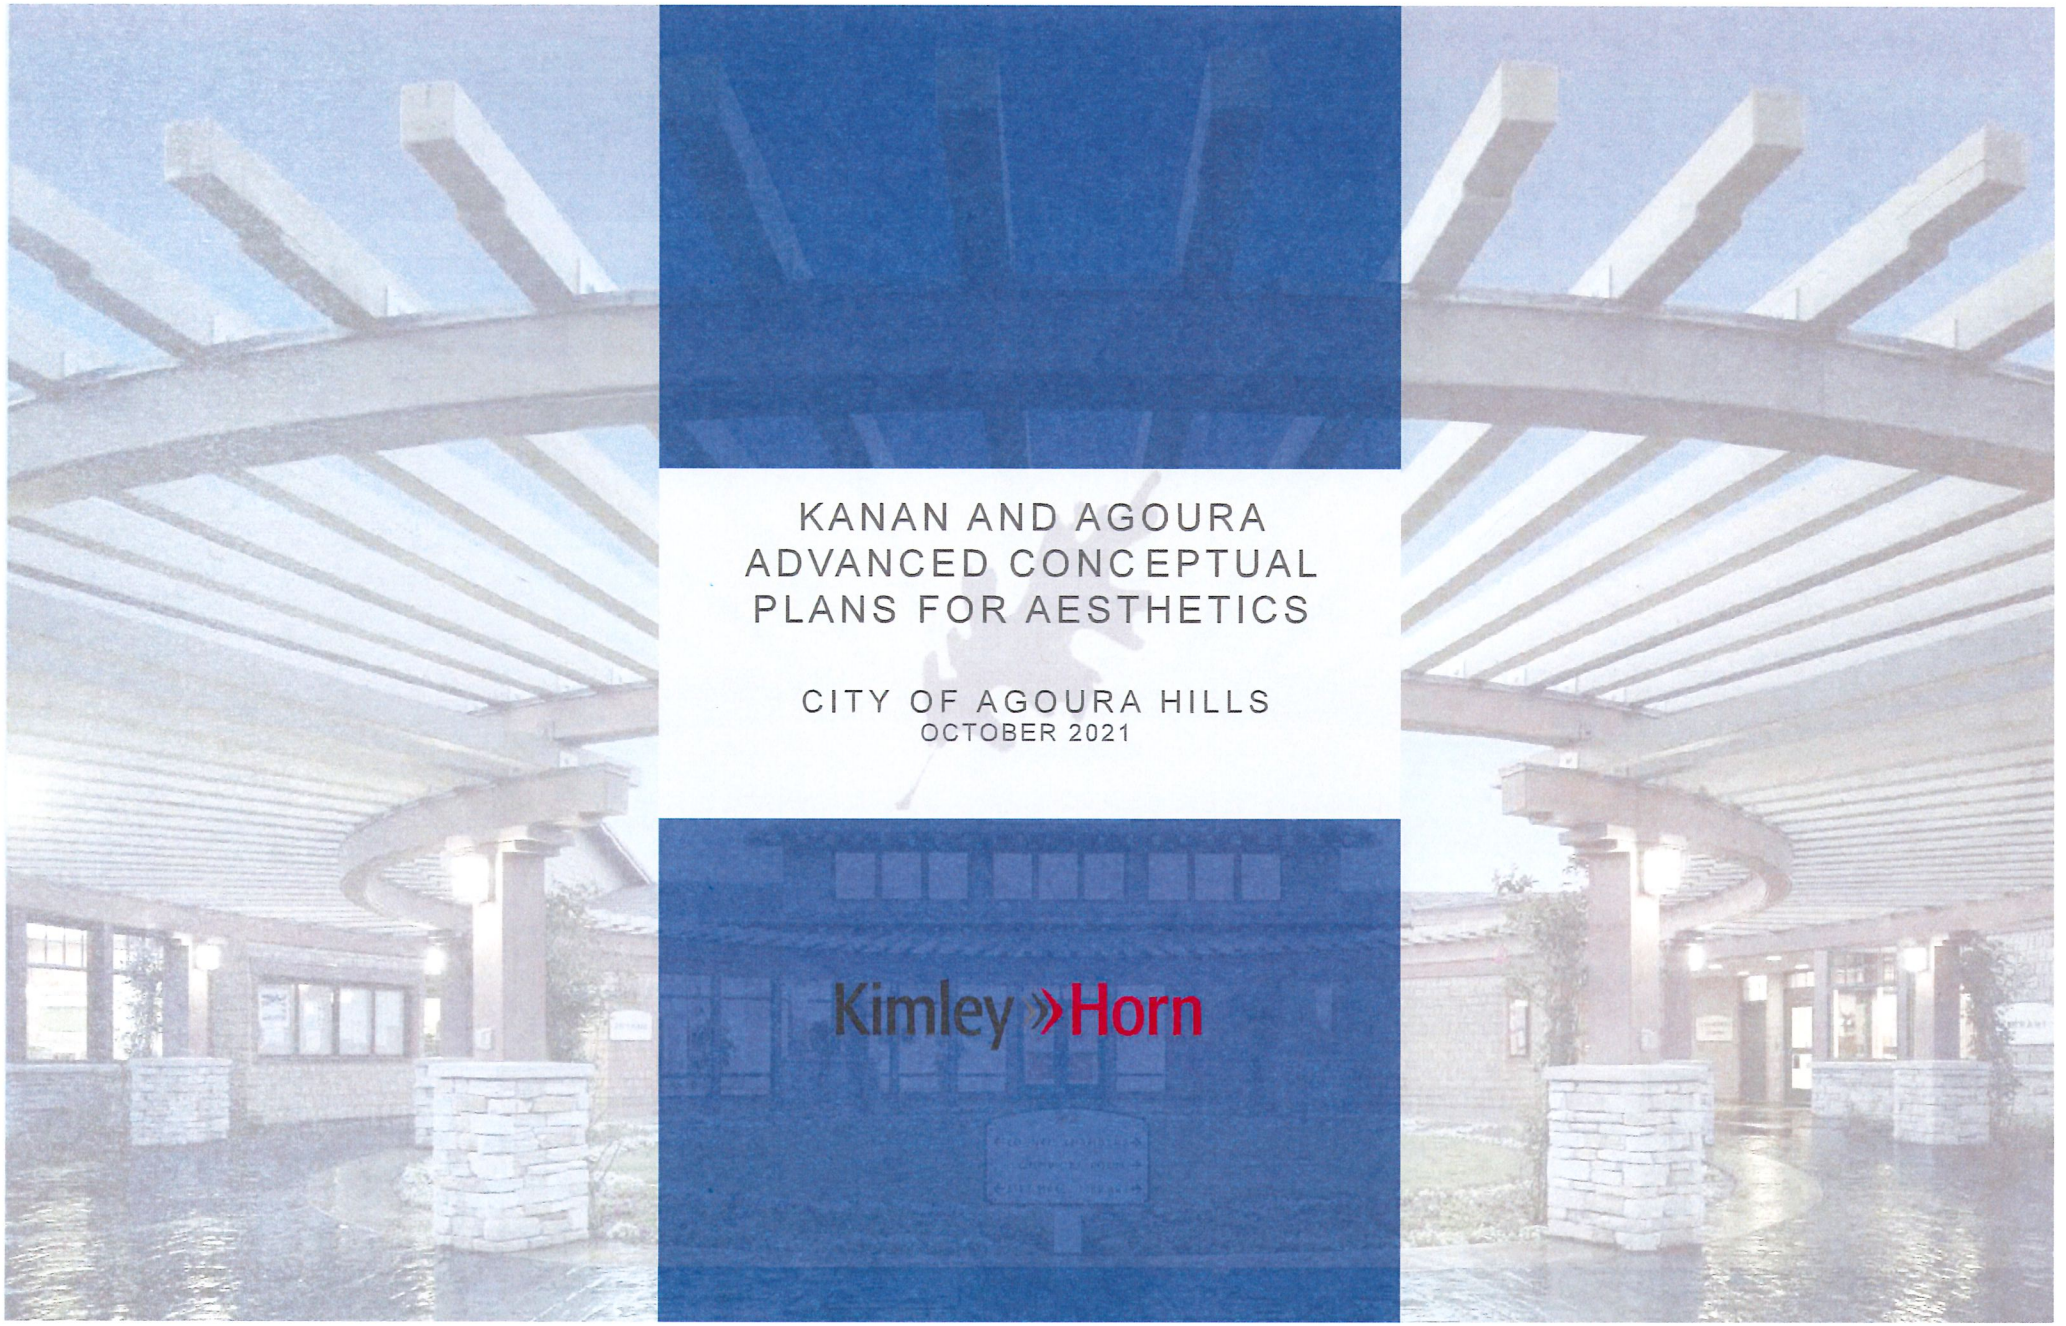

Charmaine Yambao, PE
Acting City Engineer

Kanan Road/Agoura Road Ultimate Intersection Improvements Project
Description of Project

The Kanan Road/Agoura Road Intersection Improvements Project design consists of designing a signalized intersection that would improve circulation, reduce delays, facilitate large truck movements, reduce conflict points, and be located and constructed within an area close in proximity to a freeway interchange and bordered on the north side by built-out, fully improved land, and heritage oak trees. Additionally, the design would need to include ultimate improvements along each leg of the intersection and comply with the Agoura Village Specific Plan (AVSP). The proposed, ultimate improvements consist of, but are not limited to, the following:

1. Improvements to the Kanan Road and Agoura Road Intersection with new signalized intersection.
2. Establishment of horizontal and vertical alignments for a widened intersection with a configuration of turn pockets and adequate storage lengths at all intersection approaches.
3. Smooth transition from the interim signal improvements, provided by the Agoura Road Widening Project, and the ultimate intersection improvements.
4. Widened sidewalks.
5. Class II bike paths on both sides of Agoura Road with painted green conflict striping.
6. High visibility style crosswalks with dual curb ramps at each corner of the Intersection.
7. Improvements at the intersection of Roadside and Kanan to include, but not be limited to, lane restriping, turn signal modifications, and/or removal of turn movements.
8. Improve existing driveway approaches and sidewalk interfaces.
9. Modification and/or adjustments of underground utilities and decorative street lighting.
10. Undergrounding of overhead utilities along Kanan Road, between Agoura Road and southerly City limits.
11. Preservation of heritage oaks and consideration of integration with design, where feasible.
12. Aesthetic design and plan, using AVSP as a guideline. The aesthetic plan, at a minimum, will include, but not be limited to, details such as landscaping and hardscaping, greenways, accent paving, enhanced pedestrian crosswalks, decorative traffic signals, and street furnishings.
13. The new signalized intersection shall be designed as a 'gateway' to the City, with possible design elements to include, but not be limited to, Gateway Monument signage.

Kanan Road/Agoura Road Ultimate Intersection Improvements Project
Description of Project

The Kanan Road/Agoura Road Intersection Improvements Project design consists of designing a signalized intersection that would improve circulation, reduce delays, facilitate large truck movements, reduce conflict points, and be located and constructed within an area close in proximity to a freeway interchange and bordered on the north side by built-out, fully improved land, and heritage oak trees. Additionally, the design would need to include ultimate improvements along each leg of the intersection and comply with the Agoura Village Specific Plan (AVSP). The proposed, ultimate improvements consist of, but are not limited to, the following:

1. Improvements to the Kanan Road and Agoura Road Intersection with new signalized intersection.
2. Establishment of horizontal and vertical alignments for a widened intersection with a configuration of turn pockets and adequate storage lengths at all intersection approaches.
3. Smooth transition from the interim signal improvements, provided by the Agoura Road Widening Project, and the ultimate intersection improvements.
4. Widened sidewalks.
5. Class II bike paths on both sides of Agoura Road with painted green conflict striping.
6. High visibility style crosswalks with dual curb ramps at each corner of the Intersection.
7. Improvements at the intersection of Roadside and Kanan to include, but not be limited to, lane restriping, turn signal modifications, and/or removal of turn movements.
8. Improve existing driveway approaches and sidewalk interfaces.
9. Modification and/or adjustments of underground utilities and decorative street lighting.
10. Undergrounding of overhead utilities along Kanan Road, between Agoura Road and southerly City limits.
11. Preservation of heritage oaks and consideration of integration with design, where feasible.
12. Aesthetic design and plan, using AVSP as a guideline. The aesthetic plan, at a minimum, will include, but not be limited to, details such as landscaping and hardscaping, greenways, accent paving, enhanced pedestrian crosswalks, decorative traffic signals, and street furnishings.
13. The new signalized intersection shall be designed as a 'gateway' to the City, with possible design elements to include, but not be limited to, Gateway Monument signage.

SUBJECT: SB 18 CONSULTATION WITH NATIVE AMERICAN TRIBES

Dear Ms. Tumamait-Stenslie:

The City of Agoura Hills (City) is writing to you pursuant to Senate Bill (SB) 18's requirement for consultation with California Native American tribes. As the project, described below, would require the adoption or amendment of a Specific Plan, the project is subject to Section 65352.3 of the Government Code. Included with this letter is the Historic and Archaeological Resources section of the Final Revised and Recirculated Environmental Impact Report for the Agoura Village Specific Plan.

Please forward any comments regarding the potential for the presence of Native American cultural resources that may be impacted by this project to:

City of Agoura Hills
ATTN: Charmaine Yambao, PE
30001 Ladyface Court
Agoura Hills, CA 91301
Email: cyambao@agourahillscity.org
Phone No: (818) 597-7360

Tribes have 90 days from the date on which they receive notification to request consultation, in writing. Thank you for your assistance with our efforts to address cultural places that may be affected by the proposed project.

The Kanan Road/Agoura Road Ultimate Intersection Improvements Project

The project consists of improvements to the existing signalized intersection at Kanan Road/Agoura Road. The City is regarded as the "Gateway to the Santa Monica Mountains," and the Kanan Road/Agoura Road Intersection will provide a unique focal point for motorists traveling to, from and along the City's southerly limits. The project will provide for improved flow of traffic, pedestrian safety, potential decrease in the number of accidents and also provide for aesthetic enhancements. The project is bordered at the northwest and northeast corners of the intersection by fully improved and built-out

commercial developments. Additionally, the Kanan-101 Freeway interchange is located approximately 600-ft north of the intersection. These constraints, coupled with the high use and visibility of the intersection, make the project a challenging and sensitive priority for the City.

The project is located in the Agoura Village Specific Plan (AVSP) area. A Program Environmental Impact Report (EIR) was adopted by the City Council in 2008 for the AVSP as a whole. One of the components of the AVSP was a proposed roundabout at the intersection of Kanan Road and Agoura Road. In September 2014, the City Council voted not to proceed with the roundabout, and instead authorized the design of a widened intersection with a traffic signal as the ultimate configuration of the Kanan Road/ Agoura Road intersection. The City has determined that a Supplemental EIR is the appropriate document to be prepared for the project, pursuant to the California Environmental Quality Act (CEQA), which will amend the AVSP's EIR to change the design from a roundabout to a standard signalized intersection with an aesthetic plan. Attached is a written project description, along with exhibits.

If you have any questions, or need further information, please contact me directly at (818) 597-7360 or cyambao@agourahillscity.org.

Sincerely,

Charmaine Yambao, PE
Senior Civil Engineer

Tribes have 90 days from the date on which they receive notification to request consultation, in writing. Thank you for your assistance with our efforts to address cultural places that may be affected by the proposed project.

<u>The Kanan Road/Agoura Road Ultimate Intersection Improvements Project</u>

The project consists of improvements to the existing signalized intersection at Kanan Road/Agoura Road. The City is regarded as the "Gateway to the Santa Monica Mountains," and the Kanan Road/Agoura Road Intersection will provide a unique focal point for motorists traveling to, from and along the City's southerly limits. The project will provide for improved flow of traffic, pedestrian safety, potential decrease in the number of accidents and also provide for aesthetic enhancements. The project is bordered at the northwest and northeast corners of the intersection by fully improved and built-out commercial developments. Additionally, the Kanan-101 Freeway interchange is located approximately 600-ft north of the intersection. These constraints, coupled with the high

use and visibility of the intersection, make the project a challenging and sensitive priority for the City.

The project is located in the Agoura Village Specific Plan (AVSP) area. A Program Environmental Impact Report (EIR) was adopted by the City Council in 2008 for the AVSP as a whole. One of the components of the AVSP was a proposed roundabout at the intersection of Kanan Road and Agoura Road. In September 2014, the City Council voted not to proceed with the roundabout, and instead authorized the design of a widened intersection with a traffic signal as the ultimate configuration of the Kanan Road/ Agoura Road intersection. The City has determined that a Supplemental EIR is the appropriate document to be prepared for the project, pursuant to the California Environmental Quality Act (CEQA), which will amend the AVSP's EIR to change the design from a roundabout to a standard signalized intersection with an aesthetic plan. Attached is a written project description, along with exhibits.

If you have any questions, or need further information, please contact me directly at (818) 597-7360 or cyambao@agourahillscity.org.

Sincerely,

Charmaine Yambao, PE
Senior Civil Engineer

SUBJECT: SB 18 CONSULTATION WITH NATIVE AMERICAN TRIBES

Dear Mr. Julio Quair:

The City of Agoura Hills (City) is writing to you pursuant to Senate Bill (SB) 18's requirement for consultation with California Native American tribes. As the project, described below, would require the adoption or amendment of a Specific Plan, the project is subject to Section 65352.3 of the Government Code. Included with this letter is the Historic and Archaeological Resources section of the Final Revised and Recirculated Environmental Impact Report for the Agoura Village Specific Plan.

Please forward any comments regarding the potential for the presence of Native American cultural resources that may be impacted by this project to:

Northern Chumash Tribal Council
Attn: Violet Walker, Chairperson
P.O. Box 6533
Los Osos, CA 93412

SUBJECT: SB 18 CONSULTATION WITH NATIVE AMERICAN TRIBES

Dear Ms. Violet Walker:

The City of Agoura Hills (City) is writing to you pursuant to Senate Bill (SB) 18's requirement for consultation with California Native American tribes. As the project, described below, would require the adoption or amendment of a Specific Plan, the project is subject to Section 65352.3 of the Government Code. Included with this letter is the Historic and Archaeological Resources section of the Final Revised and Recirculated Environmental Impact Report for the Agoura Village Specific Plan.

Please forward any comments regarding the potential for the presence of Native American cultural resources that may be impacted by this project to:

City of Agoura Hills
ATTN: Charmaine Yambao, PE
30001 Ladyface Court
Agoura Hills, CA 91301
Email: cyambao@agourahillscity.org
Phone No: (818) 597-7360

Tribes have 90 days from the date on which they receive notification to request consultation, in writing. Thank you for your assistance with our efforts to address cultural places that may be affected by the proposed project.

<u>The Kanan Road/Agoura Road Ultimate Intersection Improvements Project</u>

The project consists of improvements to the existing signalized intersection at Kanan Road/Agoura Road. The City is regarded as the "Gateway to the Santa Monica Mountains," and the Kanan Road/Agoura Road Intersection will provide a unique focal point for motorists traveling to, from and along the City's southerly limits. The project will provide for improved flow of traffic, pedestrian safety, potential decrease in the number of accidents and also provide for aesthetic enhancements. The project is bordered at the northwest and northeast corners of the intersection by fully improved and built-out commercial developments. Additionally, the Kanan-101 Freeway interchange is located approximately 600-ft north of the intersection. These constraints, coupled with the high

use and visibility of the intersection, make the project a challenging and sensitive priority for the City.

The project is located in the Agoura Village Specific Plan (AVSP) area. A Program Environmental Impact Report (EIR) was adopted by the City Council in 2008 for the AVSP as a whole. One of the components of the AVSP was a proposed roundabout at the intersection of Kanan Road and Agoura Road. In September 2014, the City Council voted not to proceed with the roundabout, and instead authorized the design of a widened intersection with a traffic signal as the ultimate configuration of the Kanan Road/ Agoura Road intersection. The City has determined that a Supplemental EIR is the appropriate document to be prepared for the project, pursuant to the California Environmental Quality Act (CEQA), which will amend the AVSP's EIR to change the design from a roundabout to a standard signalized intersection with an aesthetic plan. Attached is a written project description, along with exhibits.

If you have any questions, or need further information, please contact me directly at (818) 597-7360 or cyambao@agourahillscity.org.

Sincerely,

Charmaine Yambao, PE
Senior Civil Engineer
