Citation:	HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Description:	Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.
Violation Notes:	CalEPA has replaced the previously existing five federal hazard categories in CERS with twenty-four new federal hazard categories. The following federal hazard categories are now obsolete fire, reactive, pressure release, acute health, chronic health. A review of your submittal has determined that you DID NOT SELECT ANY OF THE 24 FEDERAL HAZARD CATEGORIES for your chemical inventory. Please review your hazardous material inventory and complete the following steps: 1) Update your hazardous material inventory and select all applicable federal hazard categories from the 24 newly listed categories for all chemical inventory stored at your facility. You may refer to Section 2 of a current Safety Data Sheets (SDS) (previously called an MSDS) to determine which of the new federal hazard categories apply. 2) Resubmit your hazardous materials inventory in CERS. FOR A DETAILED LIST OF THE NEW FEDERAL CATEGORIES & ADDITIONAL INFORMATION, PLEASE REVIEW THE FOLLOWING [Truncated]

Evaluation:
Eval General Type: Compliance Evaluation Inspection
Eval Date: 07-08-2016
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: Permission to inspect granted by, Jimmy Arreguin, Manager. As per our discussion on site, Mr. Arreguin, was informed that State law mandates all regulated businesses electronically submit their Hazardous Materials Business Plan (HMBP) via the California Environmental Reporting System (CERS). Electronic submittal shall be completed within the next 30 days. In addition, HMBP s need to be reviewed and certified annually, between January 1st and March 1st, for complete and accurate information. It is also mandatory to submit any substantial change in operation within 30 days.

SECTIONS 57.105.1.4; 57.120.3; 57.121.2 and 57.121.2.1.) requires businesses that store, use or handle hazardous materials in the City of Los Angeles to obtain a Consolidated Permit from the Los Angeles Fire Department CUPA. To receive a Consolidated Permit you must satisfy the following requirements: 1. Log in to http://cers.calepa.ca.gov, to create a user name and password. It will take approximately 2-3 days to receive approval before you can continue. After you are approved, you will receive an email confirmation sent to the email you provide. 2. Fill out the Owner/Operator and Business Activity information in CERS. Be sure to enter your EPA ID number if you have hazardous waste. 3. Complete your hazardous materials inventory and site map on CERS. Attached is a sample site [Truncated]

KONOIKE-E STREET INC (Continued) **S123515782**

Chapter 4.5, Section(s) 2765.1(b)
Violation Description: Failure of a stationary source whose employees will not respond to accidental releases of regulated substances to meet the following: 1. Inclusion in the community emergency response plan developed under Section 11003 of Title 42 of the United States Code. 2. Coordinated response actions with the local fire department for stationary sources with only regulated flammable substances held in a process above the threshold quantity. 3. Appropriate mechanisms are in place to notify emergency procedures responders when there is a need for a response.
Violation Notes: Returned to compliance on 08/28/2015. DOCUMENTATION OF COORDINATION WITH LOCAL FIRST RESPONDERS IS MISSING

Site ID: 125601
CERS ID: 10257607

JAPANESE TRUCK DISMANTLING (Continued) **S106102861**

CERS Description: Hazardous Waste Generator

Violations:

Site ID: 125601
Site Name: JAPANESE TRUCK DISMANTLING
Violation Date: 07-24-2015
Citation: 40 CFR 1 265.174 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.174
Violation Description: Failure to inspect hazardous waste storage areas at least weekly.
Violation Notes: Returned to compliance on 08/24/2015. OBSERVATION: Hazardous waste storage area not being inspected. The owner or operator shall inspect areas used for container storage or transfer, at least weekly, looking for leaking containers and for deterioration of containers and the containment system caused by corrosion and other factors. CORRECTIVE ACTION: Immediately begin conducting the necessary weekly inspections for all hazardous waste containers at this facility.
Violation Division: Los Angeles County Fire Department
Violation Program: HW
Violation Source: CERS,

Site ID: 125601
Site Name: JAPANESE TRUCK DISMANTLING
Violation Date: 07-24-2015
Citation: HSC 6.5 Multiple - California Health and Safety Code, Chapter 6.5, Section(s) Multiple
Violation Description: Haz Waste Generator Program - Administration/Documentation - General
Violation Notes: Returned to compliance on 08/31/2015. OBSERVATION: The contingency plan was not available at the time of inspection. A copy of the contingency plan and all revisions to the plan shall be maintained at the facility at all times. CORRECTIVE ACTION: Immediately locate a copy of the contingency plan for the facility and submit a copy of the plan to the CUPA.
Violation Division: Los Angeles County Fire Department
Violation Program: HW
Violation Source: CERS,

Site ID: 125601
Site Name: JAPANESE TRUCK DISMANTLING
Violation Date: 07-24-2015
Citation: 40 CFR 1 262.34(d)(5)(iii) - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 262.34(d)(5)(iii)
Violation Description: Failure to ensure employees are familiar with the handling and compliance of hazardous waste regulations and emergency response.
Violation Notes: Returned to compliance on 08/24/2015. OBSERVATION: At the time of inspection, it could not be demonstrated that employees who handle hazardous waste (HW) were properly trained. The generator must ensure that all employees who handle HW are thoroughly familiar with proper waste handling and emergency procedures. Employees have to recognize the point of generation of HW to properly handle, store and dispose. CORRECTIVE ACTION: Immediately provide training to all employees who handle hazardous waste and submit a copy of the training documentation, including (employee names, date of training, and training topics) to the CUPA 8/23/15.
Violation Division: Los Angeles County Fire Department
Violation Program: HW
Violation Source: CERS,

Site ID: 125601

JAPANESE TRUCK DISMANTLING (Continued) **S106102861**

Site Name: JAPANESE TRUCK DISMANTLING
Violation Date: 07-24-2015
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Description: Failure to properly label hazardous waste accumulation containers with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.
Violation Notes: Returned to compliance on 07/24/2015. OBSERVATION: Hazardous waste (HW) storage area: 4-55gallon dums marked "aceite"/used oil 2-55gallon drum2 marked waste "antifreeze" Were found with no HW marking/labeling. All hazardous waste containers shall be marked with the following information: 1) the words Hazardous Waste ; 2) name and address of generator; 3) hazardous properties; 4) physical state; 5) composition (contents); 6) accumulation start date. CORRECTIVE ACTION: Immediately label these containers and ensure that all hazardous waste containers are marked with all the required information. HW labels were completed and affixed at time of inspection. Used oil & waste coolant labeling accumulation start date 06/10/15
Violation Division: Los Angeles County Fire Department
Violation Program: HW
Violation Source: CERS,

Site ID: 125601
Site Name: JAPANESE TRUCK DISMANTLING

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Violation Date:	03-24-2022
Citation:	23 CCR 16 2716(e) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2716(e)
Violation Description:	For designated operator (DO) monthly inspections conducted before October 1, 2018, failure to comply with one or more of the following requirements: Be performed by an ICC certified DO. Inspect monthly alarm history report, check that alarms are documented and responded to appropriately, and attach a copy. Inspect for the presence of liquid/debris in spill containers. Inspect for the presence of liquid/debris in under dispenser containment (UDC) and ensure that the monitoring equipment is positioned correctly. Inspect for liquid or debris in containment sumps where an alarm occurred with no service visit. Check that all testing and maintenance has been completed and documented. Verify that all facility employees have been trained in accordance with 23 CCR 2715(c). For designated operator (DO) 30 day inspections conducted on and after October 1, 2018, failure to conduct the designated UST operator visual inspection at least once every 30 days.
Violation Notes:	OBSERVATION: The following alarms noted on the January 2022 Monthly Designated Operator (DO) report had no copies of work orders or Alarm Log attached documenting the appropriate actions taken to address each alarm: 01/15/2022: L-1 Fill Sump 12/25/2021: L-2 STP Sump 12/24/2021: L-2 STP Sump CORRECTIVE ACTION: New Manager Felix Cisneros indicated that the work orders from their Service contractor are sent to the main office. Mr Felix indicated that he would obtain the work orders from the main office. Directed Mr Felix to email me and D.O. Anton Makarian copies of the work orders for the following alarms and to attach work orders to the corresponding Monthly Designated Operator report: 01/15/2022: L-1 Fill Sump 12/25/2021: L-2 STP Sump 12/24/2021: L-2 STP Sump

Citation: 23 CCR 16 2712(b)(1)(G) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2712(b)(1)(G)
Violation Description: Failure to comply with one or more of the following overfill prevention equipment requirements: Alert the transfer operator when the tank is 90 percent full by restricting the flow into the tank or triggering an audible and visual alarm; or Restrict delivery of flow to the tank at least 30 minutes before the tank overfills, provided the restriction occurs when the tank is filled to no more than 95 percent of capacity; and activate an audible alarm at least five minutes before the tank overfills; or Provide positive shut-off of flow to the tank when the tank is filled to no more than 95 percent of capacity; or Provide positive shut-off of flow to the tank so that none of the fittings located on the top of the tank are exposed to product due to overfilling. Install/retrofit overfill prevention equipment that does not use flow restrictors on vent piping to meet overfill prevention equipment requirements when the overfill prevention equipment is installed, repaired, or replaced on and after October 1, 2018. For USTs installed before October 1, 2018, perform an inspection by October 13, 2018 and every 36 months thereafter. For USTs installed on and after October 1, 2018, perform an inspection at installation and every 36 months thereafter. Inspected within 30 days after a repair to the overfill prevention equipment. Inspected using an applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer. Inspected by a certified UST service technician. Maintain records of overfill prevention equipment inspection for 36 months.
Violation Notes: Returned to compliance on 09/30/2019. OBSERVATION: The inspection of all required overfill prevention equipment listed in CERS was not completed and submitted to the CUPA by 10/13/2018. Facility Operating Permit application Tank Information in CERS lists Flappers and Ball Floats. Flappers were inspected on this date and passed. Contractor verified NO Ball Float is installed in housing. CORRECTIVE ACTION: Overfill prevention equipment inspection was completed on this date. Next overfill prevention equipment inspection must be completed by 10/2021. Corrected on Site.

Citation: HSC 6.7 25284, 25286 - California Health and Safety Code, Chapter 6.7, Section(s) 25284, 25286
Violation Description: Failure to submit a complete and accurate application for a permit to operate a UST, or for renewal of the permit.
Violation Notes: Returned to compliance on 03/24/2022. Verified D.O. Anton Makarian made the corrections in the 3/25/2022 CERS UST Submittal. CORRECTED ON SITE. OBSERVATION: Facility Operating Permit application Tank Information in CERS lists Flappers and Ball Floats. Flappers were inspected on this date and passed. Contractor verified NO Ball Float is installed in housing. Facility previously cited for same violation - Elevated to Class II. CORRECTIVE ACTION: Update Facility Operating Permit application Tank information in CERS to indicate NO to Ball Floats. OBSERVATION: Permit application Tank information in CERS indicates Riser / Fill Pipe Piping Construction indicates Fiberglass. Both Tank Risers are made of Steel. Facility previously cited for same violation - Elevated to Class II. CORRECTIVE ACTION: Update UST facility operating permit application, tank information in CERS to indicate Riser / Fill Pipe Piping Construction is Steel. OBSERVATION: Permit application Tank information in CERS indicates Under [Truncated]

Violation Date: 09-30-2019
Citation: 23 CCR 16 2716(e) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2716(e)
Violation Description: For designated operator (DO) monthly inspections conducted before October 1, 2018, failure to comply with one or more of the following requirements: Be performed by an ICC certified DO. Inspect monthly alarm history report, check that alarms are documented and responded to appropriately, and attach a copy. Inspect for the presence of liquid/debris in spill containers. Inspect for the presence of liquid/debris in under dispenser containment (UDC) and ensure that the monitoring equipment is positioned correctly. Inspect for liquid or debris in containment sumps where an alarm occurred with no service visit. Check that all testing and maintenance has been completed and documented. Verify that all facility employees have been trained in accordance with 23 CCR 2715(c). For designated operator (DO) 30 day inspections conducted on and after October 1, 2018, failure to conduct the designated UST operator visual inspection at least once every 30 days.
Violation Notes: Returned to compliance on 09/30/2019. OBSERVATION: Monthly DO reports and Alarm History Tapes indicate L-2 Diesel STP Sump Fuel Alarms on 11/22/2019 and 10/12/2019. No appropriate documentation for the alarms was made in the Owner- Operator comments section OR attached to the reports or found in compliance binder. Beginning 10/2018, Designated Operators are required to: 1. Attach a copy of the alarm history. 2. List ANY alarms or compliance issues in the comments section of each Monthly DO report. 3. Locate and attach written documentation of alarms and the appropriate services required to clear/address the alarm. 4. Sign every report (upper signature box) Beginning 10/2018, Owner-Operators are required to: 1. Review each Monthly DO report within 48 hours of receiving the report. 2. Sign every report (lower signature box) indicating that they reviewed the report - REGARDLESS of whether there were any alarms. 3. List on the report the actions taken or to be taken by the Owner-Operator to [Truncated]

Monitoring system certification WAS conducted at this time. Monitoring certification WAS performed by Zareh Aldoyan with Robertson Testing. Tester provided the following certifications: ICC: 8890522 Exp: 3/11/2022 VMI: 4724 Exp: 6/30/2022 VR: C28496 Exp: 6/4/2022 Ensure submittal of monitor certification test results within 30 days using one of the following options in preferred order: 1. Email results to lafd.usttestnotify@lacity.org AND aaron.mungaray@lacity.org 2. Upload results in California Environmental Reporting System (CERS) https://cersbusiness.calepa.ca.gov using the Miscellaneous State-Required Documents link. 3. Mail results via certified mail to: Los Angeles City Fire [Truncated]

Eval Division: Los Angeles City Fire Department
Eval Program: UST
Eval Source: CERS,

Eval General Type: Compliance Evaluation Inspection
Eval Date: 09-06-2018
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: LAFD Inspector Mungaray, on site this date to conduct routine inspection of underground storage tank facility. Consent to enter, inspect and take photographs was given on this date by new MANAGER HERCAR ONER. Monitoring system certification and Secondary Containment Testing WAS conducted at this time by RICARDO REGALADO WITH VASQUEZ MAINTENANCE. Designated Operator Anton Markarian also on site. Tester provided the following certifications: ICC: 8274704 EXP: 10-22-18 VR: B33280 EXP: 05-13-19 VMI: 3648, 3649 EXP: 03-06-19 INCON Level 4: 1002083708 Exp: 04/26/2019 The UST monitoring panel showed all functions normal. The monitoring set up and alarm history were provided for review. The sumps and UDCs were opened for inspection and the sensors were observed positioned to detect a leak at the earliest opportunity. The spill buckets were also visually inspected. The

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Treat To Water:	Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity:	Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: Permission to inspect granted by, Amy Vanostenbridge, Director of Regulatory Affairs. As per our discussion on site, Ms. Vanostenbridge, was informed that State law mandates all regulated businesses electronically submit their Hazardous Materials Business Plan (HMBP) via the California Environmental Reporting System (CERS). Electronic submittal shall be completed within the next 30 days. In addition, HMBP s need to be reviewed and certified annually, between January 1st and March 1st, for complete and accurate information. It is also mandatory to submit any substantial change in operation within 30 days.

Treat To Water:	Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity:	Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Violation Notes:	Returned to compliance on 01/31/2017. OBSERVATION: Facilities shall be maintained and operated to minimize the possibility of a fire, explosion, or release of hazardous waste to air, soil, or surface water which could threaten human health or the environment. Observed unmanaged oil spills throughout the hazardous waste accumulation area (inside and outside of the secondary containment). CORRECTIVE ACTION: Immediately [fix leak, clean stains, etc.], and manage according to Title 22 hazardous waste regulations. Submit a statement and supporting documentation explaining how this waste was managed by 9/17/16

CERS:
Name: MILAN'S AUTO DISMANTLING
Address: 225 E HARRY BRIDGES BLVD
City,State,Zip: WILMINGTON, CA 90744
Site ID: 49101
CERS ID: 10250467
CERS Description: Chemical Storage Facilities

Violations:
Site ID: 49101
Site Name: MILAN'S AUTO DISMANTLING
Violation Date: 07-28-2015
Citation: 19 CCR 6.95 25508(a)(1) - California Code of Regulations, Title 19, Chapter 6.95, Section(s) 25508(a)(1)
Violation Description: Failure to complete and electronically submit the Business Activities Page and/or Business Owner Operator Identification Page.
Violation Notes: Returned to compliance on 03/06/2018.
Violation Division: Los Angeles City Fire Department
Violation Program: HMRRP
Violation Source: CERS,

Site ID: 49101
Site Name: MILAN'S AUTO DISMANTLING
Violation Date: 03-15-2021
Citation: 40 CFR 1 265.173 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.173
Violation Description: Failure to meet the following container management requirements: (a) A container holding hazardous waste must always be closed during storage, except when it is necessary to add or remove waste. (b) A container holding hazardous waste must not be opened, handled, or stored in a manner which may rupture the container or cause it to leak.
Violation Notes: Returned to compliance on 03/15/2021. OBSERVATION: Hazardous waste containers were observed open: 1) 4 x 55 gal drums = used oil CORRECTIVE ACTION: Operator affixed lid(s) & corrected violation on site.
Violation Division: Los Angeles County Fire Department
Violation Program: HW
Violation Source: CERS,

Site ID: 49101
Site Name: MILAN'S AUTO DISMANTLING
Violation Date: 03-06-2018
Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Description: Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.
Violation Notes: Effective December 28, 2017, CalEPA replaced the five federal hazard categories in CERS with 24 new federal hazard categories. The following federal hazard categories are now obsolete fire, reactive, pressure release, acute health, chronic health. A review of your submittal has determined that you DID NOT SELECT ANY OF THE 24 FEDERAL HAZARD CATEGORIES for your chemical inventory. Please review your hazardous material inventory and complete the following steps: 1. Update your hazardous material inventory and select all applicable federal hazard categories from the 24 newly listed categories for all

MILAN'S AUTO INC (Continued) **S113111869**

chemical inventory stored at your facility. You may refer to Section 2 of a current Safety Data Sheets (SDS) (previously called an MSDS) to determine which of the new federal hazard categories apply. FOR A DETAILED LIST OF THE NEW FEDERAL CATEGORIES & ADDITIONAL INFORMATION, PLEASE REVIEW THE FOLLOWING RESOURCE: [Truncated]

Violation Date:	08-13-2018
Citation:	HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(1)
Violation Description:	Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.
Violation Notes:	Returned to compliance on 09/25/2018. OBSERVATION: 1 x 55 gallon drum containing used oil stored at the northeast corner of the facility is labeled, but has an accumulation start date greater than the allowable 180 days. No documentation was available demonstrating disposal of used oil within the past 180 days. Last available record is dated 7/18/17. CORRECTIVE ACTION: Submit a disposal receipt/manifest demonstrating disposal of used oil within the past 180 days. If none are available, contact a hazardous waste transporter to dispose the used oil, then submit a copy of the manifest/receipt to the CUPA.

Eval General Type: Other/Unknown
Eval Date: 08-27-2018
Violations Found: No
Eval Type: Other, not routine, done by local agency
Eval Notes: Phone call to Milan Veteska, owner. He left a message requesting violation clarification. Links to HW label images emailed to Mr. Veteska.
Eval Division: Los Angeles County Fire Department
Eval Program: HW
Eval Source: CERS,

Eval General Type: Compliance Evaluation Inspection
Eval Date: 07-28-2015
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: Permission to inspect granted by Mr. Ben Mercado, Business Representative. As per our discussion on site, Mr. Mercado, was advised that State law mandates that all regulated businesses electronically submit their Hazardous Materials Business Plan (HMBP) via the California Environmental Reporting System (CERS), within the next 30 days. Mr. Mercado advised that the business owner, Mr. Milan Veteska was out of the country and that he would relay our conversation to Mr. Veteska.

Violations:
- Site ID: 536978
- Site Name: Milans Auto Dismantling
- Violation Date: 07-17-2020
- Citation: 2014-0057-DWQ - Industrial General Permit
- Violation Description: SW - Late Report
- Violation Notes: Failure to collect and analyze storm water run off
- Violation Division: Water Boards
- Violation Program: INDSTW
- Violation Source: SMARTS,

Evaluation:
- Eval General Type: Compliance Evaluation Inspection
- Eval Date: 07-24-2013
- Violations Found: No
- Eval Type: Industrial Storm Water Compliance Evaluation
- Eval Notes: This was a compliance inspection. Staff inspected the yard accompanied of Mr. Martin Yurzykowski. Mr. Benjamin Mercado, Acting Manager, granted permit to inspect the site and to take photos. Mr. Mercado and Mr. Jurzykowski said that Business Manager and business owner were in vacation for three weeks and that SWPPP and MRP documents were lacked at managers office. The site was clean and organized. Good housekeeping and management practices were observed at the site. Parts were mainly under roof in two larger buildings. Also, roof was placed in the top of racks as shown in the photos. A follow-up inspection will be conducted in the future to review the SWPPP and MRP documents at the site. Photos are attached.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Citation: 22 CCR 16 66266.130 - California Code of Regulations, Title 22, Chapter 16, Section(s) 66266.130
Violation Description: Failure to properly handle, manage, label, and recycle used oil and fuel filters.
Violation Notes: Returned to compliance on 05/29/2015. OBSERVATION: Generator failed to properly handle, manage, label, and/or recycle used oil and fuel filters. [enter specific observations] Observed deteriorated label on the container of used oil. Operator provided label onsite. Corrected onsite. CORRECTIVE ACTION: Owner/Operator shall immediatly comply with the Title 22 regulations with regards to the proper handling, management, labeling and recycling of used oil and fuel filters. Verify compliance with the CUPA within [# days].

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

City,State,Zip: WILMINGTON, CA
Region: STATE
Facility Status: **Open - Site Assessment**
Status Date: 03/10/2000
Global Id: SL2049U1735
Lead Agency: LOS ANGELES RWQCB (REGION 4)
Lead Agency Case Number: Not reported
Latitude: 33.7782912309056
Longitude: -118.25177192688
Case Type: Cleanup Program Site
Case Worker: TA
Local Agency: Not reported
RB Case Number: 0919
File Location: Regional Board
Potential Media Affected: Aquifer used for drinking water supply, Soil
Potential Contaminants of Concern: Crude Oil, Total Petroleum Hydrocarbons (TPH), Waste Oil / Motor / Hydraulic / Lubricating
Site History: Site status based on the available documents on the record at the Regional Board to date. Background Facts: The Site is approximately 0.5 acres and was structurally undeveloped until the early 1930s. The Site and its surrounding area lie within the Wilmington Oil Field and an oil well (#1516) was onsite between 1932 and 1993, when the well was abandoned by plugging. In the early 1990s, the Site was leased to Oversize Trucking & Transport which used it for truck and boar storage. Exxon Mobil ceased site operations on April 30, 1997 and then sold the property to Mr. Tieman. The Site was sold to R.T. Wolfenden Company in 2005. The Site is currently leased for a trucking company operation yard. LACDPW records show a water well (#342E) located 0.25 miles to the southwest of the Site. Groundwater flow direction is expected to be toward the south (Dominguez Channel). Depth to groundwater is reported as 14 feet bgs (reported in 2004). No groundwater monitoring well currently exists at the Site. Site Investigation Activities: A Phase I Environmental Site

TIEMAN COMPANY (Continued) **S104291937**

Assessment was prepared in November 1992. ADR performed a site assessment in October 1999. Soil borings were advanced at 5 locations at the Site to 20 feet bgs. TRPH was detected in two soil samples at 5 and 10 feet bgs (max. concentration 796 mg/kg). Only one groundwater sample had detection of TRPH (5.3 mg/L). Groundwater samples from the locations with soil TRPH, showed VOC detection (1640 a%g/L Benzene). In May 2004, Shaw advanced 7 soil borings at the Site. Soil samples were collected at 5, 10, and 15 feet bgs. One soil sample (SB-7) from 10 feet bgs had TPH detection of 140 mg/kg. A limited excavation was performed around SB-7 sample location down to 12 feet bgs. A total of 110 cubic yards of soil was excavated. 5 confirmation samples were collected at the excavation bottom and walls. All confirmation samples showed TPH concentration between 64 to 160 mg/kg. The clean part of excavated soil was used as backfill. Discussion and Recommendations: Exxon Mobil has signed the cost recovery agreement on 7/11/08. Have contacted Exxon Mobil project manager (Frank Serrapere) and arranged for a site visit on 8/26/08. The new consultant for Exxon Mobil is ERI. Confirmation soil sampling from various locations (preferably a grid approach) of the Site is necessary to prove that the soil has not been the source for the groundwater contamination with VOCs. A hydraulic connection to an upgradient source of VOCs contamination with groundwater has to be established before an NFA for groundwater is warranted.

Violation Date: 11-02-2018
Citation: 22 CCR 12 66262.11 - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.11
Violation Description: Failure to determine if wastes generated are hazardous waste by using generator knowledge or applying testing method.
Violation Notes: Returned to compliance on 12/27/2018. OBSERVATION: Observed four 55-gallon drums containing unknown liquids located in the parking lot without any label and a proper waste determination has not been made for these drums. CORRECTIVE ACTION: Submit documentation to the CUPA demonstrating that these unlabeled drums have been properly characterized to determine if they are hazardous waste. If determined to be hazardous submit a manifest/receipt documenting proper disposal and a statement demonstrating how you will manage it in the future.

Violation Description:	Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.
Violation Notes:	CalEPA has replaced the existing five (5) federal hazard categories available in CERS used for the completion of chemical inventories as part of the annual hazardous materials business plan submittal with twenty-four (24) new federal hazard categories adopted by the United States Environmental Protection Agency (U.S. EPA) as a result of changes to the Occupational Safety and Health Administration (OSHA)

4 STARS AUTO DISM & SALES (Continued) **S108430886**

Hazard Communication Standard (HCS). Effective December 28, 2017, CalEPA replaced the five federal hazard categories in CERS with 24 new federal hazard categories. The following federal hazard categories are now obsolete fire, reactive, pressure release, acute health, chronic health. A review of your submittal has determined that you DID NOT SELECT ANY OF THE 24 FEDERAL HAZARD CATEGORIES for your chemical inventory. Please review your hazardous material inventory and complete the following steps: FOR A DETAILED LIST OF THE NEW FEDERAL CATEGORIES & ADDITIONAL [Truncated]

Citation:	HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Description:	Failure to establish and electronically submit an adequate emergency response plan and procedures for a release or threatened release of a hazardous material.
Violation Notes:	OBSERVATION: Failure to include adequate emergency response procedures in the business plan for a release or threatened release. You must submit an emergency response/contingency plan for your facility. The Consolidated Emergency Response/Contingency Plan template may be used to satisfy requirements that Hazardous Materials Business Plans (HMBP) contain emergency response plans, procedures, and employee training in the event of a reportable/threatened hazardous material release. CORRECTIVE ACTION: Establish and electronically submit adequate emergency response procedures for a release or threatened release of a hazardous material within 30 days.

Site Name:	Valley Power Services, Inc.
Violation Date:	11-09-2018
Citation:	22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Description:	Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.
Violation Notes:	Returned to compliance on 12/08/2018. OBSERVATION: The following containers of hazardous waste were observed with incomplete or no hazardous waste (HW) labels: - 1 x 250-gallon aboveground storage tank (AST) containing HW used oils located inside the marine shop was observed without a HW label; - 1 x 250-gallon aboveground storage tank (AST) containing HW used antifreeze located inside the marine shop was observed without a HW label; - 1 x 55-gallon drum containing HW MIXED used, crushed, drained oil filters located inside the marine shop was improperly labeled with a non-hazardous waste label; - 1 x 55-gallon drum containing HW waste solids (exhaust dust) located inside the marine shop was observed with an incomplete HW label; - 1 x 55-gallon drum containing HW one used filter with debris located inside the marine shop was observed without a HW label; CORRECTIVE ACTION: Submit photos to the CUPA demonstrating that the container listed above has been properly labeled.
Violation Division:	Los Angeles County Fire Department
Violation Program:	HW
Violation Source:	CERS,
Site ID:	79976
Site Name:	Valley Power Services, Inc.
Violation Date:	11-09-2018
Citation:	40 CFR 1 262.34(d)(5)(iii) - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 262.34(d)(5)(iii)
Violation Description:	Failure to ensure that all employees are thoroughly familiar with proper waste handling and emergency procedures, relevant to their responsibilities during normal facility operations and emergencies.
Violation Notes:	Returned to compliance on 12/08/2018. OBSERVATION: Employee training records for hazardous waste handling were not available on site for review at the time of inspection. CORRECTIVE ACTION: Submit documentation to the CUPA demonstrating that employees have been properly trained.
Violation Division:	Los Angeles County Fire Department
Violation Program:	HW
Violation Source:	CERS,
Site ID:	79976
Site Name:	Valley Power Services, Inc.
Violation Date:	11-09-2018
Citation:	40 CFR 1 265.174 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.174
Violation Description:	Failure to inspect hazardous waste storage areas at least weekly and look for leaking and deteriorating containers.
Violation Notes:	Returned to compliance on 12/08/2018. OBSERVATION: Do not use the secondary containment area as a storage. Observed four 25-gallon USED and EMPTY blue plastic containers located inside the marine shop were stored inside a secondary containment area holding an aboveground storage tank for used antifreeze. CORRECTIVE ACTION: Submit a photo

VALLEY POWER SERVICES, INC. (Continued) **S123534710**

	demonstrating that the secondary containment area is cleaned.
Violation Division:	Los Angeles County Fire Department
Violation Program:	HW
Violation Source:	CERS,

Violation Date:	11-09-2018
Citation:	22 CCR 12 66262.40(a) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.40(a)
Violation Description:	Failure to keep a copy of each properly signed manifest for at least three years from the date the waste was accepted by the initial transporter. The manifest signed at the time the waste was accepted for transport shall be kept until receiving a signed copy from the designated facility which received the waste.
Violation Notes:	Returned to compliance on 12/08/2018. OBSERVATION: Uniform Hazardous Waste Manifests for used oils, used antifreeze, used and drained oil filters, and etc. were not available at the time of inspection. CORRECTIVE ACTION: Locate a copy of all manifests for used oils, used antifreeze, used and drained oil filters, and etc. and submit copies to the CUPA.
Violation Division:	Los Angeles County Fire Department
Violation Program:	HW

Violation Date:	10-28-2020
Citation:	40 CFR 1 265.173 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.173
Violation Description:	Failure to meet the following container management requirements: (a) A container holding hazardous waste must always be closed during storage, except when it is necessary to add or remove waste. (b) A container holding hazardous waste must not be opened, handled, or stored in a manner which may rupture the container or cause it to leak.
Violation Notes:	Returned to compliance on 10/28/2020. OBSERVATION: Hazardous waste container was observed open: 1) 1 x 55 gal drum = used oil filters CORRECTIVE ACTION: Operator affixed lid(s) & corrected violation on site.
Violation Division:	Los Angeles County Fire Department
Violation Program:	HW
Violation Source:	CERS,
Site ID:	79976
Site Name:	Valley Power Services, Inc.
Violation Date:	10-28-2020
Citation:	HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(1)
Violation Description:	Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount

VALLEY POWER SERVICES, INC. (Continued) **S123534710**

greater than one kilogram for more than 90 days.

Violation Notes: Returned to compliance on 11/10/2020. OBSERVATION: Owner/Operator is a small quantity generator and failed to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles), or has failed to comply with the conditions of CCR 66262.34(d) and has stored hazardous waste over 90 days. Following waste in violation: 1) 1 x 55 gal drum = HW waste solid (exhaust dust), accumulation date = 12/19/18 2) 1 x 250 gal AST = used antifreeze, accumulation date = 11/6/19 3) 1 x 250 gal AST = used oil, accumulation date = 10/10/19 CORRECTIVE ACTION: Dispose of hazardous waste that has been stored over the applicable time limit and provide documentation (manifest) that the violation has been corrected.
Violation Division: Los Angeles County Fire Department
Violation Program: HW
Violation Source: CERS,

Site ID: 79976
Site Name: Valley Power Services, Inc.
Violation Date: 11-09-2018
Citation: 22 CCR 11 66261.7 - California Code of Regulations, Title 22, Chapter 11, Section(s) 66261.7
Violation Description: Failure to manage empty containers greater than 5 gallons in capacity that previously held a hazardous material/waste in accordance with 22 CCR 11 66261.7 including but not limited to the following: (e)(2)By reclaiming its scrap value onsite or shipping the container or inner liner to a person who reclaims its scrap value; or (3) By reconditioning or re manufacturing the container or inner liner onsite for subsequent reuse, or shipping the container or inner liner to a person who reconditions or re-manufactures the container or inner liner; or (4) By shipping the container or inner liner to a supplier or to another intermediate collection location for accumulation prior to managing the container or inner liner pursuant to subsections (e)(2) or (e)(3) of 22 CCR 11 66261.7; or (i) By shipping the container or inner liner back to the supplier for the purpose of being refilled. (f) A container or an inner liner removed from a container larger than five gallons in capacity which is managed pursuant to subsection (e) of 22 CCR 11 66261.7 shall be marked with the date it has been emptied and shall be managed within one year of being emptied.
Violation Notes: Returned to compliance on 12/08/2018. OBSERVATION: Four 25-gallon USED and EMPTY blue plastic containers located inside the marine shop by the aboveground storage tank for used antifreeze were observed without a proper empty label. CORRECTIVE ACTION: Submit photos/documentation to this department demonstrating that the empty containers listed above have been marked with the date they were emptied and are being properly managed pursuant to 22 CCR 11 66261.7.

Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Site ID:	67490
Site Name:	SHORTY BODY SHOP
Violation Date:	08-11-2018
Citation:	22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Description:	Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.
Violation Notes:	Returned to compliance on 08/11/2018. OBSERVATION: Observed 55-gallon drums of waste paint/solvent, used oil, and waste paint booth filter with faded or no hazardous waste label. These drums were located in front of and inside the paint booth. CORRECTIVE ACTION: Submit photos to the CUPA demonstrating that the container listed above has been properly labeled. Opeator labeled the containers at the time of inspection.
Violation Division:	Los Angeles County Fire Department

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

CERS ID: 10865707
CERS Description: Chemical Storage Facilities

Violations:
Site ID: 572929
Site Name: rivera auto repair
Violation Date: 02-22-2021
Citation: HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(1)
Violation Description: Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.
Violation Notes: OBSERVATION: Owner/Operator is a small quantity generator and failed to send hazardous waste offsite for treatment, storage, or disposal

RIVERA AUTO REPAIR (Continued) **S124899104**

within 180 days (or 270 days if waste is transported over 200 miles), or has failed to comply with the conditions of CCR 66262.34(d) and has stored hazardous waste over 90 days. The drums containing waste oil were not labeled and the facilities last waste disposal record was dated 6-18-20, which is past the allotted 180 time period. 2 x 55G drums Waste Oil CORRECTIVE ACTION: Dispose of hazardous waste that has been stored over the applicable time limit and provide documentation that the violation has been corrected.

Violation Division: Los Angeles County Fire Department
Violation Program: HW
Violation Source: CERS,

Site ID: 572929
Site Name: rivera auto repair
Violation Date: 03-03-2022
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Description: Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.
Violation Notes: Returned to compliance on 06/23/2022. OBSERVATION: Provide labels to the 1 x 55 gallon drum of use oil filters and 1 x 30 gallon drum of waste oil sludge (liquid + solids mix). CORRECTIVE ACTION: Submit a photo to the CUPA demonstrating that the container listed above has been properly labeled or manifest that items have been removed from the facility.
Violation Division: Los Angeles County Fire Department

Eval Source: CERS,

Eval General Type: Compliance Evaluation Inspection

S & W DIESEL (Continued) **S123533548**

Eval Date: 08-19-2016
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: Permission to inspect granted by, Scott Masi, General Manager. As per our discussion on site, Mr. Masi, was informed that State law mandates all regulated businesses electronically submit their Hazardous Materials Business Plan (HMBP) via the California Environmental Reporting System (CERS). Electronic submittal shall be completed within the next 30 days. In addition, HMBP s need to be reviewed and certified annually, between January 1st and March 1st, for complete and accurate information. It is also mandatory to submit any substantial change in operation within 30 days.
Eval Division: Los Angeles City Fire Department
Eval Program: HMRRP
Eval Source: CERS,

Eval General Type: Other/Unknown
Eval Date: 08-20-2020
Violations Found: Yes
Eval Type: Other, not routine, done by local agency
Eval Notes: Second Notice of Violation Inspection Report Documents uploaded to CERS were reviewed. Indicated previously in this report are violations, originally issued on 7/15/2020 that have not been resolved by the original COMPLY BY date. These violations have been re-issued and the violation class upgraded. Review and correct all violations indicated in this report, on or before the new COMPLY BY date associated with each violation. Failure to resolve these violations will result in this facility being subject to formal enforcement.
NOTE: The LAMC, Sections (L.A.M.C. SECTIONS 57.105.1.4; 57.120.3; 57.121.2 and 57.121.2.1.) requires businesses that store, use or handle hazardous materials in the City of Los Angeles to obtain a Consolidated Permit from the Los Angeles Fire Department CUPA **** Annual submission of a Hazardous Materials Business Plan into California Environmental Reporting System (CERS) is required between January 1 and March 1 of every year. Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:
California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Treat To Water:	Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity:	Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Citation:	HSC 6.95 25507 - California Health and Safety Code, Chapter 6.95, Section(s) 25507

MARINE ENGINE SERVICE (Continued) **S123500779**

Violation Description: Failure to adequately establish and implement a business plan when storing/handling a hazardous material at or above reportable quantities.
Violation Notes: Returned to compliance on 06/15/2020.
Violation Division: Los Angeles City Fire Department
Violation Program: HMRRP
Violation Source: CERS,

Site ID: 132905
Site Name: MARINE ENGINE SERVICE
Violation Date: 01-09-2017
Citation: 19 CCR 6.95 25508(a)(1) - California Code of Regulations, Title 19, Chapter 6.95, Section(s) 25508(a)(1)
Violation Description: Failure to complete and electronically submit the Business Activities Page and/or Business Owner Operator Identification Page.
Violation Notes: Returned to compliance on 06/15/2020.
Violation Division: Los Angeles City Fire Department
Violation Program: HMRRP
Violation Source: CERS,

Site ID: 132905
Site Name: MARINE ENGINE SERVICE
Violation Date: 07-09-2020
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Description: Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.
Violation Notes: Returned to compliance on 07/09/2020. OBSERVATION: Hazardous waste were observed without a hazardous waste label: 1) 1 x 300 gal tote = used oil 2) 1 x 55 gal drum = used filters CORRECTIVE ACTION: Operator affixed labels and corrected on site.
Violation Division: Los Angeles County Fire Department
Violation Program: HW
Violation Source: CERS,

Site ID: 132905
Site Name: MARINE ENGINE SERVICE
Violation Date: 05-08-2017
Citation: 22 CCR 12 66262.40(a) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.40(a)
Violation Description: Failure to keep a copy of each properly signed manifest for at least three years from the date the waste was accepted by the initial transporter. The manifest signed at the time the waste was accepted for transport shall be kept until receiving a signed copy from the designated facility which received the waste.
Violation Notes: Returned to compliance on 05/09/2017. OBSERVATION: Copies of hazardous waste disposal records for 2015-2017 were not found on site. Hazardous waste generators shall retain copies of all manifests signed off by the disposal facility and all receipts used in a consolidated manifesting procedure on site for three years and have them readily available for review. Observed no disposal documents from 2017 during the inspection. CORRECTIVE ACTION: Immediately locate a copy of all manifests and receipts for the last three years, maintain them on site, and submit copies to the CUPA by 6/8/17.

Treat To Water:	Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity:	Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and

NU WAY RECYCLING (Continued) **S106103295**

disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Violation Source: SMARTS,

Evaluation:
Eval General Type: Compliance Evaluation Inspection
Eval Date: 11-08-2019
Violations Found: No
Eval Type: Industrial Storm Water Compliance Evaluation
Eval Notes: The inspection included the review of the facility s storm water pollution prevention plan (SWPPP) and inspection of the facility. While reviewing the SWPPP documents and walking through the facility, Staff observed the following: SWPPP Deficiencies: Signatory page on page 8 of the SWPPP requires signature of the President and upload to SMARTS. A valid reason for no sampling was conducted during the 2018-2019 year needs to be indicated in the Annual Report for 2018-2019. Facility Findings: Oil leaks were observed on pavement from equipment throughout the project site with absorbent that needs to be swept up (Photo #4). Oil leak with no absorbent that needs to be cleaned up were observed (Photo #6). Lead acid batteries were not properly managed/stored (Photo #7). Housekeeping issues were observed (stained oily open containers outdoors uncovered) (Photo #4). Staff discussed the inspection findings with Marvin Saadh and he stated that he would have the items completed. Staff followed up via email on November 13, 2019 to see if the identified deficiencies had been corrected. On December 4, 2019, Mr. Saadh provided pictures of the corrected Facility Finding items. Staff followed up regarding the SWPPP items on December 19, 2019.

Enf Action Division: Water Boards
Enf Action Program: INDSTW
Enf Action Source: SMARTS,

Site ID: 538136
Site Name: Nu Way Auto Dismantling Inc
Site Address: 1022 E ANAHEIM ST
Site City: WILMINGTON
Site Zip: 90744
Enf Action Date: 11-29-2017
Enf Action Type: Notice of Violation
Enf Action Description: Notice of Violation
Enf Action Notes: NOV Issued for failure to develop a complete SWPPP in accordance with the Industrial Stormwater General Permit Order No. 2014-0057-DWQ.
Enf Action Division: Water Boards
Enf Action Program: INDSTW
Enf Action Source: SMARTS,

Violation Source:	SMARTS,

Site ID:	31023
Site Name:	FORD ONLY, INC.
Violation Date:	08-10-2018
Citation:	40 CFR 1 265.173 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.173
Violation Description:	Failure to meet the following container management requirements: (a) A container holding hazardous waste must always be closed during storage, except when it is necessary to add or remove waste. (b) A container holding hazardous waste must not be opened, handled, or stored in a manner which may rupture the container or cause it to leak.

FORD ONLY, INC. (Continued) **S111214912**

Violation Notes:	Returned to compliance on 08/10/2018. OBSERVATION: The following drums containing hazardous wastes located in the hazardous waste storage area were observed open. - 2 x 55-gallon drums containing HW used oils were observed open - COS; - 1 x 55-gallon drum containing HW used antifreeze was observed open - COS CORRECTIVE ACTION: Submit photos to the CUPA demonstrating that the container listed above has been properly closed. Operator was able to correct the above violation on site during the inspection.
Violation Division:	Los Angeles County Fire Department
Violation Program:	HW
Violation Source:	CERS,
Site ID:	31023
Site Name:	FORD ONLY, INC.
Violation Date:	05-15-2014
Citation:	40 CFR 1 265.35 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.35
Violation Description:	Failure to maintain aisle space to allow the unobstructed movement of personnel, fire protection, spill control equipment, and decontamination equipment to any area of facility operation in an emergency, unless it can be demonstrated to the Department that aisle space is not needed for any of these purposes.
Violation Notes:	Returned to compliance on 06/05/2014. OBSERVATION: Generator failed to maintain aisle space to allow the unobstructed movement of personnel, fire protection, spill control equipment, and decontamination equipment to all areas of facility operation in an emergency and/or failed to demonstrate to the CUPA that aisle space is not needed for any of these purposes. Engines/vehicle parts were blocking hazardous waste containers. CORRECTIVE ACTION: Owner/Operator shall immediately maintain aisle space to allow the unobstructed movement of personnel, fire protection, spill control equipment, and decontamination equipment to any area of facility operation in an emergency or demonstrate to the CUPA that aisle space is not needed for any of these purposes.

Waste2:	Not reported
Primary Waste Type:	Not reported
Secondary Waste:	Not reported
Secondary Waste Type:	Not reported
Design Flow:	0
Baseline Flow:	0
Reclamation:	No reclamation requirements associated with this facility.
POTW:	The facility is not a POTW.
Treat To Water:	Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity:	Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Violation Date:	09-28-2018
Citation:	HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(1)
Violation Description:	Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.
Violation Notes:	Returned to compliance on 10/25/2018. OBSERVATION: Observed one 55-gallon drum of waste solvent accumulating for more than 180 days at the hazardous waste storage area and a manifest/receipt demonstrating disposal within the past 180 days was not available. CORRECTIVE ACTION: Dispose of the waste solvent and submit a copy of the manifest/receipt to the CUPA.

Eval Notes: On site for routine hazardous materials and business emergency plan inspection. Consent to enter and inspect was given by DAVID MIKHAEL. Observed the facility and inspected hazardous materials storage. Annual employee safety training records were not maintained. Facility has also not electronically disclosed the onsite hazardous materials inventory or submitted a business emergency plan in California Environmental Reporting System (CERS). Please go to https://cersbusiness2.calepa.ca.gov to complete a chemical inventory disclosure and business emergency plan. The facility is responsible for identifying all hazardous materials, to include hazardous wastes, which are above disclosure thresholds. If there is a change in the type or amount of chemicals that are maintained on site, please submit revised documents (electronically)within 30 days of the change.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Eval Type: Routine done by local agency
Eval Notes: New Business: Reviewed requirements with Patty Tellez, the facility Manager. Issued notice to obtain and post current CUPA and establish and maintain HMBP.

Eval Division: Los Angeles City Fire Department
Eval Program: HMRRP
Eval Source: CERS,

Eval General Type: Compliance Evaluation Inspection
Eval Date: 10-27-2020
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: Rolando Amador, president

Eval Division: Los Angeles County Fire Department
Eval Program: HW
Eval Source: CERS,

Eval General Type: Other/Unknown
Eval Date: 01-26-2021
Violations Found: Yes
Eval Type: Other, not routine, done by local agency
Eval Notes: Second Notice of Violation Inspection Report Documents uploaded to CERS were reviewed. Indicated previously in this report are violations, originally issued on 12/17/2020, that have not been resolved by the original COMPLY BY date. These violations have been re-issued and the violation class upgraded. Review and correct all violations indicated in this report, on or before the new COMPLY BY date associated with each violation. Failure to resolve these violations will result in this facility being subject to formal enforcement. NOTE: The LAMC, Sections (L.A.M.C. SECTIONS 57.105.1.4; 57.120.3; 57.121.2 and 57.121.2.1.) requires businesses that store, use or handle hazardous materials in the City of Los Angeles to obtain a Consolidated Permit from the Los Angeles Fire Department CUPA **** Annual submission of a Hazardous Materials Business Plan into California Environmental Reporting System (CERS) is required between January 1 and March 1 of every year. Per L.A.M.C. [Truncated]

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

CA BOND EXP. PLAN:
Reponsible Party: BACKLOG SITE CLEANUP PLANNING REPORT
Project Revenue Source Company: Not reported
Project Revenue Source Addr: Not reported
Project Revenue Source City,St,Zip: Not reported
Project Revenue Source Desc: This site is projected for cleanup funded by responsible parties with reimbursement to DHS for staff and related costs. However, if the responsible parties fail to provide funding for cleanup another source of funds will need to be established.

KOPPERS - LOS ANGELES (Continued) **S100833512**

Site Description: Koppers, Los Angeles (Wilmington), is a former wood treatment facility at the Port of Los Angeles. It operated from 1940 to 1972. Wastes were discharged to a 3,000 cubic yard sump.
Hazardous Waste Desc: Hazardous substances have been detected at elevated levels and include pentachlorophenol (PCP), chromium, arsenic, and polynuclear aromatic hydrocarbons (PNAs).
Threat To Public Health & Env: The site is paved and is located in an industrial area. There is a potential for ground water contamination and direct exposure if the site cover is not maintained.
Site Activity Status: The site was graded and paved prior to 1981. There has been no recent activity.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Completed Info:
Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Voluntary Cleanup Agreement Termination Notification
Completed Date: 02/01/2007
Comments: VCA terminated due to changes requested by PRP. The old VCA was replaced by new VCA 5/17/07.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Preliminary Endangerment Assessment Report
Completed Date: 03/28/2008
Comments: RP revised document Site Characterization Report, Final, and consultant SGI's tabulated responses to comments, address DTSC comments. Additional required characterization work will be addressed in the Supplemental Site Characterization Report.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Risk Assessment Report
Completed Date: 02/29/2008
Comments: Not reported

AVALON TRIANGLE (Continued) **S110275284**

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Site Characterization Workplan
Completed Date: 02/26/2008
Comments: RP implemented the draft workplan .DTSC comments will be addressed in the Supplemental Site Characterization Report, as well as in the pending Removal Action Workplan.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Removal Action Workplan
Completed Date: 02/05/2009
Comments: Not reported

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Tank Removal Report
Completed Date: 02/26/2008
Comments: Tank removal has been completed. DTSC provided comments per letter dated 2/26/2008. RP will address DTSC's comments in the removal action workplan that is being prepared and is due to be submitted by 3/15/2008.

Completed Area Name: OU2-Groundwater
Completed Sub Area Name: Not reported
Completed Document Type: Monitoring Report
Completed Date: 04/13/2011
Comments: RP consultant has addressed comments made by DTSC on prior quarterly reports. No comments were made, no revisions requested on this report. The report is accepted as submitted.

Completed Area Name: OU2-Groundwater
Completed Sub Area Name: Not reported
Completed Document Type: Monitoring Report
Completed Date: 01/06/2012
Comments: Approved without revision.

Completed Area Name: OU2-Groundwater
Completed Sub Area Name: Not reported
Completed Document Type: Monitoring Plan
Completed Date: 04/21/2011
Comments: The Groundwater Monitoring Program Sampling and Analysis Plan was prepared by the RP consultant in response to a number of comments on the 1st and 2nd quarter 2010 groundwater monitoring reports for the facility. DTSC requested that this SAP be finalized as a stand alone document since there was no prior SAP under which to sample and analyze groundwater for the site.

Completed Area Name: OU2-Groundwater
Completed Sub Area Name: Not reported
Completed Document Type: Monitoring Report
Completed Date: 11/08/2010
Comments: Transmittal memo for DTSC comments and approval of Avalon Triangle Q1 and Q2 2010 Groundwater Monitoring Reports states that reports are adequate as received but comments should be addressed during Q3 2010 and subsequent monitoring and reporting events.

Completed Info:

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Voluntary Cleanup Agreement Termination Notification
Completed Date: 02/01/2007
Comments: VCA terminated due to changes requested by PRP. The old VCA was replaced by new VCA 5/17/07.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Preliminary Endangerment Assessment Report
Completed Date: 03/28/2008
Comments: RP revised document Site Characterization Report, Final, and consultant SGI's tabulated responses to comments, address DTSC comments. Additional required characterization work will be addressed in the Supplemental Site Characterization Report.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Risk Assessment Report
Completed Date: 02/29/2008
Comments: Not reported

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Site Characterization Workplan
Completed Date: 02/26/2008
Comments: RP implemented the draft workplan .DTSC comments will be addressed in the Supplemental Site Characterization Report, as well as in the pending Removal Action Workplan.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Removal Action Workplan
Completed Date: 02/05/2009
Comments: Not reported

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Tank Removal Report
Completed Date: 02/26/2008
Comments: Tank removal has been completed. DTSC provided comments per letter dated 2/26/2008. RP will address DTSC's comments in the removal action workplan that is being prepared and is due to be submitted by 3/15/2008.

Completed Area Name: OU2-Groundwater

AVALON TRIANGLE (Continued) **S110275284**

Completed Sub Area Name: Not reported
Completed Document Type: Monitoring Report
Completed Date: 04/13/2011
Comments: RP consultant has addressed comments made by DTSC on prior quarterly reports. No comments were made, no revisions requested on this report. The report is accepted as submitted.

Completed Area Name: OU2-Groundwater
Completed Sub Area Name: Not reported
Completed Document Type: Monitoring Report
Completed Date: 01/06/2012
Comments: Approved without revision.

Completed Area Name: OU2-Groundwater
Completed Sub Area Name: Not reported
Completed Document Type: Monitoring Plan
Completed Date: 04/21/2011
Comments: The Groundwater Monitoring Program Sampling and Analysis Plan was prepared by the RP consultant in response to a number of comments on the 1st and 2nd quarter 2010 groundwater monitoring reports for the facility. DTSC requested that this SAP be finalized as a stand alone document since there was no prior SAP under which to sample and analyze groundwater for the site.

Completed Area Name: OU2-Groundwater
Completed Sub Area Name: Not reported
Completed Document Type: Monitoring Report
Completed Date: 11/08/2010
Comments: Transmittal memo for DTSC comments and approval of Avalon Triangle Q1 and Q2 2010 Groundwater Monitoring Reports states that reports are adequate as received but comments should be addressed during Q3 2010 and subsequent monitoring and reporting events.

Completed Area Name: OU2-Groundwater
Completed Sub Area Name: Not reported
Completed Document Type: Monitoring Report
Completed Date: 04/23/2012
Comments: Quarter 2, 3, and 4 2011 quarterly monitoring reports were received on 4/09/2012, were reviewed by DTSC, and were deemed generally acceptable, and approved with comments to be addressed in subsequent monitoring reports.

Completed Area Name: OU2-Groundwater
Completed Sub Area Name: Not reported
Completed Document Type: Monitoring Report
Completed Date: 04/23/2012
Comments: Quarter 2, 3, and 4 2011 quarterly monitoring reports were received on 4/09/2012, were reviewed by DTSC, and were deemed generally acceptable, and approved with comments to be addressed in subsequent monitoring reports.

Completed Area Name: OU2-Groundwater
Completed Sub Area Name: Not reported
Completed Document Type: Monitoring Report
Completed Date: 04/23/2012
Comments: Quarter 2, 3, and 4 2011 quarterly monitoring reports were received on 4/09/2012, were reviewed by DTSC, and were deemed generally

AVALON TRIANGLE (Continued) **S110275284**

acceptable, and approved with comments to be addressed in subsequent monitoring reports.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Pilot Study/Treatability Workplan
Completed Date: 06/29/2012
Comments: The RP and consultant submitted a final signed copy of the workplan that addressed all remaining DTSC comments, and the Workplan is approved.

Completed Area Name: OU3- Soil Phase II Part I Widening of Harry Bridges Blvd.
Completed Sub Area Name: Not reported
Completed Document Type: Removal Action Completion Report
Completed Date: 06/29/2011
Comments: DTSC approves the RACR without modification.

Completed Area Name: OU2-Groundwater
Completed Sub Area Name: Not reported
Completed Document Type: Monitoring Report
Completed Date: 09/14/2012
Comments: Task complete, accepted, no revisions required.

Violation Description: Failure of the double-walled pressurized piping to be continuously

JBA COMPANY (Continued) **S123500245**

monitored with a system that activates an audible and visual alarm or stops flow at the dispenser when a leak is detected.

Violation Notes: Returned to compliance on 09/25/2020. OBSERVATION: The Monthly Designated Operator Inspection reports and attached Alarm History Reports beginning in November 2019 through May 2020 noted repeated Sensor Out Alarms in the L-4 (UDC #1) and/or L-5 (UDC #2) Veeder Root 208 Sensors. The L-4 & L-5 Sensors were in Sensor Out Alarm on this date. A Daily Visual Inspection Log for the 2 UDC's beginning in May 2020 was also observed on site. Fleming Env indicates that they ran new Belding wire from Sumps to Building Panel but that did not fix the issue. Fleming indicated that they were unable to fish new Belding wire from Sumps to UDC's to further troubleshoot. CORRECTIVE ACTION: Advised Maintenance Manager Bert Valdez that the repeated failure of the L-4 & L-5 Veeder Root 208 Sensors to properly monitor the UDC's is a Significant Violation that threatens to cause a release in the event of a leak within the UDC. This facility has 7 days to ensure that the UDC's are properly monitored. Failure to ensure the proper [Truncated]

Violation Date: 02-12-2020
Citation: 23 CCR 16 2716(e) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2716(e)

Violation Description: For designated operator (DO) monthly inspections conducted before October 1, 2018, failure to comply with one or more of the following requirements: Be performed by an ICC certified DO. Inspect monthly alarm history report, check that alarms are documented and responded to appropriately, and attach a copy. Inspect for the presence of liquid/debris in spill containers. Inspect for the presence of liquid/debris in under dispenser containment (UDC) and ensure that the monitoring equipment is positioned correctly. Inspect for liquid or debris in containment sumps where an alarm occurred with no service visit. Check that all testing and maintenance has been completed and documented. Verify that all facility employees have been trained in accordance with 23 CCR 2715(c). For designated operator (DO) 30 day inspections conducted on and after October 1, 2018, failure to conduct the designated UST operator visual inspection at least once every 30 days.

Violation Notes: Returned to compliance on 09/21/2020. Observation: Owner-Operator failed to maintain on site the Monthly DO reports for January, February and March, 2019. The Owner-Operator failed to list on the Monthly DO Reports for April and September 2019 the actions taken or to be taken to address compliance issues noted by the DO. The Owner-Operator failed to sign the Monthly DO Reports for April 2019. Owner-Operator was previously cited for same and has failed to comply. Violation is now elevated to Class II. Beginning 10/2018, Owner-Operators are required to: 1. Review each Monthly DO report within 48 hours of receiving the report. 2. Sign every report (lower signature box) indicating that they reviewed the report - REGARDLESS of whether there were any alarms. 3. List on the report the actions taken or to be taken by the Owner-Operator to address alarms or any other compliance issues noted. 4. Attach written documentation of the appropriate services required to clear/address the alarms and/or compliance [Truncated]

Eval Notes: On 11-05-14, during a test of the waste oil annular sensor, oil was discovered in the annular space. After removal of the waste oil from the annular space by AW associates, a retest found that approx. 1 of oil had returned into the space. Since the annular space passed vacuum test during Secondary Containment Testing, AW Associates concludes there is a probable leak in the primary tank. A Notice Of Violation was issued for the code sections noted below and this facility was directed to discontinue the use of the Waste Oil Tank until the cause of the leak is determined and permitted corrections have been implemented witnessed by an LAFD Inspector. Upon my reinspection of this facility on 03-04-15, no permit has been pulled and the tank has not been repaired. Obtain a permit for the repair and/or removal of the waste oil tank and any other tanks that are known or suspected to be leaking FORTHWITH LOS ANGELES MUNICIPAL CODE (LAMC): 57.109.5. Eval Notes: Completion of Facility Inspection Report, documentation, procedures and/or CERS review for UST Facility Inspection at underground storage tank facility. See 10/07/2021 Report and time and activity for inspection/facility details/comments and CERS and/or documentation review and report that were completed on this date. Document review of 07/12/2020 CERS ID 10251835 UST Submittal on this date and verified the following corrections are required. 1. OBSERVATION: The UST Response Plan in CERS mistakenly lists Bert Valdez as a "Responsible

JBA COMPANY (Continued) **S123500245**

Person". Mr Valdez no longer works for JBA Trucking and must be removed from the UST Response Plan. CORRECTIVE ACTION: Ensure that new Shop Supervisor Ruben Hernandez is added to the UST Response Plan and submitted into CERS. Spoke to Environmental Consultant Klayton Tang in evening of 10/07/2021 to advise. Mr Tang made the correction and emailed this inspector to advise of submittal of updated Response Plan. Review of 10/07/2021 [Truncated]

Eval Notes: Emailed Faith Rummel and Bert Valdez to advise of required updates to the Tank Monitoring Plan and UST Site Map in CERS. The Repair of the failure to properly monitor the UDC's was completed on 09-25-2020 by Randy Littlefield and Sam Gaines with Fleming. Fleming installed Franklin Fueling S-404 Stand Alone Liquid Sensors in both UDC's. Confirmed functionality and shutdown of each sensor when hydro tested.to indicate that the Franklin S404 Sensors are now monitoring the UDC's and remove the VR-208's. Both the Tank Monitoring Plan and UST Site Map must be updated in CERS to indicate that the Franklin S404 Sensors are now monitoring the UDC's and remove the VR-208's. Also advised both that a permit for this repair must be requested from LAFD Plan Check within 30 days. Requested that they email me when the CERS Updates have been made and when the Permit has been REQUESTED (not granted).

Eval Notes: Review of 10/5/2020 UST Submittal for CERS ID 10251835 identified the following errors and the corrections that are required: Tank Monitoring Plan mistakenly indicates the following: 1. The "Continuous Electronic Tank Monitoring" is performed by "Leak Sensor Manufacturer" Franklin and the "Leak Sensor Model #" is S404. The Tank Annular is monitored by a Veeder Root 420 sensor. CORRECTIVE ACTION: Update Tank Monitoring Plan, "Continuous Electronic Tank Monitoring" to indicate the "Leak Sensor Manufacturer" is Franklin and the "Leak Sensor Model #" is S-404. 2. "YES" to "Under Dispenser Containment (UDC) Monitoring" "Detection of Leak into UDC Triggers Audible and Visual Alarms". The Franklin S-404 dispensing cut off sensors are standalone sensors that do NOT communicate with the Veeder Root Monitoring Panel. CORRECTIVE ACTION: Update Tank Monitoring Plan in CERS to indicate "NO" to "Under Dispenser Containment (UDC) Monitoring" "Detection of Leak into UDC [Truncated]

Citation: HSC 6.7 25290.1(c)(3),25290.2(c)(3) - California Health and Safety Code, Chapter 6.7, Section(s) 25290.1(c)(3),25290.2(c)(3)
Violation Description: Failure to keep water out of the secondary containment of UST systems installed on or after July 1, 2003.
Violation Notes: Returned to compliance on 06/03/2019. More recent inspection completed. Newer inspection report and violations supersede previous violations. Previous violations were abated this date
Violation Division: Los Angeles City Fire Department
Violation Program: UST
Violation Source: CERS,

Site ID: 54512
Site Name: Pac Anchor Transportation
Violation Date: 11-04-2021
Citation: 23 CCR 16 2641(h) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2641(h)
Violation Description: Failure to have an approved UST Monitoring Plan.
Violation Notes: OBSERVATION: Tank Monitoring Plan in CERS indicates "NO" to Mechanical Line Leak Detector Performs 3 GPH Leak Test and fails to indicate to the "MLLD Manufacturer" or "MLLD Model #". This system has a Red Jacket FX1VD Mechanical Line Leak Detector installed in the Diesel Turbine Sump. CORRECTIVE ACTION: Update Tank Monitoring Plan in CERS to indicate "YES" to Mechanical Line Leak Detector Performs 3 GPH Leak Test and indicate that the "MLLD Manufacturer" is "Red Jacket" and that the "MLLD Model #" is Red Jacket FX1VD. Email this Inspector to advise when CERS update is completed.

Violation Program: UST
Violation Source: CERS,

Site ID: 54512
Site Name: Pac Anchor Transportation
Violation Date: 11-04-2021
Citation: 23 CCR 16 2712(b)(2) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2712(b)(2)
Violation Description: Failure to maintain monitoring records for release detection and/or maintain records of appropriate follow-up actions.
Violation Notes: Returned to compliance on 11/04/2021. OBSERVATION: The Veeder Root Alarm History Report indicates a Fuel Alarm in the L-1 Diesel STP Sump on 12/28/2020. However, on the 01/18/2021 Monthly Designated Operators (DO) Report, the owner-operator failed to ensure that written documentation (Work Order or Alarm Log) was attached to the report detailing the appropriate action taken in response to the L-1 Diesel STP Fuel Alarm and did not list the actions taken under Section V of the Report. Owner-Operator was previously cited for same and has repeated the violation. Violation is elevated to Class II. CORRECTIVE ACTION: Update the January 2021 Monthly Designated Operators (DO) report FORTHWITH to indicate the actions taken under Section V of the Report. Confirmed on site that Justin Lopez updated the 01/18/2021 DO report. Corrected on Site. CORRECTIVE ACTION: Update the January 2021 Monthly Designated Operators (DO) report FORTHWITH to indicate the actions taken under Section V of the Report. Confirmed on [Truncated]

Citation: 23 CCR 16 2636(f)(1) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2636(f)(1)
Violation Description: Failure of the leak detection equipment to have an audible and visual alarm as required.
Violation Notes: Returned to compliance on 11/07/2019. OBSERVATION: The VR-208 Sensor in the Vent Box failed annual testing by John Babcok with PCET. CORRECTIVE ACTION: Inspector Mungaray granted Field Permit #SRDUQWG0J for the Like for Like replacement of the VR-208 Sensor in the Vent Box. Functionality of the VR-208 Sensor was verified following replacement. Corrected on Site. Advised Owner/Operator that an invoice for One Hour of City time will be mailed to facility shortly and that,

Violation Source: CERS,

Site ID: 54512
Site Name: Pac Anchor Transportation
Violation Date: 11-07-2018
Citation: 23 CCR 16 2716(e) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2716(e)
Violation Description: For designated operator (DO) monthly inspections conducted before October 1, 2018, failure to comply with one or more of the following requirements: Be performed by an ICC certified DO. Inspect monthly alarm history report, check that alarms are documented and responded to appropriately, and attach a copy. Inspect for the presence of liquid/debris in spill containers. Inspect for the presence of liquid/debris in under dispenser containment (UDC) and ensure that the monitoring equipment is positioned correctly. Inspect for liquid or debris in containment sumps where an alarm occurred with no service visit. Check that all testing and maintenance has been completed and documented. Verify that all facility employees have been trained in accordance with 23 CCR 2715(c). For designated operator (DO) 30 day inspections conducted on and after October 1, 2018, failure to conduct the designated UST operator visual inspection at least once every 30 days.
Violation Notes: Returned to compliance on 06/18/2019. OBSERVATION: Facility did not comply with one or more of the following DO monthly inspection requirements: Performed by an ICC certified DO; Inspect monthly alarm history report, check that alarms are documented and responded to appropriately, and attach a copy; Inspect for the presence of liquid/debris in spill containers; Inspect for the presence of liquid/debris in under dispenser containment (UDC) and ensure that the monitoring equipment is positioned correctly; Inspect for liquid or debris in containment sumps where an alarm occurred with no service visit; Check that all testing and maintenance has been completed and documented; Verify that all facility employees have been trained in accordance with 23 CCR 2715(f)(c). DO inspections conducted after 9/30/2018 must be every 30 days and in accordance with sections 2716(a)-(e). CORRECTIVE ACTION: Ensure that DO is complying with all the requirements noted above. Submit copy of compliant DO inspection record.

Eval Notes: LAFD Inspector Mungaray on site this date to conduct routine inspection of underground storage tank facility. Monitoring System components were observed and verified this date. Consent to enter, inspect and take photographs was given on this date by Accounting Manager Justin Lopez. No signature was obtained on this date as a precaution due to the continuing COVID-19 Pandemic. Unable to complete inspection on this date. Inspection delayed due to testing begun 1/2 hour late and issue with fuel system electronic controller timing out seconds after authorizing. Truck Yard personnel was required to reauthorize each time. The issue rendered the Mechanical leak detector untestable. Eventually resolved. Monitoring certification was performed by Aaron Celiceo with PCET. Tester provided the following certifications: ICC: 8035367 exp: 12/06/2021 VR: A21831 exp:
