

NOTICE OF INTENT TO POST THE NOTICE OF AVAILABILITY FOR THE
SYWEST INDUSTRIAL BUILDING PROJECT (Case No. 17-121-DP)

This notice is to inform the public and interested agencies that in accordance with the California Environmental Quality Act (CEQA), the City of Goleta is posting the Notice of Availability (NOA) for the Sywest Industrial Building project (17-121-DP) to solicit public comments on the adequacy of the proposed Draft Environmental Impact Report (DEIR) prepared for the Sywest Industrial Building (City of Goleta Case No. 17-121-DP).

Project/Location: 907 South Kellogg Avenue Industrial Warehouse Project located at the south end of South Kellogg Avenue adjacent to SR-217

Project Description: The project involves the construction of a 70,594 square foot industrial warehouse building with 60,939 square feet of landscaping, 101 parking spaces, six loading zones, and 10 bicycle parking spaces. The building height will be 35 feet from finished grade. Development of the proposed project would require approximately 600 cubic yards (CY) of soil cut and approximately 38,000 CY of soil fill. Between four to six feet of fill would be used to elevate the proposed building above the 100-year floodplain elevation. In order to elevate the building on fill, the project would require 37,400 CY feet of soil to be imported to the site.

Also proposed is a reduction to the Streamside Protection Area Buffer from 100' to 25'. The project includes the demolition of all existing structures on the site, including a concessions building, movie screen, ticket booths, projector building, pad mounted transformer, storm drain, and two dewatering wells.

Document Availability: The DEIR will be available for review at the following locations beginning on Thursday, October 10, 2024:

- City of Goleta website: <https://www.cityofgoleta.org/your-city/planning-and-environmental-review/ceqa-review/sywest>
