Subject: **Phase I Environmental Site Assessment**
5401 and 5407 Wilshire Boulevard, Los Angeles, California

Dear Mr. Marks:

This report presents the findings of a Phase I Environmental Site Assessment (ESA) completed by Rincon Consultants, Inc. for the property located at 5401 and 5407 Wilshire Boulevard in Los Angeles, California. The Phase I ESA was performed in accordance with our proposal and contract dated November 13, 2018.

The accompanying report presents our findings and provides an opinion regarding the presence of recognized environmental conditions. Our work program for this project, as referenced in our contract, is intended to meet the guidelines outlined in the American Society for Testing and Materials (ASTM), Standard Practice for Environmental Site Assessments: *Phase I Environmental Site Assessment Process* (ASTM Standard E-1527-13). Our scope of services, pursuant to ASTM practice, did not include any inquiries with respect to asbestos, lead-based paint, lead in drinking water, wetlands, regulatory compliance, cultural and historic resources, industrial hygiene, health and safety, ecological resources, endangered species, vapor intrusion or other indoor air quality, mold, or high voltage power lines.

Thank you for selecting Rincon for this project. If you have any questions, or if we can be of any future assistance, please contact us.

Sincerely,
Rincon Consultants, Inc.

Sarah A. Larese
Senior Environmental Scientist

Walt Hamann, PG, CEG, CHG
Vice President, Environmental Services

Executive Summary

This report presents the findings of a Phase I Environmental Site Assessment (ESA) for the property located at 5401 and 5407 Wilshire Boulevard, Los Angeles, California (Figure 1, Vicinity Map). The Phase I ESA was performed for Walter N. Marks, Inc. by Rincon Consultants, Inc. (Rincon). Walter N. Marks, Inc. has requested this assessment and will use the information for the purposes of purchasing the eastern portion of the subject property (5401 Wilshire Boulevard) and redeveloping the western portion (5407 Wilshire Boulevard). The subject property is currently in use as a beauty store and day spa (Wilshire Beauty – 5401 Wilshire Boulevard), an architectural firm (Diversified Build – 5403 Wilshire Boulevard), an office supply store (Staples – 5407 Wilshire Boulevard), a clothing store (Des Kohan – 671 South Cloverdale Avenue), and one vacant commercial unit (formerly Blank Spaces, an office coworking space – 5405 Wilshire Boulevard).

Rincon performed a reconnaissance of the subject property on December 20, 2018. The purpose of the reconnaissance was to observe existing conditions and to obtain information indicating the presence of recognized environmental conditions in connection with the subject property. The use, storage or disposal of hazardous materials on the subject property was not observed during the site reconnaissance.

The subject property is located in an area that is primarily comprised of residential and commercial land uses. Properties in the vicinity of the subject property include private offices, single-family homes, apartments, and retail stores.

Environmental Data Resources, Inc. (EDR) was contracted to provide a database search of public lists of sites that generate, store, treat or dispose of hazardous materials or sites for which a release or incident has occurred. The EDR search was conducted for the subject property and included data from surrounding sites within a specified radius of the property. The subject property was listed on the following databases searched by EDR:

- **Tip Top Cleaners & Tailors – 5407 Wilshire Boulevard:** The EDR Historical Cleaner listing indicates that Tip Top Cleaners & Tailors was present at the subject property from 1969 to 1976. No additional information was provided by EDR. This listing is not indicative of a hazardous materials release; however, dry cleaning operations typically involve the use of hydrocarbon-based or chlorinated solvents and are commonly associated with hazardous materials releases. In 2004, Rincon conducted a Phase II ESA at the subject property. The report was provided by Walter N. Marks, Inc. and is summarized as follows:
    - *Site Assessment: Staples Store, 5407 Wilshire Boulevard, Los Angeles, California* prepared by Rincon and dated October 4, 2004 – A review of this report, completed for the western portion of the subject property (Staples Store), indicates that based on a previous Phase I ESA, a dry cleaner was formerly present on the western portion of the subject property, and the purpose of the site assessment was to determine if soil or groundwater at the subject property had been impacted by the former dry cleaner. According to the 2004 report, four soil borings were advanced on the western portion of the subject property, a continuous soil sample was collected from each soil boring from ground surface to 10 feet below ground surface (bgs), soil samples were also collected from each boring at depths of 20 and 30 feet bgs. Groundwater samples were not able to be obtained due to the lack of groundwater available at the sampling depth (32 feet bgs). No soil discoloration was noted

and no photoionization detector (PID) readings were measured for the soil samples collected (from 5, 20 and 30 feet bgs). Soil samples collected from 30 feet bgs from three borings (B1-B3) and 32 feet bgs in B4 were analyzed for volatile organic compounds (VOCs). The 2004 report indicates that VOCs were not detected in any of the soil samples collected; therefore, the 2004 report concluded that no further assessment was recommended.

- **Staples – 5407 Wilshire Boulevard:** The HAZNET listing indicates that the facility generated various quantities of hazardous waste, including organics, alkaline solution without metals, inorganic solid waste, from 2015 to 2017 and disposed of the waste offsite. The Facility Index System (FINDS) listing is administrative and indicates that this stationary and office supplies store is enrolled in a state-regulated hazardous waste program. These listings are not indicative of a hazardous materials release.

Five adjacent properties were listed on databases searched by EDR. Based on information provided by EDR, four of these adjacent properties have the potential to be adversely impacting the subject property and are discussed in the Additional Environmental Record Sources section. In addition, two hydrologically upgradient properties within one-quarter mile of the subject property were listed on databases searched by EDR. Based on information provided by EDR and available online, neither upgradient property is expected to be adversely impacting the subject property.

Historical sources reviewed as part of the Phase I ESA include aerial photographs and topographic maps. The photos and maps reviewed indicate that the subject property was undeveloped from 1894 to 1928, developed with one multi-tenant residential building from 1928 to 1994, and also developed with at least three commercial buildings and a parking lot from at least 1938 to present day.

Based on the findings of this Phase I ESA, it is our opinion that there are five potential Recognized Environmental Conditions (RECs) in connection with the subject property as follows.

Potential Recognized Environmental Conditions

1. Current eastern adjacent dry cleaner (682 South Cloverdale Avenue)
2. Former eastern adjacent dry cleaner (676 Cloverdale Court/Avenue) and former garage with gas and oil services from at least 1950 to 1969 (674 South Cloverdale Avenue)
3. Former western adjacent dry cleaner (5455 Wilshire Boulevard)
4. Former western adjacent gasoline service station (5453 Wilshire Boulevard)
5. The location of the subject property within a methane zone

Because the subject property is located in a methane zone, prior to redevelopment of the site, we recommend a methane survey in accordance with Los Angeles Department of Building and Safety (LADBS) protocol.

Based on the current and/or historical use of the adjacent properties as gas and oil facilities and dry cleaners, we also recommend a soil vapor assessment at the subject property to determine if the subject property has been adversely impacted due to these adjacent land uses.

Although not considered a Recognized Environmental Condition, based on the age of the onsite structure (constructed as early as 1938), asbestos-containing materials and lead-based paint may be present on the subject property. Therefore, prior to redevelopment, Rincon recommends conducting an asbestos-containing building materials and lead-based paint survey at the subject property.

Introduction

This report presents the findings of a Phase I ESA conducted for the property located at 5401 and 5407 Wilshire Boulevard, Los Angeles, California (Figure 1, Vicinity Map). The Phase I ESA was performed by Rincon Consultants, Inc. (Rincon) for Walter N. Marks, Inc. in general conformance with ASTM E 1527-13, and our proposal and contract dated November 13, 2018. The following sections present our findings and provide our opinion as to the presence of recognized environmental conditions on the subject property.

Purpose

Walter N. Marks, Inc. has requested this assessment and will use the information for the purposes of purchasing the eastern portion of the subject property (5401 Wilshire Boulevard) and redeveloping the western portion (5407 Wilshire Boulevard). The purpose of this Phase I ESA was to determine if there are recognized environmental conditions on the subject property, taking into account commonly and reasonably ascertainable information and to qualify for Landowner Liability Protections under the Brownfields Amendments to the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA).

A recognized environmental condition (REC) is defined pursuant to ASTM E 1527-13 as,

> "the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: 1) due to any release to the environment; 2) under conditions indicative of a release to the environment; 3) under conditions that pose a material threat of a future release to the environment".

A Controlled REC is defined pursuant to ASTM E 1527-13 as,

> "a recognized environmental condition resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (for example, as evidenced by the issuance of a no further action letter or equivalent, or meeting risk-based criteria established by regulatory authority), with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls). A condition considered by the environmental professional to be a controlled recognized environmental condition shall be listed in the findings section of the Phase I Environmental Site Assessment report, and as a recognized environmental condition in the conclusions section of the Phase I Environmental Site Assessment report".

A Historical REC is defined pursuant to ASTM E 1527-13 as,

> "a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by regulatory authority, without subjecting the property to any required controls (for example, use restrictions, activity and use limitations, institutional controls, or engineering controls). Before calling the past release a historical recognized environmental condition, the environmental professional must determine whether the past release is a recognized environmental condition at the time the

> Phase I Environmental Site Assessment is conducted (for example, if there has been a change in the regulatory criteria). If the EP [Environmental Professional] considers the past release to be a recognized environmental condition at the time the Phase I ESA is conducted, the condition shall be included in the conclusions section of the report as a recognized environmental condition".

A *de minimis* condition is defined pursuant to ASTM E 1527-13 as,

> "a condition that generally does not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. Conditions determined to be de minimis conditions are not recognized environmental conditions nor controlled recognized environmental conditions".

Scope of Services

The scope of services conducted during this study is outlined below:

- Performed a reconnaissance of the subject property to identify obvious indicators of the existence of hazardous materials.
- Observed adjacent or nearby properties from public thoroughfares in an attempt to see if such properties are likely to use, store, generate, or dispose of hazardous materials.
- Obtained and reviewed an environmental records database search to obtain information about the potential for hazardous materials to exist at the subject property or at properties located in the vicinity of the subject property.
- Reviewed files for the subject property and immediately adjacent properties as identified in the database report, as applicable.
- Reviewed the current United States Geological Survey (USGS) topographic map to obtain information about the subject property and regional topography and uses of the subject property and surrounding sites.
- Reviewed additional pertinent record sources (e.g., California Division of Oil, Gas, and Geothermal Resources records, online databases of hazardous substance release sites), as necessary, to identify the presence of RECs at the subject property.
- Reviewed reasonably ascertainable historical resources (e.g., aerial photographs, topographic maps, fire insurance maps, city directories) to assess the historical land use of the subject property and adjacent properties.
- Provided a user interview questionnaire to a representative of the client, the user of the Phase I ESA.
- Provided a property owner interview questionnaire to the property owner or a designated subject property representative identified to Rincon by the client.
- Conducted interviews with other property representatives (e.g., key site manager, occupants), as applicable.
- Reviewed available client-provided information (e.g., previous environmental reports, title documentation).

Significant Assumptions, Limitations, Deviations, Exceptions, Special Terms, and Conditions

This work is intended to adhere to good commercial, customary, and generally accepted environmental investigation practices for similar investigations conducted at this time and in this geographic area. No guarantee or warranties, expressed or implied, are provided. The findings and opinions conveyed in this report are based on findings derived from a site reconnaissance, review of an environmental database report, specified regulatory records and historical sources, and comments made by interviewees. This report is not intended as a comprehensive site characterization and should not be construed as such. Standard data sources relied upon during the completion of Phase I ESAs may vary with regard to accuracy and completeness. Although Rincon believes the data sources are reasonably reliable, Rincon cannot and does not guarantee the authenticity or reliability of the data sources it has used. Additionally, pursuant to our contract, the data sources reviewed included only those that are practically reviewable without the need for extraordinary research.

Rincon has not found evidence that hazardous materials or petroleum products exist at the subject property at levels likely to warrant mitigation. Rincon does not under any circumstances warrant or guarantee that not finding evidence of hazardous materials or petroleum products means that hazardous materials or petroleum products do not exist on the subject property. Additional research, including surface or subsurface sampling and analysis, can reduce the client's risks, but no techniques commonly employed can eliminate these risks altogether.

In addition, pursuant to ASTM E 1527-13 practice, our scope of services did not include any inquiries with respect to asbestos containing building materials, biological agents, cultural and historic resources, ecological resources, endangered species, health and safety, indoor air quality unrelated to release of hazardous substances or petroleum products into the environment, industrial hygiene, lead-based paint, lead in drinking water, mold, radon, regulatory compliance, wetlands, or high voltage power lines.

User Reliance

Walter N. Marks, Inc. has requested this assessment and will use the information for the purposes of purchasing the eastern portion of the subject property (5401 Wilshire Boulevard) and redeveloping the western portion (5407 Wilshire Boulevard). This Phase I ESA was prepared for use solely and exclusively by Walter N. Marks, Inc. No other use or disclosure is intended or authorized by Rincon. Also, this report is issued with the understanding that it is to be used only in its entirety. It is intended for use only by the client, and no other person or entity may rely upon the report without the express written consent of Rincon.

Site Description

Location

The subject property is an approximately 1.4-acre parcel located north of Wilshire Boulevard, east of South Cochran Avenue, and west of South Cloverdale Avenue in Los Angeles, California (Figure 2, Site Map). The property is identified as Assessor's Parcel Numbers (APNs) 5508009001 and

5508009029 and is associated with the street addresses of 5401-5425 (odd) West Wilshire Boulevard, 665-671 (odd) South Cloverdale Avenue, and 664-670 (even) South Cochran Avenue.

Subject Property and Vicinity General Characteristics

The subject property is currently in use as a beauty store and day spa with a basement (Wilshire Beauty – 5401 Wilshire Boulevard), an architectural firm (Diversified Build – 5403 Wilshire Boulevard), an office supply store (Staples – 5407 Wilshire Boulevard), a clothing store (Des Kohan – 671 South Cloverdale Avenue), and one vacant commercial unit (formerly Blank Spaces, an office coworking space – 5405 Wilshire Boulevard).

The subject property is located in an area that is primarily comprised of residential and commercial land uses. Properties in the vicinity of the subject property include private offices, single-family homes, apartments, and retail stores. The current adjacent land uses are described in Table 1 and depicted on Figure 3, Adjacent Land Use Map.

Table 1 Current Uses of Adjacent Properties

Area	Use
Northern Properties	Multi-family residences.
Eastern Properties	South Cloverdale Avenue, followed by a dry cleaner and retail stores.
Southern Properties	Wilshire Boulevard, followed by Bank of America and retail stores.
Western Properties	South Cochran Avenue, followed by a parking structure and businesses/retail stores.

Descriptions of Structures, Roads, Other Improvements on the Site

During the site reconnaissance, the subject property was observed to be developed with a one-, two-, and three-story building (one story at 671 South Cloverdale Avenue, two stories at 5403-5407 Wilshire Boulevard, and two stories plus a basement at 5401 Wilshire Boulevard) and a parking lot on the northern portion of the subject property.

A cinderblock wall was noted along the northern boundary of the subject property. The remainder of the subject property perimeter is unfenced.

Access to the subject property is available from driveways on South Cochran Avenue and South Cloverdale Avenue, as well as pedestrian access from Wilshire Boulevard.

The following utility providers service the subject property:

- Electrical and Natural Gas Service – Los Angeles Department of Water and Power
- Water and Sewer Service – Los Angeles Department of Water and Power
- Solid Waste Service – Private companies

User-Provided Information

As described in ASTM E 1527-13 Section 6, a User Questionnaire as provided by ASTM Appendix X3 was provided to Walter N. Marks, Inc. The purpose of the User Questionnaire is for the User of the Phase I ESA to provide actual knowledge pertaining to the subject property to help identify recognized environmental conditions. As of the date of this report, a completed User Questionnaire has not been returned to Rincon.

The following document regarding the subject property was provided by Walter N. Marks, Inc.

- *Site Assessment: Staples Store, 5407 Wilshire Boulevard, Los Angeles, California* prepared by Rincon and dated October 4, 2004 – A review of this report, completed for the western portion of the subject property (Staples Store), indicates that based on a previous Phase I ESA, a dry cleaner was formerly present on the western portion of the subject property, and the purpose of the site assessment was to determine if soil or groundwater at the subject property had been impacted by the former dry cleaner. According to the 2004 report, four soil borings were advanced on the western portion of the subject property, a continuous soil sample was collected from each soil boring from ground surface to 10 feet below ground surface (bgs), soil samples were also collected from each boring at depths of 20 and 30 feet bgs. Groundwater samples were not able to be obtained due to the lack of groundwater available at the sampling depth (32 feet bgs). No soil discoloration was noted and no photoionization detector (PID) readings were measured for the soil samples collected (from 5, 20 and 30 feet bgs). Soil samples collected from 30 feet bgs from three borings (B1-B3) and 32 feet bgs in B4 were analyzed for volatile organic compounds (VOCs). The 2004 report indicates that VOCs were not detected in any of the soil samples collected; therefore, the 2004 report concluded that no further assessment was recommended.

Records Review

Physical Setting Sources

Topography

The current USGS topographic map (Hollywood Quadrangle, 2012) indicates that the subject property is situated at an elevation of approximately 200 feet above mean sea level with topography gently sloping down toward the southwest. The adjacent topography gently slopes down toward the southwest.

Geology and Hydrogeology

The Los Angeles area is within the Peninsular Ranges Geologic Province of California (California Geologic Survey [CGS], 2002). This province is characterized by northwest-trending mountains and faults. Rocks within the Peninsular Range Province were emplaced during Cretaceous orogenic events and uplifted into the present mountain ranges during the late Tertiary and Quaternary periods. Igneous, volcanic, metamorphic, and sedimentary rocks are all found within the Peninsular Ranges. The area is seismically active, with several known active faults crossing the Province (CGS, 2002).

Site Geology

According to the 2004 *Site Assessment: Staples Store* report, the subject property is located on a gently-sloping marine terrace, underlain by Quaternary-aged unconsolidated alluvium, and soil borings advanced at the subject property indicate that soil at the subject property consists of sandy clay and clayey sand from ground surface to 32 feet bgs.

According to the current USGS Geologic Map (Hollywood and Burbank [South ½] Quadrangles, 1991), the subject property is underlain by older surficial sediments, which are described as alluvium of clay, sand, and gravel and includes alluvial fan sediments from the late Pleistocene age.

According to the City of Los Angeles Zoning Information and Map Access System (ZIMAS)[1], the subject property is located within a methane zone. Methane could be located beneath the subject property at levels that could require mitigation during redevelopment of the subject property.

Regional Groundwater Occurrence and Quality

The subject property is located within the Central Subbasin of the Coastal Plain of Los Angeles groundwater basin.

During the preparation of this Phase I ESA, we reviewed the California State Water Resources Control Board's (SWRCB's) online GeoTracker database to determine groundwater flow direction in the vicinity of the subject property. According to the *Fourth Quarter 2012 Off-Site Groundwater Monitoring Report, BRE Wilshire Property, 5220 Wilshire Boulevard and 714-780 South La Brea*

[1] http://zimas.lacity.org/

Avenue, Los Angeles, California prepared by ARCADIS U.S., Inc. and dated January 15, 2012, groundwater is reported to be between 13.92 and 18.22 feet bgs and flow toward the southwest. This property is located approximately 800 feet to the east of the subject property.

Standard Environmental Record Sources

EDR was contracted to provide a database search of public lists of sites that generate, store, treat or dispose of hazardous materials or sites for which a release or incident has occurred. The EDR search was conducted for the subject property and included data from surrounding sites within specified radii of the property. A copy of the EDR report, which specifies the ASTM search distance for each public list, is included as Appendix B. As shown on the attached EDR report, federal, state and county lists were reviewed as part of the research effort. Please refer to Appendix B for a complete listing of sites reported by EDR and a description of the databases reviewed.

The Map Findings Summary, included in the EDR report, provides a summary of the databases searched, the number of reported facilities within the search radii, and whether the facility is located onsite or adjacent to the subject property. The following information is based on our review of the Map Findings Summary and the information contained in the EDR report.

Subject Property

The subject property was listed on the following databases:

- EDR Hist Cleaner database as Tip Top Cleaners & Tailors at 5407 Wilshire Boulevard
- HAZNET and FINDS databases as Staples at 5407 Wilshire Boulevard

Regulatory agency files reviewed for the subject property are discussed in the Additional Environmental Record Sources section of this report.

Offsite Properties

Offsite properties listed by EDR fall under two general categories of databases: those reporting unauthorized releases of hazardous substances (e.g., LUST, National Priority List [a.k.a. Superfund sites], and corrective action facilities), and databases of businesses permitted to use hazardous materials or generate hazardous wastes, for which an unauthorized release has not been reported to a regulatory agency.

Rincon reviewed the EDR Radius Map and select detailed listings to evaluate their potential to impact the subject property, based on the following factors:

- Reported distance of the facility from the subject property
- The nature of the database on which the facility is listed, and/or whether the facility was listed on a database reporting unauthorized releases of hazardous materials, petroleum products, or hazardous wastes
- Reported case type (e.g., soil only, failed underground storage tank [UST] test only)
- Reported substance released (e.g., chlorinated solvents, gasoline, metals)
- Reported regulatory agency status (e.g., case closed, “no further action”)
- Location of the facility with respect to the reported groundwater flow direction (discussed in the Geology and Hydrogeology section of this report)

Facilities/properties that were interpreted by Rincon to be of potential environmental concern to the subject property, based on one or more of the factors listed above, are summarized in Table 2. In accordance with ASTM, contamination migration pathways in soil, groundwater, and soil vapor were considered in our analysis of offsite properties of potential environmental concern.

Table 2 EDR Listing Summary of Select Sites Within One-Quarter Mile of the Subject Site

Site Name	EDR Site ID	Site Address	Distance from Subject Property	Database Reference
Subject Property				
Tip Top Cleaners & Tailors	A1	5407 Wilshire Boulevard	Subject Property	EDR Hist Cleaner
Staples	A2, A3	5407 Wilshire Boulevard	Subject Property	HAZNET, FINDS
Adjacent Properties				
Cloverdale Cleaners/ New Image Cleaners, Renato Yescas	A4-A6	682 South Cloverdale Avenue	Adjacent Property – East	DRYCLEANERS, EDR Hist Cleaner
Baziran Arth	A7	676 Cloverdale Court (Avenue)	Adjacent Property – East	EDR Hist Cleaner
Spencer A V	A8	5453 Wilshire Boulevard	Adjacent Property – West	EDR Hist Auto
Moore White Medical Group	A9	5455 Wilshire Boulevard No. 800	Adjacent Property – West	RCRA-SQG, FINDS, ECHO
Speedy Dry Cleaning & Laundry	A10	5455 Wilshire Boulevard	Adjacent Property – West	EDR Hist Cleaner
Upgradient Sites				
Union Oil Service Station #111/ Service Station 1116/ Miracle Mile 76/ 76 Station #251116	G35, G36, G38-G41	5436 West 6th Street	Approximately 0.15 Mile - Northeast	HIST UST, HAZNET, SWEEPS UST, CA FID UST, UST, **LUST**, HIST CORTESE
Los Altos Cleaners	43, 44	5435-39 West 6th Street/ 453 South La Brea Avenue	Approximately 0.18 Mile - Northeast	DRYCLEANERS, EMI, ENVIROSTOR

Bold indicates a release database as indicated by EDR.

Regulatory agency information reviewed for the listings in the table above are summarized in the Additional Environmental Record Sources section of this report.

Orphan Listings

EDR reported two orphan or unmapped site listings, which EDR is unable to plot due to insufficient address information. Based on Rincon's review of the limited address information or site descriptions for the orphan listings, none of the listings are expected to impact the subject property.

Additional Environmental Record Sources

Review of Agency Files

As a follow-up to the database search, Rincon reviewed regulatory information for facilities within the specified search radii that were interpreted to have the potential to impact the subject property, based on one or more factors previously discussed (e.g., distance, open case status, upgradient location, soil vapor migration).

The following is a summary of our review of regulatory information obtained from review of online sources (e.g., SWRCB GeoTracker database, DTSC EnviroStor database) and/or files requested from the applicable regulatory agency, as described below.

Subject Property

The subject property was listed on the following databases searched by EDR:

- **Tip Top Cleaners & Tailors – 5407 Wilshire Boulevard:** The EDR Historical Cleaner listing indicates that Tip Top Cleaners & Tailors was present at the subject property from 1969 to 1976. No additional information was provided by EDR. This listing is not indicative of a hazardous materials release; however, dry cleaning operations typically involve the use of hydrocarbon-based or chlorinated solvents and are commonly associated with hazardous materials releases. Records were requested from the Los Angeles County Fire Department on December 13, 2018, and in what appeared to be an automatically-generated email response on the same day, the HHMD indicated that no records were available. The subject property address of 5407 Wilshire Boulevard was searched on the City of Los Angeles Fire Department's online inventory lists[2]; however, the address was not located on the lists and therefore it appears that the City of Los Angeles Fire Department does not have any records for 5407 Wilshire Boulevard. As described above, Rincon conducted a Phase II ESA on the western portion of the subject property (Staples Store) in 2004; the report is summarized in the User-Provided Information section of this report.
- **Staples – 5407 Wilshire Boulevard:** The HAZNET listing indicates that the facility generated various quantities of hazardous waste, including organics, alkaline solution without metals, inorganic solid waste, from 2015 to 2017 and disposed of the waste offsite. The Facility Index System (FINDS) listing is administrative and indicates that this stationary and office supplies store is enrolled in a state-regulated hazardous waste program. These listings are not indicative of a hazardous materials release.

Adjacent Properties

Five adjacent properties were listed in databases searched by EDR:

- **Cloverdale Cleaners/ New Image Cleaners, Renato Yescas – 682 South Cloverdale Avenue:** This property, located adjacent to the east of the subject property across South Cloverdale Avenue,

[2] https://www.lafd.org/fire-prevention/cupa/public-records

is listed on the DRYCLEANERS and EDR Historical Cleaner databases. The first DRYCLEANERS listing indicates that the Cloverdale Cleaners facility's permit status is "inactive," the facility has dry cleaning equipment with tetrachloroethylene (PCE), and a vapor recovery unit "compress & condense" is present at the facility. The second DRYCLEANERS listing indicates that the New Image Cleaners facility's permit status is "inactive" and the facility has dry cleaning equipment with petroleum solvent; and that the Renato Yescas facility's permit status is "active" and the facility has dry cleaning equipment with petroleum solvent. The EDR Historical Cleaner listing indicates that Cloverdale Cleaners was present at this adjacent site from 1986 to 2014, and New Image Cleaner was present from 2010 to 2014, both as a "drycleaning plants, except rugs" and "garment making, alteration, and repair" facility. These listings are not indicative of a hazardous materials release; however, because dry cleaners are typically associated with releases of chlorinated or hydrocarbon solvents and based on the proximity to the subject property, the adjacent Cloverdale Cleaners/ New Image Cleaners, Renato Yescas site has the potential to be adversely impacting the subject property.

Records were requested from the Los Angeles County Fire Department on December 13, 2018, and on December 17, 2018 the Los Angeles County Fire Department provided records for 682 South Cloverdale Avenue. The records indicate that one 30-gallon container of PCE was disposed of in 1980, one 55-gallon drum of PCE and a filter cartridge were generated at the facility in 1996, solvent and still oil were removed from a dry cleaning machine and stored in steel containers prior to the removal and disposal of the machine in 2004, dry cleaning machine filter cartridges and waste PCE were transported offsite in 2004, and the business name changed to New Image Cleaners in 2004.

- **Baziran Arth – 676 Cloverdale Court (Avenue):** This property, interpreted to also be located adjacent to the east of the subject property across South Cloverdale Avenue, is listed on the EDR Historical Cleaner database. The listing indicates that a "clothes pressers and cleaners" was present in 1937. This listing is not indicative of a hazardous materials release; however, because dry cleaners are typically associated with releases of chlorinated or hydrocarbon solvents and based on the proximity to the subject property, the adjacent Baziran Arth site has the potential to be adversely impacting the subject property. Records were requested from the Los Angeles County Fire Department on December 13, 2018, and in what appeared to be an automatically-generated email response on the same day, the HHMD indicated that no records were available. The street address of 676 Cloverdale Avenue was searched on the City of Los Angeles Fire Department's online inventory lists; however, the address was not located on the lists and therefore it appears that the City of Los Angeles Fire Department does not have any records for 676 Cloverdale Avenue.

- **Spencer A V – 5453 Wilshire Boulevard:** This property, located adjacent to the west of the subject property across South Cochran Avenue, is listed on the EDR Historical Auto database. The listing indicates that a "gasoline and oil service stations" was present in 1937. Based on our review of the historical documents (aerial photographs and Sanborn maps), the 1938 aerial photograph and the 1950 Sanborn map indicate a "grease" automotive repair building and an airplane on this western adjacent property. The EDR listing is not indicative of a hazardous materials release; however, based on the nature of automotive/ repair facilities and the proximity to the subject property, the adjacent Spencer A V site has the potential to be adversely impacting the subject property. Records were requested from the Los Angeles County Fire Department on December 13, 2018, and in what appeared to be an automatically-generated email response on the same day, the HHMD indicated that no records were available.

The street address of 5453 Wilshire Boulevard was searched on the City of Los Angeles Fire Department's online inventory lists; however, the address was not located on the lists and therefore it appears that the City of Los Angeles Fire Department does not have any records for 5453 Wilshire Boulevard.

- **Moore White Medical Group – 5455 Wilshire Boulevard No. 800:** This property, located adjacent to the west of the subject property across South Cochran Avenue, is listed on the RCRA-SQG, FINDS, and ECHO databases. The Resource Conservation and Recovery Act – Small Quantity Generator (RCRA-SQG) listing indicates that the facility is a small-quantity generator of hazardous waste. The FINDS listing is administrative and indicates that the facility is enrolled in a state-regulated hazardous waste program. The Enforcement and Compliance History Online (ECHO) listing is administrative and indicates that the facility is enrolled in the RCRA Information System, with no violations reported. These listings are not indicative of a hazardous materials release, and based on the nature of the listings and type of facility (medical office), the adjacent Moore White Medical Group site is not expected to be adversely impacting the subject property.

- **Speedy Dry Cleaning & Laundry – 5455 Wilshire Boulevard:** This property, located adjacent to the west of the subject property across South Cochran Avenue, is listed on the EDR Historical Cleaner database. The listing indicates that Mid Wilshire Cleaners, a "garment pressing and cleaners' agents" facility, was present in 1987, and Speedy Dry Cleaning & Laundry, a "drycleaning plants, except rugs" facility, was present in 1993. This listing is not indicative of a hazardous materials release; however, because dry cleaners are typically associated with releases of chlorinated or hydrocarbon solvents and based on the proximity to the subject property, the adjacent Speedy Dry Cleaning & Laundry site has the potential to be adversely impacting the subject property. Records were requested from the Los Angeles County Fire Department on December 13, 2018, and in what appeared to be an automatically-generated email response on the same day, the HHMD indicated that no records were available. The street address of 5455 Wilshire Boulevard was searched on the City of Los Angeles Fire Department's online inventory lists; a Verizon Wireless: Wilshire Hub West facility located at 5455 West Wilshire Boulevard is listed on the Active Hazardous Materials Inventory list. Based on the nature of the listing (storage of hazardous materials), the Verizon facility is not expected to be adversely impacting the subject property. No records were identified for the Speedy Dry Cleaning & Laundry facility.

Upgradient Sites

There are two hydrologically upgradient listed sites within one-quarter mile of the subject property as follows:

- **Union Oil Service Station #111/ Service Station 1116/ Miracle Mile 76/ 76 Station #251116 – 5436 West 6th Street:** This property, located approximately 0.15 mile to the northeast of the subject property, is listed on the HIST UST, HAZNET, SWEEPS UST, CA FID UST, UST, LUST, and HIST CORTESE databases. The listings indicate that one 550-gallon waste oil underground storage tank (UST) and two 9,940-gallon gasoline USTs were installed at the gasoline service station site in 1967 and were present in at least 1988, and the facility generated and disposed offsite of various hazardous wastes in 2017. The Leaking Underground Storage Tank (LUST) listing indicates that a release of gasoline to groundwater (aquifer used for drinking water supply) occurred in 2007 and the case has a status of "Completed – Case Closed" as of July 6,

2016. According to the case closure report (November 2015) available on the SWRCB GeoTracker database, two 12,000-gallon gasoline USTs and one 550-gallon waste oil UST are active at the site and groundwater is present between 11 and 18 feet below ground surface and flows toward the south. The report indicates that petroleum hydrocarbons and select VOCs remain in soil and groundwater at the site. In addition, according to the most recent groundwater monitoring report for the gasoline service station site, the groundwater plumes are depicted as not extending offsite and are located approximately 0.15 mile away from the subject property. Based on the distance to the subject property and closed case status, the Union Oil Service Station site is not expected to be adversely impacting the subject property.

- **Los Altos Cleaners - 5435-39 West 6th Street/ 453 South La Brea Avenue:** This property, located approximately 0.18 mile to the northeast of the subject property, is listed on the DRYCLEANERS, EMI, and ENVIROSTOR databases. The DRYCLEANERS listing indicates that the facility has an expired permit for "dry cleaning equipment perchloroethylene [PCE]." The ENVIROSTOR listing indicates that this Evaluation site was previously a dry cleaner and has a confirmed contaminant of concern of PCE. According to the site history section on the DTSC EnviroStor database, the dry cleaner site operated in the early 1980s and a soil vapor assessment completed in 2011 indicated the presence of PCE in soil vapor at depths up to 10 feet bgs at the site. According to the No Further Action letter available on EnviroStor, a human health risk assessment was conducted in 2012 for the site and "the DTSC has determined that the potential risks identified are within a risk management range suitable for current and projected land use of the Site." Based on the distance to the subject property and closed case status, the Los Altos Cleaners site is not expected to be adversely impacting the subject property.

Review of State of California Division of Oil, Gas, and Geothermal Resources Records

A review of the Department of Conservation, Division of Oil, Gas, and Geothermal Resources (DOGGR) Online Mapping System[3] indicates that no oil wells are located on the subject property or adjacent properties. However, there are numerous oil wells located between one-quarter mile and one-half mile of the subject property. The nearest oil well is an oil and gas production well described as "buried-idle" located about 675 feet to the south of the subject property. None of the oil wells are expected to be adversely impacting the subject property.

In addition, the La Brea tar pits are located approximately 0.5 mile to the west of the subject property. Naturally occurring seeps of crude oil and natural gas are found at that location and surrounding properties. Therefore, there is the potential for natural oil and gas seeps to be located at the subject property.

[3] https://maps.conservation.ca.gov/doggr/wellfinder/

Review of National Pipeline Mapping System Records

A review of the National Pipeline Mapping System (NPMS) online Public Map Viewer[4] indicates that no gas transmission pipelines or hazardous liquid pipelines are located on the subject property or adjacent properties.

Known or Suspect Contaminated Release Sites with Potential Vapor Migration

The EDR report was reviewed to identify nearby known or suspect contaminated sites that have the potential for contaminated vapor originating from the nearby site to be migrating beneath the subject property. Based on the ASTM E 2600-15, *Standard Guide for Vapor Encroachment Screening on Property Involved in Real Estate Transactions*, the following minimum search distances were initially used to determine if contaminated soil vapors from a nearby known or suspect contaminated site have the potential to be migrating beneath the subject property:

- 1/10 mile (528 feet) for petroleum hydrocarbons
- 1/3 mile (1,760 feet) for other contaminants of concern (COCs)

If upgradient known or suspect contaminated sites are located within the above referenced distances from the subject property, online resources are reviewed to determine the extent of the contaminated plume at those sites. The following describes search distances for contaminated plumes of petroleum hydrocarbons (30 feet from the subject property) and other COCs (100 feet from the subject property). Per ASTM E 2600-15, vapors associated with impacted soil or groundwater present within these distances have the potential to migrate beneath the subject property.

Petroleum Hydrocarbons

Based on our review of the EDR report, there are no known or suspect petroleum hydrocarbon releases on the subject property.

Based on our review of the EDR report, one adjacent site has the potential to have petroleum hydrocarbon-impacted soil or groundwater plumes located within 30 feet of the subject property. The Spencer A V site, located adjacent to the west of the subject property across South Cochran Avenue at 5453 Wilshire Boulevard, is listed on the EDR Historical Auto database. The listing indicates that a "gasoline and oil service stations" was present in 1937. This listing is not indicative of a hazardous materials release; however, based on the proximity to the subject property, the adjacent Spencer A V site has the potential to be adversely impacting the subject property. Based on the proximity of this historical gasoline station to the subject property, there is a potential for petroleum hydrocarbon-impacted soil vapor (if any is originating from this adjacent site) to be migrating beneath the subject property.

In addition, based on the proximity of the La Brea tar pits to the subject property (approximately 0.5 mile away), there is the potential for natural oil and gas seeps to be located at the subject property.

[4] https://www.npms.phmsa.dot.gov/PublicViewer/

Other COCs

Based on our review of the EDR report, a dry cleaner, Tip Top Cleaners & Tailors, was present at the subject property (5407 Wilshire Boulevard) from 1969 to 1976. Rincon conducted a Phase II ESA at the subject property in 2004, which indicated that volatile organic compounds were not detected in any of the soil samples collected on the subject property; therefore, the 2004 report concluded that no further assessment was recommended.

In addition, based on our review of the EDR report, three adjacent sites have the potential to have contaminated soil or groundwater plumes located within 100 feet of the subject property. Cloverdale Cleaners, located adjacent to the east of the subject property across South Cloverdale Avenue at 682 South Cloverdale Avenue, was present from 1986 to present day. The Baziran Arth property, located adjacent to the east of the subject property across South Cloverdale Avenue, was a "clothes pressers and cleaners" in 1937. Speedy Dry Cleaning & Laundry, located adjacent to the west of the subject property across South Cochran Avenue, was present from at least 1987 to 1993. These listings are not indicative of hazardous materials releases; however, because dry cleaners are typically associated with releases of chlorinated or hydrocarbon solvents and based on the proximities to the subject property, there is a potential for VOC-impacted soil vapors (if any are originating from these adjacent current/historical drycleaner sites) to be migrating beneath the subject property.

Historical Use Information on the Property and the Adjoining Properties

The historical records review completed for this Phase I ESA includes aerial photographs, topographic maps, fire insurance maps, city directories, and building permits as detailed in the following sections. Copies of the historical resources reviewed are included in Appendix C. Table 3 provides a summary of the historical use information available for the subject property.

Review of Historical Aerial Photographs

Aerial photographs from EDR's aerial photograph collection were obtained and reviewed. In addition, a current aerial from Google Earth was reviewed.

Review of Historical Topographic Maps

Historical topographic maps from EDR's map collection were obtained and reviewed.

Review of City Directory Listings

EDR was contracted to provide copies of city directory listings for the subject property.

Review of Fire Insurance Maps

EDR was contracted to provide copies of fire insurance maps (i.e., Sanborn maps) for the subject property.

Review of City of Los Angeles Building Permit Records

Building permit records for the subject property were reviewed on the City of Los Angeles Department of Building and Safety's online building records portal[5]. Numerous building permit records and certificates of occupancy are available for the following subject property addresses:

- 5401-5415 (odd) West Wilshire Boulevard
- 5419-5425 (odd) West Wilshire Boulevard
- 665 South Cloverdale Avenue
- 671 South Cloverdale Avenue

Other Historical Sources

Based on the historical information obtained, no additional historical sources were reviewed.

Summary of Historical Uses

Subject Property

Based on our review of the documents listed above and summarized in Table 3 below, it appears that the subject property was undeveloped from 1894 to 1928, developed with one multi-tenant residential building from 1928 to 1994, and also developed with at least three commercial buildings and a parking lot from at least 1938 to present day.

City directories provided by EDR list the following subject property street addresses and occupants:

- 5401 Wilshire Boulevard: Various commercial from 1933 to 2014
- 5403 Wilshire Boulevard: Various commercial from 1951 to 1981
- 5405 Wilshire Boulevard: Various commercial from 1942 to 2014
- 5407 Wilshire Boulevard: A jewelry store in 1951, **Tip Top Cleaners & Tailors (dry cleaner)** and a meat market from 1962 to 1976, various commercial from 1980 to 1990, and Staples Inc. from 2010 to 2014
- 5407 ½ Wilshire Boulevard: Restaurant in 1990
- 5409 Wilshire Boulevard: Various commercial from 1929 to 1986
- 5411 Wilshire Boulevard: Commercial from 1942 to 1990
- 5413 Wilshire Boulevard: Various commercial from 1937 to 1990
- 5415 Wilshire Boulevard: Various commercial from 1951 to 1990
- 5421 Wilshire Boulevard: Commercial in 1942
- 5423 Wilshire Boulevard: Commercial from 1942 to 1990
- 5245 Wilshire Boulevard: Various commercial from 1942 to 1990, Staples from 2000 to 2006
- 665 Cloverdale Avenue: Multi-tenant residential from 1933 to 1990

Table 3 Historical Use of the Subject Property

Year	Use	Source
Subject Property		
1894	The subject property appears to be undeveloped, vacant land with a light duty paved road running along the southern boundary and a stream running along the eastern boundary.	Topographic Map (TM) – Los Angeles Quadrangle
1896	Similar to the 1894 TM.	TM – Santa Monica Quadrangle
1898	Similar to the 1896 TM.	TM – Santa Monica Quadrangle
1900	Similar to the 1898 TM.	TM – Los Angeles Quadrangle
1902	Similar to the 1900 TM.	TM – Santa Monica Quadrangle
1920	Similar to the 1902 TM. A light duty road is depicted to the east of subject property.	TM – Santa Monica Quadrangle
1921	Similar to the 1920 TM.	TM – Santa Monica Quadrangle
1923	The subject property appears to be undeveloped land. A road is present along the southern boundary of the property.	Aerial Photograph (AP) – FAIR
1924	Similar to the 1921 TM.	TM – Hollywood Quadrangle
1926	No features are depicted.	Sanborn Map (SM)
1926	Similar to the 1924 TM.	TM – Hollywood Quadrangle
1927	Similar to the 1926 SM.	SM
1928	One building is depicted in the northeast corner of the subject property.	AP – FAIR
1929-1986	5409 Wilshire Boulevard: Various commercial	City Directory (CD) – Various Sources
1933-1990	665 Cloverdale Avenue: Multi-tenant residential	CD – Various Sources
1933-2014	5401 Wilshire Boulevard: Various commercial	CD – Various Sources
1937-1990	5413 Wilshire Boulevard: Various commercial	CD – Various Sources
1938	At least three connected commercial buildings are depicted along the southern boundary of the parcel in addition to a parking lot in the northwest corner and an existing building in the northeast corner.	AP – USDA

Year	Use	Source
1942	5421 Wilshire Boulevard: Commercial	CD – Los Angeles Directory Co.
1942-1990	5411 Wilshire Boulevard: Commercial	CD – Pacific Bell
1942-1990	5423 Wilshire Boulevard: Commercial	CD – Pacific Bell
1942-1990	5245 Wilshire Boulevard: Various commercial	CD – Pacific Bell
1942-2014	5405 Wilshire Boulevard: Various commercial	CD – Various Sources
1948	An additional commercial building is depicted in the southwest corner of the parcel connected to the three existing commercial buildings, existing parking lot and existing single building.	AP – USGS
1950	Four commercial buildings comprise the southern portion of the subject property and a parking lot and apartment building are located on the northwest and northeast corners of the property, respectively. Addresses for the subject property include 5401-5425 Wilshire Boulevard, 665 Cloverdale Avenue and 676-688 Cochran Avenue.	SM
1951	5407 Wilshire Boulevard: A jewelry store	CD – Pacific Telephone & Telegraph Co.
1951-1981	5403 Wilshire Boulevard: Various commercial	CD – Pacific Bell
1951-1990	5415 Wilshire Boulevard: Various commercial	CD – Pacific Bell
1952	Similar to the 1948 AP.	AP – USGS
1953	Light duty roads have been developed on the eastern and western boundaries of the subject property.	TM – Hollywood Quadrangle
1962-1976	5407 Wilshire Boulevard: **Tip Top Cleaners & Tailors** (dry cleaner) and a meat market	CD – Pacific Bell
1964	Similar to the 1952 AP. One additional small structure is depicted on the subject property along the eastern boundary, connected to the westernmost existing commercial building.	AP – USGS
1966	Similar to the 1953 TM.	TM – Hollywood Quadrangle
1969	Similar to the 1950 SM.	SM
1972	Similar to the 1966 TM.	TM – Hollywood Quadrangle
1972	Similar to the 1964 AP.	AP – EDR Proprietary Brewster Pacific
1977	Similar to the 1972 AP.	AP – EDR Proprietary Brewster Pacific

Year	Use	Source
1980-1990	5407 Wilshire Boulevard: Various commercial	CD – Various Sources
1981	Similar to the 1972 TM.	TM – Hollywood Quadrangle
1981	Similar to the 1977 AP.	AP – EDR Proprietary Brewster Pacific

2012	No individual structures or features are depicted.	TM – Hollywood Quadrangle
2012	Similar to the 2009 AP.	AP – USDA/NAIP
2016	Similar to the 2012 AP.	AP – USDA/NAIP

Northern Adjacent Properties (661-663 S. Cloverdale Ave. and 660 S. Cochran Ave.)

Based on our review of the documents listed above, it appears that the northern adjacent properties were developed with two multi-tenant residential buildings in their present configuration from at least 1928 to present day. City directories provided by EDR list the following northern adjacent property street addresses and occupants:

- 663 South Cloverdale Avenue: Residential from 1951 to 2000
- 660 South Cochran Avenue: Residential from 1929 to 2000

Eastern Adjacent Properties (664-682 [even] S. Cloverdale Ave. and 5369-5379 [odd] W. Wilshire Blvd.)

Based on our review of the documents listed above, it appears that the eastern adjacent properties (across Cloverdale Avenue) were developed with one multi-tenant residential building (664 South

Cloverdale Avenue) and at least two commercial buildings (674-688 South Cloverdale Avenue) in their present configuration from at least 1928 to present day; 674 South Cloverdale Avenue is depicted as a garage with gas and oil services from at least 1950 to 1969 on the Sanborn maps reviewed. City directories provided by EDR list the following eastern adjacent property street addresses and occupants:

- 682 South Cloverdale Avenue: **Cloverdale Cleaners** from 1951 to 2000
- 676-680 South Cloverdale Avenue: Various commercial from 1933 to 2000
- 674 South Cloverdale Avenue: Wilshire Center Garage from 1942 to 1962 and Wilshire Cloverdale Center from 1981 to 1986
- 672 South Cloverdale Avenue: Cloverdale Market in 2000
- 5373-5379 Wilshire Boulevard: Various commercial from 1937 to 2014

Southern Adjacent Properties (5400-5420 [even] W. Wilshire Blvd, 707 S. Cloverdale Ave., and 710 S. Cochran Ave.)

Based on our review of the documents listed above, it appears that the southern adjacent properties across Wilshire Boulevard were mostly vacant with two small commercial buildings (5410 and 5420-5422 Wilshire Boulevard) from at least 1923 to 1928 and developed with one large commercial building with a tower (5400-5420 Wilshire Boulevard) in its present configuration from at least 1938 to present day. City directories provided by EDR list the following southern adjacent property street addresses and occupants:

- 5400-5420 Wilshire Boulevard: Various commercial from 1929 to 2014

Western Adjacent Properties (5451-5457 [odd] W. Wilshire Blvd. and 665-685 [odd] S. Cochran Ave.)

Based on our review of the documents listed above, it appears that the northern portion of the western adjacent properties (across Cochran Avenue) was developed with one multi-tenant residential building (665 South Cochran Avenue) in its present configuration from at least 1928 to present day. The historical aerial photographs reviewed indicate that the southern portion of the western adjacent properties across Cochran Avenue was vacant, undeveloped land in at least 1928, developed with one building and an airplane by 1938, developed with a parking lot from approximately 1948 to 1952, and developed with the existing commercial building with a tower from approximately 1964 to present day. In addition, the fire insurance maps depict the southern portion of the western adjacent properties as developed with a “grease” automotive repair building and an airplane in 1950. City directories provided by EDR list the following western adjacent property street addresses and occupants:

- 665 South Cochran Avenue: Residential from 1933 to 2006 and various commercial from 2010 to 2014
- 5455 South Wilshire Boulevard: Various commercial from 1962 to 2014

Gaps in Historical Sources

Several gaps of greater than five years were identified in the historical records reviewed, from 1902 to 1920, 1953 to 1962, 1981 to 1989, 1994 to 2000, and from 1942 to 1948. These gaps are considered insignificant because the subject property use appears to be similar prior to and following the gaps.

Interviews

Rincon Consultants performed interviews regarding the subject property and surrounding areas. The purpose of the interviews was to discuss current and historical conditions and to obtain information indicating the presence of recognized environmental conditions in connection with the subject property.

Interview with Owner

An interview questionnaire was provided to the property owner prior to the site reconnaissance. A completed questionnaire has not been returned as of the date of this report.

Interview with Site Manager

A site manager was not identified to Rincon.

Interviews with Occupants

No occupants were interviewed as part of this research effort.

Interviews with Local Government Officials

Based on the information provided by EDR, records for the subject property (5407 Wilshire Boulevard) and adjacent properties (682 South Cloverdale Avenue, 676 Cloverdale Court/Avenue, 5453 Wilshire Boulevard, and 5455 Wilshire Boulevard) were requested from the Los Angeles County Fire Department and searched on the City of Los Angeles Fire Department's online inventory lists. The Los Angeles County Fire Department indicated that no records were available for 5407 Wilshire Boulevard, 676 Cloverdale Court/Avenue, 5453 Wilshire Boulevard, or 5455 Wilshire Boulevard. The Los Angeles County Fire Department provided records for 682 South Cloverdale Avenue on December 17, 2018; these records are reviewed in the Additional Environmental Records Sources section above. Based on our search, it appears that the City of Los Angeles Fire Department does not have any records for 5407 Wilshire Avenue, 676 Cloverdale Court/Avenue, 5453 Wilshire Boulevard, or 5455 Wilshire Boulevard.

Interviews with Others

Rincon did not attempt to interview neighboring property owners or others as part of this Phase I ESA.

Site Reconnaissance

Rincon Consultants performed a reconnaissance of the subject property on December 20, 2018 accompanied by Joe Vargas with Walter N. Marks, Inc. The purpose of the reconnaissance was to observe existing subject property conditions and to obtain information indicating the presence of recognized environmental conditions in connection with the property.

Methodology and Limiting Conditions

The site reconnaissance was conducted by:

1. Observing the subject property from public thoroughfares,
2. Observing the adjacent properties from public thoroughfares,
3. Observing the interior of the onsite structures,
4. Observing the exterior of the structures,
5. Backtracking to correlate exterior features with interior features, as necessary, and
6. Observing the subject property from driveways, roads, and sidewalks.

Current Use of the Property and Adjacent Properties

The subject property is currently in use as a beauty store and day spa with a basement (Wilshire Beauty – 5401 Wilshire Boulevard), an architectural firm (Diversified Build – 5403 Wilshire Boulevard), an office supply store (Staples – 5407 Wilshire Boulevard), a clothing store (Des Kohan – 671 South Cloverdale Avenue), and one vacant commercial unit (formerly Blank Spaces, an office coworking space – 5405 Wilshire Boulevard).

Adjacent properties include a dry cleaner (New Image Cleaners – 682 South Cloverdale Avenue) and other commercial businesses.

Past Use of the Property and Adjacent Properties

Based on our site reconnaissance, past uses at the subject property and adjacent properties are not readily apparent.

Current or Past Uses in the Surrounding Areas

The subject property is surrounded by residential and commercial land uses as detailed in the Site Description section of this report. Past uses of the surrounding area are not readily apparent based on the site reconnaissance.

Geologic, Hydrogeologic, Hydrologic and Topographic Conditions

Geologic, hydrogeologic, hydrologic, and topographic information are as previously stated in the Physical Settings Section of this report.

General Description of Structures

The subject property was observed to be developed with a one-, two-, and three-story building (one story at 671 South Cloverdale Avenue, two stories at 5403-5407 Wilshire Boulevard, and two stories plus a basement at 5401 Wilshire Boulevard) and a parking lot on the northern portion of the subject property.

Interior and Exterior Observations

Hazardous Substances and Petroleum Products in Connection with Identified Uses

No hazardous substances or petroleum products were identified at the subject property.

Storage Tanks

During the site reconnaissance, no above- or below-ground storage tanks or evidence of underground storage tanks were observed on the subject property.

Odors

During the site reconnaissance, Rincon did not identify any strong, pungent, or noxious odors.

Drums

During the site reconnaissance, no drums were observed on the subject property.

Hazardous Substances and Petroleum Products Containers Not in Connection with Identified Uses

No hazardous substances or petroleum products not in connection with identified uses were observed at the subject property.

Unidentified Substance Containers

No unidentified substance containers or unidentified containers that might contain hazardous substances were observed during the site reconnaissance.

Indications of Polychlorinated Biphenyls (PCBs)

No transformers, elevators, or other potential indications of PCBs were observed on the subject property during the site reconnaissance.

Other Conditions of Concern

During the site reconnaissance, Rincon did not note any of the following:

- Clarifiers and sumps
- Degreasers/parts washers
- Pits, ponds, and lagoons
- Stressed vegetation
- Solid waste/debris
- Waste water
- Wells
- Septic systems/effluent disposal system

Evaluation

Findings

Known or suspect recognized environmental conditions associated with the subject property include the following:

A. Former onsite dry cleaner (5407 Wilshire Boulevard)
B. Current eastern adjacent dry cleaner (682 South Cloverdale Avenue)
C. Former eastern adjacent dry cleaner (676 Cloverdale Court/Avenue) and former garage with gas and oil services from at least 1950 to 1969 (674 South Cloverdale Avenue)
D. Former western adjacent dry cleaner (5455 Wilshire Boulevard)
E. Former western adjacent gasoline service station (5453 Wilshire Boulevard)
F. The location of the subject property within a methane zone

Opinions

A. **Former onsite dry cleaner (5407 Wilshire Boulevard)** – According to the EDR report, Tip Top Cleaners & Tailors was present on the western portion of the subject property from 1969 to 1976. No additional information was provided by EDR. This listing is not indicative of a hazardous materials release; however, dry cleaning operations typically involve the use of hydrocarbon-based or chlorinated solvents and are commonly associated with hazardous materials releases. According to the 2004 Phase II ESA report prepared for the subject property (Rincon, 2004), soil samples collected from 30 feet bgs from three borings (B1-B3) and 32 feet bgs in B4 were analyzed for VOCs. VOCs were not detected in the four soil samples collected from the western portion of the subject property. In addition, no soil discoloration was noted and no PID readings were measured for the soil samples collected (from 5, 20 and 30 feet bgs). The 2004 report concluded that no further assessment was recommended.

B. **Current eastern adjacent dry cleaner (682 South Cloverdale Avenue)** – According to the EDR report, a dry cleaner was present at an eastern adjacent property across South Cloverdale Avenue from 1986 to 2014. The historical resources reviewed indicate that 682 South Cloverdale Avenue was occupied by Cloverdale Cleaners from 1951 to 2000. During the site reconnaissance, the dry cleaner was observed to be present at 682 South Cloverdale Avenue. In addition, a basement was observed beneath the eastern portion of the subject property building (beauty store and day spa at 5401 Wilshire Boulevard). The EDR listings are not indicative of a hazardous materials release; however, because dry cleaners are typically associated with releases of chlorinated or hydrocarbon solvents and based on the proximity to the subject property, the adjacent dry cleaner site has the potential to be adversely impacting soil, soil vapor or groundwater beneath the eastern portion of the subject property. Note that during the 2004 Phase II Assessment conducted at the subject property, soil samples were not collected from the eastern portion of the subject property. Therefore, the current eastern adjacent dry cleaner is considered a *potential Recognized Environmental Condition (REC)*.

C. **Former eastern adjacent dry cleaner (676 Cloverdale Court/Avenue) and former garage with gas and oil services from at least 1950 to 1969 (674 South Cloverdale Avenue)** – According to the EDR report, a "clothes pressers and cleaners" was present at an eastern adjacent property across South Cloverdale Avenue in 1937. The historical resources reviewed indicate that 674 South Cloverdale Avenue was formerly developed with a garage with gas and oil services from at least 1950 to 1969. These former businesses were not listed in databases that are indicative of hazardous material releases; however, because dry cleaners and gas and oil facilities are often associated with releases of chlorinated or hydrocarbon solvents and based on the proximities to the subject property, the former adjacent dry cleaner and former gas and oil site have the potential to be adversely impacting soil, soil vapor or groundwater beneath the subject property. Therefore, the former eastern adjacent dry cleaner is considered a *potential REC*.

D. **Former western adjacent dry cleaner (5455 Wilshire Boulevard)** – According to the EDR report, a dry cleaner was present at a western adjacent property across South Cochran Avenue from at least 1987 to 1993. The EDR listing is not indicative of a hazardous materials release; however, because dry cleaners are typically associated with releases of chlorinated or hydrocarbon solvents and based on the proximity to the subject property, the adjacent dry cleaner site has the potential to be adversely impacting soil vapor or groundwater beneath the subject property. Therefore, the former western adjacent dry cleaner is considered a *potential REC*.

E. **Former western adjacent gasoline service station (5453 Wilshire Boulevard)** – According to the EDR report, a "gasoline and oil service station" was present in 1937. The historical resources reviewed indicate that a "grease" automotive repair building and an airplane were present on a western adjacent property from at least 1938 to the late 1940s. Although the EDR listing is not indicative of a hazardous materials release, based on the proximity to the subject property, the adjacent former gasoline service station/"grease" automotive repair building has the potential to be adversely impacting soil vapor or groundwater beneath the subject property. Therefore, the former western adjacent gasoline service station is considered a *potential REC*.

F. **The location of the subject property within a methane zone –** According to the City of Los Angeles Zoning Information and Map Access System (ZIMAS), the subject property is located within a methane zone. It is possible that methane is present beneath the subject property due to natural geologic formations. Methane could be located beneath the subject property at levels that could require mitigation. The location of the subject property within a methane zone is considered a *potential REC*.

Conclusions

Rincon has performed a Phase I ESA in general conformance with the scope and limitations of ASTM E 1527-13 for the property located at 5401 and 5407 Wilshire Boulevard in Los Angeles, California. Any exceptions to, or deletions from, this practice are described in the Deviations section of this report. This assessment has revealed evidence of five potential RECs in connection with the subject property as follows:

Potential Recognized Environmental Conditions

1. Current eastern adjacent dry cleaner (682 South Cloverdale Avenue)
2. Former eastern adjacent dry cleaner (676 Cloverdale Court/Avenue) and former garage with gas and oil services from at least 1950 to 1969 (674 South Cloverdale Avenue)

3. Former western adjacent dry cleaner (5455 Wilshire Boulevard)
4. Former western adjacent gasoline service station (5453 Wilshire Boulevard)
5. The location of the subject property within a methane zone

Recommendations

Because the subject property is located in a methane zone, prior to redevelopment of the site, we recommend a methane survey in accordance with Los Angeles Department of Building and Safety (LADBS) protocol.

Based on the current and/or historical use of the adjacent properties as gas and oil facilities and dry cleaners, we also recommend a soil vapor assessment at the subject property to determine if the subject property has been adversely impacted due to these adjacent land uses.

Although not considered a Recognized Environmental Condition, based on the age of the onsite structure (constructed as early as 1938), asbestos-containing materials and lead-based paint may be present on the subject property. Therefore, prior to redevelopment, Rincon recommends conducting an asbestos-containing building materials and lead-based paint survey at the subject property.

Deviations

Deviations from ASTM practice were encountered during the completion of this Phase I ESA. A User Questionnaire and an Owner Questionnaire were not completed as of the date of this report.

In addition, a lien search was not completed as part of this assessment.

Signatures of Environmental Professionals

The qualified environmental professionals that are responsible for preparing the report include Walt Hamann and Sarah Larese. Their qualifications are summarized in the following section.

"We declare that, to the best of our professional knowledge and belief, we meet the definition of Environmental Professional as defined in 312.10 of 40 CFR 312. We have the specific qualifications based on education, training and experience to assess a property of the nature, history, and setting of the subject property. We have developed and performed appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312."

Signature	January 17, 2019 Date
Walt Hamann, PG, CEG, CHG Name	Vice President Title
Signature	January 17, 2019 Date
Sarah A. Larese Name	Senior Environmental Scientist Title

Qualifications of Environmental Consultants

The environmental consultants responsible for conducting this Phase I ESA and preparing the report include Walt Hamann, Sarah Larese, and Savanna Vrevich. Their qualifications are summarized below.

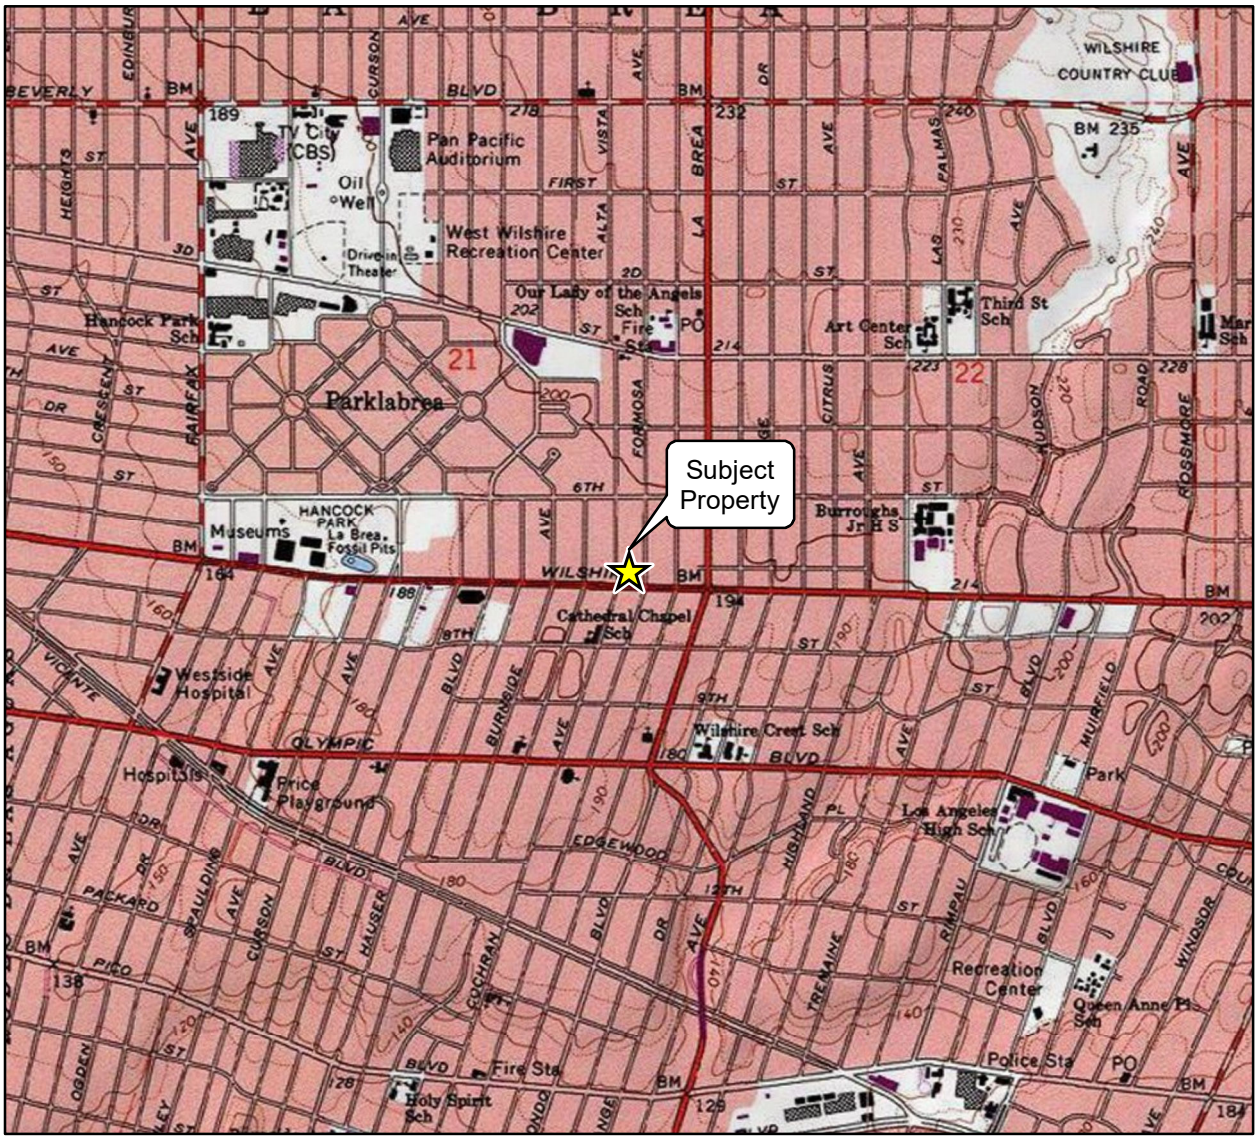

Environmental Professional Qualifications	X2.1.1 (2) (i) - Professional Engineer or Professional Geologist License or Registration, and 3 years of full-time relevant experience	X2.1.1 (2) (ii) - Licensed or certified by the Federal Government, State, Tribe, or U.S. Territory to perform environmental inquiries	X2.1.1 (2) (iii) – Baccalaureate or Higher Degree from and accredited institution of higher education in a discipline of engineering or science and the equivalent of 5 years of full-time relevant experience	X2.1.1 (2) (iii) – Equivalent of 10 years of full-time relevant experience
Walt Hamann	PG, CHG, CEG		MS Geology	30 years
Sarah Larese			BA Environmental Studies	18 years
Savanna Vrevich			BS Environmental Studies	3 years

Walt Hamann, PG, CEG, CHG, is a Principal and Senior Geologist with Rincon Consultants. He holds a Bachelor of Arts degree in geology from the University of California, Santa Barbara and a Master of Science degree in geology from the University of California, Los Angeles. He has over 30 years of experience conducting assessment and remediation projects and has prepared or overseen the preparation of hundreds of Phase I and Phase II Environmental Site Assessments throughout California. Mr. Hamann is a Professional Geologist (#4742), Certified Engineering Geologist (#1635), and Certified Hydrogeologist (#208) with the State of California.

Sarah A. Larese is a Senior Environmental Scientist with Rincon Consultants. She holds a Bachelor of Science degree in environmental studies from the University of California, Santa Barbara, California. Ms. Larese has experience in development, implementation and project management of environmental assessment and remediation projects, especially relating to underground storage tanks. Ms. Larese's responsibilities at Rincon include implementation of Phase I and II Environmental Site Assessments as well as conducting site remediation field activities and preparation of environmental reports. She has 18 years of experience conducting research, assessment and remediation projects.

Savanna Vrevich is an Environmental Scientist with Rincon Consultants. She holds a Bachelor of Science degree in Environmental Studies with an outside concentration in Ecology, Evolution, and Marine Biology from the University of California, Santa Barbara. Ms. Vrevich's responsibilities at Rincon include implementation of Phase I Environmental Site Assessments and preparation of other environmental reports for a variety of commercial, rural, and industrial properties.

Interview Documentation

Rincon Project 18-06852

Site Name and Full Address: 5401-5407 Wilshire Boulevard, Los Angeles, California

To qualify for one of the Landowner Liability Protections (LLPs) offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the "Brownfields Amendments"), the user must provide the following information to the environmental professional. Failure to conduct these inquiries could result in a determination that "all appropriate inquiries" is not complete.

We respectfully request that you fill out this form and e-mail it to Sarah Larese ***at*** SLarese@rinconconsultants.com ***within one week from the date of this transmittal.***

1. Why is the Phase I ESA required or being performed?	
2. What type of property transaction is planned? (i.e. sale, purchase, exchange)	
3. What is the entire site address?	
4. What is the Assessor's Parcel Number(s)?	
5. Are any considerations beyond the requirements of Practice E1527 to be considered? (i.e. lien search, asbestos & lead based paint, radon)	
6. Identify all parties who will rely on the Phase I report.	
7. Identify the Site Manager/Contact and how the contact can be reached.	

Rincon Project 18-06852

Site Name and Full Address: 5401-5407 Wilshire Boulevard, Los Angeles, California

8. Identify the Site Owner and how the owner can be reached.	
9. Do you have copies of any available prior environmental site assessment reports, documents, correspondence, etc., concerning any other knowledge or experience with the property that may be pertinent to the environmental professional (i.e. title report, previous Ph I and II ESAs, Environmental Impact Studies)?	

1. **Did a search of *recorded land title records* (or judicial records, where appropriate) identify any environmental liens filed or recorded against the *property?***

Please checkmark the most appropriate response:

☐ I *have not* reviewed the records and ***do not know*** if there are any filed or recorded environmental liens.

☐ I *have* reviewed the records, and ***No, there aren't any*** filed or recorded environmental liens.

☐ I *have* reviewed the records, and ***Yes, there are*** environmental liens. Explain:

_____

2. **Did a search of recorded land title records (or judicial records, where appropriate) identify any activity and land use limitations (AULs), such as engineering controls, land use restrictions or institutional controls that are in place at the property and/or have been filed or recorded against the property under federal, tribal, state or local law?**

Please checkmark the most appropriate response:

☐ I *have not* reviewed the records and ***do not know*** if there are any filed/recorded AULs or any AULs in place at the site.

☐ I *have* reviewed the records, and ***No, there aren't any*** filed/recorded AULs or any AULs in place at the site.

☐ I *have* reviewed the records, and ***Yes, there are*** AULs filed, recorded, and/or in place at the site. Explain:

_____

Rincon Project 18-06852

Site Name and Full Address: 5401-5407 Wilshire Boulevard, Los Angeles, California

3. **Does the Title Report provide any information pertaining to environmental cleanup liens or activity and use limitations (AULs) for the subject property?**

Please checkmark the most appropriate response:

☐ I *have not* reviewed the Title Report and ***do not know*** if it provides environmental cleanup liens or AULs information.

☐ I *have* reviewed the Title Report, and ***No, it does not*** provide environmental cleanup liens or AULs information.

☐ I *have* reviewed the Title Report, and ***Yes, it does provide*** environmental cleanup liens or AULs information. Explain:

_____

4. **Do you have any specialized knowledge or experience related to the *property* or nearby properties? For example, are you involved in the same line of business as the current or former *occupants* of the *property* or an *adjoining property* so that you would have specialized knowledge of the chemicals and processes used by this type of business?**

Please checkmark the most appropriate response:

☐ ***No***, I *do not* have any specialized knowledge and/or experience related to the property or nearby properties.

☐ ***Yes***, I *do* have specialized knowledge and/or experience related to the property or nearby properties. Explain:

_____

5. **As the user of this ESA, based on your knowledge and experience related to the property, are you aware of any information pertaining to a reduction in value for the subject property relative to any known environmental issues?**

Please checkmark the most appropriate response:

☐ ***No***, I *do not* have any information about a reduction in property value relative to environmental issues.

☐ ***Yes***, I *do* have information about a reduction in property value relative to environmental issues. Explain:

_____

6. **Does the purchase price being paid for this property reasonably reflect the fair market value of the property?**

Please checkmark the most appropriate response:

☐ ***Yes***, I *do* believe the purchase price being paid for this property reasonably reflects the fair market value of the property. Skip to question #7.

Rincon Project 18-06852

Site Name and Full Address: 5401-5407 Wilshire Boulevard, Los Angeles, California

☐ ***No***, I *do not* believe the purchase price being paid for this property reasonably reflects the fair market value of the property. Proceed to question #6a.

a. **If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the property? (40 CFR 312.29)**

Please checkmark the most appropriate response:

☐ ***No***, I *have not* considered the idea that known or believed contamination at the site has caused the lower purchase price.

☐ ***Yes***, I *have* considered the idea that known or believed contamination at the site has caused the lower purchase price. Explain.

_____

7. **Are you aware of commonly known or reasonably ascertainable information about the property that would help the environmental professional to identify conditions indicative of releases or threatened releases? For example,**

a. Do you know the past uses of the property?

☐ I *do not* know.

☐ I *do* know. Explain:

_____

b. Do you know of specific chemicals are present or once were present at the property?

☐ I *do not* know.

☐ I *do* know. Explain:

_____

c. Do you know of any spills or other chemical releases that have taken place at the property?

☐ I *do not* know.

☐ I *do* know. Explain:

_____

d. Do you know of any environmental cleanups have taken place at the property?

☐ I *do not* know.

☐ I *do* know. Explain:

_____

Rincon Project 18-06852

Site Name and Full Address: 5401-5407 Wilshire Boulevard, Los Angeles, California

8. **Based on your knowledge and experience related to the property are there any obvious indicators that point to the presence or likely presence of releases at the property?**

Please checkmark the most appropriate response:

☐ ***No***, I *do not know and/or do not have any experience with any obvious indicators that point to the presence or likely presence of contamination at the property.*

☐ ***Yes***, I *do know of and/or do have experience with obvious indicators that point to the presence or likely presence of contamination at the property*. Explain:

---

9. **Are you aware of any pending, threatened, or past litigation relevant to hazardous substances or petroleum products, in, on, or from the site?**

☐ ***No***, I *am not aware of any pending, threatened, or past litigation relevant to hazardous substances or petroleum products, in, on, or from the site.*

☐ ***Yes***, I *am aware of pending, threatened, or past litigation relevant to hazardous substances or petroleum products, in, on, or from the site*. Explain:

---

10. **Are you aware of any pending, threatened, or past administrative proceedings relevant to hazardous substances or petroleum products in, on, or from the site?**

☐ ***No***, I *am not aware of any pending, threatened, or past administrative proceedings relevant to hazardous substances or petroleum products in, on, or from the site.*

☐ ***Yes***, I *am aware of pending, threatened, or past administrative proceedings relevant to hazardous substances or petroleum products in, on, or from the site.* Explain:

---

11. **Are you aware of any notice from any government entity regarding any possible violation of environmental laws or possible liability relating to hazardous substances or petroleum products?**

☐ ***No***, I *am not aware of any notice from any government entity regarding any possible violation of environmental laws or possible liability relating to hazardous substances or petroleum products.*

☐ ***Yes***, I *am aware of a notice, or notices, from a government entity (or multiple government entities) regarding a possible violation of environmental laws or possible liability relating to hazardous substances or petroleum products.* Explain:

Rincon Project 18-06852

Property Owner Interview Questionnaire

Rincon Project 18-06852
Site Name and Full Address: _____

This questionnaire should be completed by the current property owner or a designated representative of the current property owner. We respectfully request that you fill out and return this form (via fax 805-644-4455 or email _____) to us within one week from the date of this transmittal.

1)	**Was the subject property or any adjoining property ever used as:** ☐ a gasoline or other fueling station ☐ a motor vehicle repair facility ☐ a commercial printing facility ☐ a dry cleaners ☐ a photo developing laboratory ☐ a metal plating facility ☐ a farm ☐ a junkyard or landfill ☐ a waste treatment, storage, disposal, processing or recycling facility ☐ a machine shop ☐ a manufacturing facility ☐ an oil production facility (including oil wells) ☐ any other industrial use (*please check all that apply and describe*)

2)	**Please describe the current land uses of the subject property and those surrounding your property. Please indicate all businesses/companies located on property.**	
2a	**Current Use of Subject Property** (*please check all that apply*) ☐ Commercial (retail, offices, etc.) ☐ Residential (single family or apartments) ☐ Industrial (manufacturing, warehousing, processing) ☐ Other- Please Describe	(*please include a brief description of current operation*)
2b	**Current Use of Northern Adjoining Properties** (*please check all that apply*) ☐ Commercial (retail, offices, etc.) ☐ Residential (single family or apartments) ☐ Industrial (manufacturing, warehousing, processing) ☐ Other- Please Describe	(*please include a brief description of current operation*)
2c	**Current Use of Southern Adjoining Properties** (*please check all that apply*) ☐ Commercial (retail, offices, etc.) ☐ Residential (single family or apartments) ☐ Industrial (manufacturing, warehousing, processing) ☐ Other- Please Describe	(*please include a brief description of current operation*)
2d	**Current Use of Western Adjoining Properties** (*please check all that apply*) ☐ Commercial (retail, offices, etc.) ☐ Residential (single family or apartments) ☐ Industrial (manufacturing, warehousing, processing) ☐ Other- Please Describe	(*please include a brief description of current operation*)

Rincon Project 18-06852
Site Name and Full Address: _____

2e	**Current Use of Eastern Adjoining Properties** (*please check all that apply*) ☐ Commercial (retail, offices, etc.) ☐ Residential (single family or apartments) ☐ Industrial (manufacturing, warehousing, processing) ☐ Other- Please Describe	(*please include a brief description of current operation*)

3)	**Please describe the previous land uses of your property and those surrounding your property. Include property ownership and dates of operation if known.**	
3a	**Previous Use of Subject Property** (*please check all that apply*) ☐ Commercial (retail, offices, etc.) ☐ Residential (single family or apartments) ☐ Industrial (manufacturing, warehousing, processing) ☐ Other- Please Describe	(*please include a brief description of previous operations, former property owners, and dates of operation*)
3b	**Previous Use of Northern Adjoining Properties** (*please check all that apply*) ☐ Commercial (retail, offices, etc.) ☐ Residential (single family or apartments) ☐ Industrial (manufacturing, warehousing, processing) ☐ Other- Please Describe	(*please include a brief description of previous operations*)
3c	**Previous Use of Southern Adjoining Properties** (*please check all that apply*) ☐ Commercial (retail, offices, etc.) ☐ Residential (single family or apartments) ☐ Industrial (manufacturing, warehousing, processing) ☐ Other- Please Describe	(*please include a brief description of previous operations*)
3d	**Previous Use of Western Adjoining Properties** (*please check all that apply*) ☐ Commercial (retail, offices, etc.) ☐ Residential (single family or apartments) ☐ Industrial (manufacturing, warehousing, processing) ☐ Other- Please Describe	(*please include a brief description of previous operations*)
3e	**Previous Use of Eastern Adjoining Properties** (*please check all that apply*) ☐ Commercial (retail, offices, etc.) ☐ Residential (single family or apartments) ☐ Industrial (manufacturing, warehousing, processing) ☐ Other- Please Describe	(*please include a brief description of previous operations*)

4)	**Who is the current owner of the property?**	

5)	**When did current ownership begin?**	

Rincon Project 18-06852
Site Name and Full Address: _____

6)	**What is the age of the on-site facility?**	

7)	**Who is the previous owner of the property?**	

8)	**Please indicate the property's current**
	electrical service provider -
	water service provider -
	natural gas service provider -
	sewer service provider -
	solid waste hauler -

9)	**To the best of your knowledge, has your facility previously or does your facility currently store or use any of the following in individual containers larger than 5 gallons in volume or 50 gallons in the aggregate?** (*if Yes or Unknown, include how many, type, and size*)	
	☐ Damaged or discarded automotive or industrial batteries	
	☐ Paints	
	☐ Oils or solvents	
	☐ Motor vehicle fuel	
	☐ Pesticides or herbicides	
	☐ Other chemicals or hazardous substances	

10)	**Please indicate any wastes generated at the facility.**		
	Hazardous waste:	**Quantity:**	**Disposal Method:**

Rincon Project 18-06852
Site Name and Full Address: _____

11)	**Are there currently or to the best of your knowledge have there been previously, any industrial drums (typically 55 gallon) or sacks of chemicals located on the property or at the facility?**	
	☐ Yes ☐ No ☐ Unknown	*If Yes or Unknown, please describe*

12)	**Are there currently or to the best of your knowledge have there been previously, any evidence of fill dirt having been brought onto the property that originated from a contaminated site or that is of an unknown origin?**	
	☐ Yes ☐ No ☐ Unknown	*If Yes or Unknown, please describe*

13)	**Are there currently or to the best of your knowledge have there been previously, any pits, ponds or lagoons located on the property in connection with waste treatment or waste disposal?**	
	☐ Yes ☐ No ☐ Unknown	*If Yes or Unknown, please describe*

14)	**Are there currently or to the best of your knowledge have there been previously, any sumps, clarifiers, or solvent degreasers on the property?**	
	☐ Yes ☐ No ☐ Unknown	*If Yes or Unknown, please describe*

15)	**Are there currently or to the best of your knowledge have there been previously, any stained soil on the property?**	
	☐ Yes ☐ No ☐ Unknown	*If Yes or Unknown, please describe*

16)	**Are there currently or to the best of your knowledge have there been previously, any storage tanks (above or below ground) located on the property?**	
	☐ Yes ☐ No ☐ Unknown	*If Yes or Unknown, please describe*

Rincon Project 18-06852
Site Name and Full Address: _____

17)	**Are there currently or to the best of your knowledge have there been previously, any vent pipes, fill pipes, or access ways (etc.) indicating a fill pipe protruding from the ground on the property or adjacent to any structure located on the property?**	
	☐ Yes ☐ No ☐ Unknown	*If Yes or Unknown, please describe*

18)	**If the property is served by a private well or non-public water system, have contaminants been identified in the well or system that exceed guidelines applicable to the water system or has the well been designated as contaminated by any government agency?**	
	☐ Yes ☐ No ☐ Unknown	*If Yes or Unknown, please describe*

19)	**Are there currently or to the best of your knowledge have there been previously, any flooring, drains, or walls located within the facility that are stained by substances other than water, or are emitting foul odors?**	
	☐ Yes ☐ No ☐ Unknown	*If Yes or Unknown, please describe*

20)	**To the best of your knowledge has your facility previously or does your facility currently, discharge wastewater on or adjacent to the property other than storm water into a sanitary sewer system?**	
	☐ Yes ☐ No ☐ Unknown	*If Yes or Unknown, please describe*

21)	**Have any of the following ever been dumped above grade, buried and/or burned on the property?** (*please check all that apply and describe if possible*)	
	☐ Hazardous substances	
	☐ Petroleum products	
	☐ Unidentified waste materials	
	☐ Tires	
	☐ Automotive or industrial batteries	
	☐ Other waste materials (please describe)	

Rincon Project 18-06852
Site Name and Full Address: _____

22)	**Are there currently or to the best of your knowledge have there been previously, a transformer, capacitor or any hydraulic equipment on the property?**	
	☐ Yes ☐ No ☐ Unknown	*If Yes or Unknown, please describe*

23)	**Are there currently or to the best of your knowledge have there been previously any records indicating the presence of PCBs?**	
	☐ Yes ☐ No ☐ Unknown	*If Yes or Unknown, please describe*

24)	**Are there currently or to the best of your knowledge have there been previously any records indicating the presence of pesticides or herbicides?**	
	☐ Yes ☐ No ☐ Unknown	*If Yes or Unknown, please describe*

25)	**Do you have any knowledge of environmental liens that may have been recorded against the property or governmental notification relating to past or recurrent violations of environmental laws with respect to the property or any facility located on the property?**	
	☐ Yes ☐ No ☐ Unknown	*If Yes or Unknown, please describe*

26)	**Do you have any knowledge of activity and use limitations (AULs) such as engineering controls, deed restrictions, land use restrictions, or institutional controls that may have been recorded against the property?**	
	☐ Yes ☐ No ☐ Unknown	*If Yes or Unknown, please describe*

27)	**Have you been informed of the past or current existence of hazardous substances, petroleum products, or environmental violations with respect to the property or any facility located on the property?**	
	☐ Yes ☐ No ☐ Unknown	*If Yes or Unknown, please describe*

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E 2247-16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E 1528-14) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

EXECUTIVE SUMMARY

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Federal RCRA generators list

RCRA-LQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

A review of the RCRA-LQG list, as provided by EDR, and dated 03/01/2018 has revealed that there are 2 RCRA-LQG sites within approximately 0.25 miles of the target property.

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 03/01/2018 has revealed that there are 9 RCRA-SQG sites within approximately 0.25 miles of the target property.

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 07/30/2018 has revealed that there are

7 ENVIROSTOR sites within approximately 1 mile of the target property.

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 03/01/2018 has revealed that there are 2 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

DRYCLEANERS: A list of drycleaner related facilities that have EPA ID numbers. These are facilities with certain SIC codes: power laundries, family and commercial; garment pressing and cleaners' agents; linen supply; coin-operated laundries and cleaning; drycleaning plants except rugs; carpet and upholster cleaning; industrial launderers; laundry and garment services.

A review of the DRYCLEANERS list, as provided by EDR, has revealed that there are 9 DRYCLEANERS sites within approximately 0.25 miles of the target property.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there are 5 EDR Hist Auto sites within approximately 0.125 miles of the target property.

EXECUTIVE SUMMARY

EDR Hist Cleaner: EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Cleaner list, as provided by EDR, has revealed that there are 6 EDR Hist Cleaner sites within approximately 0.125 miles of the target property.

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and

MOORE WHITE MEDICAL GRP (Continued) **1000685805**

corrective action activities required under RCRA.

Annual Waste Handled:

Waste code: D001
Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.
Amount (Lbs): 173

Waste code: D002
Waste name: A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH, IS OFTEN USED BY INDUSTRIES TO CLEAN OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN

WALGREENS #6516 (Continued) **1016954316**

THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE DISPOSED, THE WASTE WOULD BE A CORROSIVE HAZARDOUS WASTE.
Amount (Lbs): 150

Waste code: D007
Waste name: CHROMIUM
Amount (Lbs): 1

Waste code: D009
Waste name: MERCURY
Amount (Lbs): 11

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Case Type:	Cleanup Program Site
Case Worker:	NA
Local Agency:	Not reported
RB Case Number:	1237
File Location:	Not reported
Potential Media Affected:	Not reported
Potential Contaminants of Concern:	Tetrachloroethylene (PCE), Heating Oil / Fuel Oil, Methane
Site History:	Background: Based on information generated from the RAW, the Site was initially developed in the late 1920s or early 1930s. Since that time the Site had been occupied by a combination of single-family residences and commercial structures including a former dry cleaners and a three-story church with a basement. The 3.2-acre Site has been vacant since 2006 and is planned to be redeveloped for residential housing complete with ground floor retail and two levels of subterranean parking. The Site is situated within the Central Sub-basin of the Coastal Plain of the Los Angeles Groundwater Basin. Based on the information from the soil borings completed on the Site, the Site is generally underlain by alternating silt and clay layers with occasional fine grained sand layers to approximately 30 feet below ground surface (bgs). Groundwater beneath the Site was encountered at depths ranging between 17 to 24 feet bgs. Due to a lack of appropriate onsite groundwater monitoring wells, groundwater flow direction or gradient has not been established. Since 1999,

BRE 5220 WILSHIRE (Continued) **S109349199**

several Phase-I and Phase-II environmental investigations were conducted at the Site. Results of Phase-I investigations revealed no evidence of recognized environmental conditions (RECs) except for three following areas of concern (AOCs): AA Custom Cleaners (732 South La Brea) operated a dry cleaning from 1986 through 1996. Two 120-gallon and 280-gallon waste oil underground storage tanks (USTs) were reportedly removed from the Site, however no record of this removal is found. Two hydraulic passenger elevators and one former hydraulic service elevator that was located within the Wilshire Building since 1960. Remedial Action Plan: The proposed Site redevelopment plan includes construction of the subterranean Parking structure. This would require significant Site grading activities that would result in excavation of nearly the entire Site to approximately 16 feet to 20 feet below current street grade. Consequently, it is our understanding that this redevelopment and related excavation will remove all soil up to or below the water table across the entire of the 3.2-acre Site. Due to the relatively shallow depth to groundwater (approximately 16-20 feet bgs), dewatering and removal of the impacted groundwater is expected during the proposed removal activities.

Environmental Interest/Information System

ENVIRONMENTAL SALVAGE LTD (Continued) **1000261669**

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Underground injection activity: No
On-site burner exemption: No
Furnace exemption: No
Used oil fuel burner: No
Used oil processor: No
User oil refiner: No
Used oil fuel marketer to burner: No
Used oil Specification marketer: No
Used oil transfer facility: No
Used oil transporter: No

. Waste code: D001
. Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

FINDS:

Registry ID: 110002753556

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Site History:	The property is located on the southeastern corner of Citrus Avenue and Wilshire Boulevard in Los Angeles. The property was previously used as a gas station (Phillips Petroleum Company) from 1934 to 1979. The subject property is currently comprised of a two-story commercial

HIGHLAND EXPRESS CLEANERS (Continued) **S103967778**

building , which houses several different businesses including the dry cleaning store (5028 -5044 Wilshire Boulevard), and two one-story buildings, consisting of a Starbucks Coffee store (5020 Wilshire Boulevard) and a flower shop (5032 Wilshire Boulevard). In addition, based on the records obtained from the City of Los Angeles Building & Safety Department, the adjacent property at 5000 Wilshire Boulevard (7-11 Store) was a gas station (Union Oil Company) from 1941 to 1961.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 08/13/2018
Date Data Arrived at EDR: 10/04/2018

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 08/13/2018
Date Data Arrived at EDR: 10/04/2018

Next Scheduled EDR Contact: 01/14/2019
Data Release Frequency: Quarterly

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Date of Government Version: 10/15/1991

Federal Delisted NPL site list

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 08/13/2018

Federal CERCLIS list

FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 11/07/2016
Date Data Arrived at EDR: 01/05/2017
Date Made Active in Reports: 04/07/2017
Number of Days to Update: 92

Data Release Frequency: Varies

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Data Release Frequency: Quarterly

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Date of Government Version: 03/01/2018
Date Data Arrived at EDR: 03/28/2018
Date Made Active in Reports: 06/22/2018

Federal RCRA generators list

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

Date of Government Version: 03/01/2018

RCRA-CESQG: RCRA - Conditionally Exempt Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

State- and tribal - equivalent CERCLIS

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

RCRA NonGen / NLR: RCRA - Non Generators / No Longer Regulated

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing
A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

WDR: Waste Discharge Requirements Listing
In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

CERS: CalEPA Regulated Site Portal Data
The CalEPA Regulated Site Portal database combines data about environmentally regulated sites and facilities in California into a single database. It combines data from a variety of state and federal databases, and provides an overview of regulated activities across the spectrum of environmental programs for any given location in California. These activities include hazardous materials and waste, state and federal cleanups, impacted ground and surface waters, and toxic materials

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

EDR Hist Cleaner: EDR Exclusive Historical Cleaners

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data
Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

UTM Y (Meters):	3769733.0
Elevation:	197 ft. above sea level

USGS TOPOGRAPHIC MAP

Target Property Map:	5630741 HOLLYWOOD, CA
Version Date:	2012

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

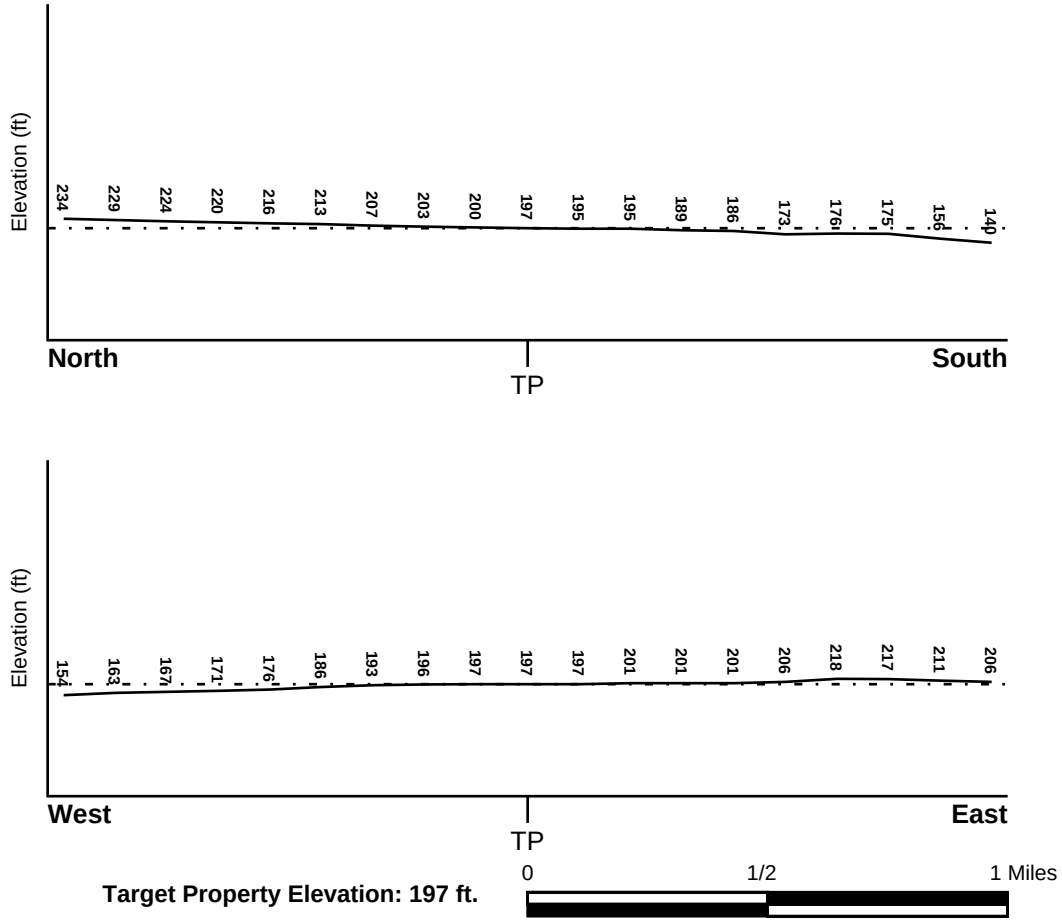

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General SSW

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

Flood Plain Panel at Target Property	FEMA Source Type
06037C1605F	FEMA FIRM Flood data

Additional Panels in search area:	FEMA Source Type
06037C1615F	FEMA FIRM Flood data

NATIONAL WETLAND INVENTORY

NWI Quad at Target Property	NWI Electronic Data Coverage
HOLLYWOOD	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Status:	Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

All of the information and opinions presented are those of the cited EPA report(s), which were completed under a Comprehensive Environmental Response Compensation and Liability Information System (CERCLIS) investigation.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

ROCK STRATIGRAPHIC UNIT

Era:	Cenozoic
System:	Quaternary
Series:	Quaternary

GEOLOGIC AGE IDENTIFICATION

Category: Stratifed Sequence

Geologic Age and Rock Stratigraphic Unit Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - a digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps. The following information is based on Soil Conservation Service STATSGO data.

Soil Component Name: URBAN LAND

Soil Surface Texture: variable

Hydrologic Group: Not reported

Soil Drainage Class: Not reported

Hydric Status: Soil does not meet the requirements for a hydric soil.

Corrosion Potential - Uncoated Steel: Not Reported

Depth to Bedrock Min: > 10 inches

Depth to Bedrock Max: > 10 inches

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Layer Information							
	Boundary			Classification			
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil	Permeability Rate (in/hr)	Soil Reaction (pH)
1	0 inches	6 inches	variable	Not reported	Not reported	Max: 0.00 Min: 0.00	Max: 0.00 Min: 0.00

OTHER SOIL TYPES IN AREA

Based on Soil Conservation Service STATSGO data, the following additional subordinant soil types may appear within the general area of target property.

Soil Surface Textures:
sandy loam
gravelly - sandy loam
silt loam
clay
fine sand
gravelly - sand
sand
fine sandy loam

Surficial Soil Types:
sandy loam
gravelly - sandy loam
silt loam
clay
fine sand
gravelly - sand
sand
fine sandy loam

Shallow Soil Types:
fine sandy loam
gravelly - loam
sandy clay
sandy clay loam
clay
silty clay
sand

Deeper Soil Types:
gravelly - sandy loam
sandy loam
very gravelly - sandy loam
stratified
very fine sandy loam
weathered bedrock
sand
gravelly - fine sandy loam
silty clay loam
clay loam

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map
Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.
Source: FEMA
Telephone: 877-336-2627
Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory
Source: Department of Fish and Wildlife
Telephone: 916-445-0411

HYDROGEOLOGIC INFORMATION

AQUIFLOW^{R} Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

STATE RECORDS

Water Well Database
Source: Department of Water Resources
Telephone: 916-651-9648

California Drinking Water Quality Database
Source: Department of Public Health
Telephone: 916-324-2319
The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

OTHER STATE DATABASE INFORMATION

California Oil and Gas Well Locations
Source: Department of Conservation
Telephone: 916-323-1779
Oil and Gas well locations in the state.

RADON

State Database: CA Radon
Source: Department of Health Services
Telephone: 916-324-2208
Radon Database for California

Area Radon Information
Source: USGS
Telephone: 703-356-4020
The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones
Source: EPA
Telephone: 703-356-4020
Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

GENERATOR CERTIFICATION

Generator certifies that waste described on attached manifest is Waste Tetrachloroethylene generated by dry-cleaning operation and it has been packaged in accordance transporter's specification. This also certifies that all ownership of above described materials are transferred to transporter for the purpose of recycling, incineration, disposal or purpose deemed appropriate. Generator understands that all accounts are on C.O.D. basis. If no one is available to make payment at the time of service, generator will make full pay within 10 days of the date of service. No statements will be sent. Generator hereby asks AIS to mail the generator a monthly reminder notice on all unpaid invoices. The ch for this additional service is $3.00 per reminder notice per month per invoice. Generator agrees to pay AIS 1.75% interest per month on all past due invoices. In the eve default the generator also agrees to pay AIS any and all costs including collection costs, court cost and attorney fees. Generator agrees to manage and/or store all hazar waste containers in a sealed containment area (system) that is designed and operated in accordance with subsection (b) of Section 66264.175 of Title 22, California Code of Regul (CCR) and also agrees to fully comply with Article 9 of Title 22, CCR. Generator further agrees to hold harmless AIS, its officers, agents and employees from all claims liabilities in connection with any and all soil and ground contamination at the generators location(s) and surrounding properties.

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

EDR Topographic Map Library has been searched by EDR and maps covering the target property location as provided by Rincon were identified for the years listed below. EDR's Historical Topo Map Report is designed to assist professionals in evaluating potential liability on a target property resulting from past activities. EDRs Historical Topo Map Report includes a search of a collection of public and private color historical topographic maps, dating back to the late 1800s.

Disclaimer - Copyright and Trademark Notice

This Report contains certain information obtained from a variety of public and other sources reasonably available to Environmental Data Resources, Inc. It cannot be concluded from this Report that coverage information for the target and surrounding properties does not exist from other sources. **NO WARRANTY EXPRESSED OR IMPLIED, IS MADE WHATSOEVER IN CONNECTION WITH THIS REPORT. ENVIRONMENTAL DATA RESOURCES, INC. SPECIFICALLY DISCLAIMS THE MAKING OF ANY SUCH WARRANTIES, INCLUDING WITHOUT LIMITATION, MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE OR PURPOSE. ALL RISK IS ASSUMED BY THE USER. IN NO EVENT SHALL ENVIRONMENTAL DATA RESOURCES, INC. BE LIABLE TO ANYONE, WHETHER ARISING OUT OF ERRORS OR OMISSIONS, NEGLIGENCE, ACCIDENT OR ANY OTHER CAUSE, FOR ANY LOSS OR DAMAGE, INCLUDING, WITHOUT LIMITATION, SPECIAL, INCIDENTAL, CONSEQUENTIAL, OR EXEMPLARY DAMAGES. ANY LIABILITY ON THE PART OF ENVIRONMENTAL DATA RESOURCES, INC. IS STRICTLY LIMITED TO A REFUND OF THE AMOUNT PAID FOR THIS REPORT.** Purchaser accepts this Report "AS IS". Any analyses, estimates, ratings, environmental risk levels or risk codes provided in this Report are provided for illustrative purposes only, and are not intended to provide, nor should they be interpreted as providing any facts regarding, or prediction orforecast of, any environmental risk for any property. Only a Phase I Environmental Site Assessment performed by an environmental professional can provide information regarding the environmental risk for any property. Additionally, the information provided in this Report is not to be construed as legal advice.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

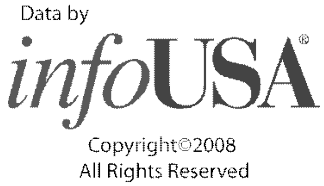

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1920 through 2014. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 332 feet of the target property.

A summary of the information obtained is provided in the text of this report.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Rincon were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.
