Project Description: (please use a separate page if necessary)

The Glenn County Public Works Agency, in cooperation with the Federal Highway Administration (FHWA) and the California Department of Transportation (Caltrans), is proposing to replace Bridge No. 11C-0163 on County Road 303 over South Fork Willow Creek. The primary objective of this project is to replace the existing structurally deficient bridge with a new wider structure. The project is funded through the Federal Aid Highway Bridge Program (HBP) and Federal Toll Credits. The bridge was last inspected in August 2022 and given a Structure Evaluation of "intolerable- replace". The new roadway for County Road 303 will be designed in accordance with the site constraints, Glenn County design standards, and AASHTO's Policy on Geometric Design of Highways and Streets. Utilizing Glenn County Standards, the roadway width for rural and agricultural developments is two-12' lanes with two-4' shoulders for a total width of 32'. This width is preferred by the County for traffic safety due to oversized agricultural equipment that frequently uses the road and bridge with the added consideration for the anticipated width increase of modern farm equipment.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
