It's a good idea. I'm for it.

Subject: Vertical Bridge Monopine Project
Permit UP 23-03 and Initial Study IS 23-07

Dear Director Mireya Turner,

Thank you for the letters received informing me and encouraging me to write comments regarding the above project.

The project location is 6720 Leslie Place, Lucerne CA. And I am assuming that this location is more than 1,000 FT. from my beautiful property in Lucerne CA. I have no objection to this project which I believe will improve the communication system around our area.

Thank you.

Kind Regards,

Felix A. Baquiran

Dear Mr. Porter

I am the property owner of 4368 Highland Rd. APN 034-483-080-000

My interest and concerns are as follows.

Is the proposed tower within a 1000 feet of my property?

Where can I access the utility plan both wet and dry for the proposed project?

Is this a 5 g tower?

Any and all construction and grading plans. Where can they be viewed?

Kind regards,

John Stephen Ross
