A de minimis condition is not a recognized environmental condition.
SPH	separate phase hydrocarbons
SVE	soil vapor extraction
TPH-G	gasoline-range total petroleum hydrocarbons
USGS	United States Geological Survey
UST	underground storage tank
VCP	Voluntary Cleanup Program

EXECUTIVE SUMMARY

This report summarizes the results of the Phase I Environmental Site Assessment (ESA) of the prospective development property located at northeast of the intersection of Jackson Street and Avenue 42 in Indio, California. The Riverside County parcel numbers for the subject property are 692670001, 692670004, 692670010, 692670011, 692670014, 692670017, and 692040019. The approximately 6.34-acre subject property is vacant, generally flat, and covered with bare soil and crushed rock. Paved driveways providing access to the subject property are present at the south and west sides of the subject property.

The subject property was vacant and undeveloped until the early 1950s. At that time the portions of the Site were developed as orchards. By the mid-1960s, agricultural uses were terminated, and the subject property consisted of vacant, bare land. In the early 1970s, the southern portion of the property was irrigated. The specific uses of the irrigated portion of the subject property at that time are unknown. Also, in the early 1970s, the southeast corner of the subject property was developed as a parking area for the adjacent The Lights at Indio Golf Course. The Site has remained generally unchanged since that time, except that recently the Site has been graded and access drive lanes have been established to prepare for further development of the Site.

Offsite, properties near the subject property were generally in use for agriculture through the 1990s. By the mid-1960s, The Lights at Indio Golf Course north and east of the subject property had been established, and by 2010, the Indio Town Center shopping center south of the Site (across Avenue 42) had been established. By the early 2010s the AutoZone auto parts store adjacent and west of the Site had been constructed, and by 2014, an Arco-branded fuel station and car wash was established adjacent and west of the subject property. The most recent inspection of the Arco facility (in March 2021) did not identify any violations. Based on the absence of reported releases and the relatively recent construction of the facility, including modern containment and interstitial monitoring systems, the Arco-branded fuel station and car wash is not considered a recognized environmental condition (REC) in connection with the subject property.

Based on the results of this Phase I ESA, we did not identify RECs associated with the subject property.

This Executive Summary should be used only in the context of the full report for which it is intended.

1.0 INTRODUCTION

This report summarizes the results of our Phase I Environmental Site Assessment (ESA) of the prospective development property located at northeast of the intersection of Jackson Street and Avenue 42 in Indio, Riverside County, California. The property is currently owned by Can Do LLC and is currently vacant. The Site has been graded and covered with crushed rock. Access driveways are present, and it appears that underground utilities are present in some areas. The property is identified as the "subject property" for the purposes of this Phase I ESA report. The subject property includes Riverside County parcels 692670001, 692670004, 692670010, 692670011, 692670014, 692670017, and 692040019, The subject property is shown relative to surrounding physical features on the Vicinity Map, Figure 1. The layout of the subject property and surrounding properties is shown on the Site Plan, Figure 2.

Our study was completed at the request of Tom Carpenter of Frontier Real Estate Investments, Inc., representing Can Do LLC. We understand that Can Do LLC plans to purchase the subject property and that the results of this Phase I ESA will be used by Can Do LLC as part of their pre-acquisition evaluation of potential environmental liabilities associated with ownership and potential redevelopment of the subject property. This report has been prepared for the exclusive use of Can Do LLC. Because this environmental report is not intended for use by others, no one except the Can Do LLC should rely on this report without first conferring with GeoEngineers.

1.1. Phase I Scope of Services

The purpose of this Phase I ESA is to identify recognized environmental conditions (RECs) in connection with the subject property. Our scope of services is in general accordance with ASTM International (ASTM) Standard E 1527-21 for Phase I ESAs and the U.S. Environmental Protection Agency's (EPA's) Federal Regulation 40 CFR Part 312 "Standards and Practices for All Appropriate Inquiries (AAI)," which are intended to permit a user to satisfy one of the requirements to qualify for the innocent landowner, contiguous property owner or bona fide prospective purchaser (BFPP) limitations on liability under the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA). This Phase I ESA also meets ASTM Standard E 1527-13. The ASTM standard outlines the practice that constitutes "all appropriate inquiry into the previous ownership and uses of the property consistent with good commercial or customary practice" as defined by 42 U.S.C. §9601. Our services, described below, were completed in general accordance with our proposal dated November 18, 2022. These services were completed by, or under the direction of, an environmental professional as described in 40 CFR Part 312.

Our specific scope of services for this Phase I ESA was as follows:

1. Review readily available geotechnical reports, environmental reports and/or other relevant documents pertaining to environmental conditions at the subject property.
2. Review the results of a federal, state, local and tribal environmental database search provided by an outside environmental data service for listings of properties with known or suspected environmental concerns on or near the subject property within the search distances specified by ASTM. Our database and file review search also included a review of EPA, CalEPA, and Riverside County websites for readily available information (publications and reports) concerning areawide soil and groundwater contamination on or adjacent to the subject property.
3. Review user-provided information and evaluate the significance of any identified environmental liens or activity use limitations (AULs).
4. Review regulatory agency files regarding listed properties of potential environmental concern relative to the subject property.
5. Identify a key site manager with specific knowledge of past and present property use and request that the key site manager meet a GeoEngineers' representative on-site for an interview during the visual site reconnaissance and/or an interview by telephone if he or she is not available during the site reconnaissance. We also identified and interviewed others familiar with the use and history of the subject property, as available and appropriate, including representatives of current occupants that likely use, store, treat, handle, or dispose of hazardous substances now or in the past.
6. Interview current owners or occupants of neighboring properties as necessary to gather information or fill property use data gaps regarding the subject property.
7. Interview past owners and occupants of the subject property as necessary to gather information or fill property use data gaps regarding property use history.
8. Interview a representative of the local fire department, health department and/or CalEPA as necessary to gather information or fill data gaps regarding the history of the subject property and surrounding properties relative to the likely presence of hazardous substances.
9. Review historical aerial photographs, fire insurance maps, building department records, city directories, chain-of-title reports, and land use and tax assessor records, as available and appropriate, to identify past development history on and adjacent to the subject property relative to the possible use, generation, storage, release, or disposal of hazardous substances. We attempted to identify uses of the subject property from the present back to the time that records show no apparent structures on the subject property, back to the time that the property was first used for residential, agricultural, commercial, industrial, or governmental purposes, or back to 1940, whichever is earliest.
10. Review current United States Geological Survey (USGS) topographic maps to identify the physiographic setting of the subject property and provide a statement on the local geologic, soil and groundwater conditions based on our general experience and sources such as geologic maps and soil surveys.
11. Conduct a visual reconnaissance of the subject property and adjacent properties to identify visible evidence of RECs.
12. Identify the source(s) of potable water for the subject property and current heating and sewage disposal system(s) used at the subject property, if any, and their age if readily ascertainable.

13. Identify data gaps relative to the Phase I ESA study findings.
14. Provide a written summary of the Phase I ESA results and identified RECs, CRECs, HRECs, *de minimis* conditions[1] and data gaps[2] as appropriate, along with our opinion and recommendations regarding the potential for contamination by hazardous substances at the subject property and any significant data gaps identified.

1.2. Special Considerations

Our scope of services did not include an environmental compliance audit or an evaluation for the presence of lead-based paint, toxic mold, polychlorinated biphenyls (PCBs) in light ballasts, radon, lead in drinking water, asbestos-containing building materials, urea-formaldehyde insulation in on-site structures or debris or other potentially hazardous building materials. Soil, groundwater, soil vapor, indoor air or surface water sampling was not part of our Phase I ESA services.

1.3. Report Shelf Life

The User of this Phase I ESA should be aware that ASTM E 1527-21 establishes that a Phase I ESA is viable when conducted within 180 days prior to the date of property acquisition or intended transaction and that a report completed within one year prior to the date of acquisition or intended transaction may be used provided that the following scope elements were updated within 180 days prior to the transaction: interviews with owners, operators, and occupants, a search for recorded environmental cleanup liens (a user responsibility), reviews of government records, visual inspection of the subject and adjacent properties, and the declaration by the environmental professional.

2.0 USER-PROVIDED INFORMATION

We received responses to a user questionnaire, a copy of which is provided in Appendix A. According to the responses from the user-provided information (for example, review of title records for activity and use limitations and environmental liens, specialized knowledge or experience, commonly known information regarding the subject property, etc.), the user did not provide any specific findings that suggest a REC or potential REC relative to the subject property.

2.1. Environmental Liens or Activity and Use Limitations (AULs)

According to the USER, environmental liens and AULs for the subject property were evaluated by:

Transaction-Related Title Insurance Documentation. Review of preliminary title report or title commitment See ASTM 6.2.1 **and** Review of Institutional/Engineering Control Registry.

---

[1] A *de minimis* condition is defined ASTM E 1527-21 as a condition related to a release "that generally does not present a threat to human health or the environment and that generally would not be subject to an enforcement action if brought to the attention of the appropriate governmental agencies." A condition determined to be a *de minimis* condition is not a recognized environmental condition nor a controlled recognized environmental condition.

[2] A data gap is defined in ASTM E 1527-21 as "a lack of or inability to obtain information required by this practice despite good faith efforts by the environmental professional to gather such information."

Amended Preliminary Report, prepared by Ticor Title, September 14, 2022, Amended September 21, 2022 was provided by Can Do LLC and is included in Appendix A. The User did not identify recorded environmental liens in connection with the subject property.

A search of institutional control and engineering control registries was included in the database search report provided by a subcontracted regulatory list search service, Envirosite Corporation (Envirosite). The database search report is included in Appendix B and is discussed in more detail in Section 3.2. The subject property was not listed on the institutional or engineering control registries.

2.2. Summary of Previous Reports

Phase I Environmental Site Assessment, Project CA-3704, Riverside County Parcel 692-670-009, Indio, California, prepared by Cascadia Associates, LLC, April 21, 2021, was provided for our review. The report was prepared for an approximately 1-acre portion of the subject property. No RECs were identified in the report.

3.0 RECORDS REVIEW

3.1. Location and Setting

General information, property use(s) and environmental setting of the subject property area are summarized in Table I below. The location is shown relative to surrounding physical features in Figure 1. The current layout of the subject property and surrounding property uses are shown in Figure 2.

TABLE I. SUBJECT PROPERTY INFORMATION

Topographic Map	USGS, 7.5-minute Indio, California topographic quadrangle map dated 2018.
Address	No physical address has been established.
Tax Parcel Number	APN 692670001, 692670004. 692670010, 692670011, 692670014, 692670017, and 692040019
Approximate Area	6.34 acres
Existing Use(s)	Vacant, graded land, prepared for retail commercial development
Geologic Setting	Coachella Valley of Colorado Desert
Nearest Surface Water Bodies	Artificial golf course lake, ¼ mile east
Approximate Surface Elevation	5 feet below mean sea level
Soil and Geologic Conditions	Soil is Indio series, very fine sandy loam.
Depth to Groundwater	Groundwater is approximately 15 to 30 feet below the ground surface (bgs).
Inferred Direction of Shallow Groundwater Flow	The inferred groundwater flow direction in the Site region is to the northeast.

Our knowledge of the general physiographic setting, geology, and groundwater occurrence in the vicinity of

the subject property is based on our review of the maps and reports listed (see References, Section 8.0), and our general experience in the area.

3.2. Standard Environmental Database Search

GeoEngineers reviewed the results of a search of pertinent environmental regulatory lists and databases for current or previous facilities listed at addresses located within ASTM-specified distances from the subject property. The search was performed on November 21, 2022. The information reviewed was provided by a subcontracted regulatory list search service, Envirosite. The Envirosite report is presented in Appendix B. The report includes details regarding the listed facilities identified and maps showing the approximate locations of the listed facilities relative to the subject property.

GeoEngineers reviewed the search results for listings pertaining to the subject property. Adjacent and nearby listings within the ASTM-specified distances from the subject property were evaluated for potential impact to the subject property. Sites included in Envirosite's "unmappable list" (database entries that could not be mapped by Envirosite because of insufficient addresses) were checked for facilities possibly located within ASTM-specified distances from the subject property.

3.2.1. Database and Regulatory Findings for the Subject Property

The subject property address was not identified on the regulatory database lists or on Envirosite's proprietary databases of historic service stations, auto repair and dry cleaners.

3.2.2. Screening Criteria for other Listed Facilities

We screened the listed facilities within the ASTM search distances relative to the criteria described below. The results of the screening are presented in Section 3.2.3.

1. Adjacent Sites
    a. If adjacent sites were listed, they were retained for additional review. Any adjacent properties identified on Envirosite's proprietary databases of historic dry cleaner or automotive service station sites but not on regulatory databases are discussed in Section 3.4.
2. Non-Adjacent Sites
    a. Any non-adjacent sites included in the Envirosite report only by virtue of being listed in the RCRA, AST, UST, HMIRS, FINDS, ICIS and/or NPDES databases (see list of acronyms on page iii) were not further reviewed because these databases are not indicative of known or suspected releases at a site. Sites listed in these databases only are considered low risk of contaminant migration and not potential RECs.
    b. A screening radius of approximately 1/4 mile was used to identify listed non-adjacent sites potentially warranting further review based on our knowledge of soil and groundwater conditions at the subject property. Specifically, sites within approximately 1/4-mile of the subject property and upgradient or cross-gradient that were listed in the Federal, State or Tribal Equivalent databases of CERCLIS, NPL, HSL, CSCSL, CSCSL NFA, VCP, ICR, Solid Waste Landfill, LUST, CDL, or Institutional Control Registries (see acronyms and abbreviations) were further reviewed because these databases indicate a reported known or suspected release at a site. We requested Ecology files for listed sites on these databases

c. Sites that were not confirmed or suspected contaminated sites, not leaking UST sites or located outside a 1/4-mile radius from the subject property were generally considered low risk of contaminant migration and not potential RECs.

3.2.3. Database and Regulatory Findings for Screened Listed Facilities

The following database-listed site(s) (Table II) met the screening criteria described above. We requested CalEPA and/or County of Riverside files for this site(s) (Section 3.3).

TABLE II. LISTED FACILITIES OF POTENTIAL CONCERN FOR CONTAMINANT MIGRATION

Listed Business	Listed Address	Distance from Site and Location	Type of Database and Database Information	Environmental Professional Opinion Based on Database Information
The Lights at Indio Golf Course	83040 Avenue 42	Adjacent and east of the subject property	Facility Registration System, HAZNET, HIST California Hazardous Materials Incident Report System, Hazardous Waste Generator	See Section 3.3.1.
Arco-Branded Fuel Station	41910 Jackson Street	Adjacent and west	CalEPA Sites, California Integrated Water Quality Systems, Environmental Protection Agency Enforcement and Compliance History Online, FID-UST, Facility Index Systems, HAZNET, RCRA-NonGen, Integrated Compliance Information Systems, Inactive Permit Compliance Facilities, National Pollutant Discharge Elimination System	See Section 3.3.1.
AutoZone	41850 Jackson St.	Adjacent and west	PA Compliance History Online, CalEPA Sites, Facility Index Systems, HAZNET, RCRA-NonGen, and Solid Waste Recycling	See Section 3.3.1.

3.3. Regulatory Agency File and Records Review

GeoEngineers requested reasonably ascertainable, pertinent records from Riverside County and CalEPA. Our review of the responsive records is presented below.

3.3.1. Review of State Regulatory Agency Files

The Lights at Indio Golf Course

The Lights at Indio Golf Course, which is at 83040 Avenue 42, adjacent and east of the subject property, is a LUST cleanup site. In 1986, a gasoline underground storage tank (UST), was removed from the facility

and replaced with an above ground storage tank (AST). Upon removal, holes were noted in the UST and an unauthorized release report was filed with the Indio Fire Department. From 1986 through 1987 twelve groundwater monitoring wells were reportedly installed at the facility. During installation of the monitoring wells, total petroleum hydrocarbons as gasoline (TPH-G) were detected in soil at concentrations up to 3,800 parts per million (ppm), and separate phase hydrocarbons (SPH) were encountered in the groundwater monitoring wells at thicknesses up to 6.1 feet. Groundwater was reportedly encountered at depths ranging from 15 to 30 feet below the ground surface (bgs).

In 1998 and 2001 the AST that replaced the former UST was vandalized and additional gasoline was released. In 1998, approximately 200 gallons of gasoline were released and in 2001, approximately 100 gallons of gasoline were released. Following the gasoline releases in 1998 and 2001, impacted surface soil was excavated from the release area and transported off-site for disposal. In 2001, a soil vapor extraction (SVE) system was installed at the facility. The SVE system operated from January 2002 through August 2004. An estimated 56,920 pounds or 7,857 gallons of hydrocarbons were removed from the release area during operational period of the SVE system.

Groundwater monitoring wells at the facility were sampled in 1986 and 1987. Sampling was once again resumed in 1996. During the 1996 sampling event, TPH-G and total xylenes were detected in one well at a concentration of 750 parts per billion (ppb) and 65 ppb, respectively. Samples collected from borings advanced in the release area after operation of the SVE system detected TPH-G at a concentration of 1.7 ppm at a depth of 15 feet bgs. Additional constituents including benzene, toluene, ethylbenzene, and methyl tert-butyl ether (MTBE) were not detected in the soil and/or groundwater samples.

In a letter dated September 16, 2005, the Riverside County Department of Environmental Health issued a no further action determination for the facility indicating that adequate remediation activities at the facility had been completed to address the release of petroleum hydrocarbons. In 2008 the groundwater monitoring wells at the facility were decommissioned. Groundwater elevation data collected during monitoring activities as the facility indicate that groundwater in the area flows to the northeast (away from the subject property). Based on the no further action determination issued by the Riverside County Department of Environmental Health for the facility and the inferred groundwater flow direction in the area, the release of petroleum hydrocarbons at The Lights at Indio Golf Course is not considered an REC in connection with the subject property.

Arco-Branded Fuel Station

An Arco-branded fuel station operates at 41910 Jackson Street, which is adjacent and west of the subject property. The facility is listed in the CalEPA Sites, California Integrated Water Quality Systems, Environmental Protection Agency Enforcement and Compliance History Online, FID-UST, Facility Index Systems, HAZNET, RCRA-NonGen, Integrated Compliance Information Systems, Inactive Permit Compliance Facilities, National Pollutant Discharge Elimination System, Enforced Permit Compliance Facilities, Regulated Facility Report, and UST databases. Reportedly, the facility was constructed in 2014. Chemicals stored at the facility include gasoline and diesel fuel in three USTs, and soaps and polishes associated with the car wash at the facility. Multiple violations have been recorded for the facility including failure to submit a Hazardous Material Response Plan to the appropriate regulatory agency, inappropriate labeling of waste generated at the facility, and failure to maintain interstitial monitoring equipment associated with the UST systems. The violations recorded for the facility have reportedly been corrected, and no releases of hazardous substances have been reported at the facility. The most recent inspection of the facility in March

2021 did not identify any violations. Based on the absence of reported releases and the relatively recent construction of the facility, including modern containment and interstitial monitoring systems, the Arco-branded fuel station and car wash is not considered an REC in connection with the subject property.

AutoZone Store

An AutoZone auto parts store operates at 41850 Jackson Street (adjacent and west of the subject property). The facility is listed in the EPA Compliance History Online, CalEPA Sites, Facility Index Systems, HAZNET, RCRA-NonGen, and Solid Waste Recycling databases. The facility is listed in these databases due to the storage, use, and off-site disposal of small quantities of chemicals including used oil, anti-freeze, and solvents associated with vehicle maintenance activities. No releases have been reported at the facility. Given the distance of the facility from the Site, and the absence of reported releases, the AutoZone Auto parts store is not considered an REC in connection with the subject property.

3.3.2. Review of Local Regulatory Agency Files

GeoEngineers requested files from Riverside County. Files relevant to this study are discussed above, in Section 3.3.1.

3.3.3. Areawide Contamination

We also conducted a search of CalEPA and Department of Toxic Substances Control (DTSC) websites for readily available information (publications and reports) that may concern areawide soil and groundwater contamination on or adjacent to the subject property. Areawide contamination reports pertaining to the subject property vicinity were not identified.

3.4. Historical Resources

Our understanding of the history of the subject property is based on a review of the information from the historical resources listed in Table III. Selected historical research documents are included in Appendix C.

TABLE III. HISTORICAL RESOURCES REVIEWED

Description	Provider or Interviewee	Dates of Coverage or Dates of Knowledge of the Property	Date Reviewed or Contacted	Comment (See Section 3.4.1 for findings)
Historical Aerial Photographs[1]	Historical Information Gatherers	1932, 1939, 1948, 1953, 1965, 1972, 1977, 1984, 1989, 1996, 2002, 2005, 2009, 2012, 2016, and 2020	November 25, 2022	--
Historical Aerial Photographs[1]	Google Earth	2021	November 25, 2022	--
Historical Fire Insurance Maps	Historical Information Gatherers	No coverage	Not applicable	Sanborn maps do not cover the subject property vicinity.
Historical Topographic Maps[1]	Historical Information Gatherers	1941, 1943, 1956, 1956, 1972, 2009, 2012, and 2015	November 22, 2022	--

Description	Provider or Interviewee	Dates of Coverage or Dates of Knowledge of the Property	Date Reviewed or Contacted	Comment (See Section 3.4.1 for findings)
City Directory Search	Historical Information Gatherers	Approximate 5-year intervals, 2005 to 2018	November 22, 2022	--
Building Permits	City of Indio	Undisclosed	November 23, 2022	The City of Indio building permits are assigned only to physical addresses. No building permit records were provided by the City of Indio for the subject property.
Septic Tank and Water Well Records	Riverside County Department of Environmental Health – Land Use	Undisclosed	November 23, 2022	Riverside County reported no records for the subject property.

Notes:

[1] The scale of the maps/photographs reviewed allowed for an interpretation of general property development/configuration, such as identifying most structures, roadways and clearings. However, the scale of the maps/photographs did not allow for identification of specific property features, such as fuel pumps, wells or chemical storage areas on the subject property, if any.

3.4.1. Historical Property Ownership and Use Summary

Historical records indicate that the Site was undeveloped in the early 1930s and was in use for agriculture by the early 1950s. By the mid-1960s, the Site was no longer in agricultural use, and consisted of vacant, bare land. In the early 1970s, the southern portion of the property was irrigated, and the southeast corner of the subject property was developed as a parking area for the adjacent The Lights at Indio Golf Course. The Site has remained generally unchanged since that time.

Offsite, properties in the Site vicinity were generally in use for agriculture through the 1990s. By the mid-1960s, the golf course east of the Site had been established, and by the late 2000s, the shopping center south of the Site (across Avenue 42) had been established. By the early 2010s the AutoZone auto parts store adjacent and west of the Site had been constructed, and by the late 2010s the properties in the Site vicinity had been developed in their current configurations, with the Arco-branded fuel station and car wash adjacent and west of the subject property.

4.0 SITE RECONNAISSANCE

4.1. Subject Property Observations

A representative of GeoEngineers (Chris Breemer) performed a visual reconnaissance of the subject property on December 2, 2022. The GeoEngineers representative was unaccompanied during the site reconnaissance. Our interview with the Key Site Manager, Dan Almquist, Manager for Can Do LLC, took place via written questionnaire and is summarized in Section 4.0.

The subject property was accessed from Avenue 42. The subject property is graded and covered with crushed rock and bare soil, except for the southeast part of the subject property. That area has been developed as a parking lot for the adjacent The Lights at Indio Golf Course. Paved access driveways are present at the west and south sides of the subject property. No buildings are present at the subject property. Sidewalks are adjacent to the west and south sides of the subject property.

Table IV below summarizes conditions observed during our site reconnaissance. The approximate locations of the observed features discussed in this section are shown in Figure 2. Photographs of the subject property were taken to document observations made during our reconnaissance. Photographs of the subject property are available in our files.

TABLE IV. SUMMARY OF SITE RECONNAISSANCE OBSERVATIONS

Features	Observed		Comment
	Yes	No	
Current Uses, Roads, and Existing Structures	X		The subject property has been graded, with access driveways at the south and west sides of the subject property. The subject property is vacant, except for a parking lot at the southeast part of the subject property.
Evidence of Past Uses and Former Structures		X	
Heating/Cooling System		X	
Floor Drains, Sumps or Drywells		X	
Aboveground Storage Tanks (ASTs)		X	
Underground Storage Tanks (USTs) or Evidence of USTs		X	
Drums or Other Bulk Containers		X	
Identified Hazardous Substances and Petroleum Products (other than drums noted above or *de minimis* quantities of cleaning products)		X	
Unidentified Substances or Containers		X	
Evidence of Leaks, Spills or Releases Surrounding ASTs, USTs and/or Chemical Storage Areas		X	
Stained or Corroded Floors, Walls or Drains (other than the above or apparent water stains or minor oil stains on pavement from parked vehicles)		X	
Hydraulic Hoists		X	
Oil/Water Separators		X	
Electric or Hydraulic Equipment Containing PCBs		X	

Features	Observed		Comment
	Yes	No	
Discolored, Stained, or Stressed Soil or Vegetation Potentially from Hazardous Substances		X	
Solid Waste/Fill Material		X	
On-site Septic or Sewage Disposal System		X	
Potable Water Supply		X	
Standing Water or Other Pooled Liquids		X	
Catch Basins, Stormwater Drainage, or other Wastewater Discharges		X	
Pits/Ponds/Lagoons [3]		X	
Strong, Pungent or Noxious Odors		X	
Water Wells (agricultural, domestic, monitoring)		X	
Other Conditions of Environmental Concern		X	

4.2. Adjacent Property and Vicinity Observations

We viewed properties located adjacent to and surrounding the subject property on December 2, 2022 from accessible public rights-of-way and the subject property. We did not enter adjacent properties or buildings. The subject property generally is situated in an area that is heavily developed with commercial and retail uses, except to the north and east of the subject property. A recreational vehicle parking area is north of the subject property. The Lights at Indio Golf Course is east of the subject property. Table III below outlines adjacent land uses and pertinent observations with respect to conditions that could pose a REC on the subject property. Any visual evidence or indications of prior uses of adjacent properties that would be considered a REC are noted in the table below. Figure 2 shows adjacent property uses and locations in relation to the subject property.

TABLE V. ADJOINING STREETS AND ADJACENT PROPERTIES OBSERVATIONS

Direction	Adjoining Street	Position Relative to Subject Property[1]	Adjacent Property and Use	Comments
North	None	Crossgradient	The Toy Box RV and Boat Storage facility (41700 Jackson St.) and The Lights at Indio Golf Course (83040 Avenue 42).	

[3] As defined in ASTM 1527-21: "manmade or natural depressions in a ground surface that are likely to hold liquids or sludge containing hazardous substances or petroleum hydrocarbons."

Direction	Adjoining Street	Position Relative to Subject Property[1]	Adjacent Property and Use	Comments
South	Avenue 42	Upgradient	A sidewalk followed by Avenue 42. The Indio Town Center shopping center is south of Avenue 42.	
East	None	Crossgradient	Vacant land, followed by a parking lot associated with The Lights at Indio Golf Course (83040 Avenue 42).	
West	Jackson Street	Upgradient	Asphalt-concrete drive lane, followed by an Arco-branded fuel station and car wash (41910 Jackson St.) and AutoZone store (41850 Jackson St).	

Note:

[1] The inferred shallow groundwater flow direction in the vicinity of the subject property is toward the northeast, as described in Section 3.1.

5.0 INTERVIEWS

Our understanding of the history of the subject property presented in Section 3.0 is partially based on interviews with the individuals listed in Table VI. Pertinent historical findings from interviews have also been integrated into Section 3.4 above.

TABLE VI. PERSONS INTERVIEWED

Agency Description	Provider or Interviewee	Dates of Coverage or Dates of Knowledge of the Property	Date Reviewed or Contacted	Comment
Key Site Manager/User/Owner	Dan Almquist, Manager, Can Do LLC	2007 to present	11/28/2022	See Section 5.1
Current Occupant	Not applicable			
Riverside County Department of Environmental Health	Staff	Not disclosed	11/21/2022	The Riverside County Department of Environmental Health reported no records of water wells or septic tanks at the subject property. The county provided no information about hazardous substances or USTs at the subject property.
City of Indio	Staff	Not disclosed	11/23/2022	The City of Indio reported that their records are organized by physical address; therefore, records for the subject property are not reasonably available.

5.1. Interview with the Key Site Manager/Owner

An owner representative, Dan Almquist, the Manager of Can Do LLC, completed a Key Site Manager questionnaire in lieu of a direct interview. The questionnaire was transmitted to GeoEngineers on November 28, 2022. Mr. Almquist reported that Can Do LLC acquired the property in 2007 and the subject property was vacant at the time of the acquisition and has remained vacant since that time. Mr. Almquist reported that he did not know who previously owned the subject property. Mr. Almquist reported that there he has no knowledge of USTs or ASTs at the subject property or spill, releases, or storage of hazardous substances at the subject property. He noted that, based on the Cascadia Associates, LLC 2021 Phase I ESA report, the Site was previously used for agriculture.

5.2. Interview with Occupants

The subject property is vacant; therefore, no interviews were performed with occupants of the subject property.

5.3. Interview with the Owners

The Key Site Manager is the owner; therefore, no separate owner interview was performed.

5.4. Interviews with Local Government Officials

GeoEngineers contacted representatives of the City of Indio and Riverside County to obtain information about historical uses and activities at the subject property. No information relevant for understanding environmental conditions at the subject property was provided.

6.0 EVALUATION

6.1. Findings and Opinion

The subject property was vacant and undeveloped until the early 1950s. At that time the portions of the Site were developed as orchards. By the mid-1960s, agricultural uses were terminated, and the subject property consisted of vacant, bare land. In the early 1970s, the southern portion of the property was irrigated. The specific uses of the irrigated portion of the subject property at that time are unknown. Also, in the early 1970s, the southeast corner of the subject property was developed as a parking area for the adjacent The Lights at Indio Golf Course. The Site has remained generally unchanged since that time, except that recently the Site has been graded and access drive lanes have been established to prepare for further development of the Site.

Offsite, properties near the subject property were generally in use for agriculture through the 1990s. By the mid-1960s, The Lights at Indio Golf Course north and east of the subject property had been established, and by 2010, the Indio Town Center shopping center south of the Site (across Avenue 42) had been established. By the early 2010s the AutoZone auto parts store adjacent and west of the Site had been constructed, and by 2014, an Arco-branded fuel station and car wash was established adjacent and west of the subject property. The most recent inspection of the Arco facility (in March 2021) did not identify any violations. Based on the absence of reported releases and the relatively recent construction of the facility, including modern containment and interstitial monitoring systems, the Arco-branded fuel station and car wash is not considered an REC in connection with the subject property.

It is possible that pesticides were applied to the Site when it was used for agricultural purposes. Assuming that pesticides were applied in accordance with manufacturers recommendations, the historical use of pesticides at the Site does not constitute an REC. The current and future risks associated with possible historical application of pesticides are considered very low for three reasons. First, the Site has not been used for agricultural purposes for many years, thus, the concentrations of some chemicals may have attenuated. Second, under a future development scenario, it is likely that the Site will be graded prior to development. Grading commonly results in mixing of surface soil with deeper soil. The mixing of agricultural soils often reduces pesticide concentrations in soil. Third, under a future development scenario, most of the Site is expected to be covered with asphalt-concrete or Portland cement concrete surfaces. These surfaces will prevent exposure to underlying soil.

6.2. Data Gaps

Significant data gaps were not identified by this study.

6.3. Conclusions

GeoEngineers has performed a Phase I ESA in conformance with the scope and limitations of ASTM Practice E 1527-21 of the prospective development property located at northeast of the intersection of Jackson Street and Avenue 42 in Indio, California. The Riverside County parcel numbers for the subject property are 692670001, 692670004, 692670010, 692670011, 692670014, 692670017, and 692040019. Any exceptions to, or deletions from, this practice are described in Section 1.2 of this report. This assessment has revealed no RECs, CRECs, or significant data gaps in connection with the subject property.

7.0 LIMITATIONS AND GUIDELINES FOR USE

These Limitations provide information to help you manage your risks with respect to the use of this report. Some clients, design professionals and contractors may not recognize that the geoscience practices (geotechnical engineering, geology, and environmental science) are far less exact than other engineering and natural science disciplines. This lack of understanding can create unrealistic expectations that could lead to disappointments, claims and disputes. GeoEngineers includes these explanatory "limitations" provisions in our reports to help reduce such risks. Please confer with GeoEngineers if you are unclear how these "Report Limitations and Guidelines for Use" apply to your project or site.

7.1. Standard Limitations

This Phase I ESA has been prepared for use by Can Do LLC. GeoEngineers has performed this Phase I ESA of the prospective development property located at northeast of the intersection of Jackson Street and Avenue 42 in Indio, California in general accordance with the scope and limitations of our proposal dated November 18, 2022 and ASTM International (ASTM) E 1527-21, Standard Practice for Phase I ESAs and EPA's Federal Standard 40 CFR Part 312 "Standards and Practices for All Appropriate Inquiries (AAI)." This report has been prepared for the exclusive use of Can Do LLC and their clients. This report is not intended for use by others, and the information contained herein is not applicable to other properties. Our report was prepared for the exclusive use of our Client. No other party may rely on the product of our services unless we agree in advance to such reliance in writing. This is to provide our firm with reasonable protection against open-ended liability claims by third parties with whom there would otherwise be no contractual limits to their actions.

Within the limitations of scope, schedule and budget, our services have been executed in accordance with the generally accepted environmental science practices for Phase I ESAs in this area at the time this report was prepared. No warranty or other conditions express or implied, should be understood.

Any electronic form, facsimile or hard copy of the original document (email, text, table, and/or figure), if provided, and any attachments are only a copy of the original document. The original document is stored by GeoEngineers, Inc. and will serve as the official document of record.

7.2. Special Limitations

GeoEngineers structures our services to meet the specific needs of our clients. For example, an environmental site assessment study conducted for a property owner or lessee may not fulfill the needs of a prospective purchaser of the same property. Because each environmental study is unique, each environmental report is unique, prepared solely for the specific client and project property. This report should not be applied for any purpose or project except the one originally contemplated. GeoEngineers considered a number of unique, project-specific factors when establishing the scope of services for this project and report. Unless GeoEngineers specifically indicates otherwise, do not rely on this report if it was:

- Not prepared for you,
- Not prepared for your project,
- Not prepared for the specific property explored, or
- Completed before important project changes were made.

If important changes are made to the project or subject property after the date of this report, GeoEngineers should be retained to review our interpretations and recommendations and to provide written modifications or confirmation, as appropriate.

GeoEngineers makes no warranties or guarantees regarding the accuracy or completeness of information provided or compiled by others. The information presented in this report is based on the above-described research and a single recent site visit. GeoEngineers has relied upon information provided by others in our description of historical conditions and in our review of regulatory databases and files. The available data do not provide definitive information with regard to all past uses, operations or incidents at the subject property or adjacent properties.

No ESA can wholly eliminate uncertainty regarding the potential for recognized environmental conditions (RECs) in connection with a property. Performance of an ESA study is intended to reduce, but not eliminate, uncertainty regarding the potential for RECs in connection with a property. There is always a potential that areas with contamination that were not identified during this Phase I ESA exist at the subject property or in the study area. Further evaluation of such potential would require additional research, subsurface exploration, sampling and/or testing.

Some substances may be present in the vicinity of the subject property in quantities or under conditions that may have led, or may lead, to contamination of the subject property, but are not included in current local, state, or federal regulatory definitions of hazardous substances or do not otherwise present current potential liability. GeoEngineers cannot be responsible if the standards for appropriate inquiry, or regulatory

definitions of hazardous substance, change or if more stringent environmental standards are developed in the future.

This environmental report is based on conditions that existed at the time the study was performed. The findings and conclusions of this report may be affected by the passage of time (for example, a Phase I ESA report is typically applicable for 180 days), by events such as a change in property use or occupancy, or by natural events, such as floods, earthquakes, slope instability or groundwater fluctuations. If more than six months have passed since issuance of our report or work product, or if any of the described events may have occurred, please contact GeoEngineers before applying this report so that we may evaluate whether changed conditions affect the continued reliability or applicability of our conclusions and recommendations.

The equipment, techniques and personnel used to perform an environmental study differ significantly from those used to perform a geotechnical or geologic study and vice versa. For that reason, a geotechnical engineering or geologic report does not usually relate any environmental findings, conclusions, or recommendations; e.g., about the likelihood of encountering underground storage tanks or regulated contaminants. Similarly, environmental reports are not used to address geotechnical or geologic concerns regarding a specific project.

GeoEngineers' Scope of Work specifically excludes the investigation, detection, prevention, or assessment of the presence of Biological Pollutants. Accordingly, this report does not include any interpretations, recommendations, findings, or conclusions regarding the detecting, assessing, preventing, or abating of Biological Pollutants and no conclusions or inferences should be drawn regarding Biological Pollutants, as they may relate to this project. The term "Biological Pollutants" includes, but is not limited to, molds, fungi, spores, bacteria, and viruses, and/or any of their byproducts. If Client desires these specialized services, they should be obtained from a consultant who offers services in this specialized field.

We appreciate the opportunity to be of service to Can Do LLC. Please call if you require more information or have questions regarding this report.

APPENDIX A
User Provided Information and Completed User Questionnaire

PHASE I ESA USER QUESTIONNAIRE
NEC JACKSON STREET & AVENUE 42
INDIO, CALIFORNIA
FILE NO. 26481-001-00

In order to qualify for one of the federal landowner liability protections, and to enable us to fully address the objectives of the Phase I ESA, please complete the questionnaire below to the best of your knowledge and provide the additional information requested.

1. Are you aware of any environmental cleanup liens against the subject property that are filed or recorded under federal, tribal and state or local law?

   ☐ YES ☑ NO ☐ DON'T KNOW Explain:

2. Are you aware of any Activity and Use Limitations (AULs), such as engineering controls, land use restrictions or institutional controls that are in place at the subject property and/or have been filed or recorded in a registry under federal, tribal, state or local law?

   ☐ YES ☑ NO ☐ DON'T KNOW Explain:

3. As the user of this Phase I ESA, do you have any specialized knowledge or experience related to the subject property or nearby properties? For example are you involved in the same line of business as the current or former occupants of the property or an adjoining property so that you would have specialized knowledge of the chemicals and processes used by this type of business?

   ☐ YES ☑ NO ☐ DON'T KNOW Explain:

4. Does the purchase price being paid for the subject property reasonable reflect the fair market value of the property?

   ☐ YES ☐ NO ☐ DON'T KNOW Explain: NOT APPLICABLE

   - If you conclude that there is a difference and you answered NO above, have you considered whether the lower purchase price is because contamination is known or believed to be present at the property?

     ☐ YES ☐ NO ☐ DON'T KNOW Explain:

5. Are you aware of commonly known or reasonably ascertainable information about the subject property that would help us identify conditions indicative or releases or threatened releases? For example,

   - Do you know the past uses of the property?

     ☐ YES ☐ NO ☑ DON'T KNOW Explain: BELIEVE UNDEVELOPED LAND

   - Do you know of specific chemicals that are present or once were present on the property?

     ☐ YES ☑ NO ☐ DON'T KNOW Explain:

   - Do you know of spills or other chemical releases that have taken place at the property?

     ☐ YES ☑ NO ☐ DON'T KNOW Explain:

   - Do you know of any environmental cleanups that have taken place at the property?

     ☐ YES ☑ NO ☐ DON'T KNOW Explain:

6. Based on your knowledge and experience related to the subject property, are there any obvious indicators that point to the presence or likely presence of contamination at the property?

   ☐ YES ☑ NO ☐ DON'T KNOW Explain:

NA

User Questionnaire Completed By (Name and Organization): DAN ALMQUIST - CAN DO LLC

Date: 11-18-22

List of Requested Information, If Available

- Names and phone numbers of key individuals with knowledge of property use history.
- A map showing the boundaries of the subject property.
- Tax ID numbers for parcels included within the subject property.
- Copies of any past environmental site assessment and/or audit reports or risk assessment studies.
- Environmental permits.
- Registrations for underground and aboveground storage tanks (if any).
- Material data safety sheets for hazardous substances used or stored on-site (if any).
- Community right-to-know plans pertaining to the subject property.
- Safety plans pertaining to on-site facilities.
- Reports regarding geotechnical and/or hydrogeologic conditions at or near the subject property.
- Notices or other correspondence from any governmental agency relating to past or current violations of environmental laws with respect to the subject property or relating to environmental liens encumbering the property.
- Recorded Activity Use Limitations (AULs)

PHASE I ESA
NEC JACKSON STREET AND AVENUE 42
INDIO, CALIFORNIA

OWNER/KEY PERSON INTERVIEW QUESTIONNAIRE

Name of Owner/Key Person Interviewed: Dan Almquist (Manager - Can Do LLC)

Phone number and/or email: 949-302-1389 (dan@frontierrei.com)

Key Person's Relationship to Property and Age of Relationship: Owner/Developer (Approx. 15 years)

Date/Location of Interview: _____/*Remote* Questionnaire via email

1. Known current and historical ownership of the property.

   How long have you owned the property? Since approximately 2007

   What is your relationship or level of familiarity to the property and for how long have you been associated with the property?

   Purchased property in 2007 to develop. Subject property has sat vacant since waiting for tenants.

   Do you know the previous owner(s) and years owned?

   No.

2. Existing site conditions.

When were existing facilities constructed?

N/A - vacant land. No existing facilities.

Are original design drawings available? If so, can we look at them?

N/A - vacant land. Potential development plans are available to review.

Are there any known USTs at the site? List number of tanks, size, age and contents stored in past and present.

No.

Are there any known aboveground storage tanks at the site? List number of tanks, size, age and contents.

No.

Have there been any known or suspect leaks, spills or releases from UST systems? Describe where release occurred (surface, subsurface, into soil, surface water, ground water or air) product released, approximate volume released, cleanup activities if any.

No.

Does any equipment used at the site possibly contain PCBs, such as electrical transformers, or pumps?

No.

Any current use, storage, generation, releases or waste disposal of hazardous substances on site (specify type, quantity and waste generation/disposal)?

No.

Any sumps, floor drains, dry wells or oil/water separators on site?

No.

Any information regarding surface and/or subsurface drainage systems, sewers, on-site wastewater disposal, ponds, septic systems, surface impoundments, and storm system runoff?

None in place.

3. Past land use and activities at the site.

Do you know what type of activities occurred at the site in the past?

Were there USTs at the site in the past? List number of tanks, size, age and contents.

Vacant land.

Phase I for Dutch Bros stated previous agricultural uses but I do not have any knowledge of those..

Were there aboveground storage tanks at the site in the past? List number of tanks, size, age and contents.

No.

Are UST closure reports available?

N/A

To the best of your knowledge, has there been any past use, storage, disposal or releases of hazardous substances at the site?

No.

Has a landfill ever been located at the site or has any dumping been allowed at the site?

No.

Have any industrial tenants ever used the site?

No.

Has there been any imported soil or fill brought to the site? Source of material, volume, dates imported, possibility of hazardous substances in the fill.

No.

4. Environmental compliance issues (limited scope).

Any environmental permits, licenses and registrations for the site? Includes for example: Stormwater discharge (NPDES) permit, METRO discharge permit, PSAPCA emissions permit, fire department hazardous materials storage permit:

No.

Is there any information indicating that additional permits, licenses or registrations may be required or that there may be some non-compliance with existing permits, licenses or registrations?

No.

Any information on present or past inspections, investigations, claims, agency actions or litigations relating to hazardous materials?

Phase I environmental survey completed by GeoEngineers for Dutch Bros.

5. Known potential impacts from off-site sources.

Has there ever been a concern regarding contamination of this site from off-site sources?

No.

Any aboveground or underground tanks, pipes, sumps or surface impoundments on adjacent properties?

Adjacent Arco AM/PM gas station.

Are there owners/tenants on adjacent properties that could have environmental impacts, permits, etc.?

Do not know.

6. Available site reports.

   Are any geotechnical, environmental site assessment and/or hydrogeological reports available on the site? List report name, date, consultant.

   Geotechnical and Infiltration reports available from Salem Engineering.

   If so, can we obtain copies? Yes.

7. Is there anything else we should know?

   No.

Source Description

Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

Source Description

Source Description :

The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), and Toxic Release Inventory (TRI).

Source Description

Source Description :

The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), and Toxic Release Inventory (TRI).

Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

Source Description

Source Description :

The NPDES module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

Source Description

Source Description :

The California Environmental Reporting System (CERS) is a statewide web-based user and information exchange system to support over 140,000 regulated businesses and over 130 local agencies in electronically collecting and reporting significant hazardous materials, hazardous waste and compliance and enforcement data as mandated by California law. Under oversight by Cal/EPA, certified local governing agencies (Unified Program Agencies - UPAs) consolidate, coordinate and provide consistent regulatory activities for six state and federal environmental programs.
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), and Toxic Release Inventory (TRI).

Source Description

Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

Violation Date :	2020-07-06
Citation :	22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Description :	Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.

Notes :

Returned to compliance on 07/06/2020. OBSERVATION: Observed faded labels on two 55 gallon drums of used antifreeze. CORRECTIVE ACTION: Owner/operator shall re-label hazardous waste containers with all the required information. Label shall include at least: the words "hazardous waste", generator name and address, accumulation start date, composition and physical state of waste, and hazardous property statement. Labels were provided at the time of inspection.

Source Description

Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

Source Description

Source Description :

The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), and Toxic Release Inventory (TRI).

Source Description

Source Description :

The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), and Toxic Release Inventory (TRI).

Source Description

Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

Source Description

Source Description :

The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), and Toxic Release Inventory (TRI).

Source Description

Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

Source Description

Source Description :

The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), and Toxic Release Inventory (TRI).

Source Description :

RCRAInfo is EPA’s comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

Source Description

Source Description :

The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), and Toxic Release Inventory (TRI).

The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), and Toxic Release Inventory (TRI).

Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

Waste Generator Details

Details for this site have been truncated due to the large number of available details for this site within this dataset. For the complete details for this site, contact your Envirosite account representative for a complimentary site report containing all of the details available.

State Waste :

2019: 331 - Off-specification, aged or surplus organics, 0.00050 tons to CAD008364432
2019: 331 - Off-specification, aged or surplus organics, 0.00350 tons to NVD980895338
2019: 214 - Unspecified solvent mixture, 0.00550 tons to CAD008364432
2019: 331 - Off-specification, aged or surplus organics, 0.04600 tons to AZR000515924
2019: 122 - Alkaline solution without metals pH >= 12.5, 0.00950 tons to CAD008364432
2019: 214 - Unspecified solvent mixture, 0.04050 tons to NVD980895338
2018: 214 - Unspecified solvent mixture, 0.01100 tons to NVD980895338
2018: 331 - Off-specification, aged or surplus organics, 0.00300 tons to NVD980895338
2018: 331 - Off-specification, aged or surplus organics, 0.08200 tons to AZR000515924
2018: 122 - Alkaline solution without metals pH >= 12.5, 0.01000 tons to CAD008364432
2017: 331 - Off-specification, aged or surplus organics, 0.016 tons to CAD008364432
2017: 122 - Alkaline solution without metals pH >= 12.5, 0.0265 tons to CAD008364432
2017: 352 - Other organic solids, 0.0085 tons to CAD008364432
2017: 214 - Unspecified solvent mixture, 0.005 tons to CAD008364432
2016: 331 - Off-specification, aged or surplus organics, 0.005 tons to CAD008364432
2016: 122 - Alkaline solution without metals pH >= 12.5, 0.067 tons to CAD008364432
2016: 214 - Unspecified solvent mixture, 0.005 tons to CAD008364432
2016: 181 - Other inorganic solid waste, 0.004 tons to CAD008364432

Source Description

Source Description :

All generators and treatment, storage, and disposal (TSD) facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years. The data collected is used to create the National Biennial Resource Conservation and Recovery Act (RCRA) Hazardous Waste Report. This data is processed within the RCRA Information (RCRAInfo) database.
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), and Toxic Release Inventory (TRI).

Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

Hazardous Waste Summary

Details for this site have been truncated due to the large number of available details for this site within this dataset. For the complete details for this site, contact your Envirosite account representative for a complimentary site report containing all of the details available.

Waste Code / Name :
122 - Alkaline solution without metals (pH > 12.5)
131 - Aqueous solution (2 < pH < 12.5) containing reactive anions (azide, bromate, chlorate, cyanide, fluoride, hypochlorite, nitrite, perchlorate, and sulfide anions)
214 - Unspecified solvent mixture
311 - Pharmaceutical waste
D001 - IGNITABLE WASTE
D002 - CORROSIVE WASTE
D007 - CHROMIUM
D010 - SELENIUM
D024 - M-CRESOL
P001 - 2H-1-BENZOPYRAN-2-ONE, 4-HYDROXY-3-(3-OXO-1-PHENYLBUTYL)-, & SALTS, WHEN PRESENT AT CONCENTRATIONS GREATER THAN 0.3% (OR) WARFARIN, & SALTS, WHEN PRESENT AT CONCENTRATIONS GREATER THAN 0.3%

Source Description :

The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), and Toxic Release Inventory (TRI).

Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

Source Description

Source Description :

All generators and treatment, storage, and disposal (TSD) facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years. The data collected is used to create the National Biennial Resource Conservation and Recovery Act (RCRA) Hazardous Waste Report. This data is processed within the RCRA Information (RCRAInfo) database.

Hazardous Waste Summary

Details for this site have been truncated due to the large number of available details for this site within this dataset. For the complete details for this site, contact your Envirosite account representative for a complimentary site report containing all of the details available.

Waste Code / Name :
122 - Alkaline solution without metals (pH > 12.5)
141 - Off-specification, aged, or surplus inorganics
181 - Other inorganic solid waste
214 - Unspecified solvent mixture
311 - Pharmaceutical waste
331 - Off-specification, aged, or surplus organics
352 - Other organic solids
541 - Photochemicals / photo processing waste
725 - Liquids with mercury > 20 mg/l
791 - Liquids with pH < 2

Source Description

Source Description :

The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), and Toxic Release Inventory (TRI).

Source Description

Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

Source Description

Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

Source Description

Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

MWMP 2 - CA: Listing of facilities that generate permitted medical waste and are inspected by the Medical Waste Management Program

Agency Version Date: 01/13/2012
Agency Update Frequency: Quarterly
Planned Next Contact: 01/05/2023
Agency: California-Health Human Services Department of Public Health
Agency Contact: 916-449-5661
Most Recent Contact: 10/07/2022

NFA - CA: No further action cleanup sites listing

Agency Version Date: 09/12/2022
Agency Update Frequency: Quarterly
Planned Next Contact: 12/08/2022
Agency: Department of Toxic Substances Control
Agency Contact: 916-322-2861
Most Recent Contact: 09/12/2022

NFE - CA: Unconfirmed contaminated properties listing

Agency Version Date: 09/09/2022
Agency Update Frequency: Quarterly
Planned Next Contact: 12/06/2022
Agency: Department of Toxic Substances Control
Agency Contact: 916-322-2861
Most Recent Contact: 09/09/2022

NPDES - CA: Listing of facilities with wastewater and NPDES permits including stormwater

Agency Version Date: 11/07/2022
Agency Update Frequency: Quarterly
Planned Next Contact: 02/01/2023
Agency: State Water Resources Control Board
Agency Contact: 916-341-5810
Most Recent Contact: 11/07/2022

PERCHLORATE 2 - CA: Listing of contaminated sites where the primary known chemical is perchlorate

Agency Version Date: 09/09/2022
Agency Update Frequency: Quarterly
Planned Next Contact: 12/06/2022
Agency: Department of Toxic Substances Control
Agency Contact: 916-322-2861
Most Recent Contact: 09/09/2022

PFAS - CA: List of PFAS sites and areas of interest

Agency Version Date: 09/26/2022
Agency Update Frequency: Quarterly
Planned Next Contact: 12/22/2022
Agency: California State Water Resources Control Board
Agency Contact: N/R
Most Recent Contact: 09/26/2022

PFAS DOD - CA: List of DoD facilities conducting PFAS investigations

Agency Version Date: 09/26/2022
Agency Update Frequency: Quarterly
Planned Next Contact: 12/22/2022
Agency: California State Water Resources Control Board
Agency Contact: N/R
Most Recent Contact: 09/26/2022

OTHER ASCERTAINABLE RECORDS (cont.)

PFAS GAMA - CA: PFOS & PFAS GAMA Well Sampling program

Agency Version Date: 09/22/2022
Agency Update Frequency: Quarterly
Planned Next Contact: 12/19/2022
Agency: California State Water Resources Control Board
Agency Contact: N/R
Most Recent Contact: 09/22/2022

PROPOSITION 65 - CA: Listing of Proposition 65 enforcement reporting notice sites in accordance with "The Safe Drinking Water and Toxic Enforcement Act of 1986"

Agency Version Date: 06/11/2021
Agency Update Frequency: No update
Planned Next Contact: 02/14/2023
Agency: State of California Department of JusticeOffice of the Attorney General
Agency Contact: 510-873-6321
Most Recent Contact: 11/18/2022

RFR - CA: State Water Resources Control Board Regulated Facility Report database listing which includes program agency type and their permit status

Agency Version Date: 08/25/2022
Agency Update Frequency: Varies
Planned Next Contact: 02/16/2023
Agency: CA State Water Resources Control Board
Agency Contact: 916-341-5810
Most Recent Contact: 11/21/2022

SITES INVENTORY_VENTURA COUNTY - CA: Listing of Ventura County inventory of closed illegal abandoned and inactive sites

Agency Version Date: 05/14/2021
Agency Update Frequency: Annually
Planned Next Contact: 01/19/2023
Agency: Environmental Health Division
Agency Contact: 805-654-2815

SOIL COMPOSITION IN GENERAL AREA OF SUBJECT PROPERTY:

Agency source: Soil Conservation Service, US Department of Agriculture

SOIL MAP ID 1	SSURGO
USDA Soil Name	Indio,Series
USDA Soil Texture	Very fine sandy loam
Hydrologic Soil Group	B
Soil Drainage Class	Well drained
Hydric Classification	0
Corrosion Potential - Uncoated Steel	Moderate

Layer	Depth (inches)	Soil Texture	AASHTO Group	Unified Soil Description	Saturated Hydraulic Conductivity micro m/sec	Soil Reaction pH
1	0-25	Very fine sandy loam	Silt-Clay materials (more than 35% passing NO. 200), silty soils. Reference: This is a classification of soil material for highway and airfield construction (Procedure M 145-73 in Am. Assoc. of State Highway and Transportation Officials, 1984.	FINE-GRAINED SOILS, Silts and clays, (liquid limit is less than 50%), Silt. Reference: This is a classification of soil material designed for general construction purposes. It is dependent on the particle size distribution of the <75 mm, the liquid limit, and the plasticity index and on whether the soil material is high in organic matter (ASTM test D 2487, in ASTM, 1984).	4-14	7.9-8.4
2	25-152	Very fine sandy loam	Silt-Clay materials (more than 35% passing NO. 200), silty soils. Reference: This is a classification of soil material for highway and airfield construction (Procedure M 145-73 in Am. Assoc. of State Highway and Transportation Officials, 1984.	FINE-GRAINED SOILS, Silts and clays, (liquid limit is less than 50%), Silt. Reference: This is a classification of soil material designed for general construction purposes. It is dependent on the particle size distribution of the <75 mm, the liquid limit, and the plasticity index and on whether the soil material is high in organic matter (ASTM test D 2487, in ASTM, 1984).	4-14	7.9-8.4

SOIL MAP ID 2	SSURGO
USDA Soil Name	Coachella,Series
USDA Soil Texture	Fine sandy loam
Hydrologic Soil Group	A
Soil Drainage Class	Well drained
Hydric Classification	0
Corrosion Potential - Uncoated Steel	Moderate

Layer	Depth (inches)	Soil Texture	AASHTO Group	Unified Soil Description	Saturated Hydraulic Conductivity micro m/sec	Soil Reaction pH
1	0-25	Fine sandy loam	Silt-Clay materials (more than 35% passing NO. 200), silty soils. Reference: This is a classification of soil material for highway and airfield construction (Procedure M 145-73 in Am. Assoc. of State Highway and Transportation Officials, 1984.	FINE-GRAINED SOILS, Silts and clays, (liquid limit is less than 50%), Silt. Reference: This is a classification of soil material designed for general construction purposes. It is dependent on the particle size distribution of the <75 mm, the liquid limit, and the plasticity index and on whether the soil material is high in organic matter (ASTM test D 2487, in ASTM, 1984).	14-42	7.9-8.4
2	25-102	Sand	Granular materials (35% or less passing No. 200), silty or clayey gravel and sand. Reference: This is a classification of soil material for highway and airfield construction (Procedure M 145-73 in Am. Assoc. of State Highway and Transportation Officials, 1984.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand. Reference: This is a classification of soil material designed for general construction purposes. It is dependent on the particle size distribution of the <75 mm, the liquid limit, and the plasticity index and on whether the soil material is high in organic matter (ASTM test D 2487, in ASTM, 1984).	14-42	7.9-8.4
3	102-152	Loamy sand	Granular materials (35% or less passing No. 200), silty or clayey gravel and sand. Reference: This is a classification of soil material for highway and airfield construction (Procedure M 145-73 in Am. Assoc. of State Highway and Transportation Officials, 1984.	Reference: This is a classification of soil material designed for general construction purposes. It is dependent on the particle size distribution of the <75 mm, the liquid limit, and the plasticity index and on whether the soil material is high in organic matter (ASTM test D 2487, in ASTM, 1984).	14-42	7.9-8.4

HIST PWS ENF
Historical Public Water Supply locations with Enforcement Violations
Environmental Protection Agency
(800) 426-4791
List of Safe Drinking Water Information Systems (SDWIS) with enforcement violations that are no longer in current agency list.

NWIS
National Water Information Systems
United States Geological Society
(703) 648-5953
Information on all water resources for the United States. This database contains all current and historical data for the nation.

PWS
Public Water Supply
Environmental Protection Agency
(800) 426-4791
Safe drinking water information Systems

PWS ENF
Public Water Supply locations with Enforcement Violations
Environmental Protection Agency
(800) 426-4791
Safe drinking water information Systems with enforcememnt violations

WELLS - GAMA - CA
California Groundwater Ambient Monitoring Assessment
State Water Resources Control Board
916-341-5791
Brings together datasets from California state agencies including: Public Health Water Resources and Pesticide Regulation as well as from the US Geological Survey Lawrence Livermore National Laboratory and the Water Boards. It shows results for untreated raw water in different types of wells for naturally-occurring and man-made chemicals.

FLOOD Q3
Flood data
Environmental Protection Agency
(202) 566-1667
Q3 Flood Data

HYDROLOGIC UNIT
Hydrologic Unit Maps
USGS
The United States Geological Survey created a hierarchical system of hydrologic units originally called regions, sub-regions, accounting units, and cataloging units. Each unit was assigned a unique Hydrologic Unit Code (HUC). As first implemented the system had 21 regions, 221 subregions, 378 accounting units, and 2,264 cataloging units. Over time the system was changed and expanded. As of 2010 there are six levels in the hierarchy, represented by hydrologic unit codes from 2 to 12 digits long, called regions, subregions, basins, subbasins, watersheds, and subwatersheds. The table below describes the system's hydrologic unit levels and their characteristics, along with example names and codes.

WETLANDS NWI
National Wetland Inventory
U.S. Fish and Wildlife Service
(703) 358-2171
Wetland Inventory for the United States

SSURGO
Detailed Soil Data Map
Natural Resources Conservation Service: U.S. Department of Agriculture
(202) 690-4985
Detailed Soil Data Map

STATSGO & MUI
General Soil Data Map
Natural Resources Conservation Service: U.S. Department of Agriculture
(202) 690-4985
General Soil Data Map

USGS GEOLOGIC AGE
USGS Digital Data Series DDS
Natural Resources Conservation Service: U.S. Department of Agriculture
(202) 690-4985
USGS Digital Data Series DDS: Geologic Age and Rock Stratigraphic Unit

DAMS - CA
California Dam Inundation Maps
Department of Water Resources
916-845-8275
Dam inundation maps show the maximum extent of damage of a flood wave from a dam failure

OIL & GAS WELLS - CA
Oil and Gas Well Data
State of California Department of Conservation
916-327-1042
Oil and gas well locations and detail for all 6 districts

RADON
National Radon Database
U.S. Environmental Protection Agency
215-814-2469
A study of the EPA/State Residential Radon Survey and the National Residential Radon Survey.

RADON - CA
Radon tested locations in California
California Department of Health Services
(916) 449-5674
A table of long term and short term indoor radon measurments

RADON EPA
RADON EPA
U.S. Environmental Protection Agency
215-814-2469
EPA list of Radon zones

AIRPORT FACILITIES
Airport landing facilities
Federal Aviation Administration
(866) 835-5322
Airport landing facilities

BASINS
Better Assessment Science Integrating point & Non-point Sources
U.S. Environmental Protection Agency
855-246-3642
Integrated geographical information system national watershed data and environmental assessment known as Better Assessment Science Integrating point & Non-point Sources

DIGITAL OBSTACLE
Obstacles of interest to aviation users
Federal Aviation Administration
855-379-6518
The Digital Obstacle File describes all known obstacles of interest to aviation users in the U.S. with limited coverage of the Pacific the Caribbean Canada and Mexico. The obstacles are assigned unique numerical identifiers; accuracy codes and listed in order of ascending latitude within each state or area by FAA Region.

EPICENTERS
National Geographical Data Center
National Geographical Data Center
303-497-6826
List of recent and historic earthquakes and information.

FLOOD DFIRM
National Flood Hazard Layer Database
Federal Emergency Management Agency
The National Flood Hazard Layer Database (NFHL) is a computer database that contains the flood hazard map information from FEMAs Flood Map Modernization program. These map data are from Digital Flood Insurance Rate Map (DFIRM) databases and Letters of Map Revision.

Historical Information Gatherers

HIG has produced a city directory abstract for one or more streets associated with the site location indicated above. The publications used to create the CD Abstract are listed below.

The information below is taken directly from the city directory books. The following are definitions as they are found in the Haines books:

XXXX = is no phone, no people or non-published phone.

600 XXXX = Correct address only. No other information.

X Streetname = intersecting cross street

Publication year, publisher and title

2018 Haines Palm Springs-Low Desert

2011 Haines Palm Springs - Low Desert

2005 Haines Palm Springs - Low Desert Area

2001 Haines Palm Springs - Low Desert Area

1996 Haines Riverside County

1991 Haines Riverside County

1986 Haines Riverside County

1981 Haines Riverside - San Bernardino

1976 Haines Riverside - San Bernardino

Abstract Section 1- This section includes the city directory data sorted by address.

Historical Information Gatherers

HIG has produced a city directory abstract for one or more streets associated with the site location indicated above. The publications used to create the CD Abstract are listed below.

The information below is taken directly from the city directory books. The following are definitions as they are found in the Haines books:

XXXX = is no phone, no people or non-published phone.

600 XXXX = Correct address only. No other information.

X Streetname = intersecting cross street

Publication year, publisher and title

2018 Haines Palm Springs-Low Desert

2011 Haines Palm Springs-Low Desert

AMENDED **PRELIMINARY REPORT**

In response to the application for a policy of title insurance referenced herein, ***Ticor Title Company of California*** *hereby reports that it is prepared to issue, or cause to be issued, as of the date hereof, a policy or policies of title insurance describing the land and the estate or interest therein hereinafter set forth, insuring against loss which may be sustained by reason of any defect, lien or encumbrance not shown or referred to as an exception herein or not excluded from coverage pursuant to the printed Schedules, Conditions and Stipulations or Conditions of said policy forms.*

The printed Exceptions and Exclusions from the coverage and Limitations on Covered Risks of said policy or policies are set forth in Attachment One. The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than that set forth in the arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties. Limitations on Covered Risks applicable to the CLTA and ALTA Homeowner's Policies of Title Insurance which establish a Deductible Amount and a Maximum Dollar Limit of Liability for certain coverages are also set forth in Attachment One. Copies of the policy forms should be read. They are available from the office which issued this report.

This report (and any supplements or amendments hereto) is issued solely for the purpose of facilitating the issuance of a policy of title insurance and no liability is assumed hereby. If it is desired that liability be assumed prior to the issuance of a policy of title insurance, a Binder or Commitment should be requested.

The policy(s) of title insurance to be issued hereunder will be policy(s) of Chicago Title Insurance Company, a Florida Corporation.

Please read the exceptions shown or referred to herein and the exceptions and exclusions set forth in Attachment One of this report carefully. The exceptions and exclusions are meant to provide you with notice of matters which are not covered under the terms of the title insurance policy and should be carefully considered.

It is important to note that this preliminary report is not a written representation as to the condition of title and may not list all liens, defects and encumbrances affecting title to the land.

Reference is hereby made to said document for full particulars.

PLEASE REFER TO THE "INFORMATIONAL NOTES" AND "REQUIREMENTS" SECTIONS WHICH FOLLOW FOR INFORMATION NECESSARY TO COMPLETE THIS TRANSACTION.

END OF EXCEPTIONS

REQUIREMENTS SECTION

1. The Company will require the following documents for review prior to the issuance of any title insurance predicated upon a conveyance or encumbrance from the entity named below:

   Limited Liability Company: Can Do LLC, a California limited liability company

   a) A copy of its operating agreement, if any, and all amendments, supplements and/or modifications thereto, certified by the appropriate manager or member.

   b) If a domestic Limited Liability Company, a copy of its Articles of Organization and all amendments thereto with the appropriate filing stamps.

   c) If the Limited Liability Company is member-managed, a full and complete current list of members certified by the appropriate manager or member.

   d) A current dated certificate of good standing from the proper governmental authority of the state in which the entity is currently domiciled.

   e) If less than all members, or managers, as appropriate, will be executing the closing documents, furnish evidence of the authority of those signing.

   f) If Limited Liability Company is a Single Member Entity, a Statement of Information for the Single Member will be required.

   g) Each member and manager of the LLC without an Operating Agreement must execute in the presence of a notary public the Certificate of California LLC (Without an Operating Agreement) Status and Authority form.

2. Prior to the close of escrow, the Company requires a Statement of Information to be completed by the following party(s),

   Party(s): All Parties

   The Company reserves the right to add additional items or make further requirements after review of the requested Statement of Information.

3. Furnish for review a full and complete copy of any unrecorded agreement, contract, license and/or lease together with all supplements, assignments and amendments thereto, prior to the close of this transaction.

   The Company reserves the right to add additional items or make further requirements after review of the requested documentation.

4. Unrecorded matters which may be disclosed by an Owner's Affidavit or Declaration. A form of the Owner's Affidavit/Declaration is attached to this Preliminary Report/Commitment. This Affidavit/Declaration is to be completed by the record owner of the land and submitted for review prior to the closing of this transaction. Your prompt attention to this requirement will help avoid delays in the closing of this transaction. Thank you.

   The Company reserves the right to add additional items or make further requirements after review of the requested Affidavit/Declaration.

END OF REQUIREMENTS

INFORMATIONAL NOTES SECTION

1. None of the items shown in this report will cause the Company to decline to attach ALTA Endorsement Form 9 to an Extended Coverage Loan Policy, when issued.

2. Note: The policy of title insurance will include an arbitration provision. The Company or the insured may demand arbitration. Arbitrable matters may include, but are not limited to, any controversy or claim between the Company and the insured arising out of or relating to this policy, any service of the Company in connection with its issuance or the breach of a policy provision or other obligation. Please ask your escrow or title officer for a sample copy of the policy to be issued if you wish to review the arbitration provisions and any other provisions pertaining to your Title Insurance coverage.

3. Note: The only conveyance(s) affecting said Land, which recorded within 24 months of the date of this report, are as follows:

Grantor:	CAN DO LLC, a California limited liability company
Grantee:	CAN DO LLC, a California limited liability company
Recording Date:	January 8, 2021
Recording No:	2021-0011050 of Official Records
Affects:	Parcel B1

4. Intentionally deleted.

5. Intentionally deleted.

6. Intentionally deleted.

7. Intentionally deleted.

8. Intentionally deleted.

Wire Fraud Alert

This Notice is not intended to provide legal or professional advice. If you have any questions, please consult with a lawyer.

All parties to a real estate transaction are targets for wire fraud and many have lost hundreds of thousands of dollars because they simply relied on the wire instructions received via email, without further verification. **If funds are to be wired in conjunction with this real estate transaction, we strongly recommend verbal verification of wire instructions through a known, trusted phone number prior to sending funds.**

In addition, the following non-exclusive self-protection strategies are recommended to minimize exposure to possible wire fraud.

- **NEVER RELY** on emails purporting to change wire instructions. Parties to a transaction rarely change wire instructions in the course of a transaction.
- **ALWAYS VERIFY** wire instructions, specifically the ABA routing number and account number, by calling the party who sent the instructions to you. DO NOT use the phone number provided in the email containing the instructions, use phone numbers you have called before or can otherwise verify. **Obtain the phone number of relevant parties to the transaction as soon as an escrow account is opened**. DO NOT send an email to verify as the email address may be incorrect or the email may be intercepted by the fraudster.
- **USE COMPLEX EMAIL PASSWORDS** that employ a combination of mixed case, numbers, and symbols. Make your passwords greater than eight (8) characters. Also, change your password often and do NOT reuse the same password for other online accounts.
- **USE MULTI-FACTOR AUTHENTICATION** for email accounts. Your email provider or IT staff may have specific instructions on how to implement this feature.

For more information on wire-fraud scams or to report an incident, please refer to the following links:

FIDELITY NATIONAL FINANCIAL, INC.
PRIVACY NOTICE

Effective January 1, 2020

Fidelity National Financial, Inc. and its majority-owned subsidiary companies (collectively, "FNF," "our," or "we") respect and are committed to protecting your privacy. This Privacy Notice explains how we collect, use, and protect personal information, when and to whom we disclose such information, and the choices you have about the use and disclosure of that information.

A limited number of FNF subsidiaries have their own privacy notices. If a subsidiary has its own privacy notice, the privacy notice will be available on the subsidiary's website and this Privacy Notice does not apply.

Collection of Personal Information

FNF may collect the following categories of Personal Information:

- contact information (*e.g.*, name, address, phone number, email address);
- demographic information (*e.g.*, date of birth, gender, marital status);
- identity information (*e.g.* Social Security Number, driver's license, passport, or other government ID number);
- financial account information (*e.g.* loan or bank account information); and
- other personal information necessary to provide products or services to you.

We may collect Personal Information about you from:

- information we receive from you or your agent;
- information about your transactions with FNF, our affiliates, or others; and
- information we receive from consumer reporting agencies and/or governmental entities, either directly from these entities or through others.

Collection of Browsing Information

FNF automatically collects the following types of Browsing Information when you access an FNF website, online service, or application (each an "FNF Website") from your Internet browser, computer, and/or device:

- Internet Protocol (IP) address and operating system;
- browser version, language, and type;
- domain name system requests; and
- browsing history on the FNF Website, such as date and time of your visit to the FNF Website and visits to the pages within the FNF Website.

Like most websites, our servers automatically log each visitor to the FNF Website and may collect the Browsing Information described above. We use Browsing Information for system administration, troubleshooting, fraud investigation, and to improve our websites. Browsing Information generally does not reveal anything personal about you, though if you have created a user account for an FNF Website and are logged into that account, the FNF Website may be able to link certain browsing activity to your user account.

Other Online Specifics

Cookies. When you visit an FNF Website, a "cookie" may be sent to your computer. A cookie is a small piece of data that is sent to your Internet browser from a web server and stored on your computer's hard drive. Information gathered using cookies helps us improve your user experience. For example, a cookie can help the website load properly or can customize the display page based on your browser type and user preferences. You can choose whether or not to accept cookies by changing your Internet browser settings. Be aware that doing so may impair or limit some functionality of the FNF Website.

Web Beacons. We use web beacons to determine when and how many times a page has been viewed. This information is used to improve our websites.

Do Not Track. Currently our FNF Websites do not respond to "Do Not Track" features enabled through your browser.

Links to Other Sites. FNF Websites may contain links to unaffiliated third-party websites. FNF is not responsible for the privacy practices or content of those websites. We recommend that you read the privacy policy of every website you visit.

Use of Personal Information

FNF uses Personal Information for three main purposes:

- To provide products and services to you or in connection with a transaction involving you.
- To improve our products and services.
- To communicate with you about our, our affiliates', and others' products and services, jointly or independently.

When Information Is Disclosed

We may disclose your Personal Information and Browsing Information in the following circumstances:

- to enable us to detect or prevent criminal activity, fraud, material misrepresentation, or nondisclosure;
- to nonaffiliated service providers who provide or perform services or functions on our behalf and who agree to use the information only to provide such services or functions;
- to nonaffiliated third party service providers with whom we perform joint marketing, pursuant to an agreement with them to jointly market financial products or services to you;

Copyright © 2018. Fidelity National Financial, Inc. All Rights Reserved

- to law enforcement or authorities in connection with an investigation, or in response to a subpoena or court order; or
- in the good-faith belief that such disclosure is necessary to comply with legal process or applicable laws, or to protect the rights, property, or safety of FNF, its customers, or the public.

The law does not require your prior authorization and does not allow you to restrict the disclosures described above. Additionally, we may disclose your information to third parties for whom you have given us authorization or consent to make such disclosure. We do not otherwise share your Personal Information or Browsing Information with nonaffiliated third parties, except as required or permitted by law. We do share Personal Information among affiliates (other companies owned by FNF) to directly market to you. Please see "Choices with Your Information" to learn how to restrict that sharing.

We reserve the right to transfer your Personal Information, Browsing Information, and any other information, in connection with the sale or other disposition of all or part of the FNF business and/or assets, or in the event of bankruptcy, reorganization, insolvency, receivership, or an assignment for the benefit of creditors. By submitting Personal Information and/or Browsing Information to FNF, you expressly agree and consent to the use and/or transfer of the foregoing information in connection with any of the above described proceedings.

Security of Your Information
We maintain physical, electronic, and procedural safeguards to protect your Personal Information.

Choices With Your Information
If you do not want FNF to share your information among our affiliates to directly market to you, you may send an "opt out" request by email, phone, or physical mail as directed at the end of this Privacy Notice. We do not share your Personal Information with nonaffiliates for their use to direct market to you.

Whether you submit Personal Information or Browsing Information to FNF is entirely up to you. If you decide not to submit Personal Information or Browsing Information, FNF may not be able to provide certain services or products to you.

For California Residents: We will not share your Personal Information or Browsing Information with nonaffiliated third parties, except as permitted by California law. For additional information about your California privacy rights, please visit the "California Privacy" link on our website (https://fnf.com/pages/californiaprivacy.aspx) or call (888) 413-1748.

For Nevada Residents: You may be placed on our internal Do Not Call List by calling (888) 934-3354 or by contacting us via the information set forth at the end of this Privacy Notice. Nevada law requires that we also provide you with the following contact information: Bureau of Consumer Protection, Office of the Nevada Attorney General, 555 E. Washington St., Suite 3900, Las Vegas, NV 89101; Phone number: (702) 486-3132; email: BCPINFO@ag.state.nv.us.
For Oregon Residents: We will not share your Personal Information or Browsing Information with nonaffiliated third parties for marketing purposes, except after you have been informed by us of such sharing and had an opportunity to indicate that you do not want a disclosure made for marketing purposes.

For Vermont Residents: We will not disclose information about your creditworthiness to our affiliates and will not disclose your personal information, financial information, credit report, or health information to nonaffiliated third parties to market to you, other than as permitted by Vermont law, unless you authorize us to make those disclosures.

Information From Children
The FNF Websites are not intended or designed to attract persons under the age of eighteen (18).We do not collect Personal Information from any person that we know to be under the age of thirteen (13) without permission from a parent or guardian.

International Users
FNF's headquarters is located within the United States. If you reside outside the United States and choose to provide Personal Information or Browsing Information to us, please note that we may transfer that information outside of your country of residence. By providing FNF with your Personal Information and/or Browsing Information, you consent to our collection, transfer, and use of such information in accordance with this Privacy Notice.

FNF Website Services for Mortgage Loans
Certain FNF companies provide services to mortgage loan servicers, including hosting websites that collect customer information on behalf of mortgage loan servicers (the "Service Websites"). The Service Websites may contain links to both this Privacy Notice and the mortgage loan servicer or lender's privacy notice. The sections of this Privacy Notice titled When Information is Disclosed, Choices with Your Information, and Accessing and Correcting Information do not apply to the Service Websites. The mortgage loan servicer or lender's privacy notice governs use, disclosure, and access to your Personal Information. FNF does not share Personal Information collected through the Service Websites, except as required or authorized by contract with the mortgage loan servicer or lender, or as required by law or in the good-faith belief that such disclosure is necessary: to comply with a legal process or applicable law, to enforce this Privacy Notice, or to protect the rights, property, or safety of FNF or the public.

Your Consent To This Privacy Notice; Notice Changes; Use of Comments or Feedback
By submitting Personal Information and/or Browsing Information to FNF, you consent to the collection and use of the information in accordance with this Privacy Notice. We may change this Privacy Notice at any time. The Privacy Notice's effective date will show the last date changes were made. If you provide information to us following any change of the Privacy Notice, that signifies your assent to and acceptance of the changes to the Privacy Notice. We may use comments or feedback that you submit to us in any manner without notice or compensation to you.

Notice of Available Discounts

Pursuant to Section 2355.3 in Title 10 of the California Code of Regulations Fidelity National Financial, Inc. and its subsidiaries ("FNF") must deliver a notice of each discount available under our current rate filing along with the delivery of escrow instructions, a preliminary report or commitment. Please be aware that the provision of this notice does not constitute a waiver of the consumer's right to be charged the field rate. As such, your transaction may not qualify for the below discounts.

You are encouraged to discuss the applicability of one or more of the below discounts with a Company representative. These discounts are generally described below; consult the rate manual for a full description of the terms, conditions and requirements for each discount. These discounts only apply to transaction involving services rendered by the FNF Family of Companies. This notice only applies to transactions involving property improved with a one-to-four family residential dwelling.

FNF Underwritten Title Company
TTCC - Ticor Title Company of California

FNF Underwriter
CTIC - Chicago Title Insurance Company

Available Discounts

CREDIT FOR PRELIMINARY REPORTS AND/OR COMMITMENTS ON SUBSEQUENT POLICIES (CTIC)
Where no major change in the title has occurred since the issuance of the original report or commitment, the order may be reopened within 12 months and all or a portion of the charge previously paid for the report or commitment may be credited on a subsequent policy charge within the following time period from the date of the report.

DISASTER LOANS (CTIC)
The charge for a lender's Policy (Standard or Extended coverage) covering the financing or refinancing by an owner of record, within 24 months of the date of a declaration of a disaster area by the government of the United States or the State of California on any land located in said area, which was partially or totally destroyed in the disaster, will be 50% of the appropriate title insurance rate.

CHURCHES OR CHARITABLE NON-PROFIT ORGANIZATIONS (CTIC)
On properties used as a church or for charitable purposes within the scope of the normal activities of such entities, provided said charge is normally the church's obligation the charge for an owner's policy shall be 50% to 70% of the appropriate title insurance rate, depending on the type of coverage selected. The charge for a lender's policy shall be 40% to 50% of the appropriate title insurance rate, depending on the type of coverage selected.

EMPLOYEE RATE (TTCC and CTIC)
No charge shall be made to employees (including employees on approved retirement) of the Company or its underwritten, subsidiary title companies for policies or escrow services in connection with financing, refinancing, sale or purchase of the employees' bona fide home property. Waiver of such charges is authorized only in connection with those costs which the employee would be obligated to pay, by established custom, as a party to the transaction.

CALIFORNIA LAND TITLE ASSOCIATION

STANDARD COVERAGE POLICY – 1990

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

1. (a) Any law, ordinance or governmental regulation (including but not limited to building or zoning laws, ordinances, or regulations) restricting, regulating, prohibiting or relating (i) the occupancy, use, or enjoyment of the land; (ii) the character, dimensions or location of any improvement now or hereafter erected on the land; (iii) a separation in ownership or a change in the dimensions or area of the land or any parcel of which the land is or was a part; or (iv) environmental protection, or the effect of any violation of these laws, ordinances or governmental regulations, except to the extent that a notice of the enforcement thereof or a notice of a defect, lien, or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
   (b) Any governmental police power not excluded by (a) above, except to the extent that a notice of the exercise thereof or notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
2. Rights of eminent domain unless notice of the exercise thereof has been recorded in the public records at Date of Policy, but not excluding from coverage any taking which has occurred prior to Date of Policy which would be binding on the rights of a purchaser for value without knowledge.
3. Defects, liens, encumbrances, adverse claims or other matters:
   (a) whether or not recorded in the public records at Date of Policy, but created, suffered, assumed or agreed to by the insured claimant;
   (b) not known to the Company, not recorded in the public records at Date of Policy, but known to the insured claimant and not disclosed in writing to the Company by the insured claimant prior to the date the insured claimant became an insured under this policy;
   (c) resulting in no loss or damage to the insured claimant;
   (d) attaching or created subsequent to Date of Policy; or
   (e) resulting in loss or damage which would not have been sustained if the insured claimant had paid value for the insured mortgage or for the estate or interest insured by this policy.
4. Unenforceability of the lien of the insured mortgage because of the inability or failure of the insured at Date of Policy, or the inability or failure of any subsequent owner of the indebtedness, to comply with the applicable doing business laws of the state in which the land is situated.
5. Invalidity or unenforceability of the lien of the insured mortgage, or claim thereof, which arises out of the transaction evidenced by the insured mortgage and is based upon usury or any consumer credit protection or truth in lending law.
6. Any claim, which arises out of the transaction vesting in the insured the estate of interest insured by this policy or the transaction creating the interest of the insured lender, by reason of the operation of federal bankruptcy, state insolvency or similar creditors' rights laws.

EXCEPTIONS FROM COVERAGE - SCHEDULE B, PART I

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) which arise by reason of:

1. Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the public records.
   Proceedings by a public agency which may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the public records.
2. Any facts, rights, interests, or claims which are not shown by the public records but which could be ascertained by an inspection of the land or which may be asserted by persons in possession thereof.
3. Easements, liens or encumbrances, or claims thereof, not shown by the public records.
4. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other facts which a correct survey would disclose, and which are not shown by the public records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b) or (c) are shown by the public records.
6. Any lien or right to a lien for services, labor or material not shown by the public records.

CLTA HOMEOWNER'S POLICY OF TITLE INSURANCE (12-02-13)
ALTA HOMEOWNER'S POLICY OF TITLE INSURANCE

EXCLUSIONS

In addition to the Exceptions in Schedule B, You are not insured against loss, costs, attorneys' fees, and expenses resulting from:

1. Governmental police power, and the existence or violation of those portions of any law or government regulation concerning:

a. building;
b. zoning;
c. land use;
d. improvements on the Land;
e. land division; and
f. environmental protection.

This Exclusion does not limit the coverage described in Covered Risk 8.a., 14, 15, 16, 18, 19, 20, 23 or 27.

2. The failure of Your existing structures, or any part of them, to be constructed in accordance with applicable building codes. This Exclusion does not limit the coverage described in Covered Risk 14 or 15.
3. The right to take the Land by condemning it. This Exclusion does not limit the coverage described in Covered Risk 17.
4. Risks:
   a. that are created, allowed, or agreed to by You, whether or not they are recorded in the Public Records;
   b. that are Known to You at the Policy Date, but not to Us, unless they are recorded in the Public Records at the Policy Date;
   c. that result in no loss to You; or
   d. that first occur after the Policy Date - this does not limit the coverage described in Covered Risk 7, 8.e., 25, 26, 27 or 28.
5. Failure to pay value for Your Title.
6. Lack of a right:
   a. to any land outside the area specifically described and referred to in paragraph 3 of Schedule A; and
   b. in streets, alleys, or waterways that touch the Land.

   This Exclusion does not limit the coverage described in Covered Risk 11 or 21.
7. The transfer of the Title to You is invalid as a preferential transfer or as a fraudulent transfer or conveyance under federal bankruptcy, state insolvency, or similar creditors' rights laws.
8. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake, or subsidence.
9. Negligence by a person or an Entity exercising a right to extract or develop minerals, water, or any other substances.

LIMITATIONS ON COVERED RISKS

Your insurance for the following Covered Risks is limited on the Owner's Coverage Statement as follows:

- For Covered Risk 16, 18, 19, and 21 Your Deductible Amount and Our Maximum Dollar Limit of Liability shown in Schedule A.

The deductible amounts and maximum dollar limits shown on Schedule A are as follows:

	Your Deductible Amount	Our Maximum Dollar Limit of Liability
Covered Risk 16:	1.00% % of Policy Amount Shown in Schedule A or $2,500.00 (whichever is less)	$ 10,000.00
Covered Risk 18:	1.00% % of Policy Amount Shown in Schedule A or $5,000.00 (whichever is less)	$ 25,000.00
Covered Risk 19:	1.00% of Policy Amount Shown in Schedule A or $5,000.00 (whichever is less)	$ 25,000.00
Covered Risk 21:	1.00% of Policy Amount Shown in Schedule A or $2,500.00 (whichever is less)	$ 5,000.00

2006 ALTA LOAN POLICY (06-17-06)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (i) the occupancy, use, or enjoyment of the Land;
   (ii) the character, dimensions, or location of any improvement erected on the Land;
   (iii) the subdivision of land; or
   (iv) environmental protection;

   or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.

   (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.

3. Defects, liens, encumbrances, adverse claims, or other matters
   (a) created, suffered, assumed, or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss or damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 13 or 14); or
   (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury or any consumer credit protection or truth-in-lending law.
6. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
   (a) a fraudulent conveyance or fraudulent transfer, or
   (b) a preferential transfer for any reason not stated in Covered Risk 13(b) of this policy.
7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the Insured Mortgage in the Public Records. This Exclusion does not modify or limit the coverage provided under Covered Risk 11(b).

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

(Except as provided in Schedule B - Part II,(t(or T)his policy does not insure against loss or damage, and the Company will not pay costs, attorneys' fees or expenses, that arise by reason of:

(PART I

(The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor or material not shown by the Public Records.

PART II

In addition to the matters set forth in Part I of this Schedule, the Title is subject to the following matters, and the Company insures against loss or damage sustained in the event that they are not subordinate to the lien of the Insured Mortgage:)

2006 ALTA OWNER'S POLICY (06-17-06)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (i) the occupancy, use, or enjoyment of the Land;
   (ii) the character, dimensions, or location of any improvement erected on the Land;
   (iii) the subdivision of land; or
   (iv) environmental protection;
   or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
   (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.

3. Defects, liens, encumbrances, adverse claims, or other matters
   (a) created, suffered, assumed, or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss or damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 9 and 10); or
   (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Title.
4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction vesting the Title as shown in Schedule A, is
   (a) a fraudulent conveyance or fraudulent transfer; or
   (b) a preferential transfer for any reason not stated in Covered Risk 9 of this policy.
5. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage, and the Company will not pay costs, attorneys' fees or expenses, that arise by reason of:
(The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown in the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.

4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and that are not shown by the Public Records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor or material not shown by the Public Records.
7. (Variable exceptions such as taxes, easements, CC&R's, etc. shown here.)

ALTA EXPANDED COVERAGE RESIDENTIAL LOAN POLICY (04-02-15)

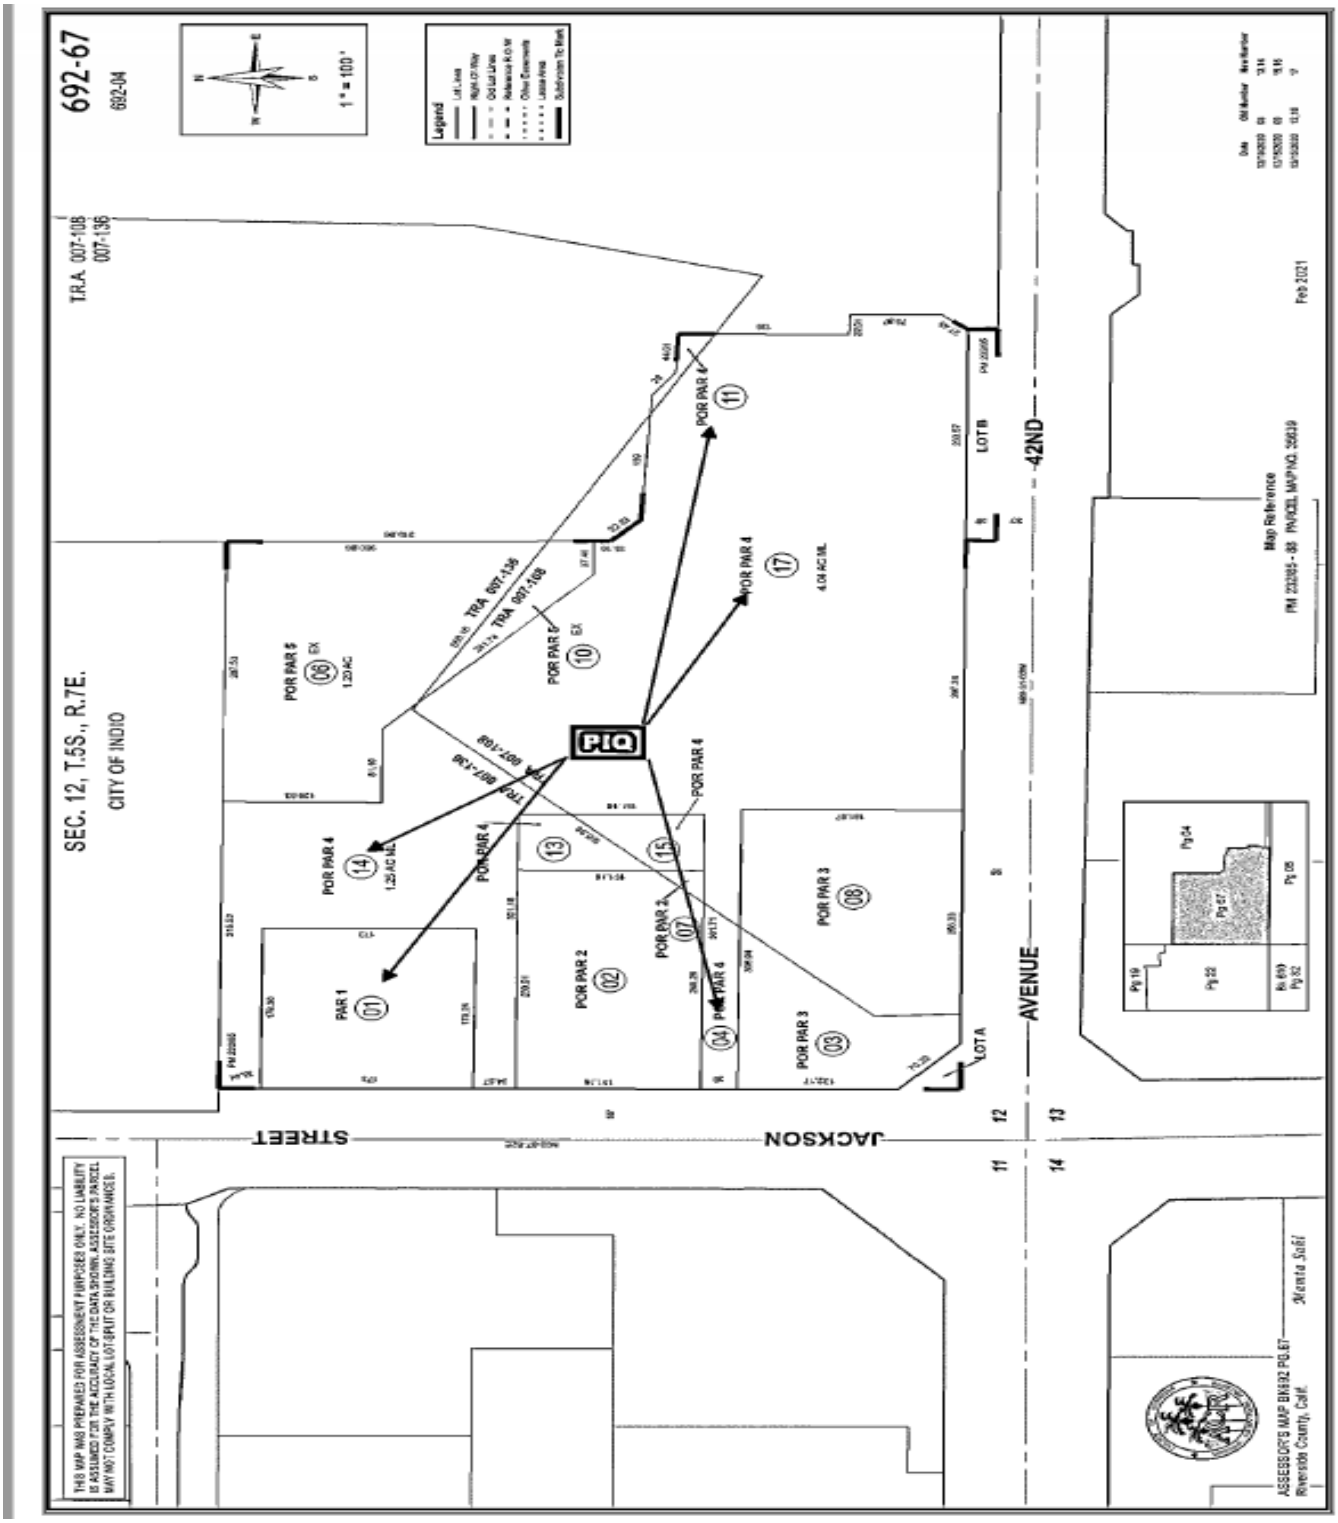

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (i) the occupancy, use, or enjoyment of the Land;
   (ii) the character, dimensions, or location of any improvement erected on the Land;
   (iii) the subdivision of land; or
   (iv) environmental protection;
   or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.
   (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
   (a) created, suffered, assumed, or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss or damage to the Insured Claimant;

(d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 16, 17, 18, 19, 20, 21, 22, 23, 24, 27 or 28); or
(e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.

4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury, or any consumer credit protection or truth-in-lending law. This Exclusion does not modify or limit the coverage provided in Covered Risk 26.
6. Any claim of invalidity, unenforceability or lack of priority of the lien of the Insured Mortgage as to Advances or modifications made after the Insured has Knowledge that the vestee shown in Schedule A is no longer the owner of the estate or interest covered by this policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11.
7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching subsequent to Date of Policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11(b) or 25.
8. The failure of the residential structure, or any portion of it, to have been constructed before, on or after Date of Policy in accordance with applicable building codes. This Exclusion does not modify or limit the coverage provided in Covered Risk 5 or 6.
9. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
   (a) a fraudulent conveyance or fraudulent transfer, or
   (b) a preferential transfer for any reason not stated in Covered Risk 27(b) of this policy.
10. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake, or subsidence.
11. Negligence by a person or an Entity exercising a right to extract or develop minerals, water, or any other substances.

This map/plat is being furnished as an aid in locating the herein described Land in relation to adjoining streets, natural boundaries and other land, and is not a survey of the land depicted. Except to the extent a policy of title insurance is expressly modified by endorsement, if any, the Company does not insure dimensions, distances, location of easements, acreage or other matters shown thereon.

OWNER'S DECLARATION

Escrow No.: 00581114-988-CIO-DN1
Property Address: APNS: 692-670-001, 004, 011, 014 & 017 (Parcel 1 Parcel Map No. 35639 & Parcel B of LLA 2020-01))
Indio, CA 92203

The undersigned hereby declares as follows:

1. (Fill in the applicable paragraph and strike the other)

   a. Declarant ("Owner") is the owner or lessee, as the case may be, of certain premises located at APNS: 692-670-001, 004, 011, 014 & 017 (Parcel 1 Parcel Map No. 35639 & Parcel B of LLA 2020-01)), Indio, CA 92203, further described as follows: See Preliminary Report/Commitment No. for full legal description (the "Land").

   b. Declarant is the _____ of _____ ("Owner"), which is the owner or lessee, as the case may be, of certain premises located at APNS: 692-670-001, 004, 011, 014 & 017 (Parcel 1 Parcel Map No. 35639 & Parcel B of LLA 2020-01)), Indio, CA 92203, further described as follows: See Preliminary Report/Commitment No. for full legal description (the "Land").

2. (Fill in the applicable paragraph and strike the other)

   a. During the period of six months immediately preceding the date of this declaration no work has been done, no surveys or architectural or engineering plans have been prepared, and no materials have been furnished in connection with the erection, equipment, repair, protection or removal of any building or other structure on the Land or in connection with the improvement of the Land in any manner whatsoever.

   b. During the period of six months immediately preceding the date of this declaration certain work has been done and materials furnished in connection with _____ upon the Land in the approximate total sum of $_____, but no work whatever remains to be done and no materials remain to be furnished to complete the construction in full compliance with the plans and specifications, nor are there any unpaid bills incurred for labor and materials used in making such improvements or repairs upon the Land, or for the services of architects, surveyors or engineers, except as follows: _____. Owner, by the undersigned Declarant, agrees to and does hereby indemnify and hold harmless Ticor Title Company of California against any and all claims arising therefrom.

3. Owner has not previously conveyed the Land; is not a debtor in bankruptcy (and if a partnership, the general partner thereof is not a debtor in bankruptcy); and has not received notice of any pending court action affecting the title to the Land.

4. Except as shown in the above-referenced Preliminary Report/Commitment, there are no unpaid or unsatisfied mortgages, deeds of trust, Uniform Commercial Code financing statements, regular assessments, special assessments, periodic assessments or any assessment from any source, claims of lien, special assessments, or taxes that constitute a lien against the Land or that affect the Land but have not been recorded in the public records. There are no violations of the covenants, conditions and restrictions as shown in the above-referenced Preliminary Report/Commitment.

5. The Land is currently in use as _____; _____ occupy/occupies the Land; and the following are all of the leases or other occupancy rights affecting the Land:

   _____

6. There are no other persons or entities that assert an ownership interest in the Land, nor are there unrecorded easements, claims of easement, or boundary disputes that affect the Land.

7. There are no outstanding options to purchase or rights of first refusal affecting the Land.

8. Between the most recent Effective Date of the above-referenced Preliminary Report/Commitment and the date of recording of the Insured Instrument(s), Owner has not taken or allowed, and will not take or allow, any action or inaction to encumber or otherwise affect title to the Land.

This declaration is made with the intention that Ticor Title Company of California (the "Company") and its policy issuing agents will rely upon it in issuing their title insurance policies and endorsements. Owner, by the undersigned Declarant, agrees to indemnify the Company against loss or damage (including attorneys fees, expenses, and costs) incurred by the Company as a result of any untrue statement made herein.

I declare under penalty of perjury that the foregoing is true and correct and that this declaration was executed on _____ at _____.

EXECUTIVE SUMMARY

This Phase I Environmental Site Assessment (ESA) was performed by Cascadia Associates, LLC (Cascadia) for an approximately 0.92-acre portion of Riverside County Parcel No. 692-670-009 (the Site). The Site is northeast of the intersection of Jackson St. and Avenue 42 in Indio, California. The Phase I ESA was performed on behalf of BB Holdings CA, LLC (the "User").

Cascadia performed this Phase I ESA in conformance with the scope and limitations of ASTM International (ASTM) Standard E1527-13. The purpose of this Phase I ESA was to identify known environmental conditions or concerns associated with the Site, which include any recognized environmental conditions (RECs) associated with the Site. RECs do not include *de minimis* conditions that generally do not present a material risk of harm to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. The results of the Phase I ESA are summarized below.

SITE DESCRIPTION

The Site is a vacant, rectangular shaped, generally flat parcel. An Asphalt-concrete drive lane followed by an Arco-branded fuel station and car wash border the Site to the west. The Site is bordered to the north and east by bare land and to the south by a sidewalk and Avenue 42.

SITE HISTORY

Historical records indicate that the Site was undeveloped in the early 1940s and was in use for agricultural purposes by the early 1950s. By the late 1960s, the Site was no longer in use for agriculture, and consisted of vacant, bare land. The Site apparently has remained unchanged since that time.

Offsite, properties in the Site vicinity were generally in use for agriculture through the 1990s. By the late1960s, a golf course had been established west of the Site, and by the late 2000s, a shopping center had been established south of the Site (across Avenue 42). By the early 2010s an AutoZone Auto Parts Store had been established northwest of the Site, and by the late 2010s the properties in the Site vicinity had been developed in their current configurations, with the ARCO-branded fuel station and car wash adjacent and west of the Site.

ENVIRONMENTAL RECORDS

Neither the Site nor surrounding properties are listed in environmental databases that indicate possible hazardous substance impacts to the Site.

An Arco-branded fuel station operates at 41910 Jackson Street, which is adjacent to the Site. The facility operates three underground storage tank systems, which were installed in 2014. No releases have been reported at the facility. Based on the absence of reported releases and the relatively recent construction of the facility, including modern containment and interstitial

monitoring systems, the Arco-branded fuel station and car wash is not considered an REC in connection with the Site.

CONCLUSIONS

This assessment has not revealed RECs in connection with the Site.

It is possible that pesticides were applied to the Site when it was used for agricultural purposes. Assuming that pesticides were applied in accordance with manufacturers recommendations, the historical use of pesticides at the Site does not constitute an REC. The current and future risks associated with possible historical application of pesticides are considered very low for three reasons. First, the Site has not been used for agricultural purposes for many years, thus, the concentrations of some chemicals may have attenuated. Second, under a future development scenario, it is likely that the Site will be graded prior to development. Grading commonly results in mixing of surface soil with deeper soil. The mixing of agricultural soils often reduces pesticide concentrations in soil. Third, under a future development scenario, most of the Site is expected to be covered with asphalt-concrete or Portland cement concrete surfaces. These surfaces will prevent exposure to underlying soil.

LIMITATIONS

This Executive Summary is provided as a summary only and should be used only in conjunction with a full review of the complete Phase I ESA report. Cascadia completed this work under the contract terms and conditions referenced in Service Order No. CA-3704 to the Master Professional Service Agreement dated September 26, 2019.

1.0 INTRODUCTION

Cascadia Associates, LLC (Cascadia) performed a Phase I Environmental Site Assessment (ESA) for an approximately 0.92-acre portion of Riverside County Parcel No. 692-670-009 (the Site). The Site is northeast of the intersection of Jackson St. and Avenue 42 in Indio, California. The Phase I ESA was performed on behalf of BB Holdings CA, LLC (the "User") in accordance with the scope and limitations of ASTM International (ASTM) E1527-13. The Phase I ESA was prepared at the request of BB Holdings CA, LLC, under Service Order No. CA-3704.

1.1 PURPOSE

The User is conducting environmental due diligence in connection with possible lease of the Site. This Phase I ESA is intended to satisfy one of the requirements to permit the User to qualify for the innocent landowner, adjoining property owner, or bona fide prospective purchaser limitations on liability under the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA; landowner liability protections). This Phase I ESA conforms to standards for "*all appropriate inquiries*"[1] into the previous ownership and uses of the Site, as specified by the U.S. Environmental Protection Agency (EPA) in 40 CFR Part 312, and in accordance with good commercial or customary practice.

A Phase I ESA performed under the conditions of, and in accordance with, the guidelines outlined in ASTM E1527-13 is recognized as meeting the due diligence provisions of the federal statute CERCLA; 42 USC 9601(35)(B) and the state equivalents at the time this report was prepared. ASTM E 1527-13 satisfies the elements of the EPA All Appropriate Inquiry (AAI) rule, which establishes requirements that purchasers must meet to limit their environmental liability under CERCLA and qualify for liability protections, including the "Innocent Purchaser," "Bona Fide Prospective Purchaser," and "Contiguous Property Owner" liability defenses that are provided by CERCLA.

The goal of the Phase I ESA process is to identify recognized environmental conditions (RECs). The term *REC* means the presence or likely presence of any hazardous substances or petroleum products in, on, or at a site: (1) due to any release to the environment, (2) under conditions indicative of a release to the environment, or (3) under conditions that pose a material threat of a future release to the environment. *De minimis* conditions are not RECs. A *de minimis* condition generally does not present a threat to human health or the environment and generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies.

[1] As defined at 42 U.S.C. Section 9601(35)(B) and 40 CFR Part 312.

1.2 SCOPE OF SERVICES

This ESA complies with the general scope and limitations of the ASTM Standard Practice for ESAs: The Phase I ESA Process, Designation E1527-13. The following specific tasks were performed:

- A physical reconnaissance of the Site;
- Visual observation of adjoining properties or facilities;
- Review of historical land use of the Site back to the first developed use or 1940, whichever is earlier;
- Review of published information regarding the geology, hydrology, and topographical information of the Site;
- Review of reasonably ascertainable records and regulatory agency file database searches to identify federal and state-listed properties of known potential environmental concern located within the minimum search distances from the Site, as specified in ASTM E1527-13;
- Interviews with present and past Site owners, operators/managers, or occupants;
- Interviews with representatives of the state, county, or local regulatory agencies with knowledge of the Site;
- Evaluation of the information gathered from the sources listed above; and
- Preparation of this report.

This Phase I ESA does not address non-scope considerations as defined in Section 13 of ASTM E1527-13.

2.0 SITE DESCRIPTION

The following sections describe the Site layout and use, Site ownership, properties adjoining the Site, and the Site physical setting.

2.1 SITE LAYOUT AND CURRENT USE

The Site is a vacant, rectangular shaped, generally flat property. An Asphalt-concrete drive lane followed by an Arco-branded fuel station and car wash border the Site to the west. The Site is bordered to the north and east by bare land and to the south by a sidewalk and Avenue 42. The Site location is shown on Figure 1, and the Site layout is shown on Figure 2.

2.2 SITE OWNERSHIP

The Site is owned by Can Do LLC, a California limited liability company, according to the Title Commitment report dated March 19, 2021.

2.3 ADJOINING PROPERTIES

Adjoining properties are defined as those sharing borders with the Site or separated only by a street, alley, or other public right-of-way. Uses of adjacent or nearby properties are listed below:

Table 2-1 Adjoining Properties

Direction	Occupancy/Use
North	Vacant land, followed by The Toy Box RV and Boat Storage facility (41700 Jackson St.)
East	Vacant land, followed by a parking lot associated with The Lights at Indio Golf Course (83040 Avenue 42).
South	A sidewalk followed by Avenue 42.
West	Asphalt-concrete drive lane, followed by an Arco-branded fuel station and car wash (41910 Jackson St.).

2.4 PHYSICAL SETTING

The physical setting of the Site is summarized below:

Table 2-2 Physical Setting

	Description	Source
Elevation and Topography	The Site is approximately 5 feet below mean sea level (MSL). The Site is generally flat. Regional topography slopes to the south.	U.S. Geological Survey (USGS) Indio, California 7.5 Minute topographic map (2018)
Wetlands	No wetlands are present at the Site.	U.S. Fish and Wildlife Service National Wetland Inventory
Floodplain	The Site is not mapped in the 100-year flood zone.	Federal Emergency Management Agency
Soil Type	Soil at the Site is mapped as Indio series, very fine sandy loam.	U.S. Department of Agriculture Soil Conservation Service
Geology	The Site is underlain by Pleistocene-Holocene marine and nonmarine sedimentary rock consisting of older alluvium, lake, playa, and terrace deposits.	Geologic Map of California, 2010
Groundwater	Groundwater is approximately 15 to 30 feet below the ground surface (bgs). The inferred groundwater flow direction in the Site region is to the northeast.	See Section 4.9

3.0 SITE RECONNAISSANCE

A site reconnaissance was conducted on March 23, 2021. Weather conditions at the time of the reconnaissance were sunny with a temperature of approximately 75 degrees Fahrenheit. Representative photographs from the site reconnaissance are provided in Appendix A.

3.1 METHODS AND LIMITATIONS

The perimeter of the Site and areas within the Site boundaries were inspected.

3.2 OBSERVATIONS SUMMARY

The following table summarizes observations made during the site reconnaissance:

Table 3-1 Site Reconnaissance Summary

Observation	Observed (Yes/No)?	Comments
Structures (existing)	No	
Structures (evidence of former)	No	
Aboveground Storage Tanks (ASTs)	No	
Underground Storage Tanks (USTs)	No	
Drums or Other Containers	No	
Leaks, Spills, or Releases Around ASTs, USTs, and/or Chemical Storage Areas	No	
Stained or Corroded Floors, Walls, or Drains	No	
Pipes of Unknown Origin or Use	No	
Hydraulic Lifts or Elevators	No	
Transformers	No	
Hazardous Waste Disposal Areas	No	
Uncontained Debris, Refuse, or Unidentified Waste Materials	Yes	Small amounts of non-hazardous refuse were scattered across the Site

Observation	Observed (Yes/No)?	Comments
Standing Water or Other Liquids	No	
Floor Drains or Sumps	No	
Catch Basins, Dry Wells, and Storm Water Drainage	No	
Pits/Ponds/Lagoons	No	
Waste or Wastewater Discharges	No	
Oil/Water Separators	No	
On-Site Septic System	No	
Unusual Odors	No	
Stressed Vegetation/Stained Soil	No	
Fill Material	No	
Wells	No	
Other Observations	No	

3.3 SITE RECONNAISSANCE OBSERVATIONS DISCUSSION

The Site surface consists of vacant bare land. An Arco-branded fuel station and car wash were observed adjacent and west of the Site. A sidewalk and Avenue 42 were observed south of the Site. Vacant, bare land was observed east and north of the Site.

3.4 CONCLUSIONS OF SITE RECONNAISSANCE

No RECs were observed during the site reconnaissance.

4.0 SITE HISTORY

Cascadia reviewed data sources, including topographic maps, fire insurance maps, city directories, aerial photography, and historical building permits to ascertain historical uses and occupants of the Site and vicinity. Copies of historical resources are included in Appendix B.

4.1 AERIAL PHOTOGRAPHY

Aerial photographs for the years 1940, 1953, 1969, 1972, 1977, 1980, 1984, 1996, 2002, 2009, 2012, and 2018 were reviewed. The Site is shown as undeveloped on 1940 image. On the 1953 image the site is shown as in agricultural use (field crops). The 1969 through 2018 images show the site as undeveloped and consisting of bare land.

Offsite, properties in the Site vicinity were generally in use for agricultural purposes through the 1990s. By 1969, the golf course west of the Site had been established, and by 2009 the shopping center south of the Site (across Avenue 42) had been established. By 2012 the AutoZone auto parts store northwest of the Site had been established, and by 2018 the properties in the Site vicinity had been developed in their current configurations, with the Arco-branded fuel station and car wash adjacent and west of the Site.

4.2 TOPOGRAPHIC MAPS

USGS topographic maps for the years 1941, 1943, 1956, 1956, 1972, 2009, 2012, and 2015 were reviewed. The Site is depicted as undeveloped on the maps. The 1956 and 1972 maps indicate the presence of a well on the property north of the Site, and the 1972 through 2012 maps denote a golf course east of the Site.

4.3 FIRE INSURANCE MAPS

Historical fire insurance maps are unavailable for the Site.

4.4 CITY DIRECTORIES

City directories for the Site area were reviewed for the years 2005, 2011, and 2018. The Site is not listed in the directories. Indio Municipal Golf Course is listed at 83040 Avenue 42 (approximately 230 feet east of the Site) in the 2005, 2011, and 2018 directories.

4.5 INTERVIEWS

Cascadia interviewed individuals knowledgeable about the Site to obtain information about the Site, particularly regarding possible RECs in connection with the Site. Table 4-1 lists the individuals who were interviewed.

Table 4-1 Interviews

Name	Title	Affiliation	Type of Interview
Robert Jonas	Manager	Can Do, LLC	Telephone
Staff	NA	City of Indio Fire Department	Telephone

Robert Jonas Interview

Cascadia interviewed Mr. Robert Jonas, a Manger with Can Do, LLC (Can Do), the entity that owns the Site. Mr. Jonas reported that Can Do acquired the Site in October 2014. Mr. Jonas stated that the Site has been undeveloped and unchanged since October 2014 and, to his knowledge, it was not previously developed. He stated that the property adjacent and west of the Site was developed with an Arco-branded fuel station and car wash after Can Do acquired the Site in 2014. Mr. Jonas concluded his interview by stating that he is not aware of the storage, use, or release of hazardous substances at surrounding properties and his firm has had no engagement with local, state, or federal environmental agencies related to the storage, use, or release of hazardous substances.

City of Indio Fire Department Interview

Cascadia requested an interview with the City of Indio Fire Department regarding hazardous substance storage, use, and releases at the Site and surrounding properties. The City of Indio Fire Department did not respond to Cascadia's request for an interview.

4.5.1 User Information

ASTM E1527-13 defines "User" as the party seeking to use Practice E1527-13 to complete an environmental site assessment of the Site. ASTM E1527-13 specifies that certain tasks associated with identifying potential RECs at the Site should be performed by the User and provided to the Environmental Professional (i.e., User Responsibilities). Accordingly, Cascadia provided a Questionnaire to Mr. Russ Orsi requesting the above information. Mr. Orsi is a construction manager for the User. Responses to the questionnaire are presented below, in Table 4-2. User-provided information is included in Appendix C.

Table 4-2 User Information

Inquiry	User Provided Information
Environmental Cleanup Liens, AUL, Title Records	The User is not aware of any environmental cleanup liens against the Site that are filed or recorded under federal, tribal, state, or local law and is not aware of any activity and use limitations (AULs) that are in place at the Site or have been filed or recorded under federal, tribal, state, or local law.
Specialized User Knowledge	The User indicated that they have no specialized knowledge or experience with regards to the Site.
Commonly Known or Reasonably Ascertainable Information	The User indicated that the User is not aware of past uses of the Site.
Valuation Reduction for Environmental Issues	The User did not provide information indicating a valuation reduction for environmental issues.
Reason for Performing Phase I ESA	This Phase I ESA was performed for due diligence purposes.
Other User Provided Information	The User provided the March 19, 2021 Title Commitment, issued by Old Republic Title Insurance Company. The Title Commitment is discussed in Section 5.2.

4.6 PREVIOUS REPORTS PROVIDED BY USER

The User did not provide any previous reports.

4.7 BUILDING PERMITS

Cascadia contacted the City of Indio Building Department and requested copies of building permits and certificates of occupancy for the Site. No records have been provided as of the date of this report.

4.8 RIVERSIDE COUNTY DEPARTMENT OF ENVIRONMENTAL HEALTH

The Riverside County Environmental Health Services Department is the Certified Unified Program Agency that coordinates and enforces numerous local, state, and federal hazardous materials management, UST, AST, and environmental protection programs in Indio, California. The Riverside County Environmental Health Services Department also coordinates and manages water supply well and septic tank programs for the City of Indio. Cascadia requested historical files for the Site. Th Riverside County Environmental Health Services Department reported that no records are available for the Site.

4.9 CALIFORNIA GEOTRACKER

Cascadia reviewed the California GeoTracker website. The GeoTracker database includes a wide range of records for Sites where hazardous substances and petroleum hydrocarbons have been

released and remediated, such as Leaking Underground Storage Tank (LUST) Sites, Department of Defense Sites, and Cleanup Program Sites. GeoTracker also contains records for various unregulated projects as well as permitted facilities including: Irrigated Lands, Oil and Gas production, operating Permitted USTs, and Land Disposal Sites. The GeoTracker database does not include any listings for the Site.

The Indio Municipal Golf Course, which is at 83040 Avenue 42, approximately 320 feet east of the Site, is listed as a LUST cleanup Site. In 1986, a gasoline underground storage tank (UST), was removed from the facility and replaced with an above ground storage tank (AST). Upon removal, holes were noted in the UST and an unauthorized release report was filed with the Indio Fire Department. From 1986 through 1987 twelve groundwater monitoring wells were reportedly installed at the facility. During installation of the monitoring wells, total petroleum hydrocarbons as gasoline (TPHg) were detected in soil at concentrations up to 3,800 parts per million (ppm), and separate phase hydrocarbons (SPH) were encountered in the groundwater monitoring wells at thicknesses up to 6.1 feet. Groundwater was reportedly encountered at depths ranging from 15 to 30 feet below the ground surface (bgs).

In 1998 and 2001 the AST that replaced the former UST was vandalized and additional gasoline was released. In 1998, approximately 200 gallons of gasoline were released and in 2001, approximately 100 gallons of gasoline were released. Following the gasoline releases in 1998 and 2001, impacted surface soil was excavated from the release area and transported off-site for disposal. In 2001, a soil vapor extraction (SVE) system was installed at the facility. The SVE system operated from January 2002 through August 2004. An estimated 56,920 pounds or 7,857 gallons of hydrocarbons were removed from the release area during operational period of the SVE system.

Groundwater monitoring wells at the facility were sampled in 1986 and 1987. Sampling was once again resumed in 1996. During the 1996 sampling event, TPHg and total xylenes were detected in one well at a concentration of 750 parts per billion (ppb) and 65 ppb, respectively. Samples collected from borings advanced in the release area after operation of the SVE system detected TPHg at a concentration of 1.7 ppm at a depth of 15 feet bgs. Additional constituents including benzene, toluene, ethylbenzene, and methyl tert-butyl ether (MTBE) were not detected in the soil and/or groundwater samples.

In a letter dated September 16, 2005, the Riverside County Department of Environmental Health issued a no further action determination for the facility indicating that adequate remediation activities at the facility had been completed to address the release of petroleum hydrocarbons. In 2008 the groundwater monitoring wells at the facility were decommissioned. Groundwater elevation data collected during monitoring activities as the facility indicate that groundwater in the area flows to the northeast (away from the Site). Based on the no further action determination issued by the Riverside County Department of Environmental Health for the facility and the inferred groundwater flow direction in the area, the release of petroleum hydrocarbons at the Indio Municipal Golf Course is not considered an REC in connection with the Site.

4.10 CALIFORNIA OIL AND GAS WELLS

Cascadia reviewed the California Department of Conservation, Division of Oil, Gas, and Geothermal Resources online Well Finder database. No active wells were identified within 3 miles of the Site.

4.11 CONCLUSIONS FROM SITE HISTORY REVIEW

Historical records indicate that the Site was undeveloped in the early 1940s and was in use for agricultural by the early 1950s. By the late 1960s, the Site was no longer in agricultural use, and consisted of vacant, bare land. The Site has remained unchanged since that time.

Offsite, properties in the Site vicinity were generally in use for agriculture through the 1990s. By the late1960s, the golf course west of the Site had been established, and by the late 2000s, the shopping center south of the Site (across Avenue 42) had been established. By the early 2010s the AutoZone auto parts Store northwest of the Site had been constructed, and by the late 2010s the properties in the Site vicinity had been developed in their current configurations, with the Arco-branded fuel station and car wash adjacent and west of the Site.

5.0 ENVIRONMENTAL RECORDS

This section presents the results from the environmental records review. These records were reviewed to assess potential environmental concerns for the Site, and, when applicable, surrounding properties.

5.1 STANDARD RECORD SOURCES

Cascadia reviewed the results of a search of standard environmental record sources as required by ASTM Standard E1527-13. Envirosite Corporation (Envirosite) provided results of a regulatory agency database search in its March 30, 2021 report. Cascadia reviewed that report for information pertaining to storage and/or reported releases of hazardous substances and petroleum products on the Site and on surrounding properties that may affect the Site. The Envirosite report is included in Appendix D.

The database search information has been divided into two subcategories: state and tribal records, and federal records. All properties listed in the report that do not have sufficient information for mapping their location are called orphan sites and are listed separately. Table 5-1 lists the environmental databases and the number of facilities found within the search distances recommended in the ASTM E1527-13 standard for each standard environmental database. Table 5-1 lists only select databases; however, the Envirosite report includes reviews of all databases required by ASTM E1527-13.

Table 5-1 Environmental Database Search Results

Database	Search Distance (miles)	Number of Listed Facilities
STATE AND TRIBAL RECORDS		
Aboveground Storage Tank (AST)	0.25	0
Underground Storage Tank (UST)	0.25	2
Historic Underground Storage Tank (HIST UST)	0.25	0
Underground Storage Tank (UST) Riverside County	0.25	2
Facility Inventory Database UST (FID-UST)	0.25	2
Leaking Underground Storage Tank (LUST) Riverside County	0.5	0
Solid Waste and Recycling Facility (SWRCY)	0.5	1
State and Tribal-Equivalent Comprehensive Environmental Response Listing Information System (Envirostor)	1.0	1
Corrective Action—Riverside County	1.0	1
FEDERAL RECORDS		
National Priority List (NPL)	1.0	0
Resource Conservation and Recovery Act—Large Quantity Generator (RCRA-LQG)	0.25	1

Database	Search Distance (miles)	Number of Listed Facilities
Resource Conservation and Recovery Act—Small Quantity Generator (RCRA-SQG)	0.25	2
Resource Conservation and Recovery Act—Non-Generator (RCRA-NonGen)	0.25	8

5.1.1 Site Records

The Site is listed in the Federal Land (FEDLAND) database. This listing indicates that the Site is included in the California Desert Conservation Area. The listing is not indicative of any releases of hazardous substances at the Site.

5.1.2 Federal, State, and Local Records

Based on distances from the Site, the types of listings, and the assumed direction of groundwater flow, the listed facilities are not likely to be significant source of hazardous substances or petroleum hydrocarbons to the Site. Those facilities that warrant further discussion, however, are listed below:

- ARCO Fuel Station and Car Wash; and
- AutoZone Auto Parts Store.

ARCO Fuel Station and Car Wash

An Arco-branded fuel station operates at 41910 Jackson Street, which is adjacent and west of the Site. The facility is listed in the CALEPA Sites, California Integrated Water Quality Systems, Environmental Protection Agency Enforcement and Compliance History Online, FID-UST, Facility Index Systems, HAZNET, RCRA-NonGen, Integrated Compliance Information Systems, Inactive Permit Compliance Facilities, National Pollutant Discharge Elimination System, Enforced Permit Compliance Facilities, Regulated Facility Report, and UST databases. Reportedly, the facility was constructed in 2014. Chemicals stored at the facility include gasoline and diesel fuel in three USTs, and soaps and polishes associated with the car wash at the facility. Multiple violations have been recorded for the facility including failure to submit a Hazardous Material Response Plan to the appropriate regulatory agency, inappropriate labeling of waste generated at the facility, and failure to maintain interstitial monitoring equipment associated with the UST systems. The violations recorded for the facility have reportedly been corrected, and no releases of hazardous substances have been reported at the facility. The most recent inspection of the facility in March 2021 did not identify any violations. Based on the absence of reported releases and the relatively recent construction of the facility, including modern containment and interstitial monitoring systems, the Arco-branded fuel station and car wash is not considered an REC in connection with the Site.

AutoZone Auto Parts Store

The AutoZone auto parts store operates at 41850 Jackson St. (approximately 180 feet northwest of the Site). The facility is listed in the EPA Compliance History Online, CALEPA Sites, Facility Index

Systems, HAZNET, RCRA-NonGen, and Solid Waste Recycling databases. The facility is listed in these databases due to the storage, use, and off-site disposal of small quantities of chemicals including used oil, anti-freeze, and solvents associated with vehicle maintenance activities. No releases have been reported at the facility. Given the distance of the facility from the Site, and the absence of reported releases, the AutoZone Auto parts store is not considered an REC in connection with the Site

5.1.3 Unmappable Sites

Ten facilities estimated by Envirosite to be in the vicinity of the Site, but not mappable by Envirosite due to poor or inadequate address information, were identified on standard environmental record sources databases. These facilities were identified as unmappable sites in the Envirosite Unmappable Summary. Based on address and other geographic information provided by Envirosite, Cascadia was able to generally locate the sites.

It appeared to Cascadia that the unmappable sites were outside of the ASTM standard search distances for their respective database listings or did not have the potential to affect the Site due to releases of hazardous substances or petroleum products. Therefore, none of these unmappable sites is considered to present an REC at the Site.

5.2 ENVIRONMENTAL LIENS AND AULS

Cascadia retained Security First Title Resource to review title records for environmental liens and/or AULs recorded against the Site. No environmental liens or AULs were identified by Security First Title Resource.

The User provided Title Commitment, issued by Old Republic National Title Insurance Company, dated March 19, 2021. The Title Commitment does not indicate any issues of environmental concern. A copy of the Title Commitment is included in Appendix E.

6.0 FINDINGS AND CONCLUSIONS

Cascadia performed this Phase I ESA in general conformance with the scope and limitations of ASTM Standard E E1527-13 for the Site. Any exceptions to, or deviations from, this practice are described in Section 7 of this report.

Historical records indicate that the Site was undeveloped in the early 1940s and was in use for agriculture by the early 1950s. By the late 1960s, the Site was no longer in agricultural use, and consisted of vacant, bare land. The Site has remained apparently unchanged since that time.

Offsite, properties in the Site vicinity were generally in use for agriculture through the 1990s. By the late 1960s, the golf course west of the Site had been established, and by the late 2000s, the shopping center south of the Site (across Avenue 42) had been constructed. By the early 2010s, the AutoZone auto parts store northwest of the Site had been established, and by the late 2010s the properties in the Site vicinity had been established into their current configurations, with the Arco-branded fuel station and car wash occupying the property adjacent and west of the Site.

Neither the Site nor surrounding properties are listed in environmental databases that indicate hazardous substance or petroleum hydrocarbon impacts to the Site.

This assessment has not revealed any RECs in connection with the Site.

It is possible that pesticides were applied to the Site when it was used for agricultural purposes. Assuming that pesticides were applied in accordance with manufacturers recommendations, the historical use of pesticides at the Site does not constitute an REC. The current and future risks associated with possible historical application of pesticides are considered very low for three reasons. First, the Site has not been used for agricultural purposes for many years, thus, the concentrations of some chemicals may have attenuated. Second, under a future development scenario, it is likely that the Site will be graded prior to development—grading commonly results in mixing of surface soil with deeper soil. The mixing of agricultural soils often reduces pesticide concentrations in soil. Third, under a future development scenario, most of the Site is expected to be covered with asphalt-concrete or Portland cement concrete surfaces. These surfaces will prevent exposure to underlying soil.

7.0 DEVIATIONS AND DATA GAPS

Cascadia did not deviate from the ASTM E1527-13 standard in conducting this assessment, except as described below:

- A representative of the city of Indio Fire Department did not respond to Cascadia's request for an interview regarding historical activities at the Site. The absence of an interview with a fire department representative is not considered a significant data gap because the Site is not currently developed, and Cascadia was able to review records from multiple state and federal databases. The available records are believed sufficient to characterize historical activities at the Site.

8.0 USER RELIANCE, SIGNIFICANT ASSUMPTIONS AND LIMITATIONS

8.1 USER RELIANCE

This Phase I ESA is intended to be used by BB Holdings CA, LLC, only for the Site identified in Section 1 of this report. Boersma Bros., LLC, Dutch Mafia, LLC, Dutch Bros., LLC, and DB Franchising USA, LLC, may also rely on the findings of this report. This Phase I ESA may not be relied upon by other parties without the express written consent of the User and upon written acceptance of our Terms and Conditions through a third-party reliance agreement. Any use that a third party makes of this report, or any reliance on or decisions to be made based on it, are the responsibility of the third party. With respect to third parties, Cascadia has no liability or responsibility for losses of any kind whatsoever, including direct or consequential financial effects on transactions or property values, or requirements for follow-up actions and costs.

In accordance with ASTM E1527-13, this report is valid for one year. Interviews, a search for environmental liens, a review of government records, the visual reconnaissance of the Site and surrounding properties, and the Environmental Professional declarations must be updated within 180 days to maintain the legal protections afforded by this Phase I ESA.

8.2 SIGNIFICANT ASSUMPTIONS

Reasonable efforts were made to identify RECs associated with hazardous substances or petroleum products at the Site. Findings in this Phase I ESA are presented as professional judgments expressed herein and are based on the facts currently available to Cascadia. The information presented herein is intended solely to provide guidance to the User and is not necessarily a firm course of action, except where explicitly stated.

An independent data research company, Envirosite, of Shelton, Connecticut, provided Cascadia with the government agency database search report referenced in this Phase I ESA. The information provided to Cascadia from the government agency database search was assumed to be correct unless obviously contradicted by Cascadia's observations or contradicted by another credible referenced source reviewed by Cascadia.

In evaluating the property, Cascadia has relied in good faith on information provided by other individuals noted in this report. Cascadia has assumed that the information provided is factual and accurate. In addition, the findings in this report are based, to a large degree, upon information provided by the current owner/occupant. Cascadia accepts no responsibility for any deficiency, misstatement, or inaccuracy contained in this report as a result of omissions, misinterpretations, or fraudulent acts of persons interviewed or contacted.

Similarly, Cascadia has assumed that responses to questions during interviews have been truthful, and that information contained in previous reports for the Site or adjoining properties (for example, earlier Phase I ESAs or consultants reports on tank removals or spill response) is accurate,

unless contradicted by Cascadia's observations or contradicted by other credible referenced sources reviewed by Cascadia.

8.3 LIMITATIONS

This report summarizes work performed to fulfill the process specified under ASTM Standard E1527-13. Reasonable efforts were made to identify evidence of RECs. Cascadia was allowed full access to the Site, and there were no obstructions to limit a visual review of the Site, except where noted in this Phase I ESA.

The quality of information and conclusions presented herein are consistent with the: (1) information available at the time of preparation, (2) data supplied by outside sources, and (3) assumptions, conditions, and qualifications set forth in this report.

Environmental impairment of a property may result from many activities, such as illegal or unreported dumping, or the spilling of hazardous wastes or materials. The presence of contaminants at a property may not always be apparent, and the completion of a Phase I ESA in accordance with ASTM E1527-13 cannot provide a guarantee that hazardous wastes or materials do not exist. Findings of this report are valid as of the report date and are subject to the Phase I ESA limitations described herein, and in ASTM Standard E1527-13.

The findings contained herein are relevant to the dates of Cascadia's site reconnaissance and should not be relied upon to represent conditions at later dates. If changes in the nature, usage, or layout of the property or nearby properties are made, the conclusions and recommendations contained in this report may not be valid. If additional information becomes available, the information should be provided to Cascadia so the original conclusions and recommendations can be modified as necessary.

Regardless of findings stated in this Phase I ESA, Cascadia is not responsible for consequences of conditions arising from facts that were withheld or not fully disclosed to Cascadia during this Phase I ESA.

The report is based on data and information collected during the Phase I ESA of the property performed by Cascadia. It is based solely on the conditions of the Site encountered at the time of the site reconnaissance, supplemented by a review of other information presented herein.

Cascadia makes no other representations whatsoever, including those concerning the legal significance of its findings, or regarding other legal matters touched on in this report, including, but not limited to, ownership of any property, or the application of any law to the facts set forth herein. With respect to regulatory compliance issues, regulatory statutes are subject to interpretation and change. Such interpretations and regulatory changes should be reviewed with legal counsel.

9.0 CLOSING

We declare that, to the best of our professional knowledge and belief, we meet the definition of environmental professional as defined in §312.10 of 40 CFR Part 312. I/we have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the Site. We have developed and performed all the appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

APPENDIX C

USER-PROVIDED INFORMATION

Phase I Environmental Site Assessment User Questionnaire

Introduction: The following questionnaire was prepared in accordance with the US EPA All Appropriate Inquiries (AAI) Final Rule and ASTM International (ASTM) Standard E1527-13, Standard Practice for Environmental Site Assessments, adopted by the ASTM as part of the Phase I Environmental Site Assessment (Phase I ESA) standard process.

Purpose: The purpose of the Phase I ESA is to evaluate the property for evidence of hazardous waste or hazardous material releases to the environment. As the user of this Phase I, your input in the assessment is requested to collect information that is not found in the public records or is not visually apparent. Please answer the following questions and then sign and return the completed questionnaire to Cascadia Associates, LLC.

Property/Site Name:	**CA-3704**
Site Address:	**The Site is an approximately 0.92-acre parcel that is northeast of the intersection of Jackson St. and Avenue 42, Indio, California. The Riverside County parcel number for the Site is 692-670-009. The Site consists of bare land.**
Respondent Name:	**Mr. Dennis Williams, on behalf of the User and reliance parties.**
Respondent Title:	**Construction Manager**
Respondent Signature:	
Date:	**4-9-21**

Background Information:

1. What is the purpose of the Phase I ESA (property transaction, lease agreement, other)?

Due diligence for a potential lease.

2. Is the property being considered for redevelopment? If so, what type of use(s) are planned (e.g., residential, commercial, industrial)?

Commerical.

3. Please provide an address, legal description, assessor parcel number(s), and a map of the property (if available).

Approximately 0.92-acre parcel that is northeast of the intersection of Jackson St. and Avenue 42, Indio, California. The Riverside County parcel number for the Site is 692-670-009. The Site consists of bare land.

4. Please provide available title records, judicial records, and chain-of-title for the property, if available. PROVIDED

5. As part of the Phase I ESA process, Cascadia will interview individuals that are expected to have current or historical knowledge of the occupants and uses of the property. Please provide one or more site contact names, mailing address, telephone number, and e-mail address, if available.

Tom Carpenter

949-303-0853

tom@frontierrei.com

User Questions:

	Yes	No
Environmental Cleanup Liens Are you aware of any environmental cleanup liens against the Site that are filed or recorded under federal, tribal, state, or local law?		X
Activity and Use Limitations (AULs) Are you aware of any AULs, such as engineering controls, land use restrictions or institutional controls that are in place at the Site and/or have been filed or recorded in a registry under federal, tribal, state, or local law?		X
Specialized Knowledge or Experience Do you have any specialized knowledge or experience related to the Site, nearby properties, or are you involved in the same line of business as the current or former occupants of the Site or an adjoining property so that you would have specialized knowledge of the chemicals and processes used at the Site?		X
Purchase Price vs. Fair Market Value Does the purchase price being paid for the Site reflect any adjustments from the fair market value of the Site?		X
Commonly Known or Reasonably Ascertainable Information Are you aware of commonly known or reasonably ascertainable information about the Site that would help the environmental professional to identify conditions indicative of releases or threatened releases?		X
Do you know past uses of the Site?		X
Do you know of specific chemicals that are present or were once present at the Site?		X
Do you know of spills of other chemicals that occurred at the Site?		X
Do you know if any environmental cleanups that have occurred at the Site?		X
Obvious Signs of Contamination Are there any obvious indicators that point to the presence or likely presence of contamination at the Site?		X

Please provide an explanation for all "yes" responses.

Source Description

Source Description :

The NPDES module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

Source Description

Source Description :

The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), and Toxic Release Inventory (TRI).

Source Description :

The California Environmental Reporting System (CERS) is a statewide web-based user and information exchange system to support over 140,000 regulated businesses and over 130 local agencies in electronically collecting and reporting significant hazardous materials, hazardous waste and compliance and enforcement data as mandated by California law. Under oversight by Cal/EPA, certified local governing agencies (Unified Program Agencies - UPAs) consolidate, coordinate and provide consistent regulatory activities for six state and federal environmental programs.

Source Description

Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

Source Description

Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), and Toxic Release Inventory (TRI).

Source Description

Source Description :

The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), and Toxic Release Inventory (TRI).

Source Description

Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

Source Description

Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), and Toxic Release Inventory (TRI).

RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), and Toxic Release Inventory (TRI).

Source Description

Source Description :

The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), and Toxic Release Inventory (TRI).

Source Description

Source Description :

All generators and treatment, storage, and disposal (TSD) facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years. The data collected is used to create the National Biennial Resource Conservation and Recovery Act (RCRA) Hazardous Waste Report. This data is processed within the RCRA Information (RCRAInfo) database.

Source Description
Source Description : RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), and Toxic Release Inventory (TRI).

Source Description

Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), and Toxic Release Inventory (TRI).

Source Description :

All generators and treatment, storage, and disposal (TSD) facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years. The data collected is used to create the National Biennial Resource Conservation and Recovery Act (RCRA) Hazardous Waste Report. This data is processed within the RCRA Information (RCRAInfo) database.

Hazardous Waste Summary

Details for this site have been truncated due to the large number of available details for this site within this dataset. For the complete details for this site, contact your Envirosite account representative for a complimentary site report containing all of the details available.

Waste Code / Name :

122 - Alkaline solution without metals (pH > 12.5)
131 - Aqueous solution (2 < pH < 12.5) containing reactive anions (azide, bromate, chlorate, cyanide, fluoride, hypochlorite, nitrite, perchlorate, and sulfide anions)
214 - Unspecified solvent mixture
311 - Pharmaceutical waste
D001 - IGNITABLE WASTE
D002 - CORROSIVE WASTE
D007 - CHROMIUM
D010 - SELENIUM
D024 - M-CRESOL
P001 - 2H-1-BENZOPYRAN-2-ONE, 4-HYDROXY-3-(3-OXO-1-PHENYLBUTYL)-, & SALTS, WHEN PRESENT AT CONCENTRATIONS GREATER THAN 0.3% (OR) WARFARIN, & SALTS, WHEN PRESENT AT CONCENTRATIONS GREATER THAN 0.3%

Source Description

Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

Source Description

Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

Source Description

Source Description :

The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), and Toxic Release Inventory (TRI).

FEDERAL RCRA NON-CORRACTS TSD FACILITIES LIST

ARCHIVED RCRA TSDF: Resource Conservation and Recovery Act hazardous waste transportation storage disposal and treatment facilities

Agency Version Date: 01/15/2021
Agency Update Frequency: Quarterly
Planned Next Contact: 04/13/2021
Agency: U.S. Environmental Protection Agency
Agency Contact: 215-814-2469
Most Recent Contact: 01/15/2021

RCRA_TSDF: Resource Conservation and Recovery Act hazardous waste transportation storage disposal and treatment facilities

Agency Version Date: 01/15/2021
Agency Update Frequency: Quarterly
Planned Next Contact: 04/13/2021
Agency: U.S. Environmental Protection Agency
Agency Contact: 215-814-2469
Most Recent Contact: 01/15/2021

FEDERAL CERCLIS LIST

CERCLIS NFRAP: The CERCLIS sites with No Further Remedial Action Planned from the CERCLIS program database. The Environmental Protection Agency decommissioned the CERCLIS data in 2014. The last update was November 12, 2013.

Agency Version Date: 10/25/2013
Agency Update Frequency: Quarterly
Planned Next Contact: 05/11/2021
Agency: U.S. Environmental Protection Agency
Agency Contact: 800-424-9346
Most Recent Contact: 02/12/2021

CERCLIS-HIST: The CERCLIS program database contains information on the assessment and remediation of federal hazardous waste sites. The Environmental Protection Agency decommissioned the CERCLIS data in 2014. The last update was November 12, 2013.

Agency Version Date: 10/29/2013
Agency Update Frequency: Quarterly
Planned Next Contact: 05/11/2021
Agency: U.S. Environmental Protection Agency
Agency Contact: 800-424-9346
Most Recent Contact: 02/12/2021

FEDERAL FACILITY: Sites where Federal Facilities Restoration and Reuse Office (FFRRO) arranged cleanup for Base Closure and Property Transfer at Federal Facilities

Agency Version Date: 11/17/2020
Agency Update Frequency: Varies
Planned Next Contact: 05/11/2021
Agency: U.S. Environmental Protection Agency
Agency Contact: 703-603-8712
Most Recent Contact: 02/12/2021

SEMS_8R_ACTIVE SITES: The Active Site Inventory Report displays site and location information at active SEMS sites. An active site is one at which site assessment, removal, remedial, enforcement, cost recovery, or oversight activities are being planned or conducted. NPL sites include latitude and longitude information. For non-NPL sites, a brief site status is provided.

Agency Version Date: 11/17/2020
Agency Update Frequency: Quarterly
Planned Next Contact: 05/11/2021
Agency: U.S. Environmental Protection Agency
Agency Contact: 703-603-8867
Most Recent Contact: 02/12/2021

SEMS_8R_ARCHIVED SITES: The Archived Site Inventory displays site and location information at sites archived from SEMS. An archived site is one at which EPA has determined that assessment has been completed and no further remedial action is planned under the Superfund program at this time.

Agency Version Date: 10/28/2020
Agency Update Frequency: Quarterly
Planned Next Contact: 05/11/2021
Agency: U.S. Environmental Protection Agency
Agency Contact: 703-603-8867
Most Recent Contact: 02/12/2021

FEDERAL RCRA CORRACTS FACILITIES LIST

CORRACTS: List of facilities where Resource Conservation and Recovery Act Corrective Action Program used to investigate and remediate hazardous releases

Agency Version Date: 01/15/2021
Agency Update Frequency: Quarterly
Planned Next Contact: 04/13/2021
Agency: U.S. Environmental Protection Agency
Agency Contact: 202-566-1667
Most Recent Contact: 01/15/2021

HIST CORRACTS 2: List of facilities where Resource Conservation and Recovery Act Corrective Action Program used to investigate and remediate hazardous releases that are no longer in current agency list.

Agency Version Date: 10/12/2018
Agency Update Frequency: Annually
Planned Next Contact: 06/08/2021
Agency: U.S. Environmental Protection Agency
Agency Contact: 202-566-1667
Most Recent Contact: 03/12/2021

FEDERAL DELISTED NPL SITE LIST

DELISTED NPL: National Priority List of sites that were delisted and no longer require action

Agency Version Date: 11/17/2020
Agency Update Frequency: Quarterly
Planned Next Contact: 05/11/2021
Agency: U.S. Environmental Protection Agency
Agency Contact: 703-603-8867
Most Recent Contact: 02/12/2021

DELISTED PROPOSED NPL: Sites that have been delisted from the proposed National Priority List

Agency Version Date: 11/17/2020
Agency Update Frequency: Quarterly
Planned Next Contact: 05/11/2021
Agency: U.S. Environmental Protection Agency
Agency Contact: 703-603-8867
Most Recent Contact: 02/12/2021

SEMS_DELETED NPL: All Deleted National Priority List Sties

Agency Version Date: 10/28/2020
Agency Update Frequency: Quarterly
Planned Next Contact: 05/11/2021
Agency: U.S. Environmental Protection Agency
Agency Contact: 703-603-8867
Most Recent Contact: 02/12/2021

FEDERAL LANDFILL AND/OR SOLID WASTE DISPOSAL SITE LISTS

EPA LF MOP: Sites in the EPA Landfill Methane Outreach Program

Agency Version Date: 01/11/2021
Agency Update Frequency: Quarterly
Planned Next Contact: 04/09/2021
Agency: U.S. Environmental Protection Agency
Agency Contact: 703-603-8867
Most Recent Contact: 01/11/2021

FEDERAL ERNS LIST

ERNS: Emergency Response Notification System records of reported spills

Agency Version Date: 02/04/2021
Agency Update Frequency: Annually
Planned Next Contact: 05/03/2021
Agency: National Response Center United States Coast Guard
Agency Contact: N/R
Most Recent Contact: 02/04/2021

FEDERAL INSTITUTIONAL CONTROLS / ENGINEERING CONTROLS REGISTRIES

FED E C: Federal listing of remediation sites with engineering controls

Agency Version Date: 03/11/2021
Agency Update Frequency: Varies

SOIL COMPOSITION IN GENERAL AREA OF SUBJECT PROPERTY:

Agency source: Soil Conservation Service, US Department of Agriculture

SOIL MAP ID 1

USDA Soil Name	Coachella,Series
USDA Soil Texture	Fine sandy loam
Hydrologic Soil Group	A
Soil Drainage Class	Well drained
Hydric Classification	0
Corrosion Potential - Uncoated Steel	Moderate

Layer	Depth (inches)	Soil Texture	AASHTO Group	Unified Soil Description	Saturated Hydraulic Conductivity micro m/sec	Soil Reaction pH
1	0-10	Fine sandy loam	Silt-Clay materials (more than 35% passing NO. 200), silty soils. Reference: This is a classification of soil material for highway and airfield construction (Procedure M 145-73 in Am. Assoc. of State Highway and Transportation Officials, 1984.	FINE-GRAINED SOILS, Silts and clays, (liquid limit is less than 50%), Silt. Reference: This is a classification of soil material designed for general construction purposes. It is dependent on the particle size distribution of the <75 mm, the liquid limit, and the plasticity index and on whether the soil material is high in organic matter (ASTM test D 2487, in ASTM, 1984).	14-42	7.9-8.4
2	10-40	Sand	Granular materials (35% or less passing No. 200), silty or clayey gravel and sand. Reference: This is a classification of soil material for highway and airfield construction (Procedure M 145-73 in Am. Assoc. of State Highway and Transportation Officials, 1984.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand. Reference: This is a classification of soil material designed for general construction purposes. It is dependent on the particle size distribution of the <75 mm, the liquid limit, and the plasticity index and on whether the soil material is high in organic matter (ASTM test D 2487, in ASTM, 1984).	14-42	7.9-8.4
3	40-60	Loamy sand	Granular materials (35% or less passing No. 200), silty or clayey gravel and sand. Reference: This is a classification of soil material for highway and airfield construction (Procedure M 145-73 in Am. Assoc. of State Highway and Transportation Officials,	Reference: This is a classification of soil material designed for general construction purposes. It is dependent on the particle size distribution of the <75 mm, the liquid limit, and the plasticity index and on whether the soil material is high in organic matter (ASTM	14-42	7.9-8.4

Q3 Flood Data

HYDROLOGIC UNIT
Hydrologic Unit Maps
USGS
The United States Geological Survey created a hierarchical system of hydrologic units originally called regions, sub-regions, accounting units, and cataloging units. Each unit was assigned a unique Hydrologic Unit Code (HUC). As first implemented the system had 21 regions, 221 subregions, 378 accounting units, and 2,264 cataloging units. Over time the system was changed and expanded. As of 2010 there are six levels in the hierarchy, represented by hydrologic unit codes from 2 to 12 digits long, called regions, subregions, basins, subbasins, watersheds, and subwatersheds. The table below describes the system's hydrologic unit levels and their characteristics, along with example names and codes.

Info@SecurityFirstTitleResource.com - www.securityfirsttitleresource.net

The Environmental Lien Search Report (ELS) provides results from a search of available current land title records for environmental cleanup liens and other activity and use limitations, such as engineering control and institutional controls.
Our in house professional abstractors / title examiners, following established procedure, use client supplied property data, such as property address, map, parcel number etc. to search for:

- parcel information and / or legal description
- search for ownership information
- research official recorded land title documents
- provide a copy of the deed
- search for environmental encumbering instrument (s) associated with the deed
- provide a copy of any environmental encumbrance (s) based upon a review of key words in the Instrument (s) (title, parties involved, and description).

Below is the property data information and Environmental Lien Search report of the subject property for a period ending March 20, 2021.

A copy of the current vesting deed is attached hereto and made a part hereof.

CLIENT PROJECT NO.: 0087-098-001 REPORT DATE: April 1, 2021

SUBJECT PROPERTY: Vacant commercial land – 2.76 acre parcel, Indio, CA

COUNTY / JURISDICTION: Riverside, California

PROPERTY IDENTIFIER: 692670009

CURRENT OWNER INFORMATION (legal owner)

Type of Deed: Grant Deed
Title Vested in: Can Do, LLC
Deed dated: 1-14-2015
Deed Recorded: 2-13-2015
Document # 2015-0059662

LEGAL DESCRIPTION: See Exhibit "A" in the current vesting deed attached hereto and made a part hereof. (Portion of Parcel 4)

COMMITMENT

Issued by
OLD REPUBLIC NATIONAL TITLE INSURANCE COMPANY

NOTICE

IMPORTANT—READ CAREFULLY: THIS COMMITMENT IS AN OFFER TO ISSUE ONE OR MORE TITLE INSURANCE POLICIES. ALL CLAIMS OR REMEDIES SOUGHT AGAINST THE COMPANY INVOLVING THE CONTENT OF THIS COMMITMENT OR THE POLICY MUST BE BASED SOLELY IN CONTRACT.

THIS COMMITMENT IS NOT AN ABSTRACT OF TITLE, REPORT OF THE CONDITION OF TITLE, LEGAL OPINION, OPINION OF TITLE, OR OTHER REPRESENTATION OF THE STATUS OF TITLE. THE PROCEDURES USED BY THE COMPANY TO DETERMINE INSURABILITY OF THE TITLE, INCLUDING ANY SEARCH AND EXAMINATION, ARE PROPRIETARY TO THE COMPANY, WERE PERFORMED SOLELY FOR THE BENEFIT OF THE COMPANY, AND CREATE NO EXTRACONTRACTUAL LIABILITY TO ANY PERSON, INCLUDING A PROPOSED INSURED.

THE COMPANY'S OBLIGATION UNDER THIS COMMITMENT IS TO ISSUE A POLICY TO A PROPOSED INSURED IDENTIFIED IN SCHEDULE A IN ACCORDANCE WITH THE TERMS AND PROVISIONS OF THIS COMMITMENT. THE COMPANY HAS NO LIABILITY OR OBLIGATION INVOLVING THE CONTENT OF THIS COMMITMENT TO ANY OTHER PERSON.

COMMITMENT TO ISSUE POLICY

Subject to the Notice; Schedule B, Part I—Requirements; Schedule B, Part II—Exceptions; and the Commitment Conditions, Old Republic National Title Insurance Company, a Florida Corporation (the "Company"), commits to issue the Policy according to the terms and provisions of this Commitment. This Commitment is effective as of the Commitment Date shown in Schedule A for each Policy described in Schedule A, only when the Company has entered in Schedule A both the specified dollar amount as the Proposed Policy Amount and the name of the Proposed Insured.

If all of the Schedule B, Part I—Requirements have not been met within 6 months after the Commitment Date, this Commitment terminates and the Company's liability and obligation end.

COMMITMENT CONDITIONS

1. DEFINITIONS

(a) "Knowledge" or "Known": Actual or imputed knowledge, but not constructive notice imparted by the Public Records.

(b) "Land": The land described in Schedule A and affixed improvements that by law constitute real property. The term "Land" does not include any property beyond the lines of the area described in Schedule A, nor any right, title, interest, estate, or easement in abutting streets, roads, avenues, alleys, lanes, ways, or waterways, but this does not modify or limit the extent that a right of access to and from the Land is to be insured by the Policy.

(c) "Mortgage": A mortgage, deed of trust, or other security instrument, including one evidenced by electronic means authorized by law.

(d) "Policy": Each contract of title insurance, in a form adopted by the American Land Title Association, issued or to be issued by the Company pursuant to this Commitment.

(e) "Proposed Insured": Each person identified in Schedule A as the Proposed Insured of each Policy to be issued pursuant to this Commitment.

(f) "Proposed Policy Amount": Each dollar amount specified in Schedule A as the Proposed Policy Amount of each Policy to be issued pursuant to this Commitment.

(g) "Public Records": Records established under state statutes at the Commitment Date for the purpose of imparting constructive notice of matters relating to real property to purchasers for value and without Knowledge.

(h) "Title": The estate or interest described in Schedule A.

2. If all of the Schedule B, Part I—Requirements have not been met within the time period specified in the Commitment to Issue Policy, this Commitment terminates and the Company's liability and obligation end.

3. The Company's liability and obligation is limited by and this Commitment is not valid without:

(a) the Notice;
(b) the Commitment to Issue Policy;
(c) the Commitment Conditions;
(d) Schedule A;
(e) Schedule B, Part I—Requirements;
(f) Schedule B, Part II—Exceptions; and
(g) a counter-signature by the Company or its issuing agent that may be in electronic form.

4. COMPANY'S RIGHT TO AMEND

The Company may amend this Commitment at any time. If the Company amends this Commitment to add a defect, lien, encumbrance, adverse claim, or other matter recorded in the Public Records prior to the Commitment Date, any liability of the Company is limited by Commitment Condition 5. The Company shall not be liable for any other amendment to this Commitment.

5. LIMITATIONS OF LIABILITY

(a) The Company's liability under Commitment Condition 4 is limited to the Proposed Insured's actual expense incurred in the interval between the Company's delivery to the Proposed Insured of the Commitment and the delivery of the amended Commitment, resulting from the Proposed Insured's good faith reliance to:
  (i) comply with the Schedule B, Part I—Requirements;
  (ii) eliminate, with the Company's written consent, any Schedule B, Part II—Exceptions; or
  (iii) acquire the Title or create the Mortgage covered by this Commitment.

(b) The Company shall not be liable under Commitment Condition 5(a) if the Proposed Insured requested the amendment or had Knowledge of the matter and did not notify the Company about it in writing.

(c) The Company will only have liability under Commitment Condition 4 if the Proposed Insured would not have incurred the expense had the Commitment included the added matter when the Commitment was first delivered to the Proposed Insured.

(d) The Company's liability shall not exceed the lesser of the Proposed Insured's actual expense incurred in good faith and described in Commitment Conditions 5(a)(i) through 5(a)(iii) or the Proposed Policy Amount.

(e) The Company shall not be liable for the content of the Transaction Identification Data, if any.

(f) In no event shall the Company be obligated to issue the Policy referred to in this Commitment unless all of the Schedule B, Part I— Requirements have been met to the satisfaction of the Company.

(g) In any event, the Company's liability is limited by the terms and provisions of the Policy.

6. LIABILITY OF THE COMPANY MUST BE BASED ON THIS COMMITMENT

(a) Only a Proposed Insured identified in Schedule A, and no other person, may make a claim under this Commitment.

(b) Any claim must be based in contract and must be restricted solely to the terms and provisions of this Commitment.

(c) Until the Policy is issued, this Commitment, as last revised, is the exclusive and entire agreement between the parties with respect to the subject matter of this Commitment and supersedes all prior commitment negotiations, representations, and proposals of any kind, whether written or oral, express or implied, relating to the subject matter of this Commitment.

(d) The deletion or modification of any Schedule B, Part II—Exception does not constitute an agreement or obligation to provide coverage beyond the terms and provisions of this Commitment or the Policy.

(e) Any amendment or endorsement to this Commitment must be in writing and authenticated by a person authorized by the Company.

(f) When the Policy is issued, all liability and obligation under this Commitment will end and the Company's only liability will be under the Policy.

7. IF THIS COMMITMENT HAS BEEN ISSUED BY AN ISSUING AGENT

The issuing agent is the Company's agent only for the limited purpose of issuing title insurance commitments and policies. The issuing agent is not the Company's agent for the purpose of providing closing or settlement services.

8. PRO-FORMA POLICY

The Company may provide, at the request of a Proposed Insured, a pro-forma policy illustrating the coverage that the Company may provide. A pro-forma policy neither reflects the status of Title at the time that the pro-forma policy is delivered to a Proposed Insured, nor is it a commitment to insure.

9. ARBITRATION

The Policy contains an arbitration clause. All arbitrable matters when the Proposed Policy Amount is $2,000,000 or less shall be arbitrated at the option of either the Company or the Proposed Insured as the exclusive remedy of the parties. A Proposed Insured may review a copy of the arbitration rules at http://www.alta.org/arbitration.

File Number 304991NCT-235
Revision Number 04-01-21

SCHEDULE A

1. Commitment Date: **March 19, 2021 at 7:30 AM**

2. Policy to be issued:
   (a) 2006 ALTA Owner's Policy
   Proposed Insured: **To Be Determined**
   Proposed Policy Amount: **To Be Determined**
   (b) 2006 ALTA Loan Policy
   Proposed Insured:
   Proposed Policy Amount:

3. The estate or interest in the Land described or referred to in this Commitment is **FEE SIMPLE**.

4. The Title is, at the Commitment Date, vested in:

   Can Do LLC, a California limited liability company, subject to Exception Nos. 21 to 22

5. The land referred to is situated in the County of Riverside, City of Indio, State of California, and is described as follows:

   See 'EXHIBIT A' attached hereto

EXHIBIT A

That portion of Parcel 4 of Parcel Map No. 35639, in the City of Indio, County of Riverside, State of California, as shown by Map on file in Book 232, Pages 85 through 88 of Parcel Maps, filed in the Office of the County Recorder of said County that is included within PARCEL B as shown on EXHIBIT "A" of Lot Line Adjustment No. LLA 2020-001 attached to the Certificate of Compliance recorded on October 9, 2020 as Instrument No. 2020- 0485634 of Official Records, said portion being more particularly described as follows:

Beginning at the Northwest corner of Parcel 2 of said Parcel Map; thence along the Northerly line thereof and its Easterly prolongation, South 89°31'02" East 301.18 feet;

Thence South 00°04'07" East 151.16 feet to the Easterly prolongation of the South line of said Parcel 2;

Thence along said prolongation and said Southerly line, North 89°31'02" West 301.71 feet to the Southwest corner of said Parcel 2, said corner being an angle point in the Westerly line of said Parcel 4;

Thence along the Westerly line of said Parcel 4, South 00°07'52" West 30.00 feet to the Northwest corner of Parcel 3 of said Parcel Map No. 35639;

Thence along the Northerly line of said Parcel 3, South 89°31'02" East 306.95 feet to the Northeast corner of said Parcel 3;

Thence along the Easterly line of said Parcel 3, South 00°28'58" West 181.67 feet to the Southeast corner of said Parcel 3 and most Southwesterly corner of said Parcel 4;

Thence along the Southerly line of said Parcel 4, South 89°31'02" East 530.91 feet to the Southeast corner of said Parcel 4;

Thence along the general Easterly line of Parcel 4 the following (13) courses:

1) North 33°35'11" East 27.45 feet

2) North 00°28'58" East 75.97 feet

3) North 89°31'02" West 22.01 feet

4) North 00°28'58" East 139.00 feet

5) North 85°54'45" West 44.01 feet

6) North 52°12'00" West 29.00 feet

7) North 85°54'39" West 139.00 feet

8) North 44°13'52" West 32.23 feet

9) North 00°07' 11" East 15.10 feet

10) North 89°31'02" West 37.40 feet

11) North 44°31'02" West 241.74 feet

12) North 89°31'02" West 81.10 feet

13) North 00°28"58" East 129.93 feet to the Northeasterly corner of said Parcel 4;

Thence leaving said general Easterly line of said Parcel 4, along the Northerly line of said Parcel 4, North 89°30'56" West 315.52 feet to the Northwest corner of said Parcel 4;

Thence along the Westerly line of said Parcel 4, South 00°07'52" West 35.44 feet to the Northwest corner of Parcel 1 of said Parcel Map No. 35639;

Thence along the Northerly line of said Parcel 1, South 89°31'02" East 176.30 feet to the Northeast corner of said Parcel 1;

Thence along the Easterly line of said Parcel 1, South 00°28'58" West 173.00 feet to the Southeast corner of said Parcel 1;

Thence along the Southerly line of said Parcel 1, North 89°31'02" West 175.24 feet, to the Southwest corner of said Parcel 1 and a point in the Westerly line of said Parcel 4;

Thence along the Westerly line of said Parcel 4, South 00°07'52" West 34.67 feet, to the point of beginning.

APN: 692-670-009

SCHEDULE B-I
REQUIREMENTS

All of the following Requirements must be met:

1. The Proposed Insured must notify the Company in writing of the name of any party not referred to in this Commitment who will obtain an interest in the Land or who will make a loan on the Land. The Company may then make additional Requirements or Exceptions.

2. Pay the agreed amount for the estate or interest to be insured.

3. Pay the premiums, fees, and charges for the Policy to the Company.

4. Documents satisfactory to the Company that convey the Title or create the Mortgage to be insured, or both, must be properly authorized, executed, delivered, and recorded in the Public Records.

5. Deed of Trust to secure an indebtedness of the amount stated below and any other amounts payable under the terms thereof,
Amount : $1,000,000.00
Trustor/Borrower : Can Do LLC, a California limited liability company
Trustee : Pacific Western Bank
Beneficiary/Lender : Pacific Western Bank
Dated : February 2, 2015
Recorded : March 3, 2015 in Official Records as Instrument Number 2015-0082881
Affects this and other property.

   NOTE: In connection therewith, the following:
Document Entitled : Deed of Reconveyance
Executed in the Name of : Pacific Western Bank
Recorded : January 14, 2021 in Official Records as Instrument Number 2021-0028272

   Upon receipt of evidence satisfactory to this Company that the indebtedness and/or obligations secured by said Deed of Trust have been satisfied, or that the property in question is no longer to be security for said indebtedness or obligations, we will supplement our report accordingly.

6. The requirement that this Company be provided with an opportunity to inspect the land (the Company reserves the right to make additional exceptions and/or requirements upon completion of its inspection).

7. The requirement that this Company be provided with a suitable Owner's Declaration (form ORT 174). The Company reserves the right to make additional exceptions and/or requirements upon review of the Owner's Declaration.

8. Prior to the issuance of any policy of title insurance, the Company requires the following with respect to Can Do LLC, a California Limited Liability Company:
1. A copy of any management or operating agreements and any amendments thereto, together with a current list of all members of said LLC.
2. A certified copy of its Articles of Organization (LLC-1), any Certificate of Correction (LLC-11), Certificate of Amendment (LLC-2), or Restatement of Articles of Organization (LLC-10).
3. Recording a Certified copy of said LLC-1 and any “amendments thereto”.

SCHEDULE B-II
EXCEPTIONS

THIS COMMITMENT DOES NOT REPUBLISH ANY COVENANT, CONDITION, RESTRICTION, OR LIMITATION CONTAINED IN ANY DOCUMENT REFERRED TO IN THIS COMMITMENT TO THE EXTENT THAT THE SPECIFIC COVENANT, CONDITION, RESTRICTION, OR LIMITATION VIOLATES STATE OR FEDERAL LAW BASED ON RACE, COLOR, RELIGION, SEX, SEXUAL ORIENTATION, GENDER IDENTITY, HANDICAP, FAMILIAL STATUS, OR NATIONAL ORIGIN.

The Policy will not insure against loss or damage resulting from the terms and provisions of any lease or easement identified in Schedule A, and will include the following Exceptions unless cleared to the satisfaction of the Company:

1. Defects, liens, encumbrances, adverse claims, or other matters, if any, created, first appearing in the Public Records or attaching subsequent to the Effective Date but prior to the date the proposed Insured acquires for value of record the estate or interest or mortgage thereon covered by this Commitment.

2. Rights or claims of parties in possession not shown by the public records.

3. Encroachments, overlaps, boundary line disputes, and any other matters which would be disclosed by an accurate survey and inspection of the premises.

4. Easements or claims of easements not shown by the public records.

5. Any lien, or right to a lien, for services, labor or material heretofore or hereafter furnished, imposed by law and not shown by the public records.

6. Taxes and assessments, general and special, for the fiscal year 2021 - 2022, a lien, but not yet due or payable.

7. Taxes and assessments, general and special, for the fiscal year 2020 - 2021, as follows:
   Assessor's Parcel No : 692-670-004
   Code No. : 007-136
   1st Installment : $298.82 Marked Paid
   2nd Installment : $298.82 NOT Marked Paid
   Land Value : $48,456.00

8. Taxes and assessments, general and special, for the fiscal year 2020 - 2021, as follows:
   Assessor's Parcel No : 692-670-005
   Code No. : 007-136
   1st Installment : $3,353.54 Marked Paid
   2nd Installment : $3,353.54 NOT Marked Paid
   Land Value : $550,860.00

9. Taxes and assessments, general and special, for the fiscal year 2020 - 2021, as follows:
   Assessor's Parcel No : 692-670-011
   Code No. : 007-136
   1st Installment : $46.05 Marked Paid
   2nd Installment : $46.05 NOT Marked Paid
   Land Value : $6,889.00

10. Taxes and assessments, general and special, for the fiscal year 2020 - 2021, as follows:
    Assessor's Parcel No : 692-670-012
    Code No. : 007-108
    1st Installment : $1,744.66 Marked Paid

2nd Installment : $1,744.66 NOT Marked Paid
Land Value : $285,627.00

11. The lien of supplemental taxes, if any, assessed pursuant to the provisions of Section 75, et seq., of the Revenue and Taxation Code of the State of California.

12. An easement affecting that portion of said land and for the purposes stated herein and incidental purposes as provided in the following
Granted To : County of Riverside
For : public road
Recorded : April 17, 1959 in Official Records as Instrument Number 32692
Affects : as described therein

13. Covenants, Conditions and Restrictions which do not contain express provision for forfeiture or reversion of title in the event of violation, but omitting any covenants or restriction if any, based upon race, color, religion, sex, handicap, familial status, or national origin unless and only to the extent that said covenant (a) is exempt under Title 42, Section 3607 of the United States Code or (b) relates to handicap but does not discriminate against handicapped persons, as provided in an instrument.
Recorded : August 8, 1995 in Official Records as Instrument Number 258894

14. Redevelopment Plan, as follows:
Recorded : November 30, 1999 in Official Records as Instrument Number 99-521777

15. Terms and provisions as contained in an instrument,
Entitled : Resolution of the Board of Directors of Coachella Valley Water District
Resolution No. 2003-49
Recorded : August 6, 2003 in Official Records as Instrument Number 2003- 597460

16. Terms and provisions as contained in an instrument,
Entitled : Memorandum Of Agreement
Recorded : November 16, 2007 in Official Records as Instrument Number 2007-0700067

17. Terms and provisions as contained in an instrument,
Entitled : Memorandum of Option Agreement
Recorded : November 8, 2007 in Official Records as Instrument Number 2007-0681758

18. Terms and provisions as contained in an instrument,
Entitled : Resolution No. 9299
Recorded : April 3, 2009 in Official Records as Instrument Number 2009-0164385

19. An easement affecting that portion of said land and for the purposes stated herein and incidental purposes as shown on the filed map.
For : Public utilities and 30 foot access easement

20. Covenants, Conditions and Restrictions which do not contain express provision for forfeiture or reversion of title in the event of violation, but omitting any covenants or restriction if any, based upon race, color, religion, sex, handicap, familial status, or national origin unless and only to the extent that said covenant (a) is exempt under Title 42, Section 3607 of the United States Code or (b) relates to handicap but does not discriminate against handicapped persons, as provided in an instrument.

Recorded : December 14, 2011 in Official Records as Instrument Number 2011-0553159

Said Covenants, Conditions and Restrictions provide that a violation thereof shall not defeat or render invalid the lien of a first Mortgage or Deed of Trust made in good faith and for value.

NOTE: "If this document contains any restriction based on race, color, religion, sex, gender, gender identity, gender expression, sexual orientation, familial status, marital status, disability, veteran or military status, genetic information, national origin, source of income as defined in subdivision (p) of Section 12955, or ancestry, that restriction violates state and federal fair housing laws and is void, and may be removed pursuant to Section 12956.2 of the Government Code. Lawful restrictions under state and federal law on the age of occupants in senior housing or housing for older persons shall not be construed as restrictions based on familial status."

Modification thereof, but omitting any covenants or restrictions if any, based upon race, color, religion, sex, handicap, familial status, or national origin unless and only to the extent that said covenant (a) is exempt under Title 42, Section 3607 of the United States Code or (b) relates to handicap but does not discriminate against handicapped persons.

Recorded : September 10, 2012 in Official Records as Instrument Number 2012-0431193

Modification thereof, but omitting any covenants or restrictions if any, based upon race, color, religion, sex, handicap, familial status, or national origin unless and only to the extent that said covenant (a) is exempt under Title 42, Section 3607 of the United States Code or (b) relates to handicap but does not discriminate against handicapped persons.

Recorded : January 8, 2021 in Official Records as Instrument Number 2021-0011048

21. Any question of delivery, defect or invalidity in the title to said land arising out of or occasioned by the Deed,
From : TFGCO - Jackson LLC, a California limited liability company
To : Can Do LLC, a California limited liability company, the entire undivided fifty percent (50%) interest
Recorded : November 7, 2014 in Official Records as Instrument Number 2014-0428879

22. Any question of delivery, defect or invalidity in the title to said land arising out of or occasioned by the Deed,
From : Ronald M. Sommer, M.D., Trustee of the Sommer Trust dated October 29, 1996, as amended
To : Can Do LLC, a California limited liability company, the entire undivided two and one-half percent (2.50%) interest
Recorded : November 20, 2014 in Official Records as Instrument Number 2014-0446362

23. Any question of delivery, defect or invalidity in the title to said land arising out of or occasioned by the Deed,
From : Barbara St. John-Sommer, Trustee of the Barbara St. John-Sommer
Trust, dated October 2, 1995, as amended
To : Can Do LLC, a California limited liability company, the entire undivided two and one-half percent (2.50%) interest
Recorded : November 20, 2014 in Official Records as Instrument Number 2014-0446363

24. Any question of delivery, defect or invalidity in the title to said land arising out of or occasioned by the Deed,
From : JCKH, LLC, a California limited liability company
To : Can Do LLC, a California limited liability company, the entire undivided twelve and one-half percent (12.50%) interest
Recorded : November 20, 2014 in Official Records as Instrument Number 2014-0446364

25. Any question of delivery, defect or invalidity in the title to said land arising out of or occasioned by the Deed,
From : RCK, LLC, a California limited liability company
To : Can Do LLC, a California limited liability company, the entire undivided twelve and one-half percent (12.50%) interest
Recorded : November 20, 2014 in Official Records as Instrument Number 2014-0446365

26. Any question of delivery, defect or invalidity in the title to said land arising out of or occasioned by the Deed,
From : RCK, LLC, a California limited liability company

To : Can Do LLC, a California limited liability company, the entire undivided twenty percent (20%) interest
Recorded : February 13, 2015 in Official Records as Instrument Number 2015-0059662

27. Matters as contained or referred to in an instrument,
Entitled : Certificate of Compliance
Recorded : October 9, 2020 in Official Records as Instrument Number 2020-0485634

---------- Informational Notes ----------

A. The applicable rate(s) for the policy(s) being offered by this report or commitment appears to be section(s) 1.1 and 2.1.

B. The above numbered report (including any supplements or amendments thereto) is hereby modified and/or supplemented to reflect the following additional items relating to the issuance of an American Land Title Association loan form policy: NONE

NOTE: Our investigation has been completed and said land is unimproved. Said vacant land is known as: Assessor's Parcel Numbers 692-670-004, 692-670-005, 692-670-009, 692-670- 011 and 692-670-012, Indio, CA 92201

The ALTA loan policy, when issued, will contain the CLTA Modified 100 (TIM-52) and Modified 116 (TIM-58) endorsements. The referenced modifications to both endorsements delete only non-applicable coverage relating to improvements located upon said land.

Unless shown elsewhere in the body of this report, there appears of record no transfers or agreements to transfer the land described herein within the last three years prior to the date hereof, except as follows: Grant Deed executed by Can Do LLC, a California limited liability company to Can Do LLC, a California limited liability company recorded January 8, 2021 in Official Records as Instrument Number 2021-0011050.

OLD REPUBLIC TITLE

FACTS	WHAT DOES OLD REPUBLIC TITLE DO WITH YOUR PERSONAL INFORMATION?

Why?	Financial companies choose how they share your personal information. Federal law gives consumers the right to limit some but not all sharing. Federal law also requires us to tell you how we collect, share, and protect your personal information. Please read this notice carefully to understand what we do.
What?	The types of personal information we collect and share depend on the product or service you have with us. This information can include: • Social Security number and employment information • Mortgage rates and payments and account balances • Checking account information and wire transfer instructions When you are *no longer* our customer, we continue to share your information as described in this notice.
How?	All financial companies need to share customers' personal information to run their everyday business. In the section below, we list the reasons financial companies can share their customers' personal information; the reasons Old Republic Title chooses to share; and whether you can limit this sharing.

Reasons we can share your personal information	Does Old Republic Title share?	Can you limit this sharing?
For our everyday business purposes — such as to process your transactions, maintain your account(s), or respond to court orders and legal investigations, or report to credit bureaus	**Yes**	**No**
For our marketing purposes — to offer our products and services to you	**No**	**We don't share**
For joint marketing with other financial companies	**No**	**We don't share**
For our affiliates' everyday business purposes — information about your transactions and experiences	**Yes**	**No**
For our affiliates' everyday business purposes — information about your creditworthiness	**No**	**We don't share**
For our affiliates to market to you	**No**	**We don't share**
For non-affiliates to market to you	**No**	**We don't share**

	Go to www.oldrepublictitle.com (*Contact Us*)

Who we are	
Who is providing this notice?	Companies with an Old Republic Title name and other affiliates. Please see below for a list of affiliates.

What we do	
How does Old Republic Title protect my personal information?	To protect your personal information from unauthorized access and use, we use security measures that comply with federal law. These measures include computer safeguards and secured files and buildings. For more information, visit https://www.oldrepublictitle.com/privacy-policy
How does Old Republic Title collect my personal information?	We collect your personal information, for example, when you: • Give us your contact information or show your driver's license • Show your government-issued ID or provide your mortgage information • Make a wire transfer We also collect your personal information from others, such as credit bureaus, affiliates, or other companies.
Why can't I limit all sharing?	Federal law gives you the right to limit only: • Sharing for affiliates' everyday business purposes - information about your creditworthiness • Affiliates from using your information to market toyou • Sharing for non-affiliates to market toyou State laws and individual companies may give you additional rights to limit sharing. See the State Privacy Rights section location at https://www.oldrepublictitle.com/privacy-policy for your rights under state law.

Definitions	
Affiliates	Companies related by common ownership or control. They can be financial and nonfinancial companies. • *Our affiliates include companies with an Old Republic Title name, and financial companies such as Attorneys' Title Fund Services, LLC, Lex Terrae National Title Services, Inc., Mississippi Valley Title Services Company, and The Title Company of North Carolina.*
Non-affiliates	Companies not related by common ownership or control. They can be financial and non-financial companies. • *Old Republic Title does not share with non-affiliates so they can market to you*
Joint marketing	A formal agreement between non-affiliated financial companies that together market financial products or services to you. • *Old Republic Title doesn't jointly market.*

APPENDIX F

RESUMES

Chris Breemer, R.G

Principal Geologist

PROFESSIONAL REGISTRATIONS/CERTIFICATIONS

Oregon: Registered Geologist (G2006)
Washington: Licensed Geologist (2415)
California: Professional Geologist (8038)
Idaho: Registered Geologist (PGL-1367)
AHERA Asbestos Inspector

EDUCATION

M.S., Geology, Oregon State University, 2000
B.A., Geography, University of California Berkeley, 1992

Chris Breemer has over 16 years of environmental consulting experience. His experience includes management and implementation of environmental assessments, due diligence, remedial investigations, and stormwater assessment and control at retail facilities, warehouses, rail yards, port facilities, industrial facilities, service stations, lumberyards and mills, mining sites, bulk fuel terminals, and agricultural facilities. He has also managed hazardous building materials surveys, including asbestos inspections, lead-based paint evaluations, PCB-containing equipment surveys, and mercury-containing equipment evaluations at a wide range of retail, commercial, and industrial facilities.

GENERAL EXPERIENCE

2015 - Present **Principal Geologist – Cascadia Associates, LLC, Portland, Oregon –** Responsible for the management and performance of environmental services, including assessment, remediation, and legal support for a range of industrial, commercial, and state/municipal clients. Projects involve pre-acquisition due diligence/All Appropriate Inquiry, remedial investigations, stormwater evaluation and control, hazardous building material surveys, vapor intrusion evaluations, and risk assessment.

2010 - 2015 **Principal Geologist - Apex Companies, LLC/Ash Creek Associates, Inc., Portland, Oregon**

2002 - 2010 **Associate Geologist– GeoEngineers, Inc., Portland, Oregon**

2000 - 2002 **Project Manager, Enviroforensics, Inc., Portland, Oregon**

PROJECT EXPERIENCE

Mr. Breemer has performed and managed environmental due diligence, HBM assessments, stormwater management efforts, and cleanup/remediation programs at sites throughout the U.S. Selected projects are listed below.

Gunderson LLC, Stormwater Characterization and Source Control Measures, Portland, Oregon. Managed the assessment of stormwater quality at a 63-acre industrial facility that is located adjacent to the Portland Harbor Superfund Site. The assessment was performed under the oversight of EPA and the Oregon Department of Environmental Quality, and included collection and analysis of stormwater samples, stormwater solids, and time-weighted composite samples. Mr. Breemer used the data to develop recommendations for stormwater modifications, including re-routing stormwater to an on-site treatment system, modification of gutter/downspout systems and construction of infiltration areas to eliminate discharge to the river in some areas, and fabrication of passive treatment systems for point sources of contamination.

SuperValu/Albertsons, Hazardous Building Material Surveys, Numerous Sites, Nationwide. Mr. Breemer has performed and managed hazardous building material surveys at retail/commercial buildings owned and leased by SuperValu/Safeway. Under these contracts, Mr. Breemer managed the evaluation of the locations, types, and quantities of asbestos containing building materials, lead-based paint, and mold impacted materials. Mr. Breemer also prepared abatement costs estimates from facilities impacted by asbestos containing building materials.

PacLand/Wal-Mart, Environmental Due Diligence Investigations at Multiple Sites, Oregon and California. Mr. Breemer served as the Project Manager for numerous Phase I and II environmental site assessments and hazardous

building material investigations at prospective retail development sites in Oregon. He conducted due diligence following ASTM methods and client-specific guidelines, at 5- to 20-acre properties with mixed residential, agricultural, and commercial uses. Projects included soil, groundwater, and hazardous building material assessments. Services were performed under expedited schedules, strict confidentiality, and intense review, to prepare for public comment and appeal processes.

Confidential Oregon Automobile Dealership Portfolio, Environmental Due Diligence/Drywell Assessment. Mr. Breemer managed quick-turnaround environmental due diligence and stormwater drywell assessments at eleven active automobile dealerships in the Portland metropolitan area. The assessments were completed in 45 days. In addition to completing ASTM E1527-13 Phase I ESA's, Mr. Breemer managed a review of facility stormwater conveyance systems and permitting status for drywells at the facilities.

NuStar Energy, Investigation and Remediation, Numerous Sites, Nationwide. Managed assessment and remediation activities at a portfolio of bulk petroleum storage and distribution facilities at locations throughout the U.S. Mr. Breemer is responsible for overall program management, including strategic planning, technical oversight, client communications, and regulatory negotiations. The portfolio currently includes a range of activities including active remediation, natural attenuation remedies, and remedial investigation/feasibility studies.

Gunderson LLC, Source Control Evaluations and Source Control Measures, Portland, Oregon. Managed evaluations of groundwater, stormwater, and erodible soil risks to the Willamette River, within the context of the Oregon Department of Environmental Quality's Portland Harbor Upland Source Control effort. Assisted Gunderson to design and implement riverbank and stormwater source control measures. Provided expert services to Gunderson LLC and legal counsel to support the Portland Harbor Superfund site liability allocation process. Provided strategic advice for managing a range of environmental matters at the facility.

Redmond Rod and Gun Club, Small Arms Firing Range Investigation, Risk Assessment, and Feasibility Study, Redmond, Oregon. Managed the investigation of the horizontal and vertical extent of impacts related to historical and ongoing use of several small arms firing ranges and an associated unpermitted solid waste disposal area. Data obtained during the investigations was used to evaluate risks to humans and ecological receptors under current and planned industrial development scenarios. Based on the conclusions of the investigation and risk assessment, Mr. Breemer prepared a feasibility study that recommended capping the impacted soil with soil, concrete, or asphalt-concrete pavement. To reduce remediation costs, the proposed remedy was designed to be performed concurrently with future industrial development of the site.

NuStar Energy, Portland Harbor Superfund Site Expert Support, Portland, Oregon. Provided expert guidance and technical support for environmental assessment activities performed to evaluate potential liability associated with the Portland Harbor Superfund Site. Assisted legal counsel in review and preparation of disclosure documents. Provided ongoing support for interpretation and response to remedial investigation/feasibility study documents.

Former Kaiser Shipyards Investigation and Remediation, Vancouver, WA. Managed a site investigation, feasibility study, and cleanup action plan for a two-acre property affected by World War II era debris. The debris contained elevated concentrations of lead and other constituents. Using data from a neighboring property, and a small amount of additional data, Chris was able to demonstrate that the hazardous substances in debris did not pose a risk to groundwater or to workers at the site. Chris demonstrated that existing clean soil functioned as an adequate cap for protection of human health. The Washington Department of Ecology approved of the proposed remedy and issued a no further action opinion. To reduce overall future monitoring costs, Chris assisted the property owner to negotiate a cost sharing agreement with the City of Vancouver. The entire project was completed in approximately eight months.

Confidential Client, Remedial Investigation and Liability Evaluation, Washington. Managed an assessment of environmental conditions at an active wood treating facility. Reviewed analytical data to estimate the magnitude and extent of environmental impacts. Developed a range of remediation scenarios and cost estimates and assigned probabilities to the various scenarios. The client used the information to make decisions about insurance recovery efforts and ownership transition scenarios.

Oregon Department of Transportation (ODOT), On-Call Environmental Services, Statewide, Oregon. Program Manager for statewide on-call environmental services contract. Services performed include investigation and

remediation of impacted ODOT facilities and performance of environmental due diligence at prospective acquisition properties. Under Mr. Breemer's management, this contract was renewed for consecutive four-year periods.

Portland Development Commission, On-Call Environmental Services, Portland, Oregon. Program Manager for on-call environmental services contract. Services performed include Phase I Environmental Site Assessments, vapor intrusion evaluations, remedial investigation, cleanup of impacted commercial and residential properties, and litigation support. Under Mr. Breemer's management, this contract was renewed for consecutive three-year periods.

Kendall Automotive Investigation and Remediation, Lewiston, Idaho. Project manager for a remedial investigation at an automobile dealership impacted by petroleum hydrocarbons and volatile organic compounds in soil, groundwater, and soil gas. Mr. Breemer designed an investigation that demonstrated high concentrations of VOCs in the subsurface were not significantly affecting indoor air. Subsequently, Mr. Breemer managed the design, installation, and operation of a soil vapor extraction system that effectively treated gasoline-range hydrocarbons in the subsurface.

Cedar Mill Remedial Investigation, Human and Ecological Risk Assessments, and Interim Removal, Lyons, Oregon. Managed a remedial investigation at a former wood treating facility that is impacted by pentachlorophenol, dioxins and furans, and other chemicals in soil, sediment, and groundwater. Chris managed human and ecological risk assessments to demonstrate that the contamination could be mostly managed in-place, resulting in significant cost savings. An interim removal measure, consisting of removal of soil containing high concentrations of hazardous substances, was implemented to support future site closure efforts. Future proposed work includes implementation of engineering controls to address residual contamination in soil.

Sunriver Owners Association, Remedial Investigation and Cleanup, Sunriver, Oregon. Managed an RI/FS, remedial design, and remediation at a 5.9-acre public area impacted by asbestos in soil. Tasks included a human health risk assessment, community relations, and subcontractor procurement. Following approval of the RI/FS, Chris managed the remedial design and implementation of the remedial action, consisting of capping the impacted media in-place. The work was conducted under oversight by Oregon's DEQ's Land Quality and Air Quality Divisions. The project received an Oregon Brownfield Award in 2012.

Shell Oil Products, U.S., Investigation and Remediation, Numerous Sites, Pacific Northwest. Managed assessment and remediation activities at a portfolio of retail and bulk petroleum storage and distribution facilities at locations throughout the Pacific Northwest. Mr. Breemer prepared and implemented investigation work plans in accordance with state requirements. Mr. Breemer obtained numerous No Further Action determinations for these facilities from the Oregon Department of Environmental Quality.

ODOT Building J Groundwater Investigation, Salem, Oregon. Mr. Breemer managed the assessment of groundwater conditions at a historical UST release site at the ODOT East Salem Maintenance facility. The investigation was conducted to obtain regulatory closure for releases of petroleum hydrocarbons and chlorinated solvents (vinyl chloride) from previously decommissioned waste oil USTs. Mr. Breemer worked with ODOT personnel to develop a scope of work, budget, and schedule sufficient to assess conditions but not interrupt work on the ODOT facility and on adjacent land owned by others. Investigation data were sufficient to obtain a no further action determination from the Oregon DEQ.

SE Flavel Industrial Property Subsurface Assessment and Remediation, Portland, Oregon. Mr. Breemer managed the assessment of soil and groundwater conditions at a vacant industrial property on behalf of the Portland Bureau of Environmental Services. The City of Portland Parks and Recreation Department was considering purchasing the property for use as a maintenance facility. Data indicated that soil and groundwater at the site were impacted by petroleum compounds and associated constituents. Chris was able to demonstrate that the contaminants would not pose an unacceptable risk to human health and could be managed in-place, without the need for remediation. The City of Portland Parks and Recreation Department since purchased the property.

Hotel Heating Oil Tank Decommissioning and Vapor Intrusion Investigation, Astoria, Oregon. Mr. Breemer managed the decommissioning of a heating oil tank at a hotel in Astoria. Oil released from the tank, and possibly from other sources, was widespread underneath the hotel and the adjacent roadway. Numerous buried utilities and structures severely limited the locations where subsurface sampling was possible. Chris identified locations where samples could be collected using hand tooling, significantly reducing the costs of the investigation. DEQ was concerned that elevated petroleum concentrations in soil were impacting indoor air. Chris obtained soil gas data sufficient to demonstrate that the subsurface contamination was not significantly affecting indoor air. The data obtained during the

investigation were sufficient to demonstrate that people were not likely to be exposed to excess levels of contaminants in soil, groundwater, or indoor air. As a result, DEQ issued a no further action determination without requiring any active remediation.

Kendall Yards, Remedial Investigation and Cleanup, Spokane, Washington. Project manager for a remedial investigation and cleanup of a 77-acre brownfield site. Remediation consisted of removal of approximately 223,000 tons of soil that was impacted by Bunker C oil, metals, and polycyclic aromatic hydrocarbons. The investigation and cleanup were completed in a one-year period.

Eastside Combined Sewer Overflow Outfall 44A Construction Evaluation, Portland, Oregon. Mr. Breemer managed the assessment of soil and groundwater conditions along the proposed alignment of a new sewer pipeline, on behalf of the City of Portland Bureau of Environmental Services. The assessment included soil and groundwater sampling at numerous locations along the alignment. Chris prepared a contaminated media management plan to provide guidance to City contractors for protecting worker health and properly disposing/re-using excavated soil.

Gateway Park Remedial Investigation, Feasibility Study, and Remediation, Portland, Oregon. Mr. Breemer managed Phase I and II environmental site assessments and remediation at a 7-acre property impacted by tetrachloroethene (PCE), trichloroethene (TCE), and other chemicals from a former dry cleaner. The work was conducted on behalf of the Portland Development Commission. Chris developed a remedial action plan, sampling and analysis plan, soil management plan, and quality assurance plan, all of which were reviewed and approved by the Oregon DEQ and the EPA. Following remediation, DEQ issued a risk-based closure for the property.

Tigard Library Remedial Investigation, Risk Assessments, and Construction Management, Tigard, Oregon. Managed an RI to evaluate human and ecological risk from widespread arsenic in soil and sediment. The investigation included a multi-increment sampling program to improve the understanding of site-wide arsenic in sediment. This step showed relatively low sediment risk and lead to a substantial reduction in the scope of remediation. Chris also managed human and ecological risk assessments that demonstrated limited human and ecological risk, as a result, Chris was able to negotiate a remedy with DEQ, which allowed all contaminated soil to remain in place. Mr. Breemer developed and implemented a contaminated media management plan and worker health and safety program that allowed the client to build a roadway through the contaminated area while the RI was being conducted. DEQ is preparing a Staff memo that will allow the City of Tigard to manage the contamination in-place.

Boise Cascade Plywood Mill Site Assessment, Adair Village, Oregon. Mr. Breemer managed a soil, groundwater, and sediment investigation at a former plywood mill that is impacted by pentachlorophenol, dioxins and furans, and other chemicals. He conducted investigations under the oversight of DEQ and the EPA. In addition, he directed a screening–level ecological risk evaluation and determined that dioxin levels in sediment are orders of magnitude higher than acceptable levels.

Oregon Business Development Department, Environmental Due Diligence, Industrial Land Portfolio, Portland Metropolitan Area, Oregon. Managed environmental due diligence for a portfolio of eleven 20+ acre prospective industrial development properties. Mr. Breemer developed a streamlined investigation approach that resulted in the gathering of key information necessary for planning, but at significantly reduced cost relative to the standard ASTM 1527-05 Phase I ESA process.

Environmental Liability (Sarbanes-Oxley) Evaluation, Various Locations, United States. Mr. Breemer reviewed extensive environmental data for 13 contaminated industrial properties in the western and central United States to identify contaminant-related liabilities. He calculated the value of liabilities that are reportable under financial accounting standards. This process reduced the client's total reportable environmental liability. In addition, Mr. Breemer prepared a prioritized approach for the client to address environmental liabilities at their facilities.

Joel Mattecheck

Environmental Scientist

PROFESSIONAL REGISTRATIONS/CERTIFICATIONS	EDUCATION
AHERA Asbestos Inspector 40-Hour HAZWOPER	Bachelor of Science, Environmental Sciences, Oregon Institute of Technology, 2012

Joel Mattecheck has five years of experience performing a wide range of environmental services, including planning, implementation, and reporting environmental investigations, remediation, and hazardous building materials surveys. Mr. Mattecheck's experience includes testing and monitoring of stormwater, soil, sediment, groundwater, stack emissions, indoor air quality, and soil vapor. He has performed environmental testing and remediation at a wide range of public and private facilities, including ports, bulk fuel terminals, pipeline release cleanup sites, grocery store anchored strip malls, food warehouses, automotive dealerships, and retail parking areas.

In his current position, Mr. Mattecheck is responsible for planning and implementation of field activities, including stormwater sampling, construction oversight, hazardous building materials surveys, Phase I/II environmental site assessments, and remediation. Office responsibilities include tabulation and evaluation of laboratory data, equipment procurement and maintenance.

GENERAL EXPERIENCE

2016 - Present **Staff Environmental Scientist – Cascadia Associates, LLC, Portland, Oregon –**

2014 - 2016 **Senior Staff Scientist – Apex Companies, LLC, Portland, Oregon**

2012 – 2014 **Environmental Field Technician – Horizon Engineering, LLC, Portland, Oregon**

PROJECT EXPERIENCE

Environmental Due Diligence, Confidential Portfolio. Field lead for Phase II Environmental Site Assessments at eight automobile dealerships in the Portland metropolitan area. Scope of work included health and safety planning, subcontractor coordination and procurement, soil and groundwater sampling, field screening for contamination, and results tabulation and comparison to applicable risk-based screening criteria.

Walgreens Stores, Hazardous Building Material Surveys, Numerous Sites, Nationwide. Mr. Mattecheck has performed hazardous building material surveys at multiple retail/commercial buildings throughout the Pacific Northwest. Mr. Mattecheck's responsibilities included scheduling and coordinating field work, laboratory coordination, sample collection, data tabulation and reporting.

Investigation and Remediation, Multiple Bulk Terminal and Pipeline Release Sites, Nationwide. Performed environmental monitoring and remediation oversight at facilities in Oregon, Washington, Kansas, and Georgia. Responsibilities included work plan preparation, health and safety planning, pre-field coordination, subcontractor coordination and procurement, investigation oversight, sampling of environmental media using a variety of techniques, laboratory coordination, and reporting. Projects included remedial excavations, subsurface investigations, vapor intrusion evaluations, and *in-situ* remediation.

Stormwater Characterization and Inspections, Multiple Sites. Performed compliance inspections, testing, and monitoring in accordance with NPDES permit requirements at a wide range of commercial and industrial facilities. Responsibilities included understanding permit testing and inspection requirements, coordination with client facilities, collection and control of laboratory samples, reporting, and budget tracking.

Hazardous Building Material Surveys, Numerous Sites, National Real Estate Investment Trust. Mr. Mattecheck has performed Phase I/II environmental site assessments and hazardous building material surveys at multiple grocery-

anchored retail centers. The assessments and surveys were commonly performed on rapid turnaround schedules, in coordination with multiple tenants.

Industrial Source Emission Testing, Nationwide. Mr. Mattecheck performed air emissions source tests at a wide variety of industrial sources throughout the U.S. Responsibilities included pre-field planning, health and safety, collection and control of samples, test equipment maintenance and calibration, equipment preparation, in-field data recording and calculations related to source testing.

Associates, LLC

APPENDIX E
Environmental Professional Resumes

NICHOLAS M. POULTER, STAFF ENVIRONMENTAL SCIENTIST

Education

B.S., Environmental Science, Portland State University

Registrations/Certifications

40-Hour OSHA HAZWOPER and Emergency Response Certification
First Aid/CPR/AED Certification

Experience

Nick recently joined GeoEngineers as an environmental scientist and brings four years of experience conducting and supporting site assessments in Oregon. He has experience conducting environmental field investigations, interpreting groundwater flow and solute transport, fate and transport analysis of impacted media, developing robust conceptual site models, and performing construction observation and documentation. He brings technical and analytical skills in environmental science, stormwater management, environmental geology, hydrogeology, water quality, statistics, GIS, environmental data interpretation, sampling media screening, field inspections, and federal, state and local regulation interpretation and application. Nick has completed multiple preliminary Level 1 and subsurface Level 2 professional environmental assessment reports. He has presented technical information in oral, written, graphic, and other forms of communications on various projects and assignments to project teams and management.

Project Experience

- NuStar Energy, Vancouver Annex Stormwater Support; Vancouver, WA
- Washington State Department of Transportation, Palermo Wellfield Remedial Investigation and Feasibility Study 2021-2023; Tumwater, WA
- Boersma Bros, Multiple Phase I Environmental Site Assessments (ESAs); CA, TX, AL, TN, NM, AZ
- Goodwill Industries, 13500 SE 172nd Ave Phase I ESA Update; Damascus, OR
- Banner Real Estate, Ventura Boulevard Phase I ESA; Woodland Hills, CA
- Greenbrier, Gunderson Area 1 Services Environmental Support 2021-2022; Portland, OR

Coordinated Site Analysis Team – Community Service Aide II; City of Portland, Bureau of Environmental Services (BES), Technical Services; Portland, Oregon

Prior to joining GeoEngineers, Nick worked as a Community Service Aide II for the City of Portland BES. He worked both independently and in coordination with City staff and consultants to provide technical support for site assessments within the City's boundaries. His responsibilities included:

- Guaranteeing documentation standards.
- Reviewing and interpreting plans and reports.
- Coordinating with other agencies/bureaus about project deadlines and goals.

- Conducting and aiding in data management.
- Evaluating and summarizing sampling events based on collected sampling logs and data results. Sampling methods included micro sampling, hand augers, Geoprobe sampling, groundwater sampling via bailer or peristaltic pump, sampling logs, chain of custody forms, and proper sampling handling procedures. Sampling and screening media included groundwater, surface water, soil, soil vapor, paint, and sediment while enacting safe work practices during various types of weather.
- Interacting with the public by aiding in the understanding of processes and regulations leading to fieldwork while also interpreting engineering documents such as drawings, regulations, supporting documents, bid documents, property records and construction documents.
- Overseeing contractors, including reviewing reports.

Awards

- City of Portland, Blue Heron Team Award Recipient

Chris Breemer, R.G

Principal Geologist

PROFESSIONAL REGISTRATIONS/CERTIFICATIONS	EDUCATION
Oregon: Registered Geologist (G2006)	M.S., Geology, Oregon State University, 2000
Washington: Licensed Geologist (2415)	B.A., Geography, University of California Berkeley, 1992
California: Professional Geologist (8038)	
Idaho: Registered Geologist (PGL-1367)	

Chris Breemer has over 20 years of environmental consulting experience. His experience includes management and implementation of Phase I and II environmental assessments, remedial investigations, and liability evaluations at a wide range of commercial and industrial facilities, including rail yards, port facilities, manufacturing facilities, service stations, lumber mills, mining sites, bulk fuel terminals, and agricultural facilities. Focus areas include petroleum compounds, chlorinated solvents, dioxins and furans, and metals in soil, soil vapor, sediment, and groundwater. Mr. Breemer has managed numerous multi-year environmental service contracts with local and state agencies, as well as multi-state due diligence portfolios.

GENERAL EXPERIENCE

2021 – Present	**Principal Geologist – GeoEngineers, Inc., Portland, Oregon**
2015 - 2021	**Principal Geologist – Cascadia Associates, LLC, Portland, Oregon**
2010 - 2015	**Principal Geologist - Apex Companies, LLC/Ash Creek Associates, Inc., Portland, Oregon**
2002 - 2010	**Associate Geologist– GeoEngineers, Inc., Portland, Oregon**
2000 - 2002	**Project Manager - Enviroforensics, Inc.**

PROJECT EXPERIENCE

INVESTIGATION AND REMEDIATION PROGRAM EXPERIENCE

Mr. Breemer has performed and managed cleanup/remediation programs at sites throughout the U.S. These investigation/remediation efforts have involved a variety of contaminants (dry cleaning solvents, metals, petroleum compounds, PCBs, and others) in a range of media. Selected projects are listed below.

NuStar Energy, Investigation and Remediation, Numerous Sites, Nationwide. Manages assessment and remediation activities at a portfolio of bulk petroleum storage and distribution facilities at locations throughout the U.S. Mr. Breemer is responsible for overall program management, including strategic planning, technical oversight, client communications, and regulatory negotiations. The portfolio currently includes a range of activities including active remediation, natural attenuation remedies, and remedial investigation/feasibility studies.

Gunderson LLC, Source Control Evaluations and Source Control Measures, Portland, Oregon. Managed evaluations of groundwater, stormwater, and erodible soil risks to the Willamette River, within the context of the Oregon Department of Environmental Quality's Portland Harbor Upland Source Control effort. Assisted Gunderson to design and implement riverbank and stormwater source control measures. Provided expert services to Gunderson LLC and legal counsel to support the Portland Harbor Superfund site liability allocation process. Provided strategic advice for managing a range of environmental matters at the facility.

Redmond Rod and Gun Club, Small Arms Firing Range Investigation, Risk Assessment, and Feasibility Study, Redmond, Oregon. Managed the investigation of the horizontal and vertical extent of impacts related to historical and ongoing use of several small arms firing ranges and an associated unpermitted solid waste disposal area. Data obtained during the investigations was used to evaluate risks to humans and ecological receptors under current and planned industrial development scenarios. Based on the conclusions of the investigation and risk assessment, Mr. Breemer prepared a feasibility study that recommended capping the impacted soil with soil, concrete, or asphalt-concrete pavement. To reduce remediation costs, the proposed remedy was designed to be performed concurrently with future industrial development of the site.

NuStar Energy, Portland Harbor Superfund Site Expert Support, Portland, Oregon. Provided expert guidance and technical support for environmental assessment activities performed to evaluate potential liability associated with the Portland Harbor Superfund Site. Assisted legal counsel in review and preparation of disclosure documents. Provided ongoing support for interpretation and response to remedial investigation/feasibility study documents.

Former Kaiser Shipyards Investigation and Remediation, Vancouver, WA. Managed a site investigation, feasibility study, and cleanup action plan for a two-acre property affected by World War II era debris. The debris contained elevated concentrations of lead and other constituents. Using data from a neighboring property, and a small amount of additional data, Chris was able to demonstrate that the hazardous substances in debris did not pose a risk to groundwater or to workers at the site. Chris demonstrated that existing clean soil functioned as an adequate cap for protection of human health. The Washington Department of Ecology approved of the proposed remedy and issued a no further action opinion. To reduce overall future monitoring costs, Chris assisted the property owner to negotiate a cost sharing agreement with the City of Vancouver. The entire project was completed in approximately eight months.

Confidential Client, Remedial Investigation and Liability Evaluation, Washington. Managed an assessment of environmental conditions at an active wood treating facility. Reviewed analytical data to estimate the magnitude and extent of environmental impacts. Developed a range of remediation scenarios and cost estimates and assigned probabilities to the various scenarios. The client used the information to make decisions about insurance recovery efforts and ownership transition scenarios.

Oregon Department of Transportation (ODOT), On-Call Environmental Services, Statewide, Oregon. Program Manager for statewide on-call environmental services contract. Services performed include investigation and remediation of impacted ODOT facilities and performance of environmental due diligence at prospective acquisition properties. Under Mr. Breemer's management, this contract was renewed for consecutive four-year periods.

Portland Development Commission, On-Call Environmental Services, Portland, Oregon. Program Manager for on-call environmental services contract. Services performed include Phase I Environmental Site Assessments, vapor intrusion evaluations, remedial investigation, cleanup of impacted commercial and residential properties, and litigation support. Under Mr. Breemer's management, this contract was renewed for consecutive three-year periods.

Kendall Automotive Investigation and Remediation, Lewiston, Idaho. Project manager for a remedial investigation at an automobile dealership impacted by petroleum hydrocarbons and volatile organic compounds in soil, groundwater, and soil gas. Mr. Breemer designed an investigation that demonstrated high concentrations of VOCs in the subsurface were not significantly affecting indoor air. Subsequently, Mr. Breemer managed the design, installation, and operation of a soil vapor extraction system that effectively treated gasoline-range hydrocarbons in the subsurface.

Cedar Mill Remedial Investigation, Human and Ecological Risk Assessments, and Interim Removal, Lyons, Oregon. Managed a remedial investigation at a former wood treating facility that is impacted by pentachlorophenol, dioxins and furans, and other chemicals in soil, sediment, and groundwater. Chris managed human and ecological risk assessments to demonstrate that the contamination could be mostly managed in-place, resulting in significant cost savings. An interim removal measure, consisting of removal of soil containing high concentrations of hazardous substances, was implemented to support future site closure efforts. Future proposed work includes implementation of engineering controls to address residual contamination in soil.

Sunriver Owners Association, Remedial Investigation and Cleanup, Sunriver, Oregon. Managed an RI/FS, remedial design, and remediation at a 5.9-acre public area impacted by asbestos in soil. Tasks included a human health risk assessment, community relations, and subcontractor procurement. Following approval of the RI/FS, Chris managed the remedial design and implementation of the remedial action, consisting of capping the impacted media in-place. The work was conducted under oversight by Oregon's DEQ's Land Quality and Air Quality Divisions. The project received an Oregon Brownfield Award in 2012.

Shell Oil Products, U.S., Investigation and Remediation, Numerous Sites, Pacific Northwest. Managed assessment and remediation activities at a portfolio of retail and bulk petroleum storage and distribution facilities at locations throughout the Pacific Northwest. Mr. Breemer prepared and implemented investigation work plans in accordance with state requirements. Mr. Breemer obtained numerous No Further Action determinations for these facilities from the Oregon Department of Environmental Quality.

ODOT Building J Groundwater Investigation, Salem, Oregon. Mr. Breemer managed the assessment of groundwater conditions at a historical UST release site at the ODOT East Salem Maintenance facility. The investigation was conducted to obtain regulatory closure for releases of petroleum hydrocarbons and chlorinated solvents (vinyl chloride) from previously decommissioned waste oil USTs. Mr. Breemer worked with ODOT personnel to develop a scope of work, budget, and schedule sufficient to assess conditions but not interrupt work on the ODOT facility and on adjacent land owned by others. Investigation data were sufficient to obtain a no further action determination from the Oregon DEQ.

SE Flavel Industrial Property Subsurface Assessment and Remediation, Portland, Oregon. Mr. Breemer managed the assessment of soil and groundwater conditions at a vacant industrial property on behalf of the Portland Bureau of Environmental Services. The City of Portland Parks and Recreation Department was considering purchasing the property for use as a maintenance facility. Data indicated that soil and groundwater at the site were impacted by petroleum compounds and associated constituents. Chris was able to demonstrate that the contaminants would not pose an unacceptable risk to human health and could be managed in-place, without the need for remediation. The City of Portland Parks and Recreation Department since purchased the property.

Hotel Heating Oil Tank Decommissioning and Vapor Intrusion Investigation, Astoria, Oregon. Mr. Breemer managed the decommissioning of a heating oil tank at a hotel in Astoria. Oil released from the tank, and possibly from other sources, was widespread underneath the hotel and the adjacent roadway. Numerous buried utilities and structures severely limited the locations where subsurface sampling was possible. Chris identified locations where samples could be collected using hand tooling, significantly reducing the costs of the investigation. DEQ was concerned that elevated petroleum concentrations in soil were impacting indoor air. Chris obtained soil gas data sufficient to demonstrate that the subsurface contamination was not significantly affecting indoor air. The data obtained during the investigation were sufficient to demonstrate that people were not likely to be exposed to excess levels of contaminants in soil, groundwater, or indoor air. As a result, DEQ issued a no further action determination without requiring any active remediation.

Kendall Yards, Remedial Investigation and Cleanup, Spokane, Washington. Project manager for a remedial investigation and cleanup of a 77-acre brownfield site. Remediation consisted of removal of approximately 223,000 tons of soil that was impacted by Bunker C oil, metals, and polycyclic aromatic hydrocarbons. The investigation and cleanup were completed in a one-year period.

Eastside Combined Sewer Overflow Outfall 44A Construction Evaluation, Portland, Oregon. Mr. Breemer managed the assessment of soil and groundwater conditions along the proposed alignment of a new sewer pipeline, on behalf of the City of Portland Bureau of Environmental Services. The assessment included soil and groundwater sampling at numerous locations along the alignment. Chris prepared a contaminated media management plan to provide guidance to City contractors for protecting worker health and properly disposing/re-using excavated soil.

Gateway Park Remedial Investigation, Feasibility Study, and Remediation, Portland, Oregon. Mr. Breemer managed Phase I and II environmental site assessments and remediation at a 7-acre property impacted by tetrachloroethene (PCE), trichloroethene (TCE), and other chemicals from a former dry cleaner. The work was conducted on behalf of the Portland Development Commission. Chris developed a remedial action plan, sampling and analysis plan, soil management plan, and quality assurance plan, all of which were reviewed and approved by the Oregon DEQ and the EPA. Following remediation, DEQ issued a risk-based closure for the property.

Tigard Library Remedial Investigation, Risk Assessments, and Construction Management, Tigard, Oregon. Managed an RI to evaluate human and ecological risk from widespread arsenic in soil and sediment. The investigation included a multi-increment sampling program to improve the understanding of site-wide arsenic in sediment. This step showed relatively low sediment risk and lead to a substantial reduction in the scope of remediation. Chris also managed human and ecological risk assessments that demonstrated limited human and ecological risk, as a result, Chris was able to negotiate a remedy with DEQ, which allowed all contaminated soil to remain in place. Mr. Breemer developed and implemented a contaminated media management plan and worker health and safety program that allowed the client to build a roadway through the contaminated area while the RI was being conducted. DEQ is preparing a Staff memo that will allow the City of Tigard to manage the contamination in-place.

Boise Cascade Plywood Mill Site Assessment, Adair Village, Oregon. Mr. Breemer managed a soil, groundwater, and sediment investigation at a former plywood mill that is impacted by pentachlorophenol, dioxins and furans, and other chemicals. He conducted investigations under the oversight of DEQ and the EPA. In addition, he directed a screening–level ecological risk evaluation and determined that dioxin levels in sediment are orders of magnitude higher than acceptable levels.

DUE DILIGENCE AND ALL APPROPRIATE INQUIRY PROGRAM EXPERIENCE

Mr. Breemer has performed Phase I Environmental Site Assessment at hundreds of facilities throughout the U.S>. Assessments have been performed at industrial, commercial, residential, and agricultural sites, ranging from 1/4 –acre to more than 2,000-acres.

PacLand/Wal-Mart, Environmental Due Diligence Investigations at Multiple Sites, Oregon and California. Mr. Breemer served as the Project Manager for numerous Phase I and II environmental site assessments and hazardous building material investigations at prospective retail development sites in Oregon. He conducted due diligence following ASTM methods and client-specific guidelines, at 5- to 20-acre properties with mixed residential, agricultural, and commercial uses. Projects included soil, groundwater, and hazardous building material assessments. Services were performed under expedited schedules, strict confidentiality, and intense review, to prepare for public comment and appeal processes.

Oregon Business Development Department, Environmental Due Diligence, Industrial Land Portfolio, Portland Metropolitan Area, Oregon. Managed environmental due diligence for a portfolio of eleven 20+ acre prospective industrial development properties. Mr. Breemer developed a streamlined investigation approach that resulted in the gathering of key information necessary for planning, but at significantly reduced cost relative to the standard ASTM 1527-05 Phase I ESA process.

Environmental Liability (Sarbanes-Oxley) Evaluation, Various Locations, United States. Mr. Breemer reviewed extensive environmental data for 13 contaminated industrial properties in the western and central United States to identify contaminant-related liabilities. He calculated the value of liabilities that are reportable under financial accounting standards. This process reduced the client's total reportable environmental liability. In addition, Mr. Breemer prepared a prioritized approach for the client to address environmental liabilities at their facilities.

STORMWATER MANAGEMENT

SuperValu Grocery Distribution Centers, Tacoma Washington and Auburn, Washington. Mr. Breemer assisted SuperValu with a wide range of stormwater compliance services and responding to a citizen suit regarding stormwater discharge from the Tacoma, Washington facility. Services included evaluation of the facilities for stormwater pollutants, development of recommendations for short- and long-term stormwater management techniques, design and installation of stormwater treatment facilities, staff training, and preparation of stormwater management plans.

Gunderson LLC Facility, Portland, Oregon. Mr. Breemer assists Gunderson LLC to manage stormwater at a 60+ acre industrial facility that is adjacent to and discharges stormwater to the Portland Harbor Superfund site. Mr. Breemer evaluated facility operations, identified sources of pollutants, developed recommendations for best management practices, coordinated stormwater sampling and analysis, developed and implemented a staff training program, and assisted Gunderson LLC to respond to notices of violation and other regulatory correspondence.

Buffalo Welding, Clackamas, Oregon. Mr. Breemer assisted Buffalo Welding to design and implement a stormwater management plan after receiving an enforcement notice from the state regulatory agency. Mr. Breemer evaluated facility operations, prepared a stormwater management plan, recommended modifications to operations, identified short- and long-term challenges and associated solutions. These services were completed in an expedited four-week period to support the prompt response to the notice of enforcement.

GeoEngineers
