APPENDIX II: RADIUS MAP REPORT

APPENDIX III: SUPPORTING DOCUMENTATION

EXECUTIVE SUMMARY

EFI Global, Inc. has performed a Phase I Environmental Site Assessment (Phase I) for Venice Hope Group, LLC (Client) for a industrial property located at 1611 South Hope Street, in Los Angeles County and the City of Los Angeles, California, Assessor's Parcel Number: 5134-008-006. The research conducted for this study and the report prepared are in conformance with the United States Environmental Protection Agency (USEPA) All Appropriate Inquiry (AAI) standard and the American Society for Testing and Materials (ASTM) E 1527-13 scope of work.

Site Description

According to our research and information provided by the Client, the following addresses have been found to be associated with the subject property: 418, 418 ½, 420, 420 ½, 422, 422 ½, 424, 424 ½, 426, 426 ½, 4284 and 4284 ½ West 16th Street, 1600, 1604, 1606, 1608, 1610, 1612, 1612 ½, 1614, 1616 and 1618 South Flower Street, 1601, 1607, 1611, 1617, 1619, 1623 and 1625 South Hope Street and 426, 440, 452, 460, 462, 464, 470, 480, 484, 490, 1460, 1462, 1464, 1476, 1480, 1484 and 1490 Venice Boulevard, Los Angeles, California. The subject property is located on the south side of Venice Boulevard immediately north of the Santa Monica Freeway, between South Hope Street and South Flower Street, in the City of Los Angeles. The subject property is approximately 1.73 acres in size and is occupied by six industrial structures, separated into three buildings on each half of the subject property, that are approximately 68,273 square feet in total size. The buildings are currently occupied by multiple tenants, including Bibrey/Angelina, a carpenter's shop and mural art studio (1601 South Hope Street), Steps Sportswear, a clothes warehouse and t-shirt silk screening operation (1611 South Hope Street), Hua Chen, an art studio (1611 B South Hope Street), Juan Rosillo, an art studio (1611 C South Hope Street), Create Now, a non-profit organization's office (1611 E South Hope Street), Boehme, an architect's office (1611 South Hope Street), Tri Star Sample Co. (1611 Basement South Hope Street) and Eastern Fabrications, a motor cycle fabrication shop (1625 South Hope Street) on the eastern half; and Sassy & Classy, a cloth cutting operation (1600 South Flower Street), Evolve, a clothes warehouse (1606 South Flower Street) and International Private Label, a clothes warehouse (1616 South Flower Street), on the western half. The remaining portions of the property consist of asphalt paved areas on the southern and southeastern portions and central alleyway portion, with minimal parking in the southeast portion and ample rooftop parking on the southwest building. The surrounding area is used for commercial purposes. Groundwater is estimated to be in excess of 100-feet below ground surface in the area of the site and is assumed to flow towards the southwest

- Eastern Fabrications, a motorcycle fabrication shop (1625), is located in the southeast building. Eastern Fabrications conducts motorcycle repairs and maintenance, and automotive chemicals such as motor oil, hydraulic oil and quenching oil, as well as car parts like engines, mufflers, motorcycle tail pipes, tires and other miscellaneous car parts were observed throughout the building. Additionally, as part of the metal fabrication operations that occur in the building, a Precision Surface Grinders machine was observed in the northern portion. Metal shavings were observed along the northern perimeter of the building. One 5-gallon bucket of quenching oil was observed in the eastern portion of the suite. Additionally, a puddle of motor oil was found on the concrete surface underneath a van applied with yellow blanket in this portion of the suite. It appeared the yellow blanket was used to absorb the motor oil or conceal it. According to the tenant, metal shavings are recycled and used motor oil are disposed of at a local gasoline station. A mezzanine level is located in the northern portion of the building, utilized as a living space/break area. No floor drains were observed in this building of the subject property.

Please refer to the Environmental Data Search section below for more information about this building of the subject property.

Historical Land Use

According to EFI Global, Inc.'s interpretation of the historical research data, the subject property was undeveloped prior to 1890 until at least 1894. By 1906, the northwest portion of the subject property was developed with flats (418-426 ½ West 16th Street, 4284 West 16th Street) and a dwelling in the southwest portion (1616 South Flower Street). By 1928 until at least 1938, the eastern half of the subject property was developed with two commercial structures (1601 and 1611 South Hope Street) and the western half developed with three commercial structures (452 West Venice Boulevard, 1606 and 1616 South Flower Street) and one residential structure (1610 and 1612 South Flower Street). By at least 1965, the subject property was developed into it's existing configuration with three industrial structures on the eastern half and parking lot in the southeast portion, and three industrial structures on the eastern half. Please refer to Section 4.5.1 for a full list of historical occupants of the subject property.

- Historical occupants at **1600 South Flower Street** has historically included electrical equipment repair (1963-1970). Please refer to the Environmental Data Search section for further information.
- Historical occupants at **1606 South Flower Street** has included Bullock Boring Service, automobile repair (1933). Please refer to the Environmental Data Search section for further information.
- Historical occupants at **1616 South Flower Street** has included the automobile repair operations Grover HD (1933) and Miller PF (1942), and an auto repairing and painting shop in at least 1950. Please refer to the Environmental Data Search section for further information.
- The subject property at **462 West Venice Boulevard** has included historical occupants such as Manufacturers Of Chemical Products For Removing Enamels, Lacquers, Paints, Grease, Rust, Cleaning Concrete Floors And General Household Use (1929), Arthur D. Campbell rubber stamps (1937), Edith Barnett Simms printer (1942), Venice Quality Press (1951) and a printing shop (1954). Regulatory agency requests for the subject property did not yield documentation to indicate the types of hazardous materials used at 462 West Venice Boulevard between 1929 and 1954. Thus, we cannot rule out the possibility of hazardous material usage including solvents during this time frame. Based on the foregoing, the use of the subject property for industrial operations for a minimum of 26 years represents a *recognized environmental condition* (REC) for the subject property.
- Based on our review of the historical data, no significant data gaps were encountered during our research.

Environmental Data Search

- **Bullock Boring Service (1606 South Flower Street)** - The subject property is listed on EDR US Historical Auto Station (EDR Hist Auto) database. According to the information provided, the automobile repair operation, Bullock Boring Service, occupied the subject property in at least 1933. Historical resources reviewed for the purpose of this report indicate **1606 South Flower Street** was occupied by an auto accessories store in at least 1930 and Liquor Rectifiers by at least 1950 and therefore, the maximum duration of the automobile repair could have been 18 years. Automotive repair operations represent an environmental concern due to the typical use of solvents and oils. These hazardous materials, if improperly handled or disposed, have the potential to negatively impact the property subsurface. Regulatory agency requests for the subject property did not yield documentation to indicate the types of hazardous materials used during this time period. Thus, we cannot rule

out the possibility of hazardous material usage including solvents during this time frame. Based on the foregoing, the former use of the subject property for automotive repair operations for 18 years represents a *recognized environmental condition* (REC) for the subject property.

- **Grover HD (1616 South Flowers Street)** - The subject property is listed on EDR Hist Auto database. According to the information provided and historical research, the automobile repair operations Grover HD (1933) and Miller PF (1942) historical occupied the subject property, as well as an automobile repairing and painting shop. Historical resources reviewed for this report reveal the auto repairing operations could have been performed on site from at least 1928 when the subject building was first developed until at least 1950 (next known occupant, Inter State Automotive Products occupied the subject property in 1951). Based on the long term use of subject property at 1616 South Flower Street for automobile repair and auto body services for a maximum of 23 years are considered a *REC* for the subject property.
- **California Sample Service, Inc. (1611 South Hope Street)** - The subject property is listed on Resource Conservation and Recovery Act - Non Generator (RCRA NonGen / NLR), Facility Index System/Facility Registry System (FINDS), Enforcement Compliance & History Information (ECHO) and Facility and Manifest Data (HAZNET) databases. According to the information reviewed, California Sample Service, Inc. registered as a non-generator of hazardous waste on January 22, 1986. No violations were discovered to be associated with RCRA NonGen / NLR. Local regulatory research was conducted with the appropriate regulatory agencies with regard to the HAZNET listings. The results of those inquiries are summarized below.
- There are no properties within 100-feet of the subject property where a release is considered likely or a known release has occurred.
- In our opinion, none of the other sites listed on the regulatory database report pose a significant threat to the subject property as there is no indication of a release at the respective sites, a release has occurred but groundwater has not been impacted, a release has occurred but the case is closed, or the sites are located cross or down gradient of the subject property and in excess of 1/10 mile from the subject property.
- The Los Angeles Regional Water Quality Control Board (LARWQCB), Department of Toxic Substances Control (DTSC), South Coast Air Quality Management District (SCAQMD), Los Angeles County Fire Department Health Hazardous Materials Division (LACFD HHMD), Los Angeles City Fire Department (LAFD) of Arson, LAFD Hazardous Materials Division (HMD) and Los Angeles City Bureau of Sanitation (LACBS) were contacted regarding hazardous materials, underground storage tank, industrial wastewater, and air emissions equipment files for the subject property. Additionally, the State Water Resources Control Board's (SWRCB) GeoTracker, DTSC's Hazardous Waste Tracking System (HWTS) and EnviroStor, and SCAQMD's Facility Information Detail (FIND) databases and LAFD's Underground Storage Tank (UST) active and inactive inventory lists were researched for more information pertaining to the subject property. According to responses to our requests and research of the aforementioned databases and lists, there are no files for the subject property except for the following:
- According to a response from SCAQMD and research of the FIND database, the subject property at **1611 South Hope Street** was inspected in 1988 (Cal Sample Service) and 1989 (Electric Equipment Company). No other information was identified from SCAQMD or the FIND database. Based on the

foregoing, the SCAQMD response and FIND database information are not expected to represent an environmental concern for the subject property.

- According to the HWTS database and HAZNET listing information, California Sample Service, Inc. at **1611 South Hope Street**, Community Redevelopment Agency of LA at **1601-1610 South Hope Street** and Sherbourne Properties, Inc. at **1616 South Flower Street** were issued U.S. Environmental Protection Agency (EPA) ID Numbers in 1987, 2000 and 2009, respectively. HWTS database information indicate waste manifests were not associated with Community Redevelopment Agency of LA. California Sample Service, Inc. generated 2.49 tons of photochemicals/photoprocessing waste between 1993 and 2003, and 0.14 ton of liquids with halogenated organic compounds greater than 1,000 milligrams per Liter (mg/L) between 2000 and 2001 under EPA ID Number CAD008329799. Sherbourne Properties, Inc. generated 5.94 tons of unspecified solvent mixture between 2009 and 2014, 0.15 ton of organic solids with halogens in 2015, and 0.9 ton of other organic solids between 2010 and 2014 under EPA ID Number CAL000346716. Based on the absence of evidence to indicate the mismanagement of hazardous wastes and proper permitting, the HWTS database and HAZNET listing information are not expected to represent a significant environmental concern for the subject property.
- According to a response from LAFD HMD, California Sample Service at **1611 South Hope Street** was permitted for motor oil, solvents, waste solvent, 30WT oil, hydraulic oil, isopropyl alcohol, press wash, printing inks, silicone spray, and type cleaner in 2004. LAFD HMD records do not indicate if the permits are still active, but indicated the subject property was inspected in 1993, 2002 and 2004. Based on observations made during the site reconnaissance and interviews with the property owner, several on-site tenants are associated with the address 1611 South Hope Street. The motor oil solvents, waste solvents, 30WT oil and silicone spray permits are assumed to be associated with the metal fabrication operation onsite, Eastern Fabrications LLC, hydraulic oil with Eastern Fabrications LLC and the Tri Star Sample Co. carpet sampling operation, and press wash, printing inks, and type cleaner with the silk screening operation, Steps Sportswear. Materials used by Steps Sportswear appeared in good condition during the site reconnaissance. The operation of the silk screening operation during a time of stringent regulatory oversight with proper permitting is not expected to represent a significant environmental concern for the subject property.

  Eastern Fabrications LLC is presently associated with the address **1625 South Hope Street**, and located in the southeast building. Tri Star Sample Co. underlies Eastern Fabrications LLC in the basement portion. Historical resources reviewed for the purposes of this report reveal the basement portion was formerly used for storage purposes. Although hydraulic oil is used in the basement level, it is not considered a significant environmental concern because hydraulic oil is insoluble in water, has a low volatility and are relatively immobile in a subsurface environmental. Based on the foregoing, Tri Star Sample Co. operations are not expected to represent a significant environmental concern for the subject property.

  Historical resources reviewed for this assessment indicate the subject property's address **1625 South Hope Street**, was formerly **1617 South Hope Street**. Historic operations at 1617 have included auto electric service (1950-1963). Regulatory agency records reviewed for the purpose of this report indicate hazardous materials including motor oil solvents, waste solvents, 30WT oil and silicone spray have been historically maintained at the subject property. However, the agency records were only available for tenants from the 1990's through the present; there was no information pertaining to the types of hazardous materials utilized from 1950 to 1963. Thus, we cannot rule out the possibility of other hazardous material usage including solvents during that time frame. Based on the former use of the subject property at 1625 South Hope Street for automotive electric repair, and observation of

motor oil stains and metal shavings on the ground surface during the site reconnaissance, the metal fabrication activities performed at **1625 South Hope Street** represents a *recognized environmental condition* (REC) for the subject property.

- LABS records consisted of an industrial waste permit. The permit was issued to Electric Equipment Company in 1961 for the property address **1600 South Flower Street**. According to the information reviewed, Electric Equipment Company built, repaired and cleaned auto brake units. The discharged wastewater associated with the operation was caustic wastewater, which was released into a 8" clay pipe sewer in the street. Waste water was reportedly pre-treated with a three-compartment 9' x 3' x 3' clarifier prior to discharge. The location of the clarifier was not described in LABS records, nor was it observed on site during the site reconnaissance. Historical resources reviewed for this assessment reveal Electric Equipment Company occupied **1600 South Flower Street** from 1961 until at least 1970. Documentation to indicate the types of hazardous materials utilized during this time period was not obtained during the course of this assessment, however, automotive repair operations typically used solvents and oils. Information pertaining to the removal or abandonment of the three-stage clarifier was not received during the course of this assessment. The former auto repair operations at **1600 South Flower Street** for 10 years and the potential presence of a three-stage clarifier, represents a *recognized environmental condition* (REC) for the subject property.
- The City of Los Angeles NavigateLA Online Mapping System was reviewed to obtain substructure maps for the subject property. According to the NavigateLA Online Mapping System, there are no substructure features underlying the subject property.
- The Division of Oil, Gas, and Geothermal Resources (DOGGR) Online Mapping System was reviewed for information pertaining to oil and gas exploration on or nearby the subject property. No oil wells were identified within 500 feet of the subject property.
- The User did not provide EFI Global any information either verbally or in writing (i.e. Title Report) regarding environmental cleanup liens or activity and use limitations encumbering the subject property. An environmental lien search was not requested by the User; however, based on our review of the Department of Toxic Substances Control (DTSC) EnviroStor Database, no environmental liens enforced by the DTSC were identified.

Additional Issues

- Based on the age of the onsite structures, there is a potential for asbestos containing building materials (ACM) at the site, however, no testing was completed as part of this report. Potential ACM include drywall partitions, and mastic associated with roofing materials and floor tiles.
- Based on the age of the onsite structures, there is a potential for lead based paint (LBP) at the site. Painted surfaces were observed in moderate to poor condition during the site reconnaissance.
- According to our research,the potential for radon at the subject property is expected to be low.
- EFI Global, Inc. did not observe visible or olfactory indications of the presence of mold, nor did EFI Global, Inc. observe obvious indications of significant water damage. No sampling was conducted as part of this assessment.
- The City of Los Angeles Department of Building and Safety methane zone data was reviewed to determine if the subject property is located in a methane or methane buffer zone. According to the information reviewed, the subject property is located within a methane zone. Therefore testing for

the presence of methane and the installation of methane mitigation systems at the property prior to construction activities may be necessary (Division 71 of the Los Angeles Building Code).

CONCLUSIONS

EFI Global, Inc. has performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Practice 1527-13, at 1611 South Hope Street, Los Angeles, California, the subject property. Any exceptions to or deletions from this practice are described in the individual sections of this report. This assessment has revealed no evidence of recognized environmental conditions or *de minimis* conditions in connection with the subject property, except for the following:

Recognized Environmental Conditions (REC)

The former auto repair operations at **1600 South Flower Street** and potential presence of a three-stage clarifier represent a REC.

The former automotive repair operations at **1606 South Flower Street** represent a *REC.*

The former auto repair and auto body operations at **1616 South Flower Street** represent a *REC*.

The current metal fabrication activities and former auto electric services performed at **1625 South Hope Street** represent a REC.

The former industrial operations at **462 West Venice Boulevard** represent a REC.

Historical Recognized Environmental Conditions (HREC)

In our opinion, no HRECs were identified during the course of this assessment.

Controlled Recognized Environmental Conditions (CREC)

In our opinion, no CRECs were identified during the course of this assessment.

De Minimis Conditions

In our opinion, no *de minimis* conditions were identified during the course of this assessment.

RECOMMENDATIONS

Based upon the foregoing, a Phase II Environmental Site Assessment is recommended.

1.0 INTRODUCTION

EFI Global, Inc. has performed a Phase I Environmental Site Assessment (Phase I) for the property located at 1611 South Hope Street, in Los Angeles County and the City of Los Angeles, California (Subject Property). This report has been prepared for the sole use of Venice Hope Group, LLC (Client).

The research conducted for this study and the report prepared are in general conformance with the EPA "All Appropriate Inquiries" standard and the ASTM 1527-13 "Standard Practices for Environmental Site Assessments: Phase I Environmental Site Assessment Process". The primary purpose for performing a Phase I ESA is to "…permit a user to satisfy one of the requirements to qualify for the innocent landowner, contiguous property owner, or bona fide prospective purchaser limitations (commonly known as landowner liability protections) on Comprehensive Emergency Response Compensation and Liability Act (CERCLA) liability." (ASTM, 2013) An environmental site assessment meeting or exceeding this practice and completed less than 180 days prior to the date of acquisition is presumed to be valid under this standard. In order to maintain landowner liability protections, the User also has a "continuing obligation to not interfere with activity and use limitations associated with the property," must take "reasonable steps to prevent releases" and must "comply with legal release reporting obligations." (ASTM, 2013) Further, it is the goal of this study to identify business risks related to the property associated with environmental conditions. This investigation is not an environmental compliance audit and is not designed to determine if the operations of an existing facility are in compliance with applicable environmental laws and regulations.

The goal of this process is to identify any (1) recognized environmental conditions (RECs), (2) historic recognized environmental conditions (HRECs), (3) controlled recognized environmental conditions (CRECs), and/or (4) *de minimis* conditions associated with the subject property.

- A **recognized environmental condition** is defined as "…the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to any release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment." This definition does not include de minimis conditions defined as "a condition that generally does not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies" (ASTM, 2013).
- A **historical recognized environmental condition** is defined as "a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls)." (ASTM, 2013). The HREC designation requires the comparison of residual contamination concentrations, if any, to current regulatory standards.
- A **controlled recognized environmental condition** is defined as "a recognized environmental condition resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (for example, as evidenced by the issuance of a no further action letter or equivalent, or meeting risk-based criteria established by regulatory authority), with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls)" (ASTM, 2013).

- A ***de minimis condition*** is defined as "a condition that generally does not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. Conditions determined to be *de minimis* conditions are not recognized environmental conditions nor controlled recognized environmental conditions" (ASTM, 2013).

In order to identify environmental conditions at the site, the Phase I ESA includes a site inspection, interviews with parties familiar with the property, historical research into the past uses of the property, and an environmental records search with regard to the subject property, adjoining and immediately surrounding properties, and the surrounding area. In addition, EFI Global, Inc. provides an opinion regarding the potential for asbestos containing materials, lead-based paints, mold, radon, oil and gas exploration, and methane as they relate to the subject property. Reviewing those documents that are publicly available, reasonably ascertainable, and practically reviewable controls the completeness of this assessment. The inability to review documents which do not exist or are not publicly available, reasonably ascertainable, or practically reviewable may result in a data gap.

1.1 Significant Assumptions

While this report provides an overview of potential environmental concerns, both past and present, the environmental assessment is limited by the availability of information at the time of the assessment. It is possible that unreported disposal of waste or illegal activities impairing the environmental status of the property may have occurred which could not be identified. The conclusions and recommendations regarding environmental conditions that are presented in this report are based on a scope of work authorized by the Client. Note, however, that virtually no scope of work, no matter how exhaustive, can identify all contaminants or all conditions above and below ground.

1.2 Limitations and Exceptions

This report has been prepared in accordance with generally accepted environmental methodologies referred to in ASTM 1527-2013, and contains all of the limitations inherent in these methodologies. No other warranties, expressed or implied, are made as to the professional services provided under the terms of our contract and included in this report. The conclusions of this report are based in part, on the information provided by others. The possibility remains that unexpected environmental conditions may be encountered at the site in locations not specifically investigated. The services performed and outlined in this report were based, in part, upon visual observations of the site and attendant structures. Our opinion cannot be extended to portions of the site that were unavailable for direct observation, reasonably beyond the control of EFI Global, Inc. The objective of this report was to assess environmental conditions at the site, within the context of our contract and existing environmental regulations within the applicable jurisdiction. Evaluating compliance of past or future owners with applicable local, provincial, and federal government laws and regulations was not included in our contract for services. Our observations relating to the condition of environmental media at the site are described in this report. It should be noted that compounds or materials other than those described could be present in the site environment.

1.3 Reliance

This report has been prepared for the sole use of Venice Hope Group, LLC. The contents should not be relied upon by any other parties without the express written consent of Venice Hope Group, LLC and EFI Global, Inc.

1.4 User Responsibilities

The United States Environmental Protection Agency (USEPA) All Appropriate Inquiry (AAI) and ASTM E 1527-13 Phase I Standards require that the User conduct independent research and consider certain information before purchasing a property:

- Obtain a recent (less than 180 days old) title report prepared for the subject property. The report should be reviewed to obtain information regarding environmental clean-up liens or activity and use limitations (AULs) with regard to the subject property. If environmental cleanup liens or AULs encumbering the subject property or in connection with the subject property are identified, the User should provide that information to the Environmental Professional (EFI Global, Inc.). If the User has actual knowledge of environmental cleanup liens or AULs encumbering the subject property or in connection with the subject property, the User should provide that information to the Environmental Professional (EFI Global, Inc.).
- The User should provide the Environmental Professional (EFI Global, Inc.) with any specialized knowledge the User has with regard to recognized environmental conditions in connection with the property.
- If the User is aware of any commonly known information in the community about the subject property with respect to recognized environmental conditions, the User should provide the information to the Environmental Professional (EFI Global, Inc.).
- If this Phase I ESA was prepared as due diligence for a property transaction, it is the responsibility of the User to consider the relationship of the purchase price to the fair market value of the property. If the purchase price is significantly lower than the fair market value, the User should identify the alternate reason for the low purchase price if the lower purchase price is not related to the property being affected by hazardous substances or petroleum products.

2.0 SITE DESCRIPTION

EFI Global, Inc. has performed a Phase I for a industrial property located at 1611 South Hope Street, in Los Angeles County and the City of Los Angeles, California. The subject property is located on the south side of Venice Boulevard immediately north of the Santa Monica Freeway, between South Hope Street and South Flower Street, in the City of Los Angeles. The subject property is approximately 1.73 acres in size and is occupied by six industrial structures, separated into three buildings on each half of the subject property, that are approximately 68,273 square feet in total size. The buildings are currently occupied by multiple tenants, including Bibrey/Angelina, a carpenter's shop and mural art studio (1601 South Hope Street), Steps Sportswear, a clothes warehouse and t-shirt silk screening operation (1611 South Hope Street), Hua Chen, an art studio (1611 B South Hope Street), Juan Rosillo, an art studio (1611 C South Hope Street), Create Now, a non-profit organization's office (1611 E South Hope Street), Boehme, an architect's office (1611 South Hope Street), Tri Star Sample Co. (1611 Basement South Hope Street) and Eastern Fabrications, a motor cycle fabrication shop (1625 South Hope Street) on the eastern half; and Sassy & Classy, a cloth cutting operation (1600 South Flower Street), Evolve, a clothes warehouse (1606 South Flower Street) and International Private Label, a clothes warehouse (1616 South Flower Street), on the western half. The remaining portions of the property consist of asphalt paved areas on the southern and southeastern portions and central alleyway portion, with minimal parking in the southeast portion and ample rooftop parking on the southwest building.

Natural gas is provided to the subject property by Southern California Gas. Electrical services, potable water and sewer services are provided by the Los Angeles Department of Water and Power.

2.1 Current and Historical Addresses

According to our research and information provided by the Client, the following addresses have been found to be associated with the subject property: 418, 418 ½, 420, 420 ½, 422, 422 ½, 424, 424 ½, 426, 426 ½, 4284 and 4284 ½ West 16th Street, 1600, 1604, 1606, 1608, 1610, 1612, 1612 ½, 1614, 1616 and 1618 South Flower Street, 1601, 1607, 1611, 1617, 1619, 1623 and 1625 South Hope Street and 426, 440, 452, 460, 462, 464, 470, 480, 484, 490, 1460, 1462, 1464, 1476, 1480, 1484 and 1490 Venice Boulevard, Los Angeles, California.

2.2 Legal Description

According to the Los Angeles County Assessor's Office, the subject property is located in the City of Los Angeles, and is described by the Assessor's Parcel Number: 5134-008-006.

2.3 Physical Setting

The elevation of the subject property is approximately 230 feet above sea level (United States Geological Survey Hollywood, California, 7.5 minute topographic quadrangle). Based on our review of the GeoCheck Section of the Environmental Data Resources, Inc. (EDR) Radius report, the subject property is not situated within a 100-year Federal Environmental Management Agency (FEMA) Flood Zone. No wetlands were identified at the property or adjoining/immediately surrounding properties. Based on our review of groundwater data presented in the State Water Resources Control Board (SWRCB) GeoTracker website, groundwater was not detected to the maximum depth explored of 100-feet below ground surface at a site assessment (1600 South Figueroa Street) located approximately 255-feet northwest of the subject property. However, perched and semi-perched aquifers may be present beneath the site. Based on topographic map interpretation, regional groundwater flow direction is estimated to be towards the southwest; however local groundwater flow direction may vary.

3.0 SITE RECONNAISSANCE/INTERVIEWS

3.1 Site Reconnaissance

On September 12, 2017, Mr. Marcus Raymond conducted a site reconnaissance of the subject property. The site inspection was conducted to attempt to identify current site use(s), current hazardous materials storage, and evidence of past site uses and hazardous material storage and to identify evidence of other recognized environmental conditions. The following table summarizes our Site Reconnaissance observations:

Yes	No	Observed Feature(s)
✔		Hazardous Substances and Petroleum Products Containers
	✔	Underground and/or Aboveground Storage Tanks
✔		Drains/Sumps/Clarifiers/Sewer Interceptors/Septic Systems
	✔	Stained or Corroded Surfaces/Stained Soil or Stressed Vegetation
	✔	Pits/Ponds/Lagoons/Wetlands
✔		Electrical Equipment with the Potential to contain Fluids
	✔	Production or Monitoring Wells
	✔	Evidence of Solid Waste Disposal/Dumping/Fill Areas

3.1.1 Exterior Observations

The exterior portions of the site consist of asphalt paved areas on the southern and southeastern portions and central alleyway portion, with minimal parking in the southeast portion and ample rooftop parking on the southwest building. According to the property owner, Mr. Fred Oken, the asphalt paved parking lot in the southern portion underneath the Santa Monica Freeway is owned by the City of Los Angeles. The asphalt pavement appeared in moderate condition with several areas of cracking. Several rectangular concrete patched areas were observed in the alleyway portion. Four (4) trash container dumpsters are located in the north-central alleyway and two (2) near the south-central alleyway and did not contain any hazardous wastes. The public concrete access way north adjacent of the subject buildings was observed with a metal plate approximately 3' x 4' feet in size. Upon removal of the metal plate, a chamber was discovered that was approximately 5-feet deep. The chamber was filled with native soil, leaves and a plastic cable. Mr. Oken did not know the origin of the chamber. A storm water drain is located in the south-central portion of the subject property. The storm drain appeared minimally clogged, but the drain was free of odors and no hazardous materials was in its vicinity. Two (2) pole mounted transformers are located in the central alleyway portion of the subject property, and one (1) near the northwestern corner of the subject property; no leakage or spillage were observed in the vicinity of the transformers and thus are not expected to represent an environmental concern.

No recognized environmental conditions were observed in this portion of the site.

3.1.2 Interior Observations

The subject property contains six (6) onsite structures, separated into three buildings on each half of the subject property. The three (3) buildings on each half of the subject property are conjoined to appear as two (2) building structures. The building in the southeast portion of the subject property has a basement level and building in the northeast portion has a second story level.

The subject property also has two elevators. One freight elevator is located on the west side of the southeast building, and one passenger elevator is located on the east side of the northeast building. The elevator equipment for both elevators appeared in good condition with no indication of leaks. According to the property owner, Mr. Fred Oken, the elevator equipment is serviced by Advanced Elevator Co. on a monthly basis. All structures on the eastern half of the subject property are of wood frame construction with reinforced concrete, brick masonry, concrete foundation, and composite roofs. All structures on the western half of the subject property are of wood frame construction and brick masonry, with concrete foundation, and wood truss roofs. Building materials observed in all structures included wood, drywall and brick masonry partitions, concrete flooring, vinyl floor tiles and hardwood floor, and drywall, acoustic and wood truss ceilings. The subject property is occupied by multiple tenants, including Bibrey/Angelina, a carpenter's shop and mural art studio (1601 South Hope Street), Steps Sportswear, a clothes warehouse and t-shirt silk screening operation (1611 South Hope Street), Hua Chen, an art studio (1611 B South Hope Street), Juan Rosillo, an art studio (1611 C South Hope Street), Create Now, a non-profit organization's office (1611 E South Hope Street), Boehme, an architect's office (1611 South Hope Street), Tri Star Sample Co. (1611 Basement South Hope Street) and Eastern Fabrications, a motor cycle fabrication shop (1625 South Hope Street) on the eastern half; and Sassy & Classy, a cloth cutting operation (1600 Flower Street), Evolve, a clothes warehouse (1606 South Flower Street) and International Private Label, a clothes warehouse (1616 South Flower Street), on the western half.

Bibrey/Angelina (1601) is a carpenter's shop and mural art studio located on the ground level of the northeast building. Bibrey's suite was observed with stacks of plywood, wood cutting equipment, saws and a flammable metal cabinet approximately 3-feet in height which consisted of teak oil finish, paint thinner, seal coats and other wood finish paints. The art studio portion of the suite contained several water based paints and oil paints in spray cans (approx. 16 ounces or less) and buckets (approx. 1 gallon or less) placed on the ground surface and stored on metal racks, and several mural art pieces throughout. The concrete ground surface was observed stained with paint in the art studio portion. No floor drains were observed in this suite. Based on good housekeeping practices observed, the carpenter's shop and mural art studio is not expected to represent a significant environmental concern for the subject property.

Hua Chen, an art studio (1611 B), and Juan Rosillo, an art studio (1611 C), are located on the second level in the northeast building of the subject property. Several art works including sculptures and murals were observed in this portion of the subject property. According to the primary tenant, Mr. Juan Rosillo, water and oil based paints are used for art pieces. Several paint stains were observed on the hardwood floor in this area of the subject building. Mr. Rosillo stated all paints are used for his art pieces so paint waste are not recycled. No significant hazardous materials were observed in this portion of the subject property. Based on the use of the paint during a time of stringent regulatory oversight, Hua Chen and Juan Rosillo are not expected to represent a significant environmental concern for the subject property. Create Now, a non-profit organization (1611 E) and Boehme, an architect (1611), are also located on the second level of the northeast building and are offices. These offices were observed with generic office tables, desks and chairs, and no hazardous materials were observed. Boehme's office included a bathroom area which included a shower in the western portion of the office, where a water boiler was observed in good condition with no leaks.

Steps Sportswear (1611), a large clothes warehouse and t-shirt silk screening operation, is located on the east-central building. Clothing products are maintained on rows of metal racks approximately

10 feet in height in the western portion of the warehouse. Several rectangular concrete patched areas were observed in this portion of the warehouse, but could not be thoroughly examined because of the placement of the metal racks. Silk screening operations occur on the eastern side of the warehouse. According to the tenant, silk screening inks and paints are both water and oil based, contained in buckets in sizes of 5 gallons or less. After use, empty buckets are rinsed with thinner and paints are recycled. The inks and paints are stored on wooden selves in the eastern portion of the warehouse. No floor drains in this warehouse. Please refer to Section 6.2 of this report for further information on this tenant.

Eastern Fabrications, a motorcycle fabrication shop (1625), is located in the southeast building. Eastern Fabrications conducts motorcycle repairs and maintenance, and automotive chemicals such as motor oil, hydraulic oil and quenching oil, as well as car parts like engines, mufflers, motorcycle tail pipes, tires and other miscellaneous car parts were observed throughout the building. Additionally, as part of the metal fabrication operations that occur in the building, a Precision Surface Grinders machine was observed in the northern portion. Metal shavings were observed along the northern perimeter of the building. One 5-gallon bucket of quenching oil was observed in the eastern portion of the suite. Additionally, a puddle of motor oil was found on the concrete surface underneath a van applied with yellow blanket in this portion of the suite. It appeared the yellow blanket was used to absorb the motor oil or conceal it. According to the tenant, metal shavings are recycled and used motor oil are disposed of at a local gasoline station. A mezzanine level is located in the northern portion of the building, utilized as a living space/break area. No floor drains were observed in this building of the subject property. Please refer to Section 6.2 of this report for more information about this building.

Tri Star Sample Co., a carpet textile sample manufacturer (1611 Basement), is located in the basement area of the southeast building underneath the Eastern Fabrications operation. Tri Star Sample Co. was observed with several cutting tables, sewing tables, paper cutter machines, and several stacks of textile carpet samples. According to the tenant, the paper cutter machines are used to cut carpet but sometimes leak hydraulic oil into the concrete floor. The cutter machines are periodically lubricated with hydraulic oil because of leakage; no hydraulic oil spills were observed during the reconnaissance. Several empty containers of Mobil® hydraulic oil are located near the southern perimeter of Tri Star Sample Co. No floor drains or cracks were observed in the concrete floor surface. Please refer to Section 6.2 of this report for more information about this building of the subject property.

Sassy & Classy, a cloth cutting operation (1600), is located in the northwest building of the subject property. This building was observed with large cutting tables and consisted of several stacks of rolled-up cloths on metal racks. an office area is located in the eastern portion. The concrete ground surface appeared in moderate condition during the site reconnaissance with significant cracking observed. According to regulatory agency records reviewed for this report, a three-stage clarifier was utilized to pre-treat caustic waste water before discharge into the sewer. Caustic waste water was generated from historical auto brake repair activities performed in the building. Please refer to Section 6.2 for further information. All ground surfaces were not observed due to the placement of cutting tables and stacked rolled-up cloths.

Evolve, a clothes warehouse (1606) and International Private Label, a clothes warehouse (1616) are located in the west-central and southwest buildings of the subject property. These warehouses primarily consisted of metal racks approximately 20 feet high throughout both warehouses, which

store boxed-up clothes. Evolve included a mezzanine level and office area on the western portion of their warehouse. A large rectangular concrete patched area approximately 3' x 6' feet in dimension was observed just east of the mezzanine in the northwest portion of the warehouse. No hazardous materials are floor drains were observed in this portion of the subject property.

No significant hazardous material storage or recognized environmental conditions were observed in the interior portions of the site.

3.1.3 Reconnaissance Limitations

All ground surfaces of the interior portions of the subject buildings were not observed due to storage of products, operational equipment and metal storage racks.

3.2 Adjoining and Immediately Surrounding Properties

The adjoining and immediately surrounding properties (within 100-feet of the subject property boundary) were visually and physically observed from public right-of ways and the subject property in an attempt to identify recognized environmental conditions. Our observations are summarized in the following table:

Location	Address(es)	Uses/Observations
North	1521 South Hope Street 1524 South Flower Street	Grand Hope Park Various retail operations (i.e. market, salon, restaurant, print shop)
South	No associated address	Santa Monica Freeway
East	1600 South Hope Street 1624 South Hope Street	Hope Street Family Center Apartments
West	1603 and 1607 South Flower Street	Automobile repair shop and parking lot

- The adjacent properties to the south and north were listed on the regulatory database report and are further discussed in Section 5.2 below.

3.3 Surrounding Area Observations

3.3.1 Surrounding Property Uses

The surrounding area is mostly developed with commercial and residential structures, with the Los Angeles Convention Center located to the northwest and the Santa Monica Freeway transecting the south surrounding area.

3.3.2 Surrounding Geography

The surrounding area is mostly flat with a slight topographic slope to the southwest. No nearby hills or bedrock outcroppings were observed in the area of the site. No lakes, ponds, rivers or streams were observed in the surrounding area.

3.4 Interviews

3.4.1 Property Owner

Mr. Fred Oken, the property owner, was interviewed during the course of the site reconnaissance. Mr. Oken has been the owner since 1978. According to Mr. Oken, the subject property building

was constructed in 1928 and 1975. Mr. Oken stated the entire subject property was utilized for textile sample fabrication from 1978 until 1990, and for warehouse purposes from 1991 to the present. Mr. Oken stated Tri Star Sample Co. at 1611 South Hope Street basement, was the only carpet sampling operation to remain at the property. Mr. Oken was unaware of any environmental conditions associated with the property.

3.4.2 Key Site Manager

The owner of the property is the key site manager and was interviewed as the owner.

3.4.3 Property Occupants

Property occupant interviews are discussed in Section 3.1.2 of this report

3.4.4 Past Owners, Operators and Occupants

Past owners, operators and occupants were not able to be identified for an interview for this report.

3.4.5 Prospective Purchaser

An environmental questionnaire was provided to the potential purchaser, but it was not returned in time of issuance of this report.

3.4.6 Neighboring Property Owners/Tenants

Per ASTM, an attempt to interview neighboring property owners/tenants should be conducted when the subject property is vacant and unsecured land.

As the subject property is currently developed and utilized for commercial uses, no neighboring property owners/tenants were interviewed during this assessment.

3.5 User Provided Information

The United States Environmental Protection Agency (USEPA) All Appropriate Inquiry (AAI) and ASTM 1527-13 Phase I Standards require that the Report User conduct independent research and consider certain information before purchasing a property. EFI Global, Inc. recommends that the User documents completion of the following items:

3.5.1 Lien Search

The User is required to obtain a recent (less than 180 days old) title report prepared for the subject property. The report should be reviewed to obtain information regarding environmental clean-up liens or activity and use limitations with regard to the subject property. If environmental cleanup liens or activity and use limitations encumbering the subject property or in connection with the subject property are identified, the User should provide that information to the Environmental Professional (EFI Global, Inc.). If the User has actual knowledge of environmental cleanup liens or activity and use limitations encumbering the subject property or in connection with the subject property, the User should provide that information to the Environmental Professional (EFI Global, Inc.).

- The User did not provide EFI Global any information either verbally or in writing (i.e. Title Report) regarding environmental cleanup liens or activity and use limitations encumbering the subject property. An environmental lien search was not requested by the User; however, based on

our review of the Department of Toxic Substances Control (DTSC) EnviroStor Database, no environmental liens enforced by the DTSC were identified.

3.5.2 Specialized Knowledge

The User should provide the Environmental Professional (EFI Global, Inc.) with any specialized knowledge the User has with regard to recognized environmental conditions in connection with the property.

- The User has no specialized knowledge with respect to recognized environmental conditions in connection with the property.

3.5.3 Commonly Known or Reasonably Ascertainable Information

If the User is aware of any commonly known information in the community about the subject property with respect to recognized environmental conditions, the User should provide the information to the Environmental Professional (EFI Global, Inc.).

- The User is not aware of any commonly known information in the community about the subject property with respect to recognized environmental conditions.

3.5.4 Property Valuation

If this Phase I ESA was prepared as due diligence for a property transaction, it is the responsibility of the User to consider the relationship of the purchase price to the fair market value of the property. If the purchase price is significantly lower than the fair market value, the User should identify the alternate reason for the low purchase price if the lower purchase price is not related to the property being affected by hazardous substances or petroleum products.

- The User did not return an environmental questionnaire, so it is unknown if the purchase price reflects the fair market value.

3.5.5 Purpose of Performing Phase I ESA

According to the User, the user is a prospective purchaser of the subject property and the Phase I is being performed to qualify for landowner liability protections under CERCLA as well as identify business risks related to the property associated with environmental conditions.

3.6 User Provided Documents

The User of this report provided a rent roll for the subject property. Rent roll information was incorporated into the Interior Observations section of this report.

4.0 HISTORICAL LAND USE

A review of historical data derived from standard historical resources is provided in this section. The objective of consulting historical sources is to develop a history of the previous uses of the property and surrounding area, in order to help identify the likelihood of past uses having led to recognized environmental conditions in connection with the property. During our historical review, acute attention is paid to the subject property. Data relating to the adjoining and immediately surrounding properties (within 100-feet of the subject property boundary) and the surrounding area is reviewed to the extent that it is revealed in the course of researching the property itself.

4.1 Aerial Photography Review

Aerial Photography of many portions of the United States dates back to the 1920's. Items searched for in each photograph included, but were not limited to: evidence of tanks, gas stations, industrial site usage, water drainage pathways, areas which show evidence of drums or excessive debris, discolored or stained soils, areas of distressed vegetation, et cetera.

Aerial Photograph Coverage was available from Environmental Data Resources (EDR) and Google Earth for the years: 1928, 1938, 1947, 1965, 1976, 1989, 1994, 2005 and 2015. A summary of our observations is presented in the following table.

Year	Subject Property	Notable Adjoining Property Observations	Notable Observations of the Surrounding Area
1928	Appears developed with two industrial structures on the eastern half and a parking lot in the southeast portion, and three industrial structures on the western half and one residential structure.	Appears developed with industrial and/or commercial structures.	Appears developed for industrial and commercial purposes.
1938	Appears developed with two industrial structures on the eastern half, and three industrial structures, one residential structure, and one partial industrial structure on the western half.	Appears developed with industrial and/or commercial structures.	Appears developed for industrial and commercial purposes.

Year	Subject Property	Notable Adjoining Property Observations	Notable Observations of the Surrounding Area
1947	Appears developed with two industrial structures on the eastern half and parking lot in the southeast portion, and three industrial structures, one residential structure, and one partial industrial structure on the western half.	Appears developed with industrial and/or commercial structures.	Appears developed for industrial and commercial purposes.
1965, 1976, 1989, 1994, 2005	Appears developed into the existing subject property configuration with three industrial structures on the eastern half and parking lot in the southeast portion and three industrial structures on the western half.	Appears developed with commercial structures to the north, east and west, and Santa Monica Freeway to the south.	Appears developed for commercial purposes with the Santa Monica Freeway transecting the southern surrounding area.

4.2 Building Department Records Review

The addresses identified as current and historical addresses for the subject property were researched at the City of Los Angeles Department of Building and Safety. Items considered in the course of the building permit review are previous site usage, previous ownership, and the construction or demolition of any structures that may have had a negative environmental impact on the property. The following table summarizes relevant building permits obtained and reviewed:

418 West 16th Street		
Date	**Owner/Occupant**	**Purpose**
09/20/1916	Whiting (illegible) Co.	Wreck and remove materials (flats)

1600 South Flower Street		
Date	**Owner/Occupant**	**Purpose**
11/14/1929	A. Polman	Tenant improvement for restaurant
07/22/1930	Philip Pholman	Set wall five (5) feet. Demolish old wall, build up new wall
10/05/1962	Electric Equipment Company	Repair of damaged brick wall - auto damage repair (stores)
07/18/2014	Fred S. Oken et al TRS Dorothy	Remove and replace column and door from vehicle damage

1600 - 1606 South Flower Street		
Date	**Owner/Occupant**	**Purpose**
07/21/1961	Electric Equipment Company	Parapet correction adjacent to Venice Boulevard, Flower Street, alley and over south exitway (office and warehouse)
11/09/1983	Harry Oken	Wall anchors, per Division 68 under alt. II (class II building) (manufacturing building)
01/05/1988	Fred Oken	Full compliance with Division 88, Class II (manufacturing building)

1604 - 1606 South Flower Street		
Date	**Owner/Occupant**	**Purpose**
11/07/1951	Farmers & Merchants Bank	Re-roof composition roof

1606 South Flower Street		
Date	**Owner/Occupant**	**Purpose**
07/14/1917	Phillip Pohlman	Erection of brick building, stores and bath houses
01/29/1920	Phillip Pohlman	Erecting metal (or steel) ceiling on ceiling and sidewalls over plaster and plunge room, 16' x 45' (swimming school)
08/04/1922	Phillip Pohlman	Remove rotten partitions and posts in interior of building (swimming school)
01/09/1930	A. Pohlman	Remove beams and partitions, for swimming pool
02/17/1930	P. Pohlman	Remodel store front on account of being widened. Set new front for auto accessories store
04/04/1941	Farmers Merchants National Bank	Install 40" vents, extend from 3" above floor and through roof. 18 vents required

1610 - 1612 South Flower Street		
Date	**Owner/Occupant**	**Purpose**
11/14/1912	Mrs. S.H. Van Nuys	Interior partitions on each side to separate the stairways from the downstairs portions; and to convert the present attic into kitchen and rear porch, accessible by a new exterior stair (two story flats)

1610 - 1612 1/2 South Flower Street		
Date	**Owner/Occupant**	**Purpose**
12/03/1953	Farmers & Merchants National Bank	Remove four (4) chimneys to with 1' above roof and brick up inlets (apartments)

1614 - 1624 South Flower Street		
Date	**Owner/Occupant**	**Purpose**
12/20/1922	Arthur Hess	Erection of buildings (stores, shops)

1614 - 1630 South Flower Street		
Date	**Owner/Occupant**	**Purpose**
06/05/1930	Mary Finaila	Cut 5'-0" off front and rebuild the front (public garage)

1616 South Flower Street		
Date	**Owner/Occupant**	**Purpose**
04/26/1906	Andrew Briglas	Erection of frame buildings (shed)
12/20/1922	Whiting Merchaning Co. (sp.?)	Demolish (illegible) from lot
10/20/1960	Electronic Equipment Company	Certificate of Occupancy - one and two story manufacturing, and electrical warehouse addition
11/28/1960	Electronic Equipment Company	Addition to existing warehouse (light manufacturing)
04/02/1962	Electronic Equipment Company	Certificate of Occupancy - 1 story, type IV, 130' x 150' addition including roof parking to an existing 100' x 150' warehouse. 21 parking spaces at 1623 S. Hope
05/08/1962	Electronic Equipment Company	Delete parking provided at 1623 S. Hope and provide it on roof
08/31/1984	Jerry Greenfield	Revise plotplan to provide 8 spaces for 1721 S. Flower St. - new use of land

1618 South Flower Street		
Date	**Owner/Occupant**	**Purpose**
05/10/1923	Mrs. C.M. Knowles	Plaster board partition 7' 6" in height (confectionery)

1601 South Hope Street		
Date	**Owner/Occupant**	**Purpose**
12/10/1913	California Portable Bungalow Co.	Erection of frame building

1601 South Hope Street		
Date	**Owner/Occupant**	**Purpose**
02/13/1923	Western Auto Electric Co.	Put in one new stairway on south side of building to have outside access to upper front rooms, for battery service operation
09/18/1926	Western Auto Electric Co.	Take two windows, cut down lower wall to make exit door. No structural changes on street front
08/25/1931	J. Francis Potter	Repair cement floor. Install steel viable door
04/23/1937	Electric Equipment Company	Re-arrange interior non-bearing partitions, new interior partitions (stud and plaster) and (wood and glass). New display fronts, plate glass and bulkheads, new finish floors and new plaster ceilings. New steel sash at second story. Close up present masonry openings and cut new openings and new fire doors.
10/01/1937	Ray Thomas	Proposed platform 13'-4" x 9' to store tables (offices and sales)
10/19/1937	(Not listed)	Certificate of Occupancy - Auto service station (tire and battery)
05/29/1939	Electric Equipment Corporation	Sub-divide partition of first floor of existing building and install electrical equipment
12/16/1942	Ray Thomas	Re-roofing with 75# new method cap sheet (garage and warehouse)
10/30/1944	Electrical Equipment Company	Add roof sign (store)
	Electrical Equipment Company	Construction of partitions for offices (auto supplies store)
07/17/1947	Ray Thomas	Mezzanine addition for new men and women's toilets and record storage. Also, blocking up rear doors with steel (*illegible word)). Extend loading platforms and erect screen partition to same (store)
12/24/1948	Electric Equipment Company	Installation of single faced sign reading "Carburetor repair". Area approximately 30 square feet

1601, 1607 and 1611 South Hope Street		
Date	**Owner/Occupant**	**Purpose**
11/01/1947	Electric Equipment Company	New curtain well, alter cashier;s booth into catalogue room, new counter and cashier's booth. New suspended ceiling, new office partitions in building 1601. Present use of building: sales and service (not retail)

1601 - 1611 South Hope Street		
Date	**Owner/Occupant**	**Purpose**
07/21/1920	J. Francis Potter	Erection of a frame building (for retail storage batteries)
08/14/1959	Electric Equipment Company	Install accoustical tile on existing ceiling
07/12/1961	Electric Equipment Company	Parapet correction adjacent to Hope Street, Lane and over exitways
12/01/1987	Fred Oken	Full compliance with Division 88 Class II (manufacturing building)

1611 South Hope Street		
Date	**Owner/Occupant**	**Purpose**
02/16/1929	Electrical Equipment Company	Certificate of Occupancy - store
01/17/1958	Electric Equipment Company	New interior opening in brick wall
09/16/1959	Electric Equipment Company	Apply ¼ hardwood ply panels over existing walls in office and passage (office and warehouse)
08/08/1962	Electric Equipment Company	Stucco facing, brick veneer base. Remove terra cotta ornament (office and warehouse)
09/25/1967	Electric Equipment Company	Remove existing 6x6 post and install channel beam to span to next post
10/05/1967	Electric Equipment Company	Alterations on second floor for IBM computer floor and air conditioning. New use--office
11/16/1967	Electric Equipment Company	Adding landing and continuing required stair to first floor. A.C. changed to roof
12/02/1975	Aiglon Industries Inc.	Wall sign
02/16/1977	California Sample Co.	New toilet rooms and wall openings interior (light manufacturing warehouse)
04/09/1980	California Sample Service	Repair trust heel

1617 and 1619 South Hope Street		
Date	**Owner/Occupant**	**Purpose**
03/22/1946	Electric Equipment Company	Erect new building, auto service building
07/25/1946	Electric Equipment Company	Erect a new building, automobile service

1623 South Hope Street		
Date	**Owner/Occupant**	**Purpose**
01/29/1949	Shaffter Bros. Inc.	Roofing concrete flat (manufacturing)
11/28/1960	Electric Equipment Co.	Certificate of Occupancy - parking lot, 21 car spaces
04/02/1962	Electric Equipment Co.	Certificate of Occupancy - irregular parking lot. 21 required parking spaces

452 West Venice Boulevard		
Date	**Owner/Occupant**	**Purpose**
12/04/1933	J.W. Altard	Build wood panel partition across room 9'-0" from entrance. Build toilet room and vestibule to be 4'-0" square feet. All partitions to go to 12'-0" ceiling, ¼ of height glass (store room)
12/14/1939	Reliable Vending	Repair auto damage to store front. New window. Repair brick pier. No structural changes.

452 - 490 West Venice Boulevard, 1600 South Flower Street		
Date	**Owner/Occupant**	**Purpose**
11/07/1951	Farmers & Merchants Bank	Re-roof composition roof (commercial)
XX/XX/1953	Farmers & Merchants Bank National Bank	Repair bulkhead, replace door-damaged brick work, broken glass, plastering, stucco repairs (mercantile building)
08/27/1956	Albert Quon	Remove six (6) bearing partitions, install new cols and steel, remove old fronts and brick up openings. Changing use from retail stores to warehouse and offices
10/16/1956	Albert Quon	Revise connecting columns to tapered girders (office and warehouse)

- There were no building permits identified for the other current or historical site addresses.

- The remaining permits obtained and reviewed were for minor tenant improvements, sign permits, or other permits which are not significant and did not contain information about the historical site use or the potential for recognized environmental conditions.

4.3 City Directory Review

City directories have been published since the 1800's and provide detailed occupant information for the property and its surrounding area at five-year intervals. The purpose of the City Directory research is to attempt to determine the businesses that historically occupied the subject property. Historical City Directories provided by EDR and reviewed by EFI Global, Inc. are listed below.

1600 South Flower Street	
Date	**Listing**
1924	Lovett Frank D drugs
1929	Maize Neal R confy
1933	Godkins Gertrude E Mrs restr
1937	Mrs Marion Flower Coffee Shop
1942	Schwarzweller Chas J Gertrude restr
1958	Peek A Boot Inc., Plastic Limited
1976	Fischer Automotive Warehouse
1981	Color Incorporated
2006	AI Trim Inc.
2010	3J Star Inc.

1606 South Flower Street	
Date	**Listing**
1951	Peek-A-Boot Inc.
2006	TJ Apparel Inc.
2010	Direct Beauty Depot, FHI Heat
2010, 2014	AG Global Products LLC, Metropolis Beauty LLC,
2014	Karbon Beauty LLC, Cabella, Metropolis Technology Inc.

1616 South Flower Street	
Date	**Listing**
1951	Inter State Automotive Products
2010	SD Garrett Properties
2014	Agradora Investment Company, FHI Heat, Beautychoicecom Inc.

1601 South Hope Street	
Date	**Listing**
1958	Wico Magneto Co. Distributors, Auto Lite Co. Distributors, Autopulse Co. Distributors, B K Power Brake Co. Distributors, Stromberg Auto Carburetor Co. Distributors, Briggs Stratton Distributors, Electric Equipment Co., Leece Neville Co. Distributors, Ramsey Corp piston rings, Bendix Power Brake Co. Distributors, Stromberg Auto Carburetor Co distributors
2010	Lee Fashion Inc., Rude Apparel Inc.
2014	Bilbrey Rex Building & Design

1607 South Hope Street	
Date	**Listing**
1962	Dee Carol

1611 South Hope Street	
Date	**Listing**
1924	De France Lamp Shade Co.
1929	Robert R. Shenk salesman
1958	Ramsey Corp. piston rings
1962	Bendix Power Brake Co. Distributors, Briggs Stratton Distributors, Electric Equipt Co., Ramsey Corp Piston Rings
1967, 1971	Bendix Power Brake Co. Distributors, Briggs Stratton Distributors, Electric Equipt Co. automotive parts distributors, Mand J Trucking Co., Ramsey Corp. piston rings
1976	Electric Equip Co., Hawk Parts System automotive parts distributors
1981	Advance Sample Card Co.
1981, 1986	Calif Sample Service Inc.,
1981, 1986, 1990	Cal-Carpet Sample Co. Inc., Northstar Silkscreen
1986	Olimpie Products Inc.
1990	Vari-ad Composition Service Inc.
2006	Indie Printing, Lucy B, Step Sportswear, Tri Star Samples
2010, 2014	C6 Ideas, Gapark Yung Yong, Indie Printing, Initialize Information Technology, Jungdo Inc., Lucy B Inc., Oken Properties, Tri Star Sample Co.
2014	Create Now Inc., Hua Chen Studio, Inter Art, Oken Properties

1617 South Hope Street	
Date	**Listing**
2006	SD Garrett Properties

426 West Venice Boulevard	
Date	**Listing**
1928	½ Sami Gencer, Henry Lauteman
1933	LT Crume, ½ Minew AG
1936	Mrs. Nina Gillfland
1958	Geo Bench
1965	Karel Beaupain
2010, 2014	LA Roofing Company

440 West Venice Boulevard	
Date	**Listing**
1958	Earl A. Dummer

452 West Venice Boulevard	
Date	**Listing**
1929	Noel E. Bullock mach

460 West Venice Boulevard	
Date	**Listing**
1929	Motor Specialty Co. LW cock manager

462 West Venice Boulevard	
Date	**Listing**
1929	Speirs Mulkern Company HA, Mulkern Mnager Manufacturers Of Chemical Products For Removing Enamels, Lacquers, Paints, Grease, Rust, Cleaning Concrete Floors And General Household Use
1937	Arthur D. Campbell rubber stamps
1942	Edith Barnett Simms printer
1951	Venice Quality Press
1954	Bill D. Cockrell, Patricia Cockwell, Robert A. Pyanowski

470 West Venice Boulevard	
Date	**Listing**
1958	Jos S. Owens
1962	Vincent Sousa

480 West Venice Boulevard	
Date	**Listing**
1929	Brennar & Hohler sign painters
1937	Bertha Knowlton greeting cards
1942, 1951	Arthur D. Campbell rubber stamps
1958	Irene Monroe

490 West Venice Boulevard	
Date	**Listing**
1929, 1933, 1937	Benj Lena Slotnikoy groceries
1942	Fred A. Schmitz pearl leather goods
1951	Tanners Liquor Store

- Listings for adjoining and immediately surrounding properties reviewed during the course of researching the subject property did not reveal any uses of concern.

4.4 Sanborn Map Review

Originally compiled by the Sanborn Map Company of Pelham, New York for fire insurance companies to assess fire risks related to building materials and hazardous materials storage, today Sanborn Maps are an invaluable tool for Environmental Professionals in determining historical site use and the potential for environmental conditions. Sanborn Map Coverage is available from as early as 1867 in some cities. Although Sanborn maps were created for approximately twelve thousand cities and towns in the United States, Canada, and Mexico, Sanborn Map Coverage is not available in newer and more rural communities. Sanborn Map Coverage was available from EDR for the years: 1890, 1894, 1906, 1950, 1953, 1954, 1958, 1960, 1963, 1968 and 1970. A summary of our observations is presented in the following table.

Year	Subject Property	Notable Adjoining Property Observations	Notable Observations of the Surrounding Area
1890 and 1894	Depicted with no structures.	Depicted with stables and dwellings to the south, west and north and no structures to the east.	Depicted primarily with intermittent residential developments.
1906	Depicted with The Colonial Flats in the northwest portion and vacant in the remainder.	Depicted with residential structures.	Depicted primarily with residential developments.

Year	Subject Property	Notable Adjoining Property Observations	Notable Observations of the Surrounding Area
1950	Depicted with Phonograph Records in the northeast portion, auto electric service in the southeast with storage in the basement, stores, a restaurant and Liquor Rectifiers in the northwest portion, a residential structure in the west-central portion, and auto repairing and painting in the southwest portion.	Depicted with a parking lot, stores and insulation manufacturer to the north, clothing factory, window display manufacturer, welding shop and residential structure to the south, dwellings to the east, and dance hall, undertaker and apartments to the west.	Depicted with warehouses sand commercial structures.
1953 and 1954	Depicted with Phonograph Records in the northeast portion, auto electric service in the southeast with storage in the basement, stores (i.e. plastic shop, stamp shop), a restaurant and Boot manufacturer in the northwest portion, a residential structure in the west-central portion, and stores in the southwest portion.	Depicted with a parking lot and stores to the north, clothing factory, window display manufacturer, welding shop and residential structure to the south, dwellings to the east, and dance hall, undertaker and apartments to the west.	Depicted with warehouses sand commercial structures.
1958	Depicted with a lawn mower parts warehouse in the northeast portion, auto electric service in the southeast with storage in the basement, office and plastic products storage and plastic boot manufacturer in the northwest portion, a residential structure in the west-central portion, and a paper bag warehouse in the southwest portion.	Depicted with a parking lot and stores to the north, clothing factory, window display manufacturer, welding shop and residential structure to the south, dwellings to the east, and undertaker and apartments to the west.	Depicted with warehouses sand commercial structures.

Year	Subject Property	Notable Adjoining Property Observations	Notable Observations of the Surrounding Area
1960 and 1963	Depicted with a lawn mower parts warehouse in the northeast portion, auto parts warehouse in the east-central portion, auto electric service in the southeast with storage in the basement, office and plastic products storage, plastic boot manufacturer in the northwest portion, a residential structure in the west-central portion, and paper bag warehouse in the southwest portion.	Depicted with a parking lot and stores to the north, the Santa Monica Freeway to the south, dwellings to the east, and undertaker to the west. By 1963, an auto painting shop is developed to the west.	Depicted with warehouses sand commercial structures.
1968 and 1970	Depicted with an electrical equipment warehouse on the eastern half with a storage basement in the southeast portion, electrical equipment repair and auto tail pipe warehouse in the northwest portion and auto parts warehouse in the southwest portion.	Depicted with a parking lot, restaurant and stores to the north, parking lot and Santa Monica freeway to the south, residential structures to the east, and parking lot, auto painting and undertaker to the west.	Depicted with warehouses sand commercial structures.

- Sanborn maps indicated the following historical street addresses associated with the subject property: 418, 418 ½, 420, 420 ½, 422, 422 ½, 424, 424 ½, 426, 426 ½, 4284 and 4284 ½ West 16th Street, 1600, 1606, 1608, 1610, 1612, 1612 ½, 1616, 1618, 1620 and 1626 ½ South Flower Street, 1601, 1611, 1617 and 1623 South Hope Street, and 426, 440, 452, 460, 462, 464, 470, 480, 484, 490, 1460, 1462, 1464, 1476, 1480, 1484 and 1490 Venice Boulevard. These addresses were researched during the completion of this report.

4.5 Historical Summary

4.5.1 Subject Property

According to EFI Global, Inc.'s interpretation of the historical research data, the subject property was undeveloped prior to 1890 until at least 1894. By 1906, the northwest portion of the subject property was developed with flats (418-426 ½ West 16th Street, 4284 West 16th Street) and a dwelling in the southwest portion (1616 South Flower Street). By 1928 until at least 1938, the eastern half of the subject property was developed with two industrial structures (1601 and 1611 South Hope Street) and the western half developed with three industrial structures (452 West Venice Boulevard, 1606 and 1616 South Flower Street) and one residential structure (1610 and 1612 South Flower

Street). By at least 1965, the subject property was developed into it's existing configuration with three industrial structures on the eastern half and parking lot in the southeast portion, and three industrial structures on the eastern half.

Commercial occupants at **418-426 ½ West 16th Street** and **4284 West 16th Street** has included The Colonial Flats (1906).

Historical occupants at **1600 South Flower Street** have included: various retail operations (1924-1942), Peek A Boot Inc. (1958), Plastic Limited, plastic storage (1958-1960), Electrical Equipment Company, an automobile parts distributor (1962), electrical equipment repair (1963-1970), Fischer Automotive Warehouse (1976), Color Incorporated (1981), AI Trim Inc. (2006) and 3J Star Inc. (2010). Historical occupants at **1600 and 1606 South Flower Street** have included: Electrical Company (1961). Historical occupants at **1606 South Flower Street** have included: stores and bath houses (1917), a swimming school (1920-1930), an auto accessories store (1930), Bullock Boring Service, automobile repair (1933), Liquor Rectifiers (1950), Peek-A-Boot Inc. (1951), plastic boot manufacturer (1953-1960), auto tail pipe warehouse (1963-1970), TJ Apparel Inc. (2006), Direct Beauty Depot (2010), FHI Heat (2010), AG Global Products LLC (2010), Metropolis Beauty LLC (2010), Karbon Beauty LLC (2014), Cabella (2014) and Metropolis Technology Inc. (2014). Historical occupants at **1610 and 1612 South Flower Street** have included: flats (1912) and apartments (1953). Historical occupants at **1616 South Flower Street** have included: a shed (1906), Grover HD automobile repair (1933), Miller PF, automobile repair (1942), an auto repairing and painting shop (1950), Inter State Automotive Products (1951), store (1953-1954), paper bag warehouse (1958), auto parts warehouse (1960-1970), Electronic Equipment Company (1960-1962), FHI Heat (2014) and Beautychoicecom Inc. (2014).

Historical occupants at **1601 South Hope Street** has included: Western Auto Electric Co., a battery service operation (1923-1926), Electric Equipment Company (1937-1958), Phonograph Records (1950-1954), lawn mower parts warehouse (1958-1963), Lee Fashion Inc. (2010), Rude Apparel Inc. (2010), and Bilbrey Rex Building and Design (2014). Historical occupants at **1601 and 1611 South Hope Street** have included Electric Equipment Company (1959-1961). Historical occupants at **1611 South Hope Street** has included: De France Lamp Shade Co. (1924), Electric Equipment Company (1929-1976), auto parts warehouse (1960-1963), California Sample Co. (1977), California Sample Service (1980-1986), Advance Sample Card Co. (1981), Cal-Carpet Sample Co. Inc. (1981-1990), Northstar Silkscreen (1981-1990), Olimpie Products Inc. (1986), Vari-ad Composition Service Inc. (1990), Tri Star Samples (2006-present), Create Now Inc. (2014), Hua Chen Studio (2014) and Inter Art (2014). Historical occupants at **1617 South Hope Street** has included auto electric service (1950-1963); **1617 South Hope Street basement** has been historically utilized as storage (1950-1970) and carpet sampling operations (1991-present). Historical occupants at **1617 and 1619 South Hope Street** have included Electric Equipment Company (1946). Historical occupants at **1623 South Hope Street** has included: Shaffter Bros. Inc. (1949) and Electric Equipment Co. (1960-1962). Historical occupants at **1625 South Hope Street** has included Eastern Fabrications LLC (2014-present). The subject property at **1601 thru 1617 South Hope Street** was used as an electrical equipment warehouse from at least 1968-1970.

Historical occupants at **426 West Venice Boulevard** has included LA Roofing Company (2010-2014). Historical occupants at **452 West Venice Boulevard** has included: stores (1933) and

Reliable Vending (1939). Historical occupants at **452-490 West Venice Boulevard** has included: stores (1950), a mercantile operation (1953) and warehouse (1956). Historical occupants at **462 West Venice Boulevard** has included: Manufacturers Of Chemical Products For Removing Enamels, Lacquers, Paints, Grease, Rust, Cleaning Concrete Floors And General Household Use (1929), Arthur D. Campbell rubber stamps (1937), Edith Barnett Simms printer (1942), Venice Quality Press (1951), and a printing shop (1954). Historical occupants at **480 West Venice Boulevard** has included: Brennar & Hohler sign painters (1929), Bertha Knowlton greeting cards (1937), Arthur D. Campbell rubber stamps (1942-1951) and a rubber stamp manufacturer (1953). Historical occupants at **484 West Venice Boulevard** has included a plastic shop (1953-1954). Historical occupants at **490 West Venice Boulevard** has included: Benj Lena Slotnikoy groceries (1929-1937), Fred A. Schmitz pearl leather goods (1942) and Tanners Liquor Store (1951).

- Historical occupants at **1600 South Flower Street** has included electrical equipment repair (1963-1970). Please refer to Section 6.2 for further information.
- Historical occupants at **1606 South Flower Street** has included Bullock Boring Service, automobile repair (1933). Please refer to Section 5.1 for further information.
- Historical occupants at **1616 South Flower Street** has included the automobile repair operations Grover HD (1933) and Miller PF (1942), and an auto repairing and painting shop in at least 1950. Please refer to Section 5.1 for further information.
- The subject property at **462 West Venice Boulevard** has included historical occupants such as Manufacturers Of Chemical Products For Removing Enamels, Lacquers, Paints, Grease, Rust, Cleaning Concrete Floors And General Household Use (1929), Arthur D. Campbell rubber stamps (1937), Edith Barnett Simms printer (1942), Venice Quality Press (1951) and printing shop (1954). Regulatory agency requests for the subject property did not yield documentation to indicate the types of hazardous materials used at 462 West Venice Boulevard between 1929 and 1954. Thus, we cannot rule out the possibility of hazardous material usage including solvents during this time frame. Based on the foregoing, the use of the subject property for industrial operations for a minimum of 26 years represents a *recognized environmental condition* (REC) for the subject property.

4.5.2 Adjoining and Immediately Surrounding Properties

According to EFI Global, Inc.'s interpretation of the historical research data, the adjoining and immediately surrounding properties were developed with stables and dwellings to the south, west and north in at least 1890 through 1894. By 1906, the adjacent properties were developed with residential structures. By 1928, the adjacent properties were developed with industrial and commercial structures. By at least 1965, the adjacent properties were developed for commercial purposes as they remain presently.

4.5.3 Surrounding Area

According to EFI Global, Inc.'s interpretation of the historical research data, the surrounding area was developed as with sparse residential structures in at least 1890 through 1894. By at least 1950, the surrounding area was developed with manufacturing warehouses and commercial structures. The surrounding area primarily consists of commercial structures in the present day.

4.6 Historical Data Gaps

Based on our review of the historical data, no significant data gaps were encountered during our research.

5.0 REGULATORY DATABASE REPORT

A radial database search was conducted in accordance with the specifications defined in ASTM E 1527-13 which sets the radial search distances for each regulatory database. The radial database search was conducted by EDR on September 1, 2017. A copy of the database report is presented in Appendix II of this report. The following table summarizes required databases reviewed, the approximate search distances, and indicates if the subject site, adjoining/immediately surrounding properties or surrounding sites are listed on the respective database.

Following the table are summaries of the information found in the relevant database listings and our opinion regarding the potential for the subject property to be impacted. Our opinion is based on the information found in the database listings, through other historical and regulatory resources, "Standard Guide for Vapor Encroachment Screening on Property Involved in Real Estate Transactions" (ASTM E2600-15), and assumed groundwater flow direction. As discussed in Section 2.3, groundwater is estimated to be in excess of 100-feet below ground surface in the area of the site and is assumed to flow towards the southwest.

DATABASE	Search Distance (Miles)	Subject Site (Yes/ No)	Adjacent Site (Yes/ No)	Total Listings (#)
Federal National Priorities List (NPL)	1.0	No	No	0
Federal De-listed NPL	1.0	No	No	0
Federal CERCLIS	0.5	No	No	1
Federal CERCLIS NFRAP	0.5	No	No	3
Federal RCRA CORRACTS	1.0	No	No	0
Federal RCRA non-CORRACTS TSD	0.5	No	No	0
Federal RCRA Generators	0.25	No	No	31
Federal Institutional/Engineering Controls	0.5	No	No	0
Federal ERNS	Property	No	No	0
State/Tribal Equivalent NPL	1.0	No	No	0
State/Tribal Equivalent CERCLIS	1.0	No	No	12
State/Tribal Landfill	0.5	No	No	0
State/Tribal Underground Storage Tank (UST)	0.25	No	No	77
State/Tribal Leaking Underground Storage Tank (LUST/SLIC)	0.5	No	No	13
State/Tribal Institutional/Engineering Controls	0.5	No	No	0
State/Tribal Voluntary Clean-up Sites	0.5	No	No	2
State/Tribal Brownfield Sites	0.5	No	No	0

5.1 Subject Property

Bullock Boring Service (1606 South Flower Street) - The subject property is listed on EDR US Historical Auto Station (EDR Hist Auto) database. According to the information provided the automobile repair operation, Bullock Boring Service, occupied the subject property in at least 1933. Historical resources reviewed for the purpose of this report indicate 1606 South Flower Street was occupied by an auto accessories store in at least 1930 and Liquor Rectifiers by at least 1950 and therefore, the

maximum potential duration of the automobile repair could have been 18 years. Automotive repair operations represent an environmental concern due to the typical use of solvents and oils. These hazardous materials, if improperly handled or disposed, have the potential to negatively impact the property subsurface. The former use of the subject property for automotive repair operations for 18 years represents a *recognized environmental condition* (REC) for the subject property.

Grover HD (1616 South Flowers Street) - The subject property is listed on EDR Hist Auto database. According to the information provided and historical research, the automobile repair operations Grover HD (1933) and Miller PF (1942) historical occupied the subject property, as well as an automobile repairing and painting shop. Historical resources reviewed for this report reveal the auto repairing operations could have been performed on site from at least 1928 when the subject building was first developed until at least 1950 (next known occupant, Inter State Automotive Products occupied the subject property in 1951). Based on the long term use of subject property for automobile repair and auto body services for a maximum of 23 years, the former auto repair and auto body operations at **1616 South Flower Street** are considered a *REC* for the subject property.

California Sample Service, Inc. (1611 South Hope Street) - The subject property is listed on Resource Conservation and Recovery Act - Non Generator (RCRA NonGen / NLR), Facility Index System/Facility Registry System (FINDS), Enforcement Compliance & History Information (ECHO) and Facility and Manifest Data (HAZNET) databases. According to the information reviewed, California Sample Service, Inc. registered as a non-generator of hazardous waste on January 22, 1986. No violations were discovered to be associated with RCRA NonGen / NLR. Local regulatory research was conducted with the appropriate regulatory agencies with regard to the HAZNET listing. The results of those inquiries are summarized in Section 6.1.

5.2 Adjoining and Immediately Surrounding Properties

Bell HJ (1620 South Flower Street) - The south adjoining property is listed on EDR Hist Auto database. According to the information provided, the site was occupied by the automobile repair and service station Bell HJ in at least 1929, and automobile repair operations from at least 1933 until 1937. Based on the absence of evidence to indicate a release and lack of evidence to indicate the use of significant quantities of hazardous materials, the EDR Hist Auto listing is not expected to represent a significant environmental concern for the subject property.

Maas AD (1630 South Flower Street) - The south adjacent property located about 70-feet south is listed on EDR Hist Auto database. According to the information provided, the site was occupied by the automobile repair and service station McNealy GW in at least 1929, and automobile repair operations Maass AD in at least 1933 and Wesley Ga in at least 1937. Based on the absence of evidence to indicate a release and lack of evidence to indicate the use of significant quantities of hazardous materials, the EDR Hist Auto listing is not expected to represent a significant environmental concern for the subject property.

Rudd HB (1521 South Hope Street) - The north adjacent property across West Venice Boulevard is listed on EDR Hist Auto database. According to the information provided, the gasoline and oil service stations O'Connor JJ (1929) and Rudd HB (1933) formerly occupied the subject property. Based on the absence of evidence to indicate a release and lack of evidence to indicate the use of significant quantities of hazardous materials, the EDR Hist Auto listing is not expected to represent a significant environmental concern for the subject property.

5.3 Surrounding Area

Toyota Dealership (1600 South Figueroa Street) - The surrounding site located approximately 255-feet northwest (hydrologically cross gradient) is listed on Spills, Leaks, Investigations and Cleanup (SLIC) database. According to the information provided, an unauthorized release of tetrachloroethylene (PCE) that impacted soil vapor during a site assessment in 2014. The SLIC investigation is currently lead by the Los Angeles Regional Water Quality Control Board (LARWQCB). Remedial actions performed to mitigate the release has included the installation of a soil vapor extraction (SVE) system. The release case remains open. Based on ongoing regulatory oversight, remedial actions performed (i.e. SVE), media impacted (soil vapor), distance (excess of 200-feet) and cross gradient location of the site in relation to the subject property, the SLIC listing is not expected to represent a significant environmental concern for the subject property.

In our opinion, none of the other sites listed on the regulatory database report pose a significant threat to the subject property as there is no indication of a release at the respective sites, a release has occurred but groundwater has not been impacted, a release has occurred but the case is closed, or the sites are located cross or down gradient of the subject property and in excess of 1/10 mile from the subject property.

5.4 Orphan Sites

Orphan sites are unmappable sites which appear in a list form in the Radius Map Report rather than on the standard Radius Map. Four (4) orphan sites were identified in the Radius Map Report prepared for this site. The sites were manually mapped to determine the location of the site relative to the subject property and groundwater gradient. The following conclusions were made:

In our opinion, none of the orphan sites listed pose a significant threat to the subject property as there is no indication of a release at the respective sites, a release has occurred but groundwater has not been impacted, a release has occurred but the case is closed, or the sites are located cross or down gradient of the subject property and in excess of 1/10 mile from the subject property.

6.0 AGENCY FILE REVIEWS

6.1 State Agencies

The regional offices of the Los Angeles Regional Water Quality Control Board (LARWQCB), Department of Toxic Substances Control (DTSC), and South Coast Air Quality Management District (SCAQMD) were contacted regarding permits and site investigation files for the subject property. Additionally, the State Water Resources Control Board's (SWRCB) GeoTracker, DTSC's Hazardous Waste Tracking System (HWTS) and EnviroStor, and SCAQMD's Facility Information Detail (FIND) databases were reviewed for information pertaining to the subject property.

- According to responses to our requests and research of the aforementioned databases, there are no files for the subject property addresses 418, 418 ½, 420, 420 ½, 422, 422 ½, 424, 424 ½, 426, 426 ½, 4284 and 4284 ½ West 16th Street, 1600, 1604, 1606, 1608, 1610, 1612, 1612 ½, 1614, 1616 and 1618 South Flower Street, 1601, 1607, 1617, 1619 and 1623 South Hope Street and 426, 440, 452, 460, 462, 464, 470, 480, 484, 490, 1460, 1462, 1464, 1476, 1480, 1484 and 1490 Venice Boulevard.
- According to a response from SCAQMD and research of the FIND database, the subject property at 1611 South Hope Street was inspected in 1988 (Cal Sample Service) and 1989 (Electric Equipment Company). No other information was identified from SCAQMD or the FIND database. Based on the foregoing, the SCAQMD response and FIND database information are not expected to represent an environmental concern for the subject property.
- According to the HWTS database and HAZNET listing information, California Sample Service, Inc. at **1611 South Hope Street**, Community Redevelopment Agency of LA at **1601-1610 South Hope Street** and Sherbourne Properties, Inc. at **1616 South Flower Street** were issued U.S. Environmental Protection Agency (EPA) ID Numbers in 1987, 2000 and 2009, respectively. HWTS database information indicate waste manifests were not associated with Community Redevelopment Agency of LA. California Sample Service, Inc. generated 2.49 tons of photochemicals/photoprocessing waste between 1993 and 2003, and 0.14 ton of liquids with halogenated organic compounds greater than 1,000 milligrams per Liter (mg/L) between 2000 and 2001 under EPA ID Number CAD008329799. Sherbourne Properties, Inc. generated 5.94 tons of unspecified solvent mixture between 2009 and 2014, 0.15 ton of organic solids with halogens in 2015, and 0.9 ton of other organic solids between 2010 and 2014 under EPA ID Number CAL000346716. Based on the absence of evidence to indicate the mismanagement of hazardous wastes and proper permitting, the HWTS database and HAZNET listing information are not expected to represent a significant environmental concern for the subject property.

The Division of Oil, Gas, and Geothermal Resources (DOGGR) Online Mapping System was reviewed for information pertaining to oil and gas exploration on or nearby the subject property.

- No oil wells were identified within 500 feet of the subject property.

6.2 City/County Agencies

The Los Angeles County Fire Department Health Hazardous Materials Division (LACFD HHMD), Los Angeles City Fire Department (LAFD) of Arson, LAFD Hazardous Materials Division (HMD) and Los Angeles City Bureau of Sanitation (LACBS) were contacted regarding hazardous materials, underground storage tank, and industrial waste discharge records for the subject property. Additionally, LAFD's Underground Storage Tank (UST) active and inactive inventory lists were researched for more information pertaining to the subject property.

- According to responses to our requests from LACFD HHMD, there are no files for the subject property addresses 418, 418 ½, 420, 420 ½, 422, 422 ½, 424, 424 ½, 426, 426 ½, 4284 and 4284 ½ West 16th Street, 1600, 1604, 1606, 1608, 1610, 1612, 1612 ½, 1614, 1616 and 1618 South Flower Street, 1601, 1607, 1611, 1617, 1619 and 1623 South Hope Street and 426, 440, 452, 460, 462, 464, 470, 480, 484, 490, 1460, 1462, 1464, 1476, 1480, 1484 and 1490 Venice Boulevard.
- According to a response from LAFD HMD, California Sample Service at **1611 South Hope Street** was permitted for motor oil, solvents, waste solvent, 30WT oil, hydraulic oil, isopropyl alcohol, press wash, printing inks, silicone spray, and type cleaner in 2004. LAFD HMD records do not indicate if the permits are still active, but indicated the subject property was inspected in 1993, 2002 and 2004. Based on observations made during the site reconnaissance and interviews with the property owner, several on-site tenants are associated with the address 1611 South Hope Street. The motor oil solvents, waste solvents, 30WT oil and silicone spray permits are assumed to be associated with the metal fabrication operation onsite, Eastern Fabrications LLC, hydraulic oil with Eastern Fabrications LLC and the Tri Star Sample Co. carpet sampling operation, and press wash, printing inks, and type cleaner with the silk screening operation, Steps Sportswear. Materials used by Steps Sportswear appeared in good condition during the site reconnaissance. The operation of the silk screening operation during a time of stringent regulatory oversight with proper permitting is not expected to represent a significant environmental concern for the subject property.

  Eastern Fabrications LLC is presently associated with the address **1625 South Hope Street**, and located in the southeast building. Tri Star Sample Co. underlies Eastern Fabrications LLC in the basement portion. Historical resources reviewed for the purposes of this report reveal the basement portion was formerly used for storage purposes. Although hydraulic oil is used in the basement level, it is not considered a significant environmental concern because hydraulic oil is insoluble in water, has a low volatility and are relatively immobile in a subsurface environmental. Based on the foregoing, Tri Star Sample Co. operations are not expected to represent a significant environmental concern for the subject property.

  Historical resources reviewed for this assessment indicate the subject property's address **1625 South Hope Street**, was formerly **1617 South Hope Street**. Historic operations at 1617 have included auto electric service (1950-1963). Regulatory agency records reviewed for the purpose of this report indicate hazardous materials including motor oil solvents, waste solvents, 30WT oil and silicone spray have been historically maintained at the subject property. However, the agency records were only available for tenants from the 1990's through the present; there was no information pertaining to the types of hazardous materials utilized from 1950 to 1963. Thus, we cannot rule out the possibility of other hazardous material usage including solvents during that time frame. Based on the former use of the subject property at 1625 South Hope Street for automotive electric repair, and observation of motor oil stains and metal shavings on the ground surface during the site reconnaissance, the metal fabrication activities performed at **1625 South Hope Street** represents a *recognized environmental condition* (REC) for the subject property.
- LABS records consisted of an industrial waste permit. The permit was issued to Electric Equipment Company in 1961 for the property address **1600 South Flower Street**. According to the information reviewed, Electric Equipment Company built, repaired and cleaned auto brake units. The discharged wastewater associated with the operation was caustic wastewater, which was released into a 8" clay pipe sewer in the street. Waste water was reportedly treated with a three-compartment 9' x 3' x 3' clarifier prior to discharge. The location of the clarifier was not described in LABS records, nor was it observed on site during the site reconnaissance. Historical resources reviewed for this assessment

reveal Electric Equipment Company occupied **1600 South Flower Street** from 1961 until at least 1970. Documentation to indicate the types of hazardous materials utilized during this time period was not obtained during the course of this assessment, however, automotive repair operations typically use of solvents and oils. Information pertaining to the removal or abandonment of the three-stage clarifier was not received during the course of this assessment. The former auto repair operations at the subject property for 10 years and the potential presence of a three-stage clarifier, represents a *recognized environmental condition* (REC) for the subject property.

The City of Los Angeles NavigateLA Online Mapping System was reviewed to obtain substructure maps for the subject property.

- According to the NavigateLA Online Mapping System, there are no substructure features underlying the subject property.

6.3 Agency File Review Limitations

At the time this report was issued, no response has been received from any agency for the associated address 1625 South Hope Street. Additionally, no response had been received from LAFD Arson for any subject property address. Should relevant information be obtained from agencies subsequent to issuing this report, an addendum will be prepared and provided to the Client.

7.0 NON-SCOPE ENVIRONMENTAL RISKS

ASTM Standard E1527-13 identifies additional conditions which, should they exist at the subject property, may create a human health risk to the occupants of the site. These risks may also create additional costs to the property owner in the form of identification, operations & maintenance, and cleanup or remediation.

7.1 Asbestos Containing Building Materials

Asbestos is a group of naturally occurring minerals used in many products, including building materials vehicle brakes, insulation and other products that require resistance to heat and corrosion. Asbestos includes: chrysotile, amosite, crocidolite, tremolite asbestos, anthophyllite asbestos, actinolite asbestos, and any of these materials that have been chemically treated and/or altered.

The inhalation of asbestos fibers by workers can cause cancer and other serious diseases of the lungs and other organs that may not appear until years after the exposure has occurred. For instance, asbestosis can cause a buildup of scar-like tissue in the lungs and result in loss of lung function. Asbestos fibers associated with these health risks are too small to be seen with the naked eye, and smokers are at higher risk of developing some asbestos-related diseases.

Asbestos-containing materials (ACM) do not always pose a hazard to occupants and workers in buildings that contain these materials. Intact, undisturbed ACMs generally do not pose a health risk. ACMs may become hazardous and pose an inhalation risk when they are damaged, disturbed in some manner, or deteriorate over time and asbestos fibers are released into building air.

ACM can be found in a multitude of building products which include decorative and acoustical plaster texture, fire-proofing (Monokote), joint compound, attic and wall insulation, resilient floor covering, mastic, recessed lighting fixtures, wiring, elevator brakes, fire doors, pipe insulation, pipe gaskets, duct insulation, duct tape, siding and roofing materials (tar/shingles), textured paint, stucco, concrete, asphalt underlayment (Petromat) and plaster.

Local jurisdictions have specific laws and regulations regarding asbestos and actions including building renovations and building demolition.

- Based on the age of the onsite structures, there is a potential for asbestos containing building materials (ACM) at the site, however, no testing was completed as part of this report. Potential ACM include drywall partitions, and mastic associated with roofing materials and floor tiles.

7.2 Lead-Based Paint

Although the use of lead-based paint in residential structures has been prohibited since 1978, it may still be used in commercial and industrial buildings. It is approximated that 80 percent of buildings built prior to 1978 contain lead paint. Even at low levels, lead poisoning can cause IQ deficiencies, reading and learning disabilities, impaired hearing, reduced attention spans, hyperactivity and other behavior problems with children under 6 years old being most at risk.

Lead is a highly toxic metal that was used for many years in products found in and around our homes and commercial buildings. Lead can be found in dust from friction surfaces of windows and doors that are painted with lead-based paint and from building components coated with lead-based paint that has begun peeling, flaking and chalking. There is also the potential for soil to have elevated lead levels due to leaching

from lead based paint on nearby structures and deposition of airborne lead when leaded fuel was in use prior to the 1976 ban and phase out.

Since the 1980's, lead has been phased out in gasoline, reduced in drinking water, reduced in industrial air pollution, and banned or has been limited in use in consumer products.

Between the local, State and Federal agencies, including the Environmental Protection Agency (EPA), Department of Housing and Urban Development (HUD), Occupational Safety & Health Administration (OSHA) and the California Department of Public Health (CDPH), each state has various action limits that have been enacted with the intent to prevent human exposure and contamination of the surrounding environment.

- Based on the age of the onsite structures, there is a potential for lead based paint (LBP) at the site. Painted surfaces were observed in moderate to poor condition during the site reconnaissance.

7.3 Radon

Radon is a radioactive gas that has been found in structures all over the United States. Radon is produced from the natural breakdown of uranium in soil, rock, and water. Radon typically moves up through the ground and into structures through cracks and other holes in the foundation. Movement of radon through the earth is strongly influenced by moisture content and permeability of soil, porosity, and degree of fracturing in rocks, as well as surface meteorological conditions. High levels of radon have been discovered in every state.

Radon cannot be seen, smelled, or tasted. Breathing air-containing radon may increase the risk of getting lung cancer. The Surgeon General of the United States has warned that radon is the second leading cause of lung cancer in the United States today after smoking.

Testing for the presence of radon is fairly inexpensive, simple and is the only way to be certain of the on-site concentrations. Various types of sampling methods exist to determine the concentration. On-site radon sampling was not performed during the completion of this assessment.

- Based on research by the United States Environmental Protection Agency (USEPA), the average radon concentrations for Los Angeles County are between 2.0 picocuries per liter (pCi/L) and 4.0 pCi/L, below the 4.0 pCi/L action level set by the USEPA; however, site specific radon levels vary greatly within the EPA radon zones and on-site radon measurements would need to be collected in order to determine the radon levels at the subject property.

7.4 Wetlands

According to the Clean Water Act, a wetland is “those areas that are inundated or saturated by surface or groundwater at a frequency and duration sufficient to support, and that under normal circumstances do support, a prevalence of vegetation typically adapted for life in saturated soil conditions.” Wetland areas have been identified as ecologically diverse and sensitive areas and are generally subject to more stringent development, re-development, and building regulations.

- The U.S. Fish and Wildlife Service National Wetlands Inventory was reviewed to determine if the subject property is situated within an identified wetland. According to the USFWS, the subject property is not located within a wetland area.

7.5 Mold

Mold and mildew are simple, microscopic organisms in the Fungi kingdom that can grow virtually anywhere if they have adequate moisture, nutrients, air and appropriate temperatures. Depending on the particular mold or fungus, growing colonies can be almost any color. Most household molds and fungi (mildews) are white, black, grey, or brown colored. Spores of dozens of kinds of mold and fungus (mildew) are present at all times in indoor and outdoor air. These spores can settle, germinate and grow wherever good growth conditions are found. They can grow on soil, plants, dead plant materials, foods, fabrics, paper, wood and many other materials found within buildings. Many molds are not harmful and actually have a beneficial role in the environment and in living systems. In soil, molds play a crucial part in decomposition of organic matter and in making nutrients available to plants.

When mold and fungi (mildews) growth occurs in buildings, it can be very destructive to the materials on which they grow and cause high levels of airborne mold spores and volatile organic compounds associated with the characteristic musty / moldy odor. They cause staining, decomposition (rotting of materials) and objectionable, musty odors. Where colonies are extensive they can also produce enough spores, and by-products to be harmful to health. Many of the by-products of mold and fungus (mildew) are irritating to skin, eyes and respiratory tracts. Some molds produce true allergic sensitization and allergic reactions in susceptible people. Some molds produce toxic by-products that could be harmful to skin, and poisonous if ingested or inhaled in quantity. Persons with compromised immune systems may even experience systemic fungal infections of the respiratory tract.

EFI Global, Inc. observed a limited amount of interior areas of the subject building(s) in order to identify the significant, visible presence of mold. This activity was not intended to discover all areas which may be affected by mold growth at the subject property. Potential areas of mold not observed as part of this limited assessment, include but are not limited to, pipe chases, HVAC systems and within enclosed wall and ceiling cavities that may be present in the subject property. A complete mold assessment, which may include various types of sampling, would be required to determine if mold levels within the subject building(s) are at levels acceptable by industry standards.

- EFI Global, Inc. did not observe visible or olfactory indications of the presence of mold, nor did EFI Global, Inc. observe obvious indications of significant water damage. No sampling was conducted as part of this assessment.

7.6 Methane Gas

In response to growing concern regarding methane intrusion into buildings and to the potential for methane build-up underneath buildings, certain municipalities have established methane requirements for structures based on the proximity to oil wells and landfills. If a subject property is located in the proximity of active or abandoned oil wells or landfills, methane mitigation devices installed prior to construction activities at a subject property may be necessary.

- The City of Los Angeles Department of Building and Safety methane zone data was reviewed to determine if the subject property is located in a methane or methane buffer zone. According to the information reviewed, the subject property is located within a methane zone. Therefore testing for the presence of methane and the installation of methane mitigation systems at the property prior to construction activities may be necessary (Division 71 of the Los Angeles Building Code).

8.0 FINDINGS

EFI Global, Inc. has performed a Phase I Environmental Site Assessment (Phase I) for Venice Hope Group, LLC (Client) for a industrial property located at 1611 South Hope Street, in Los Angeles County and the City of Los Angeles, California, Assessor's Parcel Number: 5134-008-006. The research conducted for this study and the report prepared are in conformance with the United States Environmental Protection Agency (USEPA) All Appropriate Inquiry (AAI) standard and the American Society for Testing and Materials (ASTM) E 1527-13 scope of work.

8.1 CONCLUSIONS

EFI Global, Inc. has performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Practice 1527-13, at 1611 South Hope Street, Los Angeles, California, the subject property. Any exceptions to or deletions from this practice are described in the individual sections of this report. This assessment has revealed no evidence of recognized environmental conditions or *de minimis* conditions in connection with the subject property, except for the following:

Recognized Environmental Condition (REC)

The former automotive repair operations at **1606 South Flower Street** represent a *REC.*

The former auto repair and auto body operations at **1616 South Flower Street** represent a *REC*.

The former auto repair operations at **1600 South Flower Street** and potential presence of a three-stage clarifier represent a REC.

The current metal fabrication activities and former auto electric services performed at **1625 South Hope Street** represent a REC.

The former industrial operations at **462 West Venice Boulevard** represent a REC.

Historical Recognized Environmental Condition (HREC)

In our opinion, no HRECs were identified during the course of this assessment.

Controlled Recognized Environmental Condition (CREC)

In our opinion, no CRECs were identified during the course of this assessment.

De Minimis Condition

In our opinion, no *de minimis* conditions were identified during the course of this assessment.

8.2 RECOMMENDATIONS

Based upon the foregoing, a Phase II Environmental Site Assessment is recommended.

9.0 SIGNATURES

I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. I have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

Prepared By: Date: September 22, 2017

Marcus Raymond
Project Manager

I declare that, to the best of my professional knowledge and belief, I meet the definition of Environmental Professional as defined in § 312.10 of 40 CFR 312. I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. I have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Federal CERCLIS list

SEMS: SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

A review of the SEMS list, as provided by EDR, and dated 02/07/2017 has revealed that there is 1 SEMS site within approximately 0.5 miles of the target property.

Equal/Higher Elevation	Address	Direction / Distance	Map ID	Page
DEMOCRATIC NATIONAL	1111 SOUTH FIGUEROA	N 1/4 - 1/2 (0.441 mi.)	AB139	174

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

A review of the SEMS-ARCHIVE list, as provided by EDR, and dated 02/07/2017 has revealed that there are 3 SEMS-ARCHIVE sites within approximately 0.5 miles of the target property.

Federal RCRA generators list

RCRA-LQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

A review of the RCRA-LQG list, as provided by EDR, and dated 12/12/2016 has revealed that there are 3

RCRA-LQG sites within approximately 0.25 miles of the target property.

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 12/12/2016 has revealed that there are 28 RCRA-SQG sites within approximately 0.25 miles of the target property.

State- and tribal - equivalent CERCLIS

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 07/31/2017 has revealed that there are 12 ENVIROSTOR sites within approximately 1 mile of the target property.

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 12/12/2016 has revealed that there are 2 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there are 36 EDR Hist Auto sites within approximately 0.125 miles of the target property.

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System
California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

File Location:	Regional Board
Potential Media Affected:	Indoor Air, Soil, Soil Vapor
Potential Contaminants of Concern:	Benzene, Other Chlorinated Hydrocarbons, Tetrachloroethylene (PCE), Toluene, Trichloroethylene (TCE), Xylene
Site History:	The subject site (Site) was a former machine shop, then used as a parking lot from the 1990s-2002. PCE was encountered in soil and soil gas mostly in area of the former machine shop, however lower concentrations of benzene, toluene, ethylbenzene, and xylenes were also detected at the Site. Soil excavation was completed at the Site in 2004 and a sub-slab vapor barrier and passive ventilation system were installed when the Site was redeveloped as Grand Avenue affordable housing in 2005-2006. The Site has completed 1 year of indoor air and sub-slab monitoring. The Site received a No Further Action letter on May 12, 2011. COCs: Primarily chlorinated solvents, minor BTEX Status: Soil excavation completed, sub-slab vapor barrier and passive vent sys installed, site completed 1 yr of indoor air and sub slab mon. Ready for Closure Review HHRA: Submitted and reviewed/approved by OEHHA Env Cov: No Env Just: No? Low income housing?

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System

ROYAL PLATING CO (Continued) **1000148255**

California Department of Toxic Substances Control EnviroStor System (DTSC-EnviroStor) is an online search and Geographic Information System (GIS) tool for identifying sites that have known contamination or sites for which there may be reasons to investigate further. The EnviroStor database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 04/05/2017

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Date of Government Version: 10/15/1991

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Federal Delisted NPL site list

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 04/05/2017

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 02/07/2017

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Federal RCRA generators list

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

RCRA-CESQG: RCRA - Conditionally Exempt Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

State- and tribal - equivalent CERCLIS

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

Data Release Frequency: Varies

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites
Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

Local Lists of Registered Storage Tanks

SWEEPS UST: SWEEPS UST Listing

Statewide Environmental Evaluation and Planning System. This underground storage tank listing was updated and maintained by a company contacted by the SWRCB in the early 1990's. The listing is no longer updated or maintained. The local agency is the contact for more information on a site on the SWEEPS list.

Date of Government Version: 06/01/1994
Date Data Arrived at EDR: 07/07/2005

DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

Other Ascertainable Records

RCRA NonGen / NLR: RCRA - Non Generators / No Longer Regulated

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing
A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historic Gas Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

EDR Hist Cleaner: EDR Exclusive Historic Dry Cleaners

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data
Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

East Map:	5630795 LOS ANGELES, CA
Version Date:	2012

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principal investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

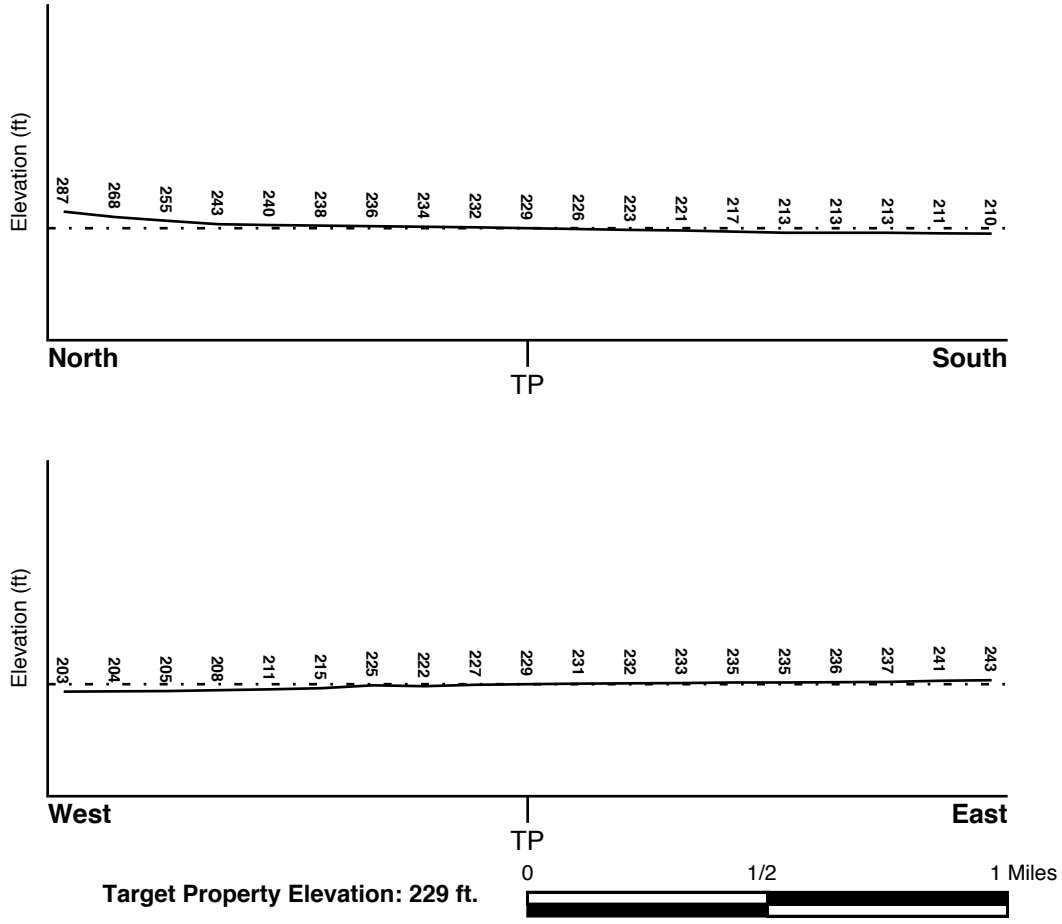

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General SW

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

Flood Plain Panel at Target Property	FEMA Source Type
06037C1620F	FEMA FIRM Flood data

Additional Panels in search area:	FEMA Source Type
Not Reported	

NATIONAL WETLAND INVENTORY

NWI Quad at Target Property	NWI Electronic Data Coverage
HOLLYWOOD	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Location Relative to TP:	1 - 2 Miles SE
Site Name:	SUNGRO CHEMICALS
Site EPA ID Number:	CAD009689696
Surficial Aquifer Flow Dir.:	Southeast
Inferred Depth to Water:	approximately 221 feet.
Hydraulic Connection:	A clay layer exists between the ground surface and the water table in the site vicinity.
Sole Source Aquifer:	No information about a sole source aquifer is available
Data Quality:	Information is inferred in the CERCLIS investigation report(s)

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

All of the information and opinions presented are those of the cited EPA report(s), which were completed under a Comprehensive Environmental Response Compensation and Liability Information System (CERCLIS) investigation.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

ROCK STRATIGRAPHIC UNIT

Era:	Cenozoic
System:	Quaternary
Series:	Quaternary
Code:	Q *(decoded above as Era, System & Series)*

GEOLOGIC AGE IDENTIFICATION

Category: Stratifed Sequence

Geologic Age and Rock Stratigraphic Unit Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - a digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps. The following information is based on Soil Conservation Service STATSGO data.

Soil Component Name: URBAN LAND

Soil Surface Texture: variable

Hydrologic Group: Not reported

Soil Drainage Class: Not reported

Hydric Status: Soil does not meet the requirements for a hydric soil.

Corrosion Potential - Uncoated Steel: Not Reported

Depth to Bedrock Min: > 10 inches

Depth to Bedrock Max: > 10 inches

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Layer Information							
	Boundary			Classification			
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil	Permeability Rate (in/hr)	Soil Reaction (pH)
1	0 inches	6 inches	variable	Not reported	Not reported	Max: 0.00 Min: 0.00	Max: 0.00 Min: 0.00

OTHER SOIL TYPES IN AREA

Based on Soil Conservation Service STATSGO data, the following additional subordinant soil types may appear within the general area of target property.

Soil Surface Textures:
sandy loam
gravelly - sandy loam
silt loam
clay
fine sand
gravelly - sand
sand
fine sandy loam

Surficial Soil Types:
sandy loam
gravelly - sandy loam
silt loam
clay
fine sand
gravelly - sand
sand
fine sandy loam

Shallow Soil Types:
fine sandy loam
gravelly - loam
sandy clay
sandy clay loam
clay
silty clay
sand

Deeper Soil Types:
gravelly - sandy loam
sandy loam
very gravelly - sandy loam
stratified
very fine sandy loam
weathered bedrock
sand
gravelly - fine sandy loam
silty clay loam
clay loam

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map
Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.
Source: FEMA
Telephone: 877-336-2627
Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory
Source: Department of Fish & Game
Telephone: 916-445-0411

HYDROGEOLOGIC INFORMATION

AQUIFLOW^{R} Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

STATE RECORDS

Water Well Database
Source: Department of Water Resources
Telephone: 916-651-9648

California Drinking Water Quality Database
Source: Department of Public Health
Telephone: 916-324-2319
The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

OTHER STATE DATABASE INFORMATION

California Oil and Gas Well Locations
Source: Department of Conservation

Area Radon Information
Source: USGS
Telephone: 703-356-4020
The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones
Source: EPA
Telephone: 703-356-4020
Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

OTHER

Airport Landing Facilities: Private and public use landing facilities
Source: Federal Aviation Administration, 800-457-6656

Epicenters: World earthquake epicenters, Richter 5 or greater
Source: Department of Commerce, National Oceanic and Atmospheric Administration

California Earthquake Fault Lines: The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines, prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by EFI Global Inc. were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1920 through 2014. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 332 feet of the target property.

A summary of the information obtained is provided in the text of this report.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

EDR Aerial Photo Decade Package

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

When delivered electronically by EDR, the aerial photo images included with this report are for ONE TIME USE ONLY. Further reproduction of these aerial photo images is prohibited without permission from EDR. For more information contact your EDR Account Executive.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

Disclaimer - Copyright and Trademark Notice

This Report contains certain information obtained from a variety of public and other sources reasonably available to Environmental Data Resources, Inc. It cannot be concluded from this Report that coverage information for the target and surrounding properties does not exist from other sources. **NO WARRANTY EXPRESSED OR IMPLIED, IS MADE WHATSOEVER IN CONNECTION WITH THIS REPORT. ENVIRONMENTAL DATA RESOURCES, INC. SPECIFICALLY DISCLAIMS THE MAKING OF ANY SUCH WARRANTIES, INCLUDING WITHOUT LIMITATION, MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE OR PURPOSE. ALL RISK IS ASSUMED BY THE USER. IN NO EVENT SHALL ENVIRONMENTAL DATA RESOURCES, INC. BE LIABLE TO ANYONE, WHETHER ARISING OUT OF ERRORS OR OMISSIONS, NEGLIGENCE, ACCIDENT OR ANY OTHER CAUSE, FOR ANY LOSS OF DAMAGE, INCLUDING, WITHOUT LIMITATION, SPECIAL, INCIDENTAL, CONSEQUENTIAL, OR EXEMPLARY DAMAGES. ANY LIABILITY ON THE PART OF ENVIRONMENTAL DATA RESOURCES, INC. IS STRICTLY LIMITED TO A REFUND OF THE AMOUNT PAID FOR THIS REPORT.** Purchaser accepts this Report AS IS. Any analyses, estimates, ratings, environmental risk levels or risk codes provided in this Report are provided for illustrative purposes only, and are not intended to provide, nor should they be interpreted as providing any facts regarding, or prediction or forecast of, any environmental risk for any property. Only a Phase I Environmental Site Assessment performed by an environmental professional can provide information regarding the environmental risk for any property. Additionally, the information provided in this Report is not to be construed as legal advice.

Application for the Erection of Frame Building

CLASS "D" — Brick

To the Board of Public Works of the City of Los Angeles:

Application is hereby made to the Board of Public Works of the City of Los Angeles, through the office of the Chief Inspector of Buildings, for a building permit in accordance with the description and for the purpose hereinafter set forth. This application is made subject to the following conditions, which are hereby agreed to by the undersigned applicant and which shall be deemed conditions entering into the exercise of the permit:

First: That the permit does not grant any right or privilege to erect any building or other structure therein described, or any portion thereof, upon any street, alley, or other public place or portion thereof.

Second: That the permit does not grant any right or privilege to use any building or other structure therein described, or any portion thereof, for any purpose that is, or may hereafter be prohibited by ordinance of the City of Los Angeles.

Third: That the granting of the permit does not affect or prejudice any claim of title to, or right of possession in, the property described in such permit.

NOTE---Answer the Following Questions For Dwellings and Flats Only:---

STATE DWELLING HOUSE ACT

14. Are there any living rooms in basement?.....

15. What is least area of any room, other than kitchens, bathrooms, or closets?.....

16. What is the least width of any room, other than kitchens, bathrooms, or closets?.....

17. What is the minimum ceiling height?.....

18. Give least size of window courts (width and length).....

A window court is the unoccupied ground area, in front of any and all windows, as required by the State Law, and such area must be entirely open and uncovered, and be at least 4 feet in width, and at least 36 sq. ft. in area. Eaves or cornices may project into such window courts not to exceed 8 inches; if a greater projection is desired, window court must be increased in width as much as eaves.

19. Give maximum cornice projection into such court.....

20. Will windows in each room be equal to one-eighth (1/8) of floor area?.....

21. Give maximum width of porch to edge of cornice or eaves.....

22. What is the minimum height of floor joists above ground?.....

23. Will entire space underneath building be enclosed and be provided with ventilating screens?.....

24. Will a water-closet be provided for each family?.....

25. Give least width of water-closet compartment or room, when finished.....

26. Give size of windows for toilet and bathrooms.....

27. Will all provisions of State Dwelling House Act be complied with?.....

I have carefully examined and read the above blank and know the same is true and correct, and that all provisions of the Ordinances and Laws governing Building Construction will be complied with, whether herein specified or not.

DECLARATIONS AND CERTIFICATIONS

LICENSED CONTRACTORS DECLARATION

16. I hereby affirm that I am licensed under the provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect.
Date 12-1-87 Lic. Class B Lic. Number 469262 Contractor _____ (Signature)

OWNER-BUILDER DECLARATION

17. I hereby affirm that I am exempt from the Contractor's License Law for the following reason (Sec. 7031.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he is licensed pursuant to the provisions of the Contractor's License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500).):

☐ I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or through his own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale.).

☐ I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractor's License Law.).

☐ I am exempt under Sec. _____ B. & P. C. for this reason _____

DECLARATIONS AND CERTIFICATIONS

LICENSED CONTRACTORS DECLARATION

16. I hereby affirm that I am licensed under the provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect.

Date 1-18-88 Lic. Class A Lic. Number 489782 Contractor (Signature)

OWNER-BUILDER DECLARATION

17. I hereby affirm that I am exempt from the Contractor's License Law for the following reason (Sec. 7031.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he is licensed pursuant to the provisions of the Contractor's License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500).):

☐ I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or through his own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale.).

☐ I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractor's License Law.).

☐ I am exempt under Sec. _____ B. & P. C. for this reason _____

2 Application for the Erection of Frame Building

CLASS "D"

To the Board of Public Works of the City of Los Angeles:

Application is hereby made to the Board of Public Works of the City of Los Angeles, through the office of the Chief Inspector of Buildings, for a building permit in accordance with the description and for the purpose hereinafter set forth. This application is made subject to the following conditions, which are hereby agreed to by the undersigned applicant and which shall be deemed conditions entering into the exercise of the permit:

First: That the permit does not grant any right or privilege to erect any building or other structure therein described, or any portion thereof, upon any street, alley, or other public place or portion thereof.

Second: That the permit does not grant any right or privilege to use any building or other structure therein described, or any portion thereof, for any purpose that is, or may hereafter be, prohibited by ordinance of the City of Los Angeles.

Third: That the granting of the permit does not affect or prejudice any claim of title to, or right of possession in, the property described in such permit.

DEPARTMENT OF BUILDING AND SAFETY

Application to Alter, Repair or Demolish

To the Board of Building and Safety Commissioners of the City of Los Angeles:

Application is hereby made to the Board of Building and Safety Commissioners of the City of Los Angeles, through the office of the Superintendent of Building, for a building permit in accordance with the description and for the purpose hereinafter set forth. This application is made subject to the following conditions, which are hereby agreed to by the undersigned applicant and which shall be deemed conditions entering into the exercise of the permit:

First: That the permit does not grant any right or privilege to erect any building or other structure therein described, or any portion thereof, upon any street, alley, or other public place or portion thereof.

Second: That the permit does not grant any right or privilege to use any building or other structure therein described, or any portion thereof, for any purpose that is, or may hereafter be prohibited by ordinance of the City of Los Angeles.

Third: That the granting of the permit does not affect or prejudice any claim of title to, or right of possession in, the property described in such permit.

CITY OF LOS ANGELES

DEPARTMENT OF BUILDING AND SAFETY

BUILDING DIVISION

Application to Alter, Repair, Move or Demolish

To the Board of Building and Safety Commissioners of the City of Los Angeles:

Application is hereby made to the Board of Building and Safety Commissioners of the City of Los Angeles, through the office of the Superintendent of Building, for a building permit in accordance with the description and for the purpose hereinafter set forth. This application is made subject to the following conditions, which are hereby agreed to by the undersigned applicant and which shall be deemed conditions entering into the exercise of the permit:

First: That the permit does not grant any right or privilege to erect any building or other structure therein described, or any portion thereof, upon any street, alley or other public place or portion thereof.

Second: That the permit does not grant any right or privilege to use any building or other structure therein described, or any portion thereof, for any purpose that is, or may hereafter be prohibited by ordinance of the City of Los Angeles.

Third: That the granting of the permit does not affect or prejudice any claim of title to, or right of possession in, the property described in such permit.

DECLARATIONS AND CERTIFICATIONS

LICENSED CONTRACTORS DECLARATION

16. I hereby affirm that I am licensed under the provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect.

Date _____ Lic. Class _____ Lic. Number _____ Contractor _____ (Signature)

OWNER-BUILDER DECLARATION

17. I hereby affirm that I am exempt from the Contractor's License Law for the following reason (Sec. 7031.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he is licensed pursuant to the provisions of the Contractor's License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500).):

☐ I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or through his own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale.).

☐ I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractor's License Law.).

☐ I am exempt under Sec. _____, B. & P. C. for this reason _____

Date _____ Owner's Signature X Harry Okey by FD

WORKERS' COMPENSATION DECLARATION

18. I hereby affirm that I have a certificate of consent to self-insure, or a certificate of Worker's Compensation Insurance, or a certified copy thereof (Sec. 3800, Lab. C.).

Application to Alter, Repair, Move or Demolish

To the Board of Building and Safety Commissioners of the City of Los Angeles

Application is hereby made to the Board of Building and Safety Commissioners of the City of Los Angeles through the office of the Superintendent of Building for a building permit in accordance with the description and for the purpose hereinafter set forth. This application is made subject to the following conditions which are hereby agreed to by the undersigned applicant and which shall be deemed conditions entering into the exercise of the permit.

First: That the permit does not grant any right or privilege to erect any building or other structure therein described, or any portion thereof upon any street, alley or other public place or portion thereof.

Second: That the permit does not grant any right or privilege to use any building or other structure therein described, or any portion thereof, for any purpose that is, or may hereafter be prohibited by ordinance of the City of Los Angeles.

Third: That the granting of the permit does not affect or prejudice any claim of title to, or right of possession in, the property described in such permit.

CITY OF LOS ANGELES

DEPARTMENT OF BUILDING AND SAFETY

BUILDING DIVISION

Application to Alter, Repair or Demolish

To the Board of Building and Safety Commissioners of the City of Los Angeles:

Application is hereby made to the Board of Building and Safety Commissioners of the City of Los Angeles, through the office of the Superintendent of Building, for a building permit in accordance with the description and for the purpose hereinafter set forth. This application is made subject to the following conditions, which are hereby agreed to by the undersigned applicant and which shall be deemed conditions entering into the exercise of the permit:

First: That the permit does not grant any right or privilege to erect any building or other structure therein described, or any portion thereof, upon any street, alley, or other public place or portion thereof.

Second: That the permit does not grant any right or privilege to use any building or other structure therein described, or any portion thereof, for any purpose that is, or may hereafter be prohibited by ordinances of the City of Los Angeles.

Third: That the granting of the permit does not affect or prejudice any claim of title to, or right of possession in, the property described in such permit.

LICENSED CONTRACTORS DECLARATION

16. I hereby affirm that I am licensed under the provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect.

Date _____ Lic. Class N/A Lic. Number _____ Contractor _____ (Signature)

OWNER-BUILDER DECLARATION

17. I hereby affirm that I am exempt from the Contractor's License Law for the following reason (Sec. 7031.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he is licensed pursuant to the provisions of the Contractor's License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500).):

☐ I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or through his own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale.).

☐ I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractor's License Law.).

☐ I am exempt under Sec. _____, B. & P. C. for this reason _____

DEPARTMENT OF BUILDINGS

Application to Alter, Repair or Demolish

To the Board of Public Works of the City of Los Angeles:

Application is hereby made to the Board of Public Works of the City of Los Angeles, through the office of the Chief Inspector of Buildings, for a building permit in accordance with the description and for the purpose hereinafter set forth. This application is made subject to the following conditions, which are hereby agreed to by the undersigned applicant and which shall be deemed conditions entering into the exercise of the permit:

First: That the permit does not grant any right or privilege to erect any building or other structure therein described, or any portion thereof, upon any street, alley, or other public place or portion thereof.

Second: That the permit does not grant any right or privilege to use any building or other structure therein described, or any portion thereof, for any purpose that is, or may hereafter be prohibited by ordinance of the City of Los Angeles.

Third: That the granting of the permit does not affect or prejudice any claim of title to, or right of possession in, the property described in such permit.

Application to Alter, Repair or Demolish

To the Board of Public Works of the City of Los Angeles:

Application is hereby made to the Board of Public Works of the City of Los Angeles, through the office of the Chief Inspector of Buildings, for a building permit in accordance with the description and for the purpose hereinafter set forth. This application is made subject to the following conditions, which are hereby agreed to by the undersigned applicant and which shall be deemed conditions entering into the exercise of the permit:

First: That the permit does not grant any right or privilege to erect any building or other structure therein described, or any portion thereof, upon any street, alley, or other public place or portion thereof.

Second: That the permit does not grant any right or privilege to use any building or other structure therein described, or any portion thereof, for any purpose that is, or may hereafter be, prohibited by ordinance of the City of Los Angeles.

Third: That the granting of the permit does not affect or prejudice any claim of title to, or right of possession in, the property described in such permit.

Application to Alter, Repair or Demolish

Application is hereby made to the Board of Public Works (Chief Inspector of Buildings), of the City of Los Angeles, for the approval of this detailed statement of specifications herewith submitted for the alteration, repair or demolition of the building herein described. All provisions of the building ordinances and state laws shall be complied with in the alteration of said building, whether herein specified or not. It is also understood the granting of a permit on this application does not grant any right or privilege for the alteration, repair or demolition of the building herein described, on any public street or alley or on any land or portion thereof, the title or right of possession to which is in litigation by, or is disputed by the City, County or State; or as giving or granting any right or privilege to use the said structure or building for any purpose which is, or may hereafter be prohibited by ordinance of the City of Los Angeles.

BUILDING DIVISION

Application to Alter, Repair or Demolish

To the Board of Building and Safety Commissioners of the City of Los Angeles:

Application is hereby made to the Board of Building and Safety Commissioners of the City of Los Angeles, through the office of the Superintendent of Building, for a building permit in accordance with the description and for the purpose hereinafter set forth. This application is made subject to the following conditions, which are hereby agreed to by the undersigned applicant and which shall be deemed conditions entering into the exercise of the permit:

First: That the permit does not grant any right or privilege to erect any building or other structure therein described, or any portion thereof, upon any street, alley, or other public place or portion thereof.

Second: That the permit does not grant any right or privilege to use any building or other structure therein described, or any portion thereof, for any purpose that is, or may hereafter be prohibited by ordinance of the City of Los Angeles.

Third: That the granting of the permit does not affect or prejudice any claim of title to, or right of possession in, the property described in such permit.

DECLARATIONS AND CERTIFICATIONS

LICENSED CONTRACTORS DECLARATION

16. I hereby affirm that I am licensed under the provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect.

Date 8/31/84 Lic. Class B-1 Lic. Number 451306 Contractor [signature] (Signature)

OWNER-BUILDER DECLARATION

17. I hereby affirm that I am exempt from the Contractor's License Law for the following reason (Sec. 7031.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he is licensed pursuant to the provisions of the Contractor's License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500).):

☐ I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or through his own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale.).

☐ I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractor's License Law.).

☐ I am exempt under Sec. _____, B. & P. C. for this reason _____

Date _____ Owner's Signature _____

WORKERS' COMPENSATION DECLARATION

18. I hereby affirm that I have a certificate of consent to self-insure, or a certificate of Worker's Compensation Insurance, or a certified copy thereof (Sec. 3800, Lab. C.).

BOARD OF PUBLIC WORKS

DEPARTMENT OF BUILDINGS

Application to Alter, Repair or Demolish

To the Board of Public Works of the City of Los Angeles:

Application is hereby made to the Board of Public Works of the City of Los Angeles, through the office of the Chief Inspector of Buildings, for a building permit in accordance with the description and for the purpose hereinafter set forth. This application is made subject to the following conditions, which are hereby agreed to by the undersigned applicant and which shall be deemed conditions entering into the exercise of the permit:

First: That the permit does not grant any right or privilege to erect any building or other structure therein described, or any portion thereof, upon any street, alley, or other public place or portion thereof.

Second: That the permit does not grant any right or privilege to use any building or other structure therein described, or any portion thereof, for any purpose that is, or may hereafter be prohibited by ordinance of the City of Los Angeles.

Third: That the granting of the permit does not affect or prejudice any claim of title to, or right of possession in, the property described in such permit.

BUILDING DIVISION

Application to Alter, Repair, Move or Demolish

To the Board of Building and Safety Commissioners of the City of Los Angeles:

Application is hereby made to the Board of Building and Safety Commissioners of the City of Los Angeles, through the office of the Superintendent of Building, for a building permit in accordance with the description and for the purpose hereinafter set forth. This application is made subject to the following conditions, which are hereby agreed to by the undersigned applicant and which shall be deemed conditions entering into the exercise of the permit:

First: That the permit does not grant any right or privilege to erect any building or other structure therein described, or any portion thereof, upon any street, alley or other public place or portion thereof.

Second: That the permit does not grant any right or privilege to use any building or other structure therein described, or any portion thereof, for any purpose that is, or may hereafter be prohibited by ordinance of the City of Los Angeles.

Third: That the granting of the permit does not affect or prejudice any claim of title to, or right of possession in, the property described in such permit.

CITY OF LOS ANGELES
DEPARTMENT OF BUILDING AND SAFETY
BUILDING DIVISION
Application to Alter, Repair, Move or Demolish

To the Board of Building and Safety Commissioners of the City of Los Angeles:

Application is hereby made to the Board of Building and Safety Commissioners of the City of Los Angeles, through the office of the Superintendent of Building, for a building permit in accordance with the description and for the purpose hereinafter set forth. This application is made subject to the following conditions, which are hereby agreed to by the undersigned applicant and which shall be deemed conditions entering into the exercise of the permit:

First: That the permit does not grant any right or privilege to erect any building or other structure therein described, or any portion thereof, upon any street, alley or other public place or portion thereof.

Second: That the permit does not grant any right or privilege to use any building or other structure therein described, or any portion thereof, for any purpose that is, or may hereafter be prohibited by ordinance of the City of Los Angeles.

Third: That the granting of the permit does not affect or prejudice any claim of title to, or right of possession in, the property described in such permit.

Application to Alter, Repair or Demolish

To the Board of Public Works of the City of Los Angeles:

Application is hereby made to the Board of Public Works of the City of Los Angeles, through the office of the Chief Inspector of Buildings, for a building permit in accordance with the description and for the purpose hereinafter set forth. This application is made subject to the following conditions, which are hereby agreed to by the undersigned applicant and which shall be deemed conditions entering into the exercise of the permit:

First: That the permit does not grant any right or privilege to erect any building or other structure therein described, or any portion thereof, upon any street, alley, or other public place or portion thereof.

Second: That the permit does not grant any right or privilege to use any building or other structure therein described, or any portion thereof, for any purpose that is, or may hereafter be prohibited by ordinance of the City of Los Angeles.

Third: That the granting of the permit does not affect or prejudice any claim of title to, or right of possession in, the property described in such permit.

Public Record Request Nbr

Public Record Request Tracking Nbr
94461

Attention Requestor

Please fill out this form completely. You may include an attachment to the form, if necessary.

Requestor Information

Requestor Name
Marcus Raymond (9836002713)

Requestor Address
5261 West Imperial Highway

Requestor Company
EFI Global

Requestor City
Los Angeles

Requestor Email *
MARCUS_RAYMOND@EFIGLOBAL.COM

Requestor State
CA

Requestor Phone
(310)854-6300

Requestor Zip Code
90045

Type of Requested Record(s).

REQUESTED RECORDS. **Please be as specific as possible in describing the records you are seeking.** The more specific you are, the easier it will be to determine if such records exist in District files. Please contact the Public Records Unit if you need assistance in identifying District records.

Note: Permits to Operate, Equipment Lists, Notices of Violation, Notices to Comply, and Emissions Summaries are available through SCAQMD's FIND page at http://www3.aqmd.gov/webappl/fim/prog/search.aspx (you need to copy and paste this link into your browser).

Please Enter a description of the records you are requesting here: *
We are requesting any information from your departments pertaining to air emissions, including permits to operate, equipment lists and notices of violation.

Time Period of Documents Requested

Start Date* 1/1/1900

End Date* 8/31/2017

Requested Facility or Site Information (if applicable)

Note: You may only include one Facility or Site per Form.

Facility ID (if known)

Facility Name (if known)

Address 1601-1623 (odd) S. Hope Street

City Los Angeles

Zip Code 90015

Requested Application or Permit List. (if applicable)

Please click the Add Button to the right to enter a Application/Permit Number

INSTRUCTIONS FOR REQUESTING RECORDS

(California Public Records Act, Govt. Code Sections 6250-6276.48)

1. In order to expedite your request, please fill out the form completely. Requests may also be submitted by phone at (909) 396-3700, by facsimile to (909) 396-3330, or by email to PublicRecordsRequests@aqmd.gov.

2. Requests must be for records prepared, owned, used, or retained by the District (Gov. Code Sec. 6252(e)). Requests should be for clearly identifiable records. The District is not required to create a new record in response to a request. The District will assist the requestor in making a request that describes reasonably identifiable records (Gov. Code Sec. 6253.1). Documents will not be provided if disclosure would infringe upon a copyright, trade secret, or is otherwise exempt in accordance with state law.

3. A search for facility records can only be conducted by one or all of the following:

-- a) Facility Name, Address, or Identification Number

-- b) Facility Application Number, or Permit to Operate Number; or

-- c) Facility Notice of Violation/Notice to Comply Number.

4. You will be notified within ten (10) days whether your request seeks copies of disclosable public records prepared, owned, used, or retained by this agency. In some cases, the District may need an additional 14 days to respond. If so, you will be notified in writing. You will also be provided an estimated date of when the records will be made available.

5. Communications regarding your request, and any records, will be provided by email, unless specified otherwise.

6. If the search for records finds the records voluminous, you will be notified of the approximate number of pages and/or length of time it will take to process your request.

7. If the records you requested have been marked confidential by the source of the record, you will be notified and given the option of continuing with the District's Trade Secret process.

8. If your request is to review records, rather than receive copies, the District will notify you once the records are gathered, and arrangements will be made for your review.

9. The charge for the direct cost of duplication is as follows: Paper Copies, $0.15/page each over 10 pages (first 10 pages are free); Copied CD's or flash drives, no charge; and Copied Audio Tapes, $5.00 each. After a preliminary estimate, advance payment may be required.

10. If the request is for information in an electronic format, the requestor shall bear the cost of producing a copy of the record, including the cost to construct the record and the cost of programming and computer services necessary to produce a copy of the record, when either of the following applies: (1) the District would be required to produce a copy of an electronic record and the record is one that is produced only at otherwise regularly scheduled intervals, or (2) the request would require data compilation, extraction, or programming to produce the record. (Gov. Code Sec. 6253.9(b)). The transfer of gathered electronic records onto CD, DVD or flash drive typically costs $10.00 each. An invoice will accompany your records when completed.

Note: For further information, please refer to the District's Guidelines for Implementing the California Public Records Act. The Guidelines are available in the lobby of the District Headquarters or on the District's web site at www.aqmd.gov.

Note: If you have questions pertaining to the submittal of a Public Records Act request, you may contact the Public Records Unit, (909) 396-3700, Tuesday through Friday, 7:00 a.m. to 5:30 p.m. Our Fax number is (909) 396-3330. Our email address is PublicRecordsRequests@aqmd.gov.

INSTRUCTIONS FOR REQUESTING RECORDS

(California Public Records Act, Govt. Code Sections 6250-6276.48)

1. In order to expedite your request, please fill out the form completely. Requests may also be submitted by phone at (909) 396-3700, by facsimile to (909) 396-3330, or by email to PublicRecordsRequests@aqmd.gov.

2. Requests must be for records prepared, owned, used, or retained by the District (Gov. Code Sec. 6252(e)). Requests should be for clearly identifiable records. The District is not required to create a new record in response to a request. The District will assist the requestor in making a request that describes reasonably identifiable records (Gov. Code Sec. 6253.1). Documents will not be provided if disclosure would infringe upon a copyright, trade secret, or is otherwise exempt in accordance with state law.

3. A search for facility records can only be conducted by one or all of the following:

-- a) Facility Name, Address, or Identification Number

-- b) Facility Application Number, or Permit to Operate Number; or

-- c) Facility Notice of Violation/Notice to Comply Number.

4. You will be notified within ten (10) days whether your request seeks copies of disclosable public records prepared, owned, used, or retained by this agency. In some cases, the District may need an additional 14 days to respond. If so, you will be notified in writing. You will also be provided an estimated date of when the records will be made available.

5. Communications regarding your request, and any records, will be provided by email, unless specified otherwise.

6. If the search for records finds the records voluminous, you will be notified of the approximate number of pages and/or length of time it will take to process your request.

7. If the records you requested have been marked confidential by the source of the record, you will be notified and given the option of continuing with the District's Trade Secret process.

8. If your request is to review records, rather than receive copies, the District will notify you once the records are gathered, and arrangements will be made for your review.

9. The charge for the direct cost of duplication is as follows: Paper Copies, $0.15/page each over 10 pages (first 10 pages are free); Copied CD's or flash drives, no charge; and Copied Audio Tapes, $5.00 each. After a preliminary estimate, advance payment may be required.

10. If the request is for information in an electronic format, the requestor shall bear the cost of producing a copy of the record, including the cost to construct the record and the cost of programming and computer services necessary to produce a copy of the record, when either of the following applies: (1) the District would be required to produce a copy of an electronic record and the record is one that is produced only at otherwise regularly scheduled intervals, or (2) the request would require data compilation, extraction, or programming to produce the record. (Gov. Code Sec. 6253.9(b)). The transfer of gathered electronic records onto CD, DVD or flash drive typically costs $10.00 each. An invoice will accompany your records when completed.

Note: For further information, please refer to the District's Guidelines for Implementing the California Public Records Act. The Guidelines are available in the lobby of the District Headquarters or on the District's web site at www.aqmd.gov.

Note: If you have questions pertaining to the submittal of a Public Records Act request, you may contact the Public Records Unit, (909) 396-3700, Tuesday through Friday, 7:00 a.m. to 5:30 p.m. Our Fax number is (909) 396-3330. Our email address is PublicRecordsRequests@aqmd.gov.

INSTRUCTIONS FOR REQUESTING RECORDS

(California Public Records Act, Govt. Code Sections 6250-6276.48)

1. In order to expedite your request, please fill out the form completely. Requests may also be submitted by phone at (909) 396-3700, by facsimile to (909) 396-3330, or by email to PublicRecordsRequests@aqmd.gov.

2. Requests must be for records prepared, owned, used, or retained by the District (Gov. Code Sec. 6252(e)). Requests should be for clearly identifiable records. The District is not required to create a new record in response to a request. The District will assist the requestor in making a request that describes reasonably identifiable records (Gov. Code Sec. 6253.1). Documents will not be provided if disclosure would infringe upon a copyright, trade secret, or is otherwise exempt in accordance with state law.

3. A search for facility records can only be conducted by one or all of the following:

-- a) Facility Name, Address, or Identification Number

-- b) Facility Application Number, or Permit to Operate Number; or

-- c) Facility Notice of Violation/Notice to Comply Number.

4. You will be notified within ten (10) days whether your request seeks copies of disclosable public records prepared, owned, used, or retained by this agency. In some cases, the District may need an additional 14 days to respond. If so, you will be notified in writing. You will also be provided an estimated date of when the records will be made available.

5. Communications regarding your request, and any records, will be provided by email, unless specified otherwise.

6. If the search for records finds the records voluminous, you will be notified of the approximate number of pages and/or length of time it will take to process your request.

7. If the records you requested have been marked confidential by the source of the record, you will be notified and given the option of continuing with the District's Trade Secret process.

8. If your request is to review records, rather than receive copies, the District will notify you once the records are gathered, and arrangements will be made for your review.

9. The charge for the direct cost of duplication is as follows: Paper Copies, $0.15/page each over 10 pages (first 10 pages are free); Copied CD's or flash drives, no charge; and Copied Audio Tapes, $5.00 each. After a preliminary estimate, advance payment may be required.

10. If the request is for information in an electronic format, the requestor shall bear the cost of producing a copy of the record, including the cost to construct the record and the cost of programming and computer services necessary to produce a copy of the record, when either of the following applies: (1) the District would be required to produce a copy of an electronic record and the record is one that is produced only at otherwise regularly scheduled intervals, or (2) the request would require data compilation, extraction, or programming to produce the record. (Gov. Code Sec. 6253.9(b)). The transfer of gathered electronic records onto CD, DVD or flash drive typically costs $10.00 each. An invoice will accompany your records when completed.

Note: For further information, please refer to the District's Guidelines for Implementing the California Public Records Act. The Guidelines are available in the lobby of the District Headquarters or on the District's web site at www.aqmd.gov.

Note: If you have questions pertaining to the submittal of a Public Records Act request, you may contact the Public Records Unit, (909) 396-3700, Tuesday through Friday, 7:00 a.m. to 5:30 p.m. Our Fax number is (909) 396-3330. Our email address is PublicRecordsRequests@aqmd.gov.

INSTRUCTIONS FOR REQUESTING RECORDS

(California Public Records Act, Govt. Code Sections 6250-6276.48)

1. In order to expedite your request, please fill out the form completely. Requests may also be submitted by phone at (909) 396-3700, by facsimile to (909) 396-3330, or by email to PublicRecordsRequests@aqmd.gov.

2. Requests must be for records prepared, owned, used, or retained by the District (Gov. Code Sec. 6252(e)). Requests should be for clearly identifiable records. The District is not required to create a new record in response to a request. The District will assist the requestor in making a request that describes reasonably identifiable records (Gov. Code Sec. 6253.1). Documents will not be provided if disclosure would infringe upon a copyright, trade secret, or is otherwise exempt in accordance with state law.

3. A search for facility records can only be conducted by one or all of the following:

-- a) Facility Name, Address, or Identification Number

-- b) Facility Application Number, or Permit to Operate Number; or

-- c) Facility Notice of Violation/Notice to Comply Number.

4. You will be notified within ten (10) days whether your request seeks copies of disclosable public records prepared, owned, used, or retained by this agency. In some cases, the District may need an additional 14 days to respond. If so, you will be notified in writing. You will also be provided an estimated date of when the records will be made available.

5. Communications regarding your request, and any records, will be provided by email, unless specified otherwise.

6. If the search for records finds the records voluminous, you will be notified of the approximate number of pages and/or length of time it will take to process your request.

7. If the records you requested have been marked confidential by the source of the record, you will be notified and given the option of continuing with the District's Trade Secret process.

8. If your request is to review records, rather than receive copies, the District will notify you once the records are gathered, and arrangements will be made for your review.

9. The charge for the direct cost of duplication is as follows: Paper Copies, $0.15/page each over 10 pages (first 10 pages are free); Copied CD's or flash drives, no charge; and Copied Audio Tapes, $5.00 each. After a preliminary estimate, advance payment may be required.

10. If the request is for information in an electronic format, the requestor shall bear the cost of producing a copy of the record, including the cost to construct the record and the cost of programming and computer services necessary to produce a copy of the record, when either of the following applies: (1) the District would be required to produce a copy of an electronic record and the record is one that is produced only at otherwise regularly scheduled intervals, or (2) the request would require data compilation, extraction, or programming to produce the record. (Gov. Code Sec. 6253.9(b)). The transfer of gathered electronic records onto CD, DVD or flash drive typically costs $10.00 each. An invoice will accompany your records when completed.

Note: For further information, please refer to the District's Guidelines for Implementing the California Public Records Act. The Guidelines are available in the lobby of the District Headquarters or on the District's web site at www.aqmd.gov.

Note: If you have questions pertaining to the submittal of a Public Records Act request, you may contact the Public Records Unit, (909) 396-3700, Tuesday through Friday, 7:00 a.m. to 5:30 p.m. Our Fax number is (909) 396-3330. Our email address is PublicRecordsRequests@aqmd.gov.

☐ **Urgent** ☐ **For Review** ☐ **Please Comment** X **Please Reply** ☐ **For Information**

In preparation for a Phase I Environmental Site Assessment, I would like to request available records pertaining to industrial wastewater discharge, clarifiers, storm water/waste water, and inspection records for the following address:

1625 South Hope Street, Los Angeles CA 90015

If permits are found for the aforementioned property, please fax the information to us, otherwise standard mailing is sufficient. We understand that a fax fee will be accrued for faxing the information.

Thank you.

Sincerely,

Marcus Raymond

VARIOUS SITES
PR3-083117-03

Dear Mr. Raymond:

We have received your Public Records Act Request for records from the Department of Toxic Substances Control. After a thorough review of our files we have found that no such records exist at this office pertaining to the sites/facilities referenced below.

- 1601-1623 (odd) S. Hope Street, Los Angeles, CA 90015
- 1600-1618 (even) S. Flower Street, Los Angeles, CA 90015
- 426-440 (even) W. Venice Blvd., Los Angeles, CA 90015

We would like to inform you about EnviroStor, a database that provides information and documents on over 5,000 DTSC cleanup sites. EnviroStor can be accessed at: http://www.envirostor.dtsc.ca.gov/public. Also, a computer is available in the Central Files of each DTSC Regional Office for use by community members to view EnviroStor.

If you have any questions or would like further information regarding your request, please contact me at (818) 717-6521.

Sincerely,

Robert Hardison

The Department of Toxics Substances Control (DTSC) takes every precaution to ensure the accuracy of data in the Hazardous Waste Tracking System (HWTS). However, because of the large number of manifests handled, inaccuracies in the submitted data, limitations of the manifest system and the technical limitations of the database, DTSC cannot guarantee that the data accurately reflect what was actually transported or produced.

INDUSTRIAL WASTEWATER DISCHARGE PERMIT INFORMATION

Your request to research our files for Industrial Wastewater Discharge permit information was done by my staff. Our records show the following findings:

[X] No permit on file for: **1601-1623 (odd) S. Hope Street, Los Angeles, CA 90015**
1602-1618 (even) S. Flower St, Los Angeles, CA 90015
426-440 (even) W. Venice Blvd, Los Angeles, CA 90015

[X] Permits have been issued for: **1600 S. Flower St, Los Angeles, CA 90015**

$7.00 fax fee has been added.
(see attachments)

[X] No citations have been issued for the past 5 years. [ ] Yes, citations have been issued (see attachments).

The cost of generating this report is $ **$8.20**

Please remit a check in the above amount, payable to "Department of Public Works", and mail to:

Bureau of Sanitation
Industrial Waste Management Division
2714 Media Center Drive
Los Angeles, CA 90065
Attn: Admin Inspection Group

If you have any questions, please contact Rosemary Cubero of my staff at (323) 342-6064.

Sincerely,
ENRIQUE C. ZALDIVAR, Director
Bureau of Sanitation

APPLICATION FOR INDUSTRIAL WASTE PERMIT
(Submit in duplicate)

W-22288

(X) New ( ) Revision or Addition ( ) Chg of Ownership

1. Firm Name: Electric Equipment Co. 2. Type of Business: Building & Repair of Auto Brake units

3. Installation Address: 1600 So. Flower St. (Number & St.) LA (Zone) RI 96331 (Phone)

4. Mailing Address: 1611 So. Hope St. (Number & St.) LA (City) 15 (Zone) Los Angeles (State) Calif

5. Processes discharging liquid wastes to sewerage system: Equipment cleaning of the brake parts

6. Chemical and physical characteristics of above waste discharge: Caustic water

7. Name of Applicant or Representative of Firm: Ed Weiss (Printed) Title Gen. Mgr.

Signature: Ed Weiss Date 9/27/61

DO NOT WRITE BELOW THIS LINE -- FOR OFFICE USE ONLY

8. Discharge will be to (X) Sewer ( ) Storm Drain ( ) Other ( ) Garbage Grinder

Size and Location: 8" clay pipe sewer in that St.

9. Flow Characteristics: Max Flow 10 gpm; Total Flow 500 gpd

10. Required Treatment: Clarification

11. Required Treatment Facility: 3-Compartment 9'x3'x3' bi clarifier

Make Model
Seating Capacity
Meals Served
Garbage Gallons
Grease Trap ( ) Yes ( ) No

12. Additional Information: Will have a hot caustic tank to be used for cleaning power brake units.

13. Class 3 District 4 Submitted by Inspector Jack Brick

14. Recommended by: W. B. Carson (Sr. Industrial Waste Inspector) Date 9-28-61

15. Applicant (line 7) Ed Weiss (Signature) Date 9/27/61

16. Approved: [illegible] Date 10/5/61

The chemical that is company will use will b Del-Chem no. 2180-B which actually is a form of Tri Sodium Phosphate. The power brake units will be cleaned in this solution and rinsed with water. The water line will have a fine spray automatic cut-off nozzle.

APPENDICES

Appendix A Laboratory Reports and Chain-of-Custody Documentation

1.0 INTRODUCTION

EFI Global has performed a Phase II Environmental Site Assessment (ESA) for the property located at 1611 South Hope Street in Los Angeles, California (the Site). This assessment was based on the findings of EFI Global's Phase I ESA (dated September 22, 2017), which reported that the Site has been historically used for various industrial operations since at least the 1920s. Operations included auto repair, including the potential presence of a three-stage clarifier, auto body operations, auto electric service, metal fabrication, and unidentified industrial operations. Furthermore, these operations occupied the Site during a time that preceded environmental regulation and oversight.

EFI Global conducted this Phase II ESA in an attempt to evaluate whether the former onsite industrial operations have significantly impacted the subsurface of the Site with volatile organic compounds (VOCs). A total of 10 soil vapor probes were advanced in the interior and the surrounding area of the Site structures. Contaminants of potential concern included VOCs in soil vapor.

2.0 SITE INFORMATION

This section provides pertinent Site information, including location, description and geologic and hydrogeologic setting.

2.1 SITE LOCATION AND DESCRIPTION

The Site is located on the south side of Venice Boulevard immediately north of the Santa Monica Freeway, between South Hope Street and South Flower Street (Figure 1). The Site is approximately 1.73 acres in size and is occupied by three industrial warehouse structures on each half of the site, which total approximately 68,273 square feet in size (Figure 2). The Site is currently occupied by a carpenter's shop and art studio, a clothing store, textile manufacturing, a clothing warehouse and t-shirt silk screening operations, and offices. The remaining portions consist of asphalt paved parking, a central alleyway portion, and concrete access ways. The surrounding area is used for commercial purposes.

2.2 REGIONAL GEOLOGIC AND HYDROGEOLOGIC SETTING

The Site is located in the Los Angeles Basin, which is a part of the Peninsular Range geologic province. The Peninsular Range province, which is characterized by northwest-trending topographic and structural features, is bound by the Transverse Range province to the north and the Colorado Desert Province to the east. The inland part of the Peninsular Range province consists of numerous mountain ranges that are composed predominantly of igneous and metamorphic rocks of Mesozoic and Paleozoic age. An irregular coastal plain is located on the western edge of the province (including the Los Angeles Coastal Plain and Basin), which is composed predominantly of marine and non-marine clastic deposits of Upper Cretaceous, Tertiary and Quaternary age.

The Site is underlain with Quaternary-aged surficial sediment of Holocene and Pleistocene age. These deposits are generally characterized as unconsolidated detrital sediments which are generally undissected and consist of alluvium, clay, sand, and gravel (*Geologic Map of the Los Angeles Quadrangle,* Diblee Geological foundation, 1991).

The Site is located within the Central Subbasin, a subbasin of the Coastal Plain of Los Angeles Groundwater Basin. This subbasin is commonly referred to as the "Central Basin" and is bounded on the north by a surface divide called the La Brea high, and on the northeast and east by emergent less permeable Tertiary rocks of the Elysian, Repetto, Merced and Puente Hills. The southeast boundary between Central Basin and Orange County Groundwater Basin roughly follows Coyote Creek, which is a regional drainage province boundary. The southwest boundary is formed by the Newport Inglewood fault

system and the associated folded rocks of the Newport Inglewood uplift. (*Bulletin 118*, California Department of Water Resources, February, 2004).

Based on a review of groundwater data presented in the State Water Resources Control Board (SWRCB) GeoTracker website, groundwater was not detected to the maximum depth explored of 100-feet below ground surface at a site assessment located at 1600 South Figueroa Street, approximately 255-feet northwest of the Site (*Second Quarter 2017 Remedial Status Report Toyota Dealership 1600 South Figueroa Street, Los Angeles, CA 90015,* Terrax Environmental Engineering and Consulting, July 13, 2017). However, perched and semi-perched aquifers may be present beneath the Site. Based on topographic map interpretation, regional groundwater flow direction is estimated to be to the southwest; however local groundwater flow direction may vary.

2.3 LOCAL GEOLOGIC AND HYDROGEOLOGIC SETTING

The elevation of the Site is approximately 230 feet above mean sea level (*Hollywood, California 7.5 minute topographic quadrangle*, United States Geologic Survey, 1991; Figure 1). No wetlands were identified at the property or adjoining/immediately surrounding properties.

3.0 FIELD ACTIVITIES

All field activities pertaining to the Phase II ESA were completed on October 26, 2017.

3.1 FIELD PREPARATION

Prior to conducting field activities, EFI Global personnel marked the work area with white paint. Underground Services Alert (USA) was notified of the pending fieldwork a minimum of 48 hours before mobilization. Boring locations were subsequently checked for utility conflicts, access limitations and other hindrances or issues which may have been encountered during fieldwork. No conflicts with utilities were identified in the chosen boring locations.

3.2 SOIL VAPOR SAMPLING

On October 26, 2017, EFI Global directed Optimal Technology to conduct a soil vapor survey throughout the Site to evaluate for the presence of VOCs in the subsurface. A total of ten soil vapor samples (B1 through B10; Figure 2) and one duplicate sample (B10-SV-11 Dup) were collected throughout the Site. Soil vapor sampling depths were set at approximately 5-feet below ground surface (bgs) in locations B1 through B9 and at approximately 5- and 11-feet bgs in location B10.

Soil vapor probes B1 through B8 were advanced throughout the interior of the western Site structure to provide lateral coverage within that structure. Soil vapor probes B9 and B10 were advanced in the parking lot to the south adjacent to the southern edge of the eastern structure. Access to the interior of the eastern structure was not available; however based on the analytical results of the samples collected, this limitation is not expected to significantly alter the findings of this investigation.

3.2.1 SOIL VAPOR PROBE INSTALLATION

In each location, surficial concrete pavement was initially cored using a rotary hammer drill equipped with a 1.5-inch diameter percussion bit. Temporary soil vapor sampling probes were emplaced in each boring by advancing a decontaminated, steel vapor sampling rod to the target sampling depth with a rotary hammer drill. Upon advancement to the target sampling depth, each probe was retracted slightly, revealing a 1-inch long permeable screen. Subsurface conditions were allowed to equilibrate for a minimum of 30 minutes prior to subsequent vapor sampling.

3.2.2 PURGE AND SAMPLE PROTOCOL

At each sampling location, an electric vacuum pump used to purge the probe approximately three probe volumes. The purge rate was set at 200 milliliters per minute (ml/min). Measurable vacuum in the purge and sample train did not exceed 100 inches of water column (in WC).

Vapor samples were collected using a SGE gas-tight syringe by drawing the sample through a luer-lock connection, which connects the sampling probe and the vacuum pump.

Vapor samples were immediately transferred to an on-site laboratory for chemical analysis.

3.2.3 SHUT-IN AND LEAK TESTING

Leakage during soil-gas sampling may dilute samples with ambient air and produce results that underestimate actual site concentrations or contaminate the sample with external contaminants.

Upon securing the purge and sample train to each vapor probe, a shut-in test was conducted to check for leaks in the above-ground sampling system. The above-ground valves, lines and fittings downstream from the top of the probe were assembled, and the system was evacuated to a minimum of 100 in water column (in WC). The vacuum gauge was calibrated and sensitive enough to indicate a vacuum change of at least in 0.5 WC.

In the event a loss in vacuum was observed, the sample train was re-adjusted and the test repeated. Upon verification of sample train integrity, efforts were made to minimize disturbance and alteration to the apparatus until completion of purging and vapor sample collection.

In addition to shut-in testing, a leak check compound (tracer gas) test was conducted. Isobutane was selected as the leak check compound. During purging and sampling at each location, the compound was applied to rags and placed near locations where ambient air could enter the sampling system or where cross-contamination may occur immediately before sampling (i.e. the location of vapor probe surface completion and along the sampling train). Isobutane was included in the analyte list at a reporting limit of 1.00 micrograms per liter (µg/l).

4.0 CHEMICAL ANALYSIS

All soil vapor samples were immediately analyzed onsite for VOCs by Modified United States Environmental Protection Agency (EPA) Method 8021B. Laboratory reports are provided in Appendix A.

5.0 ANALYTICAL RESULTS

This section presents chemical analytical results of soil and soil vapor analysis.

5.1 SOIL VAPOR ANALYTICAL RESULTS

A summary of VOC analytical results in soil vapor is presented in Table 1. Two VOCs were detected during this assessment: tetrachloroethene (PCE) and trichloroethene (TCE) were detected in soil vapor.

PCE was detected in six soil vapor samples with maximum concentration of 0.65 micrograms per liter (µg/l) in location B6-SV-5. TCE was detected in four soil vapor samples with maximum concentration of 0.28 µg/l in location B10-SV-5. No other VOC analytes were detected above laboratory detection limits.

VOC concentrations in soil vapor were compared to commercial scenario Department of Toxic Substances Control-modified Screening Levels (DTSC-SLs) established in DTSC's Human Health Risk Assessment (HHRA) Note 3 (August 2017 update) to evaluate if the concentrations represent a significant risk to human receptors.

In general, VOCs in soil vapor represent the potential for such compounds to infiltrate into indoor air (i.e., by vapor intrusion) and negatively impact breathable air for human receptors. A preliminary method to evaluate if detected VOCs represent the potential for infiltration into building structures at unacceptable concentrations has been presented by the California Environmental Protection Agency (Cal/EPA), Department of Toxic Substances Control (DTSC) in the *Final Guidance for the Evaluation and Mitigation of Subsurface Vapor Intrusion to Indoor Air* (Vapor Intrusion Guidance) document (DTSC, October 2011).

As soil vapors migrate vertically from the subsurface to the sub-slab and potentially into indoor air, subsurface structures, including the slab, attenuate concentrations of VOCs from the subsurface prior to their potential intrusion into the building. As a preliminary screening evaluation tool, the Vapor Intrusion Guidance provides default attenuation factors for soil vapor data. These attenuation factors can be used in conjunction with screening levels that have been established for indoor air. The Vapor Intrusion Guidance provides the following formula to estimate indoor air concentrations based on soil vapor data:

$$\alpha = (c_{indoor} / c_{soil\ vapor})$$

where:

α	=	Attenuation Factor
c_{indoor}	=	Indoor Air Concentration
$c_{soil\ vapor}$	=	Soil Vapor Concentration

There are two methods whereby this formula can be used to evaluate site-specific analytical data, as follows:

- Method 1: Soil vapor sample analytical results can be multiplied by the attenuation factor to calculate the estimated concentrations of VOCs that would be anticipated in indoor air. These estimated concentrations can then be compared directly to the established screening levels for indoor air.
- Method 2: The established screening levels for indoor air can be divided by the attenuation factor to convert them into screening levels for soil vapor. The soil vapor analytical results can then be compared to these calculated screening levels, which represent the maximum concentrations of VOCs that may be present in soil vapor without resulting in an unacceptable risk to building occupants.

For the case of an existing commercial building where soil vapor samples are collected near the contaminant source, an α of 0.001 has been established. Using this attenuation factor and Method 2 above, preliminary screening levels were determined for the Site using indoor air screening levels from two repositories, as follows:

1. Regional Screening Levels (RSLs) have been developed by the EPA using default exposure and toxicity criteria to provide conservative screening levels, whereby concentrations of contaminants below such levels are not considered to represent a significant risk to human receptors (including cancer and non-cancer risks). EPA updates the RSLs periodically, and the most recent publication is dated June 2017. For the Site, consistent with DTSC guidance, the *Regional Screening Level (RSL) Summary Table (TR=1E-06, HQ=1) June 2017* screening level table was used.
2. DTSC periodically reviews the RSLs and provides a subset of compounds with alternative screening criteria, which the Human and Ecological Risk Office (HERO) deems more appropriate than RSLs. The alternative screening criteria are published in *HERO HHRA NOTE NUMBER: 3, DTSC-modified Screening Levels (DTSC-SLs) (Note 3;* August 2017*)*, which is periodically

updated. For compounds that have screening criteria listed in *Note 3*, the alternative screening levels are used instead of RSLs.

The screening levels are summarized in Table 1. As shown, none of the detected concentrations of PCE or TCE their respective screening levels of 2.0 µg/l and 3.0 µg/l. Based on the analytical results, VOCs in soil vapor do not appear to be a significant concern in the areas assessed.

6.0 CONCLUSIONS AND RECOMMENDATIONS

EFI Global has performed a Phase II ESA for the property located at 1611 South Hope Street in Los Angeles, California. This assessment was based on the findings of EFI Global's Phase I ESA, which reported that the Site has been historically utilized for various industrial operations since at least the 1920s. Operations included machine shops, metal fabrication and supply, chemical manufacturing, and spray painting.

EFI Global performed soil vapor sampling at the Site to evaluate if former use had resulted in a significant release of VOCs to the subsurface, and if such a release represents an unacceptable risk to Site occupants or the environment. Contaminants of potential concern for this assessment were VOCs in soil vapor. The scope of work was as follows:

- A total of ten soil vapor probes were advanced in the interior and surrounding area of the Site structure and sampled for VOC analysis by Modified EPA Method 8021B.

The following are EFI Global's conclusions based on the results of the assessment activities detailed herein:

- PCE was detected in six soil vapor samples with maximum concentration of 0.65 µg/l (B6-SV-5), which is below the commercial screening level for PCE of 2.0 µg/l. TCE was detected in four soil vapor samples with maximum concentration of 0.28 µg/l (B10-SV-5), which is below the commercial screening level for TCE of 3.0 µg/l. No other VOC analytes were detected above laboratory detection limits. Based on the analytical results, detected concentrations of VOCS are considered *de minimis* and do not represent an unacceptable risk for continued commercial Site use.

This assessment has found no evidence of a significant release to the subsurface of the Site that would represent a risk to human health or groundwater beneath the Site. Based on the results of this investigation, it is EFI Global's opinion that no further investigation is warranted at this time. In the event that the Site is redeveloped for residential or sensitive-use occupancy, additional evaluation may be warranted to further evaluate vapor intrusion risk for a residential property.

7.0 SIGNIFICANT ASSUMPTIONS, LIMITATIONS AND RELIANCE

This report has been prepared in accordance with generally-accepted environmental methodologies and industry standards as they relate to the Data Quality Objectives of the assessment. No warranties, expressed or implied, are made as to the professional services provided under the terms of EFI Global's contract(s) or specified in this report. This assessment has been conducted, in part, based on information, data or reports provided or prepared by others. EFI Global reviews and interprets these documents in good faith and relies that the provided data and documents are true and accurate.

Environmental conditions at the site were assessed or interpreted within the context of EFI Global's contract(s) and existing environmental regulations of applicable jurisdiction(s) as of the date of the report. Regulatory requirements, regulations and guidance are subject to change subsequent to the date of the report. Unless otherwise stated in the report, evaluating compliance of past, present or future owners with applicable local, provincial and federal government laws and regulations was not included within the scope of the assessment.

The environmental assessment is limited by the availability of information at the time of the assessment. The conclusions and recommendations regarding environmental conditions presented in this report are based on a scope of work authorized by the Client. It is possible that unreported conditions impairing the environmental status of the site may have occurred which could not be identified. EFI Global's opinions cannot be extended to portions of the site that were unavailable for direct access and observation reasonably beyond the control of EFI Global or outside of the scope of the assessment. Environmental assessment activities, particularly the sampling of soil, vapor (air), groundwater and structure materials, represent those conditions which are present at the time of sampling within the immediate vicinity of the sample(s) collected. Although sampling plans are developed in an attempt to provide what is interpreted as sufficient coverage within the assessment area to achieve the investigative objectives, no extent of sampling can guarantee all environmental conditions, potential chemicals of concern (man-made or naturally occurring) and concentrations at which they occur have been identified and quantified absolutely. The assessment performed and outlined in this report was based, in part, upon visual observations of the site and attendant structures. It should be noted that compounds, materials or chemicals of potential concern other than those described could be present in the site environment, and the possibility remains that unexpected environmental conditions may be encountered at the site in locations not specifically investigated.

All components of this report, including but not limited to text, signatures, certifications, figures, tables, attachments, appendices, supporting documents and addenda are integral to the reporting of the assessment. This report may not be reproduced, except in full, without written approval of EFI Global.

This report has been prepared for the sole use of Venice Hope Group, LLC. The contents should not be relied upon by any other parties without the express written consent of Venice Hope Group, LLCand EFI Global.

8.0 SIGNATURES OF ENVIRONMENTAL PROFESSIONALS

This assessment has been conducted with the standards and level of care and skill exercised in such types of investigations, by qualified geologists, engineers, environmental scientists or environmental professionals, in conformance with generally-accepted industry standards and practices.

[1] Screening Levels (SLs) are calculated using the approach outlined in the Department of Toxic Substances Control's (DTSC's) Vapor Intrusion Guidance (October 2011). Unless noted, SLs are based on the DTSC-SL for Commercial/Industrial Air as published in Human Health Risk Assessment (HHRA), HERO HHRA Note Number: 3, DTSC-modified Screening Levels (DTSC-SLs), August 2017.

For VOCs having no DTSC-SLs, SLs are calculated using the Regional Screening Levels (RSLs) as published in EPA's Regional Screening Level (RSL) Composite Worker Ambient Air Table (TR=1E-06, HQ=1) June 2017. SLs that are based on RSLs are identified with an asterisk (*).

LABORATORY REPORTS AND CHAIN-OF-CUSTODY DOCUMENTATION

OPTIMAL TECHNOLOGY
Specializing in Environmental Field Services

October 27, 2017

Mr. Desi Salgado
EFI Global Inc.
5261 West Imperial Highway
Los Angeles, CA 90045

Dear Mr. Salgado:

This letter presents the results of the soil vapor investigation conducted by Optimal Technology (Optimal), for EFI Global Inc. on October 26, 2017. The study was performed at 1611 S. Hope St., Los Angeles, California.

Optimal was contracted to perform a soil vapor survey at this site to screen for possible chlorinated solvents and aromatic hydrocarbons. The primary objective of this soil vapor investigation was to determine if soil vapor contamination is present in the subsurface soil.

Gas Sampling Method

Gas sampling was performed by hydraulically pushing soil gas probes to a depth of 5.0-11.0 feet below ground surface (bgs). An electric rotary hammer drill was used to drill a 1.0-inch diameter hole through the overlying surface to allow probe placement when required. The same electric hammer drill was used to push probes in areas of resistance during placement.

At each sampling location, an electric vacuum pump set to draw 0.2 liters per minute (L/min) of soil vapor was attached to the probe and purged prior to sample collection. Vapor samples were obtained in Hamilton gas-tight syringes by puncturing tubing which connects the sampling probe and the vacuum pump. New tubing was used at each sampling point to prevent cross contamination. Samples were immediately injected into the gas chromatograph after collection.

All analyses were performed on a laboratory grade Hewlett Packard model 5890 Series II gas chromatograph equipped with a Flame Ionization Detector (FID) and an Electron Capture Detector (ECD). Restec wide bore capillary columns using hydrogen as the carrier gases were used to perform all analysis. All results were collected on a personal computer utilizing Hewlett Packard's PC based chromatographic data collection and handling system.

Quality Assurance

5-Point Calibration
The initial five-point calibration consisted of 20, 50, 100, 200 and 500 ul injections of the calibration standard. A calibration factor on each analyte was generated using a best fit line method using the HP data system. If the r^2 factor generated from this line was not greater than 0.990, an additional five-point calibration would have been performed. Method reporting limits were calculated to be 0.004-1.0 micrograms per Liter (ug/L) for the individual compounds.

A daily calibration check and end of run calibration check was performed using a pre-mixed standard supplied by Scotty Analyzed Gases. The standard contained common halogenated solvents and aromatic hydrocarbons (see Table 1). The individual compound concentrations in the standards ranged between 0.025 nanograms per microliter (ng/ul) and 0.25 ng/ul.

TABLE 1

Dichlorodifluoromethane	Carbon Tetrachloride	Chloroethane
Trichlorofluoromethane	1,2-Dichloroethane	Benzene
1,1-Dichloroethene	Trichloroethene	Toluene
Methylene Chloride	1,1,2-Trichloroethane	Ethylbenzene
trans-1,2-Dichloroethene	Tetrachloroethene	m-/p-Xylene
1,1-Dichloroethane	Chloroform	o-Xylene
cis-1,2-Dichloroethene	1,1,1,2-Tetrachloroethane	Vinyl Chloride
1,1,1-Trichloroethane	1,1,2,2-Tetrachloroethane	Freon 113
4-Methyl-2-Pentanone	Cyclohexane	Acetone
Chlorobenzene	2-Butanone	Isobutane

Sample Replicates
A replicate analysis (duplicate) was run to evaluate the reproducibility of the sampling system and instrument. The difference between samples did not vary more than 20%.

Equipment Blanks
Blanks were run at the beginning of each workday and after calibrations. The blanks were collected using an ambient air sample. These blanks checked the septum, syringe, GC column, GC detector and the ambient air. Contamination was not found in any of the blanks analyzed during this investigation. Blank results are given along with the sample results.

Tracer Gas Leak Test
A tracer gas was applied to the soil gas probes at each point of connection in which ambient air could enter the sampling system. These points include the top of the sampling probe where the tubing meets the probe connection and the surface bentonite seals. Isobutane was used as the tracer gas. No Isobutane was found in any of the samples collected.

Purge Volume
The standard purge volume of three volumes was purged in accordance with the July 2015 DTSC/RWQCB Advisory for Active Soil Gas Investigations.

Shut-in Test
A shut-in test was conducted prior to purging or sampling each location to check for leaks in the above-ground sampling system. The system was evaluated to a minimum measured vacuum of 100 inches of water. The vacuum gauge was calibrated and sensitive enough to indicate a water pressure change of at least 0.5 inches.

Scope of Work

To achieve the objective of this investigation a total of 12 vapor samples were collected from 10 locations at the site. Sampling depths, vacuum readings, purge volume and sampling volumes are given on the analytical results page. All the collected vapor samples were analyzed on-site using Optimal's mobile laboratory.

Subsurface Conditions

Subsurface soil conditions at this site offered sampling flows at 0" water vacuum. Depth to groundwater was unknown at the time of the investigation.

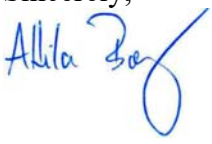

Results

During this vapor investigation, six samples contained levels of Tetrachloroethene (PCE) ranging from 0.1 ug/L to 0.65 ug/L. Four samples contained levels of Trichloroethene (TCE) ranging from 0.12 ug/L to 0.28 ug/L. None of the other compounds listed in Table 1 above were detected above the listed reporting limits. A complete table of analytical results is included with this report.

Disclaimer

All conclusions presented in this letter are based solely on the information collected by the soil vapor survey conducted by Optimal Technology. Soil vapor testing is only a subsurface screening tool and does not represent actual contaminant concentrations in either the soil and/or groundwater. We enjoyed working with you on this project and look forward to future projects. If you have any questions, please contact me at (877) 764-5427.

Sincerely,

Attila Baly
Project Manager
