Contact: Valarie Yruretagoyena, Project Director

California Department of Parks and Recreation (State Parks), as Lead Agency, has prepared a Preliminary General Plan Update and associated Draft Environmental Impact Report (EIR) for Hungry Valley State Vehicular Recreation Area (SVRA). The Preliminary General Plan Update and Draft EIR are available on the project website (www.planhungryvalley.com).

Hard copies are also available for review at the following locations:

- Hungry Valley SVRA Park Office at 46001 Orwin Way, Gorman, CA 93243
- California State Library at 914 Capitol Mall, Room 300, Sacramento, CA 95814

- Frazier Park Public Library at 3732 Park Drive, Frazier Park, CA 93225

The Draft EIR is being circulated for public review and comment for a period of 45 days, beginning on August 18, 2025. Due to the time limits mandated by state law, your response must be sent no later than October 2, 2025. Please use the comment form on the website, or send your written responses, including the name of a contact person, to the following:

PROJECT LOCATION

Hungry Valley SVRA is an off-highway vehicle (OHV) park operated by State Parks' Off-Highway Motor Vehicle Recreation Division. Hungry Valley SVRA is located within Los Angeles, Kern, and Ventura Counties near the communities of Gorman and Lebec, adjacent to Interstate 5 at Tejon Pass.

PROJECT DESCRIPTION

The proposed General Plan Update, which is considered the Proposed Project for purposes of CEQA, establishes the long-range purpose and vision for Hungry Valley SVRA and would update the current General Plan which was adopted in 1981. The purpose of Hungry Valley SVRA is to provide a destination for OHV recreation use and to offer a unique experience for visitors in and around the Southern California region. State Parks would manage natural, cultural, and physical resources to protect the resources' integrity in alignment with the goals and guidelines established in the proposed General Plan Update.

SIGNIFICANT ENVIRONMENTAL EFFECTS

The Draft EIR identified that the Proposed Project would have significant and unavoidable air quality impacts. All other impacts would be less than significant with implementation of goals and guidelines in the General Plan Update or adherence to existing regulations and policies.

PUBLIC MEETING

A virtual public meeting has been scheduled to discuss the environmental effects of the project. The public meeting will be held virtually on **September 16th, 2025, at 6:00 p.m.** To access the meeting, please use the following links:

Join from PC, Mac, iPad, or Android: <https://us06web.zoom.us/j/88007780710>

Join via audio: +1 669 444 9171 (Webinar ID: 880 0778 0710)

The public meeting is for informational purposes and official public comments will not be collected during the meeting. All comments on the environmental effects of the project should be directed in writing to Katie Metraux, General Plan Manager, at the contact listed above, or using the comment form on the project website.
