

**SCH No. 2023110218 NOC Attachment: Other Location Information**

The proposed SCE Cal City Substation would be located on the following Kern County Assessor’s Parcel Numbers (APNs): 229-020-34, 229-020-35, 229-020-36. Access APNs 229-020-37, 302-260,12, 229-020-28; multiple additional state and federal easements are required for proposed subtransmission lines.

**Table 1 Project Start and End Locations for the proposed subtransmission lines**

<b>Project Component</b>	<b>Approximate Start Coordinates (WGS84)</b>	<b>Approximate End Coordinates (WGS84)</b>
Proposed New Kramer-Cal City 115 kV Subtransmission Line	34.99032224, -117.54365076	35.14289368, -117.96832962
Proposed New Cal City-Edwards-Holgate 115 kV Subtransmission Line <sup>1</sup>	35.01385181, -117.70839072	35.14289368, -117.96832962

<sup>1</sup>This line includes an approximately three-mile tap line serving Edwards Substation. The approximate start coordinates for the proposed Edwards tap line are 35.02830628,-117.88136771. The approximate end coordinates for the proposed Edwards tap line are 34.98499339,-117.89113969.

The proposed Kramer-Cal City 115 kV Subtransmission Line would be located on the following United States Geological Survey (USGS) 7.5-minute topographic quadrangles: California City North, Galileo Hill, Boron NW, Boron NE, Saddleback Mountain, and Kramer Junction (USGS 2011). The proposed Cal City-Edwards-Holgate 115 kV Subtransmission Line would be located on the following USGS 7.5-minute topographic quadrangles: California City North, California City South, North Edwards, Edwards, and Boron (USGS 2011). The townships and ranges of each quadrangle are summarized in Table 2.
