Project Description (Proposed actions, location, and/or consequences).

See attached Notice of Completion and Availability.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Mitigation measures have been provided to reduce the following potentially significant effects to less than significant: 1) Biological Resources (special status wildlife, sensitive plant communities, wetlands, wildlife connectivity, and protected trees); 2) Geology and Soils (paleontological resources); 3) Hazards (emergency response and evacuation); 4) Public Services (fire protection facilities); 5) Tribal Cultural Resources (unanticipated subterranean resources); and 6) Wildfire (emergency response and evacuation, and exacerbation of wildfire risk).

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

Potential impacts with respect to air quality, biological resources, tribal cultural resources, transportation, and emergency access.

Provide a list of the responsible or trustee agencies for the project.

The California Department of Fish and Wildlife is a trustee agency. There are no other responsible or trustee agencies for the Project.
