## COMPLIANCE INSPECTION REPORT

FACILITY NAME: Clean Harbors  
 ADDRESS: 3495 Kurtz Street  
 CITY/ZIP: San Diego /92110

INSPECTION DATE: 09/17/2015 PAGE 1 OF 4  
 RECORD ID #: DEH2015-HUPFP-002071  
 TIME START: 10:51 AM END: 12:06 PM  
 SPECIALIST: McLernon, Benjamin  
 INSPECTION CONTACT: Tim Lee  
 TITLE: HHW Program Manager  
 PHONE: (619) 241-4250  
 E-MAIL: lee.timothy@cleanharbors.com

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

**NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.**

CONSENT TO CONDUCT INSPECTION GRANTED BY: Tim Lee

TITLE: HHW Program Manager

### INTRODUCTION:

This was an inspection for hazardous materials and waste management. Mr. Lee gave consent for inspection. The facility is a 10 day storage facility for Clean Harbors, a registered hazardous waste hauler. At inspection today I observed a propane forklift and a propane cage with five propane tank spares inside. Mr. Lee stated the cage was recently brought in within the last two weeks. Prior to that, he said, they took a single tank to get refilled. I saw no other reportable hazardous materials onsite. Mr. Lee explained that maintenance of vehicles is performed by an outside contractor and no hazardous waste is generated onsite.

According to Mr Lee, hazardous waste that is brought here is stored no longer than 10 days and that is kept track of through a computer barcode system. I could not observe the system today because it was down at inspection. However, I did look through several stacks of manifests and found none to be dated longer than 10 days ago.

### VIOLATION # 1

HMD1001 Unified Program Facility permit not obtained for hazardous materials. SDCC 68.905

Classification: Class II

### Observations:

This facility has the capacity to store reportable amounts of hazardous materials or hazardous waste (55 gal, 500 lbs., or 200 cuft) and does not have a valid Unified Program Facility Permit from the Hazardous Materials Division (HMD) as required by SDCC. At inspection today I observed a propane forklift and a propane cage with five propane tank spares inside. Each tank is over 200 cubic feet and therefore a reportable amount.

Corrective Action Due By: 10/17/2015

For a new permit, begin by submitting a CERS ID form found on our CERS information page at [http://www.sandiegocounty.gov/content/sdc/deh/hazmat/hmd\\_cers.html](http://www.sandiegocounty.gov/content/sdc/deh/hazmat/hmd_cers.html) within 10 calendar days.

### VIOLATION # 2

1010001 HMBP not established/ implemented. HSC 25505(a) and 25507(a)

Classification: Class II

# COUNTY OF SAN DIEGO

## SUPPLEMENTAL COMPLIANCE INSPECTION REPORT

INSPECTION DATE: 09/17/2015 PAGE 2 OF 4  
RECORD ID #: DEH2015-HUPFP-002071

### Observations:

This facility has the capacity to store reportable amounts of hazardous materials or hazardous waste (>= 55 gal, 500 lbs., or 200 cuft) and is thus required to prepare a hazardous materials business plan (HMBP). HMBPs consist of three sections to be completed online via the California Environmental Reporting System (CERS) at [cers.calepa.ca.gov](http://cers.calepa.ca.gov). This facility has not established or submitted an HMBP as required.

### Corrective Action Due By: 10/17/2015

This violation must be corrected online by logging into the facility account in CERS, completing the first three sections (facility information, hazardous materials/waste inventory, and emergency response/training plans) and submitting them electronically. Once accepted, this must be updated and recertified at least every 12 months or within 30 days of changes thereafter. For assistance, visit our CERS Information webpage for guides and videos or call our CERS help line at (858) 505-6990 for one-on-one guidance.

### INSPECTION REMARKS:

#### Helpful Websites:

 E-MAIL: whyte.javier@cleanharbors.com

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

**NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.**

CONSENT TO CONDUCT INSPECTION GRANTED BY: Javier Whyte

TITLE: Truck to Truck Supervisor

### INTRODUCTION:

Inspection conducted for hazardous materials/waste on 9/8/2017 with Javier Whyte, Truck to Truck Supervisor who gave me permission to conduct the inspection. This site is a registered hazardous waste hauler and does not generate hazardous waste at this time. They are currently subject to the Hazardous Materials Business Plan requirements. The reportable amount is 55 gallons for hazardous liquids, 500 pounds for hazardous solids and 200 cubic feet for compressed gases. California Environmental Reporting System (CERS) submittals have been accepted on 10/8/2015.

The following hazardous materials in reportable threshold quantities were observed on-site today:

- 50 gallons of propane.

### VIOLATION # 1

1010008 HMBP not certified annually as complete and accurate in CERS. HSC 25508(a)(1)(A), 25508.2, 19 CCR 2654(b)

Classification: Minor

### Observations:

Your HMBP must be certified at least annually to be complete and accurate in the California Environmental Reporting System. Records show it has been more than 12 months since an HMBP was submitted in CERS including up-to-date facility information, hazardous materials inventory, and emergency response and training plans sections as required by HSC. Observed the last CERS submittal was on 10/7/2015.

### Corrective Action Due By: 10/08/2017

This violation must be corrected online by logging into the facility account in CERS, reviewing the facility information, hazardous materials/waste inventory, and emergency response/training plans sections, and submitting them electronically. For assistance, visit our CERS Information webpage for guides and videos or call our CERS help line at (858) 505-6990 for one-on-one guidance. Send the corrective action form to this department within 30 days.

FACILITY NAME: Clean Harbors Environmental LLC  
 ADDRESS: 3495 KURTZ ST  
 CITY/ZIP: SAN DIEGO /92110-4430

INSPECTION DATE: 09/18/2019 PAGE 1 OF 2  
 RECORD ID #: DEH2015-HUPFP-002071  
 TIME START: 10:30 AM END: 11:30 AM  
 SPECIALIST: Mike Burke  
 INSPECTION CONTACT: Russ Stogsdill  
 TITLE: Health & Safety Manager  
 PHONE: 858-583-1814  
 E-MAIL: stogsdill.james@cleanharbors.com

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

**NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.**

CONSENT TO CONDUCT INSPECTION GRANTED BY: Russ Stogsdill

TITLE: Health & Safety Manager

### INTRODUCTION:

Routine Inspection

Inspection conducted for hazardous materials/waste on 9/18/2019 with Russ Stogsdill, Health & Safety Manager who gave me permission to conduct the inspection. This site is a registered hazardous waste hauler and does not appear to generate hazardous waste at this time. They are currently subject to the Hazardous Materials Business Plan requirements. The reportable amount is 55 gallons for hazardous liquids, 500 pounds for hazardous solids and 200 cubic feet for compressed gases. California Environmental Reporting System (CERS) submittals have been accepted on 9/18/2019.

The following hazardous materials in reportable threshold quantities were observed on-site today:  
 - 50 gallons of propane.

UNDERGROUND STORAGE TANK CLEANUP FUND (FUND), STAFF DECISION TO REJECT CLAIM: CLAIM NUMBER 016659; FOR SITE ADDRESS: 3495 KURTZ ST, SAN DIEGO

Your claim has been found to be ineligible for placement on the Priority List for the following reason:

Claimant never owned or operated the subject leaking tank. (Section 2810.1)

Claimant has indicated on the application that the subject site was acquired in 1983. According to the cover letter submitted with the application, claimant only intends to request reimbursement for petroleum contamination associated with the 4,000 gallon gasoline tank listed on the claim application. A 10,000 diesel tank was also listed on the claim application, however, it appears there was no corrective action work associated with this tank.

Claimant was asked to provide verification of the 4,000 gallon gasoline tank and to document that the Trust owned the tank. Claimant has provided local fire department records for the 10,000 diesel tank installation in 1963 at the site. The records document that a 4,000 gallon gasoline tank was in place at the site at the time of the 1963 diesel tank installation. The Fund accepts the fire department document as existence of the 4,000 gallon gasoline tank. Ownership of this tank by the Trust, however, has not been provided.

Fund staff, Judy Reid, had a telephone conversation with you regarding tank ownership. You indicated that you are not aware of when the 4,000 gallon gasoline tank was removed. ***The Fund requires claimants provide conclusive evidence that they were the owner or operators of the subject leaking tank.*** Per your conversation with Ms. Reid, you indicated tank ownership information is not available and that you had conducted extensive research for any tank removal documents to verify when the tank had been removed.

Based on the above, the Fund cannot identify you as a tank owner.

*NOTE. Claimant is notified of the following: Claimant has received site closure (No Further Action Correction Action Required) and no additional corrective costs will most likely be*

**California Environmental Protection Agency**

Recycled Paper

*incurred. It appears that the majority of corrective action work performed (Phase I and II Site Investigations) occurred before the unauthorized release was confirmed by San Diego County Environmental Health. The Fund does not reimburse costs associated with detection work. The Fund will consider reimbursement of corrective action costs after the 1) the regulator confirms an unauthorized release and 2) regulator issues directives to perform corrective action work.*

NOTE: Sections cited are found in the Petroleum Underground Storage Tank Cleanup Fund Regulations, Title 23, Division 3, Chapter 18, of the California Code of Regulations.

If you disagree with this Staff Decision, you may appeal to the Division Chief pursuant to Section 2814.1 of the Petroleum Underground Storage Tank Cleanup Fund Regulations. If you would like review of the decision by the Fund Manager, please submit your request along with any additional documentation to:

Allan V. Patton, Fund Manager, Claim #016659  
Underground Storage Tank Cleanup Fund  
State Water Resources Control Board  
Division of Clean Water Programs  
P.O. Box 944212  
Sacramento, CA 94244-2120

A request to the Fund Manager must include, at a minimum: (1) a statement describing how the claimant is damaged by the prior Staff Decision; (2) a description of the remedy or outcome desired; and (3) an explanation of why the claimant believes the Staff Decision is erroneous, inappropriate or improper.

If you do not a request review by the Fund Manager within thirty (30) calendar days from the date of this letter, the Staff Decision will then become final and conclusive.

If you have any questions, please call me at (916) 341-5795.

Sincerely,

Christine White  
Claims Review Unit  
Underground Storage Tank Cleanup Fund

E. APPLICATION SUBMITTAL, PLAN APPROVAL, PERMIT ISSUANCE, AND REQUIRED INSPECTIONS:

Submit three (3) copies of this application package, including plan drawings, with the required fee to the Department of Health Services, Hazardous Materials Management Unit, Room 311, 1700 Pacific Highway, San Diego, CA 92101. Checks should be made payable to the County of San Diego.

A permit will be issued by the Department of Health Services (DHS) upon review and approval of the application and plans. The required fees must be submitted with the application package. Information in addition to that presented in this application package may be needed in order to obtain final approval. No work is to begin on the proposed project until a permit has been issued. The required inspections cannot be scheduled until a permit has been issued.

Once the permit has been issued, it is the permittee's responsibility to notify the DHS at least two (2) working days in advance to schedule each required inspection.

Construction stages at which inspections are required are indicated in each subpart of this application form (i.e., Part II, III and IV).

IMPORTANT: CONTACT THE DEPT. OF HEALTH SERVICES AT 236-2212 AT LEAST TWO WORKING DAYS BEFORE STARTING CONSTRUCTION TO SCHEDULE THE FIRST REQUIRED FIELD INSPECTION.

F. Indicate the Company/Person you wish to have our plan check comments directed to by circling the appropriate section letter above or if different enter below.

**UNDERGROUND HAZARDOUS MATERIALS STORAGE TANK FACILITY**

PART III

APPLICATION FOR PERMIT TO ABANDON

Complete all sections of Part III. If information is not known or applicable please indicate on application.

A. Total number of tanks to be abandoned 1

B. Tank Information - Complete the following information for each tank to be abandoned. Attach additional sheets as necessary.

(Label tanks on plot plan to correspond to application)	1	2	3	4
Tank Capacity (gallons)	10,000			
Date Tank Installed	about 1970			
Tank Composition (Steel, Fiberglass, Fiberglass Coated Steel, Concrete, etc.)	Steel			
Tank Manufacturer	Unk.			
Tank Presently in Use? (Yes-No)	Yes			
Materials Stored in Tank	Material: Diesel			
	dates: to	to	to	to
	Material:			
	dates: to	to	to	to
Has Tank System Leaked? (Yes, No, Not Known)	Tank Piping	No		
Basis of determination (Inventory records, tank system testing/monitoring, environmental monitoring)		Inventory records		
Is any part of the system cathodically protected? (Yes-No-Not Known)				
Tank		No		
Piping Lines		No		
Piping materials		2" Steel		

C. PREVIOUS OWNERS AND OPERATORS OF THE TANK(S):

Dates

Owner/Operator

_____	_____
_____	_____
_____	_____

D. Approximate depth to groundwater: \_\_\_\_\_  
 Basis of Determination: \_\_\_\_\_

E. Proposed method of abandonment:  Removal       Destruction in place

NOTE: Removal of the tank(s) is the preferred method of abandonment. Destruction of the tank in place, for example, by filling with an inert substance, will only be considered in special cases upon submittal of additional information to determine the risks and hazards of contamination. Additional information required includes recent tank testing results, soils data, special site characteristics and approval from the local Fire Department.

F. Future use/disposal site of tank: Scrap

G. ATTACH A PLOT PLAN ON 8-1/2" x 11" paper showing the following:

1. Property Lines, Site Address, Scale, North Arrow
2. Location of 100 year flood plain, if applicable
3. Location of all existing and proposed structures
4. Location of all existing and proposed underground storage tank facilities
5. Location of underground tank(s) to be abandoned (number tanks to correspond to application)
6. Location of underground utility lines and vaults

H. REQUIRED INSPECTION - PERMIT TO ABANDON

A representative of the Department of Health Services (DHS) must be on site at the time the tank(s) is removed from the ground to evaluate the condition of the tank and the surrounding soil and/or groundwater. Any evidence of an unauthorized release of a hazardous material from the tank will require the submittal of additional information by the permittee to the DHS.

When a permit has been issued by the DHS to destroy a tank in place, the DHS will inspect to verify that the tank has been properly emptied and purged of all hazardous materials immediately prior to filling with an approved inert substance.

I. I declare that to the best of my knowledge and belief the statements and information provided are correct and true. I understand that information in addition to that provided above may be needed in order to obtain final approval by the Department of Health Services.

I understand that tests and procedures that may be required by other departments and agencies to demonstrate adequate site safety or suitability for future development (e.g., soil compaction testing) are in addition to the requirements of the Department of Health Services.

I will notify the Department of Health Services at least two working days (48 hours) before work is to begin in order to schedule the required inspections. I understand that site and worker safety are solely the responsibility of the property owner or his agent and that this responsibility is not shared nor assumed by the County of San Diego.

JAMES A. FORDE, Director

### ABANDONED TANK INSPECTION REPORT AND OFFICIAL NOTICE

PC# AFO387  
EST.# \_\_\_\_\_  
DATE 8-9-86

ESTABLISHMENT NAME GOLDEN CHARIOT TRUCKING  
SITE ADDRESS 3495 KURTZ ST. CITY S.D. ZIP 92110  
CONTACT PERSON BILL KENTON TITLE \_\_\_\_\_  
TELEPHONE ( 798-5880 ) \_\_\_\_\_ Owner, Agent, Permittee

You are hereby notified that an inspection of your abandoned hazardous substance underground storage tank(s) located at \_\_\_\_\_ was made on 8-8-86 by \_\_\_\_\_ of the Hazardous Materials Management Unit of the County of San Diego, Department of Health Services. The condition found is noted below with the necessary response indicated.

Number of tanks removed 1  
Type and capacity of tank(s) 10K G. DIESEL STEEL  
Condition of tank(s) MODERATE CORROSION NO HOLES  
Approximate age of tank(s) ~ 16 YRS. OLD

No holes in tank and no evidence of significant soil or groundwater contamination detected this date. Excavation may be backfilled.

The conditions noted below must be reported and corrected in accordance with Chapters 6.5 and 6.7 of the California Health and Safety Code and Chapter 9 and 10 of the San Diego County Code.

Hazardous substance/waste from the tank(s) is ponded in the excavation. Immediately take steps to remove the ponded hazardous liquid from the excavation. This liquid is a hazardous waste that must be properly transported, under manifest, by a licensed hazardous waste hauler to a licensed recycling or disposal facility. Submit copies of the completed manifest forms and an Unauthorized Release Report (described below) to the Department of Health Services within 5 working days.

Contaminated soil and/or groundwater is present in the excavation. Determining the extent and impact of this contamination and completing any required clean-up is the responsibility of the tank owner/operator. Within 5 working days, the tank owner/operator or his agent must submit a written Unauthorized Release Report to the Department of Health Services that includes all of the following information that is known at the time of filing the report:

- a. List of type, quantity and concentration of hazardous substance released.
- b. The extent of the soil or groundwater or surface water contamination due to the release based on the results of all investigations completed at the time the report is submitted.
- c. Method of clean-up implemented to date and proposed clean-up actions.
- d. Method and location of disposal of the released hazardous substance and any contaminated soils or groundwater or surface water.

Subsequent mitigation actions will be discussed upon review of the submitted Report and consultation with other responsible agencies.

#### Important Notes:

1. It is the responsibility of the tank owner/operator or his agent to maintain the site in a safe and secure manner.
2. Any contaminated soil/liquid removed from the site must be handled, transported and disposed of or recycled as a hazardous waste.
3. Notify the local fire department immediately if a fire or explosion hazard is present.
4. Notify the Regional Water Quality Control Board (265-5114) within 24 hours in the event of an unauthorized release.

Received by Vicky Durin Inspector Donna A. Piore  
Phone # 460-8812 (619) 236-2222 8:00 a.m. - 5:00 p.m.

Field Observations and Notes:

1. Type of hazardous substance released: N/A
2. Is hazardous substance ponded? N/A Estimated amount \_\_\_\_\_
3. Is amount of hazardous substance release known? N/A Estimated amount \_\_\_\_\_
4. Estimated depth to groundwater \_\_\_\_\_
5. Is there an existing or potential beneficial use of the groundwater identified in the Basin Plan? No
6. Soil conditions:
  - a. Is backfill discolored? \_\_\_\_\_ Estimated amount \_\_\_\_\_
  - b. Is backfill saturated? \_\_\_\_\_ Estimated amount \_\_\_\_\_
  - c. Is native soil discolored? N/A Estimated amount \_\_\_\_\_
  - d. Is native soil saturated? N/A Estimated amount \_\_\_\_\_
  - e. Type of native soil (sandy, clay, etc.) \_\_\_\_\_ Estimated amount \_\_\_\_\_
7. Description of odors from excavation NONE
8. Condition of tank (holes, corrosion, deteriorated wrapping, etc.) \_\_\_\_\_  
MODERATE CORROSION NO HOLES.
9. Pipeline leak evident? \_\_\_\_\_
10. Nearby underground vaults or utilities or basements? (Specify) \_\_\_\_\_
11. Nearby water wells or surface waters? \_\_\_\_\_
12. Other comments/observations: H<sub>2</sub>O OBSERVED AT ≈ 8'

 CITY/ZIP SAN DIEGO / 92110

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). **This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6.** This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

- Y\* N/A\* NOTE: **Reinspection fees will be charged if additional inspections are required to determine compliance.**

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

**NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.**

CONSENT TO CONDUCT INSPECTION GRANTED BY: Carolyn Guerrero

TITLE: Shop Manager

### INTRODUCTION:

C/O inspection conducted on 10/4/2016 with Carolyn Guerrero, Shop Manager who gave me permission to conduct the inspection. This site is a small quantity generator of hazardous waste at this time. They are currently subject to the Hazardous Materials Business Plan requirements due to reportable amounts of waste oil. The reportable amount is 55 gallons for hazardous liquids, 500 pounds for hazardous solids and 200 cubic feet for compressed gases. California Environmental Reporting System (CERS) submittals have been accepted.

The following hazardous materials in reportable threshold quantities were observed on-site today:

- 1 x 55 gallon drum of waste oil.

### VIOLATION # 1

1020002 Initial and/or annual employee training not conducted for hazardous materials management and/or employee training records not available or not maintained for 3 years. HSC 25505(a)(4)

Classification: Minor

### Observations:

This facility has the capacity to store reportable amounts of hazardous materials or hazardous waste (55 gal, 500 lbs., or 200 cuft) and failed to maintain records of an adequate employee training program for the size of the facility and the nature of the hazardous materials handled. The training program shall, at a minimum, include methods for safe handling of hazardous materials; procedures for coordination with local emergency response organizations; use of emergency response equipment; and emergency response procedures for a release or threatened release of hazardous materials.

Corrective Action Due By: 11/03/2016

Within 30 days, implement an employee training plan and send the corrective action form to this department.

## OFFICIAL NOTICE

August 9, 2018

Record ID: DEH2014-HUPFP-001449, CERS ID: 10603018

Dear Sir/Madam:

### RE: Annual Hazardous Materials Business Plan Certification Not Completed

The Hazardous Materials Division (HMD) is the Certified Unified Program Agency (CUPA) in San Diego County. The HMD, as the CUPA, regulates the hazardous materials business plan statute and regulations.

State law requires that a facility that handles or stores hazardous material(s) at or above reporting levels must annually certify their business plan. The business plan certification is important because up to date chemical inventory information is useful to emergency responders and public health officials in case of a spill or other emergencies.

As of 2015, the entire business plan is required to be submitted annually pursuant to California Health and Safety Code (HSC) Chapter 6.95 section 25508(a)(1)(A). The submittal must be completed using the online California Environmental Reporting System (CERS): <https://cers.calepa.ca.gov>. The business plan certification consists of several components: Facility Information, Hazardous Materials Inventory, Site Map, Emergency Contingency Plan, and Training Plan. Failure to electronically file the business plan as required may result in administrative, civil, or criminal penalties.

The dates of your last submitted business plan from CERS are listed below:

Facility information submitted:	10/4/2016
Inventory and site map submitted:	10/4/2016
Plan submitted:	10/4/2016

**Within 30 days of receipt of this Official Notice, please submit your hazardous materials business plan certification using CERS.** Failure to complete the certification can result in civil or administrative penalties between \$2,000 and \$5,000 per day of violation.

If you need assistance or believe you have received this notice in error, please contact the **CERS Help Desk at (858) 505-6990.**

To make a phone or in-office appointment to get one-on-one help, visit HMD's CERS information website at: [https://www.sandiegocounty.gov/content/sdc/deh/hazmat/hmd\\_cers.html](https://www.sandiegocounty.gov/content/sdc/deh/hazmat/hmd_cers.html)

Sincerely,

Maryam Dorsey, Chief  
Hazardous Materials Division

ecc: DEH2014-HUPFP-001449; HC009

## COMPLIANCE INSPECTION REPORT

FACILITY NAME: Torque-Spec Garage Inc. DBA Lach Motorsports  
 ADDRESS: 3770 HANCOCK ST D  
 CITY/ZIP: SAN DIEGO /92110

INSPECTION DATE: 09/05/2018 PAGE 1 OF 5  
 RECORD ID #: DEH2014-HUPFP-001449  
 TIME START: 11:00 AM END: 12:00 PM  
 SPECIALIST: Mike Burke  
 INSPECTION CONTACT: Daniel Guerrero  
 TITLE: Owner  
 PHONE: 619-497-1717  
 E-MAIL: torquespec@gmail.com

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

**NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.**

CONSENT TO CONDUCT INSPECTION GRANTED BY: Daniel Guerrero

TITLE: Owner

### INTRODUCTION:

Inspection conducted for hazardous materials/waste on 9/5/2018 with Daniel Guerrero, Owner who gave me permission to conduct the inspection. This site is a small quantity generator of hazardous waste at this time. They are currently subject to the Hazardous Materials Business Plan requirements due to reportable amounts of waste oil. The reportable amount is 55 gallons for hazardous liquids, 500 pounds for hazardous solids and 200 cubic feet for compressed gases. California Environmental Reporting System (CERS) submittals have been accepted.

The following hazardous materials in reportable threshold quantities were observed on-site today:

- 1 x 55 gallon drum of waste oil.

### VIOLATION # 1

1020002 Initial &/or annual employee training not conducted in safety procedures for a hazardous material release or threatened release &/or employee training records not available or not maintained for 3 years. HSC 25505(a)(4); 19 CCR 2659(b)

Classification: Class II

### Observations:

This facility has the capacity to store reportable amounts of hazardous materials or hazardous waste (55 gal, 500 lbs., or 200 cuft) and failed to maintain records of an adequate employee training program for the size of the facility and the nature of the hazardous materials handled. The training program shall, at a minimum, include methods for safe handling of hazardous materials; procedures for coordination with local emergency response organizations; use of emergency response equipment; and emergency response procedures for a release or threatened release of hazardous materials. Observed Daniel Guerrero, Owner stated that Carolyn Guerrero has the training documentation at home.

Corrective Action Due By: 10/05/2018

Within 30 days, locate the employee training documentation and send the corrective action form to this department.

### INSPECTION REMARKS:

Reminder: Federal hazard categories must be updated and parts washer waste can be removed from the CERS inventory. If the parts washer waste is not removed, it may affect the permit fee.

# COUNTY OF SAN DIEGO

Each violation checked below is for the section(s) of the California Health and Safety Code (HSC), California Code of Regulations (CCR), or the San Diego County Code (SDCC) indicated in *italics*. Incorporated provisions of Title 40 of the Code of Federal Regulations (CFR) are noted for reference. All violations must be corrected. Submit documentation of return to compliance to your Specialist. You may use the Corrective Action Form (HM-926) to document your return to compliance. Please call (858) 505-6880 or your Specialist if you have any questions. HMBP = Hazardous Materials Business Plan; CUPA = Certified Unified Program Agency; CERS = California Environmental Reporting System; SQG = Small Quantity Hazardous Waste Generator; LQG = Large Quantity Hazardous Waste Generator

### HAZARDOUS MATERIALS REQUIREMENTS

#	VIOLATION DESCRIPTION
<input type="checkbox"/>	1010001 Failed to establish and implement a HMBP. HSC 25505(a) and 25507(a)
<input type="checkbox"/>	1010002 HMBP not submitted to the CUPA in CERS. HSC 25508(a)(1)(A); 27 CCR 15188(a),(b),(d)
<input type="checkbox"/>	1010003 Business Activities &/or Business Owner/Operator page not completed in CERS. 19 CCR 2652(a)(1); SDCC 68.904(b); HSC 25508(a)(1)(A)
<input type="checkbox"/>	1010004 Chemical inventory incomplete or not submitted in CERS. HSC 25505(a)(1); 25507(a); 25508.1(a-b); 19 CCR 2654 (a) or (d)
<input type="checkbox"/>	1010005 Site map not submitted in CERS or not sufficient. HSC 25505(a)(2); 25508.1(f); 19 CCR 2652(a)(3)
<input type="checkbox"/>	1010006 Failed to update HMBP in CERS within 30 days of a substantial change to any portion of the HMBP, including inventory changes or facility information. HSC 25508.1(a-f); 19 CCR 2654(d); SDCC 68.904(c)(6)
<input type="checkbox"/>	1010008 HMBP not certified annually as complete and accurate in CERS. HSC 25508(a)(1)(A), 25508.2, 19 CCR 2654(b)
<input type="checkbox"/>	1010010 Emergency response plan and procedures to mitigate a release or threatened release not adequate, not established or not submitted in CERS. HSC 25505(a)(3), 25508(a)(1)(A); 19 CCR 2658
<input type="checkbox"/>	1010011 Failure to notify property owner in writing that the business is subject to the HMBP program. HSC 25505.1
<input type="checkbox"/>	1010012 Failure to provide a copy of HMBP to the property owner within five working days upon request from property owner. HSC 25505.1
<input type="checkbox"/>	1010014 Failure to submit emergency response plan in CERS, when not meeting agricultural handler exemption. HSC 25507.1(a) and 25508(a)(1)(A); 19 CCR 2670, 2671
<input type="checkbox"/>	1010015 Failure to submit employee training plan in CERS, when not meeting agricultural handler exemption. HSC 25507.1(a) and 25508(a)(1)(A)
<input type="checkbox"/>	1010016 HMBP not established or submitted in CERS, when not meeting the remote site exemption. HSC 25507.2 and 25508(a)(1)(A)
<input type="checkbox"/>	1020001 Employee training and/or plan for safety procedures in the event of a release or threatened release of a hazardous material not adequate, not established or not submitted in CERS. HSC 25505(a)(4) and 25508(a)(1)(A); 19 CCR 2659(a)
1 <input checked="" type="checkbox"/>	1020002 Initial &/or annual employee training not conducted in safety procedures for a hazardous material release or threatened release &/or employee training records not available or not maintained for 3 years. HSC 25505(a)(4); 19 CCR 2659(b)
<input type="checkbox"/>	1040001 Hazardous materials release or threatened release not immediately reported to the CUPA and OES upon discovery. HSC 25510(a); 19 CCR 2631(a)
<input type="checkbox"/>	HMD1001 Unified Program Facility permit not obtained for hazardous materials. SDCC 68.905; 68.906, 68.907
<input type="checkbox"/>	HMD1005 Emergency contact not provided or current in CERS. HSC 25508.1(f); SDCC 68.904(b)
<input type="checkbox"/>	HMD1007 Highly toxic gas (TLV<10 ppm) not disclosed in CERS. SDCC 68.1113(a)
<input type="checkbox"/>	HMD1008 Annual carcinogen/reproductive toxin list not submitted in CERS. SDCC 68.1113(b)
<input type="checkbox"/>	1010017 HMBP not readily available to facility personnel or the CUPA. HSC 25505(c)

### HAZARDOUS WASTE REQUIREMENTS FOR SQGS ONLY

#	VIOLATION DESCRIPTION
<input type="checkbox"/>	HMD0226 Did not accumulate waste in a container or tank. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(2)
<input type="checkbox"/>	3030007 Failed to properly label/date hazardous waste container &/or tank. 22 CCR 66262.34(f)
<input type="checkbox"/>	3030010 Accumulated waste too long (>180 or 270 days) or (>90 days). HSC 25201(a), 25123.3(h)(1); 22 CCR 66262.34(d); 40 CFR 262.34(e) and/or (f)
<input type="checkbox"/>	3030013 Failed to accumulate hazardous waste in a container that is in good condition. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(2), 265.171
<input type="checkbox"/>	3030015 Failed to accumulate or store hazardous waste in a lined &/or compatible container. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(2), 265.172
<input type="checkbox"/>	3030017 Failed to properly close hazardous waste container(s). 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(2), 265.173
<input type="checkbox"/>	3030019 Failed to inspect hazardous waste storage area at least weekly. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(2), 265.174
<input type="checkbox"/>	3030022 Failed to properly separate incompatible waste. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(2), 265.177
<input type="checkbox"/>	3030030 Failed to maintain &/or operate facility to minimize the possibility of a fire, explosion, or any unplanned sudden or non-sudden release of hazardous waste or hazardous waste constituents. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(4), 265.31
<input type="checkbox"/>	3030036 Failed to maintain adequate aisle space. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(4), 265.35
<input type="checkbox"/>	3010022 Failed to post, next to the telephone, emergency information containing the location of emergency equipment, contact names and phone numbers. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(5)(ii)
<input type="checkbox"/>	3020001 Failure to ensure employees are thoroughly familiar with proper waste handling and emergency procedures during normal facility operations and emergencies. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(5)(iii)
<input type="checkbox"/>	3030032 Failed to maintain the following emergency response equipment or equivalent: 1) An internal communication or alarm system; 2) A communication device, such as a telephone; 3) Portable fire extinguishers, fire/spill control equipment and decontamination equipment; and 4) Water at adequate volume and pressure. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(4), 265.32
<input type="checkbox"/>	3030039 Failed to have an emergency coordinator on the premises or on call, and available during an emergency. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(5)(i)
<input type="checkbox"/>	HMD0412 Failed to implement and/or coordinate emergency response measures during an emergency, spill/release. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(5)(iv)

### HAZARDOUS WASTE TANK SYSTEMS FOR SQGS ONLY

#	VIOLATION DESCRIPTION
<input type="checkbox"/>	3030024 Failed to operate uncovered tank to ensure at least 2 ft. of freeboard to prevent overtopping, unless the tank is equipped with a containment structure, a drainage control system, or a diversion structure with a capacity that equals or exceeds the volume of the top 2 ft. of the tank. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(3), 265.201(b)(c)

# COUNTY OF SAN DIEGO

## COMPLIANCE INSPECTION REPORT

INSPECTION DATE: 09/05/2018 PAGE 4 OF 5  
 RECORD ID #: DEH2014-HUPFP-001449

### Hazardous Materials and Hazardous Waste (continued)

- 3030025 Failed to provide an overfill protection device on continuously fed hazardous waste tank(s). 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(3), 265.201(b)(4)
- 3030027 Failed to conduct daily tank inspection of discharge control system, monitoring equipment and waste level. 22 CCR 66262.34(d)(2); 40 CFR 265.201(c)(1-3), 262.34(d)(3)
- 3030028 Failed to conduct weekly hazardous waste tank inspection(s) to detect signs of leakage and ensure that the construction materials, fixtures and surrounding areas of the tank are in good condition. 22 CCR 66262.34(d)(2); 40 CFR 265.201(c)(4 & 5), 262.34(d)(3)
- 3050007 Failed to properly remove all waste upon closure, decontaminate, and document the closure of a hazardous waste tank system. 22 CCR 67383.3; 40 CFR 262.34(d)(3), 265.201(f)
- HMD1612 Hazardous waste improperly stored in a tank system causing leaks, corrosion, or failure. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(3), 265.201(b)
- HMD1614 Failed to pre-notify the CUPA in writing prior to closing a hazardous waste tank system. 22 CCR 67383.3(a)(1)
- HMD1615 Failed to properly accumulate ignitable or reactive waste in a tank system. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(3), 265.201(g)

 E-MAIL: \_\_\_\_\_

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

**NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.**

CONSENT TO CONDUCT INSPECTION GRANTED BY: N/A

TITLE: N/A

### INTRODUCTION:

Today I conducted a closure inspection of Torque-Spec Garage Inc. DBA Lach Motorsports. I went to the facility to conduct a routine compliance inspection and the front door was locked and the back bay door was closed. I called the business phone number (619) 497-1717 and the number was not operational. I called business owner Daniel Guerrero who stated the business was closed in February 2020. Daniel Guerrero stated hazardous wastes were properly disposed of with Mammoth Environmental, but that records were not kept.

In DTSC's Hazardous Waste Tracking System/TQR report, I observed hazardous wastes had been picked up on 10/17/18 and 5/16/19 (hazardous waste ID number CAL000421639).

I contacted the property owner MCS Sports Arena Business Park LLC and spoke with Lesley Jackson who confirmed Torque-Spec Garage Inc. DBA Lach Motorsports is no longer operating at this location and stated the facility had left behind used oil/oil drum. Lesley Jackson stated they contracted with World Oil for proper disposal of the hazardous waste left behind.

The HWTS/TQR shows hazardous waste disposal using temporary hazardous waste ID number CAC003078327 for disposal of 5 gallons (State Waste Code 221) on 8/12/2020 and 300 pounds (State Waste Code 223) on 8/20/2020.

### INSPECTION REMARKS:

*There was no facility representative available to sign the report at the time of inspection.*

COMPLIANCE INSPECTION REPORT

BUSINESS NAME BRITISH AND ITALIAN Automotive
ADDRESS 3770 HANCOCK ST SUITE A
CITY/ZIP SAN DIEGO 92170

On the above date an inspection of your business/facility was conducted in order to determine compliance with the California Health and Safety Code (H&S) Chapters 6.5, 6.7, 6.95; Titles 19, 22 and 23 of the California Code of Regulations (CCR); and the San Diego County Code (SDCC). The following remarks are intended to provide guidance to correct the violations noted on the attached violation report.

Table with 2 columns and 15 rows, labeled 'Office Use Only'.

ROUTINE ANNUAL INSPECTION MAY 23 1996
- PERMIT EXPIRES 11/30/96
- RECORDS OF DISPOSAL FOR USED OIL & SAFETY KLEEN ON SITE
MR GILL COULDN'T FIND THE RECEIPT FOR OIL FILTERS BUT HE HAD A CHECK STUB
- MR GILL COMPLETED A HAZARDOUS MATERIALS BUSINESS PLAN BIENNIAL CERTIFICATION DURING THE INSPECTION

Handwritten signature and date: file 5/24/96

THE ONLY VIOLATIONS OBSERVED WERE:
(1) THE LABELS ON THE USED OIL DRUM WERE TOO FADED TO READ. PLEASE RELABEL THE DRUMS WITH THE GENERATORS INFORMATION TO COMPLY WITH THE REQUIREMENTS OF TITLE 22 CALIFORNIA CODE OF REGULATIONS. DO THIS BY 5/10/96 CLOSE OF BUSINESS

(2) THE LAST DOCUMENTATION OF HAZARDOUS WASTE HANDLING AND EMERGENCY PROCEDURE TRAINING WAS 2/95. TITLE 22 REQUIRES THAT YOU CONDUCT AND DOCUMENT THIS TRAINING EVERY 12 MONTHS. TO COMPLY WITH THE LAW REVIEW THE PROCEDURES LISTED ON YOUR 2/95 TRAINING RECORD BY 6/30/96.

## COMPLIANCE INSPECTION REPORT

DATE 5 / 9 / 96

PAGE 2 OF 2

BUSINESS ADDRESS: 3770 HANCOCK ST, SAN DIEGO 92110

**VIOLATION REPORT:** The items checked below refer to specific section numbers of Titles 19/22/23 of the California Code of Regulations (CCR), Chapters 6.5, 6.7, 6.95 of the Health and Safety Code (HSC), and/or the San Diego County Code (SDCC).

### I HAZARDOUS WASTE REQUIREMENTS:

#### RECORD KEEPING

- Health Permit not obtained SDCC 88.905
- No EPA Identification Number 66262.12
- Waste Manifests/Receipts not on-site for 3 years 66262.40
- Manifest not properly completed 66262.23
- Manifest copy not sent to CAL-EPA 66262.23
- TSDf signed-manifest not on-site 66262.40
- Biennial report not sent to CAL-EPA 66262.41
- LDR Documentation not available 66268.7
- Exception Rpt. not filed with CAL-EPA 66262.42
- Operating TSDf without authorization 25201

- V0108 W
- V0105 W
- V0118 W
- V0120 W
- V0115 W
- V0121 W
- V0122 W
- V0123 W
- V0116 W
- V0124 W

#### STORAGE AND HANDLING

- Waste stored longer than 90 days 66262.34
- Waste container missing/improperly labeled 66262.34
- Haz Materials not properly labeled 25124
- Waste container not kept closed 66265.173
- Waste container in poor condition 66265.171
- Waste container(s) not properly managed 66265.173
- Damaged container not repackaged 66265.171
- Container incompatible with waste 66265.172
- Incompatibles in the same container 66265.177
- Incompatibles not stored separately 66265.177
- Ignitable Wastes less than 50 feet 66265.178
- Ignitable Wastes not grounded 66265.31
- Storage area not inspected weekly 66265.174

- V0221 W
- V0222 W
- V0223 W
- V0202 W
- V0205 W
- V0210 W
- V0226 W
- V0207 W
- V0224 W
- V0213 W
- V0214 W
- V0215 W
- V0216 W

#### DISPOSAL AND TRANSPORTATION

- Unauth. disposal of waste to 25189.5
- Waste determination not made 66262.11
- Unlawful transport of haz. waste 25183
- Waste transported without manifest 66262.20
- No Extremely Haz. Waste Permit 67430.1

- V0313 W
- V0319 W
- V0315 W
- V0316 W
- V0317 W

#### TRAINING, CONTINGENCY PLAN & EMERGENCY PROCEDURES

- Training records unavailable 66265.18 1996
- Training program not adequate 66265.16
- Facility not designed to minimize release 66265.31
- Spill control equip not available 66265.32
- Aisle space is obstructed 66265.35
- Contingency plan not prepared and/or on file 66265.51, 66265.53

- V0405 W
- V0406 W
- V0501 W
- V0508 W
- V0509 W
- V0609 W

#### MISCELLANEOUS

- Waste oil contaminated 25250.7
- Used oil filters improperly managed 66266.130
- Damaged batteries improperly managed 66266.81

- V0225 W
- V0701 W
- V0702 W

### II UNDERGROUND STORAGE TANK (UST) REQUIREMENTS:

#### GENERAL UST REQUIREMENTS

- Health Permit not obtained 68.1005, 25284
- Repair/modify/close permit not obtained 68.1005
- UST Permit Application not submitted 25286(a)
- Operating permit conditions violated 2712
- Failed to notify HMMD of changes 25284
- No owner/operator agreement 25293
- No records of financial coverage 25292.2
- No maint/monit/calib records available 2712(b), 2641i

- V3002 T
- V3007 T
- V3010 T
- V3011 T
- V3012 T
- V3005 T
- V3013 T
- V3001 T

#### MONITORING REQUIREMENTS (SINGLE WALL)

- Leak Detection Method does not meet performance standards 2643
- Annual Integrity test not conducted 25292
- Copy of tank test not submitted to HMMD within 30 days 2643
- Manual tank gauging (< 2000 gal) not done properly 2645
- Reconciliation not done properly 2646
- Reconciliation not approved for facility 2646
- Dispenser meter(s) not calib annually 2646
- Improper liquid measurements 2646
- Stick in poor condition 2646
- Improper monthly reconciliation 2646
- Failed to report excessive variation 2646
- Pressurized Product Piping Leak Device not tested annually 25292

- V3014 T
- V3015 T
- V3016 T
- V3017 T
- V3018 T
- V3019 T
- V3020 T
- V3021 T
- V3022 T
- V3023 T
- V3024 T
- V3025 T

#### MONITORING REQUIREMENTS (DOUBLE WALL)

- Monitoring system not functional 2632
- No written monitoring procedure 2632
- Written response plan not available 2632
- Spill/Overfill equip. not maintained or installed 2635

- V3026 T
- V3027 T
- V3028 T
- V3029 T

#### RELEASE REPORTING

- Failure to report an unauthorized release 25295
- Release record log not available 2651, 2650
- No leak report/investigation/action 2652

- V3009 T
- V3030 T
- V3031 T

#### CLOSURE

- Temporary closure req. not completed 2671
- Abandoned tank not properly closed 25298
- Permanent closure req. not completed 2672

- V3006 T
- V3032 T
- V3033 T

### III HAZARDOUS MATERIALS BUSINESS PLAN REQUIREMENTS:

#### RECORD KEEPING

- Health Permit not obtained SDCC 68.1105
- Business Plan not established/implemented 25503.5
- Business Plan not submitted to HMMD 25505
- Business Plan not amended 25505
- Personnel Training Records not available 2732

- V2001 W
- V2002 W
- V2007 W
- V2003 W
- V2302 W

#### RELEASE REPORTING

- Failure to report a release/threatened release 25507

- V2008 W

#### BUSINESS PLAN ELEMENTS

- Emergency Response Plan inadequate 25504
- Emergency Contacts not provided/current 25509
- Personnel Training Program inadequate 25504
- Inventory is incomplete 25504
- Site Map is not sufficient 25509
- Acutely Haz. Mat. not registered 25533

- V2201 W
- V2203 W
- V2301 W
- V2005 W
- V2202 W
- V2009 W

An inspection summary report will be mailed shortly. All violations must be corrected. Please call (619) 338-2222 if you have any questions.

- Facility has failed to notify local CUPA and DTSC of onsite treatment of hazardous waste (tiered permitting) **V0125 W**
- Onsite treatment of waste without authorization 25201 **V0125 W**

### II UNDERGROUND STORAGE TANK (UST) REQUIREMENTS:

#### GENERAL UST REQUIREMENTS

- Health Permit not obtained 68.1005, 25284 **V3002 T**
- Repair/modify/close permit not obtained 68.1005 **V3007 T**
- UST Permit Application not submitted 25286(a) **V3010 T**
- Operating permit conditions violated 2712 **V3011 T**
- Failed to notify HMMD of changes 25284 **V3012 T**
- No owner/operator agreement 25284 **V3005 T**
- No records of financial coverage 25292.2 **V3013 T**
- No maint/monit/calib records available 2712(b), 2641(j) **V3001 T**
- Monitoring Equip. not tested annually 2630, 2641 **V3003 T**

#### MONITORING REQUIREMENTS (SINGLE WALL)

- Leak Detection Method does not meet performance standards 2643 **V3014 T**
- Integrity test not conducted 25292 **V3015 T**
- Copy of tank test not submitted to HMMD within 30 days 2643 **V3016 T**
- Manual tank gauging (<2000 gal) 2645 not done properly **V3017 T**
- Reconciliation not done properly 2646 **V3018 T**
- Reconciliation not approved for facility 2646 **V3019 T**
- Dispenser meter(s) not calib annually 2646 **V3020 T**
- Improper liquid measurements 2646 **V3021 T**
- Stick in poor condition 2646 **V3022 T**
- Improper monthly reconciliation 2646 **V3023 T**
- Failed to report excessive variation 2646 **V3024 T**
- Pressurized Product Piping Leak Device not tested annually 25292 **V3025 T**
- No written monitoring procedure 2641 **V3027 T**
- No written emergency response plan 2641 **V3027 T**
- SIR reporting incorrectly done 2646.1 **V3004 T**

#### MONITORING REQUIREMENTS (DOUBLE WALL)

- Monitoring system not functional 2632 **V3026 T**
- No written monitoring procedure 2632 **V3027 T**
- Written emergency response plan not available 2632 **V3028 T**
- Spill/Overfill equip. not maintained or installed 2635 **V3029 T**

#### RELEASE REPORTING

- Failure to report an unauthorized release 25295 **V3009 T**
- Release record log not available 2651, 2650 **V3030 T**
- No leak report/investigation/action 2652 **V3031 T**

#### CLOSURE

- Temporary closure req. not completed 2671 **V3006 T**
- Unused tank not properly closed 25298 **V3032 T**
- Permanent closure req. not completed 2672 **V3033 T**
- Failed to apply for temporary closure 25298 **V3008 T**

### III HAZARDOUS MATERIALS BUSINESS PLAN REQUIREMENTS:

#### RECORD KEEPING

- Health Permit not obtained SDCC 68.1105 **V2001 W**
- Business Plan not established/implemented 25503.5 **V2002 W**
- Business Plan not submitted to HMMD 25505 **V2007 W**
- Business Plan not amended 25505 **V2003 W**
- Personnel Training Records not available 19/CCR 2732 **V2302 W**

#### RELEASE REPORTING

- Failure to report a release/threatened release 25507 **V2008 W**

#### BUSINESS PLAN ELEMENTS

- Emergency Response Plan inadequate 25504 **V2201 W**
- Emergency Contacts not provided/current 25509 **V2203 W**
- Personnel Training Program inadequate 25504 **V2301 W**
- Inventory is incomplete 25504 **V2005 W**
- Site Map is not sufficient 25509 **V2202 W**
- Acutely Haz. Mat. not registered 25533 **V2009 W**

ALL VIOLATIONS MUST BE CORRECTED. PLEASE CALL (619) 338-2222 OR YOUR INSPECTOR IF YOU HAVE ANY QUESTIONS.

## COMPLIANCE INSPECTION REPORT

DATE 4/17/00

PAGE 2 OF 2

BUSINESS ADDRESS: 3770 Harcode St. Suite A San Diego CA 92110

**VIOLATION REPORT:** The items checked below refer to specific section numbers of Titles 19/22/23 of the California Code of Regulations (CCR), Chaptre 6.5, 6.7, 6.95 of the Health and Safety Code (HSC), and/or the San Diego County Code (SDCC).

### I HAZARDOUS WASTE REQUIREMENTS:

#### RECORD KEEPING

- Health Permit not obtained SDCC 68.905 **V0108 W** \_\_\_\_\_
- No EPA Identification Number 66262.12 **V0105 W** \_\_\_\_\_
- Waste Manifests/Receipts not on-site for 3 years 66262.40 **V0118 W** \_\_\_\_\_
- Manifest not properly completed 66262.23 **V0120 W** \_\_\_\_\_
- Manifest copy not sent to DTSC 66262.23 **V0115 W** \_\_\_\_\_
- TSDF signed-manifest not on-site 66262.40 **V0121 W** \_\_\_\_\_
- Biennial report not sent to DTSC 66262.41 **V0122 W** \_\_\_\_\_
- LDR Documentation not available 66268.7 **V0123 W** \_\_\_\_\_
- Exception Rpt. not filed with DTSC 66262.42 **V0116 W** \_\_\_\_\_
- Operating TSDF without authorization 25201 **V0124 W** \_\_\_\_\_

#### STORAGE AND HANDLING

- Waste stored longer than 90, 180, or 270 days 66262.34 **V0221 W** \_\_\_\_\_
- Failure to clean up hazwaste off of floor surface 66262.10b **V0313 W** \_\_\_\_\_
- Waste container missing/improperly labeled 66262.34 **V0222 W** \_\_\_\_\_
- Haz Materials not properly labeled 25124 **V0223 W** \_\_\_\_\_
- Waste container not kept closed 66265.173 **V0202 W** \_\_\_\_\_
- Waste container in poor condition 66265.171 **V0205 W** \_\_\_\_\_
- Waste container(s) not properly managed 66265.173 **V0210 W** \_\_\_\_\_
- Damaged container not repackaged 66265.171 **V0226 W** \_\_\_\_\_
- Container incompatible with waste 66265.172 **V0207 W** \_\_\_\_\_
- Incompatibles in the same container 66265.177 **V0224 W** \_\_\_\_\_
- Incompatibles not stored separately 66265.177 **V0213 W** \_\_\_\_\_
- Ignitable Waste less than 50 feet 66265.176 **V0214 W** \_\_\_\_\_
- Ignitable Waste not grounded 66265.31 **V0215 W** \_\_\_\_\_
- Storage area not inspected weekly 66265.174 **V0216 W** \_\_\_\_\_

#### DISPOSAL AND TRANSPORTATION

- Unauth. disposal of waste to \_\_\_\_\_ 25189.5 **V0313 W** \_\_\_\_\_
- Waste determination not made 66262.11 **V0319 W** \_\_\_\_\_
- Unlawful transport of haz. waste 25163 **V0315 W** \_\_\_\_\_
- Waste transported without manifest 66262.20 **V0316 W** \_\_\_\_\_
- Extremely Haz Waste Permit not obtained 25205.7 **V0317 W** \_\_\_\_\_

#### TRAINING, CONTINGENCY PLAN & EMERGENCY PROCEDURES

- Training records unavailable 66265.16 **V0405 W** \_\_\_\_\_
- Training program not adequate 66265.16 **V0406 W** \_\_\_\_\_
- Facility not designed to minimize release 66265.31 **V0501 W** \_\_\_\_\_
- Spill control equip not available 66265.32 **V0508 W** \_\_\_\_\_
- Aisle space is obstructed 66265.35 **V0509 W** \_\_\_\_\_
- Contingency plan not prepared and/or on file 66265.51, 66265.53 **V0609 W** \_\_\_\_\_

#### MISCELLANEOUS

- Waste oil contaminated 25250.7 **V0225 W** \_\_\_\_\_
- Used oil filters improperly managed 66266.130 **V0701 W** \_\_\_\_\_
- Damaged batteries improperly managed 66266.81 **V0702 W** \_\_\_\_\_
- Facility has failed to notify local CUPA and DTSC of onsite treatment of hazardous waste (tiered permitting) **V0125 W** \_\_\_\_\_
- Onsite treatment of waste without authorization 25201 **V0125 W** \_\_\_\_\_

### II UNDERGROUND STORAGE TANK (UST) REQUIREMENTS:

#### GENERAL UST REQUIREMENTS

- Health Permit not obtained 68.1005, 25284 **V3002 T** \_\_\_\_\_
- Repair/modify/close permit not obtained 68.1005 **V3007 T** \_\_\_\_\_
- UST Permit Application not submitted 25286(a) **V3010 T** \_\_\_\_\_
- Operating permit conditions violated 2712 **V3011 T** \_\_\_\_\_
- Failed to notify HMMD of changes 25284 **V3012 T** \_\_\_\_\_
- No owner/operator agreement 25284 **V3005 T** \_\_\_\_\_
- No records of financial coverage 25292.2 **V3013 T** \_\_\_\_\_
- No maint/monit/calib records available 2712(b), 2641(j) **V3001 T** \_\_\_\_\_
- Monitoring Equip. not tested annually 2630, 2641 **V3003 T** \_\_\_\_\_

#### MONITORING REQUIREMENTS (SINGLE WALL)

- Leak Detection Method does not meet performance standards 2643 **V3014 T** \_\_\_\_\_
- Integrity test not conducted 25292 **V3015 T** \_\_\_\_\_
- Copy of tank test not submitted to HMMD within 30 days 2643 **V3016 T** \_\_\_\_\_
- Manual tank gauging (<2000 gal) 2645 not done properly **V3017 T** \_\_\_\_\_
- Reconciliation not done properly 2646 **V3018 T** \_\_\_\_\_

Routine Inspection

JAN 07 2002

All documents were reviewed and found to be in order at this time

A site walk through found no violation at this time

This is an annual certification that the Hazardous Materials Business Plan (inventory, emergency contacts, emergency response plan, and employee training plan) is current and includes all the information required in the H&SC and is maintained at the site where hazardous materials are stored.

Permission was granted today by Ian Gill to conduct a routine OUPA inspection.

RECEIVED JUL 15 2008

Observations/Remarks:

The correct accumulation start dates were written on a drum of used oil and used oil filters during today's inspection.

Be ~~at~~ sure to keep drums of hazardous waste properly closed (including the bung cap) at all times when not in direct use.

Be advised that universal waste (fluorescent lights, alkaline batteries, non-empty aerosol cans, electronics and more) can no longer go in the regular trash in CA. Visit [www.dtsc.ca.gov](http://www.dtsc.ca.gov) for general info and [www.ilacsd.org](http://www.ilacsd.org) for possible disposal options.

This is an annual certification that the Hazardous Materials Business Plan (inventory, emergency contacts, emergency response plan, and employee training plan) is current and includes all the information required in the H&SC and is maintained at the site where hazardous materials are stored.

 TIME START: 10:55 AM END: 11:50 AM  
 SPECIALIST: Mike Burke  
 INSPECTION CONTACT: N/A  
 TITLE: N/A  
 PHONE: \_\_\_\_\_  
 E-MAIL: \_\_\_\_\_

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

**NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.**

COMPLIANCE INSPECTION REPORT

BUSINESS NAME Autohaus Munich  
ADDRESS 3770 Hancock St #E  
CITY/ZIP San Diego 92110

On the above date an inspection of your business/facility was conducted in order to determine compliance with the California Health and Safety Code (H&S) Chapters 6.5, 6.7, 6.95; Titles 19, 22 and 23 of the California Code of Regulations (CCR); and the San Diego County Code (SDCC). The following remarks are intended to provide guidance to correct the violations noted on the attached violation report.

P: 4/1/96 (C)

Office Use Only

Routine Inspection FEB 22 1996

\* The Health Permit is posted & current.  
\* The used oil is closed and labeled.  
\* The Hazardous Materials Business Plan is on site and no update is required.  
\* Disposal receipts are on site for used oil and solvent.

• Antifreeze can no longer be disposed of to the sewer if it meets the criteria of a hazardous waste. Recommend that the spent coolant be recycled - contact your hazardous waste hauler and review antifreeze recycling vs. hauling as a hazardous waste.

• Substantial compliance observed this date.

COMPLIANCE INSPECTION REPORT

DATE 2/21/96

PAGE 2 OF 2

BUSINESS ADDRESS: 3770 Harcourt St. 92110

VIOLATION REPORT: The items checked below refer to specific section numbers of Titles 19/22/23 of the California Code of Regulations (CCR), Chapters 6.5, 6.7, 6.95 of the Health and Safety Code (HSC), and/or the San Diego County Code (SDCC).

I HAZARDOUS WASTE REQUIREMENTS:

RECORD KEEPING

- Health Permit not obtained SDCC 68.905
No EPA Identification Number 66262.12
Waste Manifests/Receipts not on-site for 3 years 66262.40
Manifest not properly completed 66262.23
Manifest copy not sent to CAL-EPA 66262.33
TSDF signed-manifest not on-site 66262.40
Biennial report not sent to CAL-EPA 66262.41
LDR Documentation not available 66268.7
Exception Rpt. not filed with CAL-EPA 66262.42
Operating TSDF without authorization 25201

STORAGE AND HANDLING

- Waste stored longer than 90 days 66262.34
Waste container missing/improperly labeled 66262.34
Hazardous Materials not properly labeled 25124
Waste container not kept closed 66265.173
Waste container in poor condition 66265.171
Waste container(s) not properly managed 66265.173
Damaged container not repackaged 66265.171
Container incompatible with waste 66265.172
Incompatibles in the same container 66265.177
Incompatibles not stored separately 66265.177
Ignitable Wastes less than 50 feet 66265.176
Ignitable Wastes not grounded 66265.31
Storage area not inspected weekly 66265.174

DISPOSAL AND TRANSPORTATION

- Unauth. disposal of waste to 25189.5
Waste determination not made 66262.11
Unlawful transport of haz. waste 25163
Waste transported without manifest 66262.20
No Extremely Haz. Waste Permit 67430.1

TRAINING, CONTINGENCY PLAN & EMERGENCY PROCEDURES

- Training records unavailable 66265.16
Training program not adequate 66265.16
Facility not designed to minimize release 66265.31
Spill control equip not available 66265.32
Aisle space is obstructed 66265.35
Contingency plan not prepared and/or on file 66265.51, 66265.53

MISCELLANEOUS

- Waste oil contaminated 25250.7
Used oil filters improperly managed 66266.130
Damaged batteries improperly managed 66266.81

II UNDERGROUND STORAGE TANK (UST) REQUIREMENTS:

GENERAL UST REQUIREMENTS

- Health Permit not obtained 68.1005, 25284
Repair/modify/close permit not obtained 68.1005
UST Permit Application not submitted 25286(a)
Operating permit conditions violated 2712
Failed to notify HMMD of changes 25284
No owner/operator agreement 25293
No records of financial coverage 25292.2
No maint/monit/calib records available 2712(b), 2641i

MONITORING REQUIREMENTS (SINGLE WALL)

- Leak Detection Method does not meet performance standards 2643
Annual Integrity test not conducted 25292
Copy of tank test not submitted to HMMD within 30 days 2643
Manual tank gauging (<2000 gal) 2645 not done properly
Reconciliation not done properly 2646
Reconciliation not approved for facility 2646
Dispenser meter(s) not calib annually 2646
Improper liquid measurements 2646
Stick in poor condition 2646
Improper monthly reconciliation 2646
Failed to report excessive variation 2646
Pressurized Product Piping Leak Device not tested annually 25292

MONITORING REQUIREMENTS (DOUBLE WALL)

- Monitoring system not functional 2632
No written monitoring procedure 2632
Written response plan not available 2632
Spill/Overfill equip. not maintained or installed 2635

RELEASE REPORTING

- Failure to report an unauthorized release 25295
Release record log not available 2651, 2650
No leak report/investigation/action 2652

CLOSURE

- Temporary closure req. not completed 2671
Abandoned tank not properly closed 25298
Permanent closure req. not completed 2672

III HAZARDOUS MATERIALS BUSINESS PLAN REQUIREMENTS:

RECORD KEEPING

- Health Permit not obtained SDCC 68.1105
Business Plan not established/implemented 25503.5
Business Plan not submitted to HMMD 25505
Business Plan not amended 25505
Personnel Training Records not available 2732

RELEASE REPORTING

- Failure to report a release/threatened release 25507

BUSINESS PLAN ELEMENTS

- Emergency Response Plan inadequate 25504
Emergency Contacts not provided/current 25509
Personnel Training Program inadequate 25504
Inventory is incomplete 25504
Site Map is not sufficient 25509
Acutely Haz. Mat. not registered 25533

An inspection summary report will be mailed shortly. All violations must be corrected. Please call (619) 338-2222 if you have any questions.

## COMPLIANCE INSPECTION REPORT

DATE 10/19/00

PAGE 2 OF 2

BUSINESS ADDRESS: 3770 Hancock St. Suite E SD 92160

**VIOLATION REPORT:** The items checked below refer to specific section numbers of Titles 19/22/23 of the California Code of Regulations (CCR), Chapters 6.5, 6.7, 6.95 of the Health and Safety Code (HSC), and/or the San Diego County Code (SDCC).

### I HAZARDOUS WASTE REQUIREMENTS:

#### RECORD KEEPING

- Health Permit not obtained SDCC 68.905 V0108 W \_\_\_\_\_
- No EPA Identification Number 66262.12 V0105 W \_\_\_\_\_
- Waste Manifests/Receipts not on-site for 3 years 66262.40 V0118 W \_\_\_\_\_
- Manifest not properly completed 66262.23 V0120 W \_\_\_\_\_
- Manifest copy not sent to DTSC 66262.23 V0115 W \_\_\_\_\_
- TSDF signed-manifest not on-site 66262.40 V0121 W \_\_\_\_\_
- Biennial report not sent to DTSC 66262.41 V0122 W \_\_\_\_\_
- LDR Documentation not available 66268.7 V0123 W \_\_\_\_\_
- Exception Rpt. not filed with DTSC 66262.42 V0116 W \_\_\_\_\_
- Operating TSDF without authorization 25201 V0124 W \_\_\_\_\_

#### STORAGE AND HANDLING

- Waste stored longer than 90, 180, or 270 days 66262.34 V0221 W \_\_\_\_\_
- Failure to clean up hazwaste off of floor surface 66262.10b V0313 W \_\_\_\_\_
- Waste container missing/improperly labeled 66262.34 V0222 W \_\_\_\_\_
- Haz Materials not properly labeled 25124 V0223 W \_\_\_\_\_
- Waste container not kept closed 66265.173 V0202 W \_\_\_\_\_
- Waste container in poor condition 66265.171 V0205 W \_\_\_\_\_
- Waste container(s) not properly managed 66265.173 V0210 W \_\_\_\_\_
- Damaged container not repackaged 66265.171 V0226 W \_\_\_\_\_
- Container incompatible with waste 66265.172 V0207 W \_\_\_\_\_
- Incompatibles in the same container 66265.177 V0224 W \_\_\_\_\_
- Incompatibles not stored separately 66265.177 V0213 W \_\_\_\_\_
- Ignitable Waste less than 50 feet 66265.176 V0214 W \_\_\_\_\_
- Ignitable Waste not grounded 66265.31 V0215 W \_\_\_\_\_
- Storage area not inspected weekly 66265.174 V0216 W \_\_\_\_\_

#### DISPOSAL AND TRANSPORTATION

- Unauth. disposal of waste to \_\_\_\_\_ 25189.5 V0313 W \_\_\_\_\_
- Waste determination not made 66262.11 V0319 W \_\_\_\_\_
- Unlawful transport of haz. waste 25163 V0315 W \_\_\_\_\_
- Waste transported without manifest 66262.20 V0316 W \_\_\_\_\_
- Extremely Haz Waste Permit not obtained 25205.7 V0317 W \_\_\_\_\_

#### TRAINING, CONTINGENCY PLAN & EMERGENCY PROCEDURES

- Training records unavailable 66265.16 V0405 W \_\_\_\_\_
- Training program not adequate 66265.16 V0406 W \_\_\_\_\_
- Facility not designed to minimize release 66265.31 V0501 W \_\_\_\_\_
- Spill control equip not available 66265.32 V0508 W \_\_\_\_\_
- Aisle space is obstructed 66265.35 V0509 W \_\_\_\_\_
- Contingency plan not prepared and/or on file 66265.51, 66265.53 V0609 W \_\_\_\_\_

#### MISCELLANEOUS

- Waste oil contaminated 25250.7 V0225 W \_\_\_\_\_
- Used oil filters improperly managed 66266.130 V0701 W \_\_\_\_\_
- Damaged batteries improperly managed 66266.81 V0702 W \_\_\_\_\_
- Facility has failed to notify local CUPA and DTSC of onsite treatment of hazardous waste (tiered permitting) V0125 W \_\_\_\_\_
- Onsite treatment of waste without authorization 25201 V0125 W \_\_\_\_\_

### II UNDERGROUND STORAGE TANK (UST) REQUIREMENTS:

#### GENERAL UST REQUIREMENTS

- Health Permit not obtained 68.1005, 25284 V3002 T \_\_\_\_\_
- Repair/modify/close permit not obtained 68.1005 V3007 T \_\_\_\_\_
- UST Permit Application not submitted 25286(a) V3010 T \_\_\_\_\_
- Operating permit conditions violated 2712 V3011 T \_\_\_\_\_
- Failed to notify HMMD of changes 25284 V3012 T \_\_\_\_\_
- No owner/operator agreement 25284 V3005 T \_\_\_\_\_
- No records of financial coverage 25292.2 V3013 T \_\_\_\_\_
- No maint/monit/calib records available 2712(b), 2641(j) V3001 T \_\_\_\_\_
- Monitoring Equip. not tested annually 2630, 2641 V3003 T \_\_\_\_\_

#### MONITORING REQUIREMENTS (SINGLE WALL)

- Leak Detection Method does not meet performance standards 2643 V3014 T \_\_\_\_\_
- Integrity test not conducted 25292 V3015 T \_\_\_\_\_
- Copy of tank test not submitted to HMMD within 30 days 2643 V3016 T \_\_\_\_\_
- Manual tank gauging (<2000 gal) 2645 not done properly V3017 T \_\_\_\_\_
- Reconciliation not done properly 2646 V3018 T \_\_\_\_\_
- Reconciliation not approved for facility 2646 V3019 T \_\_\_\_\_
- Dispenser meter(s) not calib annually 2646 V3020 T \_\_\_\_\_
- Improper liquid measurements 2646 V3021 T \_\_\_\_\_
- Stick in poor condition 2646 V3022 T \_\_\_\_\_
- Improper monthly reconciliation 2646 V3023 T \_\_\_\_\_
- Failed to report excessive variation 2646 V3024 T \_\_\_\_\_
- Pressurized Product Piping Leak Device not tested annually 25292 V3025 T \_\_\_\_\_
- No written monitoring procedure 2641 V3027 T \_\_\_\_\_
- No written emergency response plan 2641 V3027 T \_\_\_\_\_
- SIR reporting incorrectly done 2646.1 V3004 T \_\_\_\_\_

#### MONITORING REQUIREMENTS (DOUBLE WALL)

- Monitoring system not functional 2632 V3026 T \_\_\_\_\_
- No written monitoring procedure 2632 V3027 T \_\_\_\_\_
- Written emergency response plan not available 2632 V3028 T \_\_\_\_\_
- Spill/Overfill equip. not maintained or installed 2635 V3029 T \_\_\_\_\_

#### RELEASE REPORTING

- Failure to report an unauthorized release 25295 V3009 T \_\_\_\_\_
- Release record log not available 2651, 2650 V3030 T \_\_\_\_\_
- No leak report/investigation/action 2652 V3031 T \_\_\_\_\_

#### CLOSURE

- Temporary closure req. not completed 2671 V3006 T \_\_\_\_\_
- Unused tank not properly closed 25298 V3032 T \_\_\_\_\_
- Permanent closure req. not completed 2672 V3033 T \_\_\_\_\_
- Failed to apply for temporary closure 25298 V3008 T \_\_\_\_\_

### III HAZARDOUS MATERIALS BUSINESS PLAN REQUIREMENTS:

#### RECORD KEEPING

- Health Permit not obtained SDCC 68.1105 V2001 W \_\_\_\_\_
- Business Plan not established/implemented 25503.5 V2002 W \_\_\_\_\_
- Business Plan not submitted to HMMD 25505 V2007 W \_\_\_\_\_
- Business Plan not amended 25505 V2003 W \_\_\_\_\_
- Personnel Training Records not available 19 CCR 2732 V2302 W \_\_\_\_\_

#### RELEASE REPORTING

- Failure to report a release/threatened release 25507 V2008 W \_\_\_\_\_

#### BUSINESS PLAN ELEMENTS

- Emergency Response Plan inadequate 25504 V2201 W \_\_\_\_\_
- Emergency Contacts not provided/current 25509 V2203 W \_\_\_\_\_
- Personnel Training Program inadequate 25504 V2301 W \_\_\_\_\_
- Inventory is incomplete 25504 V2005 W \_\_\_\_\_
- Site Map is not sufficient 25509 V2202 W \_\_\_\_\_
- Acutely Haz. Mat. not registered 25533 V2009 W \_\_\_\_\_

ALL VIOLATIONS MUST BE CORRECTED. PLEASE CALL (619) 338-2222 OR YOUR INSPECTOR IF YOU HAVE ANY QUESTIONS.

BUSINESS NAME Arthaus Munich  
 ADDRESS 3770 Hancock St.  
 CITY/ZIP San Diego CA 92110

On the above date, an inspection of your business/facility was conducted in order to determine compliance with the California Health and Safety Code (H&S) Chapters 6.5, 6.7, 6.95; Titles 19, 22 and 23 of the California Code of Regulations (CCR); and the San Diego County Code (SDCC). The following remarks are intended to provide guidance to correct the violations noted on the attached violation report.

Office Use Only

During the physical site inspection, Arthaus Munich was in substantial compliance with hazardous waste requirements.

During this inspection the following documents were unavailable because the owner was out of town.

- Hazardous Waste Disposal Manifest
- Employee Training Record for Emergency Procedures and "general" hazardous waste/materials management.
- Hazardous Materials Business Plan.

Contact HMD when the owner, Leszek Kilk, returns. HMD will conduct a document inspection of the enumerated records listed above.

FEB 19 2003

All documents were reviewed and found to be in order at this time

A site walkthrough found no violator at this time.

This is an annual certification that the Hazardous Materials Business Plan (inventory, emergency contacts, emergency response plan, and employee training plan) is current and includes all the information required in the H&SC and is maintained at the site where hazardous materials are stored.

3770 HANCOCK ST #E  
SAN DIEGO, CA 92110  
CERS ID#: 10383982  
Facility ID#: 37-000-133479

As of January 1, 2013 all regulated businesses are required by Assembly Bill 2286 to submit their regulatory reports and business information electronically through the California Environmental Reporting System (CERS). This includes information related to:

- Unified Program Facility Permit
- Hazardous Materials Business Plan (HMBP)
- Hazardous Waste
- Hazardous Waste Onsite Treatment
- Hazardous Waste Tank Closures
- Remote Waste Consolidation
- Recyclable Materials Reports
- Underground Storage Tanks (UST)
- Aboveground petroleum storage over 1,320 gallons (APSA/SPCC)
- Medical Waste\*

## What is CERS?

CERS is a statewide web-based system developed by the California Environmental Protection Agency (Cal/EPA) to collect and report hazardous materials related data. \* In San Diego County, medical waste is also regulated by the County of San Diego and is required to be reported through CERS.

## What do I need to do?

For your convenience, HMD and Cal/EPA have pre-populated your facility information into CERS. It is now your responsibility to review this information for accuracy, make necessary changes and submit for review as required by the state law. *In order to comply, please complete, sign and submit the enclosed CERS Access/I.D. Request Form to HMD within 30 calendar days of receipt of this letter to the address listed in the above letterhead.*

Please note, the form may only be signed by the business owner or main operator. We recommend at least two lead users in case one person leaves or loses their username/password. Lead users will receive a confirmation e-mail inviting them to create a username and password for CERS when this process is complete. Once lead users have been granted access, they will be responsible for adding additional users to the account; the County of San Diego will no longer be able to grant user access.

In order to gain access to your facility information in CERS, you must have the following:

- An active e-mail account
- Internet Access, with one of the following browsers: Internet Explorer 8 or 9, Safari (current version), Chrome (current version), Firefox 3.6 or later

Note: CERS does not support Internet Explorer 7 or earlier versions.

**Where can I get help?**

Our CERS Information website provides detailed instructions, comprehensive user guides, video tutorials, resource weblinks, and the latest updates regarding CERS: [www.sdcounty.ca.gov/deh/hazmat/hmd-cers-info.html](http://www.sdcounty.ca.gov/deh/hazmat/hmd-cers-info.html)  
 Additional information is available from the following resources:

- Your county hazardous materials inspector
- The Hazardous Materials Division Duty Desk at (858) 505-6880, [hmdutyeh@sdcounty.ca.gov](mailto:hmdutyeh@sdcounty.ca.gov).
- A list of required forms and submission requirements:  
[http://www.sdcounty.ca.gov/deh/hazmat/hmd\\_forms.html](http://www.sdcounty.ca.gov/deh/hazmat/hmd_forms.html)
- The CERS web portal: <http://cers.calepa.ca.gov/>

**What if I don't have access to a computer?**

Computer kiosks are available for CERS submittals at our office locations.

- 5500 Overland Ave., San Diego, CA 92123
- 151 E. Carmel St., San Marcos, CA 92078

Counter services are available from 8 a.m. to 4 p.m.

**CERS Training Workshops:**

To assist your business in completing this requirement, we will be hosting several CERS Training Workshops in the upcoming months. The exact dates, times and location will be posted online as they become available. Please check our CERS Information website for upcoming workshops: [www.sdcounty.ca.gov/deh/hazmat/hmd-cers-info.html](http://www.sdcounty.ca.gov/deh/hazmat/hmd-cers-info.html)

**What if I don't comply?**

Failure to comply with the CERS submittal requirements is a violation of the California Health & Safety Code section 25404 (e)(4) and may lead to issuance of a Notice of Violation and further enforcement action.

Compliance with laws and regulations is a condition of your permit to operate.

Please disregard this letter if you have already signed up with CERS, your business has an organizational account with Cal/EPA and/or your business has made other arrangements.

Sincerely,

Michelle Price  
 Supervising Environmental Health Specialist  
 Hazardous Materials Division

## COMPLIANCE INSPECTION REPORT

FACILITY NAME: AUTOHAUS MUNICH  
 ADDRESS: 3770 HANCOCK ST E  
 CITY/ZIP: SAN DIEGO /92110

INSPECTION DATE: 08/27/2015 PAGE 1 OF 4  
 RECORD ID #: DEH2002-HUPFP-133479  
 TIME START: 10:31 AM END: 11:55 AM  
 SPECIALIST: Mike Burke  
 INSPECTION CONTACT: Peter Salvato  
 TITLE: Mechanic  
 PHONE: 619-491-9300  
 E-MAIL: autohausmunich@gmail.com

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

**NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.**

CONSENT TO CONDUCT INSPECTION GRANTED BY: Peter Salvato

TITLE: Mechanic

### INTRODUCTION:

Routine inspection was conducted on 8/27/2015 with Peter Salvato, mechanic who gave me permission to conduct the inspection. This business is a small quantity generator of hazardous waste at this time. They are currently subject to the Hazardous Materials Business Plan requirements due to reportable amounts of used oil and waste antifreeze. The reportable amount is 55 gallons. California Environmental Reporting System (CERS) submittals have been received, but not accepted. The owner of the business was not present during this inspection.

### VIOLATION # 1

1010002 HMBP not submitted to the CUPA in CERS. HSC 25508(a)(1)(A); HSC 25404(e)(4); 27 CCR 15188(a), (d)

Classification: Minor

### Observations:

Observed that CERS submittals from 7/22/14 did not include the Hazardous Materials Business Plan.

### Corrective Action Due By: 09/26/2015

Upload the Hazardous Materials Business Plan into CERS and resubmit within 30 days. Send the return to compliance document to this department within 30 days.

### VIOLATION # 2

1010008 HMBP not certified annually as complete and accurate in CERS. HSC 25508.2

Classification: Minor

### Observations:

Observed the Business Plan has not been submitted through CERS and there has been no submittal since 7/22/2014.

### Corrective Action Due By: 09/26/2015

Resubmit through CERS after making all requested corrections from 7/22/2014.

### VIOLATION # 3

1020002 Initial and/or annual employee training not conducted for hazardous materials management and/or employee training records not available or not maintained for 3 years. HSC 25505(a)(4)

# COUNTY OF SAN DIEGO

## SUPPLEMENTAL COMPLIANCE INSPECTION REPORT

INSPECTION DATE: 08/27/2015 PAGE 2 OF 4  
RECORD ID #: DEH2002-HUPFP-133479

Classification: Minor

### Observations:

Observed the employee training documentation was unavailable.

### Corrective Action Due By: 09/26/2015

Conduct employee training and document within 30 days. Send the return to compliance document to this department within 30 days.

### VIOLATION # 4

3010010 Failed to maintain uniform hazardous waste manifest, consolidated manifest, or bills of lading copies for 3 years. HSC 25160.2(b)(3), 25185(a)(4); 22 CCR 66262.40(a)

Classification: Minor

### Observations:

Observed the hazardous waste disposal documents were unavailable during this inspection.

### Corrective Action Due By: 09/26/2015

Fax a copy of the last waste oil and waste antifreeze disposal document to this department within 30 days. (fax #858-694-3705)

AUTOHAUS MUNICH  
3770 HANCOCK ST, SUITE# E  
SAN DIEGO, CA 92110

According to our records, documentation or other evidence of corrective action has not been received or is incomplete for violations cited during the Unified Program facility inspection performed on 8/27/2015 at:

AUTOHAUS MUNICH  
3770 HANCOCK ST, SUITE# E  
SAN DIEGO, CA 92110  
Record ID: DEH2002-HUPFP-133479  
CERS ID: 10383982

The Hazardous Materials Division (HMD) of the Department of Environmental Health is the Certified Unified Program Agency (CUPA) for the County of San Diego. As the local CUPA, the HMD implements the Unified Program in the County and regulates businesses that manage hazardous materials, hazardous wastes, medical wastes, aboveground petroleum storage tanks, and underground storage tanks.

On 8/27/2015, Mike Burke of the HMD inspected your business at 3770 HANCOCK ST, SUITE# E, SAN DIEGO, CA 92110. Our records indicate that the HMD has not received evidence of correction and/or certification of return to compliance as required by the California Health and Safety Code (H&SC) for the violations observed during the inspection. A copy of this inspection is enclosed.

Uncorrected violations from the 8/27/2015 inspection of your business are listed on the reverse of this page. Submit a written response indicating how these violations were corrected, along with any applicable supporting documentation within ten (10) business days (by 1/3/2017). You may use the enclosed Corrective Action Form to show return to compliance as long as you also submit adequate supporting documentation.

If a re-inspection is required to determine compliance, you will be charged a re-inspection fee of \$228. The HMD may initiate formal enforcement actions, including the imposition of substantial penalties, for any significant violations. Violations that are not promptly corrected will result in liability for additional days in violation and additional penalties. Any failure to provide the information requested will also be a factor in determining penalties. For these purposes, "significant violations" include violations that represent a significant threat to human health or safety or the environment, chronic violations, violations committed by a recalcitrant violator, and Class I hazardous waste violations (California Code of Regulations (CCR) 66260.10 and H&SC 25110.8.5).

E-MAIL: <u>autohausmunich@gmail.com</u>	

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). **This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6.** This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

**NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.**

CONSENT TO CONDUCT INSPECTION GRANTED BY: Peter Salvato

TITLE: Mechanic

### INTRODUCTION:

Routine inspection was conducted on 8/27/2015 with Peter Salvato, mechanic who gave me permission to conduct the inspection. This business is a small quantity generator of hazardous waste at this time. They are currently subject to the Hazardous Materials Business Plan requirements due to reportable amounts of used oil and waste antifreeze. The reportable amount is 55 gallons. California Environmental Reporting System (CERS) submittals have been received, but not accepted. The owner of the business was not present during this inspection.

### VIOLATION # 1

1010002 HMBP not submitted to the CUPA in CERS. HSC 25508(a)(1)(A); HSC 25404(e)(4); 27 CCR 15188(a), (d)

**Classification:** Minor

### Observations:

Observed that CERS submittals from 7/22/14 did not include the Hazardous Materials Business Plan.

### Corrective Action Due By: 09/26/2015

Upload the Hazardous Materials Business Plan into CERS and resubmit within 30 days. Send the return to compliance document to this department within 30 days.

### VIOLATION # 2

1010008 HMBP not certified annually as complete and accurate in CERS. HSC 25508.2

**Classification:** Minor

### Observations:

Observed the Business Plan has not been submitted through CERS and there has been no submittal since 7/22/2014.

### Corrective Action Due By: 09/26/2015

Resubmit through CERS after making all requested corrections from 7/22/2014.

### VIOLATION # 3

1020002 Initial and/or annual employee training not conducted for hazardous materials management and/or employee training records not available or not maintained for 3 years. HSC 25505(a)(4)

**COUNTY OF SAN DIEGO**  
**SUPPLEMENTAL COMPLIANCE**  
**INSPECTION REPORT**

INSPECTION DATE: **08/27/2015** PAGE **2** OF **4**  
 RECORD ID #: **DEH2002-HUPFP-133479**

**Classification:** Minor

**Observations:**

Observed the employee training documentation was unavailable.

**Corrective Action Due By:09/26/2015**

Conduct employee training and document within 30 days. Send the return to compliance document to this department within 30 days.

**VIOLATION # 4**

3010010 Failed to maintain uniform hazardous waste manifest, consolidated manifest, or bills of lading copies for 3 years. HSC 25160.2(b)(3), 25185(a)(4); 22 CCR 66262.40(a)

**Classification:** Minor

**Observations:**

Observed the hazardous waste disposal documents were unavailable during this inspection.

**Corrective Action Due By:09/26/2015**

Fax a copy of the last waste oil and waste antifreeze disposal document to this department within 30 days. (fax #858-694-3705)

Routine inspection conducted on 8/2/2017. CERS submittals accepted on 1/23/2017.

# COUNTY OF SAN DIEGO

## COMPLIANCE INSPECTION REPORT

FACILITY NAME: AUTOHAUS MUNICH  
 ADDRESS: 3770 HANCOCK ST E  
 CITY/ZIP: SAN DIEGO / 92110

INSPECTION DATE: 08/02/2017 PAGE 1 OF 5  
 RECORD ID #: DEH2002-HUPFP-133479  
 TIME START: 11:15 AM END: 12:15 PM  
 SPECIALIST: Mike Burke  
 INSPECTION CONTACT: Leszek Kik  
 TITLE: Owner  
 PHONE: 619-491-9300  
 E-MAIL: autohausmunich@gmail.com

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

**NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.**

CONSENT TO CONDUCT INSPECTION GRANTED BY: Leszek Kik

TITLE: Owner

### INTRODUCTION:

Inspection conducted for hazardous materials/waste on 8/2/2017 with Leszek Kik, Owner who gave me permission to conduct the inspection. This site is an automotive repair shop and a small quantity generator of hazardous waste at this time. They are currently subject to the Hazardous Materials Business Plan requirements. The reportable amount is 55 gallons for hazardous liquids, 500 pounds for hazardous solids and 200 cubic feet for compressed gases. California Environmental Reporting System (CERS) submittals have been accepted on 1/23/2017. No hazardous materials/waste violations observed at this time.

The following hazardous materials in reportable threshold quantities were observed on-site today:

- 110 gallons of used oil
- 55 gallons of waste antifreeze.

### INSPECTION REMARKS:

Each violation checked below is for the section(s) of the California Health and Safety Code (HSC), California Code of Regulations (CCR), or the San Diego County Code (SDCC) indicated in italics. Incorporated provisions of Title 40 of the Code of Federal Regulations (CFR) are noted for reference. All violations must be corrected. Submit documentation of return to compliance to your Specialist. You may use the Corrective Action Form (HM-926) to document your return to compliance. Please call (858) 505-6880 or your Specialist if you have any questions. HMBP = Hazardous Materials Business Plan; CUPA = Certified Unified Program Agency; CERS = California Environmental Reporting System; SQG = Small Quantity Hazardous Waste Generator; LQG = Large Quantity Hazardous Waste Generator

## OFFICIAL NOTICE

August 9, 2018

Record ID: DEH2002-HUPFP-133479, CERS ID: 10383982

Dear Sir/Madam:

### RE: Annual Hazardous Materials Business Plan Certification Not Completed

The Hazardous Materials Division (HMD) is the Certified Unified Program Agency (CUPA) in San Diego County. The HMD, as the CUPA, regulates the hazardous materials business plan statute and regulations.

State law requires that a facility that handles or stores hazardous material(s) at or above reporting levels must annually certify their business plan. The business plan certification is important because up to date chemical inventory information is useful to emergency responders and public health officials in case of a spill or other emergencies.

As of 2015, the entire business plan is required to be submitted annually pursuant to California Health and Safety Code (HSC) Chapter 6.95 section 25508(a)(1)(A). The submittal must be completed using the online California Environmental Reporting System (CERS): <https://cers.calepa.ca.gov>. The business plan certification consists of several components: Facility Information, Hazardous Materials Inventory, Site Map, Emergency Contingency Plan, and Training Plan. Failure to electronically file the business plan as required may result in administrative, civil, or criminal penalties.

The dates of your last submitted business plan from CERS are listed below:

Facility information submitted:	1/23/2017
Inventory and site map submitted:	1/23/2017
Plan submitted:	1/23/2017

**Within 30 days of receipt of this Official Notice, please submit your hazardous materials business plan certification using CERS.** Failure to complete the certification can result in civil or administrative penalties between \$2,000 and \$5,000 per day of violation.

If you need assistance or believe you have received this notice in error, please contact the **CERS Help Desk at (858) 505-6990.**

To make a phone or in-office appointment to get one-on-one help, visit HMD's CERS information website at: [https://www.sandiegocounty.gov/content/sdc/deh/hazmat/hmd\\_cers.html](https://www.sandiegocounty.gov/content/sdc/deh/hazmat/hmd_cers.html)

Sincerely,

Maryam Dorsey, Chief  
Hazardous Materials Division

ecc: DEH2002-HUPFP-133479; HC009

## COMPLIANCE INSPECTION REPORT

FACILITY NAME: AUTOHAUS MUNICH  
 ADDRESS: 3770 HANCOCK ST E  
 CITY/ZIP: SAN DIEGO /92110

INSPECTION DATE: 07/16/2019 PAGE 1 OF 5  
 RECORD ID #: DEH2002-HUPFP-133479  
 TIME START: 10:00 AM END: 11:00 AM  
 SPECIALIST: Mike Burke  
 INSPECTION CONTACT: Leszek Kik  
 TITLE: Owner  
 PHONE: 619-491-9300  
 E-MAIL: autohausmunich@gmail.com

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

**NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.**

CONSENT TO CONDUCT INSPECTION GRANTED BY: Leszek Kik

TITLE: Owner

### INTRODUCTION:

Routine Inspection

Inspection conducted for hazardous materials/waste on 7/16/2019 with Leszek Kik, Owner who gave me permission to conduct the inspection. This site is an automotive repair shop and appears to be a small quantity generator of hazardous waste at this time. They are currently subject to the Hazardous Materials Business Plan requirements. The reportable amount is 55 gallons for hazardous liquids, 500 pounds for hazardous solids and 200 cubic feet for compressed gases. California Environmental Reporting System (CERS) submittals have been accepted on 7/16/2019.

The following hazardous materials in reportable threshold quantities were observed on-site today:

- 110 gallons of used oil
- 55 gallons of waste antifreeze.

### VIOLATION # 1

1020002 Initial &/or annual employee training not conducted in safety procedures for a hazardous material release or threatened release &/or employee training records not available or not maintained for 3 years. HSC 25505(a)(4); 19 CCR 2659(b)

Classification: Class II

### Observations:

This facility has the capacity to store reportable amounts of hazardous materials or hazardous waste (55 gal, 500 lbs., or 200 cuft) and failed to maintain records of an adequate employee training program for the size of the facility and the nature of the hazardous materials handled. The training program shall, at a minimum, include methods for safe handling of hazardous materials; procedures for coordination with local emergency response organizations; use of emergency response equipment; and emergency response procedures for a release or threatened release of hazardous materials. Observed the current training documentation was not located during this inspection.

Corrective Action Due By: 08/15/2019

Within 30 days, conduct employee training on hazardous materials/waste and emergency response. Send the corrective action form to this department within 30 days.

# COUNTY OF SAN DIEGO

GENERATOR WASTE CERTIFICATION (PLEASE CHECK THE APPROPRIATE BOX)

By signing below I hereby certify that:

(Waste oil generator/customer MUST check ONE of the following three boxes)

#1) I have not mixed any of the waste described above with any other hazardous waste, the total halide content is LESS than 1,000 ppm, and the waste does not contain any PCBs. I have complied with the requirements of the applicable California used oil management regulations to determine this is true. I agree to accept the additional charges for the disposal of this waste if the information I have provided about this waste is incorrect

#2) I have not mixed any of the waste described above with any other hazardous waste, the total halide content is GREATER than 1,000 ppm, and the waste does not contain any PCBs. I have provided proper documentation to World Oil Environmental Services to rebut the presumption that this waste was mixed with other hazardous waste. I agree to accept the additional charges for the disposal of this waste if the information I have provided about this waste is incorrect

#3) This waste is from a tank which collects waste oil from household "do-it-yourself" (DIY) and/or conditionally exempt small quantity generator (CESQG) sources. To the best of my knowledge, the only waste oil contained in my DIY/CESQG collection tank is solely from DIY and/or CESQG sources. I have not mixed this waste oil with any other hazardous waste or waste oil from other sources. I agree to accept the additional charges for disposal of this waste if the information I have provided about this waste is incorrect

(All generators/ customers MUST read the following text

I certify that I have a program in place to reduce the volume and toxicity of waste generated to the degree I have determined to be economically practicable and that I have selected the practicable method of treatment, storage, or disposal currently available to me which minimizes the present and future threat to human life and the environment.

This individual signing in the space set forth below on behalf of customer represents and warrants that he/she has the authority to bind customer, that the foregoing descriptions of waste and materials are true and accurate as packaged, marked, and labeled, are ready for transportation in accordance with applicable state and federal regulations, and that customer shall abide by the Standard Terms and Conditions on the reverse side of this Service Order.

Service Orders with an associated hazardous waste manifest (either site specific or consolidated) are subject to an EPA Fee. These fees cover the EPA pass-through fee and administration of the eManifest program. These fees vary based on Manifest type. Applicable fees will appear on your billing invoice.

 E-MAIL: autohausmunich@gmail.com

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

**NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.**

CONSENT TO CONDUCT INSPECTION GRANTED BY: Leszek Kik TITLE: Owner

### INTRODUCTION:

#### ROUTINE INSPECTION:

The Hazardous Materials Division (HMD) of the Department of Environmental Health & Quality (DEHQ) is the Certified Unified Program Agency (CUPA) for the County of San Diego. As the CUPA, HMD implements the Unified Program in the County, which regulates businesses that manage hazardous materials, hazardous wastes, aboveground petroleum storage tanks and underground storage tanks. HMD has also adopted the regulation of Medical Waste within San Diego County.

On 12/15/22, I, Josefina Koss, conducted a routine inspection at Autohaus Munich, to verify compliance with Hazardous Materials Business Plan (HMBP) reporting requirements and Small Quantity Generator of Hazardous Waste reporting requirements.

Leszek Kik, owner, granted consent for today's inspection, and to review documents, and was present during the walk-through.

Per Leszek Kik, this facility is an auto mechanic repair business.

**At the time of inspection, based on observations and statements from Leszek Kik, this facility appears subject to the following Unified Program Facility Permit program requirements:**

- Hazardous Materials Business Plan (HMBP) reporting requirements for storing hazardous materials and/or hazardous waste at or above reportable quantities (≥ 55 gallons of liquid, 500 pounds of solid, or 200 cubic feet of gas).
- Hazardous waste generator reporting requirements as a Small quantity generator (SQG) of hazardous waste, generating less than 1000 kg (2,200 lbs or 270 gallons) per month.

I observed the following hazardous materials during the inspection:

- 1x55 gal drum + 1x16 gal drum containing new motor oil
- 2x55 gal drums containing waste oil
- 1x55 gal drum containing waste antifreeze

During today's inspection I observed the following hazardous wastes:

- 1x55 gal drum containing paper filters
- 1x55 gal drum containing metal filters
- 2x55 gal drums containing waste oil
- 1x55 gal drum containing waste antifreeze

### VIOLATION # 1

3030010 Failed to properly dispose of hazardous waste within 180 days (or 270 days if waste is transported over 200 miles). 22 CCR 66262.34(d); HSC 6.5 25123.3(h)(1)

**Classification:** Class II

### Observations:

This facility was observed to be storing hazardous waste in exceedance of hazardous waste generator requirements. This facility appears to be a small quantity generator of hazardous waste with less than 1000 kg (2,200 lbs or 270 gallons) per month.

During today's inspection I observed:

- 1x55 gal drum with waste antifreeze

Per Leszek Kik, this drum is full in capacity.

Manifest of last disposal for this hazardous waste was 11/29/21

### Corrective Action Due By:01/14/2023

Properly dispose of the waste antifreeze, using a registered Hazardous Waste Hauler. You can find a list of State approved haulers in the DTSC website: <https://hwts.dtsc.ca.gov/transporters/>

Within 30 days, provide documentation of disposal. You can email me the corrective action form located at the end of this inspection report and add the proper documents of your compliance to [josefina.koss@sdcounty.ca.gov](mailto:josefina.koss@sdcounty.ca.gov)

### INSPECTION REMARKS:

Facility has implemented a complete Hazardous Materials Business Plan (HMBP) and made it readily accessible to CUPA and employees.

Facility has updated its inventory in the California Environmental Reporting System (CERS) during today's inspection.

### Note:

Assembly Bill 1429, effective as of January 1st 2020, requires handlers to both:

a. Resubmit their Hazardous Materials Business Plan at least once every 3 years unless subject to to EPCRA or APSA. Facilities subject to EPCRA or APSA must resubmit once a year. HSC 25508(a)(1)

b. Review and recertify their Hazardous Materials Business Plan at least once every year, regardless of being subject to EPCRA or APSA. HSC 25508.2

Also, ensure to submit within 30 days, after a significant change in any of the HMBP elements.

CERS Business Portal: <https://cersbusiness.calepa.ca.gov>

HMBP Instructions & Template: [https://www.sandiegocounty.gov/content/dam/sdc/deh/hmd/pdf/HM-952%20\(04-2021\).pdf](https://www.sandiegocounty.gov/content/dam/sdc/deh/hmd/pdf/HM-952%20(04-2021).pdf)

Assistance in making CERS submittals and completing an HMBP is available from HMD by contacting our CERS Help Desk at 858-505-6990, Monday through Friday from 0800h to 1500h.

You may also contact your inspector -

Josefina Koss, EHS

619-455-4710

[josefina.koss@sdcounty.ca.gov](mailto:josefina.koss@sdcounty.ca.gov)

Per Leszek Kik, employees are trained in the proper handling of hazardous materials/wastes and records of training were readily accessible to review.

The training program shall, at a minimum, include methods for safe handling of hazardous materials; procedures for coordination with local emergency response organizations; use of emergency response equipment; and emergency response

# COUNTY OF SAN DIEGO

## SUPPLEMENTAL COMPLIANCE INSPECTION REPORT

procedures for a release or threatened release of hazardous materials.

A template for Employee Training Documentation can be found here: [https://www.sandiegocounty.gov/content/dam/sdc/deh/hmd/pdf/hm-954%20\(01-07\).pdf](https://www.sandiegocounty.gov/content/dam/sdc/deh/hmd/pdf/hm-954%20(01-07).pdf). During today's inspection I emailed to facility a copy of this template for training records.

Ensure to maintain records on site for the past 3 years.

Facility has an active EPA ID# CAL000082048

Manifests of disposal of hazardous wastes were readily available for review. Ensure to maintain records of disposal for the past 3 years.

Universal waste appears to be properly handled at the time of the inspection.

This report was not signed due to current Public Health Orders and Covid-19 restrictions. The content of this report was reviewed with Leszek Kik on 12/15/22 and emailed on 12/19/22.

## COMPLIANCE INSPECTION REPORT

DATE 3/11/02

PAGE 2 OF 2

BUSINESS ADDRESS: 3612 KURTZ ST 92110

VIOLATION REPORT: The items checked below refer to specific section numbers of Titles 19/22/23 of the California Code of Regulations (CCR), Chapters 6.5, 6.7, 6.95 of the Health and Safety Code (HSC), and/or the San Diego County Code (SDCC).

### I HAZARDOUS WASTE REQUIREMENTS:

#### RECORD KEEPING

- Health Permit not obtained SDCC 68.905 **V0108 W**
- No EPA Identification Number 66262.12 **V0105 W**
- Waste Manifests/Receipts not on-site for 3 years 66262.40 **V0118 W**
- Manifest not properly completed 66262.23 **V0120 W**
- Manifest copy not sent to DTSC 66262.23 **V0115 W**
- TSDf signed-manifest not on-site 66262.40 **V0121 W**
- Biennial report not sent to DTSC 66262.41 **V0122 W**
- LDR Documentation not available 66268.7 **V0123 W**
- Exception Rpt. not filed with DTSC 66262.42 **V0116 W**
- Operating TSDf without authorization 25201 **V0124 W**

#### STORAGE AND HANDLING

- Waste stored longer than 90, 180, or 270 days 66262.34 **V0221 W**
- Failure to clean up hazwaste off of floor surface 66262.10b **V0313 W**
- Waste container missing/improperly labeled 66262.34 **V0222 W**
- Haz Materials not properly labeled 25124 **V0223 W**
- Waste container not kept closed 66265.173 **V0202 W**
- Waste container in poor condition 66265.171 **V0205 W**
- Waste container(s) not properly managed 66265.173 **V0210 W**
- Damaged container not repackaged 66265.171 **V0226 W**
- Container incompatible with waste 66265.172 **V0207 W**
- Incompatibles in the same container 66265.177 **V0224 W**
- Incompatibles not stored separately 66265.177 **V0213 W**
- Ignitable Waste less than 50 feet 66265.176 **V0214 W**
- Ignitable Waste not grounded 66265.31 **V0215 W**
- Storage area not inspected weekly 66265.174 **V0216 W**

#### DISPOSAL AND TRANSPORTATION

- Unauth. disposal of waste to 25189.5 **V0313 W**
- Waste determination not made 66262.11 **V0319 W**
- Unlawful transport of haz. waste 25163 **V0315 W**
- Waste transported without manifest 66262.20 **V0316 W**
- Extremely Haz Waste Permit not obtained 25205.7 **V0317 W**

#### TRAINING, CONTINGENCY PLAN & EMERGENCY PROCEDURES

- Training records unavailable 66265.16 **V0405 W**
- Training program not adequate 66265.16 **V0406 W**
- Facility not designed to minimize release 66265.31 **V0501 W**
- Spill control equip not available 66265.32 **V0508 W**
- Aisle space is obstructed 66265.35 **V0509 W**
- Contingency plan not prepared and/or on file 66265.51, 66265.53 **V0609 W**

#### MISCELLANEOUS

- Waste oil contaminated 25250.7 **V0225 W**
- Used oil filters improperly managed 66266.130 **V0701 W**
- Damaged batteries improperly managed 66266.81 **V0702 W**
- Facility has failed to notify local CUPA and DTSC of onsite treatment of hazardous waste (tiered permitting) **V0125 W**
- Onsite treatment of waste without authorization 25201 **V0125 W**

### III HAZARDOUS MATERIALS BUSINESS PLAN REQUIREMENTS:

#### RECORD KEEPING

- Health Permit not obtained SDCC 68.1105 **V2001 W**
- Business Plan not established/implemented 25503.5 **V2002 W**
- Business Plan not submitted to HMMD 25505 **V2007 W**
- Business Plan not amended 25505 **V2003 W**
- Personnel Training Records not available 19 CCR 2732 **V2302 W**

#### RELEASE REPORTING

- Failure to report a release/threatened release 25507 **V2008 W**

### II UNDERGROUND STORAGE TANK (UST) REQUIREMENTS:

#### GENERAL UST REQUIREMENTS

- Health Permit not obtained 68.1005, 25284 **V3002 T**
- Repair/modify/close permit not obtained 68.1005 **V3007 T**
- UST Permit Application not submitted 25286(a) **V3010 T**
- Operating permit conditions violated 2712 **V3011 T**
- Failed to notify HMMD of changes 25284 **V3012 T**
- No owner/operator agreement 25284 **V3005 T**
- No records of financial coverage 25292.2 **V3013 T**
- No main/monit/calib records available 2712(b), 2641(j) **V3001 T**
- Monitoring Equip. not tested annually 2630, 2641 **V3003 T**

#### MONITORING REQUIREMENTS (SINGLE WALL)

- Leak Detection Method does not meet performance standards 2643 **V3014 T**
- Integrity test not conducted 25292 **V3015 T**
- Copy of tank test not submitted to HMMD within 30 days 2643 **V3016 T**
- Manual tank gauging (<2000 gal) 2645 not done properly **V3017 T**
- Reconciliation not done properly 2646 **V3018 T**
- Reconciliation not approved for facility 2646 **V3019 T**
- Dispenser meter(s) not calib annually 2646 **V3020 T**
- Improper liquid measurements 2646 **V3021 T**
- Stick in poor condition 2646 **V3022 T**
- Improper monthly reconciliation 2646 **V3023 T**
- Failed to report excessive variation 2646 **V3024 T**
- Pressurized Product Piping Leak Device not tested annually 25292 **V3025 T**
- No written monitoring procedure 2641 **V3027 T**
- No written emergency response plan 2641 **V3027 T**
- SIR reporting incorrectly done 2646.1 **V3004 T**

#### MONITORING REQUIREMENTS (DOUBLE WALL)

- Monitoring system not functional 2632 **V3026 T**
- No written monitoring procedure 2632 **V3027 T**
- Written emergency response plan not available 2632 **V3028 T**
- Spill/Overfill equip. not maintained or installed 2635 **V3029 T**

#### RELEASE REPORTING

- Failure to report an unauthorized release 25295 **V3009 T**
- Release record log not available 2651, 2650 **V3030 T**
- No leak report/investigation/action 2652 **V3031 T**

#### CLOSURE

- Temporary closure req. not completed 2671 **V3006 T**
- Unused tank not properly closed 25298 **V3032 T**
- Permanent closure req. not completed 2672 **V3033 T**
- Failed to apply for temporary closure 25298 **V3008 T**

ALL VIOLATIONS MUST BE CORRECTED. PLEASE CALL (619) 338-2222 OR YOUR INSPECTOR IF YOU HAVE ANY QUESTIONS.

 Type of Business Wholesale Carton Sales

Does your business have an underground storage tank? YES

If your business or service either uses hazardous materials subject to disclosure or generates hazardous waste, a San Diego County Hazardous Materials Management Permit is required and the appropriate fee (See #A15) is to be submitted with this application. Please make check or money order payable to "County of San Diego".

NOTE: If you do not use hazardous materials or generate hazardous waste, you are still required to return this form (without a fee).

PLEASE USE THE ENCLOSED PRE-ADDRESSED RETURN ENVELOPE.

The Department of Health Services is planning to schedule workshops on hazardous waste management techniques for various industry types. Would you be interested in attending such a workshop? Yes \_\_\_\_\_ No \_\_\_\_\_

## SECTION A - HAZARDOUS WASTE GENERATION

**NOTE:** If you know that your business generates, stores or handles hazardous wastes, please continue with Section B of the questionnaire. All others must complete #1 through #6 that follows.

1. Does your business or service generate, store or handle any of the by-products or wastes listed in the box below? YES  NO  Circle the letters of the categories found at your business.

A.	Solvents
a.	Halogenated - chloroform, methyl chloride.
b.	Oxygenated - acetone, butanol, ethyl acetate.
c.	Hydrocarbons - benzene, hexane, stoddard.
d.	Unspecified solvent mixtures.
B.	Sludges - Alum, paint, degreasing, caustic, paper, tetraethyl lead, lime, tank bottom waste and metal sludge.
C.	Waste Oil/Mixed Oil - Waste motor oil, fuel tank cleaning residue, oil separation waste, lube oil processing waste.
D.	Pesticides and Pesticide Rinse Water - Parathion, Malathion, Diazinon, and other pesticides; pesticide residue from container rinsing.
E.	PCB - Mineral oil contaminated-electrical capacitors, ballasts, and electrical transformers.
F.	Monomer/Polymeric Resin Waste - Plastic coating and laminating waste, resin coating, metal binding and coating resin rinse waters.
G.	Biological Waste - Infectious hospital waste, laboratory and pharmaceutical research waste exceeding 100 kg/month.
H.	Organic Liquid/Solids - Polymer extrusion waste, PVC coating residue, adhesive waste, organic stripper from semi-conductor processing waste.
I.	Contaminated Aqueous Solutions:
a.	With reactive anions - azide, bromate, chlorate, cyanide, fluoride, hypochlorate, nitrite, perchlorate, sulfide anions, plating rinse solutions, metal coatings and metal parts cleaning solutions.
b.	With heavy metals - including antimony, arsenic, barium, beryllium, cadmium, chromium, cobalt, copper, lead, mercury, molybdenum, nickel, selenium, silver, thallium, vanadium and zinc.
c.	With organic residues - including degreasing and metal cleaning solutions, equipment cleaning, dry cleaning, anticorrosion and coolant solution wastes.
J.	Acid Solutions - Wastes battery acid, plating waste, printed circuit etching residue, silicon wafer reclamation and cleaning wastes, galvanizing wastes, other acidic solution wastes with $pH \leq 2$ .
K.	Alkaline Solutions - Wastes from metal plating, anodizing and etching, containing sodium or calcium hydroxide, and other solutions with $pH \geq 12.5$ .
L.	Asbestos - Insulation products, old pipe lagging.
M.	Metal Sludges and Dusts - Metal machining coolant sludges, metal pickling sludges, metal machining dusts.
N.	Miscellaneous - Chemical toilet waste, photochemical processing waste, laboratory chemical wastes, drilling mud, soap and detergent production wastes.

2. Do you dispose of any items in #1 by discharging them into the sewer system including down sinks, floor drains, toilets, etc.? YES  NO  If yes, which category(ies) of by-product or wastes?

SECTION A - HAZARDOUS WASTE GENERATION (continued)

3. Do you dispose of any items listed in #1 in a way other than disposal into the sewer system (for example, trash cans, dumpster, storm drain, on the ground, evaporation ponds, land fills, etc)? YES  NO  If yes, which category(ies) of by-products or wastes? \_\_\_\_\_
- 
4. Do you recycle any of the items listed in #1 through another company/contractor or by yourself? YES  NO  If yes, which category(ies) of by-products or wastes? \_\_\_\_\_
- 
5. Do you manifest (prepare the required transportation document for hazardous wastes) any items listed in #1? YES  NO
6. If you answered "yes" to any of the questions (1, 3, 4, or 5) your business or service does generate hazardous waste and a permit from the San Diego County Department of Environmental Health is required. Continue with Section B of the questionnaire.

PLEASE RETURN THIS SECTION

## SECTION B - INVENTORY OF HAZARDOUS MATERIALS

A "hazardous substance" is a chemical compound, or product for which a manufacturer or producer is required by law to prepare a Material Safety Data Sheet (MSDS) for that substance. An MSDS is a document (usually 2 or 3 pages) which contains chemical composition information, fire and explosive data, health hazard data, reactivity data, spill or leak procedures, special protection information and special precaution information. An MSDS for a hazardous substance can be obtained from the supplier of that substance. Hazardous substances also include materials requiring placard warnings during transportation.

1. Does your establishment use or handle hazardous substances in quantities equal to or greater than 55 gallons, 500 pounds, or 200 cubic feet of compressed gas at any one time?  
Yes  No
2. Review the health hazards data or health and safety section of the Material Safety Data Sheets (MSDS) to see if any chemicals or substances you use are designated as a cancer-causing substance (carcinogen) or substance which may cause birth defects, miscarriages, or damage to the human reproductive system (reproductive toxin). Does your establishment use or handle carcinogens or reproductive toxins?  
Yes  No
3. Does your establishment use or handle gases with Threshold Limit Values (TLV) or Time Weighted Average (TWA) of 10 parts per million or less? Yes  No

If you have answered "Yes" to any of the above questions (1, 2, or 3), you do use or handle hazardous materials that are subject to inventory requirements and a permit from the San Diego County Department of Environmental Health is required. Continue with Section C of the questionnaire.

## SECTION C - UNDERGROUND STORAGE TANKS

An "underground storage tank" is a tank, including piping, which holds hazardous wastes (as defined in Section A) or hazardous substances (as defined in Section B, regardless of volume) and has 10% or more of the total volume located below grade.

Does your business have underground storage tanks as defined above?  
Yes  No

If you answered "yes" a permit from the San Diego County Department of Environmental Health is required.

Underground storage tanks may not be installed, removed, destroyed, repaired or operated without permits from this Department.

Continue with the Hazardous Materials Summary on page 4.

PLEASE RETURN THIS SECTION

HAZARDOUS MATERIALS SUMMARY

Complete the following information regarding the handling of hazardous materials at your business or service. Check one statement.

- This business or service does generate hazardous waste, handles hazardous materials subject to the inventory requirements and/or has underground storage tanks that requires a permit from the San Diego County Department of Environmental Health.
- I have determined that this business or service does not generate hazardous waste, handle hazardous materials subject to the inventory requirements or has underground storage tanks requiring permits from the San Diego County Department of Environmental Health.

I declare under penalty of perjury that to the best of my knowledge and belief the statements made herein are correct and true. I consent to all necessary inspections allowed by law and incidental to the issuance of required permit(s) and the operation of this business.

RE: UNDERGROUND TANK REMOVAL  
3612 KURTZ ST.  
~~SAN DIEGO, CA~~ 92110  
AT 1716/H21154

Dear Mr. Chase:

I am writing in regards to the above referenced site. On September 26, 1989, the Hazardous Materials Management Division (HMMD) observed the removal of one 4000 gallon gasoline tank. The HMMD staff person, Carol Spangenberg, and the San Diego Fire Department representative, Gary Allen, did not allow the removal of the 2000 gallon diesel tank as it exceeded the 20% Lower Explosion Level (LEL) allowed for removal. LEL values of 80% and 25% were noted. A reinspection was required and the inspection report was signed by D. Clinton Williams Jr., of IT Corporation.

On September 28, 1989, the Department was notified that the second tank was removed without the approval or presence of a HMMD and fire department representative. This was in violation of the removal permit requirements as stated in the permit application. Please note Item H on the Tank Removal Application as signed by Kristine Cohn, of the IT Corporation. This states that a representative from this office must be on site at the time the tank is removed.

NOTICE: You are hereby notified that on 9/26/89, a Hazardous Materials Specialist conducted an inspection for the closure of two hazardous substance underground storage tanks. A summary of the conditions follows:

- A determination of this site's status is pending receipt of Laboratory Analyses Results for samples taken this date. To avoid delays, have the Laboratory send a copy of the results directly to \_\_\_\_\_ of the HMMD (see address below). (print)
- Contamination of the excavation area has been noted by observations made during the tank removal this date.  
**-BEGIN SITE ASSESSMENT PHASE-** (see reverse for preliminary details).

The Laboratory results have been reviewed by \_\_\_\_\_ (of the HMMD) on \_\_\_/\_\_\_/\_\_\_ and indicate the following:  
 NO FURTHER ACTION IS REQUIRED.  
 BEGIN SITE ASSESSMENT PHASE (see attached information).  
 Phone Contact \_\_\_\_\_ Date Form Was Mailed \_\_\_/\_\_\_/\_\_\_

released: PROBABLY GASOLINE - STAINS WERE NOT DARK

What is estimated amount? WITH GROUNDWATER PUMPER TRUCK COULD NOT REMOVE - FLOWING IN

release known? No Estimated amount ---

water below the site? GROUNDWATER IN EXCAVATION feet

What is estimated amount?

Is site located in a beneficial use area? NO

**SOIL CONDITIONS:**

Is backfill discolored? YES Estimated amount ---

Is backfill saturated? DAMP? Estimated amount ---

Is native soil stained? YES Estimated amount ---

Is native soil saturated? YES Estimated amount ---

Describe native soil type(s) NATIVE IS PROBABLY BACKFILL - SILTY SAND

Condition of tank(s) (holes, corrosion, wrapping, seams) LARGE PATCH ON TOP

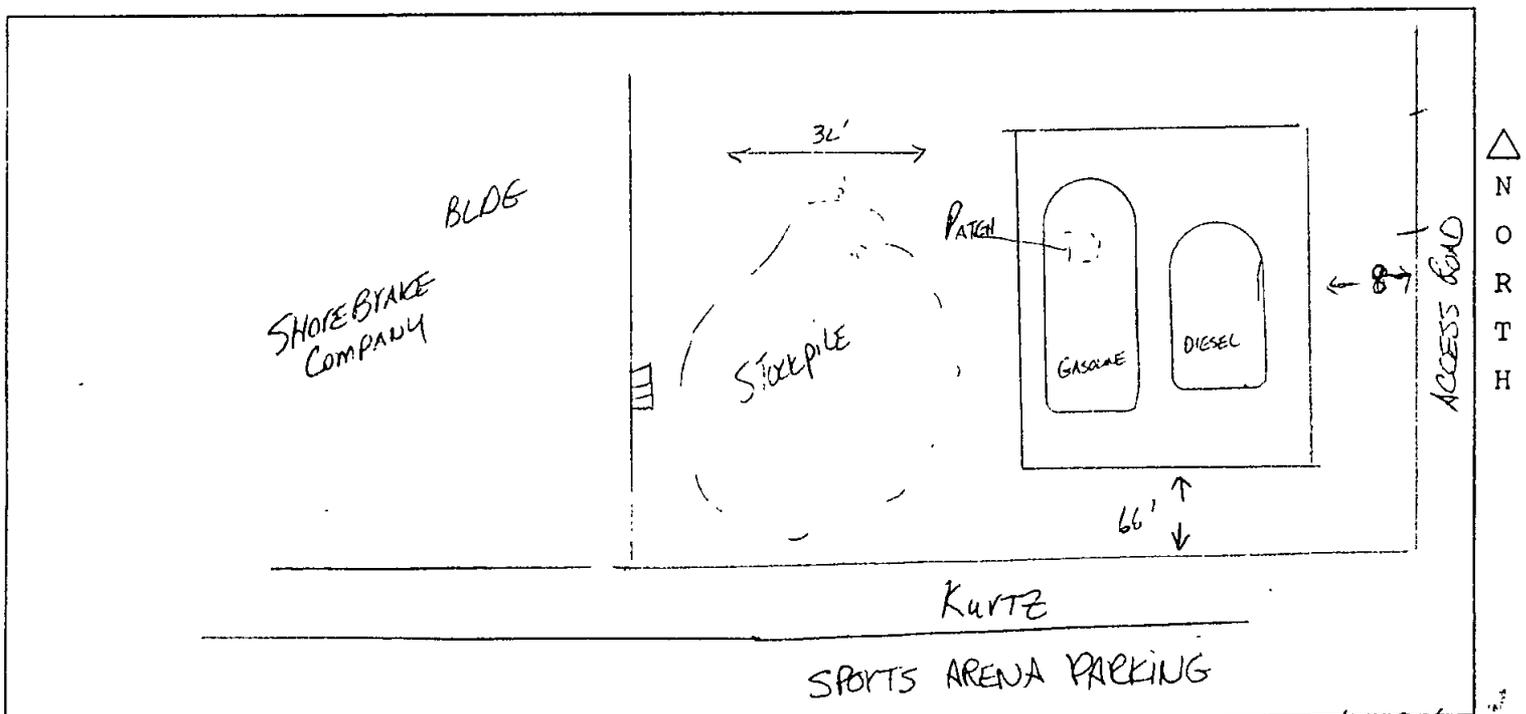

BOTTOM - 6' by 3' PATCH ON BOTTOM - SPOT PATCHES ON SIDES - SMALLER DIESEL NOT YET EXCAVATED

Piping leak location - PUMP WAS ABOVE TANKS

Nearby water wells or surface waters? 1/4 mile or less to SAN DIEGO RIVER FLOODWAY

Any known underground vaults, utilities or basements nearby? NONE KNOWN

**FURTHER COMMENTS:** TANK 001 was not removed - LEL too high; Clint Williams; IT said he could see water rushing in hole at bottom. Tank 002 had a patch on top, 6' by 3' on bottom and spot patches. Water with sheen was present when tanks were removed - backhoe began immediately to backfill - IT pumper truck was pumping all this time from diesel truck. Mc Lyle Butler present on site.

October 12, 1989

Please provide in writing, an explanation to this office why the second tank was removed without an inspector present. The explanation should include all monitoring results obtained to protect public health and safety. Additionally, what action will IT Corporation take to preclude such activity in the future? This information should be submitted by November 1, 1989.

If you have any questions regarding this matter, please contact me at 338-2243. As a reminder, a tank removal reinspection fee is due.

Sincerely,

VICKIE CHURCH, Hazardous Materials Specialist

E. APPLICATION SUBMITTAL, PLAN APPROVAL, PERMIT ISSUANCE, AND REQUIRED INSPECTIONS:

Submit three (3) copies of this application package, including plan drawings, with the required fee to the Department of Health Services, Hazardous Materials Management Unit, Room 311, 1700 Pacific Highway, San Diego, CA 92101. Checks should be made payable to the County of San Diego.

A permit will be issued by the Department of Health Services (DHS) upon review and approval of the application and plans. The required fees must be submitted with the application package. Information in addition to that presented in this application package may be needed in order to obtain final approval. No work is to begin on the proposed project until a permit has been issued. The required inspections cannot be scheduled until a permit has been issued.

Once the permit has been issued, it is the permittee's responsibility to notify the DHS at least two (2) working days in advance to schedule each required inspection.

Construction stages at which inspections are required are indicated in each subpart of this application form (i.e., Part II, III and IV).

IMPORTANT: CONTACT THE DEPT. OF HEALTH SERVICES AT 262-2222 AT LEAST TWO WORKING DAYS BEFORE STARTING CONSTRUCTION TO SCHEDULE THE FIELD REQUIRED FIELD INSPECTIONS. *8/25/89*

F. Indicate the Company/Person you wish to have our plan check comments directed to by circling the appropriate section letter above or if different enter below.

See "D" above.

PART III

APPLICATION FOR PERMIT TO ABANDON

Complete all sections of Part III. If information is not known or applicable please indicate on application.

- A. Total number of tanks to be abandoned Two (2)
- B. Tank Information - Complete the following information for each tank to be abandoned. Attach additional sheets as necessary.

(Label tanks on plot plan to correspond to application)		1	2	3	4
Tank Capacity (gallons)		@2,000 gal	@ 4,000 gal		
Date Tank Installed		unknown	unknown		
Tank Composition (Steel, Fiberglass, Fiberglass Coated Steel, Concrete, etc.)		unknown	unknown		
Tank Manufacturer		unknown	unknown		
Tank Presently in Use? (Yes-No)		No	No		
Materials Stored in Tank	Material: <u>diesel</u> dates: <u>unknown to</u>		<u>gasoline</u> <u>unknown to</u>	<u>to</u>	<u>to</u>
	Material: <u>-</u> dates: <u>to</u>	<u>to</u>	<u>to</u>	<u>to</u>	<u>to</u>
Has Tank System Leaked? (Yes, No, Not Known)	Tank Piping	<u>unknown</u> <u>unknown</u>	<u>unknown</u> <u>unknown</u>		
	Basis of determination (Inventory records, tank system testing/monitoring, environmental monitoring)	N/A	N/A		
Is any part of the system cathodically protected? (Yes-No-Not Known)		Suspected that they are not.			
	Tank	unknown	unknown		
	Piping Lines	unknown	unknown		
Piping materials		unknown	unknown		

C. PREVIOUS OWNERS AND OPERATORS OF THE TANK(S):

Dates

Owner/Operator

\_\_\_\_\_  
--  
\_\_\_\_\_

\_\_\_\_\_  
Previous operators and owners are unknown by the current owner.  
\_\_\_\_\_

D. Approximate depth to groundwater: Less than ten (10) feet

Basis of Determination: Previous local measurements

E. Proposed method of abandonment:  Removal  Destruction in place

NOTE: Removal of the tank(s) is the preferred method of abandonment. Destruction of the tank in place, for example, by filling with an inert substance, will only be considered in special cases upon submittal of additional information to determine the risks and hazards of contamination. Additional information required includes recent tank testing results, soils data, special site characteristics and approval from the local Fire Department.

F. Future use/disposal site of tank: Tanks to be disposed of at Pacific Steel

G. ATTACH A PLOT PLAN ON 8-1/2" x 11" paper showing the following:

1. Property Lines, Site Address, Scale, North Arrow
2. Location of 100 year flood plain, if applicable
3. Location of all existing and proposed structures
4. Location of all existing and proposed underground storage tank facilities
5. Location of underground tank(s) to be abandoned (number tanks to correspond to application)
6. Location of underground utility lines and vaults

H. REQUIRED INSPECTION - PERMIT TO ABANDON

A representative of the Department of Health Services (DHS) must be on site at the time the tank(s) is removed from the ground to evaluate the condition of the tank and the surrounding soil and/or groundwater. Any evidence of an unauthorized release of a hazardous material from the tank will require the submittal of additional information by the permittee to the DHS.

When a permit has been issued by the DHS to destroy a tank in place, the DHS will inspect to verify that the tank has been properly emptied and purged of all hazardous materials immediately prior to filling with an approved inert substance.

I. I declare that to the best of my knowledge and belief the statements and information provided are correct and true. I understand that information in addition to that provided above may be needed in order to obtain final approval by the Department of Health Services.

I understand that tests and procedures that may be required by other departments and agencies to demonstrate adequate site safety or suitability for future development (e.g., soil compaction testing) are in addition to the requirements of the Department of Health Services.

I will notify the Department of Health Services at least two working days (48 hours) before work is to begin in order to schedule the required inspections. I understand that site and worker safety are solely the responsibility of the property owner or his agent and that this responsibility is not shared nor assumed by the County of San Diego.

 TIME START: 12:04 PM END: 12:35 PM  
 SPECIALIST: Mike Burke  
 INSPECTION CONTACT: N/A  
 TITLE: N/A  
 PHONE: \_\_\_\_\_  
 E-MAIL: \_\_\_\_\_

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

**NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.**

COMPLIANCE INSPECTION REPORT

BUSINESS NAME USA Petroleum
ADDRESS 3029 Sports Arena
CITY/ZIP San Diego, CA 92116

On the above date an inspection of your business/facility was conducted in order to determine compliance with the California Health and Safety Code (H&S) Chapters 6.5, 6.7, 6.95; Titles 19, 22 and 23 of the California Code of Regulations (CCR) and the San Diego County Code (SDCC). The following remarks are intended to provide guidance to correct the violations noted on the attached violation report.

Status Verification / No USTs Found FEB 24 1998

T75 STATUS

Office Use Only

This site does not have any underground storage tanks

According to the County of San Diego, Dept. of Environmental Health Permits files (Site's file) located at 1255 Imperial Ave, San Diego, CA, the UST was removed on or near the date after Feb 3, 1989.

On Feb 3, 1989 the tank owner Prop owner submitted an UST Removal Permit to the Dept. of Environmental Health

In addition, the County of San Diego, Dept. of Environmental Health, Site Assessment & Mitigation Division sent the Property owner an official Notice(s) for unauthorized releases related to the USTs.

Attached are photocopies of the UST Removal Permit & Official Notices.

This was a File Review inspection.

Please deactivate this site.

BUSINESS ADDRESS: 3229 Sports Arena Blvd. San Diego CA 92116

VIOLATION REPORT: The items checked below refer to specific section numbers of Titles 19/22/23 of the California Code of Regulations (CCR), Chapters 6.5, 6.7, 6.95 of the Health and Safety Code (HSC), and/or the San Diego County Code (SDCC).

I HAZARDOUS WASTE REQUIREMENTS:

RECORD KEEPING

- Health Permit not obtained SDCC 68.905
No EPA Identification Number 66262.12
Waste Manifests/Receipts not on-site for 3 years 66262.40
Manifest not properly completed 66262.23
Manifest copy not sent to DTSC 66262.23
TSDF signed-manifest not on-site 66262.40
Biennial report not sent to DTSC 66262.41
LDR Documentation not available 66268.7
Exception Rpt. not filed with DTSC 66262.42
Operating TSDF without authorization 25201

STORAGE AND HANDLING

- Waste stored longer than 90, 180, or 270 days 66262.34
Failure to clean up hazwaste off of floor surface 66262.10b
Waste container missing/improperly labeled 66262.34
Haz Materials not properly labeled 25124
Waste container not kept closed 66265.173
Waste container in poor condition 66265.171
Waste container(s) not properly managed 66265.173
Damaged container not repackaged 66265.171
Container incompatible with waste 66265.172
Incompatibles in the same container 66265.177
Incompatibles not stored separately 66265.177
Ignitable Waste less than 50 feet 66265.176
Ignitable Waste not grounded 66265.31
Storage area not inspected weekly 66265.174

DISPOSAL AND TRANSPORTATION

- Unauth. disposal of waste to 25189.5
Waste determination not made 66262.11
Unlawful transport of haz. waste 25163
Waste transported without manifest 66262.20
Extremely Haz Waste Permit not obtained 25205.7

TRAINING, CONTINGENCY PLAN & EMERGENCY PROCEDURES

- Training records unavailable 66265.16
Training program not adequate 66265.16
Facility not designed to minimize release 66265.31
Spill control equip not available 66265.32
Aisle space is obstructed 66265.35
Contingency plan not prepared and/or on file 66265.51, 66265.53

MISCELLANEOUS

- Waste oil contaminated 25250.7
Used oil filters improperly managed 66266.130
Damaged batteries improperly managed 66266.81
Facility has failed to notify local CUPA and DTSC of onsite treatment of hazardous waste (tiered permitting)
Onsite treatment of waste without authorization 25201

II UNDERGROUND STORAGE TANK (UST) REQUIREMENTS:

GENERAL UST REQUIREMENTS

- Health Permit not obtained 68.1005, 25284
Repair/modify/close permit not obtained 68.1005
UST Permit Application not submitted 25286(a)
Operating permit conditions violated 2712
Failed to notify HMMMD of changes 25284
No owner/operator agreement 25284
No records of financial coverage 25292.2
No maint/monit/calib records available 2712(b), 2641(j)
Monitoring Equip. not tested annually 2630, 2641

MONITORING REQUIREMENTS (SINGLE WALL)

- Leak Detection Method does not meet performance standards 2643
Integrity test not conducted 25292
Copy of tank test not submitted to HMMMD within 30 days 2643
Manual tank gauging (<2000 gal) 2645 not done properly
Reconciliation not done properly 2646
Reconciliation not approved for facility 2646
Dispenser meter(s) not calib annually 2646
Improper liquid measurements 2646
Stick in poor condition 2646
Improper monthly reconciliation 2646
Failed to report excessive variation 2646
Pressurized Product Piping Leak Device not tested annually 25292
No written monitoring procedure 2641
No written emergency response plan 2641
SIR reporting incorrectly done 2646.1

MONITORING REQUIREMENTS (DOUBLE WALL)

- Monitoring system not functional 2632
No written monitoring procedure 2632
Written emergency response plan not available 2632
Spill/Overfill equip. not maintained or installed 2635

RELEASE REPORTING

- Failure to report an unauthorized release 25295
Release record log not available 2651, 2650
No leak report/investigation/action 2652

CLOSURE

- Temporary closure req. not completed 2671
Unused tank not properly closed 25298
Permanent closure req. not completed 2672
Failed to apply for temporary closure 25298

III HAZARDOUS MATERIALS BUSINESS PLAN REQUIREMENTS:

RECORD KEEPING

- Health Permit not obtained SDCC 68.1105
Business Plan not established/implemented 25503.5
Business Plan not submitted to HMMMD 25505
Business Plan not amended 25505
Personnel Training Records not available 19 CCR 2732

RELEASE REPORTING

- Failure to report a release/threatened release 25507

BUSINESS PLAN ELEMENTS

- Emergency Response Plan inadequate 25504
Emergency Contacts not provided/current 25509
Personnel Training Program inadequate 25504
Inventory is incomplete 25504
Site Map is not sufficient 25509
Acutely Haz. Mat. not registered 25533

ALL VIOLATIONS MUST BE CORRECTED. PLEASE CALL (619) 338-2222 OR YOUR INSPECTOR IF YOU HAVE ANY QUESTIONS.

OWNER MUST FILE THIS FORM WITH THE LOCAL AGENCY IMPLEMENTING THE UNDERGROUND STORAGE TANK REGULATIONS

# INSTRUCTIONS FOR COMPLETING FORM "A"

## GENERAL INSTRUCTIONS:

SECTION 2711 OF TITLE 23, CHAPTER 16, CALIFORNIA CODE OF REGULATIONS AND SECTIONS 25286, 25287, AND 25289 OF CHAPTER 6.7, DIVISION 20, CALIFORNIA HEALTH AND SAFETY CODE REQUIRE OWNERS TO APPLY FOR AN UST OPERATING PERMIT.

1. One FORM "A" shall be completed for all NEW PERMIT CHANGES or any FACILITY/SITE INFORMATION CHANGES.
2. SUBMIT ONLY ONE (1) FORM "A" for a Facility/Site, regardless of the number of tanks located at the site.
3. This form should be completed by either the PERMIT APPLICANT or the LOCAL AGENCY UNDERGROUND TANK INSPECTOR.
4. Please type or print clearly all requested information.
5. Use a hard point writing instrument, you are making 3 copies.
6. Tank owner must submit a facility plot plan to the local agency as part of the application showing the location of the USTs with respect to buildings and landmarks. [Section 2711 (a)(8), CCR].
7. Tank owner must submit documentation showing compliance with state financial responsibility requirements to the local agency as part of the application for petroleum USTs [Section 2711 (a)(11), CCR].

## TOP OF FORM: "MARK ONLY ONE ITEM"

Mark an (X) in the box next to the item that best describes the reason the form is being completed.

## I. FACILITY/SITE INFORMATION & ADDRESS (MUST BE COMPLETED).

1. Record name and address (physical location) of the underground tank(s).  
NOTE: Address MUST have a valid physical location including city, state, and zip code.  
P.O. BOX NUMBERS ARE NOT ACCEPTABLE.  
Include nearest cross street and name of the operator.
2. Phone number must have an area code. If the night number is the same, write "SAME" in proper location.
3. Check the appropriate box for TYPE OF BUSINESS OWNERSHIP (ex. CORPORATION, INDIVIDUAL, etc.).
4. Check the appropriate box for TYPE OF BUSINESS.
5. If Facility/Site is located within an Indian reservation or other Indian trust lands, check the box marked "YES".
6. Indicate the NUMBER of TANKS at this SITE.
7. Record the E.P.A. ID # or write "NONE" in the space provided.

## II. PROPERTY OWNER INFORMATION & ADDRESS (MUST BE COMPLETED)

Complete all items in this section, unless all items are the same as SECTION I; If the same, write "SAME AS SITE" across this section. Be sure to check PROPERTY OWNERSHIP TYPE box.

## III. TANK OWNER INFORMATION & ADDRESS (MUST BE COMPLETED).

Complete all items in this section, unless all items are the same as SECTION I; If the same, write "SAME AS SITE" across this section. Be sure to check TANK OWNERS TYPE box.

## IV. BOARD OF EQUALIZATION UST STORAGE FEE ACCOUNT NUMBER (MUST BE COMPLETED. SEE ARTICLE 5, CHAPTER 6.75, DIVISION 20, CALIFORNIA HEALTH AND SAFETY CODE.)

Enter your Board of Equalization (BOE) UST storage fee account number which is required before your permit application can be processed. Registration with the BOE will ensure that you will receive a quarterly storage fee return in reporting the \$0.006 (6mills) per gallon fee due on the number of gallons placed in your USTs. The BOE will code persons exempt from paying the storage fee so returns will not be sent. If you do not have an account number with the BOE or if you have any questions regarding the fee or exemptions, please call the BOE at 916-322-9669 or write to the BOE at the following address: Board of Equalization, Fuel Taxes Division, P.O. Box 942879, Sacramento, CA 94279 0001.

## V. PETROLEUM UST FINANCIAL RESPONSIBILITY (MUST BE COMPLETED FOR PETROLEUM USTs ONLY. SEE SECTIONS 2711 (a)(8) OF TITLE 23, CHAPTER 16, CALIFORNIA CODE OF REGULATIONS.)

Identify the method(s) used by the owner and/or operator, in meeting the Federal and State financial responsibility requirements. USTs owned by any Federal or State agency as well as non-petroleum USTs are exempt from this requirement.

## VI. LEGAL NOTIFICATION AND BILLING ADDRESS

Check ONE BOX for the address that will be used for BOTH LEGAL AND BILLING NOTIFICATIONS.  
TANK OWNER OR AUTHORIZED REPRESENTATIVE MUST SIGN AND DATE THE FORM AS INDICATED. [SEE SECTIONS 2711 (a)(13) OF TITLE 23 CHAPTER 16, CALIFORNIA CODE OF REGULATIONS.]

## INSTRUCTION FOR THE LOCAL AGENCIES

The county and jurisdiction numbers are predetermined and can be obtained by calling the State Board (916) 227-4303. The facility number may be assigned by the local agency; however, this number must be numerical and cannot contain any alphabetical characters. If the local agency prefers the State Board to assign the facility number, please leave it blank.

IT IS THE RESPONSIBILITY OF THE LOCAL AGENCY THAT INSPECTS THE FACILITY TO VERIFY THE ACCURACY OF THE INFORMATION. THIS APPLICATION CANNOT BE PROCESSED IF THE BOE ACCOUNT NUMBER IS NOT FILLED IN. THE LOCAL AGENCY IS RESPONSIBLE FOR THE COMPLETION OF THE "LOCAL AGENCY USE ONLY" INFORMATION BOX AND FOR FORWARDING ONE FORM "A" AND ASSOCIATED FORM "B"(s) TO THE FOLLOWING ADDRESS. THE LOCAL AGENCY SHOULD RETAIN THE ORIGINALS AND FORWARD THE YELLOW COPIES TO THE FOLLOWING ADDRESS. THE PINK COPY SHOULD BE RETAINED BY THE TANK OWNER.

## INSTRUCTIONS FOR COMPLETING FORM "B"

### GENERAL INSTRUCTIONS:

1. One FORM "B" shall be completed for each tank for all **NEW PERMITS, PERMIT CHANGES, REMOVALS** and/or any other **TANK INFORMATION CHANGE**.
2. This form should be completed by either the **PERMIT APPLICANT** or the **LOCAL AGENCY UNDERGROUND TANK INSPECTOR**.
3. Please type or print clearly all requested information.
4. Use a hard point writing instrument, you are making 3 copies.

### TOP OF FORM: 'MARK ONLY ONE ITEM'

1. Mark an (X) in the box next to the item that best describes the reason the form is being completed.
2. Indicate the DBA or Facility name where the tank is installed.

### I. TANK DESCRIPTION - COMPLETE ALL ITEMS - IF UNKNOWN - SO SPECIFY

- A. Indicate owners tank ID # - If there is a tank number that is used by the owner to identify the tank (ex. AB70789).
- B. Indicate the name of the company that manufactured the tank (ex. ACME TANK MFG).
- C. Indicate the year the tank was installed (ex. 1987).
- D. Indicate the tank capacity in gallons (ex. 25,000 or 10,000 etc.)

### II. TANK CONTENTS

- A. 1. IF **MOTOR VEHICLE FUEL**, check box 1 and complete items B & C.  
2. If not **MOTOR VEHICLE FUEL**, check the appropriate box in section A and complete items B & D.
- B. Check the appropriate box.
- C. Check the type of **MOTOR VEHICLE FUEL** (if box 1 is checked in A).
- D. Print the chemical name of the hazardous substance stored in the tank and the C.A.S.# (Chemical Abstract Service number), if box 1 is NOT checked in A.

### III. TANK CONSTRUCTION - MARK ONE ITEM ONLY IN BOX A, B, C & D

1. Check only one item in **TYPE OF SYSTEM, TANK MATERIAL, INTERIOR LINING** and **CORROSION PROTECTION**.
2. If **OTHER**, print in the space provided.

### IV. PIPING INFORMATION

1. Circle **A** if above ground circle **U** if underground, and circle both if applicable.
2. If **UNKNOWN** circle; or if **OTHER**, print in space provided
3. Indicate the **LEAK DETECTION** system(s) used to comply with the monitoring requirement for the piping.

### V. TANK LEAK DETECTION

1. Indicate the **LEAK DETECTION** system(s) used to comply with the monitoring requirements for the tank.

### VI. INFORMATION ON TANK PERMANENTLY CLOSED IN PLACE

1. ESTIMATED DATE LAST USED - MONTH/YEAR (January, 1988 or '01/88)
2. ESTIMATED QUANTITY of HAZARDOUS SUBSTANCE remaining in the tank (in Gallons).
3. WAS TANK FILLED WITH INERT MATERIAL? Check 'Yes' or 'NO'

APPLICANT MUST SIGN AND DATE THE FORM AS INDICATED.

### INSTRUCTION FOR THE LOCAL AGENCIES

The state underground storage tank identification number is composed of the two digit county number, the three digit jurisdiction number, the six digit facility number and the six digit tank number. The county and jurisdiction numbers are predetermined and can be obtained by calling the State Board (916) 227-4303. The facility number must be the same as shown in form "A". The tank number may be assigned by the local agency, however, this number must be numerical and cannot contain an alphabet. If the local agency prefers the State Board to assign the tank number, please leave it blank.

IT IS THE RESPONSIBILITY OF THE LOCAL AGENCY THAT INSPECTS THE FACILITY TO VERIFY THE ACCURACY OF THE INFORMATION. THE LOCAL AGENCY IS RESPONSIBLE FOR THE COMPLETION OF THE "LOCAL AGENCY USE ONLY" INFORMATION BOX AND FOR FORWARDING ONE FORM "A" AND ASSOCIATED FORM "B"(s) TO THE FOLLOWING ADDRESS.

<b>LOCAL AGENCY USE ONLY</b> THE STATE I.D. NUMBER IS COMPOSED OF THE FOUR NUMBERS BELOW			
STATE I.D. #	COUNTY #	JURISDICTION #	FACILITY #
PERMIT NUMBER	PERMIT APPROVED BY/DATE		PERMIT EXPIRATION DATE

THIS FORM MUST BE ACCOMPANIED BY A PERMIT APPLICATION - FORM A, UNLESS A CURRENT FORM A HAS BEEN FILED.  
FILE THIS FORM WITH THE LOCAL AGENCY IMPLEMENTING THE UNDERGROUND STORAGE TANK REGULATIONS

## INSTRUCTIONS FOR COMPLETING FORM "B"

### GENERAL INSTRUCTIONS:

1. One FORM "B" shall be completed for each tank for all NEW PERMITS, PERMIT CHANGES, REMOVALS and/or any other TANK INFORMATION CHANGE.
2. This form should be completed by either the PERMIT APPLICANT or the LOCAL AGENCY UNDERGROUND TANK INSPECTOR.
3. Please type or print clearly all requested information.
4. Use a hard point writing instrument, you are making 3 copies.

### TOP OF FORM: 'MARK ONLY ONE ITEM'

1. Mark an (X) in the box next to the item that best describes the reason the form is being completed.
2. Indicate the DBA or Facility name where the tank is installed.

### I. TANK DESCRIPTION - COMPLETE ALL ITEMS - IF UNKNOWN - SO SPECIFY

- A. Indicate owners tank ID # - If there is a tank number that is used by the owner to identify the tank (ex. AB70789).
- B. Indicate the name of the company that manufactured the tank (ex. ACME TANK MFG).
- C. Indicate the year the tank was installed (ex. 1987).
- D. Indicate the tank capacity in gallons (ex. 25,000 or 10,000 etc.)

### II. TANK CONTENTS

- A. 1. IF MOTOR VEHICLE FUEL, check box 1 and complete items B & C.  
2. If not MOTOR VEHICLE FUEL, check the appropriate box in section A and complete items B & D.
- B. Check the appropriate box
- C. Check the type of MOTOR VEHICLE FUEL (if box 1 is checked in A).
- D. Print the chemical name of the hazardous substance stored in the tank and the C.A.S.#. (Chemical Abstract Service number), if box 1 is NOT checked in A.

### III. TANK CONSTRUCTION - MARK ONE ITEM ONLY IN BOX A, B, C & D

1. Check only one item in TYPE OF SYSTEM, TANK MATERIAL, INTERIOR LINING and CORROSION PROTECTION.
2. If OTHER, print in the space provided.

### IV. PIPING INFORMATION

1. Circle A if above ground circle U if underground, and circle both if applicable.
2. If UNKNOWN circle; or if OTHER, print in space provided
3. Indicate the LEAK DETECTION system(s) used to comply with the monitoring requirement for the piping.

### V. TANK LEAK DETECTION

1. Indicate the LEAK DETECTION system(s) used to comply with the monitoring requirements for the tank.

### VI. INFORMATION ON TANK PERMANENTLY CLOSED IN PLACE.

1. ESTIMATED DATE LAST USED - MONTH/YEAR (January, 1988 or 01/88)
2. ESTIMATED QUANTITY of HAZARDOUS SUBSTANCE remaining in the tank (in Gallons).
3. WAS TANK FILLED WITH INERT MATERIAL? Check 'Yes' or 'NO'

APPLICANT MUST SIGN AND DATE THE FORM AS INDICATED.

### INSTRUCTION FOR THE LOCAL AGENCIES

The state underground storage tank identification number is composed of the two digit county number, the three digit jurisdiction number, the six digit facility number and the six digit tank number. The county and jurisdiction numbers are predetermined and can be obtained by calling the State Board (916) 227-4303. The facility number must be the same as shown in form "A". The tank number may be assigned by the local agency, however, this number must be numerical and cannot contain an alphabet. If the local agency prefers the State Board to assign the tank number, please leave it blank.

IT IS THE RESPONSIBILITY OF THE LOCAL AGENCY THAT INSPECTS THE FACILITY TO VERIFY THE ACCURACY OF THE INFORMATION. THE LOCAL AGENCY IS RESPONSIBLE FOR THE COMPLETION OF THE "LOCAL AGENCY USE ONLY" INFORMATION BOX AND FOR FORWARDING ONE FORM "A" AND ASSOCIATED FORM "B"(s) TO THE FOLLOWING ADDRESS.

RE: **3550 Kurtz Street  
San Diego, CA**

Dear Mr. Kolb:

Please accept this letter as a follow-up to our telephone conversation of Thursday, February 22, 1996, regarding the above referenced property. As you are aware National is in the process of vacating the property with its lease terminating on April 30, 1996. We have had several discussions as to how National can assure compliance with underground storage tank (UST) regulations upon the cessation of operations at the site and vacation of the property.

It is my understanding following our telephone conversation that although it would be National's interpretation of applicable UST regulation that the appropriate response to the UST's and National plans for the property would be that the tanks be placed into temporary closure, you are recommending against this action. (National's interpretation would allow the owner of the property to bring the tanks back into service within a 12-month period even though the UST have not been brought up to 1998 equipment standards.) Contrary to National's interpretation, it is my understanding the County would prefer that the tanks not go into temporary closure for the remainder of National's lease term but rather that the tanks be monitored (tanks stuck five days a week).

I have been in communication with local National San Diego operating staff and they will continue to monitor the tanks. However, in addition to monitoring, as much product as possible has already been removed from all of the USTs, fillcaps will be locked, power to the system will be disconnected, dispensers will be locked, and vent lines will remain open.

As indicated, National has already reregistered the tanks in temporary closure. We will not change that registration status unless directed to do the same. You indicated you would review the registration forms as submitted and then contact me should registration changes be necessary.

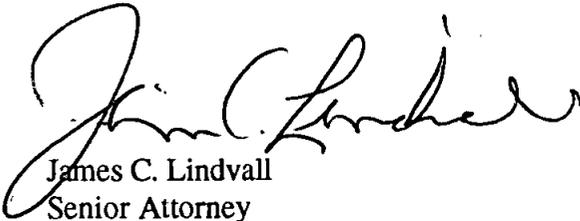

Mr. John Kolb  
Page 2  
February 27, 1996

Finally, although National will undertake the monitoring suggested by the County, I am concerned as to the continued compliance with the County recommended monitoring standard as of termination of National's lease on April 30, 1996. Could you please advise what registration changes National needs to make following lease termination to once again assure that we have met UST requirements.

I wish to thank you on behalf of National for your assistance with this matter. Should I have misunderstood what actions National should be taking I would request that you contact me immediately at 612/893-6569.

Yours very truly,

NATIONAL CAR RENTAL SYSTEM, INC.

No Extremely Haz. Waste Permit 67430.1 V0317 W

TRAINING, CONTINGENCY PLAN & EMERGENCY PROCEDURES

- Training records unavailable 68265.18 V0405 W
Training program not adequate 68265.18 V0408 W
Facility not designed to minimize release 68265.31 V0501 W
Spill control equip not available 68265.32 V0508 W
Aisle space is obstructed 68265.35 V0509 W
Contingency plan not prepared and/or on file 68265.51, 68265.53 V0609 W

MISCELLANEOUS

- Waste oil contaminated 25250.7 V0225 W
Used oil filters improperly managed 68266.130 V0701 W
Damaged batteries improperly managed 68266.81 V0702 W

II UNDERGROUND STORAGE TANK (UST) REQUIREMENTS:

GENERAL UST REQUIREMENTS

- Health Permit not obtained 68.1005, 25284 V3002 T
Repair/modify/close permit not obtained 68.1005 V3007 T
UST Permit Application not submitted 25286(a) V3010 T
Operating permit conditions violated 2712 V3011 T
Failed to notify HMMD of changes 25284 V3012 T
No owner/operator agreement 25293 V3005 T
No records of financial coverage 25292.2 V3013 T
No maint/monit/calib records available 2712(b), 2641i V3001 T

MONITORING REQUIREMENTS (SINGLE WALL)

- Leak Detection Method does not meet performance standards 2643 V3014 T
Annual Integrity test not conducted 25292 V3015 T
Copy of tank test not submitted to HMMD within 30 days 2643 V3016 T
Manual tank gauging (<2000 gal) 2645 not done properly V3017 T
Reconciliation not done properly 2646 V3018 T
Reconciliation not approved for facility 2646 V3019 T
Dispenser meter(s) not calib annually 2646 V3020 T
Improper liquid measurements 2646 V3021 T
Stick in poor condition 2646 V3022 T
Improper monthly reconciliation 2646 V3023 T
Failed to report excessive variation 2646 V3024 T
Pressurized Product Piping Leak Device not tested annually 25292 V3025 T

MONITORING REQUIREMENTS (DOUBLE WALL)

- Monitoring system not functional 2632 V3026 T
No written monitoring procedure 2632 V3027 T
Written response plan not available 2632 V3028 T
Spill/Overfill equip. not maintained or installed 2635 V3029 T

RELEASE REPORTING

- Failure to report an unauthorized release 25295 V3009 T
Release record log not available 2651, 2650 V3030 T
No leak report/investigation/action 2652 V3031 T

CLOSURE

- Temporary closure req. not completed 2671 V3006 T
Abandoned tank not properly closed 25298 V3032 T
Permanent closure req. not completed 2672 V3033 T

III HAZARDOUS MATERIALS BUSINESS PLAN REQUIREMENTS:

RECORD KEEPING

- Health Permit not obtained SDCC 68.1105 V2001 W
Business Plan not established/implemented 25503.5 V2002 W
Business Plan not submitted to HMMD 25505 V2007 W
Business Plan not amended 25505 V2003 W
Personnel Training Records not available 2732 V2302 W

RELEASE REPORTING

- Failure to report a release/threatened release 25507 V2008 W

BUSINESS PLAN ELEMENTS

- Emergency Response Plan inadequate 25504 V2201 W
Emergency Contacts not provided/current 25509 V2203 W
Personnel Training Program inadequate 25504 V2301 W
Inventory is incomplete 25504 V2005 W
Site Map is not sufficient 25509 V2202 W
Acutely Haz. Mat. not registered 25533 V2009 W

An inspection summary report will be mailed shortly. All violations must be corrected. Please call (619) 338-2222 if you have any questions.

THIS FORM MUST BE ACCOMPANIED BY AT LEAST (1) OR MORE PERMIT APPLICATION - FORM B, UNLESS THIS IS A CHANGE OF SITE INFORMATION ONLY.

OWNER MUST FILE THIS FORM WITH THE LOCAL AGENCY IMPLEMENTING THE UNDERGROUND STORAGE TANK REGULATIONS

# INSTRUCTIONS FOR COMPLETING FORM "A"

## GENERAL INSTRUCTIONS:

SECTION 2711 OF TITLE 23, CHAPTER 16, CALIFORNIA CODE OF REGULATIONS AND SECTIONS 25286, 25287, AND 25289 OF CHAPTER 6.7, DIVISION 20, CALIFORNIA HEALTH AND SAFETY CODE REQUIRE OWNERS TO APPLY FOR AN UST OPERATING PERMIT.

1. One FORM "A" shall be completed for all NEW PERMIT CHANGES or any FACILITY/SITE INFORMATION CHANGES.
2. SUBMIT ONLY ONE (1) FORM "A" for a Facility/Site, regardless of the number of tanks located at the site.
3. This form should be completed by either the PERMIT APPLICANT or the LOCAL AGENCY UNDERGROUND TANK INSPECTOR.
4. Please type or print clearly all requested information.
5. Use a hard point writing instrument, you are making 3 copies.
6. Tank owner must submit a facility plot plan to the local agency as part of the application showing the location of the USTs with respect to buildings and landmarks [Section 2711 (a)(8), CCR].
7. Tank owner must submit documentation showing compliance with state financial responsibility requirements to the local agency as part of the application for petroleum USTs [Section 2711 (a)(11), CCR].

## TOP OF FORM: "MARK ONLY ONE ITEM"

Mark an (X) in the box next to the item that best describes the reason the form is being completed.

### I. FACILITY/SITE INFORMATION & ADDRESS (MUST BE COMPLETED)

1. Record name and address (physical location) of the underground tank(s).  
NOTE: Address MUST have a valid physical location including city, state, and zip code.  
P.O. BOX NUMBERS ARE NOT ACCEPTABLE.  
Include nearest cross street and name of the operator.
2. Phone number must have an area code. If the night number is the same, write "SAME" in proper location.
3. Check the appropriate box for TYPE OF BUSINESS OWNERSHIP (ex. CORPORATION, INDIVIDUAL, etc.).
4. Check the appropriate box for TYPE OF BUSINESS.
5. If Facility/Site is located within an Indian reservation or other Indian trust lands, check the box marked "YES".
6. Indicate the NUMBER of TANKS at this SITE.
7. Record the E.P.A. ID # or write "NONE" in the space provided.

### II. PROPERTY OWNER INFORMATION & ADDRESS (MUST BE COMPLETED)

Complete all items in this section, unless all items are the same as SECTION I; If the same, write "SAME AS SITE" across this section. Be sure to check PROPERTY OWNERSHIP TYPE box.

### III. TANK OWNER INFORMATION & ADDRESS (MUST BE COMPLETED)

Complete all items in this section, unless all items are the same as SECTION I; If the same, write "SAME AS SITE" across this section. Be sure to check TANK OWNERS TYPE box.

### IV. BOARD OF EQUALIZATION UST STORAGE FEE ACCOUNT NUMBER (MUST BE COMPLETED. SEE ARTICLE 5, CHAPTER 6.75, DIVISION 20, CALIFORNIA HEALTH AND SAFETY CODE.)

Enter your Board of Equalization (BOE) UST storage fee account number which is required before your permit application can be processed. Registration with the BOE will ensure that you will receive a quarterly storage fee return in reporting the \$0.006 (6mills) per gallon fee due on the number of gallons placed in your USTs. The BOE will code persons exempt from paying the storage fee so returns will not be sent. If you do not have an account number with the BOE or if you have any questions regarding the fee or exemptions, please call the BOE at 916-322-9669 or write to the BOE at the following address Board of Equalization, Fuel Taxes Division, P.O. Box 942879, Sacramento, CA 94279-0001.

### V. PETROLEUM UST FINANCIAL RESPONSIBILITY (MUST BE COMPLETED FOR PETROLEUM USTs ONLY, SEE SECTIONS 2711 (a)(8) OF TITLE 23, CHAPTER 16, CALIFORNIA CODE OF REGULATIONS.)

Identify the method(s) used by the owner and/or operator, in meeting the Federal and State financial responsibility requirements. USTs owned by any Federal or State agency as well as non-petroleum USTs are exempt from this requirement.

### VI. LEGAL NOTIFICATION AND BILLING ADDRESS

Check ONE BOX for the address that will be used for BOTH LEGAL AND BILLING NOTIFICATIONS.  
TANK OWNER OR AUTHORIZED REPRESENTATIVE MUST SIGN AND DATE THE FORM AS INDICATED. [SEE SECTIONS 2711 (a)(13) OF TITLE 23 CHAPTER 16, CALIFORNIA CODE OF REGULATIONS.]

### INSTRUCTION FOR THE LOCAL AGENCIES

The county jurisdiction numbers are predetermined and can be obtained by calling the State Board (916) 227-4303. The facility number may be assigned by the local agency; however, this number must be numerical and cannot contain any alphabetical characters. If the local agency prefers the State Board to assign the facility number, please leave it blank.

IT IS THE RESPONSIBILITY OF THE LOCAL AGENCY THAT INSPECTS THE FACILITY TO VERIFY THE ACCURACY OF THE INFORMATION. THIS APPLICATION CANNOT BE PROCESSED IF THE BOE ACCOUNT NUMBER IS NOT FILLED IN. THE LOCAL AGENCY IS RESPONSIBLE FOR THE COMPLETION OF THE "LOCAL AGENCY USE ONLY" INFORMATION BOX AND FOR FORWARDING ONE FORM "A" AND ASSOCIATED FORM "B"(s) TO THE FOLLOWING ADDRESS. THE LOCAL AGENCY SHOULD RETAIN THE ORIGINALS AND FORWARD THE YELLOW COPIES TO THE FOLLOWING ADDRESS. THE PINK COPY SHOULD BE RETAINED BY THE TANK OWNER.

## INSTRUCTIONS FOR COMPLETING FORM "B"

### GENERAL INSTRUCTIONS:

1. One FORM "B" shall be completed for each tank for all NEW PERMITS, PERMIT CHANGES, REMOVALS and/or any other TANK INFORMATION CHANGE.
2. This form should be completed by either the PERMIT APPLICANT or the LOCAL AGENCY UNDERGROUND TANK INSPECTOR.
3. Please type or print clearly all requested information.
4. Use a hard point writing instrument, you are making 3 copies.

### TOP OF FORM: 'MARK ONLY ONE ITEM'

1. Mark an (X) in the box next to the item that best describes the reason the form is being completed.
2. Indicate the DBA or Facility name where the tank is installed.

### I. TANK DESCRIPTION - COMPLETE ALL ITEMS - IF UNKNOWN - SO SPECIFY

- A. Indicate owners tank ID # - If there is a tank number that is used by the owner to identify the tank (ex. AB70789).
- B. Indicate the name of the company that manufactured the tank (ex. ACME TANK MFG).
- C. Indicate the year the tank was installed (ex. 1987).
- D. Indicate the tank capacity in gallons (ex. 25,000 or 10,000 etc.)

### II. TANK CONTENTS

- A. 1. IF MOTOR VEHICLE FUEL, check box 1 and complete items B & C.  
2. If not MOTOR VEHICLE FUEL, check the appropriate box in section A and complete items B & D.
- B. Check the appropriate box.
- C. Check the type of MOTOR VEHICLE FUEL (if box 1 is checked in A).
- D. Print the chemical name of the hazardous substance stored in the tank and the C.A.S.#. (Chemical Abstract Service number), if box 1 is NOT checked in A.

### III. TANK CONSTRUCTION - MARK ONE ITEM ONLY IN BOX A, B, C & D

1. Check only one item in TYPE OF SYSTEM, TANK MATERIAL, INTERIOR LINING and CORROSION PROTECTION.
2. If OTHER, print in the space provided.

### IV. PIPING INFORMATION

1. Circle A if above ground circle U if underground, and circle both if applicable.
2. If UNKNOWN circle; or if OTHER, print in space provided
3. Indicate the LEAK DETECTION system(s) used to comply with the monitoring requirement for the piping.

### V. TANK LEAK DETECTION

1. Indicate the LEAK DETECTION system(s) used to comply with the monitoring requirements for the tank.

### VI. INFORMATION ON TANK PERMANENTLY CLOSED IN PLACE

1. ESTIMATED DATE LAST USED - MONTH/YEAR (January, 1988 or 01/88)
2. ESTIMATED QUANTITY of HAZARDOUS SUBSTANCE remaining in the tank (in Gallons).
3. WAS TANK FILLED WITH INERT MATERIAL? Check 'Yes' or 'NO'

APPLICANT MUST SIGN AND DATE THE FORM AS INDICATED.

### INSTRUCTION FOR THE LOCAL AGENCIES

The state underground storage tank identification number is composed of the two digit county number, the three digit jurisdiction number, the six digit facility number and the six digit tank number. The county and jurisdiction numbers are predetermined and can be obtained by calling the State Board (916) 227-4303. The facility number must be the same as shown in form "A". The tank number may be assigned by the local agency, however, this number must be numerical and cannot contain an alphabet. If the local agency prefers the State Board to assign the tank number, please leave it blank.

IT IS THE RESPONSIBILITY OF THE LOCAL AGENCY THAT INSPECTS THE FACILITY TO VERIFY THE ACCURACY OF THE INFORMATION. THE LOCAL AGENCY IS RESPONSIBLE FOR THE COMPLETION OF THE "LOCAL AGENCY USE ONLY" INFORMATION BOX AND FOR FORWARDING ONE FORM "A" AND ASSOCIATED FORM "B"(s) TO THE FOLLOWING ADDRESS.

## INSTRUCTIONS FOR COMPLETING FORM "B"

### GENERAL INSTRUCTIONS:

1. One FORM "B" shall be completed for each tank for all NEW PERMITS, PERMIT CHANGES, REMOVALS and/or any other TANK INFORMATION CHANGE.
2. This form should be completed by either the PERMIT APPLICANT or the LOCAL AGENCY UNDERGROUND TANK INSPECTOR.
3. Please type or print clearly all requested information.
4. Use a hard point writing instrument, you are making 3 copies.

### TOP OF FORM: 'MARK ONLY ONE ITEM'

1. Mark an (X) in the box next to the item that best describes the reason the form is being completed.
2. Indicate the DBA or Facility name where the tank is installed.

### I. TANK DESCRIPTION - COMPLETE ALL ITEMS - IF UNKNOWN - SO SPECIFY

- A. Indicate owners tank ID # - If there is a tank number that is used by the owner to identify the tank (ex. AB70789).
- B. Indicate the name of the company that manufactured the tank (ex. ACME TANK MFG).
- C. Indicate the year the tank was installed (ex. 1987).
- D. Indicate the tank capacity in gallons (ex. 25,000 or 10,000 etc.)

### II. TANK CONTENTS

- A. 1. IF MOTOR VEHICLE FUEL, check box 1 and complete items B & C.  
2. If not MOTOR VEHICLE FUEL, check the appropriate box in section A and complete items B & D.
- B. Check the appropriate box.
- C. Check the type of MOTOR VEHICLE FUEL (if box 1 is checked in A).
- D. Print the chemical name of the hazardous substance stored in the tank and the C.A.S.#. (Chemical Abstract Service number), if box 1 is NOT checked in A.

### III. TANK CONSTRUCTION - MARK ONE ITEM ONLY IN BOX A, B, C & D

1. Check only one item in TYPE OF SYSTEM, TANK MATERIAL, INTERIOR LINING and CORROSION PROTECTION
2. If OTHER, print in the space provided

### IV. PIPING INFORMATION

1. Circle A if above ground circle U if underground, and circle both if applicable.
2. If UNKNOWN circle; or if OTHER, print in space provided
3. Indicate the LEAK DETECTION system(s) used to comply with the monitoring requirement for the piping.

### V. TANK LEAK DETECTION

1. Indicate the LEAK DETECTION system(s) used to comply with the monitoring requirements for the tank.

### VI. INFORMATION ON TANK PERMANENTLY CLOSED IN PLACE

1. ESTIMATED DATE LAST USED - MONTH/YEAR (January, 1988 or 01/88)
2. ESTIMATED QUANTITY of HAZARDOUS SUBSTANCE remaining in the tank (in Gallons).
3. WAS TANK FILLED WITH INERT MATERIAL? Check 'Yes' or 'NO'

APPLICANT MUST SIGN AND DATE THE FORM AS INDICATED.

### INSTRUCTION FOR THE LOCAL AGENCIES

The state underground storage tank identification number is composed of the two digit county number, the three digit jurisdiction number, the six digit facility number and the six digit tank number. The county and jurisdiction numbers are predetermined and can be obtained by calling the State Board (916) 227-4303. The facility number must be the same as shown in form "A". The tank number may be assigned by the local agency, however, this number must be numerical and cannot contain an alphabet. If the local agency prefers the State Board to assign the tank number, please leave it blank.

IT IS THE RESPONSIBILITY OF THE LOCAL AGENCY THAT INSPECTS THE FACILITY TO VERIFY THE ACCURACY OF THE INFORMATION. THE LOCAL AGENCY IS RESPONSIBLE FOR THE COMPLETION OF THE "LOCAL AGENCY USE ONLY" INFORMATION BOX AND FOR FORWARDING ONE FORM "A" AND ASSOCIATED FORM "B"(s) TO THE FOLLOWING ADDRESS.

## INSTRUCTIONS FOR COMPLETING FORM "B"

### GENERAL INSTRUCTIONS:

1. One FORM "B" shall be completed for each tank for all NEW PERMITS, PERMIT CHANGES, REMOVALS and/or any other TANK INFORMATION CHANGE.
2. This form should be completed by either the PERMIT APPLICANT or the LOCAL AGENCY UNDERGROUND TANK INSPECTOR.
3. Please type or print clearly all requested information.
4. Use a hard point writing instrument, you are making 3 copies.

### TOP OF FORM: 'MARK ONLY ONE ITEM'

1. Mark an (X) in the box next to the item that best describes the reason the form is being completed.
2. Indicate the DBA or Facility name where the tank is installed.

### I. TANK DESCRIPTION - COMPLETE ALL ITEMS - IF UNKNOWN - SO SPECIFY

- A. Indicate owners tank ID # - If there is a tank number that is used by the owner to identify the tank (ex. AB70789).
- B. Indicate the name of the company that manufactured the tank (ex. ACME TANK MFG).
- C. Indicate the year the tank was installed (ex. 1987).
- D. Indicate the tank capacity in gallons (ex. 25,000 or 10,000 etc.)

### II. TANK CONTENTS

- A. 1. IF MOTOR VEHICLE FUEL, check box 1 and complete items B & C.  
2. If not MOTOR VEHICLE FUEL, check the appropriate box in section A and complete items B & D
- B. Check the appropriate box.
- C. Check the type of MOTOR VEHICLE FUEL (if box 1 is checked in A).
- D. Print the chemical name of the hazardous substance stored in the tank and the C.A.S.#. (Chemical Abstract Service number), if box 1 is NOT checked in A.

### III. TANK CONSTRUCTION - MARK ONE ITEM ONLY IN BOX A, B, C & D

1. Check only one item in TYPE OF SYSTEM, TANK MATERIAL, INTERIOR LINING and CORROSION PROTECTION.
2. If OTHER, print in the space provided.

### IV. PIPING INFORMATION

1. Circle A if above ground circle U if underground, and circle both if applicable.
2. If UNKNOWN circle; or if OTHER print in space provided
3. Indicate the LEAK DETECTION system(s) used to comply with the monitoring requirement for the piping.

### V. TANK LEAK DETECTION

1. Indicate the LEAK DETECTION system(s) used to comply with the monitoring requirements for the tank.

### VI. INFORMATION ON TANK PERMANENTLY CLOSED IN PLACE

1. ESTIMATED DATE LAST USED - MONTH/YEAR (January, 1988 or 01/88)
2. ESTIMATED QUANTITY of HAZARDOUS SUBSTANCE remaining in the tank (in Gallons).
3. WAS TANK FILLED WITH INERT MATERIAL? Check 'Yes' or 'NO'

APPLICANT MUST SIGN AND DATE THE FORM AS INDICATED.

### INSTRUCTION FOR THE LOCAL AGENCIES

The state underground storage tank identification number is composed of the two digit county number, the three digit jurisdiction number, the six digit facility number and the six digit tank number. The county and jurisdiction numbers are predetermined and can be obtained by calling the State Board (916) 227-4303. The facility number must be the same as shown in form "A". The tank number may be assigned by the local agency, however, this number must be numerical and cannot contain an alphabet. If the local agency prefers the State Board to assign the tank number, please leave it blank.

IT IS THE RESPONSIBILITY OF THE LOCAL AGENCY THAT INSPECTS THE FACILITY TO VERIFY THE ACCURACY OF THE INFORMATION. THE LOCAL AGENCY IS RESPONSIBLE FOR THE COMPLETION OF THE "LOCAL AGENCY USE ONLY" INFORMATION BOX AND FOR FORWARDING ONE FORM "A" AND ASSOCIATED FORM "B"(s) TO THE FOLLOWING ADDRESS.

## COMPLIANCE INSPECTION REPORT

DATE 8/20/98

PAGE 4 OF 4

BUSINESS ADDRESS: 3520 Kutz St. San Diego CA 92110

**VIOLATION REPORT:** The items checked below refer to specific section numbers of Titles 19/22/23 of the California Code of Regulations (CCR), Chapters 6.5, 6.7, 6.95 of the Health and Safety Code (HSC), and/or the San Diego County Code (SDCC).

### I HAZARDOUS WASTE REQUIREMENTS:

#### RECORD KEEPING

- Health Permit not obtained SDCC 68.905
- No EPA Identification Number 66262.12
- Waste Manifests/Receipts not on-site for 3 years 66262.40
- Manifest not properly completed 66262.23
- Manifest copy not sent to DTSC 66262.23
- TSDf signed-manifest not on-site 66262.40
- Biennial report not sent to DTSC 66262.41
- LDR Documentation not available 66268.7
- Exception Rpt. not filed with DTSC 66262.42
- Operating TSDf without authorization 25201

#### STORAGE AND HANDLING

- Waste stored longer than 90, 180, or 270 days 66262.34
- Failure to clean up hazwaste off of floor surface 66262.10b
- Waste container missing/improperly labeled 66262.34
- Haz Materials not properly labeled 25124
- Waste container not kept closed 66265.173
- Waste container in poor condition 66265.171
- Waste container(s) not properly managed 66265.173
- Damaged container not repackaged 66265.171
- Container incompatible with waste 66265.172
- Incompatibles in the same container 66265.177
- Incompatibles not stored separately 66265.177
- Ignitable Waste less than 50 feet 66265.176
- Ignitable Waste not grounded 66265.31
- Storage area not inspected weekly 66265.174

#### DISPOSAL AND TRANSPORTATION

- Unauth. disposal of waste to 25189.5
- Waste determination not made 66262.11
- Unlawful transport of haz. waste 25163
- Waste transported without manifest 66262.20
- Extremely Haz Waste Permit not obtained 25205.7

#### TRAINING, CONTINGENCY PLAN & EMERGENCY PROCEDURES

- Training records unavailable 66265.16
- Training program not adequate 66265.16
- Facility not designed to minimize release 66265.31
- Spill control equip not available 66265.32
- Aisle space is obstructed 66265.35
- Contingency plan not prepared and/or on file 66265.51, 66265.53

#### MISCELLANEOUS

- Waste oil contaminated 25250.7
- Used oil filters improperly managed 66266.130
- Damaged batteries improperly managed 66266.81
- Facility has failed to notify local CUPA and DTSC of onsite treatment of hazardous waste (tiered permitting)
- Onsite treatment of waste without authorization 25201

### II UNDERGROUND STORAGE TANK (UST) REQUIREMENTS:

#### GENERAL UST REQUIREMENTS

- Health Permit not obtained 68.1005, 25284
- Repair/modify/close permit not obtained 68.1005
- UST Permit Application not submitted 25286(a)
- Operating permit conditions violated 2712
- Failed to notify HMMD of changes 25284
- No owner/operator agreement 25284
- No records of financial coverage 25292.2
- No maint/monit/calib records available 2712(b), 2641(j)
- Monitoring Equip. not tested annually 2630, 2641

#### MONITORING REQUIREMENTS (SINGLE WALL)

- Leak Detection Method does not meet performance standards 2643
- Integrity test not conducted 25292
- Copy of tank test not submitted to HMMD within 30 days 2643
- Manual tank gauging (<2000 gal) 2645 not done properly
- Reconciliation not done properly 2646
- Reconciliation not approved for facility 2646
- Dispenser meter(s) not calib annually 2646
- Improper liquid measurements 2646
- Stick in poor condition 2646
- Improper monthly reconciliation 2646
- Failed to report excessive variation 2646
- Pressurized Product Piping Leak Device not tested annually 25292
- No written monitoring procedure 2641
- No written emergency response plan 2641
- SIR reporting incorrectly done 2646.1

#### MONITORING REQUIREMENTS (DOUBLE WALL)

- Monitoring system not functional 2632
- No written monitoring procedure 2632
- Written emergency response plan not available 2632
- Spill/Overfill equip. not maintained or installed 2635

#### RELEASE REPORTING

- Failure to report an unauthorized release 25295
- Release record log not available 2651, 2650
- No leak report/investigation/action 2652

#### CLOSURE

- Temporary closure req. not completed 2671
- Unused tank not properly closed 25298
- Permanent closure req. not completed 2672
- Failed to apply for temporary closure 25298

**From:** Chuck Pryatel  
**To:** Alex Martinez, Gary Erbeck  
**Date:** Mon, Nov 30, 1998 3:11 PM  
**Subject:** CLOUD 9 SHUTTLE UPDATE

This afternoon I spoke with John Hawkins of Cloud 9 Shuttle regarding the status of his underground storage tank installation. I explained that we issued the stop-work notice to him on 11/25/98 since the installation was not being completed per the plans submitted by his contractor and approved by DEH. I explained that it is important to ensure that all work is done per the manufacturers specifications so their warranties will be in effect. We will review the revised plans ASAP when submitted.

I advised that we had conversations with the San Diego Fire Dept. who notified us that although they had received the needed application and plans for the project, they had not processed them nor issued a permit. The contractor also had not called for a required Fire Dept. inspection at the time of the tank set. Mr. Hawkins did not seem aware that the Fire Dept. requirements had not been met.

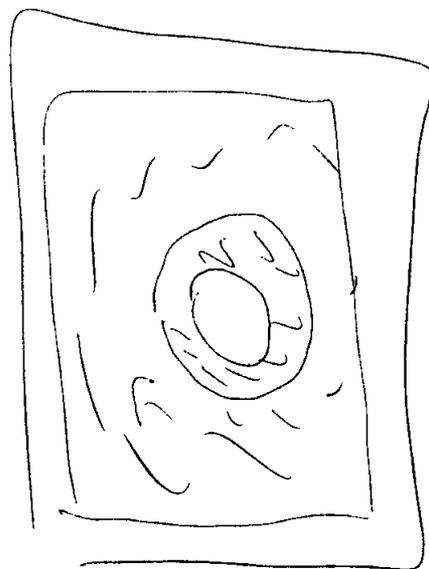

I assured Mr. Hawkins that we would do everything possible to work with his contractor to obtain the necessary information to move the project forward in a timely manner. In addition, we would work with the Fire Dept. to assist with their processing. We have already been in contact with the Fire Dept. and the contractor. The contractor has been informed by both agencies of what is needed and he has indicated the necessary information is forthcoming.

Mr. Hawkins was complimentary of the County and indicated he would keep a close watch on the project. I advised him to contact me in the future if he had any questions or if I could provide any further assistance.

Let me know if I can provide any additional information.

Chuck

## OFFICIAL NOTICE

Charlie Shewey  
Shewey Environmental  
4667 Ocean Blvd., #402  
San Diego, CA 92110

John Hawkins  
Cloud 9 Shuttle  
3250 Kurtz Street  
San Diego, CA 92118

CLOUD 9 SHUTTLE, 3520 KURTZ STREET, SAN DIEGO, CA 92110

On November 25, 1998, Mike Verneti and Sergio Gracia of the Department of Environmental Health (DEH), inspected the underground storage tank (UST) installation at Cloud 9 Shuttle located at 3520 Kurtz Street, San Diego. It was observed that the UST installation has not been constructed according to approved plans on file with DEH. Specifically, the location and depth of the piping and the UST.

To comply with this official notice, Shewey Environmental must cease any further work at Cloud 9 Shuttle until revised plans have been submitted and approved which addresses the following:

- Submittal of buoyancy calculations from a licensed engineer demonstrating that there will be adequate vertical overburden to prevent the UST from floating due to high groundwater.
- Submittal of revised drawings showing location and depth of tank and piping in reference to grade.
- Submittal of revised plans addressing the backfill material of all UST piping. Specifically, the Ameron Dualoy 3000 piping must be installed per Bulletin 9705.

Should you have any questions concerning this Official Notice, please contact me at (619) 338-2242

Sincerely,

Mike Verneti, Supervising Environmental Health Specialist  
Department of Environmental Health

INVESTIGATOR MIKE VERMETT DATE 11/30/98

**From:** Chuck Pryatel  
**To:** Freddie Tayco  
**Date:** Wed, Nov 25, 1998 4:05 PM  
**Subject:** CLOUD 9 SHUTTLE TANK PROJECT

I just wanted to give you a heads-up on a new development on the Cloud 9 Shuttle underground storage tank project.

Our office became aware today that there might be problems with the installation. Senior staff visited the site and found that the system is not being installed per the approved plans. The tanks were not installed at the depth indicated on the plans and the piping is being put above grade, apparently because of the tank depth problem. We also understand the piping is planned to be encased in concrete. These modifications could void manufacture's warranties and create the risk of tanks floating or not being able to support the weight of cars driving over the tanks.

DEH is issuing a notice to stop work until we receive and approve plans with the modifications. We are moving quickly prior to the holiday because we understand they want to put concrete over the system on Friday. If the concrete is installed and we cannot confirm the work was done properly, the concrete would have to be removed.

The San Diego Fire Department advised us that they are also issuing a notice to stop work because the contractor did not obtain an inspection from their agency. This inspection was to observe the setting of the tanks, which would have noted the problem with the tank depth.

Feel free to contact me at S48-2449 if I can provide any additional information.

Chuck

July 20, 1998

**CLOUD 9 SHUTTLE**  
3520 KURTZ ST  
SAN DIEGO CA 92110

Dear Sir:

After examination of your Application No. **971786** for an Air Pollution Control District Authority to Construct and Permit to Operate for a **modification** to a facility located at **3550 Kurtz Street, San Diego, California**, the District has decided on the following action pursuant to California Health and Safety Code Section 41960 and Rule 20 and 1200 of the Air Pollution Control District Rules and Regulations:

Authority to Construct is granted to replace gasoline storage tanks at the existing gasoline dispensing facility. The basic gasoline storage, dispensing and vapor recovery equipment is to consist of: (All equipment associated with the vapor recovery system or that affects the vapor recovery system shall be certified/approved by the California Air Resources Board.)

one (1) 20,000 gallon gasoline storage tank (**new**) for all grades of gasoline utilizing two (2) gasoline dispensing nozzles;

a **new Emco Wheaton Phase II** vehicle fueling vapor control system per E.O. G-70-17-AD; and,

an **new two Point Phase I** vapor control system.

This Authority to Construct is issued subject to the following conditions:

1. This Authority to Construct shall be posted on or within 25 feet of the above described equipment, or maintained readily available at all times on the operating premises.
2. The temporary authorization to operate that is incorporated into this Authority to Construct letter will commence only upon receipt by the District of notice of completion. Operation without authorization is a violation of District Rule 10(b) and can result in civil and criminal penalties.
3. The Phase I system shall be constructed in accordance with the "Two-Point Stage 1 Vapor Recovery System" drawing and shall use components specified in California Air Resources Board (ARB) Executive Order (E.O.) G-70-97-A. Each submerged fillpipe shall have the highest point of its discharge opening no more than six inches

9150 Chesapeake Drive • San Diego • California 92123-1096 • (619) 694-3307  
FAX (619) 694-2730 • Smoking Vehicle Hotline 1-800-28-SMOKE

- from the tank bottom. The dispenser shall be equipped with a Exhibit 5 hose configuration as shown in ARB E.O. G-70-52-AM.
4. Coaxial Phase I vapor recovery systems and/or manholes with cover-actuated drain valves shall not be used.
  5. There shall be no fugitive liquid leaks associated with the transfer of volatile organic fuels. Fugitive liquid leak means any visible liquid leak at a rate in excess of three drops per minute, other than spillage or losses which occur upon disconnecting transfer lines.
  6. The gasoline vapor control system shall be in accordance with ARB E.O. G-70-17-AB. It is important to follow the piping configuration specified in this Executive Order to assure that the tank vent is connected directly to a separate tank port and **not connected to either of the Phase I risers (Fill or Dry Break risers)**. As an alternative a certified P/V (pressure-vacuum) valve may be installed.
  7. The vapor plumbing and tank location drawing received for this application is on file, represents and describes the vapor recovery system at the above specified facility, except as modified by conditions herein.
  8. The gasoline dispensing nozzles shall be Emco Wheaton A- 4005 nozzles.
  9. Each gasoline dispensing nozzle shall limit the dispensing flow rate to not more than 10.0 gal/minute.
  10. Inside diameters of dispenser vapor pipe risers and riser-to-dispenser vapor connectors shall be the hard-pipe type with 3/4-inch (minimum) if capable of receiving vapor from one nozzle and 1-inch (minimum) if from two nozzles.
  11. The gasoline product and vapor return hoses shall all be coaxial.
  12. All gasoline tanks shall be connected to vapor return piping that is at least two (2) inches inside diameter.
  13. A threaded tap at least 1/4 inch NTP shall be installed in one vent pipe at least (6) feet above grade and not exceeding eight (8) feet above grade. This tap shall remain plugged and vapor tight except when test equipment is being connected or removed.
  14. Upon request of the District, the applicant shall provide access, facilities, utilities and any necessary safety equipment for vapor control system testing and inspection.
  15. A drain plug which cannot be held open by debris or dirt shall be installed in the overfill protection box and shall remain vapor tight at all times except during draining of gasoline liquid into the tank. This precludes the use of drain valves with loose screens or that have a wide mesh screen that allows debris to reach and settle on the valve seat or where the valve assembly can come loose when the lever is pulled up.
  16. The following performance tests shall be successfully conducted after startup of the equipment authorized herein. For the purpose of compliance with this condition, all tests shall be conducted after backfilling, paving and installation of all required Phase I and Phase II components.

- a. **A pressure decay/leak test of the entire vapor control system including nozzles/check valves and underground tanks per ARB's Test Procedure TP-201.3.**

**ARB's Test Procedure TP-201.3 shall be conducted and completed between sundown and a half hour after sunrise due to significant influences by ambient conditions such as barometric pressure changes and solar radiation. However, with the concurrence of the District, TP-201.3 may be conducted during the day with overcast skies and stable barometric pressure conditions.**

**In lieu of the TP-201.3 the operator/owner may choose to conduct and submit the results of District leak test method TP-96-1. This test can be conducted at any time during the day, except when ambient temperatures exceed 100 degrees Fahrenheit.**

- b. **A dynamic pressure performance test shall be conducted in accordance with ARB Test Procedure TP-201.4. The pressure drop shall be measured from each dispenser riser to its associated underground storage tank with the vent pipe Pressure/Vacuum valve(s) installed and the popped Phase I coupler poppet open.**
- c. **An efficiency liquid pickup device test of all hoses per ARB Test Procedure TP-201.6.**
- d. **A maximum dispensing flow rate determination for at least one nozzle, to be selected by the District, for each gasoline product. The District may select additional nozzles for testing if flow rates are at or near the maximum allowable.**
- e. **A tank vapor tie test (if more than one tank) of the tanks to verify the existence of an underground tank interconnect vapor pipe per ARB's Test Procedure TP-201.3C.**

**If tests listed above reveal system problems or inadequacies, corrective repairs shall be made. Repeat testing or additional diagnostic testing may be required by the District to assure that the system is functioning properly.**

#### **CONFIRMATION OF TEST DATE**

17. **Within 30 days of completion of construction, the applicant shall contact the District to schedule a test date. Upon receipt of a test date, the applicant shall complete and mail the attached form to the District. Contact the Vapor Recovery section at (619) 694-3195 and receive confirmation so that the District has the opportunity to witness the field test.**
18. **To ensure adequate time for adhesion/bonding and curing of the epoxy sealant, any application of epoxy sealant on drop tubes shall occur either in accordance with the epoxy manufacturer's requirements or the day prior to installation in the gasoline storage tanks, whichever is longer.**

July 20, 1998

-4-

This Authority to Construct does not relieve the holder from obtaining permits or authorizations which may be required by other governmental agencies. Contact the appropriate building inspection department (city or county) and fire district prior to installation of the vapor control equipment for permit and/or inspection requirements. If underground tanks and vapor and liquid lines are to be installed or replaced, contact the County Health Department at (619) 338-2222.

Within ten days after receipt of this Authority to Construct, the applicant may petition the Hearing Board, in accordance with Rule 25, for a hearing on any conditions imposed herein.

This Authority to Construct authorizes temporary operation of the above specified equipment. This temporary Permit to Operate shall take effect upon written notification to the District that construction has been completed in accordance with this Authority to Construct. This temporary Permit to Operate will remain in effect, unless withdrawn or modified by the District, until the equipment is inspected by the District and a revised temporary permit (Startup Authorization) is issued or a Permit to Operate is granted or denied.

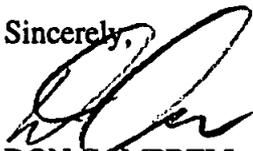

Upon completion of construction in accordance with this Authority to Construct and prior to commencing operation, the applicant must complete and mail, deliver personally or via facsimile the enclosed Construction Completion Notice to the District. After submitting the notice, the applicant may commence operation of the equipment. Operation must be in compliance with all of the conditions of this Authority to Construct and applicable District rules.

If during a Permit to Operate inspection there are obvious deficiencies such as torn nozzle bellows, flattened vapor return hoses, etc., the District may deny the Permit to Operate or, depending on the extent of the deficiencies, require you to make repairs within a specific period of time. In the latter case, you will be charged a fee to pay for the reinspection. If the repairs are not made by the date of the reinspection, your Permit to Operate may be denied.

This Authority to Construct may not be transferable and will expire one year from date of issuance unless an extension is requested in writing.

If you have any questions regarding this action, please contact me at (619) 694-3321.

Sincerely,

DON CAMPBELL  
Associate Air Pollution Control Engineer

ATTENDEES/AGENCIES REPRESENTED\* Property owner - 3520 Kurtz St. 92110

PHONE NO. (619) 756-4494

PERSON CALLING/CALLED Mr. Paul Thomas - called left message 1030

AGENCY REPRESENTED \_\_\_\_\_

CONVERSATION/MINUTES\*\* 4:00 - Received Mr. Thomas's call.

Mr. Thomas is in a dispute with his current tenants over who has the responsibility to upgrade the VSTs on the property. Mr. Thomas stated that I had documented a conversation with him in which I had told (Mr. Thomas<sup>him</sup>) of the need to remove or upgrade the vsts by 12-22-98, and the Cloud 9 folks (current tenant) are stating that the knowledge of the upgrade reqs was not disclosed to them so it is not Cloud 9's responsibility currently to upgrade the vsts at the site.

I explained to Mr. Thomas that 2+ years ago I routinely informed a tank owner/operator of the upgrade requirements and suggested that he review the HMMD file.

**SUPPLEMENTAL INSPECTION REPORT**

Office Use Only

BUSINESS ADDRESS: 3520 Kurtz Street. SD ZIP CODE: 92110

Underground Storage Tank Financial Responsibility Certification Document was unavailable.

Corrective Action: Locate the Underground Storage Tank Financial Responsibility Certification Document. Maintain a copy of the document on-site. It will be reviewed during the inspection.

Hazardous Materials Business Plan was reviewed during this inspection. However, the Site Map page was unavailable.

Corrective Action: Submit a photocopy of the Hazardous Materials Business Plan Site Map page to HMD, within 30 days.

Comments:

HMD will need to do an Underground Storage Tank equipment check. An appointment will be necessary.

Clavel 9 needs to do annual Service Maintenance Check on the Underground Storage Tank Electronic Monitoring Device next year. The UST was installed in 1999.

There is an above ground Storage Tank holding Used Oil. HMD will contact this business regarding the tank in the near future.

## COMPLIANCE INSPECTION REPORT

DATE 11/15/99

PAGE 3 OF 3

BUSINESS ADDRESS: 3520 Kurtz Street, San Diego CA 92110

**VIOLATION REPORT:** The items checked below refer to specific section numbers of Titles 19/22/23 of the California Code of Regulations (CCR), Chapters 6.5, 6.7, 6.95 of the Health and Safety Code (HSC), and/or the San Diego County Code (SDCC).

### I HAZARDOUS WASTE REQUIREMENTS:

#### RECORD KEEPING

- Health Permit not obtained SDCC 68.905
- No EPA Identification Number 66262.12
- Waste Manifests/Receipts not on-site for 3 years 66262.40 Antifreeze
- Manifest not properly completed 66262.23
- Manifest copy not sent to DTSC 66262.23
- TSDF signed-manifest not on-site 66262.40
- Biennial report not sent to DTSC 66262.41
- LDR Documentation not available 66268.7
- Exception Rpt. not filed with DTSC 66262.42
- Operating TSDF without authorization 25201

#### STORAGE AND HANDLING

- Waste stored longer than 90, 180, or 270 days 66262.34
- Failure to clean up hazwaste off of floor surface 66262.10b
- Waste container missing/improperly labeled 66262.34
- Haz Materials not properly labeled 25124
- Waste container not kept closed 66265.173
- Waste container in poor condition 66265.171
- Waste container(s) not properly managed 66265.173
- Damaged container not repackaged 66265.171
- Container incompatible with waste 66265.172
- Incompatibles in the same container 66265.177
- Incompatibles not stored separately 66265.177
- Ignitable Waste less than 50 feet 66265.176
- Ignitable Waste not grounded 66265.31
- Storage area not inspected weekly 66265.174

#### DISPOSAL AND TRANSPORTATION

- Unauth. disposal of waste to 25189.5
- Waste determination not made 66262.11
- Unlawful transport of haz. waste 25163
- Waste transported without manifest 66262.20
- Extremely Haz Waste Permit not obtained 25205.7

#### TRAINING, CONTINGENCY PLAN & EMERGENCY PROCEDURES

- Training records unavailable 66265.16
- Training program not adequate 66265.16
- Facility not designed to minimize release 66265.31
- Spill control equip not available 66265.32
- Aisle space is obstructed 66265.35
- Contingency plan not prepared and/or on file 66265.51, 66265.53

#### MISCELLANEOUS

- Waste oil contaminated 25250.7
- Used oil filters improperly managed 66266.130
- Damaged batteries improperly managed 66266.81
- Facility has failed to notify local CUPA and DTSC of onsite treatment of hazardous waste (tiered permitting)
- Onsite treatment of waste without authorization 25201

COMPLIANCE INSPECTION REPORT

BUSINESS NAME Cloud 9 Shuttle
ADDRESS 3520 Kurtz Street
CITY/ZIP San Diego CA 92110

On the above date an inspection of your business/facility was conducted in order to determine compliance with the California Health and Safety Code (H&S) Chapters 6.5, 6.7, 6.95; Titles 19, 22 and 23 of the California Code of Regulations (CCR); and the San Diego County Code (SDCC). The following remarks are intended to provide guidance to correct the violations noted on the attached violation report.

Handwritten note: PWC (SS) 11/19/99

Office Use Only (vertical column on the left side of the report)

The following hazardous waste containers lacked a completed hazardous waste label:

- 1) 3 .55 gallon drums of Antifreeze
2) 1 .500 gallon above ground storage tank

Corrective Action: Provide Completed Hazardous waste labels on the drums & tank. The label must have the following information: Name & Address of generator, Physical state, Hazard Properties, Contents and Accumulation Start date (date waste was first put into drum).

HMD will need to do a follow-up inspection to review the following:

- 1) Hazardous materials Business Plan
2) employee training records - Emergency procedures / Hazardous materials waste request.
3) Hazardous waste Disposal manifest.
4) Underground Storage Tank Documents +

#### DISPOSAL AND TRANSPORTATION

- Unauth. disposal of waste to 25189.5
- Waste determination not made 66262.11
- Unlawful transport of haz. waste 25163
- Waste transported without manifest 66262.20
- Extremely Haz Waste Permit not obtained 25205.7

- V0313 W \_\_\_\_\_
- V0319 W \_\_\_\_\_
- V0315 W \_\_\_\_\_
- V0316 W \_\_\_\_\_
- V0317 W \_\_\_\_\_

#### TRAINING, CONTINGENCY PLAN & EMERGENCY PROCEDURES

- Training records unavailable 66265.16
- Training program not adequate 66265.16
- Facility not designed to minimize release 66265.31
- Spill control equip not available 66265.32
- Aisle space is obstructed 66265.35
- Contingency plan not prepared and/or on file 66265.51, 66265.53

- V0405 W \_\_\_\_\_
- V0406 W \_\_\_\_\_
- V0501 W \_\_\_\_\_
- V0508 W \_\_\_\_\_
- V0509 W \_\_\_\_\_
- V0609 W \_\_\_\_\_

#### MISCELLANEOUS

- Waste oil contaminated 25250.7
- Used oil filters improperly managed 66266.130
- Damaged batteries improperly managed 66266.81
- Facility has failed to notify local CUPA and DTSC of onsite treatment of hazardous waste (tiered permitting)
- Onsite treatment of waste without authorization 25201

- V0225 W \_\_\_\_\_
- V0701 W \_\_\_\_\_

- V0125 W \_\_\_\_\_
- V0125 W \_\_\_\_\_

### II UNDERGROUND STORAGE TANK (UST) REQUIREMENTS:

#### GENERAL UST REQUIREMENTS

- Health Permit not obtained 68.1005, 25284
- Repair/modify/close permit not obtained 68.1005
- UST Permit Application not submitted 25286(a)
- Operating permit conditions violated 2712
- Failed to notify HMMD of changes 25284
- No owner/operator agreement 25284
- No records of financial coverage 25292.2
- No maint/monit/calib records available 2712(b), 2641(j)
- Monitoring Equip. not tested annually 2630, 2641

- V3002 T \_\_\_\_\_
- V3007 T \_\_\_\_\_
- V3010 T \_\_\_\_\_
- V3011 T \_\_\_\_\_
- V3012 T \_\_\_\_\_
- V3005 T \_\_\_\_\_
- V3013 T \_\_\_\_\_
- V3001 T \_\_\_\_\_
- V3003 T \_\_\_\_\_

#### MONITORING REQUIREMENTS (SINGLE WALL)

- Leak Detection Method does not meet performance standards 2643
- Integrity test not conducted 25292
- Copy of tank test not submitted to HMMD within 30 days 2643
- Manual tank gauging (<2000 gal) 2645 not done properly
- Reconciliation not done properly 2646
- Reconciliation not approved for facility 2646
- Dispenser meter(s) not calib annually 2646
- Improper liquid measurements 2646
- Stick in poor condition 2646
- Improper monthly reconciliation 2646
- Failed to report excessive variation 2646
- Pressurized Product Piping Leak Device not tested annually 25292
- No written monitoring procedure 2641
- No written emergency response plan 2641
- SIR reporting incorrectly done 2646.1

- V3014 T \_\_\_\_\_
- V3015 T \_\_\_\_\_
- V3016 T \_\_\_\_\_
- V3017 T \_\_\_\_\_
- V3018 T \_\_\_\_\_
- V3019 T \_\_\_\_\_

## COMPLIANCE INSPECTION REPORT

DATE 11 23 199

PAGE 2 OF 2

BUSINESS ADDRESS: 3520 Kurtz Street, San Diego CA 92116

VIOLATION REPORT: The items checked below refer to specific section numbers of Titles 19/22/23 of the California Code of Regulations (CCR), Chapters 6.5, 6.7, 6.95 of the Health and Safety Code (HSC), and/or the San Diego County Code (SDCC).

### I HAZARDOUS WASTE REQUIREMENTS:

#### RECORD KEEPING

- Health Permit not obtained SDCC 68.905 **V0108 W** \_\_\_\_\_
- No EPA Identification Number 66262.12 **V0105 W** \_\_\_\_\_
- Waste Manifests/Receipts not on-site for 3 years 66262.40 **V0118 W** \_\_\_\_\_
- Manifest not properly completed 66262.23 **V0120 W** \_\_\_\_\_
- Manifest copy not sent to DTSC 66262.23 **V0115 W** \_\_\_\_\_
- TSDf signed-manifest not on-site 66262.40 **V0121 W** \_\_\_\_\_
- Biennial report not sent to DTSC 66262.41 **V0122 W** \_\_\_\_\_
- LDR Documentation not available 66268.7 **V0123 W** \_\_\_\_\_
- Exception Rpt. not filed with DTSC 66262.42 **V0116 W** \_\_\_\_\_
- Operating TSDf without authorization 25201 **V0124 W** \_\_\_\_\_

#### STORAGE AND HANDLING

- Waste stored longer than 90, 180, or 270 days 66262.34 **V0221 W** \_\_\_\_\_
- Failure to clean up hazwaste off of floor surface 66262.10b **V0313 W** \_\_\_\_\_
- Waste container missing/improperly labeled 66262.34 **V0222 W** \_\_\_\_\_
- Haz Materials not properly labeled 25124 **V0223 W** \_\_\_\_\_
- Waste container not kept closed 66265.173 **V0202 W** \_\_\_\_\_
- Waste container in poor condition 66265.171 **V0205 W** \_\_\_\_\_
- Waste container(s) not properly managed 66265.173 **V0210 W** \_\_\_\_\_
- Damaged container not repackaged 66265.171 **V0226 W** \_\_\_\_\_
- Container incompatible with waste 66265.172 **V0207 W** \_\_\_\_\_
- Incompatibles in the same container 66265.177 **V0210 W** \_\_\_\_\_
- Incompatibles not stored separately 66265.177 **V0213 W** \_\_\_\_\_
- Ignitable Waste less than 50 feet 66265.176 **V0214 W** \_\_\_\_\_
- Ignitable Waste not grounded 66265.31 **V0215 W** \_\_\_\_\_
- Storage area not inspected weekly 66265.174 **V0216 W** \_\_\_\_\_

#### DISPOSAL AND TRANSPORTATION

- Unauth. disposal of waste to \_\_\_\_\_ 25189.5 **V0313 W** \_\_\_\_\_
- Waste determination not made 66262.11 **V0319 W** \_\_\_\_\_
- Unlawful transport of haz. waste 25163 **V0315 W** \_\_\_\_\_
- Waste transported without manifest 66262.20 **V0316 W** \_\_\_\_\_
- Extremely Haz Waste Permit not obtained 25205.7 **V0317 W** \_\_\_\_\_

#### TRAINING, CONTINGENCY PLAN & EMERGENCY PROCEDURES

- Training records unavailable 66265.16 **V0405 W** \_\_\_\_\_
- Training program not adequate 66265.16 **V0406 W** \_\_\_\_\_
- Facility not designed to minimize release 66265.31 **V0501 W** \_\_\_\_\_
- Spill control equip not available 66265.32 **V0508 W** \_\_\_\_\_
- Aisle space is obstructed 66265.35 **V0509 W** \_\_\_\_\_
- Contingency plan not prepared and/or on file 66265.51, 66265.53 **V0609 W** \_\_\_\_\_

#### MISCELLANEOUS

- Waste oil contaminated 25250.7 **V0225 W** \_\_\_\_\_
- Used oil filters improperly managed 66266.130 **V0701 W** \_\_\_\_\_
- Damaged batteries improperly managed 66266.81 **V0702 W** \_\_\_\_\_
- Facility has failed to notify local CUPA and DTSC of onsite treatment of hazardous waste (tiered permitting) **V0125 W** \_\_\_\_\_
- Onsite treatment of waste without authorization 25201 **V0125 W** \_\_\_\_\_

### II UNDERGROUND STORAGE TANK (UST) REQUIREMENTS:

### III HAZARDOUS MATERIALS BUSINESS PLAN REQUIREMENTS:

#### RECORD KEEPING

- Health Permit not obtained SDCC 68.1105
- Business Plan not established/implemented 25503.5
- Business Plan not submitted to HMMD 25505
- Business Plan not amended 25505
- Personnel Training Records not available 19 CCR 2732

- V2001 W \_\_\_\_\_
- V2002 W \_\_\_\_\_
- V2007 W \_\_\_\_\_
- V2003 W \_\_\_\_\_
- V2302 W \_\_\_\_\_

#### RELEASE REPORTING

- Failure to report a release/threatened release 25507

- V2008 W \_\_\_\_\_

### II UNDERGROUND STORAGE TANK (UST) REQUIREMENTS:

#### GENERAL UST REQUIREMENTS

- Health Permit not obtained 68.1005, 25284
- Repair/modify/close permit not obtained 68.1005
- UST Permit Application not submitted 25286(a)
- Operating permit conditions violated 2712
- Failed to notify HMMD of changes 25284
- No owner/operator agreement 25284
- No records of financial coverage 25292.2
- No maint/monit/calib records available 2712(b), 2641(j)
- Monitoring Equip. not tested annually 2630, 2641

- V3002 T \_\_\_\_\_
- V3007 T \_\_\_\_\_
- V3010 T \_\_\_\_\_
- V3011 T \_\_\_\_\_
- V3012 T \_\_\_\_\_
- V3012 T \_\_\_\_\_
- V3005 T \_\_\_\_\_
- V3013 T \_\_\_\_\_
- V3001 T \_\_\_\_\_
- V3003 T \_\_\_\_\_

#### MONITORING REQUIREMENTS (SINGLE WALL)

- Leak Detection Method does not meet performance standards 2643
- Integrity test not conducted 25292
- Copy of tank test not submitted to HMMD within 30 days 2643
- Manual tank gauging (<2000 gal) 2645 not done properly
- Reconciliation not done properly 2646
- Reconciliation not approved for facility 2646
- Dispenser meter(s) not calib annually 2646
- Improper liquid measurements 2646
- Stick in poor condition 2646
- Improper monthly reconciliation 2646
- Failed to report excessive variation 2646
- Pressurized Product Piping Leak Device not tested annually 25292
- No written monitoring procedure 2641
- No written emergency response plan 2641
- SIR reporting incorrectly done 2646.1

- V3014 T \_\_\_\_\_
- V3015 T \_\_\_\_\_
- V3016 T \_\_\_\_\_
- V3017 T \_\_\_\_\_

---

---

---

<sup>1</sup> If the testing method does not test the entire depth of the sump, specify how much of the sump was tested. Methods not testing the entire sump should only be used if the monitoring system provides fail-safe turbine shutdown.

<sup>2</sup> With the submersible pump running, place the sensor in product (discriminating sensors should also be placed in water). The time between placing the sensor in product and the turbine shutting down is the response time. This should be done if the secondary containment testing method used does not test the entire volume of the sump.

## 7. UNDER-DISPENSER CONTAINMENT (UDC) TESTING

Test Method Developed By:	<input type="checkbox"/> UDC Manufacturer	<input checked="" type="checkbox"/> Industry Standard	<input type="checkbox"/> Professional Engineer

OWNERS NAME Cloud 9 Shuttle, Inc
OWNERS ADDRESS Same as above. CITY ZIP

PHONE 800 974-8885

An inspection of your business was conducted, under the authority of Section 25185 of the California Health and Safety Code. This inspection was conducted with purpose of determining compliance with Chapters 6.5, 6.7, 6.95 in Division 20, of the California Health and Safety Code (H&S); Titles 19, 22 and 23 of the California Code of Regulations (CCR); and the San Diego County Code (SDCC). The following statements describe conditions which are violations of the law or that require further investigation. These observations require a formal response and/or immediate corrective action be taken. Failure to correct these violations or to provide information requested in a timely manner may be a factor in determining the course of further legal action.

DEC 18 2003

A routine inspection was conducted with Tom Elliott today during the annual UST Monitoring System Certification by Tim Montijo. The following observations were made requiring immediate corrective action. Photos were taken today of the UST violations and of violations at the auto repair facility.

1) Under Dispenser Containment #1 has approximately 4" of oil and some water. The sensor was raised above the water to allow operation. Dispenser #2 had approximately 1" of water and the sensor was raised allowing for operation of dispenser. This is not allowed. It is against the law to tamper with UST monitoring equipment. Photos were taken. Recommend sealing around base of dispensers to prevent liquid infiltration.

2) Fill Sump contains approximately 1-6" of liquid depending on location. The sensor was raised and tied up above the water/liquid level. It is against the law to tamper with UST monitoring equipment. Photos were taken. Recommend obtaining a cover for sump to prevent liquid infiltration.

Corrective Action: Immediately remove liquid in the above UST containment areas and properly place sensors in lowest point to detect any release at earliest opportunity. Upon alarm or liquid intrusion to these areas immediately activate UST emergency response plan, beginning with investigation of alarm. Do not tamper with equipment. Provide a copy of Corrective Actions taken above within 5 days.

Done today by Montijo employee

Date 10/16/03

If this box is checked, provide written documentation of compliance with this notice to this office within 10 days. Section 66272.1 (d) of the CA Code of Regulations requires, that at a minimum, this documentation must state:
1. The corrective action to be taken, and
2. The expected date of completion. 10/26/03

Department of Environmental Health, Hazardous Materials Division, P.O. Box 129261, San Diego, CA 92112-9261; (619) 338-2222

**SUPPLEMENTAL INSPECTION REPORT**

Office Use Only

BUSINESS ADDRESS: 3520 Kurtz St. ZIP CODE: 92110

- ③ No record of secondary containment test records were available. See letter provided today and submit previous test results within 15 days.
- ④ UST Maintenance Records not available. Three years of monitoring maintenance and testing records must be kept on-site. Locate and provide to my Attention all maintenance records for sump or under dispenser containment for the time period 12/02-present.
- ⑤ Locate a copy of owner/operator agreement for UST. Keep a copy on-site for review during inspection. Records of repairs, linings and upgrades must be kept on-site for the life of the tank. Also keep these records available on-site.
- ⑥ Unified Program Facility Permit has expired. Call 619 338-2251 to obtain a valid permit within 5 days.
- ⑦ UST monitoring Plot Plan has not been submitted. Submit this and annual monitoring system certification within 30 days.
- ⑧ Hazardous waste container near trash dumpster is not closed (no bung). Properly close all open hazardous waste containers immediately.
- ⑨ Waste containers near trash dumpster are not properly labeled. Properly label these containers immediately. Do not stack containers. Provide a hazardous waste manifest/receipt for disposal of these wastes to my Attention upon disposal.
- ⑩ No records of battery disposals are available. According to bus repair personnel (Mickey) no records are provided. Keep disposal receipts on site for 3 years.

## COMPLIANCE INSPECTION REPORT

PERMIT #: 104438  
 DATE: 10/16/03  
 PAGE: 3 OF 5

BUSINESS ADDRESS: 3520 Kurtz St. ZIP: 92110

VIOLATION REPORT: The items checked below refer to specific section numbers of Title 23 of the California Code of Regulations (CCR), Chapters 6.7, of the Health & Safety Code (HSC) & the County Code of Regulatory Ordinances (SDCC). The following code sections are either in violation (V) with the Underground Storage Tank laws and regulations or Non-Applicable (N/A). All violations must be corrected. Submit documentation of return to compliance to your Specialist. You may use the Corrective Action Form to document your return to compliance. Your Specialist can provide these forms. Please call (619) 338-2222 or your Specialist if you have any questions.

**RE: Requirements for Secondary Containment Testing for Underground Storage Tank Systems**

Dear Mr Elliott:

The Hazardous Materials Division (HMD) is the Certified Unified Program Agency (CUPA) in San Diego County. The HMD, as the CUPA, regulates the construction, installation, operation, repair and removals of underground storage tank (UST) systems.

California Code of Regulations, Title 23, Section 2637, requires that all underground storage tank systems undergo periodic secondary containment testing. For underground tank systems (USTs) installed on or after January 1, 2001, the secondary containment shall be tested upon installation, 6 months after installation, and every 36 months thereafter. For secondary containment systems installed prior to January 1, 2001, testing was required to be completed by January 1, 2003 and continue every 36 months thereafter. This secondary containment testing must be performed by a licensed tank tester, licensed tank installer, or any person meeting the requirements of 23 CCR §2637 (b)(1). Owners and operators of underground storage tanks must notify the local agency at least 48 hours prior to conducting the test and a copy of the secondary containment testing results are required to be submitted to the County within 30 days of the completion of the test.

Our records do not show completed test results for this facility. Failure to conduct this testing may result in penalties of five hundred dollars (\$500) to five thousand dollars (\$5,000) for each underground storage tank for each day of violation.

If you have completed the secondary containment testing, please provide the test results to this Department within 15 days of the receipt of this letter.

If you have not completed secondary containment testing the following timelines apply:

- Within 15 days of receipt of this letter, you must provide the 48-hour notification that secondary containment testing will be conducted.
- Within 45 days of receipt of this letter, provide a copy of the secondary containment testing results to this Department.

Be sure to maintain a copy of the required testing at your facility.

If you have any questions, please contact me at (858) 694-2473.

*"Environmental and public health through leadership, partnership and science"*

October 15, 2003

Sincerely,

Leon Wirschem, Environmental Health Specialist  
Hazardous Materials Division

**Enclosures**

Paul Friedman, EHS II, Hazardous Materials Division  
HMD File 104438

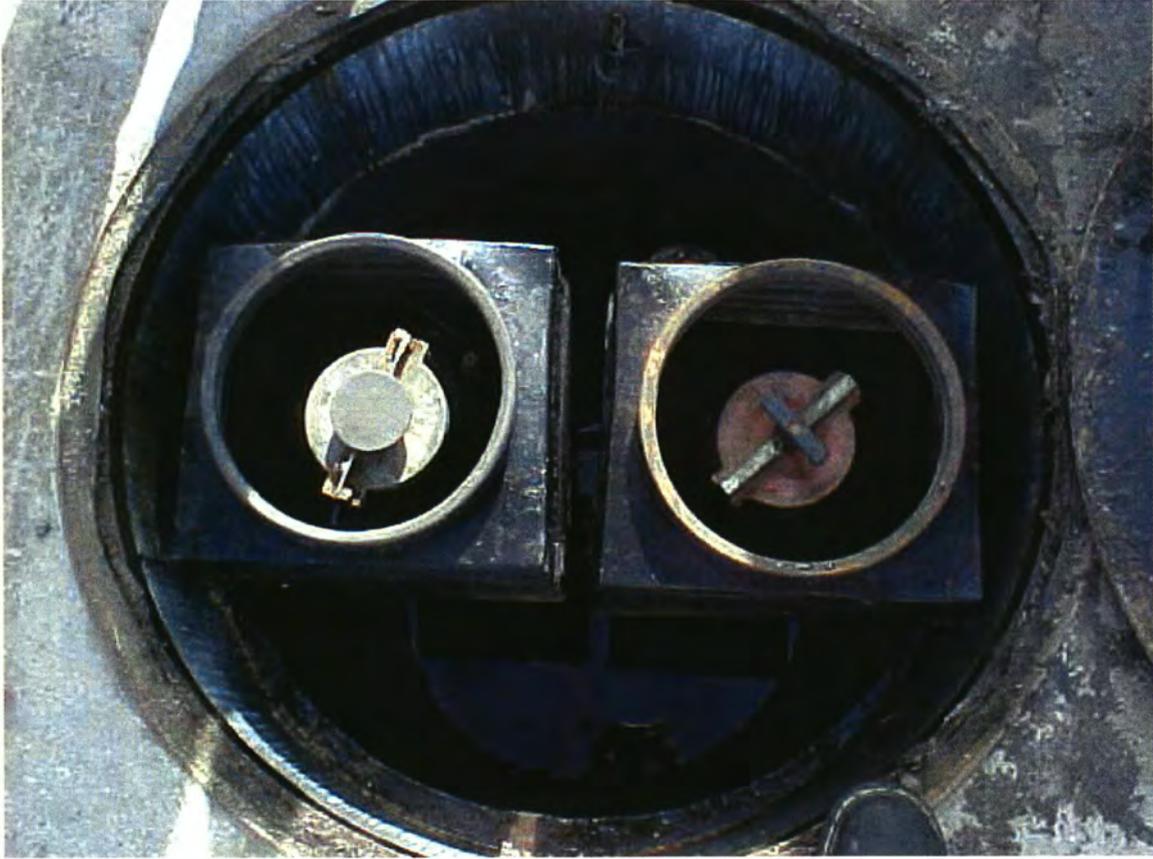

Cloud 9 Shuttle fuel dispensers are to far right. The underground tank is toward back and right of photo near orange cones.

Picture of UST pipe sump. ATG is lying across the top for testing of overfill alarm. The double walled Ameron piping (far left) is covered by a rubber caulder.

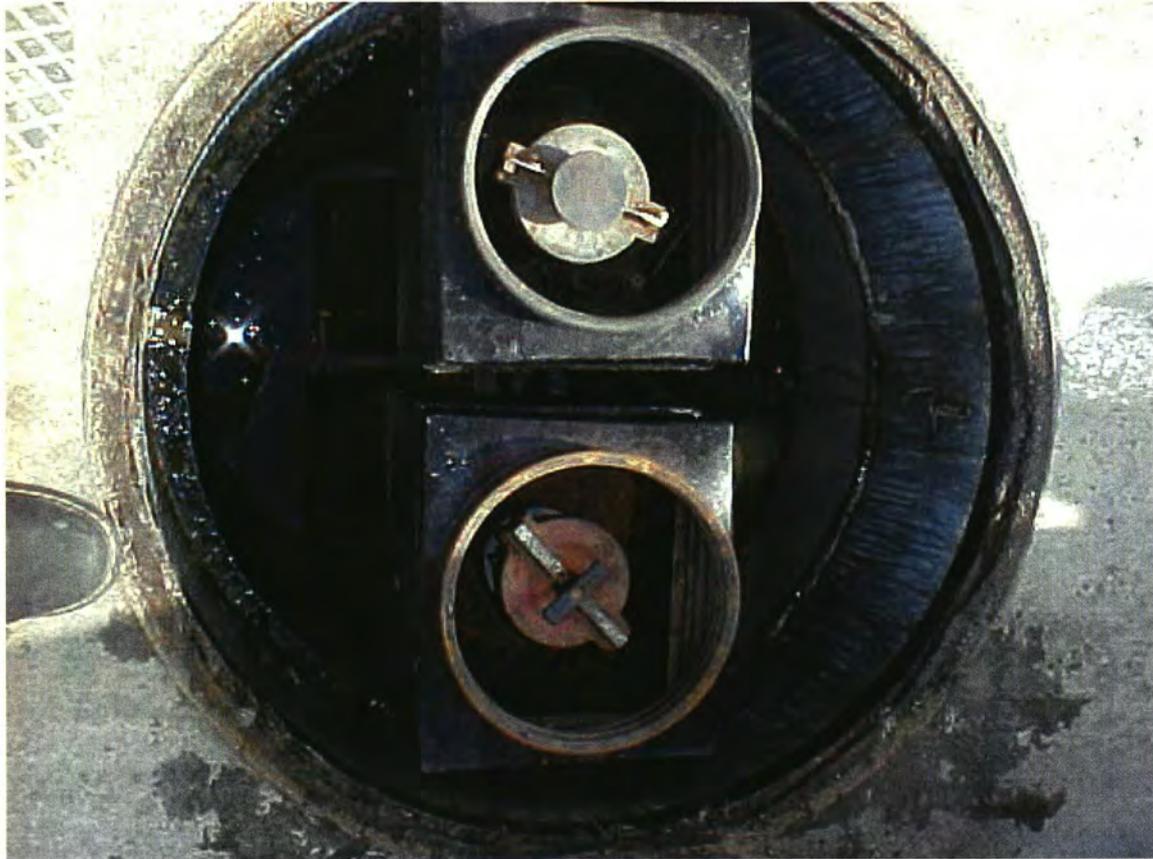

To east of fuel tank and dispensers is the wash area. The car wash recycling water system is not working.

Fill sump contains a lot of water.

A close up of fill sump shows the sensor tied up and dangling above the water.

Another view of fill sump and tampered sensor.

Another view of fill sump, liquid and tampered sensor.

The sensors reflection can be seen in the water of this photo.

Oil has been spilled near the fuel dispenser.

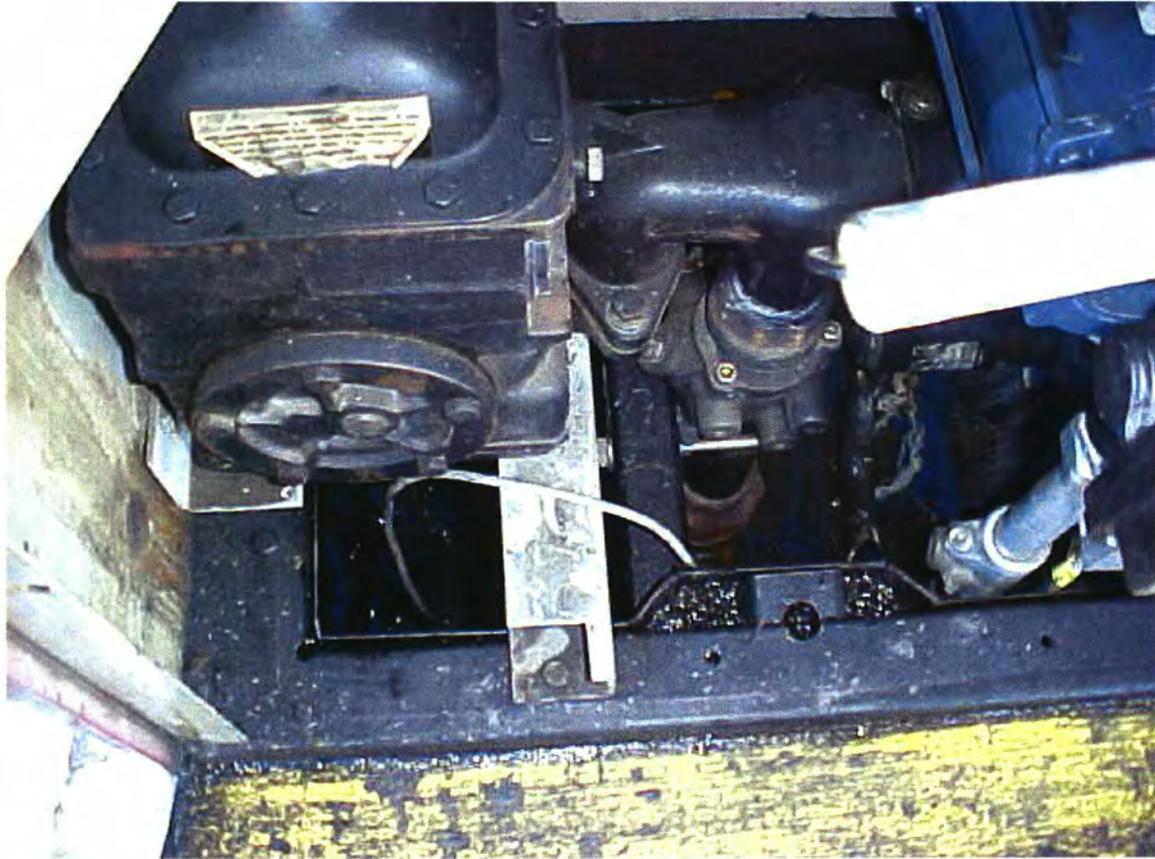

Upon opening the north dispenser (#1), several inches of oil and water were observed. The alarm did not go off because the sensor was tampered with and was dangling above the water.

Another view under dispenser.

This is the south dispenser (#2). The sensor was not properly placed here either. Some liquid can be seen to right.

Dispenser #2 had a small amount of water and required the sensor be untied to sit on bottom of UDC.

UST sump and dispenser water was placed into this drum later in the day.

**RE: Requirements for Secondary Containment Testing for Underground Storage Tank Systems**

Dear Mr Elliott:

The Hazardous Materials Division (HMD) is the Certified Unified Program Agency (CUPA) in San Diego County. The HMD, as the CUPA, regulates the construction, installation, operation, repair and removals of underground storage tank (UST) systems.

California Code of Regulations, Title 23, Section 2637, requires that all underground storage tank systems undergo periodic secondary containment testing. For underground tank systems (USTs) installed on or after January 1, 2001, the secondary containment shall be tested upon installation, 6 months after installation, and every 36 months thereafter. For secondary containment systems installed prior to January 1, 2001, testing was required to be completed by January 1, 2003 and continue every 36 months thereafter. This secondary containment testing must be performed by a licensed tank tester, licensed tank installer, or any person meeting the requirements of 23 CCR §2637 (b)(1). Owners and operators of underground storage tanks must notify the local agency at least 48 hours prior to conducting the test and a copy of the secondary containment testing results are required to be submitted to the County within 30 days of the completion of the test.

Our records do not show completed test results for this facility. Failure to conduct this testing may result in penalties of five hundred dollars (\$500) to five thousand dollars (\$5,000) for each underground storage tank for each day of violation.

If you have completed the secondary containment testing, please provide the test results to this Department within 15 days of the receipt of this letter.

If you have not completed secondary containment testing the following timelines apply:

- Within 15 days of receipt of this letter, you must provide the 48-hour notification that secondary containment testing will be conducted.
- Within 45 days of receipt of this letter, provide a copy of the secondary containment testing results to this Department.

Be sure to maintain a copy of the required testing at your facility.

If you have any questions, please contact me at (858) 694-2473.

\*

On the above date, an inspection of your business/facility was conducted in order to determine compliance with the California Health and Safety Code (HSC) Chapters 6.5, 6.7, 6.95; Titles 19, 22 and 23 of the California Code of Regulations (CCR); and the San Diego County Code (SDCC). The following remarks are intended to provide guidance to correct the violations noted on the attached violation report.

**NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.**

Today an inspection was conducted to determine compliance with UST, Hazwaste and Hazmat requirements. Tom Elliott, Cloud 9, Hensley Barbour, Shirley Environmental, and Scott Storms, A-QCS were present for monitoring system certification. Mr. Elliott and Mr. Storms were present for walkthrough inspection and records review. The following violations require corrective action w/in 30 days.

- ① Waste container not properly labeled. Label blue drum with a proper hazardous waste label as soon as possible.
- ② Facility not designed to minimize release. I observed several secondary containment pallets which require water/waste to be removed.
- ③ Personnel training records not available. Train employees on Hazardous materials requirements and small quantity hazardous waste generator requirements. Keep documentation of training as required. Records located determined Ameron LX 3000 piping has dual containment. Jan 13 2005
- ④ Single wall piping integrity test required every 3 years. Although this test may have been conducted 11/6/02, records were unclear. Conduct & submit test within 60 days.
- ⑤ Daily monitoring of suction system not performed & logged. Refer to 2643(d) appendix II.

Comments: ① DEH records indicate piping is double walled. Site inspection concluded piping is single walled. Single wall suction requirements applied. Locate & maintain install records on site.  
② UST system requires properly "restricting" ball float for overflow prevention. Recommend installing at vapor recovery piping as appropriate & submitting record of install to DEH-H&M.

This is an annual certification that the Hazardous Materials Business Plan (inventory, emergency contacts, emergency response plan, and employee training plan) is current and includes all the information required in the H&SC and is maintained at the site where hazardous materials are stored.

## UNDERGROUND STORAGE TANK MONITORING SYSTEM CERTIFICATION

Authority Cited: Chapter 6.7, Health and Safety Code; Chapter 16, Division 3, Title 23, California Code of Regulations

This form must be used to document testing and servicing of monitoring equipment. A separate certification or report must be prepared for each monitoring system control panel by the technician who performs the work. A copy of this form must be provided to the tank system owner/operator. The owner/operator must submit a copy of this form to the local agency regulating UST systems within 30 days of test date.

# UST Monitoring Site Plan

Site Address: \_\_\_\_\_

Date map was drawn: 11/23/04

### Instructions

If you already have a diagram that shows all required information, you may include it, rather than this page, with your Monitoring System Certification. On your site plan, show the general layout of tanks and piping. Clearly identify locations of the following equipment, if installed: monitoring system control panels; sensors monitoring tank annular spaces, sumps, dispenser pans, spill containers, or other secondary containment areas; mechanical or electronic line leak detectors; and in-tank liquid level probes (if used for leak detection). In the space provided, note the date this Site Plan was prepared.

## Secondary Containment Testing Report Form

*This form is intended for use by contractors performing periodic testing of UST secondary containment systems. Use the appropriate pages of this form to report results for all components tested. The completed form, written test procedures, and printouts from tests (if applicable), should be provided to the facility owner/operator for submittal to the local regulatory agency.*

# MONITORING SYSTEM CERTIFICATION

P. Friedman  
RECEIVED 104439

For Use by All Jurisdictions within the State of California

Authority Cited: Chapter 6.7, Health and Safety Code; Chapter 16, Division 3, Title 23, California Code of Regulations

2006 JAN 7 AM 9 11  
MAIL ROOM

This form must be used to document testing and servicing of monitoring equipment. A separate certification or report must be prepared for each monitoring system control panel by the technician who performs the work. A copy of this form must be provided to the tank system owner/operator. The owner/operator must submit a copy of this form to the local agency regulating MST systems within 30 days of test date.

If the facility contains more tanks or dispensers, copy this form. Include information for every tank and dispenser at the facility.

**C. Certification** - I certify that the equipment identified in this document was inspected/serviced in accordance with the manufacturers' guidelines. Attached to this Certification is the information (e.g. manufacturers' checklists) necessary to verify that this information is correct and a Plan showing the layout of monitoring equipment. For any equipment capable of generating such reports, I have also attached a copy of the report; (check all that apply):  System set-up  Alarm history report

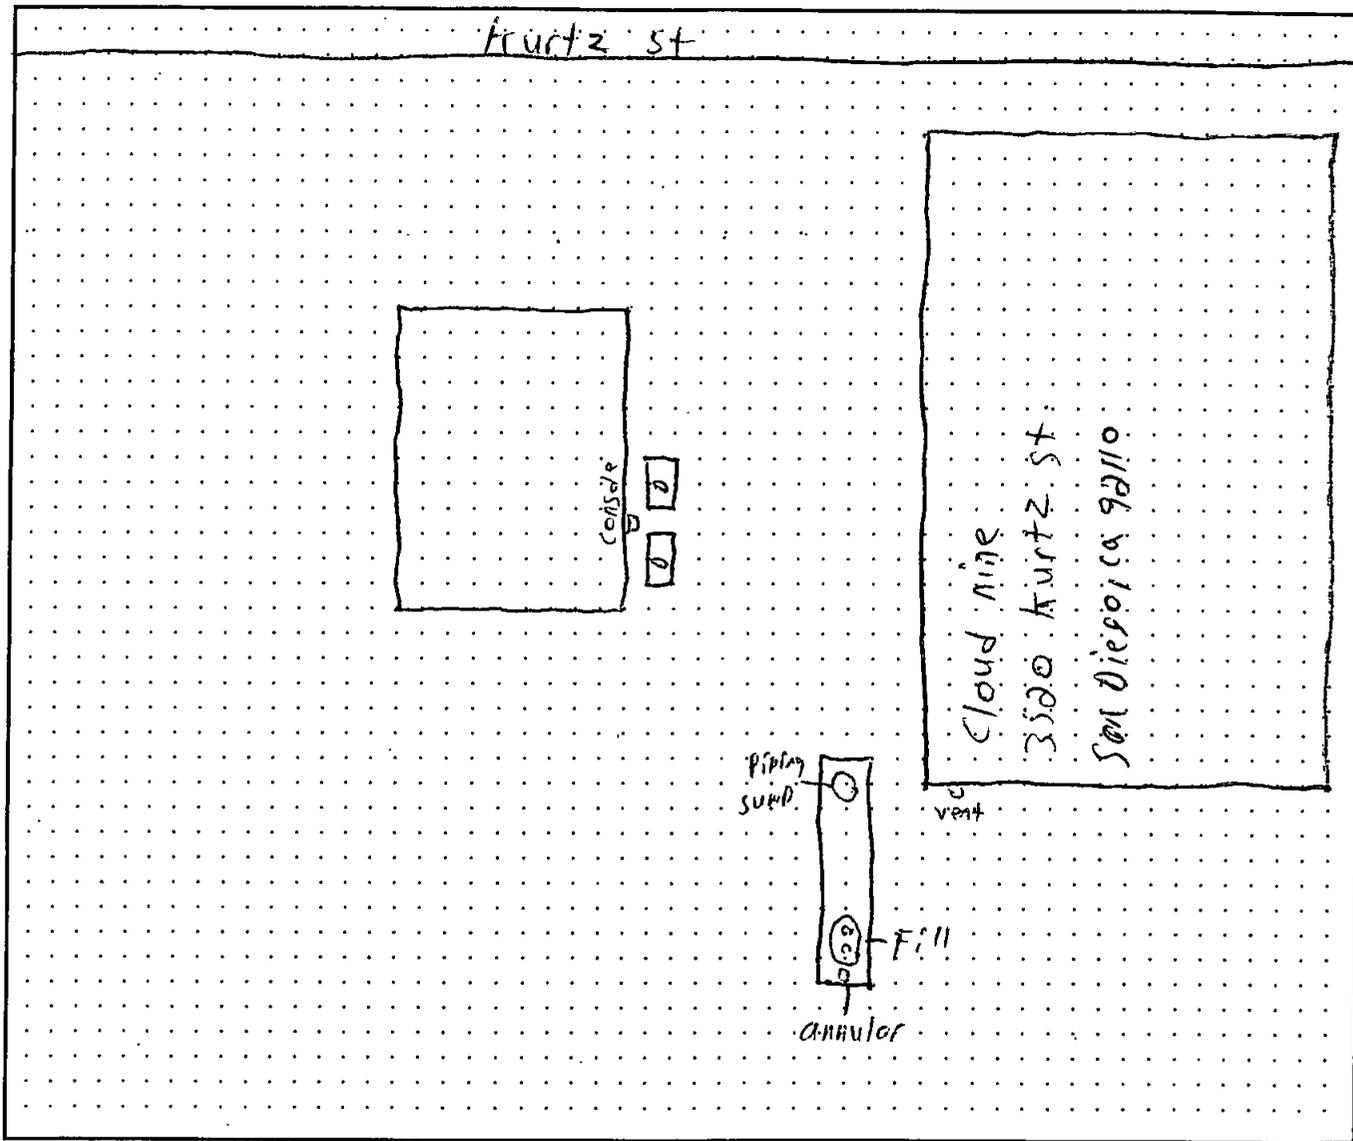

Technician Name (print): <b>Hensley Barbour</b>		Signature: <i>Hensley Barbour</i>

# UST Monitoring Site Plan

Site Address: \_\_\_\_\_

Date map was drawn: 12/21/04

### Instructions

If you already have a diagram that shows all required information, you may include it, rather than this page, with your Monitoring System Certification. On your site plan, show the general layout of tanks and piping. Clearly identify locations of the following equipment, if installed: monitoring system control panels; sensors monitoring tank annular spaces, sumps, dispenser pans, spill containers, or other secondary containment areas; mechanical or electronic line leak detectors; and in-tank liquid level probes (if used for leak detection). In the space provided, note the date this Site Plan was prepared.

## UST SECONDARY CONTAINMENT TESTING CERTIFICATION

This form is intended for use by contractors performing initial & periodic testing of UST secondary containment systems. Use the appropriate pages of this form to report results for all components tested. The completed form, written test procedures, and printouts from tests (if applicable), must be provided to the facility owner/operator for submittal to the County of San Diego Department of Environmental Health Hazardous Materials Division UST Group.

Annual Compliance Inspection\*

Matt Jar, \*This routine inspection was completed immediately after the repair permit of Jar. + RT 3345 (repair of secondary containment).  
Color, on-site - DEH records indicate the UST at this facility was installed in early 1999.  
for men. eqpt. Equipment on-site:  
 Certification

RECEIVED NOV 08 2005

- 1- DW FG coated steel UST (diesel)
- DW Ameron FG piping (section) and 2- dispensers with UDC.
- Fail Safe is enabled. = (Pumps shut-down when UR disconnected. OK)
- overfill protection = high level alarm.

Paperwork reviewed indicates that:

- secondary containment testing was conducted on 7/16/2002 and today (10-27-05)
- Financial Resp letter received. OK
- BP denials OK
- D.O. monthly reports OK
- Waste manifests. OK
- tank main. + testing records. OK
- Written monitoring plan + req. OK

This is an annual certification that the Hazardous Materials Business Plan (inventory, emergency contacts, emergency response plan, and employee training plan) is current and includes all the information required in the H&SC and is maintained at the site where hazardous materials are stored. Initials of Business Representative RHS

## COMPLIANCE INSPECTION REPORT

PERMIT#: 104438DATE: 10 27 05PAGE:        OF       BUSINESS ADDRESS: 3520 Rutz St, San DiegoZIP: 92110

**VIOLATION REPORT:** The items checked below refer to specific section numbers of Title 23 of the California Code of Regulations (CCR), Chapters 6.7, of the Health & Safety Code (HSC) & the County Code of Regulatory Ordinances (SDCC). The following code sections checked are in violation (V) with the Underground Storage Tank laws and regulations. All violations must be corrected. Submit documentation of return to compliance to your Specialist. You may use the Corrective Action Form to document your return to compliance. Your Specialist can provide these forms. Please call (619) 338-2222 or your Specialist if you have any questions.

	CUPA UST form(s) A &/or B not available/completed/ submitted to HMD. 25286(a); 2711	3104			Monitoring Certification not submitted to CUPA within 30 days of inspection. 2638(d)	3161	
	Current evidence of financial responsibility not available. 25292.2(a), 25299.33; 2809	3105			Enhanced leak detection not performed as required. 25292.4; 2640(e)	3154	
	Owner/operator agreement not available/ completed/ submitted to HMD. 25284(a)(3); 2620(b)	3106			Contractor &/or technician not trained & certified as required. 25284.1(a)(5)(D); 2715	3162	
	Monitoring procedures not available/completed/ submitted to HMD 2632(b)& (d), 2634(d), 2641(h), 2711(a)(9)	3107			Contractor did not have required license, i.e., Class A, C-10, C34, C36 and/or C61. 25284.1(a)(5)(D); 2715	3163	
	Emergency Response Plan is not available/complete. 25289(b); 2632(b), 2634(e), 2641(h)	3108			Monitoring system disabled or tampered with and/or monitoring records falsified. 25299(f)	3157	
	Scaled Plot plan showing tank, piping & equipment location not available/complete/ submitted to HMD. 2711(a)(8), 2632(d)(1)(C)	3109			All monitoring equipment not installed, calibrated, operated, and/or maintained per manufacturer's instructions. 2638(a), 2641(j)	3164	
	Annual certification for ATG and/or sensors not completed. 2641(j), 2638	3110			UST system repair(s) not completed properly. 25292.1(c); 2660 (a)(k)(l)(m)	3160	
	Annual certification for continuous monitoring system not completed. 25284.1(a)(4)(C); 2630(d), 2638	3116			Designated Operator monthly inspection not conducted, incomplete or DO inspection reports not onsite. 2715 (c)(d)(e)	3192	
	Designated Operator (DO) Notification/Change form not submitted &/or DO not ICC certified. 2715 (a)(b)	3191					

### UST SYSTEM INSPECTION

Requirements applicable for both, single &amp; double walled systems

#	VIOLATION DESCRIPTION	TANK #		V	V	V	V
		NOV	VIOL				
	Monitor in alarm at beginning of inspection. Alarm not investigated, recorded or reported. 2632 (c)(2)(B); 2650(e)(3)&(4), 2630(d)		3251				
	All audible and/or visual alarms not functioning properly. 2632(c)(2)(B), 2636(f)(1)		3252				
	Sticker/tag not affixed to monitoring equipment at certification. 2638(f)		3270				
	UST system does not have an approved overflow protection system. 2635(b)(2)		3254				
	Spill container is not in good condition and/or liquid free. 2635 (b)(1), 2636(a)(1)		3255				
	Fill box drain not functional and backup system is not available. 2635(b)(1)(C)		3256				
	Secondary containment system components not liquid free. 2631(d)(4)		3257				
	Sensors not placed adequately and/or at low point in sumps. 2641 (a), 2691(a)(7)(C)		3258				
	Dispenser containment currently required and not present. 25284.1(a)(5); 2636(g)		3259				
	Dispenser containment not adequately monitored. 2636(f)(1) or (f)(5)(A)		3267				
	Dispenser containment not maintained free of liquid. 2631(d)(4)		3261				
	Secondary containment piping obstructed preventing drainage to sump. 2632		3262				
	Monitoring system components &/or devices are not all functional. 2630, 2641 (j), 2632		3263				
	Spill containment not tested annually. 25284.2		3264				
	UST system not operated to prevent spills and/or overfills. 25292.1 (a)		3265				
	UST system not product tight (for tank installs on or after 7/1/03). 25290.1(c), 25290.2 (c)		3268				
	UST system not continuously monitored using Vacuum/Pressure/Hydrostatic (VPH) system (for tank installs on or after 7/1/04). 25290.1 (d)&(e)		3269				
<b>CATHODIC PROTECTION</b>							
	System not checked as required by tester (at 6 months/3yrs). 2635(a)(2)(A)		3301				
	Impressed-current system not checked every 60 days. 2635(a)(2)(A)		3302				
	Corrosion protection not adequate. 25292.1(b); 2635(a)(2), 2662(c)		3303				
<b>CLOSURE REQUIREMENTS</b>							
	Temporary closure requirements not completed. 25298, 2671		3322				
	Unused tank not properly closed. Permanent closure requirements not met. 25298, 2672		3324

### UST SYSTEM INSPECTION

#### Requirements for Double Walled Systems

#	VIOLATION DESCRIPTION	TANK #	PRODUCT				
<b>PIPING MONITORING: PRESSURIZED SYSTEMS-Includes Under Dispenser Containment (UDC)</b>		<b>NOV</b>	<b>VIOL</b>	<b>V</b>	<b>V</b>	<b>V</b>	<b>V</b>
	Continuous audible & visual alarm not functioning or does not stop flow at dispenser. 2636(f)(1)		<b>3410</b>				
	Line leak detector not installed, not functional, or not tested. 2636(f)(2), 25284.1(a)(4)(C), 2641(j)		<b>3411</b>				
	<b>OPTION 1</b> No annual 0.1 gph (gallon per hour) test. 2636(f)(4)		<b>3412</b>				
	<b>OPTION 2</b> No pump shut-down or stop of flow at dispenser for UDC leak. 2636(f)(5)		<b>3413</b>				
	No pump shut down & fail safe for other pipe secondary containment. 2636(f)(5)		<b>3414</b>				
	<b>OPTION 3 Emergency Generators without LLDs:</b>		<b>3415</b>				
	Monitoring system not checked daily or log (record) of daily checks not available. 2636(f)(6)		<b>3416</b>				
	<b>OPTION 4</b> Vapor or pressure monitoring system not functioning. 25290.1 (d&e)		<b>3416</b>				
<b>PIPING MONITORING: SUCTION SYSTEMS</b>							
	Continuous audible & visual alarm not functioning or does not stop flow at dispenser. 2636(f)(1)		<b>3451</b>				<b>OK</b>

#### Requirements for Single Walled Systems

<b>TANK MONITORING REQUIREMENTS</b>							
<b>OPTION 1</b>	Monthly 0.2 gph tank gauging test not performed. 2643(b)(1)		<b>3501</b>				
<b>OPTION 2</b>	Monthly Statistical Inventory Reconciliation (SIR) not performed. 25292(b)(1); 2643(b)(3)		<b>3502</b>				
	Stick not in good condition or without 1/8" increments. 2645, 2646		<b>3503</b>				
	Dispenser meters not calibrated. 2646.1		<b>3504</b>				
	SIR not capable of detecting 0.2 gph release. 2643(b)(3)		<b>3505</b>				
	Did not notify HMD of a possible release within 10 days. 2646.2(d)		<b>3510</b>				
	Biennial 0.1 gph tank integrity testing not performed. 2643(b)(3), 2643.1		<b>3506</b>				
	Annual SIR report not submitted. 2646.1(j)		<b>3507</b>				
<b>OPTION 3</b>	Weekly manual tank gauging not performed. (UST capacity ≤1000 gallons). 2645		<b>3508</b>				
	Annual integrity test not performed. (UST capacity 1000 gallons or less). 2645		<b>3509</b>				
<b>PIPING REQUIREMENTS: SINGLE WALLED PRESSURIZED-OPTIONS 1, 2, 3, &amp; 4</b>							
	Line leak detector (LLD) not certified annually. 25284.1(a)(4)(C); 2641(j)		<b>3551</b>				
	LLD does not shut down pump with release and detector failure/disconnection. 2666(c)		<b>3552</b>				
<b>OPTION 1</b>	Hourly line leak detector monitoring not performed. 25284.1(a)(4)(C); 2643(c)(1)		<b>3553</b>				
	Monthly electronic line leak detection not performed. 2643(c)(2)		<b>3554</b>				
<b>OPTION 2</b>	Hourly line leak detector monitoring not performed. 25284.1(a)(4)(c); 2643(c)(1)		<b>3561</b>				
	Annual electronic line leak detector monitoring not performed. 2643(c)(3)		<b>3562</b>				
<b>OPTION 3</b>	Hourly line leak detector monitoring not performed. 25284.1(a)(4)(C); 2643(c)(1)		<b>3563</b>				
	Annual piping integrity test not performed. 2643(c)(3)		<b>3564</b>				
<b>OPTION 4</b>	Hourly electronic line leak detector could not detect 3 gph leak. 2643(c)(1)		<b>3565</b>				
	Line leak detector could not detect 0.1 gph at 150% pressure. 2643(c)(3)		<b>3566</b>				
<b>PIPING REQUIREMENTS: SINGLE WALLED CONVENTIONAL SUCTION PIPING</b>							
	Piping integrity test not performed every 3 years. 2643(d)		<b>3601</b>				
	Daily monitoring not performed and/or logged. 2643(d), Appendix II		<b>3602</b>				
<b>PIPING REQUIREMENTS: SINGLE WALLED SAFE SUCTION PIPING</b>							
	More than one check valve or single valve not located properly. 2641(b), 2636(a)(3)		<b>3651</b>				
	Contents do not drain back to tank if suction is released. 2641(b), 2636(a)(3)		<b>3652</b>				
<b>PIPING REQUIREMENTS: SINGLE WALLED GRAVITY PIPING</b>							
	Piping integrity test not performed every 2 years. 2643(e)		<b>3701</b>				
	Enhanced leak detection not performed as required. 25292.4(a)		<b>3702</b>

## UNDERGROUND STORAGE TANK SECONDARY CONTAINMENT TESTING REPORT FORM

*This form is intended for use by contractors performing initial & periodic testing of UST secondary containment systems. Use the appropriate pages of this form to report results for all components tested. The completed form, written test procedures, and printouts from tests (if applicable), must be provided to the facility owner/operator for submittal to the County of San Diego Department of Environmental Health Hazardous Materials Division UST Group.*

Permit Number: 104438

Plan Check Number: RT3345

### FACILITY INFORMATION

Facility Name: Cloud 9 Shuttle	Date of Testing: 2005-10-27
Facility Address: 3520 Kurtz St. San Diego, CA 92110	Test Type:
Facility Contact: Thomas Elliot	Phone: 858-505-4993
Date Local Agency Was Notified of Testing: 2005-10-20	<input checked="" type="checkbox"/> Initial
Name of Local Agency Inspector (if present during testing): Richard Hansen	<input type="checkbox"/> 6 months
	<input type="checkbox"/> 36 months

### TESTING CONTRACTOR INFORMATION

Company Name: Juaregui & Culver Inc.		
Technician Conducting Test: John Culver		
Credentials:	<input checked="" type="checkbox"/> CSLB Licensed Contractor	<input type="checkbox"/> SWRCB Licensed Tank Tester
License Type: A B C36 C21 C61/D40 HAZ	License Number: 708231	
Manufacturer	Manufacturer Training Component(s)	Date Training Expires

### SUMMARY OF TEST RESULTS

Component	Pass	Fail	Not Tested	Repairs Made	Component	Pass	Fail	Not Tested	Repairs Made
Secondary Pipe #1 Diesel	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

## UNDERGROUND STORAGE TANK MONITORING SYSTEM CERTIFICATION

Authority Cited: Chapter 6.7, Health and Safety Code; Chapter 16, Division 3, Title 23, California Code of Regulations

This form must be used to document installation, testing and servicing of monitoring equipment. A separate certification or report must be prepared for each monitoring system control panel by the technician who performs the work. A copy of this form must be provided to the tank system owner/operator. The owner/operator must submit a copy of this form to the local agency regulating UST systems within 30 days of test date.

Plan Check Number: RT3345

Permit Number: 104438

### A. General Information

Facility Name: Cloud 9 Shuttle

Bldg. No.:

Site Address: 3520 Kurtz St.

City: San Diego

Zip: 92110-

Facility Contact Person: Thomas Elliot

Contact Phone No.: (858) 505-4993 x

Make/Model of Monitoring System: Veeder Root TLS 300C

Date of Testing/Service: 27-Oct-05

### B. Inventory of Equipment Tested/Certified: Check the appropriate boxes to indicate specific equipment installed/inspected/serviced:

<b>Tank ID: Disc'd</b> <input checked="" type="checkbox"/> In-Tank Gauging Probe Model: 847390-104 <input checked="" type="checkbox"/> Annular Space or Vault Sensor Model: 794340-420 <input checked="" type="checkbox"/> Piping Sump / Trench Sensor(s) Model: 794380-208 <input checked="" type="checkbox"/> Fill Sump Sensor(s) Model: 794380-208 <input type="checkbox"/> Mechanical Line Leak Detector Model: <input type="checkbox"/> Electronic Line Leak Detector Model: <input checked="" type="checkbox"/> Tank Overfill / High-Level Sensor Model: 847390-109 <input type="checkbox"/> Other (specify equipment type and model in Section E on Page 2).	<b>Tank ID:</b> <input type="checkbox"/> In-Tank Gauging Probe Model: <input type="checkbox"/> Annular Space or Vault Sensor Model: <input type="checkbox"/> Piping Sump / Trench Sensor(s) Model: <input type="checkbox"/> Fill Sump Sensor(s) Model: <input type="checkbox"/> Mechanical Line Leak Detector Model: <input type="checkbox"/> Electronic Line Leak Detector Model: <input type="checkbox"/> Tank Overfill / High-Level Sensor Model: <input type="checkbox"/> Other (specify equipment type and model in Section E on Page 2).

# UNDERGROUND STORAGE TANK MONITORING SYSTEM CERTIFICATION

## D. Results of Testing/Serviceing

Permit Number: 104438

Software Version Installed: 15.01

Complete the following checklist:

<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No*	Is the audible alarm operational?
<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No*	Is the visual alarm operational?
<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No*	Were all sensors visually inspected, functionally tested, and confirmed operational?
<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No*	Were all sensors installed at lowest point of secondary containment and positioned so that other equipment will not interfere with their proper operation?
<input type="checkbox"/> Yes	<input type="checkbox"/> No* <input checked="" type="checkbox"/> N/A	If alarms are relayed to a remote monitoring station, is all communications equipment (e.g. modem) operational?
<input type="checkbox"/> Yes	<input type="checkbox"/> No* <input checked="" type="checkbox"/> N/A	For pressurized piping systems, does the turbine automatically shut down if the piping secondary containment monitoring system detects a leak, fails to operate, or is electrically disconnected? If yes: which sensors initiate positive shutdown? (Check all that apply) <input type="checkbox"/> Sump/Trench Sensors; <input type="checkbox"/> Dispenser Containment Sensors. Did you confirm positive shutdown due to leaks and sensor failure/disconnection? <input type="checkbox"/> Yes; <input type="checkbox"/> No.
<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No* <input type="checkbox"/> N/A	For tank systems that utilize the monitoring system as the primary tank overfill warning device (i.e. no mechanical overfill prevention valve is installed), is the overfill warning alarm visible and audible at the tank fill point(s) and operating properly? If so, at what percent of tank capacity does the alarm trigger?      %
<input type="checkbox"/> Yes*	<input checked="" type="checkbox"/> No	Was any monitoring equipment replaced? If yes, identify specific sensors, probes, or other equipment replaced and list the manufacturer name and model for all replacement parts in Section E, below.
<input type="checkbox"/> Yes*	<input checked="" type="checkbox"/> No	Was liquid found inside any secondary containment systems designed as dry systems? (Check all that apply) <input type="checkbox"/> Product; <input type="checkbox"/> Water. If yes, describe causes in Section E, below.
<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No*	Was monitoring system set-up reviewed to ensure proper settings? Attach set up reports, if applicable
<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No*	Is all monitoring equipment operational per manufacturer's specifications?

\* In Section E below, describe how and when these deficiencies were or will be corrected.

## E. Comments:

# UNDERGROUND STORAGE TANK MONITORING SYSTEM CERTIFICATION

**F. In-Tank Gauging / SIR Equipment:**

**Permit Number:** 104438

- Check this box if tank gauging is used only for inventory control
- Check this box if no tank gauging or SIR equipment is installed

This section must be completed if in-tank gauging equipment is used to perform leak detection monitoring.

**Complete the following checklist:**

<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No*	Has all input wiring been inspected for proper entry and termination, including testing for ground faults?
<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No*	Were all tank gauging probes visually inspected for damage and residue buildup?
<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No*	Was accuracy of system product level readings tested?
<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No*	Was accuracy of system water level readings tested?
<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No*	Were all probes reinstalled properly?
<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No*	Were all items on the equipment manufacturer's maintenance checklist completed?

\* In Section H below, describe how and when these deficiencies were or will be corrected.

**G. Line Leak Detectors (LLD):**

Check this box if LLDs are not installed.

**Complete the following checklist:**

<input type="checkbox"/> Yes	<input type="checkbox"/> No* <input type="checkbox"/> N/A	For equipment start-up or annual equipment certification, was a leak simulated to verify LLD performance? (Check all that apply) Simulated leak rate: <input type="checkbox"/> 3 g.p.h.; <input type="checkbox"/> 0.1 g.p.h. ; <input type="checkbox"/> 0.2 g.p.h.
<input type="checkbox"/> Yes	<input type="checkbox"/> No*	Were all LLDs confirmed operational and accurate within regulatory requirements?
<input type="checkbox"/> Yes	<input type="checkbox"/> No*	Was the testing apparatus properly calibrated?
<input type="checkbox"/> Yes	<input type="checkbox"/> No* <input type="checkbox"/> N/A	For mechanical LLDs, does the LLD restrict product flow if it detects a leak?
<input type="checkbox"/> Yes	<input type="checkbox"/> No* <input type="checkbox"/> N/A	For electronic LLDs, does the turbine automatically shut off if the LLD detects a leak?
<input type="checkbox"/> Yes	<input type="checkbox"/> No* <input type="checkbox"/> N/A	For electronic LLDs, does the turbine automatically shut off if any portion of the monitoring system is disabled or disconnected?
<input type="checkbox"/> Yes	<input type="checkbox"/> No* <input type="checkbox"/> N/A	For electronic LLDs, does the turbine automatically shut off if any portion of the monitoring system malfunctions or fails a test?
<input type="checkbox"/> Yes	<input type="checkbox"/> No* <input type="checkbox"/> N/A	For electronic LLDs, have all accessible wiring connections been visually inspected?
<input type="checkbox"/> Yes	<input type="checkbox"/> No*	Were all items on the equipment manufacturer's maintenance checklist completed?

\* In Section H below, describe how and when these deficiencies were or will be corrected.

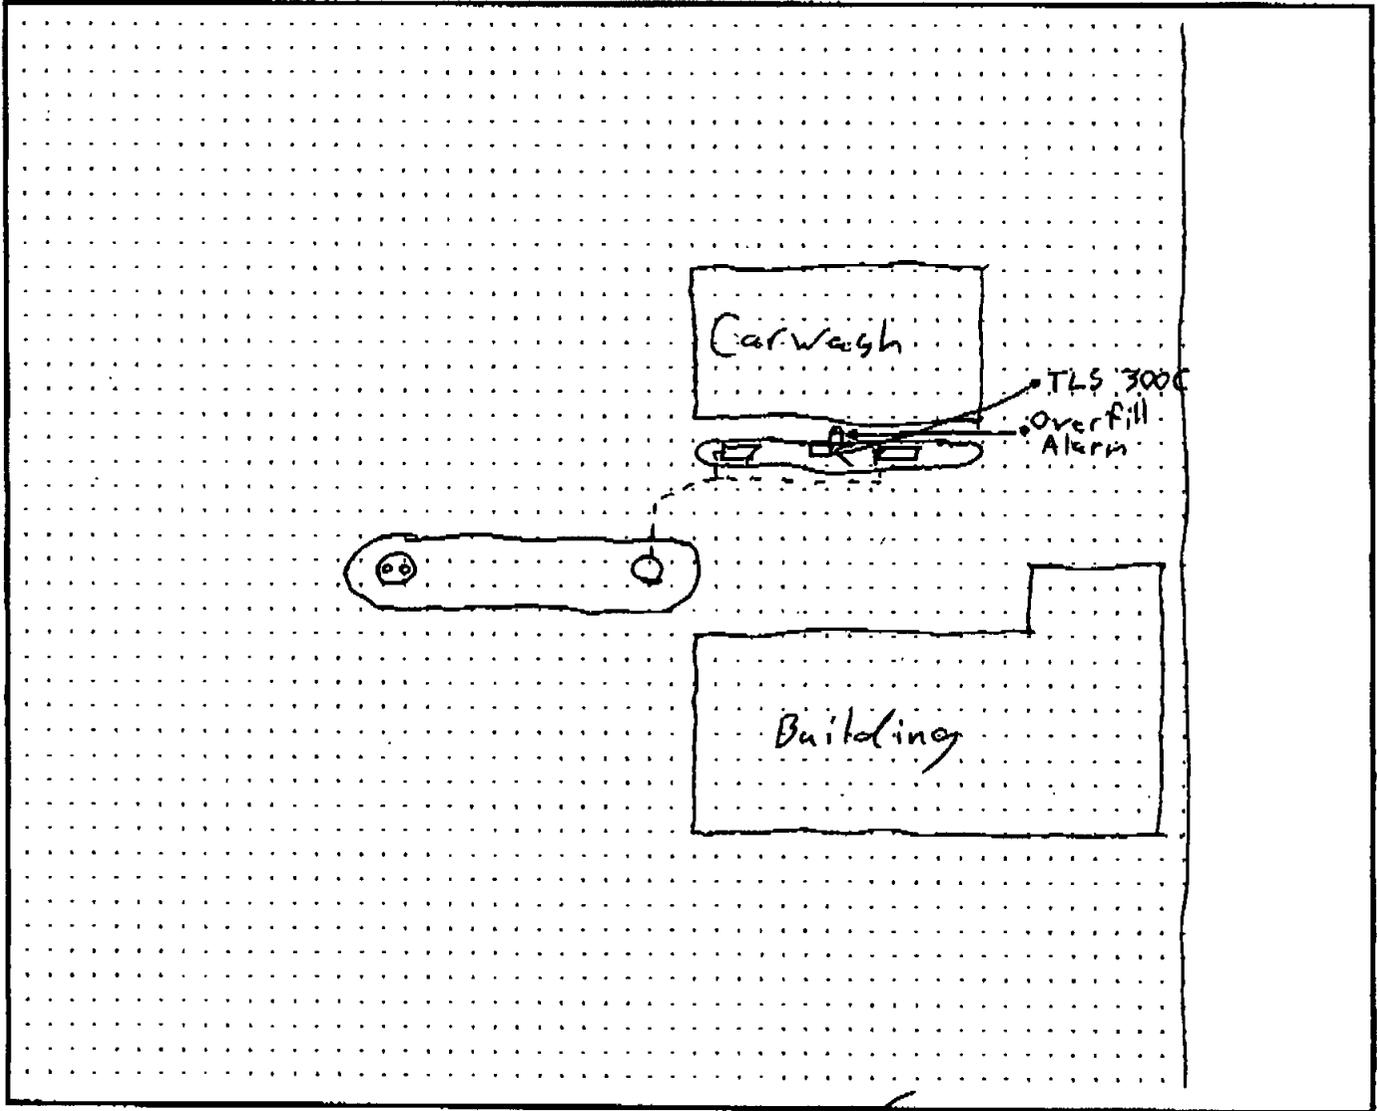

**H. Comments:**

UNDERGROUND STORAGE TANK MONITORING SYSTEM CERTIFICATION

Permit Number: 104438

UST Monitoring Site Plan

Site Address: 3520 Kurtz St. San Diego, CA 92110

Date map was drawn: 10/27/05

Instructions

If you already have a diagram that shows all required information, you may include it, rather than this page, with your Monitoring System Certification. On your site plan, show the general layout of tanks and piping. Clearly identify locations of the following equipment, if installed: monitoring system control panels; sensors monitoring tank annular spaces, sumps, dispenser pans, spill containers, or other secondary containment areas; mechanical or electronic line leak detectors; and in-tank liquid level probes (if used for leak detection). In the space provided, note the date this Site Plan was prepared.

Permit #: 104438  
State ID: 37-000-104438

Operating Permit Issued on 06/11/2005  
Operating Permit Expires on: 06/11/2008  
Reference Number: 1347

# San Diego County

Annual UST Monitoring System Certification and Routine Inspection  
Inspection conducted with Scott Storms, Designated Operator of  
AQCS; Tom Elliott, Fleet & Safety Manager; and Aaron Celiceo  
of MIT Engineering & Construction, Inc.

UST

RECEIVED OCT 02 2006

Remarks:

- The following sensors were tested and passed: Annular, Fill and Turbine sump. Overfill was tested and was found to be functioning properly. Spill bucket was tested and passed.
- The 2 UDC's onsite have Beaudreau sensors that were tested and shut down dispenser when placed in water. UDC #1 is currently not in use.
- Verified certification of UST Technician, Aaron Celiceo and ICC certification is current through 7/18/07. Veeder Root certification onsite was expired and dated 8/7/04. Per Aaron Celiceo, the current Veeder Root certification will be faxed to my attn at 858-694-3740. UST Technicians must have current certifications onsite for all monitoring systems to be tested.

This is an annual certification that the Hazardous Materials Business Plan (inventory, emergency contacts, emergency response plan, and employee training plan) is current and includes all the information required in the H&SC and is maintained at the site where hazardous materials are stored.

DATE: 9/7/06

PAGE: 2 OF 2

Office Use Only

BUSINESS ADDRESS: 3520 Kurtz St SD ZIP CODE: 92110

4. Received copy of current Evidence of Financial Responsibility dated 7/29/06 - 7/29/07

Hazardous Materials/Wastes:

1. The following hazardous wastes were observed onsite:

- 55 gallon steel drum of used waste antifreeze had hazardous waste label with information starting to fade and become unreadable. Recommend that required information be written on label so that it is readable.

- 3 - 55 gallon steel drums of used oil were just picked up by hauler. Please note that when used oil is again placed in the containers, the containers need a hazardous waste label with all the required information completed, including accumulation start date.

Hazardous waste containers must also be kept closed except when waste is being put in or removed.

2. Recommend that empty containers of 5 gallons or greater be labeled "empty" and date it was emptied.

3. Universal wastes such as fluorescent light bulbs and alkaline batteries must be properly handled and can no longer be disposed of in trash.

4. Site map needs to be updated with hazardous waste location. Within 30 days, submit updated site map to HMP attn: Marie Malonzo at address below.

# UNDERGROUND STORAGE TANK MONITORING SYSTEM CERTIFICATION

## D. Results of Testing/Serviceing

Permit Number:

Software Version Installed: 15.01

Complete the following checklist:

<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No*	Is the audible alarm operational?
<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No*	Is the visual alarm operational?
<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No*	Were all sensors visually inspected, functionally tested, and confirmed operational?
<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No*	Were all sensors installed at lowest point of secondary containment and positioned so that other equipment will not interfere with their proper operation?
<input type="checkbox"/> Yes	<input type="checkbox"/> No* <input checked="" type="checkbox"/> N/A	If alarms are relayed to a remote monitoring station, is all communications equipment (e.g. modem) operational?
<input type="checkbox"/> Yes	<input type="checkbox"/> No* <input checked="" type="checkbox"/> N/A	For pressurized piping systems, does the turbine automatically shut down if the piping secondary containment monitoring system detects a leak, fails to operate, or is electrically disconnected? If yes: which sensors initiate positive shutdown? (Check all that apply) <input type="checkbox"/> Sump/Trench Sensors; <input type="checkbox"/> Dispenser Containment Sensors. Did you confirm positive shutdown due to leaks and sensor failure/disconnection? <input checked="" type="checkbox"/> Yes; <input type="checkbox"/> No.
<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No* <input type="checkbox"/> N/A	For tank systems that utilize the monitoring system as the primary tank overfill warning device (i.e. no mechanical overfill prevention valve is installed), is the overfill warning alarm visible and audible at the tank fill point(s) and operating properly? If so, at what percent of tank capacity does the alarm trigger? 90%
<input type="checkbox"/> Yes*	<input checked="" type="checkbox"/> No	Was any monitoring equipment replaced? If yes, identify specific sensors, probes, or other equipment replaced and list the manufacturer name and model for all replacement parts in Section E, below.
<input checked="" type="checkbox"/> Yes*	<input type="checkbox"/> No	Was liquid found inside any secondary containment systems designed as dry systems? (Check all that apply) <input type="checkbox"/> Product; <input checked="" type="checkbox"/> Water. If yes, describe causes in Section E, below.
<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No*	Was monitoring system set-up reviewed to ensure proper settings? Attach set up reports, if applicable
<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No*	Is all monitoring equipment operational per manufacturer's specifications?

\* In Section E below, describe how and when these deficiencies were or will be corrected.

**E. Comments: REMOVED 1.5 GALLONS OF WATER FROM FILL SUMP.**

**FILL SUMP AND SPILL BUCKET TEST WATER LEFT ON SITE IN PROPERLY LABELED BUCKET.**

# UNDERGROUND STORAGE TANK MONITORING SYSTEM CERTIFICATION

**F. In-Tank Gauging / SIR Equipment:**

**Permit Number:**

104438

- Check this box if tank gauging is used only for inventory control
- Check this box if no tank gauging or SIR equipment is installed

This section must be completed if in-tank gauging equipment is used to perform leak detection monitoring.

**Complete the following checklist:**

<input type="checkbox"/> Yes	<input type="checkbox"/> No*	Has all input wiring been inspected for proper entry and termination, including testing for ground faults?
<input type="checkbox"/> Yes	<input type="checkbox"/> No*	Were all tank gauging probes visually inspected for damage and residue buildup?
<input type="checkbox"/> Yes	<input type="checkbox"/> No*	Was accuracy of system product level readings tested?
<input type="checkbox"/> Yes	<input type="checkbox"/> No*	Was accuracy of system water level readings tested?
<input type="checkbox"/> Yes	<input type="checkbox"/> No*	Were all probes reinstalled properly?
<input type="checkbox"/> Yes	<input type="checkbox"/> No*	Were all items on the equipment manufacturer's maintenance checklist completed?

\* In Section H below, describe how and when these deficiencies were or will be corrected.

**G. Line Leak Detectors (LLD):**

Check this box if LLDs are not installed.

**Complete the following checklist:**

<input type="checkbox"/> Yes	<input type="checkbox"/> No*	For equipment start-up or annual equipment certification, was a leak simulated to verify LLD performance? (Check all that apply) Simulated leak rate: <input type="checkbox"/> 3 g.p.h.; <input type="checkbox"/> 0.1 g.p.h.; <input type="checkbox"/> 0.2 g.p.h.
<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> N/A	
<input type="checkbox"/> Yes	<input type="checkbox"/> No*	Were all LLDs confirmed operational and accurate within regulatory requirements?
<input type="checkbox"/> Yes	<input type="checkbox"/> No*	Was the testing apparatus properly calibrated?
<input type="checkbox"/> Yes	<input type="checkbox"/> No*	For mechanical LLDs, does the LLD restrict product flow if it detects a leak?
	<input type="checkbox"/> N/A	
<input type="checkbox"/> Yes	<input type="checkbox"/> No*	For electronic LLDs, does the turbine automatically shut off if the LLD detects a leak?
	<input type="checkbox"/> N/A	
<input type="checkbox"/> Yes	<input type="checkbox"/> No*	For electronic LLDs, does the turbine automatically shut off if any portion of the monitoring system is disabled or disconnected?
	<input type="checkbox"/> N/A	
<input type="checkbox"/> Yes	<input type="checkbox"/> No*	For electronic LLDs, does the turbine automatically shut off if any portion of the monitoring system malfunctions or fails a test?
	<input type="checkbox"/> N/A	
<input type="checkbox"/> Yes	<input type="checkbox"/> No*	For electronic LLDs, have all accessible wiring connections been visually inspected?
	<input type="checkbox"/> N/A	
<input type="checkbox"/> Yes	<input type="checkbox"/> No*	Were all items on the equipment manufacturer's maintenance checklist completed?

\* In Section H below, describe how and when these deficiencies were or will be corrected.

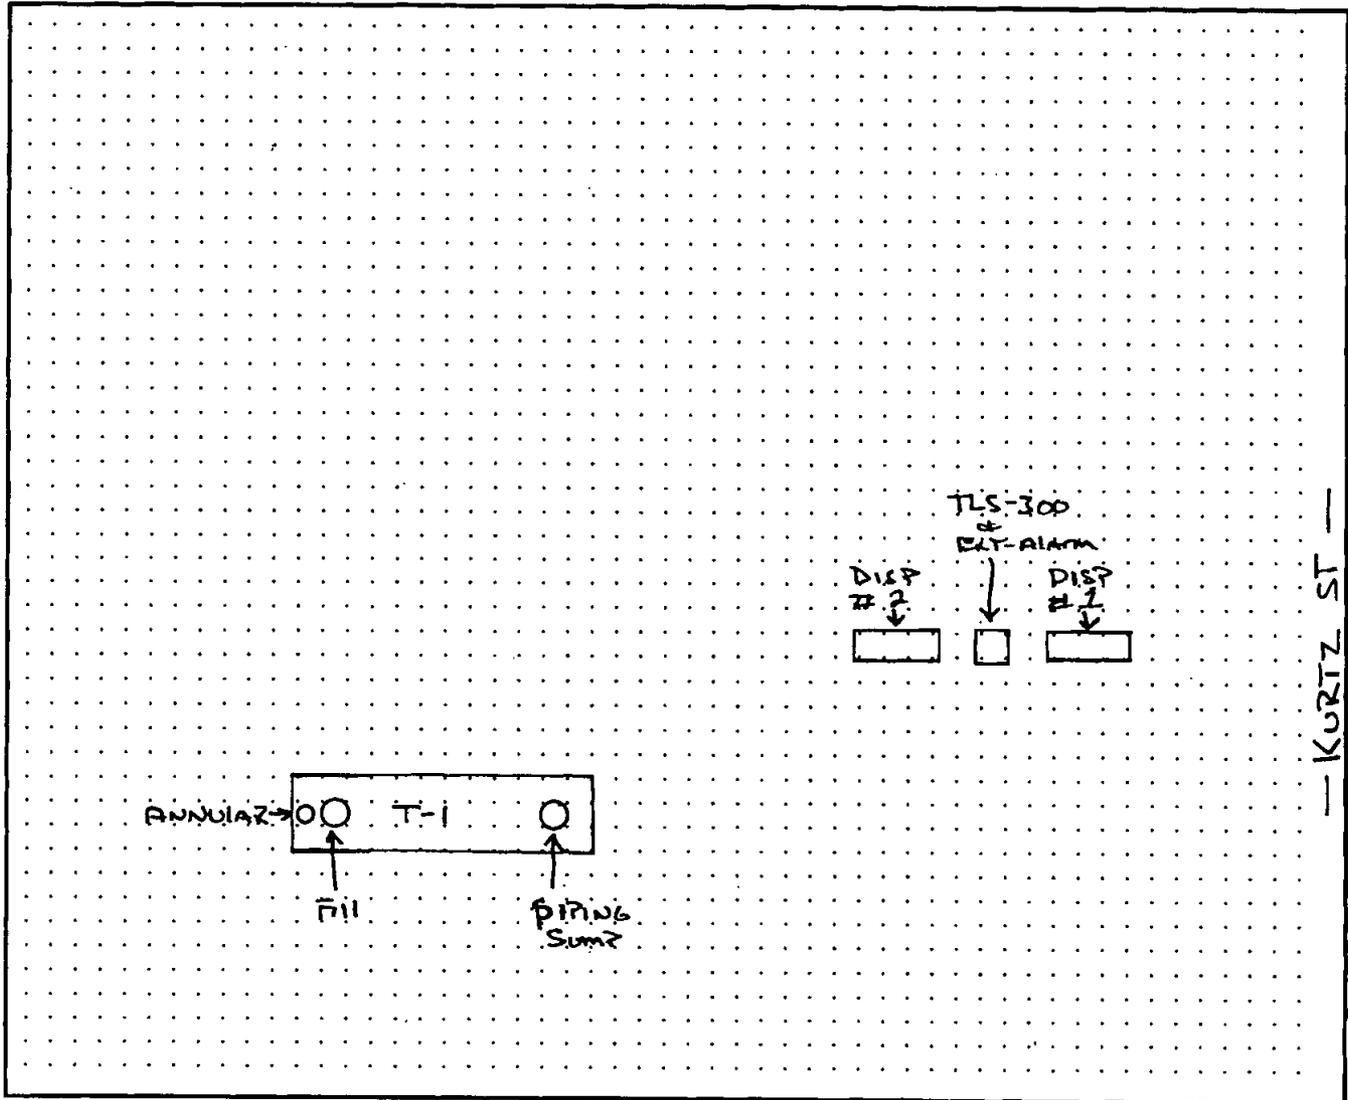

**H. Comments: SUCTION SYSTEM.**

# UNDERGROUND STORAGE TANK MONITORING SYSTEM CERTIFICATION

## UST Monitoring Site Plan

Site Address: 3520 KURTZ ST SAN DIEGO CA. 92110

Date map was drawn: 12-Sep-07

### Instructions

If you already have a diagram that shows all required information, you may include it, rather than this page, with your Monitoring System Certification. On your site plan, show the general layout of tanks and piping. Clearly identify locations of the following equipment, if installed: monitoring system control panels; sensors monitoring tank annular spaces, sumps, dispenser pans, spill containers, or other secondary containment areas; mechanical or electronic line leak detectors; and in-tank liquid level probes (if used for leak detection). In the space provided, note the date this Site Plan was prepared.

**THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.**

This endorsement modifies insurance provided under the following:

**Storage Tank System Third Party Liability and Cleanup Policy**

In consideration of the payment of premium and the Deductible by you and in reliance upon the statements in the Application made a part hereof, we agree with you, subject to all the terms, exclusions and conditions of the policy, that the Declarations shall be amended to include the following "scheduled location(s)" and "retroactive date(s)":

See Attached Scheduled Locations Attachment which is incorporated to and made a part of this Endorsement.

The "retroactive date" shall be the earliest date that a "release" can occur for coverage to be provided under the policy. If no entry appears in the "retroactive date" then the "retroactive date" shown in the Declarations shall apply or if N/A appears in the "retroactive date" then a "retroactive date" shall not apply to the policy or that specific "scheduled location".

All other terms and conditions of the policy shall apply and remain unchanged.

CERTIFICATE:

1. Zurich American Insurance Company, the Insurer, as identified above, hereby certifies that it has issued liability insurance covering the following underground storage tank(s):

Per Attached Scheduled Locations and

Scheduled Storage Tank(s) Systems

for taking corrective action and compensating third parties for bodily injury and property damage caused by accidental releases; in accordance with and subject to the limits of liability, exclusions, conditions, and other terms of the policy; arising from operating the underground storage tank(s) identified above.

The limits of liability are \$1,000,000 each occurrence and \$1,000,000 annual aggregate, exclusive of legal defense costs which are subject to a separate limit under the policy. This coverage is provided under policy # USC 5880130-03. The effective date of said policy is 07/29/2006.

2. The Insurer further certifies the following with respect to the insurance described in Paragraph 1:
  - a. Bankruptcy or insolvency of the insured shall not relieve the Insurer of its obligations under the policy to which this certificate applies.
  - b. The Insurer is liable for the payment of amounts within any deductible applicable to the policy to the provider of corrective action or a damaged third party, with a right of reimbursement by the insured for any such payment made by the Insurer. This provision does not apply with respect to that amount of any deductible for which coverage is demonstrated under another mechanism or combination of mechanisms as specified in 40 CFR 280.95-280.102.
  - c. Whenever requested by a Director of an implementing agency, the Insurer agrees to furnish to the Director a signed duplicate original of the Policy and all endorsements.
  - d. Cancellation or any other termination of the insurance by the Insurer, except for non-payment of premium or misrepresentation by the insured, will be effective only upon written notice and only after the expiration of 60 days after a copy of such written notice is received by the Insured. Cancellation for non-payment of premium or misrepresentation by the Insured will be effective only upon written notice and only after expiration of a minimum of 10 days after a copy of such written notice is received by the insured.

Reference Number: USC 5880130-03  
Effective Date: 07/29/2006

104438

**THIS ENDORSEMENT IS ATTACHED TO AND MADE PART OF YOUR POLICY.  
THIS ENDORSEMENT DOES NOT GRANT ANY COVERAGE OR CHANGE THE TERMS AND  
CONDITIONS OF ANY COVERAGE UNDER THE POLICY.  
DISCLOSURE OF PREMIUM  
(RELATING TO TERRORISM RISK INSURANCE ACT)**

**SCHEDULE\***

Premium attributable to risk of loss from certified acts of terrorism for lines subject to TRIA:

\$5

\*Information required to complete this Schedule, if not shown above, will be shown in the Declarations.

**A. Disclosure of Premium**

In accordance with the federal Terrorism Risk Insurance Act of 2002 ("TRIA"), we are required to provide you with a notice disclosing the portion of your premium, if any, attributable to the risk of loss from terrorist acts certified under that Act for lines subject to TRIA. That portion of your premium attributable is shown in the Schedule of this endorsement or in the Declarations.

**B. Disclosure of Federal Participation in Payment of Terrorism Losses**

The United States Government, Department of the Treasury, will pay a share of terrorism losses insured under the federal program. The federal share equals 90% of that portion of the amount of such insured losses that exceeds the applicable insurer retention (85% for acts of terrorism in 2007).

**C. Limitation of Liability and Termination of the Program**

The Act currently provides for no insurance industry or United States government participation in terrorism losses that exceed \$100 billion in any one calendar year. The federal program established by the Act is scheduled to terminate at the end of December 31, 2007 unless extended by the federal government.

**D. Availability**

As required by TRIA, we have made available to you for lines subject to TRIA coverage for losses resulting from acts of terrorism certified under TRIA with terms,

amounts and limitations that do not differ materially from those for losses arising from events other than acts of terrorism.

**E. Definition of Act of Terrorism**

TRIA defines "act of terrorism" as any act that is certified by the Secretary of the Treasury, in concurrence with the Secretary of State and the Attorney General of the United States:

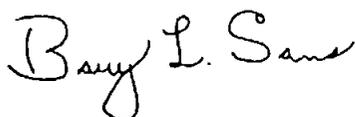

1. to be an act of terrorism;
2. to be a violent act or an act that is dangerous to human life, property or infrastructure;
3. to have resulted in damage within the United States, or outside of the United States in the case of an air carrier (as defined in section 40102 of Title 49, United States Code) or a United States flag vessel (or a vessel based principally in the United States, on which United States income tax is paid and whose insurance coverage is subject to regulation in the United States), or the premises of a United States mission; and
4. to have been committed by an individual or individuals acting on behalf of any foreign person or foreign interest as part of an effort to coerce the civilian population of the United States or to influence the policy or affect the conduct of the United States Government by coercion.

But, no act shall be certified by the Secretary as an act of terrorism if the act is committed as part of the course of a war declared by Congress (except for workers' compensation) or property and casualty insurance losses resulting from the act, in the aggregate, do not exceed \$5,000,000.

104438

- e. The insurance covers claims otherwise covered by the Policy that are reported to the Insurer within six (6) months of the effective date of cancellation or non-renewal of the Policy except where the new or renewed policy has the same retroactive date or a retroactive date earlier than that of the prior policy and which arise out of any covered occurrence that commenced after the policy retroactive date, if applicable, and prior to such policy renewal or termination date. Claims reported during such extended reporting period are subject to the terms, conditions, limits, including limits of liability, and exclusions of the policy.

I hereby certify that the wording of this instrument is identical to the wording in 40 CFR 280 97 (b) (2) and that the insurer is licensed to transact the business of insurance, or eligible to provide insurance as an excess or surplus lines insurer, in one or more states.

Barry L. Sams  
Assistant Vice President  
Authorized Representative of  
Zurich American Insurance Company  
550 West Washington  
Chicago, Illinois 60661

**HAZARDOUS AREA NOTES:**

IN AN OUTSIDE LOCATION, ANY AREA WITHIN 5'-0" HORIZONTALLY FROM ANY TIGHT TANK FILL PIPE SHALL BE CLASSIFIED AS A CLASS 1 DIVISION 2 HAZARDOUS AREA.

THE AREA 18" OUT FROM DISPENSER AND 4'-0" IN HEIGHT FROM BASE OF DISPENSER SHALL BE CLASSIFIED AS CLASS 1 DIVISION 1 HAZARDOUS AREA.

THE AREA 20'-0" OUT FROM DISPENSER AND 18" IN HEIGHT FROM BASE OF DISPENSER SHALL BE CLASSIFIED AS CLASS 1 DIVISION 2 HAZARDOUS AREA.

THE SPHERICAL VOLUME WITHIN A 3'-0" RADIUS OF ANY TANK VENT PIPE SHALL BE CLASSIFIED AS CLASS 1 DIVISION 1 HAZARDOUS AREA.

ALL ELECTRICAL CONDUITS, FITTINGS, ETC. IN THESE AREAS SHALL CONFORM TO THE LATEST EDITION OF N.E.C. ARTICLE 514. ELECTRICAL WIRING AND EQUIPMENT BELOW A HAZARDOUS AREA SHALL BE RATED FOR CLASS 1 DIVISION 1. PROVIDE SEAL-OFF FITTINGS ON ALL CONDUITS ENTERING OR LEAVING A HAZARDOUS AREA.

**GENERAL ELECTRICAL NOTES:**

DIELECTRIC UNIONS TO BE USED ON ALL UNDERGROUND PIPING. DIELECTRIC UNIONS TO BE USED ON ALL CONDUITS BEFORE BUILDING PENETRATIONS.

ALL CONDUITS TO HAVE SEAL-OFFS PER LATEST EDITION OF THE NATIONAL ELECTRIC CODE. ALL J-BOXES TO BE EXPLOSION PROOF, KILLARK #GRSS-2 OR CROUSE-HINDS GJA SERIES.

USE CABLE CONNECTOR FITTINGS (CROUSE-HINDS CGB OR EQUIVALENT) AT MONITOR & LEVEL GAUGE CABLE CONNECTIONS TO J-BOXES & PIPE FITTINGS IN SUMP BOXES. SEAL IN EPOXY PAK, 3M OR EQUAL.

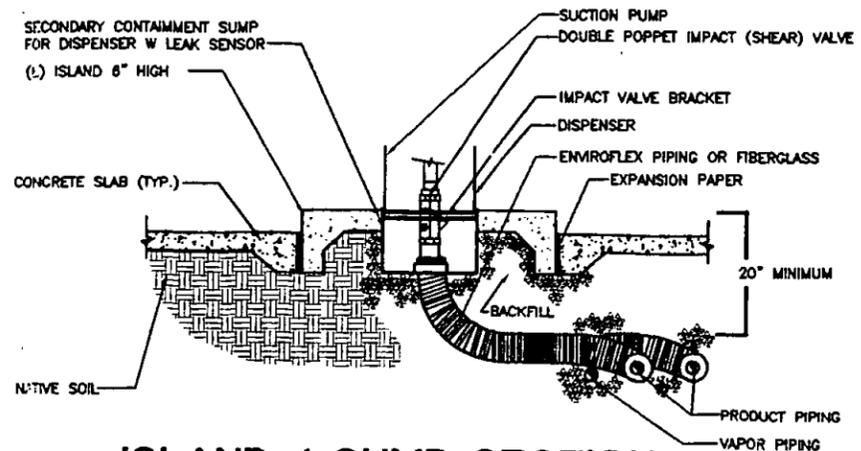

ALL UNDERGROUND CONDUITS AND CONDUITS INSTALLED OUTDOORS TO BE PVC COATED RIGID. ALL CONDUITS INSTALLED INSIDE BUILDING MAY BE EMT.

CONTRACTOR TO PROVIDE & INSTALL PULL BOXES AS REQUIRED TO FACILITATE WIRE PULLING.

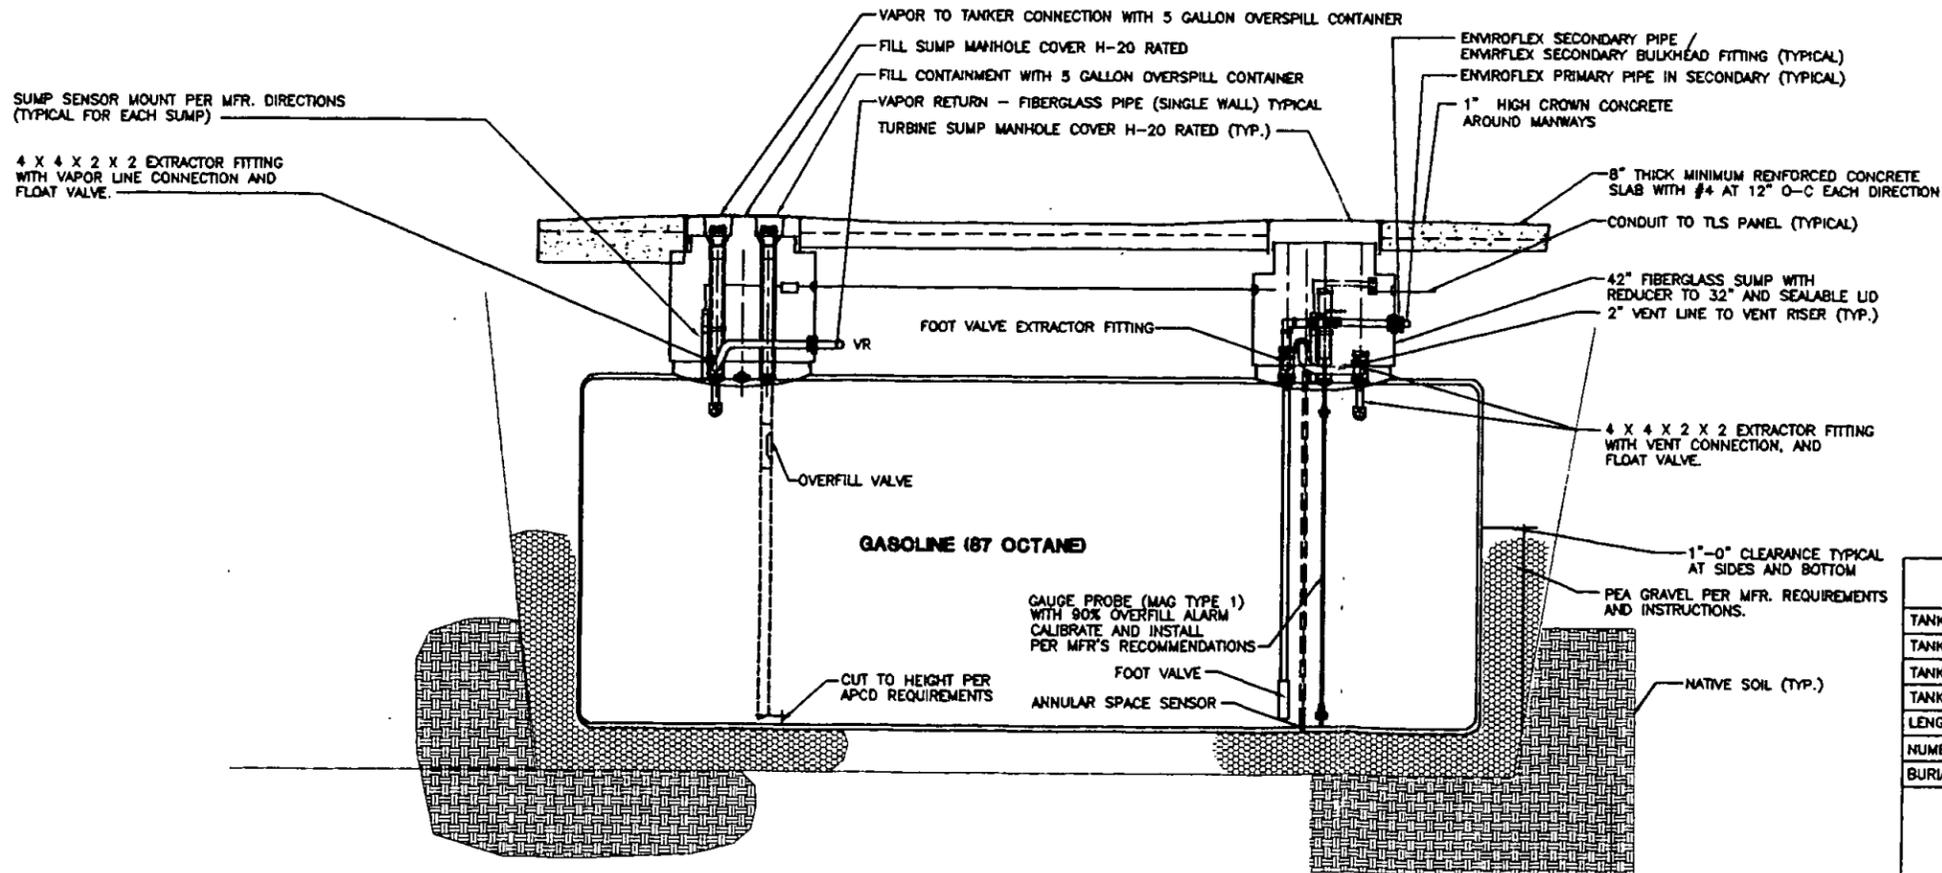

ALL EQUIPMENT, HARDWARE AND SYSTEM COMPONENTS MUST BE INSTALLED IN STRICT CONFORMANCE WITH MANUFACTURER'S INSTRUCTIONS AND SPECIFICATIONS.

ALL CONDUCTORS TO BE THWN CU.

ALL CONDUITS TO BE 3/4" MINIMUM UNLESS NOTED OTHERWISE.

Project Name: Cloud 9 Shuttle
Project No.: H#04438, NT#2141

Attention: Mr Charlie Shewey
cc: Mr. David Eminhizer, EnvirOmega Consultants
cc: Mr. Donn Lipera, County of San Diego, SAM

Mobile One Laboratories received and analyzed the following sample(s):

Table with 7 columns: Date Received, Quantity, Matrix, Date Received, Quantity, Matrix. Row 1: 11/5/98, 9, soil

The samples were analyzed by one or more of the EPA methodologies or equivalent methods as specified below.

- TPH -- CA DHS "Total Petroleum Hydrocarbons"
BTEX -- EPA Method 8020
TRPH -- EPA Method 418.1, modified for soils
VOCs -- EPA Method 8260

The results are included with a summary of the quality control procedures. Please note that the symbol "nd" indicates a value below the reporting limit for the particular compound in the sample. Flags qualifying the data are explained in footnotes on the same report page as they occur.

Please feel free to call us to discuss any part of this report or to schedule future projects.

Sincerely,

Signature of Rebecca L. Johnson

T2N-10'	nd	nd						
T2S-11'	nd	nd						
T3N-10.5'			nd					
T3S-10.5'			nd					

Footnotes:

- nd = Not found above the detection limit.
- & = Gasoline range organics not identified as gasoline.
- # = Diesel range organics not identified as diesel.
- \* = Sample dilution was required. Detection limits were adjusted accordingly.
- J = Analyte amount exceeds calibration curve. Amount estimated.
- \*\* = This compound has been screened by EPA method 8020. Any positive results should be confirmed by a second analysis.
- ## = A second analysis has been performed on this sample by Mass Spectrometry. The results are as indicated.

Analyses performed by: Bret Hutchinson

NOTICE: You are hereby notified that on 11/5/98 a Hazardous Materials Specialist conducted an inspection for the closure of THREE hazardous substance underground storage tank(s). A summary of the conditions follows:

- An **unauthorized release** of a hazardous substance has been observed by the Hazardous Materials Specialist. You are hereby required to initiate **Corrective Action** measures (see Page 4 for details).
- A determination of this site's status is pending the Site Assessment and Mitigation (SAM) Division's receipt and review of analytical results for the samples taken from the tank and/or piping closure site. A laboratory report must be submitted to SAM within **30 days**. Please request that the laboratory send a copy of the analytical report directly to DOAN LIPERA at the address provided below.

SAM Division has completed its review of the analytical results for samples collected at the tank closure site and has determined the following:

**TANK CLOSURE COMPLETE - NO FURTHER ACTION REQUIRED**

**INITIATE CORRECTIVE ACTION MEASURES** (See enclosed information)

E. APPLICATION SUBMITTAL, PLAN APPROVAL, PERMIT ISSUANCE, AND REQUIRED INSPECTIONS

Submit one (1) original and two (2) copies of this application package, including plan drawings with the required fee to the Dep of Environmental Health, Site Assessment and Mitigation Division (SAM). 1255 Imperial Avenue, San Diego, CA 92101. Or P. O. Box 85261, San Diego, CA 92186-5261. Checks should be made payable to the County of San Diego.

A permit will be issued by SAM upon review and approval of the application and plans. The required fees must be submitted application package. Information in addition to that presented in the application package may be needed in order to obtain approval. No work is to begin on the proposed project until a permit has been issued. The required inspections cannot be scheduled until a permit is issued.

Once the permit has been issued, it is the responsibility of the permittee to notify SAM at least two (2) working days in advance to schedule each required inspection.

Construction stages at which inspections are required are indicated in each subpart of this application form (i.e., Part II, III, IV)

F. PROJECT WORK TO BE COMPLETED: Check Applicable Box	COMPLETE APPLICATION PARTS	FEE CODE TABLE G
<input type="checkbox"/> Installation/Construction of new tank(s) systems only (without closing any existing tanks)	I & II	1

Fiberglass FIBROFLEX DOUBLE WALL PRACTABLE

**J. UNDERGROUND STORAGE TANK SPILL/OVERFILL PREVENTION SYSTEM**

Catchment Basin surrounding the product fill pipe.

Manufacturer MULTI PORT TIAL CONTAINMENT

-AND-

Secondary containment for vent, vapor, and tank riser piping with Ball Float Valves or Product Level Sensing Device with High Level Alarm

Manufacturer OPW BAV

-OR-

Positive shutoff device in fill pipe at 95% full

Manufacturer OPW 7X10 CURFILL VALVE

-OR-

Product Level Sensing Device with High Level Alarm and Ball Float Valves

Manufacturer VEEDER ROOT 3001

**K. TYPE/MANUFACTURER OF VAPOR RECOVERY SYSTEM TO BE USED**

Stage I Recovery System OPW OP63A II TRES 4" FILL PIPE

Stage II Recovery System BALANCE MAX PREIR

**L. DESCRIBE HOW YOU PROPOSE TO BALLAST THE TANKS FROM FLOTATION**

(TANKS MUST BE BALLASTED IF HIGHEST ANTICIPATED GROUNDWATER IS AT LEAST 25' BELOW GROUND SURFACE)

Anchor Straps per Manufacturer's specification with deadman and/or slab

Buoyancy Calculations (must be submitted)

Depth of Groundwater: 12 ft.

**L. CERTIFICATION**

Attach a certification from the manufacturer, or his authorized representative, of the tank and piping materials as to the capability of the tank and piping materials to store the proposed hazardous materials.

**M. ATTACH THREE COPIES OF PLANS SHOWING THE FOLLOWING:**

1. Location of all existing and proposed structures.
2. Location of all existing underground tanks and piping (indicate if tanks are to be closed or replaced).
3. Location of all proposed tanks and piping.
4. Cross section of tank and piping system. This drawing must show secondary containment of tank and piping, spill/overflow prevention devices, leak detection equipment with the correct number of sensing probes and extension of all pipes and ancillary equipment to finish grade.
5. Location of underground utility vaults and lines.
6. Site plan showing site address, nearest cross street and property lines. (scale and north arrow must be used.)

**N. REQUIRED INSPECTIONS - NEW UNDERGROUND STORAGE TANK INSTALLATIONS**

EACH NEW TANK INSTALLATION MUST BE INSPECTED BY SAM. TWO INSPECTIONS ARE REQUIRED.

1. **FIRST INSPECTION: CERTIFICATION AND PRESSURE TEST INSPECTION**
  - pressure test of entire primary system (tank, product, vent, vapor, fill). Tank manufacturer's certification of tank set must be submitted to the inspector at the time of inspection.
2. **SECOND INSPECTION: MONITORING EQUIPMENT AND INTEGRITY TEST VERIFICATION**
  - performance check of the monitoring system. SAM's Certification of Tank System Installation, Certification of Monitoring Equipment, Integrity Test Report, Form C, and Monitoring and Response Plans must be submitted to the inspector at the time of inspection. All documents must be submitted before final operating permit will be issued.

**O. DECLARATION**

I declare that to the best of my knowledge and belief the statements and information provided above are correct and true. I understand that information in addition to that provided above may be needed in order to obtain a permit from the Site Assessment and Mitigation Division and that no work is to begin on this project until the permit is issued.

I understand that any changes in design, materials or equipment will void my permit to construct if prior approval is not obtained. I further understand, that a permit to operate the underground storage tank will not be issued until the SAM inspector approves the second inspection.

I will notify the Site Assessment and Mitigation Division at least two working days (48 hours) in advance to schedule each required inspection. I understand that site and worker safety are solely the responsibility of the property owner or his agent and that this responsibility is not shared nor assumed by the County of San Diego.

PHONE (619) 516-2577 DATE 11 SEP 98

PERMIT APPLICATION  
PART III  
APPLICATION FOR PERMIT TO CLOSE UNDERGROUND STORAGE TANK SYSTEM

A. TOTAL NUMBER OF TANK SYSTEMS TO BE CLOSED 3

NOTE: UST SYSTEMS INCLUDE TANK AND ALL ASSOCIATED PIPING.

B. DESCRIPTION OF TANKS TO BE CLOSED:

TANK NO.	CAPACITY	DATE INSTALLED	TANK COMPOSITION	TANK PRESENTLY IN USE?	MATERIALS STORED IN TANK
1	12K		STEEL	YES	GAS
2	12K		STEEL	YES	GAS
3	500g		STEEL	YES	WASTE OIL

C. HAS THE TANK SYSTEM EVER FAILED OR LEAKED? YES  NO  UNKNOWN

D. REASON FOR TANKS TO BE CLOSED:

Meet current state/federal requirements

Replacement of existing tanks

Tank system failure, briefly describe \_\_\_\_\_

Other, briefly describe \_\_\_\_\_

E. PREVIOUS OWNERS AND OPERATORS OF THE TANKS:

Dates	Owner/Operator
_____	_____
_____	_____
_____	_____
_____	_____

F. PROPOSED METHOD OF CLOSURE:  REMOVAL  CLOSURE IN PLACE

**SAMPLING PROTOCOL** Tank owner/authorized representative responsible for all sampling analyses and associated costs.

- for tank systems that are to be removed. The excavation shall be exposed prior to the scheduled inspection and sampling points identified by the SAM inspector. Sampling is required for both tank and piping. The tank and piping must remain in the excavation until the SAM inspector approves the removal.
- tank systems to be closed in place. Submit an alternate plan which must include soil sampling, reason for closing the tank system in place and type of material to be used to fill the tank. Soil sampling and/or hydrostatic testing is also required for piping closures. Tank system closure in place will only be considered after evaluating the risks and hazards if the tank system were removed.

G. DISPOSAL SITE OF TANK: ALL WAYS PACIFIC, 3055 COMMERCIAL, SAN DIEGO

Note: You must inform SAM of the address of where the tank and piping is to be disposed. Plans will be disapproved without this information.

H. ATTACH THREE COPIES OF PLANS SHOWING THE FOLLOWING:

1. Property lines, site address, scale, north arrow.
2. Location of all existing structures.
3. Location of all existing underground storage tank facilities.
4. Location of underground storage tanks and piping to be closed.
5. Location of underground utility lines and vaults.

I. REQUIRED INSPECTION-PERMIT TO CLOSE

A representative from SAM must be on site at the time the tank(s) are closed.

**1. TANK SYSTEM CLOSURE BY REMOVAL:**

- excavation shall be exposed prior to the scheduled inspection. The tank owner/authorized representative on site must submit a uniform hazardous waste manifest demonstrating that the tank has been properly decontaminated. A combustible gas instrument and soil sampling equipment must be on site. The SAM inspector will identify sampling points. The tank and piping must remain in the excavation until SAM approves the removal.

**2. TANK SYSTEM CLOSURE IN PLACE:**

- after approval of the alternate plan, the tank owner/authorized representative on site shall submit a uniform hazardous waste manifest demonstrating that the tank has been properly decontaminated. The SAM inspector shall verify that the tank system has been properly emptied and will witness the filling with an approved inert substance. Piping approved to be closed in place by hydrostatic testing shall also be witnessed by SAM.

J. DECLARATION

I declare that to the best of my knowledge and belief, the statements and information provided are correct and true. I understand that information in addition to that provided above may be needed in order to obtain final approval by the Site Assessment and Mitigation Division.

I understand that tests and procedures that may be required by other departments and agencies to demonstrate adequate site safety or suitability for further development (e.g. soil compaction testing) are in addition to the requirements of the Site Assessment and Mitigation Division.

I will notify the Site Assessment and Mitigation Division at least two working days (48 hours) before work is to begin in order to schedule the required inspections. I understand that site and worker safety are solely the responsibility of the property owner or his agent and that this responsibility is not shared or assumed by the County of San Diego.

**WORKPLAN  
FOR  
UNDERGROUND STORAGE TANK CLOSURE**

1. Site Name Cloud 9 Shuttle

2. Site Address 3520 Kurtz Street  
San Diego, California 92110

3. Describe the existing land use in the surrounding area. (residential, commercial, schools)  
Describe the locations of nearest receptors and the prevailing wind.

Site is located in an area comprised of light industrial and commercial  
businesses. Wind is from the west.

4. Explain how the excavation will be secured. Describe fencing/site security and other methods that insure public safety.

The area of the UST excavation will be surrounded by a chain link fence  
overnight. Only authorized personnel will be in vicinity of excavation.

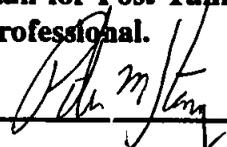

5. If soil is to be stockpiled, describe the location on the Plan Check map. Describe method of soil containment (berming/covers, run-off control).

Soil will be placed on and covered with plastic sheeting. The soil stockpile  
will be located adjacent to the excavation (see figure)

6. Do you plan to conduct site assessment or remedial work beyond what is necessary to remove the underground storage tank(s) and perform the mandatory soil sampling required by the Environmental Health Services?

Yes                       No

**If Yes, a Workplan for Post-Tank Removal Investigation must be completed under the direction of a registered professional.**

DEH Inspector \_\_\_\_\_

## WORKPLAN FOR POST-TANK REMOVAL INVESTIGATION

Complete this Workplan only if you intend to utilize a backhoe to investigate the extent of hydrocarbon contamination within 72 hours of the removal of an underground storage tank (UST). This site investigation work must be implemented in accordance with the DEH-SAM Manual and under the direction of an appropriately Registered Geologist (RG), Certified Engineering Geologist (CEG) or Registered Civil Engineer (RCE). A complete site assessment report, signed by the above referenced registered professional, must be submitted to DEH within 60 days of the date of the field investigation. This workplan must be signed by the above referenced registered professional.

1. Establishment Name/Address.

Cloud 9 Shuttle  
 3520 Kurtz Street  
 San Diego, California 92110

2. Contractor, Contact & Phone No.

Shewey Environmental Management Company, Charlie Shewey, (619) 270-8646

Environmental Consultant, Contact & Phone No.

EnvirOmega Consultants, David Eminhizer, (619) 676-0046

Registered Professional (defined above) & Phone No.

Peter M. Stang, Registered Geologist RG 5219, (619)481-6986

3. Describe how the backhoe will be utilized to conduct the site investigation (ie. potholing, trenching, etc.) and estimate the maximum quantity of soil to be excavated.

Backhoe will be used to expand the excavation in the areas of measured/  
 observed petroleum hydrocarbon contamination. Removal of up to 75 cubic  
 yards of soil per UST excavation may be performed.

4. Describe the soil sample collection methods and laboratory analyses to be used (reference Section 4. B. 1. of the SAM Manual). Soil analysis must be performed by a California DTSC Certified Laboratory.

Soil samples will be collected from sidewalls (capillary zone, if encountered) at various depths and may also be collected below groundwater, if encountered. Soil samples will be analyzed for TPH gasoline and diesel using the DHS-TPH Method and TRPH using EPA Method 418.1, as is appropriate. In addition, selected soil sample(s) will be analyzed for the presence of benzene, toluene, ethylbenzene, and xylenes using EPA Method 8020 or 8260, chlorinated compound using EPA Method 8260, Title 22 Metals, polychlorinated biphenyls using EPA Method 8080. MTBE will be checked during BTEX analysis and confirmed if necessary.

5. Attach a site drawing (to scale) which includes at a minimum: site structures, subsurface utility lines and fuel lines, UST(s) location, site investigation area, stockpiled soil area, prevailing wind direction, adjacent street and property uses, surface water and wells.

See attached figure.

6. Describe methods to monitor and control hydrocarbon vapor emissions at the excavation site.

Vapor emissions will be monitored with an OVA and/or a CGI. Soil stockpiles will be covered with plastic sheeting to reduce emissions. Water may be sprayed on soil to reduce emissions. Runoff will not be allowed.

7. Describe the procedures for the management of excavated soil, i.e. soil segregation, engineering controls for the stockpile soil (reference Section 5. C. 5. of the SAM Manual), soil characterization, on-site soil management, off-site disposal, on-site treatment, etc.

Soil will be excavated and stockpiled such that potentially clean overburden soil is placed in one pile and contaminated soil in a separate pile. The piles will be covered with plastic sheeting to prevent soil blowing and to reduce hydrocarbon vapor emissions. SAM guidelines (SW-846) will be used to characterize the soil stockpiles, if necessary. Soil will likely be transported off site for treatment or disposal by a licensed facility.

8. A Public Notification Program must be implemented prior to commencing the site investigation. Attach a copy of the public notice and provide a written description of the program (reference Section 6. B. of the SAM Manual). Identify the targeted population and the method of public notice distribution.

The site investigation will involve the removal of two 12,000 gallon USTs that store gasoline and one 500 gallon UST that stores used oil, and the associated piping. Additionally, the possible overexcavation of up to 75 cubic yards of soil per UST excavation may be performed. During the removal and overexcavation activities, heavy equipment will be operated in the area of the UST locations. The employees and any businesses in close proximity that may be affected by the activities will be notified to stay clear of the excavation area and the heavy equipment. A flyer detailing the proposed activities will be posted at the site.

**Please Note:**

- \* The investigation trench or excavation must be logged under the direction of a RG, CEG or RCE and include a complete description of the subsurface soil and/or rock.
- \* All contaminated soil should either be removed from the site or be treated on-site (with agency approval) within 45 days of site excavation.
- \* The site excavation must be secured with fencing, site security and other methods as required to ensure public safety. DEH recommends backfilling the excavation site for safety reasons within 72 hours of the post-tank removal investigation.

NOTICE: You are hereby notified that on 11/5/98 a Hazardous Materials Specialist conducted an inspection for the closure of THREE hazardous substance underground storage tank(s). A summary of the conditions follows:

An unauthorized release of a hazardous substance has been observed by the Hazardous Materials Specialist. You are hereby required to initiate Corrective Action measures (see Page 4 for details).

A determination of this site's status is pending the Site Assessment and Mitigation (SAM) Division's receipt and review of analytical results for the samples taken from the tank and/or piping closure site. A laboratory report must be submitted to SAM within 30 days. Please request that the laboratory send a copy of the analytical report directly to DON LIPERA at the address provided below.

SAM Division has completed its review of the analytical results for samples collected at the tank closure site and has determined the following:

TANK CLOSURE COMPLETE - NO FURTHER ACTION REQUIRED

INITIATE CORRECTIVE ACTION MEASURES (See enclosed information)

## Installation Checklist - Glasteel II Jacketed Steel Tanks

OWNER OF TANK: Cloud 9 SHUTTLE U.L. Label No. M638450  
 LOCATION OF TANK: 3520 Huntz S.D. DATE: 11-6-99

TANK CAPACITY (GALLONS) 20,000

**Special Note:** If the Glasteel II tank has not been installed within 90 days of delivery from the manufacturer, it is required that the tank be re-certified by the manufacturer, at the owner's expense, prior to installation.

### VACUUM RECORD

RECORD VACUUM AT TIME OF DELIVERY 27 inches Hg  
 DELIVERY DRIVER INITIAL [Signature] CUSTOMER / INSTALLER INITIAL [Signature]  
 VACUUM JUST PRIOR TO INSTALLATION 27 inches Hg

### TANK HANDLING

Equipment has sufficient capacity and size to lift and lower the tank without dropping or dragging the tank?  YES  NO  
 If the tank is being stored, is the storage area secure and free of foreign matter that would damage the tank surface?  YES  NO N/A  
 The stored tank has been chocked with tires or other suitable non-abrasive cushioning?  YES  NO N/A  
 NOTE: Proper tire disposal shall be the responsibility of the installer.

### INSPECTION

Has the tank exterior been inspected and any damage properly repaired?  YES  NO  
 Have shipping plugs and thread protectors been removed from all openings (excluding vacuum gage location) and permanent metal plugs installed in the unused openings?  YES  NO

### TESTING

Does the factory installed vacuum gage indicate at least 5.3 inches Hg vacuum on the interstice?  YES  NO  
 Have all local or state requirements been met?  YES  NO

### EXCAVATION AND BEDDING

Is the excavation free of any material or object that may cause damage to the tank exterior?  YES  NO  
 Has the bottom of the excavation been suitably graded and a minimum of 6 in. clean sand, pea gravel or crushed stone installed to serve as bedding material?  YES  NO 12"  
 Is the burial depth of the tank within it's listed burial rating?  YES  NO  
 Do burial depths meet the minimum code requirements?  YES  NO

### ANCHORING

(Indicate Choice)  Deadman anchors  Pavement and soil overburden is adequate to hold down tank  
 Concrete pad  Not applicable at this site  
 For a concrete pad installation, has the minimum 6 inches of clean sand, pea gravel or crushed stone been placed between the tank and pad?  YES  NO  
 Do the anchor straps have insulating, dielectric material separating them from the tank?  YES  NO  
 Is the tank electrically isolated from the anchor straps?  YES  NO

### BACKFILL

Has approved backfill material been used? (Refer to installation instructions)  YES  NO 3/8" PERGAMINE  
 Has special care been used to ensure backfill compaction along the tank's bottom quadrant?  YES  NO

### PIPING CONNECTIONS

(Select any that apply)  Metallic piping used  Non-metallic piping used  Dielectric bushings or flanges used.

See back of form.

If "NO" is indicated on any of the above questions, proper procedures are required.)

Signature & Title of Foreman/Project Engineer

[Signature]  
Installation Contractor

NOTE: This checklist includes certain key steps in the proper installation of the GLASTEEL II jacketed steel underground storage tank and is intended only as an aid to tank installers who are knowledgeable and experienced in underground tank installation. Compliance herewith does not necessarily meet the requirements of all applicable federal, state and local laws, regulations and ordinances concerning tank installation.

### Modern Welding Company Glasteel II® Installation Precision Test "Interstitial Tightness Test Method"

1. The initial vacuum for the test shall be a minimum of 12" mercury.
2. Test period shall be a minimum of 1 hour for 10,000 gallon tanks and smaller and 2 hours for larger tanks.
3. Vacuum decreases of less than 5" mercury during the test period indicate the inner and outer tanks are tight.
4. A vacuum decrease of more than 5" mercury during the test period shall require further investigation.
5. Contact the representative from which tank was purchased if further investigation is required. This precision test will be required upon completion of any investigation.
6. This test procedure meets Environmental Protection Agency (EPA) requirements for tightness testing of empty underground double wall tanks in dry excavations.

#### Certification of Results

I certify that the interstitial monitor was tested under the conditions in according to the vendor's operating instructions. I also certify that the evaluation was performed using the methods described in the attached Alternate EPA Test Procedures of Interstitial Monitors, and that the results presented above are those obtained during the evaluation.

Notes on proposed relocation of new 20,000 gallon gas tank

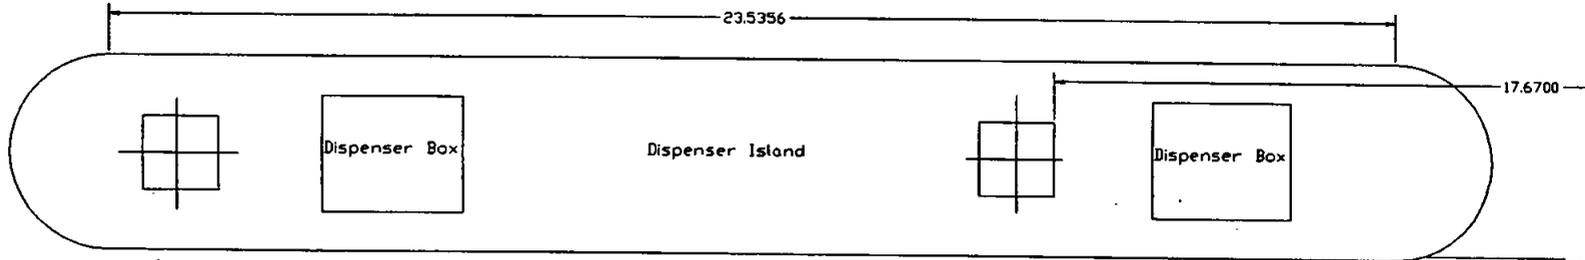

OK  
AMM:  
12-18-96

## Notes:

1. The tank is to be relocated from the current position to the proposed position as indicated on new drawings
2. Backfill and finish over top of tank to be 24" (16" pea gravel under 8" of concrete with #5 rebar 1.0' OC)
3. The new location and depth of tank will meet the original approved construction plans and permits from the various agencies involved

 OWNER NAME: Cloud 9 Shuttle  
 OWNER ADDRESS: 3520 Kurtz Street, San Diego 92110

DESCRIPTION OF PROPOSED WORK: Repair secondary containment

**PERMIT CONDITIONS:** The following is the scope of work that will be performed at the site listed above. The DEH inspector will verify that the CCR Title 23 requirements have been met.

- Scope of work is to make secondary containment repairs to tank sumps and all UDCs:
  - Install Blueline or SSI repair boots/fittings as necessary
  - Re-fiberglass collar seams as necessary
  - Please note that sealants such as Bostik cannot be used by themselves to make repairs. Sealants can only be used in a manner where it cannot come into contact with fuel in the event of a leak.
- All secondary containment repairs must be tested by the same protocol as it was tested before the repair. Submit the before and after repair test results. (Please use San Diego County reporting form DEH:HMD-9169)

**Inspection Requirements:**

One inspection visit to inspect the following:

- Hydrostatic Test(2-15 minute instrumental test) on repaired UDCs and sumps

**Please note:** Any deviation from the above scope of work may require a \$260.00 plan re-review fee and \$385.00 re-inspection fee

This office must be given at least 48 hours notice for all required Underground Storage Tank Activity. Please call at (619) 338-2214 to schedule an appointment. For cancellations, please call (619) 237-8451.

**PERMIT AND STAMPED APPROVED PLANS MUST BE ON-SITE. FAILURE TO DO SO WILL RESULT IN THE INSPECTOR FAILING THE SCHEDULED INSPECTION AND ASSESSING A \$385.00 REINSPECTION FEE.**

**E. APPLICATION SUBMITTAL, PLAN APPROVAL, PERMIT ISSUANCE, AND REQUIRED INSPECTIONS**

Submit one (1) original and two (2) copies of this application package, including plan drawings, with the required fee to the Department of Environmental Health (DEH), Hazardous Materials Division, 1255 Imperial Avenue, Third Floor, San Diego, CA 92101; or mail to P.O. Box 129261, San Diego, CA 92112-9261. Checks should be made payable to the County of San Diego.

A permit will be issued by DEH upon review and approval of the application and plans. The required fees must be submitted with the application package. Information in addition to that presented in the application package may be needed in order to obtain final approval. No work is to begin on the proposed project until a permit has been issued. The required inspections cannot be scheduled until a permit is issued.

Once the permit has been issued, it is the responsibility of the permittee to notify DEH at least two (2) working days in advance to schedule each required inspection.

Construction stages at which inspections are required are indicated in each subpart of this application form (i.e., Part II, III, IV, & V). If you need additional information, please call the Underground Storage Plan Check Desk at (619) 237-8451.

Manufacturer \_\_\_\_\_

-OR-

Secondary containment for vent, vapor, and tank riser piping with Ball Float Valves or Product Level Sensing Device with High Level Alarm  
Manufacturer \_\_\_\_\_

**I. PIPING UPGRADE REQUIREMENT:**

N/A

Cathodic protection for all product piping in direct contact with backfill material, including turbine, flex connectors and all other appurtenances containing product

Secondary containment of all product piping including turbines, dispenser piping, and all other appurtenances containing product

**J. PROPOSED METHOD OF PIPE CLOSURE:**       REMOVAL       CLOSURE IN PLACE

SAMPLING PROTOCOL Tank owner/authorized representative responsible for all sampling analyses and associated costs.

- For piping that is to be removed, the trenching shall be exposed prior to the scheduled inspection, sampling points will be identified by the DEH inspector and samples taken every 20 feet.
- Piping to be closed in place may be considered only if the removal might damage structures. Submit an alternate plan which must include soil sampling.

**K. ATTACH THREE COPIES OF PLANS SHOWING THE FOLLOWING (Must be drawn to scale):**

1. Location of existing and proposed structures.
2. Location of all existing underground tanks and piping. (Indicate what piping is to be closed in place or by removal)
3. Location of new piping, secondary containment, leak detection, and overfill prevention.
4. Cross section of piping, tank sumps, dispenser containment.

**L. REQUIRED INSPECTIONS-PIPING REPAIR/REPLACEMENT/PIPING UPGRADE:**

EACH PIPING REPAIR/REPLACEMENT AND/OR PIPING UPGRADE MUST BE INSPECTED BY DEH. THREE INSPECTIONS MAY BE REQUIRED.

**1. FIRST INSPECTION:**

- Piping to be closed by removal. Trenching shall be exposed prior to the scheduled inspection and sampling points identified by the DEH inspector.
- Piping to be closed in place. Piping shall be capped and drained and per alternate approved plan, samples collected by the DEH inspector.

**2. SECOND INSPECTION:**

- Pressure test of all piping repaired, replaced, or upgraded - verification of cathodic protection.

**3. THIRD INSPECTION:**

- Verification of leak detection devices/secondary containment.

**M. DECLARATION**

I declare that to the best of my knowledge and belief the statements and information provided are correct and true. I understand that information in addition to that provided above may be needed in order to obtain a permit from the Department of Environmental Health (DEH).

I understand that any changes in design, materials, or equipment will void my permit to construct if prior approval is not obtained.

I understand that tests and procedures that may be required by other departments and agencies to demonstrate adequate site safety or suitability for further development (e.g. soil compaction testing) are in addition to the requirements of the Department of Environmental Health (DEH).

I will notify the Department of Environmental Health (DEH) at least two working days (48 hours) before work is to begin in order to schedule the required inspection. I understand that site and worker safety are solely the responsibility of the property owner or his agent and that the responsibility is not shared or assumed by the County of San Diego.

Attn: Mr. Leon Wirschem

Dear Mr. Wirschem;

Below is an itemized list of the necessary corrective actions taken subsequent to your visit on October 16, 2003. A brief synopsis of what was written along with the corrective action to follow has been provided.

**Paragraph 1.)**

**Violation:**

Fuel filters found in general trash.

**Recommendation:**

Proper labeled containers and sealed. Personnel Training on Hazard Materials Disposal and handling with roster provided.

**Corrective Action:**

Existing containers replaced with new ones. Hazmat labels were placed on the outside of containers with all mandatory information. Policies and procedures were written and presented to all Employees. Mandatory staff meeting was held on 10/28/03. Topic included:

1. Hazardous Materials disposal,
2. Prop 65,
3. Daily logging of all hazardous waste,
4. Emergency disaster plan and map for facility,
5. Emergency response for facility along with directives and contact list.

\*In-service sign in sheet provided.

**Paragraph 2.**

**Violation:**

No EPA Identification number

**Corrective Action:**

EPA Identification Number was obtained on 10/20/03 via telephone.  
EPA number is: CAL000238977

**Paragraph 3.**

**Violation:**

Waste containers not labeled properly, including absorbent material.

**Corrective Action:**

All containers have been replaced, labeled closed, including absorbent materials.

**Paragraph 4.**

**Violation:**

Training program not adequate.

**Corrective Action:**

Training program implemented along with policies and procedures.  
See paragraph 1.

**Paragraph 5.**

**Violation:**

Daily tank inspection performed

**Corrective Action:**

A Log has been implemented for inspection. Visual checks will be made and documented.

BUSINESS NAME R & M Auto Repair & Fleet Services  
 ADDRESS 3550 Kurtz St. # A  
 CITY San Diego ZIP 92110  
 OWNERS NAME Michael Moore  
 OWNERS ADDRESS 5500 Morse Way #80 CITY La Mesa ZIP 91942

An inspection of your business was conducted, under the authority of Section 25185 of the California Health and Safety Code. This inspection was conducted with purpose of determining compliance with Chapters 6.5, 6.7, 6.95 in Division 20, of the California Health and Safety Code (H&S); Titles 19, 22 and 23 of the California Code of Regulations (CCR); and the San Diego County Code (SDCC). The following statements describe conditions which are violations of the law or that require further investigation. These observations require a formal response and/or immediate corrective action be taken. Failure to correct these violations or to provide information requested in a timely manner may be a factor in determining the course of further legal action.

On the above date an inspection was conducted with Michael Moore. In June 2003 the Cloud 9 Fleet repair services became independent of Cloud 9. Mr Moore submitted a permit application with our department 6/10/03. During inspection the following observations were made and require corrective action.

Violations: DEC 10 2003

① Two fuel filters and several non-empty aerosol containers were found in trash cans inside the auto shop. Disposal of these hazardous wastes is not allowed to a trash container. Be advised that penalties for unauthorized disposal of a hazardous waste can be as much as \$25,000/violation and may include jail time. Upon request these wastes were consolidated into a waste container upon removal from trash cans.

Corrective Action Required: Properly label and close this waste container immediately. Within 10 days provide personnel training on hazardous waste management procedures. Fax a copy of this training roster to my attention at 858 694-3705.

\* owner had to leave prior to completion of inspection. Inspection was interrupted by UST monitoring system certifications.

PRINT FULL NAME: \_\_\_\_\_ DATE: \_\_\_\_\_

SUPPLEMENTAL INSPECTION REPORT

Office Use Only

BUSINESS ADDRESS: 3550 Kurtz St. ZIP CODE: 92110

The following also require corrective action:

- ② No EPA ID number has been obtained. An application was completed during inspection. Submit application as soon as possible.
- ③ Waste containers not properly labeled. Immediately label all hazardous waste containers with labels provided. Absorbent which will be reused can be labeled as used absorbent and must be kept closed. ~~or not~~
- ④ Training program not adequate. See #1. Within 6 months of hire personnel must be trained on emergency response procedures and handling of hazardous <sup>wastes</sup> materials. Annual refresher training is required. Recommend posting the Emergency Procedures near telephone.
- ⑤ A daily tank inspection log is required. It was observed that used absorbent remained on the ground surrounding the tank and inside the containment area. This was cleaned up during inspection. Keep this area cleaned up within 24 hours of any spill.

Remarks

- Please provide HMD a copy of the Hazardous Materials Business Plan by 11/16/03. Keep this on-site.
- Keep three years of waste receipts on site for solvent, batteries, fuel filters, oil filters, oil, antifreeze, etc.
- Properly label oil filter drain container as "Satellite Accumulation"
- Call me at 858 694-2473 for any questions.
- Submit payment upon receipt of bill from HMD to obtain permit.

### UNIFIED PROGRAM FACILITY PERMIT APPLICATION

This business or service is required to obtain a Unified Program Facility Permit from the San Diego County Department of Environmental Health. I answered "yes" to one or more of the questions on the "Business Activities" form.

Date assumed business ownership at this location: 6 / 1 / 03

I have determined that this business or service does not require a Unified Program Facility Permit from the San Diego County Department of Environmental Health.

I declare under penalty of perjury that to the best of my knowledge and belief the statements made herein are correct and true. I consent to all necessary inspections allowed by law and incidental to the issuance of required permit(s) and the operation of this business.

Signature: Michael P Moore

Title: OWNER

Printed Name: MICHAEL P MOORE

Date: 6-9-03

Type of Business: Auto Repair

Phone #: (619) 697-5747  
Area Code

Please complete the business information on the following page and return this application to the San Diego County Department of Environmental Health at:

SAN DIEGO COUNTY  
DEPARTMENT OF ENVIRONMENTAL HEALTH  
HAZARDOUS MATERIALS DIVISION  
P.O. BOX 129261  
SAN DIEGO CA 92112-9261

If a San Diego County Unified Program Facility Permit is required for your business or service a representative of this Department will contact your business. Permit fees will be determined from the contact and a billing statement will be mailed.

**NOTE:** If you do not use hazardous materials, generate hazardous waste, or have underground storage tanks you are still required to return this form.

A representative of the San Diego County Department of Environmental Health may contact you to verify the information provided on this application.

A view from Cloud 9 Shuttle parking over to R and M Fleet Services work bay. Cloud 9 UST can be seen to far right. Beyond the maintenance building is a trash dumpster.

On the west side of the complex is an exit. The dumpster is on the right of the driveway, to the left is the north wall of R and M Fleet Services. These containers of hazardous waste are not properly labeled. They were claimed to be Cloud 9 Shuttle waste which was left at the maintenance shop.

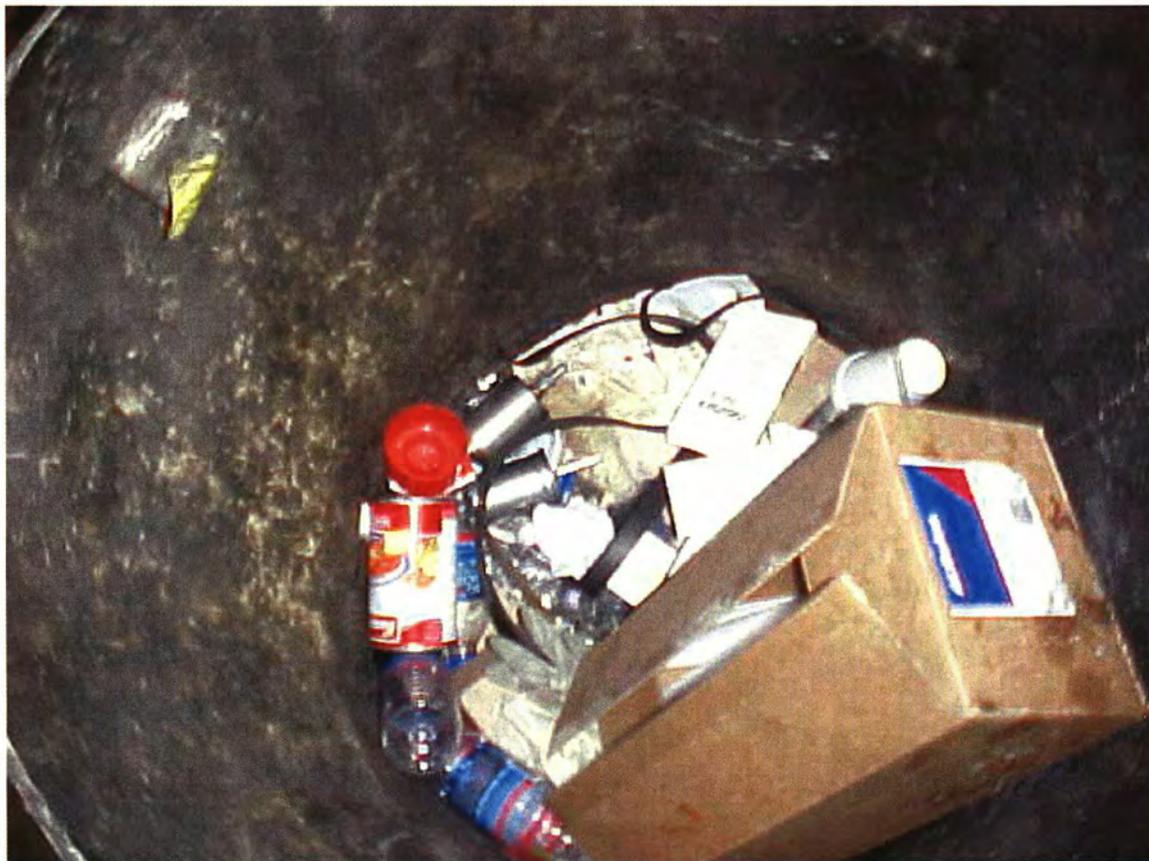

This pallet is on the north side of R and M. There are two empty drums and Safety Kleen solvent. Further to the left is a Used Oil AST.

This is the area used to accumulate waste oil (Tank), used oil filters and antifreeze. Some of the absorbent was saturated. This was cleaned up during inspection.

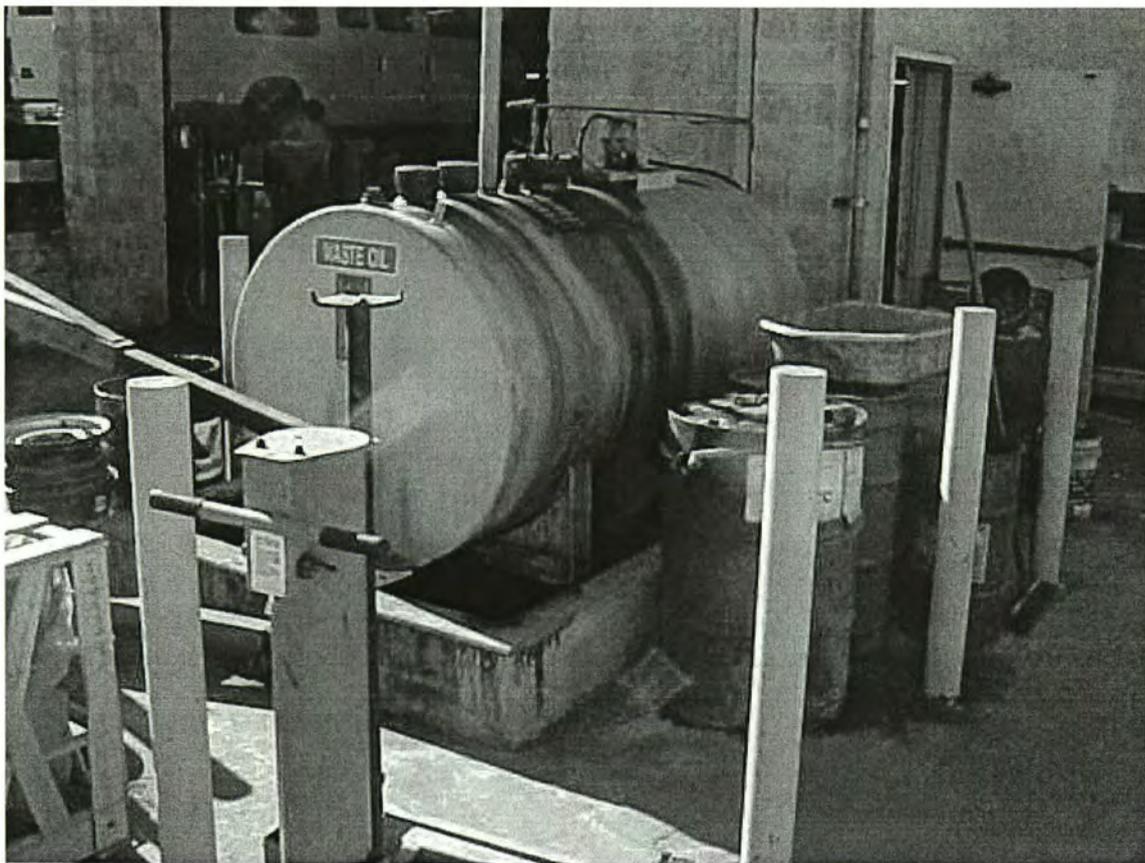

A close up of the waste oil tank and the bermed area with saturated absorbent.

Inside a trash can in the shop, two gas filters were observed. These were removed during the inspection.

Some of the aerosol containers were not completely emptied. They were removed from the trash can during the inspection.

This is the area after clean up.

The area after clean up.

On the above date, an inspection of your business/facility was conducted in order to determine compliance with the California Health and Safety Code (HSC) Chapters 6.5, 6.7, 6.95; Titles 19, 22 and 23 of the California Code of Regulations (CCR); and the San Diego County Code (SDCC). The following remarks are intended to provide guidance to correct the violations noted on the attached violation report.

**NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.**

Routine Inspection

Inspection conducted with Mike Moore, owner.

Remarks:

RECEIVED OCT 02 2006

- A site walkthrough was conducted to verify hazardous materials and wastes onsite.
- The following violation was corrected during the inspection:
  - 2-55 gallon steel drums of used oil filters were missing accumulation start date.
  - 2-55 gallon drums of used/waste antifreeze was missing generator name address and phone#.
- The missing information was written on the hazardous waste containers during the inspection.
- Business Plan available for review.

This is an annual certification that the Hazardous Materials Business Plan (inventory, emergency contacts, emergency response plan, and employee training plan) is current and includes all the information required in the H&SC and is maintained at the site where hazardous materials are stored.

On the above date, an inspection of your business/facility was conducted in order to determine compliance with the California Health and Safety Code (HSC) Chapters 6.5, 6.7, 6.95; Titles 19, 22 and 23 of the California Code of Regulations (CCR); and the San Diego County Code (SDCC). The following remarks are intended to provide guidance to correct the violations noted on the attached violation report.

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

The annual monitoring Certification was conducted today by Jesse KIRK of MIT, ICC # 5317304 - UT; Veeder Root # B33490. Paul Vidakovich was present during the monitoring certification to assist in review of documents.

Observations/Remarks:

- A) The spill container was liquid/debris free; was tested today and passed.
- B) Sensors were placed adequately at low points in sumps and UDCs.
- C) SB989 was conducted on 10/20/08. All components passed except for a failure for the "Piping Run diesel." Be sure to conduct the necessary repairs and send copies of the SCT results and repairs made to HMD.
- D) Be sure to submit the UST plot plan to HMD with the results of the annual monitoring certification testing results.
- E) Updated UST forms will be submitted with today's inspection report.
- F) The audible and visual alarm was functioning properly.
- G) Be advised that universal waste (fluorescent light bulbs, alkaline batteries, non-empty aerosol cans, electronics & more) can no longer go in the regular trash in CA. Visit [www.ilacsd.org](http://www.ilacsd.org) for possible disposal options.

RECEIVED MAR 12 2009

This is an annual certification that the Hazardous Materials Business Plan (inventory & site map, emergency contacts, emergency response plan, and employee training plan) is current and includes all the information required in the H&SC and is maintained at the site where hazardous materials are stored. ## UNIFIED PROGRAM FACILITY PERMIT APPLICATION

- This business or service is required to obtain a Unified Program Facility Permit from the San Diego County Department of Environmental Health. I answered "yes" to one or more of the questions on the "Business Activities" form.

Date assumed business ownership at this location: \_\_\_\_\_

**This permit does not excuse any owner or operator from complying with all applicable federal, state, county or local laws, ordinances or regulations. The owner or operator is required to determine if another permit or approval from any other agency or department is necessary. The County, by issuing this permit, does not relinquish its right to enforce any violation of law.**

- I have determined that this business or service does not require a Unified Program Facility Permit from the San Diego County Department of Environmental Health.

I declare under penalty of perjury that to the best of my knowledge and belief the statements made herein are correct and true. I consent to all necessary inspections allowed by law and incidental to the issuance of required permit(s) and the operation of this business.

**II. SPILL CONTROL AND CLEANUP METHODS**

This plan addresses unauthorized releases from UST systems and supplements the emergency response plans and procedures in the facility's Hazardous Materials Business Plan.

- If safe to do so, facility personnel will take immediate measures to control or stop any release (e.g., activate pump shut-off, etc.) and, if necessary, safely remove remaining hazardous material from the UST system.
- Any release to secondary containment will be pumped or otherwise removed within 24 hours of discovery. Recovered hazardous materials, unless suitable for their intended use, will be managed as hazardous waste.
- Absorbent material will be used to contain and clean up manageable spills of hazardous materials. Absorbent material which has become too saturated to be effective or which is no longer intended for use will be managed as hazardous waste unless a waste determination in accordance with 22 CCR §66262.11 finds that it is non-hazardous. Used absorbent material, reusable or waste, will be stored in a properly labeled and sealed container. Waste material shall be disposed appropriately.
- Facility personnel will determine whether any water removed from secondary containment systems, or from clean-up activity, has been in contact with any hazardous material. If the water is contaminated, it will be managed as hazardous waste unless a waste determination in accordance with 22 CCR §66262.11 finds that it is non-hazardous. If the water has a petroleum sheen (i.e., rainbow colors), it is contaminated. A thick floating petroleum layer may not necessarily display rainbow colors. Water (hazardous or non-hazardous) from sumps, spill containers, etc. will not be disposed to storm water systems.
- We will review secondary containment systems for possible deterioration if any of the following conditions occur:
  1. Hazardous material in contact with secondary containment is not compatible with the material used for secondary containment;
  2. Secondary containment is prone to damage from any equipment used to remove or clean up hazardous material collected in secondary containment;
  3. Hazardous material, other than the product/waste stored in the primary containment system, is placed inside secondary containment to treat or neutralize released product/waste, and the added material or resulting material from such a combination is not compatible with secondary containment.

**III. SPILL CONTROL AND CLEAN-UP EQUIPMENT**

**PERIODIC MAINTENANCE:** Spill control and clean-up equipment kept permanently on-site is listed in the facility's Hazardous Materials Business Plan. This equipment is inspected at least monthly, and after each use, supplies are replenished as needed. Defective equipment is repaired or replaced as necessary.

**EQUIPMENT NOT PERMANENTLY ON-SITE, BUT AVAILABLE FOR USE IF NEEDED:** (Complete only if applicable)

EQUIPMENT	LOCATION	AVAILABILITY
R10	R20	R30
R11	R21	R31
R12	R22	R32
R13	R23	R33
R14	R24	R34
R15	R25	R35

**IV. RESPONSIBLE PERSONS**

**THE FOLLOWING PERSON(S) IS/ARE RESPONSIBLE FOR AUTHORIZING ANY WORK NECESSARY UNDER THIS RESPONSE PLAN:**

NAME	R40	TITLE	R50
JIM THOMAS		OWNER	
GREG LANE		OWNER	
NAME	R42	TITLE	R52
NAME	R43	TITLE	R53

**V. MONITORING INDICATORS**

MONITORING INDICATES A POSSIBLE UNAUTHORIZED RELEASE, STEPS TO VERIFY THE RELEASE WILL BE MADE AS FOLLOWS: R60  
 Additional system testing or data collection     Inspection by qualified persons     Recalibration of equipment     Other (specify):

**COUNTY OF SAN DIEGO CUPA  
DEPARTMENT OF ENVIRONMENTAL HEALTH  
HAZARDOUS MATERIALS DIVISION  
P.O. BOX 129261, SAN DIEGO, CA 92112-9261  
(619) 338-2222 FAX (619) 338-2377  
1-800-253-9933**

**UNDERGROUND STORAGE TANK  
RESPONSE PLAN – PAGE 2**

(One form per facility)

**VI. REPORTING AND RECORD KEEPING**

We will report/record any overflow, spill, or unauthorized release from a UST system as indicated in this plan.

**Recordable Releases:** Any unauthorized release from primary containment which the UST operator is able to clean up within eight (8) hours after the release was detected or should reasonably have been detected, and which does not escape from secondary containment, does not increase the hazard of fire or explosion, and does not cause any deterioration of secondary containment, must be recorded in the facility's monitoring records. Monitoring records must include:

- The UST operator's name and telephone number;
- A list of the types, quantities, and concentrations of hazardous substances released;
- A description of the actions taken to control and clean up the release;
- The method and location of disposal of the released hazardous substances, and whether a hazardous waste manifest was or will be used;
- A description of actions taken to repair the UST and to prevent future releases;
- A description of the method used to reactivate interstitial monitoring after replacement or repair of primary containment.

**Reportable Releases:** Any overflow, spill, or unauthorized release which escapes from secondary containment (or primary containment if no secondary containment exists), increases the hazard of fire or explosion, or causes any deterioration of secondary containment, is a reportable release. Reportable releases are also recordable.

Within 24 hours after a reportable release has been detected, or should have been detected, we will notify the local agency administering the UST program of the release, investigate the release, and take immediate measures to stop the release. If necessary, or if required by the local agency, remaining stored product/waste will be removed from the UST to prevent further releases or facilitate corrective action. If an emergency exists, we will notify the State Office of Emergency Services.

Within five (5) working days of a reportable release, we will submit to the local agency a full written report containing all of the following information to the extent that the information is known at the time of filing the report:

- The UST owner's or operator's name and telephone number;
- A list of the types, quantities, and concentrations of hazardous materials released;
- The approximate date of the release;
- The date on which the release was discovered;
- The date on which the release was stopped;
- A description of actions taken to control and/or stop the release;
- A description of corrective and remedial actions, including investigations which were undertaken and will be conducted to determine the nature and extent of soil, ground water or surface water contamination due to the release;
- The method(s) of cleanup implemented to date, proposed cleanup actions, and a schedule for implementing the proposed actions;
- The method(s) and location(s) of disposal of released hazardous materials and any contaminated soils, groundwater, or surface water.
- Copies of any hazardous waste manifests used for off-site transport of hazardous wastes associated with clean-up activity;
- A description of proposed methods for any repair or replacement of UST system primary/secondary containment systems;
- A description of additional actions taken to prevent future releases.

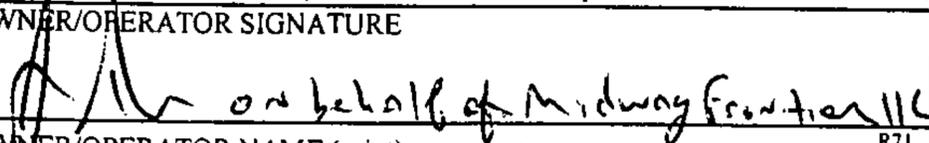

We will follow the reporting procedures described above if any of the following conditions occur:

- A recordable unauthorized release can not be cleaned up or is still under investigation within eight (8) hours of detection;
- Released hazardous substances are discovered at the UST site or in the surrounding area;
- Unusual operating conditions are observed, including erratic behavior of product dispensing equipment, sudden loss of product, or the unexplained presence of water in the tank, unless system equipment is found to be defective and is immediately repaired or replaced, and no leak has occurred;
- Monitoring results from UST system monitoring equipment/methods indicate that a release may have occurred, unless the monitoring equipment is found to be defective and is immediately repaired, recalibrated, or replaced, and additional monitoring does not confirm the initial results.

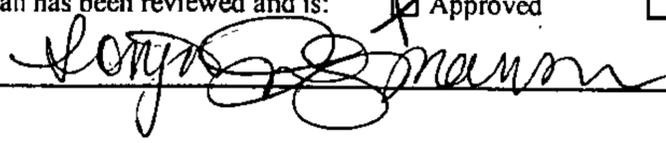

**Record Retention:** Monitoring records and written reports of unauthorized releases must be maintained on-site for at least 3 years. Hazardous waste shipping/disposal records (e.g., manifests) must be maintained for at least 3 years from the date of shipment.

**VII. OWNER/OPERATOR SIGNATURE**

**CERTIFICATION:** I certify that the information provided herein is true and accurate to the best of my knowledge.

This facility has a "Designated UST Operator" who has passed the California UST System Operator Exam administered by the International Code Council (ICC). The "Designated UST Operator" will train facility employees in the proper operation and maintenance of the UST systems annually, and within 30 days of hire. This training will include, but is not limited to, the following:

- > Operation of the UST systems in a manner consistent with the facility's best management practices 490-70
- > The facility employee's role with regard to the monitoring equipment as specified in this UST Monitoring Plan
- > The facility employee's role with regard to spills and overfills as specified in the UST Response Plan
- > Names of contact person(s) for emergencies and monitoring alarms

**X. COMMENTS/ADDITIONAL INFORMATION**

Provide additional comments here or indicate how many pages with additional information on specific monitoring procedures are attached to this plan. 490-71  
 ANNUAL CERT

**XI. PERSONNEL RESPONSIBILITIES**

The UST Owner/Operator is responsible for ensuring that: 1) the daily/routine UST monitoring activities and maintenance of UST leak detection equipment covered by this plan occurs, 2) all conditions that indicate a possible release are investigated, and 3) all monitoring records are maintained properly.

The following person(s) are responsible for performing the monitoring and equipment maintenance:

NAME <u>JIM THOMAS</u> <span style="float:right">490-72</span>	TITLE <u>OWNER</u> <span style="float:right">490-73</span>
--	--

NAME <span style="float:right">490-74</span>	TITLE <span style="float:right">490-75</span>
--	---

The Designated Operator shall perform a monthly visual inspection of the facility, provide a report to the owner/operator, and inform the owner/operator of any conditions that need follow-up action.

**XII. OWNER/OPERATOR SIGNATURE**

CERTIFICATION: I certify that the information provided herein is true and accurate to the best of my knowledge. 490-76

# UNDERGROUND STORAGE TANK MONITORING SYSTEM CERTIFICATION

Permit Number:

209743

## UST Monitoring Site Plan

Site Address: 3520 KURTZ ST SAN DIEGO CA. 92110

Date map was drawn: 12-Sep-07

### Instructions

If you already have a diagram that shows all required information, you may include it, rather than this page, with your Monitoring System Certification. On your site plan, show the general layout of tanks and piping. Clearly identify locations of the following equipment, if installed: monitoring system control panels; sensors monitoring tank annular spaces, sumps, dispenser pans, spill containers, or other secondary containment areas; mechanical or electronic line leak detectors; and in-tank liquid level probes (if used for leak detection). In the space provided, note the date this Site Plan was prepared.

**LETTER FROM CHIEF FINANCIAL OFFICER**

I am the Chief Financial Officer for *Midway, Frontiers LLC*

This letter is in support of the use of the **Underground Storage Tank Cleanup Fund** to demonstrate financial responsibility for taking corrective action and/or compensating third parties for bodily injury and property damage caused by an unauthorized release of petroleum in the amount of at least \$5,000.00 per occurrence and \$5,000.00 annual aggregate coverage.

Underground storage tanks at the following facilities are assured by this letter:

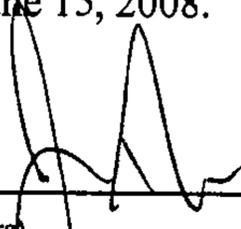

- |  |           |
|--|-----------|
| 1. Amount of annual aggregate coverage being assured by this letter                          | \$ 5000   |
| 2. Total tangible assets   | \$ 100000 |
| 3. Total liabilities   | \$ 50000  |
| 4. Tangible net worth (subtract line 3 from line 2. Line 4 must be at least 10 times line 1) | \$ 50000  |

I hereby certify that the wording of this letter is identical to the wording specified in subsection 2808.1(d)(1), Chapter 18, Division 3, Title 23 of the California Code of Regulations.

I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge and belief.

Executed at 3520 KURTZ ST., SAN DIEGO 92110

On June 15, 2008.

 Sacramento, CA 94244-2120

For State Use Only

## CERTIFICATION OF FINANCIAL RESPONSIBILITY FOR UNDERGROUND STORAGE TANKS CONTAINING PETROLEUM

A. I am required to demonstrate Financial Responsibility in the required amounts as specified in CCR, Title 23 Division 3, Chapter 18, Section 2807:  
 500,000 dollars per occurrence  1 million dollars annual aggregate  
 or AND or  
 1 million dollars per occurrence  2 million dollars annual aggregate

B. **JIM THOMAS** hereby certifies that it is in compliance with the requirements of California Code of Regulations, Title 23, Division 3, Chapter 18, Article 3, Section 2807.  
(Name of tank Owner or Operator)

The mechanisms used to demonstrate financial responsibility as required by Section 2807 are as follows:

C. Mechanism Type	Name and Address of Issuer	Mechanism Number	Coverage Amount	Coverage Period	Corrective Action	Third Party Compensation
State UST Cleanup Fund	State UST Cleanup Fund PO Box 94212	N/A	\$995,000.00	Continuous	Yes	Yes
CFO Letter		N/A	\$5,000.00	Annual	Yes	Yes

Note: If you are using the State Fund as any part of your demonstration of financial responsibility, your execution and submission of this certification also certifies that you are in compliance and shall remain in compliance with all conditions for participation in the Fund.

D. Facility Name <b>MIDWAY FRONTIER</b>	Facility Address <b>3720 KURTZ ST., SAN DIEGO, CA 92110</b>
Facility Name	Facility Address

E. Signature of Tank Owner or Operator 	Date <b>6/15/2008</b>	Name and Title of Tank Owner or Operator <b>JIM THOMAS</b>
Signature of Witness or Notary 	Date <b>6/15/2008</b>	Name of Witness or Notary <b>P. VIDAKOVICH</b>

Submit original to local UST regulatory agency. Keep a copy at each UST facility.

**Subject:** RE: Midway Frontier (3520 Kurtz St) Status #209743

Sonja,

Thank you for your response. FYI I had no test information available so that is why some of the information was left blank with the intention that our company would go out within the next 14 days and conduct the MC/SB989 test. My thought was after we complete the tests I will then be able to enter the equipment information. Does 10/13 work for you would like to complete both tests on the same day. Let me know ASAP.

Jim we will need roughly 800 gals of fuel to conduct the leak detection tests. Also recommend you call Greg after you get fuel delivered ensure Veeder Root is all in operation.

Paul

**Subject:** RE: Midway Frontier (3520 Kurtz St) Status #209743

Dear Mr. Vidakovich,

Re: Midway Frontier, #209743  
3520 Kurtz St.  
San Diego, CA 92110

HMD received your facility's Business Plan packet; however there is still some required information and documents that are missing. Please ensure that you carefully review and address each issue indicated below and promptly re-submit the forms to HMD, by October 7, 2008.

1. A Secondary Containment Testing (SCT) for the tank annular must be conducted every 36 months in addition to Monitoring Certifications that should be conducted annually. Your facility is overdue on these functionality certifications.

The following form should be used to document the SCT results:  
<http://www.co.san-diego.ca.us/deh/hazmat/pdf/hm-9169-03-06.pdf>

This form can be used to document the Monitoring System Certification results: <http://www.sdcounty.ca.gov/deh/hazmat/pdf/hm-9301-03-08.pdf>

Be sure to contact me within the next 7 days to schedule the UST monitoring system certification inspection which is overdue.

2. A UST plot plan must be submitted that shows details of the USTs,

dispensers, sensors and other monitoring devices. The blank form can be found at this link:  
<http://www.co.san-diego.ca.us/deh/hazmat/pdf/hm-9222-c-09-02.pdf>. Please note that the UST plot plan is different than the facility hazardous materials business plan site map (see item # 8 below).

3. The owner operator agreement, HMBP Emergency Response Plan, UST Operating Permit Application- Facility Page all have the wrong permit number; other submitted documents are missing a permit ID number (Facility ID number). Ensure that all submitted documents possess the correct permit number of 209743.

4. Section IV of the UST Monitoring Plan is missing details about the panel and sensor manufacturer, secondary containment space, and equipment model numbers. Section VI of the UST Monitoring Plan is also missing details about the panel and sensor manufacturer and equipment model numbers. Ensure that the documents re-submitted to HMD include this required information.

5. Section V of the UST Monitoring plan (pipe monitoring) was left blank. Ensure that you review section V and check all that apply regarding the pipe monitoring methods.

6. The street name is spelled incorrectly on the UST Operating Permit Application- Facility Page. Also, the BOE number is blank on the same Tank facility form, section V. The second page of this form has information on where to find or how to obtain this number (see box 421):  
<http://www.sdcounty.ca.gov/deh/hazmat/pdf/hm-9715-upcf.pdf>

7. Section II on the UST Operating Permit Application- Tank Information Page is missing some information like tank manufacturer, installation date (see box 433 and 435).

8. The Hazardous Materials Business Plan site map is missing key, required symbols, including the storm drain, fire hydrant, staging area, etc. Please review the required symbols found at the following link and re-submit the completed site map to HMD:  
<http://www.sdcounty.ca.gov/deh/hazmat/pdf/hmbp/09-pages12-13-section-1-site-map-instr-03-07.pdf>

9. The UST certification of financial responsibility is not signed by the witness on the bottom of the page.

Please be sure to HMD the amended legible, original copies of all the documents discussed above. The forms that you originally submitted were not sufficient copies because the forms did not print out completely legible (whited-out in sections).

Please feel free to contact me with any questions.

Thank you,

Subject: Midway Frontier (3520 Kurtz St) Status

John,

Enclosed is the new business plan package you requested in your 5/15/08 letter including financial responsibility and DO paperwork. We are sorry for the delay but the current owners are trying to lease the business, as you know there is no fuel in the tank. We are currently inspecting the UST system monthly, we would like to set up the annual monitoring certification as it should be noted on the monitoring plan I had to guess what the equipment was as I have no previous test results.

Please review the package and let Jim Thomas (858)395-4546 and I know where to proceed from here as Jim would like to obtain the UST facility permit and return the facility to full compliance.

Regards,

Paul

Dear Mr. Vidakovich,

Re: Midway Frontier, #209743  
3520 Kurtz St.  
San Diego, CA 92110

HMD received your facility's Business Plan packet; however there is still some required information and documents that are missing. Please ensure that you carefully review and address each issue indicated below and promptly re-submit the forms to HMD, by October 7, 2008.

1. A Secondary Containment Testing (SCT) for the tank annular must be conducted every 36 months in addition to Monitoring Certifications that should be conducted annually. Your facility is overdue on these functionality certifications.

The following form should be used to document the SCT results:  
<http://www.co.san-diego.ca.us/deh/hazmat/pdf/hm-9169-03-06.pdf>

This form can be used to document the Monitoring System Certification results: <http://www.sdcounty.ca.gov/deh/hazmat/pdf/hm-9301-03-08.pdf>

Be sure to contact me within the next 7 days to schedule the UST monitoring system certification inspection which is overdue.

2. A UST plot plan must be submitted that shows details of the USTs, dispensers, sensors and other monitoring devices. The blank form can be

found at this link:

<http://www.co.san-diego.ca.us/deh/hazmat/pdf/hm-9222-c-09-02.pdf>. Please note that the UST plot plan is different than the facility hazardous materials business plan site map (see item # 8 below).

3. The owner operator agreement, HMBP Emergency Response Plan, UST Operating Permit Application- Facility Page all have the wrong permit number; other submitted documents are missing a permit ID number (Facility ID number).

Ensure that all submitted documents possess the correct permit number of 209743.

4. Section IV of the UST Monitoring Plan is missing details about the panel and sensor manufacturer, secondary containment space, and equipment model numbers. Section VI of the UST Monitoring Plan is also missing details about the panel and sensor manufacturer and equipment model numbers. Ensure that the documents re-submitted to HMD include this required information.

5. Section V of the UST Monitoring plan (pipe monitoring) was left blank. Ensure that you review section V and check all that apply regarding the pipe monitoring methods.

6. The street name is spelled incorrectly on the UST Operating Permit Application- Facility Page. Also, the BOE number is blank on the same Tank facility form, section V. The second page of this form has information on where to find or how to obtain this number (see box 421):

<http://www.sdcounty.ca.gov/deh/hazmat/pdf/hm-9715-upcf.pdf>

7. Section II on the UST Operating Permit Application- Tank Information Page is missing some information like tank manufacturer, installation date (see box 433 and 435).

8. The Hazardous Materials Business Plan site map is missing key, required symbols, including the storm drain, fire hydrant, staging area, etc. Please review the required symbols found at the following link and re-submit the completed site map to HMD:

<http://www.sdcounty.ca.gov/deh/hazmat/pdf/hmbp/09-pages12-13-section-1-site-map-instr-03-07.pdf>

9. The UST certification of financial responsibility is not signed by the witness on the bottom of the page.

Please be sure to HMD the amended legible, original copies of all the documents discussed above. The forms that you originally submitted were not sufficient copies because the forms did not print out completely legible (whited-out in sections).

Please feel free to contact me with any questions.

Thank you,

### FINAL OFFICIAL NOTICE

February 5, 2009

Midway Frontier LLC  
Greg Lane and Jim Thomas  
2223 Avenida De La Playa, suite #108  
La Jolla, CA. 92037

**Re: Permitting Requirement and the Underground Storage Tank (UST) Facility at 3520 Kurtz Street, San Diego, 92110**

Dear Mr. Lane and Thomas:

The County of San Diego Hazardous Materials Division (HMD) issues permits and regulates owners and operators of underground storage tanks (USTs) pursuant to State law and County of San Diego ordinance. The UST system located at 3520 Kurtz Street is subject to State UST requirements and the purpose of this Notice is to provide regulatory guidance to the UST owner and to inform you that your UST facility remains in non-compliance.

The HMD permit for this UST facility is suspended and the County of San Diego HMD is unable to issue a permit because the facility is still in non-compliance. Despite the HMD Inspector's efforts to gain compliance, the UST documentation submitted is deficient. Specifically, the October 2008 UST monitoring equipment certification document sent to the HMD has multiple deficiencies. Additionally, a detailed UST plot plan clearly defining the location of the UST, dispensers, piping, sensors (including models), etc. has not been submitted and the Hazardous Materials Business Plan (HMBP) is incomplete because the site map submitted was missing key information and possessed incorrect data.. We notified the UST designated operator (alternate) about these deficiencies in an E-mail dated 1-15-09 but to date have not received the required corrections to the document. The UST designated operator acknowledged receipt of the County of San Diego's January 15<sup>th</sup> E-mail on 1-16-09.

This UST facility is not in compliance and the following violations are noted:

1. **Failure to obtain a UST facility permit. HSC §25284(a) & §SDCC 68.1003**
2. **Failure to submit a correct and completed UST monitoring equipment certification document. Title 23 CCR §2638 (a) & (d).**
3. **Scaled UST Plot Plan showing tank, piping and equipment location is deficient/incomplete. Title 23 CCR §2711(a)(8) & §2632(d)(1)(C)**
4. **Site map is not sufficient or complete. HSC §25509(a)(5) & §25505(a)(2)**

The violations summarized above are significant and subject to formal enforcement action if not corrected. Within 5 days of receipt of this Notice, correct the violations above. UST facility owners/operators are subject to formal enforcement by the County of San Diego HMD pursuant to HSC §25299(b) which states...any owner of an underground tank system shall be liable for a civil penalty of not less than five hundred dollars (\$500) or more than five thousand dollars (\$5,000) per day, per violation, for each underground storage tank. The accrual of civil or administrative penalties will increase until the UST facility is returned to compliance. Formal enforcement may be initiated if the UST facility violations are not corrected.

A reinspection may be conducted again of your UST facility by the County of San Diego HMD and a reinspection fee of \$232 will be assessed along with the applicable UST facility permitting fees, which has not been invoiced by the department to date. If additional UST violations are observed they can also be cited and formal enforcement action can be initiated.

If you have any questions, please contact me at 858-495-5672. Submit the required documents to my attention within 5 days of receipt of this Notice.

Sincerely,

JOHN MISLEH, Supervisor  
Hazardous Materials Division

Paul,

The UST paperwork is being processed by the County of San Diego staff. The UST owner is required to pay the unified permit fees to the County of San Diego when the fee invoice is issued to them, which should be in the next 30 days, to the owner's address. Fees are explained in the guidance attached.

### UNDERGROUND STORAGE TANK MONITORING SYSTEM CERTIFICATION

Authority Cited: Chapter 6.7, Health and Safety Code; Chapter 16, Division 3, Title 23, California Code of Regulations

This form must be used to document installation, testing and servicing of monitoring equipment. A separate certification or report must be prepared for each monitoring system control panel by the technician who performs the work. A copy of this form must be provided to the tank system owner/operator. The owner/operator must submit a copy of this form to the local agency regulating UST systems within 30 days of test date.

Plan Check Number:

Permit Number: 209743

# UNDERGROUND STORAGE TANK MONITORING SYSTEM CERTIFICATION

## D. Results of Testing/Serviceing

Permit Number: \_\_\_\_\_

Software Version Installed: \_\_\_\_\_

Complete the following checklist:

<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No*	Is the audible alarm operational?
<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No*	Is the visual alarm operational?
<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No*	Were all sensors visually inspected, functionally tested, and confirmed operational?
<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No*	Were all sensors installed at lowest point of secondary containment and positioned so that other equipment will not interfere with their proper operation?
<input type="checkbox"/> Yes	<input type="checkbox"/> No* <input checked="" type="checkbox"/> N/A	If alarms are relayed to a remote monitoring station, is all communications equipment (e.g. modem) operational?
<input type="checkbox"/> Yes	<input type="checkbox"/> No* <input checked="" type="checkbox"/> N/A	For pressurized piping systems, does the turbine automatically shut down if the piping secondary containment monitoring system detects a leak, fails to operate, or is electrically disconnected? If yes: which sensors initiate positive shutdown? (Check all that apply) <input type="checkbox"/> Sump/Trench Sensors; <input type="checkbox"/> Dispenser Containment Sensors. Did you confirm positive shutdown due to leaks and sensor failure/disconnection? <input checked="" type="checkbox"/> Yes; <input type="checkbox"/> No.
<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No* <input type="checkbox"/> N/A	For tank systems that utilize the monitoring system as the primary tank overfill warning device (i.e. no mechanical overfill prevention valve is installed), is the overfill warning alarm visible and audible at the tank fill point(s) and operating properly? If so, at what percent of tank capacity does the alarm trigger? 90%
<input type="checkbox"/> Yes*	<input checked="" type="checkbox"/> No	Was any monitoring equipment replaced? If yes, identify specific sensors, probes, or other equipment replaced and list the manufacturer name and model for all replacement parts in Section E, below.
<input type="checkbox"/> Yes*	<input checked="" type="checkbox"/> No	Was liquid found inside any secondary containment systems designed as dry systems? (Check all that apply) <input type="checkbox"/> Product; <input type="checkbox"/> Water. If yes, describe causes in Section E, below.
<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No*	Was monitoring system set-up reviewed to ensure proper settings? Attach set up reports, if applicable
<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No*	Is all monitoring equipment operational per manufacturer's specifications?

\* In Section E below, describe how and when these deficiencies were or will be corrected.

Comments (500 characters max. add additional sheets if needed):

# UNDERGROUND STORAGE TANK MONITORING SYSTEM CERTIFICATION

**F. In-Tank Gauging / SIR Equipment:**

**Permit Number:**

- Check this box if tank gauging is used only for inventory control
- Check this box if no tank gauging or SIR equipment is installed

This section must be completed if in-tank gauging equipment is used to perform leak detection monitoring.

Complete the following checklist:

<input type="checkbox"/> Yes	<input type="checkbox"/> No*	Has all input wiring been inspected for proper entry and termination, including testing for ground faults?
<input type="checkbox"/> Yes	<input type="checkbox"/> No*	Were all tank gauging probes visually inspected for damage and residue buildup?
<input type="checkbox"/> Yes	<input type="checkbox"/> No*	Was accuracy of system product level readings tested?
<input type="checkbox"/> Yes	<input type="checkbox"/> No*	Was accuracy of system water level readings tested?
<input type="checkbox"/> Yes	<input type="checkbox"/> No*	Were all probes reinstalled properly?
<input type="checkbox"/> Yes	<input type="checkbox"/> No*	Were all items on the equipment manufacturer's maintenance checklist completed?

\* In Section H below, describe how and when these deficiencies were or will be corrected.

**G. Line Leak Detectors (LLD):**

Check this box if LLDs are not installed.

Complete the following checklist:

<input type="checkbox"/> Yes	<input type="checkbox"/> No* <input type="checkbox"/> N/A	For equipment start-up or annual equipment certification, was a leak simulated to verify LLD performance? (Check all that apply) Simulated leak rate: <input type="checkbox"/> 3 g.p.h.; <input type="checkbox"/> 0.1 g.p.h.; <input type="checkbox"/> 0.2 g.p.h.
<input type="checkbox"/> Yes	<input type="checkbox"/> No*	Were all LLDs confirmed operational and accurate within regulatory requirements?
<input type="checkbox"/> Yes	<input type="checkbox"/> No*	Was the testing apparatus properly calibrated?
<input type="checkbox"/> Yes	<input type="checkbox"/> No* <input type="checkbox"/> N/A	For mechanical LLDs, does the LLD restrict product flow if it detects a leak?
<input type="checkbox"/> Yes	<input type="checkbox"/> No* <input type="checkbox"/> N/A	For electronic LLDs, does the turbine automatically shut off if the LLD detects a leak?
<input type="checkbox"/> Yes	<input type="checkbox"/> No* <input type="checkbox"/> N/A	For electronic LLDs, does the turbine automatically shut off if any portion of the monitoring system is disabled or disconnected?
<input type="checkbox"/> Yes	<input type="checkbox"/> No* <input type="checkbox"/> N/A	For electronic LLDs, does the turbine automatically shut off if any portion of the monitoring system malfunctions or fails a test?
<input type="checkbox"/> Yes	<input type="checkbox"/> No* <input type="checkbox"/> N/A	For electronic LLDs, have all accessible wiring connections been visually inspected?
<input type="checkbox"/> Yes	<input type="checkbox"/> No*	Were all items on the equipment manufacturer's maintenance checklist completed?

\* In Section H below, describe how and when these deficiencies were or will be corrected.

---

**From:** Ingmanson, Sonja  
**Sent:** Tuesday, August 18, 2009 8:33 AM  
**To:** 'CPM'  
**Cc:** Misleh, John  
**Subject:** RE: 3520 Kurtz St.  
**Attachments:** MidwayFrontier209743.pdf

Tracey,

Proper waste classifications need to be made by the generator (Midway Frontier) for the contents of drums and containers pictured in the photos attached to this email (per CCR §66262.11).  
[http://www.dtsc.ca.gov/LawsRegsPolicies/Title22/upload/OEARA\\_REG\\_Title22\\_Ch12\\_Art11.pdf](http://www.dtsc.ca.gov/LawsRegsPolicies/Title22/upload/OEARA_REG_Title22_Ch12_Art11.pdf)). If the waste is deemed hazardous, then have it properly managed by a State DTSC registered waste transporter, and send copies of the waste disposal manifests to HMD. The definition of a 'generator' is found in CCR 66260.10 .... "Generator" or "Producer" means any person, by site, whose act or process produces hazardous waste identified or listed in chapter 11 of this division or whose act first causes a hazardous waste to become subject to regulation.

Under County of San Diego ordinance, a person would need to obtain a permit from the County of San Diego Hazardous Materials Division if they store hazardous waste at the site or hazardous materials in quantities equal to or greater than 55 gallons. This site does not have a HMD permit and there are non-empty hazmat containers still stored on the property. County codes weblink: [http://www.amlegal.com/sandiego\\_county\\_ca/](http://www.amlegal.com/sandiego_county_ca/) SEC. 68.905. UNIFIED PROGRAM FACILITY PERMIT REQUIRED. No person shall operate a unified program facility as defined in the California Health and Safety Code, Division 20, Chapter 6.11 .... without first obtaining a unified program facility permit with the applicable permit elements from the Director of the Department of Environmental Health. Any person who operates a unified program facility or generates, stores, transfers or disposes of medical waste without first obtaining a unified program facility permit from the Director of the Department of Environmental Health shall cease operations and shall be guilty of a misdemeanor punishable by a \$1,000 fine or 6 months in prison or both. The County may also impose civil penalties against the person in the amount of \$1,000 per violation and may seek injunctive relief if the person refuses to cease operation.

Please be advised that according to 22 CCR section 66260.200(c), it is the waste generator's responsibility to determine if the waste is classified as a hazardous waste pursuant to section 66260.200(a). If the generator determines that the waste is hazardous, the waste shall be managed pursuant to the provisions of this division. If the generator determines that the waste is nonhazardous, the generator, except as provided for in section 66260.200(f), may either proceed to manage the waste as nonhazardous or apply to the Department for concurrence with the nonhazardous determination through the notification procedure set forth in section 66260.200(d) before managing the waste as nonhazardous. A generator who incorrectly determines that a hazardous waste is nonhazardous and fails to manage the waste pursuant to the provisions of this division is in violation of the requirements of this division and is subject to enforcement action.

The appropriate protocols for evaluating wastes are contained in Chapter 11, 22 CCR. If the waste fails one or more of the criteria in Chapter 11, then it is classified as a hazardous waste and must be managed as such.  
<http://www.dtsc.ca.gov/LawsRegsPolicies/Title22/index.cfm>

Hazardous wastes must be transported only by State registered hazardous waste haulers to a State-permitted treatment, storage, or disposal facility (TSDF). These transporters (haulers) are registered by the State Department of Toxic Substances Control and California Highway Patrol. Visit the California Department of Toxic Substances Control web site at <http://www.dtsc.ca.gov/HazardousWaste/Transporters/index.cfm> or call the HMD at (619) 338-2231 to request a partial listing of registered haulers serving the San Diego County area. Hazardous waste must be packaged and labeled for transport in accordance with applicable Department of Transportation regulations.

Please keep me informed as to the actions you will take to properly dispose of hazardous waste at the property in addition to a timeline; a copy of the disposal documentation will also need to be provided to me.

8/18/2009

Feel free to contact me if you have additional questions.

**To:** Ingmanson, Sonja  
**Subject:** RE: 3520 Kurtz St.

Hi Sonia,

Thank you for your email.

Would you please reiterate the information you gave me over the phone earlier this week about what needs to be done at this property? Please site the codes that this issue relates to so we can pass this information on to our people that make the decisions regarding this property.

Also you mentioned that the underground storage tank needed to be in compliance before it was removed on July 1, 2009 and that this invoice from DEH is for that compliance. The invoice states that the permit renewal period is 6/30/09 – 6/30/10. Since the tanks were removed 7/1/09 are we required to pay this permit for 1 day? Is there a proration?

Thank you,  
Tracey Pedersen

Hi Tracy,

Attached to this message are photos of drums and containers observed onsite at 3520 Kurtz St. on 8/6/09.

Feel free to call or email me if you have additional questions.

Thanks,

**Subject:** FW: Midway Frontier Status

Sonja,

As you can see from my 12/31/08 email at that time I thought I had provided you all the missing information in fact as you can read below I stated "Please let me know what the next steps are in obtaining a operating permit". I submitted all the missing information then. Today is 1/16/09 and looks like there is now "10" additional new items with 5 days to resolve. I will make every attempt to close these items out with those 5 days however I would appreciate in the future the same response time you give me which in this case was almost 3 weeks. Also I have no idea of the tank install date and tank mfr and for the nearly 100 bus plans I have provided I have never been requested that fro other inspectors. I would think you have a database, there if you know those two items please provide as I new owners have no idea.

Sonja,

Jesse replaced the test boot inside the dispenser. The boot was replaced which does not require a permit as we checked with DEH before changing out.

Regards,

Paul

Mr. Vidakovich,

Were repairs made to the secondary containment of the piping? Why did the test fail initially and pass on 12/8/08? I need any and all information regarding repairs that were made.

Thank you,

2/25/2009

Sonja,

Enclosed are the SB989 retest results, monitoring cert and revised O/O agreement (last page of SCT results). Concerning your question regarding waste the station is not in operation currently so there are no waste at this time. Please let me know if you have additional questions we are continuing to conduct the monthly DO inspections. Please let me know what the next steps are in obtaining a operating permit.

Paul

**To:** Paul Vidakovich  
**Cc:** Misleh, John; Rapista, Robert  
**Subject:** RE: Midway Frontier Status

Dear Mr. Vidakovich,

You need to submit the Monitoring Certification results report ASAP since it is overdue. The regulations require 30 day submittal and the facility is overdue.

If a repair is made to the secondary containment of the piping, a repair permit may be needed to be obtained from the HMD before repairs are made. What exactly is wrong with the piping penetration fitting? Below is the note from the SCT testing done in October 2008. There was no mention from the SCT Tester about penetration issues causing the SCT piping failed test?

**Subject:** RE: Midway Frontier Status

Thanks Sonja,

Waste "when" the station is in operation would consist of testing water, water found in sumps that may occur a result of rains, absorbent if there were spills

Repairs will/should be limited to penetration fittings will know tomorrow, MC results will be submitted with SB989 retest

Will redo O/O agreement and Tank page as there is only Diesel there at this time.

Paul

Dear Mr. Vidakovich,

Yes, please do call me today to elaborate further on the *past due* annual monitoring certification forms and secondary containment testing repair issue? Please provide me with the following:

- A.) What repairs have been made to remedy the failed component issues identified in the initial secondary containment testing? Please be specific.
- B.) The Monitoring System Certification was due on 11/22/08. Those forms need to be submitted to HMD immediately.
- C.) Are you generating hazardous waste at this facility? You indicated "yes" on the HMD Business Activities form (form HM-9701), that you are generating hazardous waste. Please elaborate what wastes and types?
- D.) On the UST Owner/Operator Agreement document, section 25399, Chapter 6.7, California Health and Safety Code, is mentioned, however this is an incorrect reference. The correct section to reference is section 25299. Please correct this and resubmit the updated form.
- E.) On the UST secondary containment testing form submitted with your email, it was indicated that the stored product in the UST is diesel, whereas in your submitted UST Operating facility permit application- Tank Information form (HM-9717), you indicated that the tank contains Regular Unleaded gasoline. Please verify, fix and resubmit forms to reflect the correct contents of the UST.

2/25/2009

Hi Sonja,

Here is the SB989 results we are doing the retest tomorrow. I will also enclose the monitoring cert results. We have been conducting the monthly designated operator the owner is still trying to lease the business. I will call you for further items to resolve.

Paul

**Subject:** RE: Midway Frontier Status

Mr. Vidakovich,

There are still many deficiencies in the UST related paperwork submitted, that needs to be addressed immediately. They are described below. The UST owner/operator has a UST system that is owned without the required facility permit and a UST facility permit cannot be issued until all the deficiencies are corrected and documented. If the UST owner/operator fails to have the deficiencies corrected, then formal enforcement action can be initiated in accordance with State law for failing to have a UST facility permit and other application UST code violations.

Deficiencies:

1. There was no UST system set-up report attached to the in the 10-22-08 UST monitoring system certification report, however the box was checked in Section C, falsely indicating that it was attached. It needs to be attached to the monitoring system certification report.
2. The site map provided says that there is a 20,000 gallon aboveground storage tank (AST) of gasoline (paperwork says diesel) and a 500 gallon AST of waste oil. The map submitted is incorrect. Refer to this website to ensure that symbols on the site map *accurately* reflect what is at the facility: <http://www.sdcounty.ca.gov/deh/hazmat/pdf/hmbp/10-pages-14-15-section-2-map-symbols-and-sample-03-07.pdf>
3. Section B of the monitoring certification lists other types of fuels and waste oil. These need to be removed from the form to prevent confusion as to what USTs are at the site.
4. Section B model number for the 'stand alone sensor' in the fuel dispenser section is missing. Dispenser information for the second dispenser is missing.
5. Verify the other sensors listed in Section B to ensure that those are in fact the model numbers installed.
6. In questions 4 and 5, 'yes' is marked for both mechanical and electronic leak detectors, however this is a suction system. The form needs to be redone and be correct. There are obvious problems with how Section G was completed.
7. The monitoring certification field work was done on 10-22-08 with the HMD inspector at the site, but the report submitted by you says 10-20-08. The report needs to reflect the correct date, technician doing the work, signature, and final results. Correct the reports and submit to the HMD in 5 days.
8. The monitoring report has no site address listed in Section A. It needs to have the correct site address. Resubmit the corrected reports in five day to the HMD, attention Sonja Ingmanson.
9. An adequate plot plan still has not yet been submitted, despite previous requests. The plot plan is different than the site map. The plot plan must clearly define the location of the UST, dispensers, piping, sensors (including models), etc. Here is the blank form that must be used, that includes what elements are required on the plan: <http://www.sdcounty.ca.gov/deh/hazmat/pdf/hm-9222-c-09-02.pdf>
10. Information has still not been submitted regarding the Tank manufacturer and installation date in Section II on the UST Operating Permit Application- Tank Information Page (box 433 and 435).

Within 5 days resubmit the corrected forms and attached supporting documents. A reinspection fee of \$232.00 may be charged to the UST owner/operator if the HMD does a re-inspection of the UST facility in the next few weeks if we do not receive the corrected documents.

Dear Mr. Vidakovich,

You need to submit the Monitoring Certification results report ASAP since it is overdue. The regulations require 30 day submittal and the facility is overdue.

If a repair is made to the secondary containment of the piping, a repair permit may be needed to be obtained from the HMD before repairs are made. What exactly is wrong with the piping penetration fitting? Below is the note from the SCT testing done in October 2008. There was no mention from the SCT Tester about penetration issues causing the SCT piping failed test?

Sonja,

Thank you for your response. FYI I had no test information available so that is why some of the information was left blank with the intention that our company would go out within the next 14 days and conduct the MC/SB989 test. My thought was after we complete the tests I will then be able to enter the equipment information. Does 10/13 work for you would like to complete both tests on the same day. Let me know ASAP.

Jim we will need roughly 800 gals of fuel to conduct the leak detection tests. Also recommend you call Greg after you get fuel delivered ensure Veeder Root is all in operation.

Paul

Dear Mr. Vidakovich,

Re: Midway Frontier, #209743  
3520 Kurtz St.  
San Diego, CA 92110

HMD received your facility's Business Plan packet; however there is still some required information and documents that are missing. Please ensure that you carefully review and address each issue indicated below and promptly re-submit the forms to HMD, by October 7, 2008.

1. A Secondary Containment Testing (SCT) for the tank annular must be conducted every 36 months in addition to Monitoring Certifications that should be conducted annually. Your facility is overdue on these functionality certifications.

The following form should be used to document the SCT results:  
<http://www.co.san-diego.ca.us/deh/hazmat/pdf/hm-9169-03-06.pdf>

This form can be used to document the Monitoring System Certification results: <http://www.sdcounty.ca.gov/deh/hazmat/pdf/hm-9301-03-08.pdf>

Be sure to contact me within the next 7 days to schedule the UST monitoring system certification inspection which is overdue.

2. A UST plot plan must be submitted that shows details of the USTs, dispensers, sensors and other monitoring devices. The blank form can be

RE Midway Frontier (3520 Kurtz St) Status #209743fromPaul.txt  
found at this link:  
<http://www.co.san-diego.ca.us/deh/hazmat/pdf/hm-9222-c-09-02.pdf>. Please  
note that the UST plot plan is different than the facility hazardous  
materials business plan site map (see item # 8 below).

3. The owner operator agreement, HMBP Emergency Response Plan, UST  
Operating  
Permit Application- Facility Page all have the wrong permit number; other  
submitted documents are missing a permit ID number (Facility ID number).  
Ensure that all submitted documents possess the correct permit number of  
209743.

4. Section IV of the UST Monitoring Plan is missing details about the panel  
and sensor manufacturer, secondary containment space, and equipment model  
numbers. Section VI of the UST Monitoring Plan is also missing details  
about  
the panel and sensor manufacturer and equipment model numbers. Ensure that  
the documents re-submitted to HMD include this required information.

5. Section V of the UST Monitoring plan (pipe monitoring) was left blank.  
Ensure that you review section V and check all that apply regarding the pipe  
monitoring methods.

6. The street name is spelled incorrectly on the UST Operating Permit  
Application- Facility Page. Also, the BOE number is blank on the same Tank  
facility form, section V. The second page of this form has information on  
where to find or how to obtain this number (see box 421):  
<http://www.sdcounty.ca.gov/deh/hazmat/pdf/hm-9715-upcf.pdf>

7. Section II on the UST Operating Permit Application- Tank Information Page  
is missing some information like tank manufacturer, installation date (see  
box 433 and 435).

8. The Hazardous Materials Business Plan site map is missing key, required  
symbols, including the storm drain, fire hydrant, staging area, etc. Please  
review the required symbols found at the following link and re-submit the  
completed site map to HMD:  
<http://www.sdcounty.ca.gov/deh/hazmat/pdf/hmbp/09-pages12-13-section-1-site-m>  
ap-instr-03-07.pdf

9. The UST certification of financial responsibility is not signed by the  
witness on the bottom of the page.

Please be sure to HMD the amended legible, original copies of all the  
documents discussed above. The forms that you originally submitted were not  
sufficient copies because the forms did not print out completely legible  
(whited-out in sections).

Please feel free to contact me with any questions.

Thank you,

John,

Enclosed is the new business plan package you requested in your 5/15/08 letter including financial responsibility and DO paperwork. We are sorry for the delay but the current owners are trying to lease the business, as you know there is no fuel in the tank. We are currently inspecting the UST system monthly, we would like to set up the annual monitoring certification as it should be noted on the monitoring plan I had to guess what the equipment was as I have no previous test results.

Please review the package and let Jim Thomas (858)395-4546 and I know where to proceed from here as Jim would like to obtain the UST facility permit and return the facility to full compliance.

Regards,

Paul

Dear Client:

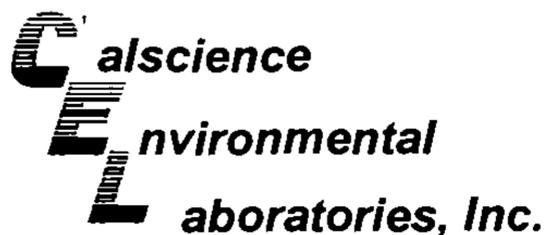

Enclosed is an analytical report for the above-referenced project. The samples included in this report were received 7/1/2009 and analyzed in accordance with the attached chain-of-custody.

Unless otherwise noted, all analytical testing was accomplished in accordance with the guidelines established in our Quality Systems Manual, applicable standard operating procedures, and other related documentation. The original report of subcontracted analysis, if any, is provided herein, and follows the standard Calscience data package. The results in this analytical report are limited to the samples tested and any reproduction thereof must be made in its entirety.

If you have any questions regarding this report, please do not hesitate to contact the undersigned.

Sincerely,

Calscience Environmental  
Laboratories, Inc.  
Ranjit Clarke

<u>Qualifier</u>	<u>Definition</u>
*	See applicable analysis comment.
1	Surrogate compound recovery was out of control due to a required sample dilution, therefore, the sample data was reported without further clarification.
2	Surrogate compound recovery was out of control due to matrix interference. The associated method blank surrogate spike compound was in control and, therefore, the sample data was reported without further clarification.
3	Recovery of the Matrix Spike (MS) or Matrix Spike Duplicate (MSD) compound was out of control due to matrix interference. The associated LCS and/or LCSD was in control and, therefore, the sample data was reported without further clarification.
4	The MS/MSD RPD was out of control due to matrix interference. The LCS/LCSD RPD was in control and, therefore, the sample data was reported without further clarification.
5	The PDS/PDSD associated with this batch of samples was out of control due to a matrix interference effect. The associated batch LCS/LCSD was in control and, hence, the associated sample data was reported with no further corrective action required.
A	Result is the average of all dilutions, as defined by the method.
B	Analyte was present in the associated method blank.
C	Analyte presence was not confirmed on primary column.
E	Concentration exceeds the calibration range.
H	Sample received and/or analyzed past the recommended holding time.
J	Analyte was detected at a concentration below the reporting limit and above the laboratory method detection limit. Reported value is estimated.
ME	LCS Recovery Percentage is within LCS ME Control Limit range.
N	Nontarget Analyte.
ND	Parameter not detected at the indicated reporting limit.
Q	Spike recovery and RPD control limits do not apply resulting from the parameter concentration in the sample exceeding the spike concentration by a factor of four or greater.
U	Undetected at the laboratory method detection limit.
X	% Recovery and/or RPD out-of-range.
Z	Analyte presence was not confirmed by second column or GC/MS analysis. Solid - Unless otherwise indicated, solid sample data is reported on a wet weight basis, not corrected for % moisture.

Date: June 1, 2009  
Expiration Date: June 1, 2010

### Permit for Underground Storage Tank Construction/Closure

SITE NAME: Cloud 9 Shuttle  
SITE ADDRESS: 3520 Kurtz St, San Diego, CA 92110  
OWNER NAME: Midway Frontier  
OWNER ADDRESS: SAME

DESCRIPTION OF PROPOSED WORK: Remove one (1) 20K Underground Storage Tank and all associated piping and two (2) UDCs; conduct soil sampling.

In accordance with SDCC Ordinance Title 6, Chapter 10, Section 68.1004 (b), UST must be removed within 180 days of permit approval. The deadline to remove USTs is November 15, 2009.

PERMIT CONDITIONS: For tank systems that are to be removed, the excavation shall be exposed prior to the scheduled inspection and sampling points identified by the DEH inspector. Sampling is required for both tank(s) and piping. The tank(s) and piping must remain in the excavation until the DEH inspector approves the removal.

1. All piping/UDCs (if applicable) and underground storage tank must be removed at the same time. Failure to do so will result in a re-inspection and \$700.00 re-inspection fee.
2. At least one sample must be analyzed for MTBE and related oxygenates (DIPE, TAME, ETBE, TBA) using EPA Method 8260B (OR AS DIRECTED BY THE DEH SAM INSPECTOR ONSITE).
3. Certificate of Disposal/manifests are required for the tank(s).
4. Forms HM-9715 (Formerly Form A) and HM-9717 (Formerly Form B) are required to be submitted.

**Please be advised:**

All components of the underground storage tank system that are to be removed must be cleaned and properly inerted prior to the removal. Failure to have the tank properly cleaned will result in the cancellation of the removal and will require a re-inspection and \$700.00 fee.

- 1) The tank is visually free from all product, sludge, rinsate and debris. Residual staining caused by soil and waste consisting of light shadows, slight streaks, or minor discolorations, and soil and waste in cracks, crevices and pits may be present.
- 2) Tanks that held a Hazardous material or hazardous waste that had the potential to generate flammable vapors, must be properly inerted. A combustible gas indicator (CGI), which is properly calibrated, shall be used to measure the concentration of flammable vapor at the top, center and bottom of the underground storage tank. The concentration of flammable vapor must be below twenty percent of the Lower Explosive Limit (LEL) for the material that was contained in the tank(s) and the oxygen concentration shall be the same as that of ambient air, approximately 20.8%. The underground storage tank(s) must inerted with dry ice using a minimum of 15 pounds for every 1000 gallons of tank capacity.

**NOTE:**

A \$119.00 per hour fee will be applied by the EHS if an inspection activity exceeds 4 hours. Inspection activities include, but are not limited to, field inspections, paperwork review and travel time.

This office must be given at least 48 hours notice for all required Underground Storage Tank Activity. Please call at (619) 338-2214 to schedule an appointment. For cancellations, please call (619) 237- 8451.

THIS PERMIT DOES NOT EXCUSE ANY OWNER OR OPERATOR FROM COMPLYING WITH ALL APPLICABLE FEDERAL, STATE, COUNTY OR LOCAL LAWS, ORDINANCES OR REGULATIONS. THE OWNER OR OPERATOR IS REQUIRED TO DETERMINE IF ANOTHER PERMIT OR APPROVAL FROM ANY OTHER AGENCY OR DEPARTMENT IS NECESSARY. THE COUNTY, BY ISSUING THIS PERMIT, DOES NOT RELINQUISH RIGHT TO ENFORCE ANY VIOLATION OF LAW

Use reverse side to list additional USTs to be closed

Has the tank system ever failed or leaked?  YES     NO     UNKNOWN

If tanks are to be closed in place, please submit alternative closure work plan describing:

Previous Owner or Operator:

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

- Reason/justification for closure in place
- Soil sampling plan
- Inert material to be used to fill UST

**WORK PLAN FOR UST CLOSURE**

1. Describe the existing land use in the surrounding area (residential, commercial, schools). Describe the locations of nearest receptors and the prevailing wind.  
COMMERCIAL AND LIGHT INDUSTRIAL

2. Explain how the excavation will be secured. Describe fencing/site security and other methods that ensure public safety.  
ORANGE CONSTRUCTION FENCING WITH STAKES PLACED AT EIGHT FOOT INTERVALS WILL SURROUND EXCAVATION.

3. If soil is to be stockpiled, describe the location on the Plan Check map. Describe method of soil containment (berming/covers, run-off control).  
EXCAVATED MATERIALS WILL BE PLACED ON AND COVERED WITH (10 MIL) PLASTIC SHEETING. A SOIL BEAM WILL BE CONSTRUCTED.

4. Do you plan to conduct site assessment or remedial work beyond what is necessary to remove the UST(s) and perform the mandatory soil sampling required by the DEH Site Assessment and Mitigation Program (SAM)?     Yes     No

If Yes, a Workplan for Post-Tank Removal Investigation must be completed under the direction of a registered professional.

**DISPOSAL LOCATION (Plans will be disapproved without this information)**

SITE NAME	ADDRESS	CITY	ZIP
PACIFIC COAST RECYCLE	3055 COMMERCIAL ST	SAN DIEGO	92113-

**DECLARATION**

I declare that to the best of my knowledge and belief, the statements and information provided are correct and true. I understand that information in addition to that provided above may be needed in order to obtain final approval by the Department of Environmental Health (DEH).

I understand that tests and procedures that may be required by other departments and agencies to demonstrate adequate site safety or suitability for further development (e.g. soil compaction testing) are in addition to the requirements of the Department of Environmental Health (DEH).

I will notify the Department of Environmental Health (DEH) at least two working days (48 hours) before work is to begin in order to schedule the required inspections. I understand that site and worker safety are solely the responsibility of the property owner or his agent and that this responsibility is not shared or assumed by the County of San Diego.

RE: Revised - UNDERGROUND STORAGE TANK (UST) REMOVAL PROJECT – Scope of Work and Budgetary Quotation to Remove one (1) existing 20,000-gallon UST System at the Midway Frontier Facility located at 3520 Kurtz St. San Diego, CA 92110

Western Pump, Inc. is pleased to offer the following quotation:

### **SCOPE of WORK:**

- Submit plans and fees to obtain Permits from the County of San Diego Department of Environmental Health (DEH), and City of San Diego Fire Department.
- Prepare Work Plan for UST Closure.
- Schedule all required DEH and Fire Inspections.
- Set-up Barricades, Delineators, and Construction Fencing as needed for a safe work environment prior to start.
- Decommission all Fuel System Electrical.
- Drain-back all residual Fuels into the existing UST.
- Remove and properly dispose of two (2) existing Gasoline Fuel Dispenser and associated Hardware.
- Break-out and remove 8" thick Concrete (up to 800-s.f.) including one (1) Tank Slab, one (1) Piping Trench, and one (1) Fuel Island.
- Excavate to expose the existing UST and associated Piping Systems (excludes any/all Shoring or De-watering).
- Stockpile all excavated soils in an approved location on-site within 50-l.f. from excavation.
- Obtain up to six (6) Soil Samples at DEH direction and transport to a laboratory for analysis (standard 7-10 day turn-around time).
- Triple-rinse and clean one (1) 20,000-gallon UST, one (1) Product Piping System, one (1) Vapor Piping System, (1) Vent Piping System and one 500 gallon waste above ground tank.
- Compile all Waste Manifest Documents per local regulatory requirements and obtain owner signature.
- Inert the UST with dry ice per Fire Department requirements.
- Cut, remove, and properly dispose of all UST Product, Vapor and Vent Piping Systems.
- Cut, remove, and properly dispose of all Compressed Air and Water Piping located within the excavated area.
- Remove and properly dispose of one (1) existing 20,000-gallon single-compartment double-wall Steel UST and associated piping systems per local regulatory requirements.
- Backfill the tank excavation and piping trench to sub-grade with excavated soils and additional aggregate backfill materials (excludes any/all Certified Compaction Testing or Reports).
- Patch-back with 6" of Asphalt Paving (up to 800-s.f.)
- Clean up all trash and debris caused by our work.
- Provide owner with copies of Permits, Waste Manifests, UST Closure Report, Inspection Reports, Certificate of Disposal and Waste Manifest.

## COMPLIANCE INSPECTION REPORT

EST. NUMBER H B308DATE 4/8/02PAGE 3 OF 3BUSINESS ADDRESS: 2777 Health Center Dr SD 92123

VIOLATION REPORT: The items checked below refer to specific section numbers of Titles 19/22/23 of the California Code of Regulations (CCR), Chapters 6.5, 6.7, 6.95 of the Health and Safety Code (HSC), and/or the San Diego County Code (SDCC).

### I HAZARDOUS WASTE REQUIREMENTS:

#### RECORD KEEPING

- Health Permit not obtained SDCC 68.905 **V0108 W**
- No EPA Identification Number 66262.12 **V0105 W**
- Waste Manifests/Receipts not on-site for 3 years 66262.40 **V0118 W**
- Manifest not properly completed 66262.23 **V0120 W**
- Manifest copy not sent to DTSC 66262.23 **V0115 W**
- TSDf signed-manifest not on-site 66262.40 **V0121 W**
- Biennial report not sent to DTSC 66262.41 **V0122 W**
- LDR Documentation not available 66268.7 **V0123 W**
- Exception Rpt. not filed with DTSC 66262.42 **V0116 W**
- Operating TSDf without authorization 25201 **V0124 W**

#### STORAGE AND HANDLING

- Waste stored longer than 90, 180, or 270 days 66262.34 **V0221 W**
- Failure to clean up hazwaste off of floor surface 66262.10b **V0313 W**
- Waste container missing/improperly labeled 66262.34 **V0222 W**
- Haz Materials not properly labeled 25124 **V0223 W**
- Waste container not kept closed 66265.173 **V0202 W**
- Waste container in poor condition 66265.171 **V0205 W**
- Waste container(s) not properly managed 66265.173 **V0210 W**
- Damaged container not repackaged 66265.171 **V0226 W**
- Container incompatible with waste 66265.172 **V0207 W**
- Incompatibles in the same container 66265.177 **V0224 W**
- Incompatibles not stored separately 66265.177 **V0213 W**
- Ignitable Waste less than 50 feet 66265.176 **V0214 W**
- Ignitable Waste not grounded 66265.31 **V0215 W**
- Storage area not inspected weekly 66265.174 **V0216 W**

#### DISPOSAL AND TRANSPORTATION

- Unauth. disposal of waste to 25189.5 **V0313 W**
- Waste determination not made 66262.11 **V0319 W**
- Unlawful transport of haz. waste 25163 **V0315 W**
- Waste transported without manifest 66262.20 **V0316 W**
- Extremely Haz Waste Permit not obtained 25205.7 **V0317 W**

#### TRAINING, CONTINGENCY PLAN & EMERGENCY PROCEDURES

- Training records unavailable 66265.16 **V0405 W**
- Training program not adequate 66265.16 **V0406 W**
- Facility not designed to minimize release 66265.31 **V0501 W**
- Spill control equip not available 66265.32 **V0508 W**
- Aisle space is obstructed 66265.35 **V0509 W**
- Contingency plan not prepared and/or on file 66265.51, 66265.53 **V0609 W**

#### MISCELLANEOUS

- Waste oil contaminated 25250.7 **V0225 W**
- Used oil filters improperly managed 66266.130 **V0701 W**
- Damaged batteries improperly managed 66266.81 **V0702 W**
- Facility has failed to notify local CUPA and DTSC of onsite treatment of hazardous waste (tiered permitting) **V0125 W**
- Onsite treatment of waste without authorization 25201 **V0125 W**

### III HAZARDOUS MATERIALS BUSINESS PLAN REQUIREMENTS:

#### RECORD KEEPING

- Health Permit not obtained SDCC 68.1105 **V2001 W**
- Business Plan not established/implemented 25503.5 **V2002 W**
- Business Plan not submitted to HMMD 25505 **V2007 W**
- Business Plan not amended 25505 **V2003 W**
- Personnel Training Records not available 19 CCR 2732 **V2302 W**

#### RELEASE REPORTING

- Failure to report a release/threatened release 25507 **V2008 W**

### II UNDERGROUND STORAGE TANK (UST) REQUIREMENTS:

#### GENERAL UST REQUIREMENTS

- Health Permit not obtained 68.1005, 25284 **V3002 T**
- Repair/modify/close permit not obtained 68.1005 **V3007 T**
- UST Permit Application not submitted 25286(a) **V3010 T**
- Operating permit conditions violated 2712 **V3011 T**
- Failed to notify HMMD of changes 25284 **V3012 T**
- No owner/operator agreement 25284 **V3005 T**
- No records of financial coverage 25292.2 **V3013 T**
- No main/monit/calib records available 2712(b), 2641(j) **V3001 T**
- Monitoring Equip. not tested annually 2630, 2641 **V3003 T**

#### MONITORING REQUIREMENTS (SINGLE WALL)

- Leak Detection Method does not meet performance standards 2643 **V3014 T**
- Integrity test not conducted 25292 **V3015 T**
- Copy of tank test not submitted to HMMD within 30 days 2643 **V3016 T**
- Manual tank gauging (<2000 gal) 2645 not done properly **V3017 T**
- Reconciliation not done properly 2646 **V3018 T**
- Reconciliation not approved for facility 2646 **V3019 T**
- Dispenser meter(s) not calib annually 2646 **V3020 T**
- Improper liquid measurements 2646 **V3021 T**
- Stick in poor condition 2646 **V3022 T**
- Improper monthly reconciliation 2646 **V3023 T**
- Failed to report excessive variation 2646 **V3024 T**
- Pressurized Product Piping Leak Device not tested annually 25292 **V3025 T**
- No written monitoring procedure 2641 **V3027 T**
- No written emergency response plan 2641 **V3027 T**
- SIR reporting incorrectly done 2646.1 **V3004 T**

#### MONITORING REQUIREMENTS (DOUBLE WALL)

- Monitoring system not functional 2632 **V3026 T**
- No written monitoring procedure 2632 **V3027 T**
- Written emergency response plan not available 2632 **V3028 T**
- Spill/Overfill equip. not maintained or installed 2635 **V3029 T**

#### RELEASE REPORTING

- Failure to report an unauthorized release 25295 **V3009 T**
- Release record log not available 2651, 2650 **V3030 T**
- No leak report/investigation/action 2652 **V3031 T**

#### CLOSURE

- Temporary closure req. not completed 2671 **V3006 T**
- Unused tank not properly closed 25298 **V3032 T**
- Permanent closure req. not completed 2672 **V3033 T**
- Failed to apply for temporary closure 25298 **V3008 T**

#### BUSINESS PLAN ELEMENTS

- Emergency Response Plan inadequate 25504 **V2201 W**
- Emergency Contacts not provided/current 25509 **V2203 W**
- Personnel Training Program inadequate 25504 **V2301 W**
- Inventory is incomplete 25504 **V2005 W**
- Site Map is not sufficient 25509 **V2202 W**
- Acutely Haz. Mat. not registered 25533 **V2009 W**

ALL VIOLATIONS MUST BE CORRECTED. PLEASE CALL (619) 338-2222 OR YOUR INSPECTOR IF YOU HAVE ANY QUESTIONS.

## COMPLIANCE INSPECTION REPORT

DATE 3 / 12 / 02

PAGE 3 OF 3

BUSINESS ADDRESS: 277 Health Center Dr San Diego 92123

**VIOLATION REPORT:** The items checked below refer to specific section numbers of Titles 19/22/23 of the California Code of Regulations (CCR), Chapters 6.5, 6.7, 6.95 of the Health and Safety Code (HSC), and/or the San Diego County Code (SDCC).

### I HAZARDOUS WASTE REQUIREMENTS: *Violations for UST only - not paper work (reinspection)* UNDERGROUND STORAGE TANK (UST) REQUIREMENTS:

#### RECORD KEEPING

- Health Permit not obtained SDCC 68.905
- No EPA Identification Number 66262.12
- Waste Manifests/Receipts not on-site for 3 years 66262.40
- Manifest not properly completed 66262.23
- Manifest copy not sent to DTSC 66262.23
- TSDF signed-manifest not on-site 66262.40
- Biennial report not sent to DTSC 66262.41
- LDR Documentation not available 66268.7
- Exception Rpt. not filed with DTSC 66262.42
- Operating TSDF without authorization 25201

- V0108 W
- V0105 W
- V0118 W
- V0120 W
- V0115 W
- V0121 W
- V0122 W
- V0123 W
- V0116 W
- V0124 W

#### STORAGE AND HANDLING

- Waste stored longer than 90, 180, or 270 days 66262.34
- Failure to clean up hazwaste off of floor surface 66262.10b
- Waste container missing/improperly labeled 66262.34
- Haz Materials not properly labeled 25124
- Waste container not kept closed 66265.173
- Waste container in poor condition 66265.171
- Waste container(s) not properly managed 66265.173
- Damaged container not repackaged 66265.171
- Container incompatible with waste 66265.172
- Incompatibles in the same container 66265.177
- Incompatibles not stored separately 66265.177
- Ignitable Waste less than 50 feet 66265.176
- Ignitable Waste not grounded 66265.31
- Storage area not inspected weekly 66265.174

- V0221 W
- V0313 W
- V0222 W
- V0223 W

- V0224 W
- V0213 W
- V0214 W
- V0215 W
- V0216 W

#### DISPOSAL AND TRANSPORTATION

- Unauth. disposal of waste to 25189.5
- Waste determination not made 66262.11
- Unlawful transport of haz. waste 25163
- Waste transported without manifest 66262.20
- Extremely Haz Waste Permit not obtained 25205.7

- V0313 W
- V0319 W
- V0315 W
- V0316 W
- V0317 W

#### TRAINING, CONTINGENCY PLAN & EMERGENCY PROCEDURES

- Training records unavailable 66265.16
- Training program not adequate 66265.16
- Facility not designed to minimize release 66265.31
- Spill control equip not available 66265.32
- Aisle space is obstructed 66265.35
- Contingency plan not prepared and/or on file 66265.51, 66265.53

- V0405 W
- V0406 W
- V0501 W
- V0508 W
- V0509 W
- V0609 W

#### MISCELLANEOUS

- Waste oil contaminated 25250.7
- Used oil filters improperly managed 66266.130
- Damaged batteries improperly managed 66266.81
- Facility has failed to notify local CUPA and DTSC of onsite treatment of hazardous waste (tiered permitting)
- Onsite treatment of waste without authorization 25201

- V0225 W
- V0701 W
- V0702 W
- V0125 W
- V0125 W

#### GENERAL UST REQUIREMENTS

- Health Permit not obtained 68.1005, 25284
- Repair/modify/close permit not obtained 68.1005
- UST Permit Application not submitted 25286(a)
- Operating permit conditions violated 2712
- Failed to notify HMMD of changes 25284
- No owner/operator agreement 25284
- No records of financial coverage 25292.2
- No maint/monit/calib records available 2712(b), 2641(j)
- Monitoring Equip. not tested annually 2630, 2641

## COMPLIANCE INSPECTION REPORT

BUSINESS NAME Exponents  
ADDRESS 3280 Kurtz Street  
CITY/ZIP San Diego 92110-4426

On the above date an inspection of your business/facility was conducted in order to determine compliance with the California Health and Safety Code (H&S) Chapters 6.5, 6.7, 6.95; Titles 19, 22 and 23 of the California Code of Regulations (CCR); and the San Diego County Code (SDCC). The following remarks are intended to provide guidance to correct the violations noted on the attached violation report.

Office Use Only

Routine inspection.

JUN 27 1997  
JK  
7/3/97

1. Substantial compliance. No violations observed. Hazardous Material Business Plan, employee training and waste disposal documentation onsite and current.

HAZARDOUS MATERIALS SUMMARY

Complete the following information regarding the handling of hazardous materials at your business or service. Check one statement.

- This business or service does generate hazardous waste, handles hazardous materials subject to the inventory requirements and/or has underground storage tanks that requires a permit from the San Diego County Department of Health Services.
  
- I have determined that this business or service does not generate hazardous waste, handle hazardous materials subject to the inventory requirements or has underground storage tanks requiring permits from the San Diego County Department of Health Services.

I declare under penalty of perjury that to the best of my knowledge and belief the statements made herein are correct and true. I consent to all necessary inspections allowed by law and incidental to the issuance of required permit(s) and the operation of this business.

Signature Fred Pressman Title PRODUCTION MANAGER  
Date 4-22-91 Phone 298-6473  
Type of Business TRADE Show EXHIBIT MANUFACTURER  
(WOOD WORKING RELATED)

Please complete the business information on the reverse of this page and return this questionnaire to the San Diego County Department of Health Services in the pre-addressed return envelope or mail using the following address.

SAN DIEGO COUNTY DEPARTMENT OF HEALTH SERVICES  
ENVIRONMENTAL HEALTH SERVICES  
HAZARDOUS MATERIALS MANAGEMENT DIVISION  
P O BOX 85261  
SAN DIEGO CA 92138-5261

If a San Diego County Hazardous Materials Management Permit is required for your business or service a representative of this Department will complete an inspection of your business. Permit fees will be determined from the inspection and a billing statement will be mailed.

**NOTE:** If you do not use hazardous materials, generate hazardous waste, or have underground storage tanks you are still required to return this form.

A representative of the San Diego County Department of Health Services may contact you to verify the information provided on this questionnaire.

## SECTION B - INVENTORY OF HAZARDOUS MATERIALS

A "hazardous substance" is a chemical, compound, or product for which a manufacturer or producer is required by law to prepare a Material Safety Data Sheet (MSDS) for that substance. An MSDS is a document (usually 2 or 3 pages) which contains chemical composition information, fire and explosive data, health hazard data, reactivity data, spill or leak procedures, special protection information and special precaution information. An MSDS for a hazardous substance can be obtained from the supplier of that substance. Hazardous substances also include materials requiring placard warnings during transportation.

1. Does your establishment use or handle hazardous substances in quantities equal to or greater than 55 gallons, 500 pounds, or 200 cubic feet of compressed gas at any one time?  
Yes  No
2. Review the health hazards data or health and safety section of the Material Safety Data Sheets (MSDS) to see if any chemicals or substances you use are designated as a cancer-causing substance (carcinogen) or substance which may cause birth defects, miscarriages, or damage to the human reproductive system (reproductive toxin). Does your establishment use or handle carcinogens or reproductive toxins? Yes  No
3. Does your establishment use or handle gases with Threshold Limit Values (TLV) or Time Weighted Average (TWA) of 10 parts per million or less? Yes  No

If you have answered "Yes" to any of the above questions (1, 2, or 3), you do use or handle hazardous materials that are subject to inventory requirements and a permit from the San Diego County Department of Health Services is required. Continue with Section C of the questionnaire.

## SECTION C - UNDERGROUND STORAGE TANKS

An "underground storage tank" is a tank, including piping, which holds hazardous wastes (as defined in Section A) or hazardous substances (as defined in Section B, regardless of volume) and has 10% or more of the total volume located below grade.

Does your business have underground storage tanks as defined above? Yes  No   
If you answered "yes" a permit from the San Diego County Department of Health Services is required.

Underground storage tanks may not be installed, removed, destroyed, repaired or operated without permits from this Department.

Continue with the Hazardous Materials Summary on page 4.

## COMPLIANCE INSPECTION REPORT

DATE 1/13/00

PAGE 2 OF 2

BUSINESS ADDRESS: 3380 Kurtz Street, San Diego CA 92116

**VIOLATION REPORT:** The items checked below refer to specific section numbers of Titles 19/22/23 of the California Code of Regulations (CCR), Chaptre 6.5, 6.7, 6.95 of the Health and Safety Code (HSC), and/or the San Diego County Code (SDCC).

### I HAZARDOUS WASTE REQUIREMENTS:

#### RECORD KEEPING

- Health Permit not obtained SDCC 68.905 **V0108 W** \_\_\_\_\_
- No EPA Identification Number 66262.12 **V0105 W** \_\_\_\_\_
- Waste Manifests/Receipts not on-site for 3 years 66262.40 **V0118 W** \_\_\_\_\_
- Manifest not properly completed 66262.23 **V0120 W** \_\_\_\_\_
- Manifest copy not sent to DTSC 66262.23 **V0115 W** \_\_\_\_\_
- TSDF signed-manifest not on-site 66262.40 **V0121 W** \_\_\_\_\_
- Biennial report not sent to DTSC 66262.41 **V0122 W** \_\_\_\_\_
- LDR Documentation not available 66268.7 **V0123 W** \_\_\_\_\_
- Exception Rpt. not filed with DTSC 66262.42 **V0116 W** \_\_\_\_\_
- Operating TSDF without authorization 25201 **V0124 W** \_\_\_\_\_

#### STORAGE AND HANDLING

- Waste stored longer than 90, 180, or 270 days 66262.34 **V0221 W** \_\_\_\_\_
- Failure to clean up hazwaste off of floor surface 66262.10b **V0313 W** \_\_\_\_\_
- Waste container missing/improperly labeled 66262.34 **V0222 W** \_\_\_\_\_
- Haz Materials not properly labeled 25124 **V0223 W** \_\_\_\_\_
- Waste container not kept closed 66265.173 **V0202 W** \_\_\_\_\_
- Waste container in poor condition 66265.171 **V0205 W** \_\_\_\_\_
- Waste container(s) not properly managed 66265.173 **V0210 W** \_\_\_\_\_
- Damaged container not repackaged 66265.171 **V0226 W** \_\_\_\_\_
- Container incompatible with waste 66265.172 **V0207 W** \_\_\_\_\_
- Incompatibles in the same container 66265.177 **V0224 W** \_\_\_\_\_
- Incompatibles not stored separately 66265.177 **V0213 W** \_\_\_\_\_
- Ignitable Waste less than 50 feet 66265.176 **V0214 W** \_\_\_\_\_
- Ignitable Waste not grounded 66265.31 **V0215 W** \_\_\_\_\_
- Storage area not inspected weekly 66265.174 **V0216 W** \_\_\_\_\_

#### DISPOSAL AND TRANSPORTATION

- Unauth. disposal of waste to \_\_\_\_\_ 25189.5 **V0313 W** \_\_\_\_\_
- Waste determination not made 66262.11 **V0319 W** \_\_\_\_\_
- Unlawful transport of haz. waste 25163 **V0315 W** \_\_\_\_\_
- Waste transported without manifest 66262.20 **V0316 W** \_\_\_\_\_
- Extremely Haz Waste Permit not obtained 25205.7 **V0317 W** \_\_\_\_\_

#### TRAINING, CONTINGENCY PLAN & EMERGENCY PROCEDURES

- Training records unavailable 66265.16 **V0405 W** \_\_\_\_\_
- Training program not adequate 66265.16 **V0406 W** \_\_\_\_\_
- Facility not designed to minimize release 66265.31 **V0501 W** \_\_\_\_\_
- Spill control equip not available 66265.32 **V0508 W** \_\_\_\_\_
- Aisle space is obstructed 66265.35 **V0509 W** \_\_\_\_\_
- Contingency plan not prepared and/or on file 66265.51, 66265.53 **V0609 W** \_\_\_\_\_

#### MISCELLANEOUS

- Waste oil contaminated 25250.7 **V0225 W** \_\_\_\_\_
- Used oil filters improperly managed 66266.130 **V0701 W** \_\_\_\_\_
- Damaged batteries improperly managed 66266.81 **V0702 W** \_\_\_\_\_
- Facility has failed to notify local CUPA and DTSC of onsite treatment of hazardous waste (tiered permitting) **V0125 W** \_\_\_\_\_
- Onsite treatment of waste without authorization 25201 **V0125 W** \_\_\_\_\_

### II UNDERGROUND STORAGE TANK (UST) REQUIREMENTS:

#### GENERAL UST REQUIREMENTS

- Health Permit not obtained 68.1005, 25284 **V3002 T** \_\_\_\_\_
- Repair/modify/close permit not obtained 68.1005 **V3007 T** \_\_\_\_\_
- UST Permit Application not submitted 25286(a) **V3010 T** \_\_\_\_\_
- Operating permit conditions violated 2712 **V3011 T** \_\_\_\_\_
- Failed to notify HMMD of changes 25284 **V3012 T** \_\_\_\_\_
- No owner/operator agreement 25284 **V3005 T** \_\_\_\_\_
- No records of financial coverage 25292.2 **V3013 T** \_\_\_\_\_
- No maint/monit/calib records available 2712(b), 2641(j) **V3001 T** \_\_\_\_\_
- Monitoring Equip. not tested annually 2630, 2641 **V3003 T** \_\_\_\_\_

#### MONITORING REQUIREMENTS (SINGLE WALL)

- Leak Detection Method does not meet performance standards 2643 **V3014 T** \_\_\_\_\_
- Integrity test not conducted 25292 **V3015 T** \_\_\_\_\_
- Copy of tank test not submitted to HMMD within 30 days 2643 **V3016 T** \_\_\_\_\_
- Manual tank gauging (<2000 gal) 2645 not done properly **V3017 T** \_\_\_\_\_
- Reconciliation not done properly 2646 **V3018 T** \_\_\_\_\_
- Reconciliation not approved for facility 2646 **V3019 T** \_\_\_\_\_
- Dispenser meter(s) not calib annually 2646 **V3020 T** \_\_\_\_\_
- Improper liquid measurements 2646 **V3021 T** \_\_\_\_\_
- Stick in poor condition 2646 **V3022 T** \_\_\_\_\_
- Improper monthly reconciliation 2646 **V3023 T** \_\_\_\_\_
- Failed to report excessive variation 2646 **V3024 T** \_\_\_\_\_
- Pressurized Product Piping Leak Device not tested annually 25292 **V3025 T** \_\_\_\_\_
- No written monitoring procedure 2641 **V3027 T** \_\_\_\_\_
- No written emergency response plan 2641 **V3027 T** \_\_\_\_\_
- SIR reporting incorrectly done 2646.1 **V3004 T** \_\_\_\_\_

#### MONITORING REQUIREMENTS (DOUBLE WALL)

- Monitoring system not functional 2632 **V3026 T** \_\_\_\_\_
- No written monitoring procedure 2632 **V3027 T** \_\_\_\_\_
- Written emergency response plan not available 2632 **V3028 T** \_\_\_\_\_
- Spill/Overfill equip. not maintained or installed 2635 **V3029 T** \_\_\_\_\_

#### RELEASE REPORTING

- Failure to report an unauthorized release 25295 **V3009 T** \_\_\_\_\_
- Release record log not available 2651, 2650 **V3030 T** \_\_\_\_\_
- No leak report/investigation/action 2652 **V3031 T** \_\_\_\_\_

#### CLOSURE

- Temporary closure req. not completed 2671 **V3006 T** \_\_\_\_\_
- Unused tank not properly closed 25298 **V3032 T** \_\_\_\_\_
- Permanent closure req. not completed 2672 **V3033 T** \_\_\_\_\_
- Failed to apply for temporary closure 25298 **V3008 T** \_\_\_\_\_

### III HAZARDOUS MATERIALS BUSINESS PLAN REQUIREMENTS:

#### RECORD KEEPING

- Health Permit not obtained SDCC 68.1105 **V2001 W** \_\_\_\_\_
- Business Plan not established/implemented 25503.5 **V2002 W** \_\_\_\_\_
- Business Plan not submitted to HMMD 25505 **V2007 W** \_\_\_\_\_
- Business Plan not amended 25505 **V2003 W** \_\_\_\_\_
- Personnel Training Records not available 19 CCR 2732 **V2302 W** \_\_\_\_\_

#### RELEASE REPORTING

- Failure to report a release/threatened release 25507 **V2008 W** \_\_\_\_\_

#### BUSINESS PLAN ELEMENTS

- Emergency Response Plan inadequate 25504 **V2201 W** \_\_\_\_\_
- Emergency Contacts not provided/current 25509 **V2203 W** \_\_\_\_\_
- Personnel Training Program inadequate 25504 **V2301 W** \_\_\_\_\_
- Inventory is incomplete 25504 **V2005 W** \_\_\_\_\_
- Site Map is not sufficient 25509 **V2202 W** \_\_\_\_\_
- Acutely Haz. Mat. not registered 25533 **V2009 W** \_\_\_\_\_

ALL VIOLATIONS MUST BE CORRECTED. PLEASE CALL (619) 338-2222 OR YOUR INSPECTOR IF YOU HAVE ANY QUESTION

Routine Inspection

NOV 05 2002

All documents were reviewed and found to be in order at this time.

A site walk through found no violation at this time.

This is an annual certification that the Hazardous Materials Business Plan (inventory, emergency contacts, emergency response plan, and employee training plan) is current and includes all the information required in the HSC and is maintained at the site where hazardous materials are stored.

### Routine Inspection

An inspection and site walk through was conducted with William Owens, Production ~~Coordinator~~ Manager.

RECEIVED OCT 20 2006

### Remarks:

1. Site map updated to reflect change in location of propane tanks for forklifts.
2. 55 gallon drums of fastbond 2000 are allowed to dry then the drums are sent for scrap metal to California Metals. Receipts available for review

This is an annual certification that the Hazardous Materials Business Plan (inventory, emergency contacts, emergency response plan, and employee training plan) is current and includes all the information required in the H&SC and is maintained at the site where hazardous materials are stored.

On the above date, an inspection of your business/facility was conducted in order to determine compliance with the California Health and Safety Code (HSC) Chapters 6.5, 6.7, 6.95; Titles 19, 22 and 23 of the California Code of Regulations (CCR); and the San Diego County Code (SDCC). The following remarks are intended to provide guidance to correct the violations noted on the attached violation report.

**NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.**

- |                                     |                                     |  |                          |                                     |                                     |

| <input type="checkbox"/>            | <input type="checkbox"/>            | Chemical inventory current <input checked="" type="checkbox"/> Updated today | <input type="checkbox"/> | <input checked="" type="checkbox"/> | Waste containers in good condition  |

A routine CUPA inspection was conducted today with Bill Owens, Production Manager of Exponents.

Observations/Remarks:

- Be advised that when a container of 5 gallons or more becomes empty, it should be marked "empty" with the date emptied and properly managed within a year. Mr. Owens stated today that all empty drums are recycled as scrap metal.
- Be advised that if your facility no longer plans to use the 55 gallon drum of Cascore 557 for the glue machine, it is ~~and~~ considered a waste and should be properly managed as such. The bung cap on this drum was not in place, so over time, ~~the~~ rain water has accumulated and mixed with the contents. If, after a proper waste determination, you determine this waste is hazardous, you have 180 days to properly dispose of it through a registered hauler. Be sure to properly label the drum as hazardous waste (if it is) and include the accumulation start date. Be sure to keep a copy of manifests and send one to DTSC.
- Be advised universal waste (fluorescent bulbs, batteries, non-empty aerosol cans, electronics, etc.) can't go into the trash in CA. Go to [www.ilacsd.org](http://www.ilacsd.org) for disposal options.

RECEIVED MAY 20 2008

This is an annual certification that the Hazardous Materials Business Plan (inventory, emergency contacts, emergency response plan, and employee training plan) is current and includes all the information required in the H&SC and is maintained at the site where hazardous materials are stored.  TITLE Production Manager  
 PHONE (619) 298-6473

BUSINESS NAME Exponents, Inc.  
 ADDRESS 3280 Kurtz St.  
 CITY/ZIP San Diego / 92110

On the above date, the County inspected your business under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). **This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6.** This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

- Y\* N/A\* NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.**

Consent to inspect granted by:  Inspection Contact  Other: \_\_\_\_\_

Permission was granted today to conduct a change of owner inspection by Bill ~~Owens~~ OWENS, Production Manager for Exponents Inc  
 RECEIVED NOV 25 2009

### Observations/Remarks

A) a permit application was already submitted to HMD and will be processed with this inspection report:

B) Be sure to submit a copy of the updated Hazardous Materials Business Plan (HMBP) site map and certification form to HMD within 30 days. Keep a current copy of your HMBP on site and available for review and submit any updates to HMD within 30 days of any changes made.

C) Be sure to make a proper waste determination of the liner for the 55 gal drums of Fastbond. Be advised that hazardous material waste cannot be treated without pre-authorization. Drying out hazardous materials prior to disposal can constitute treatment and may be considered illegal disposal of hazardous waste to the air.

This is an annual certification that the Hazardous Materials Business Plan (inventory & site map, emergency contacts, emergency response plan, and employee training plan) is current and includes all the information required in the H&SC and is maintained at the site where hazardous materials are stored. **NOTE: If you check YES to any part of this list, please submit the Business Owner/Operator Identification page.**

Does your facility...	If Yes, please complete these pages of the UPCF...		
<b>A. HAZARDOUS MATERIALS</b> Have on site (for any purpose) hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	<input checked="" type="checkbox"/> YES <input checked="" type="checkbox"/> NO	4	HAZARDOUS MATERIALS INVENTORY - CHEMICAL DESCRIPTION
<b>B. REGULATED SUBSTANCES</b> Have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO	4a	Coordinate with your local agency responsible for CalARP.
<b>C. UNDERGROUND STORAGE TANKS (USTs)</b> Own or operate underground storage tanks?	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO	5	UST FACILITY (Formerly SWRCB Form A) HM-9715 UST TANK (one page per tank-Formerly Form B) HM-9717
<b>D. ABOVE GROUND PETROLEUM STORAGE</b> Store greater than 1,320 gallons of petroleum products (new or used) in above ground tanks or containers?	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO	8	NO FORM REQUIRED TO CUPAs
<b>E. HAZARDOUS WASTE</b>			
Generate hazardous waste?	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO	9	EPA ID NUMBER - provide at the top of page
Recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO	10	RECYCLABLE MATERIALS REPORT (one per recycler)
Treat hazardous waste on site?	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO	11	ONSITE HAZARDOUS WASTE TREATMENT - FACILITY ONSITE HAZARDOUS WASTE TREATMENT - UNIT (one page per unit)
Treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO	12	CERTIFICATION OF FINANCIAL ASSURANCE
Consolidate hazardous waste generated at a remote site?	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO	13	REMOTE WASTE / CONSOLIDATION SITE ANNUAL NOTIFICATION
Need to report the closure/removal of a tank that was classified as hazardous waste and cleaned onsite?	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO	14	HAZARDOUS WASTE TANK CLOSURE CERTIFICATION
Generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month, or accumulate at any time, 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate or accumulate at any time more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste?	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO	14a	Obtain federal EPA ID Number, file Biennial Report (EPA Form 8700-13A/B), and satisfy requirements for RCRA Large Quantity Generator.
Household Hazardous Waste (HHW) Collection site?	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO	14b	See CUPA for required forms.
<b>F. LOCAL REQUIREMENTS</b>			
<b>MEDICAL WASTE</b>			
Generate <200 lbs/month of Medical/Biohazardous Waste?	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO		
Generate ≥200 lbs/month of Medical/Biohazardous Waste?	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO		
Generate ≥200 lbs/month of Medical/Biohazardous Waste and treat any amount of medical waste?	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO		
Handle Toxic gases with threshold limit concentration (TLV) # 10 ppm in any quantity?	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO		

UPF Permit#: 211463

DATE INSPECTED: 11/17/09

**UNIFIED PROGRAM FACILITY PERMIT APPLICATION**

RECEIVED

NOV 05 2009

ENVIRONMENTAL HEALTH

SA

This business or service is required to obtain a Unified Program Facility Permit from the San Diego County Department of Environmental Health. I answered "yes" to one or more of the questions on the "Business Activities" form.

Date assumed business ownership at this location: 10/22/09

This permit does not excuse any owner or operator from complying with all applicable federal, state, county or local laws, ordinances or regulations. The owner or operator is required to determine if another permit or approval from any other agency or department is necessary. The County, by issuing this permit, does not relinquish its right to enforce any violation of law.

W.A.

I have determined that this business or service does not require a Unified Program Facility Permit from the San Diego County Department of Environmental Health.

I declare under penalty of perjury that to the best of my knowledge and belief the statements made herein are correct and true. I consent to all necessary inspections allowed by law and incidental to the issuance of required permit(s) and the operation of this business.

February 14, 2014

ATTN: Owner or Operator  
3280 KURTZ ST  
SAN DIEGO, CA 92110  
CERS ID#: 10384252  
Facility ID#: 37-000-211463

As of January 1, 2013 all regulated businesses are required by Assembly Bill 2286 to submit their regulatory reports and business information electronically through the California Environmental Reporting System (CERS). This includes information related to:

- Unified Program Facility Permit
- Hazardous Materials Business Plan (HMBP)
- Hazardous Waste
- Hazardous Waste Onsite Treatment
- Hazardous Waste Tank Closures
- Remote Waste Consolidation
- Recyclable Materials Reports
- Underground Storage Tanks (UST)
- Aboveground petroleum storage over 1,320 gallons (APSA/SPCC)
- Medical Waste\*

## What is CERS?

CERS is a statewide web-based system developed by the California Environmental Protection Agency (Cal/EPA) to collect and report hazardous materials related data. \* In San Diego County, medical waste is also regulated by the County of San Diego and is required to be reported through CERS.

## What do I need to do?

For your convenience, HMD and Cal/EPA have pre-populated your facility information into CERS. It is now your responsibility to review this information for accuracy, make necessary changes and submit for review as required by the state law. *In order to comply, please complete, sign and submit the enclosed CERS Access/I.D. Request Form to HMD within 30 calendar days of receipt of this letter to the address listed in the above letterhead.*

Please note, the form may only be signed by the business owner or main operator. We recommend at least two lead users in case one person leaves or loses their username/password. Lead users will receive a confirmation e-mail inviting them to create a username and password for CERS when this process is complete. Once lead users have been granted access, they will be responsible for adding additional users to the account; the County of San Diego will no longer be able to grant user access.

In order to gain access to your facility information in CERS, you must have the following:

- An active e-mail account
- Internet Access, with one of the following browsers: Internet Explorer 8 or 9, Safari (current version), Chrome (current version), Firefox 3.6 or later

Note: CERS does not support Internet Explorer 7 or earlier versions.

**Where can I get help?**

Our CERS Information website provides detailed instructions, comprehensive user guides, video tutorials, resource weblinks, and the latest updates regarding CERS: [www.sdcounty.ca.gov/deh/hazmat/hmd-cers-info.html](http://www.sdcounty.ca.gov/deh/hazmat/hmd-cers-info.html)  
 Additional information is available from the following resources:

- Your county hazardous materials inspector
- The Hazardous Materials Division Duty Desk at (858) 505-6880, [hmdutyeh@sdcounty.ca.gov](mailto:hmdutyeh@sdcounty.ca.gov).
- A list of required forms and submission requirements:  
[http://www.sdcounty.ca.gov/deh/hazmat/hmd\\_forms.html](http://www.sdcounty.ca.gov/deh/hazmat/hmd_forms.html)
- The CERS web portal: <http://cers.calepa.ca.gov/>

**What if I don't have access to a computer?**

Computer kiosks are available for CERS submittals at our office locations.

- 5500 Overland Ave., San Diego, CA 92123
- 151 E. Carmel St., San Marcos, CA 92078

Counter services are available from 8 a.m. to 4 p.m.

**CERS Training Workshops:**

To assist your business in completing this requirement, we will be hosting several CERS Training Workshops in the upcoming months. The exact dates, times and location will be posted online as they become available. Please check our CERS Information website for upcoming workshops: [www.sdcounty.ca.gov/deh/hazmat/hmd-cers-info.html](http://www.sdcounty.ca.gov/deh/hazmat/hmd-cers-info.html)

**What if I don't comply?**

Failure to comply with the CERS submittal requirements is a violation of the California Health & Safety Code section 25404 (e)(4) and may lead to issuance of a Notice of Violation and further enforcement action.

Compliance with laws and regulations is a condition of your permit to operate.

Please disregard this letter if you have already signed up with CERS, your business has an organizational account with Cal/EPA and/or your business has made other arrangements.

Sincerely,

Michelle Price  
 Supervising Environmental Health Specialist  
 Hazardous Materials Division

 E-MAIL: cr@chrisruddysurfboards.com

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

**NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.**

CONSENT TO CONDUCT INSPECTION GRANTED BY: Chris Ruddy

TITLE: Owner

### INTRODUCTION:

Routine Inspection

Inspection conducted for hazardous materials/waste on 2/25/2020 with Chris Ruddy, Owner who gave me permission to conduct the inspection. This site is a surfboard manufacturing business and does not appear to generate hazardous waste at this time. They are currently subject to the Hazardous Materials Business Plan requirements due to reportable amounts of resin. The reportable amount is 55 gallons for hazardous liquids, 500 pounds for hazardous solids and 200 cubic feet for compressed gases. Other lower or higher thresholds might apply. California Environmental Reporting System (CERS) submittals have been accepted on 11/5/2019.

The following hazardous materials in reportable threshold quantities were observed on-site today:

- 1 x 55 gallon drum of resin.

### VIOLATION # 1

1020002 Initial &/or annual employee training not conducted in safety procedures for a hazardous material release or threatened release &/or employee training records not available or not maintained for 3 years. HSC 25505(a)(4); 19 CCR 2659(b)

Classification: Class II

### Observations:

This facility has the capacity to store reportable amounts of hazardous materials or hazardous waste (55 gal, 500 lbs., or 200 cuft) and failed to maintain records of an adequate employee training program for the size of the facility and the nature of the hazardous materials handled. The training program shall, at a minimum, include methods for safe handling of hazardous materials; procedures for coordination with local emergency response organizations; use of emergency response equipment; and emergency response procedures for a release or threatened release of hazardous materials. Observed the employee training documentation was not on-site during this inspection.

Corrective Action Due By: 03/26/2020

Within 30 days, locate the employee training documentation or conduct new employee training on hazardous materials/waste and emergency response. Send the corrective action form to this department within 30 days.

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

**NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.**

K04

JUL 25 1997

P: 9/2/97 cis

Office Use Only

Routine inspection:  
1. Observation: One 5-gallon plastic bucket used for storage of waste oil missing a hazardous waste label.

Corrective action: Affix a hazardous waste label (label provided on this date) and state the following during storage: generator name and address, contents, physical state and accumulation start date.

2. Observation: No Hazardous Material Business Plan available for review.

Corrective action: A photocopy of the approved Business Plan will be mailed. Keep this copy on-site and use as a training aid. Also use in case of an emergency.

3. Boyce Industries generates a small amount of waste oil which is self-hauled to Miramar recycling center. Keep a log each time waste oil is hauled to Miramar stating the date, quantity of waste oil and the transporter name and receiver's name. P. Neubauer 7-9-97

## COMPLIANCE INSPECTION REPORT

EST. NUMBER H 00497DATE 7 19 97PAGE 2 OF 2BUSINESS ADDRESS: 3344 Kurtz St. San Diego92110-4428

VIOLATION REPORT: The items checked below refer to specific section numbers of Titles 19/22/23 of the California Code of Regulations (CCR), Chapters 6.5, 6.7, 6.95 of the Health and Safety Code (HSC), and/or the San Diego County Code (SDCC).

### I HAZARDOUS WASTE REQUIREMENTS:

#### RECORD KEEPING

- Health Permit not obtained SDCC 68.905 V0108 W
- No EPA Identification Number 66262.12 V0105 W
- Waste Manifests/Receipts not on-site for 3 years 66262.40 V0118 W
- Manifest not properly completed 66262.23 V0120 W
- Manifest copy not sent to DTSC 66262.23 V0115 W
- TSDF signed-manifest not on-site 66262.40 V0121 W
- Biennial report not sent to DTSC 66262.41 V0122 W
- LDR Documentation not available 66268.7 V0123 W
- Exception Rpt. not filed with DTSC 66262.42 V0116 W
- Operating TSDF without authorization 25201 V0124 W

#### STORAGE AND HANDLING

- Waste stored longer than 90, 180, or 270 days 66262.34 V0221 W
- Failure to clean up hazwaste off of floor surface 66262.10b V0313 W
- Waste container missing/improperly labeled 66262.34 V0222 W
- Haz Materials not properly labeled 25124 V0223 W
- Waste container not kept closed 66265.173 V0202 W
- Waste container in poor condition 66265.171 V0205 W
- Waste container(s) not properly managed 66265.173 V0210 W
- Damaged container not repackaged 66265.171 V0226 W
- Container incompatible with waste 66265.172 V0207 W
- Incompatibles in the same container 66265.177 V0224 W
- Incompatibles not stored separately 66265.177 V0213 W
- Ignitable Waste less than 50 feet 66265.176 V0214 W
- Ignitable Waste not grounded 66265.31 V0215 W
- Storage area not inspected weekly 66265.174 V0216 W

#### DISPOSAL AND TRANSPORTATION

- Unauth. disposal of waste to 25189.5 V0313 W
- Waste determination not made 66262.11 V0319 W
- Unlawful transport of haz. waste 25163 V0315 W
- Waste transported without manifest 66262.20 V0316 W
- Extremely Haz Waste Permit not obtained 25205.7 V0317 W

#### TRAINING, CONTINGENCY PLAN & EMERGENCY PROCEDURES

- Training records unavailable 66265.16 V0405 W
- Training program not adequate 66265.16 V0406 W
- Facility not designed to minimize release 66265.31 V0501 W
- Spill control equip not available 66265.32 V0508 W
- Aisle space is obstructed 66265.35 V0509 W
- Contingency plan not prepared and/or on file 66265.51, 66265.53 V0609 W

#### MISCELLANEOUS

- Waste oil contaminated 25250.7 V0225 W
- Used oil filters improperly managed 66266.130 V0701 W
- Damaged batteries improperly managed 66266.81 V0702 W
- Facility has failed to notify local CUPA and DTSC of onsite treatment of hazardous waste (tiered permitting) V0125 W
- Onsite treatment of waste without authorization 25201 V0125 W

### III HAZARDOUS MATERIALS BUSINESS PLAN REQUIREMENTS:

#### RECORD KEEPING

- Health Permit not obtained SDCC 68.1105 V2001 W
- Business Plan not established/implemented 25503.5 V2002 W
- Business Plan not submitted to HMMD 25505 V2007 W
- Business Plan not amended 25505 V2003 W
- Personnel Training Records not available 19 CCR 2732 V2302 W

#### RELEASE REPORTING

- Failure to report a release/threatened release 25507 V2008 W

### II UNDERGROUND STORAGE TANK (UST) REQUIREMENTS:

#### GENERAL UST REQUIREMENTS

- Health Permit not obtained 68.1005, 25284 V3002 T
- Repair/modify/close permit not obtained 68.1005 V3007 T
- UST Permit Application not submitted 25286(a) V3010 T
- Operating permit conditions violated 2712 V3011 T
- Failed to notify HMMD of changes 25284 V3012 T
- No owner/operator agreement 25284 V3005 T
- No records of financial coverage 25292.2 V3013 T
- No maint/monit/calib records available 2712(b), 2641(j) V3001 T
- Monitoring Equip. not tested annually 2630, 2641 V3003 T

#### MONITORING REQUIREMENTS (SINGLE WALL)

- Leak Detection Method does not meet performance standards 2643 V3014 T
- Integrity test not conducted 25292 V3015 T
- Copy of tank test not submitted to HMMD within 30 days 2643 V3016 T
- Manual tank gauging (<2000 gal) 2645 not done properly V3017 T
- Reconciliation not done properly 2646 V3018 T
- Reconciliation not approved for facility 2646 V3019 T
- Dispenser meter(s) not calib annually 2646 V3020 T
- Improper liquid measurements 2646 V3021 T
- Stick in poor condition 2646 V3022 T
- Improper monthly reconciliation 2646 V3023 T
- Failed to report excessive variation 2646 V3024 T
- Pressurized Product Piping Leak Device not tested annually 25292 V3025 T
- No written monitoring procedure 2641 V3027 T
- No written emergency response plan 2641 V3027 T
- SIR reporting incorrectly done 2646.1 V3004 T

#### MONITORING REQUIREMENTS (DOUBLE WALL)

- Monitoring system not functional 2632 V3026 T
- No written monitoring procedure 2632 V3027 T
- Written emergency response plan not available 2632 V3028 T
- Spill/Overfill equip. not maintained or installed 2635 V3029 T

#### RELEASE REPORTING

- Failure to report an unauthorized release 25295 V3009 T
- Release record log not available 2651, 2650 V3030 T
- No leak report/investigation/action 2652 V3031 T

#### CLOSURE

- Temporary closure req. not completed 2671 V3006 T
- Unused tank not properly closed 25298 V3032 T
- Permanent closure req. not completed 2672 V3033 T
- Failed to apply for temporary closure 25298 V3008 T

#### BUSINESS PLAN ELEMENTS

- Emergency Response Plan inadequate 25504 V2201 W
- Emergency Contacts not provided/current 25509 V2203 W
- Personnel Training Program inadequate 25504 V2301 W
- Inventory is incomplete 25504 V2005 W
- Site Map is not sufficient 25509 V2202 W
- Acutely Haz. Mat. not registered 25533 V2009 W

ALL VIOLATIONS MUST BE CORRECTED. PLEASE CALL (619) 338-2222 OR YOUR INSPECTOR IF YOU HAVE ANY QUESTIONS.

ADDRESS 3344 Kurtz St  
CITY/ZIP San Diego CA 92110

On the above date an inspection of your business/facility was conducted in order to determine compliance with the California Health and Safety Code (H&S) Chapters 6.5, 6.7, 6.95; Titles 19, 22 and 23 of the California Code of Regulations (CCR); and the San Diego County Code (SDCC). The following remarks are intended to provide guidance to correct the violations noted on the attached violation report.

NO CONTACT

Office Use Only

During this inspection, the door was locked and there were no employees at the site.

I spoke with a lady at Great Western Tire (Business near Boyce Industries). She told me the owner arrives at the site between 10:00-10:30 am. During this inspection, he did not arrive.

HMMMD will inspect this site in the future.

## COMPLIANCE INSPECTION REPORT

DATE 11/22/96

PAGE 2 OF 2

BUSINESS ADDRESS: 3467 Kurtz St. 92110

VIOLATION REPORT: The items checked below refer to specific section numbers of Titles 19/22/23 of the California Code of Regulations (CCR), Chapters 6.5, 6.7, 6.95 of the Health and Safety Code (HSC), and/or the San Diego County Code (SDCC).

### I HAZARDOUS WASTE REQUIREMENTS:

#### RECORD KEEPING

- Health Permit not obtained SDCC 68.905
- No EPA Identification Number 66262.12
- Waste Manifests/Receipts not on-site for 3 years 66262.40
- Manifest not properly completed 66262.23
- Manifest copy not sent to DTSC 66262.23
- TSDF signed-manifest not on-site 66262.40
- Biennial report not sent to DTSC 66262.41
- LDR Documentation not available 66268.7
- Exception Rpt. not filed with DTSC 66262.42
- Operating TSDF without authorization 25201

#### STORAGE AND HANDLING

- Waste stored longer than 90, 180, or 270 days 66262.34
- Failure to clean up hazwaste off of floor surface 66262.10b
- Waste container missing/improperly labeled 66262.34
- Haz Materials not properly labeled 25124
- Waste container not kept closed 66265.173
- Waste container in poor condition 66265.171
- Waste container(s) not properly managed 66265.173
- Damaged container not repackaged 66265.171
- Container incompatible with waste 66265.172
- Incompatibles in the same container 66265.177
- Incompatibles not stored separately 66265.177
- Ignitable Waste less than 50 feet 66265.176
- Ignitable Waste not grounded 66265.31
- Storage area not inspected weekly 66265.174

#### DISPOSAL AND TRANSPORTATION

- Unauth. disposal of waste to 25189.5
- Waste determination not made 66262.11
- Unlawful transport of haz. waste 25163
- Waste transported without manifest 66262.20
- Extremely Haz Waste Permit not obtained 25205.7

#### TRAINING, CONTINGENCY PLAN & EMERGENCY PROCEDURES

- Training records unavailable 66265.16
- Training program not adequate 66265.16
- Facility not designed to minimize release 66265.31
- Spill control equip not available 66265.32
- Aisle space is obstructed 66265.35
- Contingency plan not prepared and/or on file 66265.51, 66265.53

#### MISCELLANEOUS

- Waste oil contaminated 25250.7
- Used oil filters improperly managed 66266.130
- Damaged batteries improperly managed 66266.81
- Facility has failed to notify local CUPA and DTSC of onsite treatment of hazardous waste (tiered permitting)
- Onsite treatment of waste without authorization 25201

### III HAZARDOUS MATERIALS BUSINESS PLAN REQUIREMENTS:

#### RECORD KEEPING

- Health Permit not obtained SDCC 68.1105
- Business Plan not established/implemented 25503.5
- Business Plan not submitted to HMMD 25505
- Business Plan not amended 25505
- Personnel Training Records not available 19 CCR 2732

#### RELEASE REPORTING

- Failure to report a release/threatened release 25507

### II UNDERGROUND STORAGE TANK (UST) REQUIREMENTS:

#### GENERAL UST REQUIREMENTS

- Health Permit not obtained 68.1005, 25284
- Repair/modify/close permit not obtained 68.1005
- UST Permit Application not submitted 25286(a)
- Operating permit conditions violated 2712
- Failed to notify HMMD of changes 25284
- No owner/operator agreement 25284
- No records of financial coverage 25292.2
- No maint/monit/calib records available 2712(b), 2641(j)
- Monitoring Equip. not tested annually 2630, 2641

#### MONITORING REQUIREMENTS (SINGLE WALL)

- Leak Detection Method does not meet performance standards 2643
- Integrity test not conducted 25292
- Copy of tank test not submitted to HMMD within 30 days 2643
- Manual tank gauging (<2000 gal) 2645 not done properly
- Reconciliation not done properly 2646
- Reconciliation not approved for facility 2646
- Dispenser meter(s) not calib annually 2646
- Improper liquid measurements 2646
- Stick in poor condition 2646
- Improper monthly reconciliation 2646
- Failed to report excessive variation 2646
- Pressurized Product Piping Leak Device not tested annually 25292
- No written monitoring procedure 2641
- No written emergency response plan 2641
- SIR reporting incorrectly done 2646.1

#### MONITORING REQUIREMENTS (DOUBLE WALL)

- Monitoring system not functional 2632
- No written monitoring procedure 2632
- Written emergency response plan not available 2632
- Spill/Overfill equip. not maintained or installed 2635

#### RELEASE REPORTING

- Failure to report an unauthorized release 25295
- Release record log not available 2651, 2650
- No leak report/investigation/action 2652

#### CLOSURE

- Temporary closure req. not completed 2671
- Unused tank not properly closed 25298
- Permanent closure req. not completed 2672
- Failed to apply for temporary closure 25298

#### BUSINESS PLAN ELEMENTS

- Emergency Response Plan inadequate 25504
- Emergency Contacts not provided/current 25509
- Personnel Training Program inadequate 25504
- Inventory is incomplete 25504
- Site Map is not sufficient 25509
- Acutely Haz. Mat. not registered 25533

ALL VIOLATIONS MUST BE CORRECTED. PLEASE CALL (619) 338-2222 OR YOUR INSPECTOR IF YOU HAVE ANY QUESTIONS.

HAZARDOUS MATERIALS SUMMARY

Complete the following information regarding the handling of hazardous materials at your business or service. Check one statement.

- This business or service does generate hazardous waste, handles hazardous materials subject to the inventory requirements and/or has underground storage tanks that requires a permit from the San Diego County Department of Environmental Health.
- I have determined that this business or service does not generate hazardous waste, handle hazardous materials subject to the inventory requirements or has underground storage tanks requiring permits from the San Diego County Department of Environmental Health.

I declare under penalty of perjury that to the best of my knowledge and belief the statements made herein are correct and true. I consent to all necessary inspections allowed by law and incidental to the issuance of required permit(s) and the operation of this business.

Signature  Title Lab Manager  
Date 11/22/96 Phone 225-9641  
Type of Business Materials Testing Lab

Please complete the business information on the following page and return this questionnaire to the San Diego County Department of Environmental Health in the pre-addressed return envelope or mail using the following address.

SAN DIEGO COUNTY  
DEPARTMENT OF ENVIRONMENTAL HEALTH  
HAZARDOUS MATERIALS MANAGEMENT DIVISION  
P.O. BOX 85261  
SAN DIEGO CA 92186-5261

If a San Diego County Hazardous Materials Management Permit is required for your business or service a representative of this Department will complete an inspection of your business. Permit fees will be determined from the inspection and a billing statement will be mailed.

**NOTE:** If you do not use hazardous materials, generate hazardous waste, or have underground storage tanks you are still required to return this form.

A representative of the San Diego County Department of Environmental Health may contact you to verify the information provided on this questionnaire.

SECTION B - INVENTORY OF HAZARDOUS MATERIALS

A "hazardous substance" is a chemical compound, or product for which a manufacturer or producer is required by law to prepare a Material Safety Data Sheet (MSDS) for that substance. An MSDS is a document (usually 2 or 3 pages) which contains chemical composition information, fire and explosive data, health hazard data, reactivity data, spill or leak procedures, special protection information and special precaution information. An MSDS for a hazardous substance can be obtained from the supplier of that substance. Hazardous substances also include materials requiring placard warnings during transportation.

1. Does your establishment use or handle hazardous, substances in quantities equal to or greater than 55 gallons, 500 pounds, or 200 cubic feet of compressed gas at any one time?  
Yes  No
2. Review the health hazards data or health and safety section of the Material Safety Data Sheets (MSDS) to see if any chemicals or substances you use are designated as a cancer-causing substance (carcinogen) or substance which may cause birth defects, miscarriages, or damage to the human reproductive system (reproductive toxin). Does your establishment use or handle carcinogens or reproductive toxins?  
Yes  No
3. Does your establishment use or handle gases with Threshold Limit Values (TLV) or Time Weighted Average (TWA) of 10 parts per million or less? Yes  No

If you have answered "Yes" to any of the above questions (1, 2, or 3), you do use or handle hazardous materials that are subject to inventory requirements and a permit from the San Diego County Department of Environmental Health is required. Continue with Section C of the questionnaire.

SECTION C - UNDERGROUND STORAGE TANKS

An "underground storage tank" is a tank, including piping, which holds hazardous wastes (as defined in Section A) or hazardous substances (as defined in Section B, regardless of volume) and has 10% or more of the total volume located below grade.

Does your business have underground storage tanks as defined above?  
Yes  No

If you answered "yes" a permit from the San Diego County Department of Environmental Health is required.

Underground storage tanks may not be installed, removed, destroyed, repaired or operated without permits from this Department.

Continue with the Hazardous Materials Summary on page 4.

E. APPLICATION SUBMITTAL, PLAN APPROVAL, PERMIT ISSUANCE, AND REQUIRED INSPECTIONS:

Submit three (3) copies of this application package, including plan drawings, with the required fee to the Department of Health Services, Hazardous Materials Management Unit, Room 311, 1700 Pacific Highway, San Diego, CA 92101. Checks should be made payable to the County of San Diego.

A permit will be issued by the Department of Health Services (DHS) upon review and approval of the application and plans. The required fees must be submitted with the application package. Information in addition to that presented in this application package may be needed in order to obtain final approval. No work is to begin on the proposed project until a permit has been issued. The required inspections cannot be scheduled until a permit has been issued.

Once the permit has been issued, it is the permittee's responsibility to notify the DHS at least two (2) working days in advance to schedule each required inspection.

Construction stages at which inspections are required are indicated in each subpart of this application form (i.e., Part II, III and IV).

Hm 88-0494

F. Indicate the Company/Person you wish to have our plan check comments directed to by circling the appropriate section letter above or if different enter below.

- END OF PART I -

UNDERGROUND HAZARDOUS MATERIALS STORAGE TANK FACILITY

PART III

APPLICATION FOR PERMIT TO ABANDON

Complete all sections of Part III. If information is not known or applicable please indicate on application.

- A. Total number of tanks to be abandoned 1
- B. Tank Information - Complete the following information for each tank to be abandoned. Attach additional sheets as necessary.

Tank Number (Label tanks on plot plan to correspond to application)	1	2	3	4
Tank Capacity (gallons)	550			
Date Tank Installed	NOT KNOWN			
Tank Composition (Steel, Fiberglass, Fiberglass Coated Steel, Concrete, etc.)	Steel			
Tank Manufacturer	NOT KNOWN			
Tank Presently in Use? (Yes-No)	NO			
Materials Stored in Tank	Material: <u>Gasoline</u> dates: to	to	to	to
	Material: _____ dates: to	to	to	to
Has Tank System Leaked? (Yes, No, Not Known)	Tank Piping: <u>NOT KNOWN</u>			
Basis of determination (Inventory records, tank system testing/monitoring, environmental monitoring)				
Is any part of the system cathodically protected? (Yes-No-Not Known)	<u>NOT KNOWN</u>			
	Tank			
Piping Lines				
Piping materials	Steel			

C. PREVIOUS OWNERS AND OPERATORS OF THE TANK(S):  
Dates \_\_\_\_\_

Owner/Operator \_\_\_\_\_

D. Approximate depth to groundwater: 8'-10'  
Basis of Determination: Previous Excav.

E. Proposed method of abandonment:  Removal  Destruction in place

NOTE: Removal of the tank(s) is the preferred method of abandonment. Destruction of the tank in place, for example, by filling with an inert substance, will only be considered in special cases upon submittal of additional information to determine risks and hazards of contamination. Additional information required includes wet tank testing results, soils data, special site characteristics and approval from local Fire Department.

F. Future use/disposal site of tank: Scrap

G. ATTACH A PLOT PLAN ON 8-1/2" x 11" paper showing the following:

1. Property Lines, Site Address, Scale, North Arrow
2. Location of 100 year flood plain, if applicable
3. Location of all existing and proposed structures
4. Location of all existing and proposed underground storage tank facilities
5. Location of underground tank(s) to be abandoned (number tanks to correspond application)
6. Location of underground utility lines and vaults

H. REQUIRED INSPECTION - PERMIT TO ABANDON

A representative of the Department of Health Services (DHS) must be on site at the time the tank(s) is removed from the ground to evaluate the condition of the tank, the surrounding soil and/or groundwater. Any evidence of an unauthorized release of hazardous material from the tank will require the submittal of additional information by the permittee to the DHS.

When a permit has been issued by the DHS to destroy a tank in place, the DHS will inspect to verify that the tank has been properly emptied and purged of all hazardous materials immediately prior to filling with an approved inert substance.

I. I declare that to the best of my knowledge and belief the statements and information provided are correct and true. I understand that information in addition to that provided above may be needed in order to obtain final approval by the Department of Health Services.

I understand that tests and procedures that may be required by other departments or agencies to demonstrate adequate site safety or suitability for future development (e.g., soil compaction testing) are in addition to the requirements of the Department of Health Services.

I will notify the Department of Health Services at least two working days (48 hours) before work is to begin in order to schedule the required inspections. I understand that site and worker safety are solely the responsibility of the property owner or his agent and that this responsibility is not shared nor assumed by the County of San Diego.

NOTICE: You are hereby notified, that on 3/11/88 C. Granlan, Hazardous Materials Specialist of County Department of Health Services, conducted an inspection for the removal and/or abandonment of ONE underground storage tanks of hazardous substances. A summary of conditions found is noted as follows:

- No indication of soil or groundwater contamination apparent this date. Excavation may be backfilled.
- The conditions noted below must be reported and corrected in accordance with Chapters 6.5 and 6.7 of the California Health and Safety Code and Chapters 9 and 10 of the San Diego County Code.
  - Hazardous substance/waste is ponded in the excavation. Immediately take steps to remove the ponded hazardous liquid from the excavation. This liquid is a hazardous waste that shall be properly transported, under manifest, by a licensed hazardous waste hauler to a licensed recycling or disposal facility.
  - Contaminated soil and/or contaminated groundwater is suspected in the excavation. Determining the extent and impact of this contamination and completing any required clean-up is the responsibility of the tank owner/operator. Within 5 work days, the tank owner/operator or his agent must submit a written UNAUTHORIZED RELEASE REPORT to the Department of Health Services including all of the following information that is known at the time of filing the report:
    - a. Describe the type, quantity and concentration of the hazardous substance released.
    - b. Provide the results of all investigations completed at this time to determine the extent of soil, groundwater, or surface water contamination due to the release.
    - c. Describe the method of cleanup implemented to date, proposed cleanup actions, and approximate costs of actions taken to date.
    - d. Indicate the method and location of disposal of the released hazardous substance and any contaminated soils or groundwater or surface water. (If any contaminated soil/water is hauled off-site, include copies of the hazard waste manifests).
    - e. Include the tank operator's name and telephone number, the name and telephone number of any consultants retained, and a projection of proposed activity schedule.
 Subsequent mitigation actions will be discussed upon review of the submitted Report and consultation with other appropriate agencies.

- REFER TO REVERSE SIDE FOR ADDITIONAL INFORMATION/REQUIREMENTS -

Sarah J. Battelle, P.M.  
Woodward Clyde Consultants  
3467 Kurtz Street  
San Diego, CA 92110

SUBJECT: OTAY REFUSE DISPOSAL SITE WORKPLAN

Dear Mrs. Battelle;

The Woodward Clyde Consultant's (WCC) proposed workplan for subsurface Burn Dump Material Investigation, dated January 13, 1988, has been reviewed by this department. Staff has determined that the work plan will provide adequate characterization of the burn dump deposits.

Based on previous sampling, WCC concludes that further sampling for organic contamination is not warranted. The Hazardous Materials Management Division (HMMD) concurs with this determination. Past experience with burn dumps has shown that organic species are generally not present due to high temperatures of combustion. However, should evidence of organic contamination become apparent, (i.e. stained soil, drums, transformers), the HMMD should be notified immediately.

WCC proposes to conduct random sampling (12 samples) for total lead. Additional analyses proposed include either analyses for soluble lead or analyses for total zinc, copper, chromium and cadmium. Past experience has shown for burn dumps of this era, that if total soil lead concentrations are found to be within acceptable limits, the total soil concentrations for other metals present will also be within acceptable limits. Data from previous sampling supports this position. However, the same conclusion cannot be made with respect to soluble lead in the burn dump. We recommend analyses for soluble lead (denoted in workplans as II-b) on samples where total lead values are greater than ten times the soluble threshold limit concentration (STLC) for lead which calculates to 50 mg/kg total lead.

California State Department of Health Services, (DOHS) has established an Applied Action Level (AAL) for lead in soils at 500 mg/kg. This AAL applies to surface soils in close proximity to residential housing. The AAL can be adjusted upward if it is demonstrated that the contaminated soils will not come in direct contact with humans. Additionally, it must be demonstrated that groundwater or surface waters will not be contaminated. Final remedial measures will depend upon future use of the property.

We look forward to a satisfactory resolution of these issues. If you have any questions please call me at (619) 236-2222.

Sincerely,

ERIC RUSTON  
Hazardous Materials Specialist

COUNTY OF SAN DIEGO

COMPLIANCE INSPECTION REPORT

PAGE 1 OF 4 DATE 3/6/07
PERMIT # 207798
TIME START 1:30 END 4:15
BUS. CODE K26
SPECIALIST Malouzo
INSPECTION CONTACT/TITLE Juvenal Corona / Manager
PHONE: (619) 523-0523

BUSINESS NAME Econo Auto Repair
ADDRESS 3467 Kurtz St
CITY/ZIP San Diego 92110

On the above date, an inspection of your business/facility was conducted in order to determine compliance with the California Health and Safety Code (HSC) Chapters 6.5, 6.7, 6.95; Titles 19, 22 and 23 of the California Code of Regulations (CCR); and the San Diego County Code (SDCC). The following remarks are intended to provide guidance to correct the violations noted on the attached violation report.

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

- Y N/A Unified Program Facility Permit current and available
Hazardous Materials Business Plan available
Employee Training is adequate
Waste disposal records available for review
Emergency contacts current Updated today
Chemical inventory current Updated today
Permit Expires on: / /
Contingency Plan available
Employee Training records available
Waste containers kept closed
Waste containers kept labeled
Waste containers in good condition

NEW BUSINESS SITE

Inspection conducted with Juvenal Corona, Manager.

RECEIVED APR 04 2007

Observations / Violations / Corrective Action / Notice to Comply:

1. Observation / Violation: Hazardous Materials Business Plan not completed and submitted to HMD.

Corrective Action: Within 30 days, submit completed Hazardous Materials Business Plan packet to include all Hazardous materials in disclosable quantities of 55 gallons, 500 pounds or 200 cubic feet; all hazardous waste; a site map, emergency response plan and employee training description. Send to HMD attn: Marie Malouzo at address below along with white copy of Corrective Action Form provided.

2. Observation / Violation: a) Observed 2-55 gallon steel drums of used oil filters missing accumulation start date. All hazardous waste containers must be labeled with the date when waste is first put on the container.

b) Observed used oil filters in about 3 cardboard boxes onsite. Used oil filters must be in rainproof, non-leaking, closed container; and the containers must be labeled "Drained Used"

This is an annual certification that the Hazardous Materials Business Plan (inventory, emergency contacts, emergency response plan, and employee training plan) is current and includes all the information required in the H&SC and is maintained at the site where hazardous materials are stored.

Oil Filters" and clearly marked with the initial date of accumulation.

Corrective Action: Immediately label all containers with used oil filters with the accumulation start date. Also put oil filters in a container that is rainproof, non-leaking and closed.

3. Observation / Violation a) Observed a 55 gallon steel drum of waste antifreeze with an accumulation start date of 2005. Hazardous waste cannot be stored onsite for greater than 180 days for hazardous waste less than 270 gallons per month.

b) Observed a 55 gallon steel drum of waste aerosols onsite with no accumulation start date. Per Juvenal Corona, the container was onsite when they arrived. If accumulation start date cannot be verified, have waste picked up as soon as possible by registered hazardous waste hauler.

Corrective Action: Immediately have all hazardous waste onsite that have been onsite greater than 180 days picked up by a registered hazardous waste hauler. Send copy of manifest/receipt along with Corrective Action Form.

4. Observation / Violation: Observed a 55 gallon drum of motor oil and a steel drum of used oil without bungs and/or lids while not in use. All hazardous waste containers

 E-MAIL: \_\_\_\_\_

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

**NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.**

## RÉSUMÉS

## ALLISON O'NEAL

### Education

BS – Geology, Humboldt State University, Arcata, 2018

### Specialty Certifications

40-Hour OSHA EPA-Approved Hazardous Waste Operations & Emergency Response (HAZWOPER) Training

### Professional Affiliation

San Diego Association of Geologists – Member

### Professional Experience

Ms. O'Neal is an environmental professional with specialized experience in site assessment, subsurface investigation, and due diligence reporting. She is responsible for performing site reconnaissance, reviewing regulatory agency records and historical documents, interpreting evidence related to historical land use, monitoring soil management, collecting data (soil, groundwater, soil vapor sampling, etc.), and generating maps for soil boring/well logs, groundwater gradients, and hydrocarbon iso-concentrations. She also oversees drilling and groundwater monitoring well installations, writes reports for Phase I and II Environmental Site Assessments (ESAs), and ensures that groundwater monitoring reports meet regulatory agency standards.

Her project experience is summarized below.

**Mission Village Shopping Center, Former Dry Cleaning Facility, San Diego, CA.** Ms. O'Neal conducted soil and groundwater assessments to determine the attenuation of a plume of constituents of concern while meeting requirements of the Department of Environmental Health. She oversaw six well installations that included properly documenting well log data. She also assisted with the technical writing of the Subsurface Assessment Report, and created groundwater gradient and constituents of concern iso-concentration maps.

**Villa de Vida Project, Special Needs Residential Community, Phase I and II ESA, San Diego, CA.** Ms. O'Neal performed a Phase I ESA on the property and analyzed the status of potential Recognized Environmental Concerns (RECs), such as a release from on-site underground storage tanks (USTs) (the tanks were used when the site was a Public Works Road Station). The Phase I ESA recommended a subsurface site assessment because of the close proximity to the former USTs. During the Phase II investigation, soil samples detected elevated concentrations of petroleum hydrocarbons. Ms. O'Neal oversaw excavation of the contaminated soil and collected soil confirmation samples at the edges of the excavation.

**Former Country Hills Dry Cleaners, In Situ Chemical Reduction Feasibility Study, Diamond Bar, CA.** Ms. O'Neal oversaw drilling and direct push injection of the appropriate amendments to remediate constituents of concern associated with a former dry cleaner at the site. She created

boring logs, collected waste characterization samples, and helped manage site safety. In addition, she assisted in obtaining the regulatory permits required for the site from the City of Diamond Bar.

**Community HousingWorks San Marcos, Affordable Housing Development, Phase I and II ESAs, San Marcos, CA.** Ms. O'Neal performed a Phase I ESA on the property and analyzed the status of RECs, such as a release from a dry cleaning facility adjacent to the site. After completing the Phase I ESA, SCS recommended a subsurface assessment regarding a historically documented release of constituents of concern. During the Phase II investigation, Ms. O'Neal organized the utility mark-out, mapped boring locations, and oversaw the installation and retrieval of soil vapor samples that were collected. She wrote technical reports for both phases of the environmental investigation.

**Clairemont Village Shopping Center, Phase I ESA, San Diego, CA.** Ms. O'Neal completed a Phase I ESA investigation that included extensive historical research on several automotive repair facilities adjacent to the site, and historic releases from a former gas station and dry cleaning facility also on site. In addition, the client required asbestos, radon, lead-based paint, and mold inspections at the property, using their specific guidance. After completing the Phase I ESA, SCS recommended additional soil vapor sampling in the areas of the former dry cleaner and gas station.

## JENNIFER BAUER MORTON, PG

### Education

BS – Earth Sciences, University of California, San Diego La Jolla, CA 2001

### Professional Licenses

State of California Professional Geologist, License No. 8617

Jennifer Morton, PG

### Specialty Certifications

OSHA 40-Hour HAZWOPER Training

### Professional Affiliations

San Diego Association of Geologists (Past President, 2015)

Commercial Real Estate Women (CREW)

San Diego Environmental Professionals

### Professional Experience

Ms. Morton has worked as an environmental consultant since 2001. As a staff and project geologist Ms. Morton conducted site assessments for numerous leaking underground storage tank projects, installing groundwater monitoring wells, collecting soil and groundwater samples, writing workplans and reports, assisting with remediation, and evaluating data. After several years primarily conducting Phase II site assessments for open environmental cases, Ms. Morton moved into the due diligence area of environmental consulting, initially conducting Phase I/Phase II assessments for gas stations, and later for a wide variety of properties throughout California, as well as in Las Vegas, Nevada and Tucson, Arizona. As a Project Manager, Ms. Morton has overseen numerous Phase I and Phase II site assessments and remediation projects, developing work plans, managing staff and field work, writing and reviewing Phase I and Phase II site assessment reports, developing remediation plans, and interfacing with clients, property owners, and regulatory agencies.

**Phase I ESA, cold storage facility, Downtown Los Angeles, California.** Ms. Morton conducted a Phase I ESA at a cold storage facility constructed in the 1880's in downtown Los Angeles slated for redevelopment. The facility was located adjacent to railroad tracks and in close proximity to a large remedial excavation for multiple leaking underground storage tanks. The cold storage facility included heavy equipment and stored used oil. Historical fire insurance maps revealed that a large transformer had previously been located at the site during the time period when PCBs were likely used. Ms. Morton also identified the former presence of machine shops and spray paint booths, and provided recommendations for soil and soil vapor sampling prior to redevelopment of the site.

**Phase I, Phase II, and Remedial Excavation, auto salvage yard, Chula Vista, California.** Ms. Morton conducted a Phase I ESA at an auto salvage yard slated for redevelopment as an office building complex. Ms. Morton identified historical use of the property as a dairy farm. Due to the potential presence of petroleum hydrocarbons associated with auto dismantling activities, Ms. Morton

recommended and conducted soil sampling throughout the property. During grading activities, a large, 20-foot deep illegal landfill was uncovered. Ms. Morton developed a plan for a remedial excavation and confirmation sampling in conjunction with the local oversight agency, leading to case closure and allowing for redevelopment of the property.

**Phase I, Phase II, and Soil Vapor Extraction, vacant land/former commercial property, Long Beach, California.** Ms. Morton oversaw Phase I, Phase II, health risk assessment, and remediation activities for a property in Long Beach slated for redevelopment as mixed-use commercial and low-income housing. A former dry cleaner and automotive repair facility were identified onsite. Adjoining properties included automotive repair facilities and an upgradient leaking underground storage tank site. Petroleum hydrocarbons and tetrachloroethylene were identified in soil and groundwater at the site. Ms. Morton oversaw the installation of groundwater monitoring wells, permanent soil vapor probes, soil vapor extraction wells, and a soil vapor extraction system. Ms. Morton developed a Removal Action Workplan and worked with the Department of Toxic Substances Control to achieve approval in a short time period to accommodate construction schedules.

**Phase I site reconnaissance at a large apartment complex, Los Angeles, California.** Ms. Morton was part of a team conducting a site reconnaissance for a Phase I ESA at a large apartment complex in the La Brea neighborhood of Los Angeles. The complex included high-rise apartment towers and garden apartment homes constructed in the 1940s above a shallow oil field. Ms. Morton implemented a radon survey during the site reconnaissance. Ms. Morton identified locations of oil collection sumps and methane monitoring equipment, and discovered that USTs used for fueling resident's vehicles were historically located on the subject property.

**Phase I ESA, Historic Inn, Rancho Santa Fe, California.** Ms. Morton conducted a Phase I ESA at a hotel and associated residential properties. Ms. Morton identified former agricultural land using historical aerial photographs at the location of the residences located on the hotel property and provided a recommendation for soil sampling prior to redevelopment of the properties.

**Phase I and Phase II ESA, palm tree farm, Carlsbad, California.** Ms. Morton conducted a Phase I ESA on a property that had been used as a palm tree farm and residence. Ms. Morton discovered regulatory records indicating a UST had also been located at the property. Based on the historical site usage, Ms. Morton recommended soil sampling to determine if the site had been impacted by organochlorine pesticides as well as by petroleum hydrocarbons from the UST. Ms. Morton collected shallow soil samples using a hand auger for pesticide analysis and oversaw direct push drilling in the location of the former UST identified by the property owner to collect soil samples for petroleum hydrocarbon and VOC analysis.

**Leaking Underground Storage Tank Investigations, throughout Southern California.** Ms. Morton worked on a portfolio of leaking UST projects at gas stations for a major oil company. Ms. Morton conducted groundwater monitoring well installations, soil, and groundwater sampling, and workplan, site assessment, and groundwater monitoring report preparation.

**Apartment Complex, San Diego, California.** Ms. Morton conducted a Phase I ESA at a 448 unit apartment complex per Freddie Mac guidelines. Although the subject property did not appear on any regulatory databases, Ms. Morton determined that the complex was constructed within the footprint of a former missile manufacturing facility impacted by chlorinated solvents. Ms. Morton completed an extensive file review at the San Diego County Department of Environmental Health, as well as a limited health risk assessment. Ms. Morton determined that the continued presence of volatile organic compounds in soil vapor beneath the subject property at concentrations representing a potential human health risk could not be ruled out, and was therefore considered a recognized environmental condition.

**Los Angeles Unified School District, Los Angeles, California.** Ms. Morton conducted a Phase I ESA in conformance with California Department of Education requirements at an LAUSD elementary school. Ms. Morton prepared Phase II workplans in conformance with DTSC and LAUSD requirements for several school projects slated for redevelopment, and oversaw soil sampling at one LAUSD property.

**Oxnard School District, Oxnard, California.** Ms. Morton oversaw Phase I and Phase II ESAs for a portfolio of projects in the Oxnard School District. Soil sampling was conducted in accordance with DTSC requirements. Ms. Morton further oversaw the disposal of contaminated soil encountered during the Phase II assessment at several schools where playgrounds were to be reconstructed.

## Specialty Certifications

OSHA 40-hour Hazardous Waste Operations and Emergency Response Training

## Professional Experience

Mr. Houser has 34 years of experience in the earth science industry. He is a registered geologist, certified engineering geologist, and certified hydrogeologist with experience conducting investigations on lithological formations. His experience includes environmental site assessments (ESAs), groundwater monitoring, fault and landslide investigations, groundwater resource studies, geological mapping, and geotechnical investigations. He has assessed and remediated underground storage tanks (USTs) and obtained reimbursement for cleanup costs from the California Underground Storage Tank Cleanup Fund. Mr. Houser's understanding of geology and experience in the earth science industry enable him to prepare useful hydrogeological research, accurate environmental assessments, and appropriate remediation approaches. Notable projects that Mr. Houser has been involved in are described below.

### Underground Storage Tanks

**Former Gasoline Service Station, Pacific Beach, San Diego.** Mr. Houser conducted Phase I/II assessment activities for a client with a restaurant/former gasoline service station site in Pacific Beach. As a result of his assessment, the County re-opened a leaking underground storage tank (LUST) case. The former station operator, a large petroleum company, assumed responsibility for the case and completed the assessment activities, eventually obtaining a closure letter from the agency. During redevelopment of the site to a mixed-use residential/retail development, site grading operations encountered petroleum hydrocarbon contamination within the construction excavation. Mr. Houser quickly characterized and profiled the impacted soil for disposal, and oversaw the excavation and disposal of approximately 1,300 tons of impacted soil, as well as confirmation sampling after removal of the impacted soil. During excavation activities, a previously unknown UST was discovered. Mr. Houser arranged for permitting and removal of this tank. The challenge with this project was to conduct the soil removal and tank removal activities as quickly as possible to minimize delays to the construction schedule. With discovery and removal of the previously unknown tank, the client may now qualify for reimbursement of assessment and cleanup costs from the state's LUST Cleanup Fund.

**San Diego County UST Site Investigations.** Under this contract, San Diego County Department of Public Works had six leaking UST cases located throughout the county. As Project Manager, Mr. Houser conducted site investigations that involved groundwater monitoring and sampling for phase-separated hydrocarbons, volatile organic compounds (VOCs), and other constituents of concern. Collected data were analyzed for quantitative trends in constituents of concern. Mr. Houser also prepared site conceptual models and hydrographs. Using hydrographs, he demonstrated that constituents of concern are generally stable or decreasing. By the completion of the term of the contract, all six leaking UST cases had received regulatory agency closure.

**UST Releases at Havasu Landing, California.** Two separate release cases are open at Havasu Landing, California. The larger of the two releases had a free product plume approximately 300 feet by 150 feet. Mr. Houser oversaw remediation activities, using high-vacuum dual-phase extraction (HVDPE). During a total of about 8 months of HVDPE, approximately 100,000 pounds of hydrocarbons have been removed, and the free product plume has been reduced to a much smaller area. Additional HVDPE will be done to complete remediation of the free product, and a Corrective Action Plan (CAP) is being prepared for additional remediation of dissolved-phase petroleum hydrocarbons.

The other release case is close to the marina at Havasu Landing. The regulatory agency requested additional assessment in the form of groundwater monitoring wells. Mr. Houser has conducted assessment activities to evaluate possible vapor migration to a nearby office building and residence, and conducted a soil and groundwater assessment to evaluate concentrations of petroleum hydrocarbons in the source area and vicinity of the release. With agency approval, additional groundwater monitoring wells have been installed and data from the wells was used to evaluate concentrations of petroleum hydrocarbons in groundwater in the source area, as well as to delineate the extent of the dissolved hydrocarbon plume and evaluate trends in hydrocarbon concentrations over time and potential risk to receptors in the vicinity.

**Former Gasoline Service Station in La Mesa.** Based on information obtained during a Phase I ESA conducted by SCS, the site was a gasoline service station from as early as the 1920s until sometime in the mid-1960s. Initially, Mr. Houser conducted a geophysical survey to assess whether USTs were still present at the Site. This survey indicated at least three USTs present, and the USTs were permitted for removal. Upon excavation and uncovering the tanks, a fourth UST was discovered which was also permitted and removed. A groundwater monitoring well was installed and sampled, and, based on assessment results, the case will likely be closed in the near future.

**Former Jacumba Texaco Site Assessment and Remediation.** Mr. Houser conducted assessment activities pertaining to a release from a UST at the Jacumba Texaco. Based on assessment results, he conducted a pilot test for remediation of petroleum hydrocarbons in the groundwater and completed a corrective action plan. Corrective action measures were implemented and after post remediation monitoring, the case was closed in January 2012.

**Pine Valley Trailer Park.** Mr. Houser conducted groundwater assessment and remediation at Pine Valley Trailer Park in eastern San Diego County. The assessment involved fractured rock aquifer conditions and free product recovery. After remediation was completed and a risk assessment had been conducted, several impediments to closure were brought forward by the San Diego County Department of Environmental Health (DEH). These impediments were addressed and the case was closed in January 2015.

**Shuster Oil.** At the Shuster Oil petroleum distribution facility in Escondido, CA, Mr. Houser has conducted groundwater assessment activities and remediation pilot testing, and prepared a corrective action plan that has been approved by the San Diego County Department of Environmental Health. He oversaw the implementation of the regulatory agency approved corrective action, and the case was closed in June 2015.

**El Capitan Oil.** El Capital Oil in Santee, CA, has impacted soil and groundwater. Mr. Houser completed on- and off-site assessment activities including a risk assessment address possible vapor migration into the Site building, conducted high-vacuum extraction pilot testing, and implemented interim remediation. The case was closed in May 2017.

**Proposed Redevelopment Site on El Cajon Boulevard in San Diego.** Mr. Houser oversaw the removal of four USTs, three at one location of the Site and one in another part of the Site. These were managed by the regulatory agency as two separate UST cases. For the portion of the Site with three USTs, upon removal of the USTs, Mr. Houser conducted post tank removal assessment and excavation of impacted soil in accordance with an approved workplan. Impacted soil was successfully removed and transported to a licensed facility for recycling, and the case received regulatory agency closure. For the single UST case at the site, after post tank removal assessment and excavation was conducted, additional assessment in the form of drilling and sampling soil borings successfully delineated the extent of the impacted soil and confirmed that the release had not impacted groundwater, and that case also received regulatory agency closure.

**G Street Remediation.** Pattern drilling was conducted to remove relatively deep contamination under the sidewalk at the site. Mr. Houser monitored the remediation, conducted geologic observation, and coordinated all field activities. Field activities involved regular (daily) scheduling of subcontractors for drilling, laboratory analysis, and backfill of borings.

**Mission Boulevard and Pacific Beach Drive.** The Mission Boulevard and Pacific Beach Drive case was opened for construction at a former gasoline station. The project included excavating and disposing impacted soil, groundwater assessment, a health risk assessment, and San Diego County Department of Environmental Health approval to mitigate the site using a vapor barrier. The case received regulatory agency closure and the site is now developed as a multi-story mixed-use commercial and residential development.

## Environmental Site Assessments

Mr. Houser has completed Phase I ESAs and subsurface investigations for a large variety of land uses and conditions. The following is a representation of the types of properties and conditions for which Mr. Houser has completed ESAs:

### Phase I ESAs:

- Redevelopment project in the North Park neighborhood in the City of San Diego.
- Caltrans Route 105 easement adjacent to Los Angeles International Airport and Hughes/Raytheon facilities.
- Numerous graded but undeveloped sites associated with the Parkway Business Centre in Poway, CA.
- El Centro Motors – Former dealership from 1920s with a long history of environmental issues.
- California Environmental Quality Act (CEQA) process on numerous projects in San Diego and Imperial Counties.
- Proposed school sites in the City of San Diego.

### Subsurface Investigations:

- Caltrans maintenance stations in Boulevard and Torrance, CA.
- Numerous aerially-deposited lead investigations for Caltrans for proposed road and freeway improvements throughout the San Diego area and Los Angeles basin.
- Caltrans project along Route 57 in Brea, CA, with native petroleum hydrocarbon deposits along a cut slope.
- Assessment of groundwater conditions for proposed lowering of the freeway along Interstate-5 in Buena Park, CA.
- Assessment of residential development in San Diego, CA, with petroleum hydrocarbon-impacted soil/rock and methane in shallow soil vapor.
- Property in San Diego with thick (up to 8 feet) free product and water table elevations apparently influenced by faulting or similar subsurface structure.

### Litigation Support

**Northern San Diego County Diesel Fuel Spill.** A public utility company caused a diesel spill that threatened a fresh water spring used as a drinking water source. The site is underlain by weathered and fractured granitic rock. In addition to reviewing data collected by the utility's consultant during assessment and cleanup of the diesel spill, Mr. Houser conducted an assessment of the nature and orientation of the fractures and potential fracture connectivity between the diesel release area and the spring. This assessment included review of available documents addressing geologic and groundwater conditions in the region of the site, field mapping of the locations and orientations of fractures in available exposures in the immediate proximity of the site, and development of a 3-dimensional model of the fracture system between the release site and the spring. The result of the assessment was to conclude that potential connectivity did exist between the diesel release and the spring.

**Assessment of Sedimentation Rates after the Rice Fire, Northern San Diego County.** Following the 2007 Rice Fire in the Fallbrook/Rainbow area of northern San Diego County, several man-made ponds of an agricultural ranch filled with sediment and could no longer be maintained as ponds. The sediment that filled the ponds contained detectable concentrations of pesticides, limiting options for removal of the sediments and increasing substantially the cost of disposal of these sediments. Mr. Houser conducted an assessment designed to evaluate the quantity of sediment deposited after the Rice Fire. Analysis of soil core samples collected from a pond that experienced significant sedimentation after the fire revealed features in the soil consistent with rapid deposition above approximately 8 foot depth. At and below approximately 8 feet, features consistent with slow, normal deposition in a healthy pond environment were observed. These observations allowed the plaintiff to demonstrate that the fire did cause erosion leading to rapid sedimentation of the ponds and damage to the property.

### Water Resources

**San Marcos Creek Water Quality Study.** SCS is conducting a study of the San Marcos Creek Valley to understand how the lake water levels, surface water flows, and groundwater are interacting and affecting water quality. Mr. Houser conducted long-term groundwater monitoring using submerged pressure transducers in groundwater wells. Groundwater samples from quarterly sampling events

were analyzed for nutrients, and hydraulic conductivity was calculated from data generated by performing pump tests on selected wells. The data, along with nutrient levels in the creek valley groundwater, were analyzed to determine how these water sources interact and affect overall water quality.

**Major Golf Course Project.** Mr. Houser conducted hydrogeological evaluation and fracture trace analysis at a large golf course underlain by fractured granitic rock in central San Diego County. The purpose of the evaluation was to assess if increasing groundwater usage could adversely affect neighboring groundwater usage. Mr. Houser prepared a hydrogeological assessment report, prepared annual groundwater reports pursuant to requirements of the local government entity, and conducted an aquifer test to evaluate the response of neighboring wells to pumping at the golf course.

**Carmel Mountain Ranch Golf Course.** Mr. Houser conducted hydrogeological evaluation and fracture trace analysis at the Carmel Mountain Ranch golf course near Poway, CA. The golf course is underlain by fractured granitic and volcanic rock. Based on the evaluation and analysis, a test boring was drilled at the golf course. Mr. Houser oversaw the drilling activities and reviewed boring logs. The test boring was converted to a groundwater supply well to diversify the course's water supply.

**Seascape Golf Course.** Mr. Houser designed and constructed a new supply well to replace an existing well that had been requiring greater and greater maintenance over time. After initial drilling of a pilot boring, it was logged to record lateral resistivity and spontaneous potential ("E-logging"). The E-log was used to determine the screened intervals for the well. The boring was overdrilled and a 12-inch diameter well casing and screen set per the design. The well yield surpassed the expectations of the golf course.

**Jacumba Groundwater Resource Development.** For groundwater resource development in Jacumba, CA, Mr. Houser conducted hydrogeological research; completed geological mapping of approximately 3 square miles; installed test wells at multiple sites; and oversaw the drilling and installation of two approximately 500-foot-deep municipal groundwater supply wells.

**Summit Drive Drainage Improvement.** The San Diego County Summit Drive Drainage Improvement Project requires dewatering. As Project Manager, Mr. Houser completed a dewatering sampling study to estimate the discharge that proposed construction dewatering would generate. He also assessed, in the course of the study, the potential impact that construction dewatering may have on the underlying aquifer.

**Guatay Mutual Benefits Corporation.** Guatay Mutual Benefits Corporation (GMBC) applied for a grant to develop and improve their groundwater resource in the community. To support the grant application, Mr. Houser conducted field and aerial photo research. He evaluated multiple potential well locations and existing groundwater production data for the community. Eventually, Mr. Houser drilled two test wells for GMBC. Both test wells have now been completed as municipal supply wells, and Mr. Houser is managing the construction of the water pipeline and pump houses, including a SCADA system, to convey water from these new wells into the community water supply system.

**San Diego County Road Improvements.** To support San Diego County road improvement projects, Mr. Houser has collected and analyzed soil and groundwater data to evaluate aquifer characteristics for estimation of potential discharge during dewatering operations; determined groundwater quality and compliance with the San Diego Regional Water Quality Control Board order for discharge to inland surface waters; and prepared a groundwater treatment plan to mitigate any groundwater impacts. A treatment system was designed based on the estimated discharge during dewatering to treat constituents exceeding the levels in the order.

**Hydrogeological Investigation – Indian Reservation Water Resources Study.** Mr. Houser was the principal investigator for a water resource study on a portion of an Indian reservation in northern San Diego County. The study involved evaluation of existing water resources and potential additional resources, and included data research, field mapping, and geophysical surveys of the field area. A principal challenge of the project was geologic structure in the area, which includes a major Southern California fault zone. Several favorable locations for exploratory test wells were identified for drilling.

**Drinking Water Source Assessment, San Marcos.** Public water supply wells must be licensed by the State of California. As part of the licensing process, and assessment of possible contamination sources that might impact the water source well must be performed. In the case of the San Marcos well site, Mr. Houser conducted the assessment in accordance with the State requirements. Several potentially contaminating sources were identified and addressed during the assessment, and a recommendation for the installation and monitoring of “sentry” wells was made. Sentry wells serve as an “early warning” system if groundwater contamination exists and is moving toward a drinking water supply well.

## Landfills

**Class I Waste Disposal Facility RCRA Facility Investigation.** Mr. Houser participated in an RCRA Facility Investigation at a Class I waste disposal facility in Martinez, CA. This project involved complex well construction and drilling in Level B protection (airline and cascade air system). He was responsible for coordination of all field activities and geological logging of drilled wells.

**Los Coyotes Indian Reservation Burn Dump Site.** At the Los Coyotes Indian Reservation in San Diego County, CA, Mr. Houser characterized contaminants of concern at the open burn dump site.

**San Diego County Landfill Sites – Feasibility Studies.** To plan for proposed landfill sites, Mr. Houser conducted research and field work for feasibility studies at six proposed sites. Fieldwork included excavation of exploratory trenches for the purpose of assessing soil and rock conditions, and installation and sampling of shallow (up to 30 feet deep) and deep (up to 500 feet deep) groundwater monitoring wells for the purpose of assessing baseline groundwater conditions.

**Pala Landfill Facility Assessments.** For the Pala Landfill Facility on the Pala Indian Reservation in San Diego County, CA, Mr. Houser assessed the fill cells and possible groundwater impacts.

**Otay, Sycamore Canyon, Ramona, and Borrego Landfills.** Mr. Houser has participated in the drilling and construction of landfill gas recovery wells and/or landfill gas monitoring probes at these landfills around San Diego County.

**Solid Waste Water Quality Assessment Test (SWAT), Arizona Street Landfill.** Mr. Houser was the principal investigator and report writer for a SWAT conducted for the Arizona Street Landfill in San Diego.

## Fault Investigations

**Master’s Thesis, Old Woman Springs Fault.** Mr. Houser completed his Master’s thesis studying the tectonic geomorphology and Quaternary history of the Old Woman Springs fault in the western Mojave Desert near the town of Landers, CA. The project involved mapping the fault and assessing the timing of past earthquakes.

**La Nacion Fault Zone, Nye School Site.** Mr. Houser completed an assessment of the La Nacion Fault Zone at the Nye School site to identify the location and age of faulting.

**Murrieta Creek Fault Zone.** For a development project near Murrieta, CA, Mr. Houser completed an assessment of the location and age of faulting.

**San Andreas Fault Zone.** Near Palm Springs in the Coachella Valley, Mr. Houser participated in assessment of fault locations and characterization based on relationship to various ages of alluvial fan deposits cut by the faults. The work was completed for a new development project.

**Rose Canyon Fault Zone – Fault Strand Investigation.** In downtown San Diego, Mr. Houser investigated a fault strand within Rose Canyon Fault Zone. The investigation included assessment of the age of faulting for the purpose of characterizing the fault for proposed development.

### Additional Project Experience

Navy Clean and Department of Defense. Mr. Houser managed logistics and executed projects for the Department of Defense's Navy CLEAN program and other Department of Defense projects. The facilities for which he provided services included:

- Marine Corp Base, Camp Pendleton
- Naval Air Station, North Island
- Naval Training Center, San Diego
- Naval Station, San Diego
- Naval Submarine Base, San Diego
- Naval Amphibious Base, Coronado
- Naval Air Field, El Centro
- Naval Auxiliary Landing Field, San Clemente Island
- Mather Air Force Base
- George Air Force Base

**Borrego Springs State Park Site Research and Reconnaissance.** Mr. Houser conducted research and site reconnaissance to monitor off-highway vehicle damage in proposed California State Park lands east of Borrego Springs in Imperial County, CA. The site was flown to obtain aerial photos of approximately 23 square miles. The research, aerial photo, and resulting report were used to support an interim management plan to be implemented by the State of California Department of Parks and Recreation in the project area and, ultimately, the addition of approximately 13 square miles to Anza-Borrego Desert State Park.

**Anza Borrego Desert State Park Investigation.** A bulldozer trespassed into the Anza Borrego Desert State Park. To investigate the incident, Mr. Houser conducted research and field mapping, and prepared an investigation report for a 2.5-mile trail left by the bulldozer.

**Harbor Drive Pedestrian Bridge.** Mr. Houser implemented the Hazardous Materials Management Plan during the Harbor Drive Pedestrian Bridge construction in San Diego, including verification that hazardous materials excavated at the site were properly profiled, transported, and disposed, and in situ sampling for directly loading soil, thus enhancing the construction schedule and provided cost savings to the Centre City Development Corporation.

## LUKE MONTAGUE, PG

### Education

MS – Environmental Science and Management, University of California, Santa Barbara, 2004  
 BS – Geology, University of California, Santa Barbara, 1998

*Luke Montague, PG*

### Professional Licenses

Professional Geologist – California (No. 8071)  
 General Building Contractor, B Classification – California (No. 981618)

### Specialty Certifications

Occupational Safety and Health Administration (OSHA) Hazardous Waste Operations and Emergency Response (HAZWOPER) 40-Hour Training  
 Real Estate Entitlement, Development, and Design, University of San Diego, 2010  
 Real Estate Finance, Investments, and Development, University of San Diego, 2010

### Professional Experience

Mr. Montague is a Professional Geologist (PG) and licensed contractor with a Masters in Environmental Science and Management, with 15 years of experience in environmental consulting, and 4 years of experience in general contracting and development for commercial and residential developments. He has performed and reviewed over 500 Phase I Environmental Site Assessments (ESAs), and has completed and overseen a large amount of Phase II subsurface investigations, Human Health Risk Assessments (HHRAs), Remedial Action Plans (RAPs), and site remediation activities. Luke also has two additional years of experience performing other consulting services including geotechnical investigations, asbestos and lead-based paint (LBP) surveys, and asbestos air monitoring. His development, general contracting, and property and asset management experience includes managing construction through lease-up; lease administration and property operations and maintenance; contract procurement and administration; oversight of subcontractors and staff; and interfacing with clients, owners, tenants, and regulatory agencies.

Mr. Montague's project experience is summarized below.

**Manchester Financial Group, Redevelopment of Eight City Blocks for the Manchester Pacific Gateway Project, San Diego, CA.** As Project Manager, he oversaw assessment and construction remedial planning involving soil excavation and export of up to 800,000 cubic yards of soil on land owned by the Department of the Navy. Soil export is to accommodate the construction of two levels of subterranean parking across eight city blocks located adjacent to San Diego Bay, which are currently being redeveloped into office, hotel, retail, park, and other uses. Remedial construction activities are anticipated to be completed by mid-2019.

**Rincon Band of Luiseno Indians, Due Diligence Services for Tribal Properties, Valley Center, CA.** Mr. Montague has served as a Project Manager on Phase I and II ESAs supporting the due diligence process of various properties for the Tribe. He also served as an expert witness in tribal court

regarding the Tribe's oversight of a property within the Reservation, in support of protecting Tribal resources that included soil and groundwater.

**Frontera Real Estate, Redevelopment of Former County Road Station with Self-Storage Facility, Spring Valley, CA.** Mr. Montague served as Project Manager overseeing the assessment, remedial planning, and remediation consisting of oversight, segregation, and on-site burial of residual petroleum hydrocarbon (PHC)-impacted soils from a former unauthorized release of gasoline from underground storage tanks (USTs) previously operated by a County Road Station.

**Brixton Capital, Gasoline Service Station Redevelopment with Retail Buildings, Chula Vista, CA.** As Project Manager, Mr. Montague oversaw the assessment, remedial planning, and remediation consisting of oversight, segregation, and on-site burial of residual PHC-impacted soils from a former gasoline service station release property redeveloped with new retail buildings.

**RD Brown Company, Leaking Underground Storage Tank (LUST) Case Assessment and Remediation, City of Imperial, CA.** As Project Manager, Mr. Montague oversaw several on- and off-site soil, soil vapor, and groundwater assessments, and is currently overseeing ongoing remediation and monitoring of a proposed senior living facility at a former gasoline service station.

**San Diego County Water Authority (SDCWA), Environmental Consulting Services, San Diego, CA.** As Project Manager, Mr. Montague completed several ESAs and subsurface assessments to assist the SDCWA in obtaining easements required to complete the Carlsbad Desalination Project.

**City of Encinitas, Site Investigation and Planning, Encinitas Community Park, Encinitas, CA.** As Project Geologist, Mr. Montague provided oversight for mitigation and monitoring activities involving pesticides in soil from the Hall Property, which consists of 43 acres of coastal bluff that was formerly used as a nursery and was redeveloped into a community park. Under the oversight of the County of San Diego Department of Environmental Health (DEH), work consisted of Phase II ESAs, remedial planning and implementation of on-site reuse/burial of 45,000 cubic yards of pesticide-impacted soil in a Soil Management Zone, and creation of a land-use covenant. SCS received an award for this project with the Industrial Environmental Association (IEA).

**Los Angeles Unified School District (LAUSD), Assessment and Remediation, Various Locations in Los Angeles County, CA.** Mr. Montague managed and performed the environmental characterization and cleanup of various proposed school redevelopment projects overseen by the California Department of Toxic Substances Control (DTSC) that required Phase I ESAs, preliminary environmental assessments or subsurface investigations, and preparation and implementation of removal action work plans to obtain "no further action" status prior to redevelopment.

**City Heights Revitalization Corporation, Brownfields Assessment and Remediation, City Heights, CA.** Mr. Montague managed a subsurface investigation for an entire Brownfields city block planned for redevelopment. The investigation included extensive drilling, trenching, and hand auguring to estimate the volume of lead- and hydrocarbon-impacted soil from residual contamination from a former service station and from lead-based paint. Work also included negotiation of cleanup levels with the local regulatory agency.

**Casmalia Steering Committee, Remedial Investigation, Casmalia, CA.** Mr. Montague managed and performed soil vapor sampling at the Casmalia Hazardous Waste Management Facility, a Class I hazardous waste site, for a remedial investigation and feasibility study of soil gas impacts submitted to the U.S. Environmental Protection Agency (U.S. EPA). Soil gas impacts to ecological receptors were assessed, considering specific regulatory guidance, including the joint DTSC and Los Angeles Regional Water Quality Control Board (LARWQCB) Advisory on Active Soil Gas Investigations.

**The Boeing Company, UST Assessment, Long Beach, CA.** Mr. Montague performed subsurface vapor intrusion to indoor air analysis at a former aeronautics manufacturing facility. Soil, soil vapor, and sub-slab soil vapor extraction (SVE) assessments were conducted to determine appropriate corrective actions associated with former solvent USTs. Work was performed under the corrective action consent agreement with the DTSC.

**Trihydro Corporation, Soil Vapor Sampling, Hooven, OH.** Mr. Montague performed SVE sampling from indoor air probes and outdoor multi-level probes at residences in Hooven, OH. This project focused on helping to evaluate the potential for subsurface vapor intrusion to indoor air from volatilization of PHCs in groundwater, or light, non-aqueous phase liquid petroleum product originating from an adjacent former fuel and asphalt petroleum refinery. The vapor intrusion pathway was evaluated based on a request by the U.S. EPA, Region V, and was performed in accordance with the EPA-issued document, Draft Guidance for Evaluating the Vapor Intrusion to Indoor Air Pathway from Groundwater and Soil, 2002.

**CSK Auto, Phase I ESAs, Various Sites in the Western U.S.** Mr. Montague conducted Phase I ESAs, subsurface investigations, and geotechnical investigations for the development of auto parts chain stores in the western U.S. Work included site investigations, drilling operations, and records research.

**AT&T/Gianni & Associates, Phase I ESAs and Geotechnical Investigations, San Diego, CA.** Mr. Montague completed Phase I ESAs, transaction screen assessments, National Environmental Policy Act (NEPA) reports, asbestos surveys, and geotechnical investigations involving the development of wireless communications sites.

**Ford Mance Company, Construction and Property Management, Mixed-Use Building at 111 Chesterfield Drive, Encinitas, CA.** Mr. Montague served as Project Manager during the development and construction phases of a 2-story, Type V, 3,874-square-foot mixed-use building with subterranean parking. Responsibilities included managing all phases of construction and shell and tenant improvements, and assisting in construction supervision activities and lease-up. Development activities included oversight and collaboration of architectural, mechanical, electrical, and plumbing plans preparation, assisting with design research and decisions, obtaining various permits, and preparing cost and budgets. After construction, Mr. Montague also served as the Property and Asset Manager.

**Ford Mance Company, Construction and Property Management, Del Norte Medical Plaza, Carlsbad, CA.** Mr. Montague served as Project Manager during the development and construction of a 2-story, Type II, medical building with subterranean parking. Responsibilities included contracting out all phases of shell construction of 22,000 square feet of rentable area for medical use, collaborative oversight concerning architectural, mechanical, electrical, and plumbing plans preparation, assisting with design research and decision-making, obtaining various permits, and preparing costs and budgets. After construction, he also served as Property and Asset Manager.

**California Department of Fish and Game, Carpinteria Creek Watershed Plan, Carpinteria, CA.** Mr. Montague collaborated with local and state government representatives, and various stakeholders, to aid in preparing the Carpinteria Creek Watershed Plan under the Cachuma Resource Conservation District for the California Department of Fish and Game (CDFG). Work consisted of research, meetings, various field assessments, report writing, and map creation. The Plan served as an amendment to the Water Quality Control Plan for the Central Coast Region.

## Affordable Housing

**San Diego Housing Commission, Phase I and II ESAs, San Diego, CA.** As Project Manager, Mr. Montague oversaw the assessment of several sites that were redeveloped for affordable housing purposes.

**Community HousingWorks, Phase I and II ESAs and Soil Mitigation, San Diego, CA.** Mr. Montague was the Project Manager for several affordable housing developments, including working on San Diego's first LGBT senior housing project, where lead-bearing soil was safely buried or reused under building improvements during grading activities.

**Mercy Housing Corporation, Phase I and II ESAs and Soil Mitigation, San Diego, CA.** Mr. Montague managed the environmental assessment and cleanup portion of the redevelopment of a creek-front Poway site with a former LUST case into Villa de Vida, a home for adults with developmental disabilities. SCS investigated, identified, and remediated left-in-place impacted soil from several former LUSTs, as well as from lead-bearing soil.

**BRIDGE Housing, Phase I and II Site Assessments, Southern California.** Mr. Montague has managed several affordable housing projects that have included subsurface assessment and soil characterization, with soil mitigation planning and implementation to be completed at a later date.
