- ☐ Statutory Exemption. State code number:
- ☐ Common Sense Exemption (Section 15061(b)(3))
- ☐ Other:

Reasons why project is exempt:

Section 15302 Replacement or Reconstruction (Class 2): Class 6 consists of basic data collection, research, experimental management, and resource evaluation activities which do not result in a serious or major disturbance to an environmental resource. The project involves performing overwater soil exploratory boreholes to collect subsurface soil samples and logging subsurface conditions for the proposed CARB Shore Power Project at Marathon Terminal 2, Port of Long Beach (POLB) which does not result in a serious or major disturbance to an environmental resource.

The Port has determined that none of the exceptions to the exemptions in the California Environmental Quality Act (CEQA) Guidelines Section 15300.2 foreclose the use of Categorical Exemption CEQA Guidelines Section 15306 (Class 6. Information Collection); therefore, the Project is exempt from CEQA and no further environmental review is required.
