SUBJECT: *Filing of Notice of Determination pursuant to Public Resources Code section 21108*

State Clearinghouse Number: 2024030011

Project Title: Arden Way Complete Streets Phase II: Strong Ranch Slough (Streambed Alteration Agreement EPIMS Notification No. SAC-62863-R2)

Project Location: The project is located at Strong Ranch Slough, east of the Arden Way and Fulton Avenue intersection in the Arden-Arcade area, in the County of Sacramento, State of California; Latitude 38.59609, Longitude -121.40084 (WGS 84 datum, decimal degrees); Assessor's Parcel Number 279-0230-001-0000.

Project Description: The California Department of Fish and Wildlife (CDFW) has executed Streambed Alteration Agreement EPIMS Notification Number SAC-62863-R2, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Sacramento County.

The project is limited to a culvert extension within Strong Ranch Slough that is part of the street widening required to accommodate bike lanes on either side of Arden Way. The existing double box (cell) culvert will be extended 12 feet northward using cast-in-place. Each culvert cell is approximately 9 feet wide and 7 feet high. The construction will involve the grading of the channel prior to laying new foundation support for the overhead bridge/culvert expansion. The new culvert extensions will maintain the same alignment as the existing channel. Class IV rock slope protection (RSP) will be placed for a distance of 8 feet beyond the constructed culvert extension end, at a depth of 2.5 feet with fabric underneath. The RSP will extend across the creek to the top of the slope of both banks and cover approximately 450 square feet.

This is to advise that CDFW, acting as a Responsible Agency, executed the above-described Streambed Alteration Agreement on the date signed below and has made the following determinations regarding the project pursuant to California Code of Regulations section 15096, subdivision (i):

1. The project will not have a significant effect on the environment. This determination is limited to effects within CDFW's permitting jurisdiction as a Responsible Agency.

Notice of Determination**- 2 -**

2. CDFW considered the Mitigated Negative Declaration prepared by the Lead Agency for this project pursuant to California Code of Regulations section 15096, subdivision (f).
3. Mitigation measures were made a condition of CDFW's approval of the project.
4. A mitigation reporting or monitoring plan was not adopted by CDFW for this project.
5. A statement of overriding considerations was not adopted by CDFW for this project.
6. Findings were not made by CDFW pursuant to California Code of Regulations section 15091.

The mitigated negative declaration prepared for the project is available to the general public at the office location listed above for the Lead Agency. CDFW's record of execution of the above Streambed Alteration Agreement as Responsible Agency is available at CDFW's regional office.
