PROJECT ANALYSIS & FINDINGS:

Land Use/Zoning Designations

Neighborhood Commercial/C2

Surrounding Land Use/Zoning Designations

Neighborhood Commercial/C2; Low Medium II Residential/RD1.5 & RD2

Subject Property

The subject site is a fully developed lot within the West Adams - Baldwin Hills - Leimert Community Plan Area. The lot is approximately 112 feet deep and a width of 32 feet along Prairie Street. The site is currently developed with a commercial building, built over 50 years ago, proposed to be maintained.

The site has a commercial land-use designation and is zoned C2. The site is located within Council District 10, Mid City Neighborhood Council, the lot is flat and contains pre-existing building to be used by the Applicant.

Abutting Properties

Abutting uses include printing business, other commercial uses, and single-family homes within 200 feet of the site. The immediate area along Venice Blvd is predominantly developed with commercial uses, zoned C2. (See Exhibit A)

CEQA Findings

CEQA Guidelines, Section 15332, Class 1 and Class 32, consists of projects characterized as in-fill development meeting the following 5 conditions: (a) The project is consistent with the applicable general plan designation and all applicable general plan policies as well as with the applicable zoning designation and regulations; (b) The proposed development occurs within city limits on a project site of no more than five acres substantially surrounded by urban uses; (c) The project site has no value as habitat for endangered, rare or

threatened species; (d) Approval of the project would not result in any significant effects relating to traffic, noise, air quality, or water quality; and (e) The site can be adequately served by all required utilities and public services.

These conditions are met as follows: The project is consistent with the applicable general plan designation and all applicable general plan policies as well as with the applicable zoning designation and regulations for the requested commercial cannabis activities.

a) The site is comprised of one lot totaling approximately 3,535 gross square feet, zoned MR1-1 (limited manufacturing), and is currently developed with a 6,605 square-foot commercial building, covering multiple parcels, originally constructed in 1953, and paved parking spaces. No relief has been requested from any applicable provision or requirement of the Los Angeles Municipal Code.

b) The subject site is wholly within the City of Los Angeles, on an approximately 3,535 gross square foot property (i.e., less than five acres), and is substantially surrounded by urban uses. The surrounding area is zoned Neighborhood Commercial/C2; Low Medium II Residential/RD1.5 & RD2 and developed with a mix of commercial buildings and single family dwellings.

c) The project site has no value as habitat for endangered, rare or threatened species. The project is located within an established, fully developed, neighborhood. The project site has no value as habitat for endangered, rare or threatened species. The project does not propose the removal of any trees on-site and/or within the adjacent public right-of-way.

d) Approval of the project would not result in any significant effects relating to traffic, noise, air quality, or water quality.

e) The site can be adequately served by all required utilities and public services. The project site will be adequately served by all required public utilities and services, given that the site is currently served by the City's Department of Water and Power, the City's Bureau of Sanitation, the Southern California (SoCal) Gas Company, the Los Angeles Police Department, the Los Angeles Fire Department, Los Angeles Unified School District, Los Angeles Public Library, and other public services. Compliance with Regulatory Compliance Measures as enforced through the Department of Building and Safety permitting process will ensure that any needed improvements are made in order to provide adequate delivery of utilities and services to the proposed project.

CEQA Section 15300.2: Exceptions to the Use of Categorical Exemptions. The City has further considered whether the proposed project is subject to any of the exceptions set forth in State CEQA Guidelines Section 15300.2, that would prohibit the use and reliance on the categorical exemptions. None of the exceptions are triggered. As the proposed project will result in no physical changes to the site, the project would not have physical impacts to the environment. As such, it would not have a combined impact with other projects in the area that would result in cumulative impacts. There are no unusual circumstances associated with the project, which is proposed in general plan designation and zoning classification that allow the proposed use. The project would have no impact on scenic resources and the site is not on the lists that satisfy Government Code Section 65962.5, commonly referred to as the "Cortese List," as being affected by hazardous wastes or clean-up problems.

Based on the analysis above, the proposed project is consistent with the criteria for a Class 1 and Class 32 Categorical Exemption pursuant to CEQA Guidelines Section 15331 and does not require further analysis based on the exceptions in CEQA Guidelines Section 15300.2, and thus, DCR finds that no further CEQA analysis is required.

In conclusion, since the project meets all of the requirements for categorical exemption as set forth at CEQA Guidelines, Section 15332, and none of the applicable exceptions to the use of an exemption apply to the project, it is appropriate to determine this project is categorically exempt from the requirements of CEQA.

DEPARTMENT OF CANNABIS REGULATION RECOMMENDED ACTIONS:

That the Cannabis Regulation Commission:

1. Determine, based on the whole of the administrative record, that the project is exempt from the California Environmental Quality Act (CEQA) pursuant to Article 19, Section 15301, Class 1, and Article 19, Section 15332, Class 32 of the State CEQA Guidelines (tit. 14, Cal. Code Regs., §§ 15301, 15332), and there is no substantial evidence demonstrating that an exception to a categorical exemption pursuant to CEQA Guidelines Section 15300.2 applies;
2. Pursuant to Los Angeles Municipal Code Section 104.06(b)(2), approve the Annual License for Type 10 Storefront Retail Commercial Cannabis Activity at the Business Premises location; and,
3. Adopt DCR's Project Analysis & Findings, and Notice of Exemption (Exhibit B) included in the Department's written report as the findings of the Commission.
