RE: Phase I Environmental Site Assessment
Selma 39 Acre Development
Floral Avenue West of Highway 99
Selma, California

Mr. Kuniyoshi:

In accordance with your request and authorization, Technicon Engineering Services, Inc. (Technicon), has performed a Phase I Environmental Site Assessment of the above-referenced site in conformance with the scope and limitations of ASTM Practice E-1527-13. Any exceptions to, or deletions from, this practice are described in Section 2.4 of this report. The results of the investigation are detailed in the attached report.

We appreciate the opportunity to assist you with your project. If you should have questions or require additional information, please contact us at (559) 276-9311.

Respectfully,
TECHNICON Engineering Services, Inc.

PHASE I ENVIRONMENTAL SITE ASSESSMENT
SELMA 39 ACRE DEVELOPMENT
FLORAL AVENUE
SELMA, CALIFORNIA

1.0 SUMMARY

We have performed a Phase l Environmental Site Assessment of the Site in conformance with the scope and limitations of ASTM Practice E-1527-13. Any exceptions to, or deletions from, this practice are described in Section 2.4 of this report.

The subject site consists of one parcel encompassing approx. 39 acres on the south side of Floral Avenue, west of Highway 99 in Selma, California. The site consists of vacant agricultural land. Two irrigation/domestic wells associated with former agricultural use and farmhouses are also located at the Site.

From sometime prior to 1937 until sometime in the 2000s the subject site consisted of agricultural land. A rural residence and associated out-buildings were present in the northeast portion of the Site until the 1970s. A pole barn associated with an off-site residence straddled the northeast property line from the early 1980s until the early-2000s..

This assessment has revealed no evidence of recognized environmental conditions (RECs), controlled RECs, historical RECs, or records of environmental liens in connection with the property.

The following data gap was identified during this assessment: As of the date of this report, representatives of Walmart Stores, the owner of the subject site, declined to respond to our request for an interview regarding the Site history and operations.

2.0 INTRODUCTION

In accordance with the request and authorization of Mr. Danny Kuniyoshi of River Park Properties II, TECHNICON Engineering Services, Inc. (Technicon) has conducted a Phase I Environmental Site Assessment (ESA) of the above-referenced Site. The following sections present a description of the Site and vicinity, available information obtained during this investigation, and our evaluations.

2.1 Objective

The purpose and objective of this investigation was to evaluate existing or potential environmental impacts at or near the Site and to permit the user to satisfy one of the requirements to qualify for the "innocent landowner defense" to the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) liability: that is the practices that constitute "all appropriate inquiry into the previous uses and ownership of the property consistent with good commercial or customary practices" as defined in 42 USC Section 9601 (35)(B). This practice may also qualify the user for protections under the bona fide prospective purchaser defense and the contiguous property owner defense to the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) liability.

The goal of the processes established by this practice is to identify recognized environmental conditions (RECs), meaning "presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to any release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment." The goal is to also identify any historical recognized environmental conditions (HRECs), meaning past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls, or controlled recognized environmental conditions (CRECs), which are defined as recognized environmental condition resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority.

2.2 Scope of Services

The Phase I Investigation consisted of but was not limited to a visual inspection of the Site and surrounding properties, a review of available regulatory agency records and permits, aerial photographs, and interviews with persons knowledgeable of the Site. The investigation was conducted in general accordance with the guidelines presented in American Society of Testing and Materials (ASTM) Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process E1527-13.

The Phase I ESA included a site reconnaissance, interviews with parties knowledgeable regarding the history of the site, review of regulatory agency records, review of historical records including aerial photographs to establish a site history to the earliest development of the site, and

preparation of a report detailing the findings of the ESA including any recognized environmental conditions potentially affecting the site.

2.3 Significant Assumptions

Technicon assumes that all information provided by regulatory agencies and the database provider is accurate and reliable to the extent implied.

2.4 Limitations and Exceptions

The objective of this investigation was to evaluate existing or potential environmental impacts due to the present or past usage or storage of hazardous materials or substances at or near the Site. The performance of this investigation does not certify or guarantee that the subject property is free of environmental impacts or hazardous materials, but rather presents our opinion as to the potential for such impacts to exist. The conclusions presented herein regarding the environmental integrity of the property are based on the observations and information gathered during the investigation. Many of the regulatory agency records and databases researched are several months to several years in age and may not accurately reflect current conditions or information, but these records are the most up-to-date information available from the regulatory agencies.

The focus of the ESA was to assess the potential for hazardous materials impact to the Site resulting from previous and current uses of the Site and nearby properties. As a result, this assessment does not address the presence of the following conditions unless they were specifically requested as part of the scope of work.

1. Naturally-occurring toxic or hazardous materials in the subsurface soils and water.
2. Potential effects of products commonly present on inhabited properties, such as household products, building materials, and consumer goods.
3. Constituents or contaminant concentrations that are not currently regulated but may be regulated under future statutes.

It must also be recognized that a Phase I Environmental Site Assessment is intended for the purpose of determining site conditions through limited research and investigation and can in no way be considered a conclusive site characterization. Furthermore, this document shall not be interpreted to relieve any party of its responsibility to abide by applicable laws, codes, and regulations.

2.5 User Reliance

The Phase I ESA was prepared for, is the property of, and is intended for the sole use of River Park Properties II, it's successors, and agents.

3.0 SITE DESCRIPTION & PHYSICAL SETTING

The Site location and vicinity are presented in Figure 1 (Vicinity Map). According to the U.S. Geological Survey (USGS) 7.5 Minute Selma, California, topographic quadrangle map, the Site occupies a portion of the northeast quarter of Section 1, of Township 16 South, Range 21 East, Mount Diablo Baseline and Meridian. The site elevation is approximately 305 feet above mean sea level.

The subject site is comprised of one parcel encompassing approx. 39 acres located at Floral Avenue Selma, California. The site consists of agricultural and vacant land.

3.1 Assessors Records / User Provided Information

The Fresno County Assessor's Parcel Numbers (APNs), owner, address, and acreage are included in the following table.

APN	Historic Site Address	Owner	Acres
385-260-33	8663 E. Floral Ave.	WAL-MART STORES INC % WAL-MART TAX DEPT	Approx. 39

An ASTM User Questionnaire for Phase I Environmental Site Assessment, completed by Mr. Kuniyoshi, River Park Properties II was received on May 24, 2022. According to information provided on the User Questionnaire, Mr. Kuniyoshi indicated that there are no known environmental cleanup liens or activity, or land use limitations recorded or in place for the Site. The User has no specialized knowledge and experience related to the property that would assist in the preparation of the ESA. A copy of the User Questionnaire is presented in Appendix B of this report.

3.2 Groundwater Conditions

The area of the Site is generally underlain by groundwater occurring in unconfined, perched, and semi-confined conditions. Within the Central Valley, regional movement of ground water is toward

a topographic trough located on the western side of the valley, and from there, toward the north to the Sacramento River-Delta region.

The local groundwater table elevation fluctuates in the area of the Site. This is caused by ground water pumping for municipal and agricultural use and by groundwater recharge from rivers, canals, and ponding basins. According to the California Department of Water Resources (DWR) GIS data dated Spring 2021, groundwater in the vicinity of the subject site flows generally west to southwest and would be encountered at a depth of between 70 and 80 feet below ground surface.

4.0 ENVIRONMENTAL RECORDS REVIEW

The purpose of the records review is to obtain and review records that will help identify recognized environmental conditions in connection with the property. ASTM standard and additional environmental records were obtained from Envirosite Corporation of Shelton, Connecticut. Standard environmental records are those from federal and approximately equivalent state agencies. Additional records are those that can enhance and supplement the standard environmental record sources and generally can be obtained from local governmental and non-governmental agencies. The Envirosite Government Records Report is attached in Appendix C.

For those listed sites where the Envirosite-provided records are not sufficient to identify a listed site's potential impact to the Property, Technicon obtained and reviewed reasonably ascertainable records of the listed site from the appropriate "Additional Environmental Record Source" presented in Section 4.2.

4.1 Standard Environmental Record Sources

This section identifies record information that was reviewed from standard federal and state agency sources. Listed sites are grouped according to their ASTM-recommended approximately minimum search distance.

4.1.1 1-Mile Approximate Minimum Search Distance

Federal NPL

The National Priority List (NPL) sites are United States Environmental Protection Agency (EPA) sites on the CERCLIS list of uncontrolled or abandoned hazardous waste sites for priority cleanup under the Superfund Program. Also listed are Proposed NPL and NPL Liens-listed sites.

- *There are **no** sites identified on or within a one-mile radius of the Site.*

Response (State/Tribal Equivalent NPL)

Response-listed sites identify confirmed release sites where DTSC is involved in remediation, either in a lead or oversight capacity. These confirmed release sites are generally high-priority and high potential risk.

- *There is **one** site identified on or within a one-mile radius of the Site.*

  ***Selma Electro Plating DTSC** is located 0.732 miles east of the Site and maintains a status of "Certified" and would not be expected to adversely impact the subject site.*

RCRA CORRACTS

CORRACTS identifies hazardous waste handlers with RCRA corrective action activity.

- *There are **no** sites identified on or within a one-mile radius of the Site.*

4.1.2 ½-Mile Approximate Minimum Search Distance

Delisted NPL

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425. (e), sites may be deleted from the NPL where no further response is appropriate.

- *There are **no** sites identified on or within a one-half mile radius of the Site.*

CERCLIS

Comprehensive Environmental Response, Compensation, and Liability Information System CERCLIS contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies, and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). CERCLIS contains sites which are either proposed to or on the National Priorities List (NPL) and sites which are in the screening and assessment phase for possible inclusion on the NPL. The EPA is transitioning to the Superfund Enterprise Management System, or SEMS. SEMS includes the same data fields and content as CERCLIS.

- *There are **no** sites identified on or within a one-half mile radius of the Site.*

ENVIROSTOR (State/Tribal Equivalent CERCLIS)

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following

site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites. Includes Clandestine Drug Lab (CDL) sites.

- *There are **Two** sites identified within a half-mile radius of the Site.*

.

***SELMA ELECTRO PLATING** is located east to the Site. It maintains a status of certified. It is unknown if the Site would be adversely impacted by this facility, however, should a release of hazardous materials from this facility impact the Site, the responsibility for investigation and remediation would be assigned to the designated responsible party.*

***PG&E MANUFACTURED GAS PLANT SQ-FK-SEL** is located southeast to the Site. It maintains a status of certified. It is unknown if the Site would be adversely impacted by this facility, however, should a release of hazardous materials from this facility impact the Site, the responsibility for investigation and remediation would be assigned to the designated responsible party.*

CERCLIS NFRAP

CERCLIS No Further Remedial Action Planned. Archived sites are sites that have been removed and archived from the inventory of CERCLIS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

- *There are **no** sites identified on or within a one-mile radius of the Site.*

RCRA non-CORRACTS TSD

RCRA - Treatment, Storage and Disposal. RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act

(RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

- *There are **no** sites identified on or within a one-half mile radius of the Site.*

State and Tribal Landfill and/or Solid Waste Disposal Sites

The Solid Waste Information System (SWIS) database contains information on solid waste facilities, operations, and disposal sites throughout the State of California. The types of facilities found in this database include landfills, transfer stations, material recovery facilities, composting sites, transformation facilities, waste tire sites, and closed disposal sites. Also included are sites listed on the State's Waste Management Unit Database System (WMUDS) and Land Disposal Sites Listing (LDS) and U.S. EPA Open Dump Inventory (ODI) and Indian ODI listings.

- *There are **no** sites identified on or within a one-half mile radius of the Site.*

Leaking Underground Storage Tank Sites

The State of California and its Regional Water Quality Control Boards (Water Board) maintains a database of leaking underground storage tanks (LUST) on its Geotracker database. Also included are sites listed on USEPA's leaking underground storage tanks on Indian Land.

- *There are **Four** sites identified on or within a one-half mile radius of the Site.*

  All sites are classified as case closed and should not adversely impact the site.

Spills, Leaks, Investigations & Cleanup (SLIC) Program

In the Spills, Leaks, Investigations & Cleanup (SLIC) Program, the State of California and its Regional Water Quality Control Boards oversee soil and groundwater investigations, corrective actions, and human health risk assessments at sites with current or historic unauthorized discharges, which have adversely affected or threaten to adversely affect waters of the state. Includes Toxic Pits Cleanup Act Sites and Military Cleanup Sites.

- *There are **two** sites identified on or within a one-half mile radius of the Site.*

All sites are classified as case closed and should not adversely impact the Site.

> ***SLAVEN RADIATOR SHOP** is located southeast to the Site. It maintains a status of completed case closed. It is unknown if the Site would be adversely impacted by this facility, however, should a release of hazardous materials from this facility impact the Site, the responsibility for investigation and remediation would be assigned to the designated responsible party.*

***CIRCLE K #8755** is located east to the Site. It maintains a status of completed case closed. It is unknown if the Site would be adversely impacted by this facility, however, should a release of hazardous materials from this facility impact the Site, the responsibility for investigation and remediation would be assigned to the designated responsible party.*

Voluntary Cleanup Sites

The California Environmental Protection Agency's Department of Toxic Substances Control (DTSC) Voluntary Cleanup Program (VCP) is a database of Brownfield and lower priority sites with either confirmed or unconfirmed releases that allows DTSC to provide investigation and/or cleanup oversight. Also included are sites listed on the State's School Property Evaluation Program.

- *There are **no** sites identified on or within a one-half mile radius of the Site.*

Brownfield Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. The Assessment, Cleanup and Redevelopment Exchange System (ACRES) is an online database for Brownfields Grantees to electronically submit data directly to EPA.

- *There are **no** sites identified on or within a one-half mile radius of the Site.*

4.1.3 Property and Adjoining

RCRA Generators List

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by RCRA for Large Quantity Generators (LQG), Small Quantity Generators (SQG), and Conditionally Exempt Small Quantity Generators (CESQG). Also includes HAZNET listing of hazardous waste manifests received each year by DTSC.

- *There are **eight** RCRA-listed facilities identified adjacent to the Site.*

***LES SCHWAB TIRE CENTERS** is located adjacent to the east of the Site. It is unknown if the Site would be adversely impacted by this facility, however, should a release of hazardous materials from this facility impact the Site, the responsibility for investigation and remediation would be assigned to the designated responsible party.*

***FLORAL PLAZA | BOYETT PETROLEM TRUCK STOP** is located adjacent to the northeast of the Site. It is unknown if the Site would be adversely impacted by this facility, however,*

should a release of hazardous materials from this facility impact the Site, the responsibility for investigation and remediation would be assigned to the designated responsible party.

***JC PENNEY STORE #2725** is located adjacent to the north of the Site. It is unknown if the Site would be adversely impacted by this facility, however, should a release of hazardous materials from this facility impact the Site, the responsibility for investigation and remediation would be assigned to the designated responsible party.*

***WALMART SUPERCENTER #1882** is located adjacent to the north of the Site. It is unknown if the Site would be adversely impacted by this facility, however, should a release of hazardous materials from this facility impact the Site, the responsibility for investigation and remediation would be assigned to the designated responsible party.*

***BIG 5 SPORTING GOODS #376** is located adjacent to the north of the Site. It is unknown if the Site would be adversely impacted by this facility, however, should a release of hazardous materials from this facility impact the Site, the responsibility for investigation and remediation would be assigned to the designated responsible party.*

***ROSS DRESS FOR LESS #2320** is located adjacent to the east of the Site. It is unknown if the Site would be adversely impacted by this facility, however, should a release of hazardous materials from this facility impact the Site, the responsibility for investigation and remediation would be assigned to the designated responsible party.*

***LAMOURE'S CLEANERS INC** was located adjacent to the east of the Site. It is unknown if the Site would be adversely impacted by this facility, however, should a release of hazardous materials from this facility impact the Site, the responsibility for investigation and remediation would be assigned to the designated responsible party.*

***UNITED HEALTH CENTERS OF THE SAN JOAQUIN | United Health Center Clinic** is located adjacent to the east of the Site. It is unknown if the Site would be adversely impacted by this facility, however, should a release of hazardous materials from this facility impact the Site, the responsibility for investigation and remediation would be assigned to the designated responsible party.*

Registered Underground Storage Tank (UST) Sites

The California State Water Resources Control Board maintains a database of active underground storage tank (UST) facilities. Also included are sites listed on California's Facility Inventory Database (CA FID), Hazardous Substance Storage Container Database (HIST UST), Statewide Environmental Evaluation and Planning System (SWEEPS), USEPA's Underground Storage Tanks on Indian Land (Indian USTs), and FEMA USTs.

- *There are Two sites identified on or adjacent to the Site.*

***FLORAL PLAZA | BOYETT PETROLEM** is located adjacent to the northeast of the Site. It is unknown if the Site would be adversely impacted by this facility, however, should a release of hazardous materials from this facility impact the Site, the responsibility for investigation and remediation would be assigned to the designated responsible party.*

***Snappy Food | GET N GO SELMA** is located adjacent to the northeast of the Site. It is unknown if the Site would be adversely impacted by this facility, however, should a release of hazardous materials from this facility impact the Site, the responsibility for investigation and remediation would be assigned to the designated responsible party.*

Registered Above-ground Storage Tank (AST) Sites

The California State Water Resources Control Board maintains a database of active above-ground storage tank (AST) facilities.

- *There is **one** sites identified on or adjacent to the Site.*

***WALMART SUPERCENTER #1882** is located north adjacent to the east of the Site. It is unknown if the Site would be adversely impacted by this facility, however, should a release of hazardous materials from this facility impact the Site, the responsibility for investigation and remediation would be assigned to the designated responsible party*

4.1.4 Property Only

Institutional/Engineering Control Registries

US EPA maintains a list of sites with engineering controls which include various forms of caps, building foundations, liners, and treatment methods to eliminate pathways for regulated substances to enter environmental media or effect human health. Institutional controls include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Includes Land Use Control Information System (LUCIS) sites pertaining to former Navy properties.

- *The Site is **not** reported to be subject to engineering or institutional controls.*

ERNS List

The EPA's Emergency Response Notification System (ERNS) records and stores information on reported releases of oil and hazardous substances. Includes U.S. Department of Transportation Hazardous Materials Information Reporting System (HMIRS) sites. Also includes California Hazardous Materials Information Reporting System (CHMIRS) sites.

- *The Site is **not** listed in the ERNS Database.*

4.2 Additional Environmental Records Sources

Additional Environmental Records Sources are generally described as local or regional and are intended to enhance and supplement the standard environmental record sources presented in Section 4.1, above. Records for the subject site and adjoining properties were reviewed at the environmental record sources presented below.

4.2.1 Fresno County Environmental Health Services (EHS)

As of the date of this report, a review of the Fresno County Environmental Health Services Department has revealed there are no documents related to the Site.

5.0 SITE HISTORY

Historic aerial photographs, Building Department records, and Local Street Directories, were reviewed to establish a site history. A summary of the historical information review is presented in the following sections.

5.1 Aerial Photograph Review

The following is a summary of our review of available aerial photographs dated **1937, 1946, 1954,1957, 1962, 1965, 1966, 1968, 1970, 1972, 1974, 1976, 1982, 1984, 1987, 1993, 1995, 1998, 2005, 2009, 2010, 2012, 2014, 2016, 2018, 2020.** Selected historic aerial photographs can be found in Appendix D following this report.

1937, 1946, 1954,1957, 1962, 1965, 1966, 1968, & 1972

Site: The site consists of agricultural land and what appears to be a residence, barn and shed are visible in the northeast portion of the Site and what appears to be a small residence is visible to the east of the existing fence-enclosed well in the north central portion of the Site. By sometime between 1946 and 1954, the small residence had been removed. By 1962, some of the structures in the northeast portion of the site had been removed.

Adjacent Property: The surrounding areas are similar in appearance to the subject site. In 1937 what appears to be a development residential north adjacent to the Site. Between 1957 and 1962 what is now Highway 99 was constructed northeast of the Site. Sometime between 1965 and 1966 northwest of the Site a gasoline station appears to be constructed.

1974, 1976, 1982, 1984, 1987, 1993, 1995, 1998, 2005, 2009, 2010, 2012, 2014, 2016, 2018 & 2020

Site: Until sometime between 1982 and 1984, the subject site appeared essentially as it did in the previous aerial photographs. By 1984 what appears to be a pole barn was constructed straddling the northwest property boundary. Sometime between 1998 and 2005 the pole barn was removed and all structures in the northeast portion of the Site had been removed.

Adjacent Property: By 1974, a residence appears to have been constructed just west of the northwest corner of the Site. Between 1987 and 2005, shopping centers were constructed to the north of the Site across Floral Avenue and to the east of the Site. The residence had been removed from the northwest of the Site by 2009.

5.2 Sanborn Fire Insurance Maps

Sanborn Fire Insurance Maps are historic large-scale plans of cities and towns originally produced to assist fire insurance companies as they assessed the risks associated in insuring a particular property. These maps typically depict structures, their use, and possible fire hazards. Envirosite's review of available historic Sanborn Fire Insurance Map indices revealed that the subject site was not located in the mapped areas.

5.3 Fresno County Building Department

Building records associated with the historic Site address of 8663 East Floral Avenue were requested at the Fresno County Department on June 6, 2022. Most of the records pertained to the residence formerly located the northwest of the Site and included building permits for construction of the residence which first appeared in the 1974 aerial photograph. A 1983 Notice of Violation was filed for the pole barn which straddled the northwest property boundary. A permit to demolish the pole barn was filed in 2003. No records concerning the structures formerly located in the northeast portion of the Site were included in the County Building records. The last record on file for the Site includes an inspection Report for trash and debris on Site.

5.4 Local Street Directories

The historic Site address is listed in the Haines Criss Cross Directories. From 1998-2005, Helen Kurkjian is listed at 8663 East Floral Avenue. No listings are provided after 2006.

5.5 Geologic Energy Management

The Geologic Energy Management Division's (CalGEM, former Division of Oil, Gas, and Geothermal Resources) depicts oil and gas wells, as well as plugged and abandoned dry holes in the central and southern portions of California. The maps were reviewed to determine if the Site or adjacent properties were occupied by oil and gas wells. Review of the CalGEM Online Mapping System revealed that there are no wells at the Site, and the remaining adjacent properties are not reported to have been occupied by oil and gas wells or plugged and abandoned dry holes.

6.0 SITE RECONNAISSANCE

6.1 Methodology and Limiting Conditions

A site reconnaissance of the Site was conducted by Miss. Artemis Sophocleous (Technicon) on June 15, 2022. The objective of the site reconnaissance was to obtain information indicating the likelihood of identifying recognized environmental conditions in connection with the Site. Methods used to observe the Site included walking the Site and visually and/or physically observing site features. Photographs were taken of site features and are presented in Appendix A. A Site Map (Figure 2) showing relevant features of the Site can be found following the text of this report.

6.2 General Site Setting

The subject site is comprised of approx. 39 acres located at Floral Avenue in Selma, California. The site consists of and vacant land.

6.3 Site Reconnaissance Observations

A site reconnaissance was conducted to determine if the current uses of the Site were likely to involve the use, treatment, storage, disposal or generation of hazardous substances or petroleum products. Additionally, indications of past uses of the Site that were observed or identified in interviews or a records review are also identified.

6.3.1 Storage Tanks

6.3.1.1 Underground Storage Tanks (USTs)

An underground storage tank (UST) is any tank, including underground piping connected to the tank, that is or has been used to store hazardous substances or petroleum products and the volume of which is 10% or more beneath the ground surface.

- ***No*** *indications of existing or former USTs were observed at the Site.*

6.3.1.2 Above-ground Storage Tanks (ASTs)

An above-ground storage tank (AST) for the purposes of this report, is any tank that has a capacity to store more than 55 gallons of a hazardous substance or petroleum product and is substantially or totally above the ground surface. Does not include pressure tanks associated with a domestic well.

- ***No** indications of existing or former ASTs were observed at the Site.*

6.3.2 Drums

A drum is a container (typically, but not necessarily, holding 55 gallons of liquid) that may be used to store hazardous substances, petroleum products, or unidentified substances. For the purposes of this report hazardous substances or petroleum product containers greater than 5 gallons and 275-gallon totes are considered drums.

- ***No** drums were observed at the Site.*

6.3.3 Hazardous Substances and Petroleum Products Containers

Hazardous substances or petroleum products containers for liquids are generally less than 5 gallons and may be made of metal, glass, or plastic. Containers may also contain solids and gasses and may be made of paper, plastic, cardboard, or metal.

- ***No** hazardous substances or petroleum products in containers were observed at the Site, however what appears to be empty automotive fluid containers were observed on the Site.*

6.3.4 Hazardous Substances and Petroleum Products in Equipment

Hazardous substances or petroleum products can be contained in equipment such as elevator and hoist pistons, machinery, forklifts, and other equipment.

- ***No** hazardous substances and petroleum products in equipment were observed at the Site.*

6.3.5 Stained or Corroded Soil, Pavements or Floors

Observations of stained soil or pavement or staining or corrosion on floors, walls or ceilings are to be identified; this does not include staining from water.

- ***No** stained or corroded soil, pavements, or floors were observed at the Site.*

6.3.6 Stressed Vegetation

Areas of stressed vegetation, other than from insufficient watering, are to be identified.

- ***No** stressed vegetation was observed at the Site.*

6.3.7 Odors

Strong, pungent, or noxious odors evident of hazardous substances or petroleum products are to be identified.

- ***No** strong odors were noted at the Site.*

6.3.8 Drains and Sumps

Drains and sumps can include floor drains, floor sinks, sumps, and oil-water separators. These drains or sumps may drain to on-site septic systems, dry wells, or seepage pits. Drains or sumps may also discharge to an off-site municipal sanitary sewer system.

- ***No** drains or sumps were observed at the Site.*

6.3.9 Pits, Ponds or Lagoons

Pits, ponds, and lagoons are man-made or natural depressions in the ground surface that that may hold liquids or sludge containing hazardous substances or petroleum products.

- ***No** pits, ponds, or lagoons were observed at the Site.*

6.3.10 Pools of Liquid

Pools of liquids include standing surface water, liquid spills, and liquids contained in sumps.

- ***No** pools of liquid were observed at the Site.*

6.3.11 Solid Waste

For the purposes of this report, solid waste includes areas that are apparently filled or graded by non-natural causes (or filled by fill of unknown origin) suggesting construction debris, demolition debris, or other solid waste disposal, or mounds or depressions suggesting trash or other solid waste disposal.

- ***No** obvious evidence of buried waste was observed at the Site, however, surface debris consisting of furniture, irrigation tubing, trash, etc. was observed at the Site.*

6.3.12 Waste Water

For the purposes of this report, waste water includes water or other liquids (including storm water) or any discharge into a drain or ditch, underground injection system, stream, or pond on or adjacent to the Site.

- ***No** waste water was observed at the Site.*

6.3.13 Septic Systems

A septic system is generally an on-site sewage treatment and disposal system which can include a septic tank and disposal field consisting of leach lines, seepage pits or cesspools.

- ***No** evidence of existing septic systems was observed at the Site.*

6.3.14 PCBs

Polychlorinated biphenyl's (PCBs) were once widely used in dielectric and coolant oils in transformers and capacitors. PCB production was banned in the US in 1979 but some older transformers and electrical equipment may still contain PCBs. Many fluorescent light ballasts manufactured before 1979 also contained small quantities of PCBs. An inventory and inspection of fluorescent light ballasts was not conducted as part of this investigation.

- ***No** pole-mounted transformers were observed at the Site.*

6.3.15 Asbestos-Containing Building Materials

Asbestos is a fibrous material and has been used in many different applications for its fireproofing abilities and resistance to many chemicals. Common uses of asbestos included thermal and acoustical insulation, fireproofing, textiles, concrete, plastic products such as vinyl floor tiles, roofing felts, and paper and electrical insulation.

- ***No** suspected asbestos-containing building materials were observed at the Site.*

6.3.16 Heating/Cooling

Fuel sources for heating and cooling systems can include heating oil, natural gas, propane and electric.

- ***No** heating or cooling systems were observed at the Site.*

6.3.17 Wells

Observations of all wells, including water supply (drinking and irrigation), abandoned wells, dry wells, oil wells, injection wells, etc. are to be noted.

- *One irrigation well and one domestic were observed on Site. One well was in the northeast corner of the Site. The second well was observed fenced off in the middle of the Site.*

6.4 Adjoining Properties

Adjoining properties are those which are contiguous or partially contiguous with the Site borders. Properties which are separated from the Site by streets, roads or other public thorough fares are considered adjoining. To the extent that the adjoining properties are visually or physically observable from the Site or publicly accessible areas, observations of the adjoining properties for the purposes of identifying possible recognized environmental conditions that could impact the Site are presented below.

North: Starbucks / Walmart Supercenter

East: Food 4 Less / Ross Dress for Less/ Les Schwab tires

West: Agricultural Land

South: Agricultural Land / Reservoir

7.0 INTERVIEWS

7.1 Property Owners & Occupants

As of the date of this report, representatives of Walmart Stores, the owner of the subject site, declined to respond to our request for an interview regarding the Site history and operations. The lack of an interview with a site owner constitutes a data gap.

7.2 Local Government Officials

Interviews with local government officials were discussed previously in Sections 4.1 and 4.2.

8.0 FINDINGS, CONCLUSIONS, & OPINIONS

We have performed a Phase I Environmental Site Assessment of the subject site in conformance with the scope and limitations of ASTM Practice E-1527-05. Any exceptions to, or deletions from, this practice are described in Section 2.4 of this report.

This assessment has revealed no evidence of recognized environmental conditions (RECs), controlled RECs, historical RECs, or records of environmental liens in connection with the property.

The following data gap was identified during this assessment: As of the date of this report, representatives of Walmart Stores, the owner of the subject site, declined to respond to our request for an interview regarding the Site history and operations.

10.0 QUALIFICATIONS OF ENVIRONMENTAL PROFESSIONALS

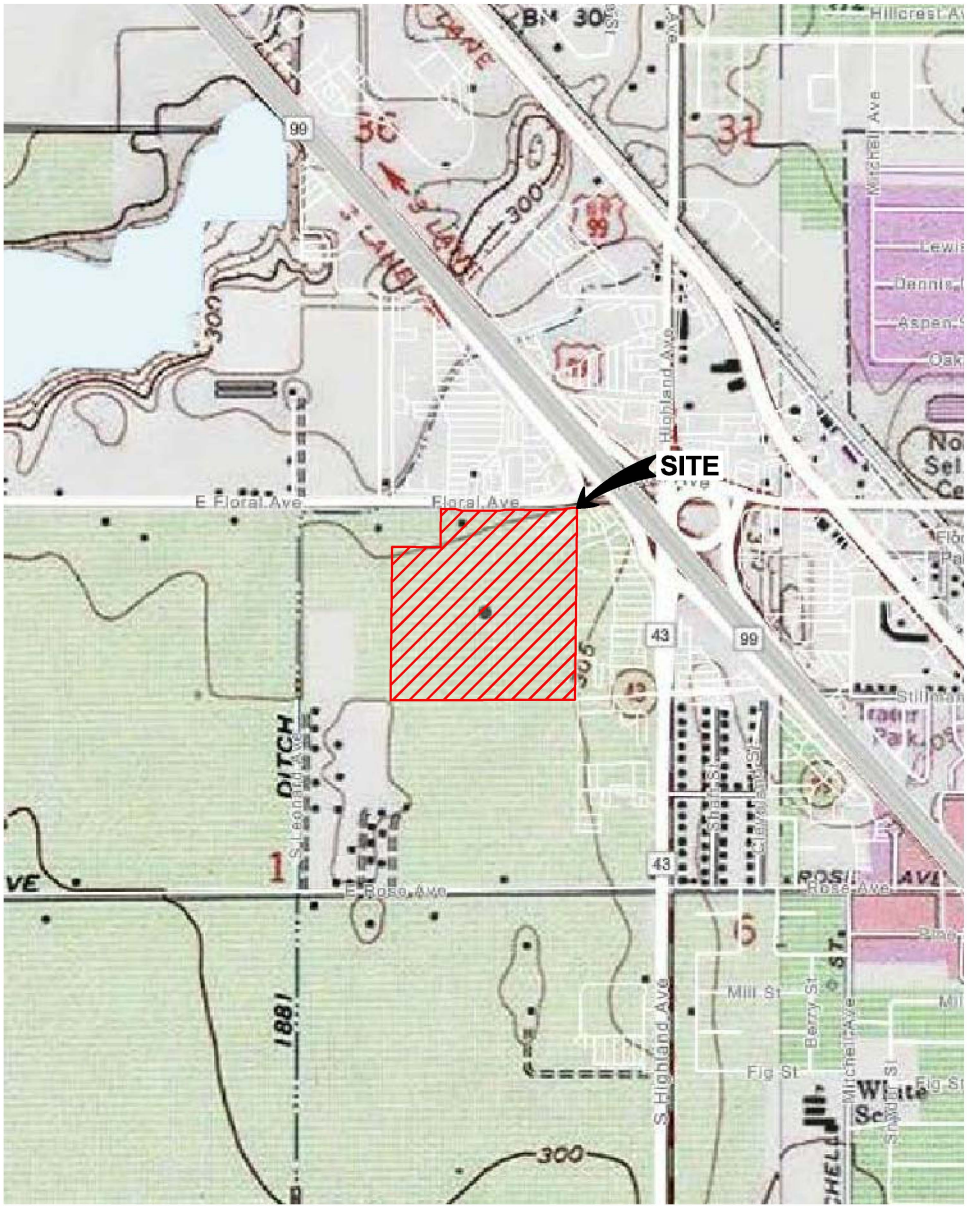

We declare that, to the best of our professional knowledge and belief, we meet the definition of Environmental professional as defined in §312.10 of 40 CFR312. We have the specific qualifications based on education, training, and experience to assess a property of the nature, history and setting of the subject property. We have developed and performed all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

Artemis Sophocleous
Staff Environmental Scientist
Miss. Sophocleous possesses a Bachelor of Science in Environmental Science with concentration in Ecology and a Minor in Chemistry from the California State University Monterey Bay. She possesses the 40-Hour OSHA HAZWOPER Training in accordance with Title 29 Code of Federal Regulations 1910.120.

Steve Curra, PG
Environmental Department Manager
Mr. Steven Curra has over 30 years of experience in environmental engineering, with extensive experience in Phase I and II investigations. Mr. Curra is a Professional Geologist and has served as project manager for a variety of characterizations and remedial activities, including underground storage tank site investigations, landfill post-closure development, waste disposal and treatment facilities and hazardous waste management.

Mr. Curra has a thorough knowledge of the environmental engineering industry, and he has developed the ability to effectively coordinate the activities of civil engineers, geologists, subcontractors, and technicians to ensure the investigation is thorough and cost-effective. He has an excellent working knowledge of the codes governing the environmental issues facing our clients today and strong agency relationships with a variety of local, state, and federal agencies. Mr. Curra possesses a B.S. in Geology from California State University, Fresno. He also possesses the 40-Hour OSHA HAZWOPER Training in accordance with Title 29 Code of Federal Regulations 1910.120.

APPENDIX B

USER PROVIDED INFORMATION

X3. USER QUESTIONNAIRE
INTRODUCTION

In order to qualify for one of the *Landowner Liability Protections (LLPs)*[35] offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the "*Brownfields Amendments*"),[36] the *user* must provide the following information (if available) to the *environmental professional.* Failure to provide this information could result in a determination that "*all appropriate inquiry*" is not complete.

(1.) Environmental cleanup liens that are filed or recorded against the site (40 CFR 312.25).

Are you aware of any environmental cleanup liens against the *property* that are filed or recorded under federal, tribal, state or local law?

NO

(2.) Activity and land use limitations that are in place on the site or that have been filed or recorded in a registry (40 CFR 312.26).

Are you aware of any AULs, such as *engineering controls*, land use restrictions or *institutional controls* that are in place at the site and/or have been filed or recorded in a registry under federal, tribal, state or local law?

NO

(3.) Specialized knowledge or experience of the person seeking to qualify for the LLP (40 CFR 312.28).

As the *user* of this *ESA* do you have any specialized knowledge or experience related to the *property* or nearby properties? For example, are you involved in the same line of business as the current or former *occupants* of the *property* or an adjoining *property* so that you would have specialized knowledge of the chemicals and processes used by this type of business?

NO

More on Reverse Side >>

[35] *Landowner Liability Protections*, or *LLPs*, is the term used to describe the three types of potential defenses to Superfund liability in EPA's *Interim Guidance Regarding Criteria Landowners Must Meet in Order to Qualify for Bona Fide Prospective Purchaser, Contiguous Property Owner, or Innocent Landowner Limitations on CERCLA Liability* ("*Common Elements*" Guide) issued on March 6, 2003.

[36] P.L. 107-118.

Copyright © 2005 ASTM International, West Conshohocken, PA
This document is an excerpt of E 1527-05; Standard Practice for Environmental Site Assessments: Phase 1 Environmental Site Assessment Process, which is under the jurisdiction of ASTM Committee E50 on Environmental Assessments and is the direct responsibility of Subcommittee E50.02 on Commercial Real Estate Transactions. This questionnaire represents only Appendix X3 of Practice E 1527-05 and should not be construed as being the complete standard. It is necessary to refer to the full standard prior to using this questionnaire. For the complete standard, or to order additional copies of this questionnaire, contact ASTM Customer Service at 610/832-9595.

(4.) Relationship of the purchase price to the fair market value of the *property* if it were not contaminated (40 CFR 312.29).

Does the purchase price being paid for this *property* reasonably reflect the fair market value of the *property*? If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the *property*?

YES

(5.) Commonly known or *reasonably ascertainable* information about the *property* (40 CFR 312.30).

Are you aware of commonly known or *reasonably ascertainable* information about the *property* that would help the *environmental professional* to identify conditions indicative of releases or threatened releases? For example, as *user*,

(a.) Do you know the past uses of the *property*?

(b.) Do you know of specific chemicals that are present or once were present at the *property*?

(c.) Do you know of spills or other chemical releases that have taken place at the *property*?

(d.) Do you know of any environmental cleanups that have taken place at the *property*?

NO

(6.) The degree of obviousness of the presence of likely presence of contamination at the *property*, and the ability to detect the contamination by appropriate investigation (40 CFR 312.31).

As the *user* of this *ESA*, based on your knowledge and experience related to the *property* are there any *obvious* indicators that point to the presence or likely presence of contamination at the *property*?

NO

X3.1 In addition, certain information should be collected, if available, and provided to the *environmental professional* selected to conduct the Phase I. This information is intended to assist the *environmental professional* but is not necessarily required to qualify for one of the *LLPs*. The information includes:

(*a*) the reason why the Phase I is required,

(*b*) the type of *property* and type of *property* transaction, for example, sale, purchase, exchange, etc.,

(*c*) the complete and correct address for the *property* (a map or other documentation showing *property* location and boundaries is helpful),

(*d*) the scope of services desired for the Phase I (including whether any parties to the *property* transaction may have a required standard scope of services on whether any considerations beyond the requirements of Practice E 1527 are to be considered),

(*e*) identification of all parties who will rely on the Phase I *report*,

(*f*) identification of the site contact and how the contact can be reached,

(*g*) any special terms and conditions which must be agreed upon by the *environmental professional*, and

(*h*) any other knowledge or experience with the *property* that may be pertinent to the *environmental professional* (for example, copies of any available prior *environmental site assessment reports*, documents, correspondence, etc., concerning the *property* and its environmental condition).

Source Description

Source Description :

The Emission Inventory System (EIS) maintains an inventory of large stationary sources and voluntarily-reported smaller sources of air point pollution emitters. It contains information about facility sites and their physical location, emission units, emission processes, release points, control approaches, and regulations. Facility inventory data are kept separate from the emissions data and have stable identifiers to improve continuity from year to year and to help identify duplicate or missing facilities.

Source Description :

The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), and Toxic Release Inventory (TRI).

Source Description

Source Description :

The Emission Inventory System (EIS) maintains an inventory of large stationary sources and voluntarily-reported smaller sources of air point pollution emitters. It contains information about facility sites and their physical location, emission units, emission processes, release points, control approaches, and regulations. Facility inventory data are kept separate from the emissions data and have stable identifiers to improve continuity from year to year and to help identify duplicate or missing facilities.

Source Description

Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

Source Description :

The California Environmental Reporting System (CERS) is a statewide web-based user and information exchange system to support over 140,000 regulated businesses and over 130 local agencies in electronically collecting and reporting significant hazardous materials, hazardous waste and compliance and enforcement data as mandated by California law. Under oversight by Cal/EPA, certified local governing agencies (Unified Program Agencies - UPAs) consolidate, coordinate and provide consistent regulatory activities for six state and federal environmental programs.
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), and Toxic Release Inventory (TRI).

Waste Details

Waste Line Number :	1
Is DOT Hazardous :	Y
DOT ID Number :	UN3249
DOT Information :	UN3249, Waste Residue Last Contained, Medicine, solid, toxic, n.o.s. (Warfarin), 6.1, PG II, ERG#151
Non Waste Description :	N/R
Quantity :	1 Pounds
Quantity Tons, Acute, Non-Acute :	0.0005, 0.0005, 0
Quantity Kg, Acute, Non-Acute :	0.45351502, 0
Management Method :	H141 - STORAGE, BULKING AND/OR TRANSFER OFF SITE
Is EPA Waste :	Y
Federal Code :	P001
State Code :	CA - 311

Waste Line Number :	2
Is DOT Hazardous :	N
DOT ID Number :	N/R
DOT Information :	N/R
Non Waste Description :	Non-RCRA Hazardous Waste, Liquid (Consumer Products),
Quantity :	785 Pounds
Quantity Tons, Acute, Non-Acute :	0.3925, 0, 0.3925
Quantity Kg, Acute, Non-Acute :	0, 356.0093
Management Method :	H141 - STORAGE, BULKING AND/OR TRANSFER OFF SITE
Is EPA Waste :	N
Federal Code :	N/R
State Code :	CA - 331

Waste Line Number :	3
Is DOT Hazardous :	N
DOT ID Number :	N/R
DOT Information :	N/R
Non Waste Description :	Non-RCRA Hazardous Waste, Solid (Consumer Products),
Quantity :	241 Pounds
Quantity Tons, Acute, Non-Acute :	0.1205, 0, 0.1205
Quantity Kg, Acute, Non-Acute :	0, 109.29712
Management Method :	H141 - STORAGE, BULKING AND/OR TRANSFER OFF SITE

Hazardous Waste Summary

Details for this site have been truncated due to the large number of available details for this site within this dataset. For the complete details for this site, contact your Envirosite account representative for a complimentary site report containing all of the details available.

Waste Code / Name :
122 - Alkaline solution without metals (pH > 12.5)
141 - Off-specification, aged, or surplus inorganics
181 - Other inorganic solid waste
213 - Hydrocarbon solvents (benzene, hexane, Stoddard, etc.)
214 - Unspecified solvent mixture
221 - Waste oil and mixed oil
223 - Unspecified oil-containing waste
232 - Pesticides and other waste associated with pesticide production
311 - Pharmaceutical waste
331 - Off-specification, aged, or surplus organics

Source Description

Source Description :

The California Environmental Reporting System (CERS) is a statewide web-based user and information exchange system to support over 140,000 regulated businesses and over 130 local agencies in electronically collecting and reporting significant hazardous materials, hazardous waste and compliance and enforcement data as mandated by California law. Under oversight by Cal/EPA, certified local governing agencies (Unified Program Agencies - UPAs) consolidate, coordinate and provide consistent regulatory activities for six state and federal environmental programs.
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), and Toxic Release Inventory (TRI).

Source Description :

RCRAInfo is EPA’s comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

Source Description

Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

Source Description

Source Description :

The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), and Toxic Release Inventory (TRI).

Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

Source Description :

The Emission Inventory System (EIS) maintains an inventory of large stationary sources and voluntarily-reported smaller sources of air point pollution emitters. It contains information about facility sites and their physical location, emission units, emission processes, release points, control approaches, and regulations. Facility inventory data are kept separate from the emissions data and have stable identifiers to improve continuity from year to year and to help identify duplicate or missing facilities.

Chemical Name :	ACETONE
CAS Number :	67-64-1
Hazard Type(s) :	-
Max Daily Amount / Unit :	60-119 Gallons
Average Daily Amount / Unit :	12-59 Gallons
Days Onsite :	365
Physical State(s) :	Liquid, Mix

Chemical Name :	DIETHYLENE GLYCOL MONOETHYL ETHER ACETATE
CAS Number :	112-15-2
Hazard Type(s) :	-
Max Daily Amount / Unit :	120-599 Gallons
Average Daily Amount / Unit :	120-599 Gallons
Days Onsite :	365
Physical State(s) :	Liquid

Chemical Name :	OIL, MINERAL PETROLEUM DISTILLATES
CAS Number :	64742-54-7
Hazard Type(s) :	-
Max Daily Amount / Unit :	1000-4999 Pounds
Average Daily Amount / Unit :	500-999 Pounds
Days Onsite :	365
Physical State(s) :	Liquid

Chemical Name :	OIL, MINERAL PETROLEUM DISTILLATES
CAS Number :	64742-54-7
Hazard Type(s) :	-
Max Daily Amount / Unit :	600-1199 Gallons
Average Daily Amount / Unit :	120-599 Gallons

Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

Source Description

Source Description :

The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), and Toxic Release Inventory (TRI).

Source Description

Source Description :

RCRAInfo is EPA’s comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

Source Description

Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

Source Description

Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

Source Description

Source Description :

All generators and treatment, storage, and disposal (TSD) facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years. The data collected is used to create the National Biennial Resource Conservation and Recovery Act (RCRA) Hazardous Waste Report. This data is processed within the RCRA Information (RCRAInfo) database.

Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

Source Description

Source Description :

The Emission Inventory System (EIS) maintains an inventory of large stationary sources and voluntarily-reported smaller sources of air point pollution emitters. It contains information about facility sites and their physical location, emission units, emission processes, release points, control approaches, and regulations. Facility inventory data are kept separate from the emissions data and have stable identifiers to improve continuity from year to year and to help identify duplicate or missing facilities.

Source Description

Source Description :

The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), and Toxic Release Inventory (TRI).

Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

Source Description

Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

Source Description

Source Description :

The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), and Toxic Release Inventory (TRI).

Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

Source Description :

HWTS-DATAMART provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

Source Description

Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

Source Description

Source Description :

The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), and Toxic Release Inventory (TRI).

Source Description :

The Emission Inventory System (EIS) maintains an inventory of large stationary sources and voluntarily-reported smaller sources of air point pollution emitters. It contains information about facility sites and their physical location, emission units, emission processes, release points, control approaches, and regulations. Facility inventory data are kept separate from the emissions data and have stable identifiers to improve continuity from year to year and to help identify duplicate or missing facilities.

Waste Details

Waste Line Number :	1
Is DOT Hazardous :	N
DOT ID Number :	N/R
DOT Information :	N/R
Non Waste Description :	NON-RCRA HAZARDOUS WASTE LIQUID (WATER BASED CLEANERS)
Quantity :	167 Pounds
Quantity Tons, Acute, Non-Acute :	0.0835, 0, 0.0835
Quantity Kg, Acute, Non-Acute :	0, 75.73701
Management Method :	H141 - STORAGE, BULKING AND/OR TRANSFER OFF SITE
Is EPA Waste :	N
Federal Code :	N/R
State Code :	CA - 352

Waste Line Number :	2
Is DOT Hazardous :	N
DOT ID Number :	N/R
DOT Information :	N/R
Non Waste Description :	NON RCRA HAZARDOUS WASTE SOLID (EMPTIED PAINT TINT CONTAINERS)
Quantity :	33 Pounds
Quantity Tons, Acute, Non-Acute :	0.0165, 0, 0.0165
Quantity Kg, Acute, Non-Acute :	0, 14.965996
Management Method :	H141 - STORAGE, BULKING AND/OR TRANSFER OFF SITE
Is EPA Waste :	N
Federal Code :	N/R
State Code :	CA - 352

Source Description

Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

Source Description

Source Description :

The California Environmental Reporting System (CERS) is a statewide web-based user and information exchange system to support over 140,000 regulated businesses and over 130 local agencies in electronically collecting and reporting significant hazardous materials, hazardous waste and compliance and enforcement data as mandated by California law. Under oversight by Cal/EPA, certified local governing agencies (Unified Program Agencies - UPAs) consolidate, coordinate and provide consistent regulatory activities for six state and federal environmental programs.
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), and Toxic Release Inventory (TRI).

Source Description :

The Emission Inventory System (EIS) maintains an inventory of large stationary sources and voluntarily-reported smaller sources of air point pollution emitters. It contains information about facility sites and their physical location, emission units, emission processes, release points, control approaches, and regulations. Facility inventory data are kept separate from the emissions data and have stable identifiers to improve continuity from year to year and to help identify duplicate or missing facilities.

Source Description :

The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), and Toxic Release Inventory (TRI).

Source Description :

The Emission Inventory System (EIS) maintains an inventory of large stationary sources and voluntarily-reported smaller sources of air point pollution emitters. It contains information about facility sites and their physical location, emission units, emission processes, release points, control approaches, and regulations. Facility inventory data are kept separate from the emissions data and have stable identifiers to improve continuity from year to year and to help identify duplicate or missing facilities.

Source Description

Source Description : The California Environmental Reporting System (CERS) is a statewide web-based user and information exchange system to support over 140,000 regulated businesses and over 130 local agencies in electronically collecting and reporting significant hazardous materials, hazardous waste and compliance and enforcement data as mandated by California law. Under oversight by Cal/EPA, certified local governing agencies (Unified Program Agencies - UPAs) consolidate, coordinate and provide consistent regulatory activities for six state and federal environmental programs.

The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), and Toxic Release Inventory (TRI).

Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

Source Description

Source Description :

The NPDES module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

Source Description

Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

Source Description

Source Description :

The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), and Toxic Release Inventory (TRI).

Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

State Waste :
2019: 352 - Other organic solids, 0.45000 tons to CAL000330453
2019: 352 - Other organic solids, 0.48750 tons to CAL000330453
2019: 352 - Other organic solids, 1.35000 tons to CAL000330453
2019: 331 - Off-specification, aged or surplus organics, 0.08750 tons to AZD081705402
2018: 352 - Other organic solids, 0.26000 tons to CAL000330453
2018: 331 - Off-specification, aged or surplus organics, 0.06250 tons to AZD081705402
2018: 352 - Other organic solids, 0.92500 tons to CAL000330453
2017: 352 - Other organic solids, 0.875 tons to CAL000330453
2017: 352 - Other organic solids, 0.325 tons to CAL000330453
2016: 352 - Other organic solids, 0.175 tons to CAL000330453
2015: 352 - Other organic solids, 0.06 tons to CAL000330453
2015: 181 - Other inorganic solid waste, 0.0875 tons to CAD028409019
2014: 181 - Other inorganic solid waste, 0.25 tons to CAD008302903
2013: 213 - Hydrocarbon solvents (benzene, hexane, Stoddard, Etc.), 1.14675 tons to CAD008302903
2013: 181 - Other inorganic solid waste, 0.4 tons to CAD008302903
2010: 134 - Aqueous solution with total organic residues less than 10 percent, 0.126 tons to CAD066113465
2010: 352 - Other organic solids, 0.15 tons to TXD077603371
2009: 223 - Unspecified oil-containing waste, 0.04 tons to TXD077603371
2009: 134 - Aqueous solution with total organic residues less than 10 percent, 0.021 tons to CAD066113465
2008: N/R - Blank or unknown, tons to TXD077603371
2008: 352 - Other organic solids, 0.18 tons to TXD077603371
2008: 222 - Oil/water separation sludge, 7.9647 tons to CAD093459485
2008: 223 - Unspecified oil-containing waste, 0.1 tons to TXD077603371
2008: 134 - Aqueous solution with total organic residues less than 10 percent, 0.3444 tons to CAD066113465
2007: 134 - Aqueous solution with total organic residues less than 10 percent, 0.3738 tons to CAD066113465
2006: 491 - Unspecified sludge waste, 0.6 tons to TXD077603371
2005: 223 - Unspecified oil-containing waste, 2.085 tons to CAT080013352
2004: 222 - Oil/water separation sludge, 3.44025 tons to CAT080013352
2003: 213 - Hydrocarbon solvents (benzene, hexane, Stoddard, Etc.), 0.06255 tons to CAD093459485
2003: 222 - Oil/water separation sludge, 6.60945 tons to CAD093459485

Source Description

Source Description :

The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), and Toxic Release Inventory (TRI).

Source Description

Source Description :

The Emission Inventory System (EIS) maintains an inventory of large stationary sources and voluntarily-reported smaller sources of air point pollution emitters. It contains information about facility sites and their physical location, emission units, emission processes, release points, control approaches, and regulations. Facility inventory data are kept separate from the emissions data and have stable identifiers to improve continuity from year to year and to help identify duplicate or missing facilities.

Waste Generator Details

State Waste :

2013: 181 - Other inorganic solid waste, 0.25 tons to CAD028409019
2012: 221 - Waste oil and mixed oil, 0.057 tons to CAD008302903
2011: 214 - Unspecified solvent mixture, 0.108 tons to CAD008302903
2010: 214 - Unspecified solvent mixture, 0.0792 tons to CAD008252405
2010: 291 - Latex waste, 0.45 tons to NVT330010000
2010: 133 - Aqueous solution with total organic residues 10 percent or more, 0.06255 tons to CAD008252405
2009: 214 - Unspecified solvent mixture, 0.0792 tons to CAD008252405
2009: 133 - Aqueous solution with total organic residues 10 percent or more, 0.04587 tons to CAD008252405
2008: 214 - Unspecified solvent mixture, 0.234 tons to CAD008252405
2008: 212 - Oxygenated solvents (acetone, butanol, ethyl acetate, etc.), 0.1 tons to TXD077603371
2007: 214 - Unspecified solvent mixture, 0.4176 tons to CAD008252405
2006: 214 - Unspecified solvent mixture, 0.1188 tons to CAD008252405
2006: 214 - Unspecified solvent mixture, 0.144 tons to CAD008252405
2004: 331 - Off-specification, aged or surplus organics, 0.1815 tons to CAT080013352

Violations

Details for this site have been truncated due to the large number of available details for this site within this dataset. For the complete details for this site, contact your Envirosite account representative for a complimentary site report containing all of the details available.

Violation Date :	2017-03-23
Citation :	HSC 6.5 25201 - California Health and Safety Code, Chapter 6.5, Section (s) 25201
Description :	Failure to obtain a permit or grant of interim status after generator has accumulated hazardous waste on-site for longer than 90 days.
Notes :	Returned to compliance on 04/22/2017. Facility has not disposed of used oil and used oil filters within allowable time limit.
Division :	Fresno County Department of Public Health
Program :	HW
Source :	CERS
Violation Date :	2017-03-23
Citation :	HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Description :	Failure to annually review and electronically certify that the business plan is complete and accurate on or before the annual due date.
Notes :	Returned to compliance on 04/24/2017. Facility has failed to review HMBP annually.
Division :	Fresno County Department of Public Health

Source Description
Source Description : The Emission Inventory System (EIS) maintains an inventory of large stationary sources and voluntarily-reported smaller sources of air point pollution emitters. It contains information about facility sites and their physical location, emission units, emission processes, release points, control approaches, and regulations. Facility inventory data are kept separate from the emissions data and have stable identifiers to improve continuity from year to year and to help identify duplicate or missing facilities.
The RMP database stores the risk management plans reported by companies that handle, manufacture, use, or store certain flammable or toxic substances, as required under section 112(r) of the Clean Air Act (CAA).

Source Description

Source Description :

The California Environmental Reporting System (CERS) is a statewide web-based user and information exchange system to support over 140,000 regulated businesses and over 130 local agencies in electronically collecting and reporting significant hazardous materials, hazardous waste and compliance and enforcement data as mandated by California law. Under oversight by Cal/EPA, certified local governing agencies (Unified Program Agencies - UPAs) consolidate, coordinate and provide consistent regulatory activities for six state and federal environmental programs.

The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), and Toxic Release Inventory (TRI).

Source Description :

The Emission Inventory System (EIS) maintains an inventory of large stationary sources and voluntarily-reported smaller sources of air point pollution emitters. It contains information about facility sites and their physical location, emission units, emission processes, release points, control approaches, and regulations. Facility inventory data are kept separate from the emissions data and have stable identifiers to improve continuity from year to year and to help identify duplicate or missing facilities.

Source Description :

ICIS provides a database that, when complete, will contain enforcement and compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions and a subset of the Permit Compliance System (PCS), which supports the National Pollutant Discharge Elimination System (NPDES). This information is maintained in ICIS by EPA in the Regional offices and at Headquarters. A future release of ICIS will completely replace PCS and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities that support compliance and enforcement programs, including incident tracking, compliance assistance, and compliance monitoring.

County :	Fresno

Site Details

Status Date :	2008-11-26
Status :	Completed - Case Closed
Begin Date :	1989-01-01
Global ID :	SLT5FS034423
Region :	REGION 5F
Site History :	25 May 2008 submitted by RP defined the downgradient limit of the PCE groundwater plume, and demonstrated that PCE in concentrations in water have decreased from a maximum of 24 µg/L in 2001 to less than 0.2 µg/L in 2007. RP requested closure for the site.

Comments :

RAW/CEQA/RA -- PLEASE SEE COMMENT BELOW. RAW/SOIL -- THE DEPARTMENT OF TOXIC SUBSTANCES CONTROL (DTSC) HAS APPROVED A REMOVAL ACTION WORK PLAN (RAW) PREPARED BY PERFORMANCE EXCAVATORS FOR THE SELMA ELECTROPLATING SITE. THE RAW RECOMMENDS EXCAVATION , TRANSPORTATION AND DISPOSAL OF APPROXIMATELY 500 TONS OF CHROMIUM CONTAMINATED SOIL TO CLEAN HARBORS HAZARDOUS WASTE DISPOSAL FACILITY IN BUTTONWILLOW. THE CONTAMINATED SOIL WAS DISCOVERED BY DTSC WHEN THE FORMER METAL PLATING FACILITY WAS DEMOLISHED AND THE CEMENT FLOOR WAS REMOVED LAST YEAR. THE SOIL REMOVAL WAS CONSIDERED TIME CRITICAL BECAUSE OF THE POTENTIAL FOR HIGHLY SOLUBLE CHROME SIX TO CONTAMINATE UNDERLYING GROUNDWATER DURING THE WINTER RAINY SEASON. CEQA/SOIL -- DTSC HAS COMPLETED AN ENVIRONMENTAL QUALITY ACT (CEQA), NOTICE OF EXEMPTION (NOE) FOR THE RAW PREPARED FOR THE SELMA ELECTROPLATING SITE. THE NOE STATES THAT THE PROJECT IS EXEMPT BECAUSE THE INTERIM MEASURE IS NECESSARY TO ENSURE THE DECLARED IMMINENT AND SUBSTANTIAL ENDANGERMENT (I&SE) DOES NOT RESULT IN A GROUNDWATER THREAT AND WILL BE DONE IN A MANNER THAT WILL CAUSE A THREAT TO

Source Description

Source Description :

The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), and Toxic Release Inventory (TRI).
DTSC EnviroStor is an online search and Geographic Information System (GIS) tool for identifying sites that have known contamination or sites for which there may be reasons to investigate further. The EnviroStor database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites.

Source Description

Source Description :

DTSC EnviroStor is an online search and Geographic Information System (GIS) tool for identifying sites that have known contamination or sites for which there may be reasons to investigate further. The EnviroStor database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites.

FRS Environmental Interest

Source and System ID : CA-ENVIROSTOR - 10490093

VCP - CA

Facility Name : PG&E MANUFACTURED GAS PLANT SQ-FK-SEL
Facility Address : BLOCK: NORTH,SHERMAN,SYLVIA,YOUNG STREET, SELMA, CA 93662
County : FRESNO

Cleanup Date : 2013-12-20
Cleanup Status : Certified
Site Type : Voluntary Cleanup
Site Type Detailed : Voluntary Cleanup
Acreage : 2.94
APN : NONE SPECIFIED
National Priorities List : NO
Regulatory Agencies Involved : DTSC - Site Cleanup Program; RWQCB 5F - Central Valley; FRESNO COUNTY
Lead Agency : DTSC - Site Cleanup Program
Project Manager : N/R
Supervisor : Kevin Shaddy
Office : Cleanup San Joaquin
Envirostor ID : 10490093
Site Code : 100302
Assembly : 31
Senate : 14
Congressional District : 21
Special Program : Voluntary Cleanup Program

Map Id: 58
Direction: ESE
Distance: 0.813 mi., 4293 ft.
Elevation: 308 ft.
Relative: Higher

FEDERAL CERCLIS LIST

CERCLIS NFRAP: The CERCLIS sites with No Further Remedial Action Planned from the CERCLIS program database. The Environmental Protection Agency decommissioned the CERCLIS data in 2014. The last update was November 12, 2013.

Agency Version Date: 01/28/2022
Agency Update Frequency: Quarterly
Planned Next Contact: 07/22/2022
Agency: U.S. Environmental Protection Agency
Agency Contact: 800-424-9346
Most Recent Contact: 04/26/2022

FEDERAL CERCLIS LIST (cont.)

CERCLIS-HIST: The CERCLIS program database contains information on the assessment and remediation of federal hazardous waste sites. The Environmental Protection Agency decommissioned the CERCLIS data in 2014. The last update was November 12, 2013.

Agency Version Date: 01/28/2022
Agency Update Frequency: Quarterly
Planned Next Contact: 07/22/2022
Agency: U.S. Environmental Protection Agency
Agency Contact: 800-424-9346
Most Recent Contact: 04/26/2022

EPA SAA: Listing of Sites with Superfund Alternative Approach Agreements.

Agency Version Date: 11/01/2021
Agency Update Frequency: Quarterly
Planned Next Contact: 07/21/2022
Agency: U.S. Environmental Protection Agency
Agency Contact: 800-424-9346
Most Recent Contact: 04/25/2022

FEDERAL FACILITY: Sites where Federal Facilities Restoration and Reuse Office (FFRRO) arranged cleanup for Base Closure and Property Transfer at Federal Facilities

Agency Version Date: 01/28/2022
Agency Update Frequency: Varies
Planned Next Contact: 07/22/2022
Agency: U.S. Environmental Protection Agency
Agency Contact: 703-603-8712
Most Recent Contact: 04/26/2022

SEMS_8R_ACTIVE SITES: The Active Site Inventory Report displays site and location information at active SEMS sites. An active site is one at which site assessment, removal, remedial, enforcement, cost recovery, or oversight activities are being planned or conducted. NPL sites include latitude and longitude information. For non-NPL sites, a brief site status is provided.

Agency Version Date: 01/28/2022
Agency Update Frequency: Quarterly
Planned Next Contact: 07/22/2022
Agency: U.S. Environmental Protection Agency
Agency Contact: 703-603-8867
Most Recent Contact: 04/26/2022

SEMS_8R_ARCHIVED SITES: The Archived Site Inventory displays site and location information at sites archived from SEMS. An archived site is one at which EPA has determined that assessment has been completed and no further remedial action is planned under the Superfund program at this time.

Agency Version Date: 01/28/2022
Agency Update Frequency: Quarterly
Planned Next Contact: 07/22/2022
Agency: U.S. Environmental Protection Agency
Agency Contact: 703-603-8867

Q3 Flood Data

HYDROLOGIC UNIT
Hydrologic Unit Maps
USGS
The United States Geological Survey created a hierarchical system of hydrologic units originally called regions, sub-regions, accounting units, and cataloging units. Each unit was assigned a unique Hydrologic Unit Code (HUC). As first implemented the system had 21 regions, 221 subregions, 378 accounting units, and 2,264 cataloging units. Over time the system was changed and expanded. As of 2010 there are six levels in the hierarchy, represented by hydrologic unit codes from 2 to 12 digits long, called regions, subregions, basins, subbasins, watersheds, and subwatersheds. The table below describes the system's hydrologic unit levels and their characteristics, along with example names and codes.

Re: Parcel Line Adjustment No. 6486

This letter is intended as recognition on the part of Fresno County Resources and Development Department that your land transaction conforms with the provisions of Section 66412 (d) of the State Map Act. This letter does not divide your land, but is a recognition of your proposal to adjust your lot lines, resulting in no additional parcels being created.

This proposal will conform with the Subdivision Map Act upon completion of the transaction as proposed in the application on file, as no additional parcels of land are being created for the purpose of sale, lease or financing. Conveyance of any portion of this land, under separate deeds of trust, will result in violation of the State Map Act.

This determination is being based upon information submitted by the applicants or their representatives.

If you have any questions, please contact our office. The telephone number is (209) 453-5055.

Very truly yours,

Robin Tani

S.L.U.C. Bldg Area 2600
(✓ New Evaluation 7500
( ) Relocated from
Approved By Date 8/22/84

I, as owner of this property, would like to request an exemption to the building permit requirements. I understand that to qualify for this exemption, I must limit the use of the structure to the following: (check one)

- (✓ The housing of poultry, livestock, or similar animals; the storage of farm equipment, feed or supplies used on the farm; or the storage of crops grown on the property.
- ( ) The sale or processing of agricultural products grown on the property (maximum building area of 400 square feet).
- ( ) A greenhouse which is covered primarily by pliable plastic sheets.

I further understand that I am **not exempt from permit or inspection requirements** for the installation of any **plumbing or mechanical equipment**, or any **electrical wiring.**

Under the penalty of perjury, I declare that these statements are true to the best of my knowledge, and request that the construction of the described structure be exempted from all requirements of Title 15.08 of the Fresno County Ordinance Code. I hereby also authorize representatives of Fresno County to enter upon this property to verify the use of this structure.

RE; Violation #830320
8663 E. Floral Avenue

Dear Mr. Kurkjian:

On April 16, 1984, Parcel line adjustment application #6486 was approved to allow your lot line to be moved. When implemented, this adjustment will leave the storage building totaly on the smaller parcel.

Based upon this approval, we can now accept Engineered Building Construction Plans for review. Once the permit is approved, permits can be issued and inspections requested.

We will continue to hold action on this case in abeyance until May 15, 1984 to allow you time to submit the required plans.

Sincerely,

Dennis R. Ellis

RE: Violation Case No. 830320

Dear Mr. & Mrs. Kurkjian:

On March 16, 1983 the above referenced Notice of Violation was issued. This notice requested that you call our office within seven days to discuss the violation. Although you have contacted our office, the violation continues to exist.

In order to resolve this case at the departmental level, we are again requesting that you contact us to discuss the violation.

If this matter cannot be resolved within five working days, it will be forwarded to the County Attorney's Office. The County Counsel will be requested to initiate appropriate legal action to terminate the violation. No further notification will be forthcoming from this office prior to it's referal.

Sincerely,

Mr. John Shephard
P. O. Box 407
Selma, CA 93662

Dear Mr. Shephard:

Subject: Ag Exempt Permit for Phillip Kurkjian

Enclosed is an agreement and covenant which allows Mr. Kurkjian to retain the oversized Ag Exempt Building as long as the entire 40-acre parcel is being farmed as a unit. At a point in time when the property is sold or no longer used as a unit, the building must either be removed, relocated, or made to comply with all Fresno County Codes.

The agreement should be executed by all of the owners and return it to us for processing. Processing will include an application for an Ag Exempt Permit ($10 fee), recording of the agreement ($8.00 fee), and the payment of a $25 fee for the preparation of the agreement. After the appropriate signatures have been obtained, please ask Mr. Kurkjian to return the agreement with the appropriate fees.

If you have any questions, please call me. Your cooperation in this matter is appreciated.

Very truly yours,

Jerry K. Boren
Development Services Manager

JKB:jw

Enclosure

NOW, THEREFORE, in consideration of the County granting an Agricultural Exempt Permit to Phillip Kirkjian, all parties who have an interest in the subject parcels agree that upon termination of the land's use by Phillip Kirkjian, the building must be removed, relocated or all required land use clearance and building permits secured and inspections made to bring the building and properties into compliance with the provisions of the Fresno Ordinance Code.

The property owners assume full responsibility for bringing the building and properties into compliance and agree to pay all court costs and attorney's fees of the County of Fresno in the event legal action is initiated by the County to enforce this agreement.

It is understood this covenant shall run with the land and shall be binding upon the parties hereto and upon all future owners, heirs, successors, and assignees to the subject properties. Enforcement shall be by proceedings at law or equity against any person or persons violating this covenant, either to restrain violation or to recover damages.

CERTIFICATE OF EXEMPTION FROM WORKERS' COMPENSATION INSURANCE

(This section need not be completed if work is for one hundred dollars ($100) or less.)

I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the Workers' Compensation Laws of California.

Date 3-26-87 Applicant _____

NOTICE TO APPLICANT: If, after making this Certificate of Exemption, you should become subject to the Workers' Compensation provisions of the Labor Code, you must forthwith comply with such provisions or this permit shall be deemed revoked.

CONSTRUCTION LENDING AGENCY

I hereby affirm that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Div. C.).

Lender's Name _____

Lender's Address _____

I certify that I have read this application and state that the above information is correct. I agree to comply with all city and county ordinances and state laws relating to building construction, and hereby authorize representatives of this county to enter upon the above-mentioned property for inspection purposes.

LICENSED CONTRACTOR'S DECLARATION

I hereby affirm that I am licensed under provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect.

Lic. Number 621866 License Class A

Contractor KROEKER INC

OWNERS BUILDER DECLARATION

I hereby affirm that I am exempt from the Contractor's License Law for the following reason (Section 7031.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure prior to its issuance, also requires the applicant for such permit to file a signed statement that he is licensed pursuant to the provisions of the Contractor's License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500.00):

☐ I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or through his own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale).

☐ I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code: the Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractor's License Law.)

☐ I am exempt under Sec. _____ B.&P.C. for this reason

Owner _____

Date _____

WORKER'S COMPENSATION DECLARATION

I hereby affirm under penalty of perjury one of the following declarations:

☐ I have and will maintain a certificate of consent to self-insure for workers' compensation, as provided for by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued.

☒ I have and will maintain workers' compensation insurance, as required by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number are: ON FILE

Carrier _____ Policy Number _____

(This section need not be completed if the permit is for one hundred dollars ($100) or less)

☐ I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California, and agree that if I should become subject to the workers' compensation provisions of Section 3700 of the Labor Code, I shall forthwith comply with those provisions.

Applicant _____

WARNING: FAILURE TO SECURE WORKERS' COMPENSATION COVERAGE IS UNLAWFUL, AND SHALL SUBJECT AN EMPLOYER TO CRIMINAL PENALTIES AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS ($100,000), IN ADDITION TO THE COST OF COMPENSATION, DAMAGES AS PROVIDED FOR IN SECTION 3706 OF THE LABOR CODE, INTEREST, AND ATTORNEY'S FEES.

LICENSED CONTRACTOR'S DECLARATION

I hereby affirm that I am licensed under provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect.

Lic. Number 621866 License Class A

Contractor KROEKER INC

OWNERS BUILDER DECLARATION

I hereby affirm that I am exempt from the Contractor's License Law for the following reason (Section 7031.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure prior to its issuance, also requires the applicant for such permit to file a signed statement that he is licensed pursuant to the provisions of the Contractor's License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500.00):

☐ I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or through his own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale).

☐ I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code: the Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractor's License Law.)

☐ I am exempt under Sec. _____ B.&P.C. for this reason

Owner _____

Date _____

WORKER'S COMPENSATION DECLARATION

I hereby affirm under penalty of perjury one of the following declarations:

☐ I have and will maintain a certificate of consent to self-insure for workers' compensation, as provided for by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued.

☑ I have and will maintain workers' compensation insurance, as required by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number are ON FILE 10-1-03

Carrier _____ Policy Number _____

(This section need not be completed if the permit is for one hundred dollars ($100) or less).

☐ I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California, and agree that if I should become subject to the workers' compensation provisions of Section 3700 of the Labor Code, I shall forthwith comply with those provisions.

Applicant _____

WARNING: FAILURE TO SECURE WORKERS' COMPENSATION COVERAGE IS UNLAWFUL AND SHALL SUBJECT AN EMPLOYER TO CRIMINAL PENALTIES AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS ($100,000), IN ADDITION TO THE COST OF COMPENSATION, DAMAGES AS PROVIDED FOR IN SECTION 3706 OF THE LABOR CODE, INTEREST, AND ATTORNEY'S FEES.

LICENSED CONTRACTOR'S DECLARATION

I hereby affirm that I am licensed under provisions of Chapter 9 (commencing with Section 7000) of Division 8 of the Business and Professions Code, and my license is in full force and effect.Lic. Number 656741 Class A/C21 Contractor Bowen Engineering & Envir.

OWNER'S BUILDER DECLARATION

I hereby affirm that I am exempt from the Contractor's License Law for the following reason (Section 7031.5 Business and Professions Code). Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure prior to its issuance also requires the applicant for such permit to file a signed statement that he is licensed pursuant to the provisions of the Contractor's License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500.00).

☐ I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044 Business and Professions Code: The Contractor's License law does not apply to an owner of property who builds or improves thereon, and who does such work himself or through his own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale).

☐ I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractor's License Law).

☐ I am exempt under Sec._____ B&PC for this reason.

Owner_____ Date_____

WORKER'S COMPENSATION DECLARATION

I hereby affirm under penalty of perjury on of the following declarations:

☐ I have and will maintain a certificate on consent to self-insure for workers' compensation as provided for by Section 3700 of the Labor code, for the performance of the work for which this permit is issued.

☒ I have and will maintain workers' compensation insurance, as required by Section 3700 of the Labor Code for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number :

Carrier exempt Policy # 10/01/07 (This section does not need to be completed if the permit is for one hundred dollars ($100) or less.)

☐ I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the worker's compensation laws of California and agree that if I should become subject to the workers compensation provisions of Section 3700 of the Labor Code. I shall forthwith comply with those provisions.

Applicant E. Bowen

WARNING: FAILURE TO SECURE WORKERS' COMPENSATION COVERAGE IS UNLAWFUL AND SHALL SUBJECT AN EMPLOYER TO CRIMINAL PENALTIES AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS ($100,000), IN ADDITION TO THE COST OF COMPENSATION, DAMAGES AS PROVIDED FOR IN SECTION 3706 OF THE LABOR CODE, INTEREST, AND ATTORNEY'S FEES.

CONSTRUCTION LENDING AGENCY

I hereby affirm that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Div. C).
Lenders Name None

Address_____

City_____ State_____

I certify that I have read this application and state that the above information is correct. I agree to comply with all city and county ordinances and state laws relating to building construction, and hereby authorize representatives of this county to enter upon the above-mentioned property for inspection purposes.

Applicant or Agent E. Bowen
Date 11-7-06

THIS PERMIT SHALL EXPIRE BY LIMITATION AND BECOME NULL AND VOID IF THE WORK IS NOT COMENCED OR IF NO INSPECTIONS ARE COMPLETED WITHIN 180 DAYS.
