SUBJECT: **Notice of Availability of a Draft Supplemental Environmental Impact Report**

PROJECT: Tide's End Multibenefit Restoration Project (SCH#2024070944)

LEAD AGENCY: California Department of Water Resources
P.O. Box 942836
Sacramento, CA 94236-0001

Notice is hereby given that a Draft Supplemental Environmental Impact Report (Draft SEIR) prepared by the California Department of Water Resources (DWR) Division of Multibenefit Initiatives is available for public review.

Title: Tide's End Multibenefit Restoration Project (proposed Project)

Project Location: The 2,212-acre proposed Project area is located in the Sacramento Valley, at the fluvial-tidal interface in the downstream end of the Yolo Bypass, adjacent to the Cache Slough Complex in the Sacramento–San Joaquin Delta (Delta). The proposed Project area consists of all or portions of the following six properties: Capitol Oil (Assessor's Parcel Numbers [APNs] 033-440-006; 033-450-001; 033-190-010; 033-450-002; 033-450-005, Laurel G (APNs 033-220-052; 033-220-054), Yolo Basin (APN 033-220-046), Lucky Five South (APN 033-220-009), Kleary (APN 033-220-068), and Williams (APN 033-220-067).

Project Description: The Tide's End Multibenefit Restoration Project (proposed Project) is being developed to restore and enhance tidal wetland and floodplain habitat, support multibenefit land uses (including managed wetlands and floodplain agriculture), and maintain or improve flood conveyance in the Yolo Bypass. Tidal inundation would be restored by hydrologically connecting the site to the Toe Drain via a series of berm openings, berm lowering, and channel excavation. The restored habitats would enhance aquatic production and export for food web support and would facilitate volitional fish passage of juvenile salmonids and other native fishes accessing the proposed Project area's floodplain during high-flow events.

The proposed Project's restoration design elements include tidal wetland, transition zone habitat, floodplain habitat, managed wetlands, managed floodplain agriculture, site revegetation (including riparian communities), access improvements, as well as irrigation and drainage improvements.

Review: The Draft SEIR will be circulated for a 45-day public notice period beginning Tuesday, February 10, 2026, and ending Friday, March 27, 2026.

Written comments on the Draft SEIR are due no later than Friday, March 27, 2026. Please submit your written comments via mail or email to:

Department of Water Resources, Division of Multibenefit Initiatives
Attn: Judah Grossman, P.O. Box 942836, Sacramento, CA 94236-000
Email: tidesendmbp@water.ca.gov

Please use “Tide’s End Multibenefit Restoration Project Draft SEIR Comments” in the subject line. Also, if submitting comments on behalf of an agency, Tribal group, or organization, please include the name of a contact person and the name of the group from which the comments are coming. All comments received, including names and addresses, will become part of the official administrative record and will be available to the public.

The Draft SEIR is also available for review online on CEQAnet (<https://ceqanet.lci.ca.gov/>) and can be found through DWR’s website via the following link: <https://water.ca.gov/New/Public-Notices>.

Copies of the Draft SEIR are also available for review during normal business hours at the following locations:

Department of Water Resources, 3500 Industrial Boulevard, West Sacramento, CA 95691.
Documents will be available in the lobby.

Mary L. Stephens – Davis Branch Library, 315 E. 14th Street, Davis, CA 95616.

Draft SEIR Public Meetings:

In-person meetings will be held on:

Date: Monday February 23, 2026

Time: 10:30 am – 12:00 pm

Location: California Natural Resources Building, Media Room, second floor 2-201, 715 P Street, Sacramento CA 95814

Date: Tuesday February 24, 2026

Time: 5:00 pm – 6:30 pm

Location: Veterans Memorial Center, Club House, 203 E 14th Street, Davis CA 95616

Virtual Meeting (via Zoom) will be held on:

Date: Tuesday February 24, 2026

Time: 10:30 am – 12:00 pm
