	Project Description: (please use a separate page if necessity)	
Brain of Branchiston, (places upo a concrete page if page 2007)	rroject Description: (piease use a separate page if nece	zssary)

The Project proposes to demolish all on-site improvements, including the existing single family residential structure, and construct 79 new detached small lot homes on the 8.3-acre Project site, including a gated entrance, a common open space and recreation area, guest parking, and a detention/water quality basin. To accommodate this proposal, a General Plan Amendment and Zone Change are requested. The General Plan Amendment would change the land use designation from Low Density (2.1-6.0 dwelling units per acre (du/ac)) to Planned Development. The Zone Change would change the zoning classification from R-1 - Single Family Residential to PD - Planned Development. The proposed community would have a density of approximately 9.5 du/ac.
